CHARGE U. S. OFFICIALS ARE INVOLVED IN MEXICO

UNITED STATES TO SIGN THE PEACE TREATIES TO BE MADE WITH BULGARIA AND TURKEY

DICTAPHONE RECORDS EMPLOYED BY DENSMORE

WASHINGTON, July 23.—The United States will sign the treaties with Bulgaria and Turkey, it was announced today at the State Department.

WASHINGTON, D. C., July 23.—Reservations to the peace treaty suggested by William Howard Taft are being seriously considered by Senate republican leaders, it was learned today.

Report on Mooney Case Is Furnished House by Secretary Wilson.

DENSMORE INDICATES TRIAL WAS FRAME-UP

Report Enumerates Objections To the Method Used in Conducting Case.

WASHINGTON, D. C., July 23.—Charges of alleged injustices done Thomas J. Mooney, during his trial at San Francisco, in a charge of bombing the building at the preparation of the case to produce a feeling of confidence that the dignity and majesty of the law have been upheld.

Desperate Expediency. "There is no where anything resembling the effect being that of patchwork and incongruous makeshift and often of desperate expediency."

The report indicates Densmore for several months had a dictaphone in the office of Charles M. Fickert, San Francisco district attorney, obtaining much information.

Objections Enumerated. "The apparent failure of the district attorney's office to conduct a real investigation at the scene of the crime; the easy adaptability of some of the star witnesses; the irregular methods pursued to effect a conviction in identifying various defendants; the sorry type of men and women brought forward to prove essential matters of fact in a case of graves importance; the seeming inefficiency of a well established alibi; the sangfroid with which the prosecution occasionally adopted an untenable theory and then changed to another not quite so posterous; the refusal of the public prosecutor to call witnesses who actually saw the falling of the bomb."

These things are calculated to cause in the minds of the most blase a decided mental rebellion."

GEORGE PRIMROSE DIES AT CALIFORNIA HOME

SAN DIEGO, CAL., July 23.—Geo. H. Primrose, famous minstrel, died in this city early today, following a severe illness that began one month ago. He was born in London, Ontario, 66 years ago.

A widow and a brother survive. Primrose began his stage career when 15 years of age and was credited with having originated soft shoe dancing.

HOG PRICES AGAIN MAKE NEW RECORD

CHICAGO, July 23.—Hog prices here hit a new record today at 23.40. The new mark is thirty five cents above the record of last week.

CHAMBER OF DEPUTIES GIVES CABINET VOTE OF CONFIDENCE

PARIS, July 23. (Havas).—Premier Clemenceau who won for his cabinet a vote of confidence yesterday in the chamber of deputies emerged from the conflict stronger than a test vote showed.

The final vote of confidence on a resolution by Deputy Simyan, approving the government's declaration of policy, showed confidence in the government by 289 to 176, a majority of 113. The first vote which was on a demand for priority for the resolution of Deputy Chaumet, gave the premier a majority of 91, the resolution being defeated 212 to 131.

M. Clemenceau won applause even from the opposition when he followed his ministers to the tribune and made points in his address that caused some of his leading opponents to laugh at members of their own party.

To console himself for the criticism of his administration, the premier said, "I have merely to think of those that will be leveled at my successor."

The premier described the situation of the government since the armistice. "We are witnessing the liquidation of the world's greatest catastrophe," he said. "It was impossible after five years of barbarous warfare for everything to be returned to order at the moment of the signing of the peace treaty."

WHERE THE YANKEES WON THE TURNING POINT OF THE WAR

CHATEAU THIERRY, GATE TO PARIS, SAVED FROM THE HUNS BY AMERICAN TROOPS

To a remarkable degree the American soldiers realized that a short life devoted to a great cause was as good if not better than a long life of ease, and their daring and initiative produced wonderful results. They were

New Plan is Presented for Solving Railroad Problem

WASHINGTON, D. C., July 23.—After eight months' study of the railroad situation the National Transportation Conference today placed before congress a new and comprehensive plan for solving the railroad problem.

Exclusive federal regulation of the capital expenditures and the security issues of all carriers engaged in interstate commerce.

Interstate commerce commission to retain its present powers and to be given additional powers over rates.

Enactment of a statutory rule of rate making, designed to yield to the roads a return of six per cent on the aggregate properties of the roads.

Creation of two continent funds including an individual railroad fund established by each road to support its own credit and a general railroad fund maintained by contributions from all prosperous roads, to the support of the credit of all railroads of the country.

An excess of the general railroad contingent fund above \$50,000,000 is to be used for the general development of the transportation system of the country.

Adjustments of wages and working conditions of railroad employees. Wheeler said, would be in the hands of boards consisting of equal numbers of employees, representatives and railroad officials, with the transportation board as referee.

Wheeler also advocated creation of a railroad reserve fund, administered by the transportation board to facilitate prompt stabilization of railroad credit under the plan, congress would lend \$500,000,000 to this fund, as soon as the railroads are returned.

Scheduled to follow Wheeler on the stand in support of the plan were Paul M. Warburg, former chairman of the federal reserve board; Prof. Emory H. Johnson, University of Pennsylvania; W. W. Salmon, president of the General Railway Signal Co., Rochester, N. Y.; and Alexander W. Smith, Atlanta, Ga. All are members of the National Transportation Conference.

MINNESOTA LABOR AGAINST LEAGUE AND FOR SOVIET

NEW ULM, MINN., July 23.—The Minnesota State Federation of Labor today was on record against the League of Nations.

At the same time the Federation endorsed the Soviet government of Russia. The League of Nations had been endorsed but the resolution was withdrawn.

The plan is alleged to have been fostered at a meeting held in Buffalo last May, addressed by radicals from New York, Buffalo, Cleveland, Toledo, Pittsburgh, Boston and Chicago.

Information in the possession of the committee is said to indicate a plan to form the "Red Guard" from ex-soldiers and sailors through the soldiers' and sailors' through the present association.

A reported move to form workmen's councils or soviets in factories throughout the state also was to be reported, but this was not confirmed.

MEXICAN GOVERNMENT CLAIMS TO HAVE CORRESPONDENCE THAT SUGGESTS MEETING WITH VILLA

MEXICO CITY, July 23.—It was announced officially today that the Mexican government will publish correspondence captured in the recent Villa-Angeles raid on Juarez.

The correspondence, it was stated, contained alleged communications from former Governor George W. Hunt, of Arizona, intimating to Villa that Senator Fall and other Americans wished to visit him at some appointed place in the state of Chihuahua to discuss the extension of aid in his campaign against the Mexican government.

WASHINGTON, D. C., July 23.—Francisco Villa attempted to arrange a conference with Senator Fall, New Mexico, and other influential Americans following the Columbus raid. It was asserted here today following announcement from Mexico City that alleged correspondence captured at Juarez will be published by Carranza soon.

Villa, according to information here, wanted to assure Fall that American citizens would be given every protection during the campaign against Carranza.

Villa's request was made to C. F. Hunt, a NEI Paso, Texas, broker, not to former Governor George W. Hunt of Arizona. It was stated here. Hunt replied that Fall would see Villa organization leaders if they wished to come to him, it was said. The state department was said to have the correspondence in full before Villa and Hunt.

Fall refused to make any formal comment on the Mexican announcement.

WASHINGTON, July 23.—William B. Mitchell, former manager of the Bank of London in Mexico City, told the House Rules Committee today that the sending of two American military expeditions into Mexico and their subsequent withdrawal is largely responsible for the anti-American feeling in the southern republic. The committee is considering a resolution authorizing investigation of the relations between the two countries.

"Do you think that the feeling against Americans was strengthened by the belief that America or its people were afraid to assert their rights?" asked a member of the committee.

"Yes," said the witness. "Two American expeditions entered the country and then withdrew."

"The Mexicans then had contempt for Americans?"

"Yes," Mr. Mitchell said there was a strong anti-American spirit in the Carranza administration.

Discussing the mistreatment of Americans in Mexico, the witness said the "riffraff" in the Mexican army was largely responsible for depredations in Mexico, particularly in the Tampico district.

Says Fletcher Insulted. Americans are not being treated with the same consideration as other foreigners, he said, adding that Henry P. Fletcher, the American ambassador, was openly insulted on the streets of Mexico City, while en route to attend the inauguration of President Carranza while the German ambassador was cheered.

Mr. Mitchell disagreed with the statement before the committee by Ambassador Fletcher, who said that one reason why Americans were greater sufferers at the hands of Mexicans was that they outnumbered the citizens of other nations.

He said there were more Spanish and French than Americans in Mexico. Germans, he said, generally were well treated.

Mrs. Carroll Testifies. Mrs. John W. Carroll of Ada, Okla., whose husband was killed near Tampico recently by a band of Mexicans who also murdered her husband, said that her son, told the committee that no effort was made by the Mexican Government to apprehend the murderers.

She remained at her home several weeks before returning to the United States, she said, but in that time no representatives of the Carranza government called to discuss the attack or attempt to run down the bandits.

Mrs. Carroll's son, Joseph, aged 16, testified that the band who attacked his parents was composed of about 50 men commanded by a German who spoke excellent English and who wore a uniform similar to those of American soldiers. He said a detachment of Carranza soldiers arrived at the railroad station near his father's ranch the day after the attack, but remained only a short time and made no efforts to locate the bandits.

HYDE LIBEL SUIT IS THROWN OUT OF COURT

KANSAS CITY, MO., July 23.—Judge Hall today threw out of circuit court Dr. B. Clark Hyde's suit against the Star.

MOUNT CLEMENS, MICH., July 23.—After less than a day's examination by his chief counsel, Henry Ford was again in hostile hands today in his million dollar suit against the Chicago Tribune. When Judge Tucker ruled, direct testimony on Ford's subscriptions to war loans immaterial, Attorney Stevenson, for the Tribune, resumed cross examination.

Ford was questioned closely on his war work, especially Eagle boats. It was shown that during 1916 alone, repairs of Ford cars at their service stations amounted to approximately \$8,000,000.

Stevenson challenged the statement that the Ford Motor Co. was hampered in doing war work without profits.

