

JOE BRASHIER GETS FIVE-YEAR TERM ON A ROBBERY CHARGE

CHARGED WITH BEING IMPLICATED IN MILL ROBBERY IN DECEMBER.

"BLONDIE" OWENS ON TRIAL

Third Member of Accused Trio Must Face Jury on a Similar Charge.

Joe Brashier, alleged highjacker, was found guilty by a jury in the 30th district court Friday afternoon and sentenced to a five-year term in the state penitentiary.

Blondie Owens, alleged accomplice in the hold-up of the Wichita Mill and Elevator Company's office at Burk Burnett, is on trial this afternoon.

Four alleged highwaymen have been convicted in the 30th district court this week and given prison terms varying from five to 20 years in the state penitentiary.

The trial of Brashier, alleged to be the one of a trio who on the night of December 22, 1919, robbed the cashier of the Wichita Mill and Elevator Co. at Burk Burnett of \$500, opened before Judge H. F. Weldon in the 30th district court Friday morning.

W. D. ("Blondie") Owens, another of the alleged trio, will face trial this afternoon. A third confederate to the alleged hold-up will be tried later.

Written Confession.

The major portion of the state's case against Brashier came in the form of a written confession said to have been made by Brashier to county attorney John Davenport the morning following Brashier's arrest. In this statement, Brashier confessed that he was an employee of the Wichita Mill and Elevator Co. at the time of the hold-up and that two oil field employees from Newtown came to him the afternoon before the alleged robbery and suggested to him that he permit them to enter the company's offices that night. Brashier's written confession further stated that he did not molest the two highwaymen when they entered the establishment the night of December 22 and that he told J. F. Kelley, another employee of the company, that he had "better open up the safe."

Brashier stated in his confession that "I went into the rear of the building the next morning where I found among some sacks nearly \$200 in currency which was my part of the money taken from the company's safe. I was persuaded into the deal by 'Slim' and 'Blondie' from Newtown on the promise that I would get sufficient money to go to a hospital and be treated for a disease from which I was suffering."

Attorney Protests.

The purported written confession of Brashier was entered as evidence over the vigorous protest of Ed W. Napier, counsel for the defense. Napier asserted that the confession was not voluntarily made, but was made by the defendant after he had been told by an officer that if he made a confession that he would probably be given a suspended sen-

ence. This charge of council for the defense was denied by County Attorney John Davenport to whom the confession is said to have been made. "You get a statement from practically every man arrested in this county, do you not, Mr. Davenport?" Napier questioned the county attorney.

"I sure get a confession from every defendant who will make one," Davenport replied.

"Didn't you know that some officer had previously talked to Brashier and encouraged him to make a confession?" Napier asked.

"If any officer had previously talked to the defendant I knew nothing of it," Davenport replied. "It is the policy of the county attorney's office to secure confessions from every man or woman accused of crime from whom we can get a statement. We do this in order to aid in securing convictions. However, no 'third degree' methods are resorted to in order to secure these confessions and all taken by my department are certainly voluntarily made."

Old Not Take Stand.

Brashier did not take the stand and appeared in the court room at 10 o'clock in the rough clothing common to "roughnecks" of the oil fields. His face is not that of a hardened criminal and the jailer says that Brashier has been an ideal prisoner. He has been sick most of the time during his confinement here.

J. F. Kelly, an employee of the Wichita Mill and Elevator Co. was the first witness used by the state. He recited the story of how two highwaymen aroused him from his cot after 2:00 o'clock the morning of De-

ember 23 and forced him to open the company's safe from which \$500 in money was taken. The witness asserted that Brashier was also forced to "stick up," but the witness declared that Brashier was in confederacy with the alleged highwaymen and later secured one-third of the money taken from the company's safe. George Gilliam, a private detective employed by the Pulk Detective Agency, testified that Brashier made a statement to him in which he declared that he had entered into a conspiracy with two Newtown oil field workers to rob the mill and elevator company's safe.

Testimony was concluded shortly before noon. No witnesses were used by the defense.

NUMBER OF INMATES TEXAS PENITENTIARIES CONSIDERABLY DECREASED

AUSTIN, TEX., Feb. 27.—The number of inmates of Texas penitentiaries decreased 483 during 1919, according to an annual report filed with the governor today. At the end of 1919 there were 2,726 convicts, and during the year Harris county, which sent 88 persons to the penitentiary, took the lead in this record, which had been held by Dallas county. Tarrant county stood second with 58 convicts, and Dallas was third.

In the classification of crimes for which convicts were sent to the institution, burglary led with 300; miscellaneous thefts came second with 155, while forgery was third with 137. Crimes of violence were headed by murder with 103 convictions.

MORTUARY.

Mrs. Sam Harrell.

