DENVER WRECKS; 56 ARE INJURED

May Sever Relations With Mexico

RESOLUTION TO THIS EFFECT IS INTRODUCED IN U. S. SENATE BY SENATOR FALL OF NEW MEXICO

WASHINGTON, D. C., December 3.—A concurrent resolution directing President Wilson to sever all diplomatic relations with Mexico immediately and withdraw this government's recognition of Carranza was introduced today in the Senate by Senator Fall, New Mexico.

TRAINMEN REFUSE TO HANDLE KANSAS COAL

PITTSBURG, KAN., Dec. 3.—Railroad trainmen at Frontenac have refused to handle cars containing coal mined by the state's volunteer miners.

PITTSBURG, KAN., Dec. 3.—Eleven strip pits in the Kansas fields will be in operation by the state this afternoon, Governor Henry J. Allen announced this morning.

Whether members of the four brotherhoods of railway employees working out of the coal field will refuse to handle the coal will be determined at a meeting late this afternoon.

The theft of seven cases of dynamite and a large quantity of dynamite from a mine magazine near Franklin last night caused the hurried despatching of national guardsmen to Franklin.

Whether members of the four brotherhoods of railway employees working out of the coal field will refuse to handle the coal will be determined at a meeting late this afternoon.

Whether members of the four brotherhoods of railway employees working out of the coal field will refuse to handle the coal will be determined at a meeting late this afternoon.

Contempt of Court Proceedings Against Officials of the Miners

INDIANAPOLIS, Ind., Dec. 3.—Contempt of court proceedings were to be instituted against all the general officers of the United Mine Workers of America on whom the temporary injunction issued by Judge A. B. Anderson of the United States district court, was served, before the end of the day, according to information obtained from an authoritative source.

WASHINGTON, Dec. 3.—Mine operators from all parts of the country gathered here today to work out details of the 14 per cent wage increase suggested by the government for bituminous coal miners.

CHICAGO, Dec. 3.—Further disruption of national industry by the strike of coal miners was in prospect today, regional directors of railroads had authority to suspend passenger trains where the public would be least inconvenienced and many additional manufacturing plants throughout the

country showed shutdowns either through exhaustion of their coal supplies or the strict rationing decreed by the federal fuel administrator.

On the other hand cutting off of electric advertising and other non-essential use of power and fuel, with the added prospect of further curtailment of industry, brought to the gen-

eral public a rather gloomy outlook. Some regional coal directors working with reductions of existing staffs already made or threatened should the strike not be broken immediately, the number of employees thrown out of work soon would surpass several times over the approximately 400,000 mine workers involved in the walkout.

Conditions at the mines today showed no appreciable change from yesterday. There was no indication of an intention to resume production in the great central competitive field, Illinois, Indiana, Western Pennsylvania and Ohio.

The output of the surface mines in Kansas, being worked by volunteers under protection of state and federal soldiers, today promised to be increased as the men got the "hang" of the work and their forces were augmented.

From the mine operators themselves, however, came some opposition to sending experienced men into their shafts.

The West Virginia mines today continued to be the chief producers of coal.

Change Noticeable

Conditions at the mines today showed no appreciable change from yesterday.

The output of the surface mines in Kansas, being worked by volunteers under protection of state and federal soldiers, today promised to be increased as the men got the "hang" of the work and their forces were augmented.

From the mine operators themselves, however, came some opposition to sending experienced men into their shafts.

The West Virginia mines today continued to be the chief producers of coal.

TWO WHARVES AND 6 VESSELS BURNED TODAY

One Man Is Missing Result of Destructive Blaze at Baltimore, Md.

BALTIMORE, MD., Dec. 3.—Two wharves of the Canton Lumber Company, at Canton, a suburb, the steam tug Governor McLane and five other vessels were destroyed by fire early today.

A large quantity of lumber on the wharves also was burned. The cause of the fire is undetermined. It is said to have started under one of the docks.

The steamers Governor McLane and Major L'Efant of the United States quartermaster's department, Bugeye Gretchen, tug T. J. Hooper, a floating welding machine and a scow were destroyed and the United States shipping across the water.

A large quantity of lumber on the wharves also was burned. The cause of the fire is undetermined. It is said to have started under one of the docks.

PRESIDENT TO DELAY MESSAGE ON RAILROADS

Will Await Conference Between Director Hines and Cummins and Esch.

WASHINGTON, Dec. 3.—President Wilson will not begin preparation of his special message to congress on the railroad situation until Director General Hines has conferred with Senator Cummins and Representative Esch, chairman of the senate and house interstate committees, on the pending railroad bills.

It was intimated that the status of the legislation might be such that the president would not regard it as necessary to address congress on the subject. Leaders in congress are determined to press the bills but they have expressed doubt that their agreement could be completed before Christmas.

Agree to Return Roads

Each of the measures provides for the return of the roads to private operation within a specified time, but they are different in other respects, particularly as to the method of dealing with strikes and lockouts and these differences will have to be composed in conference.

On view of the president's statement to congress yesterday that he expected to treat the railroad question in a separate message, there has been speculation in official and railroad circles as to whether he intends to adhere to his previously announced plan to return the roads to private operation by January 1.

Some officials and railroad men are of the opinion that the president may await action of congress on the pending legislation. Those at the white house refuse, however, to comment.

CLOTURE RULE MAY BE ASKED IN THE SENATE

Would Apply It in Connection With Discussion on the Railroad Bill

By HAYMOND CLAPPER (Staff Correspondent)

WASHINGTON, D. C., Dec. 3.—Senator Cummins, in charge of the railroad bill, that he ask for cloture on that measure, Cummins asked that no more be done for a few days. The expectation was, however, that should extended debate appear likely, the cloture petition would be circulated and an attempt made to repeat the action taken during the last hour of the extra session when the peace treaty was up.

This move is aimed at what is believed to be a plan of several senators to talk indefinitely on the railroad bill because of the anti-strike provision it contains.

Republican leaders are trying to get the bill through by Christmas as the president is expected to return the roads January 1.

Some senators gained the impression from President Wilson's message that he will defer the date for return of the roads. He said he would address congress later on this question.

SHARP ATTACK ON PROVISIONS OF BILL

WASHINGTON, Dec. 3.—The Cummins railroad bill was before the Senate today with its anti-strike provision and other clauses drawing sharp attack. Supporters of the measure had hoped for its speedy adoption but they now foresee exhaustive discussion of the bill before it is brought to a final vote.

In the House where the five billion dollar appropriation bills were submitted, the republican forces have adopted a "hold down" policy and sharp clashes of the appropriations were expected.

Resolutions authorizing a congressional investigation of the Ford-Newberry election contest and of Senator Watson's charges of radical activity in the federal treasury department may be passed today by the Senate.

WORCESTER POLICEMAN HAS GRADUATED FROM SHIMMY-SHAKING SCHOOL

WORCESTER, Mass., Dec. 3.—The letters "D. E. S." following the name of a Worcester policeman indicated he was graduated with the degree of "Decent Shimmy Shaker."

Yes, the shimmy—the quaking, shaking and often mischief making shimmy—has been officially introduced into the police department here.

COTTON SETS ANOTHER SEASON RECORD PRICE

NEW YORK, Dec. 3.—Another record price was established on the New York cotton exchange today when December cotton contracts sold at forty cents a pound on continued covering at the opening of local market. This made an advance of \$1.50 a bale over yesterday's closing quotations and an increase of approximately 12 cents a pound over the low level of last September.

TWELVE ARE BADLY HURT AND REPORT STATES ONE HAS DIED; TRAIN DERAILED AT FRUITLAND

Fifty-six were injured, twelve so seriously that they may die, when the third section of the Southbound Denver passenger No. 8 was wrecked early Wednesday morning at milepost 63, one mile south of Fruitland, Texas. A split rail is given as the cause of the wreck. Three day coaches, one combination, and two baggage cars were overturned, and two Pullmans were derailed. The engine did not leave the track, and neither the engineer or fireman were injured.

FRUITLAND, Dec. 3.—Fifty-six persons were injured, two or three probably fatally, when part of the third section of south bound Fort Worth and Denver passenger train No. 8 left the rails here at 4 p. m. Twelve persons were seriously hurt.

Two Pullmans, two day coaches and the baggage car were derailed by a split rail and turned over. The two rear Pullmans remained on the track. A relief train sent from Fort Worth started back immediately for that city.

Names of the injured could not be obtained up to a late hour Wednesday afternoon.

This section, which is the through section from Denver, is thought to have had few, if any, Wichitans aboard.

Relief trains with physicians, nurses and supplies were rushed to the scene of the accident from both Wichita Falls and Fort Worth. Drs. Jones and Lee, the company physicians in Wichita Falls, accompanied the Wichita Falls train.

The more seriously injured were carried to Fort Worth on the relief train from that place. The lesser injured being brought to Bowie, where they were given emergency treatment in the various physicians offices at that place.

Work of clearing away the wreckage was started early this afternoon, but it will be several hours, it is announced, before the wreckage can be cleared away. A number of passenger trains over the Rock Island at Bowie, that road practically paralleling the Denver from that point into Fort Worth.

The reports, apparently from reliable sources, mark this wreck as the most serious on the Denver line for a number of years. Reports were very difficult to obtain, as the nearest telegraph operator to the wreck the scene of the accident. Practically all of the local officials of the Denver accompanied the relief train which left here early this morning for the scene of the accident. A number of local officials in charge of a user-official who persistently refused to furnish the details of the accident.

