McADOO REFUSES TO PERMIT NAME IN NOMINATION

Jenkins Accedes to Request and Decides Not to Make Nominating Speech.

STAGE SET FOR THE NOMINATING SCENE

Addresses Will Be Limited to 20 Minutes and Seconds to Five.

SAN FRANCISCO, June 30.—Definite and final instructions came from the east early today that William G. McAdoo's name was not formally to be placed before the democratic national convention.

Burrus Jenkins of Kansas City, who was prepared to make a nominating speech for McAdoo, revised his plans and decided to accede to the wishes of the McAdoo managers.

"This action was taken with my entire approval," Jenkins said, "and the final instructions had been received in San Francisco that his name was not to be formally placed before the democratic national convention. He would make no further comment."

AUDITORIUM, SAN FRANCISCO, June 30.—The democratic national convention assembled today to hear candidates placed in nomination and with another that will be held tomorrow. The McAdoo forces which finally precluded the presentation of his name.

There were no changes respecting the placing of other candidates in nomination and the program for the convention would go through in a continuous session today and get all the nominating speeches out of the way, leaving tomorrow for the election of delegates.

Although it was said by administration chiefs that the subcommittee of nine drafting the platform had virtually agreed in all important particulars, the subcommittee members of the resolutions committee made a public announcement that it was not ready to report and would work in secret until 7:30 tonight when another report would be made to the full committee.

Meanwhile administration chiefs declared that a prohibition plank, "slightly moist," had been adopted to preclude the adoption of William J. Bryan's bone dry plank. They further predicted with finality that the league of nations plank would be adopted without the dotting of an "i" or the crossing of a "t."

PLATFORM COMMITTEE MAY MAKE RESERVATIONS WILSON'S DRAFT

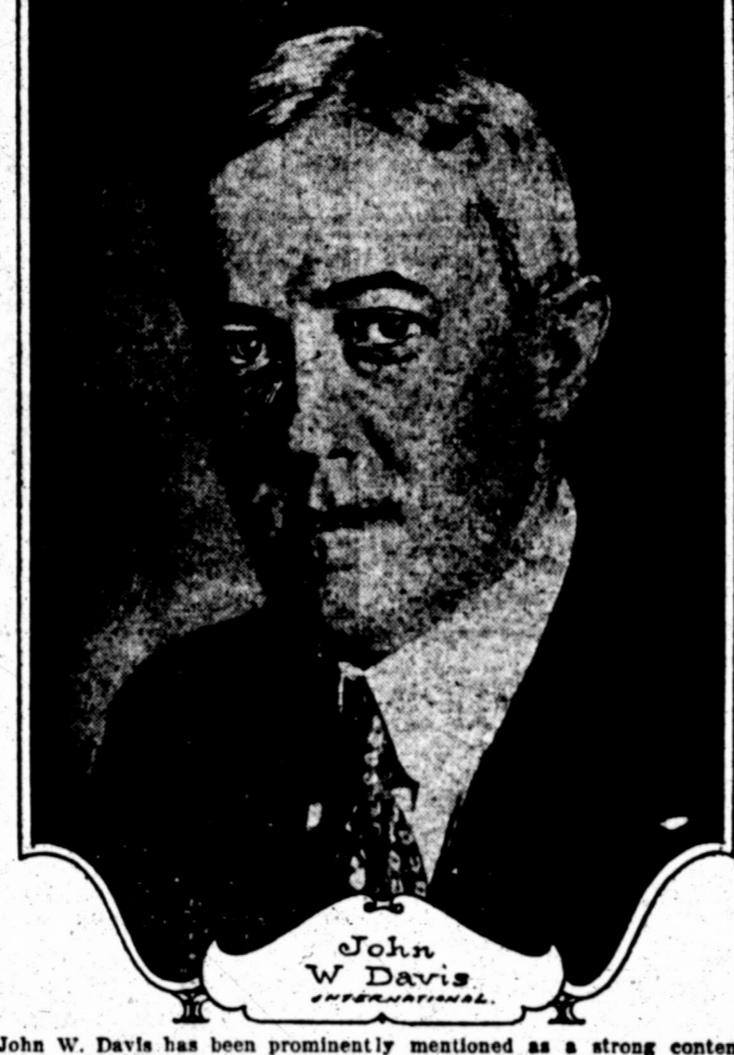

By L. C. MARTIN
(Edited Press Staff Correspondent)

SAN FRANCISCO, June 30.—Wrestling almost throughout the night with the delicate questions which they have been called on to handle, the framers of the democratic party platform adjourned at 2 a. m. until 9:30 when the deliberations were to be resumed.

Unexpected difficulties were encountered when the subcommittee of nine named to draft the platform, met last night. Instead of ratifying an administration platform, a r. e. a. d. y. drawn up for them, the committee members found it necessary, because of strong pressure from various quarters, to make drastic modifications in plans submitted by administration leaders. These modifications were made necessary, it was explained, to placate "restless elements" which demanded consideration.

Without agreeing finally on the form of a single plank, the subcommittee adjourned at 2 a. m. until 9:30 when the deliberations were to be resumed. The subcommittee began working from two "model" platforms, one the Virginia democratic platform, specifically approved by President Wilson and the other a draft known as the "administration platform," which Secretary of State Colby had before him.

AMBASSADOR TO GREAT BRITAIN

John W. Davis has been prominently mentioned as a strong contender for democratic honors.

BRYAN LOOKS FOR IRON AND STEEL TO CEASE WORK TONIGHT

SAN FRANCISCO, June 30.—William J. Bryan in a fighting mood, speaking at a breakfast gathering today, expressed his dissatisfaction with the "wet" and "dry" situation before the resolutions committee. He said that he expected to fight in the convention and "hoped to gain distinction as a reviver of platforms."

"I have no hope of glory as a writer of the resolutions," he said, "but I am a member of the resolutions committee, but one of the sacred nine. But, I tell you they know now that this issue cannot be settled in the committee room."

"It takes only one man to bring in a minority report and there is that one man," he said, "and I am that man. I came here as a delegate from Nebraska to take the case before the thousand other delegates assembled here and to banish the law. When that is done, no office, no presidency, no other honors that will be mine."

"The Bible says that one with God, shall chase a thousand," Mr. Bryan said, "and that's about the number I have to fight. It says that I shall put 10,000 to flight, and I am looking for the other man."

DISORDERLY TACTICS OF PIRATE HURLER SETS HIM BACK \$27.50 IN COURT

SHREVEPORT, LA., June 30.—A. C. (Doc) Walbauer, pitcher of the Galveston Texas League team, today was fined \$27.50 when he was found guilty in the city court of being disorderly and disturbing the peace. The disturbance occurred following Tuesday's game between Shreveport and Galveston when Walbauer went into the grandstand and struck a spectator who had been deriding him because of his wildness. Walbauer gave 15 bases on balls.

TRADE UNIONISTS CHICAGO'S CHIEF LICENSE PURCHASERS

CHICAGO, June 30.—That the trade unionist "who buys diamond rings and silk shirts" composes the class of men marrying in Chicago was stated by the county clerk today commenting on the total of 5,584 marriage licenses issued in June, only exceeded by the April, 1916, record of 6,125.

REPUBLICAN LEADERS AGREE ON CAMPAIGN

WASHINGTON, June 30.—Senator Harding and Governor Coolidge have agreed to base the presidential campaign on a plea for restoration of party government as a substitute for "personal government," Harding said today.

The announcement followed a conference attended by the republican candidates for president and vice president and Will Hays, national chairman.

Harding also said it had been agreed that the vice president should play a large part in co-ordinating the work of the president and senate.

Coolidge issued a statement declaring he wished to co-operate fully in the campaign.

Coolidge breakfasted with me this morning," said Senator Harding, "and we have agreed that we will base the campaign on an appeal to restore party government as a constitutional substitute for personal government."

Both Lieutenant Governors, each served as lieutenant governors in our states and we both learned from experience how possible it is for the second officer in the state to be helpful in the party administration. I think the vice president should be more than a mere substitute in waiting.

"In re-establishing co-ordination between the executive officers and the senate, the vice president can and ought to play a large part and I have been telling Governor Coolidge how much I wish him to be a helpful part of a republican administration. The country needs the counsel and becoming participation in government of such men as Governor Coolidge."

Coolidge issued the following statement: "It is not a new experience for me to campaign with Senator Harding. We have been campaigning in Massachusetts together for many years. I suppose he is better known to me than any other member of the senate outside of our state."

SHREVEPORT ACE TO QUIT TEAM BECAUSE HIS HONESTY HAS BEEN QUESTIONED

SHREVEPORT, LA., June 30.—John Verbot, Shreveport's leading pitcher, has announced he will quit the Shreveport team July 4 because he says his honesty has been questioned.

"I am here to observe the law. When that is done, no office, no presidency, no other honors that will be mine."

TWO NEGROES SHOT AND TWO LYNCHED

WHARTON, TEX., June 30.—Two negroes were shot to death late Tuesday afternoon near Damon Mound, and two others were hanged sometime Monday night by unknown parties as the result of the killing of Deputy Sheriff S. C. McCormick last Saturday night.

Two negroes, Washington Giles and his brother, the latter being the one accused of firing the shot that killed Sheriff McCormick, were taken to a posse, refused to surrender and were killed when they tried to make their escape.

Jodie Gordon, aged 34, and Elijah Anderson, about 30 years of age, two negroes, were found dead Tuesday morning hanging from trees six miles east of Wharton.

Gordon and Anderson had been taken by the pursuers Monday and admitted they were aiding in the escape of Washington Giles and his brother.

AUDITORIUM, SAN FRANCISCO, June 30.—At noon today, San Francisco time, the democratic national convention was on the business of hearing nominating speeches.

