WICHITA FALLS, TEXAS, FRIDAY, JUNE 29, 1917.

Number 1.

2 CONTINGENTS AMERICAN TROOPS LAND IN FRANCE

ANNUAL MEETING B. I. M. I. T. OPENS THIS AFTERNOON

OPENING DELAYED BY CANCELLATION OF SPECIAL TRAIN FROM FORT WORTH

AN INDUSTRIAL EXHIBIT

Moving Pictures of Texas Industries Will Be Shown at Majestic Theater

Owing to the delay in arrival of the special train from Fort Worth being cancelled at the last minute, the opening session of the third annual convention of the Buy-It-Made-In-Texas Association this afternoon was considerably delayed. The B. I. M. I. T. members did not arrive until shortly before 2 o'clock when the program was scheduled to open, and as a result it was just 3 o'clock when the Association was called to order at the Laika Wichita pavilion, John E. Shelton, of Fort Worth, the president, in the chair.

The session was opened with an invocation by Rev. S. A. Thomas, of the M. E. Church, South, and the manufacturers were formally welcomed to Wichita Falls by Mayor A. H. Britton on behalf of the citizens and by J. A. Kemp on behalf of the manufacturers.

The president's annual address and the report of Rev. S. A. Thomas, secretary-manager of the association were scheduled for the afternoon, as were addresses by Hon. Edward W. Lange, member of the House of Representatives on "Industrial Legislation," and by F. R. Bissell, president of the Texas Portland Cement Company, on "The Advantage of a State Trade Commission."

There will also be considerable business to attend to.

In order to more carefully safeguard the comfort of "honor guests," the ladies and gentlemen in attendance upon the B. I. M. I. T. convention, at 4 o'clock this morning it was decided to hold the industrial moving picture exhibit which had been announced for the opening of the convention at the Majestic theatre. Admission to the theatre will be free from 7 until 8 o'clock and the side boxes will be reserved for wearers of the convention badge.

The orchestra will play "Texas, the Pride of the South," by Mrs. Ella Hudson Day of Cotton.

The program of industrial films will start at 7:30 at the close of the regular Majestic show and will continue for an hour of the evening. The program for this exhibit will be as follows:

Views in and around Sugarland showing the refinery at that place, the sulphuric acid plants, and other interesting sights in and around this satelitte city.

A household comedy feature film of the Armstrong Packing Company.

Views showing the night shift show parade at Delia, the early morning guard camp at Fort Worth last year, a scenic trip up the San Antonio river.

Views showing the manufacture of piston rings in the Erie Iron Works, including complete motion picture account of the recent motor races at the state fair grounds.

Views showing manufacturing plant of Beaumont.

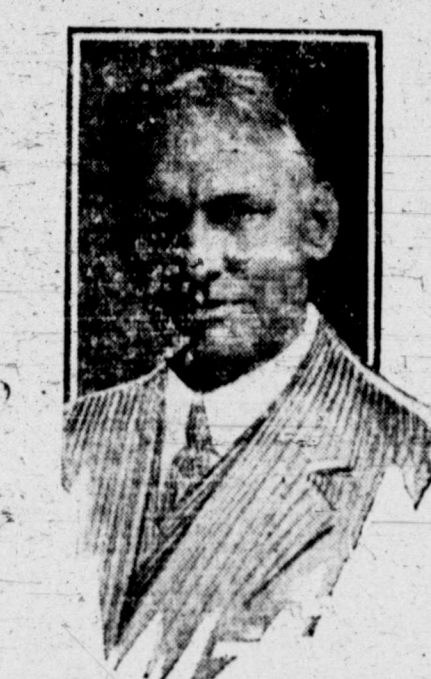

"The Link," a motion picture story with a moral, "It Pays to Obey," shown which does not deal with the industry is "The Link." This is a picture belonging to the Erie Iron Works, which was shown at the B. I. M. I. T. association on this occasion. It has been shown at numerous factory gatherings of business men and workmen in the country, including the League of Nations, the Associated Advertising Clubs of the World and others. It tells its story in a remarkably clear and direct manner and has a lesson for every business man, manufacturer, dealer or jobber.

At 8:30 the president's reception will be held at the home of Mrs. M. Adickes.

SOME OF THE SPEAKERS AT THE B. I. M. I. T. CONVENTION HERE

J. A. KEMP, President B. I. M. I. T.

J. E. SHELTON, President of the Association.

J. P. FLASTERSTONE, President of the Texas Railway Commission.

MRS. FRED FLEMING, Dallas, President of the Women's Club.

able distribution. Hon. Earl B. McCombs, member Texas Railway Commission, Austin.

Address, "The Industry Method in Factory Organization," Carl L. Boyd, vice president, general manager, Sherman Overall Manufacturing Company, Sherman.

Address, "Retailing Income Tax," Hon. Frank H. Bland, U. S. Senator, Dallas.

Address, "The Accounting and Its Relation to the Industry," Mr. J. C. Goff, secretary and general manager, Mosher Manufacturing Co., Dallas.

Question period.

The afternoon session will convene at 2 p. m.

Views showing the night shift show parade at Delia, the early morning guard camp at Fort Worth last year, a scenic trip up the San Antonio river.

Views showing the manufacture of piston rings in the Erie Iron Works, including complete motion picture account of the recent motor races at the state fair grounds.

Views showing manufacturing plant of Beaumont.

It tells its story in a remarkably clear and direct manner and has a lesson for every business man, manufacturer, dealer or jobber.

At 8:30 the president's reception will be held at the home of Mrs. M. Adickes.

BULGARIA RELUCTANT TO BREAK RELATIONS

INFLUENCES BOTH OF SENTIMENTAL AND PRACTICAL CHARACTER AGAINST RUPTURE

By Associated Press. — Although Bulgaria is opposed to breaking off relations with the United States, the fear is expressed here that Premier Radolovitch may have been compelled to our change of course for a while he will be forced to a sacrifice of national relations as part payment.

The influence against a break with the United States are of two nature, one half of a sentimental character based on the influence of the American people, and the other half, wholly practical, inspired by the belief that the radical from the same sentiment, may after the war, prove a serious obstacle to Bulgaria without taking economic existence.

The only circumstances which would lead to a rupture of relations would be a rupture by the United States, which would require information received by the Associated Press concerning the appearance of American troops at Salonika, a possibility which some believe in Bulgaria is presently has some interest in pointing out to the Bulgarian mind.

Bulgarians are apparently loyal to the Entente alliance, the period of the war. They say they are against no overtures to abandon the struggle, though willing to use their influence against a so-called Hindenburg or German peace.

ANOTHER GERMAN OUTRAGE AGAINST NORWAY

By Associated Press. — A Central News dispatch from Copenhagen says the Norwegian steamer King Hakon has been sunk by a German submarine and that only six members of the crew were saved. (There are only two Norwegian steamers, King Hakon of 122 and 84 tons gross.)

The Norwegian steamer Nagre, 118 tons gross has been sunk in the Atlantic. The crew was saved.

NO ANNOUNCEMENT CONCERNING THE OLYMPIA

By Associated Press. — The condition of the United States Olympia which struck on a shoal near Block Island yesterday was not revealed by naval authorities today. Although the crew abandoned the warship and came to the naval station here reports sent to the navy department last night said the ship was resting easily.

W. & S. DEPUTIES REJECT SEPARATE PEACE PROPOSAL

RESOLUTION PROPOSED BY REVOLUTIONARY SOCIALISTS ADOPTED BY OVERWHELMING VOTE

AN EARLY PEACE SOUGHT

Delegations Will Be Sent to Several Countries to Prepare For International Conference

By Associated Press. — A resolution favoring a separate peace between Germany and Russia has been adopted by an overwhelming majority of the Congress of Workers and Soldiers Deputies of all Russia. The resolution of the same time declares that restoration of peace at the earliest possible day is the most important need of the Russian revolutionary democracy.

The text of the resolution which was proposed by revolutionary socialist and the Menshevik social democrats, follows:

"The present war arose in consequence of aspirations of imperialists prevailing among the ruling classes of all countries, and leading toward the usurpation of markets and submission to their economic and political influence of small and decadent nations. The war is leading to complete exhaustion of the peoples of all countries and is placing the Russian revolution on the verge of a precipice.

"The congress consequently demands that the struggle for more rapid ending of the war constitute the most important problem for the revolutionary democracy, a problem imposed as much by the interests of the revolution as by the aspiration of the workers of all countries to put an end to the present war and restore their fraternal union for the complete liberation of humanity.

"The congress recognizes that the ending of the war by means of defeat of one of the belligerents would constitute the point of departure for fresh negotiations, and that a separate peace would lead them to complete exhaustion, famine and ruin. It demands that a separate peace would strengthen the war to complete exhaustion of the peoples of all countries and is placing the Russian revolution on the verge of a precipice.

"The congress consequently demands that the struggle for more rapid ending of the war constitute the most important problem for the revolutionary democracy, a problem imposed as much by the interests of the revolution as by the aspiration of the workers of all countries to put an end to the present war and restore their fraternal union for the complete liberation of humanity.

COMMITTEE IN SENATE ADOPTS HOUSE PROVISION

REJECT SUBCOMMITTEE'S PROHIBITION PLANS - EXTENDS SCOPE OF FOOD CONTROL

DES MOINES CONFIRMED AS TRAINING CAMP SITE

By Associated Press. — Des Moines, Iowa, was finally confirmed today by Secretary Baker as the site of one of the 15 army cantonment sites.

ACT FOR RELIEF OF SUPREME COURT IS HELD VALID

By Associated Press. — The constitutionality of the act of the Thirty-fifth Legislature for the relief of the Supreme Court which created a committee of judges of the Court of Civil Appeals to pass upon applications for writs of error was upheld today by the Supreme Court in an opinion written by Chief Justice Nelson Phillips. This opinion was in the case of the San Antonio and Kansas Falls Railroad vs. Mrs. Julia First from Karnes county, motion for consideration of petition for writ of error by the Supreme Court. The constitutionality of the act was upheld in this motion on the ground that the law conferred the delegation by the Supreme Court of its powers to others, contrary to the constitution.

IMMENSE PROFITS IN STEEL AND IRON

By Associated Press. — Allegation that excessive profits of the United States Steel Corporation in the last year were \$2,000,000 and those of the big steel makers more than \$25,000,000 in 1916 were made here today in an address at the City Club by Dr. Charles R. Van Hise, president of the University of Wisconsin and special representative of Herbert C. Hoover, food administrator.

WEST TEXAS A. AND M. LOCATING BOARD TO MEET

By Associated Press. — The West Texas A. and M. locating board will meet tomorrow which is expected the question of deciding upon a location for the establishment of this educational institution will be considered. It is likely the committee will first decide upon a program of elimination; when only two or three places are left in the running then make a decision.

SINKING OF DANISH STEAMER GUNHILDE REPORTED

By Associated Press. — Sinking of the Danish steamer Gunhilde reported by the state department today. Survivors said the steamer was torpedoed without warning and sunk before lifeboats could be lowered. Five of the crew were found.

LINER STRIKES MINE OFF BOMBAY AND GOES DOWN

By Associated Press. — Bombay, June 27. — The peninsular and Oriental liner, Mongolia, struck a mine off Bombay June 23. The passengers and crew arrived in Bombay. The mails are believed to have been lost.

DAYLIGHT SAVING BILL PASSES IN SENATE

By Associated Press. — Washington, June 27. — The daylight saving bill amended to take effect next year passed the Senate today without discussion or record, and was sent to the House. Under the bill all time pieces will be turned forward one hour beginning the last Sunday in April and continuing until the last Sunday in September.

A CONFERENCE OF LATIN AMERICANS ON WAR CALLED

By Associated Press. — Mexico City, June 27. — A Latin American diplomat, who is one of the ministers to Mexico, said last night that all Latin American countries except Cuba and Panama, had accepted the invitation of Argentina for a conference of Latin American nations at Buenos Ayres at which the stand of Latin American countries in the world conflict will be determined and how best peace will be brought about. The diplomat said the invitation from Argentina was presented about a month ago.

SIX CONVICTED FOR MURDER REEVES FAMILY

By Associated Press. — Minden, La., June 27. — Johnny Long, white, today pleaded guilty without capital punishment in connection with the killing of John Nelson Reeves, his wife and three children, about 10 miles north of Minden last Christmas. Long was sentenced to a life term in the state penitentiary. He was used as a state witness against Henry Waller, white farmer, and Mark Peters, Chester, Tyson, Larkin Stewart and Anderson, heard negroes, all participants in the Reeves tragedy which Waller was accused of instigating. Waller, Stewart and Heard were sentenced to life imprisonment and Peters and Tyson were sentenced to be hanged.

CHEERING CROWDS GREET SOLDIERS AS THEY LAND

Immense Number Motor Trucks Gathered to Transport Troops to Camp

A French Seaport, June 27. — The second contingent of American troops arrived and disembarked this morning.

The troops landed amid the frantic cheers of the people who had gathered for hours before.

Enthusiasm rose to fever pitch when it was learned that the transport and convoys had successfully passed the submarine zone. The port was speedily beflagged in honor of the occasion.

All the troops now arrived were transferred today to a camp not far distant from this point, where Major General William L. Sibert is installed.

All the troops are in excellent shape, enthusiastic over their successful trip and their reception, and are eager for action.

Major General Pershing, the American commander, is expected tomorrow, when additional troops are expected.

The harbor is filled with convoys; the streets are filled with troops in khaki and American blue jackets.

Great numbers of trucks are transporting immense supplies to the camp in which the troops are concentrating.

TROOPS SUCCESSFULLY EVADE SUBMARINE AMBUSH—WILL SOON BE SENT TO THE BATTLEFRONT

By Associated Press. — Washington, June 27. — The epochal landing of American troops in France can not be fully discussed at this time for obvious reasons concerning the safety of other contingents.

It is entirely permissible to say that they are part of the force which will be under the command of Major General Pershing, and for whose arrival the General and his staff have been arranging ever since they landed on the other side.

The American troops will be an entirely independent command, just as are the British troops, working, of course, with the French at the head of operations, as they are on French soil.

When the troops have had their period of preparation behind the lines, they will take their places on the battlefield, to be arranged by General Pershing and other officials and probably very soon will be carrying the Stars and Stripes in the assaults which steadily are driving the Germans out of France and Belgium.

All the troops under General Pershing's command are regulars and comprise the division which President Wilson directed to proceed to France "at the earliest possible time." Information of whatever troop movements may be made is surrounded by censorship to insure, so far as possible, a safe voyage through the submarine zone.

It is not permissible to say what precautions were taken to get the American troop ships past the waiting German submarines, but there is no doubt that the precautions were most carefully worked out, because it is most generally believed that some time ago most of the German submarine fleet was withdrawn from its attacks on commerce shipping to make ready to ambush the American troop ships in force.

The successful landing, while a source of gratification to officials here, viewed from a point of military operations, is regarded as an added significance for its effect in Germany, if it is permitted to become known there.

The reference in press dispatches to a duplication of "yesterday's surprise," indicating that there was also a landing yesterday, passes without comment, but obviously records the landing of a contingent not recorded in yesterday's dispatches.

