

SCOPE OF BOLSEVIK DEFEAT IS GROWING; POLES STILL ADVANCE

CRUSHING OF GEN. BUDENNY OPENS WAY FOR FURTHER POLISH SUCCESS

HAVE GONE FORWARD FROM 15 TO 40 MILES

Advance in Made On Front of More Than a Hundred Miles Says Official Report

WARSAW, Sept. 3.—The scope of the bolshevik defeat in the Lemberg region continues to grow, according to the official Polish communique issued today. Crushing of General Budenny north of Lemberg has opened the way for a general Polish advance and the Poles have gone forward from 15 to 40 miles on a front of more than 100 miles. "Our concentric attack has resulted in a considerable defeat for General Budenny, who is retiring in a panic," the communique said. "East of Lemberg we have thrown the bolshevik across the Rivers Gita Lipsa and Bug—running north and south about 25 miles east of the city. "By utilizing this advance we have completely defeated the bolshevik army in the Lemberg region and he is reported withdrawing beyond Brzezny. "We have made huge hauls of prisoners and materials.

PLAN FOR A REVIVAL OF FARMING INDUSTRY IN WICHITA COUNTY

MEETING OF REPRESENTATIVES FROM SEVERAL COMMUNITIES HELD FRIDAY

COMMITTEE TO OUTLINE PERMANENT ORGANIZATION

Those Attending Were Guests Of The Business Council at Luncheon

At a meeting of representatives from several communities in the county in the Chamber of Commerce room in the Morgan building Friday morning a committee was named to report a plan for permanent organization and to recommend officers. The committee on organization is composed of the following: M. O. McDowell, E. V. Friberg, J. L. McConkey, R. E. Sheppard and J. P. Roodhouse. This committee is expected to report its recommendations in the near future when another meeting of representatives from each community in the county will be called. Representatives from Iowa Park and Elekra were prevented from attending the meeting Friday by heavy rains in those sections of the county, and further steps toward organization were deferred until representatives from those communities could be present.

Beautiful Wife Proud of Dying Irish Leader

Mrs. Marial MacSwiney, beautiful wife of Terence MacSwiney, lord mayor of Cork, who is slowly starving himself to death in Brixton Prison, London. She is holding her baby Mauna. She is in London at the scene of the impending tragedy and daily visits her dying husband.

Posses Are Close on Heels Of Fleeing Bank Robbers

TERENCE MACSWINEY NOW SINKING RAPIDLY

Report Queen Mary Intercedes And King Threatens To Give Lord Mayor Freedom

LONDON, Sept. 3.—Terence MacSwiney, lord mayor of Cork, was virtually lifeless in Brixton prison today.

LONDON, Sept. 3.—Terence MacSwiney, lord mayor of Cork, was virtually lifeless in Brixton prison today. On the twenty-first day of his hunger strike, he showed signs of life. Relatives who were at his bedside declared that at no time his body was dead, but his "spirit still lingered." A serious divergence of opinion between King George and his ministers has arisen over the question of releasing MacSwiney, according to rumors circulated today. It was reported that at the intervention of Queen Mary, the king threatened to issue a royal proclamation freeing MacSwiney. Premier Lloyd George was said to have made a counter-threat to hold up such a proclamation unless the king was willing to revoke the governmental order against releasing hunger strikers, but the premier was said to have expressed the fear this condition would gradually extend to the whole body.

STRIKE SYMPATHIZERS IN CLASH WITH POLICE

Five Hundred Engage in Riot in Connection With Trouble in Brooklyn

By United Press. NEW YORK, Sept. 3.—Five hundred strike sympathizers clashed with police here when officials of the Brooklyn Rapid Transit Company attempted to increase transportation on lines today. A detective was badly cut and two men arrested as the result of the clash. One hundred and forty-six other employees returned to work today. It was announced by the league that increased number of cars were in operation.

FARMERS ARE HOLDING LARGE SUPPLY WHEAT

Estimated Five Hundred Million Bushels Are Being Withheld From The Market

By RALPH F. COUCH. WASHINGTON, Sept. 3.—Farmers are now withholding from market approximately 500,000,000 bushels of wheat long since harvested, according to the best estimates obtainable from government sources. "They want to be in a position to take advantage of any increase in price that may occur," said grain expert headed by the bureau of markets today. Wheat now is selling around \$2.50 per bushel. Reports have long persisted that it may go to \$3. According to unofficial estimates here today, here is the record of the 1920 wheat crop, spring and winter, to date: "Total harvested 340,810,000 bushels or about 92.3 per cent of the estimated crop of 370,000,000 bushels. Carry over from 1919—44,000,000 bushels by farmers alone; 40,000,000 bushels by farmers, 200,000,000 bushels, or perhaps only one-half as much as sales to this time in 1919.

FLOUR ADVANCED BY MINNEAPOLIS MILLS

MINNEAPOLIS, Sept. 3.—Flour advanced by Minneapolis mills today. A strong and higher wheat market is responsible for the increase.

GERARD IS TREASURER OF THE DEMOCRATIC NATIONAL COMMITTEE

NEW YORK, Sept. 3.—James W. Gerard of New York, former ambassador to Germany, has been appointed chairman of the finance committee of the democratic national committee. It was announced here today.

ELEVEN SPEECHES ARE ON THE COX PROGRAM FIRST DAY OF TRIP

TODAY'S CAMPAIGNING MARKS FIRST INVASION OF THE STATE OF MICHIGAN

ADDITIONAL "EVIDENCE" OF A BIG "SLUSH FUND"

Rear Platform Talks Scheduled For A Number of Points During Progress Of Trip

EN ROUTE WITH GOV. COX. Sept. 3.—The western "wing" of Governor Cox was opened early today with a before-breakfast rear-platform address to a railroad station crowd at Toledo, while the democratic candidate was enroute to Michigan. "We're in the fight to win," said Governor Cox to his sunrise audience. "We will win because our cause deserves to win." The League of Nations was featured by the governor. In urging the League of Nations at Toledo, Governor Cox referred to the present disagreement over German indemnities. "The voice of America," he said, "must fix it. Now they say that we should substitute for the League the old The Hague tribunal. That institution closed up before the war. I imagine there are bats in its belfry and spider webs everywhere. It was a distinctly failure, having failed to prevent war in 1914. The opposing candidate says he will go back and open this old institution and try to keep it shut." The labor issue also was discussed by the governor, who reiterated his charge that republicans were receiving contributions from persons who should substitute the baneful for the golden rule under a reactionary national administration. Referring to the Harding front porch campaign, Governor Cox said that on his trip he was "going to see thousands of front porches from coast to coast in the belief that the front porch is the seat of the seat of the American sovereignty. "Campaign for Peace. In his first address in Michigan today, the governor told an audience from the rear platform of his train that he did not want to be regarded as the candidate of any party. He said he was making his campaign against "the senate oligarchy," and in "the interests of peace of the world."

MAVE CONFERENCE WITH PRESIDENT

WASHINGTON, Sept. 3.—Secretary of State Coby and Under Secretary Davis conferred nearly an hour with President Wilson today.

ESTIMATE 130,000 MINERS ON STRIKE

Hundred and Twenty-Five Collieries Are Idle As Result Of "Vacation" Of Men

WILKESBARRE, Pa., Sept. 3.—The "vacation" of the insurgent mine workers kept the anthracite industry practically closed today, 125 collieries failing to operate and 130,000 men being away from their work. Signs of weakening came last night when several local unions voted to support the union officials and return to work. These "back to the mines" votes brought no beneficial results today and are not likely to until nearly next week. The strike has brought on an exodus from the anthracite fields and this is a new phase of the situation that is serious. Railroaders are to help carry the burden of the strike. The coal in storage and with production decreased 300,000 tons daily, there is little for railroads to do. COMMISSIONERS ARE CALLED IN CONFERENCE. WASHINGTON, Sept. 3.—Secretary of Labor Wilson today announced to Washington the commissioners of conciliation familiar with miners disputes to be ready to act in the anthracite coal situation brought on by the "vacation" strike. The miners will forfeit approximately \$1,000,000 a day unless they return to work soon, under plans now being made by operators. It was learned here today. The commissioners upon their arrival here will confer with Director Hugh L. Kerwin of the bureau of conciliation, pending the return to Washington of Wilson who is now in Pennsylvania. Whether these commissioners will be assigned to work in the coal strike will be determined at the conference here today. Labor department officials today still expressed confidence that the "vacation" strike will return to work without government mediation.

