Harvest Day Gives Challenge To Farmers

The more serious minded farmers of Parmer County often wonder just what contribution farmers of the county who stay at home and live quiet lives are making to the war effort, according to Garlon A. Harper, county agent, who stated this week that a trip to the Victory Harvest Show in Bovina Saturday will probably answer a lot of questions on the farmer's participation in a war program.

Parmer County has just completed one of its greatest wheat crops. No one can doubt the necessity of bread for fighting armies. Parmer County has an abundant grain sorghum crop which will find its way into beef, pork, poultry and other animal products needed in feeding our armies. Parmer County is producing beef, lambs, pork, dairy products, and poultry in some of the largest amounts ever produced in the county. Parmer County is producing soybeans from which oils will be extracted for use in fighting our war. Parmer County is producing wool and shearing pelts from which warm and adequate clothing will be provided to "Keep 'em Flying". Parmer County is producing cotton to be made into clothing, ammunition and other needed articles.

Present Challenge

Parmer County is doing all these things and more and Parmer County is doing this job with less men, less equipment, and in quicker time than ever before. But during the coming years Parmer County farmers will be called upon to produce even more and more with still less and less men and equipment. This is a challenge which must be met.

"I hope that by attending the Victory Harvest Show in Bovina next Saturday you will obtain some information which will enable you to do this job and do it still better than ever before in face of the handicaps which will be facing all farmers of the county," Mr. Harper says, adding, "It's your war; it's your country; it's your job. Come out and let's learn to do our job as it should be done."

Three Clubs Elect Gold Star Candidates

Three Girls 4-H clubs selected their candidates for the Gold Star award for 1942 at club meetings this past week.

The Gold Star award is an honor conferred by the Texas A. & M. College on the girl in each county who has done the most outstanding work for the year. According to the rules a girl may be considered for the award when she is completing at least her third year of club work, if she has conducted a successful demonstration and if she has not been previously awarded the honor.

Parmer County girls entered in the 1942 contest by clubs up to this date are: Tomilou Turner, Friona. Barbara Foster, Oklahoma Lane. Laura Seaton, Lazbuddy. Other clubs will make their selections next month.

The candidates were asked to write a story of their 4-H club work and complete their demonstrations by Nov. 30.

FRIONA WEATHER

Weather conditions in the Friona territory during the past two weeks have been as nearly ideal as one could reasonably expect in any climate at any season.

No more frost has appeared since Sept. 13. The temperature of mornings and evenings has been decidedly cool, almost to the tingling point and requiring a light fire for comfort, but during the day it has been mild and balmy, with the exception of a few afternoons, when it became unusually warm for the season.

On Friday afternoon of last week the territory was visited with a fine soaking rain, which was beginning to be needed, and ranged from a half to an inch and three eighths in different localities, but was considered sufficient for the needs of the growing wheat and to bring up what had recently been sown. Fair and balmy this week.

9:30 Deadline For Complete Show At Regal

Mrs. Ray Landrum, who is now complete manager of the Regal Theatre while her husband is employed at the Pan-Tex Ordnance works, states that persons wishing to see a complete show should get in not later than 9:30 o'clock.

The show begins at 8:00 o'clock and it takes a full hour and a half to run the complete show, which makes 9:30 the hour for beginning the second show, which will be out at 11:00 o'clock.

Mrs. Landrum stated that she is very anxious that all her customers may get the benefit of the complete program each night, but to do so they must be present not later than 9:30 "War Time".

Santa Fe Grain Stocks Line Of Purina Products

Announcing their dealership for the "Purina" line of stock and poultry feeds, the Santa Fe Grain Company this week sponsor a full page advertisement in the Star.

O. L. Cranfill, manager of the Santa Fe Grain Company, plans to carry in stock every variety of balanced rations, livestock and poultry feeds, for which there is a need and a demand. Lines carried will include the famous Purina Cattle and Sheep Checkers and Purine Steer and Sheep Fatena meal. Mr. Cranfill is glad to be able to offer this famous line to farmers and stockmen of the Friona territory.

