

SHINERS DAY IN WICHITA FALLS

COLLAPSE OF ANTI-BOLSHEVIK MOVEMENT IN SOUTH RUSSIA INDICATED IN THE DISPATCHES

By United Press: Virtual collapse of the Wrangel anti-bolshevik movement in south Russia was indicated in an official communique received from Moscow today.

LONDON, Aug. 31.—Russian bolshevik forces fighting against Polish forces north of Brest-Litovsk, have occupied a number of villages from 10 to 20 miles southeast of Bialystok, says a wireless dispatch from Moscow quoting an official statement issued there yesterday.

Heavy fighting, which is declared to be favorable to the bolsheviks, continues in the vicinity of Lemberg and Perelyai in Galicia, while in the Oriskow region of the Crimea, the bolsheviks have been successful, it is said.

Further north, near Vladimir Volynsk, soviet troops have occupied the town of Belsk and a number of villages north of there. In the neighborhood of Brest-Litovsk, where the bolsheviks claimed yesterday to have captured several towns from the Poles, only Brest-Litovsk is going on, the statement declares.

GEN. WRANGLER SUFFERS A CRUSHING DEFEAT

MOSCOW, VIA LONDON, Aug. 30.—General Wrangel has suffered a crushing defeat on two fronts in the Black Sea theater of war, according to an official statement issued here today.

"Wrangel's forces in the Kuban have been completely annihilated," the statement said. "After defeating them the soviet forces cut their communications and surrounded and destroyed their headquarters."

"In the northern portion of the Tauride peninsula the Wrangel columns have been completely beaten and now hold only the Crimea."

Another communique indicated a resumption of fighting along the Crimean front. The bolsheviks claimed capture of Belz, one of the northern defenses of Lemberg.

"In the Volynsk (south of Grodno) we occupied a number of villages," the statement said.

"We made progress on a front of about 20 miles, south of Bialystok and in the region of Vladimir Volynsk, (north of Lemberg)."

ANTI-BOLSHEVIK FORCES DEFEAT WRANGLER'S TROOPS LONDON, Aug. 31.—Anti-bolshevik forces landed in the province of Kuban, east of the Sea of Azov, by general attack, have completely and "completely annihilated," says a statement issued here last night by M. Kamenev, head of the Russian bolshevik trade union center in Moscow.

"After defeating General Wrangel's forces," the statement continued, "soviet troops cut their communications and surrounded their headquarters. In the northern part of the government General Wrangel's army is completely beaten. He now holds only Crimea."

FRONT DESIGNATED AS OF NO SPECIAL VALUE

WARSAW, Aug. 31.—President Pilsudski in a statement to the Polish press declares that the front designated by the allies on December 8 as Poland's eastern frontier is, from a strategic point of view, worth nothing to the republic. He declared there are only two solutions of the Russian problem—either to march forward and crush the general Wrangel army, or they will be forced to speak with the Poles in another tone, or remain on the illusory frontier and conclude peace as promptly as possible.

ANTI-BOLSHEVIK LEADER JOINS RUSSIAN SOVIET

COPENHAGEN, Aug. 31.—General Semenov, the anti-bolshevik Russian leader in eastern Siberia, has applied to Leon Trotsky, bolshevik minister of war and marine, for permission to join the Russian soviet army, says a Moscow dispatch quoting reports printed in the newspaper Izvestiya of that city.

EXPECT MAGSWINEY TO DIE ANY MOMENT

Describe Condition as Like That of Man on Precipice—May Go At Any Time

LONDON, Aug. 31.—Terence MacSwiney, lord mayor of Cork, who has been on a hunger strike since August 12, was still alive this morning, but his sister Mary stated him, "that he was growing weaker and that the end may come at any moment."

MacSwiney spent a restless night and his sister remained near Brixton prison, where he is confined, throughout the night, thinking she might be called for.

An official who saw MacSwiney early today described his condition as being like that of a "man on a precipice," adding that the "slightest breeze might blow him over at any time."

4 P. M.—Banquet, Wichita Club Rooms, City National Bank of Commerce Building.
4 P. M.—Dance, Nobles and Ladies, Hack's Academy.

Parade is Feature Of Shrine Program; Streets Thronged

At 3 o'clock this afternoon Tenth street, near Scott, presented a scene that bore resemblance to nothing quite as much as the Bridgeport, Conn., winter quarter of Barnum & Bailey's circus. Every type of vehicle known to man, including possibly the Humble taxicab, was being moved into the parade line.

The business streets of the city were crowded with Shriners wearing the red fez and the order "Maskat" of the Shrine Temple building at Tenth and Scott they paraded the downtown streets scattering a wave of official bouquets from every place of business. Automobiles bore inscriptions urging the visitors to make use of them, and seven hundreds of citizens not members of the Shrine fraternity were wearing badges stating that "I Live Here, Ask Me!" With such a cordial welcome confronting them, the visitors started without delay for the Shrine Temple.

WALTER D. CLINE

The traveling master of Wichita Falls is a good scout as well as a good business man. If he hadn't been both he would not have been honored by being elected Patriotic of Maskat Temple.

Begin to Warm Up

Instead of waiting for the parade in the afternoon, before displaying their jazz wares, the Ben Hur Temple band from Austin began at 8:30 in the morning to "warm up" at the Shrine Temple building at Tenth and Scott. They paraded the downtown streets scattering a wave of official bouquets from every place of business. Automobiles bore inscriptions urging the visitors to make use of them, and seven hundreds of citizens not members of the Shrine fraternity were wearing badges stating that "I Live Here, Ask Me!" With such a cordial welcome confronting them, the visitors started without delay for the Shrine Temple.

Speakers Delighted

Nonsense and "redneck" delighted civilian spectators everywhere. The candidates for the Shrine ring to be given to the most popular novice were led about the streets by a band of shriner boys, and at 9 o'clock they were forced to make fifteen-minute speeches from a truck at Tenth and Eighth streets. A throng of Shrine boys, however, prevented the candidates from being heard, and the general bedlam of sound kept the spectators in gales of laughter.

Shriners Early Woke Upon the Police Department's Patrol Wagon

When the Shriners finally arrived and started the city battle they found only empty chairs in the court room, and on inquiring as to the whereabouts of the Judge, Chief of Police and City Attorney, were informed that the three were not feeling well and had gone to Cuba. The "boss" gow's departure, as it had come, empty but went to work with a vengeance to atone for the one defeat of the day, and the captain of the crew voiced it as his opinion that it would "go hard with those birds if they were caught."

Only Empty Chairs

When the Shriners finally arrived and started the city battle they found only empty chairs in the court room, and on inquiring as to the whereabouts of the Judge, Chief of Police and City Attorney, were informed that the three were not feeling well and had gone to Cuba. The "boss" gow's departure, as it had come, empty but went to work with a vengeance to atone for the one defeat of the day, and the captain of the crew voiced it as his opinion that it would "go hard with those birds if they were caught."

Chords and Discords, Harmony and Sounds Resounding

The parade was due to start at the Shrine Temple building at Tenth and Scott at 4 o'clock. It was continued to move out Tenth to Broad north on Ninth to Seventh, south on Scott to Tenth, south on Tenth to Tenth and disbanding in front of the Wichita theatre.

Small number of people continued to watch the parade as it moved south on Tenth to Tenth and disbanding in front of the Wichita theatre.

The parade was due to start at the Shrine Temple building at Tenth and Scott at 4 o'clock. It was continued to move out Tenth to Broad north on Ninth to Seventh, south on Scott to Tenth, south on Tenth to Tenth and disbanding in front of the Wichita theatre.

MAKE PUBLIC THE REPUBLICAN BUDGET FOR PRESENT CAMPAIGN; HAVE RECEIVED \$1,017,255.32

CHICAGO, Aug. 30.—The republican national committee received \$1,017,255.32 in contributions for both national and state campaigns between June 14 and August 25, Fred W. Upham, republican national treasurer, told the senate committee investigating campaign expenditures today. Of this sum, he said, \$483,912.54 was for the national campaign and \$533,342.78 for state purposes. With this report Mr. Upham presented to the committee the names of donors showing about a quarter of a million dollars of the amount already contributed at \$2.11. Mr. Upham also presented a budget showing the committee had planned to spend.

State	To Nat'l Com.	To States	Total
Alabama	412.50	1,434.84	1,847.34
Arizona	13,522.45	2,497.89	16,020.34

Wyoming	1,168.52	1,168.52	2,337.04

The republican national committee, the treasurer said, has borrowed money to meet current bills as contributions were coming in very slowly. He offered figures showing a total of \$1,017,255.32 in contributions, of this amount already contributed is still outstanding in unpaid pledges. His statement of cash receipts and disbursements listed \$100,000 as borrowed. The national committee has \$100,000 to the congressional campaign committee, and \$50,000 to the senatorial campaign committee, he said. The state committee of Maine has borrowed \$25,000, Indiana \$10,000, North Carolina \$7,000, and Maryland \$5,000. The national committee has \$100,000 on hand.

REVISED REPORT ADDS TO SAN ANTONIO TOTAL. BROOKLYN STRIKE MAY SPREAD OVER ALL OF CITY

WASHINGTON, Aug. 31.—(By AP.) NEW YORK, Aug. 31.—The strike of county, Texas, containing 8,000 men, increased to 12,000 today. San Antonio, Texas, also reported 15,000 men. Previously announced 10,000. Suffolk county, Mass., containing 10,000 men, increased to 12,000 today. Boston, Mass., containing 10,000 men, increased to 12,000 today. State of Maryland, 10,000 men, increased to 12,000 today. State of Massachusetts, 10,000 men, increased to 12,000 today.

CLERK IS KILLED IN ROADHOUSE QUARREL. MINERS DEMAND 25 PER CENT INCREASE

Shots Are Heard by Detective Working On Murder Case Near the Scene. Committee in Session at Kansas City To Further Discuss Question Today.

CHICAGO, Aug. 31.—A roadhouse quarrel today ended in the fatal shooting of Paul Brown, age 22, a Chicago clerk, by Gerald Stack, wealthy real estate man of Lander, Wyo. Detectives working on the mysterious shooting of Howard B. Rhodes, near Niles, Mich., yesterday, heard the shots in Kelly's Bungalow Inn and rushed in quickly enough to seize most of the party. Stack, who admitted shooting Brown, said he acted in self-defense when Brown's friends interfered during their quarrel over an alleged insult to Miss Mary Kane, one of Stack's companions. Mrs. Stack, at a hotel here with their two children, was prostrated by the shooting. Stack's party and the shooting were George Marsk, Webster Gray, Mo., member of the St. Louis board of trade; Henry Garney, member of the Chicago board of trade, and Mary Kane, cause of the fatal quarrel. Police sought three more feminine members of the Stack party and Gharrity, wealthy Chicagoan.