SUBMERGED 42 HOURS MENOWE LIVES TO A NEW "SAFETY" DEVICE

STEAMER ATTRACTED BY THE INSISTENT CLANGOR OF A HUGE GONG

WIRELESS FLASHES NEWS TO VESSELS IN HARBOR

Within Short Time Fleet Of Destroyers And Other Naval Craft Arrs Rushing to Rescue

PHILADELPHIA, Sept. 3.—The steamer Albatross is having trouble bringing the disabled submarine S-5 up the Delaware river, according to a wireless received at the League Island navy yard this afternoon. "Pentons were being used to buoy the submarine. The crew of the submarine has been removed from the Albatross and placed aboard the battleship Ohio, the message said. LONDON, Sept. 3.—The disabled submarine S-5, a tow of the battleship Ohio, was a short distance outside the Delaware breakwater at 2:15 p. m. today. It was reported that the submarine was struck at such an angle that one end of it was dragging on the bottom, making towing very difficult. NEW YORK, Sept. 3.—The rescued officers and men of the United States submarine S-5, who were submerged for more than forty-two hours in Cape Henlopen, owe their lives to a hitherto little tested safety device—the telephone buoy—developed during the war. The submarine S-5, which had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. Need for help." The Goethals wireless flashed the news shortly after the submarine was sighted where the mariners' chart showed no buoy ought to be; drew closer and observed that there was a telephone on the mysterious buoy. A few moments later the Goethals had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. Need for help." The Goethals wireless flashed the news shortly after the submarine was sighted where the mariners' chart showed no buoy ought to be; drew closer and observed that there was a telephone on the mysterious buoy. A few moments later the Goethals had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. Need for help." The Goethals wireless flashed the news shortly after the submarine was sighted where the mariners' chart showed no buoy ought to be; drew closer and observed that there was a telephone on the mysterious buoy. A few moments later the Goethals had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. Need for help." The Goethals wireless flashed the news shortly after the submarine was sighted where the mariners' chart showed no buoy ought to be; drew closer and observed that there was a telephone on the mysterious buoy. A few moments later the Goethals had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. Need for help." The Goethals wireless flashed the news shortly after the submarine was sighted where the mariners' chart showed no buoy ought to be; drew closer and observed that there was a telephone on the mysterious buoy. A few moments later the Goethals had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. Need for help." The Goethals wireless flashed the news shortly after the submarine was sighted where the mariners' chart showed no buoy ought to be; drew closer and observed that there was a telephone on the mysterious buoy. A few moments later the Goethals had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. Need for help." The Goethals wireless flashed the news shortly after the submarine was sighted where the mariners' chart showed no buoy ought to be; drew closer and observed that there was a telephone on the mysterious buoy. A few moments later the Goethals had a boat outside and this message came up from the deep: "The submarine S-5 has been submerged for forty-two hours in air running short. Machinery damaged. A

passed to them as they clung to the sides.

The work of drilling was pushed rapidly until a hole large enough to permit a man to pass had been cut.

The crew then was removed one at a time from the submarine. The message from the Goethals fixed the number of men imprisoned aboard the submarine at forty.

"The crew was in poor shape when removed," the Goethals radio said, "but they quickly recovered when taken aboard the Albatross."

"The first man was removed at 1:30 a. m.," the message said. "And the captain was out of the submarine at 2:45 a. m."

"Captain Cook of the submarine was the last man to leave his ship. For more than an hour he remained in her bowels while members of the crew were carried to safety.

"The rescue work completed, the Albatross with the submarine's crew aboard, and the Goethals headed for Hoboken, where they expected to arrive about 6 o'clock tonight, the message stated.

LIEUTENANT COMMANDER FORT SMITH, ARK., MAN

PORT SMITH, ARK., Sept. 3.—Lieutenant Commander Cooke, who was in charge of the submarine S-5, is a Fort Smith man and entered the United States naval academy from this congressional district. He narrowly escaped death four years ago at Philadelphia when batteries on a submarine exploded.

LION CUB BECOMES OFFICE PET

Mark Commissioner Gallatin of New York city photographed in his office with the very latest of office pets, a month old lion cub. The little fellow is very contented with his perch on the shoulders of the commissioner.

TRAVELERS APPROACHING ZION CITY ARE WARNED NOT TO USE TOBACCO

CHICAGO, Sept. 3.—Travelers approaching Zion City are now warned by huge sign boards not to use tobacco within the precincts of the town, which is the home of the religious group founded by the late John Alexander Dowie and now presided over by Wilbur Glenn Voliva. The signs also warn that "outsiders and buttniks have no business nor any rights" in the city.

"No gentleman—knowing that the use of tobacco has been strictly prohibited in this city from the very beginning of its existence—will use tobacco within its border," the sign reads. "This is the headquarters, the private home, of the Christian Catholic Apostolic church of Zion City. We established it and we will fight for it in the name of the Lord of Hosts, the God of the armies of Zion, whom wicked men imagine they can defy. Outsiders and buttniks have no business nor any rights in this city and they will not be permitted to suit in on any matters. Notice to all visitors: Whenever and wherever you see a man using tobacco, either smoking or chewing, you are hereby informed that that man is an enemy of Zion and Voliva. Mark him! Draw your own conclusions!"

On other smaller signboards passersby are warned of the diseases which they may follow the use of tobacco. The boards are closely guarded by Voliva's men against any attempt to deface them.

ODE FELLOWS HOLDING THREE DAYS' CONCLAVE

KANSAS CITY, Sept. 3.—Conferring of three days' convalescence of the Ode fellows of the Independent Order of Ode Fellows and Rebekahs from Missouri, Kansas, Oklahoma, Arkansas, Nebraska and Iowa. Special trains bringing delegates and visitors to the meeting were arriving this morning.

FREIGHT TRAIN SEIZED FOUND WITH THROTTLE OF ENGINE WIDE OPEN

CHICAGO, Sept. 3.—The freight train seized here by a band of men, believed to be members of the striking "outlaw" switchmen, was found early today near Bensenville, Ill., with the throttle wide open and 21 freight cars apparently untouched.

"Several battles between freight crews and hands of the striking switchmen, who never regained their jobs, preceded the theft of the train, which occurred shortly before midnight last night in the Chicago, Milwaukee & St. Paul yards at Cicero, a suburb.

Thomas White, the engineer, was forced from his post at the point of a gun and when Bert Simpson, the fireman, resisted, he was badly beaten. White immediately gave the alarm. After several hours search the train was found. Railroad officials believe the throttle had been pulled wide open and the train then abandoned by the band who stole it. It had apparently run down for lack of steam.

White said the manner in which the thieves handled the engine, he was convinced they were experienced railroad men. Three suspects were taken into custody.

BANDITS WHO STOLE TRAIN AT CHICAGO ARE IN JAIL

CHICAGO, Sept. 3.—"Bandits" who stole a Milwaukee freight train here early today were jailed after they had taken the train about five blocks. No charge was preferred against the men early today.

From their familiarity with train operation, officers assumed the men were strikers. The train stealing was supposed to be a renewal of warfare between "outlaw" switchmen and those returned to work.

The train carried merchandise valued at \$500,000.

A Good Neighbor

Barbara Eaton was plainly upset about something. For it was most unusual for Barbara to scowl.

She had baked a cake to take over to the Randall's—the bride and groom who were having next door. And the cake had been a failure!

"There's no use," she thought hopelessly. "I just can't bake. I've never made a decent cake in my life. With a smothered sigh she ran over to the next house.

"I'm Mrs. Eaton—your next-door neighbor," she explained cheerfully to the sweet-looking bride. "Just ran over to see if I could do anything to help you." In a few minutes they were chatting away like old friends.

Barbara was leaving, she said apologetically. "Mrs. Randall, I baked a cake to bring over to you—but it was a failure. I do get so discouraged sometimes, for Alan loves home-made. He's Mrs. Randall interrupted. "But do you use Ryzon?" she asked, and the Ryzon Baking Book? Wait a minute I'm going to get mine for you." She returned, thrusting a book and a can of Ryzon in Mrs. Eaton's hand. "Try these," she said. "Following exactly the recipes particularly in regard to level measurements, and you'll never have any more trouble. Let me know how you make out."

"She's a darling," Barbara confided to Alan later in the evening as he helped himself to his second piece of chocolate cake. And to think that I could ever make such wonderful cake as this—why, it seems too good to be true."

The new Ryzon Baking Book (original price \$1.00), containing 225 practical recipes will be mailed, postpaid, upon receipt of 30 cents in stamps or coin. Or if you fill purchase two or more pounds of Ryzon at once from your grocer, sending us his name and address promptly, we will mail you a Ryzon Baking Book free. General Chemical Co., Food Department, 25 Broad St., New York, N. Y.

ART DISPLAY ATTRACTS MANY TO SHOW WINDOW

An art display which has attracted attention to the show window at Anderson's for the past few days is the work of a local artist, Mrs. Aly Belle Eichelberger, who moved here some months ago from Midland, Texas.

The display comprised a number of very attractive and well executed wood-land scenes, with animals in water color and oil, and received quite a lot of complimentary comment.

Mrs. Eichelberger, who has been an art teacher in Midland for the past fourteen years, is making her home now in Wichita Falls, and has with her her two little daughters, Lora, who will be in the High school this winter, and Janelle, a kindergartner. She expects to open an art studio at her home, 1567 Folk street, the coming Monday.

SUBPOENA WITNESSES FOR INVESTIGATION OF BIG CAMPAIGN FUND

CHICAGO, Sept. 3.—Subpoenas for a dozen or more witnesses were sent today by the senate committee investigating campaign contributions, while the committee took a recess until next Tuesday. Many of those summoned, it was understood, were cited to the

committee members by E. H. Moore of Youngstown, Ohio, pre-convention manager of Governor Cox.

"I have the names of men who can give absolute proof that before the public conscience was aroused, the heads of this money getting organization publicly boasted that the 'their plan' would raise \$15,000,000," Mr. Moore declared in a statement.

One of the subpoenas issued today was for Harry N. Blair, assistant to Treasurer Fred W. Upham of the republican national committee. Mr.

Moore declared Blair was "the father of the city quota plan" which was referred to by Governor Cox in his "Cuba-bought" speech.

SHERIFF AND POSSE HERE FROM GRAHAM SEARCH FOR ROBBERS

GIVE DESCRIPTION OF THREE MEN WHO HELD UP BANK THURSDAY.

ROBBERS SECURE \$3500 AND TAKE LIBERTY BONDS

Drive Buick Six-Passenger Car With Yellow Wheels And Two Extra Cassings.

Sheriff Mel Wallace of Young county and posse of deputy sheriffs arrived in Wichita Falls early Friday morning in search of the three men who robbed the Guaranty State Bank of Graham Thursday afternoon. It was believed the robbers were headed for Oklahoma.