TWELVE OF INJURED IN SERIOUS CONDITION

FORT WORTH, TEX., Dec. 3.—A long distance telephone message received this afternoon from Fruitland stated 56 persons were injured at 4 o'clock this morning when a Fort Worth and Denver passenger train bound for Fort Worth, was derailed. Twelve of the injured are hurt so badly they may die. A relief train is bringing all of the injured into this city. It will arrive about 4 o'clock. The wreck was due to a split rail. Two Pullmans, two coaches and two baggage cars were derailed.

Ambulance companies have been advised that of the 56 injured, 25 are in serious condition.

An official report to the general office of the Fort Worth and Denver railroad this afternoon said 51 are injured, of which 23 are in serious condition. None of the trainmen were injured. The wreck occurred on an embankment, the derailed cars rolling down the grade. All were full of passengers. The speed of the train was 25 miles per hour when the wreck occurred.

ENGLISH AND FRENCH EXCHANGE IS LOWER

NEW YORK, Dec. 3.—English exchange fell to the lowest level in history today when demand sterling was quoted at 43.25 1/4 which is 1 1/2 cents below yesterday's close. The normal rate is 44.57.

Rates on French exchange also developed new low records, franc checks being quoted at 16.17 for the American dollar, or less than half their previous value. Lire checks were quoted at 12.57 for the dollar, as compared with a normal rate of about five to the dollar, while German marks quoted at 23 and 24 cents each before the war, dropped today to 2.25 cents.

ALLEGES WEST POINT OFFICERS ARE FAVORED

WASHINGTON, D. C., Dec. 3.—Alleging West point officers were favored during the war, Representative Little, Kansas, claimed on the floor of the House today only 23 graduates of the academy were killed in action or died of wounds. Of this number fifteen, he said, were of the last graduating class.

FRISCO FUEL SUPPLY IS ABOUT EXHAUSTED

FORT WORTH, TEX., Dec. 3.—It was stated today at the general office of the Frisco in Fort Worth that the fuel supply of the system in North Texas is practically at an end and that operation may be seriously curtailed in the next few days. The Frisco has very few oil burning engines.

BELIEVE KAISER WILL FLEE TO GERMANY IF ARREST IS ATTEMPTED

AMERONGEN, Dec. 2.—Should the allies decide to attempt the forcible removal of the former kaiser from Holland, he will try a dash into Germany, it was believed in Dutch circles today. It is known Wilhelm will make every effort to prevent his proposed trial.

The Amsterdam Telegraph, denying monarchist rumors, said it had learned authoritatively there were no secret relations between the former kaiser and the German legation.

MEXICAN DEPUTIES FAVOR BULL FIGHTS

MEXICO CITY, Tuesday, Dec. 2.—By an overwhelming vote of the Mexican chamber of deputies today passed a bill restoring bull fights. The senate will vote on the measure tomorrow.

PRICE OF KEROSENE HAS BEEN ADVANCED

NEW YORK, Dec. 3.—Kerosene prices have advanced one cent a gallon wholesale in Pennsylvania and Delaware and one half a cent a gallon in Colorado, Montana, New Mexico and Wyoming, it was announced.

U. S. DELEGATION IS TO SAIL NEXT WEEK

PARIS, Dec. 3.—The American delegation to the peace conference with most of its personnel will sail for the United States from Brest next week. The day has not been fixed.

The question whether one delegate shall remain to continue participation in the work of the supreme council rests, it was said, entirely with the state department at Washington.

The understanding here from the best obtainable information is that if none of the delegates are left here Ambassador Wallace will be given such powers as will make the American participation in the subsequent work of the peace conference quite as effective as if the delegates were to remain.

At the state department at Washington yesterday it was indicated that present plans were that the entire American delegation would leave Paris on December 8, leaving with Ambassador Wallace the task of closing up any affairs remaining unsettled.

GERMANY IS NOTIFIED FORCE EXCEEDS LIMIT

PARIS, Dec. 3.—The supreme council today notified Germany her present armed force exceeds that permitted by the terms of the peace treaty and that it must be reduced before the treaty can be declared effective.

The council also sent a note to Germany regarding war prisoners.

BANDIT BILL CARLISLE HAS BEEN CAUGHT

Captured Tuesday Near Douglas, Wyo., After Being Shot Down by the Sheriff

EXPECTED TO RECOVER FROM WOUND RECEIVED

Had Not Been Out of Wyoming Since His Escape From Prison Nov. 15.

DOUGLAS, WYO., Dec. 3.—Two-score more years of prison life, possibly death in the electric chair, possibly William Carlisle, train bandit, as he lay today in Douglas hospital with a bullet hole in his right chest.

Carlisle was shot down in a cabin yesterday by Sheriff A. B. Roach, of Wheatland, as the bandit, cornered, reached for an automatic pistol to give battle. The posse had trailed Carlisle since Sunday morning, through a bitter blizzard, by team, on horseback and finally on foot when drifts of snow were encountered too great for a mount to traverse.

The outlaw, who had eluded pursuit since his escape from the state prison at Rawlins on November 15 and subsequent robbery of the Los Angeles Limited train near Medicine Bow, November 18, was strapped to a pack horse for the descent down Laramie Peak, 15 miles southwest of here, then bundled into an automobile and rushed to this city.

Faces New Charge.

Just what disposition will be made of him has not been determined. He was serving a life term which had been commuted to from 25 to 50 years when he escaped. In the meantime, a new crime, for which death is the penalty, has been committed by the outlaw. For the present, it was said, he will be kept in the hospital here, later to be transferred to the state prison pending decision as to his case.

Carlisle will not die from his wound. He lived clean, has a strong physique and has more than a fighting chance to beat death, his physicians say. "I don't blame you for shooting," is the only statement the wounded outlaw had to make.

Not an inkling of the bandit pursuit had reached the public until yesterday when it was learned that Carlisle had jumped from the cabin window of a woman rancher, as the sheriff's posse entered the house. He got away, but the heavy snows made his trail easy to follow and he was caught four hours later at the ranch of Frank Williams, in the most desolate part of the Laramie Peak region. Carlisle has been in Wyoming since the train robbery.

EXPECTED TO RECOVER WITHIN FEW WEEKS

PRESIDENT OF MINE WILLING TO SETTLE TO RELIEVE SITUATION

FORT WORTH, TEX., Dec. 2.—Willard Burton, of Fort Worth, president of the Strawn Coal Mining Company, wired General Manager E. H. Ritchie at Strawn this morning, proposing that an immediate settlement of some kind be made with the strikers at Strawn. Burton wired his company was willing to forego all profits on coal mining in order to relieve the present distress in parts of West Texas. Burton told Ritchie to see the other operators in the Strawn area, at once and effect some kind of a settlement.

FAMO destroys the dandruff bacilli and stops seborrhea. Seborrhea is the cause of dandruff. Allowed to run unchecked it makes the hair die and fall out, just as psoriasis loosens the teeth. FAMO kills the seborrhea microbe and gives the hair new life and lustre and promotes new hair growth. It contains no harmful alcohol and retards grayness. Two sizes—35 cents, and an extra large bottle at \$1. At all toilet goods counters. From the laboratories of F. A. Thompson & Company, Manufacturing Pharmacists, Detroit, Mich.

Examine Passes to Mines With Bayonet Against Man's Belt

PITTSBURG, KAN., Dec. 2.—"Now watch our smoke."

That was the spirit of Kansas volunteer miners in the Pittsburg district strip mines today. With the first car load of 50 tons of coal, actually shipped, strikers were right after "more, where that came from."

All preliminaries were out of the way at five mines and operation at full blast was expected to be attained early. The big steam shovels have been thawed out, camps placed in order and the men are ready for a long siege in the coal field, it is necessary.

Only the Wilson mine, northeast of here, reached production yesterday. Today steam shovels at the Acme mine, fourteen miles northeast and three Carbine mines, twelve miles south, were to begin to swing under the hands of volunteers.

Guarding the Mines

Members of the Kansas National Guard are guarding the mines. No one is allowed to pass the sentries without proper authority. Sentries examine the passes with one hand grasping a rifle, whose bayonet presences the visitor's belt.

Company D, Seventh Missouri regiment, one hundred strong, entrained early today at Kansas City, Mo., for mining towns in Barton County, Mo. A brief statement issued by Governor Gardner said the troops were sent "in view of conditions existing in the mining district of Barton County, Missouri."

Miners at Trenton, Mo., returned to work today. They went back as "Americans" at the old wage scale, "to save their neighbors suffering." Production from Trenton's only wagon mine will easily relieve the critical fuel situation here.

MRS. LESTER TABOR AND SON WALTER ARE LOCATED

LAWTON, MICH., Dec. 2.—Authorities have located in Portland, Ore., Mrs. Lester Tabor and her son Walter, sought in connection with the investigation into the death of Maud Tabor, according to reports received here today. They will probably be brought here immediately.

Authorities today appeared no nearer a solution of the mystery of the death of Miss Tabor than when the body was located in the trunk in the basement of the Tabor home here, where it had reposed for three years. Specialists testifying at the coroner's inquest said there were indications that she might have died as a result of blood poisoning brought on through an attempt to escape public censure by an illegal operation.

INSPECTORS INVESTIGATE POSTOFFICE CONGESTION

Investigation of the congestion of the local post office, with an incidental inquiry into the delays in the transfer of mail between the trains and post offices by the railway mail service, is given as the mission of inspectors W. T. Macy and C. L. Cain who were at the local post office Wednesday.

