FOURTEEN PAGES TODAY.

NUMBER 244.

N. H. Martin President Wichita Falls Greater Chamber of Commerce

N. H. Martin was unanimously elected president of the board of directors of the new Greater Wichita Falls Chamber of Commerce at the first meeting of the board held this morning. T. B. Noble will serve as first vice president; W. E. Norton, second vice president; H. E. Huff, Frank J. Kemp, T. B. Noble and J. B. Marlow, therefore, will hold office for one year, unless re-elected; C. W. Wood and W. Anderson will hold office for two years, and the remaining five directors will fill the three year terms.

A budget providing for the expenditure of \$25,000 for 1920 was submitted, and ratified by the board as follows:
General fund.....\$10,000
Operating expenses.....15,520
Industrial bureau.....2,900
Civic betterment and beautification.....5,000
Traffic and transportation.....10,000
Publicity.....2,000
Agriculture.....2,000
Public health and sanitation.....5,000
Entertainment.....2,000

The plan under which the new chamber will operate calls for nine main branches. The names of the bureau and the men elected this morning as chairman follow:
Industrial, Frank Kell; mercantile, Marvin Smith; civic betterment and beautification, Mrs. J. A. Kemp; traffic and transportation, T. B. Noble; publicity, W. E. Norton; agriculture, A. Kemp; agricultural, M. J. Gardner; public health and sanitation, W. B. Hamilton; oil production and refining, Charles Clark.

Provision also was made for an entertainment committee to be headed by A. L. Huey. C. W. Snider was elected chairman of the finance committee, to be assisted in his work by Rhea S. Nixon and H. L. Quillet.

The directors extended a vote of thanks to Don Farney, who has been assisting who directed the recent membership campaign for the chamber. Mr. Farney told the board there is a probability 300 members will be added to the total already published, when a final check is made.

The question of making future meetings of the board of directors casual for the seasons, open to newspaper representatives, was discussed. Many members of the board favored the suggestion, but action was postponed.

WITHDRAWAL OF MCGRAW WILL HAVE NO EFFECT ON THE WOOD CAMPAIGN

CHICAGO, Jan. 30.—The withdrawal of James J. McGraw from the contest for reelection as Republican national committeeman from Oklahoma does not mean the collapse of the Wood campaign there, William C. Proctor, Wood national campaign manager, said here today.

PRISONERS IN THE JAIL IN DALLAS COUNTY WANT TO PAY THEIR POLL TAX

DALLAS, TEX., Jan. 30.—A number of prisoners in the Dallas county jail, including two women, have asked permission to pay their poll tax. Arrangements were made for a collector to visit the jail tomorrow.

ATKINS MURDER TRIAL BEGINS AT SAN ANGELO

SAN ANGELO, TEX., Jan. 3.—Charged with a 22-year-old crime, Dave Atkins, once a local stockman, today went on trial here for the alleged murder of Tom Hardin, a Knickerbocker merchant in March, 1907.

TRANSFER CHAMBER INTO LECTURE ROOM

ALBANY, N. Y., Jan. 30.—A branch of the Rand School of Social Science was established in the capitol here today.

HAVE YOU BEEN ENUMERATED?

If not, or if you have any doubt, come to census office in basement of Kemp & Kell building, or fill out this coupon and mail to:
Miss Claribel Moore, Assistant Supervisor of Census, Census Office, Wichita Falls.

Have You Been Enumerated?

The census enumerators have completed their canvass in all districts in the City of Wichita Falls. There are several reasons why they have missed enumerating a number of persons. Overcrowded housing conditions, the great influx of new citizens, the fact that many are away from their homes in connection with the oil business and other factors have made it very difficult to obtain a full enumeration in Wichita Falls.

FRANCE FACES GRAVE CRISIS OVER FINANCES

PARIS, Thursday, Jan. 29.—Commenting upon the exchange situation the intrastate said today: "This is one of the gravest crises of the past five years. If no remedy is possible, if Germany has infected the organism, the newspaper continued, 'only an operation will save us. In financial language this means liquidation or some kind of compression of our debt.'"

EARTHQUAKE SHOCKS FELT AT VERA CRUZ

MEXICO CITY, Jan. 30.—Earthquake shocks were felt in the city of Vera Cruz and in the vicinity of American oil fields in the state of Puebla, last evening, according to reports reaching this city.

SUGAR PROFIT 100 PER CENT BEING DIVIDED

Evidence Found in Reports to the U. S. Department of Commerce

WASHINGTON, Jan. 30.—Evidence that jobbers, wholesalers and retail dealers are dividing a profit of more than 100 per cent on sugar at 20 cents a pound was found today in reports to the United States department of commerce.

The reports showed that in December the average price of sugar was 14 1/2 cents per pound, showing that after the sugar left the refineries one cent was added to each pound sold. The average price quoted was 15 1/2 cents per pound, according to the labor department bureau of statistics from reports of hundreds of price reporters. In many cities the retail price was far more than 14 1/2 cents.

In some cities, however, the retail price was below the average. Thus in Boston the price at which cane sugar is sold is 11 cents per pound, in Chicago 11 1/2; in Cleveland 11 1/4, and in New York 11 1/2. The same month the average wholesale price of sugar was 10 1/2 cents.

During December 40,000 pounds of raw sugar was imported free of duty from the Philippines at a cost of \$46,465, or approximately nine cents a pound. Refined sugar exported during December totaled 99,189,088 pounds. The price at which it was shipped was given to customs collectors at \$8,166,200.

FURTHER DELAY IN COMPROMISE PLANS

WASHINGTON, Jan. 30.—Indefinite continuation of the partisan treaty compromise discussions was forecast today when it was announced that the conference would not discuss a Russian proposal to take up the matter of the *Hilma* steamer.

ORGANIZED LABOR TO FIGHT CUMMINGS BILL "TO THE LAST DITCH"

NEW YORK, Jan. 30.—Organized labor will fight the passage of the Cummings bill now pending before congress "to the last ditch" because the compulsory arbitration as proposed will reduce the laborers of this country to servitude.

REFUSE TO DISCUSS A REPORT OF SUGAR MARKET

NEW YORK, Jan. 30.—The sugar equalization board today refused to discuss the report made to Washington that jobbers, wholesalers and retail dealers were dividing more than 100 per cent profit on sugar.

LARGE DECREASE IN NUMBER CHICAGO CASES

CHICAGO, Jan. 30.—New influenza cases reported to the health department during the last 24 hours dropped to 1,449, just over half the high mark of the present epidemic. Sixty-eight cases from influenza were reported and 82 from pneumonia. New cases of pneumonia reached 443, the highest number for any 24 hours since the epidemic appeared.

RESISTANCE TO THE BOLSHEVIKI DISAPPEARING

Detachments Are Reported to Have Reached the Chinese Frontier

RESUME THEIR ADVANCE AGAINST GENERAL DENEKINE

LONDON, Thursday, Jan. 29.—Difficulties of supply have probably stopped the advance of Bolsheviki troops along the trans-Siberian rail road south of Irkutsk, according to advices to the war office. All resistance seems to have disappeared. Detachments are reported to have reached the Chinese frontier south east of Iliak.

Latest reports seem to show that relations between the Semenov government and the Czech-Slovaks have become worse and that Bolsheviki appears to be gaining ground as a result of the arrival of red agents working in front of the Bolsheviki army. Encounters between Semenov's troops and Czech-Slovak detachments are reported and it is stated Admiral Kolchak and his staff have been in prison at Irkutsk.

In South Russia the Bolsheviki have resumed their advance against General Denikin. On the western half of the front the main effort of the Soviet troops appears to be directed southward against the Kherson-Nikolaiev-Odessa area. In the northern sector they have reached the northern end of the isthmus and captured Genichesk and Perekop, but further progress across the narrow and easily defended neck of land has been staid momentarily. In the latter area the reds have pushed forward down the railway toward Nikolaiev after occupying Elizabetgrad but still are about 50 miles from Nikolaiev.

