## NATION-WIDE STEEL STRIKE TOMORROW

### Toll of Storm Remains Around 400

CORPUS CHRISTI, TEX., Sept. 20.—Known dead as the result of last Sunday's storm remained unchanged tonight, with the bodies of 386 victims officially reported buried, and the impression was growing that few additional bodies would be found.

In the week that has passed since a Gulf hurricane sent a tidal wave surging over a large section of the city, every effort has been made to recover the bodies of victims, but it has been impossible to penetrate all the wreckage strewn along the bays.

Prayers will be said in this and other cities tomorrow for the dead, most of them unidentified Corpus Christians, now lying in hurriedly dug graves along the shores of Nueces Bay, near the places where their bodies were found.

There will be no let up in emergency work here tomorrow, as it is vitally necessary to continue cleaning up the streets, searching for the dead and administering relief to those whose homes were wrecked by the storm.

While it was predicted that few additional bodies would be found, due to the fact that decomposition probably has caused most of those uncovered to sink, there was no disposition tonight to cut down estimates placing the probable total dead at from 500 to 700.

The property damage, though variously estimated due to uncertainty as to the amount of business stocks that can be salvaged, is placed at about \$20,000,000 for Corpus Christi and immediate vicinity. Another uncertainty is the value of beach lots now covered by the shifting bay lines.

The debris in the downtown streets which is being removed rapidly has virtually dried out after three days of sunbaked and every precaution is being taken to eliminate danger of fire. Under an order issued by the military tonight, smoking is prohibited on the streets or in downtown business buildings.

In an endeavor to ascertain what probable percentage of the business stocks damaged could be salvaged, the correspondent interviewed a dozen representative business houses today, and found their estimates were that from 25 to 80 per cent of their stocks were entirely lost, with no insurance. Many large fall stocks had just arrived.

While dismounted cavalry of the Texas National Guard continues in charge of the situation here, 11 regular army men are working across Nueces bay and at Port Aransas. Until these men are able to return to San Antonio, Colonel John A. Porter, of Fort Sam Houston, will remain here.

Major E. B. Edwards of the 18th Field Artillery, U. S. A., returned tonight from a tour of inspection to Aransas Pass, Port Aransas and Rockport, and reported to Colonel Porter that the channel at Aransas Pass is "largely filled in," and will have to be dredged before it can be used.

There are 30 persons at Port Aransas, he said, who are being supplied with foodstuffs by yacht. At Rockport, considerable property damage was done, and the city will have to be furnished supplies by yacht, until the wagon roads into the town are repaired.

The steamer Rotarian arrived at Aransas Pass, Thursday, and is being used to transport supplies to the vicinity of Port Aransas. It reported a need of funds in Rockport.

Refugees from the pleasure launch Walden, stranded during the storm on Padre Island, were brought here today. The party included several persons from San Antonio, Houston and Dallas.

**RELIEF UNABLE TO REACH ROCKPORT**  
AUSTIN, TEX., Sept. 20.—No relief expedition has yet been able to reach Rockport, which has been cut off from communication since it was wrecked by Sunday's storm, according to a telephone communication from Acting Adjutant General W. D. Cope, who is in Corpus Christi, to the Governor at 3 o'clock today.

**RIO GRANDE RIVER IS RISING RAPIDLY**  
CORPUS CHRISTI, TEX., Sept. 20.—Two army aviators who arrived here from Brownsville at ten o'clock tonight, reported to Colonel John A. Porter that when they left that place at four p. m. the flood waters of the Rio Grande were within twelve inches of Elizabeth street and rising rapidly. Elizabeth street is in the main business thoroughfare. The planes will return to Brownsville tomorrow.

### Times' Relief Fund Totals \$1406

New contributions for the relief of the Corpus Christi storm sufferers received by The Times Saturday amounted to \$384. The amount previously acknowledged was \$1020.00, making a total of \$1406.00.	
The Times will continue to receive contributions until it is seen that the funds being collected in many places will be sufficient for the relief of the distressing situation that prevails, not only at Corpus Christi, but many other places along the coast.	
The contributions received here are being forwarded to the committee named by Governor Hobby to disburse the fund. State Treasurer John W. Baker is chairman of this committee. Other members are Colonel W. D. Cope, Brigadier General J. F. Wolters, Roy Miller, Mayor Gordon Boone of Corpus Christi and a representative from each of the towns in that vicinity.	
Contributions received through The Times are as follows:	
Previously acknowledged	\$1020.00
Guy C. Cooley	5.00
W. E. Fitzgerald	15.00
T. B. Cook	5.00
H. B. Barlow	5.00
P. B. M. Co.	50.00
Mrs. R. C. Early	2.50
S. E. Dempsey	2.00
Myles O'Riley	25.00
W. A. McGee	10.00
Cash	5.00
W. A. McGee	25.00
J. L. Hughes	1.50
W. H. Downing	10.00
Andrew Young	1.00
Cash	4.00
J. H. Campbell	5.00
J. H. Gibson	2.00
L. P. Webb	1.00
S. L. Bridwell	25.00
S. L. McDowell	25.00
W. T. Harris	10.00
W. P. Wilson	5.00
P. H. Pennington	10.00
W. L. McElroy	10.00
Williams Union	1.00
Mrs. Claude Herring	5.00
Mrs. Mollie McElroy	1.00
H. O. Harvey	100.00

### PUBLISHER TO BE ENVOY TO GERMANY

GEORGE McANENY

That George McAneny, executive manager of the New York Times and former Borough President of Manhattan, will be named as the next American Ambassador to Berlin is a well credited rumor in diplomatic circles. It is believed that President Wilson will send the name of Mr. McAneny to the Senate as soon as the peace treaty is settled and diplomatic relations are restored with Germany. It is known that the President has had Mr. McAneny in mind for this post and believes him to be pre-eminently fitted to handle the obvious difficulties that will attend such a position.

### HAVE A PLAN FOR HANDLING COAL MINES

#### Nationalization Is Demanded in Resolution Adopted by Mine Workers

CLEVELAND, Sept. 19.—The convention of the Mine Workers of America today developed its plan for the nationalization of coal mines, which includes purchase by the federal government of all private mines at their actual value as determined by federal appraisers and operation by the federal government, with equal miners' representation upon the bodies administering the industry and fixing wages and conditions of employment. Nationalization of coal mines in Canada is also proposed. The miners offer right of way to nationalization of railroads, provided the railroad brotherhoods pledge themselves to continue the fight with equal vigor for the nationalization of mines. Action was taken by a unanimous rising vote.

#### Other Resolutions

The convention further adopted resolutions demanding legislation to take from the United States supreme court the power to declare unconstitutional laws passed by the elective congress; calling upon President Wilson to remove Postmaster General Burleson as harsh and malignant opponent of labor; and asking a new trial or full pardon for Thomas J. Mooney and Warren K. Billings; the repeal of the espionage act and amnesty for political prisoners. It refused, however, to call as proposed a general strike and stoppage of all production until all political industrial prisoners are released and in its resolution on the espionage act declared that many of the offenders had been justly convicted for interference with the prosecution of the war and that it had no desire to condone such offenses.

### STEAMER WRECKED HAD CREW OF 88 AND 400 PASSENGERS

CADIZ, Sept. 20.—The Spanish steamer Valbarera, wrecked off Key West, carried a crew of 88 persons and 400 passengers.

MADRID, Sept. 20.—Dispatches received from Havana confirm the loss of the Spanish steamship Valbarera in the tropical hurricane which raged over the Gulf of Mexico and adjacent waters last week. She carried four first-class passengers, Anastasio Saenz, a Havana merchant, and his children, Marie, Teresa and Jesus. There were five second-class passengers and sixty-four third class. The captain of the Valbarera was Ramon Martin, and the ship's complement included three officers, a chaplain, six under officers, four doctors, five engineers, seven sailors, seven stewards, nine electricians, one chief steward, eight cooks, twenty seamen and two maids. The majority of the passengers were from Malaga, Spain, on their way to employment abroad. The ship belonged to Pinillos Izquierdo and Company of Cadiz.

### LINE-UP FOR FINAL FIGHT OVER TREATY

#### Struggle Over First and Second Amendments to Begin This Week

#### MILD RESERVATIONISTS OPPOSE JOHNSON PLAN

#### Lodge and Lieutenants Acknowledge Defeat of Shantung Amendment

L. C. Martin, (United Press Staff Correspondent) WASHINGTON, Sept. 20.—Out of a whirl of apparently contradictory developments during recent days, the senate treaty situation appeared today to be: 1.—A straight-out fight on the first and second amendments to the treaty as proposed by the majority of the foreign relations committee, will begin next week. 2.—Senator Hiram Johnson, author of the first amendment, will return from his speaking tour despite advice by Senators Lodge and Knox and assurances that his friends in the Senate will "loyally look after his interests." 3.—Mild reservationists, though opposed to Johnson's amendment, will oppose any effort to rush a vote on it until full debate has been had. 4.—Senator Lodge and his lieutenants are supremely confident they will have the votes to put the Johnson amendment over, though they acknowledge the Shantung amendment is now definitely beaten.

#### Amendments Really One

The first two amendments to be taken up are really one; Johnson's amendment number 1 proposes to equalize the voting strength of the United States with that of Great Britain and the League.

Senator Moore's amendment number 2, provides that in case of a dispute between Great Britain, for instance, and the United States, the self-governing colonies of the British Empire shall have no vote in the assembly, should the dispute be referred there.

While senators supporting these amendments have no objection to Great Britain's colonies having individual votes, they oppose having six votes available to the British Empire while the United States has but one. It is this opposition, leaders said today, which have won enough democratic votes to assure passage of the Johnson amendment.

Leadership today scoffed at the claims that there are "deserters" enough in their ranks to insure success for the Johnson or Moses proposals.

#### DEMOCRATS CHALLENGE THE REPUBLICAN CLAIMS

WASHINGTON, Sept. 20.—Democratic leaders in the Senate challenged today the claim of republican opponents of the league of nations covenant that enough pledges had been obtained to secure adoption of Senator Johnson's amendment designed to equalize British and American voting power in the league assembly. While they expressed supreme confidence and predicted at least fifty votes against the amendment—enough to defeat it—these senators finally got in touch with Vice-President Johnson, insisting that he return in time for the first real vote on the treaty, expected next week.

The message to the vice-president was sent after the Flume incident, the latter disappearing of the premier's attitude, according to the newspapers.

A dispatch from Trieste says a fleet of airplanes has landed near Fiume and have been placed at the disposition of Captain D'Annunzio, having flown from one of the Italian aviation camps. A brigade of Lombardy troops which arrived at Fiume and volunteered to join the D'Annunzio forces was sent back to its garrison, says a dispatch to Messenger.

Captain D'Annunzio's action in taking over control of Fiume is approved in a manifesto issued by the National Association of Wounded Soldiers.

Both sides were expecting help from this group, but there was no certainty as to how the majority might line up. Senator Hitchcock said today that every effort would be made to hasten consideration of the treaty because of the "insistent demand" from business people for final settlement. There was an indication, however, as to how soon a vote might be called for on the Johnson amendment, which will be the first test of strength. This may be expected just as soon as one side or the other figures that the time is ripe from its standpoint.

#### BELGIUM AGREES TO PROPOSAL OF FRANCE

PARIS, Sept. 20.—Belgium has agreed to the proposal of France that a French general be given supreme command of allied forces on the Rhine, according to the Journaux.

#### FRENCH TROOPS TO BE SENT TO BULGARIA

PARIS, Sept. 20.—The French military units will be sent to Bulgaria to supervise the execution of the provisions of the treaty with that country, according to the Echo De Paris.

### DALLAS MAN HEADS NATIONAL JEWELERS

Arthur A. Everts

### REPORT VILLA PLANNING FOR A NEW DRIVE

#### American Officials Much Interested in Rumors of His Activity

WASHINGTON, Sept. 20.—American officials are greatly interested in news indicating that Villa is planning a new campaign against Carranza, which accounts for the activity he has displayed during the past few months accumulating men and ammunition in northern Durango. It is said that he contemplates a drive south from his present headquarters and will keep away from the border so that by no act of his can the American army be sent across the Rio Grande as was the case recently at Juarez.

Villa, released a short time ago, 2,100 Carranza prisoners, which his troops had captured, cautioning them to keep out of the federal army and urging them to turn over to him all the rifles and equipment they could get. Many of them enlisted at once in the Villa army while others returned to their homes on parole. Six hundred men from the Santa Rosalia garrison and 300 from the Chihuahua garrison have recently deserted and joined the Villistas, according to these reports.

It is said here that General Francisco Gonzales' transfer from Juarez to Tampico was caused by threats against his life by his own troops because of his acquiescence in the recent crossing of the border by American troops.

### ITALIAN LEADERS NOT AGREED OVER FIUME INCIDENT

ROME, Sept. 20.—Premier Nitti and Foreign Minister Tittoni have disagreed over the Flume incident, the latter disapproving of the premier's attitude, according to the newspapers.

A dispatch from Trieste says a fleet of airplanes has landed near Fiume and have been placed at the disposition of Captain D'Annunzio, having flown from one of the Italian aviation camps. A brigade of Lombardy troops which arrived at Fiume and volunteered to join the D'Annunzio forces was sent back to its garrison, says a dispatch to Messenger.

Captain D'Annunzio's action in taking over control of Fiume is approved in a manifesto issued by the National Association of Wounded Soldiers.

### MAN IS SERIOUSLY INJURED SATURDAY AT BURKBURNETT

S. F. Adams was brought from Burk Burnett to the Wichita General hospital shortly after 11 o'clock last night suffering from a fractured skull and concussion of the brain. His condition is so critical no hope was entertained for his recovery last night.

Two by four scuffling fell from a height of 60 feet, striking Adams squarely in the top of the head. He had not regained consciousness last night.

Adams' home is in Arkansas and relatives have been notified of his condition. He was employed at Burk Burnett by John Wall.

### ABANDON HOPE FOR SETTLEMENT AND FORCES ARE LINED UP FOR THE LONG THREATENED STRUGGLE

The stage was set today for what may prove one of the great industrial dramas in American history. Every preparation has been made both by employers and employees for the Nation-wide steel strike at dawn Monday.

Union leaders reiterated their confidence of closing down every plant in the country controlled by or affiliated with the United States Steel Corporation. Officials of the corporation were equally confident that the great majority of their workmen would remain loyal and enable the plants to continue operation.

State and city authorities began to take precautions to prevent possible disorder. In the Pittsburgh district two companies of state constabulary were ordered out to patrol steel towns in that vicinity. Reports were circulated that the steel corporation was organizing ten thousand deputies to guard its plants. From practically every steel center charges were repeated by union men that the companies had armed their plants with rifles and machine guns, but in no instance could be confirmed.

John Spatrik, chief organizer of the steel workers, announced in Washington today that women would be employed by the strikers to aid in keeping up the morale of their wives and children.

Judge Elbert H. Gary, head of the steel corporation, did not appear at his New York office today, and secretaries said they did not know his whereabouts. They were certain there had been no deviation from his attitude of no compromise.

W. B. Rubin, general counsel for the steel workers, said in New York today "organized capital must meet organized labor or organized riot."

Officials of the Allegheny Steel Company, Brackenridge, Pa., said their employees had voted overwhelmingly against a strike.

PITTSBURGH, Sept. 20.—The eve of the nation-wide strike in the steel industry finds both sides in the contest apparently prepared for the battle. Final arrangements were rushed today, the corporations paying much attention to plans for guarding their property and the union leaders continuing their intensive campaign to unionize unorganized men. Tonight there seemed to be nothing to do but wait for the test of strength on Monday when the strike will officially begin.

Expressing confidence that the unions have not the power to compel a general shut down, officials of the United States Steel Corporation, one of the other steel companies, said they will blow their whistles as usual Monday morning and try to operate their plants. They frankly admit they will do the best they can if sufficient men do not report, which they do not concede, they will shut down until such time as they can command enough men to make it worth while to start up again.

No Strike Breakers. There is no talk of bringing strike breakers into this district. The strike order affects approximately 200,000 iron and steel workers in the huge and outer Pittsburgh district between Johnstown, Pa., on the east, and Youngstown, Ohio, on the west. Union leaders claim that a majority of these men will follow the request of the steel workers' national committee and refuse to go to work Monday. They assert that not only union men will be in the walk out, but that these will be joined by thousands who are not affiliated with any labor organization.

Municipal and borough officials in many parts of the Pittsburgh district today, also prepared to meet the situation and have taken precautions to maintain law and order in their communities.

Permit Is Refused. Mayor George H. Loyale of McKeesport, who, union leaders complain, has refused to permit labor organizers to hold public meetings in that city, issued a long proclamation calling upon citizens to support the continued order in their efforts to maintain peace.

A mass meeting is scheduled for McKeesport tomorrow. The mayor said it cannot be held. W. Z. Foster, secretary of the steel workers' national committee, said it would take place as scheduled.

A report was circulated today that the United States Steel Corporation was wearing in 10,000 of its loyal employees as special guards to protect property. Corporation officials, following their custom, refused to divulge what police arrangements they are making.

Beyond the coming and going of organizers preparing for the holding of mass meetings in all steel communities tomorrow, there was little information to be had at national labor headquarters from points outside the Pittsburgh district.

Despite all the preparations for the strike, both sides there was still a faint hope in some quarters that the conflict may yet be averted. When this was brought to Mr. Foster's attention, he shook his head and said there was not a chance of stopping the walkout. President Wilson's name is frequently heard in the talk of possible intervention.

### Relief Fund Contribution Is Nearly Seven Thousand

With the total for Gulf coast storm sufferers relief, approximately \$6,565.42 at 11:00 o'clock Saturday night, indications were that when all committees had made their reports to the Wichita Falls contribution to the relief fund would run in the neighborhood of \$7,000.

Pictures shows and street corners were worked again with the tubs Friday and Saturday nights and Saturday afternoon, with the result that collections secured in this manner were increased to the neighborhood of \$2,900.

A remittance for \$5,000 was wired to Corpus Christi Friday night by Hubert Harrison, secretary of the chamber of commerce, who has been acting as treasurer of the fund.

Among those who worked with the committees making the tub collections on street corners and in the various show places were: W. H. Ballard, a local oil man, who originated the idea; B. F. Johnson, Bert Bean, Hubert Harrison, W. R. Duke, J. Wilkie Tabert, C. H. Reid, Ralph Maricle and B. C. Workman.

Mayor Marlow has been active in the campaign for funds, having turned over a number of checks and currency he had secured working independently. Among the contributions received by Mayor Marlow was one for \$10 in currency, which came with a communication, which was neither signed nor addressed. "While I don't exactly like to receive anonymous communications," Mr. Marlow said, "if they come in such company as this one I will be well enough satisfied."

Active solicitation on the part of the committees closed Saturday night, but contributions will be received and forwarded by the chamber of commerce and The Times.

### THOUSANDS SHRIEK APPROVAL WILSON'S RATIFICATION PLEA

LOS ANGELES, CAL., Sept. 20.—President Wilson completed his week of speech making on the Pacific coast tonight with a monster mass meeting here at which thousands shrieked approval of his plan for early ratification of the peace treaty.

Welcomed to the city by a crowd which densely packed the downtown section, the president was cheered in unison everywhere he appeared during the day. Along the line of a ten-mile parade he rode in a din of applause and later at a public meeting cheers greeted his assertion that the treaty should and would be accepted.

When he entered the auditorium for his night speech he was cheered for more than two minutes by a crowd estimated by the police at 6,000. The hall was jammed and outside were thousands who could not get in. Some had been waiting since early morning for the doors to open.

At the auditorium meeting the president was introduced by Blahy Cowles, president of the National Federation of women's clubs, who told the crowd that the league should and must become the bulwark of a war-weary world for all time.

The president alluded to an address by President McKinley on the day before his assassination and asserted that the martyred president's words about arbitration seemed to show he had a prophetic vision on the eve of his death.

Referring to objections that the league would involve the United States in entangling alliances, Mr. Wilson said the league was in fact a proposal for disentanglement.

"What Washington had in mind was exactly what these gentlemen want to lead us back to," he said. "The day of alliances is behind us."

#### LAST GAME OF SEASON SCHEDULED FOR TODAY

What is scheduled to be the Leopards' last game of the season will be played at Katy park at 4 o'clock this afternoon, weather permitting, with the local arch enemy, the Henrietta team.

Manager Pulwider had not announced his hurler for today, but he has Patsy Moore and Lowry to fall back on, and all of them should be in fairly good trim.

Thus far, the Henrietta team has two games the edge on the Leopards for the season.

### TOLL OF STORM REMAINS AROUND 400

Continued from Page One.

spent its fury, and since Monday, the civic state and federal forces marshaled for this purpose have worked unceasingly and with remarkable success.

Care for Homeless. The 4,000 homeless, almost all from the North Beach district, have been cared for in every particular, hundreds of them sent to other cities, while the rest were maintained here on supplies and money contributed from numerous sources.

Noteworthy among the instances of civic relief is the case of the little city of Alice, 42 miles from here, with a population of not quite 2,000. Fifteen hundred dollars in cash was received almost immediately from Alice and now \$1,200 awaits call.

Every train of soldiers or refugees that passed through Alice has been met day and night by women of that city, with full supplies of hot coffee and sandwiches. Nurses have been sent from the city, and late today the little city offered "to take any number of homeless children and feed them, clothe them, house them and send them to school."

Clearing the Wreckage. Work of clearing the "streets of wreckage and slime has been kept on by hundreds of men, who have kept doggedly at a task with huge army trucks speeding the debris away to outlying portions of the bluff district.

When their day's work has ended the men have made their way to Red Cross headquarters or the municipal kitchen to take their places in the long line of workers and others waiting for their evening meal.

Relief cars ply continually to all parts of the city, answering emergency calls and carrying aid to the destitute. All day long great throngs crowd Red Cross headquarters for supplies of clothing sent from neighboring towns. Great piles of garments of every description have been assembled and as these are exhausted new shipments arrive.

Emergency Hospital. One of the city's most fashionable residences, located on the bluff overlooking the bay, was converted into an emergency hospital. Here injured survivors were brought for treatment.

Carload after carload of oil stoves were distributed throughout the city to take the place of gas, which now has been partially restored. Ice from surrounding towns has been sent in ample for all purposes.

The milk supply still is limited and available to individuals only for children. Fruit is scarce.

#### COAST GUARD CUTTER REMOVES 35 REFUGEES

GALVESTON, TEX., Sept. 20.—The United States coast guard cutter Comanche arrived here today with thirty-eight refugees from Port Aransas. The town was entirely demolished by Sunday's hurricane and tidal wave, officers

said. Only two houses remain standing. The refugees, which ranged from babies in arms to Mrs. R. Simonton,

75 years old, told a tale of incredible suffering. They were marooned for hours without food or water.

ported missing has been found de-nuded. He was wandering on the bay shore in a pitiable condition.