According to the detectives, Brown with three men and three girls was leaving the roadhouse at about 2 a. m., but returned for cigarettes. In passing Miss Kane made a remark for which she slapped him. He made a hot retort and Stack hit him over the head with a revolver, then fired four times, detectives said. Stack said Brown's party had re-entered the inn and was rubbing him. Mrs. Stack said the family was returning from a visit in Michigan. Last night Stack left the group, saying he wanted to visit him.

CHICAGO, Aug. 31.—The Japanese continue to concentrate in the development of aviation, wherein they recognize the weakness of both the army and navy and are increasing air squadrons in both these branches, according to the Miyako shimbun.

PILOT AND MECHANICIAN OF AIRPLANE ARE MISSING. HONOLULU, Aug. 31.—Lieut. R. R. Fox, pilot of New York city, and Corporal H. J. Cornet of Pennsylvania, mechanician, who left here Saturday in an army airplane, are missing. Other planes and Eagle boats have been sent in search. Their airplane was last seen entering a cloud bank over the island of Molokai.

PORT WORTH, Aug. 31.—After a two-day search, the body of Fred Nicholson, 20, who was drowned early Sunday at Lake Worth, was recovered this morning. His father lives on a farm near Sherman.

VISITING SHRINE WOMEN ARE ENTERTAINED WITH LUNCHEON; GUESTS AT THE COUNTRY CLUB

The visiting Shrine women were met in state at the station Tuesday morning, a score or more of gaily decorated visitors' cars, under the general supervision of Mrs. R. E. Shepherd, chairman of the transportation committee, being at the station for the early specials. The visitors were bundled gaily into the cars and as the chauffeurs were impressively joyful in many cases, most of the drivers selected a bunch of Shriners "cut-ups" and trailed them for a few minutes before taking their guests to breakfast.

R. E. SHEPHERD

Breakfast was served at the Y. W. C. A., which was hospitably decorated for the occasion, and the visitors were taken from there—as straight as an arrow—by the Shriners' band music would permit—to the Clint Woods' home on Brook street. After registration, which was in charge of Miss Florence Jackson at both the women's headquarters and the Golf club, the ladies were given a few moments for rest, though a number of the visitors' cars were out early, joyriding after the bands, the campaign howlers and the "patrol wagon" and cage.

HORACE LARNHART Secretary, Ben Hur Patrol

At 10:30 all of the crowd assembled at the Woods' home and it was estimated that about a hundred and fifty visiting nobles, wives, sisters and young women friends were taken out to enjoy the hospitality of the Golf club.

ENGLISH COAL STRIKE TIES UP 375 VESSELS

WASHINGTON, Aug. 31.—Almost complete stoppage of coal exports from England has resulted from the government's restriction on coal movement in anticipation of a miners' strike, according to a cable to the department of commerce today from Consul General Hollis at London.

FOUR PERSONS INJURED NEAR POPULAR BLUFF, MO.

ST. LOUIS, Aug. 31.—Four persons were injured, three seriously, today when the Sunline Special, Missouri, Pacific through passenger train from San Antonio, Texas, to St. Louis, was derailed near Popular Bluff, Mo., 140 miles south of here, according to a telegram to the general offices of the railroad here.

HENRY ANNOUNCES HE WILL SUPPORT SETTY WACO, TEX., AUG. 31.—Former Congressman R. L. Henry, who supported J. W. Bailey for governor, announced today that he "voted in the decision of the majority" and will support Pat M. Neff.

SHRINERS' DAY IN WICHITA FALLS

(Continued from Page 1) Stamford but due to a shortage in sleepers on this division only one sleeper could be secured to accommodate the nobles from Quannah, Chitticothe and Vernon.

City Dons Party Dress. The visitors were delighted when they found the city had donned its party dress to receive them. The downtown district was gay with hunting and streamers waved in the breeze wherever the eyes wandered. The fronts of buildings were decorated with flags draped in attractive and graceful forms and from cables stretched across the streets others were flung to the wind in orthodox fashion.

Most of the decorations were in national colors, but interspersed with these was everywhere seen the red, gold and green of the banner of the Shrine.

Many of the merchants decorated their display windows in fantastic ways, each after his individual ideas and tastes, yet all in some way suggesting the orientalism of the Shrine. A window in the Maxwell Hardware Co. store has an optical toy railway track, around which with dizzy haste rushes a miniature train of cars drawn by a tiny locomotive, and on the top of this locomotive is fastened a card bearing the likeness of a certain Rube gentleman who is said to be an aspirant for distinction at the hands of his fellow Shriners.

A window in the Art Jewelry store depicts a long line of Lewis-Jones hardware stores as they way across the desert sands in the middle of which is a lake, evidently a lake of sea potable, as one of the camels is in the act of drinking from it. On the burning sands are seen a bull-frog capable of swallowing the entire caravan of camels, two pocket gophers able to hide them all in their cheeks, two prairie dogs beside which the camels are an cricket, and a coiled serpent whose sinuous length would be a weary journey for the desert ships.

In a window in the Lewis-Jones hardware store is a huge teddy bear, riding a bicycle over the desert sands among such articles as spirit levels, hammers and wrenches. Set jauntily upon one side of his head is a red fez and he has an unsophisticated and innocent expression as though he were a candidate for distinction at the hands of the Shriners.

The window of the Southwestern "Tint and Glass Co." is tastefully decorated with a large Shrine emblem of star, crescent and scimitar, surmounted by the figure of a dromedary, the whole being in one piece, and resting upon an altar covered with an altar cloth of blue-gray velvet upon which rest three Shrine emblems in subdued tints of brown, red and cream.

Another tasteful Shrine window is in the store of the Wichita Floral Co., the floor being covered with moss and flowers, with a small lake at the center. At the back of the window is a Shrine emblem composed of white and yellow autumn flowers.

W. W. GARDNER Friends who know W. W. Gardner only as a citizen of Wichita Falls and an officer of the Wichita State bank probably are not aware of his wide experience in guiding travelers across the hot sands of Oriental deserts.

Bill is the Oriental Guide of Maskat Temple. The floor being covered with moss and flowers, with a small lake at the center. At the back of the window is a Shrine emblem composed of white and yellow autumn flowers.

The Frear Furniture Co. displays two large pyramids with the star, crescent and scimitar on the exposed faces. In the window of the Kruger jewelry store is the figure of a coal-black potentate in the habiliments of the east, and with a large diamond in his whiskers, sitting with crossed legs upon a red plush dais beneath a gorgeous silk canopy. On the sands before and about the dais are black slaves, standing, waiting and kneeling, but each one having some glittering specimen of the lapidary art in his custody.

The Dixon Motor Co., on Scott street, adjacent to the City National bank building, has fitted up its display room, 59 by 50 feet, as a rest room and rendezvous for visitors to the city. Here are tables, couches and armchairs, some with rockers and others without; writing materials, a cool breeze, ease and hospitality. This service will be maintained while the Shriners are in the city.

A Cayton of Claude, Texas, a former well-known resident and one-time county tax assessor of Wichita county, is here today with the Shriners and visiting his niece, Mrs. D. C. Walker.

ARE VOTING TODAY ON GENERAL PAVING LAW

Confidence is Expressed in Success of the Proposition When Vote is Counted

An election is being held today to decide for or against the adoption of Wichita Falls, of the state's general paving law.

Heretofore a single obstructionist on a block or street could veto the paving of that block or street. By refusing to join in the movement he could halt the paving or at least leave a gap in it in front of his property.

The Texas general paving law applies only to such cities as elect to adopt it, and it provides that the city may order the paving of any street within its boundaries requiring the owners of property abutting thereon to pay any portion of the cost of such paving up to and including 75 per cent.

The city must bear the cost of at least 25 percent of all street paving and must bear the entire cost of paving street intersections. The cost of sidewalks and curbing, however, is a burden that rests entirely upon the property owner.

Land Owner Protected. The interests of the land owner are protected by a provision that public hearings shall be held before the order to pave may be issued.

Paving certificates will be issued by

AWARD CHARACTERIZED REACTIONARY DECISION

Such is Construction Placed by W. Jett Lanck of United Mine Workers

WASHINGTON, Aug. 31.—The award of the anthracite coal commission, approved by President Wilson yesterday, is characterized as "the most reactionary award" that has been made by an industrial tribunal during the reconstruction period" by W. Jett Lanck, consulting economist for the United Mine Workers, in a statement made publicly today predicting trouble in the anthracite field as a result of the findings.

"In saying this I do not believe that I am a trouble maker any more than the weather man is a rain maker when with his data before him he predicts rain," he continued. "The anthracite workers are asked to accept a minimum day wage of \$1.25 as contrasted with \$1.00 per day for the bituminous coal workers by the bituminous commission, which by agreement is now being increased to \$1.49 in Illinois and \$1.75 or \$1.76 in Ohio and Pennsylvania."

CASH FREIGHT CHARGES. WASHINGTON, Aug. 21.—The interstate commerce commission suspended today, pending investigation, rules of certain southwestern railroads, requiring payment of freight charges.

YOUNG ATTORNEY HAS OPENED OFFICE IN CITY. C. D. Trauchmann, a well-known young man of Wichita, Pa., has opened a law office in the city with Melvin Peters, an attorney at law with offices on Seventh street.

OVERLAND DEALERS HERE FOR MEETING

Are Entertained With Banquet By Local Representatives for That Company

Over 20 Overland dealers from northwest Texas and southern Oklahoma gathered in Wichita Falls Monday to attend the Overland convention sponsored by the local dealers. The meeting was held in the interests of the extensive Overland sales campaign that is to be conducted throughout the country by the Overland factory at Toledo, Ohio.

At noon the dealers were guests of the Overland company of this city at a banquet in the William and Mary hotel, later adjourning to the sales rooms of the company, where business sessions were held. R. E. Shepherd, cashier of the City National Bank & Commerce, addressed the assemblage on various aspects of the banking business as applied to the automobile, outlining the general methods used in the financing of local auto concerns and the things that an automobile dealer should expect from his banker. Mr. Shepherd denied that the automobile was now considered as a luxury, and in proof of this cited instances wherein even the pleasure car was being used in business and was proving itself indispensable to the business and professional man.

W. J. Langberry, sales manager of the Overland company, of this city, then took the floor and explained the new sales campaign that is to be conducted by the Overland company of Toledo. Cash prizes amounting to \$20,000 are being offered by the main factory to those dealers making the greatest number of sales in proportion to their contract allotment. This will be based on the actual number of cars sold and delivered, and the winners from all over the entire country are to be the guests of the Overland company in Toledo at a \$2,000 banquet. This feature was added as an incentive to the already handsome offer of cash prizes ranging from \$1,000 to \$100.