Home Economists Plan Nutrition Program Here

Parmer County Home Economists gathered at Bovina the first Thursday in October for the first business meeting of the 1942-43 year with Miss Anna Hastings acting as hostess.

The program consisted of two numbers, an "Exchange of Ideas" led by Mary Elizabeth Stanford, homemaking teacher of Friona, and another roundtable discussion led by Mrs. Edna Elms, home supervisor, Farm Security Administration, who used as her problem "How Can We Most Effectively Put Over a Nutrition Program in Parmer County". A short business session followed.

The next meeting will be held in Friona on Dec. 3 in the home of Mrs. J. T. Gee.

Strawberry short cake and coffee were served at the close of the business session to the following: Miss Dorothy Shaw, Mrs. Martha Bates, Mrs. Edna Elms, Miss Mary Elizabeth Stanford, Mrs. J. T. Gee, Miss Anna Hastings and Miss Elsie Cunningham.

Burial Here For B. B. McCandless

The remains of B. B. McCandless arrived here on the Santa Fe train last Friday from Santa Ana, Calif., and were buried beside those of his wife in the Friona cemetery Friday afternoon.

Mr. McCandless came here from Oklahoma several years ago and bought and improved a farm five miles south of Friona where he lived with his family until the death of Mrs. McCandless, which occurred a few years later, after which he sold the farm and he and his son and daughter moved to Friona and a few years later moved to California, where he resided until his death.

The train bearing the remains was three hours late, making the hour of the funeral quite late in the afternoon which, coupled with the fact that only a few of our people had received word of it, made the attendance very light. Mr. McCandless was born in Kentucky and was 72 years old. The remains were accompanied here by his son, H. C., who remained here until Tuesday before returning to his home at Santa Ana.

Two Cars Mexican Cattle Arrive Here

Dr. R. J. McReynolds and Charley Phithian received here Saturday two cars of cattle shipped in from Chihuahua, Mex.

These cattle were the object of considerable interest on the part of many of our people who had never seen cattle like them. They were taken out Sunday to Mr. Phithian's farm, nine miles west of town, where they will be fed for the market.

Mr. and Mrs. Carl C. Maurer and Mr. and Mrs. Julius (Smiley) Fuiks spent the latter part of last week in Albuquerque, N. M., to see the airplane maneuvers held there. They returned Sunday.

Three Car Wrecks Reported Here

Car wrecks last week took a severe toll in Friona as three cars were badly damaged though none of the occupants received fatal injury.

On Thursday night John Lee Weis and Lee Renner were enroute to the country to take home a man who had car trouble and the car, which is reported to belong to Joe Hub Collier, crashed into a freight train that was standing on the tracks across the south end of Main Street. Faulty brakes are blamed for the accident. No one was hurt but the car was severely damaged.

On Friday afternoon as four young men, Sylvester, Weis, Renner and Mannis, who were working at Hereford were coming to Friona to attend the ball game, when a short distance west of Hereford their car, for some unknown reason left the pavement, turned over three times and landed inside an adjoining field. Each of the four occupants is reported injured, some of them seriously, with two of them now in hospitals. The car, it is reported, was badly wrecked.

The third event of the series occurred on Sunday night while Wayne B. Stark, Jr., and a lady friend were out driving south-west of town, they drove into the rear of a car that was parked on the side of the road with no tail lights showing. The Stark car is reported rather badly damaged, but no one was hurt.

Pie Sale Increases September Bond Sale

The following letter which was handed to the Star by American Legion Post Commander, Ray Smith, is self-explanatory.

Farwell, Texas, Sept. 12, 1942

Post Commander, American Legion, Friona, Texas.

Dear Sir:

I was asked by Mr. H. G. Beene of your city to let you know the results of the Bond Rally at Oklahoma Lane school last night. The rally was a great success—the sale of pies amounted to \$1,957.50. As a citizen of Parmer County I wish to thank the Legion for their good work in this rally. It is our duty to our country to buy bonds to the limit and our duty to our country to meet the quota set for it.

