

GOVERNOR HAS NOT REACHED A CONCLUSION

Not Ready to Grant Request of State Department as to Mexican Troops

CONSULTATION IS HELD

Declares That Safety and Interests of Americans Will be Guarded

By Associated Press. AUSTIN, Tex., May 29.—No decision concerning the allowing of Mexican troops to pass through Texas from Sonora to Juarez, as requested by the State Department, has been reached, said Governor Hobby at noon today.

The Governor is in consultation with the adjutant general and says that he expects to arrive at a conclusion before night, but that the safety and interests of Americans in Mexico will be guarded.

By Associated Press. WASHINGTON, May 29.—President Carranza has been notified by the American government that permission for transportation of Mexican troops through American territory will be withheld for the present, Mexico had asked to be permitted to move 2,000 men from Agua Prieta to Juarez for operation against Francisco Villa's forces.

It was said today officially that the decision of the government was based on the belief that the force which it was proposed to move through Arizona, New Mexico and Texas would not be able to furnish protection to American citizens in northern Mexico because the revolutionists had cut the road between Juarez and Chihuahua. It was made clear at the state department, however, that in the event President Carranza could show that there was greater necessity for the presence of the force of 2,000 men immediately south of the border at Juarez than at Agua Prieta in the territory where the Yaqui Indians are becoming troublesome, the position of the United States government might be altered.

Insists on Guarantees. Governor Hobby of Texas has notified the State Department that he will offer no objection to the passage of the troops through Texas provided guarantees for protection of Americans in Northern Mexico can be obtained. Protests, however, are understood to have reached the State Department from a number of sources, including senators from the border states, the basis being that the passage of the Mexican troops might result in another raid similar to that on Columbus, N. M., after Mexican troops had passed through the United States several times.

The situation in Northern Mexico was described as somewhat delicate. Villa has become advised of Carranza's request and it is believed he is waiting with sufficient forces to make negligible any effort on the part of the federal troops to go to the relief of Chihuahua City.

NEW MEXICO PERMITS PASSAGE OF TROOPS

By Associated Press. SANTA FE, N. M., May 29.—Governor Larrasola of New Mexico has ordered that the armed Mexican soldiers en route from Sonora to Chihuahua be permitted to pass through New Mexico territory according to a statement given out at the executive office here today. The permit is now en route from Roswell to Las Vegas, N. M., where he will arrive tonight.

PERMISSION NOT GIVEN SAYS GOVERNOR HOBBY

By Associated Press. AUSTIN, May 29.—"Permission for Mexican troops to pass through Texas en route from Sonora to Juarez has not been given," said Governor W. P. Hobby today. He informed the State department last night that he would grant the request for passage if assurance was

DEMOCRATS ARE MAKING PLANS FOR CAMPAIGN

Matter of Financing Organization Considered at Meeting Today

WOMEN ARE PRESENT

Mrs. Pennybacker of Texas Says Moral Issue Involved in League Plans

By Associated Press. CHICAGO, May 29.—Funds for conducting the democratic national campaign of 1920 will be raised by popular subscription and it is expected that contributions will be received from 1,500,000 persons. Wilbur W. Marsh of Iowa, treasurer of the democratic national committee, made this statement in addressing the body on the subject of party finances.

Mr. Marsh reviewed the financial features of democratic presidential campaigns from Samuel J. Tilden to Woodrow Wilson and contrasted the methods used in raising money for political purposes in the old days and the present time.

"In the old days the junior member of a business concern would give a little to the democrats and the senior member would give the big money to the republicans," said Mr. Marsh. "The object was to open up a channel to the seat of government."

Several subjects considered. Methods of the organization with closer co-operation between the various departments of the party organization, financing of campaigns and woman's work in politics were subjects considered at today's sessions of the committee.

In the morning the committee held a conference with woman associate members of the organization with Mrs. George Bass of Chicago presiding. Mrs. Bass said that a majority of women voters had not yet formed party ties and they offered an interesting field for work by the democratic organization.

Mrs. Percy V. Pennybacker of Texas said that a human moral issue was necessary to interest women and democratic party had such an issue in the treaty of peace and the League of Nations covenant. Joseph P. Tumulty, secretary to President Wilson, A. Mitchell Palmer, secretary of the United States Navy, and Franklin D. Roosevelt, assistant secretary of the navy, arrived at noon.

By Associated Press. CHICAGO, May 29.—Members of the Democratic National Committee began their sessions today at the second of their Chicago meetings—a conference with woman associate members. At a later meeting campaign plans were discussed with state chairman and at this meeting it was expected A. Mitchell Palmer, United States Attorney General, Franklin D. Roosevelt, Assistant Secretary of the Navy, and Joseph P. Tumulty, secretary to President Wilson, would be present. They left Washington for Chicago yesterday to attend the closing sessions of the committee and also the banquet to be given this evening at which Mr. Palmer and Mr. Roosevelt are to be the principal speakers.

BOLL WEEVIL LOSES GROUND IN CONQUEST OF THE COTTON BELT

By Associated Press. WASHINGTON, May 29.—The boll weevil lost ground in his conquest of the cotton belt last year because of the hard winter of 1917-18, according to the department of agriculture. Altogether the weevil invaded only 16,000 square of new territory during 1918. It lost 46,000 square miles of the cotton belt territory, making a net loss of 30,000 square miles.

The losses in territory occurred in Texas, Oklahoma, Tennessee and Alabama, and gains occurred in Florida, South Carolina, Georgia and New Mexico. This was the first report of the weevil in New Mexico where it was found in the Pecos Valley.

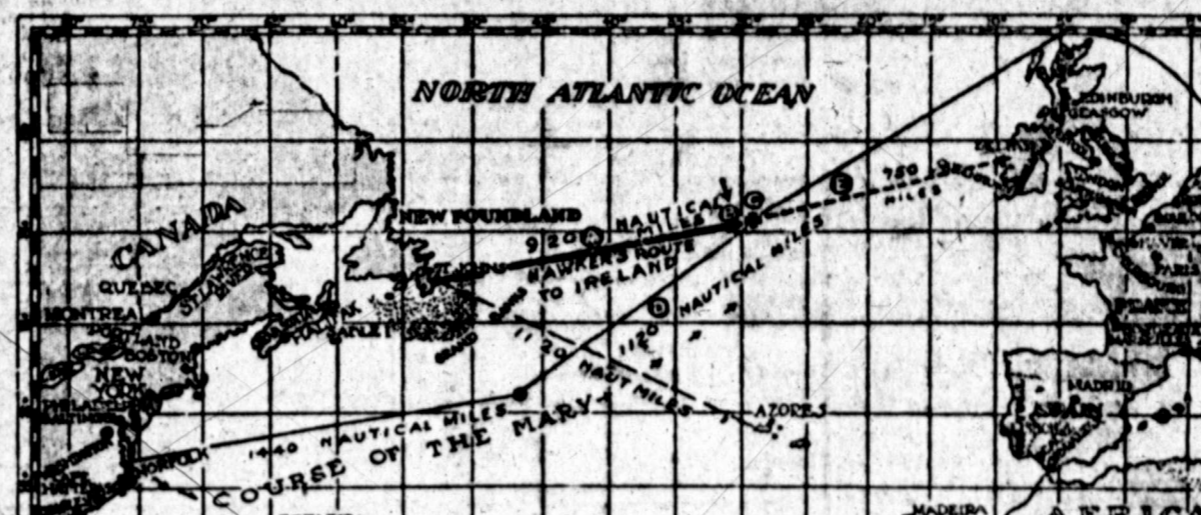

The weevil now has reached the southernmost limits of cotton production in Florida and is steadily gaining new territory in South Carolina. Almost the entire sea island belt now is infested.