The dealers unanimously declared themselves in favor of the plan and without exception indicated that they would do their best to send a big southern delegation to the Toledo banquet. A novel feature of the day was the menu served at the banquet. It was listed as follows:
Hull Bearing Olives, Pick Cord Celery
Radiating Leaky Soup
Clutch Leather Pork
Hub Cap Potatoes, Timken Peas
Non-rolling Universal Joint Salad
and W. Dressing
Engine Food Gasoline Cake
Ignition Coffee
French-Drip Special Blend Tail-Light
Cigars

TWO TRUCKS COLLIDE AT POLK AND TENTH

The scene of the daily automobile smash-up was shifted from the downtown section to the residential district Monday, the only accident reported having come from the corner of Polk and Tenth streets. Two heavily laden trucks were the principals, and as a result of trying to pass each other on the same side of the street both machines were put out of commission. One truck, owned and operated by the Coca Cola Bottling Company, had one wheel completely torn off, a running board splintered an dime side of the body bent and broken. The other belligerent was loaded with lumber and other construction supplies. The radiator of this car was completely wrecked, the lights broken off and the front of the frame twisted and bent. Spectators of the accident are alleged to have stated that one of the machines was driving on the wrong side of the street and was entirely to blame for the accident.

TABLOIDS

SAN ANTONIO—Diogenes' search for the honest man is finished. Ed Delair loaned his car to two men who said they were in a hurry to get into town. He designated a place for the car to be returned. The car was found there.

ALBANY, ORE.—Because she says her husband maintained a hog's den on the front porch and a bath room for the family porker in the back yard, Mrs. Alice Titus is suing for divorce.

LOS ANGELES—After being imprisoned for eight minutes under an auto completely submerged in the Napier canal, Mrs. Warner Sobets was rescued. An air pocket under the top of the machine saved her.

Eczema Caused Years of Intense Agony

"I have suffered intense agony from eczema on my leg and other parts of my body for years and received only temporary relief from other preparations. It is only a month since I started to use PETERSON'S OINTMENT, and there is no sign of eczema or itching. You can refer to me—Geo. C. Talbot, 27 Peabody Street, Buffalo, N. Y."

"I've got a hundred testimonials says Peterson of Buffalo just as sincere and honest as this one. Years ago, when I first started to put out PETERSON'S OINTMENT, I made up my mind to give a big box for 50 cents and I am still doing it, as my drugist in the country knows."

"I guarantee PETERSON'S OINTMENT because I know that its mighty healing power is marvelous. I say to every one who buys a box that it is rigidly guaranteed for eczema, all rheum, old sores, blind, bleeding and itching piles, ulcers, hemorrhoids, chafing, burns, scalds and sunburns, and if not satisfactory any drugist will return your money." Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.—Wilford-Harrison or Sansbury Drug Store will supply you.—Adv.

Amusements

DAREDEVIL OF SCREEN IS SHOWING AT MAJESTIC

Tom Mix, the "daredevil of the screen" is appearing at the Majestic in his latest thriller "3 Gold Coins" a stirring western drama released by William Fox. In this picture Mix is seen at his best, providing innumerable thrills of daring.

The plot of the story centers around the mistaken identity of a respectable cow puncher, whose startling resemblance to a murdering bandit gets him into trouble on several different occasions. Mix appears in both roles and furnishes the climax of the picture when, as the cow puncher, he captures the bandit. In as much as both of these characters were played by the same person some complicated photography was necessary.

The supporting cast includes Margaret Loomis, Margaret Cullington, Sylvia Joseph, Frank Whitley, Berg Hudson and Dick Kueh. The story was written by H. Van Loan and was directed by William Fox.

"SAUCE FOR THE GOOSE" IN ATTRACTION AT PLAZA

"Sauce for the Goose," the latest Select picture in which Constance Talmadge appears, is the attraction at Plaza for Tuesday only. As its name implies, the picture is one of comedy and is of the type that Miss Talmadge seen to her greatest advantage in. The plot centers around the life of a pair of newly weds, the lesser half of which is an aspiring journalist. Most of his work is done in conjunction with

a designing widow who is writing a book entitled "Woman's Struggles." The complications that arise from this business relationship furnish most of the action of the play and the manner in which the young bride wrecks a perfectly good team of authors is little short of awe inspiring.

ETHEL CLAYTON PLEASES "LARGE EMPRESS CROWDS"

"Crooked Streets," with Ethel Clayton in the title role "delighted larger crowds at the Empress theatre Monday. Always a popular favorite, Miss Clayton only added to her following in this city by her presentation in this latest Paramount-Aerograph picture.

The ancient city of Shanghai in China was chosen as the scene of the production and decidedly oriental effects were obtained throughout the entire film. Native-cunning and treacher's play an important part in the story and the main action of the film is obtained through the abduction of a United States Secret Service Agent who is in the city on the trail of opium smugglers. Miss Clayton appears in this role, although her true identity is not revealed until the very last. A strong supporting cast was secured to assist in this play, and combination of star, cast, photography, scenery and direction has evolved a screen production that is scoring heavily on each presentation.

NORMA TALMADGE HAS ADMIRABLY ADOPTED ROLE

Miss Norma Talmadge has a role which is admirably adopted to bring out many talents in the Olympic attraction "The Woman Gives." She plays the role of a young artist who risks her greatest happiness in order to re-

pay in full a debt of gratitude she owes for her start to success. The result of this course and the circumstances which lead to her happy conclusion make one of the most entertaining film productions that has appeared on a local screen for some time. Several unusual scenes are portrayed, among them one that was not called for in the scenario. A six months old youngster was being used as model for the artist and it was intended that the baby should amuse the audience by some of its antics, but instead it calmly keeled over and went to sleep while the camera man received instructions to keep his machine going as long as "the star" showed any inclination to continue with its slumbers. "The Woman Gives" is proving to be one of Miss Talmadge's best productions and those who witnessed it Monday were unanimous in their avowal that it is a picture well worth seeing.

FOR INNOCENT NEGRO

DALLAS, Aug. 21.—To atone for miscarried justice, subscriptions to a fund for Ben Perry, a negro who served eight years of a life sentence in the state penitentiary for a crime of which he was innocent, are being daily received by Dan Harston, sheriff of the Dallas jail. Sheriff Harston obtained a confession from Green Hunter, another negro who was hanged in the jail here recently for attacking an aged white woman near Dallas, that he was guilty of the crime Perry was convicted of—an attack on a young white girl at Bryan, Texas. The sheriff hopes to raise a considerable portion of the fund in Brazos county, where Perry was tried.

DISPLAY ATTRACTIVE FEATURE OF OCCASION

Perkins-Timberlake Company Show
Windows One of the Real
"Shows" of the City

A special compliment to the Shriners was the opening of the beautiful display show windows at Perkins-Timberlake's new store on Indiana Tuesday morning. The windows were real masterpieces of the decorator's art and attracted the most flattering attention from visitors and local people all day. T. A. Bradley, superintendent of advertising and display of the firm, conceived and designed the color scheme and fixtures for the unit setting used throughout and supervised the details of harmonizing splash of beautifully tinted plush. The designs and colors of the setting and the raffishness of the display scheme, with only two of the features in each window, is a real treat to the lover of beauty in line, color and design.

BERRIES AND CHERRIES IN MIDWINTER POSSIBLE

WASHINGTON, Aug. 31.—Fresh berries and cherries in midwinter are possible, the experts of the department of agriculture announced after extensive experiments. Successful methods of storing fruits and berries in frozen condition have been demonstrated and, the government experts

say, these should be more fully utilized in relieving the market of surplus receipts of highly perishable fruits while in sound, edible condition. They declare that preservation by freezing is cheaper than canning, especially when tin containers are scarce, as at present, and an important industry of steady development is looked for in this line.

Fruit held at proper temperatures, the experts say, has a more natural flavor than when canned or dried and is fully as satisfactory as fresh fruit in making ice-creams and sherbets and for cooking in the form of pies, preserves, jellies and other desserts and confections.

Strawberries, red and black raspberries, blackberries, loganberries, blueberries, gooseberries, currants and sour cherries have been found to keep successfully after being frozen. Berries can be frozen in the crates in which marketed by temperature from 10 degrees Fahrenheit to zero and below and withdrawn from cold storage when wanted. The fruits became waterlogged when taken out and collapsed and therefore must be used immediately, government experts say, however, that they retain their natural flavor and in every way are comparable to the best fresh products.

Levin Deputy, of the Dallas News is a visitor in the city today.

WOMAN TO TESTIFY AS TO DEATH OF THE MAN BROUGHT TO HOSPITAL

CHICAGO, Aug. 31.—A phantasm bandit stalked through the inquest today over the remains of Howard R. Rhodes, shot to death near here yesterday.

Rhodes was killed while auto riding with Mrs. Gladys Jacobson. The woman drove the car to a hospital. Rhodes' form sagging beside her. She was to be the main witness at the inquest today and her appearance was assured by her former husband in whose custody she was released late yesterday.

Mrs. Jacobson said the motor had stalled in "Lovers Lane" near here but was about to start again when a bandit appeared in the roadside brush. Rhodes, she said, hastily fired an automatic and the robber, dashing to the rear of the car, fired from there a bullet passing through Rhodes' neck. The bandit disappeared then and she hurried to the city.

Police wondered over some actions of the woman's story, puzzling over the fact that the bullet killing Rhodes entered the right side of his face and rained downward, that his revolver was found in the road.

Rhodes was married and has a young daughter. According to her father in law, L. L. Merriam, Rhodes never had been suspected of philandering as Mrs. Jacobson's story indicated.

LARGE APPROPRIATIONS FOR SCHOOLS OF TEXAS

AUSTIN, Aug. 31.—A total of \$62,412,965.52 from state funds has been appropriated for educational purposes during the approximate three-year administration of Governor W. P. Hobby, according to figures in the state department of education, which show the following division of the total.

Higher education, \$8,572,525.31; normal schools, \$2,228,891.31; educational clemency institutions, \$2,045,556.52; public free schools, \$46,408,992.15; departments for educational purposes, \$2,258,991.34.

The most liberal appropriations ever granted by the state have been made for the next school term. These appropriations include a total of more than \$4,500,000 for higher educational institutions, the statistics show. The sum of \$2,000,000 was appropriated by the thirty-sixth legislature for aid to rural schools whose taxable values

were low and more than that \$1 million dollars was appropriated for state normal schools.

The per capita appropriation for public schools during the coming year also reached a record figure with the increase from \$3.50 to \$4.50. This increase it is estimated will add \$1,500,000 to the public school funds, the total of which is set at \$18,126,553 for next year.

