## HEADWAY MADE AGAINST STRIKE IN WEST

### FRENCH REPLY TO BRITISH CONCILIATORY

Pointed Out, However, That No Material Change in Situation

### MILLERAND MAY NOT ATTEND CONFERENCE

Earl of Derby Delivers British Reply to Latest Note of France

By Associated Press. PARIS, April 12.—Nothing has as yet been decided as to Premier Millerand's attendance at the supreme council meeting at San Remo, as it was declared today by a reliable source, that if the conference there was to discuss the misunderstanding between France and Great Britain he would not go at all.

A personal talk on the subject with Premier Lloyd George would be welcomed by the French premier, if Lloyd George could find it convenient to come to Paris, but it is considered in official circles that as the point at issue interests France and Great Britain only, it is not to discuss it before the representatives of the other powers.

It is held here that the British government is persisting in the discussion of the French occupation of the Rhine, where it is difficult to see what satisfaction it is possible to give, France has not been asked to evacuate Frankfurt, and the impression is gaining ground that it is not to be sought above all is to discipline France.

The Earl of Derby, Great Britain's ambassador to France, attended the council of ambassadors here today. The Hungarian treaty was the sole matter under discussion.

Premier Millerand's reply to the latest British note has not yet been made public, but it is declared to make no material change in the situation. It expresses regret that there has been occasion for any controversy, but it points out that France acted in her occupation move east of the Rhine in the fact of a situation which required prompt action.

The note announced that France is determined to remain faithful to the alliance, but it intimates that the government cannot promise to abstain from defending the interests of the French occupation zone.

The softened tone of the correspondence with Great Britain is noted with some satisfaction, but was remarked with some surprise, it was said, that the French occupation zone is not to be developed as a grievance against an ally.

MILLERAND REFUSES TO DISCUSS BRITISH REPLY. PARIS, April 12.—The Earl of Derby British ambassador to France, delivered to Premier Millerand at 1 o'clock this afternoon the British reply to the French premier's note of last evening. M. Millerand refused to discuss the contents of the note with the newspaper correspondents.

### WHEN GERMANS WITHDRAW FRANCE WILL DO LIKEWISE

LONDON, April 12.—The latest note from the French government, which was received here this morning, says that the French troops in Frankfurt and other occupied cities will be withdrawn immediately upon withdrawal of German troops from the Ruhr region. It promises that action will be taken by France.

### VERBAL EXPLANATIONS ACCOMPANIED BRITISH REPLY

PARIS, April 12.—(Havas.)—Verbal explanations which may eliminate differences of opinion between England and France relative to the advance of French forces east of the Rhine accompanied Great Britain's answer to Premier Millerand's latest note, according to the Petit Parisien. Other newspapers point out that it is to the interest of the allies that any controversy between France and Great Britain be settled before the meeting of the supreme allied council at San Remo.

Premier Millerand was asked by the British ambassador when he was going to San Remo, and the French premier replied he would probably leave April 13, but would not set the date until he had seen the reception given his latest note, says the Echo de Paris. The premier intends to postpone any declaration on the situation in the chamber of deputies until the controversy with Great Britain is settled, the same newspaper remarks, but should it continue, it is possible he may ask the French parliament to approve the policy he has adopted.

### ARMY TRUCKS AND SOLDIERS HANDLE MAILS AT JERSEY CITY

NEW YORK, April 12.—A score of army trucks, manned by armed soldiers from Camp Merritt, were used today to unload and transport mail in Jersey City, Mayor Hague, "in the name of suffering humanity," appealed to the strikers to arbitrate.

### RUMORED MORE MEXICAN STATES JOIN REVOLT

Reports From Sonora, However Are Indefinite and Names Are Lacking

### STATE TROOPS GUARDING AGAINST FEDERAL INVASION

Officials of New Republic Await Next Move of Carranza Government

AGUA PRIETA, SONORA, MEXICO, April 12.—General J. M. Pineda commanding first divisional army of the state of Sonora, announced he had received semi-official information that thirteen additional states of the republic were expected to follow the example of the state of Sonora in seceding. Definite details as to the list of states is lacking, however.

AGUA PRIETA, SONORA, MEXICO, April 12.—Sonora military authorities announced today that the state troops which were recalled from the Sonora-Sinaloa boundary had been ordered back for patrol duty. Invasion by federals was feared, it was said. Chihuahua-Sonora mountain passes are guarded also.

NOGALES, SONORA, April 12.—Officials of the new "republic" of Sonora, which withdrew from the Mexican government Friday, today awaited the next move, which they declared must come from the Carranza administration. In the meantime, they prepared for any military activity against the state.

NOGALES, SONORA, April 12.—Officials of the new "republic" of Sonora, which withdrew from the Mexican government Friday, today awaited the next move, which they declared must come from the Carranza administration. In the meantime, they prepared for any military activity against the state.

The Carranza officials accused Carranza of forcing the break in relations on the southern boundary line of Sonora despite the state's demand that order be cancelled. They said Carranza planned to set up a military dictatorship and oust the present state government. Carranza's troops attempted to enter the state by the presidential candidacy of Gen. Alvaro Obregon, a citizen of Sonora.

Before the break came, open threats were made that if Carranza troops attempted to enter the state they would be met with state troops and revolution result. The same authorities now say an attempt by Carranza to force the state to return to the central government will mean bloodshed.

Gen. P. Elias Calles, former governor of Sonora, and until recently a member of Carranza's cabinet, has been notified to leave the state by the "republic." Calles has called for volunteers to resist any attempted invasion of the state by federal troops. Custom houses and all Mexican federal property throughout the state have been seized by the state government.

Several days ago Carranza was reported to have 3,500 soldiers mobilized on the southern boundary line of Sonora. No report has since been received of the disposition of his force. The state of Sonora is now feeding and caring for 2,000 Yaqui Indians, who recently have been rebelling and there, it was said, would be among the troops to resist any Carranza attempt to capture the state. The Yaquis are being cared for, it was said, pending the outcome of peace negotiations with them.

### HOBBY RETURNS TO TEXAS JOHNSON GIVES UP THE REINS OF GOVERNMENT

AUSTIN, TEX., April 12.—Acting Gov. W. A. Johnson ceased to perform the duties of chief executive at 10:55 today at which time Gov. W. P. Hobby reported to have crossed the state line at Denison, according to information received by his private secretary, Ralph Soape. Lieutenant Governor Johnson left at noon today for his home at Memphis, Tenn.

AUSTIN, TEXAS, April 12.—Fourteen pardons were issued by Lieutenant Governor W. A. Johnson while acting as chief executive of Texas during the week of Governor W. P. Hobby's absence. Virtually all of these pardons were for negroes and friends of the Mexican who had served a great portion of their sentences, according to Judge Fritz Smith, chairman of the board of pardons. Included in the fourteen were eight negroes convicted from Anderson county of the violation of the liquor laws by the manufacture of so-called beer out of fermented molasses and getting intoxicated on the beverage the record disclosed.

### RAILWAY EMPLOYEES CONVENTION OPENS AT KANSAS CITY

KANSAS CITY, April 12.—Delegates representing eight railroad crafts were here today for the biennial convention of the American Federation of Labor. Virtually every state in the union and Canada were represented. The question of railway switchmen was expected to receive special consideration at the opening sessions today.