At 1:30 a. m. Friday a car answering the description of that in which the robbers escaped from Graham was sighted at Jean in the northern part of Young county by members of the posse, who gave pursuit. The pursuit car, however, broke down in the chase and the other car disappeared in a northward direction.

Sheriff McFall is lending every assistance to the Graham officers and early this morning had telephoned broadcast a description of the car and of the robbers.

Describes Robbery.

Q. R. Simpson, assistant cashier of the robbed bank, accompanied the posse to Wichita Falls. He said the men were in the bank and had everybody in the room covered with shotguns before an attempt to rob the bank was made. The men wore masks at first but in a short time threw them off and worked with their faces uncovered.

One of the robbers, a tall, red complexion fellow, who wore boots and a cowboy hat and who was the leader, covered Cashier Mauldin while one of his confederates guarded the door and the other herded the bank employees and Floyd Hinson, county attorney of Young county, and his stenographer into the bank vault. The tall fellow, covering Mr. Mauldin, pulled sacks of coin and bundles of currency from the safe and compelled Mr. Mauldin to deliver some Liberty bonds from the vault. Mr. Mauldin, however, managed to hand over a small part of the bonds in the safe.

After getting the money and bonds the bandits forced Mr. Mauldin into the vault and then attempted to lock it. Mr. Mauldin frustrated the attempt by catching the plunger from the inside and holding it, and as soon as he thought the robbers had left the door unopened it was opened. The robbers had disappeared.

Mr. Mauldin and all of the others who were in the bank at the time have vivid impressions of the appearance of the robbers and were able to give good descriptions of them.

Cash and Liberty Bonds.

The robbers secured about \$3500 in cash and several thousand dollars worth of Liberty bonds. The robbers drove a Buick Six, five-passenger touring car of the regular Buick dark-colored body with yellow wheels. At

GO TO WASHINGTON ON BOUNDARY CASE

Final Taking Of Testimony Preliminary To Hearing Set For November 15.

ATLANTA, Sept. 2.—Attorney General C. M. Curren, Assistant Attorney General C. W. Taylor and former United States Attorney General T. W. Gregory, left Thursday for Washington to represent Texas in the final taking of testimony in the Texas-Oklahoma preliminary boundary hearing set for November 15 before the United States supreme court. Mr. Taylor said the party would be away about ten days.

SHORTTRIDGE MAJORITY IS REDUCED BY LATE RETURNS

SAN FRANCISCO, Sept. 2.—Delayed returns from Los Angeles county reduced somewhat the lead of Samuel M. Shortridge over William Kent and Albert J. Wallace in the triangular contest for the republican nomination for United States senator. With returns from 576 out of state's 6,129 precincts missing early today, the vote was: Shortridge 127,844, Kent 102,232, Wallace 81,974.

The successful candidate will oppose Senator James D. Phelan, who was unopposed for the democratic nomination.

SERIOUS DISSENSION IN MEXICO POLITICS

Formal Protest Is Made Against The Candidacy Of General Pablo Obregon.

MEXICO CITY, Sept. 2.—The first indication of the possibility of serious dissension over the presidential elections Sunday developed today when the national republican party formally protested against the candidacy of General Pablo Obregon, charging it violated the constitution.

The party, which is supporting Robles Dominguez, sent a letter to President de la Huerta enclosing a copy of a memorandum to congress, in which the latter was asked not to accept Obregon's candidacy. The memorandum stated that the constitution forbids the leader of any insurrection to become president.

ORGANIZATION OF SONS OF CONFEDERATES URGED

HOUSTON, TEXAS, Sept. 2.—Reorganization of camps of the Sons of Confederate Veterans in Texas and the establishment of camps, where none exist and where there are a number of eligible men is urged by Gen. N. B. Forrest, son of the famous Confederate cavalryman, and commander in chief of the S. C. V., in an appeal sent out through the press today.

General Forrest is in Houston as general secretary of the committee preparing for the Confederate reunion October 5 to 8, when the United Confederate Veterans, the Sons of Veterans and the Confederate Southern Memorial association meet here.

The Houston camp of the Sons of Confederate Veterans has just been organized anew. Starting with a membership of 35 last week, it already has 450 members and is preparing to put on a drive for 1,000 before reunion week. Houston Sons will be official hosts to the Confederacy during the reunion. They urge other Texas camps to come into the reunion in force and help them welcome the Confederacy to Texas.

It will be the last chance Texas will have, in all probability, to entertain actual veterans of the war. It is 28 years now since Appomattox, and the survivors are fast dropping out of ranks. When the reunion comes again to Texas it will be a gathering only of Sons and Daughters, meeting to honor a Lost Cause and a vanished company.

For this reason General Forrest and Commander Cleveland of Albert Sidney Johnston Camp, Houston, appeal to the eligible sons and grandsons of veterans in Texas to form camps or revive those that have dwindled and join in welcoming the Confederacy to Texas for the last time.

Special attention is called to the fact that all parties desiring to attend the reunion must have a certificate signed by an officer of a veterans or Sons camp to enable them to get the special rate of one cent a mile. These certificates will be issued only to Sons or grandsons who are members of the Sons organization in good standing.

GENERAL SCALE COMMITTEE WANTS BETTER CONTRACT

SCRANTON, Pa., Sept. 2.—A new wage contract between the anthracite operators and mine workers having been signed by representatives of both parties last night, the general scale committee of the United Mine Workers of America and three practical miners met here today to determine what course to take to obtain more satisfactory terms than those embodied in the new contract.

It was expected an appeal would be made to President Wilson or Secretary

of Labor Wilson to re-open the case. Steps were to be taken at today's meeting to have the striking miners return to work.

The new contract of two years duration, signed willingly by the miners and under protest by the mine workers, is based on the majority report

of the anthracite wage commission appointed by President Wilson to readjust wage and working conditions in the hard coal field.

Our store will be open Saturday evening beginning September 4. The Sherwin-Williams Co. 112-21c

Chattel Mortgage Sale.

As authorized by chattel mortgage and agreement of parties, I will sell at east door of court house, Lamar street, Saturday, September 4, 2 p. m., one National six-cylinder car in excellent mechanical condition for cash bid. F. G. SWANSON. 112-11c

Certificates of Deposit

issued by the City National Bank of Commerce are a conservative and convenient form of investment. Issued for a period of three months they bear interest at the rate of 3% per annum and for a period of six months or longer earn interest at the rate of 4% per annum. The face value of the Certificate is payable on demand. These certificates of Deposit are a dependable sort of investment for funds available for short periods and behind them, as security stands resources of more than \$25,000,000.

The officers of the City National Bank of Commerce are ever alive to the needs of the community and suggest this conservative method of putting money "to work" for short periods.

Capital \$1,000,000.00 Surplus \$800,000.00
Resources over 22 Million

TO OUR PATRONS:

In view of the fact that we have been given a great deal of Publicity for the past month in reference to the price of ice and knowing that the contention of the Department of Justice was wrong in the matter and that we had not and are not now asking any more for ice than we are entitled to under present conditions of cost of manufacturing and delivery we want you to know that we have not been profiteering and herewith reproduce a letter exonerating us from such charge.

DEPARTMENT OF JUSTICE
OFFICE OF UNITED STATES ATTORNEY
Northern District of Texas
Fort Worth, Tex., Sept. 1, 1920.

PEOPLES ICE COMPANY,
Wichita Falls, Texas.

Gentlemen:
After a thorough discussion and a complete examination of the conditions of the costs and manufacturing and delivering ice by your company, I have concluded that a price of 77 1-2c per one hundred pounds upon coupon basis would be a fair price in your business. This is to advise you that it is agreeable for you to make this charge from the date you receive this letter.

Very truly yours,
R. E. TAYLOR,
United States District Attorney.

We want our patrons to feel that at all times we are doing our best to please you by giving you first class service and taking care of your needs in a manner like you want to be served.

When the time comes that we can reduce our price consistent with a reasonable return on our investment we will be glad to give you that reduction.

The Government has at this time allowed us to increase our price on a coupon basis to an amount greater than we have been asking but we intend to maintain our old prices.

