

FIRST TESTIMONY IN IMPEACHMENT TRIAL WEDNESDAY

ATTORNEY CRANE WHO IS TO DIRECT INQUIRY GRANTED TIME TODAY TO FAMILIARIZE HIMSELF WITH CHARGES

RECORDS COME FIRST

Original Book and Vouchers Showing Mansion Expenditures for Ukelele and Other Items Expected to Be First Introduced

43 Associated Press

Austin, Texas, March 7.—Over the protest of Gov. J. E. Ferguson, who demanded that his accusers, "lay their charges on the table," the committee named to investigate the charges brought against him by Representative Davis of Van Zandt county today postponed the taking of testimony until ten o'clock tomorrow.

Today's session, the first of the investigation, lasted only a half hour. Attorney M. M. Crane of Dallas, retained by Representative Davis to direct the inquiry into the charges against the governor, pleaded that in the brief time that had elapsed since he arrived in the city he had not had time to familiarize himself with the case. He asked the postponement until Thursday in order that he might look over the documentary evidence in Comptroller Perrell's office. If this was granted, he said, he would be able to begin introduction of documentary evidence Thursday morning and reach out of town witnesses Friday morning.

"We should be able to conclude our side by Saturday noon," said Mr. Crane. "Conference will be concluded Friday night."

The governor's counsel, W. R. Hinzar, former state senator, said that for his part he was ready to go forward at once. Governor Ferguson followed with his statement contending that the charges were false. When he concluded, however, Harry Miller of Dallas, a member of the committee, moved a postponement as requested by Mr. Crane.

Chairman E. M. Bryan, of the investigating committee, opened the session today with the statement that the inquiry would be "completely and fairly conducted under the rules of the district court."

This it was stated, would tend to eliminate all hearsay evidence. This was considered speculative too-as to whether the governor's counsel if he so desired might not be able to introduce any evidence not related to the governor's conduct since he took office.

Tomorrow's session, which will deal with documentary evidence, will concern expenses at the executive mansion and it was expected the original book and vouchers showing the mansion's expenditures, including the purchase of punch for the governor's reception, flowers and ukelele will be produced.

The Fort Worth Record has the following to say concerning the personnel of the committee named to hear the impeachment charges against Governor Ferguson:

The committee follows: W. H. Bledsoe of Lubbock, W. M. Ely of Gonzales, R. E. Thomson of El Paso, R. L. Carlock of Fort Worth, C. R. Fry of Midland, George Pope of Pampa, Bruce W. Bryant of Haskell, D. S. McMillin of Grayson and Harry Miller of Dallas.

No sooner than Speaker Fuller announced the committee which will investigate serious charges against Governor Ferguson than approval was outspoken. According to friends of Governor Ferguson, no nine men more fair could be selected. Such is also the opinion of those who say Governor Ferguson is guilty as charged.

Five members—Bledsoe, Ely, Bryan, Miller and McMillin—are prohibitionists. Four members—Carlock, Thomson, Pope and Miller are anti-prohibitionists.

Bledsoe of Lubbock, serving his first term in the Texas legislature, is considered one of the most influential members on the floor of the House. Bledsoe is a lawyer and a large land owner in West Texas. He is a product of Texas and a graduate of the University of Texas. For years he was a practicing lawyer in Cleburne and is well known in Fort Worth. He supported Bull against Ferguson in Ferguson's first race. Last summer he was out of the state.

R. L. Carlock of Fort Worth, who Bledsoe is succeeding in his first term in the Texas legislature, is one of the best in the history of the legislature. Usually a new member must spend one term in the legislature before he can get legislation through. Representative Carlock, so far as the House is concerned, has effected reform in the supreme court system in Texas. He is an anti-prohibitionist, but, being instructed for submission, has voted for it consistently. He is a friend of Governor Ferguson.

W. M. Ely of Gonzales was a candidate for speaker against Speaker Fuller in the latter's favor. Ely is a prohibitionist. He was one of the submission campaign in the lower house.

Harry Miller, like Carlock, is an anti-prohibitionist. Instructed for submission he has voted consistently for prohibition. He is a friend of Governor Ferguson and supported him in both campaigns. In point of public service, Miller is one of the most notable members of the lower house.

Years ago he remained as private citizen in the practice of law at Dallas. He was appointed district judge in Dallas by former Governor O. B. Colquhoun. Last year he was manager of United States Senator Culberson's campaign for re-election against Colquhoun.

SPEED UP WORK FOR THE U. S. NAVY

Secretary Daniels Holds Conference With Representatives of Big Ship Building Firms

Washington, March 7.—Machinery looking to the prompt completion of his program for speeding up naval construction was set in motion Tuesday by Secretary Daniels. He conferred with representatives of the machine-building companies and later with Secretary Wilson of the labor department and Samuel Gompers of the American Federation of Labor.