Governor Hobby declared that the adding of this \$6 to the amount appropriated for each school child was the proudest act of his administration.

The special session of the legislature convened as the governor in May appropriated four million dollars for improvements and repairs at institutions of higher learning.

The first text book amendment to the constitution was adopted during the administration of Governor Hobby, who approved it. It has approved appropriations of \$3,500,000 to put it into effect.

Vernon News Budget

Coal for Vernon.

VERNON, August 31.—An additional 500 tons of coal for Vernon have been secured by J. J. Showers, chairman of the fuel committee of the chamber of commerce. Mr. Showers reported to the directors at the regular meeting last night. Despite this addition, Vernon will be short 1,600 tons, according to estimates prepared by local dealers. The directors reiterated their warning to the public to make arrangements for fuel at once.

Vernon is likely to be cut off of the Colorado-Gulf highway unless roads are repaired. Seventy-five cars were pulled out of the mud between Vernon and Toibert last Sunday. Tourists are now being routed south of Vernon so as to avoid bad roads in this and adjacent counties. The tourists travel heavily through Vernon both ways.

The directors voted to send a representative to Dallas next Wednesday when farmers, cotton seed men, bankers and members of the Texas chamber of commerce and other state organizations will confer about the cotton situation. It was pointed out that cotton seed is selling in South Texas at \$25 a ton, against last year's price of \$20 to \$22. The reason assigned by the oil men who say are unable to pay more than \$25 is that they have a low market or no market at all for cake, hulls, interest and so on.

The Vernon chamber of commerce will send a representative to this meeting, with hope that a solution may be found for the situation and protect the farmers' interests.

And sewer and city owned light system was brought up and the inspectors went on record for the extension of these facilities. It was argued that not only our water and sewer connections were necessary from a sanitary standpoint and the light from a protective standpoint, but it is evidently unfair to collect taxes from everybody and not supply everybody with these facilities.

Drilling Activities.

VERNON, TEX., Aug. 31.—Casing has been set in the Buckeye National, in section 47, block 2, near the Sigler well. An extension of the Sigler proven field is likely indicated by the Buckeye, which has encountered a favorable showing at 2650 feet. The drill is 11 feet in the sand, but it is not paying quality. They are rat-tailing through a lime caprock of two or three feet. They are so hopeful of having a well that they have decided to case the well and refuse to sell any of their acreage, but for the other hand, attempted to purchase additional acreage adjoining the well. If this test proves a well it will prove up territory three miles east of the Sigler well. With the Greco well proving up territory three and a half miles northwest and the Buckeye likely proving up three miles east, from the Sigler discovery well, operators are wondering as to where the trend of developments will go, and in the meantime, they are playing a waiting game and buying up acreage. It will be two weeks before the extent of either of these wells will be known. The discovery of the Greco well and

the showing of the Buckeye has served to revive a number of ventures that have been halted on account of various causes. Many concerns that started out to drill and were discouraged by failures of other concerns are preparing to push their ventures.

The Lee-Flowers well in the Sigler field is another attraction. They are still drilling.

The Magnolia Petroleum Co. reports another well on the Houston & Texas Central lease in Wilbarger county. The well is said to be good for 75 barrels in the shallow sand. This makes three producers drilled in by the Magnolia this month. Their test north of Vernon on the Green farm is attracting attention. This test is down below 2500 feet and still drilling.

Neff Vote Surprise.

VERNON, TEX., Aug. 31.—Revised returns of the primary election of last Saturday indicates that Fat M. Neff is leading Joseph Weidon Bailey in Wilbarger county by a majority of 194 votes. Fifteen boxes out of 17 give Neff 956 votes and Bailey 802 votes. The two missing boxes will not have a voting strength of 20.

In the July primary, Bailey carried the county by a plurality vote of 681, but failed to get half the votes cast. The vote was Bailey 684, Neff 462, Thomason 229, and Looney 124. The combined votes of Neff, Thomason and Looney was 816, and Bailey had 684. Neither one of the candidates spoke here, and the county going for Neff was a surprising feature of the election, as both Neff and Bailey supporters conceded Wilbarger county to Bailey. The open shop question here was strongly injected into the race, and was the issue.

ROOKIE SAILORS ARE ATTRACTED BY SHORES OF THE GREAT LAKES

CHICAGO, Aug. 31.—The urge that prompts the street car conductor to take a side trip for the day off and the printer vacationist to drop into the office to see if the forms are still rolling to the press has attracted the rookie sailors at the Great Lakes Naval Training Station, Uncle Sam's huge school for new sailors a few miles north of Chicago.

Scores of the 7,000 or 8,000 boys on the station visit Chicago every day, and invariably the majority hike down to the water front, where they spend many of their leisure hours climbing over any ship whose watchman will welcome them or riding about the harbor. The dozens of small excursion craft which ply between the Municipal Pier and Lincoln, Jackson and Grant parks made few trips without any new recruits from one to a dozen blue clad sailors aboard.

Most of the boys are from the middle West and the greatest part of them never saw a body of water any larger than the old swimming hole before they reached the Great Lakes.

One of their favorite rallying places in Chicago is the old Commodore, whose wooden hull was once the pride of Commodore Perry's fleet. Several years ago the Commodore was towed around to Grant Park, engulfed in a breakwater and then surrounded by an earthen fill until she rested on dry land. Romedel inside, the ancient ship is now the offices of the naval commandant in Chicago.

Of most interest to the recruit jacks, however, is a battered, rust eaten hulk lying alongside the Commodore. A dirty white conning tower, its hull amidships, still flaunting the yellow shield and the black double eagle of Prussia, with its flamboyant motto of "Gott Mit Uns."

The ship is the U-97, a German commerce raiding submarine with a long list of victims to its credit. Beneath the eagle her home port is given as "Holland-Zeebrugge," the German wartime submarine base in Belgium. The U-97 surrendered to the allies at Harwich, Eng., after the armistice and was allocated to the United States.

The U-boat is a wreck now. Its deck gun has been dismantled and lies on the dock, while the engines, periscopes

and other working parts have been sent to Annapolis for study by the midshipmen.

Alongside the U-97 is the S. C. 419, one of the American submarine chasers which helped drive the German submarines from the sea.

MEXICO IS INTERESTED IN TEXAS STATE FAIR

DALLAS, Aug. 31.—That the state fair of Texas will be highly instrumental in bringing about a closer understanding between the United States and Mexico is attested by the interest being shown in Mexico over the Mexican National Exhibit, a feature of the fair to be held in Dallas October 9 to 24.

One of the most encouraging aspects is the support influential newspapers of Mexico are giving arrangements for the exhibit. Two papers of more than passing prominence, El Universal and Excelsior, recently commented at length on the coming portrayal of their country's wealth in the United States.

"The Mexican exhibit of natural and manufacturing products, to be shown in Dallas, Tex., at the state fair this year, will be more complete and interesting than any other shown in any foreign country, insofar as Mexico is concerned," says Excelsior. Continuing, the article says:

"The arrangements already made by the department of commerce, so that Mexico will be duly represented in the Texas city. Prospects are indeed

very favorable for a prosperous success.

The department of industry, commerce and labor thinks this fair affords a brilliant and lasting opportunity (which should by no means be overlooked) to open the way and form a great market for our products.

The Mexican government, in its endeavor to have the best and as many exhibitors at the fair as possible, has not omitted any expenses in selecting a committee to arrange and prepare the Mexican Coliseum, which will be made so attractive as to surpass that of any of the Latin-American nations."

The newspaper prints a circular recently sent to all confederate chambers of commerce of Mexico, giving reasons why all the producers of the country should attend the Texas state fair, "for their own convenience and for the good of the country in general." This circular was signed by

General Trevino, secretary of the department of industry, commerce and labor.

Other details of the state fair are rapidly nearing completion in preparation for opening the gates October 9.

Texas may have an opportunity to see how good a cattle raiser Governor James M. Cox of Ohio, the democratic presidential nominee, is. The governor is considering entering some of his prize Herefords in an exhibition on Hereford Day at the state fair.

J. C. PENNEY CO.—A NATION WIDE INSTITUTION. J. C. PENNEY CO.—A NATION WIDE INSTITUTION.

The SPORTLIGHT

by Grantland Rice

(Copyright, 1920, New York Tribune Inc.)

A DUFFER'S QUESTIONS

Tell us, Grantland, tell us truly—
You're some golfer we'll agree—
Do you ever top the pellet
When you're driving off the tee?

Then, with brassie in the fairway,
Set to give the ball a ride,
Do you ever dub your second
Straight against the bunker's side?

Or with niblick in a sand trap,
Do you shoot it fair and high,
Or just sock it on the noodle,
Giving it a deeper lie?

When, with washie you're approaching,
Do you get the pitch and roll,
Or look up and sometimes see it
Nowhere near the bloomin' hole?

Come on, Grantland, tell us dubs who
Read "The Sportlight" every day,
How are Barnes, Ray, Vardon, Hagen,
Do you ever get that way?

—George W. Martin.

I've seen Hagen top a brassie,
Ted Ray slice into a rut,
I've seen Vardon stand and quiver
As he blew a two-foot putt.

I've seen all the stars in bunkers,
Tossing sand with eyes aflame,
For, as George Law did put it,
"Golf is sure an 'umblin' game."

In addition to the honor and the acclaim it will mean at least \$5,000 to each ball player to be listed on the winning end of the next world series. It will mean close upon \$4,000 to each member of the beaten team. With the two races as close as they are, a few weeks \$5,000 may not be as much money as it used to be—but it is still nothing to be thrown out of the window.

IN RESERVE

"Tilden," writes an English tennis critic, "has as fast a service as McLaughlin, but he doesn't make the mistake of using it at every chance. He always has something in reserve."
Harry Vardon can drive almost as far as Ted Ray when he cares to hit one. But he would rather save his slugging for an emergency or for a long hole where distance is essential.

One of the strong points of Christy Mathewson's pitching was the fact that he always had something in reserve. Let the Giants get four or five runs for Matty and he immediately eased up. For this reason the record of earned runs against him doesn't indicate his true class.

There are many types who can take the risk of slacking up. For once they do they lack the ability to get going again.

ASKING A WHY?

Dear Sir: Why is it that baseball crowds don't know how to fair? Years ago in Pittsburgh I heard them bawl Wagner out for fanning three times in a game when he had won hundreds of games for the same city. The terrific fanning that Cobb received in New York recently was the most unspportsmanlike thing I ever saw—a typical example of the cowardice of the mob. In another recent game I heard many fans around me say as pitcher Collins came out: "Here comes old Rip." "Oh, you, Rip!" Three innings later they were yelling: "Take the bum out!" Yes, they're a fine lot of sportsmen.

—READER.

