ALLIES REPAIR TO INVAD

Mexican Governors Called to Meet

INTIMATED THAT CARRANZA IS PREPARING TO PUT COUNTRY IN BETTER SHAPE FOR HOSTILITIES

PHILADELPHIA, Pa., Dec. 6.—Benedict Crowell, assistant secretary of war, said in an interview today that the crisis with Mexico is over. "As a matter of fact," Mr. Crowell said, "so far as the army's interest in the Mexican situation is concerned, no mobilization orders were given."

WASHINGTON, Dec. 6.—Development today left it still in doubt whether Mexican officials really complied with the request of the United States in releasing William O. Jenkins, the American consul agent, whose imprisonment at Puebla brought relations between the two governments to a critical pass.

CONFERENCE OF MEXICAN GOVERNORS IS CALLED

WASHINGTON, Dec. 6.—The conference of Mexican governors called by President Carranza for December 20, is said by advices from Mexico City, reaching here, to have wider aspects than first was indicated.

WASHINGTON, Dec. 6.—Development today left it still in doubt whether Mexican officials really complied with the request of the United States in releasing William O. Jenkins, the American consul agent, whose imprisonment at Puebla brought relations between the two governments to a critical pass.

Those who are openly hostile to Carranza profess to see a different purpose in the move than one to pacify the country. The first, they contend, is to place Mexico on a war footing so far as possible and to supplement the federal troops with an army organized in the various states, and the second, it is charged, is to make the unexpected condition of Mexico as apparent as to warrant a suspension of the presidential elections next July when Carranza's term expires.

WASHINGTON, Dec. 6.—The coal strike cannot be compromised, with the consent of the federal government in any fashion that will mean an advance in the price of coal to the public, Fuel Administrator Garfield said today.

REFINERS WILL GO ME HALF WAY SAYS PRESIDENT

Willing to Co-Operate in Investigation of Charge of Profiteering

TULSA, OKLA., Dec. 6.—Declaring that the members of the Western Petroleum Refiners Association propose to meet the representatives of the government and the public more than half-way in the investigation of the charges of profiteering as authorized by Attorney General Palmer, President Pat Malloy of the association tonight issued a statement setting forth the various angles of the fuel situation.

CONVICT PANDOLFO ON FOUR COUNTS OF MISUSE OF MAIL

CHICAGO, Dec. 6.—S. C. Pandolfo, president of the Pan-Motor Company of St. Louis, Minn., was found guilty of misuse of the mails on four counts of a federal indictment by a jury in the district court late today.

WASHINGTON, Dec. 6.—A revolt in Soviet Russia is being prepared by the Bolshevik organization embracing all parties in Petrograd, according to unofficial advices to the state department today.

Upon behalf of the association, I desire to say that we propose to meet the representatives of the government and the public more than half-way in the investigation of the charges of profiteering as authorized by Attorney General Palmer, President Pat Malloy of the association tonight issued a statement setting forth the various angles of the fuel situation.

WASHINGTON, Dec. 6.—The coal strike cannot be compromised, with the consent of the federal government in any fashion that will mean an advance in the price of coal to the public, Fuel Administrator Garfield said today.

Reach Agreement to End Strike; Lewis Will Urge An Acceptance

WASHINGTON, Dec. 7.—Attorney General Palmer announced shortly after midnight tonight that an agreement was reached last Saturday between government officials and John L. Lewis, acting president and W. L. Green, secretary-treasurer of the United Mine Workers, under which a compromise proposal for termination of the soft coal strike will be submitted to a meeting of the executive committee of the mine workers at Indianapolis next Tuesday.

"At this conference there was submitted a definite, concrete proposition from the President looking to a speedy termination of the strike situation and an adjustment of the entire controversy," the statement says. Lewis and Green will urge acceptance.

Mr. Palmer talked with President Wilson in the course of the day on the coal situation was known, but no intimation of the nature of the conference was obtainable either from Mr. Palmer, prior to his announcement, or at the White House.

RUSSIAN SOVIET STRONGLY URGES PLEA FOR PEACE

Resolution Adopted in Moscow Provides for Making Terms With Entente

LONDON, Dec. 6.—Strong resolutions urging the making of peace with the Entente were adopted by the seventh congress of Russian Soviets, meeting in Moscow, at which Premier Lenin said War Minister Trotsky was present, as also was Tom Paine, on behalf of American Communists, according to a Moscow message today.

NO ADVANCE AT PUBLIC EXPENSE SAYS GARFIELD

Tired of Proposals to Make the People Bear Additional Burdens

WASHINGTON, Dec. 6.—The coal strike cannot be compromised, with the consent of the federal government in any fashion that will mean an advance in the price of coal to the public, Fuel Administrator Garfield said today.

D'ANNUNZIO IS PREPARING TO TAKE SPALATO

Serbian Army Ordered to Prevent Such an Attempt by Armed Resistance

PARIS, Dec. 6.—The Serbian delegation today officially notified the peace conference it had learned Gabriele D'Annunzio is preparing to occupy Spalato, Cattaro and Ljubach.

ANTI-BOLSHEVIK REVOLT IS BEING ORGANIZED

WASHINGTON, Dec. 6.—A revolt in Soviet Russia is being prepared by the Bolshevik organization embracing all parties in Petrograd, according to unofficial advices to the state department today.

CONVICT MAUD MOORE OF MURDER OF HARTH

KNOXVILLE, TENN., Dec. 6.—Maud Moore was this evening convicted of murder in the first degree and sentenced to 21 years in the penitentiary by a jury before which she was tried on the charge of killing Leroy Harth, prominent business man with whom she went riding one night last September.

SENATOR CUMMINS PREDICTS BILL WILL PASS BY JAN. 1ST

WASHINGTON, Dec. 6.—The Cummins railroad bill will pass the Senate by the end of next week, Senator Cummins predicted today.

FIELD MARSHAL WILSON OFFERS CO-OPERATION OF BRITISH FLEET

LONDON, Dec. 6.—Field Marshal Wilson, in his conference with Marshal Foch yesterday offered the co-operation of the British fleet if armed force is necessary to compel Germany to accept the terms of the Allied protocol.

EXPECTED THAT AN ULTIMATUM WILL BE DISPATCHED WITHIN THE NEXT FORTY-EIGHT HOURS

By HENRY WOOD. (United Press Staff Correspondent)

PARIS, Dec. 6.—The Allies today were preparing to sign a new ultimatum to Germany if she refuses to sign the protocol to the peace treaty, in the opinion of well informed persons here.

By CARL D. GROAT. (United Press Staff Correspondent)

BERLIN, Dec. 5.—The French are reinforcing their Rhine garrisons, the Abend Zeitung declared today. Several thousand additional troops have arrived at Mayence and Ludwigs-hafen, the paper said.

Following a conference between Field Marshal Wilson of Great Britain and Marshal Foch of France, military plans to enforce the terms of the armistice have been completed. These plans, it was learned, are being put into effect as soon as possible.

Reorganization of the German cabinet if the Entente insists upon enforcement of the terms of the protocol was considered probable here today.

Dispatches from Germany announce heavy movements of Allied troops into the Rhine valley, and indicate the Allies are settling their forces for the drive should the situation demand it.

Whether a reorganized cabinet will accept the protocol was not known. Germany bitterly denies her government was responsible for Admiral Von Reuter's action in scuttling his ships and looks upon the Allied demand for surrender of docks and merchant shipping as "robbery."

TWELVE THOUSAND U. S. TROOPS ALONG THE RHINE AVAILABLE

WASHINGTON, Dec. 6.—Twelve thousand American troops now along the Rhine could be used by Marshal Foch in any allied advance further into German territory to enforce signing of the protocol by the Germans, according to a dispatch today from the state department.

The text as printed, showed an omission in the admiralty statement here declared. Von Reuter, according to the admiralty, acted upon his own initiative in sinking the ships after communication with his government had been terminated.

CONVICT MAUD MOORE OF MURDER OF HARTH

KNOXVILLE, TENN., Dec. 6.—Maud Moore was this evening convicted of murder in the first degree and sentenced to 21 years in the penitentiary by a jury before which she was tried on the charge of killing Leroy Harth, prominent business man with whom she went riding one night last September.

LONDON, Dec. 6.—In connection with the note presented by the ambassador at Paris to the German representatives, notifying Germany that unless she signs the armistice protocol coercive measures of a military order will be adopted, the Standard outlined the probable military measures that the British and Belgians will occupy Essen, while the French and Americans move on to Frankfurt.

ARMED OKLA MAN KILLED AT FORT WORTH

FORT WORTH, Dec. 6.—Less Seale, former chief of police at Ardmore, Okla., was shot on Main street here tonight and died a few minutes later at a local hospital. Bob Brazill was arrested.

LONDON, Dec. 6.—The German government plans to publish the full text of all correspondence it had with Von Reuter to show that the British statement misrepresented the facts. It was stated in all that is needed to be known.

DOZEN PULLMAN CARS PUT OUT OF SERVICE

FORT WORTH, Dec. 6.—One dozen Pullman cars and as many crews were ordered laid off Sunday. This is due to the elimination of trains and consolidation of others out of Fort Worth account fuel shortage.

ARMED OKLA MAN KILLED AT FORT WORTH. FORT WORTH, Dec. 6.—Less Seale, former chief of police at Ardmore, Okla., was shot on Main street here tonight and died a few minutes later at a local hospital. Bob Brazill was arrested.

ASKS \$85,000,000 TO BUILD AND EQUIP SERVICE HOSPITALS

WASHINGTON, Dec. 6.—Asking congress for \$85,000,000 to build and equip hospitals to care for war risk insurance patients, Surgeon General Blue of the public health service today reported that more than 30,000 beds would be needed by July 1, 1920. No sites for the location of the hospitals were proposed.

TOTAL OF TWENTY TRAINS DISCONTINUED TO CONSERVE COAL

TEN ARE TAKEN OFF TEMPORARILY BY EACH OF TWO SYSTEMS.

A REVISED LIST IS ISSUED

Restrictions Are Also Announced in the Handling of Shipments of Night.

As announced by local railroad officials of the Katy and Denver lines in Friday and Saturday editions of the Times, 20 passenger trains operating in the Wichita Falls district are temporarily discontinued today, in pursuance to instructions for the curtailing of the train service one-third as a fuel conservation measure.

Inclusion of trains 11 and 12 over the Katy and Northwestern, between Wichita Falls and Oklahoma City via Frederick, which was included in the announcement in Friday's Times, was a mistake. F. W. Grace, local superintendent for the Katy announces, for the order cancelling these trains was countermanded in a later order.

The revised list of trains discontinued by the Katy lines follows: Trains 1 and 2 between Wichita Falls and Elk City, Oklahoma. Trains 3 and 4 between Woodward and Forgan, both Oklahoma points. Trains 7 and 8 between Altus, Oklahoma, and Wellington, Texas. Trains 23 and 24 between Wichita Falls and Newcastle.

Second section of trains 41 and 42, between Wichita Falls and Denison, (Express trains).

Denver Trains Discontinued. On the Denver lines the trains temporarily discontinued are:

Two extra sections of trains 7 and 8, the night trains between Wichita Falls and Fort Worth. (These are the Wichita Falls sleeper and day coach sections, and make four trains in all.)

The extra sections of trains 3 and 4, the through day train, are also discontinued.

Trains 5 and 6 on the Wichita Valley, which are the night trains recently put in operation.

On the Ebers branch the mixed train which now makes two trips daily will make only one.

This leaves the Katy lines with one train each way per day between Wichita Falls and Denison, Wichita Falls and Woodward, Oklahoma, and Wichita Falls and Oklahoma City. Local freight trains which will handle passengers will serve other points where service has been discontinued.

Through Train Each Way. On the Denver there will be one through trip each way the present day train. The Valley will operate one passenger train each way. Other points will be served by mixed trains. In addition to the discontinuation of the trains, 12 Pullman cars each way are chopped off by this new order, 11 each way through the cutting

out of the sleeper section between this place and Fort Worth at night, and two taken from the day train. The cutting off of the extra sections from the night trains to aid from Fort Worth on the Denver present the most serious problem of all to travellers as both of these trains were crowded each night.

"People will just have to stay at home and give up travelling as long as this situation exists," is the way one Denver official summed up the situation. "I don't see how they can travel otherwise."

Livestock, perishables and fuel are on the accepted list on all railroads, and other commodities may be shipped subject to permit, but the permits, such as are issued, are being given very carefully to hold the freight service within the limits absolutely required by the situation.

SITUATION IN EAST AND MIDDLE WEST CRITICAL ACCOUNT FUEL SHORTAGE

"While the situation in this section of the country is serious enough, the situation brought about by the coal strike in the Middle West and the East is very critical indeed," was the statement made Saturday by a Wichita man, who had just returned from a business trip through these sections of the country. In Kansas City, to mention a specific example, practically nothing is opened up before ten o'clock in the morning, and everything closes early in the afternoon. Owing to the more rigorous climate there than here, an amount of real suffering is being experienced commensurate with the inconvenience which is being felt here. Industry is practically at a standstill.

REPUBLICANS AGREE ON PROGRAM TO REDUCE THE GOVERNMENT EXPENSES

WASHINGTON, D. C., Dec. 6.—A program of huge reductions in government expenditures and continuation of the present high taxes constitutes the financial policy House Republicans have determined to insist on during the next 18 months.

This agreement, reached at a conference of a score of prominent republican members, is necessary if the federal treasury is to be prevented from piling up additional deficits to be added to the war debt.

"Figures submitted by the House appropriation committee estimate that the congress before the end of the fiscal year 1920-21 will be asked to appropriate the huge peace time total of nearly \$9,000,000,000. In the face of this sum the republicans have determined to cut to the bone and force economy in governmental expenditures." Chairman Good of the appropriations committee said today. The larger estimate, according to the committee figures, includes nearly \$5,000,000,000, which Secretary Glass recently asked as the regular appropriation for the fiscal year ending June 30, 1921; \$3,150,000,000, estimated as the deficiency for the present fiscal year and about \$1,000,000,000 for deficiencies in the fiscal year 1920-21.

The prediction was made by some of the regular appropriations for the next year would be cut to \$3,000,000,000 or less.

The National Bank of Commerce is a bank for all the people and its officers and employees make a point to treat everyone with equal, careful courtesy. The bank invites both checking and savings accounts.

PRACTICALLY HALF OF COUNTY'S QUOTA OF SEALS ARE SOLD

With practically half of the county's quota of \$1,000 for the Red Cross Christmas seals already subscribed, Walter S. Curlee, county chairman for this drive, addresses an appeal to all Wichitans for aid in the furtherance of this movement.

"This is probably at the same time one of the most worthy of our charities, and the aggregate of this year's least demand on the purses of its supporters," said Mr. Curlee in this connection. "It entails no very great sacrifice on the part of anyone to purchase a sufficient number of these seals to fix to every piece of mail going out between this time and Christmas, yet the aggregate of this year's least demand on the purses of its supporters," said Mr. Curlee in this connection. "It entails no very great sacrifice on the part of anyone to purchase a sufficient number of these seals to fix to every piece of mail going out between this time and Christmas, yet the aggregate of this year's least demand on the purses of its supporters," said Mr. Curlee in this connection.

The seals, in addition to being on sale in all the banks of the city, will be placed on sale at a number of downtown drug stores, and at Mr. Curlee's office in the Wichita State Bank. The fact that almost 100 per cent of this money remains in Texas, and is used in the fight on tuberculosis in this state.

As a customer of the National Bank of Commerce you have at your command every modern facility and you receive courteous, helpful attention and prompt cooperation from our officers and employees who are thoroughly experienced in both business and banking.

MAN IS ARRESTED AFTER TWO SHOTS ARE FIRED BY OFFICER

An attempt by a stranger Saturday night to cash a check for \$129.90 at the Riggs clothing store on Indiana avenue aroused the suspicions of the store keeper to the extent that he notified the police. When Officer B. M. Newton arrived the man rushed out of the store and dashed down an alley. Newton followed and fired two shot before the man halted. Examination of the check offered by the man at the Riggs store disclosed that it was signed "A. J. Willis."

The man was taken into custody and is being held pending investigation.

Depositors of the National Bank of Commerce are assured of the strictest privacy in connection with their accounts. No details connected with their affairs ever pass outside of the bank. Both small and large accounts are cordially welcomed by this institution.

PRESIDENT SIGNS BILLS WITH INDELIBLE PENCIL

WASHINGTON, Dec. 6.—Dr. F. X. Dercum, the Philadelphia neurologist, made his weekly visit to the White House today. He said he found President Wilson's condition good but that he would not give out a statement as Senator Fall of New Mexico, who conferred with the President yesterday, had done that for him.

The President transacted some official business including the signing of a number of pardon warrants and a bill to increase the pay of the police in the District of Columbia.

In signing the measures the President used an indelible pencil because of the difficulty of using the pen in a reclining position. This was the first time in the history of the nation, it was said that the official documents in parchment had not been signed with ink.

AWAIT EQUIPMENT FOR MAKING TEST OF GAS

Tests to determine the number of B. T. units in the gas run through the mains of the North Texas Gas company, ordered by Mayor Marlow in order to determine the policy of the council on the rates which the company will be allowed to charge, are awaiting receipt of special equipment for the city laboratory. Dr. A. H. Douglass, city bacteriologist, announces.

As a customer of the National Bank of Commerce you have at your command every modern facility and you receive courteous, helpful attention and prompt cooperation from our officers and employees who are thoroughly experienced in both business and banking.

J. L. Millican was called to Fort Worth Thursday night in answer to a summons announcing the serious illness of a brother in that city.

SHOOTING STAGED ON OHIO FRIDAY NIGHT; NO ONE IS INJURED

An attempt to settle a dispute of long standing is said to have been the cause of a shooting affair at a pool hall on Ohio avenue late Friday night. Two men who are said to be enemies of long standing happened to enter the pool hall at the same time. The old dispute was renewed and one of the men drew a revolver and fired. A general exodus of all occupants of the building followed and during the excitement the man said to have fired the revolver escaped.

The police stated Saturday that the Newton followed and fired two shots had been determined, but no arrests had been made. No injuries resulted from the shooting.

CHARTER GRANTED FOR NEW BANK AT DEVOL

Special to The Times. DEVOL, OKLA., Dec. 6.—Word has been received here of the granting of the charter for the First National Bank of Devol. The new bank will have a capitalization of \$25,000 with a surplus of \$500. It will be ready to open for business about December 15.

J. A. Fowler will be president of the new bank. John H. Fowler will be vice president. M. H. Landee, vice president; J. E. Laney, cashier and Paul Landee, bookkeeper. Mr. Laney left for Dallas tonight to look after the shipment of the fixtures.

FOUR CONCRETE FORMS FOR POSTOFFICE ANNEX

Concrete forms for the foundation of the postoffice annex were poured Saturday, and brick work starts Monday. It is announced by C. H. Read, of Read & Costley, the contractors who are in charge of the construction. An effort to finish the annex within a record time is being made by the contractors.

The National Bank of Commerce is a bank for all the people and its officers and employees make a point to treat everyone with equal, careful courtesy. The bank invites both checking and savings accounts.

STAMP SALES EXCEED MARK SET IN JULY ON THREE CENT EACH BASIS

Receipts from the stamp window at the local postoffice have more than caught up with the mark set in July when the three-cent postage was discontinued. It was learned Saturday, showing that business has increased more than a third in this item in the four and a half months following that time.

If in doubt, ask Alexander, the man born with a strange, wonderful power. The famous carvivant and crystal gazer. 191-1tp

HOUSE TO HOUSE CANVASS THIS WEEK FOR THE Y. W. C. A.

CAMPAIGN WILL BE CONTINUED
WITH TAG DAY ON
SATURDAY.

LADIES OF CITY ARE ACTIVE

Weekly Letter of Business Firm is
Splendid Appeal in Behalf
of Campaign.

Each day this coming week a house
to house canvass, and on Saturday a
tag day to finish up and bring in the
dimes, quarters and dollars, and
giving every man, woman and child in
Wichita Falls an opportunity to have
some part of the Y. W. C. A. \$250,000
campaign. This is the plan of the
women's campaign committee, as out-
lined at the meeting held Friday after-
noon at the Y. W. C. A. Recreation
room.

Some of the teams have already
started their canvass. Mrs. T. B.
Smock, the general chairman, stated
Saturday, but the majority will begin
on Monday. Each home visited will
be asked for as much as the individuals
feel they can give. Mrs. Smock
stated, the principal object of this
drive being to make every person in
Wichita Falls feel that they have a
share in the building of the great in-
stitution, and that their gifts, however
large or small, will give them a per-
sonal interest in the building.

The participations of the girls and
women who are in the business world
is especially desired, and already some
splendid subscriptions have been re-
ceived, which are announced else-
where.

The subscription of one girl, who
is helping out a brother through col-
lege, was so generous in proportion to
many subscriptions of business men
of the city, that Jack G. Calverton,
president of the Wichita Motor Com-
pany met it with a subscription of
\$1,000 personally, and made the Y. W.
C. A. drive the subject of his weekly
letter to the Wichita Motor Company
"family," for the week ending Decem-
ber 6.

Copy of Letter.
Mr. Calverton's letter, which is an
unusually good appeal for the drive,
follows:

"To My Fellow Employees:
"As many of you know, a campaign
is now on in this city to secure funds
to build a home for the women of
this city, by the Young Women's
Christian Association.

"I know of no more worthy cause.
If there are any people on earth who
should be encouraged and who should
have the comforts of life, it is the
women who work for a living.

"Primarily this money will be ex-
pended for their welfare, and this
great institution is organized and con-
ducted for their benefit.

"This campaign will close Monday.
I feel sure that several of the boys
will want to get their 'Name in the
'Pot' even though it be for a small
sum, and I wish to announce that I
will be glad to receive any contribu-
tion that may be made for this worthy
cause.

"Friday I handed out a few dona-
tion cards to some of the good people
who work with us. Among those who

received one was a splendid woman
worker with us. At the most
I should say she should have given but
a dollar or so. This morning I found
a check on my desk for \$25 for this
fund from this good woman. And I
have met this donation personally
with a check for \$1000 from myself.
I can't afford to stand back and not
help those who are so anxious to help
themselves, and I am sure that many
of you feel about this matter just as
I do.

"If you desire to contribute to this
cause, come right into my office and
I will see that your contribution gets
to the proper parties.

"Do you know of any better way of
assisting in making the world just a
little better place to live in than this?

"Do you know of any class that can
appreciate more, or who ought to
have it more, than the splendid young
women who are making their way in
the world.

"Whether for a dime or for dollars,
if you feel like 'pitching in,' do it by
Monday at the latest, for the campaign
closes then, and we have got to get
\$250,000 to properly care for the
women of this city who are without
homes here.

"Faithfully yours,
J. G. CALVERTON, President."

ODD FELLOWS LODGE TO CONFER SECOND DEGREE

The Odd Fellows will confer the
Second Degree upon a large class of
candidates at their meeting Monday
night, and the usual attendance is ex-
pected. The lodge is now pulling hard
for 300 members, and it is thought
that with the Encampment in work-
ing order that they will soon reach
that number. A large percentage of
the members here are showing an in-
terest and taking the higher Encamp-
ment degree.

MENTAL TELEPATHIST AT BLAIR'S TENT THEATER

Ray Alexander, noted mental tele-
pathist, will be an added attraction at
the tent theater this week. Alexan-
der is being brought to Wichita Falls
by Jesse Blair and the performance
here Monday night is Alexander's
first appearance in North Texas.

Alexander is a New Yorker. He
has appeared on Broadway in many
performances and is said to have
some reputation in the east as a
telepathist. Alexander has traveled
throughout the United States and is
widely known for his strange ability
to foretell the future. His wonderful
art which enables him to solve the
mysteries of the future as well as to
unravel the hidden secrets of the
past, has developed Alexander into
one of the most interesting perform-
ers on the American stage. Press no-
tices state, Alexander's tele-
pathic performance will be an added
attraction to the regular bill. The reg-
ular performance will be a four-act
comedy drama, "The Silent Partner."

Notice to the Public.
Dr. H. A. Waller and Dr. R. E. Huff,
Jr., have formed a partnership for the
practice of dentistry. Offices located
in suite 410 First National Bank build-
ing. Telephone 1707 for appointment
or call in person.

Since its establishment in 1914, the
National Bank of Commerce has con-
tributed in no small way to the up-
building of the business interests of
Wichita Falls and its surrounding ter-
ritory. Its officers welcome contribu-
tions from those interested in estab-
lishing new or additional banking af-
filiations.

Go to Call Field today. Take that
airplane ride with Aviator Hall be-
fore cold weather comes. 191-11p

ROLL CALL MEETING KNIGHTS OF PYTHIAS ON THURSDAY NIGHT

Pioneer Lodge No. 49, Knights of
Pythias will have a "roll call" meet-
ing next Thursday at the castle hall in the
Masonic building. It is important that
every member of the lodge be present
and answer to his name on that occa-
sion.

In addition to the roll call the lodge
will elect officers for the ensuing
term. Refreshments will be served
at the close of the meeting and a so-
cial hour enjoyed.

At the last meeting the lodge in-
structed its keeper of records and
seals to send a check for \$50 to the
Pythian Home at Weatherford, the
money to be used in Christmas feasts
for the 100 and more children that
are being trained and educated in the
home. In addition to this amount a
dove will offering will be made by the
membership next Thursday night for
the benefit of the home. Any mem-
ber desiring to contribute to this fund
who cannot attend the meeting can
give his donation to Dr. J. W. DeVal,
P. A. Carrier or O. P. Gorsline, who
have charge of the funds.

The Pythias of Wichita Falls are
making initiative steps towards a
permanent home and have appointed a
committee consisting of Dr. J. W.
DeVal, J. M. McFall, T. A. Bradlee,
John P. Batis, John P. Marrs and J.
E. H. Riley to devise ways and means
to launch the enterprise.

WEEKLY FORECAST FOR THE COMING WEEK

WASHINGTON, Dec. 6.—Weekly
forecast: Ohio Valley and Tennessee,
region of Great Lakes, upper Missis-
sippi and lower Missouri valleys,
northern and southern Rocky Moun-
tain and plateau regions—week will
be unsettled with occasional snows
and rains and low temperature.

West Gulf States: Week will be un-
settled with occasional rains and nor-
mal temperature.

Experienced, conservative manage-
ment, capital and surplus of half a
million dollars, assets of the highest
character—these are some of the fea-
tures which assure absolute safety for
every penny deposited with us. 191-11c

Aviator Hall. 191-11p

NO ATTEMPT TO BE MADE TO OPEN THEATERS TODAY

Neither the Wichita theater nor
any of the local moving picture shows,
as far as can be learned, will at-
tempt to give shows Sunday, and
the contest which was promised by
the announcement of a week ago by
Manager Charles Kirkpatrick of the
Wichita theater that that house
would remain open on Sundays is
deferred one week.

Inability to arrange for a bill to
arrive by Sunday is given at this
theater for the failure of the house to
open on this date. The Parkers
companies have to jump to Wichita
from San Antonio, closing in
the latter city on Saturday night, and
under present arrangements can not
jump soon enough to open here Sun-
day.

Contract has been finally closed
with the management of the Majestic
theater for a split week for their bill
to open on this date. The Parkers
companies have to jump to Wichita
from San Antonio, closing in
the latter city on Saturday night, and
under present arrangements can not
jump soon enough to open here Sun-
day.

Contract has been finally closed

REPORT ON CONDITION OF RESERVE BANKS

WASHINGTON, Dec. 6.—The state-
ment of the combined resources and
liabilities of the twelve federal re-
serve banks for the week ending De-
cember 5 is as follows:

Total gold held by banks, \$796,369,
000.
Total gold reserve, \$2,087,264,000.
Total reserves, \$2,154,095,000.
Total bills on hand, \$2,622,327,000.
Total carrying assets, \$2,322,082,000.
Total resources, \$6,041,296,000.
Total gross deposits, \$2,481,520,000.
Total liabilities, \$6,041,296,000.

