BRYAN HAS ONE HARDEST FIGHTS CAREER, TO CONTROL CONVENTION

By HUGH BAILLIE. (United Press Staff Correspondent.)

SAN FRANCISCO, June 25.—William J. Bryan, arriving here today, faces one of the hardest fights of his career to wrest from the administration control of the democratic national convention.

The convention as at present organized is practically entirely in charge of the friends of President Wilson, and the program is to put it on record as endorsing the executive's policies, particularly the league of nations, and to go into the campaign on that issue.

Bryan is believed to be determined to break up this control, prevent them from flittingly endorsing the league and making the race on Wilson's record and to injection of a number of new issues into the situation.

When he stepped from the train in San Francisco this afternoon, however, he found his opponents who have been on the ground for two weeks, apparently "sitting pretty" and confident that the commoner's eleventh hour arrival will not seriously annoy them.

demands and that it took the president 40 days to appoint the railway labor board after the Each-Cummings bill authorizing it had become law.

"We are here to discuss some way of avoiding the danger because of the government's delay in passing on our wage demands," Mr. Lee said. "Unless immediate action is taken we fear the transportation situation will be paralyzed. We do not know why there should be any longer delay by the railway board. Every pressure possible has been brought to bear to get a decision."

"One of the biggest dangers to be faced now is the one big union idea, propagation of which is responsible for the sporadic strikes now going on. It is up to the powers to decide whether they want the one big union idea, which caused strife in 1894, or whether they want the strong, sane organizations which have kept the men in a reasonable mood for many years."

Mr. Lee denied that the unions were planning to call a general strike to force a speedy decision by the wage board. An effort will be made by the brotherhood leaders to confer with Judge R. M. Barton, chairman, and other members of the board today.

ELWELL MURDER STILL PROBLEM N. Y. POLICE

NEW YORK, June 25.—Search for the murderer of Joseph B. Elwell today centered on efforts to ascertain the identity of a man who trailed Elwell's taxi and entered the whist player's house the night of the murder.

A letter written in 1916 threatening Elwell was in the hands of officials today. They are investigating the theory that the writer may have killed Elwell.

Mrs. Helen D. Elwell widow of the slain gambler, said the name given in verbal threats recently transmitted over the telephone to Elwell was similar to that of a friend of hers.

Police today said they had obtained new evidence from Mrs. Marie Larsen, Elwell's housekeeper, on her ninth examination.

WASHINGTON, D. C., June 26.—The population of Wichita Falls, as announced by the census bureau this morning is 40,079.

Wichita Falls has gained 31,879 people, or upon a percentage basis shows a gain of 388.8 per cent.

This places Wichita Falls in the leading ranks of the smaller cities of Texas. Its growth during the past ten years, will undoubtedly surpass any city in the State, and with very few exceptions, go beyond the percentage gain of any city of the United States.

This means that within ten years the population of the city has more than trebled the census report of 1910, which gave to Wichita Falls a total population of 8,200.

While there is no authentic figures on the official growth of cities of the country, it is believed Wichita Falls has shown a greater growth than any city of the country, according to percentage.

U. S. POPULATION NEAR 105,000,000

WASHINGTON, June 25.—The population of continental United States is estimated at 105,000,000 by J. A. Hill, chief statistician of the census bureau.

The increase in the population of the country has not kept pace with previous decades. Almost complete cessation of immigration during the war is the chief reason assigned for the falling off.

The aggregate population of the cities and towns on which the estimate was made is 41,029,354. This is an average gain of 26 per cent compared with 35 per cent in the previous decade.

REDS PLAN SPREAD WORK IN AMERICA

WASHINGTON, June 25.—Establishment of a Latin-American branch of the third international of Moscow at Mexico City to spread communist propaganda in North and South America is reported by Excelsior of Mexico City, copies of which have been received by the state department of officials.

According to Excelsior, the Mexican capital is the center of the bolshevik activity on this continent and it is from there that soviet propaganda in the United States as well as in the Latin-American countries is being directed.

The Mexican police authorities, Excelsior says, have begun arresting active agents of the Moscow soviet government at various points in the past two years, soviet agents, plentifully supplied with money, credentials and leaflets, and said to have built up a strong organization.