### ROTARY CLUB VOTED SINCERE THANKS OF BOARD OF EDUCATION

ALL WHO CONTRIBUTED TO HOUSE FUND INCLUDED IN RESOLUTION.

WAS ADOPTED ON FRIDAY

Sentiment of Board is Voiced in Statement by Judge Martin, the Chairman.

At a special meeting of the board of education Friday afternoon a resolution of the thanks was unanimously voted to the Rotary Club and its committee and to all citizens who contributed to the fund raised by the club for the purchase of the Thornberry house in Floral Heights for the use of the superintendent of the city schools.

"The Rotarians took hold of this matter when it looked like our school superintendent would be forced to resign because of the lack of a place to live," said Judge P. A. Martin, president of the board, in discussing the resolution. L. H. Roberts was appointed chairman of a committee to work out the proposition. He surrounded himself with a bunch of enthusiastic Rotarians and they put the deal across in true Wichita style, raising about \$7,000 and buying a home outright, which has been deeded to the school board and their successors in office and it will hereafter constitute the 'parsonage' of the present and future superintendents of the Wichita Falls schools.

"This sort of patriotism and public spirit is well calculated to awaken the admiration of the people and make them all believe that the motto of Rotary, 'He profits most who serves best' is not a meaningless slogan, but is a motto that the club is ready to exemplify in actual life upon occasion.

"The Rotarians here have exemplified their friendship and helpful spirit towards the school in other ways heretofore. They often entertained the high school boys at their luncheons; they have appropriated funds for public play parks and have one under construction on the north side at the new school house and a strong Rotary committee is still at work getting places for the teachers to board.

"Wichita Falls is fortunate in having an organization like this to take the lead in these matters."

### KNIGHTS OF PYTHIAS CHANGE MEETING NIGHT

At the last convention of Pioneer Lodge No. 49, Knights of Pythias, it was voted to change the regular meeting night from Wednesday to Thursday night of each week. The lodge conferred the Knights rank on two esquires and will initiate a number of applicants in the rank of Page at the next meeting, Thursday, September 25.

Musical Tabloid.

Picture program: Monday and Tuesday: Alice Brady in "The Death Dance."

Wednesday: William S. Hart in "Apostle."

Thursday: Carlisle Blackwell in "The American Way."

GEM CALENDAR.

Monday—First and second; Episodes of "The Terror of the Range," also "Big V" Comedy.

Tuesday—Anita—King in "One Against Many."

Wednesday—Bessie Love in "The Fishing Man's Ring."

Thursday—Evelyn Nesbit and son "Woman Who Gave."

Friday—Wm. Duncan in "Smashing Irrigators," also Wm. Russell in "The Idea of Man."

Saturday—LKO Comedy and Bison feature; also Hearst News.

STAR'S PERSONALITY IS MIRRORED IN PICTURES

It often has been said of Bessie Love at her personality is mirrored in her work on the screen, and a graceful butte bearing this out is paid the name Vitagraph star in the Los Angeles Camera, which says: "Bessie Love reminds me of the most lovable girl that ever was given an opportunity to reveal all that is good in a girl—for she never has outgrown her love for her parents—and for that reason, above all, she has been very successful in everything she has undertaken. Her pictures show it.

Miss Love shows her rare charm and talent to best advantage in "The Fishing Man's Ring," the Vitagraph Star Series Release, which will be seen in the Gem Theatre on Wednesday. The story is adapted from the widely-read book of the same name, written by Margaret Widdemer, and one of its appeal has been lost in the screening. In the supporting cast are J. Frank Glendon, Jean Hathaway, Claire Du Brey, Tuman Van Dyke, Willis Marks, Alberta Lee, Dorothy Hagan, and Colin Kenny. The picture was directed by David Smith.

"THE DEATH DANCE" AT THE PLAZA THIS WEEK

"The Death Dance," Miss Alice Brady's latest Select Picture, will be seen here at the Plaza Airdome Monday and Tuesday. The story deals with Flora Farnsworth, a dancing girl (Alice Brady), for which role Miss Brady devoted much time to the mastering of a difficult character dance.

Arnold Matland (H. E. Herbert), embittered because his wife is conducting an affair with Borecky, a dancer in a cabaret, visits the restaur-

ant to have it out with him, and becomes enamoured of Flora, who is in the company. He makes a wager that he can win her in two months, but later realizes that she is different and that he really loves her. Having made it possible for Flora to study music, he plans to take her abroad, so that his desertion may be used by his wife as grounds for a divorce.

Matland is killed the night before he and Flora are to sail and he gives the evidence papers to Flora just before he dies. Then Flora accepts the position as Borecky's partner, while, Cynthia, tiring of her old partner, sets her cap for Matland's partner, Philip Standish. Borecky falls in love with Flora, and she, meeting Philip Standish, promises to marry him. Cynthia, jealous of Philip's attention to Flora, seeks her revenge by goading Borecky to kill the girl in the dance which calls for a pretended stabbing.

Philip is at a table near by and reading the intent in Borecky's face, saves Flora from death, while the miserable man plunges the dagger in to his own breast.

The National Bank of Commerce, although it has the facilities, resources and organization for handling large financial transactions with unqualified success, is never too big or too busy to meet the small depositor on a friendly footing and to give him prompt and courteous consideration. 114-11c

We have several buyers for fire-room houses. Small cash payment, balance monthly. What have you? Payne & Winfrey, Phone 2027. 114-11c

### PAYNE AND WINFREY FORM A PARTNERSHIP

The forming of a partnership, composed of F. G. Payne and C. A. Winfrey, which will deal in real estate and leases, was announced Saturday. Mr. Payne has been in the lease business for the past two years, while Mr. Winfrey, who has recently returned from overseas, was formerly connected with the Wichita Falls Sash and Door Company.

The new firm have opened offices in the old post office building.

# Peace Treaty Should Be Ratified Without Delay Says Secretary Lansing

WATERTOWN, N. Y., Sept. 20.—The peace treaty should be ratified without delay and without change, declared Secretary of State Robert Lansing here today in the first public utterance made by him since the statement of William C. Bullitt before the senate foreign relations committee in which it was alleged that the secretary of state on May 19, in Paris, said that if the American people knew what was in the treaty they would defeat it.

"In the treaty of peace," Mr. Lansing further said, "there is nothing which invades the sovereignty of this republic or which limits in any way the full exercise of such sovereignty."

Mr. Lansing spoke at the dedication of Lansingdorp, a suburb of Watertown erected by government to house munitions workers and named in honor of the home of the Lansing family.

## ARREST MAN ON CHARGE OF ATTEMPTING TO AID PRISONERS TO ESCAPE

TOPEKA, KANS., Sept. 20.—William Lee arrested in Lawrence last night and charged with attempting to aid in a jail delivery here yesterday will be served with a government warrant today charged with felony. Lee, it is alleged, attempted to slip six steel saws and a quart of muriatic acid to Alvin Owens in the Shawnee county jail. Owens and one other man are being held for alleged automobile stealing. In the cage with Owens was Hufe King, held for three murders at Maple Hill, Benjamin Smith, supposed to be the leader of the counterfeiting plot discovered at Leavenworth and another government prisoner. Lee secreted the saws in a watermelon and the acid in a basket of food, it is said.

## PLAN ORDINANCE TO AVOID PROFITEERING DURING STATE FAIR

DALLAS, Sept. 20.—An ordinance designed to prevent profiteering in Dallas during the coming State Fair will be presented to the city commission Monday morning for passage, according to Mayor Wozencraft, who said today it was planned to cover profiteering in every sense of the word. The measure will be so drafted, the mayor said, as to make it illegal for an overcharge on anything in Dallas.

Mayor Wozencraft stated that the main purpose of the ordinance, however, would be to prevent profiteering in the price of rooms, hotels, restaurants, groceries, clothing houses and public conveyances.

"I am sure the legitimate merchants of Dallas will have no reason to fear an ordinance of this character, but there are a number of persons who each year take advantage of the situation and hold up fair visitors for charges of every description," said the mayor. The ordinance, after being tested out during the fair, will probably be amended to fit conditions in Dallas at normal times.

## HONOR SOLDIERS WHO FIRED FIRST U. S. GUN IN WAR WITH GERMANS

WASHINGTON, Sept. 20.—The House today laid aside legislative business to give an ovation to the men who fired the first shot for the United States in the war.

Representative Hickey, Indiana, introduced them as "Alexander Archer, who fired the cannon, and Lewis Vandy, who loaded it, on October 24, 1917, in the Sommerville sector. Both stood in the gallery and saluted while the House cheered. They are from South Bend.

## MESSENGER IS ROBBED OF COMPANY PAYROLL AMOUNTING TO \$3,500

NEW YORK, Sept. 20.—A bandit held up a messenger of the Burns Coal Company a few blocks off Broadway this afternoon and escaped with a bag containing \$3,500, the company's payroll. The messenger, Michael Dobbins, was accompanied by two husky guards.

## PUBLIC HEALTH SERVICE REPORTS 275 CASES FLU

WASHINGTON, Sept. 20.—Two hundred and seventy-five cases of flu were reported to the United States public health service for the week ending September 13, it was announced today.

Officials do not regard this as alarming, however, since for years past the disease has been prevalent and the present season is one in which it ordinarily shows an increase.

Officials say there probably will be a recurrence of the epidemic this autumn.

The lawn social which was arranged for by the ladies of the Catholic Church was postponed on account of the weather, to Tuesday night, Sept. 23. You are invited to attend. 114-30

## STATE HEALTH OFFICER URGES PRECAUTIONS AGAINST POSSIBLE RECURRENCE OF THE INFLUENZA

AUSTIN, Sept. 20.—Dr. C. W. Goddard, State health officer, has issued the following communication to the public:

"Last week I called your attention to the probability of a recurrence of influenza this fall and winter and stated that in the past the death rate grew larger with each recurrence. You were advised to get busy preparing yourselves and your town in anticipation of a recurrence. Since that time reports have reached this department of cases of influenza in three widely separated sections of the State.

"While there are many things that have always acted as leading factors in promoting public health work, the dominating impulse should be the desire to prevent sickness, suffering and death, a love for one's fellowman and the desire to do everything possible to add to his comfort and welfare. Civic and personal pride follows closely as a factor promoting public health, for a desire to have the cleanest houses and the cleanest town should be the pride of every one.

**Clean Up and Organize.**

"I am now calling upon you to set aside one day this week as 'Clean Up and Organization Day.' Do not stop until you have organized your forces and given your town a thorough cleaning. After a thorough clean-up, let us have for our motto: 'No more trash-littered back yards, streets or alleys. No more vacant lots overgrown with weeds and grass. No more pools of stagnant water.'

"I am asking that all health boards call a meeting this week and invite the school boards, the commercial clubs, the civic clubs, the parent-teacher associations, the physicians and nurses, and all other organizations interested in problems of health, to be invited to participate and at this meeting organize forces, perfect plans for present clean-up, and provide for follow-up workers and emergency demands that may arise.

**Be Ready for Emergency.**

"In anticipation of an epidemic of influenza or one of any other nature, organize your forces—enroll your workers and have everything ready to meet an emergency at a moment's notice.

"If your numbers will permit I sug-

## COLONEL ARTHUR WOODS SUBMITS RESIGNATION AS ASSISTANT TO BAKER

WASHINGTON, Sept. 20.—Colonel Arthur Woods has submitted his resignation as assistant secretary of war to Secretary Baker to take effect today, it was learned.

Woods has been in charge of the work of obtaining employment for discharged soldiers.

In a letter to Secretary Baker, he said he believed his work was completed.

We have several buyers for five-room houses. Small cash payment, balance monthly. What have you? Payne & Winfrey, Phone 2027. 114-11c

## Make Boys' Clothes

The problem of clothes for the boy has been a serious one for parents and the boy; "he went through his clothes so fast." The folks who bought clothes for the boy were partly to blame for the quality; they demanded cheap prices, and got cheap goods.

Now that the world has learned that good quality is worth what it costs, they're willing to pay what it costs. Then the time came for a line of Boys' Clothing by Hart Schaffner & Marx.

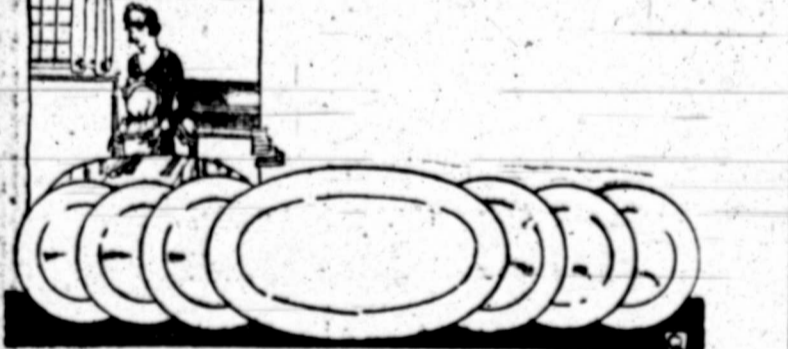

These makers can't make poor clothes; they don't try; they make them as good as they can be made, and the price is based on what it costs to make them.

That's why we sell Hart Schaffner & Marx clothes; that's why we're especially glad to have these clothes for boys.

# Baum & Gardner

# The New Fall Suits

*Featuring Beautifully Tailored Models which Authentically Interpret the Trend of Fashion*

Fur trimmed Suits for the crisp days that are coming. There is luxurious beauty in these handsome new Suits for women. They are cut on the new slender lines that give unusual grace and usefulness and their chief charm and effectiveness is a clever application of stylish Furs so modish this season. But not all of the good Suits are fur trimmed; many reflect the post-military-day influence—are self trimmed, with snug fitting collars.

A diversity of materials, including Peach Bloom, Silk Duvetyn, Tinseltone, Chiffon Velvet, Wool Velour, Tricotine, Serge and Broadcloth.

**Our Suit prices range from \$29.50 to \$200**  
**Blouses in Rich Colors to "Set Off" that**  
**New Fall Suit**

The Autumn Blouses are noticeable for the skillful handling of materials, blending of colors and combining of trimmings. Georgette Crepe in soft, rich quality, shown in many pastel colors, blends beautifully with the Suits and Skirts for Fall.

A complete range, and each represents the utmost of style and value at the price.

**Prices \$6.75 to \$39.50**

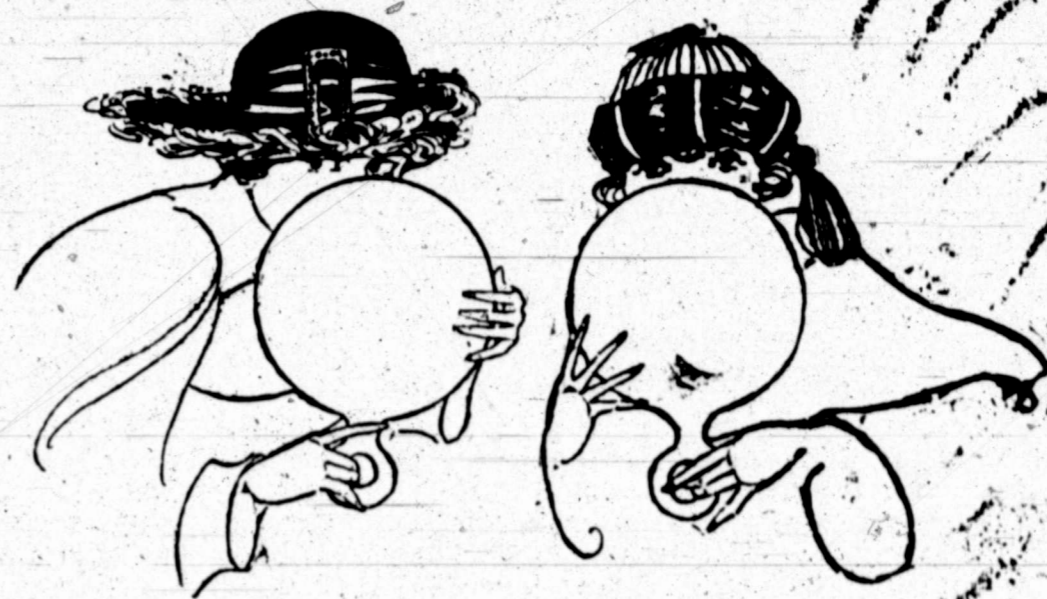

**Showing New Suitings, Coatings and Dress**  
**Fabrics for Winter**

When you view our splendid showing of Dress Goods and contemplate the rich and beautiful Suits, Coats and Dresses that may be fashioned from them, you will surely be impressed. The well known scarcity of many fabrics with the prospect of further price advances will move thrifty women to action.

The prices here, if not far below those generally prevailing, are certainly not higher. In addition to the usual excellent display you will view many elegant Coatings, Suitings and Dress Fabrics that arrived during the week

## CORSETING

The fit of outer apparel depends on the fit of the corset. The corset fitting provides you with "your" corset instead of "a" or "any" corset, and the best known brands are included in our selection.

## The Newest Millinery

Widely varying displays of the newest in fine Millinery await your consideration in our big Millinery Department. Authentic styles for every occasion reflecting beauty and charm. Creations from our work room, conceptions from the metropolis, a collection of distinctive styles for Women and Children.

**Priced to please at \$5.00 to \$40.00**

Visit this department Monday. See the display today.

## THE NEW SKIRTS

Most attractive are the new Fall Skirts in a variety of new Wool Mixtures, plaids, checks and solid colors, also in many new Silk materials, elaborately trimmed. The new arrivals of Fantasai in all wanted shades.

**The prices are from \$9.50 to \$35.00**

## FALL SHOES

The best in Shoes is always the cheapest—the most economical. When you buy the best shoes at fair prices you are saving wisely. A cheap shoe bought for price value, may not be a bargain after all, because the proof of the bargain is in the wearing; also in the looks, the fit and the comfort. We recommend buying good shoes at fair prices. Giving best values is a principle of this store that's why this big shoe business here.

## MY SOUL AND I.

As treading some long corridor,  
My soul and I together go;  
Each day unlocks another door  
To a new room we did not  
know.

And every night the darkness  
hides  
My soul from me a while—  
but then  
No fear nor loneliness abides;  
Hand clasped in hand, we wake  
again.

So when my soul and I, at last,  
Shall find but one dim portal  
more,  
Shall we, remembering all the  
past,  
Yet fear to try that other door?

—Charles Buxton Going to "Star-  
Glow and Song" Harper &  
Bros.

## MR. AND MRS. TAYLOR ENTERTAINED SUNDAY

Honoring Wade Taylor and his bride, formerly Miss Lucy Copeland, dinner was given on Sunday September 14, at the home of Mr. and Mrs. J. D. Gunnels. Mrs. T. C. Sauls was dinner hostess with Mrs. Gunnels. Following the dinner the afternoon was spent in conversation and special music, selected by the hostesses. The wedding of the two young people, in whose honor this affair was given, was of much interest to their many friends in this city, the groom having been born and reared in Wichita Falls. The bride has only made Wichita Falls her home for a year, but through her pleasing personality and charm has made many friends, who are uniting their congratulations.

The friends who were guests at the dinner included: Misses Minnie Taylor, Georgia Roberts, Thelma Copeland, Pearl Fine, Susie Taylor, Messrs. F. H. and O. L. Fine, Walker and Dock Taylor, Bob Watson and Lester Williams, Mrs. W. F. Wallace, Mrs. M. A. Crittington, and Messrs. and Mesdames H. A. Fine, W. J. Taylor, T. C. Sauls, J. D. Gunnels, A. P. Baker, Theodore Hansard, Charlie Williams, T. A. Copeland.

Mr. and Mrs. Taylor are at home to their friends at 302 Fifth street.

## B. O. P. CLASS LUNCHEONS AT Y. W. C. A. ROOM

The Y. W. C. A. recreation room was the scene of the monthly luncheon and business session of the B. O. P. Class of the M. E. Church, South, on Thursday. The arrangements were in charge of Miss Ruth Clark, the recreation secretary, and the luncheon table was most attractive in its decoration of roses, while the luncheon menu was equally as attractive, consisting of meat loaf, baked potatoes, cauliflower en pate, stuffed tomatoes, tea and watermelon. Plans for the fall work of the class were discussed during the business session.

Mrs. W. W. Silk, Miss Margaret Silk of Birmingham, Mrs. Frank Yechum also of Birmingham, and W. B. Hamilton, the superintendent of the M. E. South Sunday school, were guests of honor at the luncheon. The class members present were: Misses Annette and Mary Coffield, Lila Copeland, Ruth Clark, Lulu Daniels, Julia Barrard, Sadye Garrard, Lillie Hintz, Mary Belle Hattie, Florence Jackson, Ida Mitchell, Kettle Putnam, Opal Shaver, Margaret Price, Lucille Tancred, Geneva Wisdom; Mesdames Frank Shackelford, Glen Berry, P. S. Richardson, O. B. Manross, Evans and Mrs. C. R. Hartsock, the class teacher.

## Y. W. C. A. TO SERVE TEA THIS AFTERNOON

This afternoon will see the introduction of the Sunday Afternoon Blue Triangle Tea, which will be made a regular fall and winter event at the Y. W. C. A. recreation room, 614 Ohio avenue. Miss Ruth Clark, recreation

secretary for Wichita Falls, with the recreation committee, of which Mrs. Stonewall Brown is chairman, has made plans for numerous informal social affairs at the recreation room, and this informal tea this afternoon is the commencement of this social program. Tea and wafers will be served and an informal short musical program carried out. All girls and young women are invited to come and bring their friends. The hours are from 3:00 to 5:00 p. m. There will be no charge.

## NOTICE TO WOODMEN CIRCLE NO. 1087

All members of Circle No. 1087 are urged to be present Wednesday afternoon at 2:30, at the new hall, 603 Scott. Special business will be attended to and refreshments served.

## MISS GROUND HOSTESS TO FRIENDS TUESDAY

On Tuesday evening Miss Balsora Groun entertained a number of friends at her home, 2110 Taylor. Music, forty-two and numerous other games formed the diversion and refreshments were served. Those enjoying Miss Groun's hospitality were: Misses Allen, Amanda Hood, Margie Palmer, Nina Carrington, Minnie Allen, Virginia Bishop; Sergeant and Mrs. Dewey Allen, Sergeant Elmer Eblrey of Call Field, Messrs. Halford, Muller, Herring, Fussell, Sikes, Harris, Conroy and Perring.

