Baseball and Trapshooting INDIANS INCREASE LEAD TO TWO GAMES AS WHITE SOX LOSE

ing for the American league pennant made certain of at least a tie for first place by dividing a double-header with Detroit, while Chicago was losing a single game to St. Louis today.

The visitors lost the first game, 5 to 4, in the tenth inning. Shortstop Detroit threw Flagstad's grounder into the Cleveland dugout, and Pinelli followed with a clean single. The Indians' 19 to 2 victory in the second game was decisive. Six of Cleveland's fifty-nine hits were for extra bases. The second game was called at the end of the eighth inning because of darkness. Cleveland and Chicago each have two games yet to play and should the Indians lose both while Chicago wins two the world would be theirs.

Detroit's victory in the opening game broke Walter Mads' winning streak. The scores:

CHICAGO, Oct. 2.—Championship football in the western conference started today when seven of the "big" teams were scheduled to play. Iowa and Indiana at Bloomington, the first, and only eleven of the group to battle with a bearing on the conference title.

With veterans in the line-up of both teams, advanced football was the order of the day. Indiana had a slight advantage in that the eleven had the experience of one game. Iowa, however, has been developed through scrimmages practice.

Minnesota, suffering from adverse faculty ratings, eliminated three star players declared ineligible was scheduled with North Dakota at Minneapolis. Tryone Johnson, Kewpie Schroeder, Eddie Ralgen and Russell Welch were out of today's line-up but Coach Williams presented a team that was expected to make a strong bid for the conference title.

INDIANS WELL FORTIFIED BEHIND THE BAT WITH STEVE O'NEILL; HIS WORK MAY FEATURE SERIES

By HENRY L. FARRELL, United Press Staff Correspondent. NEW YORK, Oct. 2.—Cleveland is a poor place to sell "Sohak stock." Try to tell any of the Forest City men that the plucky Chicago catcher is the best backstop in baseball and you'll be as popular as one of the "White Sox" eight.

One of the biggest of winter indoor sports is an argument about the relative ability of Schalk and Steve O'Neill, the star Cleveland catcher. It is a generally conceded fact, however, that Schalk and O'Neill are the best catchers in baseball.

JONES AND BARNES TIED IN SOUTHERN OPEN TOURNEY

ATLANTA, GA., Oct. 2.—Bobby Jones, Atlanta amateur, and Jim Barnes, St. Louis professional, were tied for the lead when play was resumed here today in the southern open golf tournament.

"THE PREY" IS ATTRACTION AT THE OLYMPIC THEATRE

"The Prey" with Alice Joyce in the title role is being offered at the Olympic for today as its main attraction. The picture gives this popular star splendid opportunities to display her powers of facial expression, for the plot is an ever changing one that calls for exceptional ability in the line of character acting. The main theme of the story deals with the life of a youthful bride who learns that either her father or her husband is guilty of deceit and fraud. Both refuse to explain matters to her, and finally after a fight between the two men the father of the girl kills himself. Eventually the trouble is cleared up and the faith and confidence which once made hers a happy home, is restored.

"THE GAULET" PLEASES CROWDS AT THE MAJESTIC

The astonishing ignorance of the Tennessee mountaineers is used to effect in the Harry T. Morey film, "The Gaulet," now being featured at the Majestic theater. The plot of the story centers around an attempted deal by which a company of city confidence men try to gain possession of valuable timber lands in the mountains. The ignorance and truthfulness of the mountaineers all but assures the success of the venture, but the plans are thwarted by the hero of the story who returns from the city in the nick of time and exposes the plot. Mr. Morey is given an interesting part and handles it with rare skill. The scenery of the picture is one of its most attractive features while the many thrilling scenes which are included make the film an attraction well worth seeing.

WILL RUSSELL FEATURES "THE MAN WHO DARED"

William Russell has another strenuous part to play in his latest Vitagraph release, "The Man Who Dared," now being featured at the Empress theater. Russell has the part of lumberjack boss who comes under the displeasure of the sheriff of the country, and who is also in love with the girl with whom the sheriff is infatuated. This combination is one that is not calculated to produce harmony in the lumber camp and several lively scenes take place before the trouble is finally settled. Eileen Perry plays opposite Mr. Russell and adds a great deal of charm to the production.

The film was taken in the giant red-wood forests of California, giving "The Man Who Dared" a scenic value as well as dramatic interest.

ANOTHER BIG GASOLINE FIRE NARROWLY AVERTED

Another gasoline conflagration in exactly the same spot and under the same conditions as the one which caused a spectacular blaze early last week was narrowly averted Friday afternoon.

