By Associated Press.
BERLIN, April 16.—Large forces of Bavarian troops with artillery and machine guns have been reported to have made an advance on Munich yesterday morning, according to the Tagblatt, but it is unknown whether a decisive battle has as yet been fought. It is assumed the government will wait until an adequate number of reliable troops has been placed about the city.

BERLIN, April 16.—It is reported that in the fighting around the railway station at Munich there have been a hundred and fifty casualties. More troops may be sent from Nuremberg and the whole country on each side of the Augsburg-Munich railway has been converted into an armed camp. It is expected that the troops will make a converging attack upon Munich.

BULGARIA NEGOTIATING WITH ITALY FOR LOAN

By Associated Press.
BERLIN, Wednesday, April 16.—The communist government in Munich is reported to have opened negotiations with Italy by which valuable wood lands belonging to Munich would be pledged for a loan of one billion marks with which to buy food.

Late in March the former Bavarian government of Premier Hoffman and the Italian government were reported to be negotiating in regard to the delivery of food to Bavaria. Apparently the communist government is attempting to re-open the negotiations.

DISORDERS IN TURKEY ARE CAUSE FOR GREAT ANXIETY

By Associated Press.
LONDON, April 17.—It is learned here that the situation in Turkey is causing grave anxiety. Internal disorder is a risk according to reports from Constantinople. It is feared there will shortly be outbreaks and massacres of the Armenian population on a large scale. The situation at Smyrna where the Turks and Greeks are ready to spring at each other's throats, is typical of the situation throughout Turkey.

Former German Crown Princess Seeks a Divorce

By Associated Press.
ZURICH, April 17.—The former German crown princess Cecilie has taken steps to divorce her husband, Frederick William, according to a statement given to Swiss newspapers by the former Grand Duchess Anastasia of Mecklenburg-Schwerin, mother of the former crown princess. The statement says it long has been the desire of Cecilie to divorce her husband but that the pressure of the Hohenzollern family up to this time had prevented her from carrying it out.

Situation Became Unbearable

"On one occasion some ago the situation became so unbearable that my daughter actually fled from her home. She almost succeeded in reaching Switzerland. Orders were sent from Berlin to intercept her and she like a common criminal and taken to be captured at the German frontier. Berlin under April 17.—The former German crown princess Cecilie has taken steps to divorce her husband, Frederick William, according to a statement given to Swiss newspapers by the former Grand Duchess Anastasia of Mecklenburg-Schwerin, mother of the former crown princess. The statement says it long has been the desire of Cecilie to divorce her husband but that the pressure of the Hohenzollern family up to this time had prevented her from carrying it out.

Th statement of the grand duchess charges Frederick William with cruelty to his wife, saying: "My daughter will be able to place before the German court overwhelming evidence against her husband and will be able to prove many instances of the grossest cruelty against him. His infidelities were numerous and there is abundant proof of them. His brutality was atrocious. On more than one occasion my daughter was treated with actual violence. She was bruised and her face was disfigured by her husband's blows.

Berlin dispatches by way of Zurich February 3 stated that Frederick William had instituted proceedings for a divorce but there have been no further reports on the case. The former crown prince and princess Cecilie were married in June 1905. The pair have three children, the youngest having been born in 1915. The former crown prince is in exile in Holland. His family has remained at Potsdam.

By Associated Press.
WASHINGTON, April 17.—Sale of the war built merchant fleet was begun today by the shipping board with the transfer of 15 wooden steamships to Nacirena Steamship Company of New York at a price of \$500,000 for each vessel. This is an average of \$145 per deadweight ton.

HOWAT REFUSES TO HEED INSTRUCTIONS OF DR. GARFIELD

PITTSBURG, KANS., April 17.—Alexander Howat, president of the Kansas district, United Mine Workers of America, challenged the right of Dr. H. A. Garfield, federal fuel administrator "to direct the affairs of our organization in this district," in a message sent to Garfield today. The message was in reply to one received from Garfield yesterday directing that Howat put the striking central miners back at work and before the labor board to submit their complaint. Howat's message to Garfield follows: "I received your message in which you instruct me to rescind strike order and have the miners return to work. I have no knowledge of any authority given you by the coal miners of this country to direct the affairs of our organization in this district. I am of the opinion that I am in no way obligated to carry out your instruction in this matter. I therefore respectfully but positively refuse to comply with your direction and as far as we are concerned the strike will continue until the Coal Operators Association makes a settlement that is satisfactory to the miners."

PAGEANT AT CLUB'S CELEBRATION.

With flags of the Allies decorating the boxes in which representatives of the Italian, Greek and French consulates of New York were present with their families, the men and women members of the Verdi Club held their annual ball and operatic pageant in the grand ballroom of the Waldorf-Astoria Hotel. The pageant comprised characters from Verdi's operas and was preceded by a performance of Verdi's "Il Trovatore." All four acts were sung, with professional members of the club in the principal parts, a chorus of amateur singers and a large orchestra conducted by Melville Charlton, with Charles Tricer as stage director.

FIT UP VESSELS DURING VOYAGE TO HURRY MEN HOME

By Associated Press.
WASHINGTON, April 17.—German passenger liners turned over to the United States for troop transport service will be fitted out during voyages instead of being laid up after being turned over to the United States. Acting Secretary Roosevelt said today that this plan had been determined upon by the navy department so that there would be no delay in returning the men from overseas.

The Kaiser's Augusta Victoria, the first of the initial twelve German ships, is due at New York today with 800 officers and men. As soon as the troops disembark a force from the New York navy yard will go aboard to install additional bunk and other equipment necessary to enlarge the ship's troop carrying capacity. After the vessel has sailed the navy yard mechanics will continue their work during the voyage. The same plan, Mr. Roosevelt said, will be followed in the case of each ship.

ESTABLISHED MERCHANT SELLING BANKRUPT STOCK NOT LIABLE FOR TAX

By Associated Press.
AUSTIN, April 17.—The fact that a merchant whose business is permanently established and advertises bankruptcy, fire or water and fire damage stock sales does not constitute such an itinerant merchant and liable for occupation tax, according to an opinion by the attorney general. Another opinion holds that in judicial districts of more than two counties the district attorney is entitled to per diem compensation only for the number of days he is actually engaged in the discharge of his official duty.

Cavanaugh of the 103rd field artillery, one of the officers on board.

British General Forbids Strikes In Occupied Zone

By Associated Press.
COBLENZ, Wednesday, April 16.—In consequence of the spread of German strikes to the Cologne district, Lieutenant General Sir Herbert Plumer, in command of the British forces on the Rhine, issued a proclamation today ordering the immediate return of the men to work and threatening the strongest measures against persons promoting or countenancing strikes on the British zone of occupation. The general offered military mediation if other means of settlement failed. A squadron of British airplanes flew over the affected district today.

BOLSHEVIKI KILL 1800 OF WHICH 400 WERE WOMEN

By Associated Press.
LONDON, April 17.—Eighteen hundred persons including four hundred women, were murdered by the bolsheviks at Ufa, according to a telegram from Omsk received in official quarters here.

Ufa, one of the principal cities in the Orenburg district near the Siberian border, was taken by the bolsheviks early this spring but last in March was recaptured by forces of the Omsk all-Russian government which have continued to press back the bolsheviks in this region. Dispatches from Omsk dated April 5 and 6, respectively, on Tuesday, announced the massacre by the bolsheviks of more than 2,000 civilians in and near the town of Osa, to the north of Ufa, in this district.

DISCLOSE PLAN FOR UNITY OF NAVY COMMAND

Scheme is Worked Out By the Bureau of Naval Operation.

MAYO IS DESIGNATED

Under the Pre-War System Three Separate Commands Were Maintained

By Associated Press.
WASHINGTON, April 17.—Designation of Admiral Henry T. Mayo as commander in chief of the U. S. fleet, it was disclosed today, was part of a plan for unity of command in the navy worked out by the bureau of operations on the basis of experience in the world war. The complete plan, however, has not been approved by Secretary Daniels.

Under the pre-war system three separate commands were maintained for the Atlantic, the Pacific and the Asiatic fleets with each fleet officer having equal rank. The commander in chief of the Asiatic forces now is a rear admiral and when Admiral Caperton relinquishes command of the Pacific fleet on April 30, Admiral Mayo will be the ranking fleet officer.

Many officers believe that even with the fleets widely separated they should be under a single directing head, the commander of the Atlantic fleet. With the return of the American naval forces from the war zone, complete reorganization of the Atlantic fleet was worked out with eight divisions of battleships, a cruiser and a destroyer fleet, a submarine detachment and a force train. Necessary for quick return of American soldiers from overseas, however, made it impossible to put the full reorganization plans into immediate effect, as the old line battleships and the armored cruisers were placed in the transport service.

