AMERICANS IN WEST MEXICO ASK THAT WARSHIPS BE SENT DOWN THERE TO GUARD THEM

WASHINGTON, April 23.—American government representatives in Mexico have asked for the despatch of warships to that country to protect American citizens and their property. The requests came from Mazatlan and Topolobampo, on the Pacific coast, and Frontera, on the Gulf coast. Officials of the state, war and navy departments are investigating the requests, explaining that in times of disturbances in the southern republic it is not unusual to receive requests for warships when there is no need for them.

LIBERTY BONDS ARE STANDING UP WELL WITHOUT SUPPORT

Many Being Bought by Small Investors During Hectic Days on Exchanges

By RALPH F. COUCH. (United Press Staff Correspondent)

WASHINGTON, April 23.—Liberty bonds gave a "wonderful good account of themselves," Assistant Secretary Lettingwell of the treasury department said today in discussing the recent period of great depreciation of miscellaneous securities.

This period came to a climax Wednesday when the New York stock exchange suffered the most hectic day in months through a rush of selling orders which broke quotations of practically all securities.

"But I am told that a feature of Thursday's Liberty bond market," said Lettingwell, "was the unusually large buying of small lots by investors. Liberty bonds are standing on their own feet without artificial support." Of the nine government issues of the great war period, seven showed increases at last night's closing over the closing prices of the previous day, when all securities broke.

THREE MEAT COMPANIES INDICTED FOR PROFITS

NEW YORK, April 23.—Indictments charging profiteering in meats were returned today by a federal grand jury in Brooklyn against the Chicago packers and house of Armour and Company, Swift and Company and Wilson and Company and their representatives here.

BRITAIN TAKES SINN FEINERS FROM IRELAND ON WARSHIPS

BELFAST, April 23.—The removal of fifteen Sinn Fein prisoners from Belfast and a large number of Queenstown on three destroyers leads to the belief that the authorities are planning to transport all Sinn Fein prisoners from Ireland.

BUTTE IS GOVERNED BY MILITARY AFTER ITS LABOR TROUBLE

BUTTE, MONT., April 23.—Federal soldiers today patrolled Butte streets to prevent further clashes between guards and striking miners following clashes Wednesday in which 15 men were injured and the killing of Hugh B. Haran, 49, here yesterday.

A detachment of troops commanded by Lieutenant Mitchell arrived here late yesterday. Martial law was immediately declared. The soldiers were fully armed and ordered to prevent gatherings in the streets. The troops came from Camp Lewis, Wash. Haran was killed late yesterday while guarding the office of the Daily Bulletin, said to be the organ of the Metal Mine Workers. Joseph Pabel, another guard, charged with the shooting, was to be arraigned today. He declares the shooting was accidental. Four of the 15 men injured in the outbreak Wednesday were still in a serious condition today. Their recovery was believed doubtful.

FRENCH MOVE ON RUHR MAY BE APPROVED

Germans Must Abide by Treaty Asserts One Member of British Suite

SAN REMO, April 23.—Premier Lloyd George of Great Britain would approve of Anglo-French occupation of the Ruhr district of Germany in the event the Berlin government should refuse to suitably live up to the revised terms of the Versailles treaty, says "Pertinax," political editor of the Echo de Paris. He says intimation to this effect has come through a member of the British premier's suite, for the purpose of overcoming Premier Miller, and opposition to revision of the German treaty.

"The representative of England," asserts "Pertinax," in the course of his article, "charged a high military member of his suite with the duty of interposing questions during discussions for the purpose of giving the impression if German should fail to exactly execute the treaty of Versailles once it is revised, England would consent to sending her soldiers into the Ruhr valley in company with those of France."

Germans Laying Down Arms. DIESELDOHRF, April 20.—Commander Von Hauback, of the Diesel-dorf Reichswehr, today estimated that 30 per cent of the arms of the red army had been surrendered to the authorities. The red leaders say that 50 per cent of their arms have been given up by the reds throughout the Ruhr district.

Treaty Revision Move Falls. LONDON, April 23.—The London Times today confirms the Paris report of yesterday that Premier Lloyd George and Nitti had urged that a German representative be summoned to San Remo for the purpose of revisiting the treaty of Versailles, but that the proposal collapsed owing to French and Belgian opposition. To this the newspaper adds:

"We understand an attempt to revise the treaty without consulting the United States will be presented by America, who will consider England responsible for any complication that may ensue."

To Exchange Prisoners. PARIS, April 23.—Representatives of France and the Russian soviet government have signed an agreement relative to the exchange and repatriation of prisoners of the war held in each country.

Entente Arrests Izzet Pasha. CONSTANTINE, April 21.—Izzet Pasha, former Turkish grand vizier, was placed under arrest by entente authorities here today. General Alirza Pasha and several other prominent Turks were also apprehended. Twelve hundred adherents of Mustafa Kemal are reported to have been arrested and many are being thrown into jail daily. Officers of an entire section of the war office are reported to have deserted their desks and gone to Anatolia.

Anatolia Forms Government. LONDON, April 23.—Anatolia has formed an independent government under the presidency of Mustafa Kemal, leader of Turkish nationalist forces in Asia Minor, according to a dispatch to the Exchange Telegraph Co. filed at Constantinople on Wednesday.

Considering Armenia. SAN REMO, April 23.—The official statement issued at noon said: "The supreme council at this morning's meeting continued its discussion of the frontiers of Armenia and of the aid to be given the Armenian state for its formation. Smyrna's status with the assistance of Premier Venizelos of Greece was definitely approved."

PANHANDLE FARMERS NEED AID IN MOVING CROPS

AUSTIN, April 23.—Urgent appeal has been made to the interstate commerce commission by the Texas railroad commission for assistance in moving grain from Panhandle points on the Santa Fe and Rock Island. The request states that 150 cars per day for the next 15 or 20 days are needed to save much grain still on the ground from rain and wind damage.

MOB IN TENNESSEE TRIES TO FORCE JAIL FOR NEGROES

SAVANNAH, TENN., April 23.—A mob, estimated to number more than 1,000 men gathered here at noon today and threatened to force an entrance to the county jail to inflict summary punishment on four negroes suspected of implication in the killing of Harry Allen, a merchant, who was killed in his store near this city Wednesday night.

OKLAHOMA NEW POTATOES COST \$10.80 A BUSHEL. M'ALESTER, OKLA., April 23.—Potatoes sorted to new heights here today. The first new potatoes appeared on the market here for \$10.80 a bushel.

WILSON WANTS LEAGUE MADE BIGGEST ISSUE

Demands That it be Made Paramount Point in Coming Campaign

By L. C. MARTIN. (United Press Staff Correspondent)

WASHINGTON, April 23.—President Wilson has served notice on his party that he will not consent to the league of nations being made a campaign issue in a mere perfunctory way. The president's position, that the league is the paramount issue, was made clear in a letter read to the democratic Kansas state convention yesterday.

Commenting on this letter today, leading democratic politicians said it clearly indicated the president intended to insist that the democratic convention at San Francisco and the party in the campaign afterward rely upon the league as the most entirely recently made democratic politicians have been drifting away from the league as the chief issue.

They say the people are not interested in the league as the big question of the campaign; that to them the high cost of living is the one big issue. This group of democrats is distinct from the Bryan group which would yield to the Lodge reservations and ratify the treaty on that basis.

