

BRITISH FORCES ARE CONTINUING NEW OFFENSIVE

HAVE TAKEN OVER 4000 PRISONERS IN ATTACK ON ANCRE BROOK AND HAVE CAPTURED ONE OF STRONG DEFENSIVE POINTS

COVER 5 MILE FRONT

French Report Repulse of German Assault in Champagne—Petograd Reports Further Fighting in Carpathian Mountains

The Associated Press summarizes European war operations as follows: With important ground on a five mile front already won from the Germans on the northern edge of the Somme region and in the Ancre brook section in northern France, the British are fighting on their new offensive. Already they have taken more than 4,000 prisoners and the number is reported increasing considerably. London officially confirms the news of the capture of Beaumont-Hamel north of Ancre, one of the strongest points in the German defense line in this region. British troops stormed this heavily fortified position and further south advanced to the edge of Beaumont-sur-Ancre.

ATTACK PROVES GREAT SURPRISE

BRITISH FIND GERMANS COOKING BREAKFAST WHEN THEY CHARGE TRENCHES.

REPORT SMALL LOSS

Resistance Is Declared to Have Been Feeble—Several Officials Among Prisoners

(Copyright 1916 by Associated Press) With the British armies in France, Nov. 13 via London, Nov. 14.—The Germans were apparently completely surprised by this morning's attack in the Valley of the Ancre. An evidence of this was found in the fact that the garrison of the trenches about Beaumont-Hamel were preparing for breakfast at the very moment the British infantry stormed the position. The British after practically clearing the underground galleries and rounding up 700 prisoners proceeded to eat their prisoners' breakfast, telling the captives that they would be fed when they arrived within the British lines.

HUGHES LEAD IN MINNESOTA NOW LESS THAN 200

By Associated Press. St. Paul, Minn., Nov. 14.—Hughes' lead in Minnesota was cut today to below 200, with the final returns from the ten missing precincts of Koochiching County, the county revised vote of St. Louis County, and a small change in Becker County. The totals now stand: Wilson, 178,981; Hughes, 178,136, giving Hughes a margin of 155.

ISSUES BULLETIN ON PREPARING HOT LUNCHES

By Associated Press. Washington, Nov. 14.—Many schools throughout the country are supplying a regular hot luncheon to school children, or are providing a "single hot dish" with which children coming from a distance can supplement the cold food in their lunch baskets. To assist schools in undertaking this activity, either through teaching and being distributed to people, the home economics specialists of the department of agriculture has prepared a report, which has just been published and being distributed to people asking for it, on economical and easily prepared bills of fare for the school lunch.

ALTUS ACCIDENT RESULTS FATALLY

Northwestern Switcher Strikes Auto—City Shivers When Cold Hits.

