

CALL STRIKE AT BIG BETHLEHEM PLANT

APPROXIMATELY 35,000 MEN ORDERED TO JOIN WALK-OUT BEGINNING MONDAY MORNING

Having failed in the first week of the steel strike to paralyze the industry, although crippling many plants and forcing a shutdown in some centers, union labor is massing its forces for a greater offensive tomorrow, when approximately 35,000 employees of the Bethlehem Steel Company have been ordered to join the walkout.

Officials of the United States Steel Corporation and independent companies, who claim to have won back many deserters, are preparing to launch a drive of their own in an effort to re-open as many plants as possible and increase the output in mills kept in operation.

The sixth day of the industrial struggle, which, passing without serious disorder, brought no great advance to either side, was marked by the following developments:

- 1.—Formal announcement by the strikers national committee that the Bethlehem strike would become effective tomorrow.
- 2.—Invitation extended by the strikers to the Senate Labor Committee to visit Pittsburgh and investigate for itself "causes of the strike" and "illegal and brutal methods employed by the steel corporations to break the strike."
- 3.—Announcement that the strikers would confer with the railroad brotherhoods "on matters in connection with the strike."
- 4.—Expression of confidence in William Z. Foster, secretary of the strikers' national committee, adopted by that body after attacks had been made by Foster, in congress and elsewhere, for alleged "radicalism."
- 5.—Detailing of additional police in various cities to afford protection to workers desiring to return to their posts tomorrow.
- 6.—Reply by Secretary of War Baker to strikers' protest that he lacked authority to prevent employment in Chicago of discharged soldiers in uniform as strike guards.
- 7.—Second message sent Governor Cox of Ohio by Governor Cornwall of West Virginia warning him of a threatened "invasion of West Virginia" by Ohio strikers unless the Weirton mills close by tomorrow afternoon.

PITTSBURGH, PA. Sept. 27.—The national committee for organizing iron and steel workers, after canvassing the steel strike situation here today, sent a telegram to United States Senator Kenyon, chairman of the senate labor committee, asking him to have the committee come to Pittsburgh and investigate for itself the conditions the steel strikers complain of in Western Pennsylvania.

The national committee also decided to confer with the railroad brotherhoods on matters in connection with the strike.

The committee, before it adjourned, adopted a resolution endorsing and affirming its confidence in William Z. Foster, secretary of the national committee, whose alleged radical attitude has been attacked in Congress and elsewhere.

Statement Today.

Secretary Foster said tonight the committee will give out a document tomorrow that will be interesting. He would not say what it was.

The sixth day of the strike in the Pittsburgh district was the quietest of the week. With the exception of the decision of the national committee to make the Bethlehem Steel Company strike effective next Monday morning, there were no radical changes in the situation. The refusal of men at the Bethlehem Steel Company, on Thursday, to deal with the labor leaders foreshadowed the action of the strikers committee today and it caused no surprise.

There was no great change in the number of men at work today either in the plants of the United States Steel Corporation or in the mills of the independents.

Companies Say Wait.

"Wait until Monday," was the word that came from the steel companies everywhere in the Pittsburgh strike zone. The companies expect that the opening of the second week will find strikers flocking back to their jobs. They claim that thousands of men are willing and ready to return but are retreating from fear of violence.

Secretary Foster said the unions had no fear there would be any considerable number of deserters from the ranks of the strikers.

The strike has resulted in the shutting down or crippling of virtually every plant in the United States Steel Corporation and many of the independent mills. The subsidiaries of the steel corporation were harder hit outside the Pittsburgh district than they were in this vicinity, according to reports. The Carnegie Steel Company managed to keep its great plants at Homestead, Duquesne and Braddock running, although the strikers claimed they were badly crippled. This was denied by the Carnegie Company which insisted that the new men returning to work. The same reports came from the independents that kept their plants in operation.

Four Persons Killed.

Four persons were shot and killed in Western Pennsylvania during the week as a result of the strike.

The strikers charge that during the week many men were clubbed when state troops dispersed crowds. Hundreds of arrests were made in the six days by state police.

The activity of the state troopers led to charges being lodged with

ALABAMA LEGISLATURE ENACTS A MEASURE TO GUARD AGAINST STRIKES

MONTEAGUE, Ala., Sept. 27.—A state anti-strike law was enacted by the legislature today when the house passed the senate bill providing for a fine of not more than \$1,000 and prison sentence for persons found guilty of entering into combinations or agreements to impede industry in the state.

The bill now goes to the governor for signature.

ON BOARD PRESIDENT WILSON'S Special Train, Sept. 27.—Although benefitted by several hours of sleep, President Wilson's condition showed no important change tonight while the special train on which he made his interrupted tour of the country was approaching Washington.

Late in the afternoon Dr. Grayson, Mr. Wilson's personal physician, issued this bulletin:

"The condition of the President this afternoon shows no very material change since this morning, but he has benefitted from the sleep and rest of the early hours of the day."

Remains in Bed.

Remaining in bed nearly all day, the President was said to have regained some of the loss of strength which followed his nervous attack yesterday. His train is due in Washington tomorrow morning and he is taken to the White House for a more complete rest from his long speaking-making trip for the peace treaty.

The bulletin issued by Dr. Grayson was the second of the day, a morning statement declaring there was little change from Mr. Wilson's condition of yesterday, which had been described as "not alarming."

Work is Forbidden.

Mr. Wilson sat up a short time but Dr. Grayson, enforcing strictly his rule of absolute rest, did not permit his patient to give attention to any executive affairs or to exert himself in any other way.

Mrs. Wilson was in constant attendance upon her husband, insisting on seeing him in person to many of his wants.

Dr. Grayson seemed particularly pleased at the rest which the President was able to get during last night and this morning throughout the early part of the day. Mr. Wilson had been restless but in the early morning he fell into a round sleep which lasted for several hours.

Speeding eastward on a clear track, the President's special train virtually without schedule, railroad officials making what they could without taking unnecessary risks.

Dr. Grayson issued a further formal bulletin, he told inquirers last night that the President was doing "as well as could be expected."

"He still suffers from headache and nervousness," said Dr. Grayson, "but he has secured a little refreshment and retained some nourishing food. I believe he will respond to the simple treatment of complete rest."

ROME, Sept. 27.—An official statement issued today denies that President Wilson's note on the Fiume question contained threats to Italy. On the contrary, the statement adds, the President's message included expressions of great cordiality.

Dispatches from Fiume report that Admiral Cagni, government emissary, has arrived there. There were no demonstrations, although crowds assembled at the harbor when the admiral entered.

By CAMILLO CIANFARRA (United Press Staff Correspondent.)

ROME, Sept. 26.—Rome awoke today to the crisis of newshoys: "Wilson denies Fiume to Italy."

Throughout the day conflicting reports continued to circulate. First there was a Paris report declaring President Wilson had proposed creation of a separate buffer state with Fiume as the capital. This version of the President's reply painfully impressed those who are acquainted with the seriousness of the internal situation resulting from the attitude of the army and navy.

Later there was a report that Wilson had demanded the Italian government to expel D'Annunzio from Fiume and restore order, threatening Italy with an economic blockade.

Tomorrow Foreign Minister Tittoni is expected to communicate Wilson's attitude to the chamber.

LIKELY TO BE OCCUPIED BY ITALIAN FORCES

ROME, Sept. 26.—Fiume is likely to be occupied by Italian government forces, the Popolo Romano reported today.

Fredral Badoglio, deputy chief of staff, has issued an appeal to the soldiers, stating that it is useless for them to go to Fiume, as "nobody has dreamed of attacking the city." His plea, evidently, is to prevent further members of the army from joining D'Annunzio's ranks.

Lieutenant Casagrande, a naval officer who had just returned to Fiume from his post in France, indicated the crews of a seaplane escorted to go to Fiume, where D'Annunzio appointed him commander of the insurgent aviation forces.

A dispatch to the Epoca from Trieste says it is learned that D'Annunzio has sent a special appeal to King Emanuele, entreating him not to abandon Fiume, but to insist that it be Italian territory.

Dispatches from Milan say that mothers and widows of men who fell in the war have wired the king urging annexation of Fiume.

By RAYMOND CLAPPER (United Press Staff Correspondent.)

WASHINGTON, Sept. 27.—The Senate Labor Committee will go into reports that there is an attempt to use the steel strike as a lever to pry Samuel Gompers from the leadership of American labor, committee men stated today.

Reports have reached the committee that the radicals in the ranks of labor precipitated the strike to upset Gompers and others of the conservatives in the American Federation of Labor.

These reports were largely disregarded until Gompers statement to the committee yesterday that labor leaders were helpless to stop the strike and that it was the choice of striking under tested leadership or striking under agitators.

To Hear Employers' Side

They will hear the employers' side of the controversy next Wednesday, when Judge Gary, head of the United States Steel Corporation, testifies.

Labor's side, the committee feels, has been adequately described by John G. Fitzpatrick, leader of the strikers and Samuel Gompers, head of the American Federation of Labor.

During the recess of the committee hearings efforts to get employers to agree to arbitration will go forward. Fitzpatrick is confident that an agreement to arbitrate would bring the strikers back to the mills.

Information Obtained.

The arbitration statement was the one big thing senators got from Fitzpatrick.

From Gompers the committee learned:

That the steel strike was inevitable because of conditions in the industry.

That labor was seeking its "day in court."

That the view of the strike and the story of the events that led up to the walkout, without an account of the efforts of Gompers and President Wilson to halt it.

There is growing belief here that the strike, unless settled before that time, will be adjusted at the "round table" conference October 6.

TWO OFFICERS ARE KILLED IN FLIGHT; THIRD IS INJURED

SAN ANTONIO, TEX., Sept. 27.—Lieutenant Colonel Edward M. Leary, Fourth Cavalry, and Pilot Lieutenant J. V. Hollingsworth, Flight A, Eighth Squadron, are dead, and Lieutenant F. W. Connolly, of the same organization, is seriously injured as a result of an airplane crash one-quarter mile north of Fort Ringgold at 11:45 o'clock Saturday morning.

The dead pilot's home was in Belair, Md. Connolly's home is at 1509 Washington avenue, Scranton, Pa.

Lieutenant Colonel Leary's widow is at Fort Bliss, near El Paso, Texas. He is a native of Massachusetts.

While the 90th Division was stationed at Camp Travis Colonel Leary served as a colonel of Infantry in command of the 15th train and the military police. Three weeks before the division left for overseas he was transferred as commanding officer of the 35th Infantry, in which capacity he served overseas. He was cited for bravery and heroic action while leading his command during the St. Mihiel offensive in August, 1918.

Lieutenant Connolly resided in Belair today and was making his farewell flight as a military aviator.

MEXICAN EMBASSY CHARGES GATES IS AN AGENT OF THE REBELS

WASHINGTON, Sept. 27.—William Gates of Baltimore, who recently was chairman of the House Rules Committee in its recent inquiry into the Mexican situation, attacked the Carranza Government as an "outlaw," is accused by the Mexican embassy of being an agent of the Mexican rebels. The embassy's charge together with documents bearing on it, was sent to Chairman Campbell today by the State Department.

After examining the papers, the committee members said the committee should have some power to punish witnesses concerning their connections. The communication included what purported to be a part of the private correspondence of General Jenarrio America, confirming the appointment of Gates "to represent the interests of the revolution before the House commission to investigate Mexican affairs." It was dated at Havana, Cuba, last July 23, the day that Gates appeared before the committee.

He described himself at the time as an archeologist who had recently visited parts of Mexico seldom seen by a tourist.

KING AND QUEEN TO BE AT WHITE HOUSE LAST OF THIS WEEK

WASHINGTON, Sept. 27.—King Albert and Queen Elizabeth of Belgium, will be the guests of the President and Mrs. Wilson at the White House next Saturday, Sunday and Monday, it was announced today at the State Department.

On Saturday the King will be received by the Senate, which today agreed to recess at 3 p. m. that day to receive him.

GREATEST STRIKE IN HISTORY OF ENGLAND IS WITHOUT DISORDER

LONDON, Sept. 27.—The first day of the greatest strike in England's history passed without disorder, but with practically complete stoppage of railway transports throughout the country. Thus far it has been from a union standpoint the most successful tie-up of industry ever recorded by warring labor.

Tonight a great mass meeting of railwaymen was held in Albert Hall, at which James Henry Thomas, secretary of the National Union of Railwaymen—after the audience for an hour had sung "The Red Flag"—delivered a heated speech of censure against the government, and declared that trouble was brewing which might lead to bloodshed.

Both Thomas and C. T. Cramp, president of the union, who had preceded him, asserted that the men were firmly behind the leaders in this great crisis.

GETTING TOGETHER ON A PROHIBITION ENFORCEMENT BILL

WASHINGTON, Sept. 27.—Senate and House conferees today failed to reach an agreement on the prohibition enforcement bill, senators at the conference committee say they had reached a proposal that would lead to a settlement.

NAVY SEAPLANE LEAVES FOR BOSTON

PORTLAND, ME., Sept. 27.—The navy seaplane NC-4 left here at 2:19 today for Boston on the first leg of her recruiting cruise down the coast of the Gulf of Mexico.

GERMANY TO USE 14 OIL TANKERS

PARIS, Sept. 27.—The Supreme Council today decided to allow Germany the use of 14 oil tankers until the oil contracted for in America has been delivered. The oil tankers will then be divided among England, France and Italy.

REVISED SUMMARY OF STORM CASUALTIES IS GIVEN AT 320

CORPUS CHRISTI, TEX., Sept. 27.—A revised summary of the casualties made public tonight by the bureau of information places the known dead in the vicinity of Corpus Christi as the result of the hurricane and tidal waves which swept over the South Texas Gulf coast Sunday, September 14, at 320. Of this number 187 were identified, leaving 133 in the list of those still unidentified. The known dead in the vicinity of Rockport, Aransas Pass and Port Aransas are officially given as 28, bringing the death toll in the area to 215, and up to 245 in Corpus Christi alone the list of persons still unaccounted for contains 275 names, making a grand total of 620 for the entire districts, including known dead and missing.

EXPECT INDICTMENTS AGAINST THE PACKERS IN NEXT TEN DAYS

CHICAGO, Sept. 27.—The federal grand jury which is investigating the "big five" packers is expected to return indictments within ten days for violation of the Sherman anti-trust act, according to a report here today.

It is said that the greater portion of the evidence in the hands of the government already has been presented in the jury.

TARIFF WALL IS ERECTED AGAINST GERMAN DYESTUFF

WASHINGTON, Sept. 27.—The House today sent to the Senate the bill for a protective tariff wall around the country to prevent the German dye interests from destroying the American industry built up during the war. The bill was passed on a party vote of 154 to 115 late last night.

SECRETARY DANIELS CONFIRMS LANDING OF AMERICAN MARINES ON LOWER DALMATIAN COAST

WASHINGTON, Sept. 27.—A force of American sailors from the cruiser Olympia was landed at Trau, on the lower Dalmatian coast, September 25, Secretary Daniels announced today. Without bloodshed the Americans gained possession of the city which previously had been occupied by a force of Italians.

Secretary Daniels said:

"On September 25, a number of Italians surprised and captured Trau, a Dalmatian port in the zone assigned by the supreme council to be policed by the Americans. A small landing force from the U. S. S. Olympia succeeded in recovering the town and preserving order there without bloodshed. Serbians were persuaded by Admiral Andrews from taking action.

Near Admiral Andrews, commanding the American naval forces in the Adriatic, in reporting the landing, said he acted on instructions from the Supreme Council at Paris, received after he had reported that a force of Italians, apparently revolutionists, had occupied the city the morning of September 25. His message did not say whether the Americans still occupied the town, but press dispatches from Copenhagen said Paris have said that the Americans withdrew after turning the town over to the Jugo-Slav forces.

The Italians, Admiral Andrews reported, retired when the Americans landed without offering resistance. It was said at the navy department that Trau is in that section of the Dalmatian coast assigned by the peace conference to the United States for patrol. The Italian government is responsible for the strip of coast line to the northwest and the French for that to the east.

EXPECT FIRST ACCURATE TEST OF STRENGTH IN THE SENATE ON TREATY DURING THIS WEEK

WASHINGTON, Sept. 27.—All that part of the German peace treaty affected by the amendments of Senator Fall, republican, New Mexico, which would exempt the United States from representation on a frontier views from members of his party in the Senate, some of whom will tell him the treaty can be passed without reservation or amendment. Others will present the view that there is absolutely no hope of its ratification, in its present form.

Senator Smith, democrat, Georgia, announced today that he planned to present to the Senate Monday a set of reservations to the treaty similar to those offered by the group favoring "mild reservations." It is understood that Senator Smith's reservation to article 18 of the treaty will declare that American military forces cannot be used in furtherance of a territorial guarantee without the approval of congress.

NO EPIDEMIC IS YET THREATENED ON COAST

AUSTIN, TEX., Sept. 27.—While sanitary conditions in the storm-swept districts of Texas coast are still bad, no epidemic is threatening and health authorities have hope of being able to clean the territory before health of the survivors is seriously affected, says State Health Officer C. W. Goddard, who returned from Corpus Christi last night.

The water supply, sewerage and garbage disposal in Corpus Christi has been taken care of, continued Dr. Goddard; and all animal matter has been disposed of.

WEATHER FORECAST FOR COMING WEEK

WASHINGTON, Sept. 27.—Weather predictions for the week beginning Monday are: West Gulf states generally fair, with a few showers; central states generally fair, with a few showers; north states generally fair, with a few showers; temperatures moderate.

SENATE DECIDES TO INVESTIGATE SUGAR SITUATION

Resolution Providing for Inquiry Is Adopted Saturday by Unanimous Vote.

WANT A REPORT ON THE REASON FOR SHORTAGE

Predicted That Price Will Soon Go to Twenty Cents a Pound Retail.

WASHINGTON, Sept. 27.—The Senate today adopted without debate a resolution providing an investigation of the sugar situation.

The resolution was introduced by Senator New, Indiana, and as passed directs the Senate Agriculture Committee to conduct the investigation. The committee is ordered to report as soon as possible to the Senate on the reasons for the shortage of sugar, information regarding the price and whether unjust or exorbitant profits have been made and by whom; on the prospects for relief from the shortage and to advise whether legislation should be passed and whether the equalization board should be continued.

Predicts 20 Cent Sugar. New predicted that sugar will soon go to 20 cents a pound retail and that the country will face a sugar famine next year worse than that which occurred during the war.

The only way to prevent the increase of prices and famine, New said, is to extend the wartime control of sugar, which the sugar equalization board has had. This control will expire with the proclamation of peace. Recommendations that this be done have been before President Wilson since August, New said, but has not been acted on.

The Equalization Board called the President's attention to the serious situation, said New, and advised that its control be extended to cover the 1915 beet sugar crop and the 1920 Cuban cane crop, in order to provide an equitable price and fair distribution.

Refiners to Resist. "Ours to the failure to act on this recommendation the sugar refiners are asking 11 1/2 cents a pound for beet sugar at the refinery. The stock of sugar will be exhausted in four weeks and in November and December a serious shortage will result in the entire eastern half of the country.

PROTEST THAT LABOR IS ASKING TOO MUCH. KANSAS CITY, MO., Sept. 27.—Protesting that organized labor is demanding more production of the farmers, while demanding of its members less production, delegates to the International Farm Congress late today went on record as deploring strikes except "in grave emergency" and opposing the unjustification of police and other peace officers.

TIMES RECEIVES \$2,374.60 FOR CORPUS CHRISTI RELIEF FUND; TOTAL OF \$7,767.44 COLLECTED

Contributions of readers of the Times to the Corpus Christi relief amounted to nearly one third of the total, according to the official report of the treasurer of the fund, Herbert Harrison, secretary of the chamber of commerce, who shows a total of \$7,767.44 received, with \$7,000 forwarded to Governor Hobby. The total amount contributed through the Times, which is closing its subscription lists tonight, was \$2,374.60.

Through an oversight the Times failed to give credit for a contribution of \$5 forwarded by J. A. Miller, which was carried in the totals without being acknowledged.

