QUET PREVAILS AT MOBERLY, MO. AFTER LYNCHING

Depend on Mild Group. Senator Hitchcock Predicted that the mild group would give the democrats enough support to uphold the vice presidential resolutions...

SEVEN MEMBERS OF CREW OF STEAMSHIP REACH NEW YORK

NEW YORK, Nov. 17.—Captain W. N. Anderson and seven members of the crew of the American steamship Berekland, which was destroyed by fire off Sierra Leone, Africa, October 29, arrived here today on board the British steamship Egori...

NO BUSINESS WILL BE TRANSACTED BY HOUSE AFTER TODAY

WASHINGTON, Nov. 17.—No business will be transacted by the House after today, Republican Leader McCall said, adding that the House probably would formally adjourn tomorrow following the passage today by the each railroad bill and a resolution extending government control over dye imports until January 15...

DECLARES LODGE RESERVATIONS NULLIFY THE PEACE DOCUMENT AND ARE UTTERLY IMPOSSIBLE

WASHINGTON, November 17.—The foreign relations committee reservation excluding the United States from any responsibility in regard to the disposition of the German colonies was rejected today by the senate...

WASHINGTON, November 17.—President Wilson will pocket the peace treaty if it contains the Lodge reservations, he told Senator Hitchcock at a conference today at the White House...

WASHINGTON, Nov. 17.—A number of the mild reservationists conferred today and at least part of them were said to have agreed to vote against upholding Vice President Marshall should he rule that a second reservation could be considered after that reported by the foreign relations committee had been rejected...

The program outlined by Senator Hitchcock after he had seen President Wilson last week will be carried through in the Senate, Mr. Hitchcock said. This contemplated defeat of the ratification resolution with the Lodge reservations attached and the offering of a resolution for ratification without reservations...

Senator Hitchcock was with the President for an hour. "I find the President is very much improved since I saw him last," the Senator said on leaving the White House. "He looks better, talks better and is much more aggressive. I find that he has read and considered the Lodge reservations and that he supports them a nullification of the treaty and utterly impossible."

"Did the President tell you what his course would be in the event the Lodge reservations are accepted by the Senate?" he was asked. "The President will pocket the treaty," was the reply. "Even if reservation fifteen is stricken out."

"Yes, that would make no difference in the President's decision." "Compromise Possible." Senator Hitchcock did not interpret the President's stand to mean that the treaty was dead, declaring that he still believed a compromise reservation program could be worked out...

Senator Hitchcock began plans for a conference of democratic friends of the treaty. It was said it might be held tonight. The plan at first had been to call on the vice president, but it was understood the democrats they were unwilling to negotiate until the committee program had come to a vote...

Senator Hitchcock predicted that the mild group would give the democrats enough support to uphold the vice presidential resolutions are in order, thus opening the door for a compromise. Mr. Hitchcock did not go into details as to the exact stage at which the President might intervene in the treaty proceedings but indicated that the executive might withdraw the treaty unless the democratic conference developed an agreement to vote down ratification...

If the committee reservation is defeated, it is expected Mr. Wilson will let the opposing groups work out whatever compromise they can. The White House conference was the substitute reservations proposed by Senator Hitchcock. The democratic leader indicated that the President had made no objection to them. Plan Not Favored. Mr. Hitchcock said he did not discuss with the President the proposal of republican leaders to pass a resolution in case the treaty fails, declaring that the President had made no objection to them.

Mr. Hitchcock said he did not discuss with the President the proposal of republican leaders to pass a resolution in case the treaty fails, declaring that the President had made no objection to them.

ing the war at an end. It is well understood, however, that the administration generally would look with disfavor at such a manner of bringing a peace status. The President's decision drew from republican leaders emphatic statements that there would be no compromise and that their original program of procedure would be adhered to. It was the view of the republican leaders that the senate probably would reach a deadlock and they said if the treaty was withdrawn or failed the situation would be chargeable to the administration. "The only result has been to harden our lines," said Senator Lodge. Only two hours out of the ninety-six hour maximum under the clause rule had been consumed when the senate met today. The reservation declaring the United States declines to accept any interest in or responsibility for the German overseas possessions was opposed by Senators Townsend, Michigan, and New, Indiana, republicans. Senator New said the United States might secure valuable interests in the Pacific island possessions of Germany. Supporting the reservation Senator Shields, democrat, Tennessee, said the secret treaty between Japan, Great Britain and France had given the Pacific island possessions of Germany to the reservation and that consequently the United States would become merely a trustee for Japan.

FOREIGN MINISTER TITTONI EXPRESSES DESIRE TO RESIGN

ROME, Sunday, Nov. 16.—Foreign Minister Tittoni has again expressed a desire to resign. He gives as his reasons the state of his health and the complete inability to deal with which have arisen in the Adriatic situation. Another reason is stated to be the attitude of President Wilson on the Italian railway problem, which the minister declares he has vainly done everything in his power to modify. Premier Nitti and the colleagues and the friends of Signor Tittoni are doing their utmost to induce him to alter their intention.

FORMER RANGER KILLED AT RANGER IN A GUN FIGHT

RANGER, TEX., Nov. 17.—Al F. Jordan, 45 years old, local police officer, was shot and killed last night at Main-st. here, when he demanded that Bill Shamlin surrender his gun. Shamlin was taken into custody. Jordan, widely known in Texas as a former ranger, was shot three times while Shamlin sustained a slight flesh wound. When the shooting started, Jordan emptied his revolver at Shamlin but hit him only once on the arm. Shamlin was a police officer. Jordan served with the rangers under Capt. Bill McDonald, one of the most famous rangers. Jordan had been a local police officer for four days.

D'Annunzio Is Master of Entire Dalmatian Coast

FUME, Sunday, Nov. 16.—Gabriele D'Annunzio's latest exploit appears to have made him master of the entire Dalmatian coast. It secured the adherence to his side, it has developed of Admiral Millo, commander of the Italian occupation forces in Dalmatia, thus giving D'Annunzio a continuous command from the Austro-Italian armistice line north of Fiume southward to Ragusa, just to the west of Cetinje, covering all the approaches to the Dalmatian coast. Four warships including a dreadnought and four torpedo boat destroyers, have been added to the D'Annunzio naval command giving him a formidable weapon with which to maintain his present position.

ADMIRAL MILLO ESPOUSES CAUSE OF D'ANNUNZIO

FUME, Saturday, Nov. 15.—Admiral Millo, the Italian commander of the Dalmatian occupation forces, has gone over to the cause of D'Annunzio, swearing complete loyalty to the poet and declaring that not one Italian soldier will leave so included in the pact of London. Admiral Millo wrote to Premier Nitti, informing him of his action. The premier replied: "I am astonished at the latest D'Annunzio enterprise. However, I am sorry for your action." It is announced D'Annunzio will occupy all of Istria, including the sections Fiume and Trieste. Nitti proposes shall comprise an independent state. D'Annunzio returned here this evening from his expedition to Zara on the Dalmatian coast. His arrival was the occasion for an enthusiastic demonstration. He left the garrison at Zara commanded by one of his officers.

TWO FORMER HUN LEADERS FORCE DELAY

Committee Meeting Breaks Up in a Tumult When Witnesses File Protest

BERLIN, Nov. 15.—Possible delay in the appearance of Field Marshal Von Hindenburg and General Luden dorff before the Reichstag committee investigating the war was indicated today.

The two former military leaders were scheduled to take the witness stand Monday, but the squabble started by Dr. Von Helfrich, former vice-chancellor, probably will cause a delay.

The committee broke up in a tumult today when Von Helfrich refused to answer questions put by Herr Cohen, Independent Socialist. A divided vote to "fine" Helfrich 300 marks resulted in the resignation of Chairman Wermouth who was succeeded by Deputy Goethen.

"I won't stand any more of this," Helfrich shouted angrily when Goethen attempted to resume questioning him. The committee then broke up among heated remarks between Nationalists and Socialists.

The Nationalist movement had the government worried today. That section of the press supporting the administration called for immediate suppression of such demonstrations as occurred last night when a meeting under the auspices of the league for the League of Nations was broken up. Persons attending the meeting marched through the streets and gathered about the building which formerly housed the American embassy shouting "down with Wilson!"

THE SUPREME COURT GIVES GOVERNMENT VALUABLE OIL LAND

WASHINGTON, Nov. 17.—The government in supreme court today won its right to take from the Southern Pacific Railroad valuable oil lands in Elk Hills.

The government charged that the agents of the road wrongfully obtained title to the disputed lands contrary to an act of congress which granted the road certain sections of land provided they did not contain minerals.

The road answered that its agents had no way of knowing that the lands contained oil and questioned whether the oil was mineral within the meaning of the act.

The district court decided for the government and the appeals court for the road.

The lands at the time the patents were issued were known to be valuable for oil, we believe, the court said.

"Correspondence between officers show they believed the lands had no oil value."

MARLIN AND WILLIAMS ON TRIAL AT AUSTIN

AUSTIN, Nov. 17.—Cases of Eugene Martin and Frank Williams, charged with the killing of Hal St. Claire, in Falls county, two years ago, were called for trial in the criminal district court here today. These cases were transferred here from Falls county.

KANSAS GOVERNOR WANTS RECEIVERSHIP FOR MINES IN STATE

TOPEKA, KANS., Nov. 17.—The supreme court will be asked today by Governor Henry J. Allen to grant a receivership for the coal mines of the state. The governor has been informed by the federal fuel administration that there is only a week's supply of coal in sight. The receivership is taken as a drastic measure to meet the emergency. If the receivership is granted, three receivers will be appointed and Governor Allen will leave tonight for the mining district and will make an effort at meetings this week to induce the miners to return to work under the state directorship.

Jake Sheppard of Pittsburgh, who recommended the receivership plan, will accompany the governor into the coal fields. The state will recommend that W. W. Charles, a sample of Fort Scott, represent the public and that the other receivers be appointed, one for the miners and one for the operators. It is understood the operators will oppose the state receivership if possible.

It is asserted that the purest air in cities is found about 25 feet above the street surface.

COLLUSION IS CHARGED IN JENKINS CASE

American Consular Agent Is Detained on Charge of Criminal Responsibility

WASHINGTON, Nov. 17.—William O. Jenkins, American consular agent at Puebla, was detained at the penitentiary for two hours after his arrest on a charge of collusion with the bandits who recently kidnaped him, according to advices to the state department today from Mexico City. He then was released without bail and is now restricted to his own home.

First official news of the arrest of the consular agent was sent to the state department yesterday by the American embassy which reported that the arrest appeared to be based on declarations from a number of persons who under threats made statements purporting to establish collusion.

The department immediately telegraphed urgent instructions to the embassy to take the matter up with the Mexican foreign office with a view to securing the release of Jenkins. The embassy's later report was based on a telegram from the consular agents. The embassy also reported that in a signed statement published in the Mexico City press the prosecuting attorney of Puebla charged that Jenkins was guilty of criminal responsibility and of giving false evidence and that he had been transferred to his home to avoid recurrence of his illness which followed his capture by the bandits.

PRINCE OF WALES IS MUCH REFRESHED

WHITE SULPHUR SPRINGS, W. VA., Nov. 17.—Much refreshed by a few days of recreation here, the Prince of Wales leaves tonight for New York, where he will arrive tomorrow morning. The special train will go through to New York without official stop.

nourishing—with the building value of whole wheat and malted barley
Grape-Nuts at Grocers.

CITY'S LABORATORY RECEIVES EQUIPMENT

WILL MAKE CITY'S LABORATORY ONE OF BEST EQUIPPED IN THE STATE

The installation of a \$2000 shipment of new equipment, recently received from Chicago, has placed the laboratory of the city food inspection department in the city hall among the first in this section of the state.

The walls of the room are lined with new cabinets, well stocked with all the instruments and materials known to modern chemical laboratories, and Drs. H. G. Allen and A. H. Douglass in charge of the department are prepared to handle work of any scope or detail.