REGULAR ARMY IS 50,000 MEN SHORT FULL STRENGTH

By Associated Press. — Chicago, June 27. — Allegation that excessive profits of the United States Steel Corporation in the last year were \$2,000,000 and those of the big steel makers more than \$25,000,000 in 1916 were made here today in an address at the City Club by Dr. Charles R. Van Hise, president of the University of Wisconsin and special representative of Herbert C. Hoover, food administrator.

SEVERAL WELLS ARE EXPECTED IN WITHIN FEW DAYS

DEVELOPMENTS EXPECTED IN THREE POOLS IN THIS TERRITORY

(From Sunday's Daily) Developments in several wells in which there is much interest are expected within the next few days. Eight miles north of Iowa Park the J. W. Snow Oil Company of the J. W. Snow farm has struck a nice looking sand at 1,700 feet in a 20-barrel well in today. This well is west of the Huyle farm where it. O. Harvey and others drilled in a big well several weeks ago. Harvey and his associates were down 1,610 feet yesterday. They found the sand in the other well at 1,630 so that they will probably reach this second well in a few days.

The Wichita Fuel Development Co. an organization in which many Wichitans are interested is settling the casing of the 102-foot section of the Barnett in the Culbertson district. The sand tested by the 66 in Archer county several days ago was dry. It is now drilling for the sand. Outside the McClure Petroleum Company's No. 20, Francis Allen which is a fifteen-barrel well there have been some 20-barrel wells reported during the past week. Brown and Jones Ramping No. 4 was the best well reported for the Burkburnett district. This well is good for about 100 barrels. At Electra the Producers Second Well, No. 54 is a 100-barrel well at 1928 feet. Producers No. 55 is 2000 feet and Producers No. 56 is a 40-barrel well at 1975 feet. The Federal Oil Co. has abandoned its Moore No. 1 in Willberger county as dry at 2200 feet. The Magnolia Petroleum Company's No. 8, Ellen is a 40-barrel well at 1900 feet.

The Culbertson district the Gulf Production Company's Woods and Taylor on the Barnett is an 80-barrel well at 1,144 feet. The Archer county Producers No. 1 is good for 50 barrels at about 1,600 feet. Slater No. 1 on the Henson passed through ten feet of sand at about 385 feet. It is believed this sand would have produced about 20 barrels but the sand was not tested. Thomas and Hand are rigging up for their well. The Slater has a mile south of Slater No. 1. The Producers Oil Company have again leased the R. F. Archer ranch some ten miles west of Iowa and are now under contract to begin drilling by the 15th of next month. Three car loads of machinery and supplies were sent for the installing of necessary fixtures. This same company had at Arnold's land under lease a few years ago. It will be reworked and abandoned a well at a depth of 2,000 feet. The fact that they are again to begin operation there might indicate that the company expects results.—Graham Reporter.

A big lot of oil leases numbering 28, was filed for record in the county clerk's office yesterday. They were made to a Tulsa, Oklahoma company and cover lands scattered over the south part of the county from Newport to Shannon.—Henrietta Independent. The Oil and Gas division of the Interior contains the following from F. W. Bridges, the Wichita Falls correspondent concerning oil operations in this section. Stephens and Palo Pinto. Texas Caddo, in Stephens county, Near Pacific Coal Co's Wright No. 1 is still fishing at 3,000 feet. No. 1 has been plugged back to the 2,640-foot sand and an attempt is being made to save the gas, which has a volume of about 100,000 cubic feet. No. 1 has been abandoned as dry at 1790 feet. At Hughes No. 1 the hole was lost at 940 feet and the derrick is being stricken to start a new hole. Sloan No. 1, near Crystal Falls is shut down to rebuild derrick, which was panned in a hole trying to remove some casing. The hole is 2,000 feet deep. Wayland, Cash No. 1 is drilling at 3,330 feet. Lauderdale No. 1 is shut down at 1,410 feet and near tonight, Maxwell No. 1 is drilling at 1,000 feet and Keithley is drilling at 1,460 feet. Gulf Production Co's McVea No. 1 is drilling at 1,000 feet and Smith No. 1 at 1,650 feet. While S. D. Felt at his new No. 1 is shut down at 2,550 feet, waiting for casing.

South of Mineral Wells, in Palo Pinto County Palmer, Owen & Wilson have succeeded in getting into most of the set of jars dropped in the hole, drilled up the balance and are now drilling below 2,000 feet. There was a light flow of gas from the 1,040 foot sand, but not sufficient to make a well. The Empire Gas & Fuel Co's Terry No. 1 is rigging up with standard tools, ready to drill deeper and west of Palo Pinto Watson No. 1 is drilling at 600 feet, while Sinclair Oil Co's Beckley No. 1 is drilling at 1,925 feet. West of Graford, the Sinclair company's Holt No. 2 resumed drilling after the broken beam was raised and reached a depth of 950 feet, when the boiler exploded. No particulars, except that there was no casualties. North of Strawn, Texas & Pacific Coal Co's Robinson No. 2 is drilling at 1,200 feet and No. 3 has a million feet of gas at 1,510 feet. It is not known yet if the well will be recovered.

Several times recently above attempts have been made to resume the drilling of the Alexander-Pennington well, north of Belcher, on the old Dalton ranch which was shut down at 2,300 feet some 18 months ago, and now C. E. Warner announces that he has secured the necessary backing and that C. E. Warner & Co. have ordered a cable shipped at once. As this was the only thing needed for the resumption of work, drilling should recommence very soon. The well is being drilled to 3,500 feet and the ownership of more than 9,800 acres of leases hangs on its completion, besides the use of the standard rig, etc., of tools for the drilling of other wells. The well of Stanfield & Becker on the Benson ranch in the northern part of Young county, was abandoned last week to be drilled at 1,610 feet. This was caused by indistinct transmission of sound over the telephone and it showed that this depth of sand was encountered and the well shut down temporarily, with a nice-looking green oil in the hole. It will probably be drilled in today. The Colcord & Robert Scott No. 1 south of Graham, has a big flow of salt water at 700 feet and has lost the bit in the hole. South of Belcher, in Montague county, on the Dunn farm, the Big Six Petroleum Co., of Pittsburgh, Pa., has

ARMY RECRUITING STATION HERE RECEIVES INSTRUCTIONS RECRUIT MACHINISTS

THESE RUSSIANS ARE HERE TO TELL US HOW TWO COUNTRIES MAY CO-OPERATE

The army and navy news last week was primarily for instructions and new findings rather than recruits. Indeed, most of the instructions dealt with how to obtain recruits, especially for the new machine gunners. Orders and proclamations, one from the President himself, were received at the local army station, all of which were being distributed to the army and navy. The good news is that two branches of the army are being recruited to fill war needs, the women and the electricians.

The army received definite details as to the recruiting of machine gunners and electricians, with orders to stretch the rules as far as their discretion would permit, in order to get the men. New orders are issued directing the recruiting officers to give their attention to machinists for the balloon school at Fort Omaha. Fifty men are required by the department as lathe operators, drill press operators, etc., part of whom are to be used in the permanent school detachment, and some to be available for instruction in the field balloon companies. These field balloon companies are to be organized from the 2000 men to be sent to Fort Omaha for instruction. These men will enlist under the signal corps.

All the pressure that has been brought to bear on headquarters for recruiting enlisted by the navy, and in part to the fact, that on the surface at least, the navy service seems much more attractive, especially to the landmen living this far from the coast.

P. C. Becker has received a communication from L. O. Waldrop to the effect that he (Waldrop) is to report at the local station for recruiting duty. This will place three men in the local station, and with this equipment, they expect to be able to speed up the recruiting. The local headquarters for the navy seem fairly pleased with the recruiting results over the district, and have no complaints to make, at least through this report.

By Associated Press. Washington, June 25.—President Wilson by executive order today created an export embargo council to administer the exports embargo provisions of the espionage bill.

By the administration of embargoes through this council the navy and also to prevent supplies reaching Germany through neutrals. The President's order vests in the administration of all instructions to be issued by the secretary of state, and established an export council to be composed of the secretary of state, the secretary of agriculture, the secretary of commerce and the food administrator.

RUSSIAN MISSION TO THE UNITED STATES (M. BORIS BAKHMETIEFF, HEAD OF MISSION, IN CENTER)

RUSSIAN MISSION TO THE UNITED STATES (M. BORIS BAKHMETIEFF, HEAD OF MISSION, IN CENTER)

The Russian mission, headed by Boris Bakhmetieff, shown at the center of this picture, is housed in the home of Helen Jennings in Washington. The photograph was made at the door of the Jennings home. The work of the mission is observed with more than ordinary interest because of the internal situation facing the new Russian democracy. The mission is said to need all or organization, munitions, supplies and railroad materials. The Root commission, together with the Stevens railroad commission now in Russia will be believed, after many suggestions along these lines, and the Russian mission here will suggest others from its experience in this country.

to discuss the situation in detail. Russia is said to need all or organization, munitions, supplies and railroad materials. The Root commission, together with the Stevens railroad commission now in Russia will be believed, after many suggestions along these lines, and the Russian mission here will suggest others from its experience in this country.

EXPORT COUNCIL IS CREATED BY THE PRESIDENT'S ORDER

By Associated Press. Washington, June 25.—President Wilson by executive order today created an export embargo council to administer the exports embargo provisions of the espionage bill.

MACHINE GUNS USED BY POLICE ON SINN FEINERS

By Associated Press. York, June 25.—Machine guns were used on the Sinn Feiners in the district yesterday morning here. They were brought into action after the police with clubs had failed to restore order. The soldiers ordered various points while the police chased the rioters to side streets.

RED CROSS BOMBS DROPPED BY GIRL FROM AEROPLANE

By Associated Press. New York, June 25.—Miss Katherine Stinson, the 19 year old girl who left Buffalo yesterday on an airplane flight to Washington carrying a message to Red Cross headquarters there, reached here today shortly after noon. She planned to resume her journey after a short rest. She carries a number of small paper "bombs" containing appeals for Red Cross funds which she is dropping upon cities and towns.

WICHITA FALLS SECOND IN NAVY ENLISTMENTS

Wichita Falls shows second on the list for navy enlistments last week, having pulled up from the fourth and passing Abilene and Fort Worth. The standing of the town is now as follows: Dallas 49, Wichita Falls, 19, Fort Worth, 18, Abilene, 8, Paris, 3, Amarillo, 3, Cleburne, 3, Texarkana, 2, Denton, 1.

OWNERS OF AUTOS MUST REGISTER WITH STATE NOW

Several Wichita Falls automobile agencies have received supplies of the automobile registration application cards and are filling them out for their customers. A number of Wichita Falls motorists are expected to accompany either a money order remittance or a draft, or cashier's check to the State Highway Commission and some of them are expecting their license and their numbers this week.

THORNBERY RESIDENT DIED SUNDAY MORNING

Mrs. Bertha Weiss, aged 49, wife of H. F. Weiss, residing on the Thornberry road, died Sunday morning at her home here. The funeral will be held Tuesday morning from the Hill undertaking chapel, with Rev. C. M. Foster of St. Paul's Lutheran church officiating. Burial will be in the cemetery. Mrs. Weiss is survived by her husband and five sons.

AUTO REPAIRS COST MORE AFTER FIRST OF JULY

NOTICES OF ADVANCE POSTED IN PRACTICALLY ALL GARAGES OF CITY

(From Sunday's Daily) Practically all the automobile dealers have posted notices in their offices and garages to the effect that, on and after July 1st, the rates for repairs and storage will be raised. The new rate will be as follows: Mechanics, \$1 per hour; helpers, 50 cents per hour; regular storage, \$7.50 per month; day storage, \$5 per month; transient storage, 50 cents per night. Garage men say these measures are required to employ the better class of mechanics.

Last week was the biggest so far recorded for Wichita Falls automobile business, the sales, wholesale and retail, totalling ninety. This is one of many signs of increased confidence on the part of the buying public, and visiting dealers from over the state, and agents from the various factories are agreed that business is humming. This total of ninety cars represents an increase of over thirty-five per cent over the week ending June 16th, and does not include Saturday's business. Furthermore, one or two dealers have been unable to procure any cars this week, and consequently have reported no sales.

The Motor Supply Co. sold Ford cars to G. N. Galt, O. H. Leath, C. Charles, A. L. Tandy, McGargie, Joe Zoldeck, and T. F. Hannon, city, W. H. Barshell, Iowa Park, Jim Owens, Peoria, J. Longley, Archer City, and Scott Bros., Electra. The Lloyd-Weaver Co. sold a Hudson super-six speedster to J. S. Bridwell, and a Chevrolet to Ed W. Turner, city. Mr. Weaver was in Archer City and Dallas on business last week. McFall Bros. and Orth have been busy with their cars, and while they have taken a number of orders, have been unable to deliver any of them. They are expecting two cars today, and will have a second-hand sale as reported from this house. The Buick Sales Co. reports sales of four Buicks during the week, one to Burk Burnett, and Wade Stein, Kingwood, and three second-hand sales. They have two carloads of Buicks, and one of Oldsmobiles on the way. The McMullen Auto Co. has made retail sales to Mrs. Jeanette Rexford, city, M. Brom, Joe Cross and L. N. Harr, McGargie, G. W. Phillips, city, and M. Murvey, Burk Burnett. In addition to this, six cars were placed with sub-dealers, Goldstein & Son of Vernon, and four second-hand cars were sold. A. W. Phillips, the sales manager, spent most of the week in the direction of Vernon and Quannah. Sub-dealer Pink Hagard or Seymour has been a visitor at the McMullen Auto Co. offices for a few days. The Peter Car Co. has made sales to Vic Stampfl city, W. N. Jones, E. L. Prope, R. H. Thibault, and J. S. Sherton of Petrolia, and R. E. Carnes of Burk Burnett. S. J. Ashmore brings back from the war for the first time, his father's death. Mr. Ashmore stayed for the funeral, and returned last Tuesday.

THREE HIGHWAYS HERE RECOGNIZED AS STATE ROADS

(From Sunday's Daily) The Meridian Highway from Burk Burnett through to Fort Worth, the Fort Worth Highway running through Texarkana, Gainesville and Wichita Falls and the Route through Wichita Falls and Archer City to San Angelo together with the Texas Good Roads and Gulf Highway are among the highways recognized as state highways by the State Highway Commission, according to the Meridian Highway. Judge Harris believes that state and Federal aid can be obtained for the improvement of all three of these highways. The Meridian Highway has been designated by the State Commission. Judge Harris believes that state and Federal aid can be obtained for the improvement of all three of these highways. The Meridian Highway has been designated by the State Commission. Judge Harris believes that state and Federal aid can be obtained for the improvement of all three of these highways.

FOOD CONTROL BILL PASSES HOUSE BY VOTE OF 365 TO 5

3 TEXANS ARE OPPOSED

(From Sunday's Daily) The administration food control bill, which President Woodrow Wilson signed into law last night, passed the House of Representatives by a vote of 365 to 5. The prohibition provision adopted would prohibit the use of food stuff for the manufacture of alcoholic beverages and would give the president authority to take over for war purposes all liquor now on hand. They were put into the measure in committee of the whole and when the bill came up in the House proper the anti prohibition faction did not demand that they be voted on again.

