HEAVY REGISTRATION---EXPECTED TROUBLE FAILS TO DEVELOP

REGISTRATION IS VERY HEAVY HERE

ALLOTMENTS OF CARDS EXHAUSTED EARLY IN AFTERNOON IN SEVERAL PRECINCTS.

MEN STAND IN LINE

Registration progressing smoothly and as rapidly as could be expected.

Registrations in Wichita county for the army draft will far exceed estimates and may run higher than 3,000. Early this afternoon supplies of registration cards, of which the county had been allotted 2300, had been exhausted in several precincts, and hurry orders were given printers for more cards.

The registration in the county is progressing smoothly and as rapidly as could be expected, and if any are not registered by nine o'clock tonight, when the registration places will close, it will not be because the registration officers were unable to wait upon them.

Long before seven o'clock this morning there was a line of men at the city hall, waiting for registration. All day at all the registration places in the city, there have been long lines, and at the city hall it has been a jam. There has been no disturbance and no disorder, everything has gone more quietly than the most orderly election day. The registration up to two o'clock has surpassed the expectations of county officials, and there was no let up. Burk Burnett had registered over three hundred. A shortage of cards there caused a new supply to be rushed in. The county had two thousand and three hundred cards printed, on account of the heavy returns they have secured an extra five hundred.

Red Cross girls were stationed at the different registration places and they rewarded each man who registered with a small blue ribbon which entitles him to a seat of honor at the patriotic rally to be held tonight at the city hall.

A few of the young men who were waiting for their "ticket to France" appeared gloomy and wore a dejected and doleful air, as if they were picturing themselves ready to die in the trenches. A great many, however, were light-hearted enough, apparently. It seems certain that registration is going to be a complete success here. It is an inspiring sight to watch the long lines of young men, the good and bad, the loafers and the flower of the county, waiting patiently for their turn. There has been so much talk of indifference on the part of the people of Texas that it is somehow reassuring to hear the comments of the boys in line.

At two o'clock the registration for the four city precincts that are taking names at the court house amounts to 925. About one hundred and fifty had registered at the city hall, making the total for the city well above eleven hundred.

Burk Burnett has registered over three hundred and fifty. A shortage of cards there caused a new supply to be rushed in. Alandale reports sixteen, and Edinger about four hundred.

J. B. Marlow, with characteristic liberality, provided free sandwiches and lemonade at his office at the corner of Seventh street and Indiana avenue to all who registered and to the Boy Scouts, who took part in the parade. Mr. Marlow impressed a number of his employees with sandwiches and bread and meat for the sandwiches and in ladling generous scoops of lemonade.

MONGOLIA AGAIN FIRES AT GERMAN SUBMARINE

By Associated Press. London, June 5.—The American steambship, Mongolia, fired four shots on June 3 at a German submarine which discharged a torpedo at the liner. Neither the Mongolia nor the submarine was damaged.

REGISTRATION DAY

By the Associated Press. America is stepping forward today to do her part in making the world safe for democracy. In every city and town in the most remote valley, hamlet and the wildest mountain cross roads 10,000,000 sons of liberty are inscribing their names on the honor roll of ages, that the free governments for which their fathers died, may not perish from the earth.

White, black, married or single, well or sick, alien or native born, even enemy subjects to the German power, all men between the ages of 21 and 31 are expected to present themselves between 7 a. m. and 9 p. m. for registration. It does not matter that a man for any reason is unfit for duty, that will be established later; it does not matter that he be entitled to exemption from army service, that will be attended to in other ways. It does not matter that he is not a citizen of the United States, every man between those ages is required to register today unless he is already in military service in some branch or other. The war department's registration primer must show this.

Who must register?

All male persons (citizens or aliens) born between the sixth day of June 1886 and the fifth day of June 1896, both dates inclusive, except members of any duly organized force, military or naval, subject to be called or ordered into the military or naval services of the United States, including all officers and enlisted men of the regular army, regular army reserve corps, enlisted men's reserve corps, National Guard and National Guard reserve recognized by the militia bureau, the navy, the marine corps, coast guard, naval militia, naval reserve force, marine corps reserve and national naval volunteers, recognized by the navy department.

When?

Today between 7 a. m., and 9 p. m.

Where?

In your home precinct.

How?

Go in person to the registration place of your home precinct.

If sick, send a friend. The clerk may deputize him to prepare your card.

Penalty for not registering.

Liability to a year's imprisonment, then enforced to register.

To be registered is not to be drafted. That is another step in the great plan. As each man registers today he will be numbered, and at another time the numbers will be chosen for service by lot. Not until then will any man know whether he is to be drawn for the first increment of 650,000 men, who probably will be called to the colors for training early in September before they go to the battlefields of northern France or the trenches of outraged Belgium.

After the men have been drafted the questions of exemptions will come up to be decided by fair and impartial boards. They will determine whether physical or mental defects debar a man from service or whether the dependence of others on him or the country's need of him in civil life make it necessary to exempt him from service at the front.

In the meantime, today's duty is registration. The long arm of the federal law is reaching out to those who seek to evade this first duty to which all have been called and to those who by counsel or influence seek to prevail upon others to shirk it.

Of the approximately 10,000,000 men who are registering today the census bureau estimates that about 4,500,000 are married and about 5,500,000 are single. The provost marshal general's office estimates the number of men subject to register today at 10,264,898. They are scattered throughout the states of which Texas is shown to have 425,320, Oklahoma 215,312 and Louisiana 171,883.

Registration for Hawaii and Alaska will be arranged later.

While an approximate report of the results of the registration may be published in morning papers tomorrow it will be several days before a complete return can be assembled.

Hiding in Woods, Heavily Armed Anti-Draft Farmer Battles With Poses, Monday.

By Associated Press. Fort Worth, Texas, June 5.—E. H. Fulcher, a member of the Farmers and Laborers Protective Association, who had hidden himself in the woods heavily armed for the announced purpose of resisting conscription, was shot and killed near Midway yesterday by a posse of officers from Hood and Palo Pinto counties, headed by the Sheriff of Hood county and Deputy Sheriff Witt of Palo Pinto county.

The officers were seeking to arrest him on warrants charging him with wife beating. His home was just on the line between Hood and Palo Pinto counties and indictments had been returned against him in both counties.

Word of the threats which Fulcher had made in regard to resisting conscription had reached the officers and on that account they took a large posse when they went to arrest him. When they reached his hiding place he attempted to fire on the officers but missed his mark and before he had time to fire again was riddled with bullets from the posse.

Fulcher lived long enough to count 23 gunshot wounds in various parts of his body.

A marriage license has been issued to Eddie Knieff and Miss Florence Austin.

NO DISTURBANCES REPORTED TODAY

FEW ARRESTS REPORTED OVER COUNTRY AND NO ORGANIZED RESISTANCE DEVELOPS.

ALL QUIET IN TEXAS

Early Reports Indicated Heavy Registration Throughout State—Weather Generally Fair.

By Associated Press. Washington, June 5.—Registration proceeded generally without disturbance throughout the country, and the few arrests reported were considered by officials, not as any evidence of organized resistance, but rather as sporadic affairs to be expected in an undertaking of such magnitude.

Weather generally was fair, and incoming reports indicated a healthy registration during the early hours and continuing as the day passed on. The extent of evasion will not be known until complete returns are assembled, but officials are confident it will be negligible.

