DISTRICT JUDGES WILL AGREE ON RECEIVERSHIP

To Select Man to Operate Well Until Supreme Court Decides Case

FORT WORTH, Nov. 20.—A friendly settlement between Texas and Oklahoma had been practically agreed upon at noon today, when the two governors delegated District Judge Calhoun of Texas and District Judge Jones of Oklahoma to meet at once and decide which one of the two should handle the disputed oil property on Red River. When they reach an agreement, they will report back to the main conference and their action will be confirmed. The conference decided that the district judge having jurisdiction over the boundary lands should operate the wells, sell the oil and impound the receipts until such time as the United States supreme court should finally decide which state owns the land.

HELD CONFERENCE AT FORT WORTH TODAY

FORT WORTH, Nov. 20.—Attended by Governor Hobby of Texas and Governor Robertson of Oklahoma, as well as by numerous attorneys representing the two disputing states and owners of the Red River oil lands, a conference was begun here this morning to settle peacefully the boundary question.

REVOLUTIONISTS AT VLADIVOSTOK ARE DEFEATED

General Galda Falls in His Effort to Secure Control and Is Captured

AMERICANS ASSIST IN BATTLE STAGED TUESDAY

VLADIVOSTOK, Tuesday, Nov. 18. Revolutionary forces which for the last two days have attempted to obtain control of this city, were completely defeated by government troops today in a battle which was commenced before dawn. General Galda, the revolutionary leader, was wounded and captured, and his followers were driven from every point of vantage by government troops.

Revolutionary Leader Driven From Every Point of Vantage By Government Troops

Shortly after midnight the government troops moved two three-inch field guns into position at the Svetlandskaya bridge, by which the main thoroughfare of the city crosses the Siberian railroad. The bridge is only 500 yards north of the station, the strongest position of the rebels. A little later, troops reinforced by 100 cadets from the naval training school, proceeded to the business center of the city, while armored cars began arriving at the bridge.

WOMEN ARE RESCUED

Before the battle opened international policemen and three American soldiers gained entrance to the railway station from which they took two Russian women who had been rescued from the rebel hands. At 1 o'clock there was a burst of machine gun fire against rebels holding the railway yards and gunboats started a clear field of fire. Later the fighting seemed to be in control of the railroad yards, although exposed to artillery fire from the high ground about the city.

PROCLAIM NEW GOVERNMENT

Monday morning at 1 o'clock the social revolutionary Zemstvo group proclaimed a new democratic representative government. Allied troops patrolled the city, with American troops protecting the American consular buildings in New Orleans and Brooklyn, under command of Vice Admiral Rodgers, and by the Russian train. The allied military council went into session just as the fighting started near the railway station, all of 1 a.m., including the Becha, being neutral.

Against adoption: Republicans: Ball, Borah, Brandegee, Calder, Capper, Colt, Cummins, Curtis, Dillingham, Edge, Elkins, Fernald, France, Frelinghuysen, Gronna, Hale, Harding, Johnson of California, Jones of Washington, Kellogg, Kenyon, Keyes, Knorr, LaFollette, Leavitt, Lodge, McCormack, McLean, McNary, Moses, New, Newberry, Norris, Page, Penrose, Phlips, Poindexter, Sherman, Smoot, Spencer, Sterling, Sutherland, Townsend, Wadsworth, Warren and Watson—Total 46; Democrats: Gore, Reed, Shields, Smith of Georgia, Thomas, Trammell and Walsh of Massachusetts—Total 7. Total against—63.

HOW THEY VOTED ON RATIFICATION OF TREATY.

WASHINGTON, Nov. 20.—In a statement late today Senator Hitchcock predicted that without resumption of the treaty by the President a compromise could be effected between senators favoring ratification in some form. "Concessions on both sides must be real and not merely nominal," he said.

WILL PRESENT TREATY TO DECEMBER CONGRESS

WASHINGTON, Nov. 20.—President Wilson is expected to submit the beaten peace treaty to the next session of congress, starting December 1.

Much Surprise Created In Peace Conference Circles

PARIS, Nov. 20.—The adjournment of the United States Senate for the session without ratification of the peace treaty created much surprise in peace conference circles, as dispatches from Washington had suggested that some compromise was probable. The members of the supreme council withheld comment.

RUMANIA TO DEMAND EXTRADITION OF BELA KUN

PARIS, Nov. 20.—Dispatches from Bucharest say the Rumanians will demand the extradition of Bela Kun, former communist dictator of Hungary, on the ground that he is a native of Transylvania and therefore at the present time a Rumanian citizen. It is proposed to bring a specific criminal charge against Kun, accusing him of treacheries while dictator of the workmen's sick insurance fund in 1916, the dispatches add.

CONGRESS ENDS A SIX MONTHS ACTIVE SESSION

Consideration of Treaty Was the Outstanding Feature of Deliberations

WASHINGTON, Nov. 20.—While consideration of the treaty of Versailles was the outstanding event of the first session of the sixty-sixth congress—the first in six years in which Republicans have controlled both branches—considerable important legislation was completed and many other measures prepared for disposal when the regular meeting begins December 1.

The session closing today was an extraordinary one convened May 19 under a call cabled from Paris by President Wilson, to consider "vitality" of the appropriation bills which failed at the session ending last March 2.

Among the principal achievements were: Submission of the woman suffrage constitutional amendment to the states for ratification. The prohibition enforcement bill, providing for enforcing wartime and constitutional prohibition, passed over President Wilson's veto.

The act repealing the daylight saving law, also passed over the president's veto. Providing for return of telegraph, telephone and cable wire lines to private operation.

Continuing government control of eyes to January 15 next. Extension of the Lever food and fuel control to clothing and other necessities and penalizing hoarding and profiteering.

Disarming "prowlers" rank to General Pershing. Providing for demobilizing the army to a peace basis of approximately 200,000 men, pending permanent peace time legislation.

Authorizing completion of the government railroads in Alaska. Continuing wartime passport restrictions so as to prevent an influx of radical aliens.

Ten appropriation bills aggregating about \$1,000,000,000 also were passed. They included \$750,000,000 for the railroad administration; \$775,000,000 for the army; \$615,000,000 for the navy and sundry civil budget of \$613,000,000.

The French treaty, providing an American guarantee to assist Franco in the event of unprovoked German aggression was submitted to the senate by the president July 23, after demands from senate Republicans, and still remains in the foreign relations committee.

Another treaty, the Panama canal settlement with Colombia, proposing payment of \$25,000,000 by the United States, also remains in committee.

