WASHINGTON, April 16.—R. C. Lettingwell, assistant secretary of the treasury, has resigned and his resignation has been accepted by President Wilson, it was announced at the White House today.

POSSIBILITY OF NOMINATING A TEXAN FOR VICE PRESIDENT IS BEING DISCUSSED AT CAPITAL

WASHINGTON, D. C., April 16.—A man for vice president. In such a combination Texas, with the largest number of southern delegates, would be in a commanding position to secure the nomination of one of her favorite sons as vice president.

If the men who will represent Texas at San Francisco consider this matter it will immediately appear to them that such a plan is not only reasonable and feasible, but that it is certain to be accomplished if the Texas delegates go after the big prize.

Who could the Texas delegates put up for vice president, and who would they put up undoubtedly would be nominated?

There are two favorite sons that might fill the bill. First is Governor Hobby, who will head the Texas delegation to the convention. Governor Hobby is certainly fitted from successful experience and ability to serve the country satisfactorily as a vice president. He is popular personally, has a pleasing and magnetic presence, is a great vote getter and as a nationwide campaigner would be of great value in the strenuous fight that must be waged against the republicans, if the democrats are to win in November.

Then there is Postmaster General Burleson, another favorite son of the Lone Star. Burleson is one of the ablest men in public life today despite the many vicious attacks that have been made on him as postmaster general, and has been one of the heads of the post office department the country ever had. He is a politician par excellence and as a running mate to the presidential candidate would add great strength to the ticket.

Joe Bailey has been mentioned in this regard. He is another favorite son, but, unfortunately for his chances Bailey is at odds with the Wilson administration, which all observers in Washington agree will dominate the convention. Of course, the powers that rule at San Francisco would have some of Bailey as a vice presidential candidate. He would not even be considered. But Hobby or Burleson, friendly to the administration, would be acceptable. If Bailey should unhorse the administration in Texas and carry his own delegates to San Francisco, which is regarded as unlikely, not to say impossible in Washington by men who are well informed of the political situation in Texas, Texas would lose any chance she might have to get a Texan on the presidential ticket.

There is another angle to having a Texan run as vice presidential candidate. The oil discoveries have created many multi-millionaires. These men,

if a Texan were the democratic vice presidential nominee, would contribute immense sums, as a matter of state pride, for the democratic national campaign chest, which will have to have millions this year if the election is to be won in November. The democratic leaders in the east and middle west would do well to consider this possibility.

There is still another alluring possibility for the pride of Texans to consider, if a Texan should be nominated vice president at San Francisco. That is in such an event a Texan might become president of the United States. Five vice presidents have become president upon the deaths of the president. They were John Tyler, Millard Fillmore, Andrew Johnson, Chester A. Arthur and Theodore Roosevelt.

The democratic leaders have not yet considered any men for vice president. Usually this is left until the time of the convention. This situation also is favorable, because it will give leaders time to start a vice presidential boom for a favorite son and perfect an organization now that will be able to nominate a Texan for vice president without any trouble and hardly any opposition at San Francisco. But the movement should be started immediately.

You are a Stockholder in the greatest business in the world

YOU are going to do an act this month whose influence will carry around the world.

It will seem a simple thing to you—merely making a gift in the Interchurch World Campaign.

But in Church hospitals all over the country sick people will be made happier, for part of your gift will go to them.

In scores of children's homes supported by the Church more children will have a chance.

In China where there is one doctor to every 400,000 people (America has one to every 712) the Church's medical forces will be strengthened and encouraged.

Babies who might have died

In India where a third of the babies die before their second year, the lives of babies will be saved.

Church schools and colleges will share your gift (half of America's 450,000 students in institutions of higher grade are in Church Institutions).

In preachers' homes where preachers' wives have patched and darned and wetted their work with their tears, life will be happier and better. (80% of the preachers now are paid less than \$20 a week.)

These are some of the things your money will do. And this is

It will not be spent in useless overhead. At least a million dollars will be saved by the merging of thirty campaigns into one united effort.

Your life will be at work in every land

Whether you are a Church member, or whether you merely contribute, you will put your life to work—through the Church—in every corner of the World. And long after your life is over its influence will survive and serve.

These are the terms in which to think of the Church.

We have thought too long about it in terms of little things. Let us get a picture this month of its world-wide sweep. Let us stop thinking of ourselves as givers of pennies.

We are fellow-workers with Almighty God—stockholders in the greatest business in the world.

What your money will not do

It will not put two Churches where only one should be. The Movement means thirty denominations pledged to prevent duplication and waste.

FORMER HEAD BELL TELEPHONE COMPANY DIES

Succumbs to Attack of Heart Trouble at John's Hop- kins Hospital

BALTIMORE, MD., April 16.—Theodore N. Vail, former president of the American Telephone and Telegraph company died at Johns Hopkins hospital here today.

Vail became chairman of the board of directors of the American Telephone and Telegraph company upon his retirement as president and held that position at the time of his death. He suffered from heart trouble, according to his physicians. He spent the winter at Key West, Fla., off the coast of Georgia, and a week ago when his condition became worse was taken to Johns Hopkins hospital.

The funeral probably will be held Sunday.

Vail was a pioneer in telephone and telegraph organizations and was known throughout the world.

He was born in Carroll county, Ohio, July 16, 1845, and educated in Morris town (N. J.) academy, and studied at Dartmouth, Middleburg college, Princeton and Harvard universities.

Vail married Mabel Rutledge Sanderson of Boston in 1907. His home was listed officially in Lyndonville, Vt. He maintained offices in Boston and New York.