On the eastern half of the front the threatening red advance along the western shores of the Caspian Sea has been checked and thrown back. In the center General Denikin's units have fallen back, but in the Don region the anti-Bolsheviki are maintaining their positions. All reports concur in saying the Russian retreat is being carried out in an orderly manner and that the pursuing Soviet cavalry is gaining ground only step by step and is losing severely.

The fighting spirit of General Denikin's men has revived. It is said in a wireless dispatch received here from Moscow.

In western Siberia the dispatch states, peasants have revolted and occupied the gold fields in the vicinity of Nikolaiev. They have fortified the entire district with trenches, it is declared.

RED CAVALRY DEFEATS ANTI-BOLSHEVIK FORCES

LONDON, Jan. 30.—Red Cavalry has forced passage of the Mbayto River valley in southern Russia, completely defeating the anti-Bolsheviki forces. A Moscow wireless communique today claimed.

HOUSTON REPORT ON ROADS AND WEATHER

HOUSTON, TEX., Jan. 30.—Winds on Texas coast: Light variable. Highway bulletin: Automobiles leaving today will have fair and cool weather, but extended journeys are not advisable. Hard surfaced roads are passable; but dirt roads, while drying, continue heavy and rough and impassable.

PREDICTS DECREASE IN PRODUCTION AND INCREASE IN PRICES

WASHINGTON, Jan. 29.—Decreased farm production next year and a consequent increase in the cost of living, due to dissatisfaction of farmers was predicted before the Senate postoffice committee today by James I. Blakelee, fourth assistant postmaster general. More than 40,000 answers to 2,000,000 questionnaires sent to farmers, he said, indicate a condition "disquieting and portentous of disastrous consequences."

COMMANDEER 120,000 TONS OF STEEL RAILS

WASHINGTON, Jan. 29.—At the request of the railroad administration, Secretary Crowell of the war department today signed an order commandeering 120,000 tons of steel rails to be allotted among railroads on the basis of their productive capacity. Compensation in most cases will be decided later, on the basis of actual cost plus a specified profit, but in a few cases price agreements with the producers already have been reached.

SAYS WILLIAM MARCONI SHOULD SUE FOR LIBEL

FLORENCE, Jan. 29.—Father Alfani, director of the Ximenian observatory of this city, said today that to spread rumors relative to later change of messages between planets was "absolutely scandalous."

He added that William Marconi, inventor of the wireless telegraph system, should "sue for libel" the man who interviewed him recently and quoted him as believing that faint signals picked up by wireless stations might come from some sources outside the earth.

SCIENTIST CALLS IT INTELLIGENT FORCES

ROME, Jan. 29.—Inter-planetary communication as suggested by mysterious waves recently caught by wireless plants throughout the world is not a subject for ridicule, says Prof. Domenico Argentieri, the widely known scientist. He asserts it is possible to send messages from the earth to other members of the sun's family because ether will convey electric waves as readily as air.

merely to natural forces. Because of the regularity with which they have been observed, however, scientists believe they are due not to mechanical but to intelligent forces.

Notice.
The Wichita Burk Oil company will pay a dividend as of February 1, 1920, to all stockholders of record at the close of business at 5 o'clock p. m., January 31, 1920, at which time the transfer books will close for said dividend.

"Everybody Ought to Know About It," Says Mrs. Stafford

The best evidence of the merits of a medicine is what people who have actually taken it have to say about it. Among a large number of well-known Fort Worth people who have recently endorsed this remarkable medicine, Orgatone, is Mrs. F. G. Stafford, residing at 1215 Humboldt street, this city. Mrs. Stafford came into Henrich's drug store a few days ago and in relating her experience with Orgatone said:

"I had suffered from stomach trouble and nervousness for two years and tried everything I knew of or heard about but kept getting worse. I couldn't eat a meal without suffering and I got so every bite I ate would fill my stomach with gas and make me sick. My head ached fearfully at times and I was losing weight continually. I was extremely nervous and many a night I couldn't sleep at all and I had about despaired of getting anything to help me when I heard so much talk about the Orgatone Treatment and decided to try it."

"I had no idea of getting such wonderful relief in so short a time. It has been about six weeks since I bought my first bottle of Orgatone and positively, I haven't an ache or pain about me. My appetite is so good; I can hardly get enough to eat. The gas has stopped forming on my stomach and I can eat anything without feeling the least uncomfortable afterwards. I have gained several pounds in weight in the past few weeks and I am still gaining in strength as well as weight. I sleep like a child and feel that Orgatone Treatment has almost made a new woman of me. I think everybody ought to know what Orgatone is doing for suffering humanity and I hope my statement will be the cause of others getting relief as I did."

Such statements as the foregoing should appeal to the thousands that suffer from the same troubles. Most people who suffer from nervousness and dizziness, stomach and liver troubles, kidney derangements, and who are in a generally run-down condition, simply need something to tone up their system and to assist the vital organs in performing their proper functions. Orgatone Treatment is a wonderful reconstructive system; cleanser and always produces most gratifying results.

Orgatone is sold in Wichita Falls by the Young Drug Co. (adv.)

SERVE INJUNCTION IN CONNECTION WITH BOARD OF CONTROL

AUSTIN, TEX., Jan. 30.—An injunction granted out of the 37th district court at San Antonio which temporarily restrains the board of control from taking charge of the management of the Southwestern insane asylum served upon members of the board of control yesterday.

This injunction, which was granted upon application of the board of managers of the Southwestern insane asylum, is the second attempt upon the law which abolished the boards of various state institutions and delegated their duties to the board of control. In the first instance the supreme court refused mandamus proceedings to force the comptroller to approve warrants for salaries of the board of managers.

The injunction served yesterday concerns only the Southwestern insane asylum, and the board of control will continue other duties delegated to it by law.

FRENCH YOUTH CLAIMED BY WIFE OF LIEUTENANT

NEW YORK, Jan. 30.—Georges Pierrot, a 13 year old French boy, who came to America as a stowaway aboard the steamer eWet Corulfax, searching for his "dough boy" daddy, was claimed today at Ellis Island by the wife of Lieutenant Howell French of Columbus, Ohio, as her adopted child. She has asked the immigration authorities to reverse their decision to deport him to France.

Lieutenant French, who served with the 112th field signal corps, of the 37th division, says he first met the lad at Dijon, France. Learning that the youngster was an orphan, Lieutenant French took him in charge and they were pals up to the time of the Argonne offensive. Afraid the boy might be injured in the fighting the officer sent him back to the lines to school and that was the last he saw of him until Georges arrived in America.

TO INCREASE RATES ON AUTO INSURANCE AGAINST THEFTS AND ACCIDENTS

NEW YORK, Jan. 30.—Sharp increases in premiums paid by automobile owners for insurance against theft and accidents are to be announced shortly by the eastern conference of the National Automobile Underwriters. It was stated today in insurance circles. The underwriters were said to be wavering between an increase of 40 per cent and one of 50 per cent.

Automobile insurance men declare that thefts and accidents have more than doubled within the past few years, and that only a generous increase of rates can save them from being forced out of business.

NO REDUCTION EXPECTED IN THE PRICE OF COAL

SOUTH BEND, IND., Jan. 30.—Coal prices are lower now than they will be at any time during the present year or 1921. Iverson C. Wells, editor of the Black Diamond, declared in an address before the Retail Merchants' Association. He predicted that the coal commission will grant the miners a 25 per cent increase in wages when the Lever act becomes ineffective and that this will boost the price of coal from 6 cents to \$1 a ton. He said the 14 per cent increase given the miners in the strike caused an advance of 25 cents.

CHICAGO PAPER ADOPTS A PLANT WELFARE PLAN

CHICAGO, ILLS., Jan. 30.—The Chicago Tribune today announced the establishment of a plant welfare plan drafted by five employees.