The new equipment includes an electric sterilizer and drying oven, an electrically heated apparatus for the culture and examination of water bacteria, a Westphal balance for the determination of the specific gravity of milk, and a high power magnifying glass with the power of 500 millimeter enlargement, a Babcock testing machine for determining the amount of butter fat in milk, an auto clavier, water bath, and water distilling apparatus.

An oil emersion refractometer, for detection of the percentage of alcohol in any preparation and for testing milk for water adulteration is promised the local department within the next 10 days. The refractometers are manufactured in Germany and were requisitioned by the government during the war, making it almost impossible to obtain the instrument.

SIDEWALKS ALREADY SHOW IMPROVEMENT

COUNTY HEALTH OFFICER SAYS HEALTH CAMPAIGN ALREADY SHOWING RESULTS.

"Street and sidewalk conditions are already improved as the result of our publicity campaigns, and I expect the merchants to be thoroughly in line by Wednesday morning when the actual clean-up starts," Dr. M. M. Walker, chairman of the county health board, said Monday morning.

"These people are willing to clean up and will co-operate with us if we remind them often enough. I have not talked to the merchants personally, but I can already notice an improvement," he added.

Assistant Police Commissioner Godfellow has promised Dr. Walker and his committee the services of two officers on Wednesday morning of this week.

At that time every merchant whose walks are not in a satisfactory condition will be prosecuted.

Streets, water, mud and water holes, restaurants and schools all over the county come next and each day is expected to mark a material improvement in sanitary and health conditions.

The Turks were the first people to bury their dead in cemeteries adorned with ornamental headstones.

NAME "BAYER" ON GENUINE ASPIRIN

For Lumbago, Backache, Pain, Rheumatism, Stiffness

You want relief—quickly and safely! Then insist on "Bayer Tablets of Aspirin," stamped with the "Bayer Cross." The name "Bayer" means you are getting genuine Aspirin prescribed by physicians for over eighteen years and proved safe by millions of people. For a few cents you can get a handy tin box of genuine "Bayer Tablets of Aspirin," containing twelve tablets. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monocet-acidester of Salicylicacid.—Adv.

FREE THIS WEEK ONLY

At the Store Named Below
A 10-Day Tube of Pepsodent

A Way to Dainty Teeth

To Safer, Whiter, Filmless Teeth

All Statements Approved by High Dental Authorities

See How Teeth Glisten When the Film is Gone

The results of Pepsodent show clearly in white, glistening teeth. You can see them everywhere, for a million folks now employ it. You can see them on your own teeth when you remove the film. And that's the purpose of this ten-day test.

Film on Teeth Is What Wrecks Them

Dental science has found that most tooth troubles are due to a slimy film. You can feel it with your tongue.

That film clings to the teeth. It gets between the teeth, enters crevices and stays. The tooth brush doesn't end it. The ordinary dentifrice cannot dissolve it. So its damage is unceasing.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

That is why brushed teeth discolor and decay. Why tartar forms and pyorrhea starts. You may remove the debris, but the real cause of tooth troubles—the clinging film—is largely left to do its damage.

Now dental science has found a way to combat that film, after years of searching. We ask you to accept a ten-day test and see the results for yourself.

Based on Pepsin

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The purpose of Pepsodent is to dissolve it, then to constantly combat it.

But pepsin must be activated, and the usual agent is an acid harmful to the teeth. So pepsin long seemed impossible.

What science has now done is to invent a harmless activating method. That method is employed in Pepsodent. The result is a tooth paste which will do what nothing else has done. And five years of tests seem to clearly prove that it opens a new dental era.

Pepsodent has been submitted to every form of clinical and laboratory test. Dentists everywhere have watched its effects and now urge its daily use. This week we offer a test to you, and we ask you to accept it.

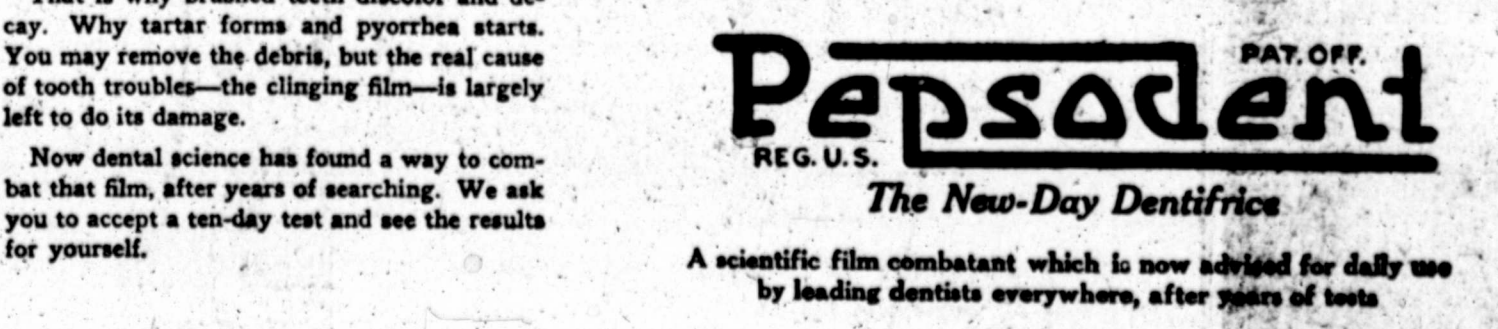

Look in Ten Days

We urge this test for your sake and your children's sake. Children have most to gain from cleaner, safer teeth. Try to avoid the troubles we have had.

Present this coupon for a 10-Day Tube. Use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

A book comes with the sample tube, explaining the results. Learn the reason for them. Compare them with the results of old methods. Then let your own good sense decide what method to employ.

This test is of lifetime importance, both to you and yours. It has shown at least a million people the way to whiter, safer teeth. Someone in your home should make it. Cut out the coupon so you won't forget.

The Store Named Below Will Supply the Free Tube on This Coupon

10-DAY TUBE FREE

Present this coupon, with your name and address filled in, to store named. It is good for a 10-Day Tube of Pepsodent.

Your Name.....

Address.....

Out-of-town residents should mail this coupon to The Pepsodent Company, 1104 So. Wabash Avenue, Chicago, and the tube will be sent by mail.

RANGERS STAGE RAID ON WESTLAND HOTEL

TAKE A LARGE QUANTITY OF BOOZE AND ARREST FIVE PRISONERS.

Four big Texas rangers, accompanied by Assistant Special Agent Miles of the Katy railroad and Special Deputy Constable Arrington, swooped down upon a room in the Westland hotel Sunday night and arrested a handsomely dressed young woman, and a trio of her male companions, charging them all with violation of the Reed amendment, conspiracy to violate that law.

Nell Clayton, a dainty looking young woman; Robert Lewis, J. A. Steele and Harry Alberts were all in the county jail as federal prisoners Monday and were to have been given a hearing Monday afternoon before U. S. Commissioner Lantz, when their bonds will be fixed.

A quantity of whiskey and many empty bottles were confiscated. The four rangers were in Miles' office Sunday afternoon, chatting with him and Arrington. Miles told of seeing the young woman get from a train with two very suspicious appearing suitcases, which were so heavy she barely could carry them from the depot to the Westland, yet would not let them out of her hands.

When the room was reached three men were there. They, too, were arrested. Deputy Constables Spiller and Belcher, who had been at work on the case, not knowing the rangers were after the party, arrived just after the arrests had been made and the whiskey confiscated. They accompanied the prisoners to the court house, when the federal authorities took charge of the case.

Statements obtained from the prisoners were to the effect that the whiskey was brought from Kansas City.

A negro elevator boy is held as a suspect, although charges may later be filed against him. He is alleged to have "tipped off" one of the men that officers were in the hotel, but had failed to do so before the arrests were made.

The arrests created considerable excitement and a crowd gathered when the party was led from the hotel and a dray wagon backed up to be loaded with the whiskey and empty bottles. This is the first raid on any of the leading hotels here in months.

FOUR ROUND BOUT IS TO FEATURE MONDAY SESSION HIGH SCHOOL BOYS CLUB

A four round boxing match between Whatley and Chewing, two amateur pugilist members will be a feature of the program to be given at the regular meeting of the high schools boys club Monday night at 7:30 at the high school.

This match is the first of the athletic features to be arranged by the athletic committee of the club and they promise a fast exhibition of work with the padded gloves in this match between the young fighters.

In addition to this feature an interesting program will be given to which the friends and patrons of the school are invited, as well as anyone who is interested in the work of the club, to consist of the following:

"To Beat German Competition"—Abe Bashara.

"To Can the Kaiser"—Bryant Lowell.

Pie Eating Contest—Marvin Jordan and Byron Lytle, against Frank Patton and Milton Jackson.

ADDITION TO THE ALAMO SCHOOL TO BE READY FOR USE TUESDAY MORNING

The addition to the Alamo school which adds about 200 seats to the present capacity will be ready by Tuesday. Superintendent Leo Clark announced.

The heating equipment has been installed and is in working order, ready for the students to move in to the addition.

Seats are being set up Monday and the work will be finished in time for the rooms to be available for the students.

FEDERAL COURT IS ADJOURNED MONDAY

WILL PROBABLY NOT HOLD TERM HERE UNTIL SOME TIME IN DECEMBER.

United States district court for the Wichita Falls division, which was to have convened here Monday, was adjourned pending orders from Judge Wilson, by U. S. Commissioner Lantz. It is not thought there will be any federal court here this month, although several witnesses were on hand Monday. Judge Wilson likely will convene court in December, it was said by Commissioner Lantz, although it may be January before he decides to come here.

The next term of the federal court will have many criminal cases to try, some of them being trial of persons of prominence charged with violation of the white slavery and liquor laws. Some of the trials will be sensational.

DR. BISHOP ADDRESSES HIGH SCHOOL STUDENTS

The opportunities that face the high school students of today were touched upon by Dr. C. M. Bishop, president of Southwestern University, in a talk made Monday morning at chapel at the high school.

"There exists a shortage of educated people," he declared, "which can only be combated by realization of the importance of a high school education and an increased amount of effort on the part of the students themselves."

Superintendent Clark has been exceedingly fortunate this year in securing excellent speakers for the chapel programs and the chapel is becoming an institution in the high school.

LOCAL REPRESENTATIVES ATTENDING CONVENTION OF FEDERATED WOMEN'S CLUBS

Mrs. S. H. Burnside and Mrs. T. E. Smock are representing Wichita Falls in the state convention of Women's Federated clubs, meeting at Port Arthur this week. Mrs. Burnside for the Unity club and Mrs. Smock for the Civic League. The convention opens today, the 17th, and continues through Friday the 19th.

Mrs. Smock plans to visit Houston and other places before her return, investigating and studying municipal markets, in order to familiarize herself with their workings before spring, when the Civic League plans the establishment of such a market in Wichita Falls.

MARGARET SANGER CASE HAS BEEN DISMISSED

WASHINGTON, Nov. 17.—Supreme Court today dismissed for want of jurisdiction the appeal of Margaret H. Sanger, New York birth control advocate, sentenced to 30 days imprisonment for conducting a birth control clinic. This means that decisions of lower courts stand.

Social News

"BIRTHDAY PARTY" FOR MEMBERS OF CHURCH

The November "birthday party" for the congregation and friends of the Episcopal church, will take the form of a dance to be given Friday evening November 21, at the home of Mr. and Mrs. C. W. Reid, 1801 Huff Avenue. Mesdames Reid, H. A. Allen, Lynch, Galbraith, Bashara and Miss Borsey will be hostesses. All members of the church and their friends are cordially invited to attend.