The wonder is that most ball players don't come into a crabbed existence. To be cheered one day and panned to a livid finish the next is always a souring episode in one's existence. The ball player on the average has developed a philosophy through complete realization of the fickleness of the crowd.

Only one of them can win, but Cincinnati, Brooklyn and New York, in the National League, have all shown first class gameness through the pennant fight now drawing to the final stages. Cincinnati and Brooklyn have both come back repeatedly after their reverses and so far have refused to break under pressure and disappointment. The Giants had a long way to come, but they have been plugging their way forward for many weeks. The spirit of the six contenders—the three already mentioned, with that of Chicago, Cleveland and New York, in the American League, has been noteworthy all the year.

After Larned it was McLaughlin. After McLaughlin it was Williams and Johnston. Williams won the tennis championship in 1916 and Johnston in 1919—with Lindley Murray victorious in between. Cincinnati and Brooklyn may very likely add a new name. If Tilden comes safely through there can be no question as to his 1920 ranking. As holder of both the British and the American championships his place on the pinnacle would be unchallenged. But not even a Tilden faces any certain victory against a field composed of Johnston, Williams, Davis, Garland, Griffin and one or two others. The test will be as rugged here as it was in England, with the big international field on hand. Stopping the Californian assault alone is the work that belongs only to a master.

Encle Sam is two down in the golf round-up, with one to play. But the bye hole—which happens to be the amateur championship—will be well worth winning. But with Herron, Fexas, Guimert, Jones, Garrison, etc., on guard, any advance worrying is a bit out of place.

Battling Levinsky may not be the world's greatest fighter, but Carpenter at least will find that he isn't a Joe Beckett. Levinsky will at least be good enough to let the star Frenchman prove his true worth. If he wins decisively the Lemper engagement will be arranged in short order.

Sport Shots

By Paul W. Larkin

Dig down, fans, and show your appreciation. Money talks. Be on deck, Friday.

The Spudder moguls have done their bit, it's up to you.

We haven't missed a game at Athletic Park this season since the first home series, but yesterday's matinee wins the fur-lined overcoat. The men fought over every ball pitched and played good, clean, snappy ball for nine innings.

There'll be some more like it before Friday, too. The last bargain bill of the year is carded for tomorrow with the Panthers doing the growling.

We have always maintained that Hudspeth possessed the goods, but could not control it. His control yesterday and the answer is now a matter of history. Still, it was a tough one for Bono to lose.

Buddy Tanner will be missed in the Panther series. Buddy feels bad mentally as well as physically and stated last night that he would rather have played in the present series than any series of the year. The fans have probably seen him in action for the last time this year.

Darrow, recently acquired by Skipper Bain from the Eastland club of the West Texas League was in uniform yesterday, but it is doubtful as to whether he will work here or not. He will give Eberhard a rub for the "diminutive" honors.

Evidently some of the Reds cannot stand prosperity. Nick Allen and Slim Salter recently cleaned up a bunch of "jack" in oil and Pat Moran is asking waivers on Salter while Allen had a line tacked on him for failing to keep in condition. The boys must have taken Reuther along on the party as he was nicked a week's pay for failing to keep in condition to pitch.

However, we note that Pat merely fined Allen and Reuther. Salter is about done, anyway, but Walter and Nick are going too good to draw a suspension, even.

Once again the leaders in the big show were bumped off by the supposedly less dangerous clubs. It looks as if the pennant winners will be decided upon during the last week of play.

Buddy Naper is making good with a bang in the big show. He won his second straight game for the Reds yesterday.

Notice to Bricklayers.

You are hereby notified to call at the Hub Clothing Store to get your Labor Day uniforms before Sept. 3. Store closed on Labor Day. Committee. 118-51p

BE AN OPERATOR OF A LINOTYPE, INTERTYPE OR MONOTYPE MACHINE

Vernon Ranka Second.
VERNON, Aug. 31.—Ranka, of the Amarillo territory had on deposit January 1, 1920, a total of \$62,977,252, according to a report issued. Vernon had next to the greatest amount, being exceeded only by Amarillo, Amarillo deposits were \$11,246,217, and Vernon \$1,079,016. Children ranked third with \$2,557,225, followed by Plainview with \$2,202,000. "Towns with" more than \$2,000,000 are, Quanah, Clearendon, Lubbock, Memphis and Wellington.

Flood is Expensive.
VERNON, Aug. 31.—County Engineer Maltby estimates the recent heavy washing rains cost Willbarger county between \$2,000 and \$3,000. The condition of the highways leading to Vernon have been almost impassable as the roads were badly washed, but they are now being put in shape by the commissioners. Delivery of mail has been curtailed in the rural districts.

Suits Are Settled.
VERNON, August 31.—Hoyt suits against the Texas company have been settled out of district court by dismissal. These suits originated by parties signing off leases for the Texas Handmade new oil to be erected upon the site.

Workmen are Engaged.
VERNON, August 31.—Workmen are engaged in pulling the four Kinchloe trucks recently destroyed by fire and causing the death of three parties. All the brick walls are being torn down. Handmade new oil to be erected upon the site.

Your Doctor Will Advise You To Drink Pure Apple Juice and Apple Cider

SOURCE REPUBLICAN FUND IS REVEALED BY EVIDENCE TODAY

PREPARED TO PRESENT LIST OF CONTRIBUTORS

Democratic Members of Committee Due to Give Witness a Grilling

CHICAGO, Aug. 29.—(Special) Under oath that he had ever seen, heard of, or ordered made for the list of campaign...

Mr. Upham also denied flatly that the official bulletins issued from his office to the various cities...

Seven hundred thousand dollars was added to the republican campaign fund figures revealed by Chairman Hays yesterday when Mr. Upham revealed that the republican senatorial and congressional campaign committees are to raise independent funds...

Mr. Upham admitted that only \$600,000 of the money actually received in the 1920 campaign as the senatorial committee was to get only \$100,000 before November 2.

Senator Reed, cross-examining Mr. Upham, brought out the fact that the money advanced to the committee was on straight loans and was not included in the budget of approximately \$400,000...

Where will they get the money to pay back these loans? Senator Reed asked.

That means they will raise that money in addition to the budget you raise, and return it to you?

There will be just that much more added to your campaign fund?

Not to our fund.

Who need not contribute. You know and I know, Mr. Upham, that when money is put into any campaign fund it is put there to help all the candidates.

MILLION DOLLAR SUIT FILED BY BABE RUTH

Movie Concern and Vaudeville Theaters Infringing On Rights

NEW YORK, Aug. 21.—Babe Ruth has filed suit for \$1,000,000 damages against a movie concern and five vaudeville theaters alleging infringement of exclusive rights to a motion picture in which he appears, it was learned today.

Supreme Justice McCook yesterday evening granted a temporary injunction restraining the Educational Films, Inc. R. F. Keith, New Theatre and five other vaudeville houses from showing a film depicting "Babe's" prowess as a home run hitter.

Charge Filed in Court Result of Attempt to Kidnap a Houston Editor

HOUSTON, TEX., Aug. 31.—Charges of false imprisonment were filed in justice of peace court here today against Lieutenants R. E. Abbott, J. A. Dempsey and Julia R. Smith, state guardsmen on strike duty at Galveston, alleged to have tried to kidnap G. D. Sanders, editor of the Houston Press, from the Houston Country Club last night.

GEN. WALTHAM TO ISSUE A FORMAL STATEMENT
HOUSTON, Aug. 31.—As a result of numerous expressions of indignation over an attempt last night of military police from the Galveston military law zone to arrest G. F. Sanders, a Houston editor, at the Houston Country Club, General J. F. Waltham, in command of the military zone, indicated today he would issue a formal statement shortly.

BURKNETT SHOW CASES BROUGHT HERE FOR TRIAL
Yesterday, at Burkburnett, two of the 12 cases pending against proprietors and operators of moving picture shows were tried before the local magistrate and convictions were secured in both cases.

GERMAN DUPLICITY AGAIN IN EVIDENCE

WASHINGTON, Aug. 31.—Germany is dumping its surplus of inferior goods in the United States and England, and in marking its exports to Great Britain "made in America," and its exports to the United States "made in England," official advisers received here today stated.

Germany exporters are following this practice, the advisers said, in an effort to regain their former foreign markets and to realize following large sums on manufactured articles which otherwise might not be sold because of popular prejudice.

Fourteen states were represented in the reconstruction policy to rehabilitate industry and open new fields stressed by candidates.

MARION, Ohio, Aug. 31.—Republican governors had their turn today on Senator Harding's front porch calendar, journeying to Marion to pay their respects to the republican nominee and to hear an address by him on reconstruction and conservation of the nation's natural resources.

THE need of an after-war reconstruction policy to rehabilitate industry and open new fields of enterprise, particularly in the west, was stressed by Senator Harding in the address.

Fourteen states were represented in the reconstruction policy to rehabilitate industry and open new fields stressed by candidates.

Meat Packers Dispose of Stockyards Interests to Boston Organization For High Sum

WASHINGTON, Aug. 31.—Plans of the "big five" meat packers for the disposition of their stockyard interests, required under the decree recently entered into agreement with the department of justice, contemplated sale of such interests in 15 cities to F. H. Prince and company of Boston.

MARTHA MANSFIELD AND JOHN BARRYMORE

PRESIDENT WILSON has introduced many innovations into the White House. None of them, however, is more indicative of his close sympathy with the citizens of the United States and his desire to know how they work, how they play, and what their sentiments are, than the installation of a motion picture projection machine in the famous East Room of the Executive Mansion. Even when his illness made it impossible for him to leave the White House, through the medium of pictures he was able to keep in constant visual touch with the world outside. Current events passed in review on the screen before him; the chosen entertainment of the masses—the favorite pictures presented by their favorite stars—became his favorite entertainment.

President Likes Hart.

Recently Louis Seibold, in an interview with the President, which was published in papers throughout the United States, told of the keen satisfaction Mr. Wilson finds in hours spent in the White House projection room. The picture shown on the occasion of Mr. Seibold's visit was "Sand," in which William S. Hart is the star. Thrilled by the adventure, intent of the dramatic story, the President turned to the interviewer when a title which described the hero's lot as being anything but a "bed of roses," was flashed on the screen and said "There have been times when I would have been willing to change with him."

And now it develops that motion pictures will continue to play a large part in the life of the White House family no matter whether the Republican or the Democratic candidate is elected. Both Senator Harding and Governor Cox are motion picture fans. In Marion and Dayton you'll find that each of the candidates has his favorite picture theater and his favorite stars.

You'll find that Senator Harding is strong for the historical, dramatic, stuff with a lot of good acting. He's a John Barrymore fan, for instance and he likes Thomas Meighan, and he's fond of the jolly disposition that Wally Reid shows on the screen.

