

110 LOCAL SWITCHMEN ARE OUT SONORA SECEDES FROM MEXICO QUIT WORK ON SATURDAY NIGHT AFTER DEMANDS ARE IGNORED; STRIKE SPREADS OVER COUNTRY

NOGALES, SONORA, April 10.—The state of Sonora withdrew from the republic of Mexico today, the state congress at Hermosillo in a secret session which lasted all night, voted, according to reports, to resist with armed forces any attempt of the Carranza government of Mexico to invade the state.

The act of Sonora was brought about by President Carranza ordering federal troops sent into the state. When the plan to send Mexican federal troops into Sonora became known, state authorities said the Carranza troops would be met with armed forces and civil war would result. President Carranza was called upon by Governor Adolfo de la Huerta to explain the reason for the contemplated invasion of Sonora.

Carranza replied that if troops were ordered into Sonora it was for the general welfare of the country. The reply did not satisfy Governor de la Huerta and other state leaders. The state executive in announcing the break with the Carranza government said: "In view of the replies of President Carranza to the governor and congress of the state of Sonora it was decided to suspend relations with the central government until such time as the causes leading to the determination has ceased to exist."

Politics is charged. Carranza explained to set up a military dictatorship in Sonora and take over the state government. He was openly accused of plotting the maneuver to harm the presidential candidacy of General Alvaro Obregon, whose home is here.

Yesterday Sonora officials seized the Southern Pacific de Mexico, an American-owned railroad whose employees had been on strike, and put all the strikers back to work with a guarantee of their demands. The federal government had threatened this action yesterday but the Sonora government stepped in first. The Carranza government had said the railroad would be operated by soldiers, but the strikers and railroad officials could not agree to a settlement and get trains running.

SEIZE CUSTOMS HOUSE IN NAME OF SONORA

DOUGLAS, ARIZ., April 10.—The customs house at Agua Prieta, across the line from Douglas, was seized late today in the name of the Sonora state government and tonight armed men are guarding the building. The administration office and the post office also have been taken over by the state authorities.

The employees of the custom office and the other federal departments have declared their loyalty to the state government. Orders have been issued to arrest and imprison Jose M. A. Tosado, federal customs inspector in charge, should he attempt to return to Agua Prieta. He left for Mexico City a few weeks ago and a telegram from him this morning stated he would return tonight by plane. The federal government officials also have been taken over by the state authorities.

All able-bodied men in Agua Prieta between the ages of 18 and 60 have been organized into state militia and they are resting in their homes. They are protesting the town against invading forces. General J. M. Pino, lieutenant governor of Sonora, when General R. Elias Calles was governor, in command of the militia, ordered to capture the town unless federal troops were permitted to come through the United States, and he did not believe such a request would be granted. Trenches have been dug on the eastern, western and southern outskirts of the town and there are 200 militiamen on watch in them tonight.

NO REPORT HAS BEEN RECEIVED AT WASHINGTON

WASHINGTON, April 10.—While no reports had reached Washington tonight of the resignation of the Mexican central government by the Sonora state government, it was reported (Continued on Page 2, Column 2).

SAYS BIG BUSINESS WINS PRELIMINARY BATTLE WITH LABOR

CINCINNATI, April 10.—In the "preliminary skirmishes" of the threatened industrial war, "big business" has beaten the trade unions, Dr. Royal Messer, commissioner of labor statistics of the department of labor, declared in an address today on the coast of living before the city club in which he urged co-operation as the most promising defensive weapon of the people in the struggle against high prices.

"By a carefully planned and lavishly financed campaign of misrepresentation," Dr. Messer declared, "big business has succeeded in magnifying the defects and obscuring or discounting the benefits of publicly controlled and managed enterprises. The people have been bamboozled into relinquishing all effective control over distribution and prices of food and fuel and they have been made to appear to clamor for the return to private management of the railroads, the telegraph and the telephone lines and the radio systems."

REPORT THAT MEXICO TRAIN IS DYNAMITED

EL PASO, TEX., April 10.—Mexico City newspapers arriving here tonight reported another train dynamited by bandits in Chihuahua. According to the account the train was en route from Torreon to Chihuahua when it was dynamited eight kilometers south of Ceballos Station.

FRENCH DO NOT PLAN TO EXTEND LINE IN GERMANY

PARIS, April 10.—The German charge, Dr. Von Mayer, today addressed a note to Premier Millerand, asking whether it was the intention of the French government to extend further the occupation of the right bank of the Rhine. The premier replied that the French government did not anticipate any such eventuality.

GOVERNMENT IS NOT DECIDED ON STRIKE POLICY

Not Yet Determined Whether the Injunction Can Be Used in This Case.

DECLARE IT IMPOSSIBLE TO ISSUE A STATEMENT

Will Be Forced to Intervene If Strike Seriously Interferes With Transportation.

By RALPH F. COUCH (United Press Staff Correspondent).

WASHINGTON, April 10.—Faced with demands for immediate action, justice department officials today had not decided on their policy in the out-of-law railroad strike.

C. B. Ames, assistant attorney general, who is in charge of the department's inquiry into the strike, today said it would be impossible to make any public statement.

Ames made the same reply to Representative Cooper, Ohio, who got into communication with him at the request of President Lee, of the Brotherhood of Railway Trainmen. Lee claimed that the justice department could use an injunction to break the out-of-law strike, acting under the Lever act. Ames today was waiting for a report on the situation from District Attorney Clyne of Chicago.

Whether the injunction can be used in the present strike is not yet determined, according to Robert Scott, secretary to Attorney General Palmer.

Just before the strike today had made no special arrangements to cope with the profiteering now becoming more than usual acute in Chicago and New York, practically every city in which the strike is interfering with transportation of perishable foods and dairy products. Large quantities of butter and eggs are being stored at the usual prices and could be sold for the pre-strike prices, government officials said.

State Government Forestalls Action by Taking Over and Operating Line.

NOGALES, ARIZ., April 10.—Seizure and operation of the Southern Pacific de Mexico, an American-owned railroad, by state authorities of Sonora yesterday has developed complications of importance with an appeal last night to the Mexican federal government at Mexico City by officials of the railroad company.

President Epes Randolph of the railroad company, in a statement issued at Tucson last night, declared the seizure of the railroad by state authorities was in direct violation of an injunction recently issued by the federal district court in Sonora.

WOOD SAYS LABOR IS RIGHT IN ORGANIZING AND IN BARGAINING

AURORA, ILLS., April 10.—"I am glad to see women getting into politics. I think they will be the biggest factor in bringing labor and capital together in honest understanding," General Leonard Wood said in an address here today. "I am deeply interested in labor; the general said, 'I recognize, we all recognize its right to organize and its right to collective bargaining. Honest capital too has the right to organize.'"

VON BERNSTORFF WILL APPEAR BEFORE SECOND INVESTIGATING BOARD

BERLIN, April 10.—Count von Bernstorff, former German ambassador to the United States, will appear again before the second parliament investigating committee next week. STRIKE SITUATION THROUGHOUT COUNTRY

Reports tonight indicated the following strike situation throughout the country: Chicago, 8,500 idle; St. Louis, 5,000; Toledo, 5,000; an increase of 1,000 today; New York and Jersey City, 3,500; Youngstown, 3,000; Buffalo, 2,000; Kansas City, 1,500; several hundred returned to work; Los Angeles, 1,100; three hundred returned to work in California; Detroit, 2,000, an increase of 500; Pittsburgh, 1,000; Columbus, 2,000, a gain of 1,000; Indianapolis, 700, a gain of 500; Port Worth, 500, a gain of 200; San Francisco, 400; Gary, Ind., 300; Salt Lake City, 475; Syracuse, 200; Saginaw, Mich., 200; Ogden, Utah, 150; Pueblo, Colo., 150; Decatur, Ill., 240, increase of 130; Milwaukee, 150, increase of 50; Pocatello, Idaho, 100; Springfield, Ill., 150, increase of 100; Houston, Texas, 30; Springfield, Mo., 100.

WASHINGTON, April 10.—Orders went out today to United States district attorneys to investigate the "unauthorized" railroad strikes in their districts, to determine whether there has been any "joint action" designed to interfere with the distribution of necessities of life or whether such interference was contemplated.

Attorney General Palmer, who is at Savannah, Ga., in making this announcement, said that such "joint action" would be unlawful. He added that the federal government would take no steps until a careful inquiry had been made to ascertain the exact facts. Mr. Palmer will be in the south for several days and has instructed Assistant Attorney General Ames to act on his own judgment should the situation be found to warrant it.

Local Switchmen Out

One hundred and ten switchmen and yard men left the Railroad yards of this city at 11:00 o'clock Saturday night as the final step in their ultimatum delivered to the superintendents of the Katy and Denver Saturday afternoon at 4:00 o'clock.

According to the officers of the union, the men were practically every switchman and yardman in the employ of local roads.

Establishing a record for speedy organization, the switchmen are today awaiting word from the railroad companies to stand on their feet.

The local union was organized at a meeting held in the Labor Temple Saturday morning. At 4:00 o'clock Saturday afternoon communications were delivered to the superintendents of the Katy and of the Denver railroads asking the following changes in the pay scale:

Foremen receiving \$5.33 a day ask \$1 per hour, eight hours.

Switchmen receiving \$5 a day ask \$2 per hour, eight hours.

The men stated that they were ready to go to work at any time whatever, providing the demands were met by an address.

Several More of Centers Affected

CHICAGO, April 10.—Several more railroad centers today were affected by the insurgent strike of switchmen and passenger service was affected in some places, notably New York City, while strikers returned in small groups at several places. Large areas of the country had not yet been invaded by the strike which union officials declared was an effort to overthrow the unions and make way for a new organization.

The switchmen of New England, in all the southwestern states and in the upper Mississippi and the Missouri valleys remained at work, those in Denver, St. Paul and Minneapolis, many voting to remain at work. On the other hand, hundreds of men in Cleveland, the headquarters of the Brotherhood of Railway Trainmen, today broke away from official restraint and quit work.

Man with Narrow Political Prejudice Not Fit for Office

CHICAGO, April 10.—No man is fit to hold high administration office in this country who has any narrow religious prejudices, General Leonard Wood, candidate for the republican nomination for president declared tonight in an address.

"We want a government run without prejudice to race, color or a man's religious belief," General Wood said. "We are a people who come from all blood strains and we have men and women of all religions. It is equally important that we as a people should not be divided by religious prejudice. Religion should never enter into political life. We must measure citizenship not by a man's religion but by the way he discharges his duty and lives up to American ideals and standards."

THOUSANDS AFFECTED BY STRIKE THROUGH CLOSING OF STEEL MILLS, PACKING PLANTS AND INDUSTRIES DEPENDENT ON THE RAILROAD FOR COAL AND RAW MATERIALS

The insurgent forces were strengthened by nearly eight thousand today, when switchmen in twenty-two additional cities and towns struck and further walkouts occurred in large railroad centers. Again this gain added ten thousand strikers returned to work in a half-dozen places.

More than four thousand joined the strikers already out in Toledo, Detroit, Columbus, Indianapolis, Fort Worth and other cities.

In the Chicago area, claims of railroad heads and officers of the Brotherhood who united to break the unauthorized walkout of the strikers were met with denials by officers of the Chicago Yardsmen's Association of the switchmen, who asserted that the tie-up was complete and that the strikers ranks were being augmented.

Federal Intervention in the Strike

Federal intervention in the strike with the possible utilization of the Illinois national guard to protect property was forecast today by the action of District Attorney Charles F. Clyne, turning to work and that freight traffic and gradually approaching normal, were met with denials by officers of the Chicago Yardsmen's Association of the switchmen, who asserted that the tie-up was complete and that the strikers ranks were being augmented.

situation that affects the food and fuel supply of the country and that drastic action will be inevitable unless conditions are cleared materially within the next 48 hours.

It was learned that Mr. Cline was in conference by telephone with chiefs of the department of justice in Washington until three o'clock this morning.

Members of the Eleventh Regiment, Illinois national guard, were reported to have been ordered to march in close march with their homes so they could be reached by telephone on short notice. They said they were instructed to be ready to go out on strike duty at any time.

Refused to Negotiate.
The General Managers' Association representing the railroads, today announced that it would refuse to treat with representatives of the strikers.

The announcement followed that of H. E. Reading, chairman of the newly organized engineers' association, that committee of three on each of the roads would confer with the general managers of their respective lines and present their demands to them.

Plans for the senate investigation of the strike were completed today by Chairman Cummings of the interstate commerce committee. The inquiry will begin in Chicago Tuesday and will be conducted by the full committee, with John Bourne, A. Whitney, vice president of the Brotherhood of Railroad Trainmen, and officers of the Chicago, Milwaukee and St. Paul railroad, among the strike originators at the first witness.

Lift All Restrictions.
Two railroads, the New York Central and the Chicago, Milwaukee and St. Paul entering Chicago, lifted all freight restrictions and promised 100 per cent operation in the next 48 hours.

Movement of perishable products was started at once with the transfer of fifty carloads of meat and other goods cleared to make way for coal shipments that have been kept out of the city by the yard idleness.

The strike has increased the volume of the mails, according to John M. Hubbard, first assistant postmaster, who said that sixty per cent more mail was handled than before the walkout. About four hundred tons of mail is being handled daily with the aid of trucks.

RESERVE SUPPLY OF FOOD IS DEPLETED

WASHINGTON, April 10.—Reserve supplies of foodstuffs at principal distributing centers already have been depleted as a result of the railroad strikes, the department of agriculture today announced. Large shipments of transit today but arrivals will be more or less affected by local strikes at junction points, an official statement by the department said.

"The strike situation was reported serious at New York," the announcement continued. "Very little produce was lighted across from New Jersey Friday or Saturday."

At Chicago the supply of various commodities was reduced about fifty per cent with the possible exception of potatoes. Most roads were refusing shipments particularly in adjacent territory.

In St. Louis and East St. Louis an embargo was placed on practically all express and freight, both inbound and outbound.

At Kansas City 75 per cent of the railroad facilities were reported unavailable. Car lot dealers reported inability to distribute many cars of perishable produce in the railroad yards. Others are being unloaded in to trucks and contents placed in warehouses.

NEW YORK IS TAKING ACCOUNT OF ITS STOCK

NEW YORK, April 10.—Most of its arteries blocked by the railroad strike New York passed through the third day of its local tie-up without feeling the pinch of hunger and tonight began taking account of its stock.

City Commissioner of Markets O'Malley late today declared there were enough supplies in New York warehouses to meet the needs of the city for six months.

First actual effects of the strike were experienced today by thousands of commuters. Finding local passenger service disorganized on most Jersey railroads, many struck to the wharf of the Hudson by jitney and trolley, only to find the tubes closed by a walkout this morning and ferry service irregular because of the strike of railroad marine workers.

Passenger service showed some improvement during the day.

Accompanied with the report that agents of the department of justice were investigating the situation here railroad officials announced they had sought in vain for leaders of the walkout. No demands, they said had been made upon them.

Strikers meetings were held on the Jersey Shore but newspapers were barred. A few strikers said efforts were made to organize a new railroad workers' union in sympathy with Chicago strikers.

GROUPS OF SWITCHMEN RETURNING TO WORK

KANSAS CITY, April 10.—Group of striking switchmen today returned to work on some of the roads on the Kansas City and officials of six roads affected by the strike announced that freight was moving in their yards. Six railroads reported no switchmen at work. The switchmen of the Chicago, Rock Island and Pacific railroad who had held off for the purpose of determining what action they would take, returned to work today.

Wage demands presented yesterday by the striking switchmen are being ignored, according to W. M. Corbett, general manager of the Kansas City terminal railroad. He said the switchmen are operating under the Brotherhood of Railway Trainmen and that consideration would be given only to any demands from the organization.

Investigation of the strike in Kansas City, Kan., by Attorney General R. J. Hopkins of Kansas and his assistant, John G. Egan, continued today. Ten switchmen have been subpoenaed to appear before Mr. Hopkins. If the desired information is not obtained more will be summoned, officials said. Mr. Hopkins is conducting his investigation under the provisions of the new Kansas industrial relations court law.

MORE THAN HUNDRED STRIKE AT MUSKOGEE

MUSKOGEE, OKLA., April 10.—More than 100 switchmen employed at the yards of all the railroads entering Muskogee failed to appear for

work when the night shifts went on tonight.

Union officials said the men had struck in sympathy with the strikers throughout the country. No notice of walkout was given any official of the railroads.

SAYS NOTHING CAN PREVENT MEN QUITTING

PHILADELPHIA, April 10.—There is no strike of railroad men, asserted Samuel Gompers, president of the American Federation of Labor, here today, to reporters while he was waiting for a deferred trial to New York. He was compelled to go to West Philadelphia and catch a through train from Washington. As he swung aboard he said: "Remember, there is no strike. Congress has prohibited strikes on the railroads, but, of course, there is no law to prevent individuals from quitting their jobs if they choose to do so."

Mr. Gompers would not reveal the nature of his mission to Philadelphia.

sonora state congress factors which undoubtedly led to the congress action were the Carranza blockade.

The state of Sonora is the home of General Obregon, the candidate of the anti-Carrancistas, for president, and opposition to the Carranza administration has grown steadily since General Obregon began his attacks on the president. Political managers fanned the flames with charges that Governor de La Huerta would be re-elected and that the federal troops would assume control of the state.

With the feeling running high, the strike of employees in the Southern Pacific de Mexico railroad came, and a Carranza-appointed judge issued notice that unless the strikers returned to work within 72 hours, the federal government would take over the road.

The Carranza administration would uphold the judge and seize the railroads by the use of troops.

Governor Huerta recently was elected supreme chief of the Yaqui Indians. Since the Yaquis have proven troublesome on many occasions to the Carranza government, Mexico City authorities looked in an even less friendly manner on the government because of his connection with the Indians.

WHOLESALE EXECUTION OF MEXICAN BANDITS

AGUA PRIETA, SONORA, MEXICO, April 10.—Roberto Carrillo, chief Carranza agent here, who returned here today from the central section of Sonora, brought news of a wholesale execution at Nuevo Minos yesterday when a company of federal cavalrymen who have been scouring the mountains in the vicinity of Nuevo Minos trapped 25 bandits in the Canon Diablo (Devil's Canyon) south of that place.

