FAVOR EARLY SENDING OF TROOPS TO FRANCE Administration Known to Hold This View--No Action Taken Yet

BY Associated Press. Washington, May 1.—President Wilson and his cabinet held a brief session today and while the subject of sending American troops to France at an early date was not discussed formally, it became known definitely that the prevailing view among administration officials is that a force should be sent as soon as possible.

39 APPLICANTS ARE CERTIFIED HERE FOR CAMP

CAPTAIN GASTON PUTS IN BUSY DAY WITH THOSE WHO WISH TO GO TO TRAINING SCHOOL AT LEON SPRINGS NEXT WEEK.

TO-ELIMINATE SOME

Expected Overflow Will Necessitate Dropping of Younger Applicants. Some Wichitans Who Apply Fail to Obtain Certificates.

Twenty-eight additional applicants for the Reserve Officers' Training Camp at Leon Springs were certified by Captain Jesse Gaston, 39th Infantry, yesterday afternoon and last night, making 39 in all certified from this place.

Those certified in addition to the eleven accepted yesterday morning were: Clarence L. Moore, Ernest H. Brown, Ross Schleigh, E. L. Fulton, Albert McDowell, C. J. Smart, Charles H. Nolan, B. D. Sartin, C. M. Anding, James A. Manhan, P. A. Martin, Jr., F. H. Barnard, George A. Smoot, E. E. Clayton, John L. Kelley, E. H. Morter, Jack E. Kelley, H. Nicholson, George A. Smith, Robert H. Richardson, Jas. C. Bradshaw, John C. Boyd, A. P. Hardix, Scott J. King, J. J. Wandside, John T. Sutherland, J. B. Rhea, M. E. Hill.

Captain Gaston made it plain to the applicants, however, that the examination was not final, for on account of the rush of applications it might be found that the camp at Leon Springs would not accommodate all those accepted and some would possibly be left out. Then men are to be graded on their age and education, principally, and some barely within the age limit may be crowded out.

The certificates given by Captain Gaston, however, unless the applicant is sooner notified to the contrary, are final and will admit applicants to the training camp.

To those going to the camp, Captain Gaston advised that they take as little as possible with them. He advised against taking a trunk. The clothes worn to the camp are all that is necessary to be taken. The camp will be provided at the camp. He advised wearing caps to the camp, as they could be stored with a minimum of space. A few extra suits of underwear, towels, both bath and face, a few extra pairs of socks and toilet articles, with a sewing kit, are all that he advised taking.

Those whose certificates were not made out by Captain Gaston before leaving here will receive them in the mail. The applications and certificates accompanying same will also be mailed back.

Captain Gaston, who left for his headquarters at Sherman this morning, expects to make Wichita Falls another visit by about Saturday, "unless sooner notified to discontinue recruiting for the camp."

A number were turned down yesterday on account of insufficient education. Captain Gaston put in a busy day, from eight o'clock in the morning until after nine o'clock last night, barely having time to snatch a bite of lunch late in the afternoon, and having no opportunity to eat dinner until after he closed up last night. In point of numbers accepted, he stated that yesterday was his biggest day yet.

Before leaving Captain Gaston reiterated his request that citizens be careful in giving letters of recommendation, and be sure that they are given where they are deserved. The carelessness with which some citizens give letters he illustrated by recounting how a citizen of another town he had recently visited, when approached by a party who just wanted to see whether he could get a letter or not, signed a letter, mentioning a "shortening of the route to Tipperary."

5,000,000 Corns Lifted Right Off!

Try 2 Drops of Magic "Gets-It."

There's a wonderful difference between getting rid of a corn and the way they used to try to get rid of it only four or five years ago. "Gets-It" is the only corn remedy history. It's the only corn remedy.

Just 2 Drops of "Gets-It" Now Tomorrow You'll Just Feel Corn Right Off - and It's Gone!

Today that acts on the new principle, not only of shriveling up the corn, but of loosening the corn off - so loose that you can lift it right off with your fingers. Put 2 drops of "Gets-It" on that corn or callus tonight. That's all. The corn is done for. It's gone. No pain, no trouble, or soreness. You do away once and for all with toe-binding bandages, toe-eating salves and irresponsible "hot-nots." Try it - get surprised and lose a corn. "Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Wichita Falls and recommended as the world's best corn remedy by Palace Drug Store, Mack Taylor's Drug Store, Miller's Drug Store.

DEMONSTRATION OF BOYS' CLUB ELECTS LITTLE FOLKS WORK OFFICERS FOR YEAR

Miss Kildoo's Kindergarten Class Entertains Parents With Pleasing Exhibition.

Mothers whose little folks are kindergartners in the classes of Miss Isabel Kildoo at the Alamo school were guests of their sons and daughters yesterday at a demonstration of the year's work of the classes. Miss Kildoo had arranged this demonstration to show what had been accomplished during the term and the methods used and her program was very successfully carried out by the children.

The regular routine of class was gone through with, beginning with the morning circle, a number of finger plays and the kindergarten songs in season. Then some of the older ones read and all engaged in the interesting occupation plays. The room was decorated with cut-outs made by the children, sun bonnet babies, baby chickens cut out so as to stand up and make a regular flock of yellow chicks in the mail window ledges, gay red and yellow tulips in pots, also made to stand, and many other childish works of art. The books which were made by the children, containing samples of the various kinds of work were given the mothers as souvenirs.

Eight of the primary students will be ready for the second grade next year from Miss Kildoo's class, and these children will start second grade work with a good reading, writing, spelling and number work foundation. Reading is taught by rhyming charts with use of the phonics and the most scientific methods of teaching the other fundamentals have been employed by Miss Kildoo.

