

BAILEY AND NEFF LEADING

LEWIS DECLARES A BITUMINOUS COAL STRIKE IMMINENT

210,000 MEN WOULD BE AFFECTED BY GENERAL STRIKE IF CALLED.

LEWIS SCORES THE COAL OPERATORS AS VANDALS

American Public Being Sandbagged by Coal Operators in Charge Made By Lewis.

INDIANAPOLIS, July 24.—Possibility of a general strike of bituminous coal miners in the central competitive fields was revealed in a statement given out tonight by John L. Lewis, president of the United Mine Workers of America, regarding the strike in the Illinois field.

Any settlement of the Illinois strike which would modify the basic interstate agreement under which the miners of the central field are working would result in action by the national officers to enforce an immediate shutdown of all bituminous mines, involving a strike of 210,000 men. Mr. Lewis said.

Mr. Lewis' statement follows: "The present situation in the Illinois coal fields is directly chargeable to the lamentable blunder of the United States bituminous coal commission, which failed to provide adequate compensation for certain classifications of mine workers. This award was affirmed by President Wilson over the protest of the national officers of the United Mine Workers in violation of the pledges of the United States government that justice would be rendered the miners.

"Since the rendition of the award, the mine workers in most of the coal fields have been employed but a small percentage of full time due to the miserable breakdown in the national transportation facilities. In the meantime coal operators are charging unprecedented prices for coal and are enthusiastically engaging in what one may term the sun dance of the profiteers.

"In certain sections coal is selling at the outrageous price of from \$11 to \$12 per ton. The American public is being sandbagged by these daring commercial vandals who stagger beneath their loot.

"When the basic interstate agreement between the miners and operators was consummated on March 21, representatives of the mine workers attempted to secure acquiescence of the operators in an arrangement which would give justice to the day workers and monthly men.

"Their efforts were repulsed by the coal operators, who at that time the United Mine Workers have in every way assumed the obligations of the wage agreement to which the Illinois coal operators are a party. The publicly expressed desire of the Illinois operators to now amend the wage agreement has not been officially transmitted to the officers of the national union.

"If a settlement is made in Illinois which modifies the basic interstate agreement, prompt action will be taken by this office to force an immediate shutdown of all mines operating in the central competitive field involving some 210,000 men under similar modifications together with other improvements are arranged for in the other coal producing fields."

SPRINGFIELD, ILLS., July 24.—"Go back to work," was the advice telegraphed miners' locals today by Vice-President Harry Fishwick of the Illinois Miners' Union. With department of labor arbitrators on the ground, intending to start conciliation efforts Monday, Mr. Fishwick believes many miners will heed his order.

MINERS MAY QUIT. PITTSBURGH, KANS., July 24.—That a considerable number of miners in the Kansas district would quit their work Monday and prepare to leave for other states as a result of assessments made against them by the coal operators, was the prediction made tonight by Alexander Howat, the district president.

The assessment to which the miners object is one dollar a week for every week in which the miner has observed the Saturday holiday instituted by several of the local unions a few weeks ago and alleged by the operators to be in violation of their contracts.

The reason given by the miners for the five-day week is that the holiday permits an accumulation of cars at the mines and makes possible steadier work in the fore part of the week.

FEDERAL RESERVE BANK FINANCIAL STATEMENT

WASHINGTON, July 24.—Combined resources and liabilities of the 13 federal reserve banks at the close of business July 23, were announced today as follows:

Resources. Total gold held by banks, \$675,408,000. Total gold reserves, \$1,933,271,000. Total reserves, \$3,124,013,000. Total bills on hand, \$2,523,450,000. Total earnings assets, \$5,135,215,000. Total resources, \$6,675,126,000.

SOLUTION TO TRUNK MYSTERY MAY HANG LETTER REVELATION

BRANIC, EXPRESS EMPLOYEE, REVEALS IMPORTANT INFORMATION TO POLICE.

DETROIT POLICE CHASE NEW ANGLE TO MURDER

Upon Arrival Of Trunk And Clothing Officers Hot-Foot It On New Trail.

NEW YORK, July 24.—Clues obtained from handwriting contained in letters which passed between Detroit and New York are expected to reveal the identity of the woman whose mutilated body was found in a trunk here yesterday, police announced tonight.

The letters were produced by Andrew J. Branic, an express man. He also told the officials of two South Americans for whom he stored a trunk in 1918, and one of whom later ordered the trunk shipped to E. LeRoy, care of the Y. M. C. A., Detroit. The name of LeRoy is that of the person reported as having occupied an apartment at number 105 Harper street, Detroit, the address on the trunk in which the body was found yesterday.

The most recent letter to which the police attached importance was one received by Branic June 11, from a man in Detroit. It was signed A. Tatum and ordered him to get a trunk sent from there to him. He tried to locate the trunk, but was unable to find it.

It was last January, Branic said, that he received the letter directing the trunk be sent to LeRoy. That letter, he said, was in the same handwriting as the Tatum letter but was signed, C. J. Woods, the name which the expressman said was used by one of the two South Americans. These men, according to Branic, were known to him first as A. J. Fernandez and Joseph Y. Fernandez. Fernandez later told him he was arrested in connection with an automobile accident in Brooklyn, involving the death of a man, and was released on bail and left New York. Branic received a letter from him in Detroit in December, 1919, and in July, 1919, he was ordered to ship the trunk which he held to LeRoy.

Throughout all of the correspondence with A. A. Tatum, J. Woods and E. LeRoy, Branic declared, the handwriting was the same.

DETROIT, Mich., July 24.—The trunk in which the body of an unidentified woman was found in New York, was received by Detroit police this evening. Shortly after its arrival detectives hurried over to the trunk and held it in a lead. It is understood that the new clue came from New York.

The belief that the murdered woman might have been Katherine Dan, 29 years old, of Canonsburg, Pa., girl, was abandoned by the police today. She was said to have come to Detroit with Alfonso Tallifone, an Italian, who was arrested in June and charged with violation of the Mann act. He was arrested here June 16, and it was reported that the girl had not been seen for several days prior to his arrest. Police today, however, stated that the girl, Dan, girl had received letter from her written after June 18. The trunk was shipped from Detroit June 10.

WASHINGTON, Pa., July 24.—Authorities of Washington county, Pennsylvania, announced today that they had succeeded in ascertaining the identity of the body of the woman found in a trunk in New York yesterday, is that of Katherine Dan, who went to Detroit to work as a waitress in the hotel of the Mann act and complicity in the disappearance of the Dan girl. The sister is being held for further investigation.

In a statement today Ida Dan said she believed her sister is dead. "Whether she is the girl they found in the trunk in New York, I would not venture to say," she said. Tallifone said he had not heard from the missing girl for some time.

County authorities claim that details of the disappearance of the body in the trunk tally with facts and dates surrounding the disappearance of Katherine Dan. She left home at Canonsburg, Pa., early in June for Detroit, and was accompanied by Tallifone, authorities said.

The latter was arrested in Detroit and brought to this city, but efforts to find the girl in Detroit failed. County detectives who investigated the Detroit end of the case, said today that 105 Harper street, Detroit, the address found in the trunk at New York, is the address of a warehouse here, which has been shifted to Detroit authorities for solution, Captain Arthur Carey, head of the New York homicide bureau, announced.

Captain Carey said that the trunk, which concealed the woman's body for more than a month, together with a rope used to fasten it and articles of clothing, was discovered in the examination of the body by attaches of the coroner's office here. Police officials declined to say whether the marks on the clothing were likely to prove material.

LEAGUE OF NATIONS TERMED FAILURE BY THE SOVIET PREMIER

LEAGUE FAILED TO RECONCILE INTERESTS OF CAPITALISTIC GOVERNMENT.

WORLD UPON VERGE OF INTERNATIONAL REVOLUTION

Social Democrats Greatest Hindrance To Progress of Soviet Form Of Government.

MOSCOW, July 24.—Nikolai Lenin, the Soviet premier, speaking at the opening session of the third international conference Monday stated that the world's economic crisis and the failure of the League of Nations to reconcile and unite the interests of capitalistic governments were the most important factors promoting the aims of the third international, one of which was to consolidate and organize world revolution.

After Lenin's address, in which he declared among other things that the entire capitalistic system of the world was threatened with collapse, and that the League of Nations contributed to communism, the international adopted a resolution calling on the workers of all nations to institute an economic blockade of Poland.

Lenin pointed out that even in countries where there was the most favorable conditions, such as America, Japan and England, the increase in the cost of living was disproportionate to the rise in wages, and declared that those who benefited in all countries were an infinitely small proportion of the population.

The collapse of the entire capitalistic system was threatened, Lenin said, owing to the impossibility of settling war debts without injuring many countries in economic ruin and because of the hopelessness of reconstruction under a capitalistic regime. English economists, such as Kent, he declared, are not without a certain idea that annulment of war debts was necessary for the re-establishment of international credit.

The premier pointed to the representation of the international for the first time of colonies, dependencies and "oppressed nations," which he declared was significant. Experience was proving, he added, that turn-of-the-century countries, such as those of Asia, were fertile fields for Soviet doctrines.

Regarding the international organization of the League of Nations, the social democrats were the most serious obstacle to the development of revolutionary power as a means of service to all countries, he added, they were the enemies of the working class and defenders of the Bourgeoisie.

It would be an easier task to unify the left wing of the socialist movement, he said, than to bring about the proletarian campaign by the adoption of a program of united action.

TWO DIE IN GASOLINE EXPLOSION YESTERDAY

Vernon Fire Loss Estimated At \$75,000; Three Men Hurt in Explosion.

M. F. Edwards and Tom Sanderson, of Vernon, died last night after sustaining fatal burns in an explosion of a gasoline tank, which caused a destructive fire of about \$75,000, at Vernon yesterday.

Another man whose name has not been learned is in precarious condition and attending physicians state there is little hope for his recovery.

When Edwards was undressing a tank that while the tank was being sprung a leak, throwing gas fumes into the tailoring shop of Smith & Hansard, which became ignited from a boiler in the establishment.

Fire quickly sprang and followed to the tank, which caused an explosion blowing the tank into the air. The conflagration for a time threatened to destroy the whole of North Texas and North Main street before the fire department was able to get the fire under control.

TWO RUNNING NECK AND NECK IN 167 COUNTIES HEARD FROM

COMPLETE COUNT AWAITED TO DETERMINE RESULTS IN MANY COUNTY RACES

Early this morning the results in the district, the county judges, the county sheriffs, the county assessors races in Wichita county and the justices of peace and constables races in Precinct 1, were uncertain and the complete count of Boxes 1, 12 and 13 in Wichita Falls and Burk Burnett must be awaited to determine the result.

Only a small percentage of the votes in Boxes 12 and 13 were counted last night and less than half of the vote at Burk Burnett had been reported at midnight. The election officers in the two city boxes were out by strenuous days work suspended the count before midnight to be resumed at nine o'clock this morning. It is not likely that the count in these boxes will be completed until late tonight.

The incomplete vote as counted gave the following: DISTRICT ATTORNEY: Jones 1704, Graham 811. REPRESENTATIVE: Swanson 548, Wyatt 428, Johnson 1380, George 521. DISTRICT JUDGE: Scurry 1280, Neff 1460. COUNTY JUDGE: Jones 1468, Sartin 1197.

PAT NEFF LEADING IN WICHITA COUNTY

His Lead Of 141 Over J. W. Bailey Likely To Be Increased By Full Count.

Pat Neff is leading in the Wichita county vote so far as counted early this morning. J. W. Bailey was second. It is probable that Neff's lead will be increased by the complete count. The vote as reported early this morning was as follows: Bailey, 730; Looney, 268; Neff, 821; Thomason, 462.

SUMMER HOTEL DESTROYED BY FIRE IN ARKANSAS

FORT SMITH, ARK., July 24.—It was reported here early tonight that the Park Springs hotel at Bentonville, Ark., one of the largest resort hotels in the state, had just been destroyed by fire. No mention was made of any loss of life.

POLICE ARREST MAN WITH STOLEN AUTOMOBILE

A man who was alleged to have in his possession a stolen automobile and four quarts of moonshine whiskey was arrested at 1:30 a. m. by Policemen Hunter and Williams. They had waited for his return to his home on Scott avenue since 9 p. m.

CHRISTENSEN TELLS SECRET RELATIONS

Asserts United States Has Aided Poland In Fight Against Reds

SALT LAKE CITY, Utah, July 24.—Parley P. Christensen, farmer-labor candidate for president, tonight disclosed what he said were "secret relations" between the United States and Poland whereby many millions of dollars worth of war material had been delivered to Poland. This material, he said, was delivered to Poland for use against the Russian Soviet government. In exchange for long term Polish notes bearing five per cent interest. The statements were made by Mr. Christensen in a telegram to Senator Harding, republican presidential nominee, calling on him to "employ your powerful position to acquaint the country with the immensely grave responsibilities to America in a continuation of the administrative Polish-Russian policy." He was encouraged to make the request, he said, by a statement recently printed in a New York newspaper, quoting the senator as saying "It is no business of ours what form of government the Russian people choose."

SUFFRAGIST SUES HUSBAND FOR RELEASE OF MARRIAGE

TOPEKA, KANS., July 24.—Mrs. Effie Main, well known Kansas woman suffragist, named in news dispatches from Washington sometime ago as one of a number of women arrested for picketing the White House, is defendant in a divorce suit in the district court here and filed her answer today. Her husband, William Main, is a truck farmer living near Topeka. Mrs. Main denies that her political activities caused her to neglect home.

Mr. and Mrs. L. A. Fine and little daughter, Dorothy Elaine, have returned from a week's outing at Medicine Park.

STRICT NEUTRALITY IS GERMAN POLICY

Intends To Protect Territorial Integrity Against Red Invasion

By Associated Press. BERLIN, July 24.—Because of the Russo-Polish fighting close to the east Prussian border line and the possibility of encroachments on German neutrality, President Ebert issued a decree today, ordering that constitutional emergency measures be enforced immediately to defend that province. The civil governor of East Prussia reported that an attack on east Prussia was unlikely but that developments were being watched closely. The governor pointed out that these measures were made difficult by the fact that the inter-allied commission was the controlling authority in the plebiscite region and that permission for German troops to enter the region had not been granted. Meantime, he said, local security police and mounted detachments were being reinforced and were acting as frontier guards. He expressed the belief that they would suffice to render first aid in case of frontier encroachments. Furthermore, the governor reported, reichswehr troops had been concentrated at what was regarded the danger point.

LITTLE INTEREST SHOWN IN MASS CONVENTIONS

No interest was taken in the democratic precinct mass conventions in Wichita Falls Saturday as far as could be ascertained only one precinct convention was held. This was in precinct 12 where a few gathered and chose the following delegates to the county convention: E. D. Donnell, P. A. Martin, E. G. O'Neal, Bert King, M. P. Yeager and C. P. Carter.

The county convention will select delegates to the state convention. Pathe Records and Phonographs on easy terms. Decorators Co. 12-710

GRAHAM IS LEADING IN CLAY COUNTY VOTE

Special Co. The Times. HENRIETTA, July 24.—Incomplete returns at midnight indicate that Elmer Graham will carry Clay county by a majority of about 100 votes over Fletcher S. Jones. The incomplete returns give Graham 481, Jones 420. P. A. Martin is leading in the gubernatorial race with 306 votes. Looney has 109, Neff 335 and Thomason 223. Dr. DuVal, eye, ear, nose and throat specialist has moved his office to 223 Commerce Bldg. Phone 5125. 63-710

TRUNK MYSTERY PUZZLE THE POLICE

(Continued From Page 1.)

rial clues to the identity of the woman. Andrew J. Branick, local expressman, today handed the police a letter signed "A. A. Tatum, the same as that on the tag attached to the trunk. The letter addressed to Branick was dated June 11. Enclosed in the letter was an express receipt, showing that a trunk had been shipped June 10 from Detroit to New York and gave the name "A. A. Tatum," as both sender and recipient. It asked that the trunk be removed from the express warehouse and be held by Branick until called for.

BRANICK IS ALSO SAID TO HAVE FURNISHED THE POLICE WITH INFORMATION INVOLVING A "MR. AND MRS. LEROY"

These are the same names as reported yesterday by the Detroit police as having occupied an apartment at 103 Harper street in that city a few days before the trunk was shipped here. The Harper street address was given on the trunk tag as that of Tatum. Branick told detectives that in the summer of 1919 a chauffeur giving the name of "O. J. Wood" left a trunk in his care and six months later wrote from Detroit asking that it be sent to E. L. Roy in care of the Detroit Y. M. C. A. Branick said he did this. Dr. Charles Norris, city medical examiner, reported today that an examination of the dead woman's brain failed to show any trace of an anesthetic as having been administered before the woman's death. This examination was made to determine if she had died as a result of an operation. DETROIT, MICH., July 24.—A spe-

DETAIL OF DETECTIVES WAS ASSIGNED TODAY TO THE TASK OF SOLVING THE MYSTERY SURROUNDING THE DEATH OF THE WOMAN WHOSE BODY WAS FOUND IN A TRUNK SHIPPED TO NEW YORK

In an effort to obtain a description of the man who shipped a trunk June 10, officers were searching for an express driver who has since disappeared. They were also following clues that led to Pulaski and Charlevoix, Michigan. Clothing found with the woman's body was said to bear the mark of a Pulaski merchant, while Charlevoix was given as a forwarding address by a man who left a Harper street rooming house after expressing two trunks to New York on June 10. Miss Clytie McKnight left Saturday evening for a week's visit to Dallas and Willis Point. Mrs. H. C. James of Ranger, Texas, is in attendance at the bedside of her father, J. T. Young, who is quite ill.

FINANCE and INDUSTRY are so closely allied that it might well be said relatively a community's industrial development is no greater than the greatness of its banks. The City National Bank of Commerce and its directors are closely allied with the business enterprises of Wichita Falls and for that reason the bank plays a very important part in the commerce of the community. The City National Bank of Commerce stands ready to do its part in encouraging new industries and maintaining the supremacy of those which have contributed so much to the growth of the community.

IN THE HEART OF THINGS

"Truth in Advertising"

Our advertising manager is a member of the Associated Advertising Club of the World. All of our advertising complies with the Club's requirements:

"TRUTH IN ADVERTISING"

This store's advertising is a faithful presentation of the store's news, activities and offerings. Not a line of clipped copy is ever used in any of our advertising. The offerings are presented plainly and truthfully, and you will always find every item just as advertised—unless the lots are sold out before you get here.

NO GLITTERING GENERALITIES.

No meaningless descriptions clipped from big city advertising, but a plain presentation of this store's offerings that you can profitably read.