Contributions received to date follow: Previously acknowledged \$2284.60 Employees Wichita Falls Motor Co. 40.00 Boy Scouts, Troop No. 1, Sam P. Sprules, scoutmaster 25.00 A. J. Schultz 5.00 O. R. Hart 10.00 J. R. Welch 10.00

Total \$2374.60 Mr. Harrison's statement follows: Total collections, including collections by the Wichita Daily Times and the Wichita Falls Record-News, the The Bridge and the committees from the Rotary and Wichita Clubs and the chamber of commerce, \$7,767.44. Wired to Governor Hobby, \$5,000.00; authorized governor to draw, \$2,000.00; \$7,000.00. Balance \$767.44. National Bank of Commerce, depository.

GOVERNOR RECEIVES TOTAL OF \$105,828. AUSTIN, TEX., Sept. 27.—Contributions for relief of Texas storm sufferers under the Governor's office totalled \$105,828 as noon today. Donations since yesterday were \$1,900.

COMPETING BALLOON COMPELLED TO LAND. ST. LOUIS, Sept. 27.—A telegram received here at 11:45 tonight reported the landing at Stittville, Mich., of the last contestant remaining to report in the army-navy balloon race started here yesterday with five competitors. The message, filed at Cadillac, Mich., stated the craft descended at Stittville at 10:20 this morning.

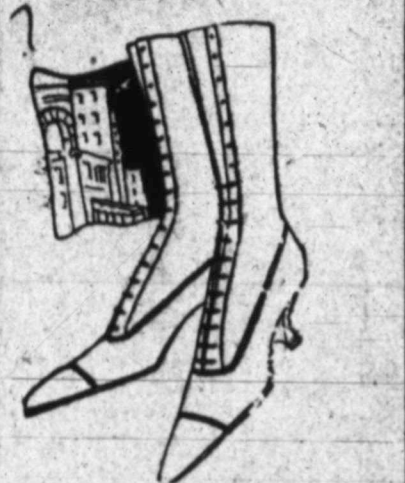

OBREGON NOT TO ACCEPT INVITATION TO MEXICO CITY. NOGALES, ARIZ., Sept. 27.—General Alvaro Obregon, candidate for president of Mexico, denies published statements to the effect that he planned to take advantage of the invitation of President Carranza to visit Mexico City.

General Obregon, who is here today making arrangements for a campaign tour of Mexico, when shown a dispatch from Washington commenting on his plans to visit the capital, said: "I have never had any forethought to arrive in Mexico City during the absence from the capital of President Carranza, with whom I enjoy the utmost friendship. I am making final arrangements to inaugurate my campaign in October. When I reach Mexico City I expect to meet President Carranza."

MRS. BABER'S PUPILS IN RECITAL FRIDAY

Friday evening Mrs. J. M. Baber entertained with the first recital of the season for her class in piano, the recital being given at her home, with parents and friends forming an appreciative audience. Nash Quad Now Standard Equipment For Marine Expeditionary Service

THE NASH QUAD, with its record for dependable performance in the service of the Allies during the world war, has been selected by the Standardization Board of the U. S. Marine Corps, as standard equipment for expeditionary service.

The selection of the Quad as standard equipment for this use was made after the Marine Corps had conducted exhaustive tests of various trucks, had carefully compared data as to performance and reliability, and after it had had an extended experience with more than 400 Nash Quads in actual service.

This means that from now on Nash trucks go wherever the Marines are sent, to bring up munitions and supplies, and to do all the various hauling tasks for these famous fighters of Uncle Sam.

Nash Trucks—One-Ton Chassis, \$1650; Two-Ton Chassis, \$2250. Nash Quad Chassis, \$3250.

In addition to Nash trucks there is a full line of Nash passenger cars with Nash Perfected Valve-in-Head Motor.

The Nash Motors Company, Kenosha, Wis. Manufacturers of Passenger Cars and Trucks, including the Famous Nash Quad.

ARRESTS FOLLOW MIDNIGHT REVELRY IN HOME OF CITY

A tragedy in three acts, the first a midnight escape where intoxicated men are said to have flowed freely; the second act a grim, but heart-touching affair, staged at the police station yesterday when a man paid his wife \$1,000 and gave her an automobile and her diamonds to leave the city, and the third in an attorney's office when the last good-bye was said, might yet have a final curtain or an encore in the United States district court if federal agents can find out where the whiskey came from.

Personae dramatics, which means cast of character in high-brow, consists of a beautiful young matron, two wayward girls of the half world, and three prominent young business men of Wichita Falls. The other character, really the hero of the drama, is the husband, a well-to-do man. The special agents, police and investigators are the "supers" in the cast.

Saturday morning at 2:00 o'clock he appealed to the police to arrest the members of a gay party who had taken possession of his home, which is in one of the fashionable residential districts of the city. The police responded. The wife, the two girls and the three men were arrested Saturday in police court the three men were fined \$50 each on charges of disturbing the peace; the two girls were fined \$25 each on similar charges, and Saturday the handsome young wife made bond in the sum of \$100 for her appearance in police court Monday. And—the husband made the \$100 bond!

Friend husband, supposed to be out of town, appeared suddenly on a belated train at something after 1:00 o'clock Saturday morning. He went home, as husbands do, possibly expecting an affectionate greeting from wife. He arrived in the midst of the revel. Bottles of whiskey, the remnants of a lunch and other things littered the living room. Cigarette smoke laden the air and all of the affection manifested at all was bestowed upon the three young business men. There was none for the hero.

The arrests followed, and then the fines. Then the wife and two girls were taken to the courthouse where an investigation was started to ascertain where the whiskey came from. The outcome of that investigation is anxiously awaited. In the meantime, the wife was given \$1,000, her diamonds and an automobile and she gave the husband a deed to her home. Then she took her departure from the city. The husband said he would institute divorce proceedings. The wife said she would not object.

It costs no more to deal with an established realty firm and often much less than it does to deal with one you do not know. We have been engaged exclusively in the handling of Wichita Falls real estate for the past ten years and have handled hundreds of others business and we ask you on the same principles that we have handled others. N. O. Monroe, 220 First Nat'l Bank Bldg. Phone 2454. 121-117

SATURDAY THE 37TH BIRTHDAY OF THE CITY OF WICHITA FALLS; TOWN LOT SALE ON SEPT. 27, 1882

Few of Wichita Falls' 50,000 inhabitants, outside of the bare handful whose memory of the place goes back to that date, realized that Saturday was the 37th birthday of the city the original sale of town lots having taken place on September 27, 1882.

The opening up of the townsite came immediately after the completion of the Denver railroad to this point by General Grenville Dodge and his associates, the rails having been completed to Wichita Falls on the Sunday of the same week as the sale.

The original sale was made by the Panhandle Townsite Company, a subsidiary of the Denver, and was managed by R. E. Montgomery, the general manager of the company, who was for many years a resident of Wichita Falls.

The auction itself, which was held by an auctioneer famous in his day, imported from San Antonio for the occasion, opened briskly, the first lot, between Sixth and Seventh on Ohio, selling for a price of about \$750.

The lots near the Wichita river were the most popular, bringing far higher prices than those now occupied by buildings such as the Kemp & Keil, First National, City National, National Bank of Commerce and Clint Wood buildings, which brought ridiculously small prices.

Previous Settlement. Although this sale marked the official beginning of the town, a settlement had existed at this place for a number of years, having increased just before the sale to such an extent that it boasted of six homes and one store, opened by Tom Waggoner, and afterward run by Sam Satterfield, although it continued to be known as the Waggoner store.

The families living here at that time consisted of that of A. T. Harris, father of County Clerk Will Harris, who built the first house in the settlement in 1879, which is still in good condition and is situated near the Hunt Grain Co. elevator; that of Judge Seelye, at that time leader of the settlement, who lived on Ohio near Sixth, that of Judge J. H. Barwise, who lived on the site of the old Barwise building between Sixth and Seventh on Ohio, and of the late Justice W. J. Howard, F. M. Davis and Dave Haller. Judge R. E. Huff, at that time a young unmarried man, came to Wichita Falls the summer before the auction.

Rush of People. "Just before the townsite was opened up, however," says Mr. Harris, who was then a boy of fifteen, "people began flocking in here, pitching tents for the housing of themselves and for the carrying on of business. In the tents there were a dry goods, grocery and a drug store, and any number of saloons and gambling dives. At the time of the auction, I suppose, there were 250 tents on the site of the future city.

The townsite had been laid off in the spring of 1882, the father of Steve Reynolds, an old-time friend of mine, and the first postmaster of Wichita Falls, who was a recent visitor here, being in the surveying party. From Steve Reynolds, aside from that which I remember myself, I obtained much of my information of that time.

"Almost coincident with the opening up of the townsite came the first two lumber yards, one being of a string operated by the late Captain O. T. Lyon of Sherman, and the other being operated by the J. S. Mayfield Lumber Co. of Dallas. The latter yard was operated here until a few years ago, finally being purchased by Moore & Richolt and burning down in the disastrous fire of three years ago which pretty well cleaned Indiana and Ohio from Seventh to the river.

Wide Open Town. "Wichita Falls in 1882, 1883 and 1884 was a wide open town, although a measure of authority began to be enforced in 1883 by the eight or ten Rangers which were constantly stationed here during those years, and saloons and gambling houses began to at least close their front doors on Sunday, and otherwise indicate that they felt the effect of the sentiment in favor of law and order from the rapidly increasing population.

"I think the last attempt to 'shoot up the town' on the part of a boisterous party of cowboys came in 1883. They were pursued by Rangers, and a running fight in which one of the party was pretty painfully hurt, ensued.

On the completion of the railway, the first stage line, which had been operated to Henrietta by Dick Wheeler, whose widow and son still live here, was discontinued to that point and operated for the next several years between this place and Seymour.

"Of the present residents, who were here at the time of the original sale, besides those I have mentioned are Judge J. H. Barwise, Mrs. A. H. Carrigan, Mrs. R. E. Huff and myself."

IMPORTANT MEETING OF JEWISH CONGREGATION

Important business matters pertaining to the building of a synagogue and permanent organization of the congregation are to be discussed in a meeting of the Jewish congregation, announced for 2:00 o'clock this afternoon at the First Presbyterian church, corner of Tenth and Bluff. All Jews in the city, who are interested in seeing the establishment of a synagogue are urged to attend.

Care of Chamber of Commerce

SAYS SUSPENDED SENTENCE LAW IS A FAILURE HERE

That the suspended sentence law is a complete and abject failure is the belief of Sheriff McFall, and it is likely that when the state sheriff's association meets here, Sheriff McFall will endeavor to induce the association to petition the legislature to repeal the law.

Within the week three men serving suspended sentences have been placed in the county jail on new charges growing out of the commission of new offenses.

"In my whole experience, I have seen four men come into court and ask their sentences be set aside," said the sheriff. "Just four men have appreciated the fact they got suspended sentences. Look at the hundreds whose sentences have been suspended. Scores of them commit new crimes and get into jail again."

"If the law is not repealed, it should

TRY, TRY AGAIN ADAGE ALWAYS WORKS WONDERS

The old adage, "if at first you don't succeed, try, try, again," has worked wonders for most of us. Some time in the lives of every one we imagine that things are going against us. The weaker become discouraged and give up while the stronger face this great game of life with staunch heart, clear brains, and steady hands, and with this good old adage as a slogan.

Probably more persons become discouraged over ill health than from any other cause. The records of every city will bear this out. Others, who probably suffered with as much physical pain and agony as their mentally weaker brothers, will not give up the fight, but will do all in their power to gain relief.

Difficulties are the test of the man. Hundreds of people testify daily that they have suffered years of torture and agonies from stomach or kindred troubles and had tried everything before they heard of Orgatone. These people did not give up the ship, after the first remedy failed to cure them. When they heard of the wonders that Orgatone, the new reconstructive treatment, was working they did not lose their opportunity to be aided simply because other preparations had failed. It is this "stick-to-it-iveness" that has won happiness for thousands.

Improper food, poor digestion, over eating, and lack of healthful exercise have cut short the lives of thousands from the lowest to the highest in the land. Orgatone famous vegetable preparations, has proven invaluable for stomach trouble, which, after all, is the base of most ills. Orgatone overcomes poor digestion, restores normal appetite, brings good, restful sleep and vanishes that tired, nervous feeling—in short, it restores the stomach to the habit of doing a full day's work and doing it well.

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls exclusively by the T. P. Young Drug Company, under the personal direction of a special Orgatone representative.—(adv.)

at least be amended to apply to fewer crimes and so arrange that only deserving persons, persons whose crimes are minor and who really have repented—should benefit."

Card of Thanks. We wish to express our thanks and appreciation for the kindness of our

many friends during the sickness and death of our son, brother and friend, Monteth Wood; also for the beautiful floral offerings. Mr. and Mrs. J. C. Wood, Mr. and Mrs. W. E. Wood, R. C. Wood, Hubbard and Esther Wood, Mr. and Mrs. Thad Beggs and J. D. Beggs and family. 121-117

For sale: Complete 6-room house-hold, absolutely everything for an elegant home, piano, large Sonora, three beds, dining room, parlor, kitchen brick a bricks, linin, rugs, etc. Call 2446 for price. Will not sell separately. Wonderful opportunity. House also for sale. 121-40

NEW OFFERING.

The Associated Oil Company of Texas. Authorized Capital \$5,000,000. Outstanding \$1,500,000.

OPERATING ORGANIZATION.

The consolidation of these several properties makes possible a highly efficient and unified operating organization to which may be added other organizations embracing every phase of the petroleum business.

VALUE OF PROPERTIES.

Based upon values as established by actual sales of properties, as well as independent appraisals, the value of the property acquired by the company through this consolidation is well in excess of \$1,500,000.

EARNINGS.

Based upon existing conditions in the oil business and what may be expected, we believe a conservative estimate of the company's earnings the next twelve months to be not less than \$2,500,000, or approximately sixty-five per cent on the outstanding capital.

DIVIDENDS.

The management will endeavor to maintain a liberal dividend policy, considering, always, the exigencies of business and the best interests of the stockholders.

MANAGEMENT.

The management of the company will be in the hands of experienced and successful men, thoroughly familiar with the North Texas and Mid-Continent fields, to which its operations will be confined for the present.

RAILROAD OFFICIALS INSPECT THE VALLEY AND SOUTHERN LINES.

STAMFORD, TEX., Sept. 27.—Robert Rice, federal manager, and W. F. Sterley, general passenger agent, of the Fort Worth & Denver Railway, D. E. Mear, superintendent of the Wichita Valley Railway, and other officials of the Fort Worth & Denver lines have been on a tour of inspection of the Wichita Valley and Abilene and Southern lines.

NEW ORLEANS TO HAVE NEW COTTON EXCHANGE.

Watch the New South Pool and Pierce Oil Co. No. 2!

In the New South Field! Well Flows A Barrel a Minute! Keep Your Dollars Ahead of The Drills!

40 ACRES!

Here are the astounding facts of our offer: A REAL OPPORTUNITY—Our proven shallow production gives you positive assurance that your money is in a safe venture and the fact that we have in all human probability this gusher sand at 1200 feet coupled with our large lease of 40 acres, our low capitalization of only \$60,000, makes Pierce Oil No. 2 the most attractive investment offered the fellow who wants to make some good, real money quick. Our rig is up. It is of standard size. We expect to begin drilling just as quickly as we can get on the property. There are scores of shallow wells on three sides of us. This is the one deal where, in all reason, you can't lose.

BARREL A MINUTE WELL IN SHALLOW BURKBURNETT FIELD

REMEMBER Texas Chief, Burk-Waggoner and other big strikes had big blocks to drill on.

We Have 40 Acres

Phone or Wire our Reservation—Then Mail Check. Lease owned outright; rentals paid—a sure shot; act now

Pierce Oil Co. No. 2 810 9th St. Phone 895 Wichita Falls, Texas

Make all checks payable to J. W. Keller, Trustee J. W. Keller, President Pierce Oil Co. No. 2, 810 Ninth Street, Wichita Falls, Texas. Enclosed herewith find \$..... for..... shares of stock in Pierce Oil Co. No. 2. I understand that this is a joint stock association of limited liability to stockholders and that, in the declaration of trust, you have agreed to drill to a depth of 1600 feet unless oil or gas is found in paying quantities at a lesser depth.

—From the Wichita Falls Daily Times, front page, yesterday. Read it—then phone or wire your reservation and send in your subscription. Our property is near this well. (Note—The article should read that this well is a mile and a half ahead of production at the depth.)

Interest of the oil fraternity today is centered in the Texhoma Oil & Refining Co.'s No. 1 Daniels, a mile and a half from production in the shallow Burkburnett field, south of the townsite, which is said this morning to be flowing a barrel a minute. The well was turned loose yesterday, and its behavior was such as to cause much excitement, and leasing and trading in this vicinity is exceptionally active. This well found the sand around 1200 feet.

MEN! WE MAKE OUR BOW

All dressed up with the newest fixtures, sporting everything that's best in Men's Wear. The Kaufman & Levin Store of Quality is ready for business and invites your inspection. —Here's a shop that's dedicated to the business of outfitting particular men with particularly good Men's wear. Drop around any day—take a look around the new shop. You'll surely be welcomed then and any other day on the calendar.

Kaufman & Levin 717 Eighth Street

Largest Finest-Best Equipped Baking Powder Factory in the World

It grew from a modest beginning. Demand for Calumet *compelled* it to grow. Calumet proved so economical—so much safer—so much more satisfactory in every way—millions of housewives bought and used it. For years they have continued buying and using—and with every passing year multitudes of *new* customers come to Calumet. Cleanliness so essential to purity is strictly observed. Human hands never touch

CALUMET BAKING POWDER

Skilled workers are clad and gloved in spotless white. Wide window area allows a constant inflow of nature's purifiers—sunshine and fresh air.
The absolute uniformity of Calumet is guaranteed by maintenance of our modern laboratories and kitchens. Analytical chemists test Calumet for purity and leavening strength. Expert chefs test it for baking quality.
It is utterly impossible for you, at any time to obtain a can of Calumet that is not strictly up to the Calumet standard of "Best by Test."
Its superior quality meets every baking requirement. It insures greatest baking savings and guarantees better baking results. In any baking—you are always assured tasty, tender, evenly raised goodies that are thoroughly wholesome.

Calumet is sold at a moderate price. It possesses twice the usual leavening strength. You use only half the ordinary amount. You save when you buy it. You save when you use it. You save materials it is used with. The most economical Baking Powder to use when you want to practice real economy.
Try it. Stop taking chances. Stop paying exorbitant baking powder costs. Stop wasting good energy and good money on inferior and always uncertain brands. Make a "best by test" Calumet trial today. Your grocer will refund purchase price if you are not *better* satisfied with Calumet than you ever were with any other brand.

Don't Overlook This!

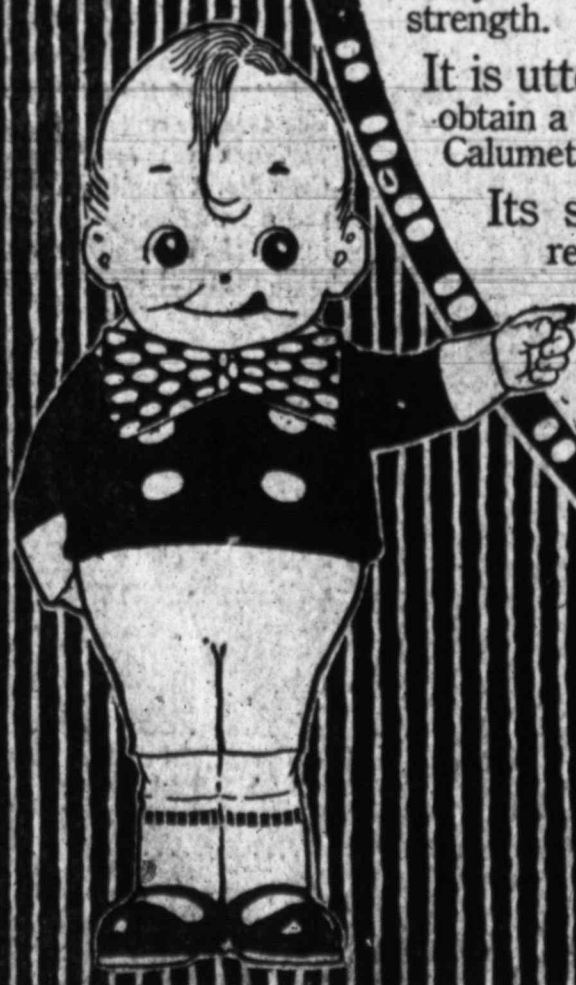

When you buy a pound can of Calumet you get a full pound—16 ounces—no short weights. Some baking powders are now being put on the market in 12 ounce cans instead of pound cans. Be sure you get a pound when you want it. Remember—Calumet is not made by the Trust—not sold at Trust prices.