### HOWAT SPEAKS TO MINERS FROM THE GIRARD JAIL

Ninety per cent of the coal mines of Kansas are idle today while the miners refrain from work as a demonstration of protest against the imprisonment of Alexander Howat, their president, and three other district union officials.

This announcement was made at the office of the mine operators after reports had been collected there from over the Kansas district. It was stated that 11 mines are in operation, but that those in operation are being run with short forces. Three of the mines in operation are deep shaft mines and the others shovel mines.

Leaders of a big demonstration against the jailing of Alexander Howat planned to have a speech by Howat as the chief feature of their demonstration at Girard this morning.

The miners, about 600 strong, according to estimates, were expected to reach Girard about noon. Two or three bands were reported in the procession. Several American flags were carried by marchers.

Howat spoke for an hour from a balcony of the jail. He was repeatedly cheered by the crowd which had mobilized two or three miles out of the town and marched in following a band carrying American flags and banners. After marching around the courthouse square the friends of Howat gathered in front of the jail.

"We won't recognize this court," Howat spoke for an hour from a balcony of the jail. He was repeatedly cheered by the crowd which had mobilized two or three miles out of the town and marched in following a band carrying American flags and banners. After marching around the courthouse square the friends of Howat gathered in front of the jail.

### NEW REVOLUTION IN GUATEMALA; MARINES LANDED

WASHINGTON, April 12.—The long threatened revolution in Guatemala against Governor Cabrera finally has broken out. Reports today to the state department said the opponents of the president had gained, considering Guatemala city after some street fighting.

A marine guard from the cruiser Tacoma and submarine tender Niagara has been landed to protect the American legation.

Embargoes Placed on all Incoming Freight and Yards Completely Tied Up

All freight coming in and going out of Wichita Falls is tied up and an absolute embargo has been placed on both incoming and outgoing. These are the latest developments in the wholesale resignations of switchmen and yardmen which came to a head Saturday at 11 p. m. with the walkout of a men at work at that time. Passenger and mail trains will continue to run on schedule time.

The embargoes and the delay in handling available freight will tie up all local business organizations dependent upon the receipt of freight shipments. Many local industries will be forced to close down within a short time.

The yardmen, whose organization includes practically every one of the four hundred freight running in and out of the Wichita Falls terminal joined the yardmen and switchmen in their demands on the railroad at noon Monday. The firemen stated that they will not handle switch engines in the local yards. This will not, however, interfere with their handling of road trains.

The firemen joined the yardmen and switchmen in their demands for one dollar an hour at a meeting held in the Labor Temple Sunday evening. There was one continuous meeting throughout the day Sunday. Following the meeting of the conductors and firemen, which was held in another part of the Labor Temple, the two branches sent committees in to confer with the newly organized yardmen's association, George S. Stora, George Shupe, and J. H. Hines, representatives of the conductors and C. Derryberry, C. T. Maroney and T. Miller for the trainmen.

These committees appealed to the yardmen to return to work. The yardmen's representative replied that the boys had resigned on account of dissatisfaction with the small wages and that the demand presented to the company contained the wages for which the men would return to work. The organization of the yardmen, which is said to have demanded the presentation of the demands to the company, and that the organization stood for was reviewed. It was also brought out at this meeting that it is the general belief that the yardmen's association is affiliated with other organizations of like nature. This was flatly denied. It was stated that the local organization is not influenced in any way by the more or less outside organizations and that the jurisdiction of the association is limited to local yard boards.

Upon reconsideration of the matter, the firemen voted to join the yardmen in their demands for one dollar an hour, and the firemen are to wait until 6 p. m. for an answer. They have chosen as their headquarters Room 7 of the Labor Temple. Four hundred men are expected to be present. According to the present demand, the firemen will be allowed to go on road trains, but they will not be permitted to fire a switch engine. This action is expected to tie up the local yards completely.

President E. J. Morris made it plain at Sunday's meeting that the yardmen's association is not fighting an one-sided organization. He stated that a committee was appointed Saturday to get the representatives of the M. K. & T. and Denver and tell them that the association was willing and ready to meet with them and handle their business. A short time before 11 Saturday night, however, a representative of the Brotherhood of Railway Trainmen appeared on the scene. He stated that the B. R. T. had a contract with the railroads to protect the movements of trains. This declaration on the part of the B. R. T. was understood to have relieved the yardmen of any responsibility. Morris notified the Trainmen's representative, however, that should the situation get beyond their power and they found that they (the B. R. T.) could not handle it, they would call on the association. He stated that the association is willing to consult with anybody representing the public to discuss the matter and that they will do nothing in their power to disrupt the public and membership to keep traffic moving.

The organization goes on record as saying that they will provide men to move passengers and mail trains, but if they are given orders to switch any freight trains, the firemen will refuse to work. This volunteer proposition is made for the benefit of the traveling public and the public in general for the handling of mail trains.

The strike of the switchmen is causing delay in handling all trains. Two freight, about one third of the normal run, was taken out of this city Sunday. Only the two local freight trains were scheduled to run today.

The strike will cause delay in the handling of all freight and will tie up all business dependent upon current shipments.

No trouble has been experienced nor is there any expected, however, in the handling of mail and passenger trains. The embargo, according to the local railway official, was as much the result of outside shipping conditions as the local strike, although the action of the local men did have its effect. Port Worth yards are in practically the same condition as here locally. Such is not true north of here and it is understood that at several points in Colorado the men have voted to remain at work.

There have been no steps taken by the local railroad officials to bring men in here to replace the strikers. Developments are expected within the next few days however.

The company has contracts with the men and it is reasonable to suppose (Continued on Page 3 Column 4)

### YARD FIREMEN JOIN SWITCHMEN IN STRIKE HERE

Embargoes Placed on all Incoming Freight and Yards Completely Tied Up

All freight coming in and going out of Wichita Falls is tied up and an absolute embargo has been placed on both incoming and outgoing. These are the latest developments in the wholesale resignations of switchmen and yardmen which came to a head Saturday at 11 p. m. with the walkout of a men at work at that time. ### Federal Government Delivers Ultimatum To Strikers at Chicago

(By Associated Press) CHICAGO, April 12.—Striking railroaders in the Chicago district must either return to work or consider their positions vacated and hunt employment elsewhere, District Attorney Charles Clynne told leaders of the men today.

The government demands that the trains run and will assist the roads in filling the places of men who fail to return to work, the district attorney is said to have told the strike leaders.

At the federal building officials declined to say what measures the government was prepared to use in enforcing its edict. Mr. Clynne's attitude, as explained to the strikers, is that the men are free to quit their jobs but having done so they cannot use coercive measures to prevent other workers taking their places made vacant.

He is reported to have told the strikers to hold no more meetings in an effort to win men away from the roads.

### CONDITIONS IMPROVE IN WEST BUT GROW WORSE IN EAST

(By United Press) Strike of railroad employees continued to spread in the east today while reports from western cities indicated the situation was at a standstill. Only one city, Cleveland, reported men returning to work.

The future of the strike apparently depends on action of officials of eight big railroad unions who met in Kansas City. This meeting will decide whether the brotherhoods will continue to enforce their agreement to submit all wage demands for mediation, or declare for one union of all railroad employees and endorse the present strike.

Reports on the food situation from cities throughout the country showed no immediate danger of a serious shortage. The fuel situation in some districts was reported more serious.