PRODUCE CONCERN DESTROYED BY FIRE

Loss Of \$20,000 Sustained By Pierce-McAfee Produce Company Yesterday.

Fire completely destroyed the one-story wooden plant of the Pierce-McAfee Produce company at 244 Barclay street shortly after 6 o'clock Saturday evening. Only prompt work on the part of the firemen, and the use of a high pressure steam kept the flames from spreading to the warehouse of the McConnell Furniture company and other buildings in the neighborhood. Shortly after the firemen arrived, an ammonia tank, used in the cold storage equipment of the company, exploded, tearing out the roof of the structure and hurling timbers into a mass that added to the rapid sweep of the flames. Four of the firemen were placed ladders against the roof at the time, and if the explosion had occurred a few minutes later it is probable several lives would have been lost. The rapid spread of the flames caused Chief McClure to pull a second alarm, bringing Company No. 3 from the Holiday street station. More than 3,000 feet of hose was stretched, and a solid wall of water thrown around the building kept the fire from attacking other structures. Volunteers also aided in stamping out sparks that landed on freight cars on the track in front of the produce company's plant. None of the contents of the building were saved, and the loss it is estimated will run to at least \$20,000.

GOV. BICKETT REFUSES OUTSIDE ASSISTANCE

Doesn't Mind Being "Cussed" By Tar-Meeler, But Others Better Lay Off.

RALEIGH, N. C., July 24.—"I do not propose to let anybody from outside of North Carolina investigate any of our institutions," was the declaration of Governor Bickett today when his attention was directed to reports that the Prisoners' Relief Society of Washington was contemplating making an investigation of an "epidemic of complaints" in regard to prison conditions in this state. "We at least have state's rights left as to the conduct of our prisons," said the governor, "and I intend that this right shall be maintained and exercised." "I have been 'cussed' all over North Carolina from Cape Lookout to Stick Rock Creek on account of my sentimental love for 'convicts. One leading newspaper accused me of making reformatories out of our prisons. "I have been perfectly willing to take this 'cussing' from North Carolina folk. I am their servant and it is the constitutional right of every tar heel to 'cuss' their public officials, a right which they exercise freely and about which I make no complaint. But I absolutely refuse to 'cuss' 'cussing' or criticism of my official conduct from any outsider."

COOK CO. SUES MAYOR THOMPSON FOR BACK TAX

CHICAGO, July 24.—Cook county today brought suit against William Hale Thompson, mayor of Chicago, to collect \$244,000 in unpaid personal taxes for the years 1915 and 1916. Efforts to collect the amount with court action have failed, according to Assistant State's Attorney M. B. Sterrett, who brought the suit.

MAN FORCES WOMAN TO DESERT, HER HUSBAND

FRAMINGHAM, MASS., July 24.—Thomas Drake, wearer of a distinguished cross for heroism in the world war, was taken in custody by a West Virginia officer and started back to Clarksville in that state today charged with enticing Flora E. Gill from her home by telling her that unless she accompanied him he would kill her husband, V. M. P. Gill of Clarksville.

According to the Framingham police who held him pending the arrival of Mrs. Gill and West Virginia officers, Drake was a former auditor of the young woman and when he returned from the war and learned that she was married, he was unable to conquer his infatuation. The police say that after several unsuccessful attempts to induce her to elope with him, Drake went to her house several days ago, in the absence of her husband, and displaying a revolver, compelled her to pack a grip and accompany him north. From Washington the young woman managed to send a telegram secretly to her husband and when the train reached Framingham Drake was detained by the police.

COUNTRY PUBLISHERS URGED INVOKE CONGRESSIONAL AID

MILWAUKEE, WIS., July 24.—Courtland Smith, New York, president of the American Press Association, discussing the print paper situation before the Wisconsin Federated Printing and Press Association today urged country publishers to demand congressional action to solve the print paper problem and questioned the attitude of Senator Harding and Governor Cox on the subject. "What we want is definite assurances from one of the candidates that he will call a special session of 'congress to put through a bill relieving the present newspaper shortage," Mr. Smith declared. He proposed a parcel post rate of one cent a pound on print paper with no same rates so that small publishers could buy direct from the mills.

Wonderful Saving on Charming Summer Frocks

The very fact that such frocks as these can be worn on so many and varied occasions makes the demand for them all the greater. They are fashioned from Georgettes, Silks, cool, crisp organdy, swiss and french ginghams. The styles are most appealing, showing smart and quaint combinations presented in delicate hues for afternoon and evening wear. Bright plaid effects for daytime and street wear. A visit to this department will convince you.

The Waco Times-Herald douses the hopes of those who figured that in some unknown way the nomination of Cox meant a return of the "good old days," basing its opinion on the fact that the Ohio governor went down in Washington the other day and his first interview was with Senator Sheppard of Texas, author of the eighteenth amendment and leader of the dry forces of the nation. The T-H admits that the details of the interview have not yet reached the public, but asserts that "we know its general scope and purpose. What Morris wanted to know of Jim was this: Is the Volstead act in any immediate danger? Will it go into the discard when our Uncle Woodrow moves out and Brother Jim moves into the White House? It was a supreme moment; a million throats hum in the balance and a million feet searched about for the football. Morris got Jim's promise not to disturb the status quo unless the people rose up and demanded something stronger and more exhilarating than grape juice. Morris Sheppard came away from the interview with an enthusiastic supporter of Jim; he's to take the stump for the democratic ticket, not from compulsion, but with manifest delight. Morris Sheppard on the stump will be a guarantee that beer and wine are now to be championed by the democratic administration; the drowth won't be broken; the mint and will continue in vogue; never again will all join in singing, 'We won't go home 'till morning.' Where Morris Sheppard leans Bill Bryan must follow or fall under the suspicion that he wanted the nomination and wanted it bad." The Times-Herald editor knows Morris Sheppard; those who also know Morris will not doubt that Editor Robinson's conclusion is correct and that the nomination of Cox offers no surcease to the boys who want a little for their stomach's sake. The Volstead act still stands.

"It is gratifying to the State Board of Health to note in your editorial columns the splendid stand which you have taken for the anti-typhoid serum," says a letter from Dr. C. W. Goddard, State Health Officer and ex-officio president of the State Board of Health. "and I assure you that this Board would long ago have put this very important preventive measure into effect had the Board been able to secure funds for the purpose, but it has not been able to do so. The Board will appreciate further efforts on the part of the press to accomplish this end, there being no question as to its value and practicability in fighting typhoid." The paragraph in The Times, to which Dr. Goddard's letter refers, was a commendation of the Oklahoma State Board of Health furnishes free anti-typhoid serum and Oklahoma doctors administer it free to all who will receive it. Knowing that Texas physicians would be glad to do as much if the serum was furnished them, we suggested that the Texas Board of Health might well donate the Oklahoma Board's good example. Typhoid fever cases cost on an average \$1,000 each, what with lost time, lost production, nursing, medical attention and medicines. That estimate was made several years ago, probably the high cost of being sick has added measurably to it. Even a small epidemic of typhoid fever in this summer—costs enough to furnish free vaccine to every person in Texas who would take it, and we are constrained to believe that a little more aggressive stand on the part of our own Board of Health with a fair showing of costs and benefits would get the necessary appropriation from the legislature for a real campaign against typhoid fever in Texas. And we feel that we may assure Dr. Goddard that the Texas press can be counted on to help.

Impounding of the waters of the river northwest of Wichita Falls and thereby providing the means for irrigating ultimately 100,000 acres of land as fertile and as productive with sufficient water as any in the world means that the area served by the district will be independent of rainfall and that average crops are assured. One who travels through the West and Northwest cannot but be deeply impressed with the possibilities of irrigation down here where the growing season is weeks and weeks longer than that high up in the mountains and latitude. That a crop has never been known to fail in those regions is only indicative of what is in store for Wichita county with the means at hand for furnishing the necessary precipitation on order. No greater vision of Wichita county's possibilities has ever been given to see than that which perceived what irrigation would do and which had not only the vision to see but the courage and ability to execute. The present project, first details of which are nearing completion now, is the result. We doubt if even the most optimistic of us can appreciate in advance everything that this project means to Wichita county and to Wichita Falls; it is too big easily to be visualized, and we too close to realization of the idea to comprehend its magnitude.

The defection of LaFollette, if his signed repudiation of the republican party continues good, is going to have a material effect in Wisconsin, where the Senator seems to have the whole

state in the hollow of his hand politically. But unless he does something more than suggest the organization of an "aggressive progressive" party, his influence will be little felt anywhere else. LaFollette is after La Follette's scalp in Wisconsin; the old-line and regular republicans are making a fight to elect him. With a factional fight on in the republican ranks, there is some ground for hope that Wisconsin may end up as a mysterious stranger in the democratic column next November.

Governor Case will learn on August 7 what happened at San Francisco on the morning of July 6, a month and a day earlier. Franklin D. Roosevelt will not learn until two more days, on August 8, that he also was concerned in an event happening in the afternoon of July 6, 3,000 miles away. Which is to say that on August 7 Governor Case will be formally notified that he is the democratic nominee for the presidency, and that on August 9 Assistant Secretary Roosevelt will be officially advised that he is the party nominee for the vice-presidency. It is expected that both will formally accept the proffered nominations.

With Other Editors

Labor for the League.
 The endorsement of the League of Nations without reservations by the American Federation of Labor adds another powerful voice of public opinion to the support of this essential safeguard of permanent peace. In the light of the federation's action the phrasing of the resolution as adopted is important. The league, in the words of the report, "is not a perfect document, and perfection is not claimed for it. It does, however, mark the settled condition" and when an ever has been devised for prevention of war.

This laudible judgment of labor, a judgment in no way dogmatic and not warped by the prejudice and passion that have biased political opposition to the league. It accords in these respects with the report which the special committee of the American Bar Association will submit to the association at its annual meeting in St. Louis and which recommends the ratification of the treaty, including proposals for a League of Nations, "without amendment," at a time "when the world is anxious to return to a more settled condition" and when an opportunity presents itself which if not now grasped "may not recur for many generations."

An organized labor, organized education—represented by the presidents and faculties of colleges—the bar, the church and other agencies of intelligent public opinion array themselves over the side of the League of Nations, the false and misrepresentative character of the opposition becomes more manifest. The substance of American thought is for it, what it heard against it is the noise of the shallow and the mouthings of partisanship.

HOROSCOPE

"The stars indicate but do not compel."
 (Copyright, 1917, by The McClure Newspaper Syndicate.)
 Sunday, July 25.
 Mercury and Venus rule strongly for good this day, according to astrology.
 The mind should be light and buoyant, while the configuration prevails. It is a most suspicious time for meeting friends. All the gregarious instincts of humanity may be very active at this season, making for crowds that seek amusements.
 Theaters and all places of entertainment are well directed by planetary sway. Hotels should profit, but they are warned that before the snow flies they may notice a falling off of receipts.
 Some sort of a mysterious flurry in American financial affairs appears likely and a hot dogged in a philanthropic movement is foretold.
 Love letters should be extraordinarily lucky this day for the stars give to women a convincing power and to women an unusual charm.
 Religious excitement and the widespread discussion of creeds are foretold.
 Education and its connection with church and state will be much ventilated in the public prints.
 Astrologer foretold during the war, an advance in knowledge of how to use psychic gifts, but they declare now that the world's reaction to materialism delays progress in occult science.
 There is a prediction that the teeth as well as the organs of digestion may cause much discomfort during this aspect.
 Persons whose birthdate it is have the augury of an active and prosperous year. Changes may not be lucky.
 Children born on this day may be restless and discontented, but the subjects of Leo usually have extreme good luck all through life.
 A Checking Account maintained with the City National Bank of Commerce tends to eliminate useless spending and provides a record of expense. A check recognized as a legal receipt and insured against loss is demand for payment of a bill a second time. 73-11c

The Gift of Memory.
 Of all the gifts which God has given to warm and cheer the soul of man, the gift of memory is supreme, the crowning jewel in His plan. Without it all that's good would fade and love would have no tenderness. There'd be no keepakes for the past, no little shoes or faded dress. Without the gift of memory to conjure up by-gones, bright days, and long, and dull and dreary all our nights; The dead would then be truly dead and long to us beyond recall. And every joy which we have claimed would vanish when the shadows fall. Friends would be ours for just a day; their gifts would never be treasured. We could not read the splendid past without the book of memory. And every deed of greatness here which makes the world a better place. Could not endure to thrill and rouse the children of a future race. Here in the treasure house of man where all the joys of life he keeps, God's precious gift of memory for the lonely mother when she weeps. His inspiration for the brave—his strength to aid the weak and sore. That love is an immortal joy, and all that's good shall last long endure.

LITTLE BENNY'S NOTE BOOK

THE PARK AVE. NEWS
 Weather. Popular in the shade. Exter! Sam Cross and Puda Simkins Have a Negro Inmate! Last Wednesday some man was setting on Puda Simkins' front steps, with his eyes shut like a man overcome with the heat, but really being a man just taking a nap, and Puda and Sam Cross got some cold ice water and threw it in his face and the man chased them 23 blocks. Slaughter. Last Saturday Mr. Charles (Puda) Simkins told Mr. Donny Potts he would rather eat frankfurters and sour kraut than ice cream, and Mr. Potts replied that there was no comparison.

POEME BY SKINNY MARTIN.

Always Think of the West. Even if it rains out. In that dry season to fret. You are to be glad you're not out in it. And getting soaking wet.

RIPLING RHYMES

Lang Syne.
 When we grow old we all look back with longing for the traveled track, to days of old long syne; and we inform the younger men that everything was better then, yea, doubly smooth and slip. I'm having better times today than in the dim years far away, when I was always broke; I'm living now in Easy street, but ev' a mornin' I repeat the old dandy barroom joke. "When I was young," my yams begin; then all was gold that now is tin, and bricks were precious stones; then arches grew on all our lawns, and guinea hens and geese were swans, and trees grew silver bones. When I was young my path was steep, and often I sat down to weep and wish for better times; I slaved away at bitter tasks, and carried kegs of nails and casks, to earn some meagre dime; I worked some 12 hours a day on farms composed of rocks and clay; I wrought with rusty tools; I swung an ax. I packed a bed, and breaking miles of prairie sod; I pushed two sorrel mules. I wouldn't do the old time chores for all the wealth the miser pours into his bin at night; but when I'd break some warren's hearts, "When I was young," my story starts, "the world was gay and bright."

It Can't Be Done

Why Itch and Burn With Skin Diseases?

There is a way to get rid of the itching and burning. Terrifying skin irritations, eczema, tetter, boils, pimples, etc., have their origin in a disordered condition of the blood. They come from a colony of tiny germs which get into the blood and multiply by the million. Lotions, salves, ointments or similar treatment cannot possibly reach the source of the trouble, which is the blood.

WHY?

ARE JEWELS USED IN WATCHES?
 (Copyright, 1920, by Wheeler Syndicate.)
 The principal reason for the deterioration of any piece of machinery is because the constant friction wears away the moving parts and interferes with the regularity of mechanism. A watch being a machine in which absolute uniformity of speed is essential, it is necessary to reduce this friction to a minimum—either through constant lubrication or the use of ball bearings or some very hard material which will withstand the wear and tear of the continual friction. The first of these methods are not feasible in so small a piece of machinery as a watch, so certain very hard jewels are placed at various points to counteract the rubbing caused by the moving parts. Watches are generally equipped with 7, 10, 17, 21 or 23 jewels, the 17 and 21-jewel types being the most popular. Intrinsically, the jewels used in the manufacture of watches are of little value but from the standpoint of minute and the specific purpose which they serve, they are invaluable. The jewels usually used in watch-making are the hardest of the precious stones, the rubies and sapphires and, of these, the most generally used is the sapphire, which combines hardness with comparatively reasonable price.

Side Talks

THE ROAD TO PEACE.
 What a lot of energy people do waste trying to make other people different, trying to make them see where they are wrong, fretting because they have certain traits, finding fault because they will not listen to reason—reason, of course, being what they think. "Heterodoxy," said a famous blabber, "is the other man's dog; orthodoxy is mine."
 And what a great peace comes over one when one realizes that, after all, one doesn't have to wear oneself out this way.
 She Thought She Would Burst. "He must know he wasn't fair about it," a little friend of mine once said to me in regard to an argument she had had with her husband, "but he simply won't admit it. It seems as if I would have to fight him out, and I can't make him see it, and admit it."
 That's a typical example of the state of mind I mean—the state of mind that huris itself against some other personality, trying to get the other man to change, or change, or convince that personality.

R. R. COMMISSION HOLDS RATE HEARING

Increase Asked by Common Carriers On Freight and Passenger Service.
 AUSTIN, July 24.—General increase in freight and passenger rates is to be considered by the Texas railroad commission at a hearing to be held on Wednesday, August 4, official notice of which was issued today by the commission.
 This action is taken by the railroad commission on the application of the common carriers operating in Texas, and in view of the fact that the railroads have already made application to the interstate commerce commission, under the provisions of the federal transportation act of 1920, for a general advance in rates "which would

Increase Asked by Common Carriers On Freight and Passenger Service.
 AUSTIN, July 24.—General increase in freight and passenger rates is to be considered by the Texas railroad commission at a hearing to be held on Wednesday, August 4, official notice of which was issued today by the commission.
 This action is taken by the railroad commission on the application of the common carriers operating in Texas, and in view of the fact that the railroads have already made application to the interstate commerce commission, under the provisions of the federal transportation act of 1920, for a general advance in rates "which would

HARDING COMMENT

Not in Position Without Co.
 MARION, Ohio, declaring for "political prisoners" declined today regarding the socialist nominee in the Atlanta election of the Progressive party. He outlined his attitude to P. F. Christy, editor of the Progressive party newspaper, both Governor Cox's influence to secure for Debs.
 "I have your release from Debs," Senator Johnson said as he left the Progressive party office in the city. "I believe in the limitation of the Progressive party's influence to secure for Debs. I believe in the limitation of the Progressive party's influence to secure for Debs. I believe in the limitation of the Progressive party's influence to secure for Debs."

TOM WATSON

THE DEBTS
 ATLANTA, Ga. Watson, former Georgia and ex-United States senator, who paid his fee for the primary for September 8, it is late today.
 Mr. Watson, it is reported by United States senator who is in the city, is expected to be in the city for the primary for September 8, it is late today.
 G. N. DIAZ FLEA COUNTRY FOR MEXICO CITY
 Felix Diaz, a student Porfirio revolution in Vera Cruz, is country, considered movement ended announcement to partition.
 Most of General Diaz's disbanded, remainder are by war department.

HARDING REFUSES TO COMMENT DEBS CASE

Not in Position To Express Opinion Without Considering Merits Of Case.