Makes Most Palatable and Sweetest of Foods
Valuable 72-page Cook Book handsomely illustrated in colors. Most complete and dependable recipe book ever published. Hundreds of helps in reducing household expense. Scores of selected recipes—new and better ways of making better foods.
Send slip found in can of Calumet and three 3-cent stamps to help cover cost of packing and mailing.

By ADEGIA MORGAN
 I'd rather have the sought of you
 To hold against my heart,
 My spirit to be taught of you
 With west winds blowing,
 Than all the warm caresses
 Of another love's bestowing,
 Or all the glories of the world
 In which you had no part.
 I'd rather have theme of you
 To thread my nights and days,
 I'd rather have the dream of you
 With faint stars glowing,
 I'd rather have the want of you,
 The rich, elusive taunt of you
 Forever and forever and forever un-
 comfost
 Than claim the alien comfort
 Of any other's breast.

O lover! O my lover,
 That this should come to me!
 I'd rather have the hope for you,
 Ah, Love, I'd rather grope for you
 Within the great abyss
 Than claim another's kiss—
 Alas, I'd rather go my way
 Throughout eternity.

WOODMEN CIRCLE HOLDS INTERESTING MEETING

The Woodmen Circle No. 1087 met in interesting session Wednesday afternoon, the first meeting in the new hall. Much enthusiasm was shown for resumption of work for the fall, and the attendance was exceptionally good. Special business was attended to and delicious refreshments were served.

The circle will meet regularly the second and fourth Wednesdays of each month, and every member of the team is urged to be present at the next meeting, October 6, and each succeeding meeting. A special invitation is extended to out-of-town members.

Those attending the Wednesday afternoon meeting were: Mesdames Webb, McConkey, Blankenship, Prang, Scott, Sherrill, Kukuk, Smith, Oakey, Ground, Dettler, Gibson, Fitzgerald, Marshall, Williams, Wilkes, Huggins and Aringer, Misses Pearl Young, Josie Young and Balsora Ground.

NEW CENTURY CLUB BEGINS FALL STUDY

With a "get together" social session at the home of Mrs. G. C. Wood, the New Century Club will begin the 1919-20 club year on Wednesday, October 1. The club this year will study American and English literature, the program having been arranged by Mrs. De Bault, of Kansas City, a specialist in study programs. The year books show a splendid and interesting arrangement of programs, and a profitable year is anticipated.

Mrs. Wade Walker is president of the club this year and Mrs. N. M. Clifford, vice president. Mrs. J. C. A. Guest is recording secretary, Mrs. C. E. McEachern, corresponding secretary, and Mrs. J. Soale McDaniel, treasurer. Mrs. E. H. Burnside is the federation director of the club and Mrs. Norris Martin and Mrs. Charles W. Spaldier were the program committee.

UNIQUE INDOOR CARNIVAL FOR JUNIOR LEAGUERS

Exceptionally unique and delightful from an entertainment standpoint was the Junior League indoor Carnival held Friday evening, September 26, at the M. E. Church, South. Rev. and Mrs. W. H. Wallace Jr. were in charge of the carnival and their enthusiasm and enterprise, coupled with the young folk who were participating in the program made this affair an unequalled success, enjoyed by about 250 young people.

Among the clever young performers were Pierce Langford as the musician, Florida Scovell as the "bone rattler" and Miss Helen Snider as the caddy fortune teller. Misses Mildred Martin and Adnah Orin Barnes presided over the candy booths, and other members of the league were in charge of various other "concessions."

ENTERTAIN BROTHER HOME FROM NAVY

Mr. and Mrs. Martin D. Rowe entertained as their week-end guest, Mr. Rowe's youngest brother, Lanson P. Rowe, who is out of the navy after two years of service. Young Mr. Rowe will go Monday to his home in Alto, Tenn.

BETA DELPHIANS TO MEET ON THURSDAY

The Beta Delphians meet this week at 3:00 o'clock on Thursday afternoon at the Kemp Public Library. The first course on Greek philosophy is concluded in the program for this week, and plans for the ensuing course will be taken up Thursday. In connection with the announcement of the program, hints that features of a surprising nature with regard to the work this winter are to be brought out at Thursday's meeting, and a special invitation for a full attendance is extended.

INTERESTING VISITOR AT ABE MARCUS HOME

Wichita Falls has an interesting visitor this week in the person of Miss Etta Ettelson, sister of Mrs. Abe Marcus, who has been a popular visitor here before on various occasions. Miss Ettelson is enjoying a short rest, after having been engaged in government work during the war in the child welfare branches. Her work has taken her to Washington, and to various other eastern and southern points. Miss Ettelson's home is in Waco.

MRS. ALFRED BOOTH AND SON RETURN HOME

Mrs. Alfred Booth and baby son, Alfred Jr., have returned from Chicago and are domiciled at the home of Mrs. Booth's parents, Mr. and Mrs. J. A. Kemp until the Booth home, on Ninth and Tilden, is completed. Mrs. A. V. Booth, mother of Mr. Booth, accompanied her daughter-in-law and grandson from Chicago and will be here for some time.

TO RESUME SATURDAY AFTERNOON STORY HOUR

Resumption of the Saturday afternoon story hour for the children, enjoyed during last winter by numbers of interested little folk, was announced Saturday by Miss Polly Roberts, the story telling to begin on the Saturday of next week, October 4. Announcement of the story teller for the first hour will be announced later in the week. The librarian plans to continue the entertainment throughout the winter months.

REV. AND MRS. DRAPER LEAVE FOR A VISIT

Rev. and Mrs. H. F. Draper leave Wichita Falls tonight to visit her relatives until October 1. They return here to preach October 5 and 12, then go to the Oklahoma Annual Conference at Oklahoma City and to Chicago where Mr. Draper will take a church and pulpit studies in Chicago University and Northwestern University to finish the necessary work to receive the Doctor of Philosophy (Ph. D.) Degree.

CHRISTIAN CHURCH AID TO MEET ON MONDAY

With Mesdames Christensen, Thornberg, Isabel, Bond, Cloud and Prothro as hostesses, the Ladies Aid of the First Christian church will meet at the home of Mrs. J. V. C. T. Christensen at 3:00 o'clock on Monday afternoon. Routine business matters, plans for fall work will be discussed and friends are urged to be present.

HOME AFTER SPENDING SUMMER IN COLORADO

Mrs. J. M. Sammons and daughter, Florence, are at home after spending the summer in Colorado. Dr. and Mrs. E. E. Thornburgh will return this coming week, remaining for a little longer stay.

SOCIAL BREVITIES.

Mrs. John Tancred, 1717 Elizabeth street, has returned from a three weeks' visit in New York and other eastern points.

Card of Thanks.
 We desire to express our deep appreciation to our many friends for their kindness and sympathy during the illness and death of our dear wife and mother, and also for the many beautiful floral offerings. J. Eckert and family.

The handsome new quarters of the National Bank of Commerce, on the corner of Eighth and Indiana sts., it is hoped, is ready for occupancy about the middle of December.

A new style note in women's suits, coats and dresses

The newest interpretations are here, revealing the approved fashions for Autumn wear. Developed along exclusive lines, achieving an individuality that will appeal to women of discriminating taste, effectively bringing out those distinctive notes that mark the authentic styles favored by the leading artistes of Paris.

\$39.50 TO \$200.00

Women's Coats

Complete showing of the latest models in the new colors and fabrics.

Boivisa Cloth Coats, French seal collar, lined throughout with beau de cygne Reindeer, brown, hay and navy, at—
\$35.00 TO \$85.00

All Wool Burra Cloth Coats, lined throughout with beau de cygne Taupe, walnut, bison and brown—
\$55.00

Fur Trimmed Coats and Wraps at—
\$65.00 TO \$200.00

Dress Department

Distinction in gowns is usually synonymous with high prices. Not so, however, in this case, as a glance at the illustrations will reveal.

Many are developed in Satin—not ordinary Satin—but a heavy, lustrous quality. Crepe Meteor or Georgette Crepe was selected for others. The tailored models are fashioned of fine Tricotine or Serge.

Artistic embroidery, which one also usually associates with costly garments embellishes every model. It is skillfully executed of beads, tinsel thread or silk braid—
\$29.50 TO \$175.00

To Keep Seborrhea Away Use Famo Every Day

It may seem a strange thing to say, but it is a fact, that people are too enthusiastic about FAMO.

They see the signs of seborrhea, which kills the hair, disappear after one, or at most, two or three applications.

They note that the hair takes on a new sheen—that it grows thick and wavy, and looks better and healthier in every way.

The change is so marked, and they hear such wonderful stories of new hair growth by FAMO, that they argue that frequent applications are not necessary.

There is no need of this. FAMO is a medicine for the hair, and should be used as a medicine, faithfully and continuously.

How can it be so effective? The seborrhea bacillus will attack again.

Seborrhea is an danger and persistent as pyorrhea and pyorrhea is treated daily.

If you do not keep it away it will kill the roots of the hair, just as pyorrhea kills the roots of the teeth.

We know of no medicine more FAMO that will kill seborrhea, and we know of no other that will prevent the re-entrance.

But even FAMO cannot do this. It must be used daily.

You should no more think of using FAMO only once a week, than you would think of using your tooth-brush once a week or using the dentist's prescription for pyorrhea once a week.

FAMO is so necessary, every day, as your tooth-brush is necessary, every day.

When you use it that way you are doing the best thing you can do to secure beautiful hair and a scalp free from dandruff.

It takes but a few minutes every morning to use FAMO.

It requires no rubbing in or massaging.

Be sure of your hair. Be sure by using FAMO every day of your life, wherever you are and whatever you do.

FAMO is sold at all druggists, counters, in two sizes—\$1 and 25 cents.

Subscribers to the monthly magazine receive a monthly increase from the subscription funds of the company. The subscription committee from its funds or funds and is immediately known as described.

Have the information of F. A. Thompson & Company, Stationers, using Fluorescine, Dandruff, etc.

Correct Fashions in Autumn Millinery

Special Showing of Millinery at \$8.50

There are two things of first importance in the selection of a new hat—style and personal becomingness. The first we assure by choosing our millinery from the country's foremost milliners—real artists who create America's millinery fashions. The second is guaranteed by the great variety of distinctive and becoming designs on display here.

REBEKAHS TO HOLD SOCIAL MEETING MONDAY

Monday evening the Rebekahs will hold their Fifth Monday Social meeting at the new hall in the Wood-Swartz Bldg. on Scott. This is the first "Fifth Monday" that the lodge has had since entering the new hall and a special program is arranged and a large attendance desired.

TEA AT Y. W. C. A. MORE GIFTS FOR ROOM

This afternoon from 2 to 5 the Baptist girls will act as hostesses for the Y. W. C. A. Social meeting in the recreation room, 614 Ohio avenue. A special program has been arranged and a cordial invitation is issued to all young women of the city and their friends to attend the tea.

UNITY CLUB IS TO STUDY SHAKESPEARE

The introduction to the year's study of the Elizabethan Drama will form the Unity Club's study next Friday, October 3, when club will hold its first meeting at the home of the hostess, Mrs. H. C. Young. Mrs. H. D. Patterson will be the leader. The club will study Shakespeare this fall and winter, and has as its objective an interesting course of study mapped.

PRESBYTERIAN SUNDAY SCHOOL TEACHERS MEET

Officers and teachers of the First Presbyterian Sunday school were entertained in social and business session at the home of the superintendent, J. C. Hunt, on Leach, Friday evening. Plans for the fall work were discussed and then a social hour was enjoyed during which time Mrs. Hunt served delicious refreshments.

B. W. A. TO HOLD SOCIAL MEETING

A social meeting of the Baptist Woman's Alliance of the First Baptist church will be held Monday afternoon at 3:00 o'clock in the church parlors. A program of musical numbers and a delightful entertainment is in prospect. All women of the church are cordially invited to attend.

BAPTIST SUNBEAMS TO RESUME MEETING TODAY

This afternoon at 3:00 o'clock the Sunbeams of the First Baptist church will resume their meetings. The meeting will be held at the church with Miss Cora Phillips in charge. All children of the church are urged to attend.

"DADDY" MAXWELL FILES FIRST COMPLAINT SINCE ASSUMING NEW POSITION

The first fine imposed for violation of the "sidewalk ordinance" which prohibits the throwing of trash into the gutters, was assessed in police court yesterday when the local firm paid \$5.

This was the first complaint made by Special Sidewalk Officer Maxwell, affectionately known to all of his friends—and that means about everybody he knows, so popular is he—as "Daddy" Maxwell, since he assumed his new duties Friday. However, he issued numerous warnings to places of business that had infringed upon the ordinance before Assistant Police Commissioner Good fellow appointed "Daddy" to the job. "Daddy," who was stationed at the passenger depot for years and who kept order there, too, has been desk sergeant at police headquarters for several months, and when he succeeded in getting the new job, which keeps him out of doors and walking virtually all of the time, he was as happy as a boy, although he is on the after-side of three score years.

NO MEETING OF THE ODD FELLOWS MONDAY

The Odd Fellows will not hold their regular meeting tomorrow night. Being the 5th Monday night of the month, it will be used by the Rebekahs, and all members of the Odd Fellows are urged to attend.

CLOSE MILL DOORS AND 1,600 PEOPLE ARE IDLE

SALEM, Mass., Sept. 27.—More than 1,600 mill operations were idle here today. Owners of the Great Mills decided to close their doors because of a strike of employees who are demanding a 25 per cent increase in wages.

PANTAGES VAUDEVILLE AT WICHITA THEATER BEGINNING OCT. 6TH

With five high-class vaudeville acts and the best first-run pictures, the Wichita theater will become a vaudeville play house a week from tomorrow. The Wichita Theater Company, organized last week, will be incorporated within a few days, and has taken over the theater on a long-time lease.

Pantages vaudeville will be shown, Wichita Falls now being on the Pantages circuit. The vaudeville program will be changed each week, while the picture program will be changed three times a week, each picture to be shown two matinees and nights. Performances will be given at 2:30, 7:30 and 9:30 o'clock.

Charles Kirkpatrick, an experienced theatrical man, who has spent several years in the vaudeville business, will be manager of the theater. Associated with him are several other men of means, one of whom, Mr. Croddie, is a former newspaper man.

Several improvements are to be made in the theater. It is to be renovated and painted; new scenery will be added, while several additional service features, such as a page service, a maid in the ladies' rest room, girl ushers and other features will be inaugurated.

A 7-piece orchestra, capable in every way to maintain the high standard of excellence it is proposed to establish, will furnish music at every performance.

The Wichita theater will not be dark this week. The Wichita Players Co., which has been there for some time, will play this week and will close its engagements Saturday night. E. Oliver, manager of the Wichita Players Co., will manage the company this week for the new leasees of the theater.

The vaudeville bookings for next week are anxiously awaited, and it is presumed great crowds will attend the performance for this has been the largest city in the State without vaudeville and there has been much demand here for this sort of attraction.

"THE HIDDEN TRUTH" AT PLAZA AIRDOME MONDAY

Anna Case, the beautiful grand opera singer, will be seen in her first picture, "The Hidden Truth," which is released by Select Pictures on Monday and Tuesday at the Plaza Air-dome.

Helen Merrill, a beautiful girl with a wonderful singing voice and a refined manner, is out of place as an entertainer in Bill Sheridan's saloon and dance hall in Nugget City. Another girl in the resort is Myrtle Cadby, whose husband, a drunkard and a bully, treats her abusively and takes all of her earnings.

Sheridan and "Snipe" Roach, a mining shark, salt the Golden Chance mine and attempt to sell it to Charles Taylor, a rich New Yorker. Taylor sends George Reed, a mining expert in whom he has absolute confidence, to investigate the mine. Reed sees through the fraud at once but offers to keep quiet and put the deal over if the results are split three ways.

One day Cadby is particularly hateful to his wife, and Helen tries to protect her against her husband's advances to the bed of his wife's trader. He throws Helen down where she is lying ill. She picks up Helen's pistol and kills her husband. Before she dies, Myrtle gives Helen a letter to man in New York, to whom she was supposed to have gone when she ran away and married her husband. She tells Helen to take the letter and go to him, as he was her father's mining partner at one time and will treat her well.

A few days later Helen goes to the city. When she gets to the home of the man to whom the letter is addressed she learns that he is Charles Taylor, to whom Sheridan and "Snipe" are trying to sell the salted mine. Taylor believes her to be the daughter of his old mining partner and she accepts the assumed name of Myrtle Stone. They soon grow to love each other. Helen and Taylor are engaged when Reed returns with glowing reports of the mine; he recognizes Helen and tells Taylor. He confronts Helen with the story and she admits it to be true. Helen cannot see the man she loves defrauded and so tells him about the salted mine. At the point of a pistol she forces him to deny it. He escapes and Helen and Taylor renew their love vows.

MAJESTIC CALENDAR.

Monday: Monroe Salisbury in "The Sundown Trail."

Tuesday: Mary Miles Minter in "Yvonne from Paris."

Wednesday: Olive Thomas in "The Spite Bride."

Thursday: Tom Moore in "Heart-oase."

Friday and Saturday: Dorothy Phillips in "Paid in Advance."

EMPRESS CALENDAR.

Monday and Tuesday: Rothapel Unit program.

Wednesday: Albert Ray and Elinor Fair in "Love Is Love."

Thursday and Friday: William Farum in "Voices of Society."

Saturday: Bessie Barriscale in "Hearts A Sleep."

PLAZA AIRDOME CALENDAR

All week: "The Yankee Doodle Girls"—18 people.

Monday and Tuesday: Anna Case in "The Hidden Truth."

Wednesday: Douglas Fairbanks in "The Lamb."

Thursday: World Production "A Broadway Saint."

Friday: Tom Mix in "Fame and Fortune."

NEW FEATURE AT THE EMPRESS THIS WEEK

For the first time in the history of the theater—either the stage or screen—a complete program of entertainment, produced by the same director and representing a unit offering in the motion picture theater, will be shown at the Empress theater Monday and Tuesday. Samuel L. Rothapel's Unit program is the special attraction—the program that was

pronounced by the screen's best critics as the most unique and entertaining amusement ever seen on any screen.

CHANGE PROGRAM AT THEATRE FOR WEEK

"So Much For So Much" will be played by the Wichita Players commencing Monday, September 23. This comes as a pleasant surprise as it has been previously announced by the management that "A Pair of Queens" would be their farewell performance. This comedy drama was written by the well known playwright, Willard Mack, and it is promised that this play will be equally as good as any produced so far.

YANKEE DOODLE GIRLS COMING TO THE PLAZA FOR WEEK'S ENGAGEMENT

Commencing next Monday, Sept. 23, at the Plaza Airdome, Harry Feldman's Yankee Doodle girls will open a week's engagement.

This company comes here direct from a fifteen weeks engagement at the Gem Theatre at Little Rock. Heading this clever musical organization is Agnes Geary, the girl that sings the blues, and Pete Pate, the long tall boy, one of America's foremost black face comedians. Other favorites and musical comedy artists with the company are: Lew Jac Williams, Pearl King, Ned Wooley and Bessie Crandall.

The opening play for Monday night is a one act musical comedy brim full of funny songs, sayings and dancing, entitled "A Wild Night." There will be a complete change of performance daily.

The chorus of show girls with this company are the pick of the musical field. Costumes and scenery are of the highest class.

A novelty carried by this company, is the Bathing Girls, presenting on a miniature scale the exact reproduction of the bathing beach at Atlanta City.

The fact that the National Bank of Commerce is entirely independent of the control of any favored interest is an asset of value to its customers as well as to the bank itself. Every customer is assured a square deal at this institution.

Bags in Leather and Velvet, \$3.50 to \$29.50

Beaded Bags, up to \$85.00

Canteen Boxes, \$9.85 to \$14.85

THE NEW BLOUSES ARE BEAUTIFUL

A large and well selected stock now ready for you. Most any color you want and many of the models elaborately embroidered and beaded.