Beginning life as a medical student, Vail soon branched into general science with a particular bent for electricity. He was a friend of Thomas A. Edison. Vail first entered the telephone business in 1878; he introduced the American system of electrical street railways in Buenos Aires in 1894 and installed telephone systems in the principal South American cities. He became president of the American Telephone and Telegraph company in 1907. He was also a director in several European electrical enterprises and was widely known in London, where he was a member of the Royal Automobile club. He was a member of the American Academy of Politics and Social Science (Philadelphia); the American Institute of Electric Engineers, the American Geographic society and many social clubs.

Burial probably will be at Parsippany, N. J.

RACE RIOT AT IOWA PARK AND NEGROES MOVE

Porter in Barber Shop Badly Injured and Other Negroes are Struck by Bricks

One negro, a porter in a barber shop, was badly injured and several other negroes struck by bricks at Iowa Park last night, in the progress of an outbreak against the negroes there which threatened at one time to become very serious. Long distance telephone dispatches were received at the sheriff's office late last night and Sheriff Bob McFall, and Deputy Sheriff Dick Morris immediately left for Iowa Park. Deputy Sheriff Charlie Dodgen and County Jailor Charlie Bebout left shortly afterward.

While en route to Iowa Park Deputy Sheriffs Dodgen and Bebout passed two negroes walking toward Wichita Falls carrying heavy suitcases. The negroes explained that they had been driven out of Iowa Park.

Investigation by county officials disclosed that the trouble between the whites and blacks begun in the early afternoon and reached a climax about 6:00 o'clock when a dispute in a barber shop between a negro and a white oil field worker resulted in blows being passed. A band of whites immediately gathered and it is reported that bricks were hurled at negroes and that the negroes were ordered to leave the town.

A general exodus of the negro population, numbering not more than 30 men, women and children was underway, when county officials reached the scene and put an end to the threatened race riot, it was learned Friday. Two whites were arrested in connection with the case and are being held for investigation.

LITTLE MOTOR KAR OFFICERS TO APPEAR IN FEDERAL COURT

Young Millionaire Wants to Marry a Wichita Falls Girl

A young millionaire wants to get married to a Wichita Falls girl, and has adopted a rather unusual campaign plan, according to Dr. P. E. Bingman, who has been enlisted by the young man and will assist him. To all who would be interested in a handsome young man with a million dollars the following announcement will make interesting reading:

"While it may seem a rather novel way of seeking a wife, nevertheless people are doing some strange things these days. Here is the story in part. A young man who is worth more than a million dollars, wants to get married and he wants to make his selection through the church, so he requested Dr. P. E. Bingman, of the First Methodist church, Seventh and Lamar, to help him get acquainted with the pastor is going to help some Wichita Falls girl land this young money king after having gotten him to agree to the following, provided he finds his affinity through the efforts of this church, that he will give the Y. W. C. A. of Wichita Falls \$25,000, and the Floral Heights Methodist church \$10,000 and the First Methodist church, Seventh and Lamar, \$10,000, and the city welfare organization \$5,000, to all of this he agrees.

This is our plan. It will possibly take about four weeks to do this, but we hope not, so the campaign will begin Sunday evening at 8:00 o'clock at the First Methodist church, Seventh and Lamar, with a sermon-lecture by Dr. Bingman, "The Value of Money in Marriage." All women who are interested are requested to write a letter of not more than 50 words to Miss Clark, of the Y. W. C. A., on any theme, to be read before the congregation. It does not matter just how you write it in your own hand and write your name on a card and attach it to your letter giving your address and phone number, for you know things are done in a hurry these days, but your name will be held confidentially.

The wedding will be a public affair at this church, during a Sunday evening which Sunday we cannot tell of course. This will be the climax of our campaign. The young man will attend these services.

folks, let's land this dough for our town, and the lucky girl gets a handsome young man and a million dollars, what more could she wish for.

This picture is a big William Fox special directed by Charles J. Brabin, who also wrote it under the inspiration of the famous poem by Mrs. Julia Crawford Tilden. Bars in the title role.

"Kathleen Mavourneen" is a real Irish picture, with a wealth of detail and atmosphere, and is thoroughly enjoyable from the beauty of the opening scenes down to the big surprise at the close. Among the more colorful of the many interesting episodes are the Donnybrook Fair, the wedding

of Kathleen and the squire, the bold attempt on Kathleen's life and her rescue by Terence, the trial scene, the near-execution and the happy termination.

Theda Bara scored an emphatic success as Kathleen, a type of role new to her, but one which she invests with beauty and charm. Raymond McKee, an Irish lad and an excellent actor, is well chosen for the part of Terence, Kathleen's sweetheart. Marc McDermott is seen as the squire, and Edward O'Connor gives a capital interpretation of an Irish father.

RESIDENTS OF DISTRICT I TO FORM ORGANIZATION

Residents of District "I" in the southeastern part of the city, between the Denver and Union streets, are forming a neighborhood community organization at a meeting tonight at 8 o'clock at the Walnut Street Baptist Mission. Judge Barber will preside. In this district, where such improvements as street lights, paving and public facilities are more or less lacking, it is felt that the need for an organization is greater than in other parts of Wichita Falls, and those active in the district hope to accomplish something for it.

The negro residents of this district have already formed a strong organization. Tonight's meeting is for white residents.

Another district meeting scheduled for tonight is that for District "D" at the Travis school.

At the home of Mr. and Mrs. C. C. McDonald, 1001 Filmore, a block party for two blocks will be held, and the best and bestest want every resident to be present.

