HINDENBURG'S EFFORT TO STEM BRITISH TIDE HAS SPENT ITS FORCE

Already British Have Regained Most of Ground Lost in Mighty Drive

The Associated Press war summary says: Field Marshal Von Hindenburg's tremendous drive of yesterday in an effort to stem the tide of British victory on the Arras battlefield speedily spent its force and all his lavish expenditure of men and material bids fair to be wasted.

It is a vital necessity for the Germans to hold fast here if they are not speedily to lose Lens and its valuable coal fields. The persistence and violence of the German counter attacks along the Chemin-des-Dames plateau, the commanding ridge won by the French last week, indicates the importance the Germans attach to the lost ground.

Last night the French gained a line of trenches three quarters of a mile long northeast of Chevreux where they are opening up the back road to Laon.

The German counter attacks last night were particularly heavy and costly and at no point were they successful, Paris announces.

Activities, some of them of potential importance, are developing in other war areas. Petrograd today reports a Russian advance northwest of Sienne on the Rumanian front. Berlin announces a severe defeat for entente forces in Macedonia.

By Associated Press. Berlin, May 9.—Fresnoy on the Arras battle front has been held by the Germans against fresh attacks by the British. An additional 100 prisoners have been captured, says today's army headquarters statement.

TELEGRAPHERS FOR GOVERNMENT

WESTERN UNION TO TRAIN 2500 TO HELP HANDLE RUSH OF WAR MESSAGES.

HUNDREDS NEEDED

Special Appeal Made to More Than 30,000 Wireless Amateurs; Nature of Work.

Washington, May 9.—The war's demand for telegraphic communication has increased so much that an emergency call has been issued through the war department to young men and women of the country who have been trained as telegraph operators. Arrangements have been made with the Western Union Telegraph company to train 2,500 new operators. These are to enable the government to handle its war telegraph business without taking any more operators from the signal corps from the present railroad and commercial telegraph forces, and without seriously interfering with vital communications. The war department's appeal is in part, as follows:

"Several thousand young men and women are needed for telegraph service, either in the signal corps of the army or to replace those in commercial work who are leaving positions to join the colors. These young people must be trained. For this purpose the Western Union Telegraph company has placed its facilities at the disposal of the government to train twenty-five hundred operators, and the training will be conducted by its experts.

"It is estimated that there are more than 30,000 amateur wireless operators in the United States. These young men now have an opportunity—perhaps the only opportunity of their lives—to contribute to the country's welfare in an hour of need by volunteering for this work. At the same time they will be mastering a trade in which stable employment can almost always be secured in any important city.

"Young women particularly are needed in commercial telegraphy. A brief explanation of the methods of telegraph operation in commercial work may assist to an understanding of what a telegraph student would be expected to do.

"There are two methods of telegraph operation now in use, termed automatic and Morse operation. Automatic operation is especially suitable for women. Morse operation for men.

"In automatic telegraphy the operators spell out the words of the messages on a keyboard much resembling that of an ordinary typewriter, but instead of imprinting the letters on a sheet of paper the machine perforates a type in such a way that the relative positions of the holes determine the letters and numbers. This tape is then run through a machine called a transmitter, and the characters are carried at a very high speed over the circuit. A wonderful mechanism transmits these electric impulses into printed letters, and the message is automatically typed on a blank ready for delivery.

"It is evident, therefore, that the work of an automatic telegraph operator is very much like that of a typist. The touch system of typewriting is taught by the telegraph companies, and is the method used in automatic operation. Skilled typists almost invariably become expert automatic telegraph operators.

"Another phase of automatic operation is the inspection of messages received by the machine. Fogs, rains, and swinging wires occasionally interfere with the even flow of current and produce false combinations, thereby causing wrong letters to be intercepted into words. Therefore it is necessary that an operator be placed to examine each message printed by the machine. This work demands excellent judgment, quickness of eye, and aptitude for discerning errors in any form.

"The Morse system of operation, in its elementary aspects, is familiar to all. About six months' training is required to become a junior operator, that is, an operator competent to send and receive messages over circuits on which traffic is not heavy. The skill of a junior operator increases rapidly, and within fifteen or eighteen months the operator feels at home on the majority of circuits and is a dependable all-around telegraph operator.

"Through the Morse operating department opportunity is open for advancement into the technical work of testing wires and regulating the electrical apparatus. Young men of mechanical tendencies have here an especially attractive field in which to develop and demonstrate their abilities.

"Telegraph operators in the army and navy occupy preferred positions both as to rank and pay. Young men who take up telegraphy, but who do not enter the government employ will still render patriotic service by relieving those who desire to enlist.

"The tremendous demands upon the operating forces of the country during this period of intense activity—the mobilizing of all the resources and energies of the American people—have taxed the present telegraph forces to the utmost and necessitate the immediate recruiting of hundreds of volunteers for this service. The government needs telegraph operators for its signal corps. It is almost impossible to take them from the present railroad and commercial telegraph forces without seriously interfering with vital communications. It is necessary, therefore, that as rapidly as possible many hundreds of young men and women be trained for this work.

