DECIDE TO FORCE GERMANY TO SIGN PROTOCOL GUARANTEEING TO OBSERVE ARMISTICE TERMS.
PARIS, Oct. 30.—The supreme council decided today to force Germany to sign a protocol guaranteeing she will carry out the terms of the armistice.
TAKE TESTIMONY AS TO GAS LIMITING DEVICE.
TOPEKA, KAN., Oct. 30.—Subpoenas for persons using gas where limiting devices suggested by Henry Doherty has been installed were issued today by the local distributing company for the purpose of obtaining testimony as to whether or not the three way plan had proved practical and satisfactory.

BLOCKADE NOTE TO GERMANS IS MADE PUBLIC

Similar to That Sent Neutral States With the Exception of the Last Paragraph.

DEFEAT OF THE BOLSHEVIKI OBJECT OF AGREEMENT

Note Is Forwarded by Marshal Foch to General Nudant for Transmission of Germans.

PARIS, Oct. 30.—The text of the note sent by Marshal Foch to General Nudant for transmission of the German Government inviting Germany to participate in the blockade of Bolshevik Russia is similar to that sent to the neutral states with the exception of the last paragraph. The note follows: "The president of the Peace Conference has been requested by the conference to inform the neutral governments of a decision taken by the Supreme Council of the Allied and Associated Powers in regard to economic pressure which is to be exerted on Bolshevik Russia. "The German Government is asked to take measures similar to those indicated."

Avowed Hostility. "The avowed hostility of the Bolsheviks toward all governments and their international program of revolution which they are spreading abroad constitute grave danger for the national security of all powers. Every increase of strength of the Bolsheviks would increase the danger and would be contrary to the desire of all people who are seeking to re-establish peace and order in the world. "It is in this spirit that the Allied and Associated Governments after studying the commercial relations which Bolshevik Russia find these relations indeed could only be affected through the agency of the chiefs of the Bolshevik Government, who, disposing at will of the country's resources which commercial liberty would bring them thereby achieve considerable increase in their tyrannical strength which they are exercising over the Russian population. Request Agreement. "Under these conditions the Allied and Associated Governments request the Swedish, Norwegian, Danish, Dutch, Finnish, Spanish, Swiss, Mexican, Chilean, Argentinian, Colombian and Venezuelan governments to be good enough to make an immediate agreement with them in measures to prevent their nationals from engaging in any commerce with Bolshevik Russia and to ensure that this policy will be rigorously executed. "To refuse clearance papers to every ship going to Russian ports in the hands of Bolsheviks or coming from said ports. "To establish similar measures for all merchandise destined to be sent into Bolshevik Russia by any other route. "To refuse passports to all persons going to Bolshevik Russia or coming from it, except through understanding with the Allied and Associated Governments. "It is the disposition with a view to preventing banks from doing business with Bolshevik Russia. As far as possible to request refusal by each government to its own nationals of facilities for correspondence with Bolshevik Russia by post, telegraph or wireless. "The note sent to Germany contains the following final paragraph: "The British and French warships in the Gulf of Finland shall continue to change the routes to ships bound for ports of Bolshevik Russia."

CONSULAR AGENT REALLY KIDNAPED DECLARES REPORT

MEXICO CITY, Wednesday, Oct. 29.—Published reports that the abduction of William O. Jenkins, American consular agent at Puebla, presented phases indicative of complicity by Jenkins and certain of his associates with the bandits, are refuted in a story published by the Excelsior. The newspaper's story is the result of an investigation by its special representatives in Puebla. The Excelsior says the consular agent was really kidnaped and that Cordova, leader of the bandits, signed a receipt for \$50,000 pesos, although it says it is not known how much of this amount has been paid or who paid it. The arrest of Jenkins' attorney, who has been released on bail, is believed to have been brought about by the local courts wanting to secure testimony to aid in clearing up more or less hazy charges in connection with what persons paid over the ransom money. The condition of Mr. Jenkins, who still is in the hospital suffering from the effects of a week's privations, made it impossible for him to give out a statement today.

SURVEYING PARTY OF NEW RAILROAD REACHES NEWCASTLE

Special to The Times. NEWCASTLE, TEX., Oct. 30.—The surveying party running the preliminary survey of the Houston & Texas Central from Breckenridge to this place on the Wichita & Southern has arrived here after completing their tentative line to the Brazos river. Nothing has been learned as to the river crossing or routes of survey but the information will soon be made public. The Texas company has secured warehouse facilities for storing oil well supplies from the Belknap Coal Company and is stocking up on general lines. Bids have been purchased and preparations for drilling the three near wells are going ahead rapidly. The Roxana Petroleum Company has purchased several rigs and will proceed at once to develop the land found in the Donnell well near Elginville, directly south of Newcastle, in the lower part of Young county. The well is making 100 barrels a day under the baller.

HAVE RETURNED 109 INDICTMENTS RESULT OF ARKANSAS RIOTS

HELENA, ARK., Oct. 26.—Prosecuting Attorney Miller stated to the Associated Press this morning that the Phillips County grand jury had returned 109 indictments for night riding and murder against negroes accused of participation in the insurrection of October 1. The indictments charge both offenses in all cases, and there are still a few cases to be considered by the jury. The first trial of insurrection cases will begin Monday morning, November 2.

RAILWAY WAGE QUESTION TO BE SETTLED SOON

Administration Expected to Render Verdict On Requests in Next Few Days.

DIRECTOR GENERAL HINES IS CONSIDERING REPORT

Decline to Say What Cause Will Be Pursued if Increase Is Not Granted.

WASHINGTON, Oct. 30.—Railroad workers who are asking higher pay expect to hear the verdict of the railroad administration on their requests within the next few days. Their future action will be governed by the nature of the verdict, according to Brotherhood officials. Director General Hines today had before him the report of his wage adjustment board. He refused to summon officials of the Brotherhood of Railroad Trainmen and the Order of Railway Conductors to a conference before Monday. "We came here to get an answer," said W. G. Lee, president of the Brotherhood of Railroad Trainmen. "We expect it soon." Course Not Indicated. Lee declines to say what course would be followed if the demands for higher wages and an adjustment of pay are refused. Demands of the workers include time and a half for overtime, which they say they wish to obtain to cut down long hours of work. Hines' decision, while applying only to conductors and trainmen in this instance is expected to serve as an index of administration policy toward all railroad workers. Any action undertaken by the workers would probably be conjunctive, labor officials said, including the four railroad brotherhoods and the 15 unions of railroad workers affiliated with the American Federation of Labor. Chiefs Are Waiting. Chiefs of all brotherhoods as well as officials of the 15 unions are in Washington awaiting word from Hines. They met last night to discuss the wage situation and the anti-strike provisions of pending railroad legislation. Leaders of the workers told Hines their men are restless and that it will

TWO ARE KILLED AND THREE INJURED BY AN AIRPLANE

MOOREHEAD, MINN., Oct. 29.—Clifford Lomadak, 8, and Elsie Moe, 14, were killed and three others injured when an airplane alighting from a flight crashed into the sleigh carrying children to school and Kitterdal, near here. The driver of the sleigh turned directly into the path of the airplane as it came to the ground. The aviator attempted to clear the sleigh but the tail of his machine overturned it.

AMERICAN ARRESTED IN CONNECTION WITH THEFT CROWN JEWELS

GENEVA, Wednesday, Oct. 29.—The Budapest police have arrested Leader Batlik, reported to be an American citizen and a friend of Bela Kun, former dictator of Hungary, in connection with the theft of the Hungarian royal jewels, valued at millions of marks, according to a Prague dispatch. Batlik is said to have told the police that he had been commissioned by Bela Kun to sell the jewels in the United States and to accept nothing but gold in payment for them. Most of the jewels, which include a priceless crown, have been recovered. It is learned here that the Americans are closely guarding Bela Kun, whose extradition and trial are considered assured.

Warns Druggists Not to Get Caught Napping

Says Stock Up Now With Begy's Mustarine, the Quickest Pain Killer on Earth and Don't Disappoint Your Customers.

SALE IS GUARANTEED SO YOU ARE FULLY PROTECTED

Newspaper advertising in this section will start in a few days. This is a big seller wherever advertised because it is the original and quite the best improvement on the old-fashioned mustard plaster. In this open letter to druggists, S. C. Wells & Co., of Le Roy, N. Y., who are also makers of Celery King, Dr. Carter's Little Blue Pills, etc., wish to state that druggists who stock up now will be fully protected, as the sale is guaranteed to all who buy it, and all unused goods can be returned at any time. When you stock up with Begy's Mustarine, Mr. Druggist, you can heartily recommend it to your customers, for it subdues inflammation, stops congestion, eases all soreness and banishes aches and pains quicker than anything else on earth. Tell your customers to use it for sore throat, tonsillitis, cold in chest, bronchitis, pleurisy. For rheumatism, gout, lumbago, swelling, neuritis, neuralgia, explain to them that for sprains and strains there is nothing so good, while for headache, backache, catarrh and toothache it is simply marvelous. Get in touch with your jobber today and be ready to meet his demand. S. C. WELLS & CO., Le Roy, N. Y.