Foremost in style are the new Russian Blouses; and many have just arrived from Comlett.

No costume is complete without a pretty blouse.

They're priced — \$5.95, \$6.95, \$7.50, \$12.50, \$14.85, \$16.50, \$19.50 and up to \$49.50.

HERE YOU WILL FIND A WELL SELECTED STOCK OF WOMEN'S GLOVES

The very newest and most wanted styles in Kid Gloves are here for your selection—Gloves in tans, greys, browns, whites, blacks—in fact, most any shade to match your Fall Suit.

They're shown in the most popular materials—Kid, Mochu and Cope—Prices \$2.50 to \$5.00.

We shall be glad to see you at our store tomorrow

Telephone 168

A LITTLE TRIP THROUGH THE STORE

Good morning!

Suppose you go to church this morning.

We would like to tell you about all the pretty things we received last week, but it would take too long.

But we will tell you that Mallinson has sent us another wonderful lot of pretty silks.

The colors are exquisite. And the materials—well, you must see them to appreciate their real beauty.

Womens' Suits and Coats are here in all the newest styles and fabrics for Fall.

From the house of Beller comes the new "Florentine Red" and you'll like this new color.

Let us forget, we want to urge that you buy Blankets this week as they are going very fast.

They're scarce and hard to get.

Another big shipment of Royal Society Art goods arrived this week. Let us suggest that you begin now on your Christmas embroidery work.

In the Shoe section—The new arrivals include many pretty boots for women.

We offer you exceptional fitting service in our Shoe section.

Stop at the handkerchief counter and see the pretty new crepe-de-chines at 25c.

We have the Dr. Denton sleeping garments for children. You'll like them.

Furs, Furs, Furs, Furs—The biggest line you ever saw. Ready to wear section.

Glance at our windows when you are down town today.

Thank you!

MINERVA KNITTING YARNS

Just the thing for knitting the new and popular Sweaters. Minerva, Germantown and Shetland Floss, in all colors, extra large ball, priced per ball—

WILLS POINT, TEXAS

September 17th, 1919

Huff & Mabry, Managing Attorneys,
Wichita Great Western Underwriters,
Wichita Falls, Texas.

Gentlemen:

I acknowledge receipt of your letter of 15th inst enclosing credit dividend \$31.74. I am not sure as to what to do with this credit -- shall I send it in for a cash remittance or does it stay in your office for future attention. I enclose it herewith for such action as is proper. I am delighted with the showing made by the Wichita Great Western and if possible would like to have \$4000.00 more stock in the Company. Also, I have more insurance to offer when it is convenient for your representative to be here. Also, I know of other first class risks that can be placed. Kindly advise me as to when I may see some one from headquarters relative to this new business and also whether it may be possible to get the new stock.

Mr. Howell, Cashier of the First National here, one of your stockholders will also take more stock if you want to place it.

Yours very truly,

John C. Wright

This Company's Books Are Audited Annually by Baker, Vawter, Wolf Co., Certified Public Accountants, of Chicago and New York.

DO YOU KNOW

That the WICHITA GREAT WESTERN UNDERWRITERS is the largest LEGAL RESERVE reciprocal fire insurance company in the Southwest?

WELL IT IS. Do you know that the WICHITA GREAT WESTERN UNDERWRITERS wrote EIGHT MILLION dollars of fire insurance during the past twelve months?

WELL IT DID. Do you know that the WICHITA GREAT WESTERN UNDERWRITERS saved for its policy-holders FIFTY-TWO per cent of actual premiums received?

WELL IT DID. Do you know that the WICHITA GREAT WESTERN UNDERWRITERS has a guarantee fund for SIX HUNDRED THOUSAND dollars?

WELL IT HAS. Do you know that the best way to fight the "High Cost of Living" is to insure your property with the WICHITA GREAT WESTERN UNDERWRITERS?

The Wichita Great Western Underwriters take pleasure in announcing the completion of its first year in the reciprocal insurance field, with an established patronage, national in scope, represented by \$8,000,000 now on our books, and WITH A SAVING OF FIFTY-TWO PER CENT FOR OUR POLICY-HOLDERS ON THE PREMIUMS DEPOSITED BY THEM. This saving has been refunded to the policy-holders in renewals of their insurance.

Our underwriters in Texas subscribed \$600,000 of our business for the year, recognizing the merit of the protection offered at a saving only possible under the reciprocal insurance plan. We enter upon our second year with assurance of great expansion of our business, covering the country, yet maintaining the high quality of our risks, keeping our losses at a cost. Results of this plan will be demonstrated by the refunds to policy-holders one year hence. Just as the first year's results were demonstrated by the refunds just made to the policy-holders of record on our books at the close of our first twelve months in business.

Reciprocal insurance is the satisfactory solution of the fire risk problem for those whose properties offer the least danger of fire. The Wichita Great Western Underwriters accept only preferred risks. Therefore, when you take a Wichita Great Western Underwriters policy, you do not have to pay insurance based on a rate that protects a fire-trap of an unscrupulous owner--you pay only for insurance at a low rate commensurate with the non-hazardous risk your building offers--with a refund in prospect at the end of the year!

PUBLIC INTEREST

The whole subject is one in which the public has a legitimate interest. It has been well said that high commissions and brokerage--out of all proportion to the services rendered--are a greater evil than usury, because they wrong the whole community while usury is simply a wrong to the individual.

We believe the time has come for legislative action in fire insurance, if we are to accomplish anything in reducing the first losses, and consequently, fire rates.

We have no agents, we pay no commissions. Our policy-holders get the service and secure their fire insurance at cost. Our accounts are audited regularly by Baker, Vawter, Wolf Company, Certified Public Accountants, Chicago, Ill.; New York.

DALLAS, TEXAS

August 29th, 1919

Mr. Jno. S. Mabry, Mgr.,
Wichita Great Western Underwriters,
Wichita Falls, Texas.

Dear Mr. Mabry:

We are just in receipt of your esteemed favor of 28th inst., with enclosure as stated, and the writer appreciates very much this enclosure and to note that you are making such a magnificent saving in premiums for the policy holders. This will unquestionably mean a large increased business for the Company.

As you are aware, this corporation now have with your company a \$10,000.00 policy, and we will be glad to place with you the maximum line that your conservative methods will admit of.

Most of our insurance is with Millers Mutuals who are carrying us for the maximum line, but we have some with stock companies which we will be glad to place with you to the extent that you can take upon maturity of these different stock company policies.

We have \$5,000.00 maturing Jan. 17th 1920, \$15,000.00 maturing Jan. 23rd, 1920 and \$15,000.00 maturing Jan 28th, 1920, and it will be our pleasure to place any part of this total amount with your company.

With kindest personal regards of the writer, we are,

Yours truly,

September 5, 1919

Wichita Great Western Underwriters,

Wichita Falls, Texas.

Gentlemen:-- Attention of Mr. Mabry.

It is with much pleasure that we note you have saved us 52% on our insurance for the past year. We consider this phenomenal, in as much as this was your first year in the field. We would have been pleased with 25% for the first year and would have considered even that saving a good showing for your first twelve months.

We congratulate you on this extra good showing and assure you of our hearty co-operation.

Yours very truly,

Wichita Falls, Texas.

My dear Mr. Mabry:-

I am just in receipt of yours of the 28th together with a copy of the letter that you are forwarding to your policy holders that have reached the end of the fiscal year. I want to congratulate you upon the wonderful showing made during the first 12 months of your existence. It is beyond all expectations, and to me the most remarkable showing that I have known of in this, or any other, line of business.

Wishing you continued success, I beg to remain,

Yours very truly,

F. H. Waverick

Gentlemen:

We are in receipt of your letter of September 1st, in which you send to us a copy of a letter which you are now sending to your policy holders whose policies are one year old, you having reached the end of your fiscal year.

We are pleased to note the percentage of saving effected by the Wichita Great Western Underwriters for the past twelve months as well as the substantial growth of the institution.

It is gratifying to us to know that a Texas Institution is so splendidly managed and gives us every good reason to anticipate a splendid growth.

We are thoroughly pleased with the service and the results we are receiving from your company, and with the assurance of our high regards and with a hope that you will continue your splendid management, we are,

CHAIRMAN OF BOARD OF HEALTH EXPLAINS THE MILK SITUATION

TELLS WHY IT IS NECESSARY TO ENFORCE THE CITY ORDINANCE.

WORK OF THE DEPARTMENT

Test Shows "Spiz" Mineral Water To Be Free From Contamination Of Any Kind.

The inspectors have been instructed to pay particular attention to the enforcement of this part of the ordinance in order that this city's milk supply may be entirely free from tubercular contamination.

May Revoked Permits.

"The entire milk situation will be gone into thoroughly and that part of the ordinance referring to the care and handling of milk will also be rigidly enforced. Strict observance of all requirements concerning sterilization of milk utensils and containers, immediate and proper cooling of the milk and adequate protection from contamination will be demanded of all milk producers and handlers. The department will not tolerate carelessness on the part of those concerned in the production and distribution of this important food product and those producers or handlers who show disregard for the proper sanitary precautions will have their permits revoked."

"The Food Inspection Department will soon be in position to render the city much more efficient service than heretofore for it will have a thoroughly equipped bacteriological and chemical laboratory at its command. An experienced laboratory man has been employed and tests on all kinds of food products will be made. The laboratory, located in the quarters formerly occupied by the Chamber of Commerce on the second floor of the city hall, should be in full operation very shortly for all the necessary equipment has been ordered and part of it has already arrived. The public will be invited to visit the laboratory in order that it may see the kind of work which is being carried on and appreciate the value of such an institution in the protection of public health."

MISS HELEN TAFT SAYS TEACHERS SHOULD ORGANIZE AND STRIKE FOR INCREASE

BRYN MAWR, Pa., Sept. 27.—Miss Helen Taft, acting president of the Bryn Mawr College, declared today in an address before the alumni conference in the Bryn Mawr campaign for \$1,000,000 to increase faculty salaries that she wished the professors of the country would organize a union and strike for higher salaries.

She had a better case than the ministers. Miss Taft holds that the faculty of Bryn Mawr and other colleges are taking the most responsible way possible to prevent the entrance and multiply. Of the many diseases that may be transmitted through the milk typhoid fever and tuberculosis are the most important and most common. Hence it is necessary that the milk ordinance be rigidly enforced in order that the health of the people may be properly safeguarded.

Inspection Thorough.

"I am pleased to announce that there has been a more thorough inspection of the dairy cattle supplying this city carried on this season than ever before. Over fifteen hundred dairy cattle have been inspected and tested for tubercular disease. This has entailed a great amount of work on the inspectors and necessitated their working from early morning until late at night, but the department feels that the expense and effort were justified since six tubercular animals were found among the dairy herds. These six animals have been slaughtered, thus eliminating the possibility of further contagion being spread from them. The last cow to be slaughtered was a fine healthy looking animal and according to the water produced more milk than any in his herd. On post mortem examination it was found that she had a case of generalized tuberculosis. The entire carcass was immediately incinerated, thus thoroughly destroying all possibility of further infection from her. I am sure all will agree with me that work of this nature is of the highest importance in the protection of the public health."

Tubercular Cattle.

"The fact that tubercular has been found in some of our dairy herds even though slight and that a few tubercular cattle have been shipped into this section of the state together with the prevalence of the disease in the human family make it very essential that our ordinance relative to the testing of dairy cattle be strictly enforced. The ordinance requires that all cows fresh or dry and all cattle over one year of age in dairies from which milk or cream or any milk products are furnished to persons residing in the city of Wichita Falls, for human consumption, shall be tuberculin tested, and inspected for all contagious or infectious diseases at the owner's expense."

Artistic Dancing.

Miss Mary Bell Smith will be in Wichita Falls Saturdays, September 26 and 27, to arrange her Saturday classes in dancing.

Classes for adults and children in aesthetic, Greek, interpretative, national creative and character dancing will be organized.

The fall term consists of 13 one-hour lessons beginning Saturday, October 4.

The number of pupils will be limited, so those interested are advised to interview Miss Smith at the Parish House of the Episcopal church Saturday, Sept. 20, or Saturday, Sept. 27, from 10:00 to 11:00, or from 2:00 to 4:00. For further information phone 1643. 111-171c

It costs no more to deal with an established realty firm and often much less than it does to deal with one you do not know.

We have been engaged exclusively in the handling of Wichita Falls real estate for the past ten years and have handled hundreds on the same principles that we have handled others. N. O. Monroe, 220 First Nat'l Bank Bldg. Phone 2454. 111-171c

TO BRING PRESSURE TO BEAR ON PUBLIC SERVICE CONCERNS

REALTY DEALERS PLAN TO CAVASS SITUATION AT AN EARLY DATE.

WANT A BETTER SERVICE

Organization is Perfected at Meeting Held on Saturday Morning.

With the avowed purpose of bringing pressure to bear on public service corporations for the betterment of living conditions in Wichita Falls through extension of modern city conveniences, their demands in this connection to be backed with actual figures as to the numbers of homes and sections of the city absolutely without such conveniences as sewers, lights, paving, water, telephones and gas service to be gathered through their various agencies, the Realty dealers of Wichita Falls perfected a permanent organization Saturday morning at the Elks club room.

The seriousness of the situation confronting Wichita Falls from lack of these conveniences, and the fact that this lack was leading many who first considered this city as a location, and whose business interests would best be served through locating here, to go to other places, were stressed by the various speakers, who included W. S. Curlee, Hubert Harrison, secretary of the Chamber of Commerce, R. B. Robbins, and O. J. Carveth.

"Want Something Definite."

"Our first endeavor must be to get something definite out of the public service corporations as to what may be expected of them in the way of extension of their services," said W. S. Curlee, speaking from his experience as chairman of the public utilities commission of the city council. "The statement that the freight congestion, preventing the prompt receipt of materials, is responsible for their failure to make the extensions that the people of the city have a right to expect should no longer satisfy either us, who are more intimately than any other people in touch than any other single class with the situation, or the

GERMAN ADMITS HE BLEW UP CANADIAN RAILROAD BRIDGE OVER ST. CROIX RIVER IN 1915

JERSEY CITY, N. J., Sept. 27.—Werner Horn, a German who has been held by the United States as an enemy alien since this country entered the war, admitted today before United States Commissioner Carpenter that he blew up the Canadian Pacific railroad bridge over the St. Croix River, at McAdams Parish, N. B., February 2, 1915.

Horn, who has been a prisoner at Fort Oglethorpe, Ga., was one of the Germans brought here this week for return to Germany. The hearing today was at the request of the Canadian government, which is seeking Horn's extradition, that he may be taken to Canada to face trial for destruction of the bridge.

Horn said he used nitroglycerine. He insisted his offense was a military act, committed in a hostile country. After the hearing Horn was remanded to jail. His papers are to be sent to the secretary of state at Washington, who is expected to sign the extradition papers.

ARREST DALLAS MAN FOR VALUABLE "HAUL"

DALLAS, TEX., Sept. 27.—The city dog wagon hauled a \$4,200 cargo—but it wasn't dogs. Harry Gross declared when he had Clarence McDaniels and Jack Bevels, Dallas canine chasers arrested for "theft by conversion," of his "private stock."

"I went on a vacation and left 168 quarts of whiskey and other liquors in charge of these men," Gross told police. "They hauled it away in the city's dog wagon."

TWO ARE INJURED FROM DALLAS SLIPPERY STREETS

DALLAS, TEX., Sept. 27.—Two men were in hospitals today, probably fatally injured from accidents caused by slippery streets and rain.

ARMY FLYERS TO START TRANSCONTINENTAL RACE

ST. LOUIS, MO., Sept. 27.—Army flyers will start October 8 on a transcontinental air race between New York and San Francisco, Major Henry Abbey, commandant, at Scottfield announced today.

MOB ATTEMPTS TO GET NEGRO PRISONER

OMAHA, Sept. 27.—A mob of 1,500 persons late last night attempted to take Will Brown, a negro, from police officers and lynch him. He had been arrested and identified as the assailant of a young woman. Two-thirds of the police of the city were rushed to the scene and several members of the mob beaten the prisoner could be taken to the station. He was later taken to the county jail for fear the mob would storm the police station and take him.

TAILORS AT DALLAS GO ON A STRIKE

DALLAS, TEX., Sept. 27.—Tailors employed in Dallas clothing houses struck today. Union leaders said 100 men were out. Employers said they refused the men's demand for a closed shop.

DENIES THAT HE EXPECTS TO RESIGN

WASHINGTON, Sept. 27.—Secretary of the Interior Lane today denied a report that he is planning to resign. "I hadn't thought of it," he said.

BONHAM JURY GIVES MAN TEN YEARS FOR MURDER OF DAUGHTER

BONHAM, TEX., Sept. 27.—T. L. Walton, charged with the murder of his daughter at Paris, Texas, in December, 1915, was found guilty when the jury returned its verdict shortly after noon today.

BOX CARS ARE IDLE AND KANSAS WHEAT ROTTING ON GROUND

TOPEKA, KAN., Sept. 27.—Dozens of box cars are idle along the tracks in Kansas while thousands of bushels of wheat lie rotting on the ground for want of transportation facilities, according to Dorset Dunne of Wichita, who declared to state officials he was not allowed to take wheat in no worse condition than many passenger cars considered usable. Dunne states the western grain men are disposed to blame the railroad train crews for side tracking the cars.

PLAN FOR COAST-WIDE SHIP BUILDERS STRIKE WILL BE MADE TODAY

SAN FRANCISCO, CAL., Sept. 27.—Plans for a coast wide strike of shipbuilders to be called for October 1, will be formulated at a meeting in Tacoma, Washington, tomorrow. The hundred thousand men, the union leaders claim, will demand by striking that they be allowed the eight-cent increase agreed to, effective October 1.

MEXICAN YOUTH IS BURNED TO DEATH IN JAIL AT SAN BENITO

SAN BENITO, TEX., Sept. 27.—Julio Martinez, a Mexican 23 years old, was burned to death when the jail cell was destroyed by fire last night, together with a part of the H. D. Taylor lumber yard.

JONES COUNTY FARMERS TO SOW MORE GRAIN

STAMFORD, TEX., Sept. 27.—The gentle rains of the past week have resulted in having the farmers of Jones county break the land on which wheat and oats were sown last year. Few farmers will sow small grain this year. They will need no winter pasture and too much difficulty is experienced in harvesting as it is all to be done at the busiest time the farmer has.

HOUSTON REPORT ON GULF COAST WEATHER

HOUSTON, TEX., Sept. 27.—Winds on the Texas coast: light to moderate southeast to south. Precipitation has occurred in Arizona and there were also a few light rains in Northern Texas, Oklahoma and Kansas but in the remainder of the country the weather has been generally fair during the past 24 hours.

The National Bank of Commerce invites Savings deposits in any amount, pays 4% compound interest, and provides absolute safety by its Capital and Surplus of \$500,000 and the well-known and conservative methods of its management. Our Future Home

BANK BUILDING IS FIRST TO BE STARTED ON NEW TOWNSITE

JAKEHAMON, TEX., Sept. 27.—Building operations here began immediately following the opening sale of town lots September 22. The first building to begin construction was that for the First National Bank on Sixth and G streets. Walter Nance and associates are erecting a temporary structure on their two lots and making plans for a three story brick to be built in about ninety days.

A. R. McLennan and associates who have the gas franchise for the town are building a frame structure on Seventh street next door to the townsite office at a cost of \$1,000 for use of the gas company.

E. O. Flood of Lawton, Oklahoma, let the contract this week for immediate construction of two fire-proof buildings on his lots on Sixth street where he will immediately house a large hardware and furniture store and where an apartment of his will put in a drug store at once.

Several dealers in dry goods and other merchandise who came from Hamilton, Oklahoma, have let contracts for reinforced concrete buildings on lots they acquired on Seventh street to be occupied as soon as possible by stocks of goods.

Contractors for the depot building to be ready in sixty days are actively at work on the large structure that is 300 by 37 feet and which will cost \$25,000. Construction for a building for the Guaranty State Bank on the corner of Seventh and F streets will begin this week. This is to be a three story brick building with a railroad track in operation. A temporary building which will serve as a part of the permanent structure is being built now.