The children taking part in the Monday demonstration were: Russell Campbell, Robert Gohlke, J. W. Turner, Duncan Perkins, Jim Barcus, John Prescott, Stanley Wilcox, Jimmy Myltinger, Kemp Maer, James Martin, Arthur Craig, Kenneth Rundell, Melbourne McAlister, Clarice Bitman, Mary Clark, Clara Carter, Thelma Fisher, Mary Crosby, Joseph Charles Morris, Alford Jack Pitman, Camille Avila, Robbie Kemp, Howard Knotts, Fred Cooper, Edna Ray Reynolds, Sybil Wilber, Eula Mae Smith and Robert Taylor.

Miss Kildoo has a distinctive method of teaching kindergarten work, having combined principles of the Montessori and Froebel methods with her own methods. She has very much to offer in her experience with children and in every case adapting them to the individual in Wichita Falls as in other places, she has been highly successful and it was with regret that the mothers heard that she will not have the kindergarten work next year.

Miss Kildoo made the announcement Monday that Mrs. J. T. Rundell, wife of the principal of the Alamo school, will complete the year's work as she will leave the latter part of this week to visit points of education in the south before going to Cambridge, Mass., to attend the Harvard Summer School. Miss Kildoo is interested in special classes for the education of backward and mentally deficient children and has made thorough study of the Binet-Simon tests for defectives in addition to having had practical experience in testing children in handling special classes. This year an emphasis is placed in kindergarten work in the Wichita Falls schools more as a relaxation than anything else. Coming from the north and east mainly and welcomed this opportunity to visit the south and study the children and the methods which are suited to the Southern temperament.

Special classes for backward and mentally deficient children at Houston have engaged her attention and she will visit there for some time before going to Harvard. She is very much pleased with the schools of Wichita Falls, she says, and has found the year's work to be most pleasant. According to Miss Kildoo the Wichita Falls schools have a splendid future and are growing along all lines. Miss Kildoo also gives Mrs. Rundell, who will take her place for the remainder of the school term, a splendid recommendation stating that she has assisted her and that she has found her interested in the work and a careful and patient student. She has studied the systems of Froebel and Dr. Montessori and has had practical experience in having two children of her own as well as in having conducted class room work. She intends to study at the Baylor summer school in the close of the school year here.

EXTRA TEN PER CENT FOR CITY NATIONALS EMPLOYEES To help them meet the higher cost of living, employees of the City National Bank received an additional ten per cent on their April salaries when the monthly checks were given out yesterday. C. W. Snider, cashier, said this was done on account of the upward trend in prices of nearly all necessities. The bonus, needless to state, was heartily appreciated by the recipients.

Andrew Urban Chosen President - Last Monday of Year Next Monday Night.

Andrew Urban, junior, prominent in athletics, literary societies, and one of the leaders of his class and of the Boys' Club, will be president of the Boys' Club next year, having this honor conferred upon him at the annual election of officers held Monday night. Abe Bashara, who has been a student in the high school only this year, but who in that short time has made himself an important factor in every phase of the school life, was elected vice-president. The other officers are and known as especially good students, these being: Walter Bachman, secretary; Paul Rutledge, treasurer, and Donald Ross, sergeant at arms.

The meeting Monday was unusually interesting. Following the election the newly-elected officials were called on for extemporaneous talks, and all responded. Abe Bashara read a paper on "The Advantage of Athletics in the High School," which was much enjoyed, and Joe Bailey Lowery told some amusing stories. The attendance was good.

Next Monday the last meeting of the club for this year will be held. Each member of the club will be called on for a talk, not over five minutes in length, and a musical program will be given.

PLAN ORGANIZATION OF BASEBALL TEAM

Organization of a baseball team to represent Wichita Falls in Sunday games with teams in this section is now under way. The team was formed several weeks ago, but some additional players are desired. Anyone wishing to join may see Joe Henson at Collier & Hendricks.

The team played at Electra Sunday and drew the lottiest end of a 5 to 0 score, failing to reach the Electra slabsman for as much as one little single. The plays of the team at the Park Tuesdays and Thursdays, for practice games.

Organization of a city league is also probable, there being enough material available for several teams.

NEW PRESBYTERIAN PASTOR DUE SOON

Rev. L. J. Sherrill to Arrive Saturday to Take Charge of Central Church.

Rev. L. J. Sherrill will arrive Saturday to take charge of the pastorate of the Central Presbyterian Church, having accepted the call to this church. Mr. Sherrill is now in Louisville, Ky., where he has just completed his theological course in a Presbyterian seminary. He is also a graduate of the theological department of Austin College, Sherman, and is a Texan, his home being at Haskell. This is his first charge. He is unmarried.

The Central Presbyterian Church has been without a pastor for more than a year. Rev. Fred McFadden, the former minister, having resigned to accept a pastorate at Denton. During this time services have been held by the laymen at intervals, but the congregation are very anxious to have regular services and a pastor once more. The regular services will be held next Sunday.

CONCRETE BRIDGE APPEARS UNLIKELY

All Bids So High That Commissioners Court Has to Call for New Ones

By means of a simple little problem in arithmetic the county commissioners this morning were able to decide that there will be no concrete bridge across the Wichita River at the foot of Burnett street. The problem is one of subtraction, the impossibility of taking \$129,000 from \$80,000 marking the failure of effort to have a concrete structure built.

The lowest bid for three iron structures was \$29,354 each, or something over \$90,000 for the total. As this is also in excess of the amount available, the court cannot award even that contract at present.

The bids opened today were submitted on plans prepared by M. M. Cooke, special engineer. As a result of their being too high, the court decided to let the contractors bid upon their own plans. These plans and bids will be submitted May 14 and will be opened May 19. It is thought that by permitting the bridge-builders to bid upon their own designs and specifications, bids within the limit of \$80,000 can be secured.

