NEW OIL STRIKE NEAR HOLLIDAY

TEST ON KNIGHT RANCH SHOWING FOR GOOD WELL AT 1604 FEET.

MEANS WIDER FIELD

Is Seven Miles From First Well in That Section—First Tests Are Very Favorable.

A seven mile extension of the Archer county oil field was practically effected last night when the well being drilled on the Knight lease two miles west of Holliday struck a good sand at 1604 feet, and a preliminary test showed oil in good quantities.

If the well proves to be as good as the first indications show, it is one of the most important developments in the Northwest Texas field in many months. Archer county prospects had suffered somewhat when two holes missed the sand in the Panther company's discovery well, but last night's developments put an entirely new light on the situation there.

The sand was struck at 1644 feet and the drill went into it a depth of three feet. The hole filled up with fluid nearly to the top and enough was baled out to enable the company to be certain that oil was present in large quantities showing up. The hole will be cleaned out today and a thorough test will be made as soon as possible.

The well is on the Knight ranch and was drilled by a local company in which R. O. Harvey, C. W. Bean, F. H. Gohlke, W. E. Norton and others were stockholders.

Other drilling operations are expected to start in Archer county within a short time. A meeting of the stockholders of the South Side Oil company was held yesterday and plans made for starting a well as soon as L. P. Hammond, who is largely interested in this venture, returns from New Mexico. The Sixty-Six Oil company is also expected to begin drilling shortly on its Wilson ranch lease. Still other propositions are pending for operations there.

The most encouraging feature of the Knight well is its distance from the Panther company's well, which started the recent development in Archer county. It is nearly seven miles from that well and opens up a long stretch of country in between for development. Those holding leases on this territory were considering themselves fortunate today, and a number of leases are busy in Archer county today.

The oil company has contacted with Isaac & Dillard to drill a well for them on lot 14 located a third of a mile northwest of the Art well on the Wilson ranch in Archer county. It is understood that work is to begin within a few days.

It is expected that other contracts for drilling in this section will be awarded at an early date. A number of leases have been made and the Art well has a sufficient capacity to encourage operators in further developing the field.

FARMING CLUBS TO HOLD 4 MEETINGS

Will Convene at Principal Points in County, Starting at Burkburnett Saturday.

The boys corn and pig clubs and the girls canning clubs are scheduled to hold a joint meeting at Burkburnett Saturday, meeting later at Iowa Park, Electra and Wichita Falls. The earlier meetings are for the purpose of making it more convenient for the members in the section adjacent to each place to attend the meeting and exhibit their products. At the Burkburnett meeting at Wichita Falls an effort will be made to have every member in the county at the meeting with his or her products on exhibition.

The program is under the direction of J. W. Campbell, county demonstration agent. Mr. Campbell is also busy engaged in rounding out the odds and ends of the agricultural features of the Wichita county exhibit at the Waco Cotton Palace and thinks that an even greater variety will be on display at Waco than was the case at Dallas.

Mr. Campbell departed for Burkburnett yesterday to make arrangements for the meeting at that place Saturday and to secure some agricultural specimens for the exhibit of which he had heard at that place.

STRONG SERMON AT BAPTIST MEETING

"Prepare to Meet Thy God" is Subject of Dr. Jenkins at Tuesday Night's Service

A sermon on the text, "Prepare to Meet Thy God" at the Baptist revival service Tuesday night, resulted in one of the best meetings so far conducted by Dr. Millard Jenkins, the evangelist. A large crowd was in attendance and the results were considered very gratifying, there being three conversions, and a large number of requests for prayer.

Taking his text from Amos 4:12, Dr. Jenkins reviewed how Amos made them aware of their sins, pointing out to them their neglect of their souls, their idle ways and other evil features of their lives. It made them angry, Dr. Jenkins explained, to have their sins pointed out to them and to be rebuked in this way.

The GRADUOLA

Is the greatest feature ever put onto any re-producing instrument. To the phonograph it means a new and wonderful musical utility—a scope many times broadened—a magnificent, new musical instrument. Between music heard and music played there is a difference, as between friendship and love. And with expression in music comes a lifting of the spirits, a new and clearer vision, like the clearing of the skies after the cooling, refreshing showers. This is the office of the Graduola—to subtly vary if you wish, the tone shading of each record. The sweet melody flows from the master's violin, wistful, sympathetic, wonderful in tone color. You take up the Graduola and draw the tip nearly out. Instantly the music softens—responds to your touch. The Graduola is a feature only of the Aeolian-Vocalion, the most wonderful re-voicing instrument ever put on the market. We would like to demonstrate it to you at any time you wish. The Aeolian-Vocalion is sold on easy weekly or monthly payments at the following prices:

\$75, \$100, \$150 and \$200, and up to \$2,000

EDISON AND WIFE HELP TO CELEBRATE BIRTHDAY OF INCANDESCENCE LIGHT

MR. and MRS. THOMAS A. EDISON

Photo by American Press Association.
Here's the latest picture of Thomas A. Edison and his wife, Mrs. Edison, who accompanied him when he visited the electrical show in New York. The occasion was the thirtieth birthday of the incandescent light. Naturally Mr. Edison was the hero of the day at the exposition. He received the cap and gown of a doctor of laws, a degree which had been conferred on him by telephone by the University of the State of New York. Dr. John H. Finley, state superintendent of education and president of the State University, presented Mr. Edison with the cap and gown that accompany his degree.