Mr. Cox' Favorite.

Now, if there's a picture down the street with Elsie Ferguson in it, or Dorothy Dalton or Ethel Clayton or Charles Ray, or a boyhood picture like "Huckleberry Finn" that's where Mr. and Mrs. Cox and the boys are very liable to pilot you.

And when you get into the theater you'll find that presidential nominees are not much different from common-people film fans. They have their favorite seats and their favorite theaters and their favorite stars and kinds of plays.

Governor Cox will insist on steering shy of the boxes at the Southern theater, Columbus, and ask you to sit down in the center of the auditorium where he can see without being seen conspicuously himself.

We film fans have something "on" these other people who have hobbies—there may be doubts as to what the election will mean for the prohibitionists, the suffragists, the laborites, or the profiteers; but there isn't any doubt about how our favorite indoor sport stands with the next President of the United States.

Before a vote's been cast or a speech has been made, we can tell you that

one big vital, throbbing question has been settled right off.

No matter who's elected President next November—Senator Warren G. Harding or Governor James M. Cox—he'll be a friend of the movies; a regular fellow-fan to the millions who follow the films for fun.

That much is certain. We've just investigated both the candidates; put them to the test and they're "with us," as Ring Lardner might not say.

Change of Movie Policy.

Of course, you're not surprised. Any fellow who has a suspicion enough to be a presidential candidate knows how to have fun and how better can you have fun than going moviegoing?

But we must rise right here to announce that there'll be a "change of movie policy" at the White House projection hall, where President Wilson is now the exhibitor. For both the candidates in the arena now have different ideas about movies than President Wilson—that is, they are not so strong for the "Western stuff" or the

detective dramas. Those, you know, are our fellow-fan Woodrow's favorites. We noticed the other day where President Wilson expressed himself as mightily pleased with Bill Hart's stuff, and took delight in seeing Bill pull some of his "hands up" stuff. Now, you probably won't hear "President" Harding or "President" Cox talking like that! They'll get enthusiastic about John Barrymore or Elsie Ferguson or Nazimova or somebody like that—deep stuff, with a dash of history and a spicing of real, hostrific effort.

Does Warren G. Harding like the movies? "I'll say he does," spoke up George M. Hinds, telegraph editor of Harding's newspaper out in Marion, Ohio. "He's a regular fellow, Warren G. is."

Senator Harding, however, doesn't go to the movies for relaxation. He goes because he likes the entertainment, just as he plays golf because he likes the sport or just as he goes to a ball game. He's one of those big, solid

men—not stolid—who sit firm and who don't get all fussed up and need movies or anything else for relaxation.

A Tremendous Influence.

"The moving picture is a tremendous influence today," says Senator Harding. "And the fact that it is constantly progressing toward higher ideals gives promise of it filling even a greater place in public life in the future. When such fine performers as John Barrymore, Elsie Ferguson and others in pictures today, give their best efforts to the silent drama there is bound to be progress and pictured drama will be an influence to the thought of the millions who see them."

Senator Harding was riding along Main street in his car when a bus rattled by. It had all the appearance of having been once a hearse—the trimmings and carvings still remained in spite of the sign "Fare 5 cents."

The Senator laughed and remarked: "That wouldn't be bad for a movie comedy, would it? But wouldn't Fatty Arbuckle have a time-squeezing through that door?"

Mr. and Mrs. Harding had a great time posing for the movie men upon their arrival at their home in Marion and in Washington after the nomination. When somebody remarked that Senator Harding didn't smile enough for "shows," For President or no President, the cameraman, he replied laughingly: "Daddy" Cox will not be able to keep James M., Jr., and John Cox, his sons, away from the select "movies." The boys are both ardent movie fans and so is Mrs. Cox. And by next March 4, baby-daughter, Anna, will be old enough to take notice of the screen, too.

enthusiastic moving picture fans I know," says Manager Maddox of the Southern theater. Mr. Maddox used to run the theater opposite the Ohio capitol in Columbus and the governor frequently ran across the street to see a movie for an hour or so and then return to his executive duties. "He thoroughly believes in pictures," continued the showman. "He has often discussed putting a projection machine in his beautiful new home at Dayton, Ohio—but maybe he has had a little idea that he'd have the White House machine in the near future. The governor always slips into a seat in the middle of the house, just like most movie fans. He never wants to sit in a box, because, he says, he wants to enjoy the picture without being distracted by attention from the audience."

THE SERIAL.

In order to be full of thrills, hair-raising stunts, and spinal chills, each serial I've wisely learned—Quite all of this will need—One hero with at least nine lives, One villain armed with glistening knives, A vamp whose hectic love is spurned, One heroine in need; A rajah, shah, a mandarin, A sultan, czar, and pandarine, (With what these are no one's concerned, They help the tale to speed!) A revolution in full swing, A shaking throne, a quaking king, A treasury robbed, a village burned, A country to be freed; Two trains derailed, a sinking ship, Three aeroplanes wrecked at one clip, Four automobiles overturned; At least one maddened steed; Scenes under water by the score, A bunch o' bombs, s'teen guns or more, And a plot too deep to be discerned By the wisest fan indeed!

—Vera Macbeth Jones.

SECURITY NATIONAL BANK
"The Bank of Dependable Service"
Corner Eighth and Ohio

A WELCOME

To our distinguished visitors: A special invitation is extended to them to make this bank their headquarters while in the city.

We are proud of our record as one of the big financial concerns of the city—the youngest of the financial group.

The Security National opened for business July 1st of this year and now has resources of **MORE THAN TWO MILLION DOLLARS.**

SECURITY NATIONAL BANK
Wichita Falls, Texas

N. B.—

Reuben Robertson, who is connected with this bank by reason of his monthly pay check, is a candidate for the Shrine Ring. During the heated campaign, now about to close, his reputation has been shot to pieces, his moral character wrecked, and his past life has been made to read like a history of Jesse James, and he is confident that no other candidate can show so disreputable a record.

Reuben needs the ring—he yearns for it with an exceeding great yearn and this institution asks you to vote for him.

WHOLE WORLD SEEMS TO BE LOOKING TO U. S. FOR MOTOR VEHICLES

WASHINGTON, Aug. 31.—The whole world seems to be demanding motor vehicles and is looking to the United States for its supply. Records of the department of commerce for the fiscal year just ended, show that automobiles and parts of automobiles valued at \$426,342,376 were shipped from this country. This was nearly nine times the total value of such exports before the war.

South Africa 5,732, Australia took 3,343, Argentina 3,343 and New Zealand 5,238 passenger cars.

The Scandinavian countries also were heavy purchasers of passenger automobiles, Norway taking 3,635 and Sweden 4,955. Spain purchased 2,004, Denmark 2,374, China 1,959, Uruguay 2,745, Peru 1,953, Mexico 2,749, Philippine Islands 2,444, and Chile 619. France imported only 829 passenger vehicles, but it took 1,392 commercial cars. Japan also purchased 1,669 commercial trucks and Mexico 1,917.

The demand for American machines brought with it a corresponding demand for equipment. The valuation of automobile tires exported during the fiscal year 1920 was \$39,919,777, as compared with \$22,430,200 the year before. The total of automobile engines shipped was 39,421, valued at \$6,079,449, compared with 28,445, valued at \$4,431,244 the year before.

several times had it that the emperor had died. Such reports gain credence owing to the fact that in Japan the death of an illustrious person is often concealed for many days. One of the indications that may be taken as serious was the announcement that the lady Aiko Yagamaru, the emperor's mother, has gone to a great shrine at Ise, to pray for his health. One daring newspaper even stated that the emperor was suffering from brain trouble, and has been quite generously reported, but this paper was very soon visited by the police. It is understood that it has been warned that a second offense of this kind will result in its suspension for good.

In the meantime the emperor returned to Tokyo from the country, with the expectation of going to Niako at the end of July, as he generally spends the summer at his villa there. The fact that he was not able to carry out the program was probably what led to the announcement being made by the imperial household to the effect that the emperor "has been" seriously ill, but is now recovering. It adds that he is suffering from glaucoma, "hip gout," nervous trouble and difficulty of speech. While the official announcement speaks hopefully of his improvement and probably speedy recovery, it is quite generally believed that his illness has taken a serious turn, and the worst news would come as no surprise to the thinking elements.

MANY BELIEVE JAPAN'S RULER SERIOUSLY ILL

TOKYO, Aug. 1 (By Mail).—While for some years the poor health of the emperor of Japan has been subject of serious concern to his subjects, and while it has often been rumored that he was far more seriously ill than proved to be the case—it is evident that during recent weeks his condition has become fairly serious.

During the past week rumors have

PLAN CANAL TO BRING MONTREAL NEARER U. S.

MONTREAL, QUE., Aug. 31.—Montreal wants to be nearer New York. And while the city will never change its situation, it may yet become 88 miles closer to the American metropolis, at least so far as freight shipments and costs are concerned. Canadian shipping interest propose to effect the change by means of a large canal from Montreal to St. John, Quebec. The proposition will be put before the international joint commission, which is to meet here in October to

consider St. Lawrence river development. At present Montreal is 424 miles from New York by canal and river. The route is now 46 miles down the St. Lawrence river to Sorel, Que., and then 412 miles up the Richelieu river to Lake Champlain and the Hudson river. But the cutting a canal through the twenty miles between Montreal and St. John, 198 miles would be saved, or a net gain made of 88 miles. Existing canals at the Canadian end of the system are only 6 feet, six inches deep and with a capacity of only 200-ton barges. Those in the United States are of a standard 12-foot draft, and will take care of barges of 1800 tons.