Several important legislative measures went over for final action at the regular session. The oil, coal, gas and phosphate land leasing bill was passed by both bodies and remains in conference, as does the Edgo bill authorizing organization of corporations to help finance American export trade.

The Koch railroad bill passed the house and will be taken up with the senate interstate commerce committee's bill at the December session. The house also passed and sent to the senate bills providing for development of waterpower projects, for establishment of a federal budget system and providing a permanent government oil policy.

PROHIBITION IS ARGUED BEFORE SUPREME COURT

Life of Wartime Measure is at Stake in Three Test Cases Presented

DECISION NOT EXPECTED UNTIL AFTER DECEMBER 1

Issue in Lower Court Decisions on This Question a Tie Between Wets and Drys

WASHINGTON, D. C., Nov. 20.—The life of wartime prohibition law as it stands today before the supreme court.

Three cases involving the validity of the law were up for argument today. Decisions, expected to be handed down several weeks before constitutional prohibition becomes effective, depends the question of whether wartime prohibition can be enforced.

The scope of wet and dry in the lower courts is virtually a tie, the prohibitionists having won in New York and Chicago, while the liquor interests have been victorious in Louisville and Providence, R. I. The ablest attorneys that both sides can muster meet today. Elihu Root, former secretary of state, probably will lead the fight for the liquor interests, assisted by Levy Mayer and William Marshall Bullitt, noted Chicago lawyers.

The prohibitionists have the government back of them since the attorney general must defend all laws of congress. Attorney General Palmer may take part in the arguments, but the main burden will fall upon Solicitor General King.

Government briefs in the case filed early today show that department of justice attorneys will stand on declarations of Attorney General Palmer that a state of war still exists and until peace is proclaimed the ban cannot be lifted.

The liquor interests, however, will point out that the president in vetoing the Volstead bill, declared it a cause for wartime prohibition had ceased to exist.

The government will insist that the fifth article of the constitution, which provides that the government cannot take private property without due compensation, will not be violated if prohibition is continuous and all the liquor in the country becomes a total loss. This based on a declaration of congress in the '90s which, in effect, held that liquor was not property in this sense and that as a result states and cities have confiscated and destroyed liquor found in violation of state and local laws.

WHY MAKE THE ANNUAL STRUGGLE WITH RHEUMATISM?

Nature Gives a Cry for Help That S. S. S. Can Answer With the Right Treatment

This is the season when the damp, cold, changing weather of winter intensifies the pains and other disagreeable symptoms of Rheumatism.

Rheumatism never comes by accident. It is in the blood and system before a pain is felt.

The symptoms of this disease are almost unnoticed at first, so insidiously do they steal over the body; gradually the little pains and stiffness increase until they develop great inconvenience day by day, and if neglected or improperly treated will become chronic.

Not only is Rheumatism the most painful of all diseases, with its swollen, stiff joints, throbbing muscles and stinging nerves, but it is a formidable and dangerous trouble.

Every day the poison remains in the system the disease gets a firmer hold and the patient is soon left a helpless cripple.

Of course, if this painful disease was on the surface only, you might reasonably expect to get relief by the use of lotions, liniments and other local applications. But the source of the disease is in your blood, the tiny disease germs find lodgment there and multiply by the millions, scattered by means of the blood circulating throughout

British Editorial Comment on U.S. Attitude on Treaty

LONDON, Nov. 20.—The Manchester Guardian, commenting editorially on the American attitude toward the peace treaty, says:

"Whatever the result it is essential for Europe to understand that American opposition is mainly the outcome of not narrow nationalism or lack of imagination and still less political maneuvering. It is rooted in the faults of the treaty itself.

"The covenant was born in an atmosphere of passion. Many of its articles are ambiguous, impractical and inequitable. But dominating as the act is, it has behind it in Europe not the forces of reaction and imperialism, but the enthusiasm and aspiration of democracies, who see in it a basis whereon a structure must and will rise, and who count it a disaster if the hand of America is withheld from that work."

FINAL RETURNS BELGIUM ELECTION
BRUSSELS, Nov. 19.—Final returns from Sunday's parliamentary elections today showed the Catholics elected 78 candidates, Socialists 68, Liberals 23 and miscellaneous parties 2.

YOUR COLD EASED AFTER FIRST DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Don't stay stuffed-up! Quit blowing and snuffling. A dose of "Pape's Cold Compound" taken every two hours until three doses are taken, usually breaks up a severe cold and ends all gripe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

Begy's Mustarine Astonishes All Money Back, Says Druggists, if Begy's Mustarine Isn't Far the Best Mustard Preparation.

A Big Yellow Box for 30c

Ask your druggist to show you a box of Begy's Mustarine; he and every other druggist in America is authorized to return your money if it does not do as advertised.

Doctors have prescribed it for 19 years. It's the original, and best improvement on the old-fashioned Mustard Plaster, and quickly stops rheumatic pains, neuritis, neuralgia and lumbago, and instantly relieves tonsillitis, pleurisy and bronchitis.

Just rub it on, and overnight away goes sore throat, coughs and chest colds. For sprains, swellings and all aches and pains, it has no equal, while for sore feet, nothing yet discovered can compare with it the quickest pain killer on earth. Be sure the Begy's always in the yellow box. S. C. Wells & Co., LeRoy, N. Y.

LABOR ELEMENTS TO ASK COUNCIL TO RESTORE SMITH

PETITION ASKING POWERS CONFERRED ON GOODFELLOW BE GIVEN CITY MARSHAL

PRESENT PETITIONS TONIGHT

Reported That Petitions Have Already Been Endorsed by Number of Unions.

Conflict between the council and Fred K. Smith, chief of police, over the control of the city police department is expected to come to something of a head when the council meets tonight, precipitated by the presentation of eight petitions circulated among members of local labor unions, demanding the curtailing of the powers of the assistant police commissioner, Robert C. Goodfellow, and the restoration to full control of the department of Chief of Police Fred K. Smith.

The action demanded in these petitions has received the unqualified endorsement of practically all of the local labor unions, and the petitions bear the signatures of a large part of the membership, declared W. F. Wilson, circulating one of the petitions, who stated that he was working under the direction of Jack G. Prather, business agent for the painters union.

This action has received endorsement, among others, from the carpenters and painters unions, the former numbering 1,000 members, and the latter about 250, he continued.

If the council does not take prompt action on this matter, we will take action that will give them food for thought.

"We haven't anything against Mr. Goodfellow," the assistant commissioner. Our feeling in the matter comes through the fact that we have elected Fred Smith to this office, and we do not believe in having a duly elected officer shorn of the power which we elected him to hold."