RHEUMATISM CAN NOT BE CURED

BY RUBBING WITH LINIMENTS AND OINTMENTS.

If you are one of the many thousand victims of torturing rheumatism, make up your mind today that you will abandon your efforts to rub the disease away with liniments, lotions, ointments, and local applications. Such treatment by itself is not only futile and devoid of results, but is a waste of time, during which the disease is getting a firmer hold on your system.

Rheumatism is a stubborn disease. It is not on the surface, therefore you must not expect to be able to cure it with remedies applied to the surface. No one ever yet effected a permanent cure in this way, so why would you continue to suffer while relying upon treatment that has failed in thousands of cases?

The experience of others afflicted with Rheumatism is your best guide, and by following their advice you can not only save yourself untold suffering, but rid yourself of a disease that will eventually wreck your body and leave you helpless. Almost every victim of Rheumatism has practically the same experience. They are so impressed with the pains and suffering of the disease and are so anxious to get rid of them that they have treated the pains alone, and overlooked their cause. They have rubbed with liniments, lotions and ointments in an effort to get temporary relief, with no chance of doing themselves any permanent good.

Such was the experience of Mr. Caspus Bibb, of 2424 Tenth Avenue, Bessemer, Ala., who writes to tell how he found relief from this terrible affliction.

"A few years ago I suffered from a severe attack of articular rheumatism that rendered me almost helpless. By the use of the usual external remedies I was able to check the pain somewhat, but did not regain the full use of my limbs, and on cloudy days or when exposed to dampness or cold I would immediately suffer from stiff and aching joints. I began to take S. S. S. and all symptoms at once began to disappear, until now I have no fear of exposure to the worst sort of weather. I feel it my duty to recommend S. S. S. to all who wish to free themselves from the torturing clutches of Rheumatism."

Physicians now agree that many forms of Rheumatism are caused by a germ in the blood. The pain is not the disease itself, but merely a symptom—nature's warning to you that you have been attacked. The only intelligent treatment, therefore, is through the blood; treatment directed toward eliminating the disease germ from the blood. For years nearly all the prescriptions used by the medical profession were those containing iodide of potash or mercurial substances, but in nearly every case these minerals are more injurious to the system than the disease itself.

One reason why S. S. S. is so successful in the treatment of Rheumatism and other blood disorders is the fact that it is a purely vegetable remedy, being made from roots and herbs gathered direct from the forests. It contains not a particle of mineral substance, and acts by driving disease germs from the blood and cleansing it of all impurities. S. S. S. has been on the market for fifty years, and almost every druggist has sold it ever since he has been in business. It is sold under an absolute guarantee that it is purely vegetable.

Our medical department is maintained for the benefit of the afflicted, and if you will write fully about your case you will be given complete advice as to the treatment necessary for your individual case, for which no charge is made. Address Swift Specific Co., 405 Swift Laboratory, Atlanta, Ga.

PLAN TO INCREASE FACILITIES OF THE FIRE DEPARTMENT

FIRE COMMISSIONER IS GIVEN THIS ASSURANCE AT CONFERENCE WITH MAYOR.

EXTEND TIME FOR PENALTY

Grant Until January 1 for Providing the Additional Equipment Required.

Increases in the local fire department, demanded by members of the State fire commission after a recent inspection of fire fighting facilities afforded by Wichita, Falls will be made as early as can possibly be arranged, the commissioners were assured at a conference with Mayor Marlow and several of the more influential citizens.

In view of the difficult financial situation in which the city finds itself, however, and the fact that recent increases have been made in the fire department, the commission granted a stay until January 1 in the steps to increase the local department.

Among the increases demanded were the addition of 21 men to the personnel of the fire department, two additional pieces of motor fire apparatus, two additional fire stations, another 3,000,000 gallon compression pump at the local water and light station, and considerable extension and improvements in the water mains.

In addition to this, greater restriction in the permission granted for filling building materials in the streets was promised, this point being among those especially stressed by the inspecting officials. The increases to be made will result in considerably more than doubling the facilities of the local department.

Without hesitation the members of the commission pronounced the present department far from adequate to give the proper fire protection to the city, and while they gave a great deal of credit for the small fire loss which the city has sustained to the efficiency of the present department, they frankly ascribed this small loss in a great degree to pure luck. Their alternative in case the city failed to provide the additional protection demanded was an increase of 10 cents in the key rate, which it is estimated will cost the insurance policy holders in the city in the neighborhood of \$20,000 per year in increased premiums, or enough to pay for the increased protection demanded within a year.

Probable location of the additional stations will probably be far in the Southland or Huff addition, with another probably some distance out on Monroe.

DRASTIC ACTION IS PLANNED TO ENFORCE MEAT ORDINANCE

Drastic action is going to be taken by Dr. G. H. Allen, head of the city pure food department, to enforce the meat ordinance, and next Tuesday he has set by him as "the dead line" on which violations of the ordinance will be permitted.

"Unless the meat dealers change their methods of handling meat by next Tuesday they will be arrested and haled into court," said Dr. Allen Thursday.

"This refers to the markets, the drymen and the railroad officials, they all have been guilty of breaking the ordinance regulating the handling of meat in a clean and sanitary manner and while I am on this job they are going to obey the ordinance or suffer the consequences."

The city ordinance requires that meats be handled in transit and from cars to drays and drays to retail houses in a manner that will protect them from dust, dirt and contact with insanitary objects. The penalty for violation of the ordinance is a fine from \$25 to \$200 for each offense.

"I will not tolerate the way they have been doing any longer," continued Dr. Allen. "Meats are unloaded onto dirty trucks, placed on dirty racks without protection and then loaded onto dirty drays and hauled to the markets for sale. The meats are not protected from filth and flies and are handled in a most insanitary manner."

Dr. Allen said the railroad authorities that permit the insanitary and unclean unloading of meats and fail to "spot" cars with the dispatch required to unload meat while it still is fresh, are blamable under the law, too.

FEATS OF ABERNATHY AND SONS ON MOVIE PROGRAM FOR SUNDAY

Moving pictures of "Colonel Roosevelt and the Abernathy Boys," showing the two sons, Temple and Louis of J. R. Abernathy of this city, in many interesting scenes taken while guests of the late Colonel also the famous pictures taken of Mr. Abernathy, catching wolves with his bare hands, and his sons concerning memories of the famous hunter is arranged as a program at the Empress theatre Sunday afternoon at 2:30 for the benefit of the Roosevelt Memorial Fund of which Mr. Abernathy is the chairman.

The moving pictures comprise a re-creation of the travels of the famous "Abernathy Kids," Temple, aged 5 and Louis, aged 9, (ten years ago) showing them on their trip to Santa Fe, N. M., and return, a distance of over 2600 miles which they accomplished by themselves, their trip overland to New York, where they created such a sensation and where they attracted the attention of Fred Thompson, noted Pacific coast two days late and thought to attempt an "Ocean to Ocean" horseback journey for which they would receive \$10,000 in case they completed the trip in 60 days. As it happened after innumerable hardships and privations unbelievable for boys of their tender years, they arrived at the Pacific coast two days late and thought the reward, but accomplished a feat that has not been duplicated since.

Another speaker of the occasion will be Captain W. T. Jones, who was intimately connected with the late Colonel and has a large stock of interesting side lights on the life of this prominent personage to relate. It is announced that the meeting is held on Sunday afternoon as it was thought that would be the best time to have a large attendance and also the nature of the meeting is very appropriate to that day and does not interfere with any religion services. Admission is free and everyone is invited to attend. Subscriptions will be voluntary.

FEDERAL AGENT WARNS AGAINST DUCK SHOOTING FROM MOTOR BOATS

Duck shooting from a motor boat, power boat, sail boat, airplane or any floating device towed from a motor boat, power boat is in violation of the federal game laws, according to H. D. Bishop, agent of the department of justice in Wichita Falls.

Mr. Bishop says that reports have been received that this law is being violated here. He wishes to give warning that any such violations will be vigorously prosecuted in the future.

Mrs. L. W. Perham has returned from a two weeks visit in Brooklyn and Chicago, having visited her mother in the former city, and her son in Chicago.

LITTLE DANGER HERE OF FOOD SHORTAGE ACCOUNT OF STRIKE

There is no danger of a food shortage in Wichita resulting from a coal miners strike, and the probable impairment of the train service, investigation of the food stores on hand at the wholesale houses revealed Thursday morning.

Perishables such as onions and potatoes might run short in the event of a tie-up for two or three weeks, as it is said that a rather limited supply of these commodities are kept on hand, but canned goods and non-perishable staples are held in storage in quantities that represent a supply for several months.

