### GOVERNMENT OPENS NEGOTIATIONS WITH ITALIAN STRIKERS

WORKERS HAVE OCCUPIED 400 OF THE LARGEST METAL FACTORIES IN THAT COUNTRY.

Metal Industry in Italy Threatened With Extinction by High Cost of Coal.

ROME, Sept. 7.—Government officials will open negotiations with the general industrial conference at Milan on Thursday with a view to solving the problem presented by the seizure by workers of metal factories throughout Italy. The socialist group in the Italian parliament will hold a meeting with the government committee of the general workers' confederation on Friday and it is expected that at this gathering a policy will be adopted by the workers relative to the present economic condition of Italian industry.

It is estimated that 400 of the largest metal works in Italy have been occupied by mechanics and workers and the movement is still expanding, threatening to extend to the extreme southern end of the peninsula. Elaborate steps have been taken by the government to preserve order during the period when a general offensive against all industries is threatened.

Manufacturers declare that the wage increase demanded by the 500,000 metal workers, employed by them, would add at least 1,000,000,000 lire to their payroll and that this burden would be sustained. They point out that Italy pays 15 times the pre-war price for coal, while England pays only three times; America only one and a half times; Germany only one. As a result foreign production is replacing Italian.

Wrought steel, manufactured in France is selling in Italy at a price 20 per cent above the Italian product, while wrought steel made in England, costs less than it can be produced for in Italy, even without duties.

Strikers in this city believed last night that an effort would be made by the police to take possession of some plants which had been occupied by workers. They sounded an alarm with sirens and immediately crowds of women and children rushed to the occupied plants to join the strikers, according to the Italian papers.

Employers given five days to comply with demands.

ROME, Sept. 7.—(Havas).—The employers in the metal factories which have been seized by workmen in the present contest over conditions in this industry have been given five days in which to comply with the workmen's demands, according to a resolution adopted by the socialist members of the general confederation of labor, should the employers fail to yield, a rapid movement toward general nationalization is threatened. So far the manufacturers have refused to accept the decision not to enter into direct negotiations with the workers before the strike is evaluated.

PREPARE TO ASSIST THE FARMERS OF THE STATE

AUSTIN, Sept. 7.—Preparations for assisting the farmers of this state in disposing of their surplus corn crop, is being made by the Texas bureau of markets and warehouses. The surplus is estimated by Sam H. Dixon, chief of the division of markets of the bureau, to be approximately 1,000,000 bushels. Mr. Dixon said that the annual average of corn in Texas has been 120,000,000 bushels and that the government estimate of this year's crop is 150,000,000.

Tentative agreements have been reached with brokers in nearby states. Mr. Dixon said that the bureau, which expects the increase in freight rates to be charged against the farmer and an effort will be made to prevent the increase from being added to the price of corn by buyers, thus charging the ultimate consumers with the freight increase twice.

SEVERE EARTH SHOCKS REPORTED FROM TUSCANY

### 11 DEAD, 99 INJURED IN DENVER WRECK

Authorities Begin Investigation Of Accident To Fix The Responsibility.

DENVER, Sept. 7.—With eleven dead and 99 persons injured, six probably fatally, as the result of the head-on collision of interurban trains near Globeville yesterday, Adams county officials today began an investigation to fix responsibility for the catastrophe.

The accident occurred shortly after a special train carrying excursionists to Eldorado left Globeville, a Denver suburb. The regular train, behind schedule, crashed into a curve one-half mile from Globeville, and into the special train, while motormen of both trains slammed on their brakes in a vain effort to halt the speeding cars.

"If I had only gotten a time card in the morning before I started out the whole thing never would have happened," said conductor H. W. Schulze of the special train. "But they did not have any when I asked for them and I trusted everything to my motorman, Lawrence Cripps, because he had been there so long and knew all the regular trains."

The conductor of the special train was a school teacher, assigned to duty on the interurban, a statement by C. W. Roberts, general agent of the Denver and Interurban railroad, said.

"In running past Globeville, the special exceeded its rights," he stated.

The full corps of teachers will be present. Principal Ryder stated.

### B. R. T. STRIKE ENTERS CRITICAL STAGE TODAY

NEW YORK, Sept. 7.—The strike of 11,000 employees of the Brooklyn Rapid Transit Co. entered its critical stage today, the opinion of company officials. Unless the men return to work by tomorrow noon, they will forfeit their seniority rights and other privileges, in accordance with the ultimatum issued last week by Lindley M. Garrison, receiver for the company.