A. E. Perry of Coalgate, Okla., president of the Jakehamon Tool Company, is here and has let a contract for a building to house that concern. The total investment will be \$50,000. This shop will be in operation within sixty days.

A. B. Marks and A. M. McFarland of Ranger have each let a contract for construction of business houses on Sixth street, the former to be a store building with a rooming house above and the latter to an office building and theatre.

The Frick-Ried Supply Company is arranging to construct a supply depot on a block of trackside they have bought and to build ten residences for their officials and employes all to be ready for use within sixty days.

Some delay has been encountered in getting material on the ground from the railroad stations about eleven miles distant owing to bad roads but some material is arriving and as soon as the roads get better there will be at least 100 structures under construction here.

EASTLAND COUNTY FAIR ATTRACTING ATTENTION

JAKEHAMON, TEX., Sept. 27.—The Eastland County Fair this year promises to be as good as any Eastland County Fair ever was and that is excellent. The excitement of developing the world's greatest oil fields has not destroyed interest in agriculture and livestock in this region and the racing card for the fair promises to be worthy of the good stock that is generally found there. C. U. Connelley Jr., is arranging the races. Among the events is one in which the Jakehamon purse will be contested for. This purse was provided by Jake L. Hamon, one of the founders of this town. A feature of the Eastland County Fair race events is always the entries by C. U. Connelley of that county who is a breeder of fine harness and saddle horses. His entries this year will be better than usual for he has found time to attend to his stables despite his manifold activities in the oil fields.

Crops in Eastland county this year have been excellent. The dry years made for dull farming business have passed and been succeeded by a good season where the farmers and stock raisers have had great success. They are all interested in the fair and will all contribute to its success.

TEXAS WONDER POOLS WELL IS ESTIMATED AT BETTER THAN 2000 BBLs.

Three ten minutes heads of the Texas Wonder Oil company's No. 1 Morgan put 100 barrels of oil into the tanks Friday, field men of the company state. The well shot oil high over the derrick on several occasions, as it was cleaned out and drilled in. Estimates of better than 2,000 barrels are put on the well.

The derrick is being built for No. 2 and drilling is scheduled to begin early next week. This company, which has shallow acreage at Iowa Park, and also Young, Archer and other wild cat acreage in vicinities where interesting developments are under way, is busy getting production on its Northwest acreage which will give it regular dividends, as well as funds for further development. Sam Sparks, Charles Anderson, Jr., W. R. Duke, local operators, David Hinshaw of New York, and other easterners organized the company this summer.

DOUBLE F OIL CO. TO DRILL WELL IN MONDAY

On Monday the Double F Oil Company's No. 1 Taylor, block 95, will be drilled in, according to present plans. The casing has been cemented for several days, and all arrangements are being made to care for the initial flow, before drilling the well in, officers of the company state.

The National Bank of Commerce is distinguished by its uniform courtesy to all depositors, by its progressive methods and by the willingness of its officers to give the benefit of their knowledge and experience to customers.

ANNOUNCEMENT.
The Wichita Studio will re-open about December 1, when our new building at Tenth and Austin will be completed.
J. W. NOSSETT.

OKLAHOMA NEWS

PROMINENT OKLAHOMANS ARE INDICTED IN CONNECTION WITH NATION-WIDE TELEGRAPH STRIKE

OKLAHOMA CITY, OKLA., Sept. 27.—E. J. Giddings for years attorney for the State Federation of Labor and J. Garrison Kitchens, private detective for Mayor Walton, today were indicted by Federal grand jury for their alleged activities here in the recent nation-wide telegraph strike.

Conspiracy to obstruct a government enterprise was the charge. Several strikers also were indicted. The grand jury's action is believed to be unique in the country's strike history.

Giddings applied for immediate arraignment of himself and the telegraphers. Giddings charged in court the indictments were political and was promptly ruled to order.

Labor officials also charged United States District Attorney Fain with prejudice. Bad blood between Fain and state federation officials has existed for some time, it is known. Edgar S. Fenton, president of the Federation, recently went to Washington in a futile attempt to prevent confirmation of Fain's re-appointment as district attorney.

OSAGE INDIANS RECEIVE FIFTEEN MILLION DOLLARS FROM OIL AND GAS LEASES

PAWHUSKA, OKLA., Sept. 27.—The September payment of money to Osage Indians, just completed, reveals that to date 3,200 Indians of tribe have received \$7,260,000. Royalties from oil and gas lands leased in 1918, approximately \$11,000,000 while those for this year pass the \$15,000,000 figure. The sale of leases here on October 6 is expected to further increase the wealth of the Osages to around \$22,000,000.

TWENTY-NINE ARRESTED IN A GAMBLING RAID

OKLAHOMA CITY, OKLA., Sept. 27.—Twenty-nine men were arrested here early today in a raid on a gambling house in the business district. A completely equipped dice table, a well stocked bar and two or three black jet games were found. The raid was made so swiftly the guard was unable to give the alarm.

The men were held under \$100 bond charged with loitering about a gambling game.

BETTER NOT BOTHER EARL HOFFMAN'S DOG
SAPULPA, OKLA., Sept. 27.—They have got to let Earl Hoffman's dog alone. While out hunting near here, the dog ran down C. L. Dyer, who had with him in his car his wife and two children. After seeing his dog lying in the dust, Hoffman raised his shot-

gun and fired at the car. The shot struck all four persons. The boy was arrested. He admitted firing at the Dyer's contending he would do it again if they ran over his dog. The dog was not killed.

ARBITRATION BOARD TO INTERVENE IN STRIKE

OKLAHOMA CITY, OKLA., Sept. 27.—The state board of arbitration will intervene in the strike of telephone girls at Drumright next Tuesday, it was announced today.

Clearing up of radical activities which early this week used the strike as a pretext for violence that brought on a brief overthrow of the city government and forced the calling of state troops permitted the action. State and county investigations into the causes of I. W. W. activities are in progress.

OKLAHOMA CLOSERS MOST SUCCESSFUL FAIR

OKLAHOMA CITY, OKLA., Sept. 27.—Oklahoma's most successful state fair was to close tonight.

Total attendance for the meeting was expected to reach 225,000 this year—57,000 more than the previous record. The biggest day was Friday when more than 75,000 persons passed the turnstiles.

Dale Pasture Acreage For Sale!

We offer for sale oil and gas rights on several tracts of land near and abutting our development work.

Dr. H. J. von Hagen says:

"After extensive study of the escarpments and other indications of the oil bearing structure throughout this country, examination of the near-by wells and their logs, I find this property unusually favorable for oil development. The Structure underlying this 6,000 acres can be traced plainly from various directions for several miles, and I conclude that there are two distinct anticlines, the one which will prove more productive lying in the northwesterly and southeasterly direction on which I have made locations TWO and THREE. A finger of the pool, which is outlined by this structure, runs directly to the north where it is arrested at location No. ONE by a counter structure running on a parallel axis.

"You can readily see my reasons for these locations and the extensive possibilities for oil in the major portion of this pasture.

"You will find thin lenses of oil sand as the drill reaches 520 feet, 680 feet, 2,650 feet, 3700 feet and one still deeper, but the pay wells will be found at 730 feet, 750 feet (shallow, and especially at location No. 1), the best at 1600 feet, 1670 feet and should you decide to make a deep test, at 3,400 feet (especially location No. 3).

"For further details refer to my full report of August 12th, 1919, this being merely an outline of my opinion."

Dr. I. N. Terril says:

"Chances are exceptionally good for acreage in your field to mount in value until prices as now at Burkburnett are reached (\$20,000 and up per acre).

We guarantee three wells will be drilled on the structures our geologists have recommended us to drill.

We back our guaranty by stating:

No. 1 well is 450 feet deep.

No. 2 well is supdding in.

No. 3 well is rigging up.

The bad roads have delayed us slightly.

We Have Faith in Our Holding

We will accept one-half payment in cash, one-half payment deferred until oil or gas produced from the tract sold pays us. What better evidence do you need than these payments?

We are taking a chance with you, you are taking no chances with us. You can demand your price in a month's time. Don't let this opportunity get by.

Remember LUCK is work and judgment.

Let others call you lucky.

DO IT NOW!

Send for map and booklet giving prices. We expect to get oil at 1700 feet in depth. Time to buy is now.
Get your choice of the tracts we offer.

BURKBURNETT PETROLIA SYNDICATE,
822 Ohio Avenue, Wichita Falls, Texas.

Send booklet and maps to the undersigned.

FREIGHT CONDITIONS MATERIALLY AFFECT AUTOMOBILE TRADE

If there is one business, more than any other, that has been injured and its progress retarded by the freight conditions, it is the automobile business.

"Oh, yes, business is fine—if it could only get any cars to sell," is the almost unanimous reply to any visitor's query when put to the automobile dealers here.

"First it was the railroad strike, and the factories haven't recovered from that yet," said one dealer to a Times reporter. "Then the factories could not get material, for the roads couldn't haul it. Of course, labor shortage has been another prime factor in making conditions unsatisfactory."

"Now, it is congestion. Why, there are carloads of automobiles scattered over the country at terminal points, unshipped in a whirlwind of tangled freight that it may take weeks to unravel if nothing else occurs in the meantime to cause further confusion."

One company's representative said his company had received over \$1,800 in advance payments on cars within the last two weeks and was unable to make a delivery, and he did not know when deliveries could be made. The cars have been shipped and traced, but they are not here.

MARINES HAVE ADOPTED NASH "QUAD" TRUCKS

Because of the ability they showed in war service to go anywhere in any conditions, the Nash "Quad" trucks have been officially adopted by the marines for their use. It was announced at the Nash Automobile & Truck Co.'s offices here Saturday.

"The marines buy the way," it was explained. "They are the first of Uncle Sam's armed forces to go and they need vehicles and equipment that will go where there often are no roads, where the brush is thick, the rocks are and the country rough."

In overseas service the Nash "Quad" truck, which gets its name from the fact that its fore wheels also have drive equipment and will go even if the back wheels give out, proved itself the truck for all sorts of climatic and weather conditions. That's why the Nash was selected.

CURTIS SOUTHWESTERN AIRPLANE COMPANY HAS OPENED OFFICES IN CITY

Offices and salesrooms for the Curtis Southwest Airplane Company will be opened in Wichita Falls this week by Joseph Van Cliff Gregory.

Curtis airplanes exclusively will be sold by Mr. Gregory in Wichita Falls and the tributary territory. We will have a fleet of planes here and will make flights and demonstrations.

The company believes there is an excellent market here and in the oil fields for airplanes.

You will find it to your interest if you are in the market for a home, or an investment in Wichita Falls to see N. O. Monroe. 121-11p

REPUBLICANS PLAN POLL TAX CAMPAIGN THROUGHOUT TEXAS

FORT WORTH, TEX., Sept. 27.—A state-wide poll tax campaign was launched here today by the Texas Republican Council with the sending out of an appeal to every Republican in Texas to qualify for the ballot and a request for volunteers to take charge of districts, counties and precincts in conducting the campaign.

The Council will use every facility to reach members of the party and persuade them to exercise their right and duty as citizens, according to officials of the Council. The press, public speakers, circular letters, personal solicitation and bill boards will be some of the methods employed to urge upon Republicans the necessity for qualifying as voters.

Government records show that 250,000 men of voting age in Texas do not pay their poll tax and the Council estimates that at least 200,000 of them are of their political faith. In many counties the party has not been put out a ticket heretofore and Republicans who do not care to vote the Democratic ticket, entirely abandon their citizenship and others who feel that the contest is hopeless, neglect to register.

With the inactive and prodigal Republicans stirred to activity and a full ticket in the field in every precinct in Texas, the Republicans claim they have more than a fair chance for victory and that they will contest every office within the gift of the people in the 1920 campaign.

COLORED CITIZENS LEAGUE MEETS ON TUESDAY NIGHT

The Colored Citizens League met in its third session Tuesday evening in the lecture room of St. Johns Baptist church of which Rev. A. L. Wright is pastor.

Some timely addresses were listened to by all those present. We are able to announce that on the report of some of the committees, a great time can be expected in our Victory celebration and parade on Nov. 11.

The necessary permits and arrangements for the execution of our program are receiving the attention and endorsement of our many white friends. Under the direct supervision of the league the service of some of the best colored speakers and citizens of the State have been secured for the evening program.

On Tuesday evening at 8:45 the league will meet in regular session at St. John's church and an elaborate program is arranged. The speaker of the evening will be Prof. H. D. Robinson, principal colored high school.

The general public is invited to come out and enjoy these benefits, and profit thereby. L. A. Bean, President; W. R. Hughley, Secretary.

With a wide reputation for prompt, efficient and faithful service, the National Bank of Commerce invites the accounts of corporations, firms and individuals, confident of its ability to please the new customer as thoroughly as the old.

See N. O. Monroe if an investment or a nice home in Wichita Falls is your desire. 121-11p

PROMPT DELIVERY OF DODGE BROTHERS COMMERCIAL CARS

The necessity for swift and safe transportation has not diminished with the cessation of the war, as a matter of fact with commercial conditions beginning to assume normal proportions and the increased volume of business which is resultant, it behooves the merchant more than ever to assure his customers the much needed prompt deliveries, and Dodge Brothers Commercial cars, either screen or panel bodies are built with the sole idea of giving universal satisfaction not only from the standpoint of quick delivery but because of its consistent performance, freedom from repair and extremely low cost of operation.

Dodge Brothers commercial cars are being much used in this vicinity by many of the merchants and other lines of business and because of the highly satisfactory results obtained they are fast coming into prominence and gaining in popularity.

McCall Brothers, dealers in Dodge Brothers motor vehicles are in position to make prompt delivery on a Dodge Brothers commercial car and they feel no hesitancy in saying to business men generally that they can buy a Dodge Brothers commercial car with an absolute assurance of satisfaction. Corroboration of the above statement is evidenced by the number of repeat orders that have been received from various business men who have purchased Dodge Brothers commercial cars in the past few months. In some instances orders for three or four additional cars of this model having been received.

AUTOMOBILE COMPANY HAS SOLVED PROBLEM OF FREIGHT CONGESTION

At least one automobile company here has solved the problem of getting cars, freight congestion or no congestion.

During the past week the Dixon-Keim Motor Co. has had 13 Buick cars driven overland through the mud and slush into Wichita Falls. Some of the cars came from Wauwaka, Okla., having been shipped that far on the Rock Island and there tied up because of the congestion of freight conditions here. Other cars were driven here from Bowie, also a Rock Island junction point.

"We couldn't get them any other way, and we had to have them," said an executive of the company.

The Buick-built Front Axle

Drop forged in a single piece from bar steel of special formula, it is strong enough to bear the weight of a truck, and pyrometer controlled heat treatment gives it a steel structure of remarkable toughness and uniformity.

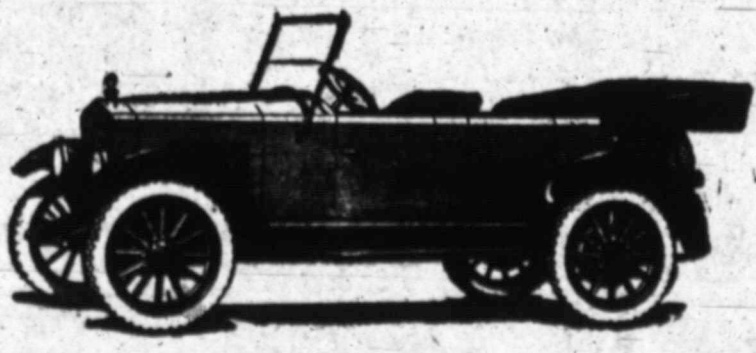

This axle is designed by Buick engineers, forged and built complete in the Buick factory, directly under the supervision of the men whose reputations depend upon its serviceability. From its I-beam section to its drop forged steering connections, every detail is worked out to perfection. The Buick front axle is typical of the perfectly controlled quality that gives Buick cars their unusual capacity for service.

WICHITA FALLS HAS MILLION DOLLAR FIRE INSURANCE COMPANY

WICHITA GREAT WESTERN UNDERWRITERS TO INCREASE THEIR SUBSCRIPTIONS.

CLOSES A SUCCESSFUL YEAR

Growing Demands for Participation in the Splendid Protection Afforded.

The Wichita Great Western Underwriters have decided to increase their Underwriters subscriptions in Texas from \$600,000 to \$1,000,000. This was occasioned by numerous requests from underwriters asking the privilege of increasing their subscriptions and as the company was accepting underwriters in other states, the managers considered it only fair to offer the same privilege to their Texas subscribers.

From the present indication the additional underwriting will be subscribed to within a day or so as the office here is receiving quite a number of requests from parties who are already underwriters.

The Wichita Great Western Underwriters is an institution created for the purpose of offsetting the ever-increasing fire insurance premium rate in Texas and their plan is one that has been successfully operated for many years in the larger centers of the North and East.

They have just closed a very successful year, having returned to their policy holders 25 per cent of all premiums paid and in addition to this, created a substantial reserve, all of which is very satisfactory to the policyholders and since this splendid saving has become known, the company's business has increased tremendously over the same period last year, and it looks now as if the insurance written the second year will be at least twenty-five millions, especially is this true in view of the fact that the company is opening a great deal of territory. They are preparing to operate in Colorado, Nebraska, Kansas and Missouri and have already qualified and received permits to operate in Illinois, Arkansas and Oklahoma. They are preparing to open a large office in Chicago which will be central headquarters for the middle-west. They will also open an office in California and will open an office for the Pacific coast at San Francisco, from which office policies written in California, Washington, Oregon and Idaho will be issued.

Not An Experiment.

The plan of operation of the Wichita Great Western Underwriters is not a new, nor is it an experimental proposition. It has been tried and found to be successful for thirty-five years in many of the large centers of the United States and Europe. The Lloyds of London are the father of the idea. They have operated successfully for many years, and their origin was very humble indeed. They have become so successful that the British Parliament has recognized them, and today they are considered stronger than all of the stock companies of the world combined.

First Attention to All Orders For the Sick

The Wichita Great Western Underwriters is an improvement on the system as originally promulgated by the Lloyds of London insofar as the creating of a legal reserve at the beginning of a policy year instead of end thereof, what is meant by this is that the Wichita Great Western Underwriters have created a fund known as a board of underwriters and who for a share of the gross premiums, agree to divorce all liability from policy holders and take it upon themselves, which enables the institution to issue a non-assessable policy contract to the insured in exactly the same manner as that of a stock company engaged in the fire insurance business.

The policy of insurance as issued by the Wichita Great Western Underwriters states most specifically that the total liability of the insured is his annual premium and upon payment of said premium, the entire liability of the insured shall cease. This relieves the assured from holding a mutual policy, and this is the real difference between reciprocal and mutual fire insurance.

Special Agreement. The managing attorney of the Wichita Great Western Underwriters enter into a special agreement with each policy holder whereby it is agreed and understood that the expenses for operation shall not exceed 25 per cent of the gross premium receipts and they further agree that 75 per cent of all premiums received shall be held in reserve in a state or national bank in Texas, and after paying for the expense of underwriting and setting up a reserve, the balance of 75 per cent not consumed by fire shall be returned to policy holders, this distribution of saving is made at the end of the policy year and, as stated herein, the saving amounted to 23 per cent of all premiums paid the year just passed, their fiscal year having ended August 31.

It is fully agreed by all parties that the cost of underwriting shall not exceed 10 per cent of the gross premiums and the reserve established shall be 10 per cent of the gross premiums, therefore it is very easily figured out that if the company will maintain their policy of insuring only brick, stone, concrete or steel buildings and stocks of goods and cities amply protected by fire departments, and if they will continue to ascertain the moral and financial standing of their insurers, there is no reason why the fire loss should not be held down to a low figure, and when you consider the interest account on the policy holders' money together with the natural savings accruing to them, it is reasonable to expect an average saving of 50 per cent per annum.

The personnel of the management as well as the Advisory Board needs no recommendation from the public press. They represent the best interests of Texas, financially and socially, therefore any business entrusted to them will be handled in a manner satisfactory to any one.

The managers and attorneys have their employees, who handle the money of the institution, under an indemnity bond and further more the accounts are audited semi-annually by Certified Public Accountants from the offices of Messrs. Baker, Vawter & Wolf of Chicago and New York, through their branch office of Oklahoma City, the affairs of the institution are looked after as carefully as those of any bank in Texas, and the rights of the smallest policy holder or underwriter are as safely guarded as those of the largest and it is a well known fact that everyone connected with the institution will receive a square deal.