THREE PEOPLE ARE KILLED IN ITALIAN RIOTS

At Least a Dozen Others Injured During Socialist Demonstration Monday

ROME PLACARDED WITH PRAISE OF BOLSHEVISM

Socialists Call Temporary Strike in Cities of Rome, Milan and Florence

ROME, Dec. 2.—(Night).—Three persons have been killed and at least a dozen injured, many severely, in rioting resulting from socialist demonstrations at the opening of the chamber of deputies Monday.

Two were killed at Milan when carabinieri fired upon a crowd of workmen. One carabinieri was injured fatally. In Rome a group of demonstrators fired on carabinieri who returned the fire, killing one and wounding six.

Rome was placarded tonight with manifestos praising bolshevism and urging workers to establish soviets. At Florence loyalist and socialist demonstrators clashed. Several were injured.

Call Temporary Strike.

The socialists called a temporary general strike in Rome, Milan and Florence. In Rome printers went out.

CUTICURA HEALS BURNING ITCHING

Eczema On Face, Neck and Arms. Could Not Sleep.

"I suffered from itching and burning that was something awful, and I was told I had eczema. It started just like heat on my face, neck, and arms, and then formed into blisters and afterwards sore eruptions. I could not sleep at night and I scratched so that I felt I could not stand it any longer."

"Then I decided to try Cuticura Soap and Ointment. I only used one cake of Soap and one box of Ointment and they healed me." (Signed) Mrs. C. P. Grigsby, 704 Pearl St., Huntsville, Ala.

Use Cuticura Soap, Ointment and Telegram for all tender purposes.

Soap 25c, Ointment 25c and 50c, Talcom 25c. Sold throughout the world. For samples each free of charge. "Cuticura Laboratories, Dept. 10, Malden, Mass."

DYNAMITE IS STOLEN FROM A KANSAS MINE

PITTSBURG, KANS., Dec. 2.—Arrests in connection with theft of a quantity of dynamite from a magazine at a mine at Franklin are expected to be made today, it was said by government agents this morning.

Discovery of the theft from the magazine was made last night. A squad of state troops immediately was sent into the territory.

The thieves obtained seven cases of dynamite and 240 caps. There was no guard at the magazine except the regular mine watchman.

FIVE DESTROYER ARE ENROUTE TO GALVESTON

GALVESTON, Texas, Dec. 3.—Five destroyers of the United States navy are enroute to this port for a ten days visit, according to advice received by Mayor H. O. Sappington. They are under command of Commander L. C. Parley and are coming in the interest of navy recruiting.

DEMOCRATS OF SOUTH DAKOTA FAVOR WILSON

President Is Endorsed for Third Term at Convention Held On Tuesday

MAJOR GENERAL WOOD IS CHOICE OF REPUBLICANS

Non-Partisan League Endorses Governor L. J. Frazier of North Dakota

PIERRE, S. D., Dec. 3.—Major General Leonard Wood today had the endorsement of republicans of South Dakota as their choice for presidential candidate. Wood was the victor in the republican state convention which closed late last night over Governor Frank G. Lowden, of Illinois.

The vote stood: Wood 28,599; Lowden 15,442.

The democratic convention, meeting at the same time, endorsed President Wilson for a third term.

Governor L. J. Frazier, of North Dakota, was endorsed as a presidential candidate by the non-partisan convention.

The republicans favored Governor Calvin Coolidge of Massachusetts for vice-president and the democrats Vice-President Thomas H. Marshall to run again.

Governor Peter Norbeck was endorsed as republican candidate for United States senator and Senator Ed S. Johnson was given the support of the democrats.

Senator Miles Poindexter, who made last minute fight to procure the republican presidential endorsement, was not mentioned by the convention.

After the democrats had endorsed Wilson, it was proposed by a delegate that the meeting go on record in favor of William G. McAdoo if Wilson is not a candidate. The proposition was ruled out of order.

The names chosen will go before the people of South Dakota at the primary election. Other candidates may be proposed by petition.

TWO AMERICANS ARE KILLED IN SOUTH AFRICA

Several Others Are Seriously Injured in a Railroad Wreck

CLEVELAND, O., Dec. 3.—Two Americans, members of an exploring expedition launched jointly by the Smithsonian Institution and the Universal Film Company were killed in a railroad wreck in the Engo forest, Belgian Congo, South Africa, and several others seriously injured, according to a cablegram received today by the Newspaper Enterprise Association from Edward M. Thierry, a newspaperman with the expedition, from Elizabethville, Belgian Congo.

The dead: DR. JOE R. ARMSTRONG, Los Angeles, medical director and business manager of the expedition.

WM. STOWELL, Los Angeles, motion picture director of the expedition. The injured members of the party are:

Phily Horne, Los Angeles, photographer, cut and bruised.

Henry N. Kohler, Los Angeles, photographer, body injuries; not serious.

Ed M. Thierry, correspondent, head lacerations, bruises and shock.

Henry C. Haven, naturalist, and Dr. Homer Leroy Shonta, botanist, were not with the expedition into the Engo forest but are in Rhodesia.

The expedition in a special coach had left Sakania for Elizabethville, with a freight train of six cars. A tank car was uncoupled at a siding fifty miles north of Sakania. The brakes became loosened and the tank car, running down grade, overtook and crashed into the rear of the freight train.

Native woodcutters extricated the injured and carried them to their huts where they remained for 16 hours without medical aid.

Two hours after a physician had dressed their injuries the relief train from Elizabethville reached the scene of the accident and more than 24 hours after the accident, the injured were brought to a hospital in Elizabethville.

Several natives were killed.

EFFECTIVE BASIS FOR ORGANIZATION PRICE COMMITTEE

With the passage of the legislation enacted by the last Congress giving wider scope to the powers of this committee, the Wichita County Fair Price committee will be reorganized and renew their activities at an early date, it was announced Wednesday by W. S. Curlee, county food administrator.

Under this new legislation the work of the fair price committee becomes a very important factor in the fight to lower the cost of living, the prices fixed by this committee becoming the basis on which the department of justice will bring their suits under the anti-profiteering provisions of the law. This provision extends to foodstuffs, clothing and other necessities of life.

While the new legislation does not give the committee power to summon witnesses for their hearings, it is believed that the power conferred on them to fix the prices which may not

be legally exceeded will obviate any trouble in securing the attendance of both the wholesalers and retailers who are summoned before them.

The committee will be composed of representatives of the housewives, retailers in both dry goods and groceries, wholesalers, farmers, labor, and several representatives of the public at large.

The exact date for the reorganization of the committee has as yet not been set by Mr. Curlee, but it will probably be some day during the coming week. The chief difficulty heretofore experienced by Mr. Curlee, in addition to the lack of authority which existed prior to the passage of this recent legislation, was the difficulty of securing members of the committee who appreciated the importance of this work, and who would devote a sufficient amount of time to the work to make it really count in the fight against the cost of living which was being carried on by the department of justice for the lowering of costs for the necessities of life.

HOUSTON REPORT ON GULF COAST WEATHER

HOUSTON, TEXAS, Dec. 3.—Winds on the Texas coast: light northerly to easterly.

Shippers' forecast: protect 36-hour shipments to northward against temperatures 23 to 32 degrees.

Weather conditions and highway bulletins: temperatures have fallen from 29 to 28 degrees in the eastern

and southern portions of Texas, but have been rising in the Panhandle. Automobiles leaving today will have

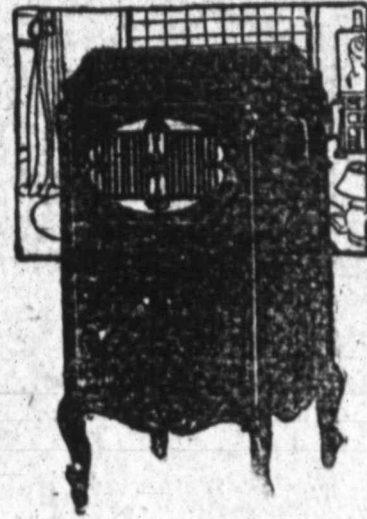

cloudy and cold weather, probably. Grange have been reported impassable with some rain. Highways Houston and Belleville to La Grange and Beaumont, and Belleville to La Grange are of dirt roads will be heavy.

TWO GREAT FEATURES of the Brunswick Method of Reproduction

1 The Ultons. This all-record player has revolutionized phonograph ideals, and is instantly adjustable to each type of record.

With it you can play all records at their best. All artists, all bands, all selections are at your command.

Only the Brunswick offers this great invention.

2 The All-Wood Tone Amplifier, which develops new tonal qualities, bringing out tones hitherto lost. It is constructed entirely of wood, like a fine violin.

Investigate these exclusive features before you make even a tentative decision, for old ideas are sure to be discarded.

The Brunswick has created a nation-wide appreciation. Thousands are being sold to those who insist on the best.

We will gladly play The Brunswick for you and explain its new features. Make your own comparisons. Let your ear decide.

OPEN SHOP AGITATION.

There promises to be a test of the "open shop" and the "closed shop" theories here in North Texas. Dallas has espoused the open shop idea and its open shop association includes many large and small employers of labor.

"Let's strike under no circumstances for wages or working conditions when the employers accept arbitration. Temporarily and in a small percentage of cases we will win by the use of force, but when we reckon the cost in dollars and cents, saying nothing of the heartaches, we are losers."

Let's get back to our way of doing business. Let's compel the public to admit in Fort Worth, at least, that an agreement with a labor union, be it written or verbal, is as good as a Victory bond."

