COAL STRIKE TO BE SETTLED

MARKING TIME IN CONNECTION WITH MEXICO

State Department Awaiting the Arrival of Reply to the Latest Note

PRESIDENT IS STUDYING THE WHOLE CONTROVERSY

Foreign Relations Committee Temporarily Postpones Action in the Matter

WASHINGTON, Dec. 8.—The case of American Consul Agent W. O. Jenkins has been transferred to the Mexican federal supreme court from the Puebla state circuit court, the state department was advised today by the embassy at Mexico City.

The transfer was made on motion of counsel for Jenkins, who argued that under the Mexican constitution, the supreme court alone had jurisdiction over cases of foreign diplomatic and consular representatives. This position also was taken by the state department in its last note to Mexico renewing the request for Jenkins' release from the Puebla penitentiary.

WASHINGTON, Dec. 9.—Further action in the Mexican situation so far as this government was concerned still was held in abeyance today pending developments from various sources.

The state department was awaiting the arrival of the Mexican reply to the latest American note on the Jenkins case, which was said to have been delivered yesterday to the American embassy at Mexico City.

The Senate foreign relations committee temporarily postponed action on the Mexican question until President Wilson further has outlined his attitude on the recent developments.

The President now is studying the whole situation, including the memorandum of Senator Fall, Republican, New Mexico, which was submitted in substantiation of charges that an organized movement had been organized in Mexico with the sanction of President Carranza with the object to foment a revolution in the United States.

Abandon Action. The foreign relations committee abandoned action on the Fall resolution to request President Wilson to sever diplomatic relations with Mexico upon receipt of a letter from the President requesting that no such action be taken. Senator Fall announced, however, that although the committee had deferred action, it would continue the general investigation of Mexican affairs and that he soon would leave for the border to conduct a thorough inquiry there.

RUSSIAN SOVIET IS RESPONSIBLE FOR AGITATION

Condition in United States Not Due to Economic Condition in Statement

REPORT SUBMITTED TO NEW YORK LEGISLATURE

Three Big Groups of the Radical Element Have Been Supplying the Forces

NEW YORK, Dec. 9.—Radical agitation in this country with its resultant social unrest, is not due to economic conditions but to an organized, artificially stimulated movement under the inspiration of the Russian Soviet government. This opinion will be submitted to the New York legislature in an exhaustive report by the joint legislative committee which has been investigating radical activities since last May, it was learned today.

Three big groups of the radical element have been supplying the forces for wholesale dissemination of Bolshevik propaganda, the report will assert. They are the anarchist group, including the Union of Russian Workers and other organizations; the syndicalist group, the main body of which are the industrial workers of the world, and the Communist group, including the Communist Party of America and the Communist Labor Party. In each of these groups the overthrow of government by illegal means, including violence, is the weapon urged upon the masses, the report will state.

New York City Method. New York City is one of the big headquarters for the organized movement, the report will point out, with Chicago, Cleveland, Detroit and virtually every industrial center from the Atlantic to the Pacific harboring a headquarters for the radical campaign.

In the six months of the investigation hundreds of arrests have been made and scores of indictments for criminal anarchy have been returned on data procured and made available by the committee.

In its recommendations to the legislature the committee will approach the subject of corrective measures for the radical menace in two ways. First it will recommend restrictive legislation, not trying to limit free speech but pointing out that free speech is abused when overthrow of the government by violence and illegal means is advocated to be secured along constructive lines, it will recommend increasing the present educational facilities for adult aliens, better training of teachers, etc.

OKLAHOMA COAL IS NOW BEING DISTRIBUTED. M'ALESTER, OKLA., Dec. 8.—Coal mined by volunteer workers began moving from the strip pits in this locality today to freestone sections of western Oklahoma to be distributed by them. Twenty-five additional carloads of coal are expected to be on the tracks by late this afternoon. This will be shipped immediately.

HARMLESS LOOKING, BUT SO IS T. N. T.

LEFT TO RIGHT—EMMA GOLDMAN, HARRY WEINBERGER, ALEXANDER BERKMAN, AT ELISE ISLAND PROCESSING OVER A TEMPORARY SUCCESS OF THEIR FIGHT AGAINST DEPORTATION.

Alexander Berkman and Emma Goldman, his companion for thirty years in anarchist activities, were sent from the mainland of the United States, probably never to return. Ordered deported for urging overthrow of the government by violence, they were taken by ferry from the tip end of New York city to the immigration station at Ellis Island, where they will be held until a ship is available to send them to Russia, whence they came. Their liberty on bail expires, when they were surrendered by their counsel at the demand of the Department of Labor. The photograph shows Emma Goldman with her counsel, Harry Weinberger, after landing on Ellis Island, also Alexander Berkman.

Report a Settlement is Made With D'Annunzio

LONDON, Dec. 9.—Rome dispatches today said an important meeting of the ministerial council had been held at which it was understood a settlement with Gabriele D'Annunzio had been reached.

A dispatch from the United Press correspondent at Rome, received Saturday, said Major Giurini and Admiral Millo, representing D'Annunzio, had arrived in Rome to confer with the government over settlement of the Fiume controversy.

REACH AGREEMENT ON THE FIUME QUESTION. LONDON, Dec. 9.—Reports that the Italian government had arrived at an agreement with Gabriele D'Annunzio regarding the question of Fiume, which city he has been holding with an armed force, insisting that it was and should remain Italian, were received today in an Exchange. The agency says it understands, in connection with ministerial council held in Rome yesterday, that a settlement with D'Annunzio was reached.

ITALIAN DESTROYER ARRIVES AT SPALATO. BELGRADE, Dec. 9.—Dispatches from Spalato today report the arrival there of the Italian destroyer Irreduzibile, belonging to the squadron of Admiral Millo, who had sided with Gabriele D'Annunzio. The citizens of Spalato, says the message, are greatly excited as the destroyer has on board a superior officer known to have close relations with D'Annunzio.

PARIS, Dec. 9.—Rumors are expected to become a party to the peace treaties with Austria and Bulgaria today.

General and office lights must be cut off at 4 p. m. except federal, state and municipal offices and where the operation of vital industries is involved. Enough heat may be used in offices, stores and warehouses to keep the temperature at 65 degrees during the time light is permitted to operate. Manufacturing plants except food, medicines, sewerage, telegraph, telephone, public utility and newspapers will be furnished coal for operating only. The same restrictions applied to furnishing power. Elevator and electric car service must be curtailed and street car heating must be eliminated during rush hours. Electric railroads, plants, stores and offices are required to cooperate in arranging schedules to permit maximum utilization of transportation equipment. Instead of working three days a week, manufacturing plants may open for half day for six days, it was said here. In any case, however, the time of operation of the plant must not be more than one-half the regular operating time.

POLITICS AGAIN HOLDING SWAY AT WASHINGTON

Clans are Gathering for Tomorrow's Meeting of Republican Committee

CANDIDATES AND ISSUES TOPICS OF CONVERSATION

Receptions Are Held for the "Boys" by Chairman Hays and Other Leaders

BY RALPH F. COUCH, United Press Staff Correspondent. WASHINGTON, D. C., Dec. 9.—Politics, once "adjourned," today was again in full session. The clans were gathering for tomorrow's meeting of the Republican national committee. Political leaders whispered together here today in the "peacock alley" of a famous hotel. For the first time since 1914 the hotel orchestra burst into the stirring strains of "El Capitán," reminiscent of campaign days and political marching clubs. At the office of the building where Republican headquarters are held, the headquarters receptions were held for the "boys" by Chairman Hays, whose critics refer to him as "Mister Will Hays," the young man from Indiana. "Mister Hays" sitting cross-legged on a corner of his desk, said earnestly: "Let us try to get the nation to apply its patriotism to politics as it applied it to winning the war. The people are demanding that the government meet its problems fearlessly."

Cities Are Active. In the corridors of the hotel where tomorrow's meeting will be held, boasters from rival cities schemed to be the first to pin on Hays the great button advertising the city for the national convention.

Yesterday Chicago was said to have the best chance of landing the big meeting. Today the sentiment for St. Louis, which has turned loose an army of 60 workers to greet all delegates as they arrive. The committee today was due to arrive from Chicago, heading another big delegation to work for the convention for this city.

At the same time another trainload of enthusiasts was scheduled to "blow in" from Illinois to shout for Gov. Frank O. Lowden for the Republican nomination. Although the meeting will have nothing officially to do with picking a candidate, rumors of nomination brooms are taking advantage of it to work up sentiment for their favorites. Friends of Senator Harding today planned to open headquarters for him here. The same thing is likely to be done by friends of Maj. Gen. Leonard Wood.

Republican leaders have tentatively decided to hold the convention at St. Louis, Representative Dyer, Republican Missouri, chairman today. The selection of St. Louis at the convention city, he said, would strengthen the Republicans in Missouri and the South. "Women are taking an unprecedented interest in politics," Chairman Hays said today. According to his reports they want Americanism, and end of the threatened Red terrorism, a reduction in the high cost of living and a national budget system, he said.

As for campaign contributions, Hays emphasized the Republicans wanted to get a million or two contributed from "a dollar up"—nothing larger than \$1,000. Just at present, Hays said, the people appear to be taking a wartime interest in peace time government. If that spirit continues, he declared, he had hopes that many "wigs of government" would be eliminated.

BELIEVE WILSON WILL OPPOSE ANY COMPROMISE RESERVATIONS REPORT OF HINES BEFORE PRESIDENT; BASIS FOR MESSAGE

WASHINGTON, Dec. 9.—A special report by Rail Director Hines on the railroad situation is before President Wilson, it was stated at the White House today. This report is expected to be the basis for the President's special railroad message to congress. Hines' report was framed after conferences with Chairman Esch, chairman of the House Interstate commerce committee and author of the Esch bill which has already passed the lower branch of congress and Senator Cummins, whose railroad bill is now before the Senate.

TELEGRAM TO WASHINGTON SAYS MINERS CERTAINLY WILL ACCEPT PROPOSAL OF PRESIDENT WILSON

WASHINGTON, Dec. 9.—A telegram from Attorney General Palmer from Indianapolis received today at the White House saying miners certainly would accept President Wilson's plan for a settlement of the strike was misinterpreted by officials there as saying the miners had accepted the plan, and led to such an announcement. A correction was made immediately afterward. The text of Mr. Palmer's telegram as finally given out with the correction, reads: "Statements will be given out at 2:30 central time. Contempt proceedings have been continued for one week. The miners will meet at 2 o'clock and promptly acquiesce in President Wilson's plan."

INDIANAPOLIS, Dec. 9.—The President's proposal to the striking coal miners, as announced this afternoon by Attorney General Palmer here, provides for immediate return to work by the men under the 14 per cent advance and appointment of a commission to investigate and adjust wages to conform with the increased cost of living.

Mr. Palmer's announcement was made immediately after the miners went into session to consider the proposal agreed upon at the Washington conference. The attorney general expressed confidence that the miners would accept and work would be resumed in the mines immediately.

Mr. Palmer gave out a memorandum and also copies of the President's proposal, both of which were agreed to by Acting President Lewis and Secretary-Treasurer Green of the Mine Workers Saturday night. Mr. Palmer's statement given out at 2:30 o'clock followed. "The President Saturday was about to issue a statement to the country relating the facts in relation to the strike situation and making an appeal to the miners to go back to work. "Mr. Lewis and Mr. Green called on me that day and I showed them the President's statement. They finally agreed to its terms as far as they were concerned and called a meeting of their official boards to consider it, at which time they agreed to urge its acceptance."

A memorandum was prepared, its form being agreed to by Mr. Lewis and myself, embodying in brief the President's proposal and the action which should be taken by the miners. The President's statement will be presented to the miners this afternoon and I am assured that the action indicated will be taken."

The memorandum referred to by Mr. Palmer follows: "In accordance with the request of the President, the miners will return to work by the 14 per cent increase in wages which is already in effect immediately upon the settlement of the strike. The settlement will be based on a general reduction of operations, which shall be in all districts except as to wages, upon which the basis which obtained on October 31, 1918, shall be maintained. A commission of three persons, one of whom shall be a practical miner and one of whom shall be a mine owner or operator in active business, which commission shall consider further questions of wages and working conditions as well as profits of operators and proper prices for coal, readjusting both wages and prices if it shall so decide, including differentials and internal conditions within and between districts. Its report will be made within sixty days if possible and will be accepted as the basis of a new wage agreement, the effective date and duration of which shall also be determined by the commission."

