

MAKE PUBLIC SUMMARY OF COVENANT

JAPANESE MASSACRE OVER ONE THOUSAND OF UNARMED KOREANS

Wrangling Over Language to Use For Peace Terms

PARIS, April 12.—A rather sharp contest has arisen over the question of the official covenant of the league of nations and also is extending speculatively to the peace treaty itself.

DEMobilIZATION REDUCES ARMY TO BELOW 2 MILLION

WASHINGTON, April 12.—The mobilization has reduced the total strength of the American army below two million.

Bolsheviki Are Ready to Agree on Their Terms

PARIS, April 12.—Bolsheviki Russia is ready, according to reports reaching here to agree to a suspension of hostilities and to a truce in the case of its opponents.

CHARGE SOLDIERS MAKE USE OF BOLSHEVIKI PROPAGANDA IN RECENT MUTINY IN RUSSIA

WASHINGTON, April 12.—Official reports to the war department, made public today by General March, chief of staff, show that the mutiny among the American troops at Archangel was directly suggested in part by bolshevik propaganda.

Says India Will Fight for Freedom If It's Necessary

CHICAGO, April 12.—"England must grant India home rule or India will free herself from her oppressors," Dr. N. S. Hardiker, secretary of the India Home Rule League, said here today in an address before the Irish Fellowship club.

SEVENTEEN KILLED MANY WOUNDED IN DUSSELDORF RIOT

COPENHAGEN, April 12.—The Berlin Zettig (The Blast) says 17 persons had been killed and 181 wounded in the fighting between troops and strikers at Dusseldorf up to last evening.

CONTINUED DECLINE IN SERIOUS ILLNESS IN AMERICAN ARMY

WASHINGTON, April 12.—Continued decline in the prevalence of serious diseases among troops at home and abroad is announced by the surgeon general for the week ending April 4.

AMERICAN RECEIVES A GUNSHOT WOUND

WASHINGTON, April 12.—The state department was advised today that J. P. Measdel, the American who was killed in an attack on a train near Tampico last Friday by Mexican rebels, received a gunshot wound in the shoulder.

NORMAL CONDITIONS RESTORED IN EGYPT BY GEN. ALLENBY

Cairo, Egypt, April 9.—Belief that the proclamation of General Allenby, the commander in chief in Egypt, releasing the Egyptian nationalist leaders, would lead to a restoration of normal conditions was dispelled yesterday when demonstrators who took a holiday of two days to celebrate the event became aggressive with the result that troops were called out and several persons killed.

CANADIANS APPOINTED TO SIGN PEACE TREATY

OTTAWA, Ont., April 12.—N. W. Rowell, president of the privy council in the house of commons, today announced that Sir Robert Borden, Sir George Foster, C. J. Doherty and Arthur Sifton have been appointed plenipotentiaries to sign the peace treaty at the conclusion of the peace conference on behalf of Canada.

DALLAS MAN ELECTED TO SUCCEED READ

ST. LOUIS, April 12.—The appointment of E. A. Elias of Dallas, Texas, as the representative of the Bell Telephone company, to succeed Ben S. Read, who has resigned to become president of the American States Telephone & Telegraph company, with headquarters at Denver, was announced here tonight.

BARON ROSEN SOUNDS NOTE OF WARNING

Former Ambassador Calls Attention to the Danger of Bolshevism.

GERMS ARE SPREADING Describes Situation Obtaining in Russia From Which He is an Exile.

NEW YORK, April 12.—Baron Rosen, formerly Russian ambassador to the United States and one of the peace plenipotentiaries who settled the war between Russia and Japan, in an address today before the Brooklyn chamber of commerce, his first public utterance since arriving in America an exile from his native land, declared that it was the "deadly poison of bolshevism which brought on the defeat of Russia and next of Germany."

TIMES CIRCULATION GROW STEADILY

The Times takes pride in its statement of "paid circulation" published today. The circulation statement shows the average for the six months preceding April 1, 1919, was 5792. This is an increase of 131, or practically 25 percent over the average for the six months preceding October 1, 1918.

SOVIET REPUBLIC IN BAVARIA HAS BEEN OVERTHROWN

BASLE, April 12.—The soviet republic in Munich was overthrown Friday by force of arms, the Nord Deutsche Allgemeine Zeitung of Berlin says.

American Army Was 21 Per Cent of Entire Front

WASHINGTON, April 12.—The American army in France on the day the armistice was signed held 83.4 miles of battle front, or 21 per cent of the entire line.

WILL RECOMMEND IMPEACHMENT OF GOVERNOR HARDING

DES MOINES, IOWA, April 12.—Impeachment of Governor W. E. Harding and exoneration of Attorney General H. M. Sawyer, in connection with charges growing out of their activities in the Rathbun pardon case, will be recommended to the Iowa House of Representatives next week by its judiciary committee.

SENTENCE WOMAN WHO WAS CHARGED WITH KILLING SON

MONTEZUMA, COLO., April 12.—Mrs. Nancy Joseph Bush today was sentenced to not less than ten nor more than eleven years in the Colorado penitentiary. On April 3 Mrs. Bush was found guilty of second degree murder on a charge of killing her son, John O. Bush with an axe.

DESTROYER MORRIS HAS BEEN LAUNCHED

QUINCY, MASS., April 12.—The destroyer Morris, named for Commander Charles Morris, who won distinction in the war against the Barbary pirates in 1805, was launched at Squantum today.

Provisions Protect Monroe Doctrine and Provide That Decisions of the League Must Be by a Unanimous Vote.

PARIS, April 12.—An official summary of the revised covenant of the league of nations issued tonight makes specific mention of the Monroe Doctrine with respect to its bearing on the future activities of the league. It says: "The covenant does not affect the validity of international agreements, such as treaties of arbitration or regional understandings like the Monroe Doctrine, for securing the maintenance of peace."

SAARE VALLEY IS GRANTED TO FRANCE

PARIS, April 12.—The council of four today definitely settled the problem of the Saare Valley. The valley will be granted to France in perpetuity to work the coal mines and other resources.

League of Nations Rejects Racial Equality Amendment Proposed by the Japanese

PARIS, April 12.—The league of nations commission has rejected the Japanese amendment on racial equality, according to an authoritative statement issued tonight.

LABOR PARTY OF ILLINOIS IS LAUNCHED

Platform of Principles Is Announced in Statement Saturday.

CONVENTION IS HELD

Declares Labor Basis of Political Responsibility and Power.

By Associated Press. SPRINGFIELD, Ill., April 12.—The labor party of Illinois today issued the following statement of its convention: Labor is the primary and just basis of political responsibility and power. It is not merely the right of the workers by hand or brain to become a political party. The labor party is destined to usher in the new day of freedom in the United States—freedom from the grind of poverty; freedom from the ownership of government by big business; freedom from the slave driving of workers by profiteers and freedom of the men and women who buy food and clothing and pay rent, from exploitation at the hands of the money kings of "kingship" America.

Organized workers are members of it. Unorganized workers are members of it. Clerks, housewives, newspaper men, farmers, school teachers, stockholders belong to it. Such heads of organizations and business concerns as are not exploiters or profiteers belong to it.

The first convention of the new state party enunciates the following program of issues to which it pledges itself, its members and its candidates:

Program of Issues.
Democratic control of industry and commerce for the general good of those who work.
The unqualified right of workers to organize.
The freedom from economic hazard which comes with a minimum wage based upon the cost of living.
A maximum working day of eight hours both for men and women.
Abolition of unemployment by reducing the hours of work still further.
Complete enfranchisement of women and equal pay for men and women doing similar work.
Reduction of the cost of living by the elimination of wasteful methods and profiteering.
Revision of State Constitution.
Complete revision of the state constitution.
Taxation of inheritances and incomes at a graduated rate progressing with their size and taxation of land values but not of improvements.
Public ownership and operation of all public utilities.
State aid to provide land and homes.
Abolition of employment of all children under the age of 16 years.
A democratic system of public education.
Old-age and health insurance, an adequate compensation law and a mother's pension.
Abolition of private employment of detective and strike employment services.
Abolition of the state senate.
Would Abolish Injunctions.
Abolition of the power of judges to issue and enforce injunctions in industrial disputes and trial by jury for contempt of court committed elsewhere than in the presence of the court.
No law to be declared unconstitutional by the supreme court unless three-fourths of the judges so decide.
Complete restoration at the earliest moment of all fundamental political rights—free speech, press, and free assemblies; the removal of all war restraints upon the interchange of ideas and the movement of people among communities and nations; and the liberation of persons held in prison or indicted under charges due to their championship of the rights of labor or their patriotic insistence upon the rights guaranteed to them by the constitution.

MEALS OF GIRLS AT THE UNIVERSITY COST LESS THAN 17 CENTS

Special to The Times. AUSTIN, TEX., April 12.—Table board at sixteen dollars a month? A tempting whiff of variety of food at less than seventeen cents a meal? It can't be done? Oh, yes, it can.

At the University of Texas Woman's building this is the phenomenally low charge made for some hundred and fifty girl students for their regular board. Miss Anna L. Hendricks, who has held the position of business manager of the building for the last nine years, has been so successful in her work and has brought about such favorable results to all parties concerned that the question is continually asked: How does she do it?

"I hardly know how I do manage," said Miss Hendricks. "Of course it is harder to furnish meals this year—sixteen dollars than it used to be for fourteen; the pre-war price. For instance, I have to pay four times as much for meat as I did then, and other things are even higher. However, I think I don't have any trouble unless something happens unexpectedly, such as the necessity for a new roof."

The secret of Miss Hendricks' success lies not in a complicated system but in careful attention to seemingly minor details. Her foodstuffs are bought in large quantities and hence at a reduced price. In calculating for the various meals she figures closely, avoiding wasteful surplus. No good food is thrown away. And yet, in spite of these facts, the management of the establishment is rather remarkable and worthy of attention.

RESTRICTIONS ON RADIO ARE TO BE MODIFIED

WASHINGTON, April 12.—All restrictions upon the use of radio receiving stations other than those used for commercial traffic, will be removed on and after April 15, Acting Secretary Roosevelt announced today. The order applies to amateur, technical, experimental and other stations. The restrictions on transmitting stations of those types will remain in effect.

LABOR PLAYS AN IMPORTANT PART AT PARIS

Commission Submits Recommendations to Peace Conference.

TO ESTABLISH OFFICE

Will Be Located at Seat of the League of Nations as Part of Program.

By Associated Press. PARIS, Friday, April 11.—The report of the commission on international labor legislation, containing a draft convention creating a permanent organization for promoting international regulations of labor conditions, a recommendation for an international labor conference and details of labor terms to be inserted in the peace treaty was presented this afternoon at the plenary session of the peace conference.

The report aims to provide against lowering of labor conditions by permitting fierce competition after the war and permanent international labor conference.

The commission appointed at the plenary session of the peace conference January 18 consisted of fifteen members. The report, finished March 24, was made public April 3. Samuel Gompers, president of the American Federation of Labor, acted as general chairman.

The entire consideration of the peace conference centered in the belief that universal peace could be established only on a social justice.

Preamble of Report.
The preamble of the report says: "Conditions of labor exist involving such injustice, hardship and privation to large numbers of people as to produce unrest so great that the peace and harmony of the world is imperiled and the improvement of those conditions is urgently requested as for example by regulation of hours of work, including the establishment of a maximum working day and week, regulation of the labor supply, prevention of employment, provision of an adequate living wage, protection of the worker against sickness, disease and injury arising out of his employment, the protection of children and young persons and women, provision for old age and injury, protection of interests of workers when employed in other countries than their own, recognition of the principle of freedom of association and organizing of technical, vocational, educational and other measures."

To Establish Labor Office.
The report says that an international labor office is to be established at the seat of the league of nations as a part of the league to collect and distribute information on the international adjustment of conditions of industrial life and labor; subjects which it is proposed to bring before the conference, the conduct of special investigations as ordered by the conference, the publication in the French, English and other languages and generally to act as a clearing house on matters of international labor.

Machinery also has been provided by which a state failing to carry out its obligations may be subjected to pressure. An industrial association of employers or workers, may make representations to the international labor office, which governing body may communicate to the state criticized. If a satisfactory reply is not received the correspondence may be published which, the report says probably would create considerable material pressure.

PARTY OF GERMANS HAVE NO DESIRE FOR THEIR NATIVE LAND

By Associated Press. PARIS, April 12.—Between thirty and forty Germans who were brought here under contract about a year ago from an internment camp, to get out timber for a local hand factory, have signified their willingness to take up naturalization papers and become citizens of the United States.

This was brought out when instructions from the government were received by the manager of the hand factory to ascertain how many of the Germans wished to return to Germany in order that transportation could be arranged.

All of the Germans stated they had no desire to return to Germany but would rather remain in this country if the government would permit.

WANT BANKS TO AID IN CHECKING EXODUS FROM THIS COUNTRY

By Associated Press. YORK, April 12.—All the savings banks in the United States are asked in letters sent out today by the National Association of American Bankers to aid in checking the exodus from this country of thousands of aliens who are selling for their native lands with millions of American dollars. To bolshevik propaganda, the association attributes an "alarming" proportion of the fourteen million foreign born population in the United States selling their Liberty bonds and withdrawing their money from the banks.

COURT OFFICER NOT PERMITTED TO ACT AS AGENT OF DEPOSITORY
By Associated Press. AUSTIN, April 12.—A county officer can not act as an agent for the county depository, according to an opinion of the attorney general, for he is prohibited from being peculiarly interested in a contract with the county.

Another opinion holds that the county depository is only entitled to retain county deposits 60 days from the day of the convening of the commissioners court at the February term thereof next following the general election.

"VICTORY MEDAL" DESIGNED FOR SOLDIERS IN ACTIVE SERVICE

By Associated Press. WASHINGTON, April 12.—After prolonged conferences with all the allied governments, General March announced today, a design has been approved for issuance to every soldier who participated in the great war on the Allied side of a "Victory Medal" in commemoration of his service to civilization.

The obverse side of the medal will bear a winged victory and on the reverse will be in the language of the country by which it is issued, the words "The great war for civilization and the arms of the Allies." A campaign ribbon also has been adopted to consist of a "double rainbow" series with the red in the center. This ribbon will be similar for all armies and is to be issued in the U. S. army only.

A lapel button for civilian wear also has been adopted.

The engagements selected by General Marching to be mentioned in the discharges of soldiers who participated in them are as follows: Somme offensive, 21st March-6th April; Lys defensive, 9th April-27th April; Aisne defensive, 9th April-27th April; Aisne offensive, 18th August-11th November; Ypres offensive, 19th August-11th November; St. Mihiel offensive, 12th September-16th September; Meuse-Argonne offensive, 26th September-11th November; Battle of Vittorio Veneto, Italy, 24th October-4th November, 1918.

"We propose," said General March, "to award this medal to all officers, enlisted men, field clerks and army nurses who served on active duty for at least 15 days at any time between April 6, 1917, and November 11, 1918, in the army of the United States and whose service in the army was honorable."

"As it will take some little time to develop the medal itself, the ribbon will be awarded first as it can be produced. We expect to be able to start furnishing the ribbon in a relatively short time."

MAJ. GEN. FLAGLER TO COMMAND CAMP BOWIE

By Associated Press. WASHINGTON, April 12.—Major General Clement A. Flagler, who was in command of the 42nd (Rainbow) division was assigned today to command Camp Bowie, Texas, effective about April 25, and Major General Charles F. Farnsworth was appointed to command Camp Benning, Georgia.

SITUATION IN BOHEMIA BORDERING ON FAMINE

By Associated Press. BERNE, April 12.—The food situation in Bohemia is so serious that the Czechs-Slovaks are threatened with famine, writes a correspondent from Prague. That city, the normal population of which is about 600,000 now has between 300,000 and 1,000,000 inhabitants and this sudden influx has caused extraordinary difficulties in providing food.

The last reserves of flour and other bread constituents will be exhausted within a few weeks. Coal is so scarce that the ration is reduced to two pounds a day for each family sufficient for the most elementary necessities of cooking. There is utter lack of meat. The deficiency in potatoes is estimated to be nearly 300,000 tons. Rice, coffee, tea and other foodstuffs have disappeared from the country.

The mortality rate at Prague among children under 14 years of age attains the appalling figure of 40 per cent, as compared with approximately 10 per 1,000 in normal times. The mortality rate among child-bearing women has increased from three per cent to 34 per cent.

Were you in the "middle of things" where you came from? Hear about it at the First Presbyterian church this morning, Special music. 268-11c

When you make your banking home with the National Bank of Commerce you will find that everything that can be done to make the handling of your affairs pleasant and satisfactory will be done, whether your deposits are small or large. 286-1

An American automatic telephone system has been established in Simla the summer capital of India.

An almost automatic device has been invented for measuring dry goods in bolt form without unrolling.

PLANS READY FOR VICTORY LOAN DRIVE

Publicity Committee Will Thoroughly Advertise in County.

BURKBURNETT ACTIVE

H. Finley Weldon is Chairman of Speakers Bureau for the Campaign.

The publicity committee of the Victory Loan, headed by J. Wilkie Talbert as chairman, is to begin its campaign on Monday, and the entire city of Wichita Falls will be plastered up with Victory Loan posters, placed in business houses, and homes, alike, by the Boy Scouts, according to the official plan of action. A similar course is to be taken in every town in Wichita county. Alex H. Britain, the county chairman, stated Saturday at Electric one of the ministers of the town. Rev. Mr. Crutchfield, is also scout leader and he has already mapped out a course for the Electric Scouts participation in the Loan drive. This includes a parade with an old cannon, which is a cherished relic at Electric. H. Finley Weldon will be chairman of the speakers bureau for the county, and will be called on to make out his committees and hold them ready for service at any time and at any place needed. The speakers bureau has proven itself invaluable heretofore, and is expected to do the same at this time.

Quota Not Assigned.
No new correspondence has been had from the district headquarters, and the county's quota has not yet been set. Pending the announcement of the quota Mr. Britain and his committee can only work in a general way preparatory to the campaign, but there can be no apportioning of the town quotas, which involves a great amount of work, until the county amount is named.

Burkburnett's organization was by a measure perfected, Friday afternoon. Mr. Britain stated Saturday. Mr. Britain, W. M. McGregor and W. C. Cline visited Burkburnett in the afternoon and conferred with business men of the town on the subject of the Loan. C. C. Cabiness was named as chairman, and the following committee will assist him: A. A. Richards, I. E. Harwell, W. Daniels, H. C. Cooper, W. Phillips, Rev. Mr. Cook, J. W. Ross, J. P. Roodhouse, E. J. Woodward, T. J. Furniss, J. R. Lackey, Floyd Covington, M. C. Anderson, Hy Willis, August Lohoefer, J. A. Staley, C. A. Walling, W. E. Thomas, E. H. Daniels and Forrest Higsby.

BOND ISSUE FOR SCHOOL PURPOSES CARRIES 77 TO 3

Tax paying voters of Wichita Falls Saturday gave their approval to bond issue of \$100,000 for building additions to present school buildings and for the building of new school buildings. The vote was very light but was overwhelmingly in favor of the bond issue. Eighty votes were polled. Only three were against the bonds. The school board will call for bids at once on plans and specifications that have already been tentatively adopted.

MILLION JOBS WAITING IN FARMING DISTRICTS

By Associated Press.
CHICAGO, April 12.—A million jobs are waiting for applicants in the farming districts of the country, according to R. D. Bailey, representative of the United States Department of Agriculture who has been conducting a campaign at the Great Lakes Naval Training Station to interest service men in farm work. "Mr. Bailey says that the Department of Agriculture statistics to date show a minimum of 1,000,000 waiting applicants," says the Bulletin, official paper of the Station.

While other representatives of the department have visited Great Lakes their mission has been to interest the men in taking up and purchasing lands. Mr. Bailey was sent by the department to present the crying need for help on farms to sailors, especially to those who have come from the farming section. This class has shown a tendency to try for jobs in the larger centers of population. Mr. Bailey stated that in the middle west sections the wages have been standardized to about \$60 per month with board and washing and higher.