The National Bank of Commerce takes pride in the fact that its rapidly increasing list of new depositors is made up in a large measure of people who have been directed to the bank by its customers.

HAD ONLY A NICKEL AND WANTED A DRINK; UNFORTUNATE BEING

A man, neatly dressed, apparently in fairly good circumstances, in fact, having a salaried job, stood at Eighth street and Indiana avenue Friday in the shadow cast by one of the newer skyscrapers, and pondered. That's all he did. It was all he could do, for there reposed in his pocket just five cents, one nickel, a "jit," to use the parlance of the street, and that was all.

And, what will a nickel buy? Hardly anything. Some matches, a book of cigarette papers, a cup of coffee in some restaurants that have not yet decided to become profitless; maybe some fruit, two stamps, candy or a doughnut—and that's all.

This man wanted a cold drink. He did not have the penny to add to his five cent piece to make it good for a nickel drink. It was Friday. He had a place to eat; his lodgings were paid for and he had clean linen and enough tobacco to tide him over until the next day.

But, a drink, or almost anything else for that, what was out of the question. It cannot be bought when one's "jit" is a nickel, so what good are nickels anyway, that is, if you only have one.

MOTOR DRIVERS STILL FEATURE POLICE COURT

Automobile law violators, gamblers and drunks are either becoming more common or else they are getting caught oftener. There were many automobile law violation charges before Judge Ogilvie in police court Saturday. Speeders, persons who do not stop the motors of their cars when they stop and leave the cars, persons who wear their cars wrong, there are, apparently, many of the sort here, for their cases head the list in police court almost daily.

Within the past few days five or six "quiet little games" have been rudely broken up by the police, and in every instance Judge Ogilvie assessed fines, a dozen or more men being implicated. Anything from denatured alcohol to bay rum, from toilet water to doped patent concoctions—even cider that has a "kick" to it and grape juice to which has been added yeast or raisins and then left standing for a week or two—all of this conglomerate mass of booze substitute is popular as a beverage and a means to a jag here, for, judging from the stories told in police court, all of it is drunk. (Incidentally, the chap who uses it usually is too!)

Four individuals declared in police court Saturday that they had imbibed too freely of some of the liquids mentioned and all were fined.

MEMORIAL

OUR PRIDE

Is in doing better work than the other fellow. That is why all our Memorials just seem to fit the spot on which we erect them. Our business is designing to meet the local conditions, not buying from jobbers to sell at a big profit. You hadn't thought about it? Well, why not before you buy? We might save you a lot of disappointment.

BUILDING A BETTER BUSINESS!

THAT'S WHAT WE ARE DOING DAY BY DAY!

Better Berchandise; Better Service; Better Values are building this bigger and better business.
We want your business; we need your help in building this better business

FOR THIS WEEK—A SPECIAL SHOWING OF MARVELOUS MILLINERY

Big shipments from Fisk and Gage of Chicago, Johnson and Knickerbocker of New York, and Regina and Gold Medal Hats have just been received for early week selling.

Here you will find a wonderful assortment of black Picture Hats and picturesquely large or engagingly small Hats in colors; all of the stunning new shapes and the captivating colors are shown; black, taupe, naturtium, rose, copenhagen, pekin, leaf brown, and other new shades.

SEE THE STUNNING FEATHERED HATS
Distinctly new and distinctly swell are these smart Feathered Hats in all the bright shades and black.
\$7.50 to \$25.00

BEAVER HATS are popular, especially qualities like these which we are showing in small, medium and large sizes.

PLAIN and CHIN-CHIN SAILORS in black, brown, taupe, purple, white and orchid street and dress hats.

You'll be delighted with the unusually big showing of these charming hats.
Perfect and uninterrupted elevator service brings the Big Millinery and Ready-to-Wear floor still closer to you.

CHARMINGLY STYLED DRESSES FOR ALL OCCASIONS

You will be charmed with the hundreds of beautiful new Dresses displayed on our big second floor. You will be delighted with the real values in these exquisite garments:

Tricolette and Paulette Dresses.—In navy, mahogany, black and autumn brown, beautifully embroidered and some charming models combined with Georgette, and some trimmed with deep fringe. Styles for young women and women who wish to retain their youthful lines, also becoming models for full figures—a wonderful showing of the newest dresses for street and dress occasions—
\$60.00 TO \$150.00

Women's and Misses' Satin Dresses.—Rich lustrous satins are more popular than ever. You'll like these stunning new satin dresses we are showing in black, brown and navy with ruffles, tunics and sashes trimmed with self-covered buttons, deeply fringed sashes and the new rounded neck effects with collars of deep ruffled laces—
\$27.50 TO \$65.00

Embroidered and Beaded Georgette Dresses.—Gorgeous Georgettes in the very newest and best styles of the season, all charmingly embroidered and elaborately beaded. We are showing these in navy, taupe, brown and black, most of them finished with girdles of satin—
\$50.00 TO \$150.00

Other Beautiful Dresses in fine Taffetas, Crepe de Chines, Charmeuse, Crepe Meteors, lovely new styles in the season's best shades—
\$22.50 TO \$50.00

SPECIAL SALE GEORGETTE BLOUSES

\$7.50 Value for \$5.95
For early week selling we offer a splendid assortment of our best new \$7.50 Georgette Blouses in all of the newest shades, plain, embroidered and beaded; splendid quality of Georgette and all sizes for the early buyers, at each
\$5.95

SPLENDID SEPARATE SKIRTS

Here's a big shipment of Ladies' Better Skirts that you'll be interested in. Here you will find unusually attractive Skirts in fine all-wool Serge and Tricotines in navy; strikingly beautiful wool plaids. Dark brown mahogany Calf in the famous "Red Riding Hood" Shoes, best welt soles, lace and button styles, an ideal shoe for school wear. There's real value in this shoe, at per pair **\$5**
Children's sizes for **\$4.50**

Cheaper School Shoes on Sale After Monday
In re-arranging our Shoe stock, we have found a number of small lots of Shoes that don't belong in a good Shoe department like this. Not many pairs in each lot, but a good many different lots. For your convenience these will be grouped with those of a size together, and all of them will be marked at about one-half their real value.
If you want good Shoes at extremely low prices, look them through, and pick 'em out quickly.

Wichita Great Western Underwriters

Paris, Texas
Sept. 20, 1919

THE REIMERS COMPANY
MANUFACTURING
MACHINERY
FOR WICHITA FALLS

August 28, 1919

Mr. J. S. Mabry,
Mgr., Wichita & Great West. Underwriters,
Wichita Falls, Texas.

Dear Sir:

We are very much pleased to acknowledge receipt of policy in renewal of the one we hold, together with bill for premium, showing a credit or deduction of 52% on the amount as earnings or saving to us during the last twelve months business. It must be very gratifying to you, as it is to your policy holders, to be able to refund more than half the premium during your first twelve months business. It certainly reflects a very careful and capable administration of this company's affairs, and we most heartily recommend to every one who has insurance, to place their business with you and thereby reduce their insurance cost. You are certainly to be congratulated upon this showing, and also for having exercised such good judgment in your careful selection of risks. On this showing, we will of course, expect to maintain the limit that your company can write on our business at all times.

Yours very truly,

AC/MD

BURTON PEEL, DRY GOODS CO.

Mr. Jno. S. Mabry, Manager,
Wichita Great Western Underwriters,
Wichita Falls, Texas.

Dear Mr. Mabry:

Your letter of August 25th gives some good news with reference to the Association and I certainly congratulate you on the showing for the first year.

We are certainly glad to renew our policy for another year and it is needless to say that we are naturally pleased with the 52% return on last year's policy which you have earned for the policy holders during your first year.

I do not remember whether or not you placed a limit of \$10,000.00 insurance on your concern. We are carrying a \$10,000.00 policy but it would very evidently be big money in our pocket to increase this line with you. Please advise regarding it.

During the past year we have purchased the building in which our plant is located and we can, in the course of time, turn some of this insurance over to you, if you can write it. The present policy covers contents and not building.

Yours very truly

President.

GDR-o

S. DAUBE & COMPANY
MERCHANTS

New York Office, 189 W. 23rd St.

BOWIE, TEXAS, Sept. 20th, 1919

The Wichita Great Western Underwriters,
Wichita Falls, Texas.

Gentlemen:

We are in receipt of your statement, and we are very much pleased with results in insuring with your company. A saving of 52% for last year on our premiums is worthy of attention.

No doubt your Mr Mabry can recall our reluctance in taking out a policy in the company, as we have always placed our insurance business with old line companies, but the returns on our premiums is far better than was outlined to us for the first years work.

We consider Mr John S Mabry wide awake to the duties incumbent as your manager, and we are glad to say that every statement and calculation made to us, is evidence in our minds that he is thoroughly acquainted with the insurance business, and if the limit in our block has not already been subscribed, kindly issue us another \$5,000.00 policy on our stocks of merchandise.

Thanking you for the savings you have made us and wishing you continued successes in this splendid enterprise, we remain,
Yours very truly
S Daube & Co

HK/W

LOOK AT THIS COMPARISON OF METHODS—IT WILL GREATLY ENLIGHTEN YOU

"Old Line" or Stock Companies

ASSETS
The assets of "Old Line" Stock Companies consist of re-insurance reserve, surplus and capital.

RE-INSURANCE RESERVE
The re-insurance reserve is regulated by law and is the same for all classes of fire insurance. It is 50% of the unearned premiums.

SURPLUS
A fund set aside to meet extraordinary contingencies. Determined by the management and seldom exceeding 5% of the net premiums.

CAPITAL
A fund subscribed by stockholders in the corporation who—in consideration of assuming the liability in excess of the premium income—take ALL of the profits derived from the operation of the company. In other words, this is the fund that, in the beginning, guarantees the payment of the loss in case of fire.

RATES
Rates are made, ostensibly, by the state authorities, but the expenses are paid by the stock companies—who proposed the law—and they are based on the amount of losses sustained by all classes of risks in all classes of towns and ven in the country and on all classes of moral hazard. This means that no matter how careful you may be, there is a certain per cent of your rate that is caused by lack of fire protection somewhere else, by a frame construction, by unprofitable business and selling out firebugs, by carelessness of the second rate merchant or policy holder and by lack of progressive spirit in the improvement of risks on the part of "Moss Backs." It is only a short while since the stock companies filed application to increase rates from ten to thirty-three and a third per cent on all classes of insurance.

PROFITS
As mentioned above, the entire profits of an "Old Line" stock company go to the stockholders—the policy holder receives none.

SECURITY OR SAFETY
Your security lies in the assets of the company, the capital, re-insurance reserve and surplus, and in the honesty of the management as well as their business ability.

WHAT DOES IT MEAN TO THE POLICY HOLDER?
In "Old Line" insurance nothing but safe insurance.

POLICY HOLDERS' LIABILITY
None except the payment of the annual premium, the liability being assumed by the stockholders in consideration of all of the profits.

WHICH IS THE BETTER INSURANCE?
If then, there is no personal liability in either case, and one is as good as the other from a standpoint of security, which is the better insurance?—If you are interested in reducing your overhead expense, there can be no question but that the better insurance is where you pay less for the same security.

Wichita Great Western Underwriters

ASSETS
The assets of the Wichita Great Western Underwriters consist of re-insurance reserve, underwriters reserve and cash underwriting fund.

RE-INSURANCE RESERVE
The same as for all fire insurance companies—50% of the unearned premiums.

UNDERWRITERS RESERVE
A fund set aside to meet extraordinary contingencies. But note—the contract of the Wichita Great Western Underwriters provides that this amount shall be 10% of the net premiums, which is 5% more than the amount usually set aside by stock companies.

UNDERWRITING FUND
A fund subscribed and paid by the Underwriters and held in trust by the First National Bank of Wichita Falls, Texas—a seven and a half million dollar bank—for the purpose of guaranteeing the payment of losses in case of fire. The profits derived from this guarantee are limited to 20% of the premium income—10% being payable in cash and 10% being credited to the increase in the Underwriters Reserve.

The Wichita Great Western Underwriters uses the same rates as the stock company, but through their profit-sharing—or reciprocal—plan and their selection of nothing but the best risks morally and physically, in nothing but towns and cities protected by adequate fire fighting apparatus and proper building laws, eliminates all of the excess cost to you, of your fire insurance. How do we do it? See paragraph headed "PROFITS."

PROFITS
The profits, over and above a stipulated per cent, are returned to the policy holder—that's YOU—at the end of the year, thereby reducing the premium by the amount of the dividend.

SECURITY OR SAFETY
It has been shown under "ASSETS" that the original security of this company is as good as that of the stock company and, as it grows older, will be better because 5% more is added to the surplus than in the case of the old line companies.

WHAT DOES IT MEAN TO THE POLICY HOLDER?
THE SAME SAFE INSURANCE AS "OLD LINE" INSURANCE AND IN ADDITION A SAVING OF 40% OF THE PREMIUM. This saving is based on the experience of the "Old Line" Companies themselves during the past ten years, for which period their average loss ratio on the classes of business we write has been less than 15%. Deduct this 15% from the 55%, in which the policy holder shares, and there is 40% left to return as a dividend.

POLICY HOLDERS' LIABILITY
None except the payment of the annual premium, the liability being assumed by the Underwriters in consideration of 20% of the profits.

WHICH IS THE BETTER INSURANCE?
If then, there is no personal liability in either case, and one is as good as the other from a standpoint of security, which is the better insurance?—If you are interested in reducing your overhead expense, there can be no question but that the better insurance is where you pay less for the same security.

JOHN S. MABRY
Manager and Attorney of the Wichita Great Western Underwriters.

For Your On Benefit, Protection and Profits, make this company your company—grow and prosper with it—insure with the

WICHITA GREAT WESTERN UNDERWRITERS

Reciprocal Fire Insurance

Are You INTERESTED in Reducing Your

In the up-building of your home town and state by keeping your fire insurance premiums at the lowest possible rate, and your property protected by a strong, safe, rapidly growing company on the tried and proven Reciprocal Plan, COMBINED WITH A GILT-EDGE INVESTMENT? Decidedly YES! YOU WOULD SAVE MONEY by not paying far too much for your fire insurance, and by not participating directly or indirectly in the success of the company. YOUR IMMEDIATE ATTENTION is called to the WICHITA GREAT WESTERN UNDERWRITERS, with their cash reserve paid in, and an unusually strong Advisory Board.

We solicit the interest and good wishes of the community to enter upon our second year of progress.

R. E. HUFF, President, Manager and Attorney of the Wichita Great Western Underwriters.

Stage Is Set for World Series to Begin Wednesday

ONLY TWO VICTORIES FOR THE OLD LEAGUE SINCE THE YEAR 1903

National league fans look to the Reds to restore some of the prestige which the old league has lost in the annual duel for the world's championship.

Since the playing for the championship between the two league winners was resumed back in 1903, the champions of the Ben Johnson circuit have won ten out of the fifteen series. This has been taken by many of the fans as evidence of the superiority of the younger organization and the White Sox will have many backers in this year's series on the strength of past performances.

If the Reds succeed in nabbing the honors in the post-season circuit this year, they will accomplish a number of noteworthy things. A victory will give Pat Moran his first world's championship club. He won the National league pennant with the Phillies in 1914, but was beaten out for the L. T. honors by the Boston Red Sox. The Reds incidentally by winning their first championship, will replace the White Sox in the position which has never lost a world's championship struggle. This list now includes the Boston Red Sox, the Boston Braves and the White Sox. The Red Sox have gone through five series without defeat, the Braves have weathered the American league storm once and the White Sox have twice emerged the victor in the big baseball classic.

Since 1903 the National league team has won only five series. In 1905 the Giants beat the Athletics; in 1907 the Cubs whipped the Tigers; the following year the Cubs repeated by again trimming the Detroit Champions; in 1909 the Tigers' third effort failed before the victorious Pirates and in 1914 Stalings and his miraculous Braves club swamped the Athletics four straight. Since 1908 the National league champions have been taking a turn every five years in winning the national flag. If this can be taken as an omen, the Reds are marked by fate to win this series.

In 19 years only two teams have won the series in four straight games. The Cubs turned the trick against the Tigers in 1907 without giving the American leaguers a game—and in 1914 the Braves pulled the same stunt against the Athletics. The Giants and the Cubs hold the record for shutting out their opponents in the world's series, each time doing performed this feat five times. Detroit and Chicago played the long-toss series game—a thirteen inning affair in 1885.

Boston is the only city in the major leagues whose pennant winners have not lost a world's series decision. The Braves and the Red Sox have both delivered the goods when they represented the Bean City in the big games.

The following is the result of the annual fight since 1903:

- 1903—Red Sox beat Pittsburgh 5 out of 6.
- 1904—No series played.
- 1905—Giants beat Athletics 4 out of 6.
- 1906—White Sox beats Cubs 4 out of 6.
- 1907—Cubs beat the Tigers four straight.
- 1908—Cubs beat Tigers 4 out of 6.
- 1909—Pirates beat the Tigers 4 out of 6.
- 1910—Athletics beat Cubs 4 out of 6.
- 1911—Athletics beat Giants 4 out of 6.
- 1912—Red Sox beat Giants 4 out of 6.
- 1913—Athletics beat Giants 4 out of 6.
- 1914—Braves beat Athletics four straight.
- 1915—Red Sox beat Phillies 4 out of 6.
- 1916—Red Sox beat Brooklyn 4 out of 6.
- 1917—White Sox beats Giants 4 out of 6.
- 1918—Red Sox beat the Cubs 4 out of 6.

PRESIDENTS OF TEAMS.

GARRY HERRMANN
Chairman of the national commission for 18 years and president of the Cincinnati Reds for an equal period, August Herrmann is one of the best known men in baseball. And he is one of the most pleased men in the game this year since his team won its first pennant under his regime. Herrmann became prominent in the National League on August 1, 1902, when he became part owner of the Reds along with George B. Cox, now dead, and Max Fleischman. They bought the club from John T. Brush for \$150,000. When the club was reorganized, Herrmann became the president and he never relinquished the position.

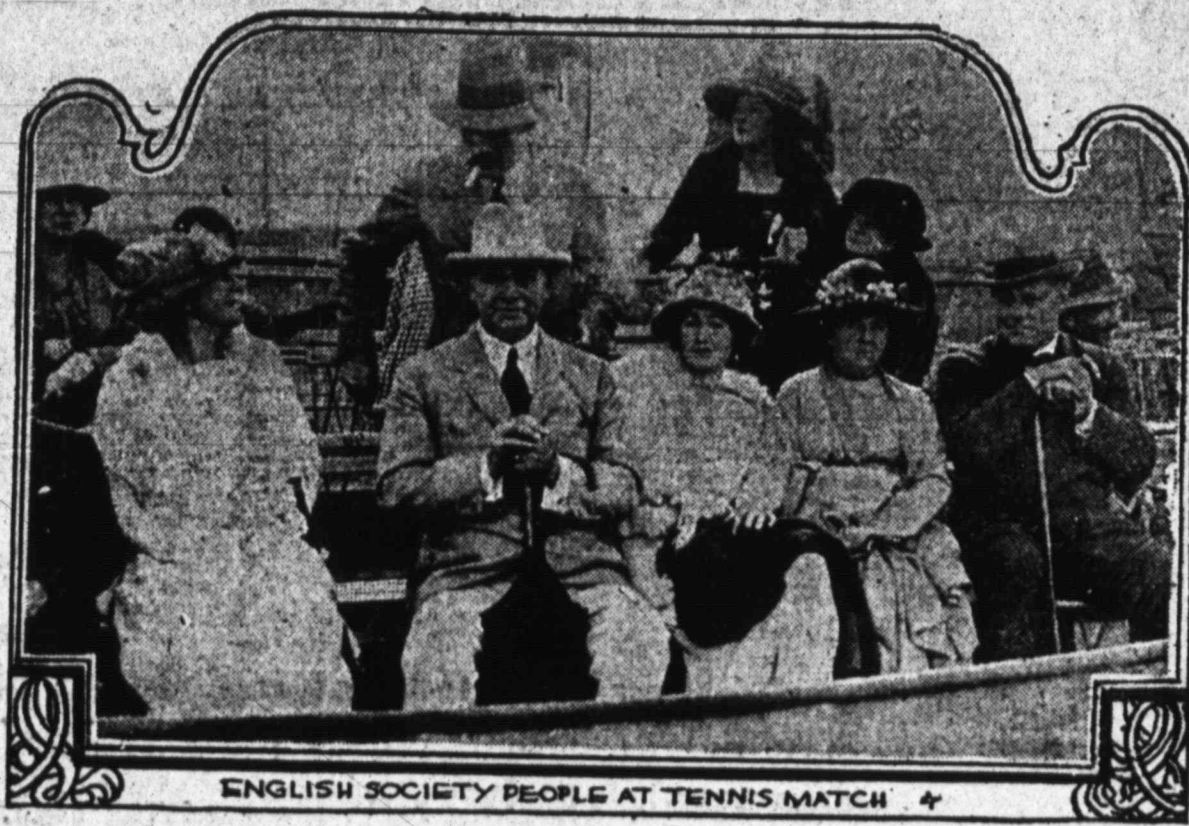

Early in his career, Herrmann was a printer. He then got into politics with the late boss, George B. Cox, by business interests with him and finally branched out as a baseball magnate.