Depositors of the National Bank of
Commerce are assured of the strictest
privacy in connection with their ac-
counts. No details connected with
their affairs ever pass outside of the
bank. Both small and large accounts
are cordially welcomed by this insti-
tution. 191-11c

ST. LOUIS IS A MECCA FOR DROUTH STRICKEN

ST. LOUIS, MO., Dec. 6.—St. Louis
was in the oasis business today. Car-
avans of the thirsty from all surround-
ing states made this their mecca. The
procession of "camels" began arriving
early today after word went out yester-
day that Federal Judge Farris had
restrained United States authorities
from enforcing wartime prohibition
against the removal from bond and
sale of whiskey. Many took on more
than the proverbial seven days supply.
Liquor habitats of other days were
resurrected within an hour after the
temporary injunction was ordered by
Judge Farris. They continued ebbing
with life until late last night. Can-
dles and kerosene lamps, necessitated
by fuel conservation orders, added
color to the re-appearance of John
Barleycorn's ghastly white aproned
barkeepers were back at their old
posts early today. Business was re-
portedly thriving.

Depositors of the National Bank of
Commerce are assured of the strictest
privacy in connection with their ac-
counts. No details connected with
their affairs ever pass outside of the
bank. Both small and large accounts
are cordially welcomed by this insti-
tution. 191-11c

INDUSTRIAL PLANTS IN CITY WILL NOT HAVE TO SHUT DOWN

MANY INSTITUTIONS ARE ALREADY EQUIPPED TO BURN FUEL OIL.

PRICE AROUND \$2 A BARREL

No Disposition on Part of Local Refineries to Take Advantage of Situation.

Notice has been received here of a special meeting of the Western Petroleum and Refiners' Association at Tulsa Monday. The purpose of the meeting was not stated in the call but it is thought probable that some action will be taken toward setting a maximum price for fuel oil.

Wichita Falls industries will not be forced to shut down on account of a shortage of fuel, because most of the larger plants are already equipped for the use of fuel oil and other plants are being so equipped.

The production of fuel oil in the Wichita Falls district is around 10,000 barrels daily when the refineries are operating at practically full capacity which is not the case at present because of the difficulty in securing cars and the delays in their return here after they are shipped out with oil. Ten thousand barrels of fuel oil is the equivalent of approximately 3000 tons of coal.

There has been no disposition on the part of the larger refineries, at least here, to profiteer out of the necessities of the public in the sale of fuel oil. The coal strike has resulted in a great demand for fuel oil and at some points famine prices are reported to have been charged by refiners and brokers.

In the Wichita Falls district there has been little rise in the price of fuel oil. The Panhandle Refining Co. is selling fuel oil in carload lots at \$2.00 per barrel for short hauls and \$2.50 per barrel for long hauls.

"Under present conditions these prices afford a fair profit," said W. E. Campbell, sales manager for the Panhandle company, Saturday night. "While doubtless we could get more, that would not be totting fair with the public. This is a time when the refiners cannot afford to ask for more than a fair profit."

Mr. Campbell said that his company's fuel oil was being distributed first in Wichita Falls and then to the mining and other industrial plants in this section.

Among the plants for which the Panhandle company furnishes fuel oil are the power and light plant, Ball

Bros. fruit jar plant, a number of the larger downtown office buildings and the Fort Worth & Denver and the Katy railroads. It has a pipe line connecting with its refinery north of the river and the principal industrial plants and office buildings of the city. In addition to this pipe line it is inaugurating a motor truck car service.

Mr. Campbell said that his company had received no advice concerning any plans of the government for regulating the distribution and prices to be charged for fuel-oil.

FOOD ADMINISTRATOR W. S. CURLEE ANNOUNCES FAIR PRICE COMMITTEE

Names of those who are to compose the Wichita County Fair Price Committee were announced Saturday afternoon by Walter S. Curlee, county food administrator. While an organization meeting will probably be held by the committee during the present week, the actual work will probably be delayed until the questionnaires which are to be mailed out to and answered by those in the lines of business into which the inquiry is directed.

The committee will be composed of 16 members, being one or more selected by Mr. Curlee from each line of business or walk of life which is represented on the committee.

The names of the committee follow: B. B. Nance, retail grocer; W. W. Anderson, retail dry goods merchant; Lamar Fain, retail shoe dealer; G. P. Martice, fuel dealer; Fred Eimer, retail meat dealer; Frank P. Timberlake, wholesale dry goods and clothing; F. W. (Whitey) Hotting, organized labor; Mrs. J. W. Stone and Mrs. Frank Kell, housekeepers; J. L. Downing, producer; Miss Ruth Dillon, Mrs. J. Cohen, Mrs. C. J. Coyne, Mrs. T. B. Smock and Mrs. George Thorburn from the public at large; Fred M. Gates, wholesale grocer.

MEMBERS OF GUARD GO TO CAMP MABRY FOR TARGET PRACTICE

Ten enlisted men of Troop E, Fourth Texas Cavalry, left Saturday afternoon for Camp Mabry, near Austin, to take part in the annual target practice of the Texas National Guard. The detachment is under command of Lieut. Verne M. Clifton.

The national guardsmen from Wichita Falls will be joined at Camp Mabry by detachments of the Fourth Texas Cavalry from Spur, Amarillo, Childress and other towns of West Texas. Detachments of all Texas National Guard units are being mobilized at Camp Mabry for the annual target practice which will last from December 8 to 17.

The detachment going from Wichita Falls is composed of the following men: James E. Brown, Forrest B. Shelton, John Allen Wolf, Homer L. Palmer, Morris Levine Michna, Roy E. Harvick, Floyd Combs, John Ryan, and Franzell P. Davis.

United States Commissioner Lantz, in command of Troop E, and a first lieutenant in the state forces, was unable to accompany the detachment to Camp Mabry due to business connected with his department.

E. W. Scipio, local attorney and colonel of the Fourth Texas Cavalry is also unable to attend the annual practice, it was announced Saturday.

NEW EXPRESS RULES EFFECTIVE DEC. 10

The new express packing rules go into effect December 10, according to a statement made by Agent M. M. Davis, in charge of the local express offices. Under the regulations now in force, all express shipments over 25 pounds must be forwarded in wooden containers or cartons bearing the boxmakers' certificate as to strength and also required by the express company.

No change is contemplated in the shipments under the 25 pound limit, which will still be accepted wrapped in paper. Agent Davis advises Christmas shippers not only to send their holiday packages early, but to see that they were properly packed and accurately addressed.

"We expect a very heavy movement of Christmas gifts by express this year," said Mr. Davis today, "and this at a time when we are handling a greater amount of traffic than at any period in the history of the railroads. It will be well for Christmas shippers to keep in mind the 25 pound limitation for paper wrapped packages. Most holiday presents, we believe, are under that weight and are, therefore, not affected by the new rules."

"But any shipment over 25 pounds must be forwarded in special containers, and we will be very glad to give anyone interested full information as to how they should prepare their Christmas presents for shipment by express."

Another recent ruling of the express company, Mr. Davis further stated, is that the liability of the express company comes to an end 24 hours after the receipt of the shipments at the destination.

"Conditions of express shipments should take delivery within 24 hours after arrival at destination office, and the company's liability for loss ends with that period.

The unusual conditions affecting transportation in this locality make it necessary to restrict free storage of express, and in future, shipments not delivered within a reasonable time (one week will be considered the maximum period) will be subject to transfer to nearest available point for public storage, all charges for storage and additional transportation to be for account of owner.

"Patrons are urged to make their arrangements when ordering shipments by express to have only such commodities and weights forwarded as can be taken from the express office promptly on arrival."

The permit system which has been in force at the local express office, allowing household goods to be shipped, has been revoked and an absolute embargo placed on all manner of household furniture. This was necessitated, Mr. Davis said, by the extremely congested condition of the local office and the fact that there is little prospect for an improvement due to the approaching holiday business.

MANY TRAINS ARE CANCELLED TO SAVE COAL

Railway Travel Will Be Difficult and Unsatisfactory For a Time

WASHINGTON, Dec. 6.—Warnings to the public that railway travel will be "difficult and unsatisfactory until the coal strike emergency has passed, and should be avoided wherever possible," was issued tonight by Director General Hines of the railroad administration.

Many trains are to be taken off to conserve coal, parlor car service is to be sharply curtailed, and persons forced to undertake journeys should consult railroad agents as to available trains before arranging their plans, the statement said.

"The shortage of coal has reached a point where it is vitally necessary to reduce passenger train service and to call upon the public to assume the inconvenience and discomfort which this action will inevitably entail," Mr. Hines said.

Trains to Be Annulled.
Certain passenger trains will be annulled and a large number of parlor cars will temporarily be discontinued. These changes will become effective in the western region Dec. 8, in the southern region Dec. 9, and in the eastern and Allegheny region on December 10. The average seating capacity of a parlor car is less than half the average seating capacity of a coach. This step is taken for the purpose of providing the maximum seating capacity, consistent with the necessary reduction in train mileage.

DISCONTINUE MANY KANSAS CITY TRAINS

KANSAS CITY, Dec. 6.—More than 50 passenger trains today were ordered discontinued by seven of the railroads leading into Kansas with five roads not yet reporting. The order becomes effective Monday.

The cut in passenger service is the most drastic ever made in the Kansas City district, according to H. S. Jones, general passenger agent of the railroad administration. In accordance with today's order, fast trains will make stops to take care of local traffic.

The seven trains announcing annulment of trains follow: Chicago, Rock Island & Pacific; St. Louis & San Francisco; Missouri Pacific; Missouri, Kansas and Texas; Chicago & North Western; Burlington and Quincy & Wabash.

The Rock Island trains discontinued include: No. 23 from Kansas City to Wichita, Oklahoma and Texas; Numbers 22 and 23 between Kansas City and Fort Worth, Texas; Numbers 21 and 22 between Fort Worth and Dallas, Texas.

The St. Louis, San Francisco railroad adds to the announcement the warning that necessarily, the schedule of the remaining trains will be irregular.

Missouri, Kansas & Texas Numbers 1, 2, 11 and 12, St. Louis-San Antonio; Numbers 8 and 9 between Muskogee and Denison, discontinued.

TODAY MARKS CLOSE OF THE BAPTIST CAMPAIGN

Today marks the close of the one week's concentrated drive for the Baptist Seventy-Five Million, and Rev. O. L. Powers, the district organizer, and pastor of the First Baptist Church of Wichita Falls expresses confidence that Wichita county's \$250,000 quota will not only be filled, but over-subscribed. Mr. Powers church "went over the top" last Sunday, on its quota of \$150,000, and very encouraging reports have been heard from the other churches of the county, some having gone over their apportioned amount early in the week.

On December 11, the Texas Baptist Convention will be held in Houston and at this time reports from every district in the state will be made. It is believed that the Texas quota of \$15,000 will be found to have been reached at this time.

MAY-PEARL OIL CO. IS PREPARING TO DRILL

The May-Pearl Oil Company is rigging up to drill in lot 9 of the J. B. Evans location offsetting the Burk Burnett well which is now being completed. The May-Pearl had originally intended to drill on block 103, Van Cleve, east of Burk Burnett townsite, however, the stockholders recently voted to move the location to the Burk-Wagoner pool where it is thought they will get a better oil and incidentally larger dividends.

The drilling contractor expected to start in Monday, V. E. Stumpff, president, and O. C. Summers, secretary and treasurer of the May-Pearl company, with the stockholders that the prospects of the company are much better now than they were last spring when the company was promoted.

GOLD MEDAL PRESENTED TO PRINCE

GOLD MEDAL PRESENTED TO PRINCE OF WALES BY JOHN FLANNAGAN, SCULPTOR

The picture shows both sides of a gold medal presented to the Prince of Wales by the American Numismatic Society. The designer was John Flanagan, and it is due to probably see this bit of sculpture on the cotas and postage stamps of Great Britain and British dominions. The presentation was made aboard the battle ship Renown, the floating home of the prince during his stay in the East.

MANUFACTURERS RECOMMEND SKIRTS THREE TO FOUR INCHES SHORTER FOR SEASON OF 1920

CLEVELAND, O., Dec. 7.—The style committee of the National Cloak, Suit and Skirt Manufacturers' Association recommended skirts from three to four inches shorter than at present for the 1920 season, in its report today at the closing session of the annual convention here.

The committee decreed that skirts next season will be from seven to nine inches from the floor for women, and about 10 inches for misses as compared with four to six inches for women and six to eight inches for misses at present.

Skirts, the style makers say, will be "frankly short," but without abbreviation—one thing to be avoided if one wishes to be stylish, is the extreme. Tunic and plait skirts will be worn.

RETIRING FOREMAN AND NEW SUPERINTENDENT OF TIMES GETS SURPRISE

With possibilities of a walkout looming in his mind, following a "rough house" between two of the linotype operators in the Times composing room, and a demand for a "chaps" meeting by one of them, John W. Dobbs, for the past three years foreman of the composing rooms of the Times was practically carried off his feet by the presentation of a handsome Hampden watch, suitably inscribed, as a token of the esteem in which his co-workers held him, and as an instrument of congratulation on his promotion to the position of superintendent of the mechanical departments of the Times.

So well had the mock row been "framed" that Mr. Dobbs had not the slightest idea but that he would be called on to handle a very serious situation, and, following the brief remarks by Hub C. Cheshire, linotype operator and president of the local typographical union, the best he could manage were a few halting words of appreciation.

H. W. Allen, foreman of the advertising section, succeeds Mr. Dobbs as foreman of the composing room.

The National Bank of Commerce is a bank for all the people and its officers and employees make a point to treat everyone with equal, careful courtesy. The bank invites both checking and savings accounts. 191-11c

EVERYTHING TO WEAR

Report Wells at Bacon and on Sun Lease

CAPITAL INCREASED TO THREE QUARTERS OF MILLION DOLLARS

Increasing its capital from \$160,000 to three-quarters of a million, the Kansas City Petroleum Company, which has main offices in Wichita Falls, and has been operating in Burk Burnett for some time, this week held an important business meeting of trustees and stockholders and outlined a program of extension and development to be vigorously prosecuted during 1920. The drilling program calls for immediate operations on a 740-acre lease northwest of Harrold, in Wilbarger county, a 3,000-foot test to be drilled. Acquisition of new acreage in proven and semi-proven fields, and also geologically favorable wild-cat acreage was also planned. And a pipeline department was also planned for the near future.

The sale of the company's working interest in two and a half acres with two wells in block 88, Waggoner field, for \$20,000 net was announced at this meeting. Of the amount \$20,000 is cash and the remainder to be paid out of production. The company is reported to have successfully drilled these wells and operated them for six months time at great profit.

K. M. A. WELL IS REPORTED MAKING BETTER THAN 500

Best available reports at the office of J. A. Kemp Saturday were to the effect that the Kemp-Munger-Allen No. 1 is making better than 500 barrels daily. The bad weather has made travel in the field very difficult, and for that reason the officers of the company have been unable to spend as much time as has been their custom at the well this week.

Since the frenzied excitement has died down, the section is taking on the aspect of a real, prospective oil field, with rotary derricks going up in all directions from the original well. The Gulf Production Co. has three tests to be made southeast, southwest and a little to the north, west of the K-M-A well, and the Humble Oil and Refining Co. has the derrick up for its No. 1 S. I. Munger, block 24, Kemp's Wichita Valley Farm Lands.

W. Newton Maer, A. E. Roger and Floyd Ard had the derrick materials on the ground for their No. 1 Kemp & Kemper, the first of the week, before the bad weather set in, their location being in block 41, in block 29, on the Munger, T. H. Bass and associates are reported rigging up a rotary over an old hole, which was dry at 900 feet, falling to find the shallow sand which was drilled for more than a year ago. Another new derrick over an old dry shallow hole is that of Johnson et al, on the W. L. Hodge, east of the Kemp-Munger-Allen tract.

The Gilliland Oil Co. is reported rigging up a rotary over its No. 1 Kemp & Kemper.

To the east, about two miles, in the Watkins shallow district, a derrick is up for a deep test on the Watkins farm. The name of the party or parties who made this test was not available Saturday.

HIGHTOWER OIL COMPANY IS DRILLING AROUND 1000

The Hightower Oil Company's No. 1 Roberts, on a 15-acre lease in the north part of Block 820, close to the General well, was reported Saturday as drilling around 1,000 feet with the driller, E. S. Dixon, promising to bring in a well that would match the General by the last of next week. The Hightower is being watched with much interest, because of its importance in the outlining of the new pool, and its completion can be looked to add considerably to the excitement in this section.

FARMERS INCREASE YIELD 16 PER CENT DURING LAST DECADE

WASHINGTON, D. C., Dec. 6.—American farmers increased the average crop yield 16 per cent in the last decade, Secretary Houston showed in his annual report made public today.

The decade referred to ended with 1918. A greater increase in the average yield is expected in this decade, Houston indicated. The American farmer produces more per man than any other, Houston said.

"In Belgium," says the report, "only about 5.3 acres are cultivated for each person engaged in agriculture, whereas in the United States, the corresponding figure is 27 acres. Taking both acreage and yield per acre into consideration, the average American farmer produces 2 1/2 times as much as the average Belgian farmer; 2.4 times as much as the French; 3.3 times as much as the German; and six times as much as the Italian."

The total value of all American crops this year is given as \$15,875,000,000, which, Houston says, is nearly three times the average annual value of all crops for the five year period preceding the war.

At least \$1,000,000,000 will be the total spent in good roads during this and the next fiscal year ending June 30, 1921, according to the report.

REPORT DEEP TEST AT BACON SWITCH ENCOUNTERS SAND

Reports that one of the deep tests now drilling at Bacon Switch has entered an oil sand around 1550 feet and is showing up good, came in from Bacon late Saturday night. The name of the test was rather indefinite, being reported in some instances as the Placid Petroleum Company, and others as the Burnett-Vanceave.

There are several tests drilling in this section, on the Rolier lands, in-

cluding the Black Burnett Oil Company and the Bay City Petroleum Co., both of which are only around 1100 feet in depth.

BOOTH 101 721 OHIO

GRISDALE & ERICKSON TEST IS DELAYED BY SHORTAGE FUEL OIL

Work has been held up at the Grisdale and Erickson test, on the Fore farm, northeast of Wichita Falls, since Thursday on account of the inability to get fuel oil over the bad roads, but it was stated Saturday night that a supply of oil was received Saturday afternoon, and work will be commenced again either Sunday or Monday.

The work of setting the 5 3/16 inch casing had not been completed when the work was shut down, it was stated, expected regarding the test which has been one of the main points of interest in the oil situation in this entire section for a number of weeks.

REPORT SUN CO. HAS SHOWING OF OIL IN WELL WEST OF CITY

With the reports coming from reliable sources, though lacking confirmation by officials of company, that the Sun Company's No. 1 Ed Waggoner, a short distance west of the city limits has a very good oil showing below 1750 feet, attention is turned to the west side of the city, as a possible rival of the Grisdale and Erickson test, east of the city, for the next center of excitement. Any information more definite than the reports that were in circulation Saturday was not available.

FORMER KAISER WILL HAVE TO PAY TAXES

THE HAGUE, Dec. 6.—Since the former kaiser has bought a house at Doorn, he must pay taxes if he wants to stay in Holland, the minister of finance told parliament today.

Dispatches from Amsterdam said it was learned there the government had decided to tax the former German crown prince on annual income of \$23,000.

POLK PROTESTS THE GERMAN CUSTOMS LAWS

PARIS, Dec. 6.—Frank Polk, head of the American peace delegation, today protested to the supreme council of the peace conference on the provision of the German customs laws which requires the duty on American goods imported to be paid in gold, while duties on importations from the allies may be paid in paper money.

Experienced, conservative management, capital and surplus of half a million dollars, assets of the highest character—these are some of the features which assure absolute safety for every penny deposited with us. 191-11c

DRILLING IS RESUMED ON FISHER-WHALEY WELL

Drilling has been resumed on the Fisher Whaley Oil Company's Tillman county test, across Red River from the General and Burk Senator tests, according to reports from the field by telephone Friday evening. The work of setting the two extra joints of 12 1/2-inch casing, made necessary by savings, was complete and the driller expected to commence again either Sunday or Monday.

The bad weather has held up operations on the north side of the river, as in the Waggoner, and other sections in the country. The Ed Rheogor test in section 5-3-14 is reported to have started drilling Friday, after several days' delay because of the bad weather and bad roads.

BEGIN ON REFINERY OF MO-TEX CO. AT DEVOL

Special to The Times.

DEVOL, OKLA., Dec. 6.—Work was started Friday on the 10,000 barrel refinery of the Mo-Tex Oil & Refining Co. A large force of men are at work on the company has its existing track and pipe line and will be one of the largest plants, if not the largest in the entire Wichita Falls district.

AIRCRAFT CORPORATION HAS BEEN DISSOLVED

NEW INDUSTRIAL CONFERENCE HAS MADE PROGRESS

Reported That Delegates Regard Their First Week's Work as Highly Valuable

WASHINGTON, Dec. 6.—Delegates to the second industrial conference concluded their first week's work today, confident that substantial progress had been made toward a program for harmonizing relations between capital and labor.

It is the tentative plan now to continue holding 10, and perhaps 12, executive sessions a week up to December 19, by which time it is hoped a preliminary draft of the conference's recommendations will have been prepared. Recess then will be taken over the holidays.

DRAWN AN APPEALING PICTURE OF SHORTAGE OF MILK

LONDON.—Miss Ruth Fry, Secretary of the Friends' War Victims Relief Mission, draws an appealing picture of the effects of the shortage of milk on the health of children in Vienna.

"I have recently paid a visit to Vienna," she says, "and therefore had special opportunities for obtaining information.

UNIVERSITY OF OKLAHOMA WILL NOT WITHDRAW FROM SOUTHWESTERN CONFERENCE

DALLAS, Dec. 6.—Although admitted to the Missouri Valley conference, the University of Oklahoma will not withdraw from the southwestern conference, according to decisions taken here today.

DECISIVE DEFEAT OF PRINCE OF THE ENGLISH FISTIC WORLD WAS A BIG SURPRISE TO FANS

MILWAUKEE, Dec. 6.—Jimmy Wilde, the British flyweight champion, making his first American appearance, was decisively outpointed by Jack Sharkey, New York bantamweight hero, tonight.

The defeat of Wilde, the prince of the English fistic world, was a big surprise. He succeeded in winning only two of the 10 rounds.

Wilde, who had not boxed since last July when he outpointed Pat Moore in London, lived up to none of the promises he had made.

Sharkey started with a rush, landing right and left to Wilde's jaw. Wilde missed left to head.

Sharkey hooked a left to Wilde's stomach, the Englishman landing right and left to head.

Wilde put three light blows to the head and Sharkey dug his left into Wilde's mid-section.

CUDGEL COSTS \$1,200; WINS \$67,000

The rumored retirement of the great handicap horse Cudgel, by Brookstick-Kugenia Burch, would appear to be without foundation if recourse is had to a peep at the entries for the Jockey Club Stakes, a recently inaugurated weight for age race.

NO LIKELIHOOD OF THE PEOPLE OF PETROGRAD RISING AGAINST THE BOLSHEVIKI THIS WINTER

HILSINGFORS, FINLAND.—There is no likelihood of a rising of the people of Petrograd against the Bolsheviks this winter.

NO ADVANCE AT PUBLIC EXPENSE

GOULET AND MADDEN WIN BICYCLE RACE AT MADISON SQUARE GARDEN

NEW YORK, Dec. 6.—Alfred Goulet and Eddie Madden, the New York team, won the six-day bicycle race at Madison Square Garden.

HANSEN DECLARES HIS ACTION WAS VOLUNTARY

MEXICO CITY, Dec. 6.—J. Satter Hansen, who furnished the bond of \$500 for the release of William O. Jenkins, American consul agent at Puebla, declares that his action was voluntary.

CAPTAIN MILLER MAY DISTRIBUTE FOOD TO PEOPLE OF PETROGRAD

HELSINGFORS.—If it becomes possible for the United States to begin to feed the people of Petrograd this winter, Captain John J. Miller, of the United States Army Medical Corps, expects to be the man on the job.

When General Yudenitch's army seemed to capture the best food in the city, Captain Miller had planned to proceed to Petrograd as soon as the city fell and to receive there the food to be shipped in from Viborg and Kiev.

Lieutenant I. W. Warren, of Boston, who also was engaged in the work of feeding 20,000 Russian Finns and Estonians of the American mission also was ready to go to Petrograd.

DEATH OF HUGO HAASE ROBS PARTY OF LEADER DIFFICULT TO REPLACE

BERLIN.—Death of Hugo Haase, president of the Independent Socialist party, leaves that party apparently without a leader of sufficient calibre to prevent it from being engulfed by the German Socialists.

CRAPS THAT RESIST THE SMELTER SMOKE

DOUGLAS, Ariz.—Selection of craps that will resist smelter smoke has made Dr. J. W. Vanaman a successful farmer in spite of the handicap that face residents of mining camps.

CRANE-WILLIS COMPANY REAL ESTATE AND INSURANCE

Tilden Street—New 8-room house just completed, a very fine buy. Price \$1250. \$2000 cash, balance like rent.

FIRST NATIONAL BANK ENTERTAINS WITH A BANQUET

Sixty officers and directors and their wives and employees of the First National Bank were honored by that institution with a tempting banquet, which is planned to be an annual affair to bind the force of the bank more closely together at the Wichita Falls Golf Club Saturday night.

Following the banquet, served in courses, which consisted of a turkey, oyster and fruit cocktails, celery, olives, hot cranberry sauce and cigars as tempting and complete as the writer has been privileged to assist in destroying in many moons, a very appropriate program was rendered by the best oratorical talent that could be secured.

Why we are here, was thoroughly explained by Curtis McGregor. The purpose of the meeting was to impress the employees of the appreciation the bank holds for their untiring efforts.

Charles Joe Norton, a teller at the bank, used his prerogative to spill some oratory on "Why we are here." His efforts for women employees consisted of young onions, carefully packed in a paper box and tied with pink ribbon.

R. H. Bryant, assistant cashier, responded with a few "Trials of a Tailor."

S. Bridwell, one of the directors, explained "The Trials of a Customer." The chief trials can be eliminated he declared by a cheerful disposition on the part of the employees.

W. M. McGregor delved into the musty past during his talk on "The First National Bank, Past, Present and Future." The growth of the bank from its founding in 1854 up to the present time and some of the plans of the future were discussed by Mr. McGregor.

L. H. Buchanan, cashier, gave a few helpful suggestions for the guidance of the employees.

C. E. McCutchen, active vice president, in discussing how the deposits can be increased to \$20,000,000 expressed the belief that the road lay in cultivating the old depositors as well as the new.

SPORTS

LATEST NEWS AND VIEWS OF INTEREST TO SPORT FANS

POPE WINS JUNIOR CHAMPIONSHIP OF WICHITA GUN CLUB

C. R. Pope won the junior championship at the traps of the Gun Club Saturday and was awarded the splendid silver cup donated by one of the members.

Williams was high scratch gun, with 47 out of 50 in the regular gun club event and twenty-five straight in the 25 special. He was closely followed by Mankin who broke 46 out of 50 in the regular program and 26 in the special.

Deatheridge, whose improvement has been remarkable, is now shooting consistently, running 23, 22 and 21 in his three strings of twenty-five targets.

Five shooters with the aid of their handicaps, won "legs" on the Battlefield Trophy. The five are Pope, Pate, W. Culp, and Secretary Nabb.

Greenberg was the only winner last week, so no shooter has more than one leg to date. Next Saturday will determine the winner.

Saturday's Scores. Williams, first event 24, second event 23, handicap total 50. Special event 25.

Mankin—First event 23, second event 22, handicap 3, total 49.

Pate—First event 22, second event 21, handicap 2, total 45. Special event 25.

Deatheridge—First event 22, second event 21, handicap 4, total 49. Special event 21.