AVIATORS RECEIVED BY PRESIDENT OF PORTUGAL

By Associated Press. LISBON, Wednesday, May 28.—Commander John H. Towers, Lieutenant Commander A. C. Read, and Lieutenant Commander P. N. L. Bellinger, the commander of the American trans-Atlantic seaplanes, were received today by President Castor Castro, who was formerly an admiral in the Portuguese navy. The American officers thanked the President for the act of the Portuguese government in bestowing upon all three of them the grand cross of the Order of the Tower and Sword. The municipal council of Lisbon today decided to award a gold medal to the aviators.

By Associated Press. ARCHANGEL, Tuesday, May 27.—The first American unit to sail for home will be a battalion which has been ordered to Archangel. Large crowds, including many American and Russian soldiers, witnessed a parade today of the British relief force which arrived yesterday. All the British soldiers are pleased and created a fine impression. They were agreeably surprised to find, instead of the expected Arctic conditions, warm bright sunshine and green grass.

INDICATIONS ARE WINNIPEG STRIKE IS LOSING FORCE

By Associated Press. WINNIPEG, May 29.—When the sympathetic strike of Winnipeg union workers went into its third week at noon today there were several indications in progress which indicated that the control of a few leaders was being slowly but steadily crushed. City employees who were involved in the sympathetic walkout were included in the ranks of applicants and today sought positions in municipal departments.

POLICEMEN WILL NOT BE PERMITTED TO STRIKE

By Associated Press. WINNIPEG, May 29.—An official announcement issued at the city hall this forenoon notified members of the Winnipeg police department that policemen will not be permitted to join in any sympathetic strike and that such action by any member of the force will result in his dismissal. The police department has announced that citizens today will take the first cars from the barns.

BAKER RENEWS REQUEST FOR 509,000 MEN

Appears Before House Military Committee in Support of Plan

MILITARY EDUCATION IS FAVORED IN ALL SCHOOLS OF COUNTRY ABOVE PRIMARY GRADES

By Associated Press. WASHINGTON, May 29.—Secretary Baker today renewed before the House military committee his recommendation that congress provide a temporary army of 509,000 men, to provide for an army of 509,000 men.

"I am not asking for any increase in the permanent military establishment," the secretary said. "All I am asking for is sufficient money to provide for an army of 509,000 men. The question of adopting legislation providing for an increase in the permanent army is a question which congress must take up. The great need now is quick action."

Military education in all schools above the primary grades was thought advisable by Secretary Baker.

"The experience of the army in France showed that military instruction was advisable," said the secretary.

Committees questioned the secretary closely on the war department's policy in the size of the army, in case allowance was made for the maintenance of 509,000 men, and was pointed out that the standing law provided for an army of only 175,000 men and that all others must be discharged within four months after the completion of demobilization.

CONVICTION SECURED NOTWITHSTANDING THE ANTICS OF DEFENDANT

By Associated Press. LUFKIN, TEX., May 29.—Claude Clark was convicted today of the murder last March of John McCann, a well-known local physician, and sentenced to the penitentiary for five years, despite the claim of Clark's counsel and several local physicians that he was insane. Clark attracted attention during his trial by refusing to have anything to do with his attorney, but advising constantly with the district attorney.

GERMAN REPLY DELIVERED TO ALLIES TODAY

Counter Proposals Contains One Hundred and Forty Pages Manuscript

COUNCIL EXPECTED TO BEGIN CONSIDERATION OF MATTER THIS AFTERNOON

By Associated Press. VERSAILLES, May 29.—Baron Von Lersner of the German delegation, informally delivered the completed counter proposals to Colonel Henry, the French liaison officer, at 12:30 o'clock today. The Germans explained that there had been no time for translations which would be sent later.

The volume containing the counter proposals is not bound, corner fasteners holding together the 146 pages.

CHARGE SAAR IS DETACHED BECAUSE OF ITS COAL

By Associated Press. PARIS, May 29.—In the section treating on territorial questions the German counter-proposals to the terms presented by the Allies say, according to a synopsis reaching Paris by the way of Basle, that "the territory of the Saar, inhabited by six hundred thousand persons is to be detached from the German empire solely because of claims upon its coal."

MATTER OF INDEMNITY IN COUNTER PROPOSAL

By Associated Press. BERLIN, Wednesday, May 28.—According to a semi-official statement the full indemnity which Germany offers to pay in her counter-proposals to be peace terms will include sums going to Belgium as advances to the Allies and value of military and civil property surrendered by Germany since the armistice.

COUNTER PROPOSALS ARE CONDEMNED BY PRESS

By Associated Press. BERLIN, Wednesday, May 28.—The conservative press of Berlin condemns the counter-proposals to the peace terms submitted by Germany, especially to the financial and military concessions which are granted. The Pan-German Gazette brands the reply as "a piece of trash" and says "The German people are doomed to slavery between the masters until a new Germany arrives to break the chains. The Kreuz Zeitung is skeptical of the success of the peace proposals, despite what it calls "Count Von Brockdorff-Rantzau's subsmissiveness," and the Tagliche Rundschau says: "The German reply is fully as depressing as the Entente terms."

President Sends Memorial Day Message.

By Associated Press. WASHINGTON, May 29.—President Wilson has called the following Memorial Day message to the American people: "My Fellow Countrymen: Memorial Day wears this year an added significance and I wish if only by a message, to take part with you in its observance and in expressing the sentiments which it inevitably suggests. In observing the day we commemorate not only the reunion of our country, but also now the liberation of the world from one of the most serious dangers to which free government and the free life of men were ever exposed. We have buried the gallant and now immortal men who died in this great war of liberation with a new sense of consecration. Our thoughts and purposes now are consecrated to the maintenance of the liberty of the world and the union of its people in a single comradeship of liberty and of right. It was for this that our men conscientiously offered their lives. They came to the field of battle with the high spirit and pure hearts of crusaders. We must never forget the duty that their sacrifice has laid upon us of fulfilling their hopes and their purposes to the utmost. That it seems to me, in the impressive lesson and the inspiring mandate of the day. (Signed) "WOODROW WILSON."

HERR OF GUTHRIE SCORED HIGH GUN IN ANNUAL SHOOT

CHEW OF LOCKHART CAPTURED SECOND HONOR WITH ATOKA MAN THIRD.

TOURNAMENT A BIG SUCCESS

Weather Was Unfavorable And Scores Are Remarkable Considering Conditions.

Under the worst possible shooting conditions, facing a stiff north wind and closing the final rounds in a driving downpour of rain, more than fifty of the finest trapshooters in the West battled for honors yesterday at the annual registered tournament of the Wichita Falls Gun Club.