MARION, Ohio, July 24.—Although declaring for "generous amnesty for political prisoners," Senator Harding declined today to express an opinion regarding the case of Eugene V. Debs, socialist nominee for president, who is in the Atlanta prison following conviction of attempting to obstruct the draft.

He outlined his position in a reply to F. P. Christensen, presidential candidate of the Farmer-Labor party, who telegraphed both Senator Harding and Governor Cox asking that they use influence to secure executive clemency for Debs.

"I have your telegram relating to the release from prison of Eugene V. Debs," Senator Harding wired. "I believe as heartily as you do in freedom of thought and speech and press within the limitations which guarantee our liberties, and I can well believe you differ little about the abuses of that freedom when the republic is in peril."

"I believe in generous amnesty for political prisoners, but I believe that policy does not justify a hasty disposition of any case before it is considered on its merits. It is not for me to review a particular case and it is impossible to utter an opinion without such review."

The reply to Mr. Christensen was made in a general clean-up of accumulated correspondence. A large part of the senator's task was acknowledging the many messages congratulating him on his acceptance speech.

Among the callers today was former Senator LaFayette Young, of Iowa, who said if the republican party could not elect Harding, "it could not elect anyone."

TOM WATSON BREAKS INTO THE DEMOCRATIC PARTY

ATLANTA, Ga., July 24.—Thomas Watson, former congressman from Georgia and candidate for president years ago on the Populist ticket, has paid his fee for entering the Democratic primary for United States senator September 5, it was announced here today.

Mr. Watson, it is believed, will be opposed by United States Senator Hoke Smith, who his friends generally assert will be in the lead.

GEN. DIAZ PLANS LEAVE COUNTRY FOR PORTS UNKNOWN

MEXICO CITY, July 24.—General Felix Diaz, a nephew of former President Porfirio Diaz and an erstwhile revolutionary leader in the state of Vera Cruz, is ready to leave the country, considering the revolutionary movement ended, according to announcement tonight by the war department.

Most of General Diaz's forces have been disbanded, it is stated, and the remainder are being paid off under the war department's supervision.

NOYES SAYS EUROPE PITABLE CONDITION

United States Should Aid Countries; Belgium Rehabilitating Its Country.

New York, July 24.—Self-interest requires that the United States should help out in the great crisis of Europe, according to Pierpont B. Noyes, who with Archbishop Edward J. Hanna of San Francisco, and Wallace Day, all American members of the inter-allied Rhineland commission, arrived today on the Baltic. Mr. Noyes is going directly to Washington to report on his work on the Rhineland commission.

"Now that Germany is again at bay, conditions in Europe are very bad, he said. The only one of the war countries that is really getting on is Belgium," he added. "They have buckled down to repair the ravages of the invasion. France is making no progress. The French policy now is purely militaristic, not through any inherent love of militarism but through fear of Germany. With all the hatred of Germany which was the heritage of 1870 there was always present the element of fear, a fact which the Kaiser's government was cognizant, and upon which it worked."

"Now that Germany is prostrate, the fear still lingers in the French heart and France can see no comfort until it is assured its enemy is bound so tightly she cannot move hand or foot." Regarding the position of the United States, Mr. Noyes said:

"Our self-interest necessitates our helping out. There can be no stopping of the world machinery in so vast an area as that in Europe with our having to pay a large part of the penalty, but we are paying it and will continue to pay it in increasing volume the longer we continue to disregard our duty and our interest."

Savings funds on deposit with the City National Bank of Commerce earn interest at the rate of 4 per cent, compounded semi-annually. Thousands of residents of Wichita Falls consider their savings funds with this bank one of the safest possible investments.

Boy Scout News

The mothers of the boys in troop 4 were hosts at a banquet held in the First Christian church Friday night and which was given to the members of troop 4 in recognition of the faithful work which they have done in the scout movement in this city.

The banquet was an elaborate eight-course affair and on the menu was included fried chicken, roasting ears and all of the trimmings which go with these things. In addition to the regular members of the troop, the scout master and assistant scout master, the chairman of the court of honor were also present. Following the banquet a number of short talks were given. Major Perkins, chairman of the court of honor speaking on the work of the boy scouts in France during the world war. Mr. Masters, scoutmaster of the troop and assistant scoutmaster E. E. Elliott also gave short addresses. Fifteen scouts were present and a total of 160 points were scored in the efficiency contest.

The only one of the war countries that is really getting on is Belgium," he added. "They have buckled down to repair the ravages of the invasion. France is making no progress. The French policy now is purely militaristic, not through any inherent love of militarism but through fear of Germany. With all the hatred of Germany which was the heritage of 1870 there was always present the element of fear, a fact which the Kaiser's government was cognizant, and upon which it worked."

Scout Examination. Examination for first class, second class and merit badges were given by the scout examining board on Thursday of last week. Three boys in particular distinguished themselves, Will McClure of troop 7 and LeRoy Egler and Joe Bashara of troop 6 each passing 5 merit badge tests. Other scouts who were successful in passing the exam given them were J. C. Chaseworth, troop 1, for first class, Faunula Roy, A. I. Brothers, Buster Brown and Les-

REFORMATORY INMATES STAGE LITTLE RACE RIOT

REDFORD, N. Y., July 24.—Inmates of the reformatory for women engaged in a race riot today which started in the laundry and quickly spread to all cottages at the institution.

Hot flat irons used by the negro girls during the fight in the laundry forced their opponents to flee, but the battle was renewed on the lawn. The laundry was wrecked. About 150 girls took part. The negroes were outnumbered five to one, but they held off their opponents with knives and flat irons.

The disturbance was quelled by state troopers and police. Several policemen and troopers were injured. One was bitten by a girl. About a dozen girls were cut and bruised.

Miss Florence Jones, superintendent, resigned tonight as a result of the trouble.

MEXICANS GO ON GENERAL STRIKE IN VERA CRUZ
VERA CRUZ, MEX., July 24.—All forms of work were stopped again today as a result of the general strike.

At a meeting of merchants yesterday it was proposed to close all business places if the strike continues, following demands of the strikers for a further wage increase of 100 per cent. The strike begun by dock workers is approaching solution.

The CHENEY

Tone, Quality—and Technique

Cheney Tone Adjuster
The Cheney will play a lullaby as soft as a whisper—or fill a large hall with a rocking dance.
Twelve distinct gradations of tone, logically controlled at the source. Tones always crystal clear, sweet and pure.

A virtuoso could scarcely display his art with an ordinary violin or piano. Perfect technique alone does not make a master.
So with phonograph records. It is easy to play them—but the Cheney, like a Stradivarius violin, gives renditions new beauty. Its rich, majestic tones are unrivalled.
Acoustic principles, never applied before to phonographs, have set The Cheney unquestionably in a class apart.

CHENEY TALKING MACHINE COMPANY

THE LONGER YOU PLAY IT, THE SWEETER IT GROWS.

North Texas Furniture Co.

In the year 1900 the Baldwin Piano was presented to the International Jury at the Exposition Universelle, Paris, France, for their discriminating inspection and judgment.

This jury, composed of twenty members, all men of affairs and of experience and technical knowledge, giving unremitting energy and painstaking care to their duties, and basing their decision upon achievement and merit, awarded to the Baldwin Piano the Grand Prix.

By this act, the Baldwin Piano was then and is today not only the first, but the only American Piano ever so honored and recognized.

At the same time the French Government bestowed upon Mr. Lucien Wulsin, then president of The Baldwin Piano Co., the cross of the Legion of Honor.

In 1904 the Baldwin Piano was presented at the World's Fair in St. Louis. The verdict of 1900 at Paris was repeated and the Baldwin Piano was again awarded the Grand Prix. The judgment of the International Jury at Paris was not only corroborated but emphasized by the International Jury at St. Louis.

"Le Monde Musical," the great Parisian Music Journal commented upon this at the time: "This puts the Baldwin Piano at the head of the artistic pianos of the world."

Today the Baldwin is hors concours, that is, out and above but not in competition with any other make of piano in the world.

We have a Baldwin Grand Piano in transit that will arrive in the next few days. We have not obligated ourselves to any one. Should you be interested we would be glad to have you call and talk the matter over. This is a rare instrument and one that cannot be had any moment desired.

HAL CHASE'S SUCCESSOR WHO IS PLANNING A GREAT GAME AT FIRST FOR THE N.Y. GIANTS. KELLY IS BATTING OVER 300...

George didn't have a fair chance to display his wares. As a fielder he has always been a phenom; but when he faced the major league pitchers he seemed to lose his batting eye completely.

When the season began the fans started on Kelly right where they left off last year. For some unaccountable reason he was not popular.

But now it's different. Kelly should develop into one of the best first sackers in the game.

CURLEY SMITH AND ANTON THE GREEK PRIMED FOR FIGHT

BOUT AT CAMEL A. C. BETWEEN CURLEY SMITH AND ANTON THE GREEK WILL BE SLUGGING MATCH

Manager Al Edwards stated last night that everything was in readiness for tomorrow night's bout between Curley Smith and Anton the Greek at the Camel A. C. The fight is scheduled to last 12 rounds and the men will weigh in at about 180 pounds. There has been a dark house at the club for the past two weeks and tomorrow night's bout will be the last that will be staged indoors for some time to come.

Edwards feels so sure that every fan will be satisfied with the scrap that he has a "money-back guarantee" attached to every ticket purchased. The loss of the fight has been plainly shown in all the previous bouts that they wanted to see some slugging and that is just what they're going to see tomorrow night, according to Edwards.

Both men have plenty of steam and know how to use it. Anton has been working out at the club for over a week and he has had a hard time getting any one to put on the gloves with him for a workout, owing to the terrific wallop which he packs in either mitt. The Greek has not done any overworking to speak of in this section of the country, but he left a trail of victories in back of him in the east that does not augur well for Smith.

Smith is one of those birds who knows nothing but fight. He mistakes up from start to finish and the more furious the battle, the better he likes it. He had not arrived up to a late hour last night, but Edwards has received word from him that he is on his way. Smith has been doing a lot of fighting recently and is in the pink of condition. He has won most of his battles via the K. O. route, but his opposition tomorrow night will outclass anything he has ever before met.

Tam Ewing, who won his bout in 12 rounds in Electric Friday night, will be one of the principals in the semi-final. His opponent has not been named yet, but it will be some one worthy of Tam. Ewing has met a lot of the younger scrappers since Manager Edwards took him under his wing and his improvement has been very marked.

The bouts will be held at Athletic Park every week after tomorrow night's fracas. Edwards decided that it would be too hot to stage any more bouts indoors, and after due deliberation he was finally granted permission by the authorities to stage his bouts at Athletic Park.

WINNER OF FULTON AND WILL CLASH TO GET CRACK AT TITLE

When Harry Willis, the New Orleans negro heavyweight, and Fred Fulton meet tomorrow night in their 12-round bout in Newark, N. J., it will be the first important heavyweight inter-racial bout since Jess Willard whipped Jack Johnson for the championship in Havana in April, 1915.

Tomorrow's contest is not to be a championship affair, but since Jack Dempsey has declared that he will meet the winner of the fight regardless of color, the event assumes more importance than the ordinary squabble between big men of title caliber. It means that a dusky scrapper may again get a chance at the white title and the old question of race supremacy revived, a theme of endless interest to the fight world.

Aside from the prospective championship flavor, the caliber of the rivals is such that many persons figure the contest to be between the candidates best fitted to oppose the champion for the title—and this goes for Carpenter and all others.

For years Fulton has been the only white heavyweight with courage enough to face the black dreadnought, Sam Langford. And as for Willis, he took on the toughest of the heavy-weight members of his own race, McVey, Langford and Jennette—and climbed to the point where he stopped or defeated all these members of the original black dynasty.

Fulton's willingness to meet anybody, his uphill victory over Cowler when seemingly beaten, his readiness to take on a second time a fighter who made a good showing on the first occasion, and his almost inevitable success in his return engagements leads one to believe that insubordination against his courage were altogether unfounded.

The fight is supposed to go 12 rounds, if it goes the scheduled limit, and there is every reason to believe that it will be the battle of the heavyweight class, for some months to come.

PLUCKY DILLARD WINS RACE AFTER ACCIDENT

KALAMAZOO, MICH., July 24.—Plucky Dillard lived up to his name today in the wind up of Kalamazoo's 1919 harness race meeting. Although in the first heat of the 2:15 race he got into a mixup with E. J. L., throwing his driver Paul, running madly around the mile track, and crashing through the fence, when stable hands sought to catch him, he won the second and third heats and the race.

Patrick Todd was an easy winner in the 2:18 trot, while MacArthur took the 2:18 pace.

ANTON THE GREEK

NAT. GUARD RIFLE TEAM ANNOUNCED

AUSTIN, July 24.—Personnel of the Texas national guard rifle team, and the team made up of Texas students attending the reserve officers training camp at Camp Jackson, South Carolina, to represent Texas at the national matches at Camp Perry, Ohio, August 1-25, were announced today by the adjutant general's department.

Following is the list of national guard team: Major Roy E. Blount, captain; Houston; Captain, H. B. Eckerman, San Antonio; Lieutenant, Walter Behrens, Dallas; Lieutenant, Anderson H. Norton, Fort Worth; Lieutenant, E. A. Soule, Houston; Lieutenant, Roy L. Phares, Houston; D. C. Littlepage, Dallas; J. D. Manning, San Antonio; Henry Crowell, San Antonio; Ira Curtis, Houston; Elgin Hinkley, San Antonio; W. W. Cox, Smithville; J. C. Wagstaff, Alpine; H. B. Willard, Fort Arthur; W. A. Jennings, El Paso; A. Wurzbach, Chitt. A. W. Norton, Dallas; J. E. Williams, Dallas; R. L. Thomas, Marfa; T. L. Park, Dallas; H. C. Glase, Goliad; A. E. Hartley, Laredo; H. C. Simon, Converse, and J. R. Mount, Dallas.

NAVY WILL REPRESENT U. S. IN OLYMPIC ROWING REGATTA

WORCESTER, MASS., July 24.—The navy will represent the United States in the rowing regatta of the seventh Olympiad at Antwerp. The variety crew of the naval academy, competing against the best college and club regattas of the country today in the Olympic tryouts and national championship regatta defeated crews of Syracuse University and Duluth Boat Club, which finished in that order.

"Jack" Kelly, again national champion in single sculls, who, paired with a double scull, Paul V. Costello, gained a double claim to Olympic honors, by winning the senior doubles title. The Philadelphia Barge Club quartet of Philadelphia gained a place in the Olympiad by defeating Duluth Boat Club's best four and the century quartet of St. Louis.

Sport Shots

By Paul W. Larkin

Don't forget that tomorrow's game at the Alameda is at 2:30, not 4:30.

Umpires Barnes and Cunningham were in hot water all during the game yesterday. When a Santos roofer will admit that the Spudders received the worst of it, it must be so. The operator in San Antonio repeatedly wired that the arbiters were missing them right and left.

Bill Fincher never in better form than he was yesterday. The Spudders were retired in order in 7 of the 9 innings.

Johany Mekan may not be leading the league in batting, but he surpasses them all when it comes to delivering in a pinch. He has knocked in more runs than any other player in the circuit. Go gets 'em when they count.

E. O. Harvey, one of the Wichita Club moguls stated that no stone will be left unturned to have the last Spudder-Marine game played here thrown out. He has an ace in the hole that may surprise a lot of the boys in the near future.

R. O. Harvey, one of the Wichita Club moguls stated that no stone will be left unturned to have the last Spudder-Marine game played here thrown out. He has an ace in the hole that may surprise a lot of the boys in the near future.

"Babe" Ruth got his customary excursion bag yesterday, but it was his error that paved the way for the Indians' victory. However, he's won more single handed than he'll lose the same way.

Those who wanted to bet that Ruth would get 40 circuit outs at the beginning of the season were given the merry laugh in the majority of instances. Wonder who's laughing now.

In no field of endeavor is the story of triumph so short lived as in the realm of baseball. The wonderful achievements of today are forgotten tomorrow. For example, consider Larry Doyle, Ed Walsh, Chief Bender, "Three Fingers" Brown, and scores of others.

Doyle, once the idol of the Polo Grounds, is now warning the bench, forgotten by the fans. Walsh and Bender, two of the greatest pitchers who ever faced batmen, are still bucking one another in the little old New England League, forgotten by most fans. Hordecal Brown is still hoisting them over out around Terre Haute, but only his cunning remains of the effectiveness that was once his.

Even the Peerless Ty is fading from the picture. Only last year Ty was the magnet of attraction whenever the Tigers played. Now his name is seldom mentioned or seen. Injuries have slowed him up to an alarming degree and "Babe" Ruth has taken his place.

FINAL CUP RACE WILL BE HELD MONDAY

SANDY HOOK, July 24.—Possession of sloop America's yachting trophy still hung in the balance tonight, the fifth and deciding race of the 1920 regatta between defender Resolute and the British challenger, Shamrock IV, having been called off today in the face of a 25 mile southwester. The final race is to be held Monday.

Today's postponement came as a bitter surprise to a great holiday crowd. The racing skippers obviously considered discretion was the better part of valor, however.

Today's was the second postponement because of heavy weather in the history of the contests.

Today's race was called off by the regatta committee because of the fear that there might be loss of life among the crew of the challenging yacht.

This explanation was given to Sir Thomas Lipton by Captain Burton and Yachting Master Duncan Neil, when they were called to the Victoria after the challenger had been returned to her moorings.

"It was with the consent of the skippers of the two yachts," Sir Thomas said, "I believed it was ideal weather for Shamrock to show what was in her. Since talking with Captain Burton and Colonel Neil, I believe however, that the right thing was done. I must add, however, that there was no suggestion from Shamrock that the race be called off."

A miniature yacht, a model of Shamrock, built of tea roses, with Sir Thomas' picture bedded in the main-sail, was delivered when the yacht came up to her moorings. This was followed by a big black tom cat, bedecked with green ribbon; the mascot, according to the donor, having a long

standing reputation of bringing good fortune.

"Tom" however, proved to be a poor sailor and was reported seasick within an hour.

"We will sail again Monday, unless plans are changed," Sir Thomas said. "I feel I am going to win, and I have made up my mind to not let the cup exhibition in the British museum for a month."

TEXHOMA TAKE TWIN BILL FROM THE FIRST NATIONALS

For the first time this year, the Texhoma Oil & Refining Co. took both games of a double-header Saturday, their opponents being the First National bank team. The game were played on the Texhoma's field and were good exhibitions. The First National's were criticized by the fans for their star pitcher, and a number of their other players being out of town. They put up a game fight, however, and should be commended for their good playing under adverse circumstances.

