MARITAL LAW NOT TO BE DECLARED AT GALVESTON

Galveston Officials Assure Governor Freight Movement to be Expedited

MASS MEETING PROTESTS TROOP MOVEMENT

Cope Makes Inspection of Water Front to Learn if Freight Was Moving

GALVESTON, TEX., June 5.—Marital law will not be declared in Galveston at present.

Adjutant General W. D. Cope, on the expiration of his ultimatum to the city administration at 9:00 o'clock this morning, made an inspection along the waterfront and found freight to be moving.

Returning to his headquarters at the Tremont hotel, General Cope gave out copies of a telegram from Governor Hobbs authorizing him to remain in Galveston and see that freight was moved.

General Cope announced his intention to comply with the governor's order.

Mayor H. O. Sappington, Chief of Police W. D. Sedgwick and Ranger Carson, who accompanied General Cope on his inspection of the situation at the Morgan and Mallory line docks.

Mayor Sappington and Chief Sedgwick personally assured workmen who they would be given the fullest protection, both to and from their work at their homes, and in all parts of the city.

General Cope, in a statement given to the press following his investigation, stated that:

Increased forces of workmen were found employed at points on the water front where congestion was greatest. Railway cars were being switched to and from the docks.

The adjutant general also gave out a copy of Governor Hobbs' telegram authorizing him to remain in Galveston until the free and uninterrupted movement of freight and the absolute safety of any and all workers employed in the loading, unloading and handling of same is assured.

AUSTIN, TEX., June 5.—Upon receiving this morning the message from the chief of police of Galveston that "every effort will be made" for the free and uninterrupted movement of freight on the docks, Governor Hobbs early today directed Adj. Gen. W. D. Cope to begin the movement of troops at 9 o'clock today if he deems it necessary.

Governor's Wire.

The governor wired Mayor Sappington and the chief of police as follows: "Replying to your message saying the demands of my telegram of Wednesday have been complied with, I have directed General Cope to remain in Galveston until the free and uninterrupted movement of freight and the absolute safety of any and all workers employed in the loading, unloading, transferring and transportation of same is assured and to begin the movement of such troops after 9 o'clock this morning if he deems it necessary to accomplish that purpose."

The telegram from the governor to General Cope sent early today, quoted the chief of police as follows: "You are directed to take such action as you deem necessary to comply with the conditions as contained in the telegram above quoted. You will hold in readiness such units of troops now mobilized as will put you in a position to assume control upon a moment's notice."

A telegram sent to the governor by Mayor Sappington and Chief of Police Sedgwick fled last night but received today, read as follows: "Governor Hobbs after the day's conference with the adjutant general feels that you and the people of Texas do not understand the situation with reference to movement of traffic through this port since the longshoremen's strike. We have never refused to furnish police protection, however, we assure you every effort will be made by us to see that the day's freight now on the docks will be moving by 9 o'clock Saturday morning, June 5, and that every protection within our power will be given to all persons in this city or on the docks who are engaged in the movement of freight. The general intimated that he would have an announcement to make on receipt of the governor's reply."

GALVESTON, TEX., June 5.—At 9 o'clock this morning Adj. Gen. W. D. Cope left his headquarters at the Tremont hotel, accompanied by the chief of police and two Texas rangers in an automobile to make an inspection of the water front to ascertain whether his ultimatum in regard to the movement of freight has been complied with.

General Cope said, "After making the investigation about freight being long distance to Governor Hobbs."

The general intimated that he would have an announcement to make on receipt of the governor's reply.

GALVESTON, TEX., June 5.—Following a conference with the governor at 2:45 this morning, Adjutant General Cope announced that the governor had agreed to hold the matter of sending troops to Galveston in abeyance until this morning.

Following the conference, Mayor H. O. Sappington sent the following telegram to Governor Hobbs: "After one day's conference with Adjutant General Cope we feel that you and the people of Texas do not fully understand the situation with reference to the movement of traffic through the"

WILSON CRITICISES CONGRESS FAILURE PASS MEASURES

Accepted Legislation Because He Despaired of Anything Better

WASHINGTON, June 5.—President Wilson in a telegram today to officials of the railroad brotherhoods criticized congress for failing to take action with regard to the high cost of living, the conclusion of peace and important domestic legislation.

The telegram was in reply to a message asking the president to prevent the adjournment of congress today. The executive said that in the light of the record of the present congress "I have no reason whatever to hope that its continuance in session would result in constructive measures for the relief of the economic conditions to which you call attention."