"Amateur wireless operators, women typists, and all other young men and women possessing the fundamentals of grammar and high school education and not already employed in service contributing to the national welfare, are urged to apply to the offices of the Western Union Telegraph company to take up telegraph training. By so doing they will serve their country in a very practical and patriotic way."

REVOLTS IN SYRIA ARE CAUSING TURKS CONCERN

Cairo, Egypt.—Native revolts are causing the Turks a great deal of trouble in the Ansairi Mountains, in Syria. The revolt started as a result of the Turkish government's action in sending a Turkish battalion to the Ansairi district, ostensibly to hunt for deserters, but really for taking over the new harvest. The conduct of the troops provoked the natives to revolt and a battle ensued in which the Turkish force was defeated with 200 casualties, while the Ansairi lost fewer than 70 men. The Turks retreated after burning five villages. Later the remnant of the

troops was ordered back to Hama to await reinforcements, then to return to the mountains with a mountain battery to punish the revolters. The punitive expedition had to be abandoned, however, owing to the receipt of news that the Druses of the Hauran had also refused to give up their crops to the Turkish force which had been sent for the purpose. As a result of this refusal, a fifteen days' battle took place between five Turkish battalions and the Druses. The Turks were again defeated, thanks to reinforcements received by the Druses from neighboring Arab tribes. One of the Druse chieftains who was captured by the Turks was condemned to death by crucifixion.

Make Us Responsible For Your Tires

You don't have to "shop" among tire dealers to get the exact tire you want,

—nor buy one make of tire for your rear wheels and another make for your front wheels;

—but you can get exactly the tires which will give you the lowest-cost-per-mile of service among the five different types of United States Tires.

And then you can hold one company—the United States Tire Company—responsible for the result,

—which is much simpler than trying to fix the responsibility on two tire companies through two different dealers.

There are five to choose from,

—one for every need of price and use,

—and every one a tire of supreme service and low-mileage-cost.

THE HARBOR.

From far where the sun goes down at eve
From far where the sun appears at dawn
From isles where the white-stoled breakers grieve
From lands in the mountain's heart withdrawn
The ships come here where they gently ride
Like gulls at rest on a quiet tide,
The tongues of the Orient. Occident meet
And mingle in song or shout or cheer;
A babel of tongues on the rough paved street
Is all that the careless heart may hear.
But it brings to the listening passerby
Dreams of another land and sky.
Outward and inward ships come and go
Some spreading wings for a distant flight,
Up to the northland's ice and snow,
Down to the tropic's crimson night,
Inward and outward on some distant quest,
Through the night silence or where storm winds cry
Over and under and round the great world,
Out where the billows go rolling high,
Go from the harbor with gay flags unfurled
The vessels who seek under sun and star
The welcoming ports in lands afar!

CLASBEY-MILLER CLASS TO MEET THURSDAY

The Clasbey-Miller Bible class will meet Thursday afternoon at 2 o'clock, promptly, at the home of Mrs. J. J. Lory, 1306 Tenth street.

DELIGHTFUL MEETING OF FOWLER BIBLE CLASS

There were several reasons why the meeting of the Fowler Bible Class of the First Presbyterian Church Tuesday afternoon was quite the most delightful in the history of the class, two of them being that it was held at the home of the teacher, Mrs. E. W. Fowler and that Mr. Carter and Mr. Haven of the evangelistic party who were here last fall were the guests of honor. These two musicians made themselves a place in the heart of the entire church during the revival services and their return visit was most welcome. They entertained the ladies of the class with music, vocal by Mr. Carter and instrumental by Mr. Haven. The devotional services which opened the class meeting were conducted by Mrs. C. J. C. McDowell and two other visitors, Miss Sue Sigler and Miss Audrey Adickes. Because the meeting was at the teacher's home, several pictures of the entire class were taken as souvenirs. The home was decorated with a profusion of roses in pink and white and these colors were repeated in the refreshments, ice cream and cake. There were 42 present, including: Mrs. Fowler, teacher and hostess; Mesdames Lee McDowell, Frank Kell, Adickes, S. J. Naylor, G. D. Anderson, Ed Howard, Benoit, G. Danahoe, Bell, Couper, Mack, Hays, Patterson, McCutchen, Gray, T. B. Smith, McClure, Hines, O. E. Maer, Urban, Beavers, Spauld, Gaffney, Fitz, Stone, J. M. Bell, Humphris, Berry, Harry Naylor, C. J. C. McDowell, W. W. Robertson, Carlson, Grafton, Hood, Davenport, Spencer, class members; Mesdames Sigler, Thornburgh, Miss Sigler and Messrs. Grafton, Carter and Haven, guests.

SIGMA DELTA CHI MEET WITH MISS ADICKES

A study of "Modern Drama" with a number of musical selections formed the program of the meeting of the Sigma Delta Chi Tuesday afternoon. Miss Audrey Adickes being hostess. Before adjournment a tempting salad course with tea and sandwiches was served to Mesdames Frances Urban, Audrey Adickes, Pauline Richolt and Lillian Fain.

