INVESTIGATING THE REALTY OPERATIONS OF ZIONISTS LEADER

By Associated Press.
SPRINGFIELD, ILLS., April 25.—The legislature is investigating the real estate operations of Wilbur Glenn Voliva, overseer of the Christian Catholic Apostolic Church of Zion at Zion City, the town founded a few miles north of Chicago by John Alexander Dowie. Voliva, who is successor to Dowie, "The Second Elijah," whose claims to divine power attracted international attention, is said to dominate both the church and the municipal government in the church town.

The resolution for an inquiry, which encountered virtually no opposition, declares Voliva is "owner or pretended owner of all or nearly all of the real estate" in Zion City and that through his position he "is enticing citizens of this and other states to invest large sums of money in masses of land in the city and in other Zion enterprises pretending to extend over a period of a thousand years."

The resolution further alleges that the Zion church institution "is using the city government of Zion City, the schools and the courts to carry out its illegal and fraudulent purposes in securing property and depressing the citizens of the state of Illinois, those who do not conform to the pretended beliefs of said institution."

Voliva denies the charges and declares he will fight every step of the way. Zion City sets back from Lake Michigan in Lake county and looks like almost any other northern Illinois city. Its population at the last federal census was 4,759. The church, which controls the municipality, has adherents in other states and a large number in Chicago where Dowie has a considerable following. A newspaper serves as the mouthpiece of the institution and most of the business houses are related to the church. Citizens govern the conduct of the citizens, among other things, prohibiting swearing and smoking and eating of pork or oysters.

AMERICAN DELEGATES OPPOSE HIGH TRIBUNAL FOR THE TRIAL OF FORMER KAISER AND OTHERS

By Associated Press.
PARIS, Thursday, April 24.—It has become known that the American delegates have been unable to agree to certain portions of the report adopted by the majority of the commission of responsibility for the war and as presented to the council of four, the report contains a memorandum setting forth the American reservations. The Americans objected to the principle that persons accused of offenses against "the laws of humanity" should be subjected to criminal prosecution, contending that the laws of humanity constitute a standard too uncertain to be rightly applied in legal proceedings. The principle that heads of states should be liable to criminal prosecution for breaches of positive law was another point in which they failed to agree with the majority. The American belief in this respect was that the essence of sovereignty lies in the fact that the head of a state is responsible for his illegal acts to the people from whom he derives his authority and not to any foreign sovereignty. This contention was not held to apply in the case of a head of a state who is abdicated, for any

CONSIDERED UNLIKELY SONNINO WILL ATTEND MEETING OF PREMIER

By Associated Press.
PARIS, April 25.—Premiers Clemenceau and Lloyd George and President Wilson, it is announced, will meet in conference at four o'clock this afternoon. The topics to be discussed at the meeting are not known. The remaining members of the council of four now that Premier Orlando has left France are to hold a meeting during the afternoon. The chief interest attached to the afternoon session is whether Foreign Minister Sonnino of Italy will attend. It is believed that he will attend and continue the discussion of the Italian question as he intends to leave for Rome tonight. However, it is not considered likely that he will attend.

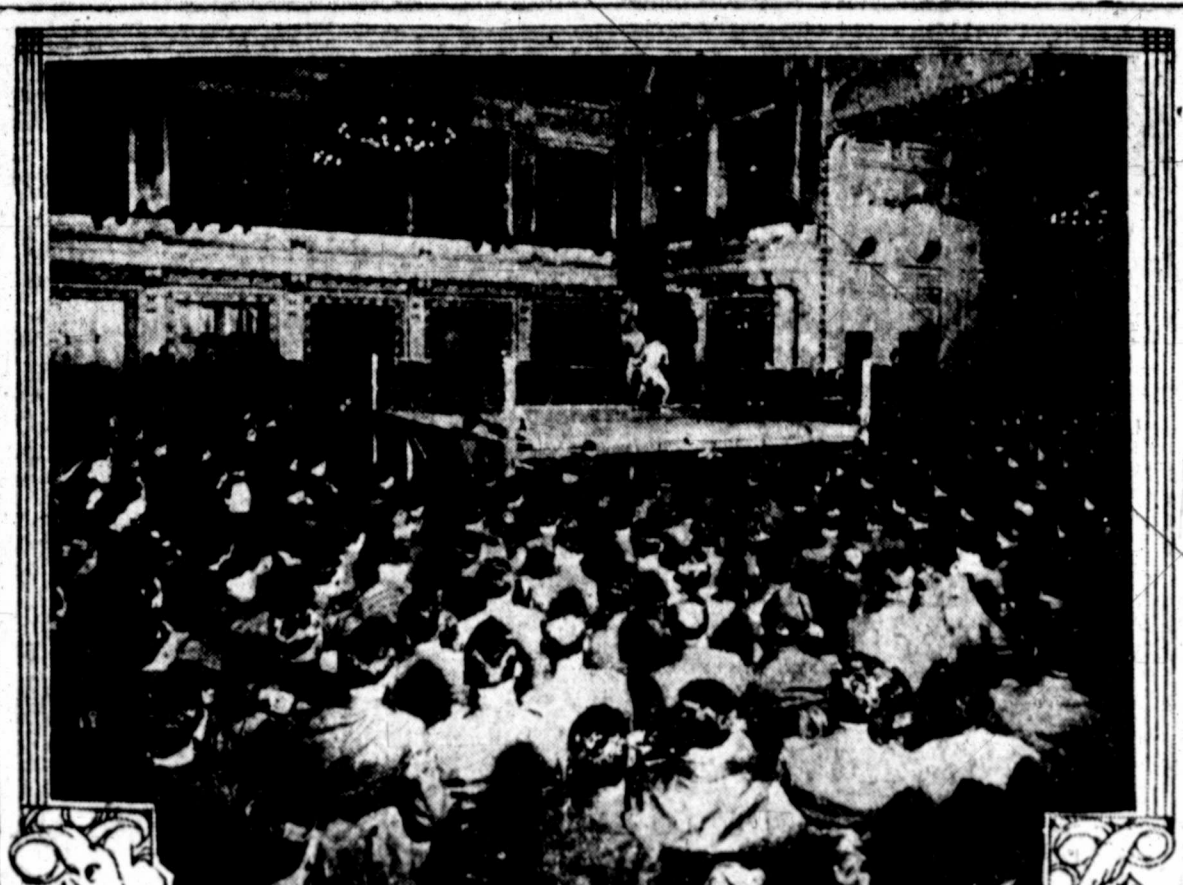

Orlando Given an Ovation Upon Leaving for Rome

By Associated Press.
PARIS, Thursday, April 24.—(Havas.)—Premier Orlando of Italy left Paris for Rome at 8:30 o'clock tonight, accompanied by Salvatore Barzilai, General Diaz, and two other members of the Italian mission. He was given an ovation at the station by a crowd. Peace conference circles were inclined to believe today that an amicable solution of the Italian incident was in the making. For one thing Italy has shown her desire to maintain good relations with the Allies by the fact that the Italian delegates remaining in Paris will continue to collaborate in the work of the inter-Allied commission not pertaining to the actual work of the peace conference. Orlando may call the Italian parliament together at an earlier date than May 6 as previously fixed, and that he may be back in Paris for the meeting of the negotiations at Versailles which will not begin before the first or second of May.

