

PROPOSES BILL TO MAKE BOXING LEGAL IN TEXAS

Question Is Submitted to the Legislature in Message from Governor.

U. S. SENATE IS URGED TO RATIFY PEACE TREATY

Resolution Is Adopted by the Upper House of Texas Legislative Body.

By Associated Press. WASHINGTON, July 1.—A message under which a bill proposing to legalize boxing exhibitions in this state can be submitted to the legislature by Governor Hobby today.

The subject is submitted at the request of Senator McNeilus of Dallas, who proposes the establishment of a state athletic commission to regulate boxing exhibitions. A second message, submitted by the same senator, proposes the regulation of the practice of veterinary medicine and dentistry, for amendments. A third message, submitted by the same senator, proposes the regulation of junk dealers, for amendments.

The report of the committee which investigated the releasing of the Blue Hill prison farm, which was submitted yesterday and was ordered printed in the journals of both houses, is expected to come up for consideration today, according to Senator Davis, chairman of the committee. He said that the committee wishes the report to be studied before it is called up unless a member of the legislature on the committee insists upon consideration today, the report will be passed over to tomorrow.

Want Treaty Ratified. The Texas senate, after the morning session, took up as special order of business a house resolution urging the United States Senate to ratify the peace treaty. The senate voted 17 to 10 to pass the resolution.

Four representatives refused to vote on the resolution when it was introduced in the house. A house resolution urging the United States Senate to ratify the peace treaty, was adopted by a vote of 17 to 10 with three present not voting.

Diocesan and county attorneys over the state are requested to procure witnesses against all pool hall operators in Texas who have not enforced the anti-pool law.

Limitation of Question. A resolution limiting the question of the carrying of arms in Texas to the legislature by Governor W. P. Hobby today.

The Senate peace committee has eliminated the provisions for the carrying of arms in state institutions which were included in the University of Texas.

Dr. R. E. Thomas, president of the University of Texas, appeared before the finance committee in a protest against this action and said that the study of German and other foreign languages is necessary for the commerce of the state of the university.

Want Congressmen to Modify Ruling. A resolution urging congressmen to modify their ruling on the carrying of arms in Texas.

ANY INJURED BY EXPLOSION OF BALLOON

Nearly a score of men, women and children were injured today by the explosion of a balloon at Camp Camp near Hialeah, Fla.

EIGHT PERSONS ARE KILLED IN TRAIN WRECK

More than Forty Others Injured in Collision on the New York Central.

PASSenger TRAIN CRASHES AND REAR OF ANOTHER

Tram Thought to Have Disrupted Air on One of the Trains.

By Associated Press. DUNKIRK, July 1.—Eight persons are known to be dead and more than forty were injured in a rear-end collision between the second section of train No. 41 and train No. 7, known as "The Westerner" on the New York Central railroad at 2:20 o'clock this morning. All the fatalities occurred in the passenger car of the rear train, "The Westerner," when its engine buckled back through a wooden express car.

Eight bodies were taken from the wreckage and rescuers clearing the debris were working toward what they believed to be two additional bodies. Two persons, some seriously injured, were taken to the hospital.

Train No. 41 left Buffalo at 12:01 o'clock. The Westerner left a short time later. Railroad officials say that No. 41 developed an overheated journal on the rear axle of the engine. The Westerner, approaching at a speed of 45 to 50 mph, did not check the brakes as it rushed into the Dunkirk coaches, eye-witnesses say. All the coaches of No. 41 were of steel construction. The rear of the last coach was badly battered and the engine was knocked into the track but the boiler remained intact. Three other coaches of No. 41 were also pushed over the rails but remained upright.

The tender and engine of The Westerner buckled back through the wooden express car and crashed into a steel passenger coach, the first passenger car of the train. The boiler exploded, fatally mangled the engineer and the fireman. The steel day coach of The Westerner was reduced to wreckage. The front of Buffalo on the New York Central lines was completely disrupted, being operated over the Nickel Plate railroad.

UNIDENTIFIED TRAMP IS CAUSE OF WRECK. WASHINGTON, July 1.—An unidentified tramp, killed in the New York Central railroad wreck at Dunkirk this morning, was, according to reports of the railroad administration, probably the cause of the tragedy. The man, who was riding on the locomotive, was found dead at the scene of the crash.

Brakes Are Tested. The preliminary investigation has developed that on leaving the Buffalo yards, engineer of train No. 7 tested his brakes three times and found them satisfactory but had no further occasion to test them until running into Dunkirk when he encountered a caution signal registered by No. 41 standing in the track.

As the wreckage was cleared the crushed body of the tramp was found in the end of the narrow space between the tender and the first car of the train. The angle cock controlling the flow of air through the brake pipe was closed. It probably will be developed whether the angle cock was closed by the tramp or whether it was done intentionally.

Greater Berlin to Purchase City's Big Tronway Systems

HERLINGS, Monday, June 30.—The municipality of Greater Berlin has decided to purchase the big Berlin tramway system, paying 137 percent of the amount of capital stock outstanding. A strike of Berlin's tramway and underground railway workers is threatened.

WILLIAM DEMPSEY FIGHT BY ROUNDS

The result of the big fight at Toledo, Ohio, Friday will be announced by rounds as received over the Associated Press wire. At the Times office, the report is that Dempsey won by a unanimous decision. The fight is scheduled to begin at three o'clock in the afternoon and will last for twelve rounds.

DEPARTMENT TO TEST PERCENT IN THE COURTS

Cases Will Be Filed Immediately in All of the Jurisdictions Affected.

PLAN TO ARREST THOSE WHO VIOLATE THE LAW

Will Proceed in Orderly Manner to Settle the Per Cent Issue Involved.

By Associated Press. WASHINGTON, July 1.—Test cases on the sale of beverages containing more than one-half of 1 per cent alcohol will be brought immediately by the Department of Justice in all jurisdictions where such cases now are pending.

We propose to make immediate arrests of persons who violate the war-time prohibition law according to our interpretation thereof," Attorney General Palmer said today. "The Department does not intend, however, to sweep off its feet the first day that prohibition comes into effect. We will proceed in an orderly fashion to establish whether intoxicating beverages prescribed by the law include those having less than 2.34 per cent alcohol."

By Associated Press. LONDON, July 1.—The whole nation awoke today to a realization of the "eye opener" at the bar, long ago forgotten in many parts of the country, was all embracing. Only those who have been provident enough to "stock up" in advance for the long drought or who could find solace in 2.34 per cent brew were able to carry out the time honored custom of starting the day with an early morning "bracer."

War-time prohibition, banning for the time being all distilled liquors and leaving in a cloud of doubt the future of beer, was effective at midnight. Exemption of beer from the list of forbidden beverages came as a result of an eleventh hour announcement by the Department of Justice that pending decisions in present litigation to determine whether a brew containing 2.34 per cent of alcohol is intoxicating, no action could be taken toward stopping and providing for enforcement of the act until January 16.

When the attitude of Department of Justice officials toward beer became known, prohibitionists in Congress were in favor of abandoning the plan to adjourn until July 7, in order that the act to define what beverages are intoxicating and providing for enforcement of the war-time dry law, might be rushed through. Leaders refused to accept the proposal and the question, at its earliest, cannot be decided until next week, when then a stiff fight is promised as an effort will be made to permit the President to set aside the war-time act insofar as it relates to light beer.

The Department of Justice last night announcing there would be no interference with the sale of 2.34 per cent beer was a reversal of a stand taken in a statement issued previously the day in which there was no explanation other than that the Department "had reversed its self."

A great proud people like the Germans could submit even to paying all their riches in expropriation of their crimes but they cannot stand the daily offense to their sentiment. After a tremendous defeat Germany would have hated the enemy but French sentinels on the Rhine will keep up for an entire generation the spirit of revenge.

Peace is only possible when everybody lays down his arms eliminating with absolute sincerity all causes of irritation among peoples.

TENTATIVE PLANS MADE TO WELCOME PRESIDENT HOME

WASHINGTON, July 1.—Tentative plans for the welcoming of President Wilson at New York when he arrives on the George Washington, probably Monday, provide for part of the Atlantic fleet to meet his ship at sea and escort her into port. The welcoming committee will be aboard the Pennsylvania, Admiral Wilson's flagship.

It was said at the White House today that the President would remain in New York only a short time and that his address in response to the welcoming committee would be very brief and would not embrace a discussion of the peace treaty and the League of Nations.

The President has not indicated when he will submit the peace treaty to the Senate but officials here expect him to do so either next Tuesday or Wednesday. After he has cleared his desk of important business awaiting his attention, he will start on his tour over the country, speaking in support of the treaty and the League covenant.

Want the Former Crown Prince to Head a New Revolt in Germany

FRED HORNIGOLDEN, THE CROWN PRINCE OF GERMANY

MEXICO IS CHARGED WITH AN OVERT ACT OF CONFISCATION IN INTERFERING WITH OIL FIELDS

By Associated Press. WASHINGTON, July 1.—The Mexican Government has committed an overt act of confiscation in preventing American oil well drillers to work on lands owned by American individuals or companies by sending soldiers into the fields and driving away the workmen, State Department officials said today. Complaint was made to the Mexican Government on April 2 of this year. It was learned, against the refusal of the Government to grant permits to the oil companies to drill. No answer was received until after the Juarez incident. It was said, and then President Carranza announced no permits, provisional or otherwise, would be granted until the companies had complied with the law. Compliance with the law, it was said by State Department officials, would constitute recognition by the companies that the Mexican Government owned the oil lands.

The orders to the military forces to prevent drilling by force of arms was issued by President Carranza last May 16, according to advices from Mexico City today. The petroleum department instructed the Mexican war department, by direct orders from Carranza, to use any force necessary to prevent drilling without permit, although the lands on which drilling was being done were legally acquired by the present owners.