After the troops are home some of the older battleships will be put in reserve, but the others and the cruiser force will join Admiral Mayo's ships, giving him a fleet of several hundred vessels, the greatest ever gathered under the American flag. No plans have been made so far for reconstituting the Pacific fleet on a pre-war basis. The armored cruisers which formerly constituted the fighting force of the Pacific fleet will be engaged in carrying troops for some months to come.

REPORT THAT FEDERALS KILL GEN. BLANQUET

Said to Have Fallen in Fight Near Chavaxtla on Wednesday.

STARTS A REVOLUTION

Only Recently Announced He Was Going to Overthrow Carranza Government.

By Associated Press.
MEXICO CITY, MEX., April 17.—General Aureliano Blanquet, war minister in President Huerta's cabinet, who recently was reported to have landed in the Vera Cruz region for the purpose of starting a revolution against the Carranza government, was killed yesterday in a fight near Chavaxtla, according to press reports from Vera Cruz which quote a report from General Francisco L. Urquiza, chief of military operations in the region of Coahuila and Orizaba.

According to telegrams given out by General Urquiza, the commander in the region of Coahuila, General Aureliano Blanquet met a party of federal troops near Chavaxtla. The body of General Blanquet was found later. General Sanchez telegraphed that he was bringing General Blanquet's head to Vera Cruz to establish the identification.

Officials Are Prisoners. General Francisco Alvarez was taken prisoner together with the family on radio days, one of the most active revolutionaries of Felix Diaz. Vera Cruz papers have recently been printing numerous stories regarding General Blanquet's proposed revolt. These stories have been published in the United States but General Blanquet's claim that he had forty thousand men with artillery and an airplane and that he was allied with other factions, has been scouted officially. The band which General Blanquet was leading when he was killed was small and was poorly equipped, it is said.

WAS A GREAT TRIUMPH FOR LLOYD GEORGE

Such Is the General Sentiment Expressed by the Press of London.

SOME DISSATISFIED

This Feeling Is Largely Due to His Failure to Reveal the Terms.

By Associated Press. LONDON, April 17.—While opinions are divided regarding the substance of the address of Premier Lloyd George before the house of commons yesterday there is a general agreement by the London press that it was a great parliamentary triumph. It was indeed shown by the rousing cheers of his audience and the expressions of individual members in the lobby. With the exception of the laborite and Northcliffe newspapers, none of the morning journals condemn the premier's statement wholly while several warmly applauded it. These admit that Mr. Lloyd George revealed nothing of the terms but they do not complain. The Telegraph for instance says that his general account of the terms will "give deep satisfaction" and adds that he demolished the whole structure of his critics built on his supposed departure from his pre-election pledges.

Express Has Confidence. The Express declares its full belief in the premier's statement that his pledges will be found embodied in the peace terms and says that he retains the complete confidence of the nation. The Graphic is equally favorable and says incidentally that Mr. Lloyd George's statement "justifies the assumption that President Wilson has abandoned his opposition or opposition to the sterner views of those powers which suffered most in the war."

Those who attack individual members of the peace conference when the chief concern of everybody is the public interest are condemned by the Chronicle which says: "If the terms eventually disappoint any sane expectation the fault will lie less with the statesmen in Paris than with the peoples they represent."

Prefer to See the Terms. The Post which stands for the extension of most severe terms from Germany says that the premier's address is susceptible of various interpretations and that although Mr. Lloyd George declared his readiness to print the terms of peace alongside of his pledges "it would be preferable to see the terms alongside of the demands of justice and security, and according with them in every particular."

The Daily News admits there may have been serious reasons for withholding information as to the terms of peace, but in the absence of evidence "mere declarations that all pledges will be kept are idle. It is a fact that some of them have not been kept."

Maintaining a similar point, the Herald, the labor organ, says: "All the premier's pledges can not be kept for they are as contradictory as his speeches." The newspaper declares that Mr. Lloyd George left the international situation where he found it and completely missed his opportunity.

News Says Doubt Remains. The premier's rejection of any idea of military action in Russia meets with considerable approval. The Telegraph and Express say it will be received with general relief. The Daily News agrees but says that doubt remains regarding the logic of the policy. It asks how it is possible to supply arms to the Kolchak government and yet refuse to do anything further and contends such a policy can succeed only on the assumption that bolshevism is moribund.

The Post is also skeptical of the Russian policy and says: "The Allies will be lucky if they are not compelled to reverse it."

The Mail, owned by Lord Northcliffe, continues its comments virtually to the premier's "gross distaste" against Lord Northcliffe, who says the paper "cares as little for Mr. Lloyd George's hostility as his friendship."

The newspaper concludes: "In a speech in which melodrama insinuation and mere buffoonery was so mingled it is difficult to know how much is to be taken seriously."

The Change in Men Should Be Reflected in Their Clothes

There is a big difference between the young man of today and the young man before the war. He is as different in physique as he is in mind.

A Broader View-Point

He's set up straighter—quicker in thought. He is more alert and confident in bearing—broadened and strengthened.

THE HOUSE OF KUPPENHEIMER was the first to see this change. And to meet it in an entirely new design of clothes.

The new Spring Kuppenheimer models are

fashioned in the new spirit of things.

The Kuppenheimer Awaiting You

Spring are built authoritatively of clean-cut fabrics—tailored to hold their shape through wear and weather—and ready now at your Kuppenheimer dealer's.

There is just one way to justify the price you pay for clothes: the service and satisfaction they give you.

It is this principle that has made Kuppenheimer clothing the finest value in America.

MORE THAN 400 NAMES ON PETITION FOR HOSPITAL BONDS

WILL BE PRESENTED AT MEETING OF COMMISSIONERS NEXT MONDAY.

SITUATION IS URGENT ONE

Physician Declares Many Die in County Because of Lack of Facilities.

More than 400 names have been obtained to the petition that will be presented to the County Commissioners' Court next Monday asking for an election to vote \$150,000 in bonds for additions and improvements badly needed at the Wichita General hospital. It is hoped to hold the election May 27, the petition providing for an issue of \$50,000 in bonds for additions and improvements and an equal amount for the county as a whole.

From the first day of October, 1918, to January 1, 1919, so many persons died in Wichita county from lack of proper hospital attention that the money used for their funeral expenses would in itself have been sufficient to build and equip all the additions we need for the hospital.

That statement, made today by Dr. Joseph Daniel, chairman of the board of physicians in charge of the Wichita General hospital, emphasizes clearly the great need of further hospital provision here. At the present time the hospital, designed originally as a 24-bed hospital, is accommodating about 50 patients, with every foot of available floor space occupied by cots. Even the smaller operating room, the obstetrical room and all examination rooms are being used for this purpose.

Many persons are being brought here from outlying points in the county, Dr. Daniel stated, who have to be placed in room houses and hotels without proper care or nursing, because the hospital is unable to meet the demand. Two patients are being turned away to every one received.

LIEUT. LESTER BURNS ARRIVES AT HOBOKEN

Lieutenant Lester T. Burns landed today at Hoboken, according to radio received this morning by Mrs. Burns. "THE BLUFFER" SHOWING AT THE PLAZA TODAY

"The Bluffer" is the title of a new World picture, which on today will be shown at the Plaza with June Elvidge as the star. Irving Cummings and Frank Mayo appear with Miss Elvidge in this production in important roles. The picture is an entertaining, unusual story of modern life, presenting Miss Elvidge in the role of a young society woman who, upon the death of her father, finds herself left with no money. She is forced to bluff her way through life. She marries a supposed rich young man in the hope that his money will help her out of her difficulties, but after the marriage she finds that he is even poorer than herself. Then come a lot of interesting, surprising incidents which go to make one of the most thoroughly enjoyable and entertaining motion pictures imaginable.

"INFATUATION" AT THE MAJESTIC ON FRIDAY

The colored scenes in the Pathe Special Feature, "Infatuation," starring Gaby Deslys, mark the highest point in the achievement of chromatic screen display, in which the House of Pathe was the pioneer more than 20 years ago. The scene depicted is a performance on the stage of the Casino de Paris at the time of the presentation of the spectacular novelty of the human flag, now produced at the New York Hippodrome.

A company of girls mount a large frame, and the arrangement of their costumes furnishes the colors, first for the French tricolor, and then for Old Glory. The rest of the brilliant performance is shown with its glittering ballets, evolutions and groupings.