Senator Owen of Oklahoma had been placed in nomination and speakers were ready to make nominating speeches for all the other candidates excepting William Gibbs McAdoo, whose name by a last minute change in arrangements was not to be presented.

The name of Senator Hitchcock of Nebraska was presented to the convention during the second hour. Former Governor Schallenger of Nebraska nominating the republican leader in the senate treaty fight in a brief speech.

The nomination speech for Attorney General Palmer followed the presidential nomination of Senator Hitchcock's name.

AUDITORIUM, SAN FRANCISCO, June 30.—Just before 10 o'clock the democratic national committee came to order for a day of nominating speeches and demonstrations.

While Chairman Robinson stood patiently at the speaker's desk waiting for a chance to start up the convention, the songest went steadily on "Maryland, My Maryland," and other airs flowed in a steady stream.

A Cox band, garbed in brilliant red uniforms, vied with the convention band in blaring out airs from a point in one of the galleries.

Chairman Robinson wanted to start up but was in a tolerant mood and let the music go on. The glee club which accompanied the Cox delegation joined in the music and entertained the convention.

While the platform framers got word that William J. Bryan had no intention of abandoning his fight for a dry plank and that he was more determined than ever to carry his fight against any "slightly moist" plank on to the floor of the convention.

The convention band and the Cox band soon got into a contest. The convention band played "Over there," and the Cox band came back with "Dixie," to the delight of the southern delegates.

When the Cox band started up "Old Kentucky Home" and the rolling tones of the great organ thundered into a chorus, the delegates joined in with a mighty wail.

Finally Chairman Robinson got the convention quieted and he heard an opening prayer by Rabbi Minor of San Francisco. The playing of the Star Spangled Banner followed.

At 11:35, Chairman Robinson called for nominations and directed the secretary to call the roll of states.

The name of Senator Owen of Oklahoma was the first to be placed before the convention. Alabama passed and Arizona yielded to Oklahoma.

H. Hayden Linebarger of Muskogee took the platform to place the name of Senator Owen in nomination.

On motion of Samuel King of Salt Lake City, the convention adopted a resolution fixing the place of the Panama Canal zone at two delegates in future conventions.

Owens Placed in Nomination.
Linebarger spoke 17 minutes, placing the name of Senator Owen in nomination and at the conclusion of his speech the Oklahoma delegation broke out with a demonstration which, however, was not prolonged.

The band tried to help out with a galloping air.
"Arkansas," said Governor Brough, of Arkansas, seconded the nomination of Senator Owen.

"Arkansas," said Governor Brough, "is the only state mentioned in the Bible because of its size. The ark of Noah opened the window of the ark and saw."

At that the convention got its first good laugh of the day.

At the close of Governor Brough's seconding speech there was another Owen demonstration which the band helped out again.

Mrs. Susan F. Fitzgerald of Massachusetts, the first woman to make a seconding speech in the convention, then took the platform. The convention stood and paid her a tribute with applause and cheers. Mrs. Fitzgerald, gowned in a plain blue dress, stood smiling at the desk as the band played "Oh, You Beautiful Doll."

When the noise quieted down, she began her speech in a clear, distinct voice.

Cherry proposed that such a man as Gerard for the top of the ticket and another "for the bottom of the ticket," and the convention construed the word as Gerard being a vice presidential candidate as well as a presidential candidate.

There was no seconding speeches for Gerard and the roll of the states was called again.

California and Colorado passed. Connecticut was called and John S. Crosby presented the name of National Chairman Homer S. Cummings.

Demonstrations for Cummings were rather frequent as Mr. Crosby got in to his speech and mentioned the national chairman's name. He drew a particularly loud outburst when he referred to the chairman's keynote speech of Monday, the opening day of the convention.

The call of the states was resumed. Arkansas yielded to South Dakota and U. S. G. Cherry of Sioux Falls, S. D., presented the name of James W. Gerard, former ambassador to Germany.

Characterizing Mr. Cummings as the "harbinger of hope for the oppressed peoples of the world," Rothberger closed his seconding speech, but he began whooping it up when "The Red" hit.

The Cummings men among the delegates went in for "three cheers," and more demonstrations for the national chairman.

The call of the states was resumed. Delaware yielded to Nebraska and former Governor Schallenger presented the name of Senator J. H. H. Hitchcock, the administration leader in the treaty fight in the senate.

There was no seconding speech for Mr. Hitchcock and when the call of the states was resumed Florida yielded to Michigan.

When the call of the states was resumed Florida yielded to Michigan. The ever recurring rumor that Palmer took the platform and presented the name of Attorney General Palmer.

While Bigelow was speaking the Palmer forces throughout the hall were busy quieting organizing the demonstration, distributing flags and getting their names into play.

The convention was looking forward to the demonstration as the first tangible evidence of how great the Palmer strength is the One Man.

Mr. Crosby told the convention that Mr. Cummings was the one man upon whom all the factions in the party could unite.

Bigelow was followed by Thomas A. Niland of East Boston, Mass., who demanded the privilege to ask Bigelow a question and then the convention turned into an uproar.

Cries of "sit down" and "throw him out" came from the air and Palmer supporters advanced menacingly on the man. Above the uproar Chairman Robinson shouted "hold on" but the convention could not interrupt the speaker. The convention gave a roar of approval to the chairman's ruling and Niland sat down.

"I reverse this man," shouted Bigelow when he got attention again, "because his enemies are the enemies of our government, and his foes are the foes of our government."

The conclusion of Bigelow's speech (Continued on Page 7 Column 3.)

DAY NURSERY WILL BE OPENED SOON

Six Room House at 704 Lamar Secured—Donations of Equipment Asked.

The kiddies of Wichita Falls working women are to have a place to stay during the day—a cool, comfortable place where they will have the very best of care and where their mothers can leave them and have no fears concerning them.

Just how comfortable and well-fixed the day nursery will be depends to a considerable extent upon Wichita Falls folks' generosity; those folks who have cribs, cradles, baby beds, high-chairs and baby swings that they don't calculate they'll need any more, are being urged to give them to the day nursery. Funds for the home are limited, and it is hoped to completely equip it through donations of this kind.

Everyone who has anything of the kind that can be given is urged to notify Mrs. C. E. Gusey, Wichita Falls Welfare Council, phone 3029.

A Victoria, while not a necessity, would surely add to the joys of the little ones. Perhaps if no one were to give one outright, somebody who is going away for the summer will lend one for a while.

The day nursery is to be at 704 Lamar, where a nice six-room house, with a big, shady backyard, has been obtained. It is now being fitted up and will be opened early in July.

Where the mothers are unable to pay for the care of their little ones, no charge will be made, but 25 to 50 cents will be charged, according to the mother's ability to pay, in other cases, to meet the necessary expenses.

The day nursery is expected to fill a long-felt want here, and the welfare council is earnestly hoping that the assistance of Wichitans will be generously forthcoming. Almost anything that a baby can use will be accepted. Also, they can put a refrigerator to good use, and they hope they won't have to buy one.

PAVING CONTRACTOR FINED FOR DAMAGE TO PAVING

The police department has joined hands with the sanitary department of the city in waging war against filthy and unsanitary conditions. Two cases were brought before the court Wednesday morning, the principals being charged with permitting their premises to become unsanitary, thereby endangering public health. In view of extenuating circumstances connected with one case the defendant was given until July 3 to clean up his place. The other was found guilty and the owner of the place fined and ordered to improve conditions without delay.

A number of traffic ordinance violators were found guilty on various counts, chiefly speeding or failure to provide license numbers. A contracting company which is at work paving streets in the south part of the city was charged by a motorcycle cop with operating heavy trucks at excessive speed on city pavements to such an extent that the roadway was damaged. The defendant was found guilty and fined.

M. L. TARRANT ACQUITTED OF AUTO THEFT CHARGE

H. L. Tarrant, charged with the theft of an automobile, was acquitted late Tuesday by a jury in the 30th district court after several hours deliberation.

Tarrant was arrested several months ago and has been in the Wichita county jail for four or five months awaiting trial.

Lee Toncray, of Phoenix, Arizona, also charged with theft in connection with the stealing of an automobile, will face his second trial sometime during the present term of the 30th district court. A jury early Tuesday reported its inability to reach an agreement in the Toncray case and was dismissed. The jury disagreed upon the matter of granting a suspended sentence, it is understood.

REVENUE COLLECTORS TO MEET IN DALLAS

Deputy collectors of internal revenue throughout the newly-created second district of Texas, will assemble in Dallas tomorrow to receive instructions from Collector Scott Reed, head of the district.

A. P. Bowden, division chief, and Deputies L. Shields, Henry Wampler and Miss Ruth Calvert will go to Dallas to represent the local office, and the following field deputies in Chief Bowden's division also will attend the meeting: R. F. Stringfellow, R. R. Millsap, J. H. Bennett, J. B. Montzief and Frank E. Buckingham.

BRYAN MANIFESTS AIR INDIFFERENCE

By MRS. KELLOGG FAIRBANK, Member of the Executive Committee Democratic National Committee. Written for the United Press.

SAN FRANCISCO, June 30.—The big show was not the most interesting thing yesterday. That ran along on well greased wheels; the real interest was in the hearing before the resolutions committee.

"I came in on the wet and the dry, just in time to hear Mr. Bryan say that it was a matter of indifference to him whether he talked or not, which sounded promising, so I stayed. He is a great showman, Mr. Bryan.

He shot in his advocate, one after the other; three to five minutes each for half an hour, every one speaking for some organization with a membership of any number of millions. If all the excellent people these men represented were laid out end to end they would reach from the desert of Sahara right through New York and Illinois. There is a population of 100,000,000 in these United States; of these about 320,000,000 must be passionately demanding continued prohibition.

