**STATEMENT ISSUED IN REPLY TO APPEAL OF AGRICULTURAL ORGANIZATIONS.**

**RECENT DISTURBANCES DECLARED INEVITABLE**

Gradual And Regular Movement Of Crops May Be Expected, Statement Adds.

### MEXICO IS AT PEACE SAYS OREGON ADDING PEACE WILL CONTINUE

**NOTED GENERAL IS GIVING A CONSTANT OVATION DURING HIS STAY IN DALLAS.**

**DELIVERS ADDRESS TO A LARGE CROWD OF MEXICANS**

Declares His Country Will Do Everything Necessary To Establish Itself Among Nations.

### DOLDSHEVIK TROOPS HAMMERING WRANGEL

**SEBASTOPOOL, Oct. 15.—**The Bolsheviks are hammering the lines of General Wrangel about Orskov, eleven miles southeast of Alexandrovsk on the southern front. The soviet forces are shelling Poluga, forty-seven miles east of Orskov, incessantly.

**SEBASTOPOOL, Oct. 14.—**Continued successes along the various sectors of the south Russian front by forces commanded by Gen. Baron Wrangel are reported here.

Dolshevik attacks on the Tauris front, in the neighborhood of Kherson, have been repulsed, and General Wrangel's troops have captured 500 of the enemy and have taken many field guns and machine guns. The 23rd and 42nd soviet divisions have been routed in recent engagements on this front. On the Dnieper front, near Nikopol, 4,000 prisoners, many cannon, armored cars and trains have been captured by the anti-bolshevik army, while on the Kharkov front bolshevik attacks have been repulsed.

**WASHINGTON, Oct. 16.—**Weather predictions for the week beginning Monday: Gulf states: generally fair except local rains, probable about Tuesday or Wednesday, followed by probably cool weather with probably frosts in interior.

**LONDON, Oct. 16.—**With a million miners out of the pits tonight, thousands of dock and industrial workers already out of employment as a consequence and the transport workers and railroad men called to meet soon to discuss a sympathetic strike, Great Britain faces one of the greatest industrial upheavals in its history, in the opinion of labor and political leaders who discussed the situation today.

The statement that the men struck against the advice of most of their leaders was confirmed to some extent by the attitude of many who left the pits. They said they did not understand that voting against the "dustmen" meant a strike and it is clear that a great many misunderstood the "unfortunate" phrase, as A. J. Thomas, secretary of the National Union of Railwaymen, called it in a speech. Mr. Thomas admonished the railroaders to listen to the advice of their leaders, which would be given the meeting of delegates Wednesday.

A different note was struck, however, by the south Wales branch of the miners' federation, which called a meeting for next Friday to recommend that if the strike was not settled by October 20, the pump men and other employees remaining at work should be called out.

It is indicated tonight that Premier Lloyd George will take no hand in the matter before Tuesday when parliament meets and undoubtedly will discuss the situation. No disturbances are reported and no troops have been sent to the mining centers, but they are held in readiness. The sugar rate will be cut 20 per cent Monday.

**CHICAGO, Oct. 16.—**Speaking at a luncheon at the Iroquois club here today, Secretary of State Colby charged the republican party with the "methodical" effort to rally upon the susceptibilities of every racial group in America and characterized it as "one of the most sinister features" of the republicans' policy.

Mr. Colby declared that the republicans are injecting into America and injecting into purely domestic issues factional and prejudiced issues of Europe and of taking advantage of these susceptibilities in the name of the "international" movement.

He said that the republicans have had time to learn America and become Americans.

Mentioning the Germans, he said by way of illustration, that the republicans had organized support from the German element in America in an expression of either disappointment or resentment at the course of the United States in the war.

On the subject of support.

"There is not a journal published in Germany," the speaker charged, "or a newspaper that during the war enjoyed prominence as a pro-German paper in its learnings. There is not a German sympathizer or German sympathizer who is the subject of prudent attention on the part of United States authorities." Secretary Colby in speech at Chicago.

**ELVIRA, OHIO, Oct. 16.—**Governor Cox today hailed as "another somersault" the League of Nations speech of Senator Harding, his republican opponent yesterday at Indianapolis.

The senatorial candidate here made twelve definite, distinct flops on the League since last August, in three months," said the governor in addressing an audience at Fremont, Ohio, and here on his way to Cleveland.

"How many" Governor Cox continued, "could he be expected to take between November 2 and March 27?"

"The senatorial candidate's speech means that Harding and his advisers have been caught in No Man's Land and they see they can't get back by November 2. This ought to be a lesson to political parties for years to come. It pays to square with the people. This thing of trying to wiggle into the presidency will not do."

Among questions asked Governor Cox at Fremont where a large early morning crowd with a brass band cheered him today was his view on the Japanese immigration question. He replied that it was an "international" question and that one of the "Hitchock" reservations would take domestic questions from the senator's jurisdiction," Governor Cox added.

"I might say furthermore that this is a white man's country and the yellow man can't run it. If the yellow man wants to come here they must subscribe to the conditions that we impose."

Attacking Senator Harding's Indianapolis speech, Governor Cox said: "When this campaign started there was a very definite pronouncement against the League of Nations by the candidate of the senatorial, there could be no mistaking where he stood at that time. In fact he and his associates were more or less disposed to challenge me to come out in favor of the League. In my speech of acceptance I made it clear that I accepted the challenge. I declared in plain words that I stood for the League of Nations. Therefore, we had the issue made clear. I was for the League and Senator Harding against the League."

"When it was apparent that the soul of America had been awakened, there has been going on a process of somersaulting, wiggle and wobble that has finally disgusted the American people. This morning we read in the papers that another somersault has been made clear, and the senatorial candidate has finally decided to support the League of Nations. What is the meaning of it all? You know that the tide turned about ten days or two weeks ago. A tempest started over the land and Senator Harding, his senatorial oligarchy and his sponsors, all

(Continued on Page 6, Column 2.)

**WASHINGTON, Oct. 16.—**War department officials today were preparing to sell millions of dollars worth of reclaimed army supplies to Poland. The supplies include repaired shoes and uniforms.

**DALLAS, TEXAS, Oct. 15.—**The new Mexican government will recognize all "legal foreign debts of Mexico," and all legal rights of Mexicans and foreigners in Mexico alike, General Alvaro Obregon, presidential-elect of the southern republic, who assumes office December 1, told an international banquet here tonight. The banquet was the main event of General Obregon's visit to the Texas state fair and his personal invitation of nearly 100 were guests of honor.

General Obregon's speech followed the welcoming address of W. F. Hobby, governor of Texas, in which the governor declared that as far as Texas concerned, General Obregon already is recognized.

General Obregon said that he was sure the United States would recognize the new government of Mexico as soon as the stability and intentions of the government had been established in the public mind and that Mexico will not become a province of the world or of the United States.

**GEN. OREGON RECEIVES A CONTINUOUS OVATION**

**DALLAS, Oct. 16.—**Gen. Alvaro Obregon, presidential-elect of Mexico, today was the guest of honor at the Texas state fair here. From early morning, when he was met at Fort Worth by a motor convoy of Dallas civic leaders, until tonight at a banquet given by the fair, the main event of the Obregon visit was met on all sides by a constant ovation. Only once during the day did he make an address, however, and that was in his native language, Spanish, to approximately 1,000 Mexicans of the local colony at Mexican park.

Through Congressman Chaps, who acted as interpreter, General Obregon declared that after December 1, when he assumes the presidency of the southern republic, peace and stability will be maintained by "justice to all." Mexico is at peace, he said, "and peace will continue by providing justice to every one."

His country will do everything necessary to establish its place among the nations of the world, he said, without exception from any country.

**Will Intensely Friendship**

In his address to the thousands of the local colony, General Obregon declared the events of today would go far toward intensifying the friendship between Mexico and the United States.

The general was an interested spectator this afternoon at the Oklahoma A. & M. Texas football game. The Texas university band played the Mexican national anthem.

General Obregon and his staff and the members of the Mexican mission to the state fair marched across the playing field to seats with the Texas rooters. He was widely cheered and responded by offering his hat time and time again.

Throughout the day General Obregon was guarded closely by the city policemen and department of justice operatives after the general arrived at the fair grounds and sat on the left-hand side of the rear seat.

Gov. W. F. Hobby of Texas and Mayor Frank W. Hoenes of Dallas were with the visiting president-elect throughout the day.

Governor Hobby was the first speaker at the reception at the Mexican party and welcomed the distinguished guests in the name of the people of Texas "from the winds of the Far-Handle to the waves of the Gulf."

**Other Mexican Speech.**

Gen. Jacinto Trevino, member of the present Mexican cabinet, and several members of the state fair mission also spoke.

The speeches, except that of Governor Hobby, were in Spanish, and constantly were interrupted by shouts of "Viva Obregon," and other demonstrations gathered under their various banners.

General Obregon and the hundreds of other Mexicans here will be guests of Fort Worth tomorrow, en route back to Mexico. General Obregon will leave Dallas at 11 o'clock and will leave for El Paso where he will join his family before re-entering Mexico at 3 o'clock. Plans at first called for the party to return by way of San Antonio and Laredo.

**REPORT PLOT TO MURDER PRESIDENT-ELECT OREGON**

**DALLAS, Oct. 16.—**Reports that a Mexican revolutionary junta in Lower California had plotted the death of General Alvaro Obregon, presidential-elect of Mexico, and that two Mexicans were enroute to Dallas to assassinate Obregon, here on a "friendly" visit, were being thoroughly investigated by police and federal officials here today.

The reports of the plot were transmitted to Chief of Police Ryan last night by attaches of the Mexican consulate here.

(Continued on Page 6, Column 2.)

### OPPOSE COLONIZATION OF JAPANESE OR OTHER ORIENTALS IN TEXAS

**AUSTIN, TEXAS, Oct. 16.—**Colonization of Japanese, Chinese brother orientals not only in Texas, but anywhere in the United States, was opposed by the state executive committee of the American Legion in a resolution adopted at a meeting held here today. The resolution also urges the Texas legislature and congress to pass laws prohibiting the immigration of orientals in this country.

**LOCATE BODY OF MAN MISSING SINCE OCT. 5**

**CAMDEN, N. J., Oct. 16.—**The body of David J. Messenger of the Broadway Trust company of this city, who disappeared October 5, with \$10,000 in cash and \$11,500 in checks, was found today near Mount Holy N. J. The body was buried under two feet of earth.

Marks on the body convinced authorities the man was murdered. The discovery was made by a farmer in a field at Irick's Crossroad, Burlington county, in the heart of the pine district.

### PROHIBITION DIRECTORS MUST APPROVE PERMITS TO WITHDRAW LIQUORS

**WASHINGTON, Oct. 16.—**Permits for the withdrawal of intoxicating liquors from bonded warehouses must be approved by state prohibition directors before permits will be granted under an order issued today by Commissioner of Internal Revenue Williams.

At the same time the commissioner announced that all permits to purchase intoxicating liquors of any kind for any purpose hereafter issued shall not be enforced to exceed thirty days after date of approval. The strict exception is that all permits to purchase by physicians are the homeopathy or the eclectic schools.

### INDIANA COAL DEALERS SUE SPECIAL COMMISSION

**INDIANAPOLIS, Oct. 16.—**Sixty-three suits were filed by Indiana coal retailers against the Indiana special coal and food commission in the circuit court here today asking the order of the commission fixing the margin of profits for retailers be set aside as unfair and confiscatory.

**ST. LOUIS, Oct. 16.—**The extension of American banking and merchant facilities coupled with more efficient development of an international and waterway system was advocated here tonight by Senator Harding as steps toward the development of the nation's foreign trade.

Mexico, South America, Asia, Africa and Australia were designated by the nominee as districts offering inviting opportunities for American foreign commerce. The establishment of an international banking system and the extension of the merchant marine would aid in developing trade with the more distant parts of the world, he said, while a co-ordinating policy of inland waterways development would open the way to Mexico and South American republics.

The senator's speech here, concluding his present campaign trip, was delivered at the end of a hard day of speech-making, across Indiana and Illinois.

Quoting statistics of the nation's foreign trade, Senator Harding said in his night speech here that it was apparent Europe could not be expected to offer in the future the same market for American goods she had provided before the world war. The development of markets in other parts of the globe was particularly desirable because the demand there was for manufactured goods which America could most easily supply.

The crowd at the big St. Louis coliseum greeted Senator Harding with a roar of cheering and singing which lasted more than a half hour.

The night meeting was the windup of one of the candidate's most strenuous days of campaigning.

### U. S. MAY ASSIST IN SETTling DISPUTE OVER ISLANDS

**WASHINGTON, Oct. 16.—**The United States probably will appoint a member of the League of Nations commission which will try to settle the Aland islands dispute between Finland and Sweden, it was learned today at the state department.

President Wilson is inclined to favor American representation on the commission, it was learned authoritatively. He is eager that the Aland controversy, which has been in America's hands for 100 years, should be settled immediately.

State department officials hold this country would not be handicapped in participating but it is not a member of the League.

### ONE TIME MANAGER FOR HIRAM JOHNSON Will Vote for COX

**CHICAGO, Oct. 16.—**Democratic national committee headquarters today made public a statement by Marshall Stinson of Los Angeles, announcing his vote for Governor Cox. Mr. Stinson, the statement adds, was campaign manager for Senator Hiram Johnson in southern California in 1912; a delegate to the republican national convention in 1912; and a member of the California republican state committee this year.

"I am brought to the point where I allow me to continue my support of Senator Harding," the statement says, after reviewing the senator's stand on the League of Nations issue.

### BURLESON ORDERS A REDUCTION IN WAGES AT CHICAGO OFFICE

**CHICAGO, Oct. 16.—**Reduction of salaries of federal employes has been started because of recent declines in living costs, according to advice today to Postmaster Carlisle.

Carlisle was ordered to reduce salaries of 450 employes of the postoffice department in a letter received from Postmaster General Burleson.

Those affected were clerks and bookkeepers who have received between \$2,000 and \$3,000 annually.

### COTTON GIN AT SAYRE, OKLAHOMA, DESTROYED

**SAYRE, OKLA., Oct. 16.—**The Planters cotton gin here was destroyed by fire at 11:30 p. m. today. The loss was estimated at \$50,000.

Alshonah Gin Burns.

**BIRMINGHAM, ALA., Oct. 16.—**A fire at White City was destroyed by fire this afternoon, according to information received tonight.

**Notices Posted on Gins.**

**WALNUT RIDGE, ARK., Oct. 16.—**Notices have been posted on a number of gins in this county denouncing the owners close down until cotton in the seed, on the wagons, brings 10 cents. Gins in Randolph county were warned Thursday and Friday nights. All are running.

### REPORT ON CONDITION OF THE RESERVE BANKS

**WASHINGTON, Oct. 16.—**The condition of the twelve federal reserve banks at the close of business October 15, was announced tonight as follows:

Reserve	Total gold held by banks
Atlanta	\$66,212,000
Boston	\$1,932,101,000
Chicago	\$2,154,913,000
Cleveland	\$3,022,249,000
Dallas	\$2,421,576,000
Denver	\$6,817,250,000
Indianapolis	\$2,022,092,000
St. Louis	\$4,416,250,000

### FORMAL COMPLAINT AGAINST MOTHER OF CHILDREN POISONED

**LAWTON, OKLA., Oct. 16.—**Formal complaint, charging murder of Clarence Korhau, three-year-old son of Mr. and Mrs. Hugo Korhau, the first of the three children to meet death by strychnine poisoning, was filed against Mrs. Deera Korhau today.

Mrs. Korhau is alleged to have attempted suicide Thursday night and was taken into custody. She was brought to Southwestern hospital here and is under guard. Her preliminary trial will be just as soon as she is able to leave the hospital, officers said.

Growing suspicion that she was trapped caused the woman to attempt suicide, officers believe. A chain of circumstantial evidence is woven around the woman, the county attorney declared.

Mrs. Korhau has made no statement to city authorities, but is reported to have denied any knowledge of how the three children met death.

### FRIENDS OF IRISH FREEDOM REPUDIATE LEAGUE OF NATIONS

**NEW YORK, Oct. 16.—**Reputation of the League of Nations by the American people at the approaching election was recommended in a resolution adopted by the national council of the Friends of Irish Freedom, made public today.

The resolution declared the League is "an attempt to undermine and eventually destroy the sovereignty of the United States and make it subordinate to a super-government controlled by the imperialistic powers of Europe and Asia, in whose councils England would have a controlling voice and influence."

The resolution declared "the time had come for crippling the resources of the English enemy and that no better weapon could be used on this side of the Atlantic than ceasing a trade, with the enemy and purchasing American commodities instead."

Every Irish organization in America was urged to give its best attention to this subject.

### WORTH OF FURS FROM STORE

**CHICAGO, Oct. 16.—**The London Fur company here today reported to police that \$50,000 worth of furs were stolen during the night. The door had evidently been opened with a skeleton key.

### REPORT PLOT TO MURDER PRESIDENT-ELECT OREGON

**DALLAS, Oct. 16.—**Reports that a Mexican revolutionary junta in Lower California had plotted the death of General Alvaro Obregon, presidential-elect of Mexico, and that two Mexicans were enroute to Dallas to assassinate Obregon, here on a "friendly" visit, were being thoroughly investigated by police and federal officials here today.

The reports of the plot were transmitted to Chief of Police Ryan last night by attaches of the Mexican consulate here.

(Continued on Page 6, Column 2.)

### ACCEPT A REDUCTION IN SALARIES TO IDLENESS

**WESTER, MASS., Oct. 16.—**Choosing between an indefinite shutdown and a decrease of wages, about two hundred employees of the S. Slater & Son, Inc. South Village woolen and worsted mills, will return to work on full time Monday, according to a 15 per cent cut in pay.

### RECENT DISTURBANCES DECLARED INEVITABLE

**WASHINGTON, Oct. 16.—**Bank credit has been steadily available for the successive seasons requirements of agriculture, according to a formal statement issued today by the federal reserve board designated as a reply to agricultural organizations which appealed to the government this week for a further extension of agricultural credit.

Recent disturbances in price and demand which have manifested in agricultural markets are "inevitable and unavoidable consequences of the economic derangements occasioned by the world war," the board's statement said. It added however, that the gradual and regular movement of the crops from producers to consumers was to be expected.

**Credits Steadily Available.**

The board is advised that credits have been steadily available for agriculture, as well as for the needs of commerce and industry," the statement said, "and there is no ground for expecting that its availability for these purposes will not continue. The present improved credit situation is due in part to the timely steps taken last spring, following conferences between the board and governors of federal reserve banks to provide credit for crop moving requirements, and in part to the subsequent improvement in transportation facilities for all districts except in a few localities."

**Have Increased Loans.**

"Between January 2 and October 1 of the present year about \$60 leading member banks from all sections of the country which report their condition to the board weekly, and the present approximately 70 per cent of member bank resources have increased their loans for agriculture, industry, and commercial purposes by an amount exceeding \$1,500,000,000 million. This great increase in the credit extended to their customers has in the main been made possible by the accommodation extended member banks by the federal reserve banks.

**Interest Accommodations.**

"During the same period the twelve federal reserve banks have increased their holdings of agricultural and commercial paper by more than \$100,000,000. The increase in the federal reserve banks has in the main been made possible by the accommodation extended member banks by the federal reserve banks.

**Increased Accommodations.**

"During the same period the twelve federal reserve banks have increased their holdings of agricultural and commercial paper by more than \$100,000,000. The increase in the federal reserve banks has in the main been made possible by the accommodation extended member banks by the federal reserve banks.

### GREAT ANARCHIST PLOT DISCOVERED AT MILAN

**MILAN, Oct. 16.—**A great anarchist plot has been discovered here according to the newspaper Perseveranza today. The arrest of the editorial staff of the anarchist newspaper Umanita Nuova, effected yesterday, is declared to have been the first move against the plot.

### WILSON TO REMOVE SECRETARY HOUSTON

**WASHINGTON, Oct. 16.—**Resolutions calling on President Wilson to remove Secretary of the Treasury Houston from office because of his "persecutively unfriendly attitude toward agriculture" were adopted today at the annual meeting of the Georgia division of the American Cotton Association.

The resolution which was adopted after a half hour's discussion makes the following complaint against Secretary Houston:

"That he started the raid on cotton in September, 1918, with an interview declaring that 25 cents a pound was the price of cotton when it was then selling for 35 cents; that his well-known unfriendly attitude toward the agricultural interests while he was secretary of the treasury caused the farmers of the United States to object strenuously to his appointment as secretary of the treasury, but these objections were disregarded by President Wilson; that since his appointment he has continued his unfriendly attitude toward agriculture by issuing statements and propaganda to reduce the price of farm products and has continued this propaganda so persistently and effectively that the price of cotton and other agricultural products has declined below the cost of production, thereby causing the loss of millions of dollars to the farmers of the United States."

### WORTH OF FURS FROM STORE

**CHICAGO, Oct. 16.—**The London Fur company here today reported to police that \$50,000 worth of furs were stolen during the night. The door had evidently been opened with a skeleton key.

# TELEPHONE SYSTEM WILL SOON BE EQUAL TO ANY IN COUNTRY

### WORK OF INSTALLING AUTOMATIC POSSIBLE RAPIDLY AS POSSIBLE.

### LONG DISTANCE LINES ADDED TO FACILITIES

### Some Time Will Yet Be Required To Perfect Service Due To Delay Of Material.

The building activity which has been disrupting pedestrian traffic at the corner of Scott and Ninth streets for some time has been explained. Also some announcements of more or less interest to the public, but inasmuch as incidentally the Times has found material for a story.

These three unusual events occurred simultaneously Saturday and all were caused by the Southwestern Telegraph and Telephone company. The first and last named of the three hold little attraction for the public, but inasmuch as the second one concerns this city's future telephone service it will no doubt prove to be of at least passing interest.

The announcement, made by C. C. Kirby, general manager of the local branch of the Southwestern, stated that Wichita Falls is to be equipped with automatic telephones in the future, which means that instead of calling "central" and depending upon her to find the party wanted, the person making a call over the phone will merely turn a small dial on the instrument and let a maze of intricate and highly perfected machinery do the rest.

The new addition which has been built out from the rear of the old telephone building has been completed and work of installing the automatic equipment under way. The immense amount of time and labor which must be expended in making the change from the present Bell system to that of the automatic type is not readily understood, but when it is considered that every phone now in use in the city must be taken out and a new one put in its place and that an equal number of wire connections made at the central exchange, it can be seen that the task of switching from one system to the other is no small item. Add to this the difficulty being experienced in getting material and parts, all of which must come from Chicago, and the magnitude of the work before the telephone company at the present time may be realized to some extent.

Each Machinery Installed. Perhaps 75 per cent of the machinery and other apparatus needed has been installed in the new wing of the telephone building, but there is no assurance as to when the remainder will be available. Mr. Kirby stated that the company was now just one year behind its expansion program in other words, the building and its new system, which should have been in operation late in 1937, is just now being finished, all of which shows the handicaps under which they have been laboring.