The war department transmitted the orders with specific directions as to action to be taken by the soldiers to the military commanders at Tampico and Tuxtlapa, and immediately companies of soldiers were sent into the fields. It was not known how many drilling gangs were driven out of the oil fields by the soldiers but two have been reported and raids have been made, according to official reports, on the camps of other oil workers.

ROME Paper Says Germans Sign a "Scrap of Paper"

By Associated Press. ROME, Saturday, June 28.—"Germany signed today a scrap of paper," is Epoch's comment on the signing of the peace treaty.

The event at Versailles may have caused emotion to those present," Epoch says, "but it causes great anxiety to those far away who besides listening to the rhetoric, look into the hearts of peoples."

Germany signed but is determined not to maintain its pledges. Bauer, Erzberger, Dauter and Mueller are the same men who voted war appropriations from the first to the last day of the conflict.

Telegraph Brevities

JOHNSON CITY, TENN., July 1.—Frost was reported at Newland, N. C. this morning.

FORECAST OF COTTON CROP IS MILLION BALES BELOW 1918; CONDITION LOWEST IN YEARS

COTTON SCORES AN ADVANCE OF \$6.00 PER BALE TODAY

REDUCTION IN ACREAGE GIVEN AT 8.7 PER CENT

Market Is Materially Affected and Cotton Price Gains \$6.00 a Bale.

By Associated Press. NEW ORLEANS, July 1.—Bureau day brought excited trading and wide price changes in cotton. On one of the strongest bulges in recent months prices rose \$6 a bale from the low level in a few minutes of wild trading. Heavy realizing sales of long contracts were thrown upon the market immediately after the government report that the indicated crop for 1919 was 10,936,000 bales, far under general expectations. Prior to the bureau reports at 1:00 o'clock it was a quiet market.

By Associated Press. WASHINGTON, July 1.—A cotton crop of about 10,936,000 smaller than last year's was forecast for this year by the department of agriculture today in estimating prospective production at 10,936,000 bales.

By Associated Press. LONDON, July 1.—German counter-revolutionaries have a motor launch in readiness to rescue the former German crown prince Frederick William, wishing him to appear at the head of the military forces in Germany, according to a Rotterdam dispatch to the Daily Mail.

By Associated Press. PARIS, Monday, July 1.—In transmitting to the Polish government the treaty which has since been signed by Poland with the entente powers and the United States, Premier Clemenceau, as president of the peace conference, addressed a letter to Premier Paderewski setting forth the reasons why the provisions of the document were considered necessary.

By Associated Press. EAST FORTUNE, SCOTLAND, July 1.—The British dirigible D-34, it is expected, will start on its attempt to fly across the Atlantic at 2:00 o'clock Wednesday morning. Weather conditions here today were favorable for the beginning of the flight.

By Associated Press. AUSTIN, July 1.—Colonel A. W. Bloor of Austin, commander of the 142nd Infantry, 36th Division, recently returned from France, in an address before the Texas senate today declared himself opposed to a large regular standing army. He asserted that the record of the national guard in France was equal to that of the regular army and that while a West Point graduate was undoubtedly better trained from a strict military point of view, he believed that the wide business experience of the national guard officer made him a better leader of civilian soldiers. He urged the legislature to make an adequate provision for the national guard.

By Associated Press. ST. LOUIS, July 1.—Members of the Order of Railroad Telegraphers throughout the country today notified to resume handling business of the Western Union and Postal Telegraph Companies. The order was issued by E. J. Manion, president of the order, cancelling the ban on commercial business which went into effect June 12, in connection with the wide strike of the commercial telegrapher's union.

By Associated Press. MONTREAL, July 1.—Tons of Bolshevik and socialist literature were seized in a raid on the foreign quarter of the city conducted early today by 150 patrolmen under the direction of Chief of Police Berlangier.

By Associated Press. HOUSTON, TEX., July 1.—Fifteen Curtiss planes were ordered from Elgin Field to Post Field at Fort Bill, Oklahoma, today. The planes will be flown within a few days. No reason for the order was given by local officials.

By Associated Press. ST. LOUIS, July 1.—Members of the Order of Railroad Telegraphers throughout the country today notified to resume handling business of the Western Union and Postal Telegraph Companies. The order was issued by E. J. Manion, president of the order, cancelling the ban on commercial business which went into effect June 12, in connection with the wide strike of the commercial telegrapher's union.

FORECAST MILLION BALES BELOW 1918

(Continued from page 1.)

tures with 37,073,000 acres under cultivation that date last year and 35,890,000 acres picked.

Decline in Condition.

The June 25 condition compares with 75.5 per cent of a normal on May 25 this year; 85.8 on June 25 last year and 80.3 the average condition for the last ten years on June 25.

The condition reported today forecasts a yield of 156.4 pounds per acre and the forecast of total production on that basis allows one per cent from the planted area for abandonment. The final out-turn will probably be larger or smaller than the amount forecast as conditions hereafter are better or worse than average conditions.

Sea Island production was forecast at 15,000 bales and Egyptian at 45,000 bales making a total of 60,000 bales compared with 88,350 bales last year.

A heavy decrease in Sea Island acreage was reported because of boll weevil activities. The Sea Island and Egyptian acreage was 182,000 acres of which 65,000 is Sea Island, compared with a combined acreage of 358,000 last year.

DEPARTMENT TO TEST PER CENT

(Continued from page 1.)

ward such drinking has been clearly defined.

ST. LOUIS BREWERIES MAKING LIGHT BEER

ST. LOUIS, July 1.—Thirteen local breweries continue the manufacture of beer containing 2.75 per cent alcohol and the majority of saloons opened as usual but sold only beer and soft drinks. The two largest breweries here will not resume manufacture of the beer unless it is decided they may legally do so, it was said.

KENTUCKY DEALERS HAVE FOR MILLION GALLONS

LOUISVILLE, KY., July 1.—Notwithstanding the enormous amount of whiskey sales in the last week, Kentucky liquor dealers today claim to have a surplus of 40,000,000 gallons. How to dispose of this, they say, is undetermined.

ATLANTIC CITY SALOONS CONTINUE SALE OF LIQUOR

ATLANTIC CITY, N. J., July 1.—Practically every saloon in this resort is open today and dispensing liquid refreshments of all kinds. Whiskey, brandy, gin and any other sort of liquor called for is served to patrons. The exceptions are the beach front hotels, all of which closed their bars with one exception. The wholesale houses are closed.

MEET MONDAY TO AGREE ON PROHIBITION BILL

WASHINGTON, July 1.—The House judiciary committee probably will meet next Monday to report out a straight bill for enforcement of wartime prohibition so as to stop the sale of two and three-quarter per cent beer.

This plan virtually was agreed upon today after the leaders had decided to defer consideration of all prohibition legislation until next week. House leaders said that if the bill were reported by the committee Monday or Tuesday it would be passed without extended debate and sent to the senate. At best, they said, 2-3-4 per cent beer would be on the market less than two weeks.

MORTUARY

W. R. Rhodes.
W. R. Rhodes, age 64 years, died Monday afternoon at his home on Front street. Mr. Rhodes had been an invalid for several years. He leaves a wife and several children. The funeral was held from the home this afternoon.

Mrs. A. J. Baker.
The body of Mrs. A. J. Baker, who died Monday afternoon at her home at 1308 4th street, was sent to Gorman, Texas, today under the direction of the E. G. Hill Undertaking Co. Mr. and Mrs. Baker came to Wichita Falls a few months ago from a farm in Oklahoma. They have been making their home with their son, H. E. Baker. Mrs. Baker's death resulted from cancer. She was 68 years of age. Besides her husband, she leaves two sons, and four daughters.

Harry Johnson.
The remains of Harry Johnson, who died at one o'clock Sunday at his home near Burk Burnett, were sent this afternoon to McAlester, Oklahoma, by the E. G. Hill Undertaking Co. The body was accompanied by Mr. Johnson's wife and son.

Mr. Johnson had made his home in Wichita county for several years, and at the time of his death was foreman of a county road gang. Death followed an illness of several days. A wife and one son, who lives in Dallas, survive.

Mrs. W. C. Gorman.
Funeral services for Mrs. W. C. Gorman were held from the Hill Undertaking chapel at five o'clock Sunday afternoon. Rev. W. H. Wallace officiating.

Mrs. Gorman died Saturday night at the Wichita General hospital. She was only 21 years of age. She leaves a husband, employed as a painter, a sister, and a new born babe.

Mrs. C. H. Swatzel.
The body of Mrs. C. H. Swatzel, who died at the home of her son at 211 Scott avenue on Saturday night, has been sent to Madill, Oklahoma, for burial.

Mrs. Swatzel was 50 years of age. She came to Wichita Falls a few months ago with her husband, formerly a farmer in that state. Mr. Swatzel is now in the employ of the Wichita Mill and Elevator company.

L. M. Studstill.
The remains of L. M. Studstill, who died last week from burns sustained in the oil fields, has been sent to Thomasville, for burial. The body was accompanied by Len Norwood, Mr. Studstill's employer at the time of his injury. The body was sent by the E. G. Hill Undertaking company.

COTTON ASSOCIATION ACTING ON PROPOSALS

By Associated Press.
NEW ORLEANS, July 1.—Members of the board of directors of the American Cotton Association were here today to act on proposals of the various standing committees as to policies of the organization on banking, legislation, warehousing and marketing problems.

O. C. McConnell, of Raleigh, N. C., chairman of the warehousing committee, was expected to present a bill patterned along the general lines of the one adopted by the North Carolina legislature. This bill, if approved by the directors, will be submitted to the legislature of the various Southern states. The directors will continue in session through Wednesday.