The men voted last night to continue the strike until they had won their demands. The company today posted notices that all men returning before tomorrow noon would receive a ten per cent increase in wages.

### HEAVY SHOWERS FALL MONDAY AND TUESDAY

If the rain descends as copiously during the remaining days of September as it fell yesterday and today, August will be its five-inch contribution, will be remembered as a period of semi-drought, for Mr. George Simmons' rain gauge shows that yesterday's precipitation was one-third of an inch and that today's, up to 10 o'clock a. m., was three-fourths of an inch, or a total for the two days of one and one-twelfth inches.

### MEXICO HESITATES TO RECEIVE SHARP NOTE

United States Understood To Be Protesting In Strong Terms Mexico's Oil Laws.

By RALPH H. TURNER United Press Staff Correspondent. MEXICO CITY, Sept. 7.—Mexico was understood to have received a communication from the United States government regarding the Carranza petroleum laws which threaten to create a delicate situation between the two countries.

Dr. Cuthbert Hildago, acting foreign secretary, stated "officially" no note had been received. His statement, however, was said to represent merely his official attitude, as the communication was reported to be couched in such strong terms that the Mexican government was hesitating officially to acknowledge its receipt.

The communication was understood to have set forth that such concessions violated the Mexican constitution.

### TEACHERS FOR ALL OF RURAL SCHOOLS

County Superintendent Expects To Have Full Corps Of Teachers Ready.

Although there are still some vacancies existing in the roster of teachers for the schools of Wichita county, County Superintendent of Schools Bryant states that where the school is in session, he will have a teacher for each place and school.

The county superintendent stated that he has a list of teachers in reserve that he will be able to call upon should there be any vacancies turn up between now and the opening of school. The majority of the schools of the county will open next Monday, Sept. 12.

In speaking of text books for the coming term of the schools Mr. Bryant states that there will be a plentiful supply on hand. All the text books of last year will be used this year, and the close of school all the teachers put in a requisition for 15 per cent more than was had last year. It is reported that this additional 15 per cent will be the average.

### DEMOCRATIC STATE CONVENTION OPENS

Routine Matters Occupied Convention In Brief Session On Tuesday Morning.

FORT WORTH, Sept. 7.—Routine matters were included in the opening session of the democratic state convention here this morning. The delegates were called to order at 11:05 a. m. and heard addresses of welcome from Mayor Davis of Fort Worth and others. Then, the temporary chairman, Luther Johnson of Corsicana, was chosen.

He was Pat Neff's choice and also that of the executive committee. His keynote address then followed.

Neff's name as the nominee for governor will be presented to the convention this afternoon by E. H. Hamilton, county judge at Fort Worth.

### PRICE METHODS OF IMPLEMENT MAKERS

Federal Trade Commission Tells How Concerted Action Was Brought About.

WASHINGTON, Sept. 7.—Methods alleged by the federal trade commission to have been used by manufacturers of farm implements to advance prices through "concerted action" are described, it became known today, in a report of the commission's investigation which was authorized by the senate.

The commission announced last night that it had recommended the re-opening of the anti-trust proceedings against the International Harvester company and the institution of court proceedings against employers, manufacturers and dealers who, the commission asserted, have illegally increased prices.

Its investigation, the trade commission declared, disclosed that between 1915 and 1918 prices of farm implements advanced 75 per cent. Advances in costs and expenses of manufacturers did not warrant the commission said, an increase of this amount.

Discussing methods which the commission charges officers of implement manufacturers' associations to bring about, the report states that "price comparison meetings" were held at which "advances in prices recently made or intended to be made were discussed."

### CLAIM CONFESSION IN COMMUNIST PLOT TO WRECK DIAMOND SPECIAL

SPRINGFIELD, ILL., Sept. 7.—Detailed confession of a plot to wreck the Diamond Special of the Illinois Central, which wrecked survivors and murdered farmers and others attempting to give an alarm, have been obtained from 11 of 20 alleged communists arrested here Sunday night in connection with the alleged plot, officials claimed today.

The alleged confessions implicate members of the wreck survivors and murder groups, C. H. Paul, Chicago inspector of the Immigration department, claimed today.

### SENATOR HARDING IS OFF FRONT PORCH ON SPEAKING TRIP

REPUBLICAN NOMINEE ENROUTE TO MINNEAPOLIS TO SPEAK AT STATE FAIR.

### FOLLY TO TALK ABOUT SPECIFIC PROGRAM SAYS

Declines To Commit Himself On The League Of Nations Or Hague Tribunal.