The proposed canal was first suggested before the war but actual work was delayed by hostilities. The river-canal system is declared more profitable because it hits into the eastern industrial and coal district of the United States, while the Great Lakes system does not. **LOS ANGELES VOTES ON WAR MEMORIAL** LOS ANGELES, Aug. 31.—Financing of two great civic projects, a war memorial auditorium and a coliseum, was being considered by Los Angeles citizens today, voting on a proposed \$5,000,000 bond issue. The first of the two issues on the pri-

mary ballot calls for the erection of a memorial auditorium to cost \$4,100,000 and to contain 12,451 seats, or one for every Los Angeles man enlisting in the army, navy or marine corps during the World War. The second project proposes erection of a Coliseum in Exposition Park to cost \$900,000 and, to seat 7,500 persons, to be used for entertainments and athletic contests. The citizen's committee, backer of both projects declared both will be passed by large majorities. "The war memorial auditorium will be the nation's greatest war memorial," Webster L. Weaver, chairman of the committee declared. "It will house

headquarters for war veterans organizations, civic community centers, and convention headquarters. "The coliseum will be the world's largest amphitheatre, and will provide a perfect place for staging the next Olympiad," Weaver said. Plans are already under way to bring the 1924 Olympic games to this city, he said. **TARRANT COUNTY TACKLES SCHOOL TEACHER PROBLEM** FORT WORTH, TEXAS, Aug. 31.—Tarrant county has tackled its school teacher problem from a new angle and

plans a thorough trial of it this winter. If salaries are too low for the expenses, at least two of the districts in the county will reduce the expenses of the teachers. This is being accomplished through the erection of free homes. In the Diamond Hill district, where so many of the children of the packing house workers are educated, a sixteen thousand dollar apartment house has just been completed and will be ready for the teachers September 5. Apartments will be rented for \$5 a month. Eight families can be accommodated in the building. Superintendent Whitener announced a similar building will be constructed during the winter and will be ready for use next

spring. The Diamond Hill district has reached its limit of taxation and therefore could not add to the teachers' pay. But the expenses of living will be cut down. In Sycamore Heights district a similar course is being pursued and two families are living free of rent in an elegant new "teachorage." The same system will be extended to many of the other suburban and rural districts, where it has been difficult to keep teachers because of the low pay. Window Glass put in by Decorators Co. "GUNCE OF PREVENTION"

The unusual rains of this year have brought us abundant crops, and we have welcomed the rains and we would be glad indeed to know that this region has permanently passed from the category of dry countries to that of rainy ones.

But the rain is not an unmitigated blessing and like everything else in the world it brings with it its drawbacks and responsibilities. One of these is the army of mosquitoes that is upon us.

These insects do not hatch in tall grass and weeds nor in "damp" places, as many people suppose. They hatch in water, standing water, usually, though a very slow moving stream is favorable for their incubation. Nearly all streams, even swift ones, have their layous and backwater bays of stationary or sluggish water, in which mosquitoes hatch by thousands and tens of thousands, but unless carried upon the wind or upon some other moving object, they usually spend their brief lives and die near the place of their birth.

Most of the mosquitoes in the city are hatched in the city. Little ponds along the streets and old tin cans and bottles lying about carelessly kept premises and in alleys and on dumping grounds, catch rainwater and are fettered upon by the female mosquito as a depository for her eggs. These are hatched by the warmth of the summer air, whether they are in sunshine or in shadow, and the insects begin life, not as winged creatures of the air, but as "wigglers" swimming in water. This stage of their early career corresponds to the tadpole stage of frogs.

The wigglers live in the water, but they are like whales in one respect (only) in that they must come frequently to the surface for air. The breathing tube branches off from the tail, giving it a forked appearance. The wiggler rises to the top of the water and thrusts this tube up to the atmosphere, a process which must be repeated every twenty or thirty minutes. It is not strong enough to penetrate a film of oil on the water's surface, and if the water is oiled he will drown for lack of air.

The city sanitary department is making strenuous efforts to combat the mosquitoes, but under present conditions the task is enormous and every citizen should render the department all the aid and co-operation possible.

Perhaps there is a pond in the street, ditch near your home. Take your shovel and drain it if you can, and if you cannot, oil it. Perhaps on a vacant block in your neighborhood there is a hollow in which the rains have formed a pond. Think of the health of your family and of your neighbors and pour some oil upon it. If there you have a box or barrel in which old cans and bottles are allowed to accumulate until the coming of the trash gatherer. See that these old bottles and cans are placed therein with their bottoms up, so that they will not catch nor hold water.

Remember that the mosquito is not only uninvited as an annoyance, but that it is by his bite that malaria and fever are transmitted from the afflicted to the healthy—that it is only in communities where mosquitoes do not flourish that "restless chill tonic" and "fateful quinine" are not in demand.

There is much to recommend the suggestion given by former Justice Charles E. Hughes before the American Bar Association that free legal aid bureaus be established throughout the United States, and there is much also in the line of the arguments he advanced to back up his suggestion—that such bureaus would serve to check the spread of radicalism. There is no question but that there is a real fear of courts among the ignorant; there is no question either, but that the ignorant has good reasons to fear courts since they are a rule are unable to employ good legal talent, and too often are the prey of cheap shysters who get from their clients in the end more than the original plaintiff would have had the matter gone by default. The law itself is not to blame, of course, but the average foreigner, who becomes the victim of legal harpies or through ignorance fails to protect his own interest, is not apt to discriminate and he is likely to condemn all courts and laws as traps for the unwary, particularly if he is poor. This condition leads to disrespect or actual hatred of laws, and the result is a radical who, believing the laws are framed for the better-to-do and against him, decides in his own mind that there is no recourse for him in law and he must, perforce, protect his rights in the only way he can conceive of—by evading or breaking outright the laws of the land. Most real lawyers are concerned that actual justice be done. Establishment of such bureaus as Mr. Hughes and other distinguished lawyers advocate would go a long way toward insuring the worthy poor and ignorant of getting justice, which is a matter of obvious concern to every thinking citizen.

The visit of Governor Cox to New York completed the reconciling of any differences that existed among New York democrats toward his candidacy. President Wilson and Mr. McAdoo, who himself was the leading candidate against Governor Cox, both had pre-

viously taken the initiative to smooth over any feeling there might have been, and in New York as in the remainder of the nation, the democracy is presenting a solid and harmonious front, which gives promise of victory. Among democrats there is no real difference of opinion on controversial matters now. Among republicans there are major differences over the League of Nations and the peace treaty and there is, as well, a sharp demarcation between the progressives and the reactionaries, accentuated by the tendencies of their presidential nominees. From a democratic standpoint the national situation looks better and better every day since the San Francisco convention, with a healing of factional wounds and a general and genuine desire to do that which is best for the party as a whole. It will take more than the \$15,000,000 the republican leaders have arranged to spend to keep Cox and Roosevelt out of victory next fall.

A powerful argument for bringing the newly enfranchised women voters to support of the democratic national ticket this year is the support the democratic nominees are giving the League of Nations as the paramount issue of this campaign, and the democratic organization is acting with wisdom in putting under way a real effort to enlighten the women on what Mrs. Gordon Hartman declares "the great moral issue contained in the League of Nations." The purpose of that League is to avoid the dreadful extravagance in life and property of wars, and every mother in the country, particularly those who endured the heart hunger for their loved sons during the great war, will give response to anything that will tend to prevent a recurrence of her own misery or to save future mothers from enduring what she endured. The appeal of the League will prove irresistible to thousands of women and thanks be, they will have opportunity this November to respond to that appeal in a tangible way, that is, with votes.

Charges that republicans, socialists and American party men entered the recent primary would never have been made if Texas would adopt the primary law that is in vogue in a number of other states, particularly in those close states in which opposition party men are willing to stultify themselves to help nominate a weak man for the party to which they are opposed. When a man registers in a state that has the law which Texas might well adopt, he declares his party affiliation, and that shows up on his receipt. When he goes to vote he can secure the ballot only of the party to which he belongs and to which he has declared his allegiance weeks earlier. There is no good reason for letting republicans into democratic primaries or democrats into republican primaries; the amendment suggested would prevent just that.

After five solid months of politics, Texas citizens can now turn their undivided attention to the advancement of the state and the betterment of their own affairs. We are stronger than ever for the four-year term for Texas state officials and making the governor ineligible to reelection and wouldn't object to the inclusion in the amendment of a section providing a salary for the chief executive commensurate with the importance and dignity of his office.

Ten warring European nations suffered a loss of \$3,229,093, potential population as the result of the great war, according to statistics gathered by a Copenhagen association studying the social consequences of the war. The killed totaled more than one-fourth those who died as the indirect result of the war—economic blockades, industrial conditions, etc.—totalled 5,501,900 and the fall of the birth rate, incident to the use of 25,000,000 men in their prime in service is held responsible for the lack of 20,200,000 citizens.

Just Folks

By EDGAR A. GUEST

Be Great of Heart.
 Be great of heart! No fairer greatness lies in skills domain or any golden prize, Fame hath no worth on mortals to bestow Like that which true and gentle people know.

Be great of heart! Too big for petty hate, For narrow purpose or restricted state, Welcome the stranger and be fair to foe, Skill hath no greater splendor to bestow.

Be great of heart! Neighbor and friend to all, Stand by the weaker brother lest he fall, Give to the poorer, soothe the saddest breast, This is true greatness living to his best.

Be great of heart! One who men's worth exalts, And scorns to mark their trivial aims, There is no greater office to life's end With more rewards than that of just a friend.

Side Talks

By RUTH CAMERON

Looking Back on Your Present

Oh dear, I didn't realize how happy we were last summer! A friend of mine said to me the other day, "The children were well, and father hadn't had his breakdown and John's business was going along smoothly. As I look back at it now, it seems like paradise."

"And didn't you think it was then?" I asked.

"Merely no!" she said, "I was so disappointed because they didn't make the alterations they promised us in our cottage, and because I had to give up that trip I planned, and so upset because I had to have two of John's cousins for two weeks when I wanted some friends of my own, that I thought I was having a horrid summer. Horrid, as I know it, because I meant, then! Oh, why can't we recognize we're happy when we are? We look back at blessings and know they are blessings. I guess I must be a very ordinary person, my present blessings instead of my past ones. Next time I have any, I certainly will."

"Next time," I asked, "isn't that what you've had last summer?"

"You mean..."

"That you have some now that you don't look back at some other time, when you looked doubtful for a minute or two, then she nodded."

"Yes," she said, "you're right. Jack did have the infantile paralysis, but he is getting better and many children die or are lame for life. And of course it is a blessing that father has money enough so that he can have everything done for him. And of course John's business isn't as good as it was during the war, but he isn't carrying any heavy credits like some men."

"I'm glad," I said, "but wouldn't you like to see the conditions in which you would look back upon this time as blessed?"

"Certainly," she said with real energy. "Are you wonderful to make me realize it?"

"Wonderful!" said I. "Hardly. The wonderful thing would be to make myself realize the same thing. When I'm blue, that's where the hard part comes."

"The next time you feel you need to look back on your present blessings," she said, "you call on me."

I promised, and on that contract we parted.

Of course I know such a way of looking at things doesn't actually change circumstances, but to convince me that it doesn't help would be a hundred times more than I can put Humphy Dumpty back on his wall.

"I don't suppose there is anyone who after the loss of some blessing, especially such a blessing as mine," she said, "oh, why didn't we realize our blessings when we had them?"

"Well, why don't we? Why don't we use my neighbors' example, and on our present blessings instead of our past ones?"

"Try it with us some day and see if it doesn't help."