Excelsior says the leader of the organization is a Russian named Gruesenberg, who with two others, is now on his way to Moscow to obtain a fund of \$18,000,000 to finance the work of the bolsheviks in the Americas.

CHASING "BOOTLEGGERS" IS BOB M'FALL'S HOBBY

Chasing the crafty liquor runner amid the forest of derricks that border the Red river is the favorite pastime of Sheriff Bob McFall and his lieutenant.

Charlie Behout's little Ford rambled right along late last night through the towering derricks of the Waggoner pool, and many oil field "roughnecks" were roused from their sleep by the "laws" as they rushed into the heart of the oil field.

In a little shack upon the banks of Red river, Dick Fordy, deputy sheriff, found an old still and a quantity of moonshine liquor.

For the purpose of cutting ice expeditiously during the past winter there was devised a saw of an automobile type power plant and a circular saw at the end of an adjustable arm so that the ice could be raised and lowered to the desired degree.

The portable saw in question cuts the ice into 20-foot squares. These squares are guided through the water to a gang of four circular saws, which cut the squares into the regulation steel cakes.

The low delegation was greeted on its arrival by "Turkey in the Stray" blared by a brass band posted in a hotel lobby.

Three new Californians cheered mightily for Bryan when the Nebraska party debarked from a ferry boat last night.

HOOVER MENTIONED AS SEC'Y. OF STATE

By RAYMOND CLAPPER (United Press Staff Correspondent)

WASHINGTON, June 25.—Despite efforts of Warren G. Harding, republican presidential nominee to discourage all speculation regarding cabinet selections, the name of Herbert Hoover as a possible choice for secretary of state was circulating here today.

The Hoover talk started when he took breakfast at Harding's house immediately upon return of the nominee to Washington. Harding expressed himself as highly pleased over his concurrence with Hoover's selection.

Harding is known to hold Hoover's ability in high regard. Other factors making Hoover a logical choice are his thorough acquaintance with European affairs, the high esteem in which he is held abroad because of his food distribution efforts and the confidence Hoover is reported to have in international handling of the war's aftermath.

At the Majestic
Take it from Florence Billings, who is being featured in his first American motion picture production, women will go wild over Georges Carpentier. The French idol is the star of "The Wonder Man," the Robertson-Cole super-special at the Majestic theater.

Why? Look at him! Any woman who has an ounce of red blood in her veins would want to meet him. He is a great, big, wholesome boy and the very type that women rave about.

At the Empress.
The name of George Walsh, the well known Fox star, is synonymous with virile action and dramatic intensity, and the motion picture public has learned to expect these qualities in every photo production in which his name is billed as the star.

The story is laid in the Cumberland mountains of Kentucky, which have afforded material for so many of the dramatic and romantic stories for plays and cinema productions.

The story deals with the loves, hates and joys of two families of mountaineers who have enjoyed a bitter enmity toward each other for years.

Thrilling battles in the mountain fastnesses, raids of night riders, court trials and daring rescues of prisoners from the hands of the sheriff are among the high lights of the picture.

Clay Boone, played by George Walsh, and Lem and Zeke Harlan are the leaders of the feudists after their respective fathers have been killed in clashes between the two families.

Class. H. F. Robertson will open her class in china painting, etc., June 24. Those interested please come at once as there will be only a six weeks' term. 1310 Thirteenth St. Phone 309. 41-tfc.

BRET HART STORY WILL BE THEME OF SERMON

Rev. H. D. Kniekerbocker, pastor First M. E. Church, South, makes the following announcement concerning his services Sunday: "The Outcasts of Poker Flat," by Francis Bret Hart, is one of the eight greatest short stories in American literature. It is full of intense interest and high lights of a flaming sort.

The night service begins with a prelude concert at 8:00. An orchestra, two pipe organists, pianist and several splendid singers take part. Krump's concert orchestra will render the "Overture to Masanello" by Auber. It was this selection that was one of the primary causes that brought on the revolution in Belgium in 1830.

At the morning service my subject will be "Men Whom Christ Loved, and Why He Loved Them." Contrary to the usual opinion Christ didn't love more than others. It is a very interesting study to find out whom he loved, and what their special lovable qualities were.