REPORT ON CONDITION OF RESERVE BANKS

By Associated Press.
WASHINGTON, April 12.—With a reduction of \$6,700,000 in reserves and an increase of \$84,000,000 in government deposits, in federal reserve banks, the percentage of reserves to net deposits and federal reserve net liabilities fell 11 per cent within the past week. The weekly statements showing the condition at the close of business last night was as follows:
Reserves.
Total gold held by banks \$945,358,000.
Total gold reserves \$2,142,880,000.
Total reserves \$2,211,959,000.
Total bills on hand \$2,186,514,000.
Total resources, \$5,272,634,000.
Total gross deposits \$1,114,229,000.
Total liabilities \$5,272,634,000.

Whether you have much or little banking to transact you are equally welcome to make use of the up-to-the-minute facilities provided by the National Bank of Commerce—the bank whose service makes and keeps friends. 286-1

K. OF P. ANNOUNCE WORK IN RANK OF KNIGHT THIS WEEK

The Knights of Pythias held a very entertaining session last Wednesday evening and conferred the rank of Esquire on three candidates. Two K. P. funerals were held this past week, one for A. J. Blackwell, of 1375 1/2 Eighteenth street, who was buried Sunday, and the other for the wife of Brother T. W. Scott, who was buried Thursday afternoon. Both deaths resulted from pneumonia following the influenza. There will be work in the rank of Knight on next Wednesday evening and a good attendance is desired.

WOMANS GUILD MEETING HELD MONDAY AFTERNOON

The Womens Guild met Monday afternoon at Parrish House was Mrs. Bibb as leader. Meeting was opened by Mrs. Sammons and after the devotional exercises, the afternoon was spent in hearing reports from the committees on the Apron Bazaar and food sale to be held at the North Texas Furniture Store Saturday, April 19. Mrs. Posenphok, chairman, reported an unusually large contribution of beautiful aprons and pillow cases turned in, and Mrs. Inge had an appetizing list of "eats" for the sale. The next meeting will be with Mrs. Bashara, April 14.

Whether you have much or little banking to transact you are equally welcome to make use of the up-to-the-minute facilities provided by the National Bank of Commerce—the bank whose service makes and keeps friends. 286-1

BOND OF \$20,000 IN A PRELIMINARY HEARING SATURDAY

Bond of \$20,000 was fixed by Justice of the Peace C. J. Arrington Saturday afternoon at the close of a preliminary hearing of charges against Thomas Sattie, accused of a statutory offense.

The prosecuting witness, whose home is in Iowa Park, and her father were the only witnesses examined by District Attorney Jones. Sattie waived examination, and received permission from the court to telegraph friends in Fort Worth and Iowa Park to obtain the bond required.

MISS DAY TO PRESENT PUPILS IN RECITAL

Miss Ella Day will present her Junior pupils in a recital at the High school auditorium Friday evening at 8:30. They will be assisted by Miss Katherine Cook's piano pupils. The public is cordially invited.

Whether you have much or little banking to transact you are equally welcome to make use of the up-to-the-minute facilities provided by the National Bank of Commerce—the bank whose service makes and keeps friends. 286-1

BREVITIES

George L. Woodward, formerly of this city and owner of real estate both here and in Electric, was in town Saturday. Mr. Woodward is connected with several real-estate and well companies, and now makes his home in Tulsa, Okla.

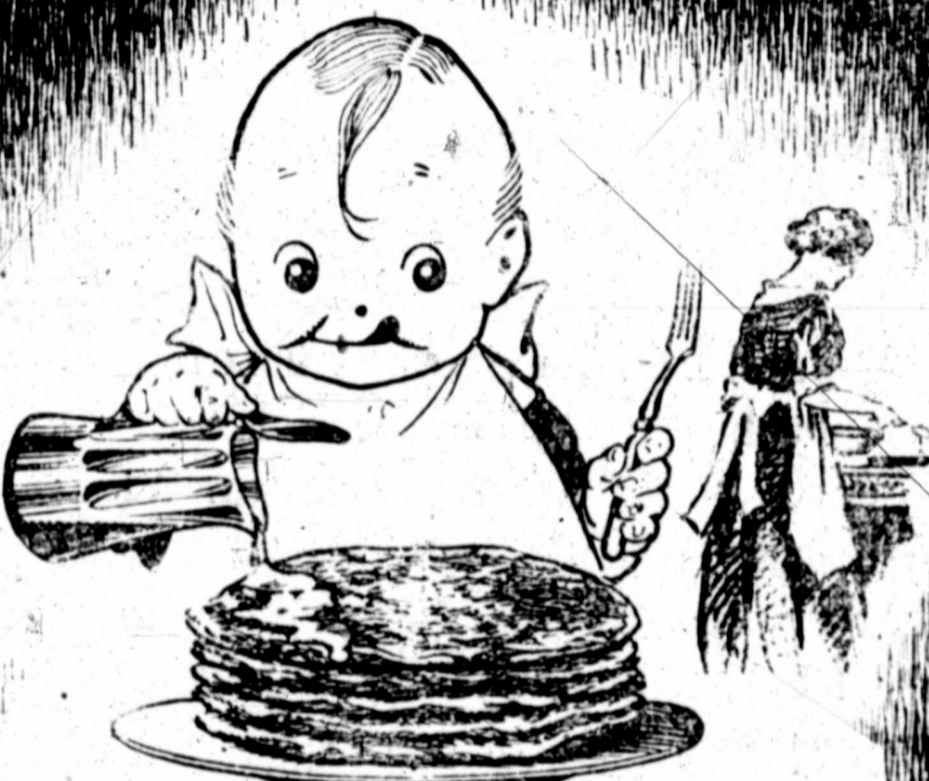

Erinson Hammett of Chicago, returned home Saturday, after a three days' visit with his friend, W. Newton Maer.

Misses Vera Hamberg and Alma Vagnon of the Wichita General Hospital will return today from Dallas where they went to attend the funeral of Father Buckner which was held in that city yesterday.

Mr. and Mrs. Lydian B. Mitchell have received word that their son, Wm. Summers Maple, Co. D 37th Engineers, has been demobilized from Camp Grant, Ill., he having enlisted from Chicago over a year ago and going to France in June, 1918. His younger brother, Alphonse Maple, was released from the naval training school on Mare Island, Cal., the last of January and visited here before returning to Chicago to finish his last year at high school there.

Mrs. C. R. Smith and daughters, Mozelle and Lenora, returned Saturday from a short visit with relatives in Dallas. Mrs. Geo. W. Southall Jr., who has been with her parents, Mr. and Mrs. S. E. Garrard left Thursday for Nashville, Tenn., where she will join her husband, Lieut. Southall, who has recently returned from overseas.

When you make your banking home with the National Bank of Commerce you will find that everything that can be done to make the handling of your affairs pleasant and satisfactory will be done, whether your deposits are small or large. 286-1

GRIDDLE CAKES

Light, tender, golden brown, full of goodness—just the kind that satisfies—the sort you can't get enough of, when you use

CALUMET BAKING POWDER

"BEST BY TEST"

The greatest advancement ever made in the manufacture of baking powder—so perfectly made that you're always sure of the very best baking results. Its leavening strength never varies. The last spoonful as good as the first. No failures. It raises the quality of your bakings and reduces baking costs.

It is sold at a moderate price and you use only half as much as of most other powders.

A product of the world's largest, finest, most sanitary baking powder factory. Used in the U. S. Army and Navy—by the most eminent Domestic Scientists—in more homes than any other brand. Its superiority has made it America's leading seller.

CALUMET GRIDDLE CAKES

- 2 — Level cups flour
- 2 — Level teaspoons Calumet Baking Powder
- 1/2 — Teaspoon salt
- 1 — Level tablespoon sugar
- 2 — Level tablespoons melted shortening
- 2 — Eggs, yolks
- 1 1/2 — Cups milk or water

How to Make Them: Mix dry ingredients in flour. Beat egg yolks and melted shortening in the liquid, add only a part of the liquid, mix until smooth. Then add gradually the balance of the liquid until batter is of the proper consistency. According to the strength of the flour more or less liquid is required. Bake on hot griddle well greased.

Paste in your Recipe Book for future reference.

Have You Noticed This?

When you buy a pound of Calumet you get a full pound—16 oz. Some high priced baking powders are now being put on the market in 12-oz. cans instead of a pound. Be sure you are getting a pound when you want it. No short weights with Calumet.

ENFORCEMENT OF WARTIME DROUTH NOT FOR BUREAU

By Associated Press. WASHINGTON, April 12.—Enforcement of wartime prohibition which becomes effective July 1 is not lodged with the Internal Revenue Bureau or with any other government agency, but is merely left to United States attorneys, Revenue Commissioner Daniel C. Roper declared today after analysis of all statutes and regulations.

Intimation that because of the apparent difficulty of enforcement the President or Congress might be called on to postpone the law's operation, was given by Mr. Roper in a statement saying that "the issuing of licenses for the manufacture prohibited by the wartime prohibition act will naturally cease with July 1, assuming, of course, that neither the President nor the Congress stays the operation of that law."

In this connection, it became known today that a number of administration officials and advisers of the President had recently urged him to prevent prohibition from going into effect July 1 by proclaiming the completion of demobilization by that time. This view is understood to include Commissioner Roper, who is represented as believing prohibition cannot be enforced adequately without specific legislation establishing an enforcement agency.

After explaining in a statement that congress had failed to pass bills authorizing duration of the war time prohibition approved last November Mr. Roper said:

"Enforcement of the prohibition contained in the act, therefore is not placed with the commissioner of internal revenue or lodged anywhere by the government, but is naturally left to the United States attorneys to enforce by prosecution under the section of act which provides that 'any persons who violates any of the foregoing provisions shall be punished by imprisonment not to exceed one year, or by fine not to exceed \$1,000 or both such imprisonment and fine.'"

"An analogous situation exists by the failure for congress to enact at the last session the necessary legislation and provide the necessary enforcement of wartime prohibition," Mr. Roper declared.

Existing Laws in Effect.

"Existing revenue laws with regard to sale, will, of course, remain in force until repealed by congress. Their enforcement will continue to be given the vigorous attention of internal revenue officers until repealed."

This statement of Commissioner Roper puts a new element into the status of prohibition between July 1 and January 16, when the prohibition constitutional amendment becomes effective. Some officials say this uncertainty might be partly dissolved by special legislation if a special session of congress is called soon.

JAPANESE AGENTS BUY AMERICAN DISTILLERIES

LOUISVILLE, KY., April 12.—Japanese agents are negotiating with American distillers for the purchase of machinery in the plants after prohibition becomes effective. The machinery would be shipped to Japan for use in distillation of whiskey there, according to Y. Kawahara, agent for a Japanese-American importing concern.

A bill before the Japanese Diet would prohibit use of rice in the manufacture of sake, the Japanese national drink. Japanese distillers now want foreign made machinery in which corn and other cereals can be substituted for rice, Kawahara said. He added that 24,000,000 bushels of rice are used annually in making 300,000,000 gallons of sake.

American distillers are reluctant to sell their machinery now, in view of the suit to test the constitutionality of the prohibition law.

TELLS OF POLAND'S NEEDS

IGNACE JAN PADEREWSKI

Ignace Jan Paderewski, the Premier of Poland, hints that country is tired of delay. He is now in Paris and says Poland needs Danzig and Tischen.

ORPHANS HOME AND MISSION FUND ARE INCLUDED IN WILL

DALLAS, TEX., April 12.—The will of the late C. C. Birkner, Texas pioneer cattleman, disposing of \$2,000,000 was filed for probate here today. Birkner's orphan home and the state Baptist mission fund were each named as beneficiaries for \$10,000 and the remainder was among the immediate relatives.

BARON ROSEN SOUNDS NOTE OF WARNING

(Continued from page 1, part 1.)

maintain their tyrannical power by a regime of terrorism such as the world has never seen, who have completely ruined and destroyed the social fabric of the state and who have turned what was once the empire of Russia into a wilderness of primitive barbarism, a prison, a lunatic asylum, and a slaughter house."

Germ Present Everywhere.

"The germs of this deadly disease, bolshevism, although lying dormant, were present and are still present everywhere," said the speaker, "bred and nurtured by the atmosphere of social unrest, an inevitable accompaniment of the wonderful achievements of modern civilization, which are doing so much to emphasize and render more glaring the contrast between the luxury and ease of the few and the want and limitations of the many, condemned to a life of incessant toil, joyless monotony and anxious insecurity."

Defeat of the Russian army did not cause the "disease", Baron Rosen explained, declaring that "it was the prolongation of the war with its attendant sufferings and misery which created among the fifteen million to seventeen million Russian soldiers and sailors, the condition leading up to the revolution of March, 1917, which although inspired by the duma leaders from the very opposing motives, was actually accomplished by the multitudinous masses and revolutionary workmen of Petrograd and was an expression of the revolt of the people against the war."

Gain Support With Promises.

The speaker said the speaker, promised relief and this gained the support of the people. Quoting from a letter which he wrote to a friend in Petrograd in July, 1917, Baron Rosen said that the tolling masses of

the world were awakening to the fact that "the awful crime of the war and its prolongation has been and is being forced on them by their rulers as an outcome of policies which to these people representing the tempting outcome of power, of hegemony, of prestige, of revenge, of markets and of expansion, but which to the masses present themselves merely as Shibboleths devoid of meaning of terms of the life of the plain men and women, for the pursuit of which, however, they have had and still expect to have to pay with the lives of millions of their sons and brothers, with millions upon millions of ruined homes and with all the untold suffering and misery wrought by such a war upon such a gigantic scale."

"It further means," Baron Rosen

read from his letter, "that when the day of their final awakening shall have dawned upon the masses they will make it a day of reckoning with their rulers and that present fratricidal war between the nations may resolve itself into a fratricidal and suicidal war between the masses and the classes within nations."

Discussing the problem of the immediate future of Russia, the former ambassador said "it is 'one of unexampled difficulty.' Its solution is required in the interest of all mankind," he declared, adding that "if bolshevism be not now extirpated root and branch and if it is suffered to spread any further it might ultimately come to mean the doom of our race and civilization."

"The task of seeking such a solu-

tion," said he, "should be approached in a spirit entirely free from partiality and from the passions of international hatred bred by the war."

"For the present the only glimmer of hope seems to lie in the evolution out of the prevailing chaos of a military dictatorship such as must always be the outcome of a prolonged state of anarchy, if the teachings of history are to be believed. Some indications of the possibility of a similar development are already discernible. Admiral Kolchak, the head of the Siberian government, having of late secured the submission to his authority of General Denikin of the Kuban Cossacks and Krasnoff of the Cossacks of the Don, has, it seems, begun to use in his public utterances the firm language of a dictatorship com-

scious of his power and determined to render his will supreme."

MAJOR ATKINSON GIVES EXPRESSION TO APPRECIATION

THANKFUL FOR THE SPLENDID
CO-OPERATION OF PEOPLE
OF THE CITY.

PRaises THE RED CROSS

Says Every Call Made Upon The Or-
ganization Found a Ready
Response.

"I desire to express my appreciation to the citizens of Wichita Falls for their co-operation with the hospital authorities at Call Field during my stay in charge of the hospital since the camp was opened," said Major Curtis Atkinson Saturday, while making preparations to leave, having been relieved from his duties at the local camp.

"I want especially to thank the ladies of the Red Cross Canteen Service, and Mrs. J. W. Lee and Mrs. A. H. Britain and others of the Mothers Congress hospital visiting department, who visited the hospital with duties and reading material. These ladies did more than they perhaps realize in their visits for the morale of those in the hospital, and neither myself, nor any of the hospital attendants nor the patients themselves will ever forget them. In the beginning there were many things that the Red Cross, and the people of Wichita Falls did for the hospital, and they continued their kindness on every possible occasion. We of the camp appreciated this very much, and said so at the time, but are glad of another opportunity of expressing our gratitude. No call on the Wichita Falls Red Cross but met with immediate response.

"I have only one regret, that I did not get across for service on the front. Since I was denied that privilege I am glad that I was privileged to spend practically all of my active service in Call Field, for I am sure that no other place could have been so pleasant, and productive of the friendships and pleasant associations as has Wichita Falls.

"So, in leaving the post hospital, I wish to again express my thanks to Wichita Falls for the manner in which it has co-operated, for the comfort and well-being of the patients and to again voice the appreciation of myself, and my staff in the appreciation to all who were our friends and visitors during the days of accidents and epidemics.

Major Atkinson and Mrs. Atkinson will leave Monday for northern points, returning to Colorado, their home before the war, and visiting with relatives in other states. It is possible that Major Atkinson will return to Wichita Falls to practice his profession, this depending on local conditions within a month or so, and the

RUMOR THAT HE WILL RESIGN HIS POST.

THOMAS NELSON PAGE

A cable from Paris, as yet unverified, brings the report that Mr. Thomas Nelson Page, the United States Ambassador to Italy, is anxious to resign from his diplomatic post and has placed his resignation in President Wilson's hands. He finds time hanging heavily on his hands since the war has ended and is anxious to get back to the United States and write some more books. A Virginia farm is Mr. Page's ideal of a good place for his literary labors from now on.

possibility of obtaining office and housing accommodations. The many friends that the major and his wife have made during their stay of more than a year and a half in Wichita Falls are hoping that conditions will make it possible for them to locate in this city.

LOOMS IDLE WITH GOODS IN DEMAND

By Associated Press.
LONDON, April 12.—Lancashire mills and looms are idle while the world is clamoring for cotton goods, says the Manchester correspondent of the Daily Mail, which adds that crowds of unemployed demonstrators in front of the Manchester Town Hall, Mill-owners have been criticised but the real trouble, the correspondent says, is that customers cannot afford to pay the prevailing high charges.

F. E. Stockton, president of the Manchester chamber of commerce, says that from 6,000,000 pounds to 7,000,000 pounds worth of yarn and cloth is being held back, although badly needed in Holland, Denmark and Scandinavia, and urges the removal of restrictions on the export of manufactured goods to neutral countries. Unemployment in the county is rapidly reaching a climax. Men are coming out of the army and are said to be unable to get the

work which was promised them. MANY ILLEGAL STILLS ARE SEIZED IN CANADA

By Associated Press.
REGINA, SASK., April 12.—Official information from Ottawa shows that since prohibition became effective in Canada seizure of illicit stills has increased 100 per cent. Mounted police have been active in Saskatchewan, where it is claimed moonshiners have been operating on a wide scale.

In 1917, ten illegal distilling plants were seized. Last year 37 were confiscated in Ontario province alone. Thirty-five seizures were made in Quebec, 11 in New Brunswick, 13 in Alberta, six in Manitoba and three in Nova Scotia.

Traffic between Montana and Alberta has caused provincial officials to seek additional mounted police to check the violations. Montana and the Canadian province are both dry, but it is claimed that hundreds of thousands of dollars worth of liquor was cached in wild districts in the final days of the saloons.

Whether you have much or little money to deposit you need not be satisfied with anything but the best—an account with the National Bank of Commerce, which is a bank for all the people and a bank where your money is safe.

TWO AUTOMOBILES REPORTED MISSING DURING LAST NIGHT

All hopes that the practice of "lifting" automobiles had become a lost art in Wichita Falls were dashed to the ground Saturday night by the report made to the police that two Ford cars had been stolen.

Colonel W. A. Miller, of Miller &

Webb, in the McClurkin building, missed his five-passenger car at 9:30 o'clock from where it had been parked on Ohio street. No license number is given as 336454.

Half an hour later, J. W. Bradley, of the North Texas Furniture company, missed his new runabout, license No. 341155, engine No. 2841233. Police are rather of the opinion that the car was taken for a "joy ride" by a young man and his sweetheart, and that its return is but a matter of a few hours, but nothing definite is known about either car, and telephone reports will be made to surrounding towns if the cars are not found soon.

Whether you have much or little money to deposit you need not be satisfied with anything but the best—an account with the National Bank of Commerce, which is a bank for all the people and a bank where your money is safe.

FROG EXCHANGE LATEST OF MINNESOTA INDUSTRIES

By Associated Press.
PELJCAN RAPIDS, MINN., April 12.—A frog exchange with fluctuation quotations has been opened here by boys who have cleared what seems like fortunes to them through sale of frogs to Chicago and other large cities. The young merchants take keen delight in manipulating the market and a three-cent range is not unusual.