BIRTHDAY PARTY FOR LITTLE MISS PATILLO

Laurie Glen Patillo celebrated her fifth birthday with a lawn party Saturday afternoon. Games were arranged for the little folk, and Mrs. A. D. Patillo, mother of the hostess served ice cream, cake and candy to the guests, who were: Janice Newton, Annette Kouri, Harley McAdam, Thaxton McGregor, Melba Carroll, Magdalena Love, Lois Keys, Charlie and Bradley Dobkin, Gwendolyn White, Gene Napier, Bunny Norwood and Frances Carter.

MRS. FENTON ACCOMPANIED HOME BY HER MOTHER

Mrs. H. J. Fenton and children have returned from a visit in Vincennes, Ind. They were accompanied home by Mrs. Fenton's mother, Mrs. Hindman, who will spend the winter in Wichita Falls. Mrs. Hindman was Mrs. Fenton's guest last winter, as well as on numerous other occasions, and her return will be welcomed by many friends in this city.

OVERLAND CAR SLIGHTLY DAMAGED BY FIRE

A new Overland "4" car that had caught on fire at the Texas Company drive-in filling station at the corner of Tenth and Lamar, about noon Monday caused an alarm to be turned in for the fire department, which made a quick run to the scene. Before they arrived, the fire had been extinguished by several automobile owners nearby who happened to have fire extinguishers handy. The damage done amounted only to scorching the paint on the hood of the car.

DISMISS CASE FOR WANT OF JURISDICTION

WASHINGTON, Nov. 17.—The Supreme Court today dismissed for want of jurisdiction the appeal from the Louisiana courts which held the legal taxation by the state of wreckage of the German steamer Guibell, rammed and sunk in the Mississippi River in 1912.

The state claimed it had the right to tax it since the wrecked vessel was taken out of overseas trade, when it was sold to J. W. Thompson by its German owners.

AMUSEMENTS

RIGHT TO REVENUE IN ORIENTAL CODE

"Every man has a right to his vengeance," said Goro Moriyama (Sessue Hayakawa) in "His Debt," the latest Hayakawa production at the Plaza Wednesday.

Moriyama, the Japanese gambler, like every Buddhist, believed that vengeance is a debt as obligatory as any other debt. It was the code of his Nipponese forefathers—their religion—and he proceeded with characteristic Oriental cunning and patience to carry out his purpose.

"I always pay my debts," was his boast. Moriyama paid "his debt," but not in the way he had planned, for the man whom he had determined was to pay the price for attempting his life, was loved by the girl to whom Goro owed a debt of gratitude. So Goro paid the greater debt, and gave her lover back to Gloria Manning, whose tender care had saved his life.

"His Debt" is a tensely emotional drama with drilling dramatic situations, showing the Japanese character in an interesting light. The production was made by the Haworth Pictures Corporation and is released by Exhibitors Manual. Jane Novak supports Hayakawa as Gloria Manning, the American girl, and does excellent work. Francis J. McDonaid and Fred Montague have important roles. William Worthington directed the production, which is notable for its elaborate settings and beautiful photography.

ARISTOCRACY RIDES ON SHOULDERS OF YOUNG GIRL

The pride of aristocracy gone to seed forms one of the strong touches that occur in "Cupid Forecloses," the Vitagraph feature which will be shown at the Gen theater Wednesday. Beulah Love is the star. David Smith was the director.

Aunt Adelaide, whose rather talkative part is played by Anne Schaefer, is the aristocrat of the story. Wealth and high social standing have fallen from the family, and Aunt Adelaide alone nurtures grimly the last remain-

COMMISSIONERS TO AID STAMPING OUT THEIEVRY IN FIELD

Definite action looking toward eliminating the great volume of thieving that has been going on in the North west Extension oil fields for months was taken this afternoon when the county commissioners joined forces with the Wichita County Oil Producers' Association and agreed to bear part of the expense of officering the field.

A committee consisting of W. M. Priddy, Charles H. Clark, J. A. Kemp and W. W. Silk appeared before the commissioners and asked that they furnish quarters for the officering. It is proposed to assign there J. M. Allen, who has just resigned as deputy U. S. marshal here, will be the special investigator for the association, gathering evidence and cooperating with the district attorney's office in prosecutions.

The commissioners also were considering the advisability of placing mounted men on the roads to keep off excessively heavy traffic in bad weather.

Mr. Priddy asked that a man be placed on the Burk Burnett road for this purpose, and his suggestion brought from members of the court requests that road guards, who will be under the jurisdiction of Sheriff McFall, be placed on other roads.

It was considered likely that three such guards would be employed to protect all of the leading county highways from misuse during the wet weather.

Mr. Clark explained to the commissioners the importance of placing officers in the field. He said some of the junk dealers were no doubt responsible for much of the thieving, but declared that a few officers operating under the jurisdiction of the sheriff could quickly put a stop to it.

He declared that the county could well police itself if the sheriff was given the right sort of support and that there was no need for state rangers being sent here. Other members of the committee and the commissioners took the view, too, that rangers will not be needed to keep order in the field.

Mr. Priddy explained that the plan is to have two of the men mounted. He told of meeting with officials of the Texas Co. and of that company having agreed to supply telephone service over all of its lines for the officers free of charge.

Mr. Priddy offered to supply a horse, water, fuel and light if it was decided to have the headquarters of the officers on his lease, but the location was not thought suitable.

Sheriff McFall made a brief talk to the meeting, stating that the chief trouble heretofore had been the discrimination of persons and companies robbed to appropriate thieves after his department had caught them.

Mr. Priddy explained that the association would see that all cases were prosecuted. He asked the county for quarters for the officers, and the stockade at Newtown.

By unanimous vote, the commissioners granted the request, and expressed sentiment favorable to the stock guard plan at 3:00 o'clock, although Assistant County Attorney Martin at that time was explaining the legal status of road protective measures.

Plans for building a stockade at Waggoner City, or Newtown, in which to keep prisoners pending their removal to the county jail here, were discussed by the county commissioners when they met Monday morning.

Sheriff McFall was requested to submit estimates as to cost. The stockade will likely be about 16 feet square and much material the county now owns will be used, it is advisable.

The sheriff told the commissioners that 55 prisoners are in jail awaiting action by the grand jury, which will meet next Tuesday. He said that other persons charged with felony offenses are at liberty under bond, awaiting action by the grand jury. There also are several federal prisoners in jail.

Plans for building a stockade at Waggoner City, or Newtown, in which to keep prisoners pending their removal to the county jail here, were discussed by the county commissioners when they met Monday morning.

BURGLARS WILL NOW SEEK NEW PROFESSION.

THE BURGLAR TRAP

The day of the daylight motor bandit rushing into a bank or a jewelry store and making a clean "get-away" with all the money and valuables in sight is near its end. The news is being noised about in the underworld of a contrivance which makes burglar proof all banks, jewelry stores or any other place where money or valuables are stored. It consists merely of the pressing of a button and, presto, Mr. Burglar is trapped beyond redemption.

Inspector Joseph A. Faurot, in charge of criminal identification in the New York Police Department, and Policeman Clinton L. Wolf are the inventors. Upon the touch of a button anywhere in the room to which the door leads the contrivance at the

INSPECTOR JOSEPH A. FAUROT

foot of the door releases it and the chain pulls the door shut with a bang, a loud burglar alarm being set off simultaneously in any part of the building. Once locked, the contrivance key cannot be opened without the key in the possession of the one who presses the button.

DEEPENING OF K. M. A. INCREASES THE FLOW

BIT PENETRATES SAND FEW MORE INCHES IN DRILLING OUT SWAB RUBBER.

Pipe line connections are at the Kemp-Munger-Alten well, but the well has not yet been turned into the line. It is stated Monday, because of the failure to receive a pump.

The pump has been ordered, and is on the way from Oklahoma. City by express.

In the meantime the well is turned into a flow tank and permitted to flow.

The flow continues to improve. J. A. Kemp stated Monday afternoon while at work on the hole, drilling out a swab rubber that had lodged the bit penetrated a few inches deeper into the sand, increasing the flow.

BRAKEMAN ON VALLEY IS KILLED AT ANSON

WAS WORKING UNDER ENGINE WHICH WAS MOVED BY ANOTHER.

The body of W. H. Farrington, brakeman on the Wichita Valley working out of this city, who was instantly killed in the yards at Anson, Texas, Saturday night, has been sent to Vernon, his home, for burial.

It is understood that the accident occurred while Farrington was at work under a disabled engine he had sent up from Stamford to repair.

The coupling of another engine on to the one with which he was working sent the wheels over his body, causing instant death.

FUTURITY OIL COMPANY ONE OF NEW CONCERNS IN KEMP-MUNGER-ALLEN FIELD

The Futurity Oil Co., Col. C. C. Drake, secretary and treasurer, carried an advertisement in Sunday's issue of the Times in which a typographical error made the shares \$1.00 par value. Shares in the Futurity have a par value of \$100, capitalization \$75,000, with a fifty-acre tract one and a half miles north of the Kemp-Munger-Alten well.

Harry Jaffe is president of the company. Samuel Kruger, vice president, with Dave S. Fridner and A. H. Fell, trustees.

GENERAL WELL TO BE TESTED THIS WEEK

TANKAGE EXPECTED TO BE AVAILABLE BY TUESDAY OR WEDNESDAY.

One 1,600 barrel tank is due to be completed at the General Oil Company's No. 1 Sam Sparks Monday, and another is being erected, so that a test run of the well can be possible by Tuesday or Wednesday at the outside. It was stated Monday at the offices of the company.

The well was turned loose again on Sunday. It is reported from the field, and repeated former performances, going high over the derrick.

OVERSUBSCRIPTION HEAVY IN DRIVE OF CHRISTIAN CHURCH

Wichita Falls members of the First Christian Church will oversubscribe their quota in the state wide campaign by at least 25 per cent, and possibly more than 50 per cent, it was announced following the Sunday service.

The \$20,000 quota was subscribed Thursday evening at a "pop" banquet, supposed to be preliminary to the campaign, and was subscribed by a few, leaving the majority of the church members yet to make their subscriptions.

These are now being heard from, according to R. F. Shepherd, the chairman of the local committee, and the oversubscription will be heavy.

Wichita Falls is the first church to subscribe its quota. W. R. Duke, the chairman of the national union, and R. K. Herndon, a well known broker from Kansas City.

The new exchange will be operated on practically the same basis as the Central Exchange was before Mr. Young severed his connections there.

A new departure from the present methods in Wichita Falls will be the installation of private wires to Fort Worth, San Antonio and Dallas, reproducing the boards there just as they are here, thus increasing the possible field of activity for stocks of Wichita Falls.

The buyers and sellers here will be able to get full value for their stocks, as there is no charge for this wire service.

This exchange will be operated on a three per cent basis, whether sales are made here or in any of the cities connected by their direct private wire.

The former owners of the Peoples' Stock Exchange will probably open a new exchange here about the middle of January, the plans of which are not yet complete enough for public announcement.

SECRETARY C. W. S. M. IN WICHITA FALLS TUESDAY

A special called meeting of the women of the First Christian church will be held Tuesday afternoon at 7:30 at the church, when Mrs. Perry King of Fort Worth, state secretary of the Christian Women's Board of Missions will be present.

She is anxious to meet all the women of the church, and will have an important message, which all are urged to attend and hear.

FEDERAL AUTHORITIES SEIZE BOOZE BOATS

MIAMI, Fla., Nov. 17.—Seizure of federal authorities of two boats plying between Florida ports and the Bahama Islands was declared today to be the first step in a campaign to end illicit liquor traffic between the near-by British possessions and this country. The vessels were seized under the technical charge of sailing for a foreign port without the necessary clearance papers.

EXPECT TO NAME A NEW AMERICAN CARDINAL

LONDON, Nov. 17.—The forthcoming consistory in Rome is expected to name a new American cardinal, according to a dispatch to the Post. A successor to German Cardinal Markmann, who died recently at Cologne also will be named, the dispatch said.

