# Earthquake in Mexico SERVE TO COMPLICATE Destroys Two Villages And Kills Many People

Pleasure at the presence of an American representative who will keep Washington informed as to events until the United States delegates resume their places on the council is expressed by the newspaper, which says:

"Nothing can be definitely concluded without President Wilson's assent a uremand. So the council is supreme only in name. Supremacy belongs to Mr. Wilson, who inhabits, not the White House, but Mount Olympus, "It is inevitable that a dilemme will arise. The United States will be obliged to take responsibilities corresponding to her action, or she will renounce this role. It is hoped this absurd situation may be arranged by speedy ratification of the treaty, according to the program of Senator Lodge, followed by return of America to her rightful place in the settlement of European affairs."

ation in charge, was discussed a meeting of the Chamber of Committee in charge of the Chamber of the charge of the Chamber of Committee in charge of the Chamber of Committee in charge of the Chamber of Committee in charge of the Chamber of Committee in charge of the Chamber of the Ch

# Announcement

January 1919-"A New Department Added to Our Business"

"After a most thorough investigation and after mature consideration as to how best we could serve clientels, and those who are now and will in the near inture be more or less interested in the oil develont of Texas, we have come to a decision to open AN OIL LAND LEASING DEPARTMENT."

# The Above Headed An Announcement in the Dallas News, One Year Ago

A year's active operation as Brokers in the handling of Oil Leases has convinced us thoroughly that we were justified from a legitimate business standpoint in our decision at that time.

We have spent the past year principally in equipping this Department with such facilities as would enable us to give better service to our clients than any concern in the business. We have a Scouting Department covering sixty-seven counties in the proven and prospective oil fields in North Central Texas. From this Department we furnish our subscribers with authentic information daily as to conditions throughout these counties, and have conse-

quently the advantage of frst access to this authentic knowledge.

We have established in many places throughout the United States business agencies for the handling through us of oil properties listed with us.

Nineteen twenty finds that we have established in New York City a branch office under our own name, with a competent and reliable manager, and through this office will hardle production, acreage, royalties and accessories

We have esteblished a branch office under our own name in Chicago, with a competent and reliable manager, and through this office will handle production, acreage, royalties and accessories.

We have also established a branch office in Wichita Falls for the securing directly from the owners, acreage and production. In charge of this office will be the firm of HOLBROOK & WOODS. 704 9th St., who will list your properties, keeping all listings strictly confidential. Both members being thoroughly familiar with this field and personally acquainted with owners through a long residence in Wichita Falls, and no firm in the city stands higher than they in the estimation of the bankers and business men.

# The Oil Business in Texas Is a Real Business

Two years ago Texas was practically unknown as an oil state. To 'ay it stands at the head, and the surface of the vast territory has hardly been touched. Thousands of wells have been drilled and thousands are producing, but we predict that 1920 will see ten times the actual development that has taken place in the entire two years before, and as a consequence ten times the results.

# Somewhe e Other Pools Will Be Found

From a geological standpoint, several counties that are just now being tested, have greater possibilities than the present proven fields ever indicated. The drilling of the first well is always slow, but just as sure as oil has been discovered, so sure will it be found again, and with this theory and this belief, we are securing every day the best information obtainable, both as to drilling wells and geology, so as always to be in a position to advise our clients best.

Murphy & Bolanz Co.

# ROOMS FOR BIRLS AT LOWER PRICES

There is a greater need for roomfor women and girls, which turnish
suitable accommodations at a reason
able rate, at present, than at any time
in the months that the Young Women's Christian association has been
acting as a lodging agency, members
of the committee on rooms state. The
demand is so far in sacess of the
supply of rooms, that the secretary
who answers the different questions
at the Y. W. C. A. headquarters says
she is frequently in despair carly in
the day because of the appeals of
girls and women for rooms, with none
to give them.

The members of the committee or

The members of the committee on rooms are convassing their friends and acquaintances for field and rooms to use in the emergency, but their effects have not resulted in securings fulficient number of rooms. Mrs. 7-1. T. Reese is chairman of the committee and rooms can be listed with her, or with any of the members of the committee, including Mrs. Peyton theyre, while rand Mrs. O. F. Marchman or at the Y. W. C. A. office, 618 Ohio avenue. The attuation is really acute, those who have been trying to secure rooms in the city are ready to report, and it is hoped that there will be a number of women who are interested sufficiently to assist the room registeries committee, and also assist the girls and women who are asking accommodations to parmit them to alzy in Wichita Falls.

Wichita Falls.