"It must be evident to all," the president said, "that the dominating motive which has actuated this congress is political expediency rather than the lofty purpose to serve the public welfare."

The president declared that he had accepted some of the legislation enacted by this congress because he "despaired of anything better."

The text of the president's telegram follows: "I received your telegram of June 3. You call my attention to matters of great importance to the present congress in a special message delivered at a joint session of the two houses on August 8, 1919. In nine months this congress has taken no action with respect to the problem of the cost of living on the lines indicated in that address or any other line. No only has the present congress failed to deal directly with the cost of living, but it has failed even to give serious consideration to the urgent appeal of repeated times for the revision of the tariff and the present form are indirectly responsible in part for the high cost of living."

Railroad Problem.

The protracted delay in dealing with the problem of the railroads, the merchant marine and other similar urgent matters had resulted in unnecessary burdens upon the public treasury, the present congress has failed to take any remedial action with respect to the problem of the cost of living on the lines indicated in that address or any other line. No only has the present congress failed to deal directly with the cost of living, but it has failed even to give serious consideration to the urgent appeal of repeated times for the revision of the tariff and the present form are indirectly responsible in part for the high cost of living."

Peace and Commerce.

The protracted delay in dealing with the problem of the railroads, the merchant marine and other similar urgent matters had resulted in unnecessary burdens upon the public treasury, the present congress has failed to take any remedial action with respect to the problem of the cost of living on the lines indicated in that address or any other line. No only has the present congress failed to deal directly with the cost of living, but it has failed even to give serious consideration to the urgent appeal of repeated times for the revision of the tariff and the present form are indirectly responsible in part for the high cost of living."

No Hope Whatever.

In the light of the record of the present congress, I have no reason whatever to hope that its continuance in session would result in constructive measures for the relief of the economic conditions to which you call attention. It is my belief that the dominating motive which has actuated this congress is political expediency rather than lofty purpose to serve the public welfare."

The letter to the president from the brotherhood chiefs said:

"As the responsible heads of railroad brotherhoods representing more than two million workers, we protest most earnestly and most emphatically against the proposed adjournment of congress next Saturday in accordance with the plan reported in the public press. We call attention to the fact that despite the revelations as to the profligate and scandalous expenditure of money for nothing, the evil or to punish the evildoers; that the cost of living continues to advance without a single remedial measure having been passed and there has not been even serious consideration of constructive legislation dealing with the serious problem of industrial unrest."

Grave Problems.

"In the circumstances it appears to us incredible that the responsible heads of the railroad brotherhoods in Washington can assent to this seeming agreement to continuation of a do-nothing policy which means that the economic conditions of the people are to be made the plaything of politics and politicians for the next five months. It invites political chaos and business disaster. Congress should remain in session."

YOUTHFUL ROUGHNECKS TELL JUVENILE OFFICER OF THEIR EXPERIENCES

Two youths, one 14 and the other 16, are being held by County Juvenile Officer Morgan in connection with the attempted theft of a horse upon which the juveniles were planning to ride from Burk Burnett to Dallas.

"How much money have you got?" Morgan asked the smaller of the two. "I had 15 cents but I lost one of my coppers in the city the last night so I've just got 14 cents," the little freckled-face oil field "roughneck" replied.

It developed that the other lad was "flat broke" but his pal immediately informed the probation officer that "as long as I've got money I'll divide with my pal."

The boys told Juvenile Officer Morgan that they were planning to ride the stolen horse to Dallas and go from there by train to Shreveport to work in the oil fields.

"We didn't really steal that horse anyway," the freckled-faced boy told Juvenile Officer Morgan. "We just took it out of the corral and found it too small to carry us both to Dallas so we turned him loose."

Investigation disclosed that the boys found a horse in the river bottoms and rode him a short distance later turning him loose. A bridle and reins were found in their possession, and the boys are being held until they decide to steal the reins in the hope of selling them to get something to eat.

The youths will be sent to their homes, Juvenile Officer Morgan said.

SAWDUST ARENA SET FOR TIME WHEN REPUBLICAN CANDIDATES LOCK HORNS IN FINAL CONTEST

By DON CHAMBERLAIN. (United Press Staff Correspondent)

CHICAGO, June 5.—With incoming trains unloading visitors and delegates to the republican national convention by hundreds, Chicago today began to take on the appearance of a political convention city.

More than 200 delegates are already here and Monday night is expected to see practically all of the 984 delegates here.