Ford countered by saying Frank L. Klingensmith, vice president of the company, was authorized to speak for the company on all subjects.

The long strain has begun to tell on the jurors, some of whom are elderly men. It was expected the sneeuus will be arranged so as to give the men a two hour rest at noon.

Stevenson brought up the famous Dodge-Ford suit for distribution of dividends.

"Is it not a fact that you and your son, Edsel gave out the announcement that you were to build a cheaper and better car than the present Ford and finally bought the stock of the Ford company at a much lower figure than they could have bought it prior to the new car announcement?" Stevenson asked.

SMOKE PALL OVER SPOKANE AS RESULT OF BIG FOREST FIRES

SPOKANE, WASH., July 23.—A smoke pall hung over Spokane today. Back in the timber thousands of weary men fought a losing battle against a score of forest fires. Although a light rain fell in Spokane early today, none had visited the burned areas.

Local firemen for four hours last night fought a stubborn fire in one section of the city which is covered with pines and brush.

New fires are reported from half a dozen sections. There is a shortage of labor and a high wind is fanning old fires into renewed activity.

Thompson Falls and St. Reges, Montana, were in imminent danger, while types were desperately headed off from Newport, Wash., Enville, Kellogg, Muland and Burke, Idaho.

The Bear Creek fire started during the night traveling about a mile up the north fork of the Cosier De Albia river.

SHERIFF ADVISES LONGVIEW NEGRO IS NOT WANTED

TOPEKA, KAN., July 23.—The Texas authorities do not want Dr. S. P. Davis returned to the Lone Star State, according to word received from Longview, Texas, where article 33 of the Texas constitution today says "Davis is not wanted here; we are glad to be rid of him," the sheriff wired.

AUSIN, TEX., July 23.—Application for extradition papers for S. P. Davis, alleged leader of negroes in the recent Longview, Texas, race riots was expected by Governor Hobby today from the sheriff of Gregg county here today.

Davis is reported to have surrendered to authorities at Topeka, Kansas, yesterday. His statement that \$7,500 had been offered for his apprehension is denied both here and at Longview.

Under Texas laws Governor Hobby can not issue request for extradition for the negro without formal request from the Gregg county authorities.

JACK JOHNSON TO BE EXPELLED FROM MEXICO REPUBLIC

LAREDO, TEX., July 23.—Jack Johnson, former heavyweight pugilist champion of the world, will be expelled from Mexico, under article 33 of the Mexican constitution relating to pernicious aliens, according to newspaper Ely Dorvenor of Mexico City, telegraphic advices from that city say.

It was reported some time ago that Johnson was in difficulty because of his failure to fulfill contracts for boxing exhibitions with Mexican promoters.

LENINE WANTS PEACE WITH THE RUMANIANS

LONDON, Tuesday, July 23.—A Polish cable from the Danube river at Kishineff with an offer of peace to the commander of the Rumanian Dioster troops on behalf of Nikolai Lenine, the Bolshevik premier, according to a Berlin wireless dispatch.

Lenine offers to cede Bessarabia to Rumania on condition that Rumania shall prohibit Ukrainian citizens and bands of Admiral Kolchak, head of the Omsk government, from crossing the Rumanian frontier.

An armistice to last eight days has been concluded on the Bessarabian front and the delegation has gone to Rumanian headquarters.

SPokane, Wash., July 23.—A smoke pall hung over Spokane today. Back in the timber thousands of weary men fought a losing battle against a score of forest fires. Although a light rain fell in Spokane early today, none had visited the burned areas.

Local firemen for four hours last night fought a stubborn fire in one section of the city which is covered with pines and brush.

New fires are reported from half a dozen sections. There is a shortage of labor and a high wind is fanning old fires into renewed activity.

Thompson Falls and St. Reges, Montana, were in imminent danger, while types were desperately headed off from Newport, Wash., Enville, Kellogg, Muland and Burke, Idaho.

The Bear Creek fire started during the night traveling about a mile up the north fork of the Cosier De Albia river.

FORWARD STEP IN HISTORY OF UNITED STATES

Such Is Declaration of Senator McKellar in Supporting League of Nations.

SAYS THE OPPOSITION IS FROM THE REACTIONARIES

Declares It Was This Class That Opposed Federal Constitution

Senators today by Senator McKellar, Tennessee, as of the greatest forward steps in the nation's history. Most of the opposition, he asserted, came from the reactionaries of the same school as those who opposed the federal constitution and those who later handicapped the growth and development of the country.

"There have always been reactionaries in our country," said the Tennessee senator, "and there have always been progressives. There have always been forward-looking and backward-looking men. There have always been men who looked to precedents and to the past and men who looked to the future. If the reactionaries had had their way in the beginning of our government, we probably would not have had a republic. If they had had their way the republic would never have been enlarged."

Not a Reactionary. "I am not a reactionary. I am a democrat in its most progressive sense. We ought to improve upon those who have gone before us. We have had better advantages than they had. They blazed the path. Every dictate of conscience, every dictate of humanity, every dictate of an enlightened sentiment, every dictate of commercial and industrial advantage, every dictate of a desire for peace, requires the establishment of this great world pact.

Reactionary republicans and reactionary democrats who are opposing this league, don't let your hatred of any one man warp and set aside your judgment. Whatever may be said of Mr. Wilson, he has surely done great things for America. Under his administration we have become a world power faster than in any other like period in our history. All of his work has been done for the benefit of America, who has given this great peace covenant to the world, be the only one to repudiate it."

Quotes Senator Lodge. The speaker quoted Senator Lodge's speech in the Senate last December and declared the peace terms laid down there had been substantially embodied in the treaty.

Senator Knox, he said, had desired to go even further than the league covenant in his resolution declaring the United States would cooperate to remove any future menace to European peace.

"The real criticism of the league in the minds of its opponents in the Senate," continued Mr. McKellar, "is that Woodrow Wilson took a commanding part in the formation of the league. There may be better plans, but why haven't they been produced?"

Three incontestable reasons for the league, continued the Senator, are the cost of war, its sacrifice of human life, and "the utter folly of creating nations in Europe without giving them the guaranty of life." He said he did not agree that Article X imposed any moral obligation to go to war to preserve the integrity of members, but that it rightly imposed a legal obligation to do so.

Discredits Race Question. Replying to a charge of Senator Reed that the league might be controlled by black, red and yellow races, Senator McKellar quoted this passage from a speech made when Jefferson bought Louisiana: "We are now to look for our rulers to the black, yellow and red brethren beyond the Mississippi."

"Missouri," continued Senator McKellar, "is a part of the Louisiana purchase. I am curious to know if some ancestor of Senator Reed did not speak those words. The argument is idle. I think the senators from South Carolina and Mississippi will compare favorably with the representatives of other states in this body, regardless of the black majority in each of them."

Bargains, we mean bargains now; not last year, or even sixty days ago. We can sell them. Please phone us your list. Stehlik & Haber, phone 2321.

J. M. Jackson, formerly sergeant major at headquarters 8th Division, has accepted a position with the Retail Merchant association.

LEMON JUICE TAKES OFF TAN. Girls! Make bleaching lotion if skin is sunburned, tanned or freckled. Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White soap well, and you have a quarter pail of the best freckle-sunburn and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! it is harmless.

Nature's Remedy. BETTER THAN PILLS. GET A BOX FOR LIVER ILLS. 25c BOX. The Miller Drug Store.

COL. MORROW IS A WITNESS AT THE INQUIRY

Says Aerial Motors Should Be Diverted From Large Business Centers.

WAS A PASSENGER ON PREVIOUS BLIMP CRUISE

Pilot States Wireless Set May Have Caused the Balloon Burn.

July 22—Aerial motors are not fool proof yet and until they are made fool proof, they should be diverted from large business centers, according to Col. Morrow, who testified at the inquiry into the "Blimp" disaster.

Col. Morrow testified he had made a thorough investigation of the "Wingfoot" before taking passage. He said there was no chance the exhaust had shot sparks in the fabric of the bag, that the pilot was capable and that there was no leakage.

Pilot J. A. Boettner who will be detained on orders of the states attorney, said today wireless sets may have caused the balloon to burn. He recalled passing a wireless tower just before he saw the first flame tongue.

By United Press. CHICAGO, July 23—A grand jury investigation with possible indictments was decided on today to fix the blame for the "Blimp" disaster here late Monday in which twelve persons were killed.

Action was taken last night by States Attorney Hoynes who released all witnesses held except J. A. Boettner, pilot of the dirigible that fell flaming through the roof of the Illinois Trust and Savings bank and W. C. Young, aeronautical expert of the Goodyear Tire & Rubber Company, Akron, Ohio, owners of the craft.

Boettner and Young were not booked on any charge but were detained for further investigation. At the coroner's double inquest yesterday neither of the men would testify, taking advice of their attorney, Henry A. Berger. Following their refusal to testify, the jurists adjourned until today.

Latest theories as to the cause of the accident have it that sparks originated from the rotary engine ignited the silken bag of gas on the port side. Probable back fire may have communicated flames to the Blimp's bag, it was said.

The twelfth death due to the accident occurred late yesterday. Milton G. Morton, a newspaper photographer, who had taken the trip, succumbed to injuries he had received in the chest. Both legs were broken, also. He had

ANOTHER EFFORT TO PROVIDE SPACE FOR CURB BROKER

PETITIONS MAY BE CIRCULATED ASKING REPEAL ORDINANCE.

CLUB VOTES ON QUESTION

Several Defend Proposal as Heretofore Presented and Will Urge the Matter.

Another effort is to be made to secure repeal of the ordinance for the activities of the curb brokers, with a probability of petitions being circulated asking the council to repeal the present ordinance under which they are barred from the street, it developed at today's noon luncheon of the Wichita Club. It was even suggested that a referendum vote be called on the question in the event that the council failed to act on the matter.

Several of the members of the club, in reporting for the committee for the club which went before the council last week on this matter, Mr. Snider reported that while it had seemed at the council meeting that the committee's object had been attained, and that the council was disposed to grant the use of the desired strip to the brokers, it was later decided that in view of the present city ordinances this could not be done.