Railroads operating out of Wichita Falls will be in a serious situation in the event the strike is carried out according to schedule, since there are no reserve supplies of coal carried by either the Denver or Katy, and their tributary roads.

The Denver is in the more favorable position, should the tie-up come, since half of their locomotives are oil burners.

Social News

MISS ANDERSON REPRESENTS CITY AT COTTON PALACE

Miss Lella Beall Anderson, Duchess of Wichita Falls at the Waco Cotton Palace will tonight represent the North Texas Oil Center at the Queens coronation and ball, which formally opens society in Waco. Miss Anderson's party is composed of Mrs. Harold Hanes, matron of honor, and Messrs. L. H. Cullum and Harold Hanes as knights. Mrs. G. D. Anderson, mother of Miss Anderson, and Mrs. T. B. Noble, mother of Mrs. Hanes, are also in the party.

NEW CENTURY CLUB MEETS WEDNESDAY

William Cullen Bryant formed the study of the New Century Club, at the meeting held Wednesday afternoon in the club room of the Kemp Public Library. Mrs. S. J. McDonald being leader. Mrs. Wade Walker told the story of Bryant's life and also discussed the trend of his poetry. Mrs. J. C. A. Guest discussed two of his most famous nature poems, "To a Fringed Gentian" and "To a Water Pail," and Mrs. D. P. Whitney had for her subject, "The Snow Shower."

Mrs. Joe Daniels discussed Bryant's translations and his happy mood, and the program was closed with a discussion of the death poem, which is the best known of all Bryant's works, "Thanatopsis." The members present were: Mesdames J. C. A. Guest, C. B. Felder, Wade Walker, C. J. Barnard, Joe Daniel, W. E. Norton, D. P. Whitney, W. W. Silk, C. R. Hartsock, B. L. McDaniel and S. H. Burnside.

COUNCIL EXPECTED TO DEED BELLVUE PARK FOR Y. W. BUILDING

J. A. Kepp will tonight present the formal request for the Bellevue Park for a building site for the Wichita Falls Young Women's Christian Association's home to the city council. It is understood that a census of the members gives the Association bearing assurance that the request will be granted.

The funds for building the home were underwritten early in the spring, when the first movement was made for a Y. W. C. A. and a number of prominent men have been ready at any time called upon to furnish funds. The lack of a proper site being the only hindrance to the immediate construction of a home which has been badly needed in Wichita Falls.

Tentative plans for the home are already in the hands of the Y. W. C. A. board and Mrs. W. W. Silk, the president, hopes to have a definite announcement to make next week, following the field conference to be held in Dallas, beginning November 3. Miss Geary, the building secretary, will be in Dallas and Mrs. Silk hopes to have her in Wichita Falls following the conference. For consultation on the building plans.

Definite announcement as to the downtown headquarters of the Association, including the cafeteria, the downtown recreation room, and the administration office, will also be made in a few days, it is understood. The board is very enthusiastic over the prospects for immediate action on the building program, which has been hanging fire for so long, and with the support of the men who are acting as trustees an unqualified success of all ventures that may be undertaken is assured.

NEW METHODS INTRODUCED BY THE PEOPLES BAKERY

A method of baking bread, doughnuts, rolls and cakes entirely by machinery run by electricity is being introduced in Wichita Falls by E. T. Peal, formerly of Colorado Springs, proprietor of the Peoples Bakery, 613 Ohio.

From the time the baking materials are put in the mechanically operated dough mixer until the time the bread is baked and offered for sale the product is not touched by human hands, a fact that the proprietor considers a strong point in the handling of the bread in a sanitary manner. At the present time the capacity of the bakery, with the two rotary gas heated, electrically operated ovens running full blast for eight hours, is 2,000 loaves and a corresponding amount of other baker's specialties like doughnuts and rolls. All of the baking is done in the front part of the building in the full view of the public and Mr. Peal, the owner, invites the public to inspect his bakery. This system is the first of the Peoples System of Bakeries to be installed in the State.

AMUSEMENTS

"THE GIRL ALASKA" AT PLAZA AIRDOME TONIGHT

The young hero of the play and his pal go into the principal gambling house and dance hall of a thriving miners' camp.

Here the bully of the town attempts to steal the hero's money and gold watch and chain. A rough and tumble fist fight ensues, which holds one spellbound. The bully is getting the worst of the fight, and both of the men's clothes are in rags, when the lights are suddenly switched off, and then little darts of fire shoot here and there from the pistols held in the miners' hands.

But the hero and his pal finally manage to escape by slipping out through a rear door, in the darkness, and make their get-away in safety.

This is one of the many big moments in the wonderful picture of the snow-covered northland, "The Girl Alaska," which will be the attraction at the Plaza airdome tonight.

It is a photoplay with a new outburst of unparalleled scenic beauty and of wild out-door life every moment. Do not fail to take in this stupendous production.

"WHY LINDY RAN AWAY" PLEASES LARGE AUDIENCE

Brunk's Comedians last night presented "Why Lindy Ran Away," a beautiful story of the Blue Ridge Mountains. It is full of comedy, good laughable situations and Harley Sadler as West Blake, keeps his audience in good humor at all times.

The play will be repeated tonight and if you did not see it last evening come out tonight and enjoy yourself. Gas has been installed and the big tent is warm and comfortable. A fine bill is in preparation for Friday and Saturday, and the big tent will no doubt be taxed to its capacity.

MARY PICKFORD COMING TO THE MAJESTIC FRIDAY

Mary Pickford is coming to the Majestic theatre Friday and Saturday in her latest First National Attraction, "The Hoodlum."

This is an unexcelled as a notable successor to "Daddy Longlegs," and has been adapted from Julie M. Lippmann's great story, "Burkes' Army," and directed by S. A. Franklin.

Living on Riverdale Drive as the pet of her grandfather, a power in financial circles, she refuses to tour Europe with him and instead she visits her father in the townsmen district in the lower east side. He is a sociologist and rather neglects the proper care of his child as he is too busy writing.

The girl has become petulant and tired of driving expensive racing cars and mixing up with the elite. So when she visits to live in the rough environment she gradually becomes as her neighbors and playmates were, a street urchin.

It is while here that she discovers a youth who had served in prison for a crime that he never committed. And she found that her grandfather was the head of a group of financiers that had made this youth the scapegoat.

But during her stay in the slum district the little hoodlum learned to shoot craps and dodge the cops. And one time this former society debutante had to make a quick escape by sliding down a coal chute. And Mary Pickford as the hoodlum does this very gracefully. It is said, although she managed to gather it all the coal dust in sight and presents a very disagreeable appearance.

Before her wealthy grandfather manages to rescue her from her tenement environments she has established the youth's innocence and received her grandfather's permission to marry the boy.

And her grandfather, now thoroughly chastened, promises to lead a better life in his future financial dealings. This is announced as a wholesome drama just full of pure, rich sentiment and comedy.

ARE TO CONTINUE NEGOTIATIONS OVER FIUME SITUATION

PARIS, Oct. 30. (Havas)—Notification has been given by the peace conference by a representative of Italy here that the proposal made by Foreign Minister Tittoni for the settlement of the Fiume problem had not been accepted by the United States.

It is declared in authoritative Italian quarters, however, that, although the reply of Secretary Lansing was unfavorable as a whole, a considerable portion of the Tittoni proposal was accepted and that exchanges with the United States on the subject will be continued.

As soon as the extreme concessions the United States is willing to make are known to the representatives of Italy, the Italian government will be put in possession of all the elements of the problem as they have been developed by the delegation in Paris and Italy's position will be definitely made known.

DISPLAY OF EMOTION IN ITALIAN CIRCLES

PARIS, Oct. 30.—Rumors received here that the American government had refused to accept the latest proposal put forward by Foreign Minister Tittoni for the settlement of the Fiume question caused a display of deep emotion in Italian circles in Paris.

It appears to be the general feeling in Italian circles that Italy has reached the extreme limit of possible concessions and will stand on her present position. It is said Italy's position on her foreign policy

will be consolidated by the coming elections and that parliament has resolved to sustain the government along the lines of Foreign Minister Tittoni's proposed settlement.

CONSTITUTIONALITY OF FEDERAL FARM LOAN ACT ATTACKED IN COURT TODAY

KANSAS CITY, MO., Oct. 30.—Constitutionality of the federal farm loan act will be defended by some of the country's ablest lawyers in the United States district court here today when a hearing is held on a suit filed by Charles F. Smith, a stockholder and director of the Kansas City Title & Trust company, against his company to test the legality of the tax-free features of land bank securities.

In defending the suit, the attorney general of the United States will be represented by Charles E. Hughes, former court justice; William G. McAdoo, former secretary of the treasury and director general of railroads; and Geo. W. Wickersham, former attorney general of the United States. Attorney for the plaintiff will include William Bullitt, of Louisville, Ky., solicitor general of the United States under President Taft.