Because of inability to obtain coal, steel plants were closing down at Youngstown Ohio; Gary, Ind., and Buffalo, N. Y. Twenty thousand steel workers were reported thrown out of work at Youngstown.

Other industries in some sections were forced to curtail their operations because of lack of coal.

Both passenger and freight service in the New York district was seriously crippled. Passenger service in other sections of the country was reported practically normal, but little freight was moving.

CHICAGO, April 12.—The first break in the switchmen's strike in the Chicago district was recorded this morning when the Chicago, Burlington and Quincy lifted all embargoes after announcing that sufficient men had returned to work to keep all traffic moving.

Conditions on other roads were improved today, railroad and brotherhood officials said.

NEW YORK, April 12.—The Central Railroad of New Jersey suspended passenger service today when agents were ordered to stop selling tickets. The road covers the state of New Jersey and the suspension order affects approximately 55,000 commuters.

WILMINGTON, DEL., April 12.—Trainmen of the Pennsylvania, Baltimore and Ohio, and Philadelphia and Reading railroads, including freight and passenger engineers, firemen, conductors, brakemen and yardmen at a meeting here today voted practically unanimously to quit work at 11:30 o'clock tonight.

CHICAGO, April 12.—Developments west of Pittsburgh in the switchmen's unauthorized strike today were regarded by railroad brotherhood officials as pointing toward a gradual dissolution of the insurgent forces, but in the east, where the walkout was joined in several districts by trainmen, the situation assumed a more serious aspect.

At Chicago, admitted keystone of the walkout, railroad officials were presented "terms for settlement of the strike," which included recognition of the new union formed by dissenters from the Brotherhood of Railroad Trainmen and the Switchmen's Union of North America.

One Concession Made. In the settlement offer, proffered by John Grunau, president of the Chicago Yardmen's Association, who called the strike, at least one radical concession was made: Abrogation of the request for back pay demanded by the older organization in their contracts with the government. That possibly would mean a saving of hundreds of thousands of dollars to the railroads, it was said.

Other clauses in the proposed settlement are demanded granting of the original wage increase called for in the strike announcement to be effective upon the return of the men to work; eight-hour basic day, and time and a half for overtime, Sundays and holidays and double time for overtime on Sundays and holidays.

In addition to the gradual improvement claimed by railroad heads in the Chicago district which the brotherhood officials said presented a return to normal throughout the country, the organization leaders pointed to the votes

OTHER R. R. WORKERS STRIKE AT SPRINGFIELD. SPRINGFIELD, MO., April 12.—Maintenance of way and shop laborers of the St. Louis and San Francisco railroad at Springfield this noon voted to strike, effective immediately. Approximately 900 men are affected. The men quit work at 9 o'clock this morning and marched to a meeting held where a strike vote was taken.

RAILROAD OFFICIALS IN NEW YORK OPTIMISTIC. New York, with its back against (Continued on Page 3 Column 1)

### TEXAS COMPANY GETS BIG WELL ON C. BIRK TRACT

Flowing 1,900 barrels, the Texas company No. 3, C. Birk on the western side of the Waggoner pool, has been completed, the largest well on the tract. The local office also reports the drilling deeper of the No. 1, which is in the northeast corner of the Birk tract, increasing its flow to 900 barrels. This well came in making 600 barrels. The sand was drilled 20 feet deeper, it is stated.

### POPULATION FLINT, MICH., INCREASES 137 PER CENT

WASHINGTON, April 12.—The census today announced the following 1920 population figures: Flint, Mich., 19,569, increase 2,012, or 12 per cent. Adrian, Mich., 11,878, increase 1,115, or 10.4. Emporia, Kan., 11,273, increase 2,215, or 24.5. Wabash, Ind., 9,872, increase 1,185, or 12.1. Albany, Ala., 7,652, increase 1,534, or 20.1. Sheffield, Ala., 6,482, increase 1,817, or 28.3. Paris, Tenn., 4,730, increase 899, or 21.2. Murfreesboro, Tenn., 5,367, increase 688, or 14.7.

### CRIMINAL ACTION AGAINST WAR CAMP CONTRACTORS ASKED

BY HERBERT WALKER. (United Press Staff Correspondent.)

WASHINGTON, April 12.—Criminal proceedings in the department of justice and suit to recover \$78,000,000 alleged to represent government losses through fraud, waste and extravagance in the cost plus system of contracts, for building the 16 national army cantonments, were presented today in a report to the house by a subcommittee on camps and cantonments by the war department expenditures committee.

Representative McKenzie, Illinois, and Representative McCullough, Republican members of the subcommittee signed the report while representative Doremus, Michigan member, in the minority, declared they found "very little evidence of fraud and had the cost plus system not been adopted, the Germans would have reached the battle line."

The report estimates that the alleged loss to the government from fraud and extra advance due to the system, ranged from 30 to 50 per cent. The committee audited the contracts of the sixteen national army camps and claims that the loss to government was \$75,000,000 out of a total \$206,000,000. Skilled contractors have gone over the accounts and determined the figures, which should be received from the treasury, the report says.

Responsibility for the loss is placed on Secretary of War Baker.

The majority reports give several instances of alleged fraud and especially charges. A Bentley and Sons company, who held the contracts for Camp Sherman, Chillicothe, Ohio, with receiving illegal payments to the extent of \$18,572.75.

"Some of the most notable examples made public were found at Camp Sherman and Camp Grant, Illinois," the reports claim.

### STATE FUNDS YIELD \$55,327 INTEREST IN SINGLE MONTH

AUSTIN, TEXAS, April 12.—Interest on \$4,739,000 of state funds deposited in the 205 depositories through out the state, for March, yielded \$55,327, on a basis of 4 1/2 per cent, announced State Treasurer J. W. Baker today. This is the largest amount of interest yet produced in one month, since the establishment of the state depository act.

### GOOD ROADS TO GET BOOST AT MEETING DURING THIS WEEK

HOT SPRINGS, ARK., April 12.—Five thousand good roads advocates from every state were expected in Hot Springs this week, it was declared, as half that number, early arrivals, convened today for a four-day convention of the United States Good Roads Association.

The national association will be followed April 16 and 17 by the annual meeting of the Bankhead National Highway Association. The Albert Pike Highway Association will also meet here this week.

Forecast by J. O. Roundtree, director general of the United States Association, that the convention will be the largest in the history of the organization will be realized, it is believed. Oklahoma's delegation "strong" and large delegations from Arkansas, Alabama, North Carolina, Georgia, Mississippi, Louisiana, Missouri, Texas, Tennessee, Kansas, Colorado, Arizona, New Mexico, Ohio, Wisconsin, Virginia and other states were among the first in town.

Women will take an active part in the convention, it was asserted. C. H. Brough, wife of the Arkansas governor, named a committee of 50 Arkansas women to attend. Mrs. Claudia Quigley Murphy of the New York bar, will be among the speakers. Other prominent women delegates included Mrs. Louise Lindsey, president of the women's board of the southern commercial congress, Nashville, Tenn., and Ida Belle Clark.

Speakers programmed included: John W. Overton, former Alabama senator, on "Progress of Road Building in Alabama" where \$25,000,000 was recently voted in bonds for good roads.