The Texas Chamber of Commerce is issuing some interesting information about Texas. Primarily intended as a bulletin for the newspapers, the organization has found the requests for the information so numerous, that the information will be compiled and put up in pamphlet form for distribution among those desiring accurate and recent statistics about the state.

They are talking of rationing out the candy in New York because the candy makers have "budded" the sugar market by paying exorbitant prices for sugar. Cost of the sugar cuts no figures because they have only to "pass the buck" on so that the ultimate consumer finally absorbs it.

We doubt if the daylight saving law is as unpopular now as it was before its appeal. A lot of folks have found that an hour saved in the morning is worth as much as one saved in the afternoon, and that getting up before sun-up in the morning is no worse than getting home after dark in the evening.

ELIMINATE SPECIAL CHARGES.

The Oklahoma Corporation Commission has eliminated all the "report" charges imposed upon long distance telephone customers after the Postmaster General took over operation of the telephone companies, and the Commission's pre-war rates on long distance calls ordered reinstated instead of the "reduced" rates put in effect by Mr. Burleson—the reductions being of the variety that seem but aren't.

Dallas has ordered the company to cut out the "installation charge"—which was another new fangled way of separating the patrons from their money discovered immediately after the government took charge—and that example, is probably to be followed generally, because it was an unjust charge, we have always believed, and really militated against the companies, for many patrons have simply done without telephones rather than submit to what they believed an unreasonable penalty.

Public service corporations are entitled to a fair return on their investment, but they ought to get that profit directly and not by the imposition of vexatious special charges that cause greater annoyance to the public than they yield revenue to the corporation levying them.

HUNGER STRIKE FAILS.

The hunger and silence strike of the "Ellis Island Soviet" ended abruptly when the strikers found those in authority were not opposed to the reds starving themselves if they wanted to, and a dispatch notes that the reds "responded eagerly" to the call for breakfast immediately they decided the authorities planned no forcible feeding.

The same result will be found, we suspect, at Tacoma where the brutal City Council decided that if the twenty-two "wobblies" in the City prison wanted to starve themselves by a hunger strike, the Council was absolved legally and morally from any responsibility, and the official message went to the I. W. W.'s to go ahead and starve.

Militant suffragettes over in England whipped Scotland Yard through hunger strikes and resistance to forcible feeding until the militants had the sympathy of pretty much of the United Kingdom. But if the reds and "wobblies" over here think they can get any sympathy by not eating or even not talking, they have sized up the American situation very wrongly.

Dallas has decided that it will not permit the telephone company to continue its "connection charge" inaugurated under government operation because it is not permissible under the company's franchise. There never was any good reason for the charge except that the people wanting telephones couldn't help themselves so long as the Postmaster General ordered it collected, and it is to be hoped that every other city administration will follow the example of Dallas and prohibit its collection. If the telephone companies are entitled to an advance in rates—and with every thing else climbing in price we are fain to believe they are—let them raise their rates to a point which will enable them to have a fair return. But we want them to do it by a straight cut raise, if it must be done, and not by circumlocutions like the "connection charge" always was.

Charles H. Steilway, millionaire piano manufacturer, left an estate of \$5,000,000, but his will provided that his principal beneficiary—his only son—should be limited to \$100 income a week because, as the relator set forth in his will, he was "not competent" to look after the estate or to supervise the expenditure of more. Many a man has lost sight of everything else in his obsession to get rich for the sake of his children. And an almost equal number of men have lived to regret that they permitted their obsession to obscure the other and better things of life, and their regret has been discovered too frequently after they learn that they have ruined their children by rendering them unfit or incompetent, the father being so busy building a fortune for his children that he had no time to devote to inculcating in them by precept and example the real things about life every boy and girl should learn from their parents. A lot of men have sold their birthrights and their children's birthrights for a mess of pottage.

In spite of the fact that never in history were all kinds of farm products so high and that the farmer, who has overcome the vicissitudes of weather and insects sufficiently to make an average crop, has an income that is not to be sneezed at by even an oil magnate, there is not discernible so far any rush to get back to the farm. The biggest obstacle in the way is the fact that farm work is real work, and too many of us are committed to the doctrine that work is only for the fellow to do—we plan to get by through scheming or whatever is necessary to avoid actual labor!

NEW YORK CITY IS A TRAINING SCHOOL FOR AMERICANISM

WASHINGTON, D. C. Dec. 3.—New York City, just now being criticized as a hotbed of alien agitation, is cited by a bulletin of the National Geographic Society for its tremendous services in absorbing our immigrant citizens.

If the general concern about the alien menace leads to broader national sympathy for those places which have borne the brunt of a national burden, it will not have been in vain, says the bulletin, which quotes from a communication by William Joseph Showalter concerning New York's immigration problem as follows:

"Any story of New York begins with its people, and in its vast aggregation of humanity there is a wealth of interest.

"Let those who have been pessimistic about our immigration study New York. It seems unbelievable, but it is every resident whose parents were born in America were to leave the city its standing as the second most populous center in the world would not be affected. In other words, the number of immigrants and their children resident in New York is almost equal to the combined populations of Paris and Philadelphia and greater than the combined populations of Chicago and Berlin.

"Three people out of every four in the great metropolis were born under alien flags or are the children of the foreign-born. But who that has studied the situation can gainsay New York's Americanism?

"The story of how the one-fourth of the city's population that is of na-

tive ancestry has Americanized the three-fourths that is foreign in birth or parentage is revealed in the schools.

"He who studies at first hand the processes of Americanization and citizen-building finds work being done which would stir the heart of the most unemotional observer. He realizes that all of what is called New York's politics, stories of graft and the like, are but the froth and foam which fleck the waves of a deep current of while beneath runs a deep current of progress and public spirit, which takes form in carefully conceived and splendidly executed health laws, in a school system that has accomplished wonders, in a water system surpassing anything of its kind on earth, and in a hundred and one other ways not quite so dramatic as the printed stories of its politics and graft, but none the less full of human interest.

"Along with many other cities, New York long since learned that a vast majority of the children who attend public schools do not go to college afterward.

"From that suggestion developed the idea of vocational education which is now accomplishing wonders. Perhaps more than any other one agency, it is helping to transform in heart and action the alien life of the children into part and parcel of our body politic. The immigrant's children are being fitted for that economic independence which comes with skilled hands, instead of being sent forth from school with untrained hands and poorly trained minds.

"When one reflects that seven out of every nine children of school age in New York are of immigrant parentage, a situation is disclosed that might be termed startling, especially when it is remembered that the school army of Greer's Gotham is so large that if it marched ten abreast in close formation the front rank would be boarding a North river ferryboat when the rear guard was crossing the Schuylkill out of Philadelphia.

"It is a staggering task which confronts the city in Americanizing such huge numbers of youthful foreigners. Indeed, did it not happen that New

York is so rich—with assessed values greater than those of the next seven cities in America combined—it might well call upon the national government for aid. But with such wealth it is bearing the burden alone and is doing it admirably.

"One might write at length about striking features of the New York public schools, which stand first among all the agencies for Americanizing the immigrant's children. How these schools take seventy odd tongues and substitute good English; how they not only labor to fit boys and girls for intelligent and useful places in the country's great industrial system, but also through employment bureaus bring the trained pupil and the open job together; how they provide every year for the children of an added population equal to that of Memphis, Tennessee—are achievements and problems worthy of consideration by Americans everywhere."

TEACHERS HAVE HAZY IDEAS ABOUT ALASKA

JUNEAU, Alaska.—Some school teachers down in the states have hazy ideas about Alaska, according to letters received at the Alaska Territorial Bureau of Publicity here. One lady of Johnstown, Pennsylvania, wrote that she wanted to teach school in Canada and said she thought Juneau would be the best city in which to start. Another testified her geography the opposite way and said she had decided to teach school in Alaska and therefore wanted a position in Dawson.

Dawson is in Canada. A third wrote "Have you any schools in Alaska?"

CITY SCHOOL ENTITLED TO TAX PENALTIES

AUSTIN, Texas, Dec. 3.—A city school fund is entitled to the money arising from penalties upon delinquent school taxes, according to the holding of the supreme court in refusing a writ of error in the case in which the city of Fort Worth was contending that these penalties belonged to the general revenue fund of the city.

CHOSE LIFE IN PRISON IN PREFERENCE TO PLACE IN THE ARMY OF CZAR

PHOENIX, Ariz.—A great many Russians who fought in the armies of former Czar Nicholas prefer life in a German military prison camp to an uncertain existence in their own land, according to Captain G. V. Oill, who recently returned to the United States from Berlin, where he was engaged in special work for the Inter-Allied commission. For six months Captain Oill worked among Russian prisoners of war in Germany, examining them for symptoms of tuberculosis and seeing that those affected were given proper care.

"Six hundred thousand Russians were held as prisoners of war in Germany when I went there last March," Captain Oill said. "When I left about 2,000 had been repatriated by the Inter-Allied commission. In the interval conditions in German prison camps had been greatly improved. Good food was being served the prisoners when I left in September and the general rules of sanitation were being observed."

Captain Oill said many Russians who were repatriated by the Inter-Allied commission returned to the strict discipline of the German prison camps in preference to affiliating themselves with "free society" under the soviet government in their own country.

On his return to this country Captain Oill was assigned to Whipple Barracks, Prescott, Arizona.

HE WHO VIOLATES PATROL CLASSIFIED ESCAPED CONVICT

AUSTIN, Texas, Dec. 3.—The status of a person under the extradition law who has violated his parole in another state and come into Texas is that of an escaped convict, the court of criminal appeals held in acting upon an appeal of William P. Carrol, who was arrested in Houston upon a fugitive warrant from Massachusetts. The governor had allowed the extradition, which this court affirmed.