The plan includes bonuses, pensions, sickness, accident and death benefits, help in home building and vacations. "Works councils" were not embodied in the plan. It was announced, because printers' chapels in newspaper plants represent the earliest forms of works councils.

CARICATURE UNCLE SAM IN CONNECTION WITH THE BRITISH DRY CAMPAIGN

LONDON, Jan. 30.—A caricature of "Uncle Sam" with an elongated proboscis bearing the word "Prohibition," is soon to appear on labels pasted on every bottle, keg, cask and barrel of beer, wine or whiskey sold in Great Britain. The labels, 5,000,000 of which have been printed, bear this inscription: "If prohibition wine there will be no more beer."

Some dealers objected to this wording on the ground that better class customers might consider it vulgar, so a second label has been printed for use by grocers bearing a sketch of an inverted pyramid designated "Prohibition" and warning: "Local option is the thin edge of this wedge. Don't let them drive it home."

BEVERIDGE DENOUNCES WILSON ADMINISTRATION

DETROIT, MICH., Jan. 30.—Former Senator Albert J. Beveridge attacked the Wilson administration, defended the right of free speech, called for a "clean up" in Mexico, demanded the covenant of the League of Nations be made an issue at the polls, declared that the high cost of living cannot be brought down by legislation and outlined what he believed ought to be the general policy of the Republican party in the next campaign here last night.

One of the high spots in his speech before the Detroit Republican Club came when he said that the greatest danger confronting the party today is that it is too strong because the sins of the Wilson administration have made victory in the next election a certainty.

SOCIALIST GROUP WILL SUPPORT PRESIDENT WILSON FOR NOBLE PEACE PRIZE

LONDON, Jan. 30.—A dispatch from Stockholm reports the inter-parliamentary Socialist group has decided to support President Wilson for the 1919 and 1920 Nobel Peace Prizes.

Men Succeed Maids as House Servants in Y. W. C. A. Hotel

CHICAGO, Jan. 30.—Men supplanting maids as house servants at the Young Women's Christian Association hotel here today. A shortage of house maids forced employment of men, said Mrs. J. M. Sharp, a matron of the hotel, who declared the substitution proved very satisfactory.

Mrs. Sharp expressed the opinion that general substitution of housemen for housemaids is the only solution of the servant problem and added:

"I got 15 replies within 24 hours in answer to an advertisement for housemen, but not one replied to an advertisement for housemaids. A friend of mine employs a Japanese lady maid, to do her hair, look her up and take care of her clothes. It is no more difficult to break in a man to do housework than a green girl, and he can do more work."

Mrs. Sharp said housemen could be employed for the same wages as housemaids.

MEXICO CITY, Jan. 30.—Government officials refuse to take seriously the threat received from the Association of Moving Picture Distributors to suspend operations and leave the country on February 2 if the government carries out measures of inspection and revision which have been proposed.

EXPLAINS EXEMPTIONS FROM INCOME TAX ON ACCOUNT OF DEPENDENTS

AUSTIN, Jan. 30.—In order to clear away misunderstandings as to what constitutes dependency in connection with the additional exemption granted income tax payers, Collector of Internal Revenue A. S. Walker gave out today the following statement:

"For 1919 a taxpayer may be allowed a credit of \$200 for each person for whom he is the chief support. But it must be remembered that he can claim this additional exemption only with respect to children 17 years of age or younger and persons mentally defective, cripples and persons old enough to be without question physically incapacitated for self-support.

If the taxpayer contributes to the support of some relatives or other person who is over 17 years of age, in fair health, and still active, he cannot be allowed the additional \$200, even if he is furnishing the chief support. The very different requirements of

the two exemptions ("head of a family" additional \$1,000; "dependent" additional \$200) must not be confused. To be the "head of a family" the person whom he supports must be a close relative, must live with him, and he must be such relative's sole support. To be entitled to exemption for "dependent" the persons whom he supports does not have to be a relative, but can be any child or any cripple or defective; the child or incapacitated adult may live anywhere; and it is necessary that he furnish only more than half of the support.

The chief difference is that for "head of a family" the restriction is to close relatives, the evident object of which is to promote the home, for "dependent" the restriction is to children under 18 years of age or persons mentally or physically defective, the object of which is to recognize material assistance given to those who cannot help themselves. A son, who has left home, but who

still sends to his mother more than half of her support with enough regularity that she may depend upon it, can be allowed the additional \$200; provided however that the mother has become sufficiently aged to be without doubt physically incapacitated for self-support. Otherwise the amount contributed must be considered as a gift, not deductible as an expense and not entitling him to the additional exemption regardless of amount.

A father may claim the exemption for every child under 18 years of age. If one of his children receives from some estate or otherwise sufficient distributed income to provide for the expense of his support in the station of life in which he is placed, the father cannot claim the exemption with respect to that child, for, although the child is legally dependent upon him he is in fact financially independent.

AMATEURS OUTSHOOTING THE PROFESSIONALS IN HOUSTON TOURNAMENT

HOUSTON, TEX., Jan. 30.—Amateurs are outshooting the professionals at the Sunny South tournament here. The leading amateurs, Guy Deering of Columbus, Wis., and Mark Arle of Thomasboro, Ill., have broken 320 out of 400 targets for an average of 95. The leading professional, C. G. Spencer of St. Louis, has broken 376 in 400 for an average of 94.

In Thursday's shooting Frank Troch of Vancouver, Wash., was high gun with 193 for the day. He lost but three birds in the first 100 Troch has reduced Arle's lead to two birds.

—OSSINING.—Gordon Fawcett Hamby, murderer, bank robber and train bandit, electrocuted in Sing Sing. He went to his death without a show of emotion.

Upon suggestion of J. B. Marlow the Trades and Labor Council was invited to elect two representatives of organized labor on the business council, the two representatives to be selected from those who are members of the Chamber of Commerce or who will become members.

Chairman Wood announced that the committee which had been in charge of the drafting of the constitution and by-laws had not completed its work and upon a motion the newly chosen directors were given authority to adopt a constitution and by-laws.

Mr. Wood announced that a total of 2327 memberships had been obtained for the new Chamber of Commerce assuring a revenue of nearly \$40,000 per annum. Mr. Wood said that it was the hope and expectation of the organization to increase its membership to 3,000. Those who become members before the adoption of the new constitution and by-laws which is expected in about 10 days will be considered charter members of the organization.

The new directors were chosen Thursday night by the adoption of the recommendations of a committee. The members of the business council were chosen by the members of their respective groups.

JAPAN IS CONVINCED

Frazier Hunt, who is in Japan gathering first-hand impressions of the Orient for the Chicago Tribune, says there is no danger of war between America and Japan—"as long as America keeps her powder dry." The dispatch of a big American naval force to make its permanent base on the Pacific side of the continent was one fact contributory to that end, he writes; but the spectacle of the successful sending of 2,300,000 men to France and the training of as many more at home, the ship-building miracles performed and the ease with the energies of the whole nation were diverted from normal pursuits to aiding in the prosecution of the war, brought to the thinking people of Japan realization that for Japan and America to fight would be as a well-trained and clever lightweight matched against a great big bruising heavyweight of championship caliber.

There never has been any particular reason for talk of war between the United States and Japan. Propagandists, hostile to both and anxious for selfish ends to play off one against the other, were at the bottom of most of it. Ethnological antipathies were played upon and some selfish interests in both nations gave the propagandists incidental aid.

But with Japan recognizing its physical and economic inferiority, there is only the remotest possibility that the United States will ever take an attitude provocative of hostilities, and the sooner both peoples quit talking about it, the more remote that possibility becomes.

BALANCE OF POWER

With over 1,000 Wichita county women paying their poll taxes as shown by reports from the Tax Collector's office, the probability is that there will be at least 1,500 or 2,000 women voters in the county this year, and that Wichita county will be among the leaders in women voters.