A. F. Beament, secretary of the Lincoln National Highway.

Dr. S. M. Johnson, New Mexico, one of the promoters of the Bankhead Highway, "The Next Thing to Do."

L. G. Adams, president Alabama Automobile Dealers' Association.

T. H. McDonald, United States Public Roads bureau.

Cyrus G. Avery, president of the Albert Pike Highway will attend. A special conference of state highway engineers will be addressed by Capt. J. D. Faulstich, federal bureau of good roads.

A government exhibit featured the convention when it opened today. The display included machinery and material much of the former being furnished by the war department.

Among the delegates were a dozen or more governors of states, the executives of all states having been personally invited by Governor Brough.

Judge B. M. Allen, Birmingham, Ala., is president of the Bankhead Association. Governor Brough, first vice-president of the National Association will preside at that meeting because of the death of Senator Bankhead, Alabama, President.

Reconstruction in the French steel and iron industry will require from eight to ten years, mainly because the towns in which the plants are located were 95 per cent destroyed. Many of the smaller plants are in operation, but not so with the larger ones.

### REPUBLICAN PARTY BEING RAPIDLY SPLIT AS WAS DEMOCRATS

WASHINGTON, D. C., April 12.—The republican party is rapidly being split into factions that may result in the election again of a democratic president, just as the schism in that party seven years ago resulted in the election of Woodrow Wilson.

Party discipline apparently has been thrown to the winds in the republican party during the presidential nomination campaign. Animosity and hatreds have been aroused between Wood and Johnson, and between Johnson and Hoover, and between Johnson and all the old line elements—that seem to make it impossible for the republicans to present a united front to the democrats next November, no matter who is the nominee at Chicago.

If Johnson does not get the nomination, and hardly anybody in Washington expects him to, the main show in the preferential vote will be the contest between Major General Leonard Wood and Governor F. O. Lowden in the Republican party. Aside from Wood, republican candidates observed a favorite son courtesy by leaving the state to Lowden. Candidates were in nomination late but withdrew before the lists closed.

Both Lowden and Wood headquarters today issued brave statements regarding the outcome of the primaries. The candidates covered the state thoroughly in stumping tours. Lowden closing his campaign with informal speeches here today. General Wood left Sunday for the east.

Among political depesters there was a tendency to concede Lowden a better chance to capture the down-state vote. Cook county, with the republican machinery believed dominated by Mayor William H. Thompson, was uncertain Lowden men said the

Then, too, the November election is going to bring forth many surprises. The labor vote is a very uncertain factor at this time and is growing more so day by day.

The republicans are using every advantage their control of congress gives them. The bonus legislation is to be rushed through. Mr. Mondell is forever stressing the alleged "economies" of the republicans in congress, when this is a four billion dollar congress. The bonus will not help the republicans, for it cannot be passed without democratic votes and the veteran vote will divide anyhow, according to the veteran preferences before the world war.

Notice to Painters. Members Local No. 393 are urged to be present at the regular meeting to be held at the Labor Temple on Tuesday night, April 15, at 8:00 p. m. Business of importance to come before the meeting.

### WOOD AND LOWDEN FIGHT FOR CONTROL IN ILLINOIS STATE

BY L. R. BLANCHARD. (United Press Staff Correspondent)

CHICAGO, April 12.—The red flare of old-time politics and old-time political enthusiasm lightened Illinois skies today.

Campaign bands brayed a ballyhoo for final political rallies in Chicago's streets; roorbacks between burling about the ears of prominent candidates and last minute appeals kept job presses busy.

Illinois tomorrow will denote her preference for the presidential nomination. The preference will not be binding upon delegates to the national convention. These latter are yet to be selected when wards and precincts in common choose delegates and the state convention names the delegates.

Illinois is divided in two main sections. Cook county and down state—Cook county with about one-third of the state vote.

The main show in the preferential vote will be the contest between Major General Leonard Wood and Governor F. O. Lowden in the Republican party. Aside from Wood, republican candidates observed a favorite son courtesy by leaving the state to Lowden. Candidates were in nomination late but withdrew before the lists closed.

Both Lowden and Wood headquarters today issued brave statements regarding the outcome of the primaries. The candidates covered the state thoroughly in stumping tours. Lowden closing his campaign with informal speeches here today. General Wood left Sunday for the east.

### HEADWAY BEING MADE AGAINST THE STRIKE

(Continued From Page One.)

the wall, struggled desperately today to free itself from the tentacles of the octopus-like epidemic of unauthorized railway strikes.

Out of the maze of conflicting reports—or new strikes called and others threatened—railroad officials professed to see a ray of hope, because some passenger service had been maintained and food and milk trains managed to creep into the city. It was admitted by the railroad officers, however, that the situation still was grave, but they assumed the optimistic attitude that if they weathered today's storm the situation would soon approach the normal.

The full in business activities over the railroads a breathing spell in which to marshal their forces against the tide of commuters sweeping into the metropolis. Under normal conditions 700,000 persons come to this city each day.

With the Hudson tubes still tied up by the strike the bulk of the burden of handling New Jersey commuters fell upon the ferries plying the Hudson. The ferry service was jammed beyond capacity by commuters who had stood in line at ferry houses for hours. Police reserves had a strenuous time trying to control the mad rushes for the boats.

The Staten Island ferries were also affected, but the Long Island railroad maintained virtually normal service.

New York, New Haven and Hartford and New York Central lines were operating on a somewhat curtailed schedule.

Thousands of persons were unable to reach their places of business here until hours after the usual time, while other thousands gave up the attempt and remained home.

The situation at most of the railway terminals in New Jersey was still chaotic, with only a few freight trains moving. Freight traffic over other

lines entering Manhattan was irregular. **WACO TRAINMEN CONDEMN STRIKE** WACO, Texas, April 12.—The Brotherhood of Railway Trainmen at a meeting last evening adopted resolutions condemning the railroad strike as unauthorized and an illegal withdrawal from constitutional authority and refused "at present" to join in it. A committee of three was appointed to keep in touch with the situation and if deemed necessary call a mass meeting to take such action as desired.

**SITUATION REMAINS UNCHANGED AT KANSAS CITY** KANSAS CITY, April 12.—The railroad situation in Kansas City, resulting from the "insurgent" walkout of switchmen, remained unchanged today. Several reports say they are moving some freight, while five report a complete tie-up.

The American Railway Express company announced the express embargo would be raised late today, with limitations, however. Commitments of perishables will be limited to 150 pounds. Lifting of the embargo, it was explained, is not due to improvement in the strike situation, but to the fact that the bulk of packages which had accumulated during the first days of the strike has been moved.

Attorney General Hopkins arrived from Topeka shortly before noon today and resumed investigation of the strike in Kansas City, Kan., under the provisions of the industrial court law. Four warrants issued for the arrest of alleged strikeleaders, have not yet been served, officials said.

**K. O. G. SWITCHMEN AT MUSKOGEE BACK TO WORK** MUSKOGEE, Okla., April 12.—Switchmen on the Kansas, Oklahoma and Gulf railroad who struck Saturday, returned to work this morning, but fifty-five other switchmen employed by the three other roads entering Muskogee were still out today.

**SUPPLIES OF PERISHABLES DWINDLING AT FORT WORTH** FORT WORTH, TEXAS, April 12.—At noon today supplies of perishable

foodstuffs had dwindled to such an extent that it was estimated by jobbers the city would be without fresh produce etc., within six days. Despite the embargo, railroads managed to unload twenty cars of livestock at the packing houses last night. These were the only receipts though a few came in by motor.

