ANOTHER MASS MEETING EVERY CITIZEN EXPECTED TO DO HIS DUTY NOW

EVERY CITIZEN EXPECTED TO DO HIS DUTY NOW

WICHITA FALLS HAS CHANCE TO SECURE BIGGEST THING THAT EVER CAME TO WICHITA AND PROMPT ACTION NEEDED.

Another mass meeting will be held at the Wichita Theater at 7:30 o'clock tonight, at which final efforts will be made to raise the funds necessary to secure consideration of Wichita Falls for one of the training camp sites for the new army.

Such a camp will bring to Wichita Falls not less than 25,000 men, for a period of twelve months. These men themselves will spend nearly a million dollars a month in Wichita Falls, to say nothing of the vast sums that will be expended for barracks, supplies, food, etc.

The effort to bring the camp here has the earnest endorsement of the leading business men of Wichita Falls, and it is urged that everyone who has any influence in Wichita Falls should come out tonight.

R. E. Huff presided at last night's meeting and briefly outlined its object. B. F. Johnson, secretary of the Chamber of Commerce, was called upon to tell what had already been done.

He said that eight sections of land would be required, with ample water, light, street car and railway transportation facilities. The committee had in mind, was given up because of the impossibility to secure pipe for the extension of the water mains that distance.

Mr. Johnson told of the rapidity in which the locating board was moving and said that if Wichita Falls wanted to be considered for immediate action must be taken.

Wiley Blair, who said that he would have to return to Dallas before it was known how much money must be raised, pledged the Blainches to give five per cent of the amount necessary.

Mr. Kell said that he thought no further efforts should be made to secure subscriptions at last night's meeting, because the merchants, who ought to support the effort, were not present.

On his motion it was voted to adjourn until tonight and in the meantime to organize and get out a big crowd.

The following committee was named to get out the crowd: Frank Kell, J. J. Perkins, J. W. Bradley, Marvin Smith, M. J. Gardner, F. H. Pennington, L. McCoskey, L. Huey, E. E. Marlow, Myles O'Reilly, J. T. Young, B. J. Bean and Morris Marcus.

COTTON MANUFACTURERS OFFER CO-OPERATION

Washington, May 22.—Cotton manufacturers of the South and South West here today in conference to appoint a committee to deal with the government. The northern manufacturers are members of the National Association of Cotton Manufacturers, and the southern representatives are members of the American Association of Cotton Manufacturers.

The committee, the personnel of which will be announced later, will endeavor to see to it that the demands of the committee are promptly met and will assist both manufacturers and the government in obtaining the highest degree of co-operation.

Every Citizen Called to do Share to Secure Camp

It is of the utmost importance that every citizen interested in the welfare of our city attend the meeting tonight for the purpose of providing funds of sufficient amount to take care of the cost of locating the soldiers' training camp at Wichita Falls.

It will be necessary that your committee, which has this matter in hand, be supported by a liberal donation in order that this deal may go through.

Should we fail to get funds subscribed, it will mean that your committee will be forced to drop the enterprise. Should we be so fortunate as to secure the location of this training camp, it will mean that we would have domiciled with us 25 to 27 thousand enlisted men, including officers.

The location of this many people with us will immediately bring great benefits to every retail establishment of every nature. The retail dealers will benefit more than anyone else from this camp.

FRANK KELL, Chairman of the Committee.

SIGHT SUBMARINE OFF NEW ENGLAND COAST IS REPORT

Portland, Me., May 22.—Persistent report current ever since the war was declared that a German submarine was in New England waters were given official recognition today. It was stated by a naval officer that new reports had been received and that an investigation was under way.

It was reported to the naval stations that after the sighting of a periscope a submarine was seen running awash at Machias last night at six o'clock. This report was forwarded to Boston and New York but not made public.

The supposed submarine, which appeared to be about 200 feet in length, was seen by two fishermen south of Sequin Light at 9:15 this morning, they said. She was a mile and a half near the pumping station was in view, he said, and it was felt that assurance could be given concerning the pipe. While it is not known how much money would be required, Mr. Johnson said, it had been determined that \$75,000 ought to be raised.