233 DEAD, 730 INJURED AS RECORD OF STORM

BIRMINGHAM, ALA., April 23.—Information received direct from the stricken areas, together with reports at the offices of the governors of Alabama and Mississippi today, gave the following toll of the tornado which swept through this section last Tuesday:

Mississippi, 156 dead, 200 injured. Alabama, 78 dead, 500 injured. Tennessee, 15 dead, 30 injured. Families made homeless in the three states total close to 500 and losses in livestock and property approximately \$2,000,000.

Many crops were ruined and some farmers with their only source of livelihood destroyed, have forced to depend upon charity for food and clothing. Red Cross workers are directing relief measures.

ST. LOUIS YARDMEN TO STAY ON STRIKE FOR HIGHER WAGES

ST. LOUIS, April 23.—Striking yardmen in the St. Louis district today voted to remain on strike and press demands for increased wages. The vote was unanimous, it was said. Switchmen, who are demanding an increase of from \$4.72 to \$7.60 a day voted to increase the demand to \$9 if they were not met by Monday, and an additional dollar for each succeeding week the demand is ignored.

New York Railways Refuse to Accede; Chicago Men Do Not Ballot

NEW YORK, April 23.—Railroad managers today flatly rejected a direct appeal of strikers in the New York district that they be restored to duty with full seniority rights and the strike be settled "in the public interest."

Chicago, April 23.—Striking railroad men today rejected a demand for a meeting with the "outlaw" strikers. Six thousand strikers crowded the hall. The meeting was opened with the singing of "America." Adjournment was taken when it developed that railroad managers had ignored an invitation to attend and discuss the men's demands. The managers however, refused to treat with the outlaw members of the established brotherhoods with which the roads have contracts.

Declaring the strike was broken, that the strikers already had lost their seniority rights and brotherhood members and that no object was to be given by remaining out, the brotherhood chiefs said the only course open to the "outlaws" was to apply for reinstatement.

The attitude of the government toward the meeting of today was indicated this morning when a warrant was issued for Michael Cahill, who is said to have broken up a similar meeting Wednesday by shouting "We want what we wanted when we went out and we won't go back until we get it." The warrant charges Cahill with conspiracy to violate the Lever act.

His arrest was interpreted by labor leaders to mean that any striker who proclaimed opposition to calling off the strike be subject to prosecution for conspiracy.

CONVENTION DISAPPROVES HIS STAND ON LEAGUE OF NATIONS BY FINAL VOTE OF 1,070 TO 490

WASHINGTON, April 23.—The action of the Missouri state Democratic convention in refusing to recognize the vote of the fifth district caucus, favoring Senator Reed as a delegate to the Democratic national convention, "means that Missouri will go Republican next fall by 75,000 to 100,000 unless something is done to save the situation," Senator Reed said today.

JOPLIN, Mo., April 23.—The Democratic state convention in session here this morning voted to reject the selection of United States Senator James A. Reed as district delegate to the national convention and to return his name to the fifth district caucus which nominated him.

The vote was 1,070 to 490, four not voting. It came as the climax to an all night session of the convention in which wrangling and filibustering played a prominent part. Spirited debate preceded the roll call.

Party officials were uncertain as to the methods of procedure necessary to fill Senator Reed's place but a majority declared that if the Reed vote did not make a contest of the case their substitute delegate probably would have to be passed upon after he reached San Francisco.

In electing eight delegates at large to the national convention the Missouri party recognized the newly enfranchised women voters. In the past, four delegates at large with one vote each have been elected. Under rules of the convention, adopted last night, however, it was agreed to elect four men and four women, each to have one half of a vote.

The delegates were not instructed as to presidential preference, that question not coming before the convention. In the debate which preceded the vote Senator Reed was denounced and praised by a number of speakers.

"Missouri has suffered long and has been patient, but her hour of vindication has struck," Frank W. Martin of St. Louis said in opening the debate for the opposition. He declared that "Senator Reed's political offices antedated his opposition to the league of nations" and asserted that by his course in the senate during the war the senator equivocated and condoned until he led the country to wonder whether Missouri was not more pro-German than pro-American.

The senator, he said, condoned the sinking of the Lusitania by a German submarine and after the war broke out proposed measures designed to win the war.

"While I was in the United States army," he said, "Senator Reed was in Washington opposing the food control act upon which I depended for food."

Discussing Senator Reed's opposition to the league covenant he declared that "he had only hate for the president, hate for England, hate for humanity, hate for everyone, but the followers of this august personage," Charles M. Hay, also of St. Louis, discussed the senator's opposition to the league of nations and declared that "if he had exerted his efforts toward saving the lives of the thousands of opposing it, the league would be a fact today."

"Do you want this man to represent you at the national convention?" he asked. "The most difficult problem the newly enfranchised democratic women voters have is explaining Senator Reed," declared Mrs. W. Martin of Cape Girardeau. "We can't explain how we can endorse the league and then send to the national convention a man who is so opposed to it. The women do not think it logical."

"You ask us to help you keep Missouri in the democratic ranks this year. We can do it if you don't embarrass us with a handicap like Senator Reed."

At one juncture the Kansas City delegation arose and indicated that they would leave, the convention cries of "Go to it," "Goodbye boys," greeted them.

"We ought to thank God we have a man in Washington who can think for himself and not go to the White House every day to find out how he should stand," said Lee Merimether of St. Louis in making the principal address in defense of the senator. "There was no Reed in the Roman (Continued on Page 3 Column 2.)"

BREIT OBECTS TO CONDITION OF BODIES BY RETURNED

PARIS, April 23.—Objections of the people of Breit to the exhumation and shipment to the United States of the bodies of American seamen and marines who died during the war has led members of the chamber of deputies to make investigations as to the conditions under which the work is being done.

G. O. P. WILL USE MINSTREL TROUPE IN THE CAMPAIGN

CHICAGO, April 23.—Minstrel troupes in the olden days sang the name of kings and people are to have their successors.

Old fashioned melodies, played on organs and pianos, with modern ditties telling of the accomplishments of the republican party and what it promises to do, were planned here today by G. O. P. national committee headquarters. The singing of songs will be a great feature. It will put the voter in good humor and make him incline to listen to our side. The plan provides for the printing and distribution of several hundred thousand copies of these song book programs at a cost of about 15 cents apiece. This republican women have started a "dittie" drive.

INDIANAPOLIS HAS RACE RIOTS WHEN NEGRO CONFESSES

INDIANAPOLIS, April 23.—Indianapolis was quiet today following riotous scenes last night when the police dispersed a mob of more than 2,000 persons bent upon lynching William Ray, colored, who is alleged to have confessed to the murder of Martha Huff, a young white girl. One person was shot in an exchange of shots in the vicinity of the Marion county jail, where Ray is confined, and the police made 15 arrests.

Mob of 2,000 Tries to Storm Jail and Lynch Negro Held for Murder

Chief of Police Kinney held the entire police of the city in readiness today in anticipation of possible further demonstrations.

Leon Harris, colored, 19, was shot in the neck and in the left leg while running from a crowd of men through the heart of the business district of the city. He was taken to the city hospital and his condition is not believed to be serious. John J. Gray, 37, giving his home as Louisville, Ky., was arrested on charges of carrying concealed weapons and shooting within the city limits. Ten shots were fired by the mob. Fifteen men were arrested on charges of disorderly conduct and inciting a riot. All except one of the latter a man who gave his name as Ennis Wayne and his home as Detroit, Mich. live in Indianapolis. The last of the mob was dispersed about midnight.

