

MCRAW ROASTS HIS PLAYERS FOR TUESDAY'S GAME

SAYS THEY DISREGARDED SIGNALS AND INDIFFERENTLY AGAINST BROOKLYN LEAVES FIELD IN ANGER

ROBINSON ANSWERS

Points to New York's Brilliant Start in American League. President Says Giants Played "Sloppy" When Dodgers Scored.

By Associated Press. New York, Oct. 4.—The glory of Brooklyn's victory in the National League game which decided the pennant today by the controversy in baseball circles over Manager McGraw's censure of the New York club in yesterday's game, which decided the pennant, McGraw accused some of his men of disobeying orders and playing indifferently.

Most of those who heard McGraw's comment when he left the field in anger say that he did not accuse his players of dishonesty but of disregarding his signals and that he would not stand for that kind of baseball.

Manager Robinson of the Brooklyn club said: "It is ridiculous even to suggest that the New York club was not trying to beat us yesterday. It looked to me as if it were trying pretty hard when it scored three runs against us in the first inning. At that time I felt like quitting the bench myself. McGraw's assertions are very unportunant. He knows very well the Brooklyn team is superior to the New York club and has defeated it in a majority of the games this season and when the Giants came here Monday they countered the best team in the league. It was only natural the best team should win. The New York club did play badly yesterday but it was just out of a long winning streak that Boston stopped Saturday and it had not the stamina to win."

John K. Tener, president of the National League said that after Brooklyn scored four runs in the third inning the New York club played sloppily and that it was unfortunate that it had happened in the game that decided the pennant.

The National Commission will take no action on the statement made yesterday by McGraw. President J. K. Tener of the National League said the commission would not take any cognizance of McGraw's remarks.

McGraw could not be found to amplify his remarks.

In commenting on McGraw's remarks President Ban Johnson of the American League characterized them as "outrages" and said that if this situation had arisen in the American League he would have dealt with it in anything but a lenient manner. When asked if the National Commission would take up the matter Johnson said that it was up to the National League to handle it.

"If they are not big enough to handle it they should go out of the world's series," he said, "and I am confident that I am the first I have heard of the incident." He said, "I am a fool act."

BROOKLYN TO OPPOSE

Dodgers Cop National Pennant Tuesday, Winning While Phillies Are Losing Twice

Wichita Falls baseball fans can see nothing but Boston in the world's series which opens Saturday. Some of them believe that the winners of last year's world series will defeat Brooklyn in five games and Brooklyn support seems to be lacking, except where odds are offered.

Already some here has swapped owners as a result of the outcome of the National League race. Sunday it seemed that Philadelphia had decided the best chances, as Brooklyn had to face New York which then appeared after its winning streak of 27 games, to be the strongest team in the league, but Brooklyn, which Philadelphia had failed to do, and did it quick, taking the first two games. Boston's treatment of Philadelphia was an unexpected one. It was natural to the Phillies' friends, as it was hardly to have been expected that the Braves would cop three out of four games. If Brooklyn should lose today and tomorrow and Philadelphia should win the two games she has with Boston, the final standing would be:

Club	P.	W.	L.	Pct.
Brooklyn	154	92	61	.603
Philadelphia	133	92	41	.697

This is the first time in recent baseball history that Brooklyn has won a pennant. She took the lead early in the season and while she lost it for one or two brief periods, she promptly regained it and yesterday was able to put it on ice. The decision would not be reached until the final day of the season. As it was, the race was one of the most remarkable in baseball history, as up to a few days ago there were three contenders.

Boston's success is due largely to its manager, Wilfred Robinson, who took the team last year and in two seasons made a pennant winner out of a tall order. Robinson at one time was a catcher on the New York Giants, but took on too much flesh for active duty. For a number of seasons he was used as a trainer and scout by McGraw, his particular mission being to coach the recruit pitchers. It was a familiar sight at Marlin, during the training season there to see Robinson catching the arms of half a dozen or more youngsters and after a few days of this experience he could tell McGraw just what to expect of each try out. His experience in judging players stands well when he took the helm in Brooklyn.

YOUNG LAWYER IS FINED FOR DRUNK

Moved Here Recently From Dry Town and Appetite Gets Upper Hand on Him

A young lawyer with apparently good family connections and financial resources, who admitted that his falling was drunk, and who was moving from a dry town in Wichita Falls, was arraigned in the police court this morning on a double charge of vagrancy and intoxication. He easily beat the first part of the charge, but it was proved that since coming here first over a month ago he has been intoxicated most of the time. He was given ten days, the judge telling him in passing the sentence which was recommended by the city attorney, that he believed that it was a charitable act toward him to put him where he could not get any whiskey for a time, and give him a chance to set it out of his system.

