ARREST 17 OF STRIKE LEADERS

LOCAL STRIKE SITUATION HAS SHOWN AN IMPROVEMENT WITH MORE ENCOURAGING PROSPECT

ALEXANDER HOWAT HAS BEEN REMOVED TO ANOTHER JAIL

GIRARD, KANS., April 15.—Alexander Howat and three other district officials of the United Mine Workers last night were taken from the county jail here by Sheriff Webb and started in autos for Ottawa and Iola. The transfer was authorized by District Judge Curran after Webb had made affidavit that the jail was "insufficient in which to safely keep" the prisoners. The real reason for the move was fear that miners, who planned another demonstration against Howat's imprisonment for contempt of court would again demand his release for a speech. Howat was taken to Ottawa jail and Secretary-Treasurer Harvey and Vice President Dorchy to the Iola jail.

The strike situation in local railroad yards continues to improve. Superintendent Lot of the Fort Worth & Denver stated Thursday morning that he expected to have at least some of the switch engines in operation by Friday morning. Last night's meeting of the S. of P. T. and the O. R. C. is thought to have had some effect on the situation. Another meeting was scheduled for 2:00 p. m. today. Advice received from the Fort Worth officials at Fort Worth stated that the men in the yards there were to return to work this morning at 10:00 o'clock. At the present time, the railroad is able to keep one switch engine in operation at all times. The local freights are running as to schedule, but there is some delay in handling the through freights. A through freight was run to Fort Worth Wednesday and it was the intention of F. W. & D. officials to get another through today.

CREDIT STAMFORD WITH 3704 PEOPLE A DECREASE OF 198

WASHINGTON, April 15.—The census bureau today announced the following 1920 population results: Stamford, Tex., 3,704; decrease 198, or 5.1 per cent. Poughkeepsie, N. Y., 35,000; increase 7,064, or 25.3. Onondaga, N. Y., 10,541; increase 2,224, or 26.7. Easton, Pa., 32,813; increase 5,290, or 18.5. Kearney, N. J., 26,724; increase 8,064, or 30.1. Whitesboro, N. Y., 3,308. Burlington, N. C., 5,952; increase 1,114, or 23.8. Salisbury, N. C., 13,884; increase 6,721, or 48.4. Newtonville, O., 120; decrease 22, or 18.5. Moscow, O., 274; decrease 53, or 19.2. Lebanon, Pa., 6,037; increase 629, or 10.4. Harrison, N. J., 15,721; increase 1,225, or 7.8. Danville, Ill., 5,271; increase 1,096, or 44.1. Virden, Ill., 4,682; increase 682, or 14.7. Lebanon, Ind., 6,257; increase 783, or 12.4. Pana, Ill., 6,122; increase 67, or 1.1. Tipton, Ind., 4,507; increase 432, or 10.6.

BONHAM WANTS AN EXTENSION OF THE SANTA FE SYSTEM

DALLAS, April 15.—Fred Kinder, representing Bonham, Texas, business men, was here today seeking to interest the Santa Fe railroad in routing its proposed extension from Wolf City to Tulsa, Okla., through Bonham. The extension would affect the Galveston-Kansas City line materially, Kinder said, and will open up rich territory now off a direct line.

ALLIES COME TO AN AGREEMENT. PARIS, April 15.—The allies have reached an accord concerning the execution of the treaty of Versailles, it was stated here today, thus removing one of the causes of friction between France and Great Britain.

PARTISANS OF HOWAT PLAN DEMONSTRATION

PITTSBURG, KANS., April 15.—Partisans of Alexander Howat are planning a demonstration of protest at Girard this afternoon against his imprisonment. The fact that Howat, the Kansas miners' leader, was taken to the jail at Ottawa last night, will not prevent the demonstration, leaders said. A change in speakers, however, will be necessary. Howat had expected to be the principal speaker again as he was Monday. One deep mine and four steam shovels were reported working today. No work was being done at the Kansas City Southern shops here today where 60 or more men are employed.

SHOPMEN PROTEST THE HOWAT IMPRISONMENT

PITTSBURG, KANS., April 15.—More than 500 shopmen of the Kansas City Southern today in protest against imprisonment of Alexander Howat, district president of the United Mine Workers, for contempt of court. The Southern shops as a result were idle. Radical friends of Howat were urging store clerks and members of other union trades to walk out in protest. General surprise was expressed in coal miner circles this morning when it became known Howat and other union officials had been transferred from the Girard jail to Ottawa and Iola. It was believed this move by the state will change plans for another Howat demonstration at Girard was not stated by union men.

DELANO QUALIFIES AS RECEIVER OF THE RED RIVER LANDS

WASHINGTON, April 15.—Frederick A. Delano, recently appointed by the president as receiver for the Red River lands, claimed by the United States, Oklahoma and Texas, today qualified for the office by putting up a bond of \$100,000. He will leave Saturday for the oil lands to take up his duties.

BOARD OF PARDONS AT FORT WORTH

AUSTIN, April 15.—Board of pardons began a three-day hearing in Fort Worth today to hear petitions for executive clemency for friendless convicts in the state penitentiary. Records in the office of the board show that there are 97 convicts from Tarrant county most of whom have no applications for pardon pending.

EIGHT MINERS UNDER ARREST FOLLOWING BATTLE AT STRAWN IN RAID ON A MOONSHINE STILL

MEXICO ELECTIONS WILL BE POSTPONED. MEXICO CITY, April 15.—"Because of the condition of the country," presidential elections will be postponed indefinitely, El Universal said today. A special session of congress will be called, the newspaper said, to designate extraordinary powers for the branches of the government. President Carranza, the newspaper said, not wishing to serve after the expiration of his term in December, will request congress to name a president ad interim, who will act until conditions permit a new election.

RANGER, TEX., April 15.—Eight miners were under arrest and heavily guarded at Strawn today, following a battle between federal prohibition officers and a group of foreign miners late yesterday, when seven of the former raided and destroyed a moonshine still, 1,200 gallons of mash and 400 gallons of whiskey near Strawn. Zekino Dorandis, an Italian, was killed and Frank Pastoran, an Austrian, was seriously wounded in the fight.

WALTER ACKER MASONIC HOME IS FOUND DEAD

Had Been Shot and Suicide Theory is Advanced by the Authorities. FORT WORTH, April 15.—Walter Ackers, superintendent of the Masonic widows and orphans home, was found dead here today. He had been shot and police authorities advanced the theory of suicide. Ackers was formerly superintendent of public schools at Waxahachie, past master of the Masonic Grand Lodge of Texas and served in France in Y. C. M. A work during the war. He had been superintendent here for 12 years. Ackers spent Wednesday in Dallas conferring with members of the Masonic home board and tendered his resignation because of his health. He had a serious operation last fall and he had never fully recovered. However, he appeared in good spirits while meeting with the board Wednesday and gave no indication of a break. Ackers' work at the Masonic home had been especially successful in organizing and conducting the classes for children. Prior to his election here, he had been city school superintendent in Waxahachie.

LOWDEN DELEGATES TO CONTROL CONVENTION

DES MOINES, IA., April 15.—Lowden delegates will control the republican state convention, returns from yesterday's precinct caucuses indicated.

CLAIM ILLINOIS PLACES HOOVER OUT OF CONTEST

Declares Johnson is Gaining Strength at Expense of Former Food Administrator. By HAROLD D. JACOBS (United Press Staff Correspondent). NEW YORK, April 15.—Supporters of Senator Hiram Johnson and Mayor General Leonard Wood claim that the Illinois primary, in which Herbert Hoover was not entered practically eliminated the latter as a candidate for the Republican presidential nomination. Here is the way they figure it out: Johnson and Hoover had relatively the same status in the Illinois primary. Johnson, however, made a campaign in the state not was named on the ballot. Johnson received more than 50,000 "written-in" ballots, while Hoover polled only 500. This, they hold, indicates that Johnson is gaining strength at the expense of Hoover, with whom he will contest the primaries in California, Oregon and Montana. The Johnson group here further asserts that when Hoover declared his allegiance to the republican party he not only lost all the Democratic support he had but most of the large independent liberal block. This latter element, according to the Johnson organization, has transferred its support to the two leading liberal nominees of the republican and Democratic camps who—the Johnsonites say—are Johnson and Wm. G. McAdoo. Wood's eastern campaign leaders, of course, will not admit the latter claim of the Johnson group, but they contend that Hoover's showing in Illinois, compared with that of the other candidates, is a serious blow to Hoover's hopes. What the Wood managers emphasize is that their candidate's victory in districts which will send 14 delegates to the national convention and this in Governor Lowden's home state. Officials of the Hoover National Republican Club would make no comment on these claims, maintaining their policy of refusing to discuss rival candidates. But they pointed out that Hoover is concentrating his strength on the primaries in California, Oregon and Montana and that he had not counted on a single vote in Illinois.

EXAMINER CLOSES AMERICAN NATIONAL BANK, TULSA, OKLA.

TULSA, OKLA., April 15.—The American National bank was closed here today by a federal examiner. At a conference between the Clearing House Association officials of the Exchange National bank and the American National bank, arrangements were made for the Exchange National to take over all interests of the American National and to pay all depositors in full. Further details at this time are not available.

MARITAL LAW IS PROCLAIMED IN AGUA PRIETA

Have Prepared for Possible Attack by Forces of Federal Government. AGUA PRIETA, SONORA, April 15.—Troops of the new republic of Sonora have invaded Sinaloa, the adjoining state to the south, and are marching on Culicán, the capital of Sinaloa, according to an official dispatch received here today. The troops, commanded by General Elias Calles, commander-in-chief of the Sonora forces. Calles troops were reported at Casas Grandes, 200 miles from here, making ready to march into Sonora and toward this border port. General J. M. Pina, commander of the first division of the Sonora army, was scheduled to arrive here at noon from Nacozari to complete arrangements for the defense of this city and the territory endangered by the Carranza expedition. General P. Elias Calles, commander in chief of the Sonora troops and acting head of the new republic, telegraphed yesterday half goes to the federal government to confer with local military officers on the defense to be waged. Sonora leaders here forecast the Sonora secession as the most critical event to arrive here this week to Carranza President Carranza has faced.

REPORT CARRANZA ARMY IS WITHIN 200 MILES

Are Making Preparations to March into Sonora and Toward Border Point. KEWANEE, ILL., April 15.—Two battalions of the Eleventh Illinois infantry, strengthened by a machine gun company, patrolled the streets here today to prevent a recurrence of scattering disturbances which broke out yesterday between strikers and "loyal" employees of the Walworth Manufacturing company. Machine guns were placed at strategic points when Sheriff Samuel Wilson, in command of the troops, that he feared an attempt by strikers to force an entrance to the company's plant to drive out workers who reported today. Two hundred women, wives and sympathizers of the strikers, attacked 500 workmen with bricks and stones when they left the plant yesterday. A number of the workers received injuries and several women were trampled under foot. Three hundred reserve deputy sheriffs were called and quelled the disturbance. One deputy sheriff was seriously injured when 500 strikers charged employees entering the gates of the plant yesterday. Radical agitators are blamed by Kewanee officials for inciting the strikers. Three thousand employees of the plant went on strike March 15, demanding recognition of the union and increased pay. About half of the strikers returned to work April 7 and feeling between the two groups grew until the outbreak yesterday.

1800 PERSONS IN DALLAS JOIN OVERALL CLUB

Embodiment Railroad, City and Western Union Employees, Including Women. DALLAS, TEX., April 15.—Women working in the offices of the Texas and Pacific railroad here today asked the district attorney for permission to don overalls along with the men in the office who have formed an overall club. This office force approximates 800 people. City employees, numbering 800, have petitioned the city commission to declare blue overalls the official city employees' garb, while approximately 200 employees of the Western Union, men and women, are pledged to wear overalls while at work. Oklahoma City Active. OKLAHOMA CITY, OKLA., April 15.—Like the famous "Pigs Is Pigs" overalls is overalls and local overall club members last night and today are being swamped with applications for membership. Scattered throughout the state capital building today working over their desks, were workers in overalls. The "Capitol Overall club" has a membership of 175 and expect to have all members in the garment on Monday. At the stockyards officials of the club stopped writing down the names of new members long enough to announce 400 men and women pledged to appear in overalls tomorrow. Stores, city offices, business houses and servants were all caught in the mad rush, and Monday has been designated as the semi-official opening day for the overall campaign. Khaki is the favorite color of both male and female.

RESOLUTION ASKS THE IMPEACHMENT OF LOUIS F. POST

MEXICO CITY, April 14.—(Night.)—The permanent legislative committee, Mexico's only legislative body during adjournment of the congress, tonight passed a resolution condemning the actions of the Sonora legislature in withdrawing from the republic. Gen. Francisco Urquiza, secretary of war, issued a statement denying that General Mayotte in the state of Guerrero and Gen. Martinez Amarillas in Chihuahua, had joined the rebel movement. According to latest reports, these generals are loyal to the federal government, he said. Aguilar, foreign minister, characterized the new "pneaval as a clash between militarist and civilian elements. Newspapers, too, verified reports of Obregon's escape. He had (Continued on Page 4 Column 1.)