However, when the last wires are strung and the new phones installed throughout the city, Wichita Falls will have one of the finest telephone systems in the South. The operators will give way to a single large room filled with operators, swift moving machinery that will handle all demands made upon it by the gossiping public with business and speed. Only the corps of long-distance operators will be maintained, and this number is negligible in comparison with the small army of "centrals" now handling the telephone calls of the city.

Long-Distance Service. Another item of interest is the one

pertaining to the long-distance end of the system. The volume of calls to other sections of the country which are sent out of Wichita Falls every twenty-four hours is much larger than is generally known and the calls have increased so rapidly in the past several months that it was found necessary to add a number of new lines in order to give efficient service. When the work of the "gangs" now engaged in stringing wires is completed there will be some 25 or 30 new outlets from this city to various parts of the country. The largest has now under process of construction is being run out through Iowa, Okla., and into the large cross-country line to the north. It is probable that the majority of long-distance calls to and from Chicago, New York and other Eastern points will be carried on this wire. New wires are also being strung from here to Fort Worth and Dallas, while still others are going out through Abilene, Childress and Quanah, to points beyond those respective cities.

Just how soon all this work will be completed is a matter of conjecture. The company is doing its best, but without material and equipment they are unable to make headway. The central station which will house the equipment is complete, but the equipment itself is lacking. Workmen are installing and connecting switchboards and other instruments as fast as they can arrive, but there is still a large amount of material needed and as soon as it puts in an appearance the automatic system will be completed and installed.

## WENT FOUR YEARS AND THOUGHT TO BE DEAD IS ARRESTED AT MEMPHIS

MEMPHIS, TENN., Oct. 15.—Walter Lee Hammond, arrested as a fugitive from justice, was taken to Okolona, Miss., today to explain his disappearance from that state four years ago, which resulted in efforts to collect \$10,000 life insurance carried on his life, and to account for the finding of a charred body in the ruins of his home at Egypt, Miss., which was destroyed by fire at the time of his disappearance.

According to officers, Hammond told them that on the night he left his home in Mississippi, he was attacked by two negroes, that in the scuffle an oil lamp was overturned, setting fire to the building, and that one of the negroes, wounded by a shot fired by his companion, was unable to escape from the burning dwelling. With his home in flames, Hammond fled, and he told the officers he decided to quit the state. When the body, charred beyond recognition, was found in the ruins of the house, it was assumed that it was that of Hammond, and litigation since has been pending in the Mississippi courts to collect the insurance he carried.

Hammond was not at home on the night of the fire and, it was stated, shared in the belief of his friends that the body found was that of her husband.

## MAKE PREPARATIONS TO DRILL DEEPER IN WELL IN BLOCK 819

### Preparations have been made by Buchanan and Danoler to drill deeper in their No. 1 well in block 819 of the north-west extension.

The well was temporarily shut down at 1,700 feet but they will now drill deeper in an attempt to reach a 1,900-foot sand, which is said to have been found in this block.

A good showing of oil has been reported by the Spur Oil company in block 884, and the reports as to the depth and the amount of production vary. One report has it that there is 150 feet of oil in the hole.

## ANNOUNCE CASES TO BE CALLED MONDAY IN THE COUNTY COURT AT LAW

Cases now pending against the following persons in the county court at law will be called for trial Monday, October 16: W. L. Roberts, J. L. Forsythe, Guy Foreman, Leola Carter, Ira Williams, W. B. Smith, Frank Dodson, Herbert Myers, Ted Mackey, Cecil Anderson, S. P. Osborn, H. A. Goldsmith, Jack Firestone, Chester Hanks, R. W. Stone, O. P. Douglas, Clay Coffin, John Norford, J. G. Bobb, J. A. Gibbs, Arthur Alexander.

## ATTORNEY HUNTER RETURNS FROM TRIP TO MINNEAPOLIS

Attorney T. F. Hunter returned Saturday from Minneapolis where he went to take part in the defense of W. P. Mason, an oil operator, who was tried in the federal court on a charge of using the mails to defraud. Mason was acquitted.

## Many Business Men Hear City's Verdict, Five Dollars Please

A little thing known as ordinance "310" has caused more respected business men of this city to cuss with unwonted eloquence than has ever enriched the city treasury to a greater extent than anything that has happened in Wichita Falls in a long moon. This "310" thing, as it is known, is the new ordinance passed by the city council some three weeks ago which prohibits the parking of automobiles on Eighth street for over one hour.

It is estimated that the ordinance has brought in fines which will total in amount well above the \$500 mark. An average of about six or eight of these violations are recorded every day, although for the latter part of last week the number dwindled somewhat and on Friday only three were reported. In all but perhaps three or four of the cases, the minimum fine of \$5 has been imposed, hence the profusion of cases which have found their way into the city coffers.

In commenting on the ordinance which the law is having on motorists of the city Mr. Ehlers stated that it had put the business men on exhibition and was furnishing the police officials no end of entertainment by the many different ways in which the orders to report to the city hall and answer to the charge of violating the ordinance were complied with. Some men who find the little tag on their cars come to the station, hand over \$5 and never say a word. Others come in grinning, and their five bucks and paid the matter off as more of a joke than anything else. To these, Sergeant Ehlers always extends a courteous welcome and invites them to come back and see him again. Still others storm and rave. They make various sundry remarks about the city council's intelligence and about the "ignorant mutts" that the city is employing as patrolmen, but they hand over their \$5 just the same. Still others put up a good appearance in court and fight the case to the last ditch while the last type admit that they were violating the ordinance but that they had found it necessary to do so.

All in all it is an interesting array

## DEMOCRATS PLAN TO COMPLETE QUOTA OF COUNTY ON MONDAY

Expecting to raise not less than \$1825 before they quit work teams will canvass democrats in the business district Monday for contributions to the Cox-Roosevelt campaign fund. The amount named above is that calling short of Wichita county's pledge to the democratic national campaign fund. It is not planned to close the fund when \$1,500 has been subscribed but it is hoped to raise at least this much before Monday night so that Mr. Kamp, who is chairman of the state finance committee, can wire out the fact to other cities over the state to stir them up to do their part.

## BAGGAGE OF DIPLOMATS EXEMPT FROM SEIZURE BY PROHIBITION OFFICERS

WASHINGTON, Oct. 15.—Action of government agents in seizing liquor consigned to the diplomatic corps in Washington has led to some complications. It was learned today at the state department, while no formal protests have been lodged with the government, the situation has reached the point where the department felt called upon today to issue a public statement.

The hope is expressed in this statement that no agent of the government will interfere with the baggage of other personal possessions of any member of the diplomatic corps or his family. Information has reached the state department, it was said, that in some instances trunks and other personal baggage of the diplomats have been entered by prohibition agents and liquor removed. The property thus seized was held for further claim from the owner, but the department officials said there were cases where the liquor disappeared before it could be called for.

Diplomats contend that it is a recognized principle of international law that the personal baggage of a diplomat is free from inspection by customs or other agents of a friendly nation. Orders to customs officials to search the baggage of diplomats were issued recently by Assistant Secretary of the Treasury House, whose resignation was announced yesterday, effective November 15.

BODY OF MRS. C. E. RASCOE IS SHIPPED TO COLEMAN, TEXAS

The body of Mrs. C. E. Rascoe was shipped to Coleman, Texas, Saturday afternoon after a funeral service at the Merkle-Lunn parlors at 2 o'clock, conducted by Rev. Jay Davis.

Death came to Mrs. Rascoe after a

very short illness and was caused by a ruptured artery. She was stricken at 11 o'clock Friday morning and died at 10 o'clock Friday night. She was at the home of her son, Darrell H. Rascoe, at 1605 Thirteenth street.

Mrs. Rascoe was a native Texan, having been born in Glasscock county December 3, 1855. She had lived in Texas all her life.

She leaves five children: W. P. Rascoe of Fort Worth, Richard W. Rascoe of Gulf, Darrell H. Rascoe and Mrs. J. A. Hutchinson of Wichita Falls and Mrs. R. N. Smith of Bay City.

### PLEDGE 29 BALES OF COUNTY'S QUOTA OF COTTON FOR EUROPE

ACTION IS TAKEN AT MEETING HELD AT COURT HOUSE SATURDAY AFTERNOON.

EXPECT NUMBER TO BE FILLED TUESDAY NIGHT

Another Meeting Will Be Held in This City On Next Saturday Afternoon.

Twenty-nine bales of Wichita county's quota of 100 bales of cotton to be shipped to Europe under the auspices of the American Cotton Association were pledged at a meeting at the court house Saturday afternoon. At a meeting at the Enterprise school house Thursday night 17 bales were pledged. It is expected that a number of bales will be pledged at a meeting to be held at the County Line school house Tuesday night.

Another meeting of the Wichita county association is to be held at the court house at 10:00 o'clock next Saturday morning. At this meeting a representative of the state association will be present and will explain in detail the plan for sending a shipment of cotton to Europe. A meeting is to be held at Myers Saturday evening and it is expected to have Wichita county's quota fully pledged by Saturday night.

The cotton will be concentrated at Wichita Falls and Electric and will be shipped to tidewater and there loaded on a boat and sent to some European market. A representative of the American Cotton Association will accompany the shipment. The cotton will be warehoused at some European port and will be sold to the best advantage for immediate delivery. This will be the first large shipment of cotton to Europe to be made by American pro-

ducers. Confidence is felt by officials of the American Cotton Association which includes the leading business men and farmers of the South that a better price can be realized by this method than could be realized by ordinary sale.

Emphasis was laid Saturday upon the fact that only cotton of good grade was wanted for this first shipment. J. L. McConkey, speaking for himself, said that he intended to see that the bales he sent were uncut.

The representative of the American Cotton Association who accompanied this shipment, whom we hope will be Judge Ramsey of the federal reserve bank, will be able to show the buyers what he has to sell and will be in a position to make immediate delivery, said Mr. McConkey, "and under these circumstances he ought to be able to sell to the very best advantage."

Those pledging cotton Saturday included: J. A. Kemp 19 bales, J. L. McConkey 19 bales, D. V. Pughman two bales, C. K. Kraker one bale, George Volmer two bales, A. D. Peters one bale, Lesler and Singletary two bales, B. D. Donnell one bale, J. M. Linker one bale.

### Exhibition of Oil Paintings at the New Kemp Hotel

One of the few really beautiful exhibitions of oil paintings ever brought to Wichita Falls is being shown this week on the sixth floor of the new Kemp hotel, under the direction of J. O. Sartor, Dallas artist, and Mrs. Viola Comer, of Los Angeles.

The exhibition includes some two score original paintings by Peter Plotkin, Russian artist, actor and sculptor, who is rated by the best art critics in America as one of the most brilliant painters of the last decade. The writer of this article recalls that Plotkin lectured to 10,000 people in Carnegie hall, New York, a few years ago—a remarkable appreciation of the interest then being shown in his work.

Plotkin at the present time is fulfilling a number of portrait contracts in Dallas, which made possible the showing of his paintings in Wichita

Falls. Only recently he completed portraits of Thomas Armstrong, president of the Panhandle Refining Co. and former resident of this city, and of Mrs. Vaughan Jones, Morrissey's daughter-in-law.

The Russian artist's success in this country and abroad has been due in large degree to his remarkable versatility. His talents have not been confined to one type of work in oils, but he has covered a range from flowers to portraits.

The most striking painting in the Kemp hotel exhibition is a remarkable presentation of the famous scene wherein King Solomon's judgment was tested by the two women claimants to the baby. Plotkin's painting contains 11 figures, while the color detail is more than ordinarily beautiful.

Not as striking perhaps, but more appealing in the soft brown color scheme used by the artist is a painting of a Dutch meadow and cattle. Plotkin has made a remarkable reputation for his work as a painter of Netherlands types, and the picture here referred to is a fine illustration of this phase of his ability.

Plotkin's success as a portrait painter is shown in a large painting of Mrs. Comer that is striking in its resemblance to the finest work of Van Dyke. In the same manner it can be said that he has shown himself a rival of Paul De Longprey as a painter of flowers. It cannot be said, however, that the Russian artist is an imitator. This charge has never been brought against him by American critics, and his work has been generally admired by students of art for its own value.

In addition to the few larger paintings mentioned here, the exhibition contains a number of beautiful animal paintings, landscapes and sea scenes that show splendid strength.

**SLIGHT DECREASE IN THE CLEARING HOUSE TOTALS**

The report of bank clearings for the past week show a slight decrease from the figures of the week previous on account of Tuesday being a holiday, with the banks closed. The daily clearings follow:

Monday	\$ 548,156.87

Saturday	525,552.53
Total	\$2,582,617.22
Last week	2,604,872.46
Decrease	\$ 22,255.24

### GULF IS THE MOST PROMISING OF THE WILBARGER TESTS

VERNON, TEXAS, October 16.—Expected developments in the Vernon oil field have not as yet materialized and no definite strike can be reported at this time. The Gulf, apparently the most promising of the wells being drilled, is still testing out its sand preparatory to drilling it. Eventualities are expected at any time.

Slight No. 2, drilling at 2,000 feet is fighting a cave, and plans are being made to shoot the well.

The Pyramid Royalty company, financed by Stier stockholders, paid its first dividend recently of 3 per cent. This was made possible through the fact that the Pyramid owns two-thirds interest in the Frankel-Koch well in the northwest field.

The Sure Pop Oil company, on section 21, block 12, will put down a new hole twenty feet west of its present location due to the fact that the casing has collapsed in the first hole the company drilled. An oil sand was struck two weeks ago at 1,950 feet, and the casing and liner were set. The complications that set in, however, prevented further work in the hole. This company struck its first sand at 170 feet, and another at 200

feet. Casing was set when the latter strata was encountered, but the sand was lost and it was decided to go on with the well. A twenty-foot dry sand was struck at 1,900 feet. It is thought that the present strata encountered by the Sure Pop is the Piper sand, as the well is but 250 yards east of the Piper location. It is due north only a short distance from the Sumner well, also.

The Staley-Greene, section 42, block 14, is down 2,000 feet and has continued drilling after passing up a six-foot light sand. The Wilbarger-Haley, section 5, is down 2,110 feet. Oil has been baled from the hole but the pipe collapsed and work will be suspended for some time.

Barton et al, section 8, block 2, has spudded in. The Burton and Waggoner, section 10, block 1, is drilling at 2,170 feet.

The Pyramid Royalty company is down 900 feet, and the Gulf production company is testing out its sand at 2,020 feet.

# BOY SCOUT LOCAL NEWS

An article written by Scout Executive H. E. Taylor, has been designed to place before the people of this city just what the boy scout movement is and what it proposes to accomplish for the youth of the town as well as for the town itself. Almost all of the credit for the present efficiency of the scout movement in this city is due to Mr. Taylor, who, since taking up the direction of the local scout forces, has built an organization of which any city should be proud.

That the people of this city are interested in knowing what the scouts of the city are doing and in hearing of their achievements has been proven on more than one occasion by the liberal manner in which they have made donations to aid the scouts in some worthy enterprises. Mr. Taylor's article deals with the generalities of the scout movement and outlines the program which is followed by the various scout organizations throughout the country.

**Depends Upon Themselves.**  
"Boy scouts learn to be dependent on themselves and they also learn to be trustworthy, obedient, reverent, loyal, cheerful, thrifty, brave, and clean, and to be real true Americans. No one will question a program of this sort outlined for the youth of the country, especially when it is fostered and directed by the type of men who are selected as scout executives, scout masters and other leaders in the field.

Every boy in America, between the ages of 12 and 18 years should be a scout. In doing so he learns better citizenship, and if he carries out the work put before him in the higher moral ideals than those boys who are not privileged to enjoy the scout program and the benefits which it affords. A scout always takes advantage of the opportunity to do a good turn daily, and if he is a good scout, one that is loyal in every sense of the word, he is absolutely trustworthy and dependable. A scout who is not loyal is not worthy of wearing the uniform or the badge of the B. S. of A.

**Parent Should Know Program.**  
Every parent should know the scout program and see to it that their boys become one of this great world wide organization. The more parents that we have today the more and better citizens we will have tomorrow and a better form of real, representative democracy will be the outcome of it all.

In the smaller and more specific details of the work the scout learns to care for himself and others in the case of accident, fire, and other unusual situations. He learns how to make the best of his surroundings and how to meet emergencies with intelligence and speed. He is instilled with bravery and learns to endure defeat with a smile, while at the same time marshaling his forces for the next encounter.

No bird or animal escapes his notice and he is taught how to find beauty in things which appear prosaic to those not so gifted. Nature is his text book and the lakes and streams are his teachers. The great outdoors is his playground and the heavens his shelter and companion at night.

Above all the scout learns to help and serve others and to make himself a better and more useful citizen to the community in which he lives as well

as to his country, and by doing all that he can not help but benefit himself.

**Star Scout Program.**  
Attendance reports received from the various troops at their Friday night meetings showed that about 80 per cent of the enrolled members were present. Troop 4 led the list with 25 scouts answering to roll call. Troop 5 was second with 24 and Troop 1 came third with 23. Troop 6 led in the efficiency contest with 91 out of a possible 100 points.

**New Troop Is Active.**  
A new troop which promises to become one of the live ones of the city has been organized at the Catholic church with an initial attendance of 15 boys. It is hoped to double this number within a short time. Father Domovich is acting as scout master and has planned some excellent movements for the boys of his troop. This troop has been assigned number 5 by scout executive H. E. Taylor.

**Other Troops Planned.**  
Two other new troops are being planned for the near future, one to be organized at the junior high school and the other at the Austin school. At the former place one member of the troop committee has already been secured and two others are under consideration. The latter school troop will be organized and launched as soon as a scoutmaster can be secured.

**Chester Powell Returns.**  
Chester Powell, former scout master of Troop 4 has returned to Wichita Falls and now has charge of all boys work at the First Christian church. He is also directing the activity of the boy scouts numbered among the church troops.

**Expect to Pass the Goal.**  
Present indications are that the goal of 500 scouts, which has been set as the number to be reached by the first of the year, will easily be surpassed. The new troops being organized, together with recruits that are constantly being added to the old ones will bring the number well above the 500 mark.

**Change Meeting Time.**  
Several changes have been made in the dates for meetings which were to have been held this week. The meeting of the executive board of the council has been changed to the 19th. This meeting will be held in the chamber of commerce rooms. The next meeting of the scout masters school will be held at the First Christian church on the 21st. Scout Executive Taylor requests that all officials connected with either of these bodies make it a point to be on hand for important business will be taken up.

**Scout Master Resigns.**  
Scout Master E. Lewis Janko has resigned as head of Troop 3. Business duties have continued throughout the active direction of the Troop 3 boys. Mr. Janko's loss is keenly regretted by both the boys and by the scout officials of the city.

**Apply for Examinations.**  
Twelve boys have made application to take the examinations to be held for first and second class scouts on the 18th of this month. Those boys who take the exam for first class scouts are: Ross, John Walter, George Holden, Harry Cohen, Herman Wright, Henry Skaggs, and Everett Meas. Those who will receive second class examinations are: Elton Marriot, Homer Andrews, Peyton Therman, Wallace Bonner and J. B. Fletcher.

**Scouts Are Praised.**  
In connection with the reports that have been received from Houston as to the work of the Wichita Falls boy

scouts during the Confederate Veterans' session in that city, the local scout council has issued a statement in regard to the activity of the local boys. They have been in receipt of many letters of thanks and congratulatory nature, not only from the Houston officials but from the old soldiers who were assisted by the boys, and all of them have had nothing but praise for their young companions. Word has been received that the 25 Wichita scouts did not confine their efforts to aiding only Wichita Falls veterans but also helped the old soldiers from scores of other places who did not have a crowd of lively young visitors to carry suit cases and run errands.

**VOICE OF THE PEOPLE**  
Physician Meets Threat.  
Editor The Times:  
For the benefit of a few otherwise sensible democrats having expressed a likelihood of attaching the name of Hart for governor in order to show friendliness for a citizen of our town, claiming high ideals of government and wanting to apply them to our native state, I want to say a few words. He admits coming across our border in a penniless condition only a few years back and now through the noble, chivalrous and generous nature of a few of our leading financiers has become independent and highly respectable. Having known of more than one skilled mechanic having to serve the rock pile under the misfortune that he came across our border and in a like condition, I am constrained to accuse this great political reformer of some little ingratitudes.

Why not use this great executive ability he professes to go back to his native state of Pennsylvania and work out the reform in that state? Big political and financial hand, the Hon. Boise Penrose, who is admitted by interested people to be the most corrupt man in the political realm of our country. I truly feel as Jim Ferguson is possibly his superior if there be any differences.

We concede every one of our republican neighbors the right to vote as they see fit and any of them wants to vote for Harding and the crowd responsible for his candidacy, well and good, let their consciences be their guide, but when these candidates come out strong against the League of Nations and have taken the "negro" side of the argument against the people of the south, who at all times have given them the glad hand, we feel justly entitled to believe "the whispering rumors" that Colburn is not running for governor or for any other good and noble purpose but is using the silly white argument as a camouflage in order to collect a large amount of money from the numerous oil men having made large and quick fortunes in our midst) with which they expect to buy the presidency of the greatest living exponent of liberty and justice. Let Harding stay out, I am going in. TOM M. BARNES.

Miss Hazel Stuckey of 1811 Sixteenth street has been very ill the past week from fever.

T. 4228, moving on Lovelady, Texas, to Wichita Falls way-bill 10118, May 15th, 1938, from Long Smith, consigned to shipper order, notify J. C. Brown, such sale to be held 10 a. m. Saturday October 15, in the yards of the Ft. W. & D. C. Railway Company, Wichita Falls, such sale to be carried out for the purpose of procuring freight, demurrage, war tax and such other charges as are now held against this shipment and such charges as may accrue against shipment up to and including hour of sale.  
R. F. HATHORN, Agent

good, let their consciences be their guide, but when these candidates come out strong against the League of Nations and have taken the "negro" side of the argument against the people of the south, who at all times have given them the glad hand, we feel justly entitled to believe "the whispering rumors" that Colburn is not running for governor or for any other good and noble purpose but is using the silly white argument as a camouflage in order to collect a large amount of money from the numerous oil men having made large and quick fortunes in our midst) with which they expect to buy the presidency of the greatest living exponent of liberty and justice. Let Harding stay out, I am going in. TOM M. BARNES.

Miss Hazel Stuckey of 1811 Sixteenth street has been very ill the past week from fever.

**KNIGHTS OF PYTHIAS ARE EXPECTING AN UNUSUALLY INTERESTING MEETING**  
Every Knight of Pythias, whether a member of the local lodge or not, is urged to be present at the regular meeting Tuesday night of Pioneer Lodge No. 89 Knights of Pythias, at the castle hall, 423 Scott avenue. Business of much importance will open before the lodge, which now opens at 7:30 o'clock promptly. There will be balloting on applications, and initiation in the rank of Knight. Weather permitting, Iowa Park will visit the lodge, and bring with them several candidates for this rank.

