FRENCH OCCUPY GERMAN TOWNS

JOHNSON FOR REPUBLICANS AND HOOVER ON DEMOCRATIC TICKET LEAD IN THE MICHIGAN PRIMARY

DETROIT, MICH., April 6.—With approximately one half of the precincts voting in yesterday's presidential preference primary tabulated this morning, United States Senator Ithra Johnson had a lead of 44,657 votes over Major General Leonard Wood for the republican endorsement. The figures from 230 precincts gave Johnson 106,558; Wood 61,893.

Included in the figures was complete figures from Grand Rapids and more than half the precincts in other industrial centers of the state. Johnson was running behind in the state outside of Detroit. The complete Detroit vote, however, gave him 69,004 against 16,143 for Wood.

Returns from the northern peninsula, which the Wood campaign managers claimed as one of their strongholds were slow in arriving. Figures from 125 of the 257 precincts in that peninsula however, showed Wood 10,742; Johnson 8,011.

Herbert Hoover, whose name appeared on both ballots, was leading the democratic ticket with 11,469 against 10,250 for Governor Edward I. Edwards of New Jersey. William C. McAdoo had 9,258 and W. Bryan 7,267. The democratic vote seemingly was much lighter than had been anticipated.

LARGE NUMBER OF DELEGATES CHOSEN TODAY

One Hundred and Fourteen Republicans and 146 Democrats to be Selected

By HAROLD D. JACOBS (United Press Staff Correspondent)

NEW YORK, April 6.—One hundred and fourteen republican and 146 democrat delegates to the national conventions were on the block today. They were to be selected as follows:

Republicans—New York primary 88; Wisconsin primary 26; Democrats—New York primary 90; Wisconsin 26; Minnesota 20; Philippine Islands convention 24; Philippines Islands convention 24.

KANSAS CITY VOTING FOR CITY OFFICIALS

KANSAS CITY, April 6.—Kansas City today is holding its city election.

With the city in the grip of a cold wave, the "anti-boss" organization has campaigned for clean-up of vice conditions, claiming the present administration has "protected" all classes of law violators.

The campaign has been particularly bitter. The "anti-boss" party was organized as a result of revolt against local political conditions in which reformers claimed the old democratic and republican organizations had worked together to pick candidates suitable to both. The reformers seized control of the republican organization here and nominated M. A. Colonel Wm. B. Thompson, chairman of the ways and means committee of the republican party, as their candidate for mayor. The old democratic organization nominated Mayor James Cowgill for reelection.

And while the campaign has waxed warm the criminal wave has continued with daring holdups, burglaries, gang murders and gambling and saloons. Reform Candidate Foster has promised personally to lead raids on gambling institutions and houses of questionable character if elected and to give personal attention to renovation of the police department.

DALLAS VOTES ON FIVE PROPOSED BOND ISSUES

DALLAS, April 6.—Dallas voters were balloting today on five proposed bond issues, a school tax, an interurban routing permit for firemen and policemen, and to elect a board of education.

The bond issues being balloted upon are:

- School buildings, \$1,500,000.
- Water system improvements, \$400,000.
- Sanitary sewers, \$400,000.
- Electric lines, \$1,000,000.
- Municipal abattoir, \$175,000.

The proposed school tax is for a levy of 50 cents to pay increased salaries to teachers next year.

Balloting on the interurban question is to determine whether the Dallas direct company may substitute a direct electric line to Wichita Falls, a distance of 130 miles, for two lines, each 30 miles in length, to which the company is committed in franchise.

The firemen and policemen pension question is to decide if the city commission may use one per cent of the total payroll for pensions.

Two tickets are in the field for the board of education. One is composed of incumbents and the other was put out by the socialist party which (Continued on Page 5 Column 2.)

HOWAT DOES NOT RECOGNIZE KANSAS COURT

Will Not Participate in Proposed Investigation by Industrial Tribune

PITTSBURGH, KANS., April 6.—Alexander Howat, head of the Kansas coal miners, definitely refused shortly before noon today to go into the industrial relations court and participate in the investigation of the coal mining industry now being made here. "We will not recognize the industrial court," he said.

Howat said that the resolution adopted by the recent district convention of the miners had made the position of the miners clear.

SIX OF THE NINE MINES ARE WORKING

PITTSBURGH, KANS., April 6.—Six of the nine mines made idle yesterday by the strike of miners in protest against the awards of the national coal commission, were at work this morning. It was announced at headquarters of the operators' association. Two mines not idle yesterday and three that were idle yesterday were idle today. About 1,000 men are idle today.

At the suggestion of W. L. Huggins, presiding judge, an attorney for the court called up P. H. Callery, lawyer for the miners' organization, and asked if the officials intended to appear. Callery said he had not been authorized to appear. Earlier in the morning it was stated that district officials were in conference in the city hall in which the court is holding its sessions.

The court began hearing witnesses this morning concerning old cases filed with the court two months ago, involving trouble at several mines.

MIDSHIPMEN TO VISIT HAWAIIAN ISLANDS

ANNAPOLIS, MD., April 6.—Annapolis midshipmen will visit the Hawaiian Islands on their annual practice cruise this year, according to arrangements announced today. The cruise will start early in June. The squadron, consisting of the battleship Connecticut, a flag ship, Mahan, Minnesota, Kansas and South Carolina and New Hampshire will pass through the canal zone and touch at San Francisco, San Diego and Puget Sound, Washington.

DICKINSON DECLINES TO SERVE AS RECEIVER FOR RIVER LANDS; NEWS COMES AS BIG SURPRISE

Jacob M. Dickinson, former secretary of war, will not accept the receivership of the Red River lands tendered him by the Supreme Court of the United States. This was made known in a private telegram received here Tuesday morning from Mr. Dickinson. In his telegram Mr. Dickinson said that on account of illness he would be prevented from accepting the receivership.

His declination came as a surprise here.

COMPLETES MISSION AND LEAVES CAPITOL

AUSTIN, TEX., April 6.—Having completed his mission at Washington, C. M. Curton, attorney general, is expected to reach Austin tonight or tomorrow morning, according to a telegram received late Monday by Assistant Attorney W. A. Keeling. General Curton remained in Washington for several days assisting Texas claimants to patented lands in the territory involved in the Texas-Oklahoma boundary dispute, to file their claims.

TRANSPORT BRINGS AMERICAN DEAD

BREST, April 6.—The United States transport Mercury will arrive here Friday for the United States with the bodies of 315 American soldiers who died in France.

THE NEW SUMMER WHITE HOUSE

The magnificent mansion of the Wood's Hole, Mass., estate of Charles R. Crane (at left), which President Wilson will occupy this summer. The new summer White House is in secluded spot overlooking Buzzards Bay.

PITTSBURGH, KANS., April 6.—Six of the nine mines made idle yesterday by the strike of miners in protest against the awards of the national coal commission, were at work this morning. It was announced at headquarters of the operators' association. Two mines not idle yesterday and three that were idle yesterday were idle today. About 1,000 men are idle today.

At the suggestion of W. L. Huggins, presiding judge, an attorney for the court called up P. H. Callery, lawyer for the miners' organization, and asked if the officials intended to appear. Callery said he had not been authorized to appear. Earlier in the morning it was stated that district officials were in conference in the city hall in which the court is holding its sessions.

The court began hearing witnesses this morning concerning old cases filed with the court two months ago, involving trouble at several mines.

SLOT MACHINE IS HELD TO BE ILLEGAL

AUSTIN, April 6.—A machine or device which pays a package of gum for each nickel deposited and in addition tapers the number of trade checks indicated on its face before the nickel is deposited, is held to be a scheme for the distribution of prizes by the attorney general's department, therefore unlawful.

"The machine here under consideration is the result of a rather clever attempt to evade the law," said Assistant Attorney General W. A. Keeling.

"The machine here under consideration is the result of a rather clever attempt to evade the law," said Assistant Attorney General W. A. Keeling.

TENSION INCREASES IN DUBLIN AFTER NIGHT OF CLASHES

DUBLIN, April 6.—Tension in Dublin had increased today following clashes between soldiers and crowds in the streets last night.

Troops raid of a house in which the Sinn Fein flag was flying. They arrested four men. In attempting to remove their prisoners in a military truck the troops encountered huge crowds which blocked the streets in all directions.

Soldiers fired their bayonets and the truck proceeded slowly. As the crowd pressed forward an armored automobile, following the motor truck, opened up with a machine gun, firing it in the air. The mob scattered in all directions.

Minor outbreaks continued in many parts of the country. Latest figures placed the total police barracks and tax offices destroyed in the Easter outbreak at 150 in 27 counties.

At Ballyheigue, in County Kerry, a group of armed men fired on Patrick O'Connell, whom they suspected of being a traitor to the Sinn Fein.

O'Connell was wounded. He was captured and taken to a field where the mob ordered him to prepare for death. They read a charge accusing him as a traitor.

O'Connell finally established his innocence and was released. He is blinded in one eye.

PREDICT TRAFFIC AT CHICAGO TERMINALS NORMAL BY SATURDAY

CHICAGO, April 6.—Railroad managers estimated today that traffic at Chicago terminals, crippled by an unauthorized strike of switchmen on 18 roads here and Sunday's blizzard, would be nearly normal by Saturday, following the arrival of yardmen sent by the Brotherhood of Railroad Trainmen to take the places of the strikers.

A shut-down at the stockyards because of light cattle receipts, threatened to throw 50,000 men temporarily out of work. Morris & Company stated that 75 per cent of all their employees would be laid off "if present conditions continue for a few more days."