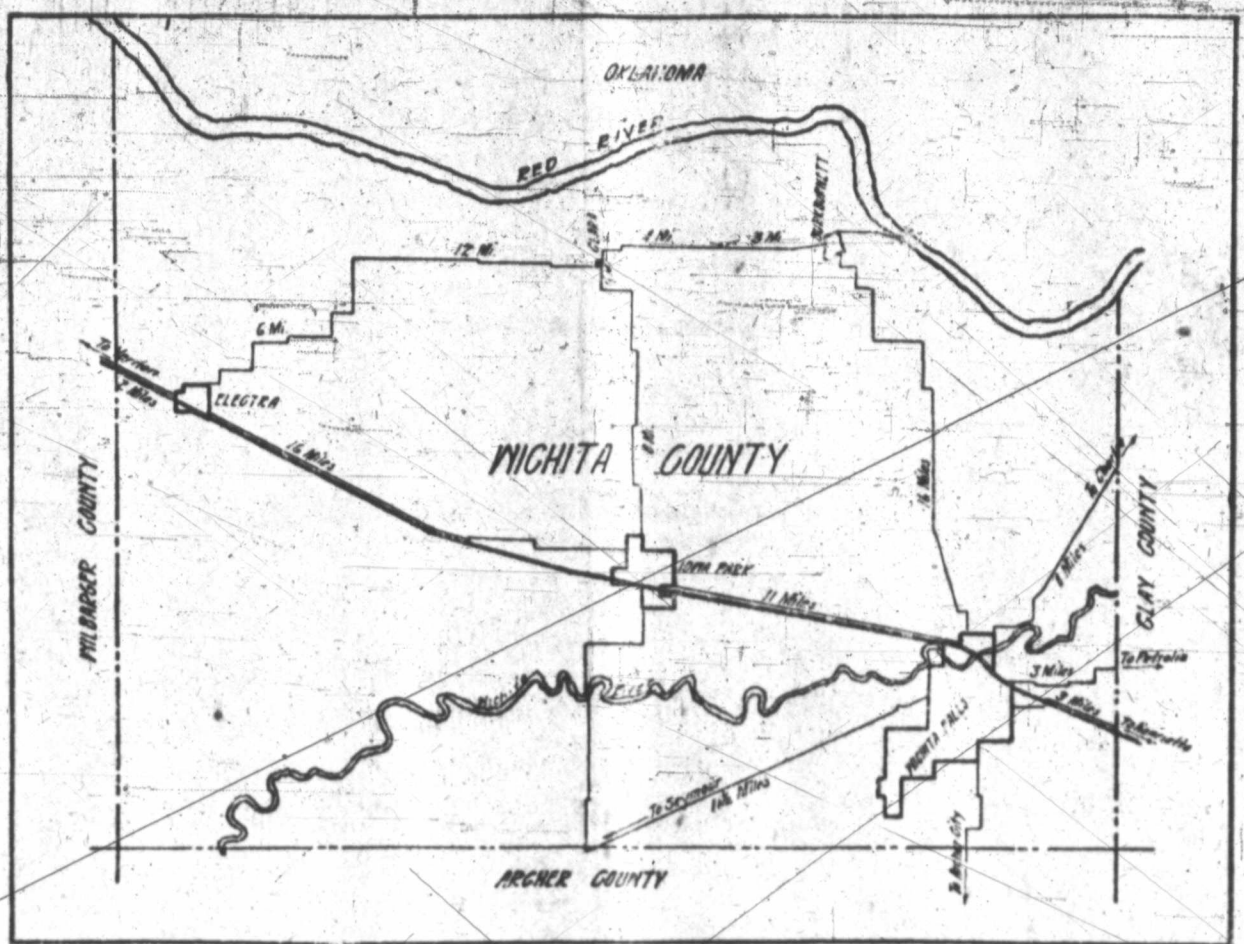

Special to The Times. Altus, Okla., Nov. 14.—C. E. Hartman of this city was badly injured here Monday afternoon when a Northwestern switcher struck his automobile in which he was riding. Mr. Hartman sustained a broken arm, an ear torn off and severe wounds in the head. He is a member of the firm of Hartman Brothers, plumbers. He and a companion were crossing the tracks on south 15th street near the power house, where it is difficult to see an approaching train, and the switcher backed a string of cars into the machine. The companion escaped with minor bruises and the car was slightly damaged. Mr. Hartman was removed at once to the Altus hospital, where his injuries were pronounced serious.

Later—Hartman died at ten o'clock Tuesday morning. Altus has been shivering this week from a two fold cause; first, a regular blue norther, accompanied by some sleet, causing the temperature to drop 30 degrees in 24 hours. The second, an onrush of the first. Not a coal dealer in town has any coal, with no prospects of getting any before the latter part of the week. Consequently if the weather doesn't moderate, there will be some suffering.

TYPHUS FEVER CASE IS REPORTED IN PANHANDLE

By Associated Press. Austin, Texas, Nov. 14.—Typhus fever has invaded the Panhandle according to reports from Hale county. Two cases, both Mexicans, were found, one proving fatal. It is said these cases developed among a batch of Mexican laborers imported to that section.

PROPOSED GOOD ROAD SYSTEM FOR WICHITA COUNTY AS OUTLINED BY FEDERAL EXPERT

The above map shows the county road system outlined by George D. Marshall, government road expert who was here last week. It reaches every important point in the county and makes connection with roads to important points in adjoining counties. The total mileage is as follows: Henrietta road from Clay county line to Wichita Falls, three miles. Petrolia road from Clay county line to Wichita Falls, three miles. Archer City road from Archer county line to Wichita Falls, four miles. Seymour road from Archer county line to Wichita Falls, 1 1/2 miles. Wichita Falls to Burk Burnett, 10 miles. Charlie Thornberry road from Clay Iowa Park to Electra, 16 miles.

NOVEMBER RECORDS SMASHED IN TEXAS

Temperatures Well Below Freezing Are Recorded at Points Throughout State

By Associated Press. Dallas, Texas, Nov. 14.—Weather records for November went to smash in many sections of Texas early today. Fort Worth reported a drop to 22 degrees while in Dallas a mark of 23 degrees was reached. In San Antonio the cold wave drove the temperature down to 23.5, a record breaking figure for that locality, and Waco shivered under a drop to 26 degrees.

GALVESTON IS WARMER BUT TEMPERATURE IS FALLING

By Associated Press. Galveston, Texas, Nov. 14.—The temperature at Galveston this morning was 25.5 degrees and falling gradually.

TEN INCHES OF SNOW IN CENTRAL VERMONT

By Associated Press. Montpelier, Vermont, Nov. 14.—Central Vermont was under ten inches of snow today.

WAVE MOVING EASTWARD; INTENSITY DIMINISHING

By Associated Press. Washington, Nov. 14.—The cold wave from the Rocky Mountain region continued to move eastward today and freezing temperatures had extended southward to the Mexican border where the troops were feeling the effects. The coldest place today was Lander, Wyoming, where it was ten degrees below zero. Pueblo, Colorado and Valentine, Nebraska, reported eight below. El Paso reported 22 degrees above. The advancing cold was being felt throughout the middle west and practically all states east of the Mississippi River, but seemed to be losing its intensity as it moved eastward. Sleet and snow were falling in many regions. Much colder weather is predicted in Atlantic and East Gulf States tonight.

NO ZERO WEATHER IN MIDDLE WEST LAST NIGHT

By Associated Press. Kansas City, Nov. 14.—No zero temperatures were registered last night, but low records for November were established as far south as Central Texas. The coldest reported was two above zero at North Platte, Nebraska, but, with slowly-rising temperatures predicted, it is not expected this low mark will be duplicated tonight. Low records for November, as given here, included Dallas, 23 degrees; Amarillo, eight above, and Fort Smith, 20 degrees.

DEMOCRATS WILL NEED \$300,000 FOR DEFICIT

By Associated Press. New York, Nov. 14.—Plans for meeting by popular subscription the \$300,000 deficit which it was announced was incurred by the democratic national campaign committee in its fight to reelect President Wilson were proposed here by Wilbur W. Marsh, treasurer of the committee. The proposed call will ask 2,000 cities to raise \$100 each leaving the rest to such individuals as may be willing to pay it off.