President Wilson called at the navy department during the day and talked with Daniels. The president was told that even with an emergency fund of more than \$100,000,000 now available, backed by authority to require preference for navy orders and if necessary to take over ship yards and other plants, it would be a difficult task to get ships rushed to completion. The ship builders will present today detailed statements of what they can do with the additional funds in the way of speeding up. They will also show just what additional work each plant may be able to undertake.

A most serious problem is that of securing skilled labor, although suspension of the eight hour law on government contracts is expected to help in this regard. Daniels asked the advice of Secretary Wilson and Gompers as to what steps to take to augment the supply of labor in the ship yards.

The greatest stress will be laid, it is understood, on quick construction of smaller craft such as submarine chasers, submarines and destroyers.

At the same time the eight new capital ships, five battle cruisers and three monster dreadnaughts must be laid down in addition to new scout cruisers. To obtain submarine chasers, the department plans to call on small boat builders, along both coasts of the hills, to be of wood in order to relieve the steel trades and steel works of the strain.

THOUSANDS DRIVEN FROM THEIR HOMES

Tennessee River Expected to Reach Stage of 48 Feet Tonight at Chattanooga

By Associated Press

Chattanooga, March 7.—The gauge of the Tennessee river at 7 o'clock today registered 47.3 feet and was rising slowly. The observer estimates it will reach 48 feet some time tonight. Thousands of people have been driven from their homes; all have been cared for without cost.

The morning lectures by Miss Blodgett and Dr. James were commented upon as being especially valuable and interesting. Both sides of the river have been heard by the high school boys and girls.

Dr. James talked on "The Value of Education to the Community" and he treated educational problems from every standpoint. He pointed out the value of the education of the young people to the health and the community, told of the part the public schools and library played in the formation of ideals and the building of character and the importance of interest in schools and libraries by the club women, city officials and parents particularly.

Miss Blodgett discussed the financial condition of the city and the various departments. She pointed out the importance of the city's financial condition and the various departments.

"ECONOMICS" WEEK PROGRAM ENDED TODAY

CLOSING SESSION PROVES ONE OF MOST INTERESTING AND HELPFUL OF THE WEEK. HERE A MOST SUCCESSFUL ONE

HOME FURNISHINGS

Discussion of This Subject By Miss Blodgett One of Features of Course Dr. James Talks on Value of Education

Wichita Falls first Home Economics course is over now and may be regarded as very much of a success from point of interest and of valuable information gained by those attending. Though the attendance could have been much larger, the course was held without a hitch, the courtesy of the Salvation Army Hall, where the courses have been held through the program of Ensign Hall.

After the most helpful things on various articles of the diet and concerning the methods of running the home. Wichita Falls women this afternoon learned the correct method and how to furnish and finish their homes. The latter was given by Miss Gertrude Blodgett and illustrated by stereopticon slides. Miss Lawrence and Miss Lawrence and then some things all should know about selecting meat and about cooking it. They were advised to do their marketing in the morning, to buy their fresh meats shortly before time for a meal and to buy their home "something for dinner." This practice demands meat that can be cooked quickly according to Miss Lawrence's conscientiously made tender cuts, or an indigestible meal will result. Mr. Hodgson gave the butcher's side of the meat problem and discussed the various cuts and their uses as did Miss Lawrence.

Good taste and had taste in home furnishings was discussed by Dr. Blodgett in her lecture, which closed the course. The direct influence upon the home surroundings, have on the family, both children and grown-ups, was pointed out. The observer stressed the need for more pleasant dwellings. All the elements that go into making a home a home were brought out in their relative phases of importance.

EXTENT OF POISONING FROM CANNED GOODS

Canners' Association Appropriates More Than \$100,000 for Investigation

New York, March 7.—It is an amazing story that the National Research Council that an exhaustive investigation is to be undertaken to determine to what extent, if any, the danger of poisoning is involved in the use of canned goods. The National Canners' Association, representing practically all producers of canned foodstuffs in this country, is sponsoring the entire expense of the investigation, which will be conducted entirely independent of the association except in the matter of the financing of the work.

The proposal to make such an investigation was brought forward by Dr. George E. Hale, director of the Mount Wilson Solar Observatory and chairman of the National Research Council, who has long been an ardent student of the subject of poisoning from the use of canned goods. He is generally known in this country as the "father of the canning industry" and has been a leading figure in the spread of interest in such an important subject as the danger of poisoning from the use of canned goods. HOGS REACH HIGH MARK \$15 HUNDRED

By Associated Press

East St. Louis, March 7.—The high price for hogs reported in this country since the Civil War was quoted by the national news yesterday when a good heavy hog brought \$15 a hundred pounds.

The war pig was shortly after docked at Constantinople on the roof of the lard, it is added.