The first game was featured by the consistent hitting and fielding of the Texhoma team. All members of the team hit the ball when hits meant runs which accounts for the big lead in the second inning and which they held throughout the game.

The First National's came back strong in the second game but the breaks were against them. Dixon's curves were too much for them and being unable to hit in the pinches led the game for them.

Score by Innings: R H E
Texhoma 051 211 0-10 15 2
First National .002 210 0- 3 9 2
Batteries: Texhoma, Stempel and Foster; F. National, Black and Kubacki.
First National 040 80-1 4-1
Texhoma 020 80-2 3 4
Batteries: F. National, Kubacki and Nolen; Texhoma, Dixon and Potts.

WE are prepared for a nominal monthly rental to purchase or lease the properties of out of town owners or superintend the drilling of wells. Saving managers. Our association has had 25 years experience in developing and operating production on the best of the state. We have the exclusive right to lease 400 acres adjoining and near the wells of Dean. At least 8 wells drilling within four miles of this acreage. Also within four miles of the producing gas and oil field of Peoria and Dean. Several of the wells near our acreage are down to the depth at which production is found in that section, and a mechanical development is being made on any day. It would be too late to buy these leases when the newspapers announce the leasing in one of these wells. You can buy it now for one-twentieth of what it will be worth then and even if all the wells are shut in, you should still be able to produce there. Also, several more acres which will greatly enhance lease value. For further particulars inquire Hal Halley, 202 Lamar-st., Phone 6113, 72-1ip

202 acres acreage production well equipped, five days test, 450 bbl. Five acres, 400 bbl. production. \$450 bid. A. Day, 72-1ip

COTTON MARKET

New York Cotton

NEW YORK, July 24.—Throughout most of Saturday's session of the cotton market, a steady undertone prevailed with prices higher, showing at one time a net advance of 17 to 19 points when October sold up to 23.15; December 21.50 and January 20.70. This steadiness continued until the last few minutes when active realizing brought a setback that left the market finally easy in tone with prices 12 points higher to 15 points lower, October closing at 22.02, December 22.19 and January 20.57.

The opening was steady with first sales ten points lower to ten higher, but steady demand covered shorts for the week-end, together with little new buying promoted considerable strength and the tendency was upward until just before the close.

Cotton goods market continued very quiet with most sales and a big curtailment at Fall River while bearish expectations as to the next government report encouraged by a condition figure of 75.3 by a local house which estimated condition a month ago at 67.1.

New Orleans Cotton

NEW ORLEANS, July 24.—An irregular and unsteady market prevailed in cotton today with prices attaining moderate levels at any time and the stock being up to 8 down net for the day. October traded down to 32.98 and up to 32.41, which represented the extreme range of the market.

Overnight selling orders had to be contained with the opening and the market was not so active as it had been. Russia and Poland had come to an agreement for an armistice, which greatly influenced the market.

The weather map was considered favorable, indicating little rain in the belt. On the other hand, the buying movement, which started on political news was checked by a private bureau report on condition of 75.3, indicating a crop of 12,500,000 bales.

Chicago Grain

CHICAGO, July 24.—The drop in temperature overnight, coupled with a wind from the northwest, caused a decline in the market for outside points due to last night's windstorm and the lack of buying pressure during the day. October wheat showed a net loss of 1 1/2 to 2 1/2 with December 22.02 and March 22.60. Corn was 1-1/2 to 2-1/4 up yesterday's close while oats were 1/2 to 1/4 up to 2 1/4. Provisions varied from last night's figures to 2c to 1c.

Wheat displayed a heavy undertone throughout the session. There was a tendency for sellers to outside points in excess of requirements and export demand was lacking. Reports from Russia that conditions there for agriculture were favorable also had a bearing on the market.

Drop in temperature, it was said, will prevent the spread of black rust which was reported in the northwest.

Corn and oats suffered material recessions in sympathy with wheat.

Kansas City Grain

KANSAS CITY, July 24.—Wheat unchanged and steady. At the Churches

First Christian Church.
Tenth at Travis.—Bible school at 10:45 a. m. John W. Bradley will speak at this service, and it will be worth listening to. P. S. C. M. at 7:00 p. m. Evening worship at 8:30, jointly with the First M. E. Church, South, in our building. Mr. Knickerbocker will have another of his interesting and inspiring messages for us, and he says you must come early to get a seat. The church is thoroughly ventilated, well equipped with electric fans, and the services are all as brief as they consistently can be. We have a special welcome for you if you are a visitor in the city. It's the first church on the right as you go up Tenth street.
J. LEM KEEVIL, Minister.

First Presbyterian Church.
Miss Veale will sing at both services and the male quartette will give special numbers. The subject of the pastor's morning sermon will be: "Leaving Your Country." At night: "Who Will Be Saved?"
N. P. GRAPTON, Pastor.

The First Baptist Church.
The Rev. O. L. Powers will preach at both hours in pulpit tomorrow before leaving for his vacation at Wallace, N. C. Mr. Powers will spend some weeks with his family at his old home and then he will leave for Winona Lake Bible Conference before returning to take up his work in Wichita Falls. His subject at the morning hour will be, "The Face of Christ." At the evening hour he will speak on that old text, "By the Grace of God I am What I am." The church has recently elected Rev. W. C. Ashford to become his assistant and he will conduct the services during the absence of the pastor. Mr. Ashford is a splendid speaker and a fine young man. The

congregation has heard him and will be glad to hear him during the month of August. It is the motto of this church to keep open houses every month in the year. Mr. Wray is delighting us with his singing and will sing at both services tomorrow. The sermons will be short and earnest and the public is cordially invited to attend.
O. L. POWERS, Pastor.

Floral Heights Methodist Church.
Try attending every service. Under the new plan none of the services are long. The tabernacle is ideal for summer services. We have a thoroughly efficient Sunday school. Our League has in it some of the finest young people in the city. Why not join in with them. All services are free and easy, and you will be glad you came.
W. L. TITTLE, Pastor.

New Thought.
You are cordially invited to the New Thought services every Sunday afternoon 2:30 and Wednesday evening 8:30. Subject, "Body and Thought Are One." Place, 704 Travis street.

The Free Methodist Church.
Corner Fifth and Adams.—Regular services: Sunday school 9:45 a. m. Preaching services 11:30 a. m. and 8:30 p. m. Sunday. Prayer meeting 8:30 p. m. Wednesday. The cottage prayer meetings will be discontinued for the present on account of smallness and other sickness. Rev. D. C. Nichols, a Salvationist, will preach for us Sunday evening. Come and hear him. It will do you good, and a hearty welcome awaits you. You are never a stranger at this church.
REV. J. L. MANEN, Pastor.

Central Presbyterian Church.
Eleventh and Bluff.—The pastor will preach Sunday morning at 11:00 o'clock, and in the evening at 8:15. There will be a congregational meeting at the close of the morning service, for the purpose of electing two de-

The World's Worthy Toilet Goods

cons. Sunday school will begin promptly at 9:45. We have made many additions to our Sunday school equipment this week, and are better prepared than ever before to take care of increased attendance. Junior Endeavor will meet at 8:30 p. m. Senior Endeavor will meet at 7:15 p. m. At 7:50 p. m. our Mexican Mission Sunday school will meet. Visitors at our church are always guests, not strangers.
GUY DAVIS, Pastor.

Floral Heights Epworth League.
The Epworth League of the Floral Heights Methodist church starts promptly at 7:15 Sunday evening, under the tabernacle at Tenth and Denver. The program is under the supervision of Rev. Mr. Garrett of the first department of the league, and will be interesting as well as instructive.

Trinity Lutheran Church.
Corner Fourteenth and Bluff streets. Sunday school an hour before morning service, which begins at 10:30.

First M. E. Church.
Corner Seventh and Lamar.—Sunday school regular time, 9:45 a. m. Superintendent primary department, Mrs. H. A. Lyle; superintendent Sunday school, Mr. C. O. Simmons. Preaching services 11:30 o'clock a. m. by Dr. Tarrington, from Oklahoma City. Evening services begin with Epworth League at 7:00 p. m., led by a new leader. Preaching services at 8:00 p. m. by Dr. Tarrington. Plenty of tea water and fans to keep you cool. Cordial invitation given to all to attend our services.
Have you a saving account with the Security National Bank?
New barrel of choice Hill Pickles at Bon Ton Grocery.

This service will be mostly conducted in English. No English night service, as the pastor preaches at Seymour. Choir practices after morning services. A cordial invitation is extended to all to worship with us.
W. UTESCH, Pastor.

OUR PRIDE

We have been two months in our new quarters. We are proud of our handsome banking room, but we are prouder of what our friends say about the "atmosphere" of this bank.
We have been frequently told that a home-like friendly feeling pervades this institution. We constantly aim to give the most efficient and courteous service to our patrons.
Our steady and rapid growth is due to our satisfied customers speaking well of us to their friends.

THIS HAS ABSOLUTELY NOTHING TO DO WITH OIL

We take pleasure in offering to our clients and the investing public a most unusual issue of securities.

An issue of \$200,000 7% Cumulative Preferred Shares. Amply secured. Guaranteed to be retired at par with interest on or before three years.

With each share of Preferred, a bonus of two-thirds of a share of Common shares.

These Common Shares will, in our opinion, earn at least 100% per annum.

The issuing company is thoroughly sound financially and in the hands of able, experienced and conscientious business men.

The company must have this money to make necessary improvements and to purchase a further supply of raw materials.

THE TIMES WOMAN'S PAGE A SUMMARY

News and Reviews

WHAT EVERY WOMAN ASKS

By JANE DIXON

After the day is finished, when it is all over and done—the clothes, the work, the play, the associates—what then?

Where will I go when I go home? Here is a question as inevitable as that the sun must come up out of the East and go down in the West.

There comes a moment when the veriest of peacocks, the most persistent pleasure seeker, the steadiest worker, the best of friends must draw the veil over the drama of the day and go to rest.

Nature demands her period of relaxation, of sleep. To deny Nature her own is to incur the enmity of the great and all powerful physician, without which no man, nor woman, may ride to aught but dissolution and oblivion.

When an automobile ceases to function we take it to a service shop and see that the worn, the impaired part is replaced.

When the human machine develops kinks in its cylinders from steady usage, wise motorists among us park ourselves in the service station of nature, and we drive out of the garage, the next morning fit for the eventualities of another day.

Where Does Girl Live? If you were a young man, thinking seriously of risking my happiness in the uncertain matrimonial gamble, I would make it my business to discover where a girl lives before I played the first card.

Not in what part or section of the city she lives, nor yet in what contour of house. Externals, as always, mean less than nothing in the equation of home.

There is many a novel of uncleanliness, of malcontent and misery on the avenue of marble houses and millionaires.

Likewise, is there many a castle shining bright, vibrant with joy and lovely as it is beloved in the area of ashcan and tumbled tenements.

By any one of these three methods, or by another medium of exchange or acquisition, we may find ourselves in possession of a place in which to stay, but this is as far from the real meaning of the word home as a boarding house is from the kind that mother used to make.

Whenever I meet a girl who wants to go anywhere in town except home I know one of two things is all wrong—either the home or the girl. A young man told me no long ago:

"Yes," I urged, "and then what do you do?" "I make it my business to find out which and why," was the answer. "If it is the home and the girl is helpless, she surely has my sympathy. I am for her all the way through. If it is the girl, I drop her. A girl who has no instinct, no use for a comfortable home, even though it is a one room two by four, is no good to a young fellow who wants to camp out these days. I wouldn't waste my time on her sort."

Can you not see them, the ships that pass in the night? Jewels—My Sham. There is some cheap intolerable—hall room, back, and deposits—several hundred dollars worth of fur coat, a tidy fortune in gaudy jewelry, in the mark of this cherishing, no-hatter, of love, poor, blind, peacock!

As if the world was not wise to her silly sham. The world knows real jewels, surrounds themselves with chestiness, with wholesomeness, with decency, first, and bedeck themselves only after their environment is as well bred, clean minded, clear moralized souls must and will have.

Accept this as an invariable fact: If you wish to strike a high average before the world and the people in it, let your home represent the very best there is in.

Mecca for them all in leisure moments, why they hate to leave it and go to their own drab corner. Some man is going to be a mighty lucky chap when he claims Margaret.

If you have not given much thought to the place you call home, do not wait for the New Year to make new resolutions. Forswear that extra frock and expend the money on something "soomy," something attractive for your living quarters. Then note the brightening effect such acquisition has on your spirits.

When the day is done, see to it that you go home, not merely some place where you hang your hat.

Remembering always—where a woman lives is a measure before the world of the metal of the woman.

I HAVE GROWN TIRED OF A TREE. By THEODOSSIA GARRISON. Decoration by H. Devitt Welsh. I have a mountain weary me As might some guest who stays too long.

After the feasting and the song; But I have never tired at all Of mountains made of brick and stone, Raised by the hands of man alone.

I have been weary by the sea, But never weary by the land. Day-long against the city streets; Better than gardens Spring-endowed, Each with its history that lies Clear-writ between the mouth and eyes.

God made some lives for silent places, And some for tumult and men's faces, And some find peace in flower and herb, And some on a crowded city curb.

Miss Garrison's tree poem—though it is no more about trees than the mountain of the sea—will call to some might Joyce Kilmer's beautiful tree poem. They are at some variance, but both make good reading, and both are true.

The June Delinquent has a page of interesting "Romance" verses by such poets as Hester Le Gallienne, Arthur Guitman, David Morton, Marguerite Wilkerson and Mary Carolyn Davies. It is a good page, for those who love good poetry.

Edgar Guest, whose birthday came in this month, and who enjoys some popularity as a newspaper poet, has a pretty fair poem in the July Cosmopolitan.

WOMEN TOOK MUCH INTEREST IN DEMOCRATIC PRIMARY SATURDAY. The women citizens of Wichita Falls were evidencing much interest throughout the day Saturday in the outcome of the balloting, and while no figures were obtainable on the poll receipts bought by them earlier in the year, the indications early Saturday morning were for a fairly heavy women's vote.

Some of the prominent women citizens who were early at the polls included Mrs. Charles Hartook, Mrs. W. W. Silk, Mrs. C. W. Snider, Mrs. M. H. G. Green, Mrs. J. A. Kemp, Mrs. Charles F. Spencer, Mrs. J. E. A. Guest, Mrs. R. L. Fain, Mrs. J. W. Akin, and a score of others. The women apparently selected no particular part of the day, but were present in the polling places at all hours.

There was some discussion of the various candidates, but the electioneering distance rule was apparently strictly observed. There were women officers of the election in the various polls, though the chairmen were men, and it was expected that there would be some "un-attended" on their "breaking in," early in the day.

As a rule, the "newest citizens" had their minds pretty well made up about the ticket, and very little indecision was indicated. In making out the ballot some technical questions were asked, but the men and women broke about "50-50" on that score.

NOT FROM SING-SING—FROM NANTASKET BEACH

THE OLD RENDEZVOUS. By Bernice Brown. Alone I've come across the meadow, And there in April in the air, Beneath the elder clump bloom violets.

I never saw the world so fair! The woodland breeze is full of secrets, For spring has touched the place. Why must I close my eyes to beauty And strain to see your face?

T. A. HAS A STEADY HEAD—JUST NATCHELLY NEEDS IT. The Y. W. Teachers' Aid has a steady head. She has to have, if it ever started going 'round and 'round when one of those Burk Burnett trains come in going out.

"I'm trying to locate my brother. He sent for me to come to keep house for him in Burk Burnett, and I left a few days earlier than I meant to. I meant to try to telegraph him, but seems like I just didn't find time."

"No, he's out at Burk Burnett now. I'll have to spend the night with a cousin of his wife—she's dead, but he lives here in this town—the cousin, I mean."

"Yes, his name's Kennedy. He works in a garage here, but I don't know which one. I thought I could look it up in your telephone book, if you don't mind."

About three hours later one of the servicemen at depot had succeeded in locating Kennedy, who worked in a garage, who very cheerfully came around after his cousin's husband's sister.

Then Aunt Fanny came the other day to visit her great niece. She was a dear old white-haired lady, and had arrived ahead of after the day expected. The great niece's husband was a Mr. Morgan, and the great niece was named Smith before her marriage, and her father used to keep a cemetery. No, she'd rather not go out to that Mr. Morgan's, because when she got there, it might not be the right one, and she'd just have to come right back, and pay for the ride for nothing!

The right Mr. Morgan, whose wife's name was Smith and whose father used to keep a cemetery, was finally located.

ENGAGEMENT ANNOUNCED: WEDDING TO BE IN AUGUST. The engagement of Bruce Winkworth and Miss Dorothy Kriba, both well known young people of Wichita Falls, was announced recently. The marriage is to take place in August at the Church of the Good Shepherd, it is stated.

Miss Kriba is a daughter of the Rev. Mr. and Mrs. Larsen, former residents of Wichita Falls. When Mr. Larsen was rector of the Episcopal church, Mr. Winkworth is from Detroit, and is engaged in the production of the oil business. He is a University of Michigan graduate, and was in the aviation service during the war.

OPEN HOUSE AT GOLF CLUB SATURDAY NIGHT. Members and out of town guests enjoyed dancing and cards at the Golf and Country Club Saturday night, on the occasion of the fortnightly open-house.

Hostesses for the evening and for the next two weeks were: Mesdames C. E. McCutcheon, Charles Anderson, Charles F. Spencer, Richard Bailey and Walter Nelson.

The women members of the club are very much interested in the ladies tournament which is to be held Wednesday, July 28, and a number have entered for the different events. Prizes are offered.

"REAL" BANQUET FOR BOY SCOUTS OF TROOP FOUR. The Boy Scouts of troop four were complimented with a real banquet Friday evening, following their regular business meeting in the basement of the First Christian church.

The ladies of the church served the banquet, in the form of a chicken dinner, with all of the delicacies necessarily attendant upon such a piece of resistance. A short informal toast program was carried out, with R. E. Shepherd acting as toastmaster, and various scoutmasters responding to the toasts. Guests included the boys' fathers and mothers, visiting scoutmasters and a few others.

The boys and their guests enjoyed the occasion immensely.

LOCAL TALENT FOR THE BENEFIT MINSTREL THIS WEEK

All local talent will take part in the benefit minstrel to be given on Wednesday—the Cabaret Minstrel Revue, and the entertainment promises some interesting features, from the cast of characters.

The dramatic personae include: Mrs. Mianie O'Quinn, Miss Tillie May Schaefer, Ellis Clark, Celestine McLean, Aline Taylor, Elizabeth Spillmer, Marie Dobson and Gertrude Friedly; Messrs. George Hodgins, Will Tolbert, George Taylor, Ivan Marchison, W. B. Richardson, Van Allman, Milton Gains, John A. Daper, Bert O'Quinn, E. M. Mann, "Fattie" Bowles and Robert Goodfellow.