**RAILROAD MEN AT MART OPPOSE STRIKE** MART, TEX., April 12.—Members of the various railroad brotherhoods' employees in the local yards, at a mass meeting voted unanimously opposition to the unauthorized strike in various parts of the country.

**ALL CLEVELAND TERMINALS TIED UP THIS MORNING** CLEVELAND, O., April 12.—With the exception of the Collinwood yard of the New York Central lines, where a half dozen switchmen were working this morning and where fifteen switchmen moved 250 westbound freight cars including empties and general freight and 80 cars of eastbound foodstuffs from midnight to 7 a. m., all Cleveland freight terminals were tied up this morning.

**1,000 THREATEN STRIKE AT NEW ORLEANS, TUESDAY** NEW ORLEANS, April 12.—Unless wage increase demands are met by 10 p. m. tomorrow, 1,000 union switchmen here will go on strike, it was announced today by officials of the Yardmen's Association local. The Illinois Central and Public Belt railroads will be most seriously affected in event of a strike, it was stated.

**MAYOR OF TOLEDO CONFISCATES COAL** TOLEDO, O., April 12.—To avert a general industrial shutdown and a suspension of street car service here during the strike of insurgent railroad workers, Mayor Schroeder today ordered the confiscation of coal on the Pennsylvania railroad tracks and its diversion to the Toledo railways and Light Company.

**LITTLE TRAFFIC MOVING AT FORT WORTH** FORT WORTH, TEX., April 12.—Conditions in the Fort Worth freight

yards, where switchmen began their "outlaw" strike Saturday and tied up every road except one, remained unchanged this morning. An occasional freight train is able to move out by the efforts of superintendents, assistants and other officials. Terminals are still congested, only passenger trains moving.

Conditions at the packing houses are unimproved today, some stock arriving Sunday and last night, but none of it being delivered except one car of hogs which came in on the Cotton Belt. One of the packing plants was again shut down today, throwing 150 men out of employment.

**SWITCHMEN RETURN TO WORK AT ATCHISON** ATCHISON, KAN., April 12.—Thirty switchmen here who struck Saturday night returned to work late yesterday.

**TRAFFIC CURTAILED THROUGHOUT NEW ENGLAND** BOSTON, April 12.—Curtailed of all traffic, passenger, freight and express, on through lines of railroads in New England, was the result in this section today of the outlaw strike of railroad men. Reports indicated that efforts of the strikers to obtain recruits in the New England states had proved unavailing.

**EMBARGO ON PENNSYLVANIA LINES IS ORDERED** PITTSBURGH, PA., April 12.—An absolute embargo has been placed on all freight shipments originating on the Pennsylvania lines, and on all lines connecting with the Pennsylvania system, according to railroad officials here. Only shipments of the greatest urgency will be received upon presentation of the written permit from the roads' representatives.

**FREIGHT SERVICE ON SANTA FE IMPAIRED** CLEBURNE, TEX., April 12.—Freight service was seriously impaired in the local yards today as a result of refusal of striking switchmen employed by the Santa Fe railroad to return to work. Union officials and P. G. Pettibone, division superintendent of the railroad, have appealed to the workers to call off the strike.

Only three of the road's nine switch engines were operating today. Passenger service is slightly crippled, railroad officials declared.

### YARD FIREMEN JOIN SWITCHMEN HERE

(Continued From Page 1.)

pose that the men will carry out those contracts," said Superintendent Lott of the Fort Worth and Denver Monday morning.

These contracts are understood to include the following with regard to strikes: 1. That the men present their demands to the company. 2. That the men give the company reasonable time to consider these demands.

3. That the company will make a date with the representatives of the men at which time some adjustment is brought about.

It is pointed out by local officials that it would have been impossible to grant the demanded increase within the time specified by the men Saturday—between the hours of 4 p. m. and 11 p. m. Such demands must go through certain specified channels and this time would have been much too short for such procedure.

Local officials stated that they expected to be able to take care of freight business, but that there will be some delay.

### BAILEY TO CONTINUE IN GOVERNOR'S RACE SAYS IN STATEMENT

DALLAS, TEXAS, April 12.—For Governor Senator J. W. Bailey, in a formal statement today, declared he would continue his gubernatorial campaign until the July primaries, regardless

of the result of the May precinct primaries. This statement he said was in answer to charges that he planned to withdraw from the race "after the presidential precinct conventions, whatever their result may be. Had the opposing faction of Democrats agreed to a state-wide primary on the issue of principles, Mr. Bailey said, he would have withdrawn from the race for governor "had the Fort Worth declaration of principles been defeated."

# The INTEREST IS WONDERFUL

Never in our history have we known of such tremendous interest as was shown today in the Factory Demonstration and Sale of UNIVERSAL Combination Ranges! Never before were we so busy in all departments of our store.

The factory representative, who is here this week only, told hundreds of Wichita Falls housewives about this famous range, and the great number sold indicates that we will be entirely sold out before the sale is over.

So You Should Act Quickly. Come Tomorrow, Whether You Need a New Range Now or Not. Learn About the Universal—It's Different.

**OVEN 18X18 INCHES FOR COAL WOOD OR GAS.**

**UNIVERSAL**

**UNIVERSAL**

**BURNS COAL WOOD OR GAS AT THE SAME TIME OR INDIVIDUALLY**

**SETS IN 40 INCH SPACE**

## UNIVERSAL COMBINATION RANGE

**"The Range of Simplicity and Thrift."**

Because of its construction the "UNIVERSAL" is the most "simple" Combination Range made, yet you have the wonderful convenience of having both a Gas Range and a Coal Range combined in the space of one range only 40 inches long.

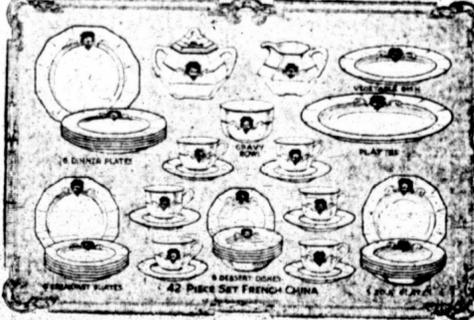

There is no range made which is nearly so economical and this you will appreciate the minute you see how it is constructed. The oven burner is the smallest gas burner ever used in any oven. It has but 31 holes or flame jets. Compare this with any other oven burner and you realize the saving of gas which is insured.

For Coal or Wood, it is built for economy. Users everywhere have declared that the UNIVERSAL uses less fuel than any other range they have ever used. Tests have proven that tons of coal can be saved each year by the use of a UNIVERSAL Combination Range. Economy is Thrift.

Made of cast iron throughout, it will outlast several Gas Ranges or other stoves which are made of steel. On that basis it is the cheapest range you can buy.

The Porcelain Finish on the cast iron body of the Pearl Grey and Peacock Blue Ranges is practically indestructible. It will stand more abuse than any range will ever get in the home. It is guaranteed not to chip, peel or crack from heat and it will not discolor.