By Associated Press

Berlin, March 7.—The Russian armored cruiser Rurik struck a mine in the Gulf of Finland and was badly damaged, according to a report from Stockholm, says an Overseas News agency announcement. News of the disaster of the Rurik was received in Sweden.

The war pig was shortly after docked at Constantinople on the roof of the lard, it is added.

PLAN FOR LIMITING DEBATE AGREED UPON

By Associated Press

Chicago, March 7.—The vote of Congressman William W. Wilson, third district Chicago, against the proposed neutrality bill has led to a question whether he retained his qualification for membership in the Union League Club in which one of the qualifications of the membership is "unimpaired loyalty to the United States."

The question as to Mr. Wilson was asked in a letter made public today by Frank J. Koch, president of the club, in which Mr. Wilson was asked for an explanation for his voting against the armed neutrality bill.

"I do not think we should arm American merchant ships to carry contraband of war to belligerent nations, which would be considered as acts of war on our part, and voted to amend the resolution."

"I have advocated full and extensive preparation for the last three years, while some men in high political life were silent, indifferent and preaching we were too proud to fight. Congress should remain in session to help settle the critical situation that may arise at any time and to further military preparations."

## Cooking Tends To Lessen Digestibility Of Any Meat

SIDE OF BEEF

### LECTURE BRINGS OUT INTERESTING FACTS

#### DIFFERENT CUTS OF BEEF POINT-ED OUT ON REAL ARTICLE—MISS LAWRENCE AGAIN GIVES HELPFUL INFORMATION.

With the assistance of R. L. Budlong, local butcher, and a side of beef from his shop, Miss Lawrence this afternoon lectured on "Meats" and on beef in particular. Miss Lawrence and Mr. Budlong gave a demonstration of the various cuts of beef, showing the cheaper and less desirable cuts can be made as appetizing and attractive as the choice and expensive cuts. The various divisions of a side of beef were pointed out on a large chart by Miss Lawrence and in order that the housewives of Wichita Falls may make a closer study of the different cuts of beef, the accompanying diagram prepared from a sketch by Miss Lawrence which corresponds to the large chart used during the lecture.

Miss Lawrence's talk and some of her economical recipes follow:

Beef is among the easily digested meats. Cooking tends to lessen the digestibility of any meat. Raw or un-done beef is a food which patients with very weak stomachs can digest. Cooking, however, improves the flavor and appearance, kills the possible parasites and germs present, and in tough meats it tenderizes and softens the fibres, and thus aids digestion.

Mutton is as digestible as beef. Figures indicate that 99 per cent of the protein of mutton is digested. It is a much more wholesome food than pork or veal for growing children and an economical meat to raise and slaughter on the farm.

The meat of chicken is easily digested, especially the breast. The breast fibres are short and the connective tissues are less abundant. The principles of cooking meat apply to the cooking of chicken.

Pork is probably the meat most used in the farm home. This is unfortunate for pork is the most indigestible of all our meat foods. This is due to the large amount of fat between the mus-

cular fibres of the meat. Experiments show that it takes three hours to digest three and a half ounces of pork, while the same amount of beef is digested in two hours. Smoked-breakfast bacon is an exception. It is easily digested when properly cooked, and is a valuable food in the diet of children.

To Prepare Meat For Cooking.—Remove from the wrapping paper at once. Keep in a cool, dry place. See that the meat is free from all foreign particles. Wipe all meat with a clean, damp cloth. Note: Wash chicken—after it is free from pinfeathers and carefully singed, with ivory soap and warm water. Rinse thoroughly.

How to Cook Meat.—To cook any substance intelligently it is necessary to know of what it is composed, and at what temperature the material is best cooked to give the desired results. In the case of the meats we have in the muscular fibres substances called protein (prote in), while the connective tissue binding these fibres together is a substance similar to gelatin. If protein is subjected to high temperature, as high as the boiling temperature, it toughens and shrinks. A high temperature, or the boiling temperature, is therefore not the best to use to keep the meat juicy and tender. Also a long continued boiling temperature melts the gelatin in the meat to such an extent that it runs out into the water, leaving a stringy, dry, shrunken mass of fibres. For these reasons then, meat should not boil, but be cooked at a temperature just below the boiling point, or about 185 degrees Fahrenheit. If it is very tough, it should be cooked below the boiling point for a long period of time. Here the fireless cooker is an excellent means of cooking, as a temperature below the boiling point is in this way maintained for a long time.

In cooking meats, this further consideration should be borne in mind when it is put into cold water and slowly brought to the boiling point, a large amount of nourishment is extracted in the water, while if it is quickly seared on the outside cut surface by plunging into boiling water or placing in hot skillet or oven and searing quickly for a few minutes, the juices are kept in. The proper method to pursue in cooking meat is therefore entirely determined by the end in view. In making a soup, the object is to extract as much as possible of the nutriment. In making a stew some of the nutriment should be extracted into the gravy and a part left

in the meat. In broiling a steak, all the nutriment should be left in the steak.