Because of the freak winter and early spring frogs have been emerging from river in amazing numbers. The youthful dealers say that brief winter's sleep has left the hoppers cold, inactive and easy to net. In three days the shipments to Chicago totaled 5,600 pounds. A "corporation" was formed by three boys whose earnings in half week were \$63.

A Sunday frog drive by two boys netted \$61.50.

AERIAL BATTLESHIPS WERE BEING DEVELOPED

By Associated Press.
LONDON, April 12.—Aerial battleships would have been developed if the war continued another year, declares Lord Weir, the British Minister of Air Forces. Just before the armistice, aviators were successfully using guns which fired shells instead of bullets.

Lord Weir said that aerial photography had been so developed that accurate photographs of the earth were taken from an altitude of four miles. In all, six million such pictures have been prepared by the Royal Air Forces. The speed of fighting airplanes had been increased from 90 to 141 an hour and the engine power from 80 to 300 horsepower.

GIVE REASON FOR RAISING WIRE RATES

Explain That Telegraph Companies Have Not Had Usual Increase.

SUGGEST COMPARISON

Contention of the Postal Is Answered in Statement Just Issued.

By Associated Press. WASHINGTON, April 12.—In making available today figures upon which it based the recent increase in telegraph rates, the wire control board directs attention to the fact that while the increase in prices of products and service of various industrial and mercantile corporations have increased one hundred per cent, telegraph service has been rendered at pre-war prices throughout a period when industrial and business profits were unprecedented. "The increase of 20 per cent in telegraph rates," says the statement, "should be considered in comparison with the 100 per cent increase in other prices, and it is less than that found necessary to add to the railroad freight rates, and is no greater than has been made generally in other public utility rates in order to obviate financial collapse.

Comparison is Made.
Discussing a comparison of the self-sustaining operations of the Postal Company with the smaller proportionate earnings of the Western Union, the statement declares that during the six months from August, 1918, to January, 1919, the Postal carried only about one-sixth of the business of the country, limited to profitable fields while the Western Union carried five-sixths of the business, much of which extended into fields less profitable, but which gave a service necessary to maintain the requirements of the public. During the same period the Postal carried only about one-twelfth of the government business, carried at approximately 40 per cent of the commercial rate and claimed by both companies to be a loss of 50 per cent of the operating costs. In this connection the statement says, the board says it is informed that instructions were issued by officials of the Postal system directing their subordinates to avoid government business whenever it could be done.

Figures Are Cited.
After citing figures to show the enormous cost in wages and material occasioned by the increased scope of operations of the Western Union and declaring that the purpose of the wire board is to make the lowest rate that will maintain the service required by

the country. The statement continues: "In making a rate sufficient to maintain the telegraph service of the country discrimination could not be made between two countries performing this service. The fact that the Postal Company could continue to carry business at the old rates and still earn its compensation is of practically no significance in constructing a fair schedule of rates for the country as a whole. Such rates much cover the cost of rendering service to all points including just compensation for the property used. The Postal system reaches only a fraction of the points at which telegraph service is rendered and at the points which it does reach it could not carry one-half the business offered. Sound public policy dictates a schedule of rates which shall give all the people telegraph service."

MISS BLAKE SAILS FOR SIBERIA WITH RED CROSS WORKERS

Miss M. L. Blake, R. N., sailed Saturday from San Francisco, Calif., with 18 other Red Cross workers for Siberia. Miss Blake, who has resided in this city for about a year, registered for foreign service with the Red Cross work soon after she came here out only received orders last week. She is a graduate of St. Mary's Hospital at Galveston and has been doing private nursing here.

MAKES PAYMENT ON HOME WITH STAMPS SAVED FROM SALARY

DALLAS, TEX., April 12.—One of the greatest enthusiasts in Dallas over War Savings Stamps is a reporter on one of the local papers, who was enabled to buy a home through what he had invested in 1918 and the first three months in 1919. He bought one War Savings Stamp every week and his purchases were as regular as his pay days.

House rent is a big item of expense just now with the great influx of people from the north interested in oil and the natural increase in population and this reporter found that he was paying out a large percentage of his earnings to his landlord. One of his friends in the real estate business had a house on his list which he could sell on monthly payments almost as low as rent, but it took \$250 down to "clinch the deal." As soon as the reporter heard of the bargain he hurried home for a conference with his wife. They knew they could make the payments if they could get that first \$250. They did not have that much money—never had had that much saved up—but finally, the wife had a brilliant inspiration. "Why not cash in our War Savings Stamps?" she asked. "We can buy

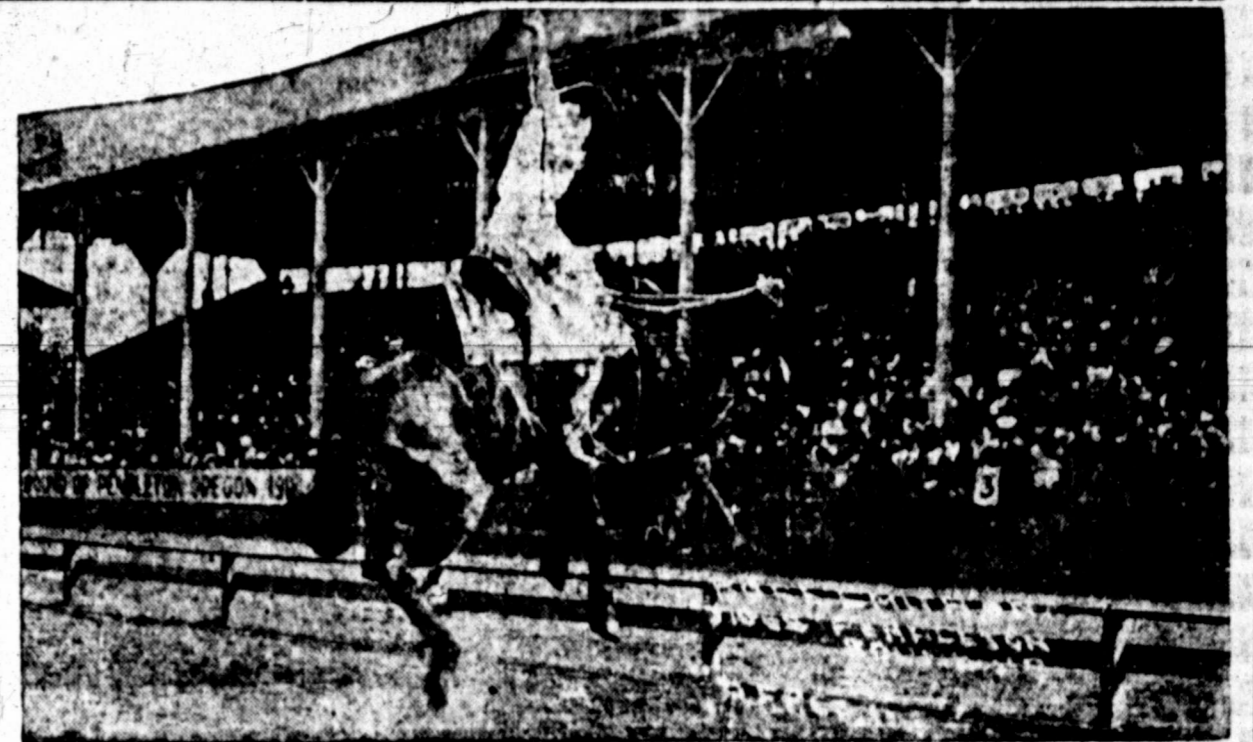

more and we'll never be able to put that money to any better use." So they took their War Savings Stamps, got \$270.16, paid the \$250 down and moved into their home—the first they had ever owned—and kept the remaining money into more War Savings Stamps. The reporter is still buying a stamp every week, he says they have proved their value to him and that he is always going to keep some on hand.

SENATOR WADSWORTH IS TO VISIT CAMP BOWIE

By Associated Press. FORT WORTH, April 12.—United States Senator Wadsworth, who will be chairman of the Senate military affairs committee in the new congress, will visit Camp Bowie at Fort Worth April 26. He will be tendered a banquet here that day. He is now at Pass Christian, Miss., recuperating.

COLONEL CANDIDATE FOR GOVERNOR OF KENTUCKY

By Associated Press. LOUISVILLE, KY., April 12.—Colonel H. H. Denhart, of Bowling Green, announced his candidacy today for governor of Kentucky on the democratic ticket. Colonel Denhart commanded the 319th field artillery during the world war and saw service in the St. Mihiel and Argonne drives. After the Argonne battle he was promoted to a lieutenant colonel, and mentioned for bravery.

AN ALL CONTEST EXHIBITION WICHITA FALLS, TEXAS MAY 15-17, 1919

Under Auspices of Chamber of Commerce

Champion Cowboys and Cowgirls in open competition for their titles and thousands of dollars in prizes. The contest will consist of dangerous feats of horsemanship, trick riders, trick ropers, bucking horses from Cheyenne, Wyo., and bucking horse riders in dangerous struggles. Wild Brahma steers and champion steer riders. Steer-bulldogging from horseback and automobile. This contest is open to the world and will be given wide publicity in order that all contestants may come to Wichita Falls and defend their titles.

The Wichita Falls Park Association will have their grandstand and race track ready in due time for this celebration.

Wichita Falls Round Up

START THE SPRING RIGHT—RIDE IN A HUPMOBILE

Comfort is so pronounced in the Series "R" that it has given this newest Hupmobile a new name—"The Comfort Car."

Everything about it typifies comfort. The deep, soft upholstery—real leather over real curled hair—the whole supported by very deep resilient springs of the finest steel and an air cushion in a combination said to be the easiest riding seat on the market.

The tip of the seats is luxurious. The tonneau roomy—and, by the way, the same size as in the Series "N," a longer car. The back of the tonneau seat is unusually high affording the maximum of comfortable support.

In the driving compartment we have 2 inches more room than in the Series "N"—more room, we believe, than in any other car of approximate wheelbase on the market.

As you sit in the drivers place the steering wheel comes just right; you don't have to reach up for it—and yet it doesn't pin you to the seat or hinder your getting under it.

Phone 828 for Demonstration.

trio—Mildred Nettle, Theresa Pierce and Zula Hearne. Reading—Eula Mae Cook. Violin duet—Lucille Wiley and Zena Pickle. Presentation of seals—Pastor. Vocal music—male quartette.

ODD FELLOWS TO HAVE MEETING MONDAY NIGHT
The Odd Fellows will meet in regular session at their hall tomorrow night. On account of alterations going on in the building, the lodge room is somewhat disarranged, but is not thought this will interfere materially until they can get in their new hall in the Swartz-Wood building. The new building is now being constructed, and the material which caused a delay is largely on hand, and it is not expected to be long until it will be ready for occupancy, much to the satisfaction of all the lodges that will meet there with the Odd Fellows.

Whether you have much or little banking to transact, you are equally welcome to make use of the up-to-date facilities provided by the National Bank of Commerce—the bank whose service makes and keeps friends. 286-1

Notice.
I have moved my law office to suite 2, Bean-Anderson Building, Ralph P. Cole. Reading—283-4tp

A. C. PARKER TO PREACH AT THE CHRISTIAN CHURCH
A. C. Parker, oil man and former minister, will speak at the First Christian church for both morning and evening services. Mr. Parker is from Dallas but has been operating in the Wichita Falls district for some time, and has been identified with the congregation of the First Christian church during that time. His announcements that his subject for one of the services will be "Pouring Oil on the Troubled Waters," taken from the Biblical reference.
Easter Sunday the new pastor, Rev. J. M. Kevil of Knoxville, Tenn., will be in the city and preach his first sermon in the morning. For the evening service the choir will give a special Easter cantata, on which it has been working for some time and which promises to be exceptionally enjoyable.

When you make your banking home with the National Bank of Commerce you will find that everything that can be done to make the handling of your affairs pleasant and satisfactory will be done, whether your deposits are small or large. 286-1

Effective April 3, 1919, the firm of Ewalt Waggener & Fennessey, dissolved and all obligations of the firm are assumed by their successors, Ewalt & Waggener. 280-10tc

 Wednesday: Henry B. Walthall in "The Still Small Voice."
 Thursday and Friday: William Farnum in "The Man Hunter."
 Saturday: Frank Washburn in "The Poor Boob."

PAID IN FULL COMING MONDAY AND TUESDAY

When Eugene Walter's play "Paid in Full" was produced by Wagenhals & Kemper in New York in 1907 it created a sensation. Its reception by the public was phenomenal and after running a season or more, it was played simultaneously by several companies in four cities. This play has been pictureized by Paramount for Pauline Frederick and it will be played at the Empress theater Monday and Tuesday.

Miss Frederick has the role of the patient wife of a shiftless clerk whose non-progressive ways keep her in constant poverty. When he commits a theft, she finally adjusts the matter and when she quits him forever, he betrays his cowardice by committing suicide. But the wife ultimately finds happiness in the love of a worthy man.

The support is excellent and the cast includes Robert Cain, Wyndham Standing, Frank Losee, Jack Farrell and Vera Bersted. The picture was directed by Emile Chautard.

"THE SCARLET SHADOW" AT MAJESTIC MONDAY

Mae Murray will be seen again on the screen of the Majestic theater on Monday and Tuesday when "The Scarlet Shadow" is shown for the first time in this city. This is the story of a young woman who is elected from her aunt's home over a perfectly innocent escapee with a college youth. The youth's uncle, a wise man and a good-hearted fellow, takes her to the boy's mother and gives her a home. The mother takes an immediate dislike to her, as she sees that Harvey, her protector, is considerably interested in her and she wants him for her second husband.

How she contrives to get rid of the

FRECKLE-FACE

Sun and Wind Bring Off Only Spots How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—decide strength—from any druggist, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

Girl by marrying her off to a respectable millionaire and how she meets and finds, to her joy, that Harvey

MOORE & RICHOLT

wants her as his wife, are events which are set down in "The Scarlet Shadow" to the tune of thrills and comedy. The picture keeps moving rapidly from beginning to end and there's never a dull moment. Miss Murray appears to her usual attractive advantage and has the support of a cast of capable screen artists.

"The Scarlet Shadow" was written by Lorne Fontaine and Katherine Roberts, done into scenario form by Harvey Thew and produced under the direction of Robert Leonard, who has been Miss Murray's director in all her Universal attractions.

"THE BETTER OLE" AT THE PLAZA ON MONDAY

Old Bill, the central figure in the great comedy, "The Better Ole," which is coming on Monday and Tuesday to the Plaza Airdome, is the every day sort of a person everybody knows.

"The Better Ole" is typical of the tough-and-ready and rough-and-tumble soldiers of the old "Little Contemptible" army of Great Britain which fought and slayed the Germans in the first great rush of the Huns over Belgium and France and attempt to invade the world. It is a corking good picture—a peach of a production. It is jammed with laughs and sentiment that it keeps you interested and entertained from start to finish without a single let-up.

Old Bill is the chief character in this picture, but he is ably seconded by Bert and Alf, his two cronies, and by Victoire, a charming and enthusiastically patriotic French girl, and by Maggie, Old Bill's wife. There are a lot of other important characters in the production, all of whom are portrayed by accomplished screen players. The part of Old Bill is played in an unforgettable manner by Charles Rock, who played the role in the original production.

"The Better Ole" is now playing to capacity business at the Court theater in New York City, and five touring companies are presenting the play in the larger cities throughout the land. It is everywhere being greeted with the most tumultuous success. It is interesting to know that the screen version is even better than the stage production.

CRANE WILBUR PRESENTS "BREEZY JIM" TUESDAY

Crane Wilbur, popularly known as a stage actor, and at present appearing as the lead in his own stock company in California, is the star of "Breezy Jim," the attraction at the Gem Tuesday.

This is a mystery drama with a Western location, written especially for him by J. Francis Dunbar, and it offers Mr. Wilbur not only an opportunity to dominate the production with his virile personality that has made him such a "stock" favorite, but likewise permits him to display his athletic abilities, in a manner that is prohibitive in the narrow limits of a stage production.

His peculiarly happy disposition and expression is the counterpart of "Breezy Jim" and his ability to make the most of any situation in which he finds himself, coupled with this story of intense interest, guarantees good entertainment, in this breezy story of his adventures.

The picture presents him as a happy-go-lucky wanderer, and he at once appeals to your sympathies, when he befriends an old man who has been chucked from a freight train upon which they were beating their way westward. Later he rescues the heroine from the advances of an escaped convict, though it is necessary for him to place himself in circumstances that convict him as the criminal.

But through the unwitting assistance of the town drunkard and the use of his two fists and ready wit, he convinces her that she has found the man of her heart's desire.

Juanita Hansson, the former Keystone Comedy beauty, is strikingly attractive in her interpretation of the part opposite the virile Crane Wilbur.

WOODMEN PLAN FOR INTERESTING MEETING WEDNESDAY EVENING

The W. O. W. will hold their regular meeting Wednesday night, and the box supper scheduled for that night will be held on the following Wednesday night, at which time a program will be rendered. A large number of boxes are expected, and men to purchase them, as the money will go for the benefit of the degree tent.

The delegates having returned from the W. O. W. convention the members will be greatly interested in hearing their report next Wednesday night, and to know more about the Tuberculosis Home to be provided by and for the Woodmen of Texas.

A large number of candidates are expected to receive the work.

Upon the resignation of the clerk of camp 3001, Clyde S. Burnett with the Cream Bakery on Seventh street was elected and installed into office at the last meeting.

For choice close up leases out of block 102, Vancleave lands, see W. M. Priddy, 408 Kemp & Kell, Phone 71 Residence phone 1764. 216-11c

Little doggies and big elephants, cute ponies and beautiful white ring horses, petite girl riders in spangles and pink silk and a towering gorilla, with the strength of two dozen men. Surely the circus is filled with contrasts. And the Sells-Floto circus seeks always more contrasts, more variety. That is why its management this year purchased Sunrise, the golden horse, said to be the most beautiful horse in the world. You may judge of this when you see him in the two-mile parade, with his coat of burnished gold glowing in the sun and with his white mane and tail flowing like a cascade over a mountain crest.

All the acts in the picture and scores upon scores more, of course, will come to Wichita Falls Sunday to rehearse and exhibit Thursday, April 17, and they will be seen in the rings and on the stages of the Sells-Floto big top.

The performances open this year with a spectacular extravaganza of bewildering beauty, "The Birth of the Rainbow," in which 600 people and 400 animals appear in costly garb and trappings. The groupings and effects in this kaleidoscopic spectacle are as unusual as they are beautiful. Scores of ballet girls take part. And Sells-Floto has spared no effort to present pretty girls. Their costumes for this pageant were all made by a great New York modiste, and, although this is an old statement in regard to big musical shows, it is a new fact with the circus. And that, again, is just another contrast sought and obtained by this circus.

TOTAL OF \$7,000 COLLECTED FOR THE JEWISH RELIEF FUND

With a total of about \$7,000 cash collected in Wichita Falls, the local campaign for the American Jewish Relief Fund closed Saturday. W. Newton Maer, the chairman, stated that he had not yet had any report from any of the outside towns in the county, where committees were appointed, but that he will ask the chairmen for reports on Monday. Some of the cities in the state are continuing the campaign through next week, according to a telegram from state headquarters, but because of the numerous campaigns for funds that have been carried on in the last several weeks, and the pending Victory Loan, it is believed that all the funds that could be raised here already been subscribed, and Mr. Maer does not believe it advisable to continue the campaign any longer.

NEW SUITS FILED IN THIRTIETH DISTRICT COURT

The following new cases have been filed for trial at the June term of the 30th district court:

John Craig against Mrs. Fanny Colby et al. injunction; E. M. Beebe against V. L. Yeager, injunction; E. H. Gipson against John Canada et al. debt; O. L. Boucher against A. B. Johnson, suit for commission on sale; Acme Drilling Association against T. M. Beebe, sequestration.

BAPTIST WOMAN'S ALLIANCE MEETS MONDAY AFTARNOON

The Woman's Alliance of the First Baptist church will meet in separate divisions Monday afternoon at the church. Mrs. W. L. Robertson will lead the devotional and the subject will be "The Spread of the Gospel."

FORMER RESIDENT OF CITY KILLED BY TRAIN AT HOUSTON

E. Moevius, for several years a resident of Wichita Falls where he was employed as a cabinet-maker, was run over and killed Tuesday by a Southern Pacific train at Houston, to which place he moved about a year ago with his family.