W. Daniel—First event 20, second event 22, handicap 4, total 47.

O. W. Culp—First event 18, second event 22, handicap 0, total 40.

D. Wells—First event 19, second event 18, handicap 0, total 40.

A. W. Culp—First event 19, second event 18, handicap 0, total 40.

J. L. Nabb—First event 24, second event 13, handicap 15, total 40.

C. R. Pope—First event 16, second event 13, handicap 15, total 44.

Rigby—First event 21, second event 12, handicap 16, total 49.

Merritt—First event 16, second event 14, handicap 14, total 44.

Garver—First event 14, second event 15, handicap 0, total 29.

Greenberg—First event 15, second event 15, handicap 6, total 34. Special event 16.

Gallagher—First event 13, second event 11, handicap 4, total 28.

NEW YORK YANKEES WITHDRAW REQUEST FOR AN INJUNCTION

NEW YORK, Dec. 6.—The New York American League club today withdrew its application for a temporary injunction restraining Ben Johnson, president of the American League, from holding the annual meeting of the league in Chicago next Wednesday.

The hearing was held before Justice Samuel Greenbaum of the supreme court here last Thursday and a decision was expected today.

According to the New York club some legal points came up which made it advisable to withdraw the injunction.

The board of directors, however, take the stand that the meeting called for New York next Wednesday is the only legal meeting, and that if five other clubs meet in Chicago at Johnson's call, their meeting is illegal.

Colonel Huston, if not by others, which, they claim, had to do with only the Mays incident; and, inasmuch as it is impossible to get jurisdiction in this state over Mr. Johnson in a new suit, it would involve these technical considerations, and would not be determinative of the real issue or binding upon Mr. Johnson.

Undoubtedly, the annual meeting of the league, as called by the board of directors for New York before Mr. Johnson's alleged call, will be attended by the Chicago, Boston and New York clubs, if not by others.

"This withdrawal must not be construed as a retreat nor as a step leading to compromise, but rather as another war move. The New York American League club has a clearly defined conception of its right in this case and means to maintain its position at all hazards."

Mr. Johnson's attorneys have raised the technical point that the question of the legality of his call of the Chicago meeting cannot be determined in the original Mays suit, which, they claim, had to do with only the Mays incident; and, inasmuch as it is impossible to get jurisdiction in this state over Mr. Johnson in a new suit, it would involve these technical considerations, and would not be determinative of the real issue or binding upon Mr. Johnson.

Undoubtedly, the annual meeting of the league, as called by the board of directors for New York before Mr. Johnson's alleged call, will be attended by the Chicago, Boston and New York clubs, if not by others.

"This withdrawal must not be construed as a retreat nor as a step leading to compromise, but rather as another war move. The New York American League club has a clearly defined conception of its right in this case and means to maintain its position at all hazards."

Mr. Johnson's attorneys have raised the technical point that the question of the legality of his call of the Chicago meeting cannot be determined in the original Mays suit, which, they claim, had to do with only the Mays incident; and, inasmuch as it is impossible to get jurisdiction in this state over Mr. Johnson in a new suit, it would involve these technical considerations, and would not be determinative of the real issue or binding upon Mr. Johnson.

PROMOTERS HAVING BATTLE FOR HONOR OF STAGING FIGHT

By HENRY L. FARRELL (United Press Staff Correspondent) NEW YORK, Dec. 6.—The battle of the promoters now draws near.

Three fight impresarios who seem to have a lion on the bank of England, the mint of France and the Yankee coin market, are squaring away for a battle royal for the Dempsey-Carpentier match.

C. E. Cochran, London, claims to have the match all lined up for \$175,000. Dominick Tortorich, New Orleans, is just as insistent that Dempsey has promised to fight for him for \$250,000.

On the heels of these comes the French promoter, Decon, who is playing wise.

"Listen to the offers of the others and then see me," he has cabled to Jack Kearns, according to reports.

Paris Wants Fight. The French capital is reported ready to mortgage the nation to get enough money to have its greatest hero fight for the world's title on his home soil.

If Europe has that much money to offer for the world's championship fight, American fans had better not work up too much of an appetite for the battle or they might have to cross the pond.

American promoters will be slow to offer fabulous sums under the conditions which exist in this country. It would take proportions on a Toledo scale and Tex Rickard had such a narrow escape with that venture that other promoters will be slow to rush in on a million dollar enterprise.

London and Paris both feel sure that America will not get the fight. Cochran is so sure that he has announced June 7 as the date for the scrap in the Olympia.

Carpentier has other things on his mind now besides Dempsey. Mike O'Dowd, the middleweight champion, and Eugene Brosecan, Canada's middleweight king, have both challenged him.

HUNDRED THOUSAND IS OFFERED FOR FIGHT PORTLAND, ORE., Dec. 6.—Charles W. Ackerson, a local business man, who is said to represent a syndicate of local business and sporting men, today telegraphed to Jackson Kearns, manager for Jack Dempsey, world champion, offering \$100,000 for a fight here next June between Dempsey and Georges Carpentier.

Ride with Aviator Hall today. Ten years' experience. Call Field. 191-117

XMAS CHEER

With the Joy of Giving and Receiving

Begining Monday, Dec. 8, this store will be open evenings until 9 o'clock. The quiet of the evening is the best time to hear a concert given by phonographs. Hear the Kimball and Pathes using the everlasting sapphire ball needle.

Did you ever listen to a great opera? When upon leaving the theatre, rested and soothed with the smooth tones and harmony of a fine concert and then—down the street comes a circus band with its blatant cornet; you stuff your fingers in your ears and—Well the sapphire ball needle gives you the great opera. Let us demonstrate.

TABLE AND FLOOR LAMPS are splendid gifts. See our exclusive designs in Art lamps and torches.

SPECIAL—Our 25 per cent discount on all lamps and shades will be continued this week.

COFFEE brewed in a percolator with the rich, brown color and nectar flavor that starts the day right.

PERCOLATORS are only one of our many items in necessary Electric Ware for the up-to-date home.

SILVERWARE—Our line includes casseroles, chaffing dishes, steak platters, fruit baskets, bon bon sets and—Well, come in and we will show them to you.

ART DEPARTMENT—Paintings, etchings and mezzo reproductions. Japanese wares and antiques.

DRAPERIES—Fine draperies exclusively designed. In this department you will find beautiful table covers in tapestry, brocades, etc. Window laces, damasks, silks, linens, velvets, madras, cretonnes and other drapery materials.

WHEN SHOPPING Don't forget the "BIG STORE" in a little SPACE THE HOME OF INTERIOR DECORATION—THAT'S US

TIMES DAILY MARKETS New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET. NEW YORK, Dec. 6.—A better feeling over the Mexican situation helped an early advance in the cotton market today, but there was nervousness over the threat of another longshoremen's strike and talk of an earlier stop basis in the Eastern belt.

GRAIN AND PRODUCE. CHICAGO, Dec. 6.—Unusual strength in the eye and barley markets, a condition ascribed to active export demand, had a bullish effect today on corn. The close for corn was unchanged, 94c to 14c net higher, with January \$1.30 to \$1.30 1/2, and May \$1.35 to \$1.35 1/2, oats finished 1/2c to 1/2c up and provision unchanged to a decline of 2 1/2c.

To Our Retail Customers: We wish to announce that on and after the 20th of December we will discontinue the retail delivery of milk, except on the increased cost to us and feeling that a further advance will decrease the use of it with many people.

Table with 4 columns: Commodity, Price, Change, and another commodity. Includes items like CORN, OATS, PORK, LARD, RIBS, WYANDOTT, and various cash grains.

Pure Milk Product Co. Thanking you for the past business given us and trusting that our actions will discommode the consumer but little we are.

Tom F. Nolan Real Estate. "Home"—The sweetest word in the English language. "Home", the sanctuary of the soul, where troubles and cares are forgotten, and peace reigns supreme.

\$30,000.00. The prettiest home in town, in Floral Heights, restricted district near Tenth street, new two-story house, there's nothing lacking in the way of artistic beauty and solid comfort.

\$16,000.00. On Lucile street in Southland addition, a six room home, just completed, modern in every way, with the latest built-in features, garage and store house, hardwood floors and breakfast room, \$5,000 cash will buy this a big balance on easy terms.

\$13,000.00. A brand new seven-room home on a corner lot on Lucile street. This is an unusually excellent chance to secure in a fine location an ideal place to live.

Chicago Producers. CHICAGO, Dec. 6.—Butter lower; creamery 54 1/2c; eggs 57c; chickens 1.25; poultry 1.25; live hogs 1.25; live calves 1.25; live steers 1.25; live sheep 1.25; live goats 1.25.

Market Review. CHICAGO, Dec. 6.—The coal shortage, together with the fact that the visible supply of corn is one of the smallest on record, has had a bullish effect on the grain market.

Table with 4 columns: Commodity, Price, Change, and another commodity. Includes items like NEW YORK STOCKS, GRAIN AND PRODUCE, and various cash grains.

CRANE-WILLIS COMPANY REAL ESTATE AND INSURANCE 710 1/2 Indiana Avenue—Room 5

U. S. Army Blankets and Raincoats. Remember—No Reclaimed or Dented Goods—JUST RECEIVED—All-Wool O. D. (olive drab) 4 1/2 lbs., \$9.50 each.

TRAVEL BY AIRPLANE. Fort Worth in 1 hour and 20 minutes. Dallas in 1 hour and 40 minutes. Oklahoma City in 2 hours.

—Saves Three Ways

You save when you buy it

Calumet Baking Powder is sold at a moderate price—a just price.

It costs much less than the high priced brands. And but very little more than the "big can" kinds that can never be depended on. When you pay more than is asked for Calumet, you are squandering money. No matter how much you give, you can't get a better leavener.

When you buy cheap powders, you do save a few pennies on the cost, but poor baking powder is the most expensive in the long run because it spoils and wastes many dollars worth of baking ingredients.

The moderate cost of Calumet, combined with the highest merit, establishes the greatest of baking powder buying economy.

Calumet has been on the market for 30 years. Long past the experimental stage. It is used by more housewives, more chefs and Domestic Scientists because experience has proved it productive of best results at the most economical cost.

Made in the world's largest, finest, most sanitary Baking Powder factory.

You save when you use it

Calumet has more than the ordinary leavening strength—therefore use less.

It is all Baking Powder. It begins to raise bakings the instant they are put into the oven. You don't have to keep peeping to see if the bakings are all right. You know they are.

Calumet is sure. It never fails. Cakes, biscuits, every baking in which Calumet is used, comes from the oven just right—light, tender, perfectly raised and thoroughly wholesome.

Look Out For This

When you buy a pound can of Calumet you get a full pound—16 ounces—no short weights. Some baking powders are now being put on the market in 12 ounce cans instead of pound cans. Be sure you get a pound when you want it. Remember—Calumet is not made by the Trust, not sold at Trust prices.

Valuable 72-Page Cook Book

Handsomely illustrated in colors. Most complete and dependable recipe book ever published. Hundreds of hints in reducing household expense. Scores of selected recipes—new and better ways of making better foods. Send slip found in can of Calumet and three 2-cent stamps to help cover cost of packing and mailing.

You save materials it is used with

The unfailing strength of Calumet guarantees perfect results—every bake day.

There are no failures—no waste. The eggs, butter, flour, sugar and other baking ingredients that cost you so much money these days are always converted into the most delicious and economical bakings.

Calumet bakings are never thrown away. Not a slice of cake, a crumb of biscuit nor anything else baked with Calumet ever spoils or dries out. They are too good to last—and are good to the last as they stay moist, fresh and tender.

Calumet is one of the greatest savers of food—one of the most effective means of keeping down the high cost of foods—without sacrificing food quality.

Try it. Today. Your grocer will refund purchase price, if you are not absolutely convinced of the fact that Calumet is the best leavener you ever used at any price—the most economical.

SOCIAL NEWS

WICHITA COUNTY GRADUATE NURSES MEET TUESDAY

The Graduate Nurses Association will meet Tuesday afternoon at the Wichita General Hospital, at one o'clock. All members are urged to be present.

WOODMEN CIRCLE TO MEET WEDNESDAY

Members of the Woodmen Circle are urgently requested to be present at the meeting to be held Wednesday, December 10, at 3:30 o'clock at the regular meeting place. Important business, including election of officers and plans for a big meeting in the near future makes it imperative that a large number be present.

OFFICERS AMERICAN NATIONAL ENTERTAINED BY MRS. BONNER

In compliment of Judge Bonner's thirty-sixth birthday, Mrs. W. N. Bonner entertained several of the officers and directors in the American National Bank at dinner at their home at Buchanan street, Friday night. The guests included Rhea Nixon, F. L. McCoy, H. G. Burlew, B. B. Hines, D. P. Donnel and Lian Boyd.

FLORAL HEIGHTS WESLEY GIRLS ELECT OFFICERS

Officers for the coming year were elected by the Floral Heights Wesley Girls in the first business meeting of the class, held Tuesday afternoon at the home of Mrs. Loren Taylor, 1506 Kemp Boulevard. The meeting was most enthusiastic, and plans for a very active year were made. The officers elected were: Mrs. Leon Deaton, president; Mrs. Lester Jones, vice president; Mrs. Charles Crowell, secretary; Mrs. Floyd Billingsley, press reporter; Mrs. E. E. Trawick and Mrs. H. A. McCarty, visiting committee. Pink and white were chosen for the class colors, and carnation named as the class flower.

Following the business meeting a social half hour was enjoyed, the hostess serving a dainty luncheon plate to Mrs. Fankle and Mrs. W. M. Bailey, guests, and Mesdames Ray Hanks, Charles Crowell, Ed Trawick, Floyd Billingsley, H. A. McCarty, and Leon Deaton, members. The class will meet next Friday, December 12, with Mrs. Charles Crowell.

EPWORTH LEAGUE PROGRAM FLORAL HEIGHTS CHURCH

The following is the program for the Epworth League of the Floral Heights Methodist Church for Sunday evening at 8:15:
Subject, "A Chain of Love."
Leader, Mrs. F. M. Keane, first department superintendent.
Song service, led by a real live leader, Mr. Ellis.
Prayer, Clyde A. Tuttle.
Scripture Lesson, I John 3, 1 to 3.
Mrs. Leon Deaton.
Song, "When Love Shines In."
League Vocal Solo (Selected), Mr. Pinson.
Love of Man for Man, E. H. Eddie-man.
Short Love verses from Bible.
Leaguers.
Vocal Solo (Selected), Mrs. W. G. Simmons.
Our Love for the League, Mrs. F. B. Cox.
The League Bound by the Chain of Love.
Song, "Blest Be the Tie that Binds."
League Benediction.

HEINERT-SERRION WEDDING SOLEMNIZED LAST WEEK

One of the interesting events of the Thanksgiving season was the wedding of Miss Amanda Serrion, daughter of Mr. and Mrs. John Serrion, 2211 Ninth street, to Mr. William Reinert of Lincoln, Kansas, which was solemnized Thanksgiving afternoon at the Saint Paul Lutheran Church. Mr. and Mrs. Reinert left Friday, December 5, for Lincoln to make their home, after spending a week with the bride's family and relatives.
The bride's wedding gown was of heavy white satin, richly trimmed in lace and georgette and she wore a full length veil. Her flowers were white chrysanthemums.
Miss Emma Serrion, sister of the bride, Miss Tillie Reinert of Lincoln,

DAILY FASHION HINT.

Cheruit wrap of brown satin embroidered in white Angora and brown Mongole fur are here combined.

Kansas, sister of the groom and Miss Bertella Schredder, were the bridesmaids. All wore wrens of blue satin and carried bouquets of white chrysanthemums.
The groom's attendants were William Serrion brother of the bride, Paul Schoeder and Theodore Lucke. All wore dark business suits.
The ceremony was performed by Rev. C. M. Beyer, who also played the wedding march.
Following the wedding a reception was held at the home of the bride's parents, with an elaborate turkey dinner served in the evening. The beautiful home was decorated for the occasion in chrysanthemums with the blue and white color scheme used in the wedding again featured. There were seventy-six guests.
The bride is the daughter of Mr. and Mrs. John Serrion, for a year and a half residents of Wichita Falls, and for the preceding nine years residents of the Iowa Park community, where Mr. Serrion has large interests and royalty holdings. The groom is a prosperous young landowner of Lincoln, Kansas. The congratulations of the many friends of the bride and her family in this section are with Mr. and Mrs. Reinert.

Colford, corresponding secretary; Mrs. Wiley Robertson, librarian; Mrs. Fred Morris, chairman of personal service; Mrs. W. H. Davis, auditor; Mrs. J. P. Riggs, Y. W. C. A. leader; Mrs. Kimmell, Girls Auxiliary Leader; Miss Minnie Covington, Sunshine Band Leader; Mrs. H. I. Willis, chairman of literature committee.

By JAQUELINE.

Fashions of the present are often centuries old and the most primitive native costumes have been used as a motive for gowns of today. This LADY DUFF-GORDON day frock of taupe georgette crepe modelled over a charming foundation, is a modern interpretation of an old Norwegian peasant costume. The clever originator of fashions used marabou fur in place of the coarse strips of sheep skin that the ancient coquette of Northern Europe used as an adornment. Dull gold cord and embroidery of barbarian motifs carry out the ornamentation to perfection. This gown was made for one of the new screen celebrities, Miss Peggy Shannon, better known as the Madonna Vampire. The titled designer named the gown "SCANDIA."

EPICUREAN CLUB MEETS WITH CHESTER KNIGHT

Chester Knight was host to the Epicurean Club on Friday night, entertaining with an informal dance at his home in Calford Place. Punch was served to refresh the dancers through the evening and a supper course, consisting of a salad, wafer, olives, and hot chocolate was served at a late hour. Those enjoying Mr. Knight's hospitality were: Misses Rosalie Stimpff, Frances Greaser, Norma Newton, Fay Greene, Leona Maricle, Temple, Bray, Marie Wiley, Janice Frost, Minnie Belle Sowell, Naomi Knight; Messrs. Mathis J. H. Hook, H.

MUSICIANS CLUB WILL MEET THURSDAY

The regular fortnightly program of the Musicians Club will be held Thursday morning, December 11, at 9:30 at the Kemp Library. Mrs. Louis Ford will be the leader. Mrs. E. M. Goff and three children have returned to their home in Yinton, Iowa, after a two month's visit with Mr. and Mrs. D. A. Wilcoxson. Mrs. Goff is Mrs. Wilcoxson's sister.

Make Your Property Beautiful

MANY people waste money in their efforts to beautify and increase the value of their property—and all because they do not know the essentials of art as applied to outdoor adornment and landscape effects.

In transforming unattractive or badly laid out grounds into vistas of beauty and unusual charm we are adepts.

Through the counsel of our Landscape Architects and our facilities to execute every detail in the choice and placement of trees and shrubs, the designs of pools, pergolas, the layout of paths and roadways we can render you a service truly artistic.

Our steadily improved booklet "Outdoor Art" will show you many excellent ideas of the service we provide. Send for it today—and accept it with our compliments.

- All \$69.50 suits, some fur trimmed, others trimmed with embroidered effect \$35.00

Suits ranging as high as \$198.00 all at Half-Price

BOOTS OR ANKLETS? LET TOOTSIES CHOOSE

By MARGARET ROHE
Written for the United Press.

What boots it if your ankle's fine
If you must go and boot it.
This is Dame Fashion's last decree.
But there'll be lots who'll moot it.

NEW YORK, Dec. 5.—Incoming ships are bringing heaps of exciting things to our shores these days, besides royalties and bolsheviks. Not the least of these were worn by two dashing American matrons when they put their best foot foremost down the gangplank the other day. One wore an alluring golden anklet that gleamed seductively through the transparent mesh of her gossamer silk hose and the other swaggered down in a dashing little pair of honest-to-goodness regular Russian ballet boots.

You can take your choice between these two divergent styles according to your temperament and the turn of your ankle. It's always well to remember, however, that where there's a well tucked ankle there's many a well turned head. And it does seem such a wicked waste of money to wear sheer hosiery and slender shanks to go and drag boots on the scene.

Nevertheless there are many who are doing it—some because they follow zealously every vagary of the mode, whether it means baring their backs or booting their tootsies, others (and naturally all booter devotees rest under this suspicion) because their ankle lines, or rather lumps, make boots the lesser of two evils.

There are lots of boot styles to choose from when it comes to color schemes and ornamentation, though the general cut of all the boots is about the same. All over patent kid ones are smart and those of patent kid lowers with light kid uppers, either grey beige or tan have designs of the black patent kid on their turn over cuffs at their tops.

All grey or light tan boots of suede are softer and more form-fitting, as it were, and a few sport tassels, fur trimmings and even go the elaborate limit of a bit of hand tooling here and there like an edition de luxe.

We have been threatened with this boot fad ere this but it didn't stick sufficiently to make a deep impression on feminine favor. The very fact that the price of leather is so high nowadays as to almost make these high boots prohibitive except to the most expensive and exclusive trade may put the stamp of approval of them now that they lacked when the hot polloi could afford to be booted with the best of them.

The high cost of booting makes rather for the anklet as a more popular adornment of the season, however. Especially does it go well with the oriental trouser effects so prevalent among our best, skirts these days. The skirts pulled in around the hem do their worst to

simulate haremlike effects and there is a return to this fashion of a season ago that bids fair to exceed even the success of its debut. In that wicked Paris more blatantly bifurcated garments have been flaunted in the face of convention and if this sort of thing keeps on and up a lovely woman may be able to tuck her trousers in the top of her boots like a regular wild-western fellow when she goes to cast her vote at the next Presidential election, by heck.

NATION-WIDE CAMPAIGN OF THE EPISCOPAL CHURCH IS INAUGURATED TODAY

CHICAGO, ILL., Dec. 6.—One hundred thousand canvassers throughout the United States tomorrow will start the week's intensive drive for \$42,000,000 as the culmination of the National Campaign of the Episcopal Church which has been in process of preparation for more than six months. The campaign and intensive drive represent one of the chief lessons of the great war as applied for the first time by the Church—the institution of a modern nation-wide budget system and the systematic raising of funds to administer and extend the work of the Church on a period of three years. To assure the scientific application of business principles to the work of the Church, the institution of a modern nation-wide budget system and the systematic raising of funds to administer and extend the work of the Church on a period of three years. To assure the scientific application of business principles to the work of the Church, the institution of a modern nation-wide budget system and the systematic raising of funds to administer and extend the work of the Church on a period of three years.

The great drive beginning tomorrow in all but a few dioceses will apply other lessons of the world war as well as the financial and business one. The campaign provides for an Americanization plan to be fostered by the Church, including practical educational work among the foreign-born, solution of rural problems, social substitutes for the saloon, and charitable and institutional work.

With the results of the week's work it is proposed to add 1500 workers in activities of the Church in the United States, provide 2,000 buildings and equipment, ranging from a new community house on the West Side of Chicago to motor driven missions in the sparsely settled districts of West and South, huts in torrid Africa and

even igloos among the eskimoes in the frozen north of Alaska. Salaries of clergy are to be raised to a living wage, new churches built, and social and religious "clubs" established as community centers and missions whereby the Church will extend its part in solving the present problems which have followed in the wake of the war.

The Rev. Dr. Robert W. Patton, national director, has announced the completion of plans for the "intensive week." Based upon the modern efficiency scheme of Mr. Franklin and Henry P. Davison, head of the National Red Cross organization, for the laymen, and Bishop Charles P. Anderson of Chicago, head of the joint commission of bishops, priests and laymen, the organizers of the campaign have gone into every city, town, hamlet and rural community in the country through the medium of the press and personal organization in the course of the National Campaign, and interest throughout the United States is prepared for a successful outcome of this week's drive. The sum to be raised will be covered by pledges over a three year period. All interested in the nation's problems of Americanization and reconstruction have been given an opportunity to prove their interest by pledges.

Give Your Hair Daily Care by Using Famo Regularly

To keep your teeth clean and healthy—to avoid pyorrhea—you brush your teeth, not once a week, but every day.

To keep your hair clean and healthy—to avoid seborrhea—you should use Famo, not once a week, but every day.

In other words, your teeth get daily care—why not your hair? Famo kills the seborrhea germ that causes dandruff.

But it isn't fair—to FAMO or your hair—to expect a weekly FAMO treatment to rout all dandruff bacilli, and keep your head free from seborrhea.

It is true that FAMO does drive out the dandruff germ after the first few applications.

But the deadly germ will surely come back unless the use of FAMO is continued regularly and faithfully.

SEEK SOME METHOD TO OBLITERATE BRANDS ON THE ARMENIAN WOMEN

NEW YORK, Dec. 6.—A simple method to obliterate from the faces of thousands of Armenian girls and women the brands and indelible ink tattoo marks placed upon them during the war by Turks, Kurds and Arabs is sought by Dr. Winfred M. Post, of Princeton University, who has just returned from a trip through the Near East.

The victims of the branding and tattooing in every case, were Christians and their capture thus marked them as Mohammedans. Freed from enslavement they sought at once to remove the evidence of their bondage, employing disfiguring acids for the purpose. Many of them flocked to the relief hospitals, Dr. Post said, to be treated for the self-inflicted burns.

Dr. Post, who was born in Turkey and served as a medical missionary in that country before the war, said the tattooed women were among hundreds of thousands of destitute persons in that country who are being cared for by the Near East Relief workers from America.

"While removal of tattoo marks cannot be classed with the urgent necessity of providing food and clothing for 30,000 starving Armenian women and children," says Dr. Post, "the wearing of this brand which shows that the woman has been an inmate of a harem,

seriously interferes with the work of reconstruction and rehabilitation among such persons. During the four years that Turkey attempted to exterminate the Armenian people by a system of slaughter and deportation, practically every young woman in that country was at the mercy of the Mohammedans."

Removal of tattoo marks has never been given serious attention, according to prominent dermatologists. Occasionally a request has come from a former sailor to have some disfiguring removed from his arm or a society woman who wished to have the in-

fluence of her former fiancé or husband removed, but the known processes of removal have been so dangerous and their success so questionable that physicians have considered the marks to be practically irremovable.

Several prominent dermatologists have offered their service to Dr. Post, to assist him in his research work for the benefit of marked Armenian women. Among those who are aiding in the work is Dr. George H. Washburn of Harvard, who served in the medical corps of the United States army as a specialist in restoring the faces of soldiers who were disfigured by wounds.

Notice to the Public.
Dr. H. A. Waller and Dr. E. E. Huff, Jr., have formed a partnership for the practice of dentistry. Offices located in suite 410 First National Bank building. Telephone 1707 for appointment or call in person. 184-81c

Louis Nehring, piano tuner of 21 years' experience in Chicago, is ready to do your work. Recommendation Ernest Katz, pianist and K. O. Williams of Wichita Music Co. Phone 188-71p

SOCIAL NEWS

MRS. LOEB'S GUEST HAS RETURNED HOME

Miss Carrie Obendorfer, who has been the guest of Mrs. Leon Loeb at Kemp Kork for the past two weeks, left Saturday for a visit in Joplin and Kansas City, Mo., and Lincoln, Neb., before returning to her home in Colorado Springs.

MR. AND MRS. REID TO ENTERTAIN BANK FORCE

Mr. and Mrs. C. W. Reid will entertain the banking staff of the National Bank of Commerce at dinner next Wednesday, December 10. The dinner will be given at the Reid home, 1801 Huft avenue.

INTERESTING MEETING OF PARENT-TEACHERS ASSN.

The regular meeting of the Parent-Teachers Association of the Travis school was held Friday, December 5, at the school. An interesting program was held, and a business session. The treasurer's report showed a neat sum derived from the sandwich sale which the Association conducts weekly. An interesting report on the school activities was given, showing that a Literary Society and Glee Club has already been organized, and that the boys are soon to organize an athletic club, and a boys choir. There was much enthusiasm manifested in the work of the club, and in the school activities, and the meeting was reported as very satisfactory.