Ray was arrested late Wednesday night and is said to have signed a written confession of the crime which was committed Monday night. Thursday afternoon in a second statement he admitted the crime, saying that he stabbed the girl when she screamed and fought him as he started to assault her a second time. He is alleged to have driven a pen knife into her throat and stripped her of her clothing and thrown her body into the swollen waters of Eagle Creek, west of the city. Ray entered a plea of guilty when arraigned in court and his trial is expected to be held to the grand jury without bond on a charge of murder. Prosecuting Attorney Claris Adams said last night that he planned to expedite the trial. The grand jury will be called to consider the case today.

GERMANY WILL ANNOUNCE INDEMNITY SHE CAN PAY

BERLIN, April 22.—Germany will announce before May 10 the amount she is able to pay as part of her indemnity to the allies. The finance ministry has not yet definitely indicated the sum, but it is intimated that the amount will be below 100,000,000 marks.

UNIVERSITY BAND LEADER OUSTED BY STUDENT BODY

AUSTIN, April 23.—Leon C. Stanley of Waco, has been removed as leader of the student band by the discipline committee of the University of Texas, because the band refused to abide by the program approved by F. L. Reed, professor of music, during his recent tour of north Texas. Wilbur Duke of Dublin, who assisted in managing the tour, will be reprimanded by President Vinson and must make apology for his part in the incident.

Until this year the band has been an independent student organization, but the trouble arose when a minstrel program was given with the band program, without the approval of the faculty committee on musical organization.

STRIKERS DO NOT TAKE VOTE

CHICAGO, April 23.—Striking railroad men today rejected a demand for a meeting with the "outlaw" strikers. Six thousand strikers crowded the hall. The meeting was opened with the singing of "America." Adjournment was taken when it developed that railroad managers had ignored an invitation to attend and discuss the men's demands. The managers however, refused to treat with the outlaw members of the established brotherhoods with which the roads have contracts.

Declaring the strike was broken, that the strikers already had lost their seniority rights and brotherhood members and that no object was to be given by remaining out, the brotherhood chiefs said the only course open to the "outlaws" was to apply for reinstatement.

The attitude of the government toward the meeting of today was indicated this morning when a warrant was issued for Michael Cahill, who is said to have broken up a similar meeting Wednesday by shouting "We want what we wanted when we went out and we won't go back until we get it." The warrant charges Cahill with conspiracy to violate the Lever act.

His arrest was interpreted by labor leaders to mean that any striker who proclaimed opposition to calling off the strike be subject to prosecution for conspiracy.

DENIM PROCESSION MAY HAVE 20,000 MARCHERS IN LINE

Overall Wedding to be Held at Waldorf-Astoria Hotel Says Management

NEW YORK, April 23.—A nationwide continuous drive against profiteering in wearing apparel will be started by the Cheeser Club at the conclusion of Saturday's overall parade on Broadway, it was announced today.

"We are not going to let this thing die with the parade," said Walter J. Kingsley, chairman of the parade committee. "We are going to show those who sneer at us that the demonstration is neither a fad nor a joke."

Applications for places in the line of march are pouring in from so many organizations that it is probable the number of marchers will reach 20,000, officials of the Cheeser Club said.

Nearly one-fourth of the applications have come from women. Persons who wear old clothes with patches will be welcome as well as overalls.

Nationally famous actors and actresses will be among those in the procession. Al Jolson and Ed Wynn will act as drum majors for two of the overall bands.

Coincident with the spread of the overall movement, retail clothing merchants throughout the city have commenced to display cheaper grades of suits in their show windows.

The Waldorf-Astoria Hotel announced that an overall wedding would be solemnized there Saturday.

Suits Filed in County Court.
The following civil cases have been filed in the county court:

Fred Myers et al vs. E. L. Todd, damages.
Fred Myers et al vs. American National bank, garnishment in suit against Hoff.
John Mc Avert vs. M. J. Faggard, damages.

BOYER'S CONDITION SLIGHTLY IMPROVED

The condition of C. T. Boyer, burned in an explosion in the First National Bank building Wednesday morning, showed a slight improvement Friday morning, but was still regarded as critical.

STRIKERS SAY THEY PREFER JAIL BEFORE RETURNING TO WORK

CLEVELAND, OHIO, April 23.—Five hundred striking members of the Cleveland Yardmen's Association this afternoon voted to go to jail in preference to returning to work.

The men voted after Frank J. O'Rourke, president of the association, had told them that department of justice agents had notified him that unless the strikers returned to work tomorrow the leaders would be arrested.

JAPANESE FIRE ON AMERICAN BARRACKS AT HAILAR, SIBERIA

WASHINGTON, April 23.—Official reports received today by the war department said that in the recent fighting between the Japanese and Czechs at Hailar, Siberia, the Japanese fired a shell into the barracks of the American inspector. The inspector is believed by department officials to be attached to the American railway commission. He was not injured.

According to the department's advice, the clash between the Japanese and the Czechs has caused a critical situation.

CARRANZA SAYS THE REBELS ARE BEATEN IN TUXPAM BATTLE

LAREDO, TEX., April 23.—Mexican Consul Garcia in an announcement today says he received a message from President Carranza at Mexico City declaring that rebel forces commanded by Arnulfo Gomez attacked Tuxpam, state of Vera Cruz, Wednesday morning, but were driven off after repeated attacks.

SUFFRAGE PLANK TO COME UP NEXT IN NORTH CAROLINA

Session Starting July First Will Consider Amendment to Constitution

RALEIGH, N. C., April 23.—Action of the Democratic state convention recently in adopting a platform plank for ratification of the woman suffrage amendment will be followed by a special session of the legislature about July 1.

Louisiana is the only state to have a session before North Carolina, but suffrage leaders say no matter what action is taken in Louisiana it will have no effect on the fight for ratification in North Carolina.

If Louisiana were to act favorably it would make the 36th state but on account of some uncertainty over the ratification in Ohio legislature, because of a referendum involved, suffrage advocates are anxious to have 37 states ratify the amendment.

Opinion is divided here as to what action the North Carolina legislature will take. In view of the fact that both political organizations in the state have adopted platforms including planks favoring suffrage, many party leaders believe the amendment will be ratified.

Many Democratic party leaders in the state have come out for the amendment, including Secretary Daniels, Senator Simmons and Congressman Hoey. The legislature is overwhelmed by Democratic.

Opponents of suffrage believe the amendment will either be defeated by the legislature or by the voters of the state. They think the legislature will follow Senator Overman's idea and propose a state constitutional amendment giving women the vote, thus putting the suffrage question on to the voters, who, they believe, will reject it.

WORKMEN OF AUSTRIA CONFISCATE FOODSTUFFS

VIENNA, AUSTRIA, March 29.—So determined are the people of this province that food shall not be exported that Workmen's Councilors yesterday boarded and searched the passengers of a train bound for Vienna. From 350 persons they took 500 pounds of meat, 450 pounds of butter and 8,000 eggs. All belonging to traders was confiscated and from private persons two thirds of what they had the provisions being distributed among the Vienna and Linz hospitals.

Judge E. S. Whitelaw of this city has been notified of the death of one aunt, Mrs. W. M. Scott, the injury of another, Mrs. T. O. Whitelaw, and the injury of a cousin, Early Osborne, from the recent tornado striking New Albany, Mississippi. The news came in a message from Bernard Whitelaw of Brownsville, Tenn., another cousin.