SHARP TELEGRAM SENT TO GOVERNOR OF SONORA

MEXICO CITY, April 10.—In a sharp telegram to the governor of the state of Sonora today, President Carranza declared that any opposition by the state to entrance of federal troops would be considered "an evidence of insurrection."

Carranza's telegram was in reply to one from Governor De La Huerta, in which the governor protested against sending of federal troops into Sonora. "The central government views with suspicion the opposition of local authorities," Carranza said. "Even if the president had not originally felt the danger of outbreaks during the military actions in Sonora necessitated by the presence of federal troops the attitude expressed in the governor's telegram showed plainly that troops were needed."

The government will not suspend the troops movement, Carranza continued, but will consider that the controversy now hinges on a matter of principle, which must be upheld to preserve the authority and union of the republic.

MILITARY ATTACK IS KIDNAPED BY REBELS

WASHINGTON, April 10.—Private notices from Mexico City today said Major Edgar Burr, military attaché of the American embassy, was kidnaped by the rebels who attacked the train at Res Marias, almost with in sight of Mexico City March 25 and was being carried away to be held for ransom when he escaped by force and made his way back to the railroad station. He returned safely to Mexico City with Mrs. Burr, Dr. Florence Hall and a Mr. Hird, also Americans, who were passengers on the train.

Inquiry at the state department disclosed that the capture and subsequent escape of Major Burr were reported in the official message, a part of which was made public by the department April 2. The rebels, after dynamiting the train, lined up the passengers, made certain of Major Burr's identity and carried him off, leaving the others unmolested.

CONSUL GENERAL IS RECALLED BY MEXICO

NEW YORK, April 10.—Ramon P. De Negri, consul general here for Mexico, has been instructed by his government to return home, it was learned here today at the Mexican consulate. Mr. De Negri said he did not know why he had been called to Mexico City.

He will be succeeded here by Bernardino Prieto, now Mexican consul general at New Orleans. Mr. De Negri came to New York from San Francisco.

POLITICAL BUNK SAYS THE ATTORNEY GENERAL

SAVANNAH, GA., April 10.—Attorney General Palmer whose campaign through Georgia was interrupted by illness, declared in an address here tonight that most of the senate reservations to the peace treaty were political bunk.

Referring to the vote cast for him in Michigan, Mr. Palmer said he was consoled by the fact "that there is a large a German vote, so large a red radical vote, there and that a senator of the United States has been sentenced to the penitentiary for two years."

SENATE HAS AGAIN BECOME THE BATTLE GROUND FOR PEACE

WASHINGTON, April 10.—With the adoption by the house of the joint resolution declaring the war with Germany at an end, the senate today again became the "battle ground for peace."

Both republican and democratic leaders expected the measure to be taken up there without great delay, probably Monday.

Opposition to the resolution from those who have fought so bitterly for the adoption of the Versailles treaty was assumed, but opponents of the treaty and the league of nations were confident its passage would be attained with considerably more than a majority, and that the affirmative vote would include a fair percentage of democrats as was the case in the house.

ENGLAND'S ATTITUDE IS PLEASING TO GERMANY

BERLIN, April 10.—Great Britain's disapproval of the action of France in occupying cities in the neutral zone east of the Rhine is hailed by newspapers here with moderate expressions of satisfaction.

"France is in the thrall of Chauvinism and militarism," says the Arbeiterwart, "which, as Germany's fate has shown, lead nations inevitably to perdition."

"Great Britain's attitude," the Telegraph declares, "is a reminder to France that the Versailles treaty is not a compact between France and Germany, but all European belligerents."

The Lokal Anzeiger, while admitting there is "a dawn of common sense in the world," asks why the allies of France did not act more promptly.

REORGANIZATION OF NAVY IS PLAN OF COMMITTEE

Changes Under Consideration Would Eliminate Much of the "Red Tape"

WASHINGTON, April 10.—The senate naval affairs sub-committee today voted to prepare recommendations looking toward re-organization of the navy.

The plan is to take more testimony upon which these recommendations will be based, thus broadening the scope of the inquiry.

Changes which are under consideration would include alterations in the navy's department system of apportioning responsibility with the idea of eliminating "red tape."

Today's action was taken by a strict party vote of the Hale sub-committee which is investigating the Daniels-Sims controversy.

The committee hopes by this course to directly apply the lessons of the war in the interests of efficiency, and greater preparedness for future difficulties.

Chairman Hale said today that as part of the recommendations the committee probably would ask congress to appoint a technical commission of naval officers to co-operate with house and senate committees in event the committee's recommendations are taken up for consideration.

"This will give the committee a chance to do something constructive," Hale said.

"It is the only way I see of utilizing the lessons of the war. We ought to have testimony from all sides, including the secretary of the navy, naval officers and industrial leaders so that the principles of sound administrative efficiency can be combined with the special needs of the navy."

Democratic members of the committee in protesting against the recommendations, said they did not oppose plans for re-organization being made, but objected that Hale's committee had no authority to do this.

SENATE TO BROADEN NAVY INVESTIGATION

WASHINGTON, April 10.—Over the protests of the democratic members, the senate committee investigating the Daniels-Sims row decided today to broaden the scope of its work to include suggestions for the reorganization of the navy department.

Senator Pittman, democrat, Nevada, strenuously objected to the examination of Rear Admiral F. F. Fletcher by Chairman Hale to develop re-organization suggestions, declaring that the committee had no authority to go in that matter.

Chairman Hale declared the committee was authorized to investigate anything connected with the navy department.

THREE MEN KILLED ANOTHER INJURED IN LANDSLIDE ON RIVER

KNOXVILLE, TENN., April 10.—Three men were killed and another was seriously injured late today when a landslide on the Little river railroad near Townsend buried them under tons of rock and earth.

The men were employees of the Little River Lumber Company, owner of the railroad, and had been taken from the mill with a large crew to repair damage caused by the recent floods.

REPORT NEW BASIS FOR SETTLEMENT OF ADRIATIC QUESTION

LONDON, April 10.—Reports that a new basis of settlement of the Adriatic question has been proposed by Premier Lloyd George on which the advice of the United States was not solicited were confirmed by an authoritative Serbian quarter this morning.

GEN. HARTS DEFENDS HIS WORK WHILE IN PARIS

WASHINGTON, April 10.—Resuming the defense of his administration of the Paris military district during the war, Brigadier General William W. Harts told a house investigating committee today that his work had twice been praised by General Pershing, once in France and recently when he returned from Coblenz to testify in the inquiry.

The number of brutalities in Paris were "extraordinarily small," General Harts said. "Americans at the rate of 5,000 officers and men a day passed through the French capital. Five separate gangs of criminals were broken up by the police forces."

GOVERNOR OF THE RESERVE BANKS CONFERS

WASHINGTON, April 10.—A series of conferences attended by the governors of the federal reserve banks and members of the federal reserve board ended tonight without announcement as to probable changes in rediscount rates of reserve banks.

Higher rates were discussed as a possible means of checking the increasing flow of commercial paper into the reserve institutions but there was no indication of the attitude of bankers.

CONSTANTINOPLE, April 8

General Denikin, former commander of anti-bolshevik forces in southern Russia, left here today on a British warship, presumably bound for Malta.

COURT OF INDUSTRIAL RELATIONS RESUMES COAL INVESTIGATION

PITTSBURG, KANS., April 10.—With the resumption of the investigation of the coal industry by the court of industrial relations here today, it was announced by Judge W. L. Huggins that it was hoped wives of the miners would respond to the court's request and testify as to home and school conditions. The women will not be subpoenaed but are asked to testify voluntarily.

Testifying before the court on the conditions under which the miners worked, P. T. Darrow, a miner today declared that in the meetings of the local unions any one who expressed sympathy with the administration was hooted and that as a result he had long since ceased to attend the meetings. He asserted that most of the offices of the locals were controlled by foreigners and that for some of them an interpreter is necessary to tell those who do not understand English what the proceedings were.

Darrow testified that he expected to have to pay a \$50 fine for testifying before the court, as he understood that at the recent district convention of the miners at Kansas City an amendment to the constitution was made penalizing members for testifying, and providing for a five thousand dollar fine in the case of violations by officers.

Four thousand miners remained away from work, following the incarceration for contempt of President Alexander Howat and three other miner's union officials.

GOVERNMENT FLEET ON MISSISSIPPI IS PREPARED FOR EMERGENCY ORDERS

NEW ORLEANS, April 10.—The government fleet on the Mississippi was tonight prepared for emergency orders following information from Natchez that the river had reached a stage of 47.5 feet, or 2.5 feet above the flood stage. Many cultivated fields already are flooded by backwaters and livestock is being removed to high ground. Engineers are confident that the levees on the Louisiana side of the river will hold.

AROUND \$1000 IS SECURED SATURDAY IN TAG DAY DRIVE

SOMETHING LIKE 20 NEW DERRICKS NEAR THE ART-BOGER WELL

Approximately \$1,000 was added to the Near East Relief fund by the work of the high school girls and the women's committee on Saturday. Mrs. J. W. Lee, the chairman, announced Saturday night, the tag day having been very successful. Miss Jessie Mae Agnew, who with Mrs. Lee had charge of the tag day reported the team headed by Mrs. W. P. Bolding and composed of Misses Grace Ritter and Marjorie Dulin as being the most successful, receiving more than \$200 for their tags. Miss Ritter took in the largest individual collection, totalling approximately \$200.

Lucy Gates Receives Baptism of Oil and Sings in the Field

Saturday afternoon Lucy Gates, America's "Gall Curie," who sang in Wichita Falls Thursday night, received her "baptism of oil" at the Art well in the Kemp-Munger Allen field. Miss Gates and party visited the well, which was permitted to run wild into the slush pit for the famous singer's edification and entertainment. Standing on the edge of the slush pit Miss Gates was sprayed with the oil, and gloried in the experience. Then she gave a demonstration, to show her appreciation, giving several songs and charming her impromptu audience quite as much as if the slush pit was the Metropolitan Opera House. She was charmed by the oil fields, she said, and those who were in those particular oil fields at the time of her visit certainly could not regret the compliment.

Y. W. C. A. AFTERNOON BIBLE CLASS MEETS.
The Sunday afternoon Bible class of Y. W. C. A. will meet this afternoon at 4:00 o'clock at the recreation room and all young women of the city interested are urged to attend. The class has just been organized, but is already proving very interesting. Mrs. E. S. Gidner as leader. A full attendance is hoped for this afternoon.

Something like 20 new derricks have made their appearance in the immediate vicinity of the Art-Boger-Ard-Haynes well since its completion and the beginning of its sensational flow ten days ago, according to Saturday afternoon reports from the field. Seven of these new derricks belong to the syndicate headed by J. L. Art, the owner of the well, while a number of additional locations have been made along the line of their 110-acre holdings. Other of the new derricks belong to Cline et al, assay buyers in the district; to the Keen-Wolf firm, whose well just north of the Art well, standing just to complete, gives every indication of being as good as the first well, flowing around 500 to 400 barrels from only a few inches into the sand; to the Manhattan Production company, (Crude Marketing Co.); to the Crude Production company, the Texas Chief Oil company of Delaware, and a number of other concerns.

The Art well continues its remarkable flow with the four-inch drill pipe still in the hole, running around 1400 to 1500 barrels of oil per day. The Texas Pipe Line company is running the oil. The drill pipe will probably be removed and the well completed within the next few days.

Roads in the Kemp-Munger-Allen district are reported breaking down rather badly under the heavy traffic which has followed the late developments in this field. More than 100 heavily loaded teams were noted on the road by one party making a trip to the field Saturday afternoon. The Seymour road is reported in fairly good shape. These, it is declared, will be impassable following a rain.

BEGIN EXHUMING BODIES OF AMERICANS WHO DIED OUTSIDE BATTLE ZONES

PARIS, April 10.—Exhumation of the bodies of United States marines and sailors who died outside the battle zones in this country during the war has been commenced by the American naval department. There are now 200 flag-draped coffins at Brest awaiting shipment to the United States and the first shipment will be made late in April.

SAVED AT SEA AFTER 11 DAYS DRIFTING IN OCEAN GALES

Captain Andreas Andersen, and part of the crew of the Norwegian barque Sydnaga, which sank March 7, when 550 miles east of the Virginia Capes. After 11 days drifting over the Atlantic and battling ocean gales they were sighted and picked up. It is said that the men at one time were about to drink its blood in order to satisfy their hunger.

BAPTIST REVIVAL TO CONTINUE THIS WEEK

Splendid success is reported from the revival services now being conducted by Mr. E. E. Gates of San Antonio at the First Baptist church and on Saturday a total of 47 accessions were reported as resulting from the first week's meeting. Today is expected to be a big day in the meeting, and in the history of the church as well. Rev. O. A. Powers, the pastor, stated.

The revival will continue through this week, with services every morning and evening. There will be no special services, outside the regular morning and night program. The music, led by Mrs. J. W. Cole, is a particularly enjoyable feature, and is proving a drawing card, it is reported. All Baptists in the city are expected to attend, and the public is cordially invited.

NOTHING ESTABLISHED STOCKHOLDERS OF REFLECTING ON UNION IS LEGION STATEMENT

K. M. A. URGED TO RETAIN HOLDINGS

At a called meeting of the Pat Carigan Post of the American Legion held Saturday night at the Post quarters in the First Methodist Church corner of Seventh and Lamar, an investigation was made, regarding alleged grievances of an ex-soldier who was working in the city, and the following statement authorized as the result:

"The item appearing in the Record-News of April 10, with reference to alleged grievances of an ex-soldier against a labor organization, was published without the authorization of this post. As the article reflects upon a labor organization, this post wishes it made clear that while the matter referred to has been, and is now, under investigation by officers of this post, nothing has been established so far to reflect in any way upon the labor organization mentioned."

The furnishing and equipping of the Post's club rooms was also discussed, among other business. An offer by W. W. Silk and associates for a memorial tablet to be put in the Rosemont Burial Park was declined on the grounds that a memorial tablet would be placed shortly in the court-house, this being decided upon as the most logical place for a county memorial.

Stockholders of the Kemp-Munger-Allen Oil company are urged to hold on to their stock in a statement issued Saturday by J. A. Kemp, president of the company— or, if determined to sell, are requested to confer with him before doing so. "I believe that we have a great field there, and that the company has great possibilities of making money," said Mr. Kemp. "For this reason, I advise all stockholders to keep their stock, or at least see me before selling it."

"I am particularly anxious that the stock market manipulation, should not be attempted, should result in the stockholders letting go of his stock below its real value."

"I also wish to urge that all stockholders be represented in person or proxy at the stockholders meeting on the 20th, as a number of important questions will come up at that time, among which will be the decision as to whether the company will undertake the development of their acreage, to take advantage of the offers for the sale of their holdings."

Mr. Kemp has repeatedly declared his belief that the stock is worth several thousand dollars above any price for which it is yet sold.

WICHITA FALLS IS HOST TO THE FT. WORTH KNIGHTS KHORASSAN; STAGE PARADE AND CEREMONIAL

Wichita Falls Saturday was host to Azotes Temple No. 175, Knights of Khorassan. The entire day, beginning early in the forenoon with a trip to the oil fields and ending late in the evening with an elaborate ceremony at Pythian Hall, was given over to Dokey festivities of various kinds. A party of enthusiastic Dokeys, 66 in number, reached Wichita Falls in the early hours of Saturday morning. They were here in two Pullmans for the purpose of guiding a score or more of tyros across the burning sands of Khorassan. Fort Worth Dokeys were joined here by a large delegation of local Knights together with Knights and tyros from 10 counties of North Texas. The feature of the day was a parade of Dokeys and tyros, which started at 10 o'clock in the afternoon through the business section of the city followed by a banquet in the basement of the Methodist Episcopal church, Seventh and Lamar streets. The ceremonial was conducted in the evening at the Knights of Pythias hall on Scott avenue.

NEWLY ELECTED CITY OFFICERS TO QUALIFY ON MONDAY EVENING

The new city administration is to qualify at a special meeting of the city council provided for in the new charter for Monday night at 8:00 o'clock, the charter provision making it obligatory that they qualify at this time or their offices will be forfeited. The incoming officers consist of Walter D. Cline, mayor, and W. S. Curlee, M. A. Bundy and W. N. Bonner, members of the board of aldermen. Messrs. Curlee and Bundy were elected for the full term of two years, and Judge Bonner for one year, filling out an unexpired term. Mr. Cline will succeed Mayor J. B. Marlow, who retired, and the board of aldermen, with the election of Messrs. Bundy and Curlee, will remain unchanged, save for the addition of Judge Bonner. The first work to come before the new administration will probably consist in the appointment of the various city officials, these positions being appointive instead of elective under the new charter.

FEED AND GRAIN HOUSE SIXTH AND OHIO BURNS; SEVERAL THOUSAND LOST

Fire totally destroyed the Otto T. Beez Feed and Grain house at Sixth and Ohio Saturday evening. The loss could not be estimated but it is known to be at least several thousand dollars. The fire was reported at about 7:45 p. m. at that time the fire had gained considerable headway. It appears to have started in the rear of the building and worked back. The origin of the fire could not be determined. The warehouse was filled with grain, hay and other feeds and the loss is practically complete. It is probably worth \$20,000. It is covered by insurance. Bentley Bacon announced Saturday night that the firm will be open for business Monday morning at the new house at the corner of Michigan avenue and Third street.

FIRST BLOCK PARTY IN DISTRICT F THURSDAY

On Thursday, April 15, the Fifteen Hundred Block on Hays and the west side of Tilden, will hold a block party at the home of Mr. and Mrs. B. F. Johnson, plans for this meeting being made at the first block party held in District F, which was held at the home of Mr. and Mrs. Bentley Bacon last Monday night. B. F. Johnson was elected chairman, Bentley Bacon vice chairman, Mrs. Bentley Bacon secretary, and Mrs. Wade Walker, Mrs. Bacon and Mr. Frasier the entertainment committee. There were represented at this first meeting 11 of the 16 families in the block.

OLD-FASHIONED "WOOL PICKING" IS GIVEN FRIDAY AFTERNOON

Mrs. M. M. Montgomery entertained a number of friends with a delightful wool picking party, an old-fashioned wool picking such as used to entertain neighborhood in the days when the family woollens were sheared, picked, carded and spun, and also woven into cloth right in the home. The wool that was being picked was in itself quite a feature, having been clipped in Idaho 20 years ago. An old negro "mammy," Aunt Lizzie Campbell of San Antonio, now in Wichita Falls, who knows the old art of carding wool, is to finish the wool into bats for comfort.