WILL LEASE ACREAGE

Adjacent to East Wichita Oil Company's well just southeast of Wichita Falls.

640 acres subdivided into 40-acre tracts at \$40 to \$60 per acre. Three-year leases, \$3.00 per year rental. Direct from owner.

Cheapest acreage, considering chances for oil and gas, in Wichita county.

Call or write Charles A. Tuttle, Room 700, Westland Hotel.

NEW MEXICO RANCHES FOR SALE

We have for sale some fine ranch lands in tracts of 1,000 to 100,000 acres at prices ranging from \$1.00 to \$5.00 per acre. These splendid grazing lands are also suitable for colonization or development. Some of these tracts are improved. Some have fine oil indications.

These lands have been here for over ten years and you know the geology and resources of this state. Immigration is coming here rapidly and these lands will make a safe and profitable investment. We refer you to the State National of any other bank in Albuquerque. If you are interested in land for a ranch or for an investment, come and see us. Inquiries promptly answered.

T. W. GIBSON,
JOHN B. BURG,
First National Bank Building, Albuquerque, New Mexico.
Keep this advertisement for future reference.

The Eyes of the Oil Fraternity Are on TILLMAN COUNTY

Acreage in this county has had the most remarkable price increases during the past 15 days of any section of the Mid-Continent fields—the excitement is growing more intense every day. Big money is going to be made by those who get in early on Tillman county acreage. 3000-foot test well, now being drilled in the southeast corner of the northeast quarter of Section 11-2S-15 west, Tillman county, Oklahoma.

This well had a showing for three million feet of gas at 720 feet and five million feet at a depth of 1,150 feet. Well now being standardized and will be completed with cable tools.

This well is located on a well defined structure, and is in the general territory that is getting the "big play" northwest of BURKBURNETT.

The following companies have bought leases around this well: Gypsy Oil Co., Prairie Oil & Gas Co., Twin State Oil Co., Magnolia Petroleum Co., Texas Co., Humble Oil & Refining Co., Sulfur Oil Co., Sinclair Oil & Gas Co., Cosden Oil & Gas Co., Empire Gas & Fuel Co., Carter Oil Co., Mountain State Oil Co., and Southern Oil Corporation.

Tracts of 10, 20, 40 and 160 acres at from \$27.50 to \$70.00 per acre.

All leases on Producers 88 form, five-year lease, \$1.00 per acre rental. Titles perfect. Abstracts furnished.

These tracts are wonderful values at the present rock-bottom prices—over 500 acres were sold last week. I advise you to act quickly.

We own these leases.

GOVERNMENT TROOPS ARE SENT TO STATE OF SAN LUIS POTOSI

By Associated Press.
LAREDO, TEX., July 1.—Government troops are being sent to the Mexican state of San Luis Potosi and particularly to the provincial capital city of that name, to quell disorders incident to the forthcoming election, according to persons who arrived here today from Mexico City.

There has been bloodshed in the city of San Luis Potosi and it was said the disorders were increasing. The election is set for next Friday, when a Governor will be chosen.

Chinese residents of Luis Potosi are reported fleeing that city and a number of Chinese who reached Mexico City, reported they left the provincial capital on pain of death.

BRYAN THE CHIEF FIGURE AT FUNERAL OF J. BARLEYCORN

By Associated Press.
COLUMBUS, OHIO, July 1.—William Jennings Bryan will be the chief figure in a celebration of the funeral of John Barleycorn at the Methodist cemetery exposition here today. The funeral procession will be headed by the former Secretary of State riding a camel, the "first and original prohibitionist," as Dr. Alonzo Wilson, director of special events at the exposition, once termed the animal. Mr. Wilson's remark is said to have been responsible for the camel being the prohibition party's emblem. An elephant and a donkey, representing the old line parties, also will take part in the parade, which will conduct John Barleycorn to his last resting place.

A SONG OF VICTORY A CAROL AT THE END OF THE WORLD WAR

By EDWIN MARKHAM Author of "The Man with the Hoe, and Other Poems"

O bugles, ripple and shine, Calling the heroes home from the battle-line. Praise, praise, praise, For the last of the desperate days!

Glad are the love-birds in the leafy tree, But none so glad as we. High leap the rock-flung billows to the sky, But none leaps up so gladly and wildly high

O bugles, circle on from sky to sky, Travel the roads of the world with joyous cry. Blow, bugles, turn dead air to thrilling breath: Cry, cry eternal victory over death—

Praise, praise, praise, For the new beginning of days! Praise for the living, honor for the dead— Praise for the wreathed and the wreathless head.

Sing and be glad, O nations, in these hours: Blow clarions from all towers! Let bright horns reave and the joy-bells rave; Yet there are lips whose smile is ever vain

And yet our hearts must sing, Carol and clamor like the tides of Spring. For the great work is ended, and again The world is safe for men;

But now above the thunder of the drums— Where, brightening on, the face of Victory comes— Hark to a mighty sound, A cry out of the ground: Let there be no more battles: field and flood Are weary of battle blood.

The new age rises singing into birth! Copyright, 1919, by the McClure Newspaper Syndicate.

ALL IN READINESS FOR AUTO RACES ON JULY 30 AND 4TH

DEATH TOTAL IN MINE EXPLOSION REACHES FIFTEEN

By Associated Press. MALESTER, OKLA., July 1.—Death totals in yesterday's mine disaster at Alderson today reached 15. The list: "Billy" Burns, married; Andrew Hrusak, married; John Wilcox, married; John Passett, single; John Bolden, single; William Risley, married; Steve Kincaid, single; Sherwood Wilson, married; Annasie Soviano, married; "Babe" Booth, married; John Patrick, married; John Shannon, married; Pasque Cantivos, married; F. Romero, married; Roy Shields, married. Dr. J. J. Rutledge, federal bureau of mines, chief inspector at State Inspector Williams, enters the fatal shaft today to examine the cause of the disaster. Speculation is that operators in the side pit struck a pocket of gas, as there is no blasting ordered for that part of the mine yesterday. "Babe" Booth, the man taken out alive, died without allowing anything about the explosion. His lungs were too far gone from inhaling gas and flames for him to speak. He died late Monday night. Funerals will be held tomorrow and Thursday, some in clubs of lodges but most of them conducted by the local union.

YOAKUM MAN AYS WIDOW FOR DEATH OF HER USBAND

By Associated Press. HOUSTON, July 1.—Sequel to the shooting at a hotel of W. M. Dutton of Chicago was written into the records of Harris county district court today by G. A. Lowrance. Of this amount \$5,000 was paid in cash and the remainder in negotiable notes. Dutton was shot and killed by Lowrance in a hotel. Lowrance, being under the impression he was shooting at another man, Lowrance is under indictment for homicide, the case having a continued because of illness of his leading counsel. A motor street flush has been invented with a seat for the rear for the man who controls the flow of water, a speaking tube connecting him with the driver. A five-cylinder motor has been invented by a Frenchman, he attached to the rear fork of a bicycle to drive it at the highest speed its frame will stand.

Front row, left to right—Major Cooke, navigator; Colonel Hunt, commanding officer at East Fortune, and Major Scott, commander of the R-34.

WACO BALL TEAM WILL NOT COME TO WICHITA FALLS

By Associated Press. WACO, Tex., July 1.—Officers of the Waco baseball League, representing the city of Waco, report, met here today to discuss the agreement between the Waco League and the owners of the Waco club which would have the club remain in Waco instead of being transferred to Wichita Falls. The question of whether the "split season" should be adopted for the league at some length was discussed but not represented at the meeting. Mr. Shreveport, president of the league, will leave for Shreveport tonight and take with him the views of the club owners on the "split season" plan.

CLAIM TEXAS CHIEF AND PART OF TEXAS IN TILLMAN COUNTY

FIVE ACRE LEASE NORTHWEST FIELD BRINGS \$570,000

Special to The Times. FREDERICK, OKLA., July 1.—As a result of the controversy over the ownership of the lands lying in the Red River bed, between Texas and Oklahoma, instruments have been filed in the county clerk's office at Frederick, declaring that the Texas Chief and other valuable oil wells are in Tillman county. This filing is the result of a recent survey made, which shows the instrument states, that the land on which the Texas Chief is located is in township 5 south, range 14 west of the Indian Meridian. All the land which has been claimed by Texas, which is affected by this survey, has been filed in the location in 20-acre tracts and is declared to be in Tillman county.

The claim was filed by R. A. Caldwell, attorney in fact, for an association formed by eight men and known as the Calumet Placer Mining Association. The eight men forming the association are: Cass T. Lockwood, J. C. Walton, Fred M. Joyner, Thom H. Heinley, J. S. Alexander, W. R. Walter, C. C. Nott and E. D. Stone.

STOLEN AUTOMOBILE IS QUICKLY RECOVERED

At about 10:00 o'clock yesterday a Ford automobile belonging to Moore & Richolt was stolen from the curb on Indiana avenue. At about the same time this morning Sheriff Bob McFall was informed over the telephone from McKinney that the car had been recovered there and that two young men who drove it into McKinney were secure in the Collin county jail.

Every Little Want Ad Has a Meaning All Its Own.

The sale by G. C. Wood, of Wichita Falls, of a five acre lease in Block 56, to the Texas Producing & Refining Company for the sum of \$570,000 was one of the sensations of recent transactions in the Burkburnett field. This acreage has producing wells and others will be brought in in the near future, being now on the sand. The Texas Producing & Refining company is a Fort Worth corporation, with J. Fred Smith, one of the earliest producers in the field as president. The company now has 3,500 barrels daily capacity, and is completing a refinery of 5000 barrel daily run in North Fort Worth, adjoining the refinery of the Pierce Oil Corporation. R. E. Underwood, of Amarillo, and other men prominent in the operations in North Texas are associated with Mr. Smith in the conduct of the company's affairs.