Reports from over the state indicate that it is chiefly in the cities that the women are showing any considerable interest in qualifying themselves, poll tax payments in the rural communities being comparatively few. But at that, from the figures at hand, it seems certain that even if the total is not materially increased with the end of the week there will be enough women voters in the state to hold the balance of power in any political contest in which they vote with any degree of solidarity, and that will be enough to upset the expectations of some prospective candidates who planned to base their candidacies on the small number of qualified women voters.

It is, we think, a very great pity that more women over the state have not qualified themselves to take part in the elections this year, and we calculated in the beginning that there would be at least 150,000 who would. But there is some satisfaction in the knowledge that the 50,000 to 75,000 who have paid or will pay are enough to prevent anti-suffragist domination of Texas politics this year.

A good many Texas cities, where women have responded liberally to the call to pay their poll taxes, are arranging for city primaries in order that the women voters may be given a voice in municipal affairs as well as in state and county elections.

memberships. Texas leads Pennsylvania, which is third with sixty-one; California, which is fourth with fifty-seven; Ohio, which is fifth with forty-nine; Illinois with forty-seven and Indiana with thirty-seven. Our neighbor, Oklahoma, has twenty-seven Associated Press papers. Any exchange editor with opportunity to see copies of papers of the different parts of the country will tell you that for progressiveness, public-spiritedness and as a force for the public good, Texas papers are better than most and excelled by none, and it is as true of the smaller publications as it is of the largest.

As a contribution to the civic improvement of Wichita Falls, a "city beautiful" contest might be arranged for this year through co-operation of the women, civic organizations and the Chamber of Commerce. Prizes offered for the most attractive premises in several different wards or even smaller districts, to make the competitions circumscribed as to territory and even as to advantages, would, we believe, arouse a very considerable interest among householders, and by offering prizes both for the owned and the rented homes, the interest could be made fairly general and capitalize the inherent love of the beautiful. A contest with frequent inspections would help very materially, we think, in keeping these beauty spots beautiful all the spring and summer and early fall; the influence of them and the example upon other householders would irradiate until the whole city had felt their influence. Well kept homes have a material value, just as unkempt homes are a material handicap to the city's attractiveness.

Warning by local revenue officials that wood alcohol has been discovered in seized bootleg whisky ought to be a considerable additional handicap to the bootlegging game in these parts. As a matter of fact, and it is no more true here than it is elsewhere, bootleg whisky is subject to natural suspicion because the bulk of the pure whisky that could be sold has long ago been disposed of or is now sealed against sale and the bootlegger is driven to the use of the worst rot-gut at very best and to wood alcohol at the worst. The man who buys bootleg whisky nowadays is taking a long chance on being poisoned and even the man with little enough suspicion to buy the stuff ought to know that.

The supreme court's decision, upholding the constitutionality of the Texas primary suffrage law, removes the last valid excuse that Texas women had for willfully refusing to pay their poll taxes—the possibility that they would pay their money and then be disfranchised by the courts holding the law invalid. In proportion with other counties, Wichita women have done well, with their payments representing 25 per cent or better of the total. But the decision handed down at Austin Wednesday ought to bring the total and the percentage perceptibly higher. Pay your poll tax.

LITTLE BENNY'S NOTE BOOK
 BY LEE PAPE

It was Nora's day off yesterday, and she did the dishes after supper and pop helped her shine the aluminum things, and after they finished pop laid down on the sofa in the sitting room with his arms out, saying, "Holey smokes, what a job, I think we awt to give Nora a raise if she asks for one and threatens to leave if she dont get it—id rather spend a day in the trenches than shine up a row of those confounded aluminum things."

They seteny are a bother, but as long as you have them you mite as well keep them shined up, sed ma.

O I guess so, sed pop, as long as you have a sore thumb, you mite as well keep poundin' it with a hammer.

Now Willyum, wat on erth has that go to do with aluminum potat' sed ma.

Nothing, sed pop. Wich it didnt, and I sed, I got a idee, pop, I got a idee, ma, I got a idee how to shine aluminum things without hardly any work at all.

For mersey sake, how? sed ma, and pop sed, The man, woman or child who discovers how to relieve suffering humanity from the burden of shining aluminum kitchen jewelry will make a million dollars the first year, 2 millions the 2nd, 3 the 3rd, and so on.

Do you want to know how, ma, do you want to know how, pop? I sed.

Nothing would give me greater pleasure, sed ma, and pop sed, Out with it, James Watt Kriester Columbus Thomas Edison Potts. Meen, ing me, and I sed, Wy, all you haff to do is take all the aluminum things and spread them on the front steps and blow a horn to attract people's attention and then announce that whoever shines a aluminum thing the shiniest will get a reward of 10 cents.

What the World Wants.
 The world is waiting for the man who'll gladly do the best he can; it has high salary to pay To him who is content to stay Upon the job and labor on Until he knows his work is done.

The world is seeking hard to find The worker with a cheerful mind; It wants a youth of pluck and skill Who'll use his brain, and work until The finished task at last he sees Before he wants to be at ease.

The world has high reward to give To him who does not want to live As one who merely drifts along, And fears to breast the current strong. It wants a youth of sparkling eye, Who sees a goal and dares to try.

The world pays well for men of brains, And honest toil and taking pains; 'Twill lift above the common lot Of "didn't think" and "I forgot." The man who, in a time of need, Can well be trusted with the dead.

The world is waiting for the man Who'll look ahead and think and plan And feel, no matter what his part, That he is where he's needed most. For such a man there's work to do— And boy, it might as well be you.

Side Talks
 BY RUTH CAMERON

"Lord let me make this rule— To think of life as school."

When I graduated from high school, the class historian opened his class history with a quotation beginning with those two lines. I felt that they impressed themselves deeply on my memory. They come back to me every once in a while in one connection or another. They come back to me this morning when I fell to thinking how wonderful it is that if one wishes to, one can learn something from every person one comes into contact with.

You Can Increase Your General Information.
 In the first place, one can be intellectually educated by all one's acquaintances, if one will take pains to tap the reservoir of their special interest. There is some special thing that every one knows more about than you do. If you can get him to talk about it (and that is seldom hard, since that is usually the subject he likes best to talk about) you can make yourself well informed on a variety of subjects and thus enlarge your sympathies and your general interest in life.

You Can Learn Characteristics To Avoid.
 For instance, one person teaches me to try to avoid the trick of nervous movements. Another teaches me to avoid the mistake of always trying to flatter people. I know how uncomfortable her constant, unsuitable praise makes me—and the corollary is obvious. Another person teaches me the charm of a well modulated voice and sets me listening to my own.

A woman who is always overdressed and overdecorated, with chains and bracelets and ornaments of one sort and another, teaches me anew the beauty of simplicity. Another teaches me to imitate. A man with whom I have lately had business associations teaches me the satisfaction to oneself and others of answering all sorts of business and semi-business letters on the day you get them. And so it goes.

When I say that in every person there is something to be learned, I will want either to imitate or avoid, perhaps, I suggest that there are some people who could give you no positive lesson at all, only the negative lesson of a bad example. I do not mean to say that.

If you know them long enough and study them sympathetically enough almost everyone can give you something to imitate. But the thing to avoid is apt to be more obvious and not to require study. Hence that way of putting it.

