RESOLUTE WINS, SCORE IS TIED

Poland Asks Moral Support of United States

WASHINGTON, July 22.—Poland has asked the state department to formally announce to the world "the moral support" of the United States to Poland.

The suggestion also was made that a similar expression from President Wilson would be welcomed and would do much to stiffen the morale of the Polish people.

War is imminent. London, July 22.—The British public is disturbed by the possibility of confronting it that the allies may be compelled to enter another European war to save Poland.

Peace of the Whole of Europe Held in Balance; Another Great War May Result.

Almost all the newspapers support the premier, although there is much recrimination over the policies which have brought the destinies of Poland to this pass.

London, July 23.—The Polish outlook appears increasingly menacing to commentators in this morning's newspapers.

Emphasis is laid on the danger to the peace of all Europe by most of the newspapers, and the anti-bolshevik papers see in the soviet army's advance a determination to destroy Poland.

Another paper expressed its belief that the bolsheviks will reach the eastern frontier of Germany, a Spartacist or monarchist uprising would be inevitable, either of which, they said, would be equally fatal to the reconstruction of Europe.

Papers which have been consistently distrustful of the Germans, foresee that the military party of Germany not only would find in such a case an excuse for further delaying reduction of the Reichswehr and disbandment of the civil guard, but would secure a direct line of communication with Russia and make itself master of the bolshevik organization and Russia itself.

These finally will be available for Poland if she is invaded but supporting East Prussia is invaded, asked the newspaper, "is it so certain the bolshevik won't get them?"

TRACTION CO. KICKS 6-CENT FARE WITH TRANS. PRIVILEGE

Denver Street Residents Protest Slowness in Paving The Thoroughfare.

That the Wichita Falls Traction Company would prefer to operate under its present fare rate rather than accept an increase to six cents with the burden of being forced to issue transfers was declared last night by L. L. Albritton, general manager.

Albritton asserted that the company would prefer to operate under its present fare rate rather than accept an increase to six cents with the burden of being forced to issue transfers.

BELFAST, IRELAND, IN THROES BITTER STREET FIGHTING

UNIONISTS AND SINN FEINERS THROW REIGN OF TERROR IN BELFAST.

TEN PERSONS KILLED IN LAST NIGHT'S FIGHT

Soldiers Patrol Streets And Many Clashes Were Averted By The Military Forces.

BELFAST, July 22.—Shooting was renewed this morning in the Kashmir street area where bitter fighting occurred last night in clashes between unionists and Sinn Feiners, with military intervention. Early in the renewal of the hostilities in this district, one man was reported wounded by a shot that passed through the window of his home.

It was definitely stated this morning that 10 persons were killed in last night's hostilities.

Soldiers were compelled to use machine guns against rioters in fighting throughout the city last night and early this morning in the Falls Road district the Sinn Feiners were sniping soldiers and police from roofs and windows of houses. The troops returned at frequent intervals yesterday.

Three unionists were shot dead by Sinn Feiners in another street, and a head was blown off. A man helping to carry the body of one of the dead men into a house was shot dead.

The disorders which started Wednesday after some Sinn Fein workers in a shipyard were attacked, were renewed at frequent intervals yesterday.

Throughout the afternoon the military was engaged on Falls Road in erecting barbed wire entanglements across the front of shops, wrecked in Wednesday night's disturbances and posting large detachments of troops at certain danger spots.

Soldiers with fixed bayonets patrolled the district in the afternoon, demonstrating which might have led to serious results were they interrupted. Looting and smashing of windows prevailed in the streets, and a number of spirit, groceries and licensed premises being especially singled out.

RESOLUTE-SHAMROCK RACE TOMORROW TO DECIDE CUP WINNER

WITH SHAMROCK TWO AHEAD RESOLUTE TIES SCORE BY TODAY RACE.

RESOLUTE WON RACE UPON ITS OWN MERITS

Beat Shamrock Without Need Of Handicap Granted By The Irish Contender.

SANDY HOOK, N. J., July 22.—Resolute won today an international cup race after a spectacular finish and the two to the world Shamrock IV in the fight for the America's cup.

The official time was: Resolute 4:29:25; Shamrock 4:44:06.

Let by Sir Thomas Lipton's chartered steam yacht Victoria, a tremendous chorus of whistles greeted Resolute as she crossed the line.

The official time for the 30 mile race was: Resolute 3:27:52; Shamrock 3:41:10.

By this figuring Resolute won by minutes in the second race, 4:29:25, plus her time allowance of 6 minutes and 40 seconds, making a corrected time of 5 minutes and 28 seconds.

Resolute, defending the America's cup, led Shamrock IV tops 20 miles had been covered in today's international yacht race.

Making the mark at 3:25:45—the American sloop crossed about the home stretch of 10 miles, striving to win the race and tie the 1920 series.

VANDERBILT FUNERAL TO BE HELD MONDAY

Estimate Estimated Between \$50,000,000 and \$100,000,000; Body To Be Returned To U. S.

PARIS, July 22.—The funeral of William K. Vanderbilt, who died here last night, will be held in the American church of the Holy Trinity here Monday.

Arrangements were made to place the body in the mortuary chapel of the church until plans can be made to have it taken to the United States.

Final interment will be in the Vanderbilt mausoleum on Staten Island.

Big Estate. Estimates placed the value of the estate left by William K. Vanderbilt at between \$50,000,000 and \$100,000,000.

PARIS, July 22.—The funeral of William K. Vanderbilt, who died here last night, will be held in the American church of the Holy Trinity here Monday.

Arrangements were made to place the body in the mortuary chapel of the church until plans can be made to have it taken to the United States.

LEAGUE STAND WILL BE BONE CONTENTION

Expect Democrats Will Demand Details Of The Proposed "Understanding."

MARION, O., July 22.—Senator Harding's stand on the League of Nations, outlined yesterday in his speech formally accepting the republican nomination for the presidency, was expected today by his managers here to furnish the chief bone of contention during the next stage of the political campaign.

Democratic demands that the candidate make a more specific exposition of details of the proposed "understanding" are fully expected here, and the senator's friends declare he will be ready to answer. In that connection they singled out today one paragraph in the acceptance speech as indicating what trend his reply might follow.

Specific Details. "If men call for more specific details," he said, "I remind them that moral commitments are broad and all inclusive, and we are contemplating people in the concord of humanity's advancement. From our own viewpoint the program is specifically American, and we mean to be Americans first, to all the world.

For the immediate future, however, the feeling here is that the fight should be to develop along national lines. His position on the league and other issues before the country and the strain of notification day over, the candidate planned to day to rest. He had no important political leaders on his calling list and he hoped during the day to find time for a game of golf.

Although he had been notified to determine whether poisoning was the cause of death.

For more than a month the trunk has been in the express warehouse without attracting attention. It had not been claimed by the addressee, "James Douglas," whose address was given simply as New York city.

WOMAN'S BODY FOUND JAMMED IN TRUNK

Express Employees Find Body; Trunk Shipped From Detroit, Michigan.

NEW YORK, July 22.—A regular surgeon's autopsy, including the removal of all vital organs except the brain, has been performed on the body of an unidentified woman found today jammed in a trunk in the American Railway Express Company warehouse.

The gruesome contents had been shipped here from Detroit June 19, and the trunk had been received today at Bellevue morgue with the intention of making a post-mortem examination to determine the cause of the woman's death, he found that some one had already operated on the body. Dr. Norris said the operation had been performed with a skill which would have been impossible to any one except a surgeon.

The woman's brain, the only remaining vital organ, was removed, and will be subjected to a chemical examination to determine whether poisoning was the cause of death.

For more than a month the trunk has been in the express warehouse without attracting attention. It had not been claimed by the addressee, "James Douglas," whose address was given simply as New York city.

NEW YORK, July 22.—The body of a nude woman, jammed in a trunk, was found today by employees of the American Railway Express Company among the unclaimed baggage in the company's East Forty-fourth street warehouse. The trunk had been received here from Detroit, July 17.

Believing that the trunk contained perishable merchandise, one of the expressmen opened it and found the woman's body. The body had been jammed into the trunk and the clothes apparently had been thrown in afterwards.

COX WORKS PASSAGE SUFFRAGE IN TENN.

Two Or Three Men Lobbying In Tennessee For Woman Suffrage Measure.

COLUMBUS, OHIO, July 22.—Governor Cox today told a delegation from the national woman's party that he had already "two or three men" working among members of the Tennessee legislature to secure the thirty-sixth vote needed for ratification of the suffrage amendment. The suffrage amendment asked the governor to send a personal representative to Tennessee and were surprised and gratified to hear the candidate had "beaten them to it," they said.

Preparation of his address for acceptance of the Democratic presidential nomination on August 7 was the principal task today before Governor Cox. He was to leave here at 2:40 o'clock for his home at Trail's End, near Dayton, where he will be notified, with the intention of devoting all of next week to drafting his acceptance speech.

WISCONSIN COUNTY SUEB BY HAMER FOR \$40,530

FORT WORTH, July 22.—Wise county was sued in federal court here today by J. E. Hamer of Colorado for \$40,530. The suit arose over road work, Hamer being a contractor. He says funds voted for the roads were diverted to other purposes and there is not sufficient money on hand to finish the work.

DETROIT, Mich., July 22.—Police here declared they were without a clue as to the identity of the body of a young woman found in a trunk in an express warehouse in New York today. Neither could they throw any light upon the identity of the person who shipped the trunk here June 17. There is no such number on Harper street, or on any name "A. A. Tietz" in the city directory.