NEW SUITS FILED IN COURTS OF THE COUNTY

New suits filed in the 30th district court are as follows: Walter K. Campbell vs. Constable Refining Co., foreclosure of chattel mortgage. American National bank of Wichita Falls vs. H. H. Sanders, foreclosure of chattel mortgage.

Visiting Dokeys were driven in automobiles to Burk Burnett and other sections of the oil fields Saturday morning leaving Wichita Falls at 10:00 o'clock and returning about 3:00 o'clock in the afternoon. Many of the visitors had never seen the Wichita oil fields prior to Saturday's trip and they expressed wonder at the great petroleum development in this section. In the afternoon preceding the parade a dozen or more Dokeys assisted young women on the downtown street corners in selling tags for the American relief fund.

Dr. J. W. DuVal presided at the banquet. Addresses were made by Lee Stubbs, C. J. Kincaid, Sam Losh, all of Fort Worth. Dr. DuVal and several others. Among those at the banquet table were Dokeys and tyros from Burk Burnett, Edge, Iowa Park, Throckmorton, Hendricks, Bowie, Vernon, Stamford and Abilene. More than a score of tyros were initiated into the dramatic Order of Khorassan at the night ceremonial. Those taking the degree work became members of Azotes Temple No. 175, which is one of the largest temples in the order. Its membership now numbers 250 and it is believed that the number will pass the thousand mark by next August, the meeting date of the Imperial Temple of Chattanooga, Tenn. Visiting Fort Worth Dokeys returned to their homes early Sunday morning.

Candidates taking the Dokey degree were as follows: J. I. Wood, W. M. Bailey, Wayne Sumnerville, W. L. Wells, L. L. Bowman, F. G. Swanson, J. A. Stewart, O. W. Hines, W. M. G. Muckecheer, Ed Knox, A. MUCH INTEREST ATTACHES TO THE MORE RECENT DEVELOPMENTS IN KEMP-MUNGER-ALLEN TERRITORY

With derricks and rigs already going up on 19 new locations immediately around the Art and Keen-Wolf wells in the Kemp-Munger-Allen districts while these are sensations of little more than a week's standing, the Kemp-Munger-Allen pools, the center of the stage in the Wichita Falls district, and promises for the coming summer the same intensity of development prevailing in the Waggoner district during the past year.

And, while this development for the present is clustered closely to the western property line of the Kemp-Munger-Allen company, proper in the immediate vicinity of the completed wells, operators in this section are keeping a close lookout on the No. 2 and 4 of the Kemp-Munger-Allen company, between these two tests and the discovery well, one a mile to the southwest, both of which are rapidly approaching sand depth. This interest is heightened by reason of the fact that the 500 acres of that company was recently broken into by a syndicate of Wichita Falls operators by the purchase of 50 acres for a consideration of half a million dollars—a precedent which many believe this company was recently broken into by a syndicate of Wichita Falls operators by the purchase of 50 acres for a consideration of half a million dollars.

Running 1500 Barrels. Reports from the Art-Boyer-And-Haynes well, which is producing flows beginning more than a week ago, continue to bear out the estimate made at the initial performance. With the drill pipe still in the hole this test is actually running around 1500 barrels of oil per day. The Keen-Wolf, which is standardizing and which is less than a foot in the sand, is making three or four hundred barrels, an even better performance than that of the Art-Boyer-And-Haynes well before being drilled deeper into the sand.

Other Developments. Other features on the western edge of the pool are looked for from the No. 1 Munger of the Sinclair Oil and Gas Co., which kicked on the 17th of last month at about the same time as the Art and Keen-Wolf wells, but which has been delayed through their rig being blown down after waiting 10 days to allow cement to set, which is now scheduled to drill in before the end of the week, and the Crude Oil Marketing Co., No. 1 Munger, which, in expecting to pick up the Kemp-Munger-Allen sand further down, went through the sand, and which has since plugged back and is expected to be an early completion.

Several flows have been reported from this well since plugging back to the 1540 sand. On the south edge of the pool the Kemp-Munger-Allen, No. 2 Munger, south and west of the discovery well, carries the principal interest, having made a strong show of oil late in the week. A specially designed packer is being set in this test, and confidence is expressed by officials of the company that it will be completed within a few days.

Intending to take full advantage of the present interest in Willbarger county, and the present high price of crude oil, the Penn-Burkburnett Oil Company, in which eastern capitalists are heavily interested, is making arrangements for an intensive campaign on its valuable acreage west of Vernon, where its first well is now down more than 1500 feet.

This statement was made yesterday by D. C. Scott, treasurer of the company, who is registered at the Hotel Stratford, having preceded a party of eastern financiers, who are expected to join him in Wichita Falls within the next few days.

Our company was organized last August with a capitalization of only \$120,000, said Mr. Scott at the Stratford yesterday, "and today it is a million dollar enterprise. In fact we have been so uniformly successful with our operations in Pennsylvania and other fields that today the company is in a very healthy financial condition."

REPORTS PROGRESS ON TEST DRILLING IN NEW MEXICO. A. S. Fontville, who spent several weeks here last week reports that the Endeavor Oil & Gas Company which is drilling a test on its extensive acreage in Quay County, New Mexico, now down over 700 feet. Mr. Fontville is one of several men who have joined to put down this test. It is on a large structure and its progress is being watched with interest by oil men.

SEVERAL NICE FLOWS ARE REPORTED FROM WELL NEAR VERNON

Several nice flows have been reported from the Sigler well on the Wharton ranch south of Vernon during the past week, the heads amounting to around 100 barrels each and coming at intervals of about 24 to 36 hours apart, according to latest reports. The oil during the first flows very black and heavy, is reported now nearly light green in color and perceptibly lighter. Completion of the well is being held up for the erection of a tankage, and may be even further delayed through litigation now in progress.

TO ATTEND MEETING OF COUNCIL OF PREMIERS

LONDON, April 10.—Prime Minister Lloyd George was to leave today on a three days sea voyage to Marseilles, en route to San Remo, where he will attend the meeting of the council of premiers.

It was stated authoritatively that there was no question of Great Britain demanding French withdrawal from the Rhine cities. The British position was outlined as a protest against France's single handed action.

The Post today joined the North-cliff newspapers in a violent attack upon Lloyd George and criticized Lord Curzon, the foreign minister for permitting himself to be "virtually superseded by the prime minister's secretary, Philip Kerr, whose Russian diplomacy" has been comparatively successful.

SAYS FARMER WILL NOT LONGER PRODUCE COTTON FOR PRICE

WASHINGTON, April 10.—Warning that the southern farmer will not consent longer to toll twelve months of each year for cotton for which he cannot get a fair price was given today by Representative Aswell of Louisiana, speaking in the house.

"If he is not permitted to grow cotton at a profit," Mr. Aswell said, "the world problem of the future will not be how to get cheap cotton but the question with the cotton mills and the consumer will be how to get cotton at any price."

Mr. Aswell quoted the department of agriculture to show that the average cost of producing cotton in 1918 was 35.5 cents a pound as compared with a price of 28.75 cents. Production costs in 1919 increased, he said to at least 44 cents while the price went up to only 31.2 cents. He quoted prices paid by mills to show that the cost of staple to spinners was \$23,000,000 more than received by the farmers and declared the cotton producer received a smaller share of the profits

The West team was declared the winner in the contest just closed, and were given much praise for their good work. The losing team announced a banquet to be served to the winners next Friday afternoon, and all Grove members are urged to be present. A special invitation is extended to all who took part in the programs in any way during the contest, and to all members of the team and all who will take part in the team are expected to meet at the hall at 1:30 next Friday. There were a number of visitors from Grove for a story presented at the Friday meeting, also a good attendance of members.

BIRTHDAY PARTY FOR RUTH HENDERSON WEDNESDAY

Little Miss Ruth Henderson celebrated her fifth birthday on April 7, with a delightful party for her little friends. Numerous games, such as "Hide the Thimble," "The Farmer in the Dell," "Cat and the Rat," and other childish diversions were enjoyed until late in the afternoon when Ruth's mother gathered the guests about her for a story telling time. Refreshments of strawberry ice cream and cake were served. The birthday was made a happy time for the little hostess by a number of pretty gifts.

BIRTHDAY PARTY FOR HARROLD KARR FRIDAY

The fifth birthday of Harrold Karr was celebrated on Friday, April 9, with a birthday party. The home of his parents, 2700 Kemp Boulevard Games and music entertained, and with the service of the refreshments of ice cream and cake came the cutting of the birthday cake, prettily decorated with five tiny candles. The ring was cut by the little host, and C. W. Byers, Jr., and Morris Robertson were fortunate in cutting the coin. The guests were: Frances Farrell, Frances Robertson, Morris Robertson, Maurice Shirley, Clayton Davis, Clara Byers, C. W. Byers, Jr., and Frances Beason. Mesdames Shirley, Byers and Robertson were present, and entertaining the little folks.

PARRISH HOPES FOR AN ENDORSEMENT OF THE ADMINISTRATION

Congressman Lucian W. Parrish has sent a telegram to Clyde A. Sweeton, chairman of the administration forces in Texas, in which he expresses his wish that the administration will be endorsed. Mr. Parrish's telegram follows:

Hon. Clyde A. Sweeton, chairman democratic administration executive committee, Dallas, Texas. My Dear Mr. Sweeton, I wish to acknowledge receipt of your letter of the 23rd instant, wherein you say an effort is being made to send a delegation to the national convention, which will condemn the administration, and that the issue is, shall the democracy of Texas endorse or repudiate the achievements of the democratic administration of the past seven years. In reply, I wish to say that I very earnestly hope the delegates elected to represent the democrats of Texas at the San Francisco convention, will be in sympathy with and will endorse the national democratic administration. With kindest personal regards, very sincerely yours, LUCIAN W. PARRISH.

Alleged Bootlegger Sells Beer Alright But Without "Kick"

Rumors that a bootlegger was selling a "brew with a genuine kick" aroused the deep suspicions of federal agents Saturday, but further investigation disclosed that the so-called brew did not possess the alleged "kick," being in reality the common near-beer sold at local soft drink stands. Two women in the "flat" made complaints to federal officials that they had purchased 25 bottles of the alleged "genuine article" at a price of \$2 per bottle and that investigation had shown the brew was counterfeited. Federal officials turned the bootlegger over to county officials and a complaint alleging swindling over \$50 will probably be filed against him.

According to information received by federal officials, the man told his purchasers that the beer was genuine and possessed a "kick" that would remind them of the "good old days." The bootlegger asserted that he secured the beer on the Mexican border and was selling it "rather cheap," in order to get out of town before apprehended by federal officials. He is said to have sold approximately \$500 worth of the fake beer in Wichita Falls, but refunded money on all but 25 bottles which he sold the two women in the "flat."

WORLD-WIDE SEARCH FOR JEWELS IS REWARDED

NEW YORK, April 10.—A world-wide search for a fortune in jewels, the property of Mrs. Clarence Millhiser of Richmond, Va., ended here last night with the arrest of James E. Foye, who had in his possession a check for \$20,000 paid by a pawnbroker for nine pearls believed by police to be part of a necklace valued at \$275,000 lost by Mrs. Millhiser here last May.

Cement Industry Quickly Recovers. The Portland cement industry is the setback it experienced during the war. Preliminary estimates compiled by the geological survey indicate that the production and shipments of Portland cement in 1919 increased 15 and 21 per cent, respectively over those in 1918 and that the stocks decreased 52 per cent, so that at the end of 1919 less than 5,000,000 barrels of Portland cement were in stock at the mills.

 Friday and Saturday—Theda Bara in "Kathleen Mavourneen."

DOROTHY DALTON IS COMING TO EMPRESS

The Paris underworld in all its romantic, glamorous and sordidness lives before the audience's eyes in "L'Apache," the new Thomas H. Ince picture starring Dorothy Dalton, which was produced for Paramount-Areraft release and will be shown at the Empress theater for two days beginning Monday. Miss Dalton is seen in a dual role. As an Apache dancing girl, she performs at the command of her ruthless criminal husband, and finally flees from his cruelty and finds refuge in the Bohemian quarter. By a freak of fortune she encounters her double, a rich American girl who has fallen under the power of a profligate millionaire. This part also is played by Miss Dalton and gives her an opportunity to wear some exquisite gowns. After many thrilling adventures and a startling climax, the drama is worked out to a happy ending.

Robert Elliott, Mary Harlan, Austin Webber, and Louis Darcley are included in the supporting cast of "L'Apache," which was directed by Joseph De Grasse.

"MRS. LEFFINGWELL'S BOOTS" AT THE PLAZA MONDAY

Ladies beware of "exclusive" designs in boots. You've no idea what a peck of trouble they may cause. If you have any doubt on this score, go and see Constance Talmadge in her latest "select" picture, "Mrs. Leffingwell's Boots," in which she is presented by Lewis J. Selznick at the Plaza theater on Monday. Miss Talmadge is cast most happily as Mrs. Leffingwell, the dainty young matron who to please her husband and make him "loosen up" with his coin, flirts with another man. Then the boots make their appearance. Little Mrs. Leffingwell is strong for fancy clothes and she simply can't resist the impulse to buy a pair of handsomely embroidered slippers, the replica of a pair which another young man has purchased to give his fiancée. In the end the young lady breaks off her engagement with the young man, and writes her better given the boots, or slippers, to his housemaid. Mr. Leffingwell knows his wife has a pair of the same kind, so when he looks into the young man's windows and sees someone trying on the slippers, he naturally thinks it is his wife. Trouble follows thick and fast, until a house party throws the whole group together and the complications are explained. Then the "whole thing" is cleared up, and the boots land in a muddy brook.

DOUGLAS FAIRBANKS AT THE MAJESTIC MONDAY

The first motion picture to be made by Douglas Fairbanks as a member of the Big Four—United Artists Corporation to use its full name—has been secured for a presentation by the Majestic theater Monday. "His Majesty the American" is made up of Mary Pickford, Charlie Chaplin, Douglas Fairbanks and D. W. Griffith. The picture itself is said to be the most ambitious production that Fairbanks has ever undertaken. Eight weeks were devoted exclusively to the preparation of the scenario. Joseph Henabery, who created the part of "Lincoln" in the "Birth of a Nation" and who assisted D. W. Griffith in producing "Intolerance," also directed Douglas Fairbanks in "The Man from Painted Post," "Say Young Fellow," and other noteworthy successes, developed the scenario with the assistance of Elton Banks, Mr.

AT THE EMPRESS THURSDAY

ROBERT WARWICK IN "THOU ART THE MAN" A PARAMOUNT ARTCRAFT PICTURE

Henabery, of course, is the director of "His Majesty the American." Marjory Daw plays the leading female role in the picture and Frank Campen, Sam Sothorn, brother of E. H. Sothorn, Lillian Landson, Albert McGuarric and other notables are included in the cast.

In addition to a company of high-salaried actors, that in themselves guarantee splendid support for the agile "Doug," "His Majesty the American" is said to have cost a fortune in point of actual production. Mr. Fairbanks has set a mark which it will be hard to approach in settings for his new picture. Money has been spent lavishly in providing the atmosphere necessary for the successful portrayal of the story but the results have completely justified the tremendous outlay. Its presentation at the Majestic theater should be a genuine event among the motion picture enthusiasts of the city.

SETTLING UP THE ESTATE OF SYLVIA ANN HOWLAND

NEW BEDFORD, MASS., April 10.—Checks in final settlement of the one million dollar trust estate of Sylvia Ann Howland were being prepared today for distribution to the 429 beneficiaries, who are scattered all over the world. The accounting of the trustees, which shows that it cost \$73,000 to settle the estate now grown to \$1,159,129, was accepted by the probate court, which ordered final distribution. For their services, the trustees receive \$6,000 and the generalist who hunted up the heirs, \$15,000.

Mrs. Hetty Green, for many years known as the wealthiest woman in America, expended the income from the estate during her lifetime, the money having been left in her trust by Miss Howland, her aunt. The present distribution is to the heirs of Miss Howland's grandfather, Gideon Howland, who built up the fortune in the whaling industry.

Bryan Hanks, who is attending the University of Colorado at Boulder, Colo., is visiting relatives in Wichita Falls, and renewing friendships of high school days.

ARREST TWENTY-ONE AT NEW KEMP HOTEL ON GAMBLING CHARGE

Twenty-one men were arrested on charges of gambling at 3 o'clock Saturday afternoon when officials of the sheriff's department raided a "crap" game being conducted on the upper floor of the Kemp hotel being erected at Eighth street and Scott avenue. The men were marched to the court house where they pleaded guilty and were assessed fines for gambling.

GENERAL HALDEMAN TENDERS RESIGNATION

LOUISVILLE, KY., April 10.—Gen. W. L. Haldean today announced his resignation as a member from Kentucky of the national democratic committee because of ill health. The resignation will take effect, April 21, the announcement said.

JAILER ATTACKED BY PRISONERS WHO ATTEMPT ESCAPE

Prompt assistance by a "trusty" prevented a general jail delivery at 1:00 o'clock Saturday. When Jailer Charlie Biebout opened the prisoners' quarters to supply the noon meal, four husky prisoners attacked him jerking the jailer's keys from his hands and striking him several blows in the face. One of the prisoners secured a towel and assisted by three confederates had almost bound Biebout hands and feet when the "trusty" rushed to the jailer's assistance. Biebout and the "trusty" succeeded in forcing their assailants back into the cells only after a severe fist battle. The four men who attempted the jail delivery are among the worst men confined to the county jail, according to attaches of the sheriff's department. They are charged with several theft of oil field equipment and are awaiting trial on felony complaints. Sixty prisoners are confined to the county jail but only four participated in the attempted delivery.

J. T. GIBSON RESIGNS AS ASSISTANT TO POSTMASTER LON HOWARD SUCCESSOR

J. T. Gibson for the past twelve years assistant postmaster in the Wichita Falls postoffice has resigned and has left for Anadarko, Okla. for a short visit after which he will go to Oklahoma City, where he and Mrs. Gibson expect to remain for five or six months. Mr. Gibson's health has suffered from his years of hard work in the postal service and he will take a long rest before re-entering the service. Lon Howard, who has been employed in the Wichita Falls postoffice for about ten years and who has been foreman for several years, will succeed Mr. Gibson as assistant postmaster. C. K. Johnson will succeed Mr. Howard as foreman. These with Lloyd Billingsley as superintendent of the mailing room and Kelly Ross as superintendent of city delivery complete the executive staff of the postoffice.