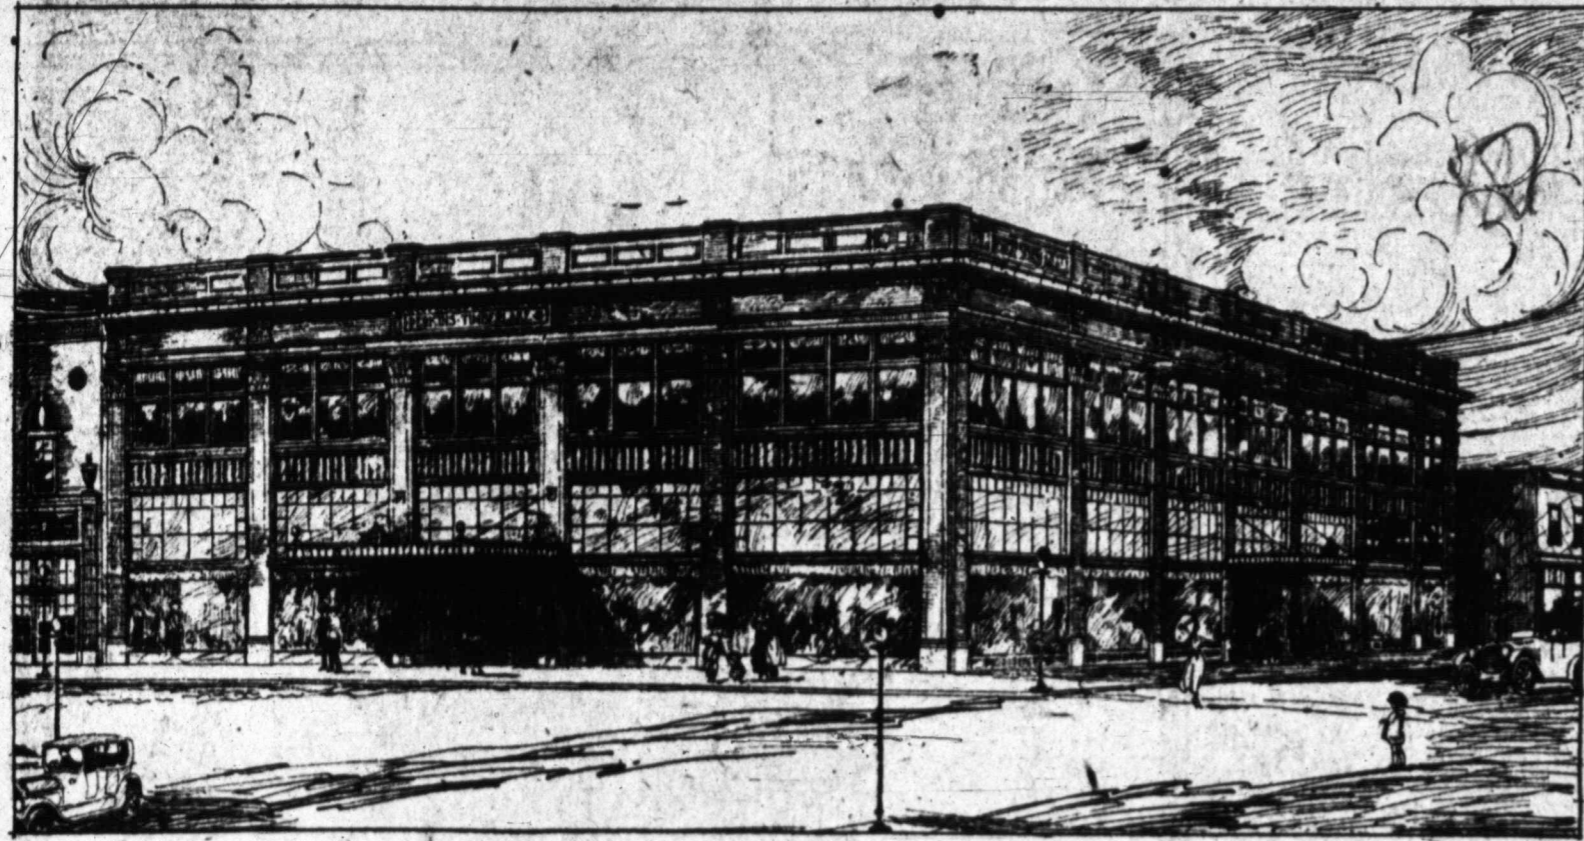

Respectfully
People's Ice Company

FRANK PASSEUR, Manager

Formal Opening This Evening of Handsome Mercantile Home of Perkins-Timberlake Co.

From 8:30 to 12:00 o'clock Friday evening the Perkins-Timberlake Company, assisted by a hundred or more company officers, department heads, clerks and assistants will be at home for their friends at their handsome new building on Ninth and Indiana.

An invitation has been extended to the general public to visit the new department store on the occasion of its formal opening, and a big attendance of townpeople was expected Friday morning for the affair. The company management, employees and workmen have been getting the past two weeks and at 12:00 o'clock Friday, fixtures, stock, decorations and everything but the assistants for the evening's entertainment were in place.

The clerks being dismissed to rest for the remainder of the afternoon, and return later for the opening. Advantages for the occasion—cigars for the men and flowers for the ladies—were at hand for distribution, and every department of the big store, gaily colorful in its array of displays and decorations, suggested a welcome for the expected guests.

Store Cost Quarter Million.

The new department store, which is one of a chain of seven stores operated in the state by the Perkins-Timberlake Co., was recently completed in the Ninth and Indiana block at an estimated cost of a quarter million dollars. It is a fireproof throughout, of steel and concrete construction, and modern in every detail of architecture—design, ventilation, lighting, heating and floor arrangement. The building occupies a 100x120 foot lot on the block, and from both entrances the interior presents the cool, airy and inviting roomly appearance of a big white-columned hall. A feature which invites immediate attention is the contrast of the architecture, the pleasing contrast of white columns and walls to the dark mahogany finish of the fixtures. This contrast, T. A. Bradley, supervisor of advertising and display, has made the most of in the design and color scheme of the display and decoration motifs which could not be rivaled in line and color or in beauty of conception by any big city department store. Mr. Bradley has used an autumn and tropical foliage motif against the dark background of the fixtures throughout all departments, and has contrasted with both the softest, brightest, most artistic light globes with the street name in bold lettering.

There are two main floors and the mezzanine floor in the building. On both floors the same circular arrangement of display cases enclosing department units is maintained, with well placed and big floor cabinets in other arrangements. On the lower floor are all men's clothing and furnishings, and all dress goods, shoes,

toilet goods, hosiery and dress and toilet novelties. The second floor comprises the women's ready-to-wear, infants' department, rest rooms, dress-making and beauty parlors. The mezzanine floor accommodates the offices for all departments of management, buying, accounts, advertising, etc.

Lower Floor Arrangement.

Entering from the Indiana main doors, the first two department units to the right are devoted to a most up-to-date stock of men's furnishings. The display cases show neckties, shirts, caps, collars, gloves, mufflers, dressing robes, fur collars, handkerchiefs, socks, and small furnishings in most attractive arrangement.

Along the Ninth street side to the right of this department are the wall cases accommodating more men's furnishings—shirts, underwear, pajamas, etc. There are 12 large floor-clothing cabinets of tailor-made surrounding the columns in the men's clothing department comprising the floor units to the rear of the men's furnishings department, and seven wall cabinets of overcoats, fur coats, leather coats, raincoats, etc. Directly to the right of the Ninth street entrance still further to the rear of the store is the men's shoe department, opposite the ladies shoe department to the left, which is equipped with complete and up-to-date stock of standard makes of shoes. The department is well arranged, with mahogany fixtures and chairs, and the ladies' section is the men's sections are handsome display cases. Mahogany dividers separate the men's from the women's departments, and dividers also make separate departments for the colored men's and women's shoe sections. Withers Lee, of the company, with a cordial greeting, is in charge of the shoe department.

Back of the men's shoe department is the men's tailor shop, with a tailor in charge. To the left of the shoe and clothing departments and under the central stairway and mezzanine floor, opposite the elevator, is a department which is to be in charge of a Hoover electric sweeper from the Perkins-Timberlake Co. Directly off the main Indiana entrance to the left are the display and stock units of the ribbon, dress goods, household furnishings, and toilet goods departments. The ribbon department, with the most attractive displays for the opening, is against the wall to the immediate left of the door, and the full equipped toilet goods, ivory and cut glass department occupies the left central unit most conspicuous from the entrance.

The toilet goods department presents a particularly interesting display to the woman shopper. On the reverse side of this unit are the lace, dress accessories and novelties, trimmings, etc.

Another New Feature.

The dress goods department, beginning with silks and woolsens, follows the line of wall from the ribbon counter at the left front, to the third section of display and stock cases, accommodating the big stock of white goods, including linens, draperies, staples, bed coverings, etc., back to the wrapping station and pattern department near the rear.

The hosiery and novelty departments are near the center of the left section of display cases. The novelty department seemed unusually complete, with a most fascinating display of trimming buttons and exclusive notions.

Another New Feature.

A new feature for the city which

will be most appreciated, and which was introduced in the state by the A. Harris store at Dallas two or three years ago, is the cutting and fitting department, which will be in charge of Mrs. Tolbert, designer, fitter and cutter. In this department materials are designed, cut and fit, and turned over to the customer to be finished.

Ready-to-Wear Department.

The ready-to-wear department on the second floor presents an irresistible trap for the woman shopper. It is equipped with the handsomest and most modern of display and stock cases, and a most attractive stock of fall and winter wear for infants, juniors, misses and women. The infants' department is a beautiful little room in ivory immediately facing the central stairway from the Indiana street wall, and if the shopper failed to recognize the display through the glass walls or the French doors of the room, the stock on guard on the low roof, with a chubby baby doll in his bunnet, would be a satisfactory giveaway. The infants' department stock includes everything from booties to rattlers, with every accessory of baby's toilet in clothing and general furnishings, and of the most exquisite materials and designs. Friday evening two little babies, Ann, aged 1 month, and Mavis, aged 2 years, daughters of Mrs. J. R. Clymer, are to be models in the infants' room and are expected to form one of the most attractive displays of the whole store. Mavis will wear a lovely frock of pink silk net over satin of simple design, and baby Ann will wear embroidered white in an all hand-work frock. Mrs. J. Marcus is in charge of this department.

Suit, Coat and Fur Department.

