

GERMANY'S ECONOMIC STATUS IS THE RESULT OF HER OWN BEHAVIOR

(Continued from page 1, Part 1)

man armies to the corresponding territories in Belgium and France on the west and Poland, Russia, Rumania and Serbia on the east. There appears to be no reason why their produce should not continue to find a market on German soil.

Phosphate importations.

It is laid upon the proposed restrictions of the import of phosphates. It is, however, forgotten that Germany has never produced but has always imported the phosphates of which she stands in need. Nor is there anything in the terms of peace which will prevent or hinder future importation of phosphates into Germany. Other countries which do not produce phosphates, are also compelled to import them in common with many other products. All the chief differences in the two situations will arise from the relative degree of wealth or impoverishment in the countries concerned.

The German note makes special complaint of the deprivation of coal and asserts that nearly one-third of the existing coal mines will be lost but it omits to take account of the production of the pre-war consumption of German coal was in the territories which is now proposed to transfer. Further, it fails to take account of the production of lignite, 80,000,000 tons of which were produced annually in Germany before the war, and some of which is derived from the transferred territory. Neither in any reference made to the fact that the output of coal in the non-transferred districts was rapidly increasing before the war and that there is no reason to doubt that under proper management there will be a continuing increase in the future.

That should not the coal situation be viewed from a different and wider standpoint? It cannot be forgotten that among the most wanton acts perpetrated by the German armies during the war was the almost complete destruction by her of the coal supplies of northern France. An entire industry was obliterated with a calculation and industry which it will take many years to repair. The result has been a grave and prolonged shortage of coal in western Europe. There can be no reason in equity why the effect of this shortage should be borne exclusively by the allied nations who were its victims, or why Germany, who is charged with her own responsibility for the deficiency, should not to the full limit of her capacity, make it good.

Strikes in other parts of the hard-ship alleged to be inflicted on Germany by necessity of importing iron ore and zinc. It is not understood why Germany should be supposed to suffer from conditions to which other countries contentedly submit. It would appear to be a fundamental fallacy that the political control of a country is essential in order to procure a reasonable share of its products. Such a proposal finds no foundation in economic law or in history.

The allied and associated powers cannot accept the speculative estimate presented to them in the German note on the future of German industry as a whole. This estimate appears to be characterized by a series of palpable exaggerations. No notice is taken of the fact that the economic disaster produced by the war is widespread and includes universal. Every country is called upon to suffer. The allies cannot understand why Germany, which was responsible for the war, should be called upon to bear the burden of the economic disaster.

Similarly as regards the population of the future, no reliance can be placed on the data which are contained in the German note. On the one hand, it is difficult to prove that emigration from Germany will be necessary, but that few countries will receive the intending immigrants. On the other hand, it is argued to show that there will be a flood of Germans returning to their native land and living under the conditions which have already been described as intolerable. It would be unwise to attach too much weight to either speculation.

Finally, the German note rashly asserts that the peace conditions will logically bring about the destruction of several millions of persons in Germany. In addition to those who have perished in the war or are alleged to have lost their lives in consequence of a blockade. Against the war losses of Germany might be very fairly placed the far greater losses which her initiative and conduct of the war have inflicted upon the allied countries and which have left an inextinguishable mark upon the map of Europe. On the other hand, the figures and the losses alleged to have been caused by the blockade are purely hypothetical. The German estimate of future losses could be accepted only if the premises upon which it is presumed to rest are accepted also.

But they are entirely fallacious. There is not the slightest reason to believe that a population is destined to be permanently disabled because it will be called on in future to trade across its frontiers instead of producing what it requires from within.

A country both can and should continue to be a great manufacturing country without producing the raw material of its manufactures. Such is the case for instance with Great Britain, which imports at least one-half of her food supplies and the great preponderance of her raw materials from abroad. There is no reason whatever why Germany under the new conditions should not build up for herself a position both of stability and prosperity in the European world.

Her territories have suffered less than those of any other continent belligerent state during the war. Indeed, so far as pillage or devastation is concerned, they have not suffered at all. Their remaining and untouched resources, supplemented by the volume of important trade, should be adequate for recovery and development.

The German reply also ignores the immense relief that will be caused to her people in the struggle for recovery by the assured reduction of her military armaments. In the future, hundreds of thousands of her inhabitants, who have hitherto been engaged either in training for armies or in producing instruments of destruction will be made available for peaceful vocations and for increasing the industrial productivity of the nation. No result should be more satisfactory to the German people.

But the first condition of any such recuperation would appear to be that Germany should recognize the facts of the present state of the world which she has been mainly instrumental in creating, and realize that she cannot escape unscathed. The share which she is destined to bear of the enormous calamity that has befallen the world has been apportioned by the victorious powers, not to her discredit, but solely to her ability to bear it.

All the nations of Europe are suffering from losses and are bearing and will continue to bear burdens which

are almost more than they can carry. These burdens and losses have been forced upon them by the aggression of Germany. It is right that Germany, which is responsible for the death of these millions, should make them good to the utmost of her capacity. Her hardships will arise not from the conditions of peace, but from the actions of those who provoked and prolonged the war. Those who were responsible for the war cannot escape its just consequences.

ATTORNEYS DISCUSS THE LIMITATIONS OF EVIDENCE

By Associated Press.