DETROIT, Mich., July 22.—Police here declared they were without a clue as to the identity of the body of a young woman found in a trunk in an express warehouse in New York today.

PRIDDY WINS MILLION DOLLAR OIL SUIT TODAY

In the suit of Clois L. Green et al vs. W. M. Priddy, the jury in the 78th district court late today returned answers to the special issues. The answers were favorable to the defendant, W. M. Priddy.

At the first trial of the case the jury returned an instructed verdict for the plaintiff. The court of appeals remanded the case for trial.

Oil property in the northwest field near the Burk-Wagoner well valued at more than a million dollars was involved.

TIMES WILL BULLETIN PRIMARY RETURNS SATURDAY NIGHT

The Times will receive the full leased wire reports of the Texas Election Bureau on Saturday night and continuing until the winners have been determined. Arrangements are being made as usual to collect the returns in Wichita County at the earliest possible moment.

200 yards to windward going quite fast and Shamrock almost becalmed.

The two sloops broke out baby jib topsails on crossing the line. There was a big roll to the sea and the sloops pounded as they moved away, causing them to spill some of the wind from their sails.

After Captain Burton started to let Shamrock run in order to foreclose her rival, the challenger appeared for a while as if she was sailing back to the starting line, so badly was she thrown off apparently by the shifting wind.

When the two yachts later headed in shore toward the Jersey highlands, Resolute gained constantly in the heat to windward, her sharp bow lifting through the sea much better than Shamrock's snubby bow.

At 1:11 the American yacht was easily a quarter of a mile ahead.

Works Inshore.

Working inshore, Resolute pinched out further and further to weather, while Shamrock sought to overcome her rival's advantage by foreclosing.

The defender heeled over in the light breeze zone the light boat and showed the same marked advantage in beating to windward in a ground swell with faint airs as she did in previous races.

The yachts at 1:24 were trying to get under the Jersey highlands where they hoped to get a bit more breeze.

At 1:29 the wind had almost died to the south, letting up Resolute and putting her more than one-quarter of a mile to windward, where she was almost able to lay her course for the first mark.

At 1:30 the wind, after having increased to eight knots, went back to a south-south-west with a light breeze.

At 1:37 observers ashore estimated that Resolute was leading by only a little more than a quarter of a mile.

The press boat reported at 2:30 that the yachts were about three miles from the first mark with Resolute well to windward of Shamrock and seemingly about two miles to the good.

Cutting Lead.

The wind hauled a little east of the south, making the second leg a close rather than a broad reach. At 2:55 Shamrock seemed to be cutting down Resolute's lead and the race became exciting.

The wind increased to 15 knots at 3:00 p. m. and the yachts for the first time in 1920 regatta, were tearing through the water.

At 3:15 the yachts had sailed two-thirds of the second leg. With one-third of the second leg to go, Resolute was reported by the press boat to be still leading but by only a mile and a half.

At 3:20 the Resolute was leading by a quarter of a mile with the finish line four miles away. There was a big drop in the breeze which at 3:31 came around to the northwest, forcing Resolute to tack.

Shamrock was forced about by Resolute. Without a club top sail the challenger seemed handicapped.

Drenched by Squall.

At 3:50 the yachts were drenched by a passing squall.

A singular shift in weather conditions left both boats almost becalmed at 4 o'clock, four miles from the finish, but with Resolute a quarter of a mile ahead.

Shamrock passed Resolute within three miles of the finish line, but at 4:14 had not enough lead to win if present conditions held.

At 4:15 the breeze came back from the southwest and Shamrock got it first. The challenger was able to reach by Resolute.

Half a mile from the finish Resolute broke out a balloon and blew and drew past the Shamrock.

At 4:20 p. m. both sloops were heading for the finish at a fair speed with Shamrock to weather of Resolute and a trifle ahead.

Resolute crossed the line first with a minute and a half to spare, according to unofficial timing ashore.

Shamrock, after a long stern chase around two legs of today's triangular course, overhauled the defender within three miles of the finish, but the American sloop, breaking out a big balloon, took the lead again within the last half mile and sped first across the finish line, beating the challenger boat for boat, according to unofficial timing.

Resolute won by even more than a minute and had the race decided to unofficial finishing time flashed ashore by the press boat. These were: Resolute, 4:23:24; Shamrock, 4:24:04.

Photo-Telegraphy.

LONDON, July 22.—Two pictures of Tuesday's race between Shamrock and Resolute, described as having been transmitted by photo-telegraphy, are printed by the Daily Mirror.

The newspaper admits they are imperfect and not wholly accurate, but claims that when the experimental stage of transmitting photographs by telegraph is passed and the apparatus is developed, it will be possible to transmit pictures by this process to any part of the world.

Hobby Interested Passage Home Ownership Law

BRAMMONT, TEX., July 22.—Gov. W. P. Hobby made the following statement today: I am deeply interested in the passage of the home ownership amendment to the constitution which comes up before Texas voters tomorrow.

This will place a clause in the constitution allowing the legislature to make laws providing means whereby Texas citizens can secure home ownership in the state. I consider it the greatest measure for the common interest in years.

For Itching Eczema, Old Sores and Piles

"I guarantee my ointment," says Peterson of Buffalo, N. Y., "to stop the itching at once and any reliable druggist will cheerfully refund your money. My ointment is PETERSON'S OINTMENT. It doesn't do anything I say it will do."

MAIL WORKERS NEED INCREASE IN PAY

Uncle Sam's Faithful Deserve Better Pay Than What is Now Paid.

WASHINGTON, July 22.—Did it ever occur to you that your city letter carrier, your village postmaster or your mail route carrier, has a past?

He is the agent by which the long arm of Uncle Sam taps your shoulder one, two, maybe three times a day, yet he is so unobtrusive that you probably don't know him half so well as the policeman or the school teacher.

Recently, however, he has been in the public eye by the presentation of his need for increased pay, and, in this connection, the National Geographic Society has attracted attention to him as an historic figure.

The history of the postal service and its employees extends to the days of the Romans when the earliest known means of transmitting a message was by courier.

The first letter post seems to have existed in the Hittite lands in the thirteenth century in order to facilitate relations between the merchants of the various members of the Hittite League.

The British Post Office had its beginnings in the sixteenth century and our own colonial methods of handling mail were inherited from our British forefathers.

Long before the people had any means of exchanging either personal or official letters, the King had established a system for conveying his personal messages and official documents by royal messengers.

In the reign of King John this petulant monarch paid out a large sum for a postal service and charged it to the Household and Wardrobe accounts.

Messengers who were thus entrusted with matters of state had to be above suspicion. They went the whole distance on horseback, and the length and danger of their journeys.

When Edward IV found the Scots were too hot upon his trail he decided that he needed a system of communication between his own headquarters and those of his fighting forces.

He had horses placed at twenty-mile intervals on the road between England and Scotland. That was our present postoffice system in embryo.

Finally, in 1512, Sir Brian Tuke became the first Postmaster General of Britain, and personally took charge of all the royal messengers.

Persons of less importance than kings had to arrange to send their letters by their servants, messengers, merchants, or friends, but there is evidence that by the close of the fifteenth century regular couriers between a few main points were employed.

In a Privy Council Proclamation in 1603 the duties of mail carriers were made extremely arduous. The postman had to have two leather bags lined with bays or cotton for his letters.

He had to trot a horn whenever he saw anyone approaching, or at least four times in every mile, and he might not delay more than fifteen minutes at any point, and he had to make at least seven miles an hour in summer, and five in winter.

Beside this, he had to keep a record of the name and address of the sender and recipient of each letter.

In 1625 New England proposed to the British sovereign that a post office system be established in the colonies as it was so useful and beneficial.

His Majesty paid no attention to the plea, but Richard Fairbanks, in the same year, set up an office in Boston to receive letters from ships. He undertook to deliver the letters received and charged a penny for

each letter. He also received mail for outgoing ships, but no one was forced to send mail through his office.

What a state of affairs it is from those days to a system that specially delivers our eager and anxious words, carries our parcels, registers our valuables, banks our money or transmits it to pay our bills, and was the Paul Revere of our drafts for service in the World War, calling Americans to Concord and Bunker Hills on the fields of Flanders!

Today, in many sections of our country, the farmer has his daily paper just as the Wall Street banker has his, and often he has a superior advantage in that the mail man who delivers it to him is his friend, and may add verbal bulletins on items of local interest.

A thrilling story of the devotion of mail men to their duties is that of the Pony Express, the first rapid transit mail line across the 1,966 miles of prairie, desert, snow-capped mountain peaks, and alkali wastes between the Missouri River and the Pacific Coast.

It was inaugurated early in 1860 in order that the West might be kept more closely in touch with the North in view of the alarney question, and, though it had an existence of only sixteen months, it made the East and West only ten days apart at a time of crisis.

The date of starting was to be March 26, 1860, and Fort Kearney, Larabee, Bridger, Great Salt Lake City, Camp Floyd, Carson City, and Washoe River, Placerville, and Sacramento were to be the points of delivery of mail.

In St. Joseph, Missouri, eager and excited crowds gathered in the streets to see the first courier, the wiry, twenty-year-old Johnnie Fry, as he dashed away on his jet black steed for the first lap of the race of flesh, blood, and determination against the desolate spaces of an unpopulated country.

These riders were clad in buckskin shirts, ordinary trousers, high boots, and soft slouch hats, and were armed with sheath knife and Colt's revolver and Spencer carbines. The best time they made across the trackless waste

POLAND ASKS MORAL SUPPORT OF U. S.