In addition to the presentation of the petitions, tonight is the date set for Chief Smith to present his explanation of alleged discrepancies in the accounts of the police department, set forth in a report to the council filed two weeks ago by George Thompson, who was then acting as day clerk sergeant, and who made an audit of the accounts of the department for the past few months.

In an informal report rendered at

the last meeting of the council Chief Smith declared that the accounts of the department would be more than balanced by cash checks given for fines in hand which had been turned down for payment at the banks, and by expense money that had been paid out on the direction of the mayor and council.

Mr. Goodfellow, then Equity United States marshal, was named by the council during the summer as assistant to M. A. Bundy, police commissioner, and took charge of the police departments through exercise of the authority of the police commissioner.

The text of one of the petitions being circulated is as follows: "We, the undersigned voters and citizens of the city of Wichita Falls, Texas, endorse and recommend that: "Whereas Assistant Police Commissioner Goodfellow now holds and assumes certain powers in the control and management of the police force of this city which are in conflict with the ordinary duty of the chief of police and which prevent the exercise of the powers of the chief of police; we hereby recommend that all power and authority now held and being exercised by said police commissioner in the control and management of the police force of this city be conferred and given to Fred K. Smith, chief of police of this city."

PRESBYTERIANS START REVIVAL SUNDAY

Sunday, Nov. 23, the annual revival services at the First Presbyterian church will open, Dr. E. E. Hendrick, who conducted services at this church three years ago, to again preach. Laurie Mallard, for five years pastor with Dr. N. F. Grafton, pastor of the church, when the latter was engaged in evangelical work, will be song leader, and Dale Haven, pianist for the Hendrick party three years ago, will again play.

The Hendrick party was very popular during its first revival and this meeting is expected to prove a similar success. Dr. Grafton invites the co-operation and attendance of the pastors of the city, and their congregations.

ANTI-STRIKE LEGISLATION

The Senate Interstate Commerce committee voted 14 to 1 to incorporate into the pending railroad bill a provision prohibiting strikes and lockouts of railroads, and the penalty provided is a fine up to \$100 or imprisonment up to six months, or both.

This is the bill which the Brotherhoods have designated as "brutal" and as bringing about "involuntary servitude" of labor. The bill does not prevent any man from quitting work—striking, if one cares to call it so.

An anonymous "republican subscriber" of the Fort Worth Record has been taunting Editor Fitzgerald about the recent election in the Fifth Oklahoma Congressional district.

Our Fort Worth contemporary probably has overlooked another and not unimportant factor. Senator Gore is an Oklahoma democrat, but there by his influence in democratic councils by his undemocratic acts, but he still is a power politically in the old Indian Territory.

ATTITUDE OF HOLLAND

Holland has been known through an authoritative source "through the average foreign correspondent" so dear to the average foreign correspondent that it looks upon the former Kaiser and the former Crown Prince as guests and that the laws of hospitality—i. e., protection of guests from their enemies—apply, even though they were invited by unwelcome visitors.

It will require something more than the desire and the fee for the foreign-born to become an American citizen if the bill favorably reported by the House immigration committee gets through.

The purpose of the new-fangled strikes in New York City is as much to demonstrate that the unorganized public can act together in its own protection if necessary compels, as it is to secure a reduction in the price of milk, and the result of the movement will be watched with interest in hundreds of other cities where the public has been worn out paying exorbitant prices for the necessities of life.

PEACE TREATY IS DEFEATED, 53 TO 38

Continued from Page One.

In another attempt to obtain its ratification. The treaty is dead today, so far as the senate is concerned. It went back to the floor following failure of the ratification votes at the spectacular final session last night. The Lodge resolution of ratification, containing reservations, was turned down 51 to 31. The resolution of approval, ratification was defeated 25 to 17.

Senator Hitchcock, who headed the administration forces during the long fight just ended, declared today Wilson would submit the treaty to the next session. Compromise will then be heard on the basis of the Lodge reservations, slightly modified, republican senators of the "mild reservationist" group said today.

Failure to ratify the treaty at the special session marked the end of the first sitting of the new republican congress which began May 15. That day had been the great reconstruction session struck an early snag in the treaty and all attempts to enact a program of domestic legislation in the country back on a peace treaty failed miserably.

Questions Pending. Pressing reconstruction questions on which congress failed to act, included: Return of the railroads, re-organization of the army on a peace basis, repeal of wartime luxury taxes, establishment of a merchant marine policy, opening of public lands for soldier settlement, development of water power sites on public lands, opening up of oil, coal and phosphate lands, government control of the meat packing industry and revision of the court martial system.

When congress comes back December 1, action on these measures will still be blocked until the treaty is disposed of. Senate leaders expect to push for prompt action on the treaty to clear the way for domestic legislation. Early next year the nation's campaign will be shaping up and the republican congress wants to be ready to face the country with some of its proposed domestic legislation enacted.

Lodge Resolution. Complicating the treaty fight next session will be the Lodge resolution to declare the nation's emergency law introduced late last night, just before the senate adjourned. Republican leaders will use this as a club to urge speedy action on the treaty resolutions. It is expected this Lodge resolution can carry by a majority, which can be easily obtained in both houses. It is declared by republican senators.

Should administration senators fail to get together with republicans on a compromise campaign soon after the new session begins, the treaty relations committee is expected to report out this Lodge reservation. Action will be pressed in the senate and with the concurrence of the house, peace will then have been technically obtained so far as congress is concerned.

ADVANCE OF FIFTY CENTS IN CRUDE OIL

Continued from Page One.

companies, was in Wichita Falls from Fort Worth, Thursday, but would make no comment on the probable success of the fight on the so-called "bottleggers" in forcing their rate common carrier status is probably one of the reasons for a striking of the price, and an increase in the posted price as well, an executive of one of the big companies stated Thursday afternoon. There has been a gradual stiffening of prices among the independent jobbers as the fight of the Wichita Falls Producers and Refiners Association progresses, and now with all of them practically established as common carriers, it is said that the situation as regards prices is very much less demoralized than was the case several weeks ago, even before the Gulf's raise. Members of the executive committee of the association, who were in Fort Worth last week, and in conference with officials of several big pipeline companies, state that they were given the promise of a raise soon, and are much delighted that the promises are fulfilled thus speedily.

Among the oil producers of Wichita Falls the Gulf Pipeline Company is a mighty regular organization, and at present. Though many felt that the raise was coming, they were still not expecting it this soon, and the Gulf's action in taking the initiative is being met with much favorable comment, particularly since it comes just when the Gulf is ready to take a large amount of oil.