HEAVY REGISTRATION IN TEXAS INDICATED

By Associated Press. Dallas, Texas, June 5.—Loyal Texans of fighting age marched to the registration places by the hundreds and thousands today to place themselves at the disposal of the government in the war against Germany. Reports received up to noon today show that none of the trouble which had been expected because of anti-conscription agitation, had developed. If there are those who intend trouble, they are keeping it in the background, waiting for the authorities to come and get them.

Most reports indicate that the average person registering is unacquainted with the law, but the service of his country. The Texas quota of men between the ages of 21 and 30 who are available for service is 425,320. On the basis of registration here and at other points, officials believe this figure will be easily reached.

In Dallas the opinion was expressed that the voting strength of Dallas county would be exceeded. The registration officials in this city were simply swamped with work. Ten thousand men had visited the booths before noon.

ZEALOTS IN ANTI-DRAFT PLOT HELD FOR FEDERAL GRAND JURY

Three young zealots, two boys and a girl, were taken into custody by United States agents, the first persons arrested in connection with the propagandist against the draft bill. For several hours they remained prisoners in the federal building, New York, and were then released in \$1,500 bail each, returned to the court house before breaking up the line of march.

Tonight there will be a patriotic mass meeting at the Wichita Theater when the young men who registered today will be honored and a division set aside for them in the lower floor of the theater. The program will include speeches by Mayor Britain and other prominent citizens, stirring patriotic music by Taylor's band, which gives its services for this meeting, and some vocal selections. The public is urged to show its patriotism by attending this meeting.

The boys are Owen Cattell and Charles Francis Phillips, students of Columbia. The girl is Eleanor Wilson Parker, a graduate of Barnard. Cattell's father is Professor J. McK. Cattell of Columbia. Phillips' father is a wealthy manufacturing tailor. The girl's parents live at Asbury Park, and it is stated that one of her ancestors, responsible for the "Wilson" in her name, signed the Declaration of Independence.

FINAL ATTEMPT TO CLEAR MUDDLE

UNIVERSITY REGENTS GATHER IN INFORMAL SESSION AT CAPITAL TODAY.

GOVERNOR OBDURATE

Now Rumored He Demands Dismissal of Additional Faculty Members as Price of Peace.

By Associated Press. Austin, Texas, June 5.—A final attempt to clear up the University of Texas muddle and save the appropriations of over a million and a half dollars for the next two fiscal years is being made here today at an informal gathering of the regents. J. N. Mathis of Brownham, who was appointed by the board to try to reach a compromise with Governor Ferguson was closeted with the chief executive for two hours this morning.

The result of the conference will probably be laid before the members of the board this afternoon. All the members of the board are here except W. R. Brooks of Sherman and Dr. S. J. Jones, the latter being ill at Lynchburg, Va. It is rumored here that the governor has added the names of several more faculty members to the list of those whose resignations demands and states that he will sign the appropriation bill only on condition that they are ousted. This report, however, could not be confirmed.

I. W. W. AGITATORS CAUSE TROUBLE IN MICHIGAN

Lansing, Mich., June 5.—Governor Sleeper today wired orders to the commanding officer of Company M-33rd, Michigan infantry, at Marquette, Mich. to hurry to Negaunee, a nearby mining town with 25 National Guardsmen. Reports from Negaunee to the governor said that I. W. W. agitators there were threatening to forcibly oppose registration.

ATTEMPT TO WRECK GENERAL WOOD'S TRAIN

By Associated Press. Birmingham, Ala., June 5.—It was learned here today that an attempt was made to wreck the Alabama Great Southern train which bore General Leonard Wood from Chattanooga to Birmingham, last night. Passengers from the train confirmed the report that a large log was tied across the track about four miles out of Chattanooga.

MEXICAN SOLDIERS WILL BE TAUGHT TO SING

Mexico City.—Hereafter singing will be part of the instruction given the Mexican army. The soldiers will be taught marching songs and also will be given instruction in chorus singing. The enthusiasm caused by the singing of some of the soldiers during the reviews incident to the celebration of General Carranza's inauguration and the celebration of the national holiday on May 5, was responsible for this decision by the department of war.

PRESIDENT GIVEN OVATION BY U. C. V.

REBEL YELLS RESOUND AND HATS GO INTO AIR WHEN MR. AND MRS. WILSON APPEAR.

75,000 VISITORS

Including 5,000 Veterans Throng National Capital—Judge Scurry's Party Receives Notice.

By Associated Press. Washington, June 5.—Veterans of the Confederacy gave President Wilson a tremendous ovation here today when he welcomed them to the national capital at the opening meeting of the 27th annual reunion. As the president, accompanied by Mrs. Wilson, ascended the platform, the soldiers waved their hats and the hall resounded with the famous "Rebel Yell" of the sixties.

President Wilson told the warriors from Dixie that the country was glad to remember the heroic things done on both sides in the war between the states and that there were many things which make one proud to have sprung from that stock.

"This is a day of memories," the president declared, "and yet the world does not live on memories. Some things," he said, "we have thankfully severed, one of which is the divisions of strife which threatened to separate the country half a century ago."

A strong note of patriotism marked the opening exercises. The presence of nearly 5,000 veterans and 75,000 visitors gave promise of making this one of the largest reunions ever held. The Confederate Veterans were welcomed by Grand Army Veterans, on this their first meeting north of the Potomac.

Judge Edgar Scurry of Wichita Falls, Texas, was accompanied by a bevy of pretty sponsors and maids of honor whom he called "Prides of the Prairie."

GERMAN WIRELESS HAS BEEN IN U. S.

After Making Plans For Operations In This Country He Left Probably For Mexico.

By Associated Press. New York, June 5.—The police announced today that they had information that the head of the German wireless system came to this country made plans regarding wireless outfits and other details through which information was to be conveyed to Berlin before dawn this morning and then departed, probably to Mexico.

FOUR DIE IN TRAGEDY IN TRAVIS COUNTY

By Associated Press. Austin, Texas, June 5.—The charred bodies of Bruno Herrold, his wife and their two children, were found in the ashes of their home about 16 miles north of Austin after neighbors had hurried in the direction of the blaze just before dawn this morning and tried in vain to check the flames.

Justice of the Peace Goerdel of theflugerville precinct, conducted an investigation, the verdict being murder and manslaughter. The circumstances seem to show that Herrold, who was a German farmer, shot his wife, killed his two boys, aged 9 and 11, with a blunt instrument, then poured gasoline on the bed, set it afire and turned a bullet into his own heart. Mrs. Herrold was in bad health and physicians had advised Herrold to take his wife to another climate. It appears that his creditors were bad and that he was in debt to a number of persons. It was believed that he had allowed his troubles to prey upon his mind until he became desperate.

REPORT AIR RAID AT NORTH OF THAMES

By Associated Press. London, June 5.—Official announcement is made that an air raid is now in progress over the Thames estuary. One German airplane is reported to have been brought down. Bombs were dropped over Essex and Kent.

SIGNS HERALD BIG OFFENSIVE ON WEST FRONT

The Associated Press war summary today says: All the familiar signs which herald a great offensive are reported from the British front in France, and everything points to a near approach of a resumption of fighting on a great scale on the western front. The thunder of British guns increases daily in volume, while trench raids and other fighting for possession multiply in number. The most interesting feature in the meager official reports is the repeated announcement of a tremendous artillery duel in progress around the little Belgian village of Wytscate, about five miles south of Ypres.