WASHINGTON, D. C., June 26.—The population of Wichita Falls, as announced by the census bureau this morning is 40,079. Wichita Falls has gained 31,879 people, or upon a percentage basis shows a gain of 388.8 per cent.

This places Wichita Falls in the leading ranks of the smaller cities of Texas. Its growth during the past ten years, will undoubtedly surpass any city in the State, and with very few exceptions, go beyond the percentage gain of any city of the United States.

This means that within ten years the population of the city has more than trebled the census report of 1910, which gave to Wichita Falls a total population of 8,200.

FRISCO HOTELS CROWDED WITH POLITICAL ASPIRANTS ON EVE OF THE NOMINATION BATTLE

SAN FRANCISCO, June 26.—Com-pletion of the temporary roll of the democratic national convention was in sight today when the national com- mittee resumed consideration of cred- entials with the Georgia case before it and Senator Reed's effort to gain a seat on the floor with the Mis- sissippi delegation also to be passed upon.

PREVIOUSLY IT LOOKED CERTAIN THAT HE WOULD BE DENIED A SEAT

Previously it looked certain that he would be denied a seat, having been refused as a delegate at large by the state convention. There were judi- cial decisions that some observers pre- dicted would give the Georgia case a position among some committee mem- bers not to oppose the senator's plan for getting on the convention floor.

THE INFLUX OF DELEGATIONS WHICH BEGAN YESTERDAY

The influx of delegations which began yesterday, continued and added hourly to the physical and conversa- tional congestion in hotel lobbies. Out of the din arose what some observers pro- fessed to recognize as a spirit of nomination sentiment toward Gov- ernor Cox of Ohio.

ACTION OF THE NATIONAL COMMITTEE YESTERDAY IN ADOPTING RESOLUTIONS

Action of the national committee yesterday in adopting resolutions urg- ing the convention to grant equal com- mittee suffrage and membership to women of the party gave the delegates another subject to discuss. Women delegates, of whom there are an un- equal number, previously were eluded.

CONVENTION PROGRAM

SAN FRANCISCO, June 26.—Fok- lowing is the tentative program for the first two days of the democratic national convention as decided upon by the national committee.

Monday, June 28.—Noon. Called to order by J. Bruce Kremer, vice chair- man of the national committee.

Prayer by Right Rev. P. L. Ryan, vicar general, diocese of San Fran- cisco.

Reading of call for convention, by E. G. Hoffman, secretary national committee.

Announcement by Vice Chairman Kremer of temporary organization de- cided upon by national committee.

committee-man from California, was host in fact last night at a dinner to his committee colleagues. No po- litical speeches were in order and such fixing up of platform or candi- date slates as occurred was highly informal and confidential.

Out of gossip started by the enter- tainment, however, came a new re- port of a fight between Chairman Reed and the resolutions committee which will draw up the platform.

Senator Glass of Virginia has been vigorously accepted as slated for the post, although there has been strong talk within the last day or two that Senator Walsh of Montana might get the job. President Wilson, who is also, while Senator Walsh came in yesterday.

The Montana senator has the backing of W. J. Bryan, who also ar- rived yesterday, armed and equipped, for a knock-down-and-drag-out fight against an attempt to place Mr. Bryan slightly moist plank into the platform. Senator Walsh has expressed opposition to a prohibition plank.

Mr. Bryan also is credited with ideas of his own as to the League of Nations plank, not in accord with the Virginia state platform declaration approved by President Wilson. (By- ing to these considerations the fight over the resolutions committee chair- manship was generally taken to be a struggle between administration and Bryan forces for control.)

Mr. Burleson's coming revived in- terest in his recent public castigation of certain provisions of the Volstead enforcement act as "absurd." That statement gave wet plank talk in platform discussion a zest it had not previously known. Even now, when many forces appear to be combining to suppress this issue completely and leave the platform silent on the sub- ject, there is great interest, watching the course Mr. Burleson will take and argument as to the extent to which he should be viewed as administration spokesman on the point.

Equal suffrage plank, which be- gan yesterday, continued and added hourly to the physical and conversa- tional congestion in hotel lobbies. Out of the din arose what some observers pro- fessed to recognize as a spirit of nomination sentiment toward Gov- ernor Cox of Ohio.