Mrs. W. E. Davis, head of the ready-to-wear department, is assisted by Mrs. James H. Allison and Mrs. George, all of whom are enthusiastic over the new stock and the handsome quarters accommodating it. Display cases and wall cases fairly bulge with beautiful fall suits and coats, and the evening dresses are an afternoon's entertainment in themselves. The materials featured in the heavy coats include fur (Hudson sea, eastern mink, beaver,

mole, kolinsky, fox, ermine, skunk and lynx), duvety, peachbloom, valangora, plain and striped, and velvete. Collars are enormous, featuring the decorative style and many of the woolen coats have big fur collars. In the woolen dresses, as in the coats, brown is the popular color. In the new shades of rust, dray, Malay and Zanzibar, with blue a close second in the vivid blue, Nanking, rich peacock, Saphow and a vivid green blue. Pajama is good, as is the bique, pheasant, chow and jute. The evening dresses feature beads and more beads and heavy, intricate embroideries, and the lines are long and simple. The colors are gay, but a brighter, softer gay than for a number of years, and the garments, while handsome to an extreme, are all designed along simple, more natural and graceful lines than for the past several winters. Blouses are embroidered and beaded, too, and feature the long waist and ties. The sweater section is the ready to wear, in charge of an assistant, has some particularly beautiful displays for Friday evening's opening. The coat and stock cases in the ready to wear, in charge of an assistant, has some particularly beautiful displays for Friday evening's opening. The coat and stock cases in the ready to wear, in charge of an assistant, has some particularly beautiful displays for Friday evening's opening.

Junior Dress Department.

The junior dress department is well displayed and carries a full line of clothing for the school girl and miss. Middy blouses are featured prominently, and plaid seems to be the only material for ready-to-wear skirts. Serge sailor suits are good, also.

Art Goods.

Mrs. R. D. Crow is in charge of the art department, which occupies a central section to the left of the elevator and central stairway. It has a most complete stock with stamped designs for garments, furnishings, etc., and a full line of yarns, silks and other embroidery threads. Madeira embroidery is featured and there are a number of handsome pieces on display. The department occupies the whole right side of the display and stock case unit.

Millinery Section.

Edith Earle Hamilton of Chicago is in charge of the millinery section, which is a new feature of the Perkins-Timberlake store. The new fall stock will include chapeaux in every fabric featured for this fall's wear, in the newest, most original and most interesting of designs. Hats will be both big and little. Mrs. Hamilton stated, and veils will be almost compulsory, and of every style and design and color.

Lingerie Section.

The lingerie section of the new store is a fascinating place to stay, but would be very busy on the bank account of the shopper who lingered too long. The displays for Friday evening are particularly beautiful, some of the daintiest and handsomest made. Silks and muslin being chosen for the

cases. Embroidery and lace if as good as ever and it is noticeable that petticoats have not gone entirely into the discard in favor of the Pettibacker. The colors keep pace with those of the evening clothes and some of the combinations are especially attractive.

Rest Room Most Inviting.

The rest room for the women guests of the store is a most inviting place furnished throughout in French gray wicker with mahogany plush upholstery. The handsome, new circular cushions are featured. The toilet room are finished in white enamel with all conveniences.

The beauty parlor, in charge of Mrs. P. Johnson and several assistants, is also an attractive place to stop. The furnishings are in ivory and white enamel and steel and four hoodies and four manicure tables are in place. Equipment for permanent waving of the hair, facial treatments, scalp treatments, hairdressing, manicuring, eyebrow care, muscle building, etc. is in place and the department will be open Friday evening for inspection.

Back to the Office.

The mezzanine floor accommodates the office and is furnished throughout in dark mahogany. There are three main offices, occupied by F. T. Timberlake, general manager; R. D. Kennedy, stock manager; and T. A. Bradley, supervisor of advertising and display. The credit department, in charge of James Jackson, and the purchasing section, in charge of Paul H. Bennett, who is assisted by Miss Agnes Elliott, in charge of all personal accounts, are on this floor.

Basement and Other Features.

The basement affords commodious space for reserve stock, the boiler room, checking and marking rooms, etc. It is expected that this floor will be converted into a downstairs store later, however.

The wrapping stations upstairs and down are equipped with the complete and up-to-date machinery for making change from the office, which is a most convenient feature. High-speed elevators have been installed and will convey the guests to and from every department Friday evening.

In all, the new department store is one of the most complete and up-to-date business organizations in this section of the state.

Private School.

Mrs. W. H. Wynn will resume her private school at her home September 6th, 210 Lee street. Terms, \$2.50 per month. 103-7tp

—OUR— LADIES' READY-TO-WEAR DEPARTMENT Is Doing a Wonderful Business

WHY?

IS THE FIRST MONDAY IN SEPTEMBER CALLED LABOR DAY?

(Copyright, 1920, by Wheeler Syndicate, Inc.)

The idea of having an American holiday, separate and distinct from the European celebration of May 1 as Labor Day, originated in Boston about 1878, but it was not until the year 1894 that formal movement was made to establish this as an annual institution.

Matthew Maguire, secretary of the Central Labor Union in New York city, wrote to the various labor organizations in the state with a view to settling aside one day in the year for a celebration of the power of labor by the national holiday.

The idea was well received, and it was agreed to select the first Monday in September, the opening of the harvesting season as well as the commencement of fall activities in various other lines.

The first Labor Day was accordingly celebrated in the same year, 1894, and proved so successful that the New York Central Labor Union wrote to the organizations in other states, suggesting that they adopt the same day for their celebration.

Adding that the first Monday in September had been endorsed as the official holiday for labor by the American Federation of Labor and the Knights of Labor.

In 1887 the New York legislature made Labor Day a holiday throughout the state, and it was subsequently followed by Massachusetts and other states. By act of congress, signed by the president on June 28, 1896, the holiday was made official in the District of Columbia, and soon spread throughout the country.

At the present time the holiday is recognized in one way or another in 31 states, one in which the day is not officially recognized as a holiday.

Tonorrow—WHY is the American flag called "Old Glory"?

Teacher or pupil—weight of this is little marked at Pelletier's. Age seems to me a bitly glad.

As the little girl or lad. And when the ride has come to close Two hands across the pony's nose.

Two hands across the pony's nose. Two hands across the pony's nose. Two hands across the pony's nose.

Side Talks

By RUTH CAMERON

A Letter From Fifty to Twenty.

"Age may have one side, but assuredly youth has the other. There is nothing more certain than that both are right—except, perhaps, that both are wrong."

Let them agree to differ: for who knows but what agreeing to differ may be a form of agreement rather than a form of difference?"

Stevenson.

Some days ago I told you about a letter that a little friend says she is going to write. It is to be addressed to herself at 50 and put away to be opened when she is 25.

Another letter friend writes to say that she thinks this a jolly idea since it is so hard for middle aged to get young's viewpoint. The letter says the process could be reversed and that oneself at 50 could write a letter to oneself at 25.

It would be a wonderful help wouldn't it? That is, if youth would believe itself any more than it will believe other's messages from the land of grown-upness.

What would the self of 50 write to the self of 25, I wonder? Well, one thing would be a warning that mother's father aren't quite such hopeless conservatives as they appear to be, that strange as it may seem, they were right about some things after all.

Another would be along the same line—a warning to be more appreciative and thoughtful.

I would do how many times I have said to myself as the years fly by, "Now I know how mother felt about this or that. Why wasn't I more content in my boyhood?"

One absurd little instance is this: I never open anything packed in excelsior without remembering how mother looked when she opened it. It is so hard to get it off the carpet, and how we used to say, "Oh, we won't get it around here, it's so heavy."

Another example would be to take the contents, scatter just enough of that maddening stuff about to spoil the looks of a clean room.

POKER PORTRAITS—THE TRAGEDY

OUR HERO'S WIFE IS OUT OF TOWN, THE BUFFET ISN'T EXACTLY EMPTY AND HE IS HUNGRY FOR AN ALL NIGHT GAME. AFTER PHONING EVERY MAN HE KNOWS AND FINDING THEM ALL OUT OR ENGAGED FOR THE EVENING HE IS TRYING TO DECIDE WHETHER TO SEE THE MOVIES OR GO TO BED AND READ THE RISE AND FALL OF THE ROMAN EMPIRE.

HOROSCOPE: The stars indicate that we do not expect. (Copyright, 1920, by The McClure Newspaper Syndicate.)

Friday, September 3. Three planets—the ambitions of men and women this day according to astrologers who find Mercury, the Sun and Saturn, all in strongly benefic aspect.

Advertising and publicity of every sort is well directed, while Mercury is friendly and there is an especially good forecast for the people who seek approbation from the people.

Political candidates should make the best possible use of the hours of the morning when it is probable that pleasant impression will be easily made on the public mind.

There is a sign read as favorableness old leaders, who seek to recover popularity and power.

The aged should benefit during this time, which is believed to impart alertness and energy to men and women.

Misjudgment concerning the aims and aspirations of women is forecast and mistakes due to the lack of understanding, the seers warn.

Marriage problems will be uppermost in discussion after the beginning of the month.

Feed Nerves Plenty of Phosphate

Keen Minded Men, Energetic and Successful Rely on it Asserts Prominent N. Y. Physician

Physicians "Who's Who," and a nationally known author of medical text books, in a most emphatic statement

"If I had my way, Bitro-Phosphate should be prescribed by every doctor and used in every hospital."

Later, Dr. Kelle said: "When the nerve tissue begins to lose its vitality, woman begins to lose her youth and vivaciousness. Her lively, pleasant disposition is lost—she becomes irritable, uncompanionable, moody and despondent. It would indeed be a godsend if more men and women were aware of the efficiency of Bitro-Phosphate."

Hot weather is dreaded by men and women who are weak, thin, nervous, timid and lacking in vigorous development because it saps their vitality almost to the breaking point.

To all such people Bitro-Phosphate is recommended because it is the one organic phosphate which, when absorbed by the system, will supply the element necessary for a vigorous, healthy body free from any suggestion of weakness or disordered nerves.

Your druggist has Bitro-Phosphate in the original package with complete instructions for best results.

