This new thing that he hopes will materialize on Monday, after next Sunday. This new thing to be, is a fine new tafformade suit of clothes, and thereby hangs a tale.

T. B. Noble, the chairman of the board of stewards, has offered his new pastor a handsome suit of clothes if on next Eunday night the church building is completely full with a congregation bent on hearing the new "parson" talk. Rising to the occasion Dr. Knickerbocker has announced a subject that ought to be a winner. This is it, "How to Get Married, Stay Married, and Be Happy Though Married." The preacher states that there will be reserved seats for any old maids that may desire them, also a scientific tabulation of the percentage of chances of marrimony, a woman has at various ages.

"Only through the press can a message be promptly carried to millions." Without the patriotic support of the press, the great patriotic campaigns during the war could not have been uput purer so successfully. Without the patriotic reach any great mass of people quickly. If Thomas B. Love is put in as Tormember of the Democratic National Committee, it will be a belated completion of a "political circuit" that began back in 1916, when he was a candidate for that honor, only to be defeated by the coalition of former Senator Balley and the then Governor Ferguson, who dropped their own differences, personal and political, long enough to best Love with Judge Poindexter of Cleburne. A lot of delegates and others present at the convention were sure that Love had the rotes to elect him; but if he had he couldn't get 'em counted, and Pelo-dexter was seclared the winner. Pola-dexter resigned after Hobby was elec-ted Governor in 1918, although the public never understood just why. O., S. Cariton, who had been one of the leading Hobby supporters, was elected to the place, M. H. Wolfe of Dallas getting the state chairmanship to satjety his ambitions. And now the polttical goesip is that Love will-get the place he tried to jet in 1916.

Thomas B. Love usually get what he goes after; it may take some time, but eventually he gets it. And some say this characteristic applies to "political scalps" as well as political appointments:

of Arabian nights fame wanted to get closer to the people he slipped on an old linen duster and, accompanied by Jacafar, his companion, rambled at night through the streets of old Bagdad listening to many strange and beautiful tales.

Haroun was a lover of the arts—music, painting, poetry and literature. But most of all he loved a good story. He would travel any distance to hear one.

You can afford to pity the old caliph. There was no Cosmopolitan Magazine in his day.

He couldn't stop at the newsstand on the corner and take his adventures home with him. He was obliged to go out and seek them in all kinds of weather.

It is your twentieth century privilege to pay a quarter (you can do that today) and take away with you the best work of the greatest writers and the greatest artists in all the world in the best magazine that it is possible to produce. For that's what you do when you buy November Cosmopolitan, which is now on sale.

WE doubt whether Haroun, in all his wanderings, ever encountered a finer story of friendship between father and son than Peter B. Kyne tells in "Kindred of the Dust," his newest novel, now appearing in Cosmopolitan.

Fannie Hurst, who writes uncommon stories about common people, never told a better story than "Back Pay" in November Cosmopolitan. It isn't a pleasant story—and it isn't a sermon. When you read it you'll know why Miss Hurst wrote it and why no one else could have written it. There is something of Henry Fielding's frankness about it.

And how Haroun would have loved to have heard Harvey O'Higgins tell about "The Secret-Springs"—the source of every human motive and action—the force that simply makes us do the things at which we and our neighbors marvel.

Kansas, far removed from Bagdad, sent us Dana Gatlin. We
can imagine old Haroun sitting
wide-eyed and wondering before
Miss Gatlin while she tells him
the story of the sweet young
woman who married a man who
simply couldn't be true to her no

"Why Do They Marry?"

Doyou know what a flange is?
Well, it's the raised edge of a car-wheel and it keeps the wheel on the track. Rupert Hughes, in "The Broken Flange," tells about a girl who wanted to be a flange, but who, at the critical moment—but read the story in November Cosmopolitan!

Compare Haroun al Raschid with Rex Beach. Both would go a long distance for a story, and in November Cosmopolitan Rex went to Mexico. Just Imagine fishing in the Gulf of Mexico with Rex, where as he says in "Messing Around in Mexico," the fish are to hungry that you have to stand behind a tree to bait your hoek.

Yes, you can afford to pity poor old Haroun.