Yours very sincerely, David Harrison, Cashier.

Jesse Owen and J. C. Eubanks, of Marston, visited friends here Monday.

WAFS Chief in Flying Uniform

Women commanded by Mrs. Nancy Harkness Love, WAFS chief, will wear this uniform while flying planes for Uncle Sam.

"If any of you men have been wondering what your wife does at home demonstration club meetings you owe it to yourself to take the day off next Saturday, Oct. 10, to attend the Victory Harvest Show at Bovina," says Miss Elsie Cunningham, county home demonstration agent.

At this one day meeting (beginning at 10 a. m.) you will see exhibits and demonstrations and hear various discussions which are representative of the type of things your wife sees and hears at the club meetings she attends throughout the year, she continues.

"To me, one of the most interesting parts of the program Saturday will be the exhibits erected by the various home demonstration clubs of the county," Miss Cunningham points out.

These exhibits represent phases of the club program which have been studied through demonstrations at club meetings during the year.

Exhibits Stress War Work

As you look at these exhibits you will no doubt be impressed by the fact that the women have studied problems pertaining to their part in helping to win the war. For instance, club women believe "The Family's Health is the First Line of Defense." They have studied nutrition and made an effort to learn what elements must be included in a good diet. The Live-at-Home club is illustrating the things to be considered in planning good nourishing meals.

Another important phase of winning the war is taking care of everything we have. The Bovina club sets up a program for "Conserving Clothing" in its exhibit.

To relieve the stress on the nation's transportation system and to release food in commercial channels to our army and Allies is important, so the Rhea Home Demonstration Club is proving to us that we can grow our food at home in Parmer County.

The Victory Home Demonstration club is putting the question up to you—"Are You Ready for Emergencies?" They are exhibiting the necessary first aid supplies which should be in every home medicine chest. Knowledge of first aid and proper equipment are more important than ever as we go into this period of gasoline rationing. An emergency might arise when your gasoline tank is empty. The Victory Club believes in being prepared.

Efficiency depends upon careful planning. Careful planning depends upon systematic record keeping and organization. Every home needs a business center. The Midway club will exhibit a desk which was made by one of its members. Yes, sir, it has drawers that work, doors that actually open and shut—and a woman did the work.

All of us have been interested in our soldier boys but the Hub demonstration club has made a real hobby of "Things We Can Do to Make Our Soldier Boys Happy". Their exhibit will show you how to wrap a package for shipping to boys in foreign service. They also have some helpful gift ideas, recipes for candy and cookies that require no sugar, etc. You will see typical packages they have packed for Hub community boys who are in the service. They will show letters received from some of the boys and have a mimeographed sheet of suggestions which you can take home with you.

There is much discussion these days as to whether we should give gifts this Christmas. The Parmer home demonstration clubs will give you their answer to the question in their exhibit titled "Keep Christmas—Yes! But Keep It Inexpensively".

Rationing is a democratic method of dividing supplies among all who need them. The Lakeview home demonstration club believes we should "Prepare For Rationing" by learning what has been done in other countries at war. They will show actual amounts of foods allowed the civilian population in England and Germany.

Other exhibits will be set up under the following titles, "Cold Facts", "Use Whole Grain Cereals".

Farwell, Texas Sept. 12, 1942

Post Commander, American Legion, Friona, Texas.

I was asked by Mr. H. G. Beene of your city to let you know the results of the Bond Rally at Oklahoma Lane school last night. The rally was a great success—the sale of pies amounted to \$1,957.50. As a citizen of Parmer County I wish to thank the Legion for their good work in this rally. It is our duty to our country to buy bonds to the limit and our duty to our county to meet the quota set for it.

Yours very sincerely, David Harrison, Cashier.