## A was an argument blashesy memory and the product of the produc

Heights Baptist church next Thursday evening at 7:30 at which time he will also hold the First Quarterly Conference of the Floral Heights Methodist church. Peenliar Interest attackes to this Quarterly Conference in the listory of this new and vigirous church organization. It has been in existence only two months in which time almost miraculous things have been accomplished.

A good attendance at this cathering is expected.

ARGUMENT IS SETTLED

WITH USE OF SHOVEL

Two employes of the city street cleaning department had an argument regarding which could load on the larguest quantity of dirt and when one of them reached the end of his vocal streams, so ran that testimony in police court Monday morning, he swing a shovel which collided violetty with his rival's head. The "waite wing" who had been so playfally wiruck on the head appear ad much the worse for the debate, an unbrageous optic and swollen foreback! hearing witness to the force of the edity. The bellicost employe of the eity transment.

The bellicost employe of the eity transment. The bellicost employe of the eity transment.

"argument."
The hellicost employe of the city was fined \$18 on a picu of guilty to the charge of assault.

# FORGERY IS CHARGED IN COMPLAINT FILED.

A complaint alleging forgery was flied in Justice A. J. Arrington's court Saturday night against an oil well driller. It is alleged in the complaint that the man forged the name of his employer to a check for \$72. He was released on bond fixed by Justice Arrington at \$1,000.

## NAME "BAYER" ON GENUINE ASPIRIN

Safe, proper directions in each "Bayer" package

The Southwestern Telegraph and Telephone Company's offices are good places for Wichita Falls young women to work, because:

The wages are good.

There is planty of opportunity for advancement to supervisory and executive positions.

There are various kinds of operating to be done, local, long distance, information, service observing, monitoring, etc.

The female force is directed and is in charge of female executives.

There is protection from favoritism and discrimination.

There is protection of health.

There is protection of morals.

There is development of those personal characteristics which bland girlish charm with strong womanhood.

The Southwestern Telegraph and Telephone Company

THE old-time pack-bearer could carry a hun-

The railroad is the modern pack-bearer. For every employee it carries 2,000 times as much.

Back of each railroad worker there is a \$16,000 investment in tracks and trains and terminals, with steam and electricity harnessed like a great beast

Without this mighty transportation machine the railroad worker could do no more than the old-time packer. But with it he is enabled to earn the highest railroad wages paid in the world, while the country gains the lowest-cost transportation in the world.

The modern railroad does as much work for half a cent as the pack-bearer could do for a full day's

The investment of capital in transportation and other industries increases production, spreads prosperity and advances civilization.

To enlarge our railroads so that they may keep-pace with the Nation's increasing production, to improve them so that freight may be bauled with less and less human effort—a constant stream of new capital needs to be attracted.

Under wise public regulation the growth of railroads will be stimulated, the country will be adequately and economically served, labor will receive its full share of the fruits of good management, and investors will be fairly rewarded.

been on purely pleasure rather than the balance of the race I have to loop

There is a growing sentiment in the face," I said to frighten groups. Recountry that instead of increasing signed to seeing things explode, or should get permission to double or chaste abode, my corkscrew and my

and South as it is here in the South-west—is due wholly to the heavy pas-senger travel which has necessitated trains beyond the capacity of available locomotives to pull through on sched-uls time.

and missed my hash, and for the cli-junk I lightly gave away; once more my fingers go kerplunk upon the harp all day. My faith in prophets, once so strong, is in the soup tureen, since I was bliked with all that throng, De-cember seventeen. and South as it is here in the South

Making the rate to or 3c a mile probahly wouldn't reduce the travel anyindeed, if the results were similar to those in other lines where profiteering through extremely high prices has been tried, it probably would increase the number wanting to ride-but it would materially help railroad incomes and might forestall the throatened advance in freights, which like the rain would fall upon the just and the un-

It seems that the British premier makes out a very strong case against republican senators' demand that the vote of Great Britain in the League of Nations coimed be put on a parity with that of the United States. Taking the case of Australia for example, he declared that Australia lost as many men as did the United States in the great war and had just as much right to a vote as the United States. He pointed also to a way of removing the fairly reasonable objections of the senators by suggesting a provision that the vote of Australia and of the other British home-governing colonies be hot used in any question arising between Great British and ins United States. It does senat reasonable that the United States ahould have equal voice with any other power, but it makes out a very strong case against

does seem unreasonable, at the same time, to attempt to deprive self-gorerning entities like Australia. Canada, and the other British dominions of any voice in questions that are all-impor-Pathlaben every week-his afternoon and (and to them and in the decision of on Renday mornings which the desires of England and themselves might be diametrically op-

