EFFORT TO RAILROAD IT THROUGH RESULTS IN NOISY DEBATE—PROS AND CONS AIMED AT CATHOLIC CHURCH.

## TO NOMINATE SOON

Choice Expected to Be Made Today and is Expected to Be Hanly—Platform Opposes Prohibition Movement.

By Associated Press. St. Paul, July 20.—Efforts to effect adoption of the resolutions committee draft of a platform without first printing and distributing copies to delegates this noon precipitated the first row in the national convention. The advocates of immediate consideration and adoption of the platform resented the chairman's position and William Shaw of Boston, who headed the effort to expedite consideration of the platform, withdrew his motion. The convention then recessed until two p. m.

For ten minutes the convention was in an uproar delegates standing in chairs and shouting wildly while Chairman Patton vainly pounded to restore order. The delegates evidently desired to have deliberate discussion of the various planks in the proposed platform before taking up the question of adoption.

Governor Sulzer of New York did not appear before the convention as an aspirant for the prohibition nomination for president. He arrived here today and consulted with friends. He declared he did not come to St. Paul to seek the nomination but because a group of his friends in the convention begged him to come and speak "for the good of the cause."

The proposed platform led off with strong declarations for nation wide prohibition and women's suffrage. These were followed by resolutions opposing the trade treaties with foreign nations and urging the prohibition party to maintain its independence.

"Mexico does not a conqueror but a good Samaritan" the platform declared.

An effort to inject an anti-Catholic declaration into the prohibition plank failed. The resolution was defeated in an early session while a bitter debate raged.

When the convention opened at 9:45 a. m. Hanly managers predicted his nomination on the first ballot this afternoon.

The report of the committee on credentials advised without reflection. This showed 77 delegates and 36 alternates on the floor of the convention. Thirty nine states and the district of Columbia were represented.

Mrs. Florence Nixon Hyde of Chicago, who has had charge of the work among women in behalf of the prohibition party, outlined plans for the campaign to win the women's votes, in an address before the convention proper today. Mrs. Hyde said in part:

"I want to emphasize that we are facing a presidential election in which 4,000,000 women have the privilege of voting. We are the women of the non-suffrage states are being organized continually as women in behalf of every kind of political progress. The women's organizations of various kinds are being taken into consideration more and more by politicians and seekers of office."

"There is no doubt but that a majority of women are against the liquor traffic and would give to prohibition their first consideration if properly organized. Shall we ask the women to lose their identity when they join the prohibition party or shall we give them an opportunity to speak and work for the things which they want as women make them feel that they amount to something as a distinct force. Take it from me the feminist movement is based on woman's desire for self-expression for individual action, will not tolerate anything political which even appears to mean woman's loss of identity. Men have had an opportunity this long time for full and free self-expression and when it has been denied them they fought and died to regain or preserve it."

"In our educational propaganda among the women we must recognize the other issues for which our platform will undoubtedly declare, and show them that the other things which they want for the benefit of the child and the home, hinge upon the solution of the liquor problem. That the prohibition cause is the central axis on which revolves the program of human conservation."

"I believe that it is to the interest of the party to put forward many women candidates in the first place. We have many capable women who are available, who have more time for campaigning than does the average man candidate. Secondly, we can get more publicity for a woman candidate; and thirdly, we should emphasize that we stand not only for giving the ballot to woman but for giving her a chance to help administer our government."

"Let us catch the vision of the opportunity that is ours. We have a woman vote with us if they had a chance, and they will if we can get our proposition before them squarely and fairly. In Illinois where women have separate ballots because of our limited suffrage, we know that they voted dry two to one as a separate issue on the ballot. The only reason that these same Illinois women and the women in other suffrage states

Captain Puts on Uniform Again and Announces He Will Not Leave Boat Again—Early Departure is Believed Likely.

By Associated Press. Baltimore, July 20.—Prepared to leave port at any moment, Captain Paul Koenig, commander of the German merchant submarine Deutschland, put on his uniform today for the first time since he landed here, eleven days ago and for several hours this morning studied the chart of the Potomac river and Chesapeake Bay with Captain Frederick Hainisch, commander of the North German liner Mesekar.

When Captain Koenig went back aboard the sea liner he took with him a duplicate manifest of the ship's cargo. Another copy was ready to be taken to the custom house.

Captain Koenig said he would not leave his ship again and indicated an early departure but said nothing that would give an idea just when the submarine would leave.