OMSK GOVERNMENT SENDS MESSAGE TO THE AMERICAN PEOPLE

By Associated Press.
OMSK, SIBERIA, April 1. (Delayed.)—"The air, which the government sets for itself should be the general aim of the loyal citizens of Russia—to free the country from the bolshevik yoke, to save the remains of the national wealth and to proceed then, under conditions of complete order, wisely to reconstruct the people's life, upon the basis of free participation of the people themselves in the organization of the general state and local government." Admiral Kolchak, supreme ruler of the all-Russian government in exile, through the Associated Press correspondent here, gave this as his message to the American people. Admiral Kolchak declared further: "As my task I set the establishment of any army with fighting capacity, victory over the bolshevik and the establishment to law and order." He said that the work and the principles of the government "rehabilitation of a single great Russia" must include: "The impossibility of a return to the old regime, to save the nation, 'All the peoples of Russia without distinction of religion or nationality should have equal rights."

HIT AND GET AWAY WITH AMERICAN BOYS AT COBLENZ

AMERICAN SOLDIERS WATCHING A BOXING BOUT IN FEST HALL AT COBLENZ

The square circle and the padded glove hold sway on Saturday night throughout the zone of the American Expeditionary Forces whether they be in France, England or Germany. So it is that on this evening the clang of the gong and the referee's cry of "Break!" rises above the shouts of the inevitable jam in the Red Triangle halls and huts,—here most of the bouts take place. Here two buddies of the Army of Occupation are pounding each other in the Fest Hall at Coblenz on the Rhine; cheered on by four thousand of their comrades.

VALUATION INCREASE FOR THE SCHOOL TAX IS HELD ILLEGAL

By Associated Press.
AUSTIN, April 25.—Where the taxes for an independent school district are assessed by the county tax assessor, the property of such district shall not be assessed at a greater value than it is assessed for county and state purposes, held the attorney general's department today in an opinion. It is further held that where the county tax assessor, acting for an independent school district assesses the taxes for the school district at a higher valuation than for county and state purposes, the assessment is only valid to the extent that it exceeds the valuation fixed by the county board of equalization. In another opinion it is held that a provision in a special bond law authorizing a tax for bond purposes on the intangible assets of a railroad violates the provisions of section three, article eight of the constitution and is unconstitutional.

By Associated Press.
BUENOS AIRES, April 25.—The Mexican minister today announced that Mexico would define her attitude toward the Monroe Doctrine at the plenary session of the peace conference which organizes the league of nations. He said he expected instructions from Mexico City regarding their reports concerning his country's stand on the Monroe Doctrine.

TODAY'S SUMMARY OF INTERNATIONAL SITUATION

By Associated Press.
Although Premier Orlando has left Paris with two other members of the Italian delegation to the peace conference, in protest against President Wilson's action in making public a statement on the Adriatic question, the latest Paris advices do not give the view that the move means a cessation of Italy's participation. Italy, if all her delegates leave Paris, will be represented at the conference by Great Britain and France. Efforts to win the opinion of the Italian people to whom Premier Orlando is returning, appears from the Rome advices received to be standing determinedly behind her delegates at the conference. Delegations were held yesterday and last night in Rome and it is reported that in all the larger towns of the kingdom there have been parades in which the people have shown their approval of Premier Orlando's stand.

Reports from Paris state that a plan dealing with the future status of the port of Danzig claimed by Poland has been approved. This plan would set up the disputed territories of Danzig and Gdansk as a free city, with complete autonomy, but still under a sort of Polish protectorate. Poland would give the use of the docks and wharves, the control of Danzig would remain in the hands of the Polish government, and the port would be a sort of Polish protectorate.

Conditions in Hungary are according to a report from Berlin, continuing to be panic prevailing in Budapest where the soviet government is restoring to extreme measures in its attempt to retain its power. The Russian advance continues. Czech troops are reported to be moving toward the city of Wlitz, 20 miles northwest of Budapest.

PREMIER ORLANDO LEAVES PARIS BUT OTHERS OF ITALIAN MISSION STAY FOR FURTHER NEGOTIATION

By Associated Press.
PARIS, Thursday, April 24.—(Havas.)—Premier Orlando of Italy left Paris for Rome at 8:30 tonight accompanied by Salvatore Barzilai, General Diaz and two other members of the Italian mission. He was given an ovation at the station by a crowd.

ORLANDO'S STATEMENT

By Associated Press.
PARIS, April 24.—Following is the text of Premier Orlando's statement yesterday, while the Italian delegation was discussing counter-proposals which had been received from the British Prime Minister and which bear their own distinct and contradictory tendencies which were manifest concerning Italian territorial aspirations. The Paris newspapers published a version from the president of the United States in which he expressed his own thought on one of the gravest problems which has been submitted to the judgment of the conference.

"Above all," he continues, "I should have the right to complain the declaration of the presidential message had the purpose to oppose the Italian people to the Italian government, deny the high degree of civilization which the Italian people has attained under its democratic and liberal regime. To oppose the Italian people and government would be to admit that this great free nation would submit to the yoke of a will other than its own. The history of our nation is a story of struggle against suppositions unjustly offensive to my country."

Referring to President Wilson's statement, Premier Orlando said: "I entirely purport to demonstrate that the Italian claims beyond certain limits laid down in his message, violate the principles upon which must be founded the new regime of justice, liberty and peace among peoples. The premier adds that he never denied these principles and that even President Wilson would do him the justice to say that in the long conversations they had had together, he (Orlando) had never relied upon the formal authority of a treaty by which he knew President Wilson was not bound, but merely relied on reason and justice, upon which Italy's claims were based."

"No Monopoly on Justice." Orlando declares that he could not convince President Wilson, although the President admitted that justice and truth are the monopoly of no man and that all men err. The conference, he points out, has had to change its mind many times and he does not think himself disrespectful by asking it to change it again.

