

SUSPEND OIL OPERATIONS FOR FIVE DAYS

Say Packers Control 574 Companies

By Associated Press. WASHINGTON, July 11.—An approaching packer domination of all important foods in the United States and an international control of meat products with foreign companies seems a certainty unless fundamental action is taken to prevent it, the Federal Trade Commission declared today in part one of its report to President Wilson on the "extent and growth of power of the five packers in meat and other industries."

"A fair consideration of the course the five packers have followed and the position they have already reached," said the report, "must lead to the conclusion that they threaten the freedom of the market of the country's food industries and of the by-products of the industries linked therewith. The meat packer control of other foods will not require long in the history of the packers. The growth is intertwined with illegal commissions, rebates and with undisclosed control of corporations," the report urged the importance of full publicity of corporate ownership for all industries.

"As a device for securing control there does not exist adequate law," the report said. "In its absence unfair competition may run its course to the detriment of the public and the ruin of competitors without the secret ownership being suspected and consequently without complaint to the commission or investigation of the facts. The competitor is in jeopardy so long as he has not the knowledge of true ownership and the public is entitled to such knowledge."

"Handle Commodities. Alleged that the 'big five' packers—Swift & Co., Armour & Co., Wilson & Co., Morris & Co., and the Cudahy Co.—jointly or separately wield controlling interest in 274 companies, minority interest in 35 others and undetermined interest in 93—a total of 402 companies—and that they produce or deal in some 775 commodities, largely food products. The report gives the names of growing packer invasion into related and unrelated industries:

"In addition to meat foods, they produce or deal in such various commodities as fresh tomatoes and bean strings, leather and cotton seed oil, breakfast foods, flour, curled hair, soap and washing powders. Their branch houses are not only stations for the distribution of meat, and poultry, but take on the character of wholesale grocery stores, dealers in various kinds of produce and jobbers to special lines of business."

"They have interests large enough to be a dominating influence in most of the services connected with the production and distribution of animal food and their by-products, and are reaching out for control, not only of substitutes of animal food, but of substitutes for other lines into which the integration of their business has led them. They are active in cattle loan companies making the necessary loans to growers and feeders of livestock; are interested in railways and private car lines transporting meat and machinery; are active in stock yards companies—the public market for the bulk of food animals; and in livestock trade papers on which growers and feeders rely for news."

"They are interested in banks from which their competitor packing houses borrow money; in companies supplying machinery, ice, salt, materials, boxes, etc., to themselves and their competitors; they are principal dealers on the provision exchanges where future prices in standard cured animal products are determined; they own their subsidiary companies that produce hides, oils, fertilizer material and other crude animal by-products; purchase from other packers these crude by-products, and themselves carry the manufacture thereof to a further stage than most of their competitors."

"They are important factors in the leather industry, in oleomargarine and lard substitutes, in cotton seed oil, in fertilizer, in soap, in glue, etc. Their vast distributing system with the advantage arising from the control of private cars, cold storage and a set work of branch houses, has enabled them to extend their activities on a large scale into poultry, eggs, cheese, butter, rice, breakfast foods, canned vegetables, soda, fountain supplies and other lines."

"The American packers control are associated with 17 meat companies or holding companies in South America, according to their reports to the commission."

UNDECIDED ON THE DAYLIGHT SAVING LAW

President Is Considering Petitions Before Passing on the Measure.

PUTTING IN TIME ON FRENCH TREATY SPEECH

Itinerary for Swing Around the Circles Has Not Yet Been Completed.

By Associated Press. WASHINGTON, July 11.—President Wilson still had before him today appropriation bills passed recently by Congress and it seemed doubtful whether any of them would be signed this week. The President was understood to feel that the measures, carrying appropriations of more than \$2,000,000,000 deserved deliberate consideration.

It was indicated at the White House that the President was devoting considerable attention to the rider on the agricultural bill repealing the daylight saving law. He has before him many petitions, some urging that he sign the bill and others that he veto it. So far as could be ascertained the President's mind still was open.

No appointments made. The President's itinerary for his "swing around the circle" remained uncompleted today. It was understood that several itineraries had been suggested.

Accompanied by Mrs. Wilson, the President spent more than an hour this afternoon on the golf links at a country club near Washington. Returning to the White House at 11 o'clock he went immediately to his study and attacked the mass of official business which awaited him.

The President has mapped out a definite program for dealing with the matters before him and it was said this would be rigidly adhered to until the start of his speaking tour. On the advice of his personal physician the President will go to the golf links every day for exercise.

Mr. Wilson was said to be in excellent health but his physician deems it advisable that he spend as much time as possible in the open in preparation for his vigorous speaking tour.

GOVERNOR REQUESTS LAW BE ENACTED TO PUNISH PROFITEERS

By Associated Press. AUSTIN, TEX., July 11.—An act to define profiteering and prescribe penalties therefor was submitted to the Texas legislature by Governor Hobby today.

This subject was submitted at the request of Representative John Davis of Dallas, who says that he will introduce a bill proposing that all retailers be required to plainly mark cost price upon goods offered for sale, with a penalty for failure to mark goods with correct cost figures.

Telegraph Brevities

By Associated Press. WASHINGTON, July 11.—President Wilson played his first round of golf today since his return from Paris.

By Associated Press. NEW YORK, July 11.—A seat on the New York stock exchange was sold today for \$22,000, the highest price paid since January, 1906.

By Associated Press. NEW YORK, July 11.—The transatlantic cable between Valparaiso and Toluca, all from Brazil, arrived today with 221 officers and 3,345 men.

SIR EDWARD CARSON FROM THE IRISH.

FOUR WHITE MEN WOUNDED IN RACE RIOT AT LONGVIEW; SOLDIERS ORDERED TO SCENE

By Associated Press. AUSTIN, TEXAS, July 11.—Orders for a National Guard company to go to Longview to assist in quelling the race riot which broke out there last night have been issued, said Governor Hobby at noon today.

Two of the young woman's brothers met Jones on the street here last night and beat him severely, although he protested his innocence. The brothers were not in the party of young men that later went into the negro district in search of Jones.

It was 1 o'clock this morning when the whites approached Jones' house, and were met by simultaneous fire from all sides. When they retired, after exhausting their ammunition, they sounded a general alarm and a mass meeting was held. At 4 o'clock a larger party returned to the negro quarter, but found no trace of the negroes.

The negro houses burned included those belonging to Jones and Dr. C. P. Davis, for whom search was continuing. It is alleged Davis has sided with Jones in the controversy over publication of the newspaper article.

R-34 IS REPORTED 1500 MILES FROM AMERICAN COAST

By Associated Press. LONDON, July 11.—The dirigible R-34 dirigible speeding eastward across the Atlantic at 12:10 Greenwich time today (8:10 a. m. New York time) had reached 46 degrees north latitude; 59 degrees 50 minutes west longitude, approximately 1500 miles from her starting point.

In the first 24 hours of return flight across the Atlantic from Minnesota the dirigible R-34 covered 1800 miles, according to advices received here.

COMMISSION ISSUES AN ORDER PENDING HEARING ON REQUEST FOR THIRTY-DAY SHUT DOWN

By Associated Press. AUSTIN, TEXAS, July 11.—Production of oil and bringing in of wells in the northwest extension of the Burkburnett field in Wichita county is suspended for five days by an order of the Railroad Commission. This shut-down is made pending a hearing to determine whether the order shall be extended for thirty days because of inability of pipe lines to handle production.

REORGANIZATION OF FORD MOTOR CO. IS BEING COMPLETED

By Associated Press. DETROIT, MICH., July 11.—Reorganization of the Ford Motor Company is being completed, whereby Edsel H. Ford, 25 year old president of the company, becomes with the exception of one other stockholder, the sole partner with his father, Henry Ford. This announcement was made here today by Frank L. Klingensmith, vice president and general manager of the company.

Mr. Klingensmith announced that purchase had been arranged of all the minority stock excepting a block held by James Coussens, millionaire mayor of Detroit, and former vice president of the company. Reorganization of the company is also contemplated, Mr. Klingensmith said, and added that announcement of the details at this time would be premature. Officials of the company refuse to divulge the amount involved in the purchase. It was estimated in financial circles, however, that it would amount to \$100,000,000.

FORD FAMILY NOW HOLDS 89 PER CENT

By Associated Press. MOUNT CLEMENS, MICH., July 11.—Edsel Ford, president of the Ford Motor Company, stated that the new stock purchase means that there will be no new automobile company formed, as has been planned by the Ford family and announced in California, last March.

SYNDICATE FORMED TO FINANCE FORD CREDIT

By Associated Press. NEW YORK, July 11.—A syndicate has been formed here, it was announced today to undertake the financing of a \$75,000,000 one year credit for the Ford Motor Company of Detroit. The funds will be used to retire 30 day promissory notes. It is understood the financing is for the purchase of minority stock.

DENVER STREET CAR STRIKE IS SETTLED

DENVER, July 11.—Denver's street car strike began last Tuesday, was settled today when the executive committee of the union agreed to accept a 40c an hour wage scale and submit their demand for higher wages to arbitration.

TRADE BETWEEN UNITED STATES AND GERMANY WILL START AT ONCE SAYS UNDER SECRETARY

By Associated Press. WASHINGTON, July 11.—Trade between the United States and Germany will be resumed immediately, acting Secretary Polk, of the State Department, announced today.

Mr. Polk said blanket licenses would be issued but that dyes, chemicals and potash would be excepted. Control over trading in these commodities will be exercised by the reparations commission under the terms of the peace treaty. A formal announcement regarding resumption of trade relations was promised within 48 hours.

Secretary Polk made it clear that resumption of trade relations with Germany did not abrogate the trading with the enemy act now in force. Taken as meaning that the state of war was at an end.

Germany will need immediately from the United States, according to Department of Commerce officials, large quantities of cotton, copper, kerosene oil and increased amounts of

SUSPENSION IS URGED BY OIL OPERATORS

AUSTIN, July 11.—Oil producers from the northwest extension of the Burkburnett field today urged the Texas railroad commission to issue an order for a general shut down of that field for at least 30 days, as a matter of protecting the interests of all concerned in the field, and for the conservation of the resources of the field. The production has greatly exceeded the facilities for handling the oil and unless there is a general shut down for the present, great wastage will result according to the producers. The producers were requested to frame an order covering the various points at issue, and if there be legal authority, a temporary order will be issued to relieve the situation.

UNITED STATES MAY BECOME ACTIVE IN MEXICO SITUATION

By Associated Press. WASHINGTON, July 11.—President Wilson made an unexpected call on Acting Secretary Polk today at the state department. The President carried with him a number of papers and it was understood that the Mexican question was among the first he wished to consider.