Woman Elected to Congress Is From Montana, Tall, Red-Haired, Republican

Miss Jeanette Rankin, elected to the national house of representatives from Montana, is a source of particular pride to the National Suffrage association, in as much as she was for number of years one of its most valued organizers and the standard bearer who carried her state for suffrage. She is tall and red haired and a Republican in politics. Jeanette Rankin is a member of a well to do banker's family of Missoula, Mont. In 1908 she was graduated from the New York School of Philanthropy, went to Seattle, Wash., filled a position of "baby placer" for a year, found that wasn't her metier and quit finding ideal homes for infants to join the women fighters in Washington. She stumped and organized in the Washington campaign and received no remuneration. "It was for the cause," she said in referring to it. She became later the field secretary of the National Woman Suffrage association. House listening to President Wilson and Miss Rankin in pictures. The election of Miss Rankin to membership in the house of representatives will not cause any revolution in that body, leaders here said. The personal comfort of the new congresswoman will be provided for. No matter which party controls the house, everything will be done to show her the courtesy to which her sex entitles her and to make her feel "at home" among the politicians. No plans have been considered, of course, but one of the democratic leaders in the present house said that in all probability she would be assigned to a room in the main capitol building. Here she would be near the chamber of the house, able to reach her constituents promptly, conduct her fight for certain reforms nearest her heart and transact her part of the public business under the most favorable conditions. Members of the house other than chairmen of committees are not thus favored as a rule. "Uncle Joe" Cannon, former speaker, is the only member not a chairman of a committee who enjoys the luxury of a personal room in the capitol building. All the others must walk back and forth between the house building and the capitol. Of course, there are some members who look askance at the idea of a woman member and who hope that if Miss Rankin is made particularly comfortable in her own room, if all reports be true, however, Miss Rankin intends to be a working member, always on the job in the interests of what she believes ought to be enacted into laws. One thing is certain—the day she makes her first speech there will be no occupants of cloak rooms. It remains to be seen whether the new congresswoman will frequently use the cloak rooms to which, as a peer of her colleagues she will be entitled. Miss Rankin has advised friends in Washington that her first official act will be to introduce a new universal suffrage bill. She says she is coming to Washington to represent the women and children in the west, to work for an eight hour day for women, for laws giving women the same pay as men for equal work, for an extension of child labor laws, the inauguration of mothers' pensions and providing for universal education.

MUCH SPENT TO SECURE PLAYERS

BASEBALL MAGNATES PAY LARGE SUMS FOR MINOR LEAGUE HOPEFULS.

ARE NOW IN SESSION

Reports of Activities of Organized Baseball During Past Season Submitted

By Associated Press. New Orleans, Nov. 14.—The National American Association of Baseball League met in annual session here today with the owners and officials of minor league clubs and delegates throughout the country in attendance. Among the important questions expected to come up for decision were the new demands of the Baseball Players' Fraternity, including one relating to contracts covering the club's control over injured players. The annual report submitted by Secretary John H. Farrell showed that 26 league organizations, embracing 182 cities and towns in the United States and Canada and employing 4728 players during the playing season of 1916 had qualified for membership. Only one qualified member of the National Association disbanded during the last playing season—a Class D League. Out of the 26 leagues, 25 started and 23 finished; one league was disqualified. The attendance this year as a whole exceeded by far that of the 1915 season. The National League drafted 25 players, the American League 19 and the National Association 55. Including money refunded for National Association drafts that were disallowed, the National League paid \$27,500; the American League \$23,200; the National Association \$22,250—a total of \$72,950. The sum of \$9,000 was paid on optional agreements between National Association clubs and \$6000 on options exercised by minor league clubs from minors for 59 players. The amounts paid for release by purchase between National Association clubs was \$12,431. The sum received for drafted players, on option agreements and released by purchase players was \$134,581 and for options exercised by minors from minors, \$30,400. In addition the National Association clubs purchased from major league clubs by optional agreement and outright sale, 308 players paying \$18,565 to the minor leagues. The grand total of money handled was \$331,359.

ILLEGAL VOTING CHARGES ARE TO BE INVESTIGATED

ADMINISTRATION OFFICIALS ARE PLANNING SENATORIAL INQUIRY INTO REPORTED VIOLATION OF BALLOT

ALREADY UNDER WAY

Federal Officials Start Probe in Indiana and West Virginia for "Colonizing" for Voting Purposes Has Been Charged. Washington, Nov. 14.—A senatorial investigation of alleged "colonizing" for voting purposes was announced today by administration officials. Preliminary plans have been made and a resolution providing the machinery for the inquiry is ready to be introduced soon after Congress convenes next month. It was stated today that evidence was being collected, but its details were not disclosed. The plan is to call those actually in charge of campaign finances before the Senate committee and investigate the details of their transactions. Various reports concerning use of money in certain States have come to Democratic headquarters. Investigation into alleged attempts to colonize illegal voters in Indiana and West Virginia particularly, was begun several weeks before the election. In those States, Democratic leaders are planning to contest the election of United States Senators. Before the polls had closed last Tuesday, charges of corruption were being openly made by Democratic chiefs. Evidence is being gathered to base contests in the election of Harry S. New and James S. Watson as Senators from Indiana and Representative Howard Sutherland, as Senator from West Virginia. New, on the face of the Indiana returned, defeated Majority Leader Kern, and Watson was from Senator Taggart. Sutherland defeated Senator Chilton. If contests are brought they will have to be initiated in the new Senate, since each legislative body is the judge of its own members. The Democrats will contest the new Senate by a majority of twelve votes. The department of justice announced that its investigation will proceed in various States. The fact that the elections are over and said that prosecutions were to follow where the law had been violated.