Mrs. Sam Harrell, 40, died at her home at Charlie Thursday night of heart trouble. The funeral will be held Friday afternoon there followed by burial in the Charlie cemetery. She leaves a husband and six children.

Mrs. Ethel Chamberlain.

Mrs. Ethel Chamberlain, 31, died at her home, 201 Maple street, Friday morning. The body is being held at the parlors of Hines, the undertaker, until the arrival of the father of the deceased, J. A. Hankins, and several relatives from Dewey, Okla.

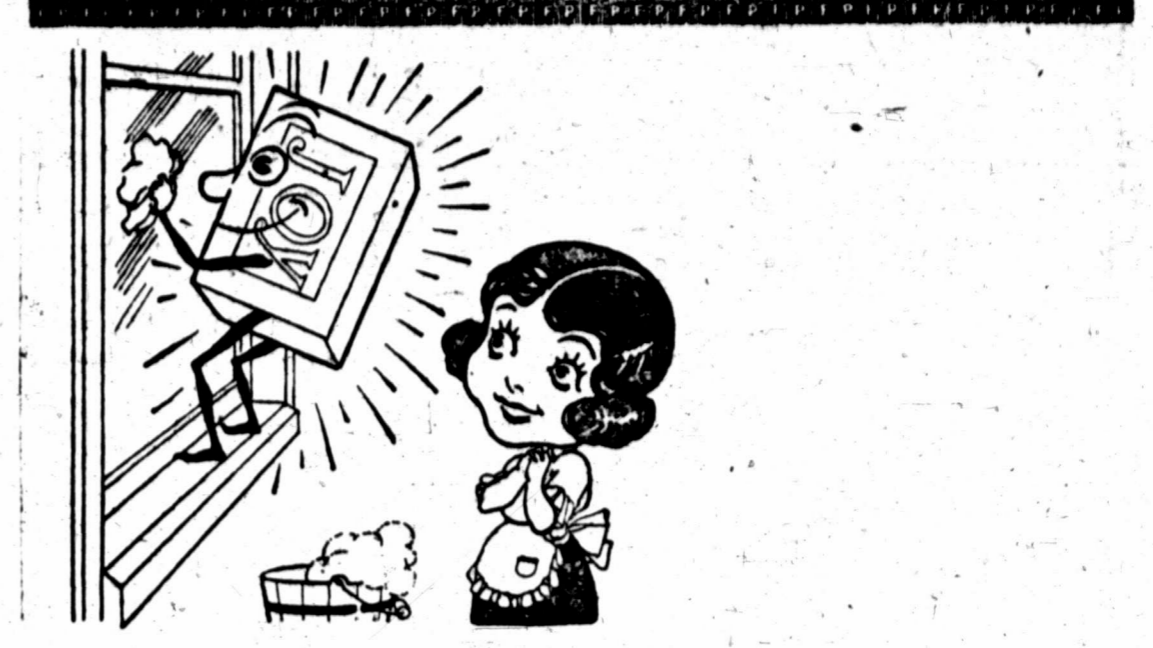

Joe H. Clark.

Joe H. Clark, 23, dropped dead of heart failure at the home of his father in the Sibley Taylor addition, Friday morning. The funeral services will be held Saturday afternoon at the chapel of O. W. Hines, the undertaker, in charge of the W. O. W., at which the young man was a member. Burial will take place in Riverside.

E. A. Webb.

E. A. Webb, 23, oil field worker who was hit on the head by a flying crow bar in the Burk Burnett fields a short time ago, died at the General hospital Thursday night. A wife and small son will accompany the body to Hope, Ark., for burial.

joy keeps women young and beautiful!

HARD work ages women. The daily house chores, often distasteful, are the telling destroyers.

Why don't you let Joy into your home to do the hard work? Joy, a cool, firm, white soap, goes after pots and pans, dishes and windows, bath tubs and floors, in such a hearty manner that they fairly bristle with brightness! And, my! how clean and sweet the laundry is after washing with Joy!

You never saw anything clean as easily and quickly. There's no scrubbing necessary—just rub a little and Joy disintegrates the dirt, grease and grime almost instantly.

And economical! Joy lasts longer, does the job in less time and better. It doesn't get soft and sticky when wet, either. It's just a plumb everlasting good household soap, working like a wizard all the time. You'll sure like it. Ask your grocer today.

over their chatter in a way that Anderson and Hart, with their domestic comedy, "Home Sweet Home," start out kind of tame, but when they get warmed up the act goes fine. It is based on a quarrel between husband and wife, and the old wizzer about "not as good as mother used to make" injects a little humor. The coon town divorcons, Comfort and King, had a pretty fair act. The action takes place in the office of a colored lawyer, and for this it gets the distinction of being a novelty. The closing act was really one of the classiest numbers in the way of music that has yet appeared at the Wichita. Twenty-five exercise men in the white uniform of the U. S. Navy, and handling every instrument from a banjo to a bass violin, jumped in and "jazzed" down the house Thursday night. By way of variation, they introduce a little song and dance specialist, a violinist, with ability at double copping, and a trombonist with a mean all his own.