MOUNT CLEMENS, MICH., May 22.—Discussion of the law bearing on the scope of evidence to be admitted, occupied the entire session again yesterday at the trial of Henry Ford's libel suit against the Chicago Daily Tribune. The jury, which had been instructed for the afternoon session, again was excused, this time until Monday, indicating the arguments will close today.

A member of the Ford legal forces explained in simple form for the benefit of mystified laymen the plaintiff's contention on the limitation of evidence.

"If Smith steals Jones' watch," he said, "and Jones calls him a thief, and says he uses the term because of that, the explanation is a complete defense of the slanderous word 'thief.' If, on the other hand, it develops that Jones' watch was stolen by some other person, it is no defense against a charge of slander to prove that Smith was a thief anyway, because he had committed some other larceny."

In the suit on hearing, the lawyer continued, the plaintiff charges that the Tribune said in a headline, "Ford is an anarchist," and "expatiated on the allegation with the assertion that Mr. Ford declined to pay his employees while absent on military duty or to hold their jobs for them or care for their dependents. That article made no other allusion as a basis for the headline and we contend it sets forth no other justification for the use of

the word 'anarchist,' and therefore it is no defense for the Tribune to prove that the military preparedness was necessary in 1916 and that Mr. Ford opposed this preparedness or that his public utterances led to acts of violence on the part of others."

Attorney Elliott C. Stevenson, for the Tribune, maintained in his argument that not only the headline, but the article itself, was based on long study of Mr. Ford's public attitude and that this inference was plainly carried to readers of the Tribune. It was unnecessary, he declared, that in the limited space available to an editorial writer the latter should make due mention of every fact in mind as a preface to his comment.

TUBERCULOUS COW IS DISCOVERED IN HERD HERE

As a result of one of the most recent examinations of the cows of the local dairies by the department of health for tuberculosis, one of the cows was found to be affected. Authority for a post mortem examination of the cow, which was slaughtered, was given by the state board of health with the result that a specimen of diseased tissue of the left bronchial lymph gland was obtained. The specimen of the tissue was preserved in alcohol and may be seen at the office of the food and dairy

inspector at the city hall by anyone who doubts the efficacy of the tuberculosis examination. The test employed by the local department is an injection of a vaccine into the cow and after 72 hours if there is a characteristic swelling, it is a sign of infection. Where it is found that a cow is a herd is suffering from tuberculosis, it must be isolated and the herd quarantined.

How Detroit spoke to Portland

"This is a town. Roses—what roses you have. And Portland, you have a right to boast of your climate. Thanks, too, for your salmon. Much obliged for your export trade which so helps my manufacturers."

And Portland made reply while passing out the Owls. "Detroit, I think of you and thank you every day. Your automobiles give my citizens untold pleasure. Your stoves modulate still more our mild winter. I'm in debt to you. Let's have another Owl."

Wherever you go, you will find Owl and White Owl cigars. All over the U. S. A., cities, towns and villages shake hands on the fragrance and dependability of Owl and White Owl. When you try them you will understand why.

Nothing Is More Precious than Your Eyesight

The old masters depicted the oval form as the most beautiful. But today the successful artist shows us a different type of eye. Every eye is different. There is one point, however, that all judges of the human face agree on, and that is the beauty of the eye. In glasses, our knowledge, skill and experience enable us to "mount up" a hat that or low bridged nose so it is almost worth while for one to wear glasses for appearance only.

Don't make the mistake, when buying glasses, to buy some "ready-made" style of glasses. They are simply bought off the shelf and are not made to fit your eyes. The eyes of some friends to whom such a style is becoming.

Be guided by our advice. We do not allow our eyes to be deceived by the cheapness of the goods. We give our patients the maximum of benefit with the minimum of trouble.

AMUSEMENTS

GOLDWYN TO WALK THROUGH A PLATE GLASS WINDOW

Walking through plate glass isn't such a very hard little trick—if you know how. At least it isn't more than a matter of form with Goldwyn, the famous conjurer, playing tonight and tomorrow at the Wichita Theatre. But the plate glass stunt is just one of the many new and wonderful illusions that the famous trickster presents for the public approval. Handsome settings and a capable staff of assistants dress up Goldwyn's act to the queen's taste. This bill will be here two more nights, tonight and Saturday.

JUNE ELVIDGE AT THE PLAZA AIRDOME TONIGHT

"Joan of the Woods" will be the feature picture at the Plaza airdome tonight, with June Elvidge as star. Philip Wentworth seeks the solitude of the woods in order to forget his desolation on the eve of his marriage. Joan, the daughter of a trapper, attracts his fancy, but he looked upon her as a child. When she nurses him back to strength after he is shot in defending her from the ruder trapper her father intends for her husband he marries her, but the wedding is kept secret and he goes to the woman who hated him and who is now divorced. Joan dies, freeing Philip, who does not know of their child, and the baby Joan is raised by a kindly old couple. She meets Norman, Philip's stepson, and they are secretly married. Norman is ordered away to cure his wildness and Joan is accused of the murder of her child, being brought for trial before her own father, whom she does not know. He recognizes her by the cross he carved for her mother, and her innocence of the charge proven, peace comes at last.

ROY B JONES GETS GOOD WELL SOUTH OF ELECTRA

The Roy B. Jones No. 4 Burkett, section 4, southeast of Electra, has been completed at 700 feet. The well is making 75 barrels, it is reported from the field.