It was understood the Deutschland's engines and submerging machinery have been given a final test and were found to be in perfect condition.

## ADVANCE AT VERDUN

German Reverse There Are Also Reported—Rome Claims Artillery Successes Extending Over Variety of Positions.

The French have assumed their driving offensive along the Somme in northern France. According to this afternoon's Paris bulletin the German's first line trenches from Barleux to Soyecourt south of the Somme, a distance of five miles, fell into French hands.

North of the river the French attacked east from Hardesart and carried trenches along the Combes Clery railway. The operations here are close to the right flank of the British advance, Combes being little more than three miles southwest of Longueval.

Hard fighting continues on the Austro-Italian front. Vienna reports artillery achievements at various points, activity extending even to the isons.

In last night's fighting in the Verdun region Paris reports progress west of the Thiaumont works north of the citadel and the capture of a strongly fortified German position south of Fleury.

Today's official statement from London shows that the British are continuing their attempt to regain the ground lost in the recent strong German counter attack in the Somme region. Progress in the Delville wood and in Longueval is reported and the British lines also have been moved forward north of the Longueval-Basme tin line.

Unofficial reports from Petrograd tell of the development of a great battle in the Carpathians at Jablonka where the Austrians are repelling the Russian advance into Hungary.

By Associated Press. Washington, July 20.—Announcement that the settlement of the differences between the United States and Mexico will be made through a joint commission is looked for in the immediate future. Only final approval by President Wilson and General Carranza is needed, it was said today.

Powers to be conferred on a commission if one is agreed upon, have formed one of the chief points of discussion in preliminary negotiations between Acting Secretary Phil and Eliseo Arredondo, Mexican ambassador-designate.

Henry P. Fletcher, American ambassador-designate to Mexico, will go to his post in Mexico City soon after August 1 if the situation continues clear, it was understood today.

LABOR COUNCIL PLANS OPEN MEETING AT LAHAR AIRDOME

OTHERS TO BE HEARD

All Candidates to Be Given Opportunity to Speak at Open Air Session.

Preparations are practically complete for the opening meeting of the Trades and Labor Council at the Lahar Airdome tonight and a large crowd of laboring men and their friends are expected to attend. The Airdome is being arranged for the occasion, including the installation of lights, and if the weather is favorable a pleasant evening may be spent by those who care to hear the issues of the campaign discussed.

Gov. Colquitt will deliver an address in behalf of his candidacy for United States senator, this arrangement having been made in view of the fact that Mr. Colquitt had previously announced an appointment for this date and it was not thought advisable to attempt two meetings. It is announced by members of organized labor that there is no significance in the fact that he is given a place on the program, and the incident is not intended to indicate a preference or partiality in the contest for that of his. Mr. Colquitt will be introduced by W. Lindsey Bibb, chairman of the C. F. Goodrich, chairman of the

Joint legislative board of the railway organization, will also be a guest of the laboring men and will discuss the eight-hour law, for which the railway employees are making an earnest fight. All railway men have been especially invited to attend the meeting, and will be given a prominent place on the program. They will also be invited to attend the smoker to be held tomorrow night and it is possible that Mr. Goodrich will remain over to attend this event.

The smoker to be held at the Moose hall, is in the nature of a continuation of the program arranged for tonight, and will be a get-together meeting of all the laboring men of the city. Judge Harvey Harris will preside at the meeting tonight as master of ceremonies, having accepted an invitation from the committee of the Trades and Labor Council. Special seats will be provided for all the candidates and it is possible that they will be asked to occupy a position on the stage.

HELPING "WOPS" TO BE CITIZENS

INTERIOR DEPARTMENT WORKING FOR AMERICANIZATION OF IMMIGRANTS

LEARNING LANGUAGE

Necessity For Federal Action is Revealed By Figures in 1910 Census Reports.

(By Frederic Ernest Farrington, Bureau of Education.) (The interior department, through its bureau of education, has undertaken a significant piece of work in forwarding the movement for Americanization. Dr. Farrington's article forms the first complete statement of this new activity.)