IRVING LESLIE HUMPHREY JR. CELEBRATES SIXTH BIRTHDAY. Mrs. Leslie Humphrey of 1808 Rose avenue invited about a score of the little friends of Irving Leslie Humphrey Jr. to help him celebrate his sixth birthday Friday afternoon.

A special honor guest at the party was little Miss Mary Hyatt, daughter of Mr. and Mrs. John R. Hyatt, whose sixth birthday also fell on Friday. After the children had played games and enjoyed the contests during the earlier part of the afternoon, they were invited into the dining room, where two birthday cakes, each with six dainty lighted candles occupied positions of honor on the dining table.

Ice cream and cake were served, and the following little guests wished Irving and Mary many happy returns of the day: Miss E. C. Boone, Jr., Mathilde Donnell, Bendonnell, Beasley Lee, James Maxwell, Frank Poister, Maurice Bullard, Vernon Bullard, Mary Hoffmann, Phoebe Jane Filgo, Dan White, Jack Spencer, W. S. Appling, Swendolyn Appling, George Napier and Eugene Napier.

SQUIRE WALKUP GOING TO SUNNY CALIFORNIA. Once upon a time, children, "Squire" J. W. Walkup was city clerk of Wichita Falls. He drafted city ordinances; he issued various permits; he kept the minutes of the city council meetings, and he otherwise comported himself as city clerks usually do.

On this beautiful Sunday afternoon, sharp at 2:15 o'clock the Squire will take his handbag and his brilliant gray moustache on board a train, will wave his gaunt hand in farewell and will depart for Southern California. As to the duration of his stay in the land of earthquakes and native sons, we can only quote from "Kathleen Mavourneen":

"It may be for years and it may be forever." The squire admitted Saturday that he intended to be gone not a day less than six months, and if he had a good enough time he might never come back. He isn't going on business, because Squire Walkup has no business except to produce annually the preliminary report for the city, in brief, the squire is going out to mingle with the cosmopolites, to forget that he has nine married children, and to add a little red paint to Los Angeles. May he shed his duty, and blossom forth in a Panama lid with a pink band, say we!

And this little tale, children, teaches us that life is not necessarily a bed of thorns and that it is a short leap from city clerk to city alderman. (The foregoing was "cooped" bodily from the city desk by the W. P. E., who knows a good item when he sees it, if they are scarce.)

Savings funds on deposit with the City National Bank of Commerce earn interest at the rate of 4 per cent, compounded semi-annually. Thousands of residents of Wichita Falls consider their savings funds with this bank one of the safest possible investments.

SHOWER NETS DAY NURSERY EQUIPMENT AND \$25 CASH

The Day Nursery Kitchen shower was a very successful event, and netted the kitchen a number of badly needed articles of equipment, and the treasury \$25 cash.

The \$25 came with a note from Mrs. R. O. Harvey of 1631 Tenth street, who was unable to attend the kitchen shower, but sent the check to help out.

"We are mighty glad to get it," Miss Decatur, the nurse in charge, said, "and mighty glad to get the kitchen things."

The kitchen has most everything now but enough dish towels and a can opener—which last is promised.

SIXTEEN BABIES HOUSED AT DAY NURSERY SATURDAY

Sixteen babies were "at home" at the Wichita Falls day nursery Saturday. Two of the children were left for the day only by their mother, who is moving from the country into town.

Two others are the two wards of Miss Hendrickle, who expected to leave with them Saturday afternoon for the Port Worth children's home.

The children are contented and happy at the nursery, under the excellent care of Miss Decatur. Some additional consignments of toys have been received from mothers and children interested in the babies, and work is progressing on the setting up and arranging of playground equipment in the back yard.

PRESBYTERIAN WOMEN'S AUXILIARY SOCIAL MONDAY

Mesdames F. H. Johnson and D. J. Grove are to be joint hostesses to the members of the Women's Auxiliary of the Central Presbyterian church Monday afternoon at 4 o'clock at the home of Mrs. Johnson, 1804 Taylor street.

There is to be a social meeting, and the ladies of the church are invited.

WATERMELON FEAST AT CANYON PARK FOR LEAGUERS

Eighty members of the Floral Heights Epworth League enjoyed a big watermelon feast and picnic at Canyon park Friday evening, meeting at the tabernacle and going out in two big hay trucks and 10 or 12 autos.

Outdoor games were entered into by the whole crowd, and iced watermelon was served on the tables.

The Floral Heights Leaguers have had picnics, hayrides, or melon feasts every week or two this summer, and it was stated Saturday that the entertainment committee had provided some entertainment for every second Saturday throughout the hot weather.

NO SUMMER SESSION OF FEDERAL COURT HERE

The summer session of federal court scheduled to have been held in Wichita Falls in August will not be conducted and there will be no term of federal court before November.

It was announced Saturday by United States Commissioner J. A. Lantz. It is expected that at least 50 cases will be examined by the federal grand jury to be impaneled here in November.

Personal Mention

Mr. and Mrs. John W. Orsail and son, John Jr., of 1812 Tenth street are leaving Sunday for Colorado and California, motoring through in their car. They expect to be away about two months.

Mr. and Mrs. O. W. Smith and family at 1109 Denver, Fred T. Couper Jr., 1813 Ninth street, and Mrs. W. C. Lovelace, 2603 Ninth street, left Thursday afternoon for St. Louis and Washington to spend the remainder of the summer.

Dr. and Mrs. M. M. Walker left Friday for Colorado Springs. Dr. Walker for a brief stay and Mrs. Walker to spend several weeks.

N. M. Martin and son left Friday for Colorado. Little Misses Annabelle and Elizabeth Cooper returned Thursday from a two weeks' visit in Fort Worth, accompanied by Miss Kathryn Getz, teacher at the school, who will spend a week or two with them at the home of Mr. and Mrs. Fred Cooper.

C. V. Daniels came in today, having driven through from Colorado Springs, Texas, where he will spend a week or two with them at the home of Mr. and Mrs. Fred Cooper.

Miss Ava Lucille Vernon has returned from Cisco, Tex., where she spent the last month. Miss Vernon and her aunt, Mrs. A. C. Green, leave next Friday for Colorado Springs and other points, to be gone all summer.

Dr. and Mrs. L. B. Amason of 1607 Eleventh street have left for their ranch near Channing, Texas, and from there will go to points in New Mexico and Colorado.

Mr. and Mrs. Egbert Hardin of 1809 Eleventh street left Tuesday of last week for Colorado on a fishing and hunting trip. They will be away until the first of September.

Mr. and Mrs. J. T. B. Green of 1811 Eleventh street and Mrs. W. F. Stokes and Mrs. J. P. Meredith of 1605 Eleventh street leave Monday in their car for the Osark Mountains, expecting to be away until about the middle of September.

BIG CROWD AT Y. W. C. A. CAMP TODAY—SEVERAL CARS OUT SATURDAY

A big crowd of girls and young women, as well as most of the officials of the Y. W. C. A. locally, went out for either the week-end or the day Sunday at the Y. W. camp this week.

Several cars of girls were taken out Saturday evening, and more went out Sunday for the day. The young women are enjoying the big pool immensely, and the outdoor games and other entertainment informally provided.

MOTION PICTURES

PRISCILLA DEAN IN VIRGIN OF STAMBOULE

Van Loan Picture of the Wickedest City in World in Film Drama.

After an absence of nearly a year Priscilla Dean has returned to the silver screen and is making her first appearance in "The Virgin of Stamboul" which is the attraction at the Olympic on Monday, Tuesday and Wednesday of this week. "The Virgin of Stamboul" was written by H. H. Van Loan and in it he endeavored to paint a picture of the "wickedest city in the world." The director of the play followed the story faithfully and reproduced the word painting in living, breathing scenes. Vast cities were built for the production, famous landmarks were reproduced with marvelous realism, the great Arabian desert filmed for many scenes in the story and thousands of men, women and children used for atmospheric effect.

Miss Dean plays a role of an untamed desert girl who escapes out an assistance by singing and dancing in the streets, plying her trade to the last. From beginning to end the story is one succession of dynamic situations, exciting incidents and thrilling effects, surpassing anything which this popular star has ever before presented. A strong supporting cast composed of Wallace Berry, Wheeler Quinn, Eugene Ford and Edward Burns assists Miss Dean in the play and with this company together with the marvelous scenery produce a play that is a masterpiece.

FILM VERSION OF FAMOUS MELODRAMA

"The Sporting Duchess," which will be shown at the Majestic theater Monday and Tuesday of this week was first written as a spectacular melodrama and is produced at the Drury Lane theater in London. This theater is to London what the Hippodrome is to New York and is world renowned for the mammoth productions that have been seen there. Some of the most famous of the Drury Lane melodramas have been brought to this country and staged in the larger playhouses here and it was through this that "The Sporting Duchess" first introduced to the American public.

This play created a furore in New York a score of years ago, when Rose Coghlan appeared in the title role and ran for months at a time. It was because of its immense proportions and expense the play was not taken on the road and until introduction of motion pictures was it possible for those outside of New York to witness the production. A film version, which is said to be even greater than the play, has now been made with Alice Joyce in the title role and it is that in the presented in the movie houses throughout the land. "The Sporting Duchess" is a play that defies description and to see it is the only satisfactory way of appreciating the merits of the story.

PLAZA IS OFFERING AN ATTRACTIVE BILL

The Plaza is offering an attractive bill for the coming week, showing no less than four popular stars in their latest pictures. Alice Brady, Gladys Brockwell, William J. Flynn and Beatrice Michaels are scheduled to appear in the order named and the pictures featuring each of these artists are reputed to be exceptionally fine.

In addition to the feature attractions, the Plaza is offering a serial story every Wednesday. This is a 15-episode Pathe production, starring Jack Dempsey and is entitled "Daredevil Jack." The story was filmed shortly after Dempsey's fiasco with Jess Willard and shows the champion pug in some herculean physical feats that have excited admiration and comment over the entire film world.

A good supporting bill of comedies and vaudeville are also offered at each film presentation.

Agnes Christine Johnston, the clever little scenarist who has written a great many of Charles Ray's Ince stories, became a June bride.

HOMER COMES HOME EMPRESS FEATURE

Ince Picture Featuring Charles Ray Will Be Shown Monday and Tuesday.

It has been popularly conceded for years that the greatest game indulged in by Americans is the game of baseball. But now a man of world-wide fame has come forward with the declaration that there is a pastime far more popular than baseball can ever hope to be. This man is Ellis Parker Butler, noted writer of humorous stories, and in place of baseball, he contends that "going home to the old home town" is an event in which more persons indulge and an event that furnishes more satisfaction to millions annually than the entire world of so-called sports.

This is at least a novel idea, but in support of the argument Thomas H. Ince has recently filmed a picture that bids fair to prove Butler's theory conclusively. The picture features Charles Ray, and is entitled "Homer Comes Home." It is the attraction at the Empress on Monday and Tuesday of this week.

The role of Homer is played by Mr. Ray, and played only as he can play it. In his youth Homer was a pronounced failure. He got fired from every position he ever held and finally after one unfortunate failure he was ordered to leave town. This was a rather unpromising start for a youngster, but a few years in the "city" worked wonders with the boy and he eventually embarks on a journey for the scenes of his childhood. Incidentally he has visited an up-to-date tailor and is toged out with all the latest things of fashion, so when his train stops at the old depot and the village fathers have recognized the debonair bean brummed and have been revived, things begin to happen. Homer is banqueted in pomp and splendor and is even prevailed upon to deliver the main address at the dedication of the new city hall.

Thus it appears that Homers "old homing" was a howling success and from a description of the picture we anticipate a splendid entertainment at its presentation.

Movie Calendar

- Olympic.**
Monday, Tuesday and Wednesday—Priscilla Dean in "The Virgin of Stamboul." "A St. John in 'Trouble'."
Thursday, Friday and Saturday—Norma Talmadge in "Yes or No." Mollie Malone comedy: Olympic Topical Review, Herbert Kaufman Weekly.
- Majestic.**
Monday and Tuesday—Alice Joyce in "The Sporting Duchess."
Wednesday and Thursday—Eugene O'Brien in "A Fool and His Money" Friday and Saturday—Elsin Hammerstein in "The Woman Game." Sunshine comedy "Ten Nights Without a Barroom."
- Plaza.**
All week—Gene Cobbs Honey Gals. Monday and Tuesday—Alice Brady in "The Indestructible Wife."
Wednesday—Beatrice Michaels in "Heart of Juanita."
Thursday—Gladys Brockwell in "Devil's Riddle."
Friday—William J. Flynn in "Kaldie Ruby." Frances McDonald in "Toys America."
Saturday—"Dimples and Danger," "Almost Married."
- Empress.**
Monday and Tuesday—Charles Ray in "Homer Comes Home." Pathe Review: Sunshine comedy.
Wednesday—Gladys Brockwell in "A Sister to Salome" comedy.
Thursday—William S. Hart in "The Cold Deck" comedy.
Friday and Saturday—Alice Brady in "The Dark Lantern." Fox news, Nolin comedy.
- Christina Pereda, the Spanish beauty supporting Geraldine Farrar in "The Woman and the Puppet," is said to be one of the most beautiful girls in Spain. Senorita Pereda came to America several years ago with the all-Spanish show "The Land of Joy."
- It looks as though Wanda Hawley is to remain a star, as she appears to have more than "made good" in her first starring vehicle "Miss Hobbs."
- Adele Hood, possibly the handsomest blond woman on the American stage, and who played the title role in "Everywoman" for four years, has been engaged to support Geraldine Farrar in "The Riddle Woman."

Priscilla Dean Stars in "Virgin of Stamboul" at the Olympic

Priscilla Dean in THE UNIVERSAL-JEWEL MASTER PRODUCTION "The Virgin of Stamboul."

PICTURE HOUSES HAVE BECOME OASIS OF COOLNESS IN A DESERT OF HEAT IN CITY

A universal diversion of the American public during the summer months is trying to keep cool, and the methods employed in attaining this end are as numerous and varied as there are ways of cooking eggs. Those who possess a bank roll of sufficient circumference to withstand the onslaughts of a few weeks at a summer resort have forsaken their winter habitations and sought relief in the cool and refreshing woods, at the northern lakes and streams, at the sea shores or in the mountains, but the number who find relief in this way are small in comparison with the vast throngs that are compelled by circumstance to remain at home during the sweltering days of June, July and August.

Unknowningly and unintentionally, the motion picture theatres have proven to be oases in the desert of heat of a modern city, and thousands pour into these places of amusement daily, not only to be entertained but to obtain relief from the scorching heat of their offices and homes. Movie managers have been quick to recognize this fact and as a result the theatres of today have been elaborately equipped with devices for insuring the comfort of patrons during the torrid periods of the summer, and many movie managers advertise truthfully, that their places of business are "the coolest spots in town."

With this inducement, added to films that are showing, it is no wonder that moving picture theatres are crowded to capacity during the warm months. The public is willing to pay for the privilege of keeping cool and enjoy-

ALICE JOYCE IN "SPORTING DUCHESS" AT MAJESTIC

Alice Joyce comes to the Majestic Monday and Tuesday in a screen adaptation of the famous Drury Lane melodrama, "The Sporting Duchess."

Miss Marion Davies, the star of Cosmopolitan films, will next enact Robert W. Chambers' delightful story, "The Restless Sex."

Olive Tell's first Metro picture has fairly taken the country by storm. It really looks as though some of the old stars had better look sharp, as Miss Tell is very beautiful and equally as talented.

Melene Chadwick was a former member of Ziegfeld Follies.

Mary Miles Minter's sister is Margaret Shelby.

REPUBLICANS WILL HAVE COUNTY TICKET

DELEGATES TO COUNTY CONVENTION TO MAKE NOMINATIONS. HOPE TO PROFIT BY QUARRELS OF DEMOCRATS

Smock, Bullington, Conn Bacon And Others Speak at Mass Convention. Emphasizing the intention to put a complete county ticket in the field, and declaring the belief that democratic dissatisfaction would make possible republican victories in many offices, local republicans from five city precincts met at the court house Saturday afternoon and named officers and delegates to the coming county convention. The convention will be held on Saturday of this week, at which time a nominating committee headed by Orville Bullington will represent Wichita Falls in presenting the names of possible candidates for county offices. Bullington and T. B. Smock started the republican fireworks with statements that "a good fighting chance all around" existed. O. R. Hart declared that many citizens are dissatisfied with a number of the democratic candidates and, in his opinion, will vote for "men of good repute regardless of party."

FORMAL INSTALLATION OF MASKAT TEMPLE WILL BE MADE IN WICHITA FALLS AUGUST 28

The date for the formal installation of Maskat Temple has been definitely fixed as August 28, according to E. M. Belcher, secretary of the Wichita Falls Shrine club. High officials, as well as bands and patrols, from Hella Temple in Dallas, and Bon Hur Temple in Austin, will attend the ceremony here and it is expected many hundreds of Shriners from other sections of the state will also be on hand to congratulate this city. A dance will be given by the Shrine Club on the evening of August 27. During the morning of the 28th the institutional ceremonies establishing the new temple will occur, while the afternoon and evening of that day will be given over to ceremonial exercises at the pavilion at Lake Wichita. The Shrine is anxious to start with as large a class of initiates as possible, and petitions have been prepared and may be obtained by Shriners from E. M. Belcher, at the Eighth street office of Lowry, Finch & Belcher in the basement of the Bob Waggoner building. Every Shriener in the city is urged to get in line as early as possible, between now and the date of the installation ceremonies.

Burkburnett News

Mrs. Annie Wray of Wichita Falls was in the city Monday in the interest of her professional work as a trained nurse. Mrs. R. P. Billingsley, the popular asset of the Johnson Bros. Dry Goods Co., is away during the ensuing fortnight for a vacation season, which she will spend among friends and relatives in Dallas, Fort Worth, Waxahatchie and Hillsboro. R. R. Huff of the Star force, enjoyed a happy reunion Sunday at his home in Wichita Falls. Among the guests were his sisters, Mrs. H. L. Lawrence of Oklahoma City and Mrs. May Carter of Carlisle, and also a brother, F. E. Huff of Wichita was present. The occasion was the celebration of a birthday among the sisters, and every one reports a happy home reunion. W. F. Billingsley, our editor chief, is spending the week with his wife and daughter in Sherman, Texas, and enjoying a season of much needed rest and vacation. J. M. Isbell of the Fisher-Gilliland lease, suffered the loss of a portion of his fore finger early Monday morning, while at work on a derrick. Amputation of the second joint was made. Robert Thorne spent several days visiting Breckenridge and other oil towns during the past week. Thursday afternoon the Ladies Missionary Society of the Methodist church of this city entertained with a special social session which was a success.