SERIOUS RIOTING IN ILLINOIS PRISON

1200 CONVICTS AT JOLIET GO ON HAMPAGE AND DRIVE GUARDS OUTSIDE.

TROOPS ARE CALLED

Early This Afternoon All But 200 Convicts Had Been Forced Into Their Cells.

By Associated Press. Joliet, Ill., June 5.—Serious rioting among convicts at the state penitentiary here broke out this morning. Five buildings were set on fire. Companies E and F of the First Illinois Infantry now in the federal service and encamped near here were called to assist the guards in quelling the disturbance. The prison is on the outskirts of the city. Three fire companies which responded to the alarm met with opposition from the convicts who used bricks and tools stolen from the implement house as weapons. There were some knives among them also.

There are about 1200 convicts and 50 guards. The situation soon got beyond control and Temporary Warden Bowen telegraphed to Gov. Low even for the military. For some time there have been reports of lax discipline at the prison and conditions were the subject of an investigation by a legislative committee. Warden Zimmer resigned recently voluntarily. Bowen has been acting temporarily. Yesterday, in the interest of discipline, he instructed heretofore that no visitors except relatives would be admitted to the grounds. Anger at the first order made itself apparent at breakfast today. Dishes were hurled at the guards, tables overturned and the convicts surged into the grounds, shouting and making threats. Firemen from the city responded to the fire alarms but were opposed by the convicts who threw bricks at them or engaged in personal encounters.

Three hours after the trouble during which several fights between the firemen and convicts occurred the convicts had not been subdued but the soldiers were making steady progress in herding them towards the cell rooms.

At noon a battalion of the First Illinois Guard came upon the scene. Two additional companies had been sent for. Prisoners were herded in alleyways and angles formed by buildings.

At 1:15 o'clock all but 200 of the prisoners had been returned to confinement. The 200 were still in a corner of the yard. Soldiers were not allowed to enter and they were jeered by the convicts.

FARMER CALLED TO DOOR OF DEATH AND SHOT TO DEATH

By Associated Press. Guthrie, Okla., June 5.—M. M. Meek, a wealthy farmer living near here, was shot and instantly killed here this morning when he was awakened and opened the door of his home at the summons of an unknown man. Meek is said to have attended an anti-house thief meeting last night, where the kniser was denounced.

"I'll get you," the stranger is reported to have said in a broken voice. Meek opened the door and the assassin searched for the murderer.

EXODUS OF MEXICANS SLUMPS AT LAREDO

By Associated Press. Laredo, Tex., June 5.—The exodus of Mexicans slumped considerably today not more than 65 having crossed the border here by noon. It is estimated 1,500 crossed yesterday. Many of whom were women and children. Fear of being drafted into the army is said to have been responsible for the exodus of the male Mexicans.

ANOTHER RAID BY MEXICAN BANDITS

Kill American Rancher, Assault Daughters, Mistreat Wife and Beat Young Son.

By Associated Press. Mission, Texas, June 5.—Word was received here today of renewed raiding by Mexican bandits in the lower Rio Grande valley. An American rancher, name Garcia, was slain, his five daughters assaulted, their mother mistreated and a young son seriously beaten by raiders south of San Fordyce. After looting the ranch the raiders returned to Mexico. Texans are planning to deal with bandits along drastic lines.

A surprise in biscuits

When my mother brought in the plate of hot biscuits she said: "Thank goodness they turned out light! Your Cottolene certainly does make them light."

She meant the Cottolene that Mr. C. had given me to try.

My small sister teased Mother about butter, because Mother had always sworn by butter for biscuit making.

But Mother had to admit that Cottolene was quicker and easier beside being cheaper than butter—and yet that Cottolene biscuits tasted every bit as good as butter biscuits. She said she had never seen a shortening that mixed as evenly and smoothly as Cottolene.

The biscuits were rich and crisp with a delicious flavor.

OUR FLAG IN FRANCE.

Up with the flag in France, lads, up with the flag in France!
As the dawn-rays rising overseas, so be its bright advance:
The dawn-rays flaming on the sea, the morning round the world—
Long and dark was the night to us, while the Stars and Stripes were furled!

Out with the sword in France, lads, out with the sword in France!
As the sudden gleam of a twilight star, so be its flashing glance:
A star that brings a mighty hope to a people worn and pressed:
Glad were they for the kindly word, but the helping hand is best.

Follow the guns in France, lads, follow the guns in France!
Take with those on the foremost line the brave man's fighting chance:
There's a people here behind you, whose dreaming hours are past,
Who will send you forth with a swelling heart, and back you to the last.

Fight for the world's defense, lads, as your fathers fought before,
For truth and right against ruthless might, for freedom's cause once more!

Though the way be long and the hazard strong, for glory or mischance,
Up with the flag in France, lads, up with the flag in France!

INTERIOR BASHARA HOME RICHLY AND TASTEFULLY FURNISHED

One of the show places of Wichita Falls and that will rival any in the state for elegance and artistry of structure and decoration is the Bashara residence, just finished by the decorators and occupied by M. J. Bashara, one of the oil magnates of this section, and his very interesting family. Very prepossessing as to exterior, the interior is far more beautiful and with its suggestion of Eastern luxuriance in the exquisite rugs and tapestries which form an important part of the furnishings it is but the expression of the nature and taste of the owners, for both Mr. and Mrs. Bashara are natives of Syria, though they have been in this country since childhood. The entire lower floor is decorated with a color foundation of rose and dark ivory, the walls being paneled with hand decorations. The lights are in antique candelabra effect with rose shades. The living room which opens out of the reception hall, is high ceilings with paneled walls and side lights, in twin candelabra. There is a hand-carved Italian mantle-piece, faced with marble in the living room and French doors open onto the wide porch, and the reception hall. The statelyness of the high ceiling and massive mantle is enhanced by the tapestry and mahogany chairs and there is a Sheraton table of mahogany quite in keeping with the general atmosphere.

The dining room is to the right of the reception hall and is in rose, ivory and mahogany with tapestry hangings with a terracotta mantle-piece with figures in bas relief. The furniture is of mahogany in Wiam and Mary period. There is a breakfast room just off the dining room and a butler's pantry connects it with the kitchen, which is all in white enamel or tile, from the big range to the finest drawers where dish rags or such like are kept.

The broad stairway is directly in the center of the house, leading up from the reception hall, which like the adjoining room is a masterpiece in mahogany, antique ivory and rich tapestry. On the landing is a nook dedicated especially to the man of the house, a smoking den fitted up in Kaiser (this color was named before the war, no lack of patriotism) gray wall, with easy chair, magazine rack, long settee and a floor lamp of willow with shade of cretione corresponding with the window drapes on the landing.

There are four roomy bed rooms, two bathrooms, quite an commodious as an average bedroom and a sleeping porch on the second floor. This entire floor has the walls and ceilings done in a light ivory, much lighter than the lower floor, and like the downstairs the walls are hand-decorated in colors to correspond with the furnishings of the individual rooms.