Orlando declares that he considers application that, in his statement, President Wilson makes of his principles towards the Italian claims. Premier Orlando continues: "It is impossible for me in a document of this nature to repeat the detailed arguments which have been produced in Italy's behalf. I must simply say that no one will receive with reserve the affirmation that the collapse of the

Austro-Hungarian Empire should reply the reduction of the Italian aspirations. Citing the president's argument that the concessions granted bring Italy to its natural defenses, the Alps, Signor Orlando says: "This recognition is of great importance, provided the eastern flank of this wall does not remain open and that the right of Italy should be interpreted to include the line of Monte Nevoso, which separates the waters running toward the Black Sea and the Mediterranean."

He recalls that the Latins from the earliest dawn of Italian history, designated this mountain the "Italian limit." "Without this protection," says the premier, "a dangerous breach is left in this admirable barrier of the Alps, suggesting the unquestionable political, economic and historical unity of the Italian peninsula. I contend, furthermore, that he who is entitled to the honor of proclaiming to the world the right of the free determination of peoples, should recognize the right of Fiume, an ancient Italian city, which proclaimed its Italian nature before the Italian ships arrived—an admirable example of national conscience perpetuated throughout centuries."

"To deny this right only because the small number concerned would mean the admission that the criterion of justice toward peoples varies according to their territorial extent." Premier Orlando then points out that Antwerp, Genoa and Rotterdam are international cities, an outlet to divers peoples and territories without having to pay for the privilege by sacrificing national conscience and continuity. "It is impossible to qualify as excessive the Italian aspirations toward the Dalmatian coast, Italy's boulevard throughout centuries, which Roman, Allied and associated powers made, noble and grand and whose Italian character, defying for centuries implacable persecutions, still shares the same thrill of patriotism with the Italian people."

The principle proclaimed with reference to Poland that denationalization based on violence does not create rights, the premier declares, should be applied to Dalmatia. Passing to the argument of "cold statistical statements," the premier affirms that among the national reconstructions occupying the peace conference, none of the reconstructed nations will count within their frontiers a relatively slighter number of persons of alien races than would be attributed to Italy, and asks why only Italians should be suspected of imperialistic cupidity.

"The history of our nation is a story of struggle against suppositions unjustly offensive to my country." Referring to President Wilson's statement, Premier Orlando said: "I entirely purport to demonstrate that the Italian claims beyond certain limits laid down in his message, violate the principles upon which must be founded the new regime of justice, liberty and peace among peoples. The premier adds that he never denied these principles and that even President Wilson would do him the justice to say that in the long conversations they had had together, he (Orlando) had never relied upon the formal authority of a treaty by which he knew President Wilson was not bound, but merely relied on reason and justice, upon which Italy's claims were based."

"No Monopoly on Justice." Orlando declares that he could not convince President Wilson, although the President admitted that justice and truth are the monopoly of no man and that all men err. The conference, he points out, has had to change its mind many times and he does not think himself disrespectful by asking it to change it again.

Orlando declares that he considers application that, in his statement, President Wilson makes of his principles towards the Italian claims. Premier Orlando continues: "It is impossible for me in a document of this nature to repeat the detailed arguments which have been produced in Italy's behalf. PIPE LINE COMPANIES STRONGLY OBJECTING TO ORDER NUMBER THREE

By Associated Press.

AUSTIN, April 25.—Strenuous objections to the furnishing of copies of the order number three, of the pipeline to the railroad commission were raised by representatives of leading Texas pipe line companies at the hearing on order number three, of the railroad commission today.

This order which was promulgated without notice March 16 and suspended upon objection of the pipe line companies pending the hearing today, would require, in addition to the filing of copies of the orders mentioned above, the filing of reports showing the amount of oil gathered by counties each month, the amount transported and stored, and other information. Pipe line representatives said that they have no objections to the parts of the order which call for information concerning transportation of oil, but that the transfer orders and division orders are merely records of the sale of oil, and it is not within the jurisdiction of the commission to require them to furnish this information. Commissioner Earl Mayfield said that the purpose of asking for copies of this order was to furnish a check against reports made to the comptroller on oil production in connection with the collection of the gross production tax. Pipe line men contended that furnishing copies of these orders would not give an accurate check, that it would be an unnecessary expense thrust upon them, and that the railroad commission has no power to demand it. Slight detail changes in reports covering transportation and charges were also asked by pipe line representatives.

Producers were requested to present their arguments order number at three this afternoon. After this is disposed of a hearing of the establishment of rates and regulations for pipelines will be had.

HIGHER PAY FOR SCHOOL TEACHERS FOR NEXT YEAR

SCHOOL BOARD ADOPTS BUDGET AND PROVIDE FOR SUBSTANTIAL INCREASES.

150,000 AMOUNT REQUIRED

To Raise Amount Needed Assessed Valuations Must Total \$27,000,000.

The Wichita Falls Independent district board at a meeting Thursday night adopted a basis for salaries for 1919-20 of \$300 per month with a minimum of \$250 per month.

High school teachers will be paid \$150 per month. Superintendent Leo Clark was re-employed at a salary of \$4000. H. L. Bell, principal of the high school, was re-employed and his salary raised to \$3000 per year.

"We are going to spare no effort to employ the best teaching corps possible," said W. J. Bullock, president of the school board. "We are going to ask for the money to maintain our public schools at the highest efficiency. We know that this money will be forthcoming."

A budget of expenditures aggregating \$150,000 has been adopted for next year by the school board, a very large proportion of the increase will go to pay increased salaries to the teachers, Mr. Bullock said.

In order to raise the necessary revenue, an assessed valuation of \$27,000,000 in the district will be necessary. It will probably be necessary

to add to the assessments as given to the city tax assessor to raise this amount. At the meeting of the board last night C. H. Clark, T. B. Noble and J. S. Bridwell were appointed members of a board of equalization to assess the assessed values to the required total. The valuations last year totaled only a little more than fourteen and a half millions.

SOLDIERS URGED TO JOIN ASSOCIATION OF WORLD WAR VETERANS

All discharged soldiers in Wichita county are urged to file their names and addresses with the committee recently appointed to organize here a county branch of the proposed national association of veterans of the European war. As a preliminary step to such an organization, which will be completed later after the national convention is held next month in St. Louis, it will be necessary to locate every discharged soldier now living in this county so that on short notice a mass meeting can be held in the future to perfect the county branch.

The organization will include in its membership all soldiers who were drafted or who enlisted for service during the war just ended, whether they went overseas or did their bit in American training camps. They are asked to write to J. A. Lantz, United States Commissioner, County Court House, Wichita Falls, stating full names, business and home addresses, and where possible, telephone numbers. Any suggestions regarding the organization of the local post also will be welcomed. Mr. Lantz is chairman of the organization committee.