Wets Don't Talk.

The wets do not talk about the people they represent—and who can blame them? They are making orations about "freedom of speech," and "Heaven help the poor grape growers," and the "sacred right to one's own drinks," and they are talking regular women's club language—they must sit up and read the dictionary. Lined up against the great commoner, they look rather specious and I doubt if they get so much as a damp liver through the resolutions committee.

What the convention may do is another matter. It is a good thing the weather is cool. This hot day might win out over even Mr. Bryan's eloquence, but as things are I believe he will keep that platform so dry that it will crackle.

The Irish came next, and the big room was filled with them—colleens and policemen—and New Yorkers—all settling down to enjoy a free, all around fight. They can talk—the Irish. No wonder they can convince themselves. They had the crowd with them from the start, but Mr. Glass didn't look as if he were being swept away exactly and Mr. Colby preserved the hauteur of his profile in spite of Celtic eloquence.

CONVENTIONALITIES

"Ticket moochers" to the convention are almost as numerous as presidential candidates. One such entered the outer office of Gavin McNab, chairman of the California delegation. The telephone operator had great trouble in getting him to give his name.

"Just tell him I'm from Humboldt county; he'll know who I am," insisted the "moocher." Then he sat down to wait, along with a half dozen other persons in the office who wanted to see McNab.

From one of the private offices stepped a tall, dignified looking gentleman.

"Who wants to see Mr. Gavin McNab?" he asked.

All the men in the room stood up, but the native of Humboldt county spoke first.

"I want to see Mr. McNab," he answered hurriedly as if fearing to lose his chance. "I'm a very intimate and personal friend of his."

"Mr. McNab is very busy this morning," was the reply.

But Humboldt county was persistent. "Why if Mr. McNab saw me in this office he'd know me instantly—won't you tell him I'm here? Please." He urged impatiently.

"I don't know you sir; I am McNab," replied the supposed private secretary.

The announcement nearly took the breath away from the visitor. Then he reminded McNab of their mutual school days, of college days, of a hundred and one intimacies, winding up with a request for a ticket to the convention. But McNab told the visitor there was "nothing doing."

"Well, I'll come back about 11 o'clock," replied the visitor as he backed out of the office.

The convention has brought with it, among many other things, the religious enthusiasm. Scattered about the hotel lobbies, particularly the St. Francis

HARDING AND MATE HOLD CONFERENCE

By RAYMOND CLAPPER. (United Press Staff Correspondent.)

WASHINGTON, June 30.—Senator Warren G. Harding and Governor Calvin Coolidge, republican presidential candidate and vice presidential candidate, respectively, met here today for the first conference since their nomination.

They will talk over campaign plans and get acquainted.

Plans for removing Harding's headquarters to Marion, Ohio, were virtually complete today.

Tentative plans have been made for Harding to arrive in Marion Sunday. Monday the scheduled home-coming celebration is planned.

Harding made his first campaign speech yesterday talking into a phonograph. The record will be distributed throughout the country for July 4 celebrations. He said America needs no council of foreign powers to point out its path of duty and he renewed allegiance to the Monroe doctrine.

WALL STREET FAVOR M'ADOO BETTING STANDS 9 TO 1

NEW YORK, June 30.—Wall street betting on results of the democratic convention today continued to favor William G. McAdoo with odds of 9 to 5 quoted against his selection. President Wilson, in view of the demonstration accorded him at San Francisco moved to second place with odds of 2 to 1 against his renomination. Previously odds against Wilson's choice were 20 to 1. Governor Cox of Ohio was third with odds of 3 to 1 against.

CUBAN SUGAR MEN CONTROL BIG YIELD

HAVANA, June 30.—Cuban cane growers, sugar mill owners and brokers claiming to control the sale of 2,180,000 sacks of unsold sugar, were on record today as definitely pledged not to offer any more sugar for sale until the price had reached 24 cents a pound, the level reached during the last half of May.

This decision was reached at a mass meeting held last night, which was presided over by Miguel Arango, president of the Association of Hacendados and Colonos of Cuba. At this meeting a committee of 12 headed

by Arango, was selected to act as the exclusive selling agency of those represented at the meeting. Participants pledged themselves to withdraw from the market all offers for the sale of sugar and to sell none except through the medium of the committee, which is pledged to make no sale for less than 24 cents a pound.

The amount of unsold Cuban sugar was estimated by a member of the selling committee at 3,920,000 sacks, their holdings of 2,180,000 sacks leaving only 1,740,000 sacks under outside control. Efforts are being made to bring these into the pool.

TEXAS DOCTORS GIVEN PLAGUE INSTRUCTION

AUSTIN, TEX., June 30.—Texas doctors and health officers are instructed to report immediately on discovery of all cases of bubonic plague to the state health department, according to an order just issued by the state health officer, Dr. C. W. Goddard.

"Report by wire, collect," says the order, "and failure to comply will be subject to the penalties of the law."

ICE ISN'T CONSIDERED GOOD EVIDENCE

SAN ANTONIO, TEX., June 30.—An alleged thief may be released from custody here because of lack of evidence.

He is held for the theft of a cake of ice from the army post. San Antonio temperatures are well up in the eighties these days. Good night, evidence!

DAYCITIOUS NAMES NOT PERMITTED

Acting Mayor Gives Instructions to Public Clerks Concerning Matter.

Declaring that he was entirely out of sympathy with any enforcement of the city and county laws that may be based on police secrecy, Acting Mayor W. S. Curlee this morning issued emphatic orders to the police department that the practice of accepting complaints against parties giving fictitious names must cease. He also made it plain that the police record of the city is public property, and that information contained in that record must be open at all times to any citizen who wishes to examine the police blotter.

If any member of the police force hereafter knowingly accepts a complaint that is filed in any name other than the correct one, the officer's dismissal will be asked immediately.

In the past there have been John Does and Richard Roes innumerable written into the blotter at police headquarters. Regardless of the fact that police officers had received general orders not to accept fictitious names when the correct names and addresses of men and women taken into custody were known, it has been for months a simple matter for almost any offender to escape publicity. The case was always extremely rare wherein the effort to ascertain the correct name of his prisoner.

When the matter was called to the attention of Acting Mayor Curlee by a representative of The Times he agreed instantly that a fine of \$5, for illustration, has far less effect in curing a man of the automobile speeding habit than the effect produced by making the man's offense a truthful matter of public record.

In order to discourage minor offenses against the law and ordinance of the city, rather than to sanction many of them through secrecy and the imposition of a fine which merely adds to the city's general fund with less effect than the effect produced by making the man's offense a truthful matter of public record.

"It has come to my attention that it is the custom of the clerk of the police department to accept complaints against parties giving fictitious names. You are hereby directed when accepting complaints to see that the correct name is given in order that the proper entry may be made on the police blotter.

"If it comes to my attention, while acting mayor of the city of Wichita Falls, Texas, that any policeman or employee of the city knowingly accepts complaints or files the same against any person in any name other than the correct one, I shall ask for his dismissal.

"The police record of the city is public property, and no authority is granted to any employee to withhold any information contained in the records requested of him by any one desiring to examine same."

At the Majestic. The sign, "Alice Brady in 'Sinners,'" which illuminated New York's Rialto for one theatrical season, is now appearing over several thousand theaters scattered from Maine to California. This week it is announcing to the people of Wichita Falls, from the front of the Majestic theater, that the photoplay has succeeded at the stage production. And friends of Miss Brady will be interested in knowing that the screen version is very delightful entertainment in which the star portrays one of the most interesting roles of her dramatic career.

An outstanding feature of Miss Brady's work in her new picture is her quiet, yet effective method of registering strong emotion. Her role is that of a young woman who becomes the victim of circumstances which lead to false accusations against her. These accusations are made to her mother in the presence of a number of acquaintances and the situation is worked out in a manner strongly dramatic and yet without even the suggestion of melodramatic intrusions. "He does not fly into a rage," she does not tear her hair or scratch out the eyes of her accuser. She does not deny the charges. Indeed, she ultimately develops, it is not even necessary for her to defend herself. Her mother knows!

This, however, is but one incident. There are many others which might be mentioned with equal propriety because they are equally well executed. The cast is rather exceptionally strong, Kenneth Webb's direction excellent, and photography and atmosphere of the picture wholly satisfactory.

WIFE INTERFERES WITH TETE-A-TETE ON STREET CAR TUESDAY NIGHT

Wife late last night broke up a perfectly nice little party being staged in the front end of a Wichita Falls street car and in which "wifey's" husband, the operator, and some other husband's "wifey" were the leading characters.

Started passengers half dosing due to the slowness of the street car, such slowness being largely due to the operator's flirtation, jumped from their seats as "wifey" boarded the street car along the southland route and immediately placed a genuine "Jack Dempsey" upon her husband's jaw. "Wifey" emphasized her attack upon hubby by assailing the young woman and threatening to "throw her out upon the street."

Three blows in all were cast, spectators say, each of which proved a complete wallop and a baseball fan seated in the rear, mechanically gave "wifey" credit for three "clean hits," remarking to a fellow baseball enthusiast, "she's hitting 1,000 per cent today."

Hubby took his beating with a brave heart and operated his car along the Lamar street "breakers" regardless of the domestic storm raging about his head.

WE DON'T WANT TO DODGE, EITHER.

"Now, don't dodge," writes a Terrell columnist to State Press. "What is your attitude on the open shop question. How do you stand?" It is a fair interrogation, if the interrogator really wants to know how S. P. stands.

And the latter has no desire to do what the Terrell brother half expects him to, which is to dodge. Why should he dodge? Being a servant of neither capital nor being only a mill-run democrat, what has he to believe to be the ordinary American point of view—and having no political ambitions of ulterior motives to subservise—why should S. P. dodge any question which is up for the consideration of the people? State Press, then, will say he favors union labor.