FAREWELL RECEPTION FOR J. ULY WOODSIDE TUESDAY

In honor of the choir director, J. Uly Woodside, who will leave the city promptly at the home of Mrs. J. J. Lory, 1306 Tenth street.

for the reserve officers training camp, the music committee of the First Presbyterian Church entertained the members of the choir and other artists who had helped with the choir music during Mr. Woodside's directorate. The informal reception was held in the church parlors, which were appropriately decorated in patriotic effect, the Stars and Stripes being mingled with the flags and emblems of her allies. Roses were also used in the decorations. Mrs. A. H. Carrigan, one of the music committee, expressed in her usual happy manner the appreciation of the committee and the church as well as Mr. Woodside's work with the choir and wished him luck in the patriotic venture on which he is now embarking, a tribute was also paid to the faithful organist, Mrs. O. E. Maer. Mrs. A. H. Carrigan, one of the guests last fall, and by others of the guests as well as much enjoyed. Punch was served throughout the evening and at a late hour refreshments of ice cream and cake. Those entertained were: Mesdames Carrigan, G. D. Anderson and C. W. Beavers, assisted by Mrs. Anderson and Mrs. Beavers. The guests included: the honoree, Mr. Woodside; Messrs. Gray, Pope, Blocker, Beavers, Anderson, McCutchen, Grafton, W. C. Bell, Mesdames Saunders, Smith, Hood, O. E. Maer, Benoit, Bell, Carrigan, King, F. C. Fitz, W. J. Burl, Mesdames Jacoby, Pauline Richolt, Lillian Fain, Audrey Adickes, Frances Urban, Carlson, Sue Sigler, Fowler, Alice Burnside, Margaret Burnside, Ruth Simpson, Laura Hall, Maurine Smith, Annette Walsh, Mesdames Alfred Burnside, S. H. Burnside, Carter, Dale Haven, Howard Renfro, L. W. Brewster, Ernest Fain, Andrew Urban and Charles Morris.

ROWENA CIRCLE MEETS WITH MRS. ALLRED

The Rowena Circle met Tuesday afternoon with Mrs. John Allred, 1912 Eleventh street, previously announced hostess. Mrs. John Zetzsche having been called to Paris by the death of her mother. There was a lengthy business session preceding the program plans being made for a tacky party to follow the regular meeting of the Yeomen lodge Friday, May 18. Plans will be imposed on all not in tacky garb; other plans were left to committees appointed at this meeting. Communications were read from several state managers endorsing the proposed amendments to the ritual of the order, taken from Sir Walter Scott's "Ivanhoe" and suggestions were made on these amendments by the Circle. The amendments will be

brought up for adoption at the national convocation to be held in June at Detroit. A program of humorous readings and a social half hour was enjoyed, the hostess serving sandwiches, cake and fruit jello, assisted by her sister, Mrs. Butler in this service. The guests were: Mesdames S. A. Douglas, Wilkes, Butler, Douglas, Little, Davis and Jones. Members present: Mesdames Island, Alfred, South, Barton, Mack, McAllister, Ramsey, Rowe and Taylor. The next meeting will be held May 22 with Mrs. Barton as hostess.

MRS. CLAUDE WOODS HOSTESS BRIDGE LUNCHEON

Mrs. Claude Woods entertained the Bridge Luncheon Club Tuesday with a patriotic luncheon at her home, 1794 Eleventh street. The floral decorations conformed to the national colors, roses, red and white being used in the rooms, and for the luncheon table center. The four course menu featured these colors and the brick cream was moulded in tri-color stripes, red, white and blue. For the game the bridge score prize, silver lingerie, fell to Mrs. Monte Stanforth. The players included: Mesdames Little, Maer, Stanforth, Sherrod, Marvin, Smith, Chesnut, M. M. Walker, Wade, Walker, Shepherd, Reese, Dunn of Fort Worth, Marchman, W. M. McGregor and Miss Sherrod.

PARENT-TEACHERS' COUNCIL TO MEET THURSDAY

The Parent-Teachers' Council will meet Thursday afternoon at the high school at 4, instead of the regular meeting time, 3:45, in order that all members of the council may cooperate with other clubs and attend the meeting at the M. E. Church, South at 3 o'clock, to take steps to answer the President of the United States call for food production and food conservation on the part of the nation's women. A splendid program has been prepared for the meeting. Mr. Clark will present plans for next year's work and the report will be given of the district meeting at Jacksboro. All interested in child welfare are urged to attend.

DOAN DELUGED WITH APPLICATIONS

Circulation of Story of Balfour's Visit Results in Many Letters to Mr. Davis.

Special to The Times. Vernon, Texas, May 9.—Resulting from the story that Arthur J. Balfour, British foreign minister now in America, was in Wilbarger county in 1884 as the guest of C. F. Doan, pioneer settler of this section, letters are being received by Mr. Doan from all parts of the country. Two have come from Pittsburg, a round dozen from New York, eighteen from Chicago, while the others are from Western and Eastern states. Nearly every writer asks Mr. Doan

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

for a position on the ranch where Balfour, the private agent of the Cunard Steamship company, was sent to put a stop to the cattle "rustling" activity of the managers of the ranch. They have been advised that the ranch was long ago cut up into small farms. Effort, however, will be made to obtain positions for several of the writers who impressed Doan as being good timber for cowboys. There are still several large ranches in WTBW or county. Both the Wharton and the Waggoner ranches are small principalities.