At 2 o'clock the committee of miners was still in session and no word had come from the meeting as to what would be the final action on the President's proposal. OPERATORS APPROVE PRESIDENT'S PROPOSAL. ST. LOUIS, Dec. 9.—The proposition of President Wilson meets with the unqualified approval of the mine operators, according to a statement made by Thomas T. Brewster, chairman of the scale committee of the coal operators of the central competitive field, after a summary of the President's proposition had been read to him here today.

WASHINGTON, Dec. 9.—An official investigation will be ordered by the war department into statements attributed to Lieutenant Melvin W. Maynard of the army air service that the secret of the failure of some of the pilots in the recent trans-continental air race "can be attributed to too much booze."

MAYNARD STATEMENT TO BE INVESTIGATED

WASHINGTON, Dec. 9.—President Wilson's cabinet held its regular weekly meeting with Secretary Lansing presiding.

WASHINGTON, Dec. 9.—President Wilson's cabinet held its regular weekly meeting with Secretary Lansing presiding. AGREE ON BOND FOR BOB BRAZIER. FORT WORTH, TEX., Dec. 9.—A bond of \$10,000 was agreed to this morning by District Attorney Brown for Bob Brazier, who is accused of killing Lee Stuber, former chief of police of Ardmore, Okla. The fatal shooting occurred here Saturday night.

DRASTIC FUEL REGULATIONS ARE ANNOUNCED BY DOCTOR GARFIELD

WASHINGTON, D. C., Dec. 9.—Plants and stores having a supply of coal will, for the present, be unaffected by the new restrictive heating, lighting and the use of power issued as a fuel conservation measure, according to the interpretation at the distribution committee of the railroad administration today. The order was issued by Fuel Administrator Garfield but the railroad administration is enforcing it through its control of the coal supply. The order issued by Garfield is general and its specific application will be left to regional railroad directors and local committees which in many places are co-operating with the railroad administration. The order provides: There shall be no ornamental or other unnecessary street lighting. Cabarets, dance halls and pool halls can use light only between seven and eleven p. m. Stores, except those selling food and light for a period of six hours per day while drug stores and restaurants may remain open under their present schedule providing they reduce lighting one half.

ZERO WEATHER IN SOUTHWEST IS PREDICTION

Lower Temperatures are Forecast for Wednesday—Lowest of the Winter. DALLAS, Dec. 9.—Marked by hardly noticeable snow flurries, a cold wave seeking new low temperature records for the season swept down over Texas today from the Panhandle, where zero weather was felt at Amarillo.

While the northern part of the state saw the mercury in the weather bureau thermometers slide down past the freezing point early today, some of the southeastern cities experienced temperatures exceeding 70 degrees. But the summer warmth in southeast Texas was due to vanish later today, the weather bureau here stated, when the chilly blanket is expected to settle over that section of the state.

Dallas, with the temperature at 22 degrees at 7:06 a. m. faced the probability of another gas shortage, as the Oklahoma state authorities again had cut off one of the gas wells supplying this and other north Texas cities. The fuel situation here, however, was not considered as serious as during the last cold spell, as the city has hauled in considerable wood from the surrounding country. This wood has been hauled through the municipal wood yard in limited amounts to each family. Tonight the temperature in central north Texas is expected to hover between 16 and 8 degrees, the weather bureau announced.

COLDER WEATHER IS WEDNESDAY FORECAST.

KANSAS CITY, MO., Dec. 9.—Zero weather, a biting northwest wind accompanied by snow and depleted fuel bins was the situation that confronted the southwest today. Lower temperatures are predicted for Wednesday.

From Kansas, Missouri, Oklahoma and northern Texas came reports to the weather bureau here of the most intense cold wave of the winter. Snow was reported as far south as Northwest, Northwestern, Kansas, with temperatures from 15 to 20 below, was the coldest part of this section. A temperature of zero prevailed at Kansas City this morning and a minimum temperature of below zero was forecast for tomorrow. SNOWFALL COVERS STATE OF MISSOURI. KANSAS CITY, MO., Dec. 9.—Western Kansas emerged today from a blizzard which swept forward last night with a snowfall covering the entire state and parts of Missouri. Scores of towns were reported without fuel or with only a meager supply on hand. Zero temperatures prevailed today. Reports reached here of towns on railroad branches which are suffering because of curtailment of trains and the coal shortage. Livestock also is suffering.

ZERO WEATHER IS LATEST PREDICTION

(Continued from Page 1)
Reports indicate the worst early winter storm in years.
NINETEEN BELOW IS DENVER RECORD TODAY.

DENVER, COLO., Dec. 9.—Setting a record for the four cold waves which have touched Denver so far this winter, the mercury dropped to 19 degrees below zero at 6 o'clock this morning.

WESTERN COLD WAVE SPREADS EASTWARD.

WASHINGTON, Dec. 9.—The western cold wave today had spread eastward to the upper Mississippi valley, southward to the interior of the great gulf states and westward to the Pacific states, with temperatures below zero as far south as the Texas Panhandle and western Oklahoma. Temperatures were 20 degrees or more below zero in the middle west.
Distribution of pressure is strongly indicative of a prolonged period of cold weather, according to the weather bureau.

The weather will be much colder tonight and Wednesday in Tennessee and the east gulf states and Wednesday in the Atlantic states. Cold wave warnings issued included the west gulf states.
Storm warnings are displayed on the gulf coast from Cedar Key, Fla., to Bay St. Louis, Miss.

DANDRUFF WILL GET EVERY HAIR IN HEAD

Let "Danderine" check nasty scurf and stop hair falling out

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Soon every hair on your scalp shows new life, vigor, brightness, thickness and more color.

TRIAL OF CHINAMAN FOR TRIPLE MURDER

WASHINGTON, Dec. 9.—Trial of Zhang Sun Wan, a Chinese student, charged with the triple murder of Dr. Theodore T. Wong, director of the Chinese educational mission; Chang Hsi Hsi, secretary of the mission; and Ben Sen Wu, an assistant, at the mission headquarters on January 23, was set for today in the district supreme court.

Wan and his brother Tsong Ing Wan, Columbia University student, were arrested in New York. The charge of murder against Wan was dropped and a charge of forgery substituted, when the police were said to have obtained a confession from Wan.
The police claimed they had evidence to substantiate charges that the students planned to enter the mission and secure a check on Dr. Wong's bank account and that after the murder Wan attempted to pass a forged check at a local bank.

BISHOP AND COUNCIL TO MEET ON THURSDAY

CHICAGO, Dec. 9.—The newly elected president bishop of the Protestant Episcopal church and a general assembly which were created by a session adopted at the recent general convention at Detroit will meet Thursday at New York, according to the Right Rev. Charles P. Anderson, bishop of Chicago.

What some reports termed a "rattling" Bishop Anderson said, is merely the council elected by the triennial general convention.

"MINES ARE THERE" DECLINE OPERATORS

ST. LOUIS, MO., Dec. 9.—"The mines are there," was the sentiment expressed today by Southern Illinois coal operators relative to resumption of operations should miners accept the government's newest strike settlement proposal.

Operators said they would continue their stand that the mines are ready for the miners whenever the latter choose to resume work.
Operators here believed firmly the proposition to be put before the miners' convention this afternoon was the original offer of Dr. Garfield for 14 per cent wage increase with the adjustment commission feature.

The coal supply will be back to normal within a week after miners begin production, Thomas T. Brewster, president of the scale committee of the Operators Association said today. He believed the miners' conference would accept the proposal to return to work. "Lewis and Green have accepted," he said. "The others will accept anything they do."

- MORE THAN 200 TRAINS ANNULLED
- PHILADELPHIA, PA., Dec. 9.—New schedules announced today by U. W. Baldwin, regional railroad director, show that 235 passenger trains have been removed from lines east of Pittsburgh in addition to the 17 withdrawn Sunday.

MARKING TIME ON MEXICAN SITUATION

(Continued from Page 1)

Carranza also has recalled General Jacinto Treviño from Europe and placed him in charge of the troops around Mexico City, according to additional advices. General Treviño is said to be a bitter enemy of General Obregon, regarded as the strongest presidential candidate and also of General Hill, Obregon's representative at the Mexican capital.

Senator Fall last night made public a report of evidence discovered by his sub-committee which investigated the Mexican situation. This report alleged in substance that Carranza was backing border raids, that he was implicated in a plot to seize United States territory; that he was seeking an alliance with Japan and was sending spies into this country to stir up strikes, distribute Red propaganda and try to bring about the downfall of the United States government. Photographs of letters alleged to have been written by Carranza showing his alleged implication, accompanied this report.

It was learned that Hermila Ghinda, said to have written a book entitled the "Carranza Doctrine" in furtherance of the anti-American propaganda recently was denied admittance to this country by the state department because of this book.

CAN RESUME WORK ON SHORT NOTICE

SPRINGFIELD, ILL., Dec. 9.—Coal will be hoisted in a majority of Illinois mines a few hours after the miners receive order from their national officers to return to work, according to W. B. Jones, president of the Springfield District Coal Mining Company. "The mines have been kept in shape today by members of the miners' union, ordered to remain at work for that purpose by their officers and operation can be resumed at almost a moment's notice," Jones declared.

DEFER ACTION ON PROHIBITION ACT.

WASHINGTON, Dec. 9.—The house agricultural committee deferred indefinitely today further consideration of various resolutions proposing repeal of the war-time prohibition act.

SECRETARY WILSON URGES ACCEPTANCE

WASHINGTON, Dec. 9.—Secretary of Labor Wilson today telegraphed President John Lewis and other officials of the United Mine Workers urging them to accept President Wilson's proposal for settlement of the coal strike.
"The proposal Wilson declared, points a way out with honor to the government and honor to the miners."
"I cannot too strongly urge you to accept the basis of settlement proposed by the President. I have been associated with him for more than six years and I know that every fiber of his strong nature has been devoted to securing fair play for everybody and particularly for the under dog in the fight. Every blow he has had to bear, and he has had to bear many, has been brought about by his intense earnestness in that direction. You may rely thoroughly upon every promise he makes."
"But aside from that, as a result of stoppage of work in the mines, we are facing the most difficult industrial situation that ever confronted the country. It threatens the very foundation of our social life. In this emergency the government has pointed a way out with honor to the government and honor to yourselves. If my judgment and experience are of any value to you, let me use them in urging you for the welfare of yourselves and the country as a whole to accept the way out that is proposed" by the President.

STORM WARNINGS ARE ORDERED DISPLAYED

WASHINGTON, Dec. 9.—Northwest storm warnings were ordered displayed today on the gulf coast from Cedar Key, Fla., to Bay St. Louis, Miss. Winds will shift to northwest tonight and increase to gale force with much colder weather.

WASHINGTON—The "passing show" was such hot stuff the fire department stopped the performers, claiming the scenery might ignite.

WASHINGTON, Dec. 9.—The "passing show" was such hot stuff the fire department stopped the performers, claiming the scenery might ignite.

HUBERT HARRISON TO CONTINUE SECRETARY CHAMBER COMMERCE

DECLINES OFFER MADE BY INSURANCE COMPANY TO BUY HOME TIME AGO.

RECONSIDERS RESIGNATION

Feels That New Man Would Be Handicapped in Handling Unfinished Business.

Definitely declining the offer of one of the old line insurance companies to be their general agent in this district, Hubert Harrison, secretary of the Chamber of Commerce, who two weeks ago notified directors of the Chamber of Commerce of his intention to leave after the first of the year, Tuesday morning agreed to reconsider the matter and to remain with the organization for the coming year.

"The fact that I feel that there is a great deal of unfinished business to be done before the organization is right away, and that a new man could hardly become familiar with the situation in time to be of the service that he should be in this matter, was the determining factor in my determination," Mr. Harrison stated Tuesday morning.

"During my connection with the Chamber of Commerce I have become very greatly interested in the problems of Wichita Falls and could not definitely bring myself to become separated from the organization which was working on these problems until they were definitely out of the way."

"First the personal side of the relations I have enjoyed with the board of directors constituted another strong pull toward my remaining with the Chamber of Commerce. Working as I have with the men for the past eight months, the association has come to mean a great deal to me, and I was very unwilling to break it."

Mr. Harrison's agreement to reconsider his original decision has met with expressions of satisfaction on the part of the members of the committee to select a new secretary, to whom he communicated his decision Tuesday morning; the more so since the decision is regarded as a sacrifice in the way of financial opportunities of his part.