W. H. Herr of Guthrie, Okla., "cleaned up" as high gun of the tournament. His score of 196 out of a possible 200 was really remarkable considering the conditions under which he shot.

"Bill" Herr, F. A. Troeh and R. A. King were listed last year as the greatest amateurs in the country; so great, in fact, that a purse of \$10,000 was made up to bring Troeh and Herr together at Seattle, Wash., and Herr went away with the money.

R. C. Chew, of Lockhart, Tex., shooter, blazed his way into second money with 194, losing four birds on his second trip to the traps but shooting almost perfectly from then on.

Third money went to Grover Spencer, of Atoka, Okla., who "busted" 191 clay pigeons, shooting a good, consistent gun all through the day and finishing his final round with 25 straight.

Joe Pate, one of the "cracks" of the local gun club, delighted his friends by staying with the big shooters all the way, and turning in a score of 189 for three-cornered tie with B. J. Holland, of St. Louis, and J. B. Allen, of Dallas, for fourth place.

In the preliminaries, 100 birds, shot Tuesday, Wichita Falls' shooters also made a beautiful showing, Pate being

BUILDING TRADES THREATEN STRIKE FRIDAY MORNING

A strike of all the building trades unions in Wichita Falls is threatened to take place tomorrow morning, according to reports that were current this afternoon.

The strike will be in sympathy with the striking linemen of the Texas Power and Light Co. It will affect carpenters, electricians, already out, building laborers, sheet metal workers, plasterers, plumbers, painters and others.

Members of the building trades union were in conference this afternoon and it was reported that an announcement might be made at 5 o'clock this afternoon.

The threat of a strike of the building trades unions was announced at Dallas yesterday after a conference in Dallas of representatives of building trades unions from a number of North Texas cities. It was announced that the strike would be called if the Texas Power and Light Co. failed to submit to arbitration in the dispute with the electrical linemen.

The strike is scheduled to start at 11 o'clock tomorrow morning, if it is called.

RATIFICATION OF PLAN TO ORGANIZE COTTON INTERESTS

Ratification of the plan for organization of the south into a big cotton corporation, was effected by the meeting of the Texas cotton interests, held in Dallas Wednesday, over which J. A. Kemp of this city presided. Mr. Kemp returned this morning, and reports an enthusiastic meeting. J. P. G. Harding, governor of the federal reserve system made the address of the meeting, explaining the plan, which was endorsed by the Texans.

As soon as the committee on organization, appointed at the New Orleans meeting a week or so ago, and of which Mr. Kemp was made a member, makes its report of the form of organization decided upon, Texas will organize, Mr. Kemp states.

GROWING DEMAND FOR REDISTRICTING WEST.

The demand from West Texas for senatorial redistricting of the state to give the West more adequate representation in the state senate is growing more insistent.

The Southwest Texas Plainman, published at Amarillo, voices the attitude of the people when it asks, "Isn't it time for us to do something about it?"

"It took years and years for the people of West Texas to secure a reapportionment of this section of the state so as to allow them their share of representatives in the state legislature. Even then, the change was made only in the representative districts and the senatorial districts remain very nearly the same today that they were in the beginning."

"That this is manifestly unfair to the people of West Texas and the Panhandle goes without saying, but if it takes as long to get this matter remedied as it did the other, we shall wait some years for it."

"It has been pointed out that the population of the Panhandle increased 144 per cent in the ten-year period 1900-1910, against an increase in the one block of forty-seven counties in East Texas of 144 and another block of thirty-one counties of but 6.5 per cent, and yet there was no change made in the senatorial districts out here."

"If the people of East Texas are really desirous of doing the right thing by West Texas and the Panhandle as they have recently been strenuously trying to make us believe, they will see to it that we are given senatorial representation at least in accordance with the figures of the census of 1910. That will be considerably less than we should have at this time, since this portion of the state has greatly exceeded every other in increase in population during the period from 1910 to the present time."

"After the figures for the 1920 census have been compiled, both the representative and the senatorial districts will need to be changed and we should begin campaigning to that end right now. West Texas and the Panhandle should refuse to be longer treated as a 'stepchild' of the state and we should start in by requiring our members of the legislature to pledge themselves to this measure before we send them to Austin."

"This senatorial district extends from Wichita Falls to the New Mexico line and from east north of the Texas & Pacific railroad to the Oklahoma state line and contains more than three times as many people as some of the East and South Texas districts. It is this discrimination which enables the rest of the state to block or 'put over' any old kind of legislation they desire relative to West Texas, and West Texas has stood for it for nearly thirty years."

PRESIDENT WILSON AND A THIRD TERM.

Homer S. Cummins, chairman of the national democratic committee, told members of the committee in Chicago yesterday that it largely depended upon the adoption of the League of Nations by congress whether President Wilson would become a candidate for a third term.

HAMBONE'S MEDITATIONS

AM TOL' BOSS AH WUSH DEY SOME WAY T' DRIVE DESE NEAR POST-ES DOWN, 'STID O' DIGGIN' HOLES FUH 'EM. EN HE 'LOW AH 'OUGHTER TURN DE OLE 'OMAN LOOSE ON 'EM WID DAT AR ROLLIN'-PIN!

dent Wilson would become a candidate for a third term. In a speech of congratulation addressed to the new president of Brazil in Paris, the president had just expressed his gratification that he was soon to retire to private life.

But the failure of congress to adopt the League of Nations would force the president back into the contest. If the republicans want President Wilson as the leader of their opponents in 1920, the surest way to get him into the race is to refuse to accept the League of Nations.

President Wilson is the strongest champion of the League of Nations idea in the world today. There is no doubt but that the American people favor a League of Nations. If congress fails to adopt it, there will be an insistent demand upon the president to become a candidate upon this issue.

If President Wilson followed his own inclinations, he would retire to private life after trials and greater work than has ever been the lot of any American executive, but President Wilson has never shirked a duty. He will not in this instance.

PAROLE RULES NEED REVISION.

Convicts were paroled to individuals twenty-five years ago and Governor Hobby does not know what has become of them, he told a legislative committee which is investigating the Texas prison system.

"Then they may be dead or still working as slaves?" asked one of the investigators.

"Yes," answered the governor. "It appears that a convict with a good prison record may be paroled to an individual who agrees to pay the convict a salary, with the idea that the convict will receive a pardon if he deserves it. Governor Hobby's answer to the question of the investigator indicates that no very close track is kept of these paroled convicts. Opportunity is given the convict to slip into criminality and opportunity is also given the man to whom he is paroled to hold him in a position of virtual slavery. Most of the convicts are ignorant men. They are glad to get out of prison at any cost and will, perhaps, accept virtual slavery to do so."

The legislature will do well to look into the parole rules of the Texas prison system with a view to legislation to prevent oppressions that may exist.

PROPAGANDA AGAINST AMERICANS IN BRAZIL.

WASHINGTON, May 28.—Elaborate anti-American propaganda being conducted in Brazil is believed by state department officials to be the work of European business men who hope to alienate Brazilian business from the United States.

"Certain Latin American influences," it was said at the state department today, are also believed to be interested.

The propaganda appears in paid notices in newspapers reflecting upon the part American soldiers took in the European war and upon the motives of the United States in the war.