BILL IS INTRODUCED FOR MILLION DOLLAR POSTOFFICE BUILDING

WASHINGTON, Nov. 20.—One million dollars is the appropriation called for in a bill introduced by Representative Parrish just before an hour adjourned Wednesday. This sum is asked for the purchase of a site and erection thereon of a federal building at Wichita Falls. The building will accommodate the postoffice, but the federal court and all federal officers stationed at Wichita Falls. If Parrish can secure passage of his bill he hopes to have the present building retained as a substation.

It is reported a public building bill will be submitted at the December session and in that event Parrish will make an effort to have the Wichita Falls appropriation included in that general measure.

Upon adjournment of the session Representative Parrish left tonight for Houston to look after some personal business. He expressed regret that the brief time allotted to him would not enable him to get over the district, as he will return to Washington in time to be in his seat when congress reconvenes on the first day of December.

Mr. W. F. Graham leaves tonight for Dallas on a special train. He will return tomorrow night.

GARBAGE DISPOSAL PLAN IS SUBMITTED TO CITY COUNCIL

Tonight the city council will hear a proposal from Denver, Colorado, and Little Rock, Ark., parties regarding a garbage disposal system to be put in operation all over the city of Wichita Falls.

A proposition has been prepared by the contractors, who, it is said, have the contract for disposal of garbage in the city of Denver, noted as one of the cleanest in the United States. This proposition has been submitted to the sanitary commission, and the local sanitary committee, and has received their full approval, it is stated.

It is understood that this proposition calls for a nominal sum for the services, the residence and business districts alike to be covered, and that the contractors will use the garbage for chicken feed, garbage to be heated to a certain degree and then ground.

The proposition also covers a special ordinance to be passed by the city council, ordering all garbage heated to this specific degree, so as to protect the contractors.

The proposition also covers a special ordinance to be passed by the city council, ordering all garbage heated to this specific degree, so as to protect the contractors.

Organization of a welfare association which will have direct charge of all charitable and welfare work in the city, it is scheduled to take place on Thanksgiving, it was announced by E. J. Bean at the Rotary luncheon Thursday, in asking and getting the endorsement of the club for a movement of this kind.

A committee composed of Hubert Harrison and I. H. Roberts was named to represent the Rotary Club at the organization of this association, in which J. C. Hunt has been the moving spirit.

For a number of years we have had a United Charities organization here which has been an admirable institution, and whose work has been deserving of and has received considerable praise," said Mr. Bean in presenting this matter.

However, along with everything else, Wichita Falls is going from a village to a city has outstripped the efforts of this small association. Believing that every man is in a sense his brother's keeper, and that the organization of an association at this time is at once a laudable enterprise and a civic duty, I don't think that the members of this club or any citizen could do any better than to support this organization in every way in their power.

FUTURE CITY ONE OF MODERATE SIZE SAYS DR. HATTON

DECLARES RIGHT SYSTEM MAKES IT MUCH EASIER TO OPERATE CITY GOVERNMENT.

SOME FALLACIES EXPLODED

Speaker Says That Democrats Are Not Necessarily Inefficient.

"The future of cities lies in cities of moderate size, 100,000 or under," declared Dr. A. K. Hatton, nationally known charter expert, here conferring with the charter committee on the new Wichita Falls charter, speaking of the problem in municipal government at their noon luncheon Thursday.

"I am led to this conclusion from the fact that there is such a noticeable tendency on the part of industrial institutions to decentralize and locate in cities of only moderate size, thus materially building up places of this class. An additional feature which is responsible for this trend comes from the development of modern conditions of living, which is making the moderate city the desirable one in which to live.

"Here in Wichita Falls, where you are right on the border line between the small country town and the semi-metropolitan class of cities, it behooves you to give serious thought to the kind of government that you are going to set up to enable you to handle your problems in such a way as to make the city a desirable one in which to live, and to hold your population after in present government has somewhat abated and you have settled down to normal conditions.

Points to Fallacies. "While I am on that point, let me explode some fallacies in regard to government which have been generally accepted for generations. The first of these is that it makes no difference as to the form of government that you have so long as you get good men to run it. That is an absolute fallacy, and if I were to go into any business institution in the country, and tell them that, that it made no difference what system of administration they employed so long as it employed good men, they would think I was a fool, and if they were very rude they would tell me so.

"The form or system which you have does make a great deal of difference, whether in government or in business. For one thing, if you have the right system, it will make it far for you to get the right kind of men to run it.

"Any kind of government, to be a success, has to be the kind that the people want, and which the people have the control. But this government must be one which will promote efficiency in the carrying on of the government. There never was a greater fallacy than the saying that inefficiency is the price which we must pay for democratic government.

"Where do we go today for our examples of the highest type of efficient government? To the city governments of Russia, Turkey or any other autocracy? No. We go to the

THOMAS NELSON PAGE DECLARES DEFEAT OF TREATY A CALAMITY

BY THOMAS NELSON PAGE, Former Ambassador to Italy, Written for the United Press.

WASHINGTON, Nov. 20.—I consider defeat of the peace treaty as an immeasurable misfortune. Those who defeated it have assumed the most terrible responsibility which any man has assumed in our time. Its effect must be to plunge Europe into even deeper chaos, from which America can hardly escape entirely. Those who were most against the treaty and the league of nations were the Germans, the extreme Sinn Feiners, the W. W. and the bolsheviks. Those who have just killed the treaty, however sincere their motives, have given these causes for great rejoicing.

None maintain that the treaty or the league was perfect. But every one knows in his heart that it was a better treaty and sanction than was hoped for one year ago. Just one year ago and a little more, America and the world were holding their breath at what was happening in France. We were vowing to God that if peace were purchased us, that this world was destroying the world and had already swept away so many millions of men, should never come again. The rules of France and Italy still were smothering. Our men were dying by thousands in the argonne and along the other fronts to save the world and it was saved.

I was present when David Lloyd George laid the treaty of peace on the table of the house of commons and declared that the league of nations was the only means of future safety in sight, and that he could not imagine how any sensible man could oppose it being fully tried out. Since that time the treaty has been approved by all the allies.

But the senate of the United States has rejected alike the treaty and the league of nations. Thus the United States and China stand out alone against the treaty and the league. China may have a defensible reason but what reason have we? If the treaty did not protect America, then human injustice has no sound basis.

Europe is in a condition bordering on chaos, and this is not likely to bring order there. The first thing will be Germany's relief from the obligations of the treaty. Can it be that she now will put forth her efforts to pay the great reparation amount imposed upon her, unless indeed she recognizes that the present situation offers the unexpected chance for her to conquer the world once more cosmopolitanly? If not this, then the result must and probably will be in any event re-establishment of great armaments.

