Shots Fired at Governor of Arkansas Wins Second Game of Series By a Score of Four to Two

AT LEAST TWENTY KILLED IN RACE RIOTING IN ARKANSAS; SITUATIONS MORE SERIOUS

ELAINE, ARK., Oct. 2.—One white man and at least nine negroes were added today to the list of dead in race rioting in and around this place. Two white men, both Camp Pike soldiers, were wounded. There have been a total of four white men killed, five wounded, and at least 16 negroes killed since the rioting started Tuesday night. There is no estimate of the number of negroes wounded.

ELAINE, ARK., Oct. 2.—Governor C. H. Brough and Colonel Isaac Jenks, commanding the troops, were shot at today, but neither was hit; O. L. Lilly, a white real estate dealer at Helena, was killed; Dr. D. A. Johnson, a negro doctor who had organized the three brothers here, all killed; Corporal Luther Earle, company H, Fourth Infantry, had his lower jaw shot off after crossing a field with a company with two other young fellows from Helena. Proctor, now in the hospital here, was also shot by a high power rifle by some person connected with the rioting. The Governor Brough, accompanied by Colonel Jenks, were on a road near Elaine when they were "flushed" four negroes. The negroes fired at them and then ran. Neither was struck. A few minutes later a posse headed by O. B. Lilly caught another band of negroes led by the negro druggist. They started to shoot the four negroes, all brothers, to Helena. They had gone but a short distance when Johnson jerked a revolver and shot the real estate man through the body three times. Others in the posse turned their guns on Johnson and his three brothers and killed them all. Mr. Lilly then was rushed to Helena for medical attention.

FIVE MORE NEGROES KILLED AT ELAINE

ELAINE, ARK., Oct. 2.—Five more negroes were added to the casualty lists in the eastern Arkansas race riots today. These negroes were killed in a skirmish between an Elaine posse and a band of heavily armed negroes on the outskirts of Elaine early today. Three white men and 12 or more negroes have been killed and many more wounded. Two negroes were killed on the streets of Melwood near Elaine, last night. The two negroes, both armed, paraded the streets making remarks, it is charged, about what they expected to do to residents of Elaine. Officers and a band of heavily armed men then rushed to Helena for medical attention. The two had been in the negro section of the town endeavoring to organize the negroes. It is said that the doctor who killed the negroes of the town retired to their homes and there has been no more trouble. Five hundred regular army troops from Camp Pike, most of them overseas veterans, accompanied by Governor C. H. Brough and newspaper men, left Elaine today and immediately threw a cordon around a densely wooded area in which 150 armed negroes are in hiding.

RACE RIOTING RESUMED EARLY THIS MORNING

HELENA, ARK., Oct. 2.—Race rioting was resumed early today in Elaine, near here, resulting in the death of three to six men, according to telephone reports. Three white men and five negroes were killed yesterday and several injured. The trouble started when a white officer was shot and killed from ambush yesterday. The rioting preceded the arrival in Elaine of 500 veteran soldiers of the Third Division, who were sent there from Camp Pike, armed with machine guns. Orders were restored as soon as the troops took charge. In addition to the soldiers, surrounding towns sent armed citizens to Elaine. Helena contributed 500, Clarendon, Ark., 250, Lela, Miss., 20, and McGehee, Ark., 25. Three hundred reserves were held at the Helena courthouse. Others patrolled the streets of Helena, fearing race hatred might communicate to this city. Shortly after the shooting of the white officer from a negro church yesterday the report was sent out that 150 whites in the vicinity of Elaine were surrounded by 1500 negroes. Hundreds of white men immediately began moving toward the scene of the disturbance from the surrounding country. Their strict control resulted in a general clash with the negroes.

SEVERAL ARE DEAD RESULT OF RIOTING

HELENA, ARK., Oct. 2.—After a day of turbulence in the lower part of the country and a night of insurrection in Helena, this morning dawned with all indications pointing to an early return to normal conditions, following the race war in which several battles were fought at Hoop Spur, two miles north of Elaine, yesterday. The casualties to date, so far as known, are three white men dead, and two others wounded. After an all night vigil the cheering news came this morning that United States troops, accompanied by James A. Gray, wounded early yesterday died yesterday afternoon. Messages from Elaine, where the posse and armed citizens are maintaining headquarters this morning were reassuring. There had been no fighting through the night, and pickets and patrols reported all quiet in every direction. Ira Proctor, wounded in yesterday's fighting, was reported somewhat improved this morning. James A. Gray, wounded early yesterday died yesterday afternoon. It has been established since yesterday that none of the men killed and wounded were victims of accident.

OKLAHOMA GOVERNOR APPLAUDS ARDMORE'S RECEPTION TO REED; NO REQUEST FOR INVESTIGATION

OKLAHOMA CITY, OKLA., Oct. 2.—Governor Robertson today applauded Ardmore's reception of Senator Reed last night when he was hoisted out of speaking. "I have received no request for an investigation of the alleged disturbance at Ardmore last night," he declared. "It is unfortunate, of course, that any man, especially one who holds the exalted position of United States Senator, should be denied the right of free speech, yet free speech should not degenerate into license nor authorize any one to vilify and gratuitously insult the President of the United States."