But he does not favor union looting. Any union which kides itself into the belief that its position is strong enough to prosper itself by looting on the job will discover its mistake, or has already discovered it. Whenever communists, or institutions which can not get along with union labor, they will get along without it.

As a friend of union labor, State Press wishes that the members of the union who are desirous of seeing every man who works for wages receive just compensation. They desire for him protection against the greed and the callousness of employers whose avarice blinds them to the tenets of human rights.

Employers as a class are no more perfect than employees as a class. By organizing into unions, the men whose livings depend upon their labor unite their voices to get a hearing, and a hearing is granted to the millions that every man is entitled to in a matter that concerns him.

Union labor has in the past elevated the standard of living, not by the means of the unions, but for all other workers. Conservative labor unionists today ask and expect only a continuance of that gradual and beneficent advance which has contributed so much to contemporary civilization.

Radical unionists have not been content with slow but sure growth. They wish to upset everything in order that they may try their "prentice hands at building some-thing. But few of the radicals are really workmen. Many of them are writers. Radicalism is their bread and butter.

Just Folks

By EDGAR A. GUEST

THE FOOLISH HUMAN RACE.

Last night I stood in a tawdry place And watched the ways of the human race. I looked at a dozen of shrieking girls Piled on a table that whirled and whirled.

And saw them thrown in a tangled heap Sprawling and squirming and several deep. And unto the wife who was standing by: "These are angels to be," said I.

I followed the ways of the merry through And heard the laughter and mirth and song. Into a barrel which turned and swayed Men and women a journey made. And tumbling together they seemed to be Like so many porpoises out at sea— Men and women who've worked all day. Eagerly seeking a chance to play.

"What do you make of it all?" she said. "Oh, the dead are a long time dead, And care is bitter and duty stern. And each must weep when it comes his turn. And all grow weary and long for joy. And his is laughter to end the day. Foolish? Yes, it is that," said I. "But better the laugh than the dreary sigh."

"Look at us here, for we'd like them, too. Many the foolish things we do. We grow sick and think we smile in a thousand ways that are not worth while. Yet after the mirth and the jest are through, We shall all be judged by the deeds we do. And God shall forget on the Judgment Day The souls we were in our hours of play."

HOROSCOPE

"The stars incline, but do not compel." (Copyright, 1919, by Geo. McClure Newspaper Syndicate.)

Wednesday, June 30, 1920.

Mars dominates this day in benefic aspect, according to astrology. Under the kindly sway of this planet all dissensions may be more easily dealt with than at other times and the way seems to forecast harmony in families as well as in public meetings.

All the influences seem to be bracing and stimulating, making for the dominance of the positive and constructive forces of the mind. There is a planetary rule said to be beneficial to soldiers and military men of every class. Engineers and men who deal in iron or steel should make the most of this configuration.

This should be a lucky day for labor providing for workers advantages and benefits that assure prosperity. Again women appear to be subordinate in the great scheme of things, since Mars governs with autocratic power. Washington, D. C., comes under planetary conditions that seem to forecast great civic improvements and changes that add much to its advantages as a place of permanent residence.

Again many changes in the personnel of congress appear to be presaged by the stars. From this date there may be a spell of extremely warm weather which will be serious in its effect upon the aged and the very young. Great care in the choice and preparation of foods is enjoined. Co-operation still seems to be foreshadowed so strongly that nationwide enterprises may be brought into existence.

Persons whose birthdate it is may expect a happy year. They have no cause to worry and should not seek to engage in speculation of any sort. Children born on this day will be active and persevering in nature. The cancer of Cancer are usually extremely talented and they make an art of human relations. They are lucky in marriage as well as in other ventures in life.

WHY?

DO FLYING-FISH FLY?

(Copyright, 1920, by Wheeler Syndicate, Inc.)

Travelers who, for the first time, invade the waters of the tropics, are often amazed at what appear to be flocks of tiny birds which rise from the water, skim along its surface for several hundred feet and then disappear under the waves. Closer investigation, however, discloses the fact that these winged creatures are not birds, but fish—members of the herring family and therefore related to the shad, the swordfish, the mullets, the trout and the cod.

The ability to rise from the water and travel rapidly through the air is due to a pronounced development of the breast-fins which, in addition to giving the fish impetus necessary to enable the fish to leap upwards, acts as a sort of parachute which supports it in the air. When alarmed by the approach of a boat or of some larger fish which is recognized as an enemy, the "flying herring" darts rapidly to the surface of the water and leaps upward at an oblique angle, pushing the water aside with its fins in much the same manner that a man would push the earth with his feet in jumping upward. The instant they clear the water, their well-developed fins serve purpose analogous to the planes of an air-ship and they skim along, close to the surface, sometimes traveling as much as 500 feet before diving again.

"A deposit of marble has been found in the city limit Eastland, Tex.," says the Sherman Daily Democrat. Probably just an accidental discovery of the spot where Galveston buries its dead ball players.

While considerable SPIRIT may be shown, it is fair to assume that the democrats will also reflect SOBBERIA upon the liquor question and will show a "CORDIAL" desire to play fair with both factions.

Side Talks

By RUTH CAMERON

What "Shop-Girly" Means Today.

In the old days, when a fashion was cheap or tawdry and run into the ground, people used often to say of it that they did not like it—because it looked "shop-girly."

I thought of that expression the other day as I passed through one of the largest and best department stores in this country. And the reason I thought of it was because the girls I saw there drove home the absurdity of that expression for present-day use.

Tell me, where would you find a group of women who are more becomingly, more tastefully and more attractively dressed than the clerks in any good shop? As for the more exclusive specialty shops, does anything make you feel more insignificant and unattractive than to come into contact with one of those perfectly coiffed, perfectly gowned, suavely condescending creatures who sweep forward as you enter the shop to find out what Madame would like today?

Seriously, I think the shop girl of today is a wonderful creature. Her voice and her grammar are of far better quality than they used to be; she seldom calls one "dearie" nowadays, and practically never chews gum. And as I said before, I have the utmost respect for her taste in clothes. I could offer no better advice to one who wanted to get in touch with the latest fashions than to go into a good shop where women's clothes are sold and see what the clerks themselves are wearing.

Then again, what a lot of pretty girls there are in the shops! It doesn't seem to me there is so high a proportion anywhere else. Certainly not on the stage. I went to a so-called "pretty girl show" the other evening and saw just one pretty girl—the girl usher, who placed us and offered us between the acts a glass of water (which we never drink). The next morning I passed through a big department store and saw a dozen girls, any one of them prettier than the prettiest girl in the chorus.

A Rare Find. I don't know why the stage managers don't go after these girls, but on the whole I'm rather glad they don't. For I go shopping much oftener than I go to the theater and I enjoy seeing these pretty faces. I used to make a special trip through the shoe department in a certain shop. The next morning I went to the city, just for the pleasure of seeing one of the clerks who was that rare find—a girl so thoroughly pretty that you wouldn't change one thing about her if you could.

Crowding the Highways.

The fact that the total number of trucks in use in this country last year showed a larger increase than passenger cars opens the way to some interesting surmises. If trucks continue to increase at the same rate in the future there will be as many in use by 1926 as there are passenger cars at present. If both trucks and passenger cars continue to increase at the same rate they will be the same in number by 1933.

In South America there are to be seen occasionally a type of windmill which is entirely without the big wind wheel which is so essential a feature of the power generators to be seen in these parts. A pivoted surface is balanced in such a way that the wind gets under it and raises it and when it has thus traveled to the end of its run its angle is changed and the wind brings it down again.

McADOO REFUSES USE OF HIS NAME

(Continued From Page 1.)

sure to be interrupted with prolonged demonstrations, the delegates were not responsive to the idea of a prompt start and were slow in arriving as they had been on any other day. The prospects were that the convention would be as late in getting under way as it had been on any other since it began.

At 11:14, Chairman Robinson began whacking the gavel and called on the delegates to get into their seats. "We've been waiting about from several places on the floor."

The Cox delegation, however, insisted on having a demonstration and a song first, however, after the convention waited until they got through. There was a Cox demonstration of short duration at its conclusion.

SAN FRANCISCO, June 30.—Candidates for presidential honors were placed in nomination at today's session of the national convention. While the committee members argued behind closed doors attempting to draft a platform acceptable to all elements in the party, the convention, under the leadership of yesterday's saved time by having the nominating speeches made in advance of the adoption of the declaration of principles.

Beginning yesterday Mr. Cummings drew a new demonstration from the convention, first when he announced he had taken the initiative in proposing amendments, and again when he rescued the resolution to double the size of the national committee and give the new places to women.

His growing boom, however, brought with it a forecast of opposition from Bryan, who sometime ago denounced the national chairman for a platform speech at a banquet given for Governor Edwards, an avowed wet candidate. The chairman's friends also were not unkind to his conduct as a lawyer with large business interests would furnish Bryan with an opportunity to use one of his favorite weapons in a convention—a blast at big business.

Prohibition Big Factor. But, whatever the varying strength of the candidates may be, the fact still stands out as the convention opens that the business of making a choice, that the prohibition and League of Nations issues, loom large in the background, still remain predominant factors and that the disposition is still inseparably linked with the choosing of a candidate.

The decision of the platform sub-committee in voting down the plank, as is proposed by William J. Bryan, or whether it will contain a "straw" or ignore the subject entirely.

There are some who feel that the convention would do well to pass the subject entirely as the republicans did at Chicago, but that conflicts directly with Bryan's announced intention to have "a platform no wet can run on."

forces were intact and claimed votes in the convention which would not be shown on the first ballot because they would be cast for favorite sons and come to the Palmer column later.