FOREIGN RULERS' CONGRATULATION SENT PRESIDENT

By Associated Press. Washington, Nov. 14.—Re-election congratulations have been received by President Wilson from rulers of several foreign nations, but their names will not be given out until after the President's re-election is formally conceded by the Republicans.

PRAYERS WIN FOR EVANGELINE BOOTH

Commander of Salvation Army Now Recovering From Severe Illness

By Associated Press. New York, Nov. 14.—After an illness of several weeks during which "ceaseless prayer" was offered for her in Salvation Army circles throughout the country, Evangeline C. Booth, commander of the Salvation Army in the United States, is reported today as well on the way to recovery. It is announced she will be able to resume her work in a few days.

MOVEMENT TO REWARD ALL FAITHFUL SERVANTS

By Associated Press. Washington, Nov. 14.—Recognition for faithful servants and rewards for those with records of longest continuous service are occupying the attention of Washingtonians, and the campaign, which is being conducted by the District of Columbia Federation of Women's Clubs, probably will result in a nation-wide contest. A prize of \$10 in gold has been offered as an award to the domestic longest in the employ of a single family. Another prize of \$10 gold will be given to the domestic longest in the employ of a family for two or more generations. Several smaller prizes also will be awarded. Entries in the contest are swamping the Federation's headquarters, one showing continuous service for as long as 47 years, several between 30 and 40 years and many with 20 years' service record. Among the entries are four servants of Mrs. John W. Foster, wife of the former Secretary of state, whose combined service record shows 84 years. All the entries are accompanied by glowing accounts of the good points of the servants. So enthusiastically has the plan been received that a number of cities are planning to make a similar effort to promote efficiency by pointing out good examples of industry and devotion in the homes of the country. Clubs wove in several cities have written to members of the Washington Federation asking for information about the campaign here. There are two divisions in the contest—one for those long in service, to whom the gold prizes will be awarded, and the other for those who have been more than five years in one place, and to whom certificates will be issued, signed by the Federation officers.

DOCTORS CONSIDER NATIONAL DEFENSE

Southern Medical Association to Hear Lecture by Dr. Grayson of White House. Atlanta, Ga., Nov. 14.—After a day spent in meetings of its various groups at which many topics relating to medicine and surgery were discussed, formal sessions of the Southern Medical Association and reports of its officers were before the delegates today. Clinical work and speeches including the annual address of the president, Dr. Robert Wilson, Jr., of Charleston, South Carolina, and one on "The Doctor's Work for National Defense" by Dr. Carey T. Grayson, the white house physician, composed the work outlines for the remainder of the day and for an evening session.

CONSUMPTION OF COTTON INCREASES

October Figures Show Gain Over Same Month Last Year; Bureau Reports.

By Associated Press. Washington, Nov. 14.—Cotton used in the United States during October amounted to 555,349 running bales, exclusive of linters, compared with 509,762 in 1915 and for the three months ending October 31, 1,642,293 bales compared with 1,463,892 a year ago. Cotton on hand October 31 in consuming establishments was 1,723,864 compared with 1,345,825 last year and in public storage and at compresses 3,672,185 bales compared with 4,170,543 last year.

SAYS CONTROL OF NEXT HOUSE STILL IN DOUBT

By Associated Press. Washington, Nov. 14.—Representative Foreman of Michigan, chairman of the democratic congressional committee, declared at the White House today that control of the next House of Representatives was still in doubt. He said the democrats were certain of 312 votes and the republicans of 311 with nine districts still in doubt.

**GERMANY TO NEED
AMERICAN MACHINES**

This Country Expected to Sell Much Equipment There After War Ends

By Associated Press.
New York, Nov. 14.—Interesting notes on several phases of German industry are contained in reports from the American Association of Commerce and Trade which have just reached here from Berlin.

The German machine industry, it is declared, is now in the process of a general readjustment, back to the production of implements-of-peace times as well as war. The fact that for two years many of the machine-producing factories have been working on implements of war, in order to save themselves from stagnation, has caused the supply of machines for all other purposes to decrease. Since competition of normal times has practically ceased, the demand for machines for peace production has increased.

This is the case, for instance, with agricultural implements, manufacturers not being able at the present time to satisfy the demand, and working equipments and supplies to mining, steel and iron concerns, are occupied to full capacity and hardly equal to the task of filling orders.

"The result, therefore, is a period of replenishment and renovation of such overworked equipment that has now set in and which is limited only by the long deliveries required."

"It will be a tremendous undertaking after the war, to replace the worn out machine equipment of German factories, a work which will require several years to accomplish."

Statistics of the German steel production month by month are given, showing substantial increases over 1915.

The coal and coke situation, the potash market and the linen industry are all favorably reviewed. The crop for 1916 is shown to be way below that for the previous year, there having been a considerable decrease in the cultivated area.

The number of transient visitors in Berlin during the month of August was shown by the hotel registers to have reached a total of 110,452, which was a considerable increase over previous months. It is interesting to note that of this total number only 3,500 were foreigners, including 163 Americans. From hostile countries were recorded one each from France and Italy, two from England and 200 from Russia.