TROOPS ENTER FRANKFORT AND OTHER POINTS AT EARLY HOUR; NO RESISTANCE BEING OFFERED

PARIS, April 6.—Marshal Foch had a conference this morning with Premier Millerand. Later the premier received Hugh C. Wallace, the American ambassador.

MAYENCE, April 6.—At 5:20 o'clock this morning, French tanks entered Frankfort. They were followed by a battalion of sharpshooters and a company of engineers and these troops occupied strategic points and the railroad station. Half a dozen tanks were posted near the station and the barracks and another force was stationed near the post headquarters and the post office. These troops held the important entrances to the city until 9 o'clock when a battalion of chasseurs detained at the station.

MAYENCE, April 6.—French troops entered Frankfort at 5:00 o'clock this morning, finding only a small German force, left there to afford police protection for the people. The occupation of the city was a mere military march and was not attended by any fighting.

Harmon was entered at the same hour by French forces. The German government garrison of that city had left at midnight to avoid contact with the French and this morning was six miles east of the city.

General De Goutte has issued a proclamation to cities and towns within the area to be occupied, declaring that the neutral zone of the Rhine to compel the Berlin government to respect its agreement with the allies and asserting there is no hostile intent toward the people of that region.

GERMANS MUST EVACUATE. The proclamation says the French government forces have evacuated the neutral zone and declares no one will be affected by the presence of the French as long as order is maintained. The proclamation makes the following provisions for public order:

"Frankfort, Darmstadt, Offenbach, Höchstädt, Koenigsstein and Hiesberg as well as all towns and districts within the circle of Gross-Berstadt, Langensalbach and Wiesbaden, with the exception of Biebrich, are declared under a state of siege."

German authority and public service will continue to function under French military officials and strikes will not be tolerated.

People are temporarily forbidden to circulate in the various communities from 9:00 o'clock at night until 5:00 in the morning.

More than five persons must not collect in streets or in private or public meetings without authorization.

Newspapers are temporarily suspended and permission must be obtained to use the telephone and telegraph. Postal censorship is temporarily established, wireless installations must be dismantled and the use of carrier pigeons is forbidden.

All arms and munitions must be deposited in city halls within six hours after the posting of the proclamation but regular police will be allowed to retain sabers and revolvers.

Safety guards must stand ready. Any infraction of these rules will result in court martial.

"The general commanding the army of occupation in the proclamation concludes, 'counts on the public powers and the population to understand the necessity for the above measures and hopes repression will not be necessary.'

MORE ARRESTS FOR PICKETING AT WASHINGTON

WASHINGTON, April 6.—Disregarding warnings of the federal government that they would be prosecuted under federal penal statutes two women arrested for picketing at the British embassy which led yesterday to two arrests.

A few minutes after the women appeared carrying banners they were warned by the police to leave and when they failed to obey were arrested. They gave their names as Mrs. Honor Walsh, 963 East Shelton Ave., Germantown, Pa., and Miss Elaine Barrie of Washington.

The second group of women arrested were Miss Helen O'Brien, 5226 Delmar Boulevard, St. Louis, and Miss Kathleen O'Brien, Philadelphia.

They also were taken to the house of detention.

After being booked at police headquarters on a charge of violating a federal statute making it a felony to assault a diplomatic representative of foreign governments, the women were taken to the house of detention, United States District Attorney Lasker, who gave orders for the arrest, placed the amount of bond at \$1,000. It was not furnished and the women were locked up.

As soon as the word of the arrests reached the headquarters of the women at a hotel two more pickets with banners were sent to the embassy and it was announced that the pickets would be sent out in relays as rapidly as those "on duty" were arrested.

When the two women appeared the police stationed at the embassy summoned the patrol with police women to arrest them.

Later it was announced that since the police were interfering with the picketing on the street, it was planned to send women up in an airplane to drop literature on the embassy. The pickets would be sent out in relays as rapidly as those "on duty" were arrested.

TWO WOMEN APPEAR AT BRITISH EMBASSY AFTER OTHERS ARE ARRESTED

WASHINGTON, April 6.—Disregarding warnings of the federal government that they would be prosecuted under federal penal statutes two women arrested for picketing at the British embassy which led yesterday to two arrests.

A few minutes after the women appeared carrying banners they were warned by the police to leave and when they failed to obey were arrested. They gave their names as Mrs. Honor Walsh, 963 East Shelton Ave., Germantown, Pa., and Miss Elaine Barrie of Washington.

The second group of women arrested were Miss Helen O'Brien, 5226 Delmar Boulevard, St. Louis, and Miss Kathleen O'Brien, Philadelphia.

They also were taken to the house of detention.

After being booked at police headquarters on a charge of violating a federal statute making it a felony to assault a diplomatic representative of foreign governments, the women were taken to the house of detention, United States District Attorney Lasker, who gave orders for the arrest, placed the amount of bond at \$1,000. Later it was announced that since the police were interfering with the picketing on the street, it was planned to send women up in an airplane to drop literature on the embassy. The pickets would be sent out in relays as rapidly as those "on duty" were arrested.

ORDERED FORWARD BY GENERAL FOCH

PARIS, April 6.—French soldiers today occupy the German cities of Frankfort-on-Main and Darmstadt, 16 miles from the Rhine. Forces commanded by General DeGoutte, which have been holding the Mayence bridgehead, were ordered forward by Marshal Foch following the occupation of the cities.

The French government yesterday ordered the Berlin government to withdraw its forces from the neutral zone along the eastern bank of the Rhine where they were ordered to disarm. Communist units that for the past fortnight have conducted a revolt in the Ruhr valley.

Stirring scenes at Mayence yesterday are described by Henry Bidon, military critic of the Journal des Debats. In a telegram to his paper, he says that during the afternoon the French activities began and soon automobile trucks and field kitchens began moving eastward, accompanied by Moroccan troops with machine guns.

Chief interest in the situation as expressed by newspapers here is whether the allies will support France and to what extent. This query was put to Premier Millerand by the Echo de Paris last night, the premier answered:

"England was victorious and so was France. I am confident everything will work out perfectly. The position of Paris last night, the premier answered:

"England was victorious and so was France. I am confident everything will work out perfectly. The position of Paris last night, the premier answered:

CONTEST THE WILL OF ANDREW ROBERTSON

HOLSTON, TEX., April 6.—Contest of the will of Andrew K. Robertson, who died Jan. 29, leaving an estate of \$150,000, for distribution among 12 of his 15 children, was started today in probate court before County Judge W. C. Bryan. Robertson, who was 85 years old, was twice married.

NARCOTIC DRUGS WORTH \$42,000 ARE SEIZED BY FEDERAL OFFICERS AND SEVERAL ARRESTS ARE MADE

The big offensive recently launched by federal authorities against violators of the Harrison anti-narcotic act known to be operating in the Northwest Texas oil fields has netted more than a dozen arrests and the seizure of narcotic drugs valued at approximately \$42,000. It was announced by internal revenue officers on Tuesday. Two physicians engaged in the practice of medicine in the Wichita county oil fields, are among those arrested. One of the physicians arrested at Wellington City while the other was arrested at Bridgetown, the new oil settlement in the northwest extension field. The physicians were bound over to the federal grand jury under bond fixed at \$1,500 for preliminary hearing before United States Commissioner Lant, Tuesday.

Morphine sulphate valued at \$1,000 was seized Tuesday morning at Henrietta and the man to whom the narcotic was shipped was brought to Wichita Falls and placed in the county jail. Information leading to the arrest of the Henrietta man was furnished by R. P. Witten and W. O. Bradshaw, internal revenue officers, who have been secretly working on the case for the past week. The man, who is said to be a victim of the drug habit, faked the title of a doctor of medicine and fraudulently secured the shipment from wholesale drug establishments. He does not live at Henrietta, but merely used that place as a base of operations working on the theory that he would be less liable to exposure while working from smaller towns. Internal revenue men declare that the man had been engaged for weeks in peddling narcotics in oil settlements of Wichita and Clay counties. A large sack case filled with morphine sulphate, the retail value of which is placed at \$4,000, was seized at the time of the man's arrest.

Two young sisters, both drug addicts, arrested at Newton, appeared as witnesses against the doctor, whom they declared, had frequently written them narcotic prescriptions.

Internal revenue officers announced that in addition to the Henrietta seizure, narcotic drugs valued at \$38,000 retail price, has been seized in other towns of Western Oklahoma and Northwestern Texas during the past week. All of this large amount of narcotics had fallen into the hands of illicit peddlers and would have been bootlegged to drug addicts had it not been seized by internal revenue officials, federal officials declare.

LIGHT VOTE BEING POLLED TUESDAY IN THE CITY ELECTION

Approximately 200 votes had been polled in the city election up to 2:00 o'clock Tuesday afternoon. It then appeared probably that the total vote would not exceed 500.

CAPTAIN FORBES RELEASED ON WAY TO CONSTANTINOPLE

TUESDAY, A JUDGE HOI OF TRIP ENJOYII Editor Delray: I have read your article on the cotton situation and I am glad to see that you have given the cotton producers a fair hearing. I am sure that the cotton producers are doing their best to overcome the difficulties they are facing. I am sure that the government will do all it can to help them. I am sure that the cotton industry will continue to be one of the most important industries in our country.

JUDGE HODGES TELLS OF TRIP TO FLORIDA; ENJOYING THE STAY

Delray Fla., March 29, 1920. Editor Wichita Times: We landed at Delray Feb. 8. We found the climate all we could have expected, more than had a fire a few evenings since we came.