"KID" HOWE COMING FOR A 12-ROUND GO WITH BOBBY WAUGH

Manager Fowler announces that he has arranged a match between "Kid" Howe, of Salt Lake City, Utah, and Bobby Waugh, to go 12 rounds at the Wichita theater July 4. The Kid is said to be a shifty one, with a good punch concealed about his person if he can get a chance to land it. The usual preliminaries will be by the first choice out of all available material and the colored demonstration before the big act will be well worth seeing.

Monday, July 14, Otto Wallace has been secured for a return match of 15 rounds with Bobby Waugh, the object being to give the public more of the same sort of sport that proved so satisfactory Monday night.

The management is endeavoring to arrange a wrestling match between Ross and Edwards as a double attraction on the Fourth. Ross has issued repeated challenges recently, without getting any takers. It is said that the men have wrestled two one-hour draws at Houston, and that both are consistent performers. The match will be to a finish, best two out of three falls.

SINCLAIR COMPANY PROPOSES INCREASE IN CAPITALIZATION

NEW YORK, July 1.—Directors of the Sinclair Oil & Refining Company, have called a special meeting of the shareholders for July 18, to authorize an increase of capitalization from 1,500,000 to 2,500,000 shares. Shareholders of the Sinclair Gulf Corporation will meet on the same date on a proposed increase of capitalization from 1,000,000 to 2,000,000 shares. It is understood that there will be no public offering of the proposed issues.

SUSPEND SENTENCE IN FOUR CASES IN THIRTIETH COURT

The criminal docket has been taken up in the 30th district court. Joe Hinefelt pleaded guilty to one indictment charging violation of the local option laws but contested another similar indictment. He was found guilty in both cases and was given a suspended sentence in each case.

Jack Strong, alias Darr Neighbors, charged with burglarizing the Leob-Liebold clothing store, pleaded guilty and asked for a suspended sentence. The jury found him guilty and fixed his punishment at five years but suspended his sentence.

WICHITA CLUB WINS BALL GAME MONDAY

One of the survivors of the ever-to-be remembered baseball games between the Rotarians and Wichitans on Monday, had just pen enough left today to report that the score stood at 12 to 7, in favor of the Braves when hostilities ceased. The particulars will be gleaned when the memories of the participants grow more coherent and

connected. With 13 runs, and the accompanying plays, the official scorers could not be expected to contribute any more manual labor to public enlightenment.

Homor Barnes pleaded guilty to a charge of forgery and asked for a suspended sentence. The jury was considering the case at three o'clock this afternoon.

William Rain, charged with attempted forgery, pleaded guilty and was given a suspended sentence of two years.

William Johnson, a negro, pleaded guilty to a charge of theft of an automobile. He was given two years without a suspension of sentence. He was charged with stealing an automobile which belonged to T. R. F. Orr.

V. S. Frazier and family will leave tomorrow in their automobile for Lake City, Colorado, for their vacation.

ARCHANGEL THE GAY WAR-TIME CAPITAL NOW BUSY FIGHTING

Associated Press Staff Correspondent. ARCHANGEL—Six months ago Archangel was a gay wartime capital, with hundreds of Russian soldiers in its streets and very few of them at the front. Today it is becoming sober, business like and engaged in only one pursuit—fighting the Bolshevik.

troops in France, he came to Archangel to push the reorganization of the Russian army. His orders to the Russian soldiers and officers were as startling to the analytic, warlike Slavic population as they were laconic. "It has come to my attention," read one of them, "that there has been useless chattering about certain subjects among the officers. Henceforth, there will be no more babbling."

struction of army offices or non-coms. New Spirit of Patriotism. The city feels keenly this new spirit of patriotism. The other failed to report 2x duty, the newspapers put them to disgrace by publishing their names in display type.

her men and dock hands for the mobilized army makes no distinction of class or wealth. No one doubts that Allied assistance is still necessary, as the population of the North is too small to produce a large force, but, to all evidences, the Russians here have found themselves and can play a constantly growing part in their own civil war.

AIR MAIL SERVICE N. Y. TO CHICAGO IS INAUGURATED TODAY

WASHINGTON, July 1.—Air mail service between New York and Chicago was inaugurated today with a

six-hour service. The first plane left New York at 8:55 a. m., flew to Belmont, Pa., at the rate of 123 miles an hour and there transferred its mail to another plane which reached Cleveland at 9:30 a. m., in time to transfer the mail to the regular Cleveland-to-Chicago machine.

CHOICE ACREAGE IN THE NEXT BIG POOL

ONLY A FEW HUNDRED ACRES FOR SALE—BY ORDER OF BOARD OF TRUSTEES. We own six thousand acres on the great North Electra Anticline, just west of Burk-Wagoner anticline. OIL OPERATORS and GEOLOGISTS believe it is the next big pool along Red River. TEN WELLS starting just adjoining us. We ourselves shall develop most of our acreage, and are offering only the following for sale, in 10-, 20-, 30- or 40-acre tracts, subject to previous sale or change in price without notice.

Table listing land parcels with block numbers, acreage, and prices. Includes entries for Block No. 154, 145, 146, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200.

Our own prices advanced \$10.00 to \$100 last week. Several pieces sold at the advanced prices. Still our acreage, on the best oil structure of the field, is cheaper than many tracts adjoining us. For example, our block 301 is \$300 per acre, and a block next to it, owned by other parties, is priced at \$500.

WE HAVE PRICED TO SELL AND TO MAKE THE PURCHASER GOOD MONEY

When our present listings are sold, not another acre will be placed on the market. We are developers. If You Are Sorry You Were Not In on the Burk-Wagoner Pool, Get In on the Next Big Pool While the Prices Are Within Reach.

"OIL CREEK OIL COMPANY"

\$15,000 for every \$100 invested is what Fowler Farm paid its stockholders. The Fowler was a rank "WILD CAT" with only three hundred acres, yet when the golden sands were tapped every stockholder was made wealthy. From this lonely "WILD CAT" has sprung the wonder pool of the world—BURKBURNETT. Hundreds of millions of dollars have changed hands, thousands of men have been made rich. Burkburnett a year ago, a little country town of less than one thousand inhabitants, is today the center of the oil world with probably a population of twenty thousand. It seems like a fairy story, yet we know it to be true. It is but the history of one oil field following a discovery. If in your mind you're able to calculate the immense wealth developed in Wichita county in the past year, please remember it is all but fruits of the lonely "WILD CAT" out among the sand hills of Red River near Burkburnett. To W. L. Fowler and his "WILD CAT" must be given the credit of bringing to Wichita county those hundreds of thousands investors and those hundred of millions of dollars. The "OIL CREEK OIL CO." is another "WILD CAT." We claim nothing else but in our wildest wild cat dreams we can be no wilder than was the Fowler Company of a few months ago, yet how much greater the opportunity for gain the "OIL CREEK OIL CO." with its 3005 acres surrounded by four deep tests now drilling, offers to the public—the biggest and best and richest wild cat opportunity ever placed before the investing public. How often in your minds have you said, "If I could have had the opportunity to put \$100 in the Fowler." Now when a better opportunity is knock at your door,

"DON'T HESITATE"

Here are some facts as to who, where, and what the "OIL CREEK OIL CO." is. Our capital is \$100,000, divided into 10,000 shares at \$10.00 each. Experience teaches us that a large majority of the wild cat oil companies "blow up" and accomplish absolutely nothing on account of not having sufficient capital with which to do the work. They must either pull up pegs and quit or else sell off the company's acreage in order to meet the necessary expenses. We have chosen a better way. We have made our capital sufficiently large to enable us to give our stockholders a sure enough deep test. We will buy and own our own machinery, a new Standard outfit complete, insuring our investors a safe and complete test. We will start drilling in the near future. Our 3005 acres are located seven to ten miles northeast of Ardmore, Okla., in the horseshoe bend of Oil Creek and Washita River, same being 2190 acres in Carter county, 815 acres joining in Johnson county. We are in three and one-half miles of the railroad.

The management of our company is vested in a board of five officers, all of Wichita Falls, Texas. Read and use your own judgment as to whether or not you think these men will give you a fair and square deal.

DR. F. R. COLLARD, President. E. H. EDDLEMANN, Attorney, Vice-President. W. C. LOVELACE, Real Estate Dealer, Secretary and Treasurer. A. R. HOLMAN, Oil Producer, Trustee and Field Foreman. O. A. JONES, Asst. Cashier of the City National Bank, Director. REFERENCE—ANY BANK IN WICHITA FALLS.

Remember this stock is open for only a short time. It is going fast and will soon be sold out.

Gentlemen:—Enclosed find my check for \$... for which please enter my application for... shares, par value \$10.00, in the OIL CREEK OIL CO., fully paid and non-assessable. One-eighth royalty; absolutely no fifty-fifty proposition.

NAME... ADDRESS... TOWN...

"HELP US TAME THE CAT." Fill out blank and mail it in to our office and receive certificate. It is impossible to tell how much one share of this stock will be worth when we hit Oil, and remember we have 3005 acres in good structure and when our dream is true, we will get ours, and so will you.

Market Report

COTTON MARKET

NEW YORK, July 1.—The cotton market was very quiet before the publication of the government report today. Cables were relatively easy and the weather map showed clearing conditions in northern sections of the belt, with the opening here eight to 20 points lower in consequence. There was only light scattering liquidation, however, and after selling at 33.40 on the call, October rallied to 33.70 or two points above last night's closing on covering and Southern buying.