The annual fall fair in Leipzig is reported by the American Association as having had very satisfactory results, showing a considerably increased demand for high quality goods of all sorts. Experienced exhibitors, says the report, "explain this by the fact that a large part of the people are now earning much more than before the war."

The glass and ceramic industries reported good turnovers, and did the entire metal goods industry, the latter having learned to adapt itself to altered conditions, and many substitutes were in evidence for copper and brass. Large orders were recorded by the paper goods manufacturers, and novelties for the Easter holidays were recorded in record time. Discussing the food-stuff branch inaugurated at the fair, the report says that the hundreds of exhibitors in this line were highly satisfied with the results obtained, and the foodstuff exhibit promises to be a permanent feature of the Leipzig fair.

The text of an appeal to the people to subscribe to the fifth German war loan is quoted in the Association's report as follows:

"Notwithstanding recent political events, the Reichsbank since 1914 is calling the roll for a war loan. The financial leaders of the Empire confidently hope that the performance of duty in this respect will not need an appeal to patriotism, but that the will to take part in the achievement of an honorable peace is, at all times alive."

"The very increased number of our enemies forms an incentive to our efforts spurring on to unsurpassed achievements."

"Our finances do not shake under the vast amounts which so far have been subscribed for, which will ensure a further strengthening by the additional billions to be placed at the disposal of the Empire."

**OVERLAND AGENTS
TO MEET TONIGHT**

Banquet Will Be Tendered Members of Sales Force From Many Counties.

For the first time, the dealers in the territory of the Overland Sales Company of this city, will be brought together in a get-together meeting here tonight, twenty local agents from a territory covering eighteen counties being in attendance. Among the business matters to be brought up will be plans for participation in the dealers' trip to the Overland factory at Toledo, Ohio, on which most of the dealers plan to go. A feature of the convention will be a banquet to the visitors and the office force of the Overland Sales Company, which will be held at the Westland hotel at 8:30 tonight.

A speech by L. J. Adams of Toledo, factory representative, who is in the city today, will be one of the features of the banquet. Other speeches will

**SURVEY STARTED FOR
G. T. & W. EXTENSION**

(Graham Reporter)

Surveying of the proposed new railroad to connect Fort Worth with the Gulf, Texas & Western railroad at Salesville, eight miles north of Mineral Wells, was started Wednesday by Capt. John T. White, who formerly was chief engineer of the Gulf, Texas & Western, and a civil engineering party. It is proposed to run the road from Salesville to Mineral Wells after the Fort Worth connection is built. Salesville is the present southern terminus of the Gulf, Texas & Western. Seymour is the other.

**SHOW CAR AT OLNEY
IS DESTROYED BY FIRE**

(Olney Enterprise)

Becoming in some manner ignited from a coal oil stove which was used to do the cooking on the car, the big Haverstock Theatre. Company's car was completely destroyed by fire late Wednesday afternoon. The car at the time was sitting down on the "Y" and was too far out to be reached by the fire company, hence after removing what could be removed from the car all that could be done was watch it burn. Excitement ran pretty high at first when it was discovered that a full tank car of gasoline was attached to other end of the blazing show car, however, these were unscathed and moved safely away by the crowd of men who had come as soon as the alarm was sounded.

A. Frates, president of the new line, is one of the general superintendents of the Frisco system. Mr. Utz was at one time connected with the Northwestern as cashier at Altus and made many friends here on the occasion of his frequent business trips to this city.

**FEW REQUESTS FOR AID
RESULT FROM COLD WEATHER**

Very few were the requests for aid received by the officers of local charities as a result of the recent spell of cold weather, an indication of little poverty as yet within the city. A blizzak spell of cold weather usually develops a number of calls on local charities and is regarded as a good barometer of the amount of need and suffering in the city. The comparative absence of such cases so far this winter is concrete proof of the prosperity which this section has enjoyed for the past several months.

Wichita Falls, Texas, Nov. 14, 1916

There ought to be a seat reserved for H. N. Pope when the boat starts on the trip up Salt River.

It is very easy to see how things might have turned out differently last Tuesday if the democrats of Texas had not turned the trick on that Saturday in August when O. B. Colquitt was defeated for the Senate. Had Colquitt been elected that day, with the united support of the Wilson administration...

Democrats as well as republicans who had part in vote frauds in the election last week are to be prosecuted. Just because the machinery of the government is in the hands of the democratic party and their efforts may have been for the success of democratic candidates is no reason for overlooking any violations of the law by democrats.

Reports from Jacksonville, Fla., and other Southern cities tell of the return of many of the negroes who have left the South during the past few months to work in Northern industrial centers. These negroes find conditions in the North much different from what they had been led to believe existed.

Reports from Jacksonville, Fla., and other Southern cities tell of the return of many of the negroes who have left the South during the past few months to work in Northern industrial centers. These negroes find conditions in the North much different from what they had been led to believe existed.

There is no more anxiety and uncertainty than that which has been created by the question of interstate traffic and mails. The country wants no repetition of the anxiety and uncertainty that existed last year and above all things wants no repetition of the spectacle of any man or set of men giving this government a time limit in the matter of formulating public policy.

LIFE AND DEATH IN THE AIR WE BREATHE

Pure air is God's messenger of health. No other remedy of quack or pendulum will take its place. No other means is provided whereby man may live out his years in health and happiness.

