BLOCK PLAN FOR IMMEDIATE TREATY VOTE

POSSIBLE SETTLEMENT OF THE RUSSIAN SITUATION FORECAST IN HOUSE OF COMMONS TODAY

LONDON, November 6.—Possible settlement of the Russian situation, which reached a climax during debate in the House of Commons late yesterday, was forecast today.

LABOR GROUP OF DELEGATES MAY WALK OUT ONLY TWO OF AMENDMENTS PULL THROUGH

Question of Approving Forty-Eight Hour Week is Cause of Trouble

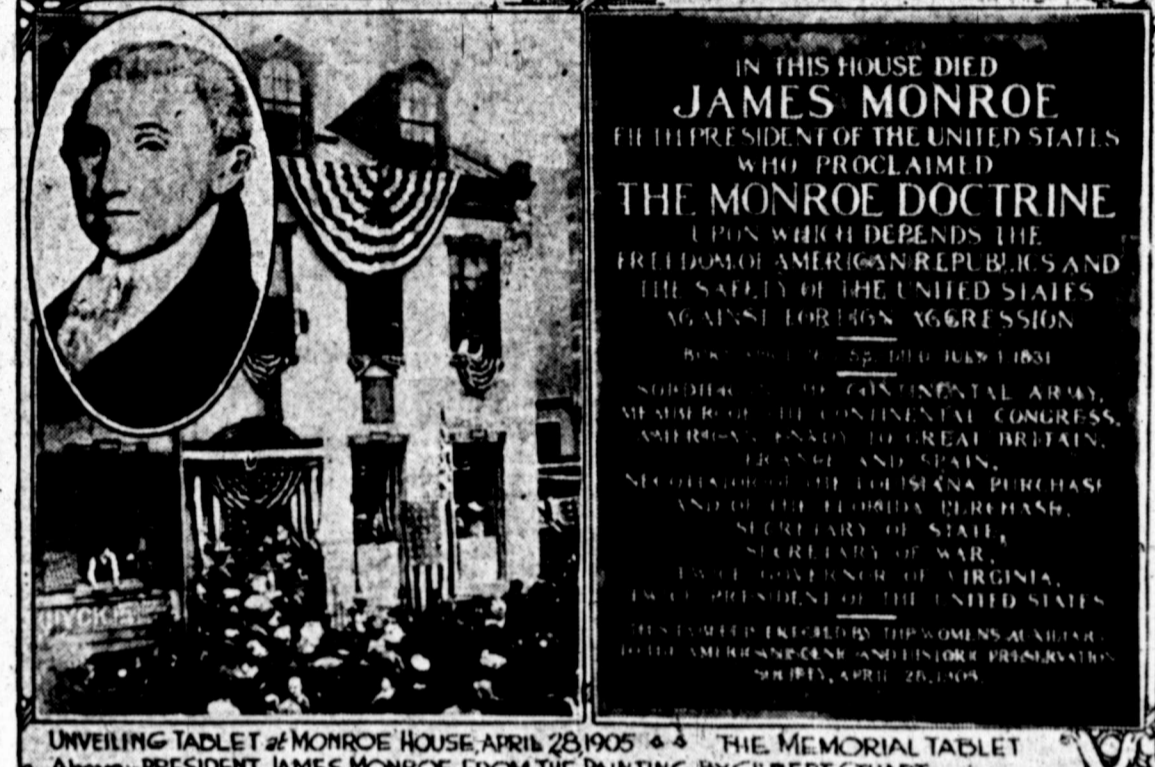

WASHINGTON, Nov. 6.—Threats to withdraw from the International Labor Conference was heard today from groups of labor delegates, who lined up with Samuel Gompers in his fight to have referred to a committee the question of approving the 48-hour week as against the eight hour day.

ATTORNEY GENERAL MAKES A PLEA FOR MORE PRODUCTION

HARRISBURG, PA., Nov. 6.—A plea for greater production as a remedy for high prices was made by Attorney General Palmer here today in a speech before Pennsylvania mayors, state officials and fair price committee members in session by Governor Sprout.

TOLEDO, OHIO, Nov. 6.—Approval by the voters of an ordinance forcing the street car company to suspend business finds the city entirely unprepared to provide transportation.

SOCIETY SEeks TO SAVE OLD HOME OF JAMES MONROE

UNVEILING TABLET AT MONROE HOUSE, APRIL 28, 1905. ABOVE: PRESIDENT JAMES MONROE, FROM THE PAINTING BY GILBERT STUART.

Government to Ask Court to Order Strike Call Withdrawn

WASHINGTON, Nov. 6.—Issuance of a court order commanding officials of the United Mine Workers Union to withdraw the strike order will be urged upon Judge Anderson in Indianapolis tomorrow by Judge Ames, assistant attorney general.

OKLAHOMA BANK IS ROBBED OF \$10,000 AT AN EARLY HOUR

CUSHING, OKLA., Nov. 6.—The Oklahoma state bank, located on the most prominent corner of the city was robbed of \$10,000 to \$12,000 about 8:15 this morning.

FIFTEEN BABIES ENROUTE TO UNITED STATES FOR FIRST CLIMPE AT DADDY

NEW YORK, Nov. 6.—Fifteen babies are enroute to see their fathers in the United States for the first time.

OKLAHOMA MAN IS SUICIDE AT A HOTEL IN DENVER, COLO.

DENVER, COLO., Nov. 6.—E. M. Lawrence, with a letter of credit for \$7,000 issued by the Peoples Bank of Kingfisher, Oklahoma, killed himself by shooting through the head, in a rooming house here today.

PLAN FOR SECOND PEACE CONFERENCE ON TURK SITUATION

LONDON, Nov. 6.—Great Britain soon will submit to the peace council in Paris a proposal for holding a "second peace conference" in London to settle the Turkish situation according to the belief expressed in American circles today.

MOST DRAMATIC MOMENT OF THE ENTIRE TREATY FIGHT IS STAGED IN THE SENATE THIS AFTERNOON

DRYS GAIN IN MORE RECENT OHIO RETURNS

WASHINGTON, Nov. 6.—Consideration of reservations to the peace treaty began in the noon session today. The preamble requiring assent by exchange of notes of three allied powers to the reservations was taken up first.

ALL RESTRICTIONS ON LIGNITE REMOVED

AUSTIN, TEX., Nov. 6.—All restrictions on the movement of lignite coal in Texas have been removed and additional cars will be furnished for wood shippers, according to a message received by the railroad commission this afternoon from Governor Clegg.

MOTION TO DISSOLVE RESTRAINING ORDER IN INDIANAPOLIS

INDIANAPOLIS, IND., Nov. 6.—A motion to dissolve the order restraining officials of the United Mine Workers of America from encouraging or directing the strike of the 425,000 members of the union was filed in the United States district court here this afternoon by attorneys for the miners.

WILL NOT ACCEPT OFFICE IN AMERICAN LEGION

NEW YORK, Nov. 6.—Colonel Theodore Roosevelt, assemblyman-elect, will not be a candidate for any office in the American Legion, which convenes next week in Indianapolis.

CANCEL ORDERS FOR A LARGE AMOUNT OF CORN

CHICAGO, Nov. 6.—Cancellation of orders for a large amount of corn purchased in Minneapolis was reported here today as due to Manchurian offerings of corn in Pacific coast territory.

PLAN WITHDRAWAL OF TWO MILLION BALES OF COTTON

COLUMBIA, S. C., Nov. 6.—Withdrawal of two million bales of good grade cotton from the market to stabilize prices and to counteract the influence of a monster syndicate which is buying up this year's cotton to hold it for higher prices next spring, was the announced program today of the American Cotton Association.

NEW YORK ASSEMBLY HAS 110 REPUBLICANS

NEW YORK, Nov. 6.—Revised results of the legislative contests compiled today show that the new assembly will be composed of 110 republicans, 35 democrats, and 5 socialists.

INJUNCTIONS ASKED AGAINST SIX OTHER PIPE LINES TODAY

Suits against six more pipe line companies, all for mandatory injunctions to force the companies to move their lines off of public highways and for \$1,000 damages in each case, were filed in the 78th district court Thursday by County Attorney John Davenport.

The defendants are: The Charles F. Noble Oil and Gas Co., the Western Oil Corporation, the T. & B. Pipe Line Co., the Southern Oil Corporation, the Crane Oil Marketing Co., and the Empire Pipe Line Co.

Suits were filed Wednesday against A. C. Parks and the Lone Star company.

The petitions are identical with those filed Wednesday except in details relative to locations of the pipe lines. Mr. Davenport sets forth that the county commissioners had dedicated certain land to public road purposes but that the defendants, unwilling of public rights and without obtaining permission from the duly authorized commissioners, laid their lines across and along the highways, leaving them exposed and on the surface of the roads in places, thereby retarding public travel and injuring the roads by causing them to be cut up. It is alleged that much road work is necessitated as a consequence, that would not be required were the pipe lines not there.

The defendants state the petitions, have never applied for permission to use the highways on which to lay their lines; that they are not common carriers and refused to be so certified as such, never having condemned the roads as common carriers would have done, but are using them for their private use and benefit without regard to the county or the duly constituted authorities.

Mandatory injunctions, demanding the immediate removal of the lines, and damages in the sum of \$1,000, are sought in each suit. Judge Scully had not set the matters for hearing at a late hour Thursday.

Davenport announced that he would file numerous other suits of a like nature.

MAY HAVE A BRANCH CENSUS OFFICE HERE

WIRE FROM CONGRESSMAN PARRISH INDICATES FAVORABLE ACTION ON REQUEST.

Indications that a branch office of the United States census bureau in the 13th district may be established here with a special assistant supervisor in charge were contained in a telegram from Lucian W. Parrish received at the Chamber of Commerce offices this afternoon.

The wire from Representative Parrish was in answer to a request for the establishment of a branch office here telegraphed Wednesday by Herbert Harrison, secretary of the Chamber of Commerce, Wednesday night. Mr. Parrish answered that he has brought the matter to the attention of director Sam Rogers, in charge of the census, that Mr. Rogers had taken the request under advisement and that he had given evidence of approving the measure.

Central offices for the 13th district are established at Decatur under Mr. Moe Wayland Burch. Mr. Burch is anxious for relief and assistance in this part of the district and asked Mr. Harrison to make the move for a branch office. Final action on the question by the director is expected within the next day or two.