HIGH SCHOOL TEAM IS TRAINING HARD

Squad Being Put Into Shape For Game With Burk Burnett Saturday

Coach King is rapidly whipping his high school squad into shape for the opener with Burk Burnett next Saturday on the latter's lot. The big count piled up on Grandfield last week by the Burk Burnett squad, although it served to show the local boys that they have their work cut out for them in the coming game, has not discouraged them, but spurred both the coach and players on to greater efforts toward the humbling of the up-county squad.

The local team is beginning to show the results of the painstaking and careful coaching in the fundamentals of the game which has been the chief part of Coach King's program. Especially is this true in the brand of interference being run by the backfield, who seem to be thoroughly grounded in just what is expected of them in running interference, although some of them as yet are somewhat slow to leave their feet in going after the defensive players.

IN THE SPHERE OF WOMANKIND

October's Party. October gave a party. The leaves by hundreds came; The chestnuts oaks and maples, And leaves of every name.

The sunshine spread a carpet, And everything was grand; Miss Weather led the dancing, Professor Wind the band.

The chestnuts came in yellow, The oaks in crimson dressed, The lovely Misses Maple Th scarlet looked their best.

All balanced to their partners, And gayly fluttered by; The sight was like a rainbow New fallen from the sky.

Then in the rusty hollows At hide and seek they played, The party closed at sundown, And everybody stayed.

Professor Wind played louder, They flew along the ground, And there the nuptial music was sung by the full vested choir, In "hands across all round."

McGREGOR-BURNS NUPTIALS SOLEMNIZED TUESDAY NIGHT

A wedding of more than usual interest with all the solemnity and beauty of ceremony attendant upon a high church nuptial mass was celebrated Tuesday evening at 9 o'clock at the Church of the Good Shepherd when Miss Lillian McGregor became the bride of Lester T. Burns, Rev. F. T. Dajson, the rector of the Good Shepherd, officiating. The wedding hymn and other nuptial music was sung by the full vested choir, with T. L. Krebs at the organ.

The church was beautiful in the wedding decorations of ferns and white roses and the participants presented a charming picture; the petite and charming bride in her bridal attire, the maids and bridesmaids in full dress and the solemn setting provided by the Episcopal ceremonial, the candles burning, the vested choir and the rector himself.

The groomsmen and bridesmaids entered down the central aisle, preceding the matron of honor, Mrs. Carter McGregor, the ring bearer, Miss Josephine Blain of Dallas, and the bride, entering on the arm of her father, W. M. McGregor, who gave her away. The groom and his best man, Carter McGregor, only brother of the bride, entered from the rector's study and met the bride and her father in the nave of the church, before the altar where the betrothal took place. Then proceeding to the altar before the sanctuary the marriage rites were performed, the ring ceremony being used.

With the use of the ring there was a pretty sentiment involved the ring being a part of the ring used in the marriage ceremony of the bride's mother and father, the gold band having been remodeled to form two circles, one for the mother and one for the daughter. Also in the ring bearer there was a pleasing sentiment, the little girl being the daughter of Mrs. Herbert Hughes, formerly Miss Josephine Blair of this city, at whose wedding the bride, then a miss in short frocks, was ribbon bearer.

The maids and men were chosen

From the most intimate circle of the friends of the bride and groom and included: Miss Genevieve Carver and J. L. Gober, Miss Kathleen Blair and Ernest Fair, Miss Bertha Mae Kemp and Jack Avis, Miss Bess Kell and Wiley Blair Jr., Miss Mabel Simpson and James Griffin, Miss Myrtice Stringer and John W. Thomas and Miss Agnes Reid and Will Andrews.

The girlish charm of the bride was enhanced by her wedding gown, a wonderful creation of silver lace, woven in rose and crescent pattern in silver thread over white satin. The low cut bodice was heavily encrusted in pearls and brilliants with a girle of cloth of silver. The sleeves were full length and of tulle, caught at the wrist with bands of pearls. From the shoulders fell a full length court train of tulle, embroidered in silver threads in the rose and crescent pattern of the lace. Her veil which fell to the end of the train, was of white tulle, in coronet effect in the back and caught to the forehead with a band of orange blossoms. The round bouquet of bride's roses and lilies of the valley was held with grace in the silver lace in-shower effect tied with white satin brocade ribbon. The gloves and slippers were of white kid.