Mr. Moevius, while he lived in Wichita Falls, was employed by the Wichita Falls Sash and Door Co. He was a fine workman and a man who stood well. He visited friends here only a few weeks ago. The Houston Post of April 9 contained the following account of his death:

E. Moevius, about 35 years old, a cabinetmaker, was struck by inbound Southern Pacific train No. 102 at the Cook street crossing of the Houston and Texas Central road, West End, at 5:30 p. m. Tuesday. According to eyewitnesses, Moevius was struck by the locomotive and thrown about 50 feet ahead of the train. He was dead when picked up. Moevius suffered a fractured skull and a broken neck.

The body was removed to C. J. Wright's undertaking rooms. Justice Leon Lusk held an inquest and decided that death was caused by being struck by a train.

Moevius had left his place of employment, the "Wichita Manufacturing Co.," a short distance from the crossing, on his way home, only a few minutes before the accident. He started to walk across the track and evidently did not see the approaching train. Witnesses said they heard the engine blow his whistle a number of times. The dead man lived on Noble street. He is survived by his widow, Mrs. Minnie Moevius, who is visiting her parents in London, England. A cablegram was sent her Tuesday night by C. J. Wright advising her of the killing of her husband.

CALL FIELD FLYER TRYING OUT PLANE TO ENTER CONTEST

Lieutenant Caspary of Call Field has declared his intention of entering the competition for the Pulitzer cup and \$25,000 prize money for a cross country flight to Atlantic City, and has already fitted up his plane, a Hispania Szeza, in which he will make the flight during May. This ship has been painted a vivid green, and has already created some little excitement as it circled over the city during the week.

The details of the competition for the trophies offered for the aviator who is successful in making a cross country flight to or from Atlantic City have already been given in The Times. The Pulitzer brothers have made the offer, and it has been given wide publicity by the Aero Club of America, and many aviators, military and civilian, are to be entered in the competition.

CIRCULATE PETITION FOR BOND ELECTION TO ENLARGE HOSPITAL

Petitions were placed in circulation yesterday asking the city council and the county commissioners court to order elections for the voting of bonds for building an addition to the Wichita General hospital. The amount named in each petition is \$65,000. The petitions ask that the elections be held on May 27.

The two bond issues will aggregate \$130,000 and would provide a very substantial enlargement to the hospital. When the hospital was built a few years ago it was thought it would be adequate for the needs of the community but it has already been far outgrown and there is strong sentiment in favor of bond issues for additions to the hospital building and equipment.

The strength and soundness of the National Bank of Commerce are supplemented by experience and equipment which make it exceptionally successful in handling the banking requirements of oil men.

OKLAHOMA MAN JAILED ON CHARGE OF BOOTLEGGING

Ed Parks, ordinarily a resident of Oklahoma, is today a guest of Wichita county, being confined in the county jail awaiting trial on a charge of bootlegging. Parks was arrested by Patrolman J. M. Scott Saturday morning, the officer testifying later that the Oklahoman had in his possession two suitcases containing 12 quarts of whiskey.

Parks was arraigned before United States Commissioner J. A. Lantz, but waived hearing. Bond was set at \$75 for trial at the next term of the United States Court.

JOINT INSURANCE FIRM OF CRAVENS & COMPANY

Joe Stokes and Miss Evelyn Coffield have each purchased a one-third interest in the Cravens and Walker insurance agency and the agency name has been changed to Cravens and Company.

Miss Coffield has been connected with the agency for a number of years. Her many friends will be gratified to learn that she has become a member of the firm in which they are confident she will be highly successful.

Joe Stokes, the other new member of the firm, is well known, having been connected with the water and light company several years ago. He has lately been engaged in the mercantile business at Ranger.

Mrs. Madge W. Hearne of Houston, Texas, is in the city the guest of her son, S. H. Hearne, of the Times advertising staff.

FINED \$200 ON A VAGRANCY CHARGE IN JUSTICE COURT

A jury in Justice Court No. 2 Saturday morning fined Andy Avinger \$200 for vagrancy, thereby tickling the sense of humor of Justice C. J. (Dad) Arringer.

"If he had appeared before me simply," chuckled "Dad," "and had not insisted upon a jury trial, I would have fined him \$10.00!"

Avinger, who is in the county jail pending an appeal to the county court, was arrested by Deputy Sheriff "Jeff" Allen. The man had \$315 in his pockets when he was taken into custody.

The strength and soundness of the National Bank of Commerce are supplemented by experience and equipment which make it exceptionally successful in handling the banking requirements of oil men.

WANT SEVERAL good combination rotary and cable tool drillers for work in foreign country—not Mexico or Roumania. Address Box 1779, Houston, stating experience, references and when able to leave.

Two beautiful violet blue Wesselton Diamonds at a bargain. They weigh 3 1/2 karats each and are very rare stones, the kind that are not found in the average retail jewelry houses. They will make a wonderful pair of ear screws or a ring and stud set. These diamonds must be sold in the next few days and someone looking for real diamonds will save money by investigating this offer.

Call at Booth 6, Central Stock Exchange.

CAPT. LINGWOOD TO SPEAK TONIGHT AT THE OPERA HOUSE

On request, Captain Jack Lingwood, of the Princess Pats, famous Canadian regiment, will repeat his lecture, "Three Years and a Half in the Trenches," which was given first on last Sunday night at the M. E. Church, South, tonight at the Wichita theater. There were many who were unable to get seats for the first lecture, and the interest aroused by the captain's talk has led to requests for a repetition. This will be the last lecture that Captain Lingwood will deliver in Wichita Falls, he states, as he has other engagements that will take him from the city.

It will be possible for those who were desirous of hearing the lecture, which has aroused much favorable comment, and who were unable to hear the lecture last Sunday night, because of the crowd which made it necessary to turn many away, to hear this Canadian and one of the few survivors of the original Princess Pats. No admission is charged for the lecture.

A vast majority of all Americans will belong to War Savings Societies before the year is over. Don't get left out in the cold.

TWO NEW WELLS ARE REPORTED FROM COMANCHE COUNTY

Special to The Times.
FORT WORTH, April 12.—There was further encouragement for the Comanche county field in Saturday's report. They showed the Hogg No. 2 of Skelly and Sankey to be making about 60 barrels daily. The Stockton well of the Waxahachie Oil Company also was making two barrels of oil an hour and both wells likely will become good producers.

WELL INDICATES A NEW TERRITORY NEAR BROWNWOOD

Special to The Times.
BROWNWOOD, TEX., April 12.—A report from Brownwood states that the Texas Eastern Oil Company's well on the Capps farm, two and one-half miles east of Brownwood, has shut down to move the boiler back, preparatory to drilling in. The gas flow has increased to two million feet. The drill was in the hard lime and merged to the hard sand at 1500 feet. If this becomes a producer it will open new territory.

MERIDIAN GASOLINE CO. BUILDING DOUBLE UNIT CASINGHEAD PLANT

By May 1 the Meridian Gasoline Company's plant for manufacturing casinghead gasoline will have one unit ready for operation, according to announcement of Walter K. Campbell of the company, which is a part of the Western Oil Corporation. The plant when completed will represent an investment of \$200,000, with a capacity of 1,000,000 cubic feet. It is being built as a double unit plant, to be operated continuously.

Walter K. Campbell, George N. Shedd and J. F. Darby, the owners, are Tulsa men and they and their engineers are superintending the construction of the plant personally. They report contracts on 175 wells, for the casinghead gas to be used in the plant. The plant is to be of all steel construction, said by expert engineers to be among the best of the kind in Texas.

HARRIS WELL IN STEPHENS COUNTY IS SHOWING OIL

FORT WORTH, April 12.—The Harris No. 1 of Levy et al in the eastern part of Stephens county, has been shot with 240 quarts of nitro and has a showing of oil. Indications are that it will be a good well. The Hogg well of the Sinclair Gulf Oil Company, which was brought in last week in the Duke field with a flow of 4,500 barrels, has dropped down to 2,250 barrels, it was reported today.

CRIPPLE EXTENDS AID TO HIS FELLOW MAN SIMILARLY AFFLICTED

Saturday afternoon on Eighth street between Ohio and Indiana, pedestrians were afforded the unusual sight of one cripple helping another. Seated on the sidewalk with his crutches on either side of him was a middle-aged man holding a large black hat in the bottom of which were a few coins.

Approaching, minus one foot and also on crutches, a stranger was seen extracting a coin from his pocket, and as he came up to where the man was sitting, he dropped the money in his pocket, and immediately topped away traveling at a rapid rate.

That the one who was the object of charity was pleased by this contribution from a fellow cripple was plainly shown on his face which was wreathed in smiles as he tried to give expression to his gratitude.

The strength and soundness of the National Bank of Commerce are supplemented by experience and equipment which make it exceptionally successful in handling the banking requirements of oil men. 286-1

NO CANCELLATION OF ORDER NUMBER 3 SAYS COMMISSION

By Associated Press.
AUSTIN, April 12.—The railroad commission today announced there has been no cancellation of its pipe line order number three, but that the order has been merely suspended at the request of the pipe line companies, and the matter set for hearing on April 25, and pipe line order number four was issued to be considered at the hearing.

It is proposed in these orders to require the pipe line companies to file with the commission monthly copies of division orders and transfer orders showing the ownership and division of interest of all oil producing properties; also requires the furnishing of the amount of oil gathered by them and run into their pipe lines.

CASING HEAD PLANT TO BE CONSTRUCTED BY BURRFIELD COMPA Y

The Burrfield Gasoline Company has been organized by F. C. Milbury, treasurer of the New-Tex Refining Company, to construct and operate a casinghead gasoline plant in the Burkburnett field. The plant will cost approximately \$150,000. Mr. Milbury, who is president, states, and will be one of the most modern and complete in the state. The plant will be managed by Oklahomans, with long experience with such plants in the Oklahoma field, it is stated.

The strength and soundness of the National Bank of Commerce are supplemented by experience and equipment which make it exceptionally successful in handling the banking requirements of oil men. 286-1

Plain Language

You'll find that common words, simple explanations and quick action are the rule at the Willard Service Station.

It is part of Willard policy to make it easy for every user of a Willard Battery to get the most out of it. So our instructions are plain:

- 1—Add pure water.
- 2—Take hydrometer test every two weeks.
- 3—If hydrometer test is less than 1.285 at any two successive readings come straight to the Willard Service Station.

WICHITA FALLS BATTERY CO.
814 Scott Ave. Phone 606

We test, repair and re-charge storage batteries and always carry a full supply of battery parts, new batteries and rental batteries.

Real Estate

N. O. Monroe's Selection of Wichita Falls Property

75x175 feet on Tenth street, now bringing a revenue of \$400.00 per month. This property gives one of the prettiest building corners on Tenth Street, also for another apartment house or a nice residence, and can be bought for \$25,000.00. Will give reasonable terms if desired.

140x150 feet on Scott, now in the business district, and is the most choice property in the town. Will sell you this entire tract, or will sell you one 60x150 foot lot.

\$15,000.00 buys a corner close in on Tenth Street, on which there is a nice residence. The lot, however, is well worth the money, not considering the improvements. Any one desiring an investment or a buy for a speculation that assures them a profit on their money should look at this property. Can be handled also with one-third cash.

Tenth Street—Just completed a beautiful two-story residence, with all built-in features that could be desired in a home; has oak floors throughout the first floor, has extra nice electric fixtures and is in every particular a very attractive home, is also situated on a corner lot. This place can be handled, if desired, with very easy terms.

Six room, south front, in one of the best resident blocks on Tenth street, \$8000.00. If in the market for a buy worth the money let us show you this place.

\$3500.00 buys the best north front corner lot on Huff Avenue.

Five room, strictly modern house on Taylor street, in the 1200 block, \$5500.00.

On Lucile street, a new house just completed and built by Taylor Bros., consisting of five extra large rooms, has composition roofing, was planned and built for a home by the owner; can be bought for \$7,000.00. This place is also situated on a 60x150 foot lot.

On Elizabeth street, on a corner lot, a five-room modern house, with garage, \$6500.00. Price the lots in this location and then figure on building this house and you will readily buy this place.

Near the Austin School: A modern five-room house, near the car line \$4,500. Will give you, if desired, very easy terms also on this place.

Near the High school, a two-story home, with 100 feet south front, house consists of ten rooms. This home is all that is meant by modern when we say that it is a modern home, as it is one of the most complete and most desirable homes in the town and will say that if you are in the market for such a home and know anything at all of the values of such a place the price on this place will readily interest you.

On Eleventh street. One of the most substantial built and attractive interlocking tile and stucco homes in the city, consists of six nice size rooms on the first floor, with all floors oak floors, also has one extra large, full size sleeping room above, making seven nice rooms besides the breakfast room. This is one of the most attractive homes in the city and will be glad to show it at any time.

If you do not see in the above a home to your idea or the location you desire we only ask that you give us a call, as we know our lists is the most complete in the town of high-class residence property and resident lots. We furthermore know our sales force to be men as well posted on the values of Wichita Falls property as there is to be had, as they are all Wichita Falls men and do not claim to have learned the values of this property in a few days time. We furthermore have hundreds of satisfied customers that we have handled the business of exclusive in our line for years and are only too glad to refer you to any of them.

Every Man is a Wise Man

Because every man has something to teach, the thing life through experience has taught him to do.

Nature but reproduces: man's experience taking the world where Nature stops builds it better; whether he makes an iron plow to improve the crooked stick—

Or turns mere rubber and cotton into pneumatic tires.

Experience is that unseeing thing that turns the quality of good or bad.

It vouches for Goodrich experience that Goodrich made the first American pneumatic tire, and ever since has fathered the improvement of automobile tires.

It shows in burly, full-rounded bodies, and thicker BLACK SAFETY TREADS, extra wide, fortifying the sidewall against rut-scraping.

It returns value for your money in service value on your car on the road.

PLAN COMPLETE FOR SOIL SURVEY STATE OF TEXAS

WORK IN THREE WEST TEXAS COUNTIES HAS BEEN COMPLETED.

OUTLINE PLAN FOR FUTURE

Summer Will Be Spent in This Section of the State, It is Announced.

Special to The Times.

COLLEGE STATION, TEX., April 12.—Plans for a complete soil survey of Texas in co-operation with the Bureau of Soils of the U. S. Department of Agriculture were announced today by B. Youngblood, director of the Texas Agricultural Experimental Station, A. and M. College. Many counties of the state have been surveyed already but under the present plans of Mr. Youngblood the western half of the state will be completely surveyed within the next four years and the remainder of the state within the next ten years.

By reason of the climate in the western portion of the state being too cold for living outdoors much of the time except in the summer, the work in that section will be done during the summer period, while the remainder of the year will be spent by the surveyors in the eastern half of the state. By reason of the similarity of the soil in the western portion of Texas only reconnaissance surveys will be made there, while in the other portions of the state, where the soil is more varied, the more intensive surveys, requiring much more time, will be carried out.

Work in West Texas. Three West Texas counties have already been completely surveyed, ten others partially so, and beginning May 1, the survey of the remainder of that portion will be carried on as follows: 1919, that block of counties which Bailey forms the northwest, Yoakum the southwest, Comal the northeast and Stonewall the southeast corners, respectively; 1920, that block of which Gaines county is the northwest, Crane the southwest, Jones the northeast and Concho the southeast corners, respectively; 1921, the Trans-Pecos country, or all the counties lying west of the Pecos river.

The cost of the work will be borne not equally by the federal government and the state of Texas, Mr. Youngblood says. The work already done in the western portion of the state has cost \$70,000, while that in the other portions of the state has cost \$125,000; and the estimated cost for the completion of the entire work is \$50,000 for the western portion of the state and \$200,000 for the remainder. The cost to the state of Texas will be approximately \$12,500 per year for the next ten years. When all the surveys have been completed

a full soil bulletin and map of the state will be published, in addition to one for each county, and the information will be free to all farmers and others who are interested in knowing the character of their soils. "Soil surveys are the logical beginning of all agricultural work," Mr. Youngblood said today, "and the state could have been developed much more economically and systematically and logically if it had been surveyed at the outset. But this work becomes especially necessary now that we have entered into intensive agriculture. The soil must not be wasted, crops must be planted on soils to which they are adapted, and fertilizers must be applied only with regard to the character of crop to be produced but the natural elements of the soil as well. If this is done there will be little waste hereafter in our agricultural production."

The success of the National Bank of Commerce has been achieved upon the sound basis of always giving first thought to the needs of customers. Not only are routine matters handled with the utmost efficiency but facilities are also provided for meeting special conditions as they arise. 286-1

The strength and soundness of the National Bank of Commerce are supplemented by experience and equipment which make it exceptionally successful in handling the banking requirements of oil men. 286-1

WICHITANS ATTEND MEETING OF SHRINE AT DALLAS FRIDAY

Seven Wichitans were among the large class of 244 novices who "crossed the burning sands" and were initiated into the mysteries of the Ancient Arabic Order of the Mystic Shrine at the Scottish Rite cathedral in Dallas last Friday.

TO DISCUSS HEALTH CONDITIONS IN TEXAS

By Associated Press. AUSTIN, April 12.—Health conditions generally in Texas, will be discussed by State Health Officer C. W. Goddard and Dr. C. W. Hall, head of the bureau of venereal diseases, with Surgeon General Blue and Assistant Surgeon General Pierce. Doctors Goddard and Hall will leave here tomorrow for Washington, D. C., for the conference. They will also discuss the question of transferring to the federal government the state quarantine system as authorized under a bill passed at the last session of the legislature.

Don't Nicotine Yourself

CHOOSE THE PURE, RICH, MELLOW

Garcia Grande Mild Havana Cigars

and in a short time you will thank your stars that you quit the absorption of poisonous nicotine, excessively prevalent in the brand you've been smoking.

Just try the GARCIA GRANDE Mild Havana Cigars for a few days and note the wonderful improvement in your general condition. Elasticity of step—brightness of eye, etc.—it's all from the fact that GARCIA GRANDE tobacco is SHADE GROWN, which produces a RICHNESS and PURITY of flavor, mild and mellow, and at the same time minimizes the development of nicotine, which is an insidious poison, the harmful element in other brands of cigars.

The very appearance of a GARCIA GRANDE Mild Havana Cigar is appetizing. Beware of imitators. Call for

Burkfield Gasoline Company Capital \$175,000

YOUR FIRST OPPORTUNITY

TO INVEST IN A CASING-HEAD GASOLINE PLANT WITH MEN OF EXPERIENCE AND ABILITY
LIFE-TIME DIVIDENDS

Never before has there been a time that you could invest in what is acknowledged to be the biggest, surest, safest and most profitable part of the oil business. For a short time, the Burkfield Gasoline Co. offers you the first opportunity to share some of the enormous profits of this wonderful business. The average casing-head gasoline plant returns total investment every ninety days. We are informed of a plant that cost \$58,000 is now paying \$30,000 monthly. Another plant that earned 600% last year—shares now 20 for 1. No failures known—no speculation.

The Burkburnett Oil Field is in urgent need of gasoline plants to utilize the waste and the Burkfield Co. are among the first to enter the field.

LOOK!	THINK!	FIGURE!
Estimates of earnings and expenses from plant of Burkfield Casing-Head plant.

AN INVITING ARRAY

HOSTS OF ULTRA SMART MODES FOR EASTER—REFLECTING CORRECTLY FASHION'S TREND

All the world of fashion has been overturned—models based on wartime severity, on wartime shortage of fabrics, on wartime need to be practical, have been swept aside almost overnight, as it were. In their places has come the most alluring sort of Clother it has been our pleasure to offer for some time. Hats take old-time intriguing ways with their quaint shapes and trimmings. The Skirts hark back to the days of Mother's girlhood for inspiration. Even the ever practical Suits take on lighter tone with gay vests and handsome embroideries. Wraps are exceptionally graceful and evolved of the richest fabrics. And as airy as cobwebs the newest Blouses. For the rest, all liveliness denied a place in the wartime wardrobe has gained much by retirement. For this and many other reasons apparent to visitors here, this is by far the most important Easter showing this Store has invited its patrons to attend. By the hints here unfolded will late Spring and Summer Clothes be governed, and from these extensive displays will the well dressed woman make selection for her Easter wardrobe.