The bill now goes to the Senate where it probably will be substituted early next week for a similar measure already under consideration. Leaders here hope to get the measure to conference by July 1. Few important changes were made in the House outside the prohibition section. The vote was 365 to 5. Representatives McLemore, Slayden and Young of Texas, Democrats, and Meeker, Missouri, and Ward, New York, republicans, voting in the negative. After lengthy parliamentary sparring during which the prohibitory proposals were thrown and rejected on points of order, the prohibition element forced adoption of amendments which would forbid the use of any good materials during the war for making intoxicants and would give the president authority to take over in his discretion all stocks of distilled liquors. Action on the prohibition amendment was taken in committee of the whole and opponents of the proposal immediately mustered their forces for a recess maneuver when the bill came up for discussion in the House proper. The amendment designed to cut off manufacture of liquor was adopted 132 to 11. It was submitted by Representative Barker of Kentucky, democrat, and would provide that no food material or feed could be used during the war for the manufacture of alcohol or alcoholic beverages, medicinal, medicinal and sacramental purposes. As originally adopted the amendment would have provided also against use of foodstuffs in making non-alcoholic drinks, but this feature later was stricken out. An amendment by Representative Barker of Kentucky, democrat, and would provide that no food material or feed could be used during the war for the manufacture of alcohol or alcoholic beverages, medicinal, medicinal and sacramental purposes. As originally adopted the amendment would have provided also against use of foodstuffs in making non-alcoholic drinks, but this feature later was stricken out. An amendment by Representative Barker of Kentucky, democrat, and would provide that no food material or feed could be used during the war for the manufacture of alcohol or alcoholic beverages, medicinal, medicinal and sacramental purposes.

WICHITA COUNTY'S ASSESSED VALUES SHOW INCREASE

There will be an increase of nearly \$2,000,000 in the assessed valuations in Wichita county this year over last, according to an estimate furnished the state government by County Tax Assessor Tom Raggsdale. Mr. Raggsdale, in his estimate to the state, placed Wichita county's assessed values at about \$10,000,000. He now believes this estimate will be exceeded. Last year the county's assessed values aggregated \$7,740,000.

URGES ARCHER YOUTHS TO ENLIST IN COMPANIES HERE

The Archer Dispatch in these words calls the attention of Archer City's youths to the two companies in Texas National Guard being recruited here. The Dispatch would suggest to those within the draft age who are physically fit and know their own minds to enlist sooner or later, that they volunteer and join some company of Texas boys with whom they will feel at home. Besides, the first ones on the ground usually get the choicest assignments. There are many commissioned and uncommissioned officers to be filled in these units now being raised and those who are first to offer their services will be the ones to fill them, ability of course, being considered. Captains H. M. Perkins of Wichita Falls has been commissioned to raise a company and is well on the way with his organization. He is gathering about him a bunch of the finest wires he can find in his district and declares he will lead to France one of the state's best companies. Captain Perkins is a good Indian and any man should consider it an honor to be a member of his company. There is also another company being organized by Captain G. G. Stanforth. Each of these gentlemen are worthy of their rank.

FOUR SMALLPOX PATIENTS TAKEN FROM THE JAIL

(From Sunday's Daily) The four smallpox patients among the prisoners at the county jail have been removed to the pest house at the county farm, and the jail has been thoroughly disinfected. All the prisoners have been vaccinated and it is believed the spread of the contagion has been checked. The grand jury which usually makes an inspection of the county jail failed to perform that duty before taking recess Friday. Instead of going in a body, the inspection was postponed. A delegation to one of the members who declined the appointment. It was said yesterday that there had been a smallpox case in the jail, when there has not been smallpox in the jail. At one time several patients were taken out to the county farm to the pest house, but after both had escaped it was decided by the county authorities that it was best to keep the patients in the jail so long as the disease did not take on a malignant type.

VALIDITY OF NEW HIGHWAY LAW TO BE GIVEN A TEST

(From Sunday's Daily) The Wichita county grand jury reported 24 indictments late Friday afternoon and recessed until August 14th. Five of these indictments were for felonies and 24 for misdemeanors. Many of the misdemeanor indictments were for gaming, some being against parties at Electra and others against Wichita Falls parties. Among the felony indictments was one charging statutory rape against K. C. Jones. This is the third indictment for rape to be returned by the grand jury at its present session. Another indictment was found against J. T. Brown in connection with alleged auto thefts. Jim Johnson is charged with theft of property valued at over \$50. An indictment charging bigamy was returned against Bert Rayford Gossett on the charge he was locked up again on a charge of bigamy. An indictment was also returned against Will Clark charging him with attempt to commit burglary.

R. B. HUMPHREY RETAINED TO START PROCEEDINGS TO TEST ITS CONSTITUTIONALITY

(Associated Press) Austin, Texas, June 25.—An attack upon the constitutionality of the law creating the state highway commission is to be made, according to R. B. Humphrey, an attorney of Austin and former member of the legislature. Mr. Humphrey said that he has been retained by certain persons of Austin to make a test case of the act which terminates its constitutionality. He insists that the act is discriminatory in that it taxes a special class, that is the owners of motor cars while the owners of horses and buggies escape taxation.

FLATONIA WOMAN BURNED TO DEATH

Flatonia, Texas, June 25.—Mrs. E. L. Harrison, wife of H. H. Harrison of this place, was burned to death in a fire which destroyed their home early this morning. The origin of the fire is not known.

MAYO PRAISES NAVY'S SHOOTING RECRUITS LEARN TO HANDLE GUNS

NAVAL 'ROOKIES' LEARNING HOW TO USE RAPID FIRE GUN

While the men in the destroyer squadron in British waters fell in letters home of their experience in actual warfare, no effort was spared with the newer recruits for the navy to fit them for the work of war.

MUST HAVE OIL EVEN IF WE MUST TAKE MEXICO

OIL EXPERT OF NAVY SAYS COUNTRY MUST GO TO ANY LENGTH TO SECURE SUPPLY

New York Times. Washington, June 27.—"Don't you think that if the United States could get oil from Mexico in the way we get it, even if we had to take Mexico to do it," abruptly asked Commander James O. Richardson, oil expert of the navy, at a breakfast today before the Senate Public Lands Committee on pending legislation to authorize government control of the country's oil fields, at a breakfast today before the committee.

WORK BEGINS ON CANTONMENT AT LOUISVILLE, KY.

CITY OF 1200 BUILDINGS TO HOUSE 37,000 MEN TO BE BUILT WITHIN 12 WEEKS

By Associated Press. Louisville, Ky., June 26.—Foster's preparations are already under way for the construction in twelve weeks of a cantonment for 37,000 men at the heart of Louisville, of cantonments at which Kentucky and Indiana troops of the selective army will be trained.

TEXAS TO HAVE BOYS WORKING RESERVE UNIT

Washington, D. C., June 26.—An announcement is made of the appointment of T. C. Jennings of Austin, labor commissioner, as the state director of the Texas branch of the United States Boys Working Reserve, a nationwide organization just perfected by the Department of Labor, in cooperation with the Department of Agriculture, for the supplying of boys between the ages of 12 and 21 to meet the country-wide labor shortage.

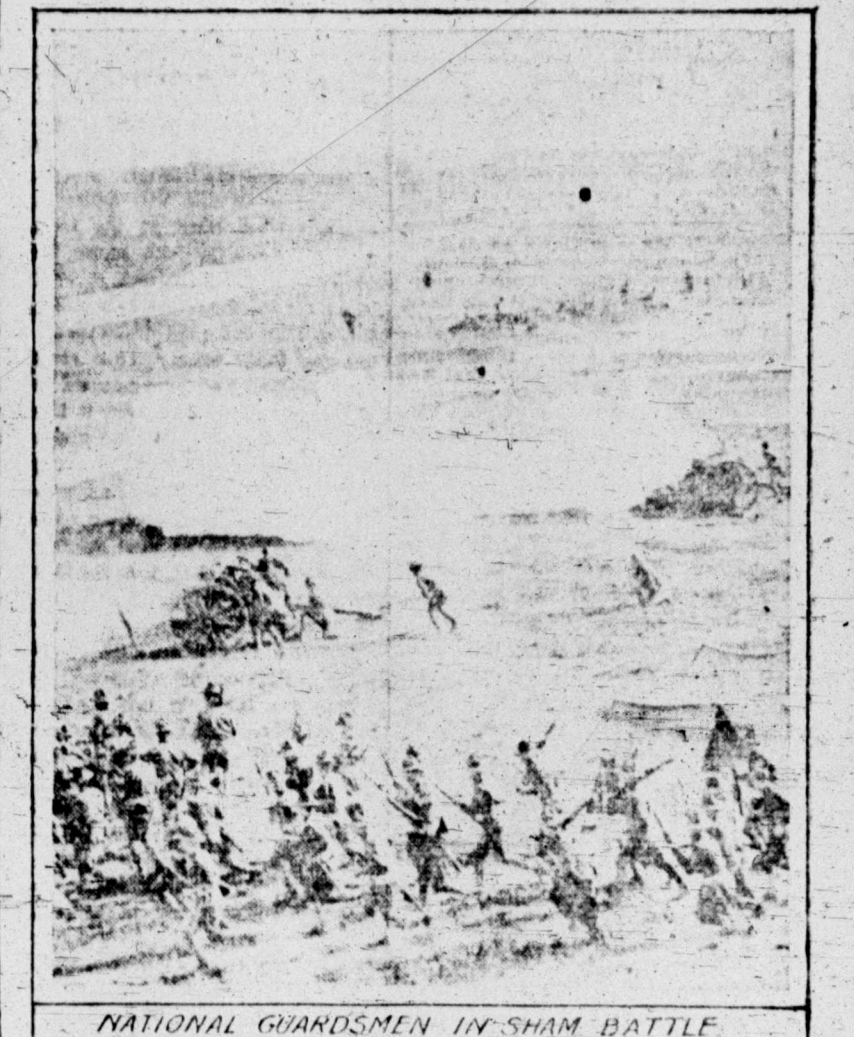

AUSTRALIA TO LOAN \$110,000,000 TO SOLDIERS

Associated Press Mail Correspondence. Australia.—Australia will loan \$110,000,000 to soldiers returned from the war, under the repatriation plan announced by Senator Edward D. Mitchell, Minister in Charge of Repatriation.

NORTH DAKOTA ORGANIZATION TO ENCOURAGE FARMING

Fargo, N. D.—Newspaper men, real estate brokers and bankers of north central North Dakota recently effected an organization which has as its object the bringing of more people to the farms by one of the best means yet devised for the purpose of promoting this plan.

SHAM FIGHTS HELP IN TRAINING OUR FIGHTERS FOR BATTLEFIELD

NATIONAL GUARDSMEN IN SHAM BATTLE

As part of the preliminary training to which American soldiers are being subjected in this country before being sent to Europe for the fighting, some American military experts place considerable reliance on sham battles, in these efforts are made to approximate as closely as possible actual conditions of warfare.

LIFE INSURANCE COMPANIES URGED TO ACCEPT WAR RIDER

New York, June 25.—The executive committee of the National Insurance Commissioners decided today to issue a direct appeal to the life insurance companies to accept the "war rider" as agreed upon by the commissioners in April, so that there would be a uniform type of insurance policy for men entering the army or navy.

FARMERS BUYING OATS AT ACTUAL COST

Through County Agent J. W. Campbell a number of Wichita county farmers have gone together and bought a carload of oats for feed. The oats are to be sold to the farmers at actual cost.

"READY!" SAID BASE HOSPITAL SERVICE OF RED CROSS WHEN WAR BEGAN

RED CROSS BASE HOSPITAL, PHILADELPHIA, AND INTERIOR OF WARD TENT

The Red Cross was prepared for war, says Leo Armstrong, vice chairman of the military relief committee, New York chapter, American Red Cross. "To the general indictment that the American Nation was unprepared for war there is one notable exception, the base hospital service of the American Red Cross.

Wichita Falls is to get a government highway. They do things out that way worth while. There is an enterprising public-spirited bunch in that burg who are town builders and county boosters, who always get what they go after regardless of the number of iron men it takes to round up the illustrious proposition—Gainesville Register.

Thanks, but you do us too much credit. We went after one of the big army camps, failed to land it, but the government decided to locate one of its aviation training camps here, and that is going to prove a big thing here.

It now develops that the Liberty Loan bonds were oversubscribed by a billion dollars. But there is no reason for those who subscribed for large amounts and will be given only a small per cent of them to be discouraged.

Those who favored the volunteer system of raising a great army rather than resort to drafting or conscription can see where they were mistaken by a visit to almost any recruiting station for the regular army or the National Guard.

Of the five members of Congress who voted against the food control bill, three were democrats and two republicans. The three democrats were from Texas, and the honorable Jeff McMurren, of course, was one of them.

While the destruction of shipping by the German submarines is only about 25 per cent of what the Kaiser said it would be in order to starve Great Britain and bring her to submission, it still gets enough to impress upon Great Britain, France and the United States, that more ships must be constructed.

Those who had hoped for a conclusion of the world war at the end of August of this year may as well make another guess. It was the late Lord Kitchener who predicted that the war would last three years, but it will be remembered he did not say it would last three years, and his prediction is going to come true.

Motor traffic is very destructive to gravel roads. Those who claim to know say that a piece of gravel road will not hold up more than 60 days.

When used almost continuously by motor cars. If that be true, then Wichita county had better expend that \$750,000 voted recently for good roads in road building material that will be lasting and permanent. There are now close to 4000 automobile registrations in the county—a little more than one automobile for each and every voter in the county, and the number is increasing constantly.

The fellows who were able and did not make a liberal contribution to the Red Cross fund, are the ones the attention of the drafting or conscription officer should be called. He himself may be too old to fight, but there may be other ways in which to cause him to loosen his purse strings.

Tom Watson of Georgia, continues to denounce conscription through his magazine and from the stump, saying that it is unconstitutional to conscript a man and force him to go on foreign soil in defense of his country.

Those who had hoped for a conclusion of the world war at the end of August of this year may as well make another guess. It was the late Lord Kitchener who predicted that the war would last three years, but it will be remembered he did not say it would last three years, and his prediction is going to come true.

signs have in France and Belgium, and that the Germans are being forced to give up occupied territory and fall back, the rate at which this good work is being accomplished will require more than another year to force the Germans out of France and Belgium and back to their own soil. This will be the final outcome of the fighting there is not the least doubt among Americans, and probably the Germans have begun to realize that this is going to be the case.

The Houston Post remarks: "The Lord never sends an affliction on Texas that he doesn't lift. He took Gore from us, and in His own good time, He will sweep out the other political beetles that so sorely annoy the people."

Friends of the University and by this we do not mean those only who have in past or are at present sending their sons and daughters to the institutions to gain a higher education, may as well make up their minds now as later that the governor is not going to change his attitude toward that institution.

Tom Watson of Georgia, continues to denounce conscription through his magazine and from the stump, saying that it is unconstitutional to conscript a man and force him to go on foreign soil in defense of his country.