Certain elements in at least three states are planning to attempt nullification of the prohibition amendment. in New Jersey Gov. Edwards elected on a platform of wide-open boose selling, announces that a law will pass the legislature and he signed by him to permit the open sale of intexicants. In New York a bill has been prepared for presentation to the legislature this month to legalize the sale of beer and wines and even more potent beverages provided they are not sold in salcons. Rhode Island as a state is speking to hold the amendment invalid; Connecticut has a tendency in the same direction. But Daniel C. Roper, commis sioner of internal revenue, announces without a blink of the eye that the national amendment is going to be enforced, and that no state will be permitted to ignore the law. "Whether prohibition is a wise national policy is no longer a question for debate among good citisens," he said the other day. know very much about navy rules and "It is a part of the constitution and all precedents, but he cannot but wonder law-abiding citizens will demand its

high rank performing meritorious county women have paid their poll services ashore as heads of depart taxes, but from the records of the ments, the highest decorations should countles about us it is about one-tenth be confined to those officers who had of one per cent of those who ought to actually seen service at sen. qualify themselves to take part in Admiral Sims, who started the rucus, this year's elections. FOOLED AGAIN. They said this good old world would end, December seventeen; and fire-Withdrawal of excursion rates has not reduced traffic a particle, so far as grandeur to the scene. I'd have to see this best of globes dissolve becontrary; for most of the travel has been on purely pleasure rather than the loops, I'll do it with a smiling rates further, the railroads pass in living fire, I gave away my should get 'permission to double or triple their passenger rates, because in that way the penalty would full upon the people responsible for the condition whereas in freight increases the burden falls upon general consumption.

Much of the lateness of passenger trains—and that complaint is as georetal in the Eist and North and West and South as it is here in the South,

Me and Lew Davis was stand

# RIGHTS.

The meanest man I ever saw knew all there is about the law. He never stepped an inch beyond the legal phrasing of his bond; he wouldn't lie and wouldn't cheat But children dodged him on the atrect, and neighbors had no love for him Because his ways were stern and grin; ie wanted everything in sight f he could say 'twas his by right.

I've noticed that the meanest fights
Begin with men who want their rights;
Even as Shylock they pursue
The final dollar that is due,
And though they pay the debts they owe
No mercy to their friends they show.
The how receipting them began men. The law proclaims them honest men, But in the verdict rendered then, Throughout the script you cannot find That it is written they are kind.

All men here rights, and yet it seems.
The happings joys and sweetest dreams.
Are always theirs who now and then.
Forego their rights for other men;
Men who their petty claims release.
For friendship or the sake of peace,
And would not make another bleed. Although the law allowed the deed Know more about the world's delights. Than they who coldly want their rights.

Give me the man who will not press The neighbor who is in distress.

The man of principle who gives

Some thought of how his brother lives

And chooses rather here to act

With kindness than in ways exact; The man who, when there is a doubt, Forgets his claim or wipes it out. He shall be richer in the end For having been to all a friend.

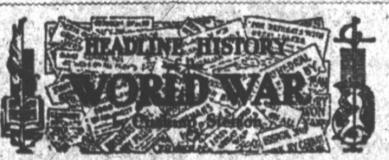

packages—a common fault.

7—Never to repeat gossip.

Will This Mother Please Consider Herself Thankal.

Can you guess why I felt sorry when I found that letter was not

Because I could not write and thank

# **BOYS**

Are you desirous of earning money while attending school? Do you not think it pretty nice to have a pay envelope passed around to you on every Monday afternoon? And also, did you know that it only requires an hour or so of work each afternoon after school to draw this pay envelope?

Now boys we have the finest proposition out, and it is this: We have openings all along for route carriers. You can either take over the route on the independent system, which would net you a good income every month, or draw a weekly salary on same. It you are not a hustler and don't mean business we do not want you, but if you are willing to work what little time you have to put in and willing to do your best for your own good and for our good, you are the boy we want and the one to whom we are going to exert our every eifort to help succeed. This work is all easy and very helpful in securing a business training.

Think it over-boys and then come right down to the Times office and let me further explain this proposition to you.