## WESLEY GIRLS MEET FRIDAY AFTERNOON

The Wesley Girls were entertained in social session Friday afternoon in the parlors of the M. E. Church South. Mrs. Walsh and Mrs. White being hostesses. The afternoon was spent in the accustomed manner and a dainty refreshment course was served.

The business session was occupied with plans for "Homeing Day" Sunday, September 21, when the Wesley Girls will be in charge of the morning program of the church.

The members were: Mesdames Burt, Wallace, Ballington, Trawes, Drake, Campbell, Bauch, Stevens, Tanner, Barnes, Crowell and the hostesses.

The next meeting will be held with Mrs. W. J. Burt, 1308 Polk.

## UNITY CLUB TO HOLD FIRST MEETING OCT. 3

On Friday, October 3, the first meeting of the Unity Club for the new club year will be held at the home of Mrs. H. C. Groun. The Unity Club is to study Shakespeare's "Hamlet" and "Twelfth Night" this year, and will supplement these classics with current topics. The year books contain very interesting study material and the members are looking forward to a most interesting and profitable year.

## RECEPTION FOR SCHOOL TEACHERS ON WEDNESDAY

Wednesday, September 24, between the hours of 3 and 5 p. m., a reception will be given at the Y. W. C. A. Recreation room, honoring the Wichita Falls public school teachers. The teachers will be the guests of honor and the Y. W. C. A. board and the school board are cordially invited to attend.

## MRS. J. W. CULBERTSON AND SON RETURN

Mrs. J. W. Culbertson and son, Wiley, have returned from Pennsylvania points where they spent the summer. Mrs. Culbertson was accompanied home by her cousin, Miss Priscilla Albina of Grove City, Pa., who will be her guest this winter.

## DANCE FOR DEPARTING STUDENTS LAST MONDAY

Wichita Falls girls and boys leaving for college enjoyed a delightful dinner dance on Monday night, held at the St. James Hotel. The affair, which was one of the most pleasant

**MUSICIANS CLUB TO BEGIN WORK OCT. 9**

The Musicians Club, which is to study Contemporary American composers and their works this winter, will resume meetings on October 9, when Mrs. B. T. Ashmore will be the leader, and the club will study Chapter 1 of Elson's National Music of America and its Sources. The club will study as its principal text books Hughes' Contemporary American Composers and Elson's National Music of America and its Sources, and will use these in carrying out the program planned by Mrs. S. Robertson, chairman of the club's year book and program committee.

Six open meetings are planned for the club year, and the music loving public will be invited to these meetings. These programs will feature the works of American composers. The program, a Christmas, a Macbeth, (Edgar S. Kelly), arranged for four hands, Messiaen's L. T. Burris, C. J. Templeton, H. M. Bell, and F. R. Gollard, Violin Sonata with piano accompaniment, (H. W. Loomis), Mrs. Bruce Greenwood and Miss Florence Saunsons. Duet, "O That We Were Maying," (E. Nevin), Miss Bessie Lee Bartlett and Mrs. F. C. Barron. Piano, Impromptu, (Henry Schoenfeld), Mrs. Bessie Lee Bartlett. Piano duet, "Plantation Dances," (Maurice Arnold), Miss Lois Brothers and Mrs. J. L. Arnold. Vocal solo, "My Days Have Been So Wonderful," Free, (F. Hopkinson), Mrs. F. C. Barron.

**DANCE AT THE LAKE WEDNESDAY EVENING**

Wednesday night is dance night at Lake Wichita for the younger set, and this past week's affair was unusually pleasant and unusually well attended. The Katz Orchestra supplied the music, and there were about 25 couples present.

**RETURN FROM SUMMER TRIP TO CALIFORNIA**

Mr. and Mrs. St. Clair Sherrod and family have returned from California and are now making their preparations to return to that state for the winter. They will probably join the Wichita Falls colony at Long Beach this winter.

**B. W. A. TO MEET MONDAY AFTERNOON**

The Baptist Woman's Alliance will meet Monday afternoon at 4 o'clock for the regular mission study. Mrs. A. C. Bennett will be the leader and the subject will be "The Social Problem in the States."

**B. Y. P. U. PROGRAM FOR THIS EVENING**

Miss Katherine Raney will lead the B. Y. P. U. service at the First Baptist Church this evening at 7:30. All young people of the church are cordially invited to attend. The following program will be given:

**METHODIST BIBLE STUDY CLASS TO MEET MONDAY**

Monday afternoon the Bible Study Class of the M. E. Church, South, will meet in regular session at 3:00 o'clock. The study of the Book of Ezra will be begun. A large attendance is urged, as there will be special business to consider.

**NOTICE TO LOCAL TEAM OF REBEKAHS**

Owing to the bad weather Saturday the meeting of the initiatory team was postponed, and a meeting is called for Monday at 2:00 o'clock in the I. O. O. F. Hall in the Swartz Wood building. It is very important that this meeting be attended by the full team, the leader announces, because the team will be needed for initiation work Monday night.

**Social Brevities.**

Mr. and Mrs. T. P. Adams and two daughters have returned from an extended summer trip through California and Pacific coast points. Misses Josephine Mayfield and Cecilia Adickes are leaving tonight for Nashville, Tenn., where they will enter school at Ward Belmont.

**MRS. FAIN AND DAUGHTER HOME FROM COLORADO**

Mrs. J. G. Fain and daughter, Miss Lillian, have returned from Colorado Springs, where they have spent the summer months. They will be at home for the present at 1905 Elizabeth, with Mr. and Mrs. Livingston Fain.

**RECITAL FRIDAY EVENING AT PRESBYTERIAN CHURCH**

Extremely artistic with every number a genuine delight, the concert given Friday night at the First Presbyterian Church by Miss Berenice Jackson, violinist, assisted by Miss Vesta Hastings, pianist, and accompanied by Mrs. B. M. Bell, was heard by an appreciative audience which was very large, despite the inclement weather. For the majority of the audience this was the first time they had been privileged to hear Miss Jackson in some time, and they found her seasons of study under Signor

Trindell had added to the natural talent and genuine artistry that had marked her playing in the early days of her music study, and feeling of appreciation of the beauty of the music was shown in the storm of applause.

The work of Miss Vesta Hastings, violinist, was also a marvelous revelation to those of the audience who had not heard this comparative newcomer to Wichita Falls music circles, and comments on her performance were highly praiseful and enthusiastic.

Mrs. B. M. Bell was a graceful accompanist to her sister, Miss Jackson, and her's was no small part of the delightful program. Miss Jackson, the daughter of Mr. and Mrs. J. L. Jackson, has been considered one of the most talented musicians of this city and its concensus of opinion in her home town has been seconded by her instructors at the Cincinnati Conservatory of Music and by authorities who have heard her play. She will leave in a short time for New York City to continue her studies under Signor Trindell, and will also study with Sam Franko, Her musical career will be followed with interest by many friends.

Miss Hastings is the daughter of Mr. and Mrs. C. D. Hastings. Last winter, was spent in New York City under Friedheim, and her study this season will be with the same master. A brilliant concert career is forecast

for the young pianist, if she so desires, by critics who watched her work in New York last winter, and her appearances on local programs have been received with enthusiasm.

- Friday night's program follows:
- Concerto, E Minor (First Movement) Miss Jackson
  - Mendelssohn
  - Evening Harmonies.....List
  - Scherzo, B Flat Minor.....Chopin
  - Romance.....Nachez
  - Joy With Sorrow.....Trendell
  - Spanish Dance.....Sarasate
  - Miss Jackson
  - Ballade No. 2.....List
  - Miss Hastings
  - Ballade et Polonaise.....Vientemps
  - Miss Jackson
  - Accompanist: Mrs. B. M. Bell.

**LOCAL SHORTAGE OF COAL IS ANTICIPATED**

Prospects for a hard winter are in store for Wichita Falls tent dwellers, due to a shortage of coal which will probably be even more acute than the shortage in prospect over the nation according to local coal dealers. Transportation difficulties, in addition to the general shortage of coal, is responsible for the small supply of coal at present on hand here, and prospects of an even smaller margin of supply.

**EXPECT TO BEGIN CHARTER REVISION DURING THE WEEK**

With the arrival of Judge R. E. Huff, who was expected this morning, the personnel of the committee which is to draw up the new charter will practically all be in the city and it is expected that this work will be taken up again at an early date and rapidly pushed to completion. The desire on the part of the people of the city for an early presentation of a new charter has been indicated on several occasions in the course of discussions at meetings of the Chamber of Commerce, and Wichita and Rotary clubs. The appreciation on the part of members of the committee of the gravity of this question has been reflected in their remarks on these occasions, and it has been pushed that the work would be pushed as soon as the committee could come together again. Several of the members of the char-

ter committee are known to favor a commission form of government, as well as believing that the affairs of the city have grown to such importance as to require the services of a very able man who would give his whole time to the city in the capacity of city manager. While there was a considerable fight over this form of government at the time of the adoption of the present charter, those favoring this form of government do not anticipate a repetition of the fight, believing that those who opposed this question before now believe the growth of the city has been such and its affairs assumed such importance as to require such a system of government.

It is with a feeling of pride, mingled with gratitude to its thousands of patrons, that the National Bank of Commerce points to its growth in deposits of 600 per cent in the last year. The lawn social which was arranged for by the ladies of the Catholic Church was postponed on account of the weather, to Tuesday night, Sept. 23. You are invited to attend. 114-3tp. List your city property with Payne & Winfrey, room 9, old postoffice building, telephone 2027. 112-3tc. Have you a farm or ranch to sell? Call 2027. Payne & Winfrey. 114-1tc

**RE-ENTER BUSINESS AFTER TWO YEARS IN THE SERVICE**

Back to business, after two years absence while in the service, Henry Hund and Joe E. Zihlman are again ready to serve automobile owners at their new stand, Tenth and Scott, in the Priddy building just completed. The business will be conducted under the old name, Hund-Zihlman Auto Supply, and a complete line of automobile accessories will be carried. A gasoline station will also be maintained. The Hund-Zihlman Auto Supply Phone 2057. Payne & Winfrey. 112-3tc

will also make a specialty of free road service to stranded automobiles. Cars out of gasoline, with a flat tire, and so forth, have only to call the Hund-Zihlman number, they say, and their trouble shooter will be on the scene as soon as possible with the necessary supplies, and with charge only for the articles purchased.

The lawn social which was arranged for by the ladies of the Catholic Church was postponed on account of the weather, to Tuesday night, Sept. 23. You are invited to attend. 114-3tp. What have you to sell in real estate? Call 2027. Payne & Winfrey. 112-3tc

**Ultra Modish Apparel For Fall and Winter**

*Introducing a wonderful ensemble of the most favored Parisian and American creations to appear for Autumn wear*

No doubt you have been wondering for some time past what the new styles are like for the coming season and, if you have, this display will present you with the opportunity to become thoroughly acquainted with them.

Certainly they are from every point of view the prettiest styles we have ever had the pleasure of presenting to you for inspection. This you will admit, we know, once you see them and note the subtle beauty and witchery which they display in their straight and slender lines.

The Displays comprise  
Suits, Coats, Furs, Dresses, Waists  
Skirts and Millinery

We here extend a cordial invitation to you to pay this showing a visit.

EXCLUSIVE STYLES

**LEMON JUICE FOR FRECKLES**

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very low cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes, it is harmless and never irritates.

### WOOD BLOCK PAVING TO BE TREATED WITH SPECIAL ROAD OIL

Wood block paving is to be treated with the special road oil ordered by the city authorities some weeks ago, and the arrival of which is now expected at any time, to prevent the swelling after rains, it was announced Saturday by Mayor Marlow. The oil has been tried out on Eighth street, and has resisted the recent rains so well that the city authorities are convinced that its application to the paving blocks will prevent the swelling which has followed every rain during the several years since this paving was laid.

This special oil is also to be used on the residence streets in place of the oil secured locally. It is obtained in the refining of oils with a heavy asphalt base, having proved altogether superior for road and street purposes to the paraffine base oil residues used principally in oiling the streets heretofore. The arrival of a consignment of this oil is expected by the city authorities in the immediate future. Its application to the wood block paving will be deferred until they are thoroughly dried out from the present rains.

### ABERNATHY TO MANAGE THE ROOSEVELT MEMORIAL FUND CAMPAIGN IN THE COUNTY

John R. Abernathy, who was formerly United States marshal in the Western District of Oklahoma, and a former Rough Rider and personal friend of the late Colonel Roosevelt, has been appointed manager of the Wichita County campaign for raising funds for the Roosevelt Memorial, it was announced Saturday by O. P. Maricle, campaign manager for this district.

Mr. Abernathy became nationally known at the time of an Oklahoma hunting trip of Col. Roosevelt during his last term as president through his feat of catching and killing wolves with his bare hands.

Mr. Maricle is rapidly lining up his campaign managers and committees in the other counties in his district, and expects to be in readiness to begin an active campaign in the near future.

### MRS. LIVINGSTON FAIN HAS RETURNED TO CITY FROM CORPUS CHRISTI

Mrs. Livingston Fain returned Saturday from Corpus Christi, where she and her mother, Mrs. J. M. Bell, and sister and husband, Mr. J. M. Bell, and brother, Joe Bailey Hill, were staying when the storm struck. The remainder of the party are still in Fort Worth, both Mrs. Bell and Mrs. Clifford being in a nervous, worn-out condition. Mrs. Bell was ill in bed when the storm came, and her condition since that time has not improved her condition.

Miss Anna Bell Ferguson will open her kindergarden and primary school Monday, September 22nd at Floral Heights Baptist Church by the play grounds.

Times Job Printing Company For Good Service. Phone 2178. D. Egan & Vinson.

### ICE DRIVERS QUIT AND THE DELIVERY SERVICE SUFFERS

If you ice isn't delivered today, if you have no cooling refreshment at your home and if things misbehave in the refrigerator do not keep, do not blame it on a strike.

The ice wagon drivers have not struck. They simply have quit their jobs, or rather, so many of them have quit their jobs that your home may be among those missed on the next delivery, for the Peoples Ice Company stated last afternoon that the delivery service was crippled.

About 30 ice wagon drivers and helpers are employed here. Just nine of them were working when a reporter phoned. The others had become dissatisfied with their jobs and taken French leave.

"The men made no demands for higher pay, shorter hours or anything else," said Morris Marcus, of the Peoples company. "It has been very difficult to keep men. We pay them \$5 a day, but they quit every few days. Why, in two days we have had six drivers on one certain wagon."

"The mud and disagreeable weather is partly to blame, but the chief cause seems to be that the men do not want to work."

The "ice season" is nearly over. About five wagons can care for the city in winter.

Sometimes ago the Wichita Ice company gave up hope of keeping men and ceased delivering ice.

### HAVE ORGANIZATION FOR SALVATION ARMY HOME SERVICE DRIVE

Complete organization for the Salvation Army Home Service drive, with the exception of working committees to be organized later, is announced from campaign headquarters as follows: H. F. Johnson, county chairman; Miss M. R. Kerr, executive secretary; W. L. Robertson, treasurer; Publicity Committee: John Naylor and John Gould; Advisory Committee: J. A. Kemp, chairman, J. E. Bridwell, C. R. Hartsock, J. M. McFall, T. E. Smock, Ensign E. E. Thorburg, C. W. Reid, C. E. McCutcheon, R. S. Nixon, W. R. Ferguson, G. W. Snider; Speakers Bureau: Fred Weeks, chairman; Transportation Committee: Hubert Harrison, chairman.

Campaign headquarters have been opened in the Chamber of Commerce rooms, with Miss Kerr in charge.

Working committees will be organized at the organization dinner at the Salvation Army citadel Tuesday evening.

In addition to the general working committees, committees to co-operate in the drive have been appointed by the Elks, Wichita and Rotary clubs.

The National Bank of Commerce, by reason of its officers' broad knowledge of the oil industry, is especially fitted to furnish satisfactory banking service to those engaged in the oil business in this district.

Christian Science Society. Lodge hall Perkins-Snyder building, corner of Eighth and Scott. Morning service 11 a. m. Sunday School 9:45 a. m. Subject "Matter."

The public is cordially invited to attend these services. All children up to the age of 30 years are welcome to Sunday School.

List your city property with Payne & Winfrey, room 9, old postoffice building, telephone 2027. 112-31c

JEWISH NEW YEAR WILL BE CELEBRATED WEDNESDAY EVENING

SERVICE WILL BE CONTINUED ON THURSDAY BY LOCAL CONGREGATION.

DR. GOLDBERG IS COMING

Council of Jewish Women Make Arrangement for Services.

Wednesday evening at eight o'clock the first of the services celebrating the Jewish New Year or Rosh Hashanah will be held. Dr. David Goldsbach, formerly of Corsicana, now in the U. S. Service, soon to be discharged, will conduct the services. The services will be held in the First Presbyterian Church, corner of Tenth and Huff, the church edifice being offered to the Jewish congregation for the New Year and other services which precede the Day of Atonement, the holiest and most sacred in the Jewish calendar. The Jewish congregation at present having no church home, the Wednesday services commemorate New Year's Eve and at ten o'clock the following morning services will again be conducted by Dr. Goldsbach, who will be here for the ten days. The program of services for the ten days attend the Day of Atonement will be announced on Dr. Goldsbach's arrival, which is set for tomorrow.

On Tuesday evening Mr. and Mrs. Leo Markowitz will receive in honor of Dr. Goldsbach at their home, 2308 Tenth street, and all Jewish families are cordially invited and expected to attend the rabbi's reception. Dr. Goldsbach is acquainted with Dr. Goldsbach before the services begin. The rabbi will be entertained during his stay in Wichita Falls at the home of Mr. and Mrs. Louis Pink.

Mrs. Pink, president of the council of Jewish Women, which made the arrangements for the services and secured the rabbi for this time, states that the executive board of the council and of the men's organization as well as all Jewish families, especially the newcomers, are invited to attend the services. The public is also cordially invited to attend any of the services. The holiday season which all Jews, orthodox and reform, are celebrating beginning Wednesday is one of the most important on the calendar. New York, or Rosh Hashanah, ushering in the new year, is celebrated at sunset Wednesday evening, September 24, and ends at sunset the following day. Orthodox Jews, however, observe two days of observance.

The festival is distinguished by the blowing of the shofar or ram's horn. In addition to its joyous and optimistic character, it is one of great solemnity and sacredness. On Rosh Hashanah the worshippers recall to mind the misdeeds of the past year with a view to concentrating themselves to a nobler life during the year to come. The religious service which marks the observance of the holy day emphasizes that the door to improvement and betterment is constantly open.

The New Year is the beginning of the most sacred of the Jewish holiday seasons. It is the first of the Ten Days of Penitence, which terminate at the Day of Atonement, the holiest and most sacred day in the Jewish calendar. A few days after the Day of Atonement, the Feast of Succoth or Tabernacles is celebrated during a period of eight days, in commemoration of the ancient Palestinian harvest festival and of the wanderings of the Israelites through the wilderness.

FEAR WATER SUPPLY MAY BE IMPAIRED. CORPUS CHRISTI, TEX., Sept. 20.—Fear that the water supply of Corpus Christi might be impaired was expressed today when it was reported a rise of ten to twenty feet was coming down the Nueces river, from which the water supply is obtained, about twelve miles from here.

The location of the National Bank of Commerce—made it a very convenient depository, and this convenience is supplemented by broad facilities, absolute security and helpful, friendly service. 114-11c

WEATHER FORECAST FOR COMING WEEK. WASHINGTON, Sept. 20.—Weather predictions for the week beginning Monday are: West Gulf states occasional showers during the week, nearly normal temperatures.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

New York Cotton. NEW YORK, Sept. 20.—Early declines in the cotton market reflected nervousness over unsettled labor conditions but were followed by rallies on the continued bullish average spot and futures. Close: September sold up from 20.75 to 20.12 and closed at 20.07, with the general list closing strong at a net advance of 2 to 10 points. The market opened at a decline of 6 to 10 points and sold about 18 to 20 points net lower during the early trading with October touching 20.50 and January 20.32. Rumors that some eleven-hour plan would be devised for averting trouble in the steel trade may have promoted covering later in the morning when October sold up to 20.82 and January to 20.13, or about 6 to 12 points above last night's closing figures. Except for the early market there was very little selling for Southern account during the morning. There was a moderate demand for October from houses with Liverpool connections. Cotton yarns were reported easy but sales of print cloth in the early market showed a slight increase over last week with prices generally sustained. A steady demand for the Fall share of the crop at 10.25,000 bales and claims that a 75 per cent of the farmers will hold for a price of 30 cents.

New Orleans Cotton. NEW ORLEANS, Sept. 20.—During the greater part of the morning the cotton market sold at moderate declines as a result of liquidation of long interest on the part of traders who did not wish to carry their contracts over the events of Monday in the steel industry. For a while offerings were plentiful. The market fell off under them until it stood 22 to 28 points under the close of yesterday, October trading down to 23.10. From the middle of the session on a steadier tone was displayed, offerings were scarce and the market rallied to such that toward the end the strongest months were 2 to 3 points higher than the last prices of yesterday. The market was unchanged to 5 points up, compared with yesterday's final quotations. There was a moderate demand for the week's crop and the market was dry and seasonably warm. Texas accounts attracted most attention for the week, but the market was still being felt over wide areas.

NEW YORK STOCKS.

NEW YORK, Sept. 20.—The approaching steel strike was again the main factor of importance in the stock market today, many prominent issues recording lowest quotations of the week, with irregular recoveries at the close. United States Steel yielded slightly more than a point at its worst, but rallied to 40. The market for other shares moved much the same, but motors and their subsidiaries were inclined to weaken. There were a few features of comparative strength, notably tobacco. Elsewhere, including transportation, declines of 1 to 2 points were partly relieved, the rally being attributed more to short covering than actual buying. Total sales amounted to 20,000 shares. Bonds were steady but featureless. Liberty issues again supplied most of the activity. Total sales per value, aggregated \$8,500,000. Old United States four per cent was 104, and new four per cent was 103. The market was unchanged.

ARREST THIRD OF A TRIO OF BANK ROBBERS

KANSAS CITY, MO., Sept. 20.—Walter Majors, declared to be the third man of a trio of bank robbers, wanted for extensive operations in Kansas this summer, was arrested in St. Louis today and will be brought at once to Kansas City to answer to a charge of murder in connection with the death of Frank Gardner here two weeks ago, according to a statement tonight by John J. Phelan, chief of detectives.

ALLIED SUPERIOR COUNCIL HAS SESSION AT BRUSSELS

BRUSSELS, Sept. 20.—The Allied superior economic council met here this morning. M. Jaspar, Belgian minister of commercial affairs, presiding. The first subject to be considered was the plan for organization of a permanent economic committee. The council also took up the question of the European coal supply especially the situation in Austria and the division of tonnage. The Danube question and the subject of customs duty imposed by Germany on products passing over the right bank of the Rhine were considered. Statistic were introduced showing the amounts of raw materials and products possessed by certain of the Allied countries, which should be reserved for other countries in need of them, as well as figures on the amount of raw materials Germany has available for exchange with the Allies (or finished products). The final question considered was that of supplying the needs of Rumania. Several memoranda concerning this were approved.