(Continued from Page 1)

ment was not afraid to accept a truce, but that it could not permit overt outrages and murders. It was proposed to go a long way to letting Ireland manage her own affairs if the necessary assurance was forthcoming.

The premier suggested that labor could use its influence to secure settlement.

Feck to Delay Trip.

PARIS, July 22.—Marshal Foch will not go to Warsaw unless the report of the French and British missions now en route indicates the necessity of his presence and subsequent developments show that military aid by the allies is required to prevent the bolsheviks from overrunning Poland.

Some hope is entertained in official circles that direct armistice negotiations between Poland and soviet Russia may make allied intervention unnecessary.

Dubno Captured.

LONDON, July 22.—Capture by soviet troops of the fortress of Dubno, one of the Volhynia group of fortifications defending the southeastern Polish border, is announced in Thursday's official statement from Moscow, received by wireless today.

Floral Mistletoe Methodist Church.

Try attending every service. Under the new plan none of the services are long. The tabernacle is ideal for summer services.

Don't take anybody's word for it. But if you're a coffee drinker, and feel as though something is wrong with your nerves, quit coffee and use INSTANT POSTUM. You'll know more after a couple of weeks about the effects of coffee, than you can learn from reading in a couple of years. "There's a Reason" for POSTUM. Made by Postum Cereal Co. Inc., Battle Creek, Mich.

Beware of Last Minute Campaign Misrepresentations. My opponent has again broken into print and this time, in addition to giving his pedigree, a matter concerning which the voters of this county are not interested, and highly recommending himself, probably for the reason it was necessary for him to do that, he then makes certain charges, nine in number, against me and my record as county judge. In the first he says I, as county judge, spent \$500,000 of road money with no permanent benefit to Wichita county, a statement which is false and he knew it to be untrue at the time he made it. His next charge is that I paid \$20,000.00 of the county money to be released from a contract, when the contractor was willing to pay a similar sum to be discharged by the county. If he had desired to confine himself to the truth and would have taken the pains to investigate, he would have known that this contract was made by my administration and that at a mass meeting of the citizens and tax-payers of Wichita county, it was recommended to the commissioners court that it would be good business to pay the \$20,000.00 to be released from that contract. As a charge number three, he knew, or could have known, that the auditor was not exonerated by the judges, but that their finding was that the charges were insufficient for removal and that at the same time required him to pay the bills that he had refused to O. K. His charge to the effect that I let contracts without competitive bidding is untrue and he knew, or could have known that it was untrue at the time he made it. His charge number five is without any foundation in fact. His charge number six is absolutely false and evidently was maliciously made. As to charge number seven, if he had wanted to know the truth he could have found out that one of the commissioners, Mr. A. E. McClesky, who has been chairman of the equalization board for 24 years was seriously ill in the hospital and requested that the hearing be postponed until July 25th. It is true that I have held office for more than five years, four years as Justice of the peace and now serving my first term as county judge. I have lived too long in this community to be in any way affected by the false charges and insinuations against my character and standing, for my life here is an open book and those who do not know me personally I would cheerfully recommend to those who do know me. In answer to some of his charges several days ago I gave to the press the facts as to my administration from a business standpoint and at that time stated over my signature that the commissioner's court had made a net saving on roads alone of more than \$222,000.00, a fact which I now repeat and which he has not seen fit to deny. J. P. JONES. (Political Adv.)

mer services. We have a thoroughly efficient Sunday school. Our League has in its ranks of the finest young people in the city. Why not join in with them. All services are free and easy, and you will be glad you came.

DR. DANIELS ANSWERS M'FALL'S STATEMENT

To the People of Wichita County:

I have lived among you for the past ten years as a private citizen, and for the first time I have been drawn into politics, or my name has, on account of my unfortunately being a witness to a most deplorable affair at the county jail.

Two weeks ago I received a letter from members of the Civic League asking me to tell them what I knew pertaining to the treatment of prisoners at the county jail.

The reason for this inquiry was brought about from the fact that one of these members solicited my vote for Mr. McFall, and I told this good lady that I could not support Mr. McFall, and told her the reason why.

I make this explanation of the fact that I was regarded as a witness to a most deplorable affair at the county jail, feeling, I suppose, that this letter would clear him of any charge.

I do not feel that it was my duty to give the truth in this matter in detail, after being solicited from the source that this solicitation was given to me by Mr. McFall.

I have been his friend, politically and otherwise, but after seeing his actions in dealing with these men, I have regarded him just as I can and hold myself self-respect.

I do not feel that the statement set out in my letter would in any way injure Mr. McFall, from the fact that there are other respectful vocations that he can follow other than being sheriff of a county where boys and men, and some times women, are placed in his care for safe keeping, and whose duty it is for him to shield and protect.

There is no one that could possibly regard the recurrence more than myself and I would give most anything had I been fortunate enough not to have witnessed these acts.

I had regarded as my friend, and whom I had seen fit to help place in the office he now holds.

I am not surprised, however, at Mr. McFall denying the man with a wrench, as I feel that a man who would take this advantage of helpless prisoners would not hesitate to deny such actions, but the fact that he does not deny the fact that he took these men and placed them in what is known as the "bear cage" in the jail, bedding and left them there as naked as they came into this world, and this, too, on a rather cold day in the month of February.

I say that he did these things—he says that he did not do part of them.

I have no interest to serve in this matter—he has. I have no interest in the outcome of this election other than to see justice and righteousness prevail.

I have always stood for decency and a fair play and good government, and a man that holds to these principles in life cannot afford to withhold facts from the public which will assist them in placing the proper protection around our law enforcement.

As to who has told the truth in this matter, the public can be their own judge.

I regret that I have been drawn into this matter and had Mr. McFall's friends not made this inquiry and Mr. McFall following this with a general denial, it would not have been necessary for me to have been placed in this unfortunate position.

Respectfully,  
DR. DANIEL  
(Political Adv.)

BUILD FIRM FLESH AND STRENGTH BY TAKING PHOSPHATE

Nothing Like Plain Bipro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Energy.

The average person is beginning to realize more and more that the lack of physical strength and nerve exhaustion (frequently evidenced by thinness) are the direct cause not only of the failure to succeed in life's struggle for a better existence, but also for the handicap in one's social aspirations. Compare the thin, sickly, angular frame with the well

rounded form which is usually accompanied by the bloom of health and attractive appearance. The robust body and mind. Weak nerves, while indicated by a multitude of different symptoms, more immediately result in nervousness, lack of energy, sleeplessness, depression, etc., which conditions gradually consume the healthy flesh, leaving ugly hollows, a flat chest, bony neck and scrawny arms and legs.

That millions of people are conscious of this handicap is evident from the continued appearance of newspapers and magazines of many suggestions proposing various remedies in food or medicine for excitation, either by one might or might not be appropriate for a given case.

Authorities, however, agree that healthy nerve tissue is absolutely essential to the robust body and mind. Weak nerves, while indicated by a multitude of different symptoms, more immediately result in nervousness, lack of energy, sleeplessness, depression, etc., which conditions gradually consume the healthy flesh, leaving ugly hollows, a flat chest, bony neck and scrawny arms and legs.

Our bodies need more phosphate than most of them are able to extract from the food, eat no solids, and many opinions affirm that there is nothing which burdens the nervous system so effectively as the lack of phosphate. This deficiency can be supplied by the pure organic phosphate known as Bipro-phosphate and sold by Miller Drug Co. and all good druggists everywhere.

The essential phosphoric food elements in Bipro-phosphate assimilated by the nerve cells should soon produce a pleasing change in nerve energy and hence increased vitality and strength. With the burdens of nervousness, sleeplessness, lack of energy, etc., lifted, normal weight with its attractive fullness and ruddy glow of health replaces the former picture of skin and bones.

CAUTION—While Bipro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Adv.

Tomorrow a Great Final Clean Up of all Ladies Summer Dresses, Blouses and Skirts at Half Price. Lots of Garments at Less Than HALF PRICE.

Here is the opportunity that you have waited for—lovely Voile and Organdy Dresses at one-half of the regular selling price. A fairly good collection to select from. Values that sell regularly at \$17.50, \$19.75, \$27.50 and \$32.50 tomorrow at one-half.

### REFINERS ADVOCATE GASOLINE RATIONS

Joy Riding Blamed For Increased Prices Of Gasoline By Big Refiners.

By RALPH F. COUCH (United Press Staff Correspondent)

WASHINGTON, July 23.—A gasoline rationing system to be applied throughout the entire United States now is being considered by big refiners.

The rationing system is designed by the refiners as a last resort to curtail consumption and to keep the price from being forced to more than 40 cents a gallon, government officials here have been informed by the representatives of the refiners.

Vice President T. A. Dines of the Midwest Refining company, is one representative of the big refiners now here, who has discussed the rationing system with government officials. Another is C. G. Sheffield, of the Standard Oil company of New Jersey.

Refiners say curtailing consumption is the only way to keep down prices. Before adopting the rationing system, they plan to issue a nation wide appeal to the country to cut down joy riding.

As advocated by the refiners, the rationing plan would be a voluntary one by dealers in which the government would have no hand.

It would mean that gasoline would be doled out to dealers under a fixed quota for each state or locality. California now is on gasoline rations.

Gasoline now is selling from 31 to 35 cents a gallon.