Most of the bids received today were far in excess of the amount available. They follow:

Missouri Valley Bridge & Iron company, concrete bridge, \$80,652; two iron bridges, \$31,487 and \$33,120; total \$144,159.

Omaha Structural Steel Bridge company—concrete bridge, \$71,400; others \$28,790; total \$100,190.

Union Bridge & Construction company for concrete bridge and two iron structures \$129,840; this company bid \$29,354 on each of the two iron bridges.

Kansas City Bridge company—\$68,000 for concrete bridge, \$73,000 for iron bridges, total \$141,000.

Austin Brothers—\$143,000 for all three \$62,960 for two iron bridges.

Virginia Bridge & Iron company—\$131,622 for all three, \$58,811 for two iron bridges.

The commissioners awarded the electrical fixtures contract for the new court house to Albert Sechis & Company of Denver, for \$3600, this bid being considered the most satisfactory of the seven submitted.

Washington, April 30.—Assurances have been received by the Federal reserve board from scores of state banks and trust companies throughout the country that they will enter the Federal reserve system upon the passage of amendments broadening the scope of the law now before Congress.

45 PER CENT GAIN LAST MONTH AT POSTOFFICE

Last month was the second biggest month in the history of the local postoffice, the receipts being \$7,213.40. The month of December, 1916, when the receipts were \$7,500, is the only single month that ever passed this in the number of receipts.

With April of last year showing \$4,967.77 in receipts, the gain in favor of April of this year is \$2,245.63, or 45 per cent plus.

In case the present rate of gain is maintained throughout the year, the present year will surpass all previous years, both in point of receipts and in the rate of gain.

DO NOT BELIEVE BRITISH WILL ATTACK JERUSALEM

Associated Press Mail Correspondence. Cairo, Egypt.—Military men here do not believe the British forces now in Palestine will attempt any immediate advance towards Jerusalem. The Holy City, they say, is for the present a secondary consideration. It is considered unlikely that the capture of Jerusalem will be attempted until all the coast region of Palestine is secured, which may take some time in the conditions of modern warfare.

The strength of Jerusalem for defense is very great. This is not due to her ancient walls and towers, nor to the trenches which the Turks have dug roundabout, but to the fact that the city lies about 2,400 feet above sea level, encircled by rugged mountains, while the few passes are in deep valleys, capable of easy defense. It was these conditions of natural strength that enabled the kingdom of Judah to outlive that of Israel by considerably more than a century, that made possible the success of the Jewish uprising against the Greco-Syrians, and two centuries later, prolonged the resistance of the Jews against the Romans.

Against any army advancing from Egypt, Jerusalem is secured by southern frontiers, the sea and the wilderness, while no attack is possible from the north until the Plain of Esdraelon is secured. The western frontier presents a long wall of mountain. Southwest, the newly made military road running to Beersheba would present a long line of very difficult advance. The pass up the Valleys Es Saut and Es Sur, through which Antiochus V. made a successful attack with camels and elephants in 163 B. C. would only be suitable for mountain guns, and could hardly be used for the main attack. The direct routes are by way of the railway through the valley of Sorek, a long winding way through a deep gorge very easily defended, and the more open, but still difficult highroad a little farther north. Probably the chances to both these valleys are well fortified.

The difficulties are so great that it is believed a modern military expedition would, as has occurred several times in history, leave Jerusalem itself as the last aim of the campaign. If the approaches on every side are captured, the city itself must fall; in all probability the Turkish army would hasten to extricate itself before the last avenue was closed. The fate of Jerusalem has several times before been settled in the plains.

The British forces have selected the finest season of the year for their entrance into the Holy Land. In April the country is at its best climatically. The fields of Philistia are green with young corn, affording abundant fodder for horses and camels; the ground has hardened since the winter's rains, and fresh breezes and occasional showers mitigate the heat. The malaria, which makes camping dangerous in the plains during the summer and autumn, is now of a mild type, and can usually be avoided. North of Gaza, there should be no lack of water or provender for the army.

COTTON HARVESTER TEST SATISFACTORY

Demonstration of Patterson Invention Is Given and Proves Very Encouraging.

After several months' work, during which a number of improvements were made on the machine, the cotton harvester machine invented by W. A. Patterson performed in a manner highly encouraging to those interested in the machine at a demonstration given yesterday to A. Kemp and associates interested in the machine.

Another demonstration will be given today. The machine will be put in the cotton field this fall, and thoroughly tested out under actual conditions in the field.

Member of "Tank" Crew Gives Account of Morning's Work

Associated Press Mail Correspondence.

London.—The first account of fight from the inside of a British "tank" is contained in a letter just received by the censor, from Sergeant P. E. Davall, a Canadian, who has been attached to one of the "tank" companies since the given year's first sent to the French front. He says:

"The order to advance is given. Steadily the long, powerful shapes move forward in the gray mist of dawn. As the weird-looking forms travel over the front trench, the troops therein rub their eyes in wonder at the strange cube-shaped objects, coats of many colors which the tanks are wearing. Inside the tanks are the keen-eyed fighting men, strangely taciturn, as become their strange craft while around them is a complicated mass of machinery.

"Now we are passing over shell-holes, tree-stumps, and many other things, which form a ground of 'No Man's Land.' The deck of the 'tank' rolls and pitches like a torpedo-boat in a storm. The crew hold on to anything which is ready to steady ourselves while we rush down a large shell-hole. But we come safely through without seasickness.

"Suddenly the gunnery officer gives the order 'To Action.' His voice is only just heard above the noise of the whirling machinery. A few sighting shots, and we have found the range. We succeed in putting out two machine gun emplacements, the guns of which have been worrying our infantry for some time. And now the tanks begin to advance. Hun bullets are rebounding from our tough sides like hail from a glass roof, while inside the tanks the whole crew are at various guns, which break forth in devastating fire, under which nothing can live.