J. M. Waterbury, holder of the world's marathon piano playing championship, is tickling the "ivories" at the Wichita Music Company's salesrooms this morning in an effort to smash his own record of 65 hours and 7 minutes.

The test of endurance and musical ability combined began at 10 o'clock. Mr. Waterbury opening with a composition of his own. He stated before starting on this long musical grind that he was "feeling fine" and would never stop until he either later in the day or later in the night had broken his present record.

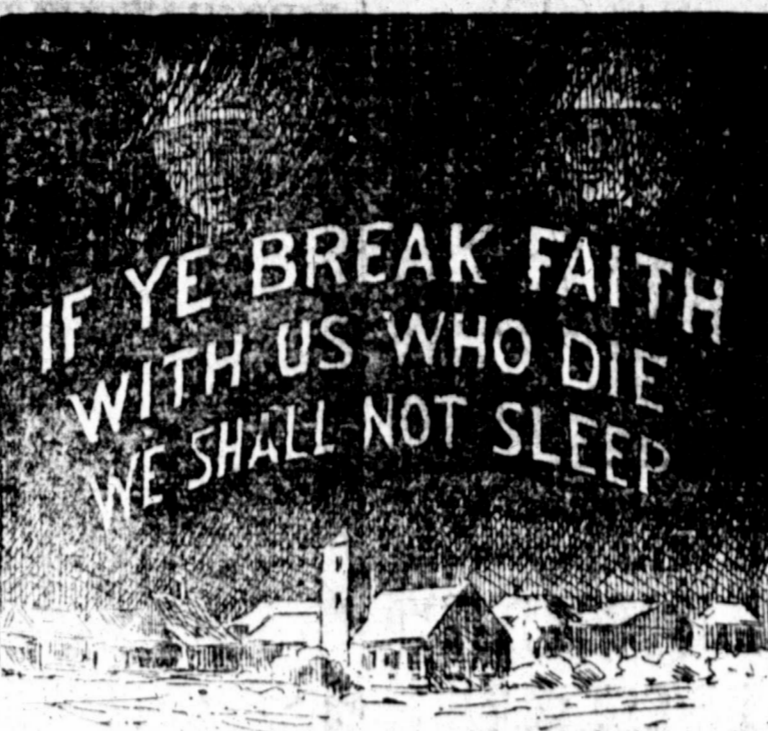

FIREMEN UNABLE TO LOCATE BLAZE AFTER RUN TO TAYLOR ST.

The weekly exercise of the local firemen was obtained this morning through the medium of a wild dash up Eighth street, and an extremely exhausting search of Taylor street for a fire that must have been burning only in the imagination of the man who jumped in the alarm.

The alarm was turned in at 9 o'clock but 20 noon all was quiet along the "Blitz" and Chief McClure and his men, individually and collectively, had decided that "whoever started in that alarm went off at high speed" and that Taylor street from one end to the other was safe from destruction.

HELMETS ARRIVE FOR USE AS PRIZES FOR WAR LOAN WORKERS

The shipment of helmets to be used as prizes to award workers in the Victory Loan arrived this morning. The medals, which it was announced some time ago had been allotted to Wichita county, as similar awards to the workers, have not yet been received. Just what services the helmets and medals will be awarded for has not definitely been announced by Judge Britain.

A dozen and a half volunteer stenographers are busy at headquarters making copies of the assessment lists, which each bank has prepared, giving the amount of bonds which it considered the individuals should buy. These lists, as in the past, are given to the committees when they get out on their work of canvassing.

The tanks will be in Wichita Falls on May 3, according to the latest information from Dallas. It is believed by this time that the loan will be entirely subscribed and over with, so Judge Britain is making another effort to have the date of the tanks' visit moved up. The special picture will be shown on April 30 at the Wichita theater, according to the present information.

UNCLE WIGGILY AND THE COOKIE PLANT.

Uncle Wiggily Longears, the rabbit bunny gentleman, was out in the yard back of his hollow stump bungalow one morning raking up the dried leaves when a cute little voice called to him from over the fence.

"Uncle Wiggily! Uncle Wiggily!" the bunny heard some one say. "Has you got any more room left in your garden?"

"More room left in my garden? Room for what?" asked Mr. Longears. "If that's Jackie or Peetie Bow Wow I haven't any room for you to roll around and dig up my cabbage and carrots," said the bunny.

"Oh, I don't want to do that!" went on the laughing voice. "Besides, I'm not Jackie or Peetie Bow Wow. I'm Little Squeakie-Eekie, the cousin mouse."

"Oh, hello, Squeakie-Eekie!" cried Uncle Wiggily in his most gladstone voice. "Come right in. And how are Jollie and Jillie Longtail, the two mouse children?"

"They're very well!" said Squeakie-Eekie, who was the tiniest little mouse you can imagine. "I came over to see if I could plant something in your garden," she went on.

"What did you want to plant, Squeakie-Eekie?" asked Uncle Wiggily, twinkling his pink nose like a bit of strawberry short cake. "Do you want to plant some cheese sticks or a bit of bread pudding?"

"Now you're making fun of me!" said Squeakie, sort of wobbling her tail bashful like.

"Oh, I wouldn't make fun of you for this world and part of another one!" said Uncle Wiggily, trying not to laugh. "What did you want to plant, Squeakie?"

"Just this," answered the little mouse girl, and she held out part of a sugar cookie she had been nibbling at. "I want to plant this cookie in your garden, Uncle Wiggily, and make some cookie plants grow. Then when I'm hungry, I won't have to ask Mrs. Longtail for a cookie or a cake. I'll just come over in your garden and pick one."

"Oh, ho! Ho! Ho! Ha!" laughed Uncle Wiggily and his nose twinkled so fast that it looked like a roller skate going down hill.

"Now, there!" said Squeakie. "I know you're making fun of me!"

"No, really, I'm not!" said the bunny. "I'm just laughing at the sugar cookie. It—it's such a funny shape! It looks like a monkey doo-dle."

"That's because I snawed it backwards instead of frontwards," said Squeakie-Eekie. "But can't I plant it in your garden the piece of cookie that's left Uncle Wiggily? And when the cookie plant grows up I can pick off cookies and little cakes when they get ripe."

"Oh, but my dear Squeakie!" said the bunny. "Don't you know that cookie don't grow? They are made with sugar and flour and water and I don't know what else. They don't grow in gardens."

"Well, maybe this one will," said Squeakie. "Please let me plant it, Uncle Wiggily."