"I could not send these by telephone," said Dr. Finley as he handed over the cap and gown.
"Well, you may be able to do so soon," was the reply.

preparation without these things, the speaker said.
The danger in delaying preparation was pointed out by the evangelist. A great many of those who die unprepared, he said, are not unbelievers, but their carelessness and indifference and neglect caused them to delay too long until death overtook them. There are many who intend to prepare themselves, he continued, but they find it is too late before they realize the neglect. He urged upon his hearers the importance of preparing without delay and closed with a strong appeal to his hearers to take the measures of preparation at once.

Another excellent service was held at 10 o'clock this morning. The subject of tonight's service, starting at 7:30 will be "The Death Trail."

GUILESS CITY YOUTHS PAY TWICE FOR CIRCUS

It isn't always the country boy that gets stung at the circus, and when he does it's generally somebody else's fault; time was when circus was an open reason on the guileless, simple youth from the rural precincts, and he was considered fair game. But nowadays when the aforesaid guileless youth comes to the circus it is apt to be in a steen horse power Houdelliac and it is the guileless youth from the city that gets stung.

The worst of it is that they stung themselves. With their young, lively companions, they had been through all the preliminaries, including side shows, and were ready for the main event, reserved seat tickets for which they had their pockets; it occurred to one of the boys that they hadn't seen the animals and they didn't want to miss anything.

LOCAL FACTORY IS INVITED TO MOVE

San Antonio To Send Committee To Try To Get Motor Factory There

It is reported that a committee of from the San Antonio Chamber of Commerce will shortly visit J. C. Culbertson, manager of other officials of the Wichita Falls Motor Company with the view of moving the plant to San Antonio.

COWS IN FACTORY DISTRICT NUISANCE

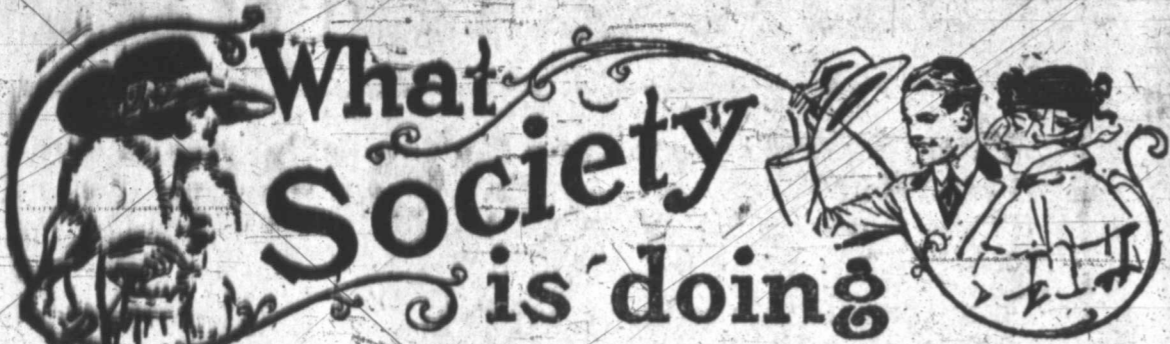

Mar Auto Plant's Flower Beds and Do Other Damage; Prosecutions Likely

J. C. Culbertson, manager of the Wichita Falls Motor Company says that the non-enforcement of the stock ordinance in the factory district has proved a severe inconvenience to the company, as the cattle which are allowed to roam at will in that section tear up the flower beds around the plant where an effort has been made to add to its attractiveness, and in the way of the machines when they are being tested out, and even come right into the assembling room of the plant, proving an extreme nuisance and hindrance for the workmen. These cattle are not milk cows, says Mr. Culbertson, but steers raised for beef.

Wichita Falls, Texas, Nov. 1, 1916

At this late hour Candidate Hughes has made known his position on the question of an embargo on arms and ammunition and on the proposal to warn Americans from belligerent ships. He has declared against an embargo and against warning Americans from ships. His position on these questions is identical with that of President Wilson. President Wilson has maintained his position in the face of bitter opposition. It was his maintenance of these rights that crystallized German-American opposition and consolidated their support for Hughes. This support and that of the "Old Guard" in the republican party prevented the nomination of Roosevelt in the early part of his campaign Hughes but the \$7.50 pedal on the hypen issue and said nothing about the proposal for an embargo on arms shipments or warning Americans from ships of belligerent ships. It is only in the closing week of the campaign that he has attempted to state his position. When he has done so it is identical with that of Wilson. Had Hughes been as definite in his speech of acceptance or in his first campaign tour as he has been in the past few days, his chances for winning might have been better. His eleventh hour declaration for the things for which President Wilson has been fighting for months come so late as to give some grounds for the suspicion that the 100 percent candidate was willing to declare himself only after he had found that the preponderance of public sentiment was for the principles which he has endorsed.