Tomorrow will see a big increase in the number of delegates here with the arrival of delegations from New York, Ohio, Illinois, Pennsylvania, Arizona, Colorado, Connecticut, Idaho, Indiana, Kentucky, Maine, Michigan, New Jersey, Oklahoma, Rhode Island, South Carolina, North Dakota, Utah, Virginia, Arkansas, Maryland, New Hampshire, Tennessee and West Virginia.

Monday the following delegations are due: Kansas, Nebraska, Louisiana, Mississippi, Texas, Wisconsin, Missouri, Nevada, North Carolina, Montana, New Mexico, Oregon, Vermont, Washington, Florida, South Dakota and Georgia.

Scattered Delegates.

Scattered delegates have arrived from Iowa, Wyoming, Delaware, Mississippi, Oklahoma, Texas, Wisconsin, Rhode Island, Montana, Washington, Florida and several other states.

The California delegation is due to arrive tonight.

Seats for the convention will be distributed to all committeemen today, while the three days before, work on the hotel is being done.

New York is allotted the biggest portion of tickets. It will receive 836 seats. Pennsylvania is second with 811 and Illinois third with 685. Indiana will receive 398.

Approximately 2,700 tickets will be handed over to Mayor Thompson for distribution in Chicago. The city committee is placing 1,500 automobiles at the disposal of delegates.

Police arrangements for the convention have been completed.

Hotel managers and officials of the Chicago chamber of commerce estimate the convention will bring more than 100,000 visitors.

Conventions.

R. H. Todd, mayor of San Juan, P. Rico, and national committeeman from the island for 16 years, claimed his hotel reservation today. Todd said he was for Lowell, but could not say how his delegation will vote.

Hiram Johnson headquarters nearby responded to a false alarm. Hearing the convention crowds cheering wildly on Michigan boulevard, under the Johnson quarters, Johnson managers were just about to call the senator out to make a balcony speech when some one discovered the cheering was for W. J. Bryan going down the street.

One convention poster reads: "Virginia offers Col. Henry W. Anderson for vice president—O. D. The last three letters, however, were on a gum sticker, unfortunately placed to keep the poster on the wall."

All republican convention delegates are greeted by the following sign over one of the busiest streets: "Wait for the convention, biggest in Chicago's history."

A. Mitchell Palmer, attorney general and candidate for the democratic nomination, doesn't hesitate to stick his head into the lion's mouth. He has opened the lone democratic campaign headquarters on "Candidates' row," next to Hiram Johnson.

Wood delegates are wearing feathers in their hats today. They bear the inscription, "Vote for Wood." None of the feathers is white.

Col. "Bill" Alexander, Hastings, Neb., doesn't think much of these new fangled styles. He wanders through convention crowds in a sombrero, Prince, Albert, with his white hair reaching down to his shoulders. He is an old friend of Buffalo Bill and looks like the late Indian fighter.

The president's private car, "Mayflower," on which Woodrow Wilson made his tour of the country last September, arrived in Chicago from Washington yesterday. Some delegates think it's an omen.

CONGRESS WILL MODIFY OBNOXIOUS BUDGET BILL

CONGRESS TO ADJOURN AFTER PASSING UP MANY IMPORTANT MEASURES EFFECTING COUNTRY

WASHINGTON, June 5.—With sine die adjournment set for 7 p. m. both houses of congress faced busy sessions today.

Many of the more important bills were cleared away in night sessions which lasted until early today but crowded calendars still confronted both the house and senate.

The house has been notified by Chairman Porter of its foreign affairs committee that it would be called on to act during the day on the senate resolution declining to grant President Wilson authority to assume on behalf of the United States a mandate over Armenia. Forty minutes debate was to be permitted and amendments were to be barred. Republican leaders expect the resolution to be adopted.

Budget Bill.

On the second important matter confronting the house—the veto by the president of the bill to establish a national budget system—leaders were undecided. Supporters of a budget system were urging that the provision which would eliminate the committee be eliminated, while some republican members advocated that the bill be allowed to die and the president's veto be used as a campaign issue.

Decision of the senate to recede from its amendments adding \$12,000,000 to the annual rivers and harbors appropriation bill presaged enactment of that measure which will be the only one of the big supply measures which have not been sent to the president. The original house bill carried \$12,000,000. The conference report on the third deficiency appropriation bill carrying \$58,000,000, including \$14,000,000 to meet the deficit resulting from government control of telegraph and telephone lines, was adopted by senate and house early today.

Income Tax.

Insistent demands from Senator Harris, democrat, Georgia, had brought from senate leaders the promise to act on his resolution asking the treasury department to post public bondings of large corporations as shown by income tax statements.