NEW EASTER SUITS

For Easter we have a wonderful showing of distinctive and practical Suits for dress and utility wear. Represented are Suits fashioned from such materials as Tricotine, Serge, Poirer Twill, Gaberdine and other beautiful materials. Strictly tailored and semi-tailored models, blouse back styles, box coats, vestee effects, belted models and costume Suits with trimming touches of embroidery, braid and buttons. Colors, navy, black, brown, taupe, Rookie and green.

\$22.50 to \$115.00

We anticipate big business this week, as next Sunday is Easter—you should do your shopping early in the week.

New Dresses for Easter—Lovely Selections

The supremacy of our Spring Fashions has never been more pronounced than now. Every express during the past week has brought us something new—something different—in apparel for Easter wear. There are Dresses of plain or printed Georgette, beaded or embroidered Georgette, Pussy Willow, Foulards, Tricolette, Serge and Combinations, in unusually attractive colors of French blue, sunset, henna, sand, brown, navy, flesh and white.

New Tunic effects—plain and fancy sleeves—belted styles—Russian blouse effects.

NATIONAL ENDEAVOR WORKER IS COMING MONDAY, APRIL 21

IN EARLY SPRING.
In early spring the country ways
Pulse with the bluebird's lyric praise,
The sparrow's trill, the robin's call,
Down floating from some treetop
tall
Where the enraptured singer sways;
The cattle hardly think to graze,
Bate with freedom's glad amaze,
Released at last from prisoning
stall,
In early spring;
And look—where bleak brick walls up-
raise,
E'en there the vernal radiance plays:
The alley way forgets to bray,
A magic wand has touched them all,
The wonder wand that rules the days
in early spring!
—From Cartoons Magazine.

MISS KATHERINE COOK HOSTESS TO THE Y. W. A.
Miss Katherine Cook will be hostess to the Y. W. A. of the First Baptist Church at her home at 1106 Burnett street, Monday evening at 7:45. Miss Mina Everts will be leader.

HELEN BEAVERS CHAPTER MEETING ON MONDAY
The Helen Beavers Chapter of the Westminster Guild will hold a call meeting at the First Presbyterian church Monday afternoon at three o'clock. Important business is to be transacted, and all members are urged to be present.

MUSICIANS CLUB TO MEET ON THURSDAY
The Musicians Club will meet at the High School auditorium Thursday morning at nine o'clock with Miss Jessie Mae Agnew in charge. Miss Agnew will give demonstrations of Public School Music in all of its branches, and the public is cordially invited.

CONCERT IS GIVEN AT ELECTRA ON SATURDAY
The High School Orchestra, Boys Glee Club, Senior Girls Octet, Cecilia Adickes violinist, Ena Everton and Annadelle Bradshaw pianists, and Emma McInnis and Annadelle Bradshaw vocal soloists gave a concert at Electra Saturday evening, making the trip in cars. Several of these concerts are planned for the near-by towns by Miss Jessie Mae Agnew, supervisor of Public School Music in this city.

BETA DELPHIANS ENJOY INTERESTING MEETING
Mesdames Ross Corlett and John Davenport were joint hostesses to the Beta Delphians Thursday afternoon at the home of Mrs. Corlett, 1205 Fifth street. A round table discussion followed the program which was on "The Classic Literature, and Literature in the Age of Chivalry." Vocal solos were given by Mesdames Fletcher and Barron, a reading by Mildred Bachman, and a piano solo by Mrs. Roy Marquande.

MRS. SNIDER HOSTESS TO NEW CENTURY CLUB
Mrs. C. W. Snider was hostess of the New Century Club Wednesday afternoon, and Mrs. Guest was leader. The subject was "Know Thy City," and roll call was answered by short sketches of the future Wichita Valley City, after which the following excellent program was given: "Early History of Wichita Falls," Mrs. J. C. A. Guest. "The Oil Industry," Mrs. W. W. Silk. Piano solo, Mrs. T. P. Adams. "Our Dream for Wichita Valley," Mrs. N. H. Martin. "Our Factories," Mrs. Wade Walker. Vocal solo, Mrs. N. M. Clifford. "New Buildings," Mrs. C. W. Snider. Vocal solo, Mrs. Wade Walker. Piano solo, Helen Snider. The paper, "Our Dream of Wichita Valley," given by Mrs. Martin, was especially interesting, being a word picture of the future Wichita Valley. Those present were Mesdames Adams, Barcus, Burnside, Clifford, Daniel, Felder, Hartsook, Guest, Martin, Montgomery, McCutchen, Silk, Snider, McDaniel, Wood and Walker.

DOUBLE PROGRAM BY THE DELPHIAN SOCIETY
The Delphian Society held their regular meeting at the Library Wednesday afternoon. There was no meeting last week and both programs were given this week. The first program was under the leadership of Mrs. Marcus, and on the subject of "Early American Writings of Verse," with the following numbers: Reading, "Thanatopsis," Bryan—Mrs. Moore. "Edgar Allen Poe" paper written by Mrs. Boone, read by Mrs. Moore. Mrs. O. E. Maer had charge of the second program, on "Best Known American Poets." The program was given in the following order: "Life and Works of My Favorite Poet, Sidney Lanier," Mrs. Britain. "American Poets Found in the Hall of Fame," written by Mrs. Baum, read by Mrs. Bean. Those present were Mesdames Alexander, Bean, Lillard, Marcus, Maer, Moore, Britain and Miss Kathleen Stonecipher.

LINEN SHOWER HONORING MISS DOROTHY BEAVERS
Friday afternoon Mrs. Mary Boyd Robertson and her mother, Mrs. L. M. Boyd, entertained with a delightfully original linen shower, honoring Miss Dorothy Beavers, the Easter season's bride-to-be, whose wedding to Odber Hart will be an event of Easter Monday at the First Presbyterian church. Mrs. Robertson's home was decorated in blossoms, the living room favoring the crimson sweet peas and carnations, while the music room flowers were sweet peas in varied pastel tones. The affair was a surprise to the bride, who was coming to the home ostensibly to plan the wedding music, but who found the reception suite filled with her girl friends. The giving of the shower was exceptionally novel. Mrs. Robertson having devised an "Easter egg hunt." Cards were given each of the guests, with directions of a place to search for some

gift for the bride, and after the verse was read the reader accompanied the bride to the hiding place. The gifts were in great variety and most attractive. The verses were the composition of Mrs. Robertson and were very clever and afforded much entertainment. Miss Pauline Richolt gave a toast to the bride.
A dainty refreshment course of strawberry ice cream and angel food cake was served. Those present included the honoree, Miss Beavers, her mother, Mrs. C. W. Beavers, Misses Adele Adickes, Louise Maupin, Florence Sammons, Annette Walsh, Hal Rominger of Ft. Worth, Theresa Veale, Helen Stone, Ruby Moore, and Mary Robertson, Laura Hall, Lillian Fain, Pauline Richolt, Marjorie Maer, Mesdames J. Will Grey, C. E. McCutchen, Fred Loomis, Alfred Booth, Lester T. Burns, P. S. Richardson, Ralph Pond, Harold Hanes, John Naylor, Carter McGregor, C. A. Morris, Clarence Moore.

SOCIAL BREVITIES.
The Sacred Cantata "The First Easter," by R. Wilson, will be given by the choir of the First Christian church Sunday evening, April 20, at the evening service.
The Missionary meeting of the M. E. Church, South, will hold their regular meeting Monday afternoon at the church. A large attendance is requested, as a special program has been arranged.

Miss Ruth Stayton is spending the week-end in Fort Worth, the guest of Miss Elizabeth Miller.
Mrs. W. F. Long and daughter, Miss Julia Long, returned Saturday from a two months visit in Corpus Christi, San Antonio and Fort Worth.

The success of the National Bank of Commerce has been achieved upon the sound basis of always giving first thought to the needs of customers. Not only are routine matters handled with the utmost efficiency but facilities are also provided for meeting special conditions as they arise. 286-1
Carlsbad Mineral Water for Constipation. Phone 437. 278-12tc

Miss Grace P. Hooper of Nebraska, the national junior superintendent of the Christian Endeavor, is anticipated to reach this city on April 21. This date is one of the many similar engagements arranged for Miss Hooper while she is touring the south. Six weeks of this tour are being spent in Texas. Entering the state on March 15, she has been in a number of district conventions and held numerous local rallies as she will here. Miss Hooper will be the principal speaker at the district convention of the Wichita district at Saint Jo on April 18-20, and will come directly from the convention to her Wichita Falls engagement.

Local committees are working toward making this an occasion of unusual interest and value to all Christian Endeavor workers in the city. Not only will Christian Endeavorers be expected to profit by this conference but an invitation is extended to all of the Sunday school workers and pupils, all young peoples societies, workers and members of all churches and all church workers in general who are interested in the work with children and the young people. This is to be strictly an interdenominational meeting.

Arrangements are being made for a conference with all workers at three o'clock in the afternoon of Monday, April 21. Following this there will be a rally of all Junior C. E. and Sunday school members and workers at four o'clock. The parents of the children are requested to attend this rally. Then at eight o'clock there will be a general mass meeting of all church people for fellowship meeting. At this time Miss Hooper will deliver an address.

Arrangements are being made to hold all three of these meetings in the First Presbyterian church. Further announcement of the program will be made during the week.

A Little Trip Through the Store

GOOD MORNING!

Getting almost summer time isn't it?

Next Sunday in Easter.

You'll have to get your toggery his week.

Yes, we did get in some black silk hose for women.

Ask at the Hosiery Counter, Main Aisle.

And the new collars! Well they sure are pretty.

New patterns in Printed Georgettes, (Dress Goods Section.)

The New Huffings.

They're very stylish this season.

Say! Take a look at our center window.

They're specimens of the High School Art department.

Proud of our kids—aren't you?

'Bout to forget that we have a circus Thursday.

Of course you're going to "take the children."

Watch the parade from our store front.

If you fail to get the attention of our sales people as quickly as you think you should, after entering our store, we would thank you very much to consider the crowded condition of our aisles, and to bear with us in the present rush. It is our intention that all our patrons shall have the attention due them, and to this end we are striving.

THANK YOU!

Come Down Tomorrow.

PROSPECT GOOD TO SECURE THE FOURTH CAVALRY OF TEXAS

OFFICERS ARE MUCH IMPRESSED WITH ADVANTAGES OF THE CITY.

SITE IS BEING CONSIDERED

Call Field and Club Lake Have Been Suggested as Suitable Locations.

Prospects are decidedly rosy for the transfer to this city of the headquarters of the Texas fourth regiment of cavalry now at Amarillo. After an automobile trip Friday by Adj. Gen. James A. Harley and Asst. Adj. Gen. W. D. Cope to Call Field and other proposed sites for the regimental headquarters, both of these officials were enthusiastic supporters of the proposed change, and Colonel V. A. Miller, whose home is in Amarillo, is also in favor of locating the regiment in Wichita Falls because of its superior railroad facilities.

The federal government has already issued the orders for horses and other equipment, but these orders cannot be filled until the buildings necessary for housing them are in readiness. As these buildings are not to be found at Amarillo, the present headquarters, and their officers in charge favor the removal to this city, it is believed that the proposed trip to Washington of two of the members of the local chamber of commerce will be enough to turn the tide in favor of Wichita.

Chamber of Commerce Active.

The chamber of commerce is enthusiastically backing the project, and J. A. Kemp and W. W. Silk of that body have been appointed to push the matter through. An effort will be made to get the consent of the war department to make use of Call Field for this purpose, and when this has been secured, it is believed that the necessary orders for horses and other equipment can be filled at once. In the meantime, however, a ten-year lease on more desirable quarters can be had at Club Lake at the end of Tenth street, and it is thought by those back of this proposed new location that the saving in water bills alone will equal the \$105 a month rent which is asked. One horse will drink from five to 15 gallons a day, according to the time of the year; and as it is estimated that the two-thirds of the water supplied will be wasted or used for other purposes, the saving effected in this line will be considerable.

The Club Lake site comprises 75 acres, and by locating the stables below the dam and having all other drainage similarly disposed of, it is thought that this location would be preferable to any that might be had at Call Field. If the post is enlarged later sufficient to accommodate three regiments, or an entire brigade, as is hoped will be the case, the water supply will prove a still greater asset.

Expense of \$10,000.

E. W. Napier, local attorney, and Major of the regiment, is authority for the statement that \$10,000 will be sufficient for erecting the necessary housing quarters for a starter, and that other buildings could be added later as necessarily called for them.

Thirty men would be permanently stationed here to keep up the equipment and take care of the 250 horses and would be stabled. These men would receive full pay the year round. The remainder of the regiment, between 500 and 600, would be on one-fourth pay all the time, but would be on duty only at stated intervals. Drill day would come but once a month, and the men would at that time receive a wage of \$7.50. In addition to this, there would be an annual stipend of 30 days when all would be present, so that their revenue, accruing to the local merchants would from the cavalrymen would amount to many thousands of dollars in a year's time. The chamber of commerce is counting on the support of every merchant to see that the project is carried through. The government will pay for the upkeep of the buildings and the care of the horses, an allowance of \$200 a month being set aside for this purpose.

Many of the men are finished horsemen, partly as the result of the three months' training at San Antonio, while not a few were daring and experienced riders before entering the service. The experts among them will conduct a school of equitation especially for the men who need more training along this line, but Major Napier is of the opinion that this may be extended to take in civilians. Such instruction will include jumping over hurdles as well as the fine points of fancy riding.

Gen. Harley and Major Cope were both impressed with the cordiality shown them by the chamber of commerce, and left last night for Austin enthusiastically in support of the proposed change in the location of military headquarters from Amarillo to this city.

GIBBS AND HOWARD SUCCEED STIMPSON AND ALBRITTON

Oren Gibbs has been appointed trainmaster of the Wichita Falls Traction Company, succeeding Charles Stimpson, who has taken the boat concession at Lake Wichita for the season.

Dean Howard has succeeded L. E. Albritton as superintendent of the traction company.

SOLDIERS MEET AT COURT-HOUSE WEDNESDAY NIGHT

Every man who has been in the military service during the late war, whether at home or abroad, is urgently requested to come to the court house at 8 o'clock on Wednesday evening, April 16, to select delegates to the state convention to be held in San Antonio on April 20, 21 and 22. As is generally known, Lieut. Col. Roosevelt, son of the late president, is now organizing the veterans of the war into a national federation. Just what name will be given this new association of veterans has not been decided upon, but "The American Legion" is one that has been proposed.

In line with this national movement of Col. Roosevelt, the veterans of Texas are soon to effect an organization of their own, later to be merged into the national one. A convention for this purpose meets soon at San Antonio.

All soldiers are urged to attend this meeting at the court house on Wednesday, which has been called by Major Napier in the suggestion of Adj. Gen. Harley, in order to make arrangements for sending as many delegates as possible to the convention to meet the following week at San Antonio.

Every soldier is urged to attend and be on time.

MAJORS LEE AND JONES FORM A PARTNERSHIP

Majors Q. B. Lee and Everett Jones, both of whom have been serving on the western front, and who for three months were on the same operating team in field hospitals, have formed a partnership and will soon open an office in the Kemp & Kell building. They consider themselves fortunate to have secured new quarters so soon, and the credit therefor is due to an obliging tenant who will double up in order to give them a chance to regain their former patronage.

By Lee, now raised to the rank of major, was president of the Rotary club when he left the city six months ago, and gave an account of his experiences abroad at the meeting of the club last Thursday.

Cultivate habits of Thrift which you can do best as a member of a War Savings Society.

ALAMO HOME AND SCHOOL CLUB MEETS FRIDAY AFTERNOON

The principal teachers of the Alamo school had charge of the program at the Alamo Home and School club which met at the school Friday afternoon at three o'clock. The program was as follows:

"America," Folk dance by the first grade pupils. Reading, "Babyland," Dorothy McClure. Violin solo, "Cradle Song," Harriett Bradley, third grade.

Reading, Harold McConnell, fourth grade. Japanese dance, Bulah Gardner. Piano solo, "Golconda Serenade," and selections from "The Bohemian Girl," Edna Rundell, sixth grade.

Reading, "Grandma's Quilt," Doras Roadhouse, fourth grade. Violin solo, Leta Jo McAllister, sixth grade.

Piano solo, Adlene McGregor, third grade. Reading, "The Leprechaun," Gertrude Friedly, sixth grade. Piano solo, "Sweet Dreams," and "Barcarolle," Fay Fisher, fifth grade.

Ukelele chorus, Mary Anderson, Gene Nelson, Electra D. Reeser, Anabelle Cooper. No business was taken up at the meeting owing to the absence of the president, Mrs. Culbertson, who with Miss Kate Hayes, is representing the Alamo club at the Mothers Congress now in session at Fort Worth.

For men only—does not apply to War Savings Societies. They are for everybody.

YOU CERTAINLY NEED GLASSES

If you have to hold the paper or book too close or far away from your eyes. Let us fit your vision with glasses made with the new Toric or curved lenses. They conform to the curve of the eyes and you cannot tell how comfortable they are till you have tried them. They are simply wonderful.

PLANNING TO BEGIN CONSTRUCTION OF IOWA PARK ROAD

The county commissioners at their session this week will discuss the advisability of starting work on the Iowa Park road and of finishing up that much of the road system with a durable concrete construction.

Work on the highways was stopped about two months ago when it was seen that the type of roads planned would not be of heavy enough construction to stand up under the heavy traffic to which they would be subjected. At that time it was understood that another election would be called in the near future to vote additional bonds to build the type of roads required. So far as has been learned no step has been taken in this direction. There are sufficient funds on hand to build a number of miles of the best type of roads and there is sentiment in favor of applying the money on the Iowa Park road without further delay.

J. B. Crockett, who had been employed as superintendent and engineer for the road system in this county has returned to his old home at McKinney. He is reported to have accepted an offer of \$10,000 a year to take charge of the construction of the new highway system in that county.

Whether you have much or little money to deposit you need not be satisfied with anything but the best—an account with the National Bank of Commerce, which is a bank for all the people and a bank where your money is safe.

THE WORLD DO MOVE!
Not all the wide-awake men are "across the seas!"

Other countries can boast of the wisdom of their political and industrial leaders. We take pleasure here in "putting up" one of our men—a real man—Mr. J. I. Shearer, general manager of the Penn Mutual Lighting and Power Co. In a "straight from the shoulder" speech before the Altoona, Pa., chamber of commerce this astute business man said: "The day of divine rulership is over; it is a thing of the past here in America, as well as in Russia and Germany. The business man of today who wants to destroy organized labor because he does not understand it is merely a camouflaged Bolshevik. Labor has rights that we must recognize if we expect labor to recognize our rights. We have got to live in fifty-fifty harmony and understanding to get along."

As a direct result of his manly speech he got the Altoona chamber of commerce to admit the labor organizations to membership and then he persuaded the labor organizations to join the chamber of commerce. That's a square deal all around and fine Americanism too. Of course the rank radicals quit on both sides and then saw the foolish blunder. This Altoona experience is an experiment of solid significance and worthy not only of watching but of emulation. Only as we come to understand each other and try to meet each other fairly can we ever expect to get along on this earth. We are neighbors or labor organizations or commercial-industrial organizations.

Two good things have already taken place, viz. the labor organizations have discovered that the chamber of commerce is a human affair and not a "band of pirates," and the chamber of commerce has found out that the labor organizations are also human affairs and not bands of malcontents. Altoona is much of an industrial town and our hats are off to it in trying to solve the after-war problems in such a large way.

"FITS."

We all have 'em or take 'em more or less. Some times we give the other fellow "fits," then later realize we are a fool of self in this "fit-giving." Just now society the world over is going through one of its "fits!" The needful thing for democratic citizens is sobriety in word, thought and deed. That is the one best antidote against fits. All kinds of wild stories are heard about Bolshevism and Bourgeoisism and so the social hysteria runs its mad course. Just realize that Bolshevism is our old friends direct-action materialistic Socialism and has been with us for these many years! That this new angled "anytime" called Bourgeoisism is a French way of styling Capitalism against Democracy.