WAITERS COMPLIMENT WICHITA STATE BANK FOLKS WITH LUNCHEON

The officers and employees of the Wichita State Bank were served with a complimentary luncheon at the bank at noon today by the Cooks and Waiters Union of Wichita Falls. The luncheon was given to the bank in appreciation of its courtesy and cooperation during the year. Fred (Whitey) Hoffling, president of the union, directed the serving. Those present included the following: W. R. Ferguson, W. W. Gardner, Lester Jones, W. L. Stewart, I. W. Karrenbrock, Gus Hook, A. L. Hecht, A. E. Simmons, Mrs. O. L. Smart, Miss K. Putnam, Miss Winnie Crawford, E. Ford, Ross Hampton, Frank Nicholson, R. Stewart and Bob Mathis.

TAR SOCIETY HOLDS SOCIAL MEETING MONDAY

Monday afternoon the Altar Society of the Church of the Sacred Heart was entertained in social session at the home of Mrs. L. J. Bullitt, Mesdames Harrgrave and Bates being joint hostesses with Mrs. Bullitt. Plans were made for the banquet, to be held Saturday, December 13, at the McConnell Furniture Store. A number of garments, to be turned over to the Federated Missionary Society for distribution were brought to the meeting. The social hour was very enjoyable and the hostesses served dainty refreshments, consisting of caramel pudding and fruit cake.

A Hair Beauty Hint

A Practical Bit of Advice on the Care of the Hair. Have you admired the soft, silken abundance of the hair of some of the stars? You, too, can have hair like that. The movie actresses are not endowed with more beautiful hair than the average woman, but they know how to preserve the natural lustre and softness. The secret is a hair tonic. They know the scalp must be kept clean and free from dandruff and that the roots of the hair need nourishment to stimulate the growth of new hair. SPLENEX, THE GUARANTEED DANDRUFF REMEDY, makes healthy scalp and health is the first requisite of abundant, lustrous hair. Buy SPLENEX from your druggist today. Simply apply a little to your scalp every three days and in a very short time you will be rewarded with a remarkable improvement in your hair. Splenox, Coconut Oil Shampoo also helps to keep the hair soft, silky and full. SPLENEX preparations are made by The Splenox Company, Dallas and Tulsa, Okla.

AMUSEMENTS

BILL AT THE WICHITA COMBINES VARIED AND GOOD NUMBERS

Grand opera, a la postage stamp, vied with pantomime burlesque for stellar honors on the Pantages bill, running for three days performance at Wichita theater Monday night. This idea of contrast in the two acts that were really the headliners was carried out in the rest of the bill, no one of the acts bearing any similarity to any other, with the exception of the two singing acts, but those were so nicely varied that there was no suspicion of monotony.

Joe Jackson, the Rialto Singers and Dorothy Lewis were in the greatest favor with the two Monday night audiences. Joe with his catfish grin, too capacious clothes and recalcitrant feet and pockets might have very aptly applied to him Bill Shakespeare's remark concerning the Original Vamp, for time has failed to stale his variety. Joe is the same old Joe who has grizzled his nonconformist way on vaudeville stages of the continent and has the enviable record of busting out more buttons from his audiences than any other two acts on the circuit. Good voices and a pleasing stage personality, both collectively and individually, makes the Rialto Singers act one of the best that has yet appeared on the boards at the Wichita theater. The talking machines have popularized classics to such an extent that a little snatch of grand opera is really appreciated, and this number was a delightful tidbit in the program, which was really a club sandwich sort of a program, highbrow than hamburger or fried egg, but still not too highbrow. The Mistrere, and a selection from Rigoletto were the favorites, and the basso proved himself as admirable a cellist as he was a singer. Dorothy Lewis was exceedingly good to look upon, and "listened easy." Her voice is a rich mezzo contralto, and her selections were chosen accordingly. To an audience fed up on jazz, and a superfluity of exposure she should prove a distinct relief, a figure of attractive and distinctive simplicity, who might have been singing in a drawing room, before a social gathering, just as well as behind the footlights on a vaudeville stage.

The Gloriana Dancers have a good dancing act, offering a variety of dances. Winifred Gilraine and Herford Hartwell are assisted by five girls who are good looking and can dance. A feminine black face act is rather unusual, and such is offered by Bonnie Gayford and Bertie Herron. All the traditions of black face are followed and there is a novel conclusion in the flight behind the scenes, the audience being treated to the disclosures of make up removal. Some of the jokes which are used in this act remind one, however, of the well-known limerick about the young man from Havana, they would scarcely do for a Sunday school banner. And hence we arrive at the opening act. By the way, why are opening acts always last in the review. Must be the working out of that Biblical quotation that the last shall be first, and the first shall be last. Not regardless of the place in the review, somebody must be last. The Shalucks have a good act, an exceptionally fast and clever juggling act. Monday night's bill was exceptionally well received by both audiences, and any bill is just as good as the audience thinks it is. A continuation of such offerings as the recent ones from the Pantages circuit, and the announcement that the Orpheum circuit will from this week on supply half the week's entertainment, should insure theater goers of Wichita Falls as good an entertainment as could be desired, and should, judging from the packed house that greets the program each night, make it necessary for Messrs. Kirkpatrick and Trotty to have an airplane built on the house, a la the latest approved old town methods of adding more space.

SOTTY AITKEN SECURED FOR LOCAL PRODUCTION

The local office of the Wichita Falls Film company has just received a report from Nat Deverich, the director, of "Witch's Gold," that work on the interiors for the picture has started and is proceeding rapidly. Mr. Deverich also reported that he has signed Spottiswood Aitken to play the part of the heroine's father in the story. Spotty Aitken, as he is called in motion picture circles, is the man who has played various character roles in many of Griffith's productions, in Paramount pictures and was also associated for some time with Ince. Local fans will undoubtedly recall him in the picture which recently exhibited in Wichita Falls, called "Her Kingdom of Dreams." In this production he supported Anita Stewart in the character of her father. Mr. Deverich also reports that he

Sold Everywhere Ask your dealer or write to the Dept. of Virginia Dare Wine, P. O. Box 100, Raleigh, N. C. GARRITT & CO., Inc. Best Terminal Bldg. 10, Brooklyn, N. Y.

has signed up Billy Elmer to play the part of the head drifter in the story. Billy Elmer will be recalled as the man who for some time has played with the Paramount people in heavy character parts such as detectives, etc. An interesting incident in the story called for the injury of a dog by an automobile. In order to have this point clearly shown Mr. Deverich has secured a pair of dogs that are used in productions for just this purpose. These dogs are exact doubles with the exception that one of them has a broken and crooked leg. Both of them are real actors and have worked in front of the camera for some of the biggest producers in the country. The action will show one of the dogs rushing in front of a machine where he is supposed to be injured. Then the other dog will be substituted and will carry out the balance of the scene. Mr. Harrova, who is handling the organization details of the company in Wichita Falls, made the following statement to a Times reporter: "Every

STOMACH O. K. Indigestion, Acidity, Sourness and Gases ended with "Pape's Diapepsin"

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once. When your meals don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, undigested food, when you feel lumps of indigestion pain, heartburn or headache, from acidity, just eat a tablet of Pape's Diapepsin and the stomach distress is gone. The cost is little. The benefits so great. You, too, will be a Diapepsin enthusiast afterwards.

Passing of Pioneer News Paper.

The demise of the St. Louis Republic through its sale to its morning competitor, the Globe-Democrat, marks the somewhat inglorious ending of a newspaper that began publication back in 1845.

There must be a Scotch strain in Herbie Hoover. Given an appropriation of \$100,000,000 for the relief of starving peoples in Europe, Hoover cannily arranged so that only \$11,250,000 of the fund was given away outright.

Just what contributed chiefly to its downfall is a matter of diverse opinion. Tremendous increases in the cost of issuing a newspaper helped to the extent of hastening it perhaps; ever increasing competition in its home field and in the field in which it used to be dominant helped.

Some of the most capable newspaper men in the country were brought to St. Louis to lift the Republic out of the rut. They failed, one after the other, and the publication has been a losing venture for a good many years.

THE NEWBERRY CASE. The Newberry campaign committee confessed to having spent \$175,000 to secure the election of Truman H. Newberry as senator from Michigan.

It will be a source of mortification to every right-thinking American, regardless of party ties, that a man regarded as big enough for the senate should be under a felony indictment for corruption, fraud and conspiracy.

Montana had its Clark, Wisconsin had its Stephenson. Has Michigan its Newberry?

begin to wonder if their enthusiasm was misplaced; if the opponents of suffrage were correct when they declared that the women did not want to vote. We confess we thought they answered that statement quite unequivocally last summer when the women voted almost as numerous as the men.

There must be a Scotch strain in Herbie Hoover. Given an appropriation of \$100,000,000 for the relief of starving peoples in Europe, Hoover cannily arranged so that only \$11,250,000 of the fund was given away outright.

"I have been shocked," said Lieutenant Maynard, the "flying parson," by the lack of clothes worn by women at receptions I have attended in New York.

Little Benny's Note Book. By Lee Pape. A wry, wry, wry G. I. don't want to go to bed, aw heck, aw so, wry do I always have to go to bed, aw no, ing to cry my second, and his ing to cry my second, and his mother called up, all right all right, don't carry on like that, you can stay up a little longer, for mercy sake.

And she called up about 3 more times, and each time Sam scolded as if he was almost going to cry, and he left him stay up longer each time and last time I was up in our setting room reading Fred Fernswar in Africa in a fireproof, being exciting as anything, and pop was sneaking and reading the sporting page, and ma was nitting with no expression, and my sister Gladie was writing a letter to somebody, and pop sed, Benny.

UNITED FRONT IS PRESENTED BY THE ALLIES

British and Italian Delegates Notified Governments Ready for Business

By HENRY WOOD
(United Press Staff Correspondent)
PARIS, Dec. 9.—The Allies today presented a united front to Germany in their demand that she accept the protocol to the peace treaty.

Both British and Italian delegates received notifications from their governments that they stand ready to carry out the proscribed penalties should the Germans refuse to sign.

Meanwhile there was a feeling of confidence in both Paris and London that Germany will sign. The Germans, it was believed, have concluded the failure of the United States to ratify the treaty has not put the Allies in a position where they are forced to back down upon their original demands.

A distinct softening in the German attitude was apparent.

No False Hopes
"We have no false hopes over the situation in Washington," one member of the German peace delegation admitted. He insisted Germany's attitude toward the protocol never had been based upon a hope that the United States would come into the breach in behalf of the German republic.

"We know that Senator Lodge is no friend of Germany," the peace delegate admitted.

The Allies' demand in the notes delivered to Baron Kurt Von Lersner, head of the German delegation here, late yesterday were considered, as at once a partial meeting of German objections and as voicing complete determination of the Allies to stand by their course in the matter how harsh it be to the Germans.

Partial Concession
The Soaps Flow note, which agreed to submit this matter to the reparations committee in a spirit of equity was regarded as a partial concession to Germany.

The return of German prisoners of war, however, was denied. This has been one of Germany's bitterest complaints. The Allied demand for surrender of Germans guilty of crimes against the rules of civilized warfare also is renewed.

The supreme council yesterday reconsidered the petitions of Brazil and Uruguay that they be allowed to keep interned German ships which have been in their hands during the war. The American delegation, it was understood, supported the South American contentions, which are based largely on the fact the United States was awarded certain interned ships which had been in their possession.

AEROLOGICAL SCHOOLS ARE BEING ESTABLISHED
HOUSTON, TEX., Dec. 9.—The navy recently has established aerological schools and experiment stations throughout the United States to study air currents with a view to the needs of future aerial traffic, it is announced here.

Upon a staff of weather experts will largely depend development of commercial air fleets, it is believed, and navy meteorological stations are planning to supply the data by which these fleets will be navigated.

Direction and speed of winds, obtained by scientific observation, also will be of assistance in range-finding for big guns, as well as for aerial navigation.

Aerological stations will be equipped with ships for use as aircraft tenders, dirigible balloons, balloons and most modern meteorological instruments.

The first of the new aerological schools has been established at Pensacola, Florida.

If Too Thin Try Bitro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well known fact that the lack of phosphorus in the human system is very largely responsible for this condition.

It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate which can be obtained from any good drugist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nerve tension disappears, vigor and strength replace weakness and lack of energy and the whole body loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

—Ad.

REFINERS SECRETARY ISSUES A STATEMENT

TULSA, OKLA., Dec. 9.—A committee representing the Western Petroleum Refiners Association will leave here for Washington Tuesday for the purpose of advising the administration as to the refining situation in the mid-continent field, according to action taken Monday at the meeting of advisory board of the association. The committee will seek to refute the charges of profiteering that have been made. The committee consists of Pat Malloy, president, and Fred Lehman, secretary of the association; E. M. Miskell of Tulsa, and E. W. Gobel and F. H. Thwing of Kansas City, Kansas.