The story of Mr. Balfour's visit to Texas in 1884 appeared in The Times several days ago. It was one of the first papers in the United States to carry the story.

FUTURE PEACE AS VIEWED IN GERMANY

Associated Press Mail Correspondence. Amsterdam.—How some influential interests in Germany, which are represented by the Rheinisch-Westfälische Zeitung, look upon future peace is illustrated by a leading article in that paper on a reported Austro-German peace move. It quotes the following conditions, which it says appeared in a Moscow paper:

Alsace-Lorraine to remain German. Belgium to become independent, but without an army of her own. The southern Slav states to become independent. Courland to remain German. Armenia to come under Turkish administration. The Buralanelles to remain Turkish. The Zeitung then says:

"Belgium and Alsace-Lorraine can hardly interest Russia, just as any frontier modification on the Russo-Persian or Russo-Chinese frontier would not interest us, but the other points are capable of discussion. For example, if we were to take our present territorial position in Galicia and the Balkans as a basis for a Russo-Austro-Hungarian agreement, neither empire would fare badly. Russia would then rule almost entirely over the Ukraine population, while Austria-Hungary would have the entire Serb race in her hands. If by independent force, is understood self-administration on the Galician model the independence of the Slavs, which is demanded by Russia, could also be realized by this solution. The Polish question is difficult, but as the Russian government repudiates the idea of ruling foreign peoples an agreement can certainly be found."

national gross business of \$22,826,402, and of this amount deliveries to customers account for the expenditure of \$2,047,781.

Now, there is no reason to believe that the people of Washington demand or receive any more delivery service than people living in any other of the larger cities of the country.

Overlooking deliveries of foodstuffs and many other things that go to swell the cost of living for residents of the metropolitan district, the fact remains that the expense of this service on the part of the department stores could be lowered considerably if the women who buy from these stores would lessen the demands on them in regard to things to be sent.

CONSERVATION OF FOODSTUFFS. The widespread enthusiasm for saving foodstuffs in the present national crisis will be of little salvage value unless it is equally widespread enthusiasm for the conservation of that which is produced.

Under stress of war conditions the production of an unusual supply of human sustenance has taken deep root in the American mind. It has done more than this. It has become a sacred sentiment of patriotism in the American heart.

Mountain-side and valley forest and plain waste areas and desert places, vacant lot and orchard are all planted and filled as a challenge to Nature's growing capacity. Never before in our history has there been such an American acreage of things good to eat.

With the United States alone, with favorable seasons, it is safe to forecast a yield of foodstuffs sufficient to feed the allied armies for a very helpful length of time, and have plenty left for the one hundred millions at home.

And this is well. Nothing could be more commendable at this time than the sincerity and cordiality with which the American people have responded to the Nation's appeal for saving an excess of foodstuffs.

PERILOUS OBSTRUCTION. Another week has passed without the shipment of the new army law. The House conferees have not yet reached an agreement on the bill.

DON'T TIE THE HANDS OF BUSINESS

WAR CANNOT be successfully waged without international prosperity. It is important that our buying and selling be uninterrupted.

The "Business-as-Usual" policy has kept England and all her colonies from economic depression. They are keeping their men at the front by keeping their people back home busy.

It is not the purpose of P. H. Pennington Company to retrench. We are buying more merchandise than ever before. And if it is necessary we are going to sacrifice some of our profits just to keep goods moving.

This is our course, because we have faith enough in the American public to believe it will be generally adopted—that our normal prosperity not only will be maintained, but increased during and after the war.

We respectfully tender our customers this advice: "Go on buying as usual and lend your surplus to the GOVERNMENT". If everybody does this the country will be prosperous and there will always be a surplus to lend.

FOOD MINISTRY GIVES PUBLICITY TO MAXIMS

By Associated Press. London, April 9.—Maxims given wide distribution by the food ministry department of the food ministry include the following: Rich people who make their dinner of lobster salad are good patriots, the rich man who eats mutton and bread is not. The woman who wastes a crust of bread is a traitor. Eat slowly and you will eat less. Five people out of ten are digging their graves with their teeth. The dust bin swallows the food of millions.

SPANELL RELEASED UPON BOND OF \$5000

Colombus, May 9.—Harry J. Spanell, convicted Saturday and sentenced to five years' imprisonment for the killing of Lieutenant Colonel M. C. Smith, U. S. Army, was released today on \$5000 bond pending appeal to the state court of criminal appeals. Release on bond followed immediately after Spanell's motion for a new trial had been overruled by the trial court. Spanell was shot and killed with Mrs. Harry J. Spanell at Alpine, July 29, 1916. Spanell was acquitted of the killing of Mrs. Spanell at his first trial at San Angelo, Texas, last February.