ARDMORE, OKLA., Oct. 2.—Governor Robertson will be appealed to if city authorities refuse to punish the rowdies who last night hoisted and egged the platform on which Senator Reed, Missouri, was to speak against the League of Nations. "The right of free speech and free assembly must be protected," Robertus Love, editor of the Ardmore Free Press, said. "The persons who broke up last night's meeting must be punished. While Mayor Freeman was introducing Senator Reed light wires out-

GRAVES HOLDS UP SHIPMENT OF RIFLES RESULT OF ATTACK

OMSK, Tuesday, Sept. 23.—Major General William S. Graves, commander of American forces in Siberia, in retaliation for alleged scurrilous articles published in a Vladivostok newspaper and hostile acts of Cossack chiefs in the Far East, has held up shipment of 14,000 rifles which recently arrived at Vladivostok from America consigned to the All-Russian government at Omsk. Giving notice of his action by telegraph through Major Slaughter, his representative here, General Graves, in direct and forcible language, declares he will personally cause the arrest of the offending editor and the suppression of the newspaper, the Golos Rodini, unless the Omsk government says so. He asserts further that unless the activity of the Cossack chiefs is controlled he will recommend that America refuse to render further assistance to Russia. General Graves says he will retain the arms until advised as to what action the Omsk government proposes to take. In replying the Omsk government says that in its view the subject constitutes a diplomatic and not a military problem, which should be approached through recognized diplomatic channels, and that the government therefore awaits a communication from the state department of Washington.

Williams up; strike one called; he hit one; ball two; ball three; the ball hit Evans' protection and bounced back into Sallee's hands; Williams out. Kopt to Daubert. Kopt made a dazzling stop behind third and a perfect throw. J. Collins up and went out. Kopt to Daubert. No runs; no hits; no errors.

Kopt did another bit of classy fielding on J. Collins and drew an ovation from the stands. Sallee was working easily and confidently and showing world of stuff.

Cincinnati: Rariden up; ball one; strike one called. Rariden singled to left. It was a sharp drive down the third base line and only Jackson's fast work held the hit to a single. Sallee up, foul strike one; he attempted to bunt; Groh popped up and hit to Roush, down the first base line and Schalk and Williams trotted hopefully after the ball which finally rolled foul within ten feet of the bag; ball one; foul; ball two; foul; Roush fled to Felsch, and Rariden was held at first. Felsch did not have to move out of his tracks to get Groh's fly. Williams' control showed much improvement in this inning and he was "mixing them" for the first time.

Sixth Inning.

Chicago—E. Collins up. Strike one called. Ball one. Strike two; swung hard. Ball two. E. Collins lined to Kopt. It was a hard smash hit an easy chance. Weaver up. Weaver doubled to left. The ball dropped

over Roush's head as he backed up to the stands and attempted a one-hand catch. Jackson up. Strike one called. Foul strike two. Strike three. Jackson fanned. It was a hard inning for Sallee and King was said to the bull pen to warm up. Neale's throw was a careless one. Groh was responsible for the Sox' runs. Groh was slow in covering the ball when he had a fair chance to stop Schalk at the plate.

Cincinnati—Rariden up. Strike one called. Ball one. Rariden fouled to Schalk. It was a high pop up over the third base line. Sallee up. Foul strike one. Sallee fled to J. LABOR SITUATION IS CONSIDERED AT CONFERENCE

Upon the Result Depends Industrial War or Peace in Great Britain.

By ED L. KEE.
(United Press Staff Correspondent.)
LONDON, Oct. 2.—Upon the result of three conferences today hangs the question of industrial war or peace in Great Britain.

Representatives of the railway men reassembled at Unity House at 11:00 a. m. to consult before their meeting with Lloyd George at noon, when negotiations aiming at settlement are to be resumed.

While the railway men were in conference, the Transport Workers Federation continued its meeting, awaiting the result of the parley between Lloyd George and the striking delegates.

If negotiations fail, it is expected the transport workers immediately will join the striking railway employees.

Industrial Stagnation.
In the meantime industrial stagnation prevails in Great Britain. As a result of the strike's effect on other industries, 650,000 men are idle besides the railroad employees. This number comprises 400,000 miners, 150,000 iron and steel workers, 25,000 tin plate workers, 20,000 textile operatives, 40,000 dock hands and 10,000 engineers.

In government circles it was declared today that the railway men's return to the conference after Lloyd George's statement that he would not negotiate until work was resumed was tantamount to a confession of the strike's failure.

The problem now is to find a solution which will enable the strike leaders to save their faces.

The press is optimistic over the prospects for a settlement.

The ministry of transport announced that 2,000 trains were operated yesterday and that double that number will be run today.

Fifty-four airplanes operated yesterday in distributing mail throughout England.

"ONLY THING THAT EVER HELPED ME"

"I found Orgatone treatment after I had suffered for six weeks and it is the first thing that gave me relief from my troubles," said Lenard Clark, a few days ago in telling of his restoration to health. Mr. Clark, who lives at 640 North Boulder, Tulsa, Oklahoma, is a truck driver for the Purit Ice Cream Company and is well known in Tulsa.