This country did all that was possible to keep out of the war. Note after note was sent to Germany by President Wilson, and in the heart of a presidential campaign the President was denounced bitterly by those opposed to his re-election for not declaring war on Germany at once instead of writing so many notes.

George Pattullo in the Saturday Evening Post. "What he is doing with a group of officers and his staff here at the University, N. M., waiting to begin the last review of the troops he had led in the Mexican expedition, is to strike a hard blow at the University."

What he thinks of the American soldier he summed up in a portion of a speech he made at the University Chamber of Commerce gave him a dinner and presented him with a set of silver.

Tom Watson of Georgia, continues to denounce conscription through his magazine and from the stump, saying that it is unconstitutional to conscript a man and force him to go on foreign soil in defense of his country.

ATHLETIC TEAMS LAKES CAMP AMONG THE BEST

ATHLETICS FORM IMPORTANT PART OF TRAINING AT NAVAL TRAINING STATIONS

Great Lakes, June 27.—Athletic teams which would rival those of some of the more famous universities of the country are being developed at the United States Naval Training Station here. In fact, under the schedule laid down by Captain W. A. Moffett, commandant, from the time the young American ships into his bluejackets, athletes form a big part of his daily life, breaking up the routine of drill and serving to build up his muscles and morale.

Eighty-two hundred men from Missouri, Kansas, Illinois, Iowa, Nebraska, North Dakota, South Dakota, Minnesota, Michigan and parts of other states are in training here and from the moment he enters the station the young man is encouraged to participate in athletic contests. It is argued that the skill and strength obtained in this way stand in the stead of fighting the nation's battles.

John B. Kaufman, past assistant surgeon, although also engaged at the head of a hospital of 1000 men, is in charge of all athletics. His athletic staff, composed of Ensigns W. B. Edwards and W. H. Stilwell, has been aided by volunteer service men, and civilians who occupy high rank in the outside athletic world.

Among these is "Jimmy" Sheppard, star outfielder of the Chicago Cubs, National baseball club and now assistant manager and scout. With many college, semi-professional and amateur players, the station has a track team which is whipping an enviable baseball team into shape. At present there are several leagues in the various camps of the station and the champion of the championship nine will represent the sailors against outside clubs.

Martin A. Delaney, physical director of the station and in charge of the station, also has volunteered his services. Delaney, who was second in command of the American Olympic team at Stockholm, devoted much of his time to the first big outdoor track meet of the season, in which more than 1,000 bluejackets participated. Coach E. J. Fisher, father of Lake Forest college also is assisting with track athletics. Coach Lake Forest College abandoned athletics at the beginning of the war, several of his men enlisted, among them Captain J. H. Fisher, who is now in the station serving as a second class yeoman.

Coach Harry Hasebrouk of the Hamilton Club, Chicago, has enlisted in the United States Naval Reserve Force as a chief yeoman and now is engaged in teaching recruits to swim. William H. Fisher, who is in charge of the Athletic Club, also has volunteered his services as a swimming coach and it has been announced that as soon as the waters of Michigan are warm enough every man in the station will be required to demonstrate his ability to swim.

Boating is one of the most popular sports at the station. Chief Throat Captain Jack Kennedy is in charge of this branch of athletics. Boats are sold regularly to the station and a natural amphitheater in a ravine on the reservation and thousands of persons attend them.

Almost every form of athletic competition finds its advocates here. Some of those who have claimed particular attention recently are C. C. Platt, Smith, captain of the University of Michigan football eleven, who came here with the Michigan Naval Militia. Another Michigan football hero in training here is the former half-back for two years. There are professional wrestling matches, among them, Ben Breen, a Chicagoan, and a University of Michigan champion wrestler, enlisted as a second class machinist's mate is acting as instructor of wrestling. One of his leading pupils is Wicker, formerly of the University of Indiana.

Almost the only sport for which there is no place at the station is golf and R. B. Luskman of Kansas, who came with the Missouri Naval Militia and was one of the best golfers of his state, said he hopes they find a place for it at the station.

Although the men engage in almost all of the other branches of athletics, baseball and boxing are easily the favorites. Almost any of the men who are in the county jail not wishing to exercise men summoned from all parts of the county to the contingent of their contact with prisoners who might be brought before them for trial.

This action will probably mean that so many criminal cases will be tried in the Seventy-eighth District Court before September.

AMERICAN FLYERS NOW IN ENGLAND ON WAY TO FRANCE

By Associated Press. London, June 28.—A small contingent of the United States flying corps arrived in England yesterday wearing civilian clothes with blue silk armlets bearing white letters, "United States Flying Corps."

Mrs. W. L. Dalton and daughters left today for Wheeling, W. Va., and Pittsburgh, Pa., where they will spend the summer. Mr. Dalton will join them in August.

Notorious "Reds" in Custody; Officials Think Movement Ends

EMMA GOLDMAN AND ALEXANDER BERKMAN

Emma Goldman and Alexander Berkman, arrested in New York for conducting a campaign against all the activities and activities of this government, particularly against our part in the war and army conscription, in the course of which they have at times almost preached sedition, are the most notorious anarchists in America.

Neither Berkman nor Emma Goldman is an American citizen, and if convicted they may be deported after their prison terms are served. The laws of the United States provide that where an alien has twice been convicted of crime in this country he may be deported, no matter how many times he has been deported.

Miss Goldman gave her age as 48 years. She said she was born in Russia, but as a young girl migrated to the United States. Berkman refused his age, but as a young girl migrated to the United States in 1882. Berkman refused his age, and apparently answered to guard your tongue if you do not guard your thought.

The last thought I want to bring to your notice in connection with this book you are writing is the immortality of it. I believe in the immortality of the soul, but I cannot prove it. But I can prove the immortality of the book of yours. For thoughts cannot be annulled. Remember, the record stands for all time. What I have written, I have written. Be careful how you write. It is said that it is a solemn thing to do it; but it is a hundred times more solemn thing to live. You are not responsible for your death, but you are responsible for your life.

Mr. McIntosh closed his discourse with an earnest and eloquent appeal to forsake the ways of the world, though it had been free from great crimes, fell so far short of the true Christ, that he could not trust to his deeds to save him, but only the saving blood of Christ. He called upon all to forsake their sins, and both to confess Christ and to live Him.

LIFE IS A BOOK; WE ARE WRITING OUR RECORD THERE

REV. MCINTOSH DELIVERS POWERFUL APPEAL IN CLOSING SERVICE OF REVIVAL

The revival meeting at the First M. E. Church, South, was brought to a close last night and Rev. McIntosh, the evangelist, goes to Oak Cliff where he will be preaching the week in the Tyler Street M. E. Church.

There have been between forty and fifty professions during the meeting here. The old truths, plainly preached by the evangelist, have impressed more deeply upon those who have attended the meetings.

"What I Have Written, I Have Written" was the text of the address by Rev. McIntosh at the close of the revival last night. Each of the men who have engaged in professional wrestling matches, among them, Ben Breen, a Chicagoan, and a University of Michigan champion wrestler, enlisted as a second class machinist's mate is acting as instructor of wrestling.

CRIMINAL DOCKET TAKEN UP IN 30TH DISTRICT COURT

Criminal cases are being tried in rapid order in the 30th district court. Yesterday afternoon Oscar Rudolph, alias Mike Evans and W. C. Weiss were found guilty of the theft of an automobile belonging to Joe South and were each given two years.

RED CROSS FUND EXCEEDS HUNDRED MILLION DOLLARS

WASHINGTON, June 26.—The Red Cross humanity dollars campaign passed its mark today with a total of \$100,000,000 tabulated at noon today and returns still coming in. The Red Cross war council expects a total of \$110,000,000 by nightfall.

PRICES HIGHER BUT ECONOMY BEING PRACTICED

DEMANDS OF GOVERNMENT, GROW: SHORTAGE OF SUPPLIES AND LABOR

R. G. Dun's review for the past week says: All other business features are overshadowed by the price situation which daily becomes more extraordinary. Notwithstanding the rapid and practically unbroken rise for many months, particularly in the case of raw materials and partially manufactured and finished products, and that even more striking levels may be reached by the price situation.

The laws of the United States provide that where an alien has twice been convicted of crime in this country he may be deported, no matter how many times he has been deported. The laws of the United States provide that where an alien has twice been convicted of crime in this country he may be deported, no matter how many times he has been deported.

Nothing in speculative markets has matched the phenomenal price movements in cotton, and this week's special trade in clearly reports that the practice of economy and retrenchment is spreading, but consumption remains notably large under the conditions.

Cotton Crop Generally Backward. Nothing in speculative markets has matched the phenomenal price movements in cotton, and this week's special trade in clearly reports that the practice of economy and retrenchment is spreading, but consumption remains notably large under the conditions.

VENIZELLOS WANTS GRECE TO ENTER WAR FOR ALLIES

LEADER WHO HAS BEEN CALLED TO HEAD CABINET WILL START CAMPAIGN

London, June 26.—A dispatch to the Times from Athens says as soon as parliament is convened M. Venizelos will probably propose to the deputies that Greece join the allies. He does not intend, however, to utilize the nation against its will. He is expected to undertake a great campaign explaining to the people that Greece's interests are bound up in the Entente cause. If his mission is successful, he will be able, in about three months, to put the entire forces of Greece into the balance.

A Reuter's dispatch from Athens says there were demonstrations in the city on Sunday night and that the army entered the city to assist in the maintenance of order. The demonstration was organized by a number of reservists and sailors under the leadership of followers of Demetrius Gounaris. (M. Gounaris, former Greek premier was one of the pro-German group around King Constantine.)

A later Reuter's dispatch from Athens says it is stated on good authority that M. Venizelos will form a cabinet, not later than Wednesday.

IS SUMMONED BY KING A RALLY FRIDAY NIGHT

Prominent Citizens Will Speak at Street Meeting—Big Recruiting Drive is Now On

From Tuesday's Daily. Prominent citizens will speak at a recruiting rally next Friday night at the corner of Eighth street and Ohio avenue. A recruiting campaign is now in progress throughout this and surrounding counties which it is hoped the rally Friday night will wind up with two full companies of the Texas National Guard enlisted at this point.

At a called meeting Monday afternoon the directors of the Chamber of Commerce declared it the sense of that organization that was best for the young men of this section to volunteer in the National Guard companies being recruited here rather than wait for the selective draft and vote to give the active support of that organization to the effort to recruit two companies of Infantry in the Guard here.

The directors also voted such an appropriation as might be necessary to provide subsistence for recruits who did not have employment until such time as the company would be mustered into service. The companies will be mustered into service as soon as they are recruited to minimum strength of 100 to the company. J. H. Marlow has offered the use of a two-story house in the Skinner addition as a temporary camp. A camp cook will be named and provisions sought for the recruits. Mr. Marlow has also given the use of his office as recruiting headquarters and has given the recruiting his whole-hearted efforts.

At the meeting yesterday afternoon committees were named to press the recruiting in other towns in the county and in the surrounding counties. It was the sense of the directors that the whole influence and support of the Chamber of Commerce be placed behind the recruiting campaign.

Ads have been sent out to all the papers, and dodgers are being printed to be distributed in the various communities to be visited. This is to avoid the delay in placing the needs of the Guard before the people which would be caused by waiting for the weekly papers to appear, as most of them do not come out till late in the week.

VENIZELLOS WANTS GRECE TO ENTER WAR FOR ALLIES

LEADER WHO HAS BEEN CALLED TO HEAD CABINET WILL START CAMPAIGN

London, June 26.—A dispatch to the Times from Athens says as soon as parliament is convened M. Venizelos will probably propose to the deputies that Greece join the allies. He does not intend, however, to utilize the nation against its will. He is expected to undertake a great campaign explaining to the people that Greece's interests are bound up in the Entente cause. If his mission is successful, he will be able, in about three months, to put the entire forces of Greece into the balance.

A Reuter's dispatch from Athens says there were demonstrations in the city on Sunday night and that the army entered the city to assist in the maintenance of order. The demonstration was organized by a number of reservists and sailors under the leadership of followers of Demetrius Gounaris. (M. Gounaris, former Greek premier was one of the pro-German group around King Constantine.)

A later Reuter's dispatch from Athens says it is stated on good authority that M. Venizelos will form a cabinet, not later than Wednesday.

IS SUMMONED BY KING A RALLY FRIDAY NIGHT

Prominent Citizens Will Speak at Street Meeting—Big Recruiting Drive is Now On

From Tuesday's Daily. Prominent citizens will speak at a recruiting rally next Friday night at the corner of Eighth street and Ohio avenue. A recruiting campaign is now in progress throughout this and surrounding counties which it is hoped the rally Friday night will wind up with two full companies of the Texas National Guard enlisted at this point.

At a called meeting Monday afternoon the directors of the Chamber of Commerce declared it the sense of that organization that was best for the young men of this section to volunteer in the National Guard companies being recruited here rather than wait for the selective draft and vote to give the active support of that organization to the effort to recruit two companies of Infantry in the Guard here.

The directors also voted such an appropriation as might be necessary to provide subsistence for recruits who did not have employment until such time as the company would be mustered into service. The companies will be mustered into service as soon as they are recruited to minimum strength of 100 to the company. J. H. Marlow has offered the use of a two-story house in the Skinner addition as a temporary camp. A camp cook will be named and provisions sought for the recruits. Mr. Marlow has also given the use of his office as recruiting headquarters and has given the recruiting his whole-hearted efforts.

At the meeting yesterday afternoon committees were named to press the recruiting in other towns in the county and in the surrounding counties. It was the sense of the directors that the whole influence and support of the Chamber of Commerce be placed behind the recruiting campaign.

Ads have been sent out to all the papers, and dodgers are being printed to be distributed in the various communities to be visited. This is to avoid the delay in placing the needs of the Guard before the people which would be caused by waiting for the weekly papers to appear, as most of them do not come out till late in the week.

Three hundred recruits are needed, of which thirty-five have been procured. The committees are going to put squarely before all the eligible boys the great advantage of going of their own free will, as compared to being drafted. They will endeavor to impress upon the boys that the slight advance in pay and the fact that they will be in a very inferior position normally to those who volunteer. Furthermore, there is one very practical advantage which the Guard possesses over the regular: which is that a boy has a chance to stay with his friends. Conscription surroundings mean a great deal in camp life, where there is much that is apt to go against the grain at first; and the privilege of "bronzing" about it to one's friends is not to be despised.

The following committees have been appointed for the campaign: Advertising—Messrs Johnson, Lawton and Huey; Recruiters: Electra—Messrs Wood, Mercer and Davenport; Archer City—Messrs Carrigan and Fitzgerald; Iowa Park—Messrs Clark, Ferguson and Billock; Burk Burnett—Messrs Cline, Cotton and Staley; Henrieville—Messrs Scurry, Haney and Stridling; Seymour—Messrs Britain and Shelton.

The directors yesterday afternoon were addressed by Captain Perkins, one of the companies now organizing, who told what was wanted of Wichita Falls and surrounding territory. He said pointed out the advantages to the young men of this section in joining the Guard. G. C. Wood, Judge Carrigan, J. A. Kemp and B. J. Bean spoke in support of the movement.

At a meeting at Mr. Kelly's office this morning further details of the recruiting campaign were worked out.