An Assortment of Spring Models That Establish Our Suit Supremacy

More Radiant Silks

Are Now Being Shown

Even though this is a Silk season, Silks are very hard to get, that is the good quality, moderately priced kinds, that our customers have become accustomed to look for here, yet you would hardly believe this to be the case when you see the broad selection we will have to show you Monday.

Visit our Silk Department Monday.

Becoming Hats For Little Girls

This year the little miss may choose her school, sport or party Hat from as smartly tailored a collection as her mother has to select from.

Sailor shapes, Tams, Poke shapes and other modes; neatly trimmed with ribbons or flowers.

We pride ourselves this season on the splendid collection of Children's Hats that we are showing.

Suits

For Women and Misses

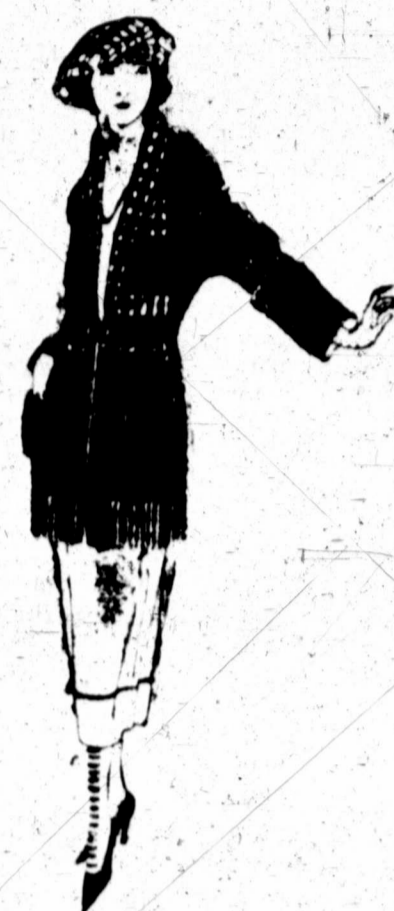

The forethought and preparation, the completeness of our stocks and the high standard of the merchandise entitle us to this distinction.

The decision to make our department the "Center of Suit Fashion in Wichita Falls" was carried out by concentrated efforts to secure the best variety in models that would meet with the approval of every well dressed woman.

In our showing of Suits, the tailoring is to be noted particularly, all the small details that give a suit that air of faultless tailoring are given particular attention.

The leading suit materials are Serge, Poiret Twill and Tricotines, and the colors are "navy" principally, beige, soft tan, shepherd checks and a few pin stripes.

Priced to suit every pocketbook \$49.50 to \$195.

Exclusive Modes in Spring Coats \$29.50 to \$225

The jaunty, dashing lines of the Sport Coat brings styles of rare loveliness. Comprising highly individual modes, gorgeous in their color allure, youthful in theme and of course original in design.

They are fashioned from such rich fabrics as Polo Cloth, Velour, French Serge, and Taffeta for sport and street wear.

The Skirts Are New and Colorful

\$12.50 to \$49.50

Fashions of Quaintness, of an Ever-Changing Charm—and Fabrics that are the material means for portraying the eternal delicacy of Spring-Time.

In this extensive display are Skirts for every occasion—morning, country club, golfing, street and afternoon wear.

They are fashioned from French Serge, Silk and Wool Poplin, novelty checks, Fan-Ta-Si, Kumsi Kumsa, Baronette Satin and Georgette in exquisite combinations.

Presented in the latest Spring shades of peach, adriatic, cattail, navy and black.

The Well Dressed Woman

Wearing the proper model in the right kind of a Corset gives one the feeling of being well dressed, but the Corset must fit.

To get a really good fitting Corset the services of our expert corsetiere are at your disposal.

One of our makes in particular, the MODART Corset, front laced, gives most excellent results. It is a Corset that will bring out style and improve the general figure lines. It is comfortable and durable. You will make no mistake in arranging for a trial fitting at your convenience.

An Exposition of the Season's Most Favored Blouses

The style of Suits this season lends itself to showing to perfection the smart and pretty Blouse and Waist designers have succeeded in giving a skillful touch to the front of the Waists and an extra special smartness of line to the collars that gives the exact addition of smartness and economy so much appreciated.

MRS. RINEHART, NOTED WRITER, TALKS POLITICS

Is Candidate for District Delegate to Republican National Convention.

By HAROLD D. JACOBS
(Times Staff Correspondent)

NEW YORK, April 10.—Mary Roberts Rinehart, noted writer, who has entered politics as a candidate for district delegate to the republican national convention from Pittsburgh, was asked today to state her views as a representative American woman of the political situation. Summed up they are:

This is one of the most critical periods in the country's history. The nation faces a vitally necessary industrial and economic adjustment which every man and woman must aid.

The basic economic factor is the home and it rests with the women to take the initiative in measures affecting the home.

Autocracy of mass is as bad as autocracy of class.

The strongest emotion prevailing in the country today is fear of radicalism.

People Must Wake Up.

The people must shake off their political lethargy, and realize that they are the government.

"The only time the United States is a real democracy is when it votes," Mrs. Rinehart declared.

"Every four years the country puts all its eggs in one basket and must take its chances until the next general election. We have been particularly fortunate in selecting our president in the past, but we cannot afford to make a mistake at this critical period of our national life.

"There must be no 'rubber stamp' national conventions.

"They must reflect the public sentiment.

"The greatest problem before the American people is industrial and economic adjustment, so we may live within our means. Women must take the lead in this. The men are doing their part now. They earn in their capacity; while the women now must achieve the impossible by maintaining the home at a decent standard in the face of continually increasing living costs.

"A nation is really not an entity; it is a vast collection of homes. And all national problems must be reduced to the equation of the home."

SPECIAL MEETING OF ELKS CALLED FOR MONDAY NIGHT

A special meeting of the Wichita Falls Elks' Lodge will be held Monday night at eight o'clock for the purpose of initiation of candidates. Twenty candidates are to be initiated.

BOND OF LEMMONS IS PLACED AT \$1500

Permanent bond for Jim Lemmons arranged earlier in the week on a federal charge of entering into a conspiracy to violate the federal liquor laws, was fixed at \$1,500 late Friday by United States Commissioner L. A. Lantz. Lemmons had previously been released on temporary bond fixed at \$1,000 and this bond was made permanent Friday by the United States commissioner following the defendant's appearance Friday.

IF YOU NEED A MEDICINE YOU SHOULD HAVE THE BEST

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfil the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by sending Post Office Address Dr. Kilmer & Co., P.O. Box 589, New York, N. Y., and enclosing ten cents. Also mention the Wichita Falls Times. Large and medium size bottles for sale at all drug stores.—Adv.

THE REMEDY FOR YOUR HEADACHES is most likely correctly selected one. If you suffer from them come and have your eyes examined by our optician. We will supply glasses that will cure headaches permanently. Why suffer longer when the remedy is at hand?

Church Announcement. The Church of Christ, corner Bluff and Eleventh, J. M. McCaleb, who has been a missionary to Japan for more than 25 years, will speak at 11:00 a. m. and 7:30 p. m. The subjects will be "Idolatry in Japan" and "The Work of Christ in Japan."

Floral Heights Baptist Church. Sunday school at 9:45 a. m.; preaching at 11 a. m. and 8 p. m.; Sunbeam band at 4 p. m.; Junior B. Y. P. U. at 5 p. m. and 8:45 p. m.; ladies meet Tuesday at 3:30 p. m.; prayer service every Wednesday at 8 p. m. A very cordial welcome awaits all who will worship with us.
R. W. MCANN, Phone 2529. Residence 1208 Kemp boulevard.

First Presbyterian Church. Communion Sunday. An opportunity will be given for church membership and for infant baptism. Miss Veale will sing at both hours. Dr. James E. Clark, editor of the Presbyterian Advance, will speak at both hours. Dr. Clark is scholarly and at

the same time a very interesting speaker. He holds his crowd from start to finish. You cannot afford to miss the great treat in hearing a pure enough preacher. Just the regular offering will be taken.—N. F. GRANTON, Pastor.

First Christian Church. Tenth at Travis Bible school at 9:30 a. m. Morning worship at 10:45; sermon subject, "Our Ground for Hope." Y. P. S. C. E. at 6:30. Evening worship at 7:30; sermon subject, "Whatever He Sayseth to Thee to Do, Do It." The John Tarleton College quartet will sing at the evening service. There will also be a baptismal service in the evening, and the membership campaign will continue; we hope to add many more names to our rolls. Visitors and strangers always cordially welcomed at our services; make this your church while you are here.—J. LEM KEVIL, Minister.

Central Southern Presbyterian Church. Corner of Eleventh and Bluff. If you are a member of this church, don't miss the morning worship to day. If you are a member of this church and have a child that has not received the ordinance of baptism, attend to that today. If you are a Presbyterian, and have not moved your

membership to Wichita Falls, do that today. Come and unite with this church by letter or statement. If you are not a Christian, and want to be, be one today; accept Christ and unite with the church. We offer a congenial church-home, with Christian fellowship, and an opportunity "to serve" with assurance of large attainment.—GUY DAVIS, Pastor.

International Bible Students. Bible study 10:30 a. m.; "The Tabernacle in the Wilderness," 7:30 p. m. "The New Creation." You are cordially invited to attend these Bible studies. Room 8, Labor Temple, 703 Travis.

Fourth Street Baptist Church. 705 Travis street.—We are still meeting in the main auditorium at the Labor Temple, for worship. The work is already begun, however, for our new building and we hope to have it finished within a few months. Sunday school 10 a. m.; G. W. Anderson, superintendent; preaching by the pastor 11 a. m. subject, "Waiting Upon God;" B. Y. P. U. 7 p. m.; preaching 8 p. m. Congregational singing, led by L. A. Copeland.
A. J. HOLT, Pastor.

First Baptist Church. There have been so far 47 additions

to the First Baptist church in the revival meetings. Twenty-six of these have been for baptism. There have been great crowds and good preaching and singing. Dr. I. E. Gates is a great preacher and soul winner and Mrs. Cole is one of the sweetest soloists that was ever heard in Wichita Falls. Come hear them both at 11 a. m. and 8 p. m. today. We will have services every day this week at 10 a. m. and 8 p. m. We cordially invite you to attend all these services.
O. L. POWERS, Pastor.

Evangelical Church. We extend to you a hearty welcome to come to our church, if you don't attend church elsewhere. Come and see what we have for you. You will feel at home and receive a blessing by doing God's will, not ours. Sunday school at 10:00 o'clock. Preaching direct from God's word at 11:00 o'clock. Don't miss the young people's alliance at 7:00 o'clock in the evening. It is interesting. Come and hear the different scriptures read and explained, followed by preaching service.—REV. TRABANT, Pastor.

Elks, Notice. There will be a special meeting of this lodge Monday night, April 12, for the purpose of initiating and balloting on candidates. A large attendance is expected. H. C. English, Secretary.

Tenants in Chicago Apartment Building Decide on Rent Rate

CHICAGO, April 10.—Tenants in one Chicago apartment building set their own rent today, by order of Judge Keneaw M. Landis. The tenants, paying \$50 a month, complained that their landlord, John T. Lewis, had raised the rentals to \$80 and \$100. Lewis is a bankrupt. Judge Landis ordered the receiver to execute leases at a price to be set by the tenants and the latter named \$62.50 as the amount they were willing to pay.

DEMOCRATIC LEADER REPORTED IMPROVED

WASHINGTON, April 10.—Claude Kitchen, democratic leader in congress, who suffered a stroke of paralysis yesterday, was much improved today, after a very good night, according to physicians.

Every one of the thousands upon thousands of users of UNIVERSAL Combination Ranges is so thoroughly satisfied that we are anxious to place as many as possible in this community, feeling that every user will be a booster for our store.

FACTORY DEMONSTRATION

UNIVERSAL COMBINATION RANGE

"The Range of Simplicity and Thrift"

There are many good Combination Ranges on the market, but none which comes anywhere near the UNIVERSAL in Simplicity, Satisfactory Operation with all fuels, in Economy and Quality.

Begins at Maxwell Hardware Co. Monday, 8 A.M.

Easy Terms

Monday morning will begin in our store one of the most remarkable stove selling events offered in this community. Such values as we offer in the famous UNIVERSAL Combination Range, will appeal to the most careful buyer.

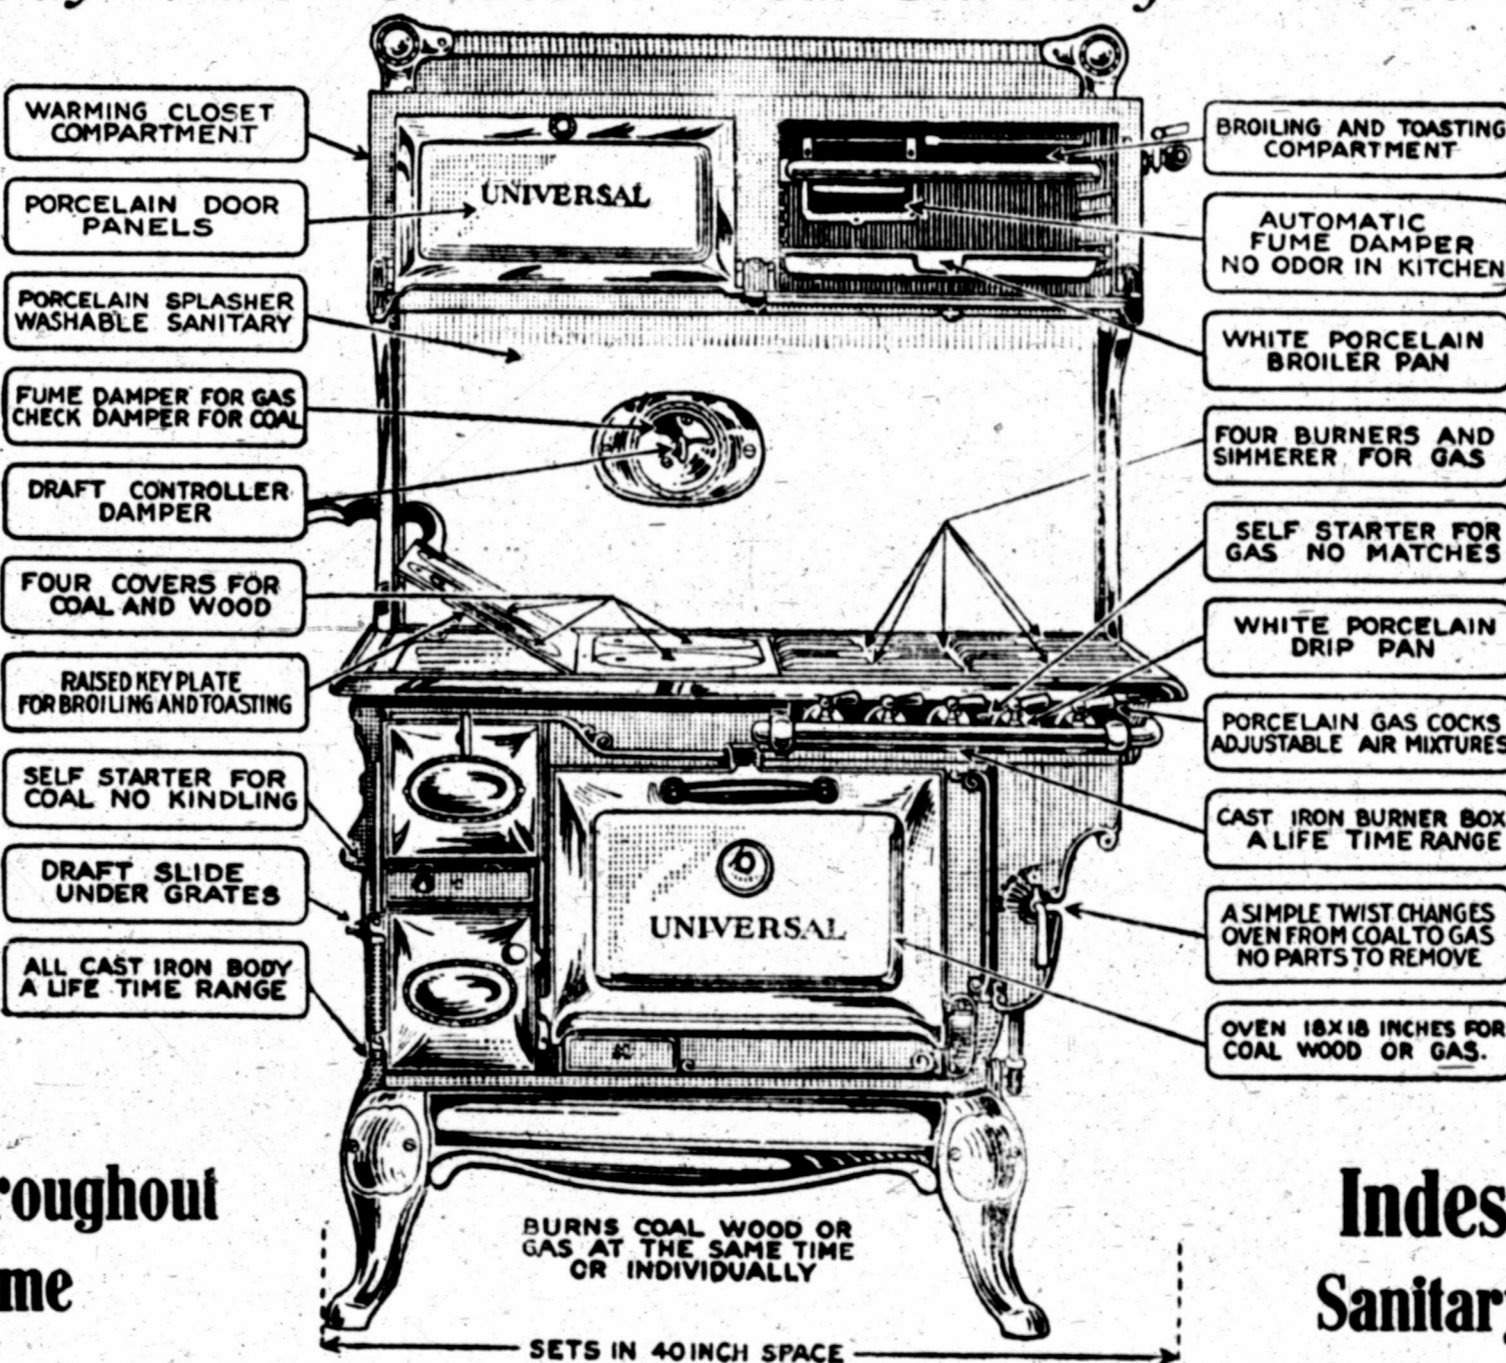

A factory representative will be here to demonstrate this wonderful Range which we will sell on remarkable terms during his stay—three days only. Don't miss the opening Monday. Come early as possible.