This is a Porcelain age. Who now would have a tin bath tub or an iron sink? It is far more difficult to keep a range clean and sanitary than a bath tub so there is much more reason for purchasing one of these beautiful, washable and sanitary ranges made of genuine UNIVIT Porcelain. Don't miss this chance to see these ranges.

### FREE! THIS WEEK ONLY

This 42-piece Set of French China in a splendid pattern will be given by the factory with every UNIVERSAL purchased this week. FREE this week only.

**30 Days Trial**

You can use any UNIVERSAL Combination Range bought during this time for 30 days; and then, if you are not satisfied let us know, we will take it back and refund the entire purchase price. And you will have had the use of it for 30 days—FREE.

**Very Easy Terms**

That's one of the features of this wonderful Factory Demonstration of UNIVERSAL Combination Ranges. You can make your own terms as regards future payments. Provided they are reasonable, we will accept any terms. Never again such an offer as this. Come tomorrow.

**VERY EASY TERMS**

# COMMUNICATION WITH DEAC DISCUSSED BY KNICKERBOCKER

Rev. H. D. Knickerbocker reports another "big day" at the First Methodist Church South. There were over 600 in the Sunday School and there were two great audiences at the preaching service. Thirty three persons joined the church during the day making a total of 485 accessions since November 20th.

At the night service Prof. Krampfer who has come here recently from New York and expects to locate here and open a musical studio, greatly delighted the audience by his performance on the pipe organ, violin and piano. The audience enthusiastically registered their appreciation of his artistry and by unanimous vote desired him to stay in our midst.

The pastor's sermon at night was on the subject "Can the Dead Communicate With the Living?" His text was Luke 16:21. And he said unto him, Nay, but thou art dead and the things which will be asked of thee, this can come from the dead.

Dr. Knickerbocker, in his introduction, related some remarkable experiences in the realm of the unknown and mysterious powers of the mind that occurred in his own family. The story of how his wife's second mother called to her daughter through the hundred miles of space and the daughter did not hear her, but started her feet at once, at her mother's feet. At exactly 2:24 p. m. the mother had called her daughter's name and she started up and said "Mother, I am here."

He related other instances of such phenomena and said that he had never seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life. He said that he had seen a person who had been dead and returned to life.

# TRAFFIC ON OILBELT ROAD DEMANDING ALL FACILITIES AVAILABLE

RANGER, TEX., April 12.—Traffic over the Wichita Falls-Ranger and Fort Worth railroad, that began operating less than a week ago has grown so rapidly that it now calls for all the facilities of the line. Freight and passenger movement to the new towns on this line has increased daily since the first train was operated. The

service to the new towns of Jakehamon, Edihobby and Frankell has made those places the destination of persons visiting the fields in their vicinity and of freight so that the wagons, trucks and service cars for the fields are centering at these towns and the business that formerly went out of towns on other lines of railroad that are farther from the fields is rapidly being transferred to the new points. This has caused a rapid building impulse and in each of the new towns the number of houses and business establishments is increasing as fast as carpenters can be secured. At Frankell in particular, which is the railroad point nearest to the drilling activity in the Caddo and Necessity pools, there is haste in the construction of buildings. Shipments of lumber and field materials are piling up in the yards of the new railroad destined for that place. Orders for material from eastern mills are being placed by shippers with instruction to route via Dublin and the new line, the new line being in

position to complete the gap between Jakehamon and Dublin in ten or twelve days. **BURK-EXTENSION NO. 2 DRILLING AT 1240 FEET** The officers of the Burk Extension report that their No. 2 test, which is being drilled about 100 feet from their first test is progressing nicely. The present depth is 1240 feet. There has been considerable showings of gas and some good oil showings. Those interested with the Burk Extension company in drilling this well, are W. A. Pickens, Bob Sturtevant, Judge Gordon and several other well known men. If the reported log of the No. 1 is true, the company will encounter pay sand at about 1600 where they will make their first test. The record of the Baltic Sea is greater than that of any other part of the world. The average is one day throughout the year.

The Story of Modern Bread Making - Chapter I

PURE WATER

IMPURE WATER

## PURE WATER In Bread-Making

THE use of impure or contaminated water in making bread is of course dangerous to health. Water may be highly poisonous due to the presence of sewage contamination, or of salts of lead, iron, or copper.

But the scientific baker goes farther than the mere insuring of clean and non-poisonous water. All natural waters contain many substances in solution. Some of the salts which occur such as gypsum, for example, possess antiseptic properties and would check the fermentative action of the yeast. By a scientific process of treatment the deleterious salts are extracted and the water used in our dough rendered pure, as well as standard from day to day.

Analysis of the water we use shows the presence of oily such mineral salts, and are beneficial to health and is an element of importance to you. You know whether pure water is used in making the bread you eat. But these modern baking plants exercise care in this regard and it does not follow that all check the fermentative action of the yeast. By a scientific process of treatment the deleterious salts are extracted and the water used in our dough rendered pure, as well as standard from day to day.

It is of prime importance to you to know whether pure water is used in making the bread you eat. But these modern baking plants exercise care in this regard and it does not follow that all check the fermentative action of the yeast. By a scientific process of treatment the deleterious salts are extracted and the water used in our dough rendered pure, as well as standard from day to day.

### KEMP IS CHOSEN HEAD WICHITA FALLS HISTORICAL SOCIETY

J. A. Kemp was elected president of the Wichita Falls Historical Society at the organization meeting held Saturday night at the Kemp Public Library, and plans were made for the establishment of a museum for Wichita Falls, as well as affiliation with state and national historical organizations. The organization was under the auspices of the Daughters of the American Revolution, and Mrs. S. H. Burnside, acting regent, presided at the Saturday meeting.

Other officers elected were: J. L. Jackson, vice president; Mrs. A. O. Schmitt, secretary; Wiley Robertson, treasurer. The membership committee is composed of Mesdames J. L. Jackson, J. W. Lee, V. W. Cain, Burnside, Mr. and Mrs. S. Y. Ferguson, Judge and Mrs. A. H. Carrigan and R. E. Huff.

### MEETING AT KEMP HOME TONIGHT TO START ORGANIZATION

Block organizations, in connection with the neighborhood community movement, are expected to be formed in all of the blocks between Ninth and Tenth streets, from Brook avenue west, following tonight's meeting at the Kemp home, when representatives of each of these blocks will convene. Tonight's meeting is for the purpose of starting the series of meetings in the separate blocks and the representatives will receive advice and instructions on holding of the "block parties."

### OKLAHOMA CITY TRADES EXCURSION COMING MAY 18

Wichita Falls will entertain the Oklahoma City trade excursion on Tuesday, May 18, according to word received Monday by the local Chamber of Commerce from Oklahoma City. The party will number about 125 and will include representatives of the principal commercial and industrial concerns of the Oklahoma capital. They will arrive in a special train early in the morning of May 18 and will remain over in Wichita Falls the rest of the day and following night.

### CHRISTIAN CHURCH OFFICERS ENTERTAINED BY C. W. B. M.

Two baptismal services were held at the First Christian church Sunday, a total of 30 participating; one service was held at 4 p. m. and the other at 9, on account of the large number to be baptized.