CHARLIE COMISKEY
No more picturesque figure is prominent in baseball today than Charlie Comiskey, the "Old Roman" president of the pennant winning White Sox. He has been in baseball's spotlight for 27 years as manager, owner and an authority on the national game. He is the big boss now of a team that has never lost a world's series decision. Twice the White Sox have landed a pennant and as many times they have nosed out the National League entry in the big classic.

Comiskey first became prominent as manager of the Cincinnati Reds in 1883-1884. He was not a bowing success in that capacity, the team finishing fifth, sixth and tenth respectively under his guidance. His big step came in 1890 when he fought between the National and American League. He was one of the principal factors. He helped organize the western wing of the league and later acted on the committee which met and declared a truce with the older league. When the league got under way in 1891 he became president of the Chicago club and has held that position ever since. He had the honor of heading the first American League pennant winner.

The fact that the National Bank of Commerce is entirely independent of the control of any favored interest is an asset of value to its customers as well as to the bank itself. Every customer is assured a square deal at this institution.

DAVIS CUP TENNIS MATCH AT DEAUVILLE

In the doubles tennis matches played lately at Deauville in connection with the selection of a team to meet the Australians for the Davis Cup, the French team defeated the British. The photo shows a bit of English society watching the tennis final. Sir Hamar and Lady Greenwood and Mrs. Lloyd George and Sir Eric Geddes are enjoying the play.

SUCCESS BY DIAMETRICALLY OPPOSITE METHODS EXEMPLIFIED IN MANAGERS OF TWO TEAMS

By HENRY L. FARRELL (United Press Staff Correspondent.)
NEW YORK, Sept. 27.—Cool, kind and suave an adherent of the belief that a smile and a pat on the back will accomplish more than the "mailed fist" Moran developed a winning spirit among the Reds by the kid glove method.

A fighter by nature, aggressive and stern, Kid Gleason kept the White Sox working in harness by allowing them an occasional glimpse of a razor or strap in his suit case. Both methods bore the desired fruit.

Harmony was preserved among the two leagues by the fact that Moran plugged for Gleason because he was square in his sternness, off the ball field he was one of the best.

Moran didn't talk pennant to his team. He didn't tell them they were the best in the league. He preferred to let them find it out themselves.

Gleason called a conference of his staff early in the season. He told them they were the best in the league. He pronounced them pennant winners if they would pull together, he kept telling them. They went out and won because their gray topped leader had drilled them deep in them that they couldn't lose.

Both leagues are past masters in the art of handling men. Both found themselves coming to the tape for the race last spring with a machine that wasn't running smoothly. Moran found a clue on the Reds who regarded him as an intruder on the territory that belonged to Henne Groh. The "old Roman" was nursing a notion of ill repute and later took a post graduate course as McGraw's lieutenant.

Both leagues prove themselves diplomats by applying balm to the fancied sore spots. Harmony replaced discord.

Moran gave further evidence of his proficiency with the "kid gloves." Walter Reuther had come to him after several clubs had tagged him "n. g." The young pitcher had a good left arm but a bad disposition. He had been banished from a club out west for causing a strike of the players. Baseball, to his notion, was real amusing. But he underwent a radical change under Moran's tutelage. He became a serious worker, a willing player and developed into one of the best pitchers in the league.

When it comes to knowing baseball both leaders rank among the wisest heads in the game. Gleason comes from the old school—the Baltimore circle—where McGraw, Jennings and Robinson got their start. Moran of a later day, got his diploma with the famous old Cub machine of Frank Chance and later took a post graduate course as McGraw's lieutenant.

Greater Credit to Moran.
For the season's work, however, Moran must get the greater credit. Gleason had a finished ball club when he took the reins of management. But Moran was greeted by a team of misfits. He didn't know who would play second base or shortstop. He had a glaring hole in the outfield and his pitching staff looked anything but the best in the league. From those misfits and castoffs he built a championship club. He put the hurriers through a school of control and ended the season with the best staff in the league.

Gleason comes in on the distribution of laurels, however, but the way he handled his small pitching staff through the season. It was wise decision that enabled the team to win the pennant with only two high class pitchers.

The trait of all truly great is a virtue of both managers. They pass their credit to their "boys" and they themselves neither presents himself with bouquets.

The handsome new quarters of the National Bank of Commerce, on the corner of Eighth and Indiana-sts. will, it is hoped, be ready for occupancy about the middle of December.

THOUGHT ONE CLEAN SHIRT ALL HE NEEDED.
"Ten years ago I was reduced to a mere shadow. I was yellow as a gold piece and would often be doubled up with most excruciating pains in my stomach. Physicians could only relieve me with morphine. I was advised to try May's Wonderful Remedy and it helped me at once. A friend said he thought one more clean shirt all I would ever wear." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Mack Taylor and druggists everywhere. (adv.)

Only Two of Reds '69 Team Live to See City Repeat

Only two of the 1889 Reds, who went through a season without a defeat and gave Cincinnati her first baseball championship, have lived through the fifty years to see the Ohio city repeat. They are George Wright, sporting goods dealer of Boston, and Carl McVey of San Francisco.

Wright is reputed to be a millionaire while McVey is penniless on the coast, where several benefit games have been staged to keep him in funds. The first champions, who have been the lone consolation of Cincinnati fans up to this year, were composed of Harry Wright, captain and center field; George Wright, shortstop; Charles H. Gould, first base; Charles Sweeney, second base; Fred Waterman, third base; Douglas Allison, catcher; Andrew J. Keonard, left field; Cal McVey, right field; Asa Brainard, pitcher and Richard Hurley, substitute.

Cincinnati the first city to organize a team of salaried ball players, is really the home of professional baseball. The defeatless champions of 1889 wore crimson hose and were nicknamed the "Reds"—both of which have passed down as tradition through fifty years to Pat Moran and his winning crew.

Between 1870 and 1876 interest in the game lagged and the professional sport was discontinued. In 1876 the city entered a team in the National

league and became a charter member of the organization. The first president of the club was J. L. "Cy" Keck who was also manager of the club. The first season the Reds won nine games and lost fifty-six for a percentage of 138, which stood as the lowest mark in the National league until 1899, when Cleveland won twenty games and lost 134 for a percentage of 130.

In 1877 only two of the old "sixty-niners" were left—Charles Gould and Charles Sweeney. Among the newcomers were Bobby Matthews, pitcher; N. W. Hicks, catcher; Ed Cathb—Lipman Pike and Bob Addy. In 1878 the team changed hands and was taken over by J. W. M. Neff. In 1880 the team was expelled from the league for allowing liquor to be sold on the grounds. In 1890 the club was returned to the league under the management of Tom Loftus. In 1891 the club was taken over by John T. Brush. In 1903 Brush disposed of his holdings to George B. Cox, Julius and Max Fleischman and August Herrmann. The latter was made president and has acted in that capacity ever since.

The Fleischman interests in the club changed hands last year and were taken over by eastern capital. Time after time during the fifty years interim in championships, Cincinnati team would flash sensational early season form, mount on the top of the ladder or themselves only to have pennant hopes wilt and fade away under the heat of a mid-season

battle. In those fifty years they have finished on every rung of the league ladders.

Manager after manager, including some of the best baseball brains of the country, tried their hands in giving Cincinnati pennant winner but, previous to this year, they failed. And they all sang the same song, too many managers on the board of directors. In this connection it may be said that Pat Moran, when he was offered the steering wheel of the club, accepted with a provision—he should be "hell cow" on all matters. He has had a free rein in the management of the team and he developed a winner.

Enough good players were developed during the long laps of years between championships to land several rags if they had been kept together. Charges of commercialism were frequently hurled at the club owners when a star player was sold and went out and helped another club to the pennant.

It may be interesting to scan the list of managers who have tried their luck with the Reds since 1876. They are: "Cy" Keck 1876 and 1877; J. M. Neff, 1878 and 1879; O. P. Caylor, 1880; Tom Loftus, 1890 to 1891; Chas. Comiskey, 1891 to 1894; William Ewing, 1895 to 1900; Robert Allen, 1900; John (Bid) McPhee, 1901 and 1902; Joseph Kelly, 1902 to 1906; Edward Hession, 1906 and 1907; John Gerson, 1908; Clark Griffith, 1909 to 1911; Hank O'Day, 1912; Joe Tinker, 1913; Charles Herzog, 1914 to 1916; Cristy Mathewson, 1917 and 1918.

And then came Pat Moran who was released from a contract with the Giants as pitching coach and sent by McGraw as another victim of the Ohio fix. But Moran proved himself a fix chaser, built up a first class club and took the pennant away from his benefactor.

The fact that the National Bank of Commerce is entirely independent of the control of any favored interest is an asset of value to its customers as well as to the bank itself. Every customer is assured a square deal at this institution.

Short Sketch
Moran's Con
for Premier
n Baseball

Pat Moran, boss of the Cincinnati Reds, has a long and interesting career. He was born in 1876 in the town of Brookline, Mass. He was a pitcher for the Boston Red Sox in 1903 and 1904. He then moved to Cincinnati and became the manager of the Reds in 1908. He led the team to a world championship in 1919.

William Lawrence (top) is 28. He was born in 1886 in the town of Brookline, Mass. He was a pitcher for the Boston Red Sox in 1903 and 1904. He then moved to Cincinnati and became the manager of the Reds in 1908. He led the team to a world championship in 1919.

William A. Rariden was born in Brookline, Mass. He was a pitcher for the Boston Red Sox in 1903 and 1904. He then moved to Cincinnati and became the manager of the Reds in 1908. He led the team to a world championship in 1919.

Harry O. (Hod) born in Brookline, Mass. He was a pitcher for the Boston Red Sox in 1903 and 1904. He then moved to Cincinnati and became the manager of the Reds in 1908. He led the team to a world championship in 1919.

Walter Reuther started in 1913. He was a pitcher for the Boston Red Sox in 1903 and 1904. He then moved to Cincinnati and became the manager of the Reds in 1908. He led the team to a world championship in 1919.

Short Sketch of Pat Moran's Contenders for Premier Honors in Baseball World

Pat Moran, boss of the Reds, who says Cincinnati her first National league champion team, is being called the "Miracle Man." He took a team that was rated early in the season as lucky, to land in the first division and to win a championship with it.

But the main reason advanced in explaining him with "wonder titles" is the fact that he brought about his miraculous feat with a team of cast-offs. He assembled a club from "scraps" discarded by other teams and moulded it into a consistent winner. He took a corps of pitchers who had been found wanting by other managers and developed the best staff of hurriers in the league.

Jake Daubert, Larry Kopf, Morry Rath and Sherry Magee were on their way to the minors when Pat turned their steps to the Reds and handed them a slice of world's series cake.

Slim Sallee, Walter Reuther and Ray Fisher had the N. G. tagged on them, but Moran took them and put their names in the best working order of their career. Here are the Reds in a nutshell:

Jacob E. Daubert (first baseman) is 34 years old. He was born in Shalers, Pa. He started his career in 1906 with the Kane semi-pros and was bought by Cleveland in 1908. He was then farmed to Nashville. In 1919 he was transferred to Toledo and was bought by Brooklyn in 1910, playing there until this spring. He has batted around .290 in fourteen seasons.

Morry Rath (second baseman) was given the test in the American league with the White Sox, but he failed to deliver the goods and went back through the Minors to Salt Lake City, where he was secured last year by the Reds.

William Lawrence Kopf (short stop) is 25. He was born in Bristol, Conn. In 1912, as captain of the Fordham college nine, he drew the attention of major league scouts. But he habbed around for awhile in the New England league under the name of Brady. He was signed by Toledo and sent up to Cleveland. The Athletics got him on waivers. His stick work was too light and he was released to Baltimore. The Reds then nabbed him when Herzog left. His work this year was high class.

In point of service, Henry Knight Groh (third baseman) is one of the veterans of the team. He was born in Rochester, N. Y., 30 years ago. He started out with Oshkosh in 1908 and was sold to Decatur in 1911. The Giants bought him later in the season and then let him go to Buffalo. He was recalled in 1912 and in 1913 was released to the Reds. He bats around .273 and is the best third baseman in the league.

Ivy B. Wingo (catcher) was born 29 years ago in Norcross, Ga. He jumped in the game in 1909 with Greenville in the Carolina Association. He was sold to St. Louis in 1911 and was traded to the Reds in 1915 for Gonzalez and Bescher.

William A. Rariden (catcher) is 31. He was born in Bedford, Ind., and started his career in 1907 with Canton in the Central league. The Braves bought him in 1910 for \$1500. He jumped to the Indianapolis Reds in 1914 and then went to the Newark Yeds in 1915. He was sold to the Giants in 1916 for \$5,750 and was traded to Cincinnati in 1918.

Sherwood Magee (outfielder) was born 35 years ago in Clarendon, Pa. He started baseball in 1903 with the Allentown semi-pros. He was signed by Little Rock in 1904, but refused to report and was sent to Philadelphia Nationals. In 1915 he was traded to the Braves. After three seasons there he was released to Cincinnati this year on waivers.

Ed J. Rousch (outfielder) was born in Oakland City, Ind., and is 26 years of age. He made his debut with Evansville in 1912. After two seasons there the White Sox bought him for \$1,000. He played in eight games and was sent to Lincoln in the Western league. In 1914 he came back with the Indianapolis Yeds. He was then traded to the Newark Federals and was sold to the Giants in 1916 for \$7,500. The same year he was traded with McKee and Mathewson for Ferrar and Kilfiter. With the Reds he has been the leading hitter and the best league swatter last year.

Earl A. (Greasy) Niece (outfielder) was born in Parkersburg, W. Va. He is 26 years old. He started in 1912 with Altoona in the Tri-State league. He was released to London in the Connecticut league and was drafted from there by the Cleveland Americans in 1914. He was farmed back to London and returned to Cleveland in 1915. He went from there to Dayton in the Central league and then to Saginaw. When that team disbanded, he was bought by Cincinnati in 1916. He has batted around .270 for the Reds.

Harry O. (Hod) Eller (pitcher) was born in Muncie, Ind., 25 years ago. He started in 1913 with Champaign in the Illinois-Missouri league. In 1914 he was sold to the Athletics and pitched there two seasons. The White Sox gave him a trial in 1916, but turned him over to Moine without a chance. He was drafted from Moine and joined the army on the border. He returned and was suspended. Later he was reinstated and was drafted by Cincinnati.

Jimmie Hise (pitcher) is one of the sensational youngsters of 1919. He was drafted from Utica in 1917. He was traded to Buffalo and was sent to Chattanooga with Reuther and Bescher as a deal, but was recalled before the end of the season.

Ray L. Fisher (pitcher) was born 32 years ago in Middleburg, Ohio. He went to Hartford in the Connecticut league in 1908. In 1909 he was sold to the Yankees and pitched "in and out" ball until the Reds got him on waivers last year.

Raymond E. (Rube) Bressler (pitcher) is 25. He was born in Brookville, Pa., and started in 1913 with Harrisburg in the Tri-State league. In 1914 he was sold to the Athletics and was turned over to Atlanta in 1917. He was discharged from the army this spring and was transferred to the Reds. He played in the outfield most of this year, pitching only a few games.

Harry F. Sallee (pitcher) is 34. He was born in Hillsborough, Ohio. He became a professional in 1905 when he joined Meridian in the Cotton States league. He was sold the same year to Birmingham in the Southern league. He went to the Yankees in 1907 and was released without trial to Williamsport in the Tri-State league. St. Louis bought him in 1908 and sold him to the Giants in 1916 for a reported price of \$15,000. He failed to get the league stars and when he threatened to quit if he couldn't land with a club closer to his home, McGraw sent him to Cincinnati.

Walter Reuther (pitcher) is 28. He started in 1915 with St. Ignace college in San Francisco. The Pirates signed him and he stayed with them

STYLE HEADQUARTERS where Society Brand Clothes

FOR YOUNG MEN AND MEN WHO STAY YOUNG

Men Who Break the Trails

—leaders—leaders in sports, in business, in social affairs, in local and national needs—real cold-drawn, steel sinewed men of all ages between leaving school and full accomplishment—men who keep the rumble in the big mills, lay down railroads, span rivers and move mountains with the faith in themselves—these are the sort of blood, bone and brain humans that

Society Brand Clothes

Society Brand Clothes

Society Brand Clothes

Are Made For

THE TRAIL BREAKERS

There be many trails unopened; there be many paths unexplored,
Since the first lone Neolith turned his back on those who feared.
There be men that find the passes; there be them that herd along
On the wide and open roadway in the footsteps of the strong.

There be men who pan the Muckluks for the shen of yellow gold;
There be men who fight with knowledge till the truths of life unfold;
There be men in all earth's pathways that the bumps of fate can't floor,
For they know that there are better things than these that came before.

In the clinics you will find them; in the shops and in the mills;
In the court rooms and the college; in the gutted Arctic hills;
And they work and slave and toil on with a heart that never fails—
They're the men who beckon onward; they're the Breakers of the Trails.

—Cook

ARE YOU ONE OF THESE REAL MEN?

By the Same Token, Society Brand Clothes Are Trail Breakers

A LONG TIME AGO they stepped boldly to the front and "on the wide and open roadway in the footsteps of the strong" proclaimed their right to leadership on real merit—proclaimed their superiority in everything that goes into the making of better and more economical clothes for men. They have marched boldly forward and are today farther in advance than they were yesterday.

WE SELL and back up Society Brand Clothes because we want to build our business on the solid rock of overflowing satisfaction to our customers. When a man keeps coming back to us season after season and expressing unreserved satisfaction we know we are doing more for him than merely exchanging a suit of clothes for his money.

IT IS EVIDENT to even a casual observer that more and more men are forming lasting friendship with Society Brand. More and more men are refusing to consider buying clothes that do not show the Society Brand label. This preference is based on something very real that has proved itself to them. That realness is wearing quality and style-holding quality that other makes have failed to meet on the gridiron of daily wear.

AND WE LIKE the I-know-what-I-want kind of square jawed men who are drawn here by the service we give them. We're a little puffed up and pride over the variety of clothes we've stocked up for your selection this season. Bigger stocks, to take care of the more men who are turning to Society Brand and to give a complete choice that covers all ages of man, all tastes in fabrics and all likings for colors. Come in for a look.

The prettiest lot of ties in town are here in a lot of patterns most pleasing And prices are attractive, too.

"The Courteous Service Store"

How about your new hat? We'd like you to see the lot of new ones we'd like to show you—soft or stiff.

a month before being sent to Los Angeles. From there he was traded to Sacramento and ended up with the semi-pros in Frisco. In 1914 he was signed by Vancouver in the North-West league and from there he went to Salt Lake City in 1915. Spokane signed him in 1916 and then he went to the Cubs. Cincinnati took him when he failed in Chicago and was about to turn him down. He was traded to Chattanooga, but refused to go. He went to the army and returned to Chicago this year and became the best southpaw of the league.

Calling Him Pat "the Miracle Man" of 1919 Baseball

They are calling Pat Moran the "Miracle Man" of 1919. The man who piloted the Reds into the first world's series in 50 years is hailed by Cincinnati fans as the greatest man in baseball. There are no superlatives fitting enough to express the regard of the Ohio bugs for that Fitchburg prodigy, who gave the river town what it had been yearning for 50 years—a National league pennant.