Why I Favor Good Roads—

Wichita County Good Roads Association, Wichita Falls, Texas. Gentlemen:—Your favor of the 22nd just received. Will say in reply that I have never missed an opportunity to vote bonds for any public improvement.

I favored and voted for the court house bond issue, and it is a monument that every citizen of Wichita county should be proud of. I have heard a number of people, who were opposed to building the court house, who are now most enthusiastic as to the benefits and comforts of our new court house.

The bond election for \$1,500,000 to build durable hard surface roads in Wichita county is one of the most important issues that has been before the people. We have had an object lesson last winter and spring of the value of hard surface roads. The traffic has been so heavy from Wichita Falls to Burkburnett and will continue to be greater, that it will be perfectly impossible to keep up an ordinary road. There are now ten (10) county teams on the intended highway on the Burkburnett end of the road. I firmly believe that it will keep the ten teams busy to keep the road so people can get over it. The heavy traffic keeps the roads torn up as fast as you can build them.

As to the sentiment of the people of my section, I am not in a position to say, but it seems to me with the conditions before their eyes, there should not be any opposition to the bond issue.

With the hard-surfaced roads to take care of the heavy traffic, you would eliminate the present animosity between the farmers along the by-roads and the public travel. I feel pretty sure that the farmers of this section will give the bond issue a hearty support. Many of the farmers have lost more by their fences being torn down and their wheat run over than their taxes will amount to for several years.

I am at your service, command me. Yours truly, LEE PRESCOTT.

REPUBLICAN CHAIRMAN SPEAKING IN OKLAHOMA

By Associated Press. MUSKOGEE, OKLA., May 29.—Will Hays, republican national chairman, spoke here today on national political issues after receiving a telegram from Sullivan, Ind., announcing the death there last night of his mother, Mrs. Mary Hays.

Before Mr. Hays left Indiana last Saturday on his trip to the Southwest, his mother, who had been in failing health for many years, and knew the end was near, called her son to her bedside and exacted a promise from him that he would carry out his speaking engagements regardless of her condition.

Mr. Hays left here at noon for Tulsa where he will speak tonight. He will go to Oklahoma City at midnight and tomorrow morning will meet with the Oklahoma republican committee there. He is being accompanied through Oklahoma by James J. McGraw of Ponca City, Okla., republican national committeeman for Oklahoma, and Jake Hanson and "Big Jim" Harris, prominent republican leaders. After the Oklahoma City meeting Mr. Hays will return to Indiana to attend the funeral of his mother.

INCREASED INTEREST IN POULTRY RAISING IN SOUTH

By Associated Press. WASHINGTON, May 29.—Increased interest in poultry raising in the general farm sections of the South, with purchase of much better stock, is reported by a specialist of the department of agriculture who recently investigating the industry in Alabama, Louisiana, Mississippi and Texas.

Producers not only are working to supply the better markets but eggs are also being shipped from Mississippi, Alabama and Texas to Memphis, St. Louis, New York and other marketing centers.

The report states that one of the disadvantages the poultry raisers have to overcome is the failure of Southern markets to pay sufficiently for locally produced eggs.

Market Report

COTTON MARKET

Special to The Times.

NEW YORK, May 29.—The cotton market was nervous and irregular early today with traders inclined to open up commitments in advance of the holidays and the government's report scheduled for Monday. Liverpool was relatively steady and the weather may make an unfavorable showing but after opening easy at a decline of five to 14 points, active months soon sold some 25 to 36 points net lower with October touching 30.40 and December 30.01. There was scattered Southern selling, but most of the pressure was attributed to realizing.

Stop orders were uncovered on the decline which extended to 31.18 for July and 30.19 for October, or about 47 to 57 points net lower on the active months. After the first rush, pressure subsided and the market turned firmer during the late forenoon on covering of live buying accompanied by reports of a continued good spot demand in the South. Prices around mid-day were about 12 to 20 points net lower.

The market was firmer during the early afternoon on continued trade buying and covering with July selling up to 31.75 and October to 30.87 or net unchanged to 12 points higher. Cotton closed steady.

New Orleans Cotton.

NEW ORLEANS, May 29.—Good cables and wet weather of the belt caused a rise of five to 23 points in the price of cotton around the opening today on the more active months, but liquidation set in and a reaction ensued. At the end of the first half hour of business the rise was replaced by a decline of seven to 26 points under the close of yesterday.

The evening up operations on the long side gradually became the dominating factor in the day's trading. Toward noon prices were 60 to 63 points under the close of yesterday.

Reports of much rain falling in the belt gave the market a better tone and caused almost a full recovery. At 1 o'clock prices were two to 12 points under the final quotations of yesterday.

Cotton closed steady.

Liverpool Cotton.

LIVERPOOL, May 29.—Cotton spot in fair demand; prices higher. Good middling 21.54; fully middling 21.04; middling 20.44; low middling 18.89; good ordinary 17.24; ordinary 16.71.

Sales 10,000 bales, including 6,000 American.

GRAIN AND PRODUCE

No receipts.

Futures closed irregular: May 20.53; July 19.40; October 18.01; January 17.40; March 17.14.

CHICAGO, May 29.—Sharp declines in the corn market today resulted from excellent weather conditions and from prospects for large receipts during the remainder of this week. Opening prices which ranged from 1/2 to 3/4 cent lower, with July \$1.64 to \$1.64 1/2 and September \$1.54 to \$1.56, were followed by material further setbacks.

Oats worked downward with corn. After opening 1/2 cent off, including July at 67 1/2 to 67 3/4, the market continued to sag.

Provisions averaged higher. An advance in the hog market was largely responsible, and so too was completion of re-sales of governmental lard and meats.

Subsequently, evening up for the holiday tomorrow led to rallies. The market closed nervous at the same as yesterday's finish to 6 1/2 cent down, with July \$1.64 to \$1.65 and September \$1.55 to \$1.56.

Pork rose to \$6.00 per barrel, a cost well above the Civil War record.

NEW YORK STOCKS

By Associated Press.

NEW YORK, May 29.—Opening with a steady tone, today's stock market soon developed greater firmness under lead of shippings, equipments, oils and metals. Outstanding features were Marine preferred, Baldwin locomotive, Mexican petroleum and American smelting. U. S. steel, selling at dividend of 1 1/2 per cent, made a fractional advance approximating the year's highest quotation but all other industrials showed little change. Food shares, leathers, tobaccos and textiles recorded moderate gains. Investment rails were dull but slightly higher for the most part.

Trading dwindled at mid-day, leaders showing few changes of note aside from the strength of standard rails notably Atchafalaya Northwestern and Reading. Crucible steel, Baldwin locomotive and industrial alcohol recorded extreme advances of 1 1/2 to 3 1/2 points and local utilities were in further demand.

Shippings, especially Marine preferred, weakened in the last hour, but the general list moved to higher levels on renewed buying of oils, metals, tobaccos and specialties. The closing was strong.

Liberty bonds final prices today: 3 1/2's 95.50; first 4's 95.75; second 4's 94.85; first 4 1/2's 95.70; second 4 1/2's 95.16; third 4 1/2's 95.90; fourth 4 1/2's 95.40; Victory 4 1/2's 99.92; Victory 3 1/2's 100.