Saves Space! Saves Fuel!
Saves Labor! Saves Food!

- A WARM KITCHEN in cold weather.
- A COOL KITCHEN in warm weather.
- SELF STARTER FOR GAS—No Matches
- SELF STARTER FOR COAL AND WOOD—No Kindling.
- USE COAL OR WOOD ON CHILLY DAYS and enjoy a Warm and Cozy Kitchen.
- USE THE GAS FOR WARMER DAYS and for instant service.
- THE "AUTOMATIC KEY" does it all. A simple twist of the wrist and the key automatically changes the range from Coal to Gas—it turns on the Gas—it opens oven fume damper—it furnishes secondary air. See it.
- LET US EXCHANGE your Old Coal Range, Gas Range, or both, for a "UNIVERSAL" Combination—the Range of Simplicity and Thrift—making a liberal allowance for your old stove as first payment, and you can "Make your own terms" on balance.

No Parts to Remove!
Nothing to Remember!

- The "UNIVERSAL" COMBINATION RANGE is the Most Compact (occupies but 40 inches in space)—the Most Simple, the Most Practical, the Most Efficient, the Most Economical Range made, burning Coal, Wood or Gas at the same time, collectively or individually.
- TURN ON THE GAS, and Oven is automatically adjusted for Gas.
- TURN OFF THE GAS, and Oven is automatically adjusted for—either Coal or Wood.
- FUEL CHANGES are made instantaneously and automatically by a simple twist of the wrist.
- USE GAS AND COAL OR WOOD FIRE for Baking or Cooking at the same time if you wish.
- UNIVERSAL COMBINATION RANGES are made in various finishes, including the "UNIVIT" Porcelain, a Beautiful Peacock Blue, a Pearl Grey—Washable—Sanitary—Indestructible—as easy to clean as a China dish.

At Dallas

Huey & Philp sold 100 of these ranges in three days.

At Ft. Worth

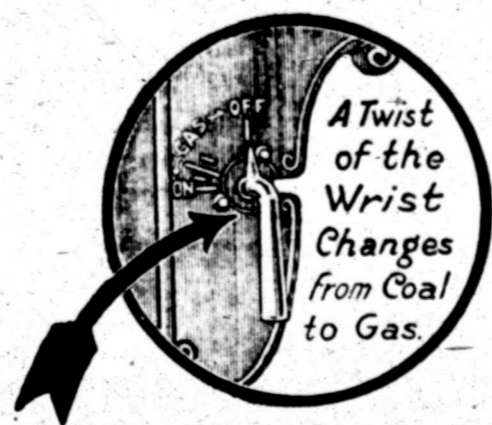

W. C. Stripling sold over a car load and wired for more before their sale was half over. Many customers were disappointed at both places because they could not get one at all, as the factory is unable to fill the large orders they now have on hand for six months.

If you try to get along until the gas gets low too, it may be impossible to deliver one at all.

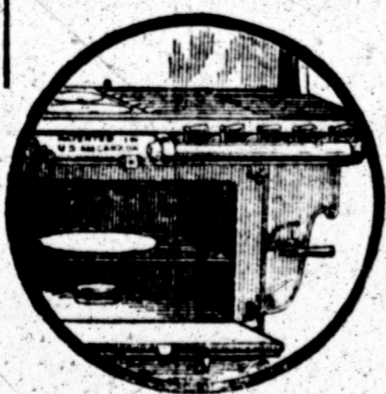

We have already received notice of a 10% advance in price and to put off the purchase of one of these Ranges now will be doing so at your own risk, as we cannot guarantee the present price after this sale.

NOTED GRIDIRON CLUB CONVERTS DINNER INTO A "MAKE BELIEVE" NATIONAL POLITICAL CONVENTION

WASHINGTON, April 10.—Having arrived at the presidential age of 25 years, the Gridiron Club, celebrated its event tonight by turning its dinner into a national non-partisan political convention, at which 1929 candidates heard their claims presented in a fashion new to party politics.

Many were nominated and more were discussed in such a way as to suggest to all the candidates who were present the notion that perhaps they take themselves too seriously.

The Gridiron convention was called to order by the clanking of a dinner bell, and when the delegates, who also included guests, filed into the hall and took their seats at the dinner tables they discovered that both great political parties were heavily represented by some of their most distinguished members. Among those present were Secretaries Colby, Meredith, Houston, Payne and Daniels, Attorney General Palmer, Speaker Gillett, General Pershing, the Japanese Ambassador, the Polish Minister, former Secretaries Lansing and Lane, Will H. Hays, chairman of the Republican National Committee, Senators Watson of Indiana, Owen of Oklahoma, Harding of Ohio and Poinceter of Washington; Governors Sprout of Pennsylvania, and Morrow of Kentucky, and Colonel George Harvey.

Chairman Is Selected

The convention was opened by the selection of a temporary chairman, following which it proceeded to elect a permanent chairman who proved to be W. W. Jermaine, the new president of the club. The proceedings were mixed and fast and, while touching upon many phases of the 1929 campaign, really settled none of them.

A press section was formed with working newspaper correspondents, and a large number of editors and publishers tried to crowd in. Dr. Albert Shaw could not get a seat among the correspondents, who also rejected applications from William H. Taft and William J. Bryan. A pair of "sob sisters" who applied for seats met the same fate.

The working correspondents, however, were not without their troubles. "I was told to describe Herbert Hoover," said one. "To what party does he belong?"

"I don't know," was the answer. "I haven't asked him since yesterday."

Platform planks on prohibition, labor, the tariff and the war made their appearance.

"My paper wants to know," one correspondent asked, "whether McAdoo is for or against government ownership of railroads?"

"Answer 'Yes,'" he was advised.

Mediums Invoked

A session given over to the ministrations of three mediums, who summoned spirits and made them talk by means of a ouija board, operated mysteriously without the use of hands and in full view of the delegates.

The spirit of Charles E. Hughes remarked: "I would have been all right if Will Crocker had not fed me those California ripe olives."

Said the spirit of Josephus Daniels: "I am being punished for my Sims."

The spirit of Vice-President Marshall observed: "What the democratic party needs is a fool killer. Then the few of us left can form a party."

Frank Hitchcock's spirit told the delegates: "It pays to advertise. I put an ad in the papers, reading as follows: 'Situation wanted as political manager for some candidate. Terms: Florida

Dokey Ceremonial Not on the Program Is Staged Saturday

Attired in the rainbow colors typical to the Dokey ceremonial a "brigand" of Azotus Temple of Fort Worth was arranged early Saturday before Corporation Judge Ogile on a charge of using abusive language and disturbing the peace.

The visiting Dokey entered the city court room wearing a smile and confident that his comrades would convince "His Honor" that he was not guilty of the grave crime as alleged by Wichitans. But the visiting "brigand" was sorely disappointed when a dozen or more members of Azotus temple testified that they were greatly ashamed of their fellow-townsmen, especially of the way he had conducted himself in the lobby of a local hotel.

Judge Ogile pronounced sentences of guilty upon the visiting Dokey and assessed

STUDENTS ARE URGING PRISONER NO. 9653 FOR PRESIDENT OF THE U. S.

BERKELEY, CALIF., April 10.—Prisoner 9653 in the United States prison at Atlanta, Ga., is being urged for president by an organization of 114 University of California students, which was formed here today.

The student organization formed a Dokey for President club today and telegraphed their champion in part as follows: "Representing 100 students of the University of California, we send you greetings of comradeship and congratulate you upon your splendid testimony for American ideals, Anglo-Saxon traditions and international hopes."

COMPLAINTS ALLEGE THE THEFT OF MORE THAN \$50

Complaints alleging theft of over \$50 were filed Saturday afternoon in Justice R. V. Gwinn's court against T. L. Allen, J. H. Warren and V. L. Newsom. It is understood that the trio are charged with theft in connection with the disappearance of oil field equipment, valued at over \$50.

Bond for Allen was fixed at \$1,500 and for Warren and Newsom at \$1,000 each. They had not furnished bond late Saturday and were remanded to jail after they had waived preliminary hearing before Justice Gwinn.

SPECIAL MEETING OF THE BAR ASSOCIATION

A special meeting of the Wichita County Bar association will be held in the 7th district court room at 10 o'clock Monday morning, April 12. The attendance of all lawyers in Wichita Falls is urged. R. E. Huff, chairman.

EXCERPT FROM PLATFORM. The Fort Worth Star-Telegram, strong supporter of the pro-administration campaign in Texas, is carrying at the head of its editorial column this excerpt from the democratic national platform adopted at St. Louis in 1916:

We hold that it is the duty of the United States to use its power not only to make itself safe at home, but also to make secure its just interests throughout the world, and both for this end and in the interest of humanity to assist the world in securing settled peace and justice.

A number of Texas papers have commented favorably on the publication, the Star-Telegram notes, and adds that it is worth remembering that the delegation representing Texas at St. Louis was that sent by the "famous San Antonio convention, that it was headed by Mr. Ferguson and that Mr. Ferguson was the Texas member of the platform committee which reported the platform to the convention."

Among those who think for themselves republicans are stopped from criticizing democratic taxation methods by the fact that, although they have been in control of both house and senate for more than a year, they have made no real effort to reduce taxation either by a new tax bill itself or by reduction of appropriations.

ment of the company—the furnishing of a really adequate supply of gas—is lived up to. And with Mayor Wozencraft, we believe that one of the most noteworthy features of the whole business is that, as he expressed it: "Last winter the gas company defiantly and arrogantly demanded an increase in rate without making any specific promise. It refused to open its books to the cities. Its attitude at that time seemed to be 'the public damned.' Whether or not that was its attitude then, that certainly is not its attitude today. Today it comes courteously suggesting a settlement. Its suggestion contains specific commitments which in the opinion of the chief engineer to the supervisor of public utilities pledge the performance of everything that can be done to get gas. It commits itself to reduce the sale of industrial gas by one-third and to entirely eliminate the sale of industrial gas during the winter months."

Johnson stock boomed on the strength of the result in Michigan, where the returns indicate that he has received the largest plurality ever given a candidate in Michigan, and the majority the Californian received over General Wood, who has had things pretty much his own way in earlier primaries over the country. It is impressive enough of itself to make Wood partisans wonder what hit them. One under-the-surface factor in the result that is not obvious but yet is existent is the reaction it shows against the Newberry campaign, for Johnson is anti-theoretical to Newberry virtually in everything except his party affiliation.

A GREAT HOME MISSION MOVEMENT. (Houston Post) No other feature of religious work has stirred the imagination of religionists in America as has been the greater attention from religious leaders during the last generation than has foreign missions.

To preach the gospel in the uttermost parts of the earth has been and still is the great goal of the Christian denominations. At the same time, in later years, the necessity for paying more attention to the foreigner in America has been becoming increasingly apparent. The revelations regarding the unassimilated masses in America made during the war has given the churches a new vision of the task before them in the home field.

Recognition of the opportunity for the church to do missionary work right here at home is found in the actions of the Inter-Church World movement for joining in the fight on the red menace in the United States. Whether all the activities of this new cooperative movement be acceptable to the various denominations or not, its decision to aid in the work of Americanization is unquestionably commendable, if it sticks to the plan of carrying on its part of the campaign through education.

Just Folks

By EDGAR A. GUEST Through Your Window. If you stand before a mirror, yourself is all you see. But looking through a window there are sky and living things. There are sunshine and the roses and the splendor of each tree. And happy men and women and the mocking bird that sings.

There is life strewn all about you, in the humblest plant and vine, and there's a touch of glorious beauty if you'll only turn your eyes. Oh, the whole world lies before you to its far horizon line. With life that's ever moving, filled with interest and surprise.

Ob, your mirror makes you selfish, but your window sets you free. It shows you greater marvels than your hands shall ever do. It tells you that you're living here in glorious company. And lets you catch a vision of the God who fashioned you.

An uncertain day, according to astrology. Uranus, Saturn and the Sun are in the least auspicious positions with beneficent planets.

Under this way it is wise to be quiescent, even deferring the making of plans. Uranus and Saturn are in an aspect held to encourage a critical and realistic attitude of mind. Bodies ill for the preachers of sermons.

Mercury is in a place supposed to make it easy to write and letters are subject to influence making for friendliness and understanding. All correspondence except love letters should be very lucky.

RIPPLING RHYMES.

By WALT MASON. A Modern Instance. My neighbor, Swatson, passing wise, believed in lots of exercise. He took long tramps through dunes and dells, and swung huge clubs and iron bells, and all his frame was hard as nails; he was a model for all males. And he would come to me and say, "Why do you loaf the livelong day? You are too fat for any use; for such a waist there's no excuse. Why don't you walk 12 miles or have a shapely form like mine?"

And he is dead and in his grave, while I sit here and sing and rave. He was so blithe three weeks ago! Then came the flu and laid him low. The same disease mixed things with me, and lost its pep and had to flee. The rules of health are tiresome stuff; they make life's slogging doubly rough, and I have always let them slide, and I hang on, where health fans' died. I don't sit up, in distress, to count the symptoms I possess. A dozen scours, and more than that, he told me I'm too beastly fat; I ought to follow where they led and I hang on, and they are dead, I eat too much, and I despise all modern forms of exercise, and still I live and write my verse, while wiser men engage the hearse.

WHY?

IS THERE A HOLLOW PLACE IN A BOILED EGG? (Copyright, 1920, by Wheeler Syndicate, Inc.) Usually the hollow space appears at the narrow end of the boiled egg and exists because air is placed inside of the egg in order that the little chicken may not stifle to death between the time that it commences to live and the moment when it is strong enough to crack the shell and dig its way out into the world.

The chick is ready to come out of the egg almost as soon as it comes to life. Therefore it needs but little air, which accounts for the small space left vacant within the shell. When the egg is boiled, the substances within it become hardened and fit closely together—thus forcing the air out toward one end of the shell and leaving a space which may be clearly seen when one opens a hard-boiled egg. Monday's question—WHY does thunder sour milk?

Side Talks

By RUTH CAMERON. LOFTY AND STANDOFFISH OR? A friend of mine went on a week-end trip lately with a party of some 20 or 30 people. Among these was another friend whom I had always thought the first friend would much enjoy when some such chance should throw them together.

When the first friend came home from the trip, I at once asked her how she liked Mrs. R. She tossed her head. "I think she is terribly lofty and stand-offish," she said. "She never spoke to me the whole trip."

"Did you speak to her?" I asked. "Dollars to doughnuts, I did not," she said. "I don't know as I did. She seemed so stand-offish. Now, as I happen to know, Mrs. R. is the extreme opposite of them in fact, she has a very friendly disposition hidden under a shy exterior, and I'd bet dollars to doughnuts she was waiting for the other woman to speak and has some hard feeling that she was 'terribly lofty and stand-offish.'"

I base that bet on personal experience. Just What They Thought About Us. One summer we spent two weeks at a little inn. Among the other guests were a young couple who looked interesting, but seemed to be very aloof and exclusive. Ten days of our two weeks passed without our meeting them. On the eleventh certain circumstances threw us together suddenly, and we found them so very delightful and congenial in the three short days that remained that we continued the acquaintance afterwards.

Later we were wiser about them, our first impressions of them—"an interesting looking but dreadfully exclusive." "Why, that's just the way we felt about you," they said. "I was very sure about them, and we take for pride in really only shyness. And what we take for aloofness and exclusiveness is really only diffidence, or a desire not to intrude."

Help People Over the World. A great many people who really long to be social are doubly hampered by their diffidence. The invasion of alcoholism which they unintentionally and unconsciously create, builds a wall about them and they are doubly shut off—first, by their own difficulty in taking the first step towards acquaintance, and second, by this wall of false impression.

It is a good thing to try determinedly to conquer the diffidence which is a hindrance to being on the alert to recognize in others an opportunity to lend a hand to help them over the wall.

HELPING THE AGITATORS.

(Fort Worth Star-Telegram) Viewing the action of the New York legislature in expelling the socialist members of that body without passion or prejudice from either standpoint, but only as a common sense proposition, what is it the legislature hopes to accomplish? The socialist had no influence in the legislature being in a hopeless minority, nor was there any outlook that that influence would be very materially increased in the near future. Depend entirely upon ordinary means of propaganda and upon the reasonableness of their proposals, how soon could they hope to convert a majority of the people of the state of New York? What purpose does the legislature hope to serve by decreeing that adherents of a certain political party cannot sit in that body? It is presumed that the purpose is to curb the spread of their doctrines, and yet has not the legislature done more to assist them in that than they could have done themselves by years of agitation? Has it not given them a national forum and lifted them into national prominence? Has it not given point to their arguments and furthered rather than retarded their cause? Aside from any question of right, it would seem that if the legislature's purpose was to check the spread of the doctrines these men preach, its action in expelling them not only will not accomplish that purpose, but will actually defeat it.

SOLID TRAIN OF FIFTEEN CARS RECENTLY LEFT LOCAL FACTORY FOR INDIA VIA NEW ORLEANS

The very name India conjures thoughts of the distant past, and to announce that this land of Mystics is now taking on a most modern means of transportation is almost a challenge to every vision that has had India for a setting.

For a thousand years the transportation problems of India have been solved with the aid of man, the ox, the water buffalo and the donkeys of the East. But this old country is now garbing herself with new raiment, as it were, and is today the place where commercial transportations are being measured anew. Perhaps this accounts for the enormous demand that comes from India for motor-trucks at this time.