The government report was followed by violent fluctuations. There were selling orders around ring for exception should the condition be 70 or above, which caused a sensation. A sudden uptick to 32.85 for October or 33 points under last night's close. When the closing of 30 points had been discounted, the indicated crop of 10,986,000 bales appeared to be a surprise and the market recovered even more rapidly than it broke with October selling at 33.90 or 22 points net higher.

Trading was quiet during the early afternoon with fluctuations irregular. October ruled around 33.60 or about 30 points off from their best under realizing.

The cotton market closed barely steady.

New Orleans Cotton.

NEW ORLEANS, July 1.—The cotton market opened with small trading today, prices having no decided trend and evening up trades coming from both sides. Initial trades were two to seven points higher, after which the market dropped to a level of three to eight points under yesterday's close. Half an hour after the opening, the leading months were at a net rise of four to five points.

Following the bureau report at 10:00 o'clock there was extremely heavy liquidation on which prices of the most active months fell 70 to 71 points. The low percentage of condition and the small indicated crop, however, quickly brought in new buying of consequence and a strong surge occurred which carried the market 118 to 125 points up from the low. The trading months were 23 points over yesterday's close. At 2:00 pm there were four to seven points under yesterday's final prices. Liquidation was again pronounced in the afternoon and at 1:00 o'clock prices were 44 to 47 points under the close of yesterday.

The cotton market closed steady at the decline, at a net loss of 63 to 71 points.

Liverpool Cotton.

LIVERPOOL, July 1.—Cotton spot quiet; prices unchanged. Good middling 31.24; fully middling 29.74; middling 29.14; low middling 18.39; good ordinary 16.74; ordinary 16.21. Sales 3,000 bales, including 2,400 American.

Receipts 100 bales, all American.

Futures closed quiet: July 19.99; October 19.21; January 19.28; March 18.98; May 1.88.

Mrs. John Gould received a message from her husband, Lieutenant John Gould, this morning announcing his arrival from overseas.

GRAIN AND PRODUCE

CHICAGO, July 1.—New advances took place in the corn market today, owing largely to the fact that need of liquidation in July contracts on the part of unlicensed dealers was at an end. Opening prices, which ranged from 1/4c to 1 1/4c higher, with September \$1.77 1/2 to \$1.77 1/2 and December \$1.55 to \$1.55 1/2, were followed by moderate additional gains.

Oats were firmer with corn. After opening 1/4c to 1/2c up, including September at 88 1/2 to 88 3/4, the market continued to ascend.

Provisions reflected the strength of hogs and grain.

Bullish sentiment received some impetus from belief on the part of many dealers that beer manufacture would not be stopped and that therefore barely continuing demand from brewers would not tend to displace corn as a feedstuff. The close was unsettled 1/4c to 3/4c net higher with September \$1.78 1/2 to \$1.78 1/2 and December \$1.56 to \$1.56 1/2.

Subsequently commission houses became fair buyers as there were sharp resulting new upturns.

NEW YORK STOCKS

NEW YORK, July 1.—Stocks were irregular and hesitant at the opening of today's trading, probably as a result of yesterday's higher rates for call loans, but gains more than offset initial declines. Industrial alcohol, General Motors and American Smelting were the chief reactionary features, while motor specialties, chiefly rubber shares, made further advances with Baldwin locomotive, United cigars, American can and low priced rails.

The break in rails which ranged from one to five points among investment issues and the maintenance of high money rates, unsettled the list at mid-day. Prices soon rallied, however, on the increased strength of food equipment, copper and shipping shares.

United State steel's brisk rise to its best quotation in several weeks was the outstanding feature of the active final hour, other leaders increasing their gains. The closing was strong.

Final prices today on liberty bonds were: 3 1/2's 99.34; first 4's 94.90; second 4's 92.88; first 4 1/2's 95.14; second 4 1/2's 94.10; third 4 1/2's 95.08; fourth 4 1/2's 94.04; Victory 3 1/2's 100.14; Victory 4 1/2's 99.96.

MARI-HERRLING SURVEY, JUST SOUTH BLOCK 820

A STATEMENT TO EVERY INVESTOR

READ THIS—The president of the P. G. & J. S. Oil Company announces their well in the center of Block 820 had struck the sand at 1648 feet and that they have drilled two feet into a very rich sand. Indications are very favorable for a big well. They are waiting for pipe line. We are less than 2000 feet south from this property. When this well comes in, our property alone will be worth twice the capitalization of the company.

We believe we will sell out immediately and advise our friends to wire for reservation of this stock.

Buy While You Have a Chance to Get It at Par!

The men who have attached their names to this announcement are men of the highest business standing. They are all experienced oil men and understand managing the affairs of an oil company.

MIDST THE EXCITEMENT

Horseshoe Bend Will Drill In Soon, Now 200 Feet from Sand. They Are 1000 Feet from Us. Get Gold Point NOW.

Our well will be drilled on a Turn-Key basis and monthly statements will be mailed to each stockholder.

The P. G. & J. S. Oil Company advised out representatives that they were setting casing and expect to bring in their well soon.

We are just south of this company and we just can't see how you can lose. oYu take no chance. It's a cinch.

TRANSIT TRAIN 3 MILES LONG TO CROSS CONTINENT

PLAN TO MAKE JOURNEY OVER
THE LINCOLN HIGHWAY
IN SIXTY DAYS.

PLAN TO TEST EFFICIENCY

Will Demonstrate Inestimable Value
of a System of National
Highways.

Special to The Times.

WASHINGTON, July 1.—By order of the war department a motor transport train, three miles long, will leave Washington on July 7 and cross the continent to the Pacific coast, reaching San Francisco over the Lincoln Highway.

This long journey is to be made in 60 days. It will serve as a test of the efficiency of the army's transport service, but what is considered more effective, will demonstrate to the nation the inestimable value of a system of national highways.

The plans for the adventure have been completed by the war department. All equipment has been assembled and the personnel detail assigned. This transport train will be the heaviest in the history of any army. It will be even heavier than any single unit of the huge transport service used to keep the armies of the Allies supplied along the French front.

No motor transport train of any nation has ever attempted a continuous journey of 3,000 miles in 60 days with full war equipment. The motor trucks will carry not only their own supplies to last the entire journey, but will carry supply and repair units, as well as full complements of men and officers. The marching orders call for an average of 75 miles a day. This schedule necessitates a speed of 15 miles an hour all the way from Washington to the coast, no matter how unfavorable the weather or geographical conditions.

The war department, through the chief of the Motor Transport Corps, Brig. Gen. Drake, has officially notified the War Camp Community Service of the departure of the transport train and requested it to care for the men all the way from Washington to San Francisco, sending the itinerary of the line. The War Camp Community Service has been authorized to make official announcement of the event for the war department, and has already dispatched special letters with instructions to all of its organizers and field workers along the line of march. Plans for the men's care and recreation during their brief evenings in each community have already been perfected.

The decision to send three miles of army motor trucks across the country was reached several days ago in Washington after consultations be-

tween General Drake in command of the transport service, Col. Owen Sweeney and Lieutenant Colonel J. H. Hinkle working in close collaboration with the Lincoln Highway Association.

The most picturesque features of the long journey will be the masses of motor vehicles will wind its heavy, bumping way over the Rocky Mountains. It will cross by way of the Continental Divide. The engineering staff of the army has carefully figured out the journey so that no mechanical or engineering obstacles stand in the way of its success.

Start on July 7.

The start is to be made on the morning of July 7 from Lafayette Square in front of the White House. The van of the train will immediately leave the Capitol, heading for Pittsburgh. The course then followed will take the soldiers trucks through Ohio, Indiana, Illinois, Iowa, Nebraska, Wyoming, Utah and Nevada.

The transport trucks will finally drop down the western slope of the Sierra Nevada Range to Sacramento, California and then on to San Francisco. For many years the Lincoln Highway Association has endeavored to secure the backing of the government in its project to build a thoroughly sound ocean to ocean highway. The proposed journey of the three miles of motor transports is the first official assistance that it has received in its project.

In many states good roads have been campaign slogans and many governors and mayors have been made of unmade according to their ideas on this public question. The war department in its official statement to the War Camp Community Service called attention to the political importance of good roads throughout the country.

It is planned to establish a good roads day in the various states on the days the transport convoy is passing through them. The schools will be closed as on holiday and the train will be welcomed along the route by various civic organizations.

Because of the importance of good roads the cross continent journey of the Motor Transport Convoy will not only interest the nation as a spectacle of military efficiency and preparedness, but will appeal to every business interest. Good roads mean good business. From a military standpoint the necessity for good ocean to ocean highways is incalculable.

Governors to Great Train. The governor's staffs of each state will greet the motor train and escort it from the eastern to the western boundary of the state line, where in that it will be met by the officials of the adjoining state. When the convoy reaches California at the western terminus of the Lincoln Highway, arrangements have been made for Governor Hiram Johnson to preside over the elaborate welcoming ceremony.

The military effect of the journey will be even greater than the civic lesson that it will teach. It will demonstrate the practicability of getting a huge army across the continent in 60 days.

It is also proposed to have the President of the United States dedicate a tablet in Lafayette Square marking not only the starting point of the cross continent army jaunt, but also serving as the original point of the national highways in the country. The tablet will consist of an engraved map of the United States. All the national highways, now and later authorized will be filled in and gold.

STATE DEPARTMENT TAKES UP MATTER OF CORRELL MURDER

Associated Press.

NEW YORK, July 1.—The state department has taken up with the government of Mexico the murder of John W. Correll, American citizen, the maltreatment of his wife, and the attempted murder of his son by bandits near Tampico, Mexico, on June 16, 1919, according to a statement today by the National Association for the Protection of American Rights in Mexico.