THREE MEN ARRESTED ON CHARGES OF THEFT

Charges of theft of an automobile and of tool joints valued at more than \$50 were filed by the county attorney's office Thursday against Elmer Parker, W. A. Deloach and Alexander Utz.

The men are alleged to have stolen an automobile from J. B. Warren, 202 Lamar street, and then to have driven to the Denver freight station, where they were loading tool joints into the car when an officer, who had been watching their maneuvers, arrested them.

The condition of Eli Nelson, injured in a fall from a moving train at Burk Burnett early this week, is reported encouraging.

VAUDEVILLE NUMBER AT ROTARY LUNCHEON

PERFORMERS ON PANTAGES BILL FEATURE THE WEEKLY ENTERTAINMENT.

Today's Rotary luncheon, served as usual in the First Christian church, was the first under the new scheme of having the first and third Thursday programs supplied by those whose birthdays are in the current month, and the program consisted of numbers from this week's Pantages bill at the Wichita theater. Miss Nina Booth, soloist on stringed instruments, and the Primrose Minstrels were the acts given and their audience was thoroughly appreciative.

D. H. MacFarland, of the staff of the American City Bureau, from New York City, was the guest of H. M. Harrison, secretary of the Chamber of Commerce, at the luncheon, and made a brief talk, along the lines of city betterment.

"The Wichita Falls Chamber of Commerce does not have the usual problem of securing factories and industries for the city," Mr. MacFarland said, in a brief talk. "Instead its chief problem is to make the city a good place to live in and bring up children in. Unless the city is made to appeal to the man who has made money, he is going away, and will help build up other towns."

Clarence E. Gilmore of the Texas Railroad Commission, and T. L. Coplin, representative of the oil section in the Wichita Falls district, were among the visitors introduced at the luncheon.

TWO WICHITANS ARRESTED ON MANN ACT CHARGES

Charged with violating the Mann white slave act, O. F. Shubert, proprietor of the Wichita Bakery and Cafe, and James P. Leewar, an employe in the cafe, were arrested by federal authorities Wednesday afternoon.

Shubert's examining trial was postponed by U. S. Commissioner Lantz on his application, and his temporary bond was fixed in the sum of \$2,000, which he gave, being released from custody.

Leewar still was in jail Thursday afternoon. He will be given an examining trial Friday before Commissioner Lantz.

Other government witnesses will include U. S. Deputy Marshal Allen and Policeman Morgan.

WORKING CAPITAL OF FIRST NATIONAL IS MADE \$1,500,000

DIRECTORS VOTE WEDNESDAY AFTERNOON TO TRIPLE BANKS CAPITAL AND SURPLUS.

One million and a half dollars capital and surplus, an increase of 200 per cent over the present capital and surplus, was voted by the directors of the First National Bank at a meeting Wednesday afternoon. This action gives Wichita Falls, which has long been recognized as a financial center of importance, one of the largest banks in the State of Texas, there being only a very few with larger capital and surplus, and the largest bank between Fort Worth and Denver, Colo.

About one year ago the capital and surplus of the First National Bank was increased to \$900,000.

Anticipating Future Growth. "The directors in taking this step are anticipating the future growth and financial needs of this city and community," said W. M. McGregor, active vice president in announcing the increase of the capital and surplus. "Wichita Falls is geographically the center of the fastest growing section of Texas and the section which has the greatest resources, the development of which is holding the attention of the nation, and the directors are determined on building a financial institution whose resources are such that little excuse can be given for banking business to be done elsewhere."

"We will be able to offer accommodations to the largest operators, individuals and organizations, and will establish a credit which will permit us to care for the largest enterprises through this large increase in the capital and surplus. It is unnecessary to state, of course, that financial conditions fully justify this step, as it is well known, not only in Wichita Falls, but throughout the country, that the city leads in financial circles all of Northwest Texas, and is the banking point for a large part of what is known as the Panhandle of Texas, and for southwestern Oklahoma as well."

Should Be Matter of Pride. "It should be a matter of great pride to the citizens of Wichita Falls to know that the financial strength of the local banks will compare favorably, if not exceed, in resources with any other city of the size in the United States. In Texas, Wichita Falls holds fifth place. I am informed in bank deposit totals, and there are few banks in the entire state that have a larger capital and surplus than our bank has, through Wednesday's decision, while

CHILD SERIOUSLY INJURED BY AUTO

Daniel Lesh Jr. Still Unconscious From Injuries Sustained At Noon.

Daniel Boone Lesh, Jr., nine-year-old son of Mr. and Mrs. D. B. Lesh at 1317 Ninth street, was struck by an automobile and seriously injured while he was crossing Tenth street at Grace about twelve o'clock Thursday. The boy was going home from school at the Academy of Mary Immaculate with several companions when the accident occurred. He was taken immediately to the general hospital where an X-ray picture will be made to determine the nature of his injuries. The child was unconscious this afternoon.

COTTON BEING SHIPPED TO POINTS IN GERMANY

BALTIMORE, Md., Nov. 6.—Approximately 150,000 bales of cotton have been forwarded to Germany from Savannah and Galveston recently and other vessels now at these ports are loading further shipments from Hamburg and Bremen, according to reports to the Manufacturers' Record.

Savannah has forwarded approximately 50,000 bales during the last three weeks, while Galveston's shipments since Germany's acceptance of the peace terms are reported to have been about 100,000 bales. One ship at Galveston now is loading for Hamburg and four others are scheduled to load cotton this month for Germany.

BUTCHER IS ON TRIAL IN COUNTY COURT

Before Special Judge J. P. Marrs, the trial of Fred H. Butcher, charged with wife desertion, was commenced in county court Thursday.

Butcher also is charged with deserting his four minor children and with adultery, and those cases will be tried when the present one is completed.

DAIRYMAN FINED ON IMPURE MILK CHARGE

B. B. Woodall was fined \$25 and costs in county court Wednesday on a charge of selling impure milk.

Mr. Woodall acknowledged that the milk might have been impure, but blamed this on the city water, claiming that in washing vessels with city water a certain amount of impurity was left in the vessels. He introduced boiled water in evidence to show its impurities.

RAISING FUNDS FOR NEW FIELDS SCHOOL

SUBSCRIPTIONS TOTALLING \$2800 HAVE ALREADY BEEN RAISED FOR PROJECT.

Subscriptions totalling \$2,800, to be used for the erection of a school building in the Northwest field and the employment of a teacher have been secured by F. V. Eaton, representing the International Texas company, whose president, J. T. Harvey, is sponsoring the project.

Between four and five thousand dollars will be needed for the building and the teaching during this school year, Mr. Eaton estimates. He is seeking support chiefly from operators in the Northwest field and in the extension field itself. At the oil banquet Friday evening, Mr. Eaton plans to bring the matter to the attention of the local oil association that he may obtain its sanction and support.

Children in the Northwest field are present forced to make a several mile trip each day to attend school. Conditions in the townsite schools are of course very crowded at present, and as the cold weather comes school attendance will become more difficult, Mr. Eaton points out.

The community is confronted with an indefinite delay in obtaining relief from the regular channels, he argues, and he is appealing to the oilmen of the county to give these children an opportunity to receive the instruction that is due them.

Mr. Eaton says first consideration will be given the children of the more settled families whose stay in this section is more or less permanent, although every child possible will be accommodated.

SAYS PEOPLE SHOULD CONDEMN GAS SYSTEM

W. W. SILK BELIEVES CITIZENS SHOULD TAKE STEPS TO ACQUIRE GAS SUPPLY.

"It seems to me that the proper move for the people of Wichita Falls in regard to this gas situation is for them to go out to Petrolia, lease some of this gas land, drill their own wells, pipe the gas to Wichita Falls, forfeit the franchise of the gas company here and own their own gas system."

"Then, in my opinion, and not till then, will we have a sufficient supply of gas for our needs here."

"This was the view expressed by W. W. Silk, head of the Chamber of Commerce committee, to consider securing private production for Wichita Falls as a means of averting the present gas shortage.

"There is no doubt that this can be done," said Mr. Silk. "N. H. Martin has 2,000 acres of land out in that field not yet under lease for gas purposes, all of which has every indication of being the same land as his other land on which the Texas Company got their big gas wells. I am sure that the people of Wichita Falls could secure a reasonable lease on this land from him, and that we could own our own gas system."

PROPOSE ORGANIZATION OF NEW COUNTY OUT OF WICHITA AND WILBARGER

A proposal for the organization of a new county out of parts of Wichita and Wilbarger counties has been made in the Electric Daily Leader by Ed. C. Wilson, a well known citizen of Electra. Mr. Wilson says:

"Wichita county and Wilbarger county are both too large; they favor cutting another county out of the east end of Wilbarger and west end of Wichita and making Electra the county seat."

Commenting on the proposal the Daily Leader says:

"The Daily Leader regards it as a good and timely suggestion, and would like to have expressions from others. Such an enterprise would certainly redound to the benefit of Electra, without discommoding anyone, we think."

COME PREPARED FOR RED PEPPER BARRAGE

YOUNGSTOWN, OHIO, Nov. 6.—Deputy sheriff appeared at the entrance to the Youngstown Sheet & Tube Company plant today, wearing goggles as a protection against recurrence of "red pepper riots" by women, which occurred Tuesday and Wednesday.

Apparently discouraged by the arrest of 24 women yesterday, however, the women failed to appear today. The Carnegie Steel Company today reported the opening of three more open hearth furnaces at its Ohio works and another finishing mill at its Union works, making a total of 11 out of 12 finishing mills at work in that plant.

AT THE MAJESTIC THEATERS

"A TEMPERAMENTAL WIFE" AT THE MAJESTIC FRIDAY

Transforming a dignified, rather sickly and unmarried senator into a husband for a jealous-natured and most fascinating young girl is the work of Billie Billings, whose role is played by Constance Talmadge in "A Temperamental Wife" which will be seen at the Majestic theater Friday.

Billie has a strong dislike for married men who flirt. She determines that her husband must be entirely hers, and take absolutely no notice of other women.

Although a perfectly good Bulgarian count is hers for the acceptance, and though scores of other male admirers would consider themselves fortunate to marry her, she decided that she must marry the bashful senator even if she has to do it by force. And she very nearly does!