For you can, tonight, sit in your easy-chair, under your library lamp, and enjoy novels, stories and adventures that Haroun never even dreamed about.

Meredith Nicholsen, John A. Moroso, Jack Boyle, Gouverneur Morris, Arthur Somers Roche, Robert W. Chambers, and James Oliver Curwood are a few other world-famous writers whose tales of moving adventure will vibrate in you the chords of laughter and of human sympathy.

FAILURE TO RATIFY THE TREATY MATERIALLY AFFECTS PLAN FOR RESTORING WORLD-WIDE PEACE

WASHINGTON, Nov. 21.—Although not changing technically the existing status of relations between the United States and Germany. It restly with the stand is a state of relations between the United States and Germany to treatly with a stand and state, who will be a stand is expected by administration officials and diplomats to have an indirect result of some importance on the steps now being takes for sectore the world consequences, according to the view taken here, is likely to be, the hastening of the negotiations in Paris, including proming and the powers which have ratified the treaty. The senate's failure to act left on the hands of the administration a big collection of knotty problems, chief among which is the question of property life in the German ships and other property of enemy allens siezed by the government in this country.

Con-Current Measure.

As presented by Senator Lodge the peace resolution is a "con-current" measure of the nature which under a more prepared to urge against its validity, the following provision of the constitution: "Every order, resolution or vote to which the con-current rence of the senate and house of representatives may be necessary (except on a question of adjournment) shall be presented to the president of the United States; and before the same shall take effect shall be ar roved by him, shall be repassed by two-thirds of senators say that any con-current resolution meeting with the disapproval of the chief executive could be vetoed or disregarded by him and never could be repassed by a two-thirds vote. The constitutional limitation applies to legislation only and that the right of constitutional limitation applies to legislation only and that the right of constitutional limitation applies to legislation only and that the right of constitutional limitation applies to legislation only and that the right of constitutional limitation applies to legislation only and that the right of congress to declare war carries with it the right to declare war carries with

congress to deciare war carries with it the right to declare peace.

May Reach Courts.

In that situation many officials foresee a possibility that the president and congress may soon find themselves in a disagreement which will have to be thrown into the courts to be decided.

On such a question the courts would

be decided.

On such a question the courts would be without precedent and it is taken for granted that only a ruling from the highest tribunal in the land would be accepted as final.

Foremost of all the domestic problems waiting on some sort of a peace declaration is prohibition. Hopes have about disappeared for an end of the war-time act by senate ratification of the treaty in time to permit a wet seasion before the constitutional amendment becomes effective January 16. With a constitutional controversy developing about a declaraary 16. With a constitutional controversy developing about a declaration of peace by resolution that avenue begins to look almost equally inaccessible. The hope of the wets therefore has been transferred to the supreme court before which proceedings to test the validity of the wartime law were argued Thursday.

But liquor is by no means the only consideration involved in the continuation of a technical state of war. Until peace is declared formally the wartime food and fuel control powers of the executive size in full force and the espionage act operates unimpair-

plan of declaring peace by resolution as soon as the new congress meets.

A resolution making such a declaration was introduced last night by Republican Leader Lodge after three attempts to ratify the treaty had failed. Not only is it expected to start another bitter fight in the new session, reviving many issues of the peace treaty controversy, but if it is passed the constitutional authority for congress to take such a step is sure to be questioned. In the opinion of some officials, a situation will result which only the supreme court can untangle.

Con-Current Measure.

As presented by Senator Lodge the peace resolution is a "con-current" measure of the nature which under senate practice for many years does ident. But the administration senator require the signature of the president. But the administration senator requires the signature of the president power, if he constitution. It was pointed to the American troops in occupied portions of Germanys. War department officials said it would mean no change in the present dispect on the terms of the armitice and which did not depend in any respect on the terms of the treaty. The occupation of Coblens is regarded both by administration officials and by all elements in the senate to be clearly within the limits of the president's power as commander in the constitution: "Every order, resoulution or vote to which the con-current with the constitution or vote to which the con-current with the constitution of the treaty is an entirely different.

Kentucky.

During the senate debate Administration Leader Hitchcock, declared that if the treaty falled and a separate peace becme necessary the United States would find it awkward to

ted States would find it awkward to attempt to exact drastic requirements from Germany.