The guest room is furnished in ivory enamel, bed and chairs being paneled in cane. The furniture is decorated with carved wreaths of flowers in self-color. Rose furnishes the color base for rugs and draperies here.

The two younger boys have a bed room and dressing room together, furnished in the perfect taste that characterized the entire house. Bed and other pieces of furniture are of Circassian walnut.

The older son has a room also furnished in Circassian walnut and with study desk and other fittings for a more mature youth. French windows lead to a small porch for his private use.

The art of the decorator and the cabinet-maker, however, is absent of their very best in the bedroom of Mr. and Mrs. Bashara. Imagine a poem of springtime and birds and flowers crystallized into ivory enameled wood and there is had the best description possible of the furniture of this room. There is an ivory carved mantle-piece in perfect harmony with the beautiful furniture, which is covered with flowers and wreaths and inset with cane panels. And for the mistress of the house there is an ivory wicker chaise

longe with rose figured tapestry upholstered on a pillow. The sleeping porch is furnished in ivory, hung with a flowered chintz and illuminated by a floor lamp of wicker and other lights with wicker and cretione shades.

Wicker chairs or lounges are in all of the bedrooms, combining comfort and daintiness. Another feature which each room possesses is the full length bevel plate French mirrors in each closet door. Each room also has in addition to the ample closet a small dressing room.

The bathrooms are all in ivory, with tiled floors and built in tubs with all conveniences. Here as elsewhere the decorators put dainty touches of color on walls and ceiling. The lighting is by electric design, luncheon cloths, napkins and other small pieces in ivory and in Madeira embroidery. One design that has peculiar value attached to it is a set in which some of the Persian kings and queens are worked in medallions of embroidery so fine as to resemble lace. This pattern, a favorite one in the family, also appears in the rug designs.

There are other things about the house which while not quite as beautiful and pleasing to the eye as the tapestries, rugs and linens or the perfect furniture are equally perfect to a housekeeper. These include the laundry, the store room and the furnace room. Stationary tubs, and an indoor heating rack which dries the clothes "while you wait," make up the laundry equipment complete. When it's cold the house is made hot with hot air, and vice versa, a cool circulating system being located in the basement. There is also a vacuum cleaner in the basement and to clean any part of the house it is only necessary to attach a small hose to the socket, which is present in every room. There is a laundry chute on each floor leading to the basement. A very commodious storeroom is also in the basement. At the other end of the house the attic is a playroom fitted up for the small boys and their friends. A billiard table and some gymnasium equipment will be installed here.

All the porches, front and back are tiled and the front porch space, upstairs and down has been made into open air living rooms with rustic and willow furniture.

There is a roomy brick garage of the dark brick like the residence. Below there is room for three cars and all equipment necessary for a modern garage. The second floor is a servant's apartment, two large rooms

WEEDING OUT NOW IN PROGRESS

NO LET UP OF DISCIPLINE AT CAMP HOUSTON—MANY HAVE BEEN DISMISSED.

LEARN NEW LESSONS

Second Month of Training For Officers Find Men Hardening Rapidly.

By JOHN GOULD
 Camp Funston, Texas, June 4.—The once verdant green of the olive drab now has a brownish tinge, or has faded to a sickly white; per contra, the once sickly white of some complexions has tanned to a healthy ruddiness. The rifle is lighter than it was, and the list of black marks in the skin book is heavier. Beans, hash and bottled potatoes aren't so bad for dinner when one has been drilling in the open all morning. The shower bath is some degrees warmer. The service hat has lost much of its smart crispness, and droops appreciably.

All of which is by way of setting forth that the thirty-odd Wichitians and some 2400 others at Camp Funston, where, under Uncle Sam's tutelage, they are trying to learn the first principles of officering, are a few small degrees nearer the stage of black and gold hat-cords and such. That is to say, there are about 2400 at this writing. But it is a long, long way from Leon Springs to the Marine Corps, long way from a rookie to a commission.

There have been some depletions in the ranks since last writing, and 100 or more have gone back to the existence among such things as butter, bath-tubs, table-cloths and like luxuries, before the signal. In the print there will be still more familiar faces missing when the top sergeant calls "Fall in." Uncle Sam is willing to do his best to make officers out of American youths, and pay them \$3.33 1/3 cents a day for the chance, but he is too busy at this stage to waste his time on those who manifestly haven't the makings of those who so far have been called on for resignations, many were deemed too young, in either years or appearance; other, a few, had been found not amenable to camp

and a hall and bath, very nicely finished. The cement driveway goes under a porte cochere at the side of the house, over which is the sleeping porch.

Children of the Family.

The family has been here since September, the sons entering the public schools at that time, and they are no longer strangers in Wichita Falls, Mr. and Mrs. Bashara were born in Beirut, Syria, and both came to the United States in their teens. Mr. Bashara has been in Texas for 26 years, being first at Beaumont and other East Texas points and coming to Electra seven years ago. The mistress of the home is of a brunette, eastern type that fits in well with the luxurious surroundings of the home, and it is hard to believe that the oldest son, Abe, a high school student, is not the younger brother of the youthful diplomat matron, rather than a son. There are two younger boys, Joe 11, and Sam 9. They are in grammar school. The oldest boy during his first year in the local high school, has become active in the school life, in vice president of the freshman class, an officer in the Boys' Club and distinguished himself in the debating club as well. The family are Eusebiopolians.

The local firm of Madole and Field were the architects and the residence was built by Taylor Bros., a local firm of contractors. J. L. Strassel and Company of Louisville, Ky. were in charge of the decorating their their representative, Mr. Beck.

discipline. With others, the physical strain proved too severe. With still others, men with good physiques and good education, were found just simply not officer material.

The right kind of the camp has not slackened to any appreciable extent. On the contrary, it has grown stiffer in spots. The word discipline, meaning discipline that counts on the camp. Men who haven't been in the habit of taking orders are getting into the habit.

The men whom you will command when you get your commissions must be disciplined as no other army in the world's history has been disciplined. It is made clear that there is nothing personal in the dismissals or requests for resignations that have been made. This does not take all of the sting out of course. The situation here might be viewed in the nature of a football or baseball team's training camp at the opening of the practice season. Many are let out, but few are to be chosen. When it is figured that probably not over 500 or 600 officers will be commissioned from Camp Funston, the individual percentage will be found rather small.

It must be a man's size job, that of the instructors in charge. If they make a mistake, and commission a youth who is not entirely fit to lead in battle, that mistake is going to cost like thunder, sooner or later. It isn't like so many of the mistakes in civil life, when you can rub it out and start over again, or get a suspended sentence; mistakes in war can't be corrected that way. It's a tremendous responsibility that of the officers who serve as teachers here, and it extends, in a sense, to the thousands of Americans ever when the finished products of their careers are commended.

The job is that of taking four years of West Point instruction, boiling it down to fit a three months' session, and then shooting it into those who can assimilate it fast enough, and discarding those who can't.