Planes in Mining Operations.
It is predicted that the airplane and the dirigible will prove a great stimulus to the mining industry in presenting a means of getting material and men to and from locations which are known to be rich with ore and which are at the present time inaccessible. There are many such places known to exist, but the cost of building a roadway to them would be so great as to be prohibitive. Attention to this phase of the subject has been recently attracted by a report made by Dr.

Lyon, supervisor of the mining stations for the United States bureau of mines. By this means a regular communication could be maintained with sections which are not to be reached by any ordinary means. It is also suggested that the same means might be of great value for getting rescue apparatus to the scene of mining disasters.

QUESTION OF VOTES ON AMENDMENTS IS BEING CONSIDERED

WASHINGTON, April 23.—The supreme court today begins consideration of whether federal constitutional amendments must be submitted to the voters for ratification in states having referendum provisions in their constitutions. The question is involved in appeals from Ohio supreme court decrees sustaining the state constitutional referendum amendment and dismissing injunction proceedings brought to enjoy submission of the prohibition and woman suffrage amendments to popular vote.

TEACHING LOSES ITS CALL AS A STEADY PROFESSION

DALLAS.—Teaching as a profession has lost about half the inducements in some Texas counties in the past five years, according to reports of county superintendents made to the Texas State Teachers' Association.

During the year nearly half of the teachers of Johnson county have changed, and five vacancies existed until time for the schools to close. Bowie county reported its teachers as loyal in carrying out their contracts, but the county superintendent in his report says the teachers will not enter such contracts for the coming year.

URGES PLANTING FORESTS TO INSURE PAPER SUPPLY

WASHINGTON, April 23.—Colonel William J. Greeley, chief of the United States foreign service, today urged reforestation by public agencies and private individuals to guard against future paper famine.

"Public agencies doubtless must assume the greater part of the immediate task of growing timber on our idle, cut-over land," he said. "But publicly owned forests cannot do all of it in the United States. Our national policy should aim definitely and unequivocally at the practice of forestry by private owners."

SMITH LEAVES FOR TRAFFIC CONFERENCE

H. G. Smith, district freight agent for the M. An extremely argumentative defendant featured the Friday session of police court. The man was arraigned on a charge of violating the city traffic ordinance, the particular complaint alleging that the defendant had run an automobile down Ninth street at fully 20 miles an hour. The defendant developed an extremely argumentative nature, explaining to City Judge Ogilvie that "Wichita Falls is a fast town and any man who does not drive at least 20 miles an hour cannot keep up with the rest of the people."

100 WICHITANS TO TAKE SCOTTISH RITE DEGREE AT DALLAS NEXT WEEK

One hundred Wichita Falls Masons, comprising what is believed to be the largest individual class from one city ever initiated into the Scottish Rite degrees in the state, will leave this city Sunday night, April 25, for Dallas, where with Masons from all over the state they will go through the Scottish Rite degrees.

Applications have been sent in for Wichita Falls candidates by a number of Scottish Rite Masons and Shriner, including E. M. Belcher, W. Y. Hammack, Joe E. Ward, Otto Stebbins, Frank Collier and P. B. Mashburn. Owing to crowded conditions in traffic out of this city no attempt has been made to get a special section of pullmans for the trip.

Wires for reservations for hotel accommodations should be sent to E. D. Gonzalez at the Cathedral. All planning to attend are advised to make arrangements before leaving home, to avoid confusing and delay.

WHY MEN MARRY

By JANE DIXON.

"Men marry because they meet women whom they desire and because they realize the fact that they may win the right sort of woman through marriage." — BEATRICE BARMBY.

JANE DIXON

Such a statement, did it come from any other than the applicant and most of the night, sound brusque. Certain highly sensitized souls might even call it ritual.

That would be because they did not understand Mrs. Beatrice Barmby. Mrs. Barmby is a charming and cultured English woman who has come to make her home in America.

She is not given to regretting London or frowning over the crudities of the American tea service.

On the contrary, our English cousin is continually pointing out the bright spots in our modes of living and in our pursuit of happiness.

"You know," she said, turning to me the light of her quick, dark eyes, "American women have an awfully good time. They have the best time of any women in the world."

"To this minute I do not know why I stammered. 'Thank you' but I did. 'I cannot understand why a man marries, unless it is for the reason I have suggested—that it is the accepted medium through which he may meet the right sort of woman.'"

"What a splendid line that they do marry—the men! They have all the worst of it, surely. One could almost excuse them for clinging to bachelorhood indefinitely."

"Worst of Marriage Game. 'I—I don't quite gather your idea.' I said, protesting, visiting infuriated women readers inundating the editor with missives marked more by candor than compliment. 'Do you honestly believe men have all the worst of the marriage game?'

"It seems I had heard correctly the first time. Beatrice Barmby is not one to adjust her opinion to fit time, place or person. They are her own, and as they stand, they stand."

"Indeed I do," she answered brightly, quite as if such belief were a matter of the simplest deduction and the most glaring fact.

"I might ask how you have managed to arrive at such a unique and unorthodox conclusion?" I begged.

"Certainly," she replied. "It seems perfectly evident, especially here in America. Your women are born to have a good time. From baby's crib to grandmother's armchair, they look upon a good time as their inalienable right. Only, of course, none of your grandmothers ever reach the armchair era. They are too busy dancing the foxtrot, or managing corporations, or playing golf, or trafficking with the young folk, to yield to anything so indicative of age as the arm chair."

"Given a reasonable amount of health, the vitality of the American woman is practically inexhaustible. So is her capacity for pleasure."

"When a man marries he contracts to see that this good time schedule is properly maintained. It is his bounden duty so to do. Anything lost on his part marks him a failure as a husband."

"It was suggested that in such circumstances the American husband must be rather an unhappy creature."

"Not at all," corrected Mrs. Barmby. "The beautiful part of it is he glories in his slavery. He is just as loath to keep the pace, even to forge ahead of his fellow husbands in achieving a good time for his wife, as that unfortunate creature is to back in his generosity."

"The Good Time Spirit. 'When I first came to the states to live this good time spirit was the most outstanding feature of American life. I wondered if your women realized how high was the pedestal on which they were placed. After while I discovered they did not even know they were on a pedestal. They accepted the whole affair as a matter of course. 'Do you know the mental attitude with which a great many young women approach marriage?'

"It is the attitude of the small boy within sight of the circus tent, with the promise of a ticket entitling him to a red balloon, a sugar taffy and all other good time privileges of the sawdust ring."

"The brides-to-be never seem to consider they are entering an outfit in which they are morally bound to get as well as to take. Marriage is not a

ENGLISH PHILOSOPHER ON MARRIAGE

Mrs. Beatrice Barmby, who says American girls get best of matrimonial state.

mark. It is one of life's most momentous milestones. It means the woman who enters into it is willing to assume her just portion of the burden of living as well as to eat of the fruits thereof. The wife who will not take her place at the wheel and help pull the load up hill when the going is difficult, is not fit to enter along by her husband's side and enjoy the pleasures of the road when it runs straight and smooth between the banks of pleasure."

"I remarked it might be the selfish creatures who insist on climbing into the cart and being tramped up hill who are, 'shooing' many an eligible man away from matrimony."

"Beyond a doubt," was she ready to assent. "I live in a suburb of New York where living is somewhat simpler than it is in the great city, more so I imagine it must be in that real America out there in the middle west or the south."