### SEVEN TESTS STARTED IN VICINITY OF A. B. A. H. WELL

Seven tests have been started in the immediate vicinity of the Art-Hoyer and Keen Wolf wells in the Kemp-Munger-Allen districts by the state oil commission. The tests are on acreage purchased by them following these two strikes. Three tests are located on a 24 acre tract immediately south of the first well, two on the 50 acre tract purchased from the Kemp-Munger-Allen company, which includes an offset location to the Keen-Wolf No. 1. Munger and runs north in a narrow strip and the other on a 20 acre block purchased from Art et al. lying north of the Keen-Wolf well.

### DELINQUENT PAYERS KEEPING CHILDREN FROM EDUCATION

School problems, such as have never before been known, are encountered in the oil towns of North Texas to an alarming extent, and must be met immediately if the children of the section are not to be permanently affected. In the opinion of Miss Hallie Jamison, state high school supervisor, who has just finished a survey of schools in Burkburnett, Petrolia and Seymour, and who went Sunday to Harrold, Vernon and other nearby points, the school system all over the state is overburdened, and under financed. Miss Jamison points out, and these conditions are many times exaggerated in the oil towns and communities by the floating population, which while adding heavily to the burdens, offers no recompense in the way of taxation.

### TEST TO BE DRILLED ON GRANDFIELD TOWNSITE

The town of Grandfield is to have a townsite test for oil, a derrick being up on the southwest portion of the town, for the first test in the immediate vicinity of Grandfield, according to reports from that town.

MONDAY, APRIL 12, 1920.

WICHITA DAILY TIMES

### SALE OF TICKETS FOR OPENING GAME STARTED ON MONDAY

Ticket sale for the opening game of the Texas League season next Friday opened this morning. Tickets are available at Tipton's and Stockers.

The real campaign for the opening day can begin today with the opening of the ticket sale. This will give interested parties an opportunity to see just how much baseball fanhood there is in the city and to see how well the Spudders are going to be backed up after the start of the season.

As is well known to every fan in the city, Wichita Falls expects to land this year. In order to do this it will be necessary for about 6,000 bona fide baseball bugs to come out and see the ball game. An attendance of about 5,000 or 6,000 won the cup in 1919.

The 6,000 attendance is expected to be passed. This is the opinion of Secretary Will Gray of the association, who is making elaborate preparations to take care of the crowd. Extra seats are to be provided and everything will be made ready for the largest gathering in the history of the city.

Everything in the way of entertainment that was available has been secured for the fans. The Wichita Band will be on hand with copious jobs of music, a parade which will include ten to twelve floats, the fire department and a platoon of police, and a bunch of private cars, will be held over the main sets of the city. J. Will Gray, secretary of the association, will present the cup. Patterson, chief of the Dallas Athletic Club, will offer a home plate. Mayor-elect Cline will make a speech, and will probably throw out the first ball.

There is a program that should interest any fan. It probably will. The cup is expected to come to Wichita Falls, but it is down on your first Texas League job.

### GERMAN INTERNED FROM WICHITA FALLS SAYS GERMAN RESERVISTS IN MEXICO PLANNED TO INVADE U. S.

That a German division largely composed of German reservists was organized at Chihuahua City in the spring of 1918 for the avowed purpose of an attack upon El Paso, Texas, and that Venustiano Carranza, president of Mexico, knew of the division's organization, is revealed in a long story of adventure told federal officials here Monday by Louis Petri, interned German who was released on March 9 from the war prison at Fort Douglas, near Salt Lake City, Utah.

Petri was sent to the war prison camp from Wichita Falls in the fall of 1918 following a series of investigations by Shields Heyser, at that time special agent of the department of justice here. Petri was in the prison camp for eighteen months. He is now on parole and visited United States Commissioner J. A. Lantz Monday forenoon to report, as is required by all paroled enemy aliens.

According to Petri's story, German reservists in Mexico organized a division with headquarters at Chihuahua City. This division was placed under command of Lieut. Frank Dolezal, notorious German secret service agent who after three years' service on the Eastern front came to Mexico as chief of German propaganda. It is said that Dolezal crossed the Atlantic in a German U-boat. He immediately went to Chihuahua City and there organized the "German division" laid plans for the invasion of the United States. Petri was marked for attack and plans of Fort Bliss and other border strongholds were in the possession of German agents, according to Petri's story, now had no desire to return to the old country.

Petri has three brothers in Germany, one of whom served on the Eastern front and one on the Western front. They are skilled mechanics and were attached to army corps headquarters. His father and mother reside on a farm in the state of Hesse-Darmstadt. Letters recently received by Petri from Germany show that a suit of clothes of ordinary fabric costs approximately \$300 and shoes \$100. Other commodities are extremely high, according to the letter.

Shields Heyser said Monday that Petri was sent to the war prison camp due to pro-German utterances here. Petri Monday affirmed his attitude toward Germany, asserting that he was pro-German during the war but now had no desire to return to the old country.

### ALLEGED LIQUOR RUNNER ARRESTED BY BELCHER

Close watch along lonely country roads early Sunday morning by Deputy Constable W. W. Belcher netted the arrest of an alleged "liquor runner" and the seizure of an automobile containing a concealed tank filled with high-grade corn whiskey. The man is being held in the county jail pending investigation by federal authorities. Federal officials say that the man smuggled the liquor across the Mexican border. Belcher was compelled to fire two shots before the driver stopped his car. The tank containing the liquor was cleverly constructed under the front seat and had a capacity of approximately 20 gallons.

The alleged "liquor runner" was arrested on the Seymour road about two miles beyond the edge of town.

### DELEGATES LEAVE FOR PRESBYTERIAN MEETING

Dr. N. F. Grafton, pastor of the First Presbyterian church, and John D. Robertson, lay member, left Monday afternoon for Hale Center, Texas, to attend the spring meeting of the Amarillo Presbytery.

Dr. E. M. Hughes will leave tomorrow for Dallas and Bay City, Tex., for visits with his sisters in those places, and will then go to New Orleans to take special work.

Mrs. Minnie Gaffney has returned from Bryan, Tex., where she spent the winter with relatives.

### TEXAS' SECOND BULK WAGONER TOYAH-BELL OIL COMPANY

Only \$25,000 Capitalization; 115 acres, where oil brings \$10.00 barrel at well, shares \$1.00. Don't miss this, send for free literature. G. W. Wilson, Agent, 715 Seventh Street, Wichita Falls, Texas.

## Important To Oil Men

Have you properties that are not properly managed? Are you contemplating purchasing proven or unproven properties? Do you want your production increased? If you do it is to your advantage to let us handle it for you. We get results and the cost is very small.

James Briody has been in the producing business for 50 years, and is known throughout the country, is in charge of our producing department. He is able to increase production when others fail.

It will be a great saving to you to let us manage your business and it will cost you very little.

If you have proven or unproven properties to sell we will find a buyer and should you desire to purchase oil properties of any description we will find a seller.

# Mid-Month List of Columbia Records

## Jolson's "Swanee Whistling Song"

Al Jolson, exclusive Columbia artist, not only sings but melodiously whistles this song of longing for the South, his latest Sinbad hit. Coupled with "My Gal," sung by Frank Crumit, new exclusive Columbia tenor.

A-2884-85c

## Big 6" Saxophones Buddha-Dardanella

The Columbia Saxophone Sextette plays this rollicking, rhythmic record of the "Buddha-Dardanella" fox-trot, punctuated by the popping of the big brass saxophone, which sounds just like a kettle-drum. Coupled with "Limelight Nights," a novel one-step by these exclusive Columbia artists.