The \$100,000 stock company now being organized here to explore for oil and gas offers an opportunity to citizens to contribute toward the advancement of the community and at the same time make an investment for themselves in which there is an opportunity of large profits. The industrial prosperity of Wichita Falls depends very largely upon the gas supply. The companies bringing gas here from Petrolia have already cut off the gas here from industrial plants. It is necessary that a new gas supply be found. If it is found as a result of the explorations that are to be made by the company now being formed every man who has a dollar invested in Wichita Falls property will benefit. It is hardly expected that twenty wells the number which it is expected the company will have funds to put down can be sunk over a scattered area in this section where the geological formations are favorable without one or more of them striking oil or gas, or maybe both. It is understood to be the plan of the company to secure acreage in such areas about each well that if only one oil or gas well is found, the company can realize enough from this find to make the investment a profitable one for every stockholder. There are men on the board of directors of the Chamber of Commerce who know the details of the oil game. No doubt these men will give their services to the company without compensation. Every dollar will be spent to the best advantage and the capital of the Chamber of Commerce organization will go further than capital of an ordinary corporation could be made to go. The formation of this company will be a great impetus to the oil industry in North west Texas, already one of the leading industries in this and adjoining coun-

Green Trading Stamps advertisement. Text: In accordance with our original plans we have decided to issue S. & H. Green Trading Stamps on all cash sales and on all accounts paid within six days of date of invoice. These stamps have a very considerable value and our customers are appreciative of them. FEED AND Insurance of Bell Hardware Co.

Every citizen should attend the mass meeting that is now being arranged, and every man who can should subscribe for stock in the company.

IT'S ALL OVER EXCEPT THE SHOUTING.

Editor The Times:

For a private in the rear ranks of Democracy to forecast results in next Tuesday's election is, perhaps, preposterous. Especially would this seem true in the face of superior wisdom emanating from the chairmen and experienced leaders of both parties. But, as this is a campaign largely composed of guess work, by reasons of the unprecedented conditions and questions that have arisen out of the European and Mexican wars, one man's prediction, or guess, is as liable to hit the mark as from the learned wisecracks upon the top seats. Consequently, here goes for a try, to either make or mar my reputation as a political prognosticator. Both sides concede that the candidate that carries Ohio, Illinois, Indiana and Missouri, with the other doubtful states, can win without New York. New York added to the solid South, almost insures a Democratic victory. This would be true in normal times. This year results cannot be figured on this basis, because the questions at issue are not subject to party discussion. They are too vital and personal to each individual voter to admit partisan views to act against better judgment. Therefore, the independent voter can not be led blindly to the ballot box by the leading politicians of the Hughes-Roosevelt type. The union labor men, farmers and business men, profiting by the wholesome laws passed during President Wilson's administration, are going to lay politics upon the shelf and vote for their homes and their country; which, in my belief is a vote for Woodrow Wilson. This will be largely true of the women voters, who, while they admire men of the Roosevelt heroic type, are not willing to send their fathers, husbands and sons to war, over academic questions, theoretically discussed. Then, from any sane viewpoint, a Democrat can sum up the results; it looks like victory, or all signs in the political Zodiac will fall, and we will be mourning in "sackcloth and ashes."

Of course, we Democrats will be content with a good majority, but we can stand a landslide, even if it bursts all the buttons off our pants rejoicing over the victory. RYE. If illegal voting is attempted in Ohio, those who violate the Federal statutes will do so with the knowledge that they are likely to have to pay heavy penalties. Frank C. Dalley, United States district attorney in one of the Indiana districts has been appointed a special prosecutor to investigate reports of fraudulent voting. Mr. Dalley will be remembered as the prosecutor who secured the conviction of scores of election bribers at Terre Haute, convicting so many that a special train was run from Terre Haute to Leavenworth, Kansas, to carry the prisoners to begin their terms. Would-be election debarchers in Ohio and other States will likely hesitate before attempting anything that will be likely to put them in the way of securing for themselves a trip to Leavenworth at the Government's expense. Dalley's on the job and this goes a long way in preventing election frauds.

A STATE HIGHWAY DEPARTMENT. Texas spent \$12,996,000 or thereabouts during the past twelve months on roads. Texas is one of the three States which have no State highway department. Texas is losing vast sums of money every month because there is no State supervision of these expenditures. County commissioners are not always able men. County engineers are sometimes incapable. There have been occasions when graft of the rank and file entered into road building in this State. And the people know that for hundreds of thousands of dollars expended for roads they have received absolutely nothing. In 1914 there was expended on the rural roads of the country \$26 per mile. In 1915 there was expended \$109 per mile. In the case of New Jersey there was in the latter year the sum of \$475 per mile expended on the county roads. Texas is a State of long roads. There are many miles of them. The population is scarce. And areas considered Texas is not a rich State. So that our expenditure per mile of rural roads does not yet approach just proportions. Yet we are spending more per year than any other Southern State and our

appropriations to this end are growing as rapidly as could be desired.

It is not unlikely that 1917 will see the expenditure of at least \$100,000,000 in Texas on roads. Federal aid will encourage every Texas county to put forward extra efforts, even though the aid is as yet in small amount. And that Federal aid is dependent upon the institution of a State highway department. Where such a department is not provided by the national law, it is yet inconceivable that Texas would go on indefinitely spending such vast sums without more strict supervision over the work sought to be accomplished by them.

Such a department will add little to the expense of the State government. It will return that cost many fold in every year of its existence. And the legislature which shall be responsible for instituting a State highway department will place the people of Texas under lasting obligations.—Houston Post.