Throughout the state units of the Guard are being rapidly recruited. By July 1st it is expected the new regiments will be filled. The Nation expects to receive the new division on August 5. Texas must not hesitate. The Lone Star Republic would not have been born if Texans of that generation had waited for someone else to step forward. Now is the time when Texans of this generation must show they have the same "stuff" that their forefathers displayed when they wrested Liberty from Santa Anna.

CHAM. COMMERCE SQUARELY BEHIND NATIONAL GUARD

DIRECTORS HEARTILY ENDORSE RECRUITING EFFORT AND WILL GIVE ACTIVE HELP

From Tuesday's Daily. Prominent citizens will speak at a recruiting rally next Friday night at the corner of Eighth street and Ohio avenue. A recruiting campaign is now in progress throughout this and surrounding counties which it is hoped the rally Friday night will wind up with two full companies of the Texas National Guard enlisted at this point.

At a called meeting Monday afternoon the directors of the Chamber of Commerce declared it the sense of that organization that was best for the young men of this section to volunteer in the National Guard companies being recruited here rather than wait for the selective draft and vote to give the active support of that organization to the effort to recruit two companies of Infantry in the Guard here.

The directors also voted such an appropriation as might be necessary to provide subsistence for recruits who did not have employment until such time as the company would be mustered into service. The companies will be mustered into service as soon as they are recruited to minimum strength of 100 to the company. J. H. Marlow has offered the use of a two-story house in the Skinner addition as a temporary camp. A camp cook will be named and provisions sought for the recruits. Mr. Marlow has also given the use of his office as recruiting headquarters and has given the recruiting his whole-hearted efforts.

At the meeting yesterday afternoon committees were named to press the recruiting in other towns in the county and in the surrounding counties. It was the sense of the directors that the whole influence and support of the Chamber of Commerce be placed behind the recruiting campaign.

Ads have been sent out to all the papers, and dodgers are being printed to be distributed in the various communities to be visited. This is to avoid the delay in placing the needs of the Guard before the people which would be caused by waiting for the weekly papers to appear, as most of them do not come out till late in the week.

Three hundred recruits are needed, of which thirty-five have been procured. The committees are going to put squarely before all the eligible boys the great advantage of going of their own free will, as compared to being drafted. They will endeavor to impress upon the boys that the slight advance in pay and the fact that they will be in a very inferior position normally to those who volunteer. Furthermore, there is one very practical advantage which the Guard possesses over the regular: which is that a boy has a chance to stay with his friends. Conscription surroundings mean a great deal in camp life, where there is much that is apt to go against the grain at first; and the privilege of "bronzing" about it to one's friends is not to be despised.

At a meeting at Mr. Kelly's office this morning further details of the recruiting campaign were worked out.

Throughout the state units of the Guard are being rapidly recruited. By July 1st it is expected the new regiments will be filled. The Nation expects to receive the new division on August 5. Texas must not hesitate. The Lone Star Republic would not have been born if Texans of that generation had waited for someone else to step forward. Now is the time when Texans of this generation must show they have the same "stuff" that their forefathers displayed when they wrested Liberty from Santa Anna.

By Associated Press. Muskogee, Okla., June 26.—A bitter cattle feud of many years standing terminated last Monday in the death of three stockmen near Cookson, 25 miles southeast of this city in Cherokee county. N. S. Ballow, Frank Lucy and Ed Neesley were the men killed.

According to reports received at the Cherokee county sheriff's office this morning, Ballow yesterday rode to Neesley's house, called Neesley out and shot him to death and then proceeded to Lucy's ranch a few miles distant. Ballow and Lucy exchanged shots and Lucy fell from the house, striking away a shot from the house killed him.

Several times during the fight Neesley and Lucy exchanged shots and Neesley reached Ballow just before he died near the Lucy home. One of the physicians told the cattleman that he was dying and asked him if he cared to make a statement.

"By the way, I have no statement to make only that I did the best for the good of the county," replied Ballow.

FRENCH TROOPS IN SURPRISE ATTACK WIN GERMAN LINE

GENERAL PETAIN REPORTS BRILLIANT SUCCESS FOR TROOPS NEAR HURTUBISE

The Associated Press war summary today says: General Petain has resumed his dash operations on the Aisne and today reported a brilliant success for his troops in a surprise attack north-east of Hurtubise. The entire first line of the strong German position there was badly cut up besides losing more than 200 men in prisoners. It is in this sector between Craonne and Berry that most feasible routes lie to the German fortress of Laon, the vital support of the whole German line on the French front. Last night's efforts by the French seemed to indicate that their chief command has no idea of letting control of the situation slip from its grip under von Hindenberg's fighting tactics.

British aircraft waged a brilliant fight over Flanders on Monday, three naval machines engaging ten German airplanes in a sixteen-minute battle the Germans were worsted, one machine being brought down in flames while two others were believed to have been driven down. The British came through unscathed.

BERLIN SAYS FRENCH EJECTED FROM POSITIONS. By Associated Press. Berlin, June 26.—The French troops which had penetrated the German line northwest of Hurtubise on the Aisne front was subjected to a counter attack and ejected from the greater part of their positions. The German headquarters announced today. Great quantities of ammunition are being expended in artillery fire along the front in Belgium and Northern France, the statement declared.

NATIONAL GUARD NEEDS 12,000 MEN TO FILL QUOTA

Houston, Texas, June 26.—Within a few short weeks Texas must present before the nation a 12,000 first-class fighting men.

The Nation, in its time of need, has called upon Texas. The Lone Star State, whose military history is brilliant, whose records are written on mortal deeds upon the scroll of time, and whose government is founded upon freedom and humanity, is on trial. Texas must answer the call. The dignity of the Nation has been affronted and its liberties jeopardized. It is the duty of every Texan to stand up for the Nation's honor.

The following committees have been appointed for the campaign: Advertising—Messrs Johnson, Lawton and Huey; Recruiters: Electra—Messrs Wood, Mercer and Davenport; Archer City—Messrs Carrigan and Fitzgerald; Iowa Park—Messrs Clark, Ferguson and Billock; Burk Burnett—Messrs Cline, Cotton and Staley; Henrieville—Messrs Scurry, Haney and Stridling; Seymour—Messrs Britain and Shelton.

The directors yesterday afternoon were addressed by Captain Perkins, one of the companies now organizing, who told what was wanted of Wichita Falls and surrounding territory. He said pointed out the advantages to the young men of this section in joining the Guard. G. C. Wood, Judge Carrigan, J. A. Kemp and B. J. Bean spoke in support of the movement.

At a meeting at Mr. Kelly's office this morning further details of the recruiting campaign were worked out.

Throughout the state units of the Guard are being rapidly recruited. By July 1st it is expected the new regiments will be filled. The Nation expects to receive the new division on August 5. Texas must not hesitate. The Lone Star Republic would not have been born if Texans of that generation had waited for someone else to step forward. CAPT. STANFORTH ARRIVES TO HELP IN RECRUITING

Captain Sneed G. Stanforth, better known by his friends here as "Boss" Stanforth, arrived yesterday evening from Camp Pickett where he was in training for the officers reserves corps to assume command of one of the companies of the Texas National Guard being recruited here. Mr. Stanforth left this morning for Electra and will remain there actively engaged in recruiting.

Captain Perkins said today that he considered Captain Stanforth the ablest company commander in the National Guard of Texas and that Captain Stanforth here that reputation among the other officers throughout the state; that Stanforth's rise in the service has been rapid, and while young in years he had seen a great deal of service in the Texas National Guard, having started in as a private in the Gainesville company. Fourth Regiment, and risen to the command of the company there. Since Mr. Stanforth's removal to Wichita Falls he has been assistant general manager

of the Wichita Brick & Tile Co., one of the largest local corporations.

On the declaration of war with Germany Captain Stanforth resigned his position to go to the Leon Springs Training Camp and was known there as one of the brightest young officers in the camp, and for this reason Captain Perkins says the Texas authorities experienced a great deal of trouble in getting Captain Stanforth released. Captain Stanforth and Captain Perkins are very warm personal friends of many years standing and will work together to secure the three hundred recruits required. The men already secured will be divided between these two company commanders, and the will work together to secure the balance.

At the last report about noon today 121 men had been secured.

Mayor A. H. Britain and Joseph Kell returned from Seymour last night where they secured twelve recruits. Nine recruits have been secured at Electra by F. L. Mercer. Barkhurst has furnished twelve recruits and Herrietta 100.

AUSTRIAN EMPEROR AND EMPRESS TO VISIT MUNICH

By Associated Press.

Copenhagen, June 29.—Emperor Charles and Empress Zita of Austria-Hungary are expected to arrive in Munich on Saturday. It is said the visit of the emperor will be of political as well as of a social nature. He will be accompanied by Count Czernin, the foreign minister and the heads of the Austrian military and civil cabinets.

Chicago Grain Futures.
 Chicago, June 29.—Wheat futures in wheat prices continued today with trading very restricted pending congressional action on the food conservation bill. Opening prices ranged from 1 1/2 decline to a like advance. The close was steady at exactly the same as yesterday's finish, \$2.40 for July and \$1.8 1/2 for September.

Corn closed unsettled, 2 cents net lower to 1 1/2 cent advance as compared with yesterday's close.

New York Cotton Futures.
 New York, June 29.—The cotton market opened steady at an advance of 11 to 20 points today in bullish sentiment by continued weather in the southwest and favorable crop report making the condition 7 1/4-8 1/4 last month. October contracts sold at 26 1/2 and December at 26 1/2 on the call.

Cotton closed steady, July, 26 1/2; October, 26 1/2; December, 26 1/2; January, 26 1/2; March, 26 1/2.

WHIP GERMANY IN EUROPE OR HAVE IT TO DO HERE

Houston, Texas, June 29.—Texans who have decided themselves that their property and lives are secure from German militarism, might take a lesson from the plot which was un-dermined Tuesday by United States secret service men, in the opinion of Col. Oscar C. Guessaz, National Guard of Texas. The plot was nipped by United States agents, who it is claimed protested the blowing up of a boat in the ship channel near Houston. It is charged that German sympathizers offered \$25,000 to the captain of the boat to destroy the vessel. The captain is under arrest.

Many of our property owners seem to think Germany will be subdued without serious effort on our part, and Col. Guessaz says they are sadly mistaken. The plot of the German sympathizers right in our midst should show this. Also the fact that the boat to destroy the vessel. And that citizens here to ask for our help in men and money illustrates the seriousness of the situation. If those in-charge of the situation are unable to destroy the militarism of Germany they would not have appealed to us as they have. It is obvious they feel they may not be able to prevent an invasion of their own country or the ravage which would follow. We can judge of what would occur in England and France if Germany were to do in Belgium. And we can judge what would occur in the cities and country side of this nation once German arms had landed on our soil. And that is no dream. If German arms touched England and France and took over their powerful navies, they could sail to America and make this nation pay them a staggering war indemnity. Germany could land armies on Texas coast, and does not need a great stretch of imagination to picture a soiled-helmeted force entering Galveston, Houston, Fort Arthur or some other port.

Colonel Guessaz believes the war will last some years and that unless the young men come forward now and fight this nation's battles, they will have to fight the harder later on.

"If we don't whip Germany in Europe we will have to fight her on our own soil." We will extract the teeth from the dogs," is a favorite saying of the Germans, and unless American fighters now to protect her liberty, many a boast may be realized, he says.

In the cities of Louvain and Liege, and every city of Belgium, Roumania and Serbia and France where Germans have gained possession, women have been sacrificed to the lust of the most diabolical fiends the world ever produced. Women were raped in the street in broad daylight and were to man or woman who interfered.

"Let every young man in Texas think for just a moment of those near and dear to him. Let them read the history of the grand women who gave birth to their fathers, let them think and revert to the times when their ancestors defended the homes and while the men were busy at the port holes fighting others and wives of these men were snuffing bullets for the defense.

"Do you not think we ought to take good care that these good women may not meet the fate of the thousands of women in Belgium and France?"

Men of Texas awaken before it is too late.

SENATOR JOHNSON WAS MARKED FOR DEATH

San Francisco, June 29.—United States Senator Frank M. Johnson was marked for death by the International Workers Defense League, when he was governor of California, declared Assistant District Attorney Ferreras in the trial today of Mrs. Rena Muen, a woman who was accused of a bomb explosion here last July which cost ten lives.

Thomas J. Mooney was secretary of the league, and he offered regulations which were adopted, threatening death to the governor for his failure to pardon Richard Ford and H. D. Sahr, convicted of the Wheatland Knoll riot murder," said Ferreras.

DELEGATIONS OF ALSATIANS CALL ON GEN. PERSHING

By Associated Press.

Paris, June 29.—Major General Pershing yesterday received a delegation from the Alsace-Lorraine republican committee. Referring to the Alsace-Lorraine vice president, M. Staefling, told the General how proud they were that a descendant of the little country had come to fight for the triumph of their

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theford's Black-Draught."

Theford's Black-Draught will help you to keep fit, ready for the day's work. Try it!

 Wichita Falls, Texas, June 29, 1917.

If the recall was in operation in Texas right now there are two or three high officials that it ought to be applied to. Ninety per cent of the people would like to have the chance to undo what they did at the last election.

"President May Makes Nation Dry as a Bone," reads a newspaper headline. Suits us all right, and the quicker the better. Its better to have her "bone dry" than stand for saloon politics. Texas can now see her mistake.

France and England, and the United States are now united as one so far as whipping Germany into submission is concerned, and when the fellow who is a citizen of the United States denounces either England or France for their war on Germany is an enemy to this country. The only reason he does not denounce Uncle Sam is because he is cowardly and afraid to take the chance.

It appears to be the opinion generally that the number of men to be drafted into the army from each of the forty-eight states will depend largely upon the number of volunteers such states furnish to the regular army and the National Guard. Texas, for instance, is expected to furnish about 15,000 soldiers. In the event the National Guard secures the number it expects, 12,000 men, that would hold down the number to be drafted from the state to about 3,000. Two companies of the National Guard are to be recruited from the counties of Wichita, Clay, Archer, Baylor and Knox counties. It will require recruits to the number of about 300 to complete the two companies, and if those in charge of the recruiting of the two companies of National Guard are successful it will cut down to about one-half the number it will be necessary to draft from the counties named.

Several thousand American soldiers have been safely landed on French soil, and doubtless before a month passes an American army of something like 100,000 men under command of General Pershing will be on the firing line in France. Just how it was that our first transports got through without being attacked by the German submarines is a government secret, but it is known that the transports were conveyed across the ocean and through the war zone by a strong fleet of American fighting ships, and it may be this, in a great part, accounts for the safe landing of our troops. As a general rule, the German submarine does not make an attack until it can figure out how it can get away after the attack is made. Germany is credited with having something like one thousand submarines, and it does not seem possible that our ships could have passed through the war zone without being observed by some one of them. If the remainder of our troops have as good success in crossing over to France, it will go far toward strengthening the belief that the German submarine have a wholesome regard for the marksmanship of the American gunners, and are not going to make an attack when so greatly outnumbered.