The President remained in earnest conversation with Mr. Polk for more than an hour. The under secretary of state is to go to Paris to succeed Secretary Lansing on the American peace delegation and it was said that the President had acquainted him with the situation there.

EUROPE INTERESTED IN REPORTED PLANS

PARIS, July 11.—Dispatches from Washington printed in Paris this morning indicating that the United States government was about to interest itself more actively in the stabilization of conditions in Mexico attracted much interest on all sides in peace conference quarters.

Officially, little was said for publication, but the sentiment among the representatives of European nations was apparently one of gratification that the prospect seemed better for improvement in the Mexican situation, temporarily thrust in the background by the war and peace negotiations, but not wholly lost sight of in Europe, nevertheless.

Goods and wearing apparel. Trade with Germany has been at a standstill virtually since August 1914. Germany's total imports from the United States in 1913 amounted to \$497,246,000. Cotton, copper, raw fur, skins and kerosene oil were the principal commodities together with foodstuffs, wheat being the largest of the latter. In that year Germany imported \$109,586,000 worth of cotton, \$69,957,000 of copper, \$15,877,000 of kerosene, \$12,812,000 of kerosene oil and \$39,343,000 of wheat.

American imports from Germany consisted principally of toys, potash, dyes, chemicals and drugs and delicate instruments, also pottery and porcelain and granite ware.

COMMUNITY NURSE MAKING A STUDY OF SITUATION IN CITY

EMPLOYED BY THE LOCAL FEDERATED MISSIONARY SOCIETIES.

NUMBER OF TYPHOID CASES

Water Problem Declared to Be the Most Serious Confronting City.

Wichita Falls community nurse, Miss Allison of Fort Worth, employed by the Federated Missionary Societies of the city, has arrived and commenced her work. Several typhoid cases, in the outlying parts of the city, where they are many tents, and where living conditions are lacking in sanitary arrangements, are already on Miss Allison's list, and a busy summer is in prospect from the beginning. Miss Allison is visiting all of the physicians in the city and learning from them of cases where her services would be needed, and reports a co-operation and an appreciation of what the women of the city have undertaken that is very gratifying.

The nurse's rounds this morning consisted of a visit to several homes in the section near the brick yards, and to patients in tents. In each instance typhoid is expected to develop, if it has not already developed, and since all of the families where there are patients have a number of children, Miss Allison's work is quite as much to teach prevention, as to assist in caring for those already sick.

The water problem is one of the most serious presented, in connection with a possible typhoid epidemic, as most of the families, living in the brick plant section, as well as other settlements on the outskirts of Wichita Falls, get their water supply from shallow wells. Several of these wells have been analyzed and have been found to be highly contaminated with the typhoid bacilli. Some of the families are boiling the water for drinking purposes, while Miss Allison has found others who scoff at the idea of germs, and who refuse to go to the trouble of boiling the water. There will be necessary, according to present indications, a time of educational work with some people.

At the present time the contributions from the societies of the various churches in town are maintaining the work, paying Miss Allison's salary and furnishing the little things that are found to be needed from time to time. As the work progresses, and new districts are entered, and the increasing hot weather brings on more sickness a call will be made on the public for support of the free milk and ice fund, and there is no doubt that, as all other measures for the good of the less fortunate population, will be responded to readily, and that there will be every possible relief given the sufferers young and old.

AUCTION SALE OF CALL FIELD HOUSES HAS BEEN ORDERED

The war department at Washington has ordered the sale by auction of the buildings at Call Field, except five steel hangars, property of the United States government. An advertisement of the fact appears in this issue of The Times.

No bids will be considered for separate buildings, and the offer must include the assumption of the responsibility to owners and lessors for damages of any sort. All leases must be taken over by the successful bidder, who must also assume the responsibility for the removal of all government property from the premises.

All bidders must guarantee to house the employees of the government railroad administration at reasonable rates. Bids should be addressed to the commanding officer Call Field, and none will be received later than July 21.

URGE EARLY WORK ON ROAD TO THE FACTORIES

The chamber of commerce has been asked to interest itself in the speedier completion of the roads leading to the glass factory and the motor truck company's plant. The bond issue provided for the building of this road and it was stated at the time the bonds were voted that this would be the first work to be undertaken. Secretary Harrison this morning said so far no steps in that direction have been taken that we have learned, Judge Jones, of the county court will be called upon to learn of the intentions of the commissioners. "There are four blocks of roads to be constructed in the city limits, and about two miles in the county to reach the factory of the motor-truck company, and it is said to be about as bad as any similar stretch in the county."

MRS. R. E. HUFF, JR. IS DANGEROUSLY ILL

Dr. R. E. Huff, Jr. left this afternoon for Chicago, having received a telegram that his wife was dangerously ill. She had undergone a surgical operation about two weeks ago, but was thought when he left last Monday to be getting along well.

Central Presbyterian Church, Southern

Sunday School is held at 9:45. Preaching services follows at 11 a. m. On the next Sunday morning, July 13, the subject of the sermon is "A Mutual Enterprise," and at this service some matters of importance to all the members of this church will be spoken of, in the sermon. It is earnestly desired that as many of the members may be present as possible. It is not a plea for money. Sunday morning is no hotter than Monday, and so for once let us not make that our excuse. In the evening at 7:30 p. m., is the Christian Endeavor with Mrs. Phil Kerr as leader. And at 8:30, the subject of the sermon is "The Specialist." As always, visitors are most cordially welcomed.—J. SHERKILL.

LAKE WATER SHOULD BE SAVED TO FIGHT FIRE SAYS ENGLISH

Water from Lake Wichita should not be used for irrigation purposes, but should be conserved for the use of the people of Wichita Falls, and for their protection against fire, according to an opinion expressed by S. W. English, State fire marshal, on the occasion of his visit to the city last night.

"I do not know whether it can be done or not, but if it is possible the city authorities should prevent the use of this water for irrigation purposes," said Mr. English.

"Probably it can not be done, as the owners of land under irrigation probably have water rights that entitle them to the use of the water, but the use of the water, in the absence of another source of supply, is distinctly not to the interests of residents of the city. There is considerable danger of a repetition of conditions of last fall when the lake was nearly dry, and the danger to the city had there been a serious fire, would have been a very great one."

"There is another angle to the situation in that State requirements are to the effect that there should be a water supply of 110 gallons per inhabitant available for fire purposes at all times, under penalty of a material increase in the price of their insurance, which is now costing nearly \$200,000 per year.

"At any rate this is a situation which should be thoroughly looked into. For my part, I hope that the citizens of Wichita Falls will soon see their way clear to providing a permanent and adequate water supply suitable for a city of the size it is sure to become."

JUDGE BARWISE IN CITY SHORT TIME THIS MORNING

J. H. Barwise Jr., vice president and general manager of the Fort Worth & Denver railroad spent a few hours here this morning between trains. He held a short conference with Judge R. E. Huff, but did not have time to meet a delegation of members of the Chamber of Commerce, as was his original intention, expressed in a letter to W. M. Priddy, received this morning early.

On account of the activity in real estate it has been impossible for us to keep up with the different transfers. Also, we are having calls for property that we can't fill; the house or vacant lot may be what our customer wants. Phone it in. Stehlik & Baber 716 Tenth, Phone 2331, 44-4tc

JUDGMENT FOR THE CITY IN SUIT FOR BACK TAXES

The case of Ed Wilson, et al. vs. the City of Wichita Falls, Texas, was tried in the 78th District Court this morning by E. L. Putton, acting as special judge and judgment rendered in favor of the city establishing the validity of the boundaries as fixed by the charter committee when the charter was adopted.

Judgment was also rendered in favor of the city against the plaintiffs for back taxes since the time that the city sought to include them.

This litigation has been pending for several years and while there were only a few citizens party to it, it has been made an excuse by various others who were not parties to the suit for not paying their city taxes. The rendition of this judgment leaves the city free to proceed with collection of back taxes on all property within the boundaries as fixed by the city charter.

The case will not be appealed as the plaintiffs, in view of the recent great growth of the city, are not disposed to insist on their original contentions.

SALESMEN

We want three or four good men for Wichita and Burkburnett.
TEXAS LEADER OIL CO.
At Texas Oil Exchange, 812 1-2 Ohio.

Not a bit of this splendid food is wasted—it's eatable to the last atom.

WICHITA THEATER HAS BEEN LEASED BY E. T. OLIVER

The Wichita theater has been leased by the new owners, Farabee & Priest, to E. T. Oliver, who has conducted playhouses at New Orleans, Little Rock and Atlanta, and who believes that the psychological hour has arrived for operating here a theater producing high class attractions in a superior manner.

"I intend to stage only the popular successes of the day, and will offer the best that can be secured of the royalty productions, with my own scenery and electrical effects. While this class of plays are called the \$2 plays, in the New York theaters, they will be given here at popular prices that should make instant appeal to the public of Wichita Falls. The date of opening will be announced later, but is expected to be July 21 or 28," said Mr. Oliver this morning.

Carl Hirsch left last evening for New Mexico to be gone for several weeks.

TILLMAN COUNTY ACREAGE FOR SALE

CONSERVATION OF WATER SUPPLY TO ADD TO RAINFALL

Speaking of the evolution of the plains country under the influence of civilization Engineers Vernon L. Sullivan, of the irrigation project said today:

"About 15 or 20 years ago I had the pleasure of riding up a beautiful valley that led to the Guadalupe mountains, in New Mexico. It was in the days before the ranges were overtopped, and the entire valley was covered with a heavy growth of native grasses and brush. This luxuriant tangle of vegetation retarded the run off of the storm waters so that the rains soaked into the earth.

"Some ten years later I repeated my ride in this valley, after the advance of civilization had resulted in close cropping by the herds of stockmen and the scene was bleak and bare. The grass had been grazed to the very roots, and of vegetation there was but few signs. A well beaten cow trail traversed the valley toward the mountains, making a natural drainage course for the floods which sought the small streams, then the rivers and down to the gulf—carrying a deep arroya by the force of the flow.

"Rain is formed by condensation of cloud moisture in contact with cold air currents. This moisture is absorbed by evaporation from the earth and sea, and if the latter is to be our source of moisture we must be favored by friendly air currents from the salt seas, to bring it to this location.

"If we are to continue to benefit from favorable conditions of condensation and precipitation in the local atmosphere, we must arrest the wasteful onrush of the flood waters to the gulf by constructing large storage reservoirs in the upper branches of the local streams. Such construction is contemplated in the proposed irrigation project for Wichita county."