ANNOUNCEMENT

THE NEW POOL OIL COMPANY WHICH WAS SOLD OUT IN TWO HOURS WEDNESDAY, AND WHICH WAS HEAVILY OVERSUBSCRIBED BEFORE THE BROKERS COULD STOP THE FLOOD OF ORDERS, WISHES TO THANK THE NEW STOCKHOLDERS FOR THEIR CONFIDENCE AND TO AGAIN ASSURE THEM OF EFFICIENT MANAGEMENT, FRANK AND OPEN OPERATIONS AND SQUARE DEALINGS.

Contract has been let for the first well to be drilled on our five acres between the Texas Chief, M. & P. Burk and the Parker wells. We expect to start drilling the first of next week—earlier if the rig can be moved on sooner.

New Pool stockholders are urged to hold their stock for its full value. You have bought into one of the best propositions in the field. The holdings of the company are worth far more than the entire capitalization of the company, and could have been sold for a huge sum, had the management chosen to take the stock off the market.

We expect to make these holdings yield the maximum in returns to the stockholders in production. A drilling campaign is planned that should make New Pool equal anything in the northwest field. Our acreage is so situated that our lines will not be crowded and our wells can be located to get unusual advantage of the rich pool below.

TO THOSE WHOSE MONEY MUST BE RETURNED ON ACCOUNT OF OVERSUBSCRIPTION, AND TO THOSE WHO DID NOT TAKE ADVANTAGE OF THE ORIGINAL NEW POOL, WE HEARTILY RECOMMEND

BASS WELL ON BLOCK 86 IS ON THE SAND

The first well to reach the sand in block 86, northwest of block 84, where the original discovery well is located, is E. P. Bass et al. No. 1 Waggoner, in about the middle of the quarter section. This well is expected to be completed today. It opens up production in block 86, but is of no exceptional interest, because it is territory considered already proven.

Two other wells, both in block 84, were reported completed Wednesday afternoon. The Ryan Petroleum Company, purchasers of the Burk-Waggoner properties, completed their No. 9 Waggoner, flowing 3,000 barrels. The King Eight Oil Company, No. 1 Waggoner, well was also completed, but an official report on the flow was not available this afternoon. However, it is certain that the well will be in the class with the other producers in block 84. The completion of this well has been delayed for some time, because of trouble with the casing.

DEAL PENDING FOR SALE OF LEE FARM OIL PROPERTIES

A deal is now pending for the sale of the Lee Farm oil properties owned by J. A. Kemp to Leavison and associates of Saint Louis. Mr. Kemp owns the land in fee and will sell the lease on 300 acres and the production of the farm, the terms of the contract calling for \$165,000. A substantial forfeit is up, pending consummation of the deal. There are about a dozen producing wells from the shallow sand on the acreage, and the purchasers are planning to develop the shallow sand, and to make deep tests on the properties, it is stated.

MEETING OIL MEN CALLED AT FT. WORTH TOMORROW NIGHT

All individuals interested in the oil industry, whether producers, refiners, marketers, contractors or doing a supply house business in North Texas, are called to attend a meeting to be held Friday, May 30, in Fort Worth at the Chamber of Commerce building to consider the form of organization for the oil industry in North Texas. G. Clint Wood and other Wichitans who attend the first meeting in Fort Worth have received notice of the call for the second meeting, and have been asked to make public the call for attendance on this meeting. Julius Germany of the Panhandle Refinery is a member of the committee on organization, which will make a report at this meeting. All those in any way interested in the development of the oil industry in this county are urged to be at Fort Worth on Friday evening. J. Edgar Pew, the chairman of the meeting held last Saturday in Fort Worth, has issued the call for the second meeting, and will preside.

BUENOS AIRES STRIKE TO EXTEND TONIGHT TO CITY'S TRAMWAY

By Associated Press. BUENOS AIRES, Wednesday, May 29.—A strike on the city's tramway lines will begin at midnight tonight. It is expected that the drivers of taxicabs and other passenger vehicles will join sympathetically in the strike movement.

Meanwhile the newspapers of the city are confronted with serious labor difficulties. One of the daily journals, the *Diario Espanol*, has closed its plant and all the others are considering closing down indefinitely following a refusal by the printers to set the advertisements of a department store which had been boycotted by all the trades unions because it refused to meet the demands of strikers.

The directors of 15 of the newspapers held a meeting last night at which it was decided to give the work required of them or face a lockout similar to that recently put into effect for a week by *La Prensa* against the journalists' union.

Organized in April, this union which was organized in April, appears to be disintegrating as a result of the organized resistance on the part of all the newspaper directors, with the exception of three government organs. It is declared that

all the representative newspaper men have resigned from the organization, maintaining that they had been hoodwinked in joining a bolshevik agency, masquerading as a newspapermen's union.

The union appears to be well supplied with funds from sources unknown to anyone, it is said, except the Spaniard who is its titular head. It is complained that the most radical decisions were made by the union without reference of the questions to its members and that it became so opposed to the real interests of the newspapermen in general that the printers and pressmen's union finally refused to cooperate with it, thus bringing about the failure of a movement to bring about a strike on all the daily newspapers.

SUMMARY OF TODAY'S INTERNATIONAL SITUATION

By Associated Press. Germany today made formal reply to the treaty terms presented to her on May 7. While not as volitional as reports have had the world to expect, the German counter-proposals appear to take issue with the Allies on nearly all the important phases of the treaty, according to summaries received from Berlin and Paris.

Immediately after the presentation of Germany's reply Count von Brockdorff-Rantzau, chief of the enemy peace mission, will, according to reports, leave Paris for Spa. Whether his departure will mark his retirement as a member of the German peace mission is not known. Several minor members of the German mission left Paris for Germany yesterday.

Plenary Session Today. This afternoon a plenary session of the peace conference will be held for the purpose of communicating to the nations which broke relations with Austria the peace terms which the council of four has decided to present to the representatives of the former dual monarchy. There is as yet some doubt as to the subject matter of the terms, reports indicating that the reparations clauses will be presented at a later meeting.

Dispatches from Paris indicate an agreement by the council of four on questions relative to the Adriatic and the city of Fiume. The city, according to the latest reports, is to be an independent municipality. Regarding the other arrangements made, it is stated that certain of the Dalmatian islands are to go to Italy, but it is understood that she will not get the Adriatic ports of Zara and Sebenico.

Vatican is Represented. The Vatican is represented officially at Paris for the first time since the peace conference began work. Monsignor Ceretti, Papal under-secretary of state, being in the city to discuss with Entente chiefs the status of Catholic missions in lands affected by the deliberations of the conference. It is improbable, it is said, that he will be officially received by the conference because of the clause in the treaty of London between Great Britain, France and Italy, which barred the Vatican from participation in discussions regarding questions connected with the war.

A statement has been issued by Nikolai Lenin, the bolshevik premier of Russia, attacking Bela Kun, chief of the soviet in Hungary, according to a London dispatch. The statement is said to assert that Moscow is the "center of the world revolution and must be obeyed."

American troops are apparently to be immediately withdrawn from Northern Russia, transports having arrived at Archangel with British forces which will relieve the men who have been holding the lines during the last winter.