The gasoline truck, owned by the Western Oil company, which burst into flames and burned for over an hour as it was preparing to fill the tanks of a gasoline station at the corner of Tenth and Lamar streets was the victim selected by fate for Friday's blaze, but employees of the filling station, aided by the driver of the truck, extinguished the flames before they reached the main tanks of the truck.

What is causing these dangerous fires remains a mystery. According to the stories of the filling station employees there were no flames of any sort around the station or truck either as it was preparing to empty its supply of gas, but that the fire suddenly appeared and threatened to develop into another big blaze. An alarm for the fire department was turned in but all danger was past by the time the wagons arrived on the scene.

American Advertiser Has a New Mission

PUTTING A MOGUL TOGETHER IN A BIG LOCOMOTIVE PLANT - RAILWAY CONSTRUCTION PROJECTS ABOARD FOR NEW MARKETS FOR AMERICAN EQUIPMENT

By FRANCIS H. SIMMON
Vice-President Guaranty Trust Company of New York.

The war has scattered American products all over the world. Our goods have been introduced in markets which they never before sought or where they never before had entry. And they were introduced at no cost whatsoever to the manufacturer. They were distributed on a scale which would have been impossible under normal conditions. There was no competition. The world desperately needed food, fuel, clothing, materials, and machinery. Ours was the only nation which could supply the demand. But we cannot expect the demand to continue indefinitely.

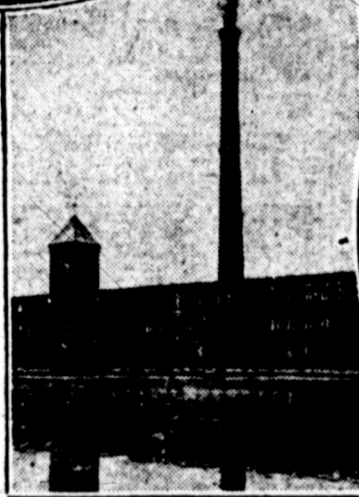

Burdened with war debts, the European belligerents are lending every effort to speed up their industrial machinery, to curtail imports and promote exports. We would indeed be blind were we not able to see that we must meet the keenest rivalry in international trade.

Our products will no longer sell themselves abroad. The demand for them must be stimulated by effective advertising. Otherwise the unprecedented advantage which chance has bestowed upon us will be lost.

This is absolutely essential, not only to maintain and to foster our foreign trade, but also to preserve our present prosperity. The cessation of hostilities found us with a tremendously expanded industrial capacity. We cannot lessen

our production without impairing business and prosperity. Consequently, we must encourage as never before the consumption of American goods in foreign lands. In helping to accomplish this result, therefore, advertising will assume an economic importance that can scarcely be exaggerated.

Advertising could not be employed to better advantage than now, for, thanks to the intensive and broadcast war-advertising campaigns conducted by the respective belligerent governments within their own countries and through propaganda publicity to which they resorted in neutral lands, the world is prepared to respond more easily than in the past to advertising appeals. There are thousands of American

products of unquestioned merit which the general public abroad knows little or nothing because the manufacturers of such products are content to practice principles of more or less primitive barter, apparently unconscious of the fact that by educating the general public to an appreciation of the worth of their particular products they would not only profit themselves but would perform a distinctly valuable economic service to the country. In other words, they lack the vision which is the especial genius of this nation.

But there are other and bigger problems for advertising to help solve through dispelling ignorance. Consider for a moment what we may expect in default of proper understanding of the vital economic questions pending before this nation today. Recall how near we came to authorizing by popular vote a debased currency during the free silver campaign; how long we temporized with our critical banking problem; how we have hampered and shackled our large industrial institutions in their legitimate expansion and beneficial economic func-

tions; how we have over-regulated and strangled our railroads; how we have blundered in our taxation. Realize how we permitted the menace of government ownership, and its proved inefficiencies and political and financial tragedies to continue; how the organized might of labor and other class interests works its way at public expense.

All these and many more similar situations demand the light of fact and reason. The inevitable harvest of ignorance is industrial and social disaster - as Russia has so tragically demonstrated. Public sentiment must be informed and guided, if it is to find expression in proper action.

It is certain that never in the history of this country was a knowledge of economic facts more imperatively needed. New and large business problems confront us. The civilized world is undergoing an economic readjustment. The nation which best understands the facts and the principles underlying them will profit most largely, and the nation which takes the most intelligent advantage of advertising in its manifold forms, both as a medium of education and as a potent factor in building the business of the future, will prosper most.