Amusements

NOT A DULL MOMENT DURING PERFORMANCE

The Majestic bill playing at the Wichita opera house the week-end is a variety of musical comedy, dancing and juggling. There is not a dull moment during the entire performance, each of the five acts being snappy and full of pep.

Samaroff and Sonia, Russians, open the bill with a singing and dancing act. Samaroff's dogs are well trained and add variety to the dancing number. The Russian evidently has taken great pains with his little Eskimo dogs who do some extremely clever stunts.

Sonia is a pretty dancer while her sons of Russia breathe of the refreshing lands of snow. The stage scene for the Russian dance is very elaborate giving a glimpse of a quaint Siberian village nestled among the snow-capped mountains.

"The Post House" is the headliner this week and is comedy pure and simple. The plot is interwoven around

OPEN SHOP ASSOCIATION IS FORMED FRIDAY MORNING; A FUND OF \$150,000 PLEDGED

Organization of an open shop association was effected at a conference held in the Chamber of Commerce rooms Friday morning, following the report from the special committee giving adverse answers from the electricians and plumbers union to the effect that they would not continue to work with non-union plumbers, should the plumbers continue on their present strike, and the consequent decision of the body present that a sufficient number of crafts had returned adverse answers to this question to prevent a continuation of building in the city without meeting what are considered unreasonable demands.

Following the organization of the body the members present pledged themselves to guarantee the subscription of a fund of \$150,000 for the financing of the movement, \$25,000 immediately, \$25,000 in two weeks, should it then be necessary, and \$100,000 more, should subsequent events make this amount necessary. Without exception the declaration, including business men, manufacturers, property owners, contractors, bankers and merchants subscribed their name to the declaration of principles which was adopted by the association. Among those present were representatives of every banking institution in the city, who pledged for their organizations whole-hearted support to the movement. In the formation of the association, it was particularly emphasized that the movement was not in any sense, and would not become a fight on organized labor, and that those belonging to labor organizations would not, and could not, under the laws of the association, discriminate against union labor in employing their helpers.

On the other hand, the declaration of principles as explained by the speakers, does insist on the employers right to employ a workman regardless of affiliation with an organized union as a prerogative of American citizenship and American rights, and declares that anything less is an abridgment of American freedom and constituted less than 100 percent Americanism.

In connection with the free and open employment right advocated by the association, the meeting heard an address by Dr. F. E. Bingham, chaplain and employment director of the Pat Carrigan post, American Legion, who related several of his experiences in placing ex-soldiers, sailors and marines in employment in Wichita Falls.

"One man came to me, an overseas man and a veteran of Chateau Thierry and subsequent engagements participated in by his organization, the second division. The man had credentials showing that he was an expert cook, and that prior to the war he had been a member of the union. He had only 50 cents in his pocket, and he wanted work. First, I found a job for him. Then I called up the business agent of the cooks and waiters union, and explained the man's circumstances and asked if it would be all right for him to go to work and pay the \$50 initiation fee to become a member of the union as he earned it. I taking on myself the responsibility for him paying the amount."

"The reply was that it would not, and that the man would come across with \$50 before he did a lick of work

labor, another for employees and a third for the general public not included in the other two classes. The dues for the last two classes are to be nominal. A registration booth where additional members may sign the membership roll is to be installed in the Chamber of Commerce rooms, and others at convenient points down town.

A mass meeting is to be held in the interest of the movement within the next few days, at a time and place to be designated later.

The executive committee was instructed by the membership to devise a means by which any member of the association violating its principles would be heavily penalized for such a violation.

As an indication of the fair attitude which the association proposes to exhibit toward organized labor, the executive committee was instructed to meet with representatives of one of the largest building crafts Friday afternoon, discuss the situation and endeavor to come to an understanding with these people.

"We want to continue and build Wichita Falls with the men who are here. If they will let us," it was explained by one of the members in this connection. "We have come to a blank wall in our effort to effect a just and reasonable adjustment of labor conditions in Wichita Falls, and it is apparent that we must proceed along the lines indicated in this open shop declaration of principles, or simply cease in our efforts to build Wichita Falls," said one of the committee in making their report.

Following is the report of the committee and the declaration of principles:

"When this incident became generally reported, Rev. Bingham continued, 'the agent of this union declared that the man had subsequently worked several weeks in another place. I was investigating this point when the affair unfortunately became public. I have since found out that the statement as to the man's working in another place was not the case, and we expect to have this man back here to bear witness on this point within a short time.'

"Another incident came with the case of a meat cutter who was also recently discharged from the service. He did not have a card, and like most of the others recently out of the service had no money. I am told that the initiation fee into the meat cutters organization is \$150. I don't know this from personal investigation but I have it from persons who are in a position to know, and I consider the authority reliable. Now the American Legion has large funds, and can not put up \$50 to \$150 for every former service man who comes along needing work. But I tried to see what I could do for him, and was told by one concern here that their contract allowed them to employ one extra man not a member of the union, and he agreed to take this man on. Subsequently the man was told that he could not work after he had worked two or three days. I asked the business agent of the union if I could not make it all right by getting the \$150 for a card for him from among the friends of the ex-service men in Wichita Falls. The reply was that he could not work in Wichita Falls as he had worked here as a 'scab' for two or three days."

"The principal plank in the platform of the American Legion is 100 percent Americanism, and it is with and for any one who can sign on that line. It is absolutely against any one who can not sign on the line."

Following the vote for the organization of the association, T. B. Noble was made president of the organization, with authority to appoint the members of the executive committee. Mr. Noble appointed R. O. Harvey, J. C. Mytinger, John A. Taylor and John W. Thomas, and announced that the additional members would be appointed later.