The farming is so different from the way we farm and the crops we raise that I could not do the subject justice in a short letter. Suffice it to say as far as we have seen it is all trucking, cabbage, lettuce, tomatoes, peppers, egg plants and other vegetables, all grown in the winter months.

Delray has a bright future. It is situated on the Dixie Highway that runs from Miami to West Palm Beach, 60 miles north of Miami and 18 miles south of West Palm Beach.

I see from the papers that you are having quite a mixup in politics. The whiskey element have two remedies with which they expect to defeat prohibition.

CONVENTION RULES FOR THE SELECTION OF PARTY DELEGATES

AUSTIN, TEX., April 6.—Information relative to precinct, county and state conventions to select delegates to the national convention, is contained in an opinion given by the attorney general's department and prepared by Assistant Attorney General L. C. Sutton to John W. Hornsby, county attorney of Travis county. The information contained in the opinion follows:

The state convention.—The state democratic convention to elect delegates to the national democratic convention will be held at such place as may be designated by the state executive committee of the party on the fourth Tuesday of May, 1920, which is May 25, 1920.

Selection of Delegates.—Said state convention shall be composed of delegates duly elected by the voters of said political party in the several counties of the state in the following manner:

Precinct Convention.—On the first Saturday in May, 1920, that is, May 1, 1920, a primary convention shall be held in each voting precinct of the county, which precinct primary convention shall elect delegates to the county convention.

Hours of Holding Precinct Convention.—The precinct convention shall be held between the hours of 10 a. m. and 8 p. m. on May 1, 1920.

Qualifications of Members.—Only qualified voters of each voting precinct are entitled to assemble and participate in the precinct convention.

Presiding Officer; Appointment and Qualifications.—The precinct convention shall be presided over by a chairman, who shall have been previously appointed by the county executive committee of the party, and said chairman shall be a qualified voter in said election precinct.

Officers of Precinct Convention.—Said precinct convention may elect from among its members a secretary and such other officers as may be necessary to conduct the business of the convention.

Powers of Chairman.—The chairman of said precinct convention shall possess all the powers and authority that is given to election judges under the provisions of the election laws of this state. This means, among other things, that he may swear members and interrogate them relative to their qualifications and require them to establish their right to participate in the convention.

List of Voters.—Before transacting any business, the chairman of the precinct convention shall make or cause to be made a list of all qualified voters present; and the name of no person shall be entered upon said list, nor shall he be permitted to vote or to participate in the business of such convention, until it is made to appear that he is a qualified voter in said precinct from a certified list of qualified voters, the same as is required in conducting a general election.

Election of Delegates to County Convention.—After the precinct conventions are organized, as above provided, it shall elect its delegates to the county convention, and transact such other business as may properly come before it.

Record of Proceedings.—The officers of said precinct convention shall keep a written record of its proceedings, including a list of the delegates elected to the county convention, which record shall constitute the returns from said convention.

The same shall be signed officially, sealed up and safely transmitted by the officers thereof to the chairman of the county executive committee of the party and to be used by the executive committee in making up a roll of the delegates to the county convention.

The County Convention.—The county convention shall be held on the first Tuesday after the first Saturday in May, 1920, which is May 4, 1920, and shall elect delegates to the state convention aforesaid.

Qualifications of Voters.—These conventions are affairs of the democratic party, and hence only those who are democrats can participate in same. In the foregoing, wherever it is explained that only qualified voters can vote or participate in the conventions or be chairman thereof, it means those qualified to vote in primary elections; that is, for instance, persons who, in addition to being qualified voters generally under the constitution and laws of the state of Texas, are also full-fledged citizens of the United States; they must be either natural-born citizens or those fully naturalized; persons who have simply declared their intention to become citizens, are not qualified voters within the meaning of the law governing the holding of these conventions.

Women are qualified voters within the meaning of the law governing the holding of conventions of this kind and may vote and participate in such conventions if they are otherwise qualified voters.

Presidential Primary Law.—It will be remembered that the statute passed in 1913 attempting to provide for the holding of primary elections on May 1, to select delegates to the national convention, etc., was held unconstitutional by our state supreme court. Thus we must resort to the convention system as above outlined and which is provided for by previous statute to the one held invalid.

Paints, all kinds. Decorators Co., 115 Ninth-st. Phone 316. 254-110

When the sale is made our responsibility just begins. We are not through when you buy. If you are not satisfied put it up to us.

Get Good Clothes Wear Them Longer That's the Way to Save

There are only two ways to save money on clothes; one way is not to buy them at all; the other way is to buy good ones.

Saving money by not buying it all right if you're sure you're really saving. It's possible to lose more than you save. If the appearance of your clothes is not what it ought to be; if they lack impressiveness; if they make you conscious of yourself, you're really losing not saving; very likely losing dollars and cents.

For that matter, you can't keep from buying forever. You'll need new clothes sooner or later. You may wait and then pay more—and be just that much out.

The main thing is get dependability and assured wear when you buy. Make sure you can "cash in" on what you get, that's even more important than what you "pay out."

These \$65 Suits Are Really Inexpensive

The economy is in the suits. They'll wear, the fabrics and workmanship make for durability and service. New weaves, new colors, new, correct styles—all that is a matter of course. Double breasted; single breasted; business suits for men; snappy stuff for the young fellows; a great selection at \$65.00.

Every man can find what he wants here, we've a big stock of men's and young men's suits. Very serviceable and very stylish. For men and young men who want real quality and good looking clothes. The new styles are unusually attractive; they fit better, look better and wear better.

\$45.00, \$50.00, \$60.00 and upward to \$85.00

Better Looking Shirts

Pretty soon you'll find yourself going without a vest; then you'll need good looking shirts. We've a lot of them to show you. Choice patterns; snappy colorings; very fine fabrics. You ought to get a full season's supply. They're \$3.50 and upward to \$17.50.

Straw Hats Say "We're Here"

And they're here pretty "strong"—plain sailors, rough braids, panamas,—all sorts of imported straws and all sorts of styles. Every man will want a straw hat soon. These are extremely comfortable and wonderfully good looking.

\$5.00 and upward

We feature Society Brand Clothes for Young Men and Men Who Want to Stay Young. Come in.

Keep the egg yield up as mercury goes down Hens that pay are hens that lay winter and summer. Poultry raisers estimate that an egg in winter is worth double its value in the spring. You can get maximum winter results from your hens by feeding Purina Chicken Chowder with Purina Scratch Feed—the perfect balance for laying hens. Hens fed grain alone make excess yolks, which cannot be laid. Notice the unladen yolks in the next fat hen you dress. Corn, oats, barley, wheat, etc., are yolk forming and fattening feeds, and should be balanced with high protein ingredients to produce as many whites as yolks. Purina Chicken Chowder contains such white-forming ingredients as granulated meat, linseed meal, alfalfa flour, etc., that balance the grains in Purina Scratch Feed. When Purina Chicken Chowder is fed as directed with Purina Scratch Feed, we guarantee More Eggs or Money Back. Purina feeds are sold by PURINA SCRATCH FEED PURINA CHICKEN CHOWDER MARICLE COAL & FEED CO. 804 Eleventh Street Phone 437

 TUESDAY, APRIL 6, 1920.

Neither he nor Bailey has forgotten the words that he fought at El Paso. Very much alike in political beliefs, as they state them, they are very much antagonistic personally except insofar as they are able to derive advantage from working together. Ferguson probably would like to see the Bailey campaign win the May primary, but he has other plans for July and November and seems to apprehend that the May result will have a bearing on the later events in a way he would not enjoy.

The Georgia presidential primary on April 20 will give a tangible line on the beliefs of Georgia democrats, even though there will be fluctuations in the line because of the personalities entering into the results. Withdrawal of the name of President Wilson from the primary left three entries in the race—Attorney General Palmer, who is the only real candidate for the presidency in it, and two "favorite" sons, Senator Hoke Smith and Thomas E. Watson. Palmer is making the race as an out-and-out supporter of the Wilson policies. Watson, erstwhile populist and anti-democrat generally, is at the other extreme, about parallel to the Bailey campaign in Texas, of opposition to and criticism of everything done by the Wilson administration. Smith, who voted for ratification of the treaty with reservations, occupies an in-between position, partially endorsing the president and his administration and partially objecting to some of its actions. Watson has the support of former Senator Hardwick, who is embittered by his defeat for the senate because of his opposition to the president, Smith has most of his support in former campaigns, while the anti-Hardwick element aided by the Wilson administration supporters are, with exceptions, behind Palmer. The League of Nations and peace treaty are issues aside from the personalities. The results are sure to be interesting and may be illuminating.

Just Folks
 BY EDGAR A. QUEST

The Cookie Jar.
 You can rig up a house with all manner of things.
 The prayer rugs of suits and prices at all kinds.
 You can hang on its walls the old tapestries rare
 Which some dead Egyptian once treasured with care,
 But though costly and gorgeous its furnishings are,
 It must have, to be homelike, an old cookie jar.

There are just a few things that a home must possess,
 Despite all your money and all your success—
 A few old books which some loved one had read,
 Some trinkets of those whose sweet spirits have fled,
 And then in the pantry, not shoved back to the corner,
 For the hungry to get to, that old cookie jar.

Let the house be a mansion, I care not at all,
 Let the finest of pictures be hung on each wall,
 Let the carpets be made of the richest velvet,
 And the chandeliers only those which great wealth can procure,
 I'd still want to keep for the joy of my flock
 That homely, old-fashioned, well-filled cookie crock.