GOVERNOR BROUGH IS TO RETIRE AT END OF TERM

LITTLE ROCK, ARK., Sept. 20.—Governor Charles H. Brough today announced that he had accepted an offer to become publicity director for the Arkansas chamber of commerce, which soon is to be organized. He will assume this position as soon as his term expires, January 1, 1921. He will receive a salary of \$10,000 a year. The governor announced his withdrawal from the race for United States senator to succeed Senator William F. Kirby, and said that he is through with politics. The governorship is the only office ever sought by Dr. Brough, who at the time of his election was professor of political economy in the University of Arkansas.

PEACE CONFERENCE HAS LITTLE WORK AVAILABLE

PARIS, Sept. 19.—With the delivery today of the peace treaty to the Bulgarians, who have 25 days to consider it and make reply, the peace conference has little remaining business before it which can be taken up immediately and will now mark time and possibly take a vacation for a night pending the establishment of some government at Budapest to which the Hungarian treaty can be delivered.

The location of the National Bank of Commerce—one block from the post office—makes it a very convenient depository, and this convenience is supplemented by broad facilities, absolute security and helpful, friendly service. 114-11c

MESSANGER BOYS HAVE DISAPPEARED WITH BONDS TO VALUE OF A MILLION

NEW YORK, Sept. 20.—Trusted messenger boys in the financial district have disappeared with nearly \$1,000,000 in negotiable bonds and other securities in the last six months, according to an estimate made here today. In addition to other thefts totaling \$750,000 since last March, one messenger who disappeared with \$178,000 in bonds, was murdered in Milford, Conn., and no trace of the bonds or the youth's slayers has been found. The latest loss reported was charged to Leo Jufolsky, a 20 year old messenger who disappeared yesterday with \$141,000 in Liberty bonds which he was to deliver for a brokerage house.

PETROGRAD HAS MANY DEATHS FROM CHOLERA

WASHINGTON, Sept. 20.—Swedish press reports from Petrograd by way of Helsingfors today say deaths at Petrograd from cholera and dysentery have risen to 200 to 300 a day. Sanitary conditions are reported intolerable and many of the hospitals have closed for scarcity of food and medicine. The National Bank of Commerce, by reason of its officers' broad knowledge of the oil industry, is especially fitted to furnish satisfactory banking services to those engaged in the oil business in this district. 114-11c

## CHEVROLET WINNER OF AUTOMOBILE RACE AT SHEEPSHEAD BAY

NEW YORK, Sept. 20.—Gaston Chevrolet won the 150 mile automobile race at Sheepshead Bay today. He led nearly all the way with his brother, Louis, running second until the 110th mile when an accident put him out of the contest.

The time for the distance, 1 hour 24 minutes, 24.15 seconds, is a new American record. The former record was 1 hour 26 minutes 14.91 seconds, made by Ralph Mulford at Chicago, June 16, 1917.

Joe Boyer finished second, in 1 hour 24 minutes 43.35 seconds, while Ralph Mulford was third, with time of 1 hour 24 minutes and 46 seconds.

Louis Chevrolet won the ten mile race prior to the start of the main event. It was decided in three heats.

In the final lap of the third heat, Ralph Mulford and his mechanic, James Lee, had a narrow escape from serious injury when their car shot up the embankment after a tire had broken. The two front wheels hung over the top for a moment, but the men regained control and backed the machine safely to the center of the track. The accident happened at the 10th mile on account of a broken crank case.

The Chevrolet brothers and Mulford took the lead at 50 miles and Mulford got into third place and Art Klein fourth at 100 but four miles behind the two leaders. The time, 5:05.45 was 49 seconds slower than Mulford's track record, made July 4.

Thirteen cars started in the 150 mile event. Dave Lewis, after leading from the second mile, dropped out at the 12th, with a cracked cylinder.

At the 20th mile, Gaston and Louis Chevrolet led, as named, with Art Klein third. At this point, Ralph Mulford was in last place, two miles behind. Bennett Hill withdrew at the 10th mile on account of a broken crank case.

The Chevrolet brothers and Mulford took the lead at 50 miles and Mulford got into third place and Art Klein fourth at 100 but four miles behind the two leaders. The time, 5:05.45 was 49 seconds slower than Mulford's track record, made July 4.

## NATIONAL LEAGUE

### CHICAGO WINS DOUBLE FROM BOSTON BRAVES

CHICAGO, Sept. 20.—Chicago took both games of a double header from Boston today by scores of 2 to 1 and 4 to 3 respectively. Deal's home run with a man on gave Chicago the first game. Two rallies in the eighth and ninth innings in which the locals bunched hits gave Chicago the second game. Scores:

First game:  
Boston . . . . .001 000 000—1 4 0  
Chicago . . . . .020 000 002—2 7 2  
Filliamin, Rudolph and Gowdy; Vaughn and Killifer.

Second game:  
Boston . . . . .000 001 002—3 12 2  
Chicago . . . . .000 000 021—4 12 2  
Scott, Rudolph and O'Neill; Gowdy; Martin, Hendrix, Carter and O'Farrell.

### CINCINNATI LOSES TO BROOKLYN DODGERS

CINCINNATI, Sept. 20.—With several of the regulars out of the lineup, the National League champions played careless ball today and were defeated today by Brooklyn, 3 to 2.

The Reds scored two runs in the first inning on a pass to Smith, a long single by Dabbert and two sacrifice flies. After this Mamux was strong, allowing no further scoring. Griffin made three sensational running catches of different files in right field.

Score:  
Brooklyn . . . . .000 011 010—3 5 0  
Cincinnati . . . . .200 000 000—2 5 1  
Mamaux and Miller; Ring, Luque and Allen.

### NEW YORK GIANTS LOSE TO PITTSBURGH

PITTSBURGH, Sept. 20.—New York lost to Pittsburgh here today, 2 to 0. Carlson, on the mound for the Pirates, was very effective, while Ryan, a recruit pitcher, secured from Buffalo pitched for New York and did good work. Score:

New York . . . . .000 000 000—0 4 1  
Pittsburgh . . . . .000 101 000—2 6 0  
Ryan and Smith; Carlson and Schmidt.

Philadelphia at St. Louis, postponed.

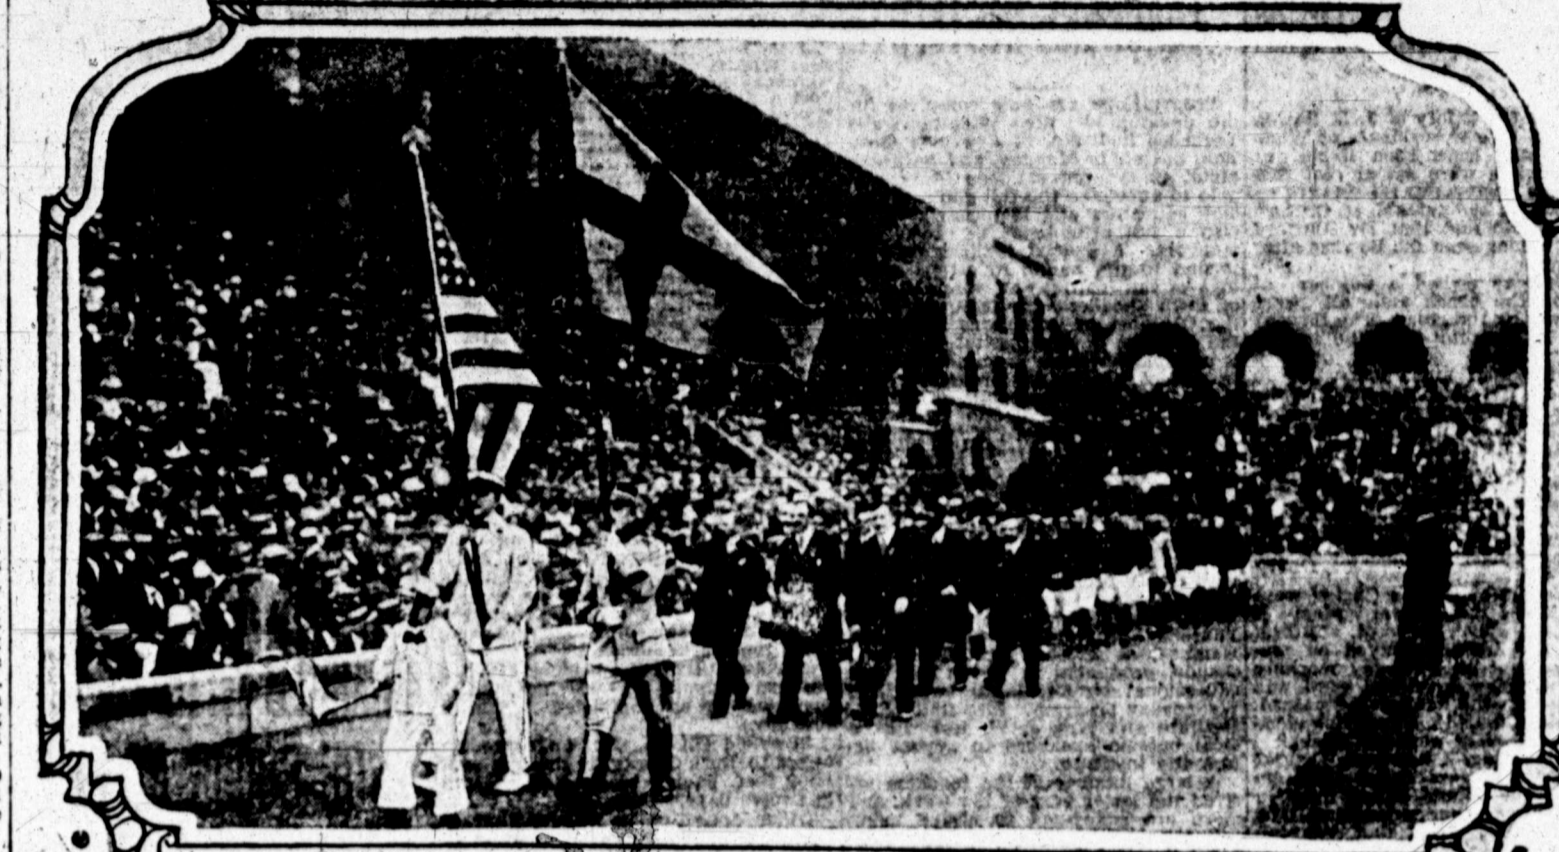

## AMERICAN LEAGUE

### "BABE" RUTH KNOCKS HIS 27th HOME RUN

BOSTON, Sept. 20.—Boston kept Chicago from clinching the American League championship today by taking both games of a double header, 4 to 3 and 5 to 4. It was "Babe" Ruth Day at Fenway Park and the Boston player knocked his 27th home run of the season in the ninth inning of the first game. The ball sailed over the left field fence and Ruth circled the bases with the winning run. A double by Ruth in the fifth inning of the second game helped to work in the winning run. A capacity crowd attended and Ruth was presented with \$500 in treasury saving certificates by the Knights of Columbus. Scores:

First game:  
Chicago . . . . .000 201 000—3 9 0  
Boston . . . . .300 000 001—4 5 1

## YANKEE SOCCER FOOTBALL PLAYERS ARE SHOWING SCANDINAVIANS THEY KNOW THE GAME

IN THE STOCKHOLM STADIUM. PLAYERS OF BETHLEHEM and SWEDISH SOCKER TEAMS PARADING.

Surprising by their excellence of combination play, the Bethlehem Steel Football Club, of Bethlehem, Pa., four-time American champions of soccer football, won two of the first three games of their twelve game schedule in Scandinavia. All three games were played in Olympic Stadium, Stockholm and the attendance for the three games, while not so impressive as that which marked the 1916 visit from the United States Football Association's representative team, aggregated 60,000. The second game was attended, among others, by King Gustave V. and the Swedish Crown Prince.

### WILLIAMS AND SCHALK; RUSSELL RUTH AND SCHANG

Second game:  
Chicago . . . . .000 120 000—4 14 2  
Boston . . . . .002 210 000—5 10 0  
Kerr, Faber and Lynn; Wilkinson; Pennock, Russell and Walters.

### CLEVELAND WINS TWO FROM THE SENATORS

WASHINGTON, Sept. 20.—Cleveland pulled up to within four and one-half games of the league leaders today by administering a double defeat to the local white-chicago lost two games in Boston. Coveloskie kept Washington's hits scattered in the first game and won, 6 to 3. Zachary was knocked out of the box by the visitors in the closing contest while Myers was untriable after the second inning. The score was 3 to 1. Scores:

First game:  
Cleveland . . . . .101 020 002—6 9 2  
Washington . . . . .910 009 020—3 10 2  
Coveloskie and O'Neill; Snyder, Gill and Agnew.

Second game:  
Cleveland . . . . .110 010 000—3 8 2  
Washington . . . . .010 000 000—1 6 2  
Myers and Nuamaker; Zachary, Erickson and Gharitty.

### ATHLETICS AND BROWNS DIVIDE A DOUBLE

PHILADELPHIA, Sept. 20.—Lettfield held the Athletics to four scattered hits in the first game of today's double header, St. Louis ending its losing streak, 4 to 0. The locals batted hard in the second game, winning easily, 7 to 2. Shevlin was hit by a batted ball in each game. Scores:

First game:  
St. Louis . . . . .000 030 010—4 8 1  
Philadelphia . . . . .000 000 000—0 4 2  
Lettfield and Collins; Martin and Perkins; Styles.

Second game:  
St. Louis . . . . .002 000 000—2 9 0  
Philadelphia . . . . .012 011 020—7 15 1  
Bayne, Galita and Billings; Pierson, Naylor and Styles.

### NEW YORK YANKEES DEFEAT THE TIGERS

NEW YORK, Sept. 20.—The New York Yankees made it two straight from Detroit here today, winning the second game of the series, 6 to 2. Scores:

Detroit . . . . .000 110 001—2 10 2  
New York . . . . .010 149 000—6 11 1  
Ehms and Almsmith; Thormahlen and Ruel.

### COMBS IS VICTIM OF ACCIDENTAL SHOOTING

PALESTINE, TEX., Sept. 20.—Jack Combs, former famous baseball player, who was shot in the leg while engaged in a dispute over the right of way on a country road near here last night, sustained a flesh wound and was only slightly hurt. Dan Laro, a road contractor, the other party to the dispute, said today the wounding of Combs was accidental. Combs was driving his car along a narrow road, closely followed by Laro, who, according to Combs, tried to pass him. Combs says he stopped his car when a suitable spot was reached and the quarrel followed. Laro asserted today his gun was accidentally discharged when he struck at Combs as the latter attempted to leave his car.

Both men expressed regret over the incident.

### AMERICAN ASSOCIATION

Toledo, 8; Kansas City, 6; St. Paul, 3; Columbus, 1; Indianapolis, 2; Minneapolis, 0. Louisville at Milwaukee, postponed.

### TEXAS LEAGUE

Houston, 2; Waco, 1; Fort Worth, 2; Galveston, 0; Dallas, 0; San Antonio, 0 (10 innings, darkness); Shreveport, 4; Beaumont, 4 (10 innings, darkness).

### JIM BARNES HOLDS GOLF CHAMPIONSHIP

ROSLYN, N. Y., Sept. 20.—Once again Jim Barnes, the Western open titleholder, is champion of the Professional Golfers' association, for in the final round of the tourney here today, the tall Briton defeated Fred McLeod, erstwhile national champion, 6 up and 5 to play.

### THOMPSON WINNER AT PERSHING FIELD

NEW YORK, Sept. 20.—S. Harron Thompson of Los Angeles, a Princeton University student, won the all-around championship of the Amateur Athletic Union at Pershing Field, Jersey City, today, scoring 6,133.4 points in the 10 events. Six men competed.

## JOE PATE TAKES THE TURKEY FOR HIGH GUN SCORE

Joe Pate curled off the turkey ofered as a prize for the high gunner of the Gun Club's weekly shoot, held Friday afternoon, breaking 45 out of a possible 50. Shickel was his closest competitor, scoring 45 hits, with Gotcher and Gallagher following with 14 and 43 respectively. The combined scores follow:

Pate 46; Gallagher 42; Wilfong 39; Barlow 38; Woods 42; Nallo 41; Gotcher 44; Adrain 40; Hapburn 37; Shickel 45; Brower 42; Holbrook 45; 16.

### TULSA WINS GAME IN TROPHY SERIES

ST. JOSEPH, MO., Sept. 20.—Tulsa hit Williams for 12 well bunched hits today and defeated 27. Joseph was the first game of the great end of the Murphy trophy series, making it three games out of four for the champions. Shickel held the lead, 4 to 0, but Tulsa was a master of the game throughout. Score by innings:

Tulsa . . . . .000 000—5 13 0  
St. Joseph . . . . .0 0 0 0 0—0 4 1  
Shickel and Schmidt; Williams and Shickel.

### JIMMY KILBANE WINS OVER EDDIE MORGAN

PHILADELPHIA, Sept. 20.—Johnny Kilbane, world's featherweight champion, defeated Eddie Morgan of Philadelphia in a six-round bout at the Philadelphia arena today. Kilbane was at his best in the third round when he dropped Morgan twice for the count. Morgan came down in the fourth and kept Kilbane waiting a fast pace.

### WILL TRY TO LOWER 1,000 YARD RECORD

NEW YORK, Sept. 20.—The day's national mile champion and record holder of the Illinois A. C. will try to lower Mel in Shonard's 100 yard record in a special race this afternoon at Pershing stadium. Jerry Hoge, 20 events will be one of the favorites of the National A. A. U. all-around championship meet, in which eight of America's star athletes will compete.

### LEONARD IS WILLING TO MEET TENDLER

NEW YORK, Sept. 20.—Henry Leonard is willing to meet Lew Tendler in a 15 or 20 round bout at 125 pounds, according to Rudy Erbe, manager of the lightweight champion. He says he is ready to guarantee the Philadelphia lightweight \$2,500.

### LYNCH AND MASON FIGHT TO A DRAW

BALTIMORE, Md., Sept. 20.—Joe Lynch, New York featherweight, and Frankie Mason, Port Wayne, Ind., fought a 12-round draw here last night.

GOLF AND TENNIS PROGRAM PLANNED INCLUDING LUNCH

The Golfer and the Tennis Shark. And the swimming Nut. Had finished the set, and the win. Had holed the last long putt. And as he pondered what to do. What next athletic feat? The Golfer had a brilliant thought: "Let's go," he said, "and eat."

You may not care for the verse above; perhaps golf is, to you, merely "cow pasture pool"; tennis may appear an idiotic diversion under a blazing Texas sun, and, perchance, the Australian crawl never was included in your swimming curriculum—but for those many years, and even longer than that, you've undoubtedly had the grand old eating habit. Is it not so? It is. Very well; pass on, then, to the next paragraph.

The Wichita Falls Golf Club on Saturday, September 27, is going to furnish the golf, the tennis, the swimming, the unathletic, or nonathletic as the case may be, spectators, and, also, the eats. "Will be a grand and glorious holiday, with contests of every description, contests for the men and for the ladies, also for the children; games and, and—yes, a grand dance in the evening. Should have worked that dance into the verse up there somehow, certainly should have done so; the metre of tone and toe should have been combined in some such fashion as follows:

Fox trot? No! Don't care to risk it! All right, let's eat another biscuit! But to return to the athletics: Starting at 2:00 p. m., there will be a nine-hole battle against the club links; driving and pitching contests for the men; similar events for the ladies; a tennis tournament; swimming events for the men, the ladies, the boys and the girls—and an "old men's" race. That last should furnish the real thrill of the day, with every contestant 60 years old or more.

There will be prizes galore; cups, silk hose, cigars, golf and tennis clubs, games, golf balls and some more, all donated by merchant members of the club. All arrangements have not been completed, but Fred Couper, secretary of the club, assisted by other members, is working hard to arrange a program that will provide entertainment, rivalry and amusement. Every member of the club who expects to attend the grand "jam-boree" is earnestly urged to notify Mr. Couper not later than September 15, so that arrangements can be made to provide for everyone.

As an added attraction, there will be a fancy swimming and diving exhibition by Forrest Williams, former swimming instructor at the Broadmoor Hotel, Colorado Springs, who is one of the finest swimmers in the West. Mr. Williams is visiting here, and has consented to contribute his "bit" toward making the big holiday interesting.

MISS MIGNON MARTINEAU WEDS ROBERT DAVISON

Mrs. Robert Davison has resigned as supervisor of art in the Wichita Falls public schools. She was a surprise to some to learn that Mrs. Robert Davison was supervisor of art, but she wasn't. It was Miss Mignon Martineau, who has just recently become Mrs. Davison. Mr. Davison was formerly stationed at Call Field. He and his bride will make their home in Seattle, Washington. A new supervisor has not yet been secured. Superintendent Clark states.

The location of the National Bank of Commerce—one block from the post office—makes it a very convenient depository, and this convenience is supplemented by broad facilities, absolute security and helpful, friendly service.

BOWEN FAMILY IS REPORTED TO HAVE ESCAPED THE STORM

Fears for the safety of J. B. Bowen and family, former residents of Wichita Falls who have been living at Corpus Christi, were set at rest Saturday when Postmaster Ed Howard reported that he had seen N. M. Clifford at Fort Worth and that Mr. Clifford reported having seen the Bowens after the storm.

The Bowens owned a number of houses on the beach and all were swept away by the storm. The Bowens escaped by crawling from the roof of the house they occupied onto a neighboring roof and thence to a point where the flood was not so deep. Postmaster Howard who had been in Corpus Christi with Mrs. Howard and their son, Leslie, before the storm left at about nine o'clock a week ago Saturday night for Houston, only a few hours before the storm swept the ill-fated city. The family had intended to remain in Corpus Christi longer, but seeing danger left just before the storm broke.

The people of Corpus Christi were not expecting the storm when it came, said Mr. Howard. "Storm warning had been displayed on previous days but on Saturday morning at about nine o'clock a week ago was given out that the danger had passed. The people who had been staying close to places of safety went out again. At about nine o'clock, however, great schools of flounders came close inshore and the people pulled them in with rakes and other implements. Mr. Howard said and this was regarded as an sign of an approaching storm. That afternoon storm signs increased and Mr. Howard decided that it would be a good idea to get away.