Consumption now is reported by refiners as 13,000,000 gallons a day. Production is 11,000,000 gallons a day. Reserve stocks therefore are being drawn on at the rate of about 2,000,000 gallons a month according to producers' figures.

May 20th, reserve stocks totaled 557,500,000 gallons according to the bureau of mines. April 30th the total was 542,552,000 gallons.

Refiners say it is impossible to increase production. They say oil now is being produced faster than ever.

COAL OPERATORS PREDICT BIG COAL SHORTAGE

CHICAGO, July 23.—Chicago coal operators today predicted serious fuel shortages throughout the nation within the next month because of the unauthorized strikes of twenty thousand workers in southern Illinois fields and the threatened general walk-out Monday of Illinois miners.

Operators, attempting to avert a crisis today, made efforts to secure release from the contract made following unanimous coal mine strike last year. They say unless sections of the contract relative to pay of day laborers was invalidated they would not be able to stay the strike.

Miners are asking higher wages for day work, and President Frank Farrington of the Illinois miners union had declared his loss of control of the situation.

### Night News Briefs

MEXICO CITY.—An official announcement said Francisco Villa was seeking to surrender, but that the government would not negotiate with him and that he was being surrounded.

LOS ANGELES.—Dr. Stockton Axson, President Wilson's brother-in-law and a member of the faculty of Rice Institute, Houston, Texas, left for the east to seek treatment for nervous breakdown.

NEW YORK.—William A. Brady, theatrical producer, announced he had been authorized by C. A. Cochran, the London fight promoter, to offer Jack Dempsey 50,000 pounds to meet Georges Carpentier in London next November or December.

CLEVELAND.—Officials of the new farmer-labor party called a meeting for next Tuesday in New York to discuss campaign plans.

BELFAST.—Rioting of serious nature broke out here.

WARSAW.—A Polish communication announced the capture of Grodno by the bolsheviks.

WASHINGTON.—The Anti-Saloon League of America will not endorse any presidential candidate, but has ordered a compilation of facts as to the prohibition record and stand of each candidate, the executive committee announced.

SAN DIEGO.—The Mexico power schooner Jaeris Conde recently founded off Mazatlan with a loss of 42 lives, according to word brought here.

BOY CHAINED TO POST AND STOOD FOR FIFTEEN HOURS INDIANAPOLIS, July 23.—Andy Duener, aged 12, is in the detention home at his own request and his mother, Mrs. Rosa Deuster, and brother, Louis, 20, face court charges as a result of a charge by neighbors that the young boy had been chained to a post in a barn and made to stand there for more than 15 hours.

Give it a real treat with delicious iced tea and make it the best way possible. That means with Lipton's.

LIPTON'S ICED TEA

### GALVESTON VOTERS TO CAST BALLOTS

Troops Will Not Interfere With Balloting in Primary On Tomorrow.

AUSTIN, July 23.—Presence of state troops at Galveston and the fact that the city is under martial law, will have no effect upon the balloting at the primary tomorrow, according to H. C. Smith, assistant adjutant general. The mission of the troops at Galveston, General Smith pointed out, is not a political one, and their only duty will be to see that there is no disturbance or infraction of laws or military regulations.

It will be the first time in the history of Texas since the Civil War that one of its cities will have been operating under martial law during a state election. Under the regime of E. J. Davis immediately following the war, Texas operated under martial law. Davis being the only republican governor who ever presided over the state's destinies. During his administration a democrat was elected chief executive and was seated after Davis appealed to General Grant, then in charge of reconstruction.

Brigadier General J. F. Wolters, commanding the troops at Galveston, may issue an order of the day dealing with the election, it was said here, although neither the governor's proclamation declaring martial law nor his executive order suspending the civil administration has any reference to regulations governing a state election. As far as can be learned here the

police at Galveston will be opened at the usual time and close as is the custom throughout Texas. No citizen of Galveston is to be interfered with in the exercise of his right of franchise, it is said.

NEGRO DIES OF INJURIES RECEIVED IN CAR CRASH

HOUSTON, TEX., July 23.—Elisha Hillard, nine-year-old negro caddy, died this morning from injuries received last night in a grade crossing accident in which a car driven by John D. Dyer, president of the Guaranty State Bank, crashed into the Sunshine Special at Eastwood, crossing. Mr. Dyer himself is in a critical condition. The negro's clothes were completely burned from his body and he never regained consciousness. He and another caddy had been picked up at the country club by Dyer after a round of golf. W. M. Moreley of New York, a guest of Dyer's and another caddy, escaped injury by jumping from the machine.

### COLORADO, TEXAS, REPORTS OIL WELL; 200 BARRELS

COLORADO, TEX., July 23.—On the strength of Colorado, having an oil well one piece of local real estate has just sold for \$20,000 and other city property is mounting in price. The Texas & Pacific No. 1 of the Underwriters Oil Co., 10 miles west of town, is estimated conservatively to be good for 200 barrels a day on the pump. W. S. Cooper, secretary of the local Chamber of Commerce, in a statement to the West Texas Chamber of Commerce, declares after watching bailing for some time 90 barrels were brought up, without lowering the oil appreciably.

Other wells are to be spudded in shortly. Many new oil operators are drifting into the field. The well will be put on the pump as soon as the apparatus arrives.

### BALLOTS DELIVERED ELECTION OFFICERS

Two Sets of Officials in Some Precincts On Account Number of Voters.

Ballots were distributed to the voting boxes throughout the county Thursday by Deputy Sheriff Morris, and arrangements have been made for the opening of all the boxes with the exception of Beaver Creek. The Beaver Creek voters will vote at Elletts.

The polls will be open from 8 o'clock in the morning until 7 o'clock in the evening.

Plans for adding voting places in Precincts 12 and 13 in Wichita Falls have been abandoned and instead two sets of election clerks will be installed in each of those precincts.

It is being done so that the voting may proceed with dispatch and that a shorter time may be taken to count them.

In Precinct No. 1 the polling place will be at the city hall as usual. The voting place for Precinct No. 2 will be the east end of Justice Quinn's court room. In the basement of the courthouse. No. 13's voting place will be in Justice Arrington's courtroom.

No. 13 in the west end of Justice Quinn's courtroom. Box 11 will be in the district attorney's office on the first floor of the courthouse.

Voters living east of Indiana and south of Sixth street will vote at the city hall. Precinct No. 2 lies between Austin and Indiana avenues and south of Sixth street.

The western and southern boundary lines of Precinct 11 is the alley between Travis and Lamar streets and Sixth street. Precinct No. 12 is west and north of the line of Seventh street and Sixth avenue.

The eastern boundary of Precinct No. 13 is Austin street. Its western boundary, Seventh street.

Over 4,000 poll taxes have been paid and it is expected that more than 7,000 votes will be polled in the county. Precincts No. 12 and 13 in Wichita Falls and the Elletts and Rurhorst precincts contain many hundreds of voters and the counting of the votes will be a tedious task.

Precinct No. 13 has the largest vote, 1,938 poll taxes having been paid for this precinct. No. 15 is nearly as large, having 1,802 votes.

### TRADES COUNCIL TAKES NO POLITICAL ACTION

No action was taken by the Wichita Falls Trades and Labor Council to endorse any candidate for the legislature, at the special meeting of the council Tuesday night, according to J. A. Wray, president of the council. "Nothing was done," said Mr. Wray in answer to a question.

### SHIPMENT OF ALUM LOANED BY FORT WORTH TO WATER COMPANY HERE

Five thousand pounds of alum to be used in filtering the city's water supply, reached Wichita Falls this afternoon from Fort Worth, the Tarrant county city making the "loan" at the urgent request of the local chamber of commerce.

All danger of an alum shortage and the consequent possibility of contamination of the water supply is over, Secretary Harrison of the chamber of commerce stated this morning. The chamber not only succeeded in obtaining the Fort Worth shipment, but also had located in the East St. Louis railroad yards a carload of alum that was consigned to Wichita Falls over a month ago. This car has been moved, and will be here within a few days.

### TRYING TO SPEED UP FIRE ALARM INSTALLATION

Charles Matson, southern representative of the Gamewell fire alarm system, has left Wichita Falls for Dallas in an effort to speed up the shipment of certain equipment necessary to complete the alarm system of this city.

Twelve alarm boxes still are unconnected, and the work cannot be completed until about three miles of wire and 150 installers are obtained.

### REV. KEVILL RETURNS FROM KNOX CITY AND GOREE

Rev. J. Lem Kevill, pastor of the First Christian church, returned last night from Knox City and Goree, where he has been conducting a series of very successful revival services.

He leaves tonight on another trip, and will return in time to occupy his pulpit on July 31. During August he will combine Sunday evening services with the First M. E. Church, South, in the absence of Dr. Knickerbocker.

### Amusements

The current attraction at the Olympic theatre for Friday and Saturday of this week is "The Fortune Teller," starring Majorie Rambeau. This well known star is particularly fitted for the role of gypsy queens and characters of this type and the majority of her productions have dealt with themes wherein the prophetic element and that of foretelling the future was dominant. "The Fortune Teller," as its name implies, is a story of just this type and in it the star appears as a noted prophet whose work has caused comment in many lands. The picture is a Robert-Cole release and comes to the Olympic highly recommended.