WAFS Chief in Flying Uniform

Women commanded by Mrs. Nancy Harkness Love, WAFS chief, will wear this uniform while flying planes for Uncle Sam.

"If any of you men have been wondering what your wife does at home demonstration club meetings you owe it to yourself to take the day off next Saturday, Oct. 10, to attend the Victory Harvest Show at Bovina," says Miss Elsie Cunningham, county home demonstration agent.

At this one day meeting (beginning at 10 a. m.) you will see exhibits and demonstrations and hear various discussions which are representative of the type of things your wife sees and hears at the club meetings she attends throughout the year, she continues.

"To me, one of the most interesting parts of the program Saturday will be the exhibits erected by the various home demonstration clubs of the county," Miss Cunningham points out.

These exhibits represent phases of the club program which have been studied through demonstrations at club meetings during the year.

Exhibits Stress War Work As you look at these exhibits you will no doubt be impressed by the fact that the women have studied problems pertaining to their part in helping to win the war. For instance, club women believe "The Family's Health is the First Line of Defense". They have studied nutrition and made an effort to learn what elements must be included in a good diet. The Live-at-Home club is illustrating the things to be considered in planning good nourishing meals.

Another important phase of winning the war is taking care of everything we have. The Bovina club sets up a program for "Conserving Clothing" in its exhibit.

To relieve the stress on the nation's transportation system and to release food in commercial channels to our army and Allies is important, so the Rhea Home Demonstration Club is proving to us that we can grow our food at home in Parmer County.

The Victory Home Demonstration club is putting the question up to you—"Are You Ready for Emergencies?" They are exhibiting the necessary first aid supplies which should be in every home medicine chest. Knowledge of first aid and proper equipment are more important than ever as we go into this period of gasoline rationing. An emergency might arise when your gasoline tank is empty. The Victory Club believes in being prepared.

Efficiency depends upon careful planning. Careful planning depends upon systematic record keeping and organization. Every home needs a business center. The Midway club will exhibit a desk which was made by one of its members. Yes sir, it has drawers that work, doors that actually open and shut—and a woman did the work.

All of us have been interested in our soldier boys but the Hub demonstration club has made a real hobby of "Things We Can Do to Make Our Soldier Boys Happy". Their exhibit will show you how to wrap a package for shipping to boys in foreign service, they also have some helpful gift ideas, recipes for candy and cookies that require no sugar, etc. You will see typical packages they have packed for Hub community boys who are in the service. They will show letters received from some of the boys and have a mimeographed sheet of suggestions which you can take home with you.

Suggestions For Xmas There is much discussion these days as to whether we should give gifts this Christmas. The Parmerton home demonstration clubs will give you their answer to the question in their exhibit titled "Keep Christmas—Yes! But Keep It Inexpensively".

Rationing is a democratic method of dividing supplies among all who need them. The Lakeview home demonstration club believes we should "Prepare For Rationing" by learning what has been done in other countries at war. They will show actual amounts of foods allowed the civilian population in England and Germany.

Other exhibits will be set up under the following titles, "Cold Facts", "Use Whole Grain Cereals" (Continue on Page 4)

Every Farmer and Farm Producer should read the Regulations on this page. They effect you and future purchases of farm machinery, which will be Rationed as outlined below.

Farm Machinery

Goes to WAR!

Members of Your County Rationing Committee are:
Olan Schleuter, J. I. Gober, Wilbur Charles
 Alternate: FORD WELCH

All Farm Machinery and Equipment

is divided into three (3) groups, A, B, and C.

GROUP "A" shall include the following New Farm Machinery and Equipment:

Beet Lifters	Fertilizer Spreaders	Milk Coolers
Beet Loaders	Grain Drills	Milking Machines
Combines	Grain Elevators	Pickup Balers
Corn Pickers	Hay Balers	Potato Diggers
Disc Harrows	Lime Spreaders	Shredders
Feed Grinders	Manure Spreaders	Tractors

"Each farmer desiring to purchase machinery or equipment in Group A will file an application with his County Rationing Committee. The County Rationing Committee will consider each application or disapprove it. If an application is approved a purchase certificate will be issued to the applicant authorizing him to purchase the equipment. The purchase may be made from the dealer named in the application or from any other dealer."