T. A. Bradley of this city, will give his interpretation of Pythagoras, and his reputation for portraying this wonderful character is too well known to need comment.

Amos Temple No. 119 Dramatic Order Knights of Klonoos, of Fort Worth, has consented to visit this city on Friday, November 19th, and put on a Dokey ceremonial, and every Dokey in the city is urged to attend the lodge Tuesday night, wearing his Fas, that this important matter may finally be disposed of.

Special Deputy Grand Chancellor Steve D. Mobley, (Uncle Steve, as he is familiarly called) of Cleburn and W. H. Egan of Fort Worth, state representatives of the insurance companies of the order, will be present, and it is worth the while of any Knight of Pythias to hear these men make inspiring talks.

### COAL OPERATORS OF OKLAHOMA REFUSE TO REOPEN DISCUSSION

OKLAHOMA CITY, Oct. 16.—The Oklahoma Coal Operators' association has declined to reopen the present wage scale discussion with Oklahoma coal miners and will refuse to enter any more conferences to negotiate present disagreements, according to Carter, president of the association, said in a letter to John F. Wilkinson, president of district 21, United Mine Workers of America, made public here today.

### ORGANIZATION UNDERGOING SEVERE TEST SAYS PRESIDENT

MUSKOGEE, Okla., Oct. 16.—"In a second appeal here today to 'vacationing' coal miners of Oklahoma to return to work, John T. Wilkinson, president of district 21, United Mine Workers of America, declared 'our organization is now undergoing the most severe test to which it has ever been subjected.' He asserted in what appears to be his last appeal that he would tour the district and then 'disclose startling facts to our membership so they will be in a position to know who has betrayed their confidence and attempted to rule or ruin our organization.'

### SALESMAN ARRESTED IN CONNECTION WITH THE CARUSO ROBBERY

NEW YORK, Oct. 16.—Harry Toback, a traveling salesman of Brooklyn, was arrested by police tonight in connection with the \$500,000 jewelry robbery at the home of Enrico Caruso, the famous tenor, several months ago.

### HAVE EVIDENCE READY TO PROSECUTE PASQUALE FOR COUGHLIN KIDNAPING

HARRISBURG, Pa., Oct. 16.—Major Lynn G. Adams, of the state police, has all evidence to prosecute August Pasquale upon a charge of kidnaping Blakely Coughlin and throwing his body in the Schuylkill river, it was asserted at the office of the state constable today.

### CHAUFFEUR NEAR DEATH FROM WOUND SUSTAINED IN HOLD-UP IN ILLINOIS

CHICAGO, Oct. 16.—Wilbur Andrews, a chauffeur, was near death here today from bullet wounds received when held up by three men near Posen, Ill. Andrews was shot once in the face in Posen and then carried about two miles by his assailants and shot twice. They left him apparently believing he was dead.

### BOARD OF INQUIRY TO MAKE TRIP TO ISLAND

WASHINGTON, Oct. 16.—The naval board of inquiry is to investigate the "indiscriminate killings" by U. S. Marines in Haiti which will go to the island, Secretary Daniels announced today.

### ALLEGED DISTRIBUTOR OF BOOZIE IS UNDER ARREST

CHICAGO, Oct. 16.—Investigation of an alleged million-dollar booze ring operating with headquarters here led to the arrest today of Joseph Suler, alleged distributor for the wholesale bootleggers.

### Wichita Falls Lodge No. 633, A. F. & A. M. Stated Meetings First and Third Friday Nights in Each Month

Work in the Master's Degree Monday, Oct. 18, at 7 o'clock. Work in the Entered Apprentice degree Tuesday, Oct. 19, at 7 o'clock. Work in the Entered Apprentice degree Thursday, Oct. 21, at 7 o'clock.

### MEXICO IS AT PEACE. PEACE WILL CONTINUE

(Continued from page 1.)

after Ryan had declared rumors of a plot baseless. Three government agents who reached Dallas from San Antonio and El Paso were staying in the city in connection with the investigation today. They were searching for an automobile and occupant reported bearing a California license number and driven by a Mexican which they were informed arrived here last night.

### PRESIDENT DE LA HUERTA OUTLINES MEXICAN POLICY

MEXICO CITY, Oct. 16.—Declaration of President de la Huerta to American correspondents covering Mexico's international and internal policies, were interpreted today as reflecting the attitude of the incoming Obregon administration. Among the points made by de la Huerta were:

"Mexico will pay all her just debts. She will co-operate with the United States and Guatemala in maintaining peace along the international boundaries. Although Mexico has not received a note from the United States outlining conditions for recognition, she would accept conditions which would not affect her national dignity. Beneficial to humanity. The League of Nations 'is an institution beneficial to humanity.' Mexico has no intention of confiscating property. De la Huerta's statement is known to have been prepared after confer-

### Dog Urges Master to Railroad Tracks and Both Are Dead

SPRINGFIELD, Ill., Oct. 16.—Tugging at the end of a rope, Rover, the pet dog of John Shelton, 7-year-old boy, today urged his master upon the tracks of the Chicago & Alton railroad. A moment later they were both dead, caught by the Prairie State express.

### DALLAS MAN IS KILLED IN MAKING A LANDING

AURORA, Ill., Oct. 16.—Bryan McMillen, of Dallas, Texas, a pilot of the Chicago-Omaha aerial mail service, was killed while seeking to make a landing in the early morning fog near Batavia, Ill. His machine happened to strike one of a few telephone lines running across the prairie. The airplane turned over and as it hit the ground the gasoline tank exploded. The plane was stripped and burned to death. McMillen had only been in the Chicago-Omaha service for about a month. His wife came to Omaha a few days ago from Dallas to make her home in that city.

### PROHIBITION AGENTS ARE HELD ON MURDER CHARGE

LITTLE ROCK, Ark., Oct. 16.—Warrants for the arrest of J. H. Hopper and George S. Small, prohibition enforcement agents, the former on a charge of murder and the latter on a charge of accessory to murder were brought here by an Arkansas county officer from Dewitt this afternoon.

of them, have been caught in so many land and they see that in all probability they are not apt to get back by the second day of November." In another reference to Senator Harding's Indianapolis speech the governor said: "Senator Harding left his dugout last night, held out to Heaven his hands and yelled: 'Kamerad, Kamerad, I surrender to the hosts of peace' but America has heard that 'Kamerad' stuff before and the American soldiers agree to know that those who sang could not be trusted and American people will not trust any candidate with the pretense that this year who has done all he could to destroy the cause of peace and holds his hands to High Heaven and admits that he was wrong and asks you to give the flag of peace to one who has done all he could by associating with its enemies to destroy it."

### NEW YORK, Oct. 16.—George White, chairman of the democratic national committee, in a statement here today declared he would visualize Senator Harding 'making in his shoes' as a result of his speech at Indianapolis last night.

In his speech, Mr. White asserted, the republican candidate had attempted to make a play for the support of his speech at Indianapolis last night. In his speech, Mr. White asserted, the republican candidate had attempted to make a play for the support of his speech at Indianapolis last night. In his speech, Mr. White asserted, the republican candidate had attempted to make a play for the support of his speech at Indianapolis last night.

### TERENCE MACSWINEY HAS "A FAIRLY GOOD NIGHT" IS PHYSICIANS REPORT

LONDON, Oct. 16.—Terence MacSwiney, the hunger-striking lord mayor of Cork, was reported by the prison doctor this morning as having passed a fairly good night, says a bulletin issued by the Irish self-determination league. This was the sixteenth day of the lord mayor's strike.

### SENATE COMMITTEE TO RESUME INVESTIGATION OF CAMPAIGN EXPENSES

ST. LOUIS, Oct. 16.—The senate subcommittee investigating campaign expenditures, is scheduled to resume hearings here Monday. The committee is expected to go into the expenditures for senatorial campaigns with special reference to the campaigns waged by Brockton Long and Helen S. Spencer, democratic and republican nominees for senator from Missouri.

### COMPANY PREPARING TO BEGIN DRILLING ON WELL NORTHEAST OF NOCONA

NOCONA, TEX., Oct. 16.—The North Star Oil company of Fort Worth is making a special effort to secure the material needed for their test on the Little John Short survey about 12 miles northeast of Nocona. It is the intention to start work on this well as soon as the supplies can be bought.

The Nocona Oil company will use the derrick at the Lemon farm well which will be rebuilt on the new location at once. It will be the intention to make a thorough test and it is believed from the favorable showings found in the Lemon well, a paying well should be the result. Work on this well will soon be under way.

### WASHINGTON, Oct. 16.—Conversations between the state department and the Japanese embassy regarding the proposed anti-Japanese land legislation in California, have been temporarily discontinued and will not be resumed until after the November elections in which the California people will vote on the land legislation.

### GABINET DECIDES TO SUMMON PARLIAMENT TO SELECT A REGENT

ATHENS, Oct. 16.—King Alexander, critically ill as the result of the bite recently inflicted by a monkey, suffered two hours of the most dangerous crisis Friday night. The cabinet met at midnight and decided to summon the parliament for the election of a regent.

### PASSER A CALM NIGHT ACCORDING TO PHYSICIANS

ATHENS, Oct. 16.—King Alexander of Greece passed a relatively calm night, according to his physicians. A bulletin issued at 1 o'clock this morning said that the king's temperature rose to 104 degrees while his pulse was 102 and respiration 39. Later the king's temperature decreased to 102.56 degrees.

### BODY OF EARL BACHMAN TO ARRIVE SUNDAY NIGHT

The body of Earl Bachman who died at Angers, France, while in the coast artillery service, will arrive in Wichita Falls Sunday night. A funeral service will be held at the First Methodist church, corner Seventh and Lamar streets at 2 o'clock Monday afternoon. Burial will be in Riverside cemetery.

### ROGER THOMPSON IS GIVEN ELEVEN YEARS

Consisted At Eastland Second Time Of Charge Of Holding Up A Ranger Cabaret.

FORT WORTH, Oct. 14.—An eleven-year sentence was given Roger Thompson at Eastland this afternoon following another trial on a charge of holding up a Ranger cabaret. At a previous trial he was given ten years. Two others, who are accused of participating in the holdups and the street battle that followed, have been given two ten-year sentences each. Several cases against the trio remain to be tried.

### SAYS BRITISH PUTTING THE GERMANS TO SHAME

OTTAWA, Ont., Oct. 16.—British authorities in Ireland are "putting everything the Germans were accused of doing to shame," Eamonn de Valera, president of the Irish republic, declared in a letter received here today at a conference of the Canadian Self-Determination League for Ireland.

### MRS. HARMER EXCHANGES HOME FOR 200-ACRE FARM

One of the largest real estate deals made here for some time is reported this week by J. Wilkie Talbert and Stehlik & Haber, well known firms of this city. The deal involved the exchange of a 216-acre farm, located four miles east of Wichita Falls, owned by Sam Krueger, and the beautiful brick home of Mrs. O. A. Harmer, located at 242 Broad street, the consideration being \$48,000. Mr. Talbert represented Mrs. Harmer, and C. W. Smith, manager of the firm of Stehlik & Haber represented Mr. Krueger.

### BODY OF EARL BACHMAN TO ARRIVE SUNDAY NIGHT

The body of Earl Bachman who died at Angers, France, while in the coast artillery service, will arrive in Wichita Falls Sunday night. A funeral service will be held at the First Methodist church, corner Seventh and Lamar streets at 2 o'clock Monday afternoon. Burial will be in Riverside cemetery.

### OUT OF WORK WHEN THEY RETURNED FROM MASSES FOR THE HUNGER STRIKERS

CORK, Oct. 16.—Nearly fifteen hundred employes on virtually the entire staff of the new Ford automobile-tractor plant here are reported to have found themselves out of work until Monday when they returned to the plant this afternoon from mass celebrations in all the Cork churches today for the hunger strikers in prison.

### MARKETS REPORTED LOWER

NEW YORK, Oct. 16.—The principal stock and shipping markets were lower today, resulting in more active inquiries by prospective buyers. Reports from abroad indicated a reduction of 1 1/2 per cent in Belfast linings.

WICHITA HIGH DISPLAYS SNAPPY BRAND OF FOOTBALL AND HANDS BURKBURNETT A 53 TO 0 LACING

Wichita High romped all over Burk Burnett High yesterday afternoon and won an easy victory 53 to 0 by outplaying their opponents in every department of the game.

Walker kicked off to Stevens and the latter was thrown in his tracks. The visitors were exceedingly unlucky in this respect as two of Jasper's heaves went into Haney's open and capable mitts and the sturdy Wichita center romped over the goal line for a touchdown on both occasions.

WACO, TEX., Oct. 16.—New Mexico, Arizona and California are the states the Baylor Bears will invade in a baseball trip to be made during the Christmas holidays. If the plans of athletic director, R. F. Bridges, are perfected.

ANOTHER MARK FOR RUTH TO SHOOT AT

JOLIET, ILL., Oct. 16.—A record for fresh home runs was made in the Elgin-Joliet and Eastern railways' baseball league today when "Babe" Berg, of the car shop team, knocked the ball into the stack of a passing engine, completing the circuit with the locomotive steam.

SIMMONS COLLEGE DEFEATED BY PHILLIPS UNIVERSITY

ENID, OKLA., Oct. 16.—Phillips university today defeated Simmons college, Abilene, Texas, 13 to 7. A fumble by Simmons on their 10-yard line in the last period cost them the game.

BOSTON COLLEGE REPEATS 1919 VICTORY OVER YALE

NEW HAVEN, CONN., Oct. 16.—Boston college smothered Yale today, 21 to 13, repeating its victory of last year, when it defeated the Blue 5 to 3. The game was spectacular throughout, with a crowd of more than 20,000 in the Yale bowl hoping for a rebuff of the invaders and cheering to the final moment of the game.

ANNUAL INTERCOLLEGIATE RUN WON BY CORNELL

SYRACUSE, N. Y., Oct. 16.—Johnny Sims of Syracuse University, intercollegiate cross country champion, won individual honors at the cross country meet held here this afternoon. Cornell won the meet on points.

CONCERNING WILLARD

"If you want the facts about Jess Willard, I'll give them to you," one of his acquaintances told us recently. "I saw him about ten days ago and had a talk with him. If Willard doesn't weigh over 200 pounds he doesn't weigh 19. He has put on at least 60 pounds since he fought Dempsey, and if he is training for anything it is to put on more weight. He'll never get in condition to fight again, and you can put up your last knock on that statement. Willard is through. And if he wasn't he is through with Dempsey."

THE WESTERN SENSATION

Osas of Minnesota is all ready to step out on the sensation of the Western campaign. He is picking up where Harley left off, with more bulk and power. "The air is full of news when this man starts," a Western cryptic remarked recently. "The West has had some great backs in its days and time—Heaton, Hirschberger, Eckersall, O'Lea, Garrels and Harley—among others."

THE TRUE TEST

There are still many from the old-time football clan who insist that the forward pass is merely a raw gamble and has little value. It has practically no value when used by a team that can neither pass nor receive with any accuracy.

Osas of Minnesota is all ready to step out on the sensation of the Western campaign. He is picking up where Harley left off, with more bulk and power. "The air is full of news when this man starts," a Western cryptic remarked recently. "The West has had some great backs in its days and time—Heaton, Hirschberger, Eckersall, O'Lea, Garrels and Harley—among others."

OBTAINING HUMILITY

When there is a tendency on the part of any masculine gender of average ability to develop an expanding chest he should take a day off and watch Alex Stirling play. Without any bulk to carry her through, weighing less than 120 pounds, she still finds no trouble in getting from the 200 yard mark to the goal line, while her iron shots are played with the firmness of Evans.

CONCERNING WILLARD

"If you want the facts about Jess Willard, I'll give them to you," one of his acquaintances told us recently. "I saw him about ten days ago and had a talk with him. The SPORTLIGHT By Grantland Rice

(Copyright, 1920, New York Tribune Inc)

FOOTBALL SKETCHES

No. 5. The Quarterback The Quarterback calls the signals. He returns a hostile punt. He's certain that the other team is in a trap. And is often called a runt. But when the scrap is over and the winning legion glows, you'll find the Quarter either in the Hero or the Goat.

THE TRUE TEST

There are still many from the old-time football clan who insist that the forward pass is merely a raw gamble and has little value. It has practically no value when used by a team that can neither pass nor receive with any accuracy.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock

**COTTON MARKET.**
New York Cotton.
NEW YORK, Oct. 16.—There was a further advance in cotton futures today with all deliveries making new low records. December contracts selling at 15.60 and closing weak at a net decline of 1/4 to 1/2 points.
Nervousness over the British labor situation was increased by rumors that railway workers were about to strike in support of the coal miners following a conference scheduled for Wednesday.

**NEW ORLEANS COTTON.**
NEW ORLEANS, Oct. 16.—Cotton was depressed here in the morning by the coal strike in England, slumping almost continually and showing no signs of recovery. The market closed at 15.60, a net decline of 1/4 to 1/2 points.
The full limit allowed for the week was 15.60, the full limit allowed for the month was 15.60, the full limit allowed for the year was 15.60.

Table with columns for 'Open', 'High', 'Low', 'Close' and rows for various commodities like WHEAT, CORN, OATS, RICE, etc.

**STOCK MARKET.**
PORT WORTH LIVE STOCK.
PORT WORTH, Oct. 16.—Cattle—Receipts 250; steady. Hogs—Receipts 18.00; steady. Sheep—Receipts 12.00; steady.

**STOCK MARKET.**
NEW YORK, Oct. 16.—Stocks opened mainly at higher levels today, but before the short session had half way through the course of the industrial and specialties caused a general reversal, with heaviness at the close.

**STOCK MARKET.**
NEW YORK, Oct. 16.—Stocks opened mainly at higher levels today, but before the short session had half way through the course of the industrial and specialties caused a general reversal, with heaviness at the close.

PRICE RECESSIONS ON WHOLESALE COMMODITIES CONTINUE IN NEW YORK

NEW YORK, Oct. 16.—Price recessions on wholesale commodities continue unabated in New York, according to financial experts in their weekly reviews here today. Bradstreet's trade report indicated a drop of 1.16 per cent in the weekly food index, while Dun's review listed 55 commodities showing declines against 22 showing increases.

**BELIEVE CONVICTS MAY HAVE ESCAPED DEATH THROUGH PRISON SEWER**
JEFFERSON CITY, Mo., Oct. 16.—That Charles McKenize and Lloyd Haines, convicted men from Kansas City, may have escaped death in the prison sewer, through which they tried to get to their freedom Friday afternoon and that they successfully made their getaway down the Missouri river in a rowboat early Saturday morning is the belief of prison officials here.

**CHANGES SHOWN BY THE NEW YORK BANK STATEMENT**
NEW YORK, Oct. 16.—The weekly statement of the New York City banks shows the following changes:

Table showing bank statement changes with columns for 'Surplus', 'Reserve', 'Cash', etc.

**DROP IN THE PRICE OF CLOTHING IN THE WEST**
DENVER, Oct. 16.—Prices of clothing took a drop today when one of the largest clothing stores in Denver announced reductions of from 25 to 50 per cent. Other stores have joined in the movement.

**GRAIN AND PROVISIONS.**
CHICAGO, Oct. 16.—Grain and provisions were unchanged, receipts, 4,296 cases.

**MARKET REVIEW.**
NEW YORK STOCKS.
NEW YORK, Oct. 16.—Payment of the Anglo-French \$500,000,000 loan, the first and largest international loan, was made today.

RIOTING RENEWED IN THE NOTORIOUS IRISH DISTRICT AT BELFAST

BELFAST, IRELAND, Oct. 16.—Rioting was renewed in the notorious Marrowbane district of North Belfast this afternoon by Sinn Feiners and unionists. The Sinn Feiners used revolvers while the unionists replied with stones. The injured were taken to hospitals but the number of casualties has not yet been announced.

**CALLED TO HIS DOOR AND IS SHOT TO DEATH**
DUBLIN, Oct. 16.—A number of armed men knocked at the home of Peter O'Carroll early this morning and when he opened the door, the sound of a shot was heard by his wife. She found O'Carroll's body with bullets in the head and a paper on which were the words "A traitor to Ireland, shot by the I. R. A."

**LATEST "RAIN MAKERS" PROJECT IS ANNOUNCED**
PORT ARTHUR, Ont., Oct. 16.—The latest "rain makers" project was announced here today by A. E. Cole, former member of the royal air force. Cole, with his father, is forming an "aerial irrigation company" which he says will engage to produce rain at call by sending airplanes into the air to condense atmospheric moisture by spraying the clouds with liquid air.

National Economy Wave Is Affecting the Large Theaters

NEW YORK, Oct. 16.—The national economy wave that has started prices on the downward trend in many industries, now has struck the theaters and the "R. E. O." sign—a fixture in most theaters since the armistice—has been relegated to the heap of unused "drops" along with the scenery of stage effects of a growing list of failures, theatre producers said today.

**POSTMASTERSHIPS TO BE FILLED THROUGH PROMOTION OF AVAILABLE EMPLOYEES**
WASHINGTON, Oct. 16.—Provisions for filling postmasterships in the first, second and third classes through promotion is made in executive order announced today by the civil service commission.

**SHIPPING BOARD VESSEL GROUNDED, BUT FLOATS**
LONG BEACH, N. Y., Oct. 16.—The shipping board steamer Knoxville grounded here at 4:30 a. m. today. An hour later she was refloated and proceeded.

SHERIFF CONFIDENT HE KNOWS MEN WHO ROB OKLAHOMA BANK

TULSA, OKLA., Oct. 16.—The sheriff of Nowata county today announced that it had been definitely established that the robbery of the bank at Alluwe, Okla., yesterday afternoon was staged by a gang led by Tom Slaughter, who has a long record as a highwayman.

**ARMED MEN HIDING IN HILLS NEAR JOPLIN, MO.**
TULSA, OKLA., Oct. 16.—Following robbery of the First State bank of Alluwe, about fifty miles northeast of here in Nowata county, late yesterday, of \$4,400 in cash and liberty bonds, two bank robbers were leading a posse by forty-five minutes at Edna, Kan., just across the Oklahoma boundary, shortly after midnight, when the posse, composed of seventy-five armed citizens and officials, lost the trail. At daylight today members of the posse who trailed the robbers all night telephoned to the sheriff at Alluwe, Okla., that they believed the two men had escaped and entered Joplin, Mo., or were hiding in the hills near there.

**SHIPPING BOARD VESSEL GROUNDED, BUT FLOATS**
LONG BEACH, N. Y., Oct. 16.—The shipping board steamer Knoxville grounded here at 4:30 a. m. today. An hour later she was refloated and proceeded.

HAVE PLAN FOR THE DISTRIBUTION OF THE IMMIGRANTS TO U. S.

By HAROLD D. JACOBS.
United Press Staff Correspondent.
NEW YORK, Oct. 16.—The problem of assimilating foreigners furnished by immigration at the rate of a million a year will be turned into a remedy for our economic ills under a plan now being formulated by Frederick Walls, commission of immigration.
Under this plan immigrants will be distributed voluntarily, where certain classes of labor are most needed. Whenever farm hands, fruit pickers, factory workers or other kinds of laborers are needed for, heavy arriving foreigners will be furnished with information concerning wages and living conditions and aided in reaching these places.