Mr. Snider also stated he had been told that the council was threatened with injunction by property owners along Ohio avenue if permission to go into the street was given the brokers, but stated that he had later seen one of these parties who stated that his objection was to the use of the sidewalk for that purpose, and that he would be willing and glad to have them ply their trades in the street in front of his store.

Liepsold Opposes. An opposite note was struck by Eugene Liepsold, who declared that the curb brokers were the biggest nuisance in the city, and almost went to the point of insulting people in their efforts to sell their stocks.

The curb brokers were declared to be a business asset by W. Newton Maer, who said that half the visitors here are business men here for the purpose of making investments in oil stocks.

No better criterion of business conditions exists than the sight of a brisk business, attracting a large crowd, being carried on in the streets, said Judge R. E. Huff in favoring the proposition to set aside a fifteen-foot strip of Ohio, of such length as is required, for the use of the salesman.

Inasmuch as we cannot provide offices for these men to carry on their business, I think that it is due them to make some provision elsewhere, and

leaped from the gondola in a parachute but his swift fall to the sidewalk 1200 feet below was scarcely retarded. Several of the victims funeral were to be held today. Officials of the bank, where most of those killed—both girl stenographers and men bank clerks—were understood to have arranged relief for families whose sons support the dead persons were. The Goodyear Company, also it was stated, had sent representatives here to give relief.

this street seems to be the logical place for them," said Judge Huff. "I don't know but what it's a pretty good thing, anyway, to let our neighbors know that business is so good here that office rooms are not sufficient to provide for it," he continued. Judge Huff pointed out that he has been opposed to the brokers' use of the sidewalk, but was in favor of their using part of the street.

"While I have never bought a share of stock from any of them, and never expect to, I believe that their activity is a good thing, because I have been so informed by local men in whose judgment I have confidence," said Judge Huff. "While all of their propositions may not be profitable, we can not expect every venture of this kind to prove entirely profitable. It is, of course, speculation but the people wish to speculate in this manner and I believe that they should have the opportunity to do so.

Enforcing the Law. "Mr. Bundy's attitude, in making his decision Saturday not to let the brokers try out the street was simply one of the enforcement of the present city regulations, I am informed.

In case there is no serious opposition from the property owners on Ohio avenue, I believe the matter could be very easily adjusted.

In case the council does not act on the matter, why we have a remedy in a provision in the charter whereby we can call for a referendum vote of the people on the proposition.

People who are opposing this proposition have not looked at the question in the right light, was the declaration of W. R. Duke, in speaking of the advantages to the city and the oil industry from the curb market. People from all parts of the United States invest in local oil companies through the curb market, he said.

Charge Edge Bill TO AID BANKS IN EUROPEAN CONTROL

WASHINGTON, D. C., July 23.—Charging that the Edge bill to authorize foreign banking corporations under the Federal Reserve act is a scheme to enable American bankers to get control of industries in devastated districts of Europe, Senator Gronna, North Dakota, succeeded in preventing a favorable report on the measure by the banking and currency committee today.

Gronna declared there is "something underlying the measure which does not appear on the surface."

The bill, according to Senator Edge, who explained the provisions to the committee, would enable American bankers to grant credits to European firms who want to buy goods in the United States but are prevented by unfavorable exchange.

The committee ordered a favorable report on the Calder bill to permit national banks to establish branches.

As introduced the bill applied to cities of 100,000 or more, but on motion of Gronna, the privilege is limited to banks operating in cities of 500,000 or more.

WICHITA MILL IS SOLVING THE LOCAL HOUSING PROBLEM

NUMBER OF HOUSES ERECTED AND FURNISHED AT A REASONABLE RENTAL.

BARRACKS ALSO PROVIDED

Addition a Large Boarding House is Being Built to Accommodate Employees.

What one local industrial plant, the Wichita Mill and Elevator Company, has done to meet the housing problem for their employees, in coping with the situation and providing facilities for its people at a rent about one-third of the normal rental rate, was related to a representative of the Times yesterday by J. C. Mytinger, manager of the mill. With an outlay of only \$40,000 the mill has constructed on their property in the Southland addition a number of attractive cottages, divided into three room compartments, renting for \$12.50 each, a barracks with eight three room apartments, renting for \$10 each, and are building a 25-room boarding house where rooms and board will be obtained at a nominal sum by its employees.

In addition to these buildings there is a ten-room boarding house which is rented for \$50 per month, with a contract that board and rooms will be furnished employees of the mill at a very reasonable price. There are also 14 army tents of the pyramid type, which have wood floors and walls, each capable of comfortably accommodating eight men. These were constructed to care for the housing problem while the other construction was going on, and have never been filled to their full capacity.

All rooms and apartments are fitted up with all modern conveniences, including electric light, gas and water connections.

Not a single employee who has been brought by the mill under this plan has left their employ, declared Mr. Mytinger.

"The employees housing situation is a matter that is up to the individual employee," said Mr. Mytinger, in discussing this problem. "I do not believe that employers need look for any outside material help on this matter under 6 months time, so it leaves it up to each institution to meet its own situation."

Church Notice. Special service for children tonight at the Evangelical church, corner Fifteenth and Grand. Parents should bring their children. Special singing by the children. Rev. L. Newman of Houston will speak to the children tonight at 8:45. You are cordially invited to attend.—GEO. L. TRAMANT, Pastor.

SOCIETY

EASTERN STAR WILL CELEBRATE ANNIVERSARY

The Eastern Star will celebrate their eighth anniversary with a public reception Wednesday evening at the Masonic Temple at 8:30. The Masonic body is urged to be present, and the public is cordially invited to enjoy this occasion. The temple will be attractive in its appropriate decorations, and punch and water will be served for refreshments. Visitors will be shown through the temple. The interesting program, which will be rendered during the evening, is as follows:

Vocal solo—Mrs. M. M. Bates.
Reading—Miss Lois Martin.
Vocal solo—George C. Taylor.
Reading—Miss Louis Fitzgerald.
Vocal solo—Mrs. Dalphin. Accompaniment by Miss Coffield.
Piano duet—Mesdames P. E. Kerr and J. C. Kempy.
Vocal solo—Mrs. H. M. Young. Accompaniment by Mrs. J. C. Kempy.
Reading—Mrs. T. A. Heck.
Piano solo—Miss Mary Mathilde Akle.

Reading—Mrs. J. W. Akin.
Piano solo—H. J. Pierson.
Also an interesting lecture by the letter on his work in the Ambulance Corps in Germany.
Mrs. H. Beeble from Chillicothe, an out of town visitor, will be the District Deputy Grand Master.

Miss Josephine Freeman left Thursday noon for Roanoke, where she will spend two weeks with relatives. Last evening Mrs. J. C. A. Guest, accompanied by Mr. and Mrs. Gay Hammond and Mr. and Mrs. S. L. Fowler, left for California to be gone the remainder of the summer. Mr. and Mrs. L. P. Hammond and daughter will leave the latter part of the week for California.

IMPROVEMENT IS REPORTED IN THE SUPPLY OF ROOMS

A larger supply and a falling off in the demand for rooms in the residential section is reported from local hotels and the Chamber of Commerce bureau, where lists of available rooms are kept on file. Several rooms whose owners have listed them at less than has been the prevailing rate, some of them as low as \$30 per month, have been registered at the Chamber of Commerce.

"I don't believe that there is quite as much travel here right now as was the case several weeks ago," said one well known local hotel man in speaking of this situation. "While the available supply of rooms at all of the hotels is still being filled to capacity, we have less call for rooms in the residential section than was the case some time ago. Transients are also learning the location of some of the lesser known rooming houses, and are going also to the tents more than was the case heretofore, when they are unable to secure accommodation at the hotels."

Peaches! Peaches! Peaches! Cut down the high cost of living. There is no advance in price of peaches at Rigby farm, two miles north Thornberry stores. 61-17c

PLAN TO BEGIN ON WORK OF REVISING THE CITY'S CHARTER

EFFORT WILL BE MADE TO GET COMMITTEE MEETING TO-MORROW NIGHT.

JUDGE HUFF ASSURES CLUB

Matter is Presented at Luncheon of Members Today by W. S. Curlee.

Tomorrow night may see the beginning of the labor of the committee appointed to draw up a new city charter, according to Judge R. E. Huff, who promised at the noon luncheon of the Wichita Club to take the responsibility of making an effort to get them together at the time, either to begin their work or to ask to be discharged and a new committee appointed.

While he had never been approached by any member of the city administration and informed that he was a member of that committee, said Judge Huff, he had read of his appointment in The Times, and on one or two occasions had suggested to associates on the committee the advisability of an early beginning of their work. So far, he stated, these efforts had met with no response, but he pledged himself to make a final effort to this end tomorrow night.

Curlee Presents Question. The matter was introduced by W. S. Curlee, member of the city council in connection with a discussion of the street cleaning problem before the council. Mr. Curlee pointed out that the council was laboring under the handicap of an administration which was designed for a village of between 4,000 and 5,000 population, and declared it to be absolutely essential for the good of the city that a new charter better adapted to the present conditions should be drawn up and adopted immediately. Mr. Curlee asked that every member of the club use his influence to expedite the preparation and adoption of a new charter.

Mr. Curlee's remarks were supplemented by H. L. Hunter, who mentioned that the matter of amending the present charter, or drawing up a new one, had been hanging fire for more than two years, without anything having been accomplished, and that now this matter had reached a point where it was an immediate and imperative need.

Handicaps Are Cited. Mr. Hunter cited as an instance of the handicap imposed by present conditions the fact that no provision had even been made for the upkeep of the Kemp Library, donated to the city by J. A. Kemp at a cost of \$20,000. At the time of its gift, Mr. Hunter pointed out, the council had agreed to take charge of it, and make provision for its upkeep, but to date that had not been done, nor even had a light been placed in front of the building or a sidewalk built in front of it.

"Just what does the council do around here?" asked Judge John C. Kay, at the point where Kay was answered with a laugh from the club members.