Billie becomes so jealous that she demands the senator fire his lady stenographer.

"Take either me or her!" demands Billie defiantly.

The senator chooses the stenographer and then little Billie has a most difficult but humorous series of experiences.

"THE SHOP LIFTERS" AT TENT THEATER TONIGHT

Brunk's Comedians will tonight present the play that aroused so much enthusiasm here on their opening night, "The Shop Lifters." It is a play dealing with the big metropolis and is full of thrills and exciting climaxes.

YOUNG LOVE WINS AT PLAZA THEATER TONIGHT

Young love never adorned a photograph more delightfully than it adorns "Love is Love," the William Fox production at the Plaza tonight, starring Albert Ray and Elinor Fair. These two stars are as clever young folks as ever handled romance and pathos.

DELPHIAN SOCIETY MEETS WEDNESDAY AT LIBRARY

A continuation of the study of J. Fenimore Cooper formed the Delphian Society's program Wednesday afternoon. The club meeting as usual at the Kemp Library. Mr. Harry Baum gave a reading, "The War Dance," selected from Cooper's "The Last of the Mohicans," and Mrs. Mary Boyd Robertson read a paper on "A Summary of Cooper's Life and Character." The members present were Mesdames Alexander, Bert Bean, Harry Baum, C. F. Spencer, O. E. Maer, Mrs. Moore, W. S. Robertson, Marvin Smith, T. B. Smith, Mary Boyd Robertson and Miss Lillian Fain.

Mrs. M. M. Walker and Miss John Bonner returned Thursday morning from Dallas.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color does back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and so evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, making one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.—Adv.

MAYOR MARLOW TELLS OF THE PROBLEMS FACING THE COUNCIL AND HOW THEY HAVE BEEN MET

Problems with which the city administration has been called on to deal, and how the administration has dealt with these problems, are treated exhaustively in a statement issued Wednesday afternoon by Mayor J. B. Marlow.

The problem deals with every department of the city's activity, from the fire and food inspection departments, to that of the police, which, the mayor states, has been severely criticized recently from the pulpit of the city. Mr. Marlow's statement follows:

"In the attempt to acquaint the public in general with a few of the vexatious problems which have been and are now confronting the city council and to arouse more public interest and support in the activities of this body the following brief outline concerning city affairs is given.

Grave Financial Difficulties.

"When the present administration assumed its duties it was immediately confronted with grave financial difficulties. The available funds were based upon the old budget values and the bonded indebtedness had already practically reached the limit. The unprecedented and almost instantaneous growth from 1916 to the city through this administration the attendant complexity of municipal problems. In a comparatively short time the demands upon the administration were touched and it is safe to say that now they are troubled, but during all this time the revenues have remained practically the same and have been entirely inadequate. The past 13 months has been the most trying financial period that Wichita Falls has ever experienced but from present indications the crisis will soon be passed and the city's indebtedness but very little increased. It has been necessary for the council to disapprove expenditures for a great many needed improvements and to loose unaccounted with actual financial conditions. It probably appeared that this is a very parsimonious administration. This council has had to exercise its utmost powers of frugality in order that the city might not be plunged in debt through a consequence only those expenditures have been allowed which have appeared to be most vitally essential.

"The sanitation situation at the outset the necessity for devoting much time, energy and all possible funds to the sanitary situation. There was immediate demand that the most frugal system be enlarged and if it was to be made adequate it had to be twice the size for which it was originally intended. The work was undertaken and expenditures made as rapidly as possible. The handicaps in this work have been various and trying, such as material shortage, shipping delays, labor troubles, etc. However this work is now making good progress and relief is now in sight.

"The problem of cleaning the downtown streets and alleys seems now to have reached the most satisfactory solution of this situation, at least for the present. The city was absolutely unable to furnish sufficient equipment and labor to

properly do the work it attempted to do, but now with the merchants taking care of the trash and garbage the force which the city must call upon will be put on the streets and by this co-operation the general cleanliness of the downtown section will be very much improved. The street cleaning force will be increased from time to time and the work extended as the funds permit.

"As a result of a part of the work of the sanitary board the food inspection department has been increased and provisions made for a well equipped laboratory. The necessity for a rigid inspection and regulation of the food situation was imperative and a most important part of the general work of sanitation. It was an additional safeguard to the health of the people of this city and the results already attained by this work have more than justified the comparative small expenditure. This department is now established as a vital part of the city administration and its activities will be still more fully appreciated as the work is extended.

Police Department.

"Next to sanitary work the maintenance of law and order was considered an important part of the increase in population and the general boom conditions there was sure to come that proportions of the lawless and criminal element which always followed in the wake of rich strikes. The situation was upon us and had to be dealt with summarily. This required a reorganization of the police department on a much more comprehensive plan. As a result of this force has now been trebled and the record which the department is making is sufficient evidence as to its ability to take care of the situation. Still further increase is contemplated as demands require and funds permit.

"We are however, receiving severe criticism from the pulpits and other wise of the police department. We are told that the undesirable citizens and lewd women from other cities are coming here by the carload, and that lewd women accost people on the streets, even near the police station.

Says Embargo is On.

"We know they do not come in carloads, as there is an embargo on. We realize the fact that this class of people always come to cities like this in order to cope with the situation. The public never hears of the hundreds who are picked up immediately and sent out of the city, nor of the work night and day on the streets and never let up and they are getting results. Lewd women accosting people on the streets is a very rare thing, but these were turned out of the citizen accosted, it would be stopped altogether. Whenever a lewd woman comes to town she wants a place to stay. She can not get into the best hotels, as a rule, and her only chance to get information is from service car man, or some man on the street, whom she thinks will not mind talking to her. Under these circumstances a citizen may be accosted. But there is no such thing here as a lewd woman plying her trade on the streets and getting by with it.

"There is probably no department which has had more hard work and more than the street department. The funds available for street improvement have been shamefully inadequate. The council has had to "rob Peter to pay Paul" and the street department has been playing the role of Peter. It was the intention of the council to grade and oil all the dirt streets and have them in good temporary condition for the winter, but the weather conditions have prevented the accomplishment of this to a great extent. However some new road machinery has been ordered and immediately upon its arrival and the advent of favorable weather this work will be pushed to the limit.

The Wood Block Paving.

"It is a most unfortunate coincidence that the block paving on the main streets should at this time rise in arrears against an administration that was not responsible for it being laid. With an entire sea of other troubles which require the utmost efforts in other directions this situation appears at a most inopportune time. It would not be quite so bad if those blocks would confine their efforts to the

street proper but they are even attacking the curbing, pushing it out of line and this in turn is resulting in a "buckling" of the sidewalks. Efforts to temporarily repair the condition have proven unsatisfactory. The blocks are simply unable to maintain a semblance of their original dimensions under such conditions of excessive rain as has been experienced this fall. Apparently the only successful solution is to repave.

"In none of the previous administrations has there been such a need for a well organized and efficient engineering department. Not only for the present but for the future benefit of the city it was essential that the vast amount of public construction work be done under the competent supervision of representatives of the city. Accordingly this department has been augmented by the addition of two civil engineers, assistants and paving inspectors. As a result of this increase in the force such construction work as pertains to sidewalks, sewer extensions, paving, etc., is being done in a proper manner and according to specifications.

"The problem of maintaining the personnel and efficiency of the Fire Department has been very difficult. The fact that more lucrative work and short hours are easily available to the men make it very hard to secure and hold that type of men necessary to the building up of an efficient fire fighting organization. The credit for having maintained the high efficiency, the department now enjoys is due largely to the efforts of Chief McClure and the construction visit of the State Fire Marshal. It is imperative that enlargement of this department be immediately made in order to meet the increasing fire rates and provide adequate fire protection. The demands of the state department relative to the establishment of new stations and the installation of new apparatus are along the same lines which the council had already contemplated, but provision for the maintenance of these extensions had hardly seemed possible at such an early date. It is just such problems as this which have repeatedly confronted the administration. Problems which require expenditures that the city at present can't afford but because of their great and far reaching importance must be allowed. The first of year have been set at the limit when these improvements must be in and the council proposes to meet the requirements.

"There is hardly a day passes that some of the members of the council do not give from one to several hours of their time to the investigation and solution of city problems. They do this to the detriment of their own business because they realize the importance and bearing which their decisions have on the present and future welfare of the city. It has been up to this body of men to shoulder heavy responsibilities and they have not shirked their duty. As a body they have been criticized for their own actions but such criticism has largely been through ignorance and unjustly founded.

Council is Grateful.

"The council is very grateful for the interest which the citizens and civic organizations have shown in the problems which are such vital importance to the welfare of the city. It is only by such co-operation that the best results can be obtained. Each civic organization has its particular field of work but in as much as each working for the betterment of the city and

the concerted efforts of all result in the advancement of the city as a whole then it becomes necessary for the closest relations to exist between all civic organizations and the council. So let us all get together and recognize his or its duty as an integral part of our fast growing city and pledge and give full support to all civic enterprises."

VIRGINIA MAN SEEKS A SITE FOR GLASS FACTORY

JAKEHAMON, TEX., Nov. 6.—J. M. Adamson of West Virginia, has been in Jakehamon and other points on the line of the Wichita Falls, Ranger and Fort Worth railroad this week looking for a good location for a glass factory. He wants to get on

the new railroad because of the superior transportation facilities it will afford and for the reason that there is adequate gas for fuel along the entire distance traversed by the road. The sand from which to make window glass which he intends to manufacture is best secured in the vicinity of Santa Anna and the Wichita Falls, Ranger and Fort Worth line makes superior connections for the transportation of this raw material. He will probably locate his factory either in Jakehamon or Ranger.

The Diamond Gasoline Company of Kansas City, Mo., has begun operation of their cashhead gasoline plant at this place. It is the first of three projected plants of his character to begin operations. It is now processing 10,000,000 cubic feet of gas a day and will be enlarged to handle 1,000,000 cubic feet daily.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre, when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, also double it's beauty. You can have nice, thick hair, too.

ADITORIAL

Our endeavor—giving all we can for what we get—instead of getting all we can for what we give. Inferior goods are never cheap. No matter what they cost, they prove expensive in the long run. On the other hand, good merchandise is never expensive, if it is sold at a reasonable price. The merchandise sold at this store is up to the highest standard of quality. We do not handle "cheap" goods, though our prices on GOOD merchandise are never high.