A solid train load, consisting of 15 cars, of Wichita trucks recently left the factory of the Wichita Motors Company at Wichita Falls, Texas, destined to New Orleans. At New Orleans these trucks are to be loaded on ship that will sail direct to India via the Suez Canal. It is expected that final delivery will be made to consignees early in June.

These trucks will largely replace buffalo and cattle-drawn carts in this swarming land.

The first Wichita truck was shipped to India in 1914. This Wichita truck was the first self-propelled commercial vehicle ever seen in that country. It was not until after the utility value of Wichita trucks had been demonstrated by actual use that the East Indian trade of the Wichita Motors Company took on growth. Since the signing of the armistice in Europe the demand for Wichita trucks in India has been steady and of increasing volume. The outlook for future trade in the Far East is most promising and the indications are that during the next twelve months not merely scores but literally hundreds of motor trucks will find their way to India.

The foreign demand at this time for motor trucks made in the United States is controlled solely by the conditions that prevail in the money markets. Indian money has not lost its purchasing power as compared with the monies of many other nations. If the foreign exchange market could again be gotten on a normal basis the exports of motor trucks would rise to a tremendous scale.

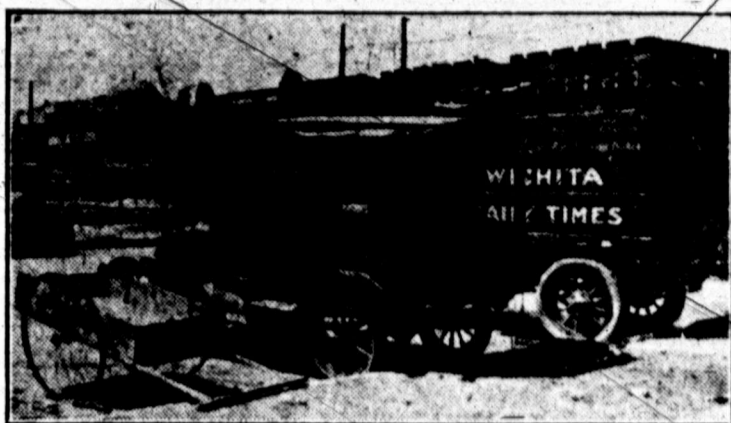

The Wichita Motors Company of Wichita Falls, Texas, is the pioneer motor truck manufacturing concern to build up a world wide market for American made motor trucks. Its foreign trade at this time reaches to seventy-five countries outside of the United States. Last year it broke all records for the exportation of trucks to distant lands when it made a shipment of thirty motor trucks for use in Eastern Turkestan.

The export business of the Wichita

Motors Co. is one of the romances of the foreign trade enjoyed by the United States. When Wichita trucks were first made, in the spring of 1911, there existed in the south-west a prejudice against buying "home-made" trucks. Instead of yielding to this prejudice the Wichita Motors Co. recognized that it prevailed and sought to overcome it by seeking the foreign markets. It was not until thousands of Wichita trucks had been sold and shipped to foreign markets, where a truck was measured by what it would do and not by where it was made, that recognition came to Wichita trucks at home. During the last two years the domestic trade of the Wichita Motors Company has increased enormously as a result of the splendid reputation earned by Wichita trucks in distant lands.

Orders have been booked by the Wichita Motors Company that will result in many train loads of trucks leaving the factories of this company during the present year and with a stabilization of the money markets of the world the present business will be greatly enlarged.

SHOWING THREE MILE POSTS IN GROWTH OF TIMES CIRCULATION

In the accompanying photograph are shown three mile posts in the growth of The Times' circulation. In the foreground is shown the hand-cart, which not so long ago sufficed to carry The Times' mail to the postoffice and to the trains.

Next to it is the Ford truck that was purchased less than a year ago. This Ford was sufficient for only a

few months when it was outgrown. A few days ago a much larger truck was purchased. This will be used not only to carry mail to the postoffice and express stations but to carry the boys out to points where their delivery routes start and to deliver papers to sub-stations over the city.

A few days ago The Times publish-

ed its sworn circulation statement giving the six months average paid circulation preceding April 1, 1920. The figure was 9252. This was an increase of more than six thousand within less than three years.

A review of the postoffice statements of The Times' circulation in the past three years is as follows:

October 1, 1917	3175
April 1, 1918	4129
October 1, 1918	4179
April 1, 1919	5792
October 1, 1919	7419
April 1, 1920	9252

During the past six months the average paid circulation of The Times for each month has been as follows: October 1919, 8396; November 1919, 8878; December 1919, 9494; January 1920, 9258; February 1920, 9618; March 1920, 9870.

ODD FELLOWS EXPECT BIG MEETING MONDAY NIGHT

The Odd Fellows will meet in regular session Monday night at which time some 15 or 18 candidates will receive the First Degree. This degree is a beautiful one, and even a larger attendance than last Monday night is expected, at which time there were fully 75 members present.

The Encampment did not meet Saturday night, on account of the meet-

ing of the Knights of Pythias, but will use the K. of P. night next Tuesday night.

Quite a large number went from this city Tuesday night to Henrietta, and greatly enjoyed the event.

Dallas Marines are Perfecting Machine For League Opening

DALLAS, April 10.—The Dallas Marines have played their last pre-season game with big league aggregations and are bending their efforts toward the formation of a smooth-running machine for the opening of the Texas League season.

In the outfield Patterson has Chick Mattick, a fast player who has officiated in the garden for Dallas in other years; Coombs, a veteran outfielder of other seasons, and Lipp, a likely looking recruit from the Saginaw club, Michigan, Ontario League.

By the dawn of the eighth round, the Spudders were all in and thus it was that Holland managed to remain solid with his foundation for the remainder of the game.

As for the Spudders, and their successful mound artist, Jimmy Zinn, they were at no time even threatened with anything that looked like danger. They piled up thirteen runs before the Rangers started to breathe right, and then out of pity, Pemberton let a couple of Zinn's slaps slip through his fingers for a lone Nitro counter.

The Spudders demonstrated beyond all reasonable doubt that they are a hitting club. Three doubles, a home run and a triple made up the local collection of extra base swats. The fact that they were up against the strongest opposition in the world, must of course be taken into consideration, but nevertheless, the wiry wreathling crew displayed an attack that would be hard to beat.

PROPERTY OWNERS MANIFEST INTEREST IN LIGHTING PLANS

Owners of more than half the property in the business district have already signed contracts for ornamental street lighting, reports made by street chairman to the business council Friday night showed. Property owners on Scott and Lamar avenues south of tenth street all the way out to Sixteenth and 17th streets are displaying much interest in the matter and strong efforts are being made to get these streets signed up all the way to Wichita Valley tracks.

Another Chapter in Romantic Career of Couple from Mexico

Another chapter in the romantic career of Nico Feliez, erstwhile wireless operator in the federal army in Mexico, but now a common laborer in Wichita Falls, was written Saturday forenoon when the fiery Latin hurried into the office of Justice R. V. Gwinn explaining as he entered "we wanta ma' mucho pronto." Conception Lunoz, young and pretty, leaned heavily upon the arm of her Artec hero. The couple are unable to talk "gringo" but Nico was able by means of various motions and gestures to explain to Justice Gwinn the motive of their mission. Senior and seniorita were married and left the office smiling.

EYES

Most people, you included, perhaps, are extremely negligent in the care of their eyes, and very culpably so in regard to their children's eyes. The public generally has no idea of the number and variety of present day eye defects and often resort to glasses selected at random which are entirely unsuited to the conditions of the eye.

BROTHERS REPORT OF THIRTY-FIVE CARS DURING MONTH OF MARCH

Brothers report the delivery of thirty-five cars during the month of March, among which were touring cars, three roadsters, and four field special tools. The production of Dodge Brothers what increased since the epidemic is subsiding and conditions are improving. Morris, factory representative of last week to assist McFall in establishing service stations for Dodge Brothers cars in this territory. A service agreement was made up with the Big Four—Electra, F. L. Knight of and with the Babb Motor at Graham.

The above service stations of Dodge Brothers parts and mechanics to service Dodge Brothers cars. It is McFall as well as Dodge Brothers give Dodge Brothers car owners the best service possible. Their sales room and also room for the necessary delivery which gives them one of the most complete stocks of accessories for Dodge Brothers in the state of Texas.

ANOTHER ADDITION TO WHOLESALE DEPARTMENT OF OVERLAND SALES CO.

Another addition was made to the Overland Sales company's sales force during the past week. When W. W. Koeh of Danville, La., joined the staff as wholesale representative in this territory.

R. W. Doyle, factory representative of the White Truck company, with headquarters at Dallas, was at the local sales agency all last week. Doyle visited here in the interests of the White organization and was well pleased with conditions.

Charles E. Wagner, assistant manager of the southern division Willys-Cordell, Inc., and E. C. Power, a factory representative of the same concern, were here Thursday.

Two carloads of Sayers Six are on the way to the local Overland Sales company, which contracted for the car sales for this territory March 27.

A new plan is being worked out by the sales force of the local organization with regard to solving the present traffic congestion. As proposed at the present time, a trip to Toledo, home of the Overland and Willys-Knight, is planned for the retailers out of this office, their prospective customers and the customers of this office. Expenses for the trip would be paid by the local buyers, and the cars would be turned over to the buyers at Toledo, to be driven back by them. So far the plan has met with approval.

SIX SALES REPORTED BY BEMROD AUTO SALES CO.

S. S. Bemrod reports the following sales for the past week:

W. C. Wright, Burkburnett, Maxwell touring.

J. M. Dea, Wichita Falls, Maxwell touring.

J. W. Schultz, Wichita Falls, Maxwell touring.

W. L. Glaze, Wichita Falls, Maxwell touring.

Roy Landrum, Wichita Falls, five-passenger Chalmers.

B. J. Sharpe, Wichita Falls, five-passenger Chalmers.

Deliveries on both makes are slow, according to Mr. Bemrod, although they have a car of Maxwells on the track at the present time. A shipment of Chalmers is expected in during the next week.

TWO CARS OF HUPMOBILES WILL BE UNLOADED MONDAY BY ECKMAN-VON ALLMAN

Two cars of Hupmobiles were received by the Eckman-Von Allman company, late last week and will be unloaded Monday. A shipment of Peerless Eightys was received about a week ago.

According to Mr. Eckman, the congested condition of the freight situation is going to seriously affect both the manufacturing and the selling end of the automobile game. Every available space in Detroit is filled with new cars waiting for shipping facilities, according to Mr. Eckman.

This condition does not mean a flooded market, but will seriously affect the market insofar as it will cut down production. Since freight cars are not available to ship new automobiles, they cannot be available for the shipment of raw materials to the factories. This is shown in the request made by the factories, asking dealers to cut down their stocks of spare parts

KENT BROS. AND COMPANY REPORT GOOD BUSINESS

Good business in the General Tires is reported by the Kent Bros. & Co. for the past week.

Their shipment of Grant cars has been held up, due to a slight change in the design of the motor of the new model. Two carloads are expected to arrive from about the first of the month.

The newly designed motor for the 1920 Grant will include an overhead valve and automatically oiled oil-less bushings. Deliveries will go back to normal after May 1.

Cole Aero-EIGHT
—BALANCED TO ZERO—

What gives the Aero-EIGHT its 15,000 miles on tires and causes its 80-horsepower engine to require so little fuel?

The achievement of Cole engineers in coupling such high tire mileage and striking economy of operation with such a wealth of power and performance ability is due, primarily, to the fact that the Aero-EIGHT is balanced to zero.

All units of weight are uniformly distributed. Perfect equilibrium is maintained at all times. Weight is apportioned evenly; no single part is subjected to a greater strain than any other; and every ounce of energy, as well as every unit employed, is given full, free play.

KNOWLEDGE FOR CAR OWNERS

Interesting and Important Facts That Every Motorist Should Know.

One of the causes of defective automobile casings is due to under-inflation.

Besides proving a good anti-freeze preparation, glycerine acts as a scale preventative and to some extent keeps down rust in the tubes of the radiator.

When wet chains are removed from tires after use in wet weather, they should be dried off before being returned to the tool box. This process will prevent rust and keep the chains in good shape at all times.

In order to get the best service out of spring bolts on a new car it is advisable to turn grease cups down every time the car is taken out. If these spring bolts are neglected excessive wear will result.

Coughing in the carburetor followed by sharp explosions in the muffler indicates a wrong adjustment of the auxiliary air valve. On the other hand, coughing, followed by a choking down and stopping of the motor indicates that there is water in the gasoline.

The formation of rust on tools can be prevented by an application of vaseline, to which a little powdered gun-cotton has been added, the whole being heated over a slow fire. Bright metal work can be protected by using a mixture composed of one pound of lard, an ounce of gum camphor, and a little lamp black mixed together.

The functions of the gears set in to provide a different ratio of engine revolution to rear wheel revolution, not, as some people suppose, to allow the driver to drive at different speeds, but to provide him with more power when it is needed.

Black smoke in exhaust indicates too rich a mixture. Bluish smoke indicates too much lubricating oil, and smoke from the crank case or open end of the cylinder indicates a leak past the pistons. When any of these happenings occur it is well to look for worn rings, rings stuck in grooves, or scoring on cylinder walls.

Loose bearings or bent steering knuckle rods are apt to add to the misalignment of the wheels, but whatever the cause, misalignment means rapid tire wear and is one of the worst evils of automobile owners. For maximum tire life see that the front wheels are always lined up properly before starting out with the car.

It is very important that regular inspections should be made of the leather coverings or "boots" which protect the universal and other parts. Flying stones or sticks are apt to destroy these boots, permitting the lubricant to leak out and give entrance to rust and dirt. A general inspection should be made at least once a month.

When a car is overhauled the pistons and rings should be tapered in carefully and the cylinders re-bored, if badly scored or out of round. It is also a good scheme to install slightly tapered rings, if possible, in the lower slots, to scrape excess oil back towards the crank case. Holes may be drilled through the lower part of the piston, also to allow the oil to drain back into the crank case.

A generator requires a drop of light oil at each end of the armature shaft frequently. Care must be exercised not to over-lubricate the shaft, as oil may work its way through and cause the generator windings to become short-circuited.

HAVE YOUR TOWNSITE WELL CLEANED

Do you know that there are wells in the Burkburtt townsite field which have been brought back and are now making 130 bbls. daily? Your well can be made to produce lots more by the proper treatment.

Let us tell you about it. We will clean it for one-half the increase in production or by the day.

oil leads to the shaft bearing caps, which automatically close to prevent dirt from entering and lodging on the main bearings of the armature shaft, so it is best to note that these are in working order.

The proper way to clean spark plugs is to take them apart and get all the black, carbonized oil and dirt away from the junction of metal and porcelain. The porcelain must not be roughened with sandpaper or a file as this makes it more likely than before to accumulate carbon.

The points should be brightened with emery cloth and the rest of the plug treated with gasoline and a brush.

The cost of operating an automobile is one of the greatest items in the auto owner's budget and one that is the most watched. A car that burns the least fuel is the most popular car in most instances, and it is the only car for the person with a small amount of money to spend for his pleasure.

When purchasing a car this side of the question should be kept in mind by the purchaser and the car best fitted to the pocketbook should be the one purchased. The initial cost will be near as great as the continued cost of operation.

If the mixture is suspected of being too rich, shut off the fuel in the tank and open the throttle. If the mixture passing into the cylinders is too rich the engine speed will increase as the level of the gasoline in the float chamber is lowered, since this operation weakens the operation considerably. If the mixture is thought to be too weak the float chamber can be poured while the engine is running, and of this causes the motor to speed up it may be accepted as an indication that the mixture is not rich enough.

CLEAN SPARK PLUGS SAVE THE BATTERIES

"The man who is too busy to clean his spark plugs is shortening his battery life." This is the opinion of Mr. Randle, the local Willard expert.

Even though the engine is using magneto ignition, the carbon on the spark plugs is putting unnecessary work on the battery. The engine must be turned over more rapidly in order to get a spark from the magneto and the battery has to do much more work for each start than it would if the plugs were clean.

"The motorist who unscrews and cleans his spark plugs every week or two will find that he has taken a big load off the battery and that he is able to get his engine turning over in noticeably shorter time."

Improving the Working Women's Condition.

The national education committee of the British Y. W. C. A. is organizing a working women's college, which is novel in many respects. It is not designed to give vocational training but rather to raise the social standard of the working women and to enable them to get more enjoyment out of life than they have heretofore done.

Brunswick Principles In Fine Tire Making

The reason you are interested in the name on your tire is that it identifies the maker. By knowing the maker you can judge his ideals of manufacture.

The only secret of a super-tire lies in the principles of the maker. His standards decide the quality. For there are no secrets in the tire industry.

What you get depends on what is behind the name on your tire. Brunswick, as you know, means a very old concern, jealous of its good name. Since 1845 the House of Brunswick has been famous the world over for the quality of its products.

The Brunswick Tires is all that you expect—and more. Your first one will be a revelation. You'll agree that you've never known a better. And you'll tell your friends. So spreads the news among motorists. The Brunswick is the most welcome tire that ever came to market.

Try one Brunswick Tire. Learn how good a tire can be built. And remember, it costs no more than like-type tires.

The JORDAN Silhouette

PEOPLE are demanding lighter, well balanced cars—but not too light.

The Jordan possesses the same sturdy and substantial appearance of the finest heavy cars with the beautiful contour, lightness, lowness and balanced character of the trim, thoroughbred racing job.

Occasionally you see seven people in a car, but they all look strangely uncomfortable. The passenger capacity of the Jordan Silhouette is in accord with the size of the average family, which is five persons. It weighs only 2,800 pounds.

The chassis of finished mechanical excellence is the lightest on the road for its wheel base. In balance this car is supreme. It holds the road, speeding forward without a tremor, bouncing and swaying never.