In plain American all of us need to "keep our hands" and "keep our tongues" between our teeth. An old adage urges that "we think twice before we speak," and another has it "that we look before we leap." In these days of change from war to peace when all of us more or less are bothered with material conditions these old wise sayings are mighty apt! Anyhow let's avoid having any kind of "fits" in business or in religion, and society will be the better for it.

A good way to help this along is to refrain from accusing the other fellow of anything until you know it's so, and then count ten, and go slow! And take a look at yourself first. Whatdoyesay?

SISK IS RE-ELECTED AND SALARY IS RAISED

Special to The Times.
VERNON, April 12.—B. F. Sisk has been re-elected for the third time as superintendent of the local city schools. The salary of the superintendent was raised at a recent meeting of the school board to \$2,700 per year.

Early to bed and early to rise; War Savings Societies—if you're wise.

OUR TABLOID SERMON

(By The Country Parson.)

"EDGED TOOLS."

Text: "Study to show thyself approved unto God a workman that needeth not to be ashamed, handling aright the word of truth." 2 Tim. 2:15.
The injunction to be a workman without shame is primarily a moral task. He who is right in the moral world will be ready in the physical world. The master workman takes pride in his tools. Good that a workman is known by his chips. Better that he is known by the edge of his tools. Edged tools demand skill for handling. We are to be concerned with the mechanics of the moral realm. The edged tools of this realm in their use make or mar the man.

Free speech is an edged tool of its worth. With it logically goes free press. The use or abuse of these edged tools reveals the real worth of both the workman and the work. Victor Berger and Eugene Debs forgot the keenness of the edge of these tools and cut themselves! To be able to wield as a tool "free speech" and "free press" is a sure sign of superior workmanship. Perhaps Lloyd George is an expert, a workman in the use of these edged tools as the world affords. To watch him at work either in the press or in his forum is to see a workman that needeth not to be ashamed. Learn to make wise use of these two-edged tools and so be a good workman, and that means a good citizen.

The ballot is an edged tool of use carelessly and "made bitter" in this country not appreciated for its noble worth. Consider: the right to register your opinion by your vote is a piece of workmanship that has much to do with the building of the ship of state! Equal suffrage and universal suffrage mean workmanship in the wise use of this edged tool we call the ballot. Let the "woman" vote and let all learn how to wield this tool so that our neighbor is not hurt!

The Right of Public Assembly is another edged tool of priceless value in the moral world. How can we build a stable nation without the

constant use and wise use of this edged tool? The abuse of this tool sent Karl Luehrich to his untimely death. Pity that this fine mind had not learned to make wise use of this double-edged tool. By all means let us come together and talk! The British government has given to all of us an excellent example in the masterly use of this edged tool in permitting all the people to assemble in public and make much speech. Better speech, looser speech, wiser speech and foolissh speech than swords! So our forefathers made this edged tool a guarantee of our Constitution, and thank God for their wisdom.

The Open Bible is an edged tool that has largely made Anglo-Saxon civilization what it is today. Pick up the speeches of our great men like Daniel Webster or Abraham Lincoln and see the effect of their workmanship in the use of this edged tool—the open Bible. Yet this was the tool that ruined one great man—Rob Ingersoll, whose the pity too! For truly his was a great mind—self-ruined by bungling workmanship. See it that you don't hurt yourself with this edged tool! Make good use of it while you may and can, for the time will come when you too will have your workmanship examined. And workmanship is the mark of the workman.

With this edged tool goes another that can not be over-valued, the edged tool of prayer. There Jesus showed His workmanship in the constant use of this edged tool. In fact all the great and good of history have proven their workmanship by the wielding of this tool. Here as now here practice makes perfect. The practice of prayer is an essential for the experience of prayer in the answering of prayer. Learn to use this finely tempered edged tool profiting by the experience of those who have left their record in the New Testament and elsewhere.

Now this: no one can be your workman in the use of edged tools. So pick up those tools of the moral realm and prove yourself to be a workman that needeth not to be ashamed—here or hereafter. Amen.

Bedtime Stories

(By Howard R. Garis)

UNCLE WIGGLY AND THE SNEEZING SUNSHINE.

"Oh, Uncle Wiggly! I'm afraid you will have to go to the seven and eight cent store for me," called Nurse Jane. "A new, shiny tin dishpan," answered the muskrat lady. "My old pan has a hole in it and all the water leaks out."

"A new, shiny tin dishpan you shall have, as fast as I can take a hop, skip and a jump and get it for you," said Uncle Wiggly.

Then, leaning on his red, white and blue striped rheumatism crutch, Uncle Wiggly started off across the fields and through the woods to the eight and nine cent store to get Nurse Jane the new, shiny tin dishpan.

Now Uncle Wiggly had not gone very far before, all of a sudden, a bright sunlight shone in his eyes, his pink nose gave an extra hard twinkle and Uncle Wiggly sneezed! "A-ker-choo! A-ker-choo! A-ker-choo!" sneezed the bunny rabbit, closing his eyes. "A-ker-choo! Ker-choo!" When he opened his eyes again the bright, sparkling light shone in them once more, his nose felt funny and he sneezed again.

"Well, this is queer!" laughed Uncle Wiggly, as he held his tall silk hat up in front of his face to keep out the light. "This is very queer, sneezing sunshine, to be sure. I wonder—a ker-choo!—what makes it tickle me so?"

Then Uncle Wiggly sneezed, again, and then he heard a jolly little laugh, and out from behind a tree came Johnnie and Billie Bushytail, the two squirrel boys. In one paw Johnnie held a bit of shiny looking glass.

"Excuse us for making you sneeze, Uncle Wiggly," said Billie, "but we didn't mean to, and couldn't help it. You see I found this piece of shiny looking glass just now, and I held

it out in the sun and a sunbeam glanced off from the shiny glass, and into your eyes, and—

"And I sneezed!" laughed the bunny. "I certainly did. That's all right, boys, as long as you didn't mean to do it."

Then Johnnie and Billie twinkled the bit of looking glass in the sun, and shot bright, glaring beams of light all around. They sent some of the sneezing sunlight into the face of an old toad gentleman who was hopping along, and he sneezed so hard that he jumped backward. But he said

"I was glad of it, because he liked to sneeze, and jumping backward or front ward was all the same to him."

So Uncle Wiggly left Billie and Johnnie playing in the sun with the bit of shining looking glass and the bunny gentleman hopped on to the eleven and twelve cent store to get the new, shiny tin dish pan for Nurse Jane.

"Here you are, Uncle Wiggly," said the little mouse girl who waited on him. "Here is the most shiny dish pan in the store. You can see your face in the bottom of it."

"Why, so you can!" cried the bunny, as he tried it. "This is jolly. The dish pan is so shiny as the bit of looking glass the squirrel boys had."

The mouse girl wrapped the dishpan in paper, Uncle Wiggly took it under his paw, and started to hop back toward the hollow stump bungalow. He was thinking how glad Nurse Jane would be to have a pan that didn't leak, and the bunny was just wondering what he would have for supper, when all of a sudden, out from behind a stump hopped the bad old Pipsissewah.

"Ah, ha! Oh, ho!" howled the Pipsissewah. "I think there is no question but what I have you this time, Uncle Wiggly."

"Yes," sadly answered the bunny, "you mean to have me. And what are you going to do with me?"

"Take you off to my den, and nibble a bit of sausage off your ears!" said the unpleasant toad. "I am hungry for sausage and—"

And just then the wind blew the paper covering off the new, shiny dish pan. A beam of sunshine shone on the bright tin, like a looking glass, and then the sunbeam shone in the eyes of the Pipsissewah.

"A-ker-choo! A-ker-choo! A-ker-choo!" sneezed the bad Pipsissewah, and he sneezed so hard that he turned a somersault and a pepparsault and away he flew off over the trees, and so he didn't get Uncle Wiggly at all.

"Well, it's a good thing the new tin dishpan made the sneezing sunshine tickle the Pipsissewah," said the bunny.

Then he hopped on to his bungalow. Nurse Jane washed the dishes and all was well. And if the coffee pot doesn't get up in the night and take the tea out of the sugar bowl to go to the moving picture, I'll tell you next about Uncle Wiggly and Sammie's marbles.

Madame Lansing's School
SATURDAY, APRIL 12
Best Orchestra in Southwest

Service!

When you buy an automobile, buy also service back of the car.
The Cadillac and service are synonymous—they mean the same thing.
For more than ten years the Munger Automobile Company has sold the Cadillac—"Standard of the World"—in Texas.
Ask any Cadillac owner about Cadillac service. Munger's interest in you does not cease with delivery of your car. On the contrary Munger Service is yours to command as long as you are a member of the Cadillac family.
The Cadillac requires less attention than any other automobile, but when you need service you don't want to trust your car to any ordinary mechanic.
With the purchase of a Cadillac you get also personal service; conscientious attention; sincere interest.
Cadillac owners in Wichita Falls territory will find an expert service man, factory trained, at our temporary location, the Mickey Garage. Later, in our permanent quarters, there will be available the same service as is given at the main Dallas plant.

MUNGER AUTOMOBILE CO.
(Victory Garage) Wichita Falls, Texas

WON'T GO TO BED BECAUSE HE'S AFRAID HE WON'T WAKE UP

By Associated Press.
BEAUMONT, TEX., April 12.—In spite of repeated statements by reputable physicians to the effect that "sleeping sickness" is not a contagious disease a world of nervousness has been caused by the appearance of the malady.

A physician of this city stated yesterday that he had been called in to administer to a man 70 years old, who has not been to bed for more than a week, being obsessed with the

belief that if he went to bed he will never wake up. The old man is getting along the best he can by taking catnaps in a chair.
Another case in Beaumont is a woman who is afflicted with sleeping sickness in one eye. She declares that at times she is so sleepy in one eye that she can not keep the member open, while in the other one she is wide awake.

Another case is that of a young girl who recently was confined to her bed with mumps, now finds that while one of her eyes is perfectly sound, she sees double with the other.

EASTER=Next Sunday DRESS UP!

Dress Up—Because the world is at peace again!
Dress Up—Because Spring is here—the warm sunshine—the whole world is glad!
Dress Up—Because all your friends are dressing up—because it gives you pleasure to look well—because your friends like to see you looking your best.
DRESS UP—BECAUSE OF THE SPIRIT OF THE TIMES—

What a Joy to Buy Dresses to Be Happy In!

This time last Spring, most women were buying plain dresses, or were wearing old clothing, to do Red Cross and other war work. Now all women can buy bright new HAPPY Dresses — for life is full of pleasant days again.

Here are the handsome varieties of new Spring Dresses that most fully express women's desire for apparel suitable for happy days and pleasant social occasions.

Priced Reasonably
\$25.00 to \$125.00

Fashionable Spring Suits that have just arrived

A very smart assemblage of Suits interpreting the season's most favored silhouette developed in Poiret Twill, Serge, Tricotine, Tricoulette and Paulette.

\$29.50, \$35.00
and Upward to \$150.00

Models Shown in Our Windows Today

"Thoroughbred Hats"

Is the best way of describing them. They are dressy, becoming, and have all the dainty touches of Paris creations in their making.

Won't you visit our Millinery Department this week?

Beautiful Spring Silks of Unusual Variety

Our Silk section is literally alive these days with beautiful Spring Silks. Gay stripes, flowered patterns, sombre plaids, charming figurings may be seen in goodly assortments. That they will gain your approval we have no doubt. When one sees satins, taffetas georgettes, crepe de chines and foulards of the very best qualities obtainable, one is certain of finding pleasing patterns.

Visit Our Silk Department Tomorrow

Frilly Petticoats for Wear with the New Gowns

Just as Fashion brings in the dainty frocks of Spring, the new Petticoats are ready to go with them. For dancing, especially, these Petticoats are most happy.

Of Crepe de Chine and Wash Satins, trimmed with lace and ribbon or chiffon flowers—especially in shell pink and white. Some are trimmed with deep embroidery; some are finished with fringe; some show weavings of ribbon velvet—flounces, frills and insertings beautify others. A charming collection, that's sure.

Priced \$3.95 to \$15.00

Attractive Spring Skirts

Pockets, belts, fabrics, patterns—all these things, bits though they might be in speaking of whole skirts, go to make for the individuality which is so capable of reflecting the personalities of wearers. We would suggest that you see them shortly. They may be worn for a long season and early purchasers have the best choices.

Outfitting Women For the Out-Door Days

A smart Sports Skirt and a clever, colorful Sweater are first essentials for being appropriately dressed, either for active play, or for restful recreation on the country club piazza. Just right, of course, on the way to the club, or anywhere else.

And never were either Separate Skirts or Sweaters quite so handsome and effective as now.

Individuality of taste may be expressed by reason of the wide variety of selection which we are prepared to offer you.

TRAGEDY OF RUSSIA AS IT EXISTS TODAY REVEALED BY WRITER

Associated Press Mail Correspondent. LONDON, March 29.—Appalling incidents of the tragedy of starvation in Petrograd are revealed by a writer in the Raskojewalovo, a newspaper published at Liban.

"Life at Petrograd really as terrible as people and as the newspapers describe it," he asks. "It is difficult for me to answer this question; difficult to return to the exciting and fantastic moods evoked by hungry, abandoned Petrograd.

"Educated people beg for alms in the streets and hang around public eating houses gazing piteously into the eyes of those who eat and waiting greedily in case anyone should leave some morsel behind.

"Children rummage in the refuse pits and ravenously devour heads of herrings and all the things despised even by the hungry Petrograd housewife, all the things undiscovers even by the lean, enfeebled Petrograd cats.

"I will not tell of the terrible judicial proceedings where ten-year-old dehumanized boys admit with sullen cynicism that they deliberately killed a little brother or sister who embezzled their lives and devoured all the bread rations. All these things made up the chronicle of daily happenings when we still had a press.

"How do they live who have not become wild beasts? They are all hungry and hunger tortures them all. But each knows that all the others are hungry and that is why no one speaks of his hunger. Human suffering has lost its individuality. Who will pity

me if I nearly die of hunger when everyone is hungry himself? Every one will turn away and say in a surly voice: 'I, too, am dying!'

"Men and women cease to complain. They creep in the streets through sheer starvation but you seldom hear anyone complain about his hunger, his own torturing enervating hunger. They all pretend to be busy with their wanted affairs as though they had come to an unspoken agreement, as though their customary existence were still going on and nothing had altered.

"A school girl is running along with her bundle of books to catch an electric car. Her dress is hanging from her body; her little face has drawn together so that it is now about the size of a fist. She is assuredly hungry, but she runs as she used to run in days long ago to catch the car as though she must run on and on.

"On a garden path a little boy is playing. His mother calls him and gives him a piece of bread made of some doubtful flour substitute. He eats it very carefully and collects all the crumbs and returns to his game. Nor does his mother groan or sigh but hurriedly takes from her little basket a worn stocking and mends it. Assuredly she has forgotten the remembrance of food, yet she hurries on with her work.

"You can feel a strain, an inhuman effort in the present daily life of Petrograd. You feel that everything is only held together by the power of imagination that may cease at any moment.

"Petrograd, the doomed city, a city sick to death."

POLICE COURT HAS A BUSY TERM SATURDAY

Testimony against alleged violators of local ordinance requiring all service car men to be residents six months before license can be granted for the use of the city thoroughfares occupied most of the time of Judge Ogle at the police court this morning. Local service car men are watching all new applicants for these licenses, and are insisting that they be able to prove bona fide residence for the required length of time previous to making application.

Declaring that she had been able to secure "booze" in almost any part of the town, W. A. Williams, colored, plead guilty to intoxication and received a fine of \$10.00. W. L. Dykes got the same fine on a similar charge; and a party who was charged with being on a spree at the Hearst hotel where he broke a glass door, was fined \$15.00. From the expression which came over his face when receiving his sentence, it was evident that he was not only provoked as well, as he told the court that he had settled the matter to the satisfaction of the hotel clerk, and was unable to see why further punishment was necessary.

Two cases of parking in the alleys came up for consideration; and Sam McGregor who was charged with driving a car at night without lights, got off after stating that his wife had turned off the lights while he stepped into a store for a package of cigarettes.

NEW MIDWAY CITY AND SUBURB OF WICHITA FALLS

The rapid growth of the Burk Burnett and Iowa Park fields demonstrate the need of a town at Bacon, and experienced real estate men have been planning for several months to build a good town at this location. A very choice piece of acreage extending east from the railroad track containing a large number of acres, has been secured by A. W. Thomas, of Fort Worth, and the building of a new town has begun at Bacon, and will be known as Bacon, the Midway City. It is the purpose of the management of the townsite to sell the lots to home people of Burk Burnett and Wichita Falls.

The intolerable housing conditions at Burk Burnett would seem to indicate that a new and desirable spot so close by would be very acceptable to citizens of Burk Burnett.

Wichita Falls citizens who are acquainted with the real estate trend of development will no doubt invest in both business and residence lots in Bacon, as there is every indication of much activity both in new locations, deep tests and industrial locations immediately adjoining this new townsite.

The success of the National Bank of Commerce has been achieved upon the sound basis of always giving first thought to the needs of customers. Not only are routine matters handled with the utmost efficiency but facilities are also provided for meeting special conditions as they arise. 286-1

FORMER FLYING OFFICER GOES TO CHICAGO TRIBUNE

Lloyd Lehrbas, formerly a flying officer at Call Field, who since his discharge from the service, has been engaged in the oil business in Wichita Falls left yesterday for his home in Montpelier, Idaho, for a short visit before returning to his position as staff writer for the Chicago Tribune. He was accompanied by his brother, Mark, who has been visiting here for the past two weeks.

Whether you have much or little banking to transact you are equally welcome to make use of the up-to-the-minute facilities provided by the National Bank of Commerce—the bank whose service makes and keeps friends. 286-1

OIL DEVELOPMENT

OIL DEVELOPMENT OVER WISE COUNTY SHOWING ACTIVITY

Special to The Times. DECATUR, TEX., April 12.—The oil development situation in Wise county is looking better every day. Within a very short time several locations will be made in the territory surrounding Decatur. Some of the deals are already closed, but full information cannot be given just yet.

The business managers of the Decatur Oil & Gas company report from New York that they are meeting with success in their efforts to put over their company, and they say positively that they will be back in Decatur at an early date and begin actual operations on their lease in the Preskitt community, a few miles southwest of Decatur. Leases are very active around this section, several good sales being made during the past week.

The Bridgeport-Decatur Oil company will soon be ready to make their location on their big lease between Decatur and Bridgeport. Minor details, which take much time, have delayed operations for some time, but the management believes everything will be in ship-shape at an early date. Leases around this property have sold as high as \$25 per acre, and the demand continues strong at varying prices.

The Greenwood people are working on their proposition of organizing a large lease north of that town, and hope soon to be in position to secure a good drilling contract.

Interesting developments are expected shortly from the sections northeast of Decatur.

While the owners of the Cottendale well are not talking, that well is considered a very promising proposition, by those who live in that community. The fact that a well of secrecy has been drawn around the operations of this well is pretty good evidence that there is something doing which will mean much to the progress of the oil development of the county within the facts are all known. It is known that several good showings of oil have been struck in the Cottendale well, and reports are that a strong pocket of gas was encountered recently.

A new and experienced driller has been secured for the well being sunk by the Bridgeport Oil & Gas Co., and work has been resumed after such hard luck caused by inexperienced drillers.

A new location has been made in the western part of the county by the Lubbock Co., and work of drilling is to begin right away.

Much leasing is being done in all parts of the county. The big companies are sending scouts here every week, who are paying good money for holdings. The prices are steadily advancing.

Casings, tubes, tire covers, Sanders Auto Supply Co., Eighth street, 273-416

ASSOCIATION NOT SATISFIED WITH COMPANY REPORTS

The Oil Investors' Association, organized in Wichita Falls last month, held an open meeting at the Central Stock Exchange Friday night to discuss the matter of reports and accountings made to stockholders by officers of oil companies. In the general opinion of the men and women present, reports recently issued by various companies have been unsatisfactory in that they have failed to contain complete details of the companies' operations.

Resolutions were passed by the association requesting all companies to render certified signed statements showing progress made in the development with additional statements monthly of receipts and disbursements.

Another meeting will be held within the next fortnight to discuss the advisability of action by the association on possible blue sky oil legislation.