"Even in this small town atmosphere, I have heard young girls talk of approaching marriage in a way to shock the person who looks upon it as a divine institution. They have not hesitated to boast of the good time they are going to have when they are mistress of their own message, of the freedom they will en-

joy, the increased possibilities for the pursuit of pleasure. 'The girl who can show promise of the greatest amount of fun and frolic after marriage is the one who, according to the accepted standard, is making the best match.'

"I have heard the girl of less exalted state rejoice because she was going to marry, and thank goodness she would not have to work any more. She could stay abed mornings and have chicken salad and chocolate cake for lunch and go to a matinee in the afternoon or to the beach, and no old job to worry about."

"Meet her a few years later. She has been so busy having a good time she has not bothered to keep herself from blowing freely in all directions. Her body is clogged with waste and her brain is clogged with rust. She has been so surfeited with her good times that she has lost her capacity for enjoyment, has become a querulous, narrow, stupid lump of clay."

"It is well many a young man cannot peek behind the curtain of the future and see 10 years hence, the slim, active, pretty girl he so ardently desires today."

"Mrs. Barmby spoke of the 'man shortage' in her native England. 'There will be many of the finest

of our young women who will not find suitable mates," she said, regretfully. "Such failure will cast no aspersions on their personal charm, accomplishments or fitness for wifehood. 'In most cases the man they would have married has passed on to the soldier's glory of death. They can only live and serve, in the best of their woman's way, their country for which the gallant made the extreme sacrifice.'

"There was a time, before the war when the spinster was regarded with pity by her more fortunate friends. She was, in a way, a thorn in the side of her family."

"I, myself, married rather late in my young womanhood." A whimsical smile brought a flush as clear-pink as an English rose to the cheeks of the speaker. "I recall how mother was always considering the men I met or those I knew who called, in the light of prospective suitors. It amused me because nine times out of ten they were utterly unsuited so far as I was concerned, for such serious project, and I never thought of them in that light."

"Lands Man at Last. 'When I did marry I know my two aunts, who had come to regard me as rather hopeless, breathed deep sighs of relief and murmured, 'There. She has gone and landed a man at last. 'They were happy, too, the poor dears. They felt that now I would not be cheated out of my woman's right to marry, and they were right. With 2,000,000 of the flower of our man-youth lost on the field of battle, there will be many an English woman facing remote possibilities of

meeting the right man and claiming this right. 'I do believe for the sake of Britain's future it is the duty of every Englishman of whatsoever degree of eligibility to marry.'"

Two stories of Mrs. Barmby's have won signal recognition recently. "Betty Marchand" is a real story of a real woman of the twentieth century, who knows how to love and how to work. Betty is an English girl who comes to America and here finds her happiness.

A later effort, "Sunrise on the Hilltop" portrays the emotions of a girl of the stiff and stolid north of England, who marries a typical American and comes to New York to live. What ensues is a valuable suggestion to young wives who have not yet learned their happiness lies in adjusting themselves to new conditions of life with wisdom and sweetness.

The English wife learned this lesson. She ceased to regret, to crave the things that were, and began to beautify the things that are. In the end with her somewhat modified husband, she saw "sunrise from the hilltop."

If there was more promise of happiness in matrimony, and of pink pulsing, pre-dawn sunrise, the question, "Why do men marry?" would never be asked.

REAR ADMIRAL BRITAIN KILLS HIMSELF AT SEA

WASHINGTON, April 23.—Rear Admiral Charles C. Brittain, chief of staff for Admiral Henry B. Wilson, commander of the Atlantic fleet, committed suicide by shooting yesterday while on duty with the fleet in Cuban waters.

Admiral Wilson in advising the navy department of Admiral Brittain's death gave no reason for the act. The body will be brought to the United States on the hospital ship Solace. Admiral Brittain's home was at Richmond, Ky.

Just Folks

By EDGAR A. GUEST

Patience.
The world asks nothing of a man
Beyond his power to do,
He can who really thinks he can,
And this is always true.
Each in his place can reach his goal
And find expression for his soul.

Sometimes the way seems hard and
steep,
Sometimes the burden's great,
But he shall conquer who is strong
And has the will to wait,
And he shall come through weal and
woe,
Unto the peace he hopes to know.

Grief strikes us in our gayest hours,
And fills our minds with
Sorrow,
But these are tests to try our powers
Before we gain the crown;
All who the robes of fame would
wear,
First in its bitterness must share.

Great trials come to test us all,
There is no "easy road,"
He who has faith shall never fail
Beneath his heavy load;
For out of failure and distress
The strong man builds his happiness.

HOROSCOPE

"The stars incline, but do not compel."
(Copyright, 1919, by the
McClure Newspaper Syndicate.)

FRIDAY, APRIL 23, 1920.
Astrologers read this as an especially
fortunate day. Mars, the
Sun, Uranus and Saturn are all in
an benefic aspect.

This should be a favorable
rule for all army men, of every rank
making for recognition of their
services and even the gratitude that
comes with fear of renewed hostilities.

While the seers see no near
danger of another war, they continue
to prophesy troubles that will come
within a generation.

Today's aspect is favorable for
the ambitions of military officers,
but the stars seem to forecast
disappointments to highest hopes.

Those who need employment
should look for work today, while
the Sun is in friendly aspect.

Uranus gives promise of such
strides in aviation that there will
be much travel in the skies before
the next president's term ends.

The seers assure those who are
curious about political events that
there will be sweeping changes in
the next election and many
surprises.

Women are to be influenced by a
sensational incident before they go
to the polls next November. It is
propheesed and those who read the
stars declare that the feminine
mind will place personality before
principle.

The gift of speech which is mov-
ing and convincing will be discov-
ered in many women who will be
hailed as orators and one of these
will lead a great moral crusade.

It was in that field that his
genius found expression, it was in
bringing men and widely separated
places nearer together, in abridging
time and space, that his notable
and enduring achievements were recorded.

Like Andrew Carnegie, Theodore
N. Vail began his career as a tele-
graph operator. All his after labors,
he may be said, were related to that
early service. More than half a cen-
tury ago he entered the United States
railway mail service; he was soon
called to Washington, and there he
came general superintendent of that
service. Men now elderly who had
occasion to know the quality of his
work will remember the reforms he
effected with efficiency which he dis-
played himself and inspired in others.

In those years the telephone was
being developed, soon it was to come
into general use. Mr. Vail became the
general manager of the Bell tele-
phone company. There his great ca-
pacity for organization found full
scope. He was the first president of
the American Telephone and Tele-
graph company, and after retiring
from that post, curiously enough, he
found a not unconvivial field of labor
in developing the traction system—
then operated by horses—of Buenos
Aires. Again he returned to the
presidency of the Telephone and Tele-
graph company; later he was presi-
dent of the Western Union company,
and there introduced the day letter
and night letter service, which was
a characteristic illustration of his busi-
ness genius, for it gave the opportu-
nity to extend the usefulness and in-
crease the revenues of a system al-
ready in existence. His relation to
systems of communication continued
up to the time of his death.

Had not other interests, for he was
a first-rate farmer, not only a
"model," but a practical farmer, at
his great estate at Lyndonville, he
found time to show his interest in
institutions for the development of taste
in music and fine arts. He was hon-
ored by colleges and universities with
degrees which recognized the distinc-
tion of his career, and during the war
he served upon many committees,
commissions and councils where his
judgment and experience were avail-
able in marshaling the resources of the
country.