**ARRESTED FOR ROBBERY WHILE AWAITING TRIAL ON A SIMILAR CHARGE**
LITTLE ROCK, Ark., Oct. 16.—Fred Austin of Memphis, here to face trial today charged with participation in the robbery here in 1916 of the Central bank, was arrested in the court room on a warrant from Weir, Miss., charging him with participation in a \$5,000 bank robbery at Weir. His trial here was continued because of absence of witnesses.

**SHIPPING BOARD VESSEL GROUNDED, BUT FLOATS**
LONG BEACH, N. Y., Oct. 16.—The shipping board steamer Knoxville grounded here at 4:30 a. m. today. An hour later she was refloated and proceeded.

TALENTED YOUNG WOMAN COMES TO DIRECT WORK WICHITA FALLS B. Y. P. U.

Miss Clara Morris, formerly of Wichita Falls but for the past several years of Port Worth, Texas, arrived in Wichita Falls last week to take up her work as Director of Young People Work in the First Baptist Church.

Miss Morris will be the first such director in Wichita Falls, and her coming, and plans for their year's activities, form an interesting topic among the two hundred or more young people of the four divisions of the Junior and Senior B. Y. P. U. of the First Church.

The new director's duties will be confined in the greater part to her work with the young people, but she will also assist Rev. Mr. Powers in his study, and being a talented soprano soloist, will assist with the solo work in the choir.

A 1917 graduate of Simmons college at Abilene, Miss Morris has been a voice student and teacher for the past three years in Fort Worth, studying under Andrew Homphill there.

Miss Morris lived in Wichita Falls with her parents, Mr. and Mrs. E. W. Morris, ten or twelve years ago...

Mr. and Mrs. W. E. Putman of Tulsa, Okla., stopped over in Wichita Falls en route to the Dallas fair, for a short visit with their daughter, Miss Kitty Putman...

Strictly Entre Nous

Who's baby feet gained steadiness to walk but yesterday? Whose "little hands unconscious held the keys" of dark and dawn but yesterday—when those who might have steered her into morning sunny paths, lacked strength—or wit, when those who might have set ajar the Gates of Day for her, failed, and are falling yet to meet their trust?

A little girl with trembling in her heart For all her hands, bravely, worthily, words. A supple girl whose part it still should be to play and dance and sing, but who must pay the price of some one's failure to stand by. And we who say that sixteen years could bring a stain to any child's white coat. That love and tenderness could not wipe out, deny the whole Fair principle of being—she's a child, whose feet are straying in alien paths because some one forgot to guard her playing.

A little girl was brought from Burk Burnett last week as a special charge for the Children's Home agent. Through mistake, instead of being turned over to Miss Henrich she was turned over to "the law" which forced to act in doing its duty for her. Her story, sensationally featured, has been the subject of much comment. But the whole story is that she is just a little sixteen-year-old—with no one "standing by.")

Common decency keeps us from hurting our acquaintances. Christianity may keep us from hurting our enemies. But there is nothing in God's wide and otherwise beautiful world that will keep us from hurting our friends.

The king of Greece is suffering from a monkey bite. Can it be possible that he chooses some of his friends from the zoo?—Dallas News.

We should say it's not only possible, but extremely probable. What's the matter with an honest-to-goodness monkey friend? Or two, anyway? Kings have had to put up with lots worse. Beggars can't be choosers, and in the matter of true friendship, kings are beggars from birth. We ordinary cut-throats from the circle of royalty have never appreciated our benefits, anyway. We may possess, in poverty and mediocrity, what the king of Greece, with all his pomp and power, might never attract nor retain. Friendship is a kindly gift, but not the gift of kings. It is the gift of the poor; of those who, bereft of the richness of material possessions, must turn to hearts for solace. As for the king of Greece, he would probably be as happily situated if he could choose not only his "friends, but some of his acquaintances, from the zoo. A monkey may take a mouthful of him occasionally, but it can neither lie, steal, nor concern itself with political intrigues.

A 1917 graduate of Simmons college at Abilene, Miss Morris has been a voice student and teacher for the past three years in Fort Worth, studying under Andrew Homphill there. She has been especially interested in young people's work with organizations, and when the local church called on T. C. Gardner, state secretary of B. Y. P. U. for a director, he immediately recommended her for the work.

Miss Morris lived in Wichita Falls with her parents, Mr. and Mrs. E. W. Morris, ten or twelve years ago...

Mr. and Mrs. W. E. Putman of Tulsa, Okla., stopped over in Wichita Falls en route to the Dallas fair, for a short visit with their daughter, Miss Kitty Putman, Frank Putnam of Pittsburgh, Pa., visited his sister, recently and is now connected with the Gulf Refining company here.

## ELKS SOCIAL PROGRAM FOR WINTER TO FEATURE SEVEN FORMAL AFFAIRS

The local lodge E. P. O. Elks has planned quite an extensive social program for the 1920-21 season, according to an announcement from the social committee Saturday afternoon.

The program will feature seven formal affairs, including the big Thanksgiving dance, the Elks' charity ball, the Christmas ball, the New Year's ball, a January formal ball and the Martha Washington ball. The Thanksgiving dance will be given November 24th, and the annual charity ball, a benefit performance for the Welfare council fund will be given December 21st. The Christmas ball, which is usually the biggest affair of the Elks' season, will be given on Christmas eve. The New Year's ball will be given on the evening of December 31st, and the Martha Washington ball Tuesday, February 22nd.

Other social features for the year will include the autumn opening entertainment, a Halloween dance the night of October 31st. On November 11th the lodge will entertain with an amicable dance, which will be an informal costume ball to which the men will wear army or navy uniforms and the ladies may wear adopted Red Cross, Salvation Army or other service uniforms. On November 18th there will be an informal dance for the members and their guests, and on December 2nd and 16th informal dances. On January 13th the lodge will hold open house for members and their guests, and the entertainment will include music, dancing, etc. There will be an informal dance on January 13th and another February 27th, between the formal affairs.

The social committee of the lodge comprises R. J. Marin, chairman, and George Matley and Wilkie Talbert.

## OL' CLOES! OL' CLOES! HAVE YOU ANY OL' CLOES? OR ANY OLE CLOTHES?

An old suit of father's—an old hat of mother's—old china (not so old as to be precious)—old shoes, old chairs, old stoves, old sweaters or coats—anything old that you don't mind parting with?

If you have, telephone the Y. W. C. A. phone number 6323, the first thing Monday morning. Or telephone them Sunday afternoon between 2:00 and 5:00 o'clock. It is a hurry call for old things for the Y. W. rummage sale, and every article donated will bring in either a few cents or a few dimes toward the furnishing of the girls' club rest room at the Y. W. building.

There isn't anything in the club room now but bare walls and a few Y. W. C. A. posters and a couple of more coats, but when the money from the rummage sale and the business girls' "Halloween" entertainment is

## FEDERATED MISSIONS TO HAVE COMMUNITY SERVICE MEETING WEDNESDAY, 20TH

The Federated Missions Society, which has an all-day community service meeting Wednesday, October 20, at the First Christian church, on which occasion the federation will be guests of the ladies of the Christian Mission Society.

The meeting will feature talks by Miss Katherine Henrich, district superintendent of the Children's Home and Aid Society of Texas, Mrs. C. E. O'wiler, executive secretary of the welfare council of the city, Miss Mary Quinn, Red Cross nurse, and her assistant, Miss Allison, and Mrs. W. O. Davidson, secretary of travelers' aid of the Y. W. C. A. The talks will be given at different times during the day's program, which will also include special music features. Preceding the noon session, a vocal duet from Hansel and Gretel will be sung by Messrs. R. A. Lyle and J. W. King. After the devotional in the afternoon Miss Enley, Miss Marion Meier, and Mrs. T. B. Greenwood, first and second violin and viola, respectively, will play the instrumental number, and before the round table discussion in the afternoon Mrs. George Thorburn will sing a solo, "Come Ye Blessed."

The round table discussion will be on the subject, "What the Federated Societies Can Do for the Future Good of the Community," and all present will be invited to take part. The morning devotional will be opened by Mrs. Oia G. Hamlin, the afternoon by Mrs. E. B. Haydon, and the discussion will be led by Mrs. J. A. Kemp.

## Personal Mention

Paul Bundy, son of Mr. and Mrs. M. A. Bundy, is attending the University of Arkansas at Fayetteville, Ark.

Rev. Guy Davis, pastor of the Central Presbyterian Church, and J. E. H. Bailey of the church, returned Saturday from Presbyterian Synod at Millford, Texas.

Mrs. C. A. Williams is visiting for a few days in Mangum, Okla.

Mr. and Mrs. Everett Johnson returned Friday night from a three weeks visit in St. Louis and Chicago.

Mr. and Mrs. W. M. McGregor arrived home Saturday after a six weeks' stay in Rochester, Minn., where Mr. McGregor underwent an operation at Mayo Bros. sanitarium.

Mrs. R. J. Campbell and little daughter, Miss Louise of Oklahoma City, are visiting J. Campbell of the Western Oil Corporation for a few days.

Mr. and Mrs. J. W. Williams are spending the week end with Mr. and Mrs. Hadler in Dorburnett.

Miss Maud McCuskey has gone to Dallas to consult an eye specialist.

Mr. and Mrs. J. A. Foshue and little son, John A. Jr., have returned after a week's visit in Dallas. They attended the Dallas fair and visited friends.

## LEFT SATURDAY TO ATTEND BROTHERS WEDDING IN SHERMAN

Mrs. J. R. Clymer left Saturday afternoon for Denison, where she will visit home people for a few days before going to Sherman, Texas, to attend the wedding of her brother, James White. Mr. White will marry Miss Bertie Lee Rich of Sherman.

## RETURNS FROM A VISIT TO RELATIVES IN DENMARK

William A. Huper, secretary and treasurer of the Wichita Falls Foundry & Machine company, returned Saturday from Denmark where he has been visiting relatives for several months. Mr. Huper enjoyed a very pleasant visit and returns to Wichita Falls greatly improved in health.

## EPWORTH LEAGUE TO HAVE HALLOWEEN PARTY NEXT WEEK

The Epworth League of the First Methodist church south will have a big Halloween party Friday night, October 19, in the basement of the church. The entertainers will feature "ten famous ghosts" and it is whispered that the affair are doing most of the work for the party, under the direction of Mrs. J. L. Thorne.

Friday night of next week the league are to have a district party at the First Christian church, and Saturday night of the same week they will give a big banquet honoring C. T. Bean, of Dallas and E. L. Harben of Nashville, Tenn., prominent officers in the National Epworth organization.

Next Sunday, October 24, the second quarterly conference of the league will close, after session Friday, Saturday and Sunday. Messrs. Bean and Harben will attend the conference and make talks.

## WOMEN'S CULTURE CLUB MEETS TUESDAY AT HOTEL

The Women's Culture Club meets Tuesday afternoon, 2 o'clock, at the William and Mary hotel, and in the absence of Mrs. F. H. Whaley, chairman, Mrs. David Hinshaw will preside.

Besides the discussion of the League of Nations articles and other national and state matters concerned in the November election, there will be a discussion of local political conditions touching county and city offices. A general invitation is extended women of the city to attend.

## MURINE Night Morning Keep Your Eyes Clean—Clear—Healthy

## NOVEL AND CITIZENSHIP CLASS OPENS TUESDAY MORNING AT 9

A class in Novel and Citizenship will be opened Tuesday morning at 9 o'clock at the Y. W. C. A. under the direction of Mrs. James Berner, teacher.

A nominal fee is to be charged for enrollment in the class. Those wishing information are asked to call the Y. W. C. A., phone No. 5323.

## MR. AND MRS. A. E. GWINN HOME FROM WEST VIRGINIA

Mr. and Mrs. A. E. Gwinn returned Friday evening after a three months visit at Huntington, West Virginia. They enjoyed the visit greatly but both were taken sick, with fever while at Huntington and were glad to get back to Wichita Falls.

## ALL-DAY MEETING OF ROYAL NEIGHBORS THURSDAY, OCT. 21

The Royal Neighbors will hold an all-day meeting Thursday, October 21, and all members are urged to be present. "Bring one dish of something to eat," are the instructions from "headquarters."

Business of importance is announced for the 2 p. m. business session, which will be followed by a social hour.

## AUTHORIZE SELECTION OF ARCHITECT TO PLAN Y. W. C. A. BUILDING

At a meeting of the executive committee of the Young Women's Christian Association, held Saturday morning in the office of W. D. Cline, the building committee of the organization was authorized to select an architect to prepare plans for the proposed new home of the Y. W. C. A.

The plans will be submitted to the two committees at a later meeting, and if approved, bids for the construction of the home will be asked. The "Y" already owns two lots at Eighth and Burnett streets, and the cost of the new buildings will be carried out of the \$225,000 fund raised by the organization's campaign in Wichita Falls last year.

### KELL COMPLIMENTS MAYOR ON SUCCESS IN MARKETING BONDS

That Mayor Cline and the members of the city council handled a difficult task successfully and closed a splendid contract when they sold the \$700,000 sewer bond issue at 97 cents on the dollar was declared Saturday by Frank Kell, Wichita Falls financier and a recognized authority on bond matters.

"In my opinion the sale was good financing," Kell stated, "due to the fact that it was a cash deal which will make it possible to proceed with the construction of a new sewer system that is badly needed, the present sewers, congested as they are, being totally inadequate to care for the rapid growth of our city."

"The contract awarded for the construction of the new sewer system gave the contractor the right to take the city's bonds at par and allowed the city the privilege of selling the bonds at the highest market price possible, the contractor standing a loss on the bonds not to exceed three per cent."

"The sale made by the mayor and city council was at 97, therefore the taxpayers are in reality getting 100 cents on the dollar on these securities, and getting the cash in advance, which is deposited in our banks drawing a substantial interest rate, and in this way enabling the work to proceed without interruption and without the necessity of issuing city warrants."

"In view of the fact that prime commercial paper of the largest concerns in the country is now selling at 8 per cent, and in view of the further fact that large industrial activities, and public carriers, which find it necessary to borrow money at this time, are selling their securities even as high as a 7 per cent basis, and with United States government bonds, the best government bonds in the world today, selling at more than a 10 per cent discount, it follows without question that the sale made Thursday night by the mayor and city council of Wichita Falls was indeed a fortunate one."

"This bond issue carries a redemption clause which will permit the mayor and city council at the expiration of a period of five years from date of sale to call in and retire these bonds in event it should be found at that time that a resale could be made on a lower interest basis."

"It appears to me that the taxpayers' interests have been fully protected in this sale in every particular."

### LARGE CROWDS ATTEND THE FORMAL OPENING OF FREEAR FURNITURE CO.

Large crowds attended the formal opening of the W. A. Freear Furniture company Friday night and were unanimous in their praise of the store, its appointments and stock. The Freear store has been in operation in its new quarters at the corner of Ninth and Scott for some months, but did not have as complete a stock and were not as well settled at first as they had hoped to be, hence the formal opening was delayed until a stock complete in every detail had been secured and everything was placed in perfect shape.

The feature of the store at present is the new drapery department, which has just been added. A complete line of silks, cretons, window draperies, rings, etc. have been included in the large stock of the department and a competent staff of experts whose services will be at the command of the buying public. One novel feature of the department's exhibit is the arrangement of the window shades in the rooms occupied by the department. Each window is draped with a different style shade, some for parlor and dining room, others for dining room, others for bedrooms and still others for children's play rooms.

On the main floor several "rooms" had been built and completely fitted out. A bedroom, with an equipment that had invitations to rest calling from every corner occupied one section of the big sales room. Further down was a parlor suit arranged in an appropriately decorated room while still further on in a dining room, furnished just as completely as the other two.

An orchestra furnished music throughout the entire evening and flowers and cigars were passed out as favors for the visitors.

### GREAT FOR ECZEMA AND OLD SORES

I Guarantee My Ointment, Says Peterson—Every Box of It.

"If you are responsible for the health of your family," says Peterson, of Buffalo, "I want you to get a large 50-cent box of Peterson's Ointment today."

"Remember, the back of every box, Every druggist guarantees to refund the purchase price if Peterson's Ointment doesn't do all I claim."

"I guarantee it for eczema, old sores, itching sores, salt rheum, venereal sores, pimples, broken breasts, itching skin, skin diseases, blind, bleeding and itching piles as well as for chafing, burns, scalds, cuts, bruises and sunburn."

"I had 30 running sores on my leg for 11 years, was in three different hospitals. Amputation was advised. Skin grafting was tried. I was cured by using Peterson's Ointment."—Mrs. J. C. Root, 237 Michigan Street, Buffalo, N. Y. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y. Willford Harrison or Sansbury Drug store will supply you.

### PAPE'S DIAPEPSIN

## Possession Time Is Here

### 'Autumn Apparel Is Needed for Comfort as Well as Style

Our stocks are at their fullest and best, just when public demands are greatest. The new season has developed many marvels of originality and beauty in Women's Apparel, and we have gathered fully from all best sources that were amenable to reason in the matter of prices.

Every section of our store is now making elaborate displays of the new finery. It is a genuine pleasure just to ramble thru the aisles and inspect the newest garments and fashionable accessories. But now that the newtime is here, and decisions are to be made, it will be gratifying to enjoy the prompt and efficient service we are prepared to render, as well as to be able to choose from such broad and complete assortments.

### Price Barriers Are Lowered on Much Fall Merchandise

We are not back to old low prices; but the trend has started back to sanity, and there is comfort and satisfaction in buying the necessities and luxuries of the new season without facing further price advances.

This Fall it becomes vastly more of a pleasure to show the new things, because price apologies are no longer required. This means greater pleasure for our customers, of course, for new things marked at fair prices will doubtless prove a pleasing novelty to most shoppers.

You'll be annoyed to see how many distinctively new varieties are here in the new French Kid Gloves in colors to match each individual suit or dress—both long and short, priced \$4.25 up to \$11.50

A very complete showing of Cape and Lamb Skin gauntlets for street and driving wear, priced \$3.50 to \$7.50

A very pretty showing of ladies Linen Handkerchiefs in plain and colors in dainty Irish lace trimmings and pretty maderia, priced 50c to \$2.50

A very complete line of leather bags in hand tooled and plain seal in the new styles and colors, priced reasonably, \$6.50 to \$29.50

New Beaded and Mesh Bags in new shapes and designs, priced \$6.50 to \$85.00

Gorgeous colors and pretty designs are embraced in the new beads which adds charm and style to any suit or dress. Priced from \$2.00 to \$25.00

A wonderful assortment of new Ribbons in Roman stripes, Grosgrain and Fancy Brocades for the new sashes and vests. Priced per yard from \$1.95 to \$13.50

Our showing of Neckwear embraces everything to be desired. New Lace and Satin Vests in white or ecru Lace, Organdie ororgette, satin frills for the new high effects in white and colors, dainty soft frills for the round necks. All reasonably priced.

Those charming Fur Chokers of Eastern Mink, Kolinsky, Hudson Bay Sable and Fox adds a lot of style to any person wearing just a plain suit or dress. They are priced very reasonably, \$19.50 to \$135.00

Here is Hosiery that every woman will appreciate. Our assortment comprises Lacey Hose for afternoon and evening wear, heavy Silk Hose with or without clocks for street and heather, Wool Hose for sport wear. All priced reasonably.

### Sweaters Have More Than One Purpose

No one can accuse the Autumn wardrobe of somberness if it includes a brilliantly colored sweater. One that is youthful in style and comfy enough for the cool weather soon due.

This showing embraces any number of beguiling styles from surplice Sweaters to Ripple, Tuxedo and heavily woven boyish modes; priced \$6.50 to \$29.50

### BLOUSES

To harmonize with the new suit shades in the overblouse, some tailored, beaded and embroidered in self and contrasting colors. Priced \$6.95 to \$45.00

"The Satisfactory Store"

### NEW STORIES OF OLD ENGLAND

(MOSTLY ABOUT WOMEN)

**LONDON.** (By Mail).—English women have quit gambling on dice, to put their hopes on the gee-gees. Astounding numbers of women have placed large bets with commission agents during the 1920 racing season and these bets come from extraordinary sources. A well-known bookmaker told the United Press that most of the large bets placed with him by women have been from those residing in quiet country villages.

"I think they are seeking some kind of excitement to lessen the tedium of country life," he said. "Many of them have taken it up only recently. They don't profess to know anything about horses—Form, pedigrees, jockeys and all those things which the male gambler studies so assiduously mean less than nothing to women."

"Usually a woman who bets a horse because of its name, and a woman will make her all on a 'coincidence tip.'"

He pointed out that, with usual feminine persistency, his own horse never put their money on the favorite. They don't want to hear which horse has the best chance of winning a race; they prefer talking the names of horses. One woman client came to him with a large sum of money to put on a horse called "Golden Guinea," explaining, "That's the name of my 'bride' wife of mine, and besides, it sounds like a money-maker!"

**Women in Embassies.**  
**LONDON.** (By Mail).—Lady Astor, M. P., is anxious that diplomatic posts should be open to women. This idea she shares with Mrs. Maudie Nathan, an American woman who was a delegate at the International Suffrage Convention held at Geneva.

Lady Astor and Mrs. Maudie Nathan met in London and agreed to use their influence to have women attaches appointed at the respective embassies. Mrs. Nathan has promised to use her good offices to bring about the appointment of a representative American woman to the office of the American Ambassador in London.

Lady Astor will urge that Sir Auckland Geddes should have a similar representative at the Embassy in Washington. Both feel strongly that the women of Britain and America should have a large place in international affairs.

**Heavy Women for Homes.**  
**LONDON.** (By Mail).—According to reports, the most popular song with the Chancellor of the Exchequer just now is "Widows are Wonderful!"

As a general rule, the marriage rate possesses very little direct interest for the Chancellor of the Exchequer, but Queen Chamberlain regards with special benignance the rapid remarriage of soldiers' widows.

Already about 15,000 widows' pensions have been withdrawn on account of remarriage, and the process continues at the rate of 2,000 a month.

Many declare that the popularity of widows in the marriage market is due to the housing shortage. Most widows have homes of their own, and—well, the inference is obvious.

**Nottingham.** (By Mail).—A Nottingham soldier, Arthur Jacklin, has played a cruel "hit for tat" on a girl who jilted him.

Two years ago, the couple were to have married, when the girl turned him down just before the wedding. Jacklin subsequently joined the Leicester Regiment and served in Flanders. Recently while in Leicester on leave he made up with his former sweetheart and the couple arranged to be married. The wedding day arrived, but only the bride turned up at the

church, with her friends. Jacklin and his parents failed to put in an appearance and it subsequently ensued that Jacklin had deliberately laid this plot in order to "get his own back." He is now on his way to India.