By RAYMOND CLAPPER United Press Staff Correspondent. ABOARD SENATOR HARDING'S TRAIN, Sept. 7.—Deserting his front porch in Marion, Warren Co., Harding took to the stump today for the first time since his nomination and was speaking across Ohio and Indiana to open the republican offensive in the northwest with a speech at the Minneapolis state fair tomorrow.

Although the big agricultural fair at the Twin Cities was the only set address, it was expected Harding would be called to make several rear platform speeches en route.

Harding does not plan to stop in Chicago. His train will stop at Englewood, a suburb, about 2 o'clock today and Harding will board the train to Fort Sheridan to see General Leonard Wood, who is a candidate for the republican nomination. The party probably will avoid passing directly through downtown Chicago. Harding will board the train again at Deerfield and continue to St. Paul, arriving there there early Wednesday.

Senator Harry S. New, chairman of the republican speakers' bureau, will join the party at Chicago.

Harding indicated he does not intend to be drawn into any specific commitments regarding the courses he would pursue as president toward entering the league of nations or reorganizing the Hague Tribunal.

"It is folly to talk about a specific program," he said, "the specific thing to be evoked out of a congressman is the best thought and highest capacity which can be brought together, not the dictum of one spokesman."

Harding took the position that he cannot say what action he would take at some future time, in view of the rapidly changing international situation. Different conditions would lead to quite different courses, he believes.

### EXCITED ADVANCE IN COTTON PRICES AT NEW YORK TUESDAY

NEW YORK, Sept. 7.—The New York cotton exchange in celebrating its fiftieth anniversary today, witnessed an excited advance at the reopening this morning.

This advance was caused by the strength of Liverpool over the holidays, which has received the republican nomination for the presidency here last June. The senator will address wounded soldiers at Camp Sheridan.

### CORPORATIONS BARRED BY LAWS OF THE STATE

AUSTIN, Sept. 7.—Corporations are not entitled to be substituted on the books and records of the general land office as purchasers of public free school lands from the state.

The attorney general, however, brought out that there is nothing to prevent corporations from purchasing such lands from an individual after the latter has completed the purchase of the land.

### GOLD WEDDING RING STAY DESPITE MANY RIVALS

CHICAGO, Sept. 7.—New style wedding ring ornaments with flowers that broken the nuptial magic have made their appearance in jewelry shops. This represents a new drive to crowd the plain gold band to obsolescence but as yet, jewelers say, it still stands as the first with brides and the cash register. Its latest rival is of gold or platinum, ornamented with diamonds for each month of the twelve in this way: January, wild rose; February, carnation; March, violet; April, Easter lily; May, fly of the valley; June, rose; July, daisy; August, poppy; September, poppy; October, cosmos; November, chrysanthemum; December, holly.

### NORTH DAKOTA DAY ON GOV. COX TOUR TO CONQUER THE WEST

THIS FIGHT WILL NOT BE PINK TEA AFFAIR OR PILLOW FIGHT NOMINEE DECLARES.

### HECKLERS HAVE NO TERROR FOR MILITANT CANDIDATE

He Continues to Urge League of Nations And to Stress Progressive Government.

By HERBERT W. WALKER United Press Staff Correspondent. ABOARD GOVERNOR COX'S TRAIN, en route to Grand Forks, N. D., Sept. 7.—This was "North Dakota Day" on Governor James M. Cox's tour to "conquer the west."

With his fighting spirit apparently increasing as he moved further west, the governor was scheduled to make three speeches under his attack.

Noting an editorial saying his campaign was getting too rough, Cox told Minneapolis crowds last night that the "republicans have started 'squalling' under his attack."

"This fight will not be a pink tea affair or a pillow fight, and I intend to make things much warmer during the last months of the campaign," he said. "They did not hesitate to jump on a sick man when he was down."

Cox added, referring to the president. "The governor in this section of the northwest is stressing the League of Nations progressive government and his charges that republicans are seeking a huge 'slush fund.'"

Governor Cox was closely watching the resumption of the senate campaign expenditures committee in Chicago today and charged the republicans but several hundred paid "money diggers" into the field, including 60 traveling members of the League of Nations.

An unusual feature of the governor's stump campaign is that he apparently welcomes hecklers, the fear of many speakers.

In response to a heckler last night the candidate declared for self-determination, saying it was one of the main principles of the League of Nations. A speech at Grand Forks at 8:30 this morning was to open the governor's day. He was to stop there to address a meeting of the League of Nations. A night speech was on the schedule for Minot, after which Cox will leave for an invasion of Montana.