Mary Miles Minter, the ever popular Realart star, plays the feature role in the Empire attraction Friday and Saturday of this week which is entitled, "A Cumberland Romance." As its name indicates, this picture is purely a romantic one with the scenes laid in the beautiful Cumberland mountains and the main theme of the play centers around her love affairs with Clayton, a young traveler from the city, and Sheryl Raines, a famous actress. There is nothing of the dramatic element in this, which is to say that the ultimate outcome of the three romances is not affected by means of a murderous shooting match or violent death for one of the masculine principals. The entire play runs smoothly and is a welcome diversion from the usual round of reckless, hair-raising dramas that are the dominant

features of the current season.

Dr. DuVal, eye, ear, nose and throat specialist has moved his office to 223 Commerce Bldg. Phone 3125. 63-176

## Hon. Pat M. Neff For Governor

Is the first candidate for that office to raise his voice in condemnation of the scheme of J. W. Bailey of Washington, D. C. to discredit the Democratic party in Texas.

The first candidate to point out extravagance in the administration of our State government.

The first candidate to enter and continue in the race for Governor without consulting the professional politicians in Texas.

The first in the history of Texas to take his candidacy in person directly to the people, making more than 350 speeches and speaking to over 250,000 people. He has spoken in thirty-two counties and in more than one hundred towns where no candidate for Governor ever spoke before.

He is the only candidate who has not for political expediency or private advantage sought by public utterance or campaign plan to array one class of Texas citizens, industrial, religious or otherwise against the other. Having played favorites to none, will as Governor give a SQUARE DEAL TO ALL.

The only candidate who has been a life long and consistent prohibitionist and woman suffragist, and yet has never spoken ill of another for honestly disagreeing with him, claiming many such people as his staunch friends who love and honor him.

### HE STANDS ON HIS RECORD

As Prosecuting Attorney of McLennan County he made a record in six years that has never been equalled by any other in our state. He prosecuted 422 cases and lost only 16, paying into the county treasury above his salary and the expenses of the office \$24,788.00, paying into the public treasury during four years of that time, more money than all the other County Attorneys of the entire State of Texas combined. This statement has been made by Mr. Neff from every platform in Texas from which he has spoken, and no one has dared challenge it. This saving was accomplished by reducing the number of his assistants and helpers from eight to two, and turning the salaries of the others into the treasury. Before Neff's term as Prosecuting Attorney, the Grand Jury had remained in session an average of ten weeks per year, while under his administration an average of nine days a year. It cost \$50.00 per day to run the Grand Jury—a saving under Neff's administration of more than \$3,000.00 per year. This was accomplished by hard work and business economy.

During his first term, he never asked for a continuance of a single case and never permitted the defendant to have one, but tried every case on the Criminal Dockets of the two District Courts, the first time such a thing was done in the history of McLennan County. During his first term, he closed to stay closed thirty nine gambling halls, and was the first Prosecuting Attorney in Texas to send the proprietor and owner of a gambling den to the State Penitentiary. They threatened his life, but he got their business and they moved on.

As a member of the Texas Legislature he was one of only three of the 164 members who never missed a roll call during the entire session, and who never failed to record his vote on every proposition submitted. He never found time to go fishing, nor to see bull fights in Mexico, nor to drink free whiskey, nor to even learn to play stud poker. He considered that his time belonged to the public.

He has the distinction of being the youngest Speaker of the House of Representatives, the first from whose ruling there was never an appeal, and the first one who was always present, it never being necessary to elect a Speaker Pro Tem.

For six weeks during the late war, he closed his office and took the stump for Liberty Bonds and the Red Cross, and made more than one hundred speeches for such work, and by invitation of the Government he accompanied the Fourth Liberty Loan train through Texas and sold thousands of Liberty Bonds.

He has made the race for Governor on his own merits, and is the only candidate who has not sought to advance his own campaign by slandering or misrepresenting his opponents.

On such a record, he hopes and believes he has won this race and will be first man in the run off. The others are only fighting for second place.

He believes he has won, because he has strong support from all parts of Texas, and especially in the big black land counties where the people live. More than two hundred daily and weekly newspapers are for him. The only Democrat in El Paso, The Morning Times, is for him, and believes the fight is between Neff and Bailey.

But whether the fight will be between Neff and Bailey, Neff and Thomason, or Neff and Looney, in the run off, he is expecting to be the winner, and is asking your support strictly on his merits, and not on the demerits of the other fellow.

### YOUR HAIR IN SUMMER

The housewife has one decided advantage over the young woman who finds occupation out of her home in that she does not need to wear a hat so often in summer. In many places the housewife can even go to market without a hat, depending on a parasol on sunny days for protection against the sun's rays. In some suburban places women drive their own cars to market and never think of wearing hats.

Now it is the hat plus hot weather that raises the most trouble in summer. If exposed to the air the moisture of the hair evaporates without injury to the hair, but if a hat is worn for any length of time this perspiration remains on the hair, with the result that the hair becomes lifeless and all but unmanageable.

At night in very warm weather let the hair down at least half an hour before going to sleep, and sit by an open window with the hair streaming over the back of a chair. Shake the locks well in the breeze and dust with powdered orris root, or, in the case of tight hair, with scented talcum powder. This dries out the perspiration of the day and cools the head for sleeping.

Fasten the hair in two braids, each well over toward the ear, so that the air can get to the back of the scalp. One young woman who takes pride in looking well when she retires as she does during the day, ties her hair with a bow of the most supple satin ribbon in her favorite color. This does not break the hair and keeps it from getting unbraided and snarled while she is asleep. In tying the ends of the braids, do not turn them up. This causes the hair to split.

Each time the hair is shampooed, brushes, comb, and hair pins should be cleaned quickly with a nail brush in tepid water holding a tablespoon of ammonia. Wipe the combs thoroughly between the teeth, and allow the brush to dry in the sun, handle downward. When the bristles are up, the water soaks in and loosens the back of the brush.

The secret of keeping hair fluffy and loose is to change the manner in which it is done up from day to day, or at least every other week. That is, if a woman wears her hair low in the neck during the morning, it will lie much more lightly and becomingly if she does it in a high coil for the evening. Or if she braids it about her neck one week, she should fasten it in a figure eight the next.

### Personal Mention

Fred T. Couper and A. R. Kendall were in Archer City Thursday.

Mrs. W. P. Marion has returned home to Fort Worth and will make a visit with her sister Mrs. J. A. Deaton, and other relatives.

Mrs. L. J. White and mother, Mrs. Noble, have returned to Wichita Falls to live after making the most of the past year in Dallas, while Mr. White's headquarters were in the latter city.

Miss Ethel Nyom, high school librarian, who has been spending her vacation at home in Waxahatchie, is visiting Rev. and Mrs. Nat Gratian here.

Mr. and Mrs. F. E. Van Warner leave today for a six weeks tour of the Great Lakes section, by way of Chicago and Detroit, and the Berkshires, from where they will go on to Boston and New York for a short stay.

Mr. and Mrs. M. J. Bachara and sons leave today for a California trip and visit. They expect to be gone several weeks.

Mrs. J. K. Gault from Bellevue is the guest of Mrs. H. F. Weldon.

### ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. New Tablet Called "Calomels"

The latest triumph of modern pharmacy is a "de-nauseated" calomel tablet known to the drug trade as "Calomels." It is the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have theretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach, kidney, bladder, and calomel was the most successful remedy but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One tablet on the tongue at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no pain. A good night's sleep and a clean liver, a purified system, and a big appetite. That's what you gain. No danger.

Calomels are sold only in original, sealed packages, price thirty-five cents. Your druggist is authorized to refund the price as a guarantee that you will be thorough.

# A Real Man for Governor

The Great State of Texas has suffered long enough the handicap of the small sized politician holding important executive office.

Is it not high time that some step is taken to begin the removal of this serious handicap?

Let us send a man to Austin who is big enough to fill the Governor's Chair.

Let us one time lay aside petty prejudice and biased opinion and vote for a man who has Brains and the moral courage to back up his convictions.

*Vote for*

# Joseph Weldon Bailey

*for Governor*

A man who believes in, and who is fighting to preserve State's Rights---the very foundation of the Constitution of this, the Greatest Country in the World.

A man who stands out openly and without fear expresses his views on all issues.

A man who will reduce Taxes, abolish unnecessary political offices, give us better schools and roads and safeguard the finances of our State.

A vote for him will be a step nearer Good Government.

### WATKINS LEADER OF PROHIBITION IN CAMPAIGN

Wm. J. Bryan is Still Good Democrat Despite Differences Of Opinion.

LINCOLN, NEBR., July 23.—Prohibition party leaders today began laying plans for an aggressive campaign in the election of Aaron S. Watkins, Germantown, Ohio, as president of the national prohibition convention here was elected the presidential candidate late last night on the second ballot. His nomination followed a report from William J. Bryan that he would not sever connections with the democratic party. This made the third Ohioan to be nominated as a presidential candidate.

### J. B. NAIL ASKS VOTES FOR RENOMINATION AS CONSTABLE

I am being kept so busy with the duties of my office that I have not had an opportunity to see many of the voters of my precinct. To all whom I have not seen I wish to take this method of telling that I want to be renominated as constable of Precinct No. 1 and I will appreciate very much every vote I get.

### POLES MAKE DIRECT ARMISTICE PROPOSALS TO THE BOLSHEVIK

FILM EXCHANGE BUILDING SUSTAINS FIRE LOSS

KANSAS CITY, MO., July 23.—Fire broke out in the top story of the Kansas City Film Exchange building shortly after noon today. Flames leaped 75 feet from the windows.

The building was 12 stories high, new and considered absolutely fireproof. It housed most of the film exchanges that supply the films for movie theaters over the southwest.