Social News

BRIDGE PARTY IN HONOR OF MISS MONTGOMERY

Mrs. H. F. Haines and Miss Lelia Beall Anderson entertained Thursday morning with a bridge party at the home of the former, complimenting Miss Louise Montgomery of Austin. The home was decorated in lovely cut flowers for the occasion. There were nine tables of bridge, and a delightful game came to a close with Miss Audrey Adickes as the winner of the highest score, and Miss Louise Montgomery, then honoree, winning the guest prize.

A dainty salad course was served to the enjoyment of Miss Louise Montgomery, the honoree, Misses Pauline Richolt, Elizabeth Patterson, Bernice Jackson, Ruby Moore, Mary Orth, Sybil Kell, Helen Elmes, Andy and Adelle Adickes, Helen Stone, Marlon Maer, Agnes and Louise Lecham, Adelle Robertson, Zola May Davis, Lucille and Grace Tancred, Mesdames W. Bonner, Robert Burns, Mary Robertson, Hammond, Heart, S. Burger, and the out-of-town guests, Misses Lois Walthen of Dallas, Virginia Parks of Houston, Ellis of Denton, Helen Edmiston of Koola, Kansas, Sue Montgomery of Indiana, Frances Urban of Abilene, and the hostesses, Mrs. H. F. Haines and Miss Lelia Beall Anderson.

TWO ENLISTMENTS ARE ACCEPTED ON THURSDAY

Recruiting Sergeant F. L. Meyers accepted two enlistments Thursday, and one of them is of particular interest and a source of gratification to all concerned. A former captain of artillery, who has a fine record for overseas service, enrolled as a private of the first class, at the local office and will be assigned to the recruiting service from Dallas headquarters.

"These re-enlistments by men of high caliber, who learned the game in the hardest of schools, the trenches at the front, certainly inspire me with renewed confidence," said Sergeant Meyers.

INSPECTION OF ALL BUILDINGS IN THE CITY FIRE LIMITS

With the addition of two firemen, which has been authorized by the council, to the local fire department, Fire Chief J. L. McClure expects to put in operation a systematic campaign of inspection of all buildings in the fire limits and the elimination of fire hazards which in the confusion of building and improvement during the past year have been allowed to exist near practically all buildings in the business district.

This inspection is expected to prove of value, not only through the elimination of these numerous sources of fire risk, but to be of special benefit to members of the fire department as well giving them an opportunity of keeping constantly informed as to all changes in the structure of all buildings in the business district, as well as acquainting them with the construction of the new buildings being constantly erected. A thorough and up to the minute knowledge of the situation of all buildings and the location of the various entrances and exits is an indispensable part of the equipment of all firemen, not only from the standpoint of intelligently fighting a possible fire at that place, but as a possible means of saving his life if caught in a burning building.

The inspection is made possible through the addition of the new men, as heretofore the strength of the department has been such as to require that all men be held on duty at the various stations for the possible event of a serious fire. Beginning with this addition to the department two men can be kept on the street at all times.

SENATE ENACTS BILL TO AID IRRIGATION PLANS

Mr. J. A. Kemp received a telegram this morning from Judge Starley, who is at present in Austin, saying that the senate yesterday passed the bill calling for certain amendments to the state land laws that will make it easier for the irrigation committee for the Wichita county project to proceed with the organizing of the district.

None of the amendments are of an important character, but were introduced in the interest of smoothing the way for the big enterprise. There was no opposition whatever.

Mr. Kemp will go to Battle Creek, for a few days rest, and expects to leave for Washington with Major Russell, very soon, to complete the negotiations for the buildings at Call Field in behalf of the Chamber of Commerce.

Watch and wait for opening. Basement Shoe Store, Saturday, July 12, 49-3tc

AMUSEMENTS

FLORENCE REED AT THE EMPRESS TOMORROW

Florence Reed, the talented emotional screen and stage star, comes to the Empress tomorrow, in the widely heralded United Picture Theatres, Inc. offering Her Code of Honor, which pictures a thrilling story of artist life in the Latin Quarter, Paris. The scene then shifting to New York, the plot runs swiftly through momentous situations, and holds, it is said, the audience in suspense as to the ultimate outcome until the final scene.

With this dual role, that of the struggling young artist in Paris, and then as the well-to-do American girl in New York, Miss Reed is said to offer the most powerful work of her screen career, and in fact that talented star is reported to have said of Her Code of Honor that it is the best picture she has ever made.

Miss Reed's popularity both as a screen star and on the speaking stage is widely recognized. Versatile, emotional, and of perfect artistry, Florence appeals to motion picture and spoken drama audiences alike. The cast present unusual strength with William Desmond, himself a star, leading the support which includes also: Robert Frazer, Irving Cummings, Marcello Roussillon and Elio Francis.

Her Code of Honor is the first of a series of six super-pictures in which Miss Reed is starring for United Picture Theatres, Inc.

"DESTINY" SHOWING AT MAJESTIC TWO DAYS

"Destiny" is a production big in every sense of the word. It is not its length nor any other material factor that impresses one with its bigness, but the inherent good qualities of the story, qualities which appeal to the intellect as well as to several of the pleasurable emotions; they succeed in arousing the spectator's interest, winning his good will and also in holding him in agreeable suspense. Such is the influence that is exerted upon the mind, and as the picture contains no illogical, discordant situations of any description, it should satisfy a wide circle of picture-goers.

Frenzied finance is the theme. It is dramatic in the extreme in its development, two strong wills being brought into violent conflict. The picture opens showing a farmer and his family consisting of the wife, daughter and two sons. The eldest boy becomes dissatisfied with the farmer life, and sets his plans for going to the city to seek his fortune, though his parents disapprove of such a move.

The spectator is now carried forward by twenty years and is shown the eldest brother, now a successful and very prosperous Wall Street financier, attempting to exercise his iron will over his sister. She loves a young broker, her brother's business rival and bitter enemy. He forbids her to have any social intercourse with the broker, but she states that, as the

same kind of blood flows in her veins as in his, will accept no bosing; so she defies him and marries the man she loves. Furious at her defiance he now more than ever becomes determined to ruin the object of his hate, and thus break his sister's spirit and bend her will to his. He throws the weight of his wealth in the stock market and by manipulating it comes out victorious. He breaks his brother-in-law, but in the process he also drags down a number of others.

Regret and grief, fellow in his triumph, as the man he vowed to ruin lies dead, having been killed by the discharge of the gun while trying to prevent a banker, a co-victim of his, from committing suicide. His mental torture keeps on increasing as he is denounced by his very parents; his sister execrates him. To cap the climax, the market breaks against him and the once powerful financier is powerless to escape the fate he brought upon others. He becomes impoverished.

While wandering in the street, forlorn and friendless, indifferent to life itself, he is met by one of the victims of his misadventure, and a struggle ensues. As remorse and broken spirits have weakened his physical strength, he is unable to fight back with success; he is thrown through the window supposedly to the pavement below. Right on this scene, however,

the picture fades into a subtitle with wording to the effect that, so it would have happened had the brother gone to the city; but he did not go, having thought best to remain at home and help his father cultivate his farm, build good roads, etc., a beautiful scene appearing after such enumeration of the good things he helped his father to accomplish: The effect of this unexpected twist is electric, instantaneous; it completely reverses the flow of the emotions; the result is a highly successful blending of the dramatic and the cheerful. While the dramatic ending itself would have been highly satisfactory, the resort to this novelty makes it doubly so; it adds greatly to the entertaining value as, from a state of high, although agreeable, suspense, the feelings are brought to a state of soothing delight.

WOULD BENEFIT IN SEVERAL WAYS. With few exceptions there is general hope that the railroad commission exercising its powers under the new conservation law will order the suspension of drilling operations recommended at the mass meeting here Wednesday night.

A thirty-day respite would permit much work in the oil fields and out of it to get caught up. A good many things could be done that the present fevered drilling activity now does not permit to be done.

For instance, something might be done to provide better living and working conditions for the oil field workers. The sanitary conditions certainly can be improved.

The shut down may have a beneficial effect in Wichita Falls. It might check somewhat the influx of new people and give the business men of Wichita Falls an opportunity to care for the business they already have.

It might permit progress to be made against the overcrowded housing conditions. Everybody knows that many hundreds of new houses are going up in Wichita Falls but no progress can be made when the people are coming in faster than the houses can be built.

Too many people in Wichita Falls and in the oil fields have been working under terrific and prolonged pressure. A shut-down, such as is proposed, might give a relief that will be welcomed.

STREETS SHOULD BE FLUSHED. One of the needs of Wichita Falls is a street flushing system by which the streets could be cleaned by washing with water, thereby eliminating the dust that is stirred up by the old methods.

It is better, of course, to clean the streets by the old methods than to allow the dust and dirt to remain and be stirred up by every passing vehicle, and by the gentle Texas zephyrs, but there are dangers from stirring it up into the air with a revolving broom that are not to be discounted.

The flushing method is the modern way and it is hoped that when the city charter is amended such a system may be installed.

As we knew he would, President Wilson has offered to go before the Senate or its committee at any time to answer any questions or give any information about the peace treaty and the League of Nations that may be desired.

The President is not only ready but is anxious to do this. Some of the senators who have been rearing and foaming about the League of Nations and President Wilson's part in it now have their opportunity. It is doubtful whether they will use it.

The experiences of those who have attempted to heckle the President heretofore are not encouraging to those who would like to do so now.

Wichita county ought to build the highway to the factory district at the very earliest date possible. The factories located there have been operating under a very serious handicap.

They are among the most important industrial enterprises in the county and large tax payers. The county ought to give them relief that they need as soon as it can be given.

The traffic is heavier over this road probably than even the Burk Burnett road. Many others than those living or having business in the district will be benefited by the early completion of this highway.

Soldier members of The Times staff are against the proposed \$300 bonus as a matter of principle, but...

PROFITING. It has only been a short time ago—a few months, perhaps—when most of the newspapers in the country were severely criticizing manufacturers and every other class of people who were supplying Uncle Sam with ammunition and other supplies necessary for carrying on the war for profiteering.

And they, the papers, as well as the people, were loud in their criticisms. The various manufacturers were only taking advantage of their opportunities and Uncle Sam permitted the profiteering.

There is a similar condition existing in Wichita Falls today, but it is not confined to manufacturers. It is the people—our best citizens that are guilty of this crime, for crims it is against the best interest of Wichita, causing many men that would become citizens to pass as up. I refer mostly to the exorbitant prices charged for the rent of rooms and dwelling houses.

No man, be he laborer or mechanic, can afford to pay from \$50 to \$125 a month for light housekeeping rooms or a dwelling in which to house his family. It is true wages are high, but provisions and wearing apparel are likewise high, but a man cannot afford to pay half of his salary to his landlord. If so he will have little left wherewith to feed and clothe those dependent upon him, much less provide for the education of his children.

