SKETCH OF GENERAL PERSHING'S REMARKABLE MILITARY CAREER

When Congress conferred upon John J. Pershing the permanent rank of general he became the fourth man to hold that coveted title in the army of the United States.

As the central American figure in the world war, with the single exception of President Wilson, so much has been written about Pershing, and his life and history are so fresh in the public mind that it is difficult to tell the average American anything new about who commanded the great army on the battlefields of Europe.

When Pershing took the expedition to Mexico after the bandit Villa, he became the only living officer in the American army who had commanded any body of troops so large as a brigade in anything approaching action.

From the time Pershing graduated from West Point in 1884, he had his share of active and valuable service in the army.

They were taught the art of scouting, of trailing and of perfect self-reliance in the school beyond the ken of a European soldier and many a midnight raid by the Americans into No Man's Land doubtless found its inception and clever execution in the brain of one of these one-time Indian fighters of Pershing's type.

Complemented by Miles. It is recorded officially of Pershing that at the beginning of his career for instance, he was complimented by General Miles, his commanding chief in the Jeronimo campaign, for "marching his troop with pack train over rough country, 140 miles in 46 hours, bringing in every animal and man in good condition."

Believes in Team Work. Pershing believed in team work; he knew that whatever success the Germans had attained was through their unified command of the armies of the central powers.

and freely tendered the services of the last American soldier and all his army equipment to General Foch at the most critical point in the campaign. There is said to be no doubt that his example affected the other command, and went a long way toward bringing about the unification of the Entente armies under Marshal Foch.

It was not until Pershing was certain that the plans he had made with the assistance of his own staff for a successful campaign into Alsace-Lorraine had behind them the support of a sufficient number of American soldiers that Pershing felt justified in taking complete command of an important sector of the line of battle with the full assent of Marshal Foch.

APPROPRIATE \$5,000 FOR HEALTH BUREAU IN WICHITA COUNTY

One of the first things the commissioners did when they met at the courthouse this morning was to appropriate \$5,000 a year for two years toward a fund of \$10,000 a year for the establishment of a county health bureau and the employment of a county director of health and his assistants. The state supplies the other \$5,000 each year.

This work is in line with the plans announced some time ago by the Rockefeller foundation. A general health survey of the county will be made and an extensive clean-up and sanitary campaign will be inaugurated. The county's appropriation will be paid at the rate of \$416 monthly.

But five counties in the state will be included in this special health and sanitation work. In this county the director of health will be supplied with an office, appliances, assistants and will have authority of a wide scope in enforcing health measures and sanitary regulations.

One of his first acts is expected to be the abolition of cess pools and the prevention of soil pollution.

The commissioners had a sort of Santa Claus spirit this morning and manifested it in raising the salary of Miss Florence Jackson, who was re-employed as county home demonstration agent for another year, from \$75 to \$100 a month, and increasing the salary of Dr. M. M. Walker, county physician, from \$75 to \$100 a month.

The time limit in the contract of the Brown-Abbott company, which has a contract for constructing the bridges and culverts under the new highway program, was extended 200 working days, or approximately eight months. The original time limit was 200 working days, but because of transportation conditions and the money delays experienced in receiving materials, was necessary the additional time extension.

CHIEF RECALLS WARNING REGARDING TRASH PILES

"I suppose it is very bad form for me to say so," said Fire Chief McClure Monday morning. "But the opportunity afforded by the McClurhan fire to call attention of the business men to the fire hazards existing in the forms of trash piles near their premises can't be passed up."

After each of my recent inspections I called attention of the business men to danger from these sources, and the State fire commission has even threatened and probably will raise the insurance rates, but to no avail. I hope to see this objection result in a general clean-up in the business district."

H. E. BELL FINED \$50 IN THE POLICE COURT

H. E. Bell pleaded guilty in police court Monday morning to a charge of being a masquerader. Judge Ogie assessed a fine of \$50.00, which was paid.

Mr. Bell was arrested after the last matinee in a local movie theater Saturday evening. Assistant Police Commissioner Goodfellow fixed his bond at \$400, which he made.

In police court Monday, answering the charge, Mr. Bell said:

"I know that I have been very indiscreet. I do not know why I have done as I have. I can only say that I am sorry I simply could not help myself, it seems."