Additional committees were appointed to proceed with the organization through a solicitation of membership, and another committee to assess the members for their proportionate contributions to the necessary funds.

Three classes of membership will be included, that of employers of

THE RAILROAD PROBLEM.

Irrespective of the merits of the new legislation," writes Samuel O. Dunn, editor of the Railway Age-Gazette and expert on railroad matters, in a recent Collier's, "there are two good reasons for believing that the chances of a real solution of the problem (the railroads) under private management are better than in the past. First, the public, having now had actual experience of government management, will not for some time listen gladly to anybody who tells it of the miracles that would be worked under that or under some untried policy. Secondly, most railway managers know that, to get results under private management that will satisfy the public, they must fight a really desperate battle, and they are determinedly girding themselves for the fray."

VERNON BUDGET

WIDE-AWAKE NEW OIL DISTRICT PRESENTS BUSY SCENE THESE DAYS WITH VERNON STREETS CROWDED

By A. C. McCONNELL.

VERNON, TEX., April 16.—Vernon is rapidly taking on the activities of a wide-awake new oil city. The recent Sigler gusher has put Vernon in the lime-light and as a result the flow of people looking for business opportunities incident to the new oil town, are directing their attention to Vernon. The streets of Vernon for the past two weeks have become crowded with automobiles and heavily laden trucks.

Litigation incident to the striking of oil on the Sigler lease has served to dampen the enthusiasm of many prospectors who have been in Vernon and directing their movements in a manner to signify their intention to purchase property. News that development of the Sigler acreage would be pushed notwithstanding litigation, has caused a general wave of optimism to pervade the oil fraternity, and now business, lease selling, and townsite sales are picking up. Vernon people regret litigation ensued incident to Sigler gusher, as they expected to profit financially through the bringing in of this great oil field, but the temporary lull has passed over and operators still have faith in the Vernon field.

Wilbarger county developments are going forward steadily and the town of Vernon is taking on an air of a sure enough oil town. Anyone getting off the train at Vernon can readily see signs of a coming oil town. All along the right of way of both railroads are piled high with casing and oil drilling machinery, in great heaps. Drilling machinery of all kinds is coming in every day. One glance at the busy streets will convince the newcomer that something out of the ordinary is going on. It is a common sight to look down the streets and see long strings of wagons and trucks headed for the oil fields with casing or some kind of drilling machinery.

There is at present a transient population in Vernon of from 10,000 to 15,000, and it is predicted that when development is under full way, a still larger floating element will be here and arrangements are being made to meet the conditions. Much building activity is noted in the business and residence section, and good substantial buildings are being erected. Over 500 new residences are going up over

the city. A mighty rush for buildings is being made and building sites are in great demand.

Business sites, as well as residences are commanding fabulous prices. A number of business houses have sold during the oil boom at prices that would, before the Sigler well came in, be considered out of reason. The Waggoner Ranch Oil company has purchased the Piper home on South Main street for \$25,000 for office buildings.

W. T. Waggoner has purchased the brick and will add another story and use same as office building. Paul Waggoner has purchased the Leutwyler home on South Main street for a home, and the Kerr residence has also been bought at a high figure. The Sigler Oil company has purchased the three-story Lutz building and the entire building turned over to the Sigler lease.

Along the right of way of the two railroads high prices are being paid for sites to build distributing houses and storage facilities are going at a premium.

Space is in demand during the past month and strangers are pouring into the city hunting proper locations for a business. Lumber yards and wholesale houses are crying for space and less pretentious businesses find it difficult to secure suitable locations.

Numerous incidents are cited where leases of buildings have volunteered raising their prices and securing new leases before expiration of ones they hold, cinching quarters for a definite period.

Extensive preparations of housing the visitors as they come have been made and accommodations can be made as fast as they arrive. Prior to this arrangement, visitors slept in their cars as hotels and rooming houses were crowded. There are no extortionate prices being charged for rooms.

Vernon citizens will not have strangers sleeping in their streets and private homes are open to visitors. A number of wealthy citizens have opened their homes to visitors not for profit, but as an act of hospitality. There are no extortionate charges for rooming house accommodations and any person can obtain lodging at moderate prices.

The chamber of commerce is very active and lending aid and assistance

to incoming visitors in supplying them information desired. Restaurants are asking moderate prices for food with good service.

The stock exchange presents an animated scene. All day long the exchanges are crowded with overflowing with operators clamoring for acreage. They realize acreage will never be cheaper than at present and are fortifying themselves and securing protection. There will be over 100 drilling wells by the last of spring and the general outlook was never brighter. Several wells are now nearing oil bearing sands and great interest is being manifested.

The huckster, the auctioneer, the street vendor, the man with the blue prints and the newsboys are constantly crying their wares, although Vernon had already attained her growth as a modern, live and up-to-date city. It is the general comment among the oil men and citizens that when summer rolls around, Vernon will be one of the liveliest and busiest of any of the oil towns.

Wilbarger county already has a daily production of 8,000 barrels, which is added to the daily production of the Wichita production, and with the field south of Vernon assured, the production will steadily climb.

Vernon is not without her tented city. East of the postoffice a site has been leased and a tent hotel erected.

Two townsites are being promoted as an addition to the Sigler oil fields. One company has sold out and another is about sold out. Numerous additions are being added to the city and plans are materialized to take care of the incoming population.

COMPLETION OF THE SIGLER WELL AWAITS STORAGE FACILITIES

By A. C. McCONNELL.