There is no monotony about the instruction. Some of the boys were thinking the other day that life had just a little too much sameness from day to day, when they were taken out on the practice and given a few hours of skirmish rushing, one lies prone on the practice, with a mesquite bush on one side and an anthill on the other, with a row of his comrades to keep him company. At a given signal, he springs up, rushes the top step for a few hundred yards and at the signal "down" he again goes flat. This is best accomplished by a headlong dive, landing on the right shoulder and skidding along on it for a few yards, holding the rifle out of the dust with the right hand. If you land in a case like that, your arm has just had a "shot" of typhoid bacteria, that is your hard luck, and you get lots of sympathy. Yes, lots of such things are part of a feature of the day's work, like the bayonet exercise, in which you are so busy trying to keep from stabbing the man in front, and trying to keep the man in the rear from stabbing you, that at the same time trying to watch the instructor's signals, that you forget how heavy your rifle and bayonet are. Like the "voice culture" class, in which you practice giving orders, with the proper pep; you laugh exultantly at the hesitant falsetto of the man next to you, and wonder why the others laugh when it is your turn to shout "Squads right, platoons column-left-march!"

Nature's own class rooms are used for the conferences or lectures. The entire company, and there are 150 to 200 men in each, is seated around the instructor in some shady wooded spot, if there is one, and in some sunny spot if there isn't.

The camp is not without its lighter side, at the proper time and place. The third infantry band is stationed here, and gives a concert every evening after retreat; it is a very excellent band, too. Boxing matches furnish one popular form of diversion, in the whole there is not much time for frivolity, however, and one learns to enjoy in studying and cleaning his gun the time that he might use in hunting amusement.

Ladies are fairly frequent visitors to the camp, especially on Sunday, and after retreat on week-days. They are not taken for granted, however, and when a rookie wants to take a bath, he undresses in barracks and starts for the bath house in the rear. Sometimes he wears a towel and sometimes he doesn't. The army ponch is used by some in place of a bath robe; this poncho is a large square of rubberized material, with a slit in the center to poke your head through. It is no doubt of much value in keeping one dry in wet weather, but as a concealer of one's person, it is a total failure. Speed rather than attention to the niceties of the moment, is essential at bathing time, which starts at 2:42 and ends at 3:27, when restrooms are open. In that hour, one must bathe, shave, shine and otherwise remove the signs of the day's toil from himself and his belongings. Being late is not

Liberty Insurance

By Charles Buxton Going of the Vigilantes.

A Liberty Bond is actually an insurance policy, issued by the United States, which guarantees the return of the full face value. But instead of asking you to pay any premium, the United States pays premiums to you.

What does your bond insure? Life, Liberty and the Pursuit of Happiness. Is anything more vitally important? What protection would you find in a policy on your house, your goods, your health, your old age, if your country should suffer the fate of Belgium, of Serbia, of Poland, of Roumania, of northern France? What would the underwriters have left with which to reimburse you for the loss of your property which would be left of you to profit by the payment?

Make no mistake. The peril is real. VIVID, swift to leap upon us unless our defenses are ready. True, we have power in abundance, men, talents, resources. But they cannot be mobilized for our protection until we have first mobilized our money. That is what the Liberty Bonds will do.

There should be imposed unnecessarily to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the Government in financing the war.

Too many of us seem to be taking the view that the other fellow or the rich man ought to buy the Liberty Loan Bonds and haven't taken our duty, privilege and opportunity home to ourselves.

Having been the author of the original bill to establish in Northwest Texas a government fish hatchery, and having secured its passage through the House of Representatives by having it included in the omnibus bill which should, in my judgment, qualify me to speak authoritatively on the subject of its location. I certainly never dreamed that it would be located outside of my congressional district.

Washington, May 25.—Secretary Redfish has ordered the San Marcos, Texas, fish hatchery closed. The hatchery, which has been in operation for three years, has failed to produce fish adequate for the protection of the fishes and giving fishermen a fair and free right to conduct operations.

John H. Stephens. Possibly Wichita Falls may be an exception to the general run of South western cities, but certain it is that in spite of all the conservation and economy talk that has been broadcast since the war began, and the popular opinion that times would be dull, there is nothing in the business life of this city to indicate that there is a war on, or that business is not better than has ever been known in the city.

Rev. P. C. Cross this morning united in marriage Edward Koppief and Miss Florence Austin, both of Pleaster, the ceremony taking place at the Hearne hotel. Mr. and Mrs. Koppief will make their home on a ranch on the plains owned by the father of the groom.

One of the world's greatest statesmen, when he was asked to name the first requisite for successful war, replied with emphasis, "Money!" And the second requisite? "Money!" And the third? "Money!"

Kansas City Star. Chickamauga Park, Tenn., June 3.—Mothers who are worrying about what is going to happen to their boys, who may be called to the colors under the provisions of the Selective Army Law may rest easy.

Bothered the Sergeant. On arrival at Jefferson Barracks the following morning the recruits were told to wait around until their names were called, and not to go to themselves and during periods at drill and after retreat they may be seen congregating in little groups, talking in their own language.

Camped in a Lovely Park. Chickamauga Park is indeed a most delightful place than the camp at Ft. Pazo and some of the boys even have gone so far as to say that it is a paradise compared to the barracks. Camp is in the midst of a forest with green mountains and shady trees all about.

and what is more quite a few of the boys go back for "seconds." So it must be good. Bill has learned that all a soldier has to do is what he is told—no more, no less. The other day a platoon of men were sent to get wood to burn or up some logs for the kitchen fire.

More Foreigners in Army. Many young Poles, Italians, Russians and other foreigners have enlisted in the various companies every other name called out seems to be a foreigner. "Klondyke" or "Klondyke" is trying on the tongues of the noncommissioned officer, and there is usually a chance to laugh as he stumbles over the tongue.

Two Inspirations for Universal Service. Washington, D. C., June 5.—The staff conference has seen universal service for the purpose of national protection and universal service which builds up a system of military despotism is set forth in a communication to the National Geographic Society by Granville Fortescue, the military expert. A portion of Mr. Fortescue's communication is issued by the Society as the following bulletin.

Contrasting the French with the German army, we discover, though both are grounded on conscription, they are radically different in their inspiration of service. The French and the German armies are completely separate in soul. History gives us the analogue of variance between the French and German military systems in the story of Greece and Rome. The Roman armies were organized for conquest, with the aim of spreading Roman "culture" to the southernmost boundaries of Carthage and the northernmost villages of Gaul.

38 GRADUATED FROM HIGH SCHOOL

CHIEF JUSTICE PHILLIPS DELIVERS INSPIRING PATRIOTIC ADDRESS AT COMMENCEMENT.

HONORS AWARDED

Scholarships Bestowed And Gold Medals Awarded By Dignitaries of Revolution.

The largest class ever graduated from the Wichita Falls high school received diplomas Monday night in the annual commencement exercises of the school, held at the Wichita Theater. Diplomas were awarded to thirty eight.

The commencement address was delivered by Judge Nelson Phillips, chief justice of the Texas supreme court. Judge Phillips was introduced by W. J. Hullock, president of the school board, who said the people of Wichita Falls took it as a compliment that Judge Phillips would leave his work and come several hundred miles to speak here.

Judge Phillips' address was a masterful discussion of the relations between education and citizenship and was an inspiration to the large audience that filled the theater almost to its capacity. Judge Phillips apostrophized the hardy and resolute pioneers who had founded the Republic of Texas and the Republic of the United States. He said that it was his wish and prayer that Texas "retain its typical character, the character given it by the fearless, resolute men who founded the Republic." He told these men had set apart a large part of the land of the Republic for educational purposes and had given "this state a mold and fibre that has been its chief glory" and which the education for which they provided was purposed to perpetuate.