Oil News

TESTERMAN WELL CONTINUES TO FLOW OIL HIGH INTO DERRICK AFTER EACH TRIP OF THE SWAB

In spite of some mud and a considerable amount of drilling water which is still in the hole, intermittent flows of considerable length were made Thursday afternoon by the Tom Testerman, No. 1 Goshler in section 44-14, Tillman county, following each of the few times the swab was run through the hole, according to the reports from the field late Thursday. The flow is sent the oil about 40 feet above the head of the casing after each trip of the swab.

Preparations are being made to standardize the test to complete. At present the sand has been drilled only about six feet. One 500 barrel storage tank has been completed, and a 1,000 barrel storage tank is nearing completion. The pipe line connection has been made by the Dominion Oil Co., and the test will be completed as soon as the standard tools are moved on. The casing is also to be cemented, it is understood.

Excitement at Grandfield and Fredonia in Tillman county is reported to be at a great height following the flows made by the Testerman, the first test which has made oil on the Oklahoma side of the river. Leasing in this section is also reported to be active, with prices even above the high level which has prevailed on the Tillman county side.

A number of new locations in this section are also reported, and drilling activity is expected to become general within the next few days. Among the new locations reported is that of Langford, Staley & Chensault, No. 1, 600 feet west of the Testerman No. 1.

The test of the Hugo Oil and Development Co., northwest of the Testerman in section 22-4-14, is reported nearing the sand depth of the Testerman. The operators drilling this test express themselves as confident of picking up the sand found by the Testerman within the next few days.

"TEXAS EXES" ANNOUNCE ANNUAL DINNER PROGRAM

Several scores of Wichitans, both men and women, who are ex-students of the University of Texas, are expected to attend the annual dinner and dance of the ex-student association, which will be held at the Wichita Falls Golf Club Tuesday afternoon. Practically all of the preliminary arrangements have been concluded, and the following program has been arranged:

- Toastmaster, Orville Bullington, '02.
- Greeting from President R. E. Vinson, '16.
- What Makes the Wild Cat Wild? Charles J. Francis, '17.
- "Strut to the Lion, Johnny," S. A. L. Morgan, '18.
- The University of Texas, '08 James C. Hixon, '14.
- Yell leader, Bob V. Nixon, '08.
- Song leader, Raymond M. Myers, '17.
- Vanderbilt from Wichita theater.
- Dancing, music furnished by the Wichita Orchestra.

TANDY OIL CO. WELL REPORTED FLOWING 100 BARRELS DAILY

A flow of approximately 100 barrels daily is reported from the Tandy Oil Company's No. 1 J. J. Perkins, a mile and a half west of the Daniels, where the 1200 foot producers of the Texas and other operating companies are located. The Tandy sand was entered at 1227 feet, and the oil tests at 41 gravity. There are numerous shallow producers in this section, but none of this depth, this well opening up a large territory in this South Burkburnett district.

CLEANING OUT TEST OF MANHATTAN OIL CO. IN THE K. M. A. DISTRICT

Work is continuing on the cleaning out of the Manhattan Oil Production (the Crude Oil Marketing Company), No. 1 Munger in block 25, with fair progress, according to reports from the field. It is believed that by pulling the casing and re-setting, cement that the water can be shut off without further trouble. The delay that was experienced in bringing in the Kemp-Munger-Allen well is being repeated in this test, and in the Works and Hicks, on the Hoge, in block 28.

This latter test has been bailing considerable oil for several days, the quantity of oil growing larger with each successive trip of the bailer on Thursday, according to reports. It has however been impossible to reach the bottom of the hole with the bailer as yet. Bailing is continuing today.

The Texas Bankers, in the quarter section south of the Works and Hicks, is being drilled by the same operators, and is now around 1620 feet, having finished several days drilling in rock. The operators expect to profit considerably by their experiences in block 28, in the last hundred feet of drilling on the Texas Bankers.

The various other tests in this K. M. A. district already reported on the sand are standardizing, having cemented their casing. Their experience when drilling in will be of much interest, in view of the difficulties which the tests which have not cemented, nor standardized, have encountered.

J. A. Kemp and W. Newton Meier, who, with their families spent February in Miami, Fla., and Havana, are expected to return early in the coming week.