Correll, with his wife and 16-year-old son, went to Tampico from their home at Ada, Okla., about 10 weeks ago, the association said it was informed in a signed statement by Mrs. Correll and her son.

Mrs. Correll's statement, the association said, asserted that about 10:00

a. m., June 16, 40 Mexicans raided the Correll house at Colonia, 20 miles northwest of Tampico, wrecked the interior, shot down Correll, shot at the boy who fled into the brush, and then assaulted Mrs. Correll.

TWO-CENT POSTAGE IS NOW IN EFFECT AGAIN

By United Press.

WASHINGTON, July 1.—The two-cent postage rate, abandoned because it couldn't keep pace with war prices, comes back into its own today. The old two-cent stamp takes your one-ounce letter any place in the country.

The one-cent circular rate is again restored, as is the one-cent local rate, and postal cards no longer require a two-cent stamp.

Second class rates will also be changed. These will be based on the amount of advertising newspapers and other publications carry, and the zone system.

Outside county of publication the rate on the portion of publications devoted to matter other than advertisements, 1 1/2 cents a pound. If space devoted to advertisements does not exceed 5 per cent of the total space, the rate of 1 1/2 cents a pound applies to the entire publication.

On the portion of publications de-

vised to advertisements the new rates are:

First and second zones	1 1/2c per lb.
Third zone	3c per lb.
Fourth zone	3c per lb.
Fifth zone	3 1/2c per lb.
Sixth zone	4c per lb.
Seventh zone	4c per lb.
Eighth zone	5 1/2c per lb.

On publications maintained by and in the interest of religious, educational, scientific, philanthropic, agricultural, labor or fraternal organizations or associations, 1 1/2c a pound for all zones on the entire publication will be charged.

There is no change in the free-county mailing privilege, nor in the rates on copies mailed for delivery within the county of publication.

NATIONAL BANK OF COMMERCE

BUY YOURSELF AN INCOME

Before you spend any of the money you earn on "having a good time" there are a number of necessities you MUST buy.

Don't forget that one of the most important of these necessities is an income to enable you to enjoy leisure in later life or to protect you in case of sickness or accident.

Start at once to buy yourself an income by depositing regularly a part of your earnings in the National Bank of Commerce at 4 per cent compound interest. As your account grows, the interest we pay on your savings will grow also and will thus become a steadily increasing income for you.

We welcome deposits of \$1.00 or more.

Our Future Home

THE NEXT BIG PLAY

Will be in South Central Clay county. The most important deep test in North Texas, the Texas Company well, is now down 3800 feet with very favorable indications. They expect to tap the Ranger sand at 4200. If this well comes in, it will put every acre in Clay county to \$100 and up. I am selling leases on 20-acre tracts near the center of Clay county at \$10.00 per acre, rental 50c per annum. Title good, abstract furnished for examination.

I will also sell a 20-acre lease in 34-2-17 Tillman county, at \$35.00 per acre, surrounded by deep tests. Abstract for examination.

Both of the above are on excellent structures.

THE UNIVERSAL CAR

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; any one can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

TWO INTERESTING WAR CLASSICS

By United Press.
 WASHINGTON, July 1.—An addition to the short list of historic messages of American commanders in the European war was made today.

Second division records disclosed the message of Maj. George S. Shuler, Sixth Marines, at Blanc Mont, capture of which was declared by French commanders to be the greatest American achievement of the war.

"We can not only hold them; we can knock them out of them."

The message, with a rough and purely American word, where the dash is used, was sent without change through regimental, brigade and division headquarters to General Gourard, one-armed French corps commander, directing Second Division operations.

Major Shuler's reply to a question by Lieut. Col. Thomas Holcomb, regimental commander, whether he could hold his position with the few men at his command against a counter attack, won him the Legion of Honor upon recommendation of General Gourard. He wears also the Croix de Guerre with two palms.

The Second was before Blanc Mont on October 7, 1918. The position was believed impregnable. Each division had tried five times to take it. French technicians said its capture by Americans was the greatest feat of the British advance on St. Quentin. They said it was far greater than Chateau-Thierry.

On October 8, the Americans attacked Blanc Mont. Shuler's battalion won a mound commanding the village of St. Etienne. In the afternoon a terrific barrage was laid down by the Germans, who counter attacked.

"Can you hold them?" the regimental commander messaged Shuler. His famous reply followed.

Another Second Division message—the only dramatic one published in the war department history—was of unknown authorship. Officers said it came from General Harbord, Marine Brigade Commander, Lieutenant Colonel Holcomb or Col. Harry Lee, of the Sixth Marines, or from Capt. (then Lieutenant) James F. Robertson, of the Second Battalion of the Sixth. It was written in indignant answer to an unpublished query, following reports that Germans had recaptured the hard-won village of Bouresches, adjoining Belleau Woods, and said:

"Have not given up one inch of ground. No report of prisoners taken with twenty-odd men."

Most famous messages that have become public were from Second Division commanders. General Harbord's contribution was at Chateau-Thierry:

"Hold this line at any cost."

It was First Sgt. Dan Daly, of the Marines—thrice recommended in various wars for the Congressional Medal of Honor and twice awarded it,

and in possession of the Croix de Guerre and D. S. C., who tightened a wavering line in Belleau Woods by yelling:

"Come on, you —! Do you want to live forever?"

Gen. L. S. Dpton, in command of the Ninth Infantry at Belleau Woods, told his men to hold their position with the 33rd Infantry and the Marines made up the Second Division—had gone past its objective; sent this reply:

"If the Crown Prince's army can't stop them, how can I?"

By United Press.
 WASHINGTON, July 1.—"Retreat? Hell, no!"

This famous American reply to a French order when Americans moved into the Chateau-Thierry sector for their test of fire, was at last being very clearly traced to a Marine captain.

It was stated authoritatively today that the staphylococcal answer, attributed for months to Gen. Omar Bundy, Second Division commander at Chateau-Thierry, despite his repeated denial, came from Capt. Lloyd M. Williams, 51st Company, Fifth Marines.

Six days later, Captain Williams, gassed and torn by shrapnel, died as he was placed in an ambulance.

A French division, exhausted by days of desperate fighting against the relentless German advance, was withdrawing down shell-torn roads around Chateau-Thierry, past the relieving Second Division.

Captain Williams' company of the Second, half doughboys and half Marines, with a sprinkling of navy medical men was awaiting the withdrawal of the French. They were taking for the first time the front-line positions which Americans were to hold against the pick of the German shock troops.

A French major, moving with his battalion along the dark road and believing a general withdrawal had been ordered, told Williams to follow.

"Retreat?" the American asked. "Hell, no!"

Williams reported the incident to his battalion commander, Colonel (now Major) F. W. Wise. The message according to officers who said they saw it was:

"French drawing back through us. French major ordered me to withdraw with him. I told him to go to hell."

—WILLIAM BRUCE O'CONNOR.

The company, with the rest of the Second, completed their relief and formed a line the Germans never broke. Captain Williams was killed six days later—June 12, 1918. Gassed and wounded by shrapnel, he was carried to the rear by four German prisoners. On the way back, a shell struck nearby. Two of the stretcher-bearers were killed and Captain Williams was thrown to the ground. He lived, however, until he was placed in an ambulance.

A distinguished service cross for extraordinary heroism was sent later to his home at Berryville, Va., where he had lived before he graduated from Virginia Polytechnic Institute. Since 1910, when he entered the Marines, he had made his home at Washington.

Though every hour of the following four weeks was filled with excitement, officers and men who heard of or saw the incident remembered it and repeated it. Then it followed the usual course of stories.

First the saying was attributed to the battalion commander, Colonel Wise; then to General (then colonel) W. G. Neville, commanding the Fifth Marines; then to Gen. James G. Harbord, commanding the Marine Brigade of the Second Division, and finally to General Bundy, division commander, according to officers.

General Bundy, now in command of Camp Lee, Va., when interviewed at Camp Lee by a United Press Correspondent, denied emphatically he had made the statement. He refused to discuss the incident for publication.

Officers of the Second Division declared flatly that Williams made the statement, and that passed along by word of mouth, its authorship had been credited to increasingly higher officers.

The message was a part of the records of the Second Battalion, Fifth Marines—now a part of the army of occupation—was stated.

SALESMEN NO LONGER PERMITTED TO USE SIDEWALKS

No longer will the pedestrians on the principal streets be importuned by the "brokers," who seem to be afraid that somebody will escape the fumes they are so recklessly distributing at prices to shame "Coal Oil Johnny" or Mr. Midas, himself.

No more will those impressionistic naps, that telescope and concertina distances in a manner never equaled by any of the old masters, or masters of ledgerdom, be exposed on easels and wall boards for free inspection of whosoever. The cheese knife with which acreage is carved into slices like a watermelon will be hidden from view.

The strident voices of the vendors offering the oddest shares that can possibly be heard longer on the waves, lieve into the huckster's dulcet per-

suasions to relieve him of his under ripe tomatoes and overdone bananas. All this is to be a thing of the romantic history of the greatest oil strategies of record and business will be conducted behind open or closed doors as may be.

It has been decreed that street hawking and vending of oil, and near oil merchandise must cease and Chief of Police Fred Smith has ordered his force to see that the law is enforced and the streets revert to the merchants and pedestrians.

Dental Notice.
 Our office will be open on Saturday afternoon. Drs. Nelson and White, dentists, 308 First Nat'l Bank building.

I BUY OIL STOCK
 If you have oil stock that you are unable to sell on the board, write me giving lowest price. I will buy certain Burkburnett townsite stock if the price is low enough. If you wish to buy townsite stock write me.