BLOCKADE BRINGS STARVATION TO GREECE

Washington, May 9.—An official dispatch from the Greek government communicated to the state department from the Greek Legion says the blockade of the allied Greek coast has resulted in starvation. CAMPAIGN IN ENGLAND AGAINST RATS AND SPARROWS

Associated Press Mail Correspondence. London.—Rats and sparrows destroy more food in England than German submarines destroy on the sea, in the opinion of the food production department of the Board of Agriculture, which has issued an order for their destruction throughout the country. A bounty has been placed on rats and sparrows, but crows and kitt have also been killed.

GIRL SOBS STORY OF ALLEGED WRONGS

Winnie Morris Takes Stand And Bares Unhappiness In Effort to Save Father and Brother.

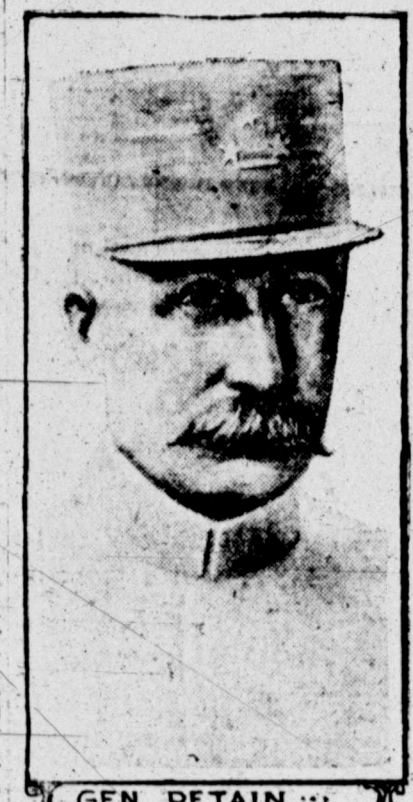

Her narrative repeatedly interrupted by her sobs, Winnie Morris, a frail young woman of about twenty-two, told the story of her alleged wrongs at the hands of General Radford on the witness stand late yesterday in the trial of her father, E. Morris, and her brother, Ewell Morris, on trial in the twenty-eighth district court for murder for the killing of Radford.

Several times interruptions of some length were necessary before the young woman could continue with her story. A physician was kept in the court room to minister to her needs. A number of letters alleged to have been written to her by Radford were identified by the witness and made a part of the testimony. These letters addressed her in exhorting terms and several of them told her not to worry and that things would be "fixed."

The witness said that Radford had promised to marry her and had told her of plans for them to go to California. She told of her employment in Radford's abstract office and told of the first instance of Radford's alleged improper conduct and of their relations thereafter. On cross examination she admitted that she went back to work for Radford a few days after she had been released. She declared that she even then had trusted Radford and when pressed further for reasons sobbed out "He was the man I loved."

Her direct testimony was completed early in the morning session and her cross examination continued during the remainder of the session. Justine Blasi, a young woman of Ft. Worth, followed Mrs. Morris on the witness stand for her defense yesterday afternoon. She testified that Radford had broken a promise made in 1912 to marry her, and said she had learned he had broken similar promises to other girls.

Petaim Will Command British and French Battling in France

GEN. PETAIN

In an article in Collier's Weekly a friend of General Petaim, the new French chief of staff, was quoted as follows in describing the man who will command the armies of the allies in western Europe. "They say he resembles Kitchener. Business is business with Petaim. He hates 'hot air' and he can be as silent as the Sphinx. I see little resemblance in him to Kitchener. Also they say that he resembles Nietzsche and has a soul of iron. I utterly fail to see the resemblance, and behind his frigid exterior there is a heart, as many of us can testify personally. "Of course there is a distinct line between him and his officers. We are here and he is there. He is very generous with his invitations to dine and sociable and friendly, but when time comes discipline is discipline. I can assure you. And that reminds me, I see they say that Petaim walks among his soldiers and talks to them. More nonsense. Against all his principles. He addresses himself to his officers and holds them absolutely responsible."

WAR PICTURES AT THE GEM TODAY

Today the third of the British war pictures are showing at the Gem. These pictures have an unusual interest in that they are authentic and there are many who are keeping up with each installment of the pictures. Wednesday being the regular day for the showing. These pictures benefit the war sufferers of Belgium, Serbia and other stricken countries, the theaters giving their services in projecting the pictures, so that a part of the proceeds can go to the various war funds.

Market Report

Fort Worth Livestock. By Associated Press. Fort Worth, Texas, May 9.—Hog receipts 2,500. 10 to 15 cents up, hogs \$15.00 to \$15.50. Cattle receipts 8,000 steady, hogs \$7 to \$10.50 stockers, \$6.50 to \$9. Sheep receipts 1,200, unchanged, lambs \$10 to \$17.

Chicago Grain Futures.