After a most spectacular blaze in which the building resembled a mammoth torch, the fire was brought under control.

Two blocks away the heat from the burning films sent the temperature in the United Press office up several degrees.

By Associated Press. WARSAW, July 23.—Poland has sent armistice proposals direct to the soviet government at Moscow.

After these proposals had been dispatched by wireless today at 2 o'clock by the national council of defense, a new coalition cabinet was formed under the premiership of M. Witos.

The new cabinet has the support of the socialist party. M. Datzanski, the head of the socialist organization, is the vice premier. Aside from the two changes the cabinet remains the same.

The direct negotiations begun with the soviet are on the question of an immediate armistice along the entire front of about 720 miles. The proposals were wirelessly after failure to reach any definite conclusions in dealings with M. Tolsticherin, the bolshevik foreign minister, through Premier Lloyd George of Great Britain. The proposals were signed by Prince Eugene Sapieha, the minister of foreign affairs.

### Statement of Fletcher S. Jones Candidate for District Attorney

To The Voters of the 30th Judicial District:

I am now running for my second term of office as District Attorney for the 30th Judicial District of Texas. I am a member of the Brotherhood of Locomotive Firemen and Enginemen and have been such for sixteen years. I carry a Life Insurance Policy in this organization for Fifteen Hundred Dollars, which will help take care of my widow and orphan should death summon me when least expected or should an accident overtake and disable me from doing further work.

The members of this organization cared for me when I was a cripple and helpless from the effects of a railroad accident. Ex-President Roosevelt was a member of this organization.

I have never been guilty of trying to incite class hatred and have tried to follow these maxims, "Do unto others as you would have them do unto you."

Should the people of this District see fit to elect me District Attorney, I wish to say to them here and now that I recognize but one master, that is, the master of "Duty" I will do as I have done in the past, perform my duties fairly, fearlessly and honestly. I will leave none unrepresented by reasons of affiliations that they may have but will treat all men and all classes of men alike.

Should it ever come in my experience through the duties of my office that I will be called upon to pass upon the differences between classes of men, I assure you that my position will be that of a mediator, rather than that of an agitator. I know I am big enough to look at the question with an unbiased mind and determine the issues upon the merits and let the chips fall where they will.

I am a Democrat and believe in Democratic principals.

I respectfully submit to the voters of this District my candidacy on my merits.

Respectfully submitted, FLETCHER S. JONES. Candidate for District Attorney 30th Judicial District of Texas, Second Term. (Political Ad.)

### Judge Scurry's Reply To Mr. Napier's Belated Statement

Wichita Falls, Texas, July 23, 1920. JUDGE EDGAR SCURRY, City.

Replying to your request for statement as to the 75th District Court record. Your request came only this morning and you say you must have this statement by eleven o'clock this morning in order to get it in the paper this afternoon.

I haven't time to make the entire investigation you ask for. However, I have examined the jury docket and find in the last eleven months—that is, since the 2nd day of September, 1919, to this date—there have been sixty-five cases tried by jury.

I haven't looked up the non-jury docket for the reason I have not had time, but I know that there has been a large number of cases tried and contested before you without a jury, and a very large number of cases that were not contested. Case record shows that you have in the last four years disposed of more than 2,000 cases.

I haven't any way of telling what amount has been expended for jury fees. Hoping this is satisfactory, I am, Yours very truly, A. F. KERR, District Clerk of Wichita County, Texas.

Wichita Falls, Texas, July 23rd, 1920. To the Voters of Wichita County

My opponent has tried to spring on me at the last moment and after it's too late to correct his statement, a statement of the 75th District Court docket. I only learned of this statement after the offices at the court house were closed yesterday afternoon.

In his statement he says: "There have only been 36 jury cases tried in the last year." I wonder where he got his figures and who made them. Mr. Kerr, the keeper of those records if I call your attention to Mr. Kerr's letter in this paper, says: "Sixty five cases have been tried by jury in the last eleven months—more than double the number my opponent says. Which do you think is correct?" A large number of these cases have involved large sums, running into hundreds of thousands of dollars, and some of them have taken as much as ten days to try them.

My opponent says that I tried eighty-eight non-jury contested cases in the last year. If he is no nearer correct in that than he is in the jury cases then I have tried more than 180 non-jury contested cases. If I have disposed of 2,000 cases in four years, on an average basis I have disposed of 500 cases in one year or rather eleven months.

If I have disposed of 2,000 cases record shows that you have, then I have disposed of at least half as many cases in four years as the Thirtieth Court has in the last thirty years prior to my election. Is that a good record or not?

I ask you if it is fair politics to publish a statement like that on the eve of the election day—and especially an incorrect statement. I haven't time to look up the jury fee record because of the fact I only know of this attack on my record since about six o'clock yesterday afternoon, but taking his own figures, that of \$11,000 in a year, taking the volume of business and importance of the cases, it is not a large amount for jury fees.

On this record I must stand or fall—the statement of my record is made by and vouched for by the officer whose duty it is to keep those records, and my opponent's facts are made by whom?

My opponent has given you my political history since I've been in Wichita County. I don't see why he does that or how that will help him. He is asking for office on his own merits or if he is running on my political record?

If you think my record a good one I'd like to have your support for my second term. Thanking you in advance, I am, Yours truly, EDGAR SCURRY. (Political Ad.)

VOTE FOR B. D. SARTIN For COUNTY JUDGE A MAN QUALIFIED FOR THE OFFICE

RECORD AS PRIVATE CITIZEN 1 Born in Kentucky in 1893; brought up on the farm, and worked way through school; admitted to the bar at Lexington, Ky. in 1914; hold the degrees of Bachelor and Master of Laws from the University of Kentucky; resident of Wichita Falls, Texas since 1916; one of the first to volunteer for military service from Wichita County, and served 15 months as a "Buck Private."

OPPONENT'S RECORD AS COUNTY JUDGE 1 Spent \$500,000 of road money with no permanent benefit to Wichita County roads. 2 Paid out of county funds \$20,000 to be relieved from contract when contractor was willing to have paid a similar sum to be discharged by the county.

Good Roads, Just Taxes. Business Administration A public official is only a public servant and should serve all classes fairly and without prejudice or partiality. The chief duty of the County Judge is to be vigilant in protecting public funds and in preventing waste and extravagance of public money.

### FINANCIER GIVES OPINION ON R. R.

Kahn Attacks Economic System  
Which Created Present  
Conditions.

"The railroad question," says Mr. Kahn, in his new book, "Our Economic and Other Problems," (Doran) must be taken out of politics.

Perhaps no other American is as well qualified as O. H. Kahn to speak on the vexed problem—to point out existing abuses and to outline a constructive program. For Mr. Kahn speaks with authority that is based on long practical experience in the world of finance. Foremost among American economists, few financiers have an opportunity to acquire such broad and basic experience in economic affairs. A member of the firm of Kuhn, Loeb and Co., Mr. Kahn has for many years been instrumental in broadening their interests in his country with this firm, he became the intimate friend and closest business associate of that famous railroad genius and financier, the late Edward H. Harriman.

As a banker Mr. Kahn has shown a special genius for handling railroad finances, and the affairs of large corporate organizations. At one time or another, he has directed the financial development of several of the best-known American railroads. In addition to several industries he has been instrumental in broadening their interests in his country with this firm, he became the intimate friend and closest business associate of that famous railroad genius and financier, the late Edward H. Harriman.

In his exposition of existing railroad abuses, Mr. Kahn does not hesitate to attack in vigorous, straight from the shoulder fashion the fundamental economic influences which have been factors in creating these conditions. He traces the history of railroads from the time of the modern era of railroad regulation and rate control by commissions during President Roosevelt's second administration with the enactment of the Hepburn bill through the introduction of the Taft railroad bill on down to the present time.

"It was the right instinct," says Mr. Kahn, which had guided the people under President Roosevelt's leadership, to determine firmly and unmistakably that the time had come to regard the pioneer period of this country's industrial and economic development as at an end, to revoke the latitude which had been tacitly accorded during this period, to insist on strict adherence to the rules of business conduct laid down by the law, and to punish any violation of such rules, by whomsoever committed, high or low. It was salutary and timely to bring home to corporations and individuals, however powerful, the respect and fear due to the law and to use all means at the government's disposal to visit upon dishonorable practices condign punishment.

"But," adds Mr. Kahn, "the people themselves and their chosen representatives cannot, in fairness, be entirely absolved from responsibility for the regrettable excesses which were endured by the period of vast national development from the close of the

### MISSISSIPPI DELEGATION WHICH STARTED AVALANCHE TOWARDS COX

At the release of Palmer from the ballot the Mississippi delegation started the avalanche toward his final success.

Civil war to the first years of the present century."

With startling vigor Mr. Kahn arraigns the inadequacy of the law under which the Interstate Commerce Commission works, insisting that to his knowledge there is no parallel in any other country to the enactment which places our greatest industry down to its minutest details, under the almost absolute power of seven men owing defined accountability to no one, selected for relatively short terms and according to no particular standard of training or qualifications.

"The Interstate Commerce Commission being at the same time prosecutor judge and jury, may assuredly be termed a negation of the root principle from which the American system of government springs."