WON'T YOU GIVE YOUR ICE MAN A DAY OF REST?

In the spirit of fair play, we ask of our customers this favor, namely, that you please take enough ice on Saturday to last until Monday.

The drivers work steadily for long hours six days in the week. Can't we all arrange our ice taking so that these faithful employes can have at least a part of a day of rest.

We believe that you are in accord with the spirit that prompts us to make this request, and if all who can arrange to take enough ice to run until Monday will remember to do this, it means that the ice man will have just that many fewer deliveries to make on Sunday, and allow him to secure a little well-earned rest.

So please, everybody, let's take enough ice on Saturday to last us thru until Monday, but should you underestimate your needs, put out your card early and the wagons will serve you on their regular rounds.

MANY FAMILIES TO BE PROVIDED FREE DELIVERY OF MAIL

RELIEF MADE POSSIBLE BY THE PROMPT ACTION OF CITY COUNCIL.

FIVE THOUSAND AFFECTED

Inspector Here to Recommend Such Improvements As Necessary to Be Made.

Five thousand people in the neglected districts of the city will soon experience the benefits of an extension of free delivery mail service, and the congestion in the post office lobby will be relieved to a certain degree. The improvement was secured by the prompt action of the city council at the special meeting Monday night in giving assurance that about 25 street crossings, and as many alleys crossings would be constructed in the places pointed out by the post office inspector, within the period of six months, during which temporary service will be given with the expectation that it will be permanent.

The inspector spent a large part of the day visiting the locations where the improved service would benefit the greatest number of persons, in company with Postmaster Howard. It was discovered that in some cases an important group of houses could be reached by the building of a twenty foot alley crossing; in other places more than 100 people would benefit through the building of a single street crossing and the matter lost much of its serious aspect when it was realized how little in comparison was needed to raise the ban on so many people.

Mr. Howard appeared before the council, stated the position taken by the department and told them what he was authorized to do, and under what conditions. He said that the inspector was convinced of the necessity of prompt action and would recommend that additional carriers be given the local office, and that temporary service be commenced as soon as possible if the city administration would give assurance that the im-

PARIS IS PLANNING A TRIBUTE TO DEAD AND LIVING HEROES

By HENRY WOOD. (United Press Staff Correspondent) PARIS. (By Mail.)—France has just outlined the general nature of the victory celebrations that are to mark for France and the Allies the close of the war.

They are to last for three days, and it is planned to make them more imposing than any triumphal entry that has been staged since the days of the victorious return to Rome of the legions of the Caesars. France's victory celebration, imposing as it may be, will, however, also be a trifle more democratic and a trifle more human. The first day of the big celebration will be given over entirely to tribute to the memory of the dead. In all probability the millions of dead whose memory will be revered will far exceed the actual number of living troops that will be able later to march under the Arch of Triumph and down the Champs Elysees in the grand final triumphal march.

For the commemoration of the dead, the great Arch of Triumph will be draped in countless thousands of yards of mourning. An all night death watch will be maintained by picked troops, and on the morning of the beginning of the three days' celebrations, the widows, the orphans, and the surviving relatives of the millions who perished during the war will be escorted to the Pantheon where they will be buried and deposed on behalf

of France the ashes of dead soldiers gathered from the battlefields of France, and mixed with the earth of the battlefields, on which they fell and from which their remains were exhumed.

This national interment in France's temple of immortality will be symbolic of the interment of all the 1,700,000 French soldiers who gave up their lives in the great cause. On the second day will come that long-awaited event that for over four years has been the far-away dream of every French poilu—the victorious return to Paris of the regiments and divisions from the front, their passage under the great Arch of Triumph—and their triumphal march down the Champs Elysees to the Place de la Concorde, then the sweep down the great boulevards to the Place de la Republique, with every inch of the way jammed with wives, daughters, mothers and sweethearts. The poilu has long dreamed that that moment would repay him for all the years and sufferings of the war.

On the last day of the celebrations, all of the French provinces will gather in the Tuileries gardens and welcome back to their arms their restored sisters of Alsace and Lorraine. Delegations from each of the French provinces, composed largely of women and girls, and wearing the native costume of their particular province, will participate in this festival.

France has no intention of barring her Allies from the big celebration and detachments of Allied troops will participate in the big triumphal march under the Arch of Triumph and down the Champs Elysees in the grand final triumphal march.

When the French poilus and the soldiers of the Allies march through the Arch of Triumph the flags which Germany captured in the course of the 1871 fighting, and it is hoped in Paris that the regimental emblems will be on hand for the great celebration. For nearly fifty years these flags have been on exhibition in Berlin.

News and Views of Interest to Sport Fans

DETAILS OF THE BIG CONTEST PERFECTED AT A CONFERENCE BETWEEN INTERESTED PARTIES

TOLEDO, OHIO, July 1.—Jess Willard and Jack Dempsey will go into the ring for the heavyweight championship contest here Friday with bare hands and all bandaging and taping will be done in view of the spectators and seconds of the heavyweight rivals. This announcement was made today by Tex Rickard, promoter of the fight. The decision to request the boxers to bandage their hands in the ring is regarded as a victory for Willard who protests against Dempsey's plans to adjust the tape and bandages on his hands while in the dressing room. What amount of tape and bandages will be used has not been determined, but Willard said that he would insist upon a thin layer of cotton surgical bandages and only enough tape to hold the bandages in place. Rickard will make a decision in this regard tomorrow.

Final Details Completed. Final arrangements regarding the details of the big contest were completed at a conference between the interested parties—the camp knows just what is expected of the principals and their seconding brigade. The boxers will wear specially made five ounce gloves and each will be allowed to have five seconds in his corner including the manager or adviser as the case may be. The toss for choice of corners will not be until the day of battle.

Willard inquired whether Dempsey intended to grease his body as he heard was being done previous to the daily workouts. He said that it did not make any difference to him which way the challenge appeared provided he knew in advance and could do likewise.

never greased his body at any time and had no intention of doing so for the championship contest. This statement cleared the situation and there will be no anointing of the body with oil matter at any time during the last few hours before the clash. While this is a favorite trick of wrestlers it is not the usual custom among boxers, although offering certain advantages in a long fight. The oil or grease, rubbed into the skin until absorbed by the pores, immediately comes to the surface again when the athlete begins to perspire and soon the body is so slippery that it is impossible to secure a firm hold or clinch in either wrestling or boxing as the case may be.

Elaborate preparations are being made to report the coming contest on a scale exceeding anything of the kind at previous ring battles or any weight championship. The record established at Reno with the gathering of newspaper writers and photographers for the Johnson-Jeffries fight will be surpassed here. Noted sport and special writers from all parts of the country and Canada are present or enroute and hundreds of seats have been reserved in various sections of the arena for their accommodation. There will be more than fifty wires set up at the ringside to carry the reports from the scene of the conflict to every portion of America and to cable points for European service.

Special airplane service for the photographers has been planned and from these low flying planes expert camera men, some of whom served in the same capacity with the army abroad, will take film of the fighters in action and the scenes in and around the arena.

Immediately the contest is finished several of these planes plan non-stop flights to Chicago and New York in order that the photographs may be available for reproduction in Saturday papers. The most ambitious proposal however, is a scheme to fly with the pictures to the Pacific Coast in two relays.

These photographers will have no connection with the moving pictures taken at the ringside for exhibition purposes. The movie men will occupy a platform erected atop a high steel tubular column from which point of advantage they can film the ring scene and every portion of the stadium. This column has been so placed that it will not obstruct the view of any of the spectators and the height of the platform lifts it above the line of vision of the loftiest row of seats in the arena.

HELMIE ZIMMERMAN

Helme Zimmerman, the aggressive third baseman of the Giants, is having the best year of his career. Helme is attending strictly to business and has done more than his share to keep McGraw's team out in front. Zimmerman is a great player when he has a mind, and this season he is attending to every detail of play.

FAST BOUT STAGED BY OTTO WALLACE AND BOBBY WAUGH

Otto Wallace, of Milwaukee, and Bobby Waugh, of Wichita, met in a twelve-round boxing bout at the Wichita theater last night in what was the most evenly matched and exciting exhibition that has been staged here in many moons. It was the first occasion here that Waugh has met a man that would mix the fight with him and he was forced to extend himself all the way. The crowd, by far the largest in attendance, was in fine humor for a real mix-up and they certainly got what they wanted. Waugh being better known locally, naturally had the majority of the followers of boxing fans, but Wallace was strong with a large number.

Wallace seemed to carry the fighting to his man all the time, and many of the audience thought the scrap should be a draw, but the opinion expressed in the press box gave the decision to Waugh by a shade. It was a nip-and-tuck affair throughout, Waugh taking the first, fourth, sixth, ninth and eleventh rounds, while Wallace took charge of the third, fifth, seventh, eighth and twelfth rounds, as a draw. It was certainly an evenly matched contest, and was like unto the old ball game, every other person saw it in a different way.

The first preliminary was between two youngsters who put up a spirited, less-than-serious affair, followed by two more of the featherweight class for three rounds. The third event was between B. Greig and Morris Levine, that was scheduled to go four rounds but Levine decided he had enough in the third, and called it off by issuing a challenge for a return bout with his opponent for next Monday. The fourth was another feather-weight affair and was followed by a good battle royal between four negroes, and it was a real battle royal.

McMullen and Kelley went in for four rounds in the sixth match, but it was too much Kelley, who took every round.

During the intermission before the main "go", a couple of colored comedians entertained the audience with songs and buck-and-wing dancing that was thoroughly enjoyed. A colored jazz orchestra furnished music for the evening.