The suit grew out of the trust company's intention to purchase \$30,000 worth of land securities contrary to the wishes of Smith, according to the petition of the case. Smith sets forth in the petition that he considers the tax exemption of the securities illegal and that they were subject to back taxation.

PROMISE REFORM IN ADMINISTRATION OF KOREAN AFFAIRS

SEOUL, KOREA.—Governor-General Baron Saito issued a proclamation today in which he promised reforms in Japanese administration of Korea and said he hoped to introduce local self-government at the proper opportunity. He said:

"I am determined to superintend in the future and encourage officials under my control to put forth greater efforts to act in a fairer and juster way and promote the facilities of the people and the unhindered attainment of the people's desires by dispensing with all formality.

"Full consideration will be given to the appointment and treatment of Koreans so as to secure the right man for the right place. What is worthy of adoption in Korean institutions and old customs will be adopted.

"If anybody is found guilty of unwarranted refractory language or action, misjudgment of popular minds, and impeding the maintenance of public peace, he will be met with relentless justice. May it be that the people at large will place reliance on all this."

TOYS OF BEAUTIFUL WORKMANSHIP TO BE PLACED ON EXHIBIT

CHICAGO, Oct. 30.—Toys of beautiful workmanship made by children will be shown at the national exhibition of American-made toys, to be held at the Art Institute here from Dec. 4 to Jan. 3. Of the toys already in, one of the most remarkable is a complete playhouse, with chairs about the size of ring boxes, tiny tables and beds (with hand-made ruffled bedspreads), the most diminutive of bric-a-brac, all complete even to the exquisitely designed wall paper and window curtains—made by a 15-year-old girl, Florence Judd is the girl's name, and she lives in a little Illinois town, and has made doll furniture and clothes since she was four years old.

Another small exhibitor will be Willetta Burnham, who carves out both human and animal figures roughly in wood and gains some striking effects as he whittles. And so he should, for he is the nine-year-old son of Anita Willetta Burnham, an artist whose drawings in children's books and on Christmas cards have made her known throughout the country.

Catamarans and other boats made by young Wilfred Bronson, together with his army of 4-inch high soldiers, with their marching air and lively appearance, will be on exhibition to show what effective work can be done by roughly suggesting in wood the ideas one wishes to work out.

TENNIS IS PROPOSED AS A "LETTER" SPORT

NEW YORK, Oct. 30.—Tennis may be adopted as a "letter sport" next year in the big colleges.

The National Lawn Tennis Association, through Paul B. Williams, field secretary, is counting out the athletic directors of all the big universities where the court pastime is not listed among the major sports.

Many colleges have signified a willingness to go in for tennis on a large scale and provide the equipment and grounds for all the undergraduate body that wish to indulge.

The most general objection to placing tennis on a footing with football, baseball, basketball and track is that it would cheapen the value of the sport letter.

Julian Myrick, vice-president of the N. L. T. A., answered this argument with the statement that only six men constitute the ordinary tennis team; and that would mean the awarding of only six more letters in the entire college—a number so slight as to be of no great consequence.

minutes of boxing, weight pulling and rope skipping. At night he hies himself from hall to hall where he jousts verbally with his opponents and tries to convince the voters that Johnny Kilbane, the featherweight champ, will make a mighty fine councilman.

They will decide whether Kilbane shall sit in the common council as alderman or keep his place in the ranks of common citizens.

Johnny is really training as hard for his first political fight as he does for his flat debates. One of the main planks in his platform is a more comprehensive program of physical training in the public schools. He believes boxing should play a stellar role in the physical curriculum.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.
Take "Dodson's Liver Tone" Instead!
When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not sialivate.
Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

Increase Production by Improving Wichita Falls Telephone Service

ANY YOUNG WOMAN, NOT NOW EMPLOYED IN A USEFUL OCCUPATION, WILL SERVE WICHITA FALLS AND HERSELF BY TAKING UP THIS ESSENTIAL PUBLIC UTILITY WORK

She will be well paid.
She will have more than ordinary opportunity for advancement.
She will be under the personal direction of female executives who understand women and their needs.
She will be protected from discrimination or favoritism by a carefully guarded routine of individual supervision.
She will be protected in health and comfort by the constant diligence of qualified health experts.

Our Employment Department is located at corner Ninth and Scott Streets. There an applicant will be cheerfully told all about the work and full details of all employment conditions. There applicants will be carefully and most considerately examined to determine whether or not they be physically and mentally fitted to perform this service. The requirements are simple and reasonable, as is also our insistence upon satisfactory local personal references. This Department is open to receive applicants every weekday from 8 a. m. to 6 p. m.

Wichita Falls Telephone Operators are faithful and industrious. They are conscientiously serving you with their best efforts. Patrons are invited to visit our Telephone Exchange, inspect the work and to refer to our Employment Department those whom they think would take up this eminently desirable occupation.

GOVERNOR SMITH USES STRONG TERMS DISCUSSING HEARST

NEW YORK, Oct. 30.—The battle between Governor Alfred Smith and William Randolph Hearst was continued here today, following a bitter denunciation of Hearst by the governor in a speech last night at a hall to which he had invited the publisher to meet him in debate.

Referring in his speech to Hearst, the governor declared:

"I know he has not got a drop of good, clean, pure, red blood in his body. And I know the color of his liver. It is whiter, if that could be, than the driven snow."

The New York Journal, a Hearst newspaper, today published a list of questions it had asked the governor, under a heading "question Governor Smith did not answer."

REPORT THE WORLD EAGER FOR SALVARSAN

BERLIN. (By Mail).—While the outside world clamors for the German drug, salvarsan, the nation has forbidden its export. This has led to a smuggling business of unprecedented proportions, and to the manufacture of fake salvarsan to put into the export business.

The smuggling of this drug is a lucrative business. It can be bought cheaply in Germany, and can be sold for 50 to 100 times that figure, in the outside world.

An instance of the extent of this smuggling was recently offered in the case of an American woman, married to a German. She asked a newspaper man if he could get her in touch with an American officer or soldier who would take out a package of the drug for her.

"I'd be willing to pay him well," she said.

"I'm sure you can't bribe an American officer or soldier," replied the correspondent.

"Well, I don't know; maybe I'm dead morally, but I'm so desperate that I'd do almost anything, and I could only smuggle out this one box. I'd have enough money to go back to America," she replied. "I'm an American even if I am married to a German and have lived in this terrible country a long time. And you can just bet that I'm going back home."

"Reg'lar Fellers"

LAW OF LOVE IS LESS THAN LAW OF THE MARRIAGE RITE, DECLARES A JURY OF WOMEN

CLEVELAND, O., Oct. 30.—The law of love is less than the law of the marriage rite, less than the precepts of morality and less than the sanctity of the home.

Love may be a divine passion, but it must not be permitted to transgress unbridled, the legal ties that bind man to woman and make for the permanency and progress of the state.

Such was the verdict of a jury of eight married women here as they condemned a woman who placed her fate in their hands, confident that they, as women, "could and would understand some things in love that a man can't."

Mrs. Goldie Drossos, 23, today began her sentence of three months in the work house. It took the jury of women, selected at her own request, an hour to reach a verdict. Mrs. Drossos had admitted to leaving her husband in Columbus, Ohio, for John C. Buttery, a young window trimmer. He also was sentenced to three months. A fine of \$200 was also imposed on each.

The members of the jury were principally club women. They listened to Mrs. Drossos plead her case of "higher love." She admitted her husband supplied her with a beautiful home and an automobile. But he gave her little money, she said. Buttery sympathized with her, she said. This sympathy and kindness awakened the love "that no man could understand" and caused her to take her three children and accompany Buttery to Cleveland. They were here three months when arrested.

The judge told the members of the jury that they could only act in an advisory capacity. They were not electors and their verdict would not be binding upon him. But he promised to abide by their decision. The women munched chocolates while they discussed the case. Only one dissented from the general verdict. She believed the evidence had not been sufficient to convict.

They recommended mercy for the woman for the sake of the children, but plainly stated they felt no sympathy for the woman herself. Drossos offered to take his wife back, but she was obdurate.

TABLOIDS

Miss for Pastor. CAPE GIRARDEAU, MO.—Miss Josie Smart is the new pastor of the Methodist church at Bragg City, Mo. She is the first woman in the St. Louis conference to be appointed pastor.

Execution Delayed. ST. LOUIS.—The nation was dry but liquor flowed as usual in St. Louis yesterday. The stay of execution for John Barleycorn here was because of a mistake in the telegram of instructions from Washington.

Hour Too Early. OKLAHOMA CITY, OKLA.—A cigarette at three in the morning cost Margaret Meyers a black eye and a \$20 fine. When hauled into court the judge claimed the hour too early for girls to be smoking.

Not Wanted. KANSAS CITY.—Third attempt by two white and two negro women to burn women's reformatory netted only escape of six "trutes." First attempt two weeks ago. Last Saturday they set piano afire.