The Great General Tonic

Whether it is more efficacious as a stimulant of exhausted nerves and depleted forces than LYKO, the great general tonic. It restores the worn-out tissues, replenishes the blood, creates new power and energy, and nerve the spirits of those who are weak. It presents a sure weight as the result of sickness, nervous strain, worry or over-exertion. It is a reliable, effective, and powerful stimulant and a safe, natural regulator of the liver, kidneys and bowels.

All druggists sell LYKO. Get a bottle TO-DAY and you'll soon know how much more like the picture of health.

Sole Manufacturers: LYKO MEDICINE COMPANY, NEW YORK, KANSAS CITY, MO.

SOCIETY AND CLUBS

THREE NEWTOWN BABIES ARE TAKEN TO CHILDREN'S HOME

Raymond, Minnie Belle and baby Basie Ruth have lived for long, happy, unchildlike months in the shadow of the golden Cycle well at Newtown, but Thursday, a new day began for them.

They are dear, attractive children, Miss Hendrickle said a few minutes later on the street, after the children had been fed and sent to bed for a nap.

They are three little specks of humanity who will be nourished and loved back to normal life in the home in a very short while, and adopted into Christian homes.

They have a home already where two little girls are wanted, and another in the same town wanting a boy.

Mrs. W. P. McCurdy, who was operated on Thursday at the Methodist hospital, is reported resting very well Friday.

SCHOOL BOARD PLANS FOR IMPROVEMENTS

Outlines Manner in Which Money From New Bond Issue Will Be Expended.

With the school bond issue assured the local board of education is laying plans for the expenditure of the \$200,000 which will be received from the sale of the bonds.

The largest single expenditure will probably be in the erection of a school for negroes. The site for the new building has not been selected as yet, but it is hoped to purchase the ground and start actual construction work within a short time.

At the same time a school in addition to the four rooms now in the building will have a seating capacity of between 250 and 300 pupils.

so arranged that they may be thrown open and used as an assembly hall for the students and for social functions of the community.

This building program will be carried out as rapidly as possible and will require the major portion of the money obtained from the bond issue.

PLAN NEW UNIFORMS FOR LOCAL VETERANS

Move Also Under Way To Send Boy Scouts To Reunion As a Body Guard.

Judge Edgar Scurry, national secretary of the Sons of Confederate Veterans, is authority for the statement that the Daughters of the Confederacy have undertaken to send the Confederate veterans of Wichita county to the annual reunion, which is to be held at Houston in October and to send them in new uniforms of Confederate gray.

"These suits," said the judge, "were ordered some time ago and they are now here and the ladies plan to distribute them to the soldiers within the next few days. They were ordered through the Louis-Leopold Clothing Co., and these gentlemen kindly took the measurements, ordered the suits and delivered them to the Daughters of the Confederacy at actual cost."

"There is a move on foot, not yet fully determined, however, to send as many Boy Scouts as there are soldiers through the reunion from Wichita county as a special body-guard for the veterans on the trip to Houston and return. If the plan realizes, the boys will act as special guards at Houston during the reunion."

"Mr. I. W. Keys, commander of the Sons of Confederate Veterans, has appointed Rev. Mr. Randolph Clark of Stephenville, Texas, chaplain of the Sons of Confederate Veterans of Texas. Chaplain Clark is the father of our fellow townsman, Prof. Lee Clark."

NEW WOOD HOTEL IS OPENED ON WEDNESDAY

Formal opening of the New Wood hotel, 209 Scott street, was held Wednesday evening and the new hostelry opened for business on Thursday morning. Lee Wood, the manager, states that the opening business was extremely gratifying.

The new hotel has 22 rooms, each one equipped with a private telephone. All the rooms have been newly furnished and are fitted out in Circassian and American walnut.

The hotel is located on the second floor in the building owned by T. F. Adams and N. H. Martin.

WITNESS TESTIFIES AT INQUIRY INTO RECENT AUTOMOBILE ACCIDENT

Further investigation into the accidental death of Miss Clara Corey which occurred last Wednesday morning, by the forces of the county attorney, brought out the testimony of J. Heskett who was the man who rushed the victim to the Wichita General hospital.

Mr. Heskett testified that he rushed the young lady to the hospital for immediate treatment and summoned his family physicians. He told Assistant County Attorney John A. Martin that there was a delay occasioned after he arrived at the hospital with the patient.

In telling of the affair to the assistant district attorney he stated that three nurses inquired of him who the lady was, to which he replied that he did not know as he had picked her up on the street following an accident.

He also stated that he was asked who would stand the bill incurred in taking care of the lady. He further told that he gave the First National bank as a reference after he had stated that he would guarantee the payment of the bill. It was then he said that Miss Corey, now deceased, was accepted as a patient.

NOTED NAVAL VETERAN OF CIVIL WAR IS DEAD

BOSTON, Sept. 2.—The death in St. Augustine, Fla., yesterday of Henry Walton Grinnell, a naval veteran of the Civil and Spanish wars, who became an admiral in the Imperial Japanese navy, became known to relatives in this city today.

This work in the training of seamen was said to have been largely responsible for the development of the Japanese navy, which turned back the Russian fleets.

Born in New Bedford 84 years ago of a seagoing family, Grinnell fought with Farragut at New Orleans and received honorable mention for running the Confederate lines with despatches. He left the navy as a lieutenant at the close of the civil war and went to Japan, serving throughout the Sino-Japanese war. He was made a rear admiral of the new Japanese navy for his part in its quick growth to sea power.

At the outbreak of the Spanish-American war he volunteered for service in the United States navy and became lieutenant on the battleship Coma.

Admiral Grinnell's father was Moses Grinnell of New York, who financed several Arctic expeditions and for whom Grinnell landed in the Arctic way named.

TWO KILLED AT KENNEDY IN AUTOMOBILE ACCIDENT

KENNEDY, TEXAS, Sept. 2.—David A. Nugent, Russellville, Ark., and J. D. Singletary of Ballinger, Texas, were instantly killed late yesterday when their automobile was struck by a E. A. & A. P. passenger train, at the edge of the city limits. The automobile caught fire but the bodies were extricated before they had been burned.

IRRIGATION DISCUSSED AT LUNCHEON TODAY

J. A. Kemp Principal Speaker at Weekly Meeting of The Business Council.

Belief that the bonds of the Wichita Falls Irrigation district would be marketed through the reclamation department of the United States government was expressed by J. A. Kemp in a talk before the business council of the chamber of commerce urging a full vote on the proposition next Tuesday.

The session of the council was held at a luncheon at the Wichita club quarters Friday at noon.

Mr. Kemp spoke with enthusiasm and much earnestness concerning the irrigation proposition. He said that one of the reasons why he wanted to attend the democratic national convention at San Francisco was to urge the proper kind of a reclamation plank in the platform. He said that he got just what he wanted. He said that there was much the same kind of a plank in the republican platform and that both of the presidential nominees were in hearty sympathy with these planks.

He said that he had been accused of a desire for political preferment. He disclaimed such a desire with much earnestness. "I came to Wichita Falls thirty-seven years ago a poor young

man. I have prospered in this community much beyond by desert," he said, "and I want the balance of my days to properly administer the trust God has given me."

"He said that for more than twenty-five years the irrigation project had been in the minds of a number of Wichita Falls progressive citizens. It was now about to become a reality. He said that it would be the cheapest irrigation project in the United States and told in glowing terms some of the possibilities of irrigation.

"There is no question," he said, "about the bond issue carrying; but we want to carry by a large vote; we want to show the federal government and the people who buy the bonds our deep interest in this matter; we want to assure hundreds of thousands of happy homes and prosperous people up and down this valley."

Delegates of the council expressed their opinion through a written ballot on what the council should next undertake. The results of the ballot were now being tabulated.

Secretary Shannon of the Fort Worth chamber of commerce, J. P. Roodhouse of Burkburnett and Agricultural Agent Walker of the M. K. & T. gave short talks.

Mr. Roodhouse told of the movement to provide a school building at Bradley's Corner.

T. P. Adams told how a school building had been built in the oil field north of Iowa Park by contributions from oil operators and lease owners in the vicinity. A committee was named to act with similar committees from Burkburnett and Bradley's Corner to raise a sum of about \$2,500.

D. N. BARKER BRINGS FIRST BALE COTTON

The first bale of cotton of the 1920 crop was brought to Wichita Falls today. It was grown by D. N. Barker who lives on the Friberg farm north of town. It will be ginned this afternoon at the Farmers Gin Company.

The lint is of good quality and Mr. Barker said that the yield would be good.

Cotton is just beginning to open in this section and it will be several weeks before it begins to come to the gin in considerable quantity. Despite the excessive rains the crop generally in this section promises a heavy yield. The average in this vicinity, however, is below normal. It is the usual custom to provide

NEW STUTZ FIRE PUMP IS GIVEN A WORKOUT

The new Stutz fire pump that was purchased recently by the Wichita Falls fire department was given its first work out Friday afternoon. The machine which has a capacity of pumping 700 gallons of water a minute, was taken to the corner of Indiana and Ninth streets and gave an interesting demonstration of its capacity for 30 minutes. The pump is built into the truck proper and is driven by the truck motor, which is a six-cylinder Stutz Hi-Duty engine.

Two leads of hose may be run from the pump reservoir to the scene of the fire and when running at its maximum speed these leads will throw a stream of water several hundred feet into the air. The firemen who operated the machine thoroughly drenched the vacant lots at the corner of Ninth

and Indiana and had they cared to they could easily given the room of the Wichita theater a good scrubbing from the ground.