That there is a very reasonable prospect of the Wichita General Hospital being to close down in the near future if some provisions for its extension and accommodation being provided for the nurses, for which funds are not available under the present charter, was brought out by Dr. Everett Jones. The hospital is at present in a very overcrowded condition, Dr. Jones stated, and the home recently rented by civic organization for nurses home has been sold, and must be vacated within 30 days, with no other accommodations in sight, making the entire situation a very grave one, and one of vital interest to the city.

LOCAL BREVITIES.

Major J. B. Hatchett, former division judge advocate of the 96th Division, and for a number of years before the war a prominent member of the bar at Austin, has located in this city and will open a law office here in the near future.

Herbert W. Roberts, of Chicago, formerly lieutenant in the Adjutant General's department and attached to the headquarters of the 56th Division has moved to Wichita Falls and is in the office of Everett F. Smith in the First National Bank building.

J. A. Kemp, who has been spending several weeks at Washington, Chicago and Battle Creek, is expected to return Friday. It was announced today.

George Wilson, formerly with the Blair Hughes Co. here, and who has recently returned from overseas where he was attached to headquarters 96th Division, has accepted a position in the office of the Wichita Mill & Elevator company.

S. Riesenberg leaves tonight for Colorado Springs, where he expects to spend the next two or three weeks with his family who are at that place for the summer.

Theft of a new Ford roadster from the parking space near the passilion at Lake Wichita early last night was reported to police officials by J. C. McCoplin.

AMUSEMENTS

"BETSY'S BURGLAR" IS ATTRACTION AT PLAZA

"Betsy's Burglar" comedy drama of quaint interest, will be shown at the Plaza Theater, tonight. In "Betsy's Burglar" Miss Talmadge takes the part of a boarding house lady with great aspirations. Oscar Schlitz, the grocer's boy, is in love with her, but she awaits her Prince Charming. A handsome young lodger arrives at the house, and Betsy promptly falls in love with him. He happens to be the heir to a large estate, but is unable to gain possession until he has secured a lawyer. Betsy's attorney is trying to pull over. Meanwhile Oscar, the grocer's assistant, graduates from a correspondence school for detectives and in looking for opportunities to try his metal becomes implicated in events affecting Betsy and her Prince. Betsy is kidnapped by some desperadoes and tortured by them in an effort to make her disclose the whereabouts of some jewels. Oscar mixes in, but is soundly thrashed. In the end Betsy's star boarder comes to the rescue and all ends happily. Kenneth Harlan plays opposite Miss Talmadge and is said to have scored heavily in his initial screen performance.

"DIANE OF THE GREEN VAN" AT THE EMPRESS THURSDAY

Alma Rubens, who is starred in "Diane of the Green Van," a screen dramatization of Leona Dalrymple's story at the Empress Thursday, which won a \$10,000 prize in a competition by a Chicago publishing house, is fortunately cast. The original type of Miss Rubens' beauty fits the type like Diane to perfection in this story of romance, mystery and intrigue. Diane Westfall lodged for the open trail and the zest of adventure. Clashes and lights and cues had lost their charm for the girl whose mother was of the warm South, half Seminole and half Spanish, and she felt the call of the Blood. So she fitted up a Gypsy wagon and struck the trail for Florida. Philip Poynter in a hay wagon and an Houdan prince in the disguise of an itinerant organ grinder, followed her van. A mysterious night attack, in which Philip saved her life, was followed by a series of thrilling episodes, which finally led to a Seminole village in the Everglades of Florida where Diane met an Indian girl and through her learned that she was the daughter of a Houdan prince. The intrigue and mystery of the story is gripping, while the richness and beauty of the settings and scenes are not worthy for their lavishness. The night scenes in the Everglades showing the moss covered trees and exotic foliage of Florida are unsurpassed. The fascinating story is carried through by a cast of unusual excellence. The production was made by the Winsome Stars Corporation under the direction of Wallace Worley, who is to be commended for an excellent piece of work.

—TOMORROW— MADGE KENNEDY —IN— "LEAVE IT TO SUSAN"

A comedy-drama in which Madge Kennedy invades Bill Harts own West and proves a match for a gang of outlaws. A chuckle every second with a laugh every minute is the guaranteed speed of this swift moving novelty.

TEXAS GUINAN —IN— "HELL'S AGONY"

Two reel complete Western thriller of a different type.

DALLAS TEACHERS GRANTED INCREASE OF 41 PER CENT

ST. LOUIS ALSO PROVIDES ADDITIONAL PAY FOR INSTRUCTORS.

OTHER CITIES TO PAY MORE

Oklahoma City Teachers Are to Receive An Increase of Eight Per Cent.

By United Press. DALLAS, TEX., July 23.—Carpenters, plumbers, bricklayers and plasterers have larger yearly incomes than teachers in Dallas schools, and this despite the fact that high school teachers have received salary increases averaging 41 per cent and grade school teachers 33 1/3 per cent, according to figures gathered here today.

High school teachers, under contract for the coming year, will receive a maximum of \$1,350 a year and a minimum of \$1,150.

Grade teachers receive a maximum of \$1,500 and a minimum of \$866.

The same wage scale applies to both negro and white teachers.

TWELVE PER CENT IS ST. LOUIS INCREASE

ST. LOUIS, MO., July 23.—Education is getting faddy. The price has gone up.

Board of education officials here said today teachers in all branches had received raises amounting to nearly 20 per cent since July, 1917.

The increase in July, two years ago was 13 per cent. Other school costs also have increased, they said.

Teachers here obtained raises through voluntary action of the school board.

MORE PIN MONEY FOR OKLAHOMA TEACHERS

OKLAHOMA CITY, OKLA., July 23.—If meanwhile pins don't take a jump, Oklahoma City's pin school moneys will have about 8 per cent more "pin money" next winter, Supt. Whitford announced today.

A blanket increase similar to last year's has been declared. The minimum is \$80 a month for inexperienced teachers.

ILLINOIS TEACHERS ARE RECEIVING INCREASES

SPRINGFIELD, ILL., July 23.—Dejected time and again, but never disheartened, Illinois school teachers saw their fondest hopes realized when the last session of the general assembly enacted a law placing in the hands of boards of education of the school districts, the power to raise the tax rates for the purpose of granting salary increases to teachers.

AERIAL "CAVALRY" IS KEEPING CLOSE WATCH ON THE MEXICO BORDER

EL PASO, TEX., July 23.—Aerial "cavalry" keep watch over the Mexican border in this district, patrolling the Rio Grande with the horsemen ride their lonely patrols between outposts.

Each morning, as the horse cavalry ride away to cover their beats, big airplanes leave the Fort Bliss flying field for Columbus, N. M., on the west and Fort Hancock on the east to scout along the international border for bands of Mexican bandits.

The aviators make daily reports to military headquarters on the same blanks used by the cavalry patrol of officers and frequently report armed bands below the border.

The Mexican border is called the southern front by the aviators and Fort Bliss has been selected as the headquarters for the aviation section of the southern department.

A flying field beyond Fort Bliss has been set apart for the use of the flyers, a bombing field selected at the government target range in New Mexico, and wireless stations built at the fort and at landing fields with the horizon line balloons will be stationed at Fort Bliss and other important points along the border and machine shops erected to repair airplanes damaged in the patrol service.

American army airplanes attracted much attention from Mexican soldiers and civilians on the south bank of the Rio Grande. When the first planes to loop-the-loop were seen many Mexicans believed it was falling and scrambled for cover.

The Mexican army has 14 planes at the northeastern end of headquarters at Chihuahua City and General Manuel Diagen is planning to establish regular airplane patrols of the Mexican Central railroad as soon as it is repaired with a temporary aerial service.

Chihuahua City and the border until the train service is resumed.

LAHERTY QUITS FOR GOOD OF THE CLUB

LOUISVILLE, KY., July 23.—Patsy Flaherty has quit as manager of the Columbia "for the good of the club."

Flaherty's friends say that he has tired of front office interference and the arduous grand stand managers in Louisville. Joe McCarthy is temporary manager.

GET RID OF CONSTIPATION

Every day you allow yourself to be troubled with constipation you lessen your physical strength, your resistance to disease, and your ambition to succeed.

Constipation is the forerunner of 85 per cent of all human ills. It brings to more suffering, more sleeplessness, more ill-temper than any other single cause.

Use RICH-LAX. You can get rid of constipation. You can be well, strong, ambitious! You can be successful!

Nor do you have to take any nauseating, griping medicines to do it.

RICH-LAX according to directions and constipation has got to go. It cannot return. It will return if you follow this scientific treatment.

RICH-LAX cleans the system, removes the bodily poisons—puts you in shape to accomplish things. And RICH-LAX does this without hurting you. You don't have to feel sick, as you always feel after taking ordinary laxatives.

That's why RICH-LAX is becoming the most widely used, most successful treatment for constipation that has ever been made. YOU TRY IT NOW—84 you'll be glad you did. Sold in large size bottle costs 50c. Sold really by

SANSBURY'S DRUG STORE.

Matrimonial Strikes Are Phenomenon of Post-War Restlessness Says Jurist in Reviewing Divorce Record in Court

By United Press. CHICAGO, July 23.—Matrimonial strikes are just another phenomenon of post war restlessness, according to Chicago jurists. With industrial strikes reported hourly where strikers quit for no apparent reason, the divorce courts are kept busy in the same way.

In Chicago last year 6,000 couples were divorced. Judge Sheridan E. Fry of the court of domestic relations pronounced the epidemic of the chain snapping a result of the war, not a result of war marriages.

Judge Fry's observations have led him to see three main reasons for soldier divorces. First, he becomes weary of the quiet round of marital life, and thus starts something. Second, the wife of several years is apt to be suspicious of the husband who has been subject to the wives of those foreign girls for a year or so. Third, the improvident husband who was driven into the army has improved little.

Booze played a part, poker had a share and effective "vamping" caused some trouble. The big increase in divorces, Judge Fry maintained, is due to the causes he named.

SAYS MATRIMONIAL TIES ARE WEAKENED

OAKLAND, CALIF., July 23.—War strengthened ties between nations but weakened matrimonial ties, Judge T. W. Harris of the superior court declared today. War time marriages predominate among those brought up for annulment, he said.