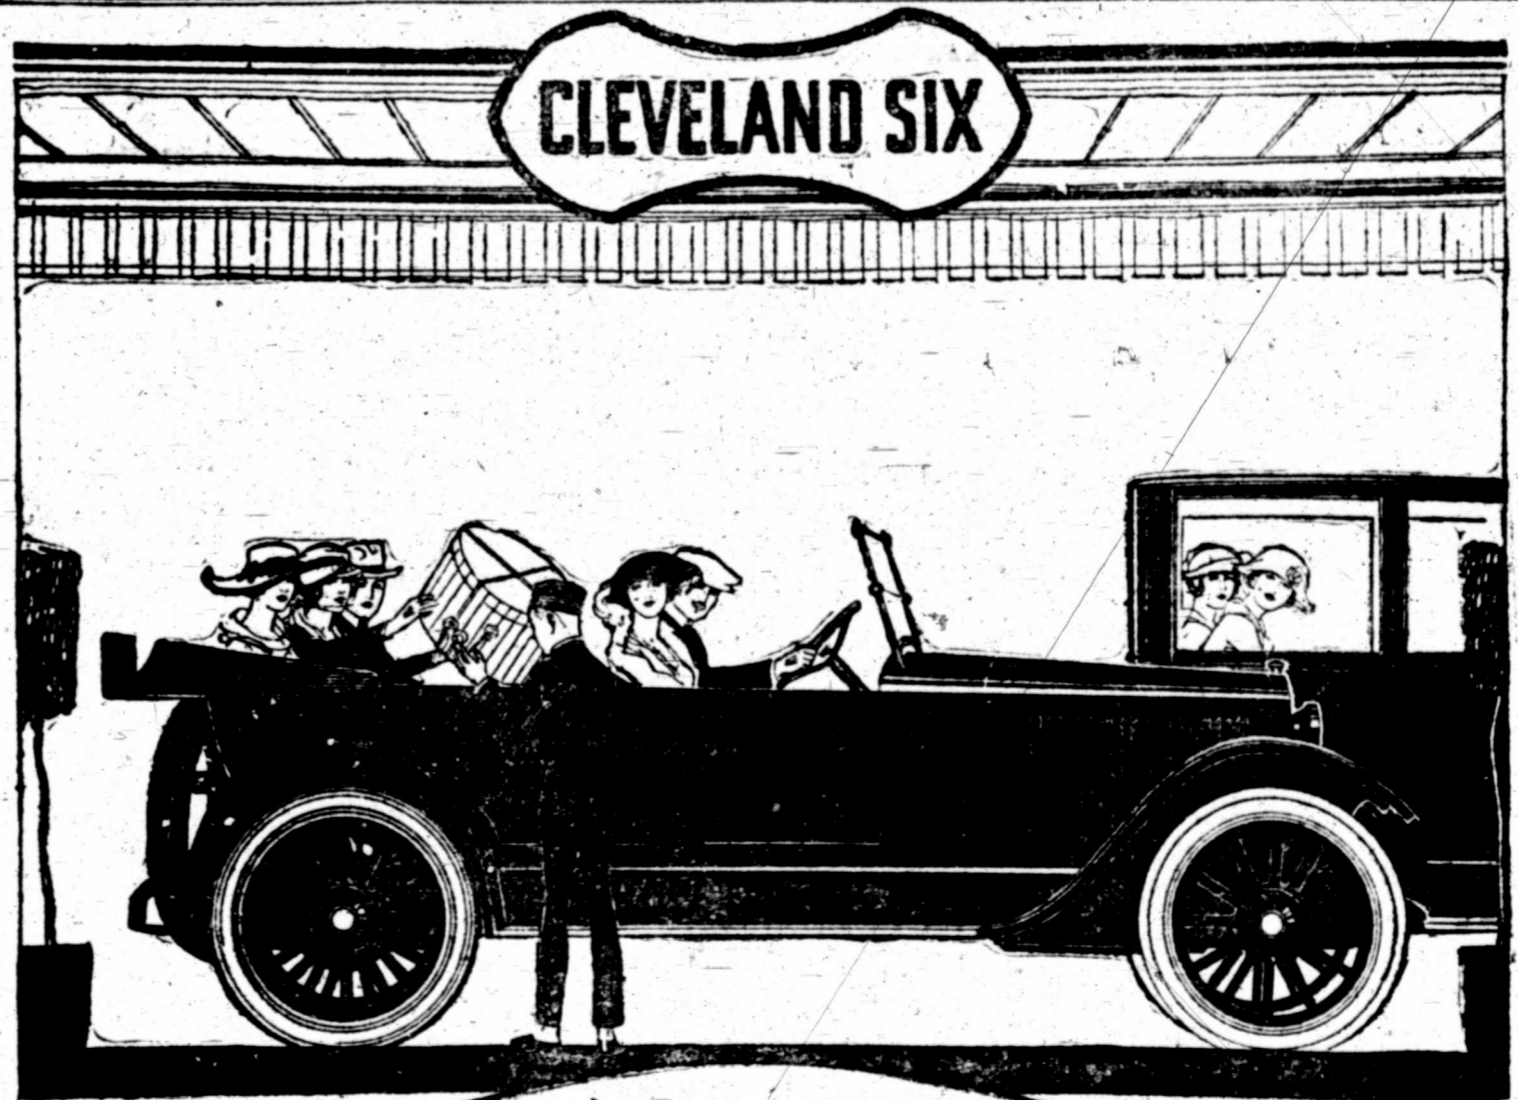

Men and women who have grown weary of big, bulky cars will choose this Jordan with joy.

Take a Real Ride in the Cleveland, and You'll Know What a Car It Is

The Cleveland Six, the sensation of the year among light sixes, is selling itself to thousands who use discrimination in picking out the car they want.

To attempt to describe the qualities of the Cleveland Six is no easy task. You must ride in it to know it. Take a real ride and you begin to understand that here is a better light six, very much better. It has an enclosed over-head valve motor, of exclusive Cleveland design and manufacture and tested in road work for three years before being offered the public, that gives performance unsurpassed.

A real ride will show you, better than can be told you, that the Cleveland has power and pick-up and flexibility and ease of driving that do not come with many other cars. Low-hung spring suspension and splendidly upholstered cushions wipe out the road-bumps. Beautiful body lines—place the Cleveland above the usual plane in appearance. Upholstery is of genuine hand-buffed leather.

INTEREST IN NORTHWEST FIELD CENTERS IN THE BURK-CAMERON AND IN WELL IN BLOCK NO. 81

With development in the Red River pool slowed down to a considerable extent through the intervention of its supreme court of the United States into the controversy over the land involved through the claim of Oklahoma and the federal government to land on the Texas side of the river after oil had been discovered thereon, interest and activity in the northwestern part of Wichita county is chiefly centered about the Burk Cameron test, believed by local operators to indicate another river pool about five miles above the General; to the deeper sand uncovered in Block 81, a territory hitherto regarded as dry; and to the operations on the Michna and C. Birk tracts where the line of production got a further extension of some 500 feet during the week by the completion of a 2,200 barrel producer by the Emrick and Danciger people, who were the first to develop the possibilities of this section, formerly considered condemned.

Although the indications of production afforded by the Burk Cameron well will not bear out all that has been claimed for it in some of the exaggerated reports which have gone out about it, it gives real promise of a new pool in some direction from the well. While not yet completed, large quantities of oil have been swabbed from the well. Practically no gas is apparent. The oil is black and rather heavy, being in many respects identical with that produced in edge wells on the Waggoner. Another Red River pool, similar to that opened up by the General, a repetition of Sunshine Hill, the "Little Spindletop," which is no far to the south, or of the Ramming pool, close by to the southeast, are samples of the various conjectures entertained by operators in this district with regard to this strike.

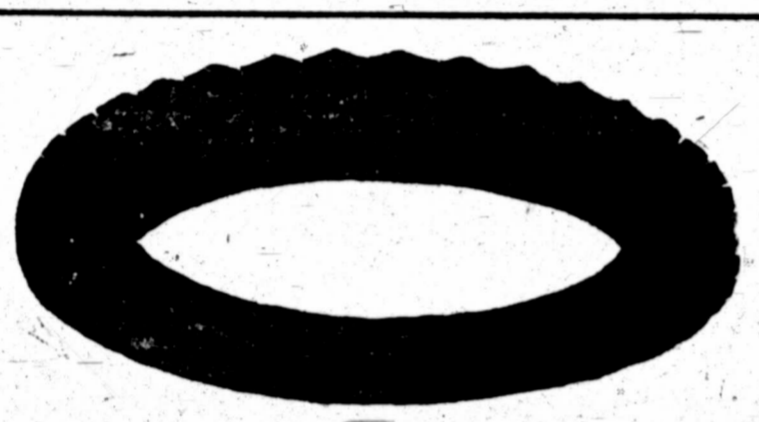

The promised production in Block 81 comes from the abandoned hole of Adams and Brown, and has a three-fold interest in that it offers prospect of production in the dry territory to the east of the Waggoner, to the fact that a producer has apparently been made of an abandoned hole through its deepening slightly more than 200 feet, and to the fact that if production is eventually obtained, it will be from the deepest producing sand in Wichita county, and will open up an entirely new development for the Waggoner pool through the deeper sands.

SUGGEST MACADAM ASPHALT PAVING IN RESIDENCE DISTRICT

The use of macadam asphalt for street paving in the residence districts of Wichita Falls, was suggested at the meeting of the business council of the Chamber of Commerce Friday night. Secretary Harrison reported that the quarry at Chico had given assurances that it would be able to supply an abundance of small crushed stone, such as was used in this kind of paving, beginning April 15. Correspondence from the Texas

Bicultural Company was also read in which the company expressed interest in the paving program here and a desire to enter into negotiations for paving work.

Style Permanency Enhancés Hudson's Famed Endurance

LASTING DESIGN IS THE NATURAL COMPLEMENT TO THE DURABILITY OF THE SUPER-SIX MOTOR

However mechanically good, a vast satisfaction is lost to the owner, if design changes in succeeding models mark his car out of date.

Thus style permanency must be a major factor in a car that serves for years.

Its value is exemplified by the earliest Super-Sixes, built nearly five years ago. In all essentials they are modern cars today. They are modern in appearance. They have lost none of their operating smoothness, flexibility or power. Their performance is characteristic of all Hudsons. Few would see in their looks or performance anything but a car of recent production.

Think Ahead When You Buy a Car

Time will bring you, too, the keenest appreciation of Hudson's mechanical endurance and style stability.

Usually, you will find new worthwhile ideas first in Hudson. But they must earn their place by merit. They must effect a real improvement.

Undoubtedly, thousands of Hudson owners chose it primarily for its beauty of design; its luxury and distinction of appearance.

But let nothing blind the real issue. It is performance; and endurance is foremost.

Speed and power have their place. But they are secondary. Hudson has no cause to under-rate them. For it holds the stock car speed and power records. And the Super-Six motor has beaten the world's fastest racing cars, not once, but many times.

Why the Super-Six Principle Gives the Mastery

The records prove it is open champion. It draws no distinction of type, size, cylinders or price. It has won against the field.

But Hudson could not hold such supremacy without some basic advantage that others cannot use.

Its dominance lies in the Super-Six motor which controls vibration. Perfection would mean a vibrationless motor, free of friction. No machinery is that. But the Super-Six motor comes within 10 per cent of it—closer to the ideal than any other type. Nearer approach seems impossible.

In the exclusive Super-Six motor, power is increased 72 per cent, and motor efficiency 80 per cent. Endurance is practically doubled.

Naturally such a car is in demand. Since it was brought out five years ago, it has been the largest selling fine car in the world. This year, as in all years previous, many who want Hudsons will have to wait for delivery.

WATER SUPPLY AND IRRIGATION WILL MEAN 100,000 TO 150,000 POPULATION SAYS MR. KESSLER

Completion of the Wichita river water and irrigation project means a city of 100,000 to 150,000 here, in the opinion of no less an authority than George R. Kessler, city planning specialist, who on Friday made a trip over the territory to be irrigated. A statement, coming from Mr. Kessler is considered by Mr. Kemp and others especially interested, as particularly significant, as Mr. Kessler has accustomed to over-enthusiasm or unguarded predictions about any city.

"That trip opened my eyes," said Mr. Kessler upon his return. "It changed the whole purpose of my work here. When I first arrived, I constantly asked the question, 'what will Wichita Falls have when the oil is gone? Now I know the answer. With that great body of land under irrigation, with the danger of drought removed, you will have a large number of farmers very close to your city, furnishing that solid agricultural foundation which must be the basis of your permanent prosperity. To handle the products of these farms, and to meet the needs of that big farm population, your city will attract many new enterprises, industries and factories.

"Then if your oil development continues and new fields are opened, the oil business will increase your population and wealth just that much more. But you have the means by which irrigation project, to build solidly and without being dependent upon such uncertain things as oil development. It is the history of most towns that grow rapidly as a result of oil that they retain something of that growth and gain, but there must be something substantial to prevent a setback. I do not know of any city in the

southwest that has such an opportunity, and after talking with Mr. Kemp, I have no doubt that you will make the most of it."

Mr. Kessler left late Friday for Oklahoma City, going from there to St. Louis.

The question of the employment of Mr. Kessler to outline a city plan here is now in the hands of the chamber of commerce directors and the city council, the civic bureau having definitely recommended late Friday, that his services be retained. The expense would be shared by the city and the chamber of commerce. It is estimated that \$15,000 will be required for the first year.

"SOME" INDUCEMENTS ARE OFFERED FRENCH MAIDS

CHICAGO, April 10.—"And here is something exceptional—a twenty-room cottage overlooking a park, private golf links for the servants, individual garages, all ultra-modern conveniences and—"

That's a sample from the sailing talk two American women will use in attempting to bring French maids to America.

Under a plan originated by Mrs. J. S. Knowlson, the agents collect \$250 from each housekeeper desiring a maid. Transportation will be advanced the girls who yield to the lure of photographs of homes and description of jazz phonographs to be had for the asking.

The photos give vivid comparisons with the French room and stove in comparison with the fireless cooker, electric washing machine and vacuum cleaner.

'BLOCK' PARTIES TO BE HELD THIS WEEK; OTHERS TO FOLLOW

The first of the "block parties" to be held in connection with the neighborhood movement in Wichita Falls, have been called for this week.

Monday night at the home of Mr. and Mrs. J. Will Gray, 1215 Taylor, the residents of the block bounded by Taylor, Polk, Avenue B and Avenue C, will convene for the first of the block parties.

On Friday night, at the home of Mr. and Mrs. C. C. McDonald, 1001 Filmore, residents of two blocks will join in a party; the blocks are those bounded by Avenue B, Avenue C, Kemp boulevard, Filmore and Taylor.

A section meeting has also been called for Monday night at the home of Mr. and Mrs. J. A. Kemp, for the residents of all blocks between Ninth and Tenth streets, from Brook avenue west to the city limits. At a late date, other sections of District B will have similar meetings, this being the first of a series of gatherings planned to thoroughly organize the district as a whole.

Two district meetings are also planned for this week, one in District B at the Travis school, probably Thursday night, and another in District I, at the Walnut street mission on Friday night.

The block parties called for this week are the first of a large number to be held within the next 20 or 30 days, when a great part of the city will be organized at these meetings. The committee urges every resident to attend the meeting in his block.

when it is announced, without looking for any other invitation than the notice in the papers.

SPEEDING CASES AGAIN FEATURE CITY COURT

Trial of speeding cases again occupied most of Saturday morning's session of corporation court. Five negroes alleged to have driven recklessly down Ninth street were assigned before Corporation Judge Ogilvie and assessed small fines following the introduction of convicting testimony. Speeding cases are easily in the advance of all other police matters brought to the attention of Judge Ogilvie during the past week.

Vagrancy, that little word that covers a multitude of sins, is also a common visitor at the city hall. Both men and women are addicts to this

species of crime and, according to police records, whites are equally guilty with negroes. Vagrancy under both state statute and city ordinance, is a familiar vehicle by which a person may be placed in jail "on general principles," according to the definition recently given by a local attorney in arguing a case.

CENSUS POPULATION OF CITIES ANNOUNCED

WASHINGTON, April 10.—The census bureau today announced the following population figures for 1920 and comparison with 1910:

Norwalk, Conn., 27,557, increase 3,346 or 13.8 per cent; Corning, N. Y., 15,820, increase 2,090 or 15.2; Fond Du Lac, Wis., 23,437, increase 4,350 or 24.6; LaPorte, Ind., 15,158, increase 4,633 or 44; Middletown, Ohio, 23,594, increase 10,442 or 79.4; Cape Girardeau, Mo., 10,252; increase 1,777 or

21; Caruthersville, Mo., 4,750, increase 1,095 or 30; Slater, Mo., 3,797, increase 559 or 17.3; Kennett, Mo., 3,622, increase 539 or 19.4; Charlestown, Mo., 3,384, increase 240 or 7.6; Farmington, Mo., 2,686, increase 73 or 2.8; St. Feenix, Mo., 2,046, increase 79 or 4; Jackson, Mo., 2,108, increase three or .1; Jonesboro, Ark., 9,389, increase 2,261 or 31.7; Blytheville, Ark., 6,447, increase 2,598 or 67.5.

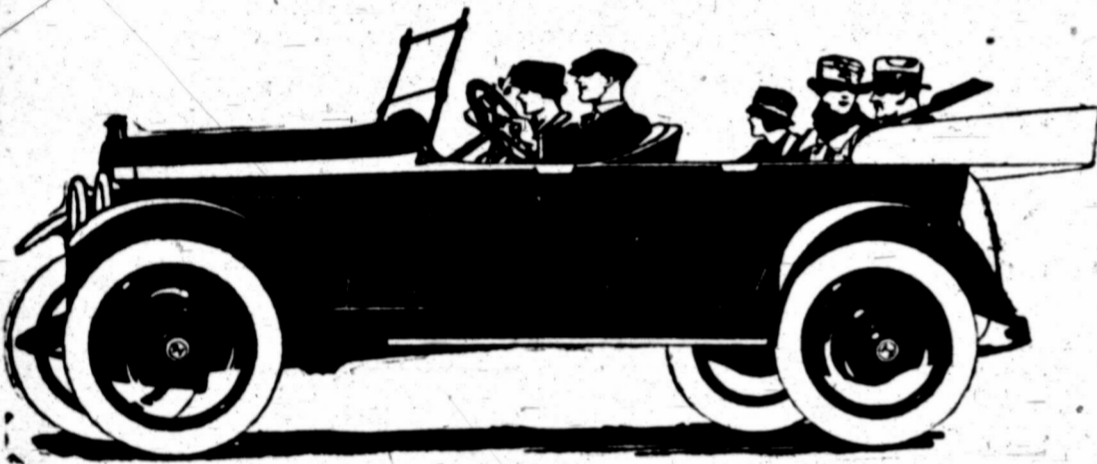

The Mendicants of Madrid. Madrid has 50,000 beggars who frequent the streets and solicit alms of visiting strangers whom they readily spot. The beggar population represents one to each 100 inhabitants of the city.