MISTAKE IN MAKING OUT SUMMONS FOR A JURY

Through a mistake in making out summons for jurors in the 78th district court, veniremen were summoned for September 20, which was yesterday, so Judge Scurry was still doubtful last afternoon as to whether or not he will be able to have trials by juries early this week, as it is not known whether the veniremen will appear tomorrow.

Numerous suits were filed yesterday in district court.

Alleging cruelty and abandonment, A. M. Tipps has filed suit for divorce against Mary Tipps.

R. F. Prince in a suit for divorce against Mary Prince alleges cruelty.

Another divorce suit filed was by V. H. Scoville against Ruby Scoville.

B. H. Powell et al have filed suit against L. W. Fritz for \$5,000 damages alleging breach of contract in the sale of an oil lease.

Mrs. M. E. Jaden has filed suit against J. C. Straus et al for damages in the sum of \$6,500 damages over the sale of a lease.

Other suits filed include: T. F. Hunter vs. B. C. Robertson et al, garnishment.

Crude Oil Marketing Co. vs. Sinclair Refining Co. and Kanotex Refining Co., for \$5,000 damages over the sale of gasoline.

F. P. Van Sickle et al vs. E. M. Foster, debt.

John O'Neill vs. Imperial Petroleum Co., debt.

John O'Neill vs. Texas Pipe Line Co., garnishment in Imperial Petroleum Co., suit.

A. J. Chapman vs. Charles W. Dobbs, debt.

Julia Cooper vs. P. C. Cooper, divorce. Plaintiff asks custody of her four minor children.

Misses Clara and Margarite Kave of Fort Worth are guests at the home of their uncle, Judge J. W. Akin.

Saul Lebeson has returned from New York where he has been eight weeks buying his fall supply for Saul's Store.

E. R. Humphrey, manager of the Kell mill at Amarillo, now approaching completion, was a business visitor in Wichita Falls Saturday.

PREPARATIONS ARE COMPLETE TO OPEN TEACHERS INSTITUTE

Preparations are now complete for the opening of the Wichita Falls Teachers Institute, of a week's duration, beginning Monday, and Saturday night. Superintendent Lee Clark was able to announce the full quota of outside educators and lecturers secured, also a full attendance of the city teachers. A special invitation is extended to the public to attend meetings of the institute at which the out-of-town speakers are featured, since the Chamber of Commerce has taken the interest in the institute to make it possible for these prominent figures in school life to be brought before the teachers and the public of Wichita Falls.

B. F. Sisk, author of Sisk's Grammar recognize as at the front of its class of text books, is to speak Tuesday morning. R. F. Holloway of Comanche, prominent school man, will be on the program Tuesday afternoon. M. H. Moore, superintendent of the city schools of Fort Worth, will be on the Wednesday program and J. D. Sanderfer, president of Simmons College, Abilene, will be a feature of the Thursday program. Miss Laura V. Hamner, at present postmistress of Claude, prominent in Texas club and educational circles, is to be on the Wednesday program. Fire Chief as McClure and Mrs. J. W. Lee will be local outside speakers to appear before the institute.

THREE SHARES OF STOCK AUCTIONED FOR FUND TO AID STORM VICTIMS

An auction of three shares of stock sealed in an envelope and offered eight o'clock at the Peoples Stock Exchange Saturday night, resulted in a collection of \$150 for the storm sufferers fund being raised in Wichita Falls. The stock was given by Mr. Ferguson of the Katy offices and was bought at first by Priddy and Williams, officers of the Mona Marie Oil Company, for \$55, and put up again by them for auction. H. Palmer of the Peoples Exchange paid \$40 for the stock the second auction, and then a collection was taken which brought the total to approximately \$150.

One of the principal aims of the management of the National Bank of Commerce is to make the bank's service so complete, so satisfactory in every detail that depositors will become friends as well as customers of the institution.

OIL STOCK QUOTATIONS. PEOPLES STOCK EXCHANGE. Table with columns for stock names and prices.

CONSIDERABLE ACTIVITY IN SOUTH PART OF 813 NEAR THE BURK GEORGE

The L. X. L. Oil Company No. 1 Morgan in the south part of block 813 blew itself in Thursday, oil shooting over the derrick. The well is being sand-bridged preparatory to completion and it is expected that it will be a good producer. Derrick is up for the No. 2, which is located across the road from the Burk-George.

Sheffield Oil Co., No. 1 George, an offset to Burk-George, is drilling past 1,500 feet, having reached this depth in twelve days.

Other activities in this section of the field include Painter, Fenton, et al., rigging up their No. 2. Kenney et al., rigging up on block 6 of the George lease.

BUICK AUTOMOBILE IS STOLEN SATURDAY NIGHT

Theft of a five-passenger Buick Little Six, taken some time between seven and eight o'clock Saturday night from the front of Fell's Confectionery, was reported to the sheriff's department Saturday night by J. R. Monroe. Registration number of the car was 231100.

One of the principal aims of the management of the National Bank of Commerce is to make the bank's service so complete, so satisfactory in every detail that depositors will become friends as well as customers of the institution.

KATY ANNOUNCES NEW APPOINTMENTS AND PROMOTIONS

Five appointments, including a number of promotions, were announced Saturday from the local offices of the Katy. H. G. O'Dell is appointed trainmaster on the Katy for the Wichita Falls district with headquarters at Wichita Falls, and G. C. Byers, formerly chief dispatcher here, is appointed to a similar position on the Northwestern, having headquarters here with jurisdiction from North Wichita Falls to Frederick, Okla., vice J. W. Bell, transferred. T. C. Allen, formerly night chief dispatcher, is promoted chief dispatcher in place of Mr. Byers, and H. H. Moss is promoted to the position of night chief dispatcher, formerly held by Mr. Allen.

TWO ARE ARRESTED CHARGED WITH THEFT OF GOODS AT FIRE

A man and a youth were arrested yesterday at Iowa Park by Deputy Sheriff Morris on a charge of stealing goods piled in front of the Garner store while it was burning early Saturday morning.

A quantity of goods was found hidden in rooms occupied by them, Deputy Sheriff Morris said. Later in the afternoon another youth, who is employed in driving a service car, was arrested in connection with the thefts, but no charge had been lodged against him.

REQUEST THAT HEAVY TRUCKS AVOID USING THE OIL HIGHWAYS

A request that heavy trucks avoid using the diked road to Burkburnett

until the construction parties can put it in proper condition following the rains, is issued by W. M. Priddy, chairman of the central committee in charge of the improvement of that road. "Following this rain is our opportunity of putting the road permanently in good shape," Mr. Priddy said. "To do this, however, we must have co-operation from the hauling contractors by keeping their trucks away from the road until it is dried somewhat and worked over. I hope that the contractors and truckers will see that it is to their own interest to cooperate in this way with the work. Already a number of trucks have gone in the ditch following the rains, and in pulling them out great holes have been dug in the road, necessitating considerable extra work and unnecessary expense."

COLUMBIA ARTISTS IN CONCERT FORT WORTH, SEPTEMBER 24. Personal Appearance of HENRY BURR (Tenor), BILLY MURRAY (Tenor Comedian), ALBERT CAMPBELL (Lyric Tenor), J. H. ### CLIFFORD DEATON TELLS OF STORM IN CORPUS CHRISTI

WITH HIS MOTHER WAS STOPPING AT HARDIN COURT ON BEACH.

### HORRORS PASS DESCRIPTION

Accented as if Entire Gulf Was Pouring in on City as the Storm Raged.

Exaggeration of the horrors of the Corpus Christi storm, and the terrible toll it took in human life is impossible. It is even impossible to adequately describe them. You would have to witness them to understand what the city has gone through with, and the awful suffering and loss of life," said Clifford Deaton, Wichita's young man, who, with his mother, Mrs. J. A. Deaton, 910 Eleventh, was in Corpus Christi at the time the storm broke and who returned here on Saturday after trying for days to get out of the stricken area. Mr. Deaton worked from Sunday night to Thursday night, when it was possible for them to leave the stricken area, with the rescuers and acted as guard for three nights.

### At Hardin Court

"We were at Hardin Court, on the beach," said Mr. Deaton. "When the wind grew high and a storm was feared we asked the Western Union for weather reports, and were informed that we would be safe as only a slight gale was expected. When the water commenced coming it seemed as if the entire Gulf was pouring in. We with other guests at the hotel got out as quickly as we could, two blocks up on Water-st, we took refuge in the second floor of Blake's store. There were sixty-eight who went the night in this room, while the wind raged and the waters came higher and higher, and the building shook with the impact of the heavy debris which the swirling water drove against its sides.

### Brick Garage Helped

"A one-story brick garage was directly behind the building in which we were. Sunday night, and I believe that this is the only thing that saved this building, since it kept some of the debris away from it. Buildings went down on all sides, and when daylight came and we ventured out to find higher ground, we found we had spent the night on the top floor of a shell. Only the two sides were left standing; front and back brick walls and two brick partitions having been washed out.

"There were many thrilling stories related, and more acts of heroism than could possibly be recounted. The sudden peril seemed to breed a spirit of bravery and stoicism, rather than fear and panic. Men attempted what seemed impossible to save their loved ones, and frequently succeeded. At that time there was tragedy and suffering of a depth of which will never be known except to the principals. Rescuing parties would find a little baby, caught under driftwood. Or a mother with a baby clasped tightly to her breast, and the exact circumstances of the death of those who did not return. The burial of the unknown victims, so torn by the waves lashing their bodies against brick walls or piles of wood that recognition was impossible, constituted one of the most heartbreaking features of the catastrophe.

"Many of those who escaped death did so by little less than a miracle, it seemed. The most thrilling rescue that I witnessed was the transfer of seven persons from a two-story brick building by a 40-foot court from Blake's drug store, where we spent the night Sunday. A rope was made of blankets twisted together and this was thrown to a window of the opposite building. The first one to come across was a man, who had his baby

boy tied on his back. He came across, hand over hand, but it was seen that the improvised rope was rather insecure as a ladder, so the next time we tried fastening it securely to the window ledge in our building and throwing it across and dragging the people in. This worked better and the seven people were brought safely across.

### Prayed and Sang

"Some of the sixty-eight people in the upstairs of that drug store prayed or sang through the night. There was no panic, for all seemed assured that they would be saved. However, I do not believe there would have been such a spirit of assurance if we had known just the exact condition of the building which daybreak revealed. "That night and the three days that followed were full of experiences which I sincerely hope I will never encounter again. To see so much human suffering and to be so powerless to prevent it is not pleasant. Mother and I feel that we are fortunate beyond realization to have come out none the worse for our experience, when so many are not even accounted for in a longer list of the dead, but we wish we could blot out every remembrance of the terrible five days."

All the horrors of the reconstruction period now on, which will show fully the extent of the storm and the loss of life, will not be known by the outside now, Mr. Deaton stated as his belief, since the censorship has been inaugurated by those in charge of affairs under martial law.

### The Deatons made the trip to Corpus Christi in Clifford's car, which was completely wrecked, being in a garage at the hotel. The return trip was made by way of Alice to Houston, then on to Wichita Falls.

### I Will Praise It as Long as I Live, Says Wichita Falls Engineer

"As long as I live I will praise Orgatone treatment for what it did for my wife," said J. W. Childress, who is one of the best known railroad engineers going out of Wichita Falls, and whose residence is 108 Elm street, a few days ago.

"When my wife commenced taking Orgatone," continued Mr. Childress, "she was so weak and run down that she could hardly walk across the room. She suffered terribly from gall stones and stomach trouble for several years, and until we got hold of Orgatone, we have never been able to find a medicine or treatment that would do her any good. Her food would sour on her stomach and this would cause gas to form so bad that she could hardly stand on her feet. She suffered from nervousness, too, and rarely ever got a good night's sleep, and until we got hold of Orgatone, she had to spend most of her time in bed.

"We hear so much talk and read so much about the good work the Orgatone treatment was doing right here in Wichita Falls I went to Young's drug store and got her a bottle. Well, sir, the first time she took a bottle she commenced to get better and from that time on just picked up right along, and by the time she had taken four bottles of Orgatone she was feeling better than she had in years. She has a fine appetite and her stomach trouble had been so completely overcome that she can eat just anything she wants and never suffers afterwards. The nervousness has left her, too, and she sleeps just fine every night. In fact, she is enjoying better health now than she has in two years. Yes, sir, that is what Orgatone did for my wife, and that is why I say I will sing its praises the longest day I live. Orgatone is not a so-called patent or secret remedy but a new scientific treatment free from alcohol in any form and is sold in Wichita Falls exclusively by T. F. Young Drug Co., corner Ninth and Indiana, under the personal direction of a special Orgatone representative. (adv.)

### CLASS CHAMBERS OF COMMERCE WITH THE INDUSTRIAL WORKERS

CLEVELAND, O., Sept. 20.—The convention of the United Mine Workers of America today closed the Chamber of Commerce of the United States with the Industrial Workers of the World and other syndicalist organizations as hostile to the cause of organized labor and adopted an amendment to the constitution forbidding members of the United Mine Workers to join any and all such organizations. The amendment carries with it permanent disbarment from office in the miners' organization. President Lewis stated that the intent of the amendment so far as the Chamber of Commerce was concerned, was to bar membership in local chambers of commerce as well as in the national organization.

### Oppose Rockefeller Plan

One of the chief charges brought against the national body was its endorsement of the Rockefeller industrial plan now employed to regulate the relations of employers and miners in certain mines in Colorado against which the United Mine Workers are waging a vigorous opposition. Other constitutional changes adopted were of internal interest although debate on one amendment regarding exemption from dues brought out interesting statements regarding reduction of production and unemployment since the armistice. Delegates who had spoken of mines in which one day a week on an average had been worked were outshouted by a delegate reporting that in his district

miners had worked an average of only one day a month during the nine months since the armistice and had been idle consecutively for two periods of seven and five weeks during that period. Exemption from dues was voted on his motion to miners employed in mines working less than five days each month.

### CHARGED WITH FORGING NAME OF HIS FRIEND TO A CHECK FOR \$50

Charged with forging the name of his friend to a check on the First National bank for \$50, W. V. Ballard was arrested Saturday afternoon by T. J. Fanni, an operative of the Falk National Detective bureau, and lodged in the county jail. Following his arrest he made a written confession to Assistant County Attorney Martin. It is stated. The name of L. Haft, who conducts a rootbeer establishment on Seventh

street, was signed to the check, which was presented at the bank and paid several days ago.

### INVISIBLE GOVERNMENT HAS BLOWN UP DECLARES DEMOCRATIC CHAIRMAN

DALLAS, TEX., Sept. 20.—W. H. Wolfe, chairman of the State Democratic Executive Committee, in referring to the new party movements in Texas, said today: "My information from every part of the State indicates that the new political movements in Texas are getting no where. It seems sure that all true Democrats will be voting at the same old stand next year. When the average Democrat hears barking in the side of the road all he needs to do is to tap up old Beck and Kit and drive on. Just rise right on with the old ship of State, she is headed in the right direction and the couple are in the saddle. The invisible government in Texas has blown up and life is too short to follow dead ducks. That's all."

### SEVERE RAINSTORM IN REAGAN COUNTY

FORT WORTH, TEX., Sept. 20.—News reached here this afternoon of a severe wind and rainstorm last night at Big Lake in Reagan county. The store of R. Theis was blown in and the stock ruined. Four inches of rain fell in two hours.

# Work of Saving Heathens

ONE hundred and five millions of dollars to carry the American idea into all the lands of the earth!

That, in a word, is the definition of a campaign recently put through by the Methodist Episcopal Church, which has called upon the men, women and children of the United States to pledge their moral financial support to carry out the work of the church started 100 years ago.

The campaign to raise the \$105,000,000 fund was made in connection with the celebration of the centenary of the founding of the first mission of the Methodist Episcopal Church.

A hundred years ago the foreign missionary movement of the Methodist Church in America was born. Since then it has spread to all heathen lands and in its wake it has left churches, schools, hospitals, community centers and an awakening in the minds of the people that to live is to live the American way.

When it was determined that the Methodist Episcopal Church, as an after-war move, should make an effort to increase its work in foreign fields, accepted leaders in all walks of life were called into consultation.

"Is the time opportune?" was the question put.

As in all big undertakings, it was deemed necessary that conditions should be ideal or the plan might fail. The war, the greatest of all wars, had just ended and a state of mind existed which never had existed before.

The answer was the same from all. The reason for the answer was the same. America had sent her troops to Europe to save Europe for civilization and now it was necessary for the church to take up the work where America's soldiers had left off. In other words, it was the duty of the church and her allies to make certain the enjoyment of the liberty which the vast armies of America and her allies had made possible for the people.

But it is not only in Europe that the church must prepare the people and open the eyes of the deluded. It must be done in all foreign lands—and this is the goal of the Methodist Episcopal Church.

President Wilson, as head of the greatest of nations, was among those appealed to for advice. The president gave the following response:

"I think it would be a real misfortune, a misfortune of everlasting consequence, if the missionary program for the world should be interrupted. There are many calls for money, but that the work undertaken should be continued at its full force seems to me of capital necessity."

In far-off Africa there is a population of 130,000,000 and an area of 11,000,000 square miles. The African races have 843 varieties of speech. There are the Bantu, the Bushmen, the Hottentots, the Pimy and the negro. And they worship a thousand gods. It is to reach these and other peoples and bring them to the American idea that the Methodists of the United States raised this great fund.

Millions Are Ensnared and Progress Is Smothered.

There is Mohammedanism, which has ensnared millions in Africa in a drab blanket that smothers progress. It teaches fatalism, no atonement for sin, no redemption by sacrifice. It has failed to lift the negro out of ignorance and has made slavery and slave trading religious institutions.

And this is coupled with paganism, that misconception that has its God in dread and fear, not hope and comfort. Paganism calls for human sacrifice, for the burial of the chief's wives with his body, for the slaughter of a slave to carry messages to the dead for the murder of innocent infants whose teeth appear in inauspicious irregularity.

Here are a few of the things the Methodist millions will eradicate from Africa:

Deformed children will not be put to death because they are "omens of ill luck."

Perfectly formed babies will not be buried with their mothers if their mothers fall to come back from "the valley of the shadow."

Twins will not be stuffed into water jars and thrown into the bush because they are "bad luck."

The "medicinal" concoction administered by the witch doctor, and which kills oftener than it cures, will be a thing of history.

Through superstition, disease will not be permitted to continue until it has claimed thousands of victims.

While some American dollars are carrying the American idea into darkest Africa, other American dollars will find their way into the Far East. In China, "the land of need and plenty," the nine men out of every ten who can not read will hear what American civilization means to the world. And the women—only one in a thousand

IGNORANT AND SUPERSTITIOUS MEXICAN BOY

"GOLDEN LILY FEET" IN CHINA ARE NOW ENTIRELY OUT OF STYLE, THOUGH THOUSANDS OF WOMEN AND GIRLS IN THE COUNTRY DON'T KNOW IT

TRANSPORTATION IN KOREA

can read—will not be overlooked.

When one of the first missionaries returned from China and told his story to the wondering public, he said, quoting Abraham Lincoln:

"God must have loved the common people, because he made so many of them." Then he added, "There are 400,000,000 Chinese."

The rivers in China teem with little boats—the homes of hundreds of families who dump refuse into the water. And in the river cities the people drink river water, dipped out with buckets.

Graves are everywhere. In most great centers, to secure ground for any large institution every grave on the site must be bought up. The bones of an ancestor—dead for hundreds of years, perhaps—are carried in a covered jar to some more obscure burying place. The right of the living offspring have been mortgaged for the rites of the dead. But in the new China, the China to be created from the American idea, the unfortunate living will come into their own.

China needs only to be shown the way of the West. Compare the rude plow of these people with the modern tractor. How long would a normal human farmer—be he American or Chinese—continue to use the old plow of a century ago if shown the benefits of the tractor?

The people of China, however, do not cling to the methods of the dead past. They readily adopt improvements. The West is slow to realize that the industrial development of China will be a world move—a great impetus to commerce, industry, enterprise and invention felt by all other nations.

The reactioners of the old school of Chinese medicine agreed with Darwin that only the "fittest" should survive. Some time ago, during an epidemic of diphtheria, sufferers were advised to "use women's toe nails, bamboo pith and bedbugs; grind to a powder and sprinkle the throat."

It is to awaken these people that the Methodist Church has determined to spend millions to take the American idea to China.

And more American money will go to Japan. Here is the reason the Methodist Episcopal Church is working among the people of the Land of

the Cherry Blossom, as one leader put it. It is significant.

The Methodist Church is in Japan because the empire is in need of the religious and spiritual help which the Christian church can give. The church is pledged to do its utmost in spreading to the four corners of the globe the Word of God.

Japan Controls All the Asiatic Peoples.

Japan is the keystone of the arch that is slowly but surely raising itself in the Far East. Her influence in Korea (now part of the empire), China and the rest of Asia is tremendous. She holds the reins among the Asiatic peoples, all of whom are non-Christian. As Japan goes, so will go China during the next century. It is imperative that Methodism relax not a whit, but rather increase her efforts to spread the gospel in Japan.

In Japan the people have no fewer than 8,000,000 gods and goddesses. It is 1,500 years since Buddhism took hold in Japan. Today the religion has decayed until only the ornate trappings remain, Shintoism, the first primitive religion of Japan, still holds its grasp on the people. Shinto has no sacred literature, no ethical code. One has merely to obey the mikado who is a god, and one's own impulses. Shinto is the religion of the majority of the upper classes. To the Japanese patriotism is religion, and that religion is Shinto.

Korea has from time to time been the buffer state between China and Japan. Her people have suffered much. They have been conquered time and again, and in the process they have acquired traits peculiar to their overlords.

At last, however, the race is bursting its age-old, iron-bound stagnation. The spirit of "progress" has breathed into the people, and it is to carry on this march of progress that the Methodist Church has pledged itself to carry into that land the American idea.

Nowhere is the great iniquity of Korean civilization so clearly shown as in the minds of their religious beliefs. The all-around Korean, when in society, is a Confucianist; he is a Buddhist when he philosophizes, and a spirit worshiper when he is in trouble. His religion is one of dragons, devils, eives, imps and goblins, in which the spirits of dead humanity are here and there present; where eternal shades walk about; in which hills, trees and rivers—even diseases—have personalities bearing woes and terrors to all men.

American dollars, however, will not be expended merely in lands that are absolutely foreign to the United States. A large portion of the Methodist Episcopal centenary mission fund will find its way to the Philippines.

There are 8,000,000 people in those islands, guarded by Uncle Sam, with

various and sundry customs and religions and some thirty-two dialects. Uncle Sam has taught them the American idea to some extent and is now considering giving them self-government. Progress and the American brand of civilization must remain after American rule is withdrawn. Hence, the Methodist Church will keep up the good work begun by the United States government.