RIPLING RHYMES

By WALT MASON

Let's Rise, It's A Good Deal.
 Let's rise, it's a good deal, leaders, and form a union strong, to punish all the speeders who rush their cars along, with terror dire, they fill us, they make us weak, and make us try to maim or kill us, and grumble when they fall. The streets are scenes of danger, where speed laws won't stay out, and heeds are being heeded, who tries to cross on foot? Some reckless, homehead driver will promptly climb his frame, and will not care a silver dime, many more he'll maim. Oh, every night I wonder, when I retire to bed, that I'm not torn asunder, that I still have my head. For all the day I'm judging dirty cars propelled by foul, and when I reach my lodging the sweat drips down in pools. I count my legs and knuckles, my wishbones and my hair, my garters and my buckles, to see if I'm all there; and if there's nothing busted I feel that I'm in luck, for I've been chased, disgusted, by auto, ford and truck. It's sp'ry time to punch with more than mummy, first those reckless guys and Hunnish who try to break our spines, who always look for chances in wing the passing gent, and fill the ambulances with victims, honeyard beat.

Private School.
 Mrs. W. H. Wynn will resume her private school at her home September 1st, 210 Lee street. Terms, \$2.50 per month. 198-717

Wall Paper and Canvas, all prices, at Decorators Co., 615 Ninth St. 98-131c

Window Glass put in by Decorators Co. Phone 5216, 715 Ninth St. 98-131c

Path Photographs on Installments, Phone 5216, Decorators Co. 98-131c

WHY?

Is S. O. S. the Wireless Distress Signal?
 (Copyright, 1920, by Wheeler Syndicate, Inc.)

Various explanations of these letters, ranging all the way from "Save Our Ship" to "Suspend Other Services" have been made, but as a matter of fact, the signals have no significance other than that of a hurry-up call for help. They are not abbreviations of a phrase, but merely a danger signal to be used only when the ship, which sends them out is in imminent peril of being lost.

During the early days of the wireless, it was seen that one of the greatest uses of the new invention would be to announce, the presence of danger at sea—to enable a ship, hundreds of miles from land and off the beaten track of navigation, to call for assistance. A number of experiments were made, including such words and phrases as "Help," "Come At Once," "Imminent Danger," and the like, but all of these were too long and there was too much likelihood of their being fogged in transmission. It was finally found that the letters "S. O. S." would be arranged in a clear, unmistakable manner, flashing their way across hundreds of miles and registering the most that danger at sea—to enable a ship, hundreds of miles from land and off the beaten track of navigation, to call for assistance. A number of experiments were made, including such words and phrases as "Help," "Come At Once," "Imminent Danger," and the like, but all of these were too long and there was too much likelihood of their being fogged in transmission. It was finally found that the letters "S. O. S." would be arranged in a clear, unmistakable manner, flashing their way across hundreds of miles and registering the most that danger at sea—to enable a ship, hundreds of miles from land and off the beaten track of navigation, to call for assistance. A number of experiments were made, including such words and phrases as "Help," "Come At Once," "Imminent Danger," and the like, but all of these were too long and there was too much likelihood of their being fogged in transmission. It was finally found that the letters "S. O. S." would be arranged in a clear, unmistakable manner, flashing their way across hundreds of miles and registering the most that danger at sea—to enable a ship, hundreds of miles from land and off the beaten track of navigation, to call for assistance. A number of experiments were made, including such words and phrases as "Help," "Come At Once," "Imminent Danger," and the like, but all of these were too long and there was too much likelihood of their being fogged in transmission. measure of success is what they will buy, but the test of success is what they wait for the future rather than what one spends to impress his neighbors.

U. S. TONNAGE SHOWS REMARKABLE INCREASE

LONDON, Aug. 21.—According to Lloyd's register of shipping for 1920-21 just issued, the seagoing tonnage of the United States apart from Great Lakes shipping, has increased since 1914 by over 60 per cent and now stands at 12,400,000 tons. Thus the United States comes second only to the United Kingdom which has 18,111,000 tons.

SKELETONS BURIED AT CORPUS CHRISTI ARE FOUND AFTER STORM

CORPUS CHRISTI, TEX., Aug. 21.—Without accompaniment of mourners or the usual funeral ceremonies, nine skeletons found on a small island across Laguna Madre from the mainland, fourteen miles southeast of Corpus Christi, were laid at rest in a local cemetery.

MARICLE'S COAL QUARTETTE
Phone 4437

island, exposed them. Near the bones were found two razor blades, one bearing an inscription showing it to have been made in Seville, Spain, a pair of old field glasses made in Paris, part of the stock of a gun, a center, a brass cross and other relics.

It's fresh from the roaster each day

L'ODEUR
Chantilly

Parfum Chantilly—truly a liquid bouquet distilled from a second blooming of Old Chantilly's Gardens. In appeal, whimsical as those charms and graces of France's fairest women; in fragrance, reminiscent of a labyrinth of flowers under the witchery of the moon's glow and mingled with the cool spray of plashing fountains. Like all things that marked the period, it is exquisite, aristocratic, luxurious.

A Dignified Request

We, the members of R. R. (Reuben) Rubottom's Campaign Committee, having given proof that Reuben is the most popular young Shrine Novice in Wichita, now ask you to

—VOTE FOR—

REUBEN RUBOTTOM

It has been a pleasure and a joy to work with and for Reuben. We respect his rivals but we love the Rube. May we not depend upon your vote?

COMPLIMENTS OF GAINES MOTOR CO.

GOING OUT OF BUSINESS SALE!

Saturday and Monday were big days at this store, and thousands of dollars worth of merchandise were sold, but all lines are still complete and shipments of seasonable merchandise, bought before we decided upon this sale, are arriving daily.

Coats and Coat Suits, Dresses, Blouses and Skirts, Handsome Furs and Fur Garments, Silk and Muslin Underwear, Neckwear, and a Big Line of Men's Suits and Hats, All at Cost and Less Than Cost.

Just think what this means to you! Merchants are buying in the markets now, and paying more wholesale than we are offering you these goods at retail. When their purchases reach you they will be priced at least fifty per cent higher than our goods are now priced.

Get Your Ready-to-Wear Now and Save Money

A Welcome to Visiting Shriners

We extend a sincere welcome to the distinguished visitors and invite them to bring their wives and daughters down to this unprecedented sale.

REMEMBER! This \$75,000 stock of goods MUST BE SOLD to make room for our wholesale drug stock. We won't quibble over pennies but will make the price that will make you eager to buy.

Andersons WICHITA FALLS QUALITY STORE

ANXIOUS THAT THE BAN ON GERMANS BE RAISED

WASHINGTON, Aug. 31.—Many Americans of German or Austrian descent throughout the United States are constantly inquiring of any source of information whether the time has yet arrived when their relatives and friends in those countries can come to America and what restrictions are imposed upon such immigration. They are patiently waiting until all restraint is lifted when the United States and Germany shall have made peace. Others betray impatience because nearly two years have elapsed since the termination of hostilities and the ban has not yet been raised. Those who appeal to the state department have been informed that citizens of Germany and Austria may obtain admittance to the United States only through circumstances of "compelling appeal," under regulations laid down by that department. They are told that wartime restrictions against enemy aliens still hold good and that Germans and Austrians must apply to American diplomatic or consular agents abroad or to the state department direct for visa of passports permitting temporary admission to this country. Under unusual circumstances the passport may be continued indefinitely after the aliens reach the United States.

Germans and Austrians who may obtain authorization to enter the United States must fall within the following classifications: Business men who can prove conclusively that their visit will be of advantage to American business interests. In such cases letters of recommendation must accompany the application from an American firm establishing the necessity for the visit. Aged parents of naturalized American citizens when it is clearly proven that such parents are dependent upon their naturalized American children for their support.

American born women who have married German or Austrian citizens. Relatives of naturalized American citizens who can prove their dependency upon such citizens.

Service in the German army is held to preclude admission of any German citizen who might claim right of entrance under any of the foregoing circumstances.

Because of the absence from Germany and Austria of American diplomatic and consular officials pending the establishment of peace between the United States and those countries, German and Austrian citizens find it difficult to obtain an American visa or a passport. Those desiring to visit the United States must either go to a country in which there are American diplomatic or consular representatives.

"MAG-LAC"
Mag-Lac is a Milk of Magnesia Tooth Paste, combining with mild cleansing and abrasive qualities the alkalinity of Milk of Magnesia. It exerts the same neutralizing action on acid secretions in the mouth that Milk of Magnesia does on similar conditions of the stomach. Like Milk of Magnesia it is not harsh or irritating; and as this standard remedy is accepted as the ideal corrective for the irritable infant stomach, so Mag-Lac, with its healing and neutralizing properties, is suited to the treatment of abnormal conditions of even the most sensitive mouth and gums. Its thorough and conscientious use tends to keep healthy teeth healthy and to neutralize the evil effects of and the long train of abnormal conditions which result therefrom. One who uses Mag-Lac frequently may have the assurance that he is doing all that he can possibly do to his dentist in maintaining health in his mouth and gums.

or must communicate directly with the state department in Washington. Only 52 Germans and 53 Austrians were admitted to this country in 1925, the first year following the war. In 1914 the total number of German immigrants coming to the United States was 32,734 and the total of Austrians was 27,152.

MAKE PREPARATION TO RECEIVE KING AND QUEEN

RIO DE JANEIRO, Aug. 31.—Elaborate preparations are being made to receive and entertain the king and queen of Belgium when they arrive here on the Belgian dreadnought steamer, which already has sailed for Europe, bringing the royal party to Brazil to repay the visit of President Poore to Belgium last year. Commemorative arters, handsomely furnished and decorated, have been built on the steamer to accommodate the royal party, which will consist of ten persons. They are expected to reach Rio de Janeiro some time in September. Excursions to Brazil cities will be made at St. Vincent and Las Palmas. An orchestra of five specially chosen musicians is aboard the steamer to provide for the royal guests during the voyage. A selected library, dealing mainly with Brazilian history, installed in their quarters, will enable the

party to become acquainted with the country they are to visit. The visitors' stay in Brazil will be filled with receptions, entertainments and sightseeing tours. Guanabara palace, where the party will be housed while in Rio, was formerly the home of the Princess Isabel during the late imperial regime. It was here, also, where the late Colonel Roosevelt was installed when he came to Brazil, and made his adventurous trip to the Amazon country. The palace is a spacious building, located in a quiet, beautiful section of the city. Two rows of stately palms leads from the palace to Guanabara bay, a mile distant. For months the building has been in the hands of workmen and decorators and now is ready to receive its royal guests. New illumination schemes are being installed in the principal avenues, new boulevards are being constructed along the sea and city improvements generally are being hastened so that the city will present the best possible appearance when the Belgians arrive.

Plans for an elaborate Venetian fête on the bay are being considered. To meet the expenses connected with these improvements and for the entertainment of the Belgians, the government has asked congress for unlimited credit.