NEW LOCATION MADE IN TILLMAN COUNTY

ALMOST READY TO BEGIN DRILLING ON SHEEGOG TEST IN SECTION 5-4-14.

Ed Sheegog has made a location for a Tillman county test, in the northwest corner of section 5-4-14, the derrick being placed on the ground today.

Drilling will begin here by the last of the week.

Several other locations on the Oklahoma side of Red River are due to be made this week. It is reported, and considerable drilling activity is expected in the section of Tillman county bordering the Northwest extension of Burk Burnett.

The middle States Oil Co., which purchased the J. L. Staley interests in the Wagoner pool for several million dollars, have purchased a tract of 30 acres.

It is understood that they are planning to drill on this property.

CAPITAL STOCK OF SUNSHINE STATE IS RAISED TO \$650,000

Capital stock of the Sunshine State Refinery has been increased from \$500,000 to \$650,000, G. C. Jensen, the president announced Monday.

Present stockholders of the company will be given preference in purchase of this newly authorized stock until December 15.

The refinery, which has been in operation around a year, now has a daily capacity of better than 2,000 barrels. A fleet of 135 tank cars is equipped and the property will inventory better than \$700,000, Mr. Jensen states.

DENVER ENGINEER LOSES LEFT HAND SUNDAY MORNING

Thrown to the ground from the unexpected movement of the engine on which he was working and his hands caught under the wheels, E. B. Williams, engineer on the Fort Worth & Denver, sustained injuries to his left hand that necessitated amputation.

His right hand was also seriously crushed. The accident occurred Sunday morning and Mr. Williams was rushed to the General hospital where he is resting quietly today.

Witnesses say that Williams was standing at the side of the engine working with a wrench when the fireman, unaware of his position, started the locomotive, throwing Williams to the ground, the wrench drawing his hands under the wheels. The injured man lived at 401 Austin. His condition is reported serious but not critical.

D. W. YOUNG BUYS THE PEOPLES' EXCHANGE

PLANS INNOVATION HERE IN THE FORM OF NEW WIRE SERVICE.

D. W. Young, former owner of the Central Stock Exchange, has again entered the same field in Wichita Falls through the purchase of the Peoples' Stock Exchange on Ohio and Seventh streets, and the purchase of D. K. Herndon, a well known broker from Kansas City.

The new exchange will be operated on practically the same basis as the Central Exchange was before Mr. Young severed his connections there.

A new departure from the present methods in Wichita Falls will be the installation of private wires to Fort Worth, San Antonio and Dallas, reproducing the boards there just as they are here, thus increasing the possible field of activity for stocks of Wichita Falls.

The buyers and sellers here will be able to get full value for their stocks, as there is no charge for this wire service.

This exchange will be operated on a three per cent basis, whether sales are made here or in any of the cities connected by their direct private wire.

The former owners of the Peoples' Stock Exchange will probably open a new exchange here about the middle of January, the plans of which are not yet complete enough for public announcement.

HENRY BODENSTAB TO LEAD THE FIGHT AGAINST BERGER

MILWAUKEE, Wis., Nov. 17.—Henry H. Bodenstab, Republican, will lead the fight against re-election of

Victor Berger to represent the Fifth Wisconsin district in congress. Bodenstab was given a clear field today with a fusion nomination.

at the last election. Bodenstab, Carney, in yielding to Bodenstab, said he remained out of the race so that "the election of a man in accordance with American ideals and institutions is assured by a plurality of 5,000."

SPORTS

DOPE KILLER PUTS HIS STIRRING STICK IN FOOTBALL POT

By HENRY L. FARRELL. United Press Staff Correspondent. NEW YORK, Nov. 17.—It's a sweet mess now in the east. The dope stick has stirred down in the football pot Saturday upside down. The results of three wild upheavals made the championship as clear as mud.

On the surface it seems there is no champion. Harvard and Stevens have not been defeated but the Syracuse has finally thrown in from their speeding train.

Colgate and Dartmouth topped the pile for a while, but Syracuse has finally thrown in from their speeding train. They may find it strange in the cellar but they shouldn't be ionospheric there with plenty of illustrious company, including Yale, Princeton, Syracuse, Washington and Jefferson, Pittsburgh, Pennsylvania, Army, Navy, Brown, Cornell, West Virginia, O. L. High, Lafayette and scores of the little fellows.

One might end in a padded cell if he tried to get something tangible in the way of a championship claim out of that mess. Here's but one stand of the tangled yarn.

Colgate beat Brown. Brown beat Dartmouth. Dartmouth beat Penn State. Penn State beat Pennsylvania. Pennsylvania tied Pittsburgh. Pittsburgh beat W. and J. and J. beat Syracuse. Syracuse beat Colgate.

It does seem, however, that in beating the army, Pittsburgh, Brown, Rutgers and Colgate have put their eyes above the pile of defeated Jerseys. Very big team of the east slipped a cog in a particular game. Syracuse slipped against Washington and Jefferson.

If Harvard had a few hard games the crimson could undoubtedly claim the championship. But their schedule is loaded with easy marks. The Cambridge team, favored to beat Yale, will not care much about losing consideration for the title if it defeats old Eli. Princeton's victory over Yale was not such a surprise as the real superiority the Tigers showed.

Wisconsin pulled a surprise in the west by holding Ohio state to a minimum. "Chick" Harley kept Ohio in the lead with a field goal.

Center College, conquerors of West Virginia, remained in the southern limelight by trimming Kentucky state 56 to 0. Auburn pulled a surprise by knocking out the unbeaten Mississippi A. & M. team.

DEMPSEY DISCUSSES PROBABLE PROGRAM

SALE LAKE CITY, Nov. 16.—Jack Dempsey, world's heavyweight champion, arrived at his home here today for a short visit, after which he plans to leave for California to begin work on a moving picture contract.

Regarding his next fight, Dempsey said he would meet the winner of the Carpenter-Beckett bout, to be staged abroad December 4, if the victorious fighter will agree to come to America. If not, Dempsey says he is willing to go to London or Paris. He confirmed the report that he had signed at \$175,000 contract with Dominick Torrich, New Orleans promoter, to meet either Carpenter or Beckett if the match can be arranged for New Orleans. It would probably take place March 17.

MINOR LEAGUES WANT AMICABLE AGREEMENT

NEW YORK, Nov. 16.—The National Association of Minor Baseball Leagues, which abrogated the national agreement with the major leagues last January, is willing to enter into an "amicable agreement." It was announced here tonight by A. R. Tearney, of Chicago, president of the Western league and chairman of a committee appointed for this purpose. A resolution to that effect was adopted at a meeting of the association at Springfield, Mass., after J. C. Ewing of San Francisco, a member of the committee, had an informal conference in New York last Friday with August Herrmann of the national commission and President John Heydler of the National League in regard to the restriction of relations between the minor and major leagues.

BANTAMWEIGHT TO FIGHT HERE

MR. and MRS. JIMMY WILDE

Jimmy Wilde, the flyweight champion of Great Britain in the 102 1/2 pound pugilistic division, is now in the United States to fulfil several important engagements. Wilde is only 5 feet 2 inches tall, but he is broad of shoulder for his stature. He and his party were the guests at a luncheon given under the auspices of the new International Sporting Club. Wilde is booked to fight at the club on February 8 with an opponent yet to be picked. The little Briton has three bouts in view before he boxes in New York, with probably either Pal Moore or Joe Lynch. His first appearance will be in Milwaukee either on Thanksgiving Eve or December 1 against Benny Vogel, a boy who is thought very well of in that city, or Young Marino. There is a tentative date for him at St. Paul on December 15, and then the party will journey to California, where Wilde expects to be matched with some boy on the coast. He is due back the first week in January and has been invited to do his training on the country place of a member of the International Sporting Club.

CHOOSE OFFICIALS FOR THANKSGIVING GAME

AUSTIN, Nov. 17.—Officials for the Texas University-A and M. football game to be played at College Station Thanksgiving Day have been chosen by the athletic directors of the two schools.

B. L. McCreary of Kansas City, former star of the Oklahoma University, will be referee. Fraull Bridges of Harvard, who is now coaching the Fort Smith (Ark.) high school team, will be umpire. Charles Braun of Waco, formerly with Sewanee, will carry the head of the line.

PREDICTS ROCKY KANSAS WILL SUCCEED LEONARD

NEW YORK, Nov. 17.—Billy Grupp, whose gymnasium has been the training quarters of the great and nearly great in the boxing world, suddenly waxed enthusiastic today about the possibilities of Rocky Kansas of Buffalo succeeding Benny Leonard as lightweight champion.

After boxing several rounds with the rugged Rocky, Grupp declared that he was "the one real contender" for Benny's title and averred the champion was "in for a surprise if he ever meets Kansas at 135 pounds or for catchweights.

CHAMPIONSHIP TO BE DECIDED ON WEDNESDAY

CLEVELAND, OHIO, Nov. 17.—The national three-cushion billiard championship tournament here will conclude Wednesday. Five players are tied for the championship honors. They are Pierre Maupaume, Milwaukee; Charles McCourt, Cleveland; Bob Cannetax, New York; Otto Reissel, Chicago, and Clarence Jackson, Detroit.

POLISH WRESTLER TO MEET JOE STECHER

NEW YORK, Nov. 17.—W. Landek Zbyzsko, Polish wrestler, has been signed for a bout with Joe Stecher, acknowledged champion, here December 8. They will go to one fall.

FIRST BULL FIGHT SINCE SPORT FORBIDDEN

MEXICO CITY, Sunday, Nov. 16.—El Toreo, Mexico City's famous bull ring, was the scene this afternoon of the first bull fight since the sport was forbidden in the federal district by President Carranza almost three years ago. 17,000 persons attending. No bulls were killed but in other respects the sport was the same as in former years. There is a growing agitation for return of the rights and the festival today arranged in honor of Urquiza, Cuban and Argentine sailors from battleships which escorted the body of Amado Nervo, late minister to Argentina, to Mexico.

PROPOSE PLAY OFF IF HARVARD BEATS YALE

NEW HAVEN, CONN., Nov. 17.—If Harvard beats Yale next Saturday a proposal has been made that Princeton and Harvard play off the tie for the "big three championship" on the polo grounds. Major James Barnes, vice-chairman of Princeton's \$14,000,000 endowment drive, suggested the game as a means of raising money for the endowment funds for both institutions.

FLETCHER MAY BE KEPT OUT OF GAME

CHAMPAIGN, ILL., Nov. 17.—Changes that injures received in the Michigan game Saturday may keep Ralph Fletcher, Zuckke's star back, out of the Ohio title match next week, were worrying the Illinois coach today.

NECK IS BROKEN IN GAME ON SATURDAY

GALESBURG, ILL., Nov. 17.—No hope was held out today for recovery of Harry Williams, Galesburg high school football player, whose neck was broken Saturday in the game with Peoria normal.

OHIO STATE WITHIN ONE GAME OF TITLE

CHICAGO, Nov. 16.—With the Western conference football championship race drawing to a close, the

undefeated Ohio State eleven tonight is within one game of the title, Illinois, victorious in five of its six games, being the only team for the Ohioans to vanquish.

These championship rivals, perhaps the most evenly matched teams in the "big team," will clash at Columbus next Saturday in what promises to be

the most bitterly fought contest of the season.

AMERICAN JOCKEY IS SERIOUSLY INJURED

MADRID, Sunday, Nov. 16.—George Archibald, an American jockey, was seriously injured today at the Castel-

lana race track when his mount collided with a railing. The horse was killed.

ORDER ENTIRE SQUAD FOR PRACTICE GAME

CAMBRIDGE, MASS., Nov. 17.—

With five days for final practice before the game with Yale, Coach Bob Fisher ordered out the entireVarsity squad today for a practice game with team B.

Fisher, who was at the Yale-Princeton game Saturday, will try some of the plays attempted on Princeton.