In April, 1914, the first step was taken which resulted in making the division of immigrant education an organic part of the bureau of education of the department of the interior at Washington. Thoughtful people with large civic interests had been aroused by the revelations of the census report of 1910 to a realization of the significance of the alien problem in this country. For many a decade Americans with smug complacency had prided themselves on the irresistible power of American civilization to assimilate the foreigner who landed upon our shores. Nobody knew just how it was being done, nor could one point to any specific organization responsible for effecting the change, but somehow or other that subtle force of American

of the various branches, departments and sub-divisions of the government and the relationship existing between federal and state governments, and between this country and foreign countries. While such a compilation will be of immense value to the foreigner to whom our civil and political organization seems a hopeless maze, it is equally intended for the use of the ordinary American citizen whose knowledge on some of these points is not always perfectly clear.

Every opportunity has been embraced to promote educational facilities. As a part of the co-operative plan of the bureau of education for promoting education in the State of Delaware, this division followed out a fixed program in promoting the establishment of evening school facilities for adult aliens in Wilmington. Through its efforts, a local co-operating committee was formed, local interest was aroused and a publicity plan formulated and carried to successful completion. Evening schools were opened on January 3, 1916. These schools are being financed by private subscription and the city council had refused to appropriate \$1,000 requested in order to carry on the work. Adult immigrants in Wilmington are now enjoying opportunities for learning English where before such opportunities were denied them. Courses suggested by this division are being followed by these classes.

In November, 1915, a petition signed by 65 Lithuanians of Melrose Park, Pa., was addressed to the bureau praying for the establishment of an evening school wherein they might learn English. This was the official request for attention of the school authorities in Melrose Park, and in December they agreed to provide the school.

The division is also co-operating with the Pennsylvania State department of education in establishing divisions of vocational guidance under various city bureaus of compulsory attendance and by assisting in the formulation of policies, rules and regulations applicable to the divisions. By special request the chief of the division participated in working out a method of co-operation between the Pennsylvania department of labor and industry and the U. S. bureau of immigration for the joint maintenance of a State system of labor exchanges. By special arrangement also the chief of this division acts in a consulting capacity to the Pennsylvania commissioner of labor and industry and supervises the work of the division of immigration in the Pennsylvania bureau of employment.

One point should stand out clearly from the foregoing—that the division has not so much attempted to work alone as it has to enlist the co-operation of individuals, public authorities, organizations and industrial corporations who are or ought to be interested in the work in hand. This procedure was adopted by reason of a firm belief in co-operative effort and in the fundamental proposition that individual, social or government organization will be most successful which early appreciates the validity of this principle and applies it in its activities.

### FORM COMPANY OF HONOR GUARD

GIRLS PERFECT ORGANIZATION AT SESSION HELD WEDNESDAY AFTERNOON.

### WANT 100 MEMBERS

Will Begin Active Study in Three or Four Weeks—Officers Are Elected.

Nineteen girls were present at the enrollment meeting of the Girls' Honor Guard Wednesday afternoon at the home of Miss Kathleen Blair, despite the fact that it was the hottest afternoon of the season, and the or-

ganization was perfected with a degree of enthusiasm that promised well for the future activity of the Guard. Miss Kathleen Blair was elected secretary and Miss Audrey Adickes treasurer and the members were pledged to start on a membership campaign. Practically all of the girls present signed up in the first and third divisions of the Guard, those divisions devoted to first aid and practical nursing and real army training. Volunteer physicians and trained nurses will act as instructors for these groups, the active work to be taken up about the middle of August. There will be no meetings held for three or four weeks, the members to devote their time to securing new members until cooler weather makes it possible to engage in active study. It is the aim of the Wichita Falls company to secure a hundred members by fall. The company has one out of town member, Miss Christyne Hoxie of Electra, who became interested in the movement and offered to become a member of the local camp and to render whatever service possible. Miss Hoxie was present at the meeting Wednesday and it is probable that through her other girls in Electra may join the Wichita Falls Guard.

Girls interested in the Guard and desiring further information may gain same by phoning either Lieutenant Carver or Miss Kathleen Blair, secretary.

### DREAMS OF HIDDEN GOLD: NOW HUNTING FOR IT

(Pasadena (Cal.) Dispatch to the San Francisco Chronicle.) As soon as he is able to find a mineral rod with which to continue his work, J. O. Butler of East Colorado street will renew his hunt for buried treasure in the neighborhood of the old mill on the Huntington estate.

Butler has sent to New York in the hope of locating the instrument which he expects to use in his search for several gallons of gold supposed to have been buried a century ago by the early Spaniards.