TWO BATTALIONS OF INFANTRY TO PRESERVE ORDER

With Machine Guns They are Stationed at Strategic Points in Kewanee, Ill. KEWANEE, ILL., April 15.—Two battalions of the Eleventh Illinois infantry, strengthened by a machine gun company, patrolled the streets here today to prevent a recurrence of scattering disturbances which broke out yesterday between strikers and "loyal" employees of the Walworth Manufacturing company. Machine guns were placed at strategic points when Sheriff Samuel Wilson, in command of the troops, that he feared an attempt by strikers to force an entrance to the company's plant to drive out workers who reported today. Two hundred women, wives and sympathizers of the strikers, attacked 500 workmen with bricks and stones when they left the plant yesterday. A number of the workers received injuries and several women were trampled under foot. Three hundred reserve deputy sheriffs were called and quelled the disturbance. One deputy sheriff was seriously injured when 500 strikers charged employees entering the gates of the plant yesterday. Radical agitators are blamed by Kewanee officials for inciting the strikers. Three thousand employees of the plant went on strike March 15, demanding recognition of the union and increased pay. About half of the strikers returned to work April 7 and feeling between the two groups grew until the outbreak yesterday.

DEPARTMENT JUSTICE AGENTS ACTIVE IN ROUNDING UP THOSE RESPONSIBLE FOR RAIL TIE-UP

Agents of the federal government in different sections of the country acted today in the nation-wide strike of railroad switchmen, which by holding up fuel and food supplies, is making itself felt on industry. In Chicago six alleged leaders of the strike were arrested on a charge of violating the Lever act and more alleged leaders are being sought. In New York, where food prices have been mounting during the strike, the first arrest was made by the government's "flying squadron" seeking food profiteers. A wholesale butter dealer was taken into custody on a charge of making unfair profits during the crisis. Federal agents also have announced they are investigating delays of mail trains. Vigorous action will be taken, it was said, where it is found law was violated. Announcement by Attorney General Palmer that a communist influence was behind the strike and that U. Z. Foster, leader of the late steel strike, was active in the "outlaw" railroad movement was followed today by denial by Foster that he had left Pittsburgh more than once in the last four months. He said he would reply later to "the statements made in Washington." Army officers are actively combing railroad officials that they would send soldiers to Jersey City to move freight consigned to the army and that soldiers also will man cars on which bodies of soldiers recently brought to Hoboken from overseas will be sent to their homes. The situation in New York seemed the most critical. Although commuters have been able to reach the city in increasing numbers, threats of a food shortage looms large. Virtually cut off from the supplies by the walkout of railroad men and marine workers, the city found itself further handicapped by a strike of several hundred market teamsters and porters. Police reserves were sent to protect the market district where attacks on trucks were reported.

NEW REVOLUTIONARY MOVEMENT IS ORGANIZING IN GERMANY AND AN OUTBREAK IS EXPECTED SOON

PARIS, April 15.—Dispatches to the French foreign office today indicated that a new revolutionary military movement was organizing in Germany. An outbreak against the Ebert government was expected momentarily, the dispatches said. BERLIN, April 15.—(Night.)—The danger of a monarchist coup was more real and imminent than generally believed, Dr. Gessler, minister of defense, told the reichstag late today. The situation in Pomerania was particularly serious, Gessler said. He appealed to the right parties to use their influence, "with their con-

CHICAGO, April 15.—The last bulk work of the railroad strike in the Chicago district was broken today, and the "outlaw" railroad movement was followed today by denial by Foster that he had left Pittsburgh more than once in the last four months. He said he would reply later to "the statements made in Washington." Army officers are actively combing railroad officials that they would send soldiers to Jersey City to move freight consigned to the army and that soldiers also will man cars on which bodies of soldiers recently brought to Hoboken from overseas will be sent to their homes. # BODY OF MAN FOUND TODAY ON OHIO AVE.

### Believed to be That of Gus Bokamp an Oil Field Worker

Mystery surrounds the death of an oil field worker, believed to be Gus Bokamp, whose lifeless body was found at 10 o'clock Thursday morning in a store house in the rear of the Penick-Hughes hardware establishment on Ohio avenue. The body was discovered by a negro employe. A saving bank book bearing the name of Gus Bokamp, found in the man's coat pocket indicated that Bokamp had deposited \$191 with the National Bank of Commerce early Thursday morning. Officials at the National Bank of Commerce, however, announced, following a close examination of their books, that Bokamp made no deposit there Thursday. Officials say that Bokamp has an account with them and that their books show his room address was 821 Ohio avenue.

Justice R. V. Gwinn, who held an inquest declared that Bokamp came to his death by a pistol shot wound, administered by himself. All investigations point toward suicide. A .32 caliber revolver was found near the man's body loaded to full capacity excepting one chamber, which contained an empty shell. The revolver is comparatively new and was probably bought by Bokamp with the idea of self-destruction in view. If Bokamp really committed suicide, the pistol bullet struck Bokamp in the neck ranging upward.

Chief of Police Goodfellow at noon Thursday expressed grave doubts as to the truth of the suicide theory. The insertion in Bokamp's saving account could easily have been written by gangsters who killed the oil field worker and then inserted the receipt to baffie the police. One theory advanced by the police is that Bokamp fell a victim to crooked gamblers, officials at police headquarters picture a gruesome scene in the lonely little warehouse in the rear of the big hardware establishment, asserting that it is possible that Bokamp was lured there by underworld characters under the pretense of engaging in a game of chance. The oil field worker was murdered and the stage set to indicate suicide, according to this theory. The theory that Bokamp fell a victim to intriguing gamblers is strengthened by the fact that Bokamp's body indicated that death had occurred at least 24 hours prior to the discovery of the body.

Still another theory advanced by the police is that Bokamp fell a victim to conspiring drug peddlers. It is asserted by city officials that Bokamp was perhaps suspected by crazed drug addicts and peddlers as being an "informer" and murdered in order to "close him up." Federal officials have recently been extremely active in rounding up drug peddlers and this fact lends strength to the theory that Bokamp was slain by morphine bootleggers.

# CHARGE A WAVE OF IMMORALITY EXISTS IN OKLAHOMA SCHOOLS

OKLAHOMA CITY, OKLA., April 15.—Sensational revelations made by school children between the ages of 11 and 16, before Judge W. R. Taylor, late yesterday, led to a threat from the court to fill the state penal institutions unless the wave of immorality in the city schools was checked. The testimony which called forth the threat was discovered when a group of school children were brought into juvenile court charged with disorderly conduct. Young children astounded court officials by telling of common practices and subjects of conversation at the school playgrounds. It was the opinion of many that the condition must have prevailed for some time to develop to the present stage.

# M'GREGOR CANDIDATE OF AMERICAN PARTY FOR GOVERNOR TEXAS

AUSTIN, April 15.—In formally announcing as candidate for governor of Texas on the American party platform subject "to the choice of the people of this state," at the November election, former Senator T. H. McGregor said today:

"My conscience will not permit me to approve the extravagance, waste, weakness, wickedness and intamy of the present state administration of Texas and for which the organized democracy of this state stands sponsor and I, therefore, cannot participate in the democratic primaries."

In his announcement statement he promised to bring about a radical reduction of the cost of government by abolishing the following departments, bureaus and commissions:

State tax commission, pure food and drug department, board of water engineers, reclamation department, industrial welfare commission, markets and warehouse department, 14 sub-experimental stations of the A. and M. College, state department of agriculture, state highway commission and board of control. He said he would work for the repeal of the state depository law and would hold appropriations for the University of Texas within \$500,000 a year. Various other methods of reducing state expenses were also outlined in the statement.

DUBLIN.—Sixty-four hunger striking Irish prisoners were released, apparently unconditionally.

MEXICO CITY.—Lieut. Col. Alvarado Obregon, candidate for Mexican president, and Gen. Benjamin Hill, his campaign manager, fled from the capital Tuesday in an automobile, going in the direction of Iguala, state of Guerrero.

CHATTANOOGA.—Tennessee republican convention elected eight delegates to the republican national convention, instructed for General Wood for president.

NOGALES, ARIZ.—Gen. Salvador Alvarado, former governor of Yucatan, in an address predicted revolution imminent in Mexico. He declared present conditions in Mexico due to President Carranza's mal-administration.

# ROGER SULLIVAN DEMOCRAT BOSS OF ILLINOIS DEAD

### Head of Democratic Political Machine in Home State for 25 Years

CHICAGO, April 15.—Millionaires, policemen, ward heelers, widows, bankers and statesmen joined in expressions of sympathy over the death of Roger C. Sullivan, financier and politician, who rose from farm hand to political "boss" of his state. Sullivan died late yesterday as a result of a sudden attack of heart failure, superinduced by bronchial pneumonia. He had been in failing health for several months. Funeral services will be held Saturday.

With the death of Sullivan, Illinois democratic politicians today were leaderless. Split into factions, Sullivan led the state party successfully. His political enemies included Carter Harrison, former Governor Dunne, and former United States Senator J. Hamilton Lewis. He had intended, it was said today, to put Dunne and Harrison in the delegation to the national convention to San Francisco.

"The boss is dead" is the message flashed through Chicago's great west side last night. There was general mourning throughout, for it was among the Irish and the foreign element in that part of the city that Sullivan was loved best. Old women and men who grew up with the democratic boss told today of his favors.

"He never forgot," said an old supporter. "Roger played the game square. You could always count on him. If you were his friend he was yours."

Sullivan, 59, was born at Belvidere, Ill., and as a child worked as a farm hand for \$8 a month. He came to Chicago, worked in a railway shop and got into politics. Gradually he got into business on a big scale. It is estimated he was worth \$10,000,000.

To Sullivan, perhaps more than to anyone else, Woodrow Wilson owes the fact that he is president of the United States, said Sullivan's friends here today. It was at the Baltimore convention in 1912. Champ Clark had the Illi-

nois instructions but Sullivan controlled the delegation. After several ballots had been taken Sullivan decided to swing to Wilson.

It was the first big break in the convention and Wilson's nomination followed.

Sullivan dominated Illinois democratic politics for 25 years and for the last 12 has been a national figure.

# RETURNS FROM BUYING TRIP THROUGH THE EAST

L. Cohen, manager for the Kruger Jewelry store has returned after spending five weeks in the jewelry markets in New York, Providence, Hartford, Chicago, Indianapolis and other centers. He made large purchases but reports great difficulty in marketing. "Many of the manufac-

turers are just now filling last year's orders," he said, "and it is the hardest work imaginable to get orders filled. A jeweler has got to go into the markets these days with the cash and be prepared to buy wherever he can. In many lines the stocks are completely out of the hands of the manufacturers and jobbers and are in the hands of 'bootleggers.' Mr. Cohen believes that he was very fortunate in that he made a number of purchases direct from manufacturers and obtained immediate delivery.

Mr. and Mrs. Rhea Howard and daughter, Anna Catherine, left Thursday afternoon for Galveston.

Ford motors overhauled for \$35 1306 Holiday. 319-31p

**BIXBY'S JET-OIL**

For Women's and Children's Black Shoes

Jet-Oil is a liquid wax and oil polish. It preserves the leather and gives a new shine without rubbing - brushing adds brilliancy. Quickly applied with the dauber without soiling the hands or clothing.

Easiest to use. Economical.

Sold by Grocers, Stationers, Druggists, and Hardware Stores.

Are Your Biscuits Victims of Luck?

Do your biscuit come out of the oven light, fluffy, delicious, one day, and the next appear flat, leaden and unpalatable? If so, your experience is that of many housewives, the success of whose baking depends on luck. They never know how it will turn out. But famous chefs cannot depend on luck or their reputation for "perfectly delicious" hot bread would suffer.

How do they manage to invariably achieve success in their baking? The secret is simple. They appreciate the value of scientifically accurate ingredients. They use TESTED baking powder—TESTED shortening—TESTED FLOUR.

That is why the chemist at the Wichita Mill and Elevator Company is an important factor in eliminating the uncertain element of luck in the housewife's baking. He makes daily tests of the purity, quality and uniformity of Belle of Wichita Flour. TESTED products mean good, wholesome, easily prepared food.

You Can Rely on Belle of Wichita—The Tested Flour

### ARREST CHICAGO STRIKE LEADERS

(Continued from Page 1)

though they admitted the situation still was serious.