Mr. Johnson told of the rapidity in which the locating board was moving and said that if Wichita Falls wanted to be considered for immediate action must be taken.

Wiley Blair, who said that he would have to return to Dallas before it was known how much money must be raised, pledged the Blainches to give five per cent of the amount necessary.

NEGRO SLAYER OF MEMPHIS GIRL IS BURNED AT STAKE

Memphis, Tenn., May 22.—Chained to a fallen tree at the scene of his crime, Ed Persons, the negro who confessed that he killed Antonette Rappold, a young girl three weeks ago, was burned to death in the country about 10 miles from Memphis shortly after nine o'clock this morning. The body was badly mutilated, the head being severed and placed on the roadside nearby, where it remained for several hours.

More than a thousand people witnessed the lynching. Hundreds of women and children watched the spectacle from a road which skirted the meadow where the body was burned. Mrs. Minnie Woods, mother of the dead girl, identified the negro and in a short speech to the mob, urged them to burn the slayer of her child. She requested that there be no shooting and not a shot was fired. She refused, however, to apply the match to the funeral pyre.

Before he met death Persons was permitted to make a statement. He repeated his former confession that he had chopped the child's head off and implicated two other negroes in the crime, declaring that one of them had struck the first blow that stunned the child.

Persons was soon captured by a section of the mob but early this afternoon it was stated that he was being held pending the arrest of the other two negroes. Persons has been satisfied by the death of Persons and there will be no further lynching.

Friends of the dead girl took up a collection from the spectators for the purpose of building a monument. More than \$125 was secured.

DENMARK HAS LOST 150 SHIPS IN WAR

210 Danish Sailors Have Been Victims of U-Boats Since Beginning of War.

London, May 22.—A Copenhagen dispatch to the Exchange Telegraph says that the Danish minister to Germany has reported to have handed a note to the German government protesting against the submarine campaign. The report followed a prolonged estrangement between the Mexican minister and Foreign Secretary Zimmerman on Monday.

General Alvaro Obregon who recently resigned a minister of war explained today the reasons which prompted Mexico to endeavor to maintain absolute neutrality in the war: At a farewell dinner before his departure for Sonora he said Mexico's self respect called for this policy. Even if Mexico joined the war, he said, she could give no effective aid. She could furnish neither supplies nor money. Under such conditions Mexico could not with self respect enter the war, unless forced to do so and certainly not for the sake of gain.

After visiting his home in Sonora, Gen. Obregon will go to Washington and New York.

Painleve, War Minister, Directs the Changes in French Commands

PAUL PAINLEVE

Paul Painleve, minister of war, in the present French cabinet, is frequently called France's "coming man" and future premier. To him are attributed the recent changes in the high commands of the French army giving supreme command to General Pétain. Little known outside of France save as a celebrated mathematician, Painleve has become one of the great forces in French political life. The present cabinet which bears the name of the Ribot, would have been Painleve's cabinet had it not been that at the last moment there was a feeling that it would be unwise to place a man that was as widely known in the world as Briand by a man that was as little known outside of France as Painleve. But in fact the present cabinet is dominated by Painleve.

ARE HAMMERING HINDENBERG LINE OVER WIDE FRONT

GERMAN ARMIES IN FRANCE ARE SLOWLY YIELDING BEFORE UNRELENTING PRESSURE AND ALLIES EXPECT LINE TO BREAK.

RUSSIA UNCERTAIN

Crisis There Continues and Rumored That Russian Radicals Will Attempt to Force Repudiation of Russia's Treaties with Allies.

The German armies in France are slowly yielding ground before the unrelenting pressure exercised by General Haig and Pétain and the vital question is as to whether their morale can be sustained under the terrific pounding at which they are subjected day and night. Apparently the allied coalition government will be asked to make a frank statement as to its position and there are uncomfortable rumors that the Russian radicals intend to force the repudiation of Russia's treaties with the other members of the entente.

Last night's actions on the French front confirmed French possession of the commanding high ground won in the previous night. At Moronvilliers in the Champagne, the Germans thoroughly bombarded these new French positions, then delivered infantry attacks but were unable to check the French hold and suffered considerable losses. The French have taken more than 1,000 wounded prisoners here in the past few hours.