NEW LAWS NECESSARY TO CHECK IOWA JUDGE

DES MOINES, IA., July 23.—New laws to check Iowa's greatest rush to sever matrimonial relations are necessary, according to Judge Hubert Utterbach today. Hasty war marriages are responsible for the record which recently reached the proportion of one divorce for every three marriages, he said.

It also grows men's hair, even where baldness is beginning to appear. Unless the hair roots are absolutely dead, FAMO will grow hair.

FAMO grows new hair because it destroys the seborrhea germ which is killing the hair. The seborrhea bacilli go down into the glands and attack the hair roots.

Unless they are destroyed they will eventually kill the hair. With the germ at work the hair is fighting for its life.

Nature fights against disease. But it cannot conquer—alone. FAMO will give the necessary aid to assure a healthy scalp. FAMO will destroy the dandruff bacilli and make the hair grow luxuriantly.

WISCONSIN DISCLAIMS MANY OF DISSATISFIED

MILWAUKEE, WIS., July 23.—Divorces in Milwaukee increased 35.4 per cent during the first six months of 1919, clerk of the court, Max Binner, said today. War conditions have caused the increase, officials said, but Wisconsin disclaims 20 per cent of the dissatisfied married folk, that number coming from outside the state.

MARS AND CUPID ARE WORKING HAND IN HAND

DALLAS, July 23.—Mars and Cupid worked hand in hand to thwart Texas divorce proceedings, according to court records today.

Despite the fact marriages showed a great increase in the first six

FAMOUS WORD "ISSUE" FIGURES IN SETTLEMENT MARSHAL FIELD ESTATE

CHICAGO, July 23.—Legal experts have agreed that on the court's interpretation of the famous word "issue" in the will of the late Marshal Field, Sr., hangs the ultimate ownership of \$75,000,000 of the merchant prince's estate.

If it is construed that Field meant "issue" the bulk of the fortune may revert to Captain Marshal Field, third, it was stated, while if a broader construction is placed on "issue" Henry Anthony Marsh, Field's grand-son, born out of wedlock, may have a share of his father, Henry Field's estate.

These contentions were brought out in a cross bill filed by attorneys for Marshal Field, third, yesterday. They sought to have a clearer construction placed on his father's will.

Field asserted the claims of Mrs. Peggy Marsh, London actress, who bore Henry Field's son, have been settled out of court in a consideration of \$100,000. Mrs. Marsh had asked for her boy his full share of his father's estate.

BATTALION OF ENGINEERS ARRIVE FROM ARCHANGEL

BREST, July 23.—The first battalion of the 510th American engineers reached here yesterday from Archangel.

The 510th engineers are from the 85th divisions, Michigan and Wisconsin national guard.

Japanese make a waterproof leather with many uses from the hides of sea lions.

Famo Makes Women's Hair Grow Luxuriantly

Beautiful, healthy, lustrous new hair comes to the head on which FAMO is used regularly.

Women have reported to us that their hair grew as much as four to six inches a short time after they began using FAMO.

It also grows men's hair, even where baldness is beginning to appear.

Unless the hair roots are absolutely dead, FAMO will grow hair.

FAMO grows new hair because it destroys the seborrhea germ which is killing the hair.

The seborrhea bacilli go down into the glands and attack the hair roots.

Unless they are destroyed they will eventually kill the hair. With the germ at work the hair is fighting for its life.

Nature fights against disease. But it cannot conquer—alone. FAMO will give the necessary aid to assure a healthy scalp. FAMO will destroy the dandruff bacilli and make the hair grow luxuriantly.

LATEST NEWS AND VIEWS OF INTEREST TO SPORT FANS

LAWTON IS COMING FOR BALL GAME ON SUNDAY AFTERNOON

Lawton, the team whose match on the local lot was rained out here last Sunday, is scheduled to meet the Leopold team here on the coming Sunday, according to an announcement by E. Leopold, business manager of the local team.

The locals, under the direction of Manager Fulwider, are working out daily, and are pronounced to be in shape to give a good account of themselves when they tie up with the Lawton team, which comes here with an enviable record in the semi-pro baseball field.

RAIN IS INTERFERING WITH LEAGUE PROGRAMS OF NATIONAL CIRCUIT

By H. C. HAMILTON (United Press Staff Correspondent.)

NEW YORK, July 23.—Today the Reds went sadly away from here, deprived of two fat, luscious days of combat with the Giants, who are arrogantly leading the national league. Chances were good for a postponement of the final game scheduled for the present alleged series, because of rain.

A four game series with the Cubs and a similar battle with the Reds had flowed down the river. Across Brooklyn bridge Charles Ebbets was tearing his hair, for he had lost the same thing.

Between them the Dodgers and Giants—to say nothing of the Cubs and Reds—had lost a young fortune. Thousands of persons assembled daily at the two playing fields, gazing on the chances of a game being played.

Last week Ebbets and John McGraw postponed games when there was no rain falling. McGraw wanted to rest his pitchers. The reason for Ebbets' postponement was not known, but it was suspected he was influenced by McGraw's action. Murphy sustained a sprained leg and Driver Hetrick was cut about the face.

(Pop) Geers, and Murphy won the major honors in the second day of the grand circuit racing at Fort Miami Tuesday afternoon. Murphy carried the big share of the purse of \$1,000 with Fenestra in the 2:11 trot and the Naume stake of \$3,000 with Royal Mac Geers drove Goldie Todd to victory in the 2:09 pace for a purse of \$1,000.

The other race on the program, the trot for two year olds was won by H. Thomas, driving Matilda the Great. An accident occurred in the second heat of the 2:09 pace in which four drivers were injured. The field was large and as the horses entered the home stretch, Ester E. stumbled with Murphy in the sulky. Minor Hal, William Patch, Betty Blacklock and Alexander plowed into the fallen combination and all piled up. Brusie driving Minor Hal was badly cut about the head. Ed Allen's left arm was broken in three places. Murphy sustained a sprained leg and Driver Hetrick was cut about the face.

Murphy required assistance in entering his sulky for the next race. The judges suspended Driver Ashley of Detroit for the balance of the season, charging him with not trying to win with Symbol S. Forrest, in the third heat of the 2:09 pace after taking second in the first heat and winning the second.

GRAND CIRCUIT DRIVERS GET LARGE PURSE TODAY

TOLEDO, OHIO, July 23.—A total of \$6,500 in purses will be distributed to Grand Circuit drivers this afternoon at Fort Miami, four races being on the card. Today's events were the 2:09 trot with five starters, 2:15 trot with six quarters, the 2:06 pace with seven and the three year old 2:12 trot with eleven in.

The 2:06 pace is the Willys-Overland stake for \$3,000. Chief interest lies in this event in which are entered Jack Dewey, Grace Direct, Jay Mack, J. C. L., Omonde, O. U. C., and Edward P.

EAST CHICAGO TO HAVE BOXING EXHIBITIONS

CHICAGO, July 23.—Contracts have been awarded for building a boxing arena to seat 10,000 persons at East Chicago, Ind., it was announced today. The board of alderman recently passed an ordinance permitting ten round bouts.

ENGLISH FLYWEIGHT CHAMPION DEFEATS PAL MOORE

JIMMY WILDE and "PAL" MOORE

MAKE EFFORT TO MATCH BENNY LEONARD, NOTED LIGHTWEIGHT CHAMPION

By H. C. HAMILTON (United Press Staff Correspondent.)

NEW YORK, July 23.—Effort are now being made to smoke up a match for Benny Leonard, the world's lightweight champion, with the English flyweight champion, Joe Benjamin. Leonard has pounded himself into the unenviable class where Johnny Kilbane stood so long. He has whipped so many of the better lightweights that there are very few left for him. Only a few matches remain.

Gibson believes he will have a hard time convincing the public that there is anything left for Leonard to do. He wants to send the champion against Low Tendler, the Philadelphia, but it is easy to believe Gibson's statement that Tendler is stepping the match because he is in deadly fear of being knocked out and thus knocking in the head his ideas of making a lot of money meeting the best of these under the champion.

Tendler is holding out for a meeting with Leonard at 135 pounds the afternoon before the match.

thinks Leonard cannot do the limit set years ago by the older battlers. Gibson claims Leonard can and will win when the necessity arises.

"I know Leonard is pretty big right now," said Gibson. "He better 140 and it is pretty good work when he gets under 135 for a bout. But I can take enough weight off his legs by putting rubber clothing on them to bring him well within the limit Tendler wants. Leonard can beat Tendler at that weight and if the inducement is sufficient, he will undertake it. I do not believe Tendler really wants the match."

Gibson has grown very sweet on Joe Benjamin, a lightweight he brought east on his last trip to the Pacific coast. He declares that Benjamin some day will be lightweight champion, although he flinches if a suggestion is made that Benjamin is good enough now to defeat the champion.

"Of course not," he declares. "There isn't a lightweight in the country who has a chance with Leonard. Benjamin is not ready yet to go into such a heavy brawl, but the time is coming some of these days when Benjamin will have to meet Leonard or Leonard will have to drop the title, through age or loss of desire to fight. Then, I believe, it will be Benjamin who will win. He's a comer."

The Tendler match, despite all the talk being made over it, probably will come off some time in the fall in a Jersey ring. And it is not probable that Gibson and Leonard will allow the Philadelphia youth to dictate terms. Leonard probably will decide to enter the ring at 135 pounds—his usual stipulation.

SQUINT AT THE SCORE.

Yesterday's hero—Elmer Meyers. The Cleveland curver smacked out a triple that drove in two runs and increased the game over the Athletics 4 to 3.

The Yanks finished a sojourn in the west by winning from the White Sox 6 to 1, their fifth win out of 17 starts.

Based on balls stopped the Red Sox rookie hurler, Masher, Detroit turning them to account in a 2 to 1 victory. St. Swithin stuck around the National League and sprinkled every con test off of the schedule.

WOOD PAVING PROBLEM.

Something ought to be done to save the wood block paving in the business district of the city. Every rain sees an upheaval of the blocks and constantly widening areas are being affected.

Some months ago the city applied an asphalt macadam covering to the wood blocks on the block of street paving on Seventh street between Indiana and Ohio avenue. It is noticeable that this block has given little if any trouble since.