SPORTS

GUNS BOOMING IN TWO OFFENSIVES OF MAJOR LEAGUE WAR

United Press Staff Correspondent.
NEW YORK, Nov. 6.—Guns are booming now in two offensives of the major league war.
 The American League board of directors centered their fire again on Ban Johnson yesterday by overruling the protest of Frank Navin and declaring the Yankees official winners of third place in the American League race. Resolutions signed by Col. Jacob Ruppert, Chas. Comiskey and Harry Frazee demanded that the National Commission turn over the New York team's share of the world's series money.
 In another sector the guns were turned on Gary Herrmann. The joint commission appointed to name a successor to Herrmann as chairman of the National Commission, met and agreed on a new chairman, whom they decline to name publicly.
 Following the meeting a request from William F. Baker, Wm. Vesick and Colonel Ruppert, constituting the committee, was directed to John Heydler, National League president, for an early meeting to ratify the choice.
 Heydler phoned Johnson in Chicago and was told by the American League president that he would not attend a meeting with any committee of which Ruppert was a member.
 By this stand, Johnson blocks the efforts to oust his ally, Herrmann, and he brings up an issue that may force the National League powers to take up arms against him with the trio of enemies in his own league.
 If Johnson persists in his refusal to meet with a committee of his own selection, the National League powers may decide to deal with the American League board of directors and act over Ban's head.
 Another airing of the American League squabble in court seems probable if the National Commission does not turn over the Yankees third place winnings. Colonel Ruppert, president of the New York club, has announced that he will institute mandamus proceedings to force the payment if the commission does not comply with the request of the directors.

HARVARD AND PRINCETON TO BATTLE ON SATURDAY

PRINCETON, N. J., Nov. 6.—When Harvard lines up against Princeton Saturday in Falmer Stadium, the crimson will face a team worthy of the traditions of Old Nassau. All the crumples are now back in the Tiger line-up and Princeton's prospects of victory are greatly improved. Kick, the star 230 pound tackle, is again in his regular position and the line is in top notch condition. The lack field, which depends on Trimble, Garrity and Wittmer, will be strongest put on the field this season by the Tigers, and with Strubbing playing quarter Princeton believes it will be one of the fastest on the eastern gridiron.
 Odds are 2 to 1 on Harvard, and Princeton is grabbing all the money in sight at this price.

BECKETT IS SCHEDULED FOR BOUT WITH BRENNAN

NEW YORK, Nov. 6.—While Joe Beckett, the English champion, was busy sending denials across the pond that he was to meet Jack Dempsey in New Orleans on St. Patrick's day, the champion was hearing the jingle of big coin for another bout. Johnny Abrams, New Orleans promoter, is quoted as offering \$25,000 for a bout with knockout Bill Brennan to be fought before the proposed mill with the Britisher. Another proviso hung the bout on a Brennan victory in his coming fight with Tom McMahon.

WILDE IS TO ARRIVE MONDAY FROM ENGLAND

NEW YORK, N. Y., Nov. 6.—Jimmy Wilde, world's fly-weight champion, is due to arrive here Monday from England. He is to be given a reception and dinner by prominent boxing fans. With his family, the champion plans to tour the United States, returning east in February to open the new home of the International Sporting Club with any fight match maker Tex Rickard selects.
 Notice is hereby given that the county clerk's office will close next Saturday at 12 o'clock to install additional furniture. W. F. Harris, county clerk.
 159-31c

LINING UP FOR THE GRIDIRON STRUGGLES FOR THE WEEK-END

CHICAGO, Nov. 6.

Great clouds of pessimism are floating around the Midway with Jackson, McGuire and Hinkle nursing several varieties of pet hurts. Rober will start at center with Swenson and Stegman the guards. The latter has not broken into scrimmage at all this week. Captain Higgins will play one tackle but the other tackle job seems in doubt.
 Reports from the Michigan camp are optimistic although Vost shows no signs of expecting a walk away. He returns to the line Saturday will probably have the effect of shaking Stagg's outfit into a fighting mood. The team that Stagg sent against Zuppke's scrappers last Saturday was not the same machine that walked over Northwestern 41-0. Zuppke's team is in Chicago today on the way to battle the Tigers at Milwaukee, a stiff scrimmage here before the team pulls out for the north was scheduled with the subs trying to rip through the regulars on Milwaukee plays.
 Zuppke is afraid that the high tension of the Maroon game will bring its return reaction this week and he has been working hard to round his team into shape for the hardest game left on the schedule.
 Minnesota reports gloom in great goings. Neither Hartzel or Phillips, back field men, are likely to be in condition to start against Illinois, and Theron with knockout yesterday and left new men in for the entire practice.
 Iowa and Northwestern are expected to put up a stiff fight Saturday.
 Duke favors the Hawkeyes although the showing of the Methodists against Michigan last week has given fans something to think about. Iowa will show the same line-up as against South Dakota. According to reports from Iowa City, Northwestern's line-up appears in doubt as Coach Bachman yanked several of his regulars in the scrimmage yesterday and left new men in for the entire practice.

BRONSON AND MARTIN SCHEDULED FOR BOUT

AKRON, O., Nov. 6.—Jimmy Bronson, manager of Bob Martin, holder of the heavy-weight inter-Allied boxing title, announced here today that Martin would meet Jack Moran of St. Louis, in a 15 round battle at Minneapolis on the night of November 11.

HARRY WILLS WINS THE NEGRO CHAMPIONSHIP

TULSA, OKLA., Nov. 6.—Harry Wills, of New Orleans, won the negro heavyweight championship of the world here last night when he hammered most of the tar out of the Boston Tar Baby, Sam Langford, in 15 fast rounds of fighting. Wills carried the fighting to the Tar Baby and had the Bostonian completely at his mercy during most of the time. Ed Cochrane of Kansas City was the third man in the ring.
 Benny Leonard, lightweight champion, defends his laurels against Jimmy Duffy here next Monday night.

JIMMY DUFFY WINS OVER JACK DOYLE

NIAGARA FALLS, N. Y., Nov. 6.—Jimmy Duffy, lightweight, Lockport, who is scheduled to box Benny Leonard for the lightweight championship in Tulsa, Okla., November 17, knocked out Jack Doyle of New York in the third round of a scheduled 10-round bout in this city last night.
JACK BRITTON EASILY OUTPOINTS TILLMAN
DETROIT, MICH., Nov. 6.—Jack Britton, welterweight champion, easily outpointed Johnny Tillman of Minneapolis in a 10-round bout here last night. Britton extended himself only in the last round.

Proves Yellow Mustard Conquers Pain and Frees the World of Much Sickness, Misery and Distress

Nineteen years ago chemist Begy discovered Mustarine. He made it with real, honest yellow mustard. To which other pain relieving ingredients were added. He said to the medical profession:

"Here is something twice as effective as your old fashioned, mussy, blistering mustard plaster."
 "It's full of concentrated heat and heat eases pain."
 "It won't blister—it can't blister."
 "And one box will do the work of 50 mustard plasters."
 The doctors tried it—were astonished—almost amazed. It stopped pains, aches and soreness quicker than anything they had ever seen.
 They prescribed it for sprains and strains, for lumbago and gout. They found it invaluable to quickly reduce inflammation and remove congestion.
 They urged its use in Tonsillitis, Bronchitis, Pleurisy, Sore Throat and Chest Colds and found it wonderful.
 They grew enthusiastic—Mustarine was great.
 They tried it for rheumatism to limber up stiff joints and muscles and it didn't disappoint.
 If you haven't tried Begy's Mustarine get a small box at your druggists today—it costs but little, the results are marvelous—but be sure it's Begy's—the quickest pain killer on earth—always in the yellow box, 30 and 60 cents.
S. C. Wells & Co., LeRoy, N. Y.

Sherwin-Williams Make Specialized Industrial Paints

The particular kind which every variety of surface demands for its individual protection.

We thoroughly analyze the specific needs of all various industries. Our paint chemists then prepare a specialized formula for this particular need.

Our test department then subjects the paint to harder tests than its industrial use will ever bring about. After establishing the highest standard of protection and permanence, it is then put on sale.

That is how Sherwin-Williams Paint products come to be. The number now exceeds 1,000, among which are

Oil Station Paints.	Wood Preservative Paints.
Tank Car Paints.	Galvanized Iron Paints.
Pipe-Line Paints.	Oil Resisting Paints.
Metal Protective Paints.	Wagon and Implement Paints.

Ebonol Pipe-Line Paints
 is a heavy bodied pitch and coal-tar paint. It dries with an extremely tough but elastic surface which will not crack from either contraction or expansion. It is acid-free and acid-proof, and stands heat up to 350 degrees F. It sticks tight on all kinds of metals, woods, compounds, etc., and seals them watertight.

Oil Tank Car Paints
 is a special, hard-drying, durable, protective paint, designed to resist oil, moisture, rust and abrasion. Economical in first price and last cost.

S-W Creosote Paint
 A wood preservative which penetrates deeply, and dries with a tough impervious surface. It makes cheap woods give the service of very expensive materials and saves replacements.

S-W Oil Station Paints
 are made especially to give the most extensive square foot cover and greatest protection under the special needs developed by oil refiners and pipe-line operators. This paint is the most economical solution of oil producers' problems on the basis of cost, cover and durability.

Roof and Bridge Paint
 is genuine "salvage" when applied to structural iron work, tin, and upon sheds, buildings, fences or unfinished lumber.

Non-Corroddible Graphite Paint.
 is a splendid anti-rust paint with graphite for its pigment base. Unusually durable under all conditions of weather, temperature and wear.

Metalastic Paint.
 protects against heat, cold, wear, rust, moisture, oil, gases and acids. Allows for great expansion and contraction.

MEMBER OF ASSOCIATED PRESS MEMBER OF UNITED PRESS

THE CAUSES; THE REMEDIES.

"A statement concerning the high cost of living" is the heading of a page advertisement in a New York paper, donated for the common good by a national advertiser.

That the nation's productive powers have not been fully utilized since the armistice. That too few goods, notably the necessities of life, have been produced, and that even some of these goods have been withheld from the market, and therefore from the people.