# PLAN'TO CONSTRUCT. AMERICAN CANAL ON CALIFORNIA BORDER

WASHINGTON, Jan. 5.—Constructhe California border to remove from Mexico control over the system of the Imperial Valley, the largest irrigation project in the United Status, is contemplated in a bill Representative Retituer of California plans to introduce in the House. It will make provision for opening to purchase or acttlement by houserably discharged soldiers, sailors and maries with service of 200,000 acres of public lands on the sast mesa of the Valley, which will be irrigable from the proposed canal. The bill is a redraft worked out during the holiday recess by a subcommittee of the House Committee on Irrigation of Arid Lands, which has had several measures designed to relieve the situation existing in Imperial Valley under consideration. Hearings before the committee brought out that the crops of the Imperial Valley which residents said reach a value of \$60,000,000 sanually, are dependent upon the uninterrupted flow of the main canal of the irrigation system which, from the diversion point on the Colorado river, swings through Mexican territory for 80 miles before distribution is made to the Mexican ranchers. The water users on the Mexican side, where over 100,600 acres are being irrigated, do not wish to join in the maintainance of the main canal and the protective works in Mexico, according to testimous presented to the Congressional committees.

Relief is sought through the build-Mexico control over the system of the

sented to the Congressional committies.

Relief is sought through the building of a highline canal entirely on
Americal soil, making necessary a
out through a low range of sandhille,
which the present main canal avoidby the detour into Mexico. Approximately 400,000 acres of withdrawn
public lands, similar in quality to that
of Imperial Valley but lying above the
present Imperial canal system, will
come under the proposed All-American
canal according to Reclamation Servion estimates. Under the Kettner bill
260,000 acres would be opened to chase by war veterans at \$1.25 an
acre or, at the discretion of the Servtary of the Interior, be reserved for
opening under such soldier settlement legislation as the Congress may
enact.

# STREET CARS COLLIDE EARLY THIS MORNING

Damon" and "Pythias," as local wags have termed the two diminutive street cars that operate as a team and class one another up and down the factory route, quarrel this morning. Pythias sneaked up on Damon from the rear, hist as the latter was entering the car barn switch on Ninth street, and smote his old comrade dustily in the back.

Damon reeled from the blow, and whited a loud protest. Two standing passengers, who had been glorying in the fact that the traction company "filver" was on a straight track, thereby making it unnecessary to cling to a strap, were seated suddenly—their 190 overcoats of \$10 value meeting the muddy floor of Damon with remarkable abruptness and firmness. Damon's back was slightly lacerated and bruised, and Pythias suffered a "busted" headight. Passengers made out accident cards, remarking that it was the "first time a car on this line has run fast enough to hit anything."

ment

price."

tion and potency.

# Increase offered was 100 per cent over the pre-war rate. Under the plan should the cost of living increase before next September wages would be raised one shilling for every five per cent in the rise in prices. After September there would be a sliding scale, varying with the cost of living. Another important point provided for the creation of a central wage board, five members of which were to represent the railway administratives and five members from the unions. Beginning Monday, Maxwell House coffee will be served free all week at Andersons. JONES COUNTY IS STAMFORD, TEX., Jan. 5.—Good weather has permitted cotton picking for eight consecutive days. Farmers here have been taking advantage of every Sunday suitable for cotton picking on account of the shortage of pickers and the enormous crop. The 1919 cotton crop will change the financial standing of Jones county farmers considerably, in that at the beginning of 1919 they owed \$2,000,000.00 and at the end of 1219 they have a balance of about \$5,000,00.00 and at the end of 1219 they have a balance of about \$5,000,00.00 and at the Penick-Hughes company of Stamford and Wichita Falls. **RAILBOAD MEN OF** ENGLAND REJECT

LONDON, Jan. 5.—The govern-ment's offer to the railroad men, made public tonight, which conceded considerable advance in wages, was rejected later at mass meetings of the railway men, held in the east end of London and at Northampton.

The plan of the government was the same as that unofficially reported last week, except that 60 shillings a week was to be regarded as the aver-age minimum wage for the different grades of workers, some grades being paid as low as 56 shillings and others being paid higher rates. Taking the situation as a whole, the

Dictionary Definition: "Duty required or performed i any office-Labor, assistance or kindness to another, etc."

In business we understand the word "Service" to represent a quality of banking with the customer as the recipient and the Bank

### THEN WHAT IS SERVICE

SERVICE is that quality of Banking which is practiced by a Bank, in that the Bank makes every endeavor to assist the customer; to anticipate his needs; to meet his requirements as they arise in the quickest and most economical way. It is assisting in a maximum at a minimum of cost and time.

A BANK THAT HAS FOR ITS EXCUSE OF MERCET RE-RECEIVING OF DEPOSITS, WITHOUT ANT THOUGH OF SERVICE, IS DOOMED TO FAILURE. The ultimate success depaids upon the extent of Service. This service demands that the business be dedicated to the progress and development of the community, whether the community is a city, county, state or mation. If this ideal is lived up to, the growth of the Bank will follow as does the day follow the night.