A-2876-85c

## Bert Williams Has the Blues

"I'm Sorry-I Ain't Got It, You Could Have It If I Had It" is the answer this exclusive Columbia artist always gets in this side-splitting song of the "Blues."

**BARRERE-GRIFFIN**  
BOUT ATTRACTION  
AT C. A. C. TONIGHT

Everything is set for the battling Barrere-Dick Griffin go at the Camel Athletic Club this evening.

Barrere and Griffin are the two lightest and most evenly matched boxers yet signed for a bout before a local club. They have demonstrated this to local fans on one or two other occasions, but this will be the time that the two have climbed into opposite corners of the canvassed square.

Griffin has boxed here on several occasions. He has shown that he has the stuff, is a likeable youngster, and carries a real kick. He is popular with local fans, and will have considerable backing when he enters the ring to-night.

Barrere is probably the hardest-hitting little fellow that has ever boxed in a local ring. Although he is a legitimate bantam, the battler has put several regular lights to sleep with his terrific left. Barrere has boxed Griffin before, once in the Panther City Athletic Club of Fort Worth. At that time, sport writers disagreed as to the decision although it was generally thought that the affair was a very good draw.

Sid Martin and Jimmy Lowry will mix things in the semi-windup. These boys have been going all the way and tongs for the past week and fans are expecting some tough milling during this six-round exhibition.

Eighteen rounds of preliminaries are on the card.

**HOUSTON INFELDERS ON HOSPITAL LIST**

HOUSTON, TEX., April 12—Manager Ena Billy Patterson and Roy Leslie, three-fourths of the Houston infield, are on the hospital list today. Ena has a dislocated thumb; Leslie is threatened with blood poisoning from a wound in the heel, and Patterson is suffering from a sprained back. Not one of the three was able to take part in yesterday's game at Beaumont. Leslie's injury is the more serious.

Perpetual Care Park Like

Rosemont Burial Park

IS TO BE THE Beauty Spot of Wichita

Every lot receives uniform care perpetually, free of cost, under the scientific care-fund plan.

Undulating lawns broken only by winding drives, and masses of shrubbery present a park of natural beauty and attractiveness.

Ask yourself if there is any reason whatever why a family plot should not be selected in advance of need. It takes the burden out of the hands of chance when you make a judicious selection in a business-like way. It gives the advantage of choice lots and low price.

It is quite the established custom in many parts of the country to wisely prepare a family plot in advance of need. Many have done so here, since Rosemont has been developed. It brings death no nearer and is a safe investment.

Adjacent to Call Field on the South. Office 308 City National Bank Bldg. Phone 2947.

ROSEMONT BURIAL PARK, Wichita Falls, Texas. Please send me your booklet containing "Beautiful Rosemont."

NAME ADDRESS

Civilized Man Lacks Common Sense, Says Kessinger Representative

Told Well Known Wichita Falls Man He Was Acting Like a Fool as Far as his Stomach Was Concerned. Great Interest Shown in New Health Theories.

E. T. Roberts, the personal representative of Harry Kessinger, the Oklahoma Health Teacher, whose new health theories have attracted so much attention in Wichita Falls during the past few days, thinks that civilized man is lacking in common sense.

"It is impossible for him to exercise the body sufficiently to make the gastric juices wholly active, and vitiate. It is impossible to spend as much time as we should in the fresh air and sunshine. But it is possible to treat the stomach already weakened by these mistakes, with a little consideration."

"If people would think half as much of their stomach as they do of their pocket books there wouldn't be so much of this thinness, weakness and tired-out feeling. If we would sit down quietly to a common sense meal, eat slowly and chew every mouthful thoroughly and then give it time to be digested and assimilated into the blood to nourish the system, there wouldn't be so many sallow-faced, droopy, listless men and women. But we don't. We are a race of boiters. We don't

LITIGATION NOT TO STOP DEVELOPMENT NEAR SIGLER WELL

By A. C. MCCONNELL. VERNON, TEX., April 12.—The announcement that development of the acreage surrounding the Sigler well has brought much joy into the ranks of the oil fraternity and there is a quickening of interest. Everywhere a general optimistic spirit is discernible.

An Alluring Appeal

With April comes the happy cooling days. It is a time when love and friendship are striving to convey their messages in eloquent measures. When words fail—send a box of ELMER'S, FOSS, or CRANE'S CANDY.

Special Attention Given Our Prescription Dept. Palace Drug Store. First Attention to All Orders For the Sick.

seven million dollars, being stimulated by the activity of real estate due to the oil boom. The increase in city property values in Vernon the past year will give Vernon an increase of \$43,200 in revenue.

discovery well— Officials of the Burk-Waggoner Oil Company are promoting this company. R. M. Waggoner is president. C. L. Greene, vice president and C. F. Pendleton, secretary.

About 300,000 mines and their accessories were produced during the war and of these 130,000 were laid by British forces. The maximum rate of production attempted in England was 10,000 per month and involved the employment of some 980 firms.

Notice. Brother Carpenters: You are requested to be present Tuesday night at a call meeting to consider what steps to be taken in regard to the open shop movement.

The Sigler well is still flowing by heads. No definite estimate has been placed as to the rate of flow. There are 2,200 barrels of storage and the well is full of oil, but no pipe line connection has been made, and until connections have been made the well will not be allowed to flow any length of time.

Three wells are drilling within a short distance of the Sigler discovery well. Three of the wells have spudded in.

Notice to Modern Woodmen. As the new clerk of Wichita Falls camp No. 12066, M. W. A., I wish to announce that my office is located at 322 Ohio avenue.

National Cash Registers. B. F. Leggett. St. James Hotel, Wichita Falls, Texas.

EYES. Most people, you included, perhaps, are extremely negligent in the care of their eyes, and very culpably so in regard to their children's eyes.

MOVED. To our new store in Commerce Bldg., 709 Eighth Street. New fixtures and equipment throughout. We invite your inspection of the "Finest Drug Store in the South."

American Business Men. know that commercial failures in France are practically unknown. There are three reasons for this— The First—is the care with which the Frenchman contracts any commercial obligation—

Announcement. We have special agent from Orgatone Laboratories at our store, who makes no charge to explain this Chemists Masterpiece for stomach disorders.

American National Bank. "The Bank of Service". OFFICERS: RHEA S. NIXON, President. F. L. McCoy, Active Vice-President.

Sansbury's Drug Store. WEAR-EVER RUBBER GOODS. Did you ever think of it that in millions of homes, where discriminating taste and wise judgment are used, you will find WEAR-EVER RUBBER GOODS.

We announce removal of our office to basement Clint Wood Bldg. Come to see us. Lowry-Finch & Co. Successors to Patterson-Reese & Prothro.

Good Banking Is Never "Cut and Dried". You want something more than just routine handling of your account. You want the distinctive attention and treatment that your affairs require and your business isn't exactly like any other business on earth.

Courtesy Confidence Service Security. "I Wish ---". I had money to lay up for family protection and old age comforts" will never get you anywhere. It's I WILL that takes you "over the top" to get the money, and I MUST that induces you to put it in a safe bank.

A Dollar in the Bank at Interest is Worth Two in the Pocket Idle. DEPOSIT YOUR SAVINGS With State Trust Co. 706 EIGHTH STREET.