Miss Molly Flowers is in Dallas, visiting Miss Jackie White.

Picture frames at Decorators Co., 715 Ninth street.

EPWORTH LEAGUE FIRST M. E. CHURCH

The following program will be rendered Sunday evening, December 7 at 6:15 in the league room of the church. A rousing song service will be led by J. W. Akin, Jr., and there will be plenty of pep throughout the entire service. If you come to our league service once, you will be sure to come again. Everybody welcome. Subject: "Money, Curse or Blessing?" Leader, Robert McCullough. Song service led by J. A. Akin, Jr. Prayers, Scripture lesson, Malachi, Jr. 3:12. Miss Irene Covey, Piano Solo, Mrs. J. W. Akin, Sr. "How Money May Be Made Curse," Miss Mary Joe Chambers. "How Money May Be Made a Blessing," Miss Nell Smith. Violin Solo, Mr. Elkins. "Consecrating Our Money," J. H. Ogle. Duet, Baldwin Montgomery and J. W. Akin, Jr. Announcements. League Benediction.

JACK GARDNER DANCE LAST MONDAY NIGHT

One of the most pleasant dances of the season was given Monday evening complimentary to the girls of the younger set by the young men, at the home of Mrs. J. W. Akin, Jr. The famous Jack Gardner Orchestra from Dallas furnished the music, and the dance was exceptionally enjoyable, and attended by a large number of couples. Mr. and Mrs. John Tancred and Mr. and Mrs. Frank Cagle were the chaperones, a number of the younger married folks being present. There were several out of town guests present for the dance, including Miss Jackie White of Dallas, and Misses Myra and Thelma Hassell, Polly Durrett and Marcia Reynolds of Fort Worth.

Visit New York

Party of girls being organized in Dallas to spend six months (January 1 to June 1) in

New York

under the personal chaperonage of a young lady of refinement who has spent six years' study in America's metropolis. The party affords splendid opportunity to young women to do further work in Music, Art or other studies, and at the same time to be so situated as to enjoy all of the best life of New York.

The party is limited and immediate reservations will be advisable. References exchanged. Other information covering details of the trip will be given gladly on request.

Andersons' The Store of the Christmas Spirit

For This Week—A Great Sale of Good Hats

Commencing Monday we shall sell our entire stock of better trimmed hats at two prices: \$5.00 and \$10.00.

THE \$5.00 LOT

Hats worth up to \$12.50 each are placed in this lot.

Here you will find really smart hats of velvets in both Panne and Lyons velvets, trimmed with genuine ostrich bands, ostrich feathers, rich metal brocades, and colorful velvet flowers and foliage; all the newest shapes and in all types so you are sure to find the ones that look best on you.

THE \$10.00 LOT

Here are the prettiest hats of the season. Finest velvets in becoming Turbans, large picture hats, and roll-broms, that reveal colorful facings.

Here are hats from Johnson of New York, Gage and Fisk of Chicago, and clever new designs by our own artist-trimmer. Hats selling at our own fair prices up to \$27.50 are included in this lot. Plan to be here early in the week. The earlier, the better the selection.

Lovely Silk Underwear

Fine for Christmas gifts.

You will be delighted with the big showing of silk underfinery—you will be pleased with our fair prices. Here are just a few sample offerings:

250 Teddies for \$1.95—Beautiful garments of novelty silks in flesh color, in dots and fancy woven figures, all lace and ribbon trimmed, unusually good values at our regular price of \$2.50 in the Christmas sale for \$1.95.

These are made of extra quality wash satins in flesh color and are beautifully hand-embroidered and trimmed with lace and rich ribbon—our best \$4.50 and \$5.00 values in the Christmas sale of for \$3.95.

Other teddies or envelope combinations in fine crepe-de-chines, wash satins, daintily trimmed with hand embroidery, fine lace and rich ribbons, are selling at \$6.50, \$7.50, \$8.50, \$9.00 and up to \$15.

Pretty Pajamas—They are growing more popular all the time and you'll like these better qualities. \$12.50, \$13.50, \$15.00, \$18.50, \$20 and \$25 the suit.

Classy Camisoles—Artistic garments developed in finest Georgette, crepe-de-chine and wash satins, hand embroidered and beautifully finished with ribbons and real laces \$1.50, \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00 and \$6.00 each.

Good Gowns—Wonderful garments in fine wash satins and crepe-de-chines selling at \$8.50, \$10, \$12.50, \$13.50, \$15.00, \$18.50, \$20.

Children's Sweaters for Christmas

Splendid for Christmas—great for immediate wear and there is a world of warmth and usefulness in good sweaters like these—buy them now—take advantage of the special price—remember "A Reduction Means More in this Fair-Priced Store." These come in both slip-over Blouses and regulation Coat style and for ages 4 to 14 years.

\$8.50 sweaters are now \$7.95; best 7.50 grades are now \$6.95; finest \$6.00 sweaters are now \$5.45; dandy \$5.00 sweaters for \$4.15; good \$4.50 sweaters are now \$3.95; splendid \$3.50 sweaters for \$3.10; \$2.50 grade for \$1.95; and \$2.00 sweaters for only \$1.69—better come early—these will go out quickly.

GIFTS THAT MEN APPRECIATE

Superb Scarfs for Christmas

Here are ties that are all class. Rich colorful classy ties that "he" will like, made of the best necktie silks, in the classiest styles of the season—Rich Autumnal leaf effects, pretty Persians, fine floral effects.

These are all made with "slip-easy" satin faced bands, and new non-wrinkling features that add to the durability and appearance of your cravats. These are packed in pretty holly boxes—they come in the new wide flowing end patterns and the styles are all new and distinctly better. Come early—make your selection while all these better ties are here.

Classy Cravats \$3.50. Tempting Ties \$3.00. Superb Scarfs \$3.50. And unusually good values in desirable new silk ties at \$1.00 and \$1.50.

Silk Shirts for Christmas

Another big shipment of "No Fade" Remington silk shirts in the classy new stripes—hundreds from which to choose in crepe-de-chines and good tub silks, dozens of the best and best patterns for the early shopper at each \$10.

Good crepe-de-chine silk shirts are hard to get. We were fortunate to get this allotment on an order placed months ago—These will go out quickly—make your selection early in the week.

Men's Fur Caps for Christmas

Here's a great value in the "Detroit Special" shape in good Coney fur cap, satin lined, in black and brown coney-warm attractive fur caps for \$5.00.

Others in fine black Hudson Seal, beautiful quality \$15.00. New novelty cloth caps, snappy styles, latest shades are \$2.50 and \$3.00.

BUY HIM A "MALLORY"

Here's the biggest and best stock of Mallory hats we have ever shown. All the classy new shapes and the desirable Fall shades are here in rich velvety velours; regulation smooth felts and the new "Scratch" felts. There's an air of exclusiveness about these better Mallory hats "he" will appreciate—besides Mallory hats are Cravatted, rendering them waterproof and weather-proof. They hold their color and retain their shape.

Mallory Velours, best of all good Velours are \$18.00. Mallory De Luxe Felts, finest felts made are \$7.50 to \$10. Mallory Scratch Felts, the exclusive kind are \$10 and \$12.50.

Silk Sweaters for Christmas

WOMEN'S \$20.00 SWEATERS FOR \$12.95. Silk sweaters make acceptable gifts—especially better silk sweaters like these. Silk sweaters of art silk, fibre silk, and pure silk sweaters in the pretty new styles—both the slip over blouse effects and the regulation coat styles; the good plain shades or the popular new stripes; perfect beauties in black, navy, brown, white taupe, rose and khaki—best \$20.00 grades for \$12.95.

Christmas Gloves

And gloves of the better kinds that "he" will appreciate, for they are such well known makes as Adlers, Stetson and Hansen.

Here are some great values in Cape stock kid gloves, and genuine Cape gloves are the best of all dress gloves. All sizes and all the good shades of brown, reindeer, gray, tan, black—some of them are full silk lined and selling at \$3., \$3.50, \$4 and \$4.50 the pair.

Good kid gloves are getting very scarce—we can not replace these values at these lower prices.

Boys' Gloves, made by Adler—in real kid, silk lined and unlined, in all the good shades and in all sizes are selling at the pair \$2.25.

Boys' Extra Quality mocha kid gloves, gray, warm fleeced lining are \$1.75.

Men's Automobile Gloves—A splendid stock for the early Christmas shopper who is looking for automobile gloves of the better kinds. Finest black cape kid stock, silk lined, unlined and some with warm wool lining—these have all the extra features you will appreciate—\$4.00 to \$17.50.

Men's Bath Robes and Lounging Robes

The early Christmas shopper will find a splendid selection of better Bath Robes, in the good warm blanket materials, some in the colorful Indian designs, others in subdued patterns, all finished with girdles, frogs, some with satin bound edges, others in braid trimming—all sizes—all the good colors, \$9.00 to \$17.50.

Boys' Mackinaws

A big shipment of these better Mackinaws that were bought early in the spring. The best dark navy and brown plaids, rich Autumnal shades that are not "loud" for ages 8 to 18 years \$15.00.

CHILDREN'S OVERCOATS FOR AGES 2 TO 8 YEARS

Clever new models in gray chinchilla with velvet collars for \$12.50.

Others in splendid suitings, rich velvets, neat shepherd checks in novelty effects \$10 to \$13.50.

Boys' Overcoats for ages 12 to 18 years—the prettiest model of the season, double breasted, waist seam style with belt in rich colorful patterns that boys want, each \$35.00.

LITTLE BOYS' CORDUROY SUITS FOR \$5.95

Not many left—better hurry. Good soft velvety corduroy for ages 3 to 6 years, medium shades, splendid quality \$5.95.

Superb Silk Blouses for Christmas

Nothing better for an acceptable Christmas gift than one of these better silk blouses in an attractive holly box. "Worthmor" silk blouses for \$5.00.

Here's the best silk blouse value in America—the Wirt America, the Wirthmor and it's the last allotment of these famous blouses that we shall be able to offer at this low price.

\$5.00

Many months ago we placed orders with the biggest plant making silk blouses in America for two shipments each month. That's why we can offer these better blouses, made in the newest style and best possible manner at \$5.00 each and they are better blouses than you will ordinarily find retailing at \$7.50.

They come in Georgette, Crepe-de-Chene, wash satins and tub silks, many of them beautifully embroidered.

All sizes in all the wanted Fall shades are here for those who come early—remember this is the last shipment of these better waists we will have to sell at \$5.00.

\$7.00 SILK BLOUSES FOR \$5.95

Another big special in fine Georgette silk blouses, all handsomely embroidered and beaded in all the best Fall shades our best \$7.00 value in the Christmas sale at each \$5.95.

In better blouses we are showing an unusually large selection of finest Georgettes, best crepe-de-chines and splendid tub silks at \$7.50, \$8.50, \$9.00, \$10, \$12.50, \$13.50, \$15.00, 18.50, 20, 22.50, \$25, \$30, 35 and \$40.

These are Russian blouses, over blouses, peplums, and are handsomely embroidered and beaded by hand, and come in coral, flesh, pink, taupe, navy, brown, jade green, emerald, black, American Beauty and white.

Special Sale Monday Women's Warm wool serge dresses \$4.95 Women's and Misses' Coats \$4.95

Beginning Monday we shall offer one lot of women's wool serge dresses in good colors, but carried over from previous season, former prices up to \$15 each.

Women's good wool coats, Misses' warm wool coats, garments carried from previous season, formerly sold up to \$15.00 at choice \$4.95.

Plan on being here when the sale starts—lots will be sold out quickly.

Special Sale of Boys' Suits

Here are some dandy suits for ages 11 to 18 years in good suitings, tan diagonal coverts, gray, tan and brown mixtures—suits that could not be replaced at one half more than the special sale prices if bought on today's market. Hurry if you want a good dependable suit at a substantial saving. \$11.00 Suits for \$8.95.

\$13.00 Suits for \$10.95 Splendid \$15 Suits for \$12.95

See our classy new patterns in "Woolwear" and "Wear-Pledge" suits, two nationally known suits of unusual merit. The best of all styles for boys in durable woollens that will wear—classy, colorful patterns the boys will appreciate \$10 to \$25 the suit.

Clever little suits for the little boys for ages 2 to 8 years. Fine all wool serges, costume velvets and neat suitings, \$10.00 to \$15.00.

Andersons' WICHITA FALLS STYLE & QUALITY STORE

FRANK COLLIER IS FURTHER HONORED BY MASONIC LODGE

ELECTED TO RANK AND DECORATION OF KNIGHT COMMANDER COURT OF HONOR.

ALSO GRAND JUNIOR WARDEN

Friends Gratified at Recognition of His Faithful Service to the Organization.

FRANK COLLIER In recognition of his long and loyal service to the Masonic fraternity and in particular his devotion to the interests of Scottish Rite Masonry, at the last session of the Supreme Council of the Ancient and Accepted Scottish Rite held at Washington, D. C., Frank Collier of this city was elected to the rank and decoration of Knight Commander of the Court of Honor. This rank is conferred only upon those who have deserved well of the Rite and is only given by the Supreme Council. It cannot be applied or asked for and is conferred only in recognition of distinguished service to the Rite.

Grand Junior Warden. A few days ago Mr. Collier was also appointed Grand Junior Steward of the Grand Lodge of Texas. Mr. Collier's many friends here, and especially his Masonic brothers, are well pleased with the recognition being given him. He has long been an ardent and enthusiastic Mason. In the early days of the Lodge, Chapter and Commandery in Wichita Falls, he was one of the hardest workers and was always ready and willing to serve in any capacity. He served as Worshipful Master of Wichita Falls Lodge No. 623 in 1907-08, as High Priest of Wichita Falls Chapter No. 203 in 1907-08 and Eminent Commander of Wichita Falls Commandery No. 55 in 1910.

He was a member of the original committee appointed to undertake the erection of a Masonic temple in Wichita Falls and served thereon throughout the entire time and until the completion and dedication of the temple. He was recently appointed a member of another committee to have charge of the erection of another and handsomer temple in Wichita Falls. For many years he has been a zealous member of the Ancient and Accepted Scottish Rite, being affiliated with the bodies at Dallas, where he has served faithfully and efficiently as a member of the committee having charge of candidates during semi-annual reunions of the bodies. He is always on hand whenever there is any service to be rendered and never fails to assume his full share of the burdens of carrying forward the work in all branches of masonry.

Notice. I take this means to inform those who are interested that I have resumed the practice of dentistry and have formed a partnership with Dr. R. E. Hoff, Jr. I will be glad to meet, my old friends and patrons and their friends. Office 410 First National Bank building. Phone 1707. Dr. H. A. Walker. 134-4tc

Louis Nehrl: piano tuner of 21 years' experience in Chicago, is ready to do your work. Recommendations, Ernest Katz, pianist and K. O. Williams of Wichita Music Co., Phone 1945. 132-7tp

"I Have Gained 15 Pounds," Says A Wichita Falls Plasterer

"It's the honest truth, before I had taken this Orgetone Treatment two weeks I was feeling well and strong and could go back to my work and put in a full day like I used to," said E. J. Bowers, a well known plasterer of Wichita Falls, Texas, while in Young's Drug Store, the other day. "I had a very bad case of stomach trouble and indigestion," he continued, "that knocked me out so I simply could hardly do a full day's work and do it right. My stomach was in such an awful fix everything I would eat disagreed with me and made me miserable all the time. I felt run-down, tired out and good for nothing most of the time and before taking Orgetone Treatment I wasn't able to put in a full day's work at all. "So many people were talking about the world of good Orgetone was doing for them, so I got me a bottle to try. Well, etc. I was sure surprised for, I began to feel better right from the very first bottle, and before the second week was out I was back on my job feeling like a new man and the best of it all is I have gained fifteen pounds in weight. I never saw anything in my life before to give such quick relief as this Orgetone, and I haven't had a single symptom of my trouble since I started on it." Orgetone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the T. F. Young Drug Company exclusively, under the personal direction of a special Orgetone representative.—Adv.

PLEA IS MADE FOR LIGHTER SENTENCE

J. A. Bowers pleaded for mitigation of his punishment as he stood before Judge William N. Bonner of the 30th district court, Friday afternoon, to receive sentence. When Judge Bonner asked the defendant if he had any excuse to offer whereby sentence should not be pronounced upon him, Bowers told the court that he felt that the punishment imposed upon him by the jury was extremely heavy and asked that it be mitigated. Judge Bonner informed the defendant that the jury knew the facts in the case when the verdict was returned and that the court had no authority to mitigate a penalty imposed by a jury. Bowers is under a five-year sentence on a charge of forgery. He was convicted during the recent session of the 30th district court which adjourned Thursday.

A similar plea of mitigation of sentence was asked by L. R. Drennan, under 10-year sentence on a charge of theft of \$100. Drennan told Judge Bonner that he felt that a "10 year term in the penitentiary was rather a heavy penalty for theft." Judge Bonner told the defendant that he was unable to mitigate his sentence. The court, however, advised both Drennan and Bowers, to so conduct themselves while in prison that they might ask for pardon.

Several other prisoners convicted on felony charges at the special session were also sentenced by Judge Bonner. Several were released under the provisions of the suspended sentence law.

PENITENTIARY AGENT EXPECTED THIS WEEK

Dud Russell, state penitentiary agent, is expected to reach Wichita Falls this week to take into custody several prisoners held in the Wichita county jail on felony charges. The prisoners have been convicted by juries in the district court and sentence has been passed by Judge William N. Bonner of the Thirtieth district court. At least six prisoners are held here awaiting transfer to the state penitentiary.

"SNAKE OIL" RELIEVES THOUSANDS

Stops Pain or Money Back. Surely when ten million people say Miller's Antiseptic Oil (known as Snake Oil), as a positive guarantee of satisfaction or money back, and only 12 bottles returned, you can believe that this is the "World's Greatest Balm for Aches and Pains." After once trying Miller's Antiseptic Oil (known as Snake Oil), you will never want to be without it because it penetrates so rapidly and brings such prompt relief for such ailments as rheumatism, neuritis, sprains, aching joints, the grippe, colds, influenza, etc. Mrs. Sarah Mitchell, Higgins, Mo., writes, "I sent \$2.50 for a bottle of Miller's Antiseptic Oil (known as Snake Oil), please send by return mail as soon as possible the oil." Mr. Henry Atwell, Center, Ky., writes, "I have just tried a one-bottle and got great relief." Thousands of letters such as these have been received. Get a 20c, 50c or \$1 bottle today from any drug store. "Money back if not satisfied," at the Miller Drug Store.

WHERE TRADING IS A PLEASURE
725 OHIO AVE.

CHOOSING THE GIFT

The *thought* is prized most of all, by the gracious recipient. And the giver's thought is identified by the appropriateness and suitability of the gift.

Last minute selections usually show late decisions to present them, because haste made thoughtful selection impossible, and this takes the edge off many a fine gift.

These early December days offer the time for that leisurely selection that enables the giver to fully visualize the tastes of the recipient and thus make your gift delightfully acceptable in itself, as well as obviously thoughtful of the desires of the person to whom it is sent.

Naturally our service to you in the selection will be much better now than it can possibly be a little later on.

Sweaters and Scarfs for Gift-Giving

Of dainty usefulness and smart style is the gift chosen from these attractive displays. The designs are many and distinctively original. Sports Sweaters, Angora Sweaters, Slip-ons, Ruffled styles and many others, are shown in popular weaves and cheery color combinations. Brushed Wool Scarfs are presented in clever new styles and out-door types.

Prices **\$8.00 to \$39.50**

Gift Suggestions from the Fabric Sections

Here are lovely Foulards, Satins and Taffetas, fittingly appropriate for the Gift of a Silk Frock for mother; Soft Georgettes, in pastel or brilliant colorings, to be welcomed by sister for a Party Frock or for a Novelty-Over-Blouse; Crepe de Chines and White Silks for Men's Shirts; Kimono Silks and Silks for Scarfs. And, equally suitable suggestions for apparel, are offered in the Wool Fabric Displays of Novelty Skirtings, Dress Fabrics and fashionable warm Coatings.

Gift Furs

These Holiday prices are giving added interest to the popularity of choosing Furs for Gifts. Both the wide selections in Furs of known quality and their wide price range permits advantageous choice. From the Fur Wrap, or Separate Piece, that will prove to be the wholly acceptable Gift for a wife or mother, to the fluffy Fur Sets for tiny girls here are Gift Furs well chosen.

PRICED
\$15.00 to \$850.00

Gift Suggestions from the Apparel Displays

It may have been considered fashionable in the past to present one's friends with gewgaws, but it isn't even good taste to do so now. That's why more women are turning each year to Apparel as the most practical and desirable solution of their gift problems. With the help of these delightful Ready-to-Wear offerings it is easy to choose a gift that will be joyfully received by any member of the family or your dearest friends.

Care-Free Negligees of Exquisite Charm

The soft silky fabrics and exquisite shadings in these lovely Negligees make them eminently desirable as the "luxurious Gift"—which has at least one place on every Christmas list. A very pleasing feature about these particular styles is that the appearance of a dress is cleverly combined with their graceful lines and novel uses of Crepe de Chines, Georgettes, Laces, Ribbons and Flowers.

Prices **\$18.50 to \$59.50**

Dainty Neckwear for Gifts

This smart Neckwear in oval, round and square shapes, fits gracefully about the fashionable necklines of Winter Frocks. Collars for the most part, whether of puffed Net, embroidered Organdie, Lace or Silk, are quite narrow. Very new and likewise very pretty are dainty sets of the same materials as these separate collars. From these attractive displays, women are choosing acceptable Gifts.

\$1.00 to \$5.00

Bathrobes—New and Pretty

The Indian patterns and pleasing novelty plaid grounds in these unusually attractive Bathrobes have given them first place on many a Gift list. While on many the collars and cuffs are edged with silk in harmonizing shades, on other robes the reversed side provides a trimming contrast. Loop fastenings and cord trimmings give these robes a desirable semi-fitted appearance.

PRICES **\$6.50 to \$39.50**—Childrens **\$3.75 to \$8.50**

Gift Petticoats

Brilliant colorings in Fashionable Frocks of this season have also found pleased acceptance in brilliantly colored Petticoats and the latter are favorite Gifts this season. The charm of Tricolette Dress Silks are enhanced by these Petticoats of changeable Silk, Satin or Jersey. Flowered ribbons are effectively used as insets of squares or stripes in flounces, while other flounces are of bright plaid Silks, accordion pleated or scalloped.

PRICES **\$8.00 to \$18.50**

Mid-Winter Dress Hats for Holiday Occasions

Squirrel and Mole Furs fashion soft, turban-like crowns on these wide-brimmed Hats of Silver Lace. The exquisitely embroidered scallops of wide Laces droop becomingly over the wired edge, while tiny metal flowers, leaves and ribbons nestle about the crown. Other Hats of Gold Lace have draped crowns of beautiful Brocades or of rich dark Furs.

PRICED **\$16.50 to \$32.50**

Other Gift Items in Millinery Department

Corsage Bouquets, 50c to **\$3.00**
Novelty Veils, 50c to **\$6.00**
Auto Scarfs, \$1.25 to **\$4.00**
Leather Sport Hats, \$9.00 to **\$18.50**

"The Courteous Service Store"

Silk Underwear and Camisoles for Yule-Tide Giving

Of gift-like daintiness, for all their practical service, are these Underwear Garments of Fine Silk, Crepe de Chine and Wash Satin. Bodice Veils, Envelope Chemise, Nightrobes, Pajamas, Bloomers and exquisite Camisoles are Gift Garments included in these displays.

Prices range **\$2.50 to \$35.00**

Gift Blouses

Every woman appreciates the thoughtfulness of the gift of a beautiful Blouse—the exquisite workmanship, style and design of our Blouses cannot be excelled—Batik, Hand Embroidery and Beads enhance the beauty of Georgette, Satins, Crepes, Chiffons. Developed in regulation, Balkan, Russian and Slip-Over style, Pastel, White and Suit shades.

Prices **\$5.00 to \$55.00**

Choosing the Appropriate Frock

The Holiday Season brings many occasions demanding a new Frock. Whether you choose a soft little Silk Frock, or a more practical one of Wool, there is pleasure and economy in choosing from these attractively priced groups. Each model was much higher-priced when size ranges were complete. Embroidered motifs, rows of smart braids and effective bead trimming appear on both Silk and Wool Frocks.

Prices range **\$20.00 to \$195.00**

Gifts for Christmas

This store gives a good deal of attention to its selection of "Gifts for Men" so that quality and style-authenticity may go without saying, and one has but to choose the most suitable article.

Present complete Holiday Displays of Men's and Boys' Ties, Shirts, Caps, Hose, Gloves, Handkerchiefs and Jewelry are holding the pleased attention of those who would give an acceptable gift.

Gifts for Men

MEMBER AMERICAN NEWSPAPER PUBLISHERS ASSOCIATION. MEMBER OF ASSOCIATED PRESS. MEMBER OF UNITED PRESS.

BIG BOOST FOR GEN. WOOD. South Dakota Republicans indicated that in their part of the North-west there are just two presidential possibilities—General Wood, whom they endorsed, and Governor Lowden of Illinois, who received about half as many convention votes as did General Wood.

Their endorsement of Coolidge for the presidency is believed in some well informed quarters to be more of an anti-Wood movement than a pro-Coolidge plan. Another significant fact in the South Dakota convention was the endorsement of the League of Nations, without amendments but with some "Americanizing" reservations. This, we believe, rather indicates that Wood partisans have shied away from the Lodge suggestion to make the treaty and the League of Nations one of the major issues in 1920, and it may indicate the position of General Wood himself, for the South Dakota Republican leaders seem to have been rather closely connected with the Wood boom and would not have taken a position to reach which he might have to stultify himself.

South Dakota's complete ignoring of Senator Poindester—it was done after his vehement protest, for he was on the ground and doing his own lobbying—rather disposes of the Washington senator's candidacy, we think. Really, because it cannot be expected to create such favorable attention further east. The chief fact, however, about South Dakota's action is: General Wood has received a big boost for the 1920 campaign.

Those Chicago hotels were, as we suspected, thoroughly vaccinated against infection by the big hotel which voluntarily reduced food and room rates from 10 to 30 per cent. The other hotels plan to go right ahead meeting the traveler—conscience, as it were, the "getting while the getting's good." Most hotels reason anyway that the average American traveler delights in being held up and robbed, and it must be confessed that they have some reason for that belief. But there is going to come a time when the "getting" won't be so good, and the robbed are going to look with contempt on those who robbed them. Then maybe the profiteer will get his deserts and the man who has tried to "take fair" will get his reward.

Now some newspapers delight in being hoaxed! "Bandit Bill" Carlisle, "melodrammer" hero, apparently as elusive as the famed wild-o-the-wisp reported in a hundred cities from Erie, Pa., to San Antonio, Texas, it now transpires, was never out of the Laramie Park country in Wyoming. It was a mighty unimportant newspaper, judging from the number, that did not get a postal card or a letter purporting to come from the bandit. It was so self-evidently a hoax that some newspapers didn't "fall for it," and some others published the purported communications with the statement that it was a hoax.

They are going to change the style of women's dresses monthly in order to provide steady employment for garment workers. And if they do there are some others, we can tell them, who are going to be provided with "steady" employment to provide the wherewithal to pay for a new style a month. The change is expected to put the garment industry on a 12-months basis; it is apt to put the "old man" on about an 18-months' basis in order to keep up with the procession.

Treasury receipts for the fiscal year gained nearly a half billion dollars. Treasury expenditures in the same time gained nearly six and a half billion. 'Twas ever thus.

REPLY EMBODIES SUGGESTION.