"I have no plan whatever," Bryan asserted when asked with whom he planned to confer first. "Of course, it is a safe assumption that I'm likely to meet democrats from time to time." With regard to proferring and the possibility of a plank pledging the party to suppress it, Bryan said he "took it for granted" there would be a strong plank on that subject. He said he intended to work for a strong platform and a ticket that would win. He would not discuss the various can- didates, as he said the platform would have a bearing on what candidate will be accepted, indicating it should be disposed of first.

The commoner traveled with the Nebraska delegation and got his first welcome to California at Sacramento, where a crowd had gathered. Bryan looked rather tired. He wore the fa- miliar black alpaca and a high crowned straw hat with a wide black band.

GREEK FORCES ARE ADVANCING ON TURKS

LONDON, June 26.—Greek forces stationed in the Smyrna district are advancing in four directions into Ad- ministrative. A statement made public here today by the Greek legation, quoting an official communique given out in Athens Thursday.

PARIS, June 26.—Turkey's peace delegation was ready this morning to submit that country's reply to the terms of the treaty presented by the allied nations. The reply was to have been transmitted on June 11, but extension of time amounting to fifteen days was granted on June 7.

Advices from Constantinople would appear to reflect a disposition on the part of the Sultan's government to adopt the view of the Turkish national- ists, who have insisted that any treaty which deprives Turkey of Smyrna, eastern Thrace and Adrian- ople could not be signed.

BEARS SPILL PAPIKA ALL OVER PASTURE AND DEFEAT SPUDDERS 4 TO 1 IN WELL PLAYED CONTEST

The San Antonio Bears brought a real ball club to Wichita Falls this time and defeated the Spudders at Athletic park yesterday in the last game of the first half of the season, 4 to 1. A snapper brand of ball has not been seen at the local grounds this year than was displayed by the visitors yesterday. Every Bear was on his toes all the time and they romped away with the pastime in big league fashion.

Stewart and Sims were the opposing slabmen and while the former had the edge on Sims, the local hurler pitched a mighty good game of ball. All the breaks were against him, and his support was very ragged. Spudder hurlers have won games when they did not pitch as well as Sims did.

The Bears took advantage of every Spudder bobble and hit well in the pitcher's box. The Spudders did not have any bobbles to take advantage of as Stewart was backed up by an impregnable defense.

Johnny Mokane was the shining light of the matinee. He contributed the fielding gem of the day and also pounded out a circuit which gave the Spudders their only score. With a man on base in the opening inning, Booe drove one to short left center that had all the earmarks of a safety.

Johnny left his position with the crack of the bat and picked the ball off his shoe strings with his gloved hand while running at top speed. It was as pretty a catch as has been made here this year.

Not content with breaking into the limelight on that occasion Johnny again broke into the calcium rays in the fifth. With the count three and two on him, he set himself for Stewart's next pitch and started swinging when the ball left his hand. The ball hit his hat and bounced off the top of the end and sailed over the left field fence less than a yard inside the line.

Johnny took his time around the sacks and politely doffed his hat several times as he approached the bench.

Gibson, who piloted the Bears in Johnny's absence, was the outstanding pitcher in the visitors' play. Not only did he field like a champion, but it was his bat that turned the tide in his side's favor.

The Bears got a run in the first that they never should have had. Miller dropped a bunt early in the game and the man who had been retired and the next man was thrown out by Storey. The side should have been retired then and there, but instead a runner was perched on second. Knisely patted a single to left that scored Northern. Mokane's circus catch on Booe made the third out and prevented another tally.

Storey's boot aided the visitors considerably in the next session. Gibson opened with a double to left center, gross hit one that Storey should have had but missed and by the time the ball got back to Sims, Gibson was on third and Gross on second. Johnson slammed a single to center that scored Gibson but Gross was held at second. The drive was so fast that Gross could not get started. Stewart made a poor attempt to sacrifice and Gross was forced at third. Sims to Grubb. Johnson went out the same way when Fuller hit to Sims. Brownlow took care of Northern's groundout and the side was retired.

The SPORTLIGHT by Grantland Rice

The Mystery Sport is replete with mysterious episodes and performances. There are times when its turns are beyond all computation in the whirl of the game.