Cox Addressed Farmers. GRAND FORKS, N. D., Sept. 7.—Co-operative buying and selling by farmers was advocated by Gov. James M. Cox in his first speech in North Dakota. He urged the governor warned that measures must be taken to stop the trend from the farm to city or within ten years the United States will have to be importing foodstuffs.

New anti-trust laws enacted last year far labor and co-operative farm organizations may go in their work should be passed, he said. "The farmers must compete now with the manufacturer and for that reason they should be allowed to co-operate in purchasing and selling," Cox said.

He made a sharp attack on the big packing and cold storage interests, claiming cold storage has been an "artificially inflated price."

### GRAND JURY PROBE OF CHARGES OF THROWN GAME IS ORDERED

CHICAGO, Sept. 7.—A grand jury investigation was ordered today in criminal court charges that gamblers attempted to fix the Chicago-Philadelphia National League game of August 31 at Philadelphia to win. The jury received Judge Charles A. McDonald's instructions with cheers. Philadelphia won the game 3 to 0. President Veck of the Chicago team announced that he had been warned of a plot and named Pitcher Alexander in an effort to win.

WARSAW, Sept. 7.—The Polish government has appealed to the league of nations to arbitrate the territorial dispute between Poland and Lithuania. It was learned today.

WARSAW, Sept. 6.—Monday's official statement from military headquarters reports additional attacks by the Lithuanians upon the Polish forces, which the latter have repelled.

### MACSWINEY WEAKER BUT CONSCIOUS AND STILL ABLE TO TALK

#### FATHER DOMING SAVES PRISONER SUFFERING INTENSE PAIN IN HIS HEART.

#### MEDICAL OFFICER AT PRISON RECEIVES WARNING

Sister Of Lord Mayor Addresses Telegram To Hon. Law, Government Leader.

LONDON, Sept. 7.—Terence MacSwiney, lord mayor of Cork, who has been on a hunger strike since August 12 and for several days has been in a critical condition in Brixton prison, was reported appreciably weaker this morning, but conscious and able to speak. Father Dominic, private chaplain to MacSwiney, said the prisoner was suffering intense pain in the left side of his abdomen and in his heart. Regarding the statement by Premier Lloyd George indicating that MacSwiney probably would be released if guarantees were given that the murders of police in Ireland would cease, Father Dominic said the mayor had no authority to make any promise for the cessation of murders in Ireland as he was only an individual Sinn Feiner. "If the government is satisfied that murders are taking place," Father Dominic added, "why doesn't it capture the murderers and execute them?"

Medical Officer Warned. Dr. J. J. O'Connell, the acting medical officer at Brixton prison, is officially announced, received today a letter signed "one of the first brigade of the Irish republicans," ordering him to leave the jail forthwith and the country within twenty-four hours, as his professional attendance upon the hunger strikers gives a "tinge" to his name, the slow murder perpetrated upon them.

In the accompanying statement from Dublin castle, the government emphasizes its sole responsibility, and says that the doctor had recommended the release of the prisoners on medical grounds, which the government would not accept, and that the doctor's responsibility was confined solely to medical measures.

New Sinn Fein Activity. LONDON, Sept. 7.—The Daily Mail says it learns that new activity has been noted among certain well organized units of the Sinn Fein republican army. It is believed in official circles, the newspaper adds, that a new series of operations have been planned and that it is considered likely these will begin on or about September 25.

The same newspaper asserts that after the government's definite refusal on Friday to release Lord Mayor MacSwiney, his friends in London addressed an urgent petition to the British public government in Ireland asking that the lord mayor be released from his oath and that permission be given him to take food.

Addressed Hon. Law. LONDON, Sept. 6.—Miss Annis MacSwiney, sister of the lord mayor of Cork, has addressed the following telegram to Mr. Bonar Law, the government leader, who yesterday announced that the government would not release the Irish prisoner:

"Your letter reiterating that my brother is to die is an insult to freedom, honor, truth and every democratic principle. Eighty per cent of the Irish people have asserted their right to freedom you so fulsomely lauded in the case of Poland and Caschob-Slovakia. . . . Do you call the Poles rebels because they are determined to be free? Why then do you call the Irish rebels because they desire liberty? . . . You and the people who elected you are causing the death of Terence MacSwiney and his comrades because they have a living belief in and will die for the ideals you pretend you fight for."