Cox forces professed they were undisturbed by the wet and dry argument which has arranged around its candidate and the outside issues which have been injected into his campaign, were tightening up their lines and were ready to start the balloting.

Despite the promise that the convention would have "big three" at the outset, dark horse talk was never more prevalent than it is at the moment, the candidates are about to be placed in nomination.

The names of Vice President Marshall; John D. Davis, ambassador to Great Britain, and Homer S. Cummings, chairman of the democratic national convention, were always heard when dark horses were being discussed and delegates were taking into consideration that each of the big three could prevent the others from getting a two-thirds vote.

Cummings Boom. The Cummings boom grew from a mere demonstration of enthusiasm to formal nomination in the 24 hours which followed the chairman's opening address and today it had taken full form with handbills being circulated among the delegates declaring "great moment has produced a great man."

Democrats through the country, too, were "realizing boom" in the past few days, for the national chairman's desk was piled with congratulatory telegrams.

Beginning yesterday Mr. Cummings drew a new demonstration from the convention, first when he announced he had taken the initiative in proposing amendments, and again when he rescued the resolution to double the size of the national committee and give the new places to women.

His growing boom, however, brought with it a forecast of opposition from Bryan, who sometime ago denounced the national chairman for a platform speech at a banquet given for Governor Edwards, an avowed wet candidate. The chairman's friends also were not unkind to his conduct as a lawyer with large business interests would furnish Bryan with an opportunity to use one of his favorite weapons in a convention—a blast at big business.

Prohibition Big Factor. But, whatever the varying strength of the candidates may be, the fact still stands out as the convention opens that the business of making a choice, that the prohibition and League of Nations issues, loom large in the background, still remain predominant factors and that the disposition is still inseparably linked with the choosing of a candidate.

The decision of the platform sub-committee in voting down the plank, as is proposed by William J. Bryan, or whether it will contain a "straw" or ignore the subject entirely.

There are some who feel that the convention would do well to pass the subject entirely as the republicans did at Chicago, but that conflicts directly with Bryan's announced intention to have "a platform no wet can run on."

Whether Bryan hopes to win or not, he intends to fight in the old time fashion which has furnished firebrands for many a democratic convention. He stands by his determination to force every delegate to record his or her vote individually on the issue of a plank which he considers "wet" in the platform.

Although the White House has kept its hands off the prohibition fight, there are administration leaders on the ground who, while opposing Bryan's bone dry plank on the one hand, are outspoken in their determination that the convention "shall do no passing" but shall make a clear-cut decision one way or the other. Chief among these is Postmaster General Burleson.

He stands by his determination for a roll call on the issue. There has been an informal counting of noses on the prohibition question and even the most ardent wets agree that on a test vote a majority of the convention would be recorded for a dry plank.

Machine Handles Peanut Properly. The operation for blanching peanut kernels is now taken care of by a machine which has a capacity of 1,000 pounds per day. It requires the services of but one operator and heretofore this work has been done by hand and one worker could not do more than from 65 to 80 pounds in the course of a day's work.

First Ballot. The total McAdoo strength on the first ballot, according to the latest estimate of McAdoo supporters, will approximate 300 votes. Some say it will not be more than 250, while others insist it will run over 300.

Thus far, the McAdoo men said, they have suffered only one defection. The Maryland delegation, which had been counted in their column, will cast its first vote for John W. Davis, according to information received today. The McAdoo supporters said they expect Maryland's vote to return them to their former position.

Both the Cox and Palmer forces viewed with evident satisfaction the scrimmage with the McAdoo forces which was threatening to bring McAdoo to the front at once and make the nominating a three-cornered contest from the beginning.

was the signal for the demonstration to cut loose.

It was the first real noisy and prolonged demonstration of the convention—it seemed as if about half the delegates on the floor were standing, but as many obviously were up to see the spectacle, the voting strength of the Palmer forces could not be assessed by the size of the demonstration. The hand whooped up by Glory, Glory, Hallejeh, and the Palmer men promenade about chanting the celebrated parody, "Glory, Glory, Pennsylvania."

JAPANESE FEAR THE ANTI-JAP AGITATION

(Associated Press.)

TOKIO, June 29.—The resurgence of anti-Japanese agitation in California is now taking widespread attention in Japan.

The national convention of chambers of commerce has adopted a resolution declaring that the agitation is assuming grave proportions and expressing the fear that if it is left unchecked the interests of Japanese in California, the results of years of toil and labor, would be doomed.

"This is regrettable for American Japanese unity," the resolution says. "We must arouse public opinion, raise the voice of justice against the anti-Japanese movement and seek permanent solution of the questions involved."

The resolution requests the appointment of a committee of 25 to include members of the Diet to discuss defensive ways and means. Virtually all the newspapers express the belief that the American people themselves will prevent any injustice. The Yozuru Chobo, on the other hand, attacks the United States for its "militaristic and imperialistic ideas of Bismarck and Bernhardi," and says it thinks it is impossible to hope for the friendship of America. The newspaper also attacks American missionaries, some of whom "are bent on disturbing the peace of Korea."

Sub-Committee. The first suggested plank handed in to the sub-committee was one by Senator Pomerene of Ohio, regarding the league of nations. It provided for ratification without "inspiring reservations," but added that differences of opinion on that subject should be so "harmonized that the treaty may be ratified without unnecessary delay."

In handling the prohibition question, administration leaders were reported to be maneuvering to bring before the convention a plank which could be championed as an "administrative measure." To this end it was planned to include a clause endorsing President Wilson's veto of the enforcement act.

If this could be accomplished it was believed the administration strength on the convention floor would be more than sufficient to push it through.

That a floor fight on prohibition could be avoided was believed by administration leaders, as well as predicted by the dries, to be impossible. On a straight wet or dry question it was generally conceded that the majority of the delegates would vote dry but the proposed "slightly moist" plank decked with a declaration upholding President Wilson was believed to have better than a good chance. Little trouble over the administration treaty plank was expected in the sub-committee. Its handling was said to be left entirely to Secretary Colby for advocacy in the full committee tonight and also in the convention.

When the full platform committee reassembled by pre-arrangement at 11:00 o'clock today, Senator Glass reported that the sub-committee was not ready to report and a recess was taken until 7:30 tonight. The sub-committee then again went into session with its members divided in their opinions as to whether it would be possible to report at the hour fixed.

DEMOCRATS FAVOR A "DAMP" PLANK

(Continued From Page 1.)

liquor dispute was reported in eight when the sub-committee resumed work today. The dries were said to be insistent upon a prohibition expression, if only to the point of a plank promising enforcement of the constitution and laws generally and not specially. The proposal to keep the platform entirely silent on the subject also was still prominently discussed.

The platform course also was dependent today upon the sub-committee's conference with the full committee. It was expected, however, that the full committee would recess until this afternoon or tonight to await further word from the sub-committee.

Although Chairman Glass said none of the proposed planks had yet been adopted definitely by the sub-committee, it was thought the sub-committee's report of progress at last night's session might develop important discussion at the 10:00 o'clock session today. It was expected, however, that the full committee would recess until this afternoon or tonight to await further word from the sub-committee.

So far as the main body of the platform was concerned, the sub-committee found little difficulty in agreeing with the Virginia platform, endorsed by President Wilson and introduced to San Francisco by Carter Glass, was said to have furnished the basis for declarations readily agreed to regarding the general principles of the party.

Senator Glass, set as chairman of the sub-committee and his advocacy of administration policies was seconded by Secretary Colby. A majority of the other members were regarded as administration supporters and the chief objection to the plank endorsement of the League of Nations desired by the administration was said to be Senator Walsh, who voted in the senate to take the republican reservations.

Some of the administration members were said to be for outlining directions in the platform of reservations that should not be considered as nullifying the league covenant, while others wanted merely a blanket declaration of ratification without "destructive" reservations.

Those who argued for a bill of particulars, declared one easily could be found in the past of the president last fall when he told many western audiences he would not object to reservations relating that he considered already was in the president's mind. It was said he had been called in to clarify the language for the platform.

Bryan, Walsh and Cochran. The platform committee members considered most likely to start trouble in the full committee were W. J. Bryan, Senator Walsh of Massachusetts and Bourke Cochran of New York. All of them were left out of the little circle of nine, and all of them had ideas that, they said, the full committee and perhaps the convention itself, would have to consider.

Mr. Bryan's principal fight was to be waged for an affirmative dry declaration which he already had drafted but declined to submit to the sub-committee. A league plank omitting any pledge of ratification was to be the vehicle of Senator Walsh's fight and a recognition for the Irish republic was to be asked for by Mr. Cochran.

At the suggestion of former Governor McCorkle of West Virginia, members of the full committee were invited to file platform suggestions with the sub-committee.

There were no echoes in today's meeting, however, of the objections made by Senator Walsh to sub-committee's plan of going ahead without consultation at length with the other committee members.

The first suggested plank handed in to the sub-committee was one by Senator Pomerene of Ohio, regarding the league of nations. It provided for ratification without "inspiring reservations," but added that differences of opinion on that subject should be so "harmonized that the treaty may be ratified without unnecessary delay."

VILLA FOLLOWERS DYNAMITE TRAIN AND KILL OFFICER

EL PASO, June 30.—Followers of Francisco Villa, the Mexican bandit, dynamited a southbound passenger train from Chihuahua City near Armerdantis shortly before noon yesterday, captured and executed a federal officer, but were finally driven off, according to a report made public today by Luis Montes de Oca, consul for Mexico, here. Ninety-five passengers on the train escaped injury. It was said.