The league of nations, having been repudiated by us, the result to us is clear. It means we must inaugurate here a great armament. We, Germany and China stand outside of the league, which at present constitutes a sort of inchoate alliance of those who have entered it. The present situation as I see it is that we have had to shamble to escape from being overwhelmed in what threatened to be a universal deluge and the senate has thrown it away. We must now find some other ark of safety.

The chief builder of the ark that promised us rescue worked himself nearly to death to save us. And it looks as though those who were not called in to help build the ark have sunk it. What will they give us in its place.

BELIEVE HEADQUARTERS OF "DRUG PEDDLERS" HAVE BEEN EXPOSED BY POLICE

BY THOMAS NELSON PAGE, Former Ambassador to Italy, Written for the United Press.

The headquarters of a gang of "drug peddlers" is believed to have been exposed by officials of the police department as a result of the arrest of three men and a woman at a rooming house on Travis avenue Wednesday night. A quantity of narcotic drugs together with several articles which are thought to be stolen property were found in the room occupied by the parties taken into custody. The arrests were made by Assistant Chief of Police Goodfellow and City Detective Overby. The prisoners are being held pending further investigation.

While no complaints have been filed in federal court in connection with the contraband narcotics, officials believe that drug addicts of Wichita Falls have been receiving their drug from this source. With the opening of the oil fields in North Texas large numbers of drug addicts have come to this section and officials believe that the drug users have been receiving their supply of narcotics from "peddlers" operating in Wichita Falls.

Several articles taken in the room occupied by the alleged drug "peddlers" has been identified as property previously reported as stolen, according to the police.

FAMILY FEUD CAUSES OKLAHOMA SHOOTING

OKLAHOMA CITY, OKLA., Nov. 20.—A family feud is given as the cause of the shooting which occurred late yesterday and in which A. F. Haley, 69, was shot through the left shoulder and his wife seriously injured from a blow from the butt of a pistol. A. A. Haley, son, is being held at the county jail charged with the act.

It is stated that young Haley visited his father's home near here, where an argument occurred over a wagon box claimed by the son. The father refused to surrender it. The fight started, and young Haley fired five shots, two of them taking effect in his father's shoulder. Haley then beat his mother and departed with the wagon box.

TICKET SALE FOR THANKSGIVING DAY GAME HAS BEGUN

COLLEGE STATION, Texas, Nov. 20.—The ticket sale for the Texas A. and M. Texas University football game to be played at College Station, Thanksgiving Day, November 27, began Wednesday for alumni of the two institutions. The sale to the general public will begin at 10 o'clock today.

All orders for seats for the Texas A. and M. side of the field should be sent to W. L. Driver, College Station, Texas, accompanied by certified check or money order for amount sufficient to cover price of seats.

All who wish seats on the Texas University side of the field should send their orders to L. T. Bellmont, Austin, Texas.

The prices for seats this year are \$1.50 and \$2.50 for box seats; \$2.50 and \$3.00 for reserved seats on the sides of the field; and \$1.50 for seats at the ends of the field.

No war tax is charged for this game. Tickets will be returned at the risk of the purchaser, by mail, unless otherwise specified. If the purchaser desires tickets returned by registered mail, ten cents should be included in the amount sent for tickets.

Reservations can be made now by mail by writing either of the men named above at the addresses given, and these reservations will be filled in the order reserved.

The demand for tickets this year is heavier than ever before and indications point to a crowd of eight or ten thousand people at the game on "Turkey Day."

Committees among the alumni of the two institutions are now at work securing trains from Dallas, Houston,

WACO, FORT WORTH, BRENHAM. Many of these trains will carry their own diners. Two trains will be run out of Austin for the accommodation of the University people and the Austin supporters.

ANNUAL MEETING OF THE AMERICAN LEAGUE TO BE HELD ON DECEMBER 10TH

NEW YORK, Nov. 20.—At a meeting of the board of directors of the American League here Wednesday afternoon, the annual meeting of the league was called for December 10, at the Waldorf-Astoria hotel, New York.

President C. A. Comiskey of the Chicago club presided at today's session.

H. S. Fransee of Boston and Colonel Jacob Ruppert of the local club were the other members present.

President B. E. Johnson and J. C. Dunn of the Cleveland club did not attend.

After discussing the failure of the national commission to pay the players of the New York American League club their share of the world's series receipts, the board authorized the employment of counsel to take immediate action to secure the payment of the money to the players.

Colonel Ruppert reported the progress of the committee appointed to nominate a new chairman of the national commission and President Johnson's refusal to meet his own appointee in conjunction with the National League members of the committee.

Colonel Ruppert was requested to submit his report in writing so that appropriate action could be taken on the matter at the board's next meeting here on December 2.

A resolution was adopted which embodied a demand that the national commission turn over to the treasurer of the American League the sum of \$25,000, a part of 10 per cent of the receipts from the world series. It was said that a similar demand will be made by the National League, but this could not be verified last night.

COLLEGE BAND WILL ACCOMPANY ELEVEN

AUSTIN, Texas, Nov. 20.—The largest uniformed college band in the United States will accompany the university of Texas football team to the annual clash with Texas A. and M. at College Station on Thanksgiving day, according to local claims.

Uniforms of white trousers, orange coats and orange and white caps for the fifty-piece variety band have been donated by Luther Stark, a member of the board of regents, and the new regalia is expected to appear for the first time on Kyle field "Turkey Day."

WESTERN CONFERENCE FOOTBALL WILL REACH A CLIMAX ON SATURDAY

CHICAGO, Nov. 20.—Western conference football will reach its climax Saturday. There are three games of class to top off one of the wildest seasons, the conference has experienced.

Ohio State will fight to retain her record of no games lost. It will be a tight, too, since her opponent, Illinois, has shown the class in late games to entitle her to a place at a championship. Illinois has been beaten but that was early in the season and by a close score.

In view of Ohio's slender win from Wisconsin there will be no great surprise if the Illini are able to topple the Buckeyes. In any event it will be a scrum.

Minnesota, fighting on Perry field at Ann Arbor will attempt to break into Michigan's long series of victories over the Gophers at Chicago. There will be a tussle between Wisconsin and Chicago with the dope not unkind to either squad.

PUPILS ORGANIZED LIKE LABOR UNIONS

MIAMI, Fla., Nov. 20.—Pupils of the Central Grammar school in this city, who recently struck for shorter hours, had organized along lines of labor unions today.

A union had been formed, a charter drafted, officers elected and waiting delegates chosen to make the rounds of the school rooms and obtain signatures of the pupils.

Professor Davis, red in hand, bore down on walking delegates and confiscated their charters. Orderly discipline has been restored.