GENERAL MANAGER OF NEW RAILROAD HERE TO OPEN UP OFFICES

D. H. Dalley, recently appointed general manager for the new Oil Belt line from Wichita Falls to Ranger and Dublin, arrived Thursday afternoon and began preparations to open the general offices of the road in the old offices of the Wichita Mill and Elevator company, Tenth and Ohio. The old mill property was recently set aside for the local terminals of the road, and a permanent office building and freight warehouse is to be erected here in the near future.

Mr. Dalley will take over the operation of the Wichita Falls and Southern, comprising the line from here to Newcastle, March 1, when the roads go back to their owners. He will take over the operation of the remainder of the road, from Newcastle to Dublin, incorporated as the Wichita Falls, Ranger and Fort Worth, when it is turned over by the contractors, which is expected to be early in the coming summer.

Frank Nell is expected to return Saturday from a business trip to St. Louis and Oklahoma City.

PREPARE FOR FINAL OLYMPIC TRIALS IN THE UNITED STATES

NEW YORK, Feb. 27.—Counting of the final trials for the Olympic team and the national championship meet at Harvard stadium July 2, is the latest plan of the American Olympic committee. Selection of the Cambridge stadium over Franklin field, Philadelphia is favored for a purely financial reason. Members of the committee hope to realize at least \$10,000 out of the all-star event, which will be a nice lump in the purse needed to finance the 1926 invasion of England. The American team will be trimmed to the very core officials said here today.

No man that the coaches believe hasn't a good chance to place in an event will be taken along, as the expenses are figured to run about \$1,000 per capita.

According to the present plan, the Americans will sail about July 24 on the Lapland or Kroonland, or perhaps on the old Finland, which carried the victorious Yankees to Stockholm in 1912.

The early plans to have sectional trials have not been changed, Chicago in the middle west and San Francisco on the Pacific coast are almost sure to

be selected as places for the first coming out of candidates. The place for the southern trials is a matter of conjecture.

TELLS INCOME TAX MAN IT WASN'T HIS FAULT HE DOESN'T LIVE WITH HER

Every day cases come up at the local office of the income tax collector that provoke risibilities of even the routine hardened clerks. Take for instance that of a nervous looking little man who thought he was entitled to a \$2,000 exemption on account of being a married man, although he admitted he wasn't living with his spouse on the first of December. "But it wasn't my fault if I didn't happen to be living with her," he maintained, "because I would live with her all of the time if she would let me."

MEMBERS OF GUARD ORDERED TO REPORT
Capt. Verne M. Clifton, commanding group E, Fourth Texas Cavalry, has ordered all enlisted men of the local national guard unit to report for drill at 5:00 o'clock tonight for the purpose of teaching the men to

care for their horses. Orders of the local cavalry organization will be received shortly. It was announced Friday by Regimental Sergeant Major J. W. White.
Stamps in \$1.00 packages at Times Office. 710-1/2

K. M. A. OIL LEASES

12 1/2 acres, just south Texas Bankers. 80 acres offset to R. H. A. Oil Co. This acreage offered cheap for quick action. 80 acres between 10,000 Acres Oil Co. and Harrah and Western, right in line for the big play, \$75.00. Some choice acreage in Hall County at \$10.00. Now getting big play. This won't last. We own and can deliver.

THE HAREPUSHER

EIGHTH AT SCOTT

TODAY IS ROTARY'S BIRTHDAY

*One Club with 4 Members in 1905
600 Clubs with 50,000 Members in 1920*

Community of Interests Begun in Chicago
Fifteen Years Ago now World Famous as

ROTARY

An Organization which in 600 cities of the United States and Canada and elsewhere has come to be known in each locality as a power for good, an example of high standards of ethics and personal character, and a cross-section of the substantial business element of each community.

The remarkable growth of Rotary has been spontaneous, entirely without the aid of paid organization work, and stands today *A Monument to A Big Idea* which has "sold" itself to the alert, wide-awake,

progressive business element of America and of the World. Wherever you find a Rotary community, that community is led by the *Creed of Living Right*.

To the Rotarian, Community Prosperity is greater than personal profit. His city is the "best in the country" and his country the "best in the world." The Rotarian is an all-wool, yard-wide he-man, who works hard, plays square, and gives with a smile. He has an eye for a neighbor's need, a hand trained to help, and a heart for true men, good women and little children.

Origin

Rotary was born February 23, 1905. Four Chicago men, one a lawyer, one a mining operator, the third a coal dealer, and the fourth a tailor, decided on that day to organize a club. These men, drawn together through mutual acquaintance, proposed a series of meetings at their respective places of business.

The circle soon was enlarged by representatives from other lines of business so that within a year a membership of fifty was reached.

As the time came for each to act the host, he gave a discourse on his own business so that his guests might learn something worth while regarding it, and thus broaden their own knowledge concerning various businesses outside their own.