The County Rationing Committee is Authorized to Approve Applications Only if it is Evident that:

1. The Applicant's present equipment cannot handle the increased production or new production planned and needed as a contribution to the current agricultural need.
2. The applicant cannot meet his equipment needs by repairing his old equipment, by purchasing or renting used equipment, by custom work, by exchange or work or equipment, or by any other means.
3. The Failure to approve the application would result in a substantial reduction in the production of crops or commodities essential to the war effort, and
4. The machinery or equipment will perform more than one average service for similar machinery or equipment in the community.

The County Committee Shall Disapprove an Application for One or More of the Following Reasons:

1. The applicant is able to have repaired and made serviceable the machinery and equipment which he proposes to replace;
2. The applicant refuses to turn in the machinery and equipment which he proposes to replace;
3. The applicant has not named in his application a dealer from whom he can purchase the new farm machinery and equipment;
4. The applicant wants to change from horse power or mule power to motor power and has not given a satisfactory reason for the change;
5. The applicant wants to change from hand labor to machinery and has not given a satisfactory reason for same;
6. The applicant refuses to rent or let others use the new machinery and equipment on such terms and conditions as the County Rationing Committee may deem necessary.

If the application is approved, a non-transferable certificate for the purchase of new farm equipment is prepared in triplicate and two copies mailed to the applicant. This certificate will be known as form MR-3. The equipment authorized must be purchased within 10 days after the date the certificate is granted.

No sales of machines listed in Group A may be sold or delivered after today (Sept. 17) unless purchaser has a purchase certificate. If a machine has been sold and has even been paid for but has not been delivered, it is understood that the purchaser must now make an application and be given a purchase certificate before the dealer will be permitted to make delivery of the order.

GROUP "B" — Machinery and Equipment —

All other machinery not in Group A or in Group C, is included in Group B. This group is covered by WPB Limitation Order No. L-26, with which many of you are familiar.

To secure machinery under Order No. L-26, it is necessary for the purchaser to certify his need by his signature on one of these orders — but the Ration Board certificate is not required at the present time.

GROUP "C" included Hand Tools—

Hoes, Rakes, Forks, Scythes, Shovels, and All hand operated and one- and two-horse drawn farm machinery and equipment not included in Group A.

There are no Restrictions whatever on Repair Parts . . . or on Items in Group C. Neither are there any restrictions on the sale of Used Farm Machinery and Equipment! However, this does not mean we can always get repairs without delay.

(The above information is brought to you by the equipment dealers listed below, who hope that it may be of value to you in determining the extent of purchases which may be made under the present set-up).

WILSON WRITES

Sgt. Joe Earl Wilson, son of Rev. and Mrs. Joe Wilson, is somewhere in the Pacific Ocean south of the Equator, and having lost direct contact with him some months ago we of the Star are pleased to quote the following letter from him and we shall do our best to see that he gets the Star regularly hereafter.

Morning in the Field,
August 28, 1942

Mr. John White,
Dear Sir:

In my last batch of mail from home I received a copy of the Friona Star and I certainly was glad to get it. For one reason, just to read what the other boys in the service are doing. Your "Sons in the Service" is a very good column to have in the home town paper. It lets all the boys who are in the service know just where and what the others are doing. From the reports in the July 17 issue they are making out real well for themselves. Due to censorship I am unable to give you my place of abode, but I can class myself along with the other boys who are what you call "Down Under". At the present time everything is moving along nicely with me. Hope the same with you. Wish it were possible for me to drop in every day or so and have a nice chat with you—maybe it will not be long till that will be possible. But until then, just keep up the good work of putting out a newspaper that all the "home town" boys are glad to get and read.