Mrs. Carter McGregor, matron of honor, wore a white tulle frock, with bouffant skirt. The girle was of lavender satin and her hat was of lavender tulle, embroidered in silver threads in the rose and crescent pattern of the lace. PLENTY OF #HOOP From People You Know—From Wichita Falls Citizens

The greatest skeptic can hardly fail to be convinced by evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Wichita Falls, of people who can be seen at any time. Read the following case of H. L. Suydam, 504 Lee street, Wichita Falls says: "I have had spells with my back and kidneys, when I can't do anything. The constant dull ache across my kidneys kept me in misery. My kidneys didn't act as they should and the kidney secretions contained sediment. I used different medicines, but none gave me the results that Doan's Kidney Pills did. My back soon felt easier and my kidneys again acted properly."

The big packing companies have announced a voluntary increase of 2-1-2 cents an hour to about 60,000 employees. The employees are doubtless entitled to the increase but the raise in the price of bacon and lard that this increase will call for will shift the burden on to the consumer.

Clarence E. Gilmore of Willis Point, has announced his candidacy for the place on the Texas Railroad Commission made vacant by the death of Hon. W. D. Williams. Mr. Gilmore was editor of the Weekly Times years ago. Later he moved to Willis Point where he published The Willis Point Chronicle. He has been a member of the legislature and is a successful lawyer. Mr. Gilmore is a man of eminent ability and unquestioned integrity. His many friends in Wichita Falls will give his candidacy cordial support.

Now if President Pope of the Texas Farmers Union gets congress to have the Federal reserve bank to guarantee loans of 12 cents a pound on cotton and the rural credit bank will advance 50 per cent of the value of land and improvements at a low rate of interest. It will greatly encourage the growing of cotton. Everybody will want to go to raising cotton which will be the only commodity on which the government will be fixing a price. If the rural credits measure proves as great

arms, equipment and ammunition. This was the first review of the expeditionary force on Mexico. Well, it will probably be the last as it is known that General Funston has recommended the withdrawal of the forces now in Mexico. It was therefore an event of more importance than an ordinary review of an equal number of troops. It represented the best and most efficient in the American army and embodied many important military lessons that have been learned from the expedition.

BRYCE AGAINST A TRADE WAR.

In an address at Manchester, England, James Bryce, former British Ambassador to America, counseled against the talk of a trade war against Germany at the close of the present war. It is doubtful whether the leaders in Great Britain seriously consider a trade war. Such a war would keep alive old hatreds and would be a constant menace to the peace of the world. It is in absolute contravention of England's long established policy of non-interference in trade. England has enjoyed the freest trade of any nation in the world. Her insular position and her leadership in the commerce of the world has made free trade a necessity with her. The war will bring great changes in England, but it can hardly be imagined that it will result in any great changes in a policy that has given England a leadership among the nations. In the heat of war the British may talk of a trade war, after the conflict. But even the talk of such a war ought to be stopped. Mr. Bryce spoke plainly at Manchester. He said: "To indulge in revenge will be to sow the seeds of future wars. Nations can not hate one another forever and the sooner they cease to do so the better for all of them. We must take all proper steps to defend ourselves from any dangers that might arise if after the war the enemy countries were to resume an insidious hostility. That is at present no more than a possibility which may never arise."

But the talk we now hear about starting after peace has been concluded a new war of trade to follow the war of arms has immense capabilities for mischief. Such a trade war would prolong, would embitter afresh those hatreds that ought to be allowed to die, and it assumes a continuance of those very things from which we expect our victory to deliver us once for all.

FURTHER AGITATION TO CHANGE DOVE SEASON

Austin, Texas, Oct. 4.—Full cooperation is to be given by the state department of agriculture to the officers of the Audubon Society and others interested in the matter of shortening the open season for killing doves. It is doing this both from a sentimental and practical point of view, declared Commissioner of Agriculture Fred W. Davis. Investigations have disclosed that the beginning of the open season on Sept. 1 finds the birds yet nesting as late as Sept. 15. Young doves have been found in the nest. It is planned to change or amend the game laws relative to doves so that the open season will not begin until November 1, which was the date for the opening of the season under an old law. The matter will be taken up at the next session of the legislature.

HAVE MADE COPIES OF BREWERY EVIDENCE

Austin, Texas, Oct. 4.—The task of making copies of a mass of evidence gathered by the state of Texas in the recent ouster and penalty suit by the state against the Texas breweries and certain breweries doing business in Texas, has just been completed by a representative of the federal department of justice at Washington. It is understood the testimony, wanted relative to the acts of certain out of state breweries doing business in Texas. This step on the part of the federal department of justice is said to be a forerunner of suits to be instituted by the federal government against breweries doing an interstate business and shipping their produce in the state of

FLEMING TO MEET CARNIVAL'S BOXER

Local Lightweight Will Endeavor To Remain in Ring Four Rounds Carl Fleming, local lightweight boxer, has accepted the challenge issued to all comers by Jimmy Odare, a 122 pound boxer of considerable note who is here with the carnival company. Boxing matches are a feature of the carnival and half of the gate receipts are offered anyone who will remain in the ring with Odare for four rounds. Several local pugilistic aspirants have sought to remain the four rounds but failed to do so. Tonight Fleming will take the carnival man and he expects to remain the four rounds and then some. Odare, who is also a balloonist, has won a number of prizes in this city and declared today that he had no fear of having to split the receipts with Fleming.