One of the most mysterious turns of all is Great Britain's inability to develop a heavyweight champion who is worth his weight in cheese.

Here we have a nation that in golf has developed its Vardon, Braid, Taylor, Hilton, Ball and Tolley—among countless others.

A nation that in tennis has sent forth its Doherty's, its Willings, its Brooks and a long line of other stars and wrest away the Polo Cup from our veteran four.

A nation of great oarsmen and of fine long and middle distance runners. Great Britain in a way has been a nation of athletes, with innumerable cricket and football stars at both rugby and soccer.

Why is it that a nation capable of developing so many stars along all other lines—has been unable to develop one heavyweight star in twenty-five years of constant effort?

Why is it that a nation able to develop a Wilding, a Brooks, a Vardon, a Braid, a Jackson, etc. has never been able to produce a quarter of a century to develop a Sullivan, a Corbett, a Dempsey—even a Willard or a Fulton?

This is a tender point in British pride. Here in the steamy year of 1920 they are meeting us on land and water—at golf, tennis, yachting, track athletics and various other ways—but the heavyweight championship is a matter between an American and a Frenchman.

It is a queer turn, figure it any way you will. A turn to which at present no one seems to have a key reply.

Sport Comment By Paul W. Larkin

Sims looked great, even though defeated. If he huris as good ball as he did yesterday for the remainder of the season, Manager Salm need not kick.

We had a read umpire at last. Paul Sentell ran the game as if he knew what he was doing. The fans appreciated it too, and gave him a great reception as he walked out to announce the batteries.

White caught his first game for the Spudders and no game could be found with his work. He hit safely once and fielded in faultless shape. He has not recovered the range to second yet, however, due to his long lay off.

Johnny Mokane knew that the ball he hit over the fence had to be in the groove. The count was three and two on him.

Northern and Storey ran neck and neck for prize "home" honors. Hat threw to second in the sixth in an attempt to catch Josefoson, when he didn't have a chance in the world to get him. Storey threw to first in the eighth in a wild attempt to get Knisely, though the latter was only a step away from the bag.

The Spudders entered the fray several dollars richer than they thought they would be. Clois Greene handed out \$840 cold simoleans to the men on the bench just before the game.

Running faster than a scared rabbit no longer indicates speed in these days of racing autos that can turn 150 miles an hour. Here's the proof:

Tommy Milton, "world's speed king," by virtue of driving 156 miles an hour recently at Daytona Beach, gave a public exhibition in his big car on the Saturday preceding the Indianapolis races. As Tommy came down the stretch on his preliminary lap at

 SATURDAY, JUNE 26, 1920.

The New York Times comments on the significance of the large amount of comment in the foreign newspapers on what used to be considered a matter largely of concern local to the United States, the nomination of a presidential candidate. Not only is there special editorial comment, but there is very much more correspondence from their American representatives, whereupon to base editorial comment. Noting that the time was when American dispatches to European papers on political affairs were few, the Times says, "those days are past, and adds: "At present the foreign editors regard the United States with decided seriousness, and they take, in most instances, pains to have information on which to found their opinions. They still make occasional mistakes about us—but that's done here, too—and they still are as often surprised as pleased by our behavior. Next to always they try to be kind, less because they love us, perhaps, than because they need our services of various sorts. That, however, is human nature, and it is not necessary to go abroad to find the trait displayed."
 It is but fair to say, too, that American papers are demanding fuller dispatches from Europe than they ever demanded before; that our comment upon European affairs is generally better informed and much more concerned than it used to be. Indeed, since the world war, the nations of the world are better acquainted with world affairs, there is less provincialism, less insularity, greater knowledge of other peoples and their affairs, and as a direct consequence, greater concern in their affairs because we have learned as they have learned that the old world is a pretty small entity after all, and that there is a commonality of interest and concern in the major events of the world, the effects and results of which cannot be confined to any one country, as the world used to think it could be. The nomination of a President of the United States is of more than passing interest in European chancelleries; the election of an American President is of vital concern, because upon his attitude toward European affairs very much from the European standpoint depends. Conversely over here major events in a dozen capitals in Europe are of genuine interest and importance because they have a real bearing upon our own affairs.