Yours truly,

Sgt. Joe Wilson,
U. S. Marine Corps,
Unit No. 645,
Care Postmaster,
San Francisco, Calif.

Sgt. Wilson was formerly the Star's sports reporter and gave those excellent football and basketball reports two years ago.—Ed.

Corporal Gilbert Boatman, son of Mr. and Mrs. A. H. Boatman of the Homeland or Hub community, and who is stationed at Camp Bowie near Brownwood, arrived here last Friday for a four days' visit with his parents and other friends. His wife, Mrs. Dott Boatman, had been with her husband a week and he accompanied her home. Corp. Boatman was both looking well and feeling well. He departed Tuesday on his return to camp.

James Lee White, who has been a member of the U. S. Navy for the past year, arrived here on Friday of last week on an 18-day leave of absence from his duties in the Navy.

James Lee has many interesting experiences to relate to his Friona friends of his duties as guard and otherwise and of his ocean trips and the many foreign places he has visited. He expresses himself as well pleased with navy life. He is a son of Mr. and Mrs. H. G. White of this city.

Roy Hughes, son of Mr. and Mrs. Buford Hughes, writes the Star from Madison, Wis., expressing appreciation of the paper and giving some lights on his work at his new station. Roy's letters are always interesting to Star readers.

Madison, Wis.

Dear Mr. White:
I received the paper you sent and surely did appreciate it. I am getting along fine in school (so far). I wish I could tell you of the many things they are teaching us about radio or maybe I should say "attempting to teach". I like it here fine and am having a good time although I get homesick and would like to see my many friends at Friona, but I guess that will have to wait until we have done a little scapling job on Adolph. Then we can enjoy a life of freedom and peace once more. Enclosed you will find a portion of a stationery packet which describes Madison and the surrounding country better than I can. Thanks again for the paper. I remain,
Your friend,
Roy.

IVIE AT PECOS SCHOOL

PECOS—Sergeant J. Ivie of Friona is now stationed at Pecos Army Flying School, Pecos, Tex., having been assigned to that post from Gardner Field, Calif.

This new Army Air Force field promises to be one of the largest basic training schools in the country, having begun operations on Sept. 1, 1942. Sgt. Ivie was one of the first enlisted men assigned to PAFS.

LETTER FROM AUSTRALIA PROVES GOOD READING

The following letter was received by Mrs. J. A. Stovall from Mrs. Winifred Foster, who lives at West Brunswick, Victoria, Australia, in whose home Mrs. Stovall's son, Floyd, has been a guest a number of times. It proves to be really interesting reading.—Ed.

9 Grantham St.,
West Brunswick,
Victoria, Aust.
27-7-42

Dear Mrs. Stovall:

You will no doubt, wonder at receiving a letter from me, but we met Lloyd and he asked me if I would write to you. I told him I would. My husband and I met him when he had been here a little while and he came home to tea with us and we had a good deal of him. I almost feel as though I know you all, he talked about you a good deal and is looking forward to seeing you all again. We had quite a few good evenings together. I could listen to him talk for hours. I have not seen nor heard from him for about a fortnight now. He may have gone on again. It is very hard writing to anyone you have not seen, but I hope you won't mind if this seems a little stiff. My husband and I are young and have two girls, 12 and 5 respectively—Elaine and Judith. Elaine is very studious, but Judith is a jive wire and Floyd was very taken with her. He used to "raze" her (to use his own word) and she would take it and imitate the way he said different words, and he used to like it. The word he used to her first took her fancy. He told her she was "saucy" and as he said it differently to us, she stood up to him and said it back the way he did. She was not cheeky to him, only amused. The elder one just took in everything but said no-

thing. Floyd may have mentioned us in his letters to you. We have a grocery store and my husband and I run it together, as our assistant was drafted last year. I would like to hear from you later on if you would care to write to me. Floyd promised to write to us later. I am awaiting a letter now. He is a good boy, Mrs. Stovall. He and Vic got on very well together, also with my father-in-law, who was always pleased to see him, and he is an old man of 84. He was greatly interested in all Floyd could tell him of another country. Well, I will close now, with regards to you and Mr. Stovall also the girls.