I sat alongside a gentleman at lunch who was paying \$1.00 a day for a room for himself and wife. Now this gentleman might have holdings in the oil fields that justified him in temporarily paying the price, but where is the justification to the owner of the room in making such a charge. Do you think this landlord justified his or her act by taking advantage of one's opportunity, and if so, do you not think he or she was guilty of profiteering?

There ought to be some remedy applied to such practices, but who or what organization in Wichita will take themselves in the line of the protection of those who seek to make this growing city their home? Again, at prevailing prices of city property, it is almost impossible for a laboring man to acquire a home, and without the laborer, the artisan and mechanic, there would be no growth and development. Men with money to invest could get no returns if it were not for the salaried man, and yet the financier and capitalist are doing nothing to make it possible a part of the community.

If those guilty of profiteering in the matter of rents have no conscience to guide them in lowering the prices charged for rents, there should be such an awakening of public sentiment against the practice that would produce a remedy. In my humble judgment the newspapers of Wichita Falls are missing an opportunity and neglecting a duty which they owe their community, to speak out in no uncertain terms against such profiteering as some of our citizens are guilty of. Will they do it? A NEW COMER. FORMER SOLDIER HAS WORD ABOUT BONUS. Wichita Falls, July 9, 1919. Editor Wichita Daily Times, Wichita Falls, Texas. Dear Sir: With reference to the \$300 bonus for discharged soldiers, it appears to me that instead of placing patriotic service on a mercenary basis that the Malone bill would distribute the financial loss of these men, in part, over a greater number of people. There is no doubt but that a majority of the men could use the \$300 to great advantage. If I were to receive that amount it would only assist me to partially repay money that I had borrowed to sustain myself and my wife while I was in the army. A great many of the men, no doubt, like myself, sacrificed a paying business and returned "broke" and had to take a job to make a new start in life. And there are many who, like myself, after stripping in the "bull pen" gave their clothes to the Belgians before receiving any for the protection of their own body—and on their return to civil life had to borrow the money to get into "civies," which have advanced in price unreasonably. Yours without regrets, and for a view into the other side of the subject. A SUBSCRIBER. Notice. We have buyer for drilling site, acre proven territory with 50-50 drilling contract of party would buy small producing royalty. See us at once.—Hal Halley & Co., Phone 2671, 707 Ohio avenue. 50-70

MOTORCYCLE OFFICER IS INJURED IN COLLISION

Running at considerable speed in order to overtake a car violating one of the traffic ordinances, James Morrison, motorcycle officer, sustained a broken arm, a gash in the back of the head and a severe shaking up at about 11 o'clock last night on Ninth street, when his motorcycle crashed into a car driven by Gay Hammond. The motorcycle was totally destroyed, but the damage to Mr. Hammond's car was nominal. The officer was given immediate medical attention and is reported to be resting well today.

Morrison was driving up Ninth street near the right hand curb, in street on overtaking the car which he was following and failed to observe Mr. Hammond's machine turning in at his home in the 1300 block, until too late to prevent the collision. The motorcycle took the larger machine broadside, and the officer feels that he was lucky to escape without a more serious accident.

"Morrison's loss while he is laid up will be considerable one to the department," Fred Smith, chief of police, said today, in commenting on the accident. "He is one of the most active and valuable traffic men we have ever had, and I certainly hate to lose him, if only for a few days."

Mr. and Mrs. J. I. Staley and Mrs. Hammond were in the Hammond car at the time of the accident. Mr. Staley was slightly injured and rendered unconscious for some time. Mrs. Staley sustained a few bruises, neither Mr. or Mrs. Hammond were hurt.

BREVITIES

Mrs. J. D. Fain left recently for Colorado Springs to spend a few weeks. Mrs. R. E. Huff and son, Arthur, are spending the summer months in California.

W. W. Linville and family left today for their ranch in New Mexico to spend the summer.

Dr. O. B. Kiel has been named as city health officer during the absence of Dr. M. A. Beckman, city health officer, who has been granted a leave of absence of sixty days by the city council.

Henry Smith, member of the local police department, who since his recent return from overseas has been visiting relatives in New Mexico, has returned and resumed his place at the Central station.

WORKING ON PLAN FOR ANOTHER FIRE STATION

An additional fire station in the Southland addition may be the result of a plan on which Fire Chief J. L. McClure is working at present and hopes to have in shape for presentation to the council in the near future. Chief McClure's plan provides for the sale of the present Floral Heights station and the building of two bungalow stations in its place, one near the intersection of Lueise and Brook, and one at about Taylor and Ninth.

"The present Floral Heights station is too large for our needs," says Chief McClure, "and is really not far enough out to give the best protection to its part of the city with the present trend of building in that section. I have no doubt that it could be disposed of by the city at a nice profit, and should pay for the building of the bungalow stations. One of the new stations should be near Ninth and Taylor, about four blocks further out than the present Floral Heights station. The other should go down about Lucile and Brook, a part of the city, which is now rather remote from any other station, and one which has been building rapidly within the past year or two."

"An additional station will be required for the proper use of the piece of additional apparatus which we expect to get, and the plan which I am working on seems to be the most economical way of getting it, while the locations seem to be the most logical ones for affording a maximum of protection to the largest number of people."

Mr. and Mrs. E. P. Murrell from Petrola passed through the city yesterday on their way to Colorado Springs to spend the summer.

BORER-STEWART CO. DALLAS

EQUALIZATION BOARD IS TO HEAR COMPLAINTS

Complaints of property owners against the valuation set on their property by the city equalization board will be heard by the board beginning the first Monday in August, according to an announcement by J. B. Fitts, chairman, today. "While we think we have made a careful and fair estimate, based on a personal inspection of the property, of every piece of property in the city, it is entirely possible that we might have made mistakes," said Mr. Fitts, in speaking of the matter. "At any rate we will, of course, be glad to entertain the complaints of any property owner who does not feel that his property has received a fair valuation."

SUSPENDED SENTENCES GIVEN IN TWO CASES. Suspended sentences of two years each were handed out by juries in the 30th district court today in alleged forgery cases against Dennis Neil, alias Wilcoxson, and J. C. Harris, alias Earl Dawes.

Market Report

COTTON MARKET

NEW YORK, July 11.—The cotton market was easier during today's early trading. The opening was unchanged to 15 points lower in response to easier cables. Trade interests were moderate buyers and there was a further scattering commission house demand but the support was much less active than recently and the decline soon extended to 34 1/2 for October and 33 3/8 for January, or 25 to 26 points net lower. The weather map showed more favorable crop conditions and there was scattered Southern selling on the decline.

Reports that a Southern authority made the mid-month condition of the crop 72 compared with the official end-June figures of 70, stimulated the selling movement later. October broke to 33 1/2 and January to 32 5/8, or 69 to 64 points net lower, but Liverpool and trade interests were buyers on the decline and the market at noon showed rallies of 30 to 40 points on covering.

The high temperature reported in parts of the Southwest and reports from Washington that trading with Germany would be permitted under a blanket license stimulated buying during the early afternoon. October sold at 34 7/8 with active months showing net gains of 35 to 38 points.

The cotton closed strong.

GRAIN AND PRODUCE

CHICAGO, July 11.—Notable advance of selling pressure led to new upturn today in the corn market. Knowledge that hogs were continuing to command the highest prices ever known helped somewhat to strengthen corn. Opening quotations, which ranged from 1 1/2c decline to 1/2c advance, with September \$1.91 1/2 to \$1.93 and December \$1.57 1/2 to \$1.58 1/2 were followed by sharp gains all around.

Seaboard buying gave independent strength to oats. After opening 1/2c to 3/4c up, including September at 76 1/2 to 76, the market reacted a little and then went higher than before. Provisions were dull and irregular.

Later the market developed weakness on account of profit taking by holders and in consequence of bearish crop reports and of current opinions that corn was too near the basic price of wheat. The close was unsettled, 2 1/2c lower to an advance of 2c with September \$1.92 1/2 to \$1.93 1/2 and December \$1.57 to \$1.60.

What upturns did take place in provisions were nearly all more than nullified by the late weakness of corn.

OPEN HIGH LOW CLOSE					
CORN—	Sept.	\$1.91 1/2	1.95 1/2	1.90 1/2	1.92 1/2
	Dec.	1.57 1/2	1.60	1.57	1.59 1/2

Chicago Produce, July 11.—Butter: unchanged. Eggs: unsettled; receipts 7,562 cases; firsts 41@41 1/2; ordinary firsts 38@39 1/2; at mark cases included, 39@40; storage packed firsts 43. Poultry: alive; unchanged.

NEW YORK STOCKS

NEW YORK, July 11.—Shipments, rails and motor were the chief features of strength at the outset of today's stock market dealings, gains also being made by equipments, oils and food issues. Marine common opened with a sale of 8,500 shares at 6 1/2 to 6 3/4, a maximum advance of about two points, and American International gained a point with Southern Pacific, Denver and Rio Grande preferred and Pere Marquette. U. S. steel advanced a fraction, but soon fell back, although affiliated shares supplemented yesterday's gains. Specialties were represented by Industrial alcohol at a four point rally.