Growth

In 1908, San Francisco, having learned of the Chicago Rotary Club, patterned one after it. This was in turn rapidly followed by others. Eventually, the National Board of Commissioners, a delegate body representing fourteen clubs, arranged the first National Convention. This was held in August, 1910, at Chicago. At that time the term "National Association of Rotary Clubs" was adopted, but a few years later was changed to "International" in recognition of a Canadian club represented and an application for membership from a club which had been organized in London.

Rotary is now established in the British Isles, in South America, Cuba, Hawaii, the Philippines, China and India.

All clubs seeking membership are carefully surveyed to insure proper caliber of personnel and adequate representation of sufficient lines of business to justify membership in the International Association.

The name "Rotary" was selected early in the life of the Chicago Club and was suggested by the early meetings which were held in "rotation" at the various members' places of business.

The Rotary Platform

RECOGNIZING the commercial basis of modern life as a necessary incident in human evolution, the Rotary Club is organized to express that proper relation between private interests and the fusion of private interests which constitutes society.

To accomplish this purpose more effectively the principle of limited membership has been adopted, the Rotary Club consisting of one representative from each distinct line of business or profession. Each member is benefited by contact with representative men engaged in different occupations and is enabled thereby to meet more intelligently the responsibilities of civic and business life.

The basis of club membership insures the representation of all interests and the determination of none in the consideration of public questions relating to business. On account of its limited membership the Rotary Club does not constitute itself the voice of the entire community on questions of general importance, but its action on such questions is of great influence in advancing the civic and business welfare of the community.

The Rotary Club demands fair dealings, honest methods, and high standards in business. No obligation, actual or implied, to influence business exists in Rotary. Election to membership therein is an expression of confidence of the club in the member elected, and of its good will towards him. As his business is an expression of himself, he is expected actively to represent it.

Membership in the Rotary Club is a privilege and an opportunity and its responsibility demands honest and efficient service and thoughtfulness for one's fellows. Service is the basis of all business.

He profits most who serves best

Objects

The "objects" of the Rotary Club are to encourage and foster—

- High ethical standards in business and professions;
- The ideal of Service as the basis of all worthy enterprises;
- The active interest of every Rotarian in the civic, commercial, social and moral welfare of his community;
- The development of a broad acquaintanceship as an opportunity for Service, as well as an aid to success;
- The interchange of ideas and business methods as a means of increasing the usefulness of Rotarians;
- The recognition of the worthiness of all legitimate occupations and the dignifying of the occupation of each Rotarian as affording him an opportunity to serve society.

Membership

The Rotary Club is restricted to one member from each distinct line of business or profession. Such a plan makes for thorough representation by all branches of business, yet prevents an unwieldy number or the domination of any club by any one business or profession. Such a membership becomes an ideal forum for the consideration of public or civic questions. It prevents lagging interest, for if a lagger develops he is dropped for a new and alert member.

Contact and exchange of ideas with diversified business interests is broadening in every sense and tends to introduce fresh thought and new viewpoints into every business and profession represented.

Summed up, Rotary is Man's Humanity to Man at its Broadest, Biggest and Best. Wherever you see a Rotarian, there you see a Good Citizen, an Asset to his Community and a Leader in his Craft

SYSTEM IS BEING INAUGURATED IN THE SHIPPING BUSINESS

WASHINGTON, D. C., Feb. 27.—System is now being inaugurated in the foreign shipping business of the United States. This is one of the big lessons of the war, learned by government, by bitter experience, during the struggle with Germany.

The U. S. Shipping Board and the Department of Commerce are working out a plan to eliminate all waste motion in our foreign trade. Transportation of our surplus products overseas in the most rapid and economical manner possible, will go far to make the United States the greatest exporting nation in the world.

The department and the board have divided the world into principal and subsidiary trade regions for export and ship movements. They are still working on the problem, which is a big one, before the war there was no system in our foreign shipping, that is a system which cut out competing lines under the American flag, and which gave to exporters the assistance of government as other nations extend to their shippers. All this is now in process of change.

Ship routes overlapped and export business was conducted in a somewhat haphazard manner. Nature's economic waste required, and this hampered all our foreign commerce.

The big central idea of the new plan is to have the largest ocean routes served by non-competing steamship lines under the flag, but with precautions and regulations regarding freight rates so that the evils of a monopoly of transportation to any port is avoided.

The idea is to operate the ship line along the same system of the best managed railroads of the country. By this means the best possible use will be made of all American ships, and such a plan, experts of the department and the board believe, will almost double the carrying capacity of American vessels.

Four principal co-ordinated routes, reaching every port in the world, have been chartered. One of these would include coastwise service to ports on the Atlantic and Pacific, via the Panama Canal.