"As a man thinks, so he is," declared Judge Phillips. "And as he is educated, so he is likely to think." He said that education was the "quest after truth and that being educated was the ability to recognize the truth." "I value an educated man and think he ought to be valued for what his principles are," said the chief justice. "He declared he would not permit a child of his to take instruction from a teacher who doubted the constitutional government was the best government under the sun, or from a teacher who doubted the truth of the Christian religion."

"Education is a failure," he said, "unless it makes a patriot." No man can be a patriot who is out of harmony with those things for which his country stands. He said that the government and the government of Texas was the best government in the world because it was founded on a just balance between public right and public duty and individual liberty.

He said that an educated man loves his country and gives his devotion to the same spirit as Nathan Hale, who with his hangman's noose around his neck, declared that his only regret was that he had only one life to give to his country.

Mrs. S. H. Burnside, representing the Daughters of the American Revolution, presented, in behalf of the local chapter, a twenty-dollar gold piece to Miss Elizabeth Smith of the seventh grade, who made the highest average in American history, and also a gold medal to Miss Lucille Hull, the member of the graduating class making the highest honors.

Scholarships were awarded to Miss Hull and Miss Patsy Lou Koonce, who ranked first and second in scholarship among the girls, and to Russell Waite and Henry Akin, who ranked first and second among the boys of the graduating class.

MOTORCLUB REFUSES PROTEST AUTO TAX

Votes Down Motion to Send Protest to Washington By a Vote of 14 to 13.

A motion for sending a protest to Washington against the proposed automobile tax in the war revenue bill was defeated by a vote of 14 to 13 at the bi-weekly luncheon of the Wichita County Motor Club today. The motion was introduced by R. E. Huff, who said that if a tax was necessary, it ought to be levied in some other manner and not on the owner. J. G. Culbertson said that the House committee had rejected a proposal to levy the tax on the manufacturers, and declared a belief that it would be useless to make a protest. C. H. Clark argued that everybody ought to pay a share of the war tax, and said he knew of no other way in which so many could be reached as by an automobile tax. He said that the government must have the money and he for one did not want to throw any obstacles in the government's way. After Mr. Clark's talk, the vote was taken.

Others who were called on for talks were Clarence Dubose, staff correspondent of the Dallas News, and Mr. Bartlett of San Antonio.
Upon a motion, a committee of three was named to investigate and report to the club some plan for lessening the congestion resulting from the manner of parking cars on Eighth street and on Tenth street in front of churches.

An assessment of one dollar against each member was voted to defray the expense of the recent campaign for the road bonds.
The attendance was the smallest since the club was organized, most of the members apparently feeling that their work had been completed when the road bonds were carried.

WILL USE AUTOMOBILE IN BULL-DOGGING STEER
Howard Wilson continues to receive entries for the Oil Celebration and Roundup for the 15th, 16th and 17th. One of the most spectacular stunts of the entire show will be bull-dozing a steer from an automobile. This amazing trick will be pulled off by one Bill Pickard, a darky, generally known as the "Dusky Demon," from Oklahoma. Bill undertakes to deliver the goods on this, once every day of the roundup, provided, of course, there is anything left of him after the first day. He uses a Dodge car, loaned for the purpose by McFall Bros. & Orlin, and driven by a man imported for the purpose, Curly Griffith.

Lucille Mulhall, who won the state cutting horse contest this year at San Antonio against all comers, has entered her name for the cutting horse contest here. At San Antonio she cut six steers out of a bunch of sixty in three minutes and thirty-eight seconds. Other entries for the same contest are Tom Burnett, George Weir of Tuscola, Alex Kilman of Comanche, Oklahoma, and several others.

GERMANS BELIEVE IN ADVERTISING
Mexico City.—Germans in Mexico are firm in the belief that it pays to advertise. Each of the automobiles of the German embassy carries a German flag on the radiator, and many of the German consuls wear buttons with the Prussian double eagle in emblem on their lapels.

At one of the recent "novilladas" or bull fights in which the bull is not killed, the chief fighter planted in the shoulders of the best bull of the day two "banderillas," or short barbs which, on striking, broke out into German flags. German stationed about the arena led the cheers which followed.
Advertisements have been carried in the local papers announcing that the local German consuls would provide free instruction in the German language to all who wished to learn it.

MILWAUKEE CLUB NOW AT BOTTOM OF LEAGUE

Louisville, Ky. June 2.—A general shifting in the standings of the various clubs marked the week in the American Association pennant race only Indianapolis holding the same position at the end of the seven days period it occupied at the beginning.

That club's lead, however, was slightly cut down by the loss of five games out of seven played. All of these games were with Louisville and Columbus, which staged a see-saw race for second place through the week ending May 31.

Indianapolis began with two wins from Columbus on Decoration Day. Columbus held second place by a margin of two points by virtue of its Decoration Day double win, while Louisville was winning and losing at Toledo.

Minneapolis by a spurt in which that club won six out of seven games, moved from seventh place into the first division, taking fourth place vacated by Kansas City, which dropped into sixth place. Kansas City dropped five out of six games played.

St. Paul continued the winning stride begun last week, winning four out of five games and moving from sixth to first place at the head of the second division.

Toledo won five games out of eight played, taking third place at Louisville and moved out of the cellar into seventh place. Toledo made forty-eight runs and eighty-five hits in these contests, leading the league in both departments. Milwaukee, which at the beginning of the week held the top of the first division, won only one game out of six, and moved into the cellar position vacated by Toledo.

The week's record of games played, won and lost, with runs, hits and errors, including games of Wednesday, May 30, is as follows:

	P	W	L	R	H	E
Indianapolis	2	2	0	15	51	9
Columbus	1	4	3	37	66	17
Louisville	8	4	4	29	62	14
Minneapolis	7	6	1	32	55	31
St. Paul	5	4	1	33	54	11
Kansas City	6	1	5	21	55	10
Toledo	8	1	7	45	83	18
Milwaukee	6	1	5	19	47	10

WICHITA COUNTY RED CROSS

The first class of young girls in Red Cross first aid was held this afternoon at the M. E. Church, South, with Dr. L. E. Stripling as instructor. The classes will continue on regular schedule.

There are daily from 15 to 20 members of other Red Cross locals in this vicinity at the work room taking in situation that they may return home and instruct others in the work of making surgical dressings and other hospital supplies.

This afternoon the committee went to Electra to attend the meeting of the local there. A call has also been sent from Byers, and an organization there is an immediate prospect.

The practicality of Red Cross first aid instruction was demonstrated very forcibly yesterday in one of the department stores, when a young lady customer fainted during the "Dollar Day" rush. It happened there was a woman present who had been taking the first aid instruction and she promptly took charge of affairs, cleared the crowd away and when the doctor summoned arrived, had the patient sitting up.

PRIEST HAS BEEN TAKEN TO DALLAS

Member of F. and L. P. A. Arrested Here to Appear Before the Federal Grand Jury.

D. E. Priest, a machinist of this city, who has been in the county jail since Friday, on complaint of federal authorities, has gone to Dallas to appear before the grand jury there. W. M. Odell, district attorney at Dallas, wired for him last night. The federal grand jury at Dallas is investigating the activities of the Farmers and Laborers' Protective Association throughout the state.