"And now we are on the parapet of the first Hun trench, just on the outskirts of the wood. We are on the offensive and as we go to bumping on to the other side we land with a terrific boom. A can of petroleum has slipped from its pigeon-hole, and come clattering down on the armored deck, with its stopper shaken out, and the dangerous spirit running over the floor. However, we enfiladed that trench, followed up the retreating Hunns for a minute or two, cleared out the nearest dugout, and went on our way to the next trench.

"It is this time the flames from the hundreds of rounds which we fired, with the heat from the engines and the waste petrol and oil, have made the air quite oppressive and uncomfortable to breathe. Now we are nearing the next enemy trench and we hear the deep report of bursting bombs above the patter of the storm of bullets, striking our armor. "Soon we find ourselves on the edge of the Hun trench. This proves to be composed of shell-holes of all sizes, just laced together, showing how severe our previous bombardment had been. The Hunns show fight

WORK STARTED ON WESTLAND ADDITION

Will Be Increased to Seven Stories in Height—Early Completion Planned.

One important Wichita Falls improvement will not be halted by the war; work is under way upon the addition to the Westland hotel, which will add two stories to that structure and make it seven stories in height. The necessary material has been assembled, and yesterday erection of the scaffolding began. It is hoped to complete the work by mid-summer.

The work is under the supervision of Ortopp & Ortopp, formerly of this city, now of Dallas. It is being done by day labor.

The addition will give Wichita Falls her first seven-story structure; the Westland was this city's first five-story building.

here, and we have a warm ten minutes before they give signs of retreating. We leave them for a minute or two in order to run a machine-gun emplacement, which is still threatening our rapidly advancing infantry. We just crawl over the embankment, guns and all; it is not necessary to fire a single shot.

"Now it is time for us to advance to the next and last position. We have the good fortune to strike a road which has escaped serious damage, and, breaking all speed records along this we make up to the Hunns who have escaped from the last trench. But they have had enough of the all-devouring monster, and are ready to throw down their arms and make their way to our infantry, glad to be prisoners.

"The last trench proves to be the worst for just as we are crossing a large hole our bus stops. Two or three Hunns, seeking our difficulty, crawl out of a hole like rabbits, and are brave enough to creep on the back of the tank from behind. But we hear them on the armor and they are doomed not to get the iron cross, for we open a small trap-door and shoot them with a revolver. Of course we had seen them before they had tried to work their way up, and the chameleon was giving us a little change of occupation just then, we did not trouble about them.

"At last the old bus is going strong again. Only just in time, for a large lyddite-bomb bursts against the armored jacket of my gun. The force hurled me back, the port-hole, blinding me for a minute or so, while small splinters strike my face. But my gun is still untouched, thanks to the armored plate, and, somehow, I succeed to work much better. And now I catch some Hunns retreating along a trench almost in line with a burst of fire. The Germans now are scattered in small parties. It is almost like playing at hide-and-seek as we travel backward—and forward along that trench. After a few short runs we find no more Hunns to hunt.

Verdun Looks Calm and Peaceful After Her Bloody Ordeal

Associated Press Mail Correspondence. Verdun.—The visitor to Verdun must approach it stealthily, clad in steel helmet and carrying carefully his gasmask in his waterproof bag. Eyes tortured and with his eye watchful for any commencement of activity by the distant German batteries, he may walk and climb along the ruins of the lovely Meuse, broad, green, calm, and indifferent to solitude such as it has not known for a thousand years.

The rain drips through the shell-torn roof of the Cathedral, pulping the choir-accuses and the missals tossed with the fallen masonry about the floors, making mud of the other's dust, rotting the canvas of the fallen pictures, rendering all things squalid.

Close by is the theatre, with its brooding, grimacing, and revealing through the uncertain stage all the shabby mysteries of its mechanism, all in wild confusion.

Visitors are rare in Verdun, but the towns holds out to them emphatically the freedom of the city, every door and window open and no human eye to watch. Along the river banks are the little restaurants and cafes, the floors strewn with cups and saucers, glasses ranged on the counters, the rest of Verdun stands with a specious look of being hale and habitable, only with the jagged outlines of a broken gable showing here and there.

Tramcars used to run down the Avenue de la Gare from the railroad station; cabs piled for hire; folk lounged in the afternoon on the promenade de la Digue. No life is in any of these places now save the rat that squeaks and burrows in the ruins when another shell comes with its

hill, above the narrow winding streets of the upper town one may look down on the worst-sheltered central parts, all pounded into shapelessness, the finest street obliterated, workshop, warehouse and tenement all reduced to crumbled brick and mortar of yellowish hue. Outside this devastated area, the rest of Verdun stands with a specious look of being hale and habitable, only with the jagged outlines of a broken gable showing here and there.

Tramcars used to run down the Avenue de la Gare from the railroad station; cabs piled for hire; folk lounged in the afternoon on the promenade de la Digue. No life is in any of these places now save the rat that squeaks and burrows in the ruins when another shell comes with its

commotion, for verdun is still the object of the Germans' daily hate. "There is nobody above the surface of the ground in Verdun, but the subterranean fortresses beneath the Citadel, deep down under mountain rock, are still animate with men, soldiers who are keeping up the defensive that months of German activity failed to break.

BRAZIL'S CONGRESS WILL CONVENE ON MAY 3
By Associated Press. Rio Janeiro, April 30.—The decision as to whether Brazil will follow up her breach of relations with Germany by a declaration of war will be made by the Brazilian congress when it convenes May 3. The administration has decided that it has fulfilled its duty in decreeing a diplomatic rupture and that further action lies in the province of the congress.

ESTABLISHED 1884

A True Patriot Stands Behind The "Federal Reserve" Now

The "Federal Reserve" will protect the Nation's finances in the most trying cases. While the "Federal Reserve" is not a war fund it is a "Home Guard" of finance that safeguards the interests of every community in war or peace.