Advertising is on the threshold of its golden age. It will increasingly attract better brains, and it will increasingly offer fuller scope to the creative geniuses of business, science, art and literature. The possibilities for service, in fact, challenge the boldest and most far-reaching imagination.

There lies before advertising and advertising men, not only the opportunity for service and profit, but the clear call to duty. There rests upon our business

and industrial leaders the distinct responsibility of stating and explaining the facts and principles upon which national business progress must be built, through the printed and the spoken word, so clearly that he who runs may read, and that the oft-quoted "man in the street" may understand. Never have our great journals and periodicals enjoyed such enormous circulations or been so widely read. A large and constantly increasing reading public seeks eagerly to know, and it is the mission of the publicist to inform and advise them through all the mediums at his command. To fulfill that mission, we must call to arms the vision of the promoter, the courage of the explorer, the keenness of the trader, and the wisdom of the student. They must all be conscripted to this great service and contribute their part to the common cause, and they are all the proper attributes of the efficient advertising man of today.

That time has long passed, if indeed it ever existed, when advertising, under proper conditions, could be considered as an experiment or a speculation. It has long since become a demonstrated economic factor as a business builder and a clearly proven educational force. That it may not always, in all hands, operate with 100 per cent. efficiency is no more a proof of its failure than an unsuccessful operation on the human body by a horse doctor would be a proof of the failure of surgery. Its call is for skilled men, broad men, who have thoroughly mastered the tools with which they must work, whose sense of public psychology is sure and true and whose vision of national opportunity is as broad as the world.

Today particularly invites the advertiser to lay up stores of good will and prestige for future markets. Now is the time particularly for advertising to be informative and educational, to help create new standards of living, to stabilize markets, to make life more comfortable and attractive, as well as more just and sound.

The war has opened up many new fields for advertising service. Financial and advertising geniuses are invited to devise plans through which to meet the investing needs of the nation to distribute sound securities, to inculcate thrift. Within two years our investing class has sprung from three hundred thousand to twenty millions and there are yet no plans devised which adequately meet the need of these new investors. Economic and social fallacies crowd upon us; industrial problems rise on every side. Only through understanding can they be solved, and understanding can be created only through publicity. Legislative action rises out of public opinion; public opinion is based upon current information and popular prejudice. These can be met most effectively through such public mediums as enlightened advertiser command. In meeting them they are serving not only the ends of good citizenship and social progress, but business advantage, which can be secure only in an established social order based upon sound economic thinking.

Picture of Class Is to Be Taken at Service on Sunday

"Big Doings" is what Rev. H. D. Knickerbocker, in his usual breezy style, characterizes the great services that they have planned for his church Sunday.

At 10 a. m. is rally day in the Sunday school. We are going to have more than 1,000 present.

At 9:45 the subject of my lecture to the great men's class that meets at the Olympic theater will be "The Child's Faith Box Color the Ocean."

At 7:15 we will have another of those wonderfully popular symbol services, and I will use for my subject the most beautiful of all the symbols perhaps in nature or life, and will distribute delicious samples of the same to the audience.

"For five Sunday's the church has been crowded to enjoy these symbol services, and this fine weather will doubt give us a crowd that will not be able to get in."

An extra special prelude concert will be given by Prof. Krumpal. He will play on the pipe organ a great piece of his own composition called "Siege of Jerusalem" in five parts. The first part "In the Temple," second "Coming of the Roman Army," third "The Siege," fourth "Jewish Lamentation," fifth "Roman Triumph." This great piece of music was composed by the professor for a special concert in Boston, Mass.

The male chorus and soloists will give special music at all the services.

First Methodists' Merrymaking Hour on Friday Evening

Doctor Knickerbocker's dignified flock of Methodists Friday evening engaged in a riotous spree of merrymaking and fun at the church. The evening was given over to a big social event, to all members of the church, and the mangled remains of paper confetti and other trinkets that were found Saturday morning indicated that the large crowd thoroughly enjoyed itself.

Each class and department of the Sunday school was called upon to give a stunt, song and yell, prizes being awarded to the class giving the best of each of these three. The Wesley girls won the pennant offered for the best song, the intermediate department walked off with the pennant given for the best yell and Dr. Knickerbocker's big men's class took first place in the stunt contest.