Our Future Home

A Modern Distinction

Modern banking service is as far ahead of the old-time conception of a bank's function as "construct" is the opposite of "obstruct." The distinction is particularly appealing to new and expanding businesses.

Banking SERVICE has become a factor in personal progress.

We will gladly give thorough, thoughtful, unbiased consideration to your problems and requirements, for this is a thoroughly modern institution.

Small accounts are as cordially welcomed as large.

Mrs. Tucker helps make these famous biscuits

Folks who go to Commerce, Texas, generally get an opportunity to sample some famous biscuits—for Mrs. Lizzie Hanes, of the Rogers House there, produces pans of them every day that are

known throughout the Commerce section for their lightness and delicious taste. Lots of people look forward to a visit to Commerce just for this very reason.

And Mrs. Hanes finds Mrs. Tucker's Shortening so satisfactory that she uses it exclusively in the making of this delightful bread. She uses Mrs. Tucker's in many other ways, too, and recommends it—as her letter will show—for home cooking.

Though rich and wholesome, Mrs. Hanes says, Mrs. Tucker's does not impart a flavor of its own, and has no odor, either. Two rather important points, proven fully by Mrs.

How Mrs. Hanes Makes Good Biscuits

To each quart sifter of flour add one teaspoon salt, one rounding teaspoon soda, one teaspoon baking powder, one-third cup of Mrs. Tucker's Shortening, three cups of milk. Work until dough is stiff but pliable. Then cut and cook in very hot oven. Must cook quick if they brown delicately, as they should.

Hanes' long experience in cooking for a large number of people daily. Try Mrs. Tucker's Shortening when you make some real, old-fashioned Southern biscuit according to Mrs. Hanes' recipe. You'll find that there's no shortening you ever tried before quite so good—and none nearly so economical. (You use one-third less of Mrs. Tucker's than the average shortening, with better results.)

Order Mrs. Tucker's Shortening From Any Well-Stocked Grocery.

QUICK WORK OF UNITED STATES SAVES JENKINS

Was Being Railroaded to Prison Declares Manager for American Firm

REFUSED TO ACCEPT THE TESTIMONY OF DEFENSE

Sent to Mexico City Only Such Evidence as Satisfied the Officials

DALLAS, TEXAS, Dec. 2.—Timely intercession by the American government alone halted efforts of Puebla, Mexico, courts to "railroad" William O. Jenkins to prison.

This was the declaration here last night of J. J. Marshall, export manager of a large American manufacturing company who has lived at Jenkins' home in Puebla for the past two months.

Jenkins didn't have any more to do with the charges made against him than did. As a matter of fact, Marshall declared, "the charges against him were changed so often that Jenkins himself did not know half the time what the new ones were."

At the time they had Jenkins in prison charged with abducting himself, they had a lawyer named Novy imprisoned for abducting Jenkins. And they arrested the watchman at Jenkins' plant and charged him as an accomplice.

Railroading Case. The Mexican government's apparent desire to dispose of Jenkins' case quickly, Marshall asserted, was to avoid being forced to reimburse the consular agent for the sum he paid as ransom. They feared such a precedent would cost them huge sums if once established, he said.

"If the United States government hadn't stepped in when it did," he continued, "they would have railroaded him to prison in short order. Jenkins didn't have a chance."

The courts would not take any testimony from his side of the case and would send to Mexico City only such testimony as would go against him. Every method was used to make the Indians and peons give the testimony the court wanted.

Forced to Testify. "One day they brought a bunch of Indians in from Jenkins' ranch to testify. The prosecuting attorney told them he wanted them to say they saw Jenkins at his ranch on October 22. They refused. The attorney ordered the guards to take five of them outside. In a few minutes rifle shots were heard."

"The guards came back in the room and the attorney against asked the Indians if they wanted to give the desired testimony. They did."

"But the five were not really shot. They were led outside and held while the guards fired in the air. This is just an instance of how testimony was obtained."

"The officials are just now taking his case seriously but the government is doing all it can to cover up the worst parts. As a matter of fact, a foreigner can't walk the streets in Mexico City and be safe. There have been numerous cases where the police have held up foreigners."

his case seriously but the government is doing all it can to cover up the worst parts. As a matter of fact, a foreigner can't walk the streets in Mexico City and be safe. There have been numerous cases where the police have held up foreigners."

TABLOIDS

Must Restrain His Goats. NEW YORK.—Gone that die in a cafeteria on a hospital clothes line must be restrained from doing so again. "Five dollars please" and Magistrate Brown fined three Brooklyn goat owners.

Waan't a Bomb. NEW YORK.—Mrs. George W. Perkins thought the express man had brought her a bomb; so did the police, until they opened the burkap wrapping and disclosed a folding card table shipped from St. Louis.

Too Much Activity. CLEVELAND, O.—Here it is again. Billy Wartzler looked into a gasoline can to see if the lighted match he threw in was burning. Both eyes were destroyed.

Valuable Reward. CHICAGO.—Frank McGinnis values his rowboat more than a bottle of booze. He offers a bottle of "Old Crow" for its return. "That ought to fetch it back," Frank said.

Familiar Names. OKLAHOMA CITY, OKLA.—Jack London, Alton B. Parker and Oscar Wilde have all enlisted at local recruiting stations. But they are not the ones you're thinking of.

Load Too Light. DALLAS, TEX.—It was only a motor truck that backed up on A. Dumbek's head, so he lived. Hurt like the mischief, though, he told emergency hospital attendants.

ABOVE LEGAL PER CENT OF ALCOHOL IN MANY OF DRINKS BEING SOLD

AUSTIN, Texas, Dec. 2.—While the attorney general's department is charged specifically with the enforcement of the very stringent prohibition act passed by the last legislature and a considerable proportion of the numerous samples of beverages offered for sale in various parts of the state have shown a per centage of alcohol above that allowed under the act when they were analyzed in the pure food and drug department here, the attorney general has given no intimation as to future proceedings.

Inspectors of the pure food and drug department are gathering a large number of samples for analysis. A lot of 110 recently sent from Galveston contained 37 with an alcoholic content above the one per cent which is allowed by law, and so far this has been about the average of samples tested.

One of the Galveston samples contained 17.66 per cent alcohol and several ran as high as 5 per cent. A majority of the beverages found to contain an excessive "kick" are so-called ciders. Where a beverage is put out under an established trade name the manufacturers are careful to stay within the law, according to authorities of the department, and practically all the widely advertised soft drinks pass a satisfactory inspection.

Data being obtained by this department is being passed on to the attorney general.

UNITED AMERICAN OIL AND GAS CO. IS DRILLING AT TUTTLE

TUTTLE, OKLA, Dec. 3.—Attracted here by the accidental discovery of oil that tests 50 per cent kerosene and 35 per cent gasoline, the United American Oil and Gas Company of Wichita Falls has begun drilling its first well. The location is on the Thomas farm in the southeast of the northeast of section 19-9-6, one and one-half miles south of Tuttle. Williams Mullens, the driller, has contracted for a hole 3,000 feet deep and the company has deposited \$10,000 cash in a local bank as a guarantee to drill that depth.

Oil was discovered a few weeks ago at a depth of 55 feet in a water well drilled for a local ice company. An Empire chemist analyzed the product and found that it contained only three per cent fuel oil and one per cent waste. The gasoline content is so strong that the oil has been used in the operation of motor cars.

Geologists who have surveyed this territory believe that the oil has found its way from a lateral or deeper pool and has refined itself while being pushed by gas through various compositions of earth. Dean Stacy, Oklahoma City geologist, has made a very favorable report on the structure.

The United American is backed largely by New York capitalists and is not offering stock for sale. Robert Lane, its treasurer, is a nephew of William C. Lane, vice president of the Guaranty Trust Co. of New York. President J. L. Van Dusen is a New York oil operator. C. W. Gormly, a well known New York lawyer, is a director. J. D. Nance, Wichita Falls operator, is vice president, and Edward F. Johns, formerly a banker of Chickasha, is secretary. The company has opened an office in Oklahoma City.

This company has several blocks of acreage also in the region of the Kemp-Munger-Allen well in Texas.

FINLAND WOMEN ARE DOING MUCH OF WORK IN ALL AVOCATIONS

HELSINGFORS, Dec. 3.—An astonishing sight for the stranger in Finland is the number of women engaged in almost every field of employment. In England during the war one became accustomed to the sight of women performing various kinds of work in which previously only men were engaged. But in Finland the visitors get the impression that the women are doing everything. They even serve as porters on sleeping cars.

Not only are they at heavy manual work in fields and factories, but they have become skilled as mechanics and have invaded business offices to an extent that is probably undreamed of in any other country. In banks, the proportion of women employees to men appears to be about 10 to 1. In the biggest financial institutions in Helsingfors, women hold positions involving great responsibility and calling for exceptional ability.

In the Finnish Foreign office, the Associated Press correspondent noticed that women were holding offices

INTEREST ON FUNDS AN IMPORTANT ITEM

AUSTIN, Texas, Dec. 3.—With \$8,659,000 of state funds in depositories, drawing approximately \$30,000 interest per month, State Treasurer J. W. Baker estimates that \$5,000,000 more will be available for depositing at interest early next year.

State funds on hand reached \$11,000,000 at one time during the current year, and income from a number of sources is expected to exceed this high mark.