To stamp out profiteering and stop unnecessary hoarding. To enforce vigorously present laws and promptly to enact such further new laws as are necessary to prevent and punish profiteering and needless hoarding.

On American labor rests an equally grave responsibility to attain unit production and maintain uninterrupted distribution of goods if labor itself is not to suffer from further rises in the cost of living.

The practical solution, infinitely more difficult in execution, is to get the whole people to help in following out the line of reasoning or action necessary to that end.

FOR A CLEANER CITY. Anything and everything The Times can do to help along the clean-up campaign will be done—willingly and freely and gladly.

Who denies that we have grown a bit careless—shall we say slovenly—from a civic beauty standpoint here in Wichita Falls. And who would deny, either, that with a city that is doubling and trebling its population all most overnight and had all it could do to furnish the sudden influx of people the necessities of life, that we have not had some fair to good reasons in condonation?

Wichita county women who believe they are entitled to the franchise ought to begin a campaign for the payment of poll taxes by women who want to vote in the primaries next year.

The council's action in giving space to the Young Women's Christian Association for the erection of the new Y. W. C. A. home in Bellevue Park will receive the general approbation of the town, we are sure, because the town generally appreciates the need for the Y. W. C. A. home and also the work the Y. W. C. A. has been doing and is doing here in Wichita Falls.

PLAN UPRISING IN GERMANY IS RECENT REPORT

Would Depose Present Government and Establish One Modeled on Russian Plan

ESSEN, GERMANY, Oct. 15.—Investigators for the Deutsche Allgemeine Zeitung of Berlin claim to have discovered plans for a Communist uprising to depose the present German Government and to establish a new one modeled on the Russian plan which would be associated with the present Russian Soviet system. The investigators assert that the proposed revolution is to be assisted and offered by Russian Bolsheviks and that the outbreak is to have its beginning in the Ruhr coal district. The responsible newspaper publishes a warning so energetic that it is accepted well-informed quarters as of more importance than the many rumors in circulation.

Munich, Brunswick and other cities are claimed to be sub-centers for the movement. According to the paper Spartacists and Communists will be armed throughout Germany. The Communists are said to count on "seizure" by whole groups of the national defense army and on taking them into their "red army." General fighting headquarters, it is asserted, will be established in Brunswick, already a Spartacist and Communist center, and a council government is to be proclaimed.

People Are Restless.

The Allgemeine Zeitung's investigators began their work several months ago, when the Spartacist unrest in the Ruhr district threatened the coal supply, and even menaced the government. Government troops were sent to quell the disturbance, but the Spartacists are only a surface quiet, and the entire district is restive under martial law and that an outbreak is planned for the coming winter, when the workers will strike again in an attempt to do their part toward crippling the government.

"Two months ago," says the Allgemeine Zeitung, "there was held in a large hall in Essen a Communist meeting attended by men from all parts of the Ruhr district, at which a Bolshevik agitator from Berlin announced the German Communists were only awaiting the signal to break loose. The signal, he said, was to be given simultaneously by Russian and German Bolsheviks."

Bolsheviks to Lead.

The newspaper says it is able to declare that at this Communist meeting it was decided to give Russian Bolsheviks the leadership of the new Communist undertaking in Germany. "The meeting worked out details for the uprising," the newspaper says. "Among them were disarmament of the defense troops, establishment of a central office in Leipzig and a general strike in all industrial centers of the country."

"After the industries have been shut down and troops are concentrated at certain industrial points," the paper adds, "a general night attack is to be made on the government troops in the cities. German and Russian Communist leaders will be on hand to head the attack. If the plan succeeds, central fighting headquarters will be established in Brunswick, which will immediately invoke revolutionary bannals and proclaim the co-operation of the German Soviet Government with the Russian Soviet Government."

PEACE TREATY IS LEADING ISSUE IN OKLAHOMA FIGHT

OKLAHOMA CITY, OKLA., Nov. 4.—The peace treaty is the direct issue in the fight for the congressional vacancy in the fifth district. Claude Weaver, Democrat, has placed his chances of victory on President Wilson, the League of Nations covenant and the policies of the Democratic party. He is opposed by Judge J. W. Barrett.

Both factions have carried out a terrific campaign, the result of which will be known Saturday when the voters of the district go to the polls. Democrats have made a special effort to get the women out while it is stated that Republicans have listed practically every negro vote.

ROB POSTOFFICE AT GRANDFIELD OF REGISTERED MAIL

Special to The Times. GRANDFIELD, OKLA., Nov. 6.—The local postoffice was entered some time last night through the package window and registered packages containing valuable jewelry were taken, together with several parcels.

MRS. COX IS DELAYED IN RETURN FLIGHT

HOUSTON, TEX., Nov. 6.—On the return portion of an aerial journey to New York, Mrs. S. E. J. Cox's Curtiss Oriole made a forced landing in a Mississippi swamp, due to a severe storm. The machine will require considerable repairs. Another plane was sent from Houston, and Mrs. Cox is expected to arrive, completing an air trip of several thousand miles.

GERMAN-ARGENTINIAN SOCIETY IS ORGANIZED

BERLIN, Nov. 6.—(Via London).—The German-Argentinian economic society has been organized here, it is announced, with the object of developing the industrial activity of Argentina.

SEEK FOUR PERSONS IN CONNECTION WITH THE SHEETS MURDER

LOS ANGELES, CALIF., Nov. 6.—Four persons were sought by the police today in connection with the murder yesterday of W. F. Sheets, who had just arrived from San Antonio, Texas. Mrs. Josephine Sheets, from whom Sheets was said to have been estranged, and a young soldier friend of the Sheets family, are sought in the belief that they might shed some light on the identity of the two murderers, who still are being trailed.

While it was at first considered certain that robbery was not the motive of the murder, detectives today learned that \$300 was missing from Sheets' person, although it is not certain that he did not spend it yesterday morning prior to his death.

GRAY HAIR TELLS TALES. TINT IT!

TRIAL PACKAGE SENT FREE

Gray hair is a tattletale. Don't send it until you really feel old. If at forty you still feel young then take the trouble to look young. For so look and feel young is to be young. It is just as easy to keep your hair young and beautiful as to stain your youthful interest in life and people. Tint the gray, faded, streaked strands with "Brownatone," as thousands of women have done.

"Recommended by My Best Friend"

This wonderful preparation does not rub or wash off. If you want a delightful surprise, just brush or comb a little "Brownatone" through your gray, streaked, or bleached hair, and see it change like magic to golden, soft or deep rich brown, or black—any shade desired—the exact color to set off your complexion.

Absolutely Harmless.

"Brownatone" is odorless, greaseless, and positively non-injurious. Guaranteed to contain no lead, sulphur, silver, mercury, zinc, aniline, or coal tar products. Used for switches as well as growing hair.

WOULD PREVENT PRESIDENT FROM REMOVING BAN

Congressman Wants Law to Extend War-Time Prohibition For Six Months

WASHINGTON, Nov. 6.—Prohibitionists in congress today moved to prevent President Wilson from raising the wartime liquor ban.

Believing that Wilson intends to end war prohibition as soon as the peace treaty is ratified, the aggressive dry element in the House, led by Representative Randall, California, laid its plans to checkmate him, it was learned.

Without waiting for the President to act, the drys will ask that the wartime prohibition law be extended six months after the proclamation of peace. This would make war prohibition overlap constitutional prohibition.

Randall today declared his intention of seeking the extension through an amendment to the bill to extend for six months the Lever food and fuel control act, as requested by Attorney General Palmer.

The unrest throughout the country has caused many members to question the advisability of lifting the war ban. More serious disorders would result if saloons were re-opened, they think.

Should congress fail to extend the war-time ban, Randall said he plans to ask the ways and means committee to recommend a prohibitive tax on sale of liquor during the wet period. The present tax on bonded spirits of \$6.40 a gallon means more than \$400,000,000 for the government if the ban is lifted.

TRANS-ATLANTIC FLYER STARTS NON-STOP FLIGHT

MEMPHIS, TENN., Nov. 5.—The new trans-Atlantic flyer, NC-4, left here at 7:15 o'clock this morning on what was planned to be a non-stop flight to Cincinnati, a distance of approximately 700 miles.

The NC-4, commanded by Commander A. C. Read, who piloted the giant airplane on its memorable flight across the ocean, arrived here late Tuesday from Pensacola, making that "hop" a distance of 525 miles, in nine hours and thirty-three minutes. On its return "hop" from Cincinnati the NC-4 will make a number of stops to aid in naval recruiting campaigns and is scheduled to reach Memphis again on November 26.

RATE OF DISCOUNT HAS BEEN RAISED

LONDON, Nov. 6.—The rate of discount of the Bank of England was raised from 5 to 6 per cent today.

ARE TO ARGUE THE CONSTITUTIONALITY PROHIBITION LAW

LOUISVILLE, KY., Nov. 6.—Judge Walter Evans, of the federal district court here on November 12 will hear arguments on a suit to test the wartime prohibition act and the Volstead enforcement law. He set this date following filing of the suit late yesterday by Attorneys William M. Bullitt, Louisville, and Lev Mayer, Chicago, on behalf of Wright and Taylor and the Brown and Forman distilling companies of Louisville.

The defendants are United States District Attorney W. V. Gregor, and Ellwood Hamilton, collector of internal revenue for Kentucky.

The petition, which seeks to prevent interference with sale of nearly a million gallons of tax paid whiskey owned by both companies, charges that title to one of the enforcement measures, relating to the duties of the revenue department to prevent the manufacture and sale of whiskey, is unconstitutional in that congress violates the 10th amendment by exercising general police power over a subject matter not within its jurisdiction.

The petition also asks that the wartime prohibition act violate the fifth amendment which provides that the government shall not take private property without just compensation.

FRENCH PAPER DESCRIBES CLEMENCEAU INCIDENT

PARIS, Nov. 6. (Havas).—An incident which took place between Premier Clemenceau and Albert P. Le Brun, minister of blockade and invaded regions, on the trip to Strasbourg, is described by the Matin.

According to the newspaper, M. Clemenceau referred to the fact that M. Le Brun, who is a candidate for election as deputy from Meurthe and Moselle, had with him on the same ticket for election Deputy Louis Marin, who voted against the peace treaty in the chamber. The premier is said to have told Le Brun:

"It is absolutely impossible for the name of a member of the government to be on the same list with a deputy who voted against the treaty. It is necessary that Marin be taken from the list or that you hand me your resignation."