Among Republican senators this position has been ridiculed, however, and in the war department it is said gross violation of the armistice agreement by Germany such as a military movement into one of the neutral zones would be the only contingent part of the United States.

It is palpably unfair to accord to the University of Oklahoma the premier hohors of the season, in view of its defeat last Saturday by Arkansas, for while Oklahoma defeated Texas university in the only conference battle that school lost. Texas romped away from Arkansas by a decisive margin. If both the Texas and Oklahoma universities are eliminated from titular contestion because of their one defeat each, it appears that a baseball table of victories and defeats is the only means of arriving at anything like a satisfactory conclusion, and to Oklahoma and Arkansas followers, that undoubtedly will be unsatisfactory.

But taking the eight conference ele-vens, and reckoning their conference wins and defeats, it is found that Tex-as Agricultural and Mechanical college has gone so far this season with-out a defeat. Falling back on the per-centage table, it is found the teams are aligned as follows: Teams

Texas A. and M. Texas University M. U.

ONLY ONE GAME COUNTS IN WESTERN CONFERENCE CONTESTS FOR SATURDAY

CHICAGO, Nov. 21.-Western football rooters run no risk of acquiring cross eyes watching scores tomorrow. Only one game really counts. Confer-

Only one game really counts. Conference rooters will have their eyes riveted on the Illinois-Ohio scramble at Columbus.

Ohio with Chick Harvey at top and a record of no defeats is favored to win. Seratching away Ohio's glamour, however, there can be seen a hint of an upset by the Illini. Coach Zpppke of the latter squad is one of the craftlest mentors in the game. Undoubttedly he will invade Columbus with a new set of plays and with a fresh line of strategy. Ohio is strong but Illinois, playing a tough schedule has made great progress and is certain to put up a powerful argument.

Title With Victory.
Ohio will have the conference title

Ohio will have the conference title with victory. Illinois probably will have the best claim to the palm if she wins. Her longer schedule with the one loss, Wisconsin—will look better than Ohio's three wins and one

better than Ohio's three wins and one loss.

Wisconsin and Chicago will battle at Chicago. Wisconsin has the more impressive record and only Chicago's "will to victory" and habit of winning will prevail against the badgers. Minnesota will invade Michigan's camp. Coach Yost has shaken his team up thoroughly in an effort to close his season with a thorough victory. Only tradition is against Minnesota's winning this game by a good margin.

Represents the West. Represents the West.

Northwestern will represent the west in a game with Rutgers at Newark while Syracuse starts its season—and invasion of the west with a tussel at Bloomington with Indiana. The two western teams are not representative of the strength of western teams. Notre Dame will pad her record with another victory by topping Purdue. Iowa and Ames will argue over the state championship at Ames.

PLAN INTERCOLLEGIATE WRESTLING CONTESTS

AUSTIN, Texas, Nov. 21—Prospects for intercollegists wreatling between teams of Texas and Southwestern in-

information obtained at the university of Texas.

While no meets have been arranged to date, fifteen men are working on the varsity mat, and a number of intramural contests are scheduled, and if possible winners of these will be matched with men from other schools. The squared circle is also popular this year, as forty men donned the gloves for workouts. Promising men have developed in all weights, but thus far all bouts have been held to three two-minute rounds.

POMBARDIER WELLS STOPS TOWNLEY IN THE NINTH LONDON, Nov. \$1.—Bombardier Wells, former British heavyweight champien, stopped Arthur Townley in nine rounds here last night. The referee stopped the fight after Town-ley had been floored twice in that round, once for a count of nine.

to J. Dainey Day, a prominent Dallas banker. This is due mainly, he says, to the fact that the Dallas district is

far removed from stock market in libences.

"Recent speculative disturbances in the east are not calculated to affect our district." Mr. Day said, "since our loans are not based on stock securities, this district being too far removed from the stock market to be affected seriously by the recent decline in the stock market.

"The financial strength of the 11th district is due to the fact that this district is primarily a producer of the necessities of life, all of which have been commanding higher prices signed the beginning of the war. "I Feel Like a Brand-New Man," Says Tribble.