Officer Humphris made the arrest. He testified in police court that he had been on the trail of Bell for a month or more. "He is a regular professional as a masquerader and has been at it for several weeks," said Humphris. "Saturday I was watching for him when he came into a theater and sat by a woman on the back row of seats. After she had rebuffed Bell's advances, she left the theater. "Then he moved to the next row of seats and sat by a young woman. She indignantly left the theater. He next moved by a middle-aged lady, who was with a younger woman and a child. She left, too."

"Then he moved to a very young woman who had a baby in her arms and whose husband was with her. He worked all of the wives of the masquerader, but to no avail, for within a few moments she and her husband took their departure, too."

"Then Bell started out of the theater and I nabbed him. He is an old offender."

Judge Ogie said to Bell that his case looked serious; that he was a menace to public morals and that his actions should be punished even more severely than the heavy fine imposed.

Bell's case was one of the last called by Judge Ogie. He was forced to sit through the whole big row of a dozen or more trials of the float-sam and jettam of Saturday and Sunday police work, to hear the pleas of the vagrants, the masqueraders, the women of vice, the disturbers, the fighters, the petty thieves and the like.

"Manifests interest."

He showed some interest in the proceedings. His appearance was more that of a spectator than of an accused. He showed timidity, however, when he told his story and pleaded his guilt.

There were many other cases in police court this morning, the accumulation of Saturday and Sunday. Two young girls pleaded not guilty to vagrancy charges. The matron of the depot, however, told the court such a convincing story of their ugly conduct that they were fined.

There were also many automobile violators, gamblers and the like before the court and the majority of them were fined.

JURY EMPANELED AND EXCUSED UNTIL TUESDAY MORNING

Judge Scurry in the 75th district court Monday afternoon empaneled the jury for the week, empaneled the petit jury and then dismissed the jurors until 9 o'clock Tuesday.

J. W. Morgan vs. J. C. Corder; injunction.

First National Bank, Iowa Park, vs. A. P. Bradford; debt and foreclosure.

Wichita State Bank vs. F. P. St. Clair; debt and foreclosure.

In the thirtieth district court the following suits were filed Monday:

Texas Steel Products Co. vs. the Gilliland Oil Co.; suit for debt.

Charles G. Givens vs. Emma Givens; suit for divorce. In his petition Givens sets forth that the couple married September 28, 1913, and lived together until January 1, 1917.

FRANK KELL LEAVES FOR TRIP TO RANGER

Frank Kell left Monday afternoon for Ranger, from where he will start on a trip of inspection over the new oil fields railroad being built by himself and associates, to be known as the Wichita Falls, Ranger and Southern.

Mr. Kell has only recently returned from a trip to his New Mexico ranch, where he let a contract for partial irrigation. Eventually about 6,000 acres of the ranch will be put under irrigation.

JUDGE BONNER TO TRANSMIT REQUEST FOR STATE RANGERS

Texas rangers will in all probability be sent to Wichita county. Judge Bonner W. N. Bonner, of the 29th district court, said Monday that he would transmit the recommendation of the recent grand jury in his court to Adjutant General Harley.

This recommendation was to the effect that rangers come to suppress the lawless conditions in the oil fields. It will be sent word for word as it was written by the grand jurors, said Judge Bonner.

However, Judge Bonner will recommend that the rangers devote their attention to the oil fields, as there is no need for their activities in the city of Wichita Falls, he said.

No Conference.

The recommendation of the grand jury would have been sent to General Harley sooner, said Judge Bonner, but he understood that the adjutant general was coming here and supposed he would confer with him, Judge Bonner, and other officials. He did not, however, see Judge Bonner, District Attorney Jones or Sheriff McFall on his recent visit here, and Judge Bonner's only information relative to his tour of the oil fields and of the report he made as to this section of the State being "wide open" was gained from the newspapers.

Judge Bonner could not say exactly when he would transmit the grand jury's recommendations to the adjutant general. He said it would be "some time very soon, now."

Work Independently.

The rangers, it was gathered, will be rather loose insofar as county authority is concerned while they are here. They receive their instructions direct from the adjutant general's office and are under no county authority, said Judge Bonner.