FEAR CAUSED MOST OF DEATHS FROM DROWNING

(Louisville Courier-Journal)

It is proverbially true that good swimmers in circumstances calculated to cause excitement drown trying to cover distances which are well within the limits of the endurance of nearly anyone who can swim and is not alarmed for his safety. The record made in Delaware River by C. D. Burborow, 2 1/2 miles in 12 hours without rest or nourishment, shows what an athlete may do in fresh water. That this expert swimmer possesses exceptional physical fitness for endurance tests need not be said. That he understands how to minimize the resistance of the water and conserve his strength may be admitted. He entered the water in good condition. The conditions, his own and the weather and water conditions, were right. But the man was not twelve times as physically fit, twelve times as long of endurance as many an ordinarily good swimmer who, facing an emergency swim of three miles without a pilot in a boat alongside, would have little hope of covering the distance and would lose courage, over exert himself, lose his breath, swallow water and drown.

MAY SHOOT AMERICAN WHO DESERTED BRITISH ARMY

From the Los Angeles Express

United States officials and relatives of Frank Stahl are engaged in an effort to stretch the Stars and Stripes from Los Angeles to Havre, France, and save the boy from death at the hands of a British firing squad. Stahl, born in Seattle, his father a German by birth, but an American citizen by naturalization, and his mother a native American, answered the call of adventure when the great European conflict began. From Los Angeles he enlisted in the British army, being assigned to the ambulance corps. For two years he served loyally. Then the American homesick, his friends say, and tiring of fighting for a foreign flag, deserted in the field. Finding sentries he fled to the rear, and after overcoming tremendous difficulties and undergoing great hardships he reached Havre. The American steamer Silverhill was in the harbor about to leave for America, and Stahl crept aboard at night and hid himself in the hold. He was seized by the French customs officials just as it started on its westward journey and the unfortunate young American discovered that he was turned over to the British authorities and, according to dispatches, unless the United States satisfied beyond doubt the British authorities in his favor, is to be shot. On the request of the American consul in Rouen, France, the British military authorities, it is reported, consented to delay the execution until an inquiry could be made in this country.

FACE TRIAL AT LAWTON ON FEDERAL COURT CHARGE

(Frederick Leader)

Floyd Clark and Walter Friday, married men of Brinkley, were called to trial in the United States court at Lawton yesterday, on a charge of having transported, in violation of Federal laws, a woman named Leavelle Denton, who is aged 15 years from Paris, Texas, to Mangum for immoral purposes. Some local interest attaches to the case for the reason that the men and the two girls are alleged to have registered at the Kelly hotel under assumed names, and to have stayed a night there on en route to Mangum. The trip is said to have been made from Paris to Mangum in an automobile. The girls are respected families in Paris, and both were members of the 1916 graduating class of Brinkley high school. Miss Denton having been the class valedictorian. The two are said to have admitted immoral conduct. They were held in \$1,000 bonds and have been held at the girls' industrial home at Oklahoma City since August 11. Mrs. W. H. Kelly, proprietor of the Kelly hotel, was summoned to Lawton as a witness in the case, to ascertain if she could identify the girls. She stayed at her hotel as above stated.

PLOT TO BURN GENOA FRUSTRATED BY ITALIANS

Associated Press Mail Correspondence

Rome—An Austrian spy named Larice and two Italians have been condemned to be shot in the back by the Ancona court military committee in the attempt to burn the port of Genoa. With this conspiracy, it seems were connected explosions in munitions factories in Milan and other places, aggregating in damages a total of several millions of dollars.

SENATOR BORAH IS ILL, CANCELS SPEAKING DATES

Fondolac, Wis., Nov. 1.—United States Senator Borah of Idaho who has been speaking for Buckeye Fairbanks in this State is seriously ill here and has been compelled to cancel his speaking dates for the remainder of the campaign.

CHARLES CROWELL AND BRIDE RETURN FROM TRIP

Charles Crowell and bride have returned from their wedding trip following their wedding at Waco on October 20 and are now at home at 1008 Scott. Mrs. Crowell was formerly Miss Neff of Waco. The following clipping from a Waco paper of October 20 will be of interest: The hour for the approaching marriage of Miss Mal Bell Neff to Charles M. Crowell found only relatives and intimate friends gathered at the home of the bride's mother, Mrs. Patie Winn Neff. Stately palms and cut flowers bespoke the wedding occasion. A coat suit of blue broadcloth with trimmings of fur and harmonizing accessories was worn with tam of slanter hat and a corsage bouquet of sweetheart buds and ferns. The bride was never more lovely than on this occasion. Rev. J. M. Dawson read an impressive service the marriage lines using the ring ceremony that made Miss Mal Bell Neff the wife of Charles M. Crowell, a prominent young business man of Wichita Falls. Mr. Crowell holds the position of assistant cashier for a large flour mill of that city and has in waiting a lovely home for his young wife. Mr. and Mrs. Crowell paused for congratulations and were off at once for San Antonio. They will visit the Dallas fair before their homecoming. A note of regret was occasioned by the unavoidable absence of Mrs. R. E. Neff, the devoted grandmother, who, while past the 80th milestone in life, is young in heart and mind. This same grandmother was to have been the only attendant for Mrs. Crowell, hence her absence was the more conspicuous and of sincere regret. Gifts and telegrams gave evidence of friendship. Hon. and Mrs. Pat M. Neff greeted the arriving guests for the marriage of their niece, while Mesdames Walter S. Baker, Ludwell Williams, T. B. Black, John Fall, Martin Johns, Misses Hallie Maud Neff, Virginia Martin, Miss Sewall of Chilton and Mr. and Mrs. Paul Culver attended. Mrs. J. H. Harrison sang, in pleasing voice, "I Love You Truly" to the accompaniment of Mrs. Grace Barnard during this waiting period.