Though he knew it would do no good, but because he wanted to be kind to Squeakie-Eekie Uncle Wiggily dug a hole, and the little cousin mouse put in her piece of sugar cookie. Then she and Uncle Wiggily patted some dirt down over the top.

"Now, I'll water it with the sprinkling can," said Squeakie, "and when my cookie plant grows big I'll pick off a cake for you, Uncle Wiggily."

The bunny didn't want to laugh, but it was hard work not to. When Squeakie grew bigger Mr. Longears thought he could teach her more about what really would grow in a garden.

"And now what happened? Why, about three weeks after that, when Squeakie had watered every day the place where she had planted the piece of sugar cookie the little cousin mouse suddenly ran in the hollow stump bungalow.

"Oh, Uncle Wiggily! Uncle Wiggily!" she cried. "My cookie plant has grown up! My cookie plant has grown up! Come and look!"

The bunny hurried out. Surely enough there was a little green plant growing, right where Squeakie-Eekie had made her little garden.

"Now! Didn't my cookie grow?" she asked.

Uncle Wiggily scratched his pink twinkling nose. Then he said: "Ha! I see how it was. There were caraway seeds sprinkled on top of the sugar cookie you planted. The seeds were put on after the cookie was baked."

"It is these caraway seeds, Squeakie, which have grown up into a plant."

"Well, anyhow," said the little cousin mouse girl, "something grew

Market Report

COTTON MARKET

NEW YORK, April 25.—The cotton market was firm this morning, opening at an advance of four to 11 points and selling 25 to 34 points net higher during the early trading with new style May touching 28.00 and October 24.76. Relatively firm cables, prospects for less favorable weather in the eastern belt and small May notices promoted covering while there was trade and southern buying on the advance.

Private cables reported a steadier market in Liverpool with the trade almost ignoring the Italian situation in anticipation of a satisfactory solution within the next few days. Liverpool and the south were both buyers here on the advance which extended to 28.20 for May and 24.86 for October, or about 25 to 45 points net higher.

Trading was quiet during the early afternoon with May steady around 28.00 but later months were off under realizing. October declined to 24.58 or within six points of last night's close.

Cotton closed steady.

NEW ORLEANS COTTON

NEW ORLEANS, April 25.—Better cables than due and absence of May notices gave the cotton market a steady feeling on the opening today. After the demand strengthened on the forecast of lower temperatures for the belt and prices were sent 19 to 22 points over yesterday's close.

The advance continued until it amounted to 25 to 38 points. Here it was checked by realizing sales from the long side. At noon prices were nine to 90 points over yesterday's final.

Price changes became narrow. At 1 o'clock the market stood at a net gain of eight to 17 points.

Cotton closed very steady.

GRAIN AND PRODUCE

CHICAGO, April 25.—Reports of Bubonic plague at Buenos Aires brought about a sharp bulge in the corn market today, although previous to this news the tendency of prices was down grade. Opening prices, which ranged from 7/8 to 3/4 cents lower with July \$1.62 to \$1.62 1/2 and September \$1.58 to \$1.59, were followed by decided upturns which carried July and September well above yesterday's finish.

Oats rallied with corn. After opening unchanged to 1/2 cent lower with July 70 1/2 to 70 3/4 the market sagged a little further and then made a quick advance.

Buying was heavy and jumps in price continued until at one time July was 1/2 points above yesterday's close, on further reports of the placing of Europe on a war time bread flour mixture.

The close was wild at 2 1/2 to 5 1/2 net advance with July \$1.68 1/2 to \$1.68 3/4 and September \$1.64 1/2 to \$1.64 3/4.

Provisions were strong from the outside and the market was at a record. 32 cents a pound. The reason ascribed was European demand.

Further radical advances took place later in provisions in sympathy with the big rise in the value of corn.

HOW INDUSTRIAL PLANTS IN BELGIUM WERE DESTROYED BY HUNS

Much has been told of the Germans' destruction of the industrial plants of Belgium and the sending of the machinery to Germany. The extent of the damage is just becoming known. These photographs show better than any written description can tell just what the Germans did and did not do. Not only was the machinery carried away but that which could not be sent away was willfully destroyed.

WANTED: Some More Gushers

Knowing what a thrill it will give to men and women who occasionally run out of conversational topics in these pleasant stand-around-the-counter-and-talk gatherings in Wichita Falls, we hasten to impart the information that when **ONE-DAY'S** proposed fleet of battle cruisers has been completed, 6,721,000 barrels of oil yearly will be needed to operate them.

NOTICE

Having severed my connection with the Art Jewelry Co., where I have had charge of their repair department and optical parlor for the past year, I have opened for myself in the City Loan Co.'s store where I expect to give every article of jewelry or watch left for repairs my personal attention and all optical customers the same good service I have always rendered. Satisfaction guaranteed.

CHAMBERLAIN MAKES DEEP IMPRESSION AS HE TELLS STORY

By Associated Press.
 PARIS, Thursday, April 24.—This story may read like a fairy tale but upon my oath it is true, was a statement made by Edmond G. Chamberlain of San Antonio, Texas, testifying in his own defense today at the American naval court martial in connection with his reported exploit on the British during the fighting last summer.

Captain Chamberlain related with an abundance of detail the story of the great battle in which the British squadron in which he says he was flying took part.

Returning after a bombing expedition over France where he was positive he brought down two German airplanes in flames and two other enemy machines of which he was uncertain, he said, he became separated from the squadron because of engine trouble and came down between the lines where he captured one German soldier and succeeded in bringing in a wounded French officer.

He made his report of the flight of the request of the British officer commanding the squadron he said "to cover him up." He said the officer asked him for the report as he was liable to court martial for permitting the American aviator to fly in a British machine. Captain Chamberlain gave a vivid description of the battle in the air and of how he captured the German with a compass torn from his broken airplane. He demonstrated this method in court by picking up a compass from a table threatening an invisible enemy. He said he had no idea at the time that the compass resembled a hand grenade but merely desired to throw the first thing that he could see. Chamberlain told his story calmly and it appeared to make a deep impression.

WILSON CRITICIZED AND PRAISED BY THE BRITISH PRESS

By Associated Press.
 LONDON, April 25.—The peace conference crisis continues to be the paramount topic of comment in London's morning newspapers. The support they give to President Wilson's and Italy's views are, respectively, about evenly divided but with two or three exceptions, opinions are expressed cautiously and with a manifest desire to show friendliness for both Mr. Wilson and Italy and to avoid saying anything likely to hinder the speedy restoration of harmony.