It is known that several county officials are opposed to bringing the question of handling the lawless element was for the sheriff to be supplied with enough deputies to cover the oil fields. This could be done only by a sufficient appropriation from the county commissioners to pay the wages of the deputies. It was said. No action in this regard is contemplated, however.

PETITION FOR THE IRRIGATION PROJECT TO BE PRESENTED

A petition will be presented to the commissioners court this afternoon or Tuesday by J. A. Kemp and his associates in the Wichita Valley Irrigation project asking that an election be called for the creation of an irrigation district.

Sentiment of the commissioners, it was said this morning, favors the election and it is likely that the petition will be granted.

Should this election carry, a later election to determine the issuance of bonds in the sum of \$3,000,000, said Judge Jones, will be called.

Under the plans of this project, which is one of the largest irrigation proposals in the State, a vast area of land would be made exceptionally productive and fertile. The plan calls for building a dam across the Wichita River in Burleson county, thus building a monster storage reservoir extending for miles up the river above the dam.

All of Wichita county, parts of Baylor, Wilbarger and Archer counties will derive direct benefits from the project, which will open up a vast area to intensive agricultural pursuits, it was said.

CLARA KIMBALL YOUNG AT THE PLAZA TODAY

Clara Kimball Young is seen as the star in "Magda," supported by her own company in a screen version of the famous drama. The attraction is at the Plaza airdome today.

"Magda," by Herman Sudermann, is the story of a girl whose father believes that the father's will is the will of the whole household.

Magda is a beautiful girl with a gift for music. The pastor of her father's church falls in love with her. He gains her father's consent to ask her to marry him, but Magda doesn't love him. The father tells her that she must either marry the pastor or leave his house. Magda leaves his house and goes to a neighboring city as companion to an old lady. The father closes his door to the girl.

Ten years later at a great musical festival in the town, Magda, now a great singer, known as Madaleno Dail-Orto, appears. She is wealthy, beautiful and famous, and made much of by the governor and other high officials. Her father announces that he will forgive her and insists that she leave the hotel and stay under his roof. Once under his roof he begins again to treat Magda—the great singer—as he treated Magda, the girl of 16. The pastor, whom she refused and who still loves her, has been instrumental in getting her to return to her father's home. Magda does so on the condition that her father will ask no questions about her outside life. The father renounces this condition. Magda shocks their staid friends. She amazes them by her wealth, and offers to dowry her sister Marie so that she can marry well.

Magda meets at her father's house the man who years ago when she was alone and friendless, studying music, betrayed her.

He is now a rising man and anxious to appear immaculate in the eyes of

his fellow townsmen. In his interview with Magda, he learns for the first time that he has a child by her, that to support this child from starving, Magda, in her early days, sang in cafes, and anywhere to earn money. The father enters; honors there is something between them, gets the truth from Magda, determines to challenge Von Kellner, and avenge his honor and that of his daughter. Von Kellner tells him that he is willing to marry Magda. Magda does not want this. She can't make those provincial people understand that she has a tremendous career in the world of art. Her father insists on treating her as an erring daughter who must be guided by him for the best. Magda, finally, out of love for her father and at the persuasion of the pastor, consents. Von Kellner tells her that she must give up her career, and inform Magda that he doesn't intend to recognize their child. Magda's indignation flares up at this. She orders Von Kellner from the house, utterly refusing to disown the child. Her father gives his word of honor to Von Kellner that his daughter will do as he wishes. He tries to force Magda to do this, locks the door and threatens to kill her and himself unless she consents. As he aims the pistol at Magda, he has a stroke of paralysis and dies. Magda is left free to live her own life.

characteristic of it. But in actual numbers they are relatively negligible, and if their power for harm is not also negligible it is because the great mass of negroes have their influence of repression weakened by the fact that the race suffers injustices that are undeniable. For corroboration of this statement, we cite again the program of the Southern Sociological conference, made after a long study of the matter:

First, that the negro should be liberated from the blighting fear of injustice and mob violence. To this end, it is imperative that lynching be prevented—

1. By the enlistment of negroes themselves in preventing crimes that provoke mob violence.
2. By prompt trial and speedy execution of persons guilty of heinous crimes.
3. By legislation that will make it unnecessary for women who have been assaulted to appear in court to testify publicly.
4. By legislation that will give the governor authority to dismise a sheriff for failure to protect a prisoner in his charge.