Summit Petroleum No. 1 Renner, Block 75, in

The second producer in Block 75 was completed yesterday, the Summit Petroleum No. 1 Renner, which is reported to have the sand at 1765 feet, and which is also reported to be smaller than the other wells of the northwest pool, which have recently been completed.

The Sure Pop Oil Company's No. 1 Vogel, near the center of Block 74, is reported 12 feet in the sand. This well will probably be completed today or Saturday.

Latest report from the King Eight Oil Company's well in Block 84, is that completion is still delayed by a leaky casing. The oil sand was found around 1670 feet in this test, and casing has been set for several days.

Martin Rowe et al. drilling about 300 feet from the Burk-Wagoner No. 1, in Block 84, is reported setting casing today, and will drill in tomorrow, according to indications today. P. J. Lea is drilling about the same distance from the Burk-Wagoner, and is at Burkburnett with the expectation of bringing in this well today.

ANOTHER BIG WELL REPORTED BROUGHT IN ON BLOCK 84

The Wood and Munger No. 1 Wagoner, in Block 84, is reported completed today, and is said to be one of the best wells in the new pool. No estimate is given of the production, except that it is expected to run better than 2,000 barrels.

Mann & Dungan, real estate dealers, announce that they have secured the services of Mrs. B. M. Corder. Mrs. Corder was formerly with the Cowling Investment Co. and is well known in real estate circles. She has handled a great number of choice pieces of Wichita property. Mrs. Corder invites her friends to call at her new quarters in the basement of the First National bank.

PERSONALS

Mrs. L. D. Brustfield, who has been visiting her sister, Mrs. D. C. Walker, for several weeks, returned today to her home in Dumas, Ark., accompanied by Mrs. Walker.

J. E. Herrington, 1707 Bluff, visited brought with him a big bunch of lettuce grown in his home garden. Miss Louise Maricle, who has been attending C. I. A. at Denton, is in the city to participate in the graduating exercises of this year's class at the high school. Miss Maricle finished the work for graduation in summer school last year. After graduating here she will return to Denton to finish with this year's class at C. I. A.

TODAY—LAST SHOWING
JESSE L. LASKY PRESENTS
CECIL B. DE MILLE'S
PRODUCTION
"FOR BETTER, FOR WORSE"
AN ARTCRAFT PICTURE
By William C. De Mille

She wanted to hug him, but she pushed him away. Her heart burned with love for him—but she loathed and hated him too.
He was the man of her heart—but he had proved himself a low coward in her eyes.
Whenever she thought of herself walking up to the marriage altar with this man whom the world despised and when she thought of the eyes of scorn that would be pointed at her, her heart revolted and she swore she would never do it.
But she did! Did it willingly and gladly. What strange twist of fate caused her to do the very thing that she swore she never would do?
Gowns that would make a Fifth Avenue Modiste green with envy, stagings that rival the luxury of Solomon's day—they are in this and every Cecil B. De Mille Production.

NOTE FOR ALL FOUR AMENDMENTS SATURDAY.

Constitutional prohibition, woman suffrage, increase of the governor's salary and extension of State aid to assist citizens to acquire or improve their homes are the four amendments to be voted upon in tomorrow's election.

The Times would urge the support of all of these amendments. Constitutional prohibition would provide another guaranty against the return of the liquor traffic and all its evils in Texas.

The amendment to increase the salary of the governor is in the interest both of good government and of the dignity of a state that is an empire within itself. Years ago, doubtless, a governor Texas would exist and meet some of the calls upon his position on a salary of \$4,000 a year.

The amendment to increase the salary of the governor is in the interest both of good government and of the dignity of a state that is an empire within itself. Years ago, doubtless, a governor Texas would exist and meet some of the calls upon his position on a salary of \$4,000 a year.

Why I Favor Good Roads

Good roads should be constructed now. We are in a reconstruction period following the war, which calls for governmental internal improvements, a means of absorbing labor and preventing labor unrest consequent upon the demobilization of our four million soldiers.

PROTESTS AGAINST THE CONDITION OF ROADS

To the Editor of The Times: I would like to make a protest against the terrible roads the public is compelled to traverse in this county. In my business I am compelled to travel in a car a great deal over the country roads and meet a large number of people who are compelled to travel over the same roads in cars and there is a general wail of agony all over the county, especially from Wichita Falls to Burkburnett, as they bounce from bump to bump.

VOICE OF THE PEOPLE

Unconfirmed report: The Burk Sun well is in. An unconfirmed report was received late this afternoon that the Burk Sun Oil Company's No. 1 Jarrell, in Block 65, had come in, and was flowing. The Burk Sun well is nearly two miles southwest of production in the new northwest field, and would be an important extension, if the report is confirmed.

URGENT CALL FOR 1000 MEN IN TEXAS WHEAT FIELDS: FORT WORTH, TEXAS, May 22.—Reports to the government employment bureau here today indicate that the labor situation in the West Texas wheat fields is critical. Calls for 2,500 men were registered at the bureau yesterday, today the calls were 10,000. Fourteen counties are especially in need of men. The prediction of rain over the wheat belt is alarming the farmers, already complaining of too much moisture, and they are paying high wages for labor.

URGENT CALL FOR 1000 MEN IN TEXAS WHEAT FIELDS: FORT WORTH, TEXAS, May 22.—Reports to the government employment bureau here today indicate that the labor situation in the West Texas wheat fields is critical. Calls for 2,500 men were registered at the bureau yesterday, today the calls were 10,000. Fourteen counties are especially in need of men. The prediction of rain over the wheat belt is alarming the farmers, already complaining of too much moisture, and they are paying high wages for labor.