VAUDEVILLE BILL IS VERY PLEASING

Large Crowd Witnesses Seven Clever Acts That Make Up Tuesday's Program.

Tuesday night's vaudeville program at the Wichita Theater was fully up to the standards set at the first two affairs of the kind, both as to excellence of entertainment and as to patronage. Everyone of the seven acts was pleasing, and the house was filled to its capacity, evidencing, as always, the ability of this city to support the right kind of theatricals.

The program opened with a comedy acrobat act by Heras and Preston. There was some clever gymnastic work in this number, while the comedy end of the act included the taking of some hard falls by the two performers and some other fancy stuff that kept the spectators roused. Some difficult stunts in the gymnastic line featured the act.

Fred and Adie Astair staged a pretty and clever dancing act that was quite pleasing. Both are exceptionally graceful and light-footed and their repertoire included some new and nifty steps that were good to look upon.

A comedy skit "The Office Boy" was presented by Eddie Carr and company and won plentiful laughter. Eddie Carr was the whole show in this act, though he was well supported by the other two; the piece was filled with rapid-fire comedy that left the audience breathless. The sketch was one of unusual rolickness and won much favor.

Lillian Herlein put on a fashion show that gave the ladies a look at some real tussle duress. Her songs were new and were well rendered.

Victor Morley, well known in musical comedy circles, starred in a musical comedy, "A Regular Army Man," which combined some good music and clever comedy with a plea for preparedness. Morley himself performed in fine musical comedy headliner style and he had the assistance of an able company of ten, all possessed of good voices. This act was well received.

Some real nigger-talk was heard when Willing, Butley and Willing put on a "Scrappy Coon" act. There was a dialogue between the two dark-faced comedians that was laugh with every line. It sounded like two sure-enough mad darters in a cussing match and gave the audience plenty to laugh at.

Henrietta Man Quits Tobacco Habit After Using Weed 70 Yrs.

Having used tobacco in several forms, but never in cigarettes, he affirms proudly, for 70 years and then having quit, he has the unusual record of R. P. Cummins, 78 years old, a resident of Henrietta, who is in Wichita Falls for a short visit. Last summer Mr. Cummins decided that his dyspepsia was getting too much for him and decided to try leaving off tobacco, though he had started its use when he was a boy of eight years. It was sixty days ago that he made that decision and he has kept to it faithfully and says he finds himself much improved in health and gaining in flesh. This goes to prove, Mr. Cummins says, that a man can stop anything he wills, no matter how the habit has grown on him. Mr. Cummins formerly lived here and is well known. He is visiting today with A. L. Lane Sr., an old friend.

You Can Pay for A Victrola Or Edison By Christmas ...IF YOU BEGIN NOW....

Even on the very small weekly payments on which we sell these two wonderful instruments, you can have it ready for your supreme gift when the gladsome morn rolls around—and by our plan of selling you will never miss the money.

And you know you will never be able to find another gift that will take the place of a musical instrument. You know that sooner or later the family must have one. We believe that these two instruments are among the greatest forces for good that can be put into the American home. They satisfy that desire for good music that is inherent in every soul, and bring right into your home, for the edification of the children and the pleasure and profit of the grown up friends and neighbors the very best music that the world produces.

Our stock now contains 75 instruments, in all designs of cabinets and natural wood finishes—it is more complete now than it ever has been, and probably more so than it will be again before Christmas—for that reason we urge you to come now and make your selection.

The OLDEST FOOD KNOWN

Biblical history frequently mentions the olive tree, ripe olives and olive oil. The Greeks and Romans highly prized olive cultivation.

As civilization and culture traveled Westward, so followed the use of the olive and its oil. It spread to Spain and finally after the discovery of the American continent, was successfully established in California by missionaries in 1769.

We have our green olives packed for us by the largest olive importer and packer in America and handle nothing but the very fanciest of Saville fruit. Our ripe Olives and Olive Oil have been most carefully selected from different packers and each grade we believe to be the very best of the WORLDS production for the price, and each selection is the result of most careful comparison of the offerings of all the biggest packers of Fancy Fruit.

On account of our large purchases we are enabled to make cheaper prices than the ordinary dealer.