RIPLING RHYMES.
 BY WALT MASON

Some countries have no weather embracing ice and snow for twelve long months together the balmy breezes blow; and sometimes when I'm weary of swollen skies and dreary, and chill winds, sad and erie, I to such lands would go. I'd dodge the wintry rigors and atmospheric crimes; but when I think of chiggers, which haunt the sunny climes; and there the skeeters carry their drills and raise Old Harry, and I resolve to tarry at home and write my rhymes. In summertime I'm gay, and have no pep or vim; and I feel tired and crazy, and weak in every limb; I spend the long day resting, flies in my whiskers nesting, and all my soul's protesting when I must write a hymn. If I were camped where breezes are always soft and mild, my verses would be cheery, and readers would be riled; for he who'd do some trilling and earn an honest shilling must feel his pulse thrilling with pep and vigor wild. The winter winds are walling throughout the bitter night, and chunks of snow are sailing around me as I write; but cold is stimulating; with zeal that's unabating my deathless poems I'm ratiing; my oarery's a sight.

"The stars incline, but do not compel."
HOROSCOPE
 (Copyright, 1919, by the McClure Newspaper Syndicate.)

FRIDAY, JANUARY 30, 1920.
 According to astrology this is not a fortunate day for most human interests. Saturn, Neptune and Uranus are all in malefic aspect. The configuration is read as unfavorable because it seems to be encouraging to wrong thinking of every sort. While the stars apparently have forecast better vision on public questions, there is a prophecy that the public mind will be poisoned by evil propaganda affecting students and thinkers as well as workers. Saturn today again menaces minor interests which may suffer from some new trouble. Discoveries of oil and minerals will be many during the coming summer. Coal fields of great richness will be opened in a far western state. Novel industries that attract trained minds and trained hands will multiply in the coming months. There is a sign said to presage great development in motion pictures and sweeping improvement in their presentation of human life. Interest in the Orient will be quickened and focused by a sensational incident that brings about closer relations. Sweeping changes in the fashions are prognosticated. These will affect the cultures of the women as well as their clothing. Deception and misrepresentation will prevail so generally in certain quarters that the truth will assume new importance to business men. Reforms that deal with tax marriage and divorce laws will be pushed

by women when they attain the vote, the seers declare, for Venus will be in the right aspect. Persons whose birthdate it is have the augury of changes in environment and employment. These should be made with great caution, as treachery is to be guarded against in all transactions. Children born on this day are likely to be restless and ambitious. These subjects of Aquarius are usually great favorites with the opposite sex and extremely successful in business or professional affairs.

GROWTH OF COUNTY IS EMPHASIZED BY AUDITORS' REPORT

PROPERTY HOLDERS PAY NEARLY QUARTER MILLION TAXES IN A YEAR.

FINES AGGREGATE \$11,622.00

At End of Fiscal Year on December First Total Balance Was \$716,570.12.

In the 12 months from Dec. 1, 1918 to Dec. 1, 1919, property holders of Wichita county paid \$225,047.79 in ad valorem and poll taxes. Fines aggregating \$11,622 were paid by Wichitans, while persons using vacant space in the jury rooms of the court house donated more than \$6,000 to the county treasury. It cost the county \$264.03 to pay exchange fees on checks sent to distant banks, the auditor's report shows.

The remarkable growth of Wichita county is evident in the annual report of County Auditor Murphy, completed this week, and which will be presented to the county commissioners Monday. While the annual report ends last Dec. 1, County Auditor Murphy has been busy since that time compiling data.

On Dec. 1, 1918, or at the beginning of the fiscal year, there was a total balance of \$716,570.12. During the fiscal year for 1919 a total of \$370,232.55 has been collected from all sources of revenue and is by far the record-breaking period in the history of the county. The county's revenue for the past year was received from the following sources: Occupation tax, \$1,729.55; jury trial and subpoena fees, \$2,070; income on daily balance, \$17,522.64; income and costs from tax collector's department, \$1,638; total ad valorem and poll tax, \$225,047.79; redemptions, \$5,706.56; road tax (money paid by persons paying in cash instead of working road), \$208.50; room rent (money taken in for sleeping quarters rented to transients at the courthouse), \$2,904; insolvents, \$186.16; fines, \$11,621.78; lease on county road right of way, \$6,000; interest on bonds and securities owned, \$1,957.18; state and federal aid, \$28,267.48.

Funds Paid Out.

The following is an itemized account of funds paid out during the past year: Commission to county treasurer, \$1,397.94; jury fees paid out, \$14,109.16; general fund, \$68,550.09; general fund on county farm, \$9,141.66; interest paid on bonded debt, \$54,984.90; exchange paid on checks, \$264.03; bonds redeemed, \$19,900; liberty bonds purchased, \$11,500; bridge building, \$21,468.92; special road fund, \$154,814.48;

DODSON WOULD STOP SALE OF CALOMEL

Says Calomel is Mercury and Acts Like Dynamite on Your Liver

Dodson is making a hard fight against calomel in the South. Every druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tonic is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tonic is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tonic is personally guaranteed by every druggist. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness, and constipation, you have only to ask for your money back.

Dodson's Liver Tonic is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't grip or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tonic instead and feel fine, full of vigor and ambition.

SEASON BOXES TO LEAGUE BALL GAMES ARE PLACED ON SALE

Announcement was made today that season boxes to Texas League ball games at the local park are now officially on sale. Out of a total of 76 of these boxes, 35 have already been taken for the year but the balance are on sale and can be reserved by applying at the office of the Wichita Falls Baseball Association, 405 Kemp & Kell building.

ROYAL CONFECTIONERY IS OPENED TO PUBLIC

The opening of the Royal Confectionery at the new location at 718 Indiana avenue, took place Friday morning. This popular place was formerly known as Fell's and will be conducted along the same lines in the new location that made Fell's one of the finest confectioneries in the Southwest.

COLORED PEOPLE URGED TO PAY THEIR POLL TAX

An active campaign is being carried on among the colored citizens of Wichita Falls to have them pay their poll tax. The movement is fostered by the Colored Citizens League and has been in progress for about 60 days, according to M. A. Bean, president of the organization. He reports that many of the colored people are paying poll tax this year.

ARREST MAN WANTED FOR AUTOMOBILE THEFT

A man wanted in New York for automobile theft was arrested at Wagoner City early in the present week and was held in the county jail until official arrival to return the prisoner to New Mexico where he will face trial. The man is also wanted on a charge of swindling by check.

JEWISH CONGREGATION HAS SERVICES TONIGHT

The Temple Israel congregation will hold services this evening at 8 o'clock at the Presbyterian church, Tenth and Bluff streets.

CONTRACT AWARDED FOR NEW BUILDING AT TENTH AND OHIO

Contract has been let by J. A. Kemp and J. W. Culbertson for the erection of a two-story business building, corner of Ninth and Ohio, which is to occupy the vacant lot opposite the city hall now occupied by one of the best hotels. Half of the lower floor is to be used by the American Railway Express Company, and arrangements have been tentatively made for the lease of the upper floor for office room to the Katy. The building is to cost around \$70,000. Read & Costley have the contract. The dimensions of the new building are 100 by 150.

LOCAL YOUNG PEOPLE MARRY IN FORT WORTH

Mr. and Mrs. Herbert Zeigler have returned from their wedding trip and will make Wichita Falls their home, to be at home after February 1, at 2007 Huff avenue. Mrs. Zeigler was formerly Miss Mary Leath Tevis, daughter of Mr. and Mrs. C. H. Tevis, long time residents of Wichita Falls, and the wedding occurred on Wednesday, January 21 in Fort Worth. The bride had been visiting friends in Austin and was met by Mr. Zeigler in Fort Worth on her return. Mr. Zeigler is the older son of Mr. and Mrs. T. W. Zeigler. Both young people are graduates of the local high school and are favorite in their circle of friends, to whom the news of their return is of interest.

JUNIOR HIGH TAG DAY ON SATURDAY

The Parent-Teachers Association of the Junior High School will have the tag day which was postponed from Saturday, January 24 on tomorrow. All mothers of the school who will assist in the tag day are requested to be at the Y. W. C. A. rest room at 9:45 in the morning and 12:45 in the afternoon.