Uncle Sam is waiting up to the necessity of going after the trade of the world.

WINE STILL FLOWING IN ISOLATED TOWN IN THE STATE OF ILLINOIS

NAUVOO, ILL., Feb. 27.—Private investigators say that there is some wine still to be had here. Perhaps it is due to a certain splendid isolation—or there are no railroads here—and perhaps it is the temper of the French and German descended inhabitants—but they say that the wine continues to circulate. One investigator backed his assertions by producing a quart of admirable beverage greatly resembling sherry.

Wine making became one of the chief occupations when a band of Frenchmen, seeking to establish a community founded on equality and fraternity, settled here, after the Mormons had been driven out, in the forties. The vineyards remained when the community passed away in the dissolution and strife.

Many vaulted cellars are built into the hill, overlooking the Mississippi, in which Nauvoos stands. A number of local grape growers have private stocks stored in them which a wealthier man might envy. In many cases these are sealed by the government.

The Independent, Nauvoos's semi-weekly newspaper, warns away all "cannels" from surrounding territory with the statement that liquor cannot be obtained there.

Individuals, investigating on their own initiative to increase the world's store of general information give other reports.

"I got a 'peach' of a 'jag' on" at the Old Time dance" one of these reports states in part. "They say there never were more drunks at a dance in Nauvoos than there were at this one."

"I've got a quart of the old 'Red Eye'" confides an outgoing traveler as he trudges across the ice-covered Mississippi to a railroad station. "I am going to take it down to the boys and have a party."

But the stocks are dwindling and residents prophesy that soon the wine will be classed with the Mormons and the French communists—a part of Nauvoos's picturesque past.

ITALIAN NEWSPAPERS TAKING A MORE HOPEFUL VIEW OF THE COMPLICATED ADRIATIC ISSUE

ROME, Feb. 26.—Time will settle the Adriatic dispute, since America's interest in European affairs is decreasing constantly, the Giornale D'Italian said today. All the newspapers took a more hopeful view of the Adriatic situation, feeling that Italy's position is not hopeless as it first appeared, following President Wilson's Adriatic note.

The time is coming when Wilson will no longer influence the allies," the Giornale D'Italian continued. Italy will continue to occupy the armistice line, the newspaper said, pointing out that Italian support is becoming more and more indispensable to France and Great Britain because of the developments in the Russian and Turkish situation and the "German peril." Franco-British-Italian accord already is assuming concrete form, the newspaper asserted.

The Idea Nazionale's Paris correspondent reports he has learned that the recent trip of M. Trumbitch, the Jugo-Slav representative to London, was due to the Jugo-Slav's decision to resume direct negotiation with Italy for settlement of the Adriatic dispute. The Jugo-Slavs, the correspondent said, are more anxious than Italy for an early settlement.

"The accord between the allies is unshaken," the Corriere D'Italia declared. "Premier Nitti will not recede from his stand for enforcement of either the compromise agreement or the pact of London in settling the Adriatic question."

PRESIDING ELDER IS TO PREACH SUNDAY
Rev. S. M. Black, presiding elder of the Wichita Falls district, is to preach for the Floral Heights Methodist congregation at the High School building next Sunday morning. The previous sermons of Rev. Mr. Black in this city have been well received and a good hearing is expected. The pastor, Rev. W. L. Tittle, will preach at the evening hour. This new congregation is perfecting its charter roll of membership. Members are said to be joining at every service and the congregation bids fair to become one of the strong congregations in this section.

EDHOBBY,--A New Railroad Town in the World's Greatest Oil Field

Will be opened to the public in a great sale of Lots **MONDAY, MARCH 1st**

EDWIN HOBBY
Treasurer and a Director of the Wichita Falls, Ranger & Fort Worth Railroad, for whom the new town of Edhobby was named. He is a brother of Gov. William P. Hobby of Texas and is one of the most widely known and popular bankers in Texas, being Vice-president and Cashier of the Security National Bank of Dallas.

THIS new oil fields town is on the line of the Wichita Falls, Ranger & Fort Worth Railroad, now building through the entire extent of the Texas oil fields. Track laying began at Ranger February 10 and trains are expected to be running into Edhobby by the date of the opening.

Edhobby is in the busiest part of the northern extension of the Hogg Creek oil field. It is even now entirely surrounded by producing wells and there is greater drilling activity in its vicinity than in other parts of Eastland and Erath counties. It is the newest and most imminent opportunity for investment or for business or industry in the center of the wealth-producing oil fields of Texas. It is the hub of the territory that is now busiest in the oil business for a radius of many miles and is the one railroad point from which this territory is best served.