Return of groups of strikers on several lines at nearby towns and the steady improvement in passenger service, due chiefly to the success of volunteer crews in operating trains save the road of this much needed agreement. The trains carried 54,000 persons yesterday. Convinced that the crisis had been passed, so far as the passenger service was concerned, the railway executives planned to begin operation of freight as well as passenger trains with volunteers.

Strikers leaders, in making peace overtures to the new railroad labor board last night emphatically denied that the strikers were weakening, claiming they were "stronger than ever."

Edward McHugh, chairman of the strikers' committee who announced that the men desired to avail themselves of the opportunity provided by the railroad labor board to have their grievance considered, said they would not go back until they received substantial increases in pay.

"We are not revolutionists," he said. "We are American citizens and we are exercising our right to appeal to our government for the redress of intolerable grievances."

The food situation in this city, which has caused officials anxiety, was aggravated this morning by a strike of teamsters, chauffeurs and porters, claiming a union membership of 1,400. These men halted butter, eggs and poultry, the freight yards to the markets. They struck because their demand for more pay had been rejected.

About 200 trainmen, baggagemen and other employees of the Reading railway at Camden, N. J., joined the insurgent walkout this morning and service there was practically tied up.

About 100 switchmen of the Lehigh Valley railroad employed at Sayre, Pa., a division terminal of the line, also went on strike this morning.

### TOLEDO SWITCHMEN VOTE TO STAND PAT

TOLEDO, O., April 15.—Two thousand striking switchmen voted unanimously to stand pat and not to return to work when a test vote was taken at the termination of a four-hour conference here today.

### ARREST LEADERS IN MANY CITIES PLANNED

WASHINGTON, April 15.—Arrest of leaders of the "outlaw" railroad strike may be expected in many cities before night, C. B. Ames, assistant attorney general, indicated today, following the news that Chicago leaders had been taken into custody.

All the arrests probably will be made under the criminal section of the lever act, and the number may reach more than a hundred, he believes here. Meanwhile, the senate was in executive session considering confirmation of the railroad labor board, action on which was postponed yesterday.

### ILLINOIS BEND WELL IN MONTAGUE COUNTY HAS BEEN SPUNDED IN

NOCONA, TEX., April 14.—The Illinois Bend well is reported to have spudded in. This well is being drilled by the American Oil & Refining Company of Oklahoma City. The location has been given clearance papers by a geologist. This well will attract considerable attention as the geological dope is that structural conditions continue down Red River valley from southwestern Oklahoma or the Amarillo country for the matter on through the north Louisiana field, and the belief is that central and northern Montague county is included within this district with attractive structural conditions. The fraternity is beginning to realize this, and while the race is not yet on, the booking is beginning to be made which will include a number of attractive locations.

The Warner Oil Company well, located in the southwest corner of the Fidelity Secret survey, is still fishing. This well caused some stir while drilling around 2400 feet with a good showing of oil and gas. It is believed if favorable results are not soon realized in fishing efforts, a new location will be made on the large holdings of the Warner Company.

A deal is reported in a favorable stage for a test well in the vicinity of Saint Jo.

Fort Worth parties are said to have a block of leases under consideration for a test near Ringgold.

### MARTIAL LAW USED IN AGUA PRIETA

been under technical arrest following charges that he had plotted with rebel leaders.

### SONORA WINS FIRST FIGHT FOR FREEDOM

NOGALES, ARIZ., April 15.—Sonora, Mexico, has won her first fight for freedom. General Angel Flores, of the independent forces, this morning fought his way across the Sinaloa border, taking San Blas, on the boundary line and is proceeding with 2,500 men, 1,000 of whom are Yaqui Indians, toward Culiacan, capital of the state.

According to special advices from Hermosillo, capital of Sonora, federal troops are deserting the command of General Ramon Iturbe, chief of military operations in Sinaloa and Tepic. General Juan Carrasco, acting chief of staff to Iturbe, has taken the side of the rebel advance, is retreating with his men in wild disorder, according to advices.

### GYPSY OIL WELL IN OKLAHOMA SHOWING 9,500 PRODUCTION

TULSA, OKLA., April 15.—The Gypsy Oil Company's test well near Hominy in Osage county was showing 9,500 barrels per day, it was learned here today. The gusher was struck at 1,530 feet in the Bartlesville sand.

### POLES MAY OCCUPY GERMAN TERRITORY; NOTICE IS SERVED

BERLIN, April 15.—The Vossische Zeitung says the Polish government has informed the allied supreme council that it intends shortly to occupy German territory should Germany fail to carry out her engagements with the Poles.

The newspaper asserts that the principal instigators of the movement, it was stated at the pipeline office, J. L. McMahon, the production superintendent, was out of the

### LOCATE WACO MAN IN NORTH CAROLINA; LAPSE OF MEMORY

WACO, TEX., April 15.—Louis M. Butler, who was reported last night to have been found at Wilmington, N. C., after a lapse of memory, left here April 3, and had not been heard from since that time.

His wife is ill, and her mother would say nothing except that Butler went away without saying where he was going, and they had heard nothing from him.

Some time during Sunday, April 4, Louis M. Butler, an employe of a soda fountain in this city, left home and a young wife whom he wedded in this city, and no tidings came from him until last night, when a message came that he had been located in Wilmington, N. C. He told the authorities there that he had suffered a lapse of memory and remembered leaving Waco and arriving in Dallas, but all else was blank. His wife is ill, having been prostrated by his disappearance.

The family will divulge nothing concerning the case.

Because women are plentiful and can be hired cheaply in Japan they are used to furnish the hoisting power for pile-driving instead of costly imported machinery.

### TEXAS COMPANY EMPLOYEES AND DENVER RAILROAD OFFICE FORCE HAVE ORGANIZED OVERALL CLUBS

Honors for organizing the first "Overall Club" in Wichita Falls goes to the boys of the Texas Production and Pipeline Company offices, who announced their decision to don blue bib overalls for their working attire Thursday afternoon. This strike against the high cost of clothes will be in effect Monday morning, April 19.

Measurements for overalls for the entire force were taken Thursday afternoon. J. G. Quinn, superintendent of the pipeline company, will join the force in the club, being in fact one of the principal instigators of the movement. It was stated at the pipeline office, J. L. McMahon, the production superintendent, was out of the

city and his intention could not be learned.

A short time after the Texas company club had telephoned their organization announcement came the report of the Denver freight and yard offices that the men and girls had all agreed to wear overalls and gingham dresses. This is the first club of which girls are members, the Texas company employes being all men.

### INSANE MAN KILLS YOUNG GRAND DAUGHTER MUSKOGON HEIGHTS, MICH.

April 15.—Stuart Moore, 78, wealthy lumberman, insane, killed his 10-year-old grand daughter here today by cutting her head open with an axe.

### OIL FIELD WORKER KILLED IN A PISTOL DUEL WEDNESDAY

S. L. Stringfellow, oil field worker, was killed and Jess Reeves, also an oil field worker, was slightly injured in a pistol duel staged upon the streets of Springtown, the oil field settlement northwest of here, late Wednesday afternoon. R. T. Tatum, another oil field worker, surrendered to Deputy Sheriff A. A. Willey, immediately following the killing. He came to Wichita Falls and was released on bond Thursday to the sum of \$500. Stringfellow was the aggressor in the fight and his assailant

acted in self defense, according to Deputy Sheriff Willey. Tatum is the husband of the former wife of Stringfellow. No complaint has been filed against Tatum and he has been released on temporary bond. Three bullets were fired at Stringfellow during the fight, one bullet following the fight. Stringfellow's body and striking a bystander, Jess Reeves, who sustained slight injuries.

### MORE THAN DOZEN CHARGED WITH THEFT OF MORE THAN \$50

More than a dozen arrests alleging theft of property valued at over \$50 has been made during the past two days by the sheriff's department. The theft of property valued at more than \$50 is a felony offense and is punishable by imprisonment in the state penitentiary.

J. H. Warren, charged with theft of property valued at over \$50, waived examining trial and his bond was fixed at \$1,000 by Justice R. V. Gwinn in whose court the complaint was filed.

T. J. Allen, charged by complaint in Justice Gwinn's court with theft of property valued at over \$50, waived in whose court the complaint was filed at \$1,000.

V. L. Newsom, charged with theft of property valued at over \$50, waived preliminary hearing and Justice Gwinn set his bond at \$1,000.

Other complaints alleging theft of property valued at over \$50 have been filed in Justice Gwinn's court against Gene Martin, J. Chaple and M. F. McCarlie, while similar charges have been filed in Justice C. J. Arrington's court against M. C. Teague, J. F. Irby, C. E. Asher, Robert Rippele and R. C. German.

Mayor Walter D. Cline and J. G. Culbertson are in San Antonio for the purpose of attending the annual meeting of the Texas Chamber of Commerce, going as representatives of the local Chamber of Commerce.

### SOME OF THE HEAVIEST PRODUCERS IN HISTORY OF WICHITA DISTRICT FEATURE DEVELOPMENTS OF WEEK

Some of the heaviest producers in the history of the Wichita Falls district feature the completions in the Waggoner pool during the past week, the Emerich and Danciger No. 3 Mich-na, which had a flush run of 2400 barrels a day, actually flowing 100 barrels an hour, being one of the record completions in the entire state, for the past several weeks. Emerich and Danciger entered the field about two months ago and took over acreage which had been considered condemned, and now have a number of tests nearing completion, the first two completed being unusually large producers. These two wells are north of the Burk tract, where the Texas company has been getting big producers, and this company's operations on the R. Birk, and the Emerich and Danciger activities are providing the features of the Waggoner pool.

The Texas company's latest completion was also of record size, being a 1900 barrel well. This No. 4 is about 720 feet south of the No. 1, which was drilled 20 feet deeper the first of the week, its production being thereby increased to 900 barrels daily. This No. 1 has been completed several weeks, and has been making around 500 barrels.

Iowa Park has had no completions during the past week, in either the shallow sands or the K. M. A. district, but there are a number of tests that are expected to reach the sand in a short time, and should be completed this week.

There are several completions reported from Electra, all of them small, and from the shallower sands. The Boroff Oil Company's No. 1 Goetze, east of Sunshine Hill is reported a 25-barrel well. The International Petroleum Company's No. 3 Barnett Ranch is reported good for 20 barrels at 350 feet, and the Madison Oil and Gas Company's No. 1 Burnett is reported a 50-barrel well from the 850-foot sand. In the 900-foot sand, on the Grace Jennings lease, Van Every and Horning are reported to have completed a 25-barrel well, their No. 1.

In the Waggoner pool, outside the two phenomenal completions mentioned above, the George tract takes the lead in size of completions. The Arkansas-Texas No. 4 Leving is a 1,000-barrel producer. The Tex-Penn. Oil Company's No. 2 George is reported completed and making 800 barrels, the No. 4 of this company, also 800 barrels and Nos. 5 and 6 are reported as making 900 barrels each. The Waurika Oil Company's No. 2 is reported to have completed its No. 2 Taylor, a 250-barrel well.

The Oklahoma Petroleum & Gasoline Company have recently completed several wells on their Bashara lease, west of block 98, five wells having a total production of around 450 barrels.

Perkins and Grisham No. 1 Taylor is reported at 50 barrels. Charles Ertz No. 2 George is reported as making 150 barrels. The American Refining Company's No. 7 Schmissour is reported a hundred-barrel well, and the No. 4 Schmissour, also in block 73, of the Midco Oil Company, is also reported making 100 barrels. In this same block the Kansas Gulf Oil Company's No. 3 Lease B is reported a 150-barrel completion. The fourth completion in this block this week is the Erwin Oil Co. No. 3, 125 barrels. The Mid Texas Oil Corporation's No. 3 J. F. Wagner, block 72, is reported a 125-barrel well. In this same

block the Burk Cisco Oil Company's No. 2 is reported at 75 barrels. Norton and Cline's No. 3 Waggoner, block 84, is reported making 125 barrels. The Cavanaugh Oil Company's No. 2 Waggoner is reported a 150-barrel completion.

The No. 8 Kenner, of the Monarch Oil Company, in block 75, is reported completed, making 125 barrels.

On the A. A. Morgan tract the Missouri Oil & Gas Company's No. 3 is reported making 350 barrels, and the P. & P. Oil Company's No. 5 A. A. Morgan is reported a 130-barrel completion.

The Burk-Waggoner Oil Company's No. 7 Taylor and the American Refining Company's No. 3 J. B. Evans are both reported 60-barrel wells. In Block 88 the Golconda Oil Company No. 2 has completed its No. 6 Eliso, 150 barrels.

Several abandonments, junked or dry, are reported, including the following: Burk Burnett O-Tex Oil Company Nos. 1 and 2 Evans, showed some oil, but failed to make commercial producers; Harper et al. No. 1 Allen, block 821, temporarily abandoned at 1500 feet; W. A. Butts No. 1 Evans, temporarily abandoned at 1400 feet; McMurry Petroleum Company, No. 1 Elso, block 88, junked.