HOME GUARD BATTERY IS BEING ORGANIZED AT BROWNSVILLE, TEXAS

By Associated Press. BROWNSVILLE, TEX., April 12.—The organization of a home guard battery of artillery is practically completed here and work of training civilian personnel in the art of handling the big guns will soon be under way. The men will volunteer their services for two hours drilling each week. A regular army officer will be in charge of the training.

Three point two breech loading rifles and a large amount of ammunition are available. There is at present no artillery stationed at Brownsville, and the home guard battery will be used should the occasion ever arise when big guns are necessary, until regular artillery reaches Fort Brown.

Whether you have much or little money to deposit you need not be satisfied with anything but the best—an account with the National Bank of Commerce, which is a bank for all the people and a bank where your money is safe. 286-1

PROGRESS IS MADE IN DEVELOPMENTS IN BAYLOR COUNTY

Special to The Times. SEYMOUR, TEX., April 12.—Van Ness, Snyder No. 1, located below Fancher Switch, is creating derrick and will have the same completed by the close of the week. The machinery is on the ground and will be hereafter installed, when drilling operations will be commenced.

Waterhouse, J. W. Stevens No. 1, is rebuilding its derrick, which had been blown down, on its location on Section No. 2499, T. E. & L. Co. near Round Timber in the southeast part of the county. It is understood on good authority that drilling will commence soon on this test.

Kelley Green, Oil Co., W. H. Portwood No. 1, having drilled its test, its location on Section No. 3144, T. E. & L. Co., for a 3500 foot test, has its derrick timber and machinery shipped and on route, and it is daily expected to arrive.

Sample, Albright No. 2, northwest of Seymour, is drilling at 502 feet, after some delay in awaiting casing. Dunn-Chapman-Sidney, Webb No. 1, continues with a fishing job for part of under-reamer and is repairing derrick. Previous log of this well is very favorable and encouraging sands have already been encountered.

Knox County. Knox Oil & Gas Co., McGraw No. 2, 4 1/2 miles north of Munday, is drilling at past 2,000 feet. It will be remembered that this well encountered quite a flow of gas at a lower depth, which was cased off.

Doll, Coffman No. 1, north of Goroo, had the misfortune of having its derrick blow down by the high gale of the past week.

H. C. Sample, Coffman No. 1, 12 1/2 miles west of Seymour, is shut down, waiting for casing. Throckmorton County. Sinclair Gulf Oil Co., No. 1 Wilkerson; 2 1/2 miles south of Seymour, is making fine progress since installing new boiler. Gas and oil sands encountered in this test, which is to be 4,000 feet if necessary, lead to the belief that a real oil pool will be opened in this locality.

Jones, Newman No. 1, Travis county school land, is making arrangements to assemble timber and machinery on its location. Kelley Green Oil Co., No. 1 Davis, east of Throckmorton, is drilling at 400 feet.

EFFECTS OF RECENT STORMS SHOWN IN DRILLING REPORT

Had weather during the past week has shown its effect in the Burk Burnett field by an increased number of shut downs, and some of the wells, which suffered demolished derricks during the wind storm, will be "shut down" for some little time, according to present indications.

A partial drilling report of the Burk Burnett field shows a number of wells on the sand and standardizing while a similarly large number are below the 1500 foot depth. This report, together with partial reports from other pools in the district, follows:

Burk Burnett Drilling Report.
 Bridge Head Oil Co., the only oil well being drilled in the bed of Red River at present, is shut down at 400 feet because of high water. Ordinarily the river is quite dry where this well is being drilled, but the recent big rains have made it impossible to continue work on this location. The well is being drilled by a party of Oklahomans, it is stated, who filed on the land in the river bed.

McMann Oil Co., No. 1 Vancleave, swabbing at 1600 feet, will drill deeper.

Old Hickory Oil Co., No. 2 State Lands, fishing at 1630 feet.

Hock Seven Oil Co., No. 1 McCracken, junked hole at 1600 feet.

Brudage Hancock Oil Co., No. 2 Hardin, junked hole.

Burk Navarro Oil Co., No. 1 Hardin, set casing at 1700 feet.

Sun Oil Co., No. 1 Hardin, shut down for tools at 1700 feet.

La Tonki Oil Co., No. 1 Blama, shut down at 1650 feet.

Mid County Oil Co., No. 1 Renner, shutting off salt water at 1650 feet.

Harrison Everton Oil Co., No. 1 Carl, set casing at 1750 feet.

Hamilton Oil Co., No. 1 Heiserman, shut down at 1700 feet.

Powder Hammond Oil Co., No. 1 Vaughn, casing set at 1700 feet.

Friends Oil Co., No. 1 Schultz, shut down for tools below 1600 feet.

J. W. Gilliland, No. 9 Hardin, set casing below 1600 feet.

J. W. Gilliland, No. 10 Hardin, set casing below 1600 feet.

Magnolia Petroleum Co., No. 3 Hardin, standardizing.

Mecca Oil Co., No. 1 State Lands, drilling below 1200 feet.

Lucky Five Oil Co., No. 1 State Lands, shut down for tools.

Magnolia Petroleum Co., formerly Fowler Farm, No. 8 Vancleave, shut down below 1600 feet; No. 9 and 11, shut down below 1600 feet; No. 13 drilling at 1550 feet; No. 14, drilling at 1450 feet.

Gulf Production Co., No. 2 Derden (Lease B), drilling around 1600 feet; No. 5 standardizing; Nos. 7 and 10, standardizing; No. 8 and 9 casing cemented; No. 11 on sand; No. 12 standardizing; No. 13 drilling at 1450 feet; No. 14 drilling at 550 feet.

Magnolia Petroleum Co., No. 9 Fowler, Magnolia-Fowler, No. 2 cleaning out; Nos. 1, 3 and 4 shut down below 1500 feet.

The Texas Co., Hardin (Lease A), No. 4, shut down at 1200 feet; No. 5, cleaning out at 1250 feet; No. 6, standardizing at 1575 feet; No. 7, drilling at 600 feet; No. 8 drilling at 1,000 feet; No. 9, standardizing, at 1500 feet; No. 10, set casing; No. 11, drilling at 1550 feet; No. 12, shut down at 1500 feet; No. 13, drilling at 1500 feet; No. 14, drilling at 1700 feet; No. 15, drilling at 1200 feet.

The Texas Co., Hardin (Lease B), No. 2, standardizing; No. 4, drilling at 1300.

The Texas Co., Vancleave No. 1, standardizing at 1650 feet; No. 2 standardizing at 1650 feet; No. 4 shut down at 700 feet; No. 5 drilling at 1500 feet; No. 6, balling at 1625 feet; No. 8, drilling at 1650 feet; No. 10, drilling at 1360 feet; No. 13, drilling at 1450 feet.

Other wells at Burk Burnett, reported below 1500 feet, drilling shut down, on the sand or with casing set, follows:

Helen Elizabeth Oil Co., No. 3 Vancleave; Hising Petroleum Co., No. 1 Vancleave; Ligon, Blair and Rowe, No. 4 Wilson; Lucky Five Oil Co., No. 1 Vancleave; Magnolia Petroleum Co., No. 5 M. N. & F.; Magnolia Petroleum Co., No. 5 Fowler; Reason Oil Co., No. 1 Vancleave; Robertson Petroleum Co., No. 4 Vancleave; Summit Oil Co., No. 1 Vancleave; Tex Cal Oil Co., No. 1 Vancleave; Lone Star Tool Co., No. 1 Jones; J. W.

Gilliland, No. 7 Hardin; Two Wells Oil Co., No. 1 Berney; Waco Oil Co., No. 1 Hardin.

The Texas Co., No. 1 Graham, still drilling, past 4,000 feet.

The Texas Co., No. 1 Blair Hughes, drilling around 1,800 feet.

The Texas Co., No. 1 Norris, spudded in, drilling below 200 feet.

Cosden Oil and Gas, No. 11 Timmons, drilling around 188 feet.

Three States Oil Co., No. 1 Graham Stewart, drilling around 2300 feet.

CONTRACT TO COMPLETE WELL AWARDED BY S. O. & G. CO.

On Monday the Bridgeport Oil & Gas Co. entered into contract with Lee Nellis of Bridgeport, Ill., to finish their well to a depth of 3500 feet, unless oil is found at a lesser depth.

The company has been having all kinds of trouble in drilling this well and have been fishing for lost tools for the past three weeks; but now it is relieved of all trouble. Mr. Nellis takes charge of the well just as it stands and agrees to finish it, and receives no pay until the job is completed. He evidently knows his business and will proceed with the work in a way that will bring results in the shortest possible time.—Bridgeport Index.

Prichard, Logan & Company

Ira C. Prichard, of Prichard, Logan & Co., Fifth Avenue, New York, general booksellers and dealers in art and musical publications, will remain a short time longer in Wichita Falls. Will be glad to give you the benefit of his 25 years in building libraries.

In some instances his prices are FIFTY PER CENT below pre-war list prices. Some specially popular works here are:

Century Dictionary, 12 vols.; History of Painting; Drama and Opera; Universal Anthology; Young Folks' Library; Natural Histories; Benjamin Disraeli; Comprehensive History North America, fair to South; Beacon Lights History; Histories Japan, China, Russia, Turkey, India, Persia, etc.; all the standard authors, including Dickens, Thackeray, Shakespeare, Longfellow, Tennyson, Ruskin, Emerson, Tolstoi, Kipling, Stevenson, O. Henry. Splendid libraries from \$500 to \$2000 original list price placed in many select homes here, including those of Mesdames W. W. Silk, R. O. Harvey, S. H. Burnside, Clint Wood, S. L. Fowler, W. D. Cline, C. W. Shider, T. P. Adams, etc., etc.—also Kemp Library. Splendid letters from these and many thousands of others. You will do a wise thing, save yourself time, money and annoyance, and put yourself in position to secure an intelligently selected library now or in the future by telephoning Mr. Prichard.

Telephone 1576 for information.

Spring's 'Snappiest' Clothes for Men

Ordinary fabrics and extraordinary words—little tailoring and much boasting—a minimum of touch and a maximum of words—a lack of good taste and a lot of superlatives—these generally go together. Is it not so? And that is nonsense.

The only superlatives we know, and like, are the superlatives of effort, thought, good taste. These we have put into our clothing.

The men who plan our clothing are men of good taste. They know what successful, self-respecting men wish to wear. They are good judges of fabrics, of colors, of weaves, of patterns.

The tailors who make our clothing are trained to observe the niceties of workmanship that give a suit character—they always keep the quality up.

Society Brand Clothes

It is an asset to be able to say that—"We sell these clothes." For—whether you know it or not—many know how good these clothes are, for they are

Society Brand Clothes
 FOR THE MEN AND MEN WHO STAY THERE

—the national standard. They combine in the highest degree the three essentials of good clothing—good style, good fabric, good tailoring.

EXCITING ADVENTURE OF CHICAGO COUPLE DURING REVOLUTION

Associated Press Staff Correspondent. OMSK, SIBERIA, March.—Exciting adventures have fallen to the lot of Mrs. Carl C. Compton, of Chicago, who, with American womanly pluck, has accompanied her husband in many months of humanitarian relief work among the Armenians and later during the most exciting moments of the Bolshevik revolution. They had never left Illinois before coming to the Caucasus for the committee on Armenian relief. Now, Mr. Compton is in charge of the American Young Men's Christian Association work at Omsk.

They were first stationed at Alexandropol, Caucasus, then in the hands of the Russians, and were occupied with industrial relief work. Positions were found for refugees as they arrived, fleeing from Turkey. The husband in that they and other members of the corps distributed clothing for 15,000 Armenian orphans, whose parents had been massacred by the Turks. Help was furnished to about 7,500 refugees.

Revolution developed. The Russian revolution developed. The Bolsheviks abandoned the battle front and the Turkish army advanced. It was feared that the Germans would come down the Black Sea and seize the line from Batum to Tiflis. The American consul advised all the Americans to leave at once, and a special train conveying sixty foreigners finally arrived at Baku on the Caspian Sea. There they were caught in a battle between Bolsheviks and Armenians on one side and Tartars on the other. The street in which they lived was dominated by Tartars who sprayed the roadway with machine-gun bullets. For three days they did not dare leave the house and had only bread to live on. Eventually, by paying a high price, they were able to charter a special steamer for Astrakhan, which is situated at the mouth of the Volga. "We had to sleep on the deck throughout the whole trip," said Mrs. Compton. "The crew and the families of the crew slept in the cabins, and refused to give them up."

Wait for Two Weeks. "We waited for two weeks for the ice to break up in the Volga and then we went up to Samara. The others went on to Vladivostok. The Bolsheviks were in possession of Samara then, but we were able to carry on general relief. Thousands of refugees came through and we started a soup kitchen at the station. Later, maternity and general hospitals were organized."

We had rather an exciting time at Samara when the Czechs came in. We lived not far from the river between the Bolshevik barracks and the principal Bolshevik club of the city. The place drew most of the shell fire from the Czech army. Bullets came through our windows and our room became filled with brick dust from the exploding shells. The Bolshevik soldiers lay flat upon the club roof and fired down on the Czech soldiers, so we had a very good view of the fighting. From my window, I could have touched the Bolshevik troops with my hand.

We were awfully glad to get down into the cellar. There was a slit in the wall and we could see the end of the battle. Finally we heard the Czechs cheering, and saw people running from the houses, all making the sign of the cross. The Czechs had won. Everybody put on their best clothes and paraded the streets with bands. Collections were taken up for the Czechs, who were hailed as heroes and deliverers.

When the Bolsheviks had the city we would see them lying in the streets. They were always chewing sun-flower seeds. Mr. Compton said he had never seen any Bolshevik atrocities but he had seen proclamations issued by the Bolsheviks declaring they would butcher the people if they captured the city. He said that once a Bolshevik broke into an American's room but had immediately apologized, adding that America was the only friend Russia had.

Mr. Compton also said that Russian officers told him nine-tenths of the people became Bolsheviks because they didn't have enough to live on, and because they thought anything would be better than their present condition.

HOW THE "SUICIDE SQUADRON" PLANTED MINES FOR NORTH SEA

By Associated Press WASHINGTON, D. C., April 12.—"Stick to your job and go up with it."

This was the slogan adopted by the "Suicide Squadron" which planted the mines for the North Sea barrage, which snared the deadly U-boats in their dens and helped win the war. The remarkable achievement of getting the mines ready for hurried shipment was told in a previous National Geographic Society bulletin by Capt. Reginald R. Belknap, U. S. N., who had charge of the operations, and in a second bulletin he describes the hair-raising episodes and almost unbelievable speed with which the mines were planted.

On one of the joint excursions of British and American ships ten American ships planted 550 mines, the four British ships planting 1300, making a total of 8820 planted in four hours. That was the record for number. The American squadron alone, a few weeks later, he states, planted a field 72 miles long, making a record for distance.

"By June 3, 1918, preparations were going full blast for the first mining excursion," Capt. Belknap says. "This time, however, was adopted as a cheerful offset to the sense of danger. One cargo of TNT had been enough to devastate Halifax, and our squadron had ten cargoes. Our course would lie through areas where it was necessary to search for mines constantly, and we would come frequently in the regular thoroughfare for enemy submarines. "By June 6 all was ready for the first excursion. The eve of departure brings drizzling, misty weather. Midnight comes, and without signals or lights or any noise but the clanking chain, the flagship gets under way and heads out."

"Straight over to Norway we go, making Udsire Light; then off to the northwestward. It is a busy night and early morning, keeping the ships in station, going over the mines for final touches, watching on every hand for submarines, and getting all clear for our first large operation. "At 4:27 a. m. the signal is made that mining will begin one hour later. The crews go to mining stations, and in the flagship we look for signals reporting whether the other ships are ready. They are ready. It is like a horse race when the starter's flag is up. "The squadron stretches a mile and a half in a beautifully straight-line abreast. "Now the mine-planting signal is flying; they will begin when it starts down. The commander stands, watch in hand—two minutes, one minute, thirty seconds more, fifteen—he looks up inquiringly. All right. "Five seconds—hand down."

"And in answer red flags break out on the other ships, showing that they have begun to plant. On the flagship's bridge, the call-bell rings, and from the launching station at the stern the mines come. First mine over the side. "Four after hour the mining goes over. The staff officers watch the scheduled events and compare the times with what they should be. A few seconds out here and there, otherwise all goes without a hitch—just as planned before leaving the United States. "Now we watch the Housatonic, a new ship, with a new, untried installation, doing a string of 675 mines, one every 11.2 seconds throughout two hours and ten minutes. Her mate stands by, ready for any interruption; but the Housatonic completes the task without a break—a world record up to that time. In a later excursion the Canonic lays 860 mines in 3 hours and 35 minutes without a break, making a string longer than from Washington to Baltimore. "At last, after nearly four hours, the schedule is finished. Now the ships form in four columns and start back to base. Below decks the men are cleaning up, securing the gear, and getting a wash for themselves. That done, they drop in their tracks, dog-tired and the decks are thick with sleeping forms."

FORMER EMPEROR'S CHATEAU TAKEN OVER BY FRENCH STRASBURG, FRANCE, March 11.—Former Emperor William's chateau at Hoh-Koenigsburg in Alsace has been taken over by the French authorities. It is recalled that the city of Schlotstadt was forced to give up this medieval castle to William I who received it at a cost of \$1,750,000 and then made the people of Alsace-Lorraine foot the bill.

PROPERLY FITTED LENSES will always give satisfaction. There are two very important facts you should be sure of—that is, to know that you are wearing the right correction, and the other is to see that the frames fit the face, which is just as important, as to see that the LENSES are correct. —If you are having any trouble at all with your Eyes, it would be wise to consult an experienced Optometrist. —We give more vision with Toric Lenses. LONG JUMP FROM ARAE TO ZEPPENFELT ON ROLL OF ARMY

Associated Press Staff Correspondent. PARIS, March 10.—The first name on the alphabetical list of the American Expeditionary Force is Private Aarae and the last is Corporal Zeppenfelt. Between the two names are more than 2,000,000 others.

George Washington, Abraham Lincoln, General Ulysses S. Grant, Robert E. Lee, Woodrow Wilson, several Caesars and a few Bismarcks adorn the ranks with intermittent frequency. Excluding the commander-in-chief of the army and navy, there is but one Woodrow Wilson. He is a private, and according to Stars and Stripes, has just been placed in the working personnel of Base Hospital No. 27, which was organized in Pittsburgh. There is an abundance of the names of great men including 74 George Washingtons. The name of the first president is surpassed by 79 Robert E. Lees, who holds the record for bearers of the name of great men. There are but two Abraham Lincolns and seven Grants; twelve Caesars and four Bismarcks. "Common people," there are about 51,000 Smiths. True to their traditional predominance of the directorates of most cities, they dominate the American Expeditionary Force in numbers. There are 29,000 Johnsons, 22,500 Joneses and a like number of Greens. Sullivans aggregate 10,500 Browns, 9,000 and Cohens 4,500.

BROOM FACTORY OUTPUT AVERAGES 1000 EVERY DAY

Among the oldest industries of the city in the Wichita Falls Broom Manufacturing company, which was established here 13 years ago, the annual report of which for the year 1918 shows an average production of over 1000 brooms for every working day. The total output of last year was 32,578 dozen, 30,000 of which were house brooms, 2,000 warehouse, and the balance toy, whisk and barber brooms; the last mentioned being the most expensive and unwearytable of all, according to the general consensus of those who frequent the torsorial parlors where the negro porters relieve them of their spare change while they brush imaginary clods of dirt off their viciums.

The raw material comes partly from the southern counties of this state, but the larger part is raised in Oklahoma, according to President T. B. Noble, who has been connected with the company since its establishment here in 1901. One ton of corn will make 90 dozen brooms, thus making an average of two pounds of straw to each broom.

The dye which sold for 50 cents a pound before the war now costs \$6.50, or 13 times as much, but the extra expense has been compensated by the practice of using one-tenth of the amount of dye they did before the war.

Instead of using handles of maple, which before the war came almost entirely from Michigan, fir handles from Washington state, which are considerably lighter in weight are used instead. For the sole benefit of fussy housewives and maiden ladies who insist on sweeping the ceiling as well as the floors, special ceiling brooms are made with handles from eight to ten feet long.