NORWAY TO EXERCISE STRICTER CONTROL OVER FOREIGNERS
 London, June 29.—The Copenhagen correspondent of the Exchange Telegraph company reports that the Norwegian police, continuing their investigation of the German plot to destroy Norwegian steamships by means of explosive brought into the country by a courier of the German foreign office, conducted a seven-hour examination of Aron Rautenfels, who was arrested in connection with the conspiracy, and his assistants.

Rautenfels showed great nervousness while undergoing an examination of two hours by the chief of the Norwegian detective force. According to the Social Democrat of Copenhagen, Rautenfels probably will be handed over to the German authorities on Friday.

The justice committee of the Norwegian Storting has decided to exercise a stricter control over foreigners. It is proposed that all foreigners must possess passports and that they be prohibited from settling in certain districts.

MANY ENGLISH FAMILIES STILL KEEP SERVANTS
 Associated Press Mail Correspondence.
 London.—Thousands of families throughout the country, in spite of the shortage of labor, keeping their usual pre-war quota of servants. There are instances of households consisting of a mother and two daughters employing a staff of nine servants. In fact, in many homes there are no more servants that they spend most of their time waiting on each other.

Bevo
 the home drink

Besides its popularity at drug stores, fountains and restaurants, Bevo has found a welcome place in the home. A family beverage—a guest offering—a table drink that goes perfectly with all food.

As a suggestion for Sunday supper—Sweet red or green peppers stuffed with cream cheese and chopped nuts or olives, served on lettuce leaves. French dressing. Cold meat. Toasted crackers. Bevo for everyone. A beverage that tastes like no other soft drink. Pure, wholesome and nutritious.

Bevo—the all-year-round soft drink.

ed with souvenirs sent by various Texas manufacturers, boxes of candy from the Hughes Company at Dallas and an Imperial Candy company at Fort Worth, chewing gum from the Tempie Gum Company at Temple, and the Texas Novelty Co., at Hillsboro to the association. The association measures for the ladies and match safes for the men. The napkins used came from the Bonham Cotton Mills. Cigars were furnished by the Finch Cigar Co., San Antonio, Uncle "A" GINGER Ale by the Artesia Bottling Works, Waco, coffee by the Cheek Seal Coffee Co., Houston, and Hoffman Hayman Coffee Co., San Antonio, sauces and pickles by N. Nigro of Dallas. The Wichita Mill and Elevator supplied the flour and the Imperial Sugar Co. of Sugarland the sugar used in preparation of the banquet.

The menu follows:
 Circle "A" GINGER Ale
 Texas Grape Fruit Punch
 Lake Wichita Milk Fed Chicken
 Toast
 Texas Country Cured Ham
 Iced Texas Tomatoes, Texas Potato Chips
 Texas Potato Salad, Belle of Wichita Rolls
 Wichita Falls Brick Ice Cream
 Texas Waters
 Texas Coffee Iced Texas Tea
 Travis Club Cigars
 The Toasts
 J. A. Kemp, the new president of B. I. M. I. T. presided as toastmaster. Judge Kay, who was announced as toastmaster being unable to attend, Judge R. E. Huff made the address of the evening on "The Lure of the Far Away," and his speech was followed by an informal order of toasts from various of the members and directors, as called on by Mr. Kemp. L. M. Cahill of Dallas, representing the Southwestern Life Insurance Co., in his talk paid a compliment to the Wichita Southern Life Insurance Co., naming it as one of the few Texas firms that have stood the acid test. John F. Shelton, the retiring president, spoke of the wonderful change in Wichita Falls during the past few years, and his lead in speaking also things about "the busiest and best built city in Texas" was followed by practically all of the speakers.

H. P. Whitson, chief of the state commission of agriculture responded to the toast proposed on the agricultural industry with a plea for the B. I. M. I. T. support for the agricultural commission in its work.

John V. Hughes of Hughes Bros. candy manufacturers, when called on to respond to "Sweet as the Sweetest" said that he had done quite enough for the entertainment of the company in furnishing candy and that Mr. Thomasson, the secretary managing the affair, had done more than enough for him. Mr. Thomasson made his theme the necessity of merit in Texas made goods if they were to command the market. The association aims to create.

Earle B. Mayfield added a few words asking that the association support the government; the government should be regarded as a servant of the people, not a dictator, according to Mr. Mayfield.

Frank Kell devoted his remarks to the necessity of a greater wheat production for next season and suggested that the association might render a fitting service by lending its influence and energy along this line.

Miss Walter Robertson sang a Texas-made song, "Texas, Pride of the South," written by Mrs. Ella Hudson Day of Hottan and other music was furnished by the band's orchestra.

Following the banquet the directors held their first meeting and elected the following executive council: R. Bissell of Dallas, John Y. Hughes of Dallas, I. Jalonick of Dallas, T. B. Noble of Wichita Falls and John F. Shelton of Fort Worth. The directors drew lots for the one and two-year terms and set August 1 for their next meeting to be held in Dallas.

FOOD GROWS SCARCER DAILY IN BELGIUM
 Havre.—The price of a pair of oxen in Brussels is now the equivalent of \$1800 according to information received in Belgian official circles here. Besides a few donkeys oxen are about the only means the Belgian population has for the transportation of goods and merchandise. Even these are being requisitioned by the Germans.

Food continues to grow scarce. Flour is made of 97 per cent of the wheat and the rations of the Royal Dutch Relief Committee are being reduced.

Industry is practically suppressed. The Germans having ordered that all factories employing more than a dozen men must work for the German army or close their doors.

GREAT BRITAIN ADVERTISES THE SALE OF AIRPLANES
 London.—The British government advertises a sale of airplanes. It has 165 airplanes which it desires to dispose of immediately. Only one is complete with engine. The others are ready to have the engines mounted. Presumably most of them are of obsolete models.

At The Churches

First Baptist Church.
 Sunday school at 9:45, changed from 10 o'clock. Preaching service at 11 a. m. and 8:15 p. m. Dr. C. B. Williams, of the Theological Seminary at Fort Worth, will occupy the pulpit both morning and evening. Prayer meeting Wednesday evening at 8:15. Members and friends are urged to be present at all the services.

Church of the Good Shepherd.
 Holy communion, 7:30 a. m.; Sunday school, 9:30 a. m.; Holy communion and sermon, 11 a. m. The pastor will preach on "National Conservation, or Saving the Fragments." There will be no evening service. He will attend the morning worship. Cordial welcome for everybody.
 FRED T. DATSON, Rector.

Central Presbyterian (Eleventh and Bluff)
 Services morning and evening. In the morning, following Sunday school at 9:30, is the service of worship, commencing at 11 a. m. The subject of the sermon by the minister is "The Way of Temptation," showing how the specific act termed sin or a fall is reached after a period of testing of the individual, during which time he might usually avert the danger, by divine help.

The sermon in the evening, at 8:20, is on the subject, "The Need of a Redeemer." There are those who think they can save themselves by their good works or in their own strength and there are ones who do not think they need any Redeemer or redemption at all. Again, there are those who realize the need, but do not know where to turn. You are invited to each of these services.
 L. J. SHERILL.

First Methodist Church South. (Six Barnes Pastors)
 Sunday school at 9:30. The big orchestra begins promptly at 9:30. If there is any one who has not had music, a class and a welcome to suit you. At 11 o'clock food conservation service. Plenty of ice water and electric fans at this class. We will try to make you as comfortable as we can here for you. You will have to make your own preparations for the hereafter. Subject for the evening, "A Blind Man." Good music. The Senior League at 7:30. This service is for you young people. Make it your business to be there. A special feature at 7:15 the live-act Intermediate League in town.

Floor Heights Presbyterian. (Corner Kemp Boulevard and Ave. G)
 Services Sunday conducted by the pastor. A splendid Sabbath school at 10 a. m. Preaching at 11 a. m. Subject of sermon, "The Christian's Assurance." Sacrament of Lord's supper. Night service in the open-air internade. Subject of sermon, "The Sinner's Assurance." The pastor of this city has promised to sing at this service.
 J. WALTER HAGGART, Pastor.

First Presbyterian Church.
 The Sabbath School will have charge of the singing service. There will be a interesting Children's Day exercise. Put your offering for current expenses in an envelope as all the other money goes to the church building fund. There will be no night service. We will have our regular prayer meeting next Wednesday night at 7:30. Every member of the church is urged to be present Monday afternoon.
 N. F. GRAFFON, Pastor.

First Methodist Episcopal Church (Corner Seventh and Lamar)
 Patriotic services in the Sunday school, church and evening services. Sunday school at 9:45 a. m. Robert Carey, sup. Morning worship 11 a. m. Subject of sermon, "The Declaration of Independence" and its moral lessons for patriotic duty. The Boy Scouts and Camp Fire Girls are invited especially. The organist, Mrs. Agnes Marquande, will play as volunteer. Allegro Moderato in G, by Homer. Evening patriotic service at 8:15. Song and praise service followed by short sermon, subject, "Patriotism." The organist will play as offering minister by Homer. George Taylor will have charge of the choir and the special music. Bring your friends to a fellowship and services you can't afford to miss.
 HARRY F. DRAPER, Pastor.

PAY OF WASHINGTON'S MEN CONTRASTED WITH RECRUITS
 By Associated Press.
 Chicago, June 28.—An interesting comparison between the pay received by men who served under George Washington and that paid American soldiers who go to France in Pershing's war army was seen today in a recruiting argument which placed a poster of Revolutionary days side by side with one appealing for men here.

The men who won freedom for the United States received \$60 a year, "the whole of which the soldier may lay out for himself and friends," according to the poster which points out that ample rations were allowed the army and "an annual and fully sufficient supply of good and handsome clothing provided."

The men who enlist during recruiting week will receive not only food and clothing but at least \$50 a month with an automatic increase of 20 per cent if ordered to the front. Men with trades do even better than \$50 a month. Cooks especially are wanted at \$28 a month. It is estimated that \$1 in the army is equal to \$3 in civil life because of the soldiers having food, clothing, housing, transportation and medical attention furnished by the government.

SERIOUS SHORTAGE OF DRAFT WAR ANIMALS

Lincoln, Neb., June 21.—That this state and the whole United States is facing a serious shortage in draft horses and mules is the belief of J. S. Anderson, state veterinarian, Great Britain, Italy and France have already taken one and one-fourth million animals out of this country and with the United States getting ready for hostilities and requisitioning a quarter million animals as a starter, he fears there will be enough left for domestic purposes.

It requires horses and mules at least four years old to do heavy work, and the armies of the allied nations will not take them at a younger age. Mr. Anderson explained. An extra year is required for the production of a colt after breeding. This means that breeders who start now to increase the equine product will not be able to achieve substantial results, so far as relieving the prospective shortage is concerned for five years.

Before the war, Mr. Anderson said the market for horses and mules was limited, and the demand did not always come up to the supply. When the war broke out and foreign buyers came to the United States, it was required for heavy draft work. The United States government, on other hand, buys high grade saddle horses and draft horses for army use.

Mr. Anderson said he talked recently with a buyer of horses of the British government, and was told that most of the allies' recent success during the past few months has been due to their possession of plenty of heavy draft and mules for moving heavy guns and bringing up supplies. The Germans have been unable to get horses fast enough to take place of those killed in their possession of plants. Three hours ago when considering retreats, many of which guns the allies are using.

FARMERS TAKE NOTICE.
 PLATO registered Percheron stallion will make the season for J. W. Verdon's barn, six miles southeast of Wichita Falls. Plato is an extra good, blocky built individual, coming five years old, dun gray with white mane and tail. Weighed 1625 lbs. at 2 years old. Horses men are invited to inspect this horse. Terms: \$12.50, to insure colt to stand and live two days. Removal of mares from this country, transfer of ownership, and life insurance, and fee is due payable at once. Mares and colts stand for service. Also sound saddle stallion, fee \$10.00 and YERDON.

CAPTAIN KIRBY INSPECTS SITES AVIATION CAMP

WILL MAKE REPORT TO WASHINGTON AND LIKELY WORK START IN THREE WEEKS

Captain M. Kirby of the United States Aviation Service, today inspected proposed sites for the aviation training camp to be established here. Captain Kirby looked over three sites and will submit his report with his recommendation to the war department at Washington. The selection of one of the sites within ten days is expected and Captain Kirby said that it was likely work would be started at the site within three weeks.

The dispatch announcing the selection of Wichita Falls for one of the aviation training camps said that about 500 men would be trained here and that 72 airplanes would be used. It is believed that the camp would provide for a larger number than 500 but Captain Kirby could say nothing on this point.

Captain Kirby came up last night from Fort Worth and made an inspection of three sites this morning in company with Manager Lawton of the Wichita Falls Water Company, J. A. Kemp and Secretary R. F. Johnson, who comprised a committee from the Chamber of Commerce.

The camp here will be a preliminary training school. After Captain Kirby's report is taken in Washington and one of the sites chosen two officers will be sent here to close a deal for the lease or purchase of the camp site and to make other arrangements preliminary to the opening of the camp. The government can purchase or lease any site chosen through condemnation proceedings.

WOMEN NEVER MORE WILLING TO ACCEPT STANDARD DRESS
London.—There has never been a time when women were more willing to accept standard dress or uniforms than they are at present.

That is the most marked effect of the war upon women's dress. All uniforms have acquired dignity in women's eyes. The housemaid does not object to the cap and apron badge of servitude, the worker in the bank dons an overall cheerfully, women in various organizations wear their khaki, the Red Cross and volunteer aid workers are proud of their uniforms.

An expert French designer, discussing these changes, says: "There always will be the women who want frilleries the women who try to insist upon something quite different from the style of the moment, but nowadays their number is greatly diminished. The uniform idea has arrived. It may mean the total extinction of dressmaking as a creative art, but there will be developments on other lines.

There has never been a great war which has not influenced fashion in a picturesque or even grotesque fashion, and this world war has done its share. We had a fashion adapted as a compliment to each ally, the Russian caps and tunics, the Bersagliere hats of the Italian soldiers, and the Serbian colors. Scotch plaids have given the Parisiennes great joy. "Khaki shades are in vogue for spring and summer costumes, and the bluegray, with touches of crimson, of the French uniforms is seen here and there.

PRIVATE BANK OF GRAHAM AND SONS IN CHICAGO CLOSED

Chicago, June 29.—Doors of the old private bank building firm of Graham and Sons, which has heavy deposits, were closed this afternoon. A police guard was requested. Andrew Graham who founded the firm many years ago, died a year ago. He was widely known in Illinois. His sons, Ralph and Edward have since conducted the business.

FEW FRENCH VESSELS SUNK LAST WEEK

Paris, June 29.—Two French merchantmen of more than 1600 tons and three of less than that size were sunk by submarines or mines in the week ending June 24 according to the weekly announcement issued here today. In that time there were 1088 arrivals at French ports and 969 departures.

Miss Ruth Ponder of Bryan, will arrive tomorrow to spend the remainder of the summer with her uncle, W. L. Ponder and family.

Beware of Arsenical Fly Poison Solutions

Now is the time to give the fly army a shower of shrapnel. But in fighting the germ carriers beware of arsenical fly poison. Dr. Ernest A. Sweet, in a government health bulletin, issues a warning as to the fly poison perils. Doctor Sweet warns mothers to destroy flies some other way than with arsenical fly poison.