Chicago, May 9.—Sensational fresh advances in the wheat market today resulted from the government report showing the largest abandonment of winter wheat acreage ever known in the United States. Opening quotations ranged from 3 1/2 cents to 14 cents higher with May at 2.07 to 2.11 and July at 2.49 to 2.42. The close was unsettled at 12 cents to 13 1/4 cent advance with May at 2.11 and July at 2.45 1/4 to 2.46 1/4. Corn closed nervous at gains of 1 1/4 cents to 2 1/2 cents.

New York Cotton Futures.

New York, May 9.—Relatively easy cables and the outlook for warmer weather in the south seemed responsible for scattered selling at the opening of the cotton market today. First prices were 6 to 15 points lower with May showing the maximum loss and selling on even terms with July. Cotton closed steady. May 19.40, July 19.70, October 18.44, December 18.21, January 18.53.

'PERFECT WOMAN' DEFINED BY ENGLISH TEACHERS

Associated Press Mail Correspondence. Liverpool.—"The Perfect Woman" has just been defined by a conference of teachers from girls' schools throughout England. Here is the result of their united efforts: "The perfect woman is forty, married, and is the mother of five children. She is in happy circumstances living in a beautiful part of the country a few miles from a big town. She is the center of a good home in which there is a high standard of cleanliness and comfort, and where good taste is everywhere visible in furnishing, carpets, curtains, wall paper, ornaments, clothes.

Associated Press Mail Correspondence. Peking.—Premier Tuan Chijui is an inveterate chess player and one of the most expert students of the game in the Far East. He plays at least one game of chess every day, and is the champion among all the High Chinese officials.

Japan's champion chess player, Kato-tao-ping, who recently defeated the most expert players in South China, has come to Peking to meet North China players at the request of the Premier. The Japanese expert will be matched with him before he leaves China.

PRODUCERS WELL FLOWOVER DERRICK

Well Brought In on Prechel Lease Believed One of Best in Burkburnett District.

When the producers' well on the Prechel lease, which hit the sand Monday, was cleaned out yesterday a flow that went above the derrick followed. The well is believed to be one of the best in the entire Burkburnett district. The flow comes from a sand at about 1700 feet.

The talent is much encouraged by developments in the Wagoner ranch district. The Slater well on the Henson ranch, south of Colberton, was haled yesterday and the showing is said to be good. The sand was found at about the same depth as in the Colberton well.

Casing is being set in Colberton No. 2, which has the same sand as Colberton No. 1. Skerritt Howe and others are reported to be the same sand on the Wagoner.

A report was received this morning that E. P. Ross who is drilling for the Gulf Production company on the Burwell Lloyd had the same sand and was setting the casing. This report however, lacked confirmation.

FINAL REHEARSAL FOR SYMPHONY CONCERT

Directors Much Pleased With Showing and Are Confident of Highly Successful Event.

Tuesday night the final rehearsal of the Wichita Falls Symphony Orchestra and the Musicians' Club, chorus was held, preparatory to the first annual concert to be held Thursday night. All artists are fully prepared and the directors of the concert are much pleased with the results of the night's practice.

As a means of encouraging school children in an appreciation of the best in music, the two organizations have decided to reserve a portion of the balcony especially for the children and to give them tickets at half price. Music is playing a very important part in the schools and the Symphony Orchestra is gratified that this is so, as in their efforts to arouse public interest in the better class of music the younger generation can do much to aid.

BOY SCOUTS GARDEN CLUB IS ORGANIZED

At the meeting of Troop 4 last night a new club was organized to be known as the Boy Scouts Garden Club. The purpose of the organization is to encourage the cultivation of all vacant lots, and to teach the fitness to the Scouts. A plot of ground 100 feet by 150 feet has been secured at the corner of Tenth and Eleventh streets. The plot will be divided into lots of 25 feet square and there will be two boys to cultivate each lot. Mr. Bachman has offered a prize of two dollars to the boy or boys that make the largest profit on his or their plot, and there will be other prizes offered for the greatest production, profit and neatness of plot. Seven boys were initiated into Troop 4 last night, they having passed the "tenderfoot" test. KEMPNER ELECTED MAYOR OF GALVESTON Dispatches today announce the election of L. H. Mr. and Mrs. White will be expected to arrive some time this week.

TOWER OF LONDON HAS MOAT-FOR SUBMARINES

Associated Press Mail Correspondence.
London.—The Tower of London is favored as the place destined to become England's greatest war museum because a moat surrounds it in which could be captured the German submarines captured in the war. The Crystal Palace and other less famous places that have been offered as sites for the museum possess no such feature.

In housing the relics of the present war in the ancient Tower of London there is no thought of displacing the historical exhibits, it now contains the collection will illustrate the operations of the navy all over the world and of the army on all the fronts. The Admiralty, the War Office and the Ministry of Munitions will deposit in the museum a large mass of official exhibits.

It is planned to hold a preliminary exhibition during the coming summer.

RAILROAD ISSUES BELOW PANIC PRICES

Stocks Selling Under Minimum Quotations Established in 1907 and 1893.