### FRED SMITH ANNOUNCES FOR OFFICE OF SHERIFF

The Times is authorized to announce the candidacy of Fred Smith for sheriff of Wichita county. Mr. Smith has been an officer in Wichita Falls for several years, having served for the past two years as chief of police in Wichita Falls.

Mr. Smith has lived in Wichita Falls all his life and few men have a wider acquaintance and few are more popular. Beginning at once he intends to make an active canvass of the voters of the county and hopes to see as many as possible before the date of the primary.

The Times commends the candidacy of Mr. Smith to the voters of the county for their careful consideration.

The SENATOR  
Price \$15.00

**Good Shoes Make Good Buying**

Bank men, executives, and men high up in all lines — even your presidential candidate, perhaps — wear this type of shoe. It is designed with an almost straight inside line from heel to toe. The normal foot has that line. Men in this Walk-Over walk in comfort, yet in style. Look at the stylish swing-in of the outside lines. We have your individual fit in our many shapes of Walk-Over Shoes.

AUTOMOBILES BLAMED.

Agrees of which, in the talk of contractors that among the items of building material now costing more than ever before and difficult to get at any price is expanded metal lathing. The price and the scarcity were discussed at a recent joint meeting of the Building Trades Employers' association and the Metallic Lathers' union, and they finally reached the conclusion that the excessive cost is due to the fact that automobile manufacturers are using great quantities of it and are paying any necessary price in order to get what they want.

One major factor in the high price of shoes, we have been told, is the excessive amount of top leather necessary to make the high top shoes affected by women. The automobile has helped boost leather prices, too, not to mention rubber and cotton goods (because of the quantities of both materials used in tires). Shall we disagree with the New York paper when it says "that the automobile is a blessing only the abnormally money conscious deny, but apparently it is a blessing of the sort commonly described as 'not unmissable'."

When he appeared before the senate naval investigating committee Admiral Sims made the statement that lack of co-operation on the part of the American navy for the first six months of the war prolonged hostilities four months and cost 300,000 lives and billions of treasure. Admiral Rodman, who commanded the American battleship fleet in European waters, was asked about this. "There is an old proverb," he said, "that there are three kinds of lies—lies, damned lies and statistics. This statement I consider to fall in the latter class." And there are many who, which ever side they support in the present controversy, will join with Admiral Rodman when he recalled that after the Spanish-American war we had the Sampson-Schley controversy which directly or indirectly detracted from the well-deserved reputation of the navy. And now we have the Sims-Daniels controversy, or investigation, which does the same thing regarding what the navy accomplished in the world war. We are inclined to concede that Admiral Sims was trying to help the navy, according to his lights, and that he was honest in his criticisms, but it is evident to anybody who has read the record that the Admiral was obsessed with the idea of his own importance, that his egotism led him to the belief that the responsibility for running the whole war was upon his shoulders and that he was alone capable of that task.

Senator Bailey finds it necessary to re-assure the public that he is going to run on through for governor, regardless of the result in the May primary. He wouldn't have done this, he now tells the world, if he could have secured a primary election in May, just as he told the world some time ago, first that he would not have run for governor at all if the state democratic executive committee hadn't challenged him to run, and secondly, that he wouldn't have run for governor if his friends had not absolutely forced him to get into the race. With all these causes putting him in the race, it is not to be wondered that he says he is going to stay in, for there are lots of men who have gone into races and stayed in with very much fewer reasons than the former senator already has given.

an independent state who was given no orders from Mexico City because he had advised Mexico City that he would obey only such as suited his convenience or personal desires. The Carranza government is ill prepared to cope with the action of Sonora; if the movement is taken up by any number of other states, it will be quite helpless to meet the situation, and the probabilities are very strong that we shall presently see erected a belt of small independent states along the American border, the importance of which to us might be that they would act as buffers between us and Mexico and, to that extent at least, relieve a situation that is always a source of possible danger of forcing us into war. Carranza has been so busy fomenting trouble in South and Central America for the United States, in kicking up ill feeling there against us, that he has had little time to give the internal situation in Mexico, and the Sonoran trouble seems to be directly the outgrowth of inattention on his part to that portion of the republic.

Interest on state monies during March aggregated \$55,327, and that money may be credited to the state depository law, which requires that state money be put out at interest. It hasn't been so many years since the first depository law was passed in Texas—which required county and municipal and district treasurers to deposit their public funds in the bank which contracted to pay the highest rate of interest on daily balances. It required a goodly number of years, however, to get through the legislature a workable depository bill under which the state's money should also be put out at interest in banks over the state offering the best interest rate. The state is getting more than \$500,000 a year in interest, it would be very interesting to know how many millions of dollars interest the state, county, district and municipal treasurers have received since they were put under the law requiring them to put their public monies out at interest. And the banks probably are very much better pleased with getting the deposits on a business basis than when they used to get them by political log-rolling and campaigning.

A map of the Dallas-Wichita Falls interurban which was published recently in the Dallas News shows clearly how important the projected road is in the way of opening up territory that is now entirely lacking in railroad or other means of quick transportation independent of weather conditions. From the Santa Fe westward in Denton county to Bowie in Montague county the interurban splits half in two the railroadless area between the Fort Worth & Denver and the Missouri, Kansas & Texas railroads, a territory that is of tremendous possibilities agriculturally and which, even without railroads, has become a land of high values and great productivity. The freight over a big scope of fertile territory would be a factor in itself to interurban maintenance, as well as of importance to the wholesalers in the cities reached over the interurban by a one-line haul. The 130-miles of territory between Wichita and Dallas is most attractive; Wichita and Dallas and the other towns interested will reap bountiful returns from the construction of the line and the consequent intensive development of the rich area included.

"It was," remarks the New York Times of the recent Johnson landslide in Michigan, "a distressing day for the republicans of the old guard. They view Johnson with alarm, Wood with distrust, Hoover with resentment for his impudence and his presumption. Yet these three, in the order named, lead the poll, while Governor Lowden, who is supposed to be favored by the republican old-timers, takes the fourth place polling only a little more than one-tenth of Johnson's vote." The republican old guard still has the uninstructed delegations to fall back upon with the certainty that no candidate will have a majority. The successful republican old guard, with a minority, won out in 1912, in the convention, and carried two states in the subsequent election. Like our own Bourbon, the republican old guard has learned nothing and forgotten nothing since they became the old guard; therein is one big reason why democrats knowing something of the trend of the public mind away from democratic Bourbonism and republican standpatism refuse to concede the 1920 presidential election to the g. o. p.

Senator Bailey finds it necessary to re-assure the public that he is going to run on through for governor, regardless of the result in the May primary. He wouldn't have done this, he now tells the world, if he could have secured a primary election in May, just as he told the world some time ago, first that he would not have run for governor at all if the state democratic executive committee hadn't challenged him to run, and secondly, that he wouldn't have run for governor if his friends had not absolutely forced him to get into the race. With all these causes putting him in the race, it is not to be wondered that he says he is going to stay in, for there are lots of men who have gone into races and stayed in with very much fewer reasons than the former senator already has given.

Just Folks

By EDGAR A. QUEST

Time to Go Fishing. It's time to go fishing again! The breeze in the sky and the breeze in the water are calling the city-worm men. To come to the lakes and the seas. There are dreams to be dreamed in a day. There are wonderful pictures to see. It is time to be up and away. To the haunts where the soul can go free.

Life cannot be lived in one place. Not in toil can man's story be told. Hard grow the lines in his face. Who thinks but of silver and gold; There are battles of silver and gold; And joys for the joyous to claim. And the chorus of birds from above. It is sweet as the whisper of fame. The body needs rest from the grind. The soul needs its moments of peace. The tired and trouble-worn mind Needs respite and rest and release. And each in his turn must put down His duty and portion of care. Must turn for a time from the town And find true contentment somewhere.

It's time, almost time to depart. From the heat and the turmoil of strife. The struggle for place and its smart. And gather the glories of life. Though each one must follow his choice. In forsaking the struggles of men, Soul and body, once more I rejoice. That it's time to go fishing again!

HOROSCOPE

"The stars incline, but do not compel." (Copyright, 1919, by the McClure Newspaper Syndicate.)

THURSDAY, APRIL 15, 1920. The morning hours of this day are unfavorable, according to astrology, but later Mercury is in benefic aspect. Uranus and Saturn are in menial places, and it is wise to be explicit in word and action. Vision in business or professional affairs is not to be depended upon while this planetary government prevails, the seers declare. The sway makes for uncertainty and prevents the best results from constructive efforts. Rumors that are disconcerting and untrue are supposed to attain mushroom growth during this week. While there may be hints that banks may have to contend with a realization that vengeful thoughts of fear must not be harbored. The seers declare that the new era brings with it support and aid for the nation so that they who prophesy evil will be able to do little harm. While there is said to be no danger of calamities, the result again is emphasized, for extravagance corrupts even the most sturdy race. Politics will be talked too much of this week, the seers predict. This is a most auspicious time for the beginning of any campaign of ability and wood by man should be lucky. Again the establishment of new journals and periodicals appears to be foreshadowed. The stars that encourage organization and group movements seem to presage the overdoing of mass activities. Education is subject to the most progressive influences and many reforms are foreshadowed. A college president will lead in a great campaign to improve existing institutions and their methods. Persons who are in a hurry to change are a few uncertainties. Children born on this day may be unsettled and discontented. These subjects of mine should be wisely guided and disciplined.

LITTLE BENNY'S NOTE BOOK

By LEE PAPE

Yesterday before supper pop was stropping his razor and feeling it with a unsatisfied expression and stropping it again, and I said, Pop, can you stick one leg up till you touch your ear? If you want to talk to me, talk sense, sed pop, and he felt the razor again, saying, Confound such a razor. I couldn't shave a dog with such a razor. I am talking sense pop, can you do it, pop? I sed, blame this razor, confound it, sed pop, and I sed, we stick one leg up till you touch your ear. Say, look here young man, in trying to do your investigations, you're foolish, that's what they are, foolish, and I don't want to hear any more of them, sed pop. That wasn't any exaggeration, pop, I can do it, I sed. Are you standing there with a strafe face and telling me you can lift your leg till you touch your ear? Sed pop, and I sed, Yes sir, can't you do it, pop sed, Leave me out of this, please, and I sed, Yes sir, can't you pop, and pop sed, Do it, go ahead and do it this minute, and I sed, don't do it, I sed, you touch, kicking it will be impossible to exaggerate about it. Yes sir, I sed, And I lifted up one leg and kept on lifting it up till I touched my ear with my hand, saying, See, pop, I stuck my leg up, till I touched my ear, I didn't say we'd go going to touch my ear with, did I, pop. Get out of here, sed pop. With I did, going past pop as quick as possible to avoid accidents.

With Other Editors

Texas Press For President. (McGregor Mirror.)

The fact that the press of Texas is almost a unit against Joseph Weldon Bailey, must be disconcerting and discouraging to his followers. To the exception of the Hamilton Herald, there is not a weekly paper coming to the Mirror office that does not oppose his political activities in this state. The Fort Worth Record, once a staunch Bailey organ is opposing him most effectively. The same can be said of the Houston Post, it used to be one of his most ardent defenders, but it no longer supports him. Just why Mr. Bailey's friends think for a moment that he is strong with the farmers is past our understanding. The weekly press undoubtedly reflects the political sentiment of the agricultural districts and it is practically sold against Bailey. If the larger towns and cities are no stronger for him than the farming districts, he had as well return to his Washington home.

Side Talks

By ELLI CAMERON

BUYING CIGARETTES FOR THE MAID. A letter friend reminds me that in reckoning up the compensation which domestic helpers get, I have left out some items. She says: "You said that board and room should be added to wages in determining what payment the domestic helper receives. That is quite just, but you have forgotten some other items which if she should have to pay for them herself, she would find would reduce her spending money somewhat."

Besides Her Wages. For instance, the use of the telephone in our home are my maid, my husband and myself. The maid has full use of the telephone and uses it as much as I do and much more than my husband had. The telephone cost me about \$20 a year, suppose she paid a third, that would be \$10—not much, I know, but I feel pretty sure she would hate to pay it.

Company to Meals. Every now and then she has company to meals. If she were a factory or shop girl, paying out money from her wages for board, she would have to pay extra for this company, of course, I do not mean to suggest that I begrudge her the right to entertain occasionally, or any of these other privileges; but simply to make plain that if you are going to reckon things in cold cash, there are some of the things that should be counted.

But Seriously. Seriously, is considering this problem, it is simply one of supply and demand. So long as demand exceeds supply, the people who want it will bid against each other both in wages and privileges. There are just two ways of meeting such a situation. One is to decrease the demand by substituting electrical devices for community cooking, etc. for the domestic helper. The other is to increase the supply by attracting workers from other fields into this work. How can this be done? The wages are already enormously attractive. Presumably then there are some other objections to the work. We all know what they are—uncertain hours, no chance to live at home, and a lowered social status. If these things can be adjusted, the problem will automatically adjust itself. I wonder if they ever can?