Action of the republicans at Chicago has committed the "grand old party" for this year at least to the role of conservatism, for its platform is conservative where it isn't a straddle, and its nominees are conservative as in the case of Coolidge to reactionary as in the case of Senator Harding. The republican party has always been inclined to conservatism, for that matter, and its steam-rolling of Roosevelt in 1912 was due to that more than any other one consideration. Political strategy, as well as party predilection, would lead the democrats into the progressive classification, and that is where the democrats have been since 1896 with the single exception of 1904. But the dispatches indicate that the "old guard," composed chiefly of reactionary democrats of the east and Tammany chieftains, are still not satisfied and that the San Francisco convention will see a recrudescence of the battling hosts that have fought openly or under cover in every democratic convention for many years. The effort to commit the national democracy to toyism will fall in 1920 as it has failed regularly for the past thirty years, and the tory vote gets less and less with each passing year.

With Other Editors
 The Nomination of Harding. (New York Times.)
 Upon a platform that has produced general dissatisfaction, the Chicago convention presents a candidate whose nomination will be received with astonishment and dismay by the party whose suffrages he invites. Warren G. Harding is a very respectable Ohio politician of the second class. He has never been a leader of men or a director of policies. For years a protégé of Foraker, he rose to a subordinate office by favor of "Boss" Cox of Cincinnati. Beaten by Judson Harmon in the contest for the governorship in 1910, he has never shown independent strength in his own state save when he was named for senator in 1914, having a majority of a little more than 100,000 over his democratic competitor; and outside of Ohio he has only such strength as he now derives from his place at the head of the republican ticket. Senator Harding's record at Washington has been faint and colorless. He was an undistinguished and indistinguish-

able unit in the rank of republican senators who obediently followed Mr. Lodge in the twilings and turnings of that statesman's foray upon the treaty and the covenant.
 The nomination of Harding, for whose counterpart we must go back to Franklin Pierce if we would seek a President who measures down to his political stature, is the fine and perfect flower of the cowardice and imbecility of the senatorial cabal that charged itself with the management of the republican convention, against whose control Governor Beckman so vehemently protested. Rejecting Leonard Wood, probably the strongest candidate with the people the party could have chosen because they know he would never be dictated to by them they favored Governor Lowden until Borah saved upon them his notice of a veto of that nomination. Borah was commanding and tractable because he knew that he had to deal with a group of white-livered and incompetent politicians. If republican leadership had not been in the hands of pigmies the chief men at Chicago would have told Borah to bolt and be hanged just as upon the issue of the league they would have defied Johnson to do his worst. But they ran like a frightened flock, surrendering everything. Mr. Lodge finally throwing off all disfigurements and standing on the open edge of the covenant of the League of Nations, even with his own reservations.
 What has befallen the republican party of the early days, the party of sixty years ago, when it was possessed of moral purpose, or of forty or thirty years ago, when it could still profess to have them and find believers?
 Where are its leaders that can be compared to Morrill, Seward, Hale, Platt, Conant, Oliver, E. S. Horton, Sumner, Blaine, Conkling and a dozen others who rose to high places in party councils? And if the question be not too unfeeling, where and what are its principles? Any it have? Party control, exercised by a group of Senators, is divided between Lodge on the one hand and the measure to Johnson on the other. None of them, none of their accomplices in party degradation, would have come within hailing distance of the foremost of our party chiefs in the brilliant days of republicanism. And for principles, they have only hatred of Mr. Wilson and a ravening hunger for the offices.
 Governor Coolidge for vice president really shines by comparison with the head of the ticket. He, at least, is a man of achievement, he is known to the party and to the nation. When the police force of Boston went on strike he showed himself to be a man. He met the menace to the public safety with courage and determination, and the nation rang with praise of him. It is fortunate that not a word is to be said against the character of either candidate. They are irreproachable. But that does not compensate for the lack of achievement, for the colorlessness of the candidates for first place, or for the manner in which his nomination was brought about. It will be felt and said everywhere that the democrats at San Francisco have received from their opponents at Chicago the gift of a splendid opportunity.