It was a miracle the red-faced, smiling boss of the Herman club pulled in landing at the top of the ladder a team that was doubtful as a first division aggregation early in the season. George Stallings' feat in 1914 when he shoved the Braves out of the cellar in the middle of July and ran them headlong to the pennant is the only performance that compares with Moran's miracle.

Stallings, however, has but one miracle to his credit. Moran outshines him, for he has a pair that mark him as the "super-miracle" performer, for he pulled a similar feat in 1915 when he ran the Phillies, an outsider in the race, to a pennant.

It was the sheer force of a personality, which has made him the most popular man in baseball, mixed with a head full of baseball brains that spelled his success with the Reds.

Pat had the fans with him all season, not only in Cincinnati, but in every stop of the National league and every flag station of the country. They wanted to see him win to remove the black eye which the Philadelphia owners gave him by trying a can to him after he had given them a pennant.

But the applauding galleries and the howling stands of the ball yards didn't win for him. What he did is more or less uncertain.

There has been good material on the Red Cubs of the past and they have been managed by the best baseball brains of the game including Griffith, Herzog, Mathewson et al. But they all failed. The wall was universal that there were too many managers on the board of directors. The complaint was made that the owners wouldn't buy good timber to bolster up the club.

Moran won, though, and he won without the money bag. He took a semi-motley crew of cast-offs, players whom he headed on to the Cincinnati park when they were being handed one-way tickets to the minors from other clubs. He took Daubert, Magee, Tait and Kopf when other clubs had hung the finished sign on them and moulded a team that won the bunting.

The same thing may be said of his pitchers. Salles, Fisher, Eller and Reuther had had their whirl, but no manager was chasing after them. Moran took them, coached them, nursed them, taught them control and made the most effective pitching staff in the league.

Baseball brains was represented in those feats. But it was his personality that oiled the mechanism and kept the machine tuned up. He had some little antagonistic spirit to overcome when he took the reins. Heinie Groh was all set for the "Mgr." title and several of the club thought he deserved it. But Pat smoothed that over, brought about a spirit of co-operation, put a winning kick in the team and has had them for him all season.

The only time Moran opens his mouth to speak of the feat is when he takes occasion to pay tribute to "his boys."

Recently in New York he said: "Don't give me the credit. The boys there on the bench have done the work."

That's what won for him. Moran is 43 years old. He was born in Fitchburg, Mass., Feb. 7, 1876. He started out 23 years ago with Lyons, N. Y., in the New York State league. He went to Montreal for two years and then signed up with the Braves as catcher in 1901. In 1904 he went to the Cubs and was signing for Frank Chance when the famous old machine was winning pennants in 1896, 1897 and 1898. He went to Philadelphia in 1910 and succeeded Charley Doolin as manager in 1915, winning a pennant. When he was relieved of command, McGraw signed him as assistant manager and coach and released him this spring to take the Red management. Pat then went out and took the pennant away from his benefactor.

White Sox Have Edge in Hitting That Apple

Comparison of the batting averages of the Reds and the White Sox gives an edge of no narrow margin to the Cincinnati crew. Collectively and individually the Reds have averaged .285 in the series up to Sept. 11 give the White Sox a team batting average of .283 while the Reds have only .265.

Individual marks of the team members are:

CHICAGO	CINCINNATI
Felch .245	cf. Rousch .219
Jackson .253	lf. Magee .223
Latholm .292	rf. Neale .247

It's worth something to you to feel safe about what you buy; no guess work; an assurance that you'll find it satisfactory. We know our qualities; we guarantee your satisfaction; we refund money cheerfully.

The newest thing

The revival of the double-breasted suit, in styles for young men

DOUBLE-BREADED Suits have always been known and worn; but when we say double-breasted Suits now, we don't mean the old kind. Hart Schaffner & Marx have created an entirely new type of double-breasted. High chested, snug waisted, broad lapels, flared skirts; the jauntiest, snappiest styles you've ever seen. Some have belts; some half belts; with

some the belt is detachable—wear the coat without it if you choose. The young men are taking them fast. We have very smart single-breasted models, too, of course; very snappy new types; we hope to see you looking at them.

Special values here at \$50.00

And at \$40, \$45, \$55, \$60, \$70

For men who want the best

BUSINESS men of standing require clothes that look like the man's position; and a good many men think such clothes can't be had ready-made. It's an expensive thought, but it's their own money. We've studied clothes construction pretty

carefully; we're showing suits for business men, made the custom way; clothes that drape well, fit well; made with no padding nor stiff canvas; shaped by hand. They're wonderful clothes. We have sizes to fit every figure. Special values at \$50.00.

And at \$40, \$45, \$55, \$60, \$70

Hart Schaffner & Marx boys' clothes—like father's

NOW we can offer you something better; Hart Schaffner & Marx are making boys' clothes; sizes from 8 years up. It's a wonderful thing for you parents to be able to get such clothes for your boy; all-wool fabrics, with the finest tailoring and smartest styles. Guaranteed in every way. Exceptionally good ones at \$20. Other Suits \$18.50, \$25.00, \$30.00.

GERMANS PREDICTING ANOTHER WAR TO REGAIN LOST TERRITORY

By EDWIN W. HULLINGER
(United Press Staff Correspondent)

WITH THE AMERICAN ARMY OF Occupation, Coblenz. (By Mail).

"Germany will begin another war—perhaps within 20 years, certainly in the following decade—to win back the territory lost in this war."

"The old regime will be back in power in Berlin in a few years."

These two predictions express the almost unanimous conviction of the German population in the American-occupied zone along the Rhine. They were repeated to me time after time by citizens of every class, occupation or grade in life.

They are almost the only two issues concerning which there is absolutely no difference of opinion in "Uncle Sam's Germany." For on most matters the Rhineland presents a distressing bewilderment of thought.

Thus spoke quiet farmers, leaning on their hoes in their fields, and obsequious shopkeepers, eager for the fruit of the proverbial American spending palm. Waiters, hotel porters, hewymen, well-to-do merchants, bankers, ex-officers, ex-privates, and diversity students, laborers, pro-governmenters, anti-governmenters, monarchists or republicans—all answered as one man.

Many were unable to conceal their surprise that the question should even be raised.

Some gave their answer sadly, as if resigning themselves to the inevitable; others triumphantly, like a prizefighter promising a comeback. Manner of delivery varied according to mood or temperament of the speaker. But in what was said there was no variation.

"The habit of obedience and submission to authority is too deeply drilled into the German mind to permit anything else—in this generation, at least; a well bred, thinking young chap explained. He professed—and with convincing sincerity—a hatred of militarism and Prussianism from bitter personal experience. He hoped to escape it by going to America, as soon as he could learn English.

"The German people today are incapable of democratic self-government," he continued. "The nation is not accustomed to choosing for itself. It knows how to accept and obey commands from above. It does not possess the initiative necessary for self-rule. You cannot change an ingrained national trait in a few days. It will take a generation or two of education in a new school of thought.

"The Junkers will be back in control in two or three years—five at most.

"The average peasant reasons only in material terms. He knows he was prosperous under the Kaiser. He was told everything. He was spared the trouble of thinking for himself. Now he has freedom—and hard times. He may enjoy his liberty in a way."

My companion pointed to the "ver-

boten" sign lying face down on the turf of the beautiful Luisen Anlagen on the Rhine.

"That sign was upright before," he smiled. "Well, the peasant is glad it's down now. He enjoys walking on the forbidden grass."

"But when it comes to 'balancing these slight freedoms, accompanied, as he will be told, by adversity, against the sterner but more prosperous paternalism of the old days, I don't think there is much doubt as to his choice."

"That is the way the Junker agitators will put it up to him."

"Few, however, thought the monarchy would be restored. All admitted such national possibilities.

The general idea seemed to be the Junkers would come back, but wearing the formal costumes of republicans, although the net result would be the same.

"The certainty of the 'next war' was equally as deep-seated in the minds of the German race as the certainty of the 'next war' is to rise again."

"The German race is too tenacious to remain down long," a merchant declared. "It has been crushed repeatedly, always to rise again."

"We are down now. Have lost our colonies and large strips of purely German soil. (All insisted on this point—that the regions sliced from the Fatherland by the peace treaty were genuinely German territory). We will rise again. And the next war will be a people's war. This one was a government affair. The people simply obeyed."

"The next one will be a fight demanded by the people themselves as a means of winning back their 'rightful heritage.' The motive force will come from below, not from above."

"Ach, it will be a REAL war!"

MERCHANTS OBJECT TO PASSPORT REGULATIONS

DOUGLAS, Ariz., Sept. 26.—Passport regulations of the United States which prevent hundreds of Mexicans in Sonora from crossing to this side of the international line to do their trading, have caused considerable complaint among the merchants of Arizona border towns who have heretofore reaped a harvest from Mexican patronage.

The Mexican shoppers often presented some peculiar contrasts. Formerly many Mexican families, their nakedness barely covered by the rags they wore, but with thousands of dollars in their purses, crossed the border for their annual buying trip.

After a day or two they would recross to the Mexican side, the members of the family wearing as much of their clothing purchases as possible in order to escape Mexican import duties.

Sometimes a man would be seen wearing several suits of clothing, with four or five hats, one upon the other, on top of his head.

Such sights, once common, are rarely observed now.

Burton, Wales.—Shooting at crows chattering on the housetop, John Clarr shot his wife, who was looking out of the window.

SCENE OF LATE BLOODY PROGRAM A CITY OF STARVATION AND FEAR

NEW YORK, N. Y., Sept. 25.—Pinsk, Poland, which was reported some time ago the scene of a bloody pogrom that stirred the Jews of every country in the world, is today a city of starvation and fear, according to a communication just received by the American Jewish Relief Committee from Dr. Boris Bogen, executive director for Poland of the Joint Distribution Committee of American Funds for Jewish War Sufferers.

About 18,000 Jews in Pinsk are absolutely destitute, Dr. Bogen reports. Practically no food can be bought in the open market. Charity is administered picturesquely under military observation, and soldiers attend all relief meetings.

"We have a children's kitchen where 5,000 children receive rations daily, but a large number are still without food," Dr. Bogen states. "At every railroad station between Brest-Litovsk and Pinsk, the train was met by children begging for bread. These hungry children get no food other than that given them by the passengers of trains that pass through this territory once or twice a day."

"The situation in Pinsk is appalling. The town is still under military rule. No meeting can take place in Pinsk without special permits, so when I arrived I reported to the military authorities and they gave me permission to call a meeting. A soldier watched the proceedings, which naturally made the situation very difficult, as the people are so nervous and excited that

they do not seem able to take any definite action.

"The amount of food in the town is very limited. There is practically speaking nothing to be bought in the open market. It struck me as remarkable that the people still continue their schools and in that respect do not lose heart. The question of housing and providing fuel is also extremely urgent and I hope that additional funds from America will be forthcoming."

"While in Pinsk, I got in touch with the Red Cross station in Kobryn, and succeeded in getting supplies of linen, etc. for the hospital. We also sent considerable amounts from our own supplies, and, while this has done a lot of good, men, women and children are still in rags. But the most unfortunate feature in Pinsk is the restless, unhappy inner life of the people. They are afraid of every step they take, and, in general, produce a picture of deep distress."

London.—Sentenced to one month's imprisonment at Sunderland, Peter Lee, shipyard laborer, yawned and

Why Go Hungry

If your stomach is weak and you suffer with indigestion, — don't sacrifice your health and comfort. You may eat anything you like, and retain it, if you take one or two

There's a Touch of Tomorrow in All That Cole Does Today

The Individuality of Cole's Advanced Designs Is an Inspiration

A Future Note in Present-Day Creations

WE DREAD the monotony of the commonplace. We seek, always, the thrill of the new and the original. To satisfy this desire the Cole Aero-EIGHT is dedicated.

The aim of its builders has been to be first in design—to lead the way to future improvements.

In a never ending succession of achievements the Cole has changed staid tendencies and quickened the pulse of motordom to faster progress.

Coming as a distinct departure, the Aero-EIGHT has struck a chord of broad appeal.

Individuality has been its dominant note. Originality has found expression in its classic contour and in every detail of its mechanical construction.

For ten years the Cole Company has been planning ahead—for five years it has concentrated its efforts exclusively on the development of the eight-cylinder motor car.

In the Aero-EIGHT—striking in personality, sound in principle—the experience and effort of these years find expression.

A climax in a career devoted to creating the new, it has come as the herald of an advanced vogue in motor car design.

Refreshingly New Conceptions

THE Cole Aero-EIGHT has a captivating charm and freshness about it. It is like a glimpse into the future.

As gifted mechanically as it is radiant in beauty, it adds a note of saturation to present-day standards of automobile building.

Possessed of a fund of reserve power, which gives it lightning acceleration and smooth action at all speeds; endowed with tenacious road-adherence; delivering 15,000 miles on tires and correspondingly remarkable economy in the use of gasoline, the Aero-EIGHT is a marvel of mechanical efficiency, comfort and utility, as well as the criterion of advanced design.

Flush panel construction is presented for the first time in the new Aero-EIGHT all-season cars.

They rival the open models in their spirit and style, offering a combination of restful ease and finished artistry which is infinitely appealing.

The careful blending of colors, the richness of fabrics, the correctness of fittings are the work of master craftsmen.

There are six new creations in the line of Cole Aero-EIGHT all-season equipages. For whatever purpose an enclosed car is desired, there is a Cole Aero-EIGHT which answers the requirements completely.

CONSIDER TUNIS ONE OF MOST BEAUTIFUL CITIES OF THE ORIENT

HAS A MIXED POPULATION OF SOMETHING MORE THAN 275,000 PEOPLE.

WAS MONARCHY UNTIL 1881

At That Time the "Treaty of the Bardo" Made it a French Protectorate.

WASHINGTON, Sept. 27.—Tunis is the subject of the second bulletin of a series issued by the National Geographical Society...

Tunis, the capital of Tunisia, situated on the coast of northern Africa, is about the latitude of Norfolk, Va.

"Tunis was an absolute monarchy until 1881, when the 'Treaty of the Bardo' made it a French protectorate."

"Tunis is called by the Arabs 'The White Burnous of the Prophet.' Its houses are all flat-roofed and creamy white in color."

"Tunis has changed greatly since 1881. A large and attractive French town has sprung up outside the walls of the native city."

"Friday is the Arab Sunday, when all the women go in the morning to the cemeteries to pray. One passes hundreds of them chatting together, dressed in their silvery white 'haïks' and black face-veils."

"A tidy donkey with pailers filled with oranges shoves up against the wall of the narrow street as he passes, and we wonder what the vendor is crying. It sounds weird, but translated means only 'Oranges—cheaper than honey.'"

"At the slaughter house there are three separate divisions—one for the Europeans, one for the Jews, and a third for the Mohammedans, where the animal to be killed has to face toward Mecca."

"In the days of Rome northern Africa (Tunisia) was called the 'granary of the world' for the Roman system of irrigation was marvelous and the soil fertile."

MUCH IMPORTANCE IS ATTACHED TO SUCCESS OF BAPTIST CAMPAIGN

NASHVILLE, TENN., Sept. 27.—Success of the Baptist 75 Million Campaign in raising this sum to be expended in strengthening Christian work in all parts of the world will mean more for the promotion of better relations between China and Japan than any action the U. S. Senate could take on the disposition of Shantung in the opinion of Dr. J. F. Love, secretary of the Foreign Mission Board of the Southern Baptist Convention, who returned recently from an extended survey of general religious needs in the Orient, with special reference to the situation in Japan and China.

"The situation which obtains in the case of the Japanese and the Chinese is undoubtedly very tense and most deplorable," Dr. Love declares. "I am not concerned in the politics of the situation, the secretary of foreign missions continues, 'but Southern Baptists are deeply and unselfishly interested in the spiritual and general welfare of both nations. To Japan and China, alike Southern Baptists have given joyfully of their money and of their most loved and talented young men and women for service. We are getting ready to greatly increase the number of those who go to carry blessings to those nations as a result of the 75 Million Campaign, and we are expecting to increase the efficiency of our service. Our people are of one mind that in this Christian and unselfish service on behalf of the Japanese and Chinese people lies our greatest opportunity to help such a situation as now exists between those two nations."

"After somewhat extended travel in the Orient and the closest observation of which I am capable, added to many years of study of Christian missions in these nations, I have no hesitation in saying that the gospel of Jesus Christ is the only effective remedy for national and international troubles and that it will take great reinforcement of Christian missionary efforts from the West to counteract other influences from the West which are operating in these nations."

"Evangelical Christian missions must convey to the cultured mind of the East the fact that the gospel of Jesus Christ more than anything else has been creative factor in Western civilization, and that the university and the intellectual philosophies are the products of this gospel, although disowning their parentage they may, and do in many cases, misrepresent Christianity. The gospel of Jesus, which produces a new heart, creates new human compassions, makes men and women love one another irrespective of race or class, is the only sure remedy for a distressing situation such as the world, is witnessing in China and Japan and in many other parts of the earth today."

GOODRICH COMPANY HAS TRAINING CLASSES FOR FORMER SERVICE MEN

The recent announcement in Washington by Col. Arthur Woods, assistant to Secretary of War Baker, that the H. F. Goodrich Rubber Company, Akron, was one of a select list of firms in America that had established training classes for ex-service men, did not mean that Goodrich had started something new, according to officials of the company.

Goodrich established the policy soon after the armistice was signed and it that time offered to give every service man a position in the plant. The company also paid these men full wages while they were learning their trade or becoming proficient at some piece of work.

The fact that a man was minus an arm, a leg, an eye or had some other physical defect did not hamper him in obtaining a position, if he was not wholly incapacitated and provided he could show that he served during the war. While injuries would prevent men from getting into very few positions due to the extra hazard, such wounds really acted as a recommendation in most cases.

While the company has a rule that all employees must pass a certain physical examination, the strict requirements were waived in the case of returning service men and the examination taken as a basis from which the company physicians could work in an effort to repair the health of some of the boys who had suffered in France and Belgium.

Another rule of the company was waived for these boys—that which requires a worker to give two weeks' notice or lose his standing in case he wants another position. Some of the men would work a day or two and quit only to come back after another position. In each case the job was made for the man. The Goodrich records show that 98 per cent of the service men stuck to their jobs. The company is still pursuing its policy of "a job for every soldier and sailor."

With a wide reputation for prompt, efficient and faithful service, the National Bank of Commerce invites the accounts of corporations, firms and individuals, confident of its ability to please the new customer as thoroughly as the old.

CAR SHORTAGE BOOSTS SALE OF MOTOR TRUCKS

The car shortage which is beginning to be seriously felt in many parts of the country has already had its effect upon the sales of motor trucks. In August the sale of Mack trucks alone increased 64 per cent over those for July, and the sales for September continue at the same high rate.

The large proportion of sales of heavy duty trucks indicates that the buyers purchased trucks to enable them to haul large quantities of material that they evidently feel they cannot count on the railroads to handle.

Commenting on the situation, R. E. Fulton, vice president of the International Motor Co., said, "There is just one solution to our present industrial troubles and that is the production of necessary supplies on the largest scale possible, and their prompt, thorough and efficient distribution. Through its transportation efficiency and economy, the motor truck is giving material aid in advancing both production and distribution. Reliance on motor trucks will become more imperative with the coming of cold and unfavorable weather."

The handsome new quarters of the National Bank of Commerce, on the corner of Eighth and Indiana-sts. will, it is hoped, be ready for occupancy about the middle of December.

TELEGRAM BRINGS AN ENCOURAGING MESSAGE TO LOCAL AUTO DEALER

A telegram Friday brought good news to Lloyd Weaver. It was an announcement that he had been allotted 40 additional Essex cars which will be shipped to him in the next 15 days. Mr. Weaver could readily have sold three or four times as many Essex as he has been able to obtain and the notice of his additional allotment came after he had almost given up hope of securing any more of them this year.

The steel strike is having the effect of making a number of automobile manufacturers very cautious in the matter of delivering cars to their dealers and Mr. Weaver considers that he is very fortunate. He will leave this week for a trip to the Hudson factory at Detroit in an effort to secure 75 more Hudsons this year. He will also visit Indianapolis and other automobile centers before his return.