A farmer said: "I can not stand this city air. Why, I never want to sleep in my life without plenty of air in my room and I just suffocate without it. I always have my window open four or five inches no matter how cold it is. The doctor says it is just like it is for people to breathe. He did not intend they should cover their heads with blankets and force on their lungs the same air hour after hour—and no one who does so will be free from cold and lung trouble. He did not intend that a single window should be open a few inches to supply air to the occupants of a bed room during the long hours of the night—and no one who breathes air supplied in such small quantities will be well. He did not intend that an office window should be raised for thirty minutes in the morning and then closed for the other nine hours so that every one who enters that office will breathe air that has been in the room during the long hours—and no one who breathes such air may expect to escape disease."

STATE GOVERNMENT EXPENSES.

The estimate that it will require \$15,314,488 to defray the expenses of the state government for the two fiscal years ending August 31, 1919, shows that all things considered Texas still has one of the most economical governments in any state in the Union—economical at least from the standpoint of the aggregate of expenses.

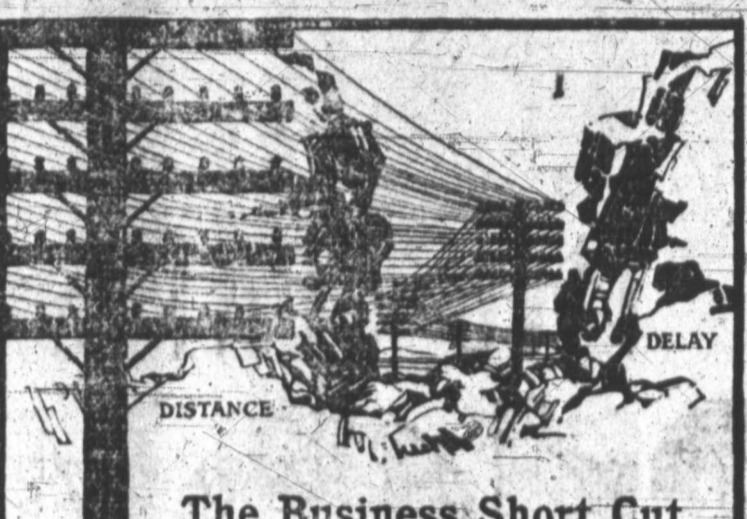

Not only that, but these things ought to be done right away and done splendidly. As much as our public servants and the people should desire economy, there is a vast difference between economy and the proper maintenance of every function of the government. Nor should needed improvements or expenditures be delayed out of the false consideration that a gradual accomplishment of these tasks is a sensible policy.

MISSING PRISONER IS DISCOVERED UNDER STOVE

All the cases had been called but one on the police court docket this morning, while every man in the room had been tried. The court went over the docket again, while the officers took another look through the jail book without result.

UNIQUE BADGES PLANNED FOR A. & M. CONFERENCE

Special badges showing the map of the state with that section located at the ninety-eighth meridian colored red to contrast with the white surface of the rest of the map and showing forcibly the greater portion of the state which would be served by a West Texas A. & M. as compared to the institution at Bryan will be on hand at the rally for the West Texas A. & M. to be held here some time in the month, according to a circular letter being now on its way to the meeting by the local Chamber of Commerce.

The Business Short Cut The quicker, shorter, surer, more profitable way to transact business is via WESTERN UNION Telegraph Service. It discounts distance and overrides delay. THE WESTERN UNION TELEGRAPH COMPANY

WORK OF IRISH TROOPS IN BRITISH ARMY IS NOTABLE IN MANY WAYS

LONDON.—The following letter, circulated by the War Office, constitutes an interesting review of the work of the sixteenth (Irish) Division. The letter, which was written by Major of the Sixteenth Division, addressed to the editors of the London newspapers, is quoted in part as follows:

"The Division was employed in holding portions of the line and in completing training until March 25th. On the 26th of March, the division took over as a whole the Loos and Hulluch sectors and held them without a break of any kind. The division was opposed by Bavarian divisions of good fighting value. Our trenches were battle-burnt and battle-sighted, the ground was very uneven, and the weather was very bad. The division was very thick and strong. Every man was in a position to fight with us. In spite of this and of several strong hostile attacks the division never lost a trench. Twice only during these six months did the Bavarians gain an entry into our trenches on both occasions they were driven out with losses.

"The division was engaged on the 27th and 28th of April, two very severe attacks in which the enemy used poison gas in its most concentrated form. On the latter of these two occasions the division suffered heavy casualties but Providence was on our side and the enemy's gas changed, blew the gas back over the German trenches where the Bavarians had already massed for attack. Taken by surprise they lost a large number of men from their own gas and from our fire on that day were stated to be by a prisoner of another division captured on the Somme in September states that his regiment also had about 500 gas cases, a large number of whom died."

"The division was subjected to several bombardments during the months of June and July. It was on one occasion for the enemy to send over from 2000 to 5000 5-point shells in a day. The division carried out the docket again, while the officers took another look through the jail book without result.

"Orders were received for the division to proceed to the Somme. They were relieved that night and marched back for two days in pouring rain to the railway stations in the rear. Arrived at their destination, they marched up in the rain to the camp in the rear of the battle area. On September 1st, the division moved forward to receive the division of the corps' right were used in the attack on the Cambes trenches and in the advance through Lesay Wood. On the afternoon of September 1st, the division of the corps' right were used in the attack on the Cambes trenches and in the advance through Lesay Wood.

"On the night of September 7th, after the capture and consolidation of the Cambes trenches, the division commenced its march back to the Somme. On the 20th orders were received for it to take a new line. This march was completed on the night of September 22nd. A new history of the division's history, already remarkable has commenced. I am informed by the divisional commander that on every occasion when the division left a district the French civil authorities

"THE VELVET PAW"

By PAUL WEST.