Fatal cases of the poisoning of children through the use of arsenical compound are far too frequent," he says. "And owing to the resemblance of arsenical poisoning to summer diarrhoea and cholera infantum, we believe that the cases reported do not by any means comprise the total. Arsenical fly destroying devices must be rated as extremely dangerous and never should be used, even if other measures are not at hand."

However, flies can be poisoned without using poison. Mix together one tablespoonful of cream one of ground black pepper and one of brown sugar. Put in a saucer darken the room except one window, and in that window place the saucer. It will gather up all the flies in the room.

Any odor pleasing to man is offensive to the fly, and vice versa, and will drive them away. Take five cents' worth of oil of lavender, mix it with the same quantity of water, put it in a common glass atomizer and spray it around the rooms where flies are. In the dining room spray it lavishly even on the table linens. The odor is very disagreeable to flies, but refreshing to most people.

Geranium, nigronette, heliotrope and white clover are offensive to flies. They especially dislike the odor of honeysuckle and hot blossoms.

According to a French scientist flies have intense hatred for the color blue. Rooms decorated in blue will help to keep out flies. To clear the house of flies burn pyrethrum powder. This stupefies the flies, but they must be swept up and burned. Borax is especially valuable around farms and out of doors. One pound will be found desirable as a poison without injuring its material qualities or farm stock. Scatter the borax over the manure and sprinkle with water. Lye, choride of lime, or copopers (sulphate of iron dissolved in water) or carbolic acid, or any kind of disinfectant may be used in vaults.

PARADE TONIGHT WILL PRECEDE THE RECRUITING RALLY

RED CROSS, BOY SCOUTS, NATIONAL GUARD AND REGISTERED MEN WILL JOIN

The recruiting rally tonight will be preceded by a parade of the boy scouts, the Red Cross workers, the officers of the National Guard, and registered men. Taylor's band will head the parade, and every boy scout in the city has been called out. The local officers of the Red Cross are very anxious that all the ladies who have been in any way connected with the work shall be at the Red Cross work room on Ohio Avenue at 7:30 o'clock to take their places in the parade.

The mass meeting will be held at the corner of Eighth and Ohio at 8 o'clock. All registered men are urged to be present. The speakers will be Judge Huff, Judge Scary, and Judge Kay.

This is to be the final rally in the National Guard campaign, and it is hoped that tomorrow will see the completion of the quota for the district. The various committees report that everywhere good progress has been made, many of the towns closing their places of business to take up the work of organizing. There has been much enthusiasm displayed, and the work has gone forward in a thorough and satisfactory manner. Tonight the speakers will tell what has been done, and what remains to be done, and the leaders of the campaign feel assured that the quota will be raised by tomorrow.

FORT SILL TEAM COMING FOR GAME ON JULY FOURTH

Wichita Falls will celebrate the glorious Fourth by a baseball game, at the lake. The boys from Fort Sill are coming over to play the Wichita Merchants' team, and a good game is assured.

The lineup for the visitors is as follows: Luncason, c; Heckert, cf; Engle, 2b; Hauser, 3b; Allen, 1b; Snyder, ss; Critchie, outfield; Debolt, c; and Palmer, pitcher.

The home lineup is as follows: Henson, c; Filgo, p; Mathis, 1b; Aye, 2b; Jones, 3b; Morris, lf; Yeager, cf; Gutterie, rf; Ballard, outfield.

INDOOR CIRCUS TONIGHT AT METHODIST CHURCH

The greatest show on earth will be seen tonight at the parlors of the First Methodist Church, corner Seventh and Lamar, according to the hand bills. Clowns, trapeze artists, and fools the terms being somewhat vague, will be in charge of the affair which will consist of the activities of the above mentioned species in various forms and in many guises. The first and second attraction of course will be the circus, fools, or clowns. The second, a close rival, will be the menagerie in charge of the most terrific and spectacular variety show, see hand bill. The menu will cover entire range of activities, from will be continuous, in fact there is no way to stop it.

Mr. and Mrs. Tom Thibault will be present in the flesh, with their attendant family of fingers. Rebekah, having transplanted her will from the original spot, wherever that was, will be on hand, with the well and well, for a consideration, dispense drinks. A nigger baby, with a monomania for flooding missiles, will be seen, dodging.

A million dollars worth of costumes, more or less, have been imported from enormous distances at fabulous expense, to add to the gaiety, the drama and luxury of the occasion. Fortune tellers will tell, fortunes, impossible alike of belief and happening. Motion pictures, and reappearances can be attended by any who have money to throw away, and a branch postoffice will be opened for the occasion. From three-thirty to eleven p. m. these things can be seen and heard, and bought. No other events will be opened, and the show must move on to the next spot, as soon as it has squeezed this one dry.

Thirty minutes every day. Make it a rule! And always finish with a glass of pure water.

NOW IS TIME TO START PREPARING FOR NEXT SEASON'S WHEAT CROP

The Times has received the following from the Texas Industrial Congress:

Texas should double its wheat yield in 1918. The people must have bread, and still more bread, and the state can render no greater service to the nation and the world than by producing 30,000,000 bushels of wheat next year instead of 12,000,000 to 15,000,000 bushels.

Doubling the state's production of wheat in one year is a large order, but it can be done, and of all things the farmer may do, there is nothing so much importance as this. The crop can be increased in one of two ways, or by combining these two ways—by doubling the acreage or by doubling the yield per acre. No well-informed person will maintain that we cannot find 2,000,000 acres of wheat land in the great Texas wheat belt (larger than the whole of Oklahoma), or that it is impossible for the average yield of 12 1/2 bushels to be doubled. In 1915, Texas grew 23,000,000 bushels on 1,650,000 acres, an average of 15 1/2 bushels per acre, while England averages about 32 bushels per acre.

The determined cooperation of the farmers, bankers, and other business men and the Texas press, will make this service to the nation possible. A campaign in each county to double the wheat acreage; breaking new ground as needed, if carried out during July and August, will go far toward accom-

plishing the desired result and the wheat land for 1918 can and should be broken before the first army goes to the colors in September.

Simply doubling the acreage, however, will not assure a 30,000,000 bushel crop. In the winter and spring of 1917 it should be like that of 1914-15 with the spring rains thirty days later than usual, the wheat which should have to be abandoned, was entirely within the power of the farmer to prepare the seedbed in such a way that the crop will come through winter drought with but little harm, ready to grow vigorously when the spring rains do come.

Of all crops, the successful growing of wheat lies in getting a good start, especially since there is so little that can be done after the seed are in the ground. Every farmer in the Texas Industrial Congress, in preparing its crop bulletins, notes that crops planted on a well prepared seedbed that has been deeply broken early in the preceding fall, are doing well when other crops that have not been so planted are stunted from lack of moisture. Surely if we really want to double wheat, it is the part of prudence to be wise before the event, plowing deeply as soon as the ground is available. Reports from the United States government experiment stations in Oklahoma, Kansas, North Dakota and Michigan show that deep breaking as soon as the preceding crop is off the

ground and before the middle of July, if possible, harrowing after the rains to conserve the moisture and keep down weeds, and planting at the usual time give much better yields than plowing just before seeding. The moisture thus saved is all important in keeping the crops in good shape in case of winter drought and late spring rains.

Wheat thrives best on a clay or clay-loam soil, most suitable of all is a limestone soil containing considerable clay. If planted on sandy loams, the soil should be well limed. When demands a carefully prepared seedbed, moderately compact in the lower layers and loose and fine near the surface. Plow deeply at least three weeks before planting, and if possible six weeks before, following the plow with the harrow, and harrowing after every rate of plowing is better than harrowing and will require one to two pecks less of seed per acre, which is a considerable saving with wheat at present prices. If the soil should be secured by proper seed selection and fertilization, as with other crops. The fertilizer generally required is acid phosphate and sulphate of ammonia. The acid phosphate should be applied with a grain drill before the seed are planted. A good general fertilizer for heavy soils is acid phosphate (16 per cent), 125 pounds; sulphate of ammonia (20 per cent), 20 pounds; dried blood (14 per cent ammonia), 14 pounds; for the latter one may substitute either 30 pounds of nitrate of soda or 50 pounds cottonseed meal, applying the latter before planting. If nitrate of soda is used it is best to apply it separately about two months before harvesting. For light

or soils the fertilization should be somewhat heavier, with the proportion of nitrogen and potash slightly increased. If difficulty is met with in getting potash, 200 pounds of 14 per cent phosphate and 250 pounds of cottonseed meal may be used, or the phosphate and 140 pounds of dried blood (14 per cent ammonia) applied before seeding, should result in a greatly increased yield. If the wheat crops are planted on any following cowpeas that have been turned under no nitrate of soda, cottonseed meal or dried blood will be required. Turning under cowpeas adds humus to the soil, and increases its water holding capacity.

The third step to be taken in doubling the yield consists of proper selection of the seed. Every farmer should have a fanning mill and run the seed through it to remove the small, shriveled, inferior grains, trash and weed seeds. If there is a lack of seed, or if the seed should be treated with formaldehyde, using one pint of 40 per cent formaldehyde to forty gallons of water for forty bushels of seed. The seed should be treated with formaldehyde, using one pint of 40 per cent formaldehyde, to forty gallons of water for forty bushels of seed. Do not mix the formaldehyde and water until the wheat is ready for sowing. Plant March 1 or when the ground is wet. It has shown will yield best in your section, and drill crosswise to the prevailing winds. Do not pasture after March 1 or when the ground is wet.

If Texas will (1) double its wheat acreage for 1918 and (2) give special attention to growing the crop by careful preparation of the seedbed with early deep plowing and thorough harrowing, (3) good fertilization, and (4) careful seed selection, the yield may be doubled beyond doubt. With wheat at present prices, Texas farmers can make big money by growing wheat on the largest possible scale for several years to come.

FIRST PICK HAWAIIAN PINEAPPLE

All the zestful flavor of naturally ripened pineapple is found in First Pick. The large, golden slices come to your kitchen full of flavor because they are packed in their own rich syrup—right on the plantation in sunny Hawaii. Delicious? Everybody says so!

A Ready Summer Dessert—

Dainty, refreshing—and economical—ices, sodas, drinks and pastries can be made with Hawaiian Pineapple. No other fruit is so tasty and full-flavored.

Other First Pick canned goods are all that the name implies—all extra quality. Your grocer has them or will be glad to get them for you when he finds that you know about them.

TEXAS TO HAVE BOYS WORKING RESERVE UNIT

Washington, D. C., June 28.—An announcement is made of the appointment of T. C. Jennings of Austin, as the state director of the Texas branch of the United States Boys Working Reserve, a nationwide organization just perfected by the Department of Labor, in cooperation with the Department of Agriculture, for the supplying of boys between the ages of 16 and 21 to meet the country-wide labor shortage. Officers have been appointed in the state of Texas will take up the organization with real enthusiasm as they are doing in other states, notably New York, Pennsylvania, California, and thereby do all within their power to assure the full harvesting of the Texas crops.

The Texas Boys Reserve is working with the approval of the Federal Council of Defense. Its activities will be in a field different from that in which the Federal Department of Agriculture is developing excellent Boys' Club work, in that the Department of Agriculture is encouraging by farmers while this new organization is intended to be organized in the boys' own homes. The boys will be working on the farm doing profitable and patriotic work.

In order that the physical and moral welfare of the boys may be safeguarded, the reserve will work to establish uniformly the high standards set by many state and voluntary organizations. A federal badge of honor to be awarded as an additional incentive to patriotic and loyal work. Making the boy feel that he is a part of a great national body working individually for the United States of America.

Any boy who is sixteen and less than twenty-one years old may enroll in the Reserve, provided:

- First—That he obtain the consent in writing of his parents and if employed, the consent of his employer, for the term of the boy's intended vacation.
- Second—He must be free from communicable or other diseases, and possess no physical weakness so as to unfit him for the rigors of farm labor, as attested by a physician or physical director.
- Third—He must subscribe to a oath of allegiance before an enrolling officer. Any person designated by the state, or a recognized affiliated by organization is deemed an enrolling officer.

The Reserve has been organized along such lines as to carry an instant appeal to the boy seeking a vacation in the country and at the same time desiring to "do his bit." The boy will be provided with camps, outdoor sports and wholesome amusement and with the exception of the time spent in actual work on the farm it will seem to them as a vacation and not as a period of work.

Twenty-nine states have active organizations in the field and reports received in Washington are to the effect that the labor shortage in many sections is being met by the ready response of the boys.

It is thought here that at least 100,000 boys in Texas who are not otherwise employed during the summer months can be enrolled for the reserve, thereby contributing in a large measure to the preservation of the nation's food supply.

Are You a Slacker?

One of those human atoms that slack, slight or forget their daily obligations? The most common one known is in regard to the country. The neglect of burial plots is by no means confined to the poor, the man of means hidden behind the "too busy" excuse. We want you to remember that we are the home dealer and that we never slight our obligations to you.

JAPAN READY TO MAKE LOANS TO THE ALLIES

Associated Press Mail correspondence—Tokyo, June 19.—Japan was negotiating with Russia on a loan of war loans to that country when the revolution interrupted the negotiations, said Kazuo Shoda, Japan's minister of finance to the Great Britain Empire. The Associated Press while discussing Japan's proposed financial assistance to the Entente powers. The minister did not say whether the interrupted negotiations would be resumed.

The minister previously stated that his country was negotiating to make loans to Great Britain and France. He could not fix the amounts, but he expressed the opinion that the financial aid to the Entente, supplementing Japan's donation of a fleet of warships to the Mediterranean Sea, showed that Japan was doing everything in her power to help the Allies successfully prosecute the war.

He declared that loans to the Allies and the contemplated purchase of Entente securities held in the United States would tend to check the outflow of gold from the United States to Japan which appeared to be causing some apprehension in the United States. The investment of our capital in

of securities was not to be an official operation. It was being arranged by a group of important banks, including the Yokohama Specie Bank, the Industrial Bank of Japan, and leading financiers of Osaka.

You must remember, remarked Mr. Shoda, referring to the movement of gold from the United States to Japan, that the importation of specie is generally regarded as a dreadnought operation.

Minister Shoda, in an address before the prefectural government representatives to Japan's financial part in the war, said:

Our own people may sometimes forget the fact that our country is a party to the war for great military operations are not conspicuous on the air face, but the Empire is giving the Allies every assistance at its command and the special fund needed for that purpose reaches no small amount. For instance, at the outbreak of the war, our national treasury was in such a straitened condition that we did not have to seek a special revenue source in defraying these expenses. But what the signs of the war will bring in our own country is the prospect that the tax pledges will only increase. The government, therefore, is endeavoring to consider the ways and means to solidify the foundation of our wartime finance.

That Japan was continuing to enjoy great material prosperity was shown by the fact that up to the middle of May the volume of exports over imports had reached the total of about \$110,000,000 or about three times as great as the previous year for the same period. This had brought about an accumulation of money which constituted a great problem. The way of disposing of this surplus money could not be definitely outlined in advance, these when the world finance is full of sudden changes.