Too Much Territory. MILWAUKEE.—Albert Wittpoit boasted he could whip anybody on the street. No challenge. He said he could whip anybody on the block. No remonstrance. Then he could whip any one on the police force. He'll be back to work in three weeks.

Modest Violet. OMAHA.—"If all drunks had as sweet a breath as you, they might get off easier," Judge Foster told Jack Boyd, who said he accumulated his jag by drinking a bottle of "modest violet" perfume.

Reasonable Distance. NEW YORK.—The racker collegiate institute in larding powder and rouge for girl pupils at a distance that their dresses should "begin at their heels and go to within a reasonable distance of their necks."

No Distinction. HOUSTON, TEX.—Democratic Houston recognizes no class distinction. A traffic ordinance classes cows and all animals as horses.

WOMAN FILES HABEAS CORPUS PROCEEDINGS FOR CUSTODY OF CHILD

Mrs. Nannie Coffee filed habeas corpus proceedings in the 28th district court Wednesday against Walter Coffee to gain possession and custody of her little daughter, aged 4 years, whom she claims Coffee is restraining of her liberty.

She recites in her petition that when she was granted a decree of divorce the court awarded the care and custody of the child to her.

WORKLESS SUPPORT BONUS PROVING A HEAVY DRAIN ON THE GERMAN TREASURY

Associated Press Mail Correspondent. BERLIN.—The "workless support" bonus that thousands upon thousands of men and women now are drawing in Berlin and Germany is proving a heavy drain on the treasury—and it is charged that the bonus is so high that many men who in peacetime were unskilled workmen now receive more pay for idleness than if they went back to their labor.

Began under the stress of the revolution with the intention of temporarily alleviating distress, complaint is made that this bonus system has become a deeply imbedded cancer that sucks millions from the government that can ill afford it.

The number of persons idle in Berlin during August was nearly a million. It is estimated that 750,000 of them do not want work because they are being supported by the state and are free to carry on the illegitimate pursuits of the unlicensed street dealer, the fly-by-night gambler, the soap and cigarette vendor.

The streets and squares of Berlin where people congregate most are, despite occasional attempts of the police, swarming hives of humanity, selling or buying poor soap, wretched matches, immoral postcards and indecent literature, and cigarettes that are sold at ridiculous prices, especially in the case of American cigarettes which now rule the market. Recently the police have begun to raid these vendors.

The first "razzia" as such raids are called was unexpected, and so many dealers were captured that they had to be sent to collection points and then were transferred from there to the various police stations. The confiscated food and goods required trucks for its transportation.

Roulette and little gambling games played on a tiny board that can be hastily concealed as the crowd scatters on the approach of the police, still attract more workless than other strata of the population—because the workless have time to kill, and money to spend and likewise the strong inclination to spend.

One of the most unpleasant features of Berlin street life is the array of wounded soldiers, suffering from broken or missing legs and arms, shell shock or alleged shell shock, who sit forlornly on the principal street and manipulate a violin or a harmonica. With hands and feet that tremble these relics of the war beg from morning until long after midnight. Their "music" is always "lorrowing."

SOME REMINISCENCES OF ANDREW CARNEGIE

Associated Press Mail Correspondent. EDINBURGH.—Lord Guthrie, the Scottish judge, has just made public some reminiscences of the late Andrew Carnegie, in which he discloses a story which has long been current that Mr. Carnegie received the late King Edward at Skibo with the salutation, "Hallo, fat King Eddy." Lord Guthrie tells what the story is based on as follows:

"At Dunrobin, not at Skibo, his late Majesty asked Mr. Carnegie to tell him about a great banquet given in Mr. Carnegie's honor at Pittsburgh. Mr. Carnegie mentioned that Joseph Miller, the American poet, had recited a poem in which he made free with Carnegie's own name and with the names of many much more illustrious persons."

"The King asked: 'What did Miller say about me?'"

Mr. Carnegie replied that he was afraid the poet's reference had not been very respectful.

"What was it?" said his Majesty, and the laughter heartily when Mr. Carnegie had to admit that King Edward had been referred to as 'Fat King Eddy.'"

Christian Science Services

Beginning next Sunday, November 2, services of the Christian Science Society will be held in hall of the Swartz-Wood building, 600 Scott. Sunday school at 9:45; morning service at 11.

PLAN FOR A CONFERENCE OF PROMINENT WOMEN OF THE BORDER STATES

GALVESTON, TEX., Oct. 20.—Plans are being made for a conference of prominent women of Texas, New Mexico, Arizona and California, the Mexican border states, and representative women of Mexico, some time in November, primarily with a view to furthering good relations between the United States and the southern republic.

The proposed conference is being planned by the Pan-American Round Table, a woman's organization with headquarters in San Antonio, according to Meade Fierro, Mexican consul here, who has been asked by the organization to interest the women of Mexico in the meeting.

Mrs. Florence T. Griswold of San Antonio, director-general of the women's organization, informed Consul Fierro that she had written the governors of the Mexican border states asking them to select unofficially delegates to the conference. The cooperation of the governors of the four states in this country also has been asked.

Mrs. Griswold explains the viewpoint of the Round Table is that women of the two countries have been the chief sufferers through the misunderstanding of the men, and that the women, having no grievance against each other, are in better position to provide means for continued good relations between the peoples of the two countries.

The date for the conference has not been set nor has the city where it will be held been designated.

Violin Instruction—Katz Studio. I take pleasure in announcing the arrival from New York of J. H. Sallen, formerly with New York Symphony Orchestra and a pupil of the world's greatest masters. Mr. Sallen is to be associated with me and will accept a limited number of violin students. Submit all applications to my studio, 710 1/2 Indiana avenue. Phone 2681. Earnest Katz. 152-54p

GOVERNMENT READY TO MEET SITUATION

Continued from Page One. being made to avert the threatened strike. Backing up President Wilson's recent declaration outlawing it, Attorney General Palmer issued a statement asserting the walkout would violate the miners' contract and threatening to prosecute under the Food and Fuel Contract act those involved.

Congress Helpless. Congress was virtually helpless in the face of the announced determination of labor leaders to go through with the strike as scheduled. It was expected that the Senate and possibly the House would go on record in vigorous protest against an agreement that Congress was looking to the White House for whatever action is necessary.

Ready to Co-operate. If there is any chance that Congress can do, however, Frelinghuysen, backed by many other Senators will do it, they made clear today. An effort was expected to be made to bring up the resolution of Thomas, Colorado, which would assure the President and Secretary of War of the moral support of Congress in any steps they may deem necessary.

Senators take the position that the coal miners have an agreement with the government. Frelinghuysen, however, says the war is not yet over and the agreement is, therefore, still binding. In his statement issued last night, Palmer said:

"By enacting the food and fuel control act, Congress has recognized the vital importance in the present circumstances of maintaining production and distribution of the necessities of life and has made it unlawful for any concerted action, agreement or arrangement to be made by two or more persons to limit the facilities of transportation and production or to restrict the supply and distribution of fuel, or to aid or abet the doing of any act having this purpose or effect. Making a strike effective under the circumstances, which I have described amounts to such concerted action or arrangement. It is the solemn duty of the department of justice to enforce this statute."

Dr. Harry A. Garfield, federal fuel administrator, has advised the President to restore the war-time maximum prices on soft coal to protect the consumer during the strike.

By J. L. O'SULLIVAN INDIANAPOLIS, IND., Oct. 30.—The stage was set today for what may prove the most far-reaching industrial battle in America's history. The curtain will go up at midnight tomorrow. At that time orders calling 350,000 bituminous coal miners, members of the United Mine Workers of America, to strike will become effective. Preliminaries were finished today. The battle ground, "that of industrial warfare," was chosen by the miners. The orders stood today in the face

of appeals by President Wilson and governors of many states that they be rescinded. All hope that the strike order might be recalled by last minute action, faded today as union chiefs departed for their homes after drafting a final reply to the President's appeal. They returned to their local posts to direct their forces in action. Strike is inevitable.

"The strike of bituminous coal miners is inevitable," was their verdict. It was reached after seven hours' deliberation. The men fully realized the importance of their decision and were in no hurry to make it. They weighed arguments in favor of calling off the strike—that the nations industries would be tied up causing untold suffering and claims that they would break their agreement with mine operators on one hand.

On the other they pictured a great army of toilers whose earnings in the last 13 months have averaged only slightly more than \$600; whose working hours, normally calls for eight hours, but actually is 10 hours or more, and who live in small mining camps where life's pleasures at the most are not many.

And they decided in favor of the strike. The meeting which decided that the strike must go on was in entire harmony, according to all reports today.

"There was but one verdict possible from the miners' point of view," said Ellis Searies, union spokesman. "However, the union heads wished to give all questions full consideration before arriving at that decision."