For faithful color production, there were no inconsiderable problems, to be met; but, the lighting experts and specialists from L'Ateliers des Colours, the Pathe establishment at Vincennes, figured them out to perfection, with the co-operation of Director Louis Mercanton. The experts at Vincennes were, also, placed in possession of the color plates of all the costumes, so that the reproduction might be as faithful as human art and skill could make it. The measure of success achieved here, may be judged by this comment of Gaston Picot, critic and reviewer:

"A soul-sweeping chorus of color, with subtle elements of tone and shading and magnificent flashes of light and beauty that charm the eye and set the heart singing—the chromatic cinema, not of 'Infatuation,' but of irresistible fascination. The machine

has come to art and achieved a bewildering marvel."

"Infatuation" will be shown at the Majestic theater Friday and Saturday.

"PARTNERS THREE" COMING TO WICHITA THEATRE

One of the best photoplay stories ever furnished Enid Bennett, the Thomas H. Ince star, as a vehicle is "Partners Three," the Paramount picture which will be shown at the Wichita theater next Friday and Saturday.

The action revolves about Agnes Cuyler, who, at the opening of the picture, is discovered to be a cabaret dancer. Accepting an offer of marriage by a Westerner to escape a distasteful existence, she jumps from the frying pan into the fire.

She finds her husband is a brute, who, in a drunken humor, abandons her in the desert. She is picked up by a prospector, who secures her a position as waitress in a railway restaurant. Here she falls in love with a sickly youth, and because of her sympathy and care for him, is practically driven back to the desert. The two find a haven in the adobe hut with the prospector.

Her husband, recovering from a sudden illness, fears the consequence of deserting his wife and starts out to find her. He comes upon the trio just as they have struck pay dirt, and plans to defraud them of their claim. He is foiled by the prospector, who recognizes in him an enemy of former days, and takes his revenge, leaving Agnes free to hearken to the pleading of the youth, who has recovered his health under her care.

Miss Bennett is supported by a well-chosen cast. The picture was directed by Fred Niblo under the supervision of Thomas H. Ince.

Mrs. Madge W. Hearne of Houston, who is en route to Nashville to be with her daughter at Ward-Belmont, is visiting her son, S. H. Hearne, of the Times advertising staff. While here Mrs. Hearne will be the guest of Mrs. D. N. Walling, at 2504 Tenth street.

JUDGE BRITAIN IS PRINCIPAL SPEAKER AT ROTARY CLUB

EMPHASIZE IMPORTANCE OF THE FORTHCOMING VICTORY LIBERTY LOAN.

SENIOR CLASS AID PLEDGED

C. F. Carter Calls Attention to the Matter of Looking After the Interest of Soldiers.

Six members of the senior class at the high school will be guests at the meeting of the Rotary club next week and the rest of the meetings of this season. Four will be guests of the club, one of the Civic League, and the other of President McFall, Walter Nelson, Jr., the guest of President McFall, told the Rotarians at their meeting today noon at the Christian church that the high school boys were willing to do what they could in helping the new Liberty loan campaign.

The principal speaker at today's meeting was A. H. Britain, chairman of the Liberty loan for this county, and he declared that the blood of any man not interested in this new drive must be yellow rather than red. "This should be of vital importance to every American," said the speaker in part. "The man who is not interested in this drive must have yellow blood and not red. The American people are prone to think more of the present and the morrow than they are of the past."

"Are we to forget?"

"Are we to forget those of our boys who are now lying in No Man's land?"

Are we to forget the boys in France and Germany who have given up every prospect they had, and many of whom are now maimed? Are we to be so yellow-blooded that we will not pay the debt of honor?

I believe in the true Americans. I believe in them as in no other people, and I believe the loan in Wichita county will be oversubscribed. This is the last loan. You don't have to hold back something in reserve. The Rotary clubs everywhere are taking hold in putting over this loan, and we believe that we can count on every Rotarian in Wichita Falls."

A number of visitors were then called upon, among whom was a Mexican who said that the Americans in the country of Mexico had oversubscribed their quota by \$1,000,000.

Major Rothrock, constructing quartermaster, spoke of his experience as constructing engineer in various camps and chemical plants throughout the country. When he came to the site of Camp Logan at Houston, not even a road had been constructed. When he left miles of roadways had been completed, over 1200 buildings erected, and water and electric plants had been installed. Nearly all the helium in the country is now stored in a few cylinders at Fort Worth. When the armistice was signed the government had chemical plants with a capacity of 250,000 tons daily, and had the war lasted much longer, many of the German cities would have been literally blown off the map.

Appeal for Soldier.

The last visitor to respond was C. F. Carter, of the Wichita Times, who made an appeal for closer co-operation between the business men and the discharged soldiers and sailors. Discharged soldiers are now sleeping on floors in Wichita Falls and are without employment of any kind whatever, he said. Others, experienced truck drivers, are working as laborers in the oil fields, while the trucks in those very fields are being driven by men hardly competent to shift gears. Neglect along this line, he continued, will ultimately result in more or less bitterness, and the necessity of immediate relief was brought home to everyone who listened, by Mr. Carter.

DECLARES GOVERNMENT CON-
TROL A FAILURE.

"Private ownership on the old plan
has been found wanting," said Direc-
tor General Walker D. Hines, address-
ing the American Lumbermen's Asso-
ciation. "Government control now
looks disappointing," he added.

Mr. Hines said that the approaching
method of private ownership with
government co-operation must work—
or the public will demand the final
possibility—public ownership.

The government has gotten hold of
something it ought to be glad to let
go. The director general ac-
knowledges that government control
is a failure. He's doing the best he
can on the job but he realizes that un-
der present conditions government
control of the railroads cannot be sat-
isfactory. It is up to congress to get
at the work promptly of finding a so-
lution of the railroad problem. If it
fails to act the railroads must be re-
turned to their owners under the
same conditions that existed before
the war.

MUST ANSWER FOR CRIMES.

The former German kaiser is to be
tried before a commission for his
crimes of causing the war, for the in-
vasion of Belgium and for his part in
the outrages there. His trial is to be
before a commission from the League
of Nations. It is reported that the
decision to try William Hohenzollern
was reached through the insistence of
Belgium. Belgium found support from
England. "After victory we will have
the kaiser and make Germany pay
the cost of the war," was the slogan
of Lloyd George's administration.

Notwithstanding the fact that Bel-
gium, Great Britain and France de-
manded the trial of the kaiser and
that they are partners in the League
of Nations which will name the com-
mission that will hear the evidence
it is safe to predict that William
Hohenzollern will receive a fair and
impartial trial and will not be con-
victed unless a preponderance of the
evidence plainly points to his guilt.
His trial will be one of the most
dramatic of history.

LITTLE STORIES FOR
BEDTIME

By HOWARD R. GARIS

Uncle Wiggly and Toodle's Tail.

Uncle Wiggly Longears, the bunny
rabbit gentleman, was hopping along
through the woods near his hollow
when a log where he had been hid-
ing, he heard some one cry out:

"Oh dear! Oh dear! Well, this is
the last of me! I'll never get loose!
Never!"

"That sounds like bad luck and
trouble all made into one!" said Uncle
Wiggly, stopping short and chewing
on a bit of cabbage bread he happened
to find in his pocket; where Nurse
Jane Fuzzy Wuzzy, his muskrat lady
housekeeper, had put it. "That's trou-
ble as sure as my pink nose twinkles!
I must see about this."

So Uncle Wiggly peeked around the
corner of the justing brush bush, and
there he saw Toodle Flat-tail sitting
on a bit of soft moss and looking very
sad.

"Why, Toodle! What's the matter?"
asked Uncle Wiggly.

"Oh, my big, broad flat tail is
caught in a crack in this log, and I
can't get loose," spoke the heavy-
eyebrowed Toodle.

"Toodle Flat-tail was a beaver, you
remember. I used to tell you
stories about him and his brother
Noodle."

"Your tail caught in a crack in the
log!" cried Uncle Wiggly. "That's
too bad!"

"No, it's only one bad—that is one
tail bad," said Toodle. "But that's
enough. If my brother Noodle had his
flat tail caught that would be two
bad."

"Well, you can't be very much hurt
or you wouldn't joke that way," said
Uncle Wiggly.

"No, my tail doesn't hurt me," spoke
Toodle. "But I can't get it loose, and
neither sent me to the store for some
sugar honey, 'cause Grandpa
Whackum, the oldest beaver of us all
has sore throat."

"But, alas!" sighed Toodle, "with
my tail caught fast in the crack in the
log, even though it doesn't hurt, I
can't go to the store and I guess I'll
have to stay here forever."

"Oh, no, you won't," kindly said
Uncle Wiggly. "I'll soon get you
loose."