"Yes," continued Mr. Clark, "I suffered for six weeks with a general run-down condition and you can just imagine how this trouble simply made me miserable. I felt weak and worn out all the time and was hardly able to get a good night's sleep. My head just ached continually and my muscles were so sore at times it felt like I could hardly move."

"After reading a good deal about Orgatone in the papers a friend of mine told me to give Orgatone a trial and told me that certainly was the very preparation for my troubles. I will say right here, now, that he certainly did know what he was talking about as I have never taken or even heard of any medicine that would give results so quickly. I have used the first bottle and I now feel better in every way. I rest well at night and I don't suffer at all from head aches. I digest my food ever so much better. Everything seems to agree with me and I have a splendid appetite. That sore feeling in my muscles and over my body is a thing of the past now. I feel ever so much stronger and better. Orgatone certainly is the best treatment that I know anything about and I am always glad to say anything I can in its favor and I take great pleasure in giving you this statement so that others may learn of the benefits I have derived from it."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls exclusively by T. F. Young Drug Co., under the personal direction of a special Orgatone representative. (adv.)

CUT OF 25 CENTS IN PRICE OF CRUDE AT BURKBURNETT

ANNOUNCEMENT IS MADE BY THE TEXAS COMPANY LATE WEDNESDAY.

RESULT OF OVERPRODUCTION

Price of Electric Oil is Not Affected by the Reduction, it is Stated.

A cut of 25 cents in the price of Burburnett crude was posed late Wednesday by the Texas Company, with announcement forthcoming from other large companies in this district that they would follow suit. The large flash production in the Waggoner pool, and the inability of pipeline facilities to care for the oil produced, pinched down as the production is in most instances, is assigned as the reason for the cut. While a further cut is not altogether unanticipated, it is hoped that pipeline facilities now in course of construction will reach operation in time to avert further depreciation in the price.

The new price does not affect Electrica, where the old price of \$2.25 per barrel is still in effect. The price, however, does affect the Burburnett townsite, as well as the Waggoner pool.

The larger companies have been generally regarded, heretofore, as making a strenuous effort to keep up the price of the oil, but the smaller pipe line concerns and oil brokers have for the most part been buying out at considerably under the market, in some instances as low as \$1.50, with rumors of oil having changed hands at even a one dollar price.

While the lower price being paid for oil is certain to be reflected to a certain extent in a depreciation in the value of leases, this is not anticipated to have such an effect as to put any of the operators "up against it." In the opinion of one of the prominent local bankers who keeps closely in touch with conditions in the oil industry, while they can run their oil at the present figures, or at an even lower figure, all will be able to keep their heads above water, and the expectation on the part of the operators that the building of additional pipeline facilities will result in a restoration of the price will serve to keep them from turning lease their leases at any considerably lowered prices. The lowered income from oil at this time, however, will be sufficient to deter investors considering the acquisition of production and leases in the Burburnett district, and will probably result in further tightening of standards of property, which has been almost at a minimum for the past month or two.

Who will win the next game in the World Series? Find out at the Wichita theater from the big electrical baseball diamond, at 7:00 p. m. every afternoon while the series is on.

COLVER READY FOR A DEBATE WITH PACKERS

Refuses, However, to Meet Paid Representatives of the Organization.

CHICAGO, Oct. 2.—Edward Morris, Chicago packer, is willing to have one of his representatives debate with William B. Colver, federal trade commissioner. However, he refused to take the platform himself to back charges made by Chicago packers that the federal trade commission is plotting with European countries against United States export trade.

"I am no orator," said Morris. Colver, who made the challenge in an address here, declined to meet a packer representative but said he was ready to meet either Morris, Armour, Swift or Senator Sherman.

"I am no orator myself," Colver declared when he was informed of Morris' plan to stage the debate between a company representative and the commissioner. "I don't want to meet a paid orator. My challenge was to the principals involved. I'll be back in Chicago Saturday and if any of the 'big five' in person wants to debate this question with me I'll hire the auditorium."

You Are Disastrously Neglecting Your Property

There is an almost criminal waste in the building-values in America. There is a One Billion Dollar Depreciation every year from decay.

This is because 75% of owners are ignorant of Paint and Varnish protection. They pay four times more for fire protection than for paint, in spite of the following truly startling fact—

The Yearly Loss From Fire is Not One Half the Yearly Loss From Decay

Suppose we had a billion dollar fire somewhere! The holocaust would stagger humanity! Yet we sit by and let this billion dollar decay loss go on all the time. What are you going to do about it? What is your remedy? Here is a suggestion:

To Prevent Decay

You are now spending only 1-5 of a cent a year on the dollar value of your property. Raise your protection from a loss figure to a profit figure by spending 1c a year on the dollar value. Everyone owning anything worth saving can afford that. But he cannot afford anything less. Is yours worth saving?

When you paint, don't make any mistake. Only paint with value in it can give value in return.