ONE OF THE GREAT NATIONAL PROBLEMS.

Control and prevention of forest fires is one of the most important problems to be solved in this country. Our timber supply is rapidly vanishing and those in Wichita Falls who have bought lumber lately can realize that the price is becoming almost prohibitive.

The federal government, state governments and communities are working together to prevent these fires, but with all that they have been able to do there has been little check in the destruction. The problem is one that ought to engage the best science and the best executive ability in the country.

The announcement by Judge E. Huff that a meeting of the charter revision committee would be called for tomorrow night is the most important news that has been reported in Wichita Falls in many days.

SAY WOMEN GOOD AS MEN WORKERS

By United Press. LONDON.—(By Mail)—The report of the War Cabinet Committee on Women in Industry records the history of a change in the British social and economic system so great that it is described as "an industrial revolution."

PREDICTS NEW HIGH LEVEL FOR PRICES IN ENGLAND

LONDON, July 1.—Prophecy that the price of food next winter will climb to a level never dreamed of, was uttered by Sir Auckland Geddes, the British minister of reconstruction, in an address at Crewe recently.

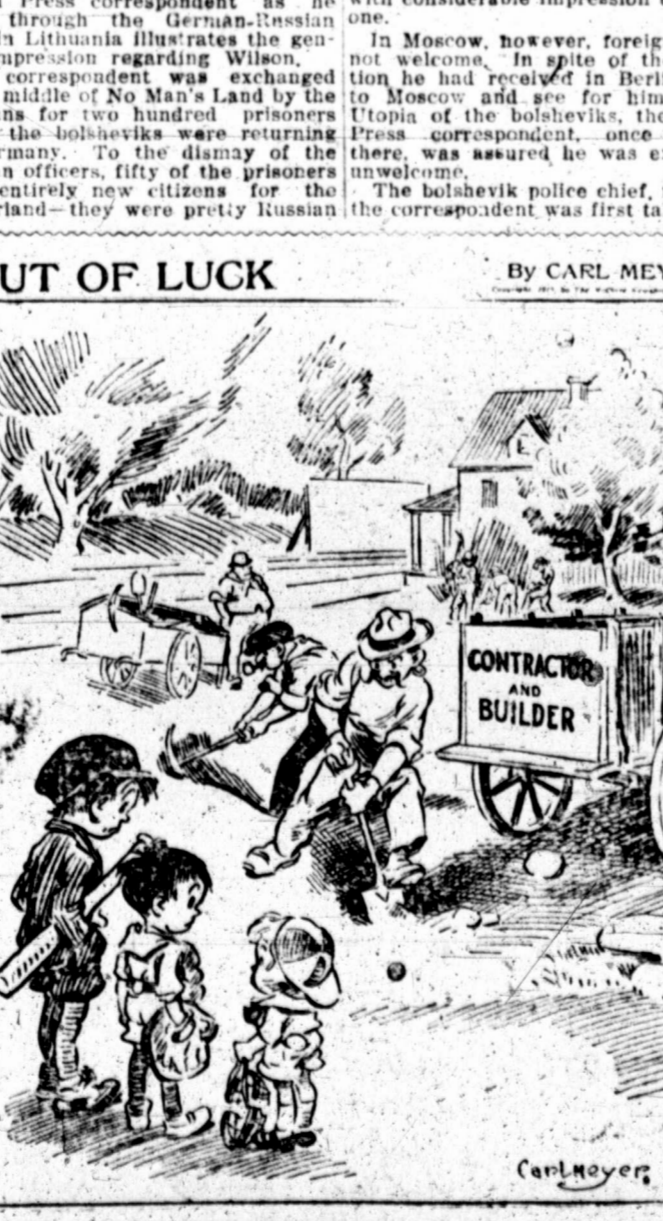

Portugal has made ability to read and write a requirement for voting.

MASSES OF RUSSIA HAVE CONFIDENCE IN PRESIDENT OF U. S.

BY FRANK J. TAYLOR (United Press Staff Correspondent) NEW YORK, July 1.—Though President Wilson's name carries great weight with the masses of Russia, it is not a synonym for popularity with the bolshevik leaders, who have finally come to the conclusion that the President is a "dangerous man."

The attitude of the ordinary Russian, if he can read, it quite different. An incident which occurred at the United Press correspondent as he came through the German-Russian front in Lithuania illustrates the general impression regarding Wilson.

WEDNESDAY CONGRE TEXAS NEED Special to The Times WASHINGTON Texan owners of strip along the river... BAD WEAT EFFECT OIL

Oil News

CONGRESSMAN PARRISH ASSURED TEXAS OWNERS OF RIVER LANDS NEED NOT FEAR EARLY ACTION

Special to The Times. D. C., July 23.—Texas owners of oil property in the strip along the northern end of Wichita county, along Red River, need not fear immediate action by the federal government in an attempt to claim these lands as a part of Oklahoma and belonging to Indians.

Congressman Parrish and S. A. L. Morgan of Wichita Falls, conferred today with the department of justice regarding threatened suits by District Attorney Fain of the Western District of Oklahoma. They were advised that it is not the purpose of the government to jeopardize the interests of innocent purchasers in this contested strip. District Attorney Fain will be directed to make a thorough investigation and submit a report to the attorney general for instructions before he takes any action.

Congressman Parrish declared himself very well satisfied with the department's attitude.

BAD WEATHER HAS EFFECT ON WEEKLY OIL PRODUCTION

Bad weather of the past week, rather than any effect of the temporary shut down, resulted in a 6,000-barrel decrease in the daily oil runs from the Wichita fields. The total production of the week was 11,000 barrels, a decrease of 11,000 barrels from the previous week. The total is 92,600 barrels daily.

The list of completions is not quite as lengthy as the past few weeks. Storage shortage is still a factor in holding up completions. The completions follow:

Howard Veeber Oil Company, No. 1 Brannon, Block 82, 1,800 barrels.

Langford, Staley and Chenault, No. 1 Renner, Block 15, 1,000 barrels.

Townsend Oil Company, No. 1 Renner, Block 75, 1,200 barrels.

Sanders-Taylor Corporation, No. 1 Brannon, Block 82, 1,500 barrels.

Townsend Pool, Completions.

J. W. Gilliland, No. 64 Hardin, 150 barrels.

J. W. Gilliland, No. 67 Hardin, 200 barrels.

Frank Kell to wife, Lora Kell, lot 1, block 25.

MUCH INTEREST IS BEING MANIFESTED IN COOKE COUNTY

Special to The Times. GAINESVILLE, TEX., July 23.—Frank W. Wright, of Oklahoma City, is registered at the Lindsay Hotel waiting for two cars of supplies to be transferred from the Santa Fe to Katy railroad that are to go to his drilling well just across the Cooke county line in the northeast part of Montgomery county. This well was shut down ninety days ago at 1335 feet, for business reasons, and resumption of work will create renewed interest in that section.

A contract has been let for drilling another well on the Cooke county side, five miles northeast of the Wright well, by Bond & Walker, of Oklahoma City. These wells, with the one drilling at Muenster, will give the northwest part of Cooke county a good test. It is expected that there will be no stock or acreage on the market and that fact alone is the best evidence of their faith in finding pay production near Gainesville.

Gainesville is being visited every day by numbers of men interested in oil development. They are coming here to invest in acreage or to organize companies and drill tests. Every stranger in our midst spends quite a lot of money and the citizens should be on the alert for such a purpose. A man asks for information regarding certain localities, give it to him as best you know, if you are not well informed on the subject, direct him to the Chamber of Commerce, where he will learn what he desires.

Recently a 25-barrel well was brought in in Grayson county. Sherman is filled with oil men and several big companies are locating offices there. One small well in Cooke county will make a bustling city of Gainesville.

It takes a lot of nerve for business men to drill test wells and they should not be expected to do this solely on their own resources. They should receive assistance from the public, especially the business interests, who would be well advised to direct their investment upon the discovery of the first "pay sand" in Cooke county.

WAR-TIME DROUTH IS CONSTITUTIONAL SAYS U. S. JUDGE

NEW YORK, July 23.—The war-time prohibition measure was held constitutional here today, in a decision handed down by United States Judge Thomas J. Chaffetz. The decision resulted from a test case—New Haven, Conn., in which Stephen A. Minery of Meriden, was charged with violation of the law.

Judge Chaffetz held that power to declare war also included power to prohibit liquor. The United States, he said, still is technically at war with Austria.

FAIL TO HOLD IN CHECK FIRES IN WEST

SPOKANE, WASH., July 23.—Twenty-five hundred forestry service men to be increased to 3,000 and hundreds of men in the employ of timber protective associations, have failed to hold in check serious fires which were raging today, many of them far out of bounds, in Northern Idaho and Western and Central Montana.

Four Montana towns, Thompson Falls, county seat of Sanders county; St. Regis, on the Couer D'Alene branch of the Northern Pacific Railway; Henderson, near St. Regis, and Maiden, a pioneer mining camp near Lewistown, were menaced seriously by the flames. The blaze is within a mile and a quarter of Thompson Falls and citizens, ranchers and forest service employees were combating it. Forest Supervisor Baker stated last night the fire probably would be checked and Thompson Falls saved if the weather remained favorable.

BURK GEORGE IS BEING STANDARDIZED AND IS TO BE COMPLETED SOON

The Burk-George Oil Company's No. 1 George, drilled to the sand a week or more ago, is now being standardized preparatory to completion, according to field reports. There are several new locations reported in the vicinity of the Burk-George, which aroused much interest when the sand was struck because of the extension affected. Charles E. Eitz has some test reported drilling below 600 feet, and the derrick up for his second. The rig is up for the Birmingham Dallas Oil Company. No. 1 George. Other locations are reported.

COMMISSION HAS NOT FURNISHED A RULING ON ORDER

Final and conclusive ruling of the railroad commission on a writ constituting a common carrier among pipe lines had not been received by J. L. Milder (this afternoon), consequently the Federal District Court will have to decide whether or not there is a vacancy in the York survey.