Real estate has ever been the most stable and profitable investment in the world. Some of the most colossal fortunes of all times have been made in real estate. The chance presented in the opening of Edhobby is such as comes but once in a lifetime.

Its invitation is to the person who would take advantage of opportunity that knocks once and passes on. Edhobby is a business center that appeals to the enterprise of the forward-looking man or woman. It offers a place in the beginning of an oil field metropolis that can be had for a pittance now and which the experience of a score of less favorably situated towns in the Texas oil fields shows will be multiplied hundreds of times. What Ranger and a number of other oil field towns have been to their early investors, Edhobby is and will be. Edhobby was located and laid out by Jake L. Hamon, who, with Frank Kell, is building the Wichita Falls, Ranger & Fort Worth Railroad, with an eye single to the oil fields business, and it offers a superb opportunity for investment such as only great oil fields have ever offered.

Sale of lots will open on the townsite March 1 and will continue from day to day, the prices of the lots being fixed on the plats of the town, which will be available at the office of Hamon & Kell on the townsite. Thirty per cent of the purchase price of lots is payable at the time of sale, the remainder in seven equal monthly installments.

A Financier's Opinion

Edwin Hobby, Vice-president and Cashier of the Security National Bank of Dallas, one of the largest banks in Texas, says:

"I believe the new town of Edhobby will be a greater town than Ranger. It is situated in every way to make a great oil fields center. The territory on all sides of the town promises to become a great oil pool. Proven territory adjacent to the townsite is ample to make it a metropolis of the fields. It enjoys the facilities of the new railroad that is being built to serve the oil fields and is the first town on the new railroad to receive the benefits of that transportation. I have seen many new towns, not a few of them that have become great centers, but I can not gaze upon the development work now under way in the Edhobby territory and see the results of it in oil produced without being convinced that here is the best new town that has ever had its start under the most favorable conditions of a great wealth producing environment. It will be the supply and industrial center for one of the greatest oil fields in the world."

HAMON & KELL RANGER, TEXAS

'BEANS AND NUTS' TO BE SUBJECT OF DR. KNICKERBOCKER

Are you a bean or a nut? Is a pertinent question which Dr. Knickerbocker is going to ask at his service Sunday night when he lectures on the subject, "The Parable of Nuts and Beans," or "Are You Shaking Up or Rattling Down?" Concerning this subject and the recent activities of his church, Dr. Knickerbocker says:

The sermon lecture that I am going to give Sunday night is a \$500 lecture for \$5 or less. The object is to start a jar of beans and nuts in this world, and any one who wants to be bigger and better will find star-like inspiration in the subject. Business men could well afford to bring their entire corps of employees in a body to hear this lecture, and parents with children who need educational inspiration ought to come and bring the whole family.

Our Sunday night services often have dramatic and unusual happenings. A couple of weeks ago a professional gambler was converted. Last Sunday night an international episode occurred. A young German, who had been interned in Mexico during the war and who escaped across the border near the close of the war, had recently been converted and joined our church. Sunday night a handsome young Belgian was converted and joined the church and one of the first to welcome him was the young German. As they stood before the altar with clasped hands and shining faces the "power to Christ to reconcile all differences" was remarkably illustrated.

A piece of good news to many who have sought to get in at the night services and have failed is that last Sunday night there were three vacant seats, so there will be room for three more, perhaps, next Sunday night.

"The final count in our wonderful 'barrel-head' collection is \$53,000 up to date and there are still a number of subscriptions coming in. This will pay off the debt and give the church a working capital for equipment and improvements."

"Sunday morning my subject will be, 'How Every Church Can Display the Sign, Standing Room Only.' The method suggested will be unexpected, but one which if adopted will certainly produce the results. Two very special attractions will feature this 11:00 o'clock program, the Dickson Colored Jubilee Singers will render several darky folk songs. Also it is scheduled as 'family day' and a prize will be given to the largest family present. All families of the church are expected to attend in a body and sit together in family pews."

MILK WILL BE SOLD FOR 11 CENTS A QUART

CHICAGO, Feb. 27.—Milk will be sold at four stores in Chicago next week at 11 cents a quart, the anti-inflation league announced today. The selling price of milk now is 15 cents a quart. The four stores all in congested districts.

LEGAL QUESTION IN CONNECTION WITH PROPOSED CHARTER

Legal questions have arisen in connection with the adoption of the proposed new city charter and the election of officials who will serve under it.

Under the present charter it is made mandatory upon the city officials to call an election for the election of officers within a certain period before the date of the election, which falls on the first Tuesday in April. The election for the adoption of the proposed new charter has been set for March 30. If adopted it is not clear just how soon the new charter becomes effective. The city officials are doubtful whether they can ignore the provision of the present charter which requires them to give notice of the election. If they give this notice and candidates file their petitions somebody will be elected and if they are elected they will want to serve.