Second, that the citizenship rights of the negro should be safeguarded, particularly—

1. By securing proper traveling accommodations.
2. By providing better housing conditions and preventing extortionate rents.

Third, that closer co-operation between white and colored citizens should be promoted (without violating racial prejudices)—

1. By organizing local committees both white and colored, in as many communities as possible, for the consideration of inter-racial problems.
2. By the employment of negro physicians, nurses and policemen as far as practicable in works of sanitation, public health and law enforcement among their own people.
3. By enlisting all agencies possible in fostering justice, good will and kindness in all individual dealings of the members of one race with members of the other.
4. By the appointment of a standing committee by the governor of each state for the purpose of making a careful study of the causes of underlying race friction with the view of recommending proper means for their removal.

In reproducing this program The News does not intend a commentary in every item of it. Some of them it regards as of doubtful practicality, and some of them as assuredly impractical. But the fact that a body of Southern men and women has proposed this program witnesses both the existence of a problem to be solved and the fact that that problem is the product of injustices which are a reproach to the white people of the South. The great mass of Southern negroes harbor no ideas and no aspirations which challenge the supremacy of the whites or their sense of superiority. They are not ambitious to rule. They ask only the equal protection of the laws which the white man makes. They are content with their own black skins and do not seek to change their color by a process of race amalgamation. They seek nothing which it is not both the duty and the interest of the white man to give them, for the negro is one of the South's assets and an asset whose value will be enhanced by just treatment and that chivalrous consideration which the superior owes to the inferior race. We make too much ado over the presumptuousness, vices and crimes of the vicious negro, forgetting that our own race could be equally condemned if it were to be judged by the character and conduct of its exceptional specimens. We can enlighten the great majority of the negroes in the task of putting the vicious ones under subjection by dealing justly and kindly by them. That is indeed the purpose of every white man worthy of his race, and it is because of negligence that the South has tolerated conditions which seem to question his purpose to do so.—Dallas News.

One Will H. Hayes, republican national chairman, in a statement made public last night, declares that President Wilson's speech making tour in behalf of the peace treaty is a hopeless effort; that the Senate will not adopt the League of Nations without important reservations. From Mr. Hayes' statement we must conclude that he is directing the fight against the treaty in the Senate. Yet we are told that opposition to the treaty is not a political movement. Mr. Hayes' eagerness to make political capital believes the professions of those in the Senate who are seeking to make a political issue out of the treaty.

COTTON MEN MEET AT NEW ORLEANS TO DISCUSS PRICE

NEW ORLEANS, Sept. 8.—Planters factors and statesmen from the cotton growing states were present at the eighth here today of the two day meeting held under the auspices of the American Cotton Association, the primary object of determining minimum price for the 1919 cotton crop.

Governor Pleasant of Louisiana presided at the sessions. Senator Ho Smith of Georgia was to deliver the keynote address.

The early session was devoted to discussion and explanation of the membership campaign now being conducted by the American Cotton Association, recently organized here.

THE SOUTHERN RACE PROBLEM

Those negroes who got at Austin last week and repudiated the solicited but unsolicited concern which Northern individuals and organizations have been showing for their welfare were wisely prompted. Whatever the motives of these Northern individuals and organizations—and The News is not among those who charge them with sinister motives—the only power they possess is one of mischief, intending to help, they can only hurt the negro by making him the victim of a resentment which they excite. It is not worth while to inquire whether the people of the south are justified in resenting the activities of northern people and organization in these matters, although The News thinks they are abundantly. The only pertinent fact is that they do resent these activities, for to all practical-minded men that fact is a warning that the relations between the whites and blacks of the south can not be made better, but only worse, by the unsought counsel and efforts of the people of the north. Not one southern negro in fifty thousand has any thought of social equality, and much less of racial amalgamation; but they fall under the suspicion of harboring such insane ideas as a result of the gratuitous efforts of Northern people in their behalf. Northern people can not impose their ideas concerning the negro on the south.—The only thing that they can possibly accomplish in trying to do so is to generate a spirit of animosity which will be destructive of the southern negro's welfare. Those negroes who met at Austin last month a full understanding of this truth. The very first task in the work of improving the condition of the negroes of the south and of making stronger the bonds of confidence and sympathy between them and the white people of the south is to make the white people of the north understand their inability to be of help in the doing of that work.