From yours sincerely,
Winifred Foster.

SHACKELFOD RECOVERING

The many Friona friends of Lt. Gordon E. Shackelford, son of Mr. and Mrs. Bert Shackelford of Friona, will be pleased to learn that he is gradually recovering from the effect of his crushed foot. He writes as follows:
Vancouver, Wash.
Sept. 30, 1942.

Dear Mr. White:

I am writing to let you know I enjoy the Star very much. I think it is very thoughtful of you to do this for the men in our armed forces. I have been moving

about rather rapidly and my copies are just beginning to arrive. They perform a very valuable service in enabling me to keep track of friends from home who are also in the service. As you know, I had a little tough luck—crushing my foot, but I expect to be back on duty in two months at the most. It is possible that I may receive a few days convalescent leave, so that I may thank you personally for sending me the Star. Here's to the world extermination of all Japs

and Nazis, and a new and better world.

Yours very truly,
Lt. Gordon E. Shackelford,
Ward I, Barnes, Gen. Hospital,
Vancouver, Washington.
Lt. Shackelford may be reached at the above address.—Ed.

ARMSTRONG LIKES NAVY

We are pleased to receive this letter from Thomas E. Armstrong as the last time we heard from him he was ill and being trans-

ferred to a hospital and asked that his Star be discontinued while there.

San Diego, Calif.
Sept. 28, 1942

Dear Mr. White:

Just a few lines to inform you that I have been transferred to the U. S. N. T. S. Dental Clinic, San Diego, California, and as I enjoy reading the Star I wish you would send it to the new address. I like my work fine and think it is the best branch in the Navy. I also think the Navy is

the best service one can be in. Oh, yes! I saw Forrest Osborn the other day, the only Friona boy I have seen here. He is doing O. K. and looks good on the chow we have here. Thanking you again for the paper, and the best of luck to all my friends in Friona, I remain,

Yours,

Thomas E. Armstrong, HA 1-c

SERVICE

Today the one word heard more than all the others is "service". Students often wonder how they are helping or being of service, especially when they are constantly hearing of older men and women leaving their homes and jobs to join the Army, Navy, Marines, WAACS, WAAFS, and other branches of the U. S. Forces, but let us not forget that we are preparing ourselves to be of service later on.

Many young people are quitting school to work in factories or join the fighting forces, thinking that they are being of greater help to our country than if they were in school, but this is not the case. Though it sounds heroic and adventurous to quit school to fight or work, it is really much more important that students continue their education. President Roosevelt has said, "It is more important that your work go on now than it has been at any other time in history. In a very literal sense you carry the light that guides civilization. In this country we know books are weapons, and it is part of your dedication always that you make them weapons for men's freedom." So let us remember this when we become discouraged or disgusted and attack our books and lessons as if they were the enemy and we shall have no trouble conquering them.

F. H. T. Discusses Parliamentary Law

The Future Homemakers of Texas met Wednesday, Sept. 30, with their president, Cleola Hurst, presiding.

After a short business meeting the parliamentarian, Mary Lou Barker, discussed parliamentary laws.

Just before adjournment each girl pledged herself to uphold and obey the parliamentary laws in the future.

The next meeting will be an informal initiation of the new members.

F. F. A. Elects New Officers

The Friona F. F. A. chapter has been organized for the year of 1942 and 1943. The officers are: president, Webster Johnson; vice-president, Verlin Talkington; secretary, Wayne B. Stark; treasurer, a tie vote which has not been voted off; watchdogs, Leroy Johnson and Neal Warren; reporter, Glen Stevick; advisor, J. T. Gee; Doyle Manderscheid, Elton Wyly and Bill Buchanan are on the executive committee.