JESS WILLARD HASN'T ENOUGH AND PLEADS FOR A CHANCE TO STAGE ATTEMPT TO COME BACK

NEW YORK, Nov. 20.—Jess Willard hasn't enough, he wants to "come back" according to Tex Rickard, who set the stage for the downfall of the big Kansas last July.

Rickard last night uncovered for scrutiny a small pile of letters and telegrams from Willard and his former manager, Ray Archer, pleading for an early meeting to talk over another bid for the heavyweight honors.

Willard did not refer to a return match with Dempsey, and an intimation that he would be willing to fight his way up to another match convinced Rickard of his sincerity.

"Fred Fulton is coming back, and if Willard wants another chance he might arrange a match with him. I don't know that I would be willing to stage the bout, but I believe it would be a go," Rickard said.

Rickard said the former champion is in training now. He also partly verified the report that he would handle the affairs of Joe Beckett, the British champion, if he comes to America after his fight with Georges Carpentier early in December.

Rickard announced he was leaving soon for England "to look over the field." He evaded an answer when asked if he was going to try to land the next world's championship heavyweight fight for the International Sporting Club, of which he is the matchmaker.

Decorate Your Home But Be Sure to Protect It

A PRIMARY purpose of interior decoration is protection. It is as important as decoration. The wear which some interior surfaces get is greater than the wear of exterior surfaces. Consider this when you paint, to avoid re-painting and duplicated costs. The Cover-the-Earth trade-mark is your safeguard, assuring quality and economy. The Sherwin-Williams Company makes a special study of every kind of surface, then makes a paint exactly suited to that end. This includes a special paint for walls, woodwork, floors and furniture, as well as all other interior and exterior surfaces.

S-W Flat-Tone Will Produce Beautiful Walls in Your Home

With its range of twenty colors you can suit your taste exactly. You have no idea of the wonderful color effects you can get through Flat-Tone until you consult our decorative department. They will prepare for you free decorative color plans and will gladly show you all these beautiful colors to choose from.

S-W Old Dutch Enamel On Your Woodwork

will provide a high gloss finish which stays white and fully equal to the finest Holland enamel in its original effect and durability. It comes also in ivory, and in gloss white or dull white finish. It can be used successfully on exterior surfaces as well as interior, washes regularly without harm to the surface and does not crack or chip.

S-W Mar-Not Varnish On Your Floor

provides a durable, tough, elastic finish which does not scar with heel marks, and does not turn white when rain comes in through the window, or if the radiator leaks hot water upon it.

S-W Family Paint

gives many bright, refreshing color treatments for a great variety of decorative uses in and around the home. Use it on cupboards, shelves, baseboards, boxes, etc. It dries with a nice gloss, wears remarkably and can be washed clean without hurt.

INTEREST IN OIL DEVELOPMENT CENTERS AROUND CAUBLE WELL IN WAGGONER COLONY LANDS

Interest in oil circles is being claimed this week by the Cauble-Oil company's No. 1 well, in block 152 Waggoner Colony lands, five miles northeast of Electra, which is reported drilling in a sand at 1,600 feet which appears very promising. A heavy strata has been rigged up to drill in, after 5-8 casing was set on a cap rock. This test is several miles from production and in a territory that has been previously untested. There are now several scattered tests throughout the section, several of which are nearing the depth at which the pay is found in Burk Burnett and Electra.

The Hasle Burk Oil company's No. 1 Agassinger, in block 278, Waggoner Colony lands, is at a depth around 1,600 feet. The Leek and McGinn No. 1 Bonham, block 278, is drilling around 1,050 feet, and in block 269 the Phoenix Oil company's No. 1 Cross, is drilling around 650 feet. In block 236, north of the Sunshine Hill shallow district, the Cauble Oil company's No. 1 Dale, is trying to shut off salt water, below 1,700 feet. The owners of the well think so much of this test that they state they will put down a second hole if the No. 1 is lost. This well has had several showings, past 900 feet. In block 253 the Burk Cameron Oil company's No. 1 Foster and Hunt is temporarily shut down a little below 1,200 feet, it is reported. The United Chief Oil company's No. 1 Foster and Allen, in block 253, is reported drilling around 1,250 feet. To the east of these tests, and a little southwest of the General Oil company's No. 1 Cooper and Lippcomb No. 1 Reese, Allen in

BURKBURNETT PIPELINE RUNS FOR WEEK SHOW AN INCREASE APPROXIMATELY 6000 DAILY

Pipe line runs in the Burk Burnett district for the past week showed an increase of approximately 6,000 barrels daily, according to estimates. The daily average for the week is 96,000 barrels, compared to 32,500 for the previous week. In the entire district the runs reached a daily total of 101,200 barrels. A big increase in the daily runs can be expected in December. The Sinclair Consolidated line is due to commence taking oil by December 1, and the Gulf pipe line from Fort Worth will probably be hooked up and run shortly after that date. These two lines can account for approximately 25,000 barrels of oil daily, since they are trunk lines and will not have to depend on rail transportation to move the oil. When the lines are ready for business, the numerous wells that are on the stand "bottled up" for lack of storage and pipe lines will be opened up, and it will be possible to get some accurate ideas of the actual size of the wells drilled in recently. From all indications the wells are decreasing very slightly in initial production, even in the closely drilled areas. There is a considerable gas pressure in evidence, and wells when turned loose will "blow" "blowers," just as advertised in the stock promotion circulars. There have been only a few completions reported in the Waggoner pool. Two of them are for the Pera Oil company, Nos. 2 and 3, Waggoner, in block 88. Both are estimated at 1,000 barrels production. The block 84 Oil company's No. 2 Waggoner, block 84 is reported a 1,000 barrel well, and the No. 3 Waggoner of the Deane Oil company, block 88, is estimated at 1,000 barrels. The General Oil company's No. 1 Sparks has not yet been completed, and an actual test made, but estimates are high, many experienced oil men giving it as their opinion that it will test one of the wells ever drilled in in the Pera district. The new bed section promises to be of interesting development in the next few weeks. The company's No. 1 State, north of block 820, has started drilling, and the Burk Divide Oil company, northwest of the new Cooper corner of block 820, is drilling around 400 feet. Several other new locations are indicated. Across the river in section 2-14, E. Shewee has up the derrick on his first hole.