Mr. Baker estimates that there will be an increase in the amount of ad valorem taxes of approximately \$6,000,000. He also expects many taxpayers to pay their taxes before January 1st in order to charge these taxes in their income tax report to the federal government for 1919.

The chief of Hearst's is to entertain and enlighten. Through all its departments intelligent men and women are seeking new readers for Hearst's for November. Minutes by minute and hour by hour all over the United States—this will continue until 200,000 of the most progressive magazine readers have secured their copies.

The others, disappointed, will have to wait—or be satisfied with a lesser magazine.

ALREADY—at the very moment you read this—thousands of intelligent men and women are seeking new readers for Hearst's for November. Minutes by minute and hour by hour all over the United States—this will continue until 200,000 of the most progressive magazine readers have secured their copies.

The others, disappointed, will have to wait—or be satisfied with a lesser magazine.

YOU, perhaps, already have your November number. You have looked at the Table of Contents—Influences, Maccabees, Conan Doyle, G. K. Chesterton, Orson Welles, Joseph E. H. Cary, head of U. S. Steel, on "Something More Than the Pay Relations," Dr. B. C. Forbes, K. C. B., Wake Mason, Dr. Frank Crane. Or you have, maybe, turned first to the Art—Play—Book—Science—of the Month. One thing is certain, you have noticed the real authority of Hearst's—its splendid serious side.

BUT you say—you buy a magazine for its fiction. Good! Here in Hearst's for November are stories by Robert W. Chambers, Richard Washington Child, Arthur Somers Roche, and Bruno Lanning, Arthur Strasser, Edwin Balmer and Governor Hiram. Besides these are three English writers, F. B. Dilly, Derek Vane, E. Phillips Oppenheim—as well as Maurice Level, the best of the modern French writers. All these and several others in selected stories—stories that will make you think!

IF you don't particularly care for a magazine that will make you think—if you are not interested in a magazine a bit beyond the ordinary—you won't want Hearst's this month or any other. BUT, if you want the words of the world's great writers; if you want the thoughts of the world's great thinkers; don't fail to make sure each month, starting today with November, of getting your regular copy of Hearst's.

LATEST NEWS AND VIEWS OF INTEREST TO SPORT FANS

BAN JOHNSON HOLDS SOMETHING UP SLEEVE

By HENRY L. FARRELL.
 Chief Press Staff Correspondent.

NEW YORK, Dec. 3.—Ban Johnson isn't whipped yet. In fact, the much condemned American League president seems to have something tucked up his sleeve. He seems to have no fear of the latest injunction stopping his league meeting in Chicago next Wednesday.

In the midst of a meeting of the "insurgents" late yesterday, Johnson's attorney called and asked to have the hearing on the injunction moved up from Monday to tomorrow morning. The "insurgents" acquiesced and then asked the reason.

"Mr. Johnson fears a long court session that may extend into Thursday and make it impossible to hold his meeting," they were told.

The first formal move of Johnson in the latest court case is the battle plan of Ruppert, Comiskey and France and their meeting broke up without tearing any more hair out of the "insurgents' heads."

It was the belief here that December 10 will find two American League meetings, one in Chicago with Johnson, Ball, Dunn, Navin, Griffith and Mack present, and another in New York, with Comiskey, Ruppert and France sitting in.

If the injunction is granted tomorrow and the court orders Johnson, Ball and Dunn to remain away from the Chicago meeting, it is thought that Johnson will not head it off and go ahead with the meeting on the grounds that New York courts have no jurisdiction in Chicago.

Both factions are expected to stand. If either one of them would grant an inch and come down a little off their dignity in the middle in the American League, the other would be glad to meet and again everything would be lovely.

Colonel Ruppert, however, insists that there is not room enough for Johnson and himself in the same league and that Johnson has made such a personal matter of it that he has to go through with his fight.

NEW ASSOCIATION OF BREEDERS PLANNED

NEW YORK, Dec. 3.—Following a refusal of the national trotting association meeting here last night to amalgamate with the American Trotting Association, A. H. Cosen, chairman of a special committee of the Trotting Horse Breeders' Association, said a new association would be formed and breeders would recognize it.

Breeders, he said, do not wish to continue dealing with two organizations.

The proposed change in rules to make trotters eligible to slower classes after having failed in two seasons to make a new record was not passed.

TO RENDER DECISION ON PROPOSED TRIP

CAMBRIDGE, MASS., Dec. 3.—Harvard's athletic commission will make a public opinion poll on the proposed trip of the crimson team to the Pacific coast. The faculty, the coaches and the players have voted favorably on the subject, but the subject was referred to Dean J. R. Briggs, chairman of the Athletic Commission. Some of the players, anticipating a favorable decision, have resumed training.

THIRTEEN TEAMS ARE TIED IN BICYCLE RACE

NEW YORK, Dec. 3.—Thirteen teams were tied at 1066 miles four laps at 8 o'clock today, the fifty-sixth hour of the six-day bicycle race. Hill was leading and Tibergren and Chardren were still one lap behind. Carpan and Lane went out of the race last night. Carman retired early in the day on account of an attack of indigestion but his partner kept going for hours while his trainers vainly sought another rider to replace him.

JOHNNY KILBANE SIGNS CONTRACT FOR BOUTS

CLEVELAND, OHIO, Dec. 3.—Johnny Kilbane, featherweight champion, today signed up for three eight-round bouts to be staged at Jersey City by Manager Dave Driscoll of that city. Driscoll said he expected to sign Benny Valzer, Johnny Dundee and Joey Fox for the scraps.

BROCK AND VALGER TO FIGHT ON DEC. 19

CLEVELAND, OHIO, Dec. 3.—Jimmy Dunn announced today he had closed a contract for a twelve-round fight between Matt Brock and Benny Valger in Baltimore for December 19.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter the acid from the blood, and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder distress.

MARKING TIME UNTIL BECKETT-CARPENTIER BOUT THURSDAY NIGHT

LONDON, Dec. 3.—Nothing remains now but to watch the clock run around and then file in for the big fight to-morrow night.

Everything is set here for the Beckett-Carpentier fight to-morrow night, the two heavies, champions of Britain and France, are ready. The house is sold out.

The manager of the Brits, who says that Beckett will win, remains unabated, but it is singular that they will offer nothing better than 5 to 4. They assert their bid is unbeatable, but they would like to have even money.

Carpentier has plenty of backing. Two much credence is given the rumor that he is overtrained, suffering with rheumatism, etc.

A report that 300 standing room tickets were available at twenty-five dollars each, brought a crowd of Frenchmen pell mell across the channel yesterday, but they were disappointed in finding the "sold out" sign in front of promoter Cochran's office.

ADVANCE TICKET SALE BREAKING ALL RECORDS

MILWAUKEE, WIS., Dec. 3.—The advance ticket sale for the bout between Jimmy Wilde, English flyweight, and Jack Sharkey, New York bantamweight, Saturday night was breaking all records today, according to officials of the Cream City Club.

Both fighters are finishing their training in Milwaukee. Sharkey arrived from Chicago last night.

TRADE COMMISSION IS TO BE INVESTIGATED

WASHINGTON, Dec. 3.—General investigation of the federal trade commission was ordered today by the senate. Besides inquiry into charges of Senator Watson, republican, Indiana, that the commission is a hotbed of socialism and bolshevism, the investigators will take up the commission's attitude toward business interests and its general value as a federal agency.

The inquiry will be conducted by the senate interstate commerce committee, of which Senator Cummins, republican, Iowa, is chairman. The resolution adopted originally was confined to Senator Watson's charges but was broadened at Senator Cummins' suggestion.

RUSSIAN WITH \$2,000 DIES OF STARVATION

NEWARK, N. J., Dec. 3.—Death by starvation, although he had more than \$2,000, has overtaken Frank Zablinski, who denied himself the barest necessities of life in order that he might some day return in opulence to his wife and three children in Russia.

The hollow-cheeked and pallid Russian died Sunday of a "mad" which puzzled physicians until County Physician Warren reported yesterday that death was due to starvation.

FRENCH PRESIDENT NOT GOING TO RETIRE FROM PUBLIC LIFE

PARIS, Dec. 3.—President Raymond Poincare does not intend to retire from public life upon the conclusion of his presidential term in February, according to an article published today in the Journal.

"I do not believe I have come to the age of retirement," he is quoted as saying. "Fate has decreed that my seven year term should coincide with the greatest disturbances of history. I have acquired ideas which I will place at the service of my country as long as I keep my strength, and I confess that I do not feel at all exhausted."

MAN KILLED WHILE ROBBING A BOX CAR

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

NEW YORK, Dec. 3.—December contracts sold up to the 40-cent level at the opening of the cotton market today, marking another new high for this price brought on realizing which was promoted by notices representing about 100,000 bales and there was a quick reaction of 30 or 40 points. The general list opened firm at an advance of 22 to 25 points on the 40-cent level for December and closed at 35.25, or about 25 to 35 points net higher. The 40-cent level for December seemed to attract a good deal of profit taking which was doubtless stimulated and the weakness of foreign exchange, December broke to 35.30, or 30 points net lower, while January sold off to 35.50 and March to 34.75, or about 10 to 20 points net lower, late in the morning.

Slight early afternoon rallies met liquidation or realizing with January selling off to 34.75 and March to 34.50 points net lower. December broke to 35.20, or 30 points from the early high level.

Cottons close barely steady.

NEW ORLEANS, Dec. 3.—Fears that the coal situation would prevent the free movement of cotton were responsible for a further rise in the contract market today, December rising to the new high record price of 35.50. In the first half hour of trading the price advanced 15 to 20 points, but later in the day it was held steady, 24 points up to 35 points down, net.