A. A. Hernandez, a Mexican, and P. O. Claiborne are still in jail here, and so far have taken no action to secure a hearing. Hernandez was vice president and Claiborne doorkeeper of the F. & L. P. A. here.

The three men were arrested following an investigation into the activities of the association. According to findings of government investigators, the local lodge of the F. & L. P. A. was never initiated into the deeper and more violent purposes of the organization, as these purposes were manifested in other locals in the state. Only in the case of some of the leaders is there evidence of a character sufficient to justify positive action by the government.

With registration day passed and with the organizations of the Farmers and Laborers' Protective Association broken up, or in many cases voluntarily disbanded, officials of the government are of the opinion that no serious trouble will take place, unless possibly at isolated points.

SCURRY SPECIAL HAS REACHED CAPITAL

After Delightful Party, Gay and Happy, Reaches Capital with Bouquet.

The Times has received the following telegram, sent last night by W. Lindsay Bibb, a member of Judge Scurry's party attending the Conference reunion at Washington.

"The special train bearing Wichita Falls people reached Washington at noon today.
Judge Scurry, commander Texas Division of Sons of Veterans, his staff and official ladies in charge of the party made its presence known all along the way, with jest, laughter and song. A five hours' layover in Memphis giving opportunity for an automobile ride, gave added pleasure." "Yesterday, as we ascended a grand panoramic view of Lookout Mountain, Missionary Ridge, with its historic memories and associations and the picturesque Alleghenies, Sunday as we neared the city we were met by Chattanooga, Randolph Clark, our chaplain, brought us together for prayer.

Our charming chaperone, Mrs. Robert Thorburn, wields the scepter in her usual queenly style.
"We have just reached the capital, and our happy party with its buoyant anticipation of a wonderful round of pleasure."

COUNTY PRISONERS WOULD HELP COUNTRY

In Letter to Times Say They Are Anxious to Enlist and Go to Front.

A request that they be permitted to enlist in the United States army in any capacity whatever is made by the inmates of the Wichita county jail, in a communication addressed to the Times. The communication follows:

"Editor of The Wichita Daily Times: "Still we, the inmates of the county jail, request that you publish this letter in The Daily Times. We, each of us, whose names are signed below, request that we be allowed to volunteer our services to the United States government in any way it may see fit to use us. We are to a man with the President and the government of the United States. We, at least some of us, have broken the laws of the state but we ask a chance to make good and to enlist and go to the army and help our country, which is now badly in need of able-bodied men.

"We are not doing this to escape punishment for the laws we have broken, for we well know and realize that, to go in the army to France will be far more punishment than would be meted out to us here. We realize that our country is at war with an enemy that stops at nothing to accomplish its end and we to a man, would rather die than to be subject to a country like Germany."

Worth While to Investigate The Chalmers

Chalmers price for a Chalmers car gets you more for your money than anywhere else. At \$500 less it is inevitable that you must sacrifice many of the advantages you get in the Chalmers.
At \$500 more you merely get extra cost of production.
You do not get, we believe, any more value. The Chalmers car is moderate in size, yet equal in comfort and carrying capacity to any other high grade car.
We can show you evidence of Chalmers supremacy that will surely convince you that it is worth your while to carefully investigate the Chalmers before selecting your new car.
Come in and let us tell you of the complete line and give you a demonstration of the Chalmers standard six-cylinder motor.

BRITISH LIMIT USE OF WOOL IN CLOTHS

Associated Press Mail Correspondence. London.—In order to maintain the supply of clothing for the essential needs of the civilian population and to prevent extravagance in dress, the Central Wool Advisory Committee recommends that a limited number of standardized cloths should be manufactured for the home trade and be the only fabric of wool. It has been ascertained from a recently taken census that there is enough cloth in the country to clothe the population, with reasonable economy, for a year. This is the greatest possible quantity of raw wool to be used for army purposes, the requirements of which are likely to be increased by the entry of America on the side of the Entente allies.

AFTER LONG ABSENCE IN ARCTIC
MAC MILLAN PARTY REPORTED SAFE

MACMILLAN (LEFT) HIS SHIP DIANA AND BARTLETT (RIGHT)

All the members of the MacMillan expedition to Crocker land were reported safe. The message, which was sent from the Faroe islands, indicated that Donald MacMillan, Captain Comer and the other members of the party, except Hunt and Ekblaw, are at Etah, Greenland. Ekblaw is at God's Haven, Greenland, and Hunt is on the Danish government steamship, Hans Egede. The members of the party are in no danger, but a relief expedition will be sent on the steamship Neptune on or about July 1. Captain Bartlett, seen at the right in picture, will be in charge. The relief ship, Denmark, which was sent after the MacMillan party last year, is in North Star bay, 150 miles south of Etah, with enough provisions aboard to last a year. The expedition headed by MacMillan, shown at left in the pictures, sailed in quest of Crocker Land on July 2, 1913, on the sealer Diana, which is also shown here. The original party consisted of Donald MacMillan, En-

TAKE NO INTEREST
ON BOND LOANS

BANKS WILL ADVANCE MONEY
AND TAKE INTEREST
ACCRUING ON BONDS.

PLEDGES ARE GIVEN

Burkburnett and Electra Pledge \$50,000 and \$75,000, Respectively, on Bond Purchases.

Wichita Falls banks are anxious that it should be exactly understood as to what assistance they are willing to give in the matter of purchasing Liberty Loan Bonds. There is now no reason whatever why practically everyone should not buy a bond, since the banks will advance the money to do so, absolutely free of interest, merely collecting the interest of the bond, until such time as it is paid for. A \$50 bond can be bought by paying down five dollars, or thereabouts, and about five dollars a month. Almost anyone with steady employment could make this arrangement, if willing to make some sacrifice, and certainly everyone who understands the urgency of the country's need will not hesitate to take advantage of this proposition.

Wichita County is living up to its reputation of doing what is required of it. Burkburnett has given immediate and definite pledges for \$50,000 as her share of the \$500,000 to be raised in the county, and the committee there stated that they believed they could raise \$75,000. Electra has guaranteed to raise \$75,000, and has pledged herself for that amount. Wichita Falls has already pledged \$200,000, according to Frank Kell, though he says that another \$100,000 must be raised here. He stated further that he had no doubt whatever that it would be raised.

The largest corporations are shortly to call together their employees with a view to urging them to buy whatever they can afford of the bonds. The corporations will carry them, taking a small amount out of their pay checks each week or each month, according to arrangements. This will bring the need of the government in a very tangible form to a large number of men, and this should effect a very pronounced stimulus on the sale of the bonds. The great point which all the committeemen are insisting upon is that the bonds should come under the care of the banks, as it would take a large amount of their operating capital out of circulation; nor should the burden be borne by the wealthy class only, for they are the minority, and it is very essential that this loan should represent the sentiments of the whole mass of the people. It is with this in mind that the banks have agreed to loan money without interest for the purchase of the bonds, and the corporations have agreed to carry their employees to any reasonable amount, and time for the same purpose. There remains but ten days in which to make up the entire amount all over the United States, the last day for subscriptions being the 5th inst. One of the best slogans in general use is "Do it now"—but there is no better application of it than in the matter of buying Liberty Loan Bonds.