"Eight times have I dreamed of the buried treasure," said Butler in discussing his plans. "At first I paid no attention to my dreams, but they returned over a period of five years, and when the details in each were the same I made investigations, and was told of the early Spaniards who buried treasure in the district where the

old mill now stands. I went there, and found the place to be exactly as my dreams painted it eight different times."

Butler went on to describe the old miller who was supposed to have been murdered while guarding the treasure for the old San Gabriel Mission, and said that several old Spaniards of San Gabriel had recounted the exact circumstance to him, the same as in his dream.

The treasure hunters says a wealthy woman of Los Angeles has offered to finance his work if he will give her half of the find. Butler refused, and says she now threatens to buy up all the land and conduct her own search.

### ILLNESS IS FATAL TO H. T. CANFIELD

Pioneer Resident of This City Succumbs Late Wednesday Evening.

Wednesday evening at 7:30 Henry T. Canfield, for 21 years prominent resident of Wichita Falls died at his home, 1212 Broad, after a four months' illness with kidney trouble. The funeral will take place Friday afternoon at 3:30 from the residence, a short funeral service by Rev. N. F. Gratton of the First Presbyterian Church to precede the Masonic burial service.

Mr. Canfield had recently celebrated his 75th birthday, being born July 17, 1841, in Ohio. During the Civil War he served three years with the quartermaster's department of the Union Army. On December 8, 1864 he was married to Miss Belle Mansfield, a niece of Gen. Mansfield Connecticut of Civil War fame, years they lived in Waseon, Ohio, moving from there to Zanesville and there they lived for 15 years, moving from there to Michigan where Mr. Canfield had lumber interests. After a three years stay in Michigan they came to Texas and in 1885 settled in the vicinity of Wichita Falls. Until 1898 Mr. Canfield was actively engaged in ranching, giving this up to become postmaster of Wichita Falls, holding that position until 1907. Since retiring from the postoffice he had not been engaged in any business, devoting his time to looking after real estate and other interests here.

Three children were born to Mr. and Mrs. Canfield, Mrs. Belle Jalonick, who with two of her children and her husband perished in the Galveston storm of 1900; Mrs. Grace Prescott of Kansas City and Hattie Maud, who died at the age of thirteen. Until a few months ago Mr. Canfield enjoyed good health and was very active. When his symptoms

**VOTE FOR CHARLES A. CULBERSON**  
for **Re-Election** as **United States Senator**

CHAS. A. CULBERSON

Not one of Senator Culberson's opponents has had a word to say in criticism of his record. Some political ingrates have said that he is sick—forgetting that Charley Culberson is worth more to Texas sick than any of his opponents could be, healthy and active. But medical authority of unquestioned standing declares his health is good. He has been in his place in the Senate more regularly in the past year than Henry has been in the House.

The Most Illustrious Figure in the American Senate. A Statesman Above the Petty Levels of Factional Strife. The Trusted Friend and Counsellor of the President. A Public Servant With Whom Duty Comes First of All. True to Every Obligation, Public and Private. Record of Faithful and Efficient Service Unsurpassed in Texas Annals.

# FACTS About The

# Wichita Southern Policies

- FIRST**—They are all absolutely free from restrictions as to residence, occupation, travel or place of death. You need not worry about what might happen to your insurance in case you move about or change your occupation.
- SECOND**—If for any reason your premium is not paid when due, you will be allowed One Month's Grace in which to make payment, and no interest is charged for this accommodation, and your policy is in full force.
- THIRD**—You can borrow on the sole security of the policy, either for the purpose of paying premiums or to secure ready cash. If, however, you should make no provision for the premium after the third year, then, without any action on your part, your policy shall be extended as a full paid up policy for the full amount for a period of years as shown in the policy; consequently, you have an absolutely non-forfeitable policy.
- FOURTH**—In case you should prefer it, you may upon request, after the third year, take a paid-up policy for the amount specified in the policy, thus, giving you a policy paid up for life.
- FIFTH**—If you should become disabled and unable to perform gainful work, the Company will pay all premiums accruing on your policy; (these payments will not be charged either as a lien on the policy or as an obligation upon the policy-holder,) and at your death the beneficiary will receive the full amount of the policy. Or, we will pay the full amount of the policy to you in 20 annual installments to be paid immediately after you become disabled, and in case of your death before you have received the 20 annual payments, then, we will pay the remaining installments to your beneficiary. Hence, it is impossible for you to lose your insurance.
- SIXTH**—Your policy is drawn so as to conform with the laws of the State, and to give you every possible safeguard and convenience. It is simple, brief and easily understood, and those who are competent to judge, say it is the very best insurance policy ever issued.