RIPLING RHYMES.

By WALT MASON.

Climate. I travel east, I travel west, to find the smoothest climate; and when at last I've found the best, no doubt I'll deftly rhyme it. I travel north, I travel south, to find the folks complaining; for here there is a heathly drouth, and there it's always raining. I sit me down beside the sea to write some soulful stanzas, and fog come up and smother me, and make me yearn for Kansas. Upon the mountain's brow I sit, and view the valleys under; and then the storm flood thrush a fit, with hail and sleet and thunder. I traverse lands across the foam, from Cork to the Nyanzas; and all things say, "You're far from home," and make me sick for Kansas. And Kansas, Kansas, is the worst that ever the Lord invented, with cold and heat and winds accurst—but there I'm most contented. For there my friends are drilling round, the slowest and the quickest, and where my dearest friends are found, the climate is the slickest. I travel up, I travel down, to find an earthy heaven, and always high my mill town, dimensions five by seven.

The best house paint we know

We operate our own lead and zinc mines, smelters, oil plants and color plants in order to be certain that every ingredient is of the highest quality. SWP is the most economical paint. On the basis of square foot cover and long wear it costs less than the cheapest paint you ever heard of. A gallon covers 360 sq. ft.—2 coats. It stands years and years of wear and presents a fine surface for re-painting. More than a round million of buildings have been painted with SWP.

The Waste of Wear and Weather

They study the wear each surface gets, then prescribe a protective paint to offset that wear. SWP is surface specialists.

### WHITE HOUSE PROBABILITIES

**OHIO GOVERNOR WAS A PRINTER'S DEVIL**

1870—Born at Jacksonburg, Ohio.

1888—Reporter-devil on a Dayton paper.

1898—Bought Dayton Daily News.

1903—Bought Springfield paper and formed News League of Ohio.

1909—Began first of two terms in congress.

1912—Governor of Ohio.

1916—Defeated for governor by Frank B. Willis.

1917—Defeated Willis and began second term as governor.

1919—Began third term as governor.

1920—Mentioned as democratic presidential possibility.

Men call "Jimmy" Cox, Ohio's three-time governor, a "regular fellow."

He can tell a good story and appreciates hearing one. He is a fair whist player who enjoys the game most when he wins. He is an engaging conversationalist.

But above all, James M. Cox likes the outdoors. He is an enthusiastic fisherman and hunter. When he is in Dayton, almost any morning he may be seen at sunrise taking a brisk canter over country roads near his farm, alone or accompanied by Mrs. Cox and James Jr. When in Columbus, he tries to get in a round or so of golf every afternoon.

For several years he has spent his summers at a cottage in northern Michigan, where, with his entire family he allows nothing to distract from his enjoyment of the outdoors. In season many a field in Kentucky, Tennessee and Alabama have known his presence and everywhere he has hunted his favorite dog Tom has become a coby of the natives.

His love of hunting is in reality a love of hunting dogs. Nothing in recent years has affected him like the death of old Tom, run down and killed by an automobile a few weeks ago.

Cox believes his ability to forget work and take rest and recreation is his greatest asset. When applying himself at his office, the governor drives with endless energy, but works without friction. He will not be stampeded to a quick decision, although

his judgments are formed quickly and then promptly executed.

Governor Cox was 50 years old two weeks ago. He is robust, weighs about 160 pounds and is stockily built.

Cox was developed in the hard school of experience. His early education he got in the public schools. When quite young he started to work as a printer's devil, then taught school, became a newspaper reporter, was private secretary to a congressman, a congressman for terms, became editor and owner of two Ohio daily newspapers, and finally was elected governor. His third term as governor will end in 1921.

Cox was born on a farm near Jacksonburg, O., a few miles from Dayton. He spent his youth working on the farm and attending school near his home. As he grew older, he, like other boys of the neighborhood, went to seek his fortune. He obtained employment from time to time on Dayton and Cincinnati newspapers, as printer's devil, later he became a reporter, and copy reader on the Enquirer, Cincinnati.

In 1888, Cox bought the Dayton News. In 1903 he bought the Springfield Press-Republic, forming later the Springfield News. These two papers now constitute the News League of Ohio of which Cox is owner and editorial director.

Cox represented the Third Ohio district in congress from 1909 to 1913. In the latter year he began his first term of governor, his election as a democrat having been hailed by republicans as an "accident." In 1915 he was defeated for reelection by Frank B. Willis, republican. In 1917, however, Cox came back strong and won the election over Willis. In 1919 he was again elected for a two-year term.

Cox had barely assumed the duties of governor in 1913 when the great floods of that spring inundated Dayton and the valleys of the Miami and Scioto. The man who dominated the situation following the floods was Cox. He assumed complete charge, declared martial law, and in three days, during which he never left his office, started the wheels of relief moving and had rehabilitation under way.

During that series of disasters, Cox was "chief magistrate, commander-in-chief, head of the life-saving service, provider of food and clothing, principal health officer, severest disciplinarian, hardest worker, most hopeful prophet, sanest counselor, kindest philanthropist and most accurate re-

porter," according to a contemporary editorial writer.

Indicative of Cox's management of affairs in Ohio was his action in re-electing the mayor of Canton, a democrat, and his substitution for him of a republican mayor.

There was a strike of mill workers at Canton. Operators attempted to resume work in the face of the strikers' and considerable disorder followed. The governor issued a proclamation calling on local officials in all the cities and counties to do their full duty to preserve order and prevent outbreaks. He told them violation of the law on the part of either the strikers or mill owners would not be tolerated and announced he would hold the local officials to strict accountability.

Disorder continued at Canton. City officials, citizens and mill owners asked the governor to send in state troops. Cox replied by removing the mayor and ordering the mobilization of the national guard to support the new mayor, but refusing to send the troops to Canton. Peace was restored.

"Jim" Cox was one of the first governors in the nation to go after profiteering. Long before any definite stand was taken by federal authorities, Cox announced he would run down and prosecute every man found booting unduly the cost of foodstuffs and life necessities. The campaign in Ohio became of national importance, several other governors following suit.

Governor Cox sponsored and secured passage of the Ohio workmen's compensation act which only recently was approved by King Albert of Belgium as a model for the world. This act eliminated all the major reasons for conflict between employer and employee by guaranteeing injured workers and dependents of those who lost their lives in the discharge of their duty indemnity by automatic action by the state.

Other things accomplished by Governor Cox during his three terms are child labor laws that have been copied by other states; a mother's pension

system; initiative and referendum; a scientific budget system; a prison farm to provide healthy occupation for convicts; elimination of sweat shops; a "blue sky" law to protect Ohio investors; a reform of the school system; consolidation of numerous state bureaus and abolition of others, and many other laws designed to protect workmen and farmers.

Cox never lets his interests drift. Even while conducting the affairs of the state at Columbus, he has an eye on his two newspapers, and often runs down to Dayton and Springfield to confer with his editorial and business staffs. Sometimes he writes an editorial or so while he is in the office and occasionally he helps out in the composing room when there is a rush to set the paper "to bed."

New buildings have been provided for both his papers and the best of equipment installed.

Governor Cox has been married twice. His present wife was Miss Margaret Blair, whom he married in Chicago in 1917. They have a little daughter, Ann. Another daughter, Mrs. D. J. Mahoney, lives in Dayton. The sons, John and James, Jr., are in school.

Cox knows nearly everybody in democratic politics. He keeps up on national and foreign affairs and it is said his advice is frequently sought by leaders at Washington. He goes to the national capital occasionally and then drops into New York for a night at a theater or a dinner with friends.

In Columbus, the Coxes live at a hotel. In Dayton they own their own home in addition to the farm where Cox was born. That was recently bought back into the family after it had been sold to outsiders. Cox has had it restored to as nearly the same as he remembers it as a boy.

**Dr. Doby Fires Engine.**

NEW YORK—Dr. Richard Doby, son-in-law of the late President Roosevelt, fired an engine on the Long Island Railroad when the regular fireman struck.

### Night News Briefs

**BELFAST, IRELAND.**—Soldiers fired ball cartridges over head of crowd gathered at Londonderry station and two persons were wounded by ricocheting bullets.

**CHICAGO.**—Roger C. Sullivan, prominent in Illinois and national democratic politics, died. He had recently returned from Hot Springs, Ark., where he had gone for his health.

**OKLAHOMA CITY.**—Organization of a state wide "Overall club" was begun among state officials and employees.

**M'ALESTER, OKLA.**—Announcement was made that coal operators and representatives of miners of district 11, embracing Oklahoma, Arkansas and Texas would meet Monday to settle upon new working agreement for district.

**WASHINGTON.**—General Pershing, in an address, declared that while

not seeking a presidential nomination, "no patriotic American could refuse to serve if called upon by the people."

**AGUA PRIETA, SONORA.**—Apparently reliable reports were received that troops of the new Sonora republic had been engaged in battle with Carranza forces. No details of engagement were received.

Tokio will have a fifteen mile subway solving the problems of their traffic in a fully modern manner.

Notice is hereby given that the Kemp-Munger-Allen Oil company will pay a dividend of 300 per cent to stockholders of record Thursday, April 22. The stock books of the company will be temporarily closed at 5 o'clock on the afternoon of the day immediately preceding the payment of this dividend, and no more transfers made until after the payment. Stockholders are urged to send their correct mailing addresses to the offices of the company, Room 505, Kemp & Kell building, before the date of this payment. Kemp-Munger-Allen Oil Company, 370-510.

**KATY SPECIAL SERVICE BRING PAPER SHIPMENT TO RELIEVE THE TIMES**

The Times Wednesday benefited through an extraordinary bit of service rendered by the Katy when a car of badly needed paper, lying in the Denison yards of the Katy, was moved from Denison at 6 a. m. reached Wichita Falls at 11:30 the same day, and was unloaded and stored in the Times warehouse at 2:30 the same afternoon. The car was switched onto a special freight train made up of shipments entirely for Wichita Falls, which followed the morning passenger train, and made stops only for water.

The special freight was made up entirely of emergency shipments. The car of paper received by the Times was badly needed and its timely arrival saved the paper from a very embarrassing position.

American motors are popular in Spain. There are more than 1200 of them on the island.

The way damage in the Lens coal district is estimated as 50 per cent of the total valuation of the property.

## Physical Man Is Like Dog, Expert Says

**Either One, If Given Too Much Food and Little Exercise, Will Be Sick, Harry Kessinger Declares**

Harry Kessinger, the celebrated health teacher, whose new health theories and treatment, Orgatone, have caused such a sensation in Wichita Falls during the past few days, said recently:

"Man is nothing but an animal of the highest order to be sure—but he was never intended by nature to be shut up all day long and have all the food he could eat without exercising his body sufficiently to consume it. No animal can stand this. Take a dog, for instance, let him run wild in the country and he will wolf down his

meals and never be sick. Shut him up in the city and make a parlor pet out of him and what happens? He gets sickly, and suffers disgustingly at the food you offer him. He is subject to many diseases and is lazy and is doped with food. Most people of today are in the same condition—literally doped with food. They are half-sick, and don't know what is the matter with them. Take my word for it, it is their over-worked digestive apparatus that causes the trouble.

"Understand me, however, my medicine is not a 'cure-all.' There are some forms of illness which it will not overcome, and when I meet a person so afflicted I tell him so frankly. My personal representatives who are meeting the people of Wichita Falls at Young and Miller Drug Stores will not accept money from any one whom they know cannot positively be benefited by my preparation."

**MEMORIAL**

**TAKE A TIP**

When you place that last mark of love and respect, be sure that it is made from the most enduring stone. A monument or an enclosure that you can out with a common pocket knife is worthless, and we positively will not waste our time or your money placing same.

**52¢**

How would YOU like a raise like this?

**FIRST NATIONAL BANK**

Pay to the order of Rev. N.E. Pastor  
Only Fifty Two Cents  
Each Church Member

— and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

**The Minister Never Fails You**

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

**We Pay Him Half the Wages of a Mechanic**

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic. And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

**We Are All Profiteers at Their Expense**

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can make.

**INTERCHURCH WORLD MOVEMENT**

45 WEST 18th STREET, NEW YORK CITY

The publication of this advertisement is made possible through the cooperation of 30 denominations.

### Zinn is Expected To Do Twirling in The Opening Game

**DALLAS.**  
Pike, second base.  
Stark, third base.  
Coomber, center field.  
Mattick, left field.  
Palmer, shortstop.  
Litts, right field.  
Slatery, first base.  
Robertson, catcher.  
Forrest, catcher.  
Conley, pitcher.  
Flynn, pitcher.  
Dale, pitcher.  
Laundry, pitcher.  
Hunt, pitcher.  
Schwarzl, pitcher.  
Faik, utility.