Speaking of the relative advantages and dangers of privately owned and government owned railroads, Mr. Kahn says: "The two things, i. e., private management and permanent government guarantee of earnings are simply not reconcilable. The railroads cannot eat their cake and have it." Practically all railroad men recognize that thorough public regulation is here to stay. It is the fairness and inadequacy of the law under which the interstate commerce commission works and the multiplicity of masters, under whom the railroads have to serve, that constitutes their main grievance, and that cries for reform. On this commission, which has greater power concerning the industrial life of the nation than is exercised by probably any other tribunal anywhere in the world, there has never yet been appointed a man who can be said to be qualified by first rate experience in railway operation, or by broad business experience, or any considerable experience in financial matters.

"It is vital to our railroad that investors be reassured as to the safety in American railroad securities. The railroad should be free from conflict,

ing jurisdiction by the several states and placed substantially under federal authority. The railroad question must be taken out of politics. The system of public policy towards the railroads, as evolved theoretically in America, is a far better system than government ownership.

"The program in support of which I believe public opinion is crystallizing more and more is: Let the government exercise strong and comprehensive control, but fair and constructive, not primitive by strangling.

"Without eliminating state commissions, let their functions be so adjusted as to avoid conflict with the federal commission in matters of rate-making and security issues.

"Let railroading then be thrown open to private initiative and enter-

prise and competition in service; make it an attractive field for capital, and above all, for men of ability and vision.

"Personally," adds Mr. Kahn, "I am wholly opposed to the timid opportunism which would barter away the reality of private initiative and enterprise for a permanent governmental guarantee of earnings."

### JONES STANDS FOR FAIR VALUATIONS

Answering charges of B. D. Sartain, his opponent, that he had placed unjust valuations on property in Wichita county, County Judge J. P. Jones, who is a candidate for re-election this morning issued a statement denying the charge and pointing to the fact that the commissioners court sitting as a board of review had lowered a large number more assessments than had been increased.

"A great deal of the time of the commissioners court has been taken up with a review of the assessments of

the county tax assessor," said Judge Jones, "and I want to say that those assessments by far have been lowered than have been raised. Mr. Ragdale, the county tax assessor, I understand, is opposing me because I have insisted that the valuations be kept within reasonable limits and because I have urged that many valuations be lowered rather than raised. Since I have been county judge every property owner whose assessment has been raised has been given a fair and respectful hearing if he has appeared to protest, and in many cases where property owners have failed to appear themselves I have recommended reductions that have been accepted by the commissioners court.

"I want to say that there is no man in Wichita county more strongly opposed to making inflated and abnormal values the basis of assessment for taxation than myself.

"Most of the time when the commissioners court sat as a board of review this year it was necessary for me to preside over the court at law. Happily the creation of the county court at law will free the county judge of this burden in the future. For the reason named I was unable to participate in all the deliberations of the county board of review, but I want to say that the board lowered more assessments than it raised and that hearings will begin Monday at which all property owners whose assessments have been raised may appear and protest. The commissioners court will be kept in session all summer if it takes that long to give every property owner a fair hearing.

"I want to say that I am a tax payer in Wichita county; that my home and family are here and I am as much interested as anyone in trying to prevent Wichita county from paying more than its rightful share of state taxes."

## TO THE VOTERS OF WICHITA COUNTY

For more than a quarter of a century Judge J. P. Jones has been a citizen of Wichita Falls, and during all those years has stood for the things that make for the best citizenship as all know who have come in personal contact with him.

Judge Jones is now serving his first term as County Judge of this County and offering for re-election and we understand the democratic custom to be, to allow a faithful officer to succeed himself for at least one term.

We know from personal knowledge that Judge Jones is the soul of honor and that his administration has been clean and efficient and that he has discharged his official duties without fear or favor and that the business affairs of the county have been so conducted that there has been great saving in money during his administration.

It would not be necessary for us to make this statement but for the fact that there are quite a number of voters who do not personally know Judge Jones as we do, and in this connection in his behalf, we invite the closest scrutiny of his official record.

## TO THE CITIZENS OF WICHITA COUNTY

Because of the fact that a great many affidavits have been gotten from outsiders and from prisoners of the jail purporting that they and their fellow prisoners have been badly treated, we as Grand Jurors, who have served during the past eighteen months, feel that a statement from us should be made.

It is of common knowledge that we have gone into this matter with three different Grand Juries and that nothing has been done, hence these statements and affidavits might be deemed a reflection on the men, who have tried to do their duty in the Grand Jury room. We feel that the jail has been handled by our Sheriff about as well as could be done under the circumstances. We are willing to say that no prisoners have been mistreated by our Sheriff who have lived the life a prisoner should live and that the trouble that has arisen came through insubordination, and through the lack of right behavior on the part of the prisoners.

Time after time the rough element in the jail has tried to escape by every means possible. The condition of our jail is such that it is practically impossible to keep the prisoners confined and it is a very easy matter for them to break jail. Our jail has been filled for a long time to more than 50 per cent above its capacity and it is very unfortunate that our County can not provide more room for its prisoners, but such it seems the Commissioners Court can not do at this time. When you consider that our jail has been occupied by some of the worst criminals in the land, whose every thought is to take their freedom by any means possible whether it be by sawing out at night or striking down a sheriff at any time the opportunity presents itself, then you will understand that the Sheriff of this County occupies a very trying position.

Undesirables have flocked to our County from the whole country and to the Burkburnett oil fields during the past few years and it requires a strong arm and an honest and fearless man to cope with the situation. We believe, and state emphatically, to the voters of Wichita County that Bob McFall has done his duty in an honest and conscientious manner and that he has rendered us good service. We have come to this conclusion after throwing all the evidence possible into one batch, sifting out the good from the bad and arrived at our decision after weighing all these matters together. We have not considered the affidavits of any one person separately, but have taken the matter as a whole and do not hesitate to say that we feel perfectly justified in making the statements herewith.

Bear in mind that we had all the powers of the Grand Jury to summon witnesses and that we did get all the evidence necessary and from this we made our decision looking to the interest of every home in Wichita County.

(Political Adv.)

In response to the signed statement of certain members of the Grand Jury concerning R. L. McFall, the people are asked to look back to May 24th, 1920 (this year) at a report of some of these men, as published in the Daily Times May 24th, 1920 which is as follows:

#### JAIL CONDITIONS BROUGHT BEFORE COMMISSIONERS

Declaring that "certain quarters of the Wichita County jail are in an extremely insanitary condition," a committee composed of W. W. Silk, J. M. Bland, M. J. Gardner and R. O. Harvey, members of the special grand jury in session last week, appeared before the county commission Monday and recommended "immediate improvements in the sanitary conditions of the county jail."—Wichita Daily Times.

In the same article, Mr. Silk was quoted as telling the Judge that "I would not be willing for a dog of mine to stay in a certain cage of the jail where eleven men are imprisoned."

The Grand Jurors recommended the immediate employment of a guard to be placed in the county jail.

The grand jurors declared that several men are now in the county jail who are suffering from serious social diseases. The condition of these men was reported as very grave and the grand jurors declared that they had recommended to the sheriff that they be immediately removed to the county farm but were informed that the removal was impossible due to the fact that the prisoners would escape.

In asking that these prisoners be removed from this cell the report said "no person made out of less stronger material than steel could live in that ward."

**NOTE**—The law makes the Sheriff responsible for the keeping of the Jail and its condition.

AMERICAN TRAPSHOOTING TEAM EASY WINNER IN FIRST OLYMPIC ROUND

ANTWERP, July 21.—The American team was an easy winner in the first round of the Olympic trap shooting competition shot this morning, scoring 115 out of a possible 120 birds in the team shoot, each man shooting at 30 targets.

The SPORTLIGHT by Granland Rice

One night in France Colonel Kennedy of the First Division Field Artillery was discussing the needed ingredients in war.

There is in this connection, the case of Everett Scott, of the Boston Red Sox. Scott is no big mass of brawn and fiber. He is rather slenderly built, along lines that lend more to lighthness than to latitude.

Man O'War has speed. Every one knew the great three-year-old could whirl along at a dizzy clip. But when he picked up 126 pounds against a rival of class and was forced to break a world record for a mile and a furlong, he proved again that stamina was in no sense second to his speed.

It goes for an entire class as well as for an individual. Stamina plus lack of brilliancy is frequently the deciding factor in a pennant race. A fall club with a long string of injured or ailing athletes ordinarily does not deserve to win.

167 birds. England and Canada tied with 162 each. Belgium's score was 162. Holland's 97, Norway's 90 and France's 87. The shooting will continue in the second round this afternoon, each man shooting at 30 targets after which the elimination proper will be begun. Eight teams are competing.

### WITHHOLDS APPROVAL OF SMITH'S CONTRACT FOR GOOD OF GAME

CINCINNATI, O., July 23.—Appeal from the order of United States District Judge McCall, Memphis, directing John D. Martin, as president of the Southern Association, to approve the contract between Luther "Casey" Smith, pitcher, and the Little Rock baseball club, and permanently enjoining Martin from further interference with the carrying out of the contract, has been filed in United States circuit court of appeals here.

The appeal is taken by Martin, who claims he withheld his approval of the contract for the good of baseball. The records in the case indicate that the discharge of Smith by the San Francisco club was responsible for the refusal of Martin to permit him to play in his league.

In passing upon the case the judge virtually held that a provision of the by-laws of the league giving power to the president of the league to pass on contracts made by clubs with players does not give the league president the right to disapprove a contract which is in legal form.

### Sport Shots

By Paul W. Larkin

Lloyd Weaver, one of the principal stockholders in the local club, stated most emphatically yesterday that under no conditions would Manager Salm be ousted from his managerial berth, regardless of the number of rabattists (not fans) who have signed or intend to sign the petition that is being circulated.