#### NATION-WIDE CAMPAIGN TO EXTERMINATE THE RAT

CORPUS CHRISTI, Sept. 7.—Plans are being made by the United States public health service to inaugurate a nation-wide campaign against the rat, according to Dr. H. C. Hall, plague commissioner here, in a speech before the city council of Corpus Christi, which he declared the rodent was the greatest pest of the country. Not only does it cost \$4 a year to feed each rat, Dr. Hall said, but because the Norway rat, which is gaining a rapid foothold in some parts of Texas, carries a flag whose bite transmits bubonic plague to humans being, their presence is an actual menace to humanity. "If Norway rats have plenty to eat they increase rapidly," Dr. Hall continued, each adult pair having from five to six litters annually, each litter averaging 14. The Norway, or ship rat, is the most ferocious of his tribes and drives away all other varieties of rats. There are authenticated cases of Norway rats have defeated cats in

### AMERICAN ESCAPES FROM ZAMORA'S BAND

Escort Sent Out to Bring Gardiner From Hiding Place On Ranch To Safety.

MEXICO CITY, Sept. 7.—W. A. Gardiner, a citizen of the United States, who was captured by Pedro Zamora, the Jalisco bandit, on August 20 at Cuale, has escaped, according to official advice. General Enrique Estrada, commanding government troops pursuing Zamora, reported last evening to the war department that he had been advised by the commander at Autlan, that an American, MacSwiney, had arrived at Autlan and ask for an escort to bring Gardiner from a ranch some distance from town. It was stated that Gardiner took refuge at this ranch, following his escape from the bandits during the fight at Rancho Dividido, more than a week ago. An escort was sent out for Gardiner. General Estrada added that British Consul Holmes at Guadalupe had received a similar report. Nothing is known as to the whereabouts of Bertie C. Johnson, a British subject, who was a fellow captive of Gardiner. General Estrada reported that Zamora on September 5 attempted to reach the western coast through two mountain passes, but encountered detachments of government troops and fled in disorder. He lost several men, and was accompanied in his flight by only a handful of followers. It is asserted that during the last 15 days the Zamora band has been reduced from about 500 to 25, and there were bright prospects for the annihilation of the outlaws soon.

### RECOVER MOST OF CARS SWEEP INTO THE BAY

CORPUS CHRISTI, Sept. 7.—Of 30 automobiles swept into Corpus Christi bay when a large garage on the water front was dashed to pieces by the tidal wave of Sept. 14, 1919, 23 have been salvaged and now are in operation. A local wrecking company took the contract to recover the machines, which were found to have sunk not far from shore and to have been covered with a deep coating of sand and shell. With a hydraulic stream, obtained from a force pump driven by a motor tractor stationed on shore, 23 cars were dug out, hoisted above the water with a derrick and then pulled ashore with a tractor. The machines immediately were taken apart, cleaned and lubricated and put in operation. Only three of the 23 had to be junked as a result of the buffeting they received before being submerged. Three other cars discovered recently were raised and now are being repaired. All can be operated again, it is said. A search in the floor of the garage near the garage site is being made for the "one remaining car that will account for the entire contents of the garage." The cars, it was stated, were not near as much damaged as they would have been had they stood for three weeks exposed to damp salt air without attention. The grades in the engines and in other lubricated parts preserved them almost perfectly and not even the cylinders were pitted with rust.

### NO IMMEDIATE DECLINE IN LUMBER PRICES FORECAST

ST. LOUIS, Sept. 7.—There is no prospect of an immediate decline in the price of lumber, according to delegates to the fourth annual convention of the National Retail Lumber Dealers' association, which opened here today. Charles A. Bowen of Detroit, secretary of the organization, said that lumber prices have fallen slightly in the last two months, but expressed the opinion that the bottom had been reached and that prices soon would reascend.

### ACUTE CAR SHORTAGE IN SOUTHERN STATES

LOUISVILLE, Ky., Sept. 7.—Southern states, including Alabama, Mississippi, Louisiana, Tennessee and Kentucky, are in the grasp of a very acute car shortage, said a statement issued here today by the foreign commerce service headquarters of the Southern Railway Company. Southern producers of coal, lumber, agricultural and manufactured products have been unable to get sufficient empty to fill shipping orders, said the statement, which added that many additional cars will be needed to transport the forthcoming cotton crop. The interstate commerce commission, according to the statement, may be asked by the southern shippers to have eastern and western lines send cars to the south. The statement said sub-normal car construction and car repair during government operation of the roads is one of the reasons for the dearth of cars. Another cause, it added, is orders of the interstate commerce commission for southern carriers to deliver many cars to trunk lines west of the Mississippi for moving the western grain crop.