It would be going too far to say that
this was a typical American career,
for genius does not fall to the lot of
every American, but it was typical
of its kind. He was a man who found
the best way to do what other men
wanted to do, certainly, but perhaps
would have been quite unable to do.
His genius for business organization,
for the extension and development of
everything he put his hand to, supple-
mented the American genius of in-
vention. The telephone and tele-
graph needed a man as they needed a
Bell. No man ever made such a
career, ever attained such a record
of achievement or ever earned such
crowding rewards who at the begin-
ning of his life work devoted more
thought to himself, to the hours and
conditions of his employment, than to
the work in which he was engaged.
But back to the "old individual" am-
bition was a strong force, not only
among telegraph operators, but in all
ranks and degrees of effort and lab-
or.

DO YOU MAKE NEW FRIENDS?
I don't make friends as easily
as I used to," a woman of 35 or 40
said to me the other day.

Now isn't it true that our relation-
ships with people are the material
out of which all happiness and all
pleasures, except some of those relat-
ing directly to physical comfort and
physical sensation, are made?

Indeed, but our joy in possession
of things is based on the effect of this
possession on other people.
And isn't it further true that love
and friendship are the two most
beautiful flowers of these relation-
ships?

And now if these things be grant-
ed (and I cannot see how anyone
could deny them) doesn't it seem
perfectly plain that the woman who
said she did not make friends as
easily as she used to, must have said
that with a sigh of regret?

Well, she didn't, she said it with
a little air of pride.
Now what can you make of that?

Why should one feel that a grow-
ing reserve, a lessening of the friend-
ly warmth and helpfulness that
makes one quick to think that each
new acquaintance may become a
treasured friend, is something to be
proud about?

I say "one" instead of "she" be-
cause I think this attitude is typical.
And I think it is a most unfortu-
nate attitude and one to be battled
against.

Blessed is the man who will keep
his mind open and keep on learning
to the day of his death.
And thrice blessed is he who will
keep his eyes open and keep on mak-
ing friends to the day of his death.

A Year to Regret.
A year passed without adding one
new friend to one's store is an
incomplete year. One should look back
on it with regret.

Most of us are placed by circum-
stances in contact with new people
from time to time. These are put on
some committee that brings us into
contact with new people in our own
community, or we go on a visit, or
spend our vacation at some
boarding house, or we are put on
one of these new people will inevitably
be unconvivial; most of them will be
indifferent to us, both subjectively
and objectively; but there are sure
to be some who will be friendly and
congenial to us. If we give them a
chance, "the royal name of friend."

Are we to give them the chance by
being ready to like them and to
like them back? Or are we to let our
lingering dislike, which is the herit-
age of the average young person,
stiffen us and congeal?

Hardening our heart Can Be
Avoided.
As people grow older they are sub-
ject to hardening of the arteries, but
the right sort of living will keep at
bay this enemy of old age.
A hardening of the heart to new
impressions is also the natural ten-
dency of old age, and the right sort
of mental living will keep this enemy
at bay.

How long since you have made a
new friend?

LITTLE BENNY'S NOTE BOOK

I was laying on the setting room
floor looking up at the ceiling and
asking pop questions such as at which
makes the most painful sting, a bee
or wasp, and whether their stings
hurt more when they are mad than
when they are just stinging in
fun, and whether monkeys scratch
themselves for the exercise or weath-
er they really feel like scratching, and
pop was trying to read the sporting
page and answer the questions at the
time and looking unsatisfied about it,
and I said, Pop?

Wait, you gods and little fishes,
wait, wait and pop.
Would it take long to count up
to a million? I said.
Count up to one and see and give
me a little piece, for the love of
Mike and pop.

Which I thwart for a while, and then
I said, Will you give me 5 cents if I
do, pop?
Do not confound me! I said, pop,
and I see. Count up a million.
Yes, you bet, I'll give you a dime
if you do, go over there in the cor-
ner of my site and try it and come
back and let me know how
you're doing, and pop.

Yes sir, I said, And I went and sat
in the corner and started to count
loud as anything, 1, 2, 3, 4, 5, 6, 7,
8, 9, 10.

Hay, hay, what are you doing? I

"Last Word" in Footwear

THAN footwear is now reserved for sport and business occasions—and shopping, marketing and such may be counted "business" by the women concerned in these occupations.

Black footwear is correct for formal occasions, and one may wear either patent leather or fine black kidskin with a dull finish. Shiny black kid, unless it be patent leather, is not smart.

The formal boot is almost invariably in the buttoned style and has a cloth or soft suede top. The more beautifully this buttoned top fits, outlining ankle and instep, the smarter is the boot, and the smaller and daintier it makes a foot appear.

Holland and Denmark have both returned women to Parliament during the last 12 months.

The Sweater Blouse.

Sweaters are being made in a new three-quarter length, and in a very short slip-on style for the flapper and sub-deb. The sweater blouse, frankly to be worn without an underblouse, will be an established fact by spring.

Military is various, but the point in common of almost every hat will be the tendency to be worn very low on the head, almost covering the eyebrows. Tams for how are as good as anything, and a new tam, which is crown-high on one side and flopped to the flatness of a brim on the other, nominates itself for tremendous vogue.

A great deal of handwork is to be found among lingerie blouses and cotton frocks of a certain type. Odd tucks, hand hemstitching and embroidery embellish batiste and handkerchief linen, in white or the daintier colors.

YOU can be certain that when a person is not properly dressed, from an artistic standpoint or when a person has failed, in the matter of dress, to show natural beauty to the greatest advantage, that person does not attend motion pictures.

The statement was made in the course of an interview by Harry Collins, one of New York's leading costumers for society and stage and screen stars.

His succinct words aptly illustrated the point which forms the basis for the present article: that leading actresses of the screen have attained recognition as exponents of the latest and best costumes; that the public which has a keen sense of the beautiful, the fitting and the spectacular in dress demands his of its screen stars; and that the poor, unpitied star must continue to shoulder the heavy expense of maintaining this reputation or be prepared to sink back into a secondary position.

In other words, the motion picture

is the final criterion in the matter of dress only because the leading stars today, as a matter of self-preservation are compelled to give their wardrobe that touch which is the last word in modernity.

Have One Designer.

It is essential by way of introduction to elucidate some of the standards of dress which the screen exacts of those who would succeed. In the first place it is pertinent to mention that "modernity of dress" should under no circumstances be construed to mean style or fashion in the common usage of those words.

If Irene Castle, for example, were simply to enter a department store—perish the thought—and order a gown of the latest style, it would ruin her irretrievably, however costly it might be.

Elsie Ferguson's gowns have created a countrywide reputation because of their striking design, their original lines and the rich effect they produce. But the star who has gained the reputation of being the best dressed in

filmdom has one designer for her costumes exclusively and she gives the subject the same scrupulous attention that an artist would give to the lines and colors of a painting for the academy.

The more proletarian "fashion shop," for exactly the same reasons, fails to meet the stringent requirements of milady of the screen. Gentle reader, take this point to heart and if you are a motion picture fan you will appreciate its value—the screen actress simply can not afford to appear in any gown that may be duplicated at the same time by any one seated in the audience. Such a happening would relegate her at once from the distinctly luminous being, which she has become by reason of her histrionic powers, to a secondary position. It is the insistence that she be herself, that she be individual that has made it prohibitive for a film actress to select her gowns for productions in such a manner that countless duplicates could appear along Fifth avenue or in the select thoroughfares of Eau Claire.