MEMPHIS IS ELECTING MUNICIPAL OFFICERS

MEMPHIS, TENN., Nov. 5.—Memphis voters today were electing municipal officers for a four-year term.

With women given an opportunity to participate in a local election for the first time since suffrage was granted, the state legislature, taking an active part both as election officials and voters.

Rowlett Paize, who served as food administrator for this city during the war, and J. J. Williams, a former mayor and identified with local political affairs for more than 25 years, are opponent candidates for the office of mayor.

CONGRESS NOT TO ATTEMPT A NEW PROGRAM

Prepares to Adjourn Without Enacting Any Big Reconstruction Measures

By RAYMOND CLAPPER (United Press Staff Correspondent.) WASHINGTON, Nov. 8.—Congress is preparing to adjourn without enacting any big reconstruction measures. It has been definitely decided by Senate leaders that no more domestic legislation of importance can be put through at this session. They hope to finish the peace treaty next week and go home for a fortnight's vacation before the regular session opens Dec. 1.

This will leave undoesed of the big reconstruction measures providing for the peace time military policy, reorganization of the railroads and the tariff.

House leaders are still fighting for action on the railroad bills but the decision of the Senate Interstate Commerce Committee to abandon the Cummins bill until next session dashes that hope.

Representative Mondell, House majority leader, and others are known to be displeased at the Senate's failure to co-operate in passing domestic legislation.

They are also known to have spoken sharp words on several occasions over this situation. When it became known that the Senate would not attempt to pass permanent railroad legislation at this session Mondell made a hurried trip over to the Senate and talked to Chairman Cummins but the situation has not been improved as a result, it is said.

The army program is in a similar situation. Bills have been introduced, hearings held, but no bill can be "put through until probably after the Christmas holidays.

Tariff legislation has struck a snag. The House has passed several bills to

OKLAHOMA CONVICTS VOLUNTEER TO WORK IN THE COAL MINES

M'ALESTER, OKLA., Nov. 6.—Convicts in the state penitentiary here have volunteered to work in the state coal mine. Officials are planning to start operating Friday morning. It is estimated that the output will be 300 tons a day from the strip pits which are located within six miles of the institution.

Troops will be moved to the pit this morning. The convict camp will be established this afternoon. It is stated that convicts have been found to operate the steam shovels and to do other work requiring specialists.

They have bumped up against the stone wall of the Senate, however. Senator Smoot offered as a substitute for these bills an "anti-dumping" measure to keep out European goods offered below cost but Senator Penrose, whose word is close to law in tariff matters, has determined against legislation until the economic situation is more settled.

BUBONIC PLAGUE IS IN NEW ORLEANS; THREE ARE DEAD

AUSTIN, TEX., Nov. 6.—Texas health officers on the Louisiana border and along the coast have been notified by the state health officer that the bubonic plague has appeared in New Orleans and they are urged to maintain strict surveillance to prevent its entry into Texas. The state health officer is also urging the extermination of rats along the border and the coast.

NEW ORLEANS, Nov. 6.—With four cases of bubonic plague, three of which were fatal, reported here within a week and one suspected, the board of commissioners of the port after conferences here tonight with Dr. M. S. Lombard, United States quarantine officer and representative of the United States public health service, authorized the tearing up of planking at two wharves and rat proofing the sheds.

The supposed rat-infested areas are Poydras and Bienville docks. Dr. Lombard told the board he could not give vessels moored at those docks a clean bill of health for sailing unless energetic measures were taken to exterminate the rats from which the disease is carried.

DRUG STORE EMPLOYEES IN NEW YORK STRIKE

NEW YORK, Nov. 6.—Union drug store employees, from registered pharmacists to soda clerks and porters, struck in Greater New York today to enforce demands for higher wages and shorter hours. The strikers are enrolled in the United Drug Clerks' local, which claims a membership of 4,000. No figures were made public early today as to the number who obeyed the strike call.

There are 3,500 drug stores in the city employing 7,000 persons.

The Real Answer to the Breakfast Problem BRER RABBIT Syrup

IT is delicious poured over griddle cakes, waffles, French toast—or just plain bread, fried hominy or boiled rice.

You won't wonder that BRER RABBIT is so good when you know that it's real, Country Made, Ribbon-Cane Syrup, right from the country.

It is the one real way to get up a delicious breakfast for the *smallest possible cost.*

When the children come home from school about three-thirty and hang around the kitchen, give them a slice of bread covered with BRER RABBIT. It's absolutely pure and wholesome.

Housewives everywhere know that the name "PENICK & FORD" on a food means Always the Best of its Kind, 22 years of quality.

WILL REQUIRE ALL PIPE LINES TO RUN OIL TO FULL CAPACITY; BAN ON SMALL DRILLING SITES

Orders regulating all pipe lines and forcing them to run oil to capacity at demand, restricting drilling operations so that there can never again be in Texas the mad townsite drilling rampage that characterized Burk Burnett in the heyday of his boom, and enacting precautionary measures so as to minimize fire hazards—all of these measures, so important to the oil industry, will result from the hearing conducted here Wednesday by the Texas Railroad Commission.

It may even come to pass that Governor Hobby will be urged to convene the legislature in special session to enact a common pipe line law, although this matter yet is in too indefinite, crude state to be considered as tangible.

Outstanding salient features brought definitely to the front during the two sessions Commissioners Mayfield and Gilmore, and Major G. C. Luttrell, chief supervisor of the oil and gas department of the commission, conducted here are:

The pipe lines will be formally declared to be common carriers and will be regulated and supervised as such. In the event they do not comply with the law, penalty suits will be initiated at the instigation of the commission and they will be forced through the courts to pay damages.

Drilling to be restricted.

An order will be entered by the commission at Austin Monday prohibiting drilling operations within 200 feet of a drilling or completed producing well and within 100 feet of a property line. There are certain exceptions cited in the order whereby the commission may grant special permits to drill.

After T. L. Coplin, assistant supervisor of the oil and gas department, has made an inspection and investigation of the oil lease in the northwest field that is best protected from fire danger, the commission will use that lease as a model or criterion by which to draft rules governing fire hazards.

At the night session of Wednesday, Commissioner Mayfield explained that he and the others of the party had been driven hurriedly over parts of the field by T. F. Adams, but had no opportunity to make a study of it. He asked C. H. Clark if there was much waste in this field and if that feature required the attention of the commission, too. Mr. Clark assured him that the waste in the field here was nominal and that no complaint had been or would be filed because of waste.

Vigorous complaints have reached the commission, said Mayfield, from numerous operators, who claimed they had been discriminated against by the pipe lines. They claimed their wells were producing 17,000 barrels of oil a day and they should have had pipe line runs of 3,000 to 4,000 barrels, he said, and they told the commission their pipe line runs were nearer 1,000 barrels a month. Their complaints had been backed up by affidavits, said Mayfield.

Says Nearer 1700 Barrels.

W. M. Priddy told the commission that the producers making complaints had production of nearer 1,000 barrels than 17,000 barrels, and this developed a discussion during which it was brought out that there are approximately 500 wells in the northwest field with a production of 250,000 barrels, but this production figure later was reduced in estimate to from 150,000 to 250,000 barrels.

Commissioner Gilmore requested that data tending to show the number of wells connected with pipe lines and the number not so connected be furnished the commission. In reply to a question from Mr. Clark, Commissioner Gilmore said he knew of no way to procure the field.

Mr. Priddy thought it was discriminations on the part of the pipe lines and not delay incident to moving oil that was proving injurious. He declared that individual injunction suits against the pipe line companies, such as the commission had suggested at the day hearing Wednesday, he volunteered, in behalf of the Wichita Producers and Refiners Association, to supply additional help for Mr. Coplin.

Waste in Fire Loss.

"We spoke of waste awhile ago," said Mr. Priddy. "There has been a waste of \$50,000 in fire losses alone in the fields here through violation of the commission's orders relative to fire production."

A statement was made by Commissioner Mayfield to the effect that the

commission held the opinion that the short pipe lines were common carriers as well as are the larger carriers. He said the commission had only the law to go by; that it had not been vigorous in its enforcement of the law heretofore, because it is a new law and the commission had no desire to injure any company.

However, he said, the time now has come when the commission can no longer be lenient. If these pipe lines are common carriers now, they have been common carriers ever since the law went into effect.

Prosecutions to Be Made.

"We are going after them," said he. "We are going to ask the attorney general and the district attorneys and county attorneys to bring suits for penalties for violations of the law and of the commission's orders. We had hoped that these smaller companies would voluntarily come under our jurisdiction, but it seems that some of them will not do so without suits."

Priddy presented a hypothetical case which he said would apply to the plans some of the pipe line companies are making. He said they planned to take a small amount of oil, less than a carload, and then claim they are unable to handle more, eventually forcing the producer to sell to them to get his oil moved at all. He asked if the companies could do this.

Major Butte read portions of a commission order relative to storage, showing that it was up to the pipe line companies to supply storage and take the oil as it is produced.

Mr. Gilmore explained that 500 barrels of oil was the minimum legal tender and that the pipe line companies had to give the loading racks and equipment to put the oil on the cars. Pipe line companies will be violating the law when they take, for instance, 100 barrels of oil when tendered 500 barrels.

However, the producers must supply cars and find his own market.

Major Butte explained that one of the best important orders the commission will issue will be relative to fire and he asked for recommendations from those present.

T. F. Adams suggested a rule against swabbing in an open pit and a long discussion relative to fire preventing measures followed, during which Mr. Gilmore brought out that there has never been an organized arrangement perfected in the oil fields for fighting fires. Everybody just volunteers, and Clint Wood explained how, in some instances, boilers have been set around the fire and steam turned on to snuff it out.

Mr. Wood also asked the commission to make a test of the field. He asked that each lease be gauged as to production, so if the production of the field becomes necessary its capacity shall have already been ascertained.

Mr. Gilmore asked how it could be tested, and Wood replied that it could be shut down and two or three cases run at a time as they were tested, but J. A. Germany contended that the commission had no authority to make a test, and Gilmore said the testing of this kind would almost be a physical impossibility.