Drilling Contracts Wanted By WEAVER-KOWNSLAR DRILLING COMPANY

We now have 2 good rotary rigs idle at Burkburnett and would like to get in communication with party or parties with good acreage they want drilled. We prefer taking contracts on good acreage near K. M. A. or General Oil Company's new well near Red River.

OUR RECORD

We have drilled 38 wells in the Burkburnett field. Have never lost a hole. Have had only one fishing job that held us more than 24 hours. That job held us only 5 days.

ELECTION IS VICTORY FOR CLEMENCEAU

France Votes Endorsement of Government in Contest That Was Ended Sunday

SIX OF SEVEN SUPPORTERS OF PREMIER SUCCESSFUL

Supporters of Former Premier Caillaux Were Routed in Department of Sarthe

By HENRY WOOD

PARIS, Nov. 17.—Sweeping repudiation of the Socialists characterized France's parliamentary elections yesterday, according to returns today.

While the complete results will not be known for some time, owing to complications in tabulation caused by use of the preferential ballot, indications today were that the coalition of Republican parties had won a smashing victory.

Former premier Briand, former Premier Viviani and Captain Andre Tardieu, have been elected to the Chamber of Deputies. It was indicated, Paul Deschanel, president of the chamber of deputies, and General Cestinau also have been seated, early returns showed.

The campaigns had centered largely on vindication of the war policies of Premier Clemenceau and his actions in the peace conference. Socialists who opposed many of Clemenceau's measures, put on a strenuous campaign to defeat his supporters.

A grouping of non-Socialist parties, known as the Bloc National will follow, and the Socialists apparently were generally defeated. They polled a heavy vote in many of the larger cities, however.

Election day passed without disorders. Elaborate precautions by the government were believed to have discharged any demonstrations planned by the radicals.

Despite bad weather throughout France—snows in Paris and through heavy rains in the south—the vote was unusually heavy, reports indicated. In Paris 81,000 electors, every eligible voter visited the polls, although balloting was slow because of the proportional system. In many voting places leaders were forced to recruit additional clerks from those visiting the polls.

At midnight results in Paris indicated that six supporters of Premier Clemenceau out of seven named contested, had been seated. The Republican vote was given unofficially as 234,102 in the suburbs to 211,221 for the Socialists.

Caillaux is Defeated. Reports from the department of Loire-Inférieure declared followers of former Premier Briand were leading. Supporters of former Premier Caillaux were being beaten. The department of Sarthe, according to early reports.

The election of Lebrun and Renault has been conceded. The radical Longuet has been defeated, on the face of early returns.

The Socialists, Renaudel, Briand and Mayeras, also have been defeated, it was indicated.

Politicians everywhere considered the Republican victory as complete vindication of the policies of the government.

CENSURE LABORING CLASS FOR THE DEMAND MADE

ST. LOUIS, Nov. 17.—Emphasizing increased production to decrease the living costs, delegates to the convention of the American Mining Congress, which convened here today, censured the laboring class for demanding a shorter work day.

Action against radicalism cannot be too drastic, the delegates emphasized. "Production, which America needs most of all at present, cannot increase if the laboring class obtains a work day two hours shorter than the present standard," declared Bulkeley Wells of Denver, president of the congress. It is evident that not nearly as much can be produced in six hours as can in eight or nine. The eight hour day is "a long way toward relieving the high cost of living."

P. Mathewson, a director of the organization, urged that the congress be prevented from taking on a class character. "We must represent the general public," he said.

Development of shale oil was encouraged to relieve the drain on wells. Among subjects to be considered at the meetings are contracts between capital and labor, tariff on raw materials, railway legislation, radicalism and nationalization of mines.

AERIAL DEPARTMENT FOR CITY OF DALLAS

DALLAS, TEX., Nov. 17.—Dallas is organizing an aerial police and fire force. "ships" and four aviators, in charge of Captain John W. Frost, formerly a captain in the New York Aero Police Squad, constitute the first unit of the aerial police branch.

It is proposed to equip the airplanes with wireless telephones with one receiving set attached to a police wagon and another to a fire wagon.

The plan is to utilize the sky-policemen to report fires, and they may be required to patrol the city at night. Pilots will be on duty for quick service at any time. The airplanes will be housed on the grounds of the Dallas Country Club.

An ordinance is being prepared by the city council to regulate aerial traffic over the city, and provision for the first squad of aerial police is being incorporated in the ordinance. Captain Frost has been directed to complete organization of the aerial department. He already has engaged pilots, and planned their initial work.

WEST TEXAS EXHIBIT TAKES FIRST PRIZE

STAMFORD, TEX., Nov. 17.—The November issue of the Agricultural Review, official bulletin of the International Farm Congress, shows that the West Texas Chamber of Commerce exhibited at Kansas City during September and October and won the following prizes:

First prize for the best 10 heads of miltomize. First prize for the best 10 heads of standard black, belted kaffir corn. First prize for the best 10 heads of red kaffir corn. First prize for the best 10 heads of fetaria.

YEARY URGES THE FARMERS TO HOLD HIS COTTON CROP

STAMFORD, TEX., Nov. 17.—The sudden slump in cotton prices is interpreted by W. B. Yeary, cotton specialist of the State Department of Agriculture, as a bear raid which can be broken up very easily if the holders of cotton will simply refuse to sell.

Mr. Yeary is directing the cotton holder campaign in West Texas from the offices of the West Texas Chamber of Commerce. Speaking of the sudden decline in prices, Mr. Yeary said: "This is a scheme to shake cotton out of the hands of the producers. No action of the Bank of England with reference to interest rates can increase the supply of cotton nor lessen the demand. A high cotton price this year is justified by laws of supply and demand. The crop has been unusually expensive to grow. There will be no difficulty for the farmer to get full cost of production and a profit if he farmers will ignore the slump and cease selling. Merchants, bankers and farmers should stand together in demanding a reasonable price for cotton. Any action that affects speculation in cotton would naturally affect the principal centers of speculation. But such flurries have nothing to do with the demand for the actual cotton. Even if speculation were stopped by law it could not lessen demand for the actual lint. My suggestion is to hold cotton for a price that will give a profit above cost of production."

PICKS 411 POUNDS AT THE AGE OF 72

HICO, TEX., Nov. 17.—Although two years past his three score and ten, W. J. Cox recently picked 411 pounds of cotton here, earning \$8.22 for his day's work. Cox's record is considered remarkable because, besides his 72 years, he got a late start and quit before sundown.

LONG STAPLE COTTON SELLS AT 75 CENTS

DALLAS, TEX., Nov. 17.—Long staple cotton raised in Salt River valley of Arizona is selling at 75 cents a pound, according to Lynn P. Talley, deputy governor and cashier of the Federal Reserve Bank, who has just returned from a business trip to El Paso and the principal banking cities of Arizona. Conditions in the section visited were excellent, he said.

Water for the Salt River valley is obtained through the medium of the Roosevelt dam and reclamation of the river bed in Arizona is being conducted on a business and economic basis, Mr. Talley said.

Conditions in the El Paso district are better than elsewhere, he said, and apparently everybody is prosperous. While mining operations are below normal at present enough ore is being shipped from the mines to meet the immediate demands of the smelters. The labor situation in the mining districts of Arizona seems to be satisfactory.

PROHIBITION PANACEA FOR ILLS OF WORLD

ST. LOUIS, Nov. 17.—Prohibition was referred to as panacea for the world's ills by speakers at today's session of the National Women's Christian Temperance Union, in convention here.

Enforcement of the prohibition law was urged as a part of the Americanization program being formulated by the union. Twenty-four women made two-minute talks along prohibition lines at the meeting. All emphasized that the women must not relax their efforts until world prohibition materializes.

A campaign to get 1,000,000 members to assist in the work will be launched, it was announced.

TO RELIEVE CONGESTION AT WAR RISK BUREAU

AUSTIN, TEX., Nov. 17.—In placing an intermediary in Texas the war risk bureau hopes to relieve the Washington office of congestion by getting each case in order before it is sent to headquarters for consideration, according to Major H. W. James, who has established headquarters in the adjutant general's office.

Major James says that he is here to advise ex-servicemen how to proceed in securing insurance due them and that he is under instructions to work in close co-operation with the adjutant general, the commissioner of insurance, the American Legion and the Red Cross, and social welfare bodies in the education of those interested in war risk insurance.

WOMEN TO ORGANIZE HOUSEWIVES LEAGUE

VERNON, TEX., Nov. 17.—As a result of a mass meeting called at the court house Thursday night, the women will organize a "housewives league, with a 'fair price' committee which will post quotations by stores which offer bargains on bulletin boards prominently situated. In the downtown section of Vernon, vigorous methods will be pursued to lower living costs here, including an educational campaign among the women of the county and the enforcement of the state weights and measures law.

PREMIER NITTI IS RE-ELECTED BY A LARGE MAJORITY

ROME, Sunday, Nov. 16.—Indications tonight were that 119 ministerialists, 27 members of the constitutional opposition, 45 socialists, 32 Catholics, 21 nationalists and 14 republicans had been elected today to the chamber of deputies.

COWS ARE PRODUCING HALF AS MUCH MILK

DALLAS, Nov. 17.—Five thousand more dairy cows from which Dallas gets its supply of milk are producing only half as much milk now as in the spring and the shortage will not be relieved before next spring, according to John T. Orr, president of the Dallas County Dairyman's Association.

One reason for the decreased production of milk, Orr said, is that the health of dairy cows has been impaired by heavy rains which have made it difficult to supply them a balanced ration. Grass and sorghum, which contain much water and little nutritive substance, upset the dairy cow's digestive organs.

There was not enough milk produced in the county some days, Orr said, to provide enough for each citizen of Dallas.

GRASS IS POPULAR WITH MANY DALLAS WOMEN

DALLAS, Nov. 16.—There is an unusually large demand among Dallas women for cigarettes, according to dealers here, and the reason is that many of their customers with the desire for "scented" cigarettes report that they are unable to keep them in their purses, and that they are "leaking" through.

Says Friends Are Commenting on the Big Change

Every day passes but what some of my associates speak about how much better I am looking, and I want others who may be troubled as I was to know the reason. The reason is what has made the difference, and that is the statement made by F. S. Buchanan, living at 302 North Cherylene avenue, Tulsa, Oklahoma, a few days ago.

"Before taking Orgatone," he continued, "I had suffered from indigestion and stomach trouble for over a year and had gotten into a very bad run-down condition. Invariably I would vomit after every meal and could get nothing to relieve me from this disorder. I had no desire for food of any kind and what little I did eat always caused gas, bloating and misery. My sleep was unquiet and I always felt as tired in the morning as if I had been up all night. My work was just a drag to me and to tell you the truth, I was knocked out all the time."

"Finally a drastic friend recommended the Orgatone treatment to me, and I purchased one bottle. I couldn't have hoped for better results, in three days after I began taking it my appetite was better and I was able to eat without suffering afterwards. I am buying two more bottles now and I am eating just anything I want and am sleeping like a log eight or nine hours every night. It has beyond the question of a doubt, proved to be the greatest medicine I have ever taken and I can assure you that I feel like a good man; in fact, every one that I could hear of and I am convinced that there's nothing so good."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the T. F. Young Drug Company exclusively, under the personal direction of a special Orgatone representative.—Adv.

DOCTORS FIND REMEDY FOR COLDS AND FLU

Physicians have learned of experience, during the epidemic of influenza, that one of the most important factors in the prevention of flu and pneumonia is to keep the liver active so that the digestive organs may be in perfect working order and the system thereby enabled to throw off colds, check sore throats, and resist serious complications. For this purpose they have found that the new, nauseless Calotabs are far more effective even than the old style calomel, which was formerly the universal favorite, as Calotabs do not weaken the patient, nor interfere with the appetite and digestion.