Like the love of the mother it shines through our years,
 It has soothed our hurts and has dried away tears,
 It has paid us for tolling in sorrow or joy,
 It has always been kind to each girl and each boy,
 And I'm sorry for people, whoever they are,
 Who live in a house where there's no cookie jar.

WHY?
 DOES A GLOW-WORM GLOW?
 (Copyright, 1919, Wheeler Syndicate, Inc.)

The glow-worm, or "lightning-bug" as the species known to the United States is generally known, is supplied with its tiny lanterns in order to indicate the location of the female insect.

In the case of glow-worms, found principally in England, the male is equipped with wings, while the female resembles a caterpillar and remains upon the ground. To permit her to attract her mate and also to point the way to their home, the female has been provided with a pale greenish light. At night, when the male is flying around in the air, the female flashes her miniature lantern as a sort of guiding star to prevent his getting lost.

Members of the same species of beetle are also common in this country, where they are called "fireflies" or "lightning bugs." In the American variety, however, both sexes are equipped with wings, but the female is the only one who carries a light—and for the same reason as the glow-worm proper—to attract the attention of the male. The "light" is another manifestation of nature's continual attempt to make the female of the species attractive to the male.

With Other Editors
 OPOSED BY A STOUT MINORITY.

(New York Times)

In his letter to Major George E. Brown Compton upon "adjusted compensation" for ex-service men Hamilton Fish Jr. advocates not a bonus of \$50 a month, but the payment of \$1 a day for each "calculated month," which evidently includes the drafted and the volunteers, for each day of service, and Mr. Fish says: "I see no reason why officers or men paying a tax on incomes of \$3,000 a year should be recipients of adjusted compensation." He would have the extra payment made to put the recipients on an equal footing with those men who did not enter by service, but who drew the high wages prevailing during the war.

Mr. Fish must understand that there were a great many of his countrymen who served in the home front during the war for reasons not creditable to themselves, did not draw high wages or salaries, and Mr. Fish cannot fail to see that if "adjusted compensation" could be awarded to veterans of the recent war, it should have been given to veterans of all the other wars in which the United States was engaged. There are still survivors of the Civil War left, and a great many Spanish War veterans. If Mr. Fish's case is sound, why should not these veterans, unless they are satisfied with their pensions, make additional demands upon the public treasury? As a matter of fact, "adjusted compensation" or the kind of bonus now desired as liquidation of the debt incurred by the government in 1917-1918, is a new conception.

One sometimes wonders, whether the American youth who went forth to battle in the name of patriotism is proud of his part in the war really wants the bonus at all. But that is not what the federal government, also from the state government, or from any other source, by extraordinary means, appears from the declaration of one of them at the American Legion meeting in New York on Monday night—this is the way to get Congress to do it now is to make them do it now.

The vote for the fulfillment of the nation's obligation to the ex-service men "to reserve disabilities incidental to military service" was 73 area to 22 equal. That is to say, there was a large and stout minority opposed to the payment of a bonus, a word not used in the original resolution. The matter, then, is still open for debate. To many veterans the flat bonus does not look handsome as a reward for the performance of patriotic duty. There is also a feeling that the enormous burden of debt under which the nation is staggering should not be increased by an issue of bonds of \$2,000,000,000 or more, the effect of which, aside from further embarrassing the government, and crippling credit, would be to depress to a much lower point Liberty bonds that are to be bought by every household.

If "adjusted compensation" can be shown to be fair in any case—Mr. Fish thinks that deductions from the soldier's pay for family support and for insurance premiums not kept up should be returned—the nation would not turn a deaf ear. But the flat bonus involving a great issue of bonds or further taxation does not have the approval of the country, whatever the politicians may say about it.

Side Talks
 BY RUTH CAMERON

WHAT TO QUARREL ABOUT.
 A woman who had managed to be happy though married for 15 years said that the first year of the most precarious, that is, after that comes another danger period along about the tenth year; so one who has safely passed the tenth year has a good right to speak with some authority on the great problem.

"Of course you'll quarrel sooner or later," she began—
 "Oh, I hope we never will," said the bride-to-be. "I hate quarrels. You know we really are unusual in the way we agree about things."
 "Most engaged couples are," said the 15 years married lady. "But let me put it this way. Make up your mind in advance that if by any chance you ever should quarrel, you will only quarrel about one thing at a time."
 The bride-to-be opened her eyes wide. "What makes you think we'd quarrel about more than one thing at a time?"
 "Because people almost always do," said the older woman. "And that's what makes quarrels such devastating things. A quarrel starts over one thing, but it isn't long before you've thrown all sorts of recriminations at each other and probably forgotten what you started quarreling about in the first place."
 "Dragging in Other Matters."
 "That's the way Ted and I found out what we were doing. We tried to remember one day after a quarrel what had been the matter in the first place. And it was so hard under recriminations and old grievances that we couldn't either of us dig it up for some time. Then we realized that it was only a little thing, and he'd all our trouble had come from dragging in other things and discussing them when we were in such a sore state of mind that we wanted to hurt each other instead of to come to a reasonable agreement."
 The little bride-to-be was looking incredulous. Plainly she didn't think they would ever want to hurt each other. The older woman answered the look.
 "When You Want to Hurt."
 "Oh yes, you will, my dear, unless you are very different from most people," she said. "You never want to hurt anyone so much as the one you love best. Didn't you ever read Tommynson's 'for to be wroth with one we love doth work like madness in the brain'? Well, that's one symptom of the madness—to want to hurt. And when you feel like that, it is no time to discuss past grievances. So Ted and I promised each other that we would try to settle each dispute on its merits and leave past grievances to be discussed when we weren't in an exasperated state of mind to begin with."
 "I won't say," she concluded, "that I brought the millennium all at once, but I think you may also find a link in married life there's a one—'all for the inevitable friction.' There are just a lot of little remedies that each help."
 The bride-to-be did not look entirely convinced that they would ever need such a remedy. I wonder if she will forget all about it before she comes to need it, or whether the word has been planted and will take root and bear fruit when the right times comes.

Side Talks
 BY RUTH CAMERON

HOROSCOPE
 Tuesday, April 6, 1920.
 Mercury and Venus are in benefic aspect, according to astrology, and the day should be a favorable one for most human activities.
 Mercury gives great promise to advertisers, publishers, editors and writers. Publicity is subject to swany making for a period of great expansion and success.
 New journals will multiply at the end of the year and old ones will change hands.
 While authors and newspaper folk of every grade will benefit greatly from conditions that will develop in midsummer there may be disappointments for editors.
 Venus is in a place that seems to promise a growth of confidence on the part of women, which may be aggressive and may react unfavorably.
 The seers have warned women frequently against the danger of a growing sexism that may cause ill-advised demands in business and politics.
 A slight decline in the high cost of living is read for the summer months, but the change will be hardly appreciable before the national effect on it is prophesied.
 Neptune is likely to have rather a bad effect on the nerves during the next few weeks. Care should be exercised to avoid over-fatigue and strain.
 Unusual interest in landscape gardening is probable during the coming summer, when there will be a movement to encourage horticulture as well as the proper laying out of private grounds and public parks.
 One result of the unusual attention paid to gardens will be a revival of high walls and fences that insure privacy to families.
 Owing to the kindly "rub" of Jupiter many persons have emerged from poverty within the last few years and all who have this planet well placed in their horoscopes need have no fear of being penniless.
 Persons whose birthdate it is have the forecast of money and improvement in all business affairs. The young will court and marry. Children born on this day will be well-mannered and of upright character. These subjects of Aries generally are very successful in love and business.
 Pepsin-Powder in Cheese-Making.
 In experiment it has been found that one ounce of pepsin-powder—13000—is equivalent in cheese-making to 12 ounces of standard rennet extract, and that it is impossible to detect any difference between cheese made with it and that made with rennet.
 Picture frames, all prices. The Decorators Co., 713 Ninth-st. 297-170.

The campaign for the creation of a West Texas Agricultural and Mechanical college has been begun, and with every part of West Texas behind it with influence and money and sound argument for the necessity of the institution, the campaign seems to us promising of success. There will be a number of West Texas cities to seek the location of the institution, once it is created; but until the law creating the college is passed and approved, the rivalry for the location should not only be kept in the background, it should be really non-existent, with every candidate for the college refusing to do any maneuvering or preliminary campaigning to the end that they all may start from the same footing. To do otherwise were to endanger the whole affair. There is a very strong sentiment in Texas for tax economy; there is a sentiment that existing institutions should be used to the maximum before others are built. But the plan decided on by those urging the West Texas A. & M. includes the finding of a means whereby the state's income may be increased sufficiently to take care of two senior A. & M. colleges without undue burdens on the taxpayers. Outside of the press that is inherently provincial, we believe there is recognition of the fact that the West Texas A. & M. is needed; some of those influential publications which strongly and effectively opposed the idea a few years ago have come around to the belief that the time is here when a West Texas A. & M. college should be built. But one danger before the campaigners that should be guarded against is the "log-rolling" methods which were used a few years ago to hush unnecessary institutions on to the proponents of the West Texas A. & M., and trade votes. The West Texas A. & M. college is a project big enough to stand on its own merits and win on them. The fight, if one is necessary, should be waged along that line if it takes all summer, for any other line is poor strategy and possibly dangerous to the main objective of this campaign—the which should not be lost sight of for even one moment. West Texas united on the proposition can "put it over." Let's do that and then let the individual cities seeking the location make their campaign from an equal start and, as was suggested in a Stamford dispatch to the Times the other day, in "a way to make the location among towns so that it will be above board and fair without causing confusion and disgust, as was the case a few years ago."