"THE VELVET PAW" deals with politics and politicians. How the passage of an important bill was nearly frustrated by the velvet paw of a woman lobbyist is most graphically told in this splendid picture. Scenariorized by Gardner Hunting, and directed by Maurice Tourneur at the Paragon Studio.

5c and 10c - Prices - 5c and 10c

TOMORROW BLANCHE SWEET

"PUBLIC OPINION"

Miss Sweet is surrounded with a cast of unusual excellence. This unusual drama is on the order of Belasco's famous play, "The Return of Peter Grimm," with the difference that one of the principal characters is that of the spirit of a woman who has been poisoned by her husband. How this spirit attempts to guide the hand of justice.

MAJESTIC

TO-DAY

"JUDITH OF THE CUMBERLANDS"

A five part pretentious dramatization of the celebrated novel by Alice McGowan with Helen Holmes as Judith. A romantic tale of the Kentucky and Tennessee mountains.

TOMORROW

WILLIAM RUSSELL

and CHARLOTTE BURTON

The Strength of Donald McKenzie

A verile five-act drama, with scenes laid in the mountains of California, that for natural beauty are unequalled in motion pictures. The theme is, investigating the action rapid-fire and tense, and Mr. Russell, as the dramatist, has a role for which he is ideally fitted and to which he adds the force of his personality and powerful acting.

5c and 10c

5c and 10c

AT THE THEATRES

The Gem

A rifle shot in the night and two men start out to find the cause, up there in the mountains where a Colt in law. That is the way that "Night Shadows", a Bison two-reel drama showing today at the Gem begins. It ends a half hour later with the happy reunion of two souls estranged through long years of misunderstanding. In this short half hour is crowded the

whole ran of human emotion, hate, fear, revenge, love, sorrow and retribution. It is the culmination of a tragedy that took place years before, intense from start to finish. Alf and Ed live alone in a little cabin in the woods. Neither has ever inquired into the past of the other. One night they are sitting at the fireplace as they hear a hot and a cry for help from out of the mountain. They both rush out and go in different directions in search of the person who called. Alf finds an unconscious girl with her clothes torn. He shields and plans her up and takes

up to the cabin. There she revives and tells him the tale of woe. It seems that she was happily married when a man contrived to separate her from her husband by falsely compromising her. And then when her husband had left her, the brute had hounded her until just then out on the mountain she had hollered for help. In the meanwhile Ed had gone in a different way and met the man whom he considered as his bitterest enemy. It was the man who had broken up this happy home some years before. A terrific struggle ensued and at last Ed was victorious. He was exhausted, however, and slowly crawled to the shack. The man whom he had conquered had also crawled towards the shack. When Alf and the girl hear the men approaching they put out the light and prepare to kill the intruder. The man who had hounded Alf turns the knob to Ed and Alf fires. But the shot goes wild and instead of hitting Ed, it goes east and kills Ernie just as he was on the point of shooting through the window at Alice and Ed. Of course the men are reunited after all the years of misunderstanding.

"PURITY" TO SHOW AT WICHITA THEATRE

Audrey Munson, the artist's model in "Inspiration" the picture which enjoyed such popularity last spring comes again to Wichita Falls, this time to the Wichita Theatre in "Purity" Miss Munson who was the model for the larger part of the statue which figured in the San Francisco Exposition decorations, is a beautiful and accomplished actress as well. "Purity" was staged and filmed by the Hales, who created numerous other famous film productions. It will show here next Thursday, Friday and Saturday at the Wichita.

The Empress

William A. Brady has always been listed as a psychologist. He can prophesy the possibilities of a dramatic production more accurately than any other theatrical manager. For instance, when he started work on the film production of Paul West, "The Velvet Paw," with House Peters and Gail Kane in the leading roles, many other film men told him that too many political plays had already been shown to make the "Velvet Paw" a money maker. With his usual tactful manner, Mr. Brady injected into the production a woman lobbyist of unusual tenor, one who was literally and physically charming, the question put up to Congress dealt with the child labor problem, and before the production was finished, Congress was dealing with that very problem. Wherever shown, it draws great audiences. The subject was talked about for many weeks, was given great prominence in the newspapers, and here came a Brady-Made picture with a star player built around it. Local photoplay "fans" will have the opportunity of witnessing this splendid World Picture when it is shown at the Empress Theatre today.

WILLIAM RUSSELL STAR AT MAJESTIC WEDNESDAY

William Russell and Charlotte Burton are stars of the "The Strength of Donald McKenzie" which is to show Wednesday at the Majestic. Donald McKenzie, renowned as a poet, a poet and dreamer. He worships nature and is a man of great courage and wonderful physical strength. John Condon, a publisher, has his summer home in the woods and he has his daughter, Mabel, a winsome and pretty girl from New York. She is engaged to Maynard Randall, a wealthy New York, er, whose god is money. Randall is backing the father in business, Condon being on the verge of financial ruin, appeals to Randall for help and is given money. Randall sends his girl over the hold he has on the father, as Mabel lacks faith in him in spite of their engagement. McKenzie, under an assumed name, sends his poems to Condon for publication and they make the publisher rich in the woods. Randall makes an enemy of McKenzie by trying to take advantage of a young girl who is saved by the guide. From this point the story moves rapidly through a series of thrilling events in which the guide and Mabel are involved in an absorbing plot leading up to a powerful climax which results in the undoing of Randall and the development of a beautiful romance with the pretty society girl and the picturesque guide as the leading figures. As the "guide" William Russell adds another artistic triumph to his remarkable list of splendid successes. The production is elaborately staged, abounding in magnificent outdoor scenes among the Thousand Pines of Little Bear Lake in the mountains overlooking beautiful San Bernardino, California.