Measures on which legislative action was expected last night and which go to president today, include: The measure repealing all war laws with the exception of the Lever act; the measure authorizing the president to grant increased pay to postal employees beginning July 1; and the merchant marine bill.

Flat refusal to an ultimatum delivered Saturday morning by representatives of the various building craft at work on the Kemp hotel to the effect that union plumbers be employed on the hotel at \$14 per day or have the workmen of the other crafts quit, was promptly returned by the directors of that institution Saturday morning, according to an announcement made by the officials of the hotel.

The ultimatum delivered, allowed the directors until 2:30 Sunday afternoon to make their decision, it is stated.

Following the plumbers' recent strike for \$15 per day which was refused by the directors of the hotel, no plumbers have been employed there, although the other union workmen have been going ahead with their work.

Under the contract for the building of the hotel, the announcement stated, it was to be constructed with union labor, and although the workers who have a decided and complete the building under open shop conditions.

This situation is regarded as the most important development following the inauguration of the open shop movement here by members of that association, who declare that they will not work on the hotel unless the building trades are regarded as having precipitated with respect to the most important single piece of construction work in Wichita Falls.

It is a striking example of the absolute lack of consideration for the obligations of workmen to employers which has been shown every condition in the city. The union ultimatum was delivered in order to meet a demand for the needs of the city which they claim as their home," said R. O. Harvey, member of the executive committee of the building trades union, a director in the hotel company in discussing the matter at a meeting of the executive committee later in the day.

Harvey, member of the executive committee of the building trades union, a director in the hotel company in discussing the matter at a meeting of the executive committee later in the day.

They are silly rumors. When I last saw the president he was in such good condition I didn't think it necessary to return to see him. I have discontinued my regular visits to the president."

BROWN SENTENCED TO HANG FOR ASSAULTING WOMAN

DALLAS, June 5.—Motion for new trial for James Brown, negro, sentenced last night to pay the death penalty for assaulting a woman near here last week, was filed in criminal court here today. Judge C. A. Pippen was to pass on the motion this afternoon.

DALLAS, TEX., June 5.—James Brown, negro, charged with criminally assaulting a 56-year-old white woman, must hang for that crime. The jury which heard the case, which covered only one day, returned a verdict of death sentence in 10 minutes deliberation late yesterday. The trial was held one week after the crime was committed and attracted wide attention throughout the state.

G. O. P. PARTY TANK COP DRIVE ON WOOD FRONT

Senator Moses Denounces Action Committee Decision as Derogatory to Wood

NO HOPE OF NOMINATION ON FIRST BALLOT

Free Delegates Find Quandary in Regard to Political Barometer

CHICAGO, June 5.—Charges of Senator Moses of New Hampshire that the republican national committee has used "steam roller" methods in deciding contests were denied by several committeemen at today's committee sessions.

J. B. McCoy, national committeeman from the Philippines, brought up the Moses charges and, declaring he was a Wood supporter, denounced Senator Moses' statement as "absolutely unwarranted."

National Committeeman Highland of West Virginia, who also said he is for Wood, made similar statements.

Neither Wood nor Col. William C. Proctor, his campaign manager, support charges of Senator Moses of New Hampshire that the national committee has used "steam roller" methods in its contest decisions, Mr. McCoy declared.

CHICAGO, June 5.—Disagreement between General Wood's managers over whether to repeat a national committee has been "steam rolling" which was needed to wind up the republican convention preliminaries with a three-day finish.

Although Senator Moses, one of the general's managers, has denounced the decisions of the committee which have sent Lewis Nelson, a known and contentant as a "steam roller" procedure, General Wood himself has followed it up with a personal statement expressing confidence in the fairness of Chairman Hays and his claim to believe that the committeemen are permitting their personal preferences as to candidates to enter into the decision which will determine the character of delegations.

Steam Roller.

Steam roller talk has not appeared in the preliminary place the celebrated Taft-Roosevelt contest of 1912 and it adds to the noise and confusion in which the unfranchised delegates, so to speak, is having some difficulty in locating the band of marching.

There are several elements which contribute to the support of predictions that it is going to be a regular old time republican party being personally conducted Saturday everything looked pretty tame. Charles Evans Hughes was as good as nominated, although it was generally known and the atmosphere was placid. Today there are a dozen little whirling eddies each loaded with possibilities of developing into cyclonic proportions.

Many states are being guided by the preliminaries of four years ago are absent now and a good many new elements which make for confusion are present in the first place the majority of the delegates are unfranchised and although, as is generally the case, a majority of them are anxious to board some vessel or wagon, there does not seem to be any one direction.