Republican Chairman Hays called on Matthew Wolf, vice president of the American Federation of Labor, to consider a questionnaire propounded by Hays, having to do particularly with the federation's labor ideas and its suggestions for curing the present industrial unrest. Here is one excerpt from Wolf's reply, that comes soon after the r. o. p. senators had defeated the proposition, must have struck home: "Congress would do well also to speedily approve the covenant of the League of Nations," the labor leader writes, "including the labor provisions contained in this remarkable document, which holds the hope for future peace of the world in its keeping. Instead of filibustering and fiddling away like Nero while Rome was aflame. No act at this particular time could do so much to allay the unrest which dominates the world and which would permit men's minds to be turned to industrial justice and tranquility instead of keeping them in a state of wonderment as to what the future political boundaries, authorities, obligations and responsibilities of the various nations of the world will be."

Mr. Hays and the party for which he assumes to speak would profit from the acceptance of this advice, which is rather non-partisan. There are increasing indications, for that matter, that the Republicans have decided to accept it if they are permitted to save their faces by the adoption of some reservations which the Democrats by now are in a mood to accept. There isn't a chance that the Republican party will accept Lodge's suggestion of making the treaty and league the major issues in the 1920 presidential campaign, because they know a majority of the people of all parties demand its ratification one way or another, and they have only to look at the Republican platform in Mr. Lodge's own state to show that he is a prophet without honor in his own country insofar as leading Massachusetts Republicans into the anti-ratification camp.

SOUTH DAKOTA IN LINE.

South Dakota is No. 21 to ratify the federal suffrage amendment, Colorado, which meets Dec. 8, will be No. 22. Thirty states will have ratified the outlook is now, before the middle of February. In both South Dakota and Colorado special sessions were called after the women had induced the members to serve without mileage or per diem, and in the ratification by South Dakota in two days after the session convened we see the results of the member's anxiety to get home as little as possible and to get home in the shortest possible time.

The remaining six states necessary to put the amendment into effect will be secured, it is now certain; what the suffragists are trying hard for, however, is to get the six in time to outpace all women in the November elections next year. At that, the 15,000,000 women who can vote hold the balance of power in 26 states with more than 300 electoral votes and their ballots will determine the result, just as they did when they returned Wilson for a second term, in 1916.

It is not even yet too late to plant those trees you planned to plant during this fall and winter. There never was a more auspicious condition for tree-planting seasonally than right now, and if every family in this city would put out from one to half a dozen trees, we would be reaping some of the benefits from them as early as next year, and the benefits would increase as time went on. An organized campaign seems impossible, but an individual campaign is the next best. Plant a few trees now.

We don't know how Babe Ruth is going to do in the squared circle. But we'll venture that if he were turned loose with that long club of his, he'd count home runs on both Dempsey and Willard. If Ruth can hit his opponent as hard as he can hit a baseball, he's a sure-certain heavy weight.

RIPLING RHYMES. By WALT MASON.

FUNDAMENTAL. I am not very wise or clever, but this seems patent to my eye, The good old virtues live forever; all other living issues die. We hear so much of what issues, which keeps us stirring for a day, and then, like other fragile tissues, they shrivel and are blown away. The transient things are oft alluring, gold bricks in every age have shone; but Thrift is evermore enduring, and industry still holds its own. Short cuts to wealth, short cuts to honor, short cuts to false content, all men; but he who takes them is a goner, in fourteen cases out of ten. That road is long the man much traveled who'd take with the noblest price, and often he will damp the gravel with tears from worn and weary eyes. Still perseverance is a treasure, as in the younger days of earth; and Honesty's the truest measure to gauge the moral pilgrim's work. And Loyalty and Truth are standing triumphant while the ages roll, the good old virtues, still commanding the homage of the healthy soul. He wastes his time who fools and bores with fads and fashions up to date; the good old virtues of our fathers are all he needs to make his great.

Just Folks by Edgar A. Guest

CONSCIENCE. There is no sorrow quite so keen As that which marks an action mean; No hurts so sharp, as those which fall From angry words we can't recall. However by foes we are assailed, There's no disgrace in having failed, So bitter, when the past we scan, As having failed to play the man.

Who once has done a cruel thing, Long afterwards shall feel its sting. Who once upon life's changing stage Has wounded in an hour of rage By blows unfair or deed unkind His fellow man, shall live to find That never more is he to claim His freedom from regret and shame.

Were we to live our lives anew, How many things we would not do, Could we this journey brief remake, How many gains we'd scorn to take, How many joys we'd sacrifice, Rather than pay their bitter price, Man's greatest shame in every test is having failed to be his best.

Man's conscience is a master stern, As each of us has come to learn, And he who by some thoughtless deed Has caused another's heart to bleed Shall suffer 'til life runs its course The keenest anguish of remorse. With him its memory long shall live; Self cannot sell its wrongs forgive.

Side Talks by Ruth Cameron

THE PICTURES WE MAKE FOR OURSELVES. In a story I was reading today the hero proposes to the heroine coming down in an elevator in an office building. Rather an unusual place to propose. Heroine, I have noticed lately, show a tendency to propose in new and unconventional places. The conclusion in front of the open fire is satisfactory, the moonlight, the deserted in favor of the business of life, the red cross hospital, the electric car. And in the last one I read before this, the hero proposed in a big, half-deserted railway station while waiting for the nine-o. Of course the activities of the modern heroine are considerably different from those of her predecessors, and the hero must go where he is likely to find her if he wants to propose. I must say that for myself I rather enjoy the change, though I might be ready for a return to the conservatory in the course of time.

The Elevator Always Sues. I started to dig too far. What I started to say was that as I read the description of the proposal in an elevator I suddenly became conscious that I was visualizing a very old-fashioned elevator in an old-fashioned office building on Tremont street in a city many miles from here. I further examined myself and found that whenever I read of an elevator in a story or news item, that is the elevator I always picture.

Then I asked myself why, and gradually it all came back to me: That was the elevator in which we used to go up to see an old aunt of mine who worked in a millinery shop and whom we always used to call on whenever we went to town on my childhood days.

Styles in Elevators and Proposals Have Changed. That was my first elevator. It had made the deepest impression on my mind, and hence it comes into my mind to visualize any reference to an elevator, though styles in elevators have changed as much as styles in gowns or proposals; and I don't imagine that it really fills the bill at all.

Don't you think the way we do get such pictures in our minds and unconsciously bring them to the surface to illustrate what we read, is interesting? For, I think everyone does it more or less.

Candles and Bushel Baskets. Another of my experiences along this line is the way I always think of a bushel basket that used to hang from the rafters in our old cellar when I read or hear the phrase: "Hide his light under a bushel." The basket had handle in the center and flap covers that opened from the middle so the process of putting a candle under it would be rather difficult, and I don't imagine it particularly resembled the Israelitish bushel, but I'm sure nothing could ever oust it from my mind.

What are the familiar objects which have woven themselves into the visualization of what you read? Watch yourself sometime and notice just for the interest of it.

INTRIGUING FAKS About Intriguing People. One day when Puds Simkins was a baby he swallowed a pin by mistake and now whenever he feels funny any place he feels to see if it's the pin, which it hasn't bit so far.

Sisley. Miss Mary Watkins put some of her big sisters red rage on her face last Wednesday afternoon and came to the parlor window and stared at do poses, and all of a sudden she disappeared on account of her mother having pulled her back and her voice was heard making cries of pain.

Pome by Skinny Martin. Nature is wonderful. Winter comes soon after fall. And leaves are lost by the trees. But cheer up and take the good with the bad. Don't the dogs also lose their flees?

The National Bank of Commerce is a bank for all the people and its officers and employees make a point to treat everyone with equal, careful courtesy. The bank invites both checking and savings accounts. 151-153 Picture frames at Decorators Co. 715 Ninth street. 172-17c

WHAT HAPPENED DECEMBER 7. (Clipp and paste this in your scrap book.)

1914 Russian relief army defeated at Loda. Allies make gains on western front; now hold the left bank of the Yser; take Vermelles. Austria puts army on Italian frontier to protect Trieste; apprehension caused by speech of Italian premier.

1918 Austrian destroyers attack Allies' munitions fleet off Albanian coast; Austrian submarines shells American tanker. Bulgars in force start drive on Agio-French forces along Vardar-Cerna front; situation of Allies complicated by position of the Greeks. Turks capture British vessel on Tigris and seize supply wagons; British entrenched in Kut-el-Arnara.

1918 Bulgarian front in full retreat with foe pursuing. Campaign now occupied by Germans and Turks; invaders took 9,000 more prisoners at fall of Bucharest. Entente ministers at Athens proclaim blockade of all Greece. British cabinet formed by Lloyd George; Lord Northcliffe lands him as the savior for England's crisis. Germans penetrate French trenches at Verdun and capture a hill top.

1917 President Wilson signs declaration of war on Austria-Hungary. Austrians make new gains on Asiago plateau; capture 4000 Italians and carry Monte Stenoi by storm. General Diaz, Italian commander asks American help.

1918 German soldiers demand that Ebert head new German republic. Charles K. Schwab retired as director general of the emergency fleet corporation. British troops enter Cologne; first Americans in Coblenz.

"1918—AMERICANS ARE BUYING RED CHRISTMAS SEALS"

Buying power until after the summer soldiers and sailors are now coming. Under this government the sense of limitation and discouragement may be strong, but it should be combated by the positive consciousness of strength. Saturn, which has been transiting Leo, the sign of royalty, now brings better things to rulers who survive the overturning of governments.

Spain and Portugal are now entering a period in which they will experience many of the troubled conditions that have affected other countries. Reactionary tendencies are likely to become strongly apparent early in the new year. Religion, politics and social customs will be strongly affected.

Persons whose birthdate it is may have a checkered year with alternate gains and losses. Children born on this day are likely to be proud and care free. These subjects of Sagittarius are usually generous and fond of pleasure. Girls will marry successfully.

Since its establishment in 1914, the National Bank of Commerce has contributed in no small way to the upbuilding of the business interests of Wichita Falls and its surrounding territory. Its officers welcome consultations from those interested in establishing new or additional banking attachments. 151-153 Picture frames at Decorators Co. 715 Ninth street. 172-17c

YOU KNOW HOW IT IS. - - - - - By J. Norman Lynd

WHEN THOSE PRIVATE BOTTLES APPEAR IN PUBLIC

Little Benny's Note Book. Lee Pape. THE PARK AVE NEWS. Weather. Assorted. Sports. Persey Weaver came around with a apple last Saturday afternoon, and a contest was started to see who could take the biggest bite out of it, which it properly would be a very intriguing contest if Persey had not of ran away while the fellows were still arguing who was going to go first.

HAMBONE'S MEDITATIONS. PARSON ALLUZ' SAY DO UNTO OTHER FOLKS LAK YOU WANTS DEM T' DO UNTO YOU--UH--AH WINT T' SEE 'M SUNDAY EN HE GIMME A BIG BUCKET O' BERRIES. EN DEN HE SAY HE 'COMIN' T' SEE ME 'FO LONG!

The crew had gone ahead on a hand car to obtain another. The villagers along their route could spare nothing for the starving people. The country through which they passed had been laid waste by war. Nothing remained but tangled barbed wire and caving trenches. People jumped from the train to search in vain for roots or grass to make soup. Men, women and children were huddled together in foul smelling freight cars. Some had little bundles of possessions, but the majority had nothing but the few rags they wore. Frequent stops were necessary to bury the dead.

STARVING REFUGEES REACH POLISH CAMP. Lwow, Poland.—(By Mail)—A "holocaust of starving and disease-stricken refugees has arrived here after forty days of traveling without food, medical treatment or sufficient clothing. The train left Odessa many days ago for the Polish frontier. Learning that it had been lost somewhere between Odessa and the frontier the Red Cross sent Dr. Jack Kendrick, of Fairfax, Virginia, out with a special engine and a car loaded with medicines and food to locate the train. He found it in Roumanian, four hundred miles from Poland. The refugees were in terrible condition. Their food supplies, issued by the Polish consul at Odessa had been exhausted. Dysentery and typhus had broken out and the water supply had been reduced to what could be found along the railway. Their train had been thirty days out from Odessa and had covered but 500 miles. Their locomotive, a patched wreck left behind by the Bolsheviks, had completely broken down.

A Christmas Suggestion. Make him happy on Christmas morning with one of our beautiful Shirts, several nifty Ties, a box of Handkerchiefs, and a pair of Stetson Gloves. Now is the time to do your Christmas shopping; shop early while you have a pleasing variety of choices. Be sure to give something of quality that has a practical value. Perhaps you prefer to give him a Velour Hat, an all-wool Sweater, a Tie and Hose Set, a pair of solid comfort Shoes, or a Fur Cap. In either case let us assist you in making a selection that will be a credit to both of us. THE PLEASE YOU SALMON AND NUTT. INDIANA AT TENTH. OPPOSITE WICHITA THEATRE.

ELKS MEMORIAL SERVICE AT THREE THIS AFTERNOON

JOE B. HINES of Fort Worth.

Tributes will be paid to two departed brothers by Wichita Falls Lodge No. 1168 B. P. O. E. this afternoon at 3:00 at the Wichita theater. The departed brothers are Frank McKee and Ed J. Gardner. A. E. Myles will deliver the tributes.

The memorial address will be delivered by Joe B. Hines of Fort Worth.

The program follows:
 Voluntary—Kats Orchestra.
 Opening exercises—Officers of the lodge.
 Invocation—Chaplain Brother A. L. Huey.
 Opening Ode, "And Lang Syne," audience joining.
 Vocal solo, "The Lord is My Light"—Miss Agnes.
 Eulogy, E. J. Gardner and Frank McKee—Brother A. E. Myles.
 Violin solo, Selected—Harry Salter.
 Memorial Day Address—Brother Joe B. Hines, Fort Worth.
 Vocal solo, "My Faith in Thee"—Ivan Murchison.
 Closing ceremonies—Officers of the lodge.
 Benediction—Kats Orchestra.
 Benediction—Rev. N. F. Grafton.

Experienced, conservative management, capital and surplus of half a million dollars, assets of the highest character—these are some of the features which assure absolute safety for every penny deposited with us. 191-11c

HOLD FUNERAL SERVICE TODAY FOR RABBI JAFFA WHO DIED ON THURSDAY

Today in Fort Worth, funeral services will be held for Rabbi I. Jaffe, leader of the Orthodox Jewish Congregation in Wichita Falls, who died in a Fort Worth hospital Thursday, following an illness from trouble incident to his advanced age. Harry Jaffe, proprietor of the Peoples' Store and Mrs. Becker, nephew and niece of Rabbi Jaffe, were in Fort Worth for the funeral, with Mrs. Jaffe, widow of the rabbi. Rabbi Jaffe has been in Fort Worth for treatment, leaving Wichita Falls only a short time before his death.

His congregation and his many friends in Wichita Falls are mourning his loss, with his widow and other relatives, and his loss as a leader, and a friend will be keenly felt. For four years he has been in charge of the Orthodox Jewish Congregation in Wichita Falls, and his home was the meeting place of the congregation, for the regular Sabbath Day services, as well as the special services.

PROPERTY OWNERS ARE PAYING TAXES MORE PROMPTLY THIS YEAR

Taxpayers of Wichita County are paying both property and poll taxes more promptly this year than in the past, according to reports given out both city and county tax collectors. City Tax Collector H. J. Anderson announced Saturday that total taxes paid up to date was \$35,000 while County Tax Collector M. L. Tuttle reported a total of \$73,328.90 paid at closing time Nov. 30. No figures have been compiled since that date.

Approximately 400 citizens of Wichita county have qualified to vote by paying their poll taxes, the tax collector stated. But few women have paid their poll taxes, however, according to Collector Tuttle.

Cards are being mailed out to various taxpayers notifying them of amount of taxes due and the new system is reported to be bringing very satisfactory results.

PETIT JURORS SUMMONED FOR WEEK OF DECEMBER 15

Twenty-four petit jurors have been summoned to serve in the 75th district court during the week beginning Monday, December 15. The panel is as follows: O. E. Brown, C. A. Overman, C. D. Shamburger, E. Stanley Field, C. M. Catts, Ray Black, P. J. Lee, Fred Keller, Gray Beard, J. F. Winsten, L. P. Webb, S. D. Jacks, S. W. Handy, C. C. Knight, T. J. Stansel, P. P. Langford, S. O. Ballenger, G. B. Garret, N. D. Coper, J. L. Bills, J. L. Harbour, J. H. Crogen, W. H. Byers and G. W. Hand.

A grand jury will be empaneled in the 50th district court Monday, Dec. 15, and investigations of alleged violation of various state laws will be made. No criminal cases, however, will be tried in Judge Bonner's court before the holidays, it is announced.

Since its establishment in 1914, the National Bank of Commerce has contributed in no small way to the upbuilding of the business interests of Wichita Falls and its surrounding territory. Its officers welcome consultations from those interested in establishing new or additional banking relationships. 151-11c

ORTHODOX JEWISH CONGREGATION HAS CALLED A RABBI

Rabbi I. Israel of Dallas, has been called to Wichita Falls to become leader of the Orthodox Jewish Congregation, and will be in Wichita Falls to conduct the usual Sabbath day services on Saturday, December 13. The congregation has purchased a home for the rabbi at Fourth and Burnett, and here services will be held until such time as a synagogue can be built.

Building of a place of worship will be the work undertaken by the orthodox congregation the coming year, members of the congregation state. It is estimated that there are at least one hundred Jewish people in Wichita Falls of the orthodox belief, and those who have taken the lead in the work are confident that the coming year will see the erection of a house of worship.

Monday: Florence Reed in "The Woman Under Oath."
 Wednesday: Mary McLaren in "Bonnie Bonnie Lassie," and Chaplin in "Shanghai."
 Thursday: J. Warren Kerrigan in "The Joyous Liar."
 Saturday: Viola Dana in "Please Get Married."

"WOMAN UNDER OATH" AT MAJESTIC MONDAY

Florence Reed, who plays the part of Grace Norton, a novelist, in the city of New York, at the Majestic Monday, seeks a piece on the jury at the trial of young Jim O'Neil, who is being tried for the murder of Edward Knox. As the trial progresses, the web of circumstantial evidence gathers about the lad. Finally the last day of the trial arrives and the jury sits in session. Grace is the only person in favor of the acquittal, and though the men argue with her she refuses to change her decision, and after a 48 hour session Grace receives a telegram, telling her of the death of her sister, who had been a sweetheart of Edward Knox. Then Grace explains to the jurors that she and not Jim had been responsible for the murder of Knox. She tells how Knox had betrayed her sister and had refused the girl honorable marriage, therefore she had killed him. As she and her sister passed out one door of Knox's apartment, she had come in another and found Knox dead.

The jurors are filled with awe when they realize how nearly they had been murderers, and therefore Jim is acquitted.

CLARA KIMBALL YOUNG IS ATTRACTION AT THE PLAZA

Clara Kimball Young and Her Own Company will present her Select Picture, "The Better Wife" at the Plaza theatre on Monday and Tuesday, as the top item of a bill which promises unusual attraction for the screen patrons of this city.

"The Better Wife" is taken from Lenore Coffee's recent novel, "The Love Quest." Miss Young has been in the role of Charmian Page, who is visiting with her friends, the Kingdons, at their English country estate. One afternoon Charmian sees two lovers in a distant field, and the next afternoon at a tea given in her honor, she learns that the woman was Lady Beverly, wife of Sir Richard and mother of Little Dick. Charmian is introduced to Lady Beverly. She also meets the Comte de Choveral and Little Dick, and she falls in love with Little Dick, and the Comte falls in love with Charmian, but she discourages his attentions. That same afternoon Lady Beverly is killed in a motor accident and Little Dick is seriously injured.

During the next few days, while Charmian is helping to nurse the little boy, she becomes friendly with Sir Richard, but at the end of a week she leaves England and goes to the Riviera to meet her father. While she is here she learns that an expensive surgical operation is necessary in order to restore Little Dick to health, and as Sir Richard is unable to bear the expense, Charmian urges

LIFT OFF CORNS WITH FINGERS

Few Drops of "Freesone," Then Corns Lift Off—No Pain!

A tiny bottle of "Freesone" costs so little at any drug store; apply a few drops upon any corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off with your fingers. Truly! No humbug!

MAJESTIC THEATRE
 MONDAY
FLORENCE REED
 —IN—
"The Woman Under Oath."

Intensely interesting drama, while of a heavy nature, has been combined with the lighter side of life it holds the attention at all times.

The experience of Grace Norton, a novelist on a New York Jury.

GIFTS AT A SAVING
 704 OHIO
RICHARDSON'S

A CLOSE PAL OF THE "GYM"

GEORGE WALSH
 DIRECTION WILLIAM FOX

George Walsh, athletic star of Fox entertainments, who recently saved the life of his leading woman by an extraordinary feat of strength was one of the most famous of college athletes before he became a star in the silent drama. He is constantly training, always in condition, and spends much of his spare time in his private gymnasium. "Shark Rawley" is the working title of the production on which he is now busy.

her father to finance her in "the interest of science."
 Sir Richard falls in love with Charmian, and she makes no secret of her love for him, but the memory of his former wife keeps the Baron from speaking. It is not until later that he learns the truth about the first Lady Beverly, and then he is confronted with the problem of deciding who would be the better wife. It is an interesting story and one of the best Miss Young has ever done.

FUN AND THRILLS ABOUND IN TOM MOORE PICTURE
 Unique and replete with touches of originality is the description given of "Man and His Money," the new Gokwyn Picture, in which Tom Moore will be seen at the Gem Theatre Monday. It is a comedy-drama of society life, with a background of polo matches, country clubs, fashionable drawing rooms and mountain lodges. By no means a light play in spite of its delicate character drawing and satire, "A Man and His Money" tells the story of a young man who is made aware of the futility of his life when his fiancée breaks their engagement.

Promptly he gives up his luxurious bachelor quarters, assigns his income to an attorney, and resolves to make his own living. Naturally his larger adventures begin at this point. Forced by the necessity, he becomes the taker of a wealthy woman's four dogs, thereby earning the added contempt of the girl he still loves when she sees him at his lowly tasks.

Unknown to both, the girl is on the brink of great danger through the attentions of another man. The plot involving her is unconsciously furthered by Harry Lathrop (Tom Moore), who, when he realizes what is about to befall her, makes a powerful effort to avert a catastrophe. How he succeeds—and at what cost—splendidly told in the succeeding scenes.

Talented Musician Attracts Attention Pantages Manager

Perhaps in passing the Nash Auto Company during the lunch hour, or the day's work was completed, you have been attracted by the melody coming from the building. If so, you have at least a passing knowledge of the unusual musical ability of some one connected with the firm. To those who have not heard this man play, his work will be a revelation. How he plays frequently when off duty because he likes to play and it is often that passers by are attracted and stop to listen. It was by thus being attracted that the attention of the manager of the Pantages company, playing in the city at the time, Mr. Donovan was so delighted with the impromptu program that he made a very attractive tentative offer, which may be accepted at an early date.

Mr. Dille, although playing for a number of years and frequently appearing on programs at the request of friends, has never attempted to commercialize his talent as musician, and has declined many offers from small organizations. He has been content to follow his trade, that of a mechanic, playing only for the entertainment of himself and friends. At one time, after playing before Eddie Ross, the noted banjoist with Neil & O'Brien, he consented to join that organization, but the death of his mother in the meantime prevented his carrying out the contract.

Mr. Dille possesses an instrument, said to be one of the finest in the country, the Orpheum No. 2 which he prizes very highly and which he says contributes much to the quality of the music produced. His repertoire includes classic numbers of different character and among his favorites are the Rosary in which he carries all four parts of a quartette, as well as the Sextet from Lucia, a beautiful and difficult number.

Those who have heard him play are confident that he would prove an attraction of unusual merit, if he did not command headline place, in any one of the very best organizations of the country.

Mrs. Fletcher Johnson, who recently arrived here from Los Angeles, California, will open a permanent wave shop at 1203 Taylor street within the next few days. This enterprise marks another step in the advancement of Wichita Falls as permanent waving has been confined entirely to the large cities, where it is very popular. One establishment alone in Los Angeles does an average of 5,000 curls a month. Mrs. Johnson is installing the very latest and most expensive equipment and the ladies of Wichita Falls are fortunate in having her locate here. She is an experienced operator, having studied the business in Los Angeles and comes here very highly recommended from one of the largest establishments on the Pacific coast. She can permanently curl the hair in a manner which is not affected by wind, rain or shampooing, and it is positively beneficial to the hair in every way. Children's hair a specialty. Watch for announcement of opening date.

ADDED ATTRACTION AT BLAIR'S TENT THEATER

MEETING OF COMMITTEE ON IRRIGATION PROJECT ON MONDAY MORNING

A meeting of the full committee on the irrigation project has been called for 11:00 o'clock Monday morning at the Elks Club for important action in connection with the election on the organization of the district. It is hoped to have every member of the committee in attendance.

The members of the committee include: J. A. Kemp, W. W. Silk, N. Henderson, C. E. Rodgers, Marvin Smith, N. H. Martin, C. H. Clark, W. R. Ferguson, J. L. Jackson, T. H. Noble, J. B. Marlow, C. W. Bean, Frank Boyd, R. E. Huff, M. J. H. Shara, C. W. Reid, J. S. Bridwell, W. S. Carter, G. C. Wood, Frank Kell, Roy B. Jones, R. O. Harvey, T. R. Boone, W. E. Norton, Orville Bullington, W. M. McGregor, B. D. Donahue, H. P. Weldon, John Gould, Myles Rialto, Otto Stehlik, W. P. West, A. H. Carrigan, Edgar Scurry, J. C. Ward.

EFFECT CONSOLIDATION OF WOODMEN CAMPS AT MEETING FRIDAY NIGHT

W. O. W. Camp 3001 met in regular session at their hall on Scott avenue on Friday night, and more members were present than has been seen in many a day. Some 29 or 30 members were present from the old camp, No. 456, and as that body had voted to consolidate with 3001, the entire membership of about 300 was added to those of 3001. This now gives the camp about 500 members.

SCHOOL NOTES

More Books Received.
 Another shipment of books has been received by the local schools from the Southern School Book Depository at Dallas. The shipment, which consists of 1100 Second Readers, has been expected for several weeks. The marking of the books, preparatory to issuing to the students, is being done by W. W. Brown, business manager of the schools, and his assistants.

Glee Clubs Organized.
 The Junior high school, according to Principal Glass, has organized both boys and girls glee clubs with a combined membership of nearly 50 students. These organizations are practicing regularly and will give a public concert some time soon.

Athletic Equipment Station.
 Athletic equipment, consisting of 14 brand new football sweaters, a large number of football pants, footballs and miscellaneous other personal articles of the players, which happened to be in the lockers, valued at over \$400, was stolen by thieves who broke into the high school last Wednesday night. The matter was reported to the authorities but so far

no clubs have been found of the culprits.
 The football team is "up in arms" so that the thieves as the sweaters that were stolen were to have been given to those who won football letters in the football season. The motive for a theft of this nature is hard to determine, the officers say, but they are working on the case.

Waiting for Instruments.
 The high school orchestra is still unable to start practice on account of inability to secure the Call Field instruments which they had been promised but which are now being used by a private orchestra in this city. As soon as the instruments are obtained the completion of the organization will be completed and real work will commence.

Prepare for Oratorio.
 Work is progressing nicely on the

preparation of the oratorio "Athalia," by Mendelssohn, to be given by the combined glee clubs of the high school under the direction of H. I. Hawkinson, the musical supervisor. It is planned to make this oratorio a yearly musical event to be given each Thanksgiving. The reason it was not presented this year at that time is due to the non-arrival of the music used in the play.

NO PROVISION FOR MILITARY TRAINING IN THE HOUSE BILL

WASHINGTON, Dec. 6.—No provision for compulsory military training will be taken in the army reorganization bill as it comes from the House military committee, it was announced today at the committee meeting.

INCOME TAX MEN SUMMON MANY DELINQUENTS

Delinquent income tax payers are being reminded of their tardiness, by A. F. Bowden, local income tax collector. For the past ten days Mr. Bowden and a force of six men have been conducting an income tax drive in Wichita Falls, owing to the number of citizens who have not registered their last year's income.