Gambling is common among women as well as men in the islands, and almost every one smokes. Family cigars as big as your arm are lighted by any member of the household who wants a puff. Children sometimes learn to smoke before they can toddle. Methodist missions now are responsible for the care of no less than 2,500,000 of these people.

Missionary Work Will Be Carried On In New World.

In all the sections of the Old World the American dollars placed in the care of the Methodist Episcopal Church will be used in spreading the American idea. But the work does not end there. In the New World as well as the Old, the Methodist mission is at work teaching the young and the old, bringing to them the word of America, showing them how to live rightly and work for the common good of all.

The work in the New World takes in all of North and South America and

embraces a vast expenditure in the United States.

The work of the church in South America opens the door of opportunity to all enterprising Americans. South America alone can feed the world, and Methodist missionary work there will bring about an understanding.

South America is a potential food factory that can supply more people than were engaged in the great war. With proper development, her fertile plains would produce wheat and meat enough to defy all the submarines and all the wastage in the world.

Argentina alone has more cattle than any other nation except India and the United States. She raises more sheep than any other country except Australia. She leads the world in the sale of chilled meats. Great as is the mineral wealth of the Continent, the wealth of forest and field is greater.

Brazil produces more coffee than the United States can drink, and Peru grows the finest cotton known.

The people of South America ask aid to take the next step. They haven't learned intensive cultivation and the modern short cuts which increase production a hundredfold. The Christian missionary, it is held, is the one of the chosen ones to show South America how to work.

Not so very long ago when South America first asked to be shown, there was trickery and "salesmanship." The confidence of the South

Christian missionary will try to restore confidence in America by presenting the American idea.

The Methodist Episcopal Church has 137 missionary and foreign workers in South America, who have called to their standard 239 native preachers and workers. These few labor among a population of 70,000,000.

Here, in brief, is the program of this organization in South America:

Extension of sympathetic co-operation in the development of her intellectual life.

The offering of a religion as a living force.

Establishment of medical relief and sanitation institutions.

Propaganda for a school and church system which will enable the American better to grasp the American idea.

Not the least of the efforts of the Methodist Episcopal Church will be expended in Mexico, the wealthy, developed, war-ridden republic to the south. In this country 767,055 square miles and a population of 15,112,500 human beings and 180 different dialects, the missionary and foreign worker will double his efforts to bring about a true understanding of American methods. The natural wealth of Mexico includes 26,000,000 barrels of oil a year, 12 per cent of the world's output of lead, 5 per cent of the world's output of silver,

Anderson's

# All Of Next Week A Special Showing Of Dresses

Anderson's

**SILK DRESSES**—Taffetas, Tricolettes, Paulettes, Char-meuse, Satins, Crepe Meteor, Crepe de Chine, in black, navy, taupe, brown, copenhagen, pekin and gray; distinctive new Dresses **\$22.50 to \$150.**

**TRICONTINE COAT DRESSES**—In the Russian blouse effects, vestees of Silk Tricolette in solid and brocades. Some are shown in smart tailored effects, others are trimmed with artistic combinations of braid and embroidery. **\$27.50 to \$100.**

**THE NEW REST ROOM**  
Is a good place to meet your friends. It is for our customers—for you—make us of it.

**PICTORIAL REVIEW PATTERNS**  
For October are ready. The styles you want are always available at our Pattern Department.

COMMITTEE URGES IMPORTANCE OF ADOPTION OF THE AMENDMENT FOR SEPARATING STATE SCHOOLS

DALLAS, Sept. 26.—The executive committee of the organization of citizens from over the State who have in charge the campaign that is being conducted on behalf of the proposed amendment to the constitution separating the university and the Agricultural and Mechanical College today issued an address to the citizens of Texas. The purpose of this statement is to make clear to all the people the importance of adopting the pending amendment. It reads as follows: Statement of Committee. To the Citizens of Texas. The legislature has submitted to the voters of the State an amendment to the constitution, known as House Joint Resolution No. 21, which would determine the constitutional status of the State University and branches, the State Agricultural and Mechanical College and branches, the College of Industrial Arts, the several State normal schools, and the Prairie View Normal and Industrial College for colored youths, and which expresses in explicit terms the authority and the duty of the legislature in providing for the equipment, support and development of those institutions.

Texas, as every other state in the Union, has felt the constantly increasing popular demand for higher education and for specialized instruction. To meet this need of our citizens different education institutions have been established, from time to time to provide vocational training and to give instructions in the arts and sciences. Each of these institutions is independent in organization and management, and each has been let to appeal separately for the support necessary to meet the demands made of it for service to the public.

Increased Attendance. The rapid increase in attendance at the University is expressive of the growth in sentiment among all classes of our citizenship for education in the arts and sciences, pure and applied; the steadily increasing numbers seeking admission to the Agricultural and Mechanical College and its branches and indicative of the fast increasing demand for vocational training in the mechanic arts in the agricultural, animal husbandry and other sciences allied thereto; the extraordinary development that has attended the College of Industrial Arts, teaching the domestic arts and sciences and home economics to the young women of the State, demonstrating the importance in the public estimation of the instruction given by that institution, and the field of endeavor it so efficiently occupies; the notable improvement in character of instruction and training given by our several State normal schools is a distinct proof of the higher standard maintained and of

the popular demand for teachers for our public schools that are better equipped by education and special training for their work; and the improved facilities for the instruction of colored youths and the better results intellectually, morally and industrially attending such efforts at advancement among the colored people, all attest in the most impressive measure the widespread and earnest interest of all classes of our people in the separation of the university and specialized instruction and vocational training.

Institutions Respond. While these State institutions are each responding to the requirements of the people as best they may with the facilities and support available, the intelligent exercise of the powers and responsibilities vested in the legislature for the equipment, maintenance and development of all institutions of higher learning and vocational instruction and training, will lay the foundation of a thoroughly unified plan of educational achievement, not only for a common purpose, without unnecessary duplication, and with increased power for efficiency, and with the spirit of thorough harmony in administration.

The provisions of the present constitution clearly make the Agricultural and Mechanical College a branch of the University, and quite as clearly prohibit the legislature from making any appropriations whatever for construction of permanent buildings for the University. Due to the fact, however, that the Agricultural and Mechanical College, ever since its establishment, has been independent in organization and management, many years ago led to a legislative interpretation of the constitutional provision that would permit appropriations for buildings and equipment for the College, which would deny similar appropriations for the University. With the demands now being made upon these two institutions for facilities for instruction, this legislative limitation of the constitution upon appropriations for needed buildings for the University, and the uncertainty that attends the legislative interpretation and authority to make appropriation for the College, should be promptly removed, and this proposed amendment does remove the restriction upon appropriations for the University or its branches.

The amendment would give the University and Agricultural and Mechanical College complete constitutional independence of each other, and provide for the division of the permanent University endowment fund between the two institutions on the basis of two-thirds to the University and one-third to the College, from which one-third the College will provide for the interest in the endowment of the Prairie View Normal School. This basis of division of the University endowment is a just and logical one, the attendance at and the immediate development of the University and branches of the Agricultural and Mechanical College and branches, increasing their facilities and serviceability to the people of Texas, without additional expense. It would give the State a definite policy for the development of its institutions of higher learning and vocational instruction, creating conditions of harmonious correlation of educational work among them, in place

of conditions calculated to develop activities leading to duplication of effort and to unnecessary expense. The amendment embodies legislation long needed for the equipment of the State to respond to the requirements of its citizens for higher education, and if adopted by the people will soon result in the establishment of facilities equal to those now sought in other large numbers of the young men and women of Texas seek the superior facilities for education in other states that they should find at home, where they may grow up amid the ideals of the people who are to feel the impress of their activities as citizens in the years to come. Every consideration of patriotic desire to have our own state meet the just expectations of its citizens, of wise public policy, and of economy in administration of our educational institutions, justify and call for the support of this constitutional amendment by the voters at the election in November.

Leonard Tillison, Sealy, chairman; Joe Ulay, Dallas, secretary; T. H. Shelby, Tyler; Wm. Elmer, Dallas; C. G. Thomas, Lewisville; Nat M. Washer, San Antonio; J. A. Kemp, Wichita Falls; Judge Neal, Morrilton; W. W. Turney, El Paso; E. W. Kirkpatrick, McKinney; T. S. Henderson, Cameron.—Executive Committee.

EXPERTS PUZZLED OVER WAR'S EFFECT ON U. S. POPULATION

WASHINGTON, Sept. 26.—(United Press.)—Striking changes in the growth and character of the population of the United States are expected to be shown by the 1920 census, preparations for which are under way. The shifting of population, because of the war has upset the calculations of census experts, who since 1917 have considered it useless to attempt to estimate population of any other units than states. Before that it was possible to predict with a fair degree of accuracy the number of persons in any given locality.

The "center of population," it is believed, has stopped its westward movement, which was continuous from 1870 to 1910, when it was located in Bloomington, Ind. This is because industrial cities in the central east, such as Cleveland and Detroit, have been growing at a greatly increased rate during recent years, as have manufacturing centers in the west, notably the Rocky Mountain and Pacific coast states increased in population with twice the rapidity of eastern and southern states.

During this year, however, certain modifications of the unusual situation may be made. The opening of reclamation projects in the west, the resumption of immigration, and other causes, it is thought, will change the abnormal distribution. There will also be a tendency to return to normal now that the war is ended. Pronounced changes are expected also in the "constitution of the population"—the ratio of males to females, the proportions of natives and foreign stock, and the age distribution. When a city experiences a rapid growth due to industrial and commercial activity, the gain is largely made up of persons in the young and early middle ages. Among these persons there will be more men than women. For example, in Oklahoma City, where the population grew nearly 500 per cent between 1900 and 1910, the ratio of males to females in the latter year was 128 to 100, and 62 per cent of the population was between 15 and 45. The coming census is also expected to show a continuation of the more-

ment from the country to the city, which has been going on for many decades. A further decrease in the proportion of negro population is expected. In 1900 negroes numbered 11.6 per cent and in 1910 10.7 per cent. It is expected that the percentage of foreign-born will show a marked decline, due to the discontinuation of immigration. In recent years the native-born population did not increase as rapidly as the foreign-born. Fewer persons will be found, it is predicted, who are unable to speak English. In 1910 this number was 22.8 per cent of the population. The law requires the census bureau to make an actual count every 10 years, and an estimate for cities and states every year by arithmetical progression. Since 1917, however, the bureau has not estimated cities. A calculation was made recently, however. Here it is:

Table with 2 columns: Year (1917, 1919) and various states (Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana). It lists population figures for each state and total for the United States.

LOOKING FOR MESSENGER MISSING WITH \$141,000 WORTH OF LIBERTY BONDS. NEW YORK, Sept. 26.—Lee Julefsky, 17, a messenger was sought today together with \$141,000 in Liberty bonds which disappeared with him yesterday. According to his employers, E. D. Levinson & Company, a Broadway brokerage concern, Julefsky and William Berlin, 18, another messenger, started out to deliver \$450,000 worth of bonds to other concerns. Julefsky it was said, failed to return to his office. A package delivered at the office of Mabon & Company, Wall street, supposed to contain \$300,000 in bonds was later discovered to be \$141,000 short. All the missing securities were \$1,000 bonds of the third issue.

TRANSPORT LEAVES WITH 1,250 TROOPS. VLADIVOSTOK, Thursday, Sept. 25.—The transport Logan with 1,250 American troops, principally members of the 27th Infantry, left for the United States today by way of Manila and should arrive in San Francisco about October 27. Replacement troops arrived here September 6.

### RESERVOIRS BEING BUILT BY OIL MEN IN STEPHENS FIELD

MADE NECESSARY TO PROVIDE WATER FOR OPERATIONS IN THE FIELD.

STATE PERMITS ARE SECURED

Number of the Larger Companies Are Interested in Proposed Improvement.

AUSTIN, TEX., Sept. 20.—While oil development in West Texas has been a producer of wealth to land owners, to the state and to those who were developing mineral rights, there is a feature of it that will live long after the oil has ceased to flow—if it ever ceases to flow—that will be of money value to that section in localities where projects of water conservation have been carried on.

The most notable instance of this in Stephens county, when great oil companies were seeking producing territory in all directions from Breckenridge, it was necessary for a water supply to be obtained for pumping operations. Wells were not available and perennial streams could not be found. Something had to be done. Inexpensive creeks and dry branches were numerous and water scouts at first started out to buy what they thought were "water rights," paying the people owning lands along these creeks for the right to take the water that would come in flood time. After a lot of these contracts had been made and several thousand dollars had been spent, these contracts began to fail. In to the office of the general attorney of the pioneer company and he called a halt and directed attention to the conservation law of the state as administered by the State Board of Water Engineers, requiring permits from the state for the use of water.

Then these oil companies began making application for the right to construct dams, impound storm and flood water and use it. Thus it is that Stephens county will have reservoirs that will fill at each recurring excess flow of storm water, and even though the oil game may some day cease to be a producer, these reservoirs will stand and will conserve a water supply that can be used by towns and cities, by irrigation plants and for live stock production.

Reservoirs Available. Under permits that have been granted recently by the state board of water engineers, the following reservoirs are now available in Stephens county, for the storage of storm and flood water. Gulf Production Company.—Overflow weir of concrete, four feet high on a natural rock dike in Sandy creek, a tributary of the Brazos, five miles northwest of Breckenridge, the reservoir capacity being ninety-four acre feet, or a little more than thirty million gallons.

Gulf Production Company.—Overflow weir of concrete, nine feet high on a natural rock dike in Gonzales Creek, a tributary of the Brazos, two and one-fourth miles southeast of Breckenridge, the reservoir capacity being thirty-two acre feet of water, or 16,422,000 gallons.

Sinclair Gulf Oil Company.—Concrete dam, ten feet high, across Caddo creek, a tributary of the Brazos, fifteen miles southeast of Breckenridge, the reservoir capacity being eight acre feet or 2,606,000 gallons.

Sinclair Gulf Oil Company.—Concrete dam, four feet high, across Caddo creek, a tributary of the Brazos, fifteen miles southeast of Breckenridge, the reservoir capacity being 3,536,000 gallons.

J. H. Snowden.—Earth dam twelve feet in height, across Gonzales Creek, a tributary of the Brazos, two and one-half miles northeast of Breckenridge, the reservoir capacity being twenty-five acre feet or 9,060,000 gallons.

Magnolia Petroleum Company.—Concrete dam three and one-half feet in height, across Gonzales Creek, two miles southeast of Breckenridge, the reservoir capacity being six acre feet of water, or 1,854,000 gallons.

Gulf Production Company.—Earth fill dam, thirty-seven feet in height, across cottonwood creek, twenty miles southeast of Breckenridge, the reservoir capacity being 185 acre feet of water, or 42,389,000 gallons.

Stephens county is a badly broken country with many dry creeks. The data compiled for the Albany station of the United Weather Bureau shows the annual rainfall in that section, up to 1915, to have been 24 inches, and during the dry year of 1914 the annual precipitation for the same station was 22.25 inches, a precipitation that will produce flood flow sufficient to fill fair sized reservoirs if these are available.

RED WOOD PARK IS THREATENED BY FIRE

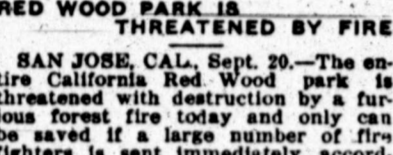

SAN JOSE, CAL., Sept. 20.—The entire California Red Wood park is threatened with destruction by a furious forest fire today and only can be saved if a large number of firefighters is sent immediately, according to an appeal sent for help received here today.

It is with a feeling of pride, mingled with gratitude to its thousands of patrons, that the National Bank of Commerce points to its growth in deposits of 600 per cent in the last year.

### VILLA HEARD FROM AND CALLS GONZALES AN ARRANT COWARD

DECLARED TO HAVE TWICE AS MANY MEN AND PLENTY OF AMMUNITION.

CLAIMS PLENTY OF MONEY

Says Carranza Soldiers Did the Shooting Across Border to Avoid Defeat.

WASHINGTON, Sept. 20.—The first direct word from Francisco Villa since he was driven from Juarez by United States troops, reached Washington today in a letter written on September 6 from Villa's headquarters in northern Durango. The letter has been placed at the disposal of officials of the state department.

In the letter Villa said he had large quantities of ammunition and twice as many men under arms as he had at any time since 1915. The ammunition has been accumulated from caches in the state of Durango, the letter added, several wagon loads from Juarez, two carloads from towns which he captured recently. Villa also says he has plenty of money, having captured more than

1,000,000 pesos in gold and silver government coin and bullion from a train between Chihuahua and Durango recently.

Eight hundred deserters from the Carrancista forces recently have joined his forces, Villa wrote, taking all their equipment and horses with them, and stating that he had just sent General Felipe Angeles 50 miles south to meet General Banuelos, the leading revolutionary chieftain of the state of Zacatecas, who was marching north with 2,000 mounted men, well equipped and with an abundance of gold and silver bullion. Since leaving Juarez, Villa said, delegations from General Gutierrez, who controls the state of Coahuila, and from Nuevo Leon and Tamaulipas, had formally agreed to recognize him as general-in-chief of the revolution. He also said a committee of government, who will be entrusted with the civil administration of all territory occupied by the revolutionary forces, will soon be named.

The revolutionary leader called General Gonzales, a Carranza officer, "a most arrant coward," and said Gonzales would have surrendered to the revolutionists at Juarez within 15 minutes if the United States troops had not crossed the border. He declared he had carefully rehearsed his troops in the attack and had explained carefully the danger of shooting across the border and that not a bullet from his guns entered El Paso.

But, he added, when General Gonzales saw he had lost the city he sent an urgent appeal to American commander begging him to inter-vene. Fearing his appeal would not be heeded, Villa said, Gonzales ordered his men deliberately to fire into El Paso to bring about intervention of American troops.

## Opportunity to Become an Oil Producer

Last week we announced that we were starting three wells on a structure which has been pronounced by two eminent geologists to be rich in possibilities for oil and gas production.

These tests are now actually started and progressing as follows:

Our No. 1—Is drilling at 300 feet in depth.

Our No. 2—Is rigged up and ready to spud in.

Our No. 3—Rig is completed and moving tools in to rig up.

The equipment derrick and casing used in these wells are the best money can buy and are owned and operated by the syndicate.

### LOCATION OF TESTS

These three tests are located in sections 13, 24 and 31 as shown inside the heavy lines within the circle on the map below. It is readily seen by a survey of the map that we are testing about four miles of territory with this development.

We own the oil and gas rights on the entire area we are proving up.

### OUR GEOLOGIST'S OPINION

Dr. I. N. Terrill, who with Dr. H. J. von Hagen, located our tests and advised us to purchase our holdings, state in absolute terms that our chances for obtaining oil and gas are excellent.

Extract from I. N. Terrill report.  
 Wichita Falls, Texas.  
 August 16, 1919.

Mr. M. R. Smith,  
 City.  
 Dear Sir:—  
 The acreage in the north part of Dale pasture and east of Dean, Texas, lies upon a domal structure formed by a crossing thereon of two structures. The Red river uplift and a north-south structure coming from Walters, Oklahoma, oil field and extending through your acreage and to and through Archer county oil field.

The drill will cut oil sands at:  
 500 feet Permian  
 700 feet Permian  
 1400 feet Pennsylvanian  
 2400 feet Pennsylvanian  
 2700 feet Pennsylvanian  
 3600 feet Pennsylvanian  
 3700 feet Pennsylvanian  
 4800 feet Ord. Ellenberger

Strawn Bend

All of these sands have been found to be productive of oil and gas in Oklahoma, and all but the lowest are producing oil and gas in Texas.

In some wells the drill may miss one or two of these producing sands, owing to the lenticularity of oil sands.

Helium gas will be gotten on your field as the same conditions exist there as at Petrolia, Texas, where helium gas is now produced.

Chances are exceptionally good for acreage in your field to mount in value until prices as now at Burkburnett are reached (\$20,000.00) and up per acre.

For a full and comprehensive report see large report of even date herewith. Respectfully submitted,

I. N. TERRILL,  
 Geologist.

In next weeks issue of this paper we will quote Dr. H. J. von Hagen, formerly affiliated with the Standard Oil Co., a geologist and an authority of international reputation.

### SIX GOOD REASONS WHY YOU SHOULD BE INTERESTED

1. We are spending several hundreds of thousands of dollars in the purchase and development of this Dale Pasture, east of Dean, Texas.
2. Our geologists reports are most favorable.
3. We know we are between the world famous Burkburnett oil field (a few miles to our west) and the Petrolia field, for ten years a producing field, is a few miles east, and we are only three miles distant from the U. S. Government helium gas development.
4. We are assured of pipe line facilities for marketing our oil at the posted market price as there are two pipe line companies within a short distance of our holdings and another pipe line company is now building a line.
5. Our development work is being supervised by men who know the oil business and will protect our interest with 100 per cent efficiency, the entire opera-

tions being directed by Mr. E. E. Osman, who, prior to his management of the Burkburnett Petrolia Syndicate, has superintended the development and production of the Globe Oil Company of Oklahoma.

6. All of the members of this syndicate are men of the highest standing in the financial world. An article appearing on the front page of the Wichita Oil Reporter dated Thursday, September 11, 1919, will testify to this:

(Clipping from Wichita Times, September 11.)

## NEW MILLION DOLLAR SYNDICATE IS FORMED TO TEST 6000 ACRES

Immediate test of the northern part of the I. H. Kemper ranch west of Petrolia, amounting to around 6,000 acres is forecast by the announcement of a new million dollar syndicate, the Burkburnett Petrolia Syndicate, which has purchased the lease of the land mentioned above, and now has three rigs up, for deep tests. Offices of the new syndicate have been opened at 822 Ohio with Morris R. Smith, secretary, in charge and this section is to be the scene of extensive developments by this company, which is formed of officers of the Globe Oil Company and Texlahoma Oil Company, operating in the Oklahoma fields. This group of men have recently sold their Pine Island holdings for \$8,000,000 and their entrance to the Wichita Falls district will doubtless mean interesting developments.  
 G. G. Gillette, C. O. Smith, of the Globe Oil Company, John O. Mitchell of the Texlahoma

Oil Company, Grant R. McCullough, president of the First National Bank of Tulsa, P. McLaughlin of the Midwest National Bank of Kansas City, J. E. Jamison, president of the First National Bank of Rich Hill, Mo., are among the men interested in this new venture. J. R. Sutherland, president of the Sutherland Company of Kansas City and fiscal agent for the Globe and Texlahoma Companies, Cole Hartman, president of the Hartmann-Abbot Dry Goods Company of Tulsa and O. E. Aleshire, head banker of the Modern Woodmen of America, are also connected with the company.