PLAN TO INCREASE THE TELEPHONE FACILITIES IN THE WEST TEXAS FIELDS

RANGER, Texas, Nov. 20.—Owing to the need for increased telephone service in the oil fields of West Texas and especially in the new towns in these oil fields the interests behind the Wichita Falls, Ranger and Fort Worth Railroads and the towns on that line are planning an extensive local and long distance telephone service. The line contemplated will extend from Dallas in Erwin county along the line of the Wichita Falls, Ranger and Fort Worth Railroad to Wichita Falls. Later it will be extended across Red river on the projected Oklahoma line of this system of Lawton and Oklahoma City. Local exchanges will be placed in the towns on this line beginning with Jacksonham and Franklin and Edohobby and including all the new towns and such of the existing towns like Ranger and Breckenridge as the demands for service may indicate to be necessary. The cost of the first circuit between Dallas and Wichita Falls and the local exchanges in the new towns on the route will be approximately \$250,000. A BEAUTY shop for dogs! I wonder what the dogs think about it! It is more than likely that they think of it as the very young boy thinks of the bathroom with its soap and water and wash-rags made for scrubbing the neck and ears and the closet where his most-uncomfortable best clothes are hung.

What the very young boy thinks about the above mentioned bathroom and clothes closet is spread of record and is being recorded over and over again every day of the world, but what the dog thinks of his new beauty shop—well, it's too bad that the dog, which now and again rises to a point of expression that is invariably described as being "all but speech," can't override the "all but" sometimes. An interview with one of the recently beautified would undoubtedly be interesting.

And then again, of course, it may be that the kind of dogs that are taken to the beauty shops by their dotting owners like that sort of thing. They are dogs that have been brought up in the lap of luxury; their first thin white fell upon the anxious ears of some liveried kennel man, and on up through their careers they have been objects of care and subjects of coddle. Whatever their natural bent and instincts may have been, they were pointed in the beginning and have been forever after held to a certain proper line which might easily and naturally, without any check at all, lead to a beauty shop.

The dog undoubtedly started out as the com-

After the Bath.

and it was this want that brought into being the beauty shop for dogs.

The particular beauty shop of which I am thinking—the first beauty shop for dogs ever opened—is situated in the heart of New York city. It is quite an establishment, no mean little made-over stable which once housed the horses of some aristocratic family of the avenue. It is a real, for-sure hotel with all of the modern conveniences and luxuries that the knowledge and the imagination of an up-to-the-minute dog fancier could devise. And in charge of the shop is a well-known dog expert with a corps of assistants, who are ever on hand to prepare his dogship for the bench show, put him in shape for a stroll on the avenue or a drive through the park, or give him a thorough course in the manners that a Thoroughbred must acquire to become popular in the smart set.

It is a wonderful place—for a dog. A common, ordinary, mangy, alley-variety, homeless,

rown dog with this can tied to his tail could be chased into one door of the beauty shop, and if luck were with him—good or bad, according to the point of view—and he was put through the course of the institution, he could, after a lapse of time, be carried out of another door in the arms of some dotting, coddling grand dame a positive snob.

The first place he would probably be ushered into would be the barber shop. "Oh yes, the 'hotel' has a regular barber shop, with regular barbers, to give his dogship a shave, a haircut, trim his whiskers or set him up with a massage. Of course there are very few calls for shaves except in the summer months when the heavy canine hair coats become insufferable and comfort for the owner is found in a close clip and, for many, a shave. The barbers of the Hotel Gredale, as it is called, are very expert in this clipping and shaving, their art runs a sort of parallel to that of the landscape gardener, and some of the effects they get with what they take away and what they leave are most striking, indeed, sometimes astonishing.

Then there are the baths, with attendants skilled in all the arts of canine shampoo and massage. The patron can get about any kind of a bath he wants.

It isn't surprising, either, to find that the Gredale has a manicure parlor also, where Fido can sit up and have his nails done by as pretty and interesting a manicurist as ever pushed back the cuticle on a human finger. But here again Fido is at a disadvantage on the speech proposition, which reduces the "small talk" that ordinarily vibrates over a manicure table to a monologue by the party of the second part no matter how many openings she gives for bright returns. Talk about leading a "dog's life"! Having the nails done is the primary, secondary and ultimate object of the visit of any patron of the Gredale to the manicure parlor, and the manicurist works