VERNON, TEX., April 16.—Several nice flows are reported from the Sigler well, 10 1/2 miles south of Vernon during the week, the heads amounting to 120 to 140 barrels daily each and coming at intervals from 24 to 36 hours each. The oil is light green in color and perceptibly lighter than formerly. The well has not been swabbed or drilled deeper and nothing will be done until storage facilities are installed or the well is connected with the pipe lines. Completion of the well may be held up through litigation now in progress, though it is said development of acreage surrounding the discovery well will be pushed notwithstanding the suits.

The Texas Co. has pipelines on the Waggoner ranch, some distance from the Sigler well and the well may be connected to same. The Sigler company will lay pipelines from their lease to Vernon and connect with

their proposed loading racks and refinery.

Deeds have been filed in Vernon transferring 25 acres of land between the Denver and Frisco tracks at Vernon for a refinery plant to be built by the Sigler Oil Co., which recently completed a wild cat well on the Wharton ranch, estimated to be around 1,000 barrels when storage is provided. Lloyd Sigler, T. E. Langford, H. A. Frankel, J. J. Robinson and associates of the Sigler Oil Co. arranged for the refinery site, and it is said the plant will be built as soon as possible.

The Victor Refining Co. will also build a refinery at Vernon, but have selected no site as yet.

T. L. Coplin, deputy supervisor of the oil and gas division of the Texas railroad commission, spent several days this week in Vernon. The increased activity in the Vernon field was the cause of Mr. Coplin's visit to the prospective new field south of Vernon, inspecting drilling operations now under way and advising with parties who plan and are developing acreage in the vicinity of the Sigler well. It is estimated about 25 companies are operating and planning to operate in this new field, despite impending litigation. Litigation has dampened enthusiasm to a great extent in the Sigler field.

W. H. Huggins, a Vernon banker, has contracted with the Burk-Waggoner Oil Co. to drill on the southwest 40 acres of section 56, block 14, one and one-quarter miles of the Sigler well. The test was spudded in Tuesday.

Announcements of new locations in the Sigler addition are coming fast

and it is difficult to secure a complete list of the many companies that are preparing to get in the game in the new territory.

It is reported that the Federal Oil Co. who struck a very promising oil sand around 1700 feet, in the Baker lease, southeast of Vernon, is preparing to drill in. A star rig is now over the hole. The well has been shut down for some time awaiting orders.

The Tee-Pee Oil Co. is moving a star rig to their lease, about five miles west of the Piper lease, and are preparing to drill in. The well will be standardized this week. A test of this well has been delayed for several weeks pending a title, and it is understood that the title was cleared by a special order of the district court of Vernon. The sand was struck at this well at a depth of 1728 feet, and gas, mud and oil went over the crown block. This well will open an extension of the Piper field about

five miles westward which has been predicted. It is located in section 29, block 13, in the townsite of Harrold.

On Red River, the tests of the Webb-Magnuson, Metcalf, and Neal-Hamilton, are being watched with interest, and added to the mystery of the V. O. D. test, oil men have a very optimistic view of the oil situation in general. It is believed by many that either one of these tests will be the next sensation.

Leasing activity continues with unabated interest. Leases around wells that are giving promise are skyrocketing, with many takers.

SALINA, KAN., April 16.—An overall club was started yesterday and more than 200 signatures of the men and students who are willing to don overalls in the fight against the high cost of clothing were obtained. We are going to have a grand "coming out parade," said one of the promoters today. All the students at Kansas Wesleyan university are members.

SONORA TROOPS ON MARCH TO CULIACAN

(Continued from Page 1)

The state are available against Carranza. Influential Mexican refugees who have been living in the United States are declared to have pledged credit for the campaign against Carranza.

Requisition Arms.

Arms to fit out the recruits joining the Sonora army were being requisitioned throughout the state today by military officials. Private citizens possessing firearms and ammunition were appealed to by General P. Ellis Galles, commander-in-chief of the military forces and acting executive of the republic of Sonora, to turn them over to the army.

The greatest danger the revolt has to face, officials here said, was the drift toward further fighting by Mexican citizens who have continually been called upon to either fight or aid armies of one faction or another in Mexico for years. Americans coming out of Mexico said this factor was the greatest deterrent to the movement they had found in western states of the republic. In two or three sections of Sonora recruiting has not been up to expectations of Sonora officials because of that fact, it was said.

NO ACTION ON THE REQUEST YET TAKEN

WASHINGTON, April 16.—Mexico has asked permission from the United States to move troops through American territory so as to attack Sonora from the north. No action on the request has yet been taken.

The Carranza government wishes to move its forces on the Mexican Central line to El Paso, thence through American territory to Douglas, Ariz., and across the boundary to Agua Prieta, from which point a movement against Hermosillo, the capital of Sonora, would be undertaken.

The only other point of attack against Sonora is through the Pulpito Pass between Sonora and Chihuahua, and it was said that this pass could be defended by a very small force of Sonora troops.

In making known today that Mexico had requested permission to move troops through Texas, New Mexico and Arizona, officials said the United States was "under pres-

sure from the Mexican government. Mexico frequently has asked permission to move its troops through American territory to attack rebels in Sonora and on some occasions it has been granted. The American government has been notified officially by Mexico of the closing of the customs houses on the Sonora-American boundary.

GOVERNOR HAS NOT RECEIVED REQUEST

AUSTIN, April 16.—Request of the Carranza government for permission of Mexican federal troops to cross Texas soil to reach the state of Sonora, has not as yet reached the governor. It was stated by Governor W. P. Hobby today.