Cuts of Beef.—In using beef in the home one should know the various cuts into which the animal is divided and the uses of these cuts as food. The accompanying diagram shows the various beef cuts.

How to Make Meat Soup.—In using meats to make soup, we wish to extract all the juices from the meat. To do this, cut the meat into small pieces, soak in cold water one hour and put it in this same water over the fire. Bring slowly to the boiling point, set on back of stove and let simmer until meat drops to pieces. Remember that if meat is allowed to boil, the proteins are hardened on the outside, the juices cannot be extracted, and the soup will lack flavor.

Vegetables should be added the last hour of cooking—potatoes the last half hour. Skim off all fat and serve soup hot. Soups made in this way can be very successfully cooked in the fireless cooker after being brought to the boiling point on the range.

Stock for Meat Soup.—6 lbs. bone (steak, shin), 6 lbs. lean beef—(tough meat), Wipe meat with damp cloth. Cut 1 1/2 of lean meat into small cubes, brown in fat or marrow from the bone. 8 quarts water. Simmer 6 hours. Remove meat and bone and set stock in cool place. Remove cake of solidified fat. Add the following ingredients for seasoning: 6 cloves, 1 1/2 bay leaf, 2 sprigs parsley, 1 t. g. thyme, 1 1/2 C. carrots—diced, 1 1/2 C. onion—diced, 1 1/2 C. turnip—diced, Salt to taste. Cook 1 hour.

Note: Use the seasonings loosely in a cheese-cloth square to save having to strain.

To Keep Soup Stock Clear.—Note: To clear, use 1 egg shell and 1 white of egg to each 2 quarts of stock. Add the beaten white and crushed shell to the warmed stock. Stir constantly until the boiling point is reached. Boil three minutes. Simmer ten minutes. Note: Remove the scum as it forms on top. Strain into several receptacles. Cool quickly.

Note: Do not disturb the coating of fat which keeps out the air and acts as a preserver.

Flank Steak.—To prepare follow directions for Swiss steak, then steam two hours. Make gravy: 2 T. fat, 2 T. flour, Brown in skillet in which meat was prepared, add 1 C. liquid—liquor from meat, water, milk or cream. Add gradually, stir constantly. Cook until consistency of thick cream. Season to taste.

Meat Loaf.—2 lb. round of beef—run through meat grinder, 1 T. parsley—chopped, 2 T. butter, 1 egg—slightly beaten, 1 1/2 C. onion juice, 1 1/4 t. pepper, 1 t. salt, 1 C. softened bread crumbs. Mix ingredients. Shape into loaf. Bake often with hot water to which butter has been added. Serve with brown gravy or tomato sauce.

Swiss Steak.—Cuts used (tough meat). Round—scored in shop. Skirt—scored in shop. Knead into meat. 1 1/4 C. flour. Note: Omit the flour once in a while for variety. Brown in skillet, using suet or other fat. Cover steak with boiling water. Cook slowly in covered skillet until tender. Season and serve with gravy (See Flank Steak). Time required, 40 m. to 1 1/2 hrs. Hamburger Steak.—Force steak through meat grinder. Add pieces of fat meat if desired. Season with salt, pepper and onion juice or onion salt. Proportions: 1 pt. meat, 1 1/2 t. salt, 1-8 t. pepper, 1-4 t. onion juice or salt.

Mix thoroughly, shape into thin cakes one-half inch in thickness. Pan broil, 6 m. if liked rare, 10 m. well done. Serve cakes, spread with Maitre d'Hotel butter, around a mould of potatoes with buttered cauliflower or other vegetable in the corners of the platter. Garnish with parsley.

Beef Stew.—Cuts used for steaks—brisket, rump, best part of neck. 2 lbs. of meat—cut into small serving pieces. Brown 1/3 of the amount. Cover with cold water. Bring to the boiling point. Cook slowly for 6 or 4 hours, or until tender, then add: 1-2 C. tomatoes, 1 C. cooked string beans. Season as desired.

Note: Potatoes, onions, carrots—sliced or diced may be added or substituted; also cold cooked rice, cream of wheat, macaroni or spaghetti. The stew may be prepared in the fireless cooker. Do not ordinarily serve all of the vegetables suggested at one time.

LAST OF PARTY SERIES AT ANDERSON HOME

Two forty-two parties on Monday evening and Tuesday afternoon at the G. D. Anderson home were the final entertainments of a series of hospitalities which have been extended to friends of the family in an informal way during recent weeks. Mrs. Anderson, always a gracious hostess, has made these affairs most delightful, charming and thoughtful of hospitalities being noted in each case, whether of extensive guest list or limited to only a few.