The money had been expressed under guard from Atlanta and was transferred here to the Charleston and Western Carolina train which left Augusta at 5:15 a. m. When a few miles out of the city, it is claimed, the holdup men entered the express-car, overpowered the messenger, E. R. Derrick, and the armed guard, William Roberts, and then threw the safe containing the money out of the door.

The robbery was not discovered until about 30 minutes later after the train had crossed to the South Carolina side of the river.

Officers are scouring the river swamps. In the first onslaught of Villistas on the train following the explosion, according to Senator Montes, De Oca, seven federal soldiers were captured including Lieut. Sotero Sobos, who was executed. Following a fight he and three other soldiers were killed and the bandits, which lasted 15 minutes, the latter were driven off.

Detailed reports of the train wrecking, said the engine escaped injury in the explosion, but the water tank car and a gondola in which a portion of the military escort was riding were overturned and two soldiers killed. It was said only one soldier was killed and three were wounded in the exchange of shots with the Villistas.

The engine brought help to the soldiers and passengers from Comcho where the passengers later were reported on the train.

EX-GOB CONFESSES SET FIRE TO FIVE HOTELS
BOSTON, June 30.—James Hobbs, of Clinton, N. J., a deserter from the navy, today confessed that he set fire to five hotels here within the past week, according to a statement from police headquarters. The police said he probably would be sent to a psychiatric hospital for observation.

DON'T RISK NEGLECT. Don't neglect a constant backache, sharp darting pains or urinary disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors. Ask your neighbor. A Wichita Falls case. Misc. R. M. Wood, 1609 Travis St. says: "For seven years I suffered every day and night with my back and kidneys. Such sharp pains would catch me in the small of my back. I could hardly move and my back was also sore and lame. I was unable to do my housework and I was getting worse every day. Often my back felt as though it were being pulled apart. After a spell of this kind I would be in bed for several weeks, almost helpless. My back would pain and throb continually and when I would try to get up, I would get so dizzy I could not stand. My head ached dreadfully and my kidneys didn't act right at all. There were other kidney disorders, too. I tried many different kidney remedies, with no help. Finally I got to taking Doan's Kidney Pills and they gave me relief from the start. Three boxes of Doan's cured me and today I feel as healthy and strong as I did before I had this trouble at all. ELWELL MURDER ONE OF MOST DRAMATIC SETTINGS IN CRIME.

NEW YORK, June 30.—Every element of the classic detective tale has appeared in its most dramatic setting in the Elwell case which since June 11 has defied solution by the foremost sleuths of this city. Wealth, divorce, the glitter of Broadway night life, beautiful women gowned and jeweled for the ball, the race track, the gaming table and far removed from the frenzied whirl of the "bright lights," the dotting parents in their vine-shaded home in the country—all these are woven and interwoven into what has been pronounced by detectives the deepest mystery of years.

In its most sinister guise, murder at the hands of an unknown and unsuspected assassin, death came to Joseph Elwell in hours ago when his most engrossing cares amounted to anxiety over a favorite race horse, some intricacy of his routine passion bridge whist, or an after-theater engagement with "the woman in black" or "the lady in gray."

Still breathing, though a large caliber bullet had plowed through his brain, Elwell was discovered at 8:30 in the morning of June 11 clad in his pajamas against the wall of the reception room on the first floor of his three story house in West 70th street. He died several hours later without speaking a word which might betray the identity of his slayer.

He was found by Mrs. Marie Larsen, Elwell's housekeeper, or an attendant for her daily work of tidying up the house. On his side were several letters, one of which, from a racing associate, had been removed from the envelope. The letters had been delivered by the postman at 7:35.

There was no weapon, no footprint, no evidence of a struggle, no possible clue except a .45 caliber shell, such as is ejected from an automatic pistol of the army type and the stub of a cigarette different from those Elwell habitually smoked. Doors and windows were securely locked.

Experts declared that a suicide theory was untenable because Elwell could not have held the fatal pistol far enough from his head to avoid powder burns, even were it possible to account for the disappearance of the weapon. There were powder marks on the dying man's forehead but no burns.

As soon as the idea of self-destruction was rejected the man-hunt started. Its ramifications spread over the country, into every circle of society and for years back into the dead man's past. Every relative, every friend, every casual acquaintance, every servant, every one who had ever seen the dead turfman was found and examined. Every possible motive for his killing was explored. Love, at first long buried were exhumed and the principals grilled to discover a motive for the crime. Every real or suspected enemy was probed. All led to the same end—a wealth of information about the dead man's leisurely life, his reputation for suave good nature and his conquest of women's hearts. But not a ray of light on the crime itself.

The known facts of how Elwell spent the night before his death are few. During the early evening he was one of a dinner party at a large hotel. Other guests were Mr. and Mrs. Lewishohn, Miss Viola Kraus and a South American journalist who met Elwell for the first time that evening. At a nearby table sat Victor Von Schlegel, the divorced husband of Miss Kraus, and Miss Ely Hope

Anderson, a singer whose home is in Minneapolis.

All who were present agreed afterward that there was no show of ill feeling between Elwell and Von Schlegel, though they brushed shoulders on the dance floor, several times with Von Schlegel's former wife dancing with the sportsman.

Roof Garden Party.

After leaving the hotel the Lewishohn party, including Elwell, went to a roof garden theater, where they remained until 1:30 when all left and Elwell was seen to start on foot toward his home. Here ends all unsatisfactory evidence of the murder victim's movements. A man told investigators he had seen Elwell and a woman in an upper Broadway dance hall at a much later hour. A neighbor claimed to have seen Elwell driven home by a man in a racing suit. A taxicab driver asserted he had driven the sportsman home directly after he left the Lewishohn party.

Important evidence seemed to lie in the statements of Margaret Entler, a telephone operator, who declares she tried to put through two telephone calls from Elwell's home between 2:00 and 2:30 on the morning of the tragedy. The number called in each case was that of William H. Pendleton, a former racing partner of Elwell's. When interviewed he said he could not imagine why Elwell should have been so anxious to communicate with him during the early morning hours. They had not been intimate in many months, he said.

After two weeks of investigation and merciless publicity the small army of investigators became definitely separated into two factions. Both preface their theories with the statement, "nothing is impossible," and each clung doggedly to its pet "solution."

The first faction, including a majority of the detectives, said, "What if the door were locked? Some enemy, man or woman, killed Elwell."

The second, numbering many of Elwell's former friends and some of the cleverest detectives, retorted, "What if there were no powder burns? Elwell killed himself and someone who arrived before the police hid the pistol."

After the funeral, Joseph S. Elwell, father of the dead man, declared his unflinching belief that his son had been murdered.

Elwell's wife, who admitted she was contemplating divorce proceedings when she heard of Elwell's death,

LEAGUE NATIONS TRY STOP POLISH AND RUSSIAN WAR

LONDON, June 30.—Polish representatives here have approached Sir Eric Drummond, secretary general of the league of nations, in an effort to obtain the league's offices toward termination of the war between Poland and soviet Russia. It was learned today.

Drummond was reported to have been told that unless action was taken immediately Poland faces both internal and external dangers over which her leaders felt great apprehension.

On Friday, the league will officially take up the question of the Aland islands in an attempt to make a tentative settlement. Both Sweden, a league member, and Finland, a non-member, have agreed to accept the league council's decision. Finland will assume the obligations of a member temporarily.

JUDGE WILSON NAMES RECEIVER FOR SIMPLEX ICE COMPANY

FORT WORTH, TEX., June 30.—Upon request of the president and secretary of the company, acting they said on orders of the stockholders, Federal Judge Wilson this morning named a receiver for the Simplex Ice Machine Company. An overdue indebtedness of \$15,000 was the basis of the request. The company's stock was sold all over the United States a year ago.

POLISH TROOPS RETREAT BEFORE GREEK FORCES

LONDON, June 30.—The Greek advance in Asia Minor has been halted to permit consolidation of present positions, according to a Smyrna dispatch today. Polish forces were forced to retreat in the Ukraine before a Bolshevik attack, according to a Moscow wireless received here.

News dispatches received from the Polish front today indicated that the Poles were retreating on the entire front from Vilna to Cambrinets and Gdansk. One report said the Poles had been forced back from Vilna to Kavno. All wireless messages from Moscow claimed the red forces were successful everywhere.

ELWELL REPORTED HAVE MADE WHISKEY DEAL

NEW YORK, June 30.—Federal officials today again investigated reports that Joseph B. Elwell, murdered whist expert, had bought \$12,700 worth of liquor a few days before he was shot.

Friends of Elwell declared their belief that the solution of the murder might be found in a supposed quarrel growing out of the liquor deal.

District Attorney Swann said no evidence sufficient to cause an arrest had been uncovered.

"It Proved Just the Thing For Me," Says Jeffreys

"Honestly, after I finished taking my first bottle of Orgatone I felt better than I had in two years," said John T. Jeffreys, owner of the Jeffreys Undertaking Company, 1015 East Sixteenth street, Fort Worth, Texas, in his statement to the Orgatone representative a few days ago.

"I have suffered terribly with nervous, sick headaches for two years," continued Jeffreys, "and although I used everything I knew of my trouble continued and kept getting more serious until I began to take Orgatone. My stomach was in such a weak condition I couldn't digest anything, and often after eating I would be awfully sick from the gas that would form. Surprise and excitement would upset my nerves and cause me to have nervous, sick headaches. Sleep failed to rest me, and I would get up in the morning feeling as tired and worn out as when I lay down at night.

"I don't think there is any medicine to equal Orgatone! At least it has given just the right thing for me. The first bottle made me feel better and before my third bottle was gone all that tired, dragging feeling left me. I got up in the morning feeling refreshed and my work doesn't tire me like it did. My stomach is in good shape now and my food agrees with me and gives me strength. I haven't been nauseated or had a nervous sick headache in weeks, and I have more vigor and energy and feel more cheerful than I have in a long time. I am going to continue taking Orgatone a while, for I believe from the way it is building me up it will only be a short time until I will be enjoying as good health as I ever did in my life."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the Young and the Miller drug stores, exclusively under the personal direction of a special Orgatone representative.