LIVERPOOL, Dec. 3.—Cotton spot in improved demand, prices strong. Good middling 27.50; fully middling 28.10; middling 28.25; low middling 27.80; good ordinary 26.00; ordinary 25.00. Sales 10,000 bales, including 6,500 American. Receipts 39,500 bales, including 2,000 American. Futures closed unsettled. December 24.50; January 23.00; March 22.70; May 21.00; July 20.50; October 18.75.

NEW YORK STOCKS.

NEW YORK, Dec. 3.—Signs of renewed public interest were manifested by various issues at the opening of today's stock market. Gains of 1 to 2 points were made by rail, stock, copper, oil, shipbuilding, equipment and specialties. General Motors was again the most conspicuous feature at an advance of four points. Aided from Delaware & Hudson, which showed renewed weakness, the market seemed disposed to disregard the coal strike situation further demoralization in the foreign exchange market.

Trading was almost at a standstill during the mid-session, but the market continued to move forward. Recent favorites were neglected, however, for shipping, low priced oil and food and chemical shares, whose extreme gains ranged from 2 to 4 points.

Moderate reactions among standard rails in the last hour were offset by the in-

GRAIN AND PRODUCE.

CHICAGO, Dec. 3.—Free selling depressed the corn market today after an upturn in values at the opening. The initial strength was ascribed to continued scarcity of corn receipts and to higher quotations on hogs. Shutting down of industries, however, and a break in the wheat exchange tended to develop a bearish sentiment. Opening prices, which varied from the same as yesterday's, finished 2 to 3 cents higher, with December \$1.41 1/2 to \$1.42 1/2 and May \$1.35 1/2 to \$1.36 1/2, were followed by a network of ground to well under the previous close.

Oats were ruled by the action of corn.

GLASS OF WATER AFTER ASPIRIN

Bayer Company, who introduced Aspirin in 1900, give Proper Directions

The Bayer Company, who introduced Aspirin, tell in their careful directions in each package of genuine "Bayer Tablets of Aspirin" that to get best results one or two glasses of water should be drunk after taking the tablets.

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the genuine, world-famous Aspirin, prescribed by physicians for over 18 years.

Each unbroken "Bayer" package contains proper directions for Colds, Headache, Toothache, Rheumatism, Neuralgia, Lumbago, Rheumatism, Neuritis, and Pain generally.

Handy tin boxes of 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monocaceticacidester of Salicylic-acid.

"Worth \$1,000 to Me," Says Wichita Falls Man

"Yes, sir, it is a fact, I feel better today, since taking Orgatone Treatment for four weeks than I have any time during the past 20 years," declared J. T. Shannon, a well known floor finisher and the father of Shannon Brothers, contractors and floor finishers, and residing at 1300 Travis street, Wichita Falls, Texas, a few days ago.

"I have been a constant sufferer from stomach trouble and bilious attacks and indigestion for over twenty years and it sometimes weakened me so I could hardly move about," he continued. "I suffered terribly with severe cramping pains, especially at times, right after I would eat and the gas would get up around my heart and make it flutter so at times it seemed I would suffocate. Sometimes I was so nervous I could hardly control myself and my tongue was coated all the time, showing I was bilious, and this made everything I ate taste bad. I have spent hundreds of dollars in the last few years with specialists and for treatments and to tell you the truth my house looked like a young drug store."

"After hearing so much talk about Orgatone treatment here in Wichita Falls I got a bottle and started taking it without expecting any great benefit, but I was surprised after the first week that I seemed so much improved. I said then and there I would stick it out if this treatment kept on helping me like that. Now, that was just a month ago and I give you my word, all my troubles have now almost disappeared. The gas has stopped forming on my stomach, I don't suffer with that shortness of breath and those cramping spells and I sleep at night like a healthy child. I think Orgatone treatment is a wonder and a boon to mankind and to tell you the truth I feel that it has been worth a thousand dollars to me and I cheerfully recommend it to anybody who is suffering like I was."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the T. F. Young Drug Company exclusively, under the personal direction of a special Orgatone representative.

CHARGE ALLEGING CHILD DELINQUENCY IS NOT A FELONY

AUSTIN, Dec. 3.—Charging that a person is a delinquent child is not a felony charge, even though the crime upon which the charge is based is a felony, the court of criminal appeals held today in affirming the case of Malcom Mince who was sentenced to 2 years in the reformatory for robbery from the person. The defendant

contended for a reversal upon the grounds that a jury had been waived and that a jury cannot be waived in a felony case. The court, however, affirmed the conviction. The case was argued by T. E. Middleton, alias Minnie Lewis, for the murder of Mrs. Mary Lewis in Liberty county, was affirmed by the court of criminal appeals. Middleton was convicted upon testimony of an accomplice who did the actual killing, according to the evidence, under threats from Middleton that he would be killed if the woman was not murdered. Robbery was the motive. The judgment against Rube Dollar of Potter county, under a 15 year sentence for pandering, was affirmed.

ESSEX MOTOR CARS

Like Earlier

In Performance, Durability, Nimbleness, Economy and Good Looks

Essex Models

Of course, you know the Essex roadster must have been accepted as a great success because of the way the touring car has taken.

But have you examined the features in body arrangement that make it not only a beautiful runabout for pleasure use, but which give it unusual advantages as a business car? Suit cases and articles of similar size can be carried under the rear deck. By removing the top of the deck, a trunk can be carried.

Traveling men and others who must carry up to 200 to 300 lbs. of samples, tools, etc., are using Essex Roadsters in great numbers.

ITS ECONOMY AND RELIABILITY WINS

Business men can not spare any time for mechanical attention to their cars. They lay out their schedules and must travel with the precision of a railroad train. An automobile that requires frequent attention means delays and delays are costly. Consequently the Essex has won thousands who have learned its reliability.

Then, too, they know how little it costs to operate an Essex. Its first cost is lower than one would expect in such a quality car. But when considered on a mileage basis, where the gasoline, tire, oil and maintenance expenses are computed, the Essex has won as no other car has done.

PERFORMANCE THAT IS DISTINCTIVE

Light weight cars, it is true, have not been expected to show anything remarkable in the way of performance. They travel at speeds somewhat in excess of what most people care for, because of their discomfort. But the Essex has so charmed thousands by the way it gets about in congested traffic or along the open road that you must have heard it spoken of. Few large, costly cars even are capable of greater speed or travel so smoothly.

The Essex is practically rattle-proof. It does not soon show the effects of service. Take notice of the condition of Essex cars that have been driven fifteen to twenty thousand miles. The new qualities remain. The performance is as snappy as when the car covered its first hundred miles. And, if you will ask the owner, you will be surprised at the little attention he has had to give in the way of tightening bolts, making adjustments and doing the other time-consuming and costly things you might expect of a car of its weight and cost.

IT IS A NEW TYPE WHICH 18,000 HAVE ADOPTED

No greater endorsement should be required. What car has ever equalled the success of the Essex? In ten months motorists have shown their faith to the extent of thirty million dollars paid for eighteen thousand Essex cars of various types.

You know the Essex as a small, light weight car that does not appear tiny. And if you have ever ridden in an Essex, you have observed that no riding sensation suggests its smallness. But its lightness means there is no useless weight.

Strength and durability are attained by proper design and highest quality materials. Any doubt some may have had that the Essex is too powerful for its weight, and that it could not hold its own on the road, is dispelled by its performance. It has earned its leadership.

The Essex has shown that light weight advantages can be obtained without sacrifice of durability, performance or fine quality. It has earned its leadership.

The roadster is the newest favorite. It is lively, comfortable, and good looking. It will appeal to those who want a pleasure runabout or a utility car.

SECRETARY OF TREASURY GLASS SUBMITS ANNUAL REPORT AND MAKES HIS RECOMMENDATIONS

WASHINGTON, Dec. 2.—No appreciable reduction in taxes for the next fiscal year is to be thought of, Secretary Glass declared in his annual report sent today to Congress. Government receipts must be kept at their present figure, he said, in order to bring government borrowing to an end. Facing expenditures estimated at \$2,829,486,359 for the year ending June 30, 1920, and \$4,473,096,815 for the year ending June 30, 1921, the government must, he said, enforce rigid economy. Mr. Glass declared, he placed the deficit for the current year at \$3,405,000,000 and for the year ending June 30, 1921, at approximately \$2,605,000,000. On this basis, Mr. Glass urged Congress to deny "every appropriation for expenditure in new fields. He said the same policy should obtain until the government had its sinking fund well under way and repayment of the war debt satisfactory begun. Mr. Glass charged that excessive government expenditures were "the most vital factors in increasing the cost of living and argued that it was urgently necessary to keep down public expenses for this reason as well as because of the drain on the taxpayers. The present revenue laws need revising to meet new conditions, he said. He referred particularly to the excess profits tax which he described as being "objectionable even as a war-time expedient." It would be still more objectionable in peacetime, he added, "since harmful taxes of this kind for the government should be employed, the secretary said, adding that the excess profits tax had been responsible for much of the increase in living costs because it had been passed on to the consumer. "Encourage Extravagance. "It encourages wasteful expenditure, puts a premium on overcapitalization and a penalty on brains," the secretary continued. "It discourages new ventures and new enterprises which establish old ventures in their monopolies. In many instances, it acts as a consumption tax, is added to the cost of production upon which the tax is figured, determining prices it has been, and will, so long as it remains on the statute books, continue to be a material factor in the increased cost of living. In this connection, Mr. Glass also urged redrafting of the revenue laws to prevent the evasion of federal taxes through the investment of wealth in the obligations of states and municipalities. He said laws should be enacted which would compel the issue of such income, although they are wholly tax exempt, and that that sum with other income of an individual should be computed as the basis for assessing federal taxes on the amount derived from taxable sources. Relations between conditions in Europe and those in the United States were discussed also by Mr. Glass. He said that, undoubtedly, there was a very great need in Europe for financial assistance, but that the situation had been much exaggerated. "We must all feel deep sympathy for Europe today," he said, "but we must not allow our sympathy to warp our judgment and, by exaggerating more difficult to fill. The problem of financing Europe belongs largely to the exporter because industries cannot be reopened without raw stocks. Government financial assistance in the past and talk of future government or banking aid to finance exports have apparently led our industrial concerns to the erroneous expectation that their war profits based largely on exports, will continue indefinitely without any risk on their part. To them will fall the profits of exports and upon them will fall the consequences of failure to make the exports. To Continue Policy. The treasury will continue its policy in effect since the armistice, to re-