SEVERAL INJURED AS RESULT OF RIOT BY YALE STUDENTS

By Associated Press. NEW HAVEN, May 29.—The riot which kept this city in an uproar most of Tuesday night was attributed by Mayor Fitzgerald to "bolshevik elements" which had taken advantage of a minor clash between discharged service men and Yale undergraduates, caused by unconfirmed reports that Yale men had hissed the 102nd Regiment band.

Throughout the night the college authorities had complete control over the students, keeping them within the dormitories. Those students who figured in fights were such as were caught upon the streets by the mobs while returning from theaters or dances.

Although the police were vigilant they could not for hours prevent clashes, nor could they fathom the reasons for the semblance of organized attack which had broken out.

The police reports showed five young men hurt, two by bullets, none seriously, and about a dozen detained pending inquiry. Considerable window glass in Yale buildings was broken and a few store windows were shattered. Many citizens were knocked down or roughly jostled.

For several hours the mob, broken into groups, rushed through the streets. Some of the disturbers carried sticks and clubs. Several reports were that blackjacks were used, and Captain Braden of the Yale track team, who was assaulted, was confident that he had been hit with a loaded club. There appeared to be few ex-service men among the disturbers.

resolution recited that if troops were permitted to cross American soil, such permit "would be construed (by Villa forces) as justifying reprisals against the lives and property" of Americans in Mexico. The measure was referred to the Foreign Relations Committee.

NO ACTION IS TAKEN TO REVOKE PERMIT

PHOENIX, ARIZ., May 29.—R. E. McGillen, assistant secretary of state and acting governor in the absence of Governor Campbell in New York, and Secretary of State Sims in Texas, said today he had taken no action to revoke the permission for Mexican troops to cross Arizona from Sonora to Juarez, telegraphed to the State Department two days ago.

Acting Governor McGillen stated that no representations had been made to him against the passage of Mexican troops over Arizona soil. He pointed out further that the request for the permit had come from the state department at Washington and Arizona acquiescence had been telegraphed to Washington, no dealing having been conducted directly with

WHAT JAPAN REALLY GETS BY TERMS OF THE PEACE TREATY

WASHINGTON, D. C., May 29.—Contrary to general impression the peace treaty, as summarized in the preliminary statement, does not cede to Japan the whole province of Shantung nor the bay of Kiaochow, nor the holly places of Shantung which include the home and grave of Confucius.

The geographical limits of the portion ceded are outlined in a bulletin of the National Geographic Society, based on a communication from Miss Eliza R. Scidmore, traveler and author of many books on travel, which follows:

"In 1896 a German expert reported to the German government that a deepwater harbor could be dredged and constructed in the northeast corner of Kiaochow Bay. Overtures were made to the Chinese to lease the bay to Germany for a long term of years, and were refused.

"In October 1897 the opportunity came to Germany to claim the desired coaling and repair station for its fleet in Kiaochow Bay by the murder of two missionaries in another part of Shantung province. Apologies and indemnities were demanded. A German squadron entered the bay and raised the German flag. In March 1898 the Kiaochow convention was signed at Peking, which gave a 99 year lease of 100 sq. miles of land, comprising the rocky point at the entrance of Kiaochow Bay to Germany, with supplies for the railway and the concessions in the province which provided for a railway line from this leased territory on the seacoast to Tsinan-fu, the capital of Shantung, with the right to develop mines within 30 li of the line, and to build two branch lines.

"The Chinese had not occupied their immediate seacoast since the ravages of Koxinga, the Japanese pirate some centuries ago, to fall whom the emperor commanded his subjects to retire 30 li inland and leave the deserted 'no-man's-land' to the buccaniers.

City of Kiaochow.

"The city of Kiaochow, 45 miles from Tsinan-fu, by train, is far across the tilted bay about six miles inland from its muddy shore.

"Thus Kiaochow city was not included in the territory leased by Germany and therefore is not within the area now ceded to Japan. But confusion has arisen on this point by the phraseology of the summary of the peace treaty which states that Germany cedes to Japan all rights, titles and privileges, notably as to Kiaochow. The entire territory about the bay of Kiaochow formerly was known by that name which still is preserved in diplomatic correspondence. Only the German concession was known as Tsinan-fu.

"The Germans made Tsinan-fu a little corner of Germany in the East. It was first developed from port, the Chinese Maritime Customs functioning there as at Hong Kong, dealing only with cargo to and from the Chinese hinterland. Later 20 per cent of the customs collections were assigned to the maintenance of the port.

Railway is Completed.

"The railway line of 255 miles from Tsinan-fu to Tsinan-fu, the capital of Shantung, was completed in 1904. It does not pass through any large or rich cities—Tsinan-fu, with only 300,000 inhabitants, hardly counts in teeming China—and the line traverses a rather poor part of the province. After the hills around Tsinan-fu, there are unending levels of bean and kaoliang fields.

"The coal mines of Fungtze, three miles from the line, and the Poshan mines, 50 li from the line, do not produce a superior coal, and both coal fields have been worked by the Chinese for centuries. Borings have been made to depths of 3,000 and 4,000 feet through many thick seams of coal at Poshan, but the Fungtze mines are nearly exhausted.

"The railway line was built without regard for local interests, and when angry peasants drove off engineers and construction gangs, urging that the great railway embankment across their valleys and fields would impound the waters in the rainy season, a few rounds from German machine guns ended the discussion.

Frantic Efforts of Germans.

"In the first week of August, 1914, the Germans made frantic efforts at Peking temporarily to transfer Tsinan-fu and the railway to some neutral and obliging power—but not to China. On August 18, Japan sent an ultimatum to Germany, couched in the exact language Germany, France and Russia had addressed to Japan in 1895, in asking Japan to withdraw from Port Arthur and the Liaotung peninsula for the sake of the peace of the East. On August 23 war was declared, and August 25 the blockading squadron took up position off Tsinan-fu. Troops were landed at Lungkow west of Chefoo, went inland, cut the railway at the point nearest that coast and took possession of the line and its stations up to Tsinan-fu, and then landed and established bases at Laushan Bay, 15 miles east from Tsinan-fu just at the line of the leased territory, and slowly closed in upon the fortress and its garrison of some 4,000 men.

Methodical Campaign.

"The whole campaign was so methodically carried out that military men in Japan termed it 'autumn maneuvers.' The Germans were twice formally asked to surrender and save useless loss of life, but refused. Notice was sent that bombardment would begin on a certain day and they were invited to send out all non-combatants, women and children. A boatload of such, including the American consul and several priests, were exchanged at Lungkow's mouth to a Japanese destroyer, and the great guns began their play. At dawn of November 9, just as the troops were about to leave their trenches at the edge of town and sweep the place in a hand to hand assault, the white flag went up on the governor's flag staff.

"Much damage had been done by

artillery fire but more was done by dynamite by the Germans themselves before the surrender records were destroyed, stores burned, the dry dock and Austrian cruiser sunk, and the public utilities wrecked.

"Twenty thousand Japanese troops were engaged in the Tsinan-fu expedition, and Japan has since spent great sums in restoring and repairing the putting the place in order. She has since 1914 and to the peace conference in Paris in 1919, that she will return the leased territory to China, with the guarantee that Tsinan-fu shall become an international settlement. Japan will retain the German railway and mines in the articles signed with Japan. China agreed never hereafter to cede, lease or assign any bit of territory to any foreign power, neither bay, island, port, harbor or market town.