For both of the parties this week the approach of St. Patrick's Day was taken to furnish the motif of decoration, score card and refreshment service alike. The Monday evening list comprised Dr. and Mrs. Guest, Messrs. and Mesdames G. C. Wood, Langford, Silk, Noble, Carrigan, Harvey, Patterson, W. L. Robertson, W. E. Robertson, Mack Thomas, Pounds, Culbertson, E. P. Greenwood, Grisham, Sillier, Arthur Huff, Feldman, Mesdames Montgomery, Barnell, Adickes, Messrs. Jack Jones and R. E. Huff.

On Tuesday Mrs. Anderson's guests included: Mesdames Ashmore, Bob Sanders, Elmer Elgo, Pennington, J. D. Avis, Rohntree, Bernard, Bert Bean, Mark Moore, Wilford, Marvin Smith, Malone, Adams, DuVal, J. D. Johnson, Stringer, W. W. Gardner, Prosser, Ed Howard, Burnside, Stone, Bell, G. T. Bacon, McCutchen, Hood, William Huff, W. W. Little, Templeton, C. J. McDowell, Ferguson, C. B. Beavers, O. E. Maer, Strang, Bibb and Miss Templeton.

BIBLE CLASS MEETS WITH MRS. P. A. MARTIN

Tuesday afternoon the ladies of the Bible Class of the M. E. Church, South were delightfully entertained at the home of Mrs. P. A. Martin. The usual business session was followed by the social hour in which the daughters of the hostess, Misses Lois and Laura entertained with music and readings while little Miss Rosella Williams also gave piano numbers. The hostess had arranged a contest which furnished entertainment apart from the usual diversion of fancywork and chat and late in the afternoon refreshments of ice cream and cake were served, marking the close of an unusually pleasant meeting of the class. Those present: Mesdames Mann, Roberts, Hutton, Deaton, Hart, Cook, Winn, Williams, Bland, Nolen, Robertson, Polke, Bullard, Brown,

Blankenship, Martin, Misses Lois and Laura Martin and Rosetta Williams.

SIGMA DELTA CHI MEETING TUESDAY

Miss Audrey Adickes was hostess to the regular session of the Sigma Delta Chi Tuesday afternoon. The usual program was carried out and refreshments served.

WESLEY GIRLS MEET WITH MISS HICKMAN

For the fortnightly informal club session the Wesley girls met Tuesday afternoon at the home of Miss Muriel Hickman. The refreshment course consisted of nut bread and lettuce sandwiches, pickles, peach salad, waters, hot cocoa and candy.

Mrs. T. P. Hickman and Miss Maurine Hickman, mother and sister of the hostess and Mrs. Leo Whitney were guests, members being: Mesdames Tanner, Lester Jones, James Hanks, Loren Taylor, A. H. Drake, T. R. Hickman and Miss Myrtle Humphreys.

The Wesley Ladies' Society met Tuesday afternoon at the home of Mrs. Taylor, Elizabeth Lou Hanks, Paul Jones and Joe Hickman.

D. G. M. C. HELD FEET MEETING TUESDAY NIGHT

Forty-two girls and Miss Robley, the faculty sponsor of the D. G. M. C. met, for the first time since the club organized last week. Tuesday night at the high school. During a business session an invitation was extended to Miss Schmidt from the club to become a joint sponsor with Miss Robley and a committee of Misses Coyle, Shoemaker, Myrtle Morris and Mary Leah Tevis appointed to make arrangements for a chili supper for the club at the next meeting in two weeks. Cerise and Kelt green were chosen as the club colors and a password and motto were chosen, these to be kept secret with the name of the club until the annual is published.

A short program was given at the meeting. Goldie Maricle and Emma Carter gave readings and Emma Carter read some jokes. Victoria picnic completed the program. Adoption of a constitution and bylaw was deferred until a later meeting as these were not completed at this time.

The Clatsby-Miller Bible class will meet Thursday afternoon at three o'clock in the church parlors. All members urged to attend.

## MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, eczema of the chest (if it gives presents rheumatism).

### Market Report

**Fort Worth Livestock**  
By Associated Press.  
Fort Worth, March 7.—Cattle receipts, 2200, steers, \$6.50 to \$10; Hogs receipts 7500, 25 to 40 hogs, bulk \$12.50 to \$13.75. Sheep receipts 500 steady. Lambs \$13 to \$14.

**Chicago Grain Futures**  
By Associated Press.  
Chicago, March 7.—Wheat developed weakness today when a slope of strength at the start. Opening prices ranged from 1-4 to 1 cent higher with May at 1.31 to 1.31 1/2 and July at 1.12 to 1.10. The close was weak, May 3-8 net lower, with May at 1.27 3/8 to 1.27 1/2 and July at 1.12 to 1.12 1/4. Corn rose heavy at 5-1/2 to 1-1/4 net, decline.