"Reg'lar Fellers"

More Than Fifty Separate Dialects Spoken in Mexico

WASHINGTON, Nov. 17.—A factor contributing to the disorders and lawlessness in Mexico, such as the kidnapping recently of William C. Jenkins, an American citizen, and his release upon payment of a heavy ransom, is the diversity of races and tongues, says a bulletin from the National Geographic Society.

"From Sonora to Yucatan more than 50 separate dialects are spoken," according to a communication to the society by Frederick Simpson.

"All the inhabitants of the west coast, however, with the exception of some hill tribes of Indians, can understand Spanish.

"Of these Indians the 8,000 Yaquis, with their crude Bacafete hill farms, their weird ceremonial masques and dances and their war-like attitude, are easily the most conspicuous. Many are enlisted with the federal army or employed as ranch hands and mine or railroad laborers.

"The Yaquis with the federal troops are termed 'Manos' or 'Tame' Yaquis; those in the hills, wild and hostile, are the 'Bronchos.' The latter are a vagrant lot, robbing ranches for food and animals, carrying rawhide drums and water gourds, wearing sandals of green cowskin—living by their wits. Pressed by hunger, they subsist as well on hares as beef.

"Of these Indians the most simple animals of the poor, thrive on the thousand on the west coast. Many run wild, like the wild asses of Mesopotamia.

NEGRO COTTON PICKERS DEMAND AUTO RIDE

MCKINNEY, TEX., Nov. 17.—Negro cotton pickers here, who are earning \$6 to \$15 a day for nine hours' work, refuse to work at all unless the farmers transport them to the fields in the morning and back to McKinney at night in automobiles.

A farmer who came here to employ negroes to pick his cotton told them he would take them to and from the fields in a wagon. The negroes declined. They said it made their heads hurt to ride in wagons.

Farmers, advertising for cotton pickers, are offering "75 a hundred and automobile transportation."

TABLOIDS

Spilled The Actors. NEW YORK.—The vaudevillian dashed onto the balcony. The revellers in the western dance hall registered fear; then the balcony collapsed and three movie actors were spilled over the bar downstairs.

Program Changed. NEW YORK.—A murder witness declared hired thugs don't "get together" with their victim and instead of "beat up" its "make-up" with court plaster and bandages.

Liquor Is Liquor. SAN FRANCISCO, CAL.—Hotel keepers petitioned Internal Revenue Collector Wardell to sanction frozen egg noggs and Roman punch for Thanksgiving and Christmas. Frozen or camouflaged liquor is liquor, he ruled.

She Found Out. BERKELEY, CAL.—Mrs. Frances Dexter tried to hang herself. She told the policeman who cut her down: "I just wanted to see if it hurt." It did.

Too Much Name. LOS ANGELES.—Michael Maloucoupanis was determined to marry, but she wouldn't stand for the name. That's why the court let him change it to Jim Lee.

Hunt With Airplane. SIKESTON, MO.—Leonard McMillin and James Faulkner, airplane hunters, will be tried at the next term of federal court on a charge of violating migratory game laws by hunting geese with an airplane.

Like It Straight. SPRINGFIELD, ILL.—Springfield likes its water straight. A plant to remove the iron from the aqua supply will be constructed at a cost of \$150,000.

DENY MEXICO IS SEEKING TO BUY ARMS IN EUROPE

MEXICO CITY, Sunday, Nov. 16.—Denial that General Candide Aguilar, Mexican foreign minister, went to Europe to negotiate new contracts for munitions, is made by Juan Barragon, chief of staff for President Carrance. The statement states his errand was not to arrange with firms in Belgium and Spain either for shipment of arms and ammunition nor the return of money paid as initial payments on contracts entered into during the Diaz and Huerta regimes.

IDAHO HAS MEXICAN PROBLEM ON HAND

POCATELLO, IDAHO, Nov. 17.—Idaho has a Mexican problem of considerable importance on its hands and it is understood that the state and federal governments are attempting to solve it in an amicable manner, if possible.

There are about 2,500 Mexican immigrants in the state. What to do with them is the big problem. Former United States Senator W. J. McConnell, who also was governor for two terms, is making an investigation for the federal immigration authorities.

It is claimed that the Mexicans were brought to Idaho under an arrangement with the department of labor in 1918 to save the sugar beet crop. Unskilled labor was not available, so far as state resources were concerned.

The Mexicans harvested the sugar beets and they, the Mexicans, have been in the state ever since.

Consumers Stage Milk Strike Until Price Is Reduced

NEW YORK, Nov. 17.—Milk drivers whose recent threat of a strike won them an increase of pay and sent milk prices up, found "a consumer strike" in progress in many parts of New York this morning when they made their early morning deliveries.

Hanging on doors of many homes and apartments were signs reading "Milk strike—no milk wanted here until Thursday."

The strikers have pledged themselves to abstain from the use of milk on Mondays, Tuesdays and Wednesdays of every week until the price of that commodity is lowered.

WITHOUT THE "REMEDY" CAN'T TAKE A CHANGE. LAREDO, TEX., Nov. 17.—Tarantulas and the rattlesnakes have driven deer hunters from the chaparral, and almost impassable roads and boggy prairies have so discouraged hunters that deer are now safe almost anywhere in the vicinity.

Hunters say it is dangerous to hunt in the brush, because of the unusually large number of rattlesnakes and tarantulas, and in the open deer is not worth the chase.

Although deer are reported numerous and fat at this time, it is said there will be no sport or profit in hunting until there are "several weeks of dry weather and plenty of sunshine."

It is claimed that the Mexicans were brought to Idaho under an arrangement with the department of labor in 1918 to save the sugar beet crop. Unskilled labor was not available, so far as state resources were concerned.

The Mexicans harvested the sugar beets and they, the Mexicans, have been in the state ever since.

CROWN PRINCE CHARLES REJOINS MISS LAMBRINO IN SPITE OF PARENTS

BUCHAREST, Nov. 3.—King Ferdinand and Queen Marie has been much disturbed by the fact that Crown Prince Charles has rejoined Miss Zysis Lambrino, whom he married irregularly in 1918 and from whom he was forced by his parents to obtain a separation soon afterward. Besides renouncing his rights to the throne, he has accepted a subordinate position in the army. The pair as familiar figures on the boulevards of Bucharest.

"Youth and love, I suppose will have their way in spite of kings and queens," said Queen Marie sadly. "The whole affair has been a great grief to the king and myself."

Emperor and other caused by the U but no action was claimed the United States retaining the vessel ment in the count the turned over to as they had American troops.

CARTER GLASS WILL ACCEPT APPOINTMENT

Action Is Taken on Request of President Wilson That He Succeed Martin

HAMLIN EXPECTED TO SUCCEED TO TREASURY

Senator Owen of Oklahoma Is Also One Prominently Mentioned for the Place

WASHINGTON, Nov. 17.—Carter Glass will resign his post as secretary of the treasury to accept the senatorship from Virginia offered him by Governor Davis, it was stated authoritatively at the White House today.

Glass final decision was made after President Wilson strongly advised that he accept the senatorship, Glass and J. P. Tumulty, secretary to the President, conferred Saturday, it was learned.

It has been known for some time that Glass preferred a legislative post to one in the cabinet. Another consideration was that while Glass is by no means a sick man, he does not enjoy the most rugged health and the treasury post at this time is one of the most strenuous in the administration.

These things, in addition to a belief that Glass will be a considerable addition to administration strength in the Senate are believed to have influenced Glass in his wish to leave the cabinet, and the President's acquiescence.

May Wait a Week

Despite the need of every available Democratic vote in the Senate, Glass in all probability will not resign from the treasury post and take the senatorial oath for a week. He is said to have consulted the Virginia delegation and to have been informed by them that there was no immediate need of assuming his senatorial duties.

The President's wish that Glass accept the seat in the Senate, seemingly demonstrated he had a successor selected. There was no word from the White House today, however, as to the choice.

Paul Warburg, formerly of the federal reserve board, would not accept the secretaryship if tendered, it was learned at the White House.

Hamlin May Succeed

Charles Sumner Hamlin, Boston, a member of the federal reserve board, stands high in the President's estimation and is very likely to be offered the treasury portfolio, it was learned.

Swager Sherley, director of finance in the railroad administration, former member of congress and chairman of the House appropriations committee, also is under consideration by the President.

Oscar A. Price, now located in New York, where he is president of the United Artists Corporation, could have the office if he desired, it was reported. He was active in Liberty loan drives.

Owen Is Mentioned

Others prominently mentioned are Assistant Secretary of the Treasury Leffingwell; Senator Owen, Oklahoma, a high authority on banking and former chairman of the Senate banking committee; Daniel Roper, commissioner of internal revenue, and Walker D. Hines, director general of railroads.

W. G. McAdoo, former secretary of the treasury, has been mentioned, but it is not believed the President is considering him. Bernard Baruch is highly esteemed by Wilson, but it is known he does not desire a cabinet position.

Hamlin, however, "high man" on the list of eligibles now before the President, it was learned on good authority and probably will be appointed.

NEGROES TO BE ENGAGED AS CENSUS TAKERS IN SECTIONS OF NEW YORK

NEW YORK, Nov. 17.—Negroes will be engaged as federal census takers in sections where they form the largest element of the population for the first time in history, Arthur G. Dore, United States supervisor of census, announced today. Preference will be given to negroes who were in the military service.

Mr. Dore said that representative negroes had informed him there had never been an accurate counting of the negroes of this country. This is true, they complained, to the fact that "white" enumerators classified "white" those negro men and women of light color.

CATHOLICS SUCCESSFUL IN BELGIAN ELECTIONS

BRUSSELS, Nov. 17.—Election day passed quietly yesterday with many voters away from the polls because of bad transportation after Saturday's blizzard.

The new chamber of representatives will be composed of 79 Catholics, 33 Liberals, 67 Socialists, one soldier and one Flammand, returns showed today.

STATUS OF GERMAN SHIPS IN POSSESSION OF U. S. DISCUSSED BY COUNCIL

PARIS, Nov. 17.—The status of the German ships and other German ships aggregating 170,000 tons now in the possession of the United States was discussed by the Supreme Council today but no action was taken. Great Britain has claimed that the action of the United States shipping board in retaining the vessels violates the agreement in the council that they should be turned over to the British as soon as they had finished transporting American troops.

Charge Teachers in New York Schools Are Bolshevistic

NEW YORK, Nov. 14.—Removal of six women public school teachers for alleged membership in the Communist Party was being sought today by William L. Eittinger city school superintendent.

Charges against the teachers were based on papers seized in recent raids. Three of them are said to have confessed affiliation with the Bolsheviks and believe in the communist manifesto, which Chief City Magistrate McAdoo declared constituted criminal anarchy. The other three were to be examined today.

Ludwig A. C. Martens, agent of the Russian soviet government in this country, has turned over to the Lusk Legislative Committee correspondence which he says will show that Chicago packing interests and other big American industries are aiding the soviet representatives here to effect trade relations between the United States and Bolshevik Russia.

EASTERN EXTENSION OF HOG CREEK FIELD THE MOST ACTIVE

JAKESHAMON, TEX., Nov. 17.—The most active part of the Hog Creek oil field at this time is the eastern extension in the vicinity of the Skelly-Sonkey well on the Anderson land, the Comanche Northern Oil Company on the Carruth and the Sinclair wells on the Thornton. The latest producer to be developed in this section is the 1,500 barrel well of R. O. Harvey on the Lewis land, three-quarters of a mile east of the Comanche Northern wells on the Carruth. All this development is in Erath county just south of the Eastland county line and it has given an impetus to the eastern extension that promises to make the development there more spirited than to the northwest. The new well is about a mile and a half northeast of Jakeshamon and promises to prove up a considerable territory to the east of this place.

The production in the eastern extension wells is from a lower horizon in the black time formation than are the wells of the old part of the pool and indicates that deeper drilling in the old pool may be expected to find the additional production. There is a great deal of activity in the oil field where wells were failures in the original sand or where they have played out in drilling them deeper.