In the face of the greatest gross earnings the companies ever received, says The New York Times, many important railroad stocks are selling at lower prices than the minimum quotations established in the panic years of 1907 and 1893, containing, The Times' article says:

At the same time standard railroad bonds have been steadily falling practically ever since January 1, until they decline since that date extend from 4 to more than 9 points. The course of bond prices indicate that a great deal of liquidation has occurred since the \$7,000,000,000 government bond issue was first proposed, although the rise of interest rates induced by the sale of foreign government securities on this market and the general advances of commodity prices started the movement more than two years ago.

Presumably, speculative operations have had something to do with the slump in stocks, but speculation has not accounted for the depression of railroad securities. Some of the more prominent stocks, such as the Erie, St. Paul preferred to 11 1/2, yesterday's closing quotation. Old-time investors who have stood against the tide, began at a prediction that this premier investment issue should ever again stand at so low a level. For years St. Paul preferred was considered to be making a poor record of itself when it declined below 135, and the minimum last year, when the rails were unsteady, was a fraction under 124.

Delaware & Hudson sold last week more than 15 points under the lowest figure in 1907 and about 16 points below the worst quotation in the panic of 1893. The last price yesterday was a fair recovery from the low of the week. Great Northern preferred at yesterday's closing was exactly equal to the most discouraging 1907 level, and away higher the 1893 minimum. Turning to the roads which were having their financial troubles in the '92 year, the price-situation is naturally quite different. Union and Southern Pacific are at relatively high levels. Louisville & Nashville, too, stands high, but Pennsylvania has slumped under the low of 1907. This slump presents some of the more prominent issues, with comparisons: Atchafalaya yesterday close 99 5/8; low 1907, 68 3/8; low 1893, 32 5/8; Baltimore & Ohio, yesterday close, 72 3/4; low 1907, 75 3/8; low 1893, 92 1/2.

Chl. Mil. & St. Paul, yesterday close 75 3/8; low 1907, 93 1/2; low 1893, 55 3/8.

Chl. Mil. & St. Paul, pd, yesterday close, 112 1/2; low 1907, 130; low 1893, 119 1/2.

Delaware & Hudson, yesterday close, 119 1/2; low 1907, 123 5/8; low 1907, 122 7/8.

Great Northern, pd, yesterday close, 197 1/2; low 1907, 107 1/2; low 1893, 119 1/2.

Louisville & Nashville, yesterday close, 122; low 1907, 85 1/2; low 1893, 64 3/4.

New York Central, yesterday close, 88 3/4; low 1907, 81 1/2; low 1893, 107 1/8.

Pennsylvania, yesterday close, 51 5/8; low 1907, 53 1/4; low 1893, 46 1/2.

Reading, yesterday close, 87 5/8; low 1907, 36 1/4; low 1893, 8 1/4.

Southern Pacific, yesterday close, 90 3/4; low 1907, 63 1/4; low 1893, 35 5/8.

Union Pacific, 122 3/4; low 1907, 100; low 1893, 36 1/4.

A greater significance, perhaps, is attached to the movements of bonds than to stocks in view of the preparations being made to make the \$2,000,000,000 initial war loan a great success. The average price of 40 high grade bonds, including 25 railroad issues, declined nearly half point last week, an exceptional movement. Since Jan. 1 the average has receded more than 4 points. Presumably a great many standard bonds are being sold to make possible the conversion of funds into government bonds.

The most important influence at the moment, however, is the unfavorable showing being made by the railroads in their profits. Gross revenue continues to mount month by month, as compared with last year, but increased costs are cutting into profits.

VIENNA CHILDREN GROW FAT IN HOLLAND

Associated Press Mail Correspondence.
Rotterdam, Netherlands.—Five hundred Vienna children on the average, have gained nine and a half pounds in weight during a few weeks stay in Holland, some of them adding from 15 to 24 pounds, according to medical testimony.

Despite the recent hint by Prime Minister Cort van der Linden regarding the undesirability of bringing more foreign children to this country when Hollanders themselves are being asked to observe the strictest economy on account of the scarcity of grain, German youngsters continue to arrive in large numbers, nearly 1200 having crossed the frontier to recoup in the course of one week.

PORTUGAL LEASES GERMAN SHIPS TO GREAT BRITAIN

Associated Press Mail Correspondence.
Lisbon, May 8.—Sixty of the seventy German merchant steamers which were in Portuguese ports when Portugal entered the war and which were promptly seized by the government have been turned over to Great Britain on a rental basis. England has rented the ships for \$7,000,000 a year, to be paid after the war.

What will become of the ships after the war, whether they will become the permanent property of Portugal or England or go back to Germany, is much in doubt.

MARY PICKFORD AT THE THEATERS

Mary Pickford's film success of a year or so back, "Such a Little Queen," in which she and Harold Lockwood starred, will be repeated on Thursday at the Famous Players' feature, just an old film, and the return of the favorite in her first film success will be welcomed.

The Empress.
Fannie Ward is the Empress' star today, in "The School for Husbands." The story of "The School for Husbands" has to do with Betty Manners, the wife of John Manners. John is a frivolous young broker who loves to gamble on the races and have a good time. His young wife, feeling that she must economize, goes around in most unbecoming and inexpensive clothes. John becomes infatuated with another woman and loses his money in the stock exchange just as his wife discovers that she is the heiress to a vast fortune. Realizing that she is losing her husband by her plain dress and "stay-at-home" manner, she starts out to win him back.