HAMBONE'S MEDITATIONS: KUMM BEE LOW BRAN GOT UP IN ONE DEM AIN-SHIPS DE TRACTION O DE BARTH D JES NACHULLY PULL MAH BIG FEET DOWN, BUT AH TOL' IM DE TRACTION O DE BARTH JES ZAC'LY WHUTE GWINE KEEP MAH FEET QUIEN DEM THINGS!

UNCONFIRMED REPORT: BURK SUN WELL IS IN. An unconfirmed report was received late this afternoon that the Burk Sun Oil Company's No. 1 Jarrell, in Block 65, had come in, and was flowing. The Burk Sun well is nearly two miles southwest of production in the new northwest field, and would be an important extension, if the report is confirmed.

AT THE CHURCHES
Central Presbyterian Church.
(Southern.)
At the service Sunday morning, the subject of the sermon is "Starting Waves." The morning service is held at 11:00 a. m., following the Sabbath school at 10 o'clock. If the evening at 8:30 o'clock the sermon is on "The Sins of the Saints." Why is it that oftentimes the life of the Christian is no better than the lives of other men, and what difference is this going to make in the "final adjustment?" What validity has the objection often urged that "there are so many inconsistent church members, I do not want to go in with that kind of people." Unfortunately, those who make this statement only see half of the matter. The other side is to be discussed Sunday evening. Prayer meeting Wednesday evening, May 28, the leader is Mr. John C. Pressley.

St. Paul's Lutheran Church (Mo. Synod)
Eleventh and Holliday
Sunday school at the regular hour, 9:30 a. m. Morning services at 10:30. H. H. Engelbrecht will preach. Berea Bible class will have their business and study meeting at 8:00 p. m. Tuesday our picnic will take place at the lake. Berea Bible class will also have an outing at the lake Tuesday night. Everybody is cordially invited to worship with us.—C. M. BEYER, Pastor.

First Presbyterian Church.
Mr. Templeton will play a violin solo and Miss Norwood, of Honey Grove, will sing at the morning service. The pastor will speak on "Be Still and Know." The subject for the night sermon will be "Mary, The Mother of Jesus." The choir will give special music. An opportunity for church membership will be given at the morning hours following the sermon.—N. F. GRAYTON, Pastor.

MORGENTHAU HAS MANDATORY PLAN CONSTANTINOPLE

By Associated Press. PARIS, Thursday, May 22.—Henry Morgenthau, former American ambassador to Turkey, has submitted a memorandum to President Wilson concerning the proposal that the United States should become mandatory for Constantinople. It is understood that he favors the inclusion of Constantinople, Anatolia and Armenia under one mandate as being advantageous for administrative purposes by combining a large section of northern Asia Minor under one central administration.

The question of mandates for various parts of Turkey is before the council of four and has not been finally settled. British and French sentiment is favorable to the United States taking the mandate for Constantinople and a similar move is apparently gaining ground in the American delegation but it is stated authoritatively that acceptance must be conditioned on the submission of the question to congress.

President Wilson's recommendation relative to accepting a mandate for Constantinople will depend largely upon the report of a commission created today for the investigation of conditions in Syria. Henry Churchill King, president of Oberlin college and Chas. R. Crane will be the American representatives. The commission will leave immediately to study conditions in Turkey. Until its report has been received it is not probable any action will be taken concerning the supervision of Constantinople.

OPPOSITION TO LEAGUE GROWING IN SWITZERLAND. By Associated Press. BERNE, Thursday, May 22.—The New Gazette of Zurich, a newspaper with Kantophile leanings, characterized the note addressed to the Swiss government by the peace conference asking whether it would be willing and ready to enforce a more severe blockade against Germany, if necessary, as a snafu against self-determination by small nations, and a bitter illustration of President Ador's declaration that Switzerland can enter the League of Nations with a proud and erect head.

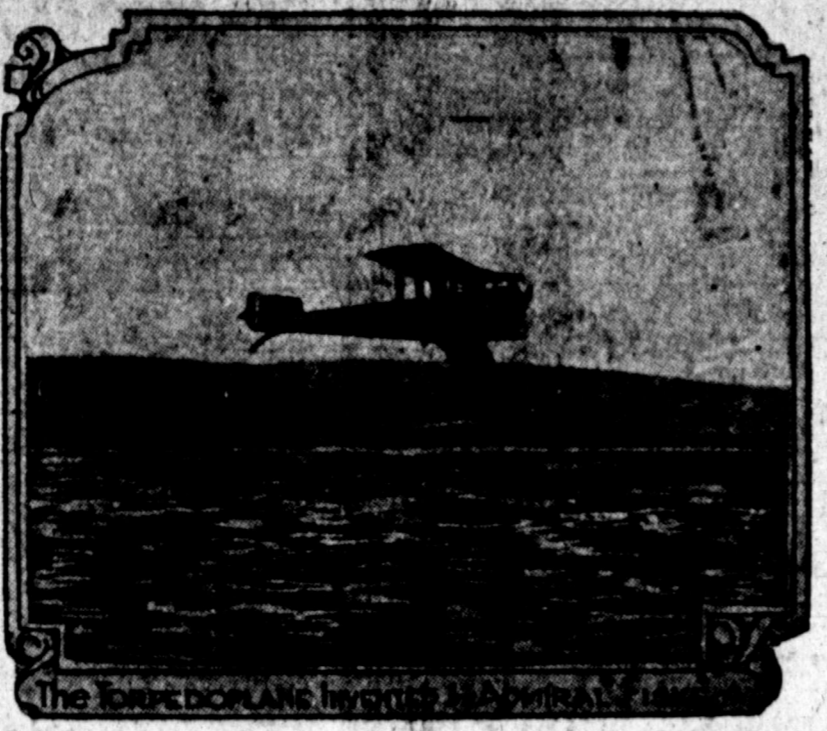

Confidence in the League of Nations, it is pointed out, is diminished in Switzerland generally as a result of the note and the opposition to the country entering the league is growing.