### STRICTLY ENTIRE NOSE

"Mrs. Lottie Shanks, of Bannocksey, England, is said to have the longest hair of any woman in the world. She recently won first prize in a competition in England, and it is said that her tresses sweep the grounds."

"It's perfectly all right, and we adore long hair, but we do say that if our beautiful auburn tresses had won a prize in England, or Dutch Guiana, or Jolly, we could find some more thrilling occupation for them than sweeping the ground. We'd hang them over a balcony, for instance, so folks could climb up."

"The president of the Music Industries Chamber of Commerce, in an address to the National Association of Masters of Dancing, lately declared the public has had too much 'jazz,' and is turning to 'more natural music.'"

"The trouble with most of us is that we have strayed from the fifth. Nocturne in our souls and sections of Scudders' Ball Jazz in our feet. And they don't mix; not any more than green beans and white bread. It's a funny, they make pains we can't locate, and breed germs we can't locate, but which have proved insidious poison to communities, countries and continents, since ages before the deluge. The Israelites tried to mix them when they added a golden calf to their pillars-of-cloud-by-day-and-fire-by-night. The result was the promised land. Rome was born with the angel choir in her soul, but let the celestial music slip when the devil's distillation of Bacchante's harmonies sounded in the land. And Rome fell. France had the divine spark in the early centuries, but sold birthright for a mess of licentious living in the 14th and 15th centuries—and the Guillotine and some other things were established. Now America! that loved the Moonlight Sonata, the Humoresque, and Morning, from the Peer Gynt suite, has fallen an idolater at the foot of the fat god Jazz. How long, O Lord, will you play a wily, in our souls and rest infinitely patient while we tug it up and set Venus Fly Traps in the sacred soil?"

"Let's have those yarn mills now, and we will be in better shape to welcome an oil gusher."—Waco Times-Herald.

"We couldn't welcome a gusher, or a yarn mill either. There are enough yarns of entirely hand-made genus, and gushers have made too much trouble in our young life already."

"Did you ever notice this?—The people who make such a fetish of speaking the truth, and the whole truth, are never strong for anything but unpleasant truths."—Dorothy Dix, in "The Naked Truth."

Ann, of "Green Gables," spoke it "childishly," but from the bottom of her bruised little heart. Uncle Jake had teased her, for the thousand and first time, about her red hair.

"But you know it's red, honey," he argued, in answer to her remonstrance.

"Of course I know it's red," she answered wistfully, "but I know other things, too; and you never have said I had pretty eyes, or a beautiful nose, like I have, same as red hair."

IT IS CORRECT.

When receiving introductions

To extend the hand when someone is presented to you in your own home.

To bow and repeat the name, or say "How do you do?"

To rise, except at formal affairs, when a lady may remain seated unless presented to an older or distinguished person.

To rise at all times if you are the hostess, or if you are seated by her.

To ask to have a name repeated if it has escaped you.

IT IS NOT CORRECT.

To wait longer than two days before acknowledging receipt of a letter of introduction.

For a woman to present a letter of introduction in person; it should be

mailed to the address with her card. To fail to write a note of appreciation to the person who gives you a letter of introduction.

To neglect to introduce people who are brought together temporarily as for a game of tennis, golf, etc.

Our Daily Bath. It showered yesterday—a clean, cool shower. That caught the dust and germs, and other things. Out of the air and soaked their sooty wings. And made a fine, sweet world in just an hour.

And I wish there could be a rain for me. A clean, cool shower that would reach inside. And rinse the temple out, where I abide. And make a fine, sweet human out of me.

### ROBERT A. STONE ENTERTAINED MONDAY EVENING WITH A DANCE

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock

COTTON MARKET.

New York Cotton. NEW YORK, Sept. 7.—There was an excited movement in the cotton market at the opening today owing to the strength of Liverpool, more encouraging reports from the woolen mill situation and unfavorable private crop advice. First prices were strong at an advance of 30 to 150 points and active months sold 185 to 140 points above Friday's closing after the call with October touching 27.45 and January 25.00. The market was heavy here with private cables reporting a better outlook in the coal situation while there was active covering which was probably stimulated by the fact that trading will end for today at noon following the celebration of the exchange's fiftieth anniversary. There was no halt in the advance until October, sold at 23.50, or 190 points above the closing price of Friday. This carried over into the points of the maximum price permitted for the day while late deliveries sold 170 to 190 points higher with December touching 25.50. There were reactions of 25 to 40 points from these figures under realizing that the market was firm in the late trading owing to bullish weather and crop advance. The close at noon was an advance of 145 to 165 points.

GRAIN AND PRODUCE.