Four newspapers emphatically champion President Wilson's viewpoint although with an exception, with cautious moderation. Two others with equal moderation sympathize with Italy's claims but chiefly plead the necessity for postponing the divergent views, lest the consequences be disastrous for the conference. Two others vehemently attack the President. One of these, the Post, refers to Mr. Wilson's "wild west diplomacy" and says:

"Mr. Wilson's name among the Allies is like that of the rich uncle and

they have accepted his manners out of respect for his means."
 The Express accuses the President of "plunging the conference into a profoundly stupid tragedy by rushing into the arena waving the flag" and describes his action as "open diplomacy gone mad." It adds: "Premier Orlando has gone home and we commend his example to Mr. Wilson."
 Among President Wilson's warm advocates the Daily News regrets that Premier Orlando's reply contains "much which can not be substantiated and ought not to have been said," but pleads that in view of events in Italy his action which may have such grave results should not be condemned as altogether wanton.

The laborite newspaper, the Daily Herald frankly charges that "Italy is out for plunder in common with Great Britain, France, Japan and Poland."

SALE OF RUM PROHIBITED IN WEST VIRGINIA

CHARLESTON, W. VA., April 25.—The sale of bay rum in West Virginia, except when denatured, is in violation of the state prohibition law, according to notification sent to all druggists by State Tax Commissioner W. S. Hallaman.

The commissioner states that he has not been disposed to interfere with the sale of bay rum for legitimate medicinal purposes, but in view of continued complaints that are made regarding the sale of the preparation, he is forced to place it under a ban. Bay rum may be sold, said Mr. Hallaman, when it has been denatured so as to make it absolutely impossible as a beverage.

MILLIONS DEAD FROM SPANISH INFLUENZA IN BRITISH INDIA

Associated Press Mail Correspondent.
 LONDON, April 17.—Almost five million persons have died in British India from Spanish influenza and fully a million others are believed to have died in the native states from the same cause, according to a report of the Indian government made public here. The area affected contained a population of 238,926,240 and the number of deaths was 4,390,725 or 20.6 deaths per thousand in a few months. It is observed influenza claimed half as many victims as did the dreaded plague in a period of twenty years.

The influenza which made its appearance in India early last autumn was particularly fatal in the central, northern and western portions, while in Burma it was not so severe. No part of the Punjab escaped. The hospitals were so choked, it was impossible to quickly remove the dead and make room for the dying. Streets and lanes of the cities were littered with dead and dying people and the postal and telegraph services were completely demoralized.

The burning vats and burial grounds were literally swamped with corpses while an even greater number awaited removal from houses and hospitals.

IS YOUR GOOD ICE BOX ON THE JOB? Get that good ice chest in tune. Fill her up with Our Pure Ice. Hydrant water doesn't taste as good now as it did two months ago. Why? The weather is warmer. A bit of pure ice is needed to get it to the right temperature. It is really getting so warm that prudent housewives feel that they are taking a chance when they leave the meat exposed to the warmer air of these balmy days. Why take the chance? Ice is cheap. Measure what that good ice chest will do for water, for meats, for vegetables, for the baby's milk, for all of the things that go onto the family table—and then balance it against the cost, a few cents a day. Yes, it's real economy to begin taking ice regularly now. And think how much better vegetables and meats taste when they come to the table fresh from an icy cold refrigerator. Ask the driver, when he stops tomorrow, to leave you a Coupon Book. That's the best way to take ice. And the cheapest way, too.

SOUTHLAND ADDITION Everyone who has purchased lots in this beautiful addition has made for himself a real home or made money by selling to others. Why? The answer is easy. The owners have equipped the addition better than any other part of the city. Sidewalks everywhere; high pressure water mains and gas-through many streets, and those not so equipped now will be soon. Eleventh street has been paved its entire length. Huff avenue is being paved now and Elizabeth and Lucile streets will be paved as soon as material for same can be obtained. Also Brooke avenue will be paved south to Collins avenue and College avenue from Marshall west to Baylor. The Wichita Falls Traction company's line runs through the center of the addition. Having already spent more than \$60,000 in giving this addition all city advantages, the owners guarantee that the improvements will continue. FOR conspicuous gallantry and intrepidity above and beyond the call of duty in action with the enemy near Ronsoy, France, 29 September, 1918.

Disregarding a severe wound in the head, Private Stewart fearlessly advanced toward an enemy machine gun nest and put it out of action with a grenade a few seconds before he was killed by fire from another machine gun nest near by.

OIL DEVELOPMENT

EXTENSION NORTHWEST OF BURK IS SCENE OF FEVERISH ACTIVITY

Last Wednesday night a pile of lumber lay on the ground of the Texas company's lease across the road from the now famous Golden Cycle well in block 76, of the new northwest field. At 2 o'clock Thursday afternoon every stick of that lumber was in its intended place, and the first derrick of the Texas company's block 75 acreage was up and waiting for the rig. This one example is typical of the feverish activity sweeping from block 65 northwest to block 84. Derricks are going up overnight, tanks are being constructed, experts are locating drilling sites, hammers, saws, boilers and all conceivable kinds of supplies are being rushed into the new territory. Roads that were level a few days ago now have been cut to rickety by trucks and pleasure cars, and a never-ending, winding stream of automobiles and wagons is flowing steadily to and from the scene of the excitement.

In Burk Burnett the new field uncovered by the Burk-Wagoner and Golden Cycle wells, by the Humble No. 2 and the Gilliland No. 17, is the only topic of conversation. Every man returning from the northwest is questioned regarding the big wells beyond the townsite, and oil men accustomed to exaggeration are repeatedly heard declaring that "this new strike is the biggest thing in oil that ever hit the United States."

For two hundred yards up and down the road near the Golden Cycle well yesterday automobiles were parked, with only a narrow lane left open through which to drive on to the Burk-Wagoner site. Fire had completely destroyed the derrick of the Golden Cycle, wrecked the boiler and the rig, burned up the oil in the slush pit and set hundreds of men and women lingering all day near the Golden Cycle well to watch the intermittent eruptions of oil and gas.

After five hours of fighting the fire with mud, sand and streams of water pumped from the United Oil company's well to the west, the blaze had been extinguished. But through the mass of mud over the hole the gas could be seen plainly—and at rough intervals of half an hour the head of "was" became so powerful that the well broke loose shooting oil high in the air. On Wednesday the well made 4,000 barrels, according to the driller's estimate, and at the time the fire started 2,000 barrels had been run into the pipe line, 2,000 barrels were in the tanks and the slush pit was full.

Interest in United Well.

Westward from the Golden Cycle about 200 yards the interest of the motor visitors was centered around the United well. Cuttings were being taken yesterday, with the drilling down over 1,600 feet the rig men openly betting that the well will be in by Monday to add to the list of producers in the new territory.