"How?" asked Toodle.

"I'll pry open the crack in the log
with my red, white and blue striped
rheumatism crutch," said the bunny
and you can easily pull out your tail
then you can go to the store."

"Oh, thank you, Uncle Wiggly!"
said the beaver boy. And Mr. Long-
ears did just as he said he would. He
put the end of his red, white and blue
striped rheumatism crutch in the
crack of the log, where Toodle's tail
was caught fast, and, in another mo-
ment, Toodle was loose. And away he
ran to get the honey from a beehive
for Grandpa Whackum's sore throat.

But before Toodle ran away he
called: "Thank you for helping me,
Uncle Wiggly. Maybe I can help you
some day."

"All right, I'll let you know when
I can," spoke the bunny. Then he
watched Toodle hurry away, dragging
after him his broad, flat tail, which
was like an egg or a pancake turn-
over. And Toodle's tail was just like
the paddle of a steamboat, too, and it
helped the beaver boy swim in wa-
ter.

Well, Uncle Wiggly hopped on and
on through the woods, wondering what
sort of an adventure he would have
when, all of a sudden, something hap-
pened.

Out from behind a big stone jumped
the bad old Skuddlemagoon and be-
fore the bunny rabbit gentleman could
get out of the way the bad old Skud-
dlemagoon had grabbed him by the
ears.

"Here! Hold on, if you please!"
said Uncle Wiggly, speaking politely
even to such a bad chap as a Skud-
dlemagoon. "Where are you taking me?"

"Off to my den, so my friend, the
Pipisewah and I can bite some off
your ears!" was the answer. "Off to
my den you shall go, you shall go, you
shall go! Off to my den you shall go,
my fat rabbit!"

Well, Uncle Wiggly didn't want to
go, but there was no help for it. The
Skuddlemagoon just dragged the bun-
ny along, and Uncle Wiggly was feel-
ing very sad when, all at once, the

Skuddlemagoon came to the beaver
pond of water.

"I'll have to wait for the Pipisewah
to come and take us over in his boat,"
said the Skuddlemagoon. "as I don't
lure get wet. It gives me the ker-
zooles to get wet."

"Then you're going to have the ker-
zooles right away!" cried a brave
voice. And down into the water
splashed Toodle, the beaver boy, from
behind a log where he had been hid-
ing. And with his flat tail, which was
like a steamboat paddle, Toodle
splashed water all over the Skud-
dlemagoon; in his eyes and nose and
mouth; and the Skuddlemagoon
neezed and coughed and choked and
cried:

"Oh, I guess I make a mistake.
I don't want any more today."

Then he let go of Uncle Wiggly and
swam away. The bunny was a bit wet
himself but that never gave him the
kerzooles, so he didn't mind. He
thanked Toodle very much for saving
him. So you see it is a good thing
beavers have flat tails. And if the
bottle of milk doesn't roll off the back
loop when the baker boy tries to
make it spill ice cream I'll tell you
next about Uncle Wiggly and
Toodle's nose.

SIXTEEN MILLION

DOLLARS FAIL TO

REACH ALLOTTEES

By Associated Press.

WASHINGTON, April 17.—More
than \$16,000,000 worth of returned
checks are now in the hands of the
war risk insurance bureau, many of
them marked "unknown" or "un-
claimed" as the result of the failure
of allottees to notify the bureau of
changed address. It was announced to-
day that the Red Cross had been en-
trusted in a campaign to locate such
persons and had taken over thirty
thousand of the checks.

About half a million checks have
been returned since December 1,
1917, and they are coming back at the
rate of 1,396 a day. Some of them are
not payable because of a change in
the status of the allottee but it is es-
timated that nearly 50 per cent are
still payable if the proper addresses
can be found.

SIXTEEN MILLION

DOLLARS FAIL TO

REACH ALLOTTEES

By Associated Press.

WASHINGTON, April 17.—More
than \$16,000,000 worth of returned
checks are now in the hands of the
war risk insurance bureau, many of
them marked "unknown" or "un-
claimed" as the result of the failure
of allottees to notify the bureau of
changed address. It was announced to-
day that the Red Cross had been en-
trusted in a campaign to locate such
persons and had taken over thirty
thousand of the checks.

About half a million checks have
been returned since December 1,
1917, and they are coming back at the
rate of 1,396 a day. Some of them are
not payable because of a change in
the status of the allottee but it is es-
timated that nearly 50 per cent are
still payable if the proper addresses
can be found.

Market Report

COTTON MARKET

By Associated Press.
NEW YORK, April 17.—The cotton market showed renewed strength this morning. The opening was somewhat irregular under realizing or selling in a pre-holiday way with first prices seven points lower to 14 points higher. The south was a buyer by balance, however, while there was a continued trade demand from both foreign and domestic sources and prices soon turned firmer on covering and bull support. Nearly all the active new style months made new high records on the advance which extended from 28.85 to 27.00 for May and from 28.69 to 24.10 for October contracts before the end of the first hour or about 22 to 60 points net higher. Trading was comparatively quiet at the start but became active and general on the advance.

Before the end of the morning May contracts had sold at 27.20 and October at 24.22, or 42 to 52 points higher on the reports of a more active spot demand resulting from the steadily increasing demand for goods, covering by early sellers and trade buying. The advance was checked at this level by realizing and there were reactions of 10 to 12 points from the peak early in the noon hour.

The buying of trade interests was in evidence on every setback while offerings seemed to be almost entirely limited to realizing and the market showed continued firmness during the middle of the afternoon with May selling around 27.20 and October 24.13, or about 42 to 43 points net higher for the new style positions. Cotton closed firm.

New Orleans Cotton.

NEW ORLEANS, April 17.—It was a holiday market in cotton around the opening today. Prices at first were one to two points above yesterday's close but quickly fell to a level 14 points below only to recover at the end of the first half hour of business and stand at a net advance again of two to three points.

A quieter tone was assumed and the advance was checked by realizing after it had amounted to 16 to 4 points. At one o'clock the market was steady at about the topmost levels. Cotton closed firm.

Liverpool Cotton.

LIVERPOOL, April 17.—Cotton spot in moderate demand, prices lower; good middling 18.20; middling 17.25; low middling 15.84; good ordinary 14.19; ordinary 13.66.

Sales 3,600 bales including 2,300 American.
Receipts 3,600 bales, so American. Futures closed steady: April 18.01; May 18.54; July 18.99; September 15.23.

GRAIN AND PRODUCE

By Associated Press.
CHICAGO, April 17.—Fresh strength developed in the corn market today owing to continued unfavorable weather for the crop movement. Postponement of the New York harbor strike had only a transient bearish influence. Opening prices, which ranged from the same as yesterday's finish to 1/2 cent higher with May \$1.58 1/2 to \$1.59 1/2 and July \$1.52 to \$1.53 1/2, were followed by a moderate general sag and then by a new upturn.

Oats sympathized with the firmness of corn. After opening unchanged to 1/2 cent higher with July 67 1/2 to 67 3/4, the market steadied at about yesterday's latest figures.

Weakness of hog quotations led to a break in the price of provisions. Pork dropped \$1.25 a barrel. There was added strength during the mid-day session and the market closed almost at the day's best prices with May \$1.59 and July \$1.52 1/2 to \$1.53 1/2.

On the decline there was some buying which appeared to be for packers.

NEW YORK STOCKS

By Associated Press.
NEW YORK, April 17.—A confusion of buying and selling orders was responsible for the uncertain trend of the stock market in the first half hour of today's trading. American International Hide and Leather preferred, Tobacco Products and United Cigars were the chief features of strength with Baldwin Locomotive and some of the petroleum stocks. Steel soon cancelled its very moderate

rise and Bethlehem and Crucible Steels also yielded to pressure as well as General Motors, Industrial Alcohol and Texas Company. Southern Pacific was the only railway issue to show any degree of strength.

Mixed conditions ruled at mid-day as a result of the heaviness of oils and motors, Chandler losing 1/2 point. Shipments made a fresh upward turn, however, and pronounced strength was shown by Harvester, Steel, Foundry, National Lead and American Woolen.

Leaders shaded moderately in the final hour but there was none of the precipitate selling which unsettled yesterday's later operations. The closing was firm.

Liberty bond final prices today were: 3 1/2's 99 1/2; first 4's 95.50; second 4's 93.54; third 4's 95.34; fourth 4's 93.52.

HAVE ABANDONED "SAILING DAY" FOR FREIGHT SHIPMENTS

By Associated Press.
AUSTIN, April 17.—The "sailing day" plan of shipments of freight in Texas has been definitely abandoned, according to an announcement of the

railroad commission today and the orders to the carrier to accept when tendered during regular business hours and to give daily service on same, as is required by Texas laws, is fully recognized.