"Since taking Orgatoue I have actually gethed health and strength and feel like a brand new man," said W. M. C. Tribble, living eight miles north of fort Worth on R. F. D. No. 3, in an interview with the Orgatone representative at Renfro's drug store recently. Mr. Tribble is one of the best known farmers in this section of Texas and he has many friends, having been a resident of Tarrant county for over thirty years.

"I didn't know what it was to relish a square meal for several years. I suffered so from indigestion and stomach disorders," he continued. "I could eat only the lightest food and what I did eat would come back sour and undigested. After eating I always felt sick and dissy from gas that rose in my stomach. I had a sour, bad taste in my mouth all the time and my breath was bad. Awful headaches bothered me and I got so nervous and restless that I could not sleep at nights. My stomach kept me in such constant misery that I kept losing strength and going down hill all the time.

"I took treatments and medicines and it was the same old story after I had taken them. I just could not get any relief. I read several of the endorsements of well known people who told what Orgatone had done for them, and decided to try it for my own tase.

"Well, sir, I have taken four bottles of Orgatone and feel like a boy. The old sick headaches disappeared right after I started taking the first bottle and I have just come right out of it. I can just eat anything I want, and since my papetite has come back I certainly want a lot. My nerves are steady as a rock and I can sleep like a child at night. I'm gaining in strength every day I live and I'm glad to endorse a treatment that will do what Orgatone has done for me, for I know that it will do the same for anyone else who suffers as I did. We are so enthusiastic over the results I have from this meritorious preparation."

BALTIMORE, Nov. 21 .- The edi tors of the four negro newspapers published here today joined in an open letter to attorney General Pal-Lier expressing their belief that the recent report to the attorney general that Bolshevism and I. THIN PEOPLE SHOULD TAKE **PHOSPHATE**

Nothing Like Plain Bitre-Phosphate Te Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to staryed nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothling that will supply this deficiency so well as the organic phosphate known almong druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes brighten and pale cheeks glow with the bloom of perfect healts.

CAUTION:—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

The recent disastrous fire at "Burk" and the N. W. Extension show that man's ultimate interests are best served by having his cupidity curbed.

This is the one spot in the wonderful Wichita county, Texas oil field where the geologist's gyrations and the driller's bit have reached the same conclusion. The inability of man to read what God "has wrote" is the reason that the "pool" remained so long undiscovered but now that the discovery has been made its location is as well defined as are the "eternal A marier wide and unmistakable runs from the Kemp-Munger-Allen well in an easterly direction to the Conqueror property who are preparing to proceed with all haste the complete development of this proprty.

The investment will represent an outlay of \$60,000, \$35,000 for lease. \$25,000 to complete and connect up the well, with only one well on a block. producing say from 1500 to 2000 barrels, per day, this production for 30 days will pay off the entire investment and leave a profit of from \$40,000 to \$75,000. Good old November is with us. Its chilling breezes and its draughty days bring tidings of winter. Fore-runners of snow and ice, and a great many winter joys and pleasures are at every hand. And in the midst of it all. Mrs. Housewife is figuring on keeping the kiddles and family warm. And with November, we are just close enough to Christmas to feel that new atmosphere of gladness. Just a corking good time of the year is this. But it isn't as good a time of the year as it might be, unless we appreciate it. Be thankful for everything you have that is worth while and be thankful that you aren't cursed in the many ways that you might be but aren't. And then start your Christmas shopping. That will help a bit to make you appreciate this wonderful month. There's nothing that quite so well injects the Christmas spirit into anyone, as the shopping trips which acquaint you with the beautiful things we are all fortunate to be able to have.

Oh; Boy! It's time to buy that winter underwear, warm gloves, wool hose, wool shirts and fur caps.

The One that Fits the Road—or the One that Rides the Ridge

THE NORTHERN STATES HAVE ADOPTED THE 56' AUTO TRACK WAGON

The standardized wagon fits the pre-vailing track made by automobiles and is the wagon you will want to buy.

This Wagon is Out of Date. This 60 wide track wagon no longer fits the roads when they are muddy and soft.

OULDN'T you rather buy the style of wagon recommended by your Government, especially when it is designed to pull easier, ride smoother, and last longer — the wagon that fits the roads and does not ride the ridge?