**New York Cotton Futures**  
By Associated Press.  
New York, March 7.—The cotton market opened steady at an advance of 1 to 1 1/2 points in response to Liverpool cables and bullish overnight spot advices. There was some slight reactionary talk based on the extent of the recent advance and the market eased off several points right after the call. May contracts sold off from 17.78 to 17.67, or back to within 7

That the European war is a truly world-wide affair, was proved by a clash between champions of Ireland and Germany in the cooler at the city jail last night. Although the belligerent parties had a good deal of bluff and bluster, which hampered their operations to some extent, each managed to administer a black eye to the other, as well as inflict a number of minor casualties. In view of the actual damage sustained in this engagement, which lasted several hours, Judge Whitely dismissed the cases in police court this morning, deeming it unadvisable to proceed with the case. His opinion was that the damage had been sustained or punishment in this case. His opinion was that the damage had been sustained or punishment in this case.

Short, agricultural agent for the Denver and Valley on the agricultural work of the system. Mr. Short is also an assistant to Mr. Lamson in the editing of the agricultural magazine to be issued by the Burlington system, the first number of which is expected within the next few days.

### LACONIA'S TORPEDOING DESTROYED BIGGEST MERCHANT SHIP SUNK SINCE LUSITANIA

The Laconia, torpedoed off the coast of Ireland, was the largest merchant ship sunk since the Lusitania. The ship was carrying a large amount of cargo, including a large quantity of munitions. The ship was sunk on March 2, 1917, and the crew and passengers were rescued.

## Your Husband - Acquired or Prospective

is first attracted to you, in most cases, by your personal appearance.

Your other qualities, good as they are, would not have as fair a chance, were it not for the introduction given by Attractiveness.

As your appearance is so important why not consider carefully its foundation—the corset, for upon the correctness of design, the proper boning and other materials, as well as the workmanship in construction—depend the poise of the wearer, her grace, her comfort, and her health. And these features are all necessary to attractiveness.

MODART Front Laced Corsets are designed for discerning women. We will not use extravagant language about them. The quality of any corset must be proven by trial, so our only suggestion is this—

Have a trial fitting of a MODART Front Laced Corset (at no cost whatever)—

Then the superior comfort will be felt; Then the superior style will be seen; Then the superior poise will be appreciated

# Mexico's Constitution Embodies Many Reforms

by Associated Press. Mexico's new constitution, promulgated throughout the republic today, will give opportunity for the demonstration of the actual working results of many legislative ideas which have not progressed beyond the theoretical stage in many other countries.

The constitution, in general follows along broad lines outlined by the first chief, General Venustiano Carranza, and submitted by him for consideration at the opening of the constitutional congress at Queretaro. General Carranza's project in turn followed the broad lines of the Juarez constitution of 1857, changing it with the object of making it thoroughly applicable to modern conditions. The makers of the new constitution in some cases, however, went somewhat beyond the chief's project in dealing with certain phases of legislation. In his speech to the chief when the latter appeared in the assembly to ratify the constitution, Luis Manuel Rojas, president of the assembly, said in part, that, in general, the assembly had followed the fundamental ideas set forth by Carranza as a result of his mature experience and that if they had gone beyond in some matters, the point he had indicated by his speech was that the constitution should be drafted with which the delegates had followed the flag born by Carranza at Guadalupe. Natural enthusiasm after the recent struggle and desire to destroy old abuses of the past, he said, offered sufficient motive for deviating from the path marked out by the first chief although they always had been in thorough accord with his sentiments for aiding the ideas and aspirations of the Mexican people.

It was clear, he said, that the legislation adopted must be characterized by its tendency to better the popular classes, which always had been oppressed and that if the assembly had committed errors or if defects later were found for which it was responsible, history would attribute the blame to the assembly as their sole idea had been to make great and happy the Mexican republic.

Two articles of the new constitution deal largely with the rights of foreigners in Mexico. Article 33 is finally passed, removing the barrier it was in the Juarez constitution of

1857. This article declares that all foreigners possess the rights to the individual guarantees granted to all within the republic but the executive of the union shall have the exclusive right to compel to leave the national territory immediately and without prior judgment, any foreigner whose presence shall be adjudged troublesome. Foreigners may not be permitted to mix in any manner in the political affairs of the country.

The other articles dealing with the rights of foreigners provide that only Mexicans, by birth or naturalization and Mexican companies have the rights to acquire possession of lands or waters or to obtain concessions to exploit mines, water rights or concessions, but the state may concede the same right to foreigners who appear before the secretary of foreign relations and agree to be considered as Mexicans in respect to the cities involved and agree not to break in regard to the same, the protection of their governments under penalty, if they violate this promise, of losing the titles which they have acquired, which pass to the nation.