Statements this week; discredited politicians next week.

Dispatches report that the prohibitionists opened their convention by singing "Hail, Hail, the Gang's All Here." The prohibitionists are the only crowd which ever sang this song at the opening of their gathering.

Where no Culberson men appear before they are now showing up by the hundreds. The Culberson men were there all along but they were not making as much noise as some of the others.

There is no doubt but that this man Colquitt will be a serious contender in the primary next Saturday. He has always brought a big vote to the polls and reports from some sections of the state indicate that he will get a big share of the anti-prohibition vote.

How the prohibitionists are helping out through their trust and best legislative program in a generation. It is not in the history of the country that a completed program of the democratic party will go before the people next November with a record so unblemished.

It is well to remember this in reading campaign literature circulated in the closing hours of the campaign.

The Times is preparing to give prompt and complete bulletins service on the night of the primary covering not only county and state but district returns as well. No expense has been or will be spared in the collection of these bulletins and their display.

The Times is supporting Charles A. Culberson for Senator and John H. Stephens for congressman, not only because of what they have done, but what they can and will do in the future.

Dr. A. Caswell Ellis, director of extension of the University of Texas, told Texas farmers attending the Texas State Farmers Institute at Austin this week, that \$70 per farm was a moderate estimate of the cost of

preventable disease. "In other words," he said, "in the section surveyed there was a loss of \$14.20 per cent through preventable sickness including merely doctors' bills, medicines and loss of labor while sick."

The Call is under no political obligation to Congressman John H. Stephens, but we desire to see fair play while he is not here to answer for himself. No doubt there will be an effort made to keep Stephens out of the primary.

FOR SHERIFF OF WICHITA COUNTY

**J. L. HUFFINES**

I am asking the support of the voters of Wichita County for the democratic nomination for sheriff, and I therefore feel that it is my duty to state plainly the return which I expect to give them for their support.

I will conduct the business of the sheriff's department in a business like manner. I expect to be on the job at all hours of the day and night myself, and will not leave the management of the office to deputies.

I will treat every man who comes under the action of the department in the same way. No matter what may be the cause or the consequence, if I am elected sheriff there will be one rule of action for all parties, and that is, the rule of the law. They will look alike to me if they break the law.

I am a farmer—some folks call me a rube—but I know what the law is, and I know that it was not made for one man to kick about as a plaything and another to obey. I know how to handle the business of the office, to keep the books, and to take charge of the prisoners, I expect to be elected, and I am going to try to make you the best sheriff that Wichita County has ever had. I will thank you for your support, and after election I expect to be just the same common old farmer and decent man that I am trying to be now.

Candidate for Sheriff of Wichita County.

**AT THE THEATRES**

The Empress. The William Fox photodrama, "Hypocrisy," in which that Southern beauty, Virginia Pearson, is leading woman, is showing to-day at the Empress. The picture play, "Hypocrisy" tells with forceful moral just what makes so-called high society really a low-in many of its phases. It lays bare the vice of social ambition, marriage for

anything but love, men's business race for gold, women's climb to social glory, and all the dangers of gambling, whether in stocks and bonds or at the fashionable "bridge."

Miss Pearson as the wife of "man of the world" in her film life in "Hypocrisy" goes through with unhappy result all of these stages. Her husband and lover are money mad, and she has a falling for bridge which leads her into debt. Her love of dress brings her deeper into that indebtedness which the poor do not know. The pic-

ture shows the truth in the trades people's axiom, "It is only the poor who pay their bills."

The basis of the play was taken from New York life, where probably America's money-mad and social-climbing race is most completely accented. But it applies as well to the unwritten histories of every town of any size, to those stories of social disgrace which are whispered from ear to ear among the city's upper class and which are known but never printed in any newspaper office of the land. Only seldom, when a divorce suit or sudden crime brings them into the courts, do the common-folk of everyday life realize how lucky they are to possess the virtues of poverty and homely simplicity. In "Hypocrisy" all will have a chance to see society as it really is; not all had, for society is human, but not as its pose and sham and bluff leads so many to think it is.

The Gem. Roberta Wilson and G. Raymond Nye are starred in a two-part Bison drama, "The Cago Man," showing today at the Gem. The story deals with a man in prison for long years and the circumstances surrounding his being sent there. The story told by the picture is one of more than passing interest dealing as it does with the downfall of a man through drink and the gaming table and the steadfastness of his young wife and his friend, a doctor who was in love with the wife.