ANNOUNCE GRAND JURY FOR MONDAY, DEC. 15TH

Regular grand jurors summoned to report Monday, Dec. 15, were announced Saturday by District Clerk Kerr. The panel is as follows: H. A. Allen, Vic Stamfl, C. H. Clark, R. E. Shepherd, M. O. McDonnell and W. W. Anderson, of Wichita Falls; L. A. Lachridge, Iowa Park; A. C. Golden, Iowa Park; E. M. Friend, Electra; D. R. Cross, Electra; J. A. Will, Electra; J. W. Ross, Burk Burnett; C. A. Walling, Burk Burnett; C. C. Robinson, Burk Burnett; J. O. Overby, Iowa Park, and W. L. Hodges, Iowa Park.

MAYOR URGES ALL TO CONSERVE GAS SUPPLY

The following statement has been given out from the mayor's office: "I have received the following telegram from Mayor Frank Wozencraft, of Dallas, which is self explanatory: 'The gas situation in Dallas and Fort Worth is critical. Stop large consumers. We have been cut off and every citizen of Dallas will deeply appreciate any thing which you and the citizens of your city can do to conserve supply and help avoid a gas famine. I feel it is the duty of everyone to conserve gas as much as possible at this time and ask that every one do his part to this end. I have been assured by the gas company that the large consumers of gas will be cut off and this will help considerably but I want everybody who can to use wood or coal as much as possible during low pressure. There are a considerable number of people who are not in shape to install wood or coal stoves and by a little sacrifice on the part of those of us who are able to do so this class of people will be benefited considerably. I am sure that there are a great many homes in this city where too many stoves are kept going continually, but I believe that by drawing the attention of these people to the serious shortage of gas that this will be discontinued. (Signed) 'J. B. MARLOW, Mayor.'"

BUILDINGS ON LAMAR NEARING COMPLETION

The new one story brick building on the northwest corner of Fifteenth and Lamar streets, which will house the Barker Brothers Bakery and Galtiers Cash Grocery, is nearing completion, and will be ready for occupancy by the end of the week. The structure has a 50 foot front on Lamar and the part of the building that the bakery will occupy is being fitted with all of the modern equipment of an up to date bakery including enameled brick oven. The building is being built by the Needham Construction Company of this city and when finished will represent an expenditure of over \$20,000.

Another brick business house which further extends the building operations on Lamar is the garage building that is being built by T. B. Noble and C. W. Reid, between Four-

SWEATER WINS A BRIDE

All Pittsfield, Mass., is interested in the war romance of Mr. Don William Butler, son of Mr. James H. Butler, Assistant Postmaster, of No. 202 East street, in that city. He arrived recently with his bride, who was Miss Mary Elizabeth Butterfield, a senior at Randolph Macon Women's College, at Lynchburg, Va. She is a daughter of Mr. C. S. Butterfield, a banker of Brookhaven, Miss. She patriotically knitted her way through a war sweater and into the heart of Mr. Butler, a sergeant major in an American regiment in

teenth and Fifteenth streets north of the Martin Printing Co. building. So far only the foundation has been laid but as soon as brick and other material can be secured the work will rush to completion. A representative of the Needham Construction Co. which has the building contract for this structure also, stated the place would be finished by the 15th of January of next year.

WETS BEGIN A FINAL DESPERATE DRIVE TO KNOCK OUT DRY LAW

WASHINGTON, Dec. 6.—With just forty days remaining before constitutional prohibition becomes effective, the wets today appeared to be starting a final, desperate drive to knock out wartime prohibition. The law is being attacked from every angle by attorneys for the liquor interests. What they want is a few weeks' grace in which to dispose of enormous liquor stocks, the value of which is estimated at a billion dollars. Interest now centers on the decision of the supreme court which, because of Senate inactivity on the peace treaty, the liquor interests believe is their only hope.

No date is set for the decision. The court will have three decision days before the Christmas recess. Meanwhile, other efforts to dispose of the liquor stocks are being made. In nearly every section of the country the liquor interests are seeking injunctions restraining the federal government from prohibiting sales.

Depositors of the National Bank of Commerce are assured of the strictest privacy in connection with their accounts. No details connected with their affairs ever pass outside of the bank. Both small and large accounts are cordially welcomed by this institution. 191-11c

ROCKEFELLER RENDERS \$1200 BANK ACCOUNT

CLEVELAND, OHIO, Dec. 6.—John D. Rockefeller's personal property tax return on file here today showed the following: He had \$1,200 in the bank; owns three motor cars valued at \$850; has one row boat valued at \$10.00, and 14 lawn mowers valued at \$1,200.

BLAYLOCK PRESIDENT OF EDITORIAL ASSOCIATION

GALVESTON, TEXAS, Dec. 6.—The annual convention of the Texas Editorial Association closed here today, after having been in session for three days. Louis Blaylock of Dallas was elected president of the association for the ensuing year. Other officers chosen are: Eli T. Merriman, Corpus Christi, and Sam H. Dixon, Houston, vice presidents; Hamp Cook, Houston, secretary.

SUPREME COURT ORDERS NEW TRIAL HENSON CASE

TOPEKA, KAN., Dec. 6.—On the grounds that inadmissible evidence was admitted in the trial of B. W. A. Henson of Wichita, sentenced to serve a term of twenty years at hard labor in the penitentiary for the murder of his wife, the supreme court today handed down a decision reversing the decision of the lower court and ordering the case remanded for a new trial.

ACCIDENTAL DEATH FROM POISONING IS VERDICT IN CASE OF MRS. C. A. HAILE

DALLAS, TEXAS, Dec. 6.—Accidental death from morphine poisoning was the verdict of the coroner's jury investigating the death of Mrs. C. A. Haile, Wichita Falls, who was found dead in a hotel room here Thursday. The body was to be taken to Denton, Texas, today for burial.

GEORGIA PROMINENT IN THE CRAZY QUILT OF NEW BOUNDARIES

WASHINGTON, D. C. Dec. 6.—In the crazy quilt of newly-made boundaries and would-be nations in the Caucasus, Georgia now looms as one of the most important because of its control of important railway lines, which connect Armenia with the world, according to new dispatches.

The National Geographic Society has issued a bulletin on this quaint people, based on a communication to the Society by Fitzhugh Owen Williams, follows:

"Of all the varied peoples who inhabit that rabbit warren of humanity, the Caucasians are the most interesting. With the Armenians, they form an important outpost against Turanian dangers. The great mountains that sheltered them have shut off the various tribes and races in secluded valleys, where they have retained their peculiar customs.

"But Georgia has been more or less fortunate in the same past that is now used by the wonderful Georgian Military Road, with its matchless views, has been the pathway for the Trans-Caucasian movements, and the valley which is now followed by the railway from Batum to Baku has been the caravan route of countless traders.

"A few miles south of the snow ridge of the Caucasus, there is a wretched little village, Mitzkhet, which should be warded off from the English towns appear as embryos, for its citizens assert that it was founded by one Noah's sons, who strode over from Mount Ararat one day after the waters had subsided and chose this site because of its excellent drainage.

"Beside its terraced home two rivers unite—the clear, cold Aragva, hastening from its birthplace in the eternal snows of the Caucasus, and the Kura, silted and dirty, swinging in from the west to make his way down the Tiflis depression and across the barren Trans-Caucasian steppes, between the mountains of Daghestan and the highlands of Armenia.

"Damascus has a more freshness about it than is as deceptive as grass paint, but Mitzkhet stands out from green fields and pastures new like a weathered, sharp-bowed fishing smack in an emerald sea.

"On a rock cliff opposite this quiet city with the cat-fight name the kings of Georgia erected their first and last before his desert tent. Part of them are mountaineers—the most picturesque at their best, and in Georgia the mountains are the most picturesque of all.

"The Georgian women conquered the Turkish rulers by the palace route, but the Georgian men are handsome or then their wives, and Georgia the male wears the fine plumage. But he treats his wife and daughters well and never allows them to act as servants."

Louis Nehrnie, piano tuner of 31 years' experience in Chicago, is ready to do your work. Recommendation Ernest Katz, pianist and K. O. Williams of Wichita Music Co. Phone 158-719 1546.

CONTEST IS EVIDENT OVER REVENUE LAWS

WASHINGTON, Dec. 6.—A new contest between the Democratic administration and the Republican congress over revision of revenue laws, is apparently approaching.

Both administration and congressional leaders agree there must be revision to meet record peace time expenditures, but agreement ends there, secretary of the Treasury Glass, backed by President Wilson, wants a revision started at once.

Republican leaders say it will not be done at this session of congress. Glass wants excess profits tax abolished and an increase in the normal income tax rate and the surtax rate on intermediate incomes. Republican leaders say they are doubtful about raising sufficient revenue if this is done.

The revenue bill for 1920 was enacted at the last session of the Sixty-fifth congress. Glass contends that the present session should frame a bill for 1921 so that business will know in advance what taxes it will have to pay.

There is a tradition that the party which frames a revenue measure just before election fares badly at the hands of the voters but congressional leaders deny they have this possibility in mind in delaying.

Excess Profits Tax. Glass in his annual report to congress declared the excess profits tax encourages wasteful expenditure, puts a premium on over capitalization and penalizes on brains. He discloses new adventures and confirms old ventures in their monopolies. He also put upon it, part of the blame for high prices.

"I do not think the ways and means committee is likely to follow this suggestion," was Representative Green's answer to Glass. Green, next to Chairman Fordney, is ranking member of the committee.

"There are many objectionable features connected with the excess profits tax but the reduction in rates will mitigate its application," Green continued. "It has one merit that is

often overlooked, namely that only those who are making a high profit pay it." To make up for loss through abolition of the profits tax Glass suggested a raise in the normal income tax and a raise in the surtax rate on medium sized incomes.

To this Green said: "It would be extremely difficult to obtain the amount produced by the excess profit tax from incomes. It is well known that the multimillionaires are already transferring their holdings to tax exempt securities. I think the same result would follow if we undertook to raise intermediate rates, as suggested by the secretary's report."

RARE CONTRADICTION IN CHARACTER IS BETRAYED BY THE BANDIT CARLISLE

RAWLINS, WYO., Dec. 6.—The Union Pacific train robber, William L. Carlisle, who held up the passengers of the Los Angeles Limited on its way through Wyoming on Tuesday, November 18, betrays a rare contradiction in character.

Armed with a revolver and facing a car full of passengers or twisting and turning to elude the sheriff's posse, he became a daring criminal. In prison, he knitted sweaters for soldiers and bought Liberty Bonds with the money he earned from manufacturing small articles for sale.

His boldness has started and alarmed not only the passengers he robbed but the authorities who have endeavored to apprehend him.

One of his peculiarities is to announce when engaged in a holdup that "I am not robbing women, children, old men, soldiers or sailors," but he went through the pockets of all other passengers without compunction.

Carlisle was sentenced to prison here on May 11, 1916, after a spectacular career the previous winter in which he robbed several Union Pacific trains.

He was taken prisoner in April, 1916, the day after he had held up a Union Pacific train near Hanna. Two days later he was convicted.

He told his captors, "I am not a killer." It is said that from his hiding place in the brush he might have slain many of the posse to which he surrendered.

So modest was his conduct in prison that his sentence was commuted from life imprisonment to 25 or 30 years. He is less than 30 years old and his happy, smiling, boyish face, is in sharp contradiction with his record as a bandit.

He worked in prison as a bookkeeper and often boasted that he could escape wherever he wished. He disappeared from that institution in a box of shirts which was being shipped by train from a railroad station nearby.

While posse were searching for him, he apparently boarded a Los Angeles Limited at Rock River and when the train had again moved on entered the tourist sleeper through a window and robbed the passengers in his usual spectacular fashion.

This completed, he pulled the cord and as the train slowed down, leaped from the platform, rolled down an embankment and escaped although the train guard and passengers shot at him several times.

AIRSHIP PURCHASED HAS A REMARKABLE CAPACITY

LONDON.—The R-38, Great British largest airship, recently sold to the United States, is capable of traveling thirty-four hours longer without refueling than the largest German airship constructed before the armistice.

She also embodies another achievement in the aerial constructor's art. With her enormous gas capacity of 2,720,000 cubic feet, a third larger than that of the R-34 of trans-Atlantic fame, the R-38 has a "lifting" power of fifty tons of cargo. This is sixty

per cent of her total "lifting" power, 82 tons. The airship's weight, thirty-two tons, is reckoned as "dead lift."

The sale is attributed to demands for economy that have been made on the British air ministry. Construction of the R-38 was begun last year at Inchnacra, on the Clyde, where the R-34 was built. Her cruising endurance will be forty-five miles per hour for nearly nine days. In length she is 695 feet, twenty-five feet longer than the R-34, and her girth is eighty-seven feet six inches. The hull is equipped with four 350-horsepower Sunbeam Cosack engines and two 275-horsepower Sunbeam Marl engines. Altogether she will develop a horsepower of nearly 2,000. Her speed will be seventy miles per hour.

It is rumored in English aeronautical circles that she will be commanded upon her flight to the United States, after being completed in a few months, by Major Scott, who flew the R-34 to America and back.

FULLER UTILIZATION OF RESOURCES IN COAL, OIL, WATER POWER, LANDS AND IN HUMAN BEINGS IS URGED

WASHINGTON, Dec. 6.—Fuller utilization of national resources in coal, oil, water power, land, and in human beings, is urged by Secretary Franklin K. Lane, of the Interior Department in his annual report issued today. From the observation post that his office affords over varied governmental activities, he draws the conclusion that "far beyond all our possessions . . . is the American man," in a strong appeal for Americanization and education.

"To him, to his spirit and character, to his skill and intelligence is due all the credit for the land in which we live," Mr. Lane said. "That resource we are neglecting. Twenty-five per cent of the 1,600,000 men between 21 and 31 years of age who were first drafted into our army could neither read nor write our language and tens of thousands could not speak it or understand it."

Turning to the motive power facilities of the nation the report says: "The measure of a people's industrial capacities seems to be surely fixed by its motive power possibility, and the coal strike has brought concretely before us the disturbing fact that we live virtually by unanimous consent. Let less than one half of one per cent of our population quit their work of digging coal and we are threatened with the combined horrors of pestilence and famine."

Mr. Lane asks adequate provision to collect statistical information about the industry, paving the way to better utilization of fuel in future.

Consideration of water power and petroleum deposits takes Mr. Lane to the wider spaces of the West. He states that 70 per cent of the available horsepower in the nation lies west of the Mississippi, and places the total oil production in 1913 at 356,800,000 barrels. Passage of public land leasing legislation will make available further rich supplies, he says, and eventually the deposits of oil shale "can be made to yield vastly more oil than has been found in pools or sands."

"Yet with all the optimism that can be justified," the report says, "I would urge a policy of saving as to petroleum that should be rigid in the extreme. If we are long to enjoy the benefits of a petroleum age, we must save this oil."

Shiping using fuel oil should be equipped with internal combustion motors, Mr. Lane believes, and not be allowed to burn oil to make steam. A foreign oil supply should also be sought and diplomatic and industrial means used to develop it.

A new basis for the operation of the Reclamation Service, which has chiefly been occupied in Western states with a total of 1,502,000 acres made irrigable, is suggested.

"The day has come when it (reclamation) must be nationalized and extended to all parts of the republic," Mr. Lane says. "To the deserts of the West we have brought the creative touch of water, and we must find a way to go on with this work. But it is of equal importance that we should liberate rich areas now held in bondage by the swamps, convert millions of acres of idle cut-over lands to profitable use, and raise from the dead the once vigorous agricultural life of our abandoned farms."

This does not mean more federal appropriations, the report explains, but assistance to local districts which will provide funds by pledging the value of lands within them.

Mr. Lane says that 150,000 demobil-

ized soldiers have applied for public lands. He re-asserts his belief that the government is justified in doing for soldiers what it would do for no other class, as he has proposed in pending measures.

The Alaska Railroad, Secretary Lane says, has been well and solidly built, for "as little money as private parties could build it." Though total costs have been rising, due to general price situation, the report places expenditures at \$70,000 and \$30,000 per main line mile so far as compared to \$151,500 per mile reached recently by some private roads in the United States.

In a summary of the Department's work the report shows that the Osage tribe of Indians collected last year \$17,000,000 in returns from oil and gas land leases. Up in Alaska, the department mined 55,300 tons of coal. In Washington, the patent office issued 31,299 grants to inventors, while the pension office paid out \$22,159,292 to veterans of the Civil and Spanish wars.

At the national parks 755,527 visitors were recorded during the year, and questions as diverse as the feeding of vitriolic gased around Hawaiian volcanoes came up for settlement.

On irrigated lands last year, 606,000,000 in agricultural products were grown, and Mr. Lane remarks that a federal expenditure of \$100,000,000 has added close to \$500,000,000 to the valuation of western states. The Salt river projects of Arizona, where crop values totalled \$18,188,000, was

the banner producer of the Reclamation Service.

CITY OF PARA ENJOYS A PERENNIAL CLIMATE LIKE A MILD SUMMER

PARA, Brazil.—Although only 80 miles from the equator, the city of Para enjoys a perennial climate of what might be called mild summer. There is a shower of rain nearly every afternoon throughout the year, which together with the welcome trade winds blowing in from the Atlantic temper the intense heat of the sun and give Para a climate that for evenness and equability cannot probably be surpassed.

The mornings and evenings are always cool, and the mid-day heat never approaches that of a regular August day in New York or Chicago. Sunstroke is entirely unknown. There is no record of a case in the entire Amazon valley. School boys play football in the open city squares during the hottest hours of early afternoon and laborers, naked to the waist, toil sweating on the docks in the blazing sunshine without any apparent ill-effects.

Straw hats are worn the year round in Para, and a sun helmet would be regarded with almost as much curiosity on the Avenida da Republica here as it would on Fifth Avenue.

The clothes worn by men are also a matter of surprise to the foreigners visiting this equatorial city. Brazilian professional men, doctors, lawyers and engineers, invariably wear clothes such as are worn in New York in the spring or fall. Government officials, senators and deputies favor the conventional "cut-away," and in official calls on the state governor, for instance, this very antitropical garb is the rule.

Business men, and especially foreign ones, however, adhere to the cool-

looking white cotton, linen or duck. In the matter of evening clothes the citizens of Para are very formal. In the days of the rubber boom when public entertainments were the "rule"—and note, as now, the exception—the conventional full evening dress was always worn by men.

More Than Time Flew. DETROIT.—Time was not all that flew during the 21 days of

marital "bliss" of Ward and Miss Han Harris. Ward said a crock and water pitcher came his way. Divorce granted.

CHARACTER OF WOMEN OF FRANCE IS SHAMEFULLY EXAGGERATED IN SUBSTANCE OF BULLETIN ISSUED

WASHINGTON, D. C. Dec. 2.—France no doubt has its weaknesses. The immorality of women, however, in that great country has been shamefully exaggerated.

Such is the preface to a bulletin of the National Geographic Society dealing with the home life of France, a subject of particular interest because of the varying impressions of that land brought back by returning soldiers.

"Because, before the war, the foreigners seeking all found it on certain Paris boulevards they concluded that this frank sexual advertising was characteristic of France, whereas the average French girl is as zealously shielded from temptations as ever the daughter of the Pilgrim father. But to love intensely and passionately is the French girl's hope and desire; and why should it not be?" says the bulletin, which is based on a communication from Carl Hollida.

"The French have long been a proud, calculating people who have wedded wisely every man. They may seem romantic to foreigners; their passionate professions of love may seem too frank to us of Puritan descent; but not only in financial affairs, but even in their pleasures, they minutely calculate all items.

"Probably there is not in the world the equal of the French housewife in economy and efficiency. Before the war wages were astonishingly low in France, and there must have been continual squeezing of each franc; but, thanks to the ability of the French wife, who could tell from outside evidence that there was unusual stinting in the average home?

"To see a French woman bargain at the market, to lead a much in economics, mathematics—and oratory. She simply refuses to pay the first price quoted; her genius for 'getting what you can' is admirable.

"With such women, is it any marvel that the French home is so admirably united? The family is the primal social fact in France, and the parents are the fundamental fact without which the organism (the family) could never have come into being. Hence there is a reverence for parents equaled probably only by the ancestral worship of China. Indeed, it is very doubtful whether the love between husband and wife equals that existing between parent and child.

"There is constant consultation with parents by relatives by women and daughters of advanced years—a form of consultation scarcely ever heard of in an American family.

"If a Frenchman of thirty or thirty-five proposes changing his profession, he may consult not only his father and his mother, but the entire family group; the proposed marriage of a daughter or a son is often an occasion for a council of the entire clan, including distant relatives that in America would hardly be included in our family tree.

"The world has been fond of pointing out that the French language has no word for 'home.' It has a word possibly even more tender. What a meaning is in the sound of 'foyer.' It includes the concept of hearthstone and much more. It brings to the French mind and heart all the ideals, activities, and dreams of a close, intimate circle where obedience is a joy, respect a willing observance, and love an ever-present radiance.

"The foyer is not for the outside world; only behind the locked doors does it really live and flourish. The father may deal with the outside world of business, but here in the foyer the mother generally rules supreme, and her influence is everywhere seen in it.

"It is no wonder that when one parent dies the other is immediately taken into the home of the married son or daughter, there to rule as a despot of benevolent, enlightened despot.

"Perhaps some youthful American reader of these pages has already asked, can there be any courtship in so private a home, where everybody within the charmed circle is consulted about all the affairs connected with that circle?

"As a preparatory step toward such a beautiful home life one would think that there should first be a most romantic love affair, with moonlight walks and whispered words of adoration and all the other pretty things found in the sentimental novel.

"Unfortunately or fortunately—as you may view it—these accompaniments of American match-making are frequently totally absent from French courtship. Indeed, in the middle and higher classes of French society there is often very little possibility of love-making before marriage.

"Owing to the family regulations and the fact that there are few co-educational schools in the country, the French girl seldom makes with boys those confident, personal friendships so common in America.

"In the main, the French mother prefers not to trust her daughter alone with a man; if there is to be any courtship, it is better that it be where she can keep observant eyes on them. In spite of such manifest

difficulties in the preliminaries, the French girl probably desires marriage more ardently than the American girl confessedly desires it. There is so much supervision of the French lass in her home that her only release seems to lie in marriage.

"Hence a remarkable docility in the matter of the choice of a husband. Some one has said that the French woman marries, not because of love, but with the hope of love afterwards.

"In the better-class families a dowry accompanying the wife will practically be demanded. What does she bring with her? Is the not uncommon question of the young man's parents.

"Extremely prudent it all may seem; but one should remember that this dowry is not to be employed by the husband for his personal use, but as a trust fund for the maintenance of the expected children. If the wife dies childless the dowry, in all probability, reverts to her family; the theory of the affair is that such property belongs not to the individual—either husband or wife—but to the family as an institution."

LONDONERS TAKE LITTLE INTEREST IN THE SHAH

LONDON.—The Shah of Persia, who is visiting England, bears little resemblance, physically or otherwise, to that other Shah, Nasr-ud-din who came here in 1872 and again in 1879, and on both occasions left behind him some not particularly savory memories. There was little of the saint about him, but he was picturesque and could not be restricted to the bounds of English conventional respectability. Therefore the public of a generation ago took a much keener interest in him than Londoners are doing in the reigning Shah.

The latter is fat and placid, does everything that he is told to do, never upsets the programs that are prepared for him and shocks no one.

In making a comparison between the two the Star recalls some of the escapades of Nasr-ud-din when he visited these shores.

During his '73 visit, it says, he demanded to see a prize fight. So, after a consultation with Lord Queensberry a glove fight was arranged for his delectation in Buckingham Palace stables. As usual the Shah was late, so the venue was changed to a quiet spot in the corner of the palace garden.

On his way, the Shah dashed through a room where a deputation of bishops was waiting to see him to beseech his august protection for the

Christians in Persia. They followed him into the gardens and presently found themselves in a ring around two prize fighters. The fight was stopped; the Shah waxed angry and the good Lord Shaftesbury of pious memory, who led the deputation, denounced the holding of a prize fight in the Queen's Palace.

But things were ultimately smoothed over, though what the Shah said about the Christians in Persia required a strong glass in the interpretation.

TWO CENTS REQUIRED ON LETTERS TO MEXICO

JUAREZ, Mex.—While Americans writing to European countries frequently need to be cautioned against using insufficient postage, when they send letters to Mexico the opposite advice must be given, according to Edward A. Dow, American consul here.

Mr. Dow has issued a circular letter for distribution among Americans who make the mistake of placing a 2-cent stamp instead of a cent stamp on their letters to Mexico. While no material harm is done to any one by this mistake, it tends to create an impression among Mexican business men that Americans are not in touch with the Mexican-American postal understanding, Mr. Dow points out.

JAPS ANXIOUS FOR FRIENDLY RELATIONS

DALLAS, TEX., Dec. 6.—The Japanese people are anxious that friendly relations shall exist between the United States and Japan, according to Major Shosuke Takagi of the Japanese army, who is touring the United States studying aeronautics in behalf of his government. He spent a day at Love field and the Aviation Repair depot here then proceeded to inspect aviation fields near San Antonio.

Scouting the idea that there is a possibility of war between the two countries Major Takagi declared Japan's factories must be fed with raw materials from the United States. This was particularly true of cotton, he said.

Aviation, the Japanese officer believes, is certain to become a more important adjunct to armies of the future. The Liberty motor he characterized as the most efficient airplane engine in the world.

"Living costs are very high in Japan," Major Takagi said, "although not felt so much by the people there as in this country."

MONTHLY REPORT RESERVE BANK SHOWS ENCOURAGING SITUATION OVER THE ELEVENTH DISTRICT

DALLAS, TEX., Dec. 6.—Improved weather conditions, an increasing volume of business, a satisfactory financial situation and encouraging reports from the livestock industry were the outstanding features of the monthly report of the Dallas Federal Reserve Bank, covering the Eleventh District. Agricultural conditions were somewhat uncertain, however, and building operations slightly retarded.

"Improved weather conditions throughout the district have had a very healthy effect on general business in the past month and the volume now being transacted greatly exceeds that of thirty days ago," says the report. "For some sixty days every section of the district has suffered from excessive rains and while the effects were more seriously felt in the rural communities, the larger cities have likewise felt the inactivity, especially in building operations. Cold weather has been later than usual and the movement of winter stocks of merchandise has not greatly fluctuated during the month. There is evidence of advanced holiday trade. Heavy liquidations are noticeable from the marketing of cotton, collections in all lines are late to good except in South-west Texas, where the September floods demoralized business and, as a result, the outlook is quite satisfactory.

"Agricultural conditions are in a somewhat uncertain state. An unusually large crop of wheat was grown. Due to unprecedented and continued rainfall, a large amount of this wheat has not yet been threshed and some of it never will be. Much of the wheat has been damaged by rain and exposure and its movement to market greatly delayed. The same conditions have to an unusual extent prevented the planting of winter wheat.

"The same conditions have injured and adversely affected corn, hay and all forage crops and have destroyed considerable cotton and lowered the grade and diminished the value of much of the staple. However, making due allowance for all such damage, both the volume and value of wheat, oats, corn and forage crops greatly exceeds that of any year in the history of this district.

"The peanut and potato crops have suffered very greatly and the damage in the aggregate will run to very heavy figures.

"The yield of cotton in the district cannot be very safely or closely estimated, but based on the condition of September 25, is estimated at 2,500,000 bales. A singular development is the raising of a fairly large and very profitable cotton crop in the neighborhood of Roswell and Carlsbad, New Mexico, at an elevation of over 3,000 feet above sea level. The crop in Western Texas is very fine, while in Southern Texas, it is very poor.

"The financial situation continues on a very satisfactory basis. Outstanding changes during the past month have been the heavy liquidation from the marketing of cotton and other crops and the general retirement of obligations and the very substantial growth in deposits. Many member banks which a year ago were greatly extended and had large amounts of bills payable, have reduced their loans and are now enjoying deposits of unprecedented totals. The abnormal credit situation naturally makes a heavy demand with banks but they have been quite able to meet the situation naturally makes a heavy demand with banks but they have been quite able to meet the situation, and, in fact, have surplus funds, seeking investment.