The Majestic

"Judith of the Cumberlands," a feature with Helen Holmes starred will show today at the Majestic.

"Gets-It" Never Fails for Corns!

There's Nothing on Earth Like It For Corns and Calluses.

"Whenever you get corns and calluses, don't experiment. Just use 'GETS-IT' and nothing else. Easiest and simplest thing to use. Just a few drops on in a few seconds."

Wear Shoes That Fit Use "Gets-It" Tonight

old "GETS-IT" does the rest. The old way is to bundle up your toes in harnesses and bandages. The new way that makes your corns pop-vanish is to use "GETS-IT". It dries your corn out and leaves the corn in. No wonder they make you limp. First of all, use "GETS-IT" the simplest corn remedy in the world, easiest to use, best for all corns, calluses, corn loosens, then you lift it off. You can wear smaller shoes. "GETS-IT" is sold and recommended by druggists everywhere, in a bottle, or sent on receipt of price, by E. Lawrence & Co., Chicago, Ill. Sold in Wichita Falls and recommended as the world's best corn remedy by Palace Drug Store, Mack Taylor's Drug Store, E. S. Morris.

LIFE STORY OF MAN RE-ELECTED TO PRESIDENCY BY NATION TUESDAY

Woodrow Wilson, twenty-seventh president of the United States and eighth chief executive from Virginia, was fifty-nine years old Dec. 28, of last year. The little town of Staunton, in the state which has been the mother of many presidents, had other, has the honor of having been his birthplace.

Wilson's After Election Smile

Whether history will hold Mr. Wilson to have been one of the greatest presidents only posterity may know. Americans today are too close to the events of his administration to give an impartial verdict. It is safe to say, however, that among his important works as a statesman so far have been, first, his conquest of the New Jersey bosses when governor; second, his tariff law; third, the federal reserve bank act; and, fourth, the diplomatic negotiations growing out of the European war.

Agents Wanted Special Get-Acquainted Offer by Southern Surety Co., St. Louis Assets \$2,791,834.64 \$15 yearly old-line policy against sickness and accident pays \$500 death benefit and \$25 weekly disability benefit for either sickness or accident. RELIEVE HEADACHES WITHOUT DOSING By Applying Sloan's Liniment to Forehead You Can Stop the Severe Pains Many headaches are of a neural origin. The symptoms of such a headache are intense and lingering pain in the brow, temples or back of the head.

Sloan's Liniment KILLS PAIN The Country Gentleman is just what is wanted for a CHRISTMAS GIFT

RESTRICTED DISTRICT vs. TENTH STREET Tenth street is all right and at this time is the principal residence street of the city, but don't let it in your head that all the fine houses will continue to be built on Tenth street.

THERE IS A REASON FOR THIS. The elevation is higher, the scenery more beautiful; it is farther away from the noise and dust; lots are cheaper; sold in pairs which gives more yard room and gives your home a much better appearance; no cheap houses can be constructed around you. It will be the ideal residence section. For prices on these lots see or phone me.

NEW HOTEL WILL BE CONSTRUCTED AT VERNON (Vernon Record) O. A. Swinburn, local contractor, secured the contract this week for the erection of a two-story brick hotel building on West Pease street, the site of the old Alkimos theater. The builder is J. H. Kinchloe, one of the county's most prosperous stockmen and farmers, living nine miles west of Vernon. The structure is 40-50 feet by 60 feet and will face south on Pease street. The first floor will be made into two store rooms, thirty by twenty feet each, and the second story will be divided into six rooms. The building will be finished modern in every detail and with the best material throughout.

BUILDING OPERATIONS UNDER WAY AT QUANAH (Feymoor Banner) Before long the hole in our town left by a recent fire will be filled up. Contractor J. R. Waltrip is putting down concrete foundations for two brick buildings, located just north of the Western Pharmacy. They will be duplicates of the one-story brick building on the south side of the town, which belongs to S. Gorman and the other to M. D. Lankford, who bought the lot from Rhea Bros. The work will be done by day labor under the supervision of J. D. Robertson. Van Earl Ranson states that he is planning to begin the two bricks on the Ranson property in time for all to go up together. Graham & White with the concrete mixer, have been busy this week on the foundation of their building just west of the Banner office. Work has been under way since the first of October under Contractors Graham & White on the court house. The old tower is fast coming down and the building will soon have a different appearance. There was no money in the large hall on the top, but a bottle was found with a few notes from the man who built the tower. A better description of the work will be given next week.

GERMANY TO TAKE NEW CENSUS IN DECEMBER Associated Press Mail Correspondence Cologne, Germany.—A new census of the population of the German empire is to begin on the first of December, according to the Cologne Gazette. The last one was taken in 1910, but it is regarded now as in sufficient for the regulation of economic conditions within the empire, particularly for food distribution.

WE FEEL JUST A LITTLE BIT PUFFED UP!

Last Friday we sold coffee to customers in Archer City, Byers, Graham and Ft. Worth, Texas; Cincinnati, Ohio and Long Island, New York.

We did not know these people—so they evidently bought our coffee because they liked it better than the coffees they are getting locally. Our mail order business is growing day by day—in the language of Battle Creek, "THERE'S A REASON."