HEREDITARY TITLES IN CANADA TO BE ABOLISHED. By Associated Press. VANCOUVER, B. C., May 22.—Hereditary titles in Canada will be abolished, according to an official report received from Ottawa, which said that the house of commons last night had adopted the report of a special committee which had been appointed some time ago and which recommended that the system of bestowal of titles was not in accord with latter day democratic usage.

THAT FINER SIGHT required to examine delicate objects such as loaves, papers, engravings, paintings, etc. is not possessed by many. Most people are lacking in color sense also, so far as the more refined shades are concerned. The right "finding" or "sensing" glasses will remedy this lack. Our eye experts will explain how it may be done.

The Security National Bank "THE BANK OF PERSONAL SERVICE" DALLAS, TEXAS. Capital \$1,500,000—Surplus \$500,000. FINANCIAL institutions, corporations and individuals whose interests require a Dallas connection will find this bank equipped to render distinctively efficient service.

Fortunately for the Hun, many engines and devices of war which soon would have been introduced in the fighting zones were not placed in operation because of the sudden signing of the armistice. Many deadly weapons, the children of the brains of the greatest naval, military and civilian representatives of the allied countries, and particularly the United States, would have been introduced to "Frits" had the "cease firing" signal been postponed for another six months. New tricks, due to American ingenuity, were about to be played by the destroyers; a gas, more deadly than the famous mustard gas which was introduced by the Hun, had been perfected on this side of the Atlantic, and, last but by no means least, the torpedoplane.

CHARGED WOMAN AGENT WROTE THREATENING LETTER. By Associated Press. SACRAMENTO, CALIF., May 22.—Miss Ethel Loar, former head waitress at a hotel and one time an agent here of the government intelligence bureau, was indicted, it became known today, on a charge of having written an intimidating letter to Governor W. D. Stephens demanding \$500, under threat of dynamiting the executive mansion. The letter was written, the authorities alleged, at Fresno, Calif., two weeks before the mansion was dynamited on night of December 17, 1917. The explosion was attributed to members of various radical organizations, and while several arrests were made, no definite information as to the dynamiting ever was unearthed.

Miss Loar is said to be in a small town in Pennsylvania and her arrest is expected shortly.

OIL COMPANIES ISSUE DIVIDEND CHECKS. The Block Thirty-Nine Oil Company issued dividend checks Thursday for 10 per cent. The Hammond No. 2 has also paid a dividend this week, the amount being 50 per cent.

WEATHER STILL UNFAVORABLE FOR FLIGHT TO LISBON

By Associated Press. WASHINGTON, May 22.—Weather conditions at Ponta Delgada still were unfavorable for resumption of the trans-Atlantic flight by the seaplane NC-4. Admiral Jackson early today notified the navy department. His message said the sea still was rough, and rain squalls were expected within the next 12 or 18 hours.

164 CARLOADS STOLEN MACHINERY RECOVERED

By Associated Press. BRUSSELS, May 22.—The latest report from the "restitution service" whose task is to recover from Germany, Belgian machinery and tools which were stolen, shows that there are 12,059 demands on the books. Already property has been returned to the amount of 154 carloads, aggregating 1,349 tons of material.

COSTA RICAN INSURGENTS REPORTED IN FLIGHT

By Associated Press. SAN JOSE, COSTA RICA, Thursday, May 22.—The minister of war, who has been personally conducting operations against the revolutionists in the northwestern part of the country returned here tonight and reported that the insurgents were lacking ammunition and food and were retiring toward the Nicaraguan frontier. They are being pursued by parties of Costa Rican cavalrymen. The demobilization of the government has begun.

**VOTE TOMORROW
ON AMENDMENTS
TO CONSTITUTION**

A tight vote is expected in Wichita county tomorrow on the four constitutional amendments that are being submitted.

Constitutional state-wide prohibition, an issue a few years ago that would have brought out a full vote, has excited very little interest owing to the present dry status and the discouragement of the wet forces but in many communities over the state the liquor forces have carried on a quiet campaign and it would not be surprising to see a considerable vote tomorrow against constitutional prohibition.

There has been more public discussion of the woman suffrage amendment than any of the others and the interest in the suffrage amendment may draw a number of votes for the others.

Of the two other amendments, one is for the increase of the governor's salary and the other to permit the legislature to provide for the extension of the state aid to citizens in buying homes or for the improvement of homes.

In Wichita county the election will be held by the regular election officers at the regular polling places. The polls will be open from 8 a. m. until 7 p. m.

The propositions to be voted upon as they will appear in ballot form before the voters follow:

1. For prohibition.
Against prohibition.
2. For the amendment to Section 2, Article VI, of the Constitution of the State of Texas, providing qualifications for male and female voters.