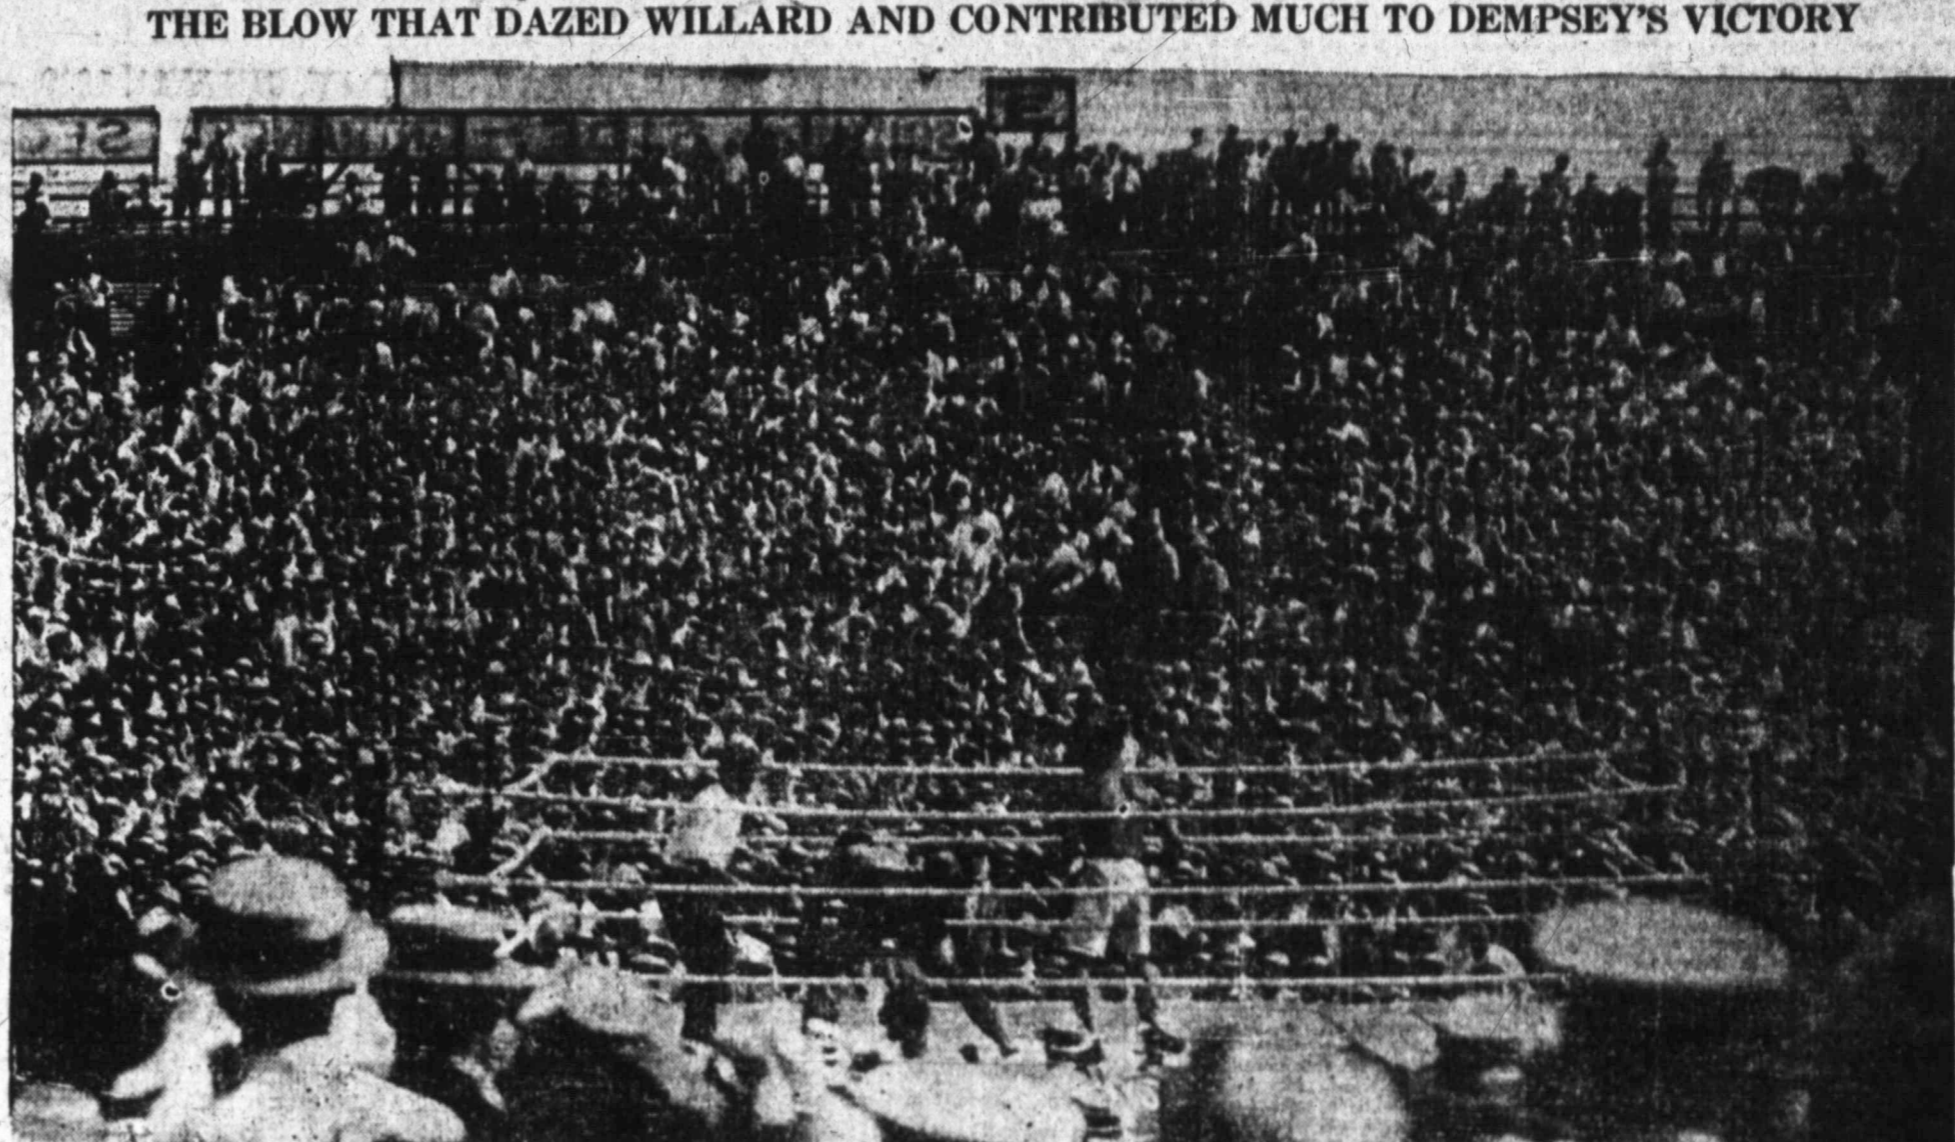

Several leaders, including United States steel, reacted slightly at noon, but this was more than balanced by the further strength of shippings, coppers and equipments. High grade rails, notably Reading and Southern Pacific, also improved with chemical and fertilizer shares.

Oils and tobacco were at top prices in the last hour, but steel and kindred issues again reacted moderately. The closing was strong.

3 1/2's 99 3/4; first 4's 94 1/2; second 4's 93 1/2; third 4's 92 1/2; fourth 4's 91 1/2; Victory 3 1/2's \$100.04; Victory 4's 99.98.

FREIGHTER IS WRECKED BUT CREW IS SAFE

HOUSTON, TEX., July 11.—The new oil-burning freighter Santa Cretema, New Orleans to the Barbados, has been wrecked according to a message from Havana to Mrs. Frank Ditchman of this city. The message was from her son, W. B. Crawford, chief engineer and said all on board were saved.

OF INTEREST TO SPORT FANS

UNUSUALLY INTERESTING GAMES ARE EXPECTED

Manager Leopold, who has just returned from Marlin after a week's holiday, said this morning that the games at City Park on Saturday and Sunday would be more than unusually interesting. The Fort Worth team has made a fine record this season against strong clubs and local fans will see a regular Texas league sort of baseball when they clash with the Leopards, he said. The game Saturday will be recalled at 4:30, and on Sunday at the regular hour, 4 p. m.

BRAZIL ATHLETES ARE ATTRACTING ATTENTION

By LAWRENCE S. HAAS (United Press Staff Correspondent.) RIO DE JANEIRO.—(By Mail.)—Amateur, competitive athletic sports have arrived in Brazil, and they have come to stay. The new Brazilian trait was brought out strongly during the past month, when the Brazilian athletes cleaned up in the entire program of the South American Sports Confederation held here. Brazil was returned champion in all events, swimming, water polo, and association football, the national major sport.

The visitors defeated the best sent here by Argentina, Uruguay and Chile, and did not lose a single football or water polo game or swimming meet. In the water the Brazilians outclassed all competitors and former crack American and British swimmers here say the Brazilian swimmers are as good as any produced in the world.

On the football field, Brazil, after a hard struggle, wrested the laurels from the Uruguayans, twice South American champions.

The most noteworthy feature of the series of sporting events was Brazil's victory, but the great interest taken in the sports by the people of all ages.

The games were held on the great field of the Fluminense Club. This club is one of the largest athletic organizations on the continent. The huge stadium seats nearly forty thousand people, and thousands were turned away from at least four of the seven big football games of the series.

A hill, overlooking the playing field, was black with people, much like the famous Cooper's Hill of the old days of the Polo Grounds in New York.

Twenty years ago outdoor sport in Brazil did not exist, as it is known and recognized in the United States. A few foreigners played tennis. Members of the English colony played cricket and a little football, while the handful of Americans spent their holidays on the baseball diamond, and there entertained the sailors from visiting Yankee ships.

Brazil is ambitious for its athletics. The people are not satisfied with merely staging a South American championship tournament. They want to make an international one, open to the whole world. As the first step to such a realization, Arnaldo Guinle, director of the Fluminense Club, has

WAVE OF TRAIN WRECKING IN SECTIONS OF MEXICO

Associated Press Mail Correspondent. LARIDO, TEX.—Withdrawal of troops from bandit-infested regions in central and southern Mexico to campaign against Villa in the north has led to a new wave of train wrecking and railway destruction in that republic, according to stories printed by Mexico City papers received in this city.

The most striking feat of the rebels was the capture of a train from Mexico City to Puebla at a point only a few miles from the latter city by the forces of the former federal general, Cipriano Arana, who revolted about a year ago. One hundred of the several hundred passengers were seized as hostages, among them an American, Charles Chapman. They were driven for hours on foot over rocky trails to the headquarters of the rebel chieftain. Later they were released without being held for ransom and made their way safely to Puebla. The bandits' loot is estimated at 100,000 pesos.

TO MAKE ARRESTS FOR SIDEWALK OBSTRUCTIONS

Beginning Monday arrests will be made in all cases of violations of city ordinances against putting boxes on sidewalks, throwing grass into gutters and similar regulations, according to a statement issued by Fred Smith, chief of police, today.

A vigorous campaign will also be carried on against motorists running with bright lights and with their mufflers cut out, said the chief, pointing to a number of fines assessed in the city court within the past few days following arrests for these offenses.

SEAT OF THE LEAGUE MAY BE REMOVED

By Association Press. PARIS, July 11.—If Switzerland does not adhere to the League of Nations within two months after the League is in operation, L'intransigeant says it understands, the seat of the League will not be maintained at Geneva.

Switzerland, the newspaper adds, has declared that if Germany is not admitted to the League without excessive delay, Switzerland will leave the league if she has entered it. The Allied powers have replied to this declaration, it is said, but the reply has not been made public.

Government officials in the Philippines have imported seed of blight proof coffee from Java in the hope of re-establishing an industry that once was highly profitable.

ARREST 43 MORE IN CONNECTION WITH THE BISBEE CASE

TOTAL ARRESTS RESULT OF DEPORTATIONS TWO YEARS AGO 18 '51.

HEARINGS SET FOR TODAY

Fifty More Arrests Are Expected to Be Made Within Next Few Days.