The true patriot places his money where it is a support to Wichita Falls and to every community where Wichita Falls sells the products of its industries.

The strength of the Federal Reserve System is figured in billions; those billions in reserve are made possible thru the support of member banks like the First National Bank.

When you place your funds in this National Bank you not only receive Federal Reserve protection but give your support in turn to one of the most important arms of the Government.

Can Uncle Sam count on you? This National Bank is open for your account. Make a deposit.

Wolters' Views Upon Present Crisis; Legislature Hears German-American

Special to The Times. The views of the German-American citizens of Texas have been known to the legislature...

Mr. Wolters said: "I would be less than human if I did not feel the honor that has been conferred upon me by the invitation from the Senate and the House, severally extended, to address them upon this occasion."

However, far more gratifying to me than any little personal vanity could be is the evidence of the fact that in Texas all Americans realize, as demonstrated by this incident, that the time has come when we must forget that we differ upon political matters; that we differ in religious creeds; that we are made up of different racial extractions, and realize and understand that we are all Americans owing allegiance to but one flag, and that the flag of the American fathers, the Stars and Stripes, is the symbol of our government, and we hope and pray the inspiration that is yet to follow to countless millions throughout the world to establish for themselves free and independent government.

"I am impressed frequently in my visits over the State, meeting thousands of people gathered in loyal patriotic and mass meetings, with the thought that the great body of the American people are prone to be optimistic upon all occasions, and that it is difficult to get them in sympathy with the seriousness of any occasion."

"I want therefore at the outset to say to you representative men of the State of Texas, that the probability of our imperial state, that we had as well understand, and better now than later, that there is ahead of us a serious and an earnest contest. Let no man for a fleeting moment delude that the great war which has raged for more than two years will be ended within a short time."

"Of course, I am no prophet; no man may prophesy when it may end, but it is not within the realm of probability that this war will end for years to come, for you must understand that we are arrayed against a mighty power that has made organization and efficiency in every line of endeavor to fetch next to its religion. Nor that while they have been engaged in the conservation of their products, products of the soil and of the mill, they have not forgotten the biblical injunction to marry and multiply, for the German fathers and mothers have seen to it that their progeny should be increased as fast as possible, and that this year there will come within the German empire more than 1,000,000 children of 17 and 18, ready to go to war."

"There are yet millions of that character of boys behind them, while our allies—the French—have almost placed the last man behind the trenches, and of Russia, and Italy are very thin."

"We must also understand that the resources of England, and of France, and of Russia, and of Italy are very much depleted, and that this nation is the place to which they must now look for sustenance and supplies. The struggle that is ahead of us is not of immediate end, but one that will take time to conclude successfully, and one that will change the world not only of our government but that also of the lives of American people."

"It may not be inappropriate, even before an audience of this nature, to disclose briefly the causes that have led up into the state of war, not with the people of Germany, but with the imperial government that assumes to be the voice of the people, but by the unwarranted assertion of the divine right."

"It has been from the beginning of this republic a cardinal principle closely adhered to that these are an open highway which the nations of the world may use without restriction from any power on earth, subject only to the rules of international law and thoroughly established and recognized by all civilized nations. Thus we found ourselves as far as the war with Great Britain, not because Great Britain undertook to stop our ships upon the high seas while it was engaged in war with France, and take contraband therefrom, but because she had no right to do so."

"The championship trophies won by the Wichita Falls high school boys in the recent district interscholastic meet are now on display at Mack Taylor's drug store. The permanent trophy, a brass clock, was won by the team on black walnut, is the work of E. J. Cooney, head of the manual training department of the local high school. Some time ago Mr. Cooney decided to make this trophy to go to the winners and designed and executed the very attractive trophy and it is a matter of special pride to the local athletes that they were able to keep it at home."

"The loving cup, which must be held three successive years by a school to become its property, has been in the possession of Bowie for two years. The local athletes say now that it is with them to stay."

MANY FILMS REJECTED BY BRITISH CENSORS

London, May 1.—The British Board of Film Censors has rejected 100 out of 1,300 films submitted to them for inspection. Among the films rejected for objection are the following:

"Impersonation of the king; scenes holding up the king's uniform to contempt."

"Incidents tending to disparage England's allies or to disturb friendly relations with them."

"Propaganda films of German origin; incidents calculated to afford information to the enemy; scenes depicting too realistic horrors of warfare."

"Irreverent treatment of death; mutilation of the conventional figure of Christ."

"References to controversial or international politics; scenes tending to disparage public characters; and to create public alarm; antagonistic relations of capital and labor."

"Nude figures; scenes purporting to illustrate 'night life'; vampire motifs; the drug habit; white slave traffic; excessively passionate love scenes."

VERDICT FOR \$9229 FOR PLAINTIFFS IS SUSTAINED

A copy of the opinion of the Amarillo court of appeals just received by Fred Weeks, attorney for plaintiffs, in the case of W. J. Johnson et al. vs. Due Millsaps, contains an affirmation of the verdict of the jury, giving the plaintiffs \$9,229. The suit grew out of the transfer of stock from the McGrattan-Millsaps stock in the formation of the P. H. McGrattan & P. H. Pennington Dry Goods company here, the plaintiffs alleging that the stock transferred to these concerns by Millsaps for stock in those concerns had been undervalued by him.

WANT LARGE DELEGATION

The importance of a supporting delegation at each meeting was emphasized by Judge Seury, who pointed out that while some in a crowd might be opposed to a proposition being urged by a speaker, he could not be reached except by someone in the crowd who would have the opportunity of talking the proposition over with him individually. Judge Seury also pointed out the necessity of showing the voters the importance of bringing in this money from the outside to tide over the spell of stringency which must follow a short crop.