HEALTH CAMPAIGN IS BEING WAGED IN MEXICO

By Associated Press. Laredo, Tex., Nov. 1.—Arrivals here from Vera Cruz, Mexico, report an unusual health campaign is being waged there by several civilian committees and subcommittees whose duties are to inspect every home, every store, and every business in that seaport, and to immediately report any irregularities to the central committee. The subcommittees are appointed, it is said, for the purpose of each visiting a certain class of establishments, such as clothing stores, hairdressing offices, warehouses, saloons, grocery stores, pharmacies and so on. The subcommittees are held directly responsible by the general committee. By this means, it is hoped, according to information here, to inaugurate and continue a system of hygiene which will assure healthful conditions there.

SEVERAL CASES OF INTOXICATION TODAY

Six recently intoxicated individuals celebrated the morning after in the police court this morning, five of them including one negro woman who furnished more than her share of racket from the vantage of a cell at the city jail yesterday, paying the "conviction" \$5 fines, and the other securing the continuance of his case. Two others provided the necessary variety for the session by pleading guilty to vagrancy their spouses having extended over a considerable number of days. A negro man was fined \$10 on a vagrancy charge, the evidence showing that he was capitalizing a negro woman, vagrant, who was temporarily down on her luck. The woman's case was passed to allow her to get out of town, the man agreeing to pay the freight.

EPISCOPAL RECTOR SPEAKS AT HIGH SCHOOL

"Playing the Man" was the subject of the address heard by the high school students this morning, Rev. F. T. Watson, rector of the Episcopal church speaking. This was one of the series of Wednesday morning chapel talks which are featuring the high school assemblies. Mr. Watson made three points which were necessarily observed in playing the man; physical strength, mental strength and moral strength. His talk was much enjoyed and contained much need for thought. Rev. F. T. Watson will be the next minister to address the students, speaking next Wednesday morning.

ONCE NAVY'S ONLY SUBMARINE NOW PLAYGROUND FOR CHILDREN

This queer looking craft, looking like a submarine built for the United States navy, it was photographed in five days ago in Philadelphia, where submarines in the American, German and other navies, was the first to be photographed. The man who found it, although unlike the newer types of submarines, it is like a stranded whale in appearance. AT THE THEATRES

DANCING BIG FEATURE OF "WATCH YOUR STEP" TONIGHT

"Watch Your Step" the synchronized melange of music, comedy and dance, made possible by combining the talents of Irving Berlin and several other brilliant persons, will bewitch the patrons of the Empress theatre tonight. With its galaxy of stars and the charm of its music, "Watch Your Step" is the best "girl and music" show that has been seen for some time. It fairly radiates with synchronized life and its music cannot be compared with that of any other similar production. The master of syncopation, Mr. Berlin, did a big thing for the Dillingham production when he wrote the words and music for the various numbers, all are typical of their author's style.

Never before has one stage been crowded with nimble footed young women and dancing men. They dance with the opening of the curtains and are still dancing when the final act ends. And such dancing! Fair maidens in their best and worst of their arms; they lounge their feet; they walk; they even revive the ancient polka and add beauty to it. As a display of dancing, "Watch Your Step" stands alone, and it offers the most of amusement not only to the dancing enthusiast, but to any lover of musical comedy.

Irving Berlin must have been brought up in a crystal maze to be able to find his way through the devious mazes of his brain conjures up. There isn't a simple time as any other dancers knew it. In the whole two hours and a half, everything that comes in his reach he throws a drop step into, leading up to a grand climax at the end of the second act. In the last of the popular operas in turn is brought in the syncopated test and made to jump. The music of "Watch Your Step" must have made composers turn over in their graves.

The costumes and scenery are magnificent and a delight to the eye. Syncopated, beautiful and luring themselves readily to discernible color designs, so that the stage is never without a picture, the large chorus is beautiful to the last girl, and what is more to the point, because rarer, they can dance and sing. Seats are now selling at the Rexall Drug Store.

and spread it raw on the celluloid the cast is remarkable. The location used are magnificent. The photography is good.