NEGRO SUSPECT IS ARRESTED AT OMAHA FOLLOWING ASSAULT

OMAHA, NEB., Oct. 2.—One negro suspect was under arrest today in connection with the attack on Mrs. G. H. Wisner, white, yesterday afternoon. Military authorities refused to say whether the negro was confined or the extent of the evidence against him. The crime, one in a series of 38 similar crimes since June 1, occurred within a few blocks of army headquarters, where a machine gun is mounted. News of the attack was withheld in the afternoon papers at the request of Major General Wood, who is actively in command of the situation here since the relinquishment of the control of the city by Acting Mayor W. G. Ure. General Wood stated in an interview with the managing editors of the newspapers that the suppression of the news would aid in arresting the negro and prevent possible riots starting at night. No news of the crime was published following the conference until all statements were substantiated.

Double Number of Troops.
The number of troops in the "black belt" was doubled immediately following the attack and 600 soldiers are now on duty in that section. Reports of an attempt to burn the "black belt" caused the army officials to request the fire department to keep a double shift of men on duty. The assault on Mrs. Wisner occurred at 3 o'clock at her home on the edge of the "black belt." She was cleaning windows when she was attacked and a cloth thrown over her face. Her two children, 8 and 12 years old, were ordered to the alarm. After being bound, the women says the negro threatened to kill the children if she made an outcry.

Every precaution is being taken to prevent another outbreak similar to the one Sunday night, which resulted in a lynching of a negro and the lynching of two other persons and the burning of the courthouse with a damage estimated at \$1,000,000.

TEMPORARY INJUNCTION IS GRANTED BY 78TH COURT

A temporary injunction was granted Wednesday afternoon by Judge Scurry in the 78th district court, restraining the National Oil Co. and Henry Hobbs from interfering in any way with a water station of the Livingston Oil Corporation. Bond for the defendants was fixed at \$5,000 and they were ordered into court October 17 to show cause why the injunction should not be made permanent.

In its petition the Livingston Oil Corporation sets forth that it procured certain oil leases from Hobbs in block 97 of the oil fields; and that it is engaged in extensive development work there. It alleges that the National Oil Company threatens to remove the water station from the land and to treat its employees there with violence and bodily injury, and that it is engaged in the same work.

The flat of the court orders the defendants to show cause why damages should not be imposed.

"WOLVES OF THE NIGHT" EMPRESS FEATURE TODAY

William Farnum puts one of the most dramatic and intense fight ever staged into the thrilling ending of his new photoplay, "Wolves of the Night," a fight into which Farnum throws himself with the agility of an athlete and the skill of a champion. As the desperate man, resolved to win back wife, child and fortune, from devilish schemers, he locks himself in an office, attacks three who attempt to coerce him with a pistol, and there, in an stirring encounter as has ever been dramatized, baffles them. This fight, which is just one of the many intense scenes in that compelling photoplay of love and finance, "Wolves of the Night," a William Fox production, showing at the Empress theatre today and tomorrow is one more demonstration of the surprises Farnum has up his sleeve. It proves that Farnum, popular, handsome, magnetic idol, but a man's man for all his charm and a man of power into the bargain.

Forty-three arrests were made again by the police Wednesday, the same number of people arrested Tuesday. This is an average arrest for one out of every 1,162 persons of Wichita Falls' 50,000 population.

A woman was fined \$5 and a man \$10 as the result of a general free-for-all fight in the Crown Cafe Wednesday afternoon, when they appeared in police court Thursday. The main actor in the melee was not arrested, said the police, having made his escape.

Nine gamblers pleaded guilty to indulgence in the festive pastime of playing a game of chance and paid fines of \$15 each.

There were many automobile cases. Fines were assessed in nearly every case.

If business keeps up as it has started this month, October will be a record-breaker in police arrests, for about \$300 or more is being collected a day in fines now.

CINCINNATI FANS IN SEVENTH HEAVEN OF BASEBALL BLISS

AWAKE WITH A NEW DREAM AND HIGH HOPES FOR VICTORY OVER SOX.

CROWDS JAM THE STREETS

Championship In Five Games Is the Petition Laid Before "Super-Miracle Man."

By HENRY L. FARRELL. CINCINNATI, O., Oct. 3.—This is another day!

Still smacking the sweet taste of victory on his lips, Redland awoke with a new dream. The championship in five games was the petition laid before "Fat" Moran, now the "super-miracle man" by the dazed natives who are soaring around in the Seventh Heaven of baseball bliss.

Realization that their hopes were not tied to flivver in the opener; they want more.

There wasn't a doubt in the village that Moran and his clan of Sox cleaners would hop off to Chicago tonight with a two game edge on the championship.

Crowds Jam Streets. Early morning crowds jammed the streets and hotels indicated that the ball yard would be taxed again to its capacity this afternoon, when the two king sows of the year—Slim Sallee and Claud Williams—battle for the bacon of the second game. There was a possibility that Jimmie King would carry the colors of the Reds against the hose, but Sallee is almost certainly unless he warms up in poor form.

Sallee and Williams gave the dopers matter to scratch their heads. Sallee is at his best in warm weather and the prospects today were for another scorcher. He has advantage of previous experience in a world series against the Sox and with Bill Rariden on the receiving end will have a battery that knows the ins and outs of the Chicago defense. Claud Williams must be figured as being equally capable of holding the left-hand jinx over the Morantes. Red backers, however, point to the poor showing of the hard worked Gleason star made in his late seasons starts. They hint that he is a bit stale and off form like his noted colleague.