RIPLING RHYMES.
 BY WALT MANSON.

The Garden.
 In my common wordy duds to the garden I repair, and I plant some pumpkins I can sell, squashes till you cannot rest, and young onions that will smell much like Araby, the bear. I'll have things to boil and bake, I'll have cauliflower to spare, and my cabbage heads will take premiums at the county fair. I'll have growing greens enough all my family to keep, and the Cost of Living stuff will not rob me of my sleep. If the boys would fall in line, raising garden peas this year, they might drop the plaintive wail, "All we eat is so blamed dear!"

LITTLE BENNY'S NOTE BOOK
 BY LEE PAPE

Wind.
 Wind is fast air. It blows from the north, east, south or west, depending on which way you want it to go, only you can't always tell by looking at a weather vane, on account of most weather vane looking as if they are all the time changing their minds. Sometimes the wind is so weak it can't hardly blow dust, and the next minute it gets so strong it will blow anything that's willing to blow, especially those newspapers that this proves nobody can predict the future.

It's easy to walk in the coldest wind when there's houses or something in front of you to stop it, but when there's nothing to stop it except just you, it makes a grate different. There is much more wind in winter, when it's necessary, than in the summer, when it's just there for its own sake. It's easier to be satisfied with what you want than with what you get.

No matter how hard the wind blows, it still blows inside your mind. You see dead leaves and paper and peepers hats flying around in the air, you know it's the wind pushing them. One of the funniest things the wind does is blow other people's umbrellas inside out.

Berds have a hitch just setting on the wind with their wings spread out if it's blowing the way the berds want to go, with it generally is on account of it not making much difference to a berd with what it goes.

When people hear the wind making a noise outside they think it's awful cold out and get ready to shiver before they open the front door. This proves the value of avertizement.

HAMBONE'S MEDITATIONS

 KNOW BOUT DE BOSS, BUT
 ME EN DE BOSS ANT
 APT T' HAB NONE!!

There are increasing signs that former Governor Jim is inching away from the support of the former senator's aspirations and that the former is now trying to tell his own supporters to stay out of the May and July primaries so they may be in position to vote legitimately for T. H. McGreggor as the American candidate for governor next fall. Former Governor Jim knows that former Senator Joe will use him and his if he can, and then into the discard with them. Former Governor Jim saw some evidence of this at San Antonio in 1916, when former Senator Joe worked with Jim back to jowl in the successful effort to dominate the state convention, with a minority of its delegates and control of the party machinery. Their joint efforts succeeded, where neither alone could have won. But as soon as the former senator had got what he came to Texas to get, prevention of the endorsement of non-bills prohibition and of the election of T. E. Love for national committeeman, he went hence; and when the political life of his former co-laborer was at stake and he needed every bit of friendship or influence that was possible for him to get, the former senator started in Washington and did nothing. Ferguson probably sees, too, that should Bailey succeed in Texas, it would mean the absorption of the American party, because Bailey stands for just about what the American party stands in relation to the democracy. The former governor can see through the hole in the millstone about as quickly as anybody;

It Can't Be Done

It Can't Be Done

TABLOIDS
 SALEM, ORE.—"Oregon for Americans. If you can't be one, go to hell," is the campaign slogan of M. J. Lee, of Canby, Ore., candidate for state representative, according to his nominating petition filed here.

OMAHA, NEBR.—The first balloon caught in Bangor pool this season was sent to President Wilson today. It weighed 12 pounds. A democratic politician paid \$2 a pound for the fish.

ATLANTA, GA.—Harry Anderson tried on a pair of automatic handcuffs to see how they worked. They worked. For two days he has been searching for the key.

BOSTON.—William Johnston resigned from the police force to become a professional boxer. He said he thought he could make more money as a fighter than the policeman's job paid.

MILWAUKEE.—The phone service at Waupun is crippled. Capt cut in on the wires. Three operators in a day denounced their telephone for a wedding ring.

NEW PERFECTION
Oil Cook Stoves

For Every Cooking Purpose

THE Long Blue Chimney burner gives the right heat for every cooking purpose—*instantly*. Clean, intense heat at any flame height is driven against utensil. Flame stays where set—wastes no kerosene in smoke, soot or disagreeable odor.

Get a New Perfection Stove for every cooking purpose—a New Perfection Oven for perfect baking—and use Magnolia Safety Oil.

Best sold by good dealers everywhere. Ask for a demonstration or write for free New Perfection booklet.

Use **Magnolia SAFETY OIL**

THE CLEVELAND METAL PRODUCTS COMPANY
 7600 Platt Ave. Cleveland, Ohio

Dealers Note:—The Magnolia Petroleum Company distributes the New Perfection in your territory. Complete stocks are available at convenient points.

PAVE THE WAY FOR AN AGREEMENT WITH JAPS ON FINANCES

By HENRY W. KINNEY (United Press Staff Correspondent).

TOKIO, March 31 (Delayed).—Thomas W. Lamont of New York, representing a consortium of bankers, Great Britain and France, who have arrived in Shanghai, feels that the way has been paved for the American and Japanese governments to reach a satisfactory agreement as to the financial aid that will be given that country.

Lamont in China is on a mission related to the proposed \$25,000,000 emergency loan for that country and will also seek to determine whether China is a profitable field for investment.

Before leaving Tokio, Lamont declared the Japanese group of bankers gave him a cordial reception. The Japanese bankers are strongly desirous of entering the consortium if the government approves it. They believe it would be a factor in maintaining a lasting peace in the Orient.

Views of the Japanese bankers were expressed by Junnosuke Inouye, governor of the Bank of Japan, who declared that a feudalistic bourgeoisie government was made the latter availed itself of administrators from former governing classes.

"We are undergoing the same experience," he continued, "and may have capable people who understand technique of administration, while we are preparing proletarian workers for a decisive position."

LENINE OUTLINES THE PEACE PROPOSALS THE SOVIET HAS RECEIVED

MOSCOW, March 29.—Peace proposals received by the Russian bolshevik government were outlined by Nikolai Lenin, premier of the soviet government, at today's session of the ninth convention of the communist party.

"We are neither at peace nor at war and are neither recognized nor unrecognized," he said. "Let us make normal peace proposals and Finland's propositions regarding the fixing of a demarcation line are equivalent to peace overtures. Regarding Poland we must be very careful because we are dealing with a government which does not know what it will do tomorrow."

Discussing internal problems, Lenin said centralization or decentralization was the most important question before the convention. While the soviet republic demands are unaltered for certain principles such as the abolition of private property, he said, history has shown that when the government was made the latter availed itself of administrators from former governing classes.

"We are undergoing the same experience," he continued, "and may have capable people who understand technique of administration, while we are preparing proletarian workers for a decisive position."

BEGIN HEARING ON HABEAS CORPUS SUIT OVER RICH INDIAN

WINFIELD, KAN., April 6.—The hearing on the habeas corpus suit, by which his guardian hopes to return Jackson Barnett, world's richest Indian, to Oklahoma, opened today with Judge A. M. Jackson, sitting as commissioner.

Attorneys for Mrs. Barnett moved to strike out certain parts of the original petition. Attorney Brewster for the guardian fought this move and told the court that he intended to prove that Anna Laura Lowe was an adventuress, that she practiced wife in getting Barnett to marry her and getting out of Oklahoma. He declared that it might be proven that she had been "run out of several towns." He even questioned her eligibility for marriage, saying she had recently posed as the wife of an army officer.

AUTHORIZE TRAINMEN TO ACCEPT POSITIONS OF ILLEGAL STRIKERS

CLEVELAND, O., April 6.—W. G. Lee, president of the Brotherhood of Railway Trainmen, today issued the following statement regarding the employment of brotherhood members as union strikebreakers in the Chicago switchmen's strike:

"Regardless of reports issued by John Graneau, leader of the strike of switchmen at Chicago, such strike is illegal and members of the Brotherhood of Railway Trainmen and others will be fully protected in accepting positions as switchmen or switch tenders made vacant by such illegal strike."

DECLARE OPPOSITION THROUGHOUT IRELAND MORE GENERAL TODAY

DUBLIN, April 6.—Opposition to the government never has been so general throughout Ireland as it is today. Some critics protest against the severity of the military regime but their attacks are met by demands from others who assert that steps taken have not been sufficiently drastic and that measures intended to be coercive have failed of their object.

Inability to discover leaders of recent disorders and failure to gain information as to plans for raids in future has resulted in sharp criticism. Government agents are apparently often victims of misinformation and some military raids seem to have been based on data given by persons who are desirous of embarrassing the administration. From time to time raids result in the capture of arms.

SAYS RED FLAG WILL BE RAISED IN EAST

MOSCOW, March 29.—At a meeting of the Persian communist party held March 27, a manifesto was issued saying:

"The time is not far distant when the red flag of the free proletariat will be raised in the east," according to advices received here.

STRIKE BREAKING BY MEMBERS OF UNION

CHICAGO, April 6.—The spectacle of a labor union "strike breaking" to end the walkout of several thousand railroad switchmen will be staged here today when 500 yardmen, brought in from outside points, will fill strikers' places. Five hundred of the "strike breakers" are already at work and it is expected that several thousand will work by Saturday.