Associated Press. BISBEE, ARIZ., July 11.—Forty-three additional prominent Bisbee men were arrested yesterday for alleged participation in the deportation cases of July 12, 1917. The total arrests to date are 51. All have given half of \$2,000 each. Several defendants were arrested on two or more counts, separate bonds being required for each count. The preliminary hearing for the eight arrested Wednesday has been set for today; those arrested yesterday for Saturday. Fifty more arrests are expected in the next three days, according to a statement issued by Assistant County Attorney Bourk.

Ever since the morning of July 21, 1917, when eleven hundred and eighty six mine workers and their alleged sympathizers were forcibly driven from Bisbee, the deportations have been a source of discussion in this state and throughout the West. Indict Twenty-five. After the deportations the United States grand jury indicted twenty-five of the most prominent men in Arizona, copper company officials, county officers and private citizens on charges of conspiracy to deprive citizens of their constitutional rights. On December 3, last, Judge William W. Morrow, of San Francisco, sitting in the United States district court at Tucson, quashed the indictments when the trial was called. The United States government immediately appealed from Judge Morrow's decision and today the case is pending in the Supreme Court of the United States. The men involved in the charges brought by the federal government include Walter Douglas, of New York City, President and General manager of the Phelps Dodge Corporation, owning and operating the Copper Queen Consolidated mines in Bisbee and the Copper Queen smelter at Douglas; Grant H. Dowell, General Manager of the Copper Queen Consolidated Mining Company; H. H. Stout, Superintendent of the Copper Queen Smelter at Douglas; Robert Rae, auditor for the Phelps Dodge interests in the southwest; William H. Brophy, formerly general manager of the Phelps Dodge

Mercantile Company and now a prominent Red Cross official in France; Major John C. Greenway, a mining engineer now a major in the United States army; he sent a cablegram to Bisbee accepting sole responsibility for the deportations, which he declared were made to rid the community of members of the Industrial Workers of the World, who, he alleged were interfering with the government's war program by hampering the copper output.

Harry Wheeler Takes Responsibility. Harry Wheeler was Sheriff of Cochise county at the time the deportations took place. In June, 1918, when he was in France as a Captain in the United States army, he sent a cablegram to Bisbee accepting sole responsibility for the deportations, which he declared were made to rid the community of members of the Industrial Workers of the World, who, he alleged were interfering with the government's war program by hampering the copper output. The deportations grew out of the strike of copper miners called in the Warren copper mining district on June 28, 1917. The strike was called by the Industrial Workers of the World, and was not sanctioned by the International Union of Mine, Mill and Smelters. The demands of the strikers included increased pay, six dollars a day for underground work and five dollars and a half for surface workers, a six hour day and improved working conditions. The strike continued in force until July 12, when the deportations took place. Armed with revolvers, the deputies that Sheriff Wheeler had sworn in as officers of the law, seized all persons who could not give a satisfactory account of themselves and who would not promise to return to work in the mines and marched them to the Bisbee baseball park, where they were confined in a stockade until the round-up was completed at noon.

During the deportations two persons were killed, a member of a committee of citizens being shot in attempting to compel the deportation of one workman and the workman in turn being killed by the committee. When the round-up had been completed the prisoners were loaded into cattle cars and freight cars and taken to Columbus, New Mexico, and later the train was hauled back to the desert station of Hermanson, a dozen miles west of Columbus. During the trip the deported men alleged they were given no food. Armed guards rode on top of the cars, their rifles across their knees. At Hermanson, the United States Army took charge of the deported men and removed them in a body to the military camp at Columbus, where they were cared for until in the fall, when the refugee camp was closed and the men dispersed. Many of the men, their leaders asserted, were not members of the Industrial Workers of the world and a government investigation committee held this assertion to be true. Following the deportation, special guards were placed on all roads leading into the Warren district and trains were searched to prevent the possible return of persons whose presence was not desired. As a result, civil suits aggregating \$6,150,000 were filed in state courts by persons who had been so treated. While the deportation was in progress, a censorship was established. For several hours, it was supposed the

censorship was instituted by the United States military authorities, but it developed that the order for the censorship had been given by one of the defendants indicted by the United States grand jury.

STRIKE PREVENTS SEVERAL STEAMERS FROM SAILING

By Associated Press. NEW YORK, July 11.—Several coastwise steamers have been prevented from sailing and others due to leave tomorrow will be tied up unless they are able to replace striking firemen, water tenders and others, who struck yesterday for a wage increase of \$15 a month. Officials of the International Seamen's Union, with which the strikers' organizations are affiliated, estimated that 3,000 men are directly affected and that they would be joined by the seamen, cooks, stewards, engineers and mates. Should the claims of the union be made good about forty thousand men will walk out paralyzing coastwise shipping. The vessels operated by the United States Shipping Board are not as yet affected.

RATIFICATION OF TREATY MAY NOT BE COMPLETE

By Associated Press. PARIS, July 11.—Ratification of the treaty of peace by the German National Assembly at Weimar may be held not to be sufficient, according to the Paris Herald. The new German constitution provides that in cases where territory is ceded the ratification of treaties by states which lose territory is necessary in addition to approval by the central government. Consequently independent action by Bavaria, for the Sarra Basin and Prussia for territory restored to Poland may be required. It may be said, the newspaper asserts, that the new constitution had been only partially accepted when the treaty was ratified but, it adds, it is imperative to avoid giving German legal experts a pretext for proclaiming the nullity of the treaty.

UNCOVER PLOT TO STEAL SUPPLIES OF OCCUPATION ARMY

By Associated Press. COBLENZ, Thursday, July 10.—A plot involving wholesale thefts of food, automobile tires and other troop supplies for shipment to Germany has been uncovered by army officers here. It was learned today when several Germans who are alleged to have had a hand in the plans, were arrested. Three cars of American bacon and three cars of tires and tubes, which were hidden through to unoccupied Germany as empties were returned to Coblenz today from the edge of the bridgehead. Officers say that shipmen's under various pretexts has been going on for weeks and possibly months and they estimate the loss to the army at several million marks.

AMERICAN TOURISTS MAY HEREAFTER VISIT RUINS

ROME.—American tourists may hereafter visit Roman ruins—the Colosseum, Forum, Pantheon, Caracalla baths and the basilica of Constantine, St. Peter's and other Rome gems, heretofore not in antiquated horse-drawn carriages out to airships. The Italian navy has established a commercial dirigible service for visiting Rome and its environs from the air. The venture has met with complete success for daily the aircraft are filled to capacity. The correspondent of the Associated Press viewed Rome from the Italian Navy's dirigible M-1. On board were diplomatic representatives of all the allied countries to the number of 34.

the capacity of the craft. The United States representative was Colonel Buckley, military attaché here. Those in the party of long residence here stated that looking at Rome from the dirigible brought out features of it which went unperceived to the observer below. Historic Roman landmarks viewed from the air gave the eye an entirely different aspect of their beauty and form. The riches of Rome in hidden gardens could only be appreciated from above, it was agreed. Looking at the Coliseum from the ground, it appears to be a circular mass of ruined grandeur. From the air, the elliptical proportions of the second greatest accumulation of masonry in history are pronounced. The proceeds from the dirigible service are given to the Italian funds for those disabled in the war. Tea is served in mid-air and letters accepted for postage.

THE LAST CALL

Three weeks ago last Friday, we first offered for sale three hundred and ninety lots in Sibley-Taylor Addition. Today we have less than ninety left and the next week or ten days should witness the sale of the last lot.

We desire to thank the many hundreds of the public who have visited Sibley-Taylor Addition for their practically unanimous endorsement of the beauty and desirability of our property for residence purposes, and likewise to congratulate our buyers on the really exceptional choice they have made for a home-site, for most of our buyers are prospective home-builders, only a minority buying for speculation, just reversing the usual proportion between home-builders and speculators.

We say "exceptional choice" because we are convinced that aside from the natural beauty of the property for residence purposes, the starting of building will instantly enhance the investment feature of the purchases, and the next ten days will witness the beginning of a number of substantial residences.

HOBBY TO CONTINUE FIGHT FOR MEASURE TO PROVIDE HOMES

By Associated Press.
AUSTIN, TEX., July 11.—Governor W. H. Hobby declared the defeat of the proposed home ownership amendment in the recent election by the margin of 737 votes does not mean the measure is in fact defeated, but that its adoption as a part of the Texas constitution "has been only delayed."

"The vote upon this amendment makes it apparent to the people of Texas are in favor of the home ownership," he said. "I am encouraged, not discouraged, over the vote. I will continue the campaign until it is written in the constitution of Texas, that every family in the state will have an opportunity to own a home."

The governor also declared the "amendment suffered the loss of thousands of votes because it was voted simultaneously with the prohibition amendment." He cites that in eight "known" counties the amendment only received 2,470 votes for and 11,788 against the proposition.

TULSA VOTES FOR THE SPAVINAW BOND ISSUE

By Associated Press.
TULSA, OKLA., July 11.—After the bitterest campaign in the history of the city, Tulsa voted in favor of issuing \$5,000,000 worth of bonds for the purpose of constructing a 65 mile road to the Spavinaw river where it will get a supply of mountain water. The vote was 2,271 for the bonds and 1,426 against.

Cuticura SOAP
DIPLOMA AND TALCUM

The pore-cleansing, purifying and sterilizing properties of this wonderful skin soap, using plenty of hot water and soap, best applied with the hands, will prove a revelation to those who use it for the first time. Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment before bathing. Dry and dust lightly with Cuticura Talcum, a fascinating fragrance for powdering and perfuming the skin. The cost of these ideal skin purifiers is 25 cents each, everywhere.

Sole U.S. Distributors: The J. C. Cuticura Laboratories, Dept. 227, Malden, Mass.

WILBARGER FARMERS ARE MARKETING 1918 COTTON

Special to The Times.
VERNON, July 11.—One farmer this week marketed 40 bales of his 1918 crop of cotton on the local markets and hardly a dry place but some cotton that has been held through the recent slump in prices is brought to town. Already over 7,000 bales have been weighed by the public weigher in Vernon, which is 25 per cent more than was the estimate of production of the county, and indications are that a great many bales are still being held. The farmers are rapidly disposing of the staple, however, and it is thought that practically none will be held over till fall.

COMPLETE REVISION OF GRAND CIRCUIT PROGRAM

By Associated Press.
CLEVELAND, July 11.—With the North Randall meeting continuing through tomorrow because of the curtailment of yesterday's card to three races due to rain, a complete revision of the Grand circuit program has been made. By splitting the 2:10 into two divisions, two days of racing have been arranged that appear extremely attractive.