T. R. BRAUGH ELECTROCUTED AT MALESTER TODAY

MALESTER, OKLA., May 23.—T. R. Braugh was executed at the state penitentiary here this morning for the murder of Otis Robbins in 1917. He maintained a steel nerve to the last, refusing to take a stimulant, professing religion but claiming that the killing of Robbins was accidental.

After kneeling before the chair in prayer, Braugh watched the adjustment of the electrodes, smiling until the mask was put on. The current was applied at 12:36 a. m.

The body was turned over to relatives for burial today at Atton, Okla.

Stockholders of Hammond Oil Company No. 2 will call at Wichita State Bank for 80 percent dividend check. All stockholders will please call promptly.

**BUILDING CLUB
TO HOLD FIRST
MEETING TONIGHT**

Monday evening the first meeting of the Wichita Building Club, recently brought into being by Clint Wood and others who have pledged themselves to build one or more houses to rent or sell, will be held at the home of Mr. Wood, Brook and Tenth. All who have joined the club, and all others who intend to do so are urged to attend the meeting.

The only requirement for membership is the pledge and performance of the pledge to build one or more houses to relieve the existing shortage of homes for newcomers already in the city, and those who are coming daily, trying to make Wichita Falls their home. In order that the club may fulfill its plan of organization it is urged that the attendance on the meeting Monday night be as large as possible.

BURKNETT VAN CLEAVE OIL Co.
IS THE BIG BUY

You know what the Burknett Field has done, and is doing? We are there, with 16½ acres. And A. J. Van Cleave is right with us.

You know the Panther Field, and the Holiday wells? We are there, too, with 483 7-10 acres owned in fee.

You have heard of Iowa Park Field. We are also there with 144 1-10 acres—surrounded by production.

Have you read the Geologists' reports on Union County, New Mexico? 20,000 acres of ours is there.

Everyone knows what Oklahoma is doing in oil. We are at Sapulpa with 117 7-10 acres of actually proven oil property.

And we are on the way for more big properties in Texas, and in Mexico, too. It is going to be the big prominent company we have told you about.

You are not going to be tied up with an unlisted stock that has no market. It will be dealt in on the New York Curb.

9 DEAD; MILLIONS LOSS IN STARCH MILL EXPLOSION

CEDAR RAPIDS, IA., May 23.—The list of dead in the Douglas Starch works explosion last night now numbers nine. Two additional bodies were recovered today and two unidentified men died during the night. The list of injured in the hospitals number fourteen and it is believed many of them will die. Scores of those who received minor injuries were removed to their homes and it will be impossible to ascertain for days the total number of injured. The loss is estimated as high as \$2,000,000.

At the plant this morning the officials would advance no theory as to the cause of the explosion, but workmen insist that it was caused by dust.

FORT WORTH BUSINESS MAN'S WIFE LIKE A DIFFERENT WOMAN
"Organtone has made me feel like I am a very different woman from what I was a few weeks ago," said Mrs. T. P. Day of 1832 Eighth Avenue, Fort Worth, a few days ago, "and all my family have remarked on the great improvement in my condition since I've been taking it." Nobody is better known in Fort Worth than Mrs. Day, who is the wife of the well known owner of the Purify Water Company in that city.

"I have been a sufferer for over twenty years with stomach and bowel and intestinal troubles," explained Mrs. Day, "my troubles kept on going from bad to worse until a few weeks ago I was forced to stay in bed my troubles had gotten so severe and the doctors advised that an immediate operation would be about the only thing that would give me any relief. I was broken down completely and for several weeks I suffered greatly from nervousness, insomnia and loss of appetite. I could hardly eat a thing, and what little I did eat gave me no nourishment and I almost hated the very sight of food, and could hardly force enough down to keep me alive and what little I did eat caused me severe pains through my stomach. My nerves were all unstrung and the least little noise or excitement would make me go all to pieces. I suffered a great deal from headaches, and it was almost impossible for me to sleep at night.

"I heard so much about Organtone that some weeks ago I got a bottle and, very much to my satisfaction and comfort, in only a few days after starting in with it my appetite returned and I am now able to eat anything set before me, my headaches have stopped and, whether I go to bed early or set up late, I sleep like a baby all night through and I get up in the morning feeling greatly refreshed. My nerves have improved wonderfully and don't bother me at all like they did. I am feeling just fine as you see and I have little or nothing to complain of. I think Organtone is the most wonderful treatment."

Organtone is sold in Wichita Falls exclusively by the T. F. Young Drug Company, successors to Shaw-Chambers, corner Ninth and Indiana Avenue, under the personal direction of a special Organtone representative. Out of town customers are being supplied all charges prepaid upon receipt of price.

LIGHT SEEN MAY HAVE BEEN ON HAWKER'S PLANE

LONDON, May 23.—The cable ship Faraday reports that it sighted the red light of an airplane during the early hours of Monday at 50 degrees, 28 minutes north latitude and 30 degrees west longitude, approximately midway between England and Newfoundland and in the course which have been followed by Harry G. Hawker in his attempted flight between the American continent and Ireland.

10,000 POUNDS FOR FAMILIES HAWKER AND GRIEVE
By Associated Press.
LONDON, Thursday, May 22.—It is announced by the Daily Mail that it intends in the unfortunate event that Harry G. Hawker and Lieut. Commander Mackenzie Grieve have lost their lives in attempting to fly across the Atlantic to devote 10,000 pounds to their next of kin in the proportions that Hawker and Grieve had already agreed to divide the prize. This disposition will not interfere with the contest which is still open.