The strike is by switchmen of the Chicago Yardmen's association. They are asking wage increases. Officials of the Brotherhood of Railway Trainmen and the Switchmen's Union of North America say the new union is composed of rebels and that the strike is illegal. The demands the strikers seek, regular union officials say, are now being considered.

Stockyards officials say that unless transportation of livestock is restored to normal shortly, it may be necessary to close down all packing plants. Morris and company say they have used up all the livestock on hand.

Several thousand stockyards employees are already idle. Should the yards close down, more than 50,000 workers would be affected.

Figures as to the number of strikers out vary. The strikers claim 14,000 switchmen are out. Railroad and union officials say there are only 2,500.

FIRE CAUSE \$200,000 DAMAGE AT END, OKLAHOMA

END, OKLA., April 6.—Fire which started in the Rock Island freight house at an early hour last night caused damage amounting to more than \$200,000. The flames quickly spread to a storage house, a string of freight cars and a wheat elevator. A keg of dynamite in the freight house exploded shaking the whole city. The elevator was owned by G. H. Shaw.

HOUSTON REPORT ON WEATHER AND ROADS

HOUSTON, TEX., April 6.—Winds on the Texas coast: Moderate to fresh south to northwest.

Highway bulletin: Automobiles leaving today will have generally cloudy and misty weather. There was no rain and roads are passable, but rough in places.

Repair your car in your garage. Call Model Grocery, 3541 for quick service. 306-181p.

FIVE PERSONS ARE KILLED IN ELECTION RIOTING IN MEXICO

EL PASO, TEX., April 6.—Five persons were killed in Chihuahua City, Mexico, in election disturbances there last Friday night, according to dispatches received by American sources here today.

Confirmation of reports that Francisco Villa, the bandit leader, was moving northward also was received here today. Villa, it was said, has considerably increased his forces and has divided his command into three bands, all of which are moving northward in different sections.

Campaigns in connection with the Chihuahua state elections 19 May and the national election in July, it was said, have caused a lessening of campaigns against bandits and rebels by federal and state authorities.

To sell your house or buy a bungalow, call 529, J. Wilkie Talbert, Second floor Commerce Bldg. City property. "Since 1914." 283-17c.

INDUSTRIAL CONFERENCE AT HOUSTON WEDNESDAY

AUSTIN, April 5.—T. C. Jennings, state labor commissioner, left last night for Houston, where he presides at an industrial conference to be held there April 7-8. Before leaving he said he had assurance that representatives of employes and employers from all over Texas would be in attendance at the conference. The purpose of the conference is to procure closer cooperation between employer and employe.

HARRY GREB WINS REFEREE DECISION

DENVER, April 6.—Harry Greb of Pittsburgh easily outpointed Capt. Bob Roper in a ten-round affair here last night. Except for the eighth round when Roper landed several rights to the jaw, Greb was never in danger and won the referee's decision.

The Latin-American Trade.

The grand total of international trade of the 20 Latin-American republics advanced from about \$2,000,000,000 in 1913 to nearly or quite \$5,000,000,000 in 1919. The exports show an increase of nearly 100 per cent, in stated value and the imports an increase of about 50 per cent, though it is proper to add that these increases in the grand total of value are due in a very considerable degree to the higher prices in 1919.

No Fear of Japanese Competition.

The competition of Japan in the toy-making field is not regarded with apprehension by England because of the inferiority by the Japanese work. Their mechanical toys are broken after a minutes service, but the straws made in this direction by the United States is giving the Britishers something to think about. The high prices asked for the American toys, however, will help the English industry they hope.

Sam Sparks Leases' Meeting.

To all those interested in any way in leases and operations on Sam Sparks First Subdivision:

Notice is hereby given that a meeting of all parties interested in any way in leases in Sam Sparks First Subdivision will be held at his office, 431 National Bank of Commerce Bldg. at 7:30 p. m. on Tuesday, April 6, for action upon matters in connection with the litigation over river bed lands. Everybody be present.

W. C. MARSHALL

Siebold Hotel, Fort Worth, Texas

"Consideration"

Do you consider WICHITA a good or likely oil producing county? It is the best in Texas and no one will dispute the fact.

"Memories"

Do you remember when K. M. A. stock was sold at \$100.00 per share? Now it is selling at \$2,000. You have often heard the expression "Wish I had bought it at par."

Now a Hint To the Wise Is Sufficient

We have 500 acres in Wichita County, located three miles northwest of Wichita Falls, known as the WOODALL Dairy Farm, upon which we will drill a well to a depth of 2,000 feet, unless oil is found in paying quantities at a lesser depth. We expect to be drilling some time this month.

Our capital stock is only \$75,000, with a par value of \$100. Should we get a well do you realize that our stock will sell for 20 or 30 times its par value. Figure it out for yourself, then act as we are only going to sell \$30,000 worth of this stock at the present time.

If you think this a good proposition, mail your check today for some of this stock. Be as liberal as you possibly can for we feel sure that you will be well repaid on your investment. Delay may cause you to pay more for this stock.

Help yourself by helping us develop this valuable lease. Keep Wichita in the lead.

WHITE HOUSE PROBABILITIES

HERBERT C. HOOVER.
1874—Born at West Branch, Iowa.
1878—Father died.
1882—Mother died.
1886—Moved to Newburg, Ore., to live with relatives.
1891—Enrolled in mining at Stanford university, just opening its doors.
1895—Graduated from university.
1896-1899—Worked on various mining projects in Arkansas, New Mexico, California, Australia and China.
1899—Married to Miss Lou Henry, Monterey, Calif.
1900—Helped defend Tientain during Boxer rebellion.
1900-1914—Partner in various mining projects in China and London.
1914—Named chairman of American Relief Commission, London.
1915—Chairman Commission for Relief in Belgium.
1917—Appointed by President Wilson United States food administrator.
1918—Made director of food supplies for allied powers.
1920—Mentioned as candidate for presidential nomination.

"That's Hoover," they used to say over at Washington, when they would point him out coming and going around the food administration building. But they had to say it on the wing for it was "Here she comes" and "There she goes" with Hoover. A visitor found him secluded among a mass of papers in his private office, it was pretty much of a sure bet he'd be hurrying off to a conference at the department or to a luncheon just freshly arrived from Europe.

For in the days when the food administration was busily scattering foodstuffs throughout Europe's many hungry countries, the fellow with the most work to do was Herbert C. Hoover.

And then, as now, Hoover was the same enigma. As an engineer and miner, Hoover had been trained to cut all the Gordian knots that lay in his pathway and to hew to the shortest line between two points. As a president of the world, he silently worked out his own plans of most efficiently distributing sustenance to the greatest number of people at the least inconvenience to those at home. As a presidential "possibility," there has been no indication he will alter his habit of being shy, unassuming and spinster-like.

Hoover is the square, solidly-set jaw, his are the bright, piercing eyes; the broad, high forehead, capped by short and thick stubble hair, and the well-balanced nose above a decisive mouth. His shoulders are broad and his body is built stoutly. His 185 pounds rest comfortably on sturdy but short legs.

The man who always has been a candidate, and is alternately claimed and rejected by his party, has actually performed volumes of work to relieve Hoover.

At present the Hoovers live in Washington.

world, and with offices in London, New York and San Francisco, observers declared Hoover was destined to become a multi-millionaire. His incomes doubled and tripled. His services were sought wherever there were minerals to be drawn from the earth. Then suddenly in July, 1914, his plans crashed. With the outbreak of war, in the panic that seized London, all mining and development stocks lost value. Of course, Hoover's personal fortune was safe, and it was Hoover who was equal to the occasion when thousands of Americans found themselves stranded and penniless in Europe.

That was where his rescue work began. Organizing fellow engineers and raising \$200,000 in addition to \$250,000 the American embassy got from home. Hoover established an office at a London hotel and set about to get succor to Americans wherever they happened to be caught. The office aided in cashing checks and drafts on friends, obtaining tickets and steamer accommodations and such other work as speeded up the return to America of tourists in war-torn Europe.

But the experience in London was trading compared to that which he "inherited" in Belgium. The Belgians, seeing German hordes overrunning their little nation, sent an appeal to London for aid, both in money and food supplies. The American ambassador at London, remembering so vividly Hoover's efforts in sending home Americans, told the Belgians about the "wizard" at organization. So Hoover was drafted.

Seeing his success in Belgium—where he spent upwards of \$17,000,000 in a month in relief, and in the four years of war clothed and fed nearly 8,000,000 persons—President Wilson called on Hoover to become food administrator for the United States. His relief work, saving measures and organization policies attracted the attention of the allied countries and Hoover was made a member of the supreme economic council which vicariously the war-torn allied countries.

With the war now a closed book for more than a year, Hoover has still kept up his relief work. In New York he maintains an office for the American Relief Commission's children's fund. In addition his organization still sells "Hoover food drafts" to Americans for their destitute relatives in Europe.

Recently, when Hoover was busy with the work of the industries conference called by the president, he turned over his relief work in Washington to Mrs. Hoover, who, with a staff of stenographers, conducted a portion of the Hoover activities.

The Hoovers have always wanted to move back to Palo Alto, Calif., to the party national convention, and enjoys the chance to get out into the country with his boys—one 16 and the other 14.

Mrs. Hoover is a quiet, retiring woman. She has traveled with her husband into nearly every country his work has called him. She has always taken a lively interest in his activities, particularly in his relief work for the party national convention, and has actually performed volumes of work to relieve Hoover.