**King as Grape Merchant.**  
**LONDON.** (By Mail).—His Majesty King George has done a roaring trade as fruit seller.

So great has been the demand for the King's grapes from the almoner at Hampton Court Palace, which H. M. Office of Works announced would for the first time, be sold this year to the public, that the greater part of this year's crop of 400 bunches has been disposed of.

The grapes were offered to the public at 1/25 a pound, in baskets made by blind soldiers at St. Dunstan's Hotel. So many orders were received by telephone, mail, and telegram that the crop could have been disposed of over his majesty's table.

During the year the grapes were distributed by the King among the wounded soldiers in various hospitals, but before that they were always reserved for his majesty's table.

**Mother of Sixteen.**  
**LONDON.** (By Mail).—Lady Bonham Carter has had sixteen requests to stand for Parliament, but cannot make up her mind.

Mrs. Aquith, her stepmother, describes Lady Bonham Carter in her memoirs as "a real politician and a 'set mother'" and that a reputation entering Parliament this year personally keeps her in a state of perplexity.

"What does it profit a woman," she asks, "if she gains the whole world and loses her own child?"

**Island for Drug Addicts.**  
**SAN FRANCISCO.** Oct. 15.—Establishment of an isolation hospital on the island of San Clemente off the Los Angeles coast, California, coast, for the treatment and cure, if possible, of drug addicts, is the plan suggested by California social workers.

**ADDITIONAL REVENUE IS NECESSARY TO MAINTAIN TRASH MOVING SERVICE**

The sanitary department desires to call the attention of the residents to the garbage and trash removal service which the city is giving to the residence district.

When this service was started it was anticipated that there would be at least a thousand residences which

**Keep Your Blood Pure Nature Will Do the Rest**

Did you know that ninety per cent of all human ailments depend upon the condition of your blood? Nature gives her warnings in various unmistakable ways, so that when the appetite fails, and you become weak and listless and a general run-down condition seems to take possession of the whole body, it is an unerring sign that impurities will steadily accumulate until your general health will be seriously affected. You should recognize the importance, therefore, of very promptly "cleaning out" the system, and keeping the blood supply pure and robust.

Get a bottle of S. S. S. at your druggist to day, and soon have promptly it builds up the appetite and gives new strength and vitality. Write for free literature and medical advice to Chief Medical Adviser, 153 Swift Laboratory, Atlanta, Ga.

would use the service, and the cost of the service was figured on that basis. It was estimated that the service would be made self-sustaining on a minimum charge of twenty-five cents per visit providing one thousand subscribers were obtained.

The service was started in May with less than fifty applicants and has gradually increased to two hundred and twenty-three (223) for September. The revenue for last month from this source was \$181.50 and the expense for the labor alone was \$492.

Since there has not been any special tax applied to cover this particular service it will be necessary for the department to either secure enough additional subscribers or increase the price to the present subscribers to place the service on a self-maintaining basis.

The service will be rendered as cheaply as possible whether it is maintained on the fee system or cared for by taxation, but for the present the fee system will have to be used and it is urgently requested that all who are not subscribers but desire the service will call phone 5915 and make the necessary arrangements.

Don't run the risk of having your valuables stolen or destroyed by fire. Deposit your important papers, jewelry, etc. in the vaults of the City National Bank of Commerce which are equipped with the most approved burglar alarm system, and afford absolute protection against loss.

**"CORNS"**

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little Freestone on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of Freestone for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callus, without soreness or irritation.

# Our Prices Cut to the Bone

Our Fall selling campaign is now on in full blast. This week we are giving bargains that will make the Ladies, Misses, Children and Boys of Wichita Falls talk, also Dad, for we make it light on his pocketbook. We are not putting on a sale for this event, for we have cut our prices according to today's market prices. Come to the basement, it is a few steps further, but we can make it worth the difference. This includes everything in our entire stock.

## Suit Bargains

Our specials in Suits went so big last week we are going to offer new lots at the same prices. They range in three lots, **\$26.95, \$37.85 and \$49.85**. We have the biggest bargains in Suits in this section of the state. They are not junk, every Suit strictly new, all wool, silk lined.

### The Classiest Line of Coats in Town

In Velours, Bolivias, Yalamas, Plushes and Sport materials. In fact, every desired material. Sizes from 16 to 50. Prices **\$16.95 to \$54.95**. Over 200 to select from.

# The CHENEY

## What Seat do you Prefer at the Opera?

When you sit close to the stage you hear the music in its full volume. As you move away, you lose none of its beauty, richness and expression—it is just as clear, but its intensity is softened.

You will secure the same effect with the tone control of THE CHENEY. You can enjoy each selection exactly as you would most prefer to hear it in the theatre. Because of this wonderful advantage, THE CHENEY is the perfect instrument for bringing grand opera, lighter opera and all music into your home.

**Twelve Volumes of Tone in THE CHENEY**

At the very point where the tone originates, it is controlled in volume by regulating the intensity. Before you hear a note you can set THE CHENEY automatically to play exactly as you wish, by means of the needle adjuster and four sizes of Cheney needles.

Let us show you how THE CHENEY's reproducer, the tone arm, acoustic throat, orchestral chambers and violin resonator also increase the charm of its music. If you cannot call, send the coupon for the interesting CHENEY booklet.

### At the Churches Today

**First Baptist Church.**  
Sunday school, 10 a. m. We are working for a thousand in the Sunday school by the time we go into the new church building. Our slogan is every member of the church a member of the Sunday school. Sunday morning at 11 o'clock hour my text will be "A Little Further." We want to make this a day of earnest prayer for the success of the second annual lap in the 75 Million Campaign, and also a day counting much toward the triumph of our new church building. There will be no offering taken at that time for either object, but we want to all face the situation and prepare ourselves to go on to the end of the great achievement. We earnestly desire that every church member be present, and that you from now until then pray for the success of this program. At 7:30 p. m. I will continue the series of sermons on the great fundamental doctrine of salvation. Sunday evening I will answer the question, "What must I do to be saved." We are having great crowds to attend upon these services. We give you a cordial welcome to come and bring your friends.  
O. L. POWERS, Pastor.

**Church of the Good Shepherd.**  
(Episcopal.)  
Holy communion, 8 a. m. Sunday school, 9:45 a. m. Graded classes for all. A splendid adult class where the lesson is discussed in its bearings toward modern problems. Come. Morning service, 11 o'clock. Evening service, 7:30 o'clock. "The Compassion of Christ." Splendid choir, a vital message and a hearty welcome. Evening service, 7:45 o'clock. A service that you will enjoy if you attend. The church is open every day for rest and prayer and meditation.  
FRED T. DATSON, Rector.

**First Presbyterian Church.**  
Miss Teresa Venable will sing at both hours. The pastor will preach. Subject of morning sermon: "The Compassion of Christ." Evening: "Wearing the Girdle." The hour for evening worship will be 7:30 o'clock. The elders and trustees will meet following the service to nominate officers. Next Sunday there will be a congregational service to elect officers.  
N. F. GRANTON, Pastor.

**Federal Heights Baptist Church.**  
Tenth and Kemp. Sunday school at 9:45 a. m. Charles H. Smoot, superintendent. Preaching by pastor at 11 a. m. and 7:30 p. m. Sunbeams at 4

p. m. Junior B. Y. F. U. at 8:30 p. m. Senior B. Y. F. U. at 8:15 p. m. Bible class on Tuesday, 7:30 p. m. Boy Scouts Friday at 7:30 p. m. Everybody welcome; good fellowship for all; the Gospel of the Crucified for the masses. The pastor regretted to be absent last Sunday, but will be present for Sunday, the 17th.  
J. W. LOVING, Pastor.

**Five Christian Church.**  
Bible school, 9:30 a. m. Morning worship with sermon, 10:30 a. m. Special service by Young People's Society of Christian Endeavor, 7:30 p. m. A cordial invitation is extended to all visitors in the city to worship with us. Mr. Morrison of Haskell, Texas, will speak at the morning service. The evening service will be a special program of the young people of the church. Mr. Blalock of Fort Worth, president of the Fort Worth Christian Endeavor Union, will speak. A cordial invitation extended to all.  
J. LEM KEEVIL, Pastor.

**Federal Heights Methodist.**  
Every service planned to be an inspiration and a help to all. Sunday school, Epworth League and good Gospel sermons. You will like our people. Begin now to worship with us.  
W. L. TITTLE.

**I. O. O. F. hall, Swartz-Wood building, 403 Scott avenue.** Sunday school, 9:45 a. m. Lesson sermon, 11 a. m. Subject, "Doctrine of Atonement." Testimonial meeting, 8 o'clock Sunday evening. The public is cordially invited to attend these services; pupils up to the age of 20 years are welcome to the Sunday school.

**International Bible Students Association.**  
Will meet at Labor Temple, 703 Travis, room 10 to study "The Priesthood" at 10:30 a. m. and at 7 p. m. to study "The Atonement." You are welcome to study with us; bring your Bibles.

**Lutheran Trinity Church.**  
Corner Fourteenth and Bluff streets. Sunday, October 17: Regular Sunday school at 9:30 a. m. The English-German morning service begins at 10:30. Subject of English sermon, "Lead Us Not Into Temptation." Subject of German sermon, "The Wedding Garment." Don't miss this service. Our Ladies' Aid members will have a

meeting after morning service. New members are welcome. No night service as the pastor is taking part in a mission festival at Seymour.  
W. UTESCH, Pastor.

**Church of Christ.**  
Corner Bluff and Eleventh—Bible school at 9:45 a. m. Preaching at 11:00 a. m. and 7:15 p. m. by the minister, J. Early Aronson.

**New Thought Service.**  
Everyone is cordially invited to the New Thought services held Sunday and Wednesday evenings, 7:30 o'clock at 704 Travis street. Subject Sunday evening, "Following Jesus."

**Evangelical Church.**  
Corner Fifteenth and Broad—Officers and teachers meet at 9:45 for prayer. Sunday school at 10:30 a. m. Preaching at 11:00 a. m. by our presiding elder, Rev. L. Newman, of Houston, Texas. Communion services will be held in connection with the morning service. Junior Y. F. U. at 8:00 p. m.; Miss Mahler presides. Senior Y. F. U. at 7:00 p. m.; leader for evening, Miss Juanita Heppner. Subject, "Christian Principles in Politics." We urge all members to take part in this subject. Preaching at 8:00 p. m. Bishop H. G. Helmiller from Cleveland will preach in the church at Fifteenth and Broad Tuesday night, the 19th, 7:30 p. m. Be sure to hear him. Prayer meeting at 7:30 Wednesday night. You are cordially invited to attend all of these services.  
GEO. L. TRADANT, Pastor.

**LOCAL CITIZENS INVITED TO ATTEND BANQUET FOR PROMINENT OIL MEN**  
Letters were received Saturday by several prominent Wichita Falls citizens asking them to be the guests of the Mid-Continent Oil and Gas Association, Texas-Louisiana division, at a banquet in the Wichita Club on Saturday evening, October 23. The letters were mailed by Howard Bennette, secretary, from the Dallas headquarters of the association.

The Texas-Louisiana division of the association, of which Mayor W. D. Cline of this city is president, will hold its annual membership meeting in Wichita Falls on the date mentioned. It is expected that more than 300 visiting oil men from every section of this state and Louisiana will be present.

Winter's coming. Window glass put in by Decorators Co. Phone 1318. 145-208.

### BYERS COTTON CROP TURNING OUT WELL

Yield is Various Estimated At Three-Fourths To A Bale Per Acre.

**BYERS, TEXAS, Oct. 16.**—The cotton crop in this region is very satisfactory though if frosts come early it will probably not be as heavy as last year's crop. With suitable weather conditions, however, it may even exceed the crop of 1919. The grade of the cotton is much above that of ordinary years so that notwithstanding the lowering of prices and the possibility of curtailment by an early freeze the money value should be as great as that of last year.

The cotton growers' association is advising against the pulling of bolls, and this advice is being followed to the very noticeable improvement of the grades.

The crop is variously estimated at from three-fourths of a bale to a bale per acre and would have been heavier but for boll worms and wet weather. Fisk Ballington has already picked four bales from six acres, and expects his

crop to average considerably over a bale to the acre. Old residents declare that the crop reminds them of the bumper crop of 1906. It is said that not a cotton farm in the region will produce this year less than one-half bale per acre. The two gins here have ginned thus far over 300 bales of the new crop.

**Average is Reduced.**  
The acreage of all grains is less than usual but the yield has been good. Wheat has, on many farms, made over 40 bushels to the acre, whereas in average years it makes 30 bushels.

Much of the corn has yielded 60 bushels per acre though in average seasons it makes 40 bushels and some of the best fields have yielded over 100 bushels per acre as against 85 bushels in average years.

Wheat is practically all marketed but farmers are holding much of their cotton and nearly all their corn. Much of the oats also are still in the bins of the farmers.

Kaifly worn, milo maize and sorghum crops are exceedingly satisfactory, and none of the grain crops have been

other than benefited by the season's conditions.

The farmers are much in need of hogs but none can be gotten save by shipping in from a distance and this they fear to do on account of the prevalence of hog cholera and the danger of the animals contracting the disease en route from infected cars and stock pens. There is some cholera in this vicinity, also.

The lessened acreage this year as compared with other years was due to lack of labor and wet weather at planting time.

### PLAN TO ENTERTAIN QUARTERLY CONFERENCE OF EPWORTH LEAGUE

Preparations are being made by local Epworth League workers of the various Methodist churches for the second quarterly conference of the Wichita Falls district Epworth League. All sessions of the conference will be held at the First Metho-

dist Church, South, and will be presided over by the officers of the conference.

The first meeting will be held Friday night, October 22, and will be followed on Saturday evening by the feature of the entire conference, a big banquet to be served in the church dining rooms by the ladies of the local League. The concluding session will be held Sunday afternoon.

Among the prominent League officials who are expected to be in Wichita Falls for the conference are Mr. E. O. Harbin, field secretary, who will come here from the central office at Nashville, and Mr. C. T. Doan of Dallas, who is president of the North Texas Conference. A number of other prominent workers in this section are also expected to attend.

Delegates from out-of-town will be entertained in the homes of local League members during their stay in this city.

the new two-tones and jacquard effects, finished with two pockets and heavy fringe. Wonderful values at our regular prices of \$9.00 to \$25.00, may be bought this week at

**\$7.20 to \$20.00**

**A Good Store to Tie To**

This was the first store to reduce prices. No half-way measures here. We made a sweeping reduction of 20 per cent on the entire stock; not a single item was reserved, and this was done, too, after we had made radical reductions to conform with all wholesale reductions in prices.

YOU CAN COME TO THIS STORE with the full assurance that you will not be asked to pay more than quality merchandise can be bought for elsewhere; and you get back one dollar out of every five spent here.

YOU SHOULD VISIT THE STORE EVERY DAY. See the beautiful La Porte Woolens in the dress goods section. America's finest Dress goods in all the good new fabrics for Dresses, Suits, Skirts. Right from the looms to this store—the best values in the best dress goods you'll find. ALL AT REDUCED PRICES—and you save an additional one-fifth this week.

MAKE THE MOST OF THE 20 PER CENT DISCOUNT SALE—during this, the closing week. Buy your Staple Dry-Goods, for there you will find the better lines of Dress Goods, Gingham, Percales, Muslin, Outing, Sheetting, Table Linens and Draperies; nothing but dependable merchandise in this store, and you will find our prices on quality merchandise just as cheap as other good stores, and you save an addition one-fifth. But this is the last week of the 20 per cent Discount.

o o o

**Ever See Imperial Outing?**

It's the best good outing made. An ideal fabric for gowns and pajamas. It's the kind of material you will be glad to make up, for one garment will outwear three made of the ordinary quality. Sold in city stores at 65c per yard. We marked it 40c for our special values—one-fifth off brings it down to 32c—and you will thank us to direct your attention to this unusual quality.

Dainty Draperies For Fall. As well as the good warm drapery fabrics are here. Famous Colonial and Canterbury fabrics. Buy this week—get the best values in good draperies and save one-fifth.

o o o

**November Patterns Are Ready**

The biggest stock of Pictorial patterns in North Texas is here to serve you.

You can't afford to experiment by cutting up valuable material with unknown patterns—patterns too, are sold at one-fifth less.

**This Week Another Interesting Millinery Event**

Fifty beautiful Pattern Hats fresh from Frankel-Franks, representing the newest in artistic Winter Millinery. They fairly sparkle—these smart Hats designed for all the pleasant activities of winter. New models Soliel, Velvet, Duvetyn, Felt and Hatter's Plush in all the gayest rainbow shades.

Hats that would sell in the regular way at \$15.00 to \$35.00, but owing to the fortunate saving in purchase were marked to sell quickly at from \$10.00 to \$25.00, but you save an additional fifth this week—buy them from \$8.00 to \$20.00.

These beautiful Hats are worth double the prices at which you can buy them this week. Come early, come while you can have unrestricted choice of the entire collection.

**Last Week to Save One-Fifth on Corsets**

All the new models, all the best Corset fabrics, in two of America's greatest Corsets are here. All the wanted sizes, all the better models.

## Capacity Houses to Hear Production of Opera 'Robin Hood'

"Robin Hood," that folkloric comic opera by the greatest of all American composers, Reginald DeKoven, is exciting more interest in Wichita Falls than any theatrical production which has been billed to appear here in a long time. This interest does not seem to be altogether local however, for Manager Croble is in receipt of telegrams from some half dozen theatres in the vicinity, all of which are told in their praise of the production and which tell of unprecedented throngs to view the opera. Ralph Dunbar, the producer of the play is making an extensive tour of the south with his famous production and in Little Rock, Memphis, Birmingham, Oklahoma City, New Orleans and various other cities has been received with acclaim.

Although the famous story of Robin Hood and His Merry Men has been read in millions of homes a synopsis of the story as it will be enacted on the stage is given for the benefit of those whose memory needs refreshing.

**Prologue on King's Preserve.**  
Robin Hood is a happy peasant, earning his living by poaching on the king's preserve. He incurred the enmity of the game keepers who tried hard to capture him. Finally they dared him to try a shot at long range with his bow and arrow at a deer. They told him that he could not hit it. Robin shot and the deer fell, which caused one of the game keepers to attempt to arrest him. In the fight that followed the king's minion was killed and Robin Hood was forced to flee deep into the forest of Sherwood to hide.

Gradually he became an outlaw, and gathering about him a hundred fearless men he commenced to rob and rob the rich, while at the same time protecting and caring for the poor and oppressed. In the execution of all of his noble actions he was courteous and gentlemanly, so that in time the nobility came to consider it a privilege to be molested by this prince of thieves.

The manner in which Robin continually tells the efforts of the king's men to capture him and the ultimate end to which he is brought graphically portrayed by words and music.

**Sherman as Robin Hood.**  
In the Dunbar revival the role of Robin Hood is taken by Arthur Sherman, who has gained fame in the theatrical world by his work in "The Chocolate Soldier" and "Watch Your Step." The sheriff of Nottingham is played by a famous operatic comedian and the role of Sir Guy of Gisborne is taken by Rudolph Ketch who had a leading role in the stage success "Madame Butterfly." Little John is played by Raymond Hunter, soloist of the Huguenot Memorial church and later of the New York Hippodrome. Friar Tuck, the pious spiritual advisor of Robin's band, and who is one of the high lights of the play is handled by John MacGraw, originally in the role of a famous operatic comedian, Gertrude Dallas, recently leading lady in David Belasco's "The Thief," and later with Mitzel in "Head Over Heels." The role of Alice, the Duke and the part of Maid Marian is played by Clara Campbell, leading lady in "The Chocolate Soldier."

**Stage Features.**  
There are scores of pretty songs in the famous opera, and all of them are among the popular favorites in the musical world. The beautiful yet humorous dance chorus "A Merry Dance You Must Entrance" appeared in the first act and is followed by a characteristic solo by "Tuck's Song," which was popular. "The Merry Maidens" is offered by the sacrilegious Tuck. The sheriff butts in with a buffo bass solo "I Am the Sheriff of Nottingham's Town," at the conclusion of Tuck's performance.

"O Promise Me," rendered by Allan-A-Dale is one of the feature songs of the opera. Then there is the rollicking song "Let Hammer On Avell Ring" and following this comes Little John's unctuous apostrophe to the put-upon king "And It's You Quaff With Me My Lad."

All of the songs are greatly enhanced by the special orchestra which is carried by the company on all of their tours.

**ELAINE HAMMERSTEIN HAS CHOROPHEL ROLE IN NEW DRAMA**  
"It all depends on where you sit," is an old saying which most aptly describes Elaine Hammerstein's latest Selznick picture, "The Point of View," which is announced as the headline attraction at the Majestic theater next Monday and Tuesday.

Miss Hammerstein is seen in this production as the daughter of a once wealthy father. The girl is the only practical member of a family who never had to provide for themselves, and who consequently are completely lost when adversity strikes them. Hence the Thorncroft family have always looked down upon anyone not born of the blood, but their point of view is changed by a big hearted young westerner who nobly combats them to them that when a friend is needed it is red blood that counts far more than blue.

"The Point of View" is one of those "common sense" pictures that avoids all extremes of theatricalism and puts over its point by the real true-to-life situations it depicts. The story is by Edith Ellis and Alan Crosland directed the picture.

Rockliffe Fellows, Arthur Housman, Hugh Huntley, Cornish Beck and Warren Cook are among those who support Miss Hammerstein in this fine screen play.

**Notice to Wichita Club Members.**  
The Sunday entertainments will be discontinued until further notice.

**Stops Children's Colds**  
Applied to chest, neck and nostrils. Nothing better.

Cooke and Valdez in "The Yerratic Girl and the Huck Fin."  
Black and O'Donnell in "The Violinist and the Book."  
Whipple Huston and Company in "Shoes."  
Billy Beard in "The Party from the South."  
Danole Sisters in "Dances."

**ETHEL CLAYTON IS EMPRESS ATTRACTION FOR TWO DAYS**  
The famous Kate Jordan story, "A City Sparrow," has been adapted for the screen and is to be offered at the Empress on Monday and Tuesday as the feature attraction. Ethel Clayton has been given the title role and is said to have secured one of the greatest successes of her career in the production.

"A City Sparrow" is one of those pictures dealing with the delicate situation regarding home building and its attendant duties. It is the type of picture that is interesting to view and which points a worthy moral, but which at the same time is hard to write about and advertise in suitable fashion.

The film presents Miss Clayton in the role of Miss Clayton, a vaudeville dancer who is seriously injured in an automobile accident. She eventually recovers, but is told by her physician that she can never become a mother. Soon after this a romance develops between the one time chorus girl and a wealthy countryman. It progresses rapidly and terminates in the engagement of the two.

However, this is soon broken off by the girl, for she becomes aware of the fact that her future hubby is actually in love with children, so she hands back the ring and bikes for the bright lights of the city. It's easy to see why she does this.