At the conclusion of the program the entire crowd was assembled and taught a new Chinese yell which went something like "oh-oh-oh, ta-goo, ta-goo." No one caught the meaning of this insult to the English language until the three words were rapidly as possible. After that some sheepish expressions adorned the faces of a good many intelligent brethren and "sisters."

JUDGMENT IS RENDERED AGAINST SEABOARD OIL CO.
Judge P. A. Martin of the 58th district court Saturday morning found for the plaintiff in the case of the Oklahoma State Bank, The Seaboard Oil Co., et al. Judgment was rendered for \$5,000.

The suit was on a note which it is said was given by the defendant to one J. J. Mathis, who discounted it with the plaintiff. The suit was against both the oil company and Mr. Mathis and the court returned a verdict against the oil company only.

CENTRAL PRESBYTERIANS TO HAVE RALLY DAY SUNDAY
Sunday will be the annual rally day at the Central Presbyterian church, according to an announcement made from that church Saturday morning and all classes will be represented in a special program which has been planned by the church.

ALL MEMBERS OF THE SUNDAY SCHOOL ARE ASKED TO COME AND BRING THEIR FRIENDS.
The Golf and Country Club will keep open house at the club house Saturday night and all members are invited to present. Games, dancing, putting contests, etc. will furnish amusement and the hostesses will be Mesdames O. F. Marchman, J. C. Humphrey, Merrill Hilt, James Barnard and Leslie Byrne.

Floral Helix Methodist Church.
Special Rally day services begin in the Sunday school and feature all the other services of the day. The pastor's sermon at 7:45 will be in harmony with the Rally day idea. Refreshments for real service. A great welcome awaits you.

W. L. TITTLE, Pastor.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock

COTTON MARKET.

NEW YORK, Oct. 2.—The cotton trade found conflicting influences in today's early news and the early fluctuations were irregular with business only moderately active. Reports from the domestic goods trade were unfavorable and the declining tendency of southern spot markets yesterday was followed by some southern hedge selling here this morning. Reports of the British coal dispute remained unfavorable for over the week-end, however, while there was also buying on a New Orleans condition report of 28.5, indicating a crop of 11,950,000 bales. The market opened at unchanged prices to a decline of 15 points, with the price of December fluctuating between 21.65 and 21.85 during the early trading.

Reports that 200,000 British coal miners had struck despite the agreement of their leaders to postpone action to increase wages in the cotton market late this morning. The failure of killing frost reports, although they came from only a couple of eastern belt points, to inspire more general buying the early rally was a disappointment which led to a complete liquidation and near months were relatively weak late in the morning on rumors that cotton was commencing for delivery on October, October sold off to 22.25 and January to 20.90, or 50 to 80 points lower, with the market closing weak at a net decline of 15 to 20 points on all months except November, which was 135 points net lower on one transaction.

NEW ORLEANS, Oct. 2.—An irregular market developed in cotton in the early trading today, week-end short covering furnishing a fairly good demand, especially in the more distant months, but conflicting with the influence of this buying was fresh selling due to the favorable weather map, which showed up clear and dry, although rather cold for the entire belt.

In the first hour of business the active months at their highest were unchanged to 22 points up compared with yesterday's close, while at their lowest they were 19 to 25 points under. December rose to 21.85 and fell off to 20.85.

The report called from London that 210,000 Welsh coal had been struck at noon, immediately resulted in a selling sharply, October falling to a level of 110 points under the close of yesterday and other months going to net declines of 25 to 68 points. This selling was checked late in the session by the report of another fire in the cotton district at Galveston. Closing prices were at net losses for the day of 20 to 100 points. At the lowest October traded down to 20.75.

The cotton market closed steady at net decline of 20 to 100 points. Close

GRAIN AND PRODUCE.

CHICAGO, Oct. 2.—Trade in wheat was mostly of a local character today. There was some free selling by local traders with December showing little change from yesterday while March averaged higher. After starting 1/2¢ to 2¢ higher, with December \$2.12 to \$2.13 and March \$2.04 to \$2.05, prices fluctuated with a narrow range.

Buying of corn by a strong commission house caused the cereal to advance slightly at the start. Initial quotations which ranged from 1¢ lower to 1¢ higher, with December 25¢ to 26¢, soon fell off when the buying stopped.

Cats were easy, the market starting unchanged to 1/2¢ higher, with December 5 1/2¢ to 5 3/4¢, then became weak. Provisions were higher as the result of the big decrease in local stocks of lard for the month.

Wheat continued to descend until it reached a new low level on the crop report.

Some frost is reported in the lowlands.