The 2:05 trot in which five are carded to start, is the feature of today's card, which consists of a half mile dash for three year old trotters, two divisions of the 2:17 pace and the first division of the 2:15 trot.

The second division of the 2:10 trot will be run Saturday, as will also the free-for-all pace and two other trotting events.

REVIEW OF DROUTH RELIEF SUBMITTED BY GOVERNOR

By Associated Press.
AUSTIN, TEX., July 11.—A review of the handling of the drouth relief fund raised under the direction of the governor to relieve drouth sufferers in West Texas last year is submitted to the legislature in a message from the governor.

A total of \$277,486 was raised by voluntary contributions, according to the message, and all except \$4,530 has been distributed.

The message calls attention to a recommendation of the drouth relief committee that in event returns of money loaned are made or any funds remain that they be retained to form a permanent fund to be used by the governor in drouth, flood, or fire relief, as necessity arises.

MEXICAN MONEY LOWER THAN FOR SIX MONTHS

By Associated Press.
MEXICO CITY, Thursday, July 10.—Newspapers of this city printed this morning on their financial pages records of foreign exchange transactions showing that drafts on New York were bought at fifty, or par at two to one, for American dollars and sold at 49.5, which is less than two to one. This, it was pointed out, is significant, since during the last six months of 1918, the exchange rate hovered around sixty which meant that the Mexican peso was worth sixty cents in United States money, instead of about fifty cents, its present value.

On account of the activity in real estate it has been impossible for us to keep up with the different transfers. Also, we are having calls for property that we can't fill; the house or vacant lot may be what our customer wants. Phone it in, Stehlik & Haber 718 Tenth, Phone 2331. 44-tfc

MRS. MOONEY HAS A CONFERENCE WITH SECRETARY TUMULTY

By Associated Press.
WASHINGTON, July 11.—Mrs. Rena Mooney, wife of Thomas J. Mooney, who is serving a life sentence after his conviction in connection with the preparedness day bomb explosion in San Francisco, called at the White House today and conferred with Secretary Tumulty. It was understood she desired to see President Wilson in the interest of her husband.

Secretary Tumulty explained to Mrs. Mooney that the President had done everything it was possible for him to do in the case of her husband. He added, however, that the President would be willing to receive and read any petition she desired to submit.

Upon leaving the White House Mrs. Mooney went to the department of labor to see Secretary Wilson.

COLONEL IN CARRANZA ARMY IS CHARGED WITH TAKING SIXTY THOUSAND

By Associated Press.
SAN FRANCISCO, July 11.—Theft of \$60,000 from the Mexican Government is charged against a man in custody named today as Carlos C. Garcia, lieutenant colonel in Carranza's army. The arrest was made following a deposit of \$20,000 by the man in a local bank and search of his lodgings resulted in the finding of \$6,000 in American gold coin. Police assert that Garcia, an officer in the Mexican transportation corps, was sent to Nogales, June 30 to get \$60,000 from the custom house.

COTTON OIL COMPANY WOULD VOID JUDGMENT

By Associated Press.
AUSTIN, TEX., July 11.—Under the terms of the act of the last regular session of the Thirty-sixth legislature now operative, permitting corporations organized from the state for the violation of the anti-trust laws of Texas, to return the Southern Cotton Oil Company of New Orleans, La., has instituted proceedings in the Fifty-third district court against Attorney General C. M. Cureton. The company desires the judgments heretofore against it to be set aside insofar as affects the returning of the company to Texas. A hearing is to be held on the application of the company, for a permit, as in the case of the International Harvester Company.

Awnings.

NOTICE OF SALE OF DRILLING OUTFIT

In order to satisfy an execution placed in my hands I will sell at public auction, on the Sansenbacher Ranch, about 12 miles southeast of Henrietta, Texas, for cash to the highest bidder, on Tuesday, the 15th day of July, 1919:

- One No. 10 Columbia rig;
- One Autman Taylor steam engine;
- One Johnson-Puller gasoline engine;
- 64 feet 1 1/2-inch casing;
- 253 feet 1 1/2 inches of 1 1/2-inch casing;
- 614 feet 3/4-inch casing;
- 1515 feet of 5/8-inch casing;
- 150 feet of 4-inch casing;

Together with all tools and equipment belonging to the rigs on the ground.
J. R. PHAGAN,
Sheriff, Clay County, Texas.

SPECIAL TO OIL MEN

Drive out southeast of town to the East Wichita Oil Co. well, now drilling, look eastward about two or three miles and you will see two new derricks, already up, and drilling will start in the next few days.

We are the owners of several hundred acres of leases beginning near the East Wichita and running east exactly between the locations.

We are going to sell a part of our acreage within the next few days. If you are going to buy a lease in this vicinity see us, first or last. We will be glad to take you out on the ground and show you that we have far the best located leases at much the lowest prices.

W. D. GANT
Phone 2573. Office No. 18, 812 1-2 Ohio Ave

A Large Oil Company

Owning large acreage, proven and unproven, with complete organization managed by high class business men and experienced oil operators, wants small tracts in Burk, Ranger, Duke and Desdemona fields. Company partially underwritten, will be finished by Eastern underwriters at an early date. Will make small cash payment and secure contracts for lands and pay for same out of first proceeds from sale of stock. High class references furnished.

Address MANAGER
203 Continental Bank Bldg., Fort Worth.

**Announcement
To New Pool Stockholders:**

Confirming unofficial reports already made, we take pleasure in announcing that the New Pool No. 1 well found the sand at 1573 feet. After a few days' delay for materials, the well was drilled into ten feet of sand, showing better than 1,000 barrels daily.

According to the logs and records of other wells in this field, we can reasonably expect a very deep and rich sand by drilling a few feet deeper. However, in view of the fact that no pipe line facilities are available to take our oil, and all producers having been urged to curtail production to its present capacity until further notice, production to its present capacity until further notice.

Meanwhile we are building a standard rig over the well and the stockholders may be assured of the management of this valuable property to their best interests.

The present market is bearish, and stockholders would do well to hold their stock for its real value.

The rig that drilled New Pool No. 1 has been moved over to the property of New Pool No. 2 and will be drilling the New Pool No. 2 well at once.

**HAS ANYBODY ANY
SUGGESTIONS TO OFFER?**

We believe we are not boastful when we say that we have one of the most modern and completely equipped ice plants in the United States.

We believe we are not boastful when we say that no ice plant in America makes ice that is one whit purer than the ice we make right here for you folks in Wichita Falls.

Now about those suggestions. We are striving every day to serve every one of our customers on time every day in the week.

Has anybody any suggestion to offer as to how we may improve our service? If you have one, please call us up and if it is at all practicable we will put it into effect at once.

If anything ever goes wrong. If a driver should prove discourteous on any occasion, call us up and let us know. If on any day you hang your ice card out and the driver fails to stop and serve you, call us up and we will arrange to supply you. We will be glad to receive service suggestions, because we want to make our service as perfect as humanly possible.

BOGER-ARD WELL NEAR GRANDFIELD IS REPORTED ON SAND

Special to The Times.
FREDERICK, OKLA., July 11.—Drilling has ceased on the Boger-Ard well, south of Grandfield, and the well is reported to be on the sand at a depth of between 1600 and 1700 feet. This report was prevalent in Grandfield Wednesday, and oil men there believed that the Boger-Ard drillers had been the first to find the pay sand in Tillman county.

It was impossible, however, to confirm the report, as the men in charge of the well refused to make any statement about it. They have been very secretive since starting their drilling, it was said. Drilling was stopped at the well Tuesday.

The report has caused leases to pour again in the Grandfield country. One dealer, Thomas J. Gray, said \$25,000 worth of leases Tuesday. Well Roped Off.

Considerable excitement is being created by the Midhoma well, five miles west and one mile north of Manitou, which is roped off, no one being allowed on the premises, it was reported here Wednesday.

Oil men in the city said that it is almost certain that there is a showing of oil in the well and the drillers are going deeper with the hope of bringing in a big producer.

Activity in the Frederick field still continues to increase and more calls are being made here every day for locations, than the oil men can supply, it was said Wednesday.

Machinery is being unloaded and hauled to the location of a rig on section 14-19, three miles west of Davidson.

Prospects are good for a heavy producer in the well in section 28, south of Grandfield, according to a report received here by Gambelin and Johnson.

A new rig is being erected on section 16-17 and drilling is expected to start immediately.

Interest in the Burk-Extension well is increasing and it is expected that a showing of oil will be made within the next few days, it was said here Wednesday. This well has passed the 1300 foot level.

NEW SUITS FILED IN SEVENTY-EIGHTH COURT

First National bank of Wichita Falls vs. Mrs. C. E. Brown et al, is the title of a suit for debt and foreclosure, filed in the 78th district court.

Suit has been filed by the First National bank of Wichita Falls, vs. the City National bank of Wichita Falls, garnishment in plaintiff's suit against Mrs. C. E. Brown et al.

Suit for trespass to try title was filed in the 78th district court by L. C. Tyson vs. S. N. Martin.

Awnings, porch shades, window shade adjusters, metal weather strips. For particulars call R. W. CROSS, with North Texas Furniture Co., 10th and Indiana. Phone 24. 49-51p

PLANNING TO CONSERVE CHILD-LIFE IN MEXICO

By Associated Press.
CLEVELAND, O., July 11.—The moneyed men of the United States and Mexico are uniting to work with the inter-church movement to conserve the child life of Mexico and Latin-American countries, to make possible a greater civilization in those states," according to Dr. Norman Bridge, wealthy philanthropist attending the Pan-American exercises of the Methodist centenary exposition here.

The organization back of this security movement is temporarily called the Pan-American association to conserve child life, with Dr. Bridge as chairman and Miss Azores C. Laut, writer and investigator, as secretary.

"We are impressed with the enormous havoc among children, since the Mexican revolution began," said Dr. Bridge. "There are 50,000 orphans. Disease takes them by thousands. These children can be saved."

"We are greatly impressed with the work of the missionaries in Latin America and Mexico because they are trying to get hold of the youth, especially the boys to get them started right. That means in ten years a new generation of forceful, powerful men."

"Therefore, some of us business men thought we could join forces with the missionaries of all churches to help save thousands of those children. This movement would help all educational, medical and religious work and would emanate from a non-sectarian group."

FUNERAL OF E. W. OLDS TO BE HELD SATURDAY

The body of E. W. Olds, father of Mrs. Ray Black, who died in Chicago on July 7, will arrive in Wichita Falls Saturday, at noon on the M. & T., the funeral procession going directly from town to the cemetery, where the services will be conducted by Rev. O. L. Powers of the First Baptist church.