Before the straw is ready to fasten to the handles it is first dipped into a dye solution, immediately after which it is bleached by the fumes of brimstone. This results not only in making the straw lighter in color, and therefore commanding a higher price; but the dampening of the straw makes it easier to handle. Unlike some shops where the entire broom is assembled by one individual, here the work is divided between what are called "makers" and "stitchers," the latter binding together the straw after it has been wired on to the handle by the "maker." In this shop one stitcher can keep up with four makers. It is all piece work, and experienced mechanics make as high as eight dollars, a good "maker" being able to turn out as many as 14 dozen in one day.

As would be expected in an industry of this kind, much of the straw is wasted because of trimming, etc., but these odds and ends are carefully collected, burned in a brick oven, and the ash is sold to manufacturers of potash. The saving effected by collecting the ash amounts to more than a dollar a day.

President Noble's authority for the statement that the broom industry, like many others, has not yet got back to a reconstruction basis, that jobbers are slow to buy, fearing to take on too large a supply lest there

TEXAS PIONEERS TO ORGANIZE AT SAN ANTONIO ON APRIL 24

Special to The Times.
SAN ANTONIO, TEX., April 12.—In an effort to form a permanent organization of Texas pioneers, Mayor Sam C. Bell of this city has sent out invitations to the county judges of all counties in Texas, requesting them to select delegates from among the pioneer residents of their respective communities to attend the convention of Texas Pioneers, to be held in San Antonio, April 24. The mayor's letter also contained an invitation to the county officials to accompany the delegates to the convention, and to aid in the movement which has as its aim the foundation of an organization which will preserve Texas history, bring together the founders of the state and their descendants and establish a state pride which is expected to redound to the benefit of the entire commonwealth.

The fact that Texas, the richest state in the union in history and historical lore, and young enough so that many of the men who helped make its early history are still alive, has never had such an organization, has long been deplored, and the action taken by the mayor of San Antonio—the cradle of Texan independence—will no doubt meet with state-wide support.

The long historical connection that San Antonio has had with the history of Texas, Mayor Bell's communication says, "makes it pre-eminently the place to take the initiative in such an organization."

It is to be expected that representatives of the pioneer families of every section of Texas will attend the convention and San Antonio is arranging to welcome these visitors in the most hospitable manner and in every way facilitate the formation of this organization. Persons who have resided twenty-five years in the state and descendants of pioneer residents are eligible to membership in the association, and may serve as delegates to the convention on, at which the constitution for the association will be drafted. The organization is to be purely social and historical in character. It expects to save to the state much of the valiant history which the old pioneers alone can recount and which has never been authentically transcribed. Every pioneer family will

be a drop in the bucket. It is only recently that the local company has been able to catch up with its orders, and the warehouse is fuller now than it has been for the past three years.

TROOPS OF RED ARMY ADOPT UNION METHODS

Associated Press Mail Correspondent.
LONDON, March 13.—Many troops of the Red Army in eastern Russia have adopted trade union methods in dealing with their bolshevik superiors. They demand fixed pay for each hour of fighting and this, according to official reports to the British government, amounts to 220 rubles an hour. The Red Army in that territory is composed of Germans, Finns, Chinese, Poles and recruits from the semi-civilized provinces of eastern Russia.

Many of the officers are Germans. Others are Russians pressed into service. Every order given by an officer is reported to the commissary and any mistake is punishable by death.

PORTUGUESE LIVE UP TO REPUTATION FOR GALLANTRY

Associated Press Mail Correspondent.
LISBON, March 16.—The Portuguese have not failed to live up to their reputation for gallantry during their three years sojourn in France. The

authorities have received notice of 687 marriages of French girls to Portuguese officers and soldiers, and many hundreds more are expected to follow.

The young Portuguese warriors, it would seem exercised an irresistible

fascination upon the French maidens by reason of the romantic melancholy songs of Portugal called "fados" with which they serenaded their sweethearts to the accompaniment of guitar. These airs, it is said, gained wide popularity in the Armentieres

sector, where the Portuguese expeditionary forces were located.

A spring provides the pressure for a new cross cut saw the inventor of which claims will enable one man to do as much work as two men with the usual type of saw.

We'll Give You 20c

in Aluminum Mold values, for every end label you send us this week from a package of Jiffy-Jell. The end label must be the one which mentions the flavor. See picture. The flavor must be either Loganberry, Pineapple, Lime or Mint. Labels on our other flavors count for 10 cents each, but the four flavors mentioned count for 20 cents each. Think of that. Each Jiffy-Jell package costs 12½ cents. Yet the end label is worth 20 cents this week toward these molds.

Address Jiffy-Jell, Waukesha, Wis.

Just peel off that end label which mentions the flavor, and mail it to us this week. Send all the labels you wish. See our mold offers below.

We Pay Women

Who Will Try Our Finest Jiffy-Jell Flavors

There are four flavors in Jiffy-Jell which are particularly delightful. Two are dessert flavors—Loganberry and Pineapple. One is Lime-Fruit flavor, for salads. One is Mint, for garnish jell.

This remarkable offer is made, for one week only, to induce every home to try them. We are making each 12½-cent package worth 20 cents on our pure aluminum molds.

Fruit Essences Sealed in Glass

Jiffy-Jell fruit flavors are made from the fruit itself. They are essences condensed from fruit juices. They come sealed in glass vials—a bottle in each package—so they keep their fresh fruit taste.

The flavors are rich and abundant. We use half a pineapple to make the flavor for one Jiffy-Jell dessert. We use 65 big Loganberries to flavor another. So Jiffy-Jell desserts are real-fruit dainties. They have all the delights, all the healthfulness of fruits.

That is where Jiffy-Jell differs so vastly from the old-style gelatine dainties.

12½c Per Dinner

Jiffy-Jell comes ready-sweetened, in proper color and acidulated. You simply add boiling water, then the flavor from the vial, and let cool. One package serves six people in mold form, or 12 if you whip the jell—all for 12½ cents. Think of that for a rich, fruity dessert—less than a fruitless pudding costs. And the ten flavors give you variety.

Also Salads

Lime-fruit flavor makes tart, green salad jell. Serve with your salads or mix the salads in before cooling. Or mix in meat scraps and make a delicious meat loaf.

Mint flavor makes a garnish jell, rich in fresh-mint flavor. Serve with roast lamb or cold meats.

You Need Them

You need these real-fruit dainties at this season. Everybody needs fruit daily. Here you get it in the finest form at very little cost. Learn what it means to you.

Accept the offers we make below. It will introduce our finest flavors to you. After that, you will serve Jiffy-Jell in some form at least three times weekly. And you will know a new delight.

This Week's Mold Offers

The end labels shown at top are accepted at 20c each on these molds, if they bear the name Loganberry, Pineapple, Lime or Mint. Labels from other flavors count for 10c each.

All molds are pure aluminum.

Individual Dessert Molds as pictured are valued at 10c each. They come in assorted styles. Six of them will serve a full package of Jiffy-Jell. Send labels for as many as you want.

Vegetable Salad Mold—Style D—is valued at 50c. It holds a six-portion salad—one pint—made with Jiffy-Jell and vegetables mixed in. The six indentations mark our six individual servings.

Fruit Salad Mold—Style E—holds a one-pint dessert made with one package of Jiffy-Jell. The value is 50c.

Pint Dessert Mold—Style B—is heart shaped, like Style 5 at top. It serves a full package of Jiffy-Jell. Value 50c.

Pint Dessert Mold—Style C—is fluted, like Style 6 at top. It serves a full package. Value, 50c.

State in the coupon the molds you want. Send labels as per our offer to cover the value as stated. For instance, three labels worth 20c each on this offer will bring six Individual Dessert Molds. But it takes six labels worth 10c each.

You can send labels to pay for all the molds you want. If your grocer is out of the flavor you want, you can send the labels next week. If you prefer not to send labels, send grocer's sales slip, showing amount of your Jiffy-Jell purchase and the flavors.

GENERAL DENIKINE BEGAN WITH ARMY OF FOUR HUNDRED

Associated Press Mail Correspondent.
LONDON, March.—The Volunteer Army of General Denikine which successfully has resisted the bolshevik forces in Southern Russia began with only 400 men but numbers today more than 100,000, says a traveler who has just returned from Odessa. In the beginning it had no arms with which to equip its recruits and often had to maintain its existence by capturing arms and ammunition from the bolsheviks.

"When Russia was torn by political strife in the winter of 1917," said the traveler, "a group of men including General Alexieff arrived at Novocherkassk, on the river Don. They were filled with shame," said the traveler, "because of their arm's desertion of the Allies and they determined to form a new army to reinstate Russia."

"Thanks largely," he continued, "to the patriotism and statesmanlike qualities of the leader, the Volunteer army at an early stage acquired the momentum of a constructive, political force. Its motto, 'United Russia,' owing to its simplicity was powerful to make itself heard and accepted above the din of political confusion, and it rallied to the army not only the officers and soldiers who were still willing to fight for a common Russian fatherland, but also the spokesmen of all moderate political parties.

"This army grew like a snowball and seemed to be guided by a protecting hand. It started without arms, ammunitions, transport or sanitary arrangements. A recruit on joining came bare-handed, and the army had absolutely nothing to give him. But he was promised that within a few days a detachment would make a sortie on the enemy and capture bolshevik arms and munitions. By the end of the week they would be able to supply a day's draft of 210 men with arms.

"You cannot find a parallel for that in any fighting that has been done during the war. Yet that hand which has grown into an army obtained all its arms, munitions and transport for a period of 12 months in that way. Time and again we have had the alarming news that munitions had been exhausted and that the men would have to trust the sword to procure fresh supplies. By a brilliant cavalry action, a few hundred bolsheviks would be rounded off and our ever-growing army supplied again with shot and shell."

BOLSHEVIKI MUST PRACTICE DECEPTION IN RECRUITING ARMY

Associated Press Mail Correspondent.
LONDON, March.—An instance of the deception the bolshevik government is forced to practice in order to secure reinforcements for its army is contained in information just received in London.

A proclamation was issued at Petrograd ordering a trial mobilization of the "First Town Section" for two days to test its state of preparedness. It was stated that the men of the reserve would be permitted to return to their work after two days. When the reservists assembled they were told that as Petrograd was unsuitable for maneuver purposes they would be taken a short distance out of town. Unexpectedly the men climbed into box cars, whose doors were then locked, and were sent as reinforcements to the Western Front. There they remain, although the bolshevik officers naively complain that these reinforcements have not been of much fighting value.

Desertions from the bolshevik ranks and disobedience of orders are reported on the increase in North Russia, also a lack of training among officers and men and deficiency of arms and material. In the Ural district riots are reported to have occurred owing to the difference of pay between troops at the front and those remaining behind the lines.

Anti-bolshevik sentiment is said to be so pronounced among some of the regiments garrisoning Petrograd that the authorities are afraid to take action against disaffected units or to send them to the front.

RUSSIAN PEASANT AND HUNTSMAN A PECULIAR CLASS

Associated Press Mail Correspondent.
OMSK, SIBERIA, March.—Disinclination of the peasant and the huntsman to part with the products of his hand or of his hunt because he cannot buy needed manufactured articles with the money he would obtain therefor, is one of the chief causes of the commercial stagnation in Russia today. Clothing, boots, socks, tools, machinery, necessities for his household he vainly would acquire, but even a pile of rubles will not bring them to his door. They do not exist in Siberia. So the peasant keeps his wheat and other cereals and the hunter stores the furs and skins. Money has lost its value here.

Fluctuation of the Russian ruble, and the difficulty and cost encountered by the tradesman in getting his goods to market has reduced commerce to a minimum. The merchant will not run the risks involved without expecting big profits and this has caused manufactured commodities to soar in price.

Another important factor is feeling. Several merchants who have been doing business in Russia inform the Associated Press correspondent that the habit of tipping (bribing they called it) was increasing. One foreign merchant who sends goods to Omsk, said:

"When I forward a car load of merchandise from Harbin or Vladivostok I don't know, in the first place, whether it will ever arrive with the railroad conditions as they are. I must send a representative with the car to pay out money on the way to officials and employes. Otherwise my car will be sidetracked. That is the great evil of Russia today. Business has developed into speculation."

Before the war Siberian wheat was worth about ten cents per eight pounds; today it is sold for the normal equivalent of about \$4. That shows how prices have jumped.

All authorities agreed that the arrival of manufactured articles in Siberia and central Russia is an urgent necessity. They have great expectations of the American War Trade Board in this respect and point out that the well-organized Siberian co-

operative associations could easily attend to the distribution.

The things imperative for the salvation and re-organization of Russia are placed in this order: First, peace and order; second, efficient operation of the railroads under the direction of John F. Stevens, the American expert; third, the economic rehabilitation of the country by the concerted help of the powers. These things attained, the impression generally prevails that Russia would be one of the first great nations to recover from the war on account of her great, and, as yet, entirely undeveloped resources.

TO MAKE EFFORT TO SECURE DETAILS OF THE CZAR'S MURDER

Associated Press Mail Correspondent.
OMSK, SIBERIA, March.—Serious effort will be made to determine the exact details of the assassination of the Russian imperial family which occurred in a house at Ekaterinburg. Various accounts of the affair are still current at Omsk where at present reside two tutors, one English, the other French, who were attached to the family of Czar Nicholas, and who were with the unhappy monarchs until they were removed from Tobolsk to the house at Ekaterinburg where they were subsequently murdered.

Official personages who visited this house and who had some opportunity of gleaning details accept the story that the former emperor Nicholas, his wife and their children were thrown into a pit or cellar and there half-starved, wounded and finally killed under a hail of missiles, including bombs. They believe that the bodies were secretly transferred to the forest and buried. Special investigation is being made of the tale that one of the jewels of the former empress, a diamond, was found in a forest recess. A story that Nicholas studied with a poignancy of a sailor while being transferred from one place to another, and that, kissing the hem of the sailor's garment, he pleaded for mercy is not accepted as vouched for by any historical data of a serious nature.

**PLEASE "UN-HANG" YOUR
ICE CARD AFTER YOUR ICE
HAS BEEN DELIVERED**

The other day one of our customers complained that the ice man was a little late two mornings in reaching her house.

As soon as the driver on that route came in we asked him why he was late. He replied that he had lost a lot of time these two mornings on account of folks having left ice cards out after they had been served—and that the second wasteful stop had caused him to lose a good deal of time.

So, we want to ask that you do us and your neighbors down the street a favor.

It is this. Un-hang your Ice Card as soon as the driver delivers your ice. If you leave it out you cause him to attempt to serve you a second time, which causes you to take needless steps and delays the wagon on its trip to the good folks in your neighborhood.

We like to talk about pleasant things in these little chats, so please don't make it necessary for us to have to chide anybody again.

P. S.—We are constantly striving to improve our service. Can you suggest anything that we can do to make your daily taking of ice more easy and pleasant. We will appreciate any suggestions or criticisms that you may make. And please be kind enough to telephone us if any employe of this company fails to serve you pleasantly.

From many of the choicest and very desirable building sites in this new Midway City can be seen the spindle tops of hustling, bust-

From Wichita Falls Daily Times Sunday April 6, 1919.

BURKBURNETT MEN TO BUILD REFINERY AT BACON SWITCH

Burkburnett capitalists and oil men have organized the Security Oil and Refining company, which has purchased its refinery site, south of Bacon switch, comprising 22 acres, and made arrangements for immediate construction of the plant, which will be 2,000-barrel capacity. This announcement is made by R. L. Fisher of Burkburnett, one of the trustees.

The company also has 12 acres adjoining the refinery site, upon which it is planned to sink 12 deep tests, to 4,000 foot depth, if necessary. Mr. Fisher states, and it is hoped that big, deep oil is found. The majority of the directors already own production in Burkburnett, and the refinery is said to have its crude for refining practically assured.

The company is also building a pipe line in connection with their refining plant to commence in the center of the townsite pool. A loading rack is being installed on the west side, and arrangements made for a big tank farm adjoining the refinery.

ling, crowded Burkburnett, while glancing in any other direction disclosed to the eyes of the beholder are the derricks of the many deep and shallow producers, day by day encroaching upon the limits of this logical townsite tract, and as one familiarizes himself with the "New Locations" for deep tests on every side of our little city, it reminds him that Burkburnett's history may, and is very likely to be, again repeated here at Bacon, and that this very lot upon which he stands may sell for as many thousands as some of them did at Burke. WHO KNOWS?—IT'S MIGHTY CLOSE TO THE BIGGEST WONDER POOL OF THE AGES.

Carter's Column

With the most sincere regret we read of the death in New York Wednesday of Sidney Drew, stage and motion picture actor.

Results That Count. The attorney general of this good state of Texas has defined intoxicating liquor, in a somewhat lengthy opinion, as follows:

Seeing is Believing. Jack Street, genial editor of the Iowa Park Herald, entered the office today and announced that he was in jail for failure to work.

Today we got our bonus check. It makes the most delightful thing to start the 1919 Spring.

All o'er the land the doughboy holers. "I hope I get my sixty dollars!" But we have saved from Europe's wreck.

Our discharge, and our bonus check. With joy at last we keep appointment: Just one lone fly within the ornament.

'Twould change molasses into honey If I would get her 'loiment money!

Harry Takes a Plunge. The treasurer of the Lucky Nine Firemen Oil Company, which is drilling that famous one-inch deep test in the "acreage" back of the Ninth street fire station, announced that he has received a check for five cents for one share of stock from Harry Harris, son of County Clerk Will Harris.

Let's Have Particulars. "Wanted: Clean cotton shirts." We suggest that the advertiser be more specific, come right out in the open and state how much he'll pay for second-hand coats, trousers and vests made in 1917.

Somebody Seeing Things. A jackrabbit was seen this afternoon running wildly on Indiana avenue, between Seventh and Eighth streets, and occasionally crouching, frightened, under automobiles parked along the curbs.

And Some Others, Too. A recent writer on psychological subjects declares that no man should ever make an important decision, or enter into deep deliberation, after 3 o'clock in the afternoon or before 10 o'clock in the morning.

Wonderful Sensation. In closing, let it be proclaimed publicly that the most wonderful sensation in eating Texas potatoes recently comes from their remarkable resemblance in taste to the New England squash.

HONOR SYSTEM FOR PRISONERS CONVICTED BY COURT MARTIAL

By Associated Press. NEW YORK, April 12.—Heavy court martial sentences of life imprisonment or such terms as twenty and thirty years are reduced to a minimum of months by a plan permitted under army regulations which has been introduced into the disciplinary barracks at Governor's Island by the commandant colonel, John E. Hunt.

There are between six hundred and seven hundred prisoners at present in the barracks. Some of the men are from overseas and about half are serving sentences for military offenses, including one life term, several of twenty years and a few for less periods. What these sentences really mean was explained by Colonel Hunt.

Under the educational portion of the prison curriculum, largely in the hands of the Y. M. C. A. officials, classes are held in various trades. There are also classes of a purely scholastic nature.

MATERIAL FOR CLOTHING SENT TO BALKAN STATES Associated Press Mail Correspondent. SALONIKI, March.—To meet the great need of clothing throughout the Balkan States, the American Red Cross Commission to the Balkans is sending to Serbia, Rumania, Montenegro and Albania millions of yards of cloth, thousands of sewing machines, large quantities of thread, needles and buttons and hundreds of tons of old clothing.

COFFEE THE STAFF OF LIFE DURING the hacking struggle the French found Coffee the most sustaining stimulus food.

IT WAS the "staff of life" in the trenches, and the whole West Front where the Allies performed such immortal deeds to save Freedom and Civilization. Shells, poison, and Coffee saved Verdun.

COFFEE is winning its way through the world as the benevolent autocrat of the breakfast table.

TO NOURISH, sustain, uphold the zest of life, the fighting edge, nothing approaches this favorite beverage, of the World's Greatest Brain Workers, from Napoleon, Balzac, Zola, to Joffre and Foch.

AS COFFEE comes in Alcohol goes out. IT IS THE cheapest food product—at little over a cent a cup.

THE EVER increasing demand causes great improvement in culture and blends. The Coffee of tomorrow will be real ambrosia.

FRANCE is shaped like a Coffee pot and saved the World. It is a Symbol.