MEXICAN MILITARY CONFINE ACTIVITIES TO CIVIL RULE

MEXICO CITY, July 23.—Orders have been issued to General Guadalupe Sanchez, chief of operations in the Vera Cruz district, giving instructions that the military forces limit themselves to executing the rulings of the civil authorities and avoid abuses, says a government press bulletin tonight. General Arnulfo R. Gomez, chief of operations in Tamaulipas, has reported the routing of the rebel leader Manuel Larraga near San Jose del Pinto (Advice to the state department in Washington on July 20 told of the revolt of General Larraga, who with 500 men, was said to be operating about 75 miles west of Tampico.) The bulletin announces that the strikes in Tampico and other parts of the country have been settled. Boneless Chicken, Deviled Tongue, Lamb's Tongue, Ox Tongue, in glass, at Bon Tom Grocery. 71-2tc

OVER-EATING is the root of nearly all digestive ills. If your digestion is weak or out of kilter, better eat less and use KI-MOIDS

WOODMEN CIRCLE MEETING WEDNESDAY AT 8:00 O'CLOCK. An important business meeting of the Woodmen Circle, 1087, is to be held at the hall Wednesday afternoon at 8:00 o'clock, and all members are urged to be present. Have you a savings account with the Security National bank? 73-1tc

A MAN IS JUST AS YOUNG AND STRONG AS HIS BLOOD. No man can fight the battles of life and hold his own if his blood is not pure, for rich red blood is what strength is based upon. When you see a strong, vigorous man, who never knows when he is licked, you may wager that such a man has coursing through his veins rich, red blood. Many people have thin, pale blood. They are weak, tire easily, become discouraged quickly, and sometimes feel like giving up the struggle. Such folks need Dr. Pierce's Golden Medical Discovery, which is sold by druggists in liquid or tablet form.

It adds vigor to the heart beats and tones up the nerves in a wonderful way. This "Medical Discovery" of Dr. Pierce's is made from Blood root, Oregon Grape root, Stone root, contains no alcohol—yet tones up the stomach, stimulates the liver and puts the blood making glands in the best of condition. Many people write "Dr. Pierce at the Invalids' Hotel in Buffalo, N. Y., as follows: SAN ANGELO, TEXAS.—"Doctor Pierce's proprietary remedies have been entirely satisfactory to me in the truest sense of the word. I consider them as being very high-class remedies and the safest that I know of on the market. During the last score of years when we needed a tonic we have used the 'Golden Medical Discovery' always with satisfactory results, also the 'Pleasant Pellets.' My thanks to Dr. Pierce's prompts me to write my truthful sentiments."—O. R. WILSON.

Notice. The Wichita Encampment No. 4 meets the second and fourth Thursday nights of each month at the I. O. O. F. Hall. The Golden Rule and Royal Purple Degrees will be conferred to a large class the second Thursday night in August. All Patriarchs are urged to attend as business of importance is to be attended to. Visiting Patriarchs are cordially invited. L. E. WILSON. 73-1tc

The Security National bank has safety deposit boxes for rent. Prices reasonable. 73-1tc

Friends Amazed at Her Improvement," Says Mrs. Byers

"All my friends know and can tell you that for a long time I was almost a nervous wreck, and this Orgatone has made such a wonderful change in my condition that they are simply amazed at my improvement," said Mrs. Susie Byers, residing at 918 Alston avenue, Fort Worth, the other day. "For the last three years," she continued, "I had been in a terribly run-down condition and during that whole time hardly a day passed that I didn't suffer from awful headaches. I had no appetite at all and what I did force down would ferment in my stomach and distress me for hours. My nerves were so unstrung that after going to bed, any little sound, even the running of a newspaper, waked me with a start and it would be some time before I could drop off to sleep again. I had my housework to look after, and I was so weak and miserable I was forced to spend at least two days a week in bed. The fact is, loss of sleep and lack of nourishment had undermined my nervous system, and I was just wearing myself out. "We spent lots of money on medicines, doctors and treatments that did me no good, and I had about given up hope of ever getting well, then I began to read about the good Orgatone was going others right here in Fort Worth and I thought I might as well try it. Well, after the first bottle got me out of bed and I began to pick up right after starting on it, it surprised even me, for after experiences with other medicines I did not expect such quick results. My appetite is just fine—too fine, the way prices are now—for I feel hungry most all the time. My stomach doesn't worry me at all now, and I am rid of that terrible headache at last. Those awful spells of gas are all gone, too, which is a grand relief, besides, I sleep all night like a child and feel so strong and rested when I get up in the morning, that I don't mind at all the work I have to do in looking after my house. In fact, I did a large washing yesterday, which I hadn't been able to do in several months before taking Orgatone." Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol of any form and is sold in Wichita Falls by the Miller drug store, exclusively, under the personal direction of a special Orgatone representative.

Truth Is Our Best Salesman

We are telling our customers the truth when we say that we do not expect any radical price-drop during the year. No one connected with the shoe industry can expect to sell merchandise of quality cheaply until everything connected with the industry is reconstructed. This is impossible for quite some time to come. The savings we are offering you during our big Mystery Sale will be more than appreciated this Fall.

FORCES OF WORKMEN HAULED BY BUSESSES

Rubber Companies Of Akron Provided Transportation During Street Car Strike.

Twenty-two rubber companies in Akron confronted with problem of transporting 65,000 employees to and from work during the street car strike operated several hundred motor trucks on schedules that enabled them to move the large force of people without loss of time.

Trucks and buses owned by the Goodyear Tire and Rubber Co. hauled approximately 4,000 people during each of the shifts at 7:00 a. m., 3:30 p. m. and 12:00 o'clock midnight. In addition, they hauled the crowds from the general office and factory office at 4:30 p. m.

M. D. Scott, transportation engineer for Goodyear, divided the city into zones and routed the vehicles over the principal streets with dispatchers stationed at congested points to load the crowds and keep the trucks moving.

Each truck bore a sign indicating the route it traveled. They were parked near the factory by curb stone standards which also told the route it followed.

Drivers for all of these vehicles slept in Goodyear Hall near the factory during the strike. Extra crews kept the trucks in operation overnight.

The service maintained won the praise of all car riders as it was not restricted to company employees. It was estimated that Goodyear hauled 20,000 people a day in its vehicles during the strike.

One of the innovations of the strike was the use of the new Goodyear six-wheel motor vehicle. Equipped with a special street car body it is probably the largest motor bus in America.

The Empress theater is installing a typhoon cooling system in its rooms and the management announces that when completed the theater will be among the coolest and most comfortable in the city.

HARRY BAUM COMPANY OPEN GENTLEMEN'S WEAR SHOP IN KEMP HOTEL

The "Gents Furnishing" store is a thing of the past and the "Gentlemen's Wear Shop" has taken its place. The new store of Harry Baum company, in the new Kemp Hotel building, is a striking example of the new order of things. The show room is furnished in modern style, with large plate glass show windows opening into the big hotel lobby and handsome show windows on each side of the Eighth Street entrance. The fixtures are of highly polished English walnut, with panel doors, and every item of merchandise is enclosed, giving it absolute protection.

In the rear of the show room is a cozy corner, a big fire place, a luxurious leather-cushioned couch and an Italian renaissance table and chairs, as inviting to the tired customer as his favorite club.

Harry Baum company will handle a complete assortment of men's furnishings and women's line; ostery; the famous Gordon hose for men and the Onyx and Gordon brands for women, also Manhattan shirts and underwear, E. & W. and Arrow collars, Dundap hats and a large assortment of specially selected neckwear.

This store was opened too late in the season to handle men's clothing for summer, but will be ready in a short time to show a fine assortment of men's fall clothes.

Mr. Harry Baum, the proprietor of the new shop, states that neither he nor his firm are interested in any other store in Wichita Falls.

The City National Bank of Commerce offers special facilities for women having a special "ladies teller" for the exclusive accommodation of women depositors. This special service affords much pleasure and convenience to thousands of Wichita Falls women.

HORSE BADLY CUT BY FALL.
Specialist's Prescription Prevents Complication.
In telling of the accident to his horse, Mr. Arthur Carmen of Valley Park, Mo., stated: "My horse fell down and cut his knees all up. I dressed them with Dr. LeGear's Antiseptic Healing Powder and they are healing fine. It is a wonderful remedy for healing sores on horses."

Mr. Carmen is simply voicing the sentiments of hundreds of others who feel that having Dr. LeGear's personal prescriptions on hand at all times is nearly as good as having Dr. LeGear where they could reach him in a few minutes.

Wounds and sores must be taken care of immediately. Get a can of Dr. LeGear's Antiseptic Healing Powder from your dealer. Dust on enough of it to cover the wound or sore. It forms a protection against insects and infection and promotes healthy healing.—Dr. L. D. LeGear Med. Co., St. Louis, Mo.

ROBBERS BLOW SAFE AND ESCAPE WITH \$13,000

ST. LOUIS, July 24.—Six men, who it was said, represented themselves as federal prohibition agents today entered the home of W. S. Ireland, a local manufacturer, and after blowing the safe, escaped with cash, jewelry and papers valued at \$13,000. Mr. Ireland, according to police, said the men forced their way into his home on the pretext that they had come "for that whiskey."

CANADA MAN KILLS HIS WIFE AFTER SEPARATION

VANCOUVER, B.C., July 24.—An inquest was scheduled to be held today over the body of Mrs. W. G. Robbins, whose husband, a fengsoreman, has confessed, according to the police, that after mercilessly wounding his wife Monday night, the two discussed a plan to make it appear that Mrs. Robbins had committed suicide, but rejected it "for the sake of the children."

They decided instead that Robbins should end his wife's life at once; he is alleged to have confessed. Whereupon he fired three shots through her head and concealed the body in underbrush, but made daily visits to the spot with flowers until he gave himself up to the police. The pair had been living apart and quarreled during a meeting arranged in hopes of effecting a reconciliation, Robbins told the police.

An Important Matter

should always be attended to at once, not wait until the last minute. Therefore we are again going to remind you of the importance of attending to your heating system now. No doubt you fully intend to be "fixed" for the cold weather this winter but, are you not allowing it to escape your mind day after day. We were pleased to have many inquiries from our last advertisement of the Round Oak Pipeless furnaces, but so many of you are going to let the time pass for having this work done until its too late if we don't continually urge you. So why not get busy now and wait no longer.

TIRE CONSERVATION NEED OF THE HOUR

It Pays Big Dividends To Avoid Bumping Curbing And Street Car Tracks.

It sounds like a fairy story, but time was, and but a few years ago, when a motorist started out for a Sunday afternoon's ride with fear and trembling, lost his tire should "blow" before he got back. "Tire trouble was the bugaboo that constantly reared its head to ruin his pleasure in motoring.

Today, however, the dependability and easy riding qualities of modern tires permit him to start out without a single thought for his tires. He rarely gives the terrific punishment they undergo a moment's consideration, feeling sure they will bring him home. From terrified concern, according to the Miller Rubber company, Akron, the pendulum has swung too far toward careless indifference.

The fact that tire manufacturers have made wonderful strides in the last few years and has kept well abreast of automobile development, is often forgotten unless attention is called to it. For instance, Miller tire mileage has doubled.

As faithful servants, tires deserve well of the car owner. They might often tell strange tales were they given the power of expression—tales of cruelty, abuse and carelessness of service brought to an untimely end and of ill-treatment and exposure.

It pays big dividends in motoring comfort and in freedom from tire trouble to run slowly over jagged groves and glass, to avoid bumping into curbs, to promptly plug tread cuts before sand blisters and mud holes start fabric separation.

It makes two miles grow where one would otherwise be, to guard against rim cutting by keeping out of car tracks and maintaining proper inflation, to have wheels tested for alignment rather than uselessly grinding away tires as on an emery wheel. It cuts down tire expense to avoid stone breaking them by reckless driving, only to curse them when the overstrained cords break down.

KNOWLEDGE FOR CAR OWNERS

Interesting and Important Facts That Every Motorist Should Know.

Flanges of the crankshaft bearings flattened by crankshaft thrust, often cause a knock which is easiest to remove by getting new bearings.

A small tire tear should be filled with putty and a large one vulcanized. Careful attention to the tires will add hundreds of miles to their lives.

The only satisfactory method of handling the overhaul problem is to begin at the front end of the car. The engine, and work backward, taking each unit in turn and giving it the attention it needs.

It is especially important during the summer months for the motorist to keep the correct amount of air in his tires and to keep them free from cuts and that they are mounted properly so that they run true.

By painting the upper part of the bulb of the trouble lamp with some kind of opaque oil paint, glare will be obviated and the driver can work in greater comfort and with much more accuracy.

To secure increased amperage from partly run down dry cells, crowd down the material near the carbon element with a small piece of dry wood or a hammer. This lessens the obstructing material from around the carbon and permits free chemical action. The asphaltum top of the cell may be sealed again by the application of a little heat.

It occasionally happens that while working around the engine the hand or arm comes in contact with some part of the motor that is overly hot and causes a bad burn. Every motorist should be prepared for such emergencies by having at hand electric acid gauze. It is clean and ready to use. It is ordinary gauze which has been saturated in half to one per cent picric acid. An effective bandage can be made by moistening the gauze with clean water and applying to the burn. Vaseline, sweet oil, olive oil or balsam oil also make excellent dressing for burns.

It is much easier to fit an inner tube by the use of flake graphite than

it is with soapstone. Graphite lasts longer than soapstone and has no chemical effect on the rubber. It is also useful for treating rims as a rust preventative. The application of a thin coat of quick-drying varnish to which graphite has been added will protect and conserve the rims conservatively.

The best way to avoid brake troubles is to use the motor as a brake on hills. If you are going down a steep hill, pull the car in second, and let the motor hold it back. If the hill is very steep, get into low and slide down. Those who never have tried

this do not realize what power there is in the motor to hold the car back. It is safer and makes the brakes last a great deal longer.

Never park your car just around a curve or in a narrow part of the road. Here, like in many other instances, the driver should assume that every other driver is a combination of rigger, ignoramus or road hog. Experience seems to prove that this assumption is right. No matter where you do stop your car or why always leave it in gear and with the brakes set. More than that, block the wheels.

The motorist who wants to test his

gasoline for purity may find the following suggestion useful. Put some gasoline in a bottle and add a little concentrated sulphuric acid. Shake the bottle well at intervals for three or four hours. The acid will turn a distinct layer or stratum, drawing into itself all the impurities in the fuel, so that the de-

gree of discoloration found in the acid will be a measure of the purity of the gasoline. A useful test to determine whether gasoline has corrosive properties is to drop in the fluid a bit of copper. If the copper turns blue or green the assumption is that the gasoline contains corrosive elements.

GENERAL OIL CO. IS
LESSEE OF BIG TRACT

HOUSTON, Aug. 20—Since 1900 and more at least in Howard, Glasscock and Burkett counties have been leased by the General Oil company of the city, which plans early development. This company likewise has some producing wells in the Burkett field and is at present drilling wells in the Burkett, Wasco, Co. fields, and other local fields.

DISCOVERY OF NEW FIELD TO BE CELEBRATED WITH TWO-DAY PROGRAM.

The General Oil Company Welcomes You To Big Spring, Texas, August 7 and 8

And Will Celebrate the Discovery and Opening of the World's Newest Oil Field by a Two-Day "Open House" Picnic and Public Barbecue

The Big Spring Chamber of Commerce and General Oil Company are backing this celebration which marks the opening of what many believe is the most significant oil discovery in Texas, and will result in the building of another Wichita Falls or Tulsa here in the heart of the West. Being nearly three hundred miles distant from El Paso and practically the same distance from Fort Worth and with certain railroad lines contemplating extensions in this direction and directly through the new Big Spring oil fields this would seem the logical location. Many predict that a new city will arise in West Texas within the next six months, due to the pioneer work of the General Oil Company in bringing in the famous McDowell well; 21 miles south of the town of Big Spring. For two days Big Spring will keep "Open House" and all visitors will be comfortably cared for at no expense during the two days stay. A great barbecue such as only West Texas knows—how to stage, free automobile rides to see the new wells in action, a real western cowboy show, including bull-dogging, roping and riding contests, relay races, by Texas cowpunchers; airplane races and automobile races. OIL INVESTORS and OPERATORS will be particularly interested in this opportunity to see the new Big Spring Oil Field. Special Pullman cars will run from New York, St. Louis, San Francisco, Dallas, Fort Worth, Wichita Falls and Houston direct to Big Springs. If you want to see for yourself what will later be shown broadcast in movies, wire S. E. J. Cox Company, Houston, Texas, and reservations will be made for yourself and party.

GENERAL OIL COMPANY OF HOUSTON CHAMBER OF COMMERCE OF BIG SPRING

OPENS UP ENTIRE NEW FIELD IN TEXAS

(Clipped From the Texas Oil Ledger, July 10th, 1920)

McDOWELL NO. 1 OF THE GENERAL OIL COMPANY—Courtesy of Palace Studio, Big Spring. The above photograph shows the McDowell No. 1 of the General Oil Company, in Glasscock County, south of Big Spring, just across the line from Howard County. The well, which opens up an entirely new territory for development, like the Burk-Wagoner well, which opened the Northwest Burkett field, came in on a Sunday morning. The first flow of oil came into the slush pit on Sunday, June 20. The photograph above shows the flow from the well after being swabbed on July 2. It is now making 500 barrels a day and is still in an incandescent condition. Experienced drillers and geologists who have viewed this well in action estimate that it will be good for several thousand barrels when it is recorded as a production.

THE MOTORISTS' PROBLEMS

By WILLIAM H. STEWART, JR.

Motor Department—I have a 6-8 volt C P dash light, which I thought would be installed on my Ford car (1918 model) but I have been unable to make it work when attached to lighting system. Is there any way this dash light can be wired with headlights so as to operate with regular switch? C. S.

Connect wire from generator post to dash light and from dash light to switch. Run another wire from the switch to ground. Dry cells are not serviceable for lights. They are best suited for intermittent service.

Motor Department—Can the new ignition system in a 1918 Maxwell be taken out and a magneto put in instead? If so what would be the cost? I would like to know if it would be advisable, as I would like to have the magneto run the lights and start the engine on instead of the new system now in the car.

The Maxwell service station advises that a magneto can be installed very easily. A new drive coupling will be needed. The cost of installation will depend upon what make of magneto you buy. The magneto will provide ignition only. The generator will provide current for the battery and lights in the usual manner.