"Building operations which have for many weeks continued in unprecedented volume, were somewhat retarded during the month by the protracted wet weather, but latterly the situation is improving and there is renewed activity. There are many complaints

of inadequate and inefficient labor. Indications are that building during the winter will be as active as weather conditions, the labor situation, and supply of materials will permit. Disagreements over the employment of union and non-union laborers also have seriously affected consummation of building projects.

"The number of commercial failures in the district shows a slight decline compared with October, 1918.

"Without exception reports as to the livestock industry are very encouraging. The range country is in fine shape, feed is plentiful with some evidence of declining prices; there is an ample supply of water and stockmen are finding it much easier to secure needed financial assistance. Herds will go into the cold weather in excellent condition and more stock will be carried over to another season than anticipated.

"Buyers report a scarcity of hogs. Prices on the Fort Worth market have shown no material declines in the month above the usual daily fluctuations.

"The lumber mills advise that owing to continued rains it has been impossible to get production back to normal and at present the output is only 75 per cent capacity. The demand, while not as strong as in the late summer, is nevertheless sufficiently heavy to more than absorb present production. This situation is expected to continue for the remainder of the year.

"The increase in volume of retail trade is conservatively estimated at from 25 to 75 per cent over November last year. This volume is attributed to high prices. Specific reports on dry goods, men's and women's apparel, drugs, furniture, groceries and hardware of the same character, and in localities where a great handicap in wholesale demand for better grades of merchandise and no evidence that high prices are causing any hesitancy in buying, are proving a great handicap in wholesale and jobbing trade. It is impossible to fill the orders received and many firms have reduced their traveling forces on account of inability to supply various numbers and lines."

BEGIN SETTING CASING IN FRED-TILL THURSDAY

Special to The Times. FREDERICK, OKLA., Dec. 6.—Work began Thursday placing the casing in the Fred-Till test hole. The site is northwest of Frederick, and with present favorable weather conditions this should be finished in short order. However, it was stated Thursday that so sure are the owners that a producer will develop, that they intend cementing the casing in. As the cement work, when this is done, must be given several days in which to become firmly set, it is likely that some fourteen days will elapse before the public will learn whether the Fred-Till is a producer or a failure.

"Should the idea of cementing be abandoned, definite information as to the well's possibilities should be obtainable by Sunday next.

"That cementing is to be done, if such be the case, is just another evidence that the Fred-Till crowd are cocksure that they have production and in big quantity. However, there are a few doubting Thomases in the local oil field. They learned how men, however, appear to be convinced that oil will be developed at the Fred-Till, but they are agnostic as to the probable quantity.

WORKING IN RIGHT SPOT IS NOW SUCCESSFUL

KELWOOD, MAN., Dec. 6.—The rise from a hard working dry goods clerk to one of the most successful farmers in the northwest is the story of John Hamilton.

For 25 years Hamilton clerked in a store in Ontario. He has a wife and a large family, and little to show for his hard labor.

"Hard work," he used to say in those days, "means success only when you do it in the right spot."

As he wasn't successful, he concluded he wasn't working in the right spot, so he moved to western Manitoba and took up a farm in the raw bush near Kelwood. That was 13 years ago.

With the aid of his sons he cleared his land and started farming. He knew nothing about agriculture. He could hardly hook up a team or hold a plow in a furrow. But he had made up his mind to be a farmer and he knew there was a way to learn. He took up the study of scientific farming. He worked hard all day and poured over his books and journals half the night. He learned how to find the science of anything to grow where one grew before and improving grains and garden truck was, after

all, a fascinating study. He began to select his seeds carefully and to breed his growing things from the best stock he was able to gather from his fields.

At the recent International Soil Products Exposition, John Hamilton won 12 prizes on wheat, blue stem and western rye grass, flax, potatoes, field peas, corn and squash. His hard red spring wheat was beaten only by that exhibited by Seaguy Wheeler, the famous wheat wizard of Canada. John Hamilton today is one of the wealthiest farmers in the district.

ADVISES UNIFICATION OF VARIOUS KINDS OF RUSSIAN MONEY

OMSK, Dec. 6.—Unification of the various kinds of paper money which have been issued by the several governments opposed to the Bolsheviks is advised by Finance Minister De Hoyer, of the All-Russian government.

The All-Russian government, he continued, has issued up to September 1, 1919. These are not credit notes but treasury obligations and therefore M. De Hoyer considered them to be of secondary value. They are poorly printed and have been so cleverly counterfeited that even the State Bank itself cannot distinguish the real from the false.

The Finance Minister said that the government of the Volunteer Army, (General Denikine's) had issued 3,000,000,000 rubles in bills from the Rostoff office of the State Bank. In southern Russia there are 45,000,000 rubles of Crimean paper money. The Northern (Archangel) government has issued notes to the value of 1,000,000,000 rubles and there are also obligations of the so-called Confidence Loan of 70,000,000 rubles.

The Minister said that the American Bank Note company has now at last handed over to the Russian government 1,500,000,000 rubles of paper money. As soon as possible this would be secured in Russia but the Minister declared it would be impossible to organize unification of currency before January 1, 1920. A unification of the budgets of all these various governments would also have to be arranged, he said.

Problem of Finance. "As the armies move forward the question will arise as to what to do with all the money in Soviet Russia, amounting to 100,000,000,000 to 200,000,000,000 rubles—a debt which the Russian government cannot take upon itself," said Mr. De Hoyer. "It will be necessary to consider what is to be the comparative rate between our bills and those of Soviet Russia."

The government will have to negotiate loans both at home and abroad to meet demands now being made on the exchanges. Mr. De Hoyer continued. English and Japanese banks have already been approached on the subject. Plans for an internal loan, to take the form of a lottery, are already in hand. The tickets and obligations have been received from America. This loan will be for 1,000,000,000 rubles to be put out in 200,000,000 issues at two month intervals. "If the Bolsheviks are pushed back to the Urals."

The prizes are to be paid in American printed notes at the rate of 100 rubles for every 500 or 400 rubles of treasury obligations. Thus for every billion rubles paid out in American printed notes the government would account for three or four billion rubles of obligations. Exports and Imports. "Exports and imports must be organized," continued the Minister. "Only exports can improve ruble exchange. The Committee for Foreign Trade will be furnished with a banking apparatus and will receive the aid of the government in the matter of foreign exchange. It is desirable that all commercial banks, firms and co-operatives participate in this bank."

The bank will have branches abroad in the form of trading departments. It should be empowered to grant long term loans. "We must establish a Russian-American bank with an initial capital of \$1,000,000. Communications regarding such a bank are being conducted with American financial interests and are leading to good results. "As for financial regulation of the ruble, we shall have to devalue it and consider it worth whatever it will buy in the home market, and its average in the foreign market. "It is the moral duty of the Allies to aid us to get a part of the contribution which Germany will pay. They should also help us to pay the interest on those loans which we raise abroad in their own countries. They should afford us long term credit to purchase industrial equipment and goods for our agriculture, our industries and our transport. A loan in foreign gold is also necessary to strengthen our gold security and insure future stability of our currency."

IMPROVED PECAN WILL BRING LARGE RETURNS DALLAS, Texas, Dec. 6.—There is nothing that will bring greater returns for the time and money expended in the budding of the native pecans or the planting of the right kind of nursery stock, according to S. A. Fishburn, a Dallas county farmer and real estate man. He says, however, it will take the newcomer to convince us of the fact, as was the case in many of our resources.

Speaking of the possibilities of growing the improved pecan in Texas Mr. Fishburn said: "We longhorns just haven't any conception of the wealth that awaits pecan development in Texas. The best grade of paper shells now bring \$1 a pound in the North, with an unlimited demand. When a man owns a pecan orchard he grows two crops, one on the ground and one in the air, and does not have to replant often more than 400 years, for the pecan is known to grow to that age in Mexico. The most of us, though suffering with that "tired feeling" would not mind replanting that often."

"It is not generally known, but the pecan is the most neighborly tree there is. That is, it does not object to other things growing with it, as in the case of the oak and most other trees. The latter claims all the ground for many feet around it, while the pecan, getting its moisture through its long tap root, does not need to rob other growers of their share. "Why Texas folks hesitate to try their native orchards often sold for average farm prices into improved varieties, when the latter are easily worth \$1,000 a acre, is beyond my understanding."

YOUR CATARRH MAY LEAD TO CONSUMPTION

Dangerous to Use Treatment for Only Temporary Relief. There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications. S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source. Get a bottle today, begin the only logical treatment that gives real results. For free medical advice write Medical Director, 47 Swift Laboratory, Atlanta, Ga.

APPEAL TO THE U. S. TO RESCUE ARMENIA FROM TURKISH HANDS

GENEVA, Switzerland.—The International Committee of the Red Cross has sent to President Wilson and to the people of the United States an appeal to rescue Armenia from extinction at the hands of the Turks. The plea is signed by Edouard Naville, president of the committee, who has asked that it be given widespread distribution throughout the United States. Invoking the aid of America, the International Committee disavows any political interest and asserts that it is moved only by humanity and pity. In part the message says: "During the war it seemed to the Armenians that the day of deliverance was dawning. How different is the situation now! Armenia seems to be forgotten; the Turkish army is reconstituted; thousands of them are still fugitives and have found a temporary asylum where they live a life of misery under the constant threat of renewed massacres. "Unless the Allied powers step in and resolutely take up the cause of the Armenians, their future is not a mere return under Turkish domination; it is the completion of the work of destruction which has already been carried on with such appalling results. Armenia will no more exist; it will be wiped away from the concert of Christian nations. "In this dreadful conjuncture, the Armenians stretch toward America their bleeding hands. They know that America alone can save them and they entreat us to join our voice to their ardent cry for help. "We therefore appeal to the feelings of generosity and justice of the American nation. Is the day in which other peoples joyfully hold the flag of liberty to be, on the contrary, the day in which Armenia is laid in her grave and her tomb sealed forever? We do not believe that America can remain indifferent to such revolting injustice or that the cry of despair of the Armenians will not be echoed in many American hearts and homes. "Once more let America come forward for the cause of justice and humanity against a certain extinct nation from a certain extinct nation. This will be one of the noblest fruits of America's victory."

"Once more let America come forward for the cause of justice and humanity against a certain extinct nation from a certain extinct nation. This will be one of the noblest fruits of America's victory."

GENEVA, Switzerland.—The International Committee of the Red Cross has sent to President Wilson and to the people of the United States an appeal to rescue Armenia from extinction at the hands of the Turks. The plea is signed by Edouard Naville, president of the committee, who has asked that it be given widespread distribution throughout the United States. Invoking the aid of America, the International Committee disavows any political interest and asserts that it is moved only by humanity and pity. In part the message says: "During the war it seemed to the Armenians that the day of deliverance was dawning. How different is the situation now! Armenia seems to be forgotten; the Turkish army is reconstituted; thousands of them are still fugitives and have found a temporary asylum where they live a life of misery under the constant threat of renewed massacres. "Unless the Allied powers step in and resolutely take up the cause of the Armenians, their future is not a mere return under Turkish domination; it is the completion of the work of destruction which has already been carried on with such appalling results. Armenia will no more exist; it will be wiped away from the concert of Christian nations. "In this dreadful conjuncture, the Armenians stretch toward America their bleeding hands. They know that America alone can save them and they entreat us to join our voice to their ardent cry for help. "We therefore appeal to the feelings of generosity and justice of the American nation. Is the day in which other peoples joyfully hold the flag of liberty to be, on the contrary, the day in which Armenia is laid in her grave and her tomb sealed forever? We do not believe that America can remain indifferent to such revolting injustice or that the cry of despair of the Armenians will not be echoed in many American hearts and homes. "Once more let America come forward for the cause of justice and humanity against a certain extinct nation from a certain extinct nation. This will be one of the noblest fruits of America's victory."

MAY EMPLOY AIRPLANES TO MAP AMAZON RIVER

PARA, Brazil.—Airplanes may be employed to map the valley of the great Amazon river. If the French are successful in their effort to use aircraft for surveying the routes of the rivers of French Guiana, it is understood the Brazilian government will apply the same method to the survey of the Amazon and its affluents.

A French company is said to have been formed in Cayenne, with hangars on the Maroni river, and French aviators with flying experience gained in the war are being employed to run the twenty-five hydro-airplanes said to have been furnished by the government.

In addition to making maps, the machines will be employed for carrying valuable freight, mails and passengers. There are immense rivers in French Guiana which, because of the presence of many rapids, are now only navigable in canoes which take weeks to transport freight over distances which the hydro-airplanes can cover in as many hours, with always large stretches of smooth water offering a suitable surface for landings and "take-offs."

The freight charges are said to be high, and the traffic is expected to consist mainly of gold, balata and essence of rosewood, which are the principal exports of the colony. The passenger business is not expected to be heavy.

These hydro-airplanes will also be used for protecting the forests for balata trees which grow in groups so that the foliage can, it is said, be readily distinguished by aviators flying low over the tops of the forest trees. In the past the securing of fresh sources of balata has been a work of much danger and difficulty. Specially trained balata workers, well-armed, traveling in bands of fifteen or twenty, have been employed to explore the forests and they had to carry with them supplies to cover many months.

Every piece is of selected stock and reinforced to

UNIVERSITY FOOTBALL SEASON DISAPPOINTS

AUSTIN, TEX., Dec. 6.—Football at the University of Texas has been highly disappointing this year. Starting out the season with the greatest number of players out for the team and with a strong coaching staff, the university was counting on a strong team with good chances of ending with the Southwestern championship in Texas hands. There were more letter men and more promising high school material than had ever assembled on Clark Field before.

Howard Payne and Southwestern came down for their usual trouncings in the first two weeks of play, and the students began to think bright thoughts of what was coming in the future. Then the old boat hit the first snag. Phillips University came down from Enid, Okla., and whitewashed the Longhorns in their own corral. This school had been an unknown quantity, and knowing nothing about the situation the rooters had naturally figured out that it was a real upset.

Besides it came so early in the season that no one had any idea so strong a team would be scheduled at that time. This made the defeat that much more bitter.

Result Disastrous

With one defeat behind them the eleven set out to show the state that they could still do a little scrapping, even if they had lost, so they went to work to clean up on Oklahoma in Dallas. The result was as disastrous as the preceding game. Oklahoma repeated her dose of two years before and forced state with the short end of the score. That apparently knocked the Austin aggregation out of the running for the Southwestern championship.

Between the Saturday in Dallas and the next week, the team made an improvement of at least 100 per cent. Baylor came to town confident that she could inflict a real deal of damage on the Longhorns since they had made such a poor showing against the last two schools played. She was properly surprised and sent back home dazed to try and think it over.

Rice Learns Lesson

Then Rice learned her lesson. She sent her men up here with the fullest expectations of at least making a strong showing, but instead she was literally snowed under. The Texas eleven was still improving. Arkansas told the same tale. A great deal of good playing was seen in this game. The best playing of the season, however, and one of the best games ever pulled off on the university's grounds was when the Haskell Indians were defeated by the margin of one touchdown in a hard-fought contest on Nov. 14. So splendid a showing did the team make that everybody was fully certain that A. & M. was in for hers. Besides this, Arkansas had succeeded in upsetting the dope bucket when she defeated Oklahoma, so it gave the Longhorns a chance to win back the championships they had lost at Dallas if they won from A. & M.

Added to this was the old rivalry between the two schools. Consequently everyone expected to see the Longhorns hit their stride in proper fashion on Kyle Field Thanksgiving Day. Was a Great Blow.

The result was a great blow. At no time during the whole of four quarters did the team hit its stride. Confronted with the men were thrown for losses, and not a single first down was made by Texas other than on penalties. Only a few of the men seemed to be able to play true to form. All the pep and spirit that had shown up so well in the Haskell game were entirely vanished. The ten days of rest had ruined, rather than improved the team.

This was the crowning blow to Texas hopes. Not only had she lost the championship, but her ancient enemy had won it. And besides that she had been unable to break the jinx that kept opposing teams from crossing the Farmer line and so A. & M. had finished an unbeaten season.

Final Standing

The final standing of the teams is: Texas A. & M., played 4, won 2, lost 0; per cent 100. Rice, played 4, won 3, lost 1; per cent 75. Oklahoma, played 3, won 2, lost 1; per cent 66. Texas, played 5, won 3, lost 2; per cent 60. Arkansas, played 3, won 1, lost 2; per cent 33. Oklahoma A. & M., played 2, won 0, lost 2; per cent 0. S. M. U., played 3, won 0, lost 2, tied 1; per cent 0. Baylor, played 4, tied 1, lost 3; per cent 25.

There were a few outstanding players of the University. Among these are, in the line, Gohmert, Falk, Graves, Greer and Dennis; in the backfield, McCallum, Cannon and McCullough played especially good games. Gohmert, Falk and McCallum were probably the best of these. The first was a terror on breaking up plays of his opponents, especially attempted line plunges. His best game was played on Kyle Field where he was one of the few Texas players who showed up well. Falk played his usual steady game at tackle. Although handicapped by an injured hip, he was a most valuable asset to the squad during the entire season. Graves played the best season of his career. Although he did not show up so well at A. & M. he did some strong playing at other times. Greer made his reputation on his scrapping abilities. He was especially effective at holding back center plunges. Dennis built up a game almost as strong as that of Gohmert, and he always had to be reckoned with in attempting line plunges.

In the backfield, McCallum shone

704 OHIO AVENUE RICHARDSON'S

out by reason of his consistent playing since the first of the season. He could always be relied on to gain something through the line. A. A. & M. he was the mainstay of the squad, and although he was unable to compete with the long punts of Higginbotham, still he made a creditable showing. Cannon did the better part of his playing in the earlier games. His best game was against the Haskell crew. Here he made seven or eight runs which averaged about twenty yards apiece. He did not keep his form on Thanksgiving, however. McCullough likewise did his best playing before Thanksgiving. He was injured in one game which hindered his playing for the rest of the season. His passing was largely responsible for the victories against Baylor and Rice.

On the whole the season can be said to be one in which there were very few stars and one which displayed poorer playing as a whole than any season in several years.

UNIVERSITY PREPARES TECHNICAL PAPER ON OIL WELL FORMATIONS

AUSTIN, TEX., Dec. 6.—In response to the growing demand for authentic information regarding the characteristics of the Ellenburger and Bend limestones, which formations are common to the deep well oil fields in North Central Texas, the Bureau of Economic Geology and Technology of the University of Texas has recently prepared a very exhaustive technical paper on the subject. "Microscopic Characteristics of the Bend and the Ellenburger Limestones," is the title of the paper, which was written by J. A. Udden, director of the bureau, in collaboration with V. V. Waite, who superintended the preparation of the sections and the making of the photographs.

Several pages have been devoted to the history and technical treatment of the formations, in addition to which a section has been reserved for each of the formations, photographic illustrations being used in connection with explanatory information.

The paper was prepared for the beginner rather than for specialists in the study of lithographic criteria. In discussing this line of work Dr. Udden stated that some of the companies who do not employ geologists have appealed to the department for information as to how to identify these particular formations. The bureau suggested that each of the interested oil companies designate a representative of its company to be sent to the Bureau of Economic Geology for a special course which would soon equip the student with the desired knowledge. Perhaps a dozen companies have already availed themselves of this opportunity, while this paper has been prepared for the benefit of such other companies that neither employ a geologist nor have sent a representative here for the special course.

TRAFFIC ASSOCIATION TO FIGHT PROPOSALS

GALVESTON, TEX., Dec. 6.—A fight against several proposals which it is said will be made to the United States Railroad Administration by the Dallas district freight traffic committee will be waged by the Texas Traffic Association, according to E. H. Thornton, president of the association. The association recently met in Houston and discussed matters relating to the welfare of the various Texas ports.

One of the matters which will be opposed by the association is the proposal to cancel water-compelled rates now in effect to the Gulf coast ports of Galveston, Houston, Port Arthur, Beaumont, Orange and Texas City, which would mean an increase in rates amounting to almost 200 per cent, Mr. Thornton said.

YOUR CHANCES OF LOSING ON Your Texas Oil Investment

SHOWN BY OUR FREE STATISTICAL MAP Experts have been busy for weeks preparing the most complete Geological and Statistical Map of Texas ever compiled.

This Map is Now Ready For You. It Costs \$10,000 to Prepare and Is Worth It

On the face of the map, which measures 18x14 inches, are shown geological surface structures, with brief explanation of their character in every day language. All known oil and gas fields, accurately located, with average production of each field. Location, size and ownership of oil refineries operating or under construction. Location of all principal pipe lines and ownership. Railroads, county lines and principal towns. On the reverse side appear the following tables and charts: Table showing increase in crude oil and gasoline consumed and number of automobiles in use from 1910 to 1918, inclusive. Chart showing increase in production of crude oil from 1910 to 1917, inclusive, comparing production of United States, Texas and the world. Table showing number of wells drilled and number producing for each field, from 1913 to July 1, 1918. Table showing approximate production, for each of the principal Texas fields in 1918 and first five months of 1919. Table showing dividends paid by principal North Texas Companies from date of organization to March 1919, inclusive; also dividends paid by large, old-established oil companies over a long period of years.

Free to the Readers of This Paper This map retails for one dollar, but we have a limited supply which will be sent absolutely free to readers of this paper, upon request, stating that you are interested in Texas. Send for your copy today. Use coupon below.

CHIROPRACTIC

The Modern Way to Health

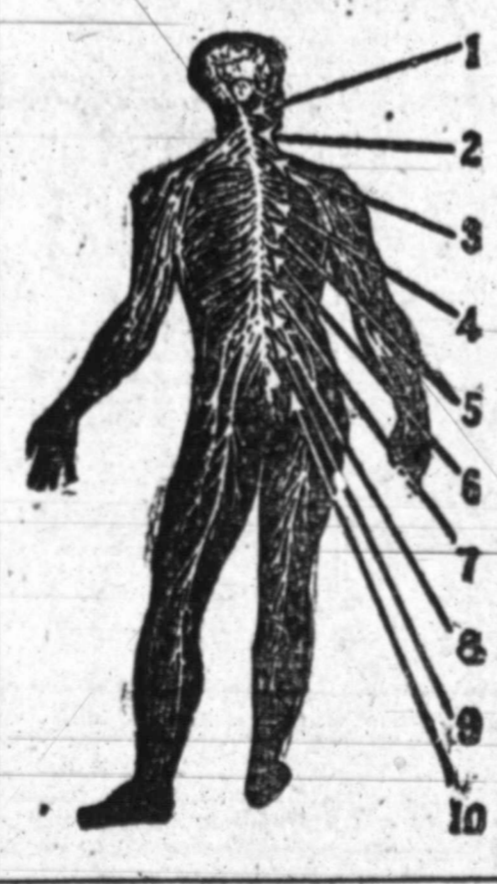

It is estimated that more than ninety per cent of the so-called diseases are directly traceable to subluxations of the spine. Chiropactic is the science of locating the cause of disease, and the art of removing the cause through adjustments of the spine. It is very usual for the average person to mismanage chiropactic, and to fail to realize why this large number of diseases can be traceable to the spine. As for instance, if a person has stomach trouble he cannot understand why it can be caused by any condition of the backbone, or how it can be remedied by adjustments of the spine. It is really so logical, however, as to be almost simple, and any one who will give it but casual study will see the philosophy of it.

THE SPINE IS THE MAIN SHAFT OF THE BODY.

It is the channel through which the nerves pass from the brain to the organs and tissues, carrying the life force to the organs. To be healthy the organs and tissues must have 100 per cent of life force. Any reduction in the supply of life force results in a corresponding reduction in the activity of the particular organ or tissue which the nerve supplies. Disease of the organ follows inactivity. It is common to say "the liver is sluggish" when one feels bilious, and a sluggish or inactive liver does make one bilious. But it is not more extraordinary that the liver is inactive than that any other organ or tissue should be in the same condition. It does not necessarily follow that this inactivity should be local or due to any diseased condition of the liver or organ itself.

THE CHIROPRACTOR MAINTAINS THAT IT IS MORE OFTEN CAUSED BY AN IMPINGEMENT OF THE NERVES THAT FEED THE ORGAN.

The spine contains 24 movable joints from between which are given off the nerves which supply the body with life force. As long as these joints are in perfect alignment the nerves

- 1 Slight subluxations at this point will cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.
- 2 A slight subluxation of a vertebra in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, goitre, nervous prostration, in gripe, dizziness, bleeding from nose, disorder of gums, catarrh, etc.
- 3 The arrow head marked No. 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, fevers, gain between the shoulder blades, rheumatism of the arms and shoulders, hay fever, writers' cramps, etc.
- 4 A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, etc.
- 5 Stomach and liver troubles, enlargement of the spleen, pleurisy and a score of other troubles, so-called, are caused by subluxations in this part of the spine, sometimes so light as to remain unnoticed by others except the trained Chiropactor.
- 6 Here we find the cause of so-called gall stones, dyspepsia of upper bowels, fevers, shingles, hicough, worms, etc.
- 7 Bright's disease, diabetes, floating kidney, skin disease, boils, eruptions and other diseases, so-called, are caused by nerves being pinched in the spinal openings at this point.
- 8 Regulations of such troubles as so-called appendicitis, peritonitis, lumbago, etc., follow Chiropactic adjustments at this point.
- 9 Why have so-called constipation, rectal troubles, sciatica, etc., when Chiropactic adjustments at this part of the spine will remove the cause.
- 10 A slight slippage of one of both innominate bones will likewise produce so-called sciatica, together with many "diseases" of pelvis and lower extremities.

have free exit. But a slight displacement or subluxation of any one of these joints will cause a pressure upon the nerve leading from that joint. Any contraction of the muscles of the back, due to a cold, or a jarring of the body by a fall or a slip on a walk, or a wrenching of the body by the arching of an automobile, may cause a subluxation or slight displacement of the joints which causes a pinched condition of the nerve and a consequent cutting off of the life force. It acts exactly the same as if one makes a kink in a garden hose when the water is going through. Pinch the hose and it will cut down the water pressure, and if it is pinched hard enough it will entirely cut off the flow. Pinch a nerve where it leaves the spine and it will cut down the supply of life force, and pinch it hard enough and the supply will be entirely cut off.

Chiropactic, therefore, goes direct to the cause by removing the impingement, and when this is accomplished the organ receives its full quota of life force and nature cures itself. In chiropactic there is absolutely no medicine used nor no surgery employed. The adjustments are made with the hands by a method conceived by D. D. Palmer, of Davenport, Iowa, more than twenty-five years ago. Like many other sciences for the aid of mankind it has had to undergo severe criticism from many who did not understand the logic of it or who did not take time to study its philosophy. But it has now passed through these preliminary stages, and in at least 27 states is a recognized health agent, and in every state in the Union it has proven its merit in hosts of cases previously considered hopeless.

Understand, chiropactic does not guarantee to cure every ailment, or in fact, any ailment. As practicing chiropactors we are glad to give any one suffering from any ailment careful examination free of cost. If the spine shows any impingement we will point it out, and then if you wish to try adjustments we shall be glad to serve you.

Consultation and Spinal Analysis by Appointment Only

On account of the very heavy demands on our time, we have arranged to give consultations and spinal analysis only by appointment. If you are desirous of investigating the work and merits of the science, and wish to have

us examine your spine we will be glad to have you telephone at any time and arrange for appointment that will be mutually agreeable. This will save you much time in waiting and will allow us to devote our entire time to your case when you come.

Automobile News

VACUUM STORM-PROOF WINDSHIELD POPULAR DURING ALL SEASONS

It is doubtful whether there is any windshield that contributes more to the comfort of all-season driving than the vacuum storm-proof windshield incorporated in the Aero-Eight touring sedan and townie. In selecting this windshield the Cole Motor Company has given to the enclosed car an improved utility that instantly gratifies the taste of the motorist who desires windshield for protection from all kinds of weather. Four adjustments are possible and each subserves a different purpose.