ELAINE HAMMERSTEIN IN "THE POINT OF VIEW" SELZNICK PICTURES

guess the rest. Working on the assumption that he was already boss of the intended alliance he builds and furnishes a bungalow which is to serve as the future domicile of he and his bride. Said bride-to-be, however, rebels at a mere bungalow and after a stormy argument returns to her mama in the city. The bereaved hubby finds solace in caring for the three children of a neighbor who is forced to leave the city for a short time, and one night, while making taffy for the kids, he waxes the taffy pan on his head and soon transforms the kitchen into a "mess."

While cleaning up this mess the mother of the three children returns to take them home, but as she is leaving Ray's girl comes back and finds the whole quartet in the home which was to have been hers.

Complications result, as would be expected, and are only straightened out after a wild chase and wilder explanations. In the end the play comes out with a happy ending, as is always the case, and the contending factions are reunited in perfect harmony. Included in the case which supports Mr. Ray are Ethel Shannon in role of a recalcitrant bride-elect, Grace Morris as the mother who precipitates the main fireworks and Alfred Allen in the part of Dr. Graves, who finally restores order to the disrupted household.

The City National Bank of Commerce has established a record for reliability because in the conducting of its business—safety and the best interests of its customers—are invariably placed ahead of every other consideration.

**CHARLES RAY COMING IN "AN OLD FASHIONED BOY"**  
Charles Ray in "An Old Fashioned Boy" is being offered by the Olympic as the feature attraction for the first two days of this week, which also means that these two days will probably be the most popular of the point of attendance and satisfaction.

This rural comedian is without a peer in his line of work, and he has brought the wholesome humor of the country before the American public in a far more forceful fashion, than has ever been done by the myriad authors and allegorists who write of the greenhorns fresh from the country and of the other more or less comic incidents which live and have their being away from the hurry and bustle of city life.

"An Old Fashioned Boy" is exactly what its name implies. Mr. Ray brings given the role of an old fashioned country-jake who doesn't know us from down about city ways, but who for all that is more of a man than a lot of metropolitan duds, who would run through a lame kitten when it growled.

In addition to the country humor provided a complicated diagnostic situation arises which offers more perplexing problems for solution than the next president of the United States will have to solve. Ray appears as the beautiful sweetheart of a society girl

**Reel Chatter**  
By JEAN DARNELL

Johnny Jones, 12-year-old actor who plays the leading role in Goldwyn's Heath Tarkington Edgar comedies, first played girl roles. His five-year-old sister, Virginia, who is playing her first part in support of Johnny, is impersonating a boy.

Charlie Chaplin has announced, according to dispatches from New York, that he is through with California and will henceforth consider his home New York City. Charlie's jokes are not to be laughed at.

Nazimova will, if rumor can be credited, produce "Aphrodite" in Hollywood instead of New York, as previously announced. Miss shot. Rather cool in New York to produce "Aphrodite," whose wardrobe wouldn't hang on a wire.

Naomi Childers is very sensitive to colors. If there is a jarring note in her costume she cannot act.

Frank Mays was invited to a wedding anniversary, and desiring to take something appropriate for the occasion, carried a bottle of wood alcohol.

Mr. and Mrs. Beusse Hayakawa, upon completion of "East is East," will journey to Chicago to be present at the first Japanese playlet to be presented.

**CASCARETS**  
"They Work while you Sleep"

Do you feel all untruss, bilious, constipated, headachy, full of cold, Cascarets tonight for your liver and bowels will have you tuned up by to-morrow. You will wake up with head clear, stomach right, breath sweet, skin rosy. No grunting—no inconvenience. Children love Cascarets, too. 16, 25, 50 cents.—(adv.)

### DOZEN NEW WELLS REPORTED FROM THE NORTHWEST FIELD

**BURKBURNETT WONDER POOL WELL IS CREDITED WITH BEING LARGEST PRODUCER.**

#### PRINCIPAL INTEREST IN BISSONNET-CEZEAU TEST

Located On Parkey Ranch About Twenty Miles Southwest Of Wichita Falls.

The Bissonnet-CezEAU test which gave a good indication of oil a week ago on the Parkey ranch about 20 miles southwest of the city, is still the principal topic of conversation among the oil fraternity about town. The well has not yet been completed, however, owing to the fact that considerable difficulty has been experienced with salt water. The size of the well is still a matter of conjecture.

An even dozen new wells were brought in in the Northwest Extension a week ago, the biggest producer being that of the Burburnett Wonder Pool Oil company, on the Vogel which came in at about 125 barrels at a depth of 1800 feet. The next inside were No. 2 Michna of the Kansas & Gulf company and the No. 11 Schuler of the Langford, Staley and Chasault company, which came in at about 45 barrels each at depths of 1849 and 1840 feet respectively. Wells averaging about 50 barrels were brought in by C. F. Noble and the North Texas Oil & Gas company, on the Vogel and the Margay Oil company's No. 19 Waggoner showed about 50 barrels at 1639 feet. A showing of 40 barrels was reported by the Barkley and Meadows company at their No. 1 and No. 2 respectively at depths of about 1775 feet while the same amount was reported by the HB and ME Drilling company on the No. 2 Vogel and Russell Sanderson on the No. 3 Vogel. Flynn et al and the Wickruff Oil company brought in 33 barrel wells on the Vogel lease.

Report 65-Barrel Well. The Penn-Tex Oil company abandoned their No. 1 Myers in the old field after there was no showing at a depth

of 2000 feet. A 65-barrel well was reported on the No. 2 Hamming-A by the Langford, Staley and Chasault company at a depth of about 1725 feet. In the Love Park district locations were abandoned by the Texas Chief Oil company and the Gwynn and Allen Oil company on the Munger.

The largest producer reported was No. 4 Kemp and Komper of the Bear Stone company, which came in at a depth of 1750 feet showing about 125 barrels. The following 40 barrel wells at an average depth of 1760 feet were reported: Texoma Oil & Refining company, No. 5 Munger; Walker Consolidated Petroleum company, No. 1 Ferguson; Waggoner and Greene, No. 4 Munger; Panhandle Refining company, No. 3 Munger-4; Haynes, Art. Cannon, Crawford No. 3 Munger.

The Magnolia Petroleum company brought in their No. 28 Piper at about 1780 feet showing about 100 barrels. That was the only producer reported for Wilbarger county.

Three new wells were brought in during the past week in the Electra field and two locations were reported. The Barr-Davis No. 5 Burnett was brought in at a depth of 810 feet showing about 75 barrels and the Gladstone No. 3 on the Burnett came in showing about 100 barrels at 840 feet. The Stuart Petroleum's Burnett No. 4 was brought in at the same depth swabbing about 110 barrels.

The Texas Superior company has a new location about 300 feet west of their No. 5 while the Gulf Production company began operations on their No. 5 on the Grace Jennings.

The Deason No. 5 was brought in by the Gulf in the Texoma field Friday showing about 50 barrels at a depth of 1275 feet. The same company was drilling into the sand at 1600 feet on the Johanna-Micha, No. 10 in the Northwest Extension yesterday. Preparations to abandon their No. 3 well on the G. W. Chapman in the old field were being made. Casing was being pulled at 1745 feet. Casing was set and cemented at a

depth of 2015 feet on the 100 on their No. 1 George No. 1 in Wilbarger county near Vernon, but there was no showing at the 2047-foot mark.

The Doris Cameron, No. 4 on the Foster and the Greene, Waggoner No. 1, on the Ferguson in West Clara were both abandoned at a depth of about 1900 feet. The Staley, Langford and Chasault company brought in their No. 10 well in the Hamming pool at a depth of 1700 feet showing about 150 barrels.

No producing wildcat completions in and around Wichita county were reported during the week.

### AN INTERESTING PEN PICTURE OF COUNTY IN VOLUME OF 1858

TELLS OF CONDITIONS AS THEY WERE SUPPOSED TO EXIST AT THAT TIME.

PUBLISHED BEFORE THE COUNTY WAS ORGANIZED

Product Of a Land Agent at Austin Possessed Of a Vivid Imagination.

By JOHN GOULD.

An interesting pen-picture of what is now Wichita county, as it appeared in the year 1858, is contained in a volume published in that year, a copy of which has recently come to light here. The volume was published by a land agent at Austin, and contains much about this section and about the state as a whole, that is quite readable, considering later events.

The book was published before Wichita county had even been laid off and created, and over 20 years before the county was organized, but northwest Texas, despite its lack of human inhabitants, presented possibilities that the land agent wanted to pass on.

"The Big Wichita is a stream of sufficient size to be navigated by small steamers; and such, we doubt not, will one day be the case," says the book.

Boy, page Hubert Harrison! Here

we are on the banks of a navigable stream and not doing a thing about it. Emphasized as Part.

The hopeful prediction of the real estate man was not less optimistic than some of the literature actually used in advertising Wichita Falls in later years. When this city was first laid out, vast efforts were being made to attract settlers, one boomster had some large posters printed, picturing a steamboat at a wharf, and if the accompanying legend did not actually say that Wichita Falls was a port of entry, it certainly tended to give that impression.

In other particulars, the author did not think so much of the Big Wichita. He told of its crookedness and of the gyp-water with which it flowed. He waxed quite enthusiastic about the Little Wichita, however, and seemed to think highly of the agricultural possibilities of the Little Wichita country. But he had much else to say of the vicinity of the mouth of the Big Wichita. Witness:

**Grew Many Varieties.**

"Side by side you can grow cotton and wheat. Tobacco, barley, flax, hemp and upland rice, we are satisfied, can be successfully raised."

And not only all that, but—

"A species of the vanilla bean grows wild here. Why cannot this fact induce someone to pay attention to its cultivation?"

The author was frank enough to set forth that the then chief attraction of this section was in its opportunities as a hunting ground. Buffalo, deer, bear and the peccary, or Mexican hog, abounded, according to the book.

All through the volume the real estate agent, after the manner of his kind, was building paper railroads, and he did not slight northwest Texas at all in this regard.

An interesting bit of mining information also appeared in connection with the Wichita country.

**Mining Information.**

"A specimen of copper ore obtained from lands owned by Eabel Gilbert, Esq., situated near the mouth of the Big Wichita, has been assayed for us by J. R. Chilton, a celebrated practical chemist of New York city, and found

to contain 15 per cent of pure copper. Not many years ago an effort was made by Colorado parties to develop the copper "outcrop" in Red river, but it is understood the ore was not found present in sufficient quantities to justify the elaborate machinery required to handle it.

The volume, which is entitled simply "Texas" and which was apparently prepared for distribution among possible immigrants to this state, furnishes many interesting side-lights upon the Texas of 1858. That was just before the Civil War, and although the book contains not a hint of the impending struggle, it does have quite a bit to say about slavery. One excerpt follows:

**Slavery Guaranteed.**

"By a wise provision of the state constitution, the institution of slavery has been guaranteed to Texas. Such being the case, Texans are proverbially jealous of this right, and will not allow any interference with the subject, directly or indirectly. This, of course, is right; for although slavery does exist through the whole extent of Texas, and maintained over slaves, nor even employ them, except as he finds it to his interest. All that is asked of the non-slaveholder is that he shall possess the even tenor of his way, mind his own business, and leave his neighbors to attend to their own affairs. It would be well for all strangers visiting a new country to attend to it."

The book shows that there were 125,000 slaves in Texas in 1857, valued at over \$1,000,000, or an average of about \$7.50 per slave. They constituted the most valuable class of property in Texas at that time, for all the farm land rendered was valued at less than \$7,000,000, town lots at \$1,137, horses at \$1,500,000 and cattle at \$1,516,000. The total assessed rendition for all Texas property was short of \$25,000,000 in 1857.

**Another Sharp Hint.**

The above rather sharp hint to abolitionists is not to come this way is also handed to some other classes of folks. The volume says:

"To the professional man, we say that neither doctors or lawyers are

wanted; we already have a sufficient stock." There is an intimation that if some of the legal and medical lights already arrived had not turned farmers, they would be hungry.

Short and emphatic is the warning to another class:

"To politicians, we say, remain where you are; we have no room for you."

One bit of history, with which the average student may not be familiar, is the story of the narrow margin by which Texas was admitted to statehood. The annexation measure passed the United States senate by one vote, the deciding vote being that of Senator Hannegan of Indiana. When Senator Hannegan was elected by the Indiana legislature, his majority was one vote, the deciding ballot being cast by Representative Marsh, who, in winning the legislative loss, receiving a majority of a single vote over his opponent.

**Optimistic in Nature.**

The optimistic nature of the book's author has already been cited and crops out again and again throughout the volume. He certainly recommended Texas highly, and left nothing out that might attract a settler. One chapter is devoted to the possibilities of Spanish moss in the manufacture of mattresses and print-paper. Moss has been used for mattresses to a limited extent in other parts of the South, but hasn't proven altogether satisfactory, as the vegetable matter is too popular with insects. The paper-pulp possibilities of moss have never been tried, and present-day sufferers from newspaper shortages may have the hint for what it is worth.

Water-power opportunities on Texas streams are also dealt upon at length, special reference being made to the possibilities of the Santa Fe river (now called San Marcos); this was no idle dream, for along that river today a number of cotton gins are being operated by water power.

**Range of Temperatures.**

The volume contains a table showing the range of temperature during the year, as taken at Austin; here, also, the author is rather optimistic, indicating that the summers are decidedly more balmy and the winters much more element than in the case.

Plenty of paper railroads are mapped

in the book, but transportation depended largely on stage coaches, with which the state seemed well supplied. Points reached by regular routes included Austin, San Antonio, Galveston, Houston, Haysville, Columbus, Nacogoches, Indianola, Paris, Elkhart, Waxahatchie, Clarksville, Waco, Georgetown and a number of towns that have ceased to exist. Stage coach travel cost 20 cents a mile, on an average, over the regularly operating routes.

Railroads actually built included the Houston & Texas Central, then completed from Houston to Hempstead and projected as far north as Red river. The town of Preston was given as the proposed Red river terminus. The

Memphis, St. Paul & Pacific was also under construction, but had not gone far; it eventually became the Texas & Pacific. One or two other short lines in south Texas were under construction in 1857.

Educational opportunities were few in Texas at that time, but they were reasonable enough. One "seminary" advertised board, lodging, washing, light and fuel, \$11 per month; tuition, \$4 per month; drawing, painting and embroidery, \$5 extra. The only familiar name among the schools is that of Baylor university, then located at Independence, Washington county.

Many of the volume's predictions Time has proven false; many others

have been proven far ahead of the actual. The City National Bank of Commerce has established a record for reliability because in the conducting of its business—safety and the best interests of its customers—are invariably placed ahead of every other consideration.

Total Resources of more than Twenty Million Dollars, and the fact that the City National Bank of Commerce is the largest in west Texas indicates the important position which this institution occupies in the community. 177-178

NEWS FROM THE COURTS

FEDERAL COURT TO RECONVENE MONDAY

Number Of Cases Already Assigned For Trial Will First Be Taken Up By Judge.

Federal court in Wichita county will reconvene Monday morning with Judge Robert T. Ervin of Mobile, Ala., on the bench. The judge will open court at 10 o'clock. Cases which were set while the judge was holding court here three weeks ago will be tried according to the date of setting.

It is believed that the judge will call the docket the first thing Monday morning and other cases will be set for trial.

United States District Attorney R. E. Taylor will attend court one or possibly two days, and Chief Deputy United States Marshal W. P. Stokes will also be in attendance at the court.

The cases that have been set for trial and the date of trial are as follows:

- For Monday. H. M. Womack et al. vs. H. K. Brunley et al. The Wichita Oil Corp. vs. W. M. McKrot et al. For Tuesday. W. C. Wiltner, Adm. vs. E. M. Foster (two suits). G. H. Harty et al. vs. Early Bird Oil Co. For Wednesday. E. P. Van Hook et al. vs. E. M. Foster. For Thursday. Ralph E. Langley vs. A. W. Cull et al. Burk Waggoner Oil Co. vs. Ryan Petroleum Co. H. E. Rockhill vs. T. F. Hunter et al. For Friday. O. F. Hallstrom et al. vs. E. B. Birlang. Monday, October 22. M. H. Sims vs. Claude C. Stanley et al. D. M. Circle vs. O. Stripling et al. Charles E. Ertz vs. M. W. Deger. Wednesday. N. M. Clifford et al. vs. Interstate Oil & Refg. Co. John F. Padberg vs. Hy Newton et al. Court will be in session for two weeks and will convene in the 36th district court room on the second floor of the county court house. All cases to be tried are equity cases and the services of a jury will not be required.

RECENT DEVELOPMENTS AROUSE INTEREST IN COURT PROCEDURE

Calling of a special grand jury following the crime wave which apparently swept the county and the deprivation of the forestal charge of Judge P. A. Martin has created some interest among the people in regards to court procedure.

Many inquiries have been made as to the duties and the scope of power of a grand jury.

An official of the courts, in discussing the subject of grand juries with a Times representative, says:

Grand juries had their beginning in England, early in English history, and were the outgrowth of English common law. In early instances members of juries were selected who knew most about the crime that was being tried. They selected men who had been eyewitnesses to the alleged crime.

It was found that in many instances this proved very unsatisfactory. The next step of advancement was made in

the way of selecting jurymen who knew nothing about the case to be tried—and who were not prejudiced in the matter.

About the same time it was found that it would be expedient to have a body which would make proper investigations and make proper presentation of cases—and in this manner the grand jury came into existence.

The grand jury system was embodied in the judicial laws of the United States and today we have that grand jury which facilitates investigation and is a body which keeps its work and action entirely secret so that it may be efficient in its work and not interfered with.

The scope of power and jurisdiction of a grand jury is so broad that it may investigate any matter which is a violation of the criminal laws of the state. The grand jury is an entirely independent power, receiving a charge from the judge who has jurisdiction over that community from which the jurors are selected.

DETECTIVE AGENCY IS MADE DEPENDANT IN DAMAGE SUIT

Roy R. Jordan, a minor, by his legal guardian, his mother, Mrs. Edna L. Lynch, has brought suit against W. S. Langford and the Shelton Detective Agency in the 36th district court and prays for a judgment of \$2,500 as damages for alleged false arrest and detainer out of an alleged false charge against him.

The plaintiff recites in his complaint that on or about September 8, 1920, he was an intimate friend of T. F. Garrett and had worked with him as special officer for the Katy line and that while engaged in this work he had often times used Mr. Garrett's car.

On the date above mentioned he alleges that he went to the garage operated by the defendant, paid the bills on the car and took the car out for personal use and that while the car was in his possession it was stolen.

He avers that after Mr. Garrett had asked the defendant to replace his car or the value of same that the defendant came to him and asked him to settle for it and that he told the defendant at the time that he could not make payment.

He further alleges that the Shelton Detective Agency through its employees falsely placed him under arrest and then swore out a false complaint against him before Assistant County Attorney John Martin. The plaintiff states that the case was dismissed recently.

PLAN TRIAL OF CASES FROM NEW INDICTMENTS

Following the contemplated action to expedite disposition of criminal cases, it has been planned to bring those cases to trial in which the special grand jury has returned indictments, beginning Monday morning, October 22.

Plans have not been perfected as yet, but complete details as to the working order and place of trial will be determined Monday morning.

Judge Martin of the 19th district court, if present plans are carried out, will be busy with criminal cases at that time.

The grand jury will make another report in open court Tuesday morning before resuming their duties.

FAGARD AND DEDSON GIVE BOND IN SUIT OF \$2,500

W. F. Fagard and Frank Dedson, who were indicted by the special grand jury, made bonds Friday night and

Saturday respectively. Bonds in each case were set at \$2,500.

The former is charged with renting a building for gambling purposes and the latter is charged with having run and operated a house for the purpose of gaming.

While these two were under bond, service of all the true bills which the grand jury has thus far returned is completed.

CRIMINAL CASES TO BE TAKEN UP ON MONDAY

Disposition of the criminal cases on the docket of the 36th District Court will begin Monday morning and a special venire of jurymen has been drawn and jurors summoned for service.

Several important cases are to be tried during the week before Judge P. A. Martin.

The cases that have been set for the first three days follow:

Monday. Roy Wood, Roy King, and James Oldham, charged with robbery with firearms. Two cases.

Burt Keona horse theft. Bennie Davis, theft over \$100.

Tuesday. Ed Cowan, theft over \$100. Wednesday. Ernest Stafford, murder.

The last case mentioned to be tried on Wednesday, the defendant is charged with having murdered his wife. He pleaded not guilty when arraigned before Judge Martin five weeks ago.

NEGRO RELATES STORY OF VIOLENCE AT HIS HOME

A negro man residing on Lake street reported to officials at the court house Saturday morning a story that was in a measure sensational. It is believed that an investigation is to be made.

The man related that Friday night he and his wife were called to the back door by a man who represented himself to be an officer, and told his name. He recited that while he and his wife were engaged in conversation at the back door that a second man broke the screen at the front door and entered the house and took a revolver which was lying upon the table.

Allnight long into the wee hours of the morning, he said he could hear some one prowling around his house. He said he wanted relief from such outrages.

MILLION AND HALF DOLLAR ROAD BONDS STILL UNSOLD

The million and a half dollars of county road bonds remain unsold, according to a statement made by Judge Jones of the County Commissioners' Court Saturday. Judge Jones and the commissioners presented a proposition to a representative of a Chicago bonding house but no answer was given.

Another bond salesman appeared and a proposition was also made to him in reference to the sale of same but no results thus far have grown out of the conference.

### ADEQUATE PAY FOR TEACHERS

By F. P. CLAXTON

(Read Before The National Education Association. Abridged.)

Teachers worthy of places in the schools in which American children are prepared for life, for making a living, for the duties and responsibilities of democratic citizenship, and for eternal destiny can never be fully paid in money. Men and women worthy of the highest of all callings will not think first of pay in any form or in any other form. For teachers, as for all other workers, Ruskin's saying holds: "If they think first of pay and only second of the work, they are servants of the lord of pay, the most unheroic fiend that fell. If they think first of the work and its results and only second of their pay, however important that may be, then they are servants of Him who is the Lord of work. Then they belong to the great guild of workers and builders and saviors of the world together with Him for whom to do the will of Him that sent Him and finish His work was both meat and drink."

Workers Paid Largely in Kind. It has ever been and probably must always be that workers of whatever sort received the largest part of their pay in kind, as millers take loaves of the grain they grind. Those that work with material things that have easily measured cash values receive their pay chiefly in money or in things whose values are most easily measured in money. Other rewards will be less in proportion and in importance. Those who work largely for other than the material results that can be measured by money must continue to be content to receive a large part of their pay in the consciousness of work well done for a worthy cause, and in participation by faith at least, in the results both near and far away in time and in space.

The Teachers' Spiritual Rewards. Teachers who do their work well and who, either in fact or by faith, see the work made better as a result; individuals made healthier, wiser, happier; sin and suffering made less; the common wealth made more; social purity and civil righteousness increased; public laws made more just; patriotism broadened and purified; state and nation made stronger and safer against attack from without and decay from within; and the world lifted on to a higher plane and into a brighter sunshine and a purer atmosphere, are possessed of wealth unseen and for most unseeable.