**NEW SERIAL STARTS AT THE GEM TOMORROW**

Friday at the Gem the first installment of the new serial, "The Secret of the Submarine" will be shown. With the recent arrival of the Deutschland from Germany all things are believed, however marvelous, about the submarine and the unusual plot of this unusual picture will certainly be the least far fetched. Tom Chatterton and Juanita Hansen are stars. Just what the secret of the submarine is, who possesses it and who desires to gain it, make up the thrilling serial. Each installment in two reels promise to contain the maximum of exciting adventure.

**The Majestic.**

A picture that is really a departure from the beaten path of motion picture drama is to open a two days' engagement at the Majestic today; the Triangle feature, "The Beggar of Cawnpore." The setting is in India, the land of highly colored romance and of treason and sedition as well. H. B. Warner, the star, has an exceedingly difficult role to perform, that of a soldier high in rank in the British army who later becomes an outcast, a drug fiend and a beggar. Through a military mistake he loses his rank and his heart. It is but a short step to the deadly opium habit and with even his self-respect gone he becomes the most depraved outcast to be imagined. The consummate art of the actor is splendidly exemplified in this transition, slow at first and then of appalling swiftness. Then is a vital moment, when the honor of his country demands the man conquer himself and with a gigantic exertion of will regains his position, not without much anguish and labor on his part. However, there is a happy ending, the only conventional tone in the picture. On the same program is a two-reel Keystone.

**PLEASANT SESSION HELD BY FIREMEN**

Get-Together Meeting at Central Station Wednesday Night is Largely Attended.

The Wichita Falls fire department held a get-together meeting at the Central fire station last night which was well attended and thoroughly enjoyed by all. Besides the firemen in attendance, the night police and police force dropped in for a while during the evening.

J. C. Ward, president of the firemen, and the oldest volunteer in point of service in the city, presided over the meeting and delivered an address giving points for the good of the service which was of deep interest to the younger firemen. Mr. Ward, who used to fight fires here when the fire apparatus consisted of a few old buckets, and leaky ones at that, spoke of the modern and up-to-date equipment of the Wichita Falls fire department and the good streets they had to run over, saying that they should have no trouble in getting to a fire with a minimum loss of time. The keynote of success in fighting fires according to Mr. Ward is to get to the fire early, as all fires are small fires at first.

Refreshments consisting of ice cream and cake, punch and cigars were enjoyed by all. The ice cream was donated to the firemen by the Holiday Creamery, and the cigars were a present from Pete.

The following members of the fire department were in attendance: J. C. Ward, president; J. L. McClure, chief; Fred Smith, assistant chief; E. B. McHam, vice president; Grant Habern, E. H. Hickman, George Osteen, Hubert Lewis, Morris Sansbury, Ed. Northup, Jack Osteen, Arthur Booth, Alex. Michel, Jim Briggs and Mack Heck.

The following members of the police department were guests of the firemen: Night Chief, St. Donald, Bill Towery and Officers, Glenn, Gilman, Walker, Pitchford, Burns and Melver, and Deputy Constable Harold Burns.

W. P. Karcho was also one of the guests and made a short talk that was enjoyed by the crowd.

The following ladies, wives of members of the department were also present: Rosemae McClure, Habern, Northup and Briggs.

**PICNIC FOR OUT-OF-TOWN VISITORS WEDNESDAY**

Wednesday Mrs. R. O. Caldwell entertained with a delightful all-day picnic at Lake Wichita in compliment to her three guests, her mother and brother, Mrs. L. J. Fuqua and Ivan Fuqua of Waxahatchie and Miss Fremont Watters of Lawton, Okla. The morning was spent in fishing and numerous big catches were made. At the noon hour a spread of all manner of picnic dainties was enjoyed and the afternoon was devoted to swimming, boat riding and kodaking. About dusk the party motored to the home of Mr. and Mrs. Ross Newton and spent the evening with numerous informal pleasures, refreshments being served at a late hour. The party included: Mrs. Fuqua, Mr. Fuqua and Miss Watters, honorees; Miss Abbie Strood of Fort Worth, sister of Mrs. Newton; Miss Irene Baylis, Mesers, Eli Moran, Luther Bell and Carl Newton and Messrs. and Madamess Ross Newton and R.