Dope is Dopey. Dope at its best is very dopey, however. That was proven conclusively in yesterday's slugfest. The Reds believed the Morantes would solve Cicotte, but braved the opinion he would be pounded from the box. The Soxer, right as it is in the base story that his wing was not functioning properly.

Other dope upon which the White Sox castle had been built, proved as quicksand at the test. Joe Jackson, chief willow swinger of the hose, touted to be the main cog in the wrecking crew. He pushed only one beyond the infield, a weak little popper that was gobbled up by Neale. Eddie Collins, his partner in making the hearts of A. L. Pitchers, bounced one feeble little hit.

Figures Are Upset. Before the battle figures on the Reds also were upset. Only two of the Reds went hitless, while only two were figured to do any hitting. Eddie Roush, champion swimmer of his circuit, couldn't get one on safe territory and Larry Kopf proved equally unsuccessful. Greasy Neale figured as the "weak sister" of the Red outfield, drove out three vicious singles. Jake Daubert, doped as being minus the courage for a hot battle, rapped out two singles and a triple.

It was a sweet victory for Ruether and when he held Buck Weaver to a flimsy little single he secured sweet revenge for a stunt for the Sox third baseman pulled on him back in his college days. Ruether, pitching for St. Ignace's College, San Francisco, held the White Sox to a trio of hits up to the ninth inning of an exhibition game. Weaver broke up the game in the last frame with a homer. Ruether has been laying for him ever since. He's all square now.

WALTER RUETHER OUTSTANDING HERO OF INITIAL GAME

By TOM SWOPE. (United Press Staff Correspondent.)

CINCINNATI, O., Oct. 2.—Walter Henry Ruether, one of Frisco's native left-handed sons, today has the biggest head of any player engaged in the world series between the Reds and White Sox. Perhaps you, who have read the accounts of yesterday's opener game of the series, believe Ruether is entitled to have a big head today. For his two triples, each coming at a time when they would drive in runs, and his single, not to mention his well pitched game, make him stand out as one of the greatest heroes ever manufactured in one game of baseball.

He pitched the kind of a game that would land a shut out nine time out of ten. He allowed only six singles, two of which were scratches, walked only one man, fielded his position well and would have had a shutout, but for a couple of bat plays behind him in the second round. And his first triple, coming with two on, sewed up the Eddie Cicotte and the White Sox. He's Cincinnati hero, all right, and entitled to a big head but that's not the reason he has to have a larger fat than any of the other Reds or Sox. His team is no larger than it was a week ago, when he didn't even figure to pitch the opener. Ruether was endowed by nature with an unusually large dome. Baseball fame hasn't increased it any nor is it liable to, for Walter Henry Ruether is a very modest boy, who doesn't at all all fancy having a fuss made over himself.

JOHNNY EVERS REVIEWS GAME THAT BROUGHT JOY TO REDLAND AND COOLED ARDOR OF SOX FANS

By JOHNNY EVERS (Written for The United Press.)

CINCINNATI, O., Oct. 2.—The Reds have won the first game and they are well started on their road to the championship. They have a great chance to repeat today. Sallee probably will pitch and I expect him to be just as effective against the White Sox as Ruether was yesterday. Left handed pitchers certainly play havoc with the Sox and Sallee is one of the greatest in the game. I believe he will repeat Ruether's performance.

The "percentage" worked for the Reds yesterday, as I figured it too, and it should again today. Ruether's great batting certainly added to the Red's attack. His left handed pitching checked Eddie Collins and Joe Jackson, the most dangerous of the Sox. The same percentage possibilities will be there today, excepting Ruether's batting strength.

Break in Fourth. The break in the first game came in the fourth inning. Kopf had scored a run. There were two out and Neale and Wingo were on the bases. The crisis came for Cicotte when Ruether stepped up to bat. If Ruether had been retired the game might have gone on a mighty close affair. But Ruether hit a fine triple, two more runs scored, and Eddie's game was gone.

The first game showed that the Reds are a powerful club on the attack. They also showed an almost perfect defense. Kopf made their only error, when after a fine stop, he gamely tried to get his man at first. Errors are usually made that way, not on safety first plays. The Sox are generally said to be a "money" club. But this so-called money playing in a big series is an absolute joke to baseball players in general, and with the confidence given the Reds by yesterday's victory, they will be a hard team to beat.

History May Repeat. Cicotte tried hard yesterday. I faced him in the city series in Chicago and witnessed his work in the 1917 world series and this was the first time I ever saw him leave the box because he was hit hard. A really wonderful record by a wonderful little pitcher. But you can't beat age, Eddie.

It will be Sallee and Rariden today for the Reds and probably Williams and Schalk for the Sox. The Reds should win again.

TWO ARE ADDED TO IMMORTAL ORDER OF BIG SERIES GOATS

By ROSS TENNEY (Written for The United Press.)