SETTING PACKER AND PREPARING TO SWAB THE BURK EXTENSION

Preparations are being made to clean out and swab the Burk Extension well on the Hill farm, fifteen miles southeast of Frederick, section 29-3-16, and made big production reports on Frederick. A packer is being set it is reported. Reports last week that the well was gaining heavily, are confirmed in this new report.

ASSOCIATED OIL TO DRILL TWO ADDITIONAL WELLS ON THEIR CLAY COUNTY TRACT

The Associated Oil Company of Texas, of which A. C. Parks is local head, has let the contract for two additional wells on its Clay county lease, to be completed within ninety days. It is announced. The company is also beginning operations on its Fisher county tract.

This company has recently acquired a substantial interest in the Eagle Refinery, and has purchased a 41 car loading rack, is building pipe lines and has made big production reports, all of which have been announced previously in the Times.

GIANT BOMBER IS LAID UP FOR REPAIRS

CLEVELAND, OHIO, Nov. 17.—The giant Handley-Page bomber which left New York last Friday for a non-stop flight to Chicago, will be laid up in Cleveland for repairs for two weeks. It was estimated today. The ship lost about thirty feet of its wings in landing here late yesterday.

A novel method of encouraging children in their studies is practiced in the schools of Mexico. Those who show proficiency are permitted to smoke cigarettes while pursuing their studies.

DRILLING IN BAYLOR AND NEARBY COUNTIES

SEYMOUR, TEX., Nov. 17.—Kansas Gulf, J. W. Stevens is drilling at past 900 feet and running its 15 1/2-inch string of casing.

Kelly Green Oil Company, W. H. Portwood, underreaming.

G. Clint Wood, J. W. Stevens, derrick and contract.

Fisher, C. T. Porter, successor to Continental Oil & Refining Co., has been moving its drilling machinery to the location for the past week and is now rigging up.

Thomas Dunn, Sidney Webb has just completed its cellar, which is 7 by 8 feet by 22 feet deep, preparatory to recommencing drilling the well.

Croft & Associated-Anderson, derrick is being taken down and removed from Section No. 119, its present location and will doubtless be placed on other land of this lease. A mistake in the lease held under this contract resulted in the erection of the derrick on a 160 acre tract which Mr. Anderson had reserved from the lease—hence the necessity of removal.

H. F. Wilcox, Robertson is making good headway at between 1,100 and 1,200 feet.

Van Ness Syndicate, Snyder is drilling at 1875 feet.

G. Clint Wood, Mrs. L. C. Harrison is drilling and making very satisfactory headway. This well will make its first 1,000 feet of hole very quickly unless some unforeseen difficulty arises.

Throckmorton County, Sinclair Gulf, Wilkerson has successfully removed tools lost in the hole and has resumed drilling operations at around 2,500 feet.

Kelly Green Oil Company, Sam Davis is shut down for casing.

Knox County, DeLeon Petroleum, Ward is drilling at past 600 feet, running its 18 1/2 casing.

Knox Oil & Gas, McGraw remains unchanged and is shut down at 2,500 feet.

LAW-TEX WELL HAS SHALLOW OIL SAND

FRANKELL, TEX., Nov. 17.—A shallow oil sand has been found in the Law-Tex well on the townsite of Cotton Plant, two miles north of Frankell. It was encountered at 1,632 in 1,644 feet and the showing is estimated to be good for 40 barrels a day. This is the first shallow production to be had in this part of Stephens county although the Texas Company has completed a casing of 10,000 cubic feet about five miles north of Frankell at 2,100 feet. These developments in connection with the shallow production on the Stephens-Eastland county line at several points and in Palo Pinto county north of Strawn indicate worthy possibilities in the shallow sands of the deep sands areas of Texas.

VILLA ARMY DEMORALIZED BY THE AMERICAN TROOPS

PORT WORTH, TEX., Nov. 17.—The forces of Francisco Villa were so badly demoralized when they were shelled near Juarez several months ago by United States artillery that the bandit chieftain never will be able to regain his prestige and "come back," in the opinion of Captain Frank Tillman, who recently resigned from the army after serving six months at Fort Bliss, near El Paso, with the Thirty-second field artillery. He also served in France.

"When the bandits were shelled by American artillerymen," Captain Tillman said, "the slaughter was fearful. Many of the outlaws had never before heard a shell explode and when the missiles began falling among or near them they broke and ran, throwing away their arms. Many more bandits were killed than has been reported."

Tillman organized Battery D, 123rd Field Artillery (Thirty-sixth Division) in Fort Worth, when the United States entered the world war. In France, he was transferred to the regular army. He will enter newspaper work here.

BOLIVIA DENIES MAKING AGREEMENT WITH CHILE

LA PAZ, BOLIVIA, Nov. 17.—The answer of the Bolivian foreign department to inquiries by Peru concerning the report of an agreement between Bolivia and Chile by which Bolivia acquired a port, according to the Tiempo, says simply that no agreement has been made with Chile, but that Bolivia does not renounce her right to continue negotiations to obtain the port.

BROWN COUNTY ROADS ARE MADE PASSABLE

BROWNWOOD, TEX., Nov. 17.—Farmers in the Bangs district are scattering layers of hay and sorghum pulp over mudholes in roads between Brownwood and Bangs. After this treatment, motorists say, it is possible to drive safely over even the most dangerous mudholes. Timbers thrown into the mud served for only one automobile to cross and then sank out of sight.

ROADS IN STEPHENS IN BETTER CONDITION

FRANKELL, TEX., Nov. 17.—Roads in the Stephens county oil fields are a little better after a few days of sunshine but they are deplorable at best and present a very grave problem for the operators who are hauling large quantities of materials from distant railroad points to the fields. Operators are depending upon the Wichita Falls, Ranger & Fort Worth Railroad that is now building north through Stephens county toward Frankell.

DALLAS HAS ACTIVE FAIR PRICE COMMITTEE

DALLAS, TEX., Nov. 17.—An active fair price committee in Dallas, as a basis for investigation and prosecution of profiteers, will be organized and maintained under direction of local federal authorities, these authorities have decided. Women will be asked to serve on the committee. A fair price list will be prepared.

Re-Mapping the World from the Sky

How the Earth is Now to Be Charted from the Upper Air by Automatic Cameras That Assure Greater Accuracy Than Any Ground Work, and That Will Lay Bare Lands of Mystery.

An Airplane Camera with Pistol Grip.

Hand Camera Operated for Aerial Snapshots.

MAPS will be made from airplanes in the future. Instead of dragging the surveyors' chain up hill and down dale the mapmaker will cover the country at a 100-mile-an-hour pace or better. Aero maps cost but a fraction of the old-fashioned kind, besides having many other advantages. It is estimated that at the present rate at which maps are made it will take two centuries to complete the mapping of the world. The aero mapmaker can do the work in 20 years and do it better.

Few persons realize the immense task which confronts the surveyors and mapmakers. The total land area of the globe, including the arctic and antarctic regions, is about 60,000,000 square miles. After centuries of exploration knowledge of half of its area still remains very sketchy. Fully 8,000,000 square miles are entirely uncharted and unmapped. The aero mapmaker will add vastly to knowledge of world geography and will assist in the development of land in many ways.

A Product of the War

Although the new science is very young it has been established on a firm scientific basis. The aero map is distinctly a war product. Under the pressure of necessity the new science was discovered and developed with feverish haste. In time of peace it would have required several years to develop aero maps and the machinery for making them; whereas, war pressure accomplished the work in a few months. An entirely new branch of photography had to be developed to make the aero map possible.

A Glimpse of Miami and the Miami River from a Mapping Airplane.

A Mosaic Map of Miami and Vicinity, Made Automatically in Sections and Pieced Together.

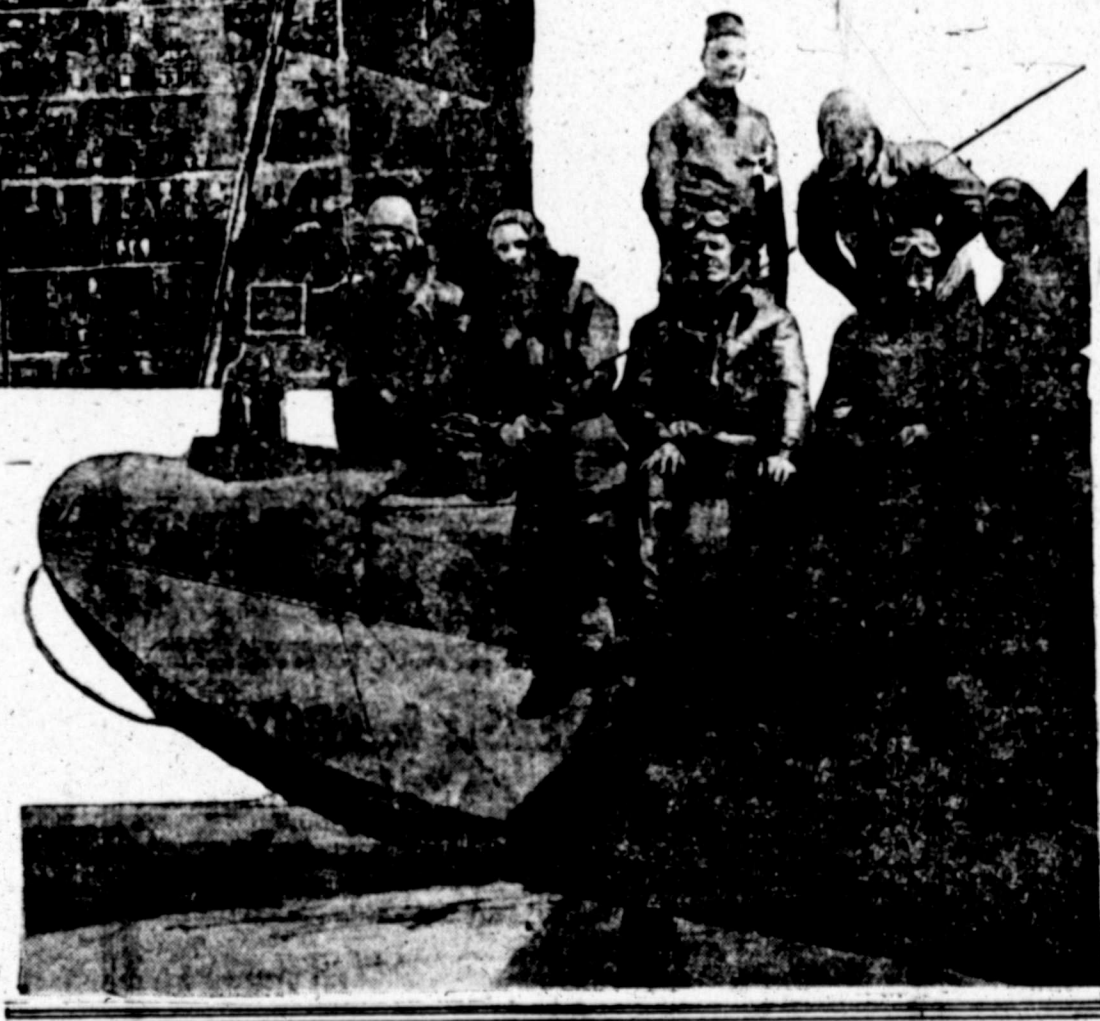

The best pre-war cameras could not do the work and new and complicated mechanisms had to be invented and perfected by experiments.

The principle of the aero map is very simple. It is made by photographing the earth's surface from a considerable altitude. The mechanical difficulties of the work, however, are very baffling. A map, even a small one, must be made up of many different photographs which must be matched together with mathematical accuracy. If a very trifling mistake is made in any one of the pictures the alignment of roads, rivers and boundaries is confused and the map is worthless. The pictures, hundreds of them, must be taken from exactly the same altitude or they will not combine properly.