**WICHITA**  
Joeason, right field.  
Brownlow, second base.  
Snedcor, first base.  
Mokan, left field.  
Tanner, short stop.  
Grubb, third base.  
Storey, center field.  
Kilbourn, catcher.  
Pemberton, catcher.  
Zinn, pitcher.  
Appleton, pitcher.  
Johns, pitcher.  
Waver, pitcher.  
Rath, pitcher.  
Meador, pitcher.  
Eberhard, pitcher.

There's the way they're to line up, fans, with the chances in favor of Zinn to pitch. Who will go to the mound for the Marines in the opening fracas is not known.

The Spudders are all set to go out and win the game, as it means more than a ball game to them. Although the ball game, is of course, their main object, there are cigars, shoes, shirts, clothes, cash and everything else in the offing for various stunts in the opening day contest.

More than 18,000 disabled men are taking courses offered by the Federal Board of Vocational Training. Of these 6972 are electric trade and industrial training, 4829 business and commercial training, 2223 prevocational training, 2455 agricultural training and 2382 professional training.

### World's Champion Steer Bulldogger To Enter Contest

Jim Massey, world's champion steer bulldogger, has signed up to enter the contest at the Round-Up, which will be staged at Athletic park May 6, 7 and 8, and will defend his title against one of the greatest fields of steer wrestlers ever assembled in this state.

Massey, who weighs but 170 pounds, is one of the strongest men of his weight in the United States and he has mastered the dangerous art of steer bulldogging to the extent that it seems no trouble at all for him to leap from the back of a running horse, grab the long horn by the horns and twist him down in a few seconds, a feat that would make Waldek Zybyzsko, Marion Flesina, Earl Cudock, Joe Stecher and all the rest of the claimants of the heavyweight wrestling title look pitiful in spite of all their beef and brawn. Massey won the capital prize in bulldogging at every one of the seven big western contests in which he competed, including Pendleton, Ore., Bozeman, Mont., and the great Calgary stampede, staged at Calgary, Canada, last September, in which the total prizes exceeded \$25,000. And, in addition to his last season's winnings, Massey started this season in his old time form, winning the bulldogging event at the Fort Worth Rodeo in March.

Massey has already shipped his bulldogging horse here and has him quartered in the Warren E. Jennings polo stables and Jim is working the horse every day on the polo fields so that the steed will be in fine form when the Round-Up takes place.

The value of construction in 151 cities last year was \$1,219,000,000, which is three times that of 1918 and 89 per cent in excess of that of 1917; also 29 per cent in excess of the hitherto record year, 1918, since when, however, values of building material have gained 80 per cent, while wages in some cases have doubled. Only 7 cities of the 151 show a smaller value of building than in 1918.

### Assign Umpires For Opening Games

**FORT WORTH, April 15.**—For the opening game of the Texas League Friday umpires were assigned as follows by President Morris at today's conference: Fort Worth, Earl Miller and J. H. Bibb; Wichita Falls, Paul Sentiell and Don Young; Galveston, A. L. Powers and Robert Corkhill; San Antonio, Robert Tarleton and Robert Hanslin.

### "Brother Isaiah" a Source of Worry For New Orleans

**NEW ORLEANS, April 15.**—Two men afflicted with leprosy were at the house of detention here today awaiting transfer to the lepers home at Indian River, La. They were taken from the throng of cripples and maimed persons awaiting treatment at the hands of "Brother Isaiah," who for more than a month has been administering "faith treatment" to afflicted persons.

The names of the two men were given as Sensir Dallahousaye, 33, a farmer of Brondaville, La., and Jack Jacobson, 40, an Atchafalaya River trapper. Steamship and railroad companies have been notified that prosecutions will follow the bringing of any more afflicted persons into New Orleans for treatment as the city's charity colony has been increased to almost a prohibitive degree.

Tents and shacks which have housed patients near the river front were ordered torn down and burned by health authorities. Patients who consent to leave for their homes today will have their expenses paid by the charity organization societies.

"Brother Isaiah" recently has given comparatively few "treatments" and but a small percentage of "cures" have been claimed.

### Suit to be Filed To Set Aside the Pickford Divorce

**CARSON CITY, NEV., April 15.**—Suit to set aside the divorce decree granted Mary Pickford, from her former husband, Owen Moore, will be filed at Minden, Douglas county, according to Attorney General Fowler.

Fowler has been investigating the divorce of the motion picture star.

### LARGE INCREASE IN COTTON CONSUMED IS REPORT FOR MARCH

**WASHINGTON, April 15.**—Cotton consumed during March amounted to 575,740 running bales of lint and 28,685 bales of lint, the census bureau announced today.

Consumption in March a year ago was 433,485 bales of lint and 10,401 of lint.

Cotton on hand March 31 this year, in consuming establishments, was 1,855,430 bales of lint and 288,233 of lint, compared with 4,460,887 of lint and 277,344 of lint a year ago, and in public storage and at compresses 3,244,995 bales of lint and 417,829 of lint compared with 4,327,905 of lint and 199,887 of lint a year ago.

Imports during March were 133,727 bales compared with 15,563 a year ago. Exports were 794,460 bales of lint including 471 of lint, compared with 594,239 of lint and 1,271 of lint a year ago.

Cotton spindles active during March numbered 34,667,747 compared with 22,554,586 in March last year.

was 433,485 bales of lint and 10,401 of lint.

## Doing the BIG things FIRST

HERE is the first tire that ever was given a whole factory to itself!

Firestone Plant No. 2, with a capacity of 16,000 tires per day, is devoted solely to the production of the 3 1/2 inch size.

It was a problem made to order for Firestone — big volume production of a high grade article.

Firestone met it with a typical Firestone answer — a separate \$7,000,000 factory.

Buy Firestones.

Most miles per dollar is a Firestone pledge, to the big car owner as well as to the owners of light cars. See the new Standard Oversize Firestone Cord.

## Some Costly Mistakes Men are Making on Tires

Men who buy tires on a guess, or on claims, are making some costly mistakes. Large tire users make tests and comparisons. And the results in late years are amazing.

Hudson Taxi Co. of Detroit, for instance, made a long test on Miller Cords. And the average was 15,000 miles.

Miller dealers get hundreds to compare Miller mileage with others. And they find an increased mileage of 50 per cent to 75 per cent.

Large truck users are comparing Miller Cords, passenger type, with all others. And they are coming in large numbers to Millers.

California stage lines are using Millers after million-mile tests with many rivals.

### The Way to Know

At the Miller factory over 1,000 tires yearly are worn out in tests and comparisons.

They constantly prove that Miller is the best tire built.

In extreme rear-wheel tests they require an average of 25,000 miles on Cords.

They prove that the new Miller tread outwears the best of others by 25 per cent.

Such tires should be tested by every owner of a car. See what they give you. Compare with any tire on opposite rear wheels.

Miller experts, in late years, have doubled average tire mileage. Old-time figures do not apply today.

You will fix new requirements for your tires when you try a Miller. Do it now.

Treads Patented  
Center tread smooth with suction cup, for firm hold on wet asphalt. Grooved-to-the-Road side treads mesh like coars in dirt.

# NEWS OF WEST TEXAS

## SHALLOW SANDS IN STEPHENS COUNTY ARE ATTRACTING INTEREST

FRANKLIN, TEX., April 15.—Developments of the past few days in the oil fields of central Stephens county show good completions and a shallower sand in several sections that promises to add to the interest of this field. The Plateau Oil Company between here and Breckenridge picks up a shallow sand at 2700 feet that has 40 feet of thickness and filled the hole 1500 feet with fluid. Another shallow sand well is that of the Sun Company in section 2064, T. 2, E. & L. survey, that found a shallow sand at 1900 feet which is making 150 barrels natural.

W. C. Phipps and R. C. Jones of Ranger have a 3000 barrel well four miles north of Franklin in the group of good producers there.

Drilling is increasing in all the territory between Franklin and Breckenridge being particularly active in the vicinity of Breckwaller in the Paris camp neighborhood. The character of the producing horizons in Stephens county is different from that in the Ranger pool and so far the records of wells show that the Stephens county production holds up much better than the Ranger production.

The production in this county has already extended to every part of the county and the figures for each month shows a gain over the preceding month.

## PRESCOTT CITY TO HAVE ELECTRIC LIGHTS AND AN ABUNDANT WATER SUPPLY

VERNON, TEX., April 15.—Prescott City, the tented city, which was promoted by Fred Mallock of Wichita Falls in 10 days, will have electric lights and city water. Negotiations are under way with Vernon city officials to connect Prescott City with these conveniences. The townsite will not only have an abundant quantity of water, but a surplus will be provided to be used in drilling operations in the Sigler district.

Bradley City, also near the Sigler well, will likely be connected with Vernon so that they will have ample light and water facilities.

J. H. Pendleton, the pioneer druggist of Vernon, has announced his intention of retiring from active business. He has been in business here since 1884, and lately sold his drug store opposite the court house to parties who changed the name to the Vernon Drug Store. This week he sold his other store on North Main street to R. A. Green of Olden, Texas.

Mr. Pendleton recites many interesting tales incident to the early days of Vernon when cowboys rode into his store to purchase sodawater and other articles which he dispensed. Mr. Pendleton says it was no common sight in those days to see a crowd of cowboys ride horseback into saloons and partake of liquid joy while seated on the back of their ponies, and after departing from the thirst-saturating "shoot up" the town and go to their ranches. Finding oil here has transformed Vernon into a modern city, Mr. Pendleton says.

## CHAMBER OF COMMERCE AT VERNON HAS SECURED SERVICES OF J. E. MORROW

VERNON, TEX., April 15.—J. E. Morrow, now manager of the publicity department of the Texas Chamber of Commerce, headquarters at Dallas, has been engaged as general manager of the Vernon Chamber of Commerce and will assume his duties April 19. C. M. Murray, the present secretary of the chamber of commerce, has resigned, and Mr. Morrow was selected as his successor. Morrow is the son of Rev. J. M. P. Morrow, former pastor of the Vernon Baptist church.

The Boger ranch of 2,300 acres, four miles northwest of Vernon, has been sold to J. Kunkle and associates of Clarksville, for \$80,000.

The Vernon Bridge Co. has been organized in Vernon to construct two bridges across Red River, north of Vernon. The first bridge will be at the Old Bluff crossing, connecting Vernon with Tillman county, Okla. and the other one will be at the Old Doans crossing, connecting Vernon with Jackson county, Okla. opening up a direct route to Tulsa, Okla. The capital stock is \$300,000, and the personnel is Vernon and Oklahoma parties.

## SIGLER WELL STILL FLOWING BY HEADS; INTEREST INCREASES

By A. C. McCONNELL.

VERNON, TEX., April 15.—The announcement that development of the acreage surrounding the Sigler well will continue, notwithstanding litigation, has brought much joy into the ranks of the oil fraternity and there is a quickening of interest. Every where a general optimistic spirit is discernible.

The Sigler well is still flowing by heads. No definite estimate has been placed as to the rate of flow. There are 3,200 barrels of storage at the well full of oil, but no pipe line connection has been made, and until connections have been made the well will not be allowed to flow any length of time. It flows now only at intervals of time. The well is topped off and no one is permitted about the well.

Development will be no longer delayed, according to announcement from the Vernon office. Two rotary rigs are on the way to the lease. Also lumber for the construction of bunk houses for drillers and field laborers. Material for the immediate drilling of two wells is on the way.

The two new wells will follow the structure of the famous Sigler discovery well, being about one-half mile from the No. 1 Sigler, now flowing. One will be to the east and the other southwest, and they will be drilled in less time than was required to complete the No. 1, as the sand depth has been determined.

W. H. Huggins has negotiated with the Burk-Wagoner Oil company to put down a test on the Castlebury farm in Section 46, block 14, the lease being held by him. The well was spudded in Wednesday. The test is one and a quarter mile of the Sigler gusher and adjoining the section on the Castlebury farm, where the Texas company passed up an 8,000,000 cubic foot gasser. The Texas company encountered dry gas that flowed at the rate of 2,000,000 feet daily at a depth of 1,145. The casing was put by this, cutting it off. When the eight-inch was being run to 1,400 feet, dry gas again broke loose, blowing showers of sand into the rig. At 1,409 feet a quantity of gas broke loose, blowing both oil and salt water to the top of the rig. Amount of gas made was conservatively estimated by the driller to be 8,000,000 cubic feet.