The windshield may be adjusted for cold weather, warm weather, mild weather and stormy weather driving. These adjustments are easily and quickly made and the construction of the shield is so simple that the possibilities of the vacuum storm proof windshield are so effective and when properly adjusted it has no many advantages over any other windshield so far developed that owners are quick to sound its praises.

Along with the improved windshield of the Aero-Eight touring sedan and townie, the completeness of other refinements and appointments places them just a little ahead of other enclosed equipages. The aerodynamic design, an original Cole feature, is embodied in the construction of these cars. The low beveled panels, the sharp aerolines, the high cowl and the massive hood and radiator are remarkably similar to the fuselage of an airplane and the car rides the road with the same even feel that characterizes the plane in the air.

NOLEN STRINGER CO. IS MAKING DELIVERY OF THE POPULAR HAYNES

The Noble Stringer Company, who handle Haynes automobiles and Garford trucks, reports the delivery of one of the popular 4-passenger model Haynes to W. J. Johnson of this city. They also have two roadsters in Dallas ready whenever the roads are passable enough to drive them through.

Several closed model Haynes have been ordered for delivery as Christmas presents this agency says, but they have been warned to keep the identity of the purchasers a secret.

At last two of the famous custom built Locomobiles have been received by the Locomobile-Cole agency and are on exhibition at their display room. Both of these are 5-passenger models. One is finished with black trimmings and the other a coral blue with white hair line striping. These are among the first of this make that have been in this city.

NEW MODEL TOWN CAR ON EXHIBIT AT SHOWROOM OF THE McFALL BROTHERS

McFall Brothers, local distributors for Dodge Motor vehicles, have on display at their show room on Ohio the newest thing the Dodge people have put out in the shape of a 1920 model town car. The enclosed portion of the car can seat five people comfortably and in addition the drivers seat there is a space in the front of the car that can be used as a trunk rack or, if necessary, an additional seat. The upholstery is finely finished in a style in keeping with the car. This model is an ideal

vehicle for taxicab use and is the model adopted by the Black and White Taxi service of New York and the Yellow Taxicab line in Chicago.

The past week has been the largest in point of accessory sales that the local agency has enjoyed. Much attention is being put on the complete line of automobile supplies, specializing on Dodge equipment, by these dealers, and they are desirous of maintaining one of the largest accessory departments in the state.

In the next week or 10 days, if present shipping conditions continue, McFall Brothers hope to be able to furnish passenger cars on a week's notice. Six car loads of cars, including a couple of Sedans, are expected in the next few days.

COCHRAN MOTOR COMPANY SELLS EIGHTEEN CHEVROLETS DURING MONTH OF NOVEMBER

The Cochran Motor Company, agents for the Chevrolet, sold 18 cars during November and, according to B. C. Cochran, the manager, could have sold twice as many if they had been able to secure the cars.

The first of the 1920 model Chevrolet models has been received here. This model is said to be very much an improvement on the previous cars on account of the additional two inches clearance and the new suspension system which does away with the wear and tear that is due to faulty springs.

OTTOMAN EMPIRE DEBT HAS INCREASED LESS THAN ANY OTHER OF NATIONS

CONSTANTINOPLE—The war debt of the Ottoman Empire is said by experts to have increased less than that of any other nation. Her bonded indebtedness was increased by only one new loan of about \$80,000,000, and, adding to this other increases in obligations such as home military expenditures and advances from Austria and Germany, her war expenses ran to only \$600,000,000. Consequently, allowing for various offsets, her post-war indebtedness amounts to about \$1,000,000,000.

This would make it appear that Turkey ran the war on a shoe string, financially, as compared to Great Britain with her \$40,000,000,000 war debt, of France with \$20,000,000,000

and the United States with \$25,000,000,000 and Italy with possibly \$15,000,000,000. It will be recalled that on paper the Ottoman Empire mobilized nearly 4,000,000 men, yet she escaped with something like the war expenses of a country like little Rumania or Bulgaria.

The record of the Turkish war indebtedness is unique. The Empire met war costs by requisitions and by printing in Germany 155,000,000 Turkish paper pounds, or normally about \$50,000,000 but this, according to the experts, cannot be considered a government liability.

It is not a financial burden as it bears no interest, and also the Peace Conference can still have it cancelled.

Turkey's paper money, it is claimed, has not depreciated as much as that of her Allies. Counterletters to not seem to have operated here extensively due to the lack of Bolshevism and good printing presses. In Mesopotamia Turkish paper money is refused since the British occupation which the Turks do not consider fair since the paper money was issued for the whole of the Ottoman Empire which made war as a whole.

The amount of Turkey's war reparations is yet to be determined.

POSTPONE ENFORCEMENT OF BRAZILIAN REGULATIONS

RIO DE JANEIRO.—Enforcement of the new Brazilian regulations for consular invoices which were to have been put into effect October 1, has been postponed at the request of semi-official commercial association of Rio de Janeiro, pending further consideration by the government. It is expected that modifications will be made to meet the desires of native and foreign commercial interests.

The local American Chamber of Commerce for Brazil, the American association at Sao Paulo and other foreign commercial bodies, played a large part in co-operation with the commercial association in securing reconsideration of the proposed regulations. In fact, Dr. Herbert Moses, secretary of the commercial association, in a recent address before a commercial gathering, stated that the memorandum presented by the association to the government was identical with that received from the American chamber.

The memorandum to the government pointed out the impracticability of the regulations and the handicaps

they would impose on legitimate commerce. The chief objection to the new rules was that they called for absolutely detailed particulars of the goods, consigned, even to the number of different kinds of nails, for example, in a mixed consignment of nails. Another serious objection was that the new regulations required that the consular invoices with all these details, had to travel by the same ship as the goods. This, it was pointed out, was a difficult matter, as vessels often sailed at the week-end when consular offices are closed. Limited consular staffs, it was said, were in many cases unable to verify such detailed statements in the short time allowed.

ARIZONA PLANS FOR MORE IRRIGATION

PHOENIX, Ariz.—Reclamation of more large areas of land in Arizona by means of irrigation projects became a strong probability when the state land commission, acting in conjunction with officials of the United States reclamation service, decided on an investigation and a final report on salient facts concerning five irrigation projects. Three are in San Carlos,

San Francisco river and Red Rock river projects. Two others are to be reported later, the commission announced. A \$30,000 appropriation was made available for the investigation and report.

The San Carlos dam site is located on the Gila river, in Arizona, and the project contemplates the reclamation of an estimated 100,000 acres, possibly more, chiefly in Pinal county between the towns of Florence and Casa Grande.

The Red Rock river site is located in New Mexico in a position com-

manding irrigable lands in Arizona on the mesa south of Franklin, Greenlee county.

The San Francisco dam site also is in New Mexico, near Alma, and it is proposed for development as an auxiliary to the San Carlos project.

The state's part in these enterprises is one of co-operation with the United States Reclamation service.

Perfection's Price In Tire Building

A tire-maker's first problem is to decide how much he can give for the money. This, and every other question in tire building, depends upon policies.

A super-tire, such as The Brunswick, can be made only by a concern which knows well and appreciates that there is nothing exclusive in the tire industry except high standards.

Since 1845 the House of Brunswick has held first place in every line it entered. Brunswick Tires, as more and more motorists come to know them, will certainly be awarded that coveted place held only by the superline.

Motorists who buy one Brunswick usually adopt it for complete equipment. Yet this is not strange, since the first one so completely proves its superiority.

If the name of Brunswick certifies to you, as to most men, an extraordinary tire, at no higher price, would it not be good business to test one or two Brunswick Tires?

SWITZERLAND BECOMES NOTED FOR FANTASTIC FINANCE OF THE WORLD

By HENRY WOOD.

(Called from Bern, Switzerland.)
BERNE, Switzerland.—As a result of the war turning topsy-turvy the world's basis of values, especially in the matter of foreign exchange, Switzerland has become the seat of the most fantastic finance the world has yet seen.

By not having participated in the war, Switzerland's financial industrial and economic condition at the present time is one to be envied—no matter how much the Swiss themselves may deplore it. Especially as the result of not having contracted any war debts or expenditures and of not having made any unlimited issues of paper currency with which to tide over the war period, Swiss currency has remained almost unaffected by the crisis of foreign exchange and the depreciation of currencies from which all the belligerents are now severely suffering.

Five francs of Swiss money today are worth just about \$1 the same as they were before the war, where from eight to ten or twenty francs of other countries are necessary to purchase a single greenback of the minimum denomination.

As a consequence Switzerland, the only country in Central Europe which retains something of its normal financial standing, has become a sort of an oasis in a desert of financial disaster. It is a sort of clearing house, or solid financial rock where the bewildered people of other countries can come for the time being and get their financial balance readjusted and their sense of value restored before embarking on new financial enterprises.

The resulting operations are often wired and fantastic to the extreme degree, resembling something in unexpectedness the high finance adventures of America and yet always with a different note. These financial odysseys happen by the score in Switzerland daily. Here are a few that will give some idea of what they are like and some idea of central Europe's shipwreck.

Recently a Czechoslovak deputy had occasion to come down to Switzerland for a few weeks to take care of a number of important affairs concerning that ambitious but financially weak republic. To meet his expenses on the trip he brought with him 30,000 Czechoslovak crowns, the nominal value of which is about the same as a Swiss franc.

However, with the money of his own country exceedingly depreciated by the war and the lack of any solid standing to date of the new republic, the deputy was obliged to change his 30,000 native crowns into only 10,000 Swiss francs.

The deputy stayed at Bern for about two months stopping, as his position rendered necessary, at the principal hotel in the city, the prices at which have not been decreased by the war, and paying his expenses out of his 10,000 Swiss francs.

Eventually, however, his business was completed and he was ready to return to Prague. He sold off what he still owed in Bern out of the original 10,000 Swiss francs and then what was still left he had changed back into Czechoslovak crowns.

That in the two months which he had been at Bern, Czechoslovak currency had gone down further with the result that when he got what was left of his original 10,000 Swiss francs changed back into his native currency he received a total of 42,000 Czechoslovak crowns or 12,000 more than the original 30,000.

Here is another—and which is a matter of official record.
Several months ago a company was organized at Bern for launching a big illustrated political weekly magazine at Vienna. Swiss capitalists who had made a fortune out of the war and Switzerland's neutrality, backed the enterprise and laid up the capital in advance—namely 600,000 Swiss francs.

The total amount was deposited in a Bern bank to be changed into Austrian crowns for meeting the expenses of the new magazine at Vienna as soon as the latter could be launched.

In the meantime the prospective editors, publishers and business managers began meeting with considerable difficulty in getting the machinery together for the plant, in making sure of an adequate supply of paper, etc.

Foreign exchange on Austrian money has since decreased to such an extent that the 600,000 Swiss francs now on deposit in the Bern bank will bring 20,000 more Austrian crowns.

than at the moment they were paid in for launching the magazine. This is believed to be the only case on record where a magazine or newspaper has made money by not publishing—or in any event has made more money than it could possibly have hoped to make by actually doing business. And the longer it keeps from starting up, the more money it makes—in Austrian crowns.

The only way to avoid this fantastic finance now going on in Switzerland is to do business by direct barter and without the interchange of money. As a matter of fact this also is being developed by the force of circumstances to an astounding degree. Here is perhaps the most remarkable recent example:

A former high official in the German navy has just completed the diplomatic negotiations necessary with entente diplomats at Bern to permit him to pass through the Dardanelles with a ship load of goods. The ship is his own purchase, which he bought outright. In addition he now has it laden at Hamburg with a cargo of 20,000 marks' worth of German manufactured products.

This ship load of stuff he will take through from Hamburg to Odessa via the Dardanelles. As German money, figuratively speaking, is now worth nothing and as Russian is worth considerably less, this ship load of fine German manufactured products will be exchanged at Odessa for whatever there is on the market there in the way of raw material, food stuff, minerals or anything that has a high value in Germany.

Not a mark of a ruble will be exchanged in the whole transaction and the German ex-naval officer will load up his ship with the stuff he gets in exchange at Odessa, bring it back to Germany and exchange it there for more manufactured products without his taking the trouble to bother with a money intermediary, and keep up his business until he has a whole fleet of ships doing business on this basis.

Of course, should money ever come to have an established value again he will cash in and buy a continent or something.

In the meantime his present trip with 20,000 marks' worth of German merchandise is believed to be the biggest bartering expedition that has taken place since Christopher Columbus exchanged with the Indians the gift of fire water for the American continent.

Of course, should money ever come to have an established value again he will cash in and buy a continent or something.

In the meantime his present trip with 20,000 marks' worth of German merchandise is believed to be the biggest bartering expedition that has taken place since Christopher Columbus exchanged with the Indians the gift of fire water for the American continent.

The corn crop and the fruit crop

this year, have been especially good, particularly in the "Mormon colonies," good deal of good pasture land available. Mr. Dow reports: "Mexican stockmen have a good chance to raise considerable cattle next year, since the large shipments recently have left a good deal of good pasture land available."

Enjoy Cold Days in a Maxwell

JUMP into a Maxwell, bundle up, and in a second or two you're off.

No stone cold engine, no getting out to crank.

A few revolutions of the engine and it is running with midsummer action.

You get over ground quickly, get to your destination faster than in a bigger car.

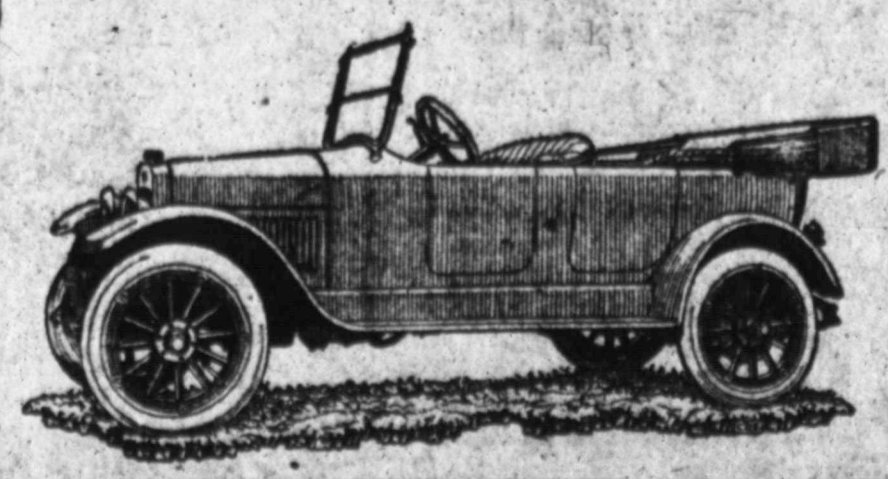

This cold weather efficiency in a Maxwell is traceable to the Hot Spot and Ram's-horn, which warm up "break up" gas into a fine vapor.

The moment this reaches the cylinders it is converted into full power and you avoid the troublesome experience of "trying to get a car warmed up on a cold day."

This high efficiency and the fine quality of steels used in its construction have made for Maxwell friends by the thousands—to date more than 300,000 of them. 100,000 Maxwells are being built this year; which will supply but 60% of the demand.

Price \$985 f. o. b. Detroit.

LITTLE CHANGE IS SHOWN IN SUMMARY OF DEVELOPMENTS RESULT WEATHER CONDITIONS

A summary of the situation in the entire Wichita Falls district for the week past need only say "ditto" to the resume of last week, for as the fair weather of last Sunday changed to a blizzard Monday, with alternate northers and cold drizzling showers, operations are still at the standstill indicated last week.

To realize fully what a tie-up rain and mud can effect, one does not have to go to oil fields, but merely to attempt to travel on the residence streets of Wichita Falls. There are some bad bog holes right in the city of Wichita Falls, as well as in the field. For instance, the hole in which the "Tar Baby" stuck on Fillmore, in Floral Heights, one of the exclusive residential sections, last week, while trying to make the street safe for all manner of vehicles, since paving was impossible. And all the thrills and vicissitudes of getting stuck in the mud had charged a \$10.00 for being pulled out can be gained in front of one's own vine and fig tree, so that those who are not impelled by stern necessity stay carefully at home from the oil fields, and take bear-say on the bad roads for gospel. Those who thought the deep, dusty ruts last summer were the limit of atrociousness, should try the same ruts filled with mud. Last summer the worst that could happen would have been to have turned over in the deep ruts, and strangled to death by the dust. In the ruins of a one-time good car, but this winter is added the danger of being drowned, after being frozen while stuck and waiting for a \$50.00 lift out.

All of which is by way of saying that the bad weather has been a decided handicap to operations in the oil field, through hindering progress over the various roads of the county.

There has been little change in the status of operations in the various sections of the district from last week. On the outskirts of the Waggoner pool in the new General district along Red River, and west of the Burk Burnett townsite, between that and the old Clara district, operations are of considerable interest, and a short drilling summary from these sections, follows:

West Burk Burnett Tests.
 Clematis Drilling Co., No. 1 Fowler, Block 10; shut down for orders, 1500 feet.
 Jewell Oil Co., No. 1 Muller, Block 60; rigging up Bear rig at 1500 feet.
 Vory-Morrow Oil Co., No. 1 Morrow, Block 41; derrick.
 Mason's Big Three Oil Co., No. 1 Donaghy, Block 64; drilling around 1600 feet.
 M. J. Bashara, No. 1 Bashara; under-reaming for 6 inches, around 1500 feet.
 Burk Long Oil Co., No. 1 Jarrell, Block C; shut down for fuel around 1300 feet.
 Swift Oil & Sulphur Co., No. 1 Stams, Block 61; shut down around 1700 feet.
 Farmers Co-operative Oil Co., No. 1 Sims, Block 61; derrick.
General Well District.
 Rice Oil Co., No. 1 R. S. Allen, Block

Lambert & Tolliver, No. 3 Eliza; derrick.
 Langford, Staley & Chesnut, No. 7 Schmeiser; completed casing on 2500.
 Heartick Oil & Production Co., No. 1 Taylor, Block 96; shut down around 1800 feet.
 Hudson Burk Oil Co., No. 1 Taylor; rigging up to arab.
 Invaders Oil Co., No. 2 Brannon, Block 80; drilling around 1600 feet.
 Clois Greene et al., No. 1 Taylor, lease B; shut down around 1600 feet.
 Clois Greene, No. 42 Taylor; shut down for tools around 1600 feet.
 Verris & Seay, No. 3 Waggoner, Block 50; derrick.
 R. O. Harvey et al., No. 5 Taylor; casing set; waiting on tools.
 R. O. Harvey et al., No. 4 Taylor; shut down for tools at 1600 feet.
 R. O. Harvey et al., No. 5 Taylor; drilling around 1500 feet.
 Diamond D Oil Co., No. 2 Eliza; drilling around 600 feet.
 Fort Worth State Bank, No. 1 J. P. Wagner, Block 72; shut down around 1600 feet.
 British American Oil Co., No. 1 Eliza, Block 81; casing out.
 Kirkland Oil Co., No. 1 Morgan A; set casing.
 Burk Burnham Oil Co., No. 1 Evans; shut down for tools.
 Burk Waggoner Oil Co., No. 2 Morgan; set casing, shut down for tools.
 Burks Tye Oil Co., No. 1 Brannon, Block 81; drilling around 1600 feet.
 Northwest Oil & Gas Co., No. 2 Eliza; shut down around 1500 feet.
 F. Noble, No. 1 Brannon, Block 80; shut down around 1600 feet.
 Olean Davis Oil Co., No. 4 Taylor, lease 2; drilling out cement.
 Olean Davis Oil Co., No. 2 Taylor, lease 2; drilling in.
 Olean Davis Oil Co., No. 4 Taylor, lease 6; derrick.
 Olean Davis Oil Co., No. 3 Taylor, lease 6; shut down for tools, 1600 feet.
 Oklahoma Petroleum & Gasoline Co., No. 4 Vogel; standardizing.

Oklahoma Petroleum & Gasoline Co., No. 4 Taylor, lease 1; set casing and cement.

A VITAL FACTOR
 It is natural for a growing child to crave what may seem an over-abundance of food. The vital, important factor is to assure not only a plenitude of food but food that contains those substances that promote healthful growth.

SCOTT'S EMULSION

is daily helping to nourish and strengthen many boys and girls through the trying period of growth. You should not hesitate to give SCOTT'S EMULSION to a child of any age.

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous "A & F. Process," made in Norway and refined in our own American laboratories. It is a guarantee of purity and palatability unsurpassed.

World's Greatest Butter-Producing Cow
 Finnerdale Pride
 Johanna Rue

THIS wonderful cow produced 28403.7 lbs. of milk and 1470.5 lbs. of butter in 365 days—a record unsurpassed by any living cow. Read what her owner, Bernhard Meyer of Finnerdale Stock Farm, Finnerdale, N. J., has to say about her:

Mr. Meyer, as well as other "top notchers" in the dairy industry, discovered long ago that

SCHUMACHER FEED

the old reliable standby that helps them to increase the production of their herds is the feed of World's Champions because it helps to make world Champions. You may not expect to make any world's records, but if you follow the example of the most successful dairyman, whether filling and feeding for records or for maximum dairy production day in and year out, SCHUMACHER FEED will more than make good for you.

It will prove that it is indeed the world's greatest maintenance dairy feed. Try it and be convinced. Come in and let us tell what other customers say about it.

RICHARDSON'S

FRANKELL

A New Railroad Town in the Most Productive Oil Field in Stephens County WILL BE OPENED DECEMBER 8TH.

Frankell is in the Caddo Oil Pool. From the townsite one can count a thousand oil wells and locations. The biggest oil well in the county came in last week just two miles north of Frankell. The town of Frankell is on the line of the Wichita Falls, Ranger & Fort Worth Railroad, that is under construction through the Texas oil fields from Dublin to Wichita Falls. Trains will be operating into Frankell within a few weeks. It will be the only railroad point in the Stephens county oil fields and will be the chief center of oil fields supplies and other oil fields activity. Ten thousand people are waiting for the opening of the town to make it their home and business headquarters.

Frankell was laid out to serve supply houses and the other industries that require facilities for carload shipments. Its service truckage facilities and team tracks will meet the needs of a situation that calls for special treatment owing to the peculiarities of the oil fields traffic.

The people of America have never before seen such an opportunity to profit through the building of a great oil fields city as that presented by Frankell, the pet project of men whose dreams come true, and is the center of an activity that has called forth millions of dollars for development and is yielding other millions of profits.

There is no better investment in the world than real estate. The best real estate investment is in good towns. The best towns in Texas are in the oil fields. Stephens County is the most promising oil field in Texas. It is oil territory in its every part. Frankell is the one Railroad Town in the Stephens County oil fields. It is on the one railroad in Texas that was designed to serve the oil fields—the line that is being built from Wichita Falls to Dublin by Jake L. Hamon and Frank Kell, men whose success in building railroads and towns is unequalled in the Southwest, whose names have never been connected with failing ventures.

Frankell is twelve miles north of Ranger. It is fifteen miles north and east of Eastland. It is about eighteen miles northeast of Cisco. It can be reached from either place by conveyance. No lots will be sold in advance of December 8 and no lots will be reserved from sale. Plots of Frankell will be available on the townsite. Purchasers may pay thirty per cent of the purchase price on the day of sale and the remainder in seven equal monthly installments.

A Word from Mr. Hamon—

"This town is located in the center of the Caddo Oil Fields. I can stand on the townsite and count 1,000 drilling wells. It will be the center of the supply houses for Stephens County. A town where refineries should and will be built. This, in my opinion, will be the best town I have ever plotted and sold. I believe that every investor will make money and that there will be 10,000 people on the townsite of Frankell making money faster than any other like number on the American continent within ninety days. No lots will be sold through the mails. We have no advertising matter. The purchaser in order to make an investment in this splendid town will have to be on the townsite and make his selection and purchase. This, however, will not prevent persons making purchase of lots by agents or attorneys representing their principals. I invite my friends to make investments here and assure them that in my opinion they will reap a splendid return." *Jake L. Hamon*

TURKEY HAS ONLY TWO MOVEMENTS OF POLITICAL NATURE

One is For American Help and Other For Independent Country.

WOMAN NOVELIST TALKS

Have Organized Propaganda to Create Demand For Assistance From United States.

CONSTANTINOPLE.—There are only two sincere political movements in Turkey, one for American help, the other for an independent country...

Small, handsome, a brilliant conversationalist and speaker, Halide Edib, a fiery advocate for a new and better Turkey...

"I don't think any nation in Europe except perhaps Belgium would be disinterested enough, or would be permitted by the other powers, to take over the work that must be done here," she said.

"Much has been said of the Pan-Islamic and Pan-Turanian movements. Politically I am for neither. The first refers to religious union and the second to the racial union of peoples inhabiting north Africa and Asia."

"The national idea is to maintain the integrity of the Ottoman Turkey, who are people who change neither religion nor other ideas, and for that reason have always been the champions of the religion of Mohammed."

fire. Even the humblest people realize the truth of our contentions, and for that reason it has been easy to persuade them to favor an American control.

"The Americans haven't encouraged us, and other nations have discouraged us, either by deportations or censorship of our press. We can't send any one to America because the armistice prevents us from travelling."

"What Turkey needs is peace, modern agricultural development, as our soil is very rich, territorial integrity, wherein there are equal rights to Moslems and Christians, and education. We need a uniform school system."

"The woman in Turkey is much more emancipated than is believed abroad, and her education is part of our program. It is true that in the past we have ourselves been influenced by the Persian influence which took from our women their old freedom."

"I believe the British want Turkey because they have many Moslem subjects, once independent who looked to the Caliph here, and that it is not in their interest to have the last Moslems independent. To make these last a subject people they would adopt the pretext of defending him, as in the case of the nationalists starting trouble."

BRAZILIAN EXPLORER PAYS TRIBUTE TO COL. ROOSEVELT RIO DE JANEIRO.—General Candido Rondon, famous Brazilian explorer and companion of Theodore Roosevelt when he explored the "River of Doubt" paid high tribute to Colonel Roosevelt the other night, when before a distinguished audience in the Municipal theater the general was presented with medallions from the New York Geographical Society, the Explorers' Club of New York and the Rio de Janeiro Geographical Society.

"At this moment when I am so glad and grateful to receive your homage," General Rondon said, "the image of my virile and dear friend Roosevelt is with me. I see before me the massive structure of his fine body, his radiant joviality, his keen and intelligent eye."

"Among the many and great works which Colonel Roosevelt had conceived and realized," General Rondon continued, "he would mention in his conversations only his pacific intervention between Russia and Japan."

He spoke of Colonel Roosevelt as containing "the glories of Washington and Lincoln," and concluded: "This enthusiastic Roush Ritter was prevented himself from bearing arms for the liberty of peoples, but he sent all his sons to the battlefield of France and stoically saw one of them die for his life."

General Rondon, who was only recently elected to his present rank from a colonelcy, was for many years chief of construction of the government telegraph lines. His work sent him into the vast, unexplored regions of the interior of Brazil inhabited by uncivilized Indians. He had a knack of winning the confidence of these Indians, and among several tribes is affectionately known as "Papa Rondon."

DANIEL WEBSTER TO HAVE LARGE CARGO OF COTTON GALVESTON, TEX., Dec. 6.—The United States shipping board steamship Daniel Webster, which will sail soon from this port on her maiden voyage to Liverpool, probably will carry the largest single cargo of cotton ever sent from Galveston, according to port officials. Her cargo will consist of 30,000 bales. It is said.

The Daniel Webster is an oil burner and one of the largest vessels entering this port. Her deadweight tonnage is 13,000. When her loading is completed the Daniel Webster will be given her loaded deep sea trial in the gulf and will be out an entire day. If the trial is successful she will depart for Liverpool.

The Levland Line steamship Carria, which left here last month carried a cargo of 29,974 bales of cotton. This was the previous port record. She carried also 157 tons of lead bullion.