The Wichita club moguls are perfectly satisfied with the manner in which Salm is handling the club and stated that as long as they were at the head of baseball in this city, Salm would guide the destinies of the club.

It might be stated here, also, that the big majority of fans are with Walter and will stick to him to the last ditch. They realize the handicaps that he has been working under. A manager cannot win games unless he has players, and he cannot get players when "there ain't no such animal."

The Spudders have spent more money than any other club in the circuit in an effort to produce a winning team and if they can't purchase good players, how can they get them?

A losing team always has its croakers, anyway.

Barney Burch was about to officiate in yesterday's game but Empire Irwin arrived upon the scene at the 11th hour.

The Spudders hit Conley hard enough in the opening game, but couldn't pile them safe at the right time. The outfielders snared 11 drives.

Jo celebrated his return to the game by hitting safely five times. And yet they put him in the can! How do they get that way?

In 25 straight games only one base runner was able to steal on Ray Schalk. George Nisler was the boy.

Falk, the Texas University first baseman, who attracted so much attention during the early spring and was sought by several clubs until he let it be known he had already agreed to play with the White Sox, reported to Manager Gleason last week.

**Don't Think I'll Be Without It Again," Says Mrs. Smith**

"I can put all my faith in Orgatone as it took hold of my troubles and put me back in perfect health," said Mrs. Florence Smith of 216 Pecan street, Ranger, Texas, a few days ago in telling of her restoration to health.

Mrs. Smith is proprietor of one of the largest cold drink and confectionery stands in Ranger.

"For about two years I suffered from a general run-down condition," Mrs. Smith continued, "after eating I had a heavy uncomfortable pressure from the gas which formed. This would get so bad sometimes that I would hardly be able to breathe. I was nearly always constipated and I would get up in the morning feeling more worn-out than when I went to bed and I just dragged myself around all day, feeling weak and all out of sorts and unable to exert myself to do the least little thing."

"I first heard of Orgatone through some of my friends who started using it and telling me about the good it was doing them. I thought it might help me, too, so I bought a bottle, and it seemed to help me almost from the start. My stomach felt better, my appetite improved and in a few days I could eat more and relish it and I could tell that I was getting stronger. All the gas and bloating left my stomach, my nerves improved and then my strength came back rapidly. My friends and family noticed how strong and well I had gotten—my health was better than it ever had been, and although it has been a year ago since I took any Orgatone I have been in good shape all along. I am now buying a bottle for my daughter who has been complaining of late, with a severe pain in her side, and I am sure it will have the same lasting permanent results in her case that it did in mine. If any person doubts what Orgatone will do for them just tell them to come over to my place of business and I will be only too pleased to tell them personally about the wonderful work this Orgatone does in my "case."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the Miller drug store exclusively, under the personal direction of a special Orgatone representative.

### PETE MARLOW TO BE HERRING'S OPPONENT AT ATHLETIC PARK

Pete Marlow of Duquoin, Ill. will be Red Herring's opponent August 2 in the main 12-round go at Athletic Park. Manager Al Edwards of the Camel Athletic Club received word from Marlow to that effect today.

The bout will be the first open air fight ever staged in Athletic Park and work has already been started to erect a ring. Manager Edwards came to the conclusion that local fight fans were not very keen for spending the hot summer nights indoors and after no end of trouble succeeded in obtaining permission to stage the bouts in the open air.

Some fast curtain raisers have been arranged for Monday night's entertainment, the last to be staged in the club rooms on Tenth street for some time. George Grison and Jimmy Cox will swap blows in one of the prelims while the winner of tonight's match in Electra between Tom Ewing and George Kinard will be matched with some fast boy.

Curley Smith, who is to meet Anton the Greek in the main event, is due to arrive today and will work out at the club tomorrow.

### STRUNK JOINS FORCES OF CHICAGO WHITE SOX TODAY

CHICAGO, July 23.—Amos Strunk, outfielder of the Philadelphia Athletics, who was released by a waiver route to the Chicago White Sox, will join the league champions in Cleveland Sunday, it was announced today. Boston and Chicago had claimed Strunk, but the former club withdrew its claim.

### KNEBEL, BASKET BALL STAR, IS KILLED

AUSTIN, TEX., July 23.—Diving from a high bank into a creek near Burnet, about 60 miles northwest of Austin, Will Knebel, 25, member of the University of Texas 1920 basketball team, was instantly killed, according to information received here today. He struck a rock and broke his neck.

Special for Saturday: Armour's Morris and Wilson's best grade hams, 42c per pound. Union Market, 708 Indiana avenue. 71-1tp

If it is right, Clifton did it. 718 Ohio Ave. 66-4tc

### STATEMENT BY SARTIN RELATIVE TO MONEY EXPENDED ON ROADS

B. D. Sartin, candidate for county judge in opposition to Judge J. F. Jones, issued a statement Friday in reply to an earlier interview given out by Judge Jones regarding the county gravel contract. Sartin said in part: "Wichita county has purchased 250,000 tons of crushed rock at \$1.25 per ton and the same has cost Wichita county \$312,500, of which sum the county still owes \$212,500. The records disclose that Wichita county will need only 25,000 tons of crushed rock under our present road contract and Judge Jones will be forced to peddle 100,000 tons of crushed rock for this county in order to get back the \$312,000 spent under the contract."

Sartin further stated: "Out of the first bonds voted in the sum of \$500,000 including interest collected on same, only \$24,245.23 is left in the county treasury for road work for Wichita county, making the total expenditures for Wichita county by Judge Jones near \$700,000, if all the county liabilities and debts were satisfied."

### NEGRO CHARGED WITH ASSAULT TO MURDER

Clarence McIlwain, negro, surrendered to county officials late Thursday following a shooting affair in a servant's house on Holliday near 14th street earlier in the afternoon. A complaint charging assault to murder was filed in Justice R. V. Gwin's court against McIlwain, who was immediately released on \$500 bond. McIlwain said he fired at another negro whom he found in his house. One of the shots fired by McIlwain is reported to have struck his wife, who stepped between McIlwain and the alleged intruder, according to a report made at the county attorney's office. McIlwain's wife sustained slight wounds.

COTTON MARKET

NEW YORK, July 23.—Prospects for clearing the bulk and the report of a southern crop reporting agency giving conditions at 7 1/2 and indicating a crop of 12,000,000 bales, furnished the basis for a renewal of selling in the cotton market this morning.

Trading continued in July contracts at 21 1/2 and it passed out at that figure at noon.

At the lowest of the morning prices were 4 1/2 to 4 3/4 points down.

total per capital apportionment for next year about \$5 more than last year, or about \$13 or possibly \$13.50 as against \$ .50 for last year.

Floral Heights Baptist Church, Tenth and Kemp Boulevard, Sunday school 9:45 a. m., Chas. Smoot, supt. preaching services 11 a. m. and 8 p. m. by Rev. J. W. Loving, Thd., pastor of First Baptist Church, Cleburne, E. Y. P. U. Sr. and Jr. and Sunbeams at regular hours. A large attendance is specially requested. Conference will be held Wednesday evening for the purpose of calling a pastor.

**CROWELL WILL GET PART \$4,000,000 SCHOOL FUND**

AUSTIN, July 23.—Crowell is the first school to make an additional increase in teachers' salaries out of the \$4,000,000 recently voted by legislature, according to reports reaching the state department of education. In May, the Crowell board planned to increase the grade and high school teachers approximately \$20 per month. Since Crowell's share of the \$4,000,000 will approximate \$1,800 additional increases amounting to \$19 to \$15 per month have been given.

Other cities have reported raises as follows: Amarillo, \$600 per year, 66 per cent increase; Brady, minimum raise \$11, 11 per cent, maximum raise \$50, 49 per cent; Brownwood, \$17 to \$22 per month, 29 to 34 per cent; Canyon increased \$20 to \$50 per month, or 25 to 56 per cent; Cleburne, the minimum for the high school seems to have remained at \$75, if so the percentage of increase in Cleburne varied from 0 to 25 per cent. Reports have not been received from Cleburne as to whether changes in salaries have been made since the city learned its apportionment will be about \$20,000 larger than the schedule was fixed. Fort Worth reported in May, grade salaries for next year would be \$900-\$1500 and for high schools, \$1200-\$1800. Dallas at the same time reported salaries \$1264-\$1700, and high school salaries \$1200-\$2400.

The state department confidently expects reports from a number of other school districts which have related teachers' salaries in proportion to the increase given by the May appropriation of \$4,000,000, which will make the

rate hearing postponed UNTIL AUGUST FOUR

AUSTIN, July 23.—Three of the rate propositions postponed at the July hearing of the Texas railroad commission have been set for hearing on August 4. These propositions are the proposed increase in rates,

load, on cotton seed oil, peanut oil and tank bottoms; petition for increased rates on cotton and cotton linters in view of increased compression charges, and petition of the Galveston Wharf company for an increase in switching charges.

**FIRE COMMISSION REMOVES TAX OF FIFTY CENTS ON GUNS**

AUSTIN, July 23.—By official ruling the Texas fire insurance commission has removed its absolute charge of 50 cents on cotton gins where spark arresters or smoke stack screens are not used, on condition that the fuel

used is coal, wood, fuel oil, gas or electricity, but the penalty still applied where the fuel is cotton hulls or bolls.

All fire insurance companies have also been notified that the rule which requires that gin power plants must be insured for not less than an amount equal to one-fifth of the total amount of insurance carried on the gin machinery, has been stricken from the department forms.