Foreigners may not acquire direct possession of lands or waters within one hundred kilometers from the land borders of Mexico nor within fifty kilometers of the sea coast.

Under the new constitution, education is free but instruction will be laical. In the official schools primary education will be without cost. Citizens are obligated to have their son or children under their control or under fifteen attend school for primary, elementary and military instruction. All Mexicans must attend instruction both civil and military, which will fit them for the exercise of the rights of citizenship and must be trained to the use of arms and in military discipline. They must enlist and serve in the national guard (which elects its own officers) in conformity with the organic law to defend the independence, territory, sovereignty, rights and interests of Mexico and the tranquility of the domestic order.

Strict government regulation of the church is provided for in the new constitution. All ministers of what ever cult must be Mexicans by birth. This regulation will cause removal from their pastorate of about 2,500 Spanish priests. There are ten American ministers in Mexico, at the

# TALE OF HOY WOMEN'S SUFFERINGS WHEN LACONIA SANK SHOCKS AMERICA

Two things in the development of the Laconia—suffering—were around so much pity and indignation as the account of the terrible sufferings, ended by death, of Mrs. and Miss Hoy, Americans, when the Laconia was sunk by a German submarine. They endured tortures in an open boat from the weather and icy waters, before death came, and the survivors in the boat were compelled to throw their bodies overboard. Mrs. Mary E. Hoy and Miss Elizabeth Hoy are seen in the pictures.

present time probably less than ten English and German consuls are equally few but there are quite a number of Protestants, among the Catholic clergy of Mexico.

No minister of any cult will be permitted to teach in the public schools and only give instruction in the higher grades of the private schools nor may any religious sect be permitted to establish or direct schools of primary instruction. The state cannot recognize any compact which will tend to lower, lose or sacrifice the liberty of man, either through the exercise of a religious law and that therefore the law will not tolerate monastic orders nor permit the establishment of such by any denomination for whatever object.

Every man will have the liberty to profess the religious belief of his desire and to practice the ceremonies and devotions of that religion in the privacy of his home and in public places, but he shall not be considered a misdemeanor punishable by law. All public religious observances shall be celebrated within the churches, which always shall be under the vigilance of the authorities.

Marriage is to be regarded as a civil contract. The spouses promise to speak the truth and assume the obligations of marriage. The law will not recognize the personality of any sect. Ministers will be considered as professional men and subject to the laws and regulations governing professional men. The state legislatures according to local needs will regulate the maximum number of ministers of each cult in each territory. Ministers in public reunion or formal private meeting or in the acts of the cult or in religious propaganda shall not criticize the authorities in any particular of the government in general. They shall not have the right to vote or to be voted for nor the right to associate themselves in political affairs.

The labor laws provided by the new constitution are among the most important and progressive. They include an eight-hour day and a half day rest, six days a week, and a night rest of seven hours. Night work may not exceed seven hours. Commercial establishments, banks and public utility companies shall be closed on Sunday and on the day after the day of the national holiday. The minimum number of representatives of capital and labor and one member from each sector. If an employer refuses to accept the arbitration, he shall be liable to a fine of one month's salary. If the worker refuses to accept the arbitration, he shall be liable to a fine of one month's salary. The arbitration shall be held within a short time after the dispute has arisen. # EMPRESS THEATRE

TODAY  
LENORE ULRICH  
IN  
"THE ROAD TO LOVE"

The story is a romance and love of the Greek with its mysterious and fascinating irresistibly woven into the play. Miss Ulrich appears as the daughter of an Arabian chief, who loves a young American against her father's wishes. Her love is reciprocated, but her secret heart is captured by her own father and sent away to be sold as a slave.

The unfolding of the story develops many dramatic situations, in which Miss Ulrich is called upon to put forth her best histrionic efforts.

5c and 10c—Prices Only—5c and 10c

TOMORROW  
VIRGINIA PEARSON  
IN  
"BITTER TRUTH"

Diary of a Woman's Revolt

Take a theatrical revolution for her. Thursday and failed to reach her, and left her in a state of

5c and 10c—Prices—5c and 10c

# MAJESTIC THEATRE

TODAY  
HENRY WALTHALL  
AND  
MARY CHARLESON  
IN  
VICTOR ROUSSEAU'S POWERFUL DRAMA  
"THE TRUANT SOUL"

A proven and successful. A phenomenal of intense passions—of hate, greed, shame, pride, revenge, sacrifice, love. It shows man sunk to the depths of vice and degradation man raised to sublime heights—HENRY WALTHALL'S GREATEST PLAY.

The story is told so simply in the Escanay production that there is no need to give it in detail in this review. As seen on the screen it is powerful in its appeal, the mind-boggling in compelling thrill throughout. In it Mr. Walthall and Miss Charleson do some of the finest acting I have yet seen on the screen.