EMMA GOLDMAN AND ALEXANDER BERKMAN ARE BEING DEPORTED

CHICAGO, Dec. 3.—Emma Goldman and Alexander Berkman, anarchists ordered deported, were enroute to Ellis Island today. They were instructed to report for deportation Friday. "They're not rid of us—not by a long shot," said Emma. "We'll go back to Russia and get Lenin and Trotsky to appoint us ambassadors to the United States. We may yet live to see Emma Goldman getting out of her lunatic asylum in Washington and all these naive little officials standing with hat in hand—isn't that so?"

Chicago Hotel Has Actually Announced Reduction in Rates

CHICAGO, Dec. 3.—Come all you gadders, if you want to hear a strange story. Prices at the hotel La Salle were marked down today. "Oh, we have had several prosperous years and are going to operate at cost for awhile," said Manager Ernest Stevens, in explaining cuts of 50 cents to \$3 a day on room prices and 25 per cent reduction on the menu card. "We are doing this to try to swing public sentiment around to a general reduction," he added. Be sure and attend the Episcopal ladies' bazaar Friday and Saturday. Home cooked food on Saturday. 186-18c

DEFECTIVE PUMPS ARE DISCOVERED AT MANOR

AUSTIN, Texas, Dec. 3.—In testing gasoline pumps in the towns of Manor, Elgin and Litta, inspectors of the department of weights and measures found only one pump giving correct measure. Shortages ran from a gallon to ten gallons to a gallon. One pump delivering about a gallon to the gallon was found. All defective pumps were ordered repaired.

PRIVATE FUNERAL SERVICE FOR HENRY CLAY FRICK

NEW YORK, Dec. 3.—Private funeral services will be held this afternoon at 2 o'clock at the home of Mrs. Frick, 111 Madison Ave., and will be followed by a service at the home of Mrs. Frick, 111 Madison Ave., at 4 o'clock. The services will be simple. The body will be taken to Pittsburgh, where the foundations of the Frick fortune were laid many years ago, and there a more elaborate funeral ceremony will be held. He said today that under the terms of his will Frick will bequeath to the public his \$30,000,000 art collection and his magnificent Fifth Avenue home as a museum.

The Modern Medical Idea - Sickness Prevention. Back in 1796, when he developed the vaccine treatment to combat smallpox, Edward Jenner helped to start the trend of medical thought in the new direction of Sickness Prevention. Today anti-toxins, serums, vaccines and sanitation—all these check disease before it can gain hold. But constipation still remains one of the most devastating of all plagues, because by reducing the body's power of resistance it makes it an easy victim of every and any disorder. Leading medical authorities agree that 90% of disease has its origin in the intestinal tract—in constipation. Your physician will tell you that pills, salts, castor oil, mineral waters, etc., simply force the system and weaken the intestinal muscles. Nujol is entirely different. Nujol prevents constipation because it softens the food waste and encourages the intestinal muscles to act naturally. Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today. For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey) 50 Broadway, New York. Warning: Ask to see full and correct label bearing the Seal Trade Mark. Do not buy cheap imitations. The name is Nujol. See name on bottle.

To abort a cold and prevent complications, take Calotabs. The purified and refined calomel tablets that are painless, safe and sure. Medicinal virtues retained and improved. Sold only in sealed packages. Price 35c.

CITY AND COUNTY FAILING TO PROVIDE FOR THE HOSPITAL

SITUATION IS EXPLAINED BY MISS MARTHA W. HARRIS THE SUPERINTENDENT

PLENTY COVER AND BEDDING

Maintain Record of Caring for All Charity Patients Received at the Hospital

Although the quota of the city and county toward the expense of maintaining the Wichita general hospital is \$200 each per month, each have so far this year contributed only \$200 toward the expenses of the hospital, Miss Martha W. Harris, superintendent of the hospital stated Wednesday morning.

"In spite of this fact we have maintained our record of not turning away a single charity patient since I have been in charge here. We have, however, had to turn away many pay patients during the year, forcing them to go to Fort Worth, Dallas and other places, and conclusively showing that Wichita Falls, in spite of its reputation for progressiveness, has not provided facilities to care for its own sick."

"I am sorry that this misunderstanding occurred," said Miss Harris. "I am sure that a charge on one of the bills for surgical dressings must be partly responsible for this misunderstanding. These materials are very expensive, and a charge is made for them against all pay patients, as is the custom in all hospitals."

"Another factor that may have figured in this misunderstanding is the fact that the visit which led to this belief of shortage was made on Monday, before our laundry was received. There is always a delay and a shortage of some hours on these things on Monday, due to the fact that our laundry does not get out on Sunday. "I am afraid this will seriously handicap my efforts to secure sufficient help at the hospital. We are in much better shape there as far as graduate nurses are concerned, several more having come in within the last week or two, but we are still greatly handicapped by lack of student nurses."

Lack of sufficient room to take care of the patients who are admitted is given by Miss Harris as the chief handicap, an addition to the hospital being an urgent necessity. I am informed that the doctors in charge of the hospital have attempted to inquire both the city and county authorities in an addition of this kind, but so far without result, as they have stated that they were not in a position at that time to issue the bonds necessary for such an addition, she stated.

YOUTHS ARRESTED FOR GAMING LET OFF WITH LECTURE
The nine high school boys who had been arrested for gaming were released after a severe lecture in police court Wednesday morning on the evils of gambling by both the city attorney and the police judge. Three young men who, according to the approved method of deciding who the supper should be on, were matching "odd man" when interrupted by the police, were fined \$10 apiece. As they went out of the courtroom one of the party, probably the one who was stuck, remarked the supper was quite a costly one for him. Most of the cases were concerned with the enforcement of the traffic regulations with a couple of affray cases thrown in for good measure.

HABERN CONTINUES TO SHOW IMPROVEMENT
Grover Habern, assistant fire chief, continues to show improvement, and it is expected that his leg, which was broken in the recent wreck of the Floral Heights fire truck, can be put in a cast and he can be out for a short while each day.

TWO CARLOADS COAL PROMISED CITY BY RAILROADS HERE

Two carloads of coal were promised O. P. Maricle, local dealer, by the representatives of the Fort Worth & Denver and the M. K. & T. railroads to relieve temporarily the severe fuel shortage that affects this city, at the weekly meeting of the traffic board at the Elks hall Wednesday morning. Mr. Maricle appeared before the board and announced he was entirely out of coal and that the population of Wichita Falls was inconvenienced very much on account of the lack of coal added to the low gas pressure incurred by the cold weather, although the suffering is slight. He was promised a car from each railroad as soon as the cars could be spotted to his track, which would be late Wednesday or early Thursday. Major J. F. Hickey, general superintendent of the railroad men present, urged that the local transfer men be impressed with the necessity for increasing the unloading service. The coal situation, as applied to the railroads, is still affected by the coal strike and no immediate relief is in sight. E. L. Mays of Fort Worth, superintendent of transportation for the Denver, stated that the road he represented was managing to get along with the present supply, most of which is derived from mines in Colorado served by the Denver, but that the gravity of the strike was beginning to be felt. The Katy is not as well off as the Denver, it was declared, on account of the fact that their supply is obtained from the mines of West Virginia, Arkansas and other distant points and the quantities which come into this city are sufficient only for two or three days at a time.

M'NEU RECEIVES FOUR YEAR SUSPENDED SENTENCE

D. G. McNeu, a painter and paper hanger, was given a four-year suspended sentence by a jury before Judge William N. Boone in the twelfth district court Tuesday afternoon following his conviction on a charge of check-raising. It was alleged in the indictment that McNeu raised a check bearing the signature of Charles H. Swatzel and drawn on the Wichita State Bank from \$57 to \$157. McNeu was employed by Swatzel as a painter and paper hanger and the check was given him in payment for work. The defendant vigorously denied his guilt, declaring that he had lost the check given him by Swatzel after he (McNeu) had endorsed it. McNeu claimed that another person had found the check and had presented it at the bank after having raised its value from \$57 to \$157. McNeu's wife and three small children were in the court room during the trial and were present when the verdict was rendered. The jury was out fully two hours.

Marriage Licenses
The following marriage licenses have been issued: Theodore Thomas and Miss Miriam Street; Fred E. Coe and Miss Ida Carpenter; Henry Graham and Miss Doris Fode; E. H. Manley and Mrs. Laura Manley; Alva Hutchins and Miss Jewel Age.