HARVESTER COMPANY IS BUYING UP PLOW PLANTS

By Associated Press.

CHICAGO, May 29.—The International Harvester Company has bought the Chattanooga Plow Company of Chattanooga, Tenn. This supplements the recent acquisition of the steely plow plant and business in the Paris and Drendorf Company of Canton, Ill. The transfer will be made on June 1. The Chattanooga Plow Company trade has been principally south of the Ohio river and in southeastern Missouri, Arkansas, Oklahoma and parts of Texas. The Harvester Company announced yesterday that the line of horse and power cane mills established by the Chattanooga company.

GERMANS CONTENT FOR PEACE BASED ON THE 14 POINTS

BERLIN, Tuesday, May 27.—The German counter proposals to the terms of the treaty of peace will in the opening section argue for the existence of Germany's contractual right to a peace based on President Wilson's fourteen points, because the entente nations agreed to a peace on that basis and neither Mr. Wilson nor the representatives of any other Al-

lied government have since demanded that peace be established on any other basis.

The second section will deal with the contraction between the draft of the treaty and previous assurances from entente statesmen and the general ideals of international right.

The counter proposals will declare that the terms of peace completely ignore the fact that Germany has replaced an "imperialistic and irresponsible government" by a strictly democratic one and that Germany in her proposals for a league of nations has adhered to the principle of a limitation of armaments.

"It would be difficult to see," one section reads, "what different conditions could have been imposed on an imperialistic government. The solemn assurances of France, Great Britain and President Wilson that the peace would be a peace of right and not of violence, have not been kept, especially regarding territorial questions."

Where Can I Find Relief from Itching, Terrifying Eczema?

This Question Is Ever on the Lips of the Afflicted.

Eczema, Tetter, Erysipelas, and other terrifying conditions of the skin, are deep-seated blood diseases, and applications of salves, lotions and washes can only afford temporary relief, without reaching the real seat of the trouble. But just because local treatment has done you no good, there is no reason to despair. You simply have not sought the proper treatment, that is within your reach.

You have the experience of others who have suffered as you have to guide you to a prompt relief of blood and skin diseases. No matter how terrifying the irritation, no matter how unbearable the itching and burning of the skin, S. S. S. will promptly reach the seat of the trouble and forever root from the blood every trace of the disease, just as it has for others who have suffered as you have. This grand blood remedy has been used for more than fifty years, and you have only to give it a fair trial to be restored to perfect health.

Your chief medical adviser is an authority on blood and skin disorders, and he will take pleasure in giving you such advice as your individual case may need, absolutely without cost. Write today, describing your case to Medical Department, Swift Specific Co., 252 Swift Laboratory, Atlanta, Ga.

FOOD COSTS MORE DON'T WASTE IT

Make full use of your ice chest and our pure ice will save you more—will do more to help you hold down the High Cost of Living—than any thrift habit ever introduced among thoughtful people.

Food costs more. Don't waste it. How best can you save it?

By keeping your meats and milk, your vegetables and fruits in a clean, cool place of unvarying low temperature. By keeping these delicacies fresh and palatable so that if some be left over until tomorrow, they will lose none of their flavor.

Your ice chest and our pure ice save you many a dollar. They not only save food but they make all food taste better. They keep the home folks well. They are your protectors against the ills of hot, sultry weather. Get a coupon book from the driver tomorrow and take ice regularly. A coupon book good for 500 lbs. costs only \$2.75. Saves you 25c on every 500 lbs. of ice.

COMPLETIONS MORE NUMEROUS IN NEW BURKBURNETT POOL

Completions, especially in the new Burkburnett pool, were more numerous this week than for the past several weeks, and the new production, as indicated by the completions, was considerable. The Gilliland interests lead again in the number and size of wells, having the largest wells brought in, with the exception of the new northwest pool.

flowed 500 barrels for several days, now rigging up to pump.
 One hundred and fifty rigs are now in operation in the new Waggoner pool. It is estimated, and not a day passes without it's quota of new locations to add to the activity. Practically all of the new locations are now being made in the northwest pool, but just as Burkburnett diverted attention from all other pools, so the Waggoner pool is proving the lure that makes contractors rush through their jobs in other pools and hasten to the northwest.

SEYMOUR EXCITED OVER DISCOVERY AS WELL AS OVER OIL

Special to The Times.
SEYMOUR, TEX., May 29.—This town is all excited over the recent discovery of the remains of what is said to be a prehistoric giant. The bones were disinterred by W. C. McKinney of Seymour on land which the Harry Van Ness Oil Syndicate of Wichita, Kansas, is drilling a 3,000-foot test well, five miles southwest of town. Geologists contend that the bones are those of a man at least ten feet in height and proportionately broad.

This find has occasioned almost as much excitement in the town as the present drilling operations in its neighborhood. The remains are now on view at the local oil exchange.

The opening of this exchange has convinced local citizens that Seymour is destined to be a real oil town. Consequently a number of vacant buildings that for many years have lacked tenants have been bought or leased by local men in preparation for the boom that is expected here when the first well is drilled in.

Local offices have been opened at Seymour by the Harry Van Ness Oil Syndicate and also by others. Drilling operations are being conducted both northeast and southwest of the town, while large blocks of leases have recently been secured by some of the larger producing companies, notably the Texas, San and Pierce-Fordyce. These leases have been secured as a result of optimistic reports by geologists who have thoroughly investigated the oil possibilities in Baylor county.

CLASSIFICATION MAY PREVENT POST-SEASON SERIES WITH SOUTHERN

By Associated Press.
 FORT WORTH, TEX., May 29.—The impression is general in Texas League circles that the Southern League, now that Class A rating has been refused to the Texas League, will call off the post-season championship series. The higher classification was declined by the National Board yesterday because several cities did not have the proper population. President Morris of the Texas League declined today to comment on the effect of the action on the championship series.

NEGRO WOMAN SUES COBB FOR DAMAGES

By Associated Press.
 DETROIT, MICH., May 29.—Ty Cobb is the defendant in a \$10,000 damage suit filed April 26 by Ada Morris, a negro, it became known yesterday when Judge Clyde J. Webster signed an order of default, attorneys for the plaintiff claiming they served notice of the suit during the baseball game here on that date and that Cobb ignored it. The plaintiff alleges that Cobb kicked her following an altercation in a Detroit hotel on April 25.

CHANGE IN SAILING DATE OF AMERICAN ATHLETES

By Associated Press.
 CHICAGO, May 29.—Change in the sailing date of the American athletes selected to go to France for the A. E. F. games from June 1 to next Tuesday, has caused doubt as to whether the selected athletes in the west would make the trip. The track and field games of the western inter-collegiate conference athletic association are set for June 7 at Stagg Field.

SHOWS REAL COME BACK

JEAN DUBUC

Jean Dubuc, the big right-hander of the Giants, has furnished a genuine come back this season. The big Frenchman was discarded by the Tigers, but with the McGraw clan he has shown splendidly. In the second game of the first important series between the Giants and the Cubs Dubuc had the Chicago game eatne out of his hands. Jean is a popular lad and all the Giant players are pulling hard for him.