Motor Department—I have a new 1920 touring car with a six cylinder engine which has been used about 3000 miles. When traveling above 25 miles per hour there seems to be a clattering noise in the engine like a loose bearing. The noise only develops after a speed of 25 miles is reached. Can you offer any suggestion as to the cause? I have been having the engine opened up believing that you may offer a helpful solution. E. L.

End play in the cam shaft or pump shaft will cause the noise. At the front end of the cam shaft there is a tension spring which should prevent end motion of the shaft. Increase the tension of this spring by inserting a washer. Also remove all end play from the pump drive shaft. Where helical timing gears are used one gear drive tries to climb the other at certain engine speeds and a noise will result if free play is allowed to develop.

Motor Department: My car is a 1917 model and has had very good care, but recently it seems to be using a great deal of oil, and I have to remove carbon more frequently than ever before. Would fitting new piston rings help? New rings would help to some extent unless the cylinders are badly out of round or scored. These details can only be determined by careful inspection after taking down the engine. Try a heavier grade of lubricating oil than the one you are using. After a year or two of wear it is always necessary to use a heavier oil.

Motor Department: Kindly advise me if damage will result from connecting an ignition coil, intended for four dry cells, to a 6 volt, 50 ampere battery. L. P.

Your four cells, connected in series gave you about six volts, so that there will be no objection to the change you mention.

Motor Department: The radiator on my car leaks in various places. I have had it repaired several times, but

shortly afterward new leaks appear. Some friends advise, my using flaxseed in the radiator in order to close up the small holes? What do you think about it? Would it be apt to spoil the radiator entirely? W. S.

The use of flaxseed or anything similar will not remedy the trouble satisfactorily. It is more liable to do harm than good. If properly suspended on the frame, or cross member of the frame the radiator should not cause so much trouble. It is customary to cushion or otherwise relieve it from unnecessary strains. The use of springs or a felt pad may help. Permanent repairs to radiator are best effected by soldering the defective sections.

Motor Department: I have a 1917 car, and would like to know what wire to give the distributor and other parts with it. I mean the part with all the wires running from it to the spark plugs. NOVICE.

Keep outside clean with a cloth dipped in gasoline, as dirt will cause short circuits. Clean inside of distributor at least once a month in the same way. See that the carbon brush is not broken, that it moves freely in its guide and that the spring is strong. Keep the interrupter points clean by drawing a piece of double eight sandpaper between them once a month. Note how far the points separate, and see if this distance is the same each time you inspect it. Keep the fastenings tight and prevent short circuits.

Motor Department: My brakes are slipping and tightening the adjustment does not seem to do any good. Please give me a list of causes of slipping so that I may know what to look for. A. L.

Other causes are grease from axle, worn lining, so that rivets touch brake drum, wear of fastenings, brake rods

too far extended, and bell cranks out of proper angle for good leverage.

Motor Department: What is considered best practice in grinding valves? Should they be ground once in so often or should they be let alone until they leak compression? What is meant by the stuffing box? OWNEIT.

Valves should not be overlooked much more than 3,500 miles without grinding. By that time they will be found to be somewhat pitted, which will not be very hard to remove. The longer they run the more difficult it will be to grind them properly. The stuffing box is a box surrounding the shaft of a water or oil pump. It is filled with packing and the cover or gland screwed down to prevent leakage. When it begins to leak, turn down just enough to stop the leak. When the packing is all used up it must be repacked.

Motor Department: Would you kindly tell me what is the matter with my 1917 Ford? I have just cleaned out the engine and ground in the valves. I have plenty of power on level roads, but on the hills it seems to slip. It prevents the water from being properly cooled. If the fan can be moved easily the belt needs tightening.

Do not neglect to try the fan occasionally to see if the belt is coming loose, as a loose belt allows the fan to slip. It prevents the water from being properly cooled. If the fan can be moved easily the belt needs tightening.

It fitting new gaskets to an engine it is well to remember that water or

gas will not pass through the material, which is to say, the holes in the center should be cut. There have been cases where union gaskets have been fitted and a worried half hour spent in discovering the fault.

In tuning up a six cylinder engine one should be very careful to note that there is good compression in each cylinder. In a four cylinder engine the sound of the exhaust will reveal a weak cylinder. From the exhaust of a six cylinder engine, however, the condition of a particular cylinder is hard to detect on account of the strokes overlapping. Very often a weak cylinder is not detected, and the carburetor adjustment is changed to eliminate the supposed thump in the engine. In reality, the cause lies in a weak cylinder.

A squeak in one of the cylinders is a serious matter, and must be attended to immediately. Lack of oil is indicated and some must be introduced through the relief valve or the spark plug opening. Do not put oil into all the cylinders.

CHANDLER SIX Famous For Its Marvelous Motor

The Motor of Seven Years Ago and the Motor of Today

The Chandler Six of 1920 is a refinement of that first Chandler Six of 1913. Seven years of devotion on the part of the Chandler organization to this one Chandler motor has placed it in the position of distinction which it holds today.

Seven years of service in the hands of thousands of owners, seven years of skillful application by Chandler engineers, has

brought the Chandler motor and the one standard Chandler chassis to approximate perfection.

In these seven years many motors of many makes have come and gone. Chandler continues a leader among fine cars, because of the excellence of its performance.

On the one Chandler chassis are mounted six handsome types of body.

The Chandler is the Most Fairly Priced Fine Car

Essex Takes Hundreds of Famous Records in Nation-Wide Tests

In Every Locality it Now Holds the Coveted Records for Every Type of Car Performance--Economy, Speed, Endurance, Acceleration, Hill-Climbing and Reliability

IN A SERIES of the most dramatic tests ever made to prove motor car efficiency, Essex cars in all parts of America during the week of June 27th challenged and took practically every important record.

Six new cars, taken just as they came out of production, were driven at top speed from Detroit to Chicago, 303 miles. The fastest time was 8 hours, 8 minutes. Time for the last car to arrive 11 hours and 3 minutes. An average for it of 27 miles per hour.

One owner who had driven his car 38,000 miles put his Essex over Wisconsin dirt roads during a heavy rain, a distance of 90 miles in 2 hours, 4 minutes, which was better than 44 miles per hour.

A Denver owned Essex with 22,000 miles to its credit proved its easy riding qualities by carrying 288 crated eggs strapped to the rear seat. The car traveled 3,828 miles over mountain roads in a 6-day non-stop motor performance. Only 40 eggs were broken.

Owners' Cars Showed Economy and Speed

Still another Essex that had covered 19,000 miles in automobile rental service and on the original fabric tires from a standing start, topped El Paso's most difficult hill at 49 miles per hour. The best previous record was 36 miles per hour.

In Des Moines two cars, one a privately owned Essex that had previously gone 7000 miles, the other one which had set a 24 hour record over country roads. Combined they traveled 4816 miles in 144 hours of non-stop motor running. During the six days the cars were stopped 2137 times and carried 1602 passengers.

At Dallas, Texas, an Essex which had seen 12,000 miles of service, established the world's dirt track record by covering 1,261 miles in 24 hours—average 52 1-2 miles an hour.

An Essex Sedan, fully loaded and on original tires that had carried the car 15,000 miles, traveled 221 miles over Maryland hills, averaging 23 miles to the gallon of gasoline.

A Columbus, Ohio, owner drove his 10-months' old Essex which had gone 16,000 miles to Washington, D. C., 403 miles in 11 hours, 4 minutes. The crack Pennsylvania Railroad train requires 15 hours, 34 minutes for the trip. An

Essex traveled 80 miles in 88 minutes from Buffalo to Rochester, N. Y. The roadway is 12 miles longer than by rail—Essex time 4 minutes longer than that of the fastest train.

24 Cars in One Economy Run

Economy was shown in Connecticut by 24 owner-drivers, 12 going over the Mohawk Trail and the Hoosac mountains. The other 12 traveled a coast route. The winning car averaged 24 miles to the gallon of gasoline. Average for all 24 over 216 miles of route, for each was 18.7 miles to the gallon. One car had seen 35,000 miles of service and averaged 21.2 miles to the gallon.

A Hastings, Nebraska woman drove an Essex from Hastings to Lincoln, Nebraska, 109 miles, averaging 29 miles to the gallon.

Four women drove from Los Angeles over the coast route to San Francisco and return via the Inland route with an average of 22.3 miles to the gallon of gasoline—no stop for any mechanical reason. A car starting from San Francisco made the round trip of, 843 miles in 33 hours, and averaged 24.5 miles per gallon of gasoline.

Also Takes Famous Hill Climb Records

The Rim O' the World Record, in San Bernardino Mountains, was taken by Essex, climbing nearly 5,000 feet elevation over 8.8 miles of difficult mountain road in 17 minutes. An Essex defeated 19 other entries in the Sacramento, California, dealers' reliability run over the Sierra Nevada Mountains—distance 261 miles—24.25 miles per gallon of gasoline.

And in Utah 28 1-2 miles of mountain roads with heavy grades, climbing 4,528 feet, an Essex carrying 3 passengers made the run in 52 minutes. The best previous record was 66 minutes. Another Salk Lake owned car with 10,000 miles to its credit in 1 hour 20 minutes traveled 50.7 miles. The best previous record for this route was 1 hour

37 minutes. Through a blinding snow storm over Tioga Pass with an altitude of 9,941 feet and over grades of from 6 per cent to 37 per cent, Essex traveled 432 miles, averaging 15 miles to the gallon, and using 3 pints of oil. It ran several miles hub-deep in mud and towed another car containing 5 people, itself carrying 950 lbs. of weight and one passenger.

Essex is the first and only car to climb 35th Street Hill, Washington, in high gear and the Tilden Street Hill from a standing start. It crossed the top at 51 miles per hour. The same car towed a loaded 6-ton truck 16 blocks up this hill.

49 Cars Average 18.9 Miles Per Gallon

Gasoline records were kept on 49 cars used in every kind of test from the

distance covered on a message gallon to the six-day non-stop performances. It included hill climbs of the most sensational character and inter-city runs in all parts of the country over all kinds of roads in all kinds of weather and at speeds from 5 to 72 miles an hour. Some were brand new cars. One had already traveled 34,000 miles. The average was 18.9 miles to the gallon.

The above are but a few of the records made. Every locality now knows Essex for the accomplishment of some great feat. They know it for its speed, its hill climbing ability and its flexibility and endurance.

In a thousand ways it has proved its supremacy in every imaginable test.

To list all records would require pages of newspaper space. It would apply to hundreds of cars. Some belong to owners who made the trials in a spirit of sportsmanship.

Now, Is There Anything Left For Essex to Prove?

Was greater proof ever submitted? Here in one week every kind of performance ability has been established by Essex. They cover not only the cars used in the hundreds of tests of all descriptions but their performance was so consistent that they bespeak similar abilities for more than 40,000 Essex cars as their owners know them.

Every question has been answered by Essex.

Men were long ago forced to recognize Essex performance. It is common remark that it is the speediest, quickest car on the road; and now, in face of these performances, who can doubt its stability?

Can Essex be second choice to any who want the economy which comes with light weight and the beauty performance and luxury which comes with costlier cars? The Essex can be obtained at a moderate price.

No wonder its sales have also set a new record!

Watch the Essex

TRUCKSPORTATION IS NEW WORD COINED

Goodyear Company Has Established Five Long Distance Routes To Distribute Products.

"Truckportation"—new terminology for freight hauling by pneumatically equipped motor trucks—has been given tremendous impetus in the east by the establishment of five long-distance motor truck routes by the Goodyear Tire & Rubber Company branch at Philadelphia, Pa., to give speedy and regular deliveries of products to its service stations.

So successful has this motor truck service been during a year of operation that an extension is proposed by having the newly developed truckportation lines act as feeders to the trolley express service in countries near Philadelphia where poor roads will not allow trucks to make deliveries. By this combination method, one-day express delivery service will be secured in every county in Pennsylvania.

More than 70 per cent of all distribution from the company's Philadelphia branch is now made by these truckportation lines—approximately 50,000 pounds of merchandise being transported each month. As rapidly as possible the service will be extended to eventually distribute 95 per cent of all products sold from this branch. The longest truckportation route is 240 miles, covering nine cities between Philadelphia and Reading. The pneumatic trucks are given an opportunity to show their capabilities on the steep grades over the mountains. More than 40 communities are served on the three-day trip.

One-day trips of from 110 to 165 miles are made weekly to other cities as far away as Wilmington, Harrisburg and Allentown, but the proposed line into northern Pennsylvania, covering 425 miles in four days, is the most ambitious truckportation effort ever made with the exception of the company's all-year-round Akron-Boston line and the trans-continental record of 13 days and five hours for the 2,451 miles between Los Angeles and New York, with arrival in Manhattan with the original California air in all four days.

The new truckportation lines out of Philadelphia, where the plan was first out first, have run on train-like schedules since their inception. The company's service stations are certain at just what time the truck may be expected to roll up to their doors.

Actual performance figures of the pneumatically-equipped trucks on these lines show that an average speed of 18 miles an hour is maintained—practically touring car speed.

So frequent are the inquiries received from Philadelphia trucking companies for information about hauling costs and road conditions from actual demonstration and observation by Goodyear trucksters that the company plans to create truckportation service bureaus to furnish the public with this data in all branch cities as rapidly as new truck lines are established in each. The plan to have truckportation lines act as feeders to trolley express systems is such an original and forward step that it is attracting widespread attention in the east. Traction officials are enthusiastic and service

WARNS TOURISTS TO INSPECT ALL TIRES

Many Overlook Tires When Starting On Vacation Trips And Trouble Results.

Before starting on that long tour you're planning for this summer—remember your tires. They will have to bear the brunt of lots of hard usage before you get back and unless you don't care about annoying delays, see that their engines are running smoothly. "brakes" adjusted properly, nuts

It's a common practice of motorists, says the Diamond Rubber Company, Inc., to overlook their tires even when they are very careful about other things. They take great pains to see that their engines are running smoothly, "brakes" adjusted properly, nuts

lightened, grease cups filled, and so on, and then pass up their tires entirely. Needless to say, this is a big mistake. If trouble is encountered with the tires, the whole trip is often spoiled. Nothing is more annoying than to have tires give way farthest in the country, many miles from the nearest service station. Then, if ever, the motorist loses his good nature.

Many troubles on a tour can be avoided by inspecting the tires thoroughly before leaving. Even the spare tires should be gone over carefully. Small cuts which are likely to fill with sand and finally cause blow-outs should be watched particularly. The pressure in all the tires should be tested. And while on the tour the tires should be inspected at regular intervals, especially if the car has been

YOUR CHANCES

OF LOSING ON Your Texas Oil Investment

Shown By Our \$10,000 Statistical Map

Experts have been busy for weeks preparing the most complete Geological and Statistical Map of Texas ever compiled.

This Map is Now Ready For You. It Costs \$10,000 to Prepare and is Worth it

On the face of the map, which measures 15x24 inches, are shown geological surface structures, with brief explanation of their character in every-day language.

All known oil and gas fields, accurately located, with average production of each field.

Location, size and ownership of oil refineries operating or under construction.

Location of all principal pipe lines and ownership.

Railroads, county lines and principal towns.

On the reverse side appear the following tables and charts:

Table showing increase in crude oil and gasoline consumed and number of automobiles in use from 1910 to 1919, inclusive.

Chart showing increase in production of crude oil from 1910 to 1919, inclusive, comparing production of United States, Texas and the world.

Table showing number of wells drilled and number producing for each field from 1912 to July 1, 1919.

Table showing approximate production for each of the principal Texas fields in 1918 and first five months of 1919.

Table showing dividends paid by principal North Texas companies from date of organization to March, 1919, inclusive; also dividends paid by large, old-established oil companies over a long period of years.

Free to the Readers of this Paper

This map retails for one dollar, but we have a limited supply which will be sent absolutely free to readers of this paper, upon request, stating that you are interested in Texas. Send for your copy today. Use coupon below.

CHIROPRACTIC

Relieves Acute Indigestion

Birmingham, Ala., May 15, 1920.

Dear Doctor:

I am so delighted with the results of Chiropractic adjustments that I talk it almost every day while waiting on my customers, and wish I could get more people interested that they may be relieved of their ills just like I have been. It was last year when I called you to my home. I had been suffering with acute indigestion for several days, and could not retain a thing on my stomach, and I was suffering such intense pains in the pit of my stomach that I really believe that if I had not got relief I could not have lived. It mattered not what I took into my stomach it would come right up. In less than 15 minutes after you adjusted me I was perfectly easy, and slept until 3 o'clock the next morning and got up and ate two eggs and a piece of steak for breakfast and went to your office at 10 for an adjustment. In a few weeks I had gained 15 pounds. With best wishes, I remain,

Very truly yours,
J. N. GRAHAM,
218 N. 21st St. Main 7482.