LOS ANGELES, CAL., July 23.—The Federal District Court will have to decide whether John Bowman, Paul Huska, Oklahoma, architect, will be taken back to Oklahoma for trial on charge of transporting his ex-entrance, Pansy Martin, for immoral purposes.

The question has come too involved for the United States commissioners to act. It was announced last yesterday. Bowman, in the meantime, is held here.

DEVELOPMENT REPORT AMARILLO TERRITORY

AMARILLO, TEX., July 23.—Complete drilling report on wells in the field surrounding Amarillo follows: Amarillo Oil Company, No. 2 Master-son, 1,250; No. 3 Master-son, 1,000; No. 1 Baines, a rig; Ranch for M. J. Merson, No. 1, 1,000; Baines No. 1, 1 Tris. 600; Palo Duro's No. 1, Arnold 525; Smith-McDonald's No. 1, well, spudded by Glen Rio Undergrin No. 1, a rig; Happy Oil & Gas No. 1, well, a rig; Nobles and Sullenberger's No. 1, Shel-ton, a rig; Almas-Amarillo, Purvines No. 1, a rig; and the Seven States Oil company, a location about 2 miles northeast of the city.

LANGFORD AND OTHERS COMPLETE GOOD WELL

The Langford, Staley and Chenault No. 1 Schmircur has been completed, and is reported flowing 1,200 barrels daily.

Harry Joffe of Peoples Store, left Sunday for Chicago and New York, to buy fall goods. He will be absent about three weeks.

Market Report

COTTON MARKET.

NEW YORK, July 23.—The cotton market showed renewed strength at the opening today with all the active months making new high records, owing to the continued rain in the South, the steadier tone of sterling exchange and the strong opening of the stock market. First prices were firm at an advance of five to 45 points and the active months sold 38 to 41 points above last night's close during the early trading with October touching 25.96 and January 35.10. Liverpool and Japanese were among the early buyers while there was further covering.

The weekly report of the weather bureau proved more favorable than expected and the market turned easier after its publication as a result of realization or selling for a reaction. October declined from 38.00 to 35.52 and January sold off from 38.10 to 35.60, or about three to 10 points net lower around midday.

Reports that cotton was selling on a tenderable basis in the South increased the disposition to take profits or liquidate long contracts here during the early afternoon and the market sold off to 35 for October, or about 35 points net lower and 75 points below the high level of the morning.

The cotton market closed steady.

GRAIN AND PRODUCE.

CHICAGO, July 23.—Higher prices for corn today accompanied higher prices of hogs. December, the principal active delivery of corn, rose to the topmost level yet this season. Opening quotations, which ranged from 1/2c to 2c up, with September at 1.95 1/2 to 1.96 and December 1.55 1/2 to 1.57 1/2, were followed by moderate addition gains in some cases.

Oats went upward with corn. However, after opening 1/2c to 1/4c higher, including September at 81 1/2 to 82 1/2, the market tended to sag.

Provisions advanced with hogs and corn.

Subsequently, profit-taking sales by holders led to sharp downturns. The market closed nervous, 1/4c lower to 1 1/4c advance, with September 1.94 1/2 to 1.95 and December 1.56 1/2 to 1.58 1/2.

Some buying of lard appeared to be for export account.

NEW ORLEANS, July 23.—Continued rains in the belt and expectations of unfavorable weekly crop reports from the government put the price of cotton strongly higher. In the first half hour of trading the market rose 31 to 60 points.

The weekly crop reports were generally considered to be less unfavorable than expected and heavy selling followed their reading. In the trading, up to noon prices fell until they were one to two points under the close of yesterday.

The dock and coal strikes in England began to excite much unfavorable comment on which selling increased in the trading up to 100 o'clock the net decline was widened 26 to 34 points.

The cotton market closed steady at net declines of 15 to 26 points.

NEW YORK STOCKS.

NEW YORK, July 23.—Many extraordinary gains were recorded at the opening of today's stock market, but soon rallied to the great or strength shown elsewhere. Trading switched largely to food and affiliated shares, also local traction, at some advances of 1/2 to four points.

Steel, oil, tobacco and electric and rubber requirements elevated the list to new maxima in the last hour. Final prices on Liberty bonds today were:

4 1/2% 99.44; first 4s 94.90; second 4s 92.32; first 4s 95.04; fourth 4s 95.82; Victory 4s 100.00; Victory 4 1/2% 99.96.

TEXAS COMPANY AND OTHERS ARE ENJOINED

ALSTIN, July 23.—The Texas Company and others were today temporarily enjoined from drilling in Cal-bound, 53rd district court, from drilling on a tract of 50 acres in Eastland county, or offsets within 600 feet, pending settlement of a suit, in which the defendant contends there is a vacancy in the York survey.

CASE TOO COMPLICATED FOR S. COMMISSIONER

LOS ANGELES, CAL., July 23.—The Federal District Court will have to decide whether John Bowman, Paul Huska, Oklahoma, architect, will be taken back to Oklahoma for trial on charge of transporting his ex-entrance, Pansy Martin, for immoral purposes.

The question has come too involved for the United States commissioners to act. It was announced last yesterday. Bowman, in the meantime, is held here.

THIRTY-TWO BUSHELS OF WHEAT TO ACRE

COTTONWOOD FALLS, KAN., July 23.—Thirty-two bushels to the acre was the record Chas. Coyle yielded reported by J. L. Stone, of Staffordville.

STRIKES MATCH TO INVESTIGATE GASOLINE

PRATT, KAN., July 23.—Robert Brockman, who is a low muck gas, his car had. So he struck a match. Car and garage were badly damaged by the explosion.

SIX FOOT RISE IN RIO GRANDE RIVER

EAGLE PASS, TEX., July 23.—There was a six foot rise in the Rio Grande here today as a result of recent heavy rains here and to the west.

S. P. Marink vs. Lula Marink is the style of a divorce suit filed in the 73rd district court today.

DESCRIPTION OF VOYAGE IN THE BIG BRITISH DIRIGIBLE

By W. R. HARGRAVES (United Press Staff Correspondent.)

NEW YORK, July 23.—"The British never break a promise." This statement by Commander G. H. Scott, of the British dirigible R-34, explained why I was invited to accompany him on his first voyage in the dirigible. Only two male civilians boarded the dirigible for inspection and my permission to go was granted as the result of a promise made on the first day of her arrival.

Thus it is possible for the United Press to give the first details of the living and working accommodations on the aircraft as seen through a landman's eyes.

In spite of what may appear to be hardships and discomforts, perils and privations there were none of the 30 members of the crew who failed to express the same admiration for her that is felt by those who have become accustomed to travel on certain steamships.

"Of course the quarters are rather cramped and the conditions are not what we live at home," said Lieut. J. D. Durrant, the radio operator, "but it is a splendid thing to feel that one is part of a new transportation device."

The dirigible was launched at 10:30 p. m. westward, when weather conditions and atmospheric conditions were very favorable.

One of the great advantages of the dirigible is the amount of space in which to exercise. Although there is a "board walk" 600 feet long running the length of the ship along its keel, this is only nine inches wide, and as the dirigible is so narrow, it could not help wondering what might happen if some of the crew took an overdose of the run ration allowed all members of the British navy, on sea or in air, and tried to walk it off.

Before boarding the ship, which was instantly in motion through the action of the wind, although held down by hundreds of men, my shoes, hat and all matches were taken from me. This was to prevent the danger of creating sparks through friction from the nails in shoes. The removal of my hat was no doubt to prevent its blowing off. A step over the side of the 3-inch walk would land one on the thin linen fabric which covers the aluminum frame, thence through it into the thin air below.

The dirigible is about 410 feet long and is cigar shaped. The framework is of massive aluminum girders welded together similar to the structural frame of a steel skyscraper. This frame is covered with prepared linen, like that used on airplanes, and within the body thus formed are the 16 "gas" bags, sleeping quarters, petrol tanks, water ballast and drinking water. The navigating quarters and engines are in the gondolas which hang below.

The petrol tanks which supply fuel to the engines by gravity flow, are located beside the narrow walk and are held by clutches like ice tongs, which can be quickly opened to drop the tanks overboard if necessary. On either side of the narrow walk are hung fine-spin hammocks, strung from cross bars of the aluminum

WOODMEN OF WORLD SUE FOR A MILLION; LIBEL IS ALLEGATION

HOUSTON, July 23.—A million dollar damage suit was filed in Houston Tuesday afternoon against the American National Insurance Company of Galveston, alleging libel.

The plaintiff is the Woodmen of the World. The petition alleges that C. W. Nugent, described as chief counsel for the American National Company, caused the circulation of a statement regarding the financial condition of the Woodmen of the World, which statement, it is claimed, was of a derogatory character.

The suit was filed in the name of the Woodmen of the World, a fraternal organization with headquarters in Chicago. The suit is for libel and damages.

MYSTERY SURROUNDS THE KILLING OF LIEUTENANT BY LONE HIGHWAYMAN

KANSAS CITY, MO., July 23.—Mystery today surrounded the killing of Lieut. Fitzroy Simpson last night. Ordered from an electric coupe in which he was riding with Miss Evelyn Hall, Simpson was shot by a highwayman, although he offered no resistance.

Police believe the slayer fired through nervousness, as Miss Hall says he shot without warning.

The first reinforced concrete boat built in Holland in 1837 still is in use.

LIQUID QUICK RELIEF NO ACETANILIDE NO DOPE NO BOOZE

IT'S RELIABLE FOR HEADACHE

frame. If one of the air-gobs or officers should become restless in sleep and roll out, he would fall through the fabric which encases the frame, and make swift descent to land or sea. Tied to each hammock is a deflated rubber life preserver and a slissen parachute. In case of a great emergency, as fire, or imminent destruction through other causes, the life belt is inflated and the parachute hooked to a ring in a rope that always works to make a safe exit, thus prepared for descent, the wearer must jump up, a circle in the linen fabric which has been cut out and replaced, held by a soft gum. This gives way, and permits him to fall through, leaving a clean, round opening instead of a tear.