Mr. John Woodruff, a representative of the Stutz plant at Indianapolis, is in the city giving the local firemen instruction as to the operation and maintenance of the new pump. On Friday it will be taken to the water works and given the official test before city officials and fire chiefs from surrounding towns. The truck on which the pump is carried also has a capacity for several hundred feet of hose and a complete line of chemical equipment.

ADDITIONAL POPULATION FIGURES ARE ANNOUNCED

WASHINGTON, Sept. 2.—Troy N. Y., 72,013; decrease 4,300, or 6.3 per cent. State of Colorado, 329,376; increase 148,325, or 17.6 per cent.

Denver, Colo., (revised) 256,491; increase 42,110, or 28.1 per cent (previously announced as 246,389). Boulder, Colo., 13,846; increase 816, or 6.3 per cent.

URGES NEW POLICY TO PROTECT TREES

C. L. Pack Buys \$1,000,000 Acres of Waste Land Could Be Made to Grow Forests

NEW LONDON, N. H., Sept. 2.—Warning the business interests, particularly the newspaper publishers, that there must be action at once for better fire protection—\$1,000,000 a year for guarding forests against the \$20,000,000 a year fire loss—Charles LaThrop Pack, president of the American Forestry Association, spoke here today at a conference of foresters, timberland owners, paper, pulp men and lumbermen. Pack also urged a two million a year appropriation for the acquisition of forest land by the government for the purpose of growing timber to replace our rapidly disappearing supplies.

The conference is being conducted by the Society for the Protection of New Hampshire Forests. Some of the speakers on the day program are George W. Sisson, Jr., president of the American Pulp and Paper Association; R. B. Kellogg, secretary of the American News Print Service; Col. Henry S. Graves, former chief forester of the U. S.; Elwood Wilson, forester of the Laurenside Paper Co., of Grand Mere, Quebec.

Forests are not only being wiped out by destructive conflagrations as well as by numerous small fires, but these fires also prevent the natural restoration of hundreds of thousands of acres of cut over lands, said Pack. "Our direct loss in timber by these fires is \$20,000,000 a year. Altogether there are 315,000,000 acres of state and privately owned forest land in the protection of which the government should cooperate. At present half of this vast area is wholly unprotected and protection for the other half is entirely inadequate. If these lands are to be kept productive the natural restoration and expansion in our present fire protection activities by the federal government, the states and private owners. Legislation authorizing the government to spend a million dollars annually in cooperation with the states is immediately essential.

"Close estimates show 81,000,000 acres of waste forest land on which there is no growth of any value. This area, greater than the combined forest area of Germany, Denmark, Holland, Belgium, France, Switzerland, Spain and Portugal should be made, under proper management, to produce forests. "Our standing timber is now being cut or destroyed by fire, disease and insects four times as fast as new timber is being grown. In the case of saw timber alone, the destruction is more than 2 1/2 times the growth of such material. What this means to the nation in the way of higher prices of forest products is apparent. "Adequate fire protection of our for-

ests will solve 75 per cent of the difficulties now confronting us in attempting to keep our forest lands productive. "At present about one fifth of the forest land of the country is publicly owned, mainly by the Federal government. This ownership should be increased to one half of the timber growing land of the United States well distributed throughout the principal forest regions."

CONGRESSIONAL PARTY WELCOME TO JAPAN

By Associated Press. TOKIO, Sept. 2.—The American congressional party visiting Japan was welcomed at the railway station upon its arrival at the capital today by Viscount Inajiro Tajiri, mayor of Tokio, who is a graduate of Yale in the class of 1879, and a delegation from the Japanese diet.

Altogether the station which was kept within fixed limits by the police, made no demonstration as the party entered special automobiles and proceeded to the Imperial hotel. A large force of detectives and supplementary police closely scrutinized all orientals in the throng, supposedly because of allegations that Koreans and Chinese were likely to attempt anti-Japanese manifestations on this occasion.

MEDICATED SMOKE DRIVES OUT CATARRH

Pleasant And Easy To Use.

Dr. Blosser is the originator of a certain combination of medicinal herbs, flowers and berries to be smoked in a pipe or ready prepared cigarette which is smoking with unusual success in catarrhal troubles. The smoke-vapor reaches all the air passages of the head, nose and throat. As the disease is carried into these passages with the air you breathe, so the antiseptic vapor of this remedy is carried with the breath directly to the affected parts.

This simple, practical method applies the medicine where sprays, douches, inhalants, etc., cannot possibly go. Its effect is soothing and healing, and is entirely harmless, containing no cubeb, tobacco, or habit forming drugs. It is pleasant to use, and not sickening to those who have never smoked. If you are a sufferer from catarrh, asthma, catarrhal deafness, or subject to frequent colds, you should try this remedy without delay. Any well-stocked drug store can supply Dr. Blosser's Remedy in cigarettes or powder for smoking in a pipe, or will order it for you. Satisfactory results guaranteed by a genuine money-back offer. A trial package will be mailed postpaid to any sufferer for ten cents (coin or stamp) by The Blosser Co., 212 1/2 Atlanta, Ga., to prove its delightful and remarkable effectiveness.—(adv.)

NEW REDUCTION OF ONE CENT A POUND IN SUGAR

NEW YORK, Sept. 2.—Announcements were made today bringing prices for refined sugar to about the same basis at which "second hand" or speculators' stocks recently have been selling.

The Federal Sugar Refining Co. announced a new reduction of a cent a pound, making its price for fine granulated "15 cents a pound, less two per cent." Arbutic Brothers did not change their list price, although they announced last night that they were offering limited amounts of fine granulated at 15 cents a pound. This is sugar that had been bought by speculators or others who have returned it to refiners to be "sold at the best price obtainable." Other refiners have announced no change in their list prices.

COTTON SEED CRUSHERS TO HOLD A CONFERENCE

FORT WORTH, Sept. 2.—Officers of the Texas Cotton Seed Crushers' Association have invited a representative of the attorney general's department to Dallas Saturday to confer on the price of cotton seed, states C. C. Littleton, of the crushers. The latter says Littleton will submit a proposition seeking to insure the producers a more profitable return.

FORT WORTH JUDGE SUGGESTS WHIPPING POST

By United Press. FORT WORTH, Sept. 2.—Fort Worth will establish whipping posts and "stocks" to "cure" caveman tendencies of modern husbands, if the city heads the advice handed out here today by Bruce Young of the district court. "The majority of divorce cases show cruel treatment as the main charge," said Judge Young. "I am absolutely

FINANCIAL CONDITION OF BRAZIL SHIFTS ONE

RIO JANEIRO, Sept. 2.—Financial conditions in Brazil have become so serious and exchange rates so erratic that North American banks and merchants are said to be refusing credits to Brazilian concerns until the situation shall have improved.

PASS ORDINANCE TO REQUIRE SERVICE ON STREET CARS

ATCHISON, KAN., Sept. 2.—An ordinance requiring the local street car

company to resume service on its lines which have been tied up a week by a strike of trainmen, or pay a forfeit of five a day, was passed by the city council here at a meeting late last night.

JAPAN GOING TO KEEP TROOPS AT VLADIVOSTOK

HONOLULU, Sept. 2.—Japan has declared her intention of keeping troops at Vladivostok until security of life and property is guaranteed, according to Vladivostok reports to Tokio, called to Hooih, a Japanese language newspaper here. Some powers are opposing further

Japanese occupation of Vladivostok, the advices added.

The SPORTLIGHT by Grantland Rice

Who takes a bit the best of it. Who give a bit the worst of it. Who play the game for all their worth. And let Paris shape the rest of it.

In case the White Sox persistently insist upon winning another pennant this year the seventh world series has contributed its share of kale to Eddie Collins' bank roster.

Out of the fantastic flurry of padded mitts that will open the fall season and continue through the winter will some challenger step forth able to joust Dempsey with Willis and Carpenter left, none's reached that stage yet.

THE COMBINATION STAFF. A combination football and basketball fan desires to know the name of the greatest football-baseball combination in the major leagues.

Day In and Day Out HeK is good because it is made from the choicest Hops and Barley Malt in the same old way as the best beer ever brewed.

Old dame fortune played some queer pranks at thetic park yesterday afternoon while the Spudders and Panthers were battling through 19 more innings of airtight baseball.

Both teams duplicated their airtight ball the previous day and the teams were so evenly matched that it was only a question of a team getting the breaks to win.

The Spudders came right back at them and counted in their portion. Schliebner doubled over Sears' dome in left after Clark had been retired and scored on McElwee's drive.

The Spudders had the chance of a lifetime to score the winning run in the ninth inning when McElwee showed some of the stuff whereby he was given the title as the leading hurler of the year.

The Spudders acted as if they were going to make a farce out of the game in their portion of the chapter but Appleton settled down after two runs had crossed the platter.

The Spudders passed up a golden opportunity in the sixth when Appleton was too much for them. Moke, starting with a long double to left center and Clark was hit by a pitched ball.

PLENTY OF DEMPSEY MONEY BUT MISKE BACKERS ARE FEW

Bout Will Be Held Labor Day Regardless Of Weather Conditions In Benton Harbor.