Freight may be held for through or set-out cars, as under the sailing day plan, on specific days only when same may be mutually arranged for by representatives of shipping public and of the carriers.

Watch Your Blood Supply, Don't Let Impurities Creep In

Pure Blood Means Perfect Health.

The average druggist has handled hundreds of medicines in his day, some of which have long since been forgotten.

But there is one that has been sold by the druggist throughout this country, for more than fifty years, and that is S. S. S., the reliable blood

medicine, that is purely vegetable. Many druggists have seen wonderful results accomplished among their customers by this great old medicine, and they know that S. S. S. is one of the most reliable blood purifiers ever made. Keep your blood free of impurities by the use of this honest old medicine, and if you want medical advice, you can obtain same without cost by writing to Medical Director, Swift Specific Co., 28 Swift Laboratory, Atlanta, Ga.

Why Beefsteak Is High

This chart was copied from Bulletin No. 226, U. S. Bureau of Labor Statistics. It is the latest that has been issued. 100=1916 price.

Remember when beefsteak was 20c a pound?

Now it's 40 and 50 cents a pound.

Why?

This chart shows that the price packers have had to pay for cattle has gone up with the price received for beef.

In fact, it shows that the "spread" between cattle and beef prices has been gradually reduced during the past 30 years—owing to competition among packers, their increased efficiency, bigger volume, and elimination of waste.

The packer's profit of only a fraction of a cent per pound of meat has helped to narrow this "spread."

Increased farm-production costs have made higher cattle prices necessary.

FAIL TO IMPEACH
GOVERNOR HARDING
IN RATHBURN CASE

By Associated Press. DES MOINES, IOWA, April 17.—Iowa's house of representatives ended its investigation of the Rathburn case at noon today by criticizing Attorney General H. M. Haver for his activities in the case, after censuring Governor W. L. Harding last night for his connection with the affair.

By Associated Press. I.A., April 17.—Efforts to impeach Governor W. L. Harding for his part in the Rathburn case were defeated in the Iowa House of Representatives early this morning when that body adopted a resolution censuring the chief executive.

By a vote of 70 to 34 with four members absent or not voting, the house adopted its judiciary committee's minority report for censure, after submitting it for the majority report, which recommended impeachment.

Final action came shortly before 1 o'clock after nearly fifteen hours of heated debate in which impeachment advocates bitterly assailed the governor, while speakers in his defense declared the pardon "an unlawful mistake" warranting only censure.

This ends the legislative investigation of Governor Harding's action in pardoning Ernest Rathburn, who was convicted of criminal assault and sentenced to life imprisonment. The pardon was granted last November.

The bitter controversy in official state circles over the pardoning of Ernest Rathburn by Governor W. L. Harding reached a climax when the case was carried to the halls of the legislature.

The first chapter in the case from which the political controversy grew was written one autumn evening in 1917 when young Rathburn, Ray O. Meura and two girls went "joy riding" over an Ida county road. One girl later

escaped from the party, but the other, Elsie Hargens, 16, was criminally attacked by both youths, according to testimony.

After Rathburn was convicted in December 1917 and sentenced to life imprisonment, appeals were taken to various courts and finally to the state supreme court. It was learned on Dec. 7 last that before he had served a day without being pardoned by the governor, whose action resulted in sharp criticisms and subsequent petitions to the legislature for investigation.

In February H. M. Haver, state attorney general, placed evidence before the Ida county grand jury, before which Governor Harding testified. A perjury indictment was returned against Rathburn, based upon his application for pardon. He pleaded guilty in district court then agreed to accept revocation of his pardon and serve the original life sentence.

Investigation Is Requested. After Haver announced that he would present evidence to the house judiciary committee, Governor Harding called a joint legislative session, told his side of the story and requested a rigid investigation. It was then that the house ordered the judiciary committee to investigate the governor's reasons for granting the pardon and the attorney general's methods in setting it aside. For three weeks the committee, assisted by H. W. Byers as special counsel, examined witnesses, including Harding and Haver.

A mild sensation was caused when William Rathburn, an Ida Grove farmer and father of the pardoned youth, testified that when he gave his attorney, George Clark, \$5,000 in currency for obtaining the pardon, it was Rathburn's understanding that the money was to go to the governor.

Governor Harding, Clark and other witnesses testified Harding had not received money for the pardon, Harding admitted that he had not thoroughly investigated the case, however, testified that he relied for his information solely on records and letters Clark presented together with recommendations from the trial judge and prosecuting attorney. These recommendations were of clemency as the governor deemed just.

The attack on methods of state counsel in setting aside the pardon was directed on the quashing of certain indictments against the senior Rathburn, a farmer, William, and Attorney Clark, after Ernest had consented to go to prison. The indictments had

been voted by the grand jury. It was brought out, but had not been returned in court.

This "bargain" to gain Rathburn's imprisonment was condemned by Special Counsel Byers, but was defended by Haver and his assistants on the grounds that there had not been sufficient evidence to assure successful prosecution of Clark or Rathburn's father and brother.

OIL DEVELOPMENT

SOUTHERN PART OF DISTRICT SHOWS A PRODUCTION GAIN

Special to The Times

FORT WORTH, April 17.—Production of the North Central Texas oil fields for the past week showed a daily gain of 3,500 barrels, all being in the southern territory, the Wichita district remaining about steady at 5,000 barrels. The total is 132,000 barrels. Eastland county had 64,000 barrels daily; Stephens county nearly 16,000 barrels, and Comanche county about 7,000 barrels.

Considerable excitement has been created in the Moran field by the fact that the old Waters No. 2 well abandoned four years ago has suddenly broken loose and is flowing oil. No estimate has been made of the flow and the depth is not given. It is two miles north of Moran.

When the Gulf Production Co. pulled the casing in the Waters No. 2 well in Russell county oil shot over the top and since has flowed a fairly good stream. The company had intended to shoot the well in the 2,500 foot sand from which oil now is flowing.

BUT LITTLE CHANGE IN THE PRODUCTION FIGURES FOR WEEK

Production in the Wichita Falls district is still at 67,700 barrels daily, according to the average compiled from pipeline runs for the past week. Burk Burnett's new pool, where the storm damage had been expected to cause a decrease in production for a short time at least, the runs were practically the same, only 200 barrels decrease being shown in the actual runs, over the previous week.

The daily average for the week was as follows:

Burk Burnett	54,250
Electra	12,500
Petrolia	650
Iowa Park	250
Holliday	150
TOTAL	67,700

The completion record for the week shows 23 wells completed in the Burk Burnett field, all with two exceptions being producers and the average production showing an increase over the wells reported for the past several weeks. The best well of the list is that of J. W. Gilliland (formerly the Marine Company) whose No. 18 on the Hardin lease is credited with a daily production of 450 barrels, while the second best wells is also a Gilliland, the No. 14 on the Hardin, which is making 550 barrels. The well of Brown & McAlister, also on the Hardin, has a daily production of 325 and there are several wells in the list that pass the two hundred average.

PREPARE TO COMPLETE HAMMOND ART WELL

The star rig over the Hammond Art Oil Company's well on the Flak tract, was reamed up Wednesday, and work of cleaning out preparatory to completion begun. The report from owners of the well this morning is to the effect that some oil is showing, and that the well, which has generally been given out as dry for many weeks, may make a well, though this is not in the least certain at the present time.

BELIEVE THAT THE BURK-WAGGONER WELL OPENS A NEW POOL

That the Burk-Waggoner well opens up a new and distinct pool seems to be the general opinion of oil men in this vicinity, and as a result there is a feverish rush to acquire leases in all directions from the well just as there has been in such successful new development since the bringing in of the Power well, and then same unprecedented prices are being asked, and paid, it is stated.

Just how much the production of the Burk-Waggoner will be still remains to be seen, but the fact that it is a well is now assured. The well was not completed and tested Wednesday as had been expected, due to unavoidable delay, it is stated.

TEXAS PRODUCING AND REFINING CO. TO BUILD A PLANT AT DALLAS

The Texas Producing and Refining company, which has refineries at Fort Worth and Henrietta projected, will construct a 15,000 barrel plant at Dallas, it is announced by officers of the company. The site has already been selected, though the location has not been made public. Arrangements are being made for tracks to the site, which is within the switching limits of Dallas.

J. Fred Smith, who has offices in this city, is president of the company and is now in the east making arrangements for the purchase of the necessary machinery. The plant will cost \$500,000 the first unit to be constructed to be of 400-barrel capacity. The capacity will later be increased, with an increased expenditure.