At the Burk-Wagoner well yesterday the flow into the slush pit had been stopped, the pit pumped out and the flow was being piped into six 500-barrel tanks. A four-inch pipe was carrying the oil from the tanks, with two pumps working steadily to handle the flow. Men at work on the well estimated conservatively that the well was running 2,500 barrels daily, a steady stream. Another tank is being constructed on the northwest side of the derrick.

To the south of the Burk-Wagoner, the new Humble No. 2 and Gilliland No. 17 wells were reported flowing steadily, but no figures could be obtained. Steam was up at the Vaughan well in block 76, but the drilling crew was idle.

On Block 59, activity was noticeable everywhere

OIL EXCITEMENT BRINGS A NOTED WRESTLER TO WICHITA FALLS

Clarence Ekund, of Buffalo, Wyo., champion of the world's light heavy-weight wrestling championships, "dropped into" Wichita Falls last night determined to get a struggle hold or a half Nelson on some of the dollars in circulation here as a result of the new oil boom. He is expected to wrestle in Fort Worth within a fortnight, but his chief interest in life at the present time centers around gasoline in its crude state.

Ekund, who is the only man who ever defeated "Pat" Brown, is rated one of the finest wrestlers of his weight in the country. It is probable that Eugene Leopold, local merchant and vice president of the Wichita Falls Park Association, will attempt to get the big fellow to take on some good man here after his Fort Worth engagement is over.

Cy Mitchell, widely known throughout Texas as a boxing and wrestling promoter, and M. H. Lyday, an Eastern promoter who has staged many wrestling matches on the Gulf coast and in California recently arrived here with Ekund. Both have oil interests in this section.

AMERICAN OIL AND R. TO BEGIN DRILLING ON 20 ACRE TRACT

An immediate drilling campaign in the Waggoner pool, the new northwest extension of Burk Burnett, is to be entered into by the American Oil and Refining Company, J. G. Kilgore, secretary of the company, states. The first location has been made on a 20-acre tract in block 87, just north of the Burk-Wagoner well, and drilling is to start as soon as materials can be moved on.

The company has four other tracts in this northwest section, taking leases in every direction from the new wells. Within the past 48 hours the company has purchased leases aggregating practically a quarter of a million dollars.

The new developments and their entrance into the new pool has caused a change in their pipeline plans, Mr. Kilgore adds. Instead of putting the main station on the Vanclave property, the line will go through Burk Burnett, with a sub-station in the Waggoner extension. A six inch line is to be constructed. This line is to be built as soon as the materials are available. They have already been ordered.

The date for the completion of the refinery building in North Wichita, is now set as June 1. Unexpected delay in receipt of materials necessary for completion of the plant has arisen, and the plans to be in operation May 1 have consequently been upset. The work is now progressing nicely.

TEXHOMA COMPANY SPUDS IN ON TEST IN SHACKLEFORD COUNTY

Thursday the Texhoma Oil and Refining Company spudded in their 4,000 foot test in Shackelford county, starting with a 22-inch hole. This location is 13 miles northeast of Albany, on the Balch farm. W. R. Loggie is the driller in charge of this test. The Texhoma company has extensive holdings around this location, and in view of the fact that it is nine miles from any other test will make it of considerable interest.

"The date for the completion of the refinery building in North Wichita, is now set as June 1. Unexpected delay in receipt of materials necessary for completion of the plant has arisen, and the plans to be in operation May 1 have consequently been upset. The work is now progressing nicely."

SHOE CONSERVATION

W. H. Kelley, a lumber salesman, of Omaha, found Neolin Soles so tough and durable that one pair of soles served on a second pair of uppers after the first pair of uppers had worn out in ten months of hard walking. "And he says, 'Those same soles will stand another ten months of constant daily wear.'"

This is unusual service even for Neolin Soles but Mr. Kelley's experience should indicate to you a method of cutting down those rising shoe bills you have to meet. Simply make sure the new shoes you buy are Neolin-soled and have worn shoes repaired with these soles which are scientifically made to be comfortable, waterproof and exceedingly long-wearing. They are made in The Goodyear Tire & Rubber Co., Akron, Ohio, who also makes Wingfoot Heels, guaranteed to outwear any other heels.

TERRORISM REIGNS IN BUDAPEST SAYS REPORT FROM BERLIN

By Associated Press.
BERLIN, Wednesday, April 23.—Hungary has hermetically closed all her borders in an effort to control the Rumanian invasion and prevent unfavorable news from escaping from the country. Reports from Budapest therefore are contradictory but all indicate the situation is grave. The days of the soviet government are perhaps numbered. The Entente powers are said to have sixty thousand colonial troops in Neusatz, which are advancing as a Rumanian reserve. The Czechs are believed to be preparing to attack. The people of Transylvania have revolted and are advancing with the Rumanians because of the agrarian measures imposed on them.

Terrorism is said to reign in Budapest where the communists are said to be ruthlessly arresting scores of the bourgeoisie. Thousands of the citizens are fleeing according to reports.

The Budapest police have begun a counter-revolutionary movement, but it is said that all involved have been arrested. Government troops are leaving for the front unwillingly, having in mind the experience of their comrades who capitulated to the Rumanians.

LAUNCHING OF THE R-34

American may see this big airship, launched at Inchinnan, Scotland, a few months sailing in from the coast within a few weeks. It is the R-34, the world's greatest dirigible, which a British Royal Air Force crew, under the command of Major Scott, R. A. F., expects to fly across the Atlantic in May. The R-34 has a hydrogen capacity of 2,000,000 cubic feet, is about 700 feet long, 80 feet in diameter and 93 feet high. It will lift sixty-five tons, including its own weight, carries a crew of thirty men and travels at about seventy miles an hour. If the Aero Club of America's invitation to the British to send an airship across to the Pan-American Exposition to be held at Atlantic City in May is accepted, the R-34 will do the trip easily in forty-eight hours, according to Alan R. Hawley, president of the Aero Club.

SEVERE COLD WAVE IN TERRITORY EAST OF MISSISSIPPI RIVER

WASHINGTON, April 25.—A general cold wave with snow flurries and freezing temperatures prevailed today over nearly all of the territory east of the Mississippi river.

Although no April records were broken so far as reports received have indicated, the cold was unusual and will not begin to shade off before tomorrow and Sunday. In Ontario the temperature this morning was ten above zero and 20 above in a number of places in New York state. Much crop damage was predicted, although high winds last night saved early crops from greater destruction.

In looking over his map today the weather man said it was entirely too cold for baseball, especially as the wind, still was high and rather inclined to show that it was trying to reach yesterday's mark of 40 or 50 miles. Many cities in the south reported that it was more like football weather.