The contemplated purchase of Entente securities, he went on, is indispensable in realizing the economic cooperation between Japan and the Allies. For that purpose the financial organs must be unified and reorganized and cooperative enterprises of Japanese and Chinese must be encouraged. It should be remembered, however, that the interests of the two peoples should be promoted for their common good and on this should be avoided as far as possible.

We must be prepared to respond unflinchingly to orders for war supplies in order to help the Allies with these must be encouraged. It should be remembered, however, that the interests of the two peoples should be promoted for their common good and on this should be avoided as far as possible.

We must be prepared to respond unflinchingly to orders for war supplies in order to help the Allies with these must be encouraged. It should be remembered, however, that the interests of the two peoples should be promoted for their common good and on this should be avoided as far as possible.

MUST HAVE OIL EVEN IF WE MUST TAKE MEXICO

OIL EXPERT OF NAVY SAYS COUNTRY MUST GO TO ANY LENGTH TO SECURE SUPPLY

New York Times. Washington, June 27.—Don't you think that if the United States needed oil from Mexico in this war we'd get it, even if we had to take Mexico to do it? abruptly asked Commander James O. Richardson, oil expert of the navy, at a hearing today before the Senate Public Lands Committee on pending legislation to authorize government control of the country's oil facilities and for fixing oil prices for war uses.

Commander Richardson had expressed positive ideas on the urgency of developing all the oil resources of the country for war requirements. He added that the country ought not to overlook the oil supply in Mexico.

Senator Kellogg wanted to know if the country would be able to depend on Mexico for oil.

Does any one believe that if it depended on getting oil from Mexico we would not get it? returned Commander Richardson.

Well, I don't know, replied Senator Kellogg. I understand, there's been some doubt about that, owing to the machinations of the Germans.

In Mexico there are wells we can get control of that will produce 1,000,000 barrels of oil a day, replied Commander Richardson. All we need do is to protect the wells and pump the oil out.

Yes, but there are difficulties in the way of that, answered Senator Kellogg. I understand, for one thing, that there are no pipes, and under the circumstances it would be extremely difficult to lay them.

We could lay them under protection, just as we could operate the oil wells, persisted Commander Richardson.

But the oil interest will not invest in Mexico, owing to the uncertainty of things down there, suggested Senator Walsh. They are threatened by the Mexican government with confiscation of their oil fields.

It was then that Commander Richardson threw out his hint that the United States could get oil if we had to take Mexico to do it. Senator Pittman, chairman of the committee, looked around the table, but no Senator made any comment on the naval officer's remark.

Daniels gives an Oil Survey. Secretary Daniels, who appeared before the committee, urged that steps be taken at once to ascertain the country's oil supply, and that the supply be regulated so that the government should have enough for war uses. The Secretary did not know, he said, how much oil would be available from the country's fields during the next three or four years. It was vital that a survey be made now, he asserted.

Mr. Daniels favored legislation to stop exploitation of the reserve naval oil fields in California by private operators. He warned the committee that unless the reserve oil fields were regulated by the government, even to the extent of commandeering, they were apt to be drained, and the navy might find itself embarrassed for an immediate supply while the war was on.

The time is close at hand when the government will have to commandeer all coal and oil lands, or else it will have to enter into an arrangement by which prices for coal and oil can be fixed, said Secretary Daniels. There is no doubt about it. Oil is the basic commodity of the war. The navy has entered into a policy of building oil burning ships. More than 200 oil burning vessels are now under construction by the navy and more will be built later on.

In the last three months we have launched three oil burning destroyers, and three more will be launched during the next three months. More than sixty destroyers are now being built, all under the navy's supervision. Now, if we haven't the oil to supply these war vessels we'll be forced to reverse the oil burning policy and make coal burning ships of the other navies of the world. That's the only alternative.

The argument has been advanced that the oil situation in California is critical, that they need as much oil as they can get from the fields. I don't doubt the need for oil is great in California, but there is great need everywhere. The navy has to get oil as well as the private individual or the manufacturer.

Oil is the basis of war operations in these days, and our war needs must not be denied. We can't run our war aeroplanes, our submarines, our destroyers, our ships, or our other war vessels, unless we get the oil from the front at all our fighting men without oil. The problem before this committee and before the government is whether the immediate needs of California are to supersede the needs for national defense.

Preservation of the naval oil reserve is necessary as a war measure. But we must go further than that. We have got to find out how much oil we have in this country and develop all the oil fields. We ought not to touch the naval reserve fields until we are forced to. We ought to keep them as a reinforced supply.

I think there ought to be a nationwide survey of our oil fields by the Federal Trade Commission and the Geological Survey. After we have worked every other oil field in the country—if it becomes necessary to do that—then the naval oil lands could be leased under government supervision. But they ought not to be turned over to men who hold titles by fraud or to 'dummies'.

The demand for oil is going to be greater as the war goes on, and we must prepare for the emergency now.

Secretary Daniels urged that private individuals who had taken over oil wells in the naval reserve fields ought now to be put under government supervision unless the government was to be deprived of its own property at a critical war period.

Senator Walsh suggested that lawsuits the government had brought against 'squatters' who had possessed some of the wells had all been lost by the government. He asked if Mr. Daniels did not think the government ought to come to some compromise with the 'squatters'.

The Secretary said he favored putting the whole matter into the hands of the government through legislation that would enable it to sell the reserve fields at auction or lease them, but, in any event, the fields should be operated under government jurisdiction.

What we are all concerned about, the Secretary insisted, is that the reserve oil fields be amply protected. If they are used freely they may be drained when the navy needs oil the most.

There were originally 250,000,000 barrels of oil in the reserve fields, said Senator Phelan. It is understood 130,000,000 barrels have been withdrawn. There's more than enough oil left for all war purposes and millions of barrels to spare.

Sell the Champion Cream Saver

THE NEW DE LAVAL

USE the same good judgment in selecting a cream separator that you would in making any other investment. Before you buy a separator, there are certain things that you ought to know about it.

- Will it skim clean under all conditions?
- Will it deliver cream of uniform thickness?
- Does it run easily and require little or no attention?
- Is it simple, so that it will not continually be getting out of order?
- Is it easy to clean?
- Is it built to last?
- Most important of all,

What do people who are using it say?

The man who is using a machine is the man who can tell you the truth about it. We'll be glad to give you the names of a number of De Laval users right around this town—some of them men who formerly used separators of other makes. See these men and ask them why they changed, and what they think of the De Laval. It will be worth your while to do so.

The NEW De Laval has every good feature of the older machines and many more besides, such as the new self-centering bowl which gives greater capacity and skimming efficiency, the bell speed-indicator which insures operation at the proper speed, and the improved automatic oiling system.

We'll be glad to let you try out a NEW De Laval on your own farm before buying.

WORK BEGINS ON CANTONMENT AT LOUISVILLE, KY.

CITY OF 1200 BUILDINGS TO HOUSE 37,000 MEN TO BE BUILT WITHIN 12 WEEKS

By Associated Press.—Louisville, Ky., June 28.—Feverish preparations are already under way for the construction in twelve weeks at Audubon Park, within six miles of the heart of Louisville, of cantonments at which Kentucky and Indiana troops of the selective army will be trained. Here will rise a city—composed of about 1,200 buildings for the housing and care of more than 37,000 men who will compose the ninth division of the new army. All must be ready by September 1.

In conjunction with the construction of the cantonments will go a tremendous amount of work by authorities of the City of Louisville, and Jefferson county, and by public utility interests, that Louisville may redeem its promise to the War Department to furnish a site and proper facilities.

The site itself lies on gently rolling ground, with almost perfect storm drainage and covers approximately 2,000 acres. It is divided almost in half by the tracks of the Southern Railway, which has physical connection with every other railroad entering Louisville. On one side of the railroad tracks will rise the cantonments. On the other is a big, rectangular, field nearly rectangular, having a hard soil with a minimum of trees, though with enough shade about its edges for resting purposes. That part of the tract upon which the cantonments will be placed is broken up into three plateaus in such positions that the buildings for an entire brigade may be placed on each.

Metal surfaced roads lead southward from the cantonments into a broken sparsely settled country available at all seasons for practice marching and extensive field maneuvers. This broken section which extends for miles also offers, army officers say, unusually good facilities for artillery ranges. Several good rifle ranges also lie within convenient distance of the cantonment site, all backed by hills ranging from 100 to 500 feet in height.

James B. Wilson, chief engineer of the Louisville Water Company, has charge of the construction work, and he in conjunction with Harlan V. Kelsey, of Salem, Mass., an expert in town planning, is busy determining the placing of the buildings to conform with the topography of the site.

Material has already been assembled by the Louisville Railway Company for a two-mile double track extension of one of its traction lines to the cantonments, and a five-cent fare into Louisville will prevail. Preparations are under way by the Louisville Gas and Electric Company for bringing electric service to the cantonments. It is estimated that the lighting and power requirements of the soldier city will approximate 3,000 kilowatts.

Plans for laying gas mains to furnish natural gas for heating and cooking purposes are being held in abeyance pending the decision of the War Department as to the character of fuel which will be used. Filtered water

will be furnished by the Louisville Water Company to the quantity of more than 2,500,000 gallons daily, and work on the mains will begin soon. City and county authorities will construct sewers which will connect with the sanitary sewers of Louisville.

All this work will be carried to the confines of the cantonments site at no expense to the government, and the site itself will be furnished at no cost for two years and thereafter at a nominal yearly rental.

AUSTRALIA TO LOAN \$110,000,000 TO SOLDIERS

Associated Press Mail Correspondence.—Sydney, Australia.—Australia will loan \$110,000,000 to soldiers returned from the war.

The national government accepts the full responsibility of securing to every returned soldier the opportunity of livelihood by providing avenues of civil employment. Soldier settlers on land may secure advances for improvement up to \$250 each. Repatriation work in connection with returned men will be undertaken upon arrival and not as at present, upon discharge from the military forces.

The work of repatriation will be controlled by the government but administered by a board of trustees of whom a minister of the crown shall be chairman. Local committees will be established for the encouragement of local soldiers. A special branch will deal with the provision of artificial limbs. Permanently maimed soldiers will be afforded every opportunity to supplement their pensions by the establishment of specially equipped workshops. Some form of "reserve" employment will be found to tide over the period between military discharge and the obtaining of the particular employment desired by individual soldiers.

SHAPE MANUAL TRAINING TO MEET NEEDS OF WAR

By Associated Press.—Lansing, Mich., June 26.—Plans are being considered and data of a wide range gathered by the state board of education and leading manual training instructors of Michigan with the idea of shaping manual training to meet, as far as possible the needs of the war. It is expected that great inroads will be made on the ranks of skilled mechanics and efforts to meet the need are well underway.

One of the phases of this work receiving particular attention is the training of women to take men's places in the factories. Courses are being prepared not only in shop work, for them, but lectures are planned on safety methods, proper dress and sanitation, and the health and moral aspects of such work.

The manual training instructors plan to open their courses to semi-skilled men in various mechanical branches as far as facilities permit.

The major part of this preparation is being undertaken by John H. Tryon, in charge of manual training at Cass Technical High school, Detroit, and E. G. Allen, instructor in the same institution under the direction of Fred L. Keeler, states superintendent of public instruction.

POOR TABBY EVEN REQUISITIONED IN GERMANY

Associated Press Mail Correspondence.—Amsterdam, Netherlands.—Owing to the scarcity of leather in Germany an order has been issued requisitioning the skins of cats and wild rabbits, hares and domestic cats.

ARE YOU COMPLETELY FAGGED OUT WHEN EVENING COMES?

If So, Nature is Calling for Help. Obey This Call By Starting on a Course of Pep Systemic Pills.

A person should not expect to do a day's work and not feel bad effects from it if their system is all run down and needs attention. Some people are always complaining of a tired, worn out feeling, but this is nothing more than nature's way of letting them know that their body needs attention.

When the blood is lacking in rich red corpuscles, or the liver is not able to do its work properly, nature immediately sends out her distress signal, to head these warnings often results in a number of disagreeable or serious ailments.

People who are easily exhausted will find Pep Systemic Pills a wonderful remedy for giving strength and energy and for building up the system in such fine shape that after the day's work they still have plenty of vim and vigor left to enjoy life.

These pills are a new and improved iron tonic that can be taken by any one without the fear of them upsetting the stomach or discoloring the teeth. Being composed of iron in Blaud's Mass form, the most assimilable form of iron, and reinforced by other blood, nerve and alterative tonics, they make a combination that is unequalled for ailments caused from impure blood, inactive liver or a run-down system.

Pep Systemic Pills are especially recommended for such ailments as nervousness, constipation, boils, stomach trouble, loss of appetite, sleeplessness, heartburn, rheumatism, salivary complexion or other winded ailments and are fully guaranteed to give satisfaction or your money will be refunded.

Go to Miller Drug Co., or any good druggist today and purchase a bottle of these pills. They give almost immediate results.

SCANT WELCOME GIVEN GERMAN REFUGEES IN MEXICO

Mexico City, June 26.—The German residents in Mexico City are not pleased at the arrival here of Germans from the United States and the refugees are still less pleased at the reception accorded them by their countrymen, according to stories told by some of the men who fled from the United States at the declaration of war.

But few jobs were available for them and they declare they were given a most uncordial reception by German business men to whom they applied for work. The support of the jobless it is said, has fallen on the German merchants who have been assessed by the Union of Subjects of the German Empire. Some of the refugees say that the German equivalents of "hoboes" and "tramps" were applied to them when they sought work. The Germans without jobs are given two meals a day at a second-rate hotel and assert that they have small relish for the fare.

ANDERSON & PATTERSON Insurance of all kinds—Loans, Real Estate and Rentals. 616 Eighth.

ATTENTION!

You Who Have Registered For Army Draft

The Texas National Guard Will Take 300 Men from Wichita, Clay, Archer and Knox Counties

This Opportunity to Enlist With National Guard Expires Sat. June 30, 1917

THE FOLLOWING ADVANTAGES ARE OFFERED TO THOSE ENLISTING IN THE NATIONAL GUARD OVER THOSE WHO ARE DRAFTED IN FEDERAL SERVICE:

- | | | |
|--|---|--|
| 1. Able to select your own associates. | 4. Opportunity to be made officers in other organizations. | 6. Receive the attention, love and respect of the people at home, who are able to give your companies special attention; boxes from home, etc. |
| 2. Know your own officers. | 5. Easy to prove identity in case of injury, or on application for pension. | 7. Receive same salary as regular army. |
| 3. Receive same efficient training, beginning at once. | | |

BE A "WENT" INSTEAD OF A "SENT"—IF YOU MUST GO SOONER OR LATER, WHY NOT GO WITH THE BOYS FROM HOME?

SIGN NOW at J. B. Marlow's office, Cor. 7th and Indiana

MASS MEETING OF REGISTERED MEN on 8th Street, Between Indiana and Ohio, FRIDAY NIGHT, 8 O'clock

Representatives from the industries in the counties are asked to be present and to state that they will hold open all positions now held by men who desire to enlist, and will give back these positions, or better ones, to them when they return. Full explanation of National Guard and its benefits will be given by prominent speakers. Music by Taylor's Band.

COMMITTEE ON NATIONAL GUARD:

- | | | |