The Gem.
 Virginia Terhune Van de Water, the star of the latest Red Feather feature production in five reels, "If My Country Should Call" which will be shown at Gem Thursday and Friday, she is the daughter of the Universal Company to see her picture. Mrs. Van de Water said that although several changes had been made through the production, she was glad to see that she thought that it carried out her idea perfectly. "My purpose in writing the story—if I had such a chance to do so—would be to show the ineffective shrinking of women from violence, the hatred which every woman, I believe, carries deep in her breast against the man who demands that she should fight it out without demanding her share of the sacrifice. My purpose in writing the story—if I had such a chance to do so—would be to show the ineffective shrinking of women from violence, the hatred which every woman, I believe, carries deep in her breast against the man who demands that she should fight it out without demanding her share of the sacrifice. The amusement seeking public, when they see Cleo Ridgely and Wallace Reid in the Jesse L. Lasky production of "The House of the Golden Windows" a Paramount picture, which will be the attraction at the Empress theatre, will be given an opportunity to see probably for the first time an oil gusher in action.
 To secure this gusher was one of the most difficult and unusual tasks the Lasky Company has had to perform. There are many oil wells in the vicinity of the studio, but the one in the district was surveyed looking for a well of this kind, but without success. Finally George Melford, the director, learned of a well that had been a gusher but which was then abandoned. It had, however, a slight flow of natural gas. Oil experts assured Mr. Melford that there was a

POSTAL RECEIPTS AGAIN SHOW GAIN

Increase of \$27 Over Same Month Last Year Indicated By October Figures

The receipts at the local postoffice again showed an increase for the month of October over the same period last year in spite of the effect of the suspension of mail service during the month of October of a presidential year. Irrespective of the indication as to the result, for this reason, the increase of the month was only an average month of this year, compared to what was one of the biggest months of last year's business at the postoffice. The fact that there was an increase is an indisputable proof of the growth of the city.

The figures are: October, 1916, \$7,210; October, 1915, \$7,183, an increase of \$27. Figuring October as an average month the yearly gain at the local postoffice is indicated as approximately \$15,000.

ARMY RECRUIT AMONG DEFENDANTS TODAY

A recent army recruit, whose application had been accepted and who was waiting to be sent to headquarters with others, was released from jail this morning. The young man had been arrested on a charge of disturbing the peace, it being alleged that he had kicked in a door at one of the houses on the corner of Monday night. The officers concluded that it would be better to permit him to go ahead and join the army rather than hold him in the city on a charge, it developing that the offense was not of an aggravated nature.

WORKMEN NEARLY KILLED WHEN BANK CAVES IN

(Memphis Herald.)
 A road crew named Hugh Huckabee, was very nearly killed Wednesday by being buried under a ton of earth that caved off a bank, where it was working on a road, just east of Parker Creek, near the Blakes place, one mile from the court house. F. Huckabee and his nephew, Eugene Huckabee, were on the road. The younger man was picking under a bank about ten feet high. Suddenly the bank came down on top of him. He was buried up to his neck and buried, his head being a foot under the surface. The other man began to dig at once, but the earth was so hard that he could not dig. He was nearly killed, but was finally extricated and taken to the hospital in a very precarious condition. He was badly crushed and his heart had nearly stopped beating. To say the least of it, he was nearly killed. He was buried up to his neck and buried, his head being a foot under the surface. The other man began to dig at once, but the earth was so hard that he could not dig. He was nearly killed, but was finally extricated and taken to the hospital in a very precarious condition. He was badly crushed and his heart had nearly stopped beating. To say the least of it, he was nearly killed.

FARM RENT INCREASE FOUGHT BY ARKANSAS UNIVERSITY

Fayetteville, Ark., Oct. 27.—Prosperity of an increase next year for farmers in Arkansas is being fought by the University of Arkansas in a bulletin made public today in which the wisdom of such a step is questioned. The bulletin is a text in the same bulletin for urging that "unity in Arkansas be diminished."
 The bulletin states that there comes a point where the farmer is not to be raised or next year. We wonder if this is the case in Arkansas. The bulletin states that the farmer is not to be raised or next year. We wonder if this is the case in Arkansas. The bulletin states that the farmer is not to be raised or next year. We wonder if this is the case in Arkansas.

OCTOBER'S LIGHT MONTH FOR POLICE

Records Show Fewer Cases Than Usual—City Tax Collections Heavier

October was a light month for the police court, the great amount of work which kept such a large portion of the police force busy, probably being in a large measure responsible. The total of fines assessed for the month was much lower than usual, \$1,275. The cash total for the month, \$548, was likewise much lower than usual. The amount of the other items in the list lower than usual. The amount of the other items in the list lower than usual. The amount of the other items in the list lower than usual.

RECORD PRICE FOR SALE OF COTTON AT HENRIETTA

(Henrietta Independent.)
 C. C. Boyles of New London on last Tuesday sold a bale of cotton in Henrietta for which he received \$137.81. This included the cost of the seed as well as the lint. The bale weighed 591 pounds and sold for \$4.10, making the lint bring \$106.97. The seed sold for \$31.20. This is said to be the record price for a bale of cotton and its seed in Henrietta. Other cotton has sold for as high a price per pound, but the weight of the bale brought the total price up to this high figure.

Keeps Your Stove Shining Bright

Give a brilliant glossy shine that lasts as long as the iron—that lasts four times as long as any other.

MEETING BEGINS AT CHURCH OF CHRIST

"Preparing For Revivals" is Subject of Sermon by Evangelist Elkens

The protracted meeting at the Church of Christ began last night with a sermon by Evangelist Elkens on the subject of "Preparing For Revivals." He said in part: "There has never been a great and successful work done on earth in the name of the Christ and in the interest of humanity, but that great work was done in the city of Jerusalem. There has never been a great and successful work done on earth in the name of the Christ and in the interest of humanity, but that great work was done in the city of Jerusalem. There has never been a great and successful work done on earth in the name of the Christ and in the interest of humanity, but that great work was done in the city of Jerusalem."