The whole question is being studied by City Attorney Mathis and legal advisers of the charter commission today and it is expected some decision will be reached today or tomorrow.

The charm of a bathroom is its spotlessness. By the use of Red Cross Ball Blue, all cloths and towels retain their whiteness until worn out. (adv.)

Mrs. J. H. Fletcher of Fort Worth is the guest of Mr. and Mrs. H. D. Jones, 1514 Kemp Boulevard.

Recommend Resinol to that friend with skin trouble

If you have a friend suffering with eczema or other itching, burning eruption, what greater kindness could you do him than to say:

"Why don't you try Resinol? I know you have experimented with a dozen treatments, but I believe Resinol is different. It does not claim to be a 'cure-all'—simply a soothing, healing ointment, free from all harsh drugs, that physicians prescribe widely in just such cases as yours. Do get a jar today!"

Resinol Ointment is sold by all druggists.

ROAD CONDITIONS.

General remarks: All unsurfaced highways are improving rapidly.

Fort Worth to (by dirt, or un-surfaced roads):

Brownwood: Passable; rough, but dry roads.

Burkburnett: Tourist are coming through, but rough roads.

Ranger: All roads bad and given to mudholes, but passable; detour around Strawn.

Southward points to Waco: Passable, rough, rutted and some mudholes.

Northward points: Tourists report through travel to Oklahoma line.

Wichita Falls: Passable generally; roads grading and oiling about Wichita; Jackboro passable.

Fred Hamner, local observer.

MR. AND MRS. FRIEZE TO RETURN TO CITY

Friends of Mr. and Mrs. W. E. Frieze, who have been in California for some time, will be glad to learn that they will return to make Wichita Falls their home in a short time. Mrs. Frieze is at present at Dundee with her daughter, Mrs. Chester Morgan, pending the time they can secure possession of their home, which was leased on their going to California. Mr. Frieze is still on the Pacific coast. Miss Louise, their younger daughter, is spending the winter in Kansas City with her sister, Mrs. James Gough.

POLITICAL FIRES ARE BLAZING MERRILY IN THE STATE OF TEXAS

DALLAS, TEX., Feb. 27.—Political fires are blazing merrily in Texas, where the state and national campaigns of 1920 already are under way. Within the state Democratic party, factions are maneuvering for strategic positions, preliminary to the bitter battles expected to precede the primaries in July.

Three factions have developed in the democratic party, although one really is an entirely new party on its own responsibility, and that is the American party, formed by adherents of former Gov. James E. Ferguson.

Just how active the American party will be this year has not been determined by the public, but the other democratic faction promises enough "fireworks" to assure the hardest fought campaign in the recent history of the state, political observers say.

These factions, known as the "Bailey faction" and the "regular" party,

are busily "digging in," while skirmishing parties already have taken the field.

Former United States Senator Joseph Weldon Bailey heads the faction bearing his name.

Interest now centers in the candidate the "regular" democrats will select to oppose Bailey, but neither M. H. Wolfe, Dallas, chairman of the democratic state central committee, nor Thomas B. Love, Dallas, national committeeman, has indicated who he will be.

Mr. Bailey will make his campaign on issues opposed to the present national and state administrations, opposition to the league of nations as originally constituted, and for "a fuller regard for state rights," which, he believes, are invaded when issues such as prohibition and woman suffrage are settled on a nation-wide basis.

Our Business

is more than a mere institution of merchandising. Our work has to do with the saving of human lives. Pharmacy is a profession, closely related to that of your physician. The druggist and the physician are the most important agencies for the protection of health in any community. Realizing our responsibility we ask the privilege of serving you.

"We are building a business on Quality, Efficiency and Service."

The Agency of Specialists

Most men are honest—but it is only those you trust who have an opportunity to embezzle. Our company pays over a million dollars annually in losses under bonds. It is an honor for a man to be able to furnish a bond. Keep up the morale of your officers and employees and protect yourself with Fidelity Bonds issued by our office.
The best time to think of a loss is before it happens

WICHITA FALLS, TEXAS

"A PROPHET IS NOT WITHOUT HONOR SAVE IN HIS OWN COUNTRY"

This is often so but we don't feel that it applies in our case, as our coffees are widely used and highly praised in Wichita Falls—However there are some people who seem to think that their home town cannot produce a first-class article. Some merchants are included in this class. We know of nothing in the climate or environment of Wichita Falls that would be any handicap to industry and intelligence applied to the production of a good article. We do know that we have devoted as many years in a careful, painstaking effort to develop superior cup quality in our coffees as most any one in America. Our coffees are roasted fresh daily. If your grocer don't handle them ask him why. If he tries to sell you something else ask him why again. I thank you.