The Bankhead highway association will hold sessions tomorrow with a bitter fight between Texas and Oklahoma delegates in prospect over the route.

GAMBLE OIL COMPANY HAS COMPLETED DERRICK

The Gamble Price Oil Company has completed the derrick on its location southeast of Burk Burnett, on the Hansard tract, in block 43, Taylor survey, and are reported moving in the tools, preparatory to beginning drilling immediately. The well will be a 2,000 foot test, drilled with cable tools.

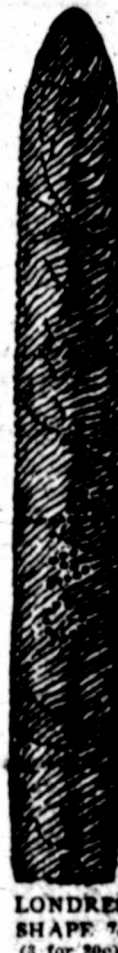

Cincinnati swaps some talk with Baltimore

"Greetings and good morning, friend of the Middle West," said Baltimore. "Sit down, have an Owl Cigar and tell me of your city. Tell me of your foundries, your great soap works, your tobacco trade, your beautiful potteries."

And Cincinnati made reply, "Explain to me your canned goods business. How about your export trade? Is it straightened out by now? And your great universities—Johns Hopkins for men and Goucher for women."

At first it may seem odd that one cigar—the Owl—can suit alike the tastes of all the States and cities. But each Owl or White Owl makes the explanation with its fragrance. DISCHARGED MEN GOING TO DEMAND A "SQUARE DEAL"

MEETING LAST NIGHT TO ORGANIZE MEN RECENTLY IN SERVICE.

LOCAL CONDITION CRITICIZED

Charged That Soldiers Are Neglected in Matter of Providing Employment.

Discharged soldiers and sailors of Wichita county, in session last night at the county court house, made it known in no uncertain terms that all ex-soldiers and former doughboys are going to get a square deal in this section of Texas; that Wichita county will be lined up solidly with any movement to perfect a national organization of discharged soldiers and sailors and field during the European war and that the "local post" will be ready immediately to step to the front for any soldier or sailor out of work or in trouble in this country.

Major E. W. Napier, Maj. E. L. Pullton and Capt. J. W. Mode were named as delegates to the state convention to be held at San Antonio April 21-22 for the purpose of organizing Texas in the national movement. On the outcome of the state convention will depend in large measure the nature of organization steps to be taken later in Wichita county. In the meanwhile, however, a local organization committee, consisting of J. A. Lantz, B. B. Ross and C. F. Carter, will compile a roster of all discharged soldiers and sailors in the county, gather data regarding sentiment in the county toward such an organization and take whatever steps may be necessary to "line up" the youth and veterans or the war now living in this section.

Employment Committee.

One of the most important steps taken last night was the appointment of an employment committee. E. W. Napier, B. D. Martin and Earle Williams, to find jobs for all men recently discharged. Many speakers last night declared emphatically that scores of discharged soldiers and sailors are "broke" and homeless in Wichita county, and that their appeals for jobs are falling on ears that refuse to hear.

"I have had as many as many as seven soldiers a night sleeping on the floors in my house," declared Williams, "because they had no place to go and no money with which to pay rent for a night. I can get you the names of at least 15 soldiers now in Wichita county who drove trucks for the American Expeditionary Forces in France, (and you can get that man who drove a truck in France knows how to drive a truck) who can't get a job here, although there are scores of other men driving trucks in the oil fields who don't even know how to shift gears."

Used to List Names.

Any discharged soldier or sailor who needs work is urged to list his name and qualifications with the employment committee named last night, while an appeal equally earnest is directed to all employers of labor to list their needs also with this committee. Maj. Napier's office is at 611 Eighth street, and Mr. Martin can be reached at the office of Smoot & Smoot in the Friberg building.

Col. E. E. Kelly, who served as chief signal officer with the 80th Division, presided as chairman last night, with J. Wilkie Talbot as temporary secretary. Col. Kelly stated that the

military policy of the nation will be governed in the future by a national organization of men who served in the European war.

Deficiency is charged.

"The government has been very deficient," he said, "in its efforts to perfect a general military staff, and where we fell down in Europe, if we fell at all, was in the organization of our officers. Every Frenchman, Englishman, Italian, was ready to swear that the American doughboy, for dash, virility and nerve proved himself the greatest soldier the world ever saw."

"When I left France in December there was not a division overseas that was not quietly considering just such an organization as is being perfected in this country now. No one can look back over the work of the Union and Confederate veterans without feeling that there is a real place in the future citizenship of this country for men who served in this war."

Major Everitt Jones, unable to attend the meeting, sent the following message:

"I am busy with the sick in the hospital tonight and cannot possibly get to the meeting. Tell the boys that my whole heart is with them."

REPORTED EXECUTIONS AT BUDAPEST UNTRUE; CITY APPEARS QUIET

By Associated Press.

VIENNA, April 16.—Reports of the execution at Budapest of Count Michael Karolyi, Archduke Joseph and others are untrue. The city continues outwardly quiet with progress being made toward the nationalization of property. It is estimated there are only 20 nationalized Americans and American wives and Hungarians in Hungary. It is possible that an effort will be made to send food there, as there is little meat and few vegetables in the hotels and there is no salt. Eggs are plentiful while the bread sold in the city is worse than that on the market here. When Count Karolyi was in Vienna he called on Professor Philip Brown, secretary of the American mission here and told him that he would be glad to accept a can of condensed milk. He was very downhearted when here partly because of opposition by the Allies and partly because he is hated by the aristocrats of Hungary who charge him with betraying them into the hands of robbers and fanatics. He was also despondent because he was being restricted in his expenditures. In former times he was accustomed to spending a million crowns annually. Foreigners, especially Americans, are receiving attractive marriage proposals from families of wealthy young women who expect by this means to give something from the wreck of their fortunes because of the fact that foreign property will be exempted from nationalization. Women who marry foreigners will be enabled to travel freely over the frontiers with their families. There is a disposition on the part of the new government, however, to a low middle class Hungarians to leave, provided they do not take property with them.

GRAIN CONDITIONS WERE NEVER BETTER SAYS DEALER HERE

"Grain conditions were never known to be better than at present," is the statement made by J. C. Hunt of the Hunt Grain company. "With an increased grain acreage in this immediate section of Texas of fully 25 per cent, in addition to the best crop known for years, prospects for a bountiful harvest were never so great."

According to the April 5th bulletin issued by H. B. Dorsey, secretary of the Texas Grain Dealers association at Fort Worth, the Food Administration Grain Corporation has not yet decided on how the grain crop will be handled; indeed, it is not yet known who will then be in control of the association as Julius H. Barnes has asked that he be relieved of the responsibilities that go with the presidency of that organization that he may direct his efforts in more lucrative channels.

In view of the uncertainty as to who will be at the head of the organization, and also the return of the President, who has been empowered by Congress to use any existing government agencies or create new ones in order to handle the crop, much anxiety is felt among grain and mill men generally throughout the country.

One report made to the Texas association from Amarillo is to the effect that the Panhandle section alone would harvest as much as 25,000,000 bushels of wheat this season, which would be as much as if not more than all Texas has ever raised. And other reports from the southwestern part of the state, and the Abilene territory, are to the effect that never before has there been as great wheat acreage, even a 50,000,000 bushel yield being predicted for this section alone.

Further in the way of surprises, is the statement made recently by Mr. Plazek at Kansas City that in view of the enormous demands of Europe on this country for "the staff of life" it is his opinion that all of the Texas and all of the Oklahoma and half of the Kansas wheat crop would move this season at prices above the government guaranteed price, owing to the proximity of these states to the Gulf ports.

Strength united is stronger. Be it help you to save.

REPORT HUGE ICEBERG IN TRACK OF SHIPPING

By Associated Press.

HALIFAX, N. F., April 17.—A huge iceberg in the track of trans-Atlantic shipping was reported in a radio message from the Cunard liner Carmania, bound from Liverpool for this port with 3,000 Canadian troops. The berg is about 250 feet in height and fifteen hundred feet long, was sighted by the steamer about 800 miles east of Halifax.

AMERICAN OFFICERS WITH INTERPRETERS TO ACCOMPANY TRAINS

By Associated Press.

COBLENZ, April 16.—Seventy-five American officers with interpreters have been assigned for duty on trains which will cross Germany with Polish troops. On each train there will be an Allied convoy and at each German station where trains will stop there will be Allied guards.

CO-OPERATION

It is the bank which depends upon business for success — not business upon the bank.