There is a race problem in the south. It would be fatuous to ignore that fact. If any proof of it were needed, it would be sufficient to cite the program for the betterment of race relations presented to the conference of governors at Salt Lake City last month by the president of the Southern Sociological conference. This body, composed of southern men and women exclusively, recognizes that a spirit of discontent is more or less prevalent among the negroes, and a spirit of resentment among the whites, which are detrimental to the interests of both, and menacing to the peace and welfare of the south. In some degree both are justified. Among the negroes of the younger generation there is a considerable number who have contracted the vice of modern life without having acquired the virtues which are equally

MORE HOPEFUL SIGNS.

There are more hopeful signs on the labor horizon. Radicals have been held in check, and for the time being conservative counsel is prevailing. Collapse of the threatened strike of workmen in the railroad shops, failure of the violence predicted on and following Labor Day to materialize, the calm that has followed the storm of a fortnight ago—all indicate a return to reason. There is now time for calm consideration and manifestation of patriotic purpose.

The present unrest is the direct result of war. The fury was predicted and was to be expected. The only mistake made by the men in public and private life who are now disturbed is that they did not prepare for the equal and "firm ship" as the sailors say. However, the equal is sure to pass over and sunshine and

Special Sale of Town Lots
SAGERTON, TEXAS, SEPT. 12, 1919

We will offer for sale to the highest bidder a portion of the lots we own in Sagerton, Texas.

We now have two wells drilling within 1/4 miles of Sagerton, and another derrick awaiting machinery, a little more than 1 mile. There has been several findings of shallow oil already near Sagerton, different directions, which with other unusual conditions, indicate strongly that we are just over or near a great oil pool. We are only offering a limited number of lots in this sale. We feel that a short time will develop oil here, and that these lots will be worth many times more than the price you can buy for on this sale. And in order to give every purchaser an opportunity to make good money on his investment, we are going to give away free—five lots. Each purchaser will be given a ticket which will give him a chance to draw one or more of these five lots free. He will also have his choice of any unsold lot belonging to the Sagerton Townsite Company. All applications by mail will receive our personal attention.

Record Crowd Witnesses Defeat of Locals Sunday

Manager Dickey's Henrietta club won the second and last game of a 2-game series from the Leopards at Katy park Sunday, 3 to 0, before the largest crowd of the season, bigger even than the Labor Day throng.

The visitors deserved to win, although it was poor base bunting on two occasions that cost the Leopards a white-washing.

Young Mr. Clowers, a brunette port-wheel class artist, essayed to twirl the second game in two days and he brought home the bacon for the Henriettans, too. He had superb control, but the reverse to what could have been said of him Saturday, but then, it takes a couple of straight games to get some twirlers into pitching form. He was going just as strong at the close of the game as he was at the start, which is saying considerable, for you know if you saw the shut-out affair.

Sensational Fielding. Clowers for honors, a one-hand spear of Roy Bourland's line drive by McFarland in the first inning, a beautiful catch by McMillin of Thompson's fly in the seventh, the playing of Ray Bourland at second and Petty's fielding of his position being outstanding features of the defensive play.

Petty started hurling for the locals and pitched excellent ball for five innings. Then he hurt his right ankle running the bases, and he was out of the game, and was out of the game, Moore, who had won his game Saturday by good pitching, relieved him, but his arm was in no condition to stand the pace, so he had to give way to Lowry in the eighth with two men on, one run over and nobody down. Lowry pitched good ball in the two innings he worked.

Catch McMillin Off. Manager Fulwider succeeded in working that ancient hold-the-bell-and-touch-the-runner stunt, McMillin being the vic im after he had been hit in the ninth.

McMillin, first man up in the game, was hit by Petty, who later caught him off first, Fulwider and Ray Bourland making the putout. Brown and McFarland were easy.