With the exception of snow or rain in the lower Ohio valley and rain in Tennessee the west portion of the middle Atlantic states and north portions of the east gulf states, the weather will be fair tonight and Saturday, the bureau announced with continued low temperatures. The cold, however, will not reach Florida. Freezing temperatures were indicated for tonight in the region as far south as Kentucky and southern Virginia. It will be somewhat warmer tomorrow in the lake region and Ohio valley.

PARIS PRESS TAKES HOPEFUL VIEW OF SITUATION

By Associated Press.
PARIS, April 25.—The newspapers here are unanimous in the opinion that the departure of Premier Orlando from Paris does not constitute a rupture in relations. "It is not adieu," says the Petit Journal, "but au revoir." The Petit Parisien is particularly optimistic saying that the official tension exists no longer and there are several forms of compromise possible.

A part of the French press manifests some impatience that new complications should arise at the moment when the German plenipotentiaries are about to arrive. The Echo de Paris fears that "as a sequel of the method employed, all alliances may totter."

COMMITTEE TO REVISE CHARTER WILL BE NAMED

Mayor Marlow Will Submit Nominations to Council Next Week.

CITY IS HANDICAPPED

Alderman Reed Declares It Time to Lay Aside Our Swaddling Clothes.

Mayor Marlow will, within the next few days, appoint a committee to draft amendments to the present city charter to be submitted to the people for ratification or rejection in the near future. The mayor will submit his list of appointments for the committee to the city council at its meeting next week. More than a year ago a committee was named by then mayor A. H. Brihan, for this work, but the war, absorbing all the efforts of the people, nothing was done.

The matter was brought up at the meeting Thursday night by Alderman Reed after several matters had come before the council on which it was unable to act. Requests for sewer extensions, for street cleaning and other improvements and service had been urged. Alderman McFall explained: "There are many things that ought to be done, but the fact is that the city hasn't the money to do the work. With months ahead before tax money will begin to flow into the city treasury, many departments of our city government do not now have enough money to run them for thirty days."

"The trouble is," added Alderman Reed, "that we have become a city but have a village charter. It's time that we laid aside our swaddling clothes and get a suit to fit our size. I'm in favor of the mayor now appointing a committee to draft amendments to our city charter to suit our present and future needs."

Other members of council voiced their approval of the suggestion, whereupon Mayor Marlow announced that he would submit a list of nominees for the committee at the next regular meeting of council for approval.

RUMANIAN ARMY MAKES PROGRESS IN HUNGARY

By Associated Press. GENEVA, Thursday, April 24.—The Rumanian bureau at Berne has issued a statement saying that after the visit of General Franchet D'Esperey to Budapest recently, Rumanian troops were ordered to again take the offensive against Hungary which had been suspended during the stay of General Christian Jan Smuts at Budapest. It is said the order provoked great enthusiasm and that a number of Saxon officers and troops from Transylvania joined the Rumanian army which in a rapid march beyond the old line of debarkation occupied Grosswardein, capital of the province of Bihar. Hungarian red guards fled from the city in disorder and large quantities of booty were captured by Rumanians.

Thousands of people are leaving Budapest on foot and carrying their baggage as there are no trains or vehicles. Five thousand women at Budapest have met and protested against the soviet government and bolshevism.

Traveling as casuals were Brigadier General Erwin B. Babbitt, Albert J. Powley and Thomas W. Darrah. Units included officers and men of the 42nd (Rainbow) division—117th sanitary train and ambulance companies 165, 166 and 167.

FOREIGN COUNTRIES WILL BE PUT BACK ON WAR BREAD BASIS

By Associated Press. PARIS, April 25.—An increase in the milling percentage which will virtually put the world back to a war bread basis for the next three months is part of the program adopted by the supreme food council under the chairmanship of Herbert C. Hoover.

AMERICANS WILL CONTINUE TO HAVE WHITE BREAD

NEW YORK, April 25.—Americans will continue to eat "white bread" returned late last year after months of milling on a victory flour basis, despite the return of European countries to a war bread basis announced by the supreme food council, Julius H. Barnes, president of the food administration, grain, corporation and federal wheat director said today.

A survey of wheat stocks, Mr. Barnes said, had convinced his department that the American supply was sufficient not only to warrant continued production of "all wheat flour" but to meet the export demand until the next harvest.

council included the granting of a permit for the use of ten feet of Ohio avenue in front of the Gem theatre for placing material incident to improvements at that place.

A petition was received from citizens residing on Galveston and Dallas streets asking that a fire plug be installed at the intersection, but no action was taken in view of the fact that a similar petition had been presented at a previous meeting by other parties, and had been referred to the public utilities committee.

Authority was given the street commissioner, George Dodson, to purchase necessary culverts for street crossing.

Mayor Marlow was authorized to send a telegram on behalf of the council inviting the clinic and post graduate, held in Waco this year, to meet in Wichita Falls in 1920.

LEEMBROCK DRUG CO. MAKING IMPROVEMENTS

Extensive improvements are being made by the Leembrock Drug Company, corner of Ninth and Indiana, which will include the entire remodeling of the front of the building, as well as a re-arrangement of the interior, to provide a store that will be among the most attractive in the city, as well as one of the most conveniently appointed.

This store, formerly known as the Shaw-Chambers Drug Co., was recently purchased by L. H. Leembrock, an experienced drug man from Eldorado, Kans., where he was interested in two large retail drug houses, and so impressed with the work with the prospect for this city that he decided to transfer all his interests here and devote his entire attention to building up a business in keeping with the growth of the place. Mr. Leembrock is an energetic young man and splendid results will no doubt attend his efforts to meet the increasing demands being made upon this, as well as all other lines of business.

NEW GERMAN GOVERNMENT WOULD CONTROL PRESS

Associated Press Mail Correspondent. ZURICH, March 29.—According to reports reaching here from Berlin, the press is to be placed under the control of the new German government.

Immediately opposite the German which of late years has been occupied by the offices of the former emperor, this palace is to become the headquarters of the new press bureau which the government will create soon. It will be more than a mere government department, for it also will contain a club for journalists.

One part of the palatial building, a Berlin dispatch says, will be devoted to the offices of officials whose work will be that of inspiring the press, and the remainder will be transformed into luxurious club rooms.

There will be a library, writing rooms, reading rooms, smoking rooms, billiard rooms, a restaurant, an American bar, lounge rooms and a gymnasium, with a telegraph office conveniently attached.

Every conceivable device, it is stated, will be employed to capture and retain the sympathies of newspaper men.