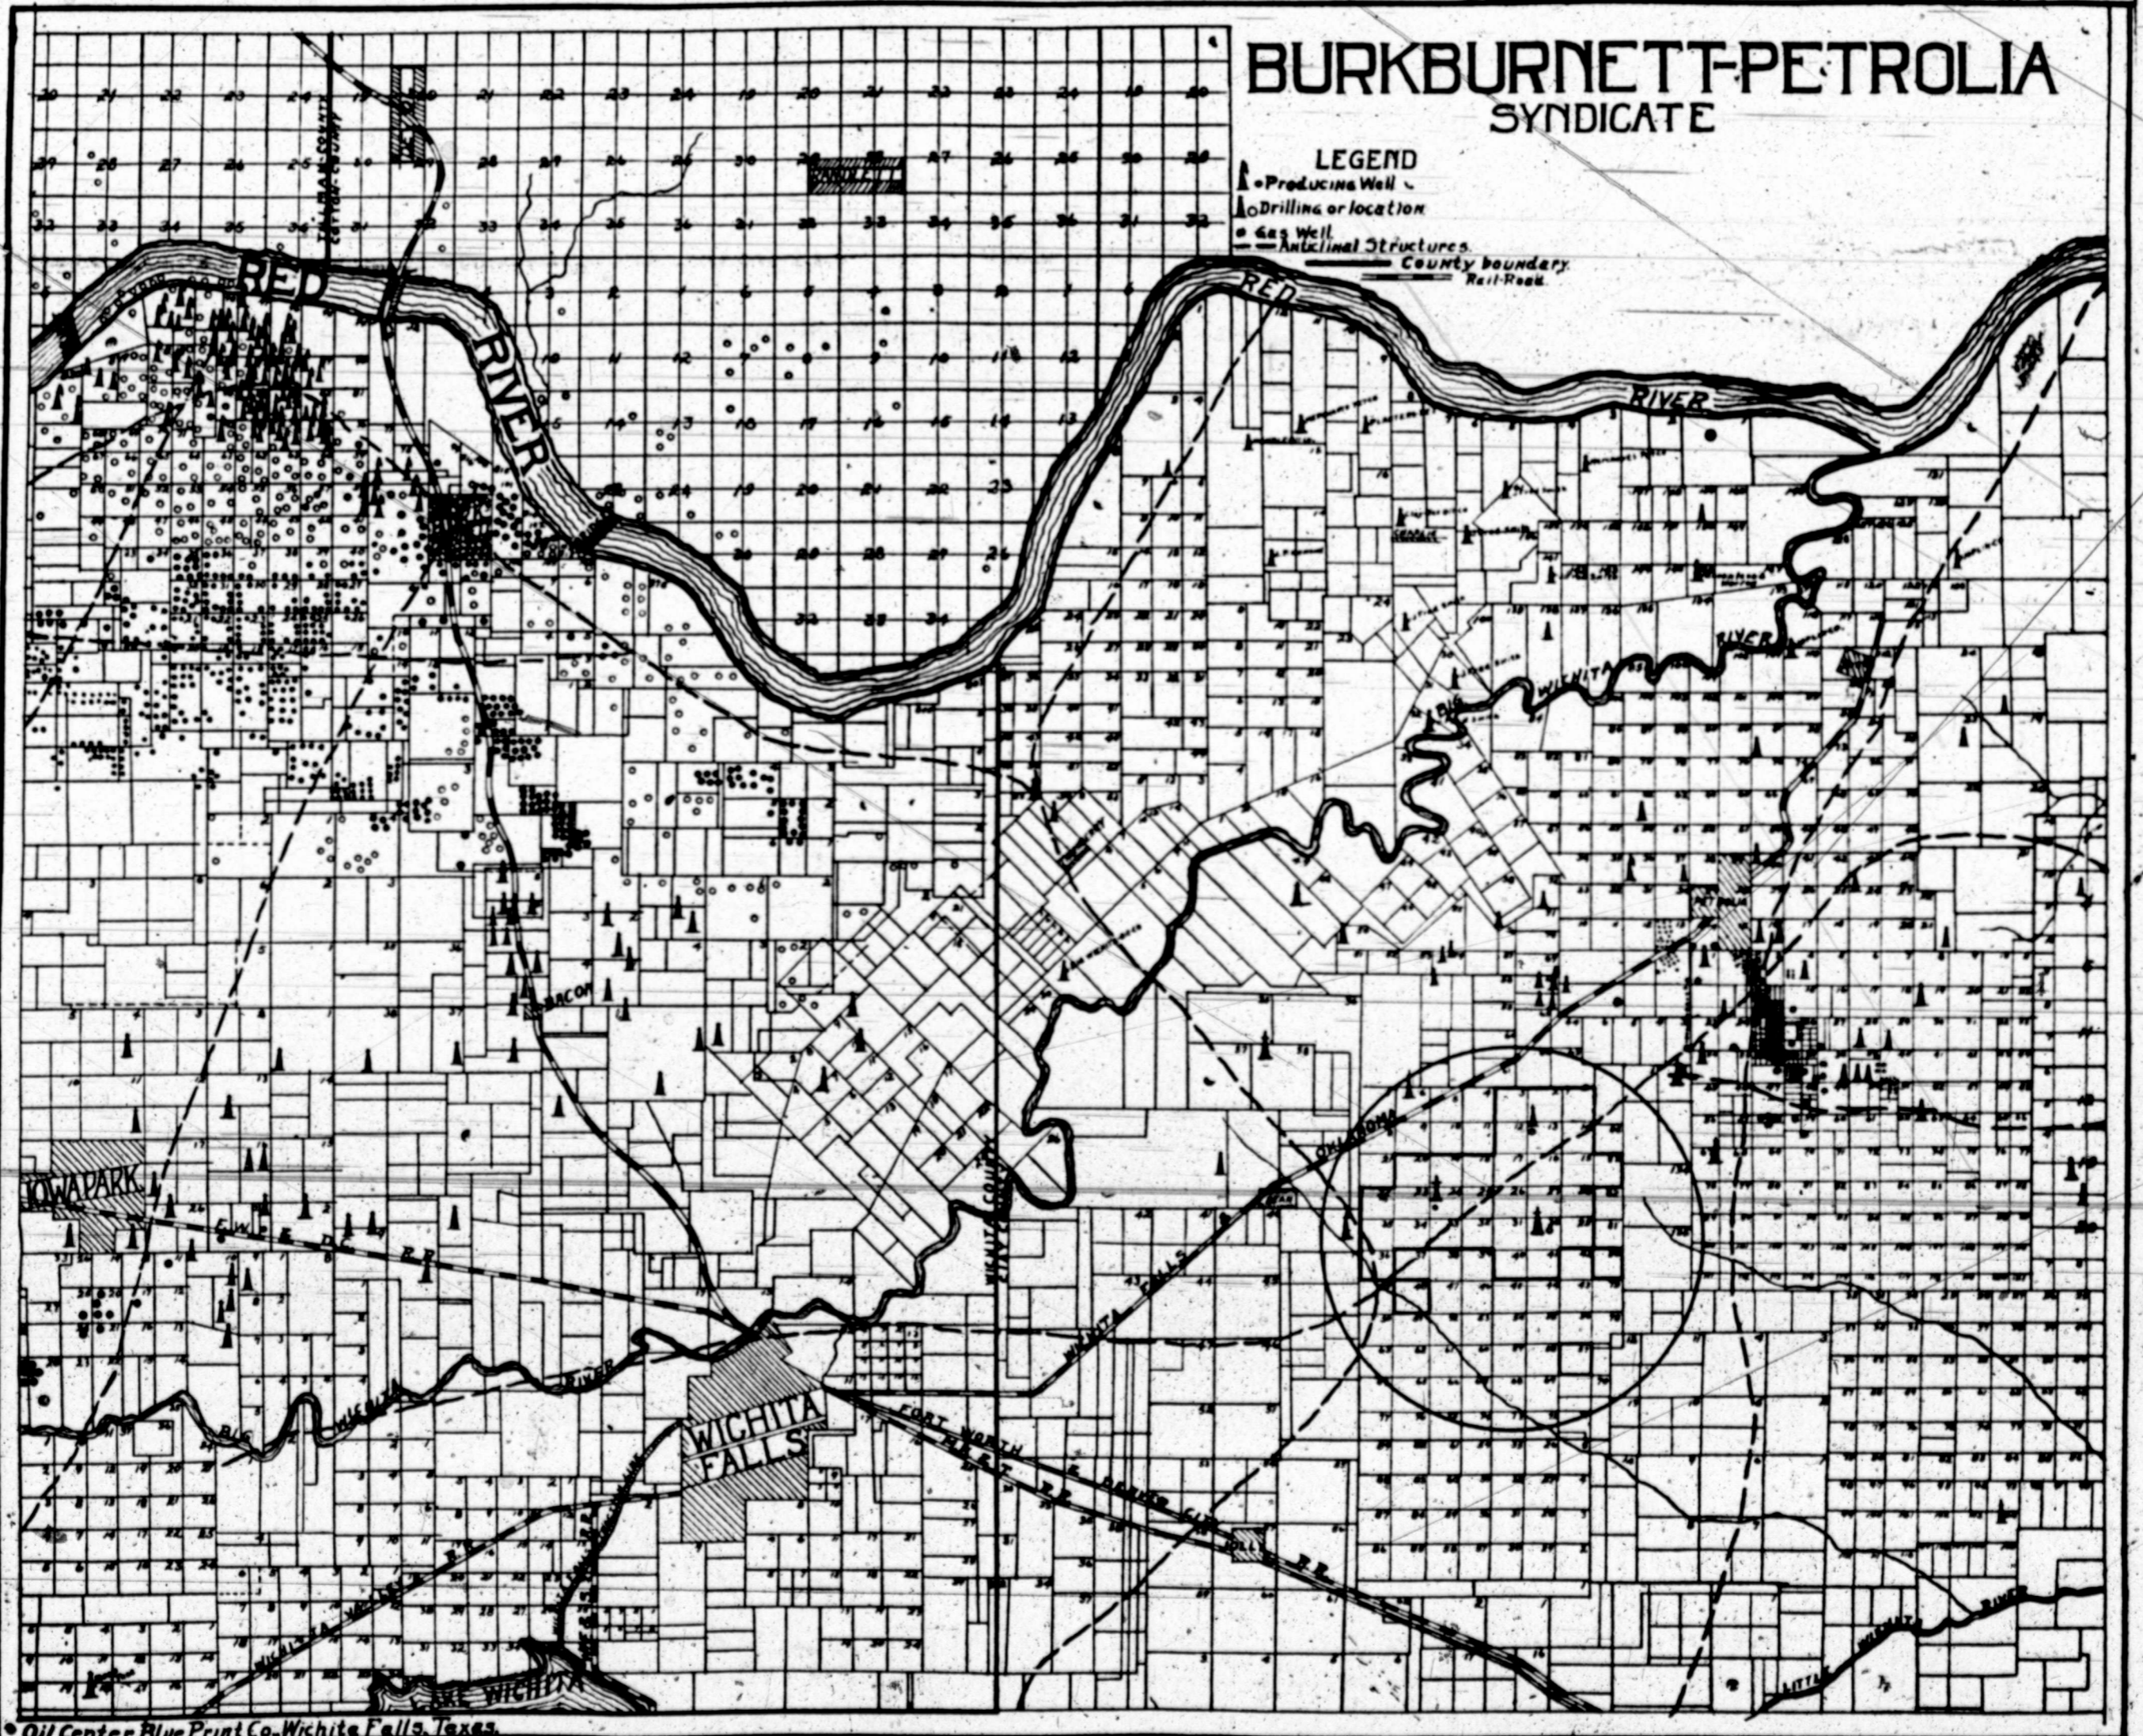

Dr. J. Van Hagen, former geologist with the Standard Oil Company, is the syndicate's geologist, and has made the locations on the property. E. E. Osman, former general superintendent of the Globe Oil Company, will be the manager of the operations of the Burkburnett-Petrolia Syndicate.

The first tests will be made to the west of the proven Petrolia field, and will be the initial tests of this section of the district. Tests are going down at present on north, east and west. Actual drilling operations will be begun immediately, it is stated, and will be closely watched.

### THIS IS YOUR OPPORTUNITY

In the near future we will offer for sale actual ownership of oil and gas leases on a few tracts of land adjoining the acreage where our development proceeds. We are ready to back up our convictions that oil and gas underlies the lands we are developing by accepting one-half the valuation of each tract in cash and one-half payment in oil or gas; the last named payment is deferred until such time as oil or gas is produced from the tract sold.

We will keep our progress of development before the readers of this paper every week until such time as the tests are completed.

WILDCAT ON NO STA

No new developments are reported in the Wichita Falls well. Outside the usual operations, East Wichita, which stock up several points, is now reported drilling 200 feet. The Grisdale and the Fore is drilling 250 feet, according to the west of the city. Company is drilling at the No. 1 Bacon Swi. Falls and Bur. are drilling, the O. Co.'s No. 1 Donec feet, and the Austin C. Kelly, down 250 feet of the Bay City Pr. still a derrick.

Out of Wild Cat No. 1 of Young count, are now out of the Graham and Arno Texas Co. being pr. though not finally co. Wiley Blair No. 1 of is drilling around 200 Texas Co.'s producers cause of new operation the Langford, State, perhaps that has figur. developments in all part pools have entered and have spudded test, their No. 1 Oil. Development Co. has and tools on the Brenson leave. T. reported on the group. National American Refine. No. 1 Timmons is cl. 250 feet. Moore et. Keens farm is re. casing trouble, at a depth of 100 feet. The Mattie Gervin test, is under-running 140 feet.

Have Junked The Manhattan Oil. Junked hole of oil having reached a depth of 100 feet. The Merrill Oil and Gas Co. has reported 100 feet in their No. 1 well. The Gervin test, is drilling at a depth of 100 feet. Archer City's deep. This has usually ap. pious delays. This well is 400 feet, and Andrews land, a mile the courthouse. The Smith test on the southeast of the town a few miles, is near. depth, being reported drilling around 250 feet. clear company's No. 1 reported shut down for test.

Dr. Von Hagen's tw. 1 Edwards and No. 1 shut down for grow. started by the Range on which operations some time ago at a depth of 100 feet. was a big "curb" of York over brokers in exploitation and mar. certain stocks. ## CONTRAST NIAGARA WITH THE VICTORIA FALLS OF ZAMBESI

WASHINGTON, Sept. 18.—"While Niagara Falls will continue to hold their own as a mesa for honey-mooners and other travelers they must henceforth submit to comparison with another natural wonder, the Victoria Falls of the Zambesi, as Africa becomes frequented by tourists," says a bulletin from the National Geographical Society.

"From being a place of mystery, so feared that Livingston, who discovered the falls in 1855, had great difficulty in persuading his followers to accompany him the falls now are visible from a railway and crosses the river half a mile below them, and they lie under the proposed route of the Cape to Cairo aerial service which is to be established this autumn."

Louis Livingston Soeman, in a communication to the society, describes a visit to Victoria Falls and contrasts them with Niagara, as follows:

**Approach by Rail.**

"Our approach was made by rail from the Indian Ocean at Beira, near the mouth of the Zambesi (that hotbed of micro-organisms described by James Bryce as the most deadly in Africa), and across the narrow belt of swamp and jungle forming the coast; thence up the gradual slope to the volcanic plateau that forms the real continent of Africa.

"By morning an altitude of nearly 6,000 feet was reached, and a transition from the excessive heat and moisture of the lowland was experienced that was most grateful and exhilarating.

"This section still abounds with antelope, elephants, lions and other large game, which find excellent cover in the tall elephant grass or the dense forests and jungles, while in the river hippos still gambol and founder in ungainly herds amid the floating islands of rank vegetation of Nile reeds and papyrus.

**Less Grateful Change.**

"With the altitude, however, came another and less grateful change. The forests were no longer in evidence, but in their stead were vast arid, birdless plains, with parched and stunted growth, and the scarcity of moisture that so severely affects Rhodesia and the great stretches of veldt far away to the Transvaal.

"Early in the morning of the third day we were suddenly awakened by the guard and treated to a scene of beauty never to be forgotten. Some 10 miles distant five enormous columns of white vapor were rising, the roseate-tinted shafts hundreds of feet heavenward, while the faint roar of the falls told us the Mosio-Tung-

## TAMING OF THE AUTO MADE POSSIBLE BY THE EASE OF ITS CONTROL

Beauty increased. "Each moment increased the beauty and vividness of the scene. With the first rays of the rising sun came a picture of color of wondrous loveliness. Delicate tints of violet, crimson and berry played through the mounting spray as it shot higher and higher, ultimately disappearing as virgin clouds in heaven, while the ever-increasing thunders of the waters lent an added solemnity to this view.

"Hardly could we wait to reach our destination, so great was our enthusiasm. But our hopes were doomed to momentary disappointment, only to be more than realized after a study of the environment; for, notwithstanding their magnitude, the first view of Victoria Falls is decidedly disappointing.

**River Disappears.**

"Although nearly a mile in width and 400 feet in height, the grandeur of their proportions is eclipsed by the sudden disappearance of the river, as it plunges into a narrow, rocky fissure extending across its entire width. Only at a single central point is there a breach in this fissure through which the falls can be seen and appreciated in their full proportion, where the converging waters rush madly to the zigzag canyon below. So restricted is this view that there is an entire absence of that awe-inspiring and almost paralyzing effect which strikes the visitor dumb with wonder and amazement when Niagara bursts on his near vision. On first sight of the Victoria Falls one involuntarily exclaims, "Oh, how beautiful!" but they lack the majesty of our grand Niagara.

**Repeated Visits Required.**

"No single visit can adequately reveal the fullness of their charms, but repeated excursions must be made to their islands and precipices, their grottoes and palm gardens, their rain forests and projecting crags, their rainbows and cataraacts and many-sided views of their exquisite setting in the emerald framework of tropic forests, before their indescribable beauty can be appreciated. The fascination of discovering new and hidden charms from different points of view grows on the visitor and becomes one of the greatest attractions.

"Had the falls been in America, the Indians would surely have named them Minnehaha, Laughing Waters; for like a coy maiden are their fascinations, half concealing, half betraying their beauties, and requiring much wooing before revealing all their loveliness of hidden treasures and charm."

## POPULAR CAR FOR THE OIL OPERATOR AND THE TRAVELING SALESMAN

McFall Brothers, dealers in Dodge Brothers motor cars have received several additional shipments the past week of both touring and roadster models, also three carloads of the standard chassis for the oil fields.

This type of chassis has been adopted by many of the oil companies and drillers as standard equipment. The construction of the chassis, with high clearance, strong dependable power plant, unusually low operating cost has satisfactorily demonstrated that Dodge Brothers cars will fulfill all requirements.

It is very noticeable the number of repeat orders for Dodge Brothers cars throughout the territory and especially among the larger oil corporations. A majority of the oil companies are using Dodge Brothers cars in all their fields and the results have been such that orders are placed for Dodge Brothers cars in quantities.

The Humble Oil & Refining Co. is among the companies operating a large fleet of Dodge Brothers cars, having purchased more than thirty from McFall Brothers during the season. This number does not include cars purchased by them from other Dodge Brothers dealers throughout the territory.

Several of the leading wholesale houses in the Wichita Falls territory are using Dodge Brothers cars for their salesmen. Representatives of these houses have kept an accurate account of the cost of operation of each of these cars, after driving thousands of miles over all road conditions in this State and due to the very satisfactory results from the use of Dodge Brothers cars orders are being received by dealers throughout the State of Texas for additional cars to be used exclusively in territory work.

McFall Brothers report several orders unfilled on touring and roadster models, also enclosed cars, however, prompt deliveries can be made on the standard chassis with tool pusher equipment or commercial body, both screen and panel.

Embargoes on paints and varnishes do not worry us; we just received a car load from Cook's Paint & Varnish Co. Tank paints and etc. for the oil people. Service—W. E. Thomas Lbr. Co., Bur. 113-4210

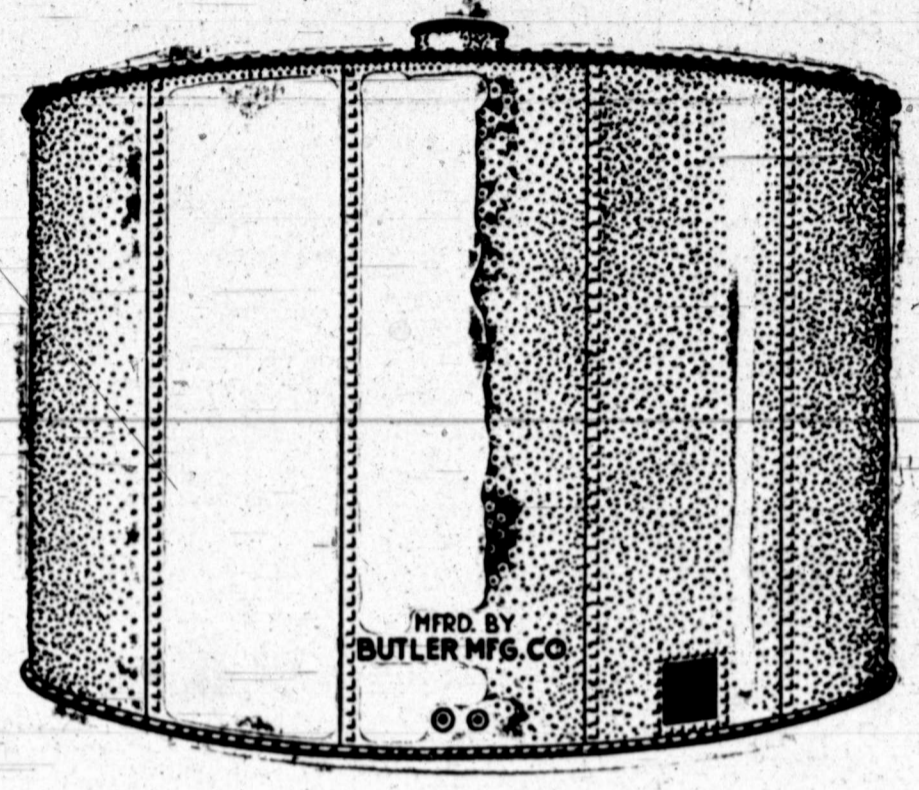

## THE FORD ONE TON TRUCK

There is an urgent call from the government also one from the major of Corpus Christi to the Salvation Army for clothing for the flood-stricken people. Phone 1221. 111-57

**NOTICE.**

It is the car for the head of the household—which takes it for granted that in these days of advanced thought the woman controls in every family.