All true teachers will think on these things and many of the best will be attracted to and held in the profession by them. It will be all the worse for

the profession and the world when it is not so.

But this should not be made an excuse for putting public or private education on a charity basis, nor for paying teachers the miserably low wages they are now paid. It should not be made an excuse for paying such wages as will not permit school boards and superintendents to fix reasonable minimum standards of qualifications for teachers because young men and women who expect to teach can not afford to incur the expenses necessary to prepare themselves to meet the requirements of such standards. It should not be made an excuse for failing to increase the pay of teachers, as the pay in other professions is increased, in recognition of proved merit and in proportion to increasing ability gained through experience, continued study, and constant devotion to duty.

Not for the sake of the teachers, primarily, but that the schools may be made fully efficient; that children may be well taught; that the material

wealth of state and nation may be increased so that we may have the means of buying our debts, building our highways, caring for our unfortunate, and meeting other public expenses, and at the same time have enough for all the people to live in comfort, that our democracy may be preserved, purified, and made more effective, expressions may be pronounced that we may get well our part in the commonwealth of the world, we must pay such salaries as will bring into the schools as teachers men and women of the best native ability, men and women strong and well organized physically, mentally, and spiritually; men and women of the finest culture and the most thorough and comprehensive education, academic and professional, and so adjust their salaries as to enable them to hold all those who show themselves most capable and best fitted for the work. In this most important of all our enterprises we can not afford to pay less.

Many Able Men Have Taught. Our traditional policy of paying to young and inexperienced men and women with little or no question as to their professional preparation salaries almost as large as we pay to those who have had many years of successful experience had at least one merit. It brought into the schools large numbers of young men and women of unusual native ability and of strong character and sometimes

such men and women having also good scholarship and fine culture, willing and eager to do the best they could while saving from their comparatively good wages money to start them in business or home making, or to enable them to prepare themselves for these professions for which adequate preparation is required and demanded. Many of the ablest men and women in all walks of life have been school teachers. A good class of teachers' association could be formed of members of any recent congress of the United States. We have just nominated two ex-teachers as candidates for the presidency. Unfortunately, however, most of these have remained as teachers in the schools since they had begun to gain some little comprehension of their task and some little skill in executing it. But despite their lack of preparation and experience it was good for boys and girls to come in contact with them

From this contact many gained inspiration and purpose.

Other Occupations Pay Better. The time has now come when men and women of unusual native ability and strength of character can make more money in any of the hundreds of occupations than they can in teaching. A few of them will teach while waiting to find themselves, or to make money for a start in business, or for paying for preparation for other work. They will accept employment which is at the same time more attractive and more remunerative. From now on schools will be taught (1) by unprepared and inexperienced young men and women of mediocre ability and less while waiting for the maturity which is required for employment in the minor and more common occupations; (2) by the left overs of such men and women who have failed to find more attractive and remunerative employment elsewhere, but have not wholly failed as teachers; or (3)

## ITCH!

A WAR-TIME ILL THAT'S SPREADING  
HUNT'S SALVE CURES IT!

BRED in the war trenches of Europe, a wave of ordinary ITCH is spreading over the country. This skin disease, history shows, has always prevailed, following wars and the concentration of armies. It was common during the Civil War and following that conflict. There was an epidemic of the itch after the Spanish-American War. Now history is repeating itself after the great European struggle.

Returned soldiers and those with whom they come in contact will find a recognized remedy for the itch in Hunt's Salve, commonly known as "Hunt's Itch Cure." Many a veteran of the late War will testify to its merit.

If directions are followed HUNT'S SALVE will prove a never failing cure for all forms of the itch, and your druggist will tell you so. He sells HUNT'S SALVE under a strict guarantee to refund the purchase price to any dissatisfied user.

Medford, Oklahoma, Jan., among thousands who praise HUNT'S SALVE, says: "Some people think to call it the itch, but cancer compelled me to admit I had it badly. Your Hunt's Salve, however, cured me after many other remedies had totally failed. One box completed the cure—the first application afforded wonderful relief. My advice to those who have it, is to use Hunt's Salve." Hunt's Salve is especially compounded for the treatment of Itch, Eczema, Stomach, Throat and other Itchy Diseases and is sold on our guarantee by all reliable drug stores, or it will be sent direct by mail if your local druggist cannot supply. Price 10c per box.

### STUDENTS IN RURAL SCHOOLS EXAMINED

All Time County Health Officer Visits Four Schools During Past Week.

One hundred and sixteen school children in Wichita county were examined for physical defects last week by Dr. A. W. West, all-time county health officer, and his assistant. This is the beginning of the work of examining every child who attends school in the county.

The schools and the number of children examined are: Howard No. 2, 21; Bowie, 22; Lakeview, 18; Allendale, 15. Only one case of contagious disease was found during the week. This was a case of trachoma. Other defects that were found by the examining physician were defective teeth, defective eyesight, and enlarged tonsils. The doctor stated that the number of cases of defective eyesight were few, but that defective teeth was the most common.

A survey of conditions in the school buildings were also made and several suggestions regarding ventilation and proper light were made. In each instance where a defect in the child's physical condition was found, the parents were notified. The follow-up work by a nurse will be begun at once to see that these defects are properly treated.

### OWNERS OF PROPERTY ARE URGED TO SEND CHECKS

Needed to Cover One-Half of Expense of Ornamental Light on Which Work Starts Monday.

Owners of property in the business section of the city are being urged by the chamber of commerce to mail in their checks to cover one-half the expense of the new street lighting system, work on which will be started Monday. The necessary materials for the start of the work have arrived and a representative of the Martin Wright Electric company of Dallas will be here tomorrow. The cost to the property owners will be \$3 a front foot, but at this time the chamber is asking for only 50 per cent of the total. Many checks already have been received, but it is necessary to have all the owners lined up behind the project in order to guarantee the speedy completion of the new "white way."

Don't run the risk of having your valuable stores destroyed by fire. Deposit your important papers, jewelry, etc., in the vaults of the City National Bank of Commerce which are equipped with the most approved burglar alarm system, and afford absolute protection against loss.

### APPEAL IS MADE TO THE DEMOCRATS OF SOUTH

COLUMBIA, S. C., Oct. 16.—Joe Sparks, assistant treasurer of the democratic national campaign committee, today issued the following appeal to democrats of the South:  
"Let me appeal to every democratic man and woman in the South to immediately make a contribution to the national democratic campaign fund.  
"The tide to victory has turned. We are sure of victory if the proper financial support is given. The election of a democratic president means peace, prosperity and happiness for the South.  
"No one can tell just what will happen in the event of republican success. The professional politician of the North is jealous of the prosperity of the South.  
"The funds should be immediately

contributed. Delay may be fatal. Send your check today to your state finance chairman."

Brewer  
Make  
Place

An invention though it was some time ago has recently been demonstrated by the department of ion. This invention is for a new fuel which can be made in a few days and the cost is very low. It is claimed that it is more efficient than gasoline. The following is a description of the process.

First a type of wood is used in all low speed, but in the case of the new fuel, it is used at a high speed. The directness of the wood is not apparent, but it is felt by any one who has used it. A small amount of the wood is placed on the burner of a lamp, and it is found that it burns with a blue flame, and the carbon is not soot. The alcohol is not soot, and the process of the wood is not soot.

The secret of the wood is in the fermenting matter. The wood is put into a pulp and a pressure cooler, water has been added to it, and it is left for 24 hours. The fermentation is added.

Water was then added, and the mixture was filtered. The mixture was then mixed with gasoline, and it was found that it had changed its color, to a yellow, to a chemical change, and it was not soot.

Another test was made, and it was found that the new fuel was not soot, and would not soot.

An excellent glass of eight out of eight, and this will melt in a glass and be seen again. An piece of twisted end of the wire of the spiral from splashing, securing the view.

### Breweries Soon to Make Fuel to Take Place of Gasoline

An invention which sounds as though it were the product of the same mind that wrote Arabian Nights has recently been perfected and given a demonstration before experts of the department of commerce in Washington. This invention is another substitute for gasoline, or rather it is a new fuel which can be burned in motor cars, and the surprising thing is that it can be made by the breweries which were forced to close down when the Volstead act became a reality.

An expert connected with the department of justice declares that it will not be long until the brewers and distillers who have been suffering from the fact that they would suffer large financial loss are soon to learn the truth of the old adage, "It's an ill wind that blows nobody good."

He states that they are not going to turn their breweries into manufacturing plants, storage warehouses or anything of that type. Instead, they are going to function with all their old time seal in manufacturing a substitute for gasoline which is composed of 90 per cent industrial alcohol and 10 per cent vegetable oils. This substitute, the inventor claims, is independent of any mining products, any vegetable containing starch, sugar or fat can be utilized for its manufacture.

**Half Price of Gasoline.**

It is claimed that the new fuel, which at the present time is being extensively tried, can be sold for less than half the present price of gasoline.

The following facts have been given to demonstrate the value of this new fuel.

First a typical motor such as is used in all automobiles was run at low speed, utilizing the new fuel. The exhaust and priming cups were opened and the motor run at high speed. The fumes discharged directly into the room had no odor, and no ill effects were felt by any of those watching the test, thus proving that the gas was not poisonous.

A small quantity of the fuel was placed on the floor and lighted. It burned with a bluish smoke giving off no fumes as in the case when a similar quantity of gasoline was burned, thus proving the inventor's claim that the fuel would not cause carbon. The alcohol is made by one formula only, which on completion, of the process of distillation need not be treated in any special way to make it utilizable.

The secret consists in the fermentation of the yeast or bacteria used in the fermentation of the vegetable matter. Fibrous or cellulose is cut into a pulp and then placed in a compression cooler, where, after sufficient water has been added, it is boiled under 50 or 60 pounds pressure for three hours. The juice obtained is put in fermentation tanks and the bacteria added.

Water was thrown on the new fuel, white burning and the flames extinguished. Similar experiment conducted with gasoline caused the flames to spread. Examination of the fuel when mixed with water showed that it had changed its original color, a light yellow, to milky white. This was a chemical change, the inventor explained, and meant that the fuel could not be diluted.

Another test was given to prove that the new fuel was heavier than gasoline and would not mix with it.

An excellent way of cleaning the glasses of sight feed lubricators without dismantling is to take a red-hot poker and hold it near the glasses. This will melt the solidified oil on the glasses and permit the oil drip to be seen again. Another way is to have a piece of twisted wire connected on the end of the drip nozzle inside, the glass of the lubricator. The oil runs slowly down the spiral path and is prevented from splashing over the glass and obscuring the view.

### KNOWLEDGE FOR CAR OWNERS

Interesting and Important Facts That Every Motorist Should Know.

Any hard substance, such as grit, metal chips, etc., will render a perfect bearing useless in a very short time.

Too strong a current to the ignition coils may result in burning out the condenser and consequent ruin of the coil.

The only thing to polish a car with is clean cotton waste. This should be kept in a box in your garage, where it cannot gather dust and dirt.

A battery does not need a great deal of care and the average driver gets good results by putting in a little water every week or so and making regular calls at the service station.

Aluminum plates of a thickness of from one-eighth to one-quarter of an inch, riveted on the tops of the cylinders, will considerably increase the power of the engine.

When a tread of the tire is torn or badly worn it should be taken to a competent tire surgeon who can tell whether it is worth a repair.

The drain cock at the bottom of your vacuum tank should be opened at fixed intervals so as to allow the foreign matter to run out. This condition is frequently the cause of carburetion trouble.

Take precaution to keep the spring clips tight. Axles break in the center almost invariably because of loose spring clips. Looseness of the clips also makes the springs more likely to squeak. Keeping the springs lubricated not only prevents squeaking but makes the car ride easily and avoids breakage.

One source of trouble that many motorists overlook is the rim, which if allowed to rust can cause a tire to deteriorate about as quickly as in any other way. A very good way to avoid this trouble is to keep your rims covered with regular rim paint.

One source of insufficient lubrication is sometimes found to be clogged grooves in the bushings. Sediment will accumulate in the grooves which are

intended to carry the lubricating oil and cut off the supply. An excess of graphite will often produce this effect.

A very good leather dressing may be made of equal parts of glycerine and sweet oil. After applying with a cloth the dressing should remain on the leather for about thirty minutes, after which the upholstery should be wiped dry. As an ordinary cleaner for leather a good soap and some water should be used, applying the soap with a sponge and finishing with chamomile skin.

Always keep the steering mechanism in order and lubricating according to

the manufacturer's chart and you will have safety and comfort in the driver's seat. It looks complex, but is very simple. Study it and follow the book as to its care and smile away trouble.

Engines that have been in service for a considerable time are apt to develop the worst cylinder disease, which hinders the gases have a chance to leak past the worn sections.

reason is that the cylinders, due to the side-thrust of the pistons, get slightly more wear in the cross-wise direction than they do in the fore-and-aft direction. This results in a slightly elliptical shape, which is the more pronounced the older the engine, and hence the gases have a chance to leak past the worn sections.

## Studebaker

Only a few makes of motor cars are able to gain and hold the confidence of the public. These popular cars are known to nearly all car owners.

Select ten business men and ask each one to name the six best medium priced cars on the market, and the lists will differ from each other, but each list will contain the name of STUDEBAKER.

The reason is plain. The manufacturers of the Studebaker have made honest vehicles for three generations, and honesty, skill and experience have ever distinguished their products.

The new model Studebakers carry many new details and all the merit of former models. There is luxury in the upholstery, strength in engine and battery and efficiency in every part, that puts the Studebaker in a class by itself.

May we have the pleasure of demonstrating the Studebaker for you this week?

Call at our show-rooms, or phone and we will send for you.

## Speaking of Traffic Regulations and Operation of Motor Vehicles

With all the modern traffic regulations directed toward the operation and use of motor vehicles, which are being put into effect, it occurs to us that possibly the pedestrians have been somewhat neglected in the matter of education as to how they may properly navigate our busy thoroughfares. Public sentiment, to some extent, fails to give the drivers of automobiles proper credit and consideration under certain conditions. We believe that the public should, at least, be fair and just in its verdict when an unfortunate automobile driver meets with an accident of having run over some pedestrian. For example:

Only a few days ago, in one of our larger cities, a driver of an automobile ran over an "inefficient pedestrian" while he was walking down a sidewalk, breaking his left leg, both arms, dislocating his spine, crushing his skull and causing several other internal injuries, any one of which the doctors pronounced would have proved fatal, and the public openly declared and maintained that it was the work of an AMATEUR.

Having the pedestrians' interest at heart, we give below as a suggestion some rules which have been published, but regret that we cannot discover the author's name, therefore must credit "anonymous."

1st. Pedestrians should register at the beginning of each year and secure a license entitling them to the privilege of walking, paying a fee of Five Dollars. No rebate if they do not walk the entire year.

2nd. Each and every pedestrian before being given a walking license should be made to demonstrate before an examining board his ability to

## DODGE Leap, Crawl

and extricate himself from machinery.

3rd. Pedestrians crossing streets at

night should wear a white light in the front and a red light in the rear.

4th. Pedestrians should at all times be fully covered with life, accident, collision and property damage insurance and should carry a signalling device approved by the national board of underwriters and should never turn to the right or left, without first having given the proper signal three times, and we would suggest an electric siren of the type used by a fire truck, or a horn at least six inches in diameter.

5th. When an inexperienced automobile driver is made nervous by a pedestrian, the driver should indicate the same and the pedestrian should hide behind a tree or traffic cop until the automobile has passed.

6th. Pedestrians should not carry in their pockets any sharp instruments which may cut automobile tires or scratch or damage an automobile in any way.

7th. In dodging automobiles, pedestrians shall not run more than seven miles per hour, and shall not turn to the left on any street between 6 a. m. and 6 p. m.

8th. Pedestrians should be held responsible for all damage done to automobiles or their occupants by collision or otherwise, and in case of a collision, the pedestrian's license should be immediately revoked.

### THE MOTORISTS' PROBLEMS

By WILLIAM H. STEWART, JR.

**Motor Department**—I would thank you to answer me through your valued paper as to my following troubles. I have a Chandler model No. 17 which has got the habit of making a noise something like a knock or a valve slap. On Tuesday of this week I had the car out and it was doing nothing but knock or slap. I decided to let the car lay up for a few days until I could get some information as to what was the trouble. Yesterday I took the car out and I could not get a knock or a slap out of it. This is the way it has been doing for the last month or two. The retarded spark does not make any difference and you cannot hear a thing when the car is standing still. I am using the heavy oil Mobile 5. Does this have any effect on the knock? Thanking you for any information you may give me, and oblige—A. J.

The noise you notice is probably due to piston slap. This is quite noticeable on a pull. Heavy oil will help to reduce the noise, but even this is not effective especially when engine is hot. It would be best to have the cylinders rebored and new pistons and rings fitted. At the same time you should inspect the timing gear chains and remove the slack. Just as you change the valves make sure that the valve push rods and guides are not the cause of a good deal of the noise. These wear very quickly and become noisy.

**Motor Department**—I have a Model 75 Overland car and wish to install a new gasoline tank. Kindly tell me the most efficient way. Thanking you for your prompt reply and valuable information.

**A. J.** Remove the coil bolts and brackets and the tank should come out without trouble. You should have no difficulty once the tank is free from its connections.

**Motor Department**—When I retard the spark of my car it loses power. There may be a slight leak or break which does not allow condenser to act to its full capacity. Would advise that you have it tested at a service station. Substituting a new coil, known to be perfect, for a week will locate the trouble if in the condenser.

**Probably nothing is wrong.** You always lose power when the spark is retarded. Always drive with your spark well advanced. Just short of the point where it produces a knock.

**Motor Department**—I would greatly appreciate an answer to the following through your "problem column." I have a Stator Kent ignition on my car, and after every 300-400 miles the contact points pit up, so as to make the car very hard to start and motor misses badly at low speed. Does not seem to affect the engine at high speed. As soon as points are filed down engine runs evenly again at low speed. What can cause this? Points have been adjusted and replaced by the manufacturer, and yet do the same thing.—R. T.

Fitting at the contact points is usually caused by punctured condenser. There may be a slight leak or break which does not allow condenser to act to its full capacity. Would advise that you have it tested at a service station. Substituting a new coil, known to be perfect, for a week will locate the trouble if in the condenser.

**Motor Department**—I have a 1917 four-cylinder Studebaker. There is a groaning in rear end. When I attempt to pick up speed major will knock, also when I engage clutch in second and high gear will jerk and jump. What do you advise as to remedy for these troubles? In what condition should I have car when stored for winter? Should pet cocks be left open and tires taken off when jacked up? Is it necessary to be warm in garage?—R. E.

The groaning shows that gears are not properly oiled. The knock is probably due to clutch. Clutch needs a little heavier oil. Drain out all water and kick up all four wheels for winter storage. Remove battery to a warm place. Car does not need to be kept warm. Pet cocks need not be open. Tires

should be removed, cleaned and stored in a dark, cool, dry place.

**Motor Department**—Have recently installed a new battery on my car, but the generator does not seem to be taking proper care of it. The ammeter shows a charge when generator is idling and the same when generator is running. What is the cause of this and will it harm the battery? Have had generator examined and learned that the brushes were worn and one broken, so it was probably not charging the battery at all. Do you think the negative and positive sides of the battery are crossed?—P. H.

Disconnect one battery wire and see if ammeter needle returns to zero. If it does not, it is bent and should be straightened. If positive and negative of battery wire were reversed the battery would have been ruined long ago. Test battery with hydrometer, and if the electrolyte reads 1.25 or better it is being taken care of. If it reads 1.200 or lower have a competent repair man look it over.

**Motor Department**—The carburetor on my car has a water jacket and is taped for one-eighth inch pipe, but is not connected up. I am thinking of taping the exhaust pipe and running a pipe to the jacket of the carburetor. Should I let the hot air and gases pass out of the jacket or should I plug the outlet? Will it derive any benefit in starting and running on the grade of gas we now get by so doing?—S. P.

Make the proper connections to the water system. Also install hot air tube and stove to exhaust. It is doubtful whether your suggestion would prove advantageous.

**Motor Department**—While overhauling my engine I found a small deposit of carbon on the valves which could be easily rubbed off, after which I found that the valves did not need grinding. Why would it not be sufficient to remove the rocker arm and turn the valves by means of a socket wrench occasionally?

ally and so save the time and trouble of removing the valves.—H. T.

Your substitute for valve grinding might work if done frequently enough, but from time to time the valves should be removed to see if they are becoming pitted.

**Motor Department**—My six-cylinder car seems to be feeding too much oil. I cannot keep the spark plugs clean. The trouble seems to be in the No. 2 cylinder more than in any of the others. Oil comes out of all the connections and out of the valves of the cylinder, but the other cylinders do not seem to be affected. The gilling system is of the latest type. Can you explain what the trouble might be?—R. L.

If the oil does not affect the other cylinders it is reasonable to believe that the oil level is not too high. The writer has known cases where the defective spark plug has caused just such a trouble. If the No. 2 cylinder does not fire, the oil working into this cylinder is not burned and, of course, if forced out through the valves and other places. Would suggest that you use new spark plugs or change the ground in to prove whether this is the real trouble or not. It is possible that the rings are not properly fitted in this cylinder and permit too much oil to pass. Would suggest, however, that you try perfecting the ignition first.

**Motor Department**—Kindly tell me if

a brass rod is necessary for a Ford rear axle. We use the car mostly for light touring work, but occasionally for delivery work, and occasionally for groceries nearby.—H. T.

A brass rod under the rear axle housing gives more strength to the construction, taking the strain off the bolts, but is not really needed on such a light rear end as that of the Ford. However, if the car is used for making deliveries, there is always the danger of overloading.

**HELPFUL HINTS.**

Do not neglect the differential just because you filled it with grease once upon a time. Inspect it occasionally to make sure the grease or oil hasn't worked out. If the differential needs lubrication it absorbs an enormous proportion of the power of the motor and it will soon become noisy—a trouble for which there is no cure. If gears or differential become noisy a temporary relief may be obtained by using a heavier oil or grease, but this trouble comes back as the lubricant gets low. The noise is due to wear and the wear is usually due to neglect, so take proper care of your differential if you want to keep it quiet.

During the cold weather one can use to advantage a much lighter grease in the transmission and rear axle. If the grease is too heavy it will not work into the recesses of the bearings, etc., as it should. It is well to note that some

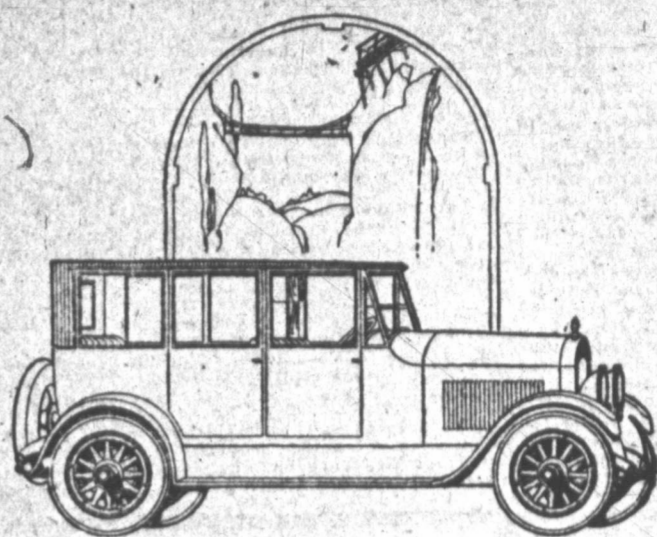

motors require a lighter oil in winter than in summer.