Telegrams were read at the ringside from Benny Cordova of Mexico and M. Howell of Salt Lake City, challenging the winner of last night's exhibition. A message was also read from Jack Dillon who wants to come here for a bout with some good man, and the wires are now busy getting these men together.

Messrs. Fowler & Newell are to be congratulated on the manner in which last night's program was carried out, and the quality and quantity was all that could be asked for, and while everyone present wanted to see their respective candidate win, all enjoyed the program.

VERNON IS TO PAVE FORTY-TWO BLOCKS

VERNON, July 1.—The City Commissioners at a recent session ordered the paving of forty-two additional blocks of street in Vernon. Estimates have been received on material from Oklahoma and in all probability the city officials will advertise for bids at an early date.

Attend the Catholic Church lawn party at Ninth and Holliday, Wednesday evening.

Baseball Results

AMERICAN LEAGUE

Club	Won	Lost	Pct.

Baseball Stages Peace Comeback

By H. C. HAMILTON, (United Press Staff Correspondent)

NEW YORK, July 1.—The Cleveland Indians are potential pennant winners. Given decent pitching the team will blast its way to the top of the American league, but—saddest story of the year—the Indians are unfortunately afflicted with pitchers who are only fair.

Cleveland fans picked their team early in the year to win the American league championship and decided to let it go at that. So far the Indians haven't set the circuit afire, but they are dangerously close to the top and playing good baseball.

Attendance at the Cleveland park is exceeding the most optimistic dreams of Jim Dunn. Pre-war crowds are fading into insignificance. The team has fortunately met with very fair weather in most of its home games and has been able to play considerable of its schedule, no mean asset at this stage of baseball.

In Ray Chapman, Lee Fohl, manager of the Indians, has one of baseball's greatest shortstop and Bill Wamburgans, working alongside Chapman at second base, is far from the worst keystone guardian in the big leagues. The addition of Larry Gardner to the Indian infield probably has done more to put strength into the club than any single thing since last year. The veteran third baseman was sent to Philadelphia by Boston some time ago, braggied as a has-been—after he had done noble work with the Red Sox during the years they won pennants. He didn't fret about it, but went ahead with his work and was sent to Cleveland shortly afterward in a trade for Bobby Roth. His record since joining the Indians speaks for itself. His hitting is only slightly below the big average he generally had while in Boston.

Manager Fohl always has been a good judge of pitching talent. The main trouble with Fohl's pitchers has been that they didn't last. Several phenoms have been uncovered for the Indians in late years, only to bloom and then quickly fade.

In Sandy Uhl, youngster picked off the Cleveland lot, Fohl seems to have snared a comer. Phillips, another rookie from the Southern Association, has won his spurs.

Juxedo TOBACCO

SPECIALLY PREPARED FOR PIPE & CIGARETTE

Your Nose Knows

Beats Them All! The New "TEA-FOIL" PACKAGE

It's soft and pliable—decreases in size as the tobacco is used—tobacco does not cake in the package—no digging it out with the finger. Keeps the tobacco in even better condition than tin. Now, don't you owe it to yourself to buy a package and give Tuxedo a trial?—Not quite as much tobacco as in the tin, but—

Dead Weights on Live Tires

Every time your truck strikes a hole, the load, dead, inanimate and tons heavy, heaves and crashes down on the rear axle and mechanism.

And with but one real shock absorber—the tires!

Still if the tires have no real give, no marked resilience, the mechanism must retain the shock—and depreciation and breakdowns are hastened.

Here is where GOODRICH DE LUXE Truck Tires daily save many dollars for operators in upkeep and depreciation.

So deep and lively are DE LUXE treads as to absorb within themselves the most staggering road jolts. Then again they put more working miles under the load—because there is no tread rubber hidden below the top level of the steel channel base.

In consequence, whatever your class of service, you may rest assured DE LUXE is the best, most economical "shock absorber" you can put between road and load.

S. Bemrod Auto and Supply Co. 712-714 Eighth Street.

GOODRICH DE LUXE TRUCK TIRES

DUTY TO COUNTRY
KEYNOTE OF BANK
BUSINESS LETTER

America is the introductory subject of the July business letter of the National Bank of Commerce in which that institution urges every citizen to "forget party politics and take his stand, whatever it may be, with the unshakable determination that his duty to his country will come ahead of every other consideration." The letter in part follows:

The issue before the country today in America. Therefore it is imperative that every national problem that comes up for solution shall be approached with the main thought in mind—the welfare of America, first, and all else thereafter. It makes little difference how we differ in politics or any other way so long as our guiding star is America. There are forces at work trying to undermine our established form of government and it is to the credit of the country that these forces are very distinctly not of American origin. However, they cannot be argued away but must be met in a straightforward manner and obliterated.

They constitute the main liability which the country has to face at the present time but even such a liability can be turned into an asset through courageous action. We have in America a country that is truly representative of the people, a country which gives to the child of the most poverty stricken immigrant the same opportunity for success as is given to the child of a hundred generations of Americans.

Our material wealth and resources are beyond computation. We stand in the front line of world progress and service. We have many great privileges but privileges always mean responsibilities and we must realize that the best possible way in which we can meet these responsibilities and do our duty to civilization and to the world at large is by first and foremost doing our duty to our own country.

Every American citizen must determine that in connection with all great questions, including the peace treaty, that have to be settled during the next few months he will forget party politics and take his stand, whatever it may be, with the unshakable determination that his duty to his country will come ahead of every other consideration.

It is not too much to say that the eyes of the entire civilized world are turned toward the wheat crop of the United States. It is therefore very gratifying to know that according to government estimates this season's wheat crop will yield one and a quarter billion bushels with the possibility of a still higher yield. This compares with last year's yield of 917,000,000 bushels and with record breaking 1915 crop which produced 1,036,000,000 bushels.

On this basis of 1,250,000,000 bushels of wheat to be harvested, America will have a surplus of some 650,000,000 bushels for export and in addition there is in sight over 100,000,000 bushels of rye, the combined wheat and rye crops constituting the largest harvest on record.

An outlook like this is indeed most encouraging for a crop of such magnificent proportions will do more to create settled conditions here and abroad than many billions of words and promises regarding any form of national or international political paradise.

The Question of Wages. In a letter to the secretary of labor, J. Ogden Armour recently expressed the firm belief that the present level of high wages will continue for several years. Mr. Armour is one of the best posted men in the country on this subject and he gave the following six fundamental reasons for the conclusion at which he has arrived:

- 1. The practical stoppage of immigration since 1914.
- 2. The retention by the military and naval establishments of nearly 2,000,000, which "may continue indefinitely."
- 3. The creation of new industries, such as shipbuilding and the manufacture of chemicals and dyes.
- 4. The urgent demand for building and construction of every class, long held back by the war.
- 5. The shortage of the world food supply.
- 6. The proportionately higher level of commodity prices existing practically all over Europe.

The Oil Age. The steady growth of the oil industry emphasizes with increasing clearness the fact that we have arrived at what is unquestionably the oil age. Oil has definitely succeeded coal and iron as the one natural product which has the right to give its name to the present period of man's career.

Naturally, the immediate result of this condition is a tremendous boom in the oil industry and the investor should therefore exercise the greatest care in finding out definitely the standing of any oil enterprise in which he is contemplating placing his money. During the first five months of the current year no less than 610 oil companies have been started with an aggregate authorized capital of nearly \$473,000,000. During the entire year 1918, only 820 oil companies were launched with aggregated capitalization of \$439,480,000.

Some of these companies are quite reliable, but a great many of them are speculative and very risky, taking advantage of the activity in the industry to attempt to make money from the earnings of others. Therefore the following note of warning is sounded: Before you put a dollar in any oil company, no matter how high sounding and reliable its prospects may appear, go and talk the matter over frankly with your banker. By so doing you may save yourself many regrets.

DON'T OVERLOOK THIS

It is indeed a question how anyone could live without the aid of the rubber goods ordinarily sold in a drug store. What would mother do without her Hot Water Bottle, Fountain Syringe or Rubber Gloves? What would baby do without its Nipples and its Tubes and its Rubber Toys? What would man do without the various rubber items for his comfort, and the doctor and the nurse without the thousand and one rubber needs for the sick room and the comfort of the convalescent? We carry a complete line of Rubber Goods, including practically everything that home hospital, nursery or individual could want.

All of the very finest quality, all are guaranteed as such, all are fairly priced because price is based on value and service as well as quality. If there is anything in Rubber Goods you want, give us the opportunity to supply it. It will be to your advantage.

Secretary Harrison, of the chamber of commerce, returned to the city this morning from a visit to Austin in the interest of the senatorial re-districting plan advocated by the local commercial organization. He said that the prospects of any action that might be favorable to a change before 1921 are not glowing. The El Paso interests seem to be satisfied and many of the counties most vitally affected are in no shape for an insurrection, their representatives being satisfied, personally and politically. Governor Hobbs is willing to submit to the legislature any measure that may be prepared for the purpose, but a counting of noses would appear to make such action superfluous.

The barbed wire entanglements around the present districts are in a good state of preservation and those airtight hedges of long growth have been so strengthened by the recent copious showers that they would have to be whittled out by the roots to budge them.

What Is Good Coffee?
There are lots of good coffees, just as there are lots of good apples. One person likes the flavor of one and another likes another. So just what YOU call good coffee is a mooted question. In blending we try to strike a happy medium and produce a product that will please the average palate. Our "WHO CAN BEAT IT" suits more people than any blend we know.

BUT OF ONE THING WE ARE CERTAIN
That any coffee to be good in the cup, must be FRESH roasted, FRESH ground, FRESH made, in FRESH water—and served immediately and NEVER, NEVER boiled.
WE ROAST COFFEE EVERY DAY