While it is true that no business can operate successfully without a strong banking connection, in a larger sense the bank itself can look for great success only in the ratio that success comes to its patrons.

The success for which this institution bids is that which comes to us as a direct result of intelligent co-operation and tangible assistance rendered to the friends and patrons of this bank.

Capital and Surplus
A Quarter of a Million Dollars

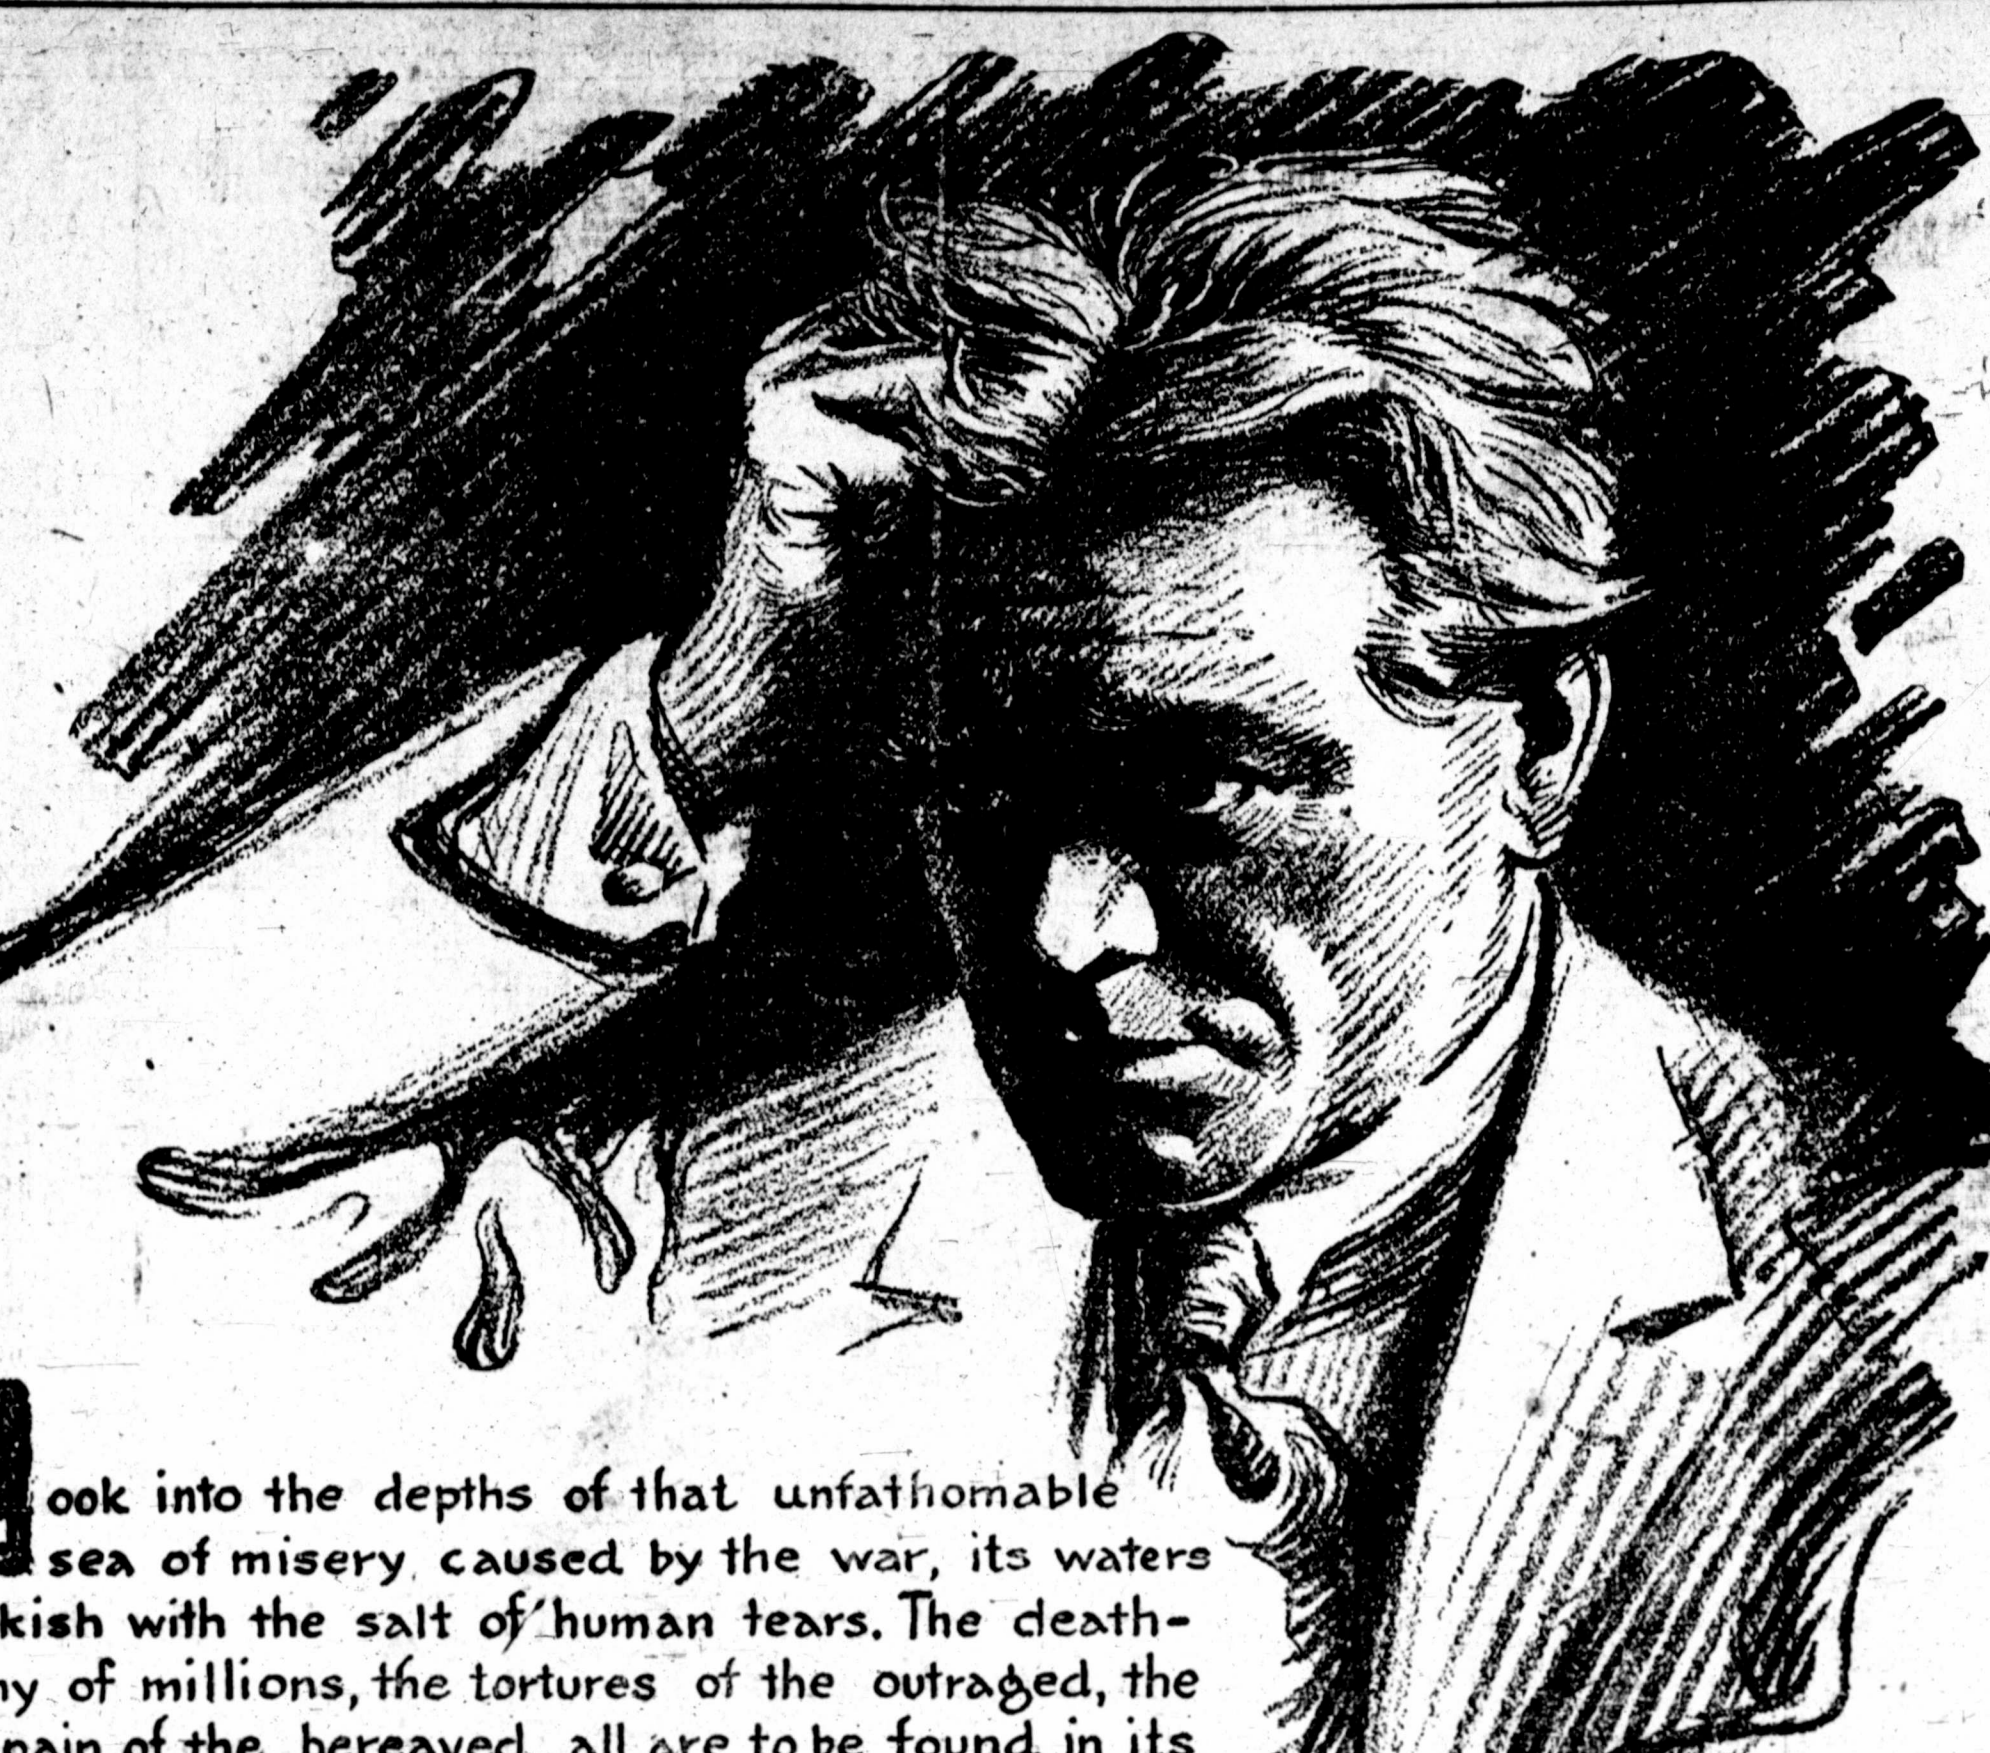

A CONVINCING REFERENCE

The most convincing reference a business man can give is his bank, and when the name of the NATIONAL BANK OF COMMERCE, which is widely known for its strength and sound methods, is given, the reference becomes doubly valuable.

The protection of every dollar entrusted to our care is absolutely assured by our Capital and Surplus of a quarter of a million dollars, by the unusually high grade character of our assets and by the conservative policy of our management.

Your account is invited, whether small or large.

C. W. REID, Pres.
F. C. BARRON, Vice Pres. W. M. FRANK, Cash.

Look into the depths of that unfathomable sea of misery caused by the war, its waters brackish with the salt of human tears. The death-agony of millions, the tortures of the outraged, the dull pain of the bereaved, all are to be found in its murky depths, the wrecks of humanity vomited upon its shores.

The sacrifice of it all!

There are moments in the lives of all of us when things that hitherto we have taken for granted suddenly take to themselves a vastly greater importance, a new dignity, a new meaning. A wave of realization surges over our souls —

We see things as they are

Every effort, every agony endured by our own flesh and blood, by the men, women and little children of Europe has formed a barrier between you and a similar fate. In his attempts to reach you the Hun was forced to destroy those who stood between.

Natural justice, our manhood and womanhood, our very sense of decency call upon us to at least pay the cost of protection. Gratitude to Almighty God and our sainted dead would urge us to be even liberal.

Investing in the Victory Liberty Loan to our absolute limit is but pitifully weak as an act of reparation and gratitude, but it is all we can offer.

ASTOR'S INCOME TAX EXCEEDS THE TOTAL OF ENTIRE INCOME

By Associated Press.
LONDON, April 9.—That a man should pay more money for income tax than the total of his income seems the limit of taxation. This is said to be the plight of a well-known British peer, who was born an American and became naturalized in England some years ago. His property is in the United States. Being a British subject he is compelled by British law to pay income tax on all his revenue from all sources and the American law compels payment of income tax on all his income from American property. Being a multi-millionaire, his income is subject to heavy super-tax by both governments and the two taxes are said to amount to more than one hundred per cent of the income. This unfortunate nobleman must pay out of all his receipts and dip into his capital to defray current taxes and after defraying this first charge, use more of the capital for living expenses.

MILK BOTTLE LOSS OVER A MILLION DOLLARS A YEAR

The statement once made by a Frenchman that the people of his country could live on what the Americans wasted is partially sustained by the report of the authorities at Washington that the loss of milk bottles alone in this country amounts to over a million dollars.