At the conclusion of the meeting, Fred W. Lehman, Jr., secretary of the Refiners Association, handed out the following press statement:

"A grave injustice has been done by the refiners of the mid-continent field by the charge that they have profited in the sale of fuel oil. This charge has been made largely because they sold fuel oil at unusually low figures for the past year, much below the cost of production, and because recently a few speculators have taken advantage of the situation to charge prices much above the low level existing following the signing of the armistice. This was the consensus of opinion of the refiners who met here today and determined to send a committee to Washington at once, armed with the facts, for the purpose of advising the administration as to the situation. At the same time the general opinion was expressed that despite the losses of the past, no prices in excess of about \$3 a barrel (f.o.b. refinery Oklahoma) would ultimately be approved by the government."

MAYNARD SAYS BOOZE SECRET OF THE FAILURE OF SOME OF THE PILOTS
NEW YORK, Dec. 9.—Lieutenant B. W. Maynard, the "flying parson" is quoted in a statement issued by the Aviation League of New York as saying "the secret of the failure of some of the pilots in the recent trans-continental race can be attributed to too much booze."

Maynard, who is now in Savannah, Georgia, is credited with making the statement just before he left for that place.

"I have seen men who never flew unless they were half intoxicated," Maynard was alleged to have said. "I have seen some who always took a drink before flying. I have seen others who flew with a hand over their eyes and I have seen still others who never touched a drop."

"Many of our fatal accidents have occurred in connection with the first three cases I have mentioned."

Referring to the recent cross country flight, Maynard was quoted as concluding "if all of them had been as sober as myself I probably would not have been a winner."

PREACHERS COMPELLED TO WORK FOR LIVING
CHICAGO, Dec. 9.—One preacher, a paper hanger in spare moments, another a barber and a third a shopkeeper were reported here today as a result of an inter-church investigation of spiritual affairs in Illinois.

"SYRUP OF FIGS" IS LAXATIVE FOR CHILD

TRIAL OF NEWBERRY IS SET FOR JAN. 27
GRAND RAPIDS, MICH., Dec. 9.—Trial of Truman H. Newberry of Detroit, United States senator from Michigan and fourteen others indicted on charges of fraud and corruption in connection with Newberry's election in 1918, will begin before District Judge Clarence W. Sessions in federal court here January 27.

The date was agreed upon by Judge Sessions and attorneys representing the defendants after completion of arrangements today, when the senator and 24 of his principal campaign leaders stood mute and pleas of not guilty were directed by the court.

The defense of the court to end defamers was indicated by James O. Murfin of counsel for the defense, who in complaining that no plea would be entered by the defendants declared "there are grave fundamental questions which we are sure to present, charging the validity of the indictments."

NEW METHOD FOR ADMINISTRATION OF EPISCOPAL CHURCH

NEW YORK, Dec. 9.—A new method of administration of the Protestant Episcopal church adopted at the recent triennial convention in Detroit, will make New York City to that denomination in many respects what the city of Rome is to the Roman Catholic church, says the New York Herald today.

According to the Herald, the Episcopal church in the future will be directed by a presiding bishop and a body of 31 to be known as the council of the Protestant Episcopal church. The presiding bishop, it is stated, will be the Right Rev. Thomas F. Gallor, bishop of the Episcopal diocese of Tennessee who will come here shortly to take up his new work.

Bishop Gallor's functions are said to correspond in many respects with those of the pope in Rome and those of the council with the functions of the Roman Catholic College of Cardinals. Unlike the pope, however, who is elected for life, Bishop Gallor will hold office only for six years when an election will be held.

Selection of New York as the Episcopal center, says the Herald, was made at the first meeting of the council held secretly in Washington on November 25.

VERNON TO HAVE SCHOOL REGARDLESS OF FUEL; BUSINESS IS AFFECTED

VERNON, TEX., Dec. 9.—Even if every every pound of coal provided last spring by the city school board is confiscated, school should be continued, in the opinion of B. B. Sherrill, secretary of the board, who advocates that, should things come to that extreme, the children should be sent to school anyhow, with extra clothing to take the place of warmth now supplied by the furnaces. Mr. Sherrill cites the open air winter schools of Kansas City, where children study in zero weather with no fires in the school rooms at all.

Churches here have been ordered to cut down Sunday services to one a day. Picture shows will not be allowed any coal and all coal is sold on permits countersigned by the mayor and the secretary of the Chamber of Commerce. No purchaser who has as much as 100 pounds of coal is allowed a permit.

How about a nice Auto Steamer Rug or Porch Blanket for a Christmas present? Sale going on at Peoples Stock Exchange, corner Seventh and Ohio. See ad on page 6. 193-11p

BLUEJACKETS TO HAVE OPPORTUNITY TO SHOW THEIR MARKSMANSHIP

WASHINGTON, Dec. 9.—American bluejackets will be given an opportunity to show their marksmanship on real battleships steaming at full speed under actual battle conditions if plans now being worked out at the navy department materialize. The bureau of ordnance, it was learned today, contemplates taking several obsolete ships to the target range and using them for targets moving at full speed. There would, of course, be no crews aboard the target ships, which would be steered by electrical control system, probably from an aeroplane or a vessel.

In this manner it was pointed out at the department, the battleships could be maneuvered under conditions approximating those of battle. Smoke screens would be interposed between the targets and the fleet to simulate a destroyer smoke screen. Ordnance officers believe the experiment will provide the gunners with the most valuable target practice system ever used by any navy.

A number of old battleships, condemned to the scrap heap or sale for junk, are available for use as moving targets under the department's new plan. Among them are the Iowa, Indiana and Massachusetts. It is expected that several more of the old ships will later be used for the same purpose, including the Kentucky, Courango and Illinois, Wisconsin classes.

GET SLOAN'S FOR YOUR PAIN RELIEF

Just one trial convinces you Sloan's Linctment helps drive away rheumatic twinges.

WHY endure pain when you know Sloan's Linctment will relieve it promptly? It couldn't remain the World's Linctment for 38 years if it wasn't highly beneficial in relieving rheumatic aches, stiff joints, sore muscles, lumbago, neuralgia, strains, bruises, exposure to weather results. *Feminine ailments* rubbing, leaving no stained skin, clogged pores, mussiness. A pain and ache linctment that stands alone in doing what it is irrant to do. Get a bottle today and keep it handy. All druggists. Three sizes—35c, 70c, \$1.40.

LOCAL RAILROAD MAN WANTED IN KENTUCKY

J. H. Davison, local railroad official, was taken into custody Monday afternoon on a warrant issued by United States Commissioner Lantz in which it is alleged that Davison is wanted in Kentucky on a charge of using the mails to defraud.

Commissioner Lantz stated Tuesday that Davison was indicted by federal grand jury at Louisville last October. The indictment alleges that Davison was implicated in an oil promotion scheme which used the United States mails to defraud. Literature giving also information regarding certain oil lands in Oklahoma was sent through the mails, the indictment states.

Davison was released on bond fixed by Commissioner Lantz to the sum of \$1,500.

DALE HAVEN EMPLOYED BY FIRST PRESBYTERIAN CHURCH

The session of the First Presbyterian Church has employed Dale Haven of Greenfield, Ill., to have charge of the young people's work of the church. He will assume his duties at once.

Mr. Haven has assisted in two evangelistic meetings at the church here with Dr. Hendricks, having charge of the singing at the services. He is a musician of talent, and is very popular with all members of the church.

The meetings which have been in progress at this church for several weeks will come to a close tonight. There will be no prayer meeting service Wednesday night.

WOMEN AND GAMBLERS ARE ARRESTED AT NEWTOWN

More than 20 women have been taken in raids conducted by the sheriff's department during the past two weeks upon rooming houses at Newtown and other places in the Wichita oil fields. County officials visit the oil settlements each night and investigations of all suspicious rooming houses are being made. The women have been charged with vagrancy following their arrest.

At least 20 men charged with gambling have also been taken into custody at Newtown following raids carried out by county officials at that place.

Four women were taken Monday night in a raid by deputy sheriffs upon a rooming house in Newtown. The women were brought to Wichita Falls in an automobile and lodged in the county jail. Charges alleging vagrancy were filed in Justice Gwin's court against those arrested. The raid was carried out by Deputy Sheriff J. M. Allen assisted by two other county officers.

One of the women who said she was the proprietor of a rooming house at Newtown, was released Tuesday morning after the payment of a \$1.50 fine.

Save five or six dollars on an all-wool auto robe, steamer rug or porch blanket. U. S. Contract Co., Peoples Stock Exchange, Seventh and Ohio.

PHYSICIANS MEET IN FORT WORTH TODAY

FORT WORTH, Dec. 9.—Three hundred and fifty north Texas physicians and surgeons began their annual session here today.

ATLANTIC FLEET TO LEAVE FOR CUBA

WASHINGTON, Dec. 8.—The main body of the Atlantic fleet will leave eastern seaports for Guantanamo, Cuba, January 2, Secretary Daniels announced today.

Where Can I Find Relief From Itching, Terrifying Eczema?

Question on Lips of Afflicted. Reached by going deep down to its source, which is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is U. S. S., which acts by cleansing the blood. Get a bottle to-day, and you will see results from the right treatment. Medical advice free. Address: Medical Director, 48 Swift Bldg., Atlanta, Ga.

There is a harassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be

PEACE REIGNS AT ANNUAL MEETING OF AMERICAN LEAGUE

By HENRY L. FARRELL.
(United Press Staff Correspondent.)

NEW YORK, Dec. 9.—Instead of a first full of brass knuckles, the warlike elements of the American League many bring to their meeting little cards, "We love everybody."

The first real move toward planting olive trees in the war devastated garden was made by Ban Johnson himself. The league boss decided to call off his meeter tomorrow in Chicago and bring his five "faithful magnates" to New York for the meeting called by the board of directors.

What oil so far has been poured on the troubled waters is credited to Frank Navin, boss of the Tigers, who, it is said, stepped into Garry Herrmann's shoes as a peace maker and made a good job of it.

The baseball clans were gathering here today from the east and west. The wise men of baseball, as it were, following the star of peace. All of the National League moguls checked in early for their annual season starting today.

All of the notables were present and most of them had their managers in tow. Talks of trades were many and varied. John J. McGraw, just in from his Cuban race track, was getting ready to talk business with St. Louis. It was said, and Pat Moran, the Red boss, was all set to swing one part of a big deal involving St. Louis, Boston, New York and Cincinnati.

The American League forces mobilize tomorrow.

SAYLOR KNOCKED OUT BY JACK PERRY

FULTZ AGAIN PRESIDENT INTERNATIONAL LEAGUE

NEWARK, N. J., Dec. 9.—Transfer of the Newark franchise to Syracuse, reelection of David L. Fultz as president with an increase of salary and increase of the salary limit and club members were the most important accomplishments of the annual International League meeting.

ENTHUSIASTIC WELCOME IS GIVEN CARPENTIER ON HIS RETURN TO PARIS

PARIS, Dec. 9.—Georges Carpentier, the French fighter who won the championship of Europe from Joe Beckett at London, returned to Paris yesterday evening.

I have signed nothing, I am waiting for others, I want a little time to let it over.

Seldom has a conquering hero returned from a victorious campaign received such a welcome as did Carpentier. Fifty 15,000 persons were crowded into the North station, cheering and singing "The Marseillaise."

The French promoters are pleased that Carpentier has not signed any agreement with C. B. Cochrane, the British promoter.

M. De Coint, manager of the Wonderful Sporting club, who Saturday sent a cablegram to Jack Dempsey offering to deposit whatever amount Dempsey would ask for a 20-round fight with Carpentier on July 14, informed the Associated Press that he will deposit 1,000,000 francs with the Equitable Trust at Paris tomorrow to guarantee Dempsey's end, although the American champion has not yet replied to his message stating his terms.

O'ROURKE IS ODDER FOR NEXT BIG FIGHT

NEW YORK, Dec. 9.—Tom O'Rourke, manager of Fred Fulton, is a bidder for the Carpentier-Dempsey fight. He has announced he will put up \$195,000 to be split 60-40 with the provision the winner meets Fulton within nine months after the fight.