In the second, Basham singled. He got to second on a passed ball. Childs tagged and Quattlebaum hit a smashing liner through the box to the striking Empire Ralley and glancing to right field. Basham was forced to hold second on the block ball, but he scored on McMillin's sacrifice double down the third-base line. Covington and Clowers were easy outs.

Again in the Seventh. Not until the seventh did the visitors have another chance to score. Childs beat out an infield fly. Quattlebaum bunted an infield fly between the pitcher's box and short and both runners were safe. Moore was in a hole with nobody out, but he fanned McMullan. Clowers was safe on Halie's error, but Childs was held at third. Clowers fanned and McMillin went out via the Ray Bourland-Fulwider route.

In the eighth Brown was safe on Fulwider's error, which was excusable, the ball being knocked from his hand. McFarland meant to sacrifice, but was safe on a beaten-out bunt. Basham laced a single to right, scoring Brown. Childs fouled to Fulwider. Quattlebaum was purposely walked. McMullan sacrificed. McFarland home with the last run of the game, for Covington whiffed at three of Lowry's shoots.

Fulwider Hits Scorer. In the first with two out Fulwider hit a scorer to McMillin, whose fingers barely grazed the ball, but the Leopards' manager died in first for Roy Bourland's hot line r was speared with one hand by McFarland.

In the third, Thompson got a fluke double to left, Petty fled out to first and Halie singled to left. Thompson thought the fly would be caught, and held second too late to make third, being thrown out. Halie reached second on the play and stole third, but Ray Bourland made the third out.

Again in the fourth with one down a man got on. Roy Bourland singled, but was forced at second by Graves and Powell fled to center. In the fifth, Petty reached first on a missed third strike, after two were out. Halie beat out an infield hit and Menor, running for Petty, was safe at second, but the hit needed to score some runs was not forthcoming and Ray Bourland was an easy out.

Menor singled cleanly to left in the seventh. McMillin made a beautiful catch of Thompson's fly. Moore sacrificed Menor to second, from where he tried to score on Halie's infield single, being out at the plate. Fulwider reached first for the third time.

on McMillin's error in the eighth, but never got past second, while in the ninth Thompson singled with two down. Lowry fouled off five balls and then sent a fly to center, which Basham gathered in, ending the game.

STAMFORD JOBBERS DO BIG SHIPPING BUSINESS

STAMFORD, TEX. Sept. 8.—At the present rate, the jobbing firms of Stamford are doing a shipping business of five or six million dollars annually. The shipping business of the jobbers is rapidly increasing and conservative estimates place the increase, that will come on account of the rich harvest this fall, at sixty to ninety per cent. These figures do not include the shipping of the greatest cotton crop of West Texas, that is going to discredit all accusations of being poverty stricken.

There are a dozen or more jobbing firms here that have complained of the shortage of personnel and inadequate facilities for the handling of their freight. Their complaint was heard and considered and they have been given the relief that they had asked, and at present, the shipping facilities and personnel are handling the freight satisfactorily.

ATLANTA IS WINNER OF THE PENNANT IN SOUTHERN LEAGUE

NEW ORLEANS, Sept. 8.—The Southern Association race closed Sunday with Atlanta winning the 1919 championship seven games ahead, Little Rock second and New Orleans, which held the lead during the season more than two months, third. Mobile held fourth place by winning a double-header from New Orleans here today as "Larry" Gilbert day. Second division clubs were Memphis, Chattanooga, Birmingham and Nashville, in the order named.

The championship was decided Wednesday after Atlanta took the second consecutive game of the series here from New Orleans, and the same day Little Rock, by dividing a double header with Chattanooga, ousted the Pelicans from second place.

The unofficial standing of the teams at the close of the season follows:

Club	Won	Lost	Pct.
Atlanta	85	53	.616
Little Rock	74	54	.574
New Orleans	74	61	.548
Mobile	67	69	.493

SQUINT AT THE SCORE.

Yesterday's Hero—Kelly. The Giant first sacker smeared a homer in the top that gave New York 2 to 1 victory in the first game against the Braves, who won the second, 4 to 2.

Hodeller blanked the cards 1 to 0 in the first game, but Reuther lost the second, 3 to 2.

Messie, Phillie outfield, hit a three-bagger in the eleventh and Brooklyn lost the first game 3 to 2.