Although the statement was addressed to President Wilson, a copy will not be sent to him. The miners did not receive a copy of the President's appeal which was addressed to McALESTER, OKLA., Oct. 30.—Eight thousand coal miners will quit work in Oklahoma's 150 mines November 1. The report of Ed Boyle, chief mine inspector, issued yesterday, says 7,946 men worked in the state's mines during the fiscal year ending June 30. All are unionized. About 3,000 men will quit work in this county.

Industries will be little affected except railroads, as natural gas supplies most plants here.

APPROXIMATELY 40,000 AFFECTED IN ARKANSAS LITTLE ROCK, ARK., Oct. 30—

Approximately 40,000 soft coal miners and 150 mines with an annual production of 2,300,000 tons will be affected in Arkansas by the proposed coal strike called for November 1. The last official report of production in Arkansas shows 2,332,487 short tons, a small part of which was anthracite coal. The market value of this coal was \$7,777,080. The approximate amount of capital invested in Arkansas coal mines is \$2,896,600. Lack of arbitration laws in Arkansas has prevented action from this source

but Governor Charles H. Brough in a telegram to F. W. Lukins, president of the Southwestern Coal Operators' Association, assured Mr. Lukins that he would not permit the policy of "the public be damned" to cause "such a calamity as a coal strike," and that he would stand by the "President of the United States and all federal and state authorities" to prevent the strike. Governor Brough also expressed the opinion that the better class of miners in the state would not sanction a strike at this time.

WE'LL JUST SEE WHO'S RUNNING THIS OLD U. S. OF AMERICA, IS REPLY OF OKLAHOMA GOVERNOR

OKLAHOMA CITY, OKLA., Oct. 29.—A general industrial conference to prevent further strikes in Oklahoma will be held at the state house next week, according to a statement made by Governor Robertson. The statement followed the break-up of the stormy session at McAlester between labor, mine operators and the public in a vain effort to prevent the November coal strike.

It is the general opinion in official circles here the governor will ask for federal troops to protect the men who work in the mines after the strike is called. This is based on the govern-

Don't Fail to See Our Beautiful Line of Millinery We cater to the most exclusive trade in the city. We are always ready to give you our very best attention and services. We are experts in remodeling Furs and alteration of Suits. Gross-Connell Millinery Co. Balcony, Tenth and Indiana.

Shop Here Friday and Saturday

Buy Blankets Now Mallory Hats

For Friday and Saturday we offer 50 pairs of heavy 5-pound gray wool mixed blankets, 68x80 inches in neat gray and tan shades with attractive colored borders, exceptionally good values at our regular low price of \$9.00, at, per pair \$7.95. These are warm, durable, luxurious blankets that are very much under today's values. We have an immense stock of other blankets ranging in price from \$3.00 to \$25.00 the pair. Also a big showing of comfortables at very attractive prices.

Buy a Mallory and you'll make no mistake—provided you buy here at Anderson's for we are showing the biggest and niftiest stock of new Mallory hats ever. Here you will find all of the snappy new shapes and colorings that young men want; and the more conservative styles their elders desire—the shape, the color, the style, the size you want is now here for we have received four big shipments of Mallory hats during the last week. Mallory hats are all "Cravenetted." They are weather-proof, and almost wear-proof—won't fade—won't absorb water, and these are important matters in choosing your hat. These better grades are selling at each \$8.50 and \$7.50.

Save On Sheets \$2.50 Sheets for \$1.95

Owing to the heavy advance in the price of cotton, wholesale prices have been withdrawn, so here is an offering the thrifty housewife will not pass. 100 "Sylvia" Seamless Sheets, 81x90 inches, hemmed ready to use will be sold these two days at each \$1.95. This is a good heavy quality, free from starch and dressing and should be of special interest to hotels and rooming houses.

50c Pillow Cases for 44c—These are those good "Lotus" pillow cases in the popular size 42x36 inches, and it will be impossible to duplicate again at our regular price of 50c, Friday and Saturday, the last two days at this special price, each \$44c.

Good Gingham For School Dresses, 35c the Yard

Hundreds of pieces from which to choose, including the soft pastel plaids, the deep rich plaids, stripes and checks of all proportions from the dainty baby checks and "nurse stripes" to the brilliant Roman stripes, all at per yard \$35c. Many Red Seal Gingham in this lot—hardly a piece that we could duplicate today to retail for less than 50c the yard. Buy while you can make this saving. 35c. 35c Outing for 29c—All full width, and our regular heavy 35c quality. Light and dark patterns and all the good solid shades. Outing of this quality will soon be on a 50c basis; buy now for .29c.

Hosiery Specials For Friday and Saturday

Several small lots of hosiery will be closed at very low prices for Friday and Saturday; the smaller the lot, the greater the reduction. Better come early for these should go out on the double quick: \$1.00 Hose For 46c—Light blue and white pure Silk Hose; also white art silk boot hose with lisle tops, come early the pair \$46c. No more than 3 pairs to a customer. 75c and \$1.00 Lisle Hose For 59c—Full fashioned lisle hose, fine gauge, re-inforced soles, high spliced heels in good medium gray shades, deep purple and good tan shades, unusual 75c and \$1.00 values, today for 59c. \$2.00 Onyx Silk Hose For \$1.49—Famous Onyx make in a pure silk full fashioned white and champagne Silk Hose with attractive black clockings, great \$2.00 values for \$1.49. \$1.50 Onyx Hose For 99c—Black all pure silk Onyx Hose with white stripes for \$99c. \$3.50 Onyx Silk Hose for \$1.99—A beautiful all pure silk Stocking from hem to tip of toe, white with black stripes and the boot in a pretty lace pattern, the pair \$1.99. 25c Tan Hose, 15c—Here are some great values in women's tan lisle hose, fine gauge, double soles, good wearing qualities at an unusually low price, Friday and Saturday, per pair \$15c. No more than three pairs to a customer. Infant's 25c and 35c Hose for \$19c. Many small lots of 25c and 35c Hose to be closed out Friday and Saturday for 19c the pair. These come in black, white and tan shades.

Wool Shirts That Will Wear

These were contracted for nearly 9 months ago, when good woolen materials were very much lower than today. Profit by our foresight—see these unusual values we are featuring, at from \$3.00 to \$8.00. Here's a dandy—made of wool ladies' cloth in the new beaver gray shade, coat style, reinforced military cuffs, adjustable "Eskimo" collar, two bellows pockets and finished with fourteen ocean pearl buttons, each \$7.50. A great Corduroy Shirt—made of soft silky velvet corduroy in an attractive gray shade; special collar, cuff and pocket features—a dressy serviceable out-door shirt, each \$6.50.

Boys' Sample Waists \$2.00 to \$3.00 Values for \$1.50.

The entire sample line of this season's "Boy Blue" waists in sizes for ages 6 to 12 years—literally hundreds from which to choose in woven madras, printed madras, finest percales, art silks and satin stripes—all the newest patterns and made in the better way that distinguishes "Boy Blue" blouses. Buy them Friday and Saturday, at \$1.50.

\$10 Corduroy Suits for \$6.50

Not many left, so hurry for these. Boys' extra quality velvet corduroy suits in blue, brown and gray shades, for ages 2 1/2 to 6 years, our regular \$10 quality on sale Friday and Saturday at \$6.50. These are in nifty Norfolk patterns and all have detachable white collars of pique—dressy little serviceable suits that you should see.

Good New Sweaters

Another great big shipment of classy new sweaters picked up by our New York buyer has just reached us in time for Friday and Saturday business. Snappy new patterns in better wool sweaters you'll like \$4.00 to \$15.00.

Visit the New Luggage Dept. on Mezzanine Floor

You will be surprised at the big showing of wardrobe trunks including the famous "Indestructo" trunks which we are featuring in all the popular sizes. Suit cases, hand bags, and everything the traveler needs—qualities that stand the rough knocks of the baggage smasher—priced in the saving Anderson way.

Toques, Scarfs, Caps Greatly Reduced

Friday and Saturday we will close out a big stock of women's and children's knitted and brushed wool scarfs, caps, toques and sets at reductions of from One-Third Off to Half-Price. Just the thing for school wear, and some great bargains for the early shoppers. New Muff Forms or Muff Beds—All ready to be covered. Dozens of the newest shapes, most of them with imitation tortoise handles, 75c to \$4.50 each. We have the pretty pile and fur fabrics for making these popular muffs; the cost is surprisingly small.

IN EVENT OF STRIKE BELKNAP MINES WILL CLOSE, SAYS OFFICIAL

No preparations have been made to attempt continuation of operations at the coal mines of the Belknap coal company at Newcastle, Texas, according to Superintendent Nantz, of that company's mines.

PATRONS GREETED BY NEW AND NOVEL SIGNS

CHICAGO, Oct. 30.—"Have you tried our grape juice? We have a very good brand of grape juice," was the greeting of the old timers get today when they entered the one time habitation of Old John B. Wink now since the new federal law on the selling of booze is being enforced does about as much good as two drops of rain on the Sahara.