BRYAN AND OWEN TO ADDRESS NEBRASKA VOTERS THIS WEEK

LINCOLN, NEBR., April 6.—United States Senator Robert L. Owen of Oklahoma, candidate for the democratic presidential nomination, and William Jennings Bryan, candidate for election April 29 as delegate to the party national convention, will address Nebraska voters at Imperial and McCook Friday and at Hastings and Grand Island Saturday. It was announced at Mr. Bryan's newspaper office here today.

BISHOP KEY DIES AT SHERMAN HOME

SHERMAN, TEX., April 6.—Bishop Joseph S. Key of the Methodist Episcopal church, died at his home here today. He was born July 18, 1829; was ordained a minister in 1848 and has been a bishop since 1886. He came to Texas in 1858.

COMES TO DISCUSS CONDITIONS IN MEXICO

MEXICO CITY, April 6.—George T. Sumner, of the United States embassy, will leave tomorrow for Washington, where he has been called to confer on conditions in Mexico. It was said at the embassy today.

CONTINUE CONSIDERATION OF THE ARMY MEASURE

WASHINGTON, April 6.—Consideration of the army bill was continued today by the senate with opponents of universal military training prepared to launch a vigorous fight against that provision of the measure.

ALL BUT FIFTEEN OF ESCAPED PATIENTS ARE RETURNED TO HOSPITAL

CHESTER, ILL., April 6.—All but two of 15 patients who escaped from Chester State hospital for criminal insane Saturday night had been recaptured this morning. The armed posse is continuing its search for the other two. No reports that the maniacs caused violence while at large have reached the institution.

START INVESTIGATION OF PALMER'S ACTION

WASHINGTON, April 6.—Investigation was started today by a house judiciary sub-committee of Attorney General Palmer's action in fixing a \$17 to 18-cent price for Louisiana cane sugar as figures that would govern federal action against profiteers.

PEKINGESE CLUB OF AMERICA OPENS BIG SHOW.

With 264 dogs entered, the twelfth annual specialty show of the Pekingese Club of America scored a brilliant success at the Plaza Hotel in New York. It was staged in the ballroom, which was decorated with Chinese rugs and banners, and many of the cages holding the dogs were also especially adorned in honor of the Chinese breed. There was a very large attendance, especially of women amateur fanciers, both in the afternoon and evening. The affair was a benefit for the Girl Scouts, and members of that corps in khaki acted as ushers, programme sellers, scorers and did all in their power to "carry on" in aid of the show managers. Mrs. B. Mackay, with her Atza Boy, was one of the exhibitors. Two of the thoroughbreds are shown in the picture, Kwei-ti, on left, and Fairfax Fair-tu of Alderbourne, on right.

OF INTEREST TO WOMEN

A Danish periodical recently asked its readers to vote for their favorites among the film artists of the day. The results have now been announced, and, as might have been expected, the world's sweetest heart, Marie Sorensen, is top of the poll with 155,139 votes, more than 2,900 ahead of her nearest competitor, Marguerite Clark, who polled 13,857. First among the men comes smiling Douglas Fairbanks with 122,123 votes, closely followed by S. Hart, the strong silent man, with 129,152. Then come Harold Lockwood and Wallace Reid with 127,190 and 126,180, respectively. The two remaining places in the first eight are filled by Pearl White, the Pathé serial star, 118,000 votes, and Anna Stewart with 102,878.

USED WITCH MAGIC TO CURE INFLUENZA

Alexander and Clotilde Sakharoff, two famous Russian dancers, who gave an animal party in the Hotel Astor, in New York, in celebration of their recovery from influenza. The dancers astounded persons by resorting to the white magic of their native land to effect the cure.

THOROUGH PROBE IN PICKFORD DIVORCE IS PLANNED BY JUDGE

CARSON CITY, NEV., April 6.—Any doubt that a thorough probe is in store for Mrs. Pickford's divorce decree was removed today when Judge Langan, who granted the divorce, appeared at the office of Attorney General Fowler and announced he would demand the appointment of a special committee to investigate the whole matter.

Judge Langan had received information of the publication in a California newspaper of a letter written in Douglas county to the effect that rumors of bribery and expenditures of large amounts of money in connection with Mrs. Pickford's divorce are being circulated.

The same letter stated that it was said the investigation had been dropped. The letter was written by a Gardnerville woman.

Those in charge of the attorney general's office even before the arrival of Judge Langan said that the attorney general would make a thorough investigation. It was learned that a suit in the name of the people of Douglas county, where the divorce was granted, would be filed probably within a week to set aside the divorce. Judge Langan was plainly angered by the published reports intimating fraud.

The whole affair must be settled to the bottom, he said. "I shall ask the attorney general to appoint another deputy to investigate the matter."

CONVERT BANK NOTES INTO PULP PAPER

COPENHAGEN, April 5.—Bank notes issued by General Yndolfinch for the northwest army are being converted into paper pulp at an Estonian paper factory, says the Helsingfors correspondent of the Tidningen.

OFFICIALS ARE URGING THE MINERS TO RESUME WORK

WHEELING, W. VA., April 6.—District officials of the United Mine Workers of America were making every effort today to induce the 3,000 eastern Ohio coal miners who went on strike last Friday to return to work. Union leaders went among the strikers today with interpreters and tried to make them understand that the national union looked with disfavor upon the walkout. The men on strike announced they would discuss with the terms of the 27 per cent wage increase.

SEAPLANES TO FLY ACROSS THE OCEAN

WASHINGTON, April 6.—Seaplanes that will fly across the Pacific ocean will be developed within two to five years, Secretary of the Navy Inghis told the senate naval affairs committee today.

SIXTEEN ARRESTED DURING RAIDS IN RESIDENT SECTION

Sixteen persons were arrested last night during raids upon places in the residence section of the city. The raids were carried out by Deputy Constables, Buller and Becker. Four couples were taken from a residence on Bluff street and charged with vagrancy. A woman said to be the proprietor of the house was arrested upon a charge of operating a disorderly house.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

NEW YORK, April 6.—Yesterday's advance was followed by a reaction in the cotton market during today's early trading. A disposition to take profits on long contracts was probably increased by reports that weather conditions were gradually improving in the belt and after opening steady, a decline of 6 points to an advance of 7 points the market soon turned easier. May contracts sold off from 40.25 to 40.00, while October broke from 34.50 to 34.25, or about 19 to 20 points below last night's closing. Trade interests were moderate during the decline but demand otherwise was much less active after the big buying movement of the previous day.

The weather map showing unseasonably low temperatures but further precipitation in the south, encountered reactionary sentiment and the market eased off to 30.95 for May and 34.45 for October, or about 23 to 24 points net lower. The buying by trade interests continued, however, and the market became less active later with prices selling steadily on covering. Sales fell to 40.15 and October 34.42 around midday. The cotton market closed firm.

NEW ORLEANS, April 6.—After advances of 4 to 5 points on the opening today the cotton market fell off under liquidation of long contracts and a moderate amount of short selling caused an improvement in the weather conditions over the belt. The weather map showed up clear and dry with temperatures about 10 degrees below normal at the end of the first hour of business prices were 13 to 20 points under the close yesterday's. May rose to 30.48 and fell off to 29.27.

Fluctuations became narrow, offerings being furnished by liquidation of long and being fairly well absorbed by a new demand from traders who were impressed by accounts from the interior of the general lateness of the crop. Forward soon the trading movement was 15 to 20 points under the close yesterday's. No fresh feature of importance developed during the early afternoon but the outlook for continued cold weather in the south went led to some scattered covering. May contracts ruled around 30.38 and October 34.40 after 2 o'clock or about 4 to 11 points net lower.

Late in the session following the announcement of a minus correction in the local stock of 10,496 bales, the market suddenly became active and a new demand of consequence sprang up. This movement indicates the buying movement became general and prices were sent to an advance which toward the close amounted to 10 to 20 points, May rising to 30.78 and October to 34.87.

The cotton market closed steady at a net advance of 25 to 41 points.

DALLAS, April 6.—Spot cotton steady; middling 42.50.

GALVESTON, April 6.—Spot cotton firm; middling 42.50.

NEW YORK STOCKS.

NEW YORK, April 6.—A few leaders were slightly lower at the opening of today's stock market but in general the market late rally was materially extended. Steel, equipment and motor were the strongest feature making a net advance of almost 6 points while Baldwin Locomotive, Studebaker and International Motors were 1 to 2 points higher respectively. Food shares added substantial 1/2 to recent gains, especially sugar and corn products. Oil advanced at the start but immediately improved within the first half hour on extensive buying of Pan-American Petroleum.

Hulls displayed greater strength during the mid-session, trans-continental, grain, coal and truck lines shares being in the advance of 1 to 2 points. Elsewhere trading slackened to a marked extent but gains among railway, electrical, oil and specially equipped and motor specialties, were increased.

United States Steel made an extreme advance of almost two points on heavy buying and copper rose further gains. Selling for profits slackened somewhat but remained on quoted values. The closing was strong.

STOCK LIST—LAST SALE

Table listing various stocks such as American Beet Sugar, American Can, American Car & Foundry, etc., with their respective prices.

GRAIN AND PRODUCE

CHICAGO, April 6.—Farred closing out of trades belonging to a firm which had been conspicuous of late on the bear side of the corn market led to a fresh advance today in corn. The subsequent setback was ascribed to heavy calling of margins, as much as 15 cents a bushel on corn being demanded in some cases. Opening quotations, which ranged from 42 to 44 and 1/2 to 1/2, advanced, with May followed by a 1/2 cent rise to 44 1/2, the market under the influence of all around to well below yesterday's finish.