5c and 10c—Prices—5c and 10c

## PRELIMINARY DEBATE SET FOR TOMORROW

Single Tax Will be Theme Discussed—Correspondents Will be Reduced to Six

First preliminary of the spring inter-school debate will be held by the boys of the high school debating club Thursday afternoon at the high school, starting at 7 o'clock. There will be 12 debaters to be heard tomorrow and from these the six best will be chosen. Further elimination will take place within a short time.

The debate will be held in the school building in the city and district meet to be held during April, the county meet at Iowa Park, the district gathering here.

The boys have already drawn their sides in the debate and speaking order as well. The subject will be the single tax and those who have heard the boys debate state they show remarkable understanding of the question, which is rather complex. The public is cordially invited to attend the Thursday debate.

## FIRE DEPARTMENT SAVES DWELLING

Good Work Prevents Destruction of House Occupied by John Prince and T. O. Passin

After obtaining such headway as to apparently mark the structure for destruction, exceptionally fast work by the fire department saved the residence of J. O. Passin and John Prince, corner of Fifteenth and Burnett, with a loss to building and contents of about \$500 at about 1:30 this morning. The origin of the fire is still undetermined. Neither Mr. Prince or Mr. Passin, who are railroad men, or their families were at home at the time, and the alarm was turned in by neighbors after the flames had broken out on the outside of the building. The house was owned by J. T. Wills, and was insured for \$1000 with loss amounting to about \$500. One room was completely destroyed and another partially wrecked. Loss on contents is placed at about \$350. Whether the contents were insured or not could not be learned.

Another call from the residence of Miss Maud Stonecipher at 1208 Burnett where a pile of trash on the back porch caught fire was answered by the department soon after 8 o'clock this morning but the fire had been extinguished by school boys before the arrival of the department, the loss being about \$20.

## RUTH STONEHOUSE STARRED AT GEM TODAY

"Love Affairs" will be the feature at the Gem Wednesday. In several of the scenes in Director Raymond Wells' universal production of "Love Affairs" Charlie, the big elephant of the film city, plays an important role. On the day the scenes were being photographed Charlie was in a peevish humor, and he seemed to take particular delight in knocking over sets, tearing up trees and throwing clouds of dirt in the air. For some unaccountable reason, he seemed to take a sudden dislike to Ruth Stonehouse, who is starred in the production, and when the dainty little actress appeared on the scene, laid in

## ARCHER COUNTY PRECINCT WILL VOTE ON ROAD TAX

An election will be held in Archer county's Precinct No. 4 in Archer county next Saturday to determine whether a special road tax of 15 cents on the \$100.00 valuation will be levied. It is said there is every prospect that the tax will be voted.

ITALIANS PREPARE FOR LITERACY TEST

Study of English Has Already Begun By Those Intending to Come After War

Associated Press Staff Correspondent's remarks which Americans in Italy the United States immigration laws which is to take effect May 1, has already resulted in the stimulation of the study of English among Italians who expect to emigrate to America when the war is over.

ties of many Italians have written home from America telling of opportunities that are more certain than ever and urging them to come when the war is over without waiting to discover whether Europe is or is not going to recover from the setback given by the war.

An interesting phase of immigration possibilities is the belief expressed in some quarters that many of the hitherto well-to-do Italians of the educated classes who have suffered by the war may go to America to reap their fortunes.

While Italy furnished the largest number of emigrants to the United States before the war of any single nation, for the fiscal year ending June 30, 1914, the number being 283,738 as compared to 278,152 from Austria-Hungary, the Italian government favors rather than objects to the new literacy test.

When the news of the passing of the new law over, President Wilson's veto was printed in Italy, the newspapers at once editorially stated that the law would help rather than injure Italy. These newspapers gave two reasons for this position. One reason was that the law would force Italians to educate themselves. The second was that Italy hoped in the future to export the manufactured products of labor rather than labor itself, and thereby increase the wealth of the nation.

A REAL STOCK OF REAL TEAS We have now in our house what we firmly believe to be the finest selection of new crop Teas ever brought to Texas, if not the entire South. We have Young Hysons, Gun Powder, Basket Fired Japans, Ceylons, Orange Pekoe, Indias, Congos, Foo-chóos, Koo Loos, English Breakfast, Monning and Foor-mosa Oolongs. Among them are some of the very finest Teas that reached the shores of America this season. We sell them straight or blend them to meet all local tastes and conditions. At the present time good Teas are very scarce and it is questionable if there will be any relief until after the war. Many of the Teas we have in stock we could not replace at any price. Last week the British government made the largest purchase of Tea ever made in the world's history—as Tea is a necessity in the British army. It might pay you to anticipate your season's requirements. WE ROAST COFFEE EVERY DAY. BERT BEAN COFFEE HOUSE 824 Indiana Ave Telephone 35