This statement is made in the April number of the Weekly News Letter, published by the department of agriculture. "Who is to blame for the staggering waste of milk bottles in the United States—a waste amounting to millions of these containers annually—which adds to the cost of distribution, is a factor in the price of milk, and, in the end, is paid for by consumers? To answer this question and determine ways of remedying the situation dairy specialists of the United States Department of Agriculture made an investigation. Responsibility for the waste, they learned, is widely distributed.

The average milk bottle is short-lived. It makes only about 17 trips before it is broken or lost, the specialists found. For every customer who has a quart of milk delivered at the door each day, the dealer in the course of a year has to supply 20 new bottles. The investigation, conducted in 88 cities, shows that the average milk dealer buys 17,444 new bottles a month, and the large dealers buy more than 90,000 a month, which are largely, though not entirely, replacement stock."

"NERVE TONIC" AGAIN FEATURES DOCKET IN POLICE COURT

Another case of "nerve tonic" was up in Judge Ogle's court this morning. The latest method of procuring booze is to purchase a tonic known to the druggists as "Bromidia," and this, when mixed with the proper proportions of water, produces a drink with all the kick of hard cider.

Other cases considered were vagrancy, violating laws regarding parking of automobiles and procuring state license, and operating restaurant without license. The last mentioned asked that he might continue for 12 hours longer in order to close out his perishable goods, and the request was granted.

LIEUTENANT BULLINGTON HOME ON A FURLOUGH

Lieutenant G. C. Bullington arrived Wednesday for a 15 days leave to spend with his wife and baby son, who have been with Mrs. Bullington's parents, Mr. and Mrs. T. E. Dodson, since the lieutenant went overseas last June. Lieutenant Bullington has been in the states for two weeks, being stationed at Atlanta, Ga., where he will receive his discharge early in May.

RHODE ISLAND ENACTS LIQUOR LEGISLATION

By Associated Press. PROVIDENCE, R. I., April 16.—By a vote of twenty to eleven the senate yesterday adopted an act which provides that all beverages containing four per cent of alcohol or less shall be deemed to be non-intoxicating in Rhode Island.

The act provides that all places selling beverages containing more than one percent and not more than four per cent of alcohol, by weight, shall be licensed in exactly the same way that liquor saloons are licensed at present.

COFFEE THE STAFF OF LIFE

DURING the hacking struggle the French found Coffee the most sustaining stimulus food.

IT WAS the "staff of life" in the trenches, and the whole West Front where the Allies performed such immortal deeds to save Freedom and Civilization. Shells, poison, and Coffee saved Verdun.

COFFEE is winning its way through the world as the benevolent autocrat of the breakfast table.

TO NOURISH, sustain, uphold the zest of life, the fighting edge, nothing approaches this favorite beverage, of the World's Greatest Brain Workers, from Napoleon, Balzac, Zola, to Joffre and Foch.

AS COFFEE comes in Alcohol goes out.

IT IS THE cheapest food product—at little over a cent a cup.

THE EVER increasing demand causes great improvement in culture and blends. The Coffee of tomorrow will be real ambrosia.

FRANCE is shaped like a Coffee pot and saved the World. It is a Symbol.