Oftentimes trouble is experienced on road with broken universal joint plus on propeller shaft. Where there is no garage in vicinity a temporary repair can

be made by using a bundle of iron wire of a heavy bolt wedged in the yokes of the joint, to pass the power to rear axle.

When gear cases of differential housings are provided with vents to permit the escape of air under pressure that

results from heating care should be taken to see that the vents are kept free. Not infrequently careless painters cover the screen that generally is fitted to the opening which make it as good as no opening at all.

There's a Touch of Tomorrow in All Cole Does Today

## Cole Aero-Eight

Tests Simply Confirm What the Motor Wise Already Know

The remarkable results which the Cole Aero-Eight has achieved in recent tests simply confirm the everyday experience of owners. They do not establish fictitious standards of performance which the private user can not hope to attain in ordinary driving.

Without exception, Cole Aero-Eights afford 15,000 miles on their original tire equipment while from 12 to 14 miles per gallon of fuel is a general average. Any owner can send these cars from 10 to 30 miles in 10 seconds just as he can secure the utmost efficiency from the 80 HP Aero-Eight engine and derive all of the benefits of its zero-balance.

- 15,000 MILES ON TIRES
- 50% Greater Fuel Efficiency
- Zero Balance Roadability
- Less Annual Depreciation

## Cleveland Six Now Only \$1435

The Cleveland again establishes a new standard of quality and value in the light car field. It offers so much more at such a fair price that other light cars—sixes and fours—can scarcely be thought of as competitive. Cleveland character is distinctive, its daily service is unsurpassed.

### *No Other Light Car Offers Such Worth*

The exclusive Cleveland motor, the most highly developed of the powerful over-head type, gives an abundance of speed, a rare flexibility of power, and a dependability and endurance that surpasses other light cars.

The sturdiness of its chassis construction, the ease of its control, the soft cushion-like action of its under-slung spring construction—all these qualities add

immeasurably to the certainty and comfort of the Cleveland's performance on any road, on the steepest hills, and in crowded traffic.

### *A Selection of Body Styles That Meet Every Wish*

Bodies of dignity and beauty are mounted on the Cleveland chassis, and no other car offers cleaner lines, more truly sturdy gracefulness or deeper lustre of finish than does the Cleveland Six.

### Figure Percentage In Looks and Ways In Buying an Auto

A method by which the "sales of the most hypnotic salesman" can be set at naught by the automobile purchaser is suggested by a dealer in a near city. This dealer maintains that many business men go to buying a car with nothing but their feelings to guide them, hence falling easy prey to the silver-tongued salesman who decants at length on the value of horsepower, upholstery and the elegance of the patented cigar lighter on the instrument board. He thinks that the buying public is easily thrown off balance by the suave "authority" who can be found in every automobile salesroom and that business men who would not think of making an investment of any other commodity until he was convinced of its worth is persuaded to buy a machine which does not fill his needs at all.

**Tastes of Men Differ.**  
In explaining this, the dealer tells of how the tastes of no two men are alike and how a car that appealed to one would not find favor in the eyes of another. He then shows how his method of determining what kind of a car a man should buy is based on these individual tastes and demands. He says: "Some men place appearance and comfort above everything else in the selection of their automobile, others consider safety and stability of paramount importance."

It has been found by experience that most men look to appearance and comfort first of all and demand that about 20 to 25 per cent of the merits of the machine be included in these two factors. Then they take up performance, which includes speed, flexibility, acceleration, smoothness, reserve power and dependability, and will give these combined elements about 30 per cent. Then the element of safety enters, or should enter, into every one's selection, so the average man gives that about 30 per cent. But then he stops, for he has already gone over 100 per cent and there is still economy and operating expense to consider.

**On Percentage Basis.**  
It becomes necessary therefore to shave every thing down a little and as a rule after giving the matter thought, the average purchaser begins

to doubt the necessity for so much appearance and comfort. If the buyer is fairly well to do he will finally get his scale down to something like performance 25, safety 15, comfort 15, appearance 10 and economy 10; total 100.

The above table is for the man who wants the best service out of his car, regardless of cost. If he is afflicted with a more limited income he may give performance 20 points, economy 20, safety 15, comfort 15, appearance 10 and service 10. Total 100. If he has a still more limited income he may increase economy to 50 and take what he can get of the others.

Thus it becomes apparent that by employing a system such as this a prospective purchaser can determine in advance about what he wants and unless the salesman can produce visible proof of these qualities in his car the buyer can, by exercising a little will power, withhold himself from purchasing a "white elephant."

### VENEZUELA AND JAPAN MAY SOON ESTABLISH DIPLOMATIC RELATIONS

**TOKIO.**—Diplomatic relations between the republic of Venezuela and the empire of Japan may be established in the very near future, if the mission of H. Peres Dupuy, envoy extraordinary from Venezuela to Tokio, is successful. Mr. Dupuy has, for several days past, been negotiating with the Japanese foreign office to that end and feels sure of the ultimate success of his mission.

Venezuela seeks more customers for her products, said Mr. Dupuy. Her bankers and business men realize that more customers will make sounder business. Her products, iron, gold, copper, tobacco, long fiber cotton, sugar, cocoa, coffee, oil and frozen meats, will doubtless some of them be saleable in Japan, and in return, Venezuela can buy rice, wheat, toys, porcelains and other goods from this country.

The newly subsidized steamship lines which Japan is today promoting to improve and encourage Japanese shipping probably will call at La Guayra, the principal seaport of Venezuela.

### JEAYONS SPRING COVER PROTECTS AUTO SPRING AND PREVENTS BREAKAGE

A new invention recently placed on the market has been designed to eliminate the trouble which all motorists have sooner or later with springs. A broken spring can be attributed nine times out of ten to insufficient lubrication or dust and dirt which has worked between the leaves, thereby preventing them from sliding properly. This will in time cause undue strain at some point and as a result the spring breaks, causing annoying delays in the use of the car to say nothing of the cost involved in replacing the broken part.

The new appliance which has recently been patented by an Ohio man is known as the Jeavons Spring Cover and consists of a combination cover-

in, and lubricator. The covering part is of a patented material which is laced tightly around the spring, completely shutting out dust and grime while the lubricator is nothing more than a grease cup into which runs a wick designed to carry the grease to every crack in the spring and to keep the leaves well oiled.

This wick is, of course, an integral part of the covering and so is protected from the dust and dirt of the road as well as is the spring. By occasionally filling the grease cup with a good grade of grease the spring is kept thoroughly lubricated and at the same time is protected from gritty substances.

The Jeavons Spring Covers are made in sections adapted to use on all cars and their cost is nominal.

The Hudson Super-Six Cabriolet

## Hudson Alone Can Use the Super-Six Motor

It is true that approach to perfection in the mechanism of a car, tends to obliterate reminders of its presence.

from the thought of the driver. For we do not desire forgetfulness of the Super-Six motor.

That is why so many speak of the forgetfulness of mechanism which is permitted the driver of a Hudson Super-Six.

Yet what difference if the driver does not know why the Super-Six principle develops 72% greater power, so long as he knows his Hudson meets every task with the ease of abundant power? What matter if he does not know it adds 80% to efficiency, so long as every comparison—in acceleration speed or hill-climbing—proclaims the clear-cut supremacy of Hudson?

They note how silently it asserts its mastery. How, without seeming haste, it travels fast, because there is no fret or fuss. And only the traffic and roadway slipping back to mark the swift pace.

Sometimes we have thought there is a penalty in this distance of the mechanism

# MELTING POT WORLD MUCH OVERCROWDED

### Is Boiling As Never Before With The Greatest Flood Of Immigrants In History.

NEW YORK, Oct. 9.—Ellis Island melting pot of the world, is boiling as never before, with the greatest flood of immigrants in history pouring into it. Millions more are clamoring at Europe's exits, anxious to come to America, and congress will be pressed to quickly enlarge both the physical plant and working force on the island to more than double its present size, according to Immigration Commissioner Frederick A. Wallis.

Since early last summer, aliens have been entering America's front door in unprecedented numbers. The problem of housing them until they can be admitted to the country has become painful to all parties concerned. Recently, hundreds of immigrants detained for investigation had to sleep standing up, on the floors, benches and chairs already were filled with the backwash from the congested dormitories.

### Tide to Become Greater.

The tide is certain to become greater with each passing month, Commissioner Wallis felt assured. Steamship operators informed him, their accommodations are booked to capacity for twelve months ahead. Government officials announced 257,000 applications had been made for passports in Poland alone, mostly by Jews, while hundreds of thousands in other parts of Europe also were anxious to cross the seas to this country.

"Between 2,000,000 and 4,000,000 Italians are seeking domiciles and citizenship here and more than 2,000,000 Poles want to come over," said Commissioner Wallis, who attributed the exodus from Europe to the harsh post-war living conditions and the economic situation.

Frequently the commissioner asked the aliens why they left Europe. Most of them replied, "no money, no eat," he said. Many Italian farmers declared they quit their native soil because of the danger from explosions when plowing in former battlegrounds.

Germany Will Be Coming. Added to the prospective influx of immigrants from the countries of the war allies will be millions in from Germany who, as soon as the way is clear, will seek passage to America, the immigration authorities have been informed by reliable and official sources.

"The immigration in the future will be limited only by the capacity of the vessels," Commissioner Wallis said. In the meantime, who is wondering how many years it will be before aliens quit coming across the sea at their present rate, Ellis Island workers are perplexed over their existing problems. The normal capacity of the is-

land is reached when 2,000 immigrants are inspected daily. Yet, on a recent day, 10,400 aliens were fed there. During another day the same week 11,000 persons were detained in the holds of the vessels which brought them over, while officials struggled with the work of examining 4,000 then on the island. For two days the island doors were shut against incomers, who remained on boats.

### Must Be Separated.

The rapidity of handling them depends upon the aliens themselves, Commissioner Wallis has found that some groups are easier to examine than others, while care must be taken in separating the many nationalities which make the island conversation sound like that at the Tower of Babel.

"If we mix English, Irish and Jews there will be a free-for-all fight in ten minutes," said the commissioner. "The English won't eat with the Jews and call them 'foreigners.'"

Three recent additions to the tasks of the immigrants officials have made more tedious the handling of the aliens. Much time is required in vizing passports and the literacy test which all immigrants must pass, also causes trouble. Each alien must read in one language before being admitted. In addition to its labors with the aliens, the immigration officials examine every seaman entering the port, even though he left it but a few days before. In the last eight months 300,000 seamen were examined here.

### Humane Treatment.

Despite congestion everything possi-

ble is being done to make the treatment of the aliens on the island humane. Babies are given warm milk and crackers. Candy, cigarettes, fruit and other comforts are furnished adults. Sunday concerts, with bands, grand opera stars and others on the program, are held weekly. For those who cannot find a bed, 10,000 army blankets received from Washington are available for improvised sleeping equipment.

Ellis Island authorities are trying not to keep the aliens in the holds of the vessels after arrival and are striving not to delay commerce by holding up ships in that manner and so far they have succeeded. But, no matter how fast the immigrants arrive, the examinations will not be made less rigid, but will continually be made more severe, Commissioner Wallis said.

Aliens who are refused admittance—and the percentage of rejected ones has increased greatly since before the war—are returned to the port from which they came at the expense of the steamships. Most of those admitted to America are going to industrial centers, but many are flocking to rural districts and farms, the commissioner said.

When new rings are applied to the pistons they should be lapped in so that they will fit the cylinder wall tightly and evenly all around. First, put the rings on the piston and then move the assembly back and forth in the cylinder, using an abrasive mixture to assist in seating the rings.

## ONE-THIRD OF TRACTORS USED IN UNITED STATES MADE AT FORDSON PLANT

Figures announced by the Henry Ford tractor plant recently have given some interesting information in regard to the production of Fordson tractors. According to these figures, one-third of the tractors now in use in the United States are Fordsons and that in the two years in which the Fordson plants have been in operation they have turned out more tractors than any other tractor plant of ten or twelve years existence. At the present time there are 150,000 Fordson's in use in the United States and Europe.

Henry Ford began experimenting with tractor possibilities some twelve years ago, but refused to place a tractor bearing his name on the market until he was satisfied that it was the best that could be built for farm work. With this end in view he set about designing a light and economic tractor that at the same time

was powerful and enduring. The degree in which he succeeded is attested to by the phenomenal success which the Fordson tractor has obtained since it was first introduced.

June was the great month in the Fordson industries, but was eclipsed by July. In the month of June the five assembly plants turned out 9,049 while in July they manufactured parts for and assembled 2,766. October figures, including those released up until Sunday the 10th, showed that the average daily production was 375 tractors. The average daily production for the month of June was 361.

The plant at Dearborn, Michigan, is credited with having done the most of the work in making these records possible. In addition to furnishing material for the other four plants this one alone turned out 4,188 completed tractors itself. At the Des Moines, Iowa, plant 2,341 tractors were completed, while at St. Louis 2,191 were finished. 810 were completed at the Kearney, New Jersey, plant which started production in June and at Cork, Ireland, 236 were accounted for.

Do you realize that rough dry by the pound is cheaper than the washer-woman-by the piece?

# "Exide"

This Name Is Your Surest Guarantee of All-Round Year-Round Starting Battery Rightness

You wouldn't buy a house just because it had a strong front door—you wouldn't buy an automobile just because it had extra heavy wheels.

What you want is inch by inch, detail by detail Quality. And that is exactly what you get in the "Exide" Starting and Lighting Battery.

No one part of the "Exide" has been developed at the expense of any other part. Its handles are just as right as its separators, its straps and connectors just as well made as its plates.

The "Exide" is a complete starting and lighting battery, as technically and practically correct as thirty-one years experience in the manufacture of storage batteries for all purposes can make it.

### "Exide" Battery Service

is as thorough in principle and practice as the "Exide" Battery. It meets every need of every make of starting and lighting battery. "Exide" Service promotes longer life and better service from the battery you are using.

## STOMACH HEALTH

SUNDAY HEALTH TALK NO. 4 (By P. L. Myers, D. C.)

Stomach health is never more appreciated than when it is gone. The misfortune of those suffering from indigestion or chronic stomach trouble is that they crave food almost constantly, the body often being emaciated and in genuine need of nourishment.

It is generally recognized fact that it takes nervous energy to digest food, and the stomach supply of nervous energy when the spinal nerves to the stomach are pinched at the outlet between joints of the spine at what is known as "stomach place" runs down below normal. The stomach weakness may be severe or merely such as to require care in choice of foods. It all depends upon the degree of pressure upon the stomach place nerve. This pressure is removed by chiropractic adjustments.

Well After Six Years Without Solid Food

"At different times my case was diagnosed as ulcer of the stomach, cancer of the stomach and tuberculosis of the stomach. I became so emaciated I could hardly walk alone. In six years not a mouthful of solid food went down my throat. The chiropractor made no promises but I am well. No one knows what it means to enjoy food, unless they have been starved for years, like myself." Mrs. Georga A. Wilson, Chiropractic Research Bureau, Statement 1234.

NO CHARGE Consultation is without charge or obligation.

# AN OLD WORLD CARAVAN ROUTE ONLY COMPARATIVE FREE WAY INTO SERBIA FROM THE FAR EAST

LONDON—An old-world caravan route, north from Peking, China, over mountains, past the ancient wall of China, across the 700 mile desert of Gobi and through the foothills of the eastern Altai Mountains or down the Selenga river to Verkhne-Udinsk is the only comparatively free way into Siberia and Russia from the Far East. It is the route taken by an Associated Press correspondent in a recent trip across Russia.

Although involving great difficulties in travel, the cross-country trip is to be preferred to the Trans-Siberian railway, none through northeastern Manchuria for there factional strife between Russian forces—Cossacks, peasant revolutionists, freebooters and bandit chiefs—has kept the country in a state of constant unrest since the comparatively orderly state of affairs which ended with Admiral Kolchak's complete downfall during the fall of 1919.

By Train to Kalgan.

From Peking the traveler may go by train to Kalgan, 100 miles northwest of the Chinese capital, Kalgan is the great trading mart of north China. There the camel caravans from Arga, across the Great Gobi desert, discharge their loads of wool and furs from the north, and reload with tea for the nomadic desert tribes of Mongolia and for Siberia. Before the decline of trade with Russia, camel caravans numbered thousands, in fact, and crossed weekly for the month trip across the desert. Caravans numbering several hundreds of camels in each column to make the trip. In crossing the desert the traveler passes several of these slowly moving caravans daily.

But 20th century commercial progress and American business methods have entered into competition with the camel carriers across the desert. In 1917 an American business man in Kalgan drove a small American automobile up the steep Kalgan pass to the level of the Mongolian plateau, across the Gobi desert, and into the sacred Buddhist city of Urga. Shortly afterward regular communication by automobile was established across the desert.

Today automobiles owned by business establishments and by the Chinese government make the trip from Kalgan to the Mongolian capital in from

## FACTORY BRANCH OF THE STUDEBAKER COMPANY IS ESTABLISHED AT DALLAS

An announcement of importance to Studebaker owners in this vicinity has been made by F. D. Keim, local distributor of the Studebaker machine, relative to the establishment of a factory branch of the Studebaker company in Dallas.

Heretofore the agency for this car has been handled in Texas by the F. L. Shaw company of Dallas, this state agency dealing with the main factory directly and then allowing the cars to sub-dealers throughout the state. However, with the death a short time ago of Mr. Shaw, manager of the company, the Dallas firm has been taken over by the Studebaker and a factory branch has now been established which will handle as complete a line of cars and parts as the factory itself.

The establishment of this branch will assure the local dealer with "what he wants when he wants it" and will mean even better service than has been supplied in the past. With the state agency it was necessary for an order from this city to go first to the Dallas house and from there to the main factory, but with the present arrangement the branch office will carry all of the parts and accessories which are made by the

Studebaker company, thereby making it necessary to deal only with the one concern.

Mr. Keim was in Dallas the latter part of last week attending to details connected with the new arrangement so far as the local agency is concerned and is enthusiastic over the prospects of increased efficiency and better service which will be possible with the new factory branch so close at hand.

**On Good Roads and Bad Roads**

There Is Practical Economy in the "Caterpillar" Tractor

On good roads the tonnage is increased and is moved easily and rapidly; on bad roads a fair tonnage is easily moved by the "Caterpillar" when all other means of transportation prove expensive and difficult if not impossible

In County Road Work many tractors have fallen short in efficiency, but the "Caterpillar" has met every demand.

See us for Mobiloil "B" and other extra heavy tractor oils and genuine Swede Steel Chains.

**HOLT**  
FLORIDA, STOCKTON

**"CATERPILLAR" TRACTORS** REG. U.S. PAT. OFF.

In road grading, the "Caterpillar" Tractor, pulling two graders, will grade the average road in one round trip—giving all its drawbar horsepower at three miles per hour, more than twice the speed of horses.

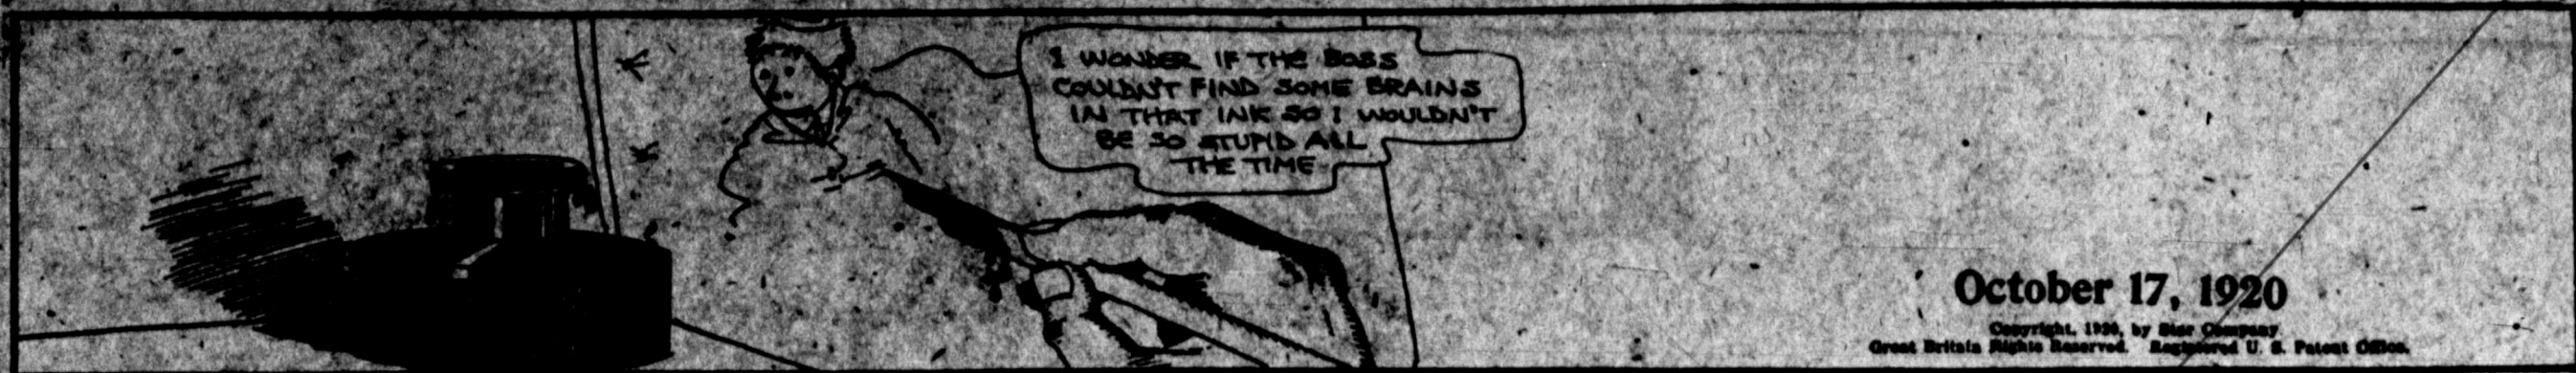

Contractors are reminded that rough ground is no obstacle to the "Caterpillar" Tractor—ditches, swags, sloughs and bogs are "pie" for the "Caterpillar."

The Holt "Caterpillar" Tractor is practical and comparatively inexpensive. Many contractors and producers in the Wichita oil district are using the "Caterpillar" Tractor in preference to any other tractor. We will be glad to show you on your lease or contract what it will do—and convince you that it will save you much worry, time and expense.

Write or wire us for particulars.