2500 AIRPLANES DELIVERED SINCE ARMISTICE SIGNED
WASHINGTON, May 23.—Since the armistice was signed 2500 airplanes and more than ten thousand airplane engines have been delivered by American manufacturers, according to a report made public today. Of the engines, 1,695 were Liberty twelves, navy type, and 5,029 Liberty twelves, army type.

MEETING OIL MEN AT FORT WORTH SATURDAY NIGHT

Fort Worth, Texas, May 19, 1919.
To the Oil Men of Texas:
That an industry of such magnitude as the oil industry should have its organization or association is self-evident.

Such an industry should have its organization for action in all matters of common concern.

Aside from matters of national and state legislation and other highly important matters of general interest there are innumerable instances of smaller individual interests demanding the attention of an association.

What sort of an organization or association shall we oil men of Texas form or affiliate ourselves with?

Shall we organize a local association of our own or shall we unite our efforts with one of the associations already formed, i. e. The Mid-Continent Oil and Gas Association or the Texas and Louisiana Oil and Gas Association.

That these questions may be thoroughly discussed in their relation to the best interests of the oil industry of Texas we the undersigned hereby request all oil men of the various Texas fields to attend a meeting to be held in Fort Worth at the chamber of commerce auditorium Saturday night, May 24, 8:15 o'clock.

Prominent oil men from all over the territory will be in attendance at this meeting. Speakers who are familiar with the problems with which the oil industry has to contend will be present.

Judge John J. Shea, W. S. Farish and J. F. Darby have promised to address the meeting. The presence of these gentlemen makes the attendance of every oil man worth while.

The auditorium seats 1,000. It should be filled.

The following are a few of the men who are issuing this call for a meeting and promising to attend it themselves:

Underwood Natto, W. S. Farish, Judge R. E. Brooks, Houston; J. Edgar Pew, E. R. Brown, W. P. Gage, Geo. C. Greer, Dallas; T. B. Hoffer, W. B. Byron, J. V. McMillon, Fort Worth; G. C. Wood, J. A. Kemp, Roy Jones, R. O. Harvey, Walter Cline, Wichita Falls; H. P. Brelford, Eastland; B. S. Walker, Breckenridge, Texas.

UNDER NOW AN ACTRESS

Nothing less than the footlights and the stage will satisfy Miss May Reebing now. No longer for her will the electric flashlight and the darkened aisles of the theatre suffice. She has abandoned the latter for the former.

For a year Miss Reebing was a member in the Astor Theatre, in New York, but always her ambition reached toward the other side of the orchestra pit. Finally it guided her thither. Now she is in the chorus of the "Ziegfeld Follies" and has been rehearsing a week. So what the Astor and "Miss in Weeds" have lost the New Amsterdam Roof and the "Follies" have gained.

ORDINANCE FOR TRACTION COMPANY RELIEF IS PASSED

It was a long, long session, and midnight had rolled by before City Clerk Walkup entered the portals of his rose-bowered home—but the City Council transacted little business last night. Only a few decisions were necessary, and the "city dads," being in a ruminative mood, spent the best part of the night in quiet discussion of everything municipal from suburban sanitation to poll taxes.

The Wichita Traction company received a lift over the weary road of finance through the passage on its third reading of the ordinance amending the company's franchise. The amendment exempts the company from standing the expense of paying between tracks, and also does away with the 2 per cent gross tax originally

provided as a levy against the company when Wichita Falls should become a city of 25,000 population. The company, however, must lower and ballast its tracks, and keep roadbeds in repair wherever streets are graded and paved, and will be responsible for any injury to city streets caused through poor track construction.

The council authorized the sanitary officer and the street superintendent to increase the wages of their men 50 cents a day—a kindly act that will provide a few more pork chops in some homes. Authorization also was given for the employment of an assistant acting city engineer.

The telephone company received permission to construct a temporary structure in the rear of the telephone building to be used in storing materials for extensions of the service.

An ordinance permitting the Wichita Valley Railway company to build a switch track and siding in the south part of the city was passed on its second reading. A general discussion of the ordinance relating to the operations of taxicabs followed, but no action was taken. It is probable that the old ordinance will be repealed later, and a new ordinance drafted in order to give fairer treatment to men who may wish to engage in that business and make their permanent homes here.

FIVE FINED \$25 EACH FOR INTOXICATION

A case that had been continued for several days that of four men and one woman charged with drunk and disturbing the peace, was decided by Judge Ogle this morning in police court and the defendants fined \$25 each. They immediately gave notice of appeal. Somewhat of an argument was brought up between two automobile owners one of which was charged with reckless driving, in which the chief judicial problem involved was deciding whose car hit the

other. The only witness in his testimony seemed to favor the complaining party and the defendant was fined \$5. He also appealed the case. The only other case on the books was a boy who had neglected to observe the parking rules. He was assessed a \$5 fine.

ALLIED COVENANT IS MORE PRACTICAL

By Associated Press
PARIS, May 22.—The Allied reply to the German note regarding the League of Nations which was delivered today says in general that the council considers that "the proposals for the covenant are much more practical than those of the German government and better calculated to secure the objects of the league."

Regarding the suggestion of a separate mediation office, this is not considered feasible, since such a body would not have the requisite authority to maintain the peace of the world.