Another complication has arisen in the Russian situation through a movement of the Russian government to the east. A congress of the most influential influence in the grand duchy has adopted such a resolution favoring separation from Russia.

1500 HOMELESS; \$3,500,000 LOSS AT ATLANTA, GA.

SEVENTY-FIVE BLOCKS IN RESIDENTIAL SECTION OF CITY ARE SWEEP BY FLAMES STARTING IN NEGRO SECTION MONDAY.

RELIEF UNDER WAY

Citizens of Atlanta Taking Care of Homeless and Aid From Outside Will Not be Accepted—1563 Buildings Burned.

Atlantic, May 22.—Estimated today were that from 10,000 to 15,000 persons were homeless as result of the fire yesterday and last night that swept through approximately 75 blocks of residential property, ranging from negro snags to homes of influential citizens in the northeastern section of the city.

R. F. Rust, assistant secretary of the Southern Underwriters Association roughly estimated the property loss at \$3,500,000 and loss to insurance companies \$2,500,000.

Relief work which was started hours before the flames were subdued was pushed rapidly. The public safety committee of the Atlanta chamber of commerce at a meeting laid plans for handling the situation and later a mass meeting called by Mayor Candler, was held.

Preparations were made last night to feed 5,000 of the homeless, it being believed that more than that number would need immediate relief. The relief forces were so quickly organized that hundreds of the homeless were fed last night and this morning breakfast was writing them at the auditorium armory.

Real estate and insurance men working in conjunction today estimated that 1,563 buildings had been destroyed.

Relief work got under way early and several thousand dollars had been subscribed in a few hours. A meeting of the city's representative men was called for today to give relief to all who needed it, and Mayor Candler and President Ivan E. Allen, of the Atlanta Chamber of Commerce agreed that no outside aid would be needed. Both expressed their appreciation of scores of offers that were telegraphed last night.

Only one person is known to have died as a result of the fire. Mrs. Kessie Hodges died of shock after her home was destroyed. Before the fire were remarkably few, police and firemen agreed, considering magnitude of the area swept. The people fled in confusion, many carrying an invading army, and so intense was the heat that preceded the onward shooting tongues of flame that few could remain in their homes until the flames reached them.

Here and there fire brands sailed ahead of the blaze, firing houses more than a block away. The flames were called for today to give relief to all who needed it, and Mayor Candler and President Ivan E. Allen, of the Atlanta Chamber of Commerce agreed that no outside aid would be needed. Both expressed their appreciation of scores of offers that were telegraphed last night.

The people fled in confusion, many carrying an invading army, and so intense was the heat that preceded the onward shooting tongues of flame that few could remain in their homes until the flames reached them.

After the soldiers took charge evacuation of home in the threatened district was carried out consistently and automobiles furnished by the burghers carried people and their most valuable belongings to other points of the city. The soldiers went on duty and remained all night. Furniture, bed clothes and all the odds and ends from thousands of homes littered the streets which were rendered in many places impassable by falling wires and debris from dynamited houses.

The soldiers allowed nothing to be moved. Only one case of attempted looting was reported and that resulted in an arrest.

Beside actual relief work today, there was a tremendous task ahead in information received here from a Hungarian source a strike has been continuously in progress in all Budapest munition factories since May 1.

Stockholm, May 22.—According to information received here from a Hungarian source a strike has been continuously in progress in all Budapest munition factories since May 1.

Judges Huff, Carrigan and Henderson were delegated to this work and their attendance was promised. T. B. Noble was appointed to take the place of Mr. Henderson should he fail to materialize.

The purchase of an addressograph for use in the office of the Chamber of Commerce was allowed. The price was \$50. The terms and conditions of a pertinent government aviation camp were read by Secretary Johnson. The matter was held over for further action at the next meeting. A request by the Wichita Falls Foundry and Machine company to allow them to purchase certain lots was also held over till next meeting. The Bill Posters' convention has suggested that they be invited to meet here next year. This matter was referred to a committee for further information.