The vocational agriculture department has sponsored a movement for testing cows for Bang's disease. There were 150 cows tested and out of these about seven per cent were reactors to the test which means they are carriers of the disease. People drinking the milk from such cows are subject to undulant fever. There were a few people who were anxious to get their cows tested but the veterinarian did not have enough sample bottles to get all of them tested. The agricultural department is very sorry that he did not get around to everybody and hope that they may have another testing day soon.

VISITING IN ARKANSAS

Mrs. M. C. Osborn and little niece, Miss Sallie Osborn, left last Friday by train for Hope, Ark., for several days visit with relatives.

M. C. Osborn and Mr. and Mrs. Sloan H. Osborn left Wednesday afternoon in their car for the same destination. After a few days' visit they will all return together by auto.

There are ways and ways to get even with the head of the house, but sharpening pencils with his razor blades is still the best one.

Chiefs Lose Close Game On Penetrations

FIRE—HITLER'S AIDE

This week, October 4-10, is Fire Prevention Week and everyone should cooperate to make it a successful week which will extend throughout the year.

It is doubtful if very many people realize how dangerous and costly a fire can be. Last year \$300,000,000 worth of property was destroyed by fire. Up until the present date more property has gone up in smoke than it did all of last year. If it was a tragedy last year, then it is more than that this year! Every dollar destroyed by fire falls into the hands of Hitler and his two henchmen!

There are many fire hazards too numerous to mention, but careless smoking, faulty chimneys, and defective electrical wiring head the long list. Most of us live with fire hazards without recognizing them as such. We need to open our eyes, find what we are looking for and destroy them for our own safety as well as the safety of others.

It has been proved in many tragic accidents that in case of a fire, people become frightened and cannot think sensibly. This week the Friona Schools will have practice fire drills so that in case of a real fire, the children would know what to do.

The American people are known all over the world for their ability and willingness to work together. Our own President asks that we live up to that reputation and make this week and all the weeks to follow free from fires!

Loretta Johnson.

First Girls Social Club Organized

Officers were elected at the first meeting of the Girls Service Club which met Tuesday. The officers for the year are: Rosalie Messenger, president; Loretta Johnson, vice-president; La Verne Dukes, secretary; Jimmie Lee Stevick, reporter; and Miss Pearl Eller, sponsor.

The plan is to have the president appoint a duty to each girl every day and the girls will be held responsible for doing their job. This is the first time such a club has been organized in F. H. S., but from its aim, it will certainly be worthwhile.

H. D. Clubs Powerful
There are eight organized home demonstration clubs in Parmer County with a membership of 180 women. The part they contribute toward winning the war can be multiplied over a million times in the nation for the Texas Home Demonstration Association alone is comprised of 50,000 members.

"So you see," Miss Cunningham concludes, "the home demonstration club work done in Parmer County is a part of a mighty movement among rural homemakers for a better life for farm people now and in the days to follow the war."

Faculty Studies "Guidance" At First Meeting

Members of the faculty of the Friona Public Schools met on Thursday night, Oct. 1, in the high school music room. A program was given on "Guidance". Mrs. Warden gave an interesting part on "Why Guidance" and Miss McFarland talked on "Setting up a Guidance Program".

Following the program Mrs. Truitt had charge of an hour's entertainment. These meetings will be held regularly on the fourth Thursday night of each month.

Check Your Lighting For The Duration
War priorities have made it necessary for floor lamp manufacturing companies to substitute materials for the metal they heretofore used in the manufacture of I.E.S. floor lamps. We were fortunate in securing a limited number of ALL METAL I.E.S. FLOOR LAMPS before war priorities took effect.
Surveys reveal that every home should have several more floor lamps for proper lighting than they now have. Check your home and see that you have plenty of I.E.S. floor lamps to give you proper light for the duration.
Take advantage of the opportunity now offered you on the 1942 model all metal I.E.S. floor lamps.
LIMITED STOCK . . . NEW LOW PRICE IN EFFECT FOR SHORT TIME ONLY
For the convenience of our customers, terms may be arranged.