BENTON HARBOR, Mich., Sept. 2.—Rain will not cause a postponement of the heavy weight championship contest between Jack Dempsey and Billy Miske, set for Monday afternoon. Promoter Fitzsimmons announced today. The ring and a large part of the open air arena will be covered with a huge canvas on the day of the fight if the weather is threatening, and the heavy weight rivals will go into the ring on scheduled time no matter if there is a pourdown. The referee situation is expected to be cleared up today with the arrival of Thomas Bigger, chairman of the state athletic commission. Promoter Fitzsimmons said that the advance sale has reached \$50,000 and that indications were favorable for total gate receipts of \$150,000. Promoter Fitzsimmons said that in order to prevent the \$5 general admission seats from falling into the hands of speculators, it has been decided not to place these seats on sale until the morning of the contest. Only a few scattering wagers have been made on the outcome of the match. There is plenty of Dempsey money in sight but the Miske dollars are scarce. One wager of \$5,000 at seven money that Miske would stay the limit was snatched up quickly. One bet of \$10,000 to \$5,000 was recorded that Dempsey would win. George A. Barton, a sporting editor of Minneapolis, who refereed the first fight between Dempsey and Miske in St. Paul in 1918, in an interview today, said that Miske held Dempsey to a draw in their 10-round encounter.

Major League Bits

Earnes pitched the Giants back to life after four straight losses, defeating the Pirates 2 to 1. Ring was the big show in the Cincinnati-Louis game. He held the Cards down to six hits and drove in all Cincinnati's runs. The Red Sox took another from the Yanks, 6 to 2. Harris turned Detroit back with only two hits, the Athletics pinning, 2 to 0. Our store will be open Saturday evenings beginning September 4. The Sherwin-Williams Co. 112-218

Notice!

Am personally going twice a month with my people to the lower Rio Grande Valley, the grandest spot in America. I just returned from there, taking thirteen people from here and sold all of them but two. I don't send people down there, I carry them. I see they have a fair chance, I give them my personal assistance. I will start next Sunday at 2 o'clock, Sept. 5th; return Friday night. Call around and let us talk it over. Will have to have your name by Saturday noon so can arrange berth. It will only cost you about one-fourth regular fare now; have one day in Galveston boating and bathing.

Sport Shots

By Paul W. Larkin

Local Tandem has been treated to the best baseball of the season at Athletic park the past week. The Spudgers beat the Gassers out of second place in the next to the last series and the final game was won in the ninth. Then the Panthers were forced to go seven innings before winning a game, while the Spudgers took one from them in the ninth and tied another up in 12th innings. What more could be desired?

The chances for a little post-season baseball loom up brighter than ever. Skinner Sain has not been able to get in touch with Paul Lagrave of the Panther club, so nothing has been settled yet regarding a post-season series with the champions. But an all-star club has been organized which is going on a barnstorming tour to the Pacific coast, and if the Panthers and Spudgers cannot get together, the all-star club may show here. Take our word for it, too, that said club will travel with the best of them.

The tentative lineup at present is as follows: Pate, Wachtel and Whittaker, pitchers; Mickey O'Brien and Harworth, catchers; Bill Kraft, firstbase; Dutch Hoffman, secondbase; Bader, shortstop; Frank Haley, thirdbase; Cuckoo, Demaggio, leftfield; O'Brien, centerfield; Pete Schneider, rightfield. Just such a bas looking outfit!

Red Josephson had Bill Whittaker's number in the second bill yesterday. Bill told Red when he first appeared at the bat to stand still in the box or else he would make it just as tough for him. Red continued to bother him just the same as he drew three passes, the only three issued by Bill during the contest. You can't intimidate that boy.

Jo quered himself when he slid into the third in the third round of the second contest trying to beat Stow's leg to Phelan. But Phelan had Jo blocked off the bag and the latter's toe was plainly visible to all as he tried to wiggle it onto the bag. Paul saw it and then called him out. Jo put up a feeble protest, but knew that Sentell was right.

Sentell is aging fast with the rest of us. He saw Grubb's drive coming for him, but could not get out of the way fast enough. He had better look out for the wheelbarrows when crossing the street.

Well, after all is said and done, we've had some mighty good baseball here this year and the powers that be deserve a world of credit organized ball in Wichita Falls was more or less a speculation at the beginning of the season, but a few local boosters had confidence in their fellow townsmen and staked them to a team. The fans came through and the players did the rest. It's going to be a long time between drinks, but the boys (some of them) will be back next year, some have gone up, but the majority will be back. They'll receive a royal welcome. A more gentlemanly bunch of players never appeared on a diamond and they were players as well as gentlemen.

MEMORIAL DAY FOR CHAPMAN OBSERVED TODAY IN CLEVELAND

CLEVELAND, Sept. 2.—Today will be observed in League park as memorial day for Ray Chapman, the Cleveland shortstop who died as the result of being hit by a pitched ball in New York several weeks ago. Ten minutes previous to the start of the Cleveland-Detroit game, a longline from the Cleveland naval reserves, of which Chapman was a member, will sound taps and the flag will be half-masted. The players of both teams and the fans will stand at attention, the players in front of their respective dugouts. Then a choir of a hundred voices will sing "Lead Kindly Light." An orchestra will furnish the music. It will be the first game at home since the death of Chapman.

CARPENTER TO SAIL FOR UNITED STATES TOMORROW
PARIS, Sept. 2.—George Carpenter, heavy-weight pugilistic champion of Europe, will leave for the United States tomorrow, according to newspaper here.

INDIANS AND WHITE SOX APPEAR TO HAVE EDGE ON YANKEES

By L. R. BLANCHARD
United Press Staff Correspondent
CHICAGO, Sept. 2.—Chicago and Cleveland appeared today to be set to battle it out for first place in the American League. The Yanks, now in third place, are still a factor in the race, but the block signal is set against them. The dope that seems to point this way is: The White Sox and the Indians are now on their home grounds and will play there for 22 of the 28 remaining games. The Yanks will be on the road most of the time and there is no getting away from the fact that traveling is a great efficiency reducer. The Yanks, however, with "Murderer's Row" functioning, can overturn a lot of things and dope may be one of them.

ARMY RECOGNIZING STATE BOUNDARIES

Adopts Plan Of Allocating Each Regiment To Some Particular State.

The regular army is abandoning one of its time-honored customs of disregarding state boundaries and ignoring state traditions in its organization, and instead has adopted the plan of allocating each regiment to a selected state, of obtaining recruits for the regiment in that state, and of intertwining as far as possible the state's traditions with the traditions of the regiment.

This follows the plan of the national guard, of the volunteer system of past wars, and of the navy. Such a move should in time build up an esprit de corps within the organizations and a local knowledge and pride among the people of the respective states concerning them that will be invaluable.

The infantry regiment allocated to Texas is the historic third which has a record and a reputation that is admired and envied throughout the army.

History of the Third.
The old third was organized at Pittsburgh by Mad Anthony Wayne in 1792, as the Third Sub-Legion, and to distinguish its members from those of the other sub-legions, General Wayne added "yellow bindings to their caps, yellow plumes to their hats," and from that day to this the Third has had an honorable part in the history of our land, fighting its enemies in honorable and soldierly manner, protecting the frontiers and blazing the way for the pioneers from the Great Lakes to the Rio Grande and from the Appalachians to the Rockies. The regiment took an honorable part in the War of 1812, the Mexican war, the war between the states and the Spanish war. It was ready and willing to take part in the war against Germany, but was ordered to protect the Mexican border, and it carried out its orders.

At the first battle of Bull Run, a single battalion of the Third was present and it was this battalion that saved the Union forces from utter annihilation at the hands of the victorious Confederates.

During the long hours of the battle, this battalion, being composed of seasoned troops, was placed at the danger points as they developed, here to protect the guns of a threatened battery, there to repel a cavalry charge and yonder to revive the falling hope

Nothing Counts but Doctor's Orders

We have no ideas—no suggestions—nothing to add or subtract from the doctor's prescription as he writes it. We never substitute one single item for another—even tho another chemical might give practically the same results. Doctor knows what you need—we know what he wants.

and courage of the inexperienced troops. General Daingerfield Parker, then a lieutenant in the Third, thus describes the termination of the battle and the part in it played by this heroic battalion:

"Our troops," he says, "inexperienced and unused to even the fatigues of the campaign, had been on their feet, marching, fighting under fire, or at times all three, since about midnight the night previous. The enemy's slaughter at such a time and under such circumstances caused our flank to yield, and before an advance of the whole Confederate line our men at length gave way and were suddenly seized with panic that beginning in a retreat degenerated into a riot."

Then ensued a picture that will never be forgotten by those who witnessed it. "The whole field," says General Parker, "as far as the eye could reach was covered with panic-stricken and flying men." All was lost, apparently. And then, tramp, tramp, tramp came the cadence of men marching in order. The little battalion of the Third, or what was left of it, had been ordered to go forward, and it was going forward.

"It advanced to the top of a hill, formed a hollow square (the only one used during the entire war) and with-

stood a cavalry charge that was launched against it, and which, had it succeeded, would have annihilated what was left of the Union army. And then, with the flying troops covered, the little band began to withdraw. Again and again it halted, formed square and spelled the onslaught of the cavalry. Again, and again was the little force cut down by a converging fire of artillery which sought to wipe out the only barrier between them and a demoralized army.

"A few days later the battalion stood in review before President Abraham Lincoln, who wanted to see the men who 'alone moved up the hill, and 'who took up a position where they held the entire force of the rebels in check.'"

In presenting the command General McDowell said, "Mr. President, these are the men who saved your army at Bull Run." The president, glancing up and down the line, replied, "I have heard of them."

In an official report, General Beau-

regard of the Confederate forces stated, "Major Sykes' regulars made a steady and handsome withdrawal protecting the rear of the routed forces." The great general recognized the gallantry of the northern foe.

If the policy now being adopted, of regarding this regiment as "Texas Own" and recruiting for it in Texas only, is maintained, the interests and traditions of the Texas national guard and of this regiment should in the course of years become intertwined and interwoven, and the state will be as proud of the one as of the other.