About a year ago a similar request was made to the Texas governor to permit the passage of Mexican troops on Texas soil was refused by Governor Hobby and the same action is expected when the new request reaches the governor.

Less Than a Nickel a Week

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government).

The average American family is 4 1/2 persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than 1/4 cent per pound on all products including meat.

This averages for the family less than the price of—

- 1 cigar per week for father, or
- 1 street car fare per week for mother, or
- 1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.

PLAN A RAILROAD OKLAHOMA CITY TO PUEBLO, COLORADO

OKLAHOMA CITY, OKLA., April 15.—Financiers headed by Governor W. L. Harding of Iowa are investigating a plan to build a railroad to extend from Oklahoma City to Pueblo, Colo., as a means of opening up a rich grain country which is now practically isolated.

The line would extend from here to Woodward, Okla., cross a part of the Panhandle, a corner of Texas and then to Pueblo. This is nearly 600 miles.

The cost of such a road would be approximately \$50,000,000 and it would take two years to build.

Governor Harding arrived here late last night after a three-day trip of inspection through the territory.

"We have been impressed by three things," the governor said. "The imperative need of such a road, the ready interest with which the people affected viewed the project and the wonderful agricultural future of the territory to be traversed."

Accompanying the governor are Gordon L. Stephens, president of the Great-South Service Corporation of New York city; Geo. A. Platts, Omaha; E. E. Robertson of Kansas City; and A. Z. Blankinship of Colorado, Kansas.

The party will leave for Wichita, Kansas tonight.

PLAN TO ORGANIZE A SUNDAY SCHOOL ORCHESTRA

Organization of a Sunday school orchestra has been undertaken at the First Christian church, and it is expected to develop into one of the city's most proficient musical organizations.

Ten or twelve of the young people have already agreed to take part, and will be under the leadership of Gerald P. Ford, who has had considerable experience in this work. The orchestra will make its first appearance at an early date.

The ladies of the Brotherhood of American Yeomen will hold a market consisting of home baked cakes, pies, salads and chicken at water and light office, 811 Indiana-ave., commencing at 10 o'clock April 17.

VOICE OF THE PEOPLE.

COMMENDS ASSEMBLY OF NEW YORK STATE

Editor Wichita Daily Times, Wichita Falls, Texas.

Dear Sir: Allow me to criticize the Fort Worth Star-Telegram editorial entitled "Helping the Agitators," which you published in the Sunday morning edition, April 11.

Evidently the editor of the Fort Worth Star-Telegram has missed the point of the entire struggle between the socialists and the loyal members of the New York state legislature. From the contents of his editorial, mentioned above, it is clear that he does not know the reason for the unseating of the five socialist members of New York.

He should be informed that it is not a question of whether or not the socialists are in a "hopeless minority," or whether or not their "influence" would be materially increased in the future. Anyone who has kept in close touch with the situation in New York state, and has all the reports of the trial in mind, so that he knows all the evidence, pro and con, must surely realize that the issue is one of "constitutional rights and loyalty to the federal and state governments."

That the five socialists who have been unseated have no right to sit in the state legislature in Albany has been tried and proven. The trial was lengthy and according to the law. The socialists had to show the rest of the members of the house why they were entitled to sit in the legislature. This they utterly failed to do. Furthermore, as the trial progressed, the state proved conclusively that they had no more right to be members of the state legislature than a foreign-born citizen has a right to become president of the United States. It was a question of following out the decrees of the federal and state constitutions. The socialists were shown how impossible it was to support the constitution of the U. S. and the socialistic doctrines of the same time. They were shown, very decidedly, how impossible it was to be loyal and disloyal at the same time. White is white, so long as a little red and it is no longer white. It cannot be white and red at the same time. Likewise with members of legislatures, they cannot support two causes which are diametrically opposite in their ideals. The issue was clear and straight; there was no "beating around the bush."

And so, the unseating of the five socialist members from the New York state legislature was hailed with great satisfaction and delight by every true and loyal American. They realize that the trial was a fair one, and that the verdict was just. The accused had no recourse.

In one of the editions of the "Wichita Daily Times" last week the editor stated that the "New York state legislature should be congratulated for its action in the unseating of the five socialist members." Every American who has his or her country at heart will join in extending such congratulations to the loyal members of that legislature. Let everyone of us remember that the ideals upon which our forefathers founded this country are the same ideals which every true American upholds today, and that if there are any of us whose ideals are different, there is lots of room in other quarters of the globe for them.

The U. S. may have been, and still is, a host—a most patient host indeed—to many "uninvited guests," but the U. S. stops at its hospitality when some members of the latter endeavor to assume legislative control. If you or I were giving a dance or a stag party, and discover during the evening of the affair that there were a few guests present who had not been invited, we probably would not ask them to leave the place so long as they caused no disturbances. But were they to commence to "run things" or try to assume the role of "master of ceremonies" and "house committee," you or I would throw them out, whether there were one, or five, or more!

Therefore, the editor of the Fort Worth Star-Telegram ought to re-read and study all the material necessary to give him the true light on the point of issue; let him consider all sides to all things and parties concerned, and, if he keeps his country at heart, and is reasonable enough to consider it first (as every true American does) then he must surely reach the same conclusion as the rest of us have, and will join in with the Wichita Daily Times in extending congratulations to the New York state legislature in its action in unseating the five socialists.