PROBLEM OF MARKET OR STORAGE FACES PRODUCERS OF LOCAL FIELD

Declaring a pipeline a common carrier and forcing it to accept a common carrier status, or the voluntary acceptance of a similar status does not solve the problem of disposition of production, despite the general opinion to the contrary. A letter received from a reader of The Times in Fairmont, W. Va., which follows, shows this misunderstanding, which seems to be general:

A market is necessary for the oil, and before it is offered to a common carrier for transportation some market or storage point is necessary, for a pipeline cannot be forced to buy oil or to store it. A common carrier is bound by the laws of the state to accept oil for transportation, or, if the capacity prevents acceptance of the full amount tendered, to run a prorated part of the oil offered.

There have been no instances reported to the Wichita Falls Producers and Refiners' association, it was stated by John W. Thomas, the general manager, where pipeline companies refused to accept oil for transportation to a certain point, except in the case of companies that have persistently denied being common carriers. Very few producers have offered production for transportation, for the reason that the pipeline companies are at present practically the only market that the field affords for production.

The problem of a market, or of storage, such as other lines of industry have found necessary, is facing the producers for the first time in the history of the oil business. The field, since in the fields other than Burk Burnett the pipeline companies and dealing interests with lines in the field have been able to care for all the oil produced. With a lack of storage, both in the field, and at terminal points, which is accessible to the individual operator, it can be readily seen that the situation at Burk Burnett has been little changed by declaring the lines a common carrier, except for the raise in the price of crude. Putting all lines on a common carrier status can afford an equitable distribution of the runs, if the operators have some means of disposing of their oil, but, of course, cannot increase the runs, nor can not force the transportation companies to buy oil.

The letter from Rev. G. W. Guthrie of Fairmont, W. Va., contrasts two items regarding the pipeline situation in the Wichita Falls district, and presents some of the questions that doubtless occur frequently regarding

own oil to their tanks at various points.

The result is that relief is very slow in being secured and that probably many months will elapse before the little fellows can get their oil run, and meanwhile those lucky enough to be connected with pipeline are only getting a small portion of their oil run and at long separated intervals, and the other small fly operators, who have been unable to get relief through pipeline service must necessarily shut in their wells and wait idly while the luckier neighbors may be daily pulling the oil over the side lines to their own wells and marketing it, so that by the time an adequate relief is available half or more of the oil from the newly developed leases will probably disappear, and the new wells when they are brought in probably will not produce more than a quarter of the oil that they would furnish if they could get immediate disposition of it.

The above compared with the following, by Mr. Hornaday in the Pittsburgh Dispatch, set forth as the "Comment on the reports made by the Oil and Gas Department of the State Railroad Commission":

It is significant that although the pipeline lines are common carriers and have filed their tariffs, and although it has cost the federal and state governments great efforts to impress upon the pipeline companies their common carrier character,

very few producers avail themselves of their privilege of reaching an independent market by using the pipeline of this state. The railroad commission of Texas is doing all in its power to see that the independent shipper may use these common carriers on fair terms and without discrimination, but so far few have availed themselves of their privileges.

Now as between the statement of "one of the experienced operators of the field," and the "Comment on the reports made by the oil and gas department," there is manifestly something wrong. One states that a small operator can not run his oil, the other states that the small operator has been given the opportunity to run his oil; but he does not avail himself of the opportunity.

The operator and the department seem to be strangers. The one feels that he is at the mercy of the pipeline companies and no mercy is shown.

The department feels that they have required the companies to extend this mercy and the operators will not accept of it. Would not a "get-together" plan of co-operation between the operators and the department of oil and gas, state railroad commission, help the situation much?

We of distant states read many articles such as Mr. W. D. Hornaday has written, and as consequence, I dare say that millions of monies have been invested in your state for the development of its natural resources. Those whom we have entrusted with the operating have been reasonably successful, but claim that they can not get the products to market. Mr. Hornaday's comment of the oil and gas department, states that the producers do not avail themselves of their privileges to market their product. What are the facts. Sincerely yours,
Geo. W. Guthrie.

NOVO POWER

Six Advantages of Novo Power

Reliability Economy Efficiency
Compactness Simplicity Durability

Six reasons, in six words, for the employment of Novo Engines and Outfits by oil operators.

Also, Novo Power doesn't keep a rush job waiting. Because Novo Equipment is light and compact, it travels fast by train or truck; it is quickly set up and set work.

The Price of Pork Chops and Bacon

Here are reasons why the fine, fresh pork tenderloins and pork chops, or savory ham, or crinkly bacon, which you enjoy for breakfast, cost much more per pound than the market quotation on live hogs which you read in the newspaper:

An average hog weighs 220 pounds.

Of this, only 70 per cent (154 pounds) is meat and lard.

So, when we pay 15¢ a pound for live hogs, we are really paying more than 21¢ a pound for the meat which we will get from these animals, even after taking into account the value of the by-products.

But people show a preference for only one-third of the whole—the pork chops, fancy bacon, and choice cuts from juicy hams.

This means that when we are selling Premium bacon at 43½¢ per pound wholesale and Premium hams at 30¢, there are other parts for which we get as low as 6¢ or 8¢ per pound. The net result is an average profit to us of less than 1¢ a pound.

The choice cuts are higher because of a demand for them.

Another thing: Only 35 pounds of the entire hog—or about 1/6 th—is usually marketed at once. The rest must be pickled, cured, or smoked. This takes months, and adds to the costs which must be met.

EXPECT AN ORDER FOR NEW ELECTION IN MICHIGAN CASE

WASHINGTON, Dec. 9.—Henry Ford's chances of being seated in the Senate, even should Truman H. Newberry, now holding the place, be convicted of the charges of fraud and corruption, appear to be remote, according to a reliable opinion here today.

It was believed the approaching Senate investigation will result in ordering a new election, in case irregularities are discovered.

Newberry's case is the first to come up since direct election of senators by popular vote began and the Senate is somewhat confused in applying the precedents.

The William Lorimer case, however, was cited as a parallel, the Senate having voted to expel him after charges had been made that there was corruption in the Illinois legislature, which elected him. A new election was ordered in that case.

COMPLAINT IS FILED CHARGING FORGERY

Fred Wilson, said to be an employe of an oil company, is charged with forgery in a complaint filed in Justice Gwina's court Tuesday. Wilson waived preliminary hearing Tuesday and was bound over to the grand jury on bond fixed at \$1,000.

Wilson is being held in jail in default of bond. He was taken into custody Monday afternoon by county officials.

WAR RISK INSURANCE CASES ARE SETTLED

AUSTIN, TEX., Dec. 9.—N. W. James, intermediary of the War Risk Insurance bureau in Texas, said a number of delayed cases have been settled as a result of his work and the close co-operation of the American Legion and the Red Cross. Mr. James has succeeded in getting 45-hour service with the bureau at Washington. He investigates the cases from the local end and as a result many claims which have been complicated by volumes of correspondence are cleared when Mr. James learns from the bureau just where the hitch is and then gets in touch with the claimant.

OIL PROPERTY ABSTRACT NOW BEING COMPILED

Hundreds of thousands in rendition, and thousands of dollars in taxes will be gained for the county, it is the belief of County Judge Jones and the county commissioners, through the possession of an accurate abstract of all oil lands of the county, showing the fee owners, royalty owners and lessee-owners of each tract of oil land. Everett Hughes, who is an expert abstractor, and whose knowledge of all the companies and operators in this field is very comprehensive and detailed through his publication of an oil directory, has been employed by the commissioners to prepare this abstract.

The Wichita county fields are split up into so many small tracts, and the royalty has been split into so many interests, as to make the preparation of the tax rolls a very difficult problem, so much so that the assessor and the commissioners believe that many hundreds of thousands of dollars worth of taxable property has escaped taxation this year, and will escape until the assessor has a complete list as is being prepared to assist him in his work.

WEATHER INTERFERES WITH Y. W. C. A. DRIVE

A drop in activities in the Y. W. C. A. drive followed the drop in temperature Tuesday morning, and but few of the workers were hardy enough to continue their house to house and store to store canvass as had planned. Practically all were waiting today for warm weather before resuming their canvass, and only a few new subscriptions, the most of them voluntary, were reported today at the Y. W. C. A. The total of the men's subscriptions to date is a little more than \$182,000, a mistake having been made, it was stated today, in totaling up the subscriptions on Monday, when the total was announced around \$187,000.

The women's subscriptions reported are over \$2,000, there being over \$300 in cash. The final reports are to be made on Saturday, the men to make their reports at a luncheon to be given at noon at the Y. W. C. A. Cafeteria while the women's reports will wait until the tag day is ended, and will come in at six o'clock, at the recreation room.

A man arrested at Newtown Monday night is being held in the county jail in connection with the theft of clothing material valued at \$150 from a Wagoner City store. The alleged theft is said to have been committed several days ago but no arrest had been made pending complete investigation by county officials. The man was brought to Wichita Falls following his arrest at Newtown by Deputy Sheriff J. M. Allen.

ACTION ON MEASURE FOR RELIEF OF SUGAR FAMINE IS EXPECTED

WASHINGTON, Dec. 9.—Congressional action on the McNary bill designed to relieve the sugar famine, was in sight today.

McNary will try to have the Senate dispose of the measure this week and hopes to get House action before the holiday recess. The bill continues through 1920, the sugar equalization board which, without this legislation would go out of existence January 1.

McNary and other supporters of the measure, declare it will relieve the sugar shortage in this way: "If the equalization board is continued, they say, it will try to arrange for purchase of Cuban sugar at the most advantageous price, at the same time fixing the price which may be charged the consumer.

If the board is not continued beyond January 1 a scramble for sugar will occur and dealers, freed from government price restrictions, will run prices up to as high as 25 or 30 cents a pound, retail, some estimates fear.

FORMER CHAPLAIN FALLS FROM A SEVENTH STORY

PHILADELPHIA, Dec. 8.—The body of Rev. Edward B. Henry, a former chaplain in the United States navy, who fell to his death from a seventh story window of a hotel here yesterday, will be taken to his former home at Winthrop, Maine, for burial, it was announced today. A deputy coroner, who investigated the case, said Father Henry, who at one time was connected with Catholic churches in Portland, Maine, probably was seized with an attack of vertigo after he had raised a window in his room and fell out.

J. R. Kirk, the young man who was slightly injured in an automobile collision Sunday night, left the Wichita General Hospital Monday. His injuries were found to be confined to bruises about the head.

U. S. ATTORNEY DUE SATURDAY TO MAKE BOUNDARY INQUIRY

Assistant U. S. Attorney General Nedecker, first assistant to A. Mitchell Palmer, will be in Wichita Falls Saturday to go over the local end of the Texas-Oklahoma boundary controversy, according to information received by T. H. Bass and associates, who are interested in large tracts of land in the area which Oklahoma is attempting to lay claim to.

Mr. Nedecker will go to Grandfield, Okla., also it is stated, to go into some counter claims of Oklahomans, according to local information. Trouble has arisen recently over some overlapping placer mining claims on the Oklahoma side, and the first of the week the two factions were reported on the verge of a clash. The property in question is understood to be north of the General Oil Company's second lease, and the Durk Divide north of the same lease, or portions of the same lease.

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidney, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Wichita Falls Times.

FOURTEEN PRISONERS ARE HELD FOR U. S. AUTHORITIES

Fourteen federal prisoners are detained in jail here, Deputy United States Marshal J. B. Mayo announced Tuesday. Some of the prisoners are held in the county jail while others are detained in the federal ward in the court house. United States Marshal Mayo said that alleged violations of the Mann Act is the most common federal offense here. Other common offenses in the Wichita Falls district are use of the mails to defraud, and violations of the federal liquor laws.

TWO ARE RELEASED ON BOND MONDAY

A. L. Horton, former deputy constable in the Burk Burnett precinct, who was arrested recently on a white slavery charge, was released Monday afternoon on bond fixed at \$500. Deputy United States Marshal J. B. Mayo announced Tuesday. Mrs. Margie Wallace, recently arrested on a charge of conspiring to violate the Mann Act, was also released Monday afternoon on a bond fixed at \$250. She is charged jointly with H. H. King, former policeman here, with conspiracy to violate the Mann Act. King is being held in jail in default of bond.

OIL MEN LOOK

My Moving Pictures of Texas oil fields can't be equalled, especially this field here. Pictures cover entire fields from Fowler No. 1 to Kemp-Munger Allen. \$250.00 per 1,000-foot reels. Be quick.

SIX ABOVE ZERO IS RECORDED HERE TUESDAY MORNING

FORECAST COLDER WEATHER

LOWEST TEMPERATURE OF SEASON REACHED IN DROP OF OVER 40 DEGREES.

Mercury May Go to Zero Tonight—Gas Supply Holds Up Fairly Well.