CINCINNATI, O., Oct. 2.—The White Sox don't boast a hero today, but two of them were added to the immortal order of world series goats in this world's series opener here—Eddie Cicotte and Swede Risberg.

Cicotte signed his own certificate of membership when he solemnly assured Kid Gleason that his arm was in perfect shape for duty. He thought it was, but that didn't make it so. He never had less stuff in all his pitching career and it's doubtful whether he'll go against the Red again until both the White Sox south paws and Bill James have been tried out by Kid Gleason. Gleason waited

until the last minute before picking Cicotte to pitch and then did so only after Eddie assured him he was exactly right.

Cicotte's fellow goat is Swede Risberg, who ball up a play that should have been the third out in the fourth inning before the Reds scored any runs. Swede started after Greasy Neale's bounder in this round with two down and Kopf on first. It should have been an easy force out, but Risberg hesitated, fang Eddie Collins was merely dashing to cover second for the force play. Then Swede started again but was too late and the ball bounced off his glove for a single. The slaughter followed this loner, and five runs crossed the plate before that third round was made. Swede has no excuse. He should

have kept going to cover second if he thought Collins was after the ball.

Did you see Cincinnati win the opening game of the World Series at the Wichita theater? No. Well be sure and see the remainder of the games on this wonderful electric diamond. Every afternoon at 2:00 o'clock. 125-11p

GARY INSISTS COMPROMISE IS NOT POSSIBLE

Suggestion Is Flatly Suppressed by Judge Gary, Before the Committee.

"CAN'T TALK ABOUT IT," IS STATEMENT TODAY

Examination Continues Before Labor Committee of Senate Making Investigation.

WASHINGTON, Oct. 2.—Compromise or arbitration of the steel strike was flatly spurned by Judge E. H. Gary before the Senate labor committee today.

"I can't talk about compromise or arbitration at the present time," Gary declared, "much as I regret that I am being brought before the committee to answer a question by Senator Walsh, Massachusetts, that he would refuse to meet union leaders in an attempt to settle the steel strike, which the Senate committee is investigating."

"Would you meet union leaders in an attempt to settle this strike?" Walsh asked.

"I will not, because they represent a minority," Gary said.

"If you mean to say that the only solution is to let this strike wear itself out, we might as well end this examination here," Senator Jones, New Mexico, declared.

"Your statement is clear and comprehensive," Gary replied. "You and I may differently interpret public sentiment of the country, but we are acting on our best judgment."

Gary bases his refusal to meet at settlement of the strike on his declaration that the union leaders represented a minority of the workers.

"Why don't you leave it to the President of the United States to determine whether they represent a minority or a majority?" Walsh asked.

"I don't think I'm required to answer a question as to what I would do under other circumstances," Gary replied. "I'm sorry to differ with you or the public on this question."

"I'm sorry for the thousands of wives and children who are suffering in this strike," Walsh interrupted.

"You don't give Mr. Gary a chance to answer the question," E. V. Lindbergh, Gary's counsel protested.

"The union labor leaders, or some of them, acting upon the existing circumstances, utilizing a comparatively small minority of foreigners, have brought about this strike which is an attempt on the part of a minority to secure control of the employers as well as the employees," Gary said deliberately.

"That's what you say," Walsh replied.

"I want to know if you will meet union leaders under any circumstances, yes or no?" Walsh insisted.

"I don't propose to answer yes or no," Gary replied.

"I'm sorry to press you, but that's the issue," Walsh persisted.

"The closed shop is the issue," Gary returned. "I want to know if you appreciate the danger."

"I certainly do and I appreciate the danger of your refusing to meet the workmen," Walsh fired back.

By RAYMOND CLAPPER (United Press Staff Correspondent).

WASHINGTON, Oct. 2.—The settlement of the steel strike might result if the Senate labor committee carries out its intention of visiting the steel district, Judge E. H. Gary declared when he resumed his testimony before the committee today.

Strikers misunderstood the purpose of the strike, Gary said. "If the investigation could be made more simple for the benefit of the committee, it ought to be done," Gary said. "There is danger of a misunderstanding upon the part of the working men as to the purpose of the investigation."

"It might be desirable if the representatives of your committee make a thorough investigation of our mills, taking two or three days, and then report to the committee," Gary said.

"Do you think the committee ought not to?" Senator Kenyon asked.

"No, I don't say that," Gary replied.

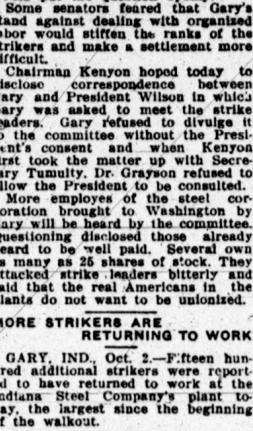

Kenyon reminded Gary that he had referred to a newspaper article saying that the proposed trip of the Senate committee to the steel district would prolong the strike.

"I am inclined to think there may be something in that," Gary said.

Letters Are Read.

He then read letters he said were received by the employees threatening them if they did not strike. Gary stated that net profits of the United States Steel Corporation in recent years are as follows:

PRESIDENT IS NOT RESTING SO WELL IS REPORT TODAY

WASHINGTON, Oct. 2.—President Wilson's condition this morning was not at all good, according to a statement issued by Dr. Cary T. Grayson, his physician.