The Plaza.
Claire McDowell, the star of the Red Feather photoplay, "The Bronze Bride," which comes to the Plaza theatre today, has come on recently saying that she "hates herself" in modern clothes. Therefore she welcomes the opportunity to appear again before the audience in the picturesque garb of another race. This time she wears the supple buckskins, beads, and fringes of the earliest inhabitants of our country. As the Indian wife, who marries a white man, Miss McDowell has almost as many risks to run as she had in her last Red Feather, "The Gates of Doom." She paddles a canoe through the rapids; she falls headlong down a steep cliff; she rides a half-broken horse astride, and—just but not least—she carries a one hundred and seventy pound man for quite a long distance unaided. The story is the Indian version of the "Madame Butterfly" theme, but it has an unexpected and very happy ending.

Gains in Burkburnett, Electra and Rural Districts and Losses in Wichita Falls.

There are 6126 scholastics in Wichita county, according to reports compiled by County Superintendent Hall. This is an increase of 124 over the census of 1916, when 6022 scholastics were reported.

Gains are shown in the Electra, Burkburnett and rural school districts while losses are shown in Wichita Falls and Iowa Park. A comparative showing for 1916 and 1917 by independent districts and the rural districts is shown below:

District	1916	1917
Wichita Falls	3427	3285
Electra	742	876
Burkburnett	42	42
Iowa Park	25	226
Rural districts	1187	1219
Total	6022	6126

As has been previously explained Wichita Falls' losses were in the factory district, on account of the establishment having been taken when the factories were closed. These factories have been re-opened and an enumeration now would show a much larger scholastic population.

WOODMEN BENEFIT TO PURCHASE GUNS

Revival of Elks Minstrel Will Be Presented at Wichita Theatre Next Week.

A revival of the Elks' minstrel performance is to be staged at the Wichita Theatre as a benefit performance for Woodmen of the World (camp No. 200).

The program is to be exactly as staged by the Elks on the second night, all of the same performers

The Triumphant March of Bevo

A NEW CREATION OF SCIENCE AND NATURE

WHEN we announced Bevo recently, our hopes were high. We knew that we had the most unusual soft drink that had ever been offered: A beverage combining the nutritive extracts of wholesome cereals, the zest of Saazer Hops, a flavor all its own, and absolute purity. We knew this because, true to our own ideals, we had experimented for years before we were satisfied to say, "We offer you Bevo—it is a different soft drink—it is good and it is good for you."

High as were our hopes for its reception, we have realized them far and beyond our expectations.

Bevo today is an established popular success. Everywhere the same question is asked:—"Have you tried Bevo?"

Now, one final word. We promise you that, in accord with the known principles of Anheuser-Busch and all its products, Bevo not only will forever maintain its present high standard of quality, but as time goes on our great endeavor shall be to make this soft drink even more perfect in every detail of its goodness.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars and other places where refreshing beverages are sold.

taking part. It will be staged under the direction of George Hodgins, with Prof. Katz directing the music. The audience will be placed at popular prices, 50 cents and 25 cents.

The performance is given as a benefit for the Woodmen, to provide a fund with which to buy guns to continue the drill work to prepare the members for army service in case they are called to the service of their country, and with such a patriotic motive as an inspiration, it should be given a bigger success than on its first appearance.

The members of the cast will meet tonight for rehearsal, and Director Hodgins states that he will have the work perfected to a point equal to most professional companies.

DEPARTMENT OF COMMERCE—OFFICE OF THE SECRETARY
 Washington, D. C.

To the Cannerymen of the United States:

Gentlemen:—Our study of the tin plate situation indicates that it will not be possible to manufacture all of the tin plate and tin containers that will be necessary to fill the demands of every kind which will arise within the next few months.

It is of vital importance that as much food as possible shall be conserved, not only to avoid waste and provide an economical food supply next winter, but to provide the necessary rations for our army and navy in the event of war. We believe that this can be accomplished by co-operation between our departments and the manufacturers of tin plate and of tin containers, as well as the cannerymen of the country, and it may not be necessary to resort to any form of embargo or other drastic form of legislation to accomplish the result which we have in mind.

We ask you therefore to co-operate with us and to limit the canning of non-perishable food products, such as beans, spaghetti, hominy, etc., as much as possible and to concentrate on the canning of perishable food products. We think that this can be accomplished informally by arrangements which you can make.

We are writing letters of a similar nature to the manufacturers of tin plate and of tin containers urging their co-operation in this important matter—

(Signed) WILLIAM C. REDFIELD, Secretary of Commerce.
 (Signed) D. F. HOUSTON, Secretary of Agriculture.

THERE IS NO EXCUSE OF USING TIN CONTAINERS FOR COFFEE WHEN YOU CAN GET IT FRESH FROM THE ROASTER.

WE ROAST COFFEE EVERY DAY.