With the coldest weather of the season Tuesday morning, a still lower drop in temperature was forecast for Tuesday night and Wednesday morning. The low mark Tuesday was six degrees above zero. This was recorded at about 7 o'clock on the recording thermometer at Art's store. This was a drop of more than 40 degrees from 4 o'clock Monday afternoon.

All of the local schools suspended for the day on account of inability to keep the classrooms at a comfortable heat. However, it was stated that an effort will be made to resume classes tomorrow.

At the railroad offices it was reported the cold wave was general over this section with snow falling at Childress and points further north. The coal shortage is still serious, both the Denver and the Katy offices state, and the matter of fuel to keep the trains running is causing grave concern. "We are forced to a hand-to-mouth policy in regard to coal," a representative of the M. K. & T. said Tuesday, "and are rushing the converting of our locomotives into fuel oil burners as fast as possible."

At the present time the M. K. & T. has eight oil burning engines in freight service, with three more that will be available in a few days, and one passenger engine equipped for oil, which will be put on the North-western branch between here and Frederick.

The Denver has 14 freight engines using oil, but no passenger engines have so far been put in service. However five of the latest oil burning locomotives are expected to be received here for use in the passenger service in the next few days. This railroad is also contemplating replacing the coal burners as soon as possible and as far as practicable.

EXPLOSION OF GRAIN DUST IS DESTRUCTIVE.

HOUSTON, TEX., Dec. 9.—Explosions of grain dust in grain elevators cause loss of millions and destroy millions of dollars worth of property. Paul Mann, representing the United States Grain Corporation, told the Houston Grain Exchange.

Mr. Mann demonstrated how explosions occur. He placed a light in a small model of a grain elevator, then blew grain dust into the lighted chamber with a hand bellows. The explosion was instantaneous. Starch dust was exploded in the same manner.

To strike a match in an elevator where there is grain dust will inevitably cause an explosion, Mr. Mann said, and smoking in a grain elevator is dangerous.

The explosions, Mr. Mann pointed out, are not due to gas, but to carbonaceous matter in the dust.

Cuticura

For Skins that Itch Burn and Scale

Bathe the affected part with Cuticura Soap and hot water. Dry gently and rub on Cuticura Ointment. This treatment is usually best on rising and retiring. For every purpose of the toilet, bath and nursery the Cuticura Toilet Trio is ideal. The Soap to cleanse, the Ointment to soothe, Talcum to powder and perfume.

See 25c, Ointment 25 and 50c, Talcum 5c. Sold throughout the world. For sample each free on request. Cuticura, Dept. 137, Malden, Mass.

Callus? "Gets-It" Will Peel It Off

Nothing on Earth Like Simple "Gets-It" for Corns or Calluses.

A callus, or thickened skin on the sole of the foot, which often makes walking a misery is of the same nature as a corn. "Gets-It" removes it as easily as it does the toughest corn. By using a few drops of "Gets-It" on the callus, you will be able to peel it off with your finger, in one comfortable place just as you would a banana peel. It leaves the skin free and smooth, although you may have to use it a few more times. "Gets-It" is the national corn remover, the biggest on earth, used by millions. It is "Gets-It" the only one, guaranteed money-back corn-remover, costs but a trifle at any drug store. Mfg'd by Dr. Lawrence H. Co., Chicago, Ill.

Sold in Wichita Falls, and recommended as the world's best corn remedy by Mack Taylor Drug Store, Wilford Harrison Drug Store, Beck's Drug Store, and the Miller Drug Store.

28 IN POLICE COURT TUESDAY MORNING ON CHARGES OF GAMING

Twenty-eight gamblers, both alleged and admitted, greeted Judge Ogie in police court Tuesday morning and most of them paid for the privilege. The games of "chance and skill" consisted mainly of dice shooters with five of the cases against the participants in a "Rummy" game in a local hotel.

The five alleged crapsshooters, who are members of a switching crew of a railroad here, who had been arrested in a workhouse in the railroad yards, were found not guilty on account of insufficient evidence. All of those who were charged with gaming had come in to the fire to warm, were dressing preparatory to going to work, or filling up their lanterns, or something else not generally considered as either gaming or "swearing the game," and it seems the actual shooters had escaped, anyway they were turned loose.

The five "rummy bounds" pleaded not guilty of playing for money, but the judge reminded them of the law that defines card playing in a hotel as gaming and found them all guilty. They immediately gave notice of appeal to the county court.

BOND OF THOMPSON PLACED AT \$750

E. K. Thompson, alleged violator of the Mann Act, waived preliminary hearing before United States Commissioner Lantz Tuesday, and his bond was fixed at \$750. Thompson was taken into custody several days ago by Deputy United States Marshal Mayo.

A woman, wanted as a witness in the case, was released without bond by Commissioner Lantz Tuesday, upon her promise to appear here as a witness when federal court convenes.

Thompson follows the trade of a cook, while the young woman who is to appear as the government witness, has been employed here as a waitress.

WAID REMANDED TO JAIL IN DEFAULT OF BOND

Ben W. Waid, alleged swindler, was remanded to the county jail Monday afternoon in default of the \$150,000 bond fixed by Justice Arrington following preliminary hearing in three cases alleging swindling in connection with the promotion of the Volunteer Oil Company. The preliminary hearing proceeded occupied five hours. Waid failed to take the stand. Judge John A. Pitts of Nashville, prominent Tennessee jurist, is in Wichita Falls and is one of the leading witnesses against Waid. Judge Pitts said that at least 800 stockholders in the Volunteer Oil Company are working girls of Nashville and other Tennessee towns.

Airman Victor In Battle With Eagle Above Pyrennes

LONDON, Dec. 1.—Eagle and airman have met in a contest for the supremacy of the upper air, and the eagle has been defeated. The encounter occurred high above the Pyrennes in the half light of early morning recently when a British officer was piloting a single seated scout machine from Paris to Madrid.

The airman was flying at a rate of 100 miles an hour when a big eagle soared up to meet him. "It was as if the eagle had thrown me a challenge," says the airman, "but the laughter died on my lips when I thought that perchance a lucky dive by the bird, or maybe a collision in midair would send me crashing to the rocks beneath."

The eagle lumbered around me at about 90 miles per hour and I throttled down to the same pace, while he took stock of each other. The air by then was crystal clear and I could see every feather on him as we circled about for all the world like antagonists above the western front.

The eagle started to climb and I went after him yard by yard. Unable to resist any longer, I opened the throttle, put my nose down and looped right over him. He made one great effort to catch up and with it his strength failed.

"His wings gave a feeble beat and with every appearance of a shot plane he nose-dived to earth. I followed him down a good 1,200 feet and saw him flitter out and land near a village in the foothills, completely exhausted."

CORPUS CHRISTI PLANS TO CONSTRUCT SEAWALL

CORPUS CHRISTI, TEX., Dec. 9.—Cost of constructing a seawall here of the Galveston type, 600 feet out into the bay, would be approximately \$2,900,000, according to figures submitted to the board of city commissioners and citizens central committee here, by Robert J. Cummins of Houston, consulting engineer.

Mr. Cummins, who made a survey of the situation in conjunction with C. J. Howard, city engineer, reported a rough plan for the seawall and approximate cost in seven sections. The citizens central committee recommended to the city commissioners they authorize immediate construction of two sections in front of the retail business district, which would cost about \$65,000.

More than \$260,000 cash and \$350,000 in certificates of deposit is on hand with which to begin the work, the money being the ad valorem taxes remitted to the city and Neuces county by the state for this purpose. As more money becomes available additional sections will be built, until the entire 16,000 feet of wall is constructed, touching the 42-foot bluff at each end and completely encircling the bay section of the city proper.

A 12-foot wall with an embankment behind rising two feet higher is called for in the Cummins' plan. From the crest of the embankment there would be a gradual slope back to Water street, the present bay front of the city. This "made land" would be laid out in a city park.

City commissioners have indicated their desire to build the seawall in this manner if federal aid is not forthcoming.

"Don't be afraid to come in and see our Army Blankets, all-wool Steamers Rugs and Auto Rugs. U. S. Contract Co., Peoples Stock Exchange, Seventh and Ohio. (Best location I could find.)"

LACK OF PREPARATION CAUSE OF INEFFICIENCY IN AMERICAN COLLEGES

DALLAS, Dec. 9.—Inefficiency of American colleges and universities is due in part to the preparation of the average student before they enter such institutions, according to Prof. John H. McGinnis, of Southern Methodist University here. Another cause, he said, was lack of adequate equipment in universities and colleges, and the insufficiency of competent instructors. Lack of competency of teachers will continue until a "fair wage" is paid, he believed.

"There never was a time when university officials were so self-critical as now," Prof. McGinnis said. "They are not satisfied with present conditions affecting higher education. They are possessed with a determination to remedy things if possible. The trouble with our universities does not lie in the curriculum. Changes in this would not cure the evils of our university system. The fault lies in the preparation of the average student before entering college or university. This fault cannot

be remedied by the colleges, although they get much of the blame for illiteracy among college students. The colleges are under a handicap when they essay to make a finished product of a student who cannot spell and who is unversed in the simple rules of grammar and arithmetic. "I do not want to be in the light of criticizing our high schools. Many high schools of Texas have a high state of efficiency, but a comparatively few of the students entering university come from these schools. Most of our freshmen have had insufficient and faulty training in grammar schools and more or less inefficient high schools.

"Another cause of college inefficiency is lack of adequate equipment. This includes laboratory paraphernalia, library facilities, as well as insufficiency of competent instructors. Let me say that competent teachers will continue to be scarce until they are paid a fair wage. "The college itself is to blame in some measure for its own inefficiency. In planning the courses of the students it has not grasped the idea of a college education for every one. The college is under the traditional bondage which holds that higher education should be restricted to those who expect to follow a professional

career such as lawyers, ministers and doctors. Provision has not been made for the man who is in college merely for the sake of getting an academic education. Consequently activities extraneous to the purpose for which college were organized, such as athletic teams, fraternities and theatrical clubs have been formed to furnish an outlet for energies of students who did not desire to devote all their attention to their studies.

"The average person cannot see the real value of college training because his view is obscured by these seemingly non-essential activities. Indulgence in these outside activities does not mean that the students are not serious about their work, but it is indicative that the faculty has not made the proper provision for men not interested in professional subjects."

ABSENT 14 YEARS
COMPLIMENTS CITY
ON RAPID GROWTH

Joseph Curley, for 46 years connected with Bridges company, woolen goods manufacturer of Bradford, England, and in recent years a traveling representative in this country for that firm, is in Wichita Falls for a few days' visit for the first time in 14 years.

Mr. Curley recalled his first visit to Texas 32 years ago when he with four other young men visited the Matador ranch and came very near buying up some land which was offered to them for 20 cents an acre.

When Mr. Curley first visited Wichita Falls it was in the days before the Fort Worth and Denver railroad had been built.

Mr. Curley is by profession a designer of woolen tweed cloth and has followed that profession from the boyhood days when he first apprenticed himself with the Bridges company.

LITTLE BILLY DANCEY'S DOG
MAY PROVE CENTRAL FIGURE
IN HISTORY OF BOY'S MURDER

HAMMONTON, N. J., Dec. 8.—Little Billy Dancey's dog "Jack" may prove a central figure in the remaining chapters in the story of the appearance and death of the little boy in connection with which two of his neighbors are under arrest.

"Jack," according to persons familiar with the case, was heartily disliked by persons who worked on White's dahlia farm, adjoining the Dancey home. The baby and the dog, it was said, often played among the dahlias.

Several days before Billy disappeared neighbors said Jack had been shot. A bullet wound was found in his leg. The theory has been advanced that some one, striking or shooting at the dog, might have hit the baby with fatal results.

Charles S. White, 39, son of the owner of the dahlia farm, remained in jail late today, charged with the murder. Mrs. Edith Jones, 53, the elder White's housekeeper, is held charged as accessory after the fact.

White positively declares his innocence. Prosecutor E. C. Gaskill said this afternoon Gaskill refused to comment further on the arrests, nor would he make public the information on which the arrests were made.

Mrs. Dancey apparently is dazed by the sensational turn taken by the case. White's own baby boy was Billy's playmate. White was apparently interested in Billy and frequently played with both children.

"I don't know what I can say," Mrs. Dancey said. "There was no reason Mr. White would harm my baby and I don't believe he did. He had a baby of his own. He wouldn't hurt Billy."

County Detective Benjamin Nussbaum, commenting today on the fact that White was the last person who said he saw Billy Dancey alive, declared that he is confident the officers have solved the mystery of the baby's death. He refused, however, to tell the details of their case, but added that the details would be sensational.