Very respectfully yours,
WALTER F. SUTTER

STUDENTS ARE PUNISHED FOR RECENT CLASS FIGHT

AUSTIN, TEX., April 15.—Four hundred and sixty-four men students of the University of Texas who participated in the freshman-sophomore class fight on March 1, received sentences varying from being placed on disciplinary probation, to suspension for two weeks without the privilege of taking spring term examination, according to an announcement by President Vinson.

Neither classes will be allowed to give reception for two years. Damage to the Knights of Columbus hall, where the fight occurred this year must be paid within ten days or all men involved will be suspended.

Six hundred pages of evidence taken by the discipline committee were reviewed by President Vinson before the penalties were announced.

The class fight began when Sophomores stormed and took the hall in which the Freshmen planned to have their annual class reception. Sophomores used ammonia in forcing the hall and in repulsing attempts by Freshmen to regain it. Clubs and stones were also used in the fight, and a number of minor injuries were inflicted, while several combatants were over come by ammonia fumes. The struggles continued intermittently for several hours.

EXCELLENT PROGRESS ON STREET LIGHTING PLANS

Excellent progress on the street lighting campaign is to be shown at tonight's meeting of the business council. While very few out-of-town property owners have so far signed up, on account of the delays in getting in touch with them, resident property owners have been getting into line very rapidly.

Street lighting and paving are expected to be the principal matters before tonight's session of the council.

Can you wash your walls?

You have often wished that you could remove spots and stains from your wall paper. Perhaps the paper was almost new. In that case the marks must remain an eye-sore, or you must go to the expense of repapering.

We can save you all such annoyances. In place of this unsanitary wall paper, we recommend that you use

DEVOE *The Guaranteed Velour Finish*

It is an oil paint that gives to walls a beautiful, soft, water-color effect. If it becomes soiled, wash it with soap and water.

Besides being a thoroughly sanitary finish for your walls and ceilings, Devoe Velour Finish also offers artistic possibilities that cannot be obtained with wall paper. Also, it is more economical—lasts longer than wall paper.

We guarantee every can of Devoe we sell. Our customers tell us it gives them perfect satisfaction and that it is very easy to apply.

Be sure to ask us for the new booklet—"Harmony in the Home."

Get Into A Straw

From a standpoint of coolness and hot weather comfort it's just like diving into a cool tank of water, at least it has the same heat defying effect. But it is not their coolness alone that makes these hats so attractive—almost any straw hat is cool—but it's the blend of coolness, good style and good appearance that makes these hats so preferred over the ordinary sort of straw hats.

See the new Sennits, split straws, soft straws, Milans, Leghorns, Panamas, Bangkoks, and novelty weaves that we show now in "whisper weights."

As for the editorial staff, they are already wearing their old clothes.

J. M. ALLEN ANNOUNCES FOR OFFICE OF CONSTABLE

J. M. Allen announces announcement of his candidacy for constable in precinct No. 1. Mr. Allen has served as officer here about 18 months, part of the time as deputy United States marshal and part of the time as deputy sheriff and special officer in the oil fields. Mr. Allen has made good in every capacity in which he has served giving reason for the belief that he would make a number-one constable. The Times commends his candidacy to the voters of the precinct.

OWLS WILL GIVE A FREE SMOKER TONIGHT

The Owls will give a free smoker tonight in their club rooms located at 608 Ohio avenue. A large number of the Burkburnett Owls will arrive in Wichita Falls at 7 o'clock for the purpose of attending the smoker and to give the Wichita Falls owls an invitation to Burkburnett next Wednesday night, at which time a large class of candidates will be initiated.

Notice is hereby given that the Kemp-Munger-Allen Oil company will pay a dividend of 300 per cent to stockholders of record Thursday, April 22. The stock books of the company will be temporarily closed at 5 o'clock on the afternoon of the day immediately preceding the payment of this dividend, and no more transfers made until after the payment. Stockholders are urged to send their correct mailing addresses to the offices of the company, Room 505, Kemp & Kell building, before the date of this payment. Kemp-Munger-Allen Oil Company, By J. A. WIFE OF GUS BROKAMP LOCATED AT CINCINNATI

The wife of Gus Brokamp, cook at the Liberty cafe, whose body was found yesterday in a storage house of Ohio avenue, has been located in Cincinnati, Ohio, it was learned Friday. Brokamp had received a telegram from his wife a few days ago urging him to return to the Ohio city. Further investigation carried out by officials Thursday afternoon disclosed that Brokamp was in all probability a victim of despondency and had sought self-destruction as a relief from his suffering. Acquaintances of Brokamp here say that he had led a wandering career. His original home is believed to be New York city but he has been in Wichita Falls for some time.

Investigation of Brokamp's bank book shows that his latest deposit was made on April 8 and that he made a withdrawal on April 15 instead of making a deposit. It is believed that Brokamp went immediately from the bank to the out-house of Ohio avenue and ended his life by placing the revolver in his mouth and firing. The bullet entered Brokamp's mouth and pierced his brain. Brokamp's body was discovered in a deserted store house near the Penick-Hughes hardware establishment. The warehouse, however, does not belong to Penick-Hughes company and is on a separate lot from that establishment.

EIGHT TEXAS COLLEGES HAVE CONTEST TONIGHT

AUSTIN, April 16.—Representatives from eight Texas colleges are scheduled to appear here tonight in the annual contest of the Texas Oratorical Association. Names of contestants with the schools they represent are listed below.

OIL LEASE

We have for lease the south-east quarter of survey No. 12, block No. 1 Archer county, between Perry Browning deep test and Checkerboard well, in tracts from forty acres up at a price that will make lots of money. Act quick. We are exclusive agents. It will not last long.