Chicago Grain. CHICAGO, Sept. 7.—Persistent buying on the part of export interests had a strengthening effect today on the wheat market. Besides, the government report tomorrow was expected to show a sharp reduction of the estimated yield of spring wheat, opening prices, which ranged from \$2.40 to \$2.45, with December \$2.40 and March \$2.35 to \$2.36, were followed by slight further gains and then something of a reaction. Subsequently, northwestern advice of damage to grain in stock counted as a bullish factor. The close was firm, 14c to 24c net higher, with December \$2.41 and March \$2.38. Liberal receipts weakened September delivery of corn, but later months sympathized with wheat strength. After opening to 10c higher, the market hardened at 11.19 to 11.21, the closing December all round but then eased down somewhat. Unfavorable weather conditions counted more or less against the bears. Prices closed firm to 24c net higher, with September \$1.27 to \$1.27, and December \$1.29 to \$1.29. Oats were governed by the action of corn, starting at 14c decline to an advance of 1c, then scoring a little increase. Higher quotations on hogs helped cattle firm to provision.

New Orleans Cotton. NEW ORLEANS, Sept. 7.—The opening in cotton was strongly higher and in the first hour of business prices rose 36 to 116 points to 26.22 for October and 24.10 for November. The market was better here than in New York and private cables from England claiming a strike caused much of the buying. Too much rain in the belt especially in Texas was a factor in the advance. October made a display of marked strength and rose to 26.22, the full 200 points allowed under the rules of the cotton exchange. Some of the buying in this position was due to rumors of a somewhat better spot demand. Other months showed advances of 147 to 185 points, March touching 24.25. Toward noon the market turned quiet but values were well sustained. Further rumors of crop damage resulting from too much rain, leading to expectation of a bullish set of week-end reports for the government tomorrow, lent the advance going. After the middle of the session there was steady buying for the government interest in large volume and late in the day trading months were at advances of 200 points, or 110 a bale, March rose to 23.90. Cotton closed at maximum limits of 20 points up.

LIGHT VOTING TODAY ON IRRIGATION BONDS

Indications Early in Afternoon That Total Vote Would Not Exceed 600

In comparison with the importance of the propositions being voted on Wichita Falls voters were showing slack interest in the irrigation bond election Tuesday.

At 1:30 this afternoon only 250 votes had been polled in the two boxes indicating that the total vote would not exceed 600. Of the 300 votes polled at 4:30 105 were at the city hall box and 255 at the court house.

FEDERAL EMPLOYEES SEEK INCREASED COMPENSATION

ST. LOUIS, Sept. 7.—Increased compensation for federal employees was scheduled to be the principal subject considered today at the convention of the National Federation of Federal Employees being held here. The delegates were taken on an all-day excursion on the Mississippi river and business sessions were to be held on board the steamer.

The "democratic party" this orator declared, "is like the mule. It has neither pride of ancestry nor hope of posterity."

Harding does not like to discuss his golf scores. If he feels he feels and sportsmanlike in boasting and if he loses he waits for someone else to tell it. But when someone has discovered how to find out he has discovered a rule on the links to smoke a cigarette only when he wins a hole.

Senator Harding has been riding around in a little four-cylinder automobile lately. His high-powered car had to be sent to the shop for repairs.

A presidential candidate gets a lot of knocks, but he also gets many other things. Every mail brings a box of cigars, a big carton of cigarettes, a watermelon or a chicken for Mrs. Harding's table.

Harding's stenographers are getting lots of candy out of the Marine Corps. Mrs. Harding can eat as she sends the rest to the girls.

Entertaining a well-known democrat as a personal guest recently, Harding took occasion to tell an old story used by stump speakers in the days when politics was not so lady-like as now.

CAMPAIGN PICKUPS

Newspaper Votes Of The Major Presidential Candidates.

By RAYMOND CRAPPER. United Press Staff Correspondent. The Hearings have opened a lodging house at Marion. They have more guests dropping in than they can take care of at their own home and local hotel facilities are inadequate, so a private home near the Harding home has been leased for the campaign where arriving celebrities can be put up for the night.

A presidential candidate gets a lot of knocks, but he also gets many other things. Every mail brings a box of cigars, a big carton of cigarettes, a watermelon or a chicken for Mrs. Harding's table.

Harding's stenographers are getting lots of candy out of the Marine Corps. Mrs. Harding can eat as she sends the rest to the girls.

Entertaining a well-known democrat as a personal guest recently, Harding took occasion to tell an old story used by stump speakers in the days when politics was not so lady-like as now.