GOOD SUBSTITUTIONS FOR THE HOUSEWIFE

To Separate an Egg Easily Without Breaking.

An easy way to separate the yolk from the white of an egg is by putting the egg in a small funnel and the white will slide through easily, while the yolk will remain unbroken in the funnel.

To Prevent Glasses from Falling.

A little powdered resin applied to eyeglasses before putting them on will keep them in place for the rest of the day. The strongest wind can hardly remove them, thereby preventing many accidents.

To Save Garbage Can.

To increase the life of garbage buckets, cover the inside of the bottom with a thin layer of cement. This will protect the metal of the bottom (which always gives way the quickest) from the corrosive action of the garbage.

A Bag for Ironing Board.

A bag fastener to the end of the ironing board makes a convenient receptacle for iron stand, wax and cleaning cloth. When board is not in use the bag fastens flat against it by means of a buttonhole in the tab, which is slipped over a push pin.

EGYPTIAN FACTION SEEKING FREEDOM REACHES SAN REMO

Six Delegations Will Ask That They be Declared Free of British Rule
(United Press Staff Correspondent)
SAN REMO, April 22.—The Egyptian nationalist delegation, which arrived here late today, announced tonight it would present demands for complete independence to the council of plenipotentiaries.

Six delegations of peoples anxious to obtain favorable decisions from the peace conference arrived during the day. Representatives of Galicia said they would ask revision of the treaty of Versailles to change the decision granting Poland a 25-year protectorate over part of Galicia.

Montenegro were to ask immediate discussion of the nation demanding that it be restored to independence. Albanians were to protest that partition which set up the independent Georgian nation.

Some of the delegations were given an audience by the premiers today. The council of premiers continued discussion of the territorial clauses of the treaty of peace with Turkey defining her European boundaries and later resumed discussion of Armenia, the official statement tonight said.

Early in the session, it was learned, the council examined again the military clauses of the Turkish treaty, especially those concerning the straits, and approved them. Disposition of the Caucasus also was discussed.

TEXAS PRINTING TRADES MEETING IN FORT WORTH.

COLORADO SENATOR RENEWS ATTACK ON ARMY BONUS BILL

WASHINGTON, April 22.—Soldiers relief legislation will be discussed in the house Tuesday when Representatives Green of Iowa and Longworth of Ohio, republicans, will speak in support of the republican plan of raising revenues by a tax on gross sales. At the same time the democrats plan to ask for the substitution of their proposal that the funds be raised by taxes on war profits.

In the senate today Thomas, democrat, Colorado, renewed his attack on relief legislation, referring to statements of American Legion officers that the soldier organization would insist on the "four way" bonus plan it has recommended.

"Not satisfied with the straight bonus demand," Senator Thomas said. "I note that they must have all four of the gifts proffered them, lands, homes and vocational education. This is the measure which will attach ultimately to the resources of this country a burden which it can not support."

PANHANDLE EDITORS HOLD CONFERENCE IN AMARILLO. AMARILLO, April 23.—The Panhandle Press association opened its convention here this morning with a business session. FIRE DEPARTMENT APPARATUS MUST BE GIVEN RIGHT OF WAY

"Ordinances giving the fire department right of way in answering a fire alarm will be rigidly enforced in the future, and any additional ordinances needed to secure this right of way from the vehicles on the streets will be enacted by the council," said Mayor Walter D. Cline Friday in commenting on recent accidents to fire apparatus by reason of the blocking of the street by other cars.

"It is quite necessary for the firemen to drive rapidly when answering a fire alarm. They don't know how big a fire it is—in fact, they are well aware of the fact that all fires are small in the beginning, and that the time to fight them is as near the beginning as possible. So it is in the interest of the public safety to say nothing of the safety of people driving on the streets and the firemen themselves that these laws requiring them to give road to the fire apparatus, and as I said before, these regulations are going to be enforced."

"Fire apparatus have suffered in two recent accidents, one of them serious due to nothing more than the carelessness of some driver. While making this criticism of the public, I think that it is nothing but fair to say that the board of aldermen have heard some criticism of the firemen in the speed with which they drive back to their stations after answering an alarm. This criticism has been brought to the notice of the firemen by the council in a friendly way, and have assurances from them that this criticism will not be justified by their future action."

LABOR SHORTAGE THREATENS TO INCREASE LIVING COST

WASHINGTON, April 23.—A shortage of farm labor which will be as acute as that of 1918 threatens to curtail food production on American farms, Secretary of Agriculture Meredith said today in an appeal to business men and college students to spend their vacations working on farms, particularly as helpers in harvest fields.

The supply of farm labor is only 72 percent of normal, carefully compiled reports to the department indicate, compared with 84 per cent last year.

ITALIAN SOCIALISTS FAVOR TRYING OUT SOVIET RULE

MILAN, April 22.—Constitution of Soviets as an experiment in all large Italian cities where the proletariat is well organized was decided upon at the socialist national council, in session here today. The vote on the proposition was 94,000 in favor and 21,000 against. The proposals to institute soviets everywhere throughout Italy were rejected by a vote of 52,000 to 5,000.

CHIEF OF POLICE GIVES WARNING TO BALL PLAYERS

"No more language of a nature similar to that heard Thursday afternoon during a squabble participated in by members of the visiting club will be permitted at the local park this season," says Chief of Police Geo. Goodfellow.

"Hereafter I will have a couple of policemen within the inclosure to deal summarily with any offender on any club who makes use of this kind of language. The people who go to the games are entitled to respect and I feel that it is the duty of the police department to see that it is accorded them."

"While I want to make it plain that this applies as well to both the visiting and the home clubs, I think it but fair to say that I have not heard the slightest criticism of the conduct of the home club—in fact criticism of the action of Shreveport players in their third game here is the only criticism I have heard this year."

DALLAS JURY WILL NOT INDICT MRS. PERRY FOR KILLING HER HUSBAND

DALLAS, April 23.—Repeated failures to convict women charged with killing their husbands was climaxed here today when the county grand jury returned a "no bill" for Mrs. Gayle Perry, saying trial would be unnecessary expense.

No further remarks were made by the jury foreman. Mrs. Perry has been on \$5,000 bail since Monday. She is charged with murdering her husband April 14.

Of seven women tried here in the last five months on charges of husband killing, one received a two-year sentence, one a two year suspended sentence, and five were freed.

LABOR-POLITICAL LEADER SLAIN IN HIS OFFICE

CHICAGO, April 23.—Police today were searching for the slayer of E. J. Coleman, Chicago labor power and political leader, who was shot and killed in his office here last night.

In a statement to police before he died, Coleman named two men as threatening to "get" him. John Haley was held today pending investigation. The shooting was the result of a factional row of several years in which Coleman and other union officials were involved, police believed.

Get the Facts at First Hand on the Clothes Question

DON'T take anybody's word on the question of what your clothes ought to cost or what you ought to get for your money. It's YOUR pocketbook that's affected.

Find out the truth DIRECT. Do a little shopping and comparing and see what the stores are asking for ready-made clothes—mere machine-cut clothes, mind you.

You'll find the prices mighty startling. But don't stop there. Step inside and look at the stocks. They can't charge you for "looking." Let the price tags TELL THE STORY. It's the BEST ADVERTISEMENT in the world for the BELL TAILORS. For when you wind up your trip of shopping by coming to THE BELL TAILORING CO. and see OUR values you'll say as thousands have said, "How in the world can you deliver such remarkable made-to-order clothes in the face of today's costs?" You'll find the answer HERE.