MORE MONEY MAY BE AVAILABLE FOR GOOD ROADS HERE

STATE HIGHWAY COMMISSIONER BELIEVES \$200,000 CAN BE SECURED.

THE COUNTY DID GOOD THING

Commissioner Fowler Commends Cancellation of Contract and Call For Election.

Wichita county did the proper thing in cancelling the contracts for the road construction work planned under the original bond issue of \$750,000, and in planning to raise a million and a half additional for road construction, when the enormous oil field developments made the roads by the specifications adopted impractical as the roads as originally planned, would not have lasted a year under the heavy oil field traffic of the present," said C. B. Fowler, of the State Highway Department, in Wichita Falls for a short time today for a conference with the Good Roads workers, and to go over the local situation.

Mr. Fowler has some new information regarding outside assistance that Wichita county could secure, when the new million and a half bond issue is passed. The federal government has given Texas four and a half million dollars worth of road building material, trucks, rollers and similar equipment, the use of which will be free to counties planning permanent road improvement, he stated. This will be available to Wichita county and will be the means of effecting an enormous saving for equipment.

At least \$500,000 additional money should be available for Wichita county from state and federal funds, Mr. Fowler added, when the bond issue is passed and the money secured for road building. This extra money can not of course be secured from the state and federal sources, unless the issue is passed.

Roads Will Last 50 Years. "With the money that will be available when the bond issue is passed and the additional aid secured, Wichita county will be able to build roads that with proper upkeep will take care of the traffic for the next fifty years. The freight rate to the oil fields per ton-mile is now from 40 to 50 cents. With good roads all over the county, to the fields, this rate can be decreased to 12 or 15 cents. This saving in freight rates alone in six months time would be almost enough to take care of the bond issue, principal and interest.

Another phase of the argument for good roads, is the more attractive living conditions for the rural families. Good roads will solve better and quicker than anything else, the problem of boys and girls leaving the farm. It will keep them on the farm, for it will make it possible for them to live in the country and yet go to the city or town in a very short time, whenever they desire to go. Good

roads will make it possible for the rural schools quite as good as the city schools, and will eliminate the one-room country school, that unfortunately has prevailed in some districts for too long already. There are arguments, world without end, for good roads, and none against them, and I am sure that Wichita county will roll up a big majority for the bond issue, both for the county, and for the state as I believe that the majority of the people are awake to the great need this county has for good roads."

Leaves This Afternoon. Owing to the short length of time Mr. Fowler had in Wichita Falls, engagements making it necessary for him to leave at 1 o'clock this afternoon, members of the Good Roads committee found it impossible to arrange a meeting for him, but instead he made a general canvass of conditions, meeting with the committee members in the morning, and making an automobile trip on various roads leading out of Wichita Falls, time and the condition of the roads preventing an extended trip through the county.

BILL FOR REFORM OF GOVERNMENT OF INDIA

By Associated Press. LONDON, Thursday, May 23.—Edwin Samuel Montagu, secretary for India, announced in the house of commons today that he hoped to introduce early in June a government bill for the reform of the government of India.

He said that "the keystone of this reform would be the transference of power from the bureaucracy to the people, which he added, may perhaps be gradual but real at every stage."

WICHITA FALLS MEN TO DRILL SOUTH OF HOLLISTER

FREDERICK, OKLA., May 23.—Work of drilling an oil well on the Mill farm seven miles south of Hollister at the anti-climax will begin within twenty days, it was formally announced here Wednesday. A company, composed of Alex Henderson, of Frederick, his brother, N. Henderson of Wichita Falls; C. P. Rogers, T. B. Greenwood and J. M. Island, also of Wichita Falls, Texas, has been formed and it will be known as the Anticline Oil Company, although this name has not been definitely determined upon, it was said by Mr. Henderson and Mr. Rogers Tuesday afternoon.

The company contracted with the firm of Shepard & Bachelor, oil well drillers of Denver, Colorado, Tuesday to drill the well at least 2,500 feet. However, Mr. Rogers declared he expected to strike oil within 2,000 feet, at least.

The company has leases on 2,800 acres in the immediate neighborhood of the Mill farm and should its first well prove satisfactory, or show that oil is in that vicinity, other wells will be drilled.

CAPE-TO-CAIRO FLIGHT NOW BEING PLANNED

LONDON, May 15.—Preparations are being made in South Africa by officers of the Royal air force for a Cape-to-Cairo airplane flight, according to advices received here. The Cape Times states that it is probable that within the next two or three months the first machine to make a direct flight from Cairo will arrive at Cape Town where a landing ground has already been selected. The machine used will be a Handley-Page. Wireless installations will be erected along the route to assist the airplane in finding its course.

BLK ET AL TEST NOW DRILLING AT 1750 FEET

Information from the Scott ranch in Archer county, where the Blk-Bulington and Langford deep test is being drilled, this morning denied the report that the test was in a rich pay sand below 1700 feet. The setting of the eight-inch casing at a depth of 1750 feet has been completed and drilling is in progress at 1,000 feet today, it is reported.

New Suits Filed. Only three new suits were filed for trial in the 20th district court today, as follows: W. M. Lange against J. W. Atkins, specific performance of contract; J. C. Copeland against the Hughes-Croskin Oil & Gas Company et al, suit on contract and debt; Andrew G. Jackson against Delphie W. Jackson, divorce.