FORMER WICHITANS ARE STOPPING AT JOLINE

Mr. and Mrs. A. I. Bralnard former residents of Wichita Falls, are in the city for a few days and are stopping at the Joline.

PLANNING A NEW COUNTY IN SOUTHERN OKLAHOMA

If present plans of prominent Oklahoma residents in counties joining along Red River in close proximity to Wichita county materialize, a new county will shortly join the sisterhood of Oklahoma commonwealths. The county of "Chickasaw" is the title of the proposed addition to Oklahoma's collection of political divisions. It is understood that territory from the present counties of Cotton, Comanche and adjacent counties will be included in the newly created commonwealth.

OKLAHOMA CITY. — John J. McGraw, candidate for Republican national committee from Oklahoma, announced his withdrawal from the race.

SUITS AND OVERCOATS

The success of our clothing business is based on nothing else but good service; on the fact that almost every suit sold means a half dozen more to the man's friends. The styles are as smart as you will get from the most expensive tailor. The fit is perfect, and that means for the stout man and the slim man as well as for the man of regular build.

Magnificent overcoats! Rather a strong word with which to describe our overcoats, but nothing more mild will cover the territory or do justice to our winter overcoats. It doesn't matter what shape or size you are.

If you are an overcoat seeker you'll find what you are looking for here. The styles that are just out. The colors that are just seen. The materials that are just right. The short, the medium length and the long coats—are all here. Your overcoat is here, come and see if it isn't.

MARTENS OFFERS TO FURNISH TRUE COPIES OF CORRESPONDENCE

WASHINGTON, Jan. 30.—An offer to present to the senate committee investigating Bolshevism in the United States "true copies" of all communications from himself and the Russian Soviet government was made today by Ludwig C. A. K. Martens, Bolshevik representative of this country.

Former Senator Hardwick of Ga. Martens' attorney, said, however, that it was desired that some of the letters be considered in executive session for they "might involve others, far beyond the sea, in trouble." He said he referred to those who assisted in maintaining communication between the self-styled ambassador and the Soviet chiefs in Russia. Chairman Moses reserved decision as to an executive session.

"I want to take up with you the matter of the list of 941 odd American business concerns with which Martens said Russia could transact business," said the chairman. "We asked for a list of those concerns which have contracts with Mr. Martens and for the amount and commodity involved. You gave us a list of concerns which were willing to do business."

Mr. Hardwick then presented a statement of contracts, showing eight items, the largest contract for \$4,500,000 of printing presses given the Lehigh Machine Company, Lehigh, Pa. Elias Herzog, New York contractor, according to the list, to sell \$3,000,000 worth of shoes; Fleischman & Company, New York, \$3,000,000 worth of underwear; New York, \$3,000,000 worth of machine tools; and Habroff Company of Milwaukee, \$1,400,000 in shoes and machines.

Morris & Company, Chicago packers, on January 25, executed an agreement to furnish 50,000,000 pounds of "food products" at prevailing market prices, according to the statement. One contract for \$10,000,000 given the National Storage Company of New York covering "merchandise" had been appropriated, it was said.

All of the contracts, Martens explained, were conditional upon the state department issuing export licenses to the firms mentioned.

REPUBLICANS NOT TRYING ECONOMIZE DECLARES SENATOR

WASHINGTON, Jan. 30.—Senator Borah, Republican, Idaho, told the senate today there was not "the slightest evidence" that congress proposed to carry out the special promise of the Republican party to reduce government expenditures.

Opposing the bill for creation of a unified government, Mr. Borah said because of its cost, Senator Borah said manifestations of extravagance in this country were just as great now as they were during the war.

"The Republican party made the special promise in the last campaign to reduce government expenditures," the senator said. "But there isn't the slightest evidence that this Republican congress proposes to carry out that promise."

"A platform committee of 57 varieties has been created. I want to remind members on this side of the chamber that congress will make the platform with its record here. The gifted gentlemen who are to give us the platform cannot convince the people against the record being made."

Republicans and Democrats should join hands, the senator declared, and begin to carry out the promise that when the war was over government expenditures would be cut to the bone.

WANTS TO CONTINUE ADJUSTMENT BOARD

WASHINGTON, Jan. 30.—Continuance after the end of federal control of railroads of the board of adjustments set up by the railroad administration to decide controversies arising under the application of wage orders and in other disputes between the railroads and their employees was recommended in the annual report today of W. S. Carter, director of division of labor of the railroad administration.

A distinct future for women is offered in railroad work, Miss Pauline Goldmark, manager of the women's service section of the railroad administration, said in her annual report.

Salaries Men Affected. CHICAGO.—The yoke of matrimony fits better now on the collarless neck of the wage earner than over the white collar of the salaried man. Marriage license clerks say permits to salaried men are 25 per cent below normal.

Skin Eruptions Cause Unbearable Itching

Scratching increases the Irritation of the Delicate Skin Tissue

You can claw your nails into your skin until it bleeds, in an effort to obtain relief from the fiery itching and burning caused by skin diseases, but you only increase the irritation and pain.

And you can pour ointments, salves and lotions by the gallon on the irritated parts, without obtaining anything but temporary relief. Just as soon as the strength of the counter irritant gives out, your pain and torture will return with increased violence, because these local remedies have not reached the source of the trouble.

The real source of all skin diseases is the blood supply. The blood be-

SICKNESS DELAYS SELECTION OF JURY IN NEWBERRY CASE

GRAND RAPIDS, MICH., Jan. 30.—Illness today depleted the ranks of defendants and jurors in the trial of Truman H. Newberry and 134 others on election fraud charges in the United States district court.

Will E. Purple of Brutus, a juror accepted by both the defense, fainted while en route to the court room. He had taken ill during the night. Judge Clarence W. Sessions excused him.

Three more defendants were excused from attending the trial because of severe illness. They were Burr, George W. John and Mel Deo.

Eight men were examined before a juror was finally found satisfactory to both sides to occupy chair No. 2 in the jury box. Illness, prejudice, friendship with the defendants and activity in the political campaign in 1918, caused the alleged frauds to take place, caused the court to excuse many members of the panel.

The government had used three of the six peremptory challenges allowed by the court when examination of the panel was resumed at 2 p. m. today. The defense used six of its ten challenges.

Judge Clarence W. Sessions continued to exercise greatest care regarding the health of prospective jurors. He explained to each man examined that the trial would be long and the jury work tedious. If any man expressed doubt regarding his physical condition, he was immediately excused by the court.

United States Senator Truman H. Newberry, chief of the 135 defendants, gave close attention to the examinations of each man examined that the notes containing suggestions regarding various men examined to Attorney Charles Nichols, in charge of selection of the jury for the defense.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies. Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste. Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspirinal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey root and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be haphazard, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest and the most agreeable cold and cough remedy for infants and children.—Adv.

CAN MOBILIZE AN ARMY OF 2,000,000 WITHIN FIVE YEARS

WASHINGTON, Jan. 30.—Mobilization of an organized field army of 2,000,000 men made possible within five years after the passage of the senate army reorganization bill. Chairman Wadsworth of the senate military committee said today in his report to the senate on the measure. The cost would not exceed \$50,987,000 annually, he said.

Including the permanent standing army of 298,000 and the citizens' army and national guard as proposed, the measure, through its compulsory military training plan, would permit the mobilization next year of an army of 1,198,000 men, the report continued. Youths trained would be passed into the citizens' reserve army and in 1926 the nation's available military strength would be 3,345,200 officers and men while the cost per man would be reduced from \$509 in 1921 to \$176 in 1926.

"With the organized personnel shown in 1926," the report said, "it will be possible at any time for the foreign garrisons and the coast defenses, to mobilize an organized field army of 2,000,000 men with ample surplus strength to supply replacements and to form new and unexpected organizations. This can be done even after a liberal allowance for exemptions on account of industrial requirements."