RESULTS OF A DAY. NEW YORK, Oct. 30.—Results of the first day's campaign to enforce the new national prohibition act today showed: Wounded by revenue agents; Saloons closed; Federal officers refused to discuss the shooting; Most saloons in New York remained open, selling one-half per cent beer; It was understood that many saloons sold 2.75 and straight whiskey to "old friends."

EVANGELIST JOHN BROWN HAS REALIZED AMBITION OF YEARS IN ESTABLISHMENT OF SCHOOL

Mrs. Frances Neth.

John Brown, of Arkansas, the evangelist who conducted union services in Wichita Falls in 1918, and who is cordially remembered by many Wichitans, now has a school, the Southwestern Collegiate Institute, at Siloam Springs, Arkansas, the realization of a life dream of giving boys and girls who have no money but who have ambition, an opportunity of receiving an education and fitting themselves for their life work.

The foregoing is not news to some Wichitans, but is news to the majority, and it is an introductory to the appeal that is going to be made in the next few days to Wichita Falls people to give to support this school. Mrs. Frances Neth, field secretary, and one of the prominent educational workers of the country, is in Wichita Falls for the purpose of informing the people of this wonderful new school, and to organize a women's auxiliary as has been organized in many other cities of this section.

Thursday at the noon hour Mrs. Neth spoke at the Rotary luncheon, telling of the school, which opened in September of this year with more than 100 students. C. W. Sailer of this city is a vice-president of the school, and T. B. Noble, W. W. Silk and J. W. Culbertson are members of the board of directors. Mrs. Silk and Mrs. Culbertson are on the women's board.

Judd Mortimer Lewis, of the Houston Chronicle, has told the story of this school, following a visit from John Brown, of Arkansas. "This new unusual school, in the beautiful Ozarks estate that John Brown and his wife and five daughters formerly called home. One day, not so very long ago, Mr. Brown awoke with a determination in his heart, he says, in telling of the organization of the school, and after talking with his wife, they decided the home to the Southwestern Collegiate Institute, together with what other personal property they had, and the dream school began to take form.

CITY FREE FROM SMALL POX FOR FIRST TIME IN YEARS For the first time in years Wichita Falls today is free from smallpox. Not a single case was reported under quarantine today. There still are several cases of scarlet fever and diphtheria under department of physicians, the health department reports.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

NEW YORK, Oct. 30.—The cotton market was extremely nervous and irregular this morning. Liverpool was better than due, the weather map unfavorable and the spot news bullish but there was heavy selling or liquidation, owing to the unsettling influence of the labor situation in the coal mines.

"HOW THE OTHER HALF LIVES"

As a means of education without the necessity of a direct and professed intention to teach, pictures are admitted to be an equal. The influence of the photoplay extends to every department of life, molding the opinions, conduct and ideals of almost every person in the country today.

SCORES of persons are becoming to look upon the motion-picture screen as a sort of a democratic institution. People in all walks of life have come to realize that the movies are not merely a business proposition, but that they have a mission in life to fulfill. Possibly the most direct application is the effect that motion pictures themselves have upon the people who see them.

If the so-called old legitimate stage was the means of bringing into the lives of its followers a certain degree of the conception of "How the Other Half Lives," then the movies have served a greater purpose in bringing the people of the world closer to their own homes. Millions go to the motion-picture shows where thousands went to the old-time stage productions. This is the natural result from the two kinds of entertainment, the most probably having as much to do with the growth of the picture industry as the fact that the pictures can be shown in the hamlet and village, where the stage plays never penetrated.

The possibility of unlimited duplication of motion pictures has in itself set up a new standard for theatergoers. The screen drama makes it possible for everyone, even in the remote parts of the world, to witness and absorb the same productions which are given in the largest cities. The far-off ends of the world are not too distant to permit the exhibition of the motion-picture film. And it is possible, too, to show the best pictures.

Warning Has Been Sounded.

The warning has been sounded, however, that unless the producers appreciate the importance of showing good pictures, pictures which build and improve the home, there is great danger of the unexpected happening. It might be very easy to lose sight of the result of the completed picture play, especially as it affects the home. The producer and director must continue to work in harmony, take their art seriously and ever be on guard to prevent propaganda from creeping into the picture plays. Dangerous propaganda, erroneous impressions, or the creating of false ideals in the minds of the theater-goers, will without question have a disastrous effect.

Pictures are, without doubt, leaving the question of entertainment to other sources, the most effective means of bringing into closer contact the various classes of people than any other method yet evolved. Class distinction is practically put aside. Pictures let people think the same way even if economic conditions make it necessary for them to live in a different sphere. By elevating thought to the standard of perfection we contribute to the elimination of the class distinction idea. Nowhere is this more evident than in motion pictures.

Intimate Connection Necessary.

The intimate connection between the motion picture and the life of the people is a fact which has no parallel in history. There is no department in life to which the photoplay does not extend. It involves the molding of opinions, conduct and ideals of most every person. More noticeably is the effect shown in the middle class of people, for they are the persistent ones

who reap the benefits of the photoplays. It is this class of people who substitute the photoplay for travel and education. The necessity of making their own living prevents them from devoting much time to self-culture. The motion picture, if it is the proper kind of picture, not only educates them, but it also gives them inspiration. It is a real social center.

Mistakes Plainly Visible.

The average man centers his life about his home. This home can be made happier by improving it. It can be improved by the simple process of watching motion pictures. Through the medium of the photoplay the defects will be pointed out and new methods of management presented to correct the fault. Motion pictures show just how these mistakes can be eradicated. This is one of the great powers of good that the motion picture possesses.

Mistakes when placed before us are plainly visible. Nothing presents a mistake in a more forcible manner than when it is flashed on the screen. Often petty selfishness of a man is uncovered and the resolution to conquer it comes from the result of the photoplay. Laziness, grouchiness, and greediness, those elements responsible for the unhappiness of the wife and children, are often wiped out in one night, because of a single picture flashed upon the screen of a theater in some small out-of-the-way hamlet. The faults of the man are so clearly pointed out before him that he is ashamed of his conduct. The picture lets him see for himself and depicts him as he actually is. There is little doubt that his ways will soon change.

Effect Upon People To Be Considered.

There is scarcely a single angle of home life that the photoplay does not analyze and bring up for improvement and discussion.

The psychology of the dress as applied to picture making plays an important part in home building. Particularly is this true of the women of the screen. To expect an actress to give a convincing portrayal in a cheap imitation gown would be to expect too much. The largest studios employ a costume director to pass on garments worn before the camera. It is important to reflect the modes of tomorrow as well as the modes of today. Pictures are made up weeks and months ahead of their release dates, and it is necessary for the costume director to forecast the styles in order that grave mistakes will not occur when the picture is flashed upon the screen. To decide just what is needed and avoid elaboration is a delicate problem. The effect upon the people who see

the picture must be considered. Even though the camera may not reflect the various hues, there are enormous differences in color values which the lens always registers. The styles as depicted must please and they must be worn with approval or criticism from those who know, for their object is to entertain, educate and show those who do not know how to wear them, what's right in New York and Paris. It is reasonable to believe that thousands of persons are being benefited by viewing the actors and actresses dolled up in the latest styles.

Motion pictures have made it possible for the dweller in the lonely hamlet, where styles, in years gone by arrived months late, to dress according to fashion's latest. No longer is the villager behind the times. He gains his ideas about clothes and how to wear them from the screen. If you originally came from a small town you might make a few comparisons. Look around and see if the old town is not cleaner, brighter and the people dressed up according to the latest in the world's fashions. The show windows are more tastefully dressed and the village merchant doing a better business. He is enabled to absorb and put into use the city fellow's business methods because he has seen how they work out on the screen.

Long Arm of the Movie.

I recall the story of the raw youth who came to town. His city cousins thought they would have some fun with him and sought to embarrass him by taking him to one of the swell cafes for dinner. They anticipated his probable boorishness and lack of table etiquette. The dinner went off without a hitch and the country cousin expressed no wonderment at the repeat and the sumptuous surroundings. The city folks prepared for a laugh when the finger bowl was brought on, but were dumfounded when they saw their guest from the

hamlet rinse his fingers delicately, touch his lips with his dampened tip, dry his hands on his napkin and place it to one side. He caught the surprised expression on their faces, then with a grin said:

"We've got a picture show at home. You people didn't think of that, did you. I've watched the pictures and know how to act, at the table just the same as you city folks."

The eye constantly takes in more of a picture than it visually registers. The mind is constantly working, making a change here and there and noticing an improvement or omission. The mind is constantly absorbing some impression the eye does not appear to see. It is these impressions that are thought about and considered hours after leaving the showhouse. These impressions are subject matter for development later. They give us something to think about. The senses are limited to a certain degree, but the mind's power of absorption and development is unlimited. This is the secret of the producer appealing to the mind as well as the eye.

Raising Standards of a Nation.