Mr. and Mrs. E. H. Deaton have returned to their home at Dallas after a visit with Mr. Deaton's parents, Mr. and Mrs. J. A. Deaton.

BAPTISMAL SERVICE AT FIRST CHRISTIAN CHURCH; COLLEGE QUARTET TO SING

A baptismal service will be held at the First Christian church tonight when about 20 new members will be baptized. These came into the church as a result of the membership campaign, which is still in progress, and which is expected to result in a number of additions at today's services. Efforts are being made to reach all those shown by the recent church census to be members elsewhere, or to have preference for, this church.

A musical feature of tonight's service will be the singing of the John Tarleton College quartet, from Stephenville.

DELIBERATE ATTEMPT TO BESMIRSH GREATEST MAN U. S. HAS PRODUCED, SAYS FORMER ATTORNEY GENERAL

AUSTIN, April 10.—"There is a deliberate intention here and elsewhere to attempt to besmirch the greatest man, in my judgment, our party and our country has ever produced and the greatest administration which the democratic party or any other party has presented to our people," said Thomas Watt Gregory here in an address in which he stoutly defended the record of the administration from the attacks of J. W. Bailey and others. Mr. Gregory's address in part follows:

"I have held only one office, real office in my life, and that was that of attorney general of the United States, and so long as I live, my present pride will be that during the time that tried men's souls, when the nations and the world itself almost its existence, certainly its civilization, hung in the balance, my greatest pride has been that I was permitted to stand by the side of the Cavalier of Bayard, that he was a man without fear and without reproach: Woodrow Wilson, president of the United States. (Applause.)

Build Up a Minority Party.

"He took this party when it was a minority party.

"In the first election in which he reached the White House the republican party was split almost directly down the spinal column, and we slipped in as a minority party, with perhaps a million and a half votes against us at that election.

"He took the party and its forlorn minority, and in four years he made it a majority party and against the strongest man at this time in the republican party, Judge Hughes of the Supreme Court, he defeated a consolidated republican party in an open fight and in an open field. (Applause.)

The Party's Constructive Work.

"Now, how was that done?"

"Briefly, very briefly, let me refer you to the constructive acts—I will not discuss them—which made that thing possible, which turned a minority party, rather an insignificant minority party, into a majority party in this great government.

"In the first place, the federal reserve bank act, which was put through by his administration, was denounced by practically every banker in this country as impossible and destructive, yet it was put through, and today I defy any of you to find a real banker from Boston to Galveston who will not say that it is the greatest banking system that the world has ever known.

"Without that banking system, we could not have financed this war; it would have been impossible to raise the billions of dollars of Liberty bonds and to have carried this country through the greatest finan-

cial crisis which any country has ever seen in the history of the world.

Farm Loan Act.

"Then the federal farm loan act. 'I am talking to people here now who will realize what I say, that for the first time in your history you began to see money at 5 per cent, at low rates of interest, for a long time, upon farming land, which national banks heretofore had not been permitted to loan money on, and the farmers of this country for the first time began to appreciate the fact that this government took an interest in their welfare and their future.

Road Act.

"The federal aid road act—and I am talking to farmers, who know what the administration during the first four years did to build up the roads of the country.

Cotton Futures.

"The federal cotton futures act, which took you out of the hands of gamblers and men who preyed upon the prospects of the cotton crops of this country.

"The federal co-operative agricultural extension act.

"The development of the federal trade commission act.

"The tariff commission act.

"The re-establishment of the merchant marine of the country.

"I mention these as a few of the great constructive acts which stand today and will stand for all time as the greatest constructive program put through in four years in the history of the American nation. (Applause.)

Keep Country Out of War.

"Now, the first four years of that administration closed and he went again before the people of this country at a time when the world was on fire, and for two years, this man with steady hand upon the helm, kept this country out of war.

"We prayed that we might be spared that great sacrifice.

"He stood out against criticism and against abuse of those who tried to drive him into that war, and yet invariably he said that the people of this country should not be headed into this awful world-cataclysm as long as there was any honorable way to keep out of that war.

"Now, you know what the causes of the war were; I do not have to review them; I simply say this: That Woodrow Wilson stood for peace until we reached the time that no self-respecting man could stand for peace. (Applause.)

"He stood for peace until our citizens were being murdered wholesale upon the high seas.

The German Conspiracy.

"He stood for peace until Germany conspired to combine with Mexico and Japan to wage war upon this country, to disrupt this country, and great joke as you may call it, to

take Texas and California and give them back to Mexico.

"That was revealed in the famous Zimmerman note which was written by the prime minister of Germany to the German minister at Mexico, with instructions for him to make a combination with Mexico and with Japan, to wage war upon the United States and dismember this country.

Effect of the War.

"Now, what was the effect of that war?"

"My friends, I have stood upon the battlefields of the Champagne and the Flanders and have walked above the graves of American soldiers, and have watched the march of regiments by the men that fell.

"I have seen scenes that I cannot refer to without the deepest emotion; but I say to you, with all that you have heard and all that you have read, there is not a man or a woman in this audience tonight—except it be the father or mother of one of those who lie upon the plains of France today, who has an appreciation of what this country did for the world and for humanity.

Winning of the War.

"Now that the war has passed; it was a war won with the most remarkably small loss of blood on our part that was ever won in the history of the world.

"The simply got there, as old Nathan Bedford Forrest is said to have said—though I don't believe he did say it—that we got there 'firstest with the mostest men,' and then it was all over.

"But when you come to review what happened in the war, what stood behind it, the organization, the power, the force which accomplished that enormous result within that modicum of time, is it conceivable—is it conceivable that no tribute can be paid to this man—this southern man—this son of a confederate chaplain, in the confederate army, who stood at the head of our hosts, who night and day toiled to perfect those forces and to accomplish those results—is it conceivable to say that the winner of this greatest of all wars, with this least of all loss, is entitled to no tribute of respect and reverence from the hands of the American people?"

(Voices: No, no!)

"The man who thinks that has no appreciation of courage, of fidelity, of appreciation of real ability.

"Why, to hear some men talk you would imagine that we had done nothing but lose that war.

"That nobody but a lot of idiots had conducted it.

"That nobody but a lot of cowards had fought in it.

"That the results had been utterly disastrous, and that we had been whipped from start to finish, and that nothing whatever except mistakes had occurred from beginning to end.

Mistakes in Times of War.

"Now, let me say to you, my friends, that wars are at times mistakes—the and in these times the thing to be accomplished is to end the war at the earliest possible moment with the least possible loss of human life.

"And history will record the fact

that no leader in all times has within the same period of time won such a war as has Woodrow Wilson, president of the United States. (Applause and cheers.)

Saving the World.

"Now we passed that period.

"I saw the boys come back, and I came on a troop ship with thousands of them.

"I saw them parade the streets of New York and the national capital, and the war was over, and this man went to reap as best he could the proper fruits of that war.

"We were asking for nothing except that it should be so done—the settlement of this peace should be so consummated that there would be no likelihood in all the years to come that the youth of this country would be called upon to cross three thousand miles of salt water and give their lives upon the plains of Europe.

Wilson's Work.

"And he set his face to that mighty task.

"I saw him in Paris under conditions where it astonished me how he could live.

"I saw him there, as it were, backed up against the wall, and fighting the double-fisted fight which the Scotch-Irish always fight.

"He stood there and combated every selfish interest of Europe.

"He combated every secret treaty and every piece of chicanery that could be resorted to; he stood there and fought for America against the world.

"You hear in the Bible, the few of you who read it—I reckon some of you do (laughter)—the story of the Good Samaritan. And you hear about the man that was going down the road to Jericho that was assaulted by robbers and beaten and robbed and left for dead; and how the Good Samaritan came along and tied up his wounds and helped him.

"And it has come down—the story has—for 2,000 years.

"And we were spoken of as the Good Samaritan who was helping the wounded and the crippled and the dying, and that we held to be our duty.

"And Woodrow Wilson said: 'Nay, verily, we will help you where we can, but above all things, the road to Jericho has got to be made safe.' (Applause and cheers.)

The Safe Road.

"We are going to make this road safe.

"We are not going to risk in the years that will come at some little row in the Balkans, just like this great war started out in Serbia, or some little row down on the Adriatic coast, just like the Fiume incident might lead to—that unless it is properly settled.

"That some little row in the Balkan States would open the maelstrom of war when nations are engulfed and when the world swims in blood, and proposed to fix it for all times, if in God's wisdom it should be permitted.

THE HABERDASHER

8TH AT SCOTT AVE.

so that such a thing could never happen again.

"And this country would never be called against to give the sacrifices in blood and money which it has given to make democracy safe all over the world and to make the little nations free and to protect them against the encroachment of the powerful.

"He stood there and he battled day by day and week by week. He cut himself off from every social intercourse. He attended no functions after the peace treaty began its work. He attended no dinners or anything of the world of that kind, no social functions, but saving himself in every conceivable way, he labored and shortened his life.

"Life for a Principle.

"And there was the beginning of the wreck of that life—in doing what?

"In battling against the selfish interests.

"In battling against men who were trying to oppress other men.

"In trying to give to the world for all times the principles under which we live and under which we hope the balance of the world would live.

"And in trying above all things to constitute a piece of machinery, which would make it unlikely if not impossible that 6,000,000 men and women should ever die in a war during a period of six years.

Permanency of Peace.

"And now this country has come back to this country and he has asked that the American people help him to establish that peace, to establish that guaranty to make this thing impossible for all time.

"Now, I am not going into a discussion of the details of the League of Nations; I say this to you, and I say it as one who has seen the fight from the inside, who knows something of the issues which have been presented and the results which have been brought about, and I want to simply dismiss it without a discussion of the details with this statement: That the men who are seeking to kill the League of Nations today have offered nothing as a substitute for it (Applause).

"They threw up their hands. (Applause.) They threw up their hands in utter hopelessness; they offered nothing in lieu of it.

"Now, you cannot attack a great principle without offering something better in place of it; you can not, in intellectual honesty, attack a great plan without honestly offering a better plan.

Fleet and Navy.

"And yet the only plan suggested today in lieu of this League of Nations which they are seeking to destroy is a mighty standing army and a mighty fleet which will protect this country for all times against all nations.

"A plan which would grind into the dust you and your children, and your grandchildren and your great-grandchildren for all time.

"A plan which would load you with taxes such as Germany suffered; would load you with an autocratic form of government and militarism such as Germany suffered.

"A plan abhorrent to the American people who do not believe in vast fleets, but who do believe in the rights of their neighbors being respected; in the strong respecting the weak, and who do believe that this war shall never again be repeated until Gabriel has sounded his final trumpet.

Wilson a Victim of War.

"Now, let me say this to you about the president: He is absolutely a victim of this war as any man whose body lies upon the plains of Flanders. He is absolutely a victim of this war as any man who was passed upon the plains of Champlain.

"He has given to it every vital force—his life-blood, and he has fought for it and he has not spared himself, until he has fallen in the harness.

Story of a Sick Lion.

"There is a story about a sick lion and when he was sick he hyenas and the jackals gathered around him (laughter), and they snapped at him. (Applause and cheers.)

"When he was alive they squeaked like mice, and when he lay sick and wounded they roared like packasses. (Laughter and applause.)

"What did these men do—these men who today slander and vilify and abuse and discredit, or attempt to discredit—they can not do it successfully—what did these hyenas do when the roar of the well lion resounded through the hills and the forest—they didn't do anything; they sneaked off to the places where they belonged.

Assaulted by Enemies.

"There has never in the history of our country been an instance where a man of such towering management intellect, has been stricken in this particular war, and where so many cowardly enemies have assaulted him in the hour of his weakness and of peril.

To Recover Soon.

"I am glad to say in that connection right here that I think in a very short time he will be just as good as he ever was at his best. (Applause and cheers.)

"He goes out to ride in his automobile now, and if you pick up the morning papers occasionally you will find that he has not lost the power to give a solar plexus when the occasion demands it. (Laughter and applause.)

"Let me say here that I trust the time is close at hand when these cowardly creatures will sneak back into their dens from whence they came. (Applause.)

"I want to tell you that among these numbers they are not all republicans. (Applause.)

Those Who Differ.

"Now, I do not mean to say that all of the men who oppose the Wilson or differ are of the character that I have just mentioned.

"There are many people who honestly differ with him.

"I do not believe there ever was anybody that would agree with about everything that he did.

"I know none of us agree with our wives about everything and if you do not do that how do you expect men to agree with everything?"

"That is an impossibility.

"We have to do a good deal of take and give in this world.

"I do not say that Woodrow Wilson has committed no mistakes in his life, but as once was said, the man who makes no mistakes makes no line else.

"The man who accomplishes great things in this world may fall down a little below 100 per cent in his balance sheet, but then I will say that in the history of this country I know of no man historically of whom it can be said that he stands upon as high a plane as he has made no mistakes, as the man who lies sick at the White House, in Washington. (Applause.)

Fruits of the War.

"Now what has come out of this war?"

"Again I speak with some knowledge of the fact.

"Permit me to say with due modesty that there are really only two solvent nations in the world today, and they are Great Britain and the United States.

"If Great Britain had to pay all of its debts tomorrow on the spot, it

would be bankrupt, but it is a country of enormous resources and with an enormous debt, but it will pull out and it will get along.

"But when we come to the comparison of this country with all the other countries, save Great Britain, the United States is the only actually solvent country in the world today.

"It is entering upon a period of prosperity, such as history bears no conceivable record of.

"There are going to be a lot of jars and jolts as time goes by as business and men's lives are adjusting themselves.

"You are going through a period like that which comes upon a community when a great earthquake or a great tornado destroys houses and churches and stores and everything, and strews chaos.

"Men must readjust themselves and business must readjust itself all over the world.

"When you compare the condition of the United States with any other nation then you begin to appreciate the fact that we are literally in a class entirely by ourselves, and that this country today is in a prosperity that makes life worth while.

What Taxes Are.

"Now, you are troubled about heavy taxes, but, my friends, you are paying the debt of this war.

"You are paying for all time and for which we will receive the benefit. You didn't perhaps have the privilege—I saw it was a privilege for most of you to go over there and fight, and perhaps die for your country, because it is the greatest privilege that any human being ever had offered him.

"Your contribution to that was to stand behind the guns, to stay in the rear and furnish the money.

"You raised one-third of the taxes of this war.

"One-third of the cost of this war was paid by the United States by taxation while the war was going on.

"The other two-thirds is represented

by Liberty bonds and Victory bonds and things of that kind.

"You are paying for the great thing which you did—it must be paid for.

Price of Freedom.

"It is a heavy and grinding tax that worries us all, but that is the price of the eternal freedom; that is the price which each of you is helping to pay today for making democracy safe in this country and safe all over the world.

Unjust to Criticize Wilson.

"And as prosperity comes the taxes will go down, and they will very shortly.

"And this burden will be released more and more from your shoulders.

"And to say that this man who had those taxes levied and those debts created and saved the world is to be burdened with that, with the result of such a magnificent character with all he has accomplished, I say to you, my friends, it is the greatest instance of an unjust and outrageous criticism that the world has ever seen. (Applause.)

Wilson as Greatest American.

"Now, I say to you, that in my judgment, you may agree with me or you may not, but I say to you, in my judgment, based on results accomplished in peace as well as in war, that the greatest leader that the American people has ever known, as shown by the results accomplished in Woodrow Wilson. (Vociferous applause.)

Administration's Work.

"If I say to you further that the great period in the history of America, when it has ridden to the highest heights of grandeur and of power and of splendor, when its flag has been unfurled with great veneration in every country, when the uniform of a soldier has been bowed to in every country where it appears—in all the period of its history there has been no administration that has accomplished the things that this administration has during the last several years. (Applause.) And history will so record.

Both Rich and Poor Of Wichita Falls Rub Elbows To Meet Kessinger Representative

Personal Representative of Noted Health Teacher Tells Anxious Hearers that Modern Ailments are Mostly Imaginary, and Gives Striking Examples of Conditions Everywhere.

Fred W. De Vinna, the personal representative of Harry Kessinger, the man who claims that Americans have weak stomachs and who met the public of Wichita Falls yesterday in such large numbers at his headquarters in the Young and Miller Drug Company's drug stores, seems to be bearing out his predictions. People of Wichita Falls called all day to see him and to hear about his theories and treatment, and his headquarters presented a novel sight.

A remarkable feature to the onlooker was the varied types of people whom Dr. Vinna attracted. They ranged from prosperous looking business men and fashionably dressed women to laborers and their plainly dressed and hard working wives. All rubbed elbows in a common cause—the pursuit of health, or, as Dr. Vinna put it, "sound digestion."

A MILLION DOESN'T HELP

While commenting on the striking differences in the varied visitors who called on him, Dr. Vinna said: "Why not? Because a man has \$1,000,000, that doesn't make his stomach any better. To the contrary, sitting in a desk all day, riding back and forth in an automobile and stuffing himself with rich food, will put his entire system out of order as sure as fate.

"Most of these men and women I meet tell me they have been seeing nerve specialists. The well-to-do seem to attribute the most of their troubles and ailments to nerves. It is not their nerves. It is modern conditions that have produced the thousands of pale, yellowish and sickly looking people among rich and poor alike in this city as well as every other city in America. It's broken down, over worked, stuffed up digestive organs—that is where the trouble is.

"I am going to make a lot of people realize this before I leave Wichita Falls.

"Not long ago a prominent woman came to me and said her maid told her that the treatment I represented was doing wonders for her. She said: 'My maid is suffering from insomnia caused by nervous exhaustion and I have had the same trouble for the past three years.' I wanted to say—tommyrot, madam—I both you and your maid are suffering from the effects of too little fresh air and too much hastily eaten and undigestible food. But I didn't say it. I simply told her the treatment and let it go at that. She will be positive as long as she lives that it relieved her of nervous exhaustion, when it really all it did was to put her digestive organs in shape so her food nourished her instead of filling the system with poison gases.

"Get the digestive organs working properly and the nerves will take care of themselves."

Mr. De Vinna and his assistants are meeting the people daily at the Young and Miller Drug Company, also Miller Drug Company, Wichita Falls, two leading drug stores and will be glad to give you the benefit of their knowledge of good health and how to preserve it.