APPROACHING SESSION
OF THE FEDERAL COURT
HAS MUCH BUSINESS.

The approaching session of federal district court here is being watched with growing interest due to the fact that sensational developments will probably result from the federal grand jury which is scheduled to convene shortly after the holidays.

In addition to the 14 prisoners now held in jail there are a number of persons out on bond who will face grand jury investigation. Investigation of alleged violations of the federal liquor law is expected to result in several indictments.

Federal Judge James C. Wilson of Fort Worth will preside. While the date of the opening of federal court here has not been definitely announced, it is thought the term will open shortly after New Year.

ROAD CONDITIONS.

Fred W. Hamer, road and weather observer, reports the following road conditions: Fort Worth to Brownwood: Generally passable; rough and rutted about Crosson.

Burkburnett: Heavy about Decatur and Rhame.

Ranger: Passable, but bad; rough and rutted.

Southward points: Bad in general; rough, rutted; places almost impassable.

Northward points: Almost impassable about Denton; generally rough.

Wichita Falls: Passable with light cars; improved about Iowa Park and Electric.

No precipitation is probable over the above route in the next 24 hours.

How People Act in the Air

The Sky
Has Many

By F. A. Collins

**Bumps, and the
Game Is a Nerve
Test, with Chances
of Sickness, But
Few Weaken and
Almost Everybody
Is Enthusiastic---
After the Big Trip
Is Over.**

FLYING seems no longer to hold any terrors for the air passenger. We are a nomadic race in the air as well as on land and sea. So many thousands of air passengers, including men, women and children of all ages, have been taken up, often for long air voyages, that it is now possible to draw some general conclusions as to their behavior aloft. It is only a generation or less since many people regarded a sea voyage with terror. In a few years at most air travel will be as commonplace an experience as an Atlantic crossing. In the early days of ballooning Mongolfier suggested that a condemned criminal be sent up in his balloon as an experiment. Although the criminal had but a few days to live under the law popular sentiment was aroused at the cruelty of such a flight and the project was abandoned. Today the average man or woman will pay well for the opportunity of enjoying this unique sensation.

It is an old joke on the flying fields to ask the pilot who is about to take a passenger aloft if he has his monkey-wrench handy. This useful weapon is supposed to be used in extreme cases to discipline a nervous passenger. The passenger goes back to the early days of flying when the passenger and pilot sat side by side on the front plane in an extremely exposed position, with their feet dangling over the edge. Although the passengers might be strapped after a fashion the exposed position was nerve-racking, especially as the plane rose to great altitudes and rocked violently in the air currents. A passenger under such conditions might become terrified and grasp the pilot's arm, even throw his arms about him and court disaster by interfering with the operation of the aeroplane. The monkey-wrench was supposed to be used in such cases to break the passenger's grip.

Comfort for Passengers

In designing the modern flying craft the comfort of the passenger receives special attention. No passenger goes aloft today on so precarious a seat. Even in the two-passenger craft the seat is placed in the body of the fusilage and only one's head is exposed. An ingenious wind shield breaks the force of the air as it races past or the cabin is entirely enclosed with using glass. In the larger machines comfortable, even luxurious cabins are provided. The passenger sits in comfortable wicker or upholstered chairs and is free to walk from end to end of the cabin and enjoy the scenery below or read or sleep as on a railway journey.

The passenger in most of the small machines may be said to go aloft in a strait-jacket. A broad leather belt fastened by several stout straps holds him or her in position no matter what angle the aeroplane may assume. In case the machine loops the loop he merely sits tight, as he is compelled to, until he finds himself in a normal position. There is even more difference between the position of a small and a large aeroplane than between a skiff and an ocean liner. The great air liners fly on an even keel or nearly so in all but the roughest weather and do not experiment with loops or dives. Under ordinary conditions the motion is much smoother than that of the most comfortable Pullman.

To appreciate the feelings and behavior of the air passenger it must be remembered that the sensation of flying is wholly new and many of the thrills come as a complete surprise. There is practically no sensation of rising, for the motion is so smooth that one has the effect of the earth falling away. Most city dwellers are so accustomed to looking down from high buildings that they are in a measure prepared for the appearance of the earth hundreds of feet below them. Few air passengers complain of dizziness even at great altitudes.

The great test of the passenger's nerves comes during a storm. In the slang of the aeroplane, the machine "goes over the bumps." A severe wind storm causes the aeroplane to pitch violently like a small boat in a rough sea. The sensation is perhaps best described by comparing it to a ride on a roller coaster when the car alternately dives up and down at terrifying angles. In some of the large aeroplane cabins a rod is placed before each chair so that the passenger can brace himself and keep from slipping backward or forward. One instant the cabin is inclined downward at a steep angle, which will pitch you out of your chair if you are caught unawares. The next moment the floor of the cabin may be suddenly pointed upward and you find yourself sitting on your shoulder blades grasping the arms of your chair. The air passenger will grow accustomed to even these violent motions, especially if they be regular. The pitching is often varied, however, by an equally violent rolling motion. A gust of wind suddenly catches a wing and throws it up with a swing to an angle of 45 degrees. Such violence is rare of course and usually lasts only a few minutes. A speed of 100 miles an hour soon leaves the average storm far behind.

Flying Provokes Smiles

In most photographs taken of passengers in aeroplanes everyone appears to be smiling. For the pilot of course a flight is an old story and he looks busy or plainly bored. It is common, however, for the passenger to face the new experience with a smiling countenance. Even if one is frankly alarmed you nevertheless go forward with a smile. An observing pilot may see that the smiles are more or less forced at times, but it is rare for anyone to admit nervousness, even in the face of danger. By far the greater num-

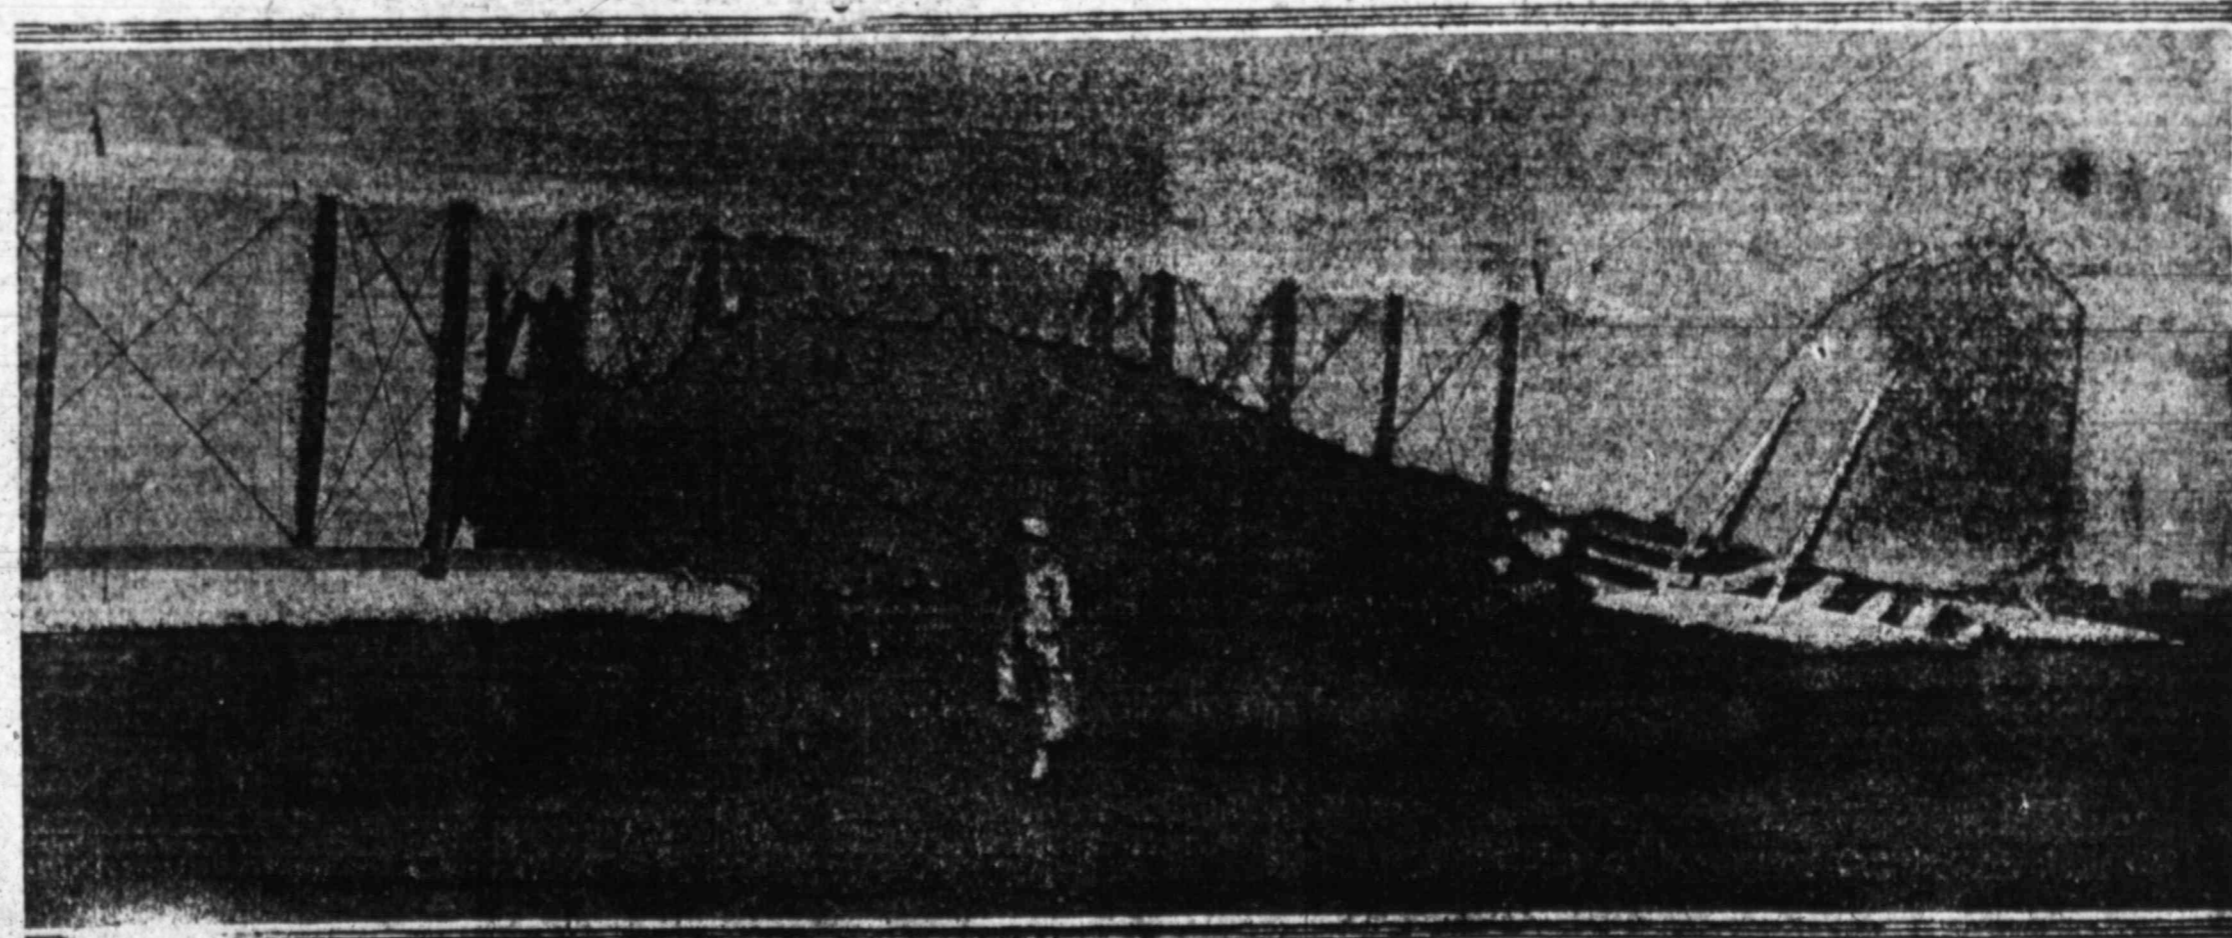

Entering a Modern Roadster Airplane Equipped for Two Passengers.