Simple But Effective Means of Killing Flies

Some simple but effective means of combating flies are given in an article from the (American) Flycatcher, which H. J. Hunt has furnished. The Times, it follows: The Merchants' Association through its committee on pollution, is leading a vigorous attack upon the winter house fly. It is urging the destruction of the fly wherever it can be found, pointing out that a dead fly now means a reduction of billions in next summer's crop.

GIVES BAD CHECK TO PAY BAD CHECKS

One Wichitan Has Rather Unsuccessful Plan for Relieving Stringency. One Wichitan, according to Deputy Sheriff Jernigan and Lassiter, who arrested him on a charge of swindling by check, thinks that all a man has to do in a case of financial stringency is to draw a check. According to the officers he recently went into a local bar and cashed two checks, the amount of both aggregating \$12,000. When the checks came back with a note that no funds were in the bank to take them up, the proprietors of the bar at once sought out the swindler and demanded that he make the checks good. He gave another check for \$12,000 to take up the other two. When that came back from the bank unpaid, a complaint was sworn out and an arrest made. As he was being taken to jail, the prisoner borrowed Deputy Jernigan's pencil and was in the process of writing out another check to redeem the others and pay the costs in the case, when a halt was called by the officers.

FREE OF CHARGE

Any adult suffering from cough, cold or bronchitis, is invited to call at the drug store of Mack Taylor and get absolutely free, as a courtesy, a bottle of Boschee's German Syrup, a soothing and healing remedy for all lung troubles, which has a successful record of fifty years. Gives the patient a good night's rest, free from coughing, with free expectoration in the morning. Regular sizes, 25 and 75 cents. For sale in all civilized countries.

Market Report

BE READY FOR THE COLLECTOR

Receiving Want Ads by telephone is the final detail in making the Times Want Columns promptly and perfectly useful to the readers.

Telephone Ads cost no more, in money—and less in time—but the Times must employ collectors to follow the phone.

The extra accommodation of receiving by phone should be encouraged by always being ready for the collector.

DON'T LET HIM CALL THE SECOND TIME. If you have a room to rent, a house to rent, a farm for sale, or if you want to buy an article, whether new or second-hand, you should use the Times Want Ad Columns daily.

RATES—Want ads are one cent a word for the first insertion and half a cent a word for subsequent successive insertions. No want ad taken for less than fifteen cents and no ad taken to run three times for less than 25 cents. In giving in Want Ads PHONE 167.

"COYOTE" TO BENEFIT BY SALE OF "CHICK" TICKETS

"The Coyote" the high school annual publication now in the hands of the printers, will benefit from the ticket sales for the Knights and Ladies of Security play, "Chick" to be presented at the Wichita Theater Friday night. The high school students are to sell tickets.

Rehearsals for "Chick" have been held at frequent intervals since the production was first undertaken, and now the cast is declared quite ready to put on a most creditable performance. by the director, J. Waldron Hart. Those who will take part include: Misses Goldie Williams, Leah Frantz, Ida Chesnut and Alice Norrie. Messrs. William Whittemore, Ben B. Murphy, W. T. Beckham, John Van Meter, Robert Mathis, Charles Williams, J. W. Hardy, Walter Miller and A. W. Bursing.

HORSE RACING IN ENGLAND TO BE PRACTICALLY CUT OUT

By Associated Press. London, April 30.—The Times says that horse racing in England is to be cut to the narrowest limits with a view to saving feedstuffs now diverted to the racing stables. The proposed restrictions amount to virtual suspension of racing for the period of the war.

Women's Suffrage Is Adopted in Russia With Little Fuss

Associated Press Mail Correspondence. Petrograd.—Woman's suffrage has come quietly and unostentatiously to Russia. The Provisional Government has not yet officially announced its full views on the subject, but individual ministers have stated it is decided that women will vote at both the municipal and rural councils elections and also in the elections for the General Constituent assembly.

Universal suffrage for women will be a curious and interesting experiment in Russia. From the mass of peasant women fully intelligent voting can scarcely be expected as prevalent, but no doubt for them education will be a highly stimulating and educative opportunity. The men voters do not expect that women of this class will vote independently, and say therefore that their participation will only slightly affect the result.

The attitude of the average peasant to his women folk is still, on the whole, contemptuous, but sometimes a capable woman rules a whole village, and it is a well-known fact that in certain religious sects the women are the leaders.

In Petrograd there have been several women's suffrage demonstrations since the revolution, with speeches in the City Hall and processions with red flags. They have been militant but rather educational demonstrations reminders to the women themselves to be up and doing, and a reproach to those men who, while not so ready objecting to woman's suffrage, wish it were not coming so soon.

Educational facilities to women in both the secondary and university schools were granted in Russia long before most other European countries. For years past, too, women have had rather greater liberty of thought and action than men, and while there has been no very strong or organized suffrage movement, women have been directly engaged in public work by the side of the men, and it seemed to nobody no great step from the position they thus enjoyed to the actual vote.

When the revolution came, every one joined in, women as well as men. Women who had been urging or studying or writing or working in relief societies or cooperative stores or munition factories, or simply house-keeping, came forward and took their places naturally in the many-sided movement. Women were prominent in the great processions which were reluctantly fired on by the soldiers. Women workers and girl students marched with soldiers and workmen, and took revolutionary, red-flagged rides in the commandeered automobiles.

Women leaders came to Duma with information and advice, established connections and helped to gather up the loose ends of the chaotic movement. Women and girls crowded in to the Duma with the throng of soldiers and workmen, radiated out into the myriad committees, distributed food, operated typewriters, and found for themselves suitable places in the general organization. Young women were chosen frequently as speakers at the impromptu mass meetings where orators of the people harangued the crowds at street corners.

A woman's organization, organized in the town with this urging equal recognition of the sexes.