The Standardized Weber "Auto-track" Wagon saves wear on itself, other wagons,

The Weber fifth wheel and swivel coupling wagon is either sold at a price much too low or most other wagons are sold at prices much too high, quality considered. Compare and draw your own conclusion.

To date the leading wagon manufacturers of America have sold at the most conservative estimate 100,000 standardized auto-track wagons. From this introduction it is but a step to universal use of this type of wagon. Wouldn't you rather be identified with progress and recognized as an up-to-date farmer by doing your hauling with such a wagon than to be classed as an unprogressive "back number" by buying a 60-inch wide-track wagon, thereby helping some manufacturer and dealer to "unload" an obsolete type? Think it over—and then come and see us about a standardized auto-track Weber.

COTTON MARKET.

New Orleans Cotton.

NEW ORLEANS, Nov. 21.—Somewhat heavier ginnings than expected this last period caused a seiling movement in cotton today, which carried prices off 45 to 54 points in the first half hour of trading. Ginnings for the period between November 1 and November 1 amounted to 1,303,000 bales against 929,261 during the same period last year.

bales against 929,261 during the same period last year.

The decline continued until it amounted to 55 to 65 points when heavy buying was met which was induced by rumors that the coal strike would be settled before the day was over. Toward noon the market stood 21 to 34 points higher than yesterday's final quotations.

The advance persisted until it amounted to 21 to 48 points but at one o'clock the market was about a dollar a bale off from the top under less favorable reports conterning coal strike negotiations.

Cotton closed steady at a decline of 40 to 76 points.

GRAIN AND PRODUCE.

CHICAGO, Nov. 21.—Weakness resulted in the corn market today from the shutting down, due to coal shortage, of various manufacturing plants that are large consumers of corn. Opening prices, which ranged from % cent to 1% cents lower, with December \$1.31% to \$1.32% and May \$1.25% to \$1.25%, were followed by a moderate rally.

Outs were weak with corn. After opening unchanged to % cent lower, including May at 75% % to 75%, the market ralled a triffe.

The fagt that receipts here were in excess of immediate demands led subsequently to fresh weakness. The close was heavy, % cent to 2% cents not lower with December 1.21% to \$1.31% and May \$1.24%.

Later the market became firmer owing more or less to statements by the British food minister that the world supply of meats was not sufficient for European requirements.

SMITH'S FRIENDS TO **CARRY FIGHT TO** COURTS AND PEOPLE

REFERENDUM CLAUSE OF CITY CHARTER TO SE INVOKED SY SUPPORTERS,

FAIL TO GO BEFORE COUNCIL

ude of Mayor and Members Body, They Say, Made Such Steps Useless,

Friends and supporters of Fred K. Smith, chief of police, plan to tarry the fight to restore this official to full control over the police department, both before the courts and before the people through invoking the referendum clause in the city chafter, bringing about a vote on the council's action in appointing Robert C. Goodfellow as assistant police commissioner, it was learned from friends of Chief Smith Friday.

"We are taking up this matter, not alone as friends of Fred Smith," one of them stated, "but as a matter of right to maintain the rights and powers of the office which he as present holds, which is an office filled by the vote of the people."

Counsel has been employed by this faction, who are now working on the details of the fight to be made, it was amounced. Fallure to present the petitions circulated early in the week asking for the reinstatement of Chief Smith and the removal of Mr. Goodfellow at the Thursday night meeting of the city council was explained by those circulating the petitions as due to the fact that they learned that the mayor and councilmen were firm in their opposition to such action, and their subsequent decision to plan the fight along these new lines.

In the meantime Chief Smith is at work on the books of the police department, and expects to have a report on their condition to make public within the next few days.

Neither Mr. Goodfellow, nor members of the city administration had anything to say in regard to this matter Thursday, other than the attitude previously expressed. The council has taken the attitude that the city charter west them with the responsibility for the proper discharge of the functions of the city administration had anything to say in regard to this matter Thursday, other than the attitude previously expressed. The council has taken the attitude that the closer control of the department through the authority of the police department, and that Chief Smith, being at odds with them, and not being responsible to them, mide imperative the closer control