EXTRA PANTS FREE

With Each Suit Order

We open our Wichita Falls store on—Saturday April 24th

Don't get discouraged "cause" you can't trade in the double-profit credit stores and save—try the Bell Tailors—it's often the "last key in the bunch" that does the job.

Skin Trouble On Three-Year-Old Boy Cuticura Heals.

"My little boy three years old began to break out in red spots, from the size of a dime to a nickel, over his body and on his face. They would itch and he would lie awake and scratch sometimes till they would bleed. They dried up and formed a scale that looked like corn bran, and some of the places would crack. I tried salves with no effect, so I tried Cuticura Soap and Ointment. I could tell a difference from the first application. When I had used one box of Cuticura Soap and one box of Cuticura Ointment he was healed." (Signed) Mrs. D. Burnett, Salt Lick, Kentucky, Sept. 9, 1919.

Once clear, keep your skin clear by using Cuticura Soap and Ointment for every-day toilet purposes and Cuticura Talcum to powder and perfume. Nothing better.

Fully Satisfied

When infants are Baked With CALUMET FLOUR... there's nothing but satisfaction. Satisfaction in buying—because of economical cost. —in using—because of absence of heat units. —in eating the goodies it raises because they are pure and healthful. Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

OIL FIRE HAZARD
RULE IS ADOPTED
BY STATE BOARD

AUSTIN, April 23.—Application of the Missouri, Kansas & Texas Railroad Company for discontinuance of passenger trains 41 and 42 between Smithville and San Antonio was granted by the railroad commission, but the application of the same railroad for authority to operate a mixed train between Greenville and McKinney was refused. The commission also decided to issue rules 39 and 40 of the oil and gas department as agreed upon between oil interests and the commission. Rule 39 prescribes a new set of regulations governing fire hazards while number 40 prohibits the use of vacuum pumps in extracting oil from wells.

CLOTHING WANTED FOR
BUCKNER ORPHANS

The Times has received the following from the women of the First Baptist church:
S. O. S.— Falls have done the noble thing in responding to the call from the Near East. We now appeal to you to respond in a generous way to a call nearer home. Seven hundred children at Buckner Orphan's Home are now in dire need of clothing for school and field work. These children have always belonged to the overall club and ask for nothing but plain substantial clothes. This home is open to children of all white races and we appeal to all to respond.
Box will be packed Tuesday, April 27, at Baptist church, phone Nos. 411, 659, 809, 1019 or 1732 and we will call for all donations.
Children from six to 16 most needed.

KELLY-PHELAN ABSTRACT
COMPANY IS FORMED

Special to The Times. VERNON, TEX., April 23.—The abstract business has grown to such an extent, caused by the oil boom, that another abstract company has been formed here under the name of Kelly-Phelan Abstract Co., with a capitalization of \$25,000. They are seeking a location for their business and if necessary will build. Messrs. Kelly and Phelan are from Peoria, Ill. Bernard Kelly has been here this week organizing the company and will return home today to make final arrangements to locate here. Mr. Phelan, who is recognized as a most proficient abstractor, will arrive in a few days to superintend the compilation of a complete land record of Wilbarger county. Mr. Kelly will have charge of the legal department of the company, he being an attorney for the Sigler Oil Company. Mr. Kelly is recognized as an orator in the state of Illinois and toured the principal cities of Texas and Oklahoma with Judge Pritchard of North Carolina, a member United States circuit court of appeals and a favorite for the president from North Carolina, and Miss Van Gestel, Belgian Red Cross nurse in 1917, in behalf of the Liberty Loan drive. Kelly is head of the American Legion at Peoria, Ill., and for a brief period of time in service in the 90th division in Texas, though most of his war work was with 56th division, where he held a commission as captain, receiving a citation from General Pershing. He was wounded several times in action.

pany. The Vernon Texas-Peria company will operate under a declaration of trust and has holdings of about 2,000 acres in the Wharton ranch about five miles southwest of the Sigler holdings and discovery well. The personnel of the new company is Harry A. Frankel, vice president of the Sigler oil and a real estate broker of Peoria, Ill.; J. J. Rubenstein, secretary of the Sigler Oil company, and a steel broker of Peoria, Ill.; Sam Franke, clothing merchant of Peoria; Bernard Kelly, attorney and former newspaper man of Peoria, and A. Paulson, a drifter of Wichita Falls. Derrick timbers are being rushed to the first location which will be about six miles from the Sigler well. The new well will be drilled on the apex of the anticline of the structure of the famous Sigler well. An extensive drilling campaign will be inaugurated and the entire acreage developed. Around this proposed well are seven wells drilling and about one dozen locations made, ranging from half a mile to three miles in distance. A well on the northwest is attracting attention because it is reported around 1,700 feet with showing. The derrick will be erected this week and they expect to pick up the Sigler sand in 60 days. No stock is for sale.

SPECIAL COURSES IN
DEMONSTRATION WORK

Special to The Times. DENTON, TEX., April 23.—A bulletin is now being distributed from the rural arts department of the College of Industrial Arts in which is announced that the college offers, twice a year, a six weeks course for county home demonstration agents. One of

these courses begins Monday, July 5, and ends Saturday, August 14, and the other course begins Monday, January 3, 1921, and ends Saturday, February 12, 1921. These courses have been especially prepared and approved by those who have had practical and successful experience in county home demonstration work and it is believed that the county home demonstration agent and her co-workers will find them adapted to their most practical needs. It is also to be noted that the department of rural arts offers not only courses for county home demonstration agents, but practical and helpful courses for the farm women and farm girls of Texas. The college has an enrollment of 1467 girls, 60 per cent of whom are the daughters of farmers and ranchmen, while practically every other vocation in the state is represented. The College of Industrial Arts is making an intelligent and earnest effort to be of service to county home demonstration agents in their work, and to be helpful to the farm women and the farm girls of this great state. The following courses are offered: Poultry, dairying, landscape gardening, rural leadership, interior decoration, home nursing, clothing, feeding the family on the farm, the farm house plans and conveniences, and home laundrying

It's the condition of the eyes not the age of the person which determines whether glasses are needed or not. Thousands of children wear glasses, because they need them. Thousands of other people don't wear them because they don't need them. Weak eyes should be assisted—made strong. Glasses will do it if they are the right kind.

"In Keeping With
the Town"

Firmly believing that Wichita Falls is destined to become the leading city of Texas—we have endeavored in our new location in the Commerce Building, to install fixtures and equipment that would be in keeping with the spirit characteristic of this city.

When labor conditions are such that we may complete our store, we believe that we will without a doubt have a drug store that will be a credit to the state as well as Wichita Falls.

COURTESY SERVICE
FOR FREEDOM AND GRACE

It is a question if fashion's present mode could be so popular, without the many depilatory preparations.

The sleeveless gown and sheer fabrics for sleeves cause it to be a very necessary toilette accessory, contributing freedom of movement, unhampered grace and modest elegance, for all occasions.

We carry a complete line.

Do You Waver?

The trouble with the majority of us is—we are unwilling to work early in life. We wait—for we do not want to miss any fun.

Few of us are willing to work long enough and hard enough to reach some great end.

We not only lack perseverance, but we lack interest.

The same applies to our SAVINGS ACCOUNTS, we cannot seem to go on and on without wavering.