A woman writer was placed at the head of the organization of temporary soup kitchens, opened for the soldiers during the revolutionary week. The City Council elected to its permanent committee several women, including Madame Schell, and Countess Pavin. There were meetings specially organized by women house servants, to urge an improvement in their working conditions, but, as nobody knew what to demand, nothing further happened. There have been continuous meetings of women at the Woman's University and Medical College, with stories conflicts between the moderates and the radicals and thousands of resolutions have been passed, declaring for equal suffrage, exemption of women from conscription of the war, and support of the Provisional Government.

Pupils in the various schools of Petrograd proposed the formation of a League of Pupils, to which each school was to send a proportional delegation. The principals vetoed the enterprise, and said if the delegates met they would resign. The school did meet; the organization was formed, and the principal did not resign.

THE BROTHERHOOD OF MAN.

The crest and crowning of all good, Life's final star, is Brotherhood; For it will bring again to earth the long-lost Poesy and Mirth; Will send new light on every face, A kindly power upon the race; And, till it come, we men are slaves, And travel downward to the dust of graves.

Come, clear the way, then, clear the way; Blind creeds and kings have had their day; Break the dead branches from the path; Our hope is in the aftermath— Our hope is in heroic men, Starred to build the world again. To this event the ages ran; Make way for Brotherhood—make way for man.

Edwin Markham.

EPISCOPAL GUILD PLANS CHRISTMAS BAZAAR

Plans for the Christmas bazaar were begun at the meeting of the Episcopal Guild Monday afternoon, the dates being fixed as Friday and Saturday, December 7 and 8. Other business was attended to in routine. Those present: Mesdames Pogenpohl

PLATTSBURG MADE WITH THE NEW REINFORCED EDGE.

MR. AND MRS. KEMP HONOR THE BLAIRS SATURDAY

Added to the list of hospitalities in honor of Mr. and Mrs. Wiley Blair is the entertainment at the home of Mr. and Mrs. J. A. Kemp Saturday night. There were eight tables, the guests being in various games, all of those being the more intimate friends of Mr. and Mrs. Blair. Two souvenirs were given, a silver watch to Mrs. Blair, the honoree, and the guest favor, a framed picture of President Wilson, was given by Judge R. E. Huff. Roses and carnations formed an effective floral decoration for the house. A daintily arranged two-course luncheon was served at a late hour.

GIRLS' AUXILIARY MEETS IN SOCIAL SESSION

Misses Ruth Barnard and Lela Mae Lawler entertained the Girls' Auxiliary, both A and B divisions, Monday afternoon at the First Baptist church. The girls played on the quilt and were entertained with readings by Miss Earle Carter. An ice cream was the refreshment of the evening. Monday the girls of the B division will entertain the A's at the church. The members present Monday were: Misses Hazel Miller, Lela Mae Lawler, Winnie Crawford, Earle Carter, Stella Smith, Lee Miller, Elizabeth Cole, Edna Mae Hoark, Willie Towery, Celestine McNamee, Ruth Barnard, Ida Crowe, Mrs. J. C. Muller and Mrs. C. W. Rountree, leaders.

REBEKAHS HOLD GOOD FIFTH MONDAY MEETING

One of the very best meetings in the history of the local Rebekahs was the Fifth Monday meeting held Monday evening in the I. O. O. F. hall. Initiation of candidates was the chief business, the degree staff doing excellent work. Mrs. Dale Brown and Mrs. A. L. Brubaker of Iowa Park, were visiting. Rebekahs to enjoy the initiation ceremonies and the social hour. Delicious refreshments were served at a late hour to forty members.

Those initiated Monday night were: Messrs and Mesdames R. C. Matthews, J. R. Ogle, R. L. Gaither, A. J. Johnson and Mr. Grimes. Others who were initiated at the next regular meeting are: Mr. and Mrs. E. N. James, Mr. and Mrs. R. C. Smith, Miss Grace Weaver, and Mrs. A. B. Price.

FIRST CHRISTIAN LADIES HOLD SOCIAL SESSION

The approach of Mothers' Day and of the birthday of the hostess, Mrs. L. T. Hyatt, suggested the theme of the devotional program of the First Christian Aid meeting Monday in social session at the home of Mrs. P. F. Lanford, with her mother, Mrs. Hyatt, as hostess. Mrs. Hamlin conducted the devotionals reading a chapter from Proverbs, then quoting a beautiful poem by the Rev. Mr. Miss Agnew sang "Mother O Mine." Mrs. Hyatt was presented with a large bouquet of flowers from the Aid Society as her birthday gift. The society had Dr. Cross, the pastor, with them and heard his plans for their aid to him in the pastorate. The usual humorous story was told and a splendid collection taken. The attendance was unusually good. Following the social hour delicious strawberry ice cream and cake was served.

APRIL FINES LIGHT; CASH COLLECTION HEAVY

While the amount of fines assessed last month was the lightest in years, running far below the average amount for the month the amount of cash collected for fines ran very near the average, making the rate of collection far higher than the average. Fines assessed amounted to \$292.75, while the cash collected amounted to \$294.50. The amount worked up in jail was \$41 and on the street \$44.50. The amount of suspensions last month was far lighter than usual, amounting to \$3. The released, escaped and fines uncollected were also light, being \$135.75.

At the Theaters

ROBERT WARWICK AT THE EMPRESS TODAY

"I'll give you everything you want—a nicely furnished apartment, pretty dresses and hats and a motor car," said Driscoll, the famous movie star, to Mary Baker, the romantic little country girl who had followed Driscoll to the motion picture studio. The girl said that she would accept the offer. Driscoll arranged a party for her in her apartment the first night she was to spend in her new quarters, and then—this is one of the dramatic climaxes in "A Girl's Folly," the latest World Picture, Brady Made, which with Robert Warwick and Doris Kenyon as the stars will be seen at the Empress Theater today. This play is a romance of the world of motion pictures. To say that it is unique and different is putting it mildly.