"The President had a fairly good night but his condition is not at all good this morning," Dr. Grayson has called into consultation Dr. F. X. Dercum of Philadelphia, a nerve specialist.

The President is in a highly nervous condition, was stated, although no alarming symptoms have developed. His friends and physicians have great difficulty in keeping him away from the White House.

Dr. Grayson has also been in conference with Dr. E. R. Stitt and Dr. Dennis, both of the navy, it was learned.

Dr. Grayson emphasized that he was calling in assistance as a precautionary measure and as a help to him. His treatment of the President requires more time than any man is able to give, it was stated.

In treating cases of this character, it was pointed out, the condition of the patient may vary from dry to dry without affecting the general progress toward recovery.

The President's physical symptoms are as to lead Dr. Grayson to believe he will not fully recover, in spite of the fact that his condition this morning is not so good as it has been, it was made plain at the White House.

INCORPORATION OF WAGGONER CITY IS ATTACKED IN COURT

Quo warranto proceedings attacking the very life of Waggoner City and the officials' taxes on its newly elected mayor, aldermen, marshal and city attorney have been filed in the 78th district court by County Attorney Davenport.

In relation with him are R. M. Waggoner, R. Brannon, S. L. Fowler, M. J. Bashara, A. F. Marchman and C. E. Rodgers, the marshals complain of W. D. Wash, mayor; K. King, J. W. Jackson, A. C. E. Hemmenway, C. D. Jones and A. L. Arbrough, aldermen; Lee Carter, city marshal, and Henry E. Holt, city attorney of Waggoner City.

In the petition it is stated that the defendants are duly elected officers of what is asserted to be the newly organized city and town alleged to be known as Waggoner City, but which has in fact no real corporate existence.

The relators claim that the incorporation was illegal and that there is no legal town of Waggoner City and that the officials named are acting without authority of law. It is alleged that the corporation petition was filed under the wrong law and that the city officials and persons acting in the election are not qualified officers for they have not lived in Waggoner City for six months and had paid no poll taxes.

It is set forth that to incorporate a town, the law, under the law, at least 400 inhabitants and that in his order Judge Jones entered the population of Waggoner city at 200 or over.

PROMINENT OPERATOR UNABLE TO GRASP THE PSYCHOLOGY OF REDUCTION IN THE PRICE OF OIL

"I fail to grasp the psychology of the cut, coming at this time, after the hard part is almost over, and what I do blame them for having held the hard sledding in sight," said a Wichita Falls oil man this morning, discussing the cut of 25 cents a barrel which one company posted Wednesday and the action of other pipe line companies in meeting the cut.

"I don't blame them for cutting and getting oil as cheap as possible, others are buying cheap oil, but I do blame them for having held the price, and deprecating the action of independent concerns in buying way under the market price and taking advantage of the unfortunate situation of some of the operators, who are hard pressed for money, and then, when it looked as if we were going to get out of the woods, pretty soon, make this cut like a bolt out of a clear sky. We had gotten to feeling pretty good, and patting ourselves on the back, that the pipe lines had been maintaining the price and had stuck with us in our troubles. Now the big lines were rapidly nearing completion, and it looked as if our wells that had been shut in for so long could be produced and our long wait would be rewarded."

"I had never been disposed to lead a very believing ear to the accusations that some had made, that the trunk lines were letting the fellows run the price down, and then they would step in and reap the benefit. There was some reason, however, in the statement that during the war the big coastal storage was emptied, and that with the big production and the hard up situation in which some operators were bound to find themselves, because of the short age of pipe lines, the companies could not fill this storage, again with \$25.00 oil, when they could, by exerting a little pressure get it much cheaper."

"I don't now hardly know what to think, except that this is a severe blow. It's true that the producer who cuts the price of his oil has a great responsibility for the cut. The little fellow who must get quick action on his money, which is probably borrowed, is the man who played hob with the situation in the first place."

BODIES OF TWO AVIATORS FOUND BURIED BY BAY OF LOS ANGELES

NOGALES, ARIZ., Oct. 2.—The bodies of two men, dressed in American army uniforms and with insignia of the aviation corps in their pockets, found buried in the beach of the bay of Los Angeles, about 300 miles south of Nogales, were believed to be the bodies of Lieutenants Frederick B. Waterhouse and Cecil H. Connelly, according to a report made to military authorities today by Joe Allen Richards of Chicago upon his arrival from Guaymas.

Lieutenant Waterhouse and Connelly disappeared while on border patrol duty between Yuma, Ariz., and San Diego. According to Richards the bodies were found by himself and William Stone, both Americans, when they landed on the bay of Los Angeles September 23 to get water, leaving the steamer Navari for this purpose.

INTERVENTION BY AMERICANS PREVENTED WAR SAYS ADMIRAL

WASHINGTON, Oct. 2.—Intervention by American naval forces at Trau, Dalmatia, prevented bloodshed which would perhaps have resulted in a state of war between Italy and Jugoslavia, according to a report from Admiral Knapp, commanding American naval forces in European waters, transmitted to the Senate today by Secretary Daniels.