Organizing with a capital stock of \$150,000, with acreage offsetting six remaining wells, the Vernon checkerboard oil company, came into existence Monday with O. C. Lloyd, a Vernon operator, as president. They will start drilling in 30 days on 40 acres offsetting the V. O. D. well to the northeast. H. Von Hagen, the geologist, who located the Sigler gusher, has passed on the structure to be drilled—west of the Sigler well and near the V. O. D. well. A California rotary has been ordered and will use a six-inch drill stem. The directors of the company are C. G. Lloyd, H. W. Johnson, C. E. Swenson, W. F. Nenny, H. Von Hagen and E. H. Johnson.

The Wagoner Ranch Oil company opened their Vernon offices this week on property purchased from L. F. Pi-per south of the city hall. W. G. Burton is in charge of the office.

W. T. Wagoner has purchased the Sink brick on South Main street and after adding another story will use the building for offices of the Wagoner interests. The price paid was \$25,000.

Vernon parties returning from the Burk-Cameron well in Block 833, Wichita county, state that it swabbed 100 barrels with a few runs of the swab. It is the opinion it will make 500 barrels now if properly swabbed. E. H. (Bud) Pigg, president, says one-third of the richest pay was cut by a break in the sand. He believes the well is good for 1,000 barrels when properly cleaned. This well is owned by Vernon capital.

Dr. Green, dentist, Easy workman. Prices reasonable. Work guaranteed. 613 1/2 Eighth street. 318-301c

## MUCH ACTIVITY IN DEVELOPMENT WAY IN VERNON DISTRICT

VERNON, TEX., April 15.—The Wichita Homer Oil and Refining Company of Wichita Falls has taken over the hole and rig of the Wilbarger county Oil Company, in section 21, block 13, near Odell and will complete the well. The hole is down 160 feet.

At a meeting of the stockholders of the Wilbarger-Board Oil Co., arrangements were made whereby the Young-Pierce Oil Co. will immediately erect a derrick and install a rotary and complete the well, going to a depth of 3,500 feet if necessary. At present the well is shut down around 1,000 feet. It is planned that \$45,000 worth of Wilbarger-Board stock to be exchanged for stock in the Young-Pierce company on a basis of par.

The storm of Sunday wrecked the derrick of the Buckeye Oil Co. in section 47, block 2, Wagoner, near the Sigler well. It is being rebuilt.

The Wilbarger Haley Oil Co. expects to spud in today with their test in section 8, block 13, two miles north of the "Tea-Pee" well, near Harold.

The Fourteen-Fifty-Four Oil and Gas Co. has been formed in Vernon to drill in section 54, block 14, on the Kimmel farm, in the Sigler territory.

Albert T. Patrick, a noted attorney of Tulsa, Okla., is in Vernon looking after acreage obtained by him as a result of settlement out of the federal court at Fort Worth of a lawsuit. Patrick was attorney in the case of Chas. Rashall vs. Home Oil Refining Co., which was compromised and he received in fee acreage now said to be worth \$500,000. His holdings are checkerboarded over Wilbarger, Board, Baylor and a portion of Hardeman in the Wagoner ranch, a lease being held by the Home company.

## YEARY ADDRESSES THE YOUNG COUNTY FARMERS

OLNEY, April 15.—W. B. Yeary, cotton specialist state department of agriculture, addressed the Olney farmers institute and citizens of this section this afternoon on marketing cotton and what the department is doing, and what it has done for the past three crops. He asked the audience to consider the department under trial and they the jury. When he was through he asked for their verdict which was a full endorsement. A local cotton buyer told the audience it was the best and most educational advice on marketing he had ever heard.

Mr. Yeary said, "There is quite a lot of restlessness among the people because they can not sell their cotton for its quoted value. That buyers said there was no demand for cotton. To this Mr. Yeary explained that there are three things to consider: First, it strained European finances to buy a year's supply of our cotton before the war when they were flush with money and cotton worth only 12 to 15 cents per pound. Now their finances are shot to pieces and cotton is costing them 60 to 75 cents and above, which renders it impossible for them to buy in as large quantities as before the war. Second, the pound sterling is the principal money of Europe. It has been badly depreciated

and England has been shipping gold over here to increase its purchasing power, which is giving material aid in that direction. It has advanced from about \$125 to \$140. Naturally no mill that has any stock on hand will buy until it must do so, so long as the purchasing power of their money is increasing. We must remember 50 or 65 per cent of our Texas cotton goes to Europe. They are our customers. We should study our customers' condition and adjust our sales to them. Third, naturally there is a disposition for all interests to combine against the farmer controlling the price of cotton.

## GRANDFIELD MAY SECURE THE ROCK ISLAND SHOPS

GRANDFIELD, OKLA., April 15.—Location of shops in Grandfield by the Rock Island railroad is regarded as a probability when the new Chattanooga-Grandfield extension of the railway is completed. The new extension, 16 miles long, is within three miles of this city now, and the rails are expected to be here by the latter part of April.

A large tract of land has been given the Rock Island by the owners of a new addition to the city. The road will pass through this addition, in which a depot will be built immediately. It is expected that the shops will be built immediately. It is expected that the shops will be built on the tract donated to the railroad.

Chattanooga, north of Grandfield in Tillman county, is the present southern terminal of the Rock Island. Grandfield will take Chattanooga's place as terminal when the extension is finished.

Rumors have been heard here that the road is contemplating building south across the Red River into the Burkburnett oil fields. This rumor is neither denied or affirmed by the Rock Island officials, but it is thought that the construction will not be begun for some time, even if it is decided upon.

## MAKES 225 BARRELS IN FIFTEEN HOURS PUMPING

INABELL, TEX., April 15.—At the end of 15 hours of continuous pumping, the Bell well in section 20, block 2, H. & U. N. survey, had placed 225 barrels of oil in the tank. At times the oil flowed by gas pressure, and during those periods only short strokes of the pump were used. One tank is nearly filled with oil and another tank is partially filled. An attempt was made Monday to place the oil in a tank car on the

siding here, but the two-inch pipe line connecting the tank with the tank car began leaking, and no further effort will be made to run the oil until the line has been repaired.

Abner Davis, head of the First National Refineries, arrived here Monday, and announced that material for a refinery here was en route.

Light drilling rigs continue to arrive, and the explanation for their presence in the field is that timbers for standard derrick are scarce. An operator is now scouring other fields for used derrick timbers of "standard" pattern, and purposes to ship the timbers here.

# GEN. PERSHING'S ENTRY IN RACE STIRS POLITICS

### Declare Johnson is Gaining of all Parties at the Nation's Capital

By L. C. MARTIN  
(Called Press Staff Correspondent)

WASHINGTON, April 15.—General Pershing's entry into the presidential race was an absorbing topic with politicians of all parties here today. Pershing's virtual announcement, at the dinner of the Nebraska society here last night that he would accept the nomination for president if that service were demanded of him created considerable discussion.

After one of the speakers had mentioned Pershing in connection with the presidency, the general in reply said: "I feel that no patriotic American could decline to serve in that capacity if called upon to do so by the people."

The questions heard in the capital today were: Which party does Pershing belong to, or is he running as a bipartisan, non-partisan or independent candidate?

Figure on Effect. What effect will Pershing's entry have on General Wood's chances, and what effect will Wood's candidacy have on Pershing's chances of landing a nomination?

The answer to the first question was generally assumed here to be that Pershing is a republican and that he meant the republican nomination for president. There were some who thought, however, that the general and his supporters might have in mind the possibility that he could get either nomination as being a national figure above party.

The answer to the second question was that it would hit Wood's chances hardest. No matter what party or faction they belonged to, the politicians who today discussed the Pershing candidacy did so with respect.

They said that the man who successfully led the A. E. F. in the war undoubtedly would have strong popular appeal; they declared that in spite of stories that Pershing was not popular with the soldiers he could get a big share of the soldier vote and that there are elements in his candidacy which may make him the "dark horse" in the race.

## OIL LEASE

We have for lease the south-east quarter of survey No. 12, block No. 1 Archer county, between Perry Browning deep test and Checkerboard well, in tracts from forty acres up at a price that will make lots of money. Act quick. We are exclusive agents. It will not last long.

# RECENTLY APPOINTED RECEIVER FOR THE RED RIVER OIL LANDS EXPECTED WITHIN A FEW DAYS

Frederick A. Delano, recently appointed receiver for the Red River oil lands subject to the recently granted receivership by the supreme court in the three-cornered suit between Texas, Oklahoma and the federal government, is expected to reach Wichita Falls within the next few days for an inspection of the properties and for the formulation of an operating policy for these properties. Following the filing of his acceptance and the filing of a \$100,000 bond Mr. Delano's first act, according to Washington advices, was the appointment of McKenney and Flannery of Washington as his attorneys, and the announcement that his principal office will be maintained in Washington. Plans for the establishment of a Texas office have not been announced.

A conference with attorneys representing Texas claimants now in Washington for the purpose of filing motions for vacation or modification of the receivership, together with representatives of the attorney general's department of the various sovereignities involved in the suit, has been arranged in Washington by Mr. Delano, for the purpose of familiarizing himself with the conditions in the Red River valley.

Mr. Delano, who was formerly governor of the federal reserve board in Washington, has not only won distinction in the banking world, but as a railroad executive as well. He was born in Hong Kong, China, in 1863. His parents were natives of Massachusetts. He was brought up in Newburg, N. Y., where he began his educational career, which ended with his graduation from Harvard with the A. B. degree in 1885.

He began his railroad career with an engineering party on the C. B. & Q. immediately following his graduation and became a machinist in one of the shops of this road in the same year. In 1887 he was advanced to the position of engineer of tests and took charge of the rail inspection bureau. In 1889, he was made assistant to the second vice president and in 1890 was made superintendent of the freight terminal at Chicago. Nine years later, in 1899, he was superintendent of motive power for the road and was made general manager for the Burlington at Chicago two years later, a position which he held for the next four years, leaving in 1905 to become consulting

engineer for the war department in relation to the railroads in the Philippine islands. He also became connected with a number of railroads later, becoming president of the Wheeling and Lake Erie, then president of the Wabash, Pittsburg Terminal company, and president of the Wash-bash railroad, a position which he held from 1905 to 1911. Later he was one of the receivers for the Wabash. He was president of the Monon line in 1913 and 1914. He was also a member of the committee on industrial relations, 1912 to 1914, inclusive. In 1914 he was appointed by the president a member of the federal reserve board in Washington for a term of six years, and was chosen vice governor of the board.

Henley vs. the Texas State Bank of Fort Worth, garnishee in suit against H. M. Coleman et al. L. H. Henley vs. City National Bank of Wichita Falls, garnishee in suit against H. M. Coleman et al.

## TO THE PUBLIC

We have opened a Meat Market and Grocery at 504 Polk street. Although this is a suburban store, we are endeavoring to make it one of the best markets and groceries in the city. The present congestion of the streets in the business part of Wichita Falls and the ordinance regarding parking of cars makes it almost impossible for any one driving a car to do their marketing. We are now offering a special service to our customers by having a delivery truck to take your order to your place of business as it is only one and a half blocks off from Tenth Street and one-half block from our line on Ninth Street.

You are able to buy here the best of meats and anything you desire in the grocery, fruit and fresh vegetables every day. The grocery department is conducted by Mr. R. C. Prim, who is a thorough and up-to-date grocery man, and the meat department is conducted by Mr. L. E. Budlong, formerly of Budlong's Market on Indiana Avenue.

We cordially invite you to call and inspect our store and examine our stock, and we kindly ask for at least a part of your patronage.

Thanking you kindly in advance, we are, yours very respectfully,

# ROTARIANS HEAR OF IRRIGATION SUCCESS ON PACIFIC COAST

The remarkable success of the irrigation projects in the San Fernando and Imperial valleys in California, and the large part played by these projects in the upbuilding of Los Angeles were heard by the Rotarians at their Thursday luncheon, John A. Merrill of Los Angeles, who has taken a leading part in the development of these projects during the past 35 years, being the speaker. Following Mr. Merrill's talk, J. A. Kemp, chairman for the local drive for the Near Eastern relief, reported the progress of the drive, showing that more than \$10,000 of the Wichita Falls' quota had been subscribed.

Advertisement for BLACK & WHITE OINTMENT. Brightens the skin. Includes text: 'Some people dislike to use face powder, creams or rouge, but they cannot suffer the embarrassment of a dark, sallow, blotchy, pimply skin. Therefore, use Black and White Ointment to clear up your skin and to remove the unsightly skin blemishes which so distress you. It's easy—no more trouble than applying cold cream or rouge. You cleanse the skin with Black and White Soap just before retiring and then apply Black and White Ointment. In the morning you wash and the results are so satisfactory.'

Advertisement for GAVIN NOTICES A BIG CHANGE, HE SAYS. Includes text: 'It has been years since I enjoyed such good health or felt so well generally as I do since taking Oratone,' said George W. Gavin, a well known contractor and builder, residing at 903 Second Street, Fort Worth, Texas, recently.