"The democratic party" this orator declared, "is like the mule. It has neither pride of ancestry nor hope of posterity."

Harding does not like to discuss his golf scores. If he feels he feels and sportsmanlike in boasting and if he loses he waits for someone else to tell it. But when someone has discovered how to find out he has discovered a rule on the links to smoke a cigarette only when he wins a hole.

Senator Harding has been riding around in a little four-cylinder automobile lately. His high-powered car had to be sent to the shop for repairs.

**VISITORS TO REUNION  
TO HAVE OPPORTUNITY  
TO VISIT STATE FAIR**

HOUSTON, Sept. 7.—Visitors from other states to the Confederate Reunion in Houston, October 5 to 8, can take advantage of special rates to visit the Dallas State Fair, the greatest exposition in the southwest. Tickets to Houston for the reunion, for which the railroads have already granted a rate of one cent mile, are good returning until October 31. Return must be made by the same route. Thousands of reunion visitors are expected to go on to Dallas for the fair. The fair opens October 9 and closes Oct. 24. This year it will be bigger than ever, and will be remarkable for its great exhibit of the oil industry of Texas. Mexico is sending an elaborate exhibit of its resources including a special petroleum section, and its crack military band will play at the fair. The resources and products of Texas, the most talked of state in the union, are remarkably well displayed at Dallas. The round trip fare to Dallas from Houston for the fair was fixed by the Southwestern Passenger Association at a fare and a half. This makes the round trip from Houston \$12.42. Dallas is nine hours ride from Houston. Pullman rate for lower berth is \$2.70.

**May Visit Oil Fields.**  
From Dallas side trips can be made to points in the oil fields of northwest Texas, at regular rates, for little money. Fort Worth is only 20 miles farther on. Wichita Falls, Ranger, Burkhurst, in the heart of the oil fields, can be reached from Dallas for about \$5.  
San Antonio, the mecca of fall tourists, can be visited for \$12.66 the round trip. It is a night's ride from Houston. The Pullman rate for a lower berth is \$2.78, including tax.  
Corpus Christi, "the Naples of the Gulf," where surf bathing will be in full swing in October, can be visited for \$12.56, round trip. It is a night's ride from Houston.  
Galveston, where surf bathing and fishing can be enjoyed, and the great docks, warehouses and shipping of the port and the magnificent sea wall viewed, is only 50 miles from Houston and can be reached by electric car, train or motor car. The port strike does not interfere with sight-seeing there.  
The Lower Rio Grande Valley of Texas can be reached by a night's ride from Houston. The fare to Brownsville, its chief city, with Matamoros, Mexico, just across the river, is \$12.02. A Pullman lower berth \$2.97. In addition to the irrigated gardens and plantations for which the "Magic Valley" is noted, there is superb hunting and surf fishing with-

**NEW FIRE EQUIPMENT  
TESTED AND ACCEPTED**

The new Stutz Hi-Duty fire wagon and pump that was recently purchased by the city was officially accepted Monday afternoon after the final tests were successfully passed. The new machine was put through its paces before an interested crowd at the corner of Ninth and Indiana, and after saturating all of the surrounding territory and quite a few of the on-lookers, was turned over to the city firemen.

John Woodruff, a representative of the Stutz factory, who has been in the city for the past week demonstrating the machine and instructing the local firemen in its use and care, will leave for the factory late this afternoon.  
The proposed tests which were to have been made at the water works Sunday afternoon were abandoned be-

cause of the condition of the roads and the machine was taken to the usual corner, Ninth and Indiana, instead. It was given a short workout before members of the city council and several officials of the Vernon fire department.  
The new apparatus was purchased chiefly as a safeguard for those sections of the city that do not have an adequate water pressure in the fire mains. With the use of this pump, which can throw 750 gallons of water per minute to a height of several hundred feet, water pressure sufficient to combat fires in the largest buildings may be obtained, or by attaching the pump to any hydrant on a fire main the pressure in that main will be increased along its entire length.  
City officials expressed themselves as well pleased with the work of the new "wagon" and the general opinion was that the money expended in its purchase had been well spent.

**WHEAT GROWERS DISCUSS  
PLANS FOR "LIVING PRICE"**

SALINA, KANS., Sept. 7.—Wheat growers and members of farmers organizations from Missouri, Kansas, Oklahoma and Nebraska were here today to discuss plans for obtaining what they termed "a living price" for their 1920 wheat crop. The meeting was the outcome of a conference in Kansas City recently at which it was decided a minimum price of \$2.10 a bushel at the farm was a fair one.