WILL OCCUPY NEW BUILDING THURSDAY

Smith Auto Sales Co. Will Move Into Three Story Plant At 909 Lamar.

Owing to the great increase in the volume of their business and in order to provide even better and modern facilities for repair work and auto storage, the Smith Auto Sales company will remove from their old location, 1002 Scott avenue and occupy tomorrow morning their new three-story building at 909 Lamar.

The new structure was built expressly for the automobile business. The first floor to be used as a sales room and office. The second floor will be devoted to the storage of cars while the third floor will be the stock room and repair shop. For this latter purpose new machinery has been purchased making it one of the best equipped shops of its kind in the state.

The personnel of the Smith Auto Sales company are C. W. Smith, formerly with the Blaine Hughes Co., general manager; R. R. Smith, assistant manager; Harry L. Smith, who will have complete charge of the service department to which he will give his personal attention, and W. Thompson, sales manager. The firm will continue to handle Globe and Miller Tires and four makes of cars, Packard, Lexington, Columbia and Dord.

F. D. Stout, formerly of the Kelly Motor company of Dallas and an automobile man of 12 years' experience, will occupy the former site of the Smith Auto Sales company. Mr. Stout will specialize in the storage, washing and greasing of cars and, in addition, will handle Firestone tires.

TORPEDO COMPANY BUYS FOUR OLDSMOBILE CARS

In order to avoid a similar accident which occurred a short while ago resulting in the explosion of 260 quarts of nitro glycerin and the killing of one man, the United States Torpedo company has bought four Oldsmobile trucks from the Victory Motor company, 905 Scott avenue.

Nitro glycerin is one of the most powerful and unstable explosives. The detonation of the 260 quarts was so great that it tore the truck bearing them into fragments and threw one of the tires a mile away.

These trucks will be equipped so that the danger of explosion through jar will be greatly lessened. The new company, which is expected to open an office in Wichita Falls in the near future is headed by the oldest "shooter" in Texas and has been organized for the sole purpose of shooting wells.

TEXAS DELEGATION SPLIT ON PROHIBITION

By W. C. EDWARDS Times Staff Correspondent

SAN FRANCISCO, June 30.—Sensational rivalries in the Texas delegation are causing some confusion in the attitude of the delegation on the prohibition question in the party platform. The question is being viewed by the senatorial aspirants and their friends from the standpoint of effect upon their candidacies and for this reason there is more divergence of opinion than otherwise might be expected.

M. M. Crane, Texas member of the resolutions committee, denied this morning that there had been any vote by the committee on any question.

A number of the Texas delegates favor ignoring the prohibition question altogether. Others, notably former Governor T. M. Campbell, a senatorial aspirant, want Bryan's plank, congratulating the country on the adoption of the amendment and demanding strict enforcement of the Volstead act. Wet delegates seem to be in favor of ignoring the whole question, apprehending if any utterance is made it will be a bonerdy expression.

MEXICANS IN U. S. SPECIAL MISSION

WASHINGTON, June 30.—Fernando Iglesias Calderon, special ambassador of the present government in Mexico, sent to the United States "on special mission," Acting Secretary of State Davis, which will be granted. It is understood at the department that Mr. Calderon wishes to present arguments in favor of recognition of the new Mexican regime by the United States.

The American embassy at Mexico City advised the department today that reports were published there yesterday that Gen. Carlos Osona had rebelled in the state of Tamaulipas against the present regime.

The general consensus among financial authorities at the present writing is that Germany will repeat the proposition made at Paris last fall by Brockdorf-Rantzau, namely, 5,000,000,000 pounds (nominally \$25,000,000,000), with reservations bringing this sum down to approximately \$7,500,000,000. Any such offer will be summarily dismissed.

Various estimates of what the allied reparations demands will have been made. That most often mentioned in the British press is \$25,000,000,000, while the French experts place it at \$30,000,000,000. Original demands made by France at the Versailles conference amounted to \$50,000,000,000, while Kynes' appraisal of Germany's liabilities scarcely exceeded \$10,000,000,000. Lloyd George, it is understood, has been greatly influenced by Keynes' deductions.

Infringements of the treaty, varied and many, will also be subject for discussion at Spa. This excepts the disarmament clauses, which the allies decided at San Remo and the Hythe conference should not be allowed to lag. Any questions concerning

ENTENTE TO MEET GERMAN AT SPA

By CHARLES McCANN (United Press Staff Correspondent)

LONDON, June 18. (By Mail)—Spa, where entente and German delegates will meet for the first time on a basis of equality, probably will be the last inter-allied concave of major proportions, dealing with the Versailles peace treaty. The tentative date set was July 5.

International developments, since the San Remo conference, have been such that Premier Lloyd George is extremely anxious that Spa shall wind up "bargaining" in so far as the German treaty is concerned. Since the Italian cabinet crisis and the Frankfurt occupation, it has become evident that co-operative action among the allies is scheduled to be more and more difficult.

Economic and commercial rivalries between the European countries, regardless of past affiliations, will again develop. Individual action, except in the case of Turkey and Hungary, with whom treaties have yet to be concluded, will enable each country to "mend its own fences."

While, according to officials close to Lloyd George, the German delegation at Spa will be met in equals and will be permitted to present their own case in their own way, they come with the distinct understanding that the peace treaty is not to be modified in any way.

The meeting can be compared to a conference between two litigants, one of whom has secured a legal judgment against the other. Both agree that the judgment is valid and just. The matter to be discussed is how it can best be collected. This was the analogy drawn by a British official who will play an important part at Spa.

The German delegates, according to well-informed officials, will be requested to make the first overtures. Millerand and Lloyd George, it is believed, have already decided upon maximum and minimum demands. Should the German estimate of their ability to pay fall within these limits, the conference will rapidly come to a close. On the other hand, if Germany's offer is below the estimate of the conference, her delegates will be given an opportunity to advance arguments and proofs in favor of their claims.

Financial authorities at Spa are of the opinion that the German delegates, according to well-informed officials, will be requested to make the first overtures. Millerand and Lloyd George, it is believed, have already decided upon maximum and minimum demands. HASKELL POSTMASTER HAS RESIGNED JOB

HASKELL, TEX., June 30.—Postmaster Dean of this city sent in his resignation several weeks ago to take place July 1. Will Kirkpatrick will relieve Mr. Dean on the above date. He was a former assistant under Mr. Dean and has a petition before the department for the place. He will doubtless receive the appointment.

Mr. Dean has been postmaster for seven years and has made many friends during his years of faithful service. He was also president of the Postmasters' Association of Texas in 1916.

Commandery 59, Wichita Falls Commandery meets tonight at 7 o'clock for special work. A. F. Kerr, Commander; J. W. Walkup, Recorder. 45-11c.

ing disarmament not already under consideration will, of course, be permanently disposed of.

Advance preparations at Spa for the entertainment of the visitors have been completed. The British delegation will be located at the Hotel Balmoral, while Premier Lloyd George will be the private guest of Baron de Crauwers, burgomaster of Spa. The French mission will stay at the Grand Hotel Britannique; the American mission, if it appears, at the Hotel Rosette, and the Italian, Belgian and Japanese missions at private houses. The conference meets at the Chateau de la Fraineuse, the residence of M. Pelzer-Craux.

Failure of the United States to participate at Spa will be a great setback for the entente. The French hope of "immediate payment" is based upon the possibility of capitalizing Germany's reparations promises and disposing of the German bonds in the United States and Britain. Considerable wealth is in private hands in France, but French investors, after their experience with Russian war bonds, are loath to sink any considerable amount in German promises to pay.

According to American officials here, it is extremely unlikely that the United States will participate. At least, neither Ambassador Davis nor Ambassador Wallace at Paris has planned to go to Spa.

Italy's attitude at Spa is another angle that may cause difficulties. Until recently Italian officials have refused to recognize the Hythe and London conferences between Lloyd George and Millerand as anything but "informal personal meetings." Italy they claim must be consulted and agree to any international arrangement arrived at. Furthermore, Italy, who suffered as intensely, if not as generally, as France is also entitled to priority claims. And these must come from Germany as well as Austria, they declare. While not actively arrayed against Germany during the war, it is pointed out, the German army alone made the "Austrian advance into Italy possible after the Sonzo and Caporetta offensives."

Fairly acute is the lack of coal and France's recent arrangement with Britain, whereby the former is to secure the largest part of England's coal exports, has not created any friendly feelings between the two neighboring nations. France's lien on the output of the Ruhr valley, Italy also believes, is materially handicapping the reconstruction of the rest of Europe.

Unless all indications fail, Spa has possibilities of proving even less profitable than several previous conferences have been.

The general consensus among financial authorities at the present writing is that Germany will repeat the proposition made at Paris last fall by Brockdorf-Rantzau, namely, 5,000,000,000 pounds (nominally \$25,000,000,000), with reservations bringing this sum down to approximately \$7,500,000,000. Table with columns for player names and statistics for the Wichita Falls team.

Showing a reversal in form in every department of the game the Spudders finally came out on the long end of the score at Athletic Park yesterday.

Danny Clark made his first appearance at the park in a Spudder uniform and he received a royal welcome from the crowd.

Johnny Mokane was ousted from the clean-up position in the batting order, giving way to the Johnny evident.

Harvey Grubb gave him a close rub for wallowing honors. Harvey caught one of Keck's cross fires on the nose in the fourth stanza.

The Spudders were still running true to form when they gave the visitors first blood in the second round.