At the Theaters

The Plaza. Today's program features "The Forest Nymph," a Universal special feature. The canyon of the Malibu River has been chosen for the locale of this Gold Seal, which features a name new on the Universal program—Bartina Burket. Many of the scenes have been tinted and toned to give them almost the color of nature, and the strong story is played with a background of some of the most wonderful scenic shots seen in recent films.

The story runs as follows: Bartina lived in Malibu Canyon, her only friends the wild things and a half-witted mountain boy, called Bennie. They played together. One day she stole his clothes while he was in bathing, leaving him her ragged frock; but his overalls were very dirty, and she promptly went in bathing, too, while he came out and made the exchange. While they were playing, a man was hiding among the trees to escape the sheriff, and Luke, a bad character of the neighborhood, had seen the girl reflected in the water and desired her. He went to the girl's drunken father, armed with a bottle of mountain whisky, which he had adulterated with water, and asked for Bartina for a wife. Bartina was playing with the flowers she had gathered when the sheriff passed, asking her if she had seen a stranger. She shook her head, and he passed on, when to her surprise the stranger crawled out of the undergrowth behind her. She asked him what the sheriff wanted

MARY PICKFORD STAR AT THE EMPRESS This is what the Philadelphia Enquirer critic thought of "A Poor Little Rich Girl," which comes today and tomorrow as the feature attraction at the Empress Theater: "No one would suspect that Mary Pickford was a day over eleven after seeing her in the film version of 'A Poor Little Rich Girl,' which had its first local showing at the Stanley Theater the other day. Sidom has the little star been seen to act with advantage, and the whole-hearted manner in which she carried out the role of a very fine little girl was altogether charming, and never is there a suggestion of mere immature years—the part calls for the adult spectator is apt at first to become a trifle impatient with the rough handling of the little girl by the servants and governess, but must bear in mind that the whole play is a fairly story and the cruel servitors are really the lineal descendants of the heartless stepmothers of earlier fairy tales and as such are in character. The plot is unfolded skilfully, and the part in which Gwendolyn dreams while under the influence of a drug, aimed to put her to sleep and which almost ends her life, is particularly well executed. Madeline Travers takes the part of the mother, and Charles Wellesley is the father. Gladys Farnham plays the role of the nurse acceptably, and Frank McGlynn is capital as the plumber. Herbert Prior takes the part of the doctor, and Frank Andrews is the butler.

DOROTHY DALTON IN "BACK OF THE MAN"

"Back of the Man," the Kay Behrman drama which will be shown at the Majestic theatre Thursday, tells one of the strongest stories of business life that Thomas H. Ince has presented on the Triangle screen for some time. Dorothy Dalton is starred at the head of a cast that includes Charles Ray, Margaret Thompson, Jack Livingston and J. Barney Sherry. "Back of the Man" recounts the history of a youth of brilliant prospects, who lets ambition lead his heart astray from the one woman able to guide him to the heights of life. But just when all that he has sought in the way of marital prosperity seems within his grasp the young man becomes entangled in a murder mystery. The manner in which he is cleared of this crime and at the same time has his eyes opened to the real worth of the woman he has neglected, makes the picture a thrillingly constructed plot.

Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is "Gone!" When you've got to walk on the sides of your shoe to get away from corns, use "Gets-It," the only common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water, Heal, They'll Shrink, Loosen and Peel Off! Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant—then it loosens and falls right off. There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of knives that irritate, bandages that chafe, and the use of corn-plasters that half do the work, knives and plasters that draw blood. Use "Gets-It"—no more digging or cutting. "Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Wichita Falls and recommended as the world's best corn remedy by Palace Drug Store, Mack Taylor's Drug Store, Miller's Drug Store

GOOD ROADS AND BAD NOBLE, TRAVELS BOTH

Wichita Falls Man Returns From Long Automobile Trip—More Ardent Advocate of Good Roads.

T. B. Noble has just returned from an automobile trip to Mission, via Fort Worth, Waco, San Antonio, Beeville and Fallurias. Mr. Noble has always been an advocate of good roads, but he says that after this trip, over every sort of road, he is more enthusiastic than ever for good roads. Especially fine, he said, was the strip of highway, known as the King's Trail, which his party entered between Hillsboro and Waco. The road from Waco to San Antonio is macadam and asphalt, an almost unbroken pavement of two hundred and twenty miles, he said.