ber of those who have flown have been carried up in two-passenger machines. The seats in these machines are of course placed tandem and the roar of the propeller makes conversation practically impossible. The pilot who sits forward will, however, turn from time to time to see how his passenger is getting along. If the passenger, whether a man or woman, knows the pilot is observing they almost invariably meet his glance with a smile. Caught unawares, the passenger may appear distraught, but almost never frightened. Most passengers lean back in their seats as unconcernedly as though in an automobile and appear to be enjoying themselves immensely. Nervousness is shown by wetting the lips or

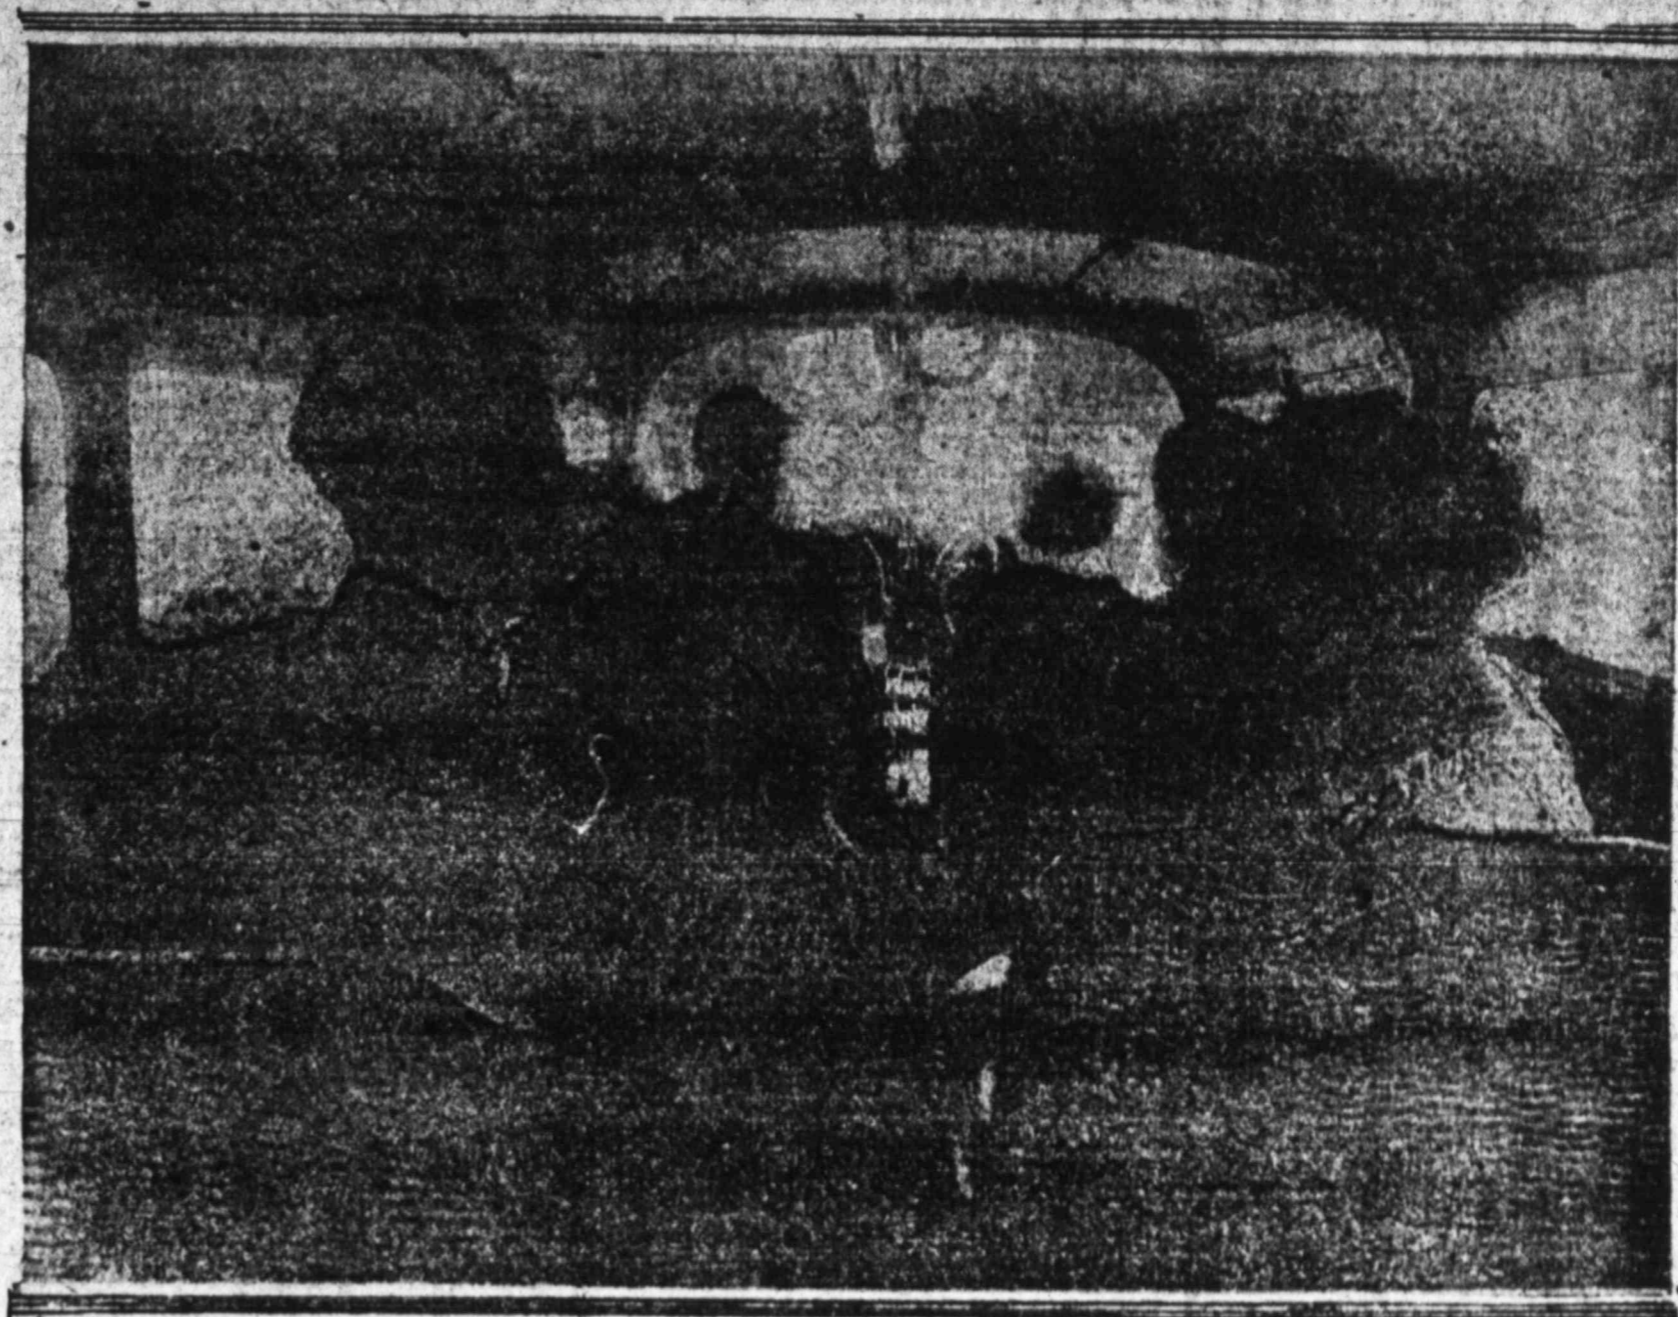

tightly grasping the sides of the fusilage. It is rare for a passenger to admit at the end of an air voyage that he has been disturbed.

There is of course a much better opportunity to study the actions of passengers aloft in the cabins aboard the large air liners. The departure of an aeroplane is always cheered wildly just as in the case of an ocean liner. It is natural, quite inevitable, to face the possible danger which confronts an ocean voyage or an air voyage with light-hearted cheers and laughter. Every hand is waved and every voice raised in cheerful farewells. An observant person in the cabin of an aeroplane as it rises will notice considerable nervous tension. In trying to be en-

Newspaper Picture Service, 1919.

Parlor Car Effect in a Modern Passenger Airplane.

tirely normal and take the extraordinary experience as a matter of course the passengers usually override matters. Fear is evidenced in unexpected ways.

An excellent opportunity for observing the behavior of air passengers was afforded during a recent air voyage made by 18 passengers on a four-hour flight. When the excitement of leaving had died down the passengers took their seats and carried on an animated conversation while watching the panoramas of New York city sweep beneath them. Except that the group seemed rather forced the group might have been on a hotel piazza. A few minutes later an aeroplane approached them evidently with the intention of securing a photograph. While manœuvring within a few feet the smaller plane suddenly went wild and plunged downward, barely missing the larger machine in its fall. It was an exceedingly anxious moment for all, but no one cried out and there was no suggestion of panic. The smaller plane fell into the water of New York harbor 2000 feet below, and the passengers, who had rushed to the windows, resumed their seats as though nothing had happened.

But Little "Air Sickness"

Two of the passengers were ladies making their first air voyage. One chatted unconcernedly for a time, then read a book and took a nap to pass the time, awaiting with entire composure. The second lady was plainly distraught throughout the voyage. Those who tried to talk to her found that she could scarcely command herself to make conventional answers and could only get a word out with an obvious effort after nervously wetting her lips. At the end of the air voyage all announced that they had never enjoyed a journey so much in their lives. The lady who had been tongue-tied from fright was especially enthusiastic. "Now I can understand," she explained, "why it is that birds sing."

There is little air-sickness comparable to the familiar sea sickness. A few passengers have been extremely sick while aloft, but these were probably exceptionally poor sea sailors. The motion of an aeroplane in ordinary flight is remarkably smooth. There is little or no motion in quiet weather, and even this is a smooth glide which does not disturb the weakest stomach. In case an aeroplane runs into a storm the motion,

of course, is likely to be violent, but it is likely soon to be over. The prospective air passenger may put his mind at rest as regards air sickness. The most trying air experience of this kind is the motion of a captive balloon in a wind storm, which will overcome the best sailors. It is very easy aboard an aeroplane to find one's "air legs."

On coming to earth after an air voyage very few passengers ever confess to having experienced air-sickness of any other of its discomforts. As a matter of fact many passengers on their first flight at times experience more or less severe nausea. As long as the air craft flies on an even keel the excitement and novelty of the sensation help one to overcome any anxiety. A sudden drop of a thousand feet or so to a lower level, which is a common experience in flying, usually prevents a severe bout of the passenger's nerves, and for the time being, at least, the air voyager is apt to lose interest in aviation. In the cabins of the great modern airplanes the walls shut out much of the noise of the propellers and the passengers are able to talk among themselves, which is of great assistance in keeping up one's courage.

The life aboard a flying craft of any kind, by the way, is extremely democratic. The air pilot finds himself on terms of equality with his passengers, no matter what their social stations. A coachman occupies at best a somewhat servile position and stands at attention to receive orders. The automobile improved matters somewhat, for the chauffeur is more nearly the social equal of his employer and may discuss questions of mechanics or fuel supply. The relation of the pilot to his passenger is illustrated by the experience of a well known pilot who took up a gentleman and his wife whose names are familiar the country over for their wealth and social position. Before leaving the ground the pilot addressed his passengers with some awe, for the name carries weight in the financial circles of two continents. By the time the three found themselves a mile or more above the earth the lines of social status seemed to have suddenly undergone a remarkable change. The pilot had occasion to ask for a direction.

"Pardon me, Mr. Blank—" he began. The financier, with an anxious eye on the earth far below, interrupted him nervously. "Never mind that," he said hastily. "My name is John. Call me that. And my wife's name is Mary. Call her Mary. What is it you want to know?"

TWO ARE ARRESTED ACCUSED OF MURDER OF "BILLY" DANCEY

HAMMONTON, N. J., Dec. 9.—Charles S. White, 29, wealthy florist, was in jail at Mays Landing today formally charged with the murder of Billy Dansey, 3-year-old perfect baby, who disappeared October 8 and whose skeleton was found in a swamp three miles from his home two weeks ago.

The arrests were made quietly. White and Mrs. Jones were arraigned here and then hurried to Mays Landing, 13 miles away, without any of the citizens being aware of the news.

The Whites are neighbors of the Danseys and Charles White, 4-year-old son of the man under arrest, was an inseparable companion of Billy. It was in White's Dahlia field that Billy disappeared.

The arrests were made quietly. White and Mrs. Jones were arraigned here and then hurried to Mays Landing, 13 miles away, without any of the citizens being aware of the news.