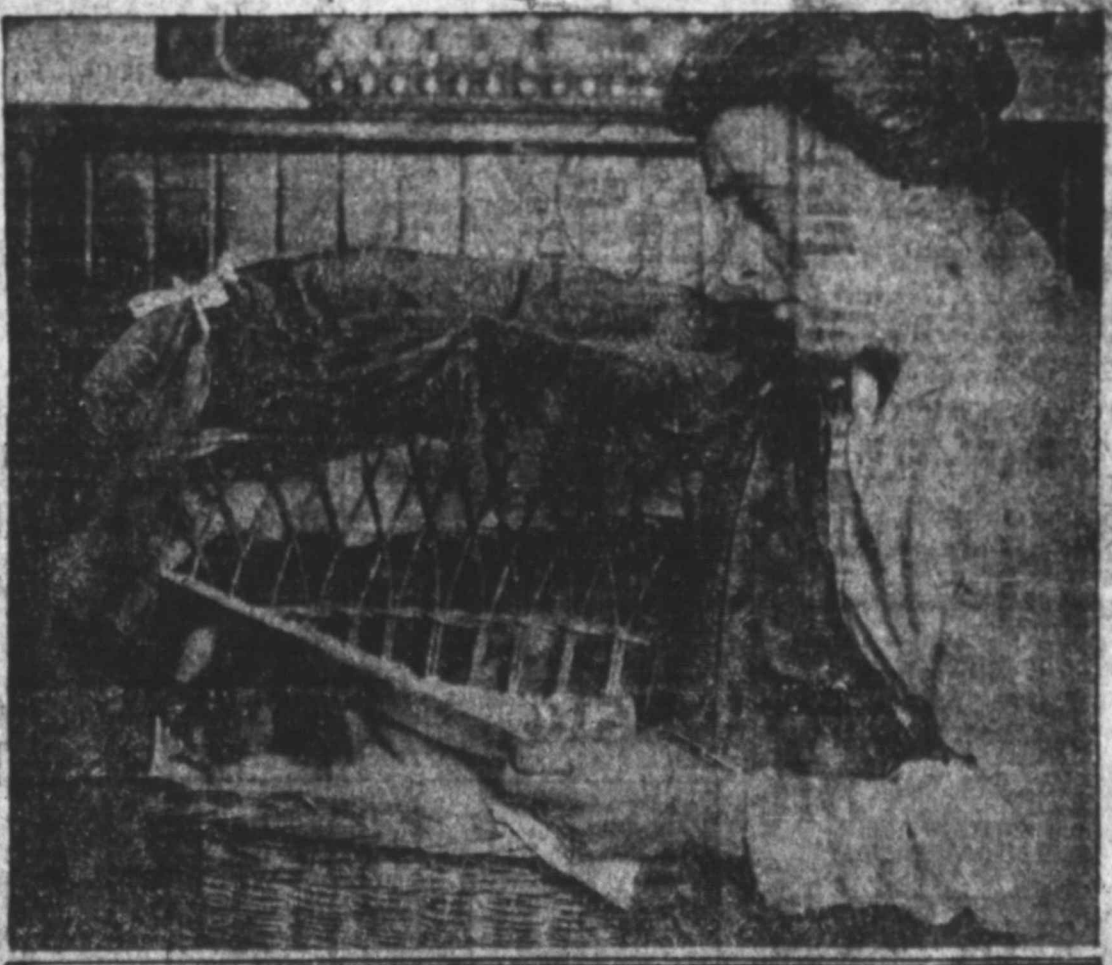

carefully and thoroughly, but with real speed, and I dare say that both parties experience real pleasure when the job is done.

Granting that all other departments of the dog beauty shop are designed and conducted to add to the sum and total of dog happiness, the place has at least one chamber of horror. Dogs may be dogs, they may have very different angles in the things we call emotions, but it is beyond me to believe that even a dog could get an angle on happiness in a dentist shop. The patrons of the Gredale are an involuntary lot in any branch of the establishment, but we can't really pity them in that until they reach the door of the dentist—the point where all living things can shake hands. The Gredale has a very complete and well-appointed dental department in charge of a very sympathetic and careful expert in extraction, cleaning, filling and general care of canine teeth, one of these "cruel only to be kind" sort of men, and a dog with something the matter with his teeth is really lucky to come into his hands.

In the department department the guests are taught manners and how to conduct themselves in polite society. It seems strange that any dog which might be brought to such a place as the Gredale would have to be taught manners, but it may be that the department department is maintained only for the puppy class, or country cousins who have been adopted by rich families living in the city.

And while we are on the beauty angle we must not forget the all-important "beauty sleep." The Gredale is prepared to take care of that too. Nice, clean, soft beds are arranged for the guests where they can curl up or stretch themselves—as they prefer—and take on all of the beauty that good, sound slumber can give. They can take the regulation, aristocratic "forty winks," make it a siesta, or a good night's sleep.

A "Beauty Sleep" for a Pampered Aristocrat.

JOHN L. MOONEY
PIONEER TEXAN AND
WAR VETERAN DEAD

HELP GUARD TEXAS FRONTIER
AND FIGHT UNDER FOREST
IN CIVIL WAR.

CAME TO TEXAS IN 1846

Was Member of I. O. O. F. Since 1868
and of the Baptist Church
Since 1864.

John L. Mooney, pioneer Texan, Indian fighter, Confederate veteran and a well-loved citizen, died at his home at 1417 Thirteenth street, at 4 o'clock Thursday morning after a long illness from a complication of troubles. He had been bedfast for more than three years.

The funeral services will be held at the residence at 3 o'clock Friday afternoon under the auspices of the I. O. O. F., of which fraternal he had been a loyal member for more than half a century. Burial will be in Riverside cemetery.

Mr. Mooney was born in Telfair county, Georgia, April 17, 1841, and moved with his parents to Barbour county, Alabama, when a small child, and when six years of age, moving with them in 1846 to Gonzales county, Texas, where he resided until he moved to Wichita Falls in 1850.

In 1851 he enlisted with the First Texas Mounted Rifles and was on duty guarding the northern frontier of Texas from invasion and from raids by the Indians. In this service he spent a part of the time in the vicinity of what was to become the site of Wichita Falls. In 1862 he became a member of Company G of Wilcox's Texas cavalry and saw service in Forrest's brigade until the end of the war.

In 1866 he was happily married to Miss Mary Clinton Jones at Goshalt, whom his death leaves a widow. His membership in the I. O. O. F. dates from February, 1868. He joined the Baptist church in 1864. He was elected a deacon in 1864 and later served his association as clerk.

Mr. Mooney and wife came to Wichita Falls in 1916, where Mr. Mooney, whose health leaves a widow, was a progressive citizen whose advice and counsel were sought by many citizens in public and private affairs. He leaves no children.

Local Brevities
W. B. Hassett, vice president and general manager of the Imperial Refining Company and C. L. Mayhall, sales manager, are in Wichita Falls from Oklahoma City, on business.
Fred Long and Miss Besie Brown of Burk Burnett were married at nine o'clock Wednesday night at the courthouse. Justice of the Peace C. J. Arrington performed the ceremony.
Telephone connections have been installed in the local Chamber of Commerce offices for the use of the traffic bureau, headed by J. W. Chatham. Mr. Chatham can be reached through calling 556.
Three women and two men arrested at Newton Tuesday night following a raid upon a rooming house there pleaded guilty to Justice C. J. Arrington's court Wednesday morning to charges of vagrancy and were fined \$1 and costs. Several additional women arrested at the same time are being held for investigation.
The first results of the clean-up campaign are beginning to be seen in the cases called in police court for alleged violations of the sanitary laws. Two cases against local grocers who had barrels of trash in the alley in the rear of their places of business after the usual time "the trash wag" made its rounds, were dismissed, upon their plea that the trash wagon had missed them on that particular morning and they had not been notified of the failure of the wagon to show up until the charge had been entered by the police. Mayor Marlow has promised to put two additional trash wagons on the city run so that all of the refuse can be properly disposed of.

Local Brevities
Freight embargoes declared by the Denver line several weeks ago when the adverse weather halted unloading of consignments to such an extent as to again cause an acute congestion in local yards, and which were continued in force during the first of the coal strike, have been raised and permits for shipments are again being issued, according to information received from the general offices of the road by J. W. Chatham, traffic manager for the Chamber of Commerce. The Katy lines throughout have been operating under the permit system, cutting down the number of permits issued when conditions warranted such restrictions.

ADDITIONAL ROOMS FOR THE JUNIOR HIGH SCHOOL
To care for the large enrollment in the Junior high school of students in the seventh and eighth grades arrangements are being made to use 13 rooms of the old Austin school building for that purpose. A thorough remodeling is now going on which will probably be completed by the first of next week and new seats and necessary paraphernalia are being installed. Of the 13 rooms which will be available when the work is completed 10 will be special recitation rooms, two will be used for manual training and domestic art departments and one will house the student's cafeteria that will be straining every effort to take care of the large number of students who must be accommodated. Superintendent Lee Clark said, and they expect the new quarters of the junior high will relieve the situation appreciably.