WILDCATTERS TURN THEIR ATTENTION TO PANHANDLE SECTION

Attention of the wildcatters has been turned to the Texas panhandle by the completion of the Haggood Oil & Development Company's No. 1 Masterson as a six million cubic foot gas well, and Potter and nearby counties promise to become the scene of considerable activity before the summer is ended. Already a large number of derricks are up, in about a half dozen of the Panhandle counties and Amarillo is the headquarters for scouts, operators and speculators.

The gas sand was found between 1700 and 1800 feet, though the well was drilled much deeper than this, in a search for deep oil. Three other deep tests are now drilling on the Masterson ranch, the Amarillo Oil & Gas Company's No. 2 Masterson, drilling at 1,900 feet, and No. 3, drilling at 800 feet. Rank Creek Oil & Gas Company's No. 1 Masterson is drilling around 500 feet. Hains et al. are drilling around 250 feet on their No. 1 Trigg.

In Hutchinson county, near the town of Pierson, a location on the Corras ranch is reported by Smith et al. The Texas Producers and Refiners have made a location in Wheeler county, No. 1 Wilson, and are now rigging up. The Texas and Northern Petroleum Co., have up a derrick on their location in this same county, No. 1 Martin.

The Hamilton Oil Company have made a location for their No. 1 Gray near the town of Lipscomb, in the county of Lipscomb. Benedum and Trees have a derrick up on the Shelton ranch in Oldham county.

Two tests are under way in Donley county, both not far from Letia Lake.

SHOWING FOR OIL REPORTED IN WELL ON MURRAY LEASE

The Shanafelt & Bowers well on the Murray lease, Coleman ranch, has a good showing of oil at 560 feet, and the indications are so favorable that casing is to be set and the sand tested. This location is 12 miles south, and one mile east, from Wichita Falls, and the finding of even a good shallow production in this entirely new section of the field would attract widespread interest. The well is being underreamed today.

Notice to Oil Companies. All persons and companies owning leases on the J. B. Evans land north-west of Burk Burnett, are hereby notified that unless settlement is made within five days from date for crop damage, suit will be instituted. E. W. Napier, Basement First National Bank Bldg., Attorney for G. C. Rhodes.

BLOCK 74

SUNDAY, JULY 13 There Will Be Wichita Falls Section in the Dallas Times Herald It will contain interesting reading matter and will be well illustrated. This section, coming in connection with our regular big Sunday paper, should create a good demand in Wichita Falls. Ask your newsdealer to arrange to save you a Sunday Times Herald. Order it now while you think of it and avoid a possible disappointment in being told they are all sold out. The Dallas Times Herald "The South's Fastest Growing Newspaper"

ORDER NOTICE SENT TO COMMITTEE ON REVISION OF CHARTER

COUNCIL CONSIDERS NUMBER OF IMPORTANT MATTERS LAST NIGHT.

APPROVE PAVING CONTRACTS

Matter of Better Fire Fighting Facilities is Urged by State Fire Marshal.

Official notification was ordered sent to all members of the committee appointed to draft the new charter, by Mayor J. B. Marlowe at last night's session of the city council. Among other matters to engage the attention of the aldermen at last night's meeting were the approval of a contract for extensive paving in the Southland addition, consideration of a proposed ordinance making it a penalty for minors to enter pool halls, the question of providing adequate fire protection, the Grant street paving, and an informal discussion of the traffic problem in the downtown district. An executive session of nearly half an hour duration was also held toward the close of the meeting, and, as the city charter provides that an executive session can only be held in connection with the employment, discharge or conduct of some member of the official family of the city, it is thought not unlikely that interesting developments may be looked for in this connection.

Letter is Received. The matter of notification of members of the charter commission came up in connection with a letter received from Hubert Harrison, secretary of the Chamber of Commerce, informing them of the request of the directors of that body, adopted in the form of a resolution at their Tuesday meeting, that the members of the committee be officially notified, and that the mayor use his influence to secure all diligence consistent with good business judgment in the drawing up of the charter. Mr. Harrison's letter follows: "Acting upon the authority of a resolution adopted by the Board of Directors of the Wichita Falls Chamber of Commerce at their regular meeting Tuesday, July 8, I wish to com-

CALOMEL IS NOW DELIGHTFUL

No Taste, No Nausea, No Griping, No Salts—Nauseaseless Tablet Called "Calotabs." One Calotab on the tongue at bedtime, with a swallow of water—that's all. No taste, no nausea, no griping, no salts. You wake up in the morning feeling fine, your liver active, your system thoroughly purified and with a hearty appetite for breakfast. Eat what you please, no danger. You feel bright, cheerful, clearheaded, energetic and strong. You can now take your calomel without the slightest fear of unpleasantness, for Calotabs retain all of the liver-cleansing and system-purifying qualities of the old-style calomel without the objectionable qualities. Sold only in original, sealed packages, price thirty-five cents. Your druggist has authority to refund the price as a guarantee of your perfect satisfaction.—Adv.

First Attention to All Orders For the Sick

Send you for your appointment of a committee of the City Council to draft a new charter for the city of Wichita Falls, also would like to respect-fully remind you that this committee has not been notified officially of its appointment, so I am informed.

"As secretary of this organization, speaking for the Board of Directors, I wish to urge that you notify this committee, and call them together at the earliest possible moment, and request them to use all diligence and speed consistent with good business judgment, in the drafting of a new charter that will enable the city government to handle the many new problems presented to us by the recent enormous growth in population.

"I want you to know that this organization is willing to go to great length to assist you and the honorable Board of Aldermen in solving our problems. I believe that you join me in the sentiment that Wichita Falls is the best city of its size in the country, and also believe that you want to make your administration as Mayor remembered throughout the years to come as one of constructive work for a big city in which to live.

Contracts for the paving of Brook from Huff to Collins, Elizabeth from Marshall to Archer, Lucille from Marshall to Archer, and Collins from Brook to Baylor were presented to the council by Judge R. E. Huff and approved. As all property owners on the streets in question are represented in the contracts the work of paving is expected to begin in the near future. The privilege of paving Collins between Brook and Marshall was also reserved in the contract, but as the property owners on this street have not yet agreed to the contract, this work will not be undertaken until the completion of the other work in the Southland addition.

The paving of Grant street, authorized some time ago, and to which the property owners have agreed, but which has been long in abeyance, was discussed with the council by J. L. Lea Jr., representing the property owners on that street. When the contract was made by the property owners the price agreed upon was \$1.80 per yard, but Mr. Lea stated that the property owners concerned were willing to pay the prevailing price in order to expedite the work. The matter was referred to the street improvement committee for investigation.

Addition of ten men to the fire department and the purchase of an additional piece of motor fire apparatus was asked of the council by S. W. English, State fire marshal, as the absolute minimum of fire protection which must be provided by Wichita Falls in order to prevent an increase in the cost of insurance. The matter was referred to the committee on fire and police with power to act in the matter.

Lacking in Equipment. The local situation was gone into at some length by Mr. English, who stated that the present equipment here was based on the needs of a city of 10,000 people, while what is asked of the council is the standard equipment of a city of only 20,000, while there is no doubt that Wichita Falls has more than twice that many people. However, Mr. English expressed the opinion that the increase in the fire department requested will, for the present prevent any rise in the cost of insurance, while if not granted it would call for an immediate increase

of five cents on the hundred of the present rate of 26 cents. The hope, however, was expressed that the council would view the matter from the standpoint of providing the city with adequate protection from fire instead of simply from the standpoint of the cost of insurance. An ordinance making it an offense for a minor to enter a pool hall was presented to the council by E. L. Fulton, attorney, on behalf of local pool hall owners. Mr. Fulton called attention to the fact that proprietors of pool halls are subject to a severe penalty under State laws for permitting minors to remain in their places of business, but have no protection on the other hand, as the minors are subject to no penalties for entering such pool halls and remaining over the proprietors protest. Mr. Fulton cited a recent instance encountered by the management of a local pool hall where three soldiers, recently returned from overseas, were engaged in a game, and although admitting that they were minors, they refused to leave even on the request of the pool hall man, who did not care to attempt their forcible ejection. A motion was made to put the proposed ordinance on its first reading, but was lost for lack of a second.

An informal discussion of measures to be taken for the relief of traffic congestion in the business district was held by members of the council, but as the committees which have been appointed by the various civic organizations to confer with the council on this matter were not ready to present their suggestions, the matter was not gone into at any length.

Notice to Real Estate Men. Have taken my property off the market. Will rent my 6-room house, no bath, to good responsible party, for any length of time. 51-31p

BANK OF COMMERCE HAS PROFIT-SHARING PLAN FOR EMPLOYEES

Officers and employees of the National Bank of Commerce are henceforth to be partners in the institution and to share in its dividends. Directors of the bank have just approved a profit-sharing plan along lines never before tried in this section of Texas which, it is believed, will work out to general satisfaction. According to an announcement by President C. W. Reid, the bank after deducting from its net earnings of 1919 a sum equal to eight per cent of its capital, surplus and undivided profits, will set aside for its officers and employees 15 per cent of the balance of its net earnings. This money will be distributed pro rata to the officers and employees during the year 1920 as the officers shall determine, and will take the place of such additions as have been voted by the board of directors heretofore. Various banks in the Wichita Falls district have distributed Christmas bonuses, some of them as great as 10 per cent on salaries in recent years, but the action of the National Bank of Commerce is the first genuine profit-sharing undertaking of which announcement has yet been made. Mr. Reid is confident that the plan will

result in increased efficiency in the banking organization and cannot but lead officers and employees to greater efforts in the development of the bank's clientele. The National Bank of Commerce which opened for business five years ago last May is now increasing its capital and surplus to \$500,000. It is now erecting a 12-story modern building at Eighth and Indiana avenues in order to handle its growing business. It has been particularly active in the development of the North Texas oil fields. Burkburnett and Ranger fields in movies. Makes staff sell. See Duffey Mapes, Wichita Falls, Texas. 41-46c

AN ADJUSTMENT OF VALUES We are asked a good many times, "Why the high price of coffee?" There are, of course, many contributory reasons. Among them: The frost damage in Brazil last August. The fact that Europe has had practically no coffee for four years, and the surplus in the United States is practically nil. Prohibition is also a factor. But the REAL REASON is an adjustment of values among commodities. A few years ago Rio sevens sold for 5 1/2 cents per pound, so did cotton. Now cotton sells for above 30 cents and Rio sevens for twenty-two. Wheat used to fluctuate between sixty-five cents and a dollar, and is now two-twenty. So it stands to reason the Brazilian can't take the old prices for his coffee and get by. Coffee is still the cheapest commodity of consumption—and the last to advance. WHO CAN BEAT IT? BERT BEAN COFFEE HOUSE Telephone 35 824 Indiana Ave.