The Marvellous Camera

The cameras constructed for such work are marvels of ingenuity. In photographing from a great altitude the operators found entirely new problems. The atmospheric conditions played queer pranks with the pictures. A photograph taken from an altitude of 1000 feet might be very hazy, while an exposure made from an altitude of a mile under the same conditions might prove clear and distinct. The most expert photographers of several countries worked tirelessly at this problem. Many lives were lost in the work.

It is no exaggeration to state that the aero maps often decided the issue of great battles and campaigns in the great world war. They served, besides, to revolutionize many methods of warfare. The fearless air scouts not only mapped the entire battle line and the country lying behind it, but kept these maps up to date. A continuous photograph map was prepared for the commanding generals directing the battles which enabled them virtually to look directly down upon the enemy at all times. These maps were corrected by new photographs day by day, so that the commanding officers could be informed of the movement of enemy troops, the preparation

A Group of Map-Making Airmen on Machine Equipped for Charting.

of new fortifications and other invaluable information.

Now that the war happily is over the aero map is being quickly adapted to scientific and commercial purposes. The first aero map to be made of large regions in America have been prepared by soldier air men of the camps and reservations. The government is already planning to employ the aero maps on a large scale in many parts of the country for a variety of purposes. Within a few months at most the aero maps will be made in connection with the exploration of remote regions.

The aero photographer rises to a fixed elevation and proceeds to photograph the ground beneath him while flying at exactly the same height. If he should fall into an air pocket or be suddenly thrown up by some unexpected air current to a different level the photographs may not match

in this case the negatives are enlarged or reduced until they are on exactly the same scale. A skilful hand is required at the wheel to keep the airplane at the same level. The aero mapmaker flies back and forth over the area to be mapped in parallel lines just as a farmer mows a field of grain so that nothing will be overlooked.

Making the Photographic Map

The number of photographs required are estimated according to the speed at which the airplane flies. The camera is equipped with an ingenious device which may be set to take a certain number of photographs per second or minute as desired. Since the camera has been wound up and adjusted all that remains to be done is to fly rapidly over the area to be mapped. It may be necessary to take hundreds of photographs to prepare a single map. It will be seen that a pace of a hundred miles an hour or faster makes it possible to cover an immense amount of territory in a very short time.

All the photographs are taken with the camera pointed directly down upon the earth be-

neath. The camera is hung from the side of the airplane car or placed in the floor and so adjusted that it will always swing to a vertical position no matter what angle the airplane may assume. If the pictures are taken even at a slight angle from the vertical it will be impossible to prepare a perfect map from them. When the negatives have been developed and printed the sections are matched together with the greatest care.

The air photographer must be certain that his pictures will overlap when they are placed together. It is much better to photograph a section twice than not to photograph it at all. The mosaic formed of these photographs must be matched so carefully that the edges do not appear in the finished picture. The work is surprisingly accurate. An aero map of a great city, for instance, made up of scores of separate pictures will show the streets in perfect alignment and

the street intersections at exactly the same angles as in the original. With a map of this kind it is possible to triangulate and calculate distances with mathematical accuracy.

One of the first uses to be made of the aero maps by the government has been in reproducing the forest areas. These maps show the nature of the land in detail and the condition of the trees as no ordinary map can possibly do. It is possible to calculate from them the quantity of timber in a given area and its condition.

Aero maps of the coast lines will also prove invaluable. The lines are constantly shifting in many places due to streams and tides and it is difficult for Uncle Sam to keep himself fully informed of the conditions along his great sea boundaries. An aero map maker flying at a hundred miles an hour can cover long distances with ease and at trifling expense, thus giving the government invaluable information.

The value of the aero map has been quickly realized by real estate promoters. Such maps show at a glance the advantages of any tract, its means of communication and adjacent territories much more clearly and attractively than any ordinary map. Engineers find such maps indispensable in reproducing a watershed and in preparing to erect dams or lakes and in opening new waterways. The builders of railroads, canals or irrigation projects, in short, a great variety of engineers prefer to work from an aero map to any other.

A division of aero and aeronautical mapmakers has already been organized in the navy department and is doing excellent work. Men are being trained to become expert in every detail of the work, both aloft and in the photographic work which follows. The advantages of various types of airplanes for the work are being carefully tested. Other experts are at work inventing new forms of cameras. A few years without doubt bring about a revolution in mapmaking due to the airplane.

A New Surgical Method

A VERY important progress in surgery is announced in France, which consists in the discovery of a method of performing any surgical operation without pain. On this new method, the principle is to make the patient insensible to pain, but he does not lose consciousness. It is based on a principle which was brought out several years ago, and this allowed of making operations on the lower limbs and the lower part of the body without pain, by injections of cocaine or similar substance into the spinal column. But this treatment did not produce insensibility in the upper part of the body.

Within a recent period Dr. Le Fillatre succeeded in making the entire body insensible by the use of a single injection, and the liquid comes in contact with the spinal column throughout its whole extent. He makes use of an injection needle and a glass syringe. After purgation the day before and also half an hour before the operation, he makes the injection of the liquid, which is cocaine or other substances such as sulphate of strychnine and sparteine.

The procedure is described as follows in the Scientific American: The patient has his eyes bound so as not to be affected by external movement, and he sits on a table with his legs stretched out before him. The application is made at the lower end of the spinal column, and upon making a puncture, the liquid surrounding the spinal column flows out. When a sufficient amount has flowed, depending on the degree of insensibility which it is desired to produce, he applies the syringe with the cocaine or other solution and pushes in the contents. This action is repeated several times, and the operator obtains a properly regulated mixture of cocaine and the spinal fluid.

The insensibility of the lower part of the body is almost instantaneous; in the trunk and in the arms and head it follows a few moments after. Then the patient is in a condition to undergo almost any kind of surgical operation, and without pain, but he remains conscious.

BOARD OF STEWARDS
SUBSCRIBE \$40,000
TOWARD NEW CHURCH

DECIDED IMPETUS GIVEN BUILDING PROGRAM FLORAL HEIGHTS CHURCH.

PLAN TO RAISE \$150,000

New Church is to be Erected at Corner of Tenth and Polk.

With initial subscriptions of \$40,000 from the board of stewards alone, the building fund campaign for the Floral Heights Methodist Church was launched Sunday, at the first services of the newly organized congregation.

One hundred and fifty thousand dollars has been set as the amount to be raised for the building program, this amount to include the building site at Tenth and Polk, and the church and parsonage.

Subscription lists were in preparation Monday and a thorough canvass of the congregation will be made.

The pastor, Rev. W. L. Tittle is very enthusiastic over his new charge, and the splendid start on the building fund which was made yesterday. He is especially pleased with the spirit of co-operation shown by the official board, and the congregation, and also with the promise of co-operation from the general public.

The congregation is at present worshipping in the high school auditorium, Tittle conducting his first services there Sunday. A large and interested attendance is reported for both services and on the Sunday school. Judge W. C. Chancy is superintendent of the Sunday school, assisted by an efficient corps of other officers and teachers.

By next Sunday it is announced, every department of the church, including Epworth League, will be in full working order. The high school auditorium being centrally located, is considered an ideal place of worship, while the church building is being erected.

IT'S WELL TO KNOW

The man of the future must have physical as well as mental fitness. For this reason mothers should make sure that their children receive the sort of nourishment that makes for physical welfare. We make a specialty of FRESH INFANT FOODS

If your child does not seem to thrive on the food you are using, then select something from our stock.

We order these goods at frequent intervals and guarantee freshness. In fact we carry everything in foods, remedies, Nursery Supplies, etc., that may contribute to the little fellow's health and comfort.

EFFORT TO PUT BAN ON MINERAL WATERS

FOOD INSPECTORS FIND BACTERIAL COUNT HEAVY IN CERTAIN MINERAL WATER.

Prohibition of sale in the city of certain mineral waters, both from local wells and out of town shipments is to be asked of the city council in recommendations soon to be submitted by the department of food inspection, Dr. H. G. Allen, head of the department, said Monday morning.

The presentation of these recommendations follows a careful investigation underway during the past two months of all water offered for sale in the city. The harmful bacteria count has been heavy in some cases, Dr. Allen says.

A number of mineral waters shipped here from other places have been analyzed and found impure by the department and will be included on the "black list" soon to be turned over to the council for action.

THREE WICHITANS RECEIVE ADVANCED RATINGS IN NAVY

Three Wichitans, serving in the navy, have received recent promotions. It is announced from the Dallas headquarters of the North Texas recruiting district.

Rufus A. Daugherty, 1922 Ninth street, serving on the U. S. S. Pueblo, has been advanced to engineer first class, from the second class rating.

Louis Bell Hardeman, 1709 Ninth street, serving aboard the U. S. S. Savannah, has been promoted seaman, second class, from an apprentice seaman rating.

Joe W. Weber, serving aboard the U. S. S. Falcon, is the third of the list, advancing to the rating of blacksmith from that of engineer second class.

All branches of the navy are now open to enlistment, the announcement continues, and promotion will come fast to the right men.

MRS. CAROLYN PRIEBE DIES NEAR HOLLIDAY

HAD BEEN RESIDENT OF COUNTY FOR MORE THAN THIRTY YEARS.

Mrs. Carolyn Priebe, for thirty years resident of Wichita county, died Sunday, November 16, at the home of her daughter, Mrs. C. Krebs, near Holliday. Funeral services were held Monday afternoon at 2 o'clock from the Bowman church, and burial was in Bowman cemetery.

Mrs. Priebe, who was 77 years and 6 months old, was the mother of C. F. Priebe of this city, and was well known locally.

She was born in Germany, coming to this country with her parents when a child. She was married in Minnesota more than a half century ago to C. F. Priebe, also a native of Germany. Her husband died twenty years ago, after the family had moved to Wichita county.

The children surviving are C. F. Priebe of this city, Mrs. C. Krebs, with whom Mrs. Priebe made her home, A. A. Priebe of Denver, Colorado, Mrs. J. J. Schmidt of Galveston, W. C. Priebe of Lake Creek, Archer county, and A. F. Priebe of Canada. There are also a number of grandchildren and great-grandchildren.

HEALTHY HANGOVER BRINGS SECOND ARREST IN SINGLE DAY ACCOUNT INTOXICATION

A fight in a local shine parlor Saturday between two small negro boys, arising over an argument concerning the ownership of a shine rag caused one of the participants to be tried on a charge of fighting in police court Monday morning. "He tried to beat me out of my shine rag," the boy said, "by washing it out so I couldn't recognize it, but I knowed it was mine and I asked him for it. He wouldn't give it up and started choking me." When it was shown that the other shine boy, who has since left these parts, was much the larger and the aggressor in the affair, Judge Ogle dismissed the case with the advice to the proprietor of the shine parlor, who was present in court, to maintain a little better order among his employees.

Most of the cases on the crowded docket were either as a result of Police Hunter's efforts to round up the service car drivers who have failed to take out a city license. However, there were the usual Monday morning array of drunks. One man who was charged with intoxication had been released Sunday morning after paying a fine for being drunk and had been re-arrested later on in the day on a similar charge. He plead not guilty in court and stated he had not taken a single drink since his release from custody Sunday morning, but admitted he still had somewhat of a hangover from the first celebration which was inspired by several bottles of horse liniment, labeled "70 per cent alcohol; not to be used as a beverage." His case was passed until Tuesday to give him a good chance to get entirely sober.

WE HAVE MOVED

We are now in our new quarters at the corner of Ohio and Sixth and are distributing our products through the grocer.

We wish to thank the local merchants for their loyal co-operation. We also wish again to express to YOU, our consuming public, our full appreciation of your patronage, and assure you we will endeavor to reciprocate by producing the very best goods possible.

We want every citizen of Wichita Falls to feel that they have an interest in our business as our success has been through you and we shall endeavor to merit a continuance of your past favors. From the bottom of our hearts, we thank you.

"WHO CAN BEAT IT."