This Tells You How to Get Benefit of the Best Senna

Prominent importers and wholesale dealers in crude drugs and medicinal herbs gathered from all parts of the world do not hesitate to say that the market for the better grades of medicinal herbs, roots, oils, etc., is practically confined to the leading manufacturers of the so-called package medicines, who buy only the very best, and that the manufacturers of Dr. Caldwell's Syrup Pepsin are the largest users of the best grade of Egyptian senna leaves in the world.

The potency of a tea brewed from senna leaves to relieve constipation has long been recognized, not only by the medical profession, but by the public generally; in fact, senna has been known and used in medicine for more than five centuries. The cheaper grades of senna, such as are usually sold at retail, have, however, a tendency to gripe and cramp

I AM GLAD TO ENDORSE PE-RU-NA

Glad to Try Anything

—Five years ago my system was in a terribly run-down condition and I was broken out all over my lower back. I began to be worried about my condition and I was glad to try anything which could relieve me. Peruna was recommended to me as a fine blood remedy and tonic, and soon found that it was worthy of praise. A few bottles changed my condition materially and in a short time I was all over my trouble. I owe my restoration to health and strength to Peruna. I am glad to endorse it.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

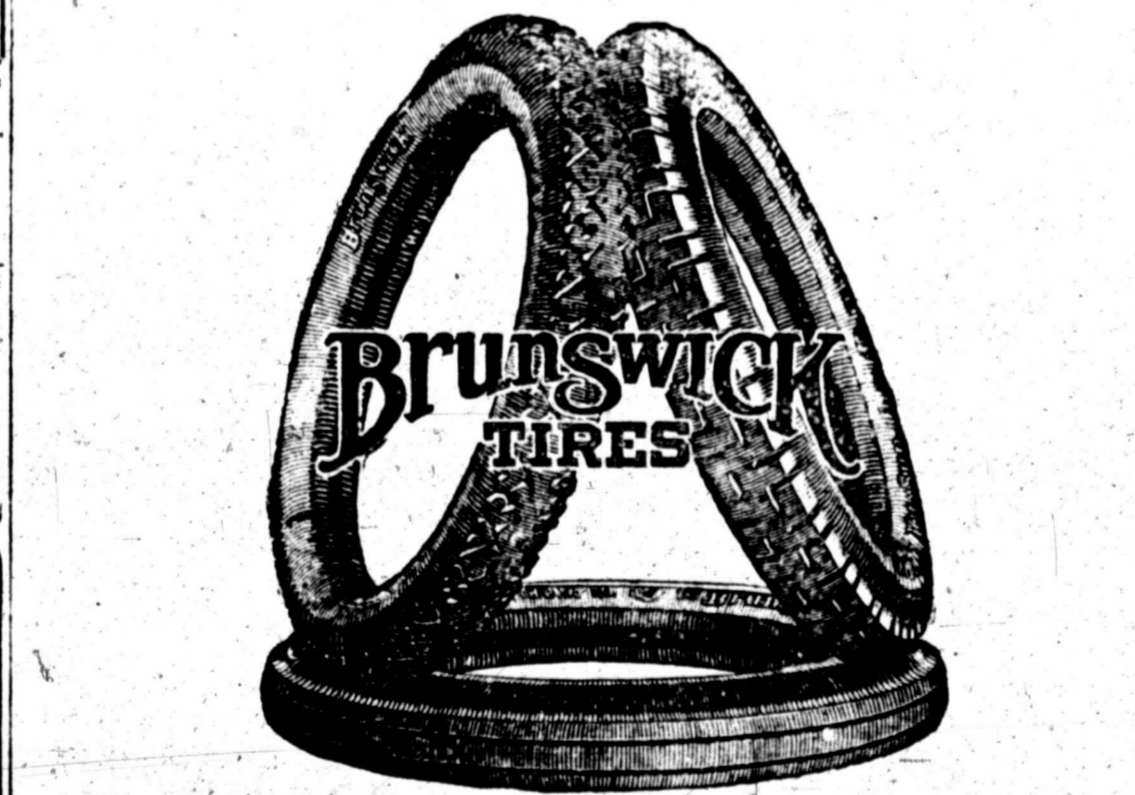

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

General Company Gets Another Gusher They seem to have the ability of knowing where, when and how to drill to obtain the best results. I own over 1,000 acres across the fence from the well they are now drilling at Jolly, (present depth over 1500 feet). I would not sell all my acreage for a million dollars but will sell 1-3 of it at a figure that will give the buyer a chance to make a big fortune. I am gambling the value of 2-3 of my land that the General Co. will get a gusher at Jolly just as they did in Block 821 when they discovered that pool and just as they did Jan. 27 when they got their big gusher in Glasscock county. There are also three other deep tests going down within a mile of my land, and I am surrounded on all sides with drilling wells, the bringing in of any one of which will make me immensely wealthy, as well as the one who buys what I am now offering for sale. Necessity compels me to sell some of my land and the reason will be fully explained to anyone interested. Address Owner, Room 18, St. Paul Apartments, Wichita Falls, Texas

CONTINUED BAD WEATHER AGAIN SHOWS EFFECT ON THE NUMBER OF COMPLETIONS IN OIL FIELD

Bad weather, coupled with an epidemic of varying severity in the various sections of the oil fields of this state, has served to cut down the number of completions reported from the Wichita Falls district this week, and these conditions have been responsible for lack of definite news regarding some important oil fields, notably in Tillman county, and in the lower Park section. There has been talk that the Indian lease auction sale at Andover, Okla., will result in some completions, so that lease prices would be depressed because of uncertainty as to the delay in completing the Sheeque and the Red River tests is understood on good authority to be caused by sickness among the crew.

DRILL 20 FEET IN SAND IN RED RIVER TEST IN OKLAHOMA

Twenty feet of unbroken oil sand have been drilled in the test of the Red River Development company in the southeast quarter of Section 5-14, according to reports reaching Wichita Falls from the field Friday morning. Casing is being set in this test, and was expected to be finished Thursday night or Friday morning. This test was reported on the sand several days ago, but the test is one of the most closely guarded on the Oklahoma side, and definite news of the development there have been lacking until this last report.

REPORT PROGRESS IN ARD-BOGER-MAER TEST

Satisfactory progress is being reported from the Ard-Boger-Maer rotary test in block 41, Kemp's Wichita valley farm lands, southwest of the Kemp-Munger-Allen, the present depth being given at 800 feet. Considerable interest is being attached to this test, it being some distance from any of the other deep tests in this district.

RESUME DRILLING IN ARCHER COUNTY TEST

Work has been resumed on the Silk Building, Lamar test in the southeastern part of Archer county after a shutdown of about three weeks waiting for an under-reamer, according to a report reaching here Thursday. Under-reaming for 6.5-inch casing is in progress at 3,620.

FREDERICK OPPOSES SENDING OF TROOPS

Special to The Times. FREDERICK, OKLA., Jan. 30.—The Frederick Chamber of Commerce has gone on record as opposing the sending of troops to Red river to "defend the rights of private individuals," passing a resolution to this effect at a meeting held Thursday. The action of Governor Roberts was endorsed, following a spirited discussion. John H. Mounts read a telegram from A. M. Stewart, saying that the governor had refused to call out the National guard, and asking Mounts to request that Company B be called and sent to the river. The governor had offered to commission 200 deputies for that purpose. Mounts said that he had replied that if 200 men interested in the oil properties would volunteer the sheriff would deputize them and they would be sent to the river, but that he would not ask that the National guard company be called out. A resolution was offered by J. L. Newland and unanimously adopted as follows: "Be it resolved, That the Frederick Chamber of Commerce indorse the course of Governor Robertson in refusing to call out the National guard for the purpose of defending the rights of private individuals to disputed oil lands in the Red River bed; and "Be it further resolved, That it is the sense of this body, that this is a matter which must finally be settled by the United States supreme court, and that we urge that said court take jurisdiction in the premises and end the controversy, without useless strife."