The Gem.

On today's program at the Gem as feature is "The Magpie," a Gold Seal three reel drama involving two girls, one a society maid, the other a clever crook, who resemble each other to a marked degree.

Edwin Stevens has produced a splendid three-reel picture, from the story by George Dana Smith, which was arranged for him by John G. Brownell. It is released as a Gold Seal with "The Magpie," the first actress who has been supporting Victor Mercereau in the bluebird photoplays made at the Fort Lee Universal Studios, under the direction of Mr. Stevens. In this case the director had an unusually good story to work with of which he took advantage, and the result is a fine achievement.

EMPRESS THEATER TODAY ROBERT WARWICK and DORIS KENYON IN "A GIRL'S FOLLY" This is the film unusual. It is also the film interesting. It is the film that will delight every fan who sees it. Tomorrow HOUSE PETERS and MYRTLE STEADMAN IN "AS MEN LOVE" This story, as may be gleaned from the title, has to do with the friendship of two men, which is torn asunder by a fickle woman.

MAJESTIC THEATRE TODAY CLARA KIMBALL YOUNG IN "LIFE WITHOUT A SOUL" ALSO FATTY ARBUCKLE HIS FIRST PARAMOUNT COMEDY IN TWO REELS "THE BUTCHER BOY" On account of the extreme additional cost to us to secure this excellent bill we are forced to advance the price to 10c and 15c—PRICES—10c and 15c MR. MACHLIN IN CHARGE OF THE MUSIC AT NIGHT. Tomorrow VIVIAN REED—BESSIE EYTON GEO. FAWCETT—AL FILSON A five part SELIG drama from the world famous book and play written by VIRGINIA BROOKS. "LITTLE LOST SISTER" Not only a strong love story woven in the warp and woof of a drama that every girl should see, but a vivid lesson dealing with a world-wide problem—What is the cause of girls from the best homes in our land becoming little lost sisters? How can this be prevented? and if not prevented how can they be re-claimed? It's a delicate subject, handled in a very intelligent way—will give no offense to the most fastidious, and yet the lesson of the play is of vital importance— 5c and 10c—Prices—5c and 10c

Maxwell Hardware Co. Everything for the Farmer, Mechanic, Builder and Housewife.

feather photoplay. "The Fighting Gringo" is known far and wide as a friend of every starving dog that appears in the neighborhood of Universal City, where the Red Feathers are made. The other day the actor was breakfasting at the Ranch restaurant of the film capital, when a mangy, thin and miserable looking cur brushed against him. "Hello, Tommie," said the actor "had your breakfast?" The dog looked at him and wagged his tail. "Bring my friend here a beef steak," said Carey. "When the check was brought to him it was seen that his own breakfast

amounted to only thirty cents, while the dog's cost sixty-five." "LITTLE LOST SISTER" AT MAJESTIC WEDNESDAY Wednesday at the Majestic the Selig Red Seal Play, "Little Lost Sister" will show. The Selig E. S. E. drama was pictured by Wilson Willets from Virginia Brooks' world-famous book and play. Among the star features are George Fawcett, Vivian Reed, Al W. Wilson, Bessie Eyton and others. Mothers take your daughters to see "Little Lost Sister." It presents the problem of centuries—but also presents a solution. Why do girls both educated and refined, become Little Lost Sisters? How can their footsteps again be shouldered to it that their daughters added into the straight and narrow view this photoplay. It is thrilling way? These and other vital questions spring and educational.

PERSONALS

Berlin.—A summary of the steps which German shipping companies are taking in preparation for peace appears in the Vossische Zeitung. The Hamburg-American has at present under construction at Hamburg one ship of 56,000 tons, the Bismark; a turbine steamer of 20,000 tons, the Tirpitz; and three other vessels of an aggregate of 22,000 tons. The same company is building at Bremen nine ships of an aggregate of 47,000 tons for the Panama trade. The North German Lloyd is building two ships of 35,000 tons each, two of 16,000 tons and a twelve of 12,000 tons each. The South American line has under way a sister ship to the Cape Trafalgar. The American line is building six ships, the Hansa line eight, and the Cosmos line ten, all of 9,000 to 12,000 tons each.

Read This Letter DEPARTMENT OF COMMERCE—OFFICE OF THE SECRETARY Washington, D. C. To the Cannerymen of the United States: Gentlemen:—Our study of the tin plate situation indicates that it will not be possible to manufacture all of the tin plate and tin containers that will be necessary to fill the demands of every kind which will arise within the next few months. It is of vital importance that as much food as possible shall be conserved, not only to avoid waste and provide an economical food supply next winter, but to provide the necessary rations for our army and navy in the event of war. We believe that this can be accomplished by co-operation between our departments and the manufacturers of tin plate and of tin containers, as well as the cannerymen of the country, and it may not be necessary to resort to any form of embargo or other drastic form of legislation to accomplish the result which we have in mind. We ask you therefore to co-operate with us and to limit the canning of non-perishable food products, such as beans, spaghetti, hominy, etc., as much as possible and to concentrate on the canning of perishable food products. We think that this can be accomplished informally by arrangements which you can make. We are writing letters of a similar nature to the manufacturers of tin plate and of tin containers urging their co-operation in this important matter— (Signed) WILLIAM C. REDFIELD, Secretary of Commerce. (Signed) D. F. HOUSTON, Secretary of Agriculture. THERE IS NO EXCUSE OF USING TIN CONTAINERS FOR COFFEE WHEN YOU CAN GET IT FRESH FROM THE ROASTER. WE ROAST COFFEE EVERY DAY. BERT BEAN COFFEE HOUSE 824 Indiana Ave Telephone 35