Advertisement for GAVIN NOTICES A BIG CHANGE, HE SAYS. Includes text: 'Before taking Oratone,' he added, "my appetite was very poor and my stomach in such a condition that I couldn't eat anything but what would ferment and cause me trouble. My breath was very offensive and I was constantly belching up my food sour and undigested. I was constantly constipated and had severe pains in my stomach and was seldom free from headaches. I also suffered from nervousness and had gotten in such a condition that I could never get any real sound sleep."

Advertisement for GAVIN NOTICES A BIG CHANGE, HE SAYS. Includes text: 'I had been disappointed in so many other medicines and treatments recommended in my case, but at last I decided to try it. And I had hardly finished my first bottle until I noticed a big change in my condition. I commenced to eat better and enjoy my meals. Before I got Oratone my food seemed to do me very little good, but now everything I eat agrees with me perfectly and is giving me strength. My weight has also increased since I started on Oratone and that is pretty good evidence that my food digests properly. My nerves are fine, my sleep and I sleep so soundly that it takes a good, strong alarm clock to waken me in the morning. Oratone has also made a clean sweep of my headaches and has put me in shape to where my work is no longer a burden to me. I don't believe any one suffering from stomach trouble and nervousness could take Oratone without being benefited and only wish I had known about it long ago.'

Advertisement for GAVIN NOTICES A BIG CHANGE, HE SAYS. Includes text: 'Oratone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the Young Drug Company and the Miller Drug Store, under the personal direction of a special Oratone representative.'

Advertisement for GAVIN NOTICES A BIG CHANGE, HE SAYS. TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

NEW YORK, April 15.—Private advices indicating better weather conditions in the south and relatively easy cables were followed by an opening decline of five to 27 points in the cotton market today. After selling off to 41.15 for May and 34.85 for October or about 15 to 25 points net lower, however, the market steadied on trade buying and covering, the latter being influenced by prospects for unsettled weather in the southwest. Many said up to 1.50 and October to 25.05 but the advances were not fully maintained and later fluctuations were irregular. Very heavy arrivals of cotton were reported at New England mill plants during March and many manufacturers are said to have sufficiently bought to run their machinery until new crop supplies begin to arrive in October or November. The census report showing domestic mill consumption of 375,794 bales in March against 433,485 last year was unusually bullish and was followed by increased buying during the middle of the morning. This became more active on the eastern bid forecast for showers and prices advanced sharply around mid day with May reaching 41.55 and October 35.50 or 15 to 20 points above last night's closing figures. Trade interest was good during the afternoon during the morning and early sellers for a reaction covered on the unsettled weather outlook. The advance extended to 41.70 for May and 35.72 for October, or 30 to 40 points higher during the middle of the afternoon on a more active demand, particularly from houses with western connections. Reports that resulting from the March census indicated that the cotton crop in the convention of cotton producing interests at Montgomery demanding 10 cents more for the balance of the year stimulated the advance but realizing increased prices approached the recent high record. Cotton closed steady.

NEW YORK STOCKS.

NEW YORK, April 15.—Contrary to expectations in many quarters the advance of the Bank of England discount rate exerted no perceptible adverse influence over the stock market at the opening of today's session. Dealings were active and broad, and sugars remaining their leadership at times of 1 to 2 points. The few exceptions to the further rise included several of the investments, General Motors and preferred stock of the Standard Oil Company of New Jersey, which reacted probably on an announcement of the new capital issue. Call money rose to ten per cent at midday and an active selling movement began, especially in oils, shippings, tobaccos and the popular food shares. Recoveries ranged 2 to 7 points, leaving little or nothing of the morning's advance. Standard industrial stocks broke later when the rate advanced to 12 per cent. The closing was irregular. Liberty bond final prices today were: 3 1/2% 94.90; 4 1/2% second 94.85; first 4 1/2% 95.30; second 4 1/2% 96.75; third 4 1/2% 97.10; fourth 4 1/2% 96.75; victory 3 1/2% 96.00; victory 4 1/2% 96.00.

Stock List—Last Sale.

Table listing various stocks and their last sale prices, including American Can, American Oil, American Hide & Leather, etc.

LIVERPOOL Cotton Spot.

LIVERPOOL, April 15.—Cotton spot in improved demand. Price lower. Good middling 25.15; fully middling 25.15; middling 25.15; low middling 25.50; good ordinary 26.00. Sales 6,000 bales including 4,000 American. Receipts 5,000 bales, including 7,000 American. Futures, closed steady. April 25.74; May 25.63; July 25.04; October 25.74; December 22.82; January 22.63; March 22.22.

Spot Cotton Market.

DALLAS, April 15.—Spot cotton steady; middling 44.00. GALVESTON, April 15.—Spot cotton steady; middling 43.50.

GRAIN AND PRODUCE

CHICAGO, April 15.—Corn continued to show an upward tendency in price today. Absence of aggressiveness on the part of buyers who due mainly to the strength in wheat values and to the demoralized railway traffic situation. Opening prices, which ranged from half cent decline to one cent advance, with May \$1.07 1/2 to \$1.08 1/2, and July \$1.06 1/2 to \$1.07 1/2, were followed by material gains all around. Delays in feeding gave independent firmness to oats. After opening at 30 1/2 to 31 1/2, higher, including July at 30 1/2 to 31 1/2, the market continued to harden. Provisions were dull but firm. Subsequently, brisk export demand for hogs counted as an additional stimulus for the advance in the corn market. Except May delivery prices touched the highest point yet this season. The closing was 1 1/2 to 2 1/2 cents net higher, with May \$1.07 1/2 to \$1.08 1/2, and July \$1.06 1/2 to \$1.07 1/2.

LIVE STOCK.

JUNIOR HIGH PARENT TEACHERS MEET TUESDAY

An interesting session of the Parent-Teachers' Association of the Junior High School was held Tuesday afternoon at the school. An entertainment and instructive program was given, papers being read by Mrs. J. W. Kinzie and Mrs. H. H. Bray. Readings by two junior high students, Donna Mitcham and Mary Frances Collier, added much to the program. During the business session a nominating committee was appointed to report officers for the new year at the next meeting. Members of this committee are Mrs. W. Lee, Mrs. H. H. Bray and Mrs. E. J. Haney.

LOCAL EX-STUDENTS SOUTHWESTERN PLAN FOR A HOME-COMING

Wichita Falls ex-students of Southwestern University Association is making elaborate plans for the homecoming April 30 and May 1, which will be held at Georgetown, Texas, and have already arranged for a special pullman for the trip, according to H. M. McDowell, president of the association.

Already a number of ex-students of Southwestern have announced their intention of attending and Mr. McDowell states that it may be found necessary to charter the second special pullman for others who decide to go, and the "mavericks" from nearby towns, where there is no organization, for which petitions have been already signed, is another matter due to receive attention.

Those who have already signed up to make the trip, Mr. McDowell states, include the following: T. P. Adams, Mrs. W. J. Daugherty, Miss Dorthea Bishop, Mrs. J. J. Perkins, Miss Helen Gillett, Walter Nelson, H. A. Allen, C. E. Miller, J. P. McLaughlin, Miss Grace McLaughlin, F. A. Grogan, Tom Pace, Mr. and Mrs. F. A. Crutchfield, Merle T. Waggoner, Mrs. P. S. Richardson, Mr. and Mrs. E. J. Pope, T. B. Noble, Jr., Mr. and Mrs. W. B. Chauncey, Judge and Mrs. J. W. Akia, Mr. and Mrs. J. W. Akia, Jr., Rev. F. M. Black, George Edkins, Rev. E. C. Hucksbee, Mrs. J. L. Lea, Mr. and Mrs. M. O. McDowell, George Truett, Tommy Nichols, Mr. and Mrs. M. M. Sears, Mrs. D. H. Kalkreuth and Bruce Kalkreuth.

Street lighting, paving and possibly other matters are scheduled to come up at Friday night's meeting of the Business Council. It is hoped to have a detailed report showing the progress made to date in signing up property owners for street lighting. The ques-

DISTRICT ATTORNEYS MUST PAY EXCESS FEE TO COUNTY TREASURER

AUSTIN, April 14.—The constitutionality of the act of the legislature requiring district attorneys to pay excess fees into the county treasury was upheld today by the supreme court in the case of Bezar county against W. C. Linden, from Bezar county, which was reversed and remanded. Linden, a former district attorney of Bezar county, sued to recover such fees and won out in the lower courts. The supreme court held that counties receiving such excess fees can appropriate them to none other than governmental purposes, for which, presumably, the state as a sovereignty derives the benefit.

In New York. They ate six rations of "ham and" at one sitting.

CHICAGO—Tom Johnson, veteran railroad conductor, alighted from a fast moving express train here, rolled completely under it, arose, nodded to

horrified spectators and walked away unhurt.

SAN FRANCISCO—"Frank loved his dog more than he loved me," was the plea which secured a divorce for Mrs. Helen Murphy from Frank Murphy.

EYES

Most people, you included, perhaps, are extremely negligent in the care of their eyes, and very culpably so in regard to their children's eyes. The public generally has no idea of the number and variety of present day eye defects and often resort to glasses selected at random which are entirely unsuited to the conditions of the eye. Many glasses selected in this way which "seem to suit exactly" at first, prove most injurious and often result in permanent injury. Come and talk over your eye trouble with us.

LOCAL EX-STUDENTS SOUTHWESTERN PLAN FOR A HOME-COMING

Wichita Falls ex-students of Southwestern University Association is making elaborate plans for the homecoming, April 30 and May 1, which will be held at Georgetown, Texas, and have already arranged for a special pullman for the trip, according to M. O. McDowell, president of the association.

Already a number of ex-students of Southwestern have announced their intention of attending and Mr. McDowell states that it may be found necessary to charter the second special pullman for others who decide to go, and the "mavericks" from nearby towns, where there is no organization, or where the attendance may not justify a special car.

Those who have already signed up to make the trip, Mr. McDowell states, include the following: T. P. Adams, Mrs. W. J. Daugherty, Miss Dorothea Bishop, Mrs. J. J. Perkins, Miss Helen Gillett, Walter Nelson, H. A. Allen, C. E. Miller, J. F. McLaughlin, Miss Grace McLaughlin, F. A. Grogan, Tom Price, Mr. and Mrs. F. A. Crutchfield, Merle T. Waggoner, Mrs. P. S. Richardson, Mr. and Mrs. E. J. Pope, T. B. Noble, Jr., Mr. and Mrs. W. B. Chauncey, Judge and Mrs. J. W. Akin, Mr. and Mrs. J. W. Akin, Jr., Rev. F. M. Black, George Elkins, Rev. E. C. Huckabee, Mrs. J. L. Lea, Mr. and Mrs. M. O. McDowell, George Truitt, Tommy Nichols, Mr. and Mrs. M. M. Sears, Mrs. D. H. Knickerbocker and Bruce Knickerbocker.

STREET LIGHTING AND PAVING TO COME UP AT FRIDAY NIGHT MEETING

Street lighting, paving and possibly other matters are scheduled to come up at Friday night's meeting of the Business Council. It is hoped to have a detailed report showing the progress made to date in signing up property owners for street lighting. The ques-

Special Syringes

There is no question regarding the quality of syringes if you buy from a reliable dealer that buys direct from responsible manufacturers—but you will not always find a complete assortment such as we carry. There's one here for any special purpose. Fountain Syringes, Hard Rubber Syringes, Combination Syringes, Infant Syringes, Bulb Syringes, Whirling Spray Syringes, etc. All goods in this department are guaranteed by us.

DISTRICT ATTORNEYS MUST PAY EXCESS FEE TO COUNTY TREASURER

AUSTIN, April 14.—The constitutionality of the act of the legislature requiring district attorneys to pay excess fees into the county treasury was upheld today by the supreme court in the case of Bezar county against W. C. Linden, from Bezar county, which was reversed and remanded. Linden, a former district attorney of Bezar county, sued to recover such fees and won out in the lower courts. The supreme court held that counties receiving such excess fees can appropriate them for none other than governmental purposes, for which, presumably, the state as a sovereignty derives the benefit.

CHICAGO—Tom Johnson, veteran railroad conductor alighted from a fast moving express train here, rolled completely under it, arose, nodded to horrified spectators and walked away unhurt.

EYES Most people, you included, perhaps, are extremely negligent in the care of their eyes, and very culpably so in regard to their children's eyes. The public generally has no idea of the number and variety of present day eye defects and often resort to glasses selected at random which are entirely unsuited to the conditions of the eye. Many glasses selected in this way which "seem to suit exactly" at first, prove most injurious and often result in permanent injury. Come and talk over your eye trouble with us. Art Jewelry Co. One Kind of Inefficiency

Inadequate banking service is a charge upon your business; it is a tax that you are constantly paying, as long as you put up with it. To submit to it is to incur a useless expense; it is inefficiency with a capital I. The right-kind of banking connection is always an asset.