Keck got another double in the fourth with two down, but the slam went for naught.

Grubb's excursion bang came in the Spudder's portion of the fourth and netted three runs. Clark drew a pass and went to second on Mokane's safety to left.

The boys uncorked some of the surplus batting energy that has been in their systems in the next round and greeted Keck with five safeties.

Mense started the second stanza with a hard drive past Grubb. He stole second while Noyes was at bat and stayed there while Sewell threw the latter out. Keck drove on down the right field foul line for two bags and Mense scored.

When Uncle Sam reviews his winners at the Olympics, it is safe to predict that his team of mermaids will be well in the foreground with medals on their chests.

This year will be the first time in history that American girls have entered the Olympics as rivals of the champion swimmers and fancy divers of other nations.

In the past, all Olympic aquatic laurels open for women have remained abroad for the very simple reason that the American girls did not organize as a team and go after them.

But boys, this year their rivals are going to see just what the soles of an American woman's feet look like.

It is planned to take a team of eight of our best women swimmers. These will be determined by open competition to be held in different parts of the country.

Because of her wonderful record, Miss Charlotte Boyle can be safely counted as one of the chosen eight.

In view of the fact that these Australian girls were previously recognized as the international champions in their respective fields, we believe that with our array of talent headed by Miss Boyle, we are going to be right in the swim at the Olympics.

IRSLINGER DEFEATS MIDDLEWEIGHT CHAMP IN 2 STRAIGHT FALLS

Local Favorite and Ted Thye Grapple at Catch Weights for \$10,000 Purse.

SPOKANE, WASH., June 30.—Henry Irlinger, of Wichita Falls, Texas, champion of the middleweight wrestling championship of Europe, won from Ted Thye of Spokane, middleweight champion of the world, last night in two straight falls. The first fall was won in one hour and 35 minutes, with a double elbow lock. The second fall was won with a body scissors and arm lock in 15 minutes. The men wrestled at catch weights for a purse said to contain \$10,000.

COACH OF OLYMPIC TEAM MAY BE JACK MOAKLEY OR KEENE FITZPATRICK

By HENRY L. FARRELL. (United Press Staff Correspondent)
NEW YORK, June 30.—With a fairly good idea established of the make-up of the Olympic team, the selection of a coach is becoming of paramount importance. Of a field of candidates or eligibles consisting of Robertson of Pennsylvania, Moakley of Cornell, Fitzpatrick of Princeton, Donovan of Harvard, Moseley of Stanford and Farrell of Illinois, the veteran Cornell and Princeton coaches are growing in favor. The committee probably will name the coach and staff at a meeting here July six.

Sport Comment Paul Varkin

Now watch us
Tom Miller still shared the fielding honors. Almost stretched out of his shoes. He kept reaching for a pop fly. He kept his foot on the sweater.

Miller spoiled drive on Leslie in the seventh. He captured his drive after a hit. We cannot see where Jake has such a lot on Tom. He has a bit more experience, but his ability is concerned, he has a thing on him.

Harvey was awarded for his circuit clout. The guardian of the hot corner break into the limelight very with a startling play, but he's in playing consistent ball, day in and day out. There isn't a steeper in the infield.

Johnny Mohr burn to his early season batting was more than welcome. Ever of his blows yesterday were smashes and the ball left his bat a ring that was music to our ears.

Benny Brown out on the coaching lines just as hard as ever. As we said before, there isn't a man on the team that has pulled harder for victorian Benny. True, he was unfortunate making his misplays at criticisms, but Wichita fans were not in riding him. Benny was hurt than anyone when he slipped. Fans are really pulling for him. They will never get them by the men on the field when the giving all they have and doing level best. The best in the work them and must slow up some. Benny realizes himself that hot as spay as he was in days of, but he gave all he possessed to club officials know it. If he remains, it will be to the club's sake.

"Red" Joseph got the knack of laying them and beating them

out to a science. He dumped a couple down between Keck and Leslie yesterday that couldn't have been beaten by the best of them.

Danny Clark was all over the lot and looked mighty sweet in a Spudder uniform. He found out in short order that he was among friends.

It looks as if the Spudders and local fans will not have one of their fondest wishes gratified. Unipiro Doyle has been shifted by Walter Morris to the West Texas circuit. Doyle had better watch his step in some of those smaller, wilder oil towns. This said on fairly good authority that they bump a man off quite regularly in those towns just for luck. We hope for Doyle's sake they don't specialize in umpires.

Wonder what the croakers will have to say now about Irlinger's victory in

Spokane last night. Wonder if they think his match with the middleweight champion of the world for a \$10,000 purse was "fixed." The title did not go with the victory, however, as they grappled at catch weights.

Is everybody set for the Exporters tomorrow? The Spudders have several scores to settle with the clan of Mathes, which clan, by the way, is traveling at a merry clip just now. The Salmities are still smarting over the treatment they received in the Southern club's park.

MATHES AND M'COY HOLD FIRST NATIONAL OUTFIT WITHOUT A HIT OR RUN

Airtight pitching by Mathes and McCoy featured the First National Bank at the Wichita Motor's grounds yesterday. Mathes twirled the first three innings for the winners and sent the Bank outfit back to the bench without a hit while McCoy took up the burden in the fourth and did the same thing for the next four innings. In addition to hurling great ball, McCoy pounded out a brace of triples. 5 Times Across the Continent On One Set of Tires
Cole Aero-EIGHTS Average More Than 15,000 Miles on Original Tire Equipment Besides Increasing Gasoline Mileage 50% for Cars of Their Capacity and Power

Tires never have to be taken into consideration by the owner of a Cole Aero-EIGHT. The original equipment outlasts every other. That is one reason for the remarkably slow depreciation of the Aero-EIGHT. Its remarkable economy in the use of tires and fuel and the sturdy dependability and continuous improvement of the mechanism with its use to gain in service and utility as time goes on. It retains its original value indefinitely.

The Cole Aero-EIGHT was the first car to negotiate uniformly under all conditions of travel upwards of 15,000 miles on tires—5 times the distance across continent on its original casings. Besides, it affords fully 50% more mileage per gallon of gasoline than is ever expected of a car of its capacity and power. Owners of Cole Aero-EIGHTS understand the significance of aero-type construction as it is revealed to them in the performance of their cars.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock

COTTON MARKET. NEW YORK, June 30.—Yesterday's sharp fluctuations were followed by rather unquiet and irregular price movement in the cotton market during today's early trading. The cables were better than due, but the weather may make a favorable showing while no improvement was reported in the bettle trade. The opening was barely steady at unchanged prices to a decline of 10 points. Active positions sold about 7 to 10 points below last night's closing after the call with October touching 23.00 and December 21.75. There was a sale of July at 22.00, but business in that position was very quiet.

New Orleans Cotton. NEW ORLEANS, June 30.—Traders in cotton adopted a waiting attitude in the early hours today and the market did not move until the most active months around the first call and then dropping off until at the end of the first hour of business, the market was 23 points under yesterday's closing. July fell to 20.00 and October to 22.75. July was not especially active. The week's crop and harvest were considered favorable, but caused little selling, while the demand became fairly and good and floor contracts were made for large short lines being covered. Late in the morning trading moved to 11 to 11 points under yesterday's closing with July touching 19.25 and the cotton market closed steady 14 points up to 12 down, net.

GRAIN AND PRODUCE. CHICAGO, June 30.—Uncertainty regarding possible development of black rust in the spring wheat belt today led to higher prices for other grain, including corn. After opening unchanged at 1/2 lower, July wheat was 1/2 higher at 1.17 1/2 and closed 1/2 higher at 1.17 1/2. The corn market scored material gains all around.

NEW YORK STOCKS. NEW YORK, June 30.—Aside from the weather news, there were no signs of the opening today that the stock market would throw off its protracted torpor. A few scattered gains and losses ranging from fractional fractions to a point, but were unimportant in the first 15 minutes trading. The industrial stocks and others of the prominent equities extended their gains on reduced operations at midday, but a whole realization of profits caused moderate reactions. Central Leather was heavy and revival of the minor industrial issues on undue pressure on reports of speculative findings.

ESSEX CAR CONTINUES REMARKABLE PERFORMANCE IN CONTINUOUS RUN

Watched by a crowd so large it nearly blocked traffic, the Essex demonstration car continued its remarkable performance last night of continuous running for a week.

This is Essex Week all over the country and to prove the remarkable mechanical perfection of the car, the Lloyd Weaver Automobile Co. started a car last Monday and expect to keep it in constant operation until Saturday night, the car being on the street during the day time and running in a circle without a driver on the floor of their showroom during the night. So far the car has come through with flying colors, not a miss having been registered and the motor as cool as when the test was started.

In order to stimulate interest in the test, the Lloyd Weaver Automobile Co. invites guesses as to the mileage the Essex will cover during the week. The speedometer is painted to conceal the reading and the paint will be rubbed off until the conclusion of the test and in the presence of representatives of both local papers.

SERVING CIVIL PROCESSES KEEPS DEPUTIES BUST

Due to hundreds of civil suits filed in the district courts of this county and the large number of civil processes the sheriff and his deputies are called upon to serve, not a great deal of time is left for apprehension of criminals, county officials say.

Two or more deputies are kept busy serving civil processes or securing jurors for trials, and it is very often that, so strenuous are the civil duties, the entire sheriff's department is called upon to assist in serving citations and other processes sent down from the courts by the hundreds.

A bad feature of citation serving is the fact that persons named in the petition often reside in distant parts of the county or worse than ever, their exact address is unknown. The

deputies also are often confronted with persons who attempt to elude the process server in order to evade trial.

Mr. and Mrs. C. H. Hunter of Elizabeth street, have left for a short visit at Sherman.