SEVERAL TANKS ON THE GEORGE TRACT DESTROYED BY FIRE

Fire Thursday morning destroyed a number of tanks on the W. F. George farm, in the southwest portion of the Waggoner pool, starting at 10:30 a. m., on the United Drilling company's lease and sweeping south. As has been the case in many other fires a water-filled ditch was the agency for the spreading of the flames. There was not a great deal of oil lost, the tanks being emptied at a satisfactory rate at present. Sixteen tanks were reported lost, all of them wooden receptacles of 500 barrel capacity. The losers were the United Drilling company, the Teshoma, the Burk George and the Burk Sheffield Oil companies.

BURK-TEX WELL ON GEORGE IS REPORTED MAKING AROUND 800

What is said to be one of the best completions in this section for weeks is reported on the George farm today, in the Burk Tex Oil company's No. 1 W. F. George, southwest part of the Waggoner pool. The well is reported as making 800 barrels.

RECEIVERSHIP SUIT BURK-BET PROPERTY AT OKLAHOMA CITY

The receivership suit for the Burk Bet properties, filed in the federal court of the Western District of Texas in December, 1919, was scheduled to be heard today in Oklahoma City. Filing of this suit followed the taking possession of the Burk-Bet properties by Judge John W. Hornsby, the receiver appointed by the Travis county court, and the petition asks that

Hornsby be dispossessed as receiver of the property. This is the receivership suit of which items were carried by the Associated Press Thursday night, according to the information of local operators who are interested in the properties concerned.

TAMING A BIG "WILD CAT" ON 1,000 ACRES K.M.A. FIELD

Have you really ever had such an opportunity before? We believe not, because this is one of the very largest companies ever organized, having their acreage in one block. Are you willing to figure it out what \$100 of stock in a company with 1,000 acres will be worth if a good producer is brought in. It will mean a fortune, it will mean the biggest proposition in the oil industry in Wichita Falls. With a good well on our tract, the entire lease of 1,000 acres will be worth \$10,000 per acre. The chances of a well are the same on a tract of a thousand acres or one acre, but the returns to the stockholders differ by many thousands of dollars. The stock in a company with big acreage always brings a premium during drilling. Just what would you say to yourself if you pass this up and a good well is brought in on a tract of one thousand acres in a company with a low capitalization of \$200,000? To be sure you are in on the offer, while you can get in, we advise you to buy what stock you want today. Our drilling contract is let and we expect to start development in a short time. Note that our lease is directly south of the Kemp-Munger-Allen well and surrounded by development.—Several wells are now on the sand in this field, which will put our stock over the top in a few hours' time, as soon as they become producers. If you are game to invest in a proposition that may make you rich here is your opportunity. You won't get a fortune by "wishing you had" or regretting. The margin of profit in this company warrants your taking a chance, because one hundred dollars worth of stock will make you more money than the average man earns in his entire lifetime. If you want in, get in now, because your time is limited. Shares \$10.00 par. Fully paid and non-assessable.

Big 1000 Acre Oil Co. Central Stock Exchange Bldg., Wichita Falls, Texas. We can use a few good live agents who are salesmen. CLAUDE H. HARWELL, President. CLYDE H. PRICE, Sec'y. Treas. C. L. FERGUSON, Vice-President.

WICHITA FALLS MAY LOSE STILL ANOTHER OF TWIRLING STAFF

To the observer seated on the side lines, it appears today that someone in the Sunny South is trying to grab another pitcher from Wichita Falls' collection of 1920 Texas Leaguers. This time it's C. O. Lohman, the spitball twirler that Walter Salm obtained from Chattanooga in a trade involving Outfielder Charlie Miller.

Salm has received a letter from Strang Nicklin, pilot of the Chattanooga crew, saying that he gave Lohman "permission to make a deal for himself" and that Lohman came to terms with Kid Elberfeld, manager of Little Rock.

"You have my permission to do business with Lohman and you can keep Miller and I will call it square," reads a part of Nicklin's letter. "But under the circumstances I don't see how I can be fair to Lohman and sign your sales contracts."

Lohman never received his unconditional release by Chattanooga. It is mighty difficult to see how he could obtain "permission to make a deal for himself"—and, holding to that viewpoint, Salm intends to take the matter up immediately with the National Commission.

RECRUITING OFFICER CALLS ATTENTION TO PLAN FOR EDUCATION IN SERVICE

While the actual number of army recruits secured by the recruiting party headed by First Lieutenant J. J. Roach, of the Third Division at Camp Pike, has been only two since their arrival here last Monday, there are six or eight minors who want to enlist but are being held up pending proper authority for their enlistment. Enlistments are being accepted, and the applicants forwarded to Dallas, for all branches of the service, both home and foreign service.

In the past, according to Lieutenant Roach, who was a Harvard man before entering the service over two years ago, the army did not make

TALKS BY LAYMEN AT PRESBYTERIAN CHURCH

Rev. N. E. Grafton states that the Sunday night talks by laymen are proving to be both interesting and helpful. Last Sunday night Misses Clark and Moore spoke for the business women of the city. Sunday night Judge P. A. Martin will discuss "The Relationship of the Church to the City Schools." All who are interested in better city schools are asked to be present.

a pretense of educating its soldiers but now a real "University in Khaki" is planned. After the recruit training period is over the soldier has all afternoon to himself and if he elects this time may be spent very profitably fitting him for commercial life. The allotments of foreign service were also stressed by the recruiting officer and the young man who has a desire to see the world should investigate the opportunities offered by the new army. Enlistments are now open in the Coast Artillery and Medical Department in Hawaii, it is announced.

COFFEE AND MORALE By FLORA G. ORR

Formerly Home-Economics Writer, United States Food Administration

Think back. Was there ever a time even during the most serious and crucial periods of the great war, when you were unable to have a cup of fragrant, steaming coffee for your breakfast?

Other things disappeared from the grocery shelves, but there was always coffee. Other parts of the restaurant menu were seriously curtailed, but nobody struck coffee from the list.

No matter how hard the times coffee was always on hand.

Quite a bit of favoritism, wasn't it? Or was it?

We learned, during the war, how to get along without sugar in cakes and desserts; we learned that we could eat cornbread and barley muffins in place of white bread; we learned how to cut down on meats and fats.

The Food Administration at Washington told us these things must be done and taught us how they might be done.

In addition to cereals, milk and cheese, fats and meats, the United States Food Administration must have coffee under serious consideration.

For there were black times in 1918 when all ordinary commerce was at a standstill. Unless we sent steadily every available ounce of food to the allies and our own soldiers, victory of the enemy seemed imminent. This meant that every ship not bound elsewhere on an absolutely necessary errand must be pressed into service for this direct shipment of food from the United States to France or England.

Eighty per cent of all the coffee imported into the

United States is grown in South America. From North America to South America and back is a fairly long trip and a very different voyage than straight across the ocean to France or England.

Yet there never was a time when ships were not being sent to South America for coffee. Why?

Because Mr. Hoover believed that the American people temporarily below par. It stimulates the heart action. It assists digestion.

Nothing else can so cheer up a man who awakes with a groan or a down-in-the-mouth feeling. Nothing else makes him feel so good without any ill after-effects.

Wise wives have always known that the time to talk to a man is after the rolls and coffee, not before.

In other words, coffee is, as Mr. Hoover said when his food value was questioned, "a psychological necessity."

So you did not have to get along without coffee during the war. At all times dealers were allowed to maintain a "visible supply" of one million and a quarter sacks of coffee. This was not as much coffee as goes to make up the visible supply, but it was enough to "keep us going," enough to give each of us a cup of coffee every day.

Mr. Hoover was unwilling that the American people should have to go without coffee. He saw its direct relation to morale in war time. Mr. Hoover gave coffee its first official recognition as a necessity.