These "ports" are located just beneath the aluminum tanks, of which there are 16, each weighing 500 pounds and each containing 10 gallons. Sixteen of them are fixed and the remainder are called ship tanks, and are used to store fuel for the engines. In case of an emergency, the ship tanks are released from their fastenings and drop on and through the sides.

At night the living quarters are lit by electric lights through the painted linen, an uncanny and eerie glow of dusk. At night the lights are used and when necessary the gas is enabled every hour or so, one of the crew being in the gondola to observe the gasometer.

At 10:30 p. m. the crew of 30 officers may choose to can in the pay-a-winning out of the walk, the dirigible is about 410 feet long and 12 feet in diameter. It is divided into six winged tubes and a tiny cabin stand, also three tanks of distilled drinking water, each containing several gallons.

COAL STRIKE SITUATION IN ENGLAND IMPROVED BY ACTION OF WELSH

LONDON, July 23.—The most hopeful feature of the coal strike situation tonight was the decision of the Welsh miners at a conference at Cardiff not to join the Yorkshire movement. There was no great accession of strength to the strike movement today. The men on strike total about 275,000, Yorkshire, Derbyshire, Nottingham and Monmouth being the counties mainly affected.

Sir Eric Geddes, minister without portfolio, who on Monday was appointed a commissioner to settle the strike, is at Leeds and, according to government statements, will continue himself to affording protection to the coal mines.

THE SCIENCE OF BEING USEFUL

Business is the state of being busy.

American Business is the entire American people in the business of providing itself with a living.

Only through the usefulness of all can everything be done which must be done and everyone rewarded who does it.

THE AMERICAN NATIONAL BANK, like other American institutions, interprets its mission as more than the mere science of making money.

It realizes the surest way to make money is to prove its usefulness; that the more useful a business is the more successful it must be, because it is a greater benefit to mankind.

The splendid progress the American National Bank has made since it opened for business February 10, 1919, is a measure of the quantity and quality of its usefulness—the number of people it helps and the number of ways and degrees in which it benefits them.

The American National Bank

LEGAL NOTICES.
 Grant subdivision of a part of P. H. Lewis land, block three (3) Henry Harris survey, abstract No. 43, containing 19 acres, being a part of a certain tract of land owned by the said Lewis, to wit: to H. H. Gray by lease dated October 24th, 1918, and recorded in book 106, page 31 of the Local Records of Wichita county, Texas, and that said sheriff did on the 25th day of January, 1919, cause a copy of the above described lease to be returned to be filed and recorded in the attachment records of Wichita county, Texas, in Vol. 2, page 7, of said records. That by reason of the issuance and levy of said attachment, a valid lien was created against the above described property, and the plaintiff is entitled to a judgment enforcing the same. Levied on the 15th day of July, 1919, as the property of H. H. Gray and Earl E. Howery together with an amount of \$1,000.00, to wit: \$477.12 in favor of the American National Bank of Fort Worth, Texas, and costs of suit.
 Given under my hand, this 16th day of July A. D. 1919.
 Sheriff Wichita County, Texas
 J. H. McCall

ADMINISTRATOR'S NOTICE.
 The State of Texas, To the Sheriff or any constable of Wichita County, Texas: Paul H. W. DeWitt, administrator of the estate of John H. DeWitt, deceased, together with an application to wit: discharge from said administration, you are hereby notified that you give due notice of this writ for twenty days in a newspaper regularly published in the county of Wichita, Texas, to wit: the Wichita Daily, on or before the 15th day of August next, to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, at the court house of said county, in the city of Wichita, Texas, on the first Monday in August, A. D. 1919, when said account and application will be considered by said court.
 Witness: W. P. Harris, Clerk of the county of Wichita county, Texas.
 Given under my hand and seal of said court at my office in the city of Wichita, Texas, this 14th day of July, A. D. 1919.
 W. P. Harris, Clerk of the county of Wichita County, Texas. By M. F. Yeager, Deputy. June 28

PUBLIC SCHOOLS TO HAVE MANAGER; ELECT MR. BROWN

MADE NECESSARY BY ADDED DUTIES DEVOLVING UPON THE BOARD.

TO BUILD ON NORTH SIDE

Plans Are Approved and Work is to Begin at Early Date, the Board Decides.

The board of education held a very important meeting Monday evening at the high school building, all members being present except one.

The title of the public square on the north side of the river, which was decided to the school district by the city last week was accepted and a resolution was passed allowing the people of the north side and the civic organizations interested to make the play park contemplated upon these grounds, provided that such amusements should not interfere with the school at any time and that they be used for the benefit of the school children during term time also.

Plans prepared by the architects of the board, Faigle Bros. & Vossler, for the north side school were presented and adopted by the board and work on the building will soon begin. It will be a four-room frame structure and will accommodate 200 pupils.

Provide for Manager.

On account of the increased work of attending to the distributing and accounting of the uniform text books, keeping track of the same and the vast amount of detail business connected with the running of the schools, the board decided to employ a competent man as business manager to take charge of all this great volume of detail business. An idea of its volume may be gathered from the fact that this district has ordered \$18,000 worth of the new text books provided by the State and the man who has charge of them has to give a bond, payable to the governor in the sum of \$27,000 for the proper discharge of his duties. The board members of the board unanimously offered the place to W. W. Brown, who has been secretary of the board for years and is very familiar with the work than any man in the city. He has not yet accepted the place but the board feels he will do so, for they feel he

That is, if she really likes good candy, because our candy is the finest produced and, by the way, is put up in the most attractive packages. If she likes the outside of the box, she will love the inside more. Take her a box tonight, though they are just as appealing in the day time, of course. A box at the movies—that isn't a bad suggestion.

FORT WORTH MAN SAYS HE IS BEATEN UP BY A SOLDIER WHO TAKES CAR

How a soldier who had hired him and his car for \$25 to come to Wichita Falls from Fort Worth and get the soldier's wife to take to Fort Worth, and later, just outside of Wichita Falls, had hit him over the head with an iron bar and taken his car, money and valuables, was the story told to the police by a party giving his address as Fort Worth and his occupation as a jitney driver last night.

KETCHUP BOTTLE PLAYS PART IN TRIANGLE BATTLE IN RESTAURANT

My brother was not in the fight, he was just trying to separate us," said one of the defendants in a three cornered case for affray in the local police court this morning. But the evidence showed that his attempt at separation involved the use of a ketchup bottle over his brother's opponent's head.

PAROLE WAS RECEIVED FOR BAKER SOON AFTER HE MADE HIS ESCAPE

Two weeks after he made his escape from the federal penitentiary at Leavenworth a parole was received by prison authorities for John H. Baker, alias Jack Nolan, recently recaptured here. It was learned by local officers from representatives of the federal penitentiary who came for him.

FIND NO LAW TO COVER KISSING CASE REPORTED TO LOCAL POLICE COURT

Police officials are ransacking the statutes in an attempt to find what law to put against a man who was complained against by a pretty waitress on the ground that he had given her \$20 for a kiss, and then when he got the kiss, taken his money back.

E. M. McCLLOUD DIES AT HOME OF DAUGHTER

E. M. McCloud, age 68, died Monday afternoon at four o'clock at the home of his daughter, Mrs. J. W. Posey, at 506 Lee street. Death was caused by tuberculosis. Mr. McCloud and his family have lived for many years in Wichita Falls. Besides Mrs. Posey, five sons, two of them residents of this city and employed in the oil fields, survive. The other sons are residents of Corsicana, where the body will be sent for burial by the Hines Undertaking company.

FUNERAL OF LITTLE SON OF MRS. AND MRS. ...

The two-year-old son of Mr. and Mrs. J. C. Nation died at the home on Third street on Sunday after an illness with intestinal trouble. The body was sent to Iowa Park for burial under the direction of the Hines Undertaking company, Monday.

AMMONIA EXPLOSION AT WICHITA ICE CO. PLANT

An ammonia explosion, caused by a valve seat coming off, and which drove the head of the compressor through the roof, caused a damage of \$700 or \$800 at the plant of the Wichita Ice company at one o'clock this morning. No one was injured, and the damage incurred was chiefly from the loss of ammonia, the force of the explosion being upward and causing little damage to the plant with the exception of nominal one to the roof.

Whole Family Sick.

"All of my six brothers and sisters, as well as myself, have suffered since childhood from stomach and liver trouble and bloating. I thought it ran in the family and that I could never be cured, but, thanks to Mayr's Wonderful Remedy, since taking it nearly a year ago I have been enjoying the best of health and feel like a new person. I have no trouble from anything I eat." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Mack Taylor and druggists everywhere.

DEMOBILIZATION OF NAVY IS NOW WELL UNDER WAY

WASHINGTON, July 23.—Demobilization of the navy is progressing satisfactorily, according to a navy department announcement today. A total of 316,554 enlisted men have been discharged since the armistice, and 94,306 were enlisted in the regular service and 222,248 were members of the reserve force, who were released to inactive duty subject to call. More than 22,500 reserve officers have been returned to civil life and 1,124 still are on duty. There still are 70,000 enlisted men in the reserve force on duty, most of them aboard transports. They will be released as rapidly as recruits can be obtained to take their places. It is expected all of the reserve officers and men remaining in the service will be released within two months.

Notice.

Notice is hereby given that the Wichita-Burk Oil Company will pay a dividend to all stockholders of record July 25, 1914.

The books of the company will be closed for transfers the 24th day of July, A. D. 1914. By order of Board of Trustees, C. M. McFarland, Secretary. 58-5P

AN ADJUSTMENT OF VALUES

We are asked a good many times, "Why the high price of coffee?" There are, of course, many contributory reasons. Among them: The frost damage in Brazil last August. The fact that Europe has had practically no coffee for four years, and the surplus in the United States is practically nil. Prohibition is also a factor. But the REAL REASON is an adjustment of values among commodities. A few years ago Rio sevens sold for 5 1/2 cents per pound, so did cotton. Now cotton sells for above 30 cents and Rio sevens for twenty-two. Wheat used to fluctuate between sixty-five cents and a dollar, and is now two-twenty. So it stands to reason the Brazilian can't take the old prices for his coffee and get by. Coffee is still the cheapest commodity of consumption—and the last to advance.