VOICE OF THE PEOPLE
 The Long Delayed Awakening.
 Editor The Times:
 I suppose it is more pleasant to let the other fellow do the kicking and keep your hair smooth, while enjoying the fruits of your undisturbed graft in whatever line you happen to be in, but I for one, am tired of reading day after day of the ever-increasing crime in and around the metropolis of Wichita Falls.
 The police department is apparently doing all in its power to apprehend the criminals and punish them according to law, but the result is not being attained. I read some few days ago where the department is striving to cure crime by preventing it, but they are not attacking the largest roots of evil in their attempt. We all know that a great majority of crimes, such as have been occurring here of late, are the results of idleness and poverty. When a man takes from another that which does not rightfully belong to him by one means or another, we readily recognize the reason, greed and poverty, and in most cases poverty. Where should we start on a clean-up campaign?
 No other place than in our streets, by removing every trace of a good and palatable explanation of its presence. The police officers should not stand by and see hundreds of idle men pressing the pavement without occupation; it is hard to pick him out personally, but the very fellow who committed the robbery of which we read daily, is right there among the daily loafers on the sidewalks. We should make it so unpleasant to loaf that that fellow would get a job and earn his daily bread instead of taking it by force or otherwise from his fellow citizen.
 The mayor of Burk Burnett has seen the light and is requiring by recent order an explanation by every unemployed man. Conditions will begin to improve from this very date, as we know from results obtained in all communities.
 The fault in Wichita Falls is not with the patrolmen, but with the administration, who should dictate the proper policies. Just as an interested citizen, I would like to see this matter given some consideration.

 This is rather a doubtful day in its cumulative planetary influences, according to astrology. While Uranus and Saturn are in benefic aspect in the early morning, Neptune is strongly adverse during the hours of business. In the evening Jupiter is friendly.
 Distortion of view on public questions is held to be encouraged by the malign power of Neptune which clouds the mind and encourages belief in evil.
 Deceit and treachery are supposed to be much easier to practice while this configuration prevails.

MANY WOMEN VAGRANTS ARE BEING ARRESTED
 Rumors of a general shake-up in the police department floated listlessly around city hall corridors this morning, but officials in position to affirm or deny merely smiled and changed the subject of conversation. Police Commissioner Bralley admitted that "not every man on the force will remain," but had no further comment to make.
 The commissioner has launched a campaign to rid the city of "rags," women of questionable character and men who associate with women of that class. Following raids made two days ago, some 40 or 50 women, it was said at the hall, had left Wichita Falls last night.
 "We are giving them every chance to leave town," Commissioner Bralley added. "If they stay, and continue to offend, they will be arrested repeatedly. And the city jail is being reinforced and strengthened so that it will hold 'em, too; you can make that statement emphatic."

Do not feel lonely, but come; you are only a stranger once at this church.

"Why Men Leave Home."
Very few people want to be mean and when they are there is usually a cause. With the great change of the social order coming so rapidly, let us not forget that we are facing grave dangers, that are threatening our government. Let it not be forgotten that a nation cannot rise higher than the

home life. Dr. P. E. Bingham will discuss the above in a special sermon-lecture at the First Methodist church, Seventh and Lamar, Sunday. If you cannot stand a plain talk don't attend. Services begin at 8:00 p. m. Good music.

Take Command---

Young man, you're in charge of a campaign.
Defeat or victory; the result rests squarely upon your shoulders.
The army of days—days always marching by—are the troops at your command.
Each day is a force if you use it. Each day is a loss if you abuse it.
Your bank book is a record of your campaign. It tells of your fight with life.
If each day shows a greater balance, you are winning—keep it up.

I AM

I am the faithful slave who answers your call in the morning, the evening, or at the noontide of the night. I am the world's utility man; my office hours are any hour of any day in the year. My mission is one of service to humanity. My work is a skilled one on which the well-being of the afflicted must depend, and in which there is no place for a drowsy brain or a bungling hand, lest they take human life. I feel the weight of responsibility and note that age is creeping upon me ahead of my years, but when I have answered your last call and the long vigil is over, methinks I shall hear the wee small voice saying: "He helped the world by his service to mankind," and this shall be my reward. I am your skilled servant, your friend in time of need, and a link in the sprocket chain that drives the machinery of the universe.