Corn lacked the artificial stimulus which at first lifted the corn market. After opening 1/2 cent down to 44 1/2, including July at 44 1/2, the market under the influence of a general decline.

Upturns in the value of hogs gave relative firmness to provisions.

In later dealings the market reflected a drop in the big market and the pronounced weakness of open.

Table showing grain and produce prices for May, July, and September, including items like Corn, Wheat, and Hogs.

LIVE STOCK.

CHICAGO, April 6.—Butter higher; eggs lower; receipts 25,000 cases. First 41 1/2¢; ordinary first 37¢; at mark, cases included 41¢ 1/2¢.

WICHITA FALLS HAS SUBSCRIBED \$3876 TO NEAR EAST FUND

Wichita Falls to date has subscribed \$3,876 to the Near East Relief fund. A. N. Stubblebine, who is here from the district headquarters at Dallas to see the campaign started, reported Tuesday. This will take care of 50 children of the quota of 500, which has been assigned to Wichita county.

The additional subscriptions, announced Tuesday, follow: C. W. Reid \$100; J. H. Crumpler \$100; W. R. Duke \$100; B. F. Johnson \$100; M. W. Watkins \$100; D. S. Kilham \$100; First Presbyterian Sunday school \$120; Cash \$100; Miss M. R. Kerr \$20.

MISS VERA DODGE IS THE NEW LIBRARIAN

Miss Vera L. Dodge, for the past 10 months librarian in the Galveston library has been elected as librarian for the Kemp Public Library of this city, and will arrive April 15 to take the position. This change is made necessary by the continued illness of Miss Mary C. Roberts, who has been the librarian since the institution was opened, and the library board regrets to see her successor for her in Miss Dodge. Miss Roberts assisted in launching the Kemp Public Library, being in charge of the preliminary work of buying books and assisting in purchasing equipment, and her splendid services made the institution very valuable to the public. Her popularity was general among all classes and ages, and all patrons of the library regret her resignation very much.

Miss Dodge, the new librarian has had buying books library experience in St. Louis, five years in Denver, Colo., and 10 months in Galveston. Mrs. Ida H. Tietz, who has been assistant librarian, and during Miss Roberts' illness has been acting librarian, will continue as first assistant, on Miss Dodge's arrival.

GREAT ACTIVITY IN ACREAGE AROUND THE BURK-CAMERON TEST

With the Burk-Cameron test in block \$25, about five miles from the western edge of the Red river pool, reported on the sand Sunday, reported standing with 1400 feet of oil in the hole, acreage in this vicinity has on the part of many sensational plays registered during the past several months within the past 48 hours, climbing from quotations of a few hundred dollars per acre to as many thousands, with practically no close-in acreage available. The test is a cable tool test, and has only a few feet of open hole. Drilling into the sand is being delayed for the erection of storage, which is being rushed to the ground.

PRESIDENT OF LONG BELL LUMBER COMPANY HERE

R. A. Long of Kansas City, president of the Long-Bell Lumber Company, was a visitor in Wichita Falls today, looking over the operation of the company's yard here. At noon Mr. Long and his party of 15 met with the Chamber of Commerce directors at luncheon at the Westland.

Mr. Long said that he came here to see why the Wichita Falls yard was selling so much more lumber than those at other points covered by the company. He expressed great interest in the Wichita Falls and hearty confidence in this city's future.

Inspection of Horse Meat. It is anticipated that the national inspection of horse meat which is now being made in this country, will, in a great measure, solve the problem of the shortage of meat and at the same time, the Chamber of Commerce directors are now running wild on the ranges.

New spectroscopic equipment and methods are being developed for the analysis of helium gas, in the hope of finding coronium, chief ingredient of the solar corona, and hitherto regarded as a non-terrestrial substance.

MUCH INTEREST IN WEBB-MAGNESS AND VERNON OIL TESTS

By A. C. MCCONNELL
VERNON, TEX., April 6.—The fraternity is watching with interest the tests of the Webb-Magness and the Vernon Oil and Development Company. It is reported both tests have found a pay sand. No one is permitted about either well. A rope enclosure is stretched some distance from the wells to keep people from going about the wells. In the mean time interest is becoming intense.
E. A. C. Elliott, general manager of the Harrington & Robinson Oil Co., is here from Fort Worth, figuring on putting another test down on the McCaleb farm, near Poons. McCaleb No. 1 is drilling right along, drilling through lost tools. Outlook in this well is said to be favorable. Armstrong & Jacobs of Wichita Falls have acquired 1,800 acres of the original 5,000 acres owned by Harrington & Robinson and Messrs. Armstrong and Jacobs will drill at once near the McCaleb test.
The armers and Drillers Oil Co. has been formed in Vernon with L. G. Hawkins president; U. S. Davis, vice president. The capital stock is \$1,000,000.
The stockholders of the Wilbarger Fair Association have authorized the sale of the fair grounds in West Vernon to the highest bidder. The grounds are located in West Vernon and the stockholders believe it will be a valuable adjunct to the city growth and addition to Vernon will no doubt be a result of the sale. Property not so near to the city will be purchased by the association, it is learned.
Fifty acres at the terminus of West Wilbarger street of Vernon have sold to a party of local business men for \$100,000. The land will be subdivided into city lots and the addition will be placed on the market for residential purposes. Another townsite company, recently organized, have sold out during the three days it was organized. Business and residence property is continuing its journey skyward and no telling where it will stop. Leases are bringing fabulous prices.
The Fort Worth & Denver is now running a special Pullman sleeper between Vernon and Fort Worth. The first day it was inaugurated the berths were taken before 9:00 o'clock in the morning. The sleeper is parked here in the morning to be

The Handmaid of Medicine

Much of the success of modern medical treatment is due to the science of pharmacy. Health, often life, depends upon the purity and potency of drugs prescribed by physicians. It is essential, too, that the compounding be done by an experienced pharmacist.

WE CO-OPERATE WITH THE PHYSICIAN

in every possible way. We provide best drugs and compound them with unerring skill and care. This special-care service costs you nothing extra.

First Attention to All Orders For the Sick

used on the midnight train for Fort Worth.
Dr. J. E. Dodson Jr., a local physician, has instituted suit in the 46th judicial court for damages to the amount of \$5,000,000 and for possession of 4,480 acres of oil and gas leases. The suit is the outcome of the gusher brought in by the Prescott-Peroria Oil Co. and Lloyd Sigler and associates are named as defendants. Dodson's petition recites that he was in possession of the leases now being operated by the Sigler Oil Co. from August 9, 1919, until about Jan. 29, 1920, when he was induced to surrender possession to property by persons not in his employ. He claims he was under contract to drill a well on the 4,480 acres and to make three monthly payments to Stripling & Cart of Fort Worth, amounting to \$11,739.32. He claims the leases were not forthcoming at the specified time and that he was able and willing to make the payments. Dr. Dodson will not give out any statement regarding the suit.
Lloyd Sigler professed great surprise when informed he was named as one of the defendants in the suit. He stated he had heard of the litigation when informed of same. Mr. Sigler says the company bought the acreage from W. C. Stripling, Amos G. Carter and associates of Fort Worth, and that Mr. Stripling had given him his bond that the title to the acreage was legal and good. He said he had called on Dr. Dodson a number of times over business matters and had

heard no claim from him other than that he, Dodson, was creditor to the Fort Worth parties for certain tools, rig materials and casing.
The Sigler Oil Co. has opened up their Vernon offices in the three-story brick building recently purchased from J. E. Lutz. Harry A. Frankel is in charge of the Vernon office and he is organizing a strong corps for an immediate development of their valued acreage south of Vernon, surrounding the Sigler discovery well. The name of the building has been changed to the "Sigler building" in honor of Lloyd Sigler, who tamed the first wildcat in Wilbarger county, outside of the proven field. Mr. Sigler says his ambition is to open a field to rival that of the Northwest Extension field.
KNIGHTS OF PYTHIAS TO INITIATE CLASS TONIGHT
Pioneer Lodge No. 49 Knights of Pythias, will meet in regular session tonight at their Castle hall, 603 Scott avenue. A class will be initiated in the rank of page, and final arrangements will be perfected for entertaining the boys of the Fort Worth team of the Dramatic Order Knights of Khorassan, who will arrive in this city in special Pullmans Friday night to initiate a large class of Tyros in the mysteries of the "Dokers." The ceremony to begin promptly at 8 o'clock next Saturday afternoon, and to continue until the Tyros have passed over the "hot sands." A large attendance is requested and expected.

MOTORISTS FEATURE IN POLICE COURT TODAY
Eight speeding and reckless driving cases were tried before Judge J. R. Ogle in corporation court Tuesday. All were adjudged guilty and fines assessed. The criminal docket in city court has been unusually light during the past week, city officials announce. Several persons arrested last night by city officials have been turned over to county officials and will probably face felony charges.
CITY REPRESENTED AT ANNUAL CLASS PLAY
Wichita Falls was well represented at the annual class play of C. I. A. Juniors held at Denton last week. Local girls taking part in the play were Misses Louise Lechem, Francis Cook, Mattye Ruth Corbett and Fleet Staley.

EYES
Most people, you included, perhaps, are extremely negligent in the care of their eyes, and very culpably so in regard to their children's eyes. The public generally has no idea of the number and variety of present day eye defects and often resort to glasses selected at random which are entirely unsuited to the conditions of the eye. Many glasses selected in this way which "seem to suit exactly" at first, prove most injurious and often result in permanent injury. Come and talk over your eye trouble with us.