O and G BELTS

In The Oil Fields

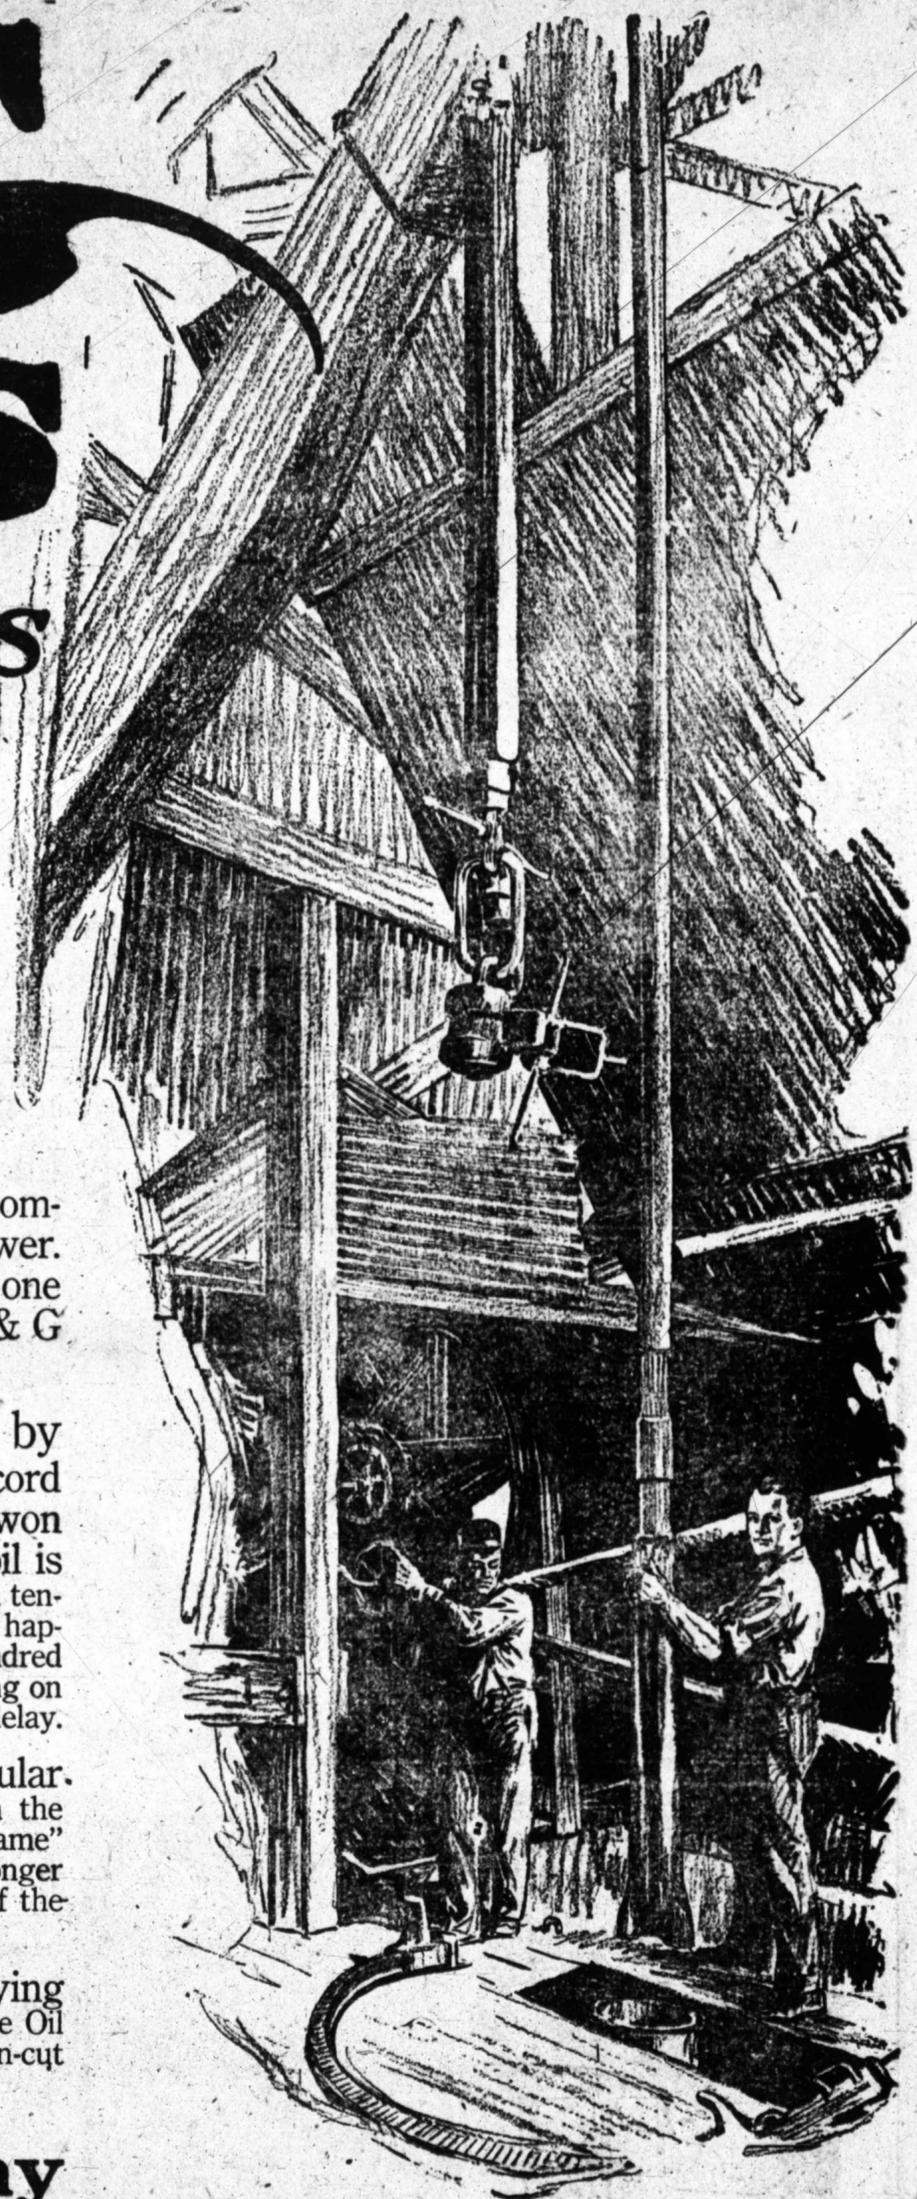

Work in the Oil country calls for strong, rugged tools. Oil production is a rough and ready business. Carried on mostly under conditions which give little shelter from rough weather, tools, equipment and men, must be hardy, staunch and toughened to the job.

In every big industry, transmitting power is a vital factor—and in Oil production especially so. In drilling, pumping and compressing, there must be a never-ceasing, full flow of power. The Oil country knows from long experience that the one certain way to get such power is by the use of O & G Inner-Locked Belts.

Whether they have had to show their class by matching the work of other belts or only to make a record for themselves, O & G Inner-Locked Belts have always won out. Stories of their great service are told wherever oil is produced; of an O & G Belt that lay under water and mud during a ten-day flood, but which kept right on the job again as if nothing had happened after the mud was scraped off; of another which ran two hundred and sixty 24-hour days, with 17,000 pounds of cable and tools hanging on the belt a mile below the surface—and in each case without hitch or delay.

O & G Inner-Locked Belts are intended for one particular job; to do any and every kind of work, no matter how hard, which the Oil industry has to be done. "They are built by men who know the game" from the Oil man's side; who know that he wants greater power, longer life, absence of troublesome stretching, and "come and go" instead of the grief he often gets with other types.

Giving service which has never been equalled, satisfying every crew they serve, always running uniform, in fact, giving the Oil country one hundred per cent belting service; such is the clean-cut record of O & G Inner-Locked Belts.

SHOWINGS IN THREE TESTS REVIVED INTEREST IN WILBARGER COUNTY OPERATORS LAST WEEK

By A. C. McCONNELL
VERNON, TEX., July 24.—Three tests in Wilbarger county drew the spot light here on the North Texas screen this week. Showings of oil in three widely separated wells were recorded during the week, and aroused new interest among the oil fraternity. Upon the strength of the reports that these wells were showing oil dealers in leases are looking up their holdings in the various vicinities.

Considerable excitement prevails over the report that the well of Greene Waggoner, section 190, block 14, Wharton ranch, four miles northwest of the Sigler, is on a sand at a depth of 2,037 feet. The rumor is that the drillers have run into an oil bearing sand and the sand is being tested. Those connected with the well will give out no information regarding the extent of the sand. The fraternity is watching the test closely, however, as the yield of the well and the value of the find will determine to a great extent the defining of the Sigler pool. The lease is owned by C. T. Herring, Les K. Johnson, Joe Sumner and others; while the Waggoner Ranch Oil Co., the Haseltine Syndicate, Home Oil Refining Co. have much acreage surrounding the test.

The Wilbarger-Haley test in section 5, block 13, is said to have struck a sand good for 10 barrels at 323 feet. After passing through lime rock to a depth of 200 feet the sand was encountered. It is reported.

At the office of the Sigler Oil Co. no information will be divulged regarding Sigler No. 2, Wharton. It is understood that the test is deeper than No. 1, discovery well, and the sand takes a deeper dip than No. 1. The S. & R. test on the Hancock farm, 12 miles east of Vernon is the

center of attraction and acreage in this vicinity has taken a spurt by the report that oil is standing in the well to a depth of 1360 feet, with an excellent chance of being a producer. The well is said to be on the sand at a depth of 2260 feet. The well is roped off and no one allowed about the lease, and those connected with the well refuse to deny or confirm the report that the hole is partially filled with oil. The test, owned by Seattle parties, was drilled with standard tools. Capt. Symly of Seattle is here looking after the interests of the well. Much of the acreage around the lease is held by Vernon parties.

W. O. Burton, manager of the Waggoner Ranch Oil Co., has returned from Chicago and other points. He reports much interest is evinced over oil operations in Wilbarger county and operators are keeping posted regarding the various tests going down and the outcome will determine largely as to whether they will invest in Wilbarger acreage. Mr. Burton says that one of the most eminent geologists in the field has just finished a survey of the southern Wilbarger territory and the geologist's report is that one of the largest oil fields in Texas will be found in this section. At present the well of Burton & Waggoner in the Waggoner ranch is being watched with interest as it will likely prove up some interesting interpretations in geology.

The Buckeye test is also receiving much attention as they are down around 2000 feet, with prospects of something of importance to develop.

The Pyramid Royalty Co., a trust association, was organized in the office of Lloyd Sigler in Vernon this week, with a capitalization of \$150,000 to drill on 80 acres offsetting the

Sigler well south of Vernon, which is said to be the most valuable 40-acre lease in Wilbarger county, bought from the Haseltine Syndicate, which they intend to drill at once. Mr. Sigler says the company will also drill on acreage in block 819, Wichita county, near the Frankel-Koock well, which came in recently, proving up a condensed recently.

Following the success of operators in the shallow pool east and south of Vernon more than an unusual interest is centered around these pools. P. H. Robinson, who is operating in section 34, block 15, is convinced that shallow wells of small production are worth more as an investment than deep wells of proportionately greater oil yield. He points to his success in bringing in the sixth producer in section 25 at a depth of 200 feet, yielding between 30 and 40 barrels of oil daily. Mr. Robinson says it takes about \$40,000 to dig a well south of Vernon to a depth of 2,000 feet, around 320 a foot, whereas one of the shallow wells drilled by Robinson costs about \$600 or \$3 a foot, and it is not necessary to put in casing in the shallow wells until the bottom is reached and a well can be finished for \$1,200, and if the hole is dry no casing expense is incurred. Mr. Robinson says the shallow field is the poor man's chance, and the good price now paid for oil is causing operators to turn their attention to drilling in sure producing territory. Some years ago the Wilbarger shallow fields were worked for shallow oil but the low price of crude caused operators to give up operations in these fields.

The following is the drilling report up to July 19:

American Eagle Oil & Gas company, Kelly, section 54, block 13, 2190 feet, drilling.
Armstrong & Churchill, Wharton, drilling 1330 feet.
Apex Oil company, section 36, block 13, Ferguson, rig down, 1335 feet.
Atlantic Petroleum Co., Ltd., Boyd, section 17, block 14, moving tools.
Buckeye Oil company, section 47, block 2, 1350 feet, drilling.
Adams et al., Smith, rigging up.
Big Waggoner Oil company, No. 1, Kethorne Waggoner, section 25, block 12, drilling 1520 feet.

Harold-Texas Oil company, No. 1, Cochran, sections 47 and 48, block 13, drilling 1850 feet; No. 2 spudded.
Home Oil Refining Co., with leases on 250,000 acres in the Waggoner ranch; Guy Waggoner No. 1, 1670 feet; No. 1, Paul Waggoner, section 4, block 1, 1280 feet, fishing; Nos. 2, 4, 5, and 7, Timbers; Nos. 8 to 12, locations.

Kansas City Petroleum company, No. 1 King, section 72, block 12, derrick.
P. F. Langford et al. (Moonshine Hill) No. 1, Sobb subdivision 1893 feet, drilling.
Linn-Cook et al. No. 1, Webb, drilling 1180 feet; No. 2, Waggoner, fishing 1230 feet.
Magnolia Petroleum company, Green, section 32, block 12, drilling 3110 feet.
Minnesota Southern Oil company,

York-Payton Oil company, Payton, drilling 2450 feet.
Barlow et al., Pyle, section 26, block 15, rig blown down.
Border States Oil company, Boyd, section 47, block 2, 1840 feet, drilling.
Byars Farm Oil company, Byars, section 49, block 12, 3270 feet, closing out, abandoning casing.
Beaver Farm Oil company, woman, shut down, 945 feet.

Crescent Cove Oil company, J. P. Starr, section 7, block 15, moving tools.
B. Churchill Oil company, Waitt, block 15, moving in tools, ready to spud.
Castelberry Oil & Gas company, Castelberry, section 67, block 14, location.
Clio Oil company, section 39, block 13, location.

Cable Oil & Gas company, Tuttle, No. 1, subdivision 193, Waggoner Colony, cleaning out, 1310 feet.
Eldorado Oil & Gas company, section 55, block 4, derrick blown down, yielding between 30 and 40 barrels of oil daily.

Jeffrey Ayres et al., Willis Vaughn, section 5, block 15, drilling around 2,000 feet. Mrs. W. A. Vaughn, Sr., section 28, block 14, derrick.
Flowers et al., Wharton, section 18, block 14, testing, 1770 feet.

Gulf Production company, McMillan, drilling 1000 feet.
Garner Oil company, Wells, section 48, block 15, drilling 2120 feet.
Guyer-Tripler Oil company, Guyer, No. 1, subdivision No. 122, Waggoner Colony land, shut down, 2810 feet.

Gem Oil company, Wharton, section 27, block 2, drilling 690 feet.
Harrington & Robinson, No. 1, McCaleb, section 67, block 15, fishing 1840 feet.

Harold-Texas Oil company, No. 1, Cochran, sections 47 and 48, block 13, drilling 1850 feet; No. 2 spudded.
Home Oil Refining Co., with leases on 250,000 acres in the Waggoner ranch; Guy Waggoner No. 1, 1670 feet; No. 1, Paul Waggoner, section 4, block 1, 1280 feet, fishing; Nos. 2, 4, 5, and 7, Timbers; Nos. 8 to 12, locations.

Kansas City Petroleum company, No. 1 King, section 72, block 12, derrick.
P. F. Langford et al. (Moonshine Hill) No. 1, Sobb subdivision 1893 feet, drilling.
Linn-Cook et al. No. 1, Webb, drilling 1180 feet; No. 2, Waggoner, fishing 1230 feet.

Magnolia Petroleum company, Green, section 32, block 12, drilling 3110 feet.
Minnesota Southern Oil company,

Collingsworth survey, shut down, 1,520 feet.
Mitchell Farm Oil company, Mitchell, Waggoner Colony, drilling 1700 feet.
Noble Oil & Development company, section 45, block 14, Judd, drilling 2,000 feet.
Block 14, shut down, 1230 feet.
Royal Fish Oil company, section 64, block 15, Randall, location.

Radio Oil company, Wharton, section 7, block 3, derrick.
Luttrell & Gaine, Richardson, section 53, block 14, drilling 1450 feet.
Star State Oil company, block 275, Waggoner Colony, drilling 800 feet; section 17, block 3, Waggoner, drilling 490 feet.

Reed Ranch Oil company, Hawley, No. 1, section 22, block 3, fishing 1260 feet; Reed No. 1, section 22, 1100 feet; Wilkinson No. 1, rig.
E. H. Robinson, Smith, section 25, block 15, No. 2, 19 barrels at 120 feet. No. 3, 11 barrels at 197 feet. No. 4, 18 barrels at 185 feet; No. 5, 10 barrels at 201 feet.

Sigler Oil company, No. 1, Wharton, swabbing 94 barrels every six hours; No. 2 drilling 2,000 feet; No. 3, spudding; No. 4 and 5, material.
Staley-Green, Zipperole, section 59, block 14, 1800 feet.
Staley-Green et al., Dill, section 52, block 14, rotary derrick.

E. & H. Oil company, Hancock, section 60, block 13, testing 2,200 feet.
Eutopia Oil company, Schur, section 20 and 21, block 9, location to be determined.

Twin Six Oil company, Smith well 1 section 15, block 13, shut down.
Smith and Greene, Castelberry, section 190, block 14, shut down, testing 2021 feet.

Tex-Pee Oil company, Hale, section 39, block 15, drilling 1840 feet.
Tex-Wyo company, Williams, section 75, block 11, 2450 feet.

Tex-O-Wa Oil company, (formerly Adams) No. 1, Goss subdivision 23, Waggoner colony, 1840 feet, drilling.
Texas-Peoria Oil company, Wharton, section 55, block 2, derrick.
Vernon Checkerboard Oil company, Turkelet, section 39, block 14, 490 feet, shut down.

Vernon Chief Oil company, section 44, block 2, material.
Vernon Home Oil company, Green, section 18, block 12, derrick.
Vernon Winner Oil company, Miller, section 58, block 2, derrick.
Waggoner Colony Oil company, Taylor No. 1, section 55, block 13, fishing for two strings of tools, 1910 feet.
Wilbarger-Hardeman County Oil

company, Durham, section 67, block 14, shut down, 550 feet.
Wilbarger County Oil company, Carter, section 21, block 19, shut down, around 1940 feet.
Wilbarger-Haley, King, section 5, block 13, drilling 1300 feet.
Burton & Waggoner, section 40, block 14, drilling 1320 feet.

Wilbarger Southern Oil company, Moley Cotton Tail, section 105, block 14, Waggoner, drilling 1130 feet.
Wilbarger National Oil company, Guggishberg, section 12, B. S. & F. survey, standard derrick completed.
Without et al., section 18, block 14, Pointevent, rig.

Walker Oil & Refining company, Lance, drilling 650 feet.
Lawrence Drilling & Development company, Robertson, section 28, block 15, location.

Board County: Wilbarger-Board Oil company, section 13, block 8, Headley, No. 1, 1200 feet; standardizing; No. 2, section 14, block 18, derrick; Emerald Oil & Gas company, No. 1, Herring & Johnson, drilling, 3130 feet.
Reel-Coon Oil company, Haney, 490 feet.

Midwest Exploration company, Beverly, tools.
Hardeman County Drilling Report, drilling, 1600 feet.

See-No-Sha Petroleum company, No. 1, section 241, Stewart, drilling, 1520 feet.
Mid-west Petroleum company, Wheat No. 1, section 184, block 10, reports striking a pay sand, setting casing to avoid salt water, 2725; No. 1, Gilliam, drilling at 3100 feet; No. 1, Mulky, spudded new hole.

The Agate company, drilling on section 207, and another location made.
McReynolds Oil & Gas company, No. 1, O'Hairy, 1900 feet, drilling.
Oil Products company, derrick and tools.
Dr. H. C. Walters, No. 1, Gilliam, shut down at 1800 feet.

Elmhurst Investment company, Brock, 1500 feet.
Greensbeck Oil company, Sparks, drilling around 1000 feet.
Victor Oil & Gas company, spudded in.

Fort Pitt Oil company, Pennington, No. 1, drilling 1020 feet.
Wilson-Bagnell Oil company, Clark, fishing up.
Priest et al. No. 1, Norton, drilling at 2250 feet; No. 2, Porterfield, 1015 feet; No. 2, Norton, 255 feet.
The Great Western Petroleum com-

pany, Hopkins, school land, drilling, 1800 feet.
C. & H. Oil company, section 64, block 14, 1200 feet, drilling.