BRITISH AIRCRAFT AGAIN BOMBARD BRUGES
London, June 4.—An air raid on Bruges is reported in an official statement issued by the war office this morning. "The commodore at Dunkirk reported that a bombing attack was carried out on the Bruges docks and canals last night with good results."

MARGARET ILLINGTON AT MAJESTIC WEDNESDAY
Charles Kenyon, one of the most successful playwrights of the present day and author of such great successes as "Kindling," has been especially engaged by the Jesse L. Lasky Picture Play Company to write photographs for Margaret Illington, the famous dramatic actress who has recently been added to the great Paramount star array. "Sacrifice," in which Miss Illington makes her motion picture debut at the Majestic Wednesday,

"Kie-Yie-Yie! Get Me 'Gets-It' Quick!"
3 Drops Makes Corn "Fall" Off!

"I've joined the Never-Again Club. Never again will I use anything for corns but 'Gets-It'! Pat 3 drops of 'Gets-It' on, and from that second the corn begins to shrivel."

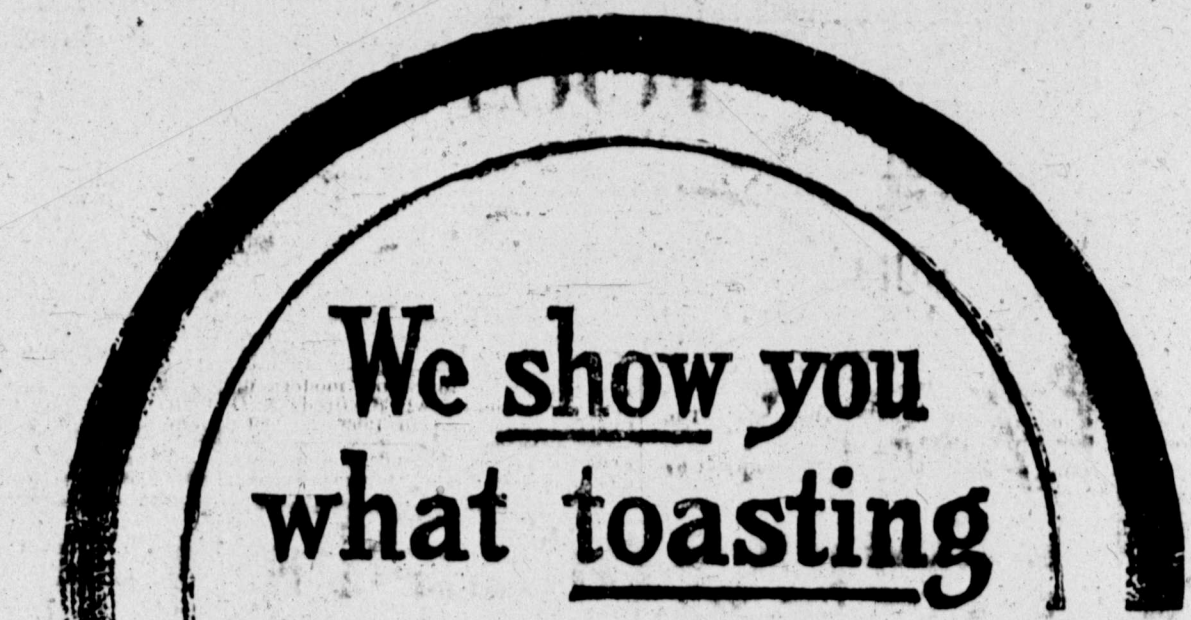

"Oh, Don't Touch It! It's So Itchy! Use 'Gets-It' and It Will Be Gone!"

Instead of swelling up like a white sponge, then it loosens from your toe—and, glory halloo! the corn comes off as though you'd made a glove of your hand! "Gets-It" is the corn destroyer of the age. It has been sold by many times than any other corn remedy in existence. Try it, and you'll know the reason why it takes two seconds to apply it, and it dries at once. "Gets-It" is sold everywhere. See a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Wichita Falls and recommended by the world's best corn remedy by Palace Drug Store, Mack Taylor's Drug Store, Miller's Drug Store.

We show you
what toasting
does for
tobacco

YOU have probably seen some of your men "demonstrating" in the stores how we toast the tobacco for Lucky Strike cigarettes.

It is one of the most interesting little glimpses you have ever had of a new manufacturing idea.

Here's what they do:

They put a handful of Lucky Strike tobacco into a small pan and offer you this to sniff the fragrance.

Then they toast the tobacco over a flame and again offer it to you.

You notice at once how the flavor is brought out and increased by this toasting.

You owe the delicious new Lucky Strike Cigarettes to our development of this simple idea. We found that toasting not only improves flavor (as you have actually noticed) but by our process it seals in this flavor and delivers it to you fresh in the cigarette. The result is wonderful because the tobacco—

"SACRIFICE"
A gripping story of international politics with a background of war, and the unusual likeness of the daughter of a great General and a notorious dancer, it is a great foundation for suspense and big scenes. CHARLES KENYON, the famous playwright who wrote "KINDLING," Miss Illington's greatest stage success, wrote the story, which was adapted for the screen by Beatrice DeMille and Leighton Osmund—no advance in the price.

THE EMPRESS
TODAY AND TOMORROW
"The Tale of Two Cities"
STARRING
William Farnum
The Tale of Two Cities is a dramatization of Charles Dickens' immortal work of the French Revolution. It is a wonderful photoplay, an unusual love story, abounding with pathos and thrilling scenes. Mr. Farnum plays a dual role in the story—the aristocratic Charles Darnay and the English narrator, Sidney Carton. It is especially fitting that Mr. Kenyon should write Miss Illington's first motion picture, since it was Miss Illington who appeared in the author's first stage play and it was in "Kindling" that Miss Illington scored one of the greatest triumphs of her stage career.
Today and Wednesday "The Tale of Two Cities" will be shown at the Empress. In the William Fox Super De Luxe production of "A Tale of Two Cities," in which William Farnum plays the dual role of Charles Darnay and Sidney Carton, director Frank Lloyd erected a replica of the Bastille during the time of the French Revolution.
Its towering height made it plainly visible from all over the country adjacent to the William Fox studios at Hollywood, Cal.
It was reproduced the City of Paris during the same period. An army of workmen erected a street three hundred feet long, with the twists and turns of the genuine Paris and open courts here and there from this street, alleys and cul-de-sacs branch off, and in each instance the men had to build up these side openings as well. The entire setting is one of the most complete and magnificent things ever erected for a motion picture.
THE GEM.
Willard Mack, famous as author and playwright, supplied the story for the Gold Seal three-reel drama "The Grip of Love," showing at the Gem today, which was then put into scenario form by Karl Goetzler, and turned over to Allen Holubar to produce. Holubar plays the lead himself and chose the beautiful Louise Lavelly for his opposite in the role of a school teacher who falls in love with the young man. The story has a decided unusual twist, and the photography gives wonderful scenic shots. This is what happens: Lester Jordan, having lived for pleasure, is now under the care of Dr. Spencer, who insists that he go back to nature for a while and spend a few months in Tennessee, where the doctor has an old shack. Lester decides to go.
The school trustees employ a teacher for the Semach Cross Roads school. While Ruth Overholt is getting a letter, written by one of the men in her suitcase, she accidentally spills out some articles, among them being a man's picture. The trustee immediately recognizes the man as Andy