6 REASONS GIVEN FOR CHURCH POWER

At Downtown Service, Wesleyan Evangelist Tells Why World is Battered With Christ

Six reasons why the world should be satisfied with the religion of Jesus Christ were advanced at the downtown meeting held by the Wesleyan Evangelist this morning in the offices of the Wichita Gas Company. There was a fair attendance at the meeting.

The evangelist Dr. Hendrick said that the Christian religion was acceptable to all the world first, because of its source, second, because of the men who advocated it, third, because of its mission, fourth, because of its requirements, fifth, because of the victories it had won, and finally, because of its future.

The last of the factory meetings was held today, the evangelist party saying another delivery of the motor truck factory. Yesterday's factory service was held at the window glass plant.

The service last night was rather unusual for several reasons. The audience, practically without exception were professed Christians and church members. For this reason the evangelist Dr. Hendrick changed his subject which had been announced as "Excuses" to "The Old Time Religion."

The religion was characterized as the one thing which has not changed since the beginning though on all other things the world has made great progress.

Shoos is more than Shoe Polish

It is composed of wax and oils so combined as to give a brilliant, lasting shine and to soften and preserve the leather.

HIGH OR LOW WAISTLINES AGAIN TOPIC OF INTEREST IN DRESSMAKING CIRCLES

New York, Oct. 30.—It is hardly surprising to know that the waistline is again creating a great deal of comment. Somehow, one has come to expect, from the vacillating nature it has always shown, that it could not remain fixed in any one place for any length of time. Just at present it is at its old diversion of keeping one guessing as to what its real intention is. Frocks from Paris have shown that many favor the low line of the Merveilles. Age while others take the raised line of the Empire and Directorate periods. But between these two extremes the normal waistline is also to be found, so that it would seem that all these

The first chills of October have brought out many smart suits and top hats. For top coats, the full length reaching the bottom of the dress is generally favored. Coats of suits, too, are mostly long and one-half to eight inches are high, as high as they have ever been, if not higher, and are made of a small cape; so fashion has given thought to the comfort of women, who will not suffer from chills about the neck and shoulders this winter. Fur collars and very deep fur cuffs are the general rule. Hudson seal, beaver, skunk, kolinsky and rabbit are the furs generally employed, and there are also very good imitation fur cloths in use.

The cold weather has also brought out new high shoes, and it is noticeable that the footgear this season is quite conservative, not only in height but in color. The height of shoes averages from seven and one-half to eight inches, and one-half inches, which is considerably shorter than last winter's shoes. This is on account of the difference in the length of the skirts, which are longer front and button shoes are both in demand and the colors are tan, black, dark brown and white. There are a few combinations of light and dark colors in the uppers and the dark in the lower portions of the shoes. Kid and suede are used for the upper and preference to cloth this winter.

It feels there is a combination of the Cuban Louis, which is excellent for the walking shoe.

For dressy indoor wear, there are very attractive Colonial pumps, which rhinestone and cut-steel buckles, which come in all sizes, from the very tiny buckle no larger than a button to the large ones in round, square and diamond shapes.

SAME HORSE RUNS AWAY TWICE NEAR TOLUCA

(Petrolia Enterprise.)
 Mr. and Mrs. A. R. Calaway's baby was seriously hurt in a fun, away. They were driving to Toluca, and were very near town when for some reason the horse got beyond control. The baby was thrown from the lap of Mrs. Calaway and immediately afterwards Mrs. Calaway was thrown out. The heels passed over the baby breaking one of its arms and seriously bruising its mouth. Mrs. Calaway was also bruised and shocked. Sheriff Jones of Henrietta, overtook them, and brought them to town where Dr. Russell attended to the injuries of Mrs. Calaway and baby caused from the serious runaway accident of Tuesday. Mrs. Calaway had the buggy repaired and had no sooner driven away from the shop when the horse started and again got beyond control, resulting in Mr. Calaway being thrown out and the buggy pretty well demolished.

NEW MACHINERY FOR VERNON WATERWORKS

(Vernon Record.)
 The machinery for furnishing light and water for the city arrived yesterday and will be installed at the earliest possible date. The first thing necessary, however, is the erection of either a brick or concrete building on the present site of the pump station sufficient to house the new equipment. The city commission will have this work under way soon. The machinery purchased represents an expenditure of \$7,500, and when it is installed the city will be in a position to furnish streets and furnish a more bountiful supply of water than heretofore.

VAUDEVILLE BILL IS FULL OF MERIT

Seven Excellent Acts Presented Tuesday Night With Several Exceptional Features

A snappy, lively bill was presented at the Empress Theatre Tuesday night in the weekly vaudeville offering, seven excellent acts being staged. The bill was a peculiar one in that there were no dancing acts whatever, but there was plenty of other things. Coming right between the circus and a musical comedy, "The Devil Did It" was a very novel and interesting act. It was a musical comedy, but it was not a musical comedy. It was a very novel and interesting act. It was a musical comedy, but it was not a musical comedy. It was a very novel and interesting act.

showing the low waistline is illustrated in the sketch. The line is defined by two rows of braid, and this trim is again repeated with the purpose of outlining the waistline effect of women this is a becoming mode and a pleasing departure from the plain, chomac, dress which has been holding an effective trimming and very pleasing on a dark-green costume. The rich to be highly favored, as well as purple and royal-blue.