American sailors were not landed, Admiral Knapp said, until after American and Italian troops had been sent to Trau had induced the Italian raiders to withdraw after they had surprised and captured the small Serbian garrison. One Italian officer and three men were left behind and the American bluejackets were sent ashore to protect them and police the town until Serbian troops could arrive, the admiral said.

The Americans acted, Admiral Knapp continued, at the request of the Italian admiral in command of the Dalmatian coast and the force was withdrawn immediately after the Serbians arrived and took charge. The commander of the Italian raiders were ordered to trial by court martial by the Italian admiral.

Divorce is granted in case where man has second wife. Charges that her husband had remarried and had two wives were the grounds upon which Judge Scurry of the Seventh-Eighth district court granted a decree of divorce Wednesday afternoon to Mrs. Maud Mayo Lever, whose home is in this city.

Frank Lever, the husband, is now serving a military sentence following his conviction on bribery charges in a court martial. Mrs. Lever was married February 6, 1918, her husband being a sergeant in the air service at Call field. February 20, Lever left for overseas.

WOODBURN OIL CORPORATION PAYS MILLION AND A HALF FOR 20 ACRES IN THE LANIER TRACT

Purchase of the Parker 20 acre lease on the Morgan farm, Lanier tract, from G. Clint Wood from J. A. Parker for a consideration of \$1,500,000 was announced today by Claude Woods, vice president and general manager for the Woodburn Oil Corporation, the purchasers.

The Parker lease, which contains the well known "Parker Well," the pioneer well in that section, which on account of drilling trouble was only completed recently, has seven producing wells with a daily production of between 15,000 and 16,000 barrels.

The acquisition of this tract gives the Woodburn people a total of 41 acres in the Northwest extension, all of which is fully developed, and which has a daily production of something better than 20,000 barrels, and which, with their pipe line and tank farm at Devol, represents an investment on their part in this field of more than \$3,000,000.

The second large deal made by this company since their recent entry into this field, the purchase of a 24 acre lease in block 815 of the Evans with six producing wells and two others under development, was announced for a consideration of \$1,350,000, having been consummated only a few weeks ago. The company also acquired at this time the pipe line being built by G. Clint Wood from the

Evans to Devol, with the 40 car loading rack and tank farm at that place, for a consideration reported at about \$3,000,000. This pipe line with the pump station on block 815 of the Evans, is now completed, and completion of two 55,000 barrel storage tanks, now building on the Devol farm, is expected within a couple of weeks. Three additional 55,000 barrel storage tanks are now in process of shipment. The purchasers expect to connect up their pipe line with their new lease in the immediate future, and run the oil to their Devol loading rack, pending completion of the storage.

The Woodburn Oil Corporation is a \$5,000,000 organization with its head offices in Philadelphia, brought about chiefly through the efforts of Claude Woods, the vice president and general manager of the company, who was a pioneer in interesting Eastern capital directly in the development of the Northwest field. Other Texas directors in the company are J. A. Cromer and L. B. Cromer of Fort Worth. The various heads of departments of the corporation are also stockholders in the concern, said Mr. Woods. In addition to their property in the Northwest, the Woodburn corporation owns property in practically every proved field of Texas. Mr. Woods states, as well as extensive wildcat acreage.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or washed appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Weth's Sage and Sulphur Compound," you will get a large bottle of this old time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Weth's Sage and Sulphur Compound because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb with the mixture and run it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and beautiful.

GOVERNOR RECEIVES TOTAL OF \$302,682 FOR STORM RELIEF

AUSTIN, TEXAS, Oct. 2.—A total of \$302,682 had been received at the governor's office and by local committees for relief of storm sufferers on the Gulf coast up to last night, announced Governor Hobby in a statement issued today.

Funds received are entirely inadequate to render any material assistance in rehabilitation work, continued the statement, who reiterated his appeal for further contributions.

The statement quotes a telegram from General J. F. Winters, who denies that Rockport has been discriminated against in relief work, as has been alleged in published statements. He said that the Red Cross has charge of all relief work and that the money and supplies have been sent to Rockport.

I For the first time in thirty years, I'm going to use I in an advertisement—and this one is literally sprinkled with them. On the 28th of September, 1889 My father and I opened a grocery store on Ohio avenue under the name of O. W. BEAN & SON. Of course, we handled coffee and I didn't like the blends we were able to buy—nor the idea of selling and drinking STALE COFFEE. So I bought a small roaster using gasoline for fuel and operated by an Armstrong motor and I was IT. Our coffee business increased enormously and I soon bought a power roaster and continued to roast coffee until I quit the grocery business. In fact, the coffee business crowded the grocery business out and in the spring of 1915 I moved to 824 Indiana Avenue and established the BERT BEAN COFFEE HOUSE, wholesale and retail, and now my fast increasing business demands larger and better facilities and so I have built a thoroughly modern plant back at the old "stamping grounds" at the corner of Ohio and Sixth and after moving will supply the trade through the grocer, but will continue to furnish them coffees FRESH FROM THE ROASTER each day.