The Dodgers won the second 2 to 1. The Pirates got nine hits off Alexander and beat the Cubs 2 to 1.

The White Sox increased their lead to seven and a half games by taking the final game from the Indians, 8 to 0. The Senators could not do a thing with Shawkey and the Yankees won, 3 to 2.

Emke and Boland were both ineffective and the Tigers dropped another one to the Browns, 6 to 5.

PAL MOORE IS RETURNING FROM DEFEAT IN LONDON

LONDON, Sept. 8.—Pal Moore, American bantamweight, lost the decision in his recent go with the British fly-weight champion, Jimmy White, in his way home. He left late Saturday on the Aquatica.

CRITICISM OF THE ARGUMENT OF PRESIDENT

Republicans Charge It Is On Theory of What He Sought Not What He Got.

MAKING PREPARATIONS FOR TOUR IN ANSWER

Trio Led by Senator Johnson to Reply to Speeches Made By Mr. Wilson.

By FRED S. FERGUSON (United Press Staff Correspondent.)

WASHINGTON, Sept. 8.—President Wilson is arguing before the country on the basis of what he sought to attain in the Versailles peace treaty, not what he got.

Senators Johnson, Borah and McClellan are making final preparations today for their trip upon which they will carry their arguments to the country.

Johnson is preparing to answer every point by the President on his tour. Responding to the vein of criticism brought out by Wilson in his recent speeches Johnson today declared:

"I deny that he is more articulate than I am. But I will not bury my American ideals under the imperialism of Europe and Asia. I would like to see them free to exercise in their best time. The President's ideals were abandoned, beaten at the peace conference. Every ideal utterance he made was utterly whipped and eliminated by the imperialistic aims of those who wrote the treaty."

Johnson declared the President was entirely right when he said the government was greater than the government.

"And the question our people want to decide," he continued, "is whether they want to substitute this government of a League of Nations for our republic."

The senator said he considered that giving Great Britain a single vote in the League assembly to one for the United States was a challenge to "our self respect and patriotism." Disposition of this question would be a real test of Americanism, he declared.

Both Borah and Johnson will maintain that the presence in Russia of several thousand American soldiers is an example of what may be expected under the League of Nations. They will point out that this is an entirely "undeclared, undisclosed war" and demand by what authority American lives are being sacrificed. They will attack the principle of a President sending an armed force into foreign territory because of a strictly internal situation.

"What will make bolsheviks any quicker," asked Senator Johnson, "than such a policy of sacrificing American lives in an undisclosed, undeclared war?"

In addition to speeches at Chicago, Indianapolis, St. Louis and Kansas City, Johnson will speak at St. Paul, Minneapolis and Winnetka. If the situation in the Senate does not make his return to Washington advisable, the senator will then continue to the coast, speaking in Spokane, Seattle, San Francisco and Los Angeles. His first speech will be before the Hamilton Club in Chicago Wednesday noon.

Johnson, Borah and McClellan will then speak at a night meeting.

The senator will not have a special train or special car for the tour.

CHICAGO OFFICIALS HAVE UNCOVERED A GIGANTIC SWINDLE

Four persons were alleged to have conspired today to complicity in what authorities said evidenced showed to be one of the most gigantic swindles in modern finance.

WEST TEXAS EXHIBIT IS ONE OF BIG A. . . ACTIONS

CHICAGO Sept. 8.—Four persons were alleged to have conspired today to complicity in what authorities said evidenced showed to be one of the most gigantic swindles in modern finance.

Nine men were arrested after a raid on their suite in a downtown hotel had been conducted by state's attorney's aides. Police estimated the extent of the alleged swindle may have reached \$3,000,000.

Evidence showed, it was said, that the schemes included development of a 400-acre tract of zinc land in Missouri and the selling of bales of worthless stock.

STAMFORD, Sept. 8.—Telegraph's advice received from the Indiana State Fair at Indianapolis late that the West Texas agricultural mineral exhibit at the Indiana State Fair in one of the big attractions there. Thousands of people are visiting the West Texas exhibit, and many are indicating their desire to move to West Texas and locate. Over four thousand people registered at the West Texas exhibit on one day for information about West Texas.