TO THE PUBLIC

We have opened a Meat Market and Grocery at 801 Folk Street. Although this is a Suburban Store, we are endeavoring to make it one of the best Markets and Groceries in Wichita Falls. The present congestion of the streets in the business part of Wichita Falls and the ordinance regarding parking of cars makes it almost impossible for any one driving a car to do their marketing downtown. It will be easy to get to our place of business as it is only one and a half blocks off from Tenth Street and one-half block from car line on Ninth Street.

You are able to buy here the best of meats and anything you desire in the grocery line and fresh vegetables every day. The grocery department is conducted by Mr. R. C. Prim, who is a thorough and up-to-date grocery man, and the meat department is conducted by Mr. R. L. Budlong, formerly of Budlong's Market on Indiana Avenue.

We cordially invite you to call and inspect our store and examine our stock, and we kindly ask for at least a part of your patronage.

Thanking you kindly in advance, we are, yours very respectfully,

NEW YORK STOCKS.

NEW YORK, April 15.—Stocks were irregular within narrow limits at the opening of today's trading, probably as a result of yesterday's fire in the market. Several of the steels, equipments, oils, and specialties were lower, but these were offset by further confident buying of Vanadium and Republic steels and Consolidated Textiles, all at new high records. Motors and the specialties also advanced, and sugar shares made substantial gains. Practically all the Liberty bonds and Victory notes made new low records. Stocks rallied again during the dull mid-session in spite of call money's advance of 1/2 per cent. Leaders of the recovery included shipings, equipments and favorites of the morning, especially utility stocks, oil, food issues and express companies shares. Trading became active in the last half hour, and equipments mounting to best prices of the day as call money dropped to eight per cent. The close was firm. Final prices on Liberty bonds today were: \$5 3/8; first 4 1/2; second 4 1/2; third 4 1/2; fourth 4 1/2; fifth 4 1/2; victory 3 1/2; 4 1/2; 5 1/2.

OFFICERS SEARCH FOR A WOMAN IDENTIFIED AS NINA LEE DELONEY

LOS ANGELES, April 15.—Deputy sheriffs began a search for a woman identified as Nina Lee Deloney, who, they believed, was one of twenty-five or more women married during the past fifteen years by Richard Hult, who is in the county hospital here for treatment for self-inflicted wounds. Miss Deloney is one of at least five of the women the officers have been unable to locate.

Hult, using the names of Charles N. Harvey, according to the officers, and Miss Deloney were married December 5, 1905, at San Francisco and left Santa Monica, near here, January 26 last, by automobile presumably for Tia Juana, Lower California, with the announced intention of eventually going to Honolulu.

Some days later the investigators declared Hult, under the name of Harry Lewis, joined another "wife" in Sacramento, California. The automobile in which the trip to Tia Juana was to have been made has been found in a Santa Monica garage, oficers said.

The investigators said Miss Deloney originally lived in Hodgenville, Ky. A telegram received by sheriff Cline from Hodgenville said the last word received there was from Tia Juana February 26, when she and the man known as Harvey were supposed to be on the way to South America.

The officers have found among the belongings of their five trunks containing valuable furs and other feminine apparel.

MOST UNKINDEST CUT HAS BEEN PERPETRATED: RAISE PRICE OF "COKE"

The most unkindest cut of all has been perpetrated. Coke has went up. After long bitter struggles through the war, with substitutes and everything else, and the indignity of being classed as luxuries and taxed, this very necessary article has been raised two cents, and now the brain worker that must twice, three or more times daily seek refreshment in the depths of the foaming, sizzling coke lac stuck eight whole cents.

Too Much Rush. MINNEAPOLIS, MINN.—Harry Rush rushed into his home to find two burglars rushing out. Finding a revolver, Rush rushed after them, but they rushed faster than Rush rushed.

Bee Got Stung. WILWAUKEE—Emily Bee told court she "got stung" when she married John Bee. He buzzed too frequently and for too long a time away from the home hive, she averred. Divorce pending.

Indulged Excessively. CHICAGO.—Mrs. Dolly Clark "indulged excessively in intoxicating liquors, smoked cigarettes and hugged one Edward Each in public." That's what her husband charged in a cross bill to her divorce suit.

Had Better Plan. EUGENE, ORE.—Fourteen husky hoboes confronted by a brakeman, defied him to put them off the train. He didn't he just locked the car door. The chief of police welcomed them when they reached Eugene.

Back to France. YAKIMA, WASH.—Fred McQuain, is on his way back to France and to one Mademoiselle and fifteen francs a day. "I can live on ten francs a day when mademoiselle becomes madame," said Fred. "Over there I can save a cent."

Spectators Thrilled. CHICAGO.—Three hundred spectators were thrilled when detectives chased Dr. Alfred Zaick and six drug addicts, "rook up" over roofs for an hour. The officers won. The fugitives sang the "Marseillaise" as they scampered over the tops of the buildings.

Well Protected. NEW YORK—A bulging chest caused a judge to order Ernest De Cull examined. He was found wearing a corset of wood and tin to "protect him from knives and bullets of the black hand."

For your daughter's sake, use Red Cross Ball Blue in the laundry. She will then have that dainty, well-groomed appearance that girls admire. Ec.—Adv.

EYES

Most people, you included, perhaps, are extremely negligent in the care of their eyes, and very culpably so in regard to their children's eyes. The public generally has no idea of the number and variety of present day eye defects and often resort to glasses selected at random which are entirely unsuited to the conditions of the eye. Many glasses selected in this way which "seem to suit exactly" at first, prove most injurious and often result in permanent injury. Come and talk over your eye trouble with us.