Mr. Gilmore said one of the chief troubles facing the commission is the separation of the questions of sale and transportation. Railroads and pipe lines differ as common carriers in that the roads purchase none of the commodities they transport, while pipe lines purchase much of what they transport.

Mr. Clark declared that the law

making pipe lines common carriers is not worth the proverbial snap of the fingers if it forces the producer to find his own market.

Mr. Wood thought the common purchase law, such as Oklahoma has, would solve the pipe line transportation question and he suggested that the governor convene the legislature to enact such a law.

Mr. Gilmore explained that with the pipe lines serving as common carriers, whereby they must transport oil or suffer the consequences, the smaller producer is on an equal footing with the larger company if he finds a market for his product. It is up to the pipe line companies to handle the oil if it is tendered to them, and even to furnish tankage.

Has Jurisdiction.

It developed that the Texas commission has jurisdiction over pipe lines operating outside the state where the lines originate in this state.

Mr. Mayfield explained that he and the commission had made a close study of the pipe line law and that it is merely a question of transportation, so that independent producer can have his oil transported. "When you leave the question of transportation, you are up in the air," he said.

Mr. Germany explained that every producer had recourse to the courts if the pipe lines failed to furnish transportation for oil. There is a way to make the little pipe lines take the oil, said he, and that way, through the courts, should be resorted to.

The hearing last night was wholly informal. It was the last the commission conducted here. Today the party visited the oil fields and went to the Kemp-Munger-Allen well.

While no orders were issued and no definite or tangible action taken here, it is expected that a great deal of good will result from the visit here of the commissioners.

TO CONSIDER OFFSET REGULATIONS MONDAY

RAILROAD COMMISSION TO HOLD HEARING ON RULES TO ELIMINATE DRILLING SITE.

Offset regulations, such as leading operators in the Wichita Falls district have been advocating since last year when the Bureau of Reclamation drilling activity commenced, are covered in a new rule which the railroad commission has set for hearing November 10.

Legitimate and ethical producers in the district have always observed offset distances up to the time of the townsite boom but at this time drilling sites and town lot propositions made it practically impossible to observe any offset distances and after the Wagoner pool was opened up the same conditions obtained, and in some blocks the derricks are so close together as to prohibit any offset being granted on property.

The rule, projected to govern offsets, which will be considered by the commission next Monday, follows: "No well for oil or gas shall hereafter be commenced nearer than 200 feet to any drilling or completed producing well on same or any other adjoining tract or farm, and no well shall be drilled near than 100 feet to any property line. Provided, that the commission, upon petition filed showing that adequate provision can and will be made against danger of fire and of injury to life or property, and provided that the offset will be done after hearing had, allow drilling within shorter distance than as above prescribed."

Chief Supervisor George C. Butte of

the oil and gas department of the Railroad Commission, in announcing the hearing, gave out the following statement:

"The oil and gas department of the Railroad Commission has been studying the question of overproduction in certain oil fields in Texas. It regards overproduction as a form of wholesale waste. The fire hazard is enormously increased when derricks are so close together as almost to touch. Enormous waste and well necessarily is resulting. In the Eastern fields there is a fixed custom that wells shall be drilled not nearer than 200 feet from any well. The same rule was early adopted by the Federal Government in Oklahoma, and is written in as a term and condition of every Government lease. As a result of this rule is reduced to a minimum and the production is held down and the oil resources of the State are husbanded for the future, while giving as reasonable opportunity for profits as in the present.

"In Texas, on the contrary, there has been no regulation or restriction. Wildcat companies that have no more acreage than a drilling site of 40x90 feet of proven territory have sprung up everywhere and flooded the newspapers with advertisements of stock offerings. These companies are constantly taking place and each operator is trying to save his property from drainage against scalpers, who drill wells immediately up to his property lines.

"It is, of course, beyond the power of the Railroad Commission to undo what has been done and to require derricks to be scrapped and wells to be plugged, whose owners have not shown proper desire to conserve and husband the wealth of the State.

"In pursuance of the provisions of chapter 125 of the Acts of the Thirty-Sixth Legislature, being an act to conserve the oil and gas resources of the State of Texas, and moved by a desire to prevent the recurrence in the future of the deplorable conditions existing in some of our congested oil fields and to prevent wholesale waste, the Railroad Commission has set a date for hearing on November 10, 1919, a new rule to be known as rule 37.

"This rule shall take effect thirty days after the date of this order. It is the opinion of the chief supervisor of the oil and gas department that this is the most important and the most effective rule that the Railroad Commission could possibly adopt to conserve the oil and gas resources of Texas, not only for the present, but what is more important, for future generations."

Most Human Ills Traced by Science To Common Cause

Science has discovered that most of the many ills that afflict humanity are traceable to a disordered condition of the stomach and intestines. Keep these organs healthy and active and you will remain strong, sturdy and well, as nature intended you should be.

"Then if you are a victim of stomach trouble, or any of the numerous disagreeable symptoms resulting from it, the experience of others in your own city or community who have benefited from the use of Orgatone Treatment should appeal very forcibly to you.

Among the many strong endorsements recently received is the following from J. E. Stogall, a well known building superintendent for the L. B. Woods Home Builders and residing at 112 N. Ogden, Tulsa, Oklahoma, who says:

"I am feeling much better in every way than I have in months, and it's all because of what Orgatone has done for me. Before I began taking it I could eat anything hard but what my stomach would fill up with gas and cause me all kinds of misery. My appetite was so poor I seldom wanted anything to eat, and I had severe attacks of heartburn and distress. I was constipated and losing weight right along. And in fact, I was a long way from being a well man, and while I tried different kinds of medicines nothing seemed to help me.

"I kept reading and hearing so much about Orgatone Treatment that I decided to try it, and I can see now I made a mistake in not getting it before. My appetite picked up at night and I began to rest better at night. Orgatone and improving right along until now I can eat anything and am healthy. My appetite picked up and I began to rest better at night. Orgatone and improving right along until now I can eat anything and am healthy. My appetite picked up and I began to rest better at night.

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the T. F. Young Drug Co. exclusively under the personal direction of a special Orgatone representative. (adv.)

RYAN PETROLEUM IS DRILLING DEEP TEST IN THE KEMP FIELD

The Ryan Petroleum Corporation, which entered the Wichita Falls district as a big operator with the purchase of the Burk-Wagoner property, is now reported below 700 feet in their deep test in the Kemp-Munger field, between the Kemp-Munger and Allen wells and the Cuberson pool, south of Electra.

The well is on the Nacon tract, in the Fowler Survey, and is about two miles northwest of the Kemp-Munger-Allen well.

HOUSTON REPORT ON GULF COAST WEATHER

HOUSTON, TEX., Nov. 6.—Winds on the Texas coast: Light to moderate variable, becoming northerly Friday.

Weather conditions and highway bulletin: Cloudy and warm weather was reported from the interior of Texas with dense morning fog from southern localities; but there was no rain. The highway from Dallas to Marlin is now passable, but at Navasota and at Bellville continues impassable. Elsewhere the roads are mostly dry and passable.

OVER-STOCKED ON DRESSES SATURDAY AND MONDAY

TEN DEEP TESTS ARE IN PROGRESS NEAR K. M. A. WELL

Ten deep tests are in progress about 1 1/2 miles northwest of the Kemp-Munger-Allen. The Anaconda Petroleum, Ryan Petroleum, Sun Company represent the larger operators whose activities will probably open this tremendous territory extending to the northwest as far as Electra.

William J. Peterman, geologist for the Anaconda, advises that his company has plans for the thorough development of their properties in this section and that contracts would be let for additional wells, drilling to commence as soon as the equipment could be obtained from the north.

Mr. Peterman has made extensive examinations all over the United States and Mexico and considers his company's property in the Burk-Wagoner section and that contracts would be let for additional wells, drilling to commence as soon as the equipment could be obtained from the north.

Mr. Peterman has made extensive examinations all over the United States and Mexico and considers his company's property in the Burk-Wagoner section and that contracts would be let for additional wells, drilling to commence as soon as the equipment could be obtained from the north.

OIL RUNS MAINTAIN AVERAGE OF ABOUT 90,000 BBLs. DAILY

Oil runs from the Wichita wells district for the past week show little change over the past several weeks, bad weather, and the glutting of storage, by inability of railroads to move out tank cars, and the production, as estimated by the average runs, is still around 90,000 barrels daily. The district figures are practically unchanged from the past two weeks, and are as follows:

Electra 10,000 barrels
Burkburnett 75,000 barrels
Iowa Park 600 barrels
Petrolia 600 barrels
Holiday 100 barrels

Introducing to you a new collar BARRACKS designed for comfort and style.

AN B

STEPHENS COUNTY IS MAKING PREPARATIONS FOR FULL SIZE BOOM

JAKEHAMON, TEX., Nov. 6.—Oil operators who have interests in Stephens county and others who figure on the development that is to come to Stephens county with the building of the Wichita Falls, Ranger and Fort Worth railroad through that county and the two other railroads that are projected and on which work has begun into that county are preparing for a big boom in Stephens county and in the old and new towns there. The Wichita Falls, Ranger and Fort Worth railroad will reach Breckenridge extending from Dublin in Comanche county early in the spring. It will afford an outlet for the oil fields of Stephens county via the Frisco and Katy railroads at Dublin and will probably see through train service between Fort Worth and all points on the Wichita Falls, Ranger and Fort Worth railroad. Breckenridge is on a big boom now in anticipation of the new transportation line and there is intense interest in the new town of Frankell that is to be opened December 1 on this line by Hamon & Kell. Frankell is 12 miles north of Ranger in the western edge of the Caddo pool and it is the center of much drilling. Another town on this same line of railroad will be located between Frankell and Breckenridge. In addition to these towns there are one or two inland towns in the edge of Stephens county toward Cisco that are promising to become important villages with the building of other lines of railroad that are projected that way. Stephens county that has never had enough railroad mileage worthy of mention in the forty years since it was created is now about to get adequate railroad facilities for the original farming and live stock business and for the new extensive oil production.