There are several vehicles ready to be rolled out but the horse power does not seem to be mobilized as yet and everybody seems to be having little real information so far as to the starting point of the procession, although they are being invited in half a dozen different directions.

Then there is the absence of the steady influence of the old time leaders who have hitherto been able to guide the destinies of the convention. The bosses who speak with a note of authority seem to be absent and although the incoming delegates are willing to be led, they don't find any one to lead.

Program Planned.

If the program being talked of is carried out, the leaders of the delegations from the larger states will have a conference and decide whether they will pool their votes and, returning to the convention next morning, cast them for the man about whom they have hopes of rallying enough support to command a majority.

Whether he be dark horse or one of the candidates now in the field, no one assumes to say that the preliminary balloting can determine it. But with that as a starting point, the season politicians are quite sure there will be little delay in getting to an agreement.

It may develop that some of the candidates now in the field, besides having good prospects for nomination, will be able to get a veto power which will compel the compromise managers to accept a man of whom they are not sure.

Senator Johnson of California is always mentioned when the probability is being discussed and none of the practical politicians denies the forces of the argument.

TO CONSIDER FINAL PLANS NINTH STREET PAVING

Final plans for the paving of Ninth street from the terminus of its present paving to the end of the street will be considered by the city council at a meeting of Ninth street property owners at the Chamber of Commerce rooms. Little difficulty is expected in putting through the program, as the Wichita Falls Electric Company and the Wichita Falls Electric Company are in full accord with the plans, contractors who have materials sufficient for the paving are ready to undertake the contract, and practically all of the property owners on the street have expressed themselves as favoring the paving plans.

FAGAN BURCH TAMES BEARS AND HOLDS THEM SCORELESS WHILE SPUDDERS POUND OUT TWO RUNS

The Spudders with Fagan Burch in the box, won up their home stay yesterday in a blaze of glory when they forced the San Antonio Bears to bow down to defeat for the third time in succession.

"Barney" never pitched a better game in his life and had his former teammates on the hip. He could not hit him legitimately they started kidding him and every man as he stepped to the plate, had a few words to make.

Fincher worked for the Bears and twirled a great game. He hit them and was able to say hitting behind him, he might have gotten away with a win.

Burch was backed up by an air-tight defense. Tanner and Mokane broke into the limelight with their raising stops and catches and the rest of the Spudders handled everything that came their way in faultless style.

It was Burch himself who started the onrushing Spudders to victory. With one out in the third, he drove a clean single to center.

Kitchens was the only Spudders to see second or third after that. He singled to right in the fifth and went to second when Wetzell played the ball like a busher.

The Bears had a golden opportunity in the seventh, but they let it go. Strahan and Gross then in order before any damage was done.

MARKETS COTTON MARKET. New York Cotton NEW YORK, June 5.—Reports of further rains in the south and still more numerous crop complaints from western belt sections were followed by an opening advance of 18 to 23 points in the cotton market today.

NEW ORLEANS, June 5.—Continued unfavorable crop accounts and reports that the weevil was increasing put the cotton market higher around the opening today but it advanced was not well sustained owing to heavy realizing from the long side.

LIVE STOCK. Kansas City Livestock KANSAS CITY, June 5.—Cattle 450; for week; beef steers and yearlings uneven, \$1 61.50 higher; fat she stock 25c to \$1 higher; southern steers 50c to 75c higher; bulls and calves strong 25c higher; stockers and feeders dull, 50c to 75c lower.

GRAIN AND PRODUCE. Chicago Grain CHICAGO, June 5.—Bearish sentiment developed in the corn market today as a result of expected accumulation of receipts during Sunday. Selling was also stimulated somewhat by gossip that Boston was offering corn at ten cents under current call quotations.

**Have You Ever Owned a Good Fountain Pen?**

Avoid writing troubles with the always dependable CONKLIN. Its superiority is proven by the following facts:

- it's the original self-filler and still the leader with 2,000,000 satisfied users.
- it is the only pen having the famous "Crescent-Filler."
- it has the strongest and simplest filling device.
- it will not leak, blot nor drop ink.
- it will not "balk"—writes at the first stroke.
- it will not scratch—pen action is smooth and easy.
- it will not roll off the desk—"Crescent-Filler" prevents it.
- it's backed by the strongest and broadest guarantee in the fountain pen field.
- there's a Conklin point to suit every style of handwriting.

Try one today—and you'll never be without your CONKLIN.