The general West Texas Agricultural Mineral exhibit will next be shown at the Kentucky State Fair at Louisville, and it is expected that great interest will also there be manifested. From Louisville the exhibit will be taken to Nashville and Kansas City. Chester T. Crowell, publicity manager for the West Texas Chamber of Commerce, who has charge of the exhibit, states in a letter, today received, that he considers the exhibit movement of vast importance to West Texas and that it will be the means of hundreds of thousands in the West Texas and the state. The Canadian exhibit is located near the West Texas exhibit, but the West Texas exhibit has drawn much larger crowds than the Canadian exhibit.

More than 300 different agricultural and mineral products are included in the West Texas exhibit, representing all parts of West Texas, from Dalhart to San Saba, and from Fort Worth to El Paso.

Moving pictures of different parts of West Texas are shown at the exhibits.

WORLD MOVES FORWARD WITH LONG STRIDES

Peace Has Its Victories No Less Than War—Science, Robs Calomel of its Nauseating Qualities, "Calotabs" the New Remedy.

Here is good news for the sixteen hundred million of people in the world who have little to eat, no food systems to purify and biliousness, constipation and indigestion to be corrected. Calomel, the most successful liver medicine, has been robbed of its griping and nauseating effects. Calotabs, the new name, makes calomel taking a real pleasure.

In future buy your druggist for Calotabs, the de-nauseated calomel tablet. He is authorized to refund the price if you are not perfectly delighted with Calotabs. One tablet on the tongue at bedtime, with a swallow of water—that's all. No taste, no salts, no unpleasantness of any kind. You wake up in the morning feeling fine, with a hearty appetite. Eat what you please and go about your work—no danger.

The genuine Calotabs are sold only in original, sealed packages—never in bulk. Price thirty-five cents.—Adv.

COL. HOUSE TO REMAIN IN FRANCE FOR AWHILE

LONDON, Sept. 8.—At the urgent request of President Wilson, it was learned today, Colonel E. M. House, is postponing his return to America indefinitely. Instead, he will go to Paris where the sittings of the allied mandate commission will be resumed. Owing to the uncertain position of the United States Senate with regard to American acceptance of mandates under the League of Nations, the work of the commission is progressing with difficulty, it was said.

DESTRUCTIVE FIRE ON ISLAND IN ARCHANGEL

ARCHANGEL, Sunday, Sept. 7.—A great fire has been burning furiously for more than two days on Malmasa Island, in the Gulf of Archangel. Timber and sawmills for three miles on both sides of the gulf have been destroyed.

The destruction of property for miles around is reported complete. Estimates of the damage placed it at \$6,000,000. Incendiaries are suspected.

COTTON MARKET. NEW YORK, Sept. 8.—Light trading figures in the cotton report published today had been expected but the very small total was considered as indicating a very late crop and after peaking 15 points lower to 30 points higher active months said about 30 to 35 points above Saturday's closing. Relatively firm cables, the firm opening of the stock market and reports of a storm off the Bahamas encouraged the advance but there was good deal of southern selling under which prices soon turned back.

NEW ORLEANS, Sept. 8.—The movements of the tropical storm in the West Indies and the extremely small glancing report from the first of September are responsible for a buying wave on the opening of the cotton market today. In the first 30 minutes of business the trading volume gained 21 to 22 points.

FIRE DAMAGES M'CLURKAN STORE ABOUT \$40,000 SUNDAY EVENING

Fire of mysterious origin, which stubbornly smoldered for hours, defying the heroic efforts of the city's entire fire-fighting forces, did damage aggregating probably \$35,000 to \$45,000 at W. B. McClurkan & Co.'s big store, Seventh street and Ohio avenue, last evening.

Smoke Was Dense. Much of the beautiful stock of the McClurkan & Co. today is a charred or sodden mass of ruin.

Second Story Damage. On the second story of the McClurkan building, where numerous offices are housed, there was no damage unless it was in moving papers and office furniture out.

Fireman Cuts Hand. It was while smashing a side door that Fireman Reynolds cut a deep gash in his hand on a jagged piece of glass.

Burns Two Hours. Although the fire was discovered a few minutes after 6:00 o'clock it was 8:00 o'clock before Chief McClure finally pronounced it out.