LOCATION OF ROAD BETWEEN JAKEHAMON AND DUBLIN MADE

JAKEHAMON, TEX., Nov. 6.—Location of the line of the Wichita Falls, Ranger and Fort Worth railroad between Jakehamon and Dublin has been completed. This end of the line was the last to be located and the work of cross sectioning and setting grade stakes is now under way preparatory to beginning construction on the south end of the line. The grading between Jakehamon and Ranger is eighty per cent complete and between Ranger and Frankell, twelve miles north of Ranger the grading is about twenty-five per cent complete. Laying of steel in the yards at Ranger has begun both on the south and north side of the Texas & Pacific tracks and steel is arriving at Ranger in a constant recurrence of carloads that promise adequate material for speedy construction of the road both north and south from that city. It is expected by the contractors that the road will be in operation between Ranger and Jakehamon and between Ranger and Frankell by the middle of December. Soon after that date it is likely that a connection will be made with the Katy and Frisco systems at Dublin thus accomplishing the major purpose of the promoters by relieving freight and passenger congestion in the oil fields of Eastland, Comanche and Stephens counties by opening new outlets for their business.

MINERAL WELLS COMPANY MAKES FURTHER PLANS TO INCREASE ITS FACILITIES

MINERAL WELLS, TEX., Nov. 6.—At a meeting of the officers and board of directors of the Mineral Wells Refinery Products Company today, the name was changed to the Bull Dog Refining Company. The new name is the result of the increased plans of the company which include the laying of a pipe line from Caddo to Mineral Wells and the building of a refinery at Caddo. The capitalization of the new company will remain for the present at \$500,000 and the officers and directors will continue their connections. The original plans of the Mineral Wells Refinery Products Company were to build a refinery here and either tap one of the nearby pipe lines or utilize tank cars to secure crude oil. Financiers of Caddo became interested and agreed to take a large block of stock with the provision that an additional refinery be built there and a common carrier pipe line laid from Caddo to Mineral Wells. That provision has been agreed upon and the name of the company changed. J. A. Kemp has gone to Austin to attend an adjourned session of the Board of Regents of the University of Texas.

SIX CONGRESSIONAL ELECTIONS EXPECTED TO GIVE SENTIMENT

WASHINGTON, Nov. 6.—Six congressional elections are scheduled for the next few weeks. They will be closely watched in Washington as even more indicative of the trend of public sentiment than the state elections of last Tuesday. Three elections are necessary because of election of congressmen in other offices Tuesday. Representative J. Hampton Moore became mayor of Philadelphia; Representative La Guardia, president of the board of aldermen of New York City and Representative Reuben L. Haskell was elected to a judgeship in Brooklyn. The first congressional contest occurs in Oklahoma tomorrow where Claude Weaver, Democrat, and J. W. Harrold, Republican, are contending for the seat made vacant by the death of Representative Thompson of the Fifth district. Another vacancy is made by the

for tonight. "No member of the camp who takes into consideration the welfare of the camp or his own personal interests will let anything prevent his attending the meeting tonight," the cook, clerk, stated in announcing the meeting.

CHICAGOANS WILL STOP FOR ONE MINUTE AND FACE TOWARD THE EAST

CHICAGO, Nov. 6.—In the celebration of Armistice Day, November 11, all Chicagoans at 11 o'clock will stop for one minute and face toward the east, according to plans announced for the celebration today. Professional, surgical and dress coatiers.—L. Oleta Walker. Phone 2120. 1201 Lamar. 159-71p

TO IMPORT COTTON PICKERS FROM THE NEWCASTLE PINES

After several weeks of vain attempts to find cotton pickers for his fields, J. L. Jackson has decided to try to import men from the Newcastle region where the coal strike has thrown hundreds out of employment. It was announced at the Chamber of Commerce. Mr. Jackson listed his wants with the Chamber of Commerce and it was from that source that the suggestion to take advantage of the idleness of the miners came. Three dollars a hundred is the price offered by Mr. Jackson for pickers. TURKEYS! TURKEYS! TURKEYS! Turkey time is here. We have them as well as other kinds of poultry, alive or dressed. One or a carload, also cracked fresh eggs at 35 cents per dozen. White Produce Co., 102 Pecan street, phone 570; no deliver ex. 195-51p

"The Courteous Service Store"

Announcing the Re-creation of ANHEUSER-BUSCH'S FAMOUS Budweiser

It is the fixed policy of Anheuser-Busch to comply with every provision of public laws and regulations. That policy will be adhered to in the future as in the past. In view of the Act of Congress, effective October 29, 1919, we feel that our many friends and customers have the right to know how the Anheuser-Busch industrial plants will be utilized.

Our greater development plans include, among other new products, an additional cereal beverage to which we shall apply our well-known trade-name Budweiser. This beverage will be manufactured, in every detail, according to our original Budweiser process, and de-alcoholized to conform to Federal law. It will possess the genuine Budweiser flavor and quality.

Budweiser, re-created, will be manufactured from the choicest, most wholesome and nutritious cereals—and hops, noted for their tonic effects. It will be fully and maturely lagered, put up in sterilized, hermetically sealed, 12-ounce brown bottles, and pasteurized to insure its permanent purity and quality.

We guarantee that this Budweiser is bacteria free, will keep in any climate, and is healthful and nutritious.

We shall be ready to begin shipments by January 1, 1920.

Budweiser is manufactured and bottled exclusively at the plant of

RAILROAD INVENTION IS SHOWN IN MOVIES

PICTURES OF INVENTION WHICH IS CLAIMED WILL REVOLUTIONIZE RAILWAYS.

An invention with which he expects to revolutionize the railroad industry of the country, and whose practical employment he is endeavoring to bring about through the promotion of a railroad line from Oklahoma City to Galveston, via this place, is being demonstrated in motion pictures at the Empress theater Thursday and Friday by H. W. Brown, of Los Angeles, the inventor of the system, which he calls the "Brown Railway System."

The track on which the new road runs is a startling departure. It is a single two-point contact steel rail, elevated above the ground, on which the rolling stock is supported by a single flat wheel without flanges.

"What holds it on the track, and on an even keel?" the inventor replied, in answer to a query. "Why its own weight, and the 11 inch surface of the tandem wheels. This is made possible through the construction of the cars, which bring the center of gravity nearly down to the track surface."

"No, it does not call for an application of the gyroscope balance system. The only thing that it has that aids this in any way is some counter balanced spring bearings to come in contact with the side surface of the rails, to keep the truck clear of the running structure."

"You ask if the wheel surface used on this railroad is sufficient why the standard gauge railroad? There is no reason for it. The wheels of the Greek and Roman chariots were set about that distance apart, and it has never been changed."

"The wide surface used in the ordinary railroad is so far apart that it requires that the center of gravity of railroad rolling stock should be high above the track, requiring extremely heavy construction of this equipment. For this reason by far the largest part of the ordinary railroad train is deadweight in equipment, and the biggest part of the cost of transportation by this method is the cost of hauling this deadweight around. This is all changed in the Brown Railway System. The weight of the rolling stock is the smallest part of the weight of a train and the traffic charges go into the cost of hauling freight, and passengers and no deadweight."

"In addition to this, the rolling stock is built of 12-foot independent sections, hooked up to form one car of as many sections as needed. For instance a single train might consist of a single car of 100 sections, all hooked together to form one single car. Each section has its own elec-

OIL COMPANY THE DEFENDANT IN SUIT ASKING \$200,000

Specific performance of contract or damages in the sum of \$200,000 is asked by E. H. Breedlove in a petition filed today in the 30th district court against the Seaboard Oil and Gas Co. Plaintiff alleges that he sold five acres of land in block 88 of the Red River Valley lands to defendants for \$300,000 and other contracted considerations, with a cash payment of \$100,000 and promissory notes to cover the balance. The petition further alleges that defendants handed plaintiff a check covering the cash payment according to contract, but entered a protest and stopped payment before the check could be cashed. Since that time, plaintiff alleges, no payments have been made in spite of the fact that plaintiff has been ready to live up to the letter of his contract. Therefore plaintiff asks for an order for specific performance of contract, or for damages totaling \$200,000.

CITY TO COLLECT THE GARBAGE FROM HOMES

Collection of trash and garbage in the residence district by the city wagons will probably begin the first of next week, Dr. J. F. Reid, chairman of the city board of health said this morning. The work will involve a charge of about fifteen cents for the average trash and garbage at each home, for the present. Later, it is hoped that the new charter will call for a special tax for handling the clean-up work of the city. Residence trash and garbage is at present being disposed of by trash haulers, acting individually and independent of the city administration. More regular and reliable at a smaller expense is hoped to result from the use of the city wagons. Hall, the oldest professional aviator in America is carrying passengers from Hangar Six at Call field, every afternoon. 157-51p

REGRETS
For thirty years we have served the consuming public of Wichita Falls and surrounding territory in the handling of food products at retail. Twenty-five in the grocery business and the past five in coffee, tea and kindred lines. It is now with the utmost regret we announce that after this week we will distribute our products through the Grocer. We take this step that we may serve you better as our business has increased to such an extent that it is no longer practicable to handle it direct to the consumer. We feel that we have the co-operation of all the Grocers of the City and will supply them each day with goods FRESH FROM THE ROASTER in such quantities as their trade requires. If YOUR GROCER does not handle our brands we will take it as a favor if you will let us know, so we can take the matter up with him and see your wants are supplied. We take this opportunity to thank you all for the loyal support all these years. It is this support that has made it possible for us to build in Wichita Falls, the most modern coffee roasting plant in the entire Southwest. And next week we will be located in our new plant at the corner of Ohio and Sixth, where we extend to you a cordial invitation to call and look us over. "WHO CAN BEAT IT?"

CITY POLICE RECOVER SIX STOLEN CARS IN TWO DAYS

The local police department has been making automobile cases its specialty for the last two days and Assistant Police Commissioner Good-fellow is proud of the showing the "boys" have made in recovering a total of six stolen automobiles. Five men who gave their names as R. M. Davidson, L. A. Davidson, Alexander Uita, Elmer Pasam and W. A. de Loach were arrested by the officers in connection with the discovery of a Ford containing some alleged stolen oil well supplies Wednesday night. Of the six automobiles recovered two were Ford touring cars, two Overland five-passenger cars, one Buick roadster and one seven-passenger Hudson Super-six.

The men arrested in connection with the recovery of these cars are believed to belong to a gang of thieves who have been terrorizing this section of the state for the past few months.