The Apperson Brothers confidently assert that women appear at their best behind the wheel of the new product of this pioneer plant.

**The Year's Most Pleasing New Sedan**

THE season offers no other sedan so pleasing in the beauty of its lines and its furnishings, as the new series Chandler Sedan. And there is none that may be compared with it at anything like its price.

The new Chandler Sedan is the highest expression of years of development in the creation of closed bodies. It is beautiful to look at, and most comfortable to ride in. It has style and refinement that must appeal to those who care for the finer things.

This car seats seven persons most comfortably or five when auxiliary chairs are not in use. The front seat is solid, not divided as in previous models, and the window posts are a permanent part of the body, not removable. The windows, however, may be lowered away or adjusted to suit the weather and the wish. The entire interior is upholstered in finest quality silk-plush of pleasing pattern for cushions and plain tone for head lining. Interior fittings are in dull silver finish.

Despite the largest production in the history of the Chandler company, the demand for the new series sedan will quickly consume the production for weeks to come. Your early order will be a safeguard against disappointment.

### WILDCAT OPERATIONS FURNISH NO STARTLING NEWS FOR WEEK

No new developments of startling nature are reported from the wildcat fields in the Wichita Falls district this week outside the usual weekly flurry over East Wichita, which sent the stock up several points. This test is now reported drilling around 1,470 feet. The Giridale and Erickson test on the Fore is drilling a little above 2,200 feet, according to late reports. To the west of the city limits the Sun Company is drilling around 1,020 in its No. 1 Ed Waggoner.

Out at Bacon Switch, between Wichita Falls and Burk Burnett, two are drilling, the Black Burnett Oil Co.'s No. 1 Doneboon, down 450 feet, and the Austin Oil Co.'s No. 1 H. Kelly, down 250 feet. No. 1 Potter of the Bay City Production Co. is still a derrick.

**Out of Wild Cat Class.**  
Two of Young county's former wild cats are now out of the wild cat class, the Graham and Arnold wells of the Texas Co. being producers now, though not finally completed. The Wiley Blair No. 1 of the Texas Co. is drilling around 2,560 feet. The Texas Co.'s producers have been the cause of new operations starting, and the Langford, Staley & Chenault parts in developments in all the Burk Burnett pools have entered Young county and have spudded in their first test, their No. 1 Donnell. The Ajar, Texas Development Co. has the timber and tools on their location on the Brenson lease. The rig is also reported on the ground for the National American Refinery's No. 1 Donnell. The Cosden Oil and Gas Co.'s No. 1 Timmons is cleaning out at 2370 feet. Moore et al, drilling on Keene farm is reported to have chiseled through at a depth of 950 feet. The Mattie Gervin test, No. 1 Stewart, is under-reaming for 10-inch at 1490 feet.

**Have Junked Hole.**  
The Manhattan Oil and Gas Co. has junked hole of its No. 1 Johnson, having reached a depth of 2,100 feet. The Merrill Oil and Gas Co.'s No. 1 test is shut down at 475 feet, and Snowden Brothers are shut down at 890 feet in their No. 1 Graham, waiting for a crew. The Sun Oil Co., No. 1 Daniels, is drilling around 530 feet, and the Humble Oil Co. is reported drilling around 1,900 feet in their No. 1 Marshall.

Archer City's deep test in the city limits has finally spudded in, after a long delay. This test is to go to 2,400 feet, and is located on the Andrews land, a mile northeast of the courthouse. The Silk, Langford & Smith test on the Scott ranch, southeast of the town of Archer City, a few miles, is nearing the 8,000 foot depth, being reported this week drilling around 2,590 feet. The Sinclair company's No. 1 DeMoss is reported shut down for cable at 1,560 feet.

Dr. Von Hagen's two tests, the No. 1 Edwards and No. 1 Gray are both shut down for crew. These tests started by the Range Burnett Oil Co., on which operations were stopped some time ago at a time when there was a big "curb scandal" in New York over brokers manipulation and exploitation and misrepresentation of certain stocks. Dr. Von Hagen, former Standard Oil geologist and prominent in the oil world, was secured by the managers of the company to take over the operations. The Edwards test is down 850 feet, while the

other has barely been spudded in. At Mankin's Station, The Mankin Station test, being drilled by the Mankin Oil and Development Co., is shut down for casing at 400 feet. The Texas Oil Corporation is reported rigging up on its No. 1 Wilson, and the Holiday Southwestern Oil Co.'s No. 1 Nesbitt is reported drilling around 680 feet. Sparks et al, drilling on the Cowan ranch, southeast of Archer City, is reported temporarily shut down around 160 feet. Perkins et al, No. 1 Andrews, is a rig, and Richardson et al, No. 1 Adams, is a location. The Union Oil Producing Co., No. 1 Huff, is shut down for casing at 500 feet. Several of the wild cats drilling in Jack county are reported temporarily shut down this week, some for lack of water, other waiting for tools or rig parts. The Cosden Oil and Gas Co. is reported as having a fishing job on its No. 1 Cherryholmes, the deepest hole in Jack county, now down to 3,640 feet. This company's No. 1 Stewart is shut down at a depth of 2,600 feet. The Bozanna Petroleum Co., Nos. 1 and 2 Brown, are also reported shut down, both being 200 feet down. The S. D. Felt, No. 1 Younger, is reported shut down around 520 feet. The D. M. McKenzie No. 1 Knox is reported shut down at 580 feet. Rozier and Cosden, No. 1 Cherryholmes, is under-reaming at 1140 feet. The Bennett Syndicate is reported to have a fishing job in its No. 1 Knox, at a depth of 280 feet. The Frontier Oil and Gas Co.'s No. 1 Lindsay is still a rig.

### HAYNES 7-PASSENGER IS BEING DEMONSTRATED BY NOLEN-STRINGER CO.

The new Haynes 7-passenger is being demonstrated and sold by Nolen-Stringer Company in Wichita Falls. Recent purchasers of the Haynes 7-passenger are Messrs. A. R. Cannon and A. S. Goodloe, city; Roy Croft of Graham; and E. O. Youngblood of Vernon. Mr. Youngblood also purchased a Garford truck from the Nolen-Stringer Company.

### SOUTHERN TRUCK CROPS ARE REPORTED PROMISING

WASHINGTON, Sept. 20.—Demand for Southern truck crops in the spring of 1920, even more promising than that of 1919, is the forecast in a statement of the Department of Agriculture issued today. One of the important elements in producing this favorable situation for Southern truck crops is the fact that the potato crop this fall is to be 25,246,000 bushels short of the 1918 crop.

Growers of Bermuda type onions have a brighter outlook than has existed during the last two seasons. The estimated autumn harvest of onions is more than 2,000,000 bushels short of that last year and more than one million bushels short of that two years ago.

### MAY CONVERT LEVIATHAN INTO OCEAN GREYHOUND

WASHINGTON, Sept. 20.—The conversion of the Leviathan, the former German liner, now in transport service, into a first class, oil burning ocean greyhound at a cost of \$3,500,000 is being considered by the United States Shipping Board.

The International Mercantile Marine has asked that the Leviathan be allocated to them for use between New York and Southampton, England, and Cherbourg, France.

### HOUSTON REPORT ON WEATHER CONDITIONS

HOUSTON, TEX., Sept. 20.—An area of low barometric pressure over the plains states has been preceded by cloudy and unusually warm weather

in the central valleys and eastern districts. Scattered showers have occurred in western and middle cotton belt. There was also rain in portions of Florida, New Mexico and Missouri. Temperatures continue high in Texas, with lowest last night ranging from 64 at Amarillo to 80 on the coast.

Cook's Paints and Varnishes are BEST FOR WEAR AND WEATHER. We just received a car load. W. E. Thomas Lbr. Co. 112-421c

PACKARD ENGINE IS COMMISS COLONEL OF DETROIT, MICH. Vincent vice president of Packard Motor Co. co-designer of the Liberty engine, has been commissioned a colonel in the Reserve Corps of the army.

### PACKARD ENGINEER IS COMMISSIONED A COLONEL OF RESERVES

DETROIT, MICH., Sept. 20.—J. G. Vincent, vice president of engineering of Packard Motor Car Company and co-designer of the Liberty aircraft engine, has been commissioned a colonel in the Officers' Reserve Corps of the United States army. The appointment is to the aviation section of the Signal Corps and specifies a flying status.

Taking service with the army in 1917, Mr. Vincent was given the temporary commission of major; later, he was promoted to lieutenant colonel for his signal services. When the armistice was signed, several of the regular army officers expressed the hope that he would accept a commission in the reserve corps, with the time was the highest which the general staff could recommend. A recent enabling act by Congress permitted his being commissioned a colonel.

**Glad to Accept.**  
"I am glad to accept this commission because I believe the officers' reserve corps offers the best opportunity for service to his country," said Col. Vincent. "It is an effective means of fitting up for the government, in times of peace, the men who, by special training or talent, should be immediately available to the government in time of war."

"Obviously, a complete organization for war is impossible, and perhaps undesirable. But our experience of the last few years must have taught us the value of a nucleus capable of rapid expansion in both number and facilities. The officers' reserve corps joins with the regular establishment and such other means as the national and state governments can provide to make this nucleus more comprehensive."

**May Keep in Touch.**  
"Then, I think the corps offers men who are interested in special lines of work from their nature are certain to be called on in war-time the best possible way of keeping in touch with government officials at work along the same lines."

"Besides there are the physical and mental benefits joined to the patriotic duty of service in this corps. I hope the young officers, especially those who were in the air service, will accept commissions in the reserve corps. The 15-days service required annually will prove good for them, keeping them in practice and in touch with developments, and good for the country. I hope to see the aviation officer reserve corps so active that soon it will form an independent social organization, encouraging extra training."

Col. Vincent counts himself particularly fortunate in having in the Packard's new aviation field, soon to be formally dedicated, excellent facilities for maintaining and enlarging his experience as practical pilot and aeronautical engineer. He is enjoying these facilities, and devoting a great deal of his time, to experimental aircraft engineering development in the government's interest.

### MOTOR VEHICLES ARE ENCROACHING ON THE RAILROADS

AUSTIN, TEX., Sept. 20.—The encroachment made by motor vehicles upon both freight and passenger business of Texas railroads has reached such a point, says Earle B. Mayfield, railroad commissioner, that it must be taken into consideration when deciding matters pertaining to railroads.

During the war, railroad service in Texas was considerably curtailed and many trains were discontinued. With the coming of peace, citizens interested began efforts to secure a resumption of pre-war service. This matter is left to the decision of the railroad commission, and many hearings in which both the railroads and the citizens presented arguments have been held. Almost invariably railroad representatives contend that motor vehicles have taken over so much of their former business that additional train service would prove unprofitable.

Mr. Mayfield says that where railroad connections are had and where service is poor the invasion of the motor vehicle is especially noticeable. He also attributes considerable of the impetus given commercial transportation by trucks to the "sailing day" inaugurated by the railroad administration. Under this plan freight work and which will be conducted simultaneously with the 75-million campaign. Many Baptists of the North and of Canada will also observe the day in prayer that success may crown the efforts of their brethren in the South.

**Travel is Affected.**  
In a hearing concerning passenger traffic between Houston and Galveston the railroads declared tourist travel to Gulf resorts has been seriously undermined by automobiles.

At present there is only one piece of railroad under construction in Texas. This is a road from Wichita Falls into the oil fields. A recent statement from the highway commission was to the effect that actual construction work on highways in thirty-seven different counties is under way, and that many more counties will begin construction as soon as preliminaries are disposed of.

The Bankhead National Highway from Texarkana to El Paso, is only one of the stretches of road being built which may be compared to a trunk line railway.

**Made and Wrecked Cities.**  
When the Texas & Pacific railroad years ago bridged this same expanse across the state, it shifted the traffic of Texas and made and wrecked cities.

At that time Jefferson, in the north corner of the state on Cypress Bayou which allowed water shipment to the Mississippi, was the largest city of Texas with traffic officers at many crossings to keep wagon trains untangled. These trains came from as far west as Stamford, and teamsters counted themselves fortunate if they were able to get from the outskirts of Jefferson to the market places and back to camping grounds between suns, when Dallas was a village and Fort Worth an army post.

Now, the water snags, wells around the piling that once was bound by mooring ropes of river steamers, and trees have grown through the floors and walls of Jefferson's warehouses

### NEXT WEDNESDAY IS DAY OF SUPPLICATION FOR BAPTIST DRIVE

NASHVILLE, TENN., Sept. 20.—From every side of the world prayers will be offered in behalf of the Baptist 75-million campaign throughout the twenty-four hours of next Wednesday, September 24, which has been designated as a day of special supplication and practical fasting in the interest of the various interests fostered by the campaign.

In Italy, Bohemia and other countries where missionaries of the Southern Baptist Convention are stationed, and where native Christians are cooperating the prayer-chain will be formed before the Baptists of America have awakened for the day. Dawn in America, however, will find Baptists assembling for sunrise prayer services in many of the churches with the more than three million white Baptists in the South being given a special charge to occupy the entire day and a portion of the night in prayer in their houses of worship.

The negro Baptists of America, in their recent session at Newark, N. J., agreed to co-operate in this prayer service when they will offer supplications, also, for the \$2,000,000 campaign which they launched for the various interests of their own work and which will be conducted simultaneously with the 75-million campaign. Many Baptists of the North and of Canada will also observe the day in prayer that success may crown the efforts of their brethren in the South.

**Urges Day of Prayer.**  
It is the hope of the leaders of the campaign that wherever it is possible Baptists spend the entire day in prayer, programs having been arranged so as to have different persons in charge of the services at different periods during the day; though where it is impossible for the entire day to be spent at the church it is urged that as much time be spent there as possible and that the spirit of prayer and consecration characterize Baptists everywhere that day, wherever they may be.

And before the Baptists of North America, including those of Panama, Cuba and Mexico, and those of South America, have completed their day of special intercession in behalf of the campaign, the missionaries and native Christians of China, Japan and other countries on the other side of the globe where representatives of the Southern Baptist Convention are stationed, will have taken their places at the houses of worship to spend the larger portion of twenty-four hours in supplication for the success of the campaign that promises to mean much for the enlargement of our missionary work in all the lands.

This day of special prayer and practical fasting promises to be more generally observed than any other similar occasion except where some great international calamity has existed to call the people of the world to their knees before God.

"If three million Baptists seek in prayer the face and favor of God in humility and faith, the conquests resulting from the work of their hands will be unnumbered and immeasurable," Dr. L. R. Scarborough, general director of the campaign, declares.

### TO REORGANIZE FORMER UNIVERSITY STUDENTS

A meeting for reorganization of an association of former students of the University of Texas, with a view to its later expansion to an association composed of men and women who were former students of

any university or college, is being planned by ex-students residing in Wichita Falls.

In addition to affording an opportunity for the former students of the university who are new comers in Wichita Falls to become better acquainted with those who have been here longer, and doing general work in the interest of the university, it is expected that plan for the establishment of a permanent headquarters for ex-students of the university may be established.

Dr. L. R. Scarborough, general director of the campaign, declares.

It is the hope of the leaders of the campaign that wherever it is possible Baptists spend the entire day in prayer, programs having been arranged so as to have different persons in charge of the services at different periods during the day; though where it is impossible for the entire day to be spent at the church it is urged that as much time be spent there as possible and that the spirit of prayer and consecration characterize Baptists everywhere that day, wherever they may be.

Model K-50

## Buick Sedan for Seven

THE BUICK Model K-Six-50 four-door Sedan is the latest development in closed car design. The front seat, instead of being divided, is full width, giving additional roominess to passengers and providing an extra brace to the body which adds considerably to its stability.

The latest type of cowl and side lamps, tilting steering wheel and satin finished interior trimmings are featured in this Sedan. The lining is done in rich plush, without binding. Altered lines and low-hung body give added grace to the exterior without sacrificing head-room. The main compartment accommodates two disappearing seats, which are built for genuine comfort.

Silk shades on rollers afford privacy or shut out a too ardent sun. Ventilation is controlled by the adjustable windows and windshield, the door windows being fitted with patent handles for raising or lowering them. Suitable lights give interior illumination. Lowered seats give greater riding comfort.

### MARTIN PRINTING AND STATIONERY CO. HAS NEW BUILDING

Completion of their new home, a two-story brick building at 1509 Lamar, and the installation of machinery for their new printing, ruling and binding plant which will be operated in connection with their book store and stationery business, is announced by the Martin Printing and Stationery Co., formerly Martin's Book Store. The new building is a very imposing industrial building finished in brown face brick with a solid glass front, well arranged windows, and like business conveniences.

The first floor and mezzanine floor will be used as a warehouse and stockroom as this concern buys a large part of their merchandise in car load lots. These floors are arranged for the economical handling of this merchandise as a private switch track will extend to the back door of the building and a freight elevator connects the three floors. A large stock of wood and steel office furniture, steel safes, filing equipment etc., will be kept on the first floor, and the mezzanine floor will be used for the storage of the surplus stock of various smaller articles which this firm handles.

The second floor will house the printing and ruling plant and the bindery. The very latest equipment has been installed in this room and the greatest attention has been given to the arrangement. Nearly every machine is placed under or near a skylight which gives an abundance of natural light. Provision has been made for expansion in every department as this firm has faith in Wichita Falls and expects to grow. The composing room is equipped with linotype machine and the very latest models of "Cut Cost" type cabinets, each with individual lighting system. The press room is equipped with several job presses, one with Miller Automatic Feeder, and a Kelly press with automatic feeder which has a capacity of 2400 copies an hour. Space is being left for a large No. 5 Optimus cylinder press which will be installed as soon as it arrives. The bindery occupies a large area of floor space and the equipment consists of several large machines including a ruling machine. At the rear of the second floor there are several rooms for lavatory, etc., which will be occupied by some of the workmen who are unable to obtain other accommodations. A room is also provided for lunch and rest room for the girls who will work in the bindery.

#### ELKS CONTRIBUTE \$100 TO STORM SUFFERERS

The Wichita Falls Lodge of Elks has forwarded its check for \$100 for the relief of the storm sufferers at Corpus Christi. The remittance was made through an official of the State association of Elks who is on the ground at Corpus Christi.

Much of the new business which the National Bank of Commerce is favored comes to it through the recommendations of its customers. There is a good reason for this—National Bank of Commerce Service. 114-11c

#### HE WON'T DROP DEAD AND MORE

"My husband suffered terribly from stomach and liver trouble, which caused such bloating of gas as to seriously affect his heart. Doctors warned him that he might drop dead at any time from this trouble. A friend in Cleveland advised him to take Mav's Wonderful Remedy, and since taking it, four months ago, he is feeling like a young man again. All his friends are surprised at his appearance." It is a simple, harmless preparation that removes that catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Mack Taylor and druggists everywhere. (adv.)

### ORGANIZATION DINNER SALVATION ARMY DRIVE ON TUESDAY EVENING

Date for the organization dinner for the coming Salvation Army Home Service drive in Wichita county has been moved to Tuesday evening at 7:30 o'clock at the Salvation Army Citadel on Seventh street. It was announced Saturday by B. F. Johnson, county chairman of the drive.

This change was made in order that "Ma" Burdick, the famous overseas veteran of the Salvation Army could be present at the organization. She will be assisted on this occasion by Miss Wells, likewise a Salvation Army nurse with overseas service on her record.

The appointment of Miss M. R. Kerr, assistant secretary of the Chamber of Commerce, as executive secretary of the campaign organization, is also announced by Mr. Johnson. Miss Kerr is organizing a force of stenographers and is getting out a number of letters in the interest of the attendance at the organization meeting.

At this dinner the workers will be organized into committees, and the work of soliciting subscriptions to the \$4,000 quota asked from this county will be gotten under way immediately. It is expected that the greater part of the Wichita county quota will be raised before the formal opening of the drive on September 29.

The drive has been endorsed by the Rotary and Wichita clubs and the Elks lodges, and committees appointed from each of these organizations to cooperate with Mr. Johnson in every possible way.

The purpose of the drive is to supply the Salvation Army with funds for the carrying on of their home service drive, formerly supplied by the street corner and store collections in the townships. This method of securing funds has been abandoned on account of the amount of time required for this from some of the organizations most valuable workers, which it is felt could much better be spent in actual relief work.

### MASQUERADE BALL NEXT TUESDAY NIGHT

The masquerade ball which was postponed last Thursday night on account of the rain will be held Tuesday night, September 23. The public is invited. This will be the biggest dance of the entire season. Extra music has been arranged for. There will be 20 minutes car service to lake for the remainder of the season. 114-2tp

What have you to sell in real estate? Phone 2027. PAYNE & WINFREY.

### BANK OF COMMERCE TO PAY MONTHLY DIVIDENDS

Effective with the current month the National Bank of Commerce has adopted the policy of making its dividend payments monthly instead of quarterly or semi-annually as has heretofore been the custom. This is believed to be the first bank in this part of the State which has adopted this policy.

Officials of the bank express themselves as confident that this policy will meet with favor among the stockholders, since their income will be more regular than has heretofore been the case, under the quarterly dividend policy. Dividends are now being paid at the rate of one and a quarter per cent a month, it is announced.

### FREIGHT CONGESTION IS RAPIDLY BEING CLEARED

Congestion of local freight shipments in the freight warehouses of both the Denver and the Katy is rapidly being cleared up through the activities of shippers in removing their consignments. It is announced by Wade S. Arnold, local freight service representative of the railroad administration.

At present there are only about 15 cars of local freight in the yards of both railroads, most of which had been loaded back on the cars from the warehouses on account of failure of the consignees to move them, and the consequent overcrowding of the warehouses.

Another few days at the present rate of activity on the part of the shippers will clear up the local freight situation in Wichita Falls, according to Mr. Arnold.

### Calomel Today! Sick Tomorrow!

I Guarantee Dodson's Liver Tone

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver.

If you are bilious, feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful, full of vigor and ambition.

Your druggist or dealer sells you a bottle of Dodson's Liver Tone for a few cents under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable liver medicine takes the place of dangerous calomel. Buy one bottle of my sound, reliable guarantee. Ask your druggist about me.—Adv.

## MEMORIAL

PEACE

Let's all labor and pray that the world may remain peaceful and prosperous, but in the midst of our rush after elusive happiness do not forget our precious dead, wherever they may be.

A beautiful memorial Cenotaph should be erected to their memory. It looks to us like patriotism in Wichita Falls is a dead issue.

## SCULPTURE

## TOO BUSY TO WRITE ADVERTISEMENTS

It is poor business to buy advertising space in a paper and not utilize it to the best possible advantage. But we have been SO BUSY trying to build to take care of our fast increasing business that we haven't taken time for anything else—and just now have only time to say, "WHO CAN BEAT IT"