Baughtening a nation has been the ambition of many men. To beautify the lives of individuals is to automatically raise the standards of a nation. Ugliness was rampant in past ages. Philanthropists sought to remedy the alarming situation, but they had no method of appealing to their subjects. The method of appeal was limited.

do it. The motion picture shows every detail. It does more than that. It gives the person who is to make the change and carry out the decorative scheme an opportunity to view the work beforehand and see just how it will look. The Movie and the Home.

The average man and woman go to the picture show and if the setting in

being held. Belmont Park, with its fine clubhouse, grand stand and stables, is one of the most attractive tracks in this country.

The first of the Pathé-Rain, comedies featuring Harold Lloyd and Mildred Davis to be released since Lloyd was so terribly injured by a bomb explosion—made, of course, before his mishap—will be released shortly. The comedian is recovering but will be minus a portion of one hand.

"A fugitive from Matrimony" has been chosen as the name for the first of the plays in which that polished actor, H. B. Warner, will be directed by Henry King for the Jesse D. Hampton Company.

"The Woman in the Suit Case" is the title for the new Enid Bennett picture, which was begun the past week at the Thomas H. Ince Studio in Culver City. "I don't know when I have liked a story quite as much as this one," she was heard to say. "Mr. Sullivan has written just the kind of a story I have wanted for a long time. I am very much enthused over it." Fred Niblo is directing Miss Bennett, and a splendid supporting cast has been selected.

Alice Joyce plays two roles in the special production, "The Vengeance of Durand," by Rex Beach, which will be the first of Vitagraph's one-a-month, big-author series soon to be released. In the opening scenes of the play she appears as Marion, wife of Henri Durand, a retired man of wealth, and later is seen as Beatrice, the daughter.

Work on Lew Cody's third starring vehicle has been held up a few days to wait for his leading man, Jack Mower, who in the interim between feature pictures consented to take a leading part in a new serial with Eileen Percy, which has been in process of making at the same studio.

Myrtle Steadman, long one of the greatest favorites of the picture play, who retired from the screen for a season, will return to the fold in "The Silver Horde," which Director Frank Lloyd is making for the Goldwyn company.

Charles Ray, under the direction of Jerome Storm, has commenced work at the Thomas H. Ince Studio upon a new story, written by Julian Josephson, under the title "Paris Green." It concerns a young man who went to Paris during the war and stayed but a few days. However, he brought himself all wised up on the French language and manners and came back home with a big bluff that he tried to put over, and succeeded fairly well, until he encountered a genuine French girl with whom he fell in love. Then the fun started.

In the new Thomas H. Ince production, "Americanism," which is to be one of the greatest of his career, Claire Du Brey has the leading feminine character role of an American girl who is a Bolshevik zealot. Studio report is that she has made a powerful characterization that stands out among several exceptionally strong roles.

For the last Geraldine Farrar picture to be made by Goldwyn before the diva's return to grand opera, Bertram Grassby has been chosen as leading man. Thus the former Broadway actor is another step farther away from a return to the New York speaking stage which he graded for seven years.

Antonio Moreno, hero of Vitagraph serial, "Ferils of Thunder Mountain," has been honored by Lord Northcliffe, Great Britain's greatest publisher. An art plate portrait of the actor recently was placed in "The Picture Show" as an insert. This is the first time that the magazine, which has an enormous circulation, has used an insert.

some scene strikes their eye they comment upon it and discuss it in their own home. Then they go about to reproduce the scene. The woman observes that the room is arranged in a simple manner and that the cost is not prohibitive. Her mind quickly grasps the fundamentals of interior decorating and the scheme is carried out and the home made a thing of beauty.

The story that I have just described is not a wild dream. It is happening in every city, town and hamlet in the country every day. The people go to the theater, see things, see the latest styles in clothes, see the people dancing and eating in the cafes. They watch and learn the proper way to do things. They see on the screen people like themselves, with similar incomes and opportunities and they observe how they grasp them at the opportune time. The example is enough for them, and they profit by following the example.

The modern motion picture is actually accomplishing what has been the dream of philanthropists for ages, the beautification of homes and the correction of faults in the method of living. The motion picture tells a silent story to the masses. The masses' look and become educated to the higher things in life. That is my story in a nutshell.

STUDIO NOTES. Vitagraph is taking scenes at the Belmont Park race track on Long Island for us in its forthcoming serial version of "The Sporting Duchess." It will be several weeks before active work is begun on the picture, but it was thought advisable to take the track scenes while the present meet is

TWO NEW CHURCHES TO BE BUILT HERE BY THE METHODISTS

YEAR'S CAMPAIGN CULMINATES IN BUILDING PROGRAM EMBRACING \$350,000 OUTLAY.

NEW CHURCH IS ORGANIZED

Floral Heights Congregation Elects Officers and Plans \$100,000 Church.

Culmination of a year's quiet campaigning among the Southern Methodist church in Wichita Falls, came Wednesday evening, at the regular quarterly meeting of the congregation, when a new church district was created for Floral Heights church to cost \$100,000 and a new downtown church, to cost not less than a quarter of a million dollars.

The financial report of the church, given at the meeting by Rev. S. A. Barnes showed that a total of \$78,483 has been given by the M. E. South congregation in the various departments for church work, during the three years as pastor. Of this amount \$40,213 has been contributed during the year just closing, the report added.

The great work in the church during the past year, which even the enlarging of the present edifice to the great extent possible did not suffice to accommodate, has made this new church a necessity, and the canvass of the congregation, which was undertaken before the new church was created, has shown support which insures the success of the building program, and the double organization.

A guarantee of salary not to exceed \$4,000 has been made by individual members of the new church for the pastor, and a corresponding support of the other expenses of the church is assured.

Officers Are Elected. Officers for the new church, created Wednesday night, were elected as follows: J. M. Alexander, Martin Ailday, J. M. Bland, B. M. Bullard, E. H. Bredlove, P. B. Cox, W. B. Channing, Charles Crowell, L. E. Cowling, W. P. Ferguson, Lester Jones, J. W.

Whereas—Under the law of our church, our Presiding Elder, Rev. J. Sam Barnes, will be required to leave us this Annual Conference and go to some other charge, or four years of the most efficient service in the Wichita Falls district, and

Whereas—Both in his ministry and in his private life he has faithfully upheld the banners of our great church ministry to its membership and loyally and faithfully leading our people in the way of the cross of Christ—

Therefore be it resolved by the quarterly conference of the Wichita Falls Church—

First—That our prayers and our best wishes go with Brother Barnes and his estimable family wherever they may be sent and that he have the commendation of this body and its recommendation of those he may serve in the future.

Second—That a copy of this resolution be furnished Brother Barnes and that a copy be sent by the secretary to our Conference organ for publication.

Whereas—It is currently reported that our beloved Pastor, Rev. S. A. Barnes, has been slated for removal at the coming Annual Conference, to some other field of work, and believing that such report may be true and,

Whereas—For the past three years he has been a devoted pastor to his people, preaching the Gospel with power and ability, exhorting the professed Christians to a better life and calling sinners to repentance—going in all things the true work of the Ministry of Christ.

Therefore be it resolved by the Fourth Quarterly Conference of the Wichita Falls church—

First—That while we will meekly bow to the will and wisdom of the Bishop and his Cabinet we would gladly welcome his return here another year.

Second—That if, in the wisdom of the Bishop and Cabinet, he shall

removed as our pastor, then we especially and earnestly recommend his removal to some other field of work, and the congregation of the Bishop and Cabinet for the place of Presiding Elder of this district.

Third—That whoever he may go to love and esteem of his brethren here will follow him and his family and that he may truly leave us with a consciousness of duty well performed and a ministry of which he may be proud.

Fourth—That a copy of these resolutions be sent to the nearest organ for publication, another to the Bishop and Cabinet at Terrell, Texas, and another copy furnished to Brother Barnes.

Watland.

Justices: T. B. Noble, Geo. Simmons, J. J. Perkins, J. A. Deaton, C. C. Shelton, G. W. Eagle.

Superintendent of Sunday School, W. B. Hamilton; assistant superintendent, C. H. Clark.

Lay Leader, S. A. L. Morgan.

Resolution Adopted. Two resolutions, offered by Judge P. A. Martin, showing appreciation for the presiding elder, Rev. J. Sam Barnes and Rev. S. A. Barnes, the pastor, both of whom will leave Wichita Falls at the close of this year, were unanimously adopted. The resolution on behalf of Mr. Barnes contained the suggestion that he be elevated to the position of presiding elder for this district. These resolutions are sent to the bishop. They follow:

Whereas—Under the law of our church, our Presiding Elder, Rev. J. Sam Barnes, will be required to leave us this Annual Conference and go to some other charge, or four years of the most efficient service in the Wichita Falls district, and

Whereas—Both in his ministry and in his private life he has faithfully upheld the banners of our great church ministry to its membership and loyally and faithfully leading our people in the way of the cross of Christ—

Therefore be it resolved by the quarterly conference of the Wichita Falls Church—