WANTED TO BUY Second Hand and Stoves Phone 1011 Star Furniture Co.

BE READY FOR THE COLLECTOR

Receiving Want Ads by telephone is the final detail in making the Times Want Columns promptly and perfectly useful to the readers.

Telephone Ads cost no more, in money—and less in time—but the Times must employ collectors to follow the phone.

The extra accommodation of receiving by phone should be encouraged by always being ready for the collector.

Don't let him call the second time. If you have a room to rent, a house to rent, a farm for sale, or if you want to buy an article, whether new or second-hand, you should use the Times Want Add Columns daily.

RATES—Want ads are one cent a word for the first insertion and half a cent a word for subsequent successive insertions. No want ad taken for less than fifteen cents and no ad taken to run three times for less than 25 cents. In giving in Want Ads PHONE 167.

- Miscellaneous Wants: WANTED—To rent nicely furnished modern five-room cottage with garage. Address Box 117. 14-10c

TWO COUNTRIES. CLAIM THIS MAN

HELPING RED CROSS

Wouldn't Take Active Part in Fighting On Either Side in Present War

Associated Press Staff Correspondent: Stockholm, Nov. 1.—There came to Stockholm a little white man, one of the most distinguished personalities of the great world—a man who had lived in the broadest atmosphere of the world, but who in the sudden turn of events in 1914, found himself, not a man without a country, but a man with two countries, two nationalities arrayed against each other in the bitterest of all world combats.

He has served in the Austrian Crown Prince's army and taken side to side to Egypt when Kitchener was there as a lowly sudafter. For twelve years he was at court in the harem of the sultan, and the wild Dervish tribes who threw back for the first time in centuries, the ever advancing frontiers of the wonderful campaign along the upper reaches of the Nile which brought civilization back to the Sudan and won for Kitchener his first great favor.

When the parting of the ways came in 1914 Slatin found his love for Austria was still strong although most of his life had been devoted to Britain and her wars in Egypt. He had unhesitatingly become a part of the English military machine. But he could not fight against his fatherland, nor could he serve in any way against the country which he had loved so much to him and which had lavished honors upon him.

So Slatin respectfully met the issue in 1914 Slatin found his love for Austria was still strong although most of his life had been devoted to Britain and her wars in Egypt. He had unhesitatingly become a part of the English military machine.

"FARTHEST NORTH" MAGAZINE APPEARS

THE Eskimo Published Near Arctic Circle, Deals With Native Problems

Washington, Nov. 1.—A farthest north magazine, published near the Arctic Circle, has made its appearance under the title "The Eskimo" and is devoted to the interests of Eskimos of the Northwestern District of Alaska. It is published at Nome by teachers and others of the United States Bureau of Education who have been formally congratulated by the United States Commissioner of Education for their enterprise.

NO CHANGE TODAY IN LAUNDRY SITUATION: That little if any change is reported today in the laundry situation here. The local laundrymen are continuing their operations, but the plants with a regular force, which members of the laundry workers union are taking orders and forwarding the work to Frederick, Okla. as fast as accumulated.

When Her Back Aches: The Old Standard Groves' Taster's Chill Tonic is equally valuable as General Tonic because it contains the well-known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Purifies the Blood and Builds up the Whole System.

Whenever You Need a General Tonic: The Old Standard Groves' Taster's Chill Tonic is equally valuable as General Tonic because it contains the well-known tonic properties of QUININE and IRON.

British Tommy Atkins in an Austrian camp would feel as badly treated as some of our men in Russia. It is a matter of degree.

Then the conversation turned to Kitchener. When the subject first was mentioned Slatin was quiet for long while. At last he spoke.

"Kitchener," he said, "was one of the more remarkable men the world has ever known. I know the general impression that he was but a man of iron and steel—a machine without warmth or affection. It is true Kitchener was difficult to approach. His regard was easily won. But once you knew him, and he had tested you, no man could wish for a truer, more whole-hearted friend. Having known Kitchener in the days when he was first winning his way to military fame, having ridden beside him in a battle and victory, having known him as a taskmaster and commander, I feel I am in a position to appreciate to the full all that his life meant to England and to the British people. It meant much to me as well. What a pitiful fate it was. If ever soldier deserved a better death, it was the Kitchener I knew at Khartoum.

"I lunched with Kitchener," mused Slatin, "as late as the eighteenth of July, a few days before he was to fall upon us. You spoke of the European situation at the time, but neither of us dreamed what it all would mean.

"Kitchener had a wonderful gift as an organizer and executive. I have often wondered if it was not his training as an engineer that helped him to this trait.

"Some of our newspapers in Austria commented rather flippantly upon his death, but that was not right and it did not reflect the general sentiment of our people. That is what I meant when I say the partisan newspapers are doing so much to engender hatred and bitterness, and not giving the people themselves an opportunity for calm thought and deliberation."

ALLELENDALE: Miss Ruby Gwin who is attending school at Vernon, came down Friday to attend the wedding of her sister.

Miss Bertha Johnson who is teaching in the Alleendale school visited with her father, W. H. Johnson and family at Iowa Park.

A large crowd was in attendance at the school house Friday night to organize a literary society. Miss Nell King secretary and treasurer. Every one is invited to come and help out.