As an instance of bad roads, and the result of bad roads, Mr. Noble mentioned the five-mile strip from McAllen to Mission. This is an ordinary dirt road but had been recently used for the transportation of eleven thousand troops. The heavy army lorries had simply torn the road to pieces, with the result that the way was almost impassable. Mr. Noble said that if he could have taken with him any or all who are opposed to the bonds, he could have converted them without argument. Simply to travel over good roads, he said, was in itself a sufficient argument against bad roads, and when one has the opportunity to compare both, practically simultaneously, the advantage is too obvious to require comment. Mr. Noble's itinerary was as follows: Wichita Falls to Fort Worth (bad); Fort Worth to Waco (good and bad); Waco to San Antonio (very good); San Antonio to Beeville (bad); Beeville to Fallurias (bad); Fallurias to Mission (bad).

Pennington's WICHITA FALLS F. L. MERCER, Manager. 717-INDIANA AVE.—719 "The Brightest Spot in Wichita Falls"

It is estimated that seven million soldiers have been killed since the world war started three years ago. The United States is just about to get on the fighting line in France.

If every fellow who is wearing a miniature flag on the lapel of his coat, or is otherwise showing his loyalty to "Old Glory" will invest in a war bond the supply will be subscribed ten times over.

And, another way of getting additional revenue after the tax limit has been reached, is to raise the assessed values on taxable property. There is evidence in abundance that our equalization board boards in every county throughout the State will be forced to raise taxable values this year, if the expense of running the State government is to be met.

Under the new tax levied by the general government, the income tax that Mr. Henry Ford alone will be called upon to pay will amount to \$5,000,000 this year, which makes us glad that Mr. Ford is a prosperous manufacturer, and there is not another man in the whole United States who will pay the war tax more cheerfully. This country needs more such men as Henry Ford.

While the President has said that the United States is not making war on the German people, but on the Imperial German government, German-Americans will not find it a difficult matter to understand why the President made the distinction, if they will stop long enough to consider the Imperial German government through its secretary of state, made the threat to dismember the United States by backing Mexico in a war with this country, Mexico's reward to be the annexation of Texas, New Mexico and Arizona.

Press dispatches tell us the food speculators are already buying up crops of potatoes in New Jersey and other States. They are offering high prices and stand ready to take any acreage that may be assured to them. The success the speculators had last year in cornering the food crops gave them an opportunity to force the price of food to any figure they might desire, and crops of potatoes purchased in the fields last year from 50 cents to 75 cents per bushel, were bringing at retail this year as much as \$4 per bushel. Such acts as this are sufficient evidence to warrant the government in taking steps to control the price of certain food staples. It is not the growers of the food crops who get the benefit of the high prices, but the men who buy up the crops and store them with the purpose of exploitation. Something like normal prices should be maintained during war times, and the government has about conceded to take a hand in the matter and bring this about.

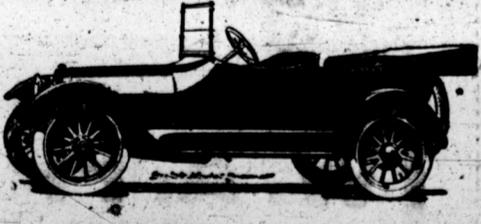

AMERICAN IMPLEMENTS IN USE IN PALESTINE

Associated Press Mail Correspondence. Cairo.—A report from the government's Arab bureau on the subject of agriculture in Palestine says: "In the neighborhood of Jerusalem a good deal of scientific dry farming is being carried on, the ground being kept loose by continual tillage. The Arabs do not use harrows, but the Jewish colonists have introduced the harrow and the American 'pulverizer' with excellent results. The ploughs chiefly in use in Palestine are the primitive Arab plough, and the German plough used throughout the Jewish and German colonies. British ploughs are said to be too heavy and the shape unsuitable. In the orange groves the American 'pulverizer' and American zig-zag harrows.

COMPROMISE REACHED ON MAIL RATE MEASURE