WILLARD IS TO BEGIN HIS TRAINING SUNDAY

By Associated Press.
 TOLEDO, May 29.—Jess Willard, the heavyweight champion, will arrive in Toledo Saturday night and will settle down to training Sunday for his championship contest with Jack Dempsey here July 4, it is announced by Ray O. Archer, business representative of the champion, upon his arrival from Los Angeles today.

He said the title holder tipped the scales at 235 1/2 pounds five days ago, which is a half pound below the weight he made for his fight with Frank Moran in New York in 1916, his last championship match.

Archer will inspect several prospective sites for a training camp today and make a selection before night so that work on a ring can be started immediately.

Willard expects to have sparring partners in camp by Monday. They will include Hempel, Tim O'Neil, a light heavyweight of Chicago, and another heavyweight. The champion does not intend to have more than three sparring partners in camp at any time, Archer said.

James J. Jeffries, the former heavyweight champion; James J. Coffroth, the San Francisco boxing promoter, and a score of celebrated motion picture stars are planning to make the trip from the coast on a special train for the match, according to Archer.

BROWN HAS DISMISSED HIS SUIT FOR SALARY

By Associated Press.
 CHICAGO, May 29.—Counsel for Mordecai Brown, former pitcher for the Chicago Nationals and late manager of the St. Louis Federal League club, has dismissed his suit for salary at the rate of \$1,200 a month for a year and a half of his unexpired contract with the St. Louis club. The suit was filed in October, 1917.

NO BOXING THIS WEEK IN THE DEMPSEY CAMP

By Associated Press.
 TOLEDO, O., May 29.—There will be no boxing in the training program for Jack Dempsey next week, Manager Jack Kearns and Jimmy de Forest, chief trainer in the challenger's camp decided last night. De Forest decided to prohibit work with the gloves because of the danger of Dempsey going stale. The challenger may drop all strenuous work for the week if the weather continues bad.

Dempsey, his trainers say, is so near being in top condition at present that he could enter the ring tomorrow in practically as good physical shape as he will be on the Fourth of July. He increased his ring work to eight rounds today, and all but knocked out One Round Davis, a Buffalo, N. Y., heavyweight.

Davis was sent reeling against the ropes and Trainer de Forest promptly called time. Bill Tate, the negro heavyweight, received another terrific punching for four rounds and Dempsey ripped into Terry Keller for the final two rounds of the workout.

Tom Jones, one of the prominent characters of the boxing world, and Willard's manager for six and a half years, arrived here today to arrange for special trains to bring fight delegations from Columbus, Ohio. He is associated with Joe Tinker, president

of the Columbus baseball club, in the venture. Jones still retains his admiration for Willard's ring prowess, despite his split with the champion after plotting him to victory over Jack Johnson at Havana. Jones said that, in his opinion, the only chance Dempsey has to win is to land a knock-out. "I am not taking any credit away from Dempsey," Jones said, "but Willard is too big. With his tremendous size and great hitting power, a knowledge of boxing that will surprise his enemies, and his ability to take punishment if compelled to, he presents a battlefield that, in my judgment, cannot be penetrated." Jones said that Willard is 40 years old, which caused some surprise among the ring sharps.

Y. W. C. A. CAFETERIA SERVES WOMEN ONLY DURING LUNCH HOUR

As has been the case in practically every other city of any size, the Y. W. C. A. cafeteria has found it necessary to restrict the noon meal to women and girls. No men except those accompanied by women will be served. The cafeteria is installed for the girls and women primarily, and while the management would be very glad to be able to accommodate all of the business men, the first two days have convinced them that to attain the desired object the Wichita Falls cafeteria, like that in Dallas and other cities, must be for girls and women only during the noon hour. An exception is made in the case of men accompanying women, as stated above.

For the supper hour, however, men will be served without restriction. Service of supper begins at 5:30 and continues until 7.

The demand on the cafeteria for service has been very heavy during the first two days, and Miss Dillon and the regular helpers have been assisted by Miss Frances Bothwell, field secretary here for the cafeteria opening, and by members of the local association, both girls and women. So far they have had plenty to do, for the crowds at meal times have filled the cafeteria to its capacity, and the lines about the steam tables seem endless.

DAVID MORGAN COMING FOR VISIT TO PARENTS

David L. Morgan, chief petty officer, U. S. N., the first Wichita Falls boy to receive a citation for bravery in the war, will arrive Friday for an extended visit with his parents, Mr. and Mrs. M. D. Morgan. Young Morgan has just received his discharge from the navy.

It will be remembered that early in the spring of 1918 young Morgan, who was on convoy duty, received a citation for bravery, having stayed in the water for several hours rescuing the occupants of a U. S. ship which had been sunk.

Nothing Is More Precious than Your Eyesight

The old masters depicted the oval form as the highest type of the female face beautiful. But today the successful woman shows many types, each as beautiful as the other. There is one point, however, that all judges of the human face agree upon, and that is—the balancing up of its deficiencies.

In glasses, our knowledge, skill and experience enable us to "build up" a flat face or low bridged nose so it is almost worth while for one to wear glasses for appearance sake only.

Don't make the mistake, when being fitted for glasses, in insisting upon some certain style of frame or size or lens, simply because of the comely appearance of some friend to whom such a style is becoming.

Come here and be governed by our advice, for we not alone know all about the optometric needs of an eye, but we study how best to give our patients the maximum of benefit with the minimum of trouble.

W. J. BULLOCK AND FAMILY LEFT YESTERDAY FOR THEIR NEW HOME

W. J. Bullock and family left yesterday for their new home in the Ozark mountains, and their postoffice in the future will be Bentonville, Arkansas. Mr. Bullock owns a fine farm of 80 acres, 40 acres of which is an apple orchard just outside the city limits of Bentonville and the family expect to reside there.

Mr. and Mrs. Bullock have been active in the social and religious life of Wichita Falls for many years and their friends wish them success in their new home. Mr. Bullock has lived in Wichita county for more than 25 years and served one term in the legislature, was three times elected tax assessor, and for the last 12 years has been a member of the school board of this city, and all that time either as secretary or president, and he has always led the prohibition fight waged in Wichita county under the local option system.

Mr. Bullock still owns property in Wichita Falls besides being interested in the oil fields of Wichita county and will spend part of his time here on business. He has offered his resignation as a member of the school board to take effect at once. His successor will be selected by appointment by the other members of the board.

ROTARIANS PLEASE LARGE CROWD AGAIN ON LAST EVENING

That the amusement loving public of Wichita Falls is especially appreciative of the character of entertainment provided in the Rotary Revue, was shown in the large attendance again last evening and the very liberal applause which greeted the various numbers. In fact, it is doubtful if there has before appeared in the local theater an attraction that seemed to so generally please those in attendance and the manifestation of approval was fully justified by the work of those taking part in the program so ably directed by Dan G. Folan of Beaumont.

Without attempting to again review the work of the cast, it may be stated that a number of new features were injected and it is expected that the performance this evening, which concludes the show, will furnish some strikingly original and unique numbers.

Last evening members of the Wichita Club, who had reserved seats for the occasion, contributed materially to the entertainment of the audience.
